Average ylelds of long-term bonds. ..... 46
Internal revenue collections ..... 48
Monetary statistics ..... 52
Capital movements ..... 56
Corporations and certain other business-type activities - statements of financial condition and loans by type ..... 69
Cumulative table of contents ..... 94

Note: Where calculations have been made from unrounded figures, the detalls may not check to the totals shown.

## Reporting Basee

ate on reoelpts, expendituree, and debt which appear in tbe "Treaeury Bulletin" are baeed largely on two Treasury financial raporta, the "Dally statement of the Unitad Statea Traasury" and the "Montbly Stetement of Reoelpta and Expenditurea of the Undted States Governoent." Certain monatary etatiatice are based at least in part on the "Circulation Statement of United States Money. Where theee etsterente are given as sources for individual tables, they are citad hy nawe only. Their respective reporting beses are desoribed below. For other data in the Bullotin, information on cources or reporting bases le given in conneotion with the tablee theseelvee.

The monthly aiateasent of recelpts and expenditures was firat pullehed for February 1954, and replaced the dally etatement as the primary eource of information on budget results and other recelpt and expenditure date claselfled by type of account. At the ame time, the dally etarement was ohanged to a etatement of cash depoaita and withorawale affecting the account of the Treasurer of the Unlted States. Both publlcations have provided comparative ilgurea on their reapective bases irom the beginning of the f1acal year 1953. The announcement of February 17, 1954, with reepect to theee reporting changea may be found in the April 1954 lesue of the Bulletin.

The monthly efatement ahows all recelpte and expenditures of the Governient, including those mads from cash accounta hela outaide the United Statea Treasury. The information io complled from reporte by the Treagurer of the United Statee and hy all other collecting and diebursing agencies, including those agenciee which maintaln oheoking accounte in commarcial banka. These reporta oover tranesctions recorded in the accounta of the agenciee during the reporting period. the net of the tranesctions as compliad from these reporte is reconciled in the monthly etatement to changee in the balance in the Treasurer'a socount end in oseh beld outside the Tressurer's eccount and changee in the publlo debt outetanding.

Recelpte of taxes and cuetoms dutios are reporied on a collectione basis. Other recespts ara reported partsally on a oollectiona haels and partially on e depoelte besie. Expenditures, exeept intereet on the publio debt, are reported on the haeit of ohecke lesued or caeh paymente made by dieburaing officera. Transations of an interfund or intragovernmental nature are Included on the same basie even though the eotusl lasuanoe of ohecks may not be involved. Interest on the puhlic deht is inoludad on an accrual baele baginning with figures for June 1955 and the fiacal year 1955. Frior to that, it was inoluded on a due and payable basie. The aame reporting basie as that in the monthly etatement providee the flacal year ilgures for the Treasury's Coxblned Statement of Recelpta. Expendituree and Ealancee of the United Stetee Government and for actual receipte and expendituree in the "Budget of the United States Government."

The dally statemant on the new hasia was flrat lasued for February 17, 1954. In the depoelte and withdrawale as ahown, no distinction le aade as to the type of accounts (budget, trust, etc.). The deposits are on the bsels of certificates of deposit cleared through the aocount of the Treasurer of the United States. cotal withdrawals are on the bais of checks pald or cast disburementa made out of the Treseurer'e account. Some of the Whthawal ciassifications shown ace reported on the basis of malled reporta of checke legued and are adjuated by meens of clearling accounte to the total of cheoke pald. Exaept for relatively minor apounts, noncseb interfund and other intragovermental transactions are excluded. The public debt flgures In the dally atatement also are on a "clearance" besis, with the exception of those leeuance and retirement tranesotions reported on the basia of telegrame from Federal Heserva Banka. Noncash debt tranasctions are includod, however.

The dally atatement before February 17, 1954, covered not only tranasctione cleared through the Treaeurer'a account but also certein Government agency transactione whioh were handed through comercial bank accounts, and included noncash interfund and other intragovernmental traneactione. It provided information alaliar to that in the present dally statement with respeot to the etatus of the Tressurer's account, and almilar to that in the preeent ond-of-montt dally atatement with reapect to deht laguanos, retiresent, and amount outstanding. Recelpta and expenditures, however, were clasalfled hy type of account, and the budget feauls shown in the dally statement were uaed as the bsals for roflecting the reaults under the President's budget program as enscted by the Congress.

Aecelpte ware on the basis of deposite as they claared the Trasurer's account. Expendstures cleared through the Trasaurer's sccount vere roported on two auccesslve basea. Through 1946 they were on the hasia of checks pald by the Treasurer of the United States. Beginning with 1947, expenditures wade through the facllities of the Treasury Department'e Division of Dleburaement were on the basis of checks lesued, whlle certain others, principally thoee of the Department of Defense and lta predecessor organizationa, were on the basis of checke psid. Transaotions bandled through commercial bank accounts, oonsisting of market transactions in public debt and guaranteed eecuritiee, were as reported by the agenolee. Interest on the publio debt wae inciuded on a due and payable basie beginning with November 1949 and on a checks-pald basle prior ro that time.

The oirculatioo statement reflecta transactione through tbe Treasurer's account which affect monetary atooke of gold and allver and the amounts of ooin and currancy in the money eupply of the country. It le laoued later than the dally statement, bowever, and the ilgures are based on tranazctions consumated during the reporting period even though eome may not have clesred the Tressurer's account during that poriod.

## Treasury Financing Operations

New Money offering for \$3 Billion
The Treasury certificates and notes offered in the February refunding were reopened for cssh subscriptions on March 18 following an announcement by the Treasury Department on March 15. The offering consisted of an additional $\$ 2,250 \mathrm{mlll}$ on, or thereabouts, of the $3-3 / 8$ percent Treasury certificates of indebtedness of Series A-1958, due February 14, 1958, and $\$ 750$ million, or thereabouts, of the $2-1 / 2$ percent Treasury notes of Serles A-1960, due May 15, 1960. The announcement stated that in addition up to $\$ 100$ million of notes might be allotted to Government investment sccounts. Both issues, which are dated and bear interest from February 15, 1957, were offered at par and accrued interest from that date to March 28 , 1957. The subscription books were open for one day only, on March18. Terms of the 1ssues were summarizzed on page A-1 of the February issue of the Bulletin.

Subecriptions to the certificates in excess of \$100 thousand were allotted 31 percent and subscriptions to the notes in excess of $\$ 100$ thousand were allotted 12 percent, but in both cases not less than $\$ 100$ thousand. Subscriptions for $\$ 100$ thousand or less for both $188 u e s$ were allotted in full. In addition to the amount allotted to the public, $\$ 100$ million of the notes were allotted to Government investment accounts.

Commercial banks, which for this purpose are deflned as banks accepting demand deposits, were permitted to subscribe for their own account without deposit, but were restricted in each case to an amount not exceeding the combined capital, surplus, and undivided profits of the subscribing bank. A payment of 3 percent of the amount of securities subscribed for was required on all other subscriptions. Any commercial bank qualified as a depositary was permitted to make payment for the new securities by credit in its Treasury tax and loan account up to the amount for which it was qualifled in excess of existing deposits.

Commercial banks and other lenders were requested to refrain from making unsecured loans or loans collateralized in whole or in part by the securities subscribed for, to cover the 3 percent deposits required to be pald when subscriptions were entered. A certification by the subacribing bank that no such loan was made was required on each subscription entered by it for account of its customers. A certification that the bank had no beneficial interest in its customers' subscriptions, and that no customers had any beneficial interest in the bank's own subscriptions, also was required.

## Tressury B1lls Increased

New 1asues of weekly Treasury bllls totaled \$7.0 blllion during February. They refunded $\$ 6.4$ blllion of weekly bill maturities, each of $\$ 1.6$ billion, and provided $\$ 600$ million cash. The first two new 1saues were for \$1. 7 billion each, and the second two for $\$ 1.8$ blllion each. The average rates of discount on the new $188 u e s$ were 3.133 percent for February 7; 3.057 percent for February 14; 3.182 percent for February 21 ; and 3.288 percent for February 28. The new issues carry 91-day maturities except for a 92 -day maturity for the issue of February 28.

In addition to the weekly bills, the special 188ue of 91-day bills which matured in the amount of \$1.75 blllion on Februsry 15, as announced last month was refunded by tax anticipation bills offered February 4, dated February 15, 1957, and maturing June 24, 1957. Tenders were accepted on February 7 for these 129-day bills in the amount of $\$ 1.75$ bilIIon at the average rate of discount of 3.231 percent. The bllls will be accepted at face value in payment of income and profits taxes due on June 15 , 1957, and to the extent they are not presented for this purpose the face anount will be payable without interest at maturity.

Note: Details of Tressury markst financing operations are ehewn eleewhere in this isew of the "Treseury Bulletin," in the tsbles on "Opferinge," "Allot-
ments," and "Dieposition," respectivaly, of marketable ieaues of bonds, noter, and certificstes of indebtedness, and in the tabls "Offerings of Treseury B111s."

## Source: Actual flguree through the fiacal yaar 1952 and the calendar

 year 1953 are from the dally Treasury atatemont, and theresiter in oacb cese they are from the monthly atatement of receipte and expendituree of the Govarnment (for explanation of reporting bease,aee Page II); eatimatas are from the 1958 Budget document, reloased
Jenuary 16, 1957, including effecte of proposed legialation. More
dotalled information with reapect to the figurea on this page will be found in succeeding tables.
1/ Grose recolpts leas transfors of tax recelpts to cortain trust funde (oeo page 2), and refunda of reco1pta.
2) Transactions of the Forelgn Ecconomic Coaperation Trust Fumd, ostab1 lahed under Section 114 (f) of the Economic Cooperation Act of 1948 ( 62 Stat. 150), are consolidated with budget expendituree.
3/ Consists of transactions of trust and deposit funds, investment by
Goverment agencies in public dobt securitios, and redemption or sale
of obligations of Government agencioe in the market; excees of re-
ceipta, or expendituree ( - ). For detail of content, eeo page 6.
4) For chocke outatanding, tolegraphic reporte from Fedorel Roesrvo Beaks,
public debt intereet accrued and umpaid begiming with Juno and the fiecal yoar 1955 (proviously included from November 1949 as intereat checks and coupons outatanding), and daposite in transit and oash beld outaide the Treaeurg beginning with the fiecal year 1954; not incroase, or dacrease ( - ).
5) For current month deteil, see section an "Statutary Dobt Limitation" in oacb isauo of the Bulietin. The imitations in offect during the period covered by this table and the deto when eacb became effective are as followe: Juno 9, 1944, \$260 billico; April 3, 1945, \$300 b1llion; Jume 26, 1946, \$275 billion; August 28, 1954, \$281 b1111om; and July 1, 1956, \$278 billion (temporary incroese onding on
June 30, 1957). Guaranteed securitiee are included under the limitation beginning April 3, 1945. Sevinge bande are included et cur rent redemption value beginning Juno 26, 1946, and ot maturity value prior to thot time. In the debt outatanding, eavinga bande are carried at current rodemption velue.
6/ Immodiate postvar debt peak of $\$ 279,764$ million was on February 28 ,
1946. Lese than $\$ 500,000$.

Source: Actual figures are from the monthly atatement of recelpta and expend itures of the Gorerment (for oxplanstion of reporting beace, see
page II); estimates are from the 1958 Budget document, released Jamuary 16, 1957, tocluding effocta of propored legialation.
Note: Figures in this table are for agencios as constituted et the time the expenditures were made, and therefore do not necesearily represent functions which are comparable over e period of time. For expenditures by functions on consiatent basia, se Table 3.
1/ Expenditures for Reconstruction Finance Corporation are inciuded under "Independent offices" through 1954, and under "Treasury Department, other ${ }^{n}$ therealter.
2/ Expenditurse for Federal Home Loen Bank Board are included under "Housing and Home Finance Agency" through 1955, and under "Independent officee" thereafter.
3/ Expenditures of $\$ 1$ million in 1956 from priar year appropriations to the Comerce Department for the Rama Road are included under that Department in this table, while the 1958 Budget document includes them under state Department in combination vith expenditures from the 1956 epproprletion far the same purpose.
4) Total includes allowances for contingencies amounting to $\$ 200$ million in 1957 and $\$ 400$ anlllion in 1958.
5/ Beginning with 1957, Federal ald for highwaye is excluded from
budget erpenditures and included in trust account expendituree (ase Tehle 1, footnote 14). Faynents mode initially from buaget eccounte in the early montha of 2957 had been fully retmbursed from the truat fund (astted ageinst other expendituree) by the end of Novenber.
6/ Expenditures for Alaska road oonatruction are incluied undar Interior Department through 1956 and under Comerce Department beginning 1957. December figuree include 1957 edjustiment for thie tranger.
IJ Effective January 1, 1956, the production credit corporations vere merged in the Federal intermediete credit banke, pureuant to the Farm Credit Act of 1956, epproved July 26, 1956 ( 70 stat. 659). Thereafter operet10ns of the banks (as mfred-ownership corporetions) are clasaifiod os truat enterpriae funde and are included net in trust account expenditures; previously the operetioas of the banke and the corporations, respectively, were claesified as public enterpriae funde and vere included net in budget expendituree. Adjustmenta for this change in claseificetion are incorporeted in the January figures.
8/ Effeotive Jume 30, 1955, intereet on the public dobt is reported on an accrual beals.
2/ Conalota of Federal payment and loans ond edvances.

12) Expendituree for 1357 include those for lending program -- publec agencios, made Fram "Faconstruction Finance Corporation Liquidation, Treasury" and applioable to functional clase1ficetion 515, "Community developmont and fecilitios," the soparate amounts of vilich oaxnot be roedily detorminad.
$13 /$ Soe footnote 11.

## Footnotes to Table 1.- (Continued)

Footnotes 1 through 6 follow Table 1.
I/ Through 1953, contributions to the Railroad Unosplojwat Insurance Administration Fund vere carried in the daily Treasury stetemont as mlecellaneous recelpte, while the 1958 Budget documant, Special Aralreis $I$, includes thom in omplojment taxes through 1952. Beginning 1954 the contributions are credited direct to the trust accome. For amounts of the ocotributions included in budget receipte, see "Treasury Bulletin" for February 1954, page 7.
8/ In the 1958 Budget document, Special Anelysia L, iatermal revenue taxer not otherwise claselfied are included in miscellanooua recoipte.
2) Ad Justmente heve been made pursuant to Sec. 201 (e) of the Sociel Security Act, as amended ( 42 U.S.C. 401 (a), as sollaws: For the fiecel year 1955, transfore were reduced by $\$ 300$ millico as an adjustment for excess tranafers to the trust fund of $\$ 90$ millico 101952 and $\$ 210$ million in 1953; for the flecel year 1956 , individual income taxes withheld were increesed by $\$ 249$ million representing edjustmente to carrect estimetes for the quarter onded June 30, 1955, and prior quartere by $\$ 149$ million and for the quarter ended September 30 , 1955, by $\$ 100 \mathrm{~m} 11100$, individual incorse taree not withheld were roduced by $\$ 4$ million reprosenting adjustment to correct estimates for 1953 and prior calendar years, and the oldage inevrance taxes and the transfers to the trust fund werv reduced by the net of these edjustmente or $\$ 246 \mathrm{mlllion}$; for October, indipidusl income taxes withheld vere increased by $\$ 136$ million representing ad juatmente to correct estimatos for the quarter ended December 31, 1955, and prior quarters, individual income texes not withheld vare reduced by $\$ 1$ million ropressating adjustweat to correct estimates for 1954 and prior calendar years, and the oldage ineurence taxes and the transfore to the trust fund vero reduced by the net or $\$ 134$ million.
10/ Beginning with the f1scal year 1957, specified percentages of certain excise tax recelpte are transferred to the Elghway Iruet Fund.
11. Amounts appropristed to the Federal Old-Age and Surrivors Inaurance Trust Fund are oquivaleat to the amounte of taxas collected and deposited for old-nge ineurance (42 U.S.C. 401 (a)). The Social Security Act Amendments of 1950, epproved August 28, 1950 ( 64 Stat. 477 ), chenged in certain respects the besis of transforring the epproprieted funde to the trust fund. Beginning January 1951, the amounts transferred curreatly for eppropriation to the trust fund are based on eetimateo of old-age insurance tax receipte wide by the Secretary of the Treasury pursuant to the provisions of Sec. 201 (a) of the act as emended, and are adjusted in later trans-
fers on the besis of wage and self-emploment income recorde mainteined in the Social Security Adminietration. The amount of old-age insurance tax refunde 16 peld from the trust fund as a reimbureoment to the gensral fund
12) The Federel Disebility Insurance Truat Fund wes esteblished by the Social Security Act Amondments of 1956, approved Ausust 1, 1956 ( 70 stat. 820 ). The act appropriated to the trust fund amownte equivalent to specified percentages of the vages and self-employment income, respectively, which are taxed for old-age insurance, and provided thet the amounts appropriated should be tranaferred from time to time to the trust fund on the same basis es transfers to the Federal Old-Age and Survivors Ineurance Truet Fund. Retes of tax vere increased by the percentages appropriated to the Federal Disebility Insurance Trust Fund, the increase heing applicable to wages poid and tazable years beginning after Docember 31.1956.
13/ Exeludes the Goverment'e contribution for crediteble allitary bervice ( 45 U.S.C. $228 \mathrm{c}-1$ (o)). Begioning 1952, amounts are approprited to the Reilroad Retiremont Account equal to the amount of tazes under the Railroed Retirement Tax Act deposited in the Treesury, lees reiunds, during each flacel year ( 65 stet. 222 and 66 stat. 371 ), and tranafers are mado currently. Froviously, amual appropriations were based, in offect, on estimated tax collections, with any necessary odjustmente made in aucceoding approprietions.
14) The Highway Revenue Act of 1956 (Title II of Public Lav 627, 34th Concrese, approved June 29, 1956) ectablished a Bighvay Trust Fund fram which are to be made, as provided by eppropriation acte, Federalald highvay expenditures ofter June 30, 1956, and before July $1,1972$. The act eppropriated to thie fuod amounts equivalent to speciried percentages of recelpte rrow cortain excise taxes on motor fuels, motor vehicles, tireo and tubes, and use of certein vehicles, and provided (Sec. $209(0)(3))$ thet the anounts eppropriated should be transferrad currently to the trust fund on the besis of estimates by the Secretary of the Treasury with proper edjuatments to be made in subsequant transfere. Previous to the fiacal year 1957 corresponding oxcise tax recelpte were included in budget receipts, and Federal-aid highway expenditures were included io budget expenditures.
15) Interest on rafunde is included in expenditures 10 Toble 2. Reimbursement Dy Federal Old-Age and Survivore Iasurance Trust Fund for refund of taxes for the Piscal jeer (sse footnote 1i) is netted ageinat internal revenu refunds for the month in which the reimburaument is mads.
16) Fet of reimbursement of $\$ 54$ millioo from tho Federal Old-Age and Survivors Insurance Trust Fund (see footnote 15). Tese than $\$ 500,000$.

The cash incore and outgo data sppearing in the "Treasury Bulletin," beginning with the Februsry 1956 issue, are on a basis consistent with recelpts from and payments to the public as derived in the 1957 and subsequent Budgets of the United States, Special Analysis A. Reconciliation to cash deposits and withdrawals in the account of the Tressurer of the United States 18 shown on the same basis as in the Budget documents. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classiflcations are made avallable month by month. Figures for back years have besn revised where necessary in order to wake them as nearly comparable with the Budget claselfications as avallable data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions is deaigned to provide information on the flow of money between the public and the Federal Government ss whole, and therefore incluces transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit furd sccounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovemmental transactions which are reported as both expenditures and recelfts are eliminated from both. Noncash items which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual payments are made. Recelpts from the exercise of monetary authority (mostly seigniorage on gilver) are exoluded as not
representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Tressury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with tbe public is reilected in changes in the balance in the Treasurer's account and in cash held outside the Tressury.

Cash transactions through the Treasurer's account are siollar in general concept to those included in the Budget series, but are limited in coverage to transactions whish affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Budget serieg.

Beginning with figures for the fiacal year 1953, the serles of transactions with the public is based on the "Monthly Statement of Recelpts and Expenditures of the United States Government, " which is compiled from reports by all collecting and disbursing officers and includes those trensactions not cleared through the Tressurer's account. Cash deposits and withdrawals in the Treasurer's sccount, beginning with the figures for the ame year, are reported in dally Treasury statenents. For those years prior to 1953 both cash transactions series are based on a aingle source, namely, the earlier basis of dally Treasury stetements which reported separate classiflcations for budget results, trust account transactions, etc.

Table 1.- Summary of Federal Government Cash Transactions with the Public (In millions of dollars)

Source: Actual Ifgures through 1952 are besed an the de1ly Treasury otatoment and thereafter they are beoed in part also on the monthly atatowent of receipts and expenditures of the Goverrment (for
oxplanation of reporting beses, see page II); estimstes are besed on the 1958 Budget document reloased January 16, 1957, Including affecta of proposed logislation.

(Cantinued on following page)

## Table 5.- Disposition of Matured Marketable Issues of Treasury Bonds, Notes, and Certificates of Indebtedness - (Continued)

Source: Bureau of the Putlic Debt Debt. Preliminary fiewres are from subscription and allotment reporte; innal ifgures are on "clearance" besle in deily Troasury atetoment.
1/ Original call and maturity dateo are usod.
2/ All by inveotore other than Federal Reserve Banke.
3/ The 2\% certificateo miturlang Auguat 15, 1953, were reapaned for the Dacember 1, 1952, rofunding (soe Table 3).
4/ The 2-1/2\% bondo maturing Decomber 15, 1958, vere reopened for the Deceraber 1, 1953, refunding (see Table 3).
5/ On November 9, 1953, the Treacury purchaeed from the Foderal Reeerte 5y otem and rotired \$500 million of the 2-1/8\$ Treesury notes maturing December 1, 1953. For further detall see "Treasury Bulletin" for November 1953, Pago A-1.
6/ It had been annownced that holdors of these bonde would be given an opportumity to exchange theim for another Troasury looue after Pebruary 15, 1954. Thie exchange offering vae included in the refundange of May $17,1954$.
I/ Tax anticipation eories; $\$ 2,669$ million redeemed for taxeo due March 15,1954 , and $\$ 3,233$ nillion redeemed for caah.
8) The $1-1 / 8 \%$ cortificatos maturing Ausuot 15, 1955, were roopened for the December 15, 1954, rofunding (000 Table 3).
2/ Tar anticipetion eerieo; \$2,216 m111ion rodoemed for taxeo duo March 15, 1955, and $\$ 1,518$ million redoemod for cash.

10 The $2 \%$ notes maturing August 15, 1956, vere roopened for the August 1 , 1955, refunding (seo Teblo 3).
11/ Tar anticipation series; \$1,917 million redeemod for taxeo due Juno 15, 1955, and $\$ 1,293$ 任ilion redeemed for cash.
12) Also designated tax anticipation cortificatos, acceptable at par plus accrued interest to maturity in pasment of incano and profite taxes due Jute 15, 1956.
13/ The 2-7/8\% notee maturing June 15,1958 , ware reopeced for the March 5 1956, refunding (seo Table 3).
14/Tar anticipation series; \$1,674 millicn redoened for tareo due March 15,1956 , and $\$ 528$ million redeomed for caeh.
15/ Tax anticipation esiles; of the 2\$ certificate $\$ 1,013$ million vere redeemed for taree and $\$ 473$ aillion for ceab; and of the 2-1/4\% cortificeteo $\$ 1,891$ million vere redeamed for taxee and $\$ 1,079$ m1llion for canh.
16) Durlag June 1956, $\$ 159$ millicn of $2 \%$ Treasury notee, maturing Auguat 1 1956, vere purchaed by the Treasury for account of the Sinicing Fund o rotsred.
17 Aleo deelgnated tax anticipotion cortificateo, accoptable at par plue accrued intereot to maturity in parment of incame and profite taxeo due June 15, 1957.
p Proliminary.

United Statea savings bonds were firet offered in arch 1935 and began to mature in March 1945. Series A-D ere sold between March 1935 and the end of April 1941, ne Series $E, F$, and $G$ were first offered in May 1941. hen Series $E$ began to mature on May 1, 1951, owners of he matured bonds were offered three options: To redeem he bonds in cash in accordance with the orlginal terms; o retain them with an extended maturity of 10 years at pecifled rates of interest accrual; or to exchange them or geries $G$ bonds. A number of changes becane effective ay 1,1952 . The principal ones were: The rate of ntereet accrual on Serles $E$ was increassd, especially for he near term, with corresponding ohanges in extendad eries $E$; and Series $F$ and $G$ were replaced by two new ssues, geries $J$ and $K$, also at higher interest ratas. - new current-income bond, Series $H$, similar in interest eturn to Series $E$, was offered beginning June 1 . For
details of these changas see "Treasury Bulletin" for May 1952, page A-1. Seriee $F$ and $G$ began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 188ue, page A-1. The Treasury invited holders of Series $F$ and $G$ which began to mature in January 1954 to reinveat the proceede in other series of savings bonds. In the tables which follow, Serles A-F and J sales are included at $188 u e$ price and total redemptions and amounts outstanding at ourrent redemption values. SeriesG, $H$, and $K$ are included at face value throughout. Matured bonde which have been redeemed are included in redemptione. Matured $F$ and $G$ bonds outstanding are included in the intereat-bearing debt until all bonds of the annual seriea have matured, when they are transferred to matured debt upon which interest has ceased.

Table 3.- Sales and Redemptions by Periods, Series E through $K$ - (Continued)
(In millions of dollars)

Table 4.- Redemptions of Matured and Unmatured Savings Bonds
(In millions of dollars)

Sounce: Daily Treasury gtatement.
1 Detailo by eeriee on a cumuletive basis and by periods for Sersea A-D cambined will be found in the Pebruary 1052 and provious tsoueo of the "Ireasury Bullotin."
2/ Include exchangee of matured Seriee $E$ boals for Series $G$ bonds beginning May 1951 and for Seriee K bonds begiming May 1952.
3/ Includee both matured and umatured bonde; see Table 4.
4) Includee total valus of redemptions not jet cleselfied betreen matured and unmatured bonds.
$5 /$ A change in procedure, begimaing in June 1954, for processing redoemed sevinge bonds has resultad in e high lovel of redemptions not yet clasaified betweon matured and mmatured bands. This inorease tempo= rerllj obscuree the relationship between the redexption colums ehowing ealee price and accrusd discount in Tablee 2 through 4 and also
the releticnahip between the matured and urnatured enctions of Teble 4. (See also sootnote 4.) The eubsequent distribution of this high level
of unclaseified redemptions may be large enough in any manth to ehov redemptiong of matured bonds for a eeriee in Teble 4 wish are grueter redemptions of matured total rederptions of thet eeriee ns ehown in Table 3, and to than tha total redemptions of thet eeriee as ohown in
show a nagative in the unatured section of Tablo 4 .
6/ Reductians were made in iseves and redemptions of Seriee $E, B, F, G$, $J$, and $\mathbb{K}$ in July 1954 to compensete for the erraneons inclueion of reisaus troizanctions in Jumo 1954 as reported in the delly Treentry etatement. The amounta involved vere as follows: $\$ 18$ million for 1eevee of Seriee $E$ and H and $\$ 17$ million for 1esues of Seriea $F, G, J$, and K ; and $\$ 35$ million for unclaselfled retirementa.
7f Saloe began Jume 1, 1952.
8/ Comparablo data aro not availablo prior to Jenuary 1950.
Includee exchanges of Seriee $1941 F$ and $G$ aevinge bonds for treagury 3-1/4\% bonds of 1978-83.

- Jess than $\$ 500,000$.

Source: Internal Revenue Service reporte for detall of collections by type of tax; dally Treasury etatement for budget receipts from internal revems through the fiecal year 1952, and the manthly etatament of recolpte and expenditures of the Goverment for receipte thereafter (for axplanation of roporting basee in these publicetions, see page II). Certain detail by type of tax is evailable only fram returas filed with the Intermal Revenus Service. The figuree shown include collections for credst to epecial accounte for certain leland poseeseions, as reparted by the Internal Revemue Servico. Beginning with the flecal yoar 1955, they include the amosnte of tar collected in Puerto Rico upan articlee of merchandise of Puerto Rican manufacture coming into the thited States. Fisures for 1954 hare been revieed to the beme basis. Figuree for previous yeare include onis mounte collected at porte of ontry into the Uuited Statee.

1) Differences botween the amounte of internal revenve reported by the Intornal Revenus Service as collections for given perfods and the emounte reported in Treasury etotaments as budget recoipte for the same periode aroee because of differences in the time when pafments wore included in the respective reporte. Tar pafments are included in budget receipte when they are reported as crodste to the account of the Treasurer of the Onitad Stoteo. Prior to July 1954, they wore inciuded in Intornal Revenua Service collection reporte after the returns to which they applied hed been recoived in intermel revenue offices. Under procedure begun in 1950 with withhold incano tax and old-age ineurance taxes and later ortonded to rallroed retirement taxos and many exciseo, theo taxeo are pald currently into Treasury dopoeitarioe and the depoeitary recelpte, as ovidence of euch paymonte, aro atteched to quarterly returns to the Intornal Revemus Serrice. Under this procedure, the pasmente are included in budget
receipts in the month in which the depositary receipts are issued to the taxpajere. Revieed accounting procedures effective July 1, 1954 oxtended the same prectice to Internal Revenve Serrice collection reporte.
2/ Monthly figures include old-age insurance tax on self-employment income, which ie levied and collected as part of the individual income tax beginning with the taxable yoar 1951. Fiacel year ifguree exclule this tax, on the besie of eetimates beginiag 1952 (see footnote 3), and it 1s included under "Old-age ineurance
taxes."
3/ Withheid incune tax and old-age insuranoe taxee on employere and employees are paid into the Treesury in cambined amounts besinaing January 1951. In Intormal Revenue Service reporte, current collections have not been soparated an to type of tax but the breabiown show for isecal years baginniag 1951 is based on estimater made in accordance with provielons of Sec. 109 (a)(2) of the Social Security Act Amendments of 1950, for transfer of tax recelpte to the Federal 0ld-Age and Survivore Insurance Trust Fund.
2) Beginniag with the fiecal year 1955, collections shown include undiptributed depositary recelpts and unclaselfied advance parmente. For exciee tares these recelpte are included in the totel anly. Totel colloctions incluide "Taxes not othervise claseified," which were included with miecellanoous excise taree prior to the August 1956 18sue of the Bullotin. (Seo Table 2).
2/ Budget receipts beve been reduced by this amount representing with beld income taree tranaferred to the Government of Guam.
6/ Repeeled for years ending after Juae 30, 1945. Besiming 1951, included under "M1ecellanoous exciee taxee."
If Detall ie roported by quartere beginning with the fiecal year 1956.

Data relating to capital movements between the United Stater and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries $1 s$ reported monthly, and is published regularly In the "Treasury Bulletin." Supplementary information 1a published at less frequent intarvals. Reports by banks, bankers, securities brokers and dealers, and induatrial and commercial concerns in the United States are made Inltially to the Federal Reserve Banke, which forward consolidated IIgures to the Treasury. Beginning April 1954, data reported by banks in the Territorles and possessions of the United States are included in the publiahed data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territorlea and possesalona, the offlcial ingtitutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-terw" refers to orlginal maturities of one year or less, and "long-term" refers to all other maturities. A detalled discuseion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 1ssue of the "Treasury Bulletin,"
pages 45-47. As a result of changes in presentation introduced in that $18 s u e$, not all breakdowns previously published will be exactly comparable to those now presented.

The first three section which follow are published monthly. They provide summarles, by perlods and by countries, of data on short-term banking liabilitiea to and claims on forelgners and transactions in long-term gecurities by forelgners, and present detalled breakdowns of the latest available preliminary data.

Section IV provides supplementary data in five tablea which appear at less praquent intervals. Table 1, shortterm foreign liabllities and claims reported by nonIinancial concerns, is published quarterly in the January, April, July, and October 1sauea of the Bulletin. Table 2,
long-term foreign liabilities and claims reported by banks and bankera, and Table 3 , eatlmated gold reserves and dollar holdings of forelgn countries and international institutions, are published quarterly in the March, June, Septamber, and December 1ssues. Table 4, fore1gn credit and debit balances in brokerage accounts, appears gemiannually in the March and September issues. Table 5, short-term liabllitles to forelgners in countrles and areas not regularly reported separately by banking institutions, is presented annually in the April issue.

[^6]The financial statements of corporstions and certain other businass-type activities of the Unitad States Government which appear in the "Treasury Bulletin" boginning with the August 1956 1asue are complled Irom reports aubmitted to the Treasury under Department Circular No. 966, isaued Jamuary 30, 1956, and Supplament No. 1, 1asuad June 1, 1956. The regulations so issued ara purauant to section 114 of the Budget and Accounting Procedures Act of 1950 ( 31 U. S.C. 66 b), and rapresent anothar step in the program of comprehensive and integrated Government accounting and rinanolal reporting for which authority was provided in that act. Thay superaede Budget-Trassury Regulation No. 3. 18susd under Executive Order No. 8512 of August 13, 1940, as amended by Executive Order No. 9084 of Marcb 3, 1942.

In coverage, the new regulations require submisaion of financial statementa by all wholly owned and mixedownership Government corporations specifically included in the Government Corporation Control Act, as amended (31 U.S.C. 846,856 ); and all other activities of the Government operating as revolving funds for which businesstype public enterprise or intragovernmental fund budgets are required by the Bureau of the Budget. Other sctivities and agencies whose operations, services, or functions are largely self-1iquidating or primarily of a revenue-producing natura, and activities and agencies whose opsrationa result in the accumulation of substantial inventories, investments and other recoverahle asseta, may be brought under the
regulations as agenoy accounting aystems are developed to the point where they are capable of furnishing the financial reports required.

Four kinda of financial statements are callad for by Department Circular No. 966 and Supplement No. 1. They are statements of financial condition, income and expense, source and applicstion of funds, and lang-range comitments and contingencios. All of the inancial statements required by the Circular will be presented in the Bulletin. The statementa of financial condition are published cuartsriy, as beiors, and appear as Section I in the serles of tables. The firat data under the new regulations are for March 31, 1956, and were presented in the Auguat 1956 Bulletin. Statements of incone and expense and source and application of funds continue to be published semiannually, and appear as Sectiona II and III. The first of these statements under the new regulations cover the Iiacal year 1956, and were published in the January 1957 Bulletin. Long-range commitments and contingencies will be addod on a semiannual basis for a aubsequent data. Within the sections, the agenciea are grouped in saparate tables by type, as follows: public enterprise and intragovernmental funds, certsin other activities, deposit funds, and trust revolving funds. In the first two of these tables the agencies are further grouped by major functions in accordance with the functional classification in the current Budget document.
