## Reporting Bases

Data on receipts, expenditures, asd debt which appear in the "Treasury Bulletin" are based largely on two Treasury rinancial reporta, the "Dally Statement of the United Statea Treasury" and the "Monthly statemert of Recelpte and Experditurea of the United States Governuent." Certain monetary statistics are based at least in part on the "Circulation Statement of Unitea states Money." Where theae btatements are glven as sources for 1 h dividual tables, they are cited by name only. Their reavective reporting bacea are descrlbed below. For other data in the Bulleitn, ifformation on aources or reporting bases is given in connection with the tablen theraelvea.

The monthly atatement of recelpta and expenditures was Ilrat published for February 1954, and replaced the dally statement an the primary source of Information on budget reaults and other recelpt and expenditure data claaalfled by type of account. At tha aame time, the dally atatement was cbanged to a atatement of cash depoolta and witherawala affecting the account of the sreasurer of the linlted States. Both publications have provided comparative ilgurea on thelr respective basea from the beginning of the flecal yeas 1953. The announcement of Febmary 17, 1954, wits reapect to theae reparting changes may be found in the April 195 ${ }^{\text {th }}$ Lasue of the Bulletin.

The monthly braterent bhows sll recelpta and expenditures of the Governaent, including those made frors cash accounts held outalde the United gtatea Treasury. The information is complied from reperts by the Treasurer of the United states and by all other collecting and diaburaing agencles, inclualigg those agenclea which maintaln checkirag accounta In cominerclal banks. Theae reports cover iransactiona recurded in the account of the agencie during the reporting period. The net of the transactions as complied from theac reporta is reconclied in the monthiy statement to chanzes in the bslance in the Treasurer's account and in caah held outside the Treasurer's account and changes in the public debt outatanding.

Recelpts of taxey and cuatoms dutles are reported on a collections basis. Other receipts are reported partially on a collections basio and partially on a deposite baals. Expenditurea, except interest on the public debt, are reported on the basia of checisa lasued or cash paymenta made by disbursing oflicera. Tranaactions of an interfund or intragovernmental nature are included on the same basis even thougb the sctugl isausnce of checks may not be involved. Interest on the public debt la included on an sccrual basis beginning with itzurea for sune 1955 and the flecal year 1955. Frior to that, it was included on a due and payable baais. The aame reporiligg basis as that in the monthly otatement providea the flacal year figures for the Treasury's "Combined Statement of Recelpts, Expenditurea and Balances of the United Statee Governwent" and for actual recelpis and expendituree in the "Budget of the Unitea States Governnent."

The dally gtatenent on the new basis was flrst dssued for February 17, 1954. In the depogits anc witherawals as ahown, no distinction 19 made $s a$ to the type of accounts (budget, trust, etc.). The deposita are on the basis of celtiflcstes of deposit cleared through the account of the ?reasurer of the United states. Total withirswala are on the basis of checks pald or cash disbursements made out of the Tressumer's account. Sone of the Withdrawal clasalfications shown are repcrited on the basia of malled reporte of checss lasued and are adjustec by meane of clearing accounts to the total of checke pald. Except for relatively minor amounta, noncash interfund and other intragovermental transactions are excluded. The sublic debt fisuree In the dally atatedent also are on a "clearance" basla, with the excertion of those laguance ard rettrenent transactions reported on the basis of telegrame from Federal Reserve Eancs. Noncash debt transactions are included, however.

The dally staterent before February 17, 195t, covered not only tranastions cleared through the Treasurer's account but also certain Government agency transactions which were handied through compercial bank accounts, and incluced noncash interfund and other intragovernental iranaactiona. It provided inforiation almilar to that in thepregent dally atatement with respect to the atatus of the Treasurer's account, anc similar to that in the present end-ot-month dally statement witl. wef;ect to dett lsauance, retdrement, and amount outctanding. Fecelpts and expendstures, however, were clagalifled by type of account, and the budget reaul ta ahchn in the dally at eie ent were usec as the basis for reflecting the resulta uncer the Fresicent'e budzet procram as enacted by the Coneress.

Recelpta were on the basis 2 depoalte as they cleared the Treasurer's account. Expenditures cleareo through the Treasurer's account were reported on two auccesalve bases. Through 1946 they were on the basde of checks falc by the Treasurer of the Unitec States. Beginning with 1947, expenditurea made throkgh the facllitles of the Freasury Departient's Division of Diebursement were on the basis of checks 2souec, while certain others, prir.cipally those of the Defert ont of Defense and ite predecessor organlzationa, were on the bagls of checika palô. Tranasctiona handled through comercisl bank accounts, conalating of market tranaactions in public debt and guaranteed securlities, were as reported by the agericiea. Interest on the public debt was included on a due and payable basia beginning witb November 1949 anc on a checka-palc basis prior to that ilme.

The circulation statement reflecta tranaactione trough the Treasurer's account which affect monetary stocks of golc and Gllver and the amounts of $\operatorname{coln}$ and currency in the money supply of the country. It is qasued later than the dally atatement, however, and the figurea are based on transactions consumated durine the reportine period even though eoma may not have clesred the Treasurer's account durine that period.

## Treasury Financing Operations

March Offering of Bllls, Notes, anc Eoncs
An offering of three securities for cash subscription was announced by the Treasury Iepartment on March 19, as follows:

> §2,000 million, or thereabouts, of special 289-day Treasury b1118 to be dated Apr 11 1, 1959, anc to mature January 15 , 1900;
> $\$ 1,500$ milison, or thereabouts, of 4 percent Treasury notes of Series $\because$-1963, at par, to be dated April 1, 1959, and to moture Kay 15, 1963;
$\$ 520$ million, or thereabouts, of additional 4 oercent Tressury bonds of 1969 , at par, orlyinally 1ssuec October 1, 1957, and maturine October 2, 1969, with interest from Arr11 1, 1959.

The subscription books were open for the notes anc boncs only on March 23. The Treasury blll\& were solo at auction on Warch 26.

Inclusion in the financinc of a Tressury bill 1 ssued on an auction basis and to mature Januery 15 , 1960, was the Irst step 17 a move by the Treasury looking to the eventuel establishment of a pattern of one-year maturities on quarterly dates in January, April, July, and October, which after their initial 18sue w111 be redeemeत at maturlty and replaced with one-year oblleations offered on an auction basis.

Any commerelal bank qualified as a depositary was permitted to make payment for all three of the new securities allotted to 1 tself and 1 ts customers by credit in its Treasury tax and loan account up to the amount for which it was qualified in excess of existing depoeits.

Allotments on subscriptions to the bonde totaled \$619 million, including 50 million allotted to Government investment accounts. Subscriptions received totaled about $\$ 1.5$ klllon. Savings-type investore were allotted 65 percent, commercial banks for thelr own account, 35 percent, and all othere, 20 percent. About -243 m11110n was subscribed by savings-type investor groups, \$942 million by compercial banks for their own account, and $\$ 322$ million by all others. Subscriptions un to a maximum of $\$ 25,000$ from savings-type investors and commercial banks anc all other subscriptions for ${ }_{\mathrm{W}}^{\mathrm{i}} 10,000$ or less were allotted in full. Subscriptions for more than these minima were allotted not less than the minima.

The over-allotment for the bonds was heavier than usual because of belated subscriptions which were timely riled, but which were transmitted to the Federal Feserve Banks with special Treasury b111 tencers which were not opened until after the allotments were made on March 26 . This accounted for sbout $\$ 14$ million of the bonds anc about $\$ 36$ million of the notes allotted.

The savings-type investors whose slibscriptions were - iven a 65 percent allotment are a follows:

Fension anc retirement sunds--public anö rrivate
Endowment funds
Insurance compan1es
Mutual sevings banks
Fraternal bevefit associations and labor unions' insurance funde
Savings and loan associations
Creait unions
Other savings orjanizations (not including commercial banks)
States, politiesl eubcivisions or instrumentalities thereof, and public funde

On subscriptions to the notes, allotments
 allotted to Government investment accounts. Subecriptions received amounted to \$3.] billion. Those in excess of $i 100,000$ were allotted 50 percent but not less than $\$ 100,000$; and those for $\$ 100$, 000 or less were allotted in full.

Subscriptions to the new notes from commercial banks for their own account were received without deposit but were 11 mited in each case to an amount not exceeoing 50 percent of the combined capital, surplus and undivided profits of the subscribing bank. From all others a cash payment of 2 percent of the amount of notes applied for was required not subject to withdrawal until after allotment.

Subscriptions to the bonds from conmercial banks for their own account, anล from states, political subdivisions or instrumentalities thereof, and public pension and retirement ana other public funds were received without deposit. Subscriptions from all others were required to be accompanded by payment of 20 percent of the amount of bonda applied for. Subscriptions from commercial banks for their own account were restricted in each case to an amount not exceeding 5 percent of the combined amount of time certificates of deposit (but only those issued in the names of indivicuals, an of corporetions, associations, and other ors゙anizations not operated for profit) and of saviņs ceposits; or 25 percent of the combined capltal, surplus and undivided profits of the subscribing bank, whichever was ereater.

## Treasury Financing Operations - (Continued)

Commercial banks and other lenders were requested to reirain from making unsecured loans, or loans collateralized in whole or in part by the notes or bonds subscribed for, to cover the deposite required to be paid when subscriptions were entered, and banks were required to make the uaual certification to that effect. All subscribers to all three 1soues were required to agree not to purchase or to sell, or to make any arreements with respect to the purchase or sale or other disposition of the securities subacribed for uncer this offering until after March 23 in the case of the notes ano bonce, and until after the closing hour for tenders on March 26 in the case of the bills.

The bonds are dated October 1, 1957, and bear interest from April 1, 1959. Interest at the rate of 4 percent per annuit is payable on October 1 , 1959, and thereafter on April 1 and October 1 in each year until the principal amount becomes payable on October 1, 1969. The bonde were 1acued in bearer form with interest coupons attached or repistered as to principal and interest, in denominations of $\$ 500, \$ 1,000, \$ 5,000, \$ 10,000$, \$100,000, and \$1,000,000.

The new notes are dated and bear interest from Apr11 1, 1959. Interest at the rate of 4 percent per annum is payable on a semiannual basis on November 15, 1959, and thereafter on May 15 and November 15 in each year until May 15, 1963, their maturity date. They were isoued in bearer form only and in denominations of $\$ 1,000, \$ 5,000, \$ 10,000$, $\$ 100,000, \$ 1,000,000, \$ 100,000,000$, and $\$ 500,000,000$.

Tenders for the 289-day Treasury blle were opened on March 26 . Tenders were received without deposit from incorporated banke and trust companies and from reaponsible and recognized dealers in investment gecuritiea. Tendere from others were required to be accompanied by payment of 2 percent of the fsce amount of Treasury bills applied for, unleas the tendera were accompanied by an express

Nota: Details of Trasury market financing operations are shown alsewhere in this issus of the "Treasury Bulletin," in the tables on "Offerings," nAllotments,"
guaranty of payment by an incorporated bank or trust company. Except for the depositarieal making payment by creoit in their Treasury tax and loan accounts, payment of accepted tenders at the prices offered was required to be maóe or completed in cash or other immediately availeble funcs on April I, The average rate of discount for the $1 s$ sue was 3. 386 percent. Tenders in the amount of $\$ 2,006$ million were accepteć. Included in the total were noncompetitive tencers for $\$ 400,000$ or less aggregatlag neerly $=273$ million which were accepted in full at the average rrice of accepted competitive b1cs.

13-Week and 26-Week 31118
Issuee of resular weexly Treasury bllla during Narch totaled 37.0 billion, refunding the 13 -week bllis maturing in the total of $\$ 6.6$ blllion and provicing 400 willion of cash. The four 13-we:k bllls amounted to $\$ 5.4$ billion (the irat for $\$ 1.5$ billion and the last three for $\$ 1.3$ billion each), and the four new 26 -week bllls amounted to $\$ 1.6$ billion (ol $\$ 400$ million each). The bills issued in March mature in 91 days anc 182 daya respectively. The ilrst two 18sues are dated March 5, and the subsequent 182 -day bllls on March 12,19 , and 26. The corresponding last three issues maturine in 91 days, while issued on those dates of March, consist of additionsl amounts of the Decerber 1958 iscues of 26 -week bills, so that all bills maturing on the same date will be of the same isoue.

Average rates of discount on the bills during March were as follows:

| 13-week |  | 26-weak |  |
| :---: | :---: | :---: | :---: |
| Data issuad | Approximate equivelent annual average rate | Issue dote | Approximate aquivalent <br> annual <br> averaga <br> rata |

ource: Actual figuree through the ifacal yoar 1952 and the calendar
year 1953 are from the daily Treabury atatemeat, and therobfter in
eacb cese they are from the monthly statement of receipta and ex-
pendtures of the Government (for explanation of reporting bases
see page II); 隹1mates are from the 1960 Budset dooument, re-
leseed Janvary 19, 1959, including effects of propoeed legislation.
More detelled information with respect to the flgures on this page
$v 11$ be found in succeeding tablea.
Groes recelpts leas transfers of tax receipta to certain trust funde
Tranesctione of the Porel
11 ahed under Section 114 (I) of the Economic Cooperation Act of 1948 ( 62 Stat. 150 ), are consolideted vith budset expenditurea.
3 Consists of transactions of trust and deposit funde, investmant by
Covernment agencies in public debt securities, and redemption or ale
of obligetions of Goverment agencies in the merket; exce日s of re-
ceipts, or expendituree ( - ). For detali of content, eee page 8.
4 For checks outstanding and telegraphic reports from Federsi Reserve Banks; public dobt interest accrued and unpaid beginning witb Jume and the 118c8l year 1955 (previously included from November 1949 as interest cbecks and coupons outatanding); slso deposits io transit and cbanges in cabh held outside the Troapury and in certain other accounta beginning with the flacel year 2954. Net increame, or decrease ( - ).
2/ For current month detail, nee aection on "Statutory Debt Limitation" In each iasue of the Bullatin. The limitations in effect during tbe period covered by this table and the date when each became eifective are as follows: \$275 billion, on June 26, 2946 ; $\$ 281$ billion, on August 28, 1954; $\$ 278$ b1111on, $\infty$ July 1, 1956; $\$ 275$ billion, on July 1, 1957; \$280 b1111on, on February 26, 1958; and \$288 bililon, on September 2, 1958 (temporary Incresse unt11 Jume 30, 1959; thereapter it $w 11$ revert to $\$ 283$ billion).

## Footnotes to Table 1-(Continued)

If Through 1953, contributions to the Raliroad Unemployment Ingurance Administration Fund were carried in the dally Treesury statement ss miscellareous recelpta, while the 1960 Budget document, Specis1 Anelysis L/, includes them in employment taxes through 1952. Beginnine 1954 the contributions are credited direct to the trust sccount. For amounts of the contributions included in budget receipts, seo "Treesury Eullet1n" for February 1954, page 7 .
3) In the 1960 Budset dociment, Spec1si Anisyas I, internal revenue taxes not otherwise clsselfied are included in miscellaneous recelpta.
I) Beginnine 1955, the fisures show reflect Adjustments to correct prior eatinates (see footnote 1.1), in millions of dollara as followa:

| Fiscal year or month | Incame tax recelved |  | Tax recelpta tranaferred to: |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Withheld | Not withrold | POASI <br> Trust Fund | $\begin{aligned} & \text { Disability } \\ & \text { Isa. Tr. Fund } \end{aligned}$ |
| 1955 | - | - | -300 | - |
| 1956 | +249 | - | -246 | - |
| 1957 | +136 | -1 | -134 | - |
| 1958 | -222 | -15 | $+237$ | - |
| 1959-Jan. | -82 | -7 | +83 | +5 |

10) Beginnarg 1957, includes callections under increased rates in the Eighvay Revenie Act of 1956 (see footnote 14).
11) Amounts appropriated to the Federal 01d-Age and Survivora Insurance Trust Fund are equivalent to the amounta of taxes collected and deposited for old-age inaurance (42 U.3.2. 401 (s)). Beginning January 1951, the amounta tranaferred currentiy for appropriaticn to the trist find are baoed on eatimates of ald age insurance tex receipte made by the secretary of the Tressury purgupnt to the provisions of Sec. 201 (e) of the Social Security Act, as anended ( 42 U.S.C. 401 (a)), and are adjusted in aster transfers on the basis of wago and salp-employment income records maintsined in the Sacial. Security Adminiatration. The amourst of old-age inaurance tar refunds 18 psid from the trust fund $a_{s}$ a reimbursemeat to the general fund.
12) Tbe Federal Dieability Insurance Trust Fund was eatablished by the Soc1e1 Security Act Amendments of 1956, approved Ausust 1, 1956 (42 U.S.C. 401 (b)). The act sppropristed to the trust fund amounts -quivelent to specified percentages of the wages and solfeemploymert income, respectively, which are taxed for old-ase insurance, and provided that the amounts appropristed ahould be transierred from time to time to the trust fund cn the same basis as trenafers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of
tex were increased by the persentages sppropristed to the Federsi D1sebil1ty Insurence Truat Fund, tha incresse being sppliceble ta wagcs paid and taxasle years bebinning siter December 31, 1956.
13/ Excludes the Government's contribution for creditable military serfice (';5 it.S.C. 228c-1 ( n )). Beginning 19j2, amounts are spprapristed to the Railrosd Retirement Account equsi to the amount of taxes under the Rellroid Retirement Tax Act deposited in the Treseury, 1pss refunds, during sech P1scsl year ( 65 stet. 222 and 66 Stat. 371), and transfers are made currently. Previously, ennuel sppropristions were based, in effect, on estimated tax collections, with any necessary adjustments made in succeading sppropristions.
13) Tbe Bighway Revenue Act of 1956, sppraved June 29, 1956 (23 U.S.C. 173) eatabliahed a Highvay Truet Fund from which are to be made, as provided by appropristion scts, Federal-a1d highway expenditiores after Jume 30, 1956, and befors July 1, 1972. The act appropriated to this fund amquats equivaleot to specifled percentages of recelpts from certain $\in x=1 \mathrm{se}$ taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided thet the amounts appoppristed ahould be transfarred currently to the trust fund on the basis of estimates by the Secrotary of the Tressury with proper edjustments to be mado in subsequent tranafers. The use tax was fapossd by the act und retos vere increased for the other taxes. Previaus to the ilscal year 1957 corresponing excise tax receipta Were inclixded in net oudget receipts, and Federal-aid highway expenditures were included in budget expenditures.
15/ Interest on refunds is included in expenditures in Teble 2. Reimburgement by Federal 01d-hge and Survivors Insurance Trust Fund for refund of taxes far the flacsl gear (see fcotoote 11) is nettod acsinat internal raveaue refunds for the month in which the relmbirasment is made.
16 Includes $\$ 139$ million increment from reduction in the veight of the gold dallar, which had been alluceted for paymenta to Federal Feserve Banks for making industrisi loans, and ves returned to the Trsasury 2ursuant to Public Lav 85-699, epproved Ałłust 21, 1958 (T2 Stst. 598 ). The unused portion of the sllocstion, $\$ 112$ m11110n, wss tranaferred from the trust account in which it bed been held; the \$27 million which hed been sdvanced to Federal Fegerve Banks wes repeid into a sposial find, from which it was appropristed to the Smell Business Administrstion to co avsilsble for grants under section 7 (d) of the Small Business Act, ss amended. See also "Trust Accaunt and Other Tranasotions," Trable 2, and "Monetary Statistics," Tsble 6 (prb11ahed quarterly).
17/ Net of relmbursement of $\$ 83$ mixlion from the Federal 01d-Age and Surfivors Insurance Trust Fund (aes footnote 15).

* Lose than \$500,000.

Footnotes 1 through 3 follaw Table 2 on perge 4.
1 Totals include ellcwances for contingenciea of $\$ 200$ million for 2959 and $\$ 100$ million for 1960.
5/ Includes unciessifled expenditure trearsers until these have been diatributed in final fiscsi yoar floures.
6/ Monthly figures shown will not add ta the fiscel yesp cumulativa becsuse prior to December they do not reflect the shift of the formar Civil Aeronsutica Admlnistration and the Civil Aeronsutica Board from "Comerce Departmeat" to "Independent Offices," pursuant to the Federsl Avistion Act of 1958, soproved August 23, 1958
(Public Lew 85-726), but the cumalative flsuree bave been edjustad to reflect it from the beginning of the fiacel year.
I) Beginnire 1955, consiata of net expenditures of the postal Fund, rePlecting the change in claselficstion of Poet Office trassactions to a public eaterprise revolving fund besla.
8/ Reported aa an eccrual basis effective June 30, 1955.
2 Consiste of Federal peyweat and loans and sdvances.
Includes $\$ 2,375$ million for laveatment in International Monetary Fund (suthorization to expend from debt rece1pta) under proposed leg1slation.
Lese than $\$ 500,000$.

Management and liquideting functions. enterprises (see Table 3).

The cash ircome and outgo data appearing in the "ťeesury Bulletin," beginning with the February 1956 isaue, are on a basia consistent with recelpte frod and paymerte to the public as derived in the 1957 and aubseouent Budgets of the United States, gpecial Ansiysis A. Fieconcil1ation to cash deposits and witharawals in the account of the Treasurer of the United States 18 shown on the same basis as in the budget documents. There is al8o shown the amount of net cash borrowing from, or repayment of borrching to, the public. Ey these arrangementa, deta in accorcsace with the sudget claseificetione are made avellable montt by month. Flgures for back yeara have bean cevised where recessary $1 \pi$ oreer to make thea an nearly comparable with the Budget claselflcations as avallable dats will perillt. For this reason certain of the flgurea differ gonewhat from those fublishec in earlier Eudget dccuments as well as in the Bulletin.

The Eudget aeries of cash transacilons is designed to frovice information on the flow of money between the Fublic anc the gederal Government es a witole, and therefore Includes trarsactions not cleared through the Treasurer's accunt. Recelcts and payments include transactions both 1r bucget accounts and in trist and deposit sunc accounte. Operations of Government-aponeored erterprlees are included in payments on a net basis as reflectec in mreasury reporta. Hajor intragovermmental transactions which are reported as both expenditures and recelfts are eliminated irom both. Nicncash iteme whlch represent accrugd obligations of the Government to make paymente in the future are aleo eliminated from expencitures but are added later when actual payments are rade. Receipta from the exercise of monetary authorlty (mostly gelgnlorage on sllver) sre excluded as not
representing cash recelved from the public. Federal cash. borrowing from the public includes net borrowing by the Treasury through fublic debt transections and aleo net borrowing by Government agencies and Government-aponsored enterpises through sales of their ont securities. It excludes changes in the public debt which do not represent alrect cash borroking from the public. The net effect of all these trsnsactions with the public is reflected in chanese in the balance in the Treasurer's account and in cash held outaide the Treasury.

Cash transactions through the Treasurer's account are s1rilar in general concept to those incluoded in the Budget serles, but are ilmited in coverage to transactions which affect the balance in that account. On the other hand, they include recelpte from the exercise of monetary euthorlty, which are excluded from recelpte from the public in the Budget series.

Beginning with flgures for the flecal year 1953, the serles of transactions with the public le based on the "Yonthly Stateaent of Recelpts anci Expenalturea of the Unitec States Government," which 18 complled irom reports by all collecting and disbursing ofilcers and includes those transactions not cleared through the Treasurer's account. Cash deposits and withdrawale in the Preasurer's account, beginning with the flgurse for the same year, are reported in dally Treasury statements. For those yeare prior to 1953 both cash transactions series are oasec on a sligle source, namely, the earller basis of dally Treasury stetements which reported separate classifica:1ons for budget resulta, trust account transactions, etc.

Table l.- Summary of Federal Government Cash Transactions with the Public ( In millions of dollars)

| Fiocal jear or month | Not caal trannastions vith the publio other than borrovinis |  |  | Plus: Net caph borrouing rram the public, or reparment ( - ) | Plus: Recelpte from exerciso of monetary authority | Equals: Ctange in caah belancee |  |

## Footnotes to Table 4

Net operating expenditurea, or receipta ( - ), as measured by funda provided by or applisd to net aecurity tranactions reilected in Treasury reporta (aee rable 7). To a large extent, thase covernmenteponsored enterprisea secure funds for their operations by direct borrowitg fram the public or by cashing Federal securitiea which tbey hold, and they apply the nat income received from operationa to repayment of borrowing from the public or to inveatment in federal aecuritiea. On that basia, not expenditurea for operations ara shown in this table in terms of the combined net of disinvestment in Federal aecurities and asle of agencs obligations io the market,
and net receipts from operationa are ahown in torms of the combined net of investment in Federal sacurities ard redemption of agency obligations in the market.
2/ Not reported prior to 1954 .
See Table 7, footnote 1.
Doea not incluae revciving fund receipta representing acquired aecurities amountims to $\$ 2,643,070$ (par value).
5/ Dillars from monthly atatament of racaipts and expenditures for Dacsmber 1958 beceuss of error in clagsificetion in that statament.

## Footnotes to Table 5

Federal intermediate credit bank franchiae tax throush December 1956 and, beginning 1953, also reimburaemeat by panama Canal cumpany for expensea and aervices.
Includea relmbursement by Federal 0ld-Age and Survivora Ineurance Trust Fund and Federal Disability Insurance Trust Fund for Administrative expenaea, and also for refund of taxea (treated as an offaet to refurds rather than being credited to receipta) beginning with 1953 for the former and 1959 for the latter; resmburgement by Highway Truat Fund for refunds of taxes; reimbureement by the Diatrict of Columbsa; peyment of dividenda, interest, etc., by Federal Netional Mortgase Asaociation a aecondary market operations; and Federai intermediste credit bank franchise tax and repayment of capltal atncis to the Treasury after December 1956 and before January 1959. Consiats of payment of earnings and repayment of capital stock to the Treaaury through 1952; and payment of franchise tax by banks for cooperativea beginning 1955, and by Federal intermediate credit banko beginning January 1959.
Includea relatively gmall amounta of deductions from salarlea paid by truet funds and Government-aponsored enterprises. Beginning witb flacal year 1958 excludea deductions from aslaries of Diatrict of

Columbla enployees (see footnote 6), and beeinning with flacal year 1959 excludea voluntery contributiona.
5/ Consiats of paymenta to employesa' retirement funds representing inited states and Government corporation shares of contributions; payments to the Rellrosd Retirement Acsount (for creditable military aervice), the Unemployment Truat Fund, veterans" ilfe Insurance funda, Judicial Survivora Annuity Fund, trust fund for technicel aervicea and otber asalatance under the ABricultursl conaervation program, and Dietrict of Columbie; and ewards of Indian Claima Compasion.
6) Includes peymeat by District of Columbie to the Civil Servicea retiremont fund for ita alage of contributiona, and beginning with 1958 elso daductions from 1ts payroll; paymente botwas Reilroad Ratiremant Account end Fodaral Old-Age and Survivors Insurance Trust Fund; transfers from Clvil Service retirement fund to Forsign Service ratirament fund from 1955 through 1957; and transfars from Ra11road Unamploymant Insurance Adminlatration Fund to Voomployment Trust Fund through 1955.

- Less then $\$ 500,000$.

## Footnotes to Table 6

Accrued diacount on aavinga bonda and billa leas intereat paid on asinge bonda and billa redeemed.
Fublic debt interest due and accrued beginning $J$ une 30 , 1955, effective date of the change in accounting and reporting from a due and payable basis to an accrual basis; for 1954, conalats only of putlic debt interest checka and coupona outatanding; net increase, or decrease ( - ). Not reported as a aeparate clearing eccount prior to 1954 Treated as noncaah expenditwea at the time of laauance of the aecuritiea and as cash expenditires at the time of their redemption: net igauance, or redemption ( - ).
Issued in 1936 in exchange for adjusted aervice certificatea held by
veterana of world war I. The bonda matured in 1945.
$5 /$ Iasued in 1947 in payment for accurulated leave. The laat of thear bonds matured in 1951.
6) Part of tha inited States gubacription to the capital of the International Monetary Fund was paid in the form of nonintereat-bearing nonnegotiable notea payable on demand (aee 1947 Annual Raport of the Secretery of tha Treasury, pages 48, 350, and 385).
If Checka outatanding leas deposits in tranait, and changea in other accounta; net increese, or decreeae ( - ). Priur to 1954 includes alap public debt intereat due and unpald (see footnote 2).

- Lesa than \$500,000.

## Footnotes to Table 7

Ic this table, beginning 1954, in accordance with treatment in Budget documenta, net inveatment in united Statea securities by Covernoentsponaored enterprisea includes a amall amount by other enterpriaea regarded as repreaenting net tranaactions with the public. In Table 4 under "Truat Account and Othar rranaactiona, theae amounta are included in trust and deposit fund account inveatment.
Does not include inveatmenta repreaenting scquired securitiea amounting to $\$ 1,643,070$ (par value) and donation of becuritiea amounting to $\$ 45,800$ (par value).
Differs from monthly statement of recelpts and expenditures for December 1958 because of arror in classification in that statament.

4/ Accrued diacount on aepinga bonda and billa, which ia included in the principal of the public debt, less intereat paid on aevinga bonds and bille redeemed.
5/ Treated es noncaah tranaactions at the time of lasuance and as cash transactiona at the time of redemption; net lasuance or redemption ( - ).
6) Excluded from borrowing becauge the transactiona are traated as expenditures in Table 6.
I/ Excludsd from borrowing because the tranaactiona are treated as deductions from receipts in Teble 3.
8/ Marlset transactiona in public debt aecuritiaa and agency obligationa.
Leas than $\$ 500,000$.

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States rellects not only budget reosipts and expenditures but slao trust, deposit fund, and public debt tranaactione.

The working cash of the Treasury is beld walnly in Treasurer's accounts with Federal Roserve Banka and branches. As the balanoes in theas accounta becone depleted, they are reatored by calling in (tranaferting) funds from the tax and laan acoolnta with thousands of commerclal banks throughout the country.

Deposita to tax and loao accounts occur in the normal course of businesa under. anlform procedure applicable to all banks whereby customers of banks deposit with them tsx paymenta end funda for the purchase of Government securities. In most cases the transaotion involves merely the transfer of money from a customer's
account to the tax and loan account in the aane bank. On occasions, to the extent authorized by the Treasury, banks sre parmitted to deposit in these accounts proceeda from subscriptions to public debt socurities entered for their own account as well as for the account of their customers.

The tax and loan account syatem parmita the zreasury to leave funds in banks and in the compunitiea in which thay arlse untll such time as the Treasury needs the funds for its operations. In this way tha Treasury is able to neutrallze the effect of its Iluctuating operations on bank reserves and the aconomy.

A detalled description of the Treasury's depositary syatem may be found in the Annual Report of the Secretary of the Treasury for 1955, pages 275-284.

Source: Dally Troanary statement.
1/ Consiste of Treasurer's cbecks outetanding, reserve and other deposits of Board of Trusteen of tha Postal Savings system, uncollected items, axcbanges, etc., beginning December 1954; prior to that time included also Post office Department and Postmastors' diebursins accounts (see rootnote 2).
2) Beginning December 1954, Poet Orfice Department and Postmasters"
disbursing accounts are 00 langer treated es liability accounts of tbe Tresaurer of the United States, but are clasaified and trested in the same manner as other diebureing accounts, in accordance with the change in metbod of reporting Post office transsctions (see "Budget Recelpts and Expeaditures," Toble 2). An adjustment of $=\$ 207$ million in the balance in the Treasurer'o account (and in the "clearing account") reflects this change.

4) Specisi notes of the United States fasurd to the Interrational

Yonetary fund in payment of part of tbe United Statea subecription pureuant to provielons of the Eretron Woode dereemente ALit. The notes boar no interaet, are nonnegotiable, and are payable on demand.
5 Includes gavines etamps, excess profits tay refund bonde, and currency items. For current month deta11, Bee "Statutory Dett Ijmitation," Tabla 2.

Tabic 2.- Computed Interest Charge and Computed Interest Rate on Federal Securities

Source: Deily Treasury otatement
Note: Tbe computed annual interast charge represents the amount of interest that would be paid If ach interest-bearing iseve outetandIng at the end of each month or year ehould remain outatanding for a year at the applicable ennual rate of intereat. The cbarge is computed for $\varepsilon a c b$ isaue by applying the appropriate annual intereat rate to the omount outatanding on that date. The ageregate charge for A11 intereet-besinh 1asues consitutas the total computed anninal intereat charge. The average annual intereat rate is computad
by dividing tha camputed annual interest charge for the total, or For any group of $188 v e=$, by the corresponding principal amount.

1. Excludee guaranteed securities held by tho Tressury.
2) Total ineludes "Other bonda"; see Table 3.

Included in debt outstanding at face amount, but diecount value ia used in computing annual interest charge and annual interest rate.
4) The annual interest charge and annual interest rate on united States eavinge bonds are computed on the basia of the rate to maturity opplied seainat the amount outstanding.

p Praliainary．

United Statea aringa bonda were ilrat offared in March 1935 and began to mature in March 1945. Seriaa A-D were aold between Maroh 1935 and the end of April 1941, and Seriea $E, F$, and $G$ were firat offered in May 1941. When Serlea $E$ began to mature on May 1, 1951, owners of the matured bonds were offered threa optiona: To redeem the bonds in caah in accordanca with the original terma; to retain them with an extended maturity of 10 years at apecifled rater of intereat accrual; or to exohange them for Seriea $G$ bonda. A number of changas beoane effective May 1, 1952. The principal onea ware: The rate of interest accrual on Series $E$ was Inoreasad, eapecially for the near term, with corresponding ohangea in axtended Serles $E$; and Seriea $F$ and $G$ were replaced by two naw 1ssuea, Serlea $J$ and $K$, alao at higher intareatratea. A new current-ircome bond, Serias $H$, aimilar in intereat return to Series $E$, was offered beginning June 1 . Detalla
of theae changea appear in the May 1952 Bulletin, page A-1. Serlea $F$ and $G$ began to mature on May 1, 1953. For the exchange offering made to holders of these bonda maturing through December 31, 1953, see the May 1953 18sue, page A-1. Salea of Seriea $J$ and $K$ were di acontinued art ar April 30,1957. An increase in interest ratea on Seriea Eand $H$ was announced on April 20, 1957, retroactive to February 1. Detalle of the changes appear in the Hay 1957 Bulletin, page $A-1$. In the tables which follow, Saries $A-F$ and $J$ alea are included at $i$ seue prioe and total redemptions andanounte outstanding at current redamption velues. Serioa $G$. $H$, and $K$ are Included at face valua throughout. Matured bonda which have been redeemed are included in redemptions. Matured $F$ and $G$ bonds outatanding sre included in the interestbearing debt until all bonds of the annual series have matured, when they are transferred to matured dobt upon which intereat has cesaed.

Table 3.- Sales and Redemptions by Periods, Series E through K - (Continued)

Source: Dally Treasury statement; Bureau of the Public Debt.
Footnotes at end of Table 4.

Table 4.- Redemptions of Matured and Unmatured Savings Bonds
(In millions of dollars)

Source: Delly Tressury stetement.

1) Details by series on cumulative basis and by periods for Serkea $A-D$ combined vill be found in the February 2952 and Frevious issues of the "Tressury Bulletin."
2) Includes exchanges of matured Seriss $E$ bonds for Seriss $G$ boads beginning May 1951 and for Series $K$ bonds beginaing May 2952.
3 Includes both matursd and unmatured bonds; see Table 4.
4 Includes total walue of redemptions not yet classified retreen matured and unmatured boads.
5/ A chsnge in procedure, beginning in June 1954, for processing redeened asvings bonds hss resulted in a ligh level of redemptions not yet clsasified between metured and unantured bonds. This increase temporarily obscures the relationahlp between the redemption columas showing sales price and accrued diacount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4). The subsequent distribution of this bigh level of unclasaified redemptions may be large enough in any month
to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of thet serles as shown in Table 3, and to show a nogative in the unmatured section of Table 4 .
6/ Reductions were made in isswes and redemptions of Seriea E, B, F, G, $J$, and $E$ in July 2954 to compengste for the erronsous inclusion of reisoue transactions 10 June 1954 as reported in the dally Tressury statemat. The amounts involved vere ss follovs: $\$ 18$ million for 1ssues of Serles $E$ and $H$ and $\$ 27$ m111100 for 1 ssues of Serles $F, G$, $J$, and $K$; and $\$ 35$ millioo for unclaseifled retirements.
I/ Series $F$ and $G$ esios ware diacontioued April 30, 1952, and Ser1ss $J$ and $K$ sales vere discontioued April 30, 1957. Sales plgures after April 30, 1957, represent adjustments.
3) Comparable data are not avellable prior to January 2950.

9 Includes exchanges of Seriss 2941 F and $G$ savings bonds for Treasury 3-1/4\% bonds of 1978-83.
$3-1 / 4 \%$ bonds of 1978 .
Less then $\$ 500,000$.

I) Tbese items represent the difference between the cost value end the monetery value of silver bullion revelued and held to eecure
2) The figuree in this column ere not cumuletive; se the amount of bullion held changes, the potentlel eeigaiorege thereon changes.

Data relating to capital movemente between the United states and foreign countries have been collested aince 1935, pureuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8,1949 , and mreasury regulations promulgated thereuncer. Information covering the principal types of data and the principal countriea is reported monthly, and 16 published regularly in the "Treasury Bulletin." Supplementary information is published at less freouent intervale. Reporta by banks, bankers, securities brokera and dealers, and incustrial and commercial conoerna in the United statea are made initially to the Federal Reaerve Banks, which forward consolidated ilgures to the Treasury. Seginning April 1954, data reported by banks in the Territories and possessions of the United states are included in the publishod data.

The term "foreigner" as used in these roports covers all institutions and individuals domiciled outside the United Statea and ita Territorles and possessions, the official inatitutions of forsien countriee, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detalled discussion of the reporting coverage, statistical preaentation, and definitions appeared in the June 1954 18sue of the "Traaaury Bulletin,"
pages 45-47. As a result of changee in presentation introduced in that issue, not all breakdown previously published will be exactly comparable to those now preaented.

The Ilrst three $6 e c t i o n s$ which follow are published menthly. Thay provide summaries, by periode and by countries, of data on short-term banking lisbilit1es to and claima on forsigners and transactiona in long-term securities oy forelgners, anc present detalled breakdowns of the latest avallable preliminary data.

Section IV provides supplsmentary data in five tables which appear at leas frequent intervals. Sable 1 , shortterm forelgn liabilities and clains reported by nonInancial concerns, 18 publishsd quarterly in the Jinuary, April, July, and october issues of the Bulletin. Table 2, long-term foreign $11 a b 1 l i t 18 s$ and claims reported by banks and bankers, and Table 3 , eatimated gold reserves and dollar holdings of forelgn countries and international Institutiona, are publiahed quarterly in the March, June, September, and December 1sauea. Table 4, foreizn eredit and debit balances in brokerage accounts, eppeare semiennually in the Nesch and Seotember isaues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutiona, 18 presented annualiy, appearing in the April $18 a 48$ through 1958 and in the March issue thereafter.

## Section IV - Supplementary Data by Countries $1 /$

Table 4.- Foreign Credit and Debit Balances in Brokerage Accounto - (Revised) 2/ (Poaition at and of period in thousanda of dollara)

The current financial etatemente of corporatiana and certain other business-type activitiee of the United states Government which appear in the "Treasury Bulletin" beginning with the Auguat 1956 Lesue are complled from reporte submitted to the Treasury under Department Circular No. 966 , 1 esued January 30,1956 , and Supplement No. 1 , 16 aued June 1,1956 . Tbe regulatione eo lesued are pureuant to Section 114 of the Budget and Accounting Procodures Act of 1950 ( 31 U.S.C. 66 b ), and represont another stap in the program of comprehenelvo and integrated Government accaunting and inanolal reporting for which authority was provided in that ant. They supersede Budget-Treaeury Regulation No. 3, 1eeued under Executive Order No. 8512 of Auguet 13, 2940, as amended by Executive Order No. 9084 of March 3, 1942, under which 11nanolal etatemente previouely publiahed in the Bulletin were oubmltted.

In coverage, Department Clroular No. 966 requirea eubmiselon of financial statements by all wholly owned and mixed-awnershlp Government corporations speciflcally included in the Government Corporation Contral Aot, as amended ( 31 U.S.C. 846, 856); and all other aotivitioe of the Government aperating as revolving funde for whiob business-type publio enterprise or intragovernmental fund budgete are required by the Bureau of the Budget. Other aotivitles and agencies whose operatione, servioes, or functions are largely eell-liquidating or primarily of a revenue-produoing nature, and atititiee and agencies whose operations result in the accumulation of substantial Inventaries, investmente and other recoverable aseste, may be brought under the regulatione ae agenoy aooounting gyeteme are devoloped to the polnt where they are capable of furniehing the innancial reporte required.

Four kinds of financial etstemente are oalled for by Department Circular No. 966. They are etatemente of finencial candition, income and expense, oaurce and spplication of funds, and certain commitments and contingencles. The etatementa of financial candition are
published quarterly and appear as Section I in the series of tables. The flret data under the new regulations are for March 31, 1956, and were presented in the August 1956 sulletin. Statements of Income and expeneo and source and application of funds are publighed semiannually, for June 30 and Deaember 31 reporting daten, and appear ac Soctions II and III. The ilret of these statements under the new regulation caver the ilsoal year 1956 , and were published In the January 1957 Bulletin. Wh thin the eectione, the agencles are grouped in separate tables by type, se follows: public enterprise revolving funde, intragovernmental revalving runde, certain other actlvities, deposit funde, and truet revolving funde.

Supplement No. 1 addad to the coverage by including all executive agencies and sotivitie not reparting under Department Ciroular No. 966, but required only a atatement of financlai condition annually as of June 30. These are mainiy not businese-type sotivities, and thase which had not yet develaped sormal accounting prooedures to provide complete balanoe sheet types of etatemente were suthorized temporarliy to report only the aseet side. Thus the aupplement rounde out provieion for the information on properties and assote of the United States Government which the Treasury has been asked to furnish to the Comittee on Government Operations, House of Representatlves, for a continuing etudy of the aseets of the Government. The 12ret oamprehensive reporting under supplement No. I 1e Lor June 30, 2957, and the data were publiahed in the Deoember 1957 1seue of the Bulletin as Part B of Table 4 in Seotion I.

A summary of loans outstanding for a eerles of dates 18 included in Seotion $I$ of the Bulletin presentation beginning with the June 1958 18sue. Two claselficatione of the loans are shown, one by type and one by agency. Data priar to 1956 are based on the earlier repartins requiremente, whicb provided for complete coverage of Government lending agencies.
