Note: Where calculations have been made from unrounded figures, the detalle may not check to the totals shown.

Data on recelpta, expenditurea, and debt which appear In the "Treasury Eulletin" are based langely on two Treasury IInancial reporta, the "Dally Statement of tre United Statea Freasury" and tre "Monthly Statement of Recelpta and Expenditurea of the United States Government." Certain monetary atatiatice are based at least in part on the "Circulation Statewant of United Statea Money." Where thesa atatementa are glven as sourcea for individual tablea, they ere cited by name only. Thelr respecilve reporting bsoes are described below. For other data in the sulletin, information on sources or reporting bases is given in connection with the tables theraelvea.

The monthly atatement of recelpta and expenditures was P1rst published for February 1954, and replaced the dally atatement as the primary source of information on budget reaulta and other recelpt anc expenditure data clasalifled ty type of accourt. At the same tlae, the dally otatement was changed to a atatement of caah ceposita and withcrawals affecting the account of the sreasurar of the Unized Statea. Both publicatlona have provijec ccaparatire sigures on thel: reapective basea from the beglinning of tha 11acal year 1953. The announcement of February 27,1954 , with reapect to theae reporting chanesa may te found in the April 1954 leaue of the Eul! $\in$ し1万.

The monthy gtatement ahowa all recelpts and expenditurea of the Jovernment, inclucine thoae made from cash accounti held outalce the United gtatea Treasury. The information la complled irom reporta by the Treasurar of the United States and by all other collecting and disburblne sgencles, lncluding those agencles which maintain shecking accounta in comercial banis. Theae reporta cover transacitona recorded in the accounta of the agencles durlng the reporilnt period. The net of the iranascitions as complled from theae reporta is reconciled in the monthly statement to changes in the balancea in the Treasurer's account and in cash reld outsice the Treasurer's account anc changea in the public debt putstanding.

Recelpts of taxes and curtome dutles are reported on a collectiono basla. Othur recelpts are reported partisliy on a collections basia and partlally on a deposita bsila. Expendifurea, except intereat on the public debt, are reported on the baala of checas lasued or caoh payments wade by daburalig officere. Tranaactione of an internnd or intra-overnmental nature are included on the aame baale even though the actual isouance of checise may no: be involved. Intereat on the public debt is included on an accrual basia beginalne with figurea for June 1955 and the 11 acal year 1955. Frior to that, it has included on a due and fayable baala. The same repor:ins bala ao that in tha monthly statexent provices the ilocal year lisuree for the Eresury"a " Combined Statement of Recelptr, Expandituree and Salancea of the United Stater Gevernsent* and for actual recelpte and expenditurea in the "Budet of the United sistes Govirmant."

The dally etatement on the new basia was firet 1aqued for February 27, 2954. In the dejo6sta and withdrawala as show, no diatinction is made as to the type of accounta (bucet, trust, etc.). The deposits are on the basia of certificatea of depolit cleared through the account of the Treaburer of the United States. Total withdrawale are on the basia of checka paldor cash disburserents tade out of the Treasurer'a account. Some of the witharawal claselficationa ahown are reported on the basis of mallad reporta of checka lasued and are adjusted by meana of clearing accounta to the total of checka pald. Except for relatively winor amounte, noncash interfund and other intragovernDental tranaactiona are excluded. The public dabt 1furee in the casly atatemant aleo are on a "clearance" baala, with the exception of those lasuance and retirement tranasctiona reported on the basla of telegrama from Federal Reaerve Banke, but they Include noncaah debt tranaactiona.

The dally $\operatorname{statement~before~February~17.~} 295^{\circ}$. covered not only tranaactiona cleared through the Freaaurer's account but alac certaln Government agency tranaactione which were handled through conerercial bank accounts, and included noncash interfunถ and other intragovernmental tranaactiona. It orovided lnformation almilar to that in the present dally atatement with reapect to the atatua of the Treasurer's sceount, and alrilar to that in the preeent endoo-month dally atatement with reopect io debt igsuance, retirezent, and amount outatanding. Recelpta and expenditurea, however, were clasalfled by type of account, and the budget resulta ahown in the dally atatemen: were used as the baala for reflecing the resulta under the Prealdent'a budget program as enactea by the Congreas.

Recelpta were on the bsals of depoaita sa they cleared the Treaaurer's account. Expenditurea cleared through the Treaaurer'o account were reported on two Ruccessive basef. Through 1946 they werc on the basla of checke ralc by the Treaaurer or the United Statea. Beginning with 1947, expenditurea made through the facilitiea of the Treasury Department'g Division of Disbureecent were on the basla of checka lasuad, whlle certain othera, principally thoae of the Department of Defense and ita predecesaor organlzat lona, were on the basie of checke pald. Tranaactione handled through comercial bank accounta, conalating of market tranaactiona in public debt ard suaranteed aecuritiea, were as reported by the acenclea. Interest on the public dobt was incluced on a due and payable baalo beginalne with sovember 19 't9 and on a checka-pald basie prior to that time.

The circulation atatenent reslecte iranaactiona through the Treasurer's account which affect monetary atocke of gold and allver and the amounts of coln and currency in the money aupply of the country. It ia leaued later than the dally atatement, however, and the figurea are based on tranaactions conaumated during the reporting perlod even though some cay not have cleared through the Treasurar'a account during that ferlod.

## Treasury Financing Operations

## Tax Certificste Offering

A cash offering of $\$ 3$ billion, or thereabouts, of $2-3 / 4$ percent tax anticipation certificates of indebtednese was announced by the secretary of the Treasury on August 3. The certificates are dated August 15, 2956, and will mature March 22, 1957. They will be receivable at par plue accrued interest to maturity in payment of income and profits taxes due on March 15, 1957. The subscription books were open for one day only, on August 6.

Subscriptione recelved totsled more than \$10,613 million anc allotments $\$ 3,221$ million. Subscriptione in excess of $\$ 100,000$ were allotted 29 percent but not less than $\$ 100,000$. Those for \% 100,000 or less were allotted in full. Approximately $\$ 1,045$ million was allotted to nonbank aubscribers on criginal issue.

Commercial banks, which for this purpose are defined as banks accepting demand deposits, were permitted to subscribe for their own account without deposit, but were restricted in each case to an amount not exceeding the combined capital, surplus, and undivided profits of the subscribing bank. A payment of 3 percent of the amount of certificatea subscribed for, not subject to withdrawal until after payment, was requirec on all other subscriftione. Any commercial bank qualifiec. as a depositary was permitted to make payment for the new certificates by credit in its Treasury tax and loan account for not more than 80 percent of the amount of certificates allotted to it for itself and its customers up to the anount for which it was qualified in excess of ex1sting deposits.

Commercial banks and other lenders were requested to refrain from making unsecurec loans or
loane collsteralized in whole or in part by the certificates subscribed ior, to cover the 3 percent deposits required to be pald when subscriptions were entered. A certificetion by the eubscribins banix that no such loan was made was required on each subsoription enterea by it for account of ite customere. A certification that the bank had no beneficial interest in its customers' subscriotions, ana trat no customers had any beneficial interest in the bank's own subscriptions, also was required.

The new securities, designated Series B-1957, Tax Anticipation Series, will bear intereet at the rate of $2-3 / 4$ percent per annum, payable with the principal at maturity. They were 1 ssuec in besrer form only, in denominations of $\$ 1,000, \$ 5,000, \$ 10,000$, \$100,000, and $\$ 1,000,000$.

Cash Payoff of Bonds of 1756-59
The Secretery of the Treasury also announced on August 3 that the Treasury would pay off in cash on September 15, 1956, the iseue of partially taxexempt $2-3 / 4$ percent Treasury bonds of 1956-59. These bonds, outetanding in the amount of 982 million, had been called for redemption on May 14, 1956.

## Treasury B1llf Refunded

New issues of weekly Treasury bllis in AuEuat refunded the five 9l-day maturities in the equivalent total of $\$ 8.0$ blllion. Each new 1 ssue and each maturity amourited to $\hat{\hat{r}} 1.6$ tillion. Average rates of discount on the new issues were 2.378 percent for Auعu日t 2; 2.399 percent for Ausust 9; 2.6)3 percent for Aucust 16; 2.818 percent for August 23; and 2.832 percent for Ausust 3 ? . The new 1 ssues consisted of four gl-čay maturlties anö one 92-day maturity aated August 23 .
ments," and Disposition," respectivaly, of markstable 1esuee of bonds, notes, and certificstes of indebtedness, and in the table "Offeringe of Tressury Billa."

## Footnotes to Table 1-(Continued)

Footnotes 1 through 6 follow Teble 1.
7) Throush 1953, cantributions to the Rel Inoad Unemployment Inourance Adminiatration Fund vere carried in the daily Treasury otatemont as miecellaneous receipte, wile the 1957 Budget document includes tham in employment texe through 1952. Thie differerce in clasoificetion accounte for the difference in flguree fram the two sourcea. Beginning 2954 the contributions are credited direct to the trust account. For mounte of the contributions included in budget receipte, eee "Treasury Bulletin" for Fobruary 1954, pege 7.
$8 /$ In the 1957 Budget, internal revenue taxes not otherwise claseified are included in mecellaneous recelpte.
2/ For change in treetment of certain excise tax receipte beginning with the flocal year 1957, see footnote 13.
10 Indivicual income taies wtheld have been increesed by $\$ 249 \mathrm{mfllin}$ representing adjustmente to correct eetimatee for the quarter onded Jume 30, 1955, and prior quarters by $\$ 149$ millicm and for the quarter ended September 30,1955 , by $\$ 100 \mathrm{millian}$. Individunl income texeo not whheld heve been reduced by $\$ 4$ million representing adjustment to correct eetimatee for 1953 and prior calendar yeare. The old-age Ineurance taxee and the tranefers to the trust fund heve been reduced by the net of these adjustmentio or $\$ 246$ fil111 कn. The adjustmente were made purewant to Sec. 109 (e)(2) of the Social Security Act Amendmente of 1950.
11/ Amounte epproprieted to the Federal Old-Ago and Survivore Insurance Trust Find are equivalent to the amounte of texes collected and deposited for old-age 1newrance ( 42 J.S.C. 401 (e)). The Social Security Act Amendments of 1950, epproved Angust 28, 1950
( 64 Stat. 477 ), changed in certain respecte the basis of transferring the epproprieted funde to the truat fund. Begianing January 1951, the amounte traneferred currently for epproprietica to the trust fund are based on eetimater of old-age insurance tax receipts made by the Secretery of the Treeeury proreuant to the provielons of Sec. 109 (a)(2) of the Amendments of 1950, and ane adjusted in later tranefers on the basis of wase and selfeemployment income recorde
maintained in the Social Socurity Administration. The amount of odd-age ineurance tax refunde is peid from the trust fund ee areimbureement to the generel fund.
12/ Frcludee the Covernment 's contributian for creditable military eervice under the act of April 8, 1942 (56 Stet. 204). Beginning 2952, amounte are eqpropmated to the Rellroad Fetirement Account equal to the amount of texes under the Railroed Retirement Tax Act depoodtod in the Treaeury, leae refunde, during each $118 c a l$ year ( 65 Stat, 222 and 66 Stat. 371 ), and tranafere are made currently. Previousiy, annual epproprietions were besed, in effect, on eetimeted tex collections, With any neceseary adgustmente made in oucceedine approprietions.
13/ The Eighway Revenue Act of 1956 (T1tie Il of Public Lav 627, 84th Conerees, epproved June 29, 1956) estebliehed e Elehway Trust Fund fram which are made Federel-eid highway expenditures ofter Jume 30 , 1956. The act eppropriater to this fund amounte equivalent to epecified percentages of recelpte from certain exciee taxee on motor fuele, motor vebicien, tires and tubee, end use of certain vehiclea, and provided (Sec. 203 (c)(3), thet the amounte epproprieted should be trangerred curreatly to the trust fund on the besie of eetimatee by the Secratary of the Tressury with proper adjustmente to be made in subeequent tranefere. Previous to the flecal jear 1957, correeponding exciee tex recelpte vere included in budget recelpte, and Federal ald highway expendituree were included in budget expendituree.
14. Intereet on refunde ie included in expendituree in Teble 2. Reim= bureement by Federal Old-Age and Survivore Inaturance Trust Fund for refund of taxes for the flacal year (eee footrote 21) is netted ageinst internal revenue refunde for the month in which the reimbureement ie made.
15/ Tranefere for the fibcal year 1955 were reduced by $\$ 300$ million ae an adjustment for excess transfere to the trust fund of $\$ 90$ m11110n in 1952 and $\$ 210$ million in 1953, pureuant to Sec. 109 (e)(2) of the Social Securlty Act Amendmente of 2950.

Not evallable. |  |  |  |  |  |

The cash incowe and outeo data appearing in the "Treasury Bulletin" have been revised, beginning with the February 1956 1seus, to a basie consiatent with recelpte from and paymenta to the public as cerived in the 1957 Budget of the United gtatea, Speoial Analysia A. Reconclliation to cash deposita and withdrawala in the account of the Treasurer of tha United gtatea 18 shown on tha asme basis as in the gudget dooument. There 1 a ala ahown the amount of net casb borrowing from, or repayment of borrowing to, the publio. By these arrangementa, data in accordanoe $w i t h$ the Budget clasaifications are made avallable month by month. Figures for back years have been revised where necessary in order to make them an nearly comparable with the 1957 Budget clasalflcations as avallable cata wlll permit. For this reason certain of the figures difler somewhat from tho earlier Budget documents as well as in the Bulletin.

The Budget serlea of caah transactiona la designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includea tranaactions not cleared through the Treasurer's acoount. Recelpts and paymenta include tranastions both In budget accounts and in truet and deposit iund accounta. Operations of covernzent-aponsored enterprisea are included in paymenta on a net basia as rellected in treasury reports. Major intragovemmental tranaactlona whlch are reported as both expenditurea and recelftr are eliminated rrow both. Noncash items which represent acorued obligations of the Government to make paymenta in the futura are also eliminated from expencitures but are adced later when aotual paymenta are race. Recelfte frow the exercise of monetary authorlty (woetly Belgniorage on silver) are excluded as not
repreaenting cash received from the public. Feceral caah borrowing from the public includes net borrowing by the Trasaury through public debt tranasctiona and also net borrowing by Government agenclea and Government-sponsored enterprisas through sales of their own securitiea. It excludea changea in the pliblic debt which do not repreaent direot cash borrowing frow the public. The net effect of all theae transactions with the public ia reflected in changea in the balance in the Treasurer's account and in cash held outside the Treseury.

Casb tranaactions through the Treasurer's account are alrilar in general concept to those included in the Budget serien, but are ilmited in coverage to transactions which affect the balance in that account. On the other hand, they include recelpta frow the exerciae of monetary authority, which are excluded frow recelpta from the public in the Budget oerlea.

Beginning with figurea for the 11 scal year 1953, the serles of tranaactions with the public 18 based on the "Monthly gtatement of Recelpta and Expenditures of the United Statea Government," which ia complled from reports by all collecting and diabursing offlcers and includea those tranaactions not cleared through the Treasurer's account. Cash deposits and withdrawala in the Treasurer's account, beginning with the iguran for the same year, are reported in dally Treasury atatementa. For those years prior to 1953 both cash transactions serles are based on a Bingle source, namely, the earller basis of dally Treasury statements which reported separate classiflcations for budget reaulta, trust account transactions, etc.

## Footnotes to Table 3

but included in cash deposite in the Treasurer's account.
5/ Includee excees profite tax refund bond redemptions, for which a separate eetimate ie not evalinble.

- Leer than $\$ 500,000$.
p Preliminary.

## Footnotes to Table 4

1) For further detail, eee "Buiget Reco1pts and Expondituree", Tablo 2.

2/ For furthor dotail, ,oe "Trust Aocount and Other Transections," Tabloo 3, 4, and 5. Includes not ohange in balancee in Goverrnent-8panisored
enterprise doposit fund accounte with the Treasurer of the unitod States.
3/ Fet operating axpendituree, or recelpte ( - ), as measured by funds provided by or applied to not eecurity transactions refleoted in Treasury reporte (see Table 7). To a lerge oxtent, these Government-sponsored enterprisee secure funds for their operetione by direct borrowing fram the public or by cashing Federal oecurities which they hold, and they apply the not incame recelved from operations to reparment of borrowing from the public or to inveetront in Federal eecurities. On that basis, not ex-
pondituree 5 or operatians are shown in thie table in terme of the cambined not of dieinveamont in Federal securitice and salo of agency obligations in the markot, and not recelpte from operations aro ahown in terms of tha combined not of invertment in Federal eocuritioe and redemption of egency obligetions in the market.
4/ Not reportod prior to 1954.
5/ Conaidete of anly thoee market transactions not oleared through the Treaurer' ${ }^{\text {eccount. }}$
6/ See Table 7, footnote 1.

* Lese then $\$ 500,000$.
p Preliminary.

## Footnotes to Table 5

1) Federal intornodiate oredit bank irwnahiet tixi and, beginning 1953, also reimbursement by Peneme Canal campeny for expensee and eervicoe.
2) Includee reimbursement by Federal 01d-Age and Survivore Inaurance Trust Fund for administretive expenses and, beginning flecal year 1953, also for refunds or tazes (treated as an offeot to refunds rather than being credited to reoo1pte); reimbursement by the District of Columbia; and 1a 1949, proceede of ship eales which had beea carried in trust accounte pending allocetion to budget receipte from eale of eurplus property.
3/ Ccnalate of payment of earninge and reparment of capital stock to the Treasury through 1952, and begiming 2955, parment of frenchiee tax by banke for oooperativee.
4/ Includee relatively emall amonnte of deductions from salarioe poid by trust funds and Governmeat-eponsored enterpriees.

5/ Consiete of Dilted Statee and Covernmeat corporation oharee of coatributions to arployees' retirement funde, and parmente to the Rallroad Retirement Account (for oreditablo military eervice), the Onomploymont Trust Fund, veterans' 1110 ineurance funds, trust fund for tochnicil e日r⿻icices and other apeletance under the agricultural conservation program, and Dietrict of Columbia.
6/ Includes Diatrict of Columble shere of contributions to the C1vil Service retirement fund, payneate by Railroad Retiremeat Board to Federal 01d-Age and Survivore Inaurance Trust Fund, transiere from Cifil Service ratirement fund to Foreiga Service retirement fund excopt in 1956 and 1957, and tranefere from Rallroed Unemployment Insurance Adminietration Fund to themployment Trust Fund.

* Leee then $\$ 500,000$.
p Preliminary.

## Footnotes to Table 6

1. Accrued discoumt on eavings bonde and bllle lees intereet peid on eev= ings bands and bills redeemed.
2) Public debt intereet accrued and wpald beginning Jmo 30, 1955, effective deto of the change in accounting and reportirs from a due and asyable basie to ar accinal basie; for 1954, consiate conly of public payable basie to an ack increase, or dedebt internet checks and couponi outstandin; not accout prior to 1954; crease ( - ). Not reported as a eeparate clearing account prior
3 . ties and as cash expenditumes at the time of their redemption; net lesuance, or redemption ( - ).
3) Isoved if 1936 in exchange for adjueted eorrice certiflicatoe hold by reterane of World War I. The bonde matured in 1945.
4) Ieeued in 1947 in payment for accumulated ieave. The last of theee bonde matured in 1951.

6/ Part of the United Statee aubacription to the capital of the Interaticnml Bank for Reconetruction and Developmeat and to the Interational Monotary Fumd was paid in the form of nonintereet-bearins, onnegotiable noteo payable on demand (see 1947 Annual Report of the
 aotes 1esuad to the Bank vas rodeomed in 1950.
7/ By wholly owned Govermeat eaterprisee; begiming 1951, euch nst inveotmente are reported separately and are not included in erpendituree (see "Iruat Account and Other Transactions," Table 4).
$8 /$ Checks outetending loes depoile in transit, and telegrephic reporte Crom Federal Reserve Benks; increaee, or decrease (-). For public from Federal Reserve Benks; increase, or ine interest included pior to 1954, see footnote 2.
Lees than $\$ 500,000$.
$p$ Preliminary.

## Footnotes to Table 7

1) In thise table, beginaing 1954, in accordance with treetment in Budget documento, net investment in United Statee securities by Governmentepaneored enterprisee includes a cimall anount by other eaterprisee pagamed as reansactions with the public. In Table 4 egar "Trust Account and Other Transactione," these amounte are 1a= cluded in trust and deposit fund account inveetment.
2) Accrued discount an savinge bonie and bil1s, which 10 incluted in the principal of the public debt, lese intereet paid on savings bonds and bills redeemod.
3 Treated as nomeash transactions at the time of leauance and es cash
transactions at the time of rederption; nat lesuance, or redemption (-).
3) Excluded from borraring becanae the trangactions are treated as ex pendituree in Table 6.
5 Excluted from borrowing because the trangactions are treated as deductions from recoipte 10 Table 3.
6/ Market tranactions in public debt eacurities and agency obligetione.
Lees than $\$ 500,000$.
p Preliminary.

8/ The 1-1/8\% certificates maturine Anguat 15, 1955, vere roopened for the Decerber 15, 1954, rofunding (eee Table 3),
2/ Tar anticipation serlios; $\$ 2,216$ million rodoemed for taxes duo

Marcb 15, 1955, and $\$ 1,518$ millico redeomed for canh.
10/ The $2 \%$ notos maturling Ausust 15,1956 , vere reopened for the August 1 , 1955, rofunding ( 000 Tabla 3 ).
2. Tax anticipatio0 saries; \$1,917 million redeemed for taxes due June 15 , 1955, and \$1,293 million rodeemed for cash.
12/ Also designatod tax anticipation cartificetos, accoptablo at par plus acerved interest to maturity in payment of income and profita tarse duo Juno 15, 1956.
23/ The 2-7/8x notes matur-1ne June 15, 1958, vere reoponed for the March 5, 1956, refunding (ses Teble 3).
14. Tax anticipation eerles; $\$ 1,674$ million redeesed for taxes due March 15, 1956, and $\$ 528$ mi 1111 an redsemed for cabh.
15/ Tax antcipation serles; proliminary Pigures indicate that of the $2 \%$ cortificates appraximatoly $\$ 1,016$ million 8010 redeemod for taxes and $\$ 470 \mathrm{milllim}$ for cash; and of the 2-1/4 certiflcatos approximatoly $\$ 1,896$ mi 11100 vere redoemod for tareo and $\$ 1,074$ million for ceath.
16/ During Juno 1956, $\$ 159,000,000$ of 2\% Treasury notos, maturing Ausust 15, 1956, were purchased by the Iroasury for account of the Sinking Find and retired.
$p$ Proliminary.

United States asings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, anc Seriea $E, F$, and $G$ were first offered in May 1941. When Series E began to mature on May I, 1951, owners of the matured bonds were offered three optiona: To redeem the bonds in cash in accordance with tho original terms; to retain them with an extonded maturity of 10 years at specifled rates of interest accrual; or to exchange them for Seriea $G$ bonds. A number of changes became effective May 1, 1952. The princlpal onea were: The rate of interest accrual on Series $E$ was increased, especially for the near term, with corresponilng changes in extended Series E; and Seriea $F$ and $G$ here replaced by two new issuea, Series J and $K$, also at higher intereat rate日. A now current-income bond, Series $H$, similar in interest return to Series $E$, was offered beginning June 1 . For
detalls of these changes see "Treasury Bulletin" for May 1952, page $A=1$. Series $F$ and $G$ began to mature on May I, 1953. For the exchange offering made to holdera of these bonds maturing through December 31, 1953, see the May 1953188 ue, page A-I. The Treasury invited holders of Series $F$ and $G$ which began to mature in January 1954 to reinvest the proceeds in other aeries of savings bonds. In the tables which follow, Series $A-F$ and $J$ sales are included at lasue price and total redemotions and amounta outatanding at current redemption values. SeriesG, $H$, and $K$ are included at face value throughout. Matured bonds which have been redeomed are included in redemptions. Matured $F$ and $G$ bonds outstanding are included in the intereat-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

Source: Internal Revenue Service reporte for detall of colloctions by type of tax; dally Treaoury etatenent for budget recelpte from 1 ntermal reverne through tho $\$ 1 \operatorname{ecal}$ yoar 1952, and the monthiy atotarent of recoipto and expendituree of the Goverment for recespto thereafter (for explanation of reporting bacea in thoo publicationn, aes page II). Certain detall by type of tax ie avallable only from rotume filed vith the Intormal Rovenue Service. The figureo obow include collectione for credit to apecial accounte for certain loland possessions, as roparted by the Internal Reveruc Serrice. Beginnine with the flacal year 1955, they include the emonte of tax collected in Puerto Rico upan articloe of merchandise of Puerto fican manufecture camine into the thited statea. Yiguree for 1954 have been rovieed to the eame basia. Figuree for previoue yeare include anly emounto collocted ot porte of entry into the unsted Stateo.
1/ Differencee between the amounte of internal revanue roported by the Internal Revenue Serfice as collection far given periode and the amounte roportod in Treasury atotemente as budget receipta for the seme poriode arose becoune of differencen in the time won paymonte were included in the reapective reporta. Tax parmonto aro Lacluded in budget recelpte when they aro roportod en credsta to the account of the Treasurer of the instad Statee. Prior to July 1954, they vero included in Internal Fevenue Sorvice collaction reporte aftor the roturns to which they applied bad beon recelved in intomal revenue officea. thend procedure begun in 1950 with withheld income tax and old-age insurance taxes and later ertended to reilroed rotiramont taxeo and many excieos, these tareo are peld currently Into Treasury depoaitariec and the depoestary recelpte, as evidence of aucb parmonte, aro attached to quarterly rotume to the Intermal Revenve Serrice. 'rider this procodite, the paraento are incluted in budget
recespts in the month in which the dopositary recelpte are 1 eeved to the texpavere. Revieed accounting proceduree effectivo July 1, 1954, extonded the camo practice to Interfial Revenue Sorvice collection reports.
2/ Monthis and ilecal year 1956 flewres include old-age inauranco tax on eolf-omployment incame, wbich is levied and collected as part of the individual lacame tax begimine with the tazable year 1951. Previoue fiscal year figures exclude this tax, on the basie of eatimaten beginning 1952 (eoe footnote 3), and it is included under "Old-age innurance taxes."
3) Withheld incom tax and old-aga inourance tate on omployere and omployeen are prid into the Treasury in combined amounto besinnire January 1951. In Intermal Revenue Service report B , current collections have not been eoparated an to tope of tax but the breakdown shom for ilacal yeara boginning 1951 is based on eatimatee made in accordance with proriesone of Soc. 109 (a)(2) of the Social Socurity Act Amendmente of 1950 , for tranefer of tar recelpto to the Federal 01d-Age and Survivore Insurance Truat Fund.
4) Beginaing vith the fiecal year 1955, collections ehown inclucie urdiotributed depoeitary receipts and unclaselfled advance paymento. For oxeleo taxes theee recelpta are included in the total only. Total colloctions include "Taxen not othervise clabsified." which vere included with miocellaneous excise taxes prior to the Ausust 1956 loeve of the Bullotin. (See Table 2).
If Repealed for yeare ondine aitar juro 30, 1945. Beginaing 2951, incluted under "M1acollareous exciee taxso."
6/ Dotail is reported by quartare beginnint vith the fiecal year 1956.

1) Yelued et $\$ 1.29+$ per ifnc oumce.
2) Includes oilver held by certain egencles of the Federal coverrment.

3/ Valued et \$1.38+ per 11 ne ounce.
Valued of $\$ 1.38$ + per fine ounce or at $\$ 1.29$ + per fine ounce accord ine to whether the bullion is held for recolnage of subsidiary Bilver colne or for recolnage of standand silver dollare.

- Jese than \$50 thousand.

Table 5.- Seigniorage on Silver
(Cumuletive from Jenuary 1, 1935 - in millions of dollare)

Data relating to capltal movementa between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive order 10033 of February 8,1949 , and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries 18 reported monthly, and is publiehed regularly in the "Treacury Bulletin." Supplementary information 18 published at less frequent intarvals. Reports by banks, cankers, eecuritles brokers and dealers, and industrial and commercial concerns in the United States are made inltially to the Federal Reserve Banks, which forward consolidsted figures to the Tressury. Beginning April 1954, data reported by banis in the Territorles and possessions of the United Stster are included in the published data.

The term "forelgner" as used in these reports covers sll institutions and individuals domicileo outside the United Stetes and its Territories and possessions, the offlcial ingtitutions of foreign countries, wherever such instisutions may be located, and international organizations. "Short-term" refers to orlginal msturities of one year or less, and "long-terw" refers to all other maturities. A detalled discussion of the reporting coveraee, statistical presentation, and deflnitions appeared in the June 1954 18sue of the "Treasury Bulletin,"
pages 45-47. As a result of changes in preserita:ion introduced in that $18 s u e$, not all breakcowns previously published wlll be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summarles, by perlocs and by oountries, of data on short-term banking liabllities to and clalws on forelgners and transactions in long-term securitles by forelgners, and present detalled breakdowns of the latest avallable preliminary data.

Section IV provides supplementary data in ilve tacles which appear at less frequent intervals. Table l, shortterm foreign liabllities and clalms reported by nonIInancial concerns, is publiched quarterly in the January, Aprll, July, and October lesues of the Bulletin. Table 2, long-term roreign lisbilities and clalms reported by banks anc bankers, and Table 3 , estimatec gold reserves and dollar holdings of forelgn countries and international institutions, are publishec quarterly in the March, June, September, and December 1ssues. Table 4, foreign credit and debit balances in brokerage accounts, appears semiannually in the March and September 18aues. Table 5, short-term liabllities to foreigners in countries and areas not regularly reportcd separately by banking institutions, is presented annually in the Aprll issue.
