Treasury Financing Operations

Restrictions Lifted on Bank Ownership of Bonds

The Treasury Department announced on December 27, 1954, the removal, effective January 1, 1955, of the restrictions against bank ownership of the two issues of marketable securities outstanding not eligible for bank ownership. The two securities are the 2-1/2 percent Treasury bonds of 1967-72 issued June 1, 1945, in the Seventh War Loan and the 2-1/2 percent Treasury bonds of 1967-72 issued November 15, 1945, in the Victory Loan. The first is outstanding in the amount of \$1,888 million, and the second, in the amount of \$3,820 million. The removal of the restrictions, the announcement stated, will provide a broader market for these securities.

E and H Bonds Eligible for "Personal Trust Estates"

As announced also on December 27, the regulations governing Series E and H United States savings bonds were changed to permit their purchase by "personal trust estates," effective on January 1, 1955. Previously, sales of these series had been limited to individuals either as owners, coowners, or beneficiaries. "Personal trust estates" are defined in the amended regulations as trusts created by individuals, that is, natural persons in their own right, for the benefit of themselves or other such individuals and common trusts comprised in whole or in part of such trusts. The amended regulations extend to such trusts the same privilege of purchasing Series E and H bonds as was given previously only to individual owners.

The annual purchase limit of \$20,000 (maturity value) of each series which applies to individual owners applies also to a single trust estate, regardless of the number of beneficiaries. Only the Treasury Department and the Federal Reserve Banks and branches will issue Series E and H bonds to the trustees; other issuing agents will not issue such bonds to "personal trust estates." Banking institutions, however, generally may accept applications for transmittal to Federal Reserve Banks for the purchase of the bonds by such trusts.

The Treasury emphasized in the announcement that the change in the regulations does not include under its terms pension, annuity, profit sharing, and other similar trusts. Series J and K savings bonds are available for all these types of purchasers, with an annual limit of \$200,000 and interest at about 2-3/4 percent if held to maturity.

91-Day Bills Refunded

Treasury 91-day bills maturing in December were refunded in full in the total of \$7.5 billion. The five new issues amounted to \$1.5 billion each, the equivalent of the weekly maturities. The average rates of discount on the new issues were 1.029 percent for December 2; 1.087 percent for December 9; 1.247 percent for December 16; 1.333 percent for December 23; and 1.175 percent for December 30.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin," in the tables on "Offerings" and "Dis-

position," respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills."

Source: Actual figures are from the old Daily Treasury Statement through the calendar year 1953 except as noted; actual figures on the new reporting basis (see footnote 6) are from the new Daily Treasury Statement and the new "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the 1956 Budget document, released January 17, 1955, including effects of proposed legislation. More detailed information with respect to the figures on this page is given in succeeding tables.

- 1/ Gross receipts less appropriations to the Federal Old-Age and Survivors Insurance Trust Fund and the Railroad Retirement Account, and refunds of receipts.
- 2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 114 (f) of the Economic Cooperation Act of 1948 (66 Stat. 150), are consolidated with budget expenditures.
- 3/ Consists of transactions of trust and deposit funds, investments of Government agencies in public debt securities, and sales and redemptions of obligations of Government agencies in the market; excess of receipts, or expenditures (-).
- 4/ For checks and interest coupons outstanding and telegraphic reports from Federal Reserve Banks, and beginning with the fiscal year 1954, also deposits in transit and cash held outside the Treasury; net increase or decrease (-).

5/ For current month detail, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: March 28, 1942, \$125 billion; April 11, 1943, \$210 billion; June 9, 1944, \$260 billion; April 3, 1945, \$300 billion; June 26, 1946, \$275 billion; and August 28, 1954, \$281 billion; (temporary increase ending on June 30, 1955). Guaranteed securities are included under the limitation beginning April 3, 1945. Savings bonds are included at current redemption value beginning June 26, 1946; prior to that time they were included at maturity value. In the debt outstanding, savings bonds are carried at current redemption value.

6/ New reporting basis as announced February 17, 1954 (see April 1954 "Treasury Bulletin," page A-2). The new Daily Treasury Statement shows cash deposits and withdrawals in the account of the Treasurer of the United States. The new Monthly Statement includes agency transactions not cleared through the Treasurer's account, and shows receipts when they are received by collecting officers and expenditures when checks are issued or payments are made by disbursing officers.

Footnotes to Tables 1 through 5

- 1/ For further detail, see tables under "Internal Revenue Collections."
- 2/ Breakdown was not made in the Daily Treasury Statement for years prior to 1954.
- 3/ Beginning January 1951, the distribution of receipts between individual income taxes and old-age insurance taxes is made in accordance with provisions of Sec. 109 (a) (2) of the Social Security Act Amendments of 1950, for appropriation to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 11).
- 4/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 1400-1432) and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act (26 U.S.C. 480-482).
- 5/ Taxes on carriers and their employees under the Carriers Taxing Act, as amended (26 U.S.C. 1500-1503).
- 6/ Tax on employers of 8 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 1600-1611).
- 7/ Through 1953, contributions to the Railroad Unemployment Insurance Administration Fund were carried in the Daily Treasury Statement as miscellaneous receipts, while the 1956 Budget document includes them in employment taxes for those years. This difference in classification accounts for the difference in figures from the two sources. After 1953 the contributions are credited direct to the trust account. For amounts of the contributions, see "Treasury Bulletin" for February 1954, page 7.
- 8/ As announced February 17, 1954 (see April 1954 "Treasury Bulletin," page A-2); see also page 1, footnotes 6.
- 9/ In the 1956 Budget document, internal revenue taxes not otherwise classified are included in miscellaneous receipts.
- 10/ Includes proceeds from sales of surplus property and from Government-owned securities; seigniorage; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and railroad unemployment insurance contributions for administrative expenses through 1953, after which they are carried as trust account receipts under the Railroad Retirement Board.
- 11/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). The Social Security Act Amendments of 1950, approved August 28, 1950 (64 Stat. 477), changed in certain respects the basis of transferring the appropriated funds to the trust fund. Beginning January 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 109 (a) (2) of the Amendments of 1950, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration.
- 12/ Excludes the Government's contribution for creditable military service under the act of April 8, 1942 (56 Stat. 204). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.
- 13/ Interest on refunds is included in Table 5 under "Other."
- 14/ Expenditures are "net," after allowance for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts. They exclude net investments of wholly owned Government corporations and agencies in public debt securities beginning 1951 (when these investments were grouped with those of trust funds and accounts), and public debt retirements chargeable to the sinking fund, etc., under special provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on these capital transfers may be found in the 1953 Annual Report of the Secretary of the Treasury, page 332.
- 15/ Beginning November 1949, interest on the public debt is reported as an expenditure when such interest becomes due and payable, as distinguished from the previous practice of showing the expenditure on the basis of interest paid by the Treasurer of the United States.
- 16/ Consists of Veterans' Administration expenditures, including the direct loan program.
- 17/ Includes transactions relating to the Foreign Economic Cooperation Trust Fund (see page 1).
- 18/ Net transactions by the Departments of the Air Force and the Army relating to "Deposit fund accounts" are included under "Trust Account and Other Transactions," instead of Budget Receipts and Expenditures beginning 1952.
- 19/ Includes retired pay for the military services beginning September 1949.
- 20/ Excludes certain expenditures made on behalf of the Department of the Air Force out of 1949 and prior year appropriations to the Department of the Army.
- 21/ Includes certain expenditures on behalf of the Department of the Air Force (see footnote 20).
- 22/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, approved October 10, 1951 (22 U.S.C. 1651), and the preceding Economic Cooperation Act; and Greek-Turkish assistance.
- 23/ Consists of expenditures of the Atomic Energy Commission.
- 24/ Consists of payments under the Armed Forces Leave Act, expenditures for surplus property disposal, and in 1947 also national defense expenditures of the Reconstruction Finance Corporation and certain other agencies; beginning 1954, includes direct forces support.
- 25/ Excludes Bank expenditures under the Mutual Security Act and the preceding Economic Cooperation Act of 1948, as amended.
- 26/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, and the preceding Economic Cooperation Act.
- 27/ After 1952, expenditures for this purpose are not shown separately in monthly reports to the Treasury; those made by the Department of State (the greater part, currently) are included under that heading in this table; those made by other agencies (principally the Department of the Army) are not included in this table.
- 28/ Consists of expenditures under the Bretton Woods Agreements Act (1947); credit to the United Kingdom (1947 and 1948); expenditures of the United Nations Relief and Rehabilitation Administration; relief to countries devastated by war; various other foreign relief programs; international children's emergency funds; and loan for construction and furnishing of United Nations Headquarters.
- 29/ Consists of expenditures of the Department of Health, Education, and Welfare except the Office of Education, and of the corresponding component organizations prior to the establishment of this department on April 11, 1953; the Government's contribution under the Railroad Retirement Act for creditable military service, and certain other Railroad Retirement Board expenditures through 1953; and also, beginning 1950, the school lunch program under the Department of Agriculture.
- 30/ Consists of expenditures of the Housing and Home Finance Agency, and of component organizations prior to the establishment of this agency on July 27, 1947; Federal Civil Defense Administration; and disaster relief.
- 31/ Consists of expenditures of the Department of Agriculture except the Forest Service and the school lunch program; and of the Farm Credit Administration.
- 32/ Consists of expenditures of the Department of the Interior; the Tennessee Valley Authority; the Corps of Engineers in the Department of the Army (river and harbor works and flood control); and the Forest Service in the Department of Agriculture.
- 33/ Consists of expenditures of the Civil Aeronautics Administration, Civil Aeronautics Board, Maritime activities and predecessor agencies, and Bureau of Public Roads, all now in the Department of Commerce; the Coast Guard in the Treasury Department; and the Post Office Department. Figures prior to 1954 include net expenditures of certain working funds of the Department in addition to the Postal Service Fund (advances to cover the postal deficit). Beginning with 1954, net expenditures of the Department, including the Postal Service Fund, are on the basis of cash receipts and expenditures recorded in the accounts of the Department.
- 34/ Consists of expenditures of the Department of Commerce except those included under "Transportation and communication"; the Reconstruction Finance Corporation (as in liquidation by the Treasury Department beginning July 1954); Federal Facilities Corporation beginning July 1954; the Small Business Administration; the Economic Stabilization Agency; and funds appropriated to the President for the expansion of defense production.
- 35/ Includes expenditures for executive departments and other agencies not included elsewhere and for legislative and judicial functions.

TREASURY CASH INCOME AND OUTGO

The cash income and outgo of the Treasury shown in Table 1 consist of cash deposits and withdrawals in the account of the Treasurer of the United States. This is in line with the new reporting basis of the "Daily Statement of the United States Treasury." Effective February 17, 1954, the Daily Treasury Statement shows deposits and withdrawals in the account of the Treasurer of the United States. Budget results and trust account and other transactions are now reported once each month in the "Monthly Statement of Receipts and Expenditures of the United States Government" (see page A-2 in the April 1954 issue of the "Treasury Bulletin").

Figures for previous fiscal years heretofore published have been revised to the basis of deposits and withdrawals by eliminating corporation and agency transactions included in the old Daily Statement but not cleared through the Treasurer's account. The cash borrowing or repayment of borrowing as now shown is likewise based only on transactions cleared through the Treasurer's account.

In Tables 2, 3, and 4 is given the reconciliation of the cash transactions with the budget and other transactions which formerly appeared in the old Daily Statement and now appear in the new Monthly Statement. These tables

follow the method used previously for deriving cash income and outgo from the transactions carried in the old Daily Statement. Some rearrangement has been made in the table setup, principally to combine all receipts and all expenditures instead of deriving separately the cash budget and trust account transactions.

Reporting bases for the two statements differ in two respects. Certain corporation and agency transactions in securities which are not effected through the account of the Treasurer of the United States are included in the Monthly Statement but excluded from the Daily Statement. These are eliminated from the Monthly Statement figures in arriving at the cash transactions shown in the tables which follow. Other differences arise because of the differences in timing, as between checks issued (Monthly Statement) and checks paid (Daily Statement) for expenditures or between collections (Monthly Statement) and clearances (Daily Statement) for receipts. Thus an individual transaction near the end of a month may be included during that month in one statement but not until the following month in the other. These differences tend to correct themselves over a period of time, but for a given reporting date it is necessary to include an adjustment figure to cover them.

- 1/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.
- 2/ The issuance of these securities is treated as a noncash budget expenditure at the time of issuance and as a cash budget expenditure at the time of cash redemption; net issuance, or redemption (-).
- 3/ See Table 3, footnote 3.
- 4/ The issuance of these securities is treated as a noncash deduction from

- budget receipts at the time of issuance and as a cash deduction at the time of cash redemption; net issuance, or redemption (-).
- 5/ Net investments of Government agencies in public debt securities and net sales of obligations of Government agencies in the market.
- 6/ Includes borrowing through Postal Savings System.
- 7/ For explanation, see headnote.
- * Less than \$500,000.
- r Revised.

Footnotes to Table 3

- 1/ For further detail, see "Budget Receipts and Expenditures", Table 2.
- 2/ Includes net investments of Government agencies in public debt securities and net redemptions in the market of securities of Government agencies (see "Trust Account and Other Transactions", Table 1).
- 3/ The United States subscription to the capital of the International Monetary Fund was paid in part from the Exchange Stabilization Fund (see "Treasury Bulletin" for September 1947, page 17).
- 4/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.
- 5/ Prior to 1951, consists of net investments of corporations not wholly owned; beginning with that year, includes also those of wholly owned corporations and agencies which for prior years are included in budget expenditures.
- 6/ For explanation, see headnote.
- 7/ Treated as noncash expenditures at the time of issuance and as cash expenditures at the time of redemption; net issuance, or redemption (-).
- 8/ For explanation, see headnote. Excess of expenditures on Monthly

- Statement basis is deducted.
- 9/ As shown in the "Monthly Statement of Receipts and Expenditures of the United States Government"; consists of changes in checks and interest coupons outstanding and telegraphic reports from Federal Reserve Banks, and beginning with the fiscal year 1954, also changes in deposits in transit and cash held outside the Treasury.
- 10/ Net investments of Government agencies in public debt securities and net redemptions of obligations of Government agencies in the market.
- 11/ Since deposit funds (net) are included under trust account expenditures, the interest received by corporations not wholly owned is carried there as a negative expenditure. Thus when budget expenditures and trust account expenditures are combined, the payment and receipt of this interest offset each other. Payment of interest to wholly owned Government corporations is offset because it is treated as a negative budget expenditure when received by the corporations.
- * Less than \$500,000.
- r Revised.

1/ Excludes postal savings bonds.

2/ It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of call has been made, however, are listed as fixed maturities. For date of issue of each security, see "Market Quotations"; for tax status, see "Treasury Survey of Ownership."

3/ Bank restricted issues may not be acquired by commercial banks (with minor exceptions) prior to specified dates; for definition, see "Debt Outstanding and Treasurer's Account," Table 2, footnote 1.

4/ Called on August 12, 1954, for redemption on December 15, 1954.

5/ Called on November 15, 1954, for redemption on March 15, 1955.

6/ On December 27, 1954, the Treasury announced the removal, effective January 1, 1955, of the restriction on bank ownership of this issue.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For

details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. The Treasury invited holders of Series F and G which begin to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."

2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.

3/ Includes both matured and unmatured bonds; see Table 4.

4/ Includes total value of redemptions not yet classified between matured and unmatured bonds.

5/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified between matured and unmatured bonds. This increase tempo-

rarily obscures the relationship between the redemption columns showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4.) The subsequent distribution of this high level of unclassified redemptions may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3.

6/ Sales began June 1, 1952.

7/ Comparable data are not available prior to January 1950.

8/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.

* Less than \$500,000.

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued as follows: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; Savings Series A from May 15, 1951, through May 14, 1953; Savings Series B from May 15, 1953, through September 25, 1953; and a new Savings Series C from October 1, through October 23, 1953, when sale of these notes was suspended. Details concerning terms and conditions for purchase and redemption and information on investment yields of Savings Series C appear in the October 1953 issue of the "Treasury Bulletin," page A-1.

Similar information with respect to the offering of the earlier series was published currently in the "Treasury Bulletin," and appears also in the "Annual Report of the Secretary of the Treasury" for appropriate years.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

- 1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.
- 2/ Excludes trust departments.
- 3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, these banks were reported as a separate classification.
- 4/ Includes those banks and insurance companies not reporting in the Treasury Survey.
- 5/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.
- 6/ Holdings by reporting agencies not available.
- 7/ Excludes guaranteed securities held by the Treasury.
- 8/ Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); for definition, see "Debt Outstanding and Treasurer's Account," Table 2, footnote 1. The last of the bank restricted issues were made bank eligible effective January 1, 1955.

"Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

MARKET QUOTATIONS ON TREASURY SECURITIES, NOVEMBER 30, 1954

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

1/ Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of the mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin."

2/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952, bonds neither due nor callable for 15 years. For a discussion of the

composition of these Treasury bond averages, see the "Treasury Bulletin" for March 1944, page 58.

3/ Moody's Investors Service average of Aaa corporate bonds. This series supersedes the Treasury average of high-grade corporate bonds previously shown in this table, which was discontinued after March 1953.

4/ Average covers 8-1/2 months beginning April 15, the inception date of this series.

5/ The long-term taxable Treasury bond average was revised beginning April 1, 1952, see footnote 2. The old average for April 1952 was 2.62 percent.

Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service.

1/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arise because of differences in the time when payments are included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depositories and the depository receipts, as evidence of such payment, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget receipts in the month in which the depository receipts are issued to the taxpayers. Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports. Figures in this column have been revised in accordance with changes indicated in footnote 2.

2/ Figures in this column have been revised to include collections for credit to certain trust accounts for island possessions, as reported by the Internal Revenue Service.

3/ Monthly figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 4), and it is included under "Old-age insurance taxes."

4/ Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951. In Internal Revenue Service reports, current collections have not been separated as to type of tax but the breakdown shown for fiscal years beginning 1951 is based on estimates made in accordance with provisions of Sec. 109 (a) (2) of the Social Security Act Amendments of 1950, for appropriations to the Federal Old-Age and Survivors Insurance Trust Fund.

5/ New reporting basis beginning with the fiscal year 1953; for explanation, see footnote on page 1.

6/ Beginning July 1954, collections shown include undistributed depository receipts. For the amount of such receipts, see Table 2.

7/ Repealed for years ending after June 30, 1945. Beginning 1951, included under "Miscellaneous taxes."

8/ Beginning July 1954, total includes the whole amount of undistributed depository receipts for excise taxes.

Source: Internal Revenue Service reports for detail of collections by type of tax; Daily Treasury Statement for budget receipts from internal revenue through the fiscal year 1952, and the new "Monthly Statement of Receipts and Expenditures of the United States Government" for receipts thereafter. Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service. Figures as shown have been revised to include collections for credit to certain trust accounts for island possessions.

- 1/ Includes excess profits taxes on Army and Navy contracts imposed by the Vinson Act as amended (34 U.S.C. 496), and income tax on business income of exempt organizations imposed by the Revenue Act of 1951, approved October 20, 1951.
- 2/ Includes old-age insurance tax on self-employment income, imposed by the Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950. The tax is levied and collected as part of the individual income tax beginning with the taxable year 1951. For estimated fiscal year breakdown, see Table 1.
- 3/ Beginning January 1951, withheld income tax and social security employment taxes on employers and employees are paid into the Treasury in

combined amounts, pursuant to the Social Security Act Amendments of 1950. For estimated fiscal year breakdown, see Table 1.

- 4/ Under revised accounting procedures effective July 1, 1954, tax payments made to banks under the depositary receipts system are included in Internal Revenue Service reports of collections in the month in which the depositary receipts are issued instead of the month in which tax returns supported by the depositary receipts are received in internal revenue offices, as was the previous practice. The "Undistributed depositary receipts" included in the collections represent the amount of depositary receipts issued during the period less the amount received with returns. In the case of excise taxes, it is not possible to classify the depositary receipts by type of tax until the returns are received. Accordingly, the amount of such undistributed depositary receipts is included only in the total of excise taxes.
- 5/ Applies to diesel oil used in highway vehicles.
- 6/ See Table 1, footnote 1.
- 7/ New reporting basis; for explanation, see footnotes on page 1.
- * Less than \$500.

CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin," pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries of the principal data

by periods and by countries and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data which appear at less frequent intervals. The five tables included in this section, under the revised presentation begun in the June 1954 issue of the Bulletin, and the dates of their publication are as follows:

Table 1.- Short-term foreign liabilities and claims reported by nonfinancial concerns - published quarterly beginning July 1954 - previously published October 1949 and 1950, July 1951, 1952, and 1953.

Table 2.- Long-term foreign liabilities and claims reported by banks and bankers - published quarterly beginning June 1954 - previously published December 1949 and 1950, June 1951, 1952, and 1953.

Table 3.- Estimated gold and short-term dollar resources of foreign countries - beginning June 1954, published quarterly.

Table 4.- Foreign credit and debit balances in brokerage accounts - published semiannually beginning September 1954 - published as part of regular monthly series through May 1954.

Table 5.- Short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions - published annually since April 1950.

CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

Financial statements of corporations in which the United States Government has a proprietary interest, direct or indirect, and of certain other business-type activities of the United States Government are submitted quarterly to the Treasury Department, in accordance with Budget-Treasury Regulation No. 3, issued under Executive Order No. 8512 of August 13, 1940, as amended by Executive Order No. 9084 of March 3, 1942. Data from these reports, adjusted for consistency where necessary, are compiled in a series of tables covering balance sheets, statements of income and expense, and statements of source

and application of funds, which are published in the "Treasury Bulletin."

The balance sheet tables for September 30, 1954, appear in this issue. They are published for each quarter. The tables on income and expense and source and application of funds are published at six-month intervals, and cover the periods ending June 30 and December 31. They appear in each case in a Bulletin issue subsequent to that carrying the corresponding balance sheet data.
