Debt outstanding and Treasurer's account ..... 16
Statutory debt limitation ..... 20
Debt operations ..... 21
United States savings bonds ..... 29
Ownership of Federal securities ..... 33
Treasury survey of ownership of Federal securities ..... 35
Market quotations on Treasury securities. ..... 39
Average yields of long-term bonds. ..... 42
Internal revenue collections ..... 44
Monetary statistics ..... 47
Capital movemente ..... 51
Cumulative table of contents ..... 62
Note: Where calculations have been made from unrounded figures, the details may not check to the totals shown.

## Reporting Bases

Data on recelpta, expenditures, and debt which appear in the "rreasury Sulletin" are based largely on two Treasury 1 nancial reports, the "Daily Statewent or the United gtatea Treasury" and tre "Monthly Statement of Recelpte end Expenditures of the United States Government." Certain monetary oratistice are basod at leat in part on the "Circulation giatement of United States Money." Where thesa atatements are Elven as sources for incifidual tables, they ere cited by name only. Their respec:ive reporting bases are described below. For other data in the Bulletin, information on cources or reportine bagee la given in connection with the tablea trerselvea.

The monthly atatement of recelpts and expenditures was first published for February 1954, and replaced the dally statement as the prixary source of information on budget results and other recelpt and expenditure dats claaalfled by type of account. At tha same time, the daliy otatement was changed
 Eecting the account of the Treasurer of the United Stater. Botb publicatione have proviced comparative flgures on theif respective bases from the beginning of the sfocal fear 1953. The announcement of February 17, 1954, with rebpect to theae reporing charges may be found in the April 1954 queue of the Eulletin.

The monthiy atatement ahowe ald recepte and expenditures of the Government, including those made from caah accounta hold outaide the United gtatea Treaaury. The information is complied from reporte by the Treaturar of the United giatea and by all other collecting and disburging agenclea, including those agencies wheh maintain cbecking accounts in comercial banike. These reports cover iransactions recorled in the accounta of the sgenclea during the reporting period. The net of the transactiona as complled from these reports is reconciled in tha monthly statement to changes in the balances in the Tresourer's account and in cash held outelce the Treasureris account anc changes in the public debt outstanding.

Racelpta of taxes and cuetom cutlea are reported on a collections basia. Other recelpta are roported partially on a collections basla and partlally on a deposits bsals. Expenditurea, except intereat on the public debt, are reported on the bala of checks 18 aued or caah paymenta made by diaburbing offlcers. Transactione of an interfuad or intrasovernmental nature are included on the ame basis evon though the actual lesuance of checise may not be involved. Intereat on the pubilc debt ia included on an secrual basis beginning with ilgures for June 1955 and the 11acal year 1955. Prior to that, it was included on a due and payable bacie. The asae reporting basie as that in the monthiy statement providee the flecal year figuree for the Treasury's "Cambined Statement of Recelpts, Expenditures and Balances of the United States Government ${ }^{n}$ and for aotual recelpta and expenditurea in the "Budget of the United Stateo Government."

The dally atatencnt on the new basis was :irgt 1seued for February 17, 1954. In the dejoelte and withdrawal a as ohom, no diatinction la wade as to tho type of accounts (budget, trust, et.). The deposite are on the basis of certificates of deposit cleered through the account of the Treasurer of the United States. Total withdrawala are on the basis of checka paldor caeh diaburgerents tade out of the Treasurer'a account. Some of the withdrisul classifications shown are reported on the basia of malled reports of checke 1ssued and are adjusted by meang of clearing accounts to the total of checke paid. Except for relatively minor anounte, noncsab interfund and other intracovernmental tranasctiona are exciudec. Tba public dabt isuree in the dasly atatoment al ao ane on "clear. ance" bosie, whth the exception of those lesuance and ratiremont transactions reported on the basia of tolegrama frow Federal Reserve Banks, but they lnclude noncah debt transactions.

The daily etatement before February 17, 1954, covered not ondy transactlona cleared througb the Treaeurer's account but aleo certain Governdent agency traneactions which were handled inrough comercial bank. accountr, and lncluded noncash interrunô and other intragovernmental transactiona. It provided information similar to that in the present dally atatement with reapect co the status of the Treasurer's account, and alollar to that in the present end-os-month daily atatement witb reopect to debt iesuance, retirement, and amount outstanding. Reoelpte and expenditures, however, were clasalfled by type of account, and the bucget results shown in the dally ghatement were used as tbe basis for reflecting the reeults under the President's budget program as enacted by the Songreas.

Recelpta were on the basis of depoaita as they cleared the Treasurcria account. Expendituree oleared through the Treasurer'a account were reported on two ruccesalve bases. Throurh 2946 they were on the basis of checke pald by the Treasurer of the Unsted Stater. Beginning with 1947, expenditures made through the facllitles of the Treasury Departnent's Division of Disburacment were on the basis of check laaued, whlle certain othero, princlpally thoee of the Departaent or Defense and ita predeceser organizat lona, were on the basis of checks pald. Tranasctlone hancled throuph commercial bank accounte, conslsting of mariet traneactiona in public debt and guaranteed securitiea, were aa reported by the agenoles. Interect on the public dobt was included on a due and pajable basis beginning with November 1949 and on checke-paid basia prior to that ime.

The clrculation tatement reflecte transactions through the Treaurer's account which affect monetary atocke of bold and eilver and the apounts of coln and ourrenoy in the money oupply of the country. It is leaved later than tho dally atatement, bowever, and the ilgurea are besed on transactions consummated during the reporting period aven thourh eome way not havo oleared through the sreasurer'a account during that perlod.

## Treasury Financing Operations

## Additional Issue of Treasury Bills

In accordance with its announcement on October 4, 1956, the Treasury Department on October 8 invited tenders on October 10 for $\$ 1.6$ billion, or thereabouts, of 91 -day Treasury bills. The bills are dated October 17, 1956. The offering was for "new money" with payment completed on October 17, provided, however, that any qualified depositary could make payment by credit in its Treasury tax and loan account for Treasury bills allotted to it for 1 iself and its customers up to the amount for which it was qualified in excess of its existing deposits. Tenders were accepted in the amount of $\$ 1,603$ rillion. The average rate of discount was 2.627 percent.

Refunding of Maturing Treasury Bills
Treasury 91-day bills maturing in September were refurided by new 91-day bills in the equivalent total of $\$ 6.4$ biliion. Each new issue and each maturity amounted to Z 1.6 billion. Average rates of discount on the new issues were 2.736 percent for september 6; 2.770 percent for September 13; 2.908 percent for September 20 ; and 2.986 percent for September 27.

Note: Detaile of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin," in the tables an "Offerings," "Allotmente," and "Disposition," respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills."

Govermant, Special Anallyis L; ELsuree for 1956 are bneed oo raporte submitted by Government dieburaing officere and ane claselified by indiTidual appropriation iteme. Pxpendituree are net of recelpte of public eaterprise fumbs. This table eupersedee the one published prior to the July 1956 1asua of the "Treasury Bulletin," which showed expend1-
tures by major functions oniy, vith 1956 ifsuree bused on monthly atatement dotail.
1/ Soe footnoto 4 .
Erpendituree for 1956 include thoee made from "Roadjustment Benafito, Veterans" Adminietration," applicable to functional claceification 102 , "Other votertns" readjuatment benefite," the asparate amounte of which carmot ba readily detorminod.

## 3/ Soa footnote 2.

4) Expendituree for 1956 include those for emergency ase1atanca to Pakistan - weat, and to friendiy peoplee, applicable to functional claselflcation 152, "Bconomic and technical development"; for emergency foed progrean -a coet of camoditioe, applicable to functional claselfication 352, "Financins farm ownerah1p and operation"; for laan to Secretary of Agriculture for conservation program, applicabla to functional claseiffcation 354, "Coneervation and development of agricultural land and water resources"; and for tranefere and other coete for arradication of poot-and-mouth disease and brucellosis in cattle, applicable to functional classification 355, "Reseanch, and other agriculturel services." These expendituree were made frcm
"Commodity Credit Corporation Capital Find" and tha separate emounte camot be readily determined.
5/ Erpenditurea for 1956 include thoee for farm bousing made fram "Loane, Farmere a Home Administration, Agriculture," applicable to functional claseification 517, "Other alde to housing," the soparate amounte of which cannot be rendily dotermined.
6/ Krpendituree for 1956 include thoee for navigation projecte mode from "Canstruction, General, Corpa of Fingineers, Civil," applicable to
functional claseification 511, "Promotion of vater traneportation," the separate amounte of wich cannot be readily determined.
7/ See footnote 8.
8/ Expendituree for 1956 include thoee for flood control and multiple purpose projecte, including power, made fram "Oporation and Maintenance, General, Corpe of Eaginoers, Civil," applicable to functional clacelfication 401, "Conservation and development of land and water reeources," the saparate amounte of wich cannot be readily determined.
(2/ Soe footnoto 6.
$10 /$ See footnote 12.
11. See sootrote 15.

12 Expendituree for 1956 include thooe for defenoe community fecilitioe and earvices and for adrance planning of non-Foderal public works, applicable to functional classification 515, "Commulty development and facilities"; and for Aleska bousing and laane for prefabricated housing, applicable to functional claselicication 517, "Other alds to housing." Theee expendituree vere made fram "Revolving Fund, Liquidating Programe, Office of the Adminietrator, Housing and Hone Finance Agency" and the eeperate amounte cannot be readily determined.
13/ See footnote 5.
14) Expendituree for 1956 include those for disester loens and reliaf made from "Operations, Small Businees Adminietration" and for disester loans made from "Revolifing Fund, Small Pusinees Administration," applicable to functional claselfication 521, "Disester insurance, loans and rolief," the separate amounts of which cannot readily determined.
15/ Bxpendituree for 1956 include thoee for lending progrem - public agenciee, made from "Reconstruction Finance Corporation Liquidetion, Treasury and applicable to functional claesification 515, "Commundty development and facilitiee," the eeparate amounte of wich cannot be reedily determinod.
16) See footrote 14.

Iees then $\$ 500,000$.
p Proliminary.

## Footnotes to Table 1 - (Continued)

Footnotee 1 through 6 rollow Table 1.
I/ Through 1953, contributions to the Rallroad themployment Insuranca Adminietretion Fued were carried in the daily Troasury stetemant ae miecellaneous recoipts, while the 1957 Budget document includes them in explayment taros through 1952. This difference in closeification accounte for tha difference in fisuree fram the two sources. Beginning 1954 the contributions are credited diroct to the trust accouat.
For amounts of the contributions included in buaget receipte, see "Treserver Bullotin" for February 1954, page 7.
8/ In tha 1957 Budget, intornal revenue taxes not otherwiee claseified are included in miacollanoous rocelpte.
2/ For changa in treatment of certain exoise tar recelpte begtining with tha fiscal juar 1957, soe footnote 13.
10 Individual incowe tares withbeld have been incraseod by $\$ 249$ million representing adjuetmente to correct setimatee for the quarter anded June 30, 1955, and prior quarters by $\$ 149$ millian and for the quarter anded September 30, 1955, by $\$ 100 \mathrm{millim}$. Individual income taxer not withhald hava beon reduced by $\$ 4$ million ropresenting edjustment to correct aetimatoe for 1953 and prior calendar yaare. Tha old-age insurance taree and the transfors to tha trust fund have been reduced by the nat of these sijustanente or $\$ 246$ million. The adjustmonte vere made purguant to Sec. 109 (a)(2) of the Social Socurity Act Amendmonta of 1950.
11/ Amounto apmopriated to tha Fedoral OId-Aga and Survivors Insurance Trust Fund are oquiraient to the amounts of tazee oollected and dapoeited for old-aga insurenoe ( 42 J.S.C. 401 (a)). The Social Socurity Act Amendmante of 1950, epproved Auguet 28, 1950 ( 64 Stot. 477), changed in cartain respects the basis of tranaforring the approprlated fonde to the trust fund. Begiming Jamury 1951, the amounta traneferred currently for appropriation to the trust fund are besed on estimatoe of old-age insurence tar rocaipte meda by the Secretary of the Troasury prrauant to the provielons of Soc. 109 (a)(2) of the Amendmonte of 1950, and aro adjuated in leter tranefers on the basie of wage and eelf-employmeat income recorde
maintained in the Social Security Adminiatration. Tho amount of old-age insurance tar refunde io paid from the trust fumd as a reimbureament to the general fund.
12/ Excludes the Gorarnment's cantribution for creditable military earfica under the act of April 8, 1942 (56 Stat. 204). Beginning 1952, amounte are appropristed to tha Rallroed Ratirement Account equal to the amount of taxes undar the Rallroed Retirement Tar Act depoaited in the freasury, lese refunde, durling each fiscal yoar ( 65 Stat. 222 and 66 stat. 371), and transfare are made currently. Previously, annual appropilations vare based, in offact, on eotimated tar oolloctions, with any neceseary adjurtmente madia in eucceeding appropriatiome.
$13 /$ The Highway Revenue Act of 1956 (Title II of Public Lav 627, 84 th Congrese, approved June 29, 1956) eeteblished a Elghway Trust Fund from which will be mado, ae provided by appropriation acte, Pederala1d highwey expenditures after June 30,1956 and before July 1, 1972. The ect appropriated to this fund amounte equivalent to specifled perceatagee of recelpte fram certala exciee taxes on motor fuele, motor vehicles, tiree and tubee, and use of certain vehiclee, and provided (Sec. 209(c)(3)) that the anounte appropriatod should be traneferred currently to the trust fund an the basie of aetimatee by the Secretary of the Treseury with proper adjustmente to be mede in eubsequant tranafere. Previous to the flacal year 1957 correspondins excise tax receipte vere incluided in buiget rece1pte, and Federal-aid. inghway expendituree vere included in budget expendituree.
14) Intereet on refunde ie included in expenditures in Table 2. Resmbursement by Faderal 0id-Aga and Survivore Insurance Trust Fund for refunde of taxes for tha fiooal year (bee footnote ill) ia pattod ngaingt internal revemue refunde for the month in which the reimbursement 19 mado.
15/ Tranafere for the fiacal yaar 1955 were reiuced by $\$ 300$ million as an edjustment for excese tranefere to the truat fund of $\$ 90$ million in 1952 and $\$ 210$ million in 1953, pureuant to Sec. 109 (a)(2) of the Social Security Act Amendmente of 1950.
*Lese than $\$ 500,000$. p Freliminary. na. Hot availeble.

/ As provided by the Housing Act of 1954, epproved. August 2, 1954
( 08 Stat. 590).
p Preliminary.
n.a. Not avaliable.

The cash income and outeo data appearing in the "Treasury Eulletin" have been revised, beginning with the Fabruary 1956 lasua, to a basia consiatent with recelpta from and paymenta to the public aa derived in tue 1957 Buaget of the United States, Special Analyais A. Reconcillation to cash deposits and withorawala in the account of the Treasurer of the Undted States la shown on the same basis as in the Budget document. There is also shown the amount of net casb borrowing from, or repayment of borrowing to, the public. By these arrangemente, data in accordance with the Budget classifications are made avallable month by month. Figures for back years have besn revised where necesaary in order to make them as neariy comparable with the 1957 Budget classillcations as avallable data will permit. For this reason certaln of the figures difter somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions 18 designed to provide information on the flow of money between the public and the Federal Goverment as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include tranaactions both in budget accounts and in trust and deposit fund accounta. Operations of Govemment-sponsored enterprises are included inpaymenta on a net basia as reflected in Treasury reports. Major intragovernmental tranaactions which are reported as both expenditurea and receifts are eliminated from both. Noncash items which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual peyments are arace. Receipts from the exerclse of monetary authority (mostly selgniorage on silver) are excluded as not
representing cash received rrom the public. Feceral cash borrowing from the public includes net borrowing by the Treasury through public debt transactiona and also net borrowing by Government agencies and Government-aponsored enterprises through asles of thelr own securities. It excludes changes in the public debt which do not repreaent direct cash borrowing from the publio. The net effect of all these transactions with the public is reflected in changea in the balance in the Treasurer'a account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Budgat aerles, but are limited in covarage to transactions whiob affect the balance in that account. On the other band, they include receipta from the exerciae of monetary authority, which are excluded from recelpta from the public In the Budget aeries.

Beginning with figures for the flacal year 1953, the series of transactions with the public 18 based on the "Monthly Statement of Recelpta and Expenditurea of the United States Government, which is complied from reporta by all collecting and diaburaing offlcers and includes those transactions not cleared through tbe Treasurer's account. Cash deposits and withdrawals in the Treasurer'a account, beginning with the 1 igursa for the aame year, are reported in dally Treasury atatements. For those yeara prlor to 1953 both cash transactions aerles are basec on a alngle source, namely, the earller basio of dally Treasury statements which reported aeparate clasalilications for budget results, trist account tranaactions, etc.

funde, Farm Tenant Mortgage Insurance Fund through March 1956, and Veterane' Speoial Term Insurance Fund.
2/ Consists of Adjusted Service Certificete Fund, various housing insurance

Table 4.- Computed Interest Charge and Computed Interest Rate on Federal Securities
(Doliar amounte in millions)

Source: Daily Treasury statement.
Note: The camputed amual, interest charge represente the emount of intereat that would be paid if oach interest-bearing iseue outstand Ing at the ond of each month or year should remmin outstanding for a year at the applicable anmual rete of interest. The charge is ocmputed for sach iseue by epplying the epproprieto amual intereat rete to the amount outstanding on thet date. The aggregete charge for all interest-bearing iseuse ocmetitutes the total oomputed annual interest charge. The average annual intereet rate is computed
by dividing the computed amual interest charge for the total, or for any group of 1e日ve日, by the correeponding principal amount.
1/ Excludes guaranteed securitiee beld by the Treasury.
2. Total includes "Other bond $e^{\text {" }}$; see Table 2 .

3/ Incluided in debt outetanding at face amount, but diecount value is used in ocmputing annual interest charge and amual intereet rate.
4/ The annual interest charge and annual intereet rate on thited Statee eavinge bonde are computed on the beele of the rate to matursty applied ageinst the arount outstanding.

Table 5.- Treasury Holdings of Securities Issued by Government Corporations and Other Agencies d/

Table 6.- Status of the Account of the Treasurer of the United States
(In millione of dollare)

The seconc Liberty Bond Act, as amsnded ( 31 U.S.C. 757 b), provides that ths face amount of obligations issued under authority of that act, and the race aqount of obligations guaranteed as to principal andinterest by the United States (sxcept guaranteed obligatione beld by the Secretary of the Treasury), ahall not excsed in the aggregate $\$ 275$ billion outstanding at any one time, except that this amount was incressed by $\$ 6$ bllison be-
ginning on August 28, 1954, and ending on June 30, 1956, by acte approved August 28, 1954, and June 30, 1955; and by $\$ 3$ billion beginning on July 1,1956 , and erding on Juns 30, 1957, by an act approved July 9, 1956. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt 1 imitation at current redemption values.

16 During June 1956, $\$ 159,000,000$ of $2 \%$ Treasury notse, maturing August 15, 1956, were purchesed by the Treasury for account of the Sinking Find and retired.
9 Proliminary.

United Statea esvings bonda were firet offered in March 1935 and began to mature in March 1945. Seriee A-D were sold between March 1935 and the end of Apr11 1941, and Series E, $F$, and $G$ were ilrat offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonde were offered three options: To redoem the bonds in cash in accordance with the original terme; to retain them with an extended maturity of 10 years at specifled rates of interest accrual; or to exohange them for Series $G$ bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of Interest accrual on Series $E$ was increased, especially for the near term, with corresponding changes in extended Serleg $E$; and Series $F$ and $O$ were replaced by two new 18日ues, Series $J$ and $K$, also at higher interestrates. A new current-income bond, Saries $H$, similar in interest return to Series $E$, was offered beginning June 1 . For
detalls of these changes aee "Treasury Bulletin" for May 1952, page $A-1$. Seriee $F$ and $G$ began to mature on May 1, 1953. For the exchange offering made to holdere of these bonde maturing through December 31, 1953, aee the May 1953 iseue, page A-1. The Treasury invited holders of Series $F$ and $G$ which began to mature in January 1954 to reinvest the proceeds in other series of savinge bonds. In the tables which follow, Series $A-F$ and $J$ sales are inoluded at 18 eue price and total redemptions and amounts outstanding at ourrent redemption values. SeriesG, $H$, and $K$ are included at face value throughout. Matured bonds whioh have been redeemed are incluced in redemptions. Matured $F$ and $G$ bonda outatanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are tranaferred to matured debt upon which interest has ceased.

Source: Beginning Apr-11 1953, Treasury bond yields are roportod to the Treaoury by the Pederal Resoдvo Bank of fiev York, based an cloelns bid quotatians in the over-the counter market. Yiolde for prior periods were camputed on the basis of mean of cloaine bid and aak quotations. For definition of tarable bands, see footnotes to the "Treasury Survey of Ownerehip" in this 2esue of the "Tresoury Bullolin." Moody'a Investor Service ie the saurce far the average of Ann corporato bonde.
1/ Priar to April 1953, the ainglo eerloe an lone-tern taxablo Treasury bonds lncluded the following: April 1952 throueh Manch 1953, bands neither due nor callable for 12 yeare; October 1941 through March 1952
bonds nelther due nor callable far 15 years.
2) The long-term taxable Treasury bond everase vas revised boginning Apryl 1, 1952; see footnote 1. The old average for April 1952 was 2.62 percont.
3) Annual overase is based on the elngle long-torm eorles January throug March (bee footnote 1) and the 10-20 year serles theneafter.
4 Averego ecvera $8-1 / 2$ monthe beginning April 15, the inceptien date af this gories.
2/ Includee the $3 \%$ bonde of February 15, 1995, f1ret quoted on Janvery 28 1955.

Table 1.- Summary by Principal Sources
(In thousande of dollara)

Source: Intestisl Revenue Sexfice reporte for detail of colloctions by type of tax; dally Troasury statemont for budget recelpta fran intermal roverme through the fiacal yoar 1952 , and the monthly atatement of recoipte and oxpenditure of the Govermont for recelpts therosfor (for explanation of reporting bases in theoe publications, eee pase II). Certain detall by type of tax io ovallable only fram roturne illed at th the Intornal Revemu Service. The figuree ohown include collections for crodit to special accounts for certaln ialand poseersions, as roported by the Internal Roveme Serrice. Boginning with the flecal Jear 1955 they include the amonate of tax collected in Fuerto Rico upan articloe of merchandise of Puerto Rican manufactue comins into the Und tod Statos. Figuros for 1954 have been rovised to the same basio. Figureo for previous yeare include conly amounte collected at porte of entry into the Unitod stateo.
1 Difforonces betwon the smounts of intermal rovenue roported by the Internal Revenue Service as collecticas for given periode and the amounte roported in Treasury etatomente as budget rocelpte for the eame periode ances because of differonce in the time when paynente vore included in the reapective reporti. Tex parmonte are included in budget roceipte when they are reported as credste to the account of the freasurer of the Und ted Statos. Prior to Juiy 2954, they vore included in Intermal Rovenue Service collnction roports after the roturns to wirch thoy applied had been rocelved in intermal rovenue off1ce日. Undor procedure bogun in 1950 with withheld inccme tar and old-age inaurance tarce and lator oxtended to reilroed rotirement taxes and many excisoe, these taxos aro pald currently into Treanury depositaries and the depositary rocelpto, es evidence of ouch paymonte, are ettached to quartarly returno to the Internal Revenue snrice. thder this procodive, the pamenta are included in bulget
rece1pte 10 the month in whicb the depositary recolpts are qabued to the taxpayers. Revised accounting proceduree effective July 1, 1954, oxtended the samo prectice to Intornal Revenue Service collection roports.
2) Monthly and fiscal year 1956 figures include old-age ingurance tax on self-employment income, which is levied and collected as part of the 1ndividual income tax begimine with the taxable year 1951. Provious fiscal year figures exclude this tax, on the basis of estimates beginaing 1952 (bee footnote 3), and it' ie inciuded under "old-age insurance taxes."
3/ W'thheld Income tax and old-ase 1nourance toxes on employers and employees are paid into the Treasury in combined anounta hesinnine January 1951. In Internal Revenue Service roporte, current collections heve not been separated as to tipe of tax but the breakiown ohown for fiecal years baginning 1951 is beaed on estimatea made in accordance with provielons of Sec. 109 (a)(2) of the Social Securith Act Amendments of 1950, for transfor of tax recelpto to the Federel 0ld-Age and Survivors Inaurance Trust Fund.
4) Beginning with the Ilecal year 1955, collections shown include undietributed dopositary reco1pto and unclasoifled advance paymenta. For excise taxes these recelpta are included in the total anly. Total coliectione include "Taxe日 not otherwee claesifled," wisch werv included with mincelianeous exciee taxes prior to the August 1956 leeue of the Bulletin. (See Table 2).
5/ Repealed for yoars ond ing after June 30, 1945. Beginning 1951, included under "M1scellancous excise taxes."
6) Dotall is roported by quartere beginning with the fiscel year 1956. p Preliminary.

Source: Internal Revenuo Service reports for detail of collections by type of tar; monthly statecent of raceipts and expenditure of the Govorment for budget receipts iram internal revenuo. Certasn detall by tjpe of tax 10 evaliable anly on the bosis of returas filed with the Intemal Fevenue Service. The Ilsures shown include collections for credit to special accounts for certain 18land posee asiona, as reportod by the intomal Reveme Sorvice. Bogiming vith the fiocal your 1955, they include the emourte of tax collected in frorto Rico on merchandise of Puerto Rican manuracture caning into the tinited States. Figures for 1954 have been revised to the seme basis.
1/ Include old-age inourance thy an sels-mplojnent incano, inposed by tho Social Security Act Ameadrente of 1950 (Public Lav 734), opproved Ausust 28, 1950. The tax 18 lovied and collected as part of the individual incceso taz. For oatimated fiacal year breakdow, see Table 1
2) Withhold is. 3 mo tax and social socurity employment tares on employere and omployees are peid into the treoevry in comblned amounts, pursunt to tho Social Security Act Amendmonts of 1950. For oetimated fiecal year breakdown, see Table 1.
3/ tinder rovised eccountine procedures offoctive July 1, 1954, tax paymento Fade to banke wher the depoeirery recoipte ajsten are included in

Internal Reverue Service reporte of colloctions in the month in which the dopositary rece1pte are 18 sued instead of the manth in which tax returns supportai by the depositary recoipta aro received in intermal reverue offices, as vas the provious practice. The "undistributed depositary receipts" included in the collection repreeent the emount of depositary recoipts lssued during the period lose the amount received with the retume. In the cose of oxciee taxss, it is pot possible to olaseify the depositery rocelpte by type of tax unt11 the returns are recsived. Accordingly, the amount of auch undistributed dopoitary receipts is included oniy in the total of excioe taxeo. onclabsis1ed advance parmente voro included vith undistributed doposi= tary rece1pta prior to June and the flacal year 1955.
4) Includes $\$ 16,116,000$ adrances peyments of estato and gift taxes not further classilled.
5 Includee unidestifiod and oxcess colloctions and prosit from balo of acquired property. These collections vere included vith "Other exclae taxos" prior to the August 1956 18suo of the Bulletin.
$6 /$ See Tabla 1, footnote 1.
Lese than $\$ 500$. p Ereliminary.
$r$ Revised.

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15. 1934. Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and 18 published regularly in the "Tressury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United states are made Initially to the Federal Reserve Banka, which forward consolidated ilgures to the Treasury. Beginning April 1954, data reportsd by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individusls domicileo outside the United States and its Territories and possessions, the official institutions of forelgn countries, wherever such institutions may be located, and international organizations. "Short-term" refers to orlginal maturities of one year or less, and "long-term" refers to all other maturities. A detalled discussion of the reporting coverage, statistical presentation, and definitione appeared in the June 1954 issue of the "Treasury Bulletin,"
pages 45-47. As a result of changes in presentation introduced in that issue, not all rreakdowns previously published wlll be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide sumaries, by periods and by countries, of data on short-term banking liabllities to and claims on forelgners and transactions in long-term securities by foreigners, and present detalled breakdowns of the lstest avallable prellminary data.

Section IV provides supplementary data in five tacles which appear at less frequent intervals. Table l, shortterm foreign llabilities and clalms reported by noninancial concerns, is published quarterly in the January, April, July, and October 1saues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3 , estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December 1ssues. Table 4, foreign credit and debit balances in brokerage accounts, appears semannually in the March and September isoues. Table 5 . short-term llabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually in the April issue.
