## Reporting Bases

Data on recelpte, expenditures, and debt which appear in the "Treaeury Bulletin" are baaed largely on two Treasury flnancial reporta, the "Dally statement of the United Statea Treaaury" and the "Monthly Statement of Racelpta and Expendituree of the United Statea Government. ${ }^{n}$ Gertain monetary atatiatlca are babed at least in part on the "Circulation Statoment of United Statea Money." Where theae etatementa are given as sources for individual tablea, they are cited by name only. Thelr reapective reporting basea are desoribed below. For other data in tha Bullatin, information on courcea or reporting basea ia given in conneotion with the tablee themeolvea.

The monthly atatement of receipta and expenditurea wae flrat publiahed for February 1954, and replaoed the dally atatement as the primary aource of information on budget reaulta and other recalpt and expenditura data clasalfled by typa of account. At the ame time, the dally etatenent was ohanged to a atatement of cash depoaita and withdrawale alfecting the account of the Treasurer of the Unlted States. Both publications have provided comparative 1 gurea on their reapective basea from the beginning of the flacal year 1953. The announcement of February 17. 1954, with reepect to thee reporting changee way be found in the April 1954 iesue of tha Bulletin.

The monthly etateraent ahows all recelpta and expenditurea of the Governvent, including those made from cath accounta held outalde the United States Treasury. The information is complied from raporta by the Treasurar of the Unitad Statea and by all other collecting and diebureing agenclea, including thoas agenciee which maintaln cheoking accounta in comarcial banka. Theee reporta covar traneactiona recorded in the accounte of the agencies during the reporting period. The net of the tranaactions as complied from theee reporta ia reconclled in the monthly atatemant to change in the balance in the Treasurar'a aocount and in caah held outalde the mreasurar'a account and changee in the publio debt outetanding.

Recelpte of taxae and cuetome dutlea are reported on a collections basie. Other recsipta are reported partially on a collections basia and partially on a depoelta basie. Expanditurea, except interest on the publio debt, are reported on the baela of checsa 1asued or caah paymenta made by diaburaing officere. Tranaactiona of an interfund or intragovernnental nature ars included on the same basie even though the actual laguance of checke may not be involvad. Intere日t oo the public debt ia included on an accrual balle beginning with ilgurea for June 1955 and the flacal year 1955. Prior to that, it was included on a due and payable haele. The same roporting hasle ee that in the monthly etatement providee the flacal year flgures for the Treaeury'a "Combinad Statement of Recelpta, Expenditurea and Balancea of the Unitad gtatea Governoent" and for actual receipte and expenditurea in the "Budget of the United States Government."

The daily etatement on the new basia was ilrat lasued for February 17, 1954. In the depoeita and withdrawale as ahown, no diatinction is made as to the type of accounta (budget, truet, eic.). Tho depoelta are on the baala of certifleatea of depolit cleared through the account of the Treasurer of the United Statea. Total withdrawale are on the basia of checks pald or cash diaburbamenta made out of the Treaeurer'a account. Soms of the withdrawal claesificationa ehown are reported on the basie of malled reporta of ohecka leeued and are adjusted hy meana of clearing aocounta to the total of checka pald. Except for relatively minor amounte, noncaah interfund and other intragovernontal tranaactiona are axcluded. The public debt ilgurea in the dally etaterant also are on a nolearance" baals, with the exception of thoae lebuance and retirement transactlone reportad on the basia of telegrame from Federal Reaerve Banke. Noncash debt tranaactiona are included, however.

The dally etetement before February 17, 1954, covered not only trannactiona cleared through the Treasurer'a aocount but also certain Governant agency tranagctiona whioh were handled through comarclal bank accounts, and lneluded noncash interfund and other intragoverntental traneactione. It provided information eimlar to that in thepreaent dally atatemant with reapeot to the atatua of the Treasureria accourt, and almilar to that in the preaent ond-of-month dally statement with respect to debt iseuanca, retirement, and amount outatanding. Recelpte and expenditurea, however, were clasalrled by type of account, and the budget reaulis ahown in the dally atatesent were used as the basie for reflecting the reaulta under the President'e budget program as onacted by the Congreas.

Recaipte ware on the basis of dopoaita as they cleared the Treasurer's account. Expendsturea cleared through the Treaaurer'a account were raported on two auccesalve basea. Through 1946 they were on the basia of checks pald by tbe Trasaurer of the United Statee. Eeginning with 1947, expenditurea made through the facilitiee of the Treasury Department'e Division of Diaburbement were on the basie of checka laaued, while certaln othera, princlpally those of the Department of Defense and ita predaceesor organizations, were on the basia of checka pald. Tranasotiona handed through commercial bank accounta, oonalating of market traneactione in public debt and gharanteed securltiea, were as reported by the agenciee. Intereat on the public debt was 1 n cluded on a due and payable basis beginning with November 1949 and on a checka-pald basia prior to that time.

The circulation etatement raflecta iranaactiona through the Treasurer'e aocount which effect monetary arocka of gold and allver and the amounta of coin and currency in the money aupply of the country. It la laaued later than the dally atatament, however, and the flgurea are based on tranaactions conaumatad during the reporting perlod even though oome may not have cleared the Treaeurer'a aocount during that period.

## Treasury Financing Operations

Certipicater and Notes Refunded
On January 31 the Treasury Department announced an optional exchange offering of $3-3 / 8$ percent l-year Treasury certificates of indebtediess maturing February 14, 1958 , and $3-1 / 2$ percent 3 -year and 3 -month Treasury notes maturing May 15, 1960, to holders of the $2-5 / 8$ percent certificates maturing February 15 and the $2-7 / 8$ percent notes maturing March 15. Holders of the $1-1 / 2$ percent notes maturing April 1 also were given the opportunity to exchange them for the new certificatea. Cash subscriptions were not received. The subacription books opened February 4 and closed at the close of business on February 5.

91-day bills. The pirat four of the new issues were In amounts equivalent to the maturing issues, averaging $\$ 1.6$ billion each. The issue dated January 31 was increased to $\$ 1.7$ blllion, or 100 mll lion more than the maturing issue, pursuant to an announcement on January 23. The purpoae of the increase was to augment the Treasury's opersting balance during the current period of seasonally low tax recelpts, it was stated. Average rates of discount on the new 1 sauea were 3.262 percent for January 3; 3.197 percent for January 10; 3.223 percent for January 17; 3.085 percent for January 24; and 3.283 percent for January 31.

In addition to the regular bills, a special 1saue of 91-day billa in the amount of $\$ 1.6$ billion
matured on January 16 . The refunding of this lasue matured on January 16. The refunding of this lasue

The certificates bear interest from that date at the rate of $3-3 / 5$ percent per annum, payable on a aemi-

2 As reported in the Treasury Surey of ownership; 1igures are preliminary for December 31, 1956.
annual basis on August 15, 1957, and on February 14, 1958, when they mature. The notes bear interest at the rate of $3-1 / 2$ percent per annum, payable on a sem1annual bae1s on November 15, 1957, and thereafter on May 15 and November 15 until the notes mature. Both securities were issued in bearer form only, in denominationa of $\$ 1,000, \$ 5,000, \$ 10,000$, $\$ 100,000, \$ 1,000,000, \$ 100,000,000$, and $\$ 500,000,000$.

Exchanges were made par for par in the case of the certificates maturing February 15 , and at par with an adjustment of interest as of February 15 in the case of the notes maturing March 15 and April 1. The results of the refunding are summarized in the accompanying table.

Treasury Bills Refunded and Increased
The five regular weekly $18 s u e s$ of Treasury bills maturing in January were refunded by new isaues of
by the same amount of 159-day Tax Anticipation bills was announced on January 4. Tenders were received on January 11, and the average rate of discount on those acoepted was 3.305 percent. The new bills are dated January 16, 1957, and will mature on June 24, 1957. They will be accepted at face value in payment of income and profits taxes due on June 15, 1957, and to the extent they are not preaented for this purpose, the face amount of the billa will be payable without interest at maturity.

The refunding of another special 1 saue of bills in the amount of $\$ 1,750$ million maturing February 15 , 1957, also by Tax Anticipation bills maturing June 24, was announced on January 31, at the aame time as the announcement of the exchange offering for certipicate and note maturities.

Note: Details of Tressury markst financing operations are ahown elsewhere in this issue of the "Treasury Bulletin," in the tables on "Offerings," "Allot-

The cash income and outgo data appearing in the "Treasury Bulletin," beginning with the February 1956 1ssue, are on a bsis consistent with receifts fron and paymenta to the public as derived in the 1957 and subgeonent Budgets of the United Stater, Special Analysis A. Reconcilistion to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget documents. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Flgures for back years have been revised where necessary in order to make them as nearly comparable with the Budget classifications as avallable data will peralt. For this reason certaln of the flgures differ somewhat from those published in earlier audget cccuments as well as in the Bulletin.

The Budget series of cash transactions 18 designed to provice information on the flow of money between the public and the Federal Goverment as a whole, and therefore includes transactions not cleared through the Treasurer's accunt. Recelcts end peyments include transactions both in budget accounts and in trust end deposit func accounts. Operations of Government-eponsored enterprises are included in payments on a net basis as reflectect in Treasury reports. Major intragovemmental transactions which are reported as both expenditures and receifts are eliminated from both. Nencash items which represent accrued obligations of the Govermment to make payments in the future are also eliminated from expencitures but are added later when actual payments are mace. Recelfts from the exercise of monetary authority (mostly selzniorage on silver) are excluded as not
representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected $2 n$ changes in the balance in the Treasurer's account and in cash held outsiae the Treasury.

Cash transactions through the Treasurer's account are sinilar in general concept to those incluced in the gudget series, but are Imited in coverage to transactions which affect the balance in that account. On the other hand, they include recelpts from the exercise of monetary authority, which are excluded from recelpts from the public in the Budget serles.

Beginning with flgures for the flscal year 1953, the series of transections with the public is beseco on the "Monthly Statement of Recelpts and Expenditurea of the United States Government," which 18 complled from reports by all collecting and disbursing offlcers and includes those transactions not cleared through the Treasurer's account. Cash deposits and withdrawals in the Treasurer's account, beginning with the figures for the same year, are reported in dally Treasury statements. For those years prior to 1953 both cash transactions serles are based on a single scurce, namely, the earlier basis of daily Treasury statements which reported separate classiplcations for budget results, trust account transactions, etc.

Table 7.- Derivation of Federal Government Net Cash Debt Transactions with the Public, and Reconciliation to Net Cash Debt Transactions through the Account of the Treasurer of the United States

Source: Soe Teble 1.
Footnotes an following page.

## Footnotes to Table 3

1/ For further detail, sese "Budget Receipts and Expenditurss," Teble 1. For further detall, see "Trust Account and Otbor Transectione," Table 2. 3 Trested es nonceeh refund deductions from recelpts when leeved and es cseh refund deductions when redeemed.
4) Consists of seigniorage on silver and increment resulting from reduction in the weight of the gold dollar; excluded from roceipte from tbe public but included in cesh deposits in the Treasurer's eccount.

- Less tian \$500,000.

## Footnotes to Table 4

1/ For firther dotail, ses "Budget Receipts and Expenditures," Table 2. For fucther detail, e00 "Truat Account and Other Transactions," Tables 3, 4, and 5. Includes net changs in belances in Covernent-gpansored enterprise deposit fund accounto with the Troasurer of the united States.
3/ Nat operating expendituree, or receipts ( - ), as measured by funais provided by or applied to net eecurity transactions refleoted in Treasury reports (ses Table 7). To a large extent, thess Govermment-sponsored enterprisss secure fund for their operations by dinect borrowing fram the public or by cashing Federal securities which they hold, end they apply the not income received from operations to roparment of borrowing fram the public or to invoeterent in Federal sseurities. On thet basis, not sx-
penditures for operations are shown in this table in term of the combined not of dieinvastmeat in Foderal sacurities and asle of agency obligations in tho maricot, and ngt recelpts fram operetions aro shown in terms of the combined not of inveatment in Federel eecuritise and redemption of agancy obilgations in the mariket.
4/ Not reportod parior to 1954.
5 Comgiets of only those marbot transections not claared through the Treasurer'e account.
6/ See Teble 7, footmote 1.
7 Doee not include receipts representing ecquired seouritiss amounting to $\$ 1,643,070$ (per velue).
Lase than $\$ 500,000$.

## Footnotes to Table 5

1/ Federal intermediate credit bank franckise tax and, beginning 1953, eleo reimbureemont by Panama Canal Company for expenaes and services.
2/ Includes relmbureement by Federal Old-Ase and Survivors Insurance Irust Fund for administrative expenses and, beginning fiscal year 1953, alao for refunds of taxee (treated $s$ a a offset to refunde retber tban being credited to receipts); estimntee of reimbureement by Fedsrel Dieability Insurance Trust Fund and Highway Truet Fund for administrative expeases and by Fighwey Trust Fund for refunds of taxes; reimbursement by the District of Columbis; and in 1949, proceeds of ahip eeles which had been carried in trust accounte panding sllocetion to budget receipts from eele of surplus property.
3 Consists of payment of earnings and repayment of cepital stock to the Treesury through 1952, and beginning 1955, peyment of franchise tax by benks for cooperetives.
4) Iacludes reletively amsil emounta of deductione from seleriee peid by trust funds and Government-eponeored enterprisee.

5/ Consiets of United Stetss and Government corporation sharss of contributions to employees" retirement funds, and payments to the Railroad Ratirement Account (for creditabls military eervice), the Unemployment Trust Fund, veterene' IIfe insurance funds, truat fund for technicel services and other aselatance under the agricultural coneervatioo progrem, ewande of Indian Cleims Coumiseion, and District of Columbia.
6/ Includes Dietrict of Columbia share of contributions to the Civil Service retirement fund; peyments to Federel Old-Age and Survivore Insurance Trust Fund by Reilruad Ratirement Board, and by Federel D1acbil1ty Inaurance Trust Fund eatimeted for 1957 and 1958; trensfars from Civil Service retirement fund to Foreign Service retlrement fund except in 1957 ectual expendituree; and tranafere from Reilroad Unemployment Insursace Administretioc Fund to Unemployment Trust Fund.

## Footnotes to Table 6

1) Accrued diecount on savings bonds and bills less interest pald on save ings bonds and bills redeemed.
2/ Public debt interest accruod and umpaid beginning June 30, 1955, effactive date of the change in accounting and reportins from a due and pajebls basis to an accrial basis; for 1954, consists anjy of public debt interest checks and coupens outstanding; net increase, or de crease (-). Not reported as a eoparate clearing account prior to 1954; interest reported when paid by Treasurer prior to November 1949.
3 Ireatod as noncash expenditures at the time of issuancs of the eecurities and as cash expenditures at the time of their redemption; net 1souance, or redemption $(-)$.
14 Issued in 1936 in exchangs for adjusted asrvice cartificatos bold by veterans of World War I. The bande matured in 1945.
2/ Issued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.
$6 /$ Part of the United States subscription to the cspital of the Internationel Benk for Reconetruction and Devsiopment and to the International Manstary fund wae paid in the form of nanintereat-bsaring, normegotiable notes payeble on demand (ses 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385). The last of the notes 1 asuad to the Bank vas redeomed in 1950.
If Hy wholly owned Government onterprises; begiming 1951, such net investmeats are reported seperately and are not included in sxpenditures (aөc "Truat Account and Other Transactions," Table 4).
8/ Checks outatanding less deposits 10 tranoit, and telegraphic roports from Federal Reserve Banks; increase, or decrease (-). For public dobt interest incluied prior to 1954, ses foctnote 2.

* Less than $\$ 500,000$.

## Footnotes to Table 7

1 In tbis table, beginning 1954, in accondance witb troatment in Budgst documents, net investment in inited Statss aecuritise by Governmenteponsored enterprises includes a amall amount by other saterprisss regardsd as representing ast transections with the public. In Teble 4 under "Trust Account and Other Transactions," thass amounts are included in trust and deposit fund account investment.
2/ Does oot include investmeat repreeeating acquired securitiee amounting to $\$ 1,643,070$ (par value).
3 Accrued diecount on savinge bonds and bille, whicb ie included in the principal of the public debt, less interest paid on savinge bonde and bllls redeomed.
4. Trseted as noncesb traneactions at the time of iseunace and as ceeb transactions at the time of redemption; net 1asunce, or rademption ( - )
5/ Ercluded from borrowing because the transections are treated ae expenditure in Table 6.
6/ Ercluded fram bostowing beceuse the transections are treated es deductions from recelpts in Teble 3.
7/ Market transections in public debt securities and agency obligetions. Less then \$500,000.

Table 1.- Summary of Federal Securities
(In millions of dollars)

Source: Daily Treasury statement.

1) Includes certain obligations not eubject to stetutory ifmitetion.

For amounte eubject to 11 imitstion, see page 1.
2) Excludes guaranteed securitise hold by the Treasury.

3/ Consists of FBA debentures begianing Marcb 1953.
4/ Special notee of the United States 1 ssued to the International
Monotary Furd in pasment of part of the United States subscription,
pursuant to provieions of the Bretton Woode Agreemente Act. The notes bear no interest, are nonnegotieble, and are payable on demand. Similar notes iesued to the International Bank and outstanding 1947-1949 are included under "Otber."

Table 5.- Disposition of Matured Marketable Issues of Treasury Bonds, Notes, and Certificates of Indebtedness

(Contimed on following pase)

Table 5.- Disposition of Matured Marketable Issues of Treasury Bonds, Notes, and Certificates of Indebtedness - (Continued)

United States savinga bonds were firat offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series $E, F$, and $G$ were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonda were offered three options: To redeem the bonds in caah in accordance with the original teme; to retain them with an extended maturity of 10 yeare at specified rates of interest accrual; or to axchange thom for Series $G$ bonds. A number of changes becsme effective May 1, 1952. The principal ones were: The rate of interest accrual on Series $E$ was increased, especially for the near term, with corresponding changes in extendad Series $E$; and Seriea $F$ and $G$ were replaced by two new issues, Series $J$ and $K$, also at higher interestrates. A now current-income bond, Sarles $H$, aimllar in interest return to Series $E$, was offered beginning June i. For
detalla of these changes oee "Treasury Bulletin" for May 1952, page $A-1$. Seriee $F$ and $G$ began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the Nay 1953 1saue, page A-1. The Treasury invited holders of Series $F$ and $G$ which began to mature in January 1954 to reinvest the proceeds in other serles of aavinge bonds. In the tables which follow, Series A-F and J 日alea are inoluded at lasue price and total redomptions and amounts outstanding at ourrent redemption values. SeriesG, $H$, and $K$ are included at face value throughout. Matured bonds which have been redeemed are inoluded in redemptions. Matured $F$ and $G$ bonds outstanding are included in the intereat-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1) Details by bertee on a cumulative basio and by perloda for Sortee $A=D$ combined W111 be found in the February 1952 and greplous 18eves of the "Treasury Bulletin."
2/ Incluies exchanges of matured Serles E bonde for Serles $G$ bonds beginning May 1951 and for Series K bonds begirming May 1952.
3/ Includes both matured and umaturod bonds; aee Teble 4.
4/ Includes total value of redemptions not yet claseified between matured and urmatured bond.s.
$5 /$ A ohange in procedure, begiming in June 1954, for procesining redeemed sevinge bonds has resulted in a high level of redemptions not jet claseified between matimed and umatured bonds. This increase temporarily obecures the relationsbip between the redemption colume ahowing Dalos price and accrued diecount in Teblee 2 through 4 and also the relaticnahip between the matured and umatured sectiona of Teble 4. (See also footnots 4.) The eubsequent distribution of this high level
of unclaselfied redemptions may be large enough in any montin to show redemptions of matured bonds for e serles in Teble 4 which are greater than the total redemptions of thet series as shown in Table 3, and to show a negetive in the umatured eection of Teble 4.
6/ Reductions were made in iebves and redemptions of Serlee E, B, F, G, $J$, and K in July 1954 to camponseto for the erroneove inclusion of reieeve transactions in June 1954 as reported in the daily Treasury statement. The omonte involvod were as follows: $\$ 18$ millian for 1 bever of Serler E and B and $\$ 17$ million for leoves of Seriee $\mathrm{F}, \mathrm{G}, \mathrm{J}$, and E ; and $\$ 35$ million for unclasbified retimemente.
7/ Salee began June 1, 1952.
8/ Comparable data ars not evailable prior to Jenuary 2950.
Includee exchanges of Seriee 1941 F and $G$ bevings bands for Treasury 3-1/4\% bonds of 1978-83.

- Lose than $\$ 500,000$.

Beginning December 1946, includes Investments by the Internetional Bank for Reconotruction and Development and the International Monetary Fund in apecial noninterset-bearing notes leaved by the U. S. Government.
9) Immediste postuar dobt peak.
p Preliminary.
Revised.

The Treasury Survey of Ownership covers securities Lssued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securlties held by all banks and insurance companies in the United States. Data were ilsst published for March 31, 1941, in the May 1941 "Treasury Bulletin."

Distribution of ownership by typee of banks and Insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve memberbank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

Table 1.- Summary by Principal Sources

Source: Internal Revenue Service reporte for detall of collections by type of tax; daily Treaeury otatement for budget receipte from 1 atormal revemue through the flecal yeer 1952, and the manthly otatement of recelpte and expenditume of the Goverrment for receipte therearter (for explanation of roporting beees in thooe publications, ese page II). Certain detall by type of tax 10 availablo only fram returne filad with the Internal Revenue Sorfice. The figuree ehom include collections for credit to epecial accounte for certain island poseessione, as reportod by the Internal Revemue Service. Beginning vith the flecal year 1955, they include the amounte of tax collected in Puerto Rico upon articlee of merchandiee of Puerto Rican manufacture coming into the united Statee. Figuree for 1954 have been revieed to the some basie. Figuree for previous yeare include anly amounte collected at porte of entry into the United Statoo.

1) Difforence between the anounte of 1 ntormal reveave reported by the Internal Reveaue Service as collecticas for given periode and the amounte reported in Tressury etatemente ce budget receipte for the some periode arose beceuse of differencee in the time when paymente vere included in the reepective reporte. Tax paymente ane included in budget receipte when they are reported as credite to the account of the Treasurer of the United Statee. Prior to July 1954, they vore included in Internal Revemue Service collection reparte after the returns to uhicb they applied had been recelved in internal revenue offlcee. Under procedura be sun in 1950 w th withbeld incano tax and old-age insure ice tezee and later estenled to rallroad retiroment taree and many in:10en, theoe taxee ane faid curron=ig into Treasury depositariee and the dop =- tery sece1pte, es evidence of oucb paymente, are ettached to quarterly .-4 ms to the Internal Revenue Sorvice. inder thio procedure, the paymente are Included in budget
receipte in the month in whicb the depositary receipte are ieeved to the tempayere. Revieed accounting proceduree effective July 1, 1954, ertended the eame prectice to Intermal Revenue Serrice collection reporte.
2) Monthly figurae include old-age ineurance tax on eelf-employment income, whicb is levied and collected as part of the fadividuel incame tax beginning with the taxeble year 1951. Fiecal jear 1gures oxclute thie tax, on the beele of estimatee beginaing 1952 (see footnote 3), and it is included under "Old-age insurance (see ${ }^{\text {taxeo. }}$
3 Withheld income tar and old-age insurance taxee on amployere and employees are paid into the Treaeury in combined amounte beginning January 1951. In Internal Revenue Service reporte, current collections have not been separated as to type of tax but the breakiown ahown for fiecal yoare beginaing 1951 in baned on eotimatee made in accordance with provieions of Sec. lCy (a)(2) of the Sociel Security Act Amendmente of 1950. For tranci or of tar recelpte to the Federal 0ld-Age and Surrivore Insurarce Trust Fund.
3) Beginaing with the "iecal fear ly55, collections shown include undiatributed depoeitary receipte and unclaeeified adrance parmente. For oxcise tazee $\therefore$ aee recelpte aro included ia the total only Total collectiors ime uide "Taxee not otherviee claeelfied," which ware included with miecellanoous exciee tave prior to the Augugt -56 1eve of the Bulletin. (See Table 2).
2/ Budget receipte bevc been reduced by this amoumt repreeenting withbeld income taxee transferred to the Government of Guam.
4) Repeoled for yeare ending after June 30, 1945. Begiming 1951, in-- cluded under "Miecellanoous exciee taxes."

If Detell 18 repori ed by quarters beginning with the fiecel jear 1956.

Certeln detall by typ of tax 1a avellable only $\infty$ the beale of returne filed with the Internel Reveave Service. The figure ebown inciude collectione for credit to opecial accounte for cartalo leland poesedelons, as reported by the Internal pereove Servics.
1 Includea old-age instrance tax on eelfemployaont income, imposed by the Social Seourity Act Amondmente of 1950 (Public Low 734), approved Augunt 28, 1950. The tax 10 levied and collectod as part of the
Individual income tax. For astimated Ilacal your breakdova, eee Tablel.
and employsee ore poid into the treneury in cojnont taxe on emplojere and exploysee ore paid into the Treneury in combinod amounte, pursunit to the Social Security Act Amandmenta of 1950. For setimated fiecal Jear broakdom, eee Table 1.
3/ Inder revieed accounting proceduree effective July 1, 1954, tax payments made to banks under the depoaitary receipta afeton are included in Internal Revenue Service reporta of collectione 10 the manth in which
the deposilary receipts aro 1 esued instead of the month in which tax returns aupported by the depositary receipts are received in internal revenue orficse, as was the previous prectice. The "Undietributed depoaitary recelpte" included in the collections represent the amount of depositary receipts issued duriag the period lese the amount received vith the returns. In the case of oxcias taxes, it is not possibls to classify the depositary recelpta by type of tax until the returne are recelved. Accarding 2 y , the amount of euch undletributed dspositary recelpte is included oniy in the total of exolse taxes.
4/ Includes edvance pasmente of estate and gift taxes not further clas. alfied in the amounts of $\$ 16,116,000$ and $\$ 19,381,000$ for 1955 and 1956, rsapectively.
5/ Includes unidentified and excses collections and profit from ale of acquired property. These collections vers included with "Other excise taxes" prior to the Ausust 1956 yeeus of the Bulletin.
6/ See Table 1, footnote 1.
I) See Table 1, footaote 5 .

Data relating to capital movemente between the United States and foreign countries have been collected eince 1935, pureuant to Executive Order 6560 of January 15 , 1934, Executive Order 10033 of February 8,1949 , and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries ia reported monthly, and is publiaheo regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banke, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "forelgner" as used in these reports covers all institutions and individuals domiciled outside the United States and 1 ts Territories and possessions, the official inetitutions of foreign countriee, wherever such institutione may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detalled discussion of the reporting coverage, statiotical presentation, and definitions appeared in the June 1954 isaue of the "Treasury Bulletin,"
pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by oountries, of data on ahort-term banking liabilities to and claime on forelgnere and tranaactions in long-term securgtles by forelgners, and present detalled breakdowns of the latest available preliminary data.

Section IV provides supplementary data in ilve tables which appear at lees erequent intervals. Table l, shortterm foreign liabilities and claims reported by nonfinancial concerns, is published quarterly in the January, April, July, and October 1saues of the Bulletin. Table 2, long-term forelgn liabilities and claime reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdinge of foreign countries and international inetitutions, are published quarterly in the March, June, geptember, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears eemiannually in the March and September issues. Table 5, short-term 11abilities to foreigners in countries and areas not regularly reported separately by banking institutions, $i \in$ presented annually in the April issue.

## Section I - Summary by Periods

Table I.- Net Capital Movement between the United States and Foreign Countries In millions of dollare; nogative figures indicate a net outflow of capital from the united States)
