Treasury Financing Operations

Results of August Refunding

Exchanges for the new 1-1/8 percent certificates of indebtedness, Series D-1955, and the new 2-1/8 percent bonds of 1960 totaled close to \$7.4 billion, approximately 98 percent of the two issues of 2-5/8 percent certificates maturing in August and September. Terms of the exchange offering were described in the August issue of the "Treasury Bulletin". The results of the refinancing are summarized in the table which follows.

Treasury Bills Refunded

Four issues of 91-day Treasury bills matured in August and were refunded. Maturities and new issues totaled \$6.0 billion of \$1.5 billion each. Average rates of discount on the new issues were 0.797 percent for August 5; 0.892 percent for August 12; 0.898 percent for August 19; and 0.983 percent for August 26. The new issues consisted of two 91-day maturities dated August 5 and 19 and two 92-day maturities dated August 12 and August 26.

Call Prior to Maturity

On August 12, 1954, the Treasury Department issued notice that the 2 percent Treasury bonds of 1951-55, dated December 15, 1941, due December 15, 1955, are called for redemption on December 15, 1954, on which date interest on such bonds will cease.

The announcement stated that holders may, in advance of the redemption date, be offered the privilege of exchanging all or any part of their called bonds for other interest-bearing obligations of the United States, in which event public notice will be given.

Statutory Limitation on the Debt

Public Law 686, 83d Congress, approved August 28, 1954 (68 Stat. 895), established as of that date until July 1, 1955, a temporary increase of \$6 billion in the limitation on the outstanding public debt. The new law raises the maximum to \$281 billion, but effective July 1, 1955, lowers it to \$275 billion, the limit in effect since June 26, 1946. As of July 31, 1954, the debt subject to the limitation amounted to \$270.5 billion. (For application of the limitation as of July 31, see page 15.) Earlier, statutory limitations on the debt outstanding are summarized in the "Annual Report of the Secretary of the Treasury" for 1953, in a table on page 383.

Note: Details of Treasury marketing financing operations are shown elsewhere in this issue of the "Treasury Bulletin", in the tables on "Offerings" and "Dis-

position", respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills".

Source: Actual figures are from the old Daily Treasury Statement through the calendar year 1953 except as noted; actual figures on the new reporting basis (see footnote 6) are from the new Daily Treasury Statement and the new Monthly Statement of Receipts and Expenditures of the United States Government; estimates are based on the "Review of the 1955 Budget", released September 14, 1954. More detailed information with respect to the figures on this page is given in succeeding tables.

- 1/ Gross receipts less appropriations to the Federal Old-Age and Survivors Insurance Trust Fund and the Railroad Retirement Account, and refunds of receipts.
- 2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 114 (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures.
- 3/ Consists of transactions of trust and deposit funds, investments of Government agencies in public debt securities, and sales and redemptions of obligations of Government agencies in the market; excess of receipts, or expenditures (-).
- 4/ For checks and interest coupons outstanding and telegraphic reports from Federal Reserve Banks, and beginning with the fiscal year 1954, also deposits in transit and cash held outside the Treasury; net increase, or decrease (-).

- 5/ For current month detail, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: March 28, 1942, \$125 billion; April 11, 1943, \$210 billion; June 9, 1944, \$260 billion; April 3, 1945, \$300 billion; and June 26, 1946, \$275 billion. Guaranteed securities are included under the limitation beginning April 3, 1945. Savings bonds are included at current redemption value beginning June 26, 1946; prior to that time they were included at maturity value. In the debt outstanding, savings bonds are carried at current redemption value.
- 6/ New reporting basis as announced February 17, 1954 (see April 1954 "Treasury Bulletin", page A-2). The new Daily Treasury Statement shows cash deposits and withdrawals in the account of the Treasurer of the United States. The new Monthly Statement includes agency transactions not cleared through the Treasurer's account, and shows receipts when they are received by collecting officers and expenditures when checks are issued or payments are made by disbursing officers. Figures for July 1953 through January 1954 will be shown by months in a subsequent issue, after analysis of the monthly data on the new basis has been completed.

Footnote 11 on page 4 and remainder on page 5.

8/ Includes proceeds from sale of surplus property and from Government-owned securities; seigniorage; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and railroad unemployment insurance contributions for administrative expenses through 1953, after which they are carried as trust account receipts under the Railroad Retirement Board.

9/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). The Social Security Act Amendments of 1950, approved August 28, 1950 (64 Stat. 477), changed in certain respects the basis of transferring the appropriated funds to the trust fund. Beginning January 1951, the amounts trans-

ferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 109 (a)(2) of the Amendments of 1950, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration.

10/ Excludes the Government's contribution for creditable military service under the act of April 8, 1942 (56 Stat. 204). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.

BUDGET RECEIPTS AND EXPENDITURES

Footnotes for Tables 1 through 5 - (Continued)

- 12/ Expenditures are "net", after allowance for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts. They exclude net investments of wholly owned Government corporations and agencies in public debt securities beginning 1951 (when these investments were grouped with those of trust funds and accounts), and public debt retirements chargeable to the sinking fund, etc., under special provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on these capital transfers may be found in the 1953 Annual Report of the Secretary of the Treasury, page 332.
- 13/ Beginning November 1949, interest on the public debt is reported as an expenditure when such interest becomes due and payable, as distinguished from the previous practice of showing the expenditure on the basis of interest paid by the Treasurer of the United States.
- 14/ Consists of Veterans' Administration expenditures, including the direct loan program.
- 15/ Includes transactions relating to the Foreign Economic Cooperation Trust Fund (see page 1).
- 16/ Net transactions by the Departments of the Air Force and the Army relating to "Deposit fund accounts" are included under "Trust Account and Other Transactions" instead of "Budget Receipts and Expenditures" beginning 1952.
- 17/ Includes interest on refunds of taxes and on uninvested trust funds, for which separate estimates are not available.
- 18/ Includes retired pay for the military services beginning September 1949.
- 19/ Excludes certain expenditures made on behalf of the Department of the Air Force out of appropriations to the Department of the Army.
- 20/ Includes certain expenditures on behalf of the Department of the Air Force (see footnote 19).
- 21/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, approved October 10, 1951 (22 U.S.C. 1651), and the preceding Economic Cooperation Act; and Greek-Turkish assistance.
- 22/ Consists of expenditures of the Atomic Energy Commission.
- 23/ Consists of payments under the Armed Forces Leave Act, expenditures for surplus property disposal, and in 1947 also national defense expenditures of the Reconstruction Finance Corporation and certain other agencies.
- 24/ Excludes Bank expenditures under the Mutual Security Act and the preceding Economic Cooperation Act of 1948, as amended.
- 25/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, and the preceding Economic Cooperation Act.
- 26/ Consists of expenditures under the Bretton Woods Agreements Act (1947); credit to the United Kingdom (1947 and 1948); expenditures of the United Nations Relief and Rehabilitation Administration; relief to countries devastated by war; various other foreign relief programs; international children's emergency funds; and loan for construction and furnishing of United Nations Headquarters.
- 27/ Expenditures for this purpose by the Department of State are included under "Department of State" in this table; expenditures by other agencies, no longer shown separately in monthly reports to the Treasury, are not included in this table.
- 28/ Consists of expenditures of the Department of Health, Education, and Welfare except the Office of Education, and of the corresponding component organizations prior to the establishment of this department on April 11, 1953; the Government's contribution under the Railroad Retirement Act for creditable military service and certain other Railroad Retirement Board expenditures through 1953; and also, beginning 1950, the school lunch program under the Department of Agriculture.
- 29/ Consists of expenditures of the Housing and Home Finance Agency, and of component organizations prior to the establishment of this agency on July 27, 1947; Federal Civil Defense Administration; and disaster relief.
- 30/ Consists of expenditures of the Department of Agriculture except the Forest Service and the school lunch program; and of the Farm Credit Administration.
- 31/ Consists of expenditures of the Department of the Interior; the Tennessee Valley Authority; the Corps of Engineers in the Department of the Army (river and harbor works and flood control); and the Forest Service in the Department of Agriculture.
- 32/ Consists of expenditures of the Civil Aeronautics Administration, Civil Aeronautics Board, Maritime activities and predecessor agencies, and Bureau of Public Roads, all now in the Department of Commerce; the Coast Guard in the Treasury Department; and the Postal Service Fund (advances to cover the postal deficit) in the Post Office Department.
- 33/ Consists of expenditures of the Department of Commerce except those included under "Transportation and communication"; the Reconstruction Finance Corporation; the Small Business Administration; the Economic Stabilization Agency; and funds appropriated to the President for the promotion of defense production.
- 34/ Includes expenditures for executive departments and other agencies not included elsewhere and for legislative and judicial functions. The National Advisory Committee for Aeronautics, formerly included in Table 3, is now included here instead of under "Transportation and communication" in Table 5 because expenditures are no longer shown separately in monthly reports to the Treasury.

TREASURY CASH INCOME AND OUTGO

The cash income and outgo of the Treasury shown in Table 1 consist of cash deposits and withdrawals in the account of the Treasurer of the United States. This is in line with the new reporting basis of the "Daily Statement of the United States Treasury". Effective February 17, 1954, the Daily Treasury Statement shows deposits and withdrawals in the account of the Treasurer of the United States. Budget results and trust account and other transactions are now reported once each month in the "Monthly Statement of Receipts and Expenditures of the United States Government" (see page A-2 in the April 1954 issue of the "Treasury Bulletin").

Figures for previous fiscal years heretofore published have been revised to the basis of deposits and withdrawals by eliminating corporation and agency transactions included in the old Daily Statement but not cleared through the Treasurer's account. The cash borrowing or repayment of borrowing as now shown is likewise based only on transactions cleared through the Treasurer's account.

In Tables 2, 3, and 4 is given the reconciliation of the cash transactions with the budget and other transactions which formerly appeared in the old Daily Statement and now appear in the new Monthly Statement. These tables

follow the method used previously for deriving cash income and outgo from the transactions carried in the old Daily Statement. Some rearrangement has been made in the table setup, principally to combine all receipts and all expenditures instead of deriving separately the cash budget and trust account transactions.

Reporting bases for the two statements differ in two respects. Certain corporation and agency transactions in securities which are not effected through the account of the Treasurer of the United States are included in the Monthly Statement but excluded from the Daily Statement. These are eliminated from the Monthly Statement figures in arriving at the cash transactions shown in the tables which follow. Other differences arise because of the differences in timing, as between checks issued (Monthly Statement) and checks paid (Daily Statement) for expenditures or between collections (Monthly Statement) and clearances (Daily Statement) for receipts. Thus an individual transaction near the end of a month may be included during that month in one statement but not until the following month in the other. These differences tend to correct themselves over a period of time, but for a given reporting date it is necessary to include an adjustment figure to cover them.

Source: Actual figures in Tables 1 through 4 are based on the old Daily Treasury Statement through 1953, and thereafter on the new "Daily Statement of the United States Treasury" and the new "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the "Review of the 1955 Budget" released September 14, 1954.

^{1/} Consists of seigniorage on silver and increment resulting from reduction in weight of the gold dollar. This item is part of the cash budget receipts shown in these tables, but is excluded from the Bureau

of the Budget figures for "Receipts from the public".

^{2/} In addition to this decrease in the balance in the Treasurer's account, the Exchange Stabilization Fund was drawn down by the \$1,800 million for subscription to the capital of the International Monetary Fund.

^{3/} For explanation, see headnote. Figures for July 1953 through January 1954 will be shown by month in a subsequent issue, after analysis of the monthly data on the new basis has been completed.

- 8/ For explanation, see footnote. Excess of expenditures on Monthly Statement basis is deducted.
- 9/ As shown in the "Monthly Statement of Receipts and Expenditures of the United States Government"; consists of changes in checks and interest coupons outstanding and telegraphic reports from Federal Reserve Banks, and beginning with the fiscal year 1954, also changes in deposits in transit and cash held outside the Treasury.
- 10/ Net investments of Government agencies in public debt securities and net redemptions of obligations of Government agencies in the market.
- 11/ Since deposit funds (net) are included under trust account expenditures, the interest received by corporations not wholly owned is carried there as a negative expenditure. Thus when budget expenditures and trust account expenditures are combined, the payment and receipt of this interest offset each other. Payment of interest to wholly owned Government corporations is offset because it is treated as a negative budget expenditure when received by the corporations.
- * Less than \$500,000.

^{1/} Original call and maturity dates are used.^{2/} All by investors other than Federal Reserve Banks.^{3/} These nonmarketable bonds, dated April 1, 1951, and maturing April 1, 1980, are exchangeable for 1-1/2% marketable Treasury notes; see Table 3, footnote 2. In the reopening, the Investment Series bonds were offered for cash subscriptions as well as exchange, and not less than one quarter of each subscription had to be paid in cash.^{4/} The 2% certificates maturing August 15, 1953, were reopened for the December 1, 1952, refunding (see Table 3).^{5/} The 2-1/2% bonds maturing December 15, 1958, were reopened for the December 1, 1953, refunding (see Table 3).^{6/} On November 9, 1953, the Treasury purchased from the Federal Reserve System and retired \$500 million of the 2-1/8% Treasury notes maturing December 1, 1953. For further details see "Treasury Bulletin" for November 1953, page A-1.^{7/} For details of exchange offering see Table 3, footnote 15. It had been announced that holders of these bonds would be given an opportunity to exchange them for another Treasury issue after February 15, 1954. This exchange offering was included in the refundings of May 17, 1954.^{8/} Preliminary.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For

details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. The Treasury invited holders of Series F and G which begin to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

- 1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin".
- 2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.
- 3/ Includes both matured and unmatured bonds; see Table 4.
- 4/ Because of a further change in procedure beginning June 1954 for processing redeemed savings bonds, the amount of redemptions not yet classified at the end of June and July as between matured and unmatured was larger

than normal. This situation will be adjusted during the next few months. Since the unclassified redemptions are included in these tables at issue price, the relation between issue price and accrued discount is somewhat distorted also.

- 5/ Sales began June 1, 1952.
- 6/ Comparable data are not available prior to January 1950.
- 7/ Includes redemptions not yet classified between matured and unmatured
- 8/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.
- * Less than \$500,000.

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued as follows: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; Savings Series A from May 15, 1951, through May 14, 1953; Savings Series B from May 15, 1953, through September 25, 1953; and a new Savings Series C from October 1, through October 23, 1953, when sale of these notes was suspended. Details concerning terms and conditions for purchase and redemption and information on investment yields of Savings Series C appear in the October 1953 issue of the "Treasury Bulletin", page A-1.

Similar information with respect to the offering of the earlier series was published currently in the "Treasury Bulletin", and appears also in the "Annual Report of the Secretary of the Treasury" for appropriate years.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.

2/ Excludes trust departments.

3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Formerly these banks were shown as a separate classification, but they are no longer so reported.

4/ Includes those banks and insurance companies not reporting in the Treasury Survey.

5/ Consists of corporate pension trust funds and profit sharing plans which involve retirement benefits. The data are compiled from quarterly reports by trustees of funds which account for an estimated three-fourths of United States Government securities held by all corporate pension trust funds. Since the data are not available each month, the regular monthly Survey includes holdings by these funds under "Held by all other investors". The quarterly data are presented as supplemental information in a memorandum column accompanying the Survey for each reporting date, beginning with December 31, 1953. The corresponding information from earlier reports, beginning with December 31, 1949, is summarized on page 30 of the March 1954 "Treasury Bulletin".

6/ United States savings bonds, Series E, F, and J, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.

7/ Holdings by reporting agencies not available.

8/ Excludes guaranteed securities held by the Treasury.

9/ Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Outstanding and Treasurer's Account", Table 2, footnote 1.

10/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

11/ Includes Federal Housing Administration debentures; see footnote 12.

12/ A small indeterminate amount of these debentures is partially tax-exempt.

13/ Includes \$111.5 million depository bonds held by commercial banks not included in the Treasury Survey.

14/ The proprietary interest of the United States in these banks ended in July 1951.

15/ Excludes issues completely held by Farm Credit Administration agencies. The proprietary interest of the United States in these banks ended in June 1947.

* Less than \$500,000.

TREASURY SURVEY - COMMERCIAL BANK OWNERSHIP, JUNE 30, 1954

The tables which follow provide an analysis of the security holdings of commercial banks reporting in the Treasury survey of ownership of securities issued by the United States Government and by Federal agencies. The figures show the total holdings distributed according to Federal Reserve member-bank classes and nonmember banks.

This analysis of commercial bank ownership was first published in the May 1944 issue of the "Treasury Bulletin", based on the survey data for December 31, 1943. It has appeared at semiannual or quarterly intervals since that time, and is now being published for the June 30 and December 31 survey data.

1/ Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of the mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin".

2/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952, bonds neither due nor callable for 15 years. For a discussion of the

composition of these Treasury bond averages, see the "Treasury Bulletin" for March 1944, page 58.

3/ Moody's Investors Service average of Aaa corporate bonds. This series supersedes the Treasury average of high-grade corporate bonds previously shown in this table, which was discontinued after March 1953.

4/ Average covers 8-1/2 months beginning April 15, the inception date of this series.

5/ The long-term taxable Treasury bond average was revised beginning April 1, 1952, see footnote 2. The old average for April 1952 was 2.62 percent.

Sources: Internal Revenue Service for collections by type of tax; Daily Treasury Statement for budget receipts from internal revenue through the fiscal year 1953, and the new "Monthly Statement of Receipts and Expenditures of the United States Government" for receipts thereafter. Certain detail by type of tax is available only in Internal Revenue Service reports. Differences in the amounts reported for a given period by the two sources arise because of differences in the timing of the reports. Under arrangements begun in 1950, certain taxes are paid currently into Treasury depositories, and the depository receipts, as evidence of payment, are attached to quarterly tax returns to the Internal Revenue Service. These deposits are included currently in Treasury reports of internal revenue receipts but are taken into the accounts of the Internal Revenue Service after the returns are filed.

^{1/} Excludes collections for credit to certain trust accounts for island possessions; includes corporation income tax on Alaska Railroad (repealed by Public Law 386, approved June 10, 1952, for taxable years ending after that date).

^{2/} Includes excess profits taxes formerly shown separately as follows: unjust enrichment through 1947 (thereafter these collections are included under "Miscellaneous taxes"); declared value (repealed for years ending after June 30, 1946); Excess Profits Tax Act of 1940 (Title II of the Second Revenue Act of 1940, which was repealed for years ending after December 31, 1945). Includes also excess profits

taxes on Army and Navy contracts under the Vinson Act as amended (34 U.S.C. 496), and income tax on business income of exempt organizations imposed by the Revenue Act of 1951, approved October 20, 1951.

^{3/} Monthly figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 4), and it is included under "Old-age insurance taxes".

^{4/} Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951. In Internal Revenue Service reports, current collections have not been separated as to type of tax but the breakdown for fiscal years beginning 1951 is based on estimates made in accordance with provisions of Sec. 109 (a) (2) of the Social Security Act Amendments of 1950, for appropriations to the Federal Old-Age and Survivors Insurance Trust Fund.

^{5/} New reporting basis beginning with the fiscal year 1954; for explanation, see page A-2 in the April 1954 "Treasury Bulletin". Figures for July 1953 through January 1954 will be published by months after analysis of the monthly data on the new basis has been completed.

^{6/} Repealed for years ending after June 30, 1945. Beginning 1951, included under "Miscellaneous taxes".

^{7/} See Table 2, footnote 5, regarding change to quarterly returns in the fiscal year 1954.

Differences in the amounts reported for a given period by the two sources arise because certain taxes are paid currently into Treasury depositories, and the depository receipts, as evidence of payment, are attached to quarterly returns to the Internal Revenue Service. These deposits are included currently in Treasury reports of internal revenue receipts but are taken into the accounts of the Internal Revenue Service after the returns are filed.

1/ Excludes collections for credit to certain trust accounts for island possessions; includes corporation income tax on Alaska Railroad (repealed by Public Law 346, approved June 10, 1952, for taxable years ending after that date).

2/ Includes excess profits taxes on Army and Navy contracts imposed by the Vinson Act as amended (34 U.S.C. 496), and income tax on business income of exempt organizations imposed by the Revenue Act of 1951, approved October 20, 1951.

3/ Includes old-age insurance tax on self-employment income, imposed by the Social Security Act Amendments of 1950 (Public Law 734), approved

August 28, 1950. The tax is levied and collected as part of the individual income tax beginning with the taxable year 1951. For estimated fiscal year breakdown, see Table 1.

- 4/ Beginning January 1951, withheld income tax and social security employment taxes on employers and employees are paid into the Treasury in combined amounts, pursuant to the Social Security Act Amendments of 1950. For estimated fiscal year breakdown, see Table 1.

CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin". Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin", pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries of the principal data

by periods and by countries and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data which appear at less frequent intervals. The five tables included in this section, under the revised presentation begun in the June 1954 issue of the Bulletin, and the dates of their publication are as follows:

Table 1.- Short-term foreign liabilities and claims reported by nonfinancial concerns - published quarterly beginning July 1954 - previously published October 1949 and 1950, July 1951, 1952, and 1953.

Table 2.- Long-term foreign liabilities and claims reported by banks and bankers - published quarterly beginning June 1954 - previously published December 1949 and 1950, June 1951, 1952, and 1953.

Table 3.- Estimated gold and short-term dollar resources of foreign countries - beginning June 1954, published quarterly.

Table 4.- Foreign credit and debit balances in brokerage accounts - published semiannually beginning September 1954 - published as part of regular monthly series through May 1954.

Table 5.- Short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions - published annually since April 1950.
