[^0]Terms of the offerings are sumazized in the following paragraphe.

Holders of the maturing certilicates and notes were offered the choice of the new certificates or the new bonds. Holoers of the thres bond issues were given an opportunity to exchange their holdinge for the new bonds only, and the announcsment stated that the Treasury would 1 saue call for redemption on June 15, 1954, of the two bond 1ssues callable on that date. Cash subscriptions to the two new lasues were not received.

The new bonds, designated $2-1 / 2$ percent Treasury bonds of 1961, were exchanged for any of the five listed securities tendered singly or in combinations aggregating $\$ 500$ or multiples thereof. Exchanges
were made par for par in the case of the maturing certificater and at par with an adjustment of interest as of February 15, 1954, in the case of the other 1sвues eligible for exchange. Bonds of the new 18sue are dated February 15,1954 , and bear interest from that date at the rate of $2-1 / 2$ percent per annum, payable on a semiannual basis on November 15, 1954, and thereafter on May 15 and on November 15 in each year until the principal amount becomes payable at their maturity on November 15 , 1961. They were issued both in bearer and registered form, in denominations of $\$ 500, \$ 1,000, \$ 5,000$, $\$ 10,000, \$ 100,000$, and $\$ 1,000,000$.

The new certificates, designated $1-5 / 8$ percent Treasury certificates of indebteäness of Series A-1955, were exchanged for the $2-1 / 4$ percent certificates of

Series A-1954 maturing February 15 or for the $1-3 / 8$ percent notes maturing March 15. Exchanges were made par for par in the case of the maturing certificates and at par with an adjustment of interest as of February 15, 1954, in the case of the maturing notes. Certificstes of the new 18 sue are dated February 15 , 1954, and bear interest from trat date at the rate of $1-5 / 8$ percent per anrum, payable at their maturity on February 15. 1955. They were 1s8uec in besrer form only, in dencminations of $\$ 1,000, \$ 5,000, \$ 10,000$, $\$ 100,000$, anc $\$ 1,000,000$. Any premium paid on the acouisition of these certificates in the maricet may be amortizea in accordance with Section 125 of the Internal Revenue Code.

It ras statec also in the announcemert of January 27 that while the amourt of the public debt outstancing in rclation to the statutory ilmit of \#275 b11:10n nrecludec the sale of a longer term
bond for cash at that time, consideration was being given to such an offering at a later date.

Other Treasury Bonds Callable on June 15, 1954
In addition to the announcement conoerning the calls of the two bond issues eligible for refunding, the January 27 announcement stated that the option to call the 2 percent bonds of 1951-55 and the 2 percent bonds of 1952-54 (due December 15, 1954) for redemption on June 15, 1954, would not be exercised.

Treasury 91-Day B111日 Refunded
Weekly maturities of 91-cay Treasury bllis in January totaled $\$ 6.0$ blllion. They were refunded in full in four equivalent 1 ssues of $\$ 1.5$ billion each. The average rates of discount on the new issues were 1.314 percent for January 7 ; 1.336 percent for January 14; 1.208 percent for January 21; anत 0.998 percent for January 23.

e 4.- Disposition of Matured Marketable lssues of Treasury Bonds, Notes, and Certificates of Indebtedness

Unitad States savinga bonda were firat offered in March 1935 and began to mature in March 1945. Seriea A-D were aold between March 1935 and the end of Apr11 1941, and Series $E, F$, and $G$ were firat offered in May 1941. When Seriea E began to mature on May 1, 1951, ownera of tha matured bonda were offered three optiona: To redeem the bonds in caah in accordance with the original terma; to retain them with an extanded maturity of 10 yeara at apecifled ratea of interest accrual; or to axchange tham for Serlas $G$ bonda. A number of changea became effective May 1, 1952. The principal ones were: The rate of interest accrual on Seriea $E$ was incrasasd, eapecially for the near term, with correaponding changes in extendad Serles $E$; and Series $F$ and $G$ were replaced by two new 1eauea, Series $J$ and $K$, alao at higher intereat rates. A new new current-income bond, Seriea $H$, aimilar in interest return to Seriea $E$. was offered beginning June 1. For
datalla of these changaa see "Treaaury Bulletin" for May 1952, page $A-1$. Series $F$ and $G$ began to mature on May 1, 1953. For the exchange offering made to holders of theae bonda maturing through December 31, 1953, aee the May 1953 1asue, paga A-1. The Treaaury invited holdara of Seriea $F$ and $G$ which began to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series $A-F$ and $J$ aalea are inoluded at iaaue price and total redamptions and amounta outstanding at ourrent rademption values. Saries G , $H$, and $X$ are included at face value throughout. Matured bonds whioh have been redesmed are included in redemptions. Matured $F$ and $G$ bonda outatanding are included in the intereat-bearing debt until all bonds of the annual aeries have matured, whan they are transferred to matured debt upon which interest has ceased.

Data relating to claime on forelgners and llabillties to foreigners, and capital movements batween the United States and foreign countries, have been collected eince 1935, pursuant to Executive Order 6560 of January 15, 1934, and Treasury regulatione thereunder. Information covering the principal types of data and the principal countries is reported each month by banks and bankers and securities brokers and dealers in the United States. This information is published regularly in the "Treasury Bulletin". Supplementary information is published at lesa prequent intervals. All repcrta are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury.

The term "foreigners" as used in these reports covers all institutions and individuals (including United Statea citizens) domiolled outelde the United State日, as well as international organizstions, wherever domiciled, created by treaty or convention between eovereign states. "Short-term" refers to original maturities of one year or lese, and "long-term" refers to all other maturities. A detalled disouseion of the reporting coverags, basis of reporting, and derivation of capital movements figures appeared in the April 1950 isaue of the "Treasury Bulletin", pages 50-52. Revised report forms and regulations became affective with
the data for January 1950. Attention is called to the fact that although the grand total figures on the revised reporting basia are reasonably comparabls with those for preceding monthe, data for individual countries in some inatances are not comparable because of cartain changes in coverage and geographical olasalifcation.

The supplementary information, contained in Section IV, is presented in three tables appearing at different times. Table l gives data by countrise on ehort-term clalme on and liabilltiee to foreigners as reported quarterly by exporters, importere, and industrial and commercial concerne in the United states. This information was published for the first time in the October 1949 iesue of the "Treasury Bulletin" and begine with data for September 30,1946 . Table 2 supplies information by oountries on long-term claime on and llabilities to forelgnere as reported by banks and bankers in the United States. This table appeared for the firat time in the Decamber 1949 issue. Data are for the end of the calendar year baginning with 1942. Table 3 gives information on ohort-term llabilities to countries not regularly reported separately by banks and bankers. This table appeared for the firat time in the April 1950 issue. The data have been requested at irregular intervale, the earliest date being October 1943.
