## Reporting Bases

Data on recelpts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treaaury financial reporta, the "Dally Statement of the United Statea "reasury" and the "Monthly Statement of Recelpta and Expenditures of the United States Foverment." Certain monetary atatistica are based at least in part on the "Circulation Statement of United Statea Noney." Where these statements are given as sources for individual tables, they are cited by name oniy. Thelf respective reportine bases are deacribed below. For other data in the Bulletin, information on sources or reporting bases la given in connection with the tablea themaelves.

The monthly atatement of recelpts and expenditures was flrat publiahed for February 1954, and replaced the dally atatement as the primary aource of information on budget reaults and other recelpt and expenditure data clasalfled by type of account. At the eane time, the dally atatement was changed to a atatement of cash depoaita and withdrawala affecting the account of the Treasurer of the United States. Both publicationa have provided comparative flgurea on their respective bases from the beginning of the riscal year 1953. The announcement of February 17, 1954, With reapect to these reporting changes may be found in the Aprll 1954 1eaue of the Sulletin.

The monthly atatejent ahows all recelpts and expenditures of the Governvent, including thoae made rrom cash accounta held outalde the United Statea Tressury. The Information 2 complled from reporta by the Treasurer of the United Statea and by all other collecting and diabursing agencies, including thoso agenciea which maintain checking accounta in commercial banks. These reporta cover transactions recorded in the accounts of the agencles during the reporting parlod. Tbe net of the transactions as complled from theae reporta ia reconciled in the monthly statement to changes in the balance in the Treaburer's account and in caah held outalde the Tressurer's account and changes in the public debt outatanding.

Recelpta of taxes and customa duties are reportea on a collectiona basia. Other recelpts are reported partlally on a collection basis and partially on a deposite basis. Expenditurea, except intereat on the public debt, are reported on the basia of checas lasued or caah paymenta made by disburalig officera. Tranaactions of an interfund or intragovernmental nature are included on the same basis even though the actual lssuance of checks aray not be involved. Intereat on the public debt is included on an accrual basis beginning with rlgurea for June 1955 and the fiscal year 2955. Frior to that, it was included on a due and payable basis. The same reporting basia as that in the monthly atatement provides the riscal year rligures for the Treasury's "Comblned Statenent of Recelpts, Expenditures and Ealances of the United States Governnent" and for actual recelpts and expenditurea in the "Budjet of the United States Government."

The dally atatenent on the new basis was flrat issued for February 17, 1954. In the deposita and withdrawsla as ahown, no distinction 18 made as to the type of accounts (budget, truat, etc.). The deposita are on the basis of certiflcates of depoait cleared through the account of the Tresurer of the United states. Total withdrawala are on the basis of checks palc or cash disbursements made out of the Treasurer's account. Some of the withdrawal classificationa shown are reported on the basis of malled reports of checsa issued and are adjusted by meana of elearlng accounts to the total of checks pald. Except for relatively minor amounta, noncasb interfund and other intragovernental transactions are excluded. The public debt fi弓ures In the dally ataterent also are on "clearance" babia, with the exception of those issuance and retirement tranaactiona reported on the basla of telegrans from Federal Reserva Banka. Noncash debt transactions are included, however.

The dally atatement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency tranaactions which were handled through comsercial bank accounts, and included noncasb interfund and other intragovernental transactions. It provided information almilar to thit in thepresent dally atatemant with respect to the status of the Treasurer's account, anc odmllar to that in the present and-of-month dally otatement hitl resfect to debt fabuance, retirgment, and amount outetending. Secelpts and expenditures, however, were clagrlfled by type of sccount, and the budet reaulta shom in the dally staterent were used as the basis for reflecting the resulta uncer the Fresicent'e budeet frocram as enacted by the Coneress.

Recelpts were on the basio of deposita as they cleared the Treasurer's account. Expenditurea cleared through the Treasurer's account were reported on two succesalve bases. Through 1946 they were on the basia of checise pale by the Treasurer of the Uniteo States. Eeginning with 1947, expenditures made through the recilltiea of the Treasury Departient's Division of Disbursement here on the besia of checks iseued, whlle certain others, principally those of the Department of Defense and 1 te predeceesor organizations, were on the basis of checka paic. Tranaactions handled ihrough comeerciel bank accounts, conslating of market transactions in public debt anc yuaranteed aecurltles, were as reported by the agencies. Interest on the public debt was included on a dus and payable basia beginning witb November 1949 and on a checks-paló baEla prior to that time.

The clrculation gtatement reflecta trensections through the Treanurer'a account which arfect monetary atocka of gold anc allver and the amounte of coln and currency in the money aupply of the country. It 18 lasued later than the dally atatement, bowever, and the figures are based on trensectiens conaumated during the reporting perlod even though some may not hava cleared the Treasurer'a account during that pertod.

## Treasury Financing Operations

Auguat Rerinancing
Cn July 16, the Treasury Department announced an optional exchange offering of $4-3 / 4$ percent 12-1/2-month notes ana $4-3 / 4$ percent $4-3 / 4-y e s r$ notea The offering was made to holders of $\$ 13,500$ million $1-5 / \$$ percent certiflcates of indebtednese maturing August 1 , and $\$ 473$ million 4 percent notes of Series A-1961, on which hol aers had filed notice of intention to redeem on August 1, 1959. Caeh subscriptions were not received.

The 12-1/2-month notes are dated Ausuat 1, 1959, and mature Auguet 15,1960 . The $4-3 / 4$ year notes are dated July 20, 1959, and mature May 15, 1964. Both noteo were offered at par. In the case of the longer notes, an intereat adjustment was made as of July 20 , 1959. Following acceptance of the aecurities to be exchanged, accrued intereat from February 1 to that
1964. Both securities were lesued in bearer form only and In denoninatione of $\$ 1,000, \$ 5,000, \$ 10,000$, $\$ 100,000, \$ 1,000,000, \$ 100,000,000$, and $\$ 500,000,000$.

Subcriptione accepted for the new lasuee totsled about $\$ 13,745$ million leaving about $\$ 228$ million to be paid in cash. Reoults of the offering are shown in the accompanying table.

13-Week and 26 -Week Bille
July iecuee of regular weekly Treasury bills totaled \$7.6 billion, an amount equivalent to the maturing 13 -week and 26 -week bills. The flve new 1asuea of 91 -day bille amounted to $\$ 5.5$ billion, and the five new lagues of $182-d a y$ bills to 32.1 billion. Of the five 91 -day lssues, the first on July 2 was for 领. 1 blllion, the next two for $\$ 1.2$ blllion each, and the lact two for $\$ 1.0$ blllion each.

Source: Actual figures through the flacel year 1952 and the calendar yaar 1953 are from the daily Treasury statement, and thareafter in each case they ara from tha montbly statement of receipta and axpenditures of the Covernment (for explanation of reporting beses, eee page II); estimetes are from the 1960 Budget documant, released January 19, 1959, including effacts of propooed lagislation. More datallad information with respect to the figures on tbis page will be found in aucceeding tahles.

1) Gross receipts leas transfera of tax recsipts to certain truat funda (soe page 2), end refunds of recelpta.
2 Trensections of the Foreign Economic Gooperation Trust Fund, esteblishad under Section 114 (f) of the Econonic Cooperation Act of 1948 ( 62 Stat. 150), are consolidated $w 1$ th budget expenditures.
2) Conaiste of transections of trust and deposit funds, investment by Goverment agancies in public debt securities, and redemption or sele of obligations of Goverment egencies in the market; excess of receipts, or sxpenditures ( - ). For deteil of content, ses pege 8.

4 For chscks outatanding and telegraphic reports from Foderel Reserve Benka; public debt interest eccruad end unpaid beginning with June and the fiscal yeer 1955 (previously included from Noveraber 1949 as interast cbecks and coupons outstanding); alao deposits in trensit end changes in ceab held outsida tha Treasury and in certain otber eccounts beginning witb tbe fiscal yeer 1954. Net increase, or decreese (-)
2) For current month deteil and 11 st of acts, sea section on "Statutory Debt Limitation" in each issue of the Bulletin. The Ifaitations in effact during tha periad covarad by this tiable and the dete when eech became effective are as follows: \$275 billion, on Juna 26 , 1946; 281 billion, on August 28, 1954; $\$ 278$ billion, on July 1 , 1956; 2275 billion, on July 1, 1957; \$280 billion, on February 26, 1958; 288 billion, on Soptember 2, 1958; and $\$ 290$ billion on June 30, 1959. From July 1, 1959 to June 30, 1960, the 1imit 1a $£ 295$ billion. Thareafter it will revert to $\$ 285$ billiton.

Table 1.- Receipts by Principal Sources
In millione of dollare)

Source: Actual fiesues through 1952 are from the dallj treasury etatement and thereafier from the monthly statement of recelpta fand expenditures of the Governaent (for explenation of reporting bases see pare II); estinater are from the 10,60 Yudert docunent, released January 19, 1959, and supporting data, includine effects of groposed legialation.
1/ For further detail, see tables under "Intercal Revanue Collections." Breakdown was not made in the dally preasury atatement and the monthly atatement for years prior to 1954 .
3/ Beginntne January 1951, the distribution of recelpta between individual income taxes and old-age and disability insurance taxes is made in sccordance with provialions of SA. 201 of the Social Security fot, sa amanded ( 42 U.s.c. 401), for trangfer to the Federal 01d-jeie and Survivors Insurance Trist Fund (see foptnote 11), and after Dunembr ly Trust Find (see footnote 12).

## Footnotes to Table 1-(Continued)

1/ Through 1953, contributions to the Rallroad Unemployment Insurance Administration Fund ware carried in the daily Treasury statement as miscellaneous receipte, while the 1960 Budget doowent, Special Analysis L, includes them in amployment texes through 1952. Beginring 1954 the contributions are credited direct to tha trust account, For emounts of the contributions included in budget receipts, sea "Treasury Bullatin" for February 1954, page 7.
a/ In the 1960 Budget docurnent, Special Analysis I, taxes not otherrise classified are included in miscelleneous receipts.
9/ Beginning 1957, includes collections under increased rates in the Highway Pavenue Act of 1956 (see footnote 14).
10/ Figures shown include adjustrants (see footnote 11) as follows: In Jenuary, decresses in income tax of $\$ 82$ million withheld and $\$ 7$ dillion not withheld, and increases in trensfers of 83 million to Federal 0ld-Age and Survivors Insurence Truet Fund and $\$ 5$ million to Federal Iisability Insurance Trust Fund; in April, increase in income tax withheld of \$129 million and decreases in income tax not withheld of \& millipn and in transfers of $\$ 114$ million to Federal 11d-Age and Survivors Insurance Trust Fund and $\$ 13$ villion to Federsl Disability Insurance Trust Fund; in June, increase in incons tax withheld of 8138 million and decreases in incoma tax not withheld of \$14 هillion, and in transfers of \$lll million to Federal Old-Age and Survivors Insurance Trust fund and \$13 million to Faderal Disebility Irsurance Trust Fund.
11) Amounts approprieted to the Federel 0ld-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). Beginning January 1951, the emounts transferred currently for appropriation to the trust fund ere based on estimates of old-age insurance tax receipts made by the Secretery of the Treasury pursuant to the provisions of Sec. 201 (e) of the Social Security Act, as mendec (42 U.S.C. 4 CI (a)), and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administretion. The emount of old-age insurance tax refunds is reimbursed to the ganerel fund by the trust fund.
12) The Federsl Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, epproved August 1, 1956 (42 U.S.C. 401 (b)). The act appropriated to the trust fund amounts equivalent to specified percenteges of the wages and self-employuent incone, respactively, which are texad for old-age insurance, end provided that the amounts approprietad should be trensferred from time to tima to the trust fund on the seme besis es transfers to the Federal 01d-Age end Survivors Insurance Trust Fund. Ratas of tax were increased by tha percentages eppropriatad to the federel

I isability Insurance Irust Fund, the increase beir appl. able , Wages paid end texebla yaars beginning after tecenber $31,17^{c}$.
service ( 45 U.S.C. $228 \mathrm{c}-1$ ( n ) L. Beginning 195\%, amounts are appropriated to the Railroed Retirement Account equal to the amourt of taxes under the Rallroad Retirament Tax Act deposited in the Tressury,
 end transfers are made currentiy.
14) The Highway Revenue Act of 1956 , epproved Jurie a, 1950 -3 . $\therefore .2$. 173) estebilshed a Hiphway Irust Fund from which are to be ate, a: provided by appropriation ects, Federal-aid himway expercifures alter June 30, 1956, and before July 1, 1972. The ant appropriated to this fund amounts equivalert to specified percenteges of realpts from certain excise taxes on motor fuels, wotar vehicles, tires and tubes, and use of cartain vehicles, and provided that the atounts appropriated should be t.ransferred currently to the trust fund at the basis of astimates by the Secretery of the Treasury with proper ad, ustuer. to be made in subsequent transfers. The use iax was imposed by the act and rates were increased for the other taxes. Previous to the fiscal year 1957 corresponding excise tex receipts were incluced ir. net budget receipts, and Federal-aid higlway expenditures wers included in budget expenditures.
15/ Interest on refunds is invluded in expenditures in Tabie
16 Irensfers reduced by 300 million to correct those made earlier or basis of estimates (see footrote ll).
17) Includes 139 million increment from reduction in the weight of the gold dollar, which had been allocated for paymerts to Federal Reserve Banks for making irdustriel loans, and was returred to the Treas r: pursuant to Public Law E5-699, approved August 1, 195e fi= cie:. 698). The unused portion of the allocetion, \&112 millior, was transferred from the trust eccount in which it had been helf; the $\$ 27$ million which had been edvanced to Federal Reserve Barks was repaid irto a special fund, from which it was appropriated to the small Business Administration to be available for grants urder sertior 7 (d) of the Small Business Act, es emended. See also "Trust ANunt and Other Transections," Table ?, and "Monetary Stetistics," Fable r (published quarterly).
1B Net of reimbursement of \$83 million from the Federal Old-Aze ard Survivors Insurance Trust Fund for tex refunds (see footnote 11).
19/ Includes $\$ 689$ million of anticipated revenue under the $1-1 / 2$ cent per gallon tax increase on motor fuels which is included under proposed legislation in the 1960 Budget document.

* Iess than $\$ 500,000$. p Freliminary.

## Footnotes to Table 2 - (Continued)

Footnotes 1 through 3 follow Table 2 on page 4.
4/ Includes unclassifiad axpenditure transfers until these have been distributed in final fiscal year figures.
2/ Yonthly figures shown will not add to the fiscal year curulative because prior to Dacember they do not reflect the shift of tbe former Civil Aeronautics Aduinietration and the Civil Aeronautics Board from "commerce Department" to "Independent Offices," pursuant to tbe Federal Aviation Act of 195B, appraved August 23, 195B (Public Law 85-726), but the curnuletive figures have been adjusted to raflect it from tha baginning of tbe fiscal yasr.

Totalincludes allowance for contingencies of \$100 aillion.
Beginning 1955, consists of net expenditures of the Postal Fund, reflecting the chenge in clessificetion of Post Offi e trarsa - ions to a public enterprise revolving fund basis.
B/ Reported on an accrual basis effective June 30, 1955
Consists of Federal payment and loans and advan es.
10) Includes $\$ 1,375$ aillion additionel subscription to the International Monetary Fund pursuant to Fublic Iaw $\mathbf{c 6 - 4 5}$, approved June 17, 1959.

* Less then \$500,000.
p Preliminary.

Source: See Table 1.

1) Includes security transactions of Government-aponsored enterprise日
beginning 1955 (see Table 1, footnote 1).
2) Does not include revolving fund receipta representing acquired
3) Differs from monthly statement of receipts end expenditures for 4. December 1758 because of error in clessification in that statement.
4) Operated sa a truat enterprise fund beginning January 1, 1957, at
which time the production credit corporations were merged in the
Federal intermediate credit banks, pursuant to the Farm Credit Act of 1756 (12 U.S.C. 1027); previously the banke and corporations, respectively, wers classified as public enteryriae funds, and were included net in budget expenditures. Beginning January 1959 they are classified as Government-spansored enterprisea, and the net transactions of the operating fund were then transferred from the trust fund and included under "Deposit fund accounta."
5) Secondary market operations, as provided in the Housine nct of 1954, approved Aveuat 2, 1954 (12 U.S.C. 1719). Funds provided by the Treasury ( - ), or repaid to the Treasury, are show in a separate column (and correapondingly are reflected net in budget expenditures).
6/ Includes District of Columbia operating expenditures; Indian tribal funds; expenditures chargeable against increment on gold; and trust enterprise funds (net) which are not ghown separately. The Railroad Unemployment Insurance Administration Fund is included for the period 1954 through November 1958 (see Table 7), and the Employees' Life Inaurance Fund (net) from its eatablfahment in August 1954.
6) Excluded from deposit fund account expenditures and included with gimilar ascurity traneactions of other agenciea (ace Tables 4 and 5). Less than $\$ 500,000$.
n.a. Not avallable.
p Freliminary.

## Source: Sea Table 1.

Includes transections under tbe predecessor 01d-Age Reserve Account. Beginning November 1951, total includes small amounts in tbe neture of recoveries from expenditures incidentel to the operations; and beginning 1958, also interest payments from Foderal Disability Insurance Trust Fund.
3) For basis, see "Budget Flecelpts and Expenditures," Table l, footnote 11.

To cover amployess of Stetes eno their politicel subdivisions, under the Social Security Act Amendments of 1950 ( 42 V. S.G. 418) .
5/ Through 1952, consists of trensfers from general fund for edministrative and other costs of benefits payable to survivors of certein World War
II veterans ( 60 Stat. 979 and 64 Stet. 512); beginning with 1954, consists of payments from the Rallroad Retinement Account (see Table 8).
6) Reimbursement to the general fund pursuant to the Social Security Act Amendments of 1950 and 1956 ( 4.2 U.S.C. 401 (g) (2)).

7/ Includes edjustments to monthly statement besis.
8/ See Toble 8 .
2/ Construction and equipment of office buildings for the Bureau (Publis Law 170, approved July 31, 1953 - 67 Stat. 254).
10/ Under the Social Security Act, es amended ( 42 U.S.C. 401 (g) (1)), for administration of Titles 11 and VIII of that act and related parts of the Internal Revanue Code ( 26 U.S.C. 480-482, 1400-1432). (See elso footnote 11).
11. Salaries and expenses of the Bureau of Old-Age and Survivors Insurance are paid directly from the trust fund beginning 1947, under provisions of annual approprietion acts until passage of the Social security Act Amencments of 1956 ( 42 U.S.C. 401 (g) (1)); previously these expenses were included in relmbursements to the general fund.
12) See Table 7. This reimbursement is treated as a reduction in administrative exponses paid from the Federal ld-Age and Survivors Insurance Trust Fund. Revised.

## Table 10. - National Service Life Insurance Fund

Table 11.- Investments of Specified Trust Accounts in Public Debt Securities, by Issues, as of June 30, 1959

[^2]Less than $\$ 50,000$.

The cash incoms and outgo data appearing in the "Treasury Bulletin," beginning with the February 1956 isaue, are on a basis consistent with recoipte from and payments to the public as derived in the 1957 and subsequent Budgets of the United States, Special Analyais A. Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basia as in the Budget documents. There is also shown the anount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangemente, data in accordance with the Budget classifications are made available month by month. Figures for back years have bson revised where necessary in order to make them as nearly comparable with the Budget clasaiflcationa as avallable data will permit. For this reason certain of the figures differ somowhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts end payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included In payments on a net basis as reflected in Treasury reports. Major intragovermmental transactions which are reported as both expenditures and recelpts are ellminated from both. Noncesh items which represent accrued obligations of the Goverment to make payments in the future are also eliminated from expenditures but are addsd later when actual payments are made. Recelpts from the exercise of monetary authority (mostly aelgniorage on sliver) are excluded as not
representing cash racelved from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer'a account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are sluflar in general concept to those includad in the Budgat aeries, but are 1 imited in coverage to transactions whiah affect the balance in that account. On the other hand, they include recelpts from the exercise of monetary authority, which are excluded from receipts from the public in the Budget series.

Beginning with figures for the flacal year 1953, the serles of transactions with the public la based on the "Monthly Statement of Recelpts and Expenditures of the United States Government," which is complled from reports by all collecting and disbureing officers and includes those trensactions not cleared through the Treasurer's account. Cash deposits and withdrawals in the Treasurer's account, beginning with the figures for the same year, are reported in dally Treasury statements. For those years prior to 1953 both cash transactions series are based on a single source, namely, the earlier basis of dally Treasury statements which reported separate classifications for budget results, trust account transactions, etc.

Table 1.- Summary of Federal Government Cash Transactions with the Public
(In millions of dollars)

| Fiscal year or month | Not caah trangactions with the public other than borrowing |  |  | Plua: Net csab borrowing from the public, or repayment ( - ) | Plus: Recolpt: from exercise of monetary authority | Equsis: Cbange in caeh belances |  |

## Footnotes to Table 4

1) Net operating expendituree, or receipts ( - ), es mesured by funde provided by or spplied to net aecurity tranaactions reflected in Treasury reporta ( $e e \mathrm{Table} 7$ ). To a large extont, these Covernmanteponeored enterprisee secure funde for their operstione by direct borrowing from the public or by caghing Federal securltiee whicb they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federel securities. On that basie, net expenditures for operations are ehown in this table in terme of the cambined net of dieinvestment in Federal securities and eale of agency obligations in the market,
and net receipte from operatione are ohow in terms of the combinod ret of inveatment in Federsl securities and redemption of agency obligations in the market.
2/ Not reported prior to 1954.
3 Not reported prior to 195
4 Does not include revolving fum receipte representing acquired securitios amounting to $\$ 1,643,070$ (par velue).
2/ Difiere from monthly statement of recelpts enc expenditures for December 1958 becsuse of error in classificetion in thet statement. D Preliminary.

## Footnotes to Table 5

1) Federal intermediate credit bank franchise tax through December 1956 and, beginning 1953, aleo relmburaement by Panama Canel Company for expensea and eervices.
2) Includes relmbursement by Federel 0ld-Age and Survivora Insurance Truet Fund and Federel Dieability Insurance Truat Fund for Adminietrative expensee, and also for refunde of taxes (trested as an offset to refunde rether than being credited to recelpts) beginning W1th 1953 for the former and 2959 for the latter; relmbursement by Highway Trust Fund for refunde of taxes; reimburgement by the District of Columbis; peyment of dividends, intereat, etc., by Federal Netional Mortgage Asaciation's eecondary market operations; and Federal intermediete credit bank franchise tax and repayment of cepital atock to the Treaeury aftor December 1956 and before January 1959.
3) Consiats of payment of earninge and repegment of capital etock to the Treesury through 2952; and payment of franchise tax by banke for cooperativee beginning 2955, and by Federal intermediate credit banke beginning Jenuary 1959.
4 Includes relatively cmall amounte of deductione from esiaries paid by trust fund and covernment-aponsored enterprisee. Beginning with fiacal year 1958 excludes deductione from celariee of Diatrict of

Columbia employees ( aee footnote 6), and beeinning with isecal year 1959 excludes volumtary contributione.
2 Cansiate of payments to employses" retirement funde representing United States and covermment corporation shares of contributions; paymenta to the Railroed Retirement Aceount (for creditable military oervice), the Unemployment Trust Fund, veterana' iffe incurance funda, Judiciel Survivore Annuity Fund, trust fund for technicel eervices and other aseistance under the agricultural conservation program, and Diaturict of Columbia; and awarde of Indian Claims Commiasion.
6/ Includee payment by District of Columbia to the Civil Service retirement fund for 1 te ohere of contritutione, and beginnine with 1958 elso deductions from its payroll; peymeote between Railroad Retirement Account and Federel Old-Age and Survivors Insurance Trust Fund; trengferg from Civil Service retirement fund to Foreign Service retirement fund from 1955 through 1957; and transfere from Railroed Unemployment Insurance Administration Fund to Unemployment Trust Fund througb 2955.

* Lrust Fund througb
p Preliminery.

## Footnotes to Tsble 6

I) Accrued discount on sevings bonds and bills legs intereet paid on savings bonds and bille redeamed.
2) Public debt intereat due and eccrued beginning June 30, 1955, effective date of the change in accounting and reporting from a due and payable besis to an accrual beete; for 1954, consiats only of public debt interest cbecks and coupone outstanding; net increase, or decrease (-). Not reported as a separate clearing account prior to 1954.
3/ Treated as noncesh expenditures at the time of issuance of the securitioe and as cash expenditures at the time of their redemption; net iesuence, or redemption ( - ).
4/ lssued in 1936 in exchange for adjusted service certificstes held by veterans of World Wer I. Tbe bonds matured in 1945.
5) Iesued in 1947 in peyment for eccumulated leave. The last of these bonds matured in 1951.
6/ Part of the Onited Stetes subscription to the cepital of tbe Internationel Monetary Fund was peid in the form of nodinterest-bearing oonnegotieble notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385).
I/ Checks outstanding lees deposite in trenest, and changes in other eccounts; net increase, or decrease ( - ). Prior to 1954 includes also public debt interest due sod unpaid (see footnote 2).
8/ Iocludae $\$ 1,031$ million notes $i$ esued as pert of the edditionel Onited Statee subscription authorized by Public Law 86-48, approved June 17, 1959. * Lees then $\$ 500,000$. $p$ Preliminary.

## Footnotes to Table 7

1/ In this table, beginaing 1954, in accordance with treatment in Budget documenta, net investment in united States securities by Covermentsponsored enterprises includes a amall amount by other enterprises regarded as representing net traneactions with the public. In Table 4 under "Truat Account and Other Transectione," these amounte are included in trust and deposit fund eccount inveatment. Does not include investmente representing ecquired securities amounting to $\$ 1,643,070$ (par value) and donetion of eecurities amounting to $\$ 45,800$ (par velue).
3 Differs from monthly stetement of receipts and expanditures for December 1958 beceuse of error in clessificetion in thet gtatement. prinel diecount on garines bands and bille, wbich is included in the priacipal of the public debt, less intereat paid on aevinge bonds and bille redeemed.
2/ Treated as nonceah transections at the time bf iesuance and es cash transaction et the time of redemption; net lesuance or redemption ( - ).
6/ Excluded from borrowing because the traneactiona are treated as expenditures in Teble 6.
I) Excluded from borrowing because the transactions are treated as deductione from receipta in Table 3.
8/ Market transactione in public debt securities and ageacy obligetions. Lees than $\$ 500,000$. $p$ Preliminary. $F$ Revised.

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United gtates reflects not only budget receipts and expenditures but also trust, deposit fund, and public debt transactions.

The working cash of the Treasury is held mainly in Treasurer's accounts with Federal Reaerva Banks and branchea. As the balanoes in theas accounta becoma depleted, they are restored by calling in (transferring) funds from the tax and loan acoounta with thousanda of commercial banks throughout the country.

Deposits to tax and loan accounta occur in the normal courae of buaineaa under a unlform procedure applicable to all banks whereby cuatomers of banks deposit with them tax paymenta and funds for the purchase of Government securities. In most cases the transaotion involvea merely the tranafer of money from a customer'a
account to the tax and loan account in the eane bank. On occasions, to the extent authorized by the Treasury, banks are permitted to deposit in these accounts proceeda from subscriptions to public debt securities entered for their own account as well as for the account of their customera.

The tax and loan account system parmits the mreasury to leave funds in banks and in the conmunities in which thay arlse until such time as the Ireasury needa the funda for its operations. In thia way the Treasury is able to neutrallze the effect of lte fluctuating operationa on bank reserves and the economy.

A detalled description of the Treasury'a depositary syatem may be found in the Annual Report of the Secretary of the Trasaury for 1955, pagea 275-284.

Table 1.- Status of the Account of the Treasurer of the United States

Source: Daily Treabury atstement.
1/ Consiats of Treasurer'a checks outstanding, reserve and other depoaits of Board of Truateer of the Pobtal gavinsa Syatem, uncollected 1 tems, exchanges, etc., beginnine December 1954; prior to that time included alao Poot office Department and Postmaters' dieburains accounts (aee footnote 2).
2/ Beginnine December 1954, Poat orrice Department and Poatmaters.
diaburaing accounts are no longer treated as liability accounta of the Treaaurer of the tnited States, out are clasaified and treated in the ame manner as other disburaing accounta, in accordance with the change in method of reporting post office tranaactiona (Bee "Budget Receipts and Expenditurea," Table 2). An adjustment of - \$207million in the balance in the Treasurer"a account (and in the "clearing account") reflecta thia change.

Note: The computed annual interest charge representa the amount of
interest that would be paid if sacb intereat-bearing isoue outatand -
ing at the find of each month or year should remain outatanding for a
year at the applicable annual rate of interest. The charge is com-
puted for eacb jasue by applying the appropriate annual interest
rate to the mount outstanding on that date. The aggregate charge for all intereat-bearing isaues constitutes the total computed annual interest charge. The average annual 'aterest rate da computed
by dividing the computed annual interoat charge for the total, or for any group of issves, by the corresponding principal amount. 1) Excludes 8 waranteed securitise held by the Treseury.

2/ Totsi includes "Other bond s"; see Table 3.
Included in dabt outstanding at face amount, but diecount valve 1 a used in computine annual intarest charge and annual interest rete.
4) The annual interest charge and annual interest rate oa united States sexings bonds are camputed on the beals of the rate to maturity applied against the amount outatanding.

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sald between Msroh 1935 and the end of April 1941, and Series $E, F$, and $a$ were first offered in May 1941. When Series $E$ began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original teme; to retain them with an extended maturity of 10 years at specifled rates of intereat accrual; or to exohange them for Serles $o$ bonds. A number of changes beame effective May 1, 1952. The principal ones were: the rate of interest ancrual on Series $E$ wae inoreased, especially for the near term, with corresponding ohanges in axtended Series $E$; and Series $F$ and $O$ were replaced by two new 1вsues, Series $J$ and $K, ~ a l s o$ at higher interest rates. A new current-income bond, Series $H, ~ s i m i l a r ~ i n ~ i n t e r e s t ~$ return to Series $E$, was offered beginning June 1 . Detaile
of these changes appear in the May 1952 Bulletin, page A-1. Serles $F$ and $G$ began to mature on May 1, 1953. For the exohange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 18sue, page A-1. Sales of Series $J$ and $X$ were discontinued after April 30,1957. An increase in interest rates on Series $E$ and $H$ was announced on April 20,1957, retroactive to February I. Details of the changes appear in the May 1957 Bulletin, page A-1. In the tables which follow, Serles A-F and $J$ sales are included at issue priae and total redemptions andamounts outstanding at current redemption values. Series $G$, $H$, and $K$ are included at pace value throughout. Matured bonds which bave been redeemed are included in redemptions. Matured $F$ and $G$ bonds outstanding are included in the interestbearing debt until all bonds of the annual series have matured, when they are tranaferred to matured debt upon which interest has ceased.

Table 4．－Redemptions of Matured and Unmatured Savings Bonds
（In m1111ona of dollara）

Source：Daily Treasury statement；Debt Analysis Staff in the Offlce of the Sacretary．
1 Detaile by seriea on a cumulatite basie and hy periode for Series $A-D$ combined wil1 be found in the Fobruary 1952 and provious 188u日s of the ＂Treseury Bulletin．＂
2）Inciude exchangea of matured Seriea $E$ bonde for Seriea $G$ bonda begin－ ning May 1951 and for Serlee $\mathbb{K}$ bonde beginning May 1952
3／Includes both matured and umatured bonds；see Table 4.
4 Includea total value of redemptions not yet clessified between matured and unmatured bonde．
5）A change in procedure，beginning in June 1954，for proce日日ing redeemed savings bonds has reaulted in a bigh level of redemptions not jot claseified between matured and unatured boade．This increase tempo－ rarily obscurea tha relationsh1p between the redemption columas show－ ing gales price and accrued diacount in Tebles 2 througb 4 and 2180 the relationahip between the matured and unatured sections of Table 4. （See also footnote 4）．The subaequent diatribution of this bigh
level of unclasaifisd redemptions may be large enough in any month to show redemptions of matured bonds for a eeriee in Table 4 which are greater than the total redoaptions of thet series as shown in able 3，and to khow a negative in the unmatured section of Table 4
Reductions Vere made in isaues and rademptions of Series E，E，F，G， $J$ ，and $K$ in July 1954 to compensate for the erroneous inclusion or reisaue transactions in June 1954 es reported in tbe daily Trasaury statement．The amounts involved were $\theta_{\theta}$ followe：\＄18 m12110n for 1asues of Seriee E and E and $\$ 17$ million for 1esuon of Seriea $F, G$ ， $J$ ，and $K$ ；and $\$ 35 \mathrm{million}$ for unclaseified retiremente．
Series $F$ and $G$ a日les ware discontinued Apr 11 30，1952，and Seriea $J$ and K selee wers discontinued April 30 ，1957．Sales figurea arter Apr11 30，1957，represent adjustmente．
8／Comparable data are not availabla prior to january 1950.
2 Includes axchangea of Serlos 1941 F and $G$ asvinga bonde for Troasury $3-1 / 4 \%$ bond a of $1978-83$ ．
＊Lees than $\$ 500,000$ ．

The Treasury Survey of Ownership covers securlties Lssued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securlties held by all banke and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin".

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve memberbank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

Source: Beginning April 1953, Treasury bond ylelds are reported to the Treasury by the Federal Reserve Bank of New York, besed on closing bid quotetions in tbe over-the-counter market. Yields for prior periods were computed on the besis of meen of closing bid and ask quotations. Moody'e Investor Service is the source for tbe average of Aes corporate bonds. For definition of taxable bonde, see footnotes to the "Treasury Survey of Ownership" in thie iesue of the Bulletin.

1/ Beginning April 1953, the overage includes bonds neither due nor callable for 10 years; April 1952 through Varch 1953, the minimum lengtb (neither due nor callable) wes 12 yeare; October 1941 through March 1952, the minimum length wes 15 yeare. For bonds currently in tbe average, see Table 4 under Market Quotations on Treesury Securitiest In this lesue of the Bulletin.
2/ A new long-term bond edded to tbe everage.
3/ An oxdsting bond dropped from the average (aoe footnote 1).

Source: Internal Revenua Sarvice reports for detail of collections by type of tax; daily Treasury statament for budget receipts from internal revenue through the fiscal year 1952, and the monthly statament of raceipts and expenditures of the Government for recelpts thereafter (for explanation of raporting bases in these publications, see page II). Certain detail by type of tax is available only from returns filed with the Internal Revenue Service. Tbe figures shown include callectiona for credit to special accounts for certain island possassions, as reported by the Internal Ravenue Sarvica. Beginning with the fiscal year 1955, tbey include the amounts of tax collected in fuerto Rico upon articles of merchandise of Pierto Rican manufacture coring into the United States. Figures for 1954 have been revised to the same basis. Figures for previous years include only amounts collected at ports of antry into the Unitad States.
1/ Differances between tha amounts of internal revenua reportad by the Internal Revanue Sarvica as collections for givan periods and the amounts reported in Treasury atatements as budgat recaipts for the same pariods arose because of differances in the tima whan payments were includad in the respectiva raports. Tax peyments ara included in budget receipts when they are raportad as cradits to the account of the Treasurar of the United Statas. Prior to July 1954, they were included in Internal Ravenue Servica collection reports after tha returns to which thay appliad had been raceivad in internal ravenue officas. Under procadure bagun in 1950 with withbeld income tax and old-age insurance taxas and later extended to railroad retirament taxes and many axcises, these taxes are paid currently into Treasury depositarles and the depositary recalpts, as evidence of such paymants, are attachad to quartarly returns to the Internal Ravenue

Service. Under this procedure, the psyments are included in budget raceipts in the month in which the depositary racaipta are issued to the texpayers. Revised accounting procadures effective July 1, 1954, extended tha same practica to Internal Revenue Servica collaction raports.
2/ Monthly figures include social security tax on self-employment income, which is levied and collected as part of tha individual income tax baginning with the taxable year 1951. Fiscal yaar figuras excluda this tax, on the basis of estimates beginning 1952 (see footnote 3) and it is included under nold-age and disabllity insurance."
(3) In Intarnal Revenue Servica raports baginning January 1951, current collections have not been seperated as to type of tax but the breakdown shown for fiscal years is based on estimates made in accorcan a with provisions of Sec. 201 of the Social Security Act, as amended ( 42 U.S.C. L01), for transfar of tax racaipts to the trust funds (see "Budgat Receipts and Expenditures," Table 1).
4) Baginning with the fiscal year 1955, collectiona shown include undistributed depositary recsipts and unapplied collections. For exise taxas these receipts aro includad in the total only. Total collentions include "Taxes not otherwisa classifiad."
Budget receipts for 1956 were reduced by 23,506 thousand representirs tax collections transferrad to the Government of Guam pursuant to the act approvad August 1, 1950 ( 64 Stat. 392), but thia amount wes included in collections reported by the Interial Ravanue Service. Beginning with 1957, such collections are excluded also in Internal Revenue Sarvice reports.
6/ Detail is raported by querters beciuning with the fiscal yeer $195 \in$.

Data relating to capital movementa between the United States and forelgn countriee have been collected since 1935, pursuant to Executive Order 6560 of January 15 , 1934, Executive Order 10033 of February 8,1949 , and Freaaury regalationa promulgated thereunder. Information covering the principal types of data and the principal countriea is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information 18 publiahed at leas frequent intervals. Reporta by banks, bankers, eecurities brokers and dealers, and incustrial and commercial concerns in the United States are made inltially to the Federal Reserve Banks, whlch forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and poosessions of the United States are included in the published data.

The term "roreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizationa. "Short-term" refers to orlginal maturitlee of one year or less, and "long-term" refere to all other maturities. A detalled discusaion of the reporting coverage, statistical presentation, anỏ definitiona appeared in the June 1954 1ssue of the "Treasury Bulletin," pages $45-47$. As a result of changes in presentation introduced in that $16 s u e$, not all breakdowns rreviously
published will be exactly comparable to those now presented

The first three sections which follow are fublished monthly. They provide summarles, by perlocis and by countries, of data on short-ter: bankine liabllities to and clalms on forelgners and tranaactions in long-term securities by forelgners, and present detalled breasdowns of the latest available preliminary data.

Section IV provides eupplementary data in aix tables which appear at lese irequent intervals. Table 1 , shorttertr foreign liabilities and claims reported by nonfinancial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term forelgn liabilities ano claims reported by banks and bankers, and Table 3 , eotimated zold reeerves and dollar holdings of forelgn countries and international institutions, are published quarterly in the March, iune, September, and December 1ssues. Table 4, foreign credit anc debit balances in krokerage accounts, appears semiannually in the March and September issues. Table 5, short-term liabilitiea to forelgners in countries and areas not regularly reported separately by oanking 1 nstitutions, is presentec annually, appearing in the Aprll 1soue through 1958 and in the March issue thereafter. Table 6 , purchases and sales of long-term securities by foreigners during the preceding calendar year, also appears annually, beginning with the May 1959 1ssue.
