## Reporting Bsses

Dats on receipta, axpenditures, and debt whioh appear in the Treasury Bulletin" are baaed largely on two Treaeury financial reporta, the "Daily Statement of tha United Statea Treasury" and the "Monthly gtatement of Recelpta and Expenditures of the United gtatos Goverment." Certaln monetary atatietica are based at leat in part on the "Ciroulation Statement of United States Money." Where thee otatemente are given as acurces for individual tables, they are oited by name only. Their reepective reporting basea are deeoribed below. For other data in the Bulletin, information on aourcea or reporting basea le given in conneotion with the tablee themselvec.

The monthly aratement of receipte and expendituras wae firat publiehad for February 1954, and repisoed the dally statement ae the primary source of information on budget reaulta and other recalpt and expenditure data alaselilied by type of eocount. At the same time, the dally etatement wae ohanged to atatement of caah deposite and withdrawala affooting the account of the Tressurer of the United Statea. Both publloationa hava provided oomparative figure on their reapective bases from the beginning of the fiecal year 1953. The announcement of February 17. 1954. with reepeot to thees reporting ohangee may be found in the April 1954 1asue of the Bulletin.

The monthly etatement ahows all raceipte and expenditures of the Govemment, inoluaing thoee made from caah aocounte hold outaide the United Statee Tresaury. The information ia complied from reporta by the Treasurer of the United etatas and by all other collecting and dieburaing agencies, including those aganoies which maintain checking accounta in oommerolal banke. Theae reporta cover traneaotione recorded in the aocounta of the agenciee during the reporting period. The net of the traneactiona as complled from these reporte la reoonoiled in the oonthly atatement to ohangee in the balance in the Treaeurer's socount and in cash held outalde the Trasaurer's aocount and changee in the publio debt outetanding.

Recelpte of taxes and cuetome dutioe are reported on a colleotione basis. Other recelpta are reported partially on a oolleotione basia and partially on a deposite basie. Expenditures, axcept intereat on the publio debt, are reported on the basia of oheok lasued or cash paymente made by diaburaing officers. Tranasotions of an interfund or intragovernmental nature are included on the aame basie even though the actual laausnoe of obeoke may not be involved. Interest on the publio debt is inoluded on an cocrual baeia beginning witb figuras for June 1955 and the flecal year 1955. Prior to that, it was inoluded on a due and payable baele. The asme reporting basis a that in the monthly etatement providee the flecal year flgurea for the Tresaury's "Combined statement of Receipta, Expenditures and Balances of the United States Government" and for actual receipte and oxpondituree in the "Budget of the United States Government."

The dally etatement on the new basie was firat leoued for Febmary 17, 1954. In the deposita and withdrawale as ehown, no diatinction le made to the typo of accounte (budget, truat. etc.). The deposita are on the basie of certificates of depoait cleared through the account of the Treasurer of the United gtatea. Total withdrawale are on the basie of ohecke pald or caab disburaementa made out of the Treaourer's account. Some of the Withdrawsl olae日ificatione ohown are reported on tha basio of malled reporta of oheak lasued and are adjusted by meane of olearing aocounta to the total of cheoks paid. Exoopt for relatively minor amounte, noncash interfund and other intragovermental transactione are exoluded. The public cebt figurea In the dally atatement also are on a "alearance" basia, with the exception of those lesuance and retirement transaotion reported on the baele of telegrame from Federal Reaerve Banke. Noncaih dobt transactlone ara included, however.

The da11y atatament before Fabruary 17, 1954, covered not only traneactione oleared through the Treaeurer's aocount but albo certain Government agenoy transaotione whiob were handiad through commeroial bank aocounta, and included noncaah interfund and other intragovernmental traneantiona. It provided information eimilar to that in the preeent daily atatement with reapect to the atatus of the Treasurer'a aocount, and almilar to that in the preaent ond-ci-month dally atatement with reapect to debt iasuanoe, retirement, and amount outatanding. Reoeipta and expanditurea, howaver, were claselfied by type of account, and the budget reaulta shom in the daily atatament were used as the basie for reflecting the reaulto under the Freaident's budget program as enacted by the Congreas.

Recelpte were on the basia of deposite as they cleared the Treasurer'e account. Expendituree oleared through the Trasaurer's account were reported on two succesaive bases. Through 1946 they were on the basis of checka paid by the Treasurer of the Unitad States. Beginning with 1947, expendituree made through the facilitioe of the Treasury Department's Diviaion of Dlaburaemant were on the basie of checka laaued, while cerialn othera, principally thode of the Department of Defonaa and ite predacesacr organizations, ware on the basis of checka paid. Tranaactiona handled through comercial bank accounta, oonaiating of market tranaaction in public debt and guaranteed aecuritiea, were as reported by the agenciee. Intereat on the publio debt was included on a due and payable basie beginning with November 1949 and on a checko-paid batia prior to tbat time.

The oirculation etatement reflecta tranaactione through the Treasurer'e account which affect monetary atooks of gold and allver and the amounte of coin and currency in the money eupply of the country. It le iasued later than the dally etatement, however, and the flgures are based on tranaactions oonaumatad during the reporting period even though oome may not have cleared the Treaeurer's account during that period.

## Treasury Financıng Operations

## May Refinancing

On April 28, the Treasury Department announced an optional exchange offering of $4-3 / 8$ percent oneyear certificates and $4-5 / 8$ percent five-year notes. The offering was made to holders of the 4 percent certificates of indebtedness of Series B-1960, the $3-1 / 2$ percent notee of Series $A-1960$, and the $3-1 / 4$ percent notes of Series B-1960, all maturing May 15. Cash subscriptions were not received. The subscription books were open from May 2 through May 4.

Suoscriptions accepted for the two new 1ssues totaled about $\$ 5,786$ million leaving about $\$ 627$ million to be paid in cash. Ereliminary results are shown in the accompanying table.
$\$ 1,000, \$ 5,000, \$ 10,000, \$ 100,000, \$ 1,000,000$, $\$ 100,000,000$, and $\$ 500,000,000$.

The new certificates, $B-1961$, were issued in bearer form only. The new notes, A-1965, were made avallable in bearer form with interest coupons attached and also registered as to principal and interest.
Weekly Bills Refunded
New issues of regular weekly Treasury bills in April totaled $\$ 6.0$ billion, refunding an equivalent amount of 13 -week and 26 -week bills maturing. Of the four new issues of 13 -week bllls totaling $\$ 4.2$ billion, the $18 s u e s$ of Apr11 7 and 14 were for $\$ 1.1$ billion each, and those for Apr11 21 and 28 for

p Preliminary.

Soth new 1ssues are dated May 15, 1960, the certificates to mature May 15, 1961, and the notes to mature May 15, 1965. Neither security is subject to call for redemption prior to maturity. Exchanges were made par for par and holders of the maturing securities were instructed to detach the interest coupons dated May 15,1960 , and cash them when due.

Interest on the new certiflcates at the rate of $4-3 / 8$ percent per annum will be payable on November 15, 1960, and May 15, 1961. Interest on the new notes at the rate of $4-5 / 8$ percent per annum w1ll be payable semlannually on November 15,1960 , and thereafter on May 15 and November 15 in each year until the principal amount becones payable. Both securities were lssued in denominations of
\$1.0 billion each. The four new $2 E$-week issues totaling $\$ 1.8$ billion, were for $\$ 0.5$ billion each on April 7 and 14, and for *$\$ .4$ billion each on April 21 and 28. Average rates of discount on the new bills follow:

Source: Actual figures through the fiscal year 1952 and the calendar year 1953 are from the daily Treasury stetement, and thereafter in eacb case they are from the monthly statement of receipts and expenditures of the Govermment (for explanetion of reporting beses, see page II); estimates are from the 1961 Budget document, released January 18, 1960, inclucing effects of proposed legislation. More detalled information with respect to the figures on this page will be found in succeeding tables.

1) Gross receipts lese transfers of tax receipts to certain trust funds (see page 2), and refunds of receipts.
2) Transactions of the Foreign Economic Cooperation Trust Fund, estab11 shed under Section 114 ( f ) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures.
3 Consista of transactions of trust and deposit funds, investment by Government agencies in public debt securities, and redemption or sale of obligetions of Govermment agencles in the market; excess of re-
ceipts, or expenditures $(-)$. For detail of content, see page 8 .

4 For checks outstanding and telegraphic reports from Federal Feserve Banks; public debt intereet accrued and unpaid beginning with June and the fiscal year 1955 (previously included from November 1949 as interest checks and coupons outstanding); also deposits in transit and changes in cash held outside the Treasury and in ceatain other eccounts beginning with the fiscal year 1954. Net increase, or decrease ( - ).
5/ For current month detall and list of acts, see section "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in offect during the period covered by this table and the date when each became effective are ae follows: $\$ 275$ billion, on June 26, 19/6; $\$ 281$ billion, on August 28, 1954; $\$ 278$ billion, on July 1, 1956 ; $\$ 275$ billion, on July 1, 1957; \$280 blliion, on Februery 26, 1958; $\$ 288$ billion, on September 2, 1958 ; and \$290 billion, on June 30, 1959. From July 1, 1959 , to June 30 , 1960 , the limit is $\$ 295$ billion. Thereafter it will revert to $\$ 285$ billion.

Table 1.- Receipts by Principal Sources
(In oillione of dollare)

Source: Actual figuree for 1952 are from the daily Treasury gtetement and thereafter from the monthly atatement of recelpte and expendituree of the Government (for explenetion of reporting besee eee page II); eatimatee are from the $1 \% 1$ Budget document, releesed January 18, $1 \% 0$, and supporting dsts, including effecte of pro paeed logislation.
1/ For further detail, see tablee under "Internal Revenue Collections."
Breakdown was not made in the dally Treasury etetement and the monthly etatement for years prior to 1954.
3 Beginning January 1951, the dietribution of receipte between individual income taces and old-age and dieability insurance taxes is made in accordance With provisione of Sec. 201 of the Social Security Act, as amended (42 J.S.C. 401), for transfer to the Federal 01d-Age and Survivors Insurance Trust Fund (ee日 footnote 11), and after December 1956 aleo for tranefer to the Federal Meability Insurance Trust Fund (eee footnote 12).

Source: Reports to the Treasury Department by disbureing officers, on the monthly statement reporting besis (see page II); satimstes are from the $1 \% 1$ Budget docursent, released January 18, 1960, and supporting data, including offects of proposed legislation.
1/ Consists of miscallanaous taxae (principally the tonnage tax on foreign vessels entering U. S. ports), bullion chargas, and
gifts and contributions.
3) Difference between the total shown in tha monthly statement of
receipts and expenditures of the Government (besed on preliminary reports) and thet from final eccounts of disbursing officers.
3/ In 1953, taxas collacted in Puarto Rico on products of Puerta Rican mamufacture coming into the United States, amounting to $\$ 16$ million, are classifled as miscellaneous budget receipts; thereafter, such collections are included in Internal Revenue collections of excise taxes.

* Lees than $\$ 500,000$.

## Footnotes to Table 1 - (Continued)

7/ Through 1953, contributions to the Reilroad Unemployment Inouranca Administration Fund were carried in the dally Trasaury atatoment as miscellaneous raceipts, whila the 1961 Budgat document, Special Analyois $G$, included them in employment taxes in 1952. Beginning 1954 the contributions are credited direct to the trust account. For amounts of the contributions included in budget recelpts, see "Treasury Bulletin" for Fabruary 1954, page 7.
8/ In the $1 \% 1$ Budget documant, Special Analysis $G$, taxas not otherwise claselfied are included in miscellarioous receipts.
2/ Beginning 1957, includas collections under increasad rates in the Highway Revenue Act of 1956 (sea footnote 14).
10/ Figures shown include (see footnote 11) decreases in income tax of $\$ 98$ million withheld and $\$ 4$ million not withheld and increases in transfers of $\$ 90$ willion to Faderal 01d-Age and Survivors Insurance Trust Fund and $\$ 11$ million to Fadaral Diaability Insurance Trust Fund.
11 Amounts appropristed to the Federal Old-Age and Survivors Insurance Trust Fund are equivalant to the amounts of taxes collected and deposited for old-age insurance. Amounta transferred currently for appropriation to the trust fund are besed on estimates of oldaga insurance tax receipts made by the Secretary of the Treasury (42 U.S.C. 401(a)), and are adjustad in later tranafers on tha basis of wage and self-employment income records malntained in the Social Security Administration. The amount of old-age insurance tax refunds is relmbursed to the general fund by the trust fund.
12. The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, epproved August 1, 1956 ( 42 U.S.C. 401 (b)). The act appropristed to the trust fund amounts equivalent to specified percentagas of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided thet the amounts appropriated should be transferred from
time to time to the truat fund on the asme besis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of tax were incrassed by the percentages eppropriated to the Federal Disability Insurance Trust Fund, the increase being applicabla to
Wages paid and taxable yaars beginning after December 31, 1956.
13/ Excludes the Government's contribution for creditable military eervice ( 45 U.S.C. 228C-1 (n)). Amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Rotirement Tax Act deposited in the Treasury, less refunds, during each fiacal year ( 65 Stat. 222 and 66 Stat. 37) and transfers are made currently.
14. The Highway Revemue Act of 1956, approved June 29, 1956 (23 U.S.C. 173) astablished e Highway Trust Fund from which are to be made, as provided hy appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before July 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provicied that the amounts appropriated should be transferred currently to the trust fund on the besis of estimates by the Secretary of tha Treesury with proper ad justments to ba made in subsequent transfers. The use tax was imposed by the act and rates were increesed for the other taxes. Previous to the fiscal year 1957 corresponding excise tax receipts ware included in nat budget receipts, and Federal-aid highway expenditures were included in budget expenditures.
15/ Interest on refunds is included in axpenditures in Tebla 3.
16 Transfare reducad by $\$ 300$ million to correct those made earlier on besis of estimates (see footnota 11).
17/ Net of reimbursement of $\$ 89$ million from the Fedaral Old-Age and Survivors Insurance and Federal Disability Insurance trust funds.

* Less than $\$ 500,000$.

Source: Actual figuree are from the monthly etatement of recelpte and expenditures of the Government (for explanetion of reporting beses, see page 1I); eetimates are from the 1961 Budget document, releeeed January 18, 1960, including effecte of proposed legieletion.
Note: Figures in thie table are for agenciee ee constituted et the time the expenditures were made, and therefore do not decessarily represent functions which are comparable over e period of time. For expenditures by functions on e coosistent beele, see Table 5. Agency ehifte are reflected in thie table es follows: Beginning 1955, Federal Bome Loan Bank Board from "Houeing and Home Finance Agency" to "Independent offices," and Reconatruction Finance Corporetion ee indicsted in footnote 1 ; beginaing 1957, Aleske Road Conetruction from "Interior Department" to
"Commerce Department," and Federal intermediate credit banks and production credit corporetions ee indiceted in footnote 3; beginning 1958, Federal Fecilities Corporation (remalning functions) from "Treasury Department" to "Ceneral Services Adninietration," and Informetional Medie Guaranty Fund from "Funds epproprieted to the President" to "Independent offices"; beginning 1959, Federal Civil Defonse Adminietretion from "Independent officee" to "Erecutive Office of the President"; and tbe former Civil Aeronautice Administretion and the Civil Aeroneutice Board from "Commerce Department" to "Independent offices."

1) Reconstruction Finance Corporation is included under "Independent offices"
through 1954, and under "Treesury Department" beginning 1955, except functions transferred to Export-Import Bank, Federal National Mortgage Association, General Services Administration, and Small Businese Administration. The corporetion wes ebolisbed at the close of June 30, 1957, by Roorganization Plan No. 1 of 1957, and its remaining functions were transferred to the Housing and Home Finance Administrator, Administretor of General Services, Administretor of Small Bueinese Administretion, and Secretery of the Treesury.
2) Beginning 1957, Federal eid for highwass is excluded from budget expendituree and included in trust eccount expenditures (see Table 1).
3/ Effective January 1, 1957, the production credit corporations were merged in the Federal intermediete credit banks, pursuant to the Farm Credit Act of 1956, epproved July 26, 1956 (12 U.S.C. 1027), and cperetions of the merged agencies (as mixed-ownership corporetions) were cleselfied es trust enterpriee funds (see "Trust Account and Other Transections," Table 3); previously the operstions of the banke and the corporations, respectively, were clessified as public enterprise funds and were included net in budget expendituree.

Source: Expenditures for $1 \% 0$ are from reports to the Tressury
Department by disbursing officers, on the monthly statement reporting
basis (sea page II). They are classified in accordance with the classification usad in the 1961 Budget docunent, Special Analysis G, as nesrly ea can be done on an individual appropriation and fand item basis. Prior year figures are from the same source but have been adjusted below the appropriation level in some instances by the Bureau of the Budget for use in the Special Analysis. Where current classifications differ on this account, they are footnoted. Revolving fund trensactions are included nat in the expenditures.
1 For description of itams includad, see Table 40 Although not expended, a substantial portion of these amounts is obligatad for outstanding purchase orders and contrects for equipment and supplias, for peyrolls and for similer items.
2) Sae footnota 7 .

3 Expenditures for 1960 include those made from "Readjustrent Benefits, Veterans' Administration," applicable to functional code 102.
4/ See footnotes 3 and $1_{4}$.
See footnote 6.
6 Expenditures for 190 include those for promotion of education in scienca made from "Saleries and Expenses, National Science Foundation," applicable to functional code 214.
7 Expenditures for 1960 include those for emergency family relief to friendly peoples, applicable to functionsl code 152; for special milk progrem - restoration of capital impairment, epplicable
to functional code 217; for loans to Secretary of Agriculture for conservation purposes and conservation reserva program,applicable to functional code 354; and for animal disease eradication activities, and grading and classing ectivities, spplicable to functional coda 355. These expenditures were made from "Cormodity Credit Corporstion Capital Fund"and "National Wool Act, Commodity Stabilization Service.
8/ Expenditures for $1 \% 0$ include those for fam housing made from "Loans, Farmers' Home Administration," applicable to functional code 517.
2/ For shift of Federal intermediate credit banks from budget to trust
account clessification effective January 1957, see Table 3, footnote 3.
$10 /$ Excludes Federal-aid highway expenditures, which are made from the Highway Trust Fund beginning with 1957 (see Table 1, footnote 14); corrasponding expenditures for previous years are included in Budget expenditures.
11/ See footnota 8.
12 Expenditures for 1960 include those for disaster loans and relief made from "Revolving Fund, Small Business Adminiatration," applicable to functional code 521.
13/ See footnote 12.
14. Expenditures for 1960 include tbose for unemployment compensation for Federal employees and ex-servicemen epplicable to functional code 102.

* Less than $\$ 500,000$.

## Footnotes to Table 3 - (Continued)

Footnotes 1 tbrough 3 follow Tabla 3 on page 40
4) Tbe 1959 figures in the Bulletin diffar from those in the 1961 Budgat document because of a reclassification in the latter by which military asaistance under tba Mutual Security program in tbo amount of $\$ 2,340$ million is shifted from "Funds eppropriated to tbe Preaident" to "Defense Department, military functions," and \$8 million is shifted from "State Department" to "Furds appropriated to tbe President." Monthly figures in the bulletin are on the same clessification basis as 1959 fiscal year figures.
5) Totals include allowance for contingences of $\$ 75$ million for 1960 and $\$ 200$ million for 1961.
6) Includes unclasaified expenditure transfers until these have been distributed in final fiscal year figures.

7/ Beginning 1955, consists of net expenditures of the Postal Fund, reflacting the change in classification of Post office transactione to a public entarprise revolving fund basis.
8/ Reported on an accruel basis effective June 30, 1955.
9/ Consists of Federal payment and loans and advances.
10/ Includes $\$ 1,375$ willion additional aubscription to the International Monetary Fund in June 1959 pursuant to Public Law $86-48$, approved June 17, 1959. Of the total, 344 million were paid in gold (see "Monetary Statiatica," Table 3) and the remaining \$1,031 million were pald in special notes of the Unitad States (sas "Debt Outatanding," Table 1, and "Casb Ircome and Outgo," Table 6).

* Less than 500,000 .

Source: See Table 1.
1/ Includes security transactions of Government-sponsored enterprisas beginning 1955 (see Table 1, footnote 1).
2) Does not include revolving fund receipts representing acquired securities amounting to $\$ 1,643,070$ (par value); see also Table 4.
3/ Opereted es a trust enterprise fund beginning January 1, 1957, at whicb time the production credit corporetions were merged in the Federal intermediate credit banks, pursuant to tbe Farm Credit Act of 1956 ( 12 U.S.C. 1027); previously the banks and corporations, respectively, were classified as public enterprise funds, and were included net in budget expenditures. Beginning January 1959 they are classified as Government-sponsored enterprises, and the net transections of the operating fund were then transferred from the trust fund and included under "Deposit fund accounts."
4 Secondary market operations, as provided in the Housing Act of 1954.
approved August 2, 1954 (12 U.S.C. 1719). Funds provided by tbe Treasury ( - ), or repaid to the Treasury, are shown in a separate column (and correspondingly are reflected net in budget expenditures).
5) Includes District of Columbia operating expenditures; Indian tribal funds; expenditures cbargeable agoinst increment on gold; and trust enterprise funde (net) which are not ebown separately. The Railroad Onemployment Insurance Administration Fund is included for the period 1954 through November 1958 (see Table 7), and the Employees' Life Insurance Fund (net) from its establishment in August 1954.
6) Excluded from deposit fund account expenditures and included with similar security transactions of other agencies (see Tables 4 and 5).

* Less than $\$ 500,000$.
n.a. Not available.

[^0]- Lees than $\$ 50,000$.

The cash income and outgo data appearing in the "Treasury Bulletin," beginning with the Februasy 1956 iseue, are on a basis consistent with receipte from and payments to the public as derived in the 1957 and subsequent Budgets of the United States, Special Analysis A. Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same hasis as in the Buaget documents. There is also shown the amount of net cash borrowing Irom, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Buaget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with the Budget olasaifications as avallable data will permit. For this reason certain of the ilgurea differ samewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions 18 designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both In budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovemmental transactions which are reported as both expenditures and recelpts are eliminated from both. Noncash items whioh reprosent acorued obligations of the Government to make payments in the future are aleo ellminated from expenditures but are added later when actual paymente are made. Recelpts from the exercise of monstary authority (moetly selgniorage on ellver) are excluded as not
representing cash received from the public. Federal casi borrowing from the public includes net borrowing by the Trasaury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises thraugh ases of their own securities. It excludes changea in the public dobt which do not represent direct cash borrowing fram the public. The net effect of all these tranastions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outaide the Treasury.

Cash transactions through the Treasurer'e account are similar in general concept to those included in the Budget series, but are limited in coverags to transacticns whioh affect the balance in that account. On the other hand, they include recelpta from the exercise of monetary authority, which are excluded from receipts from the public in the Budget sarios.

Beginning with ilgurea for the flscal year 1953, the series of transactions with the public ls based on the "Monthly Statement of Recelpta and Expenditurea of the United States Government," which is campiled from reports by all colleating and disbureing officers and includes those transactions not cleared through the Treasurer's account. Cash depasits and withdrawals in the Treasurer's account, beginning with the $11 g u r e s$ for the same year, are reported in dally Treasury statements. For thase years prior to 1953 both cash transactions series are based on a single source, namely, the earller basis of dally Treasury statements which reported separate clasalficatlons for budget results, trust account transacticns, etc.

## Table 1.- Summary of Federal Government Cash Transactiona with the Public

(In millions of dollars)

Source: Actual figures for 1952 are besed on the dally Treesury
stotement and thereafter they are based in part also on the
monthly statement of receipts and expenditures of the Government
(for explanation of reporting basee, see page II); estimates are from the 1961 Budget document, released January 18, 1960, including effects of proposed legisiation.

## Footnotes to Table 4

1) Net operating expendituree, or recelpte ( - ), so measured by sunds provided by or applied to net security trabactions reflected in Treasury reporta (see Table 7). To a large extent, thase Governmentaponeored enterprise escurs funde for their operatione by direct borrowing from the public or by caabing Federal securitiea which tbey hold, and they apply the net income recelvad from operations to repayment of borrowing from the public or to invaatment in Federal aecuritiea. On that basis, not expenditure for operations are ehow in this table in terme of the combined not of diainvostment in Federal ofcurities and a日le of agency obligations in the market,
and net receipte from operationa are shown in terms of the combined net of investment in Federal securitiee and redemption of agency obligations in the market.
2/ Not reported prior to 1954.
$3 /$ See Tabla 7, pootnote 1 .
Does not include revolving fund receipta representing acquired securitiee amounting to $\$ 1,643,070$ (par value).

## Footnotes to Table 5

1/ Federal intermediate credit bank franchiso tax through Decomber 1956 and, beginning 1953, eleo reimbureement by Panama Canal Company for expenees and services.
3) Includes ralmbureement by Fedoral 01d-Age and Survivora Inaurance Trust Fund and Federsi Diaability lasurance Truat Fund for Adminiatrative expences, and aleo for refunde of taxeo (treated a an offeet to refunde rather than being credited to receipta) beginning With 1953 for the former and 1959 for the latter; reimbursement by Elghway Trust Fund for refunda of taxea; reimburaement by the Dlatrict of Columbia; payment of dividende, interset, etc., by Federal Mational Mortgage Aesociation's secondary market operations; and Fedaral intermediate credit bank francbioe tax and repayment of capitel otock to the Treasury after December 1956 and before Jenuary 1959.
3/ Comeiste of pasment of aarninge and repayment of capital toak to the Treaeury for 1952; and payment of franchise tax by banks for cooperstive beginning 1955, and by Fidersl intermediate credic beniks beginnine January 1959.
4) Includes relatively amall anounts of deductions from allaries pald by trust fund and Govarnmet-sponsored enterpriees. Beginning witb fiecal year 1958 sxcludse deductions from salaries of District of

Columbia employeea (see footnote 6), and beginning with fiacal year 1959 excludes voluntary contributione.
5/ Conalete of payments to employees' retirement funde represeating Infted States and Government corporation ahares of contributions; paymente to the Railroad Retirement Aceount (for creditable military aervice), the Unemployment Truet Fund, veterans' life insurance funde, Judicial Survivors Annuity Fund, trust fund for tecbnical eervices and other asistance under the agricultural conservation program, and Dietrict of Columbia; and awarde of Indian Claima Comisoion.
6/ Iacludes payment by District of Columbla to the Civil Service retirement fund for its share of contributions, and beginning with 1958 also deductions from 1ts payroll; financial adjustments among Railroad Retirement Account, Federal Old-Age snd Survivors Insurance Trust Fund, Federal Disability Insurance Trust Fund, and Unemployment Truat Fund;transfers from Civil Service retirement fund to Foreign Service retirement fund from 1955 through 1957; and tranafers from Railroad Unemployment Insurance Administration Fund to Unemployment Trust Fund through 1955.

* Less tban $\$ 500,000$.

## Footnotes to Table 6

1/ Accrued discount on savinge bonds and bills less interest paid on eavings bonde and bille redeemed.
2) Public debt interest due and accrued beginning June 30, 1955, effective date of the change in accounting and reparting from a due and payable basis to an accruel besie; for 1954, consiats only of public debt interest checks and coupone outstanding; aet increase, or decrease (-). Not reported as a separate clasing account prior to 1954.
3/ Treated as noncash axpenditures at the time of issuance of the securities and as cash expenditures at the time of their redemption; net lesuance, or redemption ( - ).
4) Issued in 1936 in exchenge for adjuated service certificatoe held by vetarens of World War I. The bonds matured in 1945.
5/ Issued in 1947 in payment for accumulated leava. The last of these bonds metured in 1951.
of Part of the United States subscription to the capital of the International Monetary Fund was paid in the form of noointerest-bearing nonnegotiable notes payable on demand (see 1947 Annusl Report of the Sacretary of the Treasury, pages 48,350 , and 385).
7) Cbecks outstanding less deposits in transit, and changes in other accounts; net increase, or decrease (-). Prior to 1954 includes also public dabt intarest due and unpaid (ses footnote 2).
8) Includes 1,031 million of notes issued as part of the adaitional United States subscription to tbe Fund autharizad by Public Law 86-48, approved June 17, 1959 (see "Buaget Receipts and Expenditures," Table 3, footnote 10).

* Less than 500,000 .

## Footnotes to Table 7

1) In thie table, beginning 1954, in accordance witb treatment in Budget documents, net inveatment in Unítad Stateo securitios by Governmentsponscred entarprisos includes a small amount by otber aterprises regarded as representing net tranactions witb the public. In Table 4 under "Trust Account and Other Trapesctione," these emounte are iscluded in trust and deposit fund sccount investment.
2/ Does not include investments representing acquired securities amounting to $\$ 1,643,070$ (per value) and donation of securities amounting to \$45,800 (par value).
3 Aecruad ciecount on savinge bonds and bille, whicb is includad in the principel of the public debt, lees intereat paid on eavinge bonde and hille redosmed.

Treated as nobcash treneactions at the time of issuanco and as cesta transections at the time of redemption; net iesuance, or redemption ( - ).
5/ Excluded from borrowing because the transactions are treeted as expenditures is Table 6.
6/ Excluded from borrowing because the transactions are trated as deductions from receipts in Teble 3.
7) Market transactions in public debt eecurfties and agency obligations.

* Lese then $\$ 500,000$.

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United states rellects not only budget reoelpts and expenditures but also trust, deposit fund, and public debt transactions.

The working cash of the Treasury is hela mainly in Tressurer's accounts with Feaeral Reserve Banks and branches. As the balanoes in these accounts become depleted, they are restored by calling in (transferring) funds from the tax and loan accounts with thousands of commercial banks throughout the oountry.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all banks whereby customers of banks deposit With thom tax payments and funds for the purohase of Hovernment securities. In most cases the transaotion involves merely the transfer of money from a customer's
account to the tax and loan account in the same bank. On occasions, to the extent authorlzea by the Treasury, banks are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the account of their customere.

The tax and loan account system permits the Treasury to leave funds in banks and in the conrunities in which tbey arise unt 11 such time as the Treasury needs the funds for its operatione. In this way the Treasury is able to neutralize the effect of its fluctuating operations on bank reservee and the economy.

A detalled deacription of the Treasury's depositary system may be found in the Annual Report of the Secretary of the Treaeury for 1955 , pages 275-284.

Table 1.- Status of the Account of the Treasurer of the United States

Source: Daily Treasury stetement.

1) Consists of Treesurer's checks outstanding, reserve and other deposits of Board of Trustaes of the Postal Sevings System, uncollected items, exchanges, etc., beginning December 1954; prior to that time included also Post Office Department and Postmesters' disbursing accounts (see footnote 2).
2) Beginning December 1954, Post Office Department and Postmasters'
disbursing accounts are no longer treated as liability accounts of the Treasurer of the United Stetes, but ere classified and treated in the same manner as other disbursing eccounts, in accordance with the change in method of reporting Post Office transections (see "Budget Receipts and Expenditures," Table 3). An adjustment of - $\$ 207$ million in the balance in tbe Treasurer's eccount (and in the "clearing account") reflects this change.

Table 2.- Analysis of Changes in Tax and Loan Account Balances
(In millions of dollars)

Source: Office of Fiscal Assistant Secratary; figures are on basis of telagraphic reports.
1 Special depositaries are permittad to make payment in the form of a deposit credit for the purchase prica of United States Government obligations purchased by them for thair own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.
2/ Taxes eligible for credit consist of those deposited by taxpayers in the dapositary banks, as follows: Withheld income tax beginning

March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.
3 Undar a special procadure bagun in March 1951, authorization may be given for income tax payments, or a portion of them, mada by checks of $\$ 10,000$ or more drawn on a special depositary bank to be credited to the tax and loan account in that benk. This procedure is followed during some of the quarterly periods of heavy tax payments.

| Source: Daily Treasury statement. <br> Note: The computed annual interest charge represents tha amount of interest that would be paid if aach interest-bearing issue outstanding at tbe end of each month or year should remain outatanding for a yaar at the applicable annual rate of interest. The charge is computed for each issue by spplying the sppropriate annual interest rate to the amount outstanding on that date. Tha aggregate charge for all intereat-bearing issues conatitutes the total computed annual intarest charge. The averaga annual intarest rate is computed by dividing the computed annal interest charge for tha total, or for any group of issues, by the corresponding |  |  |  |  |  | principal amount. Beginning with date for December 31, 1958, the computation is based on the rate of effective yield for issues sold at premium or discount. Prior to that date it was besed on the coupon rate for all issues. <br> Excludes guaranteed securities held by the Tressury. <br> Total includes "Other bonds"; see Table 3. <br> Included in debt outstanding at face amount, but discount value is used in computing annuel interest charge and annual interest rate. On United States savings bonds the rate to maturity is opplied agalnst the amount outatanding. |  |  |  |  |  |  |  |  |

Source: Daily Treasury statemeat; Deht Analysis Staff io the Office of the Secretary.
Note: In these tables Series A-F and J sales are included at issue price and redemptions and arounts outstanding at current redemption values. Series G, H, K are included at face value throughout. Matured bonds which heve heed redeemed are included in redemptions. Matured $F$ and $G$ bonds outstending are included in the interest-bearing debt until all bonds of the anmal series hava matured, wheo they are trangferred to matured debt upon which laterest has cessed.

1) Sales and redemption figures include exchanges of minor amounts of (1) matured series E bonds for series $G$ and $K$ bonds from May 1951 through April 1957 and (2) serise $F$ and $J$ bonds for serles $H$ boods beginning January 1960; however, they axclude sxchanges of serles E bonds for series H honds, which are reportsd in Table 3.
2/ Details hy serles on a cumulative besis and by periods for Series A-D combined will be found in the February 1952 and previulas 1ssues of the "Treasury Bulletin."
3/ Includes both matured and unmatured bonds; see Table 4.
4/ Includes total value of redemptions not yet clasaifled between salse price and accrued dicoount.
5/ A change in procedure, beginning in June 1954, for processing redeomed savings boode has resultad in a high level of redemptions not yat classifisd by yearly series of issue. This increase temporarily
obscures the relationship between the redemption columns showing eales price and accrued diecount in Tables 2 and 3 and also the relationship between the matured and unmatured aections of Table 4. (Ses also footnote 4). The subsequent distributioo of this high level of unclessified redemptione may be large onough in any month to abow rademptions of matured and unmatured bonds in Table 4 which are greater than ths total redemptions for that month.
6/ Reductiose were made io lesurse and redemptions of Serles E, H, F, G, J, and K in July 1954 to compensete for the arroneous inclusion of reissue transactions in Juns 1954 as reported in the daily Treasury statement. The amounts involved were follows $\$ 18$ million for issuee of Series $E$ and $H$ and $\$ 17$ million for issues of Serles F, G, J , and K ; and $\$ 35$ million for unclassifisd retirements.
2) Series $F$ and $G$ sales wsie discontinued April 30, 1952, and Series J and K sales were discontinusd April 30, 1957. Sales figures ofter April 30, 1957, represstt adjustments.
8/ Includes the Decomber 1959 exchangse of serias 1948 F and G bonds for $4-3 / 4 \%$ markstsble votes of which $\$ 692$ million were reported in Decomber 1959, $\$ 51$ million in January 1960 , and $\$ 3$ million in Febsuary 1960.
9/ Repreeente changee in the amounts of redemptions not yet clasified as between matured and unmatured issues.
10/ Includes exchanges of Series 1941 F and G savings bonds for Tressury 3-1/48 bonds of 1978-83.

Government.
9) Immediste postwar debt peak.
p Prelimidary.
Revised.

The Treasury Survey of Ownership covers securities 1ssued by the United Statea Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by $2 l l$ banks and insurance companies in the United States. Data were first published for March 31, 2941, in the May 1941 "Treasury Bulletin".

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve memberbank classes and nonmember banks are published for June 30 and December 31. Holdinge by corporate pension trust funds are published quarterly and first sppeared in the March 1954 Bulletin for quarters beginning December $31,1949$.

Footaotes at end of Table 4.

Table 4.- Interest-Bearing Public Nonmarketable Securitles by Issues
(Par values - 10 millioos of dollars)

1 Iocludes cerlain ohligetions oot subject to statutory debt limitation. For amount subject to lialtation, see pags 1.
2) Excludes trust departments.

3 Includes trust companies and, beginning with figures for July 1949, also includes stook savings banks. Previouely, those banks were reported as a separete claselficatioa.
4 Includes those banks and insurance companies not reporing in the Treasury Survey.
5/ United States savings bonds, Serles E, F, and J, are shown at curreot redemption value. They were reporled at meturity value by the banks and insurance companies included in the Treasury Survey but have been edjusted to current redeaption value for use in this stetement
6/ Iacludes $\$ 73$ million depositary bonds hold by comercial banks oot lacluded in the Treesury Survey.

I/ Holdings by reporling investora not avallable.
8/ Excludss guarante日d securitiss hold by the Treesury.
9/ Except partially tax-exempt bonds, which are oleselfiad to earliest call dots.
10/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securitios are those with the income exempt from both normal tax and eurtax. "Partially" tax-exempt securities are those witb the income exempt from the normal tax except that in the case of partially tax-emempt Treasury bonde, intereat derived from $\$ 5,000$ of principal amount ouned by any one holder is also expmpt from the surtax. "Taxable" securities are those with the incose subject to Dormal tax and surlar.
Remaining footaotes on following page.

## Section II - Interest-Bearing Securities Issued by Federal Agencies But Not Guaranteed by the United States Government

Current market quotations shown here are over-thecounter cloaing bid quotationa in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The aecurities liated include all regularly quoted
public marketable aecurities 1asued by the United States Government except Panama Canal bonda. Outatanding 1asuea which are guaranteed by the United States Government are excluded becauae they are not regularly quoted in the market.

| 1/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Frices for prior detes are the mean of closing bid and eak quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchenge. "When issued" prices are includad in the bistory beginning October 1, 1939. Detes of bighs and lows in case of recurrence are the letest dates. <br> 2) Of the 2,000 million $4 \%$ notes of August 15,1962 , outstanding on October 31, 1959, \$1,684 million were exchanged for the $4-7 / 8 \%$ notes of November 15, 1963, and $\$ 159$ million were presented for stamping for redemption on February 15, 196 , leaving $\$ 158$ million to mature August 15, $1 \% 2$. <br> 3/ Amount outstanding includee an additional issue of $\$ 746$ million December 15, 1959, accepted in exchange for $F$ and $G$ savings bonds due to mature in 1960. <br> 4) Not quoted on Marcb 31, 1960. On February 15, 1960, \$142 million were exchangad for other securities. For further details see "Public Debt Operations," Table 6. <br> 5/ On callable issues market convention treats the yield to earliest call date ss more significant when an issue is selling above par, and to maturity when it is selling at par or below. <br> $6 /$ Included in the average yield of long-term taxable Treasury bonds as show undar "Average Yields of Long-Term Bonds." |  |  |  |  |  |  |  |  |  |  |  |

YIELDS OF TAXABLE TREASURY SECURITIES, MAR. 31, 1960

Table 1.- Average Yields of Taxable Treasury and Moody's Aaa Corporate Bonds by Periods
(Perceat par anoum)

Source: Begiming April 1953, Treasury bond Fielde are reported to the Treasury by the Federal Reeerve Bank of Nev York, bnsed on clooing bid quotations in the over-tbe-counter market. Yielde for prior periode were computed on the basie of mean of closing bid and ask quotations. Moody'e Investor Service is the scurce for the average of las corporate bonde. For definition of taxable bonds, Bee footnotes to the "Treasury Survey of Ownerahlp" in this iesue of the Bulletin.

1/ Beginning April 1953, the average includee bonde nelther due nor callable for 10 yearg; April 1952 through March 1953, the minimua length (neither due nor callable) vas 12 years; October 1941 through March 1952, the minimum length vaa 15 years. For bonds currently in the everage, see Table 4 under Market Quotations on Treasury Securities ${ }^{n}$ in this lesue of the Bulletin.
2) A new lang-term bond added to the average.

3/ An exieting bond dropped frow the average (see footnote 1).

Source: Internal Revemue Service reports for datell of collectione by type of tex; daily Treasury statement for budget recelpte from internal revenue for the fiscal yosr 1952, and the manthly stetement of receipts and expenditures of the Government for receipts tbereafter (for explenation of reporting bases in these publications, see page II). Certein datail by type of tax is aveilable only from raturne filad with the Internal Revenus Service. The figures show include collections for credit to special accounts for certain island passessions, as reported by the Internal Revenue Service. Beginning with the fiscel yeer 1955, they include the amounts of tax collected in Puerto Rico upon articlss of merchandise of Puerto Rican manfacture coming into the United States. Figuras for 1954 have bean revised to the same basis. Figures for previous years include only emounts collacted at ports of entry into the Onited Stetes.

1) Differences between the amounts of internal revemie reported by the Intermal Revenue Service as collections for given perinds and the amounta reported in Treasury atatementa as buiget recelpts for the same perinds arose because of differences in the time when paymeats were included in the respective reports. Tar paymente are included in budget recelpts when they are reported as credits to the sccount of the Trabsurer of the United States. Prior to July 1954, they were included in Internal Revenue Sarvice collection reports after tba returns to which they applied had been raceived in internal reveme afficas. Under procedure hegun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement tazes and many axcises, thase taxes are paid currentily into Treasury depositaries and the depositary recelpts, es evidence of sucb payments, are attached to quarterly returns to the Internal Revenue Service.

Under this procedure, the peyments ere included in budgat receipts in the month in which the depositary recelpts ere issued to the taxpayere. Revised eccounting procedures effactive July 1, 1954, extended the same practice to Intemal Revenue Service collection reports.
2) Monthly figures include social security tex on self-omploymont income, which is levied and collected as part of the individual income tax. Fiscal yeer figunes excluds this tax, on the basis of estimates (see footnote 3), and it is included under "Old-ege and disability insurance."
3/ In Internal Revenue Service reporte current collections are not separated ss to type of tax; the breakdown shown for fiscel yeers is based on estimates made in eccordance with provisions of Sec. 201 of the Social Security Act, as emended ( 42 U.S.C. 401), for trenafer of tax receipte to tho trust funds (see "Budget Recelpts and Expenditures," Teble 1).
4/ Boginning with the fiscal year 1955, collections shown include undistributed dapositary recelpts and unapplied collections. Por excise taxes thess receipta ere included in the total only. Total collections include "Taxes not otherwise claesified."
5 Budget recelpts for 1956 were reduced by $\$ 3,566$ thousand repressnting tax collactiona tranafarred to the Govarnment of Guam pursuant to the act opproved Auguat 1, 1950 ( 64 Stat. 392), hut this amount was included in collections reported by the Internal Revenue Service. Begiming with 1957, such collections ore oxcluded elso in Intomal Revenue Service reports.
6/ Detail is reported by quertero begiming with the fiscel year 1956.

INTERNAL REVENUE COLLECTIONS BY PRINCIPAL SOURCES

*Beginning with the fiscal yaar 1955, includas undistributed depository recelpts and unappliad collections. The whote amaunt or such
recaipts for excise fores is included under "Otherexclso fores."

Data relating to capital movements between the United States and foreign countries have been collected since 2935 , pursuant to Executive Order 6560 of January 15 , 1934, Executive Order 10033 of February 8,1949 , and Treasury regulations promulgated thereunder. Infornation covering the princlpal types of data and the principal oountries 18 reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealera, and industrial and commercial concerns in the United States are made initially to the Federal Reaerve Banks, which forward consolidated ligures to the Treasury. Beginning April 1954, data reported by banks in the Territorlea and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official ingtitutions of forelgn countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturitles of one year or less, and "long-term" refers to all other maturitiea. A detalled discussion of the reporting coverage, statistical presentation, and definitions appeared in the June $195418 s u e$ of the "Treasury Bulletin," pages $45-47$. As a result of changes in presentation introduced in that issue, not all breakdowns previously
published will be exactly comparable to those now presented.

The first three sections which follow are fublished monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on forelgners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest avallable preliminary data.

Section IV provides supplementary data in $81 x$ tables which eppear at less frequent intervals. Table 1 , shortterm forelgn llabilitles and clains reported by nonfinancial concerns, is published quarterly in the January, April, July, and October $18 s u e s$ of the Bulletin. Table 2, long-term forelgn liablilties and clalms reported by banks and bankers, and Table 3 , estlmated gold reserves and dollar holdinge of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, forelgn credit and deblt balances in brokerage accounts, appears semiannually in the March and September issues. Iable 5, ahort-term liabllitles to forelgners in countries and areas not regularly reported separately by banking institutione, is presented annually, appearing in the April 18 sue through 1958 and in the March lssue thereafter. Table 6, purchases and sales of long-tern securities by foreignere during the preceding calendar year, also appears annually, beginning with the May 1959 issue.

1/ Part of United Arab Kepublic (Egypt and Syria) since February 1958. Data on purcbasee and salea by Syris are not avallable separately, but ans included in "Other Asis."

The current inancial statements of corporations and certain other business-type activities of the United States Government which appear in the "Treasury Bulletin" beginning with the August 1956 isaue are complled from roporte submitted to the Treasury under Department Circular No. 966,18 sued January 30,1956 , and Supplement No. 1, 18sued June 1, 1956. The regulations so issued are pursuant to Section 114 of the Budget and Accounting Proceduras Act of 1950 ( 31 U.S.C. 66 b ), and represent another atep in the program of comprehensive and integrated Government accounting and ilnancial reporting for which suthority was provided in thet aot. They supersede Budget-Treasury Regulation No. 3, iseued under Executive Order No. 8512 of August 13,1940 , as amended by Executive Order No. 9084 of March 3, 2942, under whicb 11nanoial etatements previousiy published in the Bulletin were submitted.

In coverage, Depsrtment Ciroular No. 966 requiree submiseion of financial statements by all wholly owned and mixed-ownership Government corporations specifically included in the Government Corporation Control Aot, as amended ( 31 U.S.C. 846, 856) ; and all other sotivitied of the Government operating as rovolving funds for which business-type publio enterprise or intragovernmental fund budgets ars required by the Buresu of the Budget. Other sotifitiee and agencies whose operations, servioes, or functions are largely self-liquidating or primarily of a revenue-producing nature, and aotivities and agenciee whose operations result in the accumulation of substantial inventories, investments and other recoverable assets, way be brought under the regulations as agenoy aooounting syateme are developed to the point where they are capable of furnishing the inancial reports required.

Four kinds of sinancial statements are alled for by Department Circular No. 966. They are etatements of IInancial condition, income and expense, cource and application of funds, and certain comitmenta and contingencies. The statements of financial condition are
published quarterly and appoar as section I in the series of tables. The ifrst data under the new regulations aro for March 31, 1956, and were presented in the August 1956 Bulletín. Statements of income and expense and source and application of funds are published semiannually, for June 30 and December 31 reporting dates, and sppear as Sections II and III. The lirst of these statements under the new regulations cover the fiscal year 1956 , and were published in the January 1957 Bulletin. Within the sections, the agencies are grouped in separate tables by type, as follows: public enterprise revolving funde, intragovernmental revolving funds, certain other activities, deposit funds, and trust revolving funds.

Supploment No. 1 added to the coverage by including all executive agencios and sotivities not reporting under Department Ciroular No. 966 , but required only a statement of financial condition annually as of Juse 30. These are mainly not business-type aotivities, and those which haci not yet devoloped formal accounting procedures to provide complets balanoe sheet types of statements were authorized temporarily to report only the asset $s 1$ de. Thus the supplement rounds out provision for the information on properties and assets of the United States Government which the Treasury has been asked to furnish to the Committee on Government Operations, House of Representatives, for a continuing study of the assets of the Government. The first comprehensive reporting under supplement No. 118 for June 30, 1957, and tho data were published in the December 1957 1s8ue of the Bulletin as Part B of Table 4 in Section I.

A summary of loans outstanding for a series of dates 18 included in seotion $I$ of the Bulletin presentation beginning with the June 1958 18sue. Two olassiflcations of the loans are shown, one by type and one by agency. Data prior to 1956 are based on the earlier reportinf requirementi, which provided for complete coverage of Government lending agencles.
