## Reporting Bases

Data on recelptg, expendituree, and debt whicb appear in the "Treasury Bulletin" are baeed largely on two Treasury Inancial reporta, the "Dally statement of the United Statee Treesury" and the "Montbly Statemant of Receipte and Expendituree of the United States Goverment." Certaln monetary etatietice are based at leat in part on the "Circulation Statement of United States Money." Where theee etatementa are glven as courcee for individual tablea, thay are cited by name only. Their respective reporting baees are deecribed below. For other data in the Bulletin, information on eources or reporting baaes is given in connection with the tables themeelves.

The monthly etatement of receipts and expenditures wae firet published for February 1954, and replaced the dally etatement ab the primary eource of informetion on budget reoulte and other recelpt and expenditure data claesified by type of account. At the ame time, the dally otatement was obanged to a etatement of cash depoeite and withdrawais effecting the account of the Treasurer of the United Statee. Soth publicetions have provided comparative figurea on their reepective baea from the beginning of the flacel year 1953. The announcement of February 17, 1954, with reepeot to theee reporting changee may be found in the April 1954 qeeue of the Bulletin.

The monthly etatement show all receipte and expendituree of the Government, including thoee made from cseh eccounte held outelde the United State Treacury. The Information 16 compiled from reporta by the Treasurer of tha Unitad $9 t a t e s$ and by all other collecting and diebureing agenciee, ineluding thoes agenciee which meintain checking eccounte in commerciel banke. These reporta cover transactiona recorded in the accounta of the agencle during the reporting perlod. The net of the traneactions ae complled from theee reports ie reconciled in the monthiy atatement to changee in the balance in the Treasurar'e secount and in cash held outelde the Treaeurer's account and changee in the public debt outetending.

Recelpta of texee and cuetoma dutiea are reported on a collectione basie. Other recelpts are reported partialiy on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the baele of checka leaued or ceeh paymente made by diobureing officere. Tranaactione of an interfund or intragovernmental nature are included on tha ame basia even though the actual lasuanoe of cbecke may not be involved. Intereet on the public debt le included on an acerual beele beginning witb ilguree for June 1955 and the flecal year 1955. Frior to that, it wae ineluded on a due and payable baele. The aame reporting baele as that in the monthly tatement providea the flecel yeer flguree for the Treasury'a "Combined Statement of Recaipte, Expendituree and Balancee of the United statee Government" and for actual receipte and expenditures in the "Budget of the United States Government."

The dally atatement on the new basie wae flret lecued for February 17, 1954. In the deposite and withdrawale as ehown, no dietinction se made as to the type of accounto (budget, truat, etc.). Tbe depoeite are on the basie of certificatee of depoeit cleared through the account of the Treasurer of the United Statea. Total withdrawale ere on the beele of checke pald or cacb disburemente made out of the Treasurer'e account. Some of tha withdrawal clae日ificationa ehown are reported on the basie of malled reporta of checke leeued and ere adjueted by meene of clearing accounte to the total of checke paid. Except for relatively minor amounta, noneabb interfund and other intragovemmental traneactione are excluded. The public debt figuree in the dally etatenent aleo are on a "clearance" basia, with the exception of thoe leeuance end retirement traneactiona reported on the belle of telegrame from Federal Recerve Banka. Nonce日h debt treneactione are included, however.

The dally etatement before February 17,1954 , covered not only tranaactiona clearad through the Treasurer'a account but also certain Government ageney tranesctione which were handed through commerelel bank eccounte, and included noncaek interfund and other intragovempental transectione. It provided information elmilar to that in the preeent dally etaterent with reepeot to the etetue of the mreasurer'e account, and similar to that in the preaent end-of-month dally statement with reepect to debt leeuance, retirenent, and amount outstending. Recelpte and expenditures, however, were cleselfled by type of account, and the budget realite ohown in the dally etatenent were used as the besis for reflecting the resulte under the President's budget pregram as enacted by the Congrese.

Receipte were on the basis of depoaita as they cleared the Treasurer'e account. Expendituree cleared through the Treaeurer'e aceount were reported on two auceeselve basee. Through 1946 they were on the basie of checke pald by tbe Treasurer of the United Statee. Beginning with 1947, expendituree made through the facilitiee of the Treesury Depertment's Division of Disbureement were on the basio of checke leeved, while certain othera, principally those of the Department of Defenee and 1 ta predeceseor organizatione, were on the baele of checke peld. Transactione handled through commercial bank accounte, oonalating of market tranactione in public debt and guaranteed eecurlitiee, were ee reported by the egenciee. Interest on the public debt wes included on a due and payable basia beginning witb November 1949 and on a checkepald beele prior to that time.

The oirculation etatement reflecte trensactione through the Treaureris account which affect monetary otock of gold and allver and the amounte of coin and currency in the money eupply of the country. It ie leaued later than the dally otatement. however, and the ilgures are baed on traneactions coneummated during the reporting period even though oome may not have cleared the Treaourer'e account during that period.

## Treasury Financing Operations

## July Financing

On June 25, 1959, the Treasury Department announced the offering at auction for cash subecription of two lesues of Treasury bllle. The 18sued consisted of:

258-day Treasury bills, tax anticipation seriee, for $\$ 3.0$ blllion, or thereaboute, dated July 8, 1959, and to mature Maroh 22, 1960; and

One-year Treasury bille for $\$ 2.0$ billion, or thereabouts, dated July 15, 1959, and to mature July $15,1960$.

The offering of one-year bills was the third step in the Treasury program to establish a pattern of one-yoar bill maturities on quarterly dates in Jamuary, April, July, and October. The tax anticipation bille will be accopted at face value in payment of income and profits taxes due on March 15, 2960; to the extent they are not presented for thls purpose the faos amount will be payable without interest at maturity.

Tenders for the 258-day bills wers opened on July 1 and for the one-year bille an July 8. Tenders were recelved without depoeit from incorporated banke and trust companies and from responsible and recognized dealers in investment securitiss. Tenders from others were required to bo accompanied by payment of 2 percent of the face amount of Treasury bills applied for unless the tenders were accompanied by an exprese guaranty of payment by an incorporated bank or trust company. For both 10 sues, any commercial bank qualified as a depositary was permitted to make payment for the bills allotted to itself and its customers by credit in its Treasury tax and loan account up to the amount for which it was quallifiod in excese of existing deposits. Payment by othere of accepted tenders at the prices offered was required to be made or completed in cash or other immediately avallable funde on July 8 for the 258 -day bills and
on July 15 for the one-year bills. Those also were the eettlement dates for credit in tax and loan accounts.

For the 258-day bills, the avorage rate of diecount was 4.075 parcent; and tendors in the amount of $\$ 3,005$ million were accepted. Included in the total were noncompetitive tendere for $\$ 400,000$ or lees aggregating over $\$ 331$ million whioh were accopted in full at the average price of accepted competitive bids.

For the one-year bills, the average rate of discount was 4.728 percent; and tenders in the amount of $\$ 2,000$ million were accopted. The amount included noncompetitive tendere for $\$ 400,000$ or less totaling over $\$ 186$ million whioh were accepted in full at the average price of accopted competitive bids.

## 13-Weok and 26-Weok B1118

Regular 18 sues of weekly Treasury bille during June totaled $\$ 6.6$ billion, an amount equivalent to the maturing 13 -weok and 26 -week billo. The four new 18 sues of 91 -day bills amounted to $\$ 4.7$ billion and the four now lesues of 182-day blls to $\$ 1.9$ blllion. Each 9l-day issue was for $\$ 1.2$ billion except that of June 4 which wae for $\$ 1.1$ billion. The 182-day 18 sues were for $\$ 0.5$ billion each except that of June 4 which was for $\$ 0.4$ billion. Average rates of discount on the now bille were as follows:

| 13-week <br> (Additional amount of bills of originel maturity of 26 weeks) |  |  | 26-week |  |

Source: Actual fisures through 1952 are from the deliy Tresaury statement and thereafter from the monthly atatement of recelpte and expenditures of the Govermment (for explanation of reporting baees see page II); estimates are from the 1960 Budget document, relessed Jenuary 19, 2959, and supporting deta, including effecte of proposed legiolation.
1/ For further detall, see tables under "Internal Revenue Collections." Breakdown wes not made in the deily Tressury statement and the monthly etatement for yeare prior to 2954.
3/ Beginnine January 2951, the distribution of receipte between individual income taxes and old-age and disability ineurance taxes is made in accordance with provielone of Sec. 201 of the Sociel security Act, as amonded ( 42 U.S.C. 401), for tranefer to the Federal Old-Age and Survivore Insurance Trust Fund (eee footnote 11), and after December 1956 also for tranefer to the Federal Dieability Inaurance Trust Fund (see footnote 12).

## Footnotes to Table 1 - (Continued)

7/ Through 1953, contributions to the Railroad Unemployment Insurance Adminiatration Fund were corried in the daily Treasury statement as miscelisneous receipts, whils the 1960 Budget document, Specisl Anelysis L, includss them in employment taxes through 1952. Beginning 1954 the contributions ars crsdited dirsct to the trust account. For amounts of the contributions included in budget receipts, see "Tressury Bulletin" for February 1954, pege 7.
8/ In the 1960 Budget document, Special Anelysis L, taxes not otherwise classified ere included in miscollaneous raceipts.
2 Beginning 1957, includes collections under incresssd retes in the Highway Revenus Act of 1956 (sse footnote 14).
10) Figuras shown include sdjustments (see footnote 11) 38 follows: In Jenuary, decreses in income tax of $\$ 82$ million withheld end $\$ 7$ cailition not withheld, and incrgeses in transfars of $\$ 83$ million to Federel Old-Age and Survivors Insurance Trust Fund and $\$ 5$ million to Federel Disability Insurancs Trust Fund; in April, incresse in income tex withheld of $\$ 129$ million and decreases in incoms tax not withheld of $\$ 2$ million end in transfers of $\$ 114$ million to Federal 01d-Age and Survivors Insursnce Trust Fund and 13 million to Federal Disability Insurance Trust Fund.
13. Amounts appropriated to the Federal 01d-Age and Survivors Insurance Trust Fund are equivelent to the amounts of taxes collectsd and deposited for old-age insurance ( 42 U.S.C. 401 (a)). Beginning Jenuary 1951, the amounts trensferred currently for appropriation to the trust fund ars based on estimates of old-age insurancs tex recelpts made by the Secretary of the Tressury pursuant to the provisions of Sec, 201 ( s ) of the Socis1 Security Act, as amended ( 42 U.S.C. 4 CI (a)), and are adjusted in later transfers on the besis of wage snd self-employment income records maintained in the Sociel Sscurity Adainistration. The amount of old-ege insurance tex refunds is reimbursed to the general fund by ths trust fund.
12) The Federal Dissbility Insurance Trust Fund wes sstablishad by the Socigl Security Act Amendments of 1956, approved August 1, 1956 ( 42 U.S.G. 401 (b)). The ect spproprieted to the trust fund emounts equivalent to specified percentages of the wsges and self-employment incoms, raspectivsly, which sre texed for old-age insurence, and provided that the amounts appropristed should be transferred from
, time to time to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurancs Trust Fund. Rates of tax ware increased by the percenteges eppropriated to the Federal

Disability Insurance Trust Fund, the incrass being applicsble to wages paid and taxable years beginning efter December 31, 1956.
13/ Excludes the Government's contribution for creditabls militery ssrvics ( 45 U.S.C. $228 \mathrm{c}-1$ (n)) Beginning 1952, smounts are appropriated to the Railrosd Retirement Account equal to the smount of texes under the Reilroad Retiremsnt Tax Act deposited in the Treasury, lees refunds, during eech fiscel year ( 65 Stat. 222 snd 66 Stat. 371), and tranefers ars made currently.
14. The Highwsy Revenus Act of 1956, spproved June 29, 1956 (23 U.S.C. 173) sstabilshed a Highway Trust Fund from which are to be made, as provided by eppropriation ects, Federal-aid highway expenditures after June 30, 1956, end before July 1, 1972. The oct appropristed to this fund amounts squivalent to specified percentsges of receipts from certain excise taxes on motor fusls, motor vehicles, tirss and tubes, and use of certein vehicles, and provided that the emounts appropristed should be transferred currently to the trust fund on the basis of estimates by the Secretery of the Tressury with proper edjustments to be made in subssquent trsnsfers. The use tax wes imposed by the act and rates were incressed for the other texes. Previous to the fiscal year 1757 corrssponding excise tax receipts were included in net budget recelpts, and Federal-aid higbway expenditures were included in budget expenditures.
15/ Intersst on refunds is included in expenditures in Table 2.
16/Trensfers reduced by 300 million to correct those mads sarlier on bssis of estimetes (see fontnots 11).
17) Includes \$139 million increment from reduction in the weight of the gold dollar, which had bsen sllocated for payments to Federal Reserve Banks for making industrial loans, and was returned to the Treesury pursuant to Public Law 85-699, approved August 21, 1958 (72 Stat. 698). The unused portion of the allocetion, $\$ 112$ million, was transferred fron the trust account in which it had bean held; the $\$ 27$ million which had been sdvenced to Federal Reserve Banks was repeid into a specisi fund, from which it wes eppropriated to the Small Business Administration to be svailabls for grants under section 7 (d) of the Smell Business Act, as amended. Ser siso "Irust Account and Otber Trensactions," Table 2, end Monetary Statistics," Table 6 (published quarterly).
18) Net of reimbursement of 83 million from the Federal Old-Age and Survivors Insurance Trust Fund for tax refunds (see fontnote 11).

* Less than $\$ 500,000$.

## Footnoter to Table 2 - (Continued)

Footnotes 1 through 3 follow Tabls 2 on page 4.
W Totals include allowencss for contingencies of $\$ 200$ ofillion for 1959 ond $\$ 100$ million for 1960.
5) Includss unclassifisd expenditure trensiars until these have been distributed in final fiscsl ysar figurss.
6/ Montbly figures ebown will not add to tbe fiscal year cunulative because prior to December they do not reflect the shift of tbe former Civil Aeronautice Administration and tbe Civil Asronautics Board frow "Comerce Dspertment" to "Independent Offices," pursuant to the Fsderal Avistion Act of 1958, spproved Auguat 23, 1958
(Public Law 85-726), but the cumulative figuree have been adjusted to reflect it from the bsginning of the fiscel yesr
7/ Beginning 2955, consists of net expenditures of the Postal Fund, reflecting the changs in classificetion of Post office trsnssctions to a public enterpriss revolving fund besis.
8/ Reported on an accrual bssis affective Juns 30, 1955.
9 Consists of Fedsral payment and loans and advances.
10 Includes $\$ 1,375$ miliion for investaent in Internetionel Monetary Fund,
-Les than 8500,000 .

Source: Actual figures are from the monthly gtatement of receipts and expenditures of the Government (for explanation of reporting bases, see page 1I); estimetes are from the 1960 Budget document, released January 19, 1959, including effecte of proposed legielation.
Note: Figures in this toble are for agencios so constituted at the time the expendituree vere made, and therefore do not neceasarily represent functions which are comparable over e period of time. For expenditures by functions on a consiatent besis, see Table 4 . Agency ahifts are reflected in this table as follow: Beginning 1955. Federal Home Loan Bank Board from "Horising and Hove Finance Agency" to "Independent offices," and Reconotruction Finance Corporation as indiceted in footnote 1 ; beginnine 1957, Alake Road Construction from "Interior Department" to
"Comerce Department," and Federal intermediate credit banks and production credit corporations as indicated in footnote 3; beginning 1958, Federal Facilitiee Corporation (remaining functione) from "Treasury Departumnt" to "Generel Services Adminiatration," and Informationel Media Guaranty Fund Trom "Find a appropslated to the President" to "Independent office日"; beginnine 1959, Federal Civil Defense Adminietration from "Independent offlces" to "Executive Office of the President"; and beginning December 1958 (except that estimates are for the full fiecsl year), the former Civil Aeroneutice Administration and the Civil Aeronautice Board from "Comerce Department" to "Inderendent offices."

1 Reconatruction Finance Corporation is included under "Independent offices" through 1954, and under "Treaoury Department" beginning 1955, except functione tranaferred to Export-Import Bank, Federal Netionel Mortgage Absocietion, Generel Services Adminietretion, and Small Buainese Administration. The corporation was abolished at the slose of June 30,1957 , by Reorganizstion Plen No. 1 of 1957, and ite remalning functions were trangferred to the Housing and Home Finance Adminigtretor, Adminiatretor of General Servicea, Administrator of Small Busineas Adminiatration, and Secretary of the Treasury.
2) Beginning 1957, Federal aid for highwaye is excluded from budget expenditures and included in trust account expenditures (see Table I).
3) Effective January 1, 1957, the production credit corporations were merged in the Federal intermed lete credit banko, pursumnt to the Farm Credit Act of 1950, epproved July 26, 1956 ( 12 U.S.C. 1027), and operationa of the marged agencies (as mixed-ownership corporationa) were claseified sa trust enterpriae fundo (see "Trust Account and Other Transactiore," Table 3); previously the operations of the banks and the corporètions, respectively, were cleseified as public enterprisa funds and vere included net in budget expenditimea. Remeining footnotes on page 3.

Source: See Table 1.
1/ Includes security tranasctions of Goverment-spansored eaterprises beginning 1955 (see Table 1, footnoto 1).
2/ Doos not include revolving fund recelpts representing acquired securities amounting to $\$ 1,643,070$ (par value); see also Teble 4.
3/ Differs from monthly stetement of recelpts and expenditures for Decomber 1958 because of error in cisesification in thet statement.
4) Operated es e truat enterpriss fund beginning January 1, 1957, et which time the production credit corporations were merged in the Federal intermediate credit banke, pursuant to the Farm Credit Act of 1956 ( 12 U.S.G. 1027); previously the banks and corporetions, respectively, were clessified es public enterprise funds, and vere included net in budget expenditures. Beginning January 1959 they are claselfied as government-sponsored onterprises, and the not transactions of the operating fund were then transferred from the trust fund and included under "Deposit fund sccounts."

5/ Secondary market operetions, es provided in the Housing Act of 1954, spproved Ausust 2, 1954 (12 U.S.C. 1719). Funde provided by the Troseury $(-)$, or ropald to the Tresiary, ars shown in a separate column (and correspondingly are reflectod not in budget expenditures).
6/ Includes District of Columbia operating expenditures; Indian tribel Punds; expenditures chargesble agalast increment on gold; and trust enterprise funds (net) which are not ohow separately. The Railroad Unemplogment Insurance Administration Fund is included for the period 1954 through November 1958 (see Teble 7), and the Employees' Life Insurance Fund (net) from its establishment in Alsust 1954.
I) Excluded from deposit fund account expenditures and included with similar security transactions of other agencles (seo Tables 4 and 5).

- Lose than \$500,000.
n.a. Not avallable.

## Source: See Table 1.

1) Soe Table 3, footnote 4. Inve日tment by the banke and corporatione es public enterprise funds 1951 through 1953 includes only those transactions cleared through the account of the Treasurer of the United States.
2/ For explanation of difference from Budget figuree, beginning 1954, see "Cesh Income and Outgo," Table 7, footnote 1.
3 Excludes net investment by Governmont-eponsored enterprises beginning with the flacal year 1955 (see Table 1, footnote 1).
4/ Includes net eale of $\$ 300$ million for adjustment of excese tranefers of tax receipte in 1952 and 1953 (see "Budget Rece1pte and Expond:tures," Table 1, footnote 16).

5/ Does not include investments representing acquired securities amounting to $\$ 1,643,070$ (par valua) and donation of securities amounting to $\$ 45,800$ (par value); see also Tablea 2 and 3.
6/ Differs from monthly statement of recelpts and expenditures for December 1958 beceuse of orror in claselficetion in that statemont.
1/ Management and liquidating functions as provided by the fousing Act of 1954, approved Ausust 2, 1954 (12 U.S.C. 1721). Investment 19 sil in guaranteed securities.
8) Beginning with thie period, figures include not transectione in suaranteed securities. See alao footnote 7 .
Lese than $\$ 500,000$.

Table 5.- Net Redemption or Gale of Obligations of Government Agencies in the Market
(In millions of dollare; negetive 1igures are excess of enles)

The caah incoma and outgo data appearing in the "Treasury Bulletin," beginning with the Fobruary 1956 Leaue, are on a basia conslatent with recelfta from and paymenta to the public as darived in the 1957 and aubaequent Bucgets of the United Statea, Spocial Analyaia A. Reconcillation to cash depoaita and withdrawala in the account of. the Treasurer of tha United States is shom on the same basis as in the budget documenta. There is also ahow the amount of nat cash borrowing from, or repayment of borrowing to, the public. By theas arrangementa, datain accordance with the Budget claasiflcationa are made avallable month by month. Figurea for back yeara have been reviaed where neceasary in order to make them as nearly comparable with the Buaget olasalficationa aa avallable data will permit. For this reason certain of the figures differ nomewhat from thoae publiahed in earlier Budget documenta as well as in the Bulletin.

The Budget eeriea of caah transactiona ia designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includea tranaactions not cleared through the Treaeurer'a acccunt. Recelpta and payments include tranaactions both In budget accounts and in trust and deposit fund accounts. Operationa of Govermment-aponaored enterprisea are included In paymenta on net basis aa reflected In Treaaury raporta. Major intragovernmental tranaactiona which are reported aa both expenditures and receifta are eliminated from both. Noncaah itema which repreaent acorued obligationa of the Government to make paymenta in the future are alao eliminated Irom expenditurea but are added later whan aotual paymenta are made. Recelpts from the exerclee of monetary authorlty (moetly eelgniorage on ellver) are excluded as not
representing cash recelvad from the public. Federal caah borrowing from the publio includes net borrowing by the Treasury through public debt traneaotione and alao net borrowing by Government agenaies and Government-aponoored enterprieea through ealea of their ofn aecuritiee. It excludes changes in the publio debt which do not repreaent direot cash borrowing frow the publio. The net effect of all theae tranaactione with the publio is reflected in changea in the balance in the Treasurer'a aocount and in cash held outelde the Treaaury.

Cash tranaactiona through the Treacurer's acoount are aimilar in general concept to thoae includad in the Budget aeriea, but are ilmited in coverage to traneactione whioh affect the balance in that aocount. On the other hand, they include reoelpte from the exeroles of monetary authorlty, which are exoluded from recelpta from the public in the Budget aerias.

Beginning with flgures for the fiscal jear 2953, the aerias of tranaactiona with the publio ie based on the "Monthly Statement of Recelpts and Expenditures of the United Statea Government," which is complled from reporta by all collecting and diaburaing officera and inoludea those tranaactiona not cleared through the Treasurer's account. Cash depoita and withdrawals in the Treasurer's account, beginning with the figures for the ame year, are reported in daily Treaaury atatementa. For those years prior to 1953 both cash tranasctione serles are based on a alngle source, namely, the earller basis of dally treasury atatements whoh reported aeparate claselfloatlons for budget reaulta, truat account transactiona, eto.

Table 1.- Summary of Federal Government Cash Transactions with the Public
(In millione of dollars)

Source: Actual fiburee through 1952 are besed on the deily freesury statement and thereaster they are based in part also on the monthly otatement of raceipts and expenditures of the Government ffor
explanation of reporting bases, see page II); estimates are from the 1960 Budget document, releaeed January 19, 1959, including effects of proposed legialation.

## Footnotes to Table 4

1/ Net operating expenditures, or receipts ( - ), ss messured by funds provided by or spplied to net security trenssctions reflected in Tresoury reports (see Table 7). To a large extent, these Governmentsponsored enterprises securs funds for their operations by direct borrowing from the public or by csahing Federal securities which they hold, and they apply the net income receivod from operations to repayment of borrowing from the public or to investment in Federsl securities. On that basia, net expenditures for operstions are shown in this tatie in terms of the combined not of disinvestment in Federal securitios and gale of agency obligations in the market,
and net receipts from operstions are shown in terms of the combined net of investment in Federal securitles and redemption of agency obligations in the market.
2/ Not reported prior to 1954.
3) See Tsble 7, footnote 1.
4. Does not include revolving fund receipts representing acquired securities amounting to $\$ 1,643,070$ (par value).
5 Dilisers irom monthly statement of raceipte and expenditures for December 1958 becsuse of error in classificstion in thet statement.

## Footnotes to Table 5

1) Federsl intermediate credit benk franchise tax through December 1956 and, beginning 1953, also reimbursement by Fanama cansl company for expenses and services.
2/ Includes reimbursement by Federsl 0ld-Age and Survivors Insurance Trust Fund and Federsl Disability Insurance Trust Fund for Adminis= trative expenses, and slso for refunds of taxes (treated ss an offiset to refunds rsther than being credited to receipts) beginning With 1953 for the former and 1959 for the latter; reimbursement by H1ghway Trust Fund for refund of taxes; reimbursement by the D1strict of Columbia; payment of dividend B , interest, etc., by Federal National Mortgage Association's secondary market operations; ond Federal intermediate credit bank franchise tax and repayment of capital stock to the Tressury \&fter December 1956 and before January 1959.
3 Conalats of payment of sarninge and repayment of capital stock to the Treasury through 1952; and payment of frenchise tax by banks for cooperatives beginning 1955, and by Federsl intermodiate credit banks beginning January 1959.
4 Includes relatively small amounts of deductions from salaries paid by trust fund and Government-sponsored enterprises. Beginning with fiscal year 1958 excludes deductions from salaries of District of

Columbia employees (see footnote 6), and beeinning with fiscsl year 1959 excludes voluntary contributions.
$2 /$ Consists of payments to employees' retirement funds representing United Ststes and Government corporation ahares of contributions; paymenta to the Railrosd Retirement Acsount (for creditable military service), the Unemplogment Trust Fund, veterans' Iffe ingurance funds, Judicial Survivora Annuity Fund, trust fund for technical services and other asbistance under the agricultural conservation program, and District of Columbia; and ewards of Indian Claias Commiseion.
6) Includes payment by District of Columbis to the Civil Service retirement fund for its share of contributions, and beginning with 1958 slso decuctions from its payroll; payments betwesn Railroad Fetirement Account and Federsi Old-Age and Survivors Insurance Trust Fund; transfers from Civil Service retirement fund to Foreign Serfice retirement fund from 1955 through 1957; and transfers from Rellroad Unemployment Inaurance Administration Fund to Unemployment Trust Fund through 1955.

* Less thar $\$ 500,000$.

## Footnotes to Table 6

1/ Accrued discount on savings bonde and bills less intereat paid on gavings bonds and bills redeemed.
2/ Public debt interest due and Accrued beginging June 30 , 1955, offective date of the change in accounting and roporting from $B$ due and payable basis to an secrual basis; for 1954, consists only of public debt interest checks and coupons outstanding; net incresse, or decrease (-). Not reported es a separate clearing account prior to 1954.
3 Treated $a_{s}$ noncash expenditures at the time of isauance of the securities and 8 s cagh experditures at the time of the ir redemption: net issuance, or redemption $(-)$.
4 Iasued in 1936 in excbange for adjusted aervice certificatea held by
veterans of World War I. Tbe bonds metured in 1945.
2) Issued in 1947 in payment for accumulated leave. The last of these bonds metured in 1951.
6) Part of tho United States subacription to the capital of the International Monetary Fund ws paid in the form of noninterest-bearing nonnegotiable notes paysbls on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385).
I) Checks outatanding less deposits in transit, and chanees in other sccounta; net increase, or decrease ( - ). Prior to 1954 includes also public debt interest due and unpald. (see footnote 2).

* Leas than $\$ 500,000$.

## Footnotes to Table 7

1) In this table, beginning 1954, in accordance With treatment in Budget documents, net investment in United States securities by Governmentsponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 4 under "Trust Account and other Transactions," these amounts are 10 cluded in truet and deposit fund account investment.
2/ Does not include investments representing acquired securities amounting to $\$ 1,643,070$ (par value) and donation of securities amounting to $\$ 45,800$ (par value).
2) Differs from monthly statement of recelpts and expenditures for December 1958 becsuse of error in classification in that statement.

4 Accrued discount on sevings bonds and bills, which is included in the principal of the public debt, leas intereat paid on savings bonds and b111s redeemed.
2/ Trested as noncsig transactions at the time of isausnce and as cash transactions at the time of redemption; net iasuance or redemption ( - ).
6) Excluded from borrowing because the transections are trested B expenditures in Table 6 .
I/ Excluded from borrowing becsuase the transactions are treeted as deductions from receipts in Tabls 3.
8/ Market transactions in public debt securities and agency obligetions. Lese than $\$ 500,000$.

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United Statea reflects not only budget reoelpts and expenditures but slso trust, deposit fund, and public debt transactions.

The working cash of the Treasury is held mainly in Treasurer's accounta with Federal Reaerva Banka and branches. As the bslanoes in these accounte become depleted, they are restored by calling in (tranaferring) funds from the tax and loan acoounts with thousande of commercial banks throughout the country.

Depoilta to tax and loan accounts occur in the normal courae of businesa under a uniform procedure applicable to all banka whereby cuatomers of banks deposit With tham tax paymenta and funde for the purohase of Governmant sacuritios. In moat cases the tranasotion involvas mersly the tranafer of money from a customer'a
account to the tax and loan account in the ame bank. On occasions, to the extent suthorized by the Tresaury, banks are parmitted to deposit in these accounts proceeds from subscriptiona to public debt securities entered for their own account as well as for the account of tinelr customers.

The tax and loan account syetem permite the Treasury to leave funds in banks and in the communities in which they arise until auoh time as the Treasury needs the funds for 1 te operations. In this way the Treasury is able to nsutralize the effect of its fluctuating operations on bank reserves and the sconomy.

A datalled deacription of the Treasury'a defositary ayatem may be found in the Annual Report of the Secretary of the Treasury for 1955, pagea 275-284.

1/ Consists of Treasurer's checks outstanding, reaerve and other deposits of Board of Trufters of the Postal Saringe System, uncollectod itemo, exchenges, etc., beginning December 1954; prior to that time included also Poat Office Department and Postmaters" disbursins accounts (see footnote 2).
2) Beginnins December 1954, Post Office Department and Postmasters'
disburaing eccounta are no langer treated as liability accounta or the Treasurer or the inited Statea, but are ciasaified and treated in the same manner as othor disbursins accounts, in accordance with the change in method of reporting Poat Orfice tranasctions (see "Budget Roceipta and Expenditures," Table 2). An adjustment of - \$207 million in the balance in the Treasurer'a sccount (and in the "clearing account") reflecta this chanze.

Noto: The computed annual intereat charge repreaenta the amount of
intereat that would be pald if each intereat-bearing isave outatand-
ing at the end of eech month or year ahould remain outatanding for e year at the epplicable annual rete of intereat. The charge ia computed for ach laeve by epplying the eppropriate annual intereet rete to the amount outstanding on thet dete. The aggregete charge for all intereet-bearing laeues constitutos the total computed annual intarest charge. The average annual intereat rate is computed
by dividing the computed annual intereat charge for the total, or for any group of iasuea, by the correaponding principal amount.
1 Excludea guaranteed securitiea held by the Treasury.
2) Total includea "Other bond a"; eee Table 3.

3 Included in dobt outatanding at fece amount, but diecount velue ia uaed in computins annual interest charge and annual interest reto.
b/ The annuel Interest charge and annual intereat rete on united Statea asyinga bonda are computed on the basia of the rete to maturity applied ageinet the amount outatandics.

Unlted States Gavings bonde were IIrst offered in March 1935 and began to mature in March 1945. Series A-D were sold between Maroh 1935 and the end of April 1941, anc Series $E, F$, and $G$ were 11ret offered in May 1941. When Series E begall to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extendod maturlty of 10 yoars at epecifled rates of interest accrual; or to exohange them for Serlee $G$ bonds. A number of changes beosme effective May 1, 2952. The prinolpal ones ware: The rate of Interest scorual on Series $E$ was inoreased, espeolally for the near term, with corresponding ohanges in extended Serles $E$; and Series $F$ and $G$ were replaced by two now 1scues, Series $J$ end $X, a l s o$ at hlgher interest rates. A new current-1rcome bond, Serise $K$, similar in interest return to Serles $E$, was offered beginning June 1. Detaile
of these changes appear in the May 1952 Bulletin, page A-1. Series $F$ and $G$ began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through Deoember 31, 1953, wee the Kay 1953 1ssue, page A-1. Sales of Serlee $J$ and $K$ were diecontinued aft er April 30, 1957. An increase in interest rates on Series Eand $H$ was announced on April 20, 1957, retroactive to February 1 . Detalls of the changes appear in the May 1957 Bulletin, page $A-1$. In the tables which follow, Seriea A-F and J eales are included at lesus prioe and total redemptions and arount outstanding at current redomption values. Series $G$, $H$, and $K$ sre inoluded at lace value throughout. Matured bonds which have been redeemed are included in redemptions. Matured $F$ and $G$ bonde outstanding are included in the interestbearing debt untll all bonds of the annual series have matured, when thsy are transferred to matured debt upon which interest has ceassd.

Solirce: Daily Treasury atatement; Debt Analyais Staff in the Office of the Secretary.

1) Detaile by seriee on a cumulative basie and by periode for Serien A-D combined will be found in the February 1952 and previous 1asues of the "Treasury Bulletin."
2/ Includes exchanges of matured Series E bonds for Seriee G bonds beginning May 1951 and for Series $K$ bonde beginning May 1952.
3/ Includes both matured and unmatured bonds; see Teble 4.
4 Includes total value of redemptions not yet clessified between matured and unmatured bond.
5/ A chenge in procedure, beginning 10 June 1954, for processing redeemed savinge bonde bes reaulted in a high level of redemptions not get clagalfied between matured and unmatured bonds. Tbis increase temporarily obacures the relationah1p betweon the redemption columne ahowing asles price and accrved diacount in Tables 2 through 4 and also the relationship between the matured ard unmatured sections of Table 4. (See also footnote 4). The subsequent distribution of this high
level of unclaseified redemptione may be large eaough in any month to show redemptions of matured bonds for a aeries in Table 4 whicb are greater then the total redemptions of thet series as ahown in Table 3, and to show a negative in the unmatured section of Table 4.
6/ Reductions were made in 18日ues and redemptions of Series E, B, F, G, $J$, and K in July 1954 to compenaste for the erroneous inclusion of reiseue transactions in June 1954 as reported in the daily Treasury statemant. The amounts involved were es follows: $\$ 18$ million for lesues of Series $\mathbb{E}$ and H and $\$ 17$ million for fasues of Series F, G, $J$, and $K$; and $\$ 35$ million for unclaselfied retiremente.
If Series $F$ and $G$ selee were diacontiaued April 30, 1952, and Series J and K selee were diecontinued April 30, 1957. Sales flguree after Apr 11 30, 1957, represent adjustmente.
8/ Comparable data are not available prior to January 1950.
2/ Includes exchanges of Serios i941 F and $G$ savinge bonds for Treasury 3-1/4\% bonde of 1978-83.

The Treasury Survey of Ownershlp covers securlties Lssued by the United States Government and by Federal agencles. The banks and insurance companies included in the Survey account for approximately 95 percent of such securlties held by all banks and insurance companies in the United States. Data were $11 r s t$ published for March 31, 1941, in the May 1941 "Treasury Bulletin".

Distribution of ownership by types of banks and insurance compenies is published each month. Holdings by commercial banks distributed according to Federal Reserve memberbank classes and nonmember benks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quartere beginning December 3l, 2949.

Source: Internel Revenue Service reports for deteil of collections by type of tax; deily Treesury stetement for budget receipts from internel revenue through the fiscal year 1952, and the monthly stetement of recelpts end expenditures of the Covernment for receipts thereefter (for explenetion of reporting beses in these publicetions, see pege II). Certain detell by type of tax is evaileble only from returns filed with the Internel Revenue Service. The figures shown include collections for credit to speciel accounts for certein islend passessions, es reported by the Internel Revenue Service. Beginning with the fiscel yeer 1955 they include the eroounts of tax collected in Auerto Rico upon srticles of merchendise of Pierta Ricen menufecture coning into the United Stetes. Figures for 1954 heve been revised to the seme besis. Figures for previous yeers include only emounts collected et ports of entry into the United States.

1. Differences between the eroounts of internel revenue reported by the Internel Revenue Service es collections for given periods end the gmounts reported in Treesury stetements es budget recelpts for the seme periods erose beceuse of differences in the time when payments were included in the respective reports. Tax payments ere included in budget receipts when they ere reported es credits to the eccount of the Treesurer of the United Stetes. Frior to July 1954, they were included in Internel Revenue Service collection reports efter the returns to which they epplied hed been received in internel revenue offices. Under procedure begun in 1950 with withheld income tax end old-ege insurence taxes end leter extended to railroad retirement taxes end meny excises, these taxes ere peld currently into Treesury depositerles end the depositery receipts, es evidence of such payments, ere etteched to querterly returns to the Internal Revenue

Service. Under this procedure, the paymente ere included in budget receipts in the month in which the depositery receipts ere issued to the taxpayers. Revised eccounting procedures effective July 1, 1954, extended the same practice to Internel Revenue Service collection reports.
2/ Monthly figures include sociel security tax on self-employment income, which is levied end collected 63 part of the individuel incone tux beginning with the taxable yeer 1951. Fiscel yeer figures exclude this tex, on the besis of extimetes beginning 1952 (see footnote 3), end it is incluced under "old-ege end disebility insurence."
3/ In Internel Revenue Service reports beginning Jenuery 1951, current collections heve not been sepersted as to type of tex but the breekdoun shoun for fiscsl yeers is besed on estimetes mede in eccerdence with provisions of Sec. 201 of the Sociel Security Act, es emended ( 42 U.S.C. 401), for trensfer of tax recelpts to the trust funds (see "Sudget Receipts end Expenditures," Teble 1).
4 Begining with the fiscel yeer 1955, collections shown include undiatributed depositery receipts and unepplied collections. For excise taxes these recelpte are included in the totel only. Totel collections include "Taxes not otherwiee clessified."
Budget recelpts for 1956 were reduced by $\$ 3,566$ thousend representing tax collections trensferred to tbe Government of Guer pursuent to the ect approved August 1, 1950 ( 64 Stet. 392), but this emount wes Included in collections reported by the Internel Revenue Service.
Beglnning with 1957, such collections ere excluded elso in Internel Revenue Service reports.
6/ Deteil is reported by querters beginning with the flacel yeer 1956.

1/ These items represent the difference between the cost value end the monetery velue of silver bullion revalued end beld to eecure
s1lver certificetes.
2) Tbe figures in this column ore not cumulative; es the emount of bullion held chenges, the potentiel seigniorege therean cbenges.

Data relating to capital movements between the Unlted States and foreign countrles have been collected since 1935, pureuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulationa promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regulariy in the "Treasury Bulletin." Supplementary information 1a publiahed at leas irequent intervals. Reporta by banks, bankera, aecuritiea brokers and dealers, and incustrial and commercial concerns in the United Statea are made initially to the Federal Reserve Eanks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and pobsessions of the United States are included in the published data.

The term "poreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Terfitories anc possessions, the official institutiona of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to orlginal maturities of one year or leas, and "long-term" refers to all other maturities. A detalled discussion of the reporting coverage, statistical presentation, anc definitions appeared in the June 1954 1ssue of the "Treasury Bulletin," pages $45-47$. As a result of changes in preaentation introduced in that issue, not all breakdowns rreviously
published will be exactly comparable to those now presented.

The first three sections which follow are fublished monthly. They provide summaries, by perlods and by countries, of data on short-term banking llabilities to and claims on forelgners and transactions in long-term securlties by forelgners, and preaent detalled breardowns of the latest available preliminary data.

Section IV providee supplementary data in $s 1 \times$ tables which appear at less frequent intervals. Table 1, shortterm foreign liabilities and clalme reported by nonfinancial concerns, is published quarterly in the January, April, July, and October Lasues of the Bulletin. Table 2, long-term foreign liabllities and clalme reported by banks and bankers, and Table 3 , estirated gold reserves and dollar holdinge of forelgn countries and international institutions, are published quarterly in the March, Iune, September, and December issues. Table 4, forelgn credit anĉ deb1t balances in trokerage accounts, appears semiannually in the March and September issues. Table 5, short-term liabilities to Porelgners in countries and areas not regularly reported separately by banking institutions, is presented annually, appearing in the April 1ssue through 1958 and in the March 1 ssue thereapter. Table 6 , purchases and sales of long-term securities by foreignere during the preceding calendar year, also appeara annually, beginning with the May 1959 18sue.
