Treasury Financing Operations

August Certificate Refunding

On August 3, 1953, the Secretary of the Treasury announced the offering on August 5 of an issue of one-year 2-5/8 percent certificates of indebtedness. The new certificates were offered to holders of the 2 percent certificates of indebtedness, Series C-1953, which mature August 15, 1953, in the amount of \$2,882 million. Details of the financing were to be announced later.

Treasury 91-Day Bills Again Increased

New issues of 91-day Treasury bills in July totaled \$7.5 billion. The maturing issues of \$7.0 billion were refunded and additional new money of \$500 million was borrowed. The cash was raised in the first three offerings, and as of July 16 new money totaling \$2.2 billion had been supplied by weekly bill issues since the initial increase this year on April 23. Each new issue in July amounted to \$1.5 billion. The issue of July 2 exceeded the maturity by \$300 million, and the issues of July 9 and 16 exceeded the maturities by \$100 million each. Average rates of discount on the new issues were 2.106 percent for July 2, 2.007 percent for July 9, 2.106 percent for July 16, 2.127 percent for July 23, and 2.157 percent for July 30.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin", in the tables on "Offerings" and "Disposition", respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills".

Source: Actual figures from Daily Treasury Statement; estimates based on 1954 Budget document, released January 9, 1953. In the President's tax message to Congress on May 20, 1953, total budget expenditures in 1954 were estimated at \$74.1 billion (see page 1). Expenditure classifications shown here differ somewhat from those in the Budget.

^{1/} For further detail, see tables under "Internal Revenue Collections".

^{2/} Under Current Tax Payment Act of 1943, as amended (26 U.S.C.

1521-1528). Fiscal year 1953 and monthly figures include old-age insurance taxes on employers and employees, because these taxes are not separable currently from income tax withheld. Prior fiscal year figures exclude old-age insurance taxes, on the basis of estimates beginning 1951. For further explanation, see footnote 7.

^{3/} Corporation income and profits taxes and individual income tax not withheld. Fiscal year 1953 and monthly figures include old-age insurance tax on self-employment income, because this tax is not

separable currently from income tax not withheld. Prior fiscal year figures exclude old-age insurance tax, on the basis of estimates beginning 1952. For further explanation, see footnote 7.

^{4/} Partially estimated beginning January 1951 (see footnote 7). Fiscal year 1953 and monthly figures will not add to this total (see footnotes 2 and 3).

^{5/} Consists of receipts for old-age insurance, unemployment insurance, and railroad retirement; for further detail, see Tables 7 and 8. Beginning January 1951, receipts for old-age insurance are estimated as explained in footnote 7. Railroad unemployment insurance contributions for administrative expenses are included in "Other receipts".

^{6/} Includes proceeds from sale of surplus property and from Government-owned securities; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and repayments on credit to United Kingdom (see Table 4).

1/ For basis of appropriations, see Table 7. Amounts appropriated are equivalent to the amounts of taxes collected and deposited for old-age insurance. The Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Effective January 1, 1951, the old-age insurance taxes on employer and employee and the withheld income tax are paid into the Treasury in combined amounts without separation as to type of tax. The old-age insurance tax on self-employment income, imposed by Public Law 734, is levied and collected as part of the individual income tax, beginning with the taxable year 1951. Beginning January 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social

Security Administration. For purposes of this table, the amounts credited to the trust fund beginning January 1951 are considered to represent estimated receipts of old-age insurance taxes for corresponding periods. Accordingly, these amounts are included under employment taxes and excluded from total income and profit taxes as shown.

Throughout the calendar year 1951, the same amounts were deducted from the combined taxes paid in by employee, and the balance was shown as income tax withheld. Beginning January 1952, the tax on self-employment income is allowed for in the amounts credited to the trust fund, but no breakdown between the two types of old-age insurance taxes is available monthly. Estimates of the breakdown are made on a fiscal year basis beginning 1952 but are not yet available for 1953. Figures for June 1953 include adjustments by increase in amounts transferred as appropriations as follows: \$93 million based on records of self-employment income for calendar year 1951 and \$39 million based on records of wages earned in the quarters ended September 30 and December 31, 1952.

8/ Interest on refunds is included in Table 5 under "Miscellaneous".

1/ Fiscal year ending June 30 of year indicated.

2/ Gross receipts less appropriations to Federal Old-Age and Survivors Insurance Trust Fund and refunds of receipts.

3/ Expenditures are "net" after allowance for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts, transactions of the Foreign Economic Cooperation Trust Fund, established under the Economic Cooperation Act of 1948 (52 Stat. 150), and transactions of wholly owned Government corporations and agencies. Beginning November 1950, investments by these corporations and agencies

in public debt securities are excluded from budget expenditures and included with other such investments under "Trust Account and Other Transactions". Corresponding adjustments were made in November 1950 and January 1951 for net investments classified as budget expenditures in the period July through October. Budget expenditures exclude also amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on capital transfers and the Foreign Economic Cooperation Trust Fund may be found in the 1952 Annual Report of the Secretary of the Treasury, pages 512 and 513.

1/ Excess of expenditures is covered by appropriations by Congress.

2/ Taxes on employers and employees under the Federal Insurance Contributions Act and later amendments (26 U.S.C. 1400-1432); and tax on self-employment income under the Social Security Act Amendments of 1950 (26 U.S.C. 480-482). The tax on self-employment income is levied and collected as part of the individual income tax beginning with the taxable year 1951. Beginning January 1951, the receipts shown here are based on estimates (see footnote 4).

3/ Tax on employers of 8 or more under the Federal Unemployment Tax Act and later amendments (26 U.S.C. 1600-1611). Figures exclude certain credits not to exceed 30 percent of the total tax which are allowed with respect to contributions by the taxpayer to a State fund under a State unemployment compensation law.

4/ Appropriation to the Federal Old-Age and Survivors Insurance Trust Fund equivalent to the amount of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)); see also footnote 2). The Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Effective January 1, 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury, and are adjusted in later transfers on the basis of wage and self-employment income

records maintained in the Social Security Administration. For purpose of this table, beginning January 1951, the same amount as is credited each month to the trust fund is shown as estimated current tax receipts for old-age insurance.

5/ Interest on refunds is included under "Administrative expenses". Includes expenditures from appropriations made specifically for administrative expenses relating to the Social Security Act, as amended; administrative expenses reimbursed to the General Fund of the Treasury under Section 201 (r) of the Social Security Act, as amended; administrative expenses under the Wagner-Peyser Act of 1933, as amended (29 U.S.C. 494); and interest on refunds of social security taxes.

1/ Aid to permanently and totally disabled (Title XIV) as added by Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950.

2/ For unemployment insurance and maintenance of public employment offices; includes expenditures made directly by the Federal Government beginning January 1942 for maintenance of employment offices, and expenditures of the U. S. Employment Service for the period December 1942 through June 1948, when it was not in the Bureau of Employment Security.

3/ Total includes expenditures for grants to States, Public Health Service, as follows: 1945, \$10.7 million; and 1946, \$2.2 million. After 1946 expenditures were made under provisions of the Public Health Service Act of 1944 (58 Stat. 622).

* Less than \$50,000.

Source: Actual figures based on Daily Treasury Statement; estimates

revised estimates of total budget receipts and expenditures in 1954 as presented in the President's tax message to Congress on May 20, 1953, see page 1.

1/ The U. S. subscription to the capital of the International Monetary Fund was paid in part from the Exchange Stabilization Fund (see "Treasury Bulletin" for September 1947, page 17).

2/ Consists of seigniorage on silver and increment resulting from reduction in weight of the gold dollar. This item is part of the

cash budget receipts shown in these tables, but is excluded from the budget figures for "Receipts from the public".

3/ In addition to this decrease in the General Fund balance, the Exchange Stabilization Fund was drawn down by \$1,800 million for subscription to the capital of the International Monetary Fund.

4/ In the President's tax message to Congress on May 20, 1953, the cash deficit for 1954 (cash operating outgo less net receipts from the exercise of monetary authority) was estimated at \$3.3 billion on the basis of existing tax laws (see page 1).

¹ Obligations, issued by certain Government corporations and other agencies, which are guaranteed by the United States as to both principal and interest.

Such obligations were first authorized in 1932. Prior to September 1939, the figures represent principal shown as a contingent liability of the United States; beginning September 1939, they represent principal outstanding, both matured and unmatured. Guaranteed securities held by the Treasury are excluded.

STATUTORY DEBT LIMITATION

The Second Liberty Bond Act, as amended, (31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the

aggregate \$275 billion outstanding at any one time. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principle ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income

bond, Series H, similar in interest return to Series E, was offered beginning June 1. For details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. In the tables which follow, Series A-F and J sales are shown at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are shown at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued as follows: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; Savings Series A from May 15, 1951, through May 14, 1953; and Savings Series B beginning on May 15, 1953.

Details concerning terms and conditions for purchase and redemption and information on investment yields of Savings Series B appear in the June 1953 issue of the "Treasury Bulletin", page A-1. Similar information with

respect to the offering of the earlier series was published currently in the "Treasury Bulletin", and appears also in the "Annual Report of the Secretary of the Treasury" for appropriate years.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

^{1/} Tax Anticipation Series.^{2/} Amount issued on July 2, 1953, was \$1,500 million.^{3/} On yield basis only since first quoted August 4, 1952.^{4/} Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.^{5/} Not called for redemption on March 15, 1953. Will mature on September 15, 1953.^{6/} Not called for redemption on June 15, 1953. Callable on four months' notice on December 15, 1953.^{7/} Yield to maturity. Market convention treats the yield to earliest call date as more significant when an issue is selling above par; the yield to maturity as more significant when an issue is selling at or below par.^{8/} Included in the average of taxable Treasury bonds, due or callable from 12 to 20 years beginning April 15, 1953, as shown under "Average Yields of Long-Term Bonds".^{9/} First quoted April 15, 1953. This issue is listed under a new long-term taxable Treasury bond class due or callable 20 years and after as shown under "Average Yields of Long-Term Bonds".^{10/} For definition, see "Debt Outstanding," Table 3, footnote 1.^{11/} All partially tax-exempt.

MARKET QUOTATIONS ON TREASURY SECURITIES, JUNE 30, 1953

YIELDS OF TAXABLE TREASURY SECURITIES, JUNE 30, 1953 Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

1/ Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of the mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin".

2/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; December 1953 through March 1952, bonds neither due nor callable for 15 years. For a discussion of the

composition of these Treasury bond averages, see the "Treasury Bulletin" for March 1944, page 50.

3/ Moody's Investors Service average of Aaa corporate bonds. This series supersedes the Treasury average of high-grade corporate bonds previously shown in this table, which was discontinued after March 1953.

4/ The long-term taxable Treasury bond average was revised beginning April 1, 1952, see footnote 2. The old average for April 1952 was 2.62 percent.

Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositories; they do not coincide with amounts reported by the Bureau because the law (deposited for collections and because certain taxes are paid directly into the depositories).

^{1/} Excludes collections for credit to certain trust accounts for island possessions; includes corporation income tax on Alaska Railroad (repealed by Public Law 56, approved June 10, 1950, for taxable years ending after that date).

^{2/} Includes excess profits taxes formerly shown separately as follows: unmet enrichment through 1947 (thereafter these collections are included under "Miscellaneous taxes"); declared value in deposits for years ending after June 30, 1946; Excess Profits Tax Act of 1940 (Title II of the Second Revenue Act of 1940, which was repealed for

years ending after December 31, 1945). Includes also excess profits taxes on Army and Navy contracts under the Vinson Act as amended (44 U.S.C. 496) and income tax on business income of exempt organizations, imposed by the Revenue Act of 1951, approved October 20, 1951. Monthly and fiscal year 1953 figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures prior to 1953 exclude this tax, on the basis of estimates beginning 1952, and it is included under "Old-age insurance taxes".

^{3/} The estimate for 1953 is not yet available.

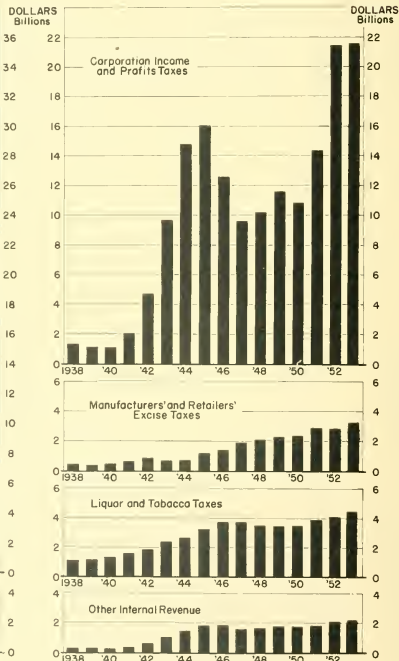

^{4/} Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951, so that current collections are not separable as to type of tax. The breakdown is estimated for fiscal years beginning 1951, but the estimate for 1953 is not yet available.

^{5/} Repealed for years ending after June 30, 1945. Beginning July 1950, included under "Miscellaneous taxes".

CAPITAL MOVEMENTS

Data relating to claims on foreigners and liabilities to foreigners, and capital movements between the United States and foreign countries, have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, and Treasury regulations thereunder. Information covering the principal types of data and the principal countries is reported each month by banks and bankers and securities brokers and dealers in the United States. This information is published regularly in the "Treasury Bulletin". Supplementary information is published at less frequent intervals. All reports are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury.

The term "foreigners" as used in these reports covers all institutions and individuals (including United States citizens) domiciled outside the United States, as well as international organizations, wherever domiciled, created by treaty or convention between sovereign states. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, basis of reporting, and derivation of capital movements figures appeared in the April 1950 issue of the "Treasury Bulletin", pages 50-52. Revised report forms and regulations became effective with

the data for January 1950. Attention is called to the fact that although the grand total figures on the revised reporting basis are reasonably comparable with those for preceding months, data for individual countries in some instances are not comparable because of certain changes in coverage and geographical classification.

The supplementary information, contained in Section IV, is presented in three tables appearing at different times. Table 1 gives data by countries on short-term claims on and liabilities to foreigners as reported quarterly by exporters, importers, and industrial and commercial concerns in the United States. This information was published for the first time in the October 1949 issue of the "Treasury Bulletin" and begins with data for September 30, 1946. Table 2 supplies information by countries on long-term claims on and liabilities to foreigners as reported by banks and bankers in the United States. This table appeared for the first time in the December 1949 issue. Data are for the end of the calendar year beginning with 1942. Table 3 gives information on short-term liabilities to countries not regularly reported separately by banks and bankers. This table appeared for the first time in the April 1950 issue. The data have been requested at irregular intervals, the earliest date being October 1943.
