## Reporting Bases

Date on recelpta, expenditurea, and debt whioh appear in the "Treasury Bulletin" are baed largely on two Treasury Ilnancial reporte, the "Da11y Statement of the United Statea Treasury" and the "Monthly Statement of Receipte and Expenditures of the United Stetes Government." Certain monetary etatictice are based at least in part on the "Ciroulation Statement of Uaited states Money." Where these etatemente are given as sourcea for 1 n dividual tables, they are alted by name only. Their respective reporting baee日 are deecribed below. For other data in the Bulletin, information on eources or reporting baees is given in connection with the tablee themeelvoe.

The monthly atatement of recelpta and expenditures was first publiohed for February 1954, and replaced the dally otatement as the primary source of information on budget resulte and other receipt and expenditure data claseifled by type of aocount. At the ame time, the dally atatement was ohanged to a etatement of cash deposite and witharawale affecting the account of the Treasurer of the Onited States. Both publications have provided comparative flguree on their reepective basee from the beginning of the f1ecal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found in the April 1954 1eaue of the Bulletin.

The monthly etatement bhows all recelpte and expeaditures of the Governeent, including those made from cash aocounte beld outelde the United States Treasury. The information is complied from reporta by the Treasurer of the United States and by all other collecting and diobureing agenciee, inoluding thoee agenciee which maintain ohsoking accounte ia comerolal banke. These reporte cover traneactione recorded in the accounte of the agenciee luriag the reporting period. The net of the transactione ae complied from these reporta 10 reconolled in the wonthly statement to ohanges in the balance in the Treasurer's account and in oash held outside the Treseurer's account and changes in the publio debt outatanding.

Recelpte of taxes and cuatome dutise are reperted on a collectione basis. Other receipte are reported partlally on a collections basia and partially on a deposita basio. Expenditurea, exespt interest on the publio debt, are reported on the basio of cheaka lesued or caeh paymente wade by disbureing officers. Treneactions of an interfund or intragovernmental nature are included on the same baele Even though the actual lesuance of ahecke may not be involved. Interest on the public debt ie included on an accrual besia baginning with figuree for June 1955 and the f1ecal year 1955. Prior to that, it wae included on a due and payable baile. The ame reporting basio as that in the monthly etatement providee the flecal year flgures for the Treacury's "Combined Stetement of Recelpte, Expendituree and Balances of the United States Governsant" and for actual recespte and expenaltures in the "Badget of the United States Government."

Beginning with the final atatement for the fiecal year 1960, the monthly atatement reporte totale for net budet receipte and budget expenditurea after deduction of certain interfund tracgaction which are included in the detall of both budget receipte and budget expenditures. The transactions deducted consiet of intereat paymente and minor amounte of certain other paymente made by Government agenclea to tae Treasury. Thie reporting change was made in accordance with the plan atated in the President's Budget Mesagge of January 18, 1960. It does not affect the surplue or defleit. Figuree for earlier periode ehown

In the Treasury Bulletin were revieed to the new reporting baeis in the geptember 1960 1esue. The interfund transections deducted under thic procedure do not include paymenta to the Treasury by wholly owned Government corporatione for retirement of their capital atock and for disposition of earninge. These capital transfere have been excluded currently from budget recelpte and budget expenditures beginning July 1. 1948, and 11gures for prior flacsi years back through 1932 were revised accordingly at that time.

The dally atatement on the new basis was flret lesusd for February 17, 1954. In the deposite and withdrawale as ahown, no diatinction 10 made as to the type of accounte (budget, truat, etc.). The deposits are on the baels of certiflcetee of deposit cleared through the account of the Treasurer of the United States. Total withdrawale are on the basie of checke pald or caeh diabursemente made out of the Treaourer'e account. Some of the Withdrawal claselficatione shown are reported on the baels of melled reporta of checke iseued and are adjueted by meane of clearlag aocouate to the total of cheoke pald. Except for relatively minor amounta, noncaeb interfund and other intragovermental traneactions are excluded. The public debt flguree In the daily etatement also are on a "clearance" baila, with the exception of those lesuance and retirement transactions reported on the besle of telegrame from Federal Reaerve Banke. Noncesh debt traneactione are included, however.

The dally atatement before February 17, 1954, covered not only tranaactions cleared through the Treasurer's account but aleo certain Government agenoy transactione whioh were hanaled through comercial bank accounts, and included noncash interfund and other intragovernoental transactions. It provided inforwation elmilar to that in the present dally etatement with respect. to the etatue of the Treaeurer's socount, and elmilar to that in the preaent end-of-month dally atatement with reepect to debt lesuance, retirement, and amount outetanding. Receipts and expenditures, however, were claselfled by type of account, and the budget resulta ehow in the dally etatement were ueed as the basie for reflecting the reeulte under the preeldent's budget program as enacted by the Congreas.

Recelpte ware on the basis of deposits as they alsared the Treasurer's account. Expenditurse cleared through the Treaeurer'e account were reported on two succeselve bases. Through 1946 they were on the badis of checke pald by the Treadurer of the United Statee. Beginning with 2947, expenditurea mede through the facilities of the Treasury Department's Divieion of Diebureement were on the basis of checka isuusd, while certaln others, princlpally those of the Department of Defense and 1te predecessor organizations, were on the basie of checke pald. Traneaatione handled through commercial bank accounte, consisting of market traneactions in public debt and guaranteed eecuritiee, wore as reported by the agenciee. Intereet on the publio debt was 10aluded on a due and payable basis beginning with November 1949 and on a checke-paid basie prior to that t1me.

The olrculation atatement reflecte traneactions through the Treasurer'e account which affect monetary stocke of gold and ellver and the amounte of 0010 and ourrency in the mooey oupply of the country. It 18 lesued later than the dally etatement, however, and the flguree are based on transactione consumated during the reporting period even though oome may not have cleared the Treasurer'a account during that period.

## Treasury Financing Operations

## Offering of Notes and Bonds

An optional exohange offering of $3-1 / 4$ per cent 15 -month Treasury notes and $3-3 / 4$ percent $5 \frac{1}{2}-$ year Treasury bonds was announced by the Treasury Department on October 27, 1960. The offering, open on October 31 through November 2, was made to holders of the $4-3 / 4$ percent Treasury certificates of indebtedness, Seriee $C-1960$, and the $2-1 / 8$ percent Treasury bonde of 1960, both maturing November 15. An announcement on October 12 had stated that the holdere would be offered preemptive righte for exchange of new eecuritiee. Cash aubsoriptions were not recelved.

Subecriptions accepted for the two new iseues totaled about $\$ 10,313$ million, leaving $\$ 531$ milion to be paid in cash. Preliminary reeulte are shown in the accompanying table.
amount becomes payable. Neither 1 e日ue will be eubject to call for redemption before maturity.

Both seourities were made avallable either in bearer form with intereet coupone attached or registered es to principal and interest. The notes were iesued in denominations of $\$ 1,000, ~ \% 5,000$, $\$ 10,000, \$ 100,000, \$ 1,000,000, \$ 100,000,000$, and $\$ 500,000,000$. The bonde were issued in denominations of $\$ 500, \$ 1,000, \$ 5,000, \$ 10,000$. $\$ 100,000$, and $\$ 1,000,000$.

## Weekly Bille Refunded

New lasues of regular Treaeury bills in Ootober totaled $\$ 5.8$ billion, refunding an equivalent volume of maturing l3-week and 26-week bills. Each new lesue of 13 -week bills amounted to $\$ 1.0$ blllion, and of the $\$ 1.8$ billion of 26 -week bills, the 1 ssues on October 6 and 13 were for $\$ 0.5$ billion and thoee

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases see page 1I); estimates are from the Midyear Review of the 1961 Budget, released October 4, 1960, including effects of proposed legislation.
1 The distribution of receipts between individusl income taxes and old-age and dissbility insurance taxes is made in sccordance with provisions of Sec. 201 of the Social Security Act, as amended ( 42 U.S.C. 401 ), for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 9), and also for transfer to the Federal Disability Insurance Trust Fund (see footnote 10).
2/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 3101-3125), and tax on self-
employed individuals under the Selr-Employment Contributions Act, as amended ( 26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, spproved August 1, 1956, increased the rates of tax applicable to wages paid and taxable years beginning ofter December 31, 1956, to provide for disability insurance.
(3) Tsxes on carriers and their entoloyees under the Railroad Retirement Tsx Act, ss amended (26 U.S.C. 3201-3233).
$\sqrt{ } \sqrt{ }$ Tax on employers of 4 or more under the Federal Unemployment Tax Act, as amended ( $26 \mathrm{U} . S . C .3301-3308$ ); with respect to services performed before January i, 1956, the tax was imposed on employers of 8 or more.
5/ For further detail, see tables under "Internal Revenue Collections."

Sonrce: Actual figurea are irom reports to the Treaaury Department by diabursing officers, on the monthly statement reporting basia (see page II); estimatea are from the Midyear Review of the 1961 Budget, released October 4, 1960, including effects of proposed legislation.
1 Consiats of miacellaneous taxes (principally the tonnage tax on foreign vessels entering U. S. poria), bullion chargea, and gifts and contributions.
2/ Difference between the total shown In the monthly statement of receipts and expenditures of the Government (baaed on preliminary
reports) and that from final accounts of disbursing officers.
3 In 1953, taxea collected in Puerto Rico on products of Puerto Rican manufacture coming into the United States, amounting to $\$ 16$ million, are classified as miscellaneous budget receipts; therearter, such collections are included in Internal Revenue collections of excise taxes.

* Leas than $\$ 500,000$,
n. P. Preliminary.

## Footnotes to Table 1-(Continued)

6/ In the 1961 Budget document, Special Analysis G, taxes not otherwiae classified are included in miscellaneous receipts.
7) Beginning 1957, includes collections under fncreased rates in the Highway Revenue Act of 1956 (see footnote 13).
8/ Figures shown include (see footnote 9) decreases in income tax of $\$ 98$ million withheld and $\$ 4$ million not withheld and increases in transfers of $\$ 90$ million to Federsl Old-Age and Survivors Insurance Trust Fund and \$11 willion to Federal Disability Insurance Trust Fund,
2/ Amounts eppropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance. Anounts tranaferred currently for appropriation to the trust fund are baaed on eatimates of oldage insurance tax receipts made by the Secretary of the Treasury (42 U.S.C. 401 (a)), and are adjusted in later transfers on the basis of wage and self-employment income records maIntained in the Social Security Administration. The amount of old-age insurance tax refunds is reimbursed to the general fund by the trust fund.
10 The Federai Disability Insurance Trust. Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956 ( 42 U.S.C. 401 (b)). The act appropriated to the trust fund amounts equivalent to speciffed percentages of the wages and self-employment income, respectively, which are taxed for old-age Insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal 01d-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Diaability Insurance Trust Fund, the increase belng applicable to wages paid and taxable years beginning after December 31, 1956.
11. Amounta are appropriated to the Rallroad Retirement Account equal to the amount of taxes under the Railroad Retirement. Tax Act deposited in the Treasury, less refunds, during each fiscal year ( 65 Stat. 222 and 66 Stat. 371) and transfers are made currently. Figures for 1953 and 1954 exclude the Government's contribution for creditable military service (45 U.S.C. 228C-1 ( n )).
12) The Employment Security Act of 1960, approved September 13, 1960 (74 Stat. 970) established in the Unemployment Trust Fund an administration sccount, and appropriated for credit to that account, beginning with
the fiscal year 1961, amounts equivalent to taxes collected and deposited under the Federal Unemployment Tax Act. The tax receipts are transferred currently on the basis of eatimetes by the Secretary of the Treasury, With later adjustments as necessary. From that account are to be paid the administrative expensea of the employment security program. Prevfously the corresponding amounts were included, respectively, in budget receipta and budget expenditures. Refunds of taxes are to be reimbursed from the administration account.
13) The Highway Revenue Act of 1956, approved June 29. 1956 (23 U.S.C. 120, Note) establiahed a Highway Trust Fund from which are to be made, as provided by appropriation acts, Federal-aid highway expenditurea after June 30, 1956, and before July 1, 1972. Tha act appropriated to this fund amounts equivalent to specified percentages of receipts from certaln excise taxes on motor fuels, motor vehicles, tires and tubea, and use of certain vehicles, and provided that the amounts appropriated sbould be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfera. The use tax was impoged by the act and rates were increased for the other taxes. Previous to the fiscal year 1957 corresponding excise tax receipts were included in net budget receipts and Federal-aid highway expenditures were included in budget expenditures. Interest on refunds is included In expenditures in Table 4.
15. For content, see Table 3. These transactions are included in the detail of both budget receipts and budget expenditures, but are deducted from the totals in accordance with the reporting procedure outilned in the President's Budget Measage of January 18, 1960 (see Reporting Bases, P.I工).
16/ Figures in this column differ from those published under the same caption prior to the September 1960 Treasury Bulletin becsuse of the exclusion of certain interfund transactions (see footnote 15).
17. Transfera reduced by $\$ 300$ million to correct those made earlier on basis of estimates (see footnote 9).
18/ Net of reimbursement of $\$ 89$ million from the Federal 01d-Age and Survivors Insurance and Federal Disability Insurance trust funda, Less than $\$ 00,000$.

Source: See Table 2
1/ By Covermment agencies operated as revolving funds; on loans (see "Debt Outstanding," Table 6) and other interest-bearing U.S. investments.
2) Excludes transactions under Defense Production Act.

3/ Consists of paytaents by: office of the Administrator for college housing, urban renewal, prefabricated housing loans through 1955, and public facility loans beginning 1957; Federal National Mortgage Association; Public Housing Administration; and Federal Housing Administration in 1954.
4) Direct loan program.

5/ By various agencies for programs under the Defense Production Act.

6/ Consists of payments by: Reconstruction Finance Corporation through 1955; Colorado River Dam Fund, Boulder Canyon project; Virgin Islands Corporation; Bureau of Federal Credit Unions beginning 1954; Civil Defense Program Fund beginning 1954; Farm Tenant Mortgage Insurance Fund (Farmers' Home Administration) beginning 1956; Informational Media Guaranty Fund beginning 1959: Federal Ship Mortgage Insurance Fund beginning 1960; and St. Lawrence Seaway Development Corporation beginning 1960.
7) For net cost of Cansl Zone Govermment, less tolls on Government vessels, and for part of treaty payment for use of Canal Zone.
8 Fealization on the Government's investment.
P Preliminary

## Footnotes to Table 4 - (Continued)

Footnotes 1 through 3 follow Table 4 on page 5.
4 The 1959 figures in the Bulletin differ from those in the 1961 Budget document because of a reclassification in the latter by which military assistance under the Mutual Security program in the amount of $\$ \mathbf{2}, 340$ million is shifted from "Funds appropriated to the President" to "Defense Department, military functions," and $\$ 8$ million is shiftad from "State Department" to "Funds appropriated to the President."
5/ Beginning 1955, consists of net expenditures of the Postal Fund, reflecting the change in classiflcation of Post Office transactions to a public enterprise revolving fund basis.
6/ Reported on an accrual basis effective June $30,1955$.
7/ Consists of Federal payment and loans and advances.
8/ For content, see Table 3. These transactions are included in the detall of both budget receipta and budget expenditures, but are deducted from the totala in accordance with the reporting procedure outlined in the Preaident's Bidget Message of January 18, 1960 (see Reporting Bases, $p$. II).
9 Figures in this column differ from those published under the same
caption prior to the September 1960 Treasury Bulletin because of the exclusion of certain interfund transactions (see footnote 8).
10/ Includes $\$ 1,375$ million additional subscription to the International Monetary Fund in June 1959 pursuant to the act approved June 17, 1950 (22 U.S.C. 286e). Or the total, $\$ 344$ million was paid in gold (see "Monetary Statistics," Table 3) and the remaining \$1,031 million was paid In special notes of the United States (see "Debt Outstanding," Table 1, and "Caah Income and Outgo," Table 6).
11. Includes unclassified expenditure transfers until these have been distributed in final fiscal year figures.
12) Beginning with the fiscal year 1961, administrative expenses of the employment security progran are handled as trust account expenditures instead of budget expenditures, pursuant to the Froployment Security Act of 1960, approved September 13, 1960 (74 Stat. 970); see Table 1, footnote 12.
13 Total includes allowance for contingencies of $\$ 75$ million.

* Less than $\$ 500,000$

P Preliminary.

Source: Actual figurea are from the monthly statement of receiptg and expenditures of the Government (for explanation of reporting bases, aee page II); eatimates are from the Midyear Review of the 1961 Budget, released October 4, 1960, including effects of proposed legislation. Revolving fund expenditures are included net.
Note: Figures in this table are for agencies as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 6. Agency shifts are reflected in this table as followa: Beginning 1955, Federal Home Loan Bank Board from "Housing and Howe Finance Agency" "Independent offices," and Heconstruction Finance Corporation as indicated in footnote 1; beginning 1957, Alaska Road Construction from "Interior Department" to "Coumerce Department," and Feder"al intermediate credit banks and production credit corporations as indicated in footnote 2; beginning 1958, Federal Facilities Corporation (remaining functions) frow "Treasury Department" to "General Services Administration," and Informational Media Guaranty Fund from "Funds appropriated to the President" to "Independent offices"; beginning 1959, Federal Civil Defense Administration from "Independent offices" to "Executive Office of the President", and the
former Civil Aeronautics Administration and the Civil Aeronautios Board from "Commerce Department" to "Independent offices"; beginning 1960, military assistance from "Funda appropriated to the President"
to "Defense Department, military," pursuant to budgeting instructions in the Mutual Security Act of 1959, approved July 24, 1959 (22 U.S.C. 1813).

1/ Reconstruction Flnance Corporation is included under "Independent of fices" through 1954, and under "Treasury Department" beginning 1955, except functions transferred to Export-Import Bank. Federal National Mortgage Association, General Services Administration, and Small Business Administration. The corporation was abolished at the close of June 30, 1957 , by Reorganization Plan No. 1 of 1957 , and ita retaalning functions were transferred to the Housing and Home Finance Administ, ator, Adminiatrator of General Servicea, Administrator of Small Business Administration, and Secretary of the Treasury.
2/ Effective January 1, 1957, the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 195i, approved July 26, 1956 (12 U.S.C. 1027), and operationa of the merged agenciea (as mixed-ownership corporations) were olassified as trust enterprise funds (see "Trust Account and Other Trangactions," Table 3); previously the operationg of the banks and the corporations, respectively, were classified as public enterprise funds and were included net in budget expenditures.
3 Beginning 1957, Federal aid for highwayg is excluded from budget expenditures and included in truat account expenditures (see Table 1).
Remaining footnotes on page 4.

Source: Bureau of Accounts. Detaila for the current fiscal year to date
are shown in Bureau of Accounts report "Budgetary Approprlations and are shown in Bureau of Accounts report "Budgetary Appropriations and Other Authorizations, Expenditurea and Unerpended Balances".
d. These preliminary balances shown as of July 1, 1960, are the iatest available at this time. They are based on prelininary reports fram the agencies and are subject to later adjustments as additional information is received, preparatory to the closing of the central accounts in the Treasury for inscal year 1960. Among the areas subject to later adjustment are the following: certain overseas transactions not yet included; the write-offs or withdrawals of unobligated balances no longer available, since agency reports covering these transactions are not required by law to be submitted untll September 30 (the write-offs in the fiscal year 1959 amounted to $\$ 412$ million); certain indefinite appropriations included on the basis of Budget estimates instead of
inal flgures; other transactions, including those relating to (a) authorizations to expend from debt receipta, (b) contract authorizations, (c) investment in public debt aecurities, and (d) restorations and reappropriations, wbicb may require adjustments on the basis of final reports from the agencies. Includes same categoriea as shown at end of current period.
2 Although not expended, a substantial portion of these amounts la obli gated for outatanding purchase ordera and contracts for equipment and supplies, for payrolls, and for similar items.
3) Includes reappropriations.

L/ Consiats of authorizations by law for Govermment-owned enterprises to borrow (I) from the Treasury (to expend from public debt receipts), or (2) from the public (to expend from debt receipts).
Remaining footnotes on page 8.

Table 6.- Expenditures and Balances by Functions

Table 6. - Expenditures and Balances by Functions - (Continued)
(Fiscal yeara; in millions of dollars)

Source: Expenditures for 1960 and 1061 are from reports to the Treasury Department by dishuraing officers, on the monthly statement reporting basis (see page II). They are clessified in accordance with the clasification used in the $1 \% 61$ Budget document, Special Analysis $G$, as oearly as can be done on an individual approprietion and fund item basis. Prior year figures are from the same source but bave been adjustad below the appropriation level in some instances by the Bureau of ths Budget for use in the Special Analysis. Whare current classiflcetions differ on this account, they are footnoted. Revolving fund transections are included nat in the expenditures.
1/ For description of items iacluded, see Table 5. Although not expended, a substantisl portion of these amounts is obligated for outstanding purchase orders and contracts for equipment and supplies, for payrolls, and for similar items.
2/ See footnote 7 .
to functlooal code 217; for loans to Secretary of Agriculture for conservation purposes and conservation reserve program, applicable to functional code 354; and for animal disease eradication activitias, and grading and clessiog activitiss, applicable to functionsl code 355. These expeoditures were made from "Commodity Credit Corporation Capital Fund" and National Wool Act, Commodity Stabilization Servics."
8/ Expenditures for 2960 and 1961 include those for farm housing made from "Loans, Farners' Fome Administration," epplicable to functional code 517.
2/ For shift of Federal Intermediate credit banks from budget to trust account classification effective January 1957, see Table 4, footnate 2
10/ Excludes Federal-aid highway expenditures, which are made from the Highwey Trust Fund beginning with 1957 (sea Table l, footnote 13). corresponding expenditures for previous years are included in Budget expenditures.
Bonsfits, Veterans' Administration," applicable to functional code 102.
4. See footnotes 3 and 14 .

## Source: See Table 1

1/ Includes security transactions of Covernment-sponsored enterprisea beginning 1955 (see Table 1, footnote 1).

- Does not include revolving fund receipts representing acquired securities amounting to $\$ 1,643,070$ (par value); see also Table 4
(3) See Table 2, footnote
i Operated as a trust enterprise fund beginning January 1, 1957, at which time the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956 ( 12 U.S.C. 1027) ; previously the banks and corporations, respectively, were classified as public enterprise funds, and were included net in budget expenditures. Beginning January 1959 they are classified as Government-sponsored enterprises, and the net transactions of the operating fund were then transferred from the trust fund and included under "Deposit fund accounts."
2 Secondary market operations, as provided in the Housing Act of 1954, approved August 2, 1954 (12 U.S.C. 1719). Funds provided by the

Treasury (-), or repaidy to the Treasury, are shown in a separate column (and correspondingly are reflected net in budget expenditures).
6/ Includes District of Columbia operating expenditures; Indian tribal funds; expenditures chargeable against increment on gold; and trust enterprise funds (net) which are not shown separately. The Railroad Unemployment Insurance Administration Fund is included for the period 1954 through November 1958 (see Table 9, published quarterly), the Employees' Life Insurance Fund (net) from its establishment in August 1954, and the Employees' Health Benefits Fund (net) beginning 1961.

2 Excluded from deposit fund account expenditures and included with similar security transactions of other agencies (see Tables 4 and 5).
8/ The combined estimate for "Other trust accounts and trust enterprise funds "and "Total deposit fund accounts" is $\$ 755$ million.

* Less than \$500,000.

Employment Security Administration Fund, eatabliahed by the Employment Security Act of 1960, approved September 131960 (74 Stat. 970) into which are deposited tax receipts transferred in accordance with the act (see "Budget Receipts and Expenditures," Table 1, footnote 12) and from which are paid the admindatrative expenses of the employment security program and reimbursement for tax refunds. Previously the security program and reimbursement and amounts were included, respectively, in budget receipts and budending amounts were included, respect of recelpts over expendil tures, if any, was transferred to the trust account by appropriation. Receipts consigt of appropriated and unappropriated transfers of tax collections. The Federal unemployment tax allows to the taxpayer credit for contributions to State unemployment runds up to 90 percent of the Federal tax.

3 Excess of collections from Federal unemployment tax over expenditures for benefits and adminiatrative expenses each year is deposited in this account to maintain a reserve of $\$ 00$ mililon available for loans to States when needed to replendsh the balances in their accounts in the truat fund. Beginning 1961, these transfers are from the administration fund in the trust account; previougly they were from the general fund. Any remaining excess is credited to the State accounts. (42 U.S.C. $1101-1103$ ).
द) For payment of benefita and refunds ( 45 U.S.C. 360) . Figures exclude interim advance of 15 million from the Tressury and subsequent repayment, both in 1940.
5/ Contributions under the Railroad Unemployment Insurance Act of 1938, an amended ( 45 U.S.C. 360 (8)), in exceas of the amount specified for administrative expensea (see footnote 8 ).

Footnotes to Table 9 - (Continued)

6 Temporary advances are made when the balance in the Railroad Unemployment Insurance Account is insufficient to meet payments of benefits and refunds due or to become due. Whenever the balance is sufficient to pay such benefits and refunds, repayments are made, plus interest at $3 \%$ per annum, pursuant to P. L. 86-28, dated May 19, 1959 (73 Stat. 32).
7/ Excess, if any, over specified balance at end of year is transferred to the Account ( 45 U.S.C. 361 (d)).
8) Established in the Unemploywent Trust Fund by an amending act approved September 6, 1958 (Public Law 85-927); previously it was a separate trust fund. In it is deposited a specified proportion of contributions to be available for administrative expenaes ( 45 U.S.C. 361).
9/ Total includes $\$ 107.2$ million transferred from State accounts to the Rallroad Unemployment Insurance Account in connection with its establishment ( 45 U.S.C. 363).

Includes adjustments to monthly statement basis Includes tranafers to the Railroad Unemployment Insurance Administration Fund as follows: $\$ 9.7$ million in 1949 and $\$ .6$ million in 1950, representing adjustment for over-collections due to retroactive change in tax rate ( 45 U.S.C. 358 ). 85-927 Unemployment Insurance Administration Fund shall be maintained in the Unemployment Trust Fund.

* Less than $\$ 50,000$.

The cash income and outgo data appearing in the Treaaury Bulletin, beginning with the Fabruary 1956 1saue, are on a basia conalatent with recelpte from and payments to the public ar derived in the 1957 and oubsequent Budgets of the United Statea, Special Analysia A. Reconcillation to caah depoaita and witbdrawale in the account of the Treasurer of the United Statea ia ahown on the same basis as in the Budget documentis. There ia also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangementa, data in accordance with the Budget claasifications are made avallable month by month. Figures for back yeara have bean revised where necessary in order to make then as nearly comparable with current Budcet classifications as avallable data will permit. For this reason certain of the fleures differ somewhat from those published in earlier Budget docutnenta as well as in the Bulletin.

The Budget serles of cash transactiona is designed to provide information on the flow of money betkeen the public and the Federal Government as a whole, and therefore Includea tranaactions not cleared through the Treasurer's account. Recelpta and payments include tranaactions both In budget accounts and in trust and deposit func accounta. Operations of Govemment-sponsored enterprises are included in paymenta on a net basis as reflected in Treasury reporta.

Major intragovemmental tranactiona which are reported as both expenditurea and recelfte are ellminated from both. Noncash iteme which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual paymente are mace. Recalpta from the exerciae of monetary authority (woatly aalgniorage on allver) are excluded aa not repreaenting cash recelved from the public. Federal caan borrowing from the public includea net borrowing by the Treasury through public debt tranaactions and also net borrowing by Government agenciea and Government-aponsored enterprisea through aalea of tbeir own aecurities. It excludea changes in the public debt which do not repreaent direct caah borrowing from the public. The net effect of all thesa transactions with the public ia replected in changea in the balance in the Treasurer's account and in cash held outelde the Treasury.

Cash transactions through the Treasurer's account are sitillar in general concept to thoae included in the Budget series, but are ilmited in coverage to transactions whioh affect the balance in that account. On the other hand, they include recelpte from the exerciae of monetary authority, which are excluded from recelpte from the public In the Budget aeriea.

Footnotes on following page.

## Footnotes to Table 3

1/ All previously published figurea were revised in the September 1960 Eulletin to take account of the deduction of certain interfund transactions from both net budget receipts and budget expenditures, to accord with the new reporting procedure outlined in the Preaident's Budget mesaage of January 18, 1960, (see pages 2 and 5). Formerly auch transactions were included in the intragovermental transactions which were deducted in deriving receipts from and peymente to the public.
2/ Treated as noncash refund deductions from receipts when isaued and as cash refund deductions when redeemed.
3/ Consists of seigniorage and the increment reauling from reduction in the
welght of the gold dollar; excluded from recelpta from the puulic but included in cash deposita in the Treasurer's account. 4/ Figures in this colum differ from those published prior to the September 1960 Treasury gulletin because a few additionsl items of budget receipts whict are also budget expenditures are included in the interfund transactions deducted from budget receipts and budget expenditures (see footnote l). * Less than $\$ 500,000$.
p Preliminary.

## Footnotes to Table 4

1 See footnote 1 to Table 3
2/ Net operating expenditures, or receipta (-), as measured by funds provided by or spplied to net security transactions reflected in Treasury reports (see Table 7). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repeyment of borroming from the public or to investment in Federal securities. On that basis, net expenditures for operations are abown in this table in terms of the combined net of disinvestrent in Federal becurities and sale of agency obligations in the market, and net
receipta from operations are shown in terms of the combined net of Investment in Federal securitiea and redemption of agency obligations in the market.
3/ See footnote 4 to Table 3.
Not reported prior to 1954.
See footnote I to Table 7.
Doea not include revolving fund receipts representing acquired securities amounting to $\$ 1,643,070$ (par value).
p Preliminary.

## Footnotes to Table 5

1/ Includes reimbursement by Federal Old-Age and Survivors Insurance Trust Fund and Federal Diaability Insurance Trust Fund for adminstrative expenses, and beginning with 1959 for refunds of taxes (treated as an offset to refunds rather than being credited to receipts); reimburbement by Highws Trust Fund for refunds of taxes; reimbursement by the Diatrict of Columbia; payment of dividends, interest, etc., by Federal National Mortgage Association's secondary market operations; and Federal intermediate credit bank franchise tax and repayment of capital stock to the Treasury after December 1956 and before January 1959.
2) Consists of payment of franchise tax by banks for cooperatives beginning 1955, and also by Federal intermediate credit banks beginning January 1959.
3/ Lncludes relatively small amounts of deductions from aalariea pald by trust funds and Government-sponsored enterprises. Beginning with fiacal year 1958 excludes deductions from salaries of District of Columbia employees (see footnote 5), and beginning with fiecal year 1959 excludes voluntary contributions.
4/ Consiats of payments to employees' retirement funds representing United Statea and Covernment corporation shares of contributions; payments to the Railroad Retirement Account (for creditable military service), the

Unemployment Trust Fund, veterans ilfe insurance funds, judicial Survivors Anmuity Fund, trust fund for technical aervices and otber asaiatance under the agricultural conservation program, and District of Columbia; and awards of Indian Claims comulesion.
5/ Includes payment by Distrfict of Columbia to the CIvil Service retirement fund for ita share of contributions, and beginning Witt 1958 alao deductions from its payroll; financial adjustmenta among Rallroad Retirement Account, Federal Old-Age and Survivors Insurance Trust Fund, Federal Diaability Insurance Trust Fund, and Unemployment Trust Fund; transfers from Civil Service retíement fund to Foreign Service retirement fund from 1955 through 1957; and transfers from Railroad Unemployment Insurance Administration Fund to Unemployment Trust Fund througb 1955.
6/ Figures in this colum differ from those previously publisbed because budget receipts which are also budget expenditures are no longer included; see Tablea 3 and 4 .

* Less than $\$ 500,000$.
p Preliminary.

## Footnotes to Table 6

1) Accrued discount on savings bonds and bills less interest pald on aavings bonds and bills redeemed.
2/ Public debt intereat due and accrued beginning June 30, 1955, effective date of the change in accounting and reporting from a due and payable basis to an sccrual basis; for 1954, consists only of public debt interest checks and coupons outatanding; net increase, or decrease (-). Not reported as a separate clearing account prior to 1954.
2) Treated as noncash expenditures at the time of isauance of the securities and as cash expenditures at the time of their redemption; net issuance, or redemption ( - ).
4/ Issued in 1936 in exchange for adjusted service certificatea held by veterans of World War I. The bonde matured in 1945.
3) Iasued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.
4) Part of the United States subscription to the capital of the International Monetary Fund was paid in the form of noninterestbearing nonnegotiable notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385). In June $1959 \$ 1,031$ million of notes were issued as part of the additional United States subacription to the Fund authorized by an act approved June 17. 1959 (see "Budget Recelpts and Expenditures," Table 4, footnote 10).
7f Checks outatanding less deposits in transit, and changea, in other accounta; net increase, or decrease ( - ). For 1953 includes alao public debt intereat due and unpald (aee footnote 2). Less than $\$ 500,000$.
p Preliminary.

## Footnotes to Table 7

I/ In this table, beginning 1954, in accordance with treatment in Budget documents, net investment in United Statea aecuritiea by Coverment-sponsored enterprisea includes a small amount by other enterpriaes regarded as representing net transactions with the public. In Table 4 under "Trust Account and Other Transactions," these amounta are included in trust and deposit fund account investment.
2/ Does not include investmenta representing acquired aecurities amounting to $\$ 1,643,070$ (par value) and donstion of securities amounting to $\$ 45,800$ (par value).
3/ Acorued discount on aavinga bonds and bills, which is included in the principal of the public debt, leas interest paid on savinga bonda and bills redeemed.

4 Treated as noncash transactions at the time of isauance and as cash transactions at the time of redemption; net lssuance, or redemption ( - ).
5/ Excluded from borrowing because the transactions are treated as expenditures in Table 6.
6/ Excluded from borrowing because the transactions are treated as deductions from receipts in Table 3.
7/ Market transactions in public debt securitiea and agency obligations.

* Leas than $\$ 500,000$.
p Preliminary.

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States rellects not only budget recelpts and expenditures but slso trust, deposit fund, and public debt transactions.

The working cash of the Treasury is held mainly in Treasurer's accounts with Federal Reserve Banks and branches. As the balances in these accounts becoms depleted, they are restored by calling in (transferring) funds from the tax and loan accounts with thousands of commercial banks throughout the country.

Deposite to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all banks whereby customers of banks deposit with them tax payments and funds for the purchase of Government sscurities. In wost cases the transaotion Involves merely the transfar of money from a customer's
account to the tax and loan account in the same bank. On occasions, to the extent authorized by the Treasury, banks are permitted to deposit in these accounts proceeds from subscriptions to public debt securitles entered for thelr own account as well as for the account of thelr customers.

The tax and loan account system parmits the Treasury to leave funds in banks and in the comunities in which thoy arise until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutrallze the effect of its fluctuating operations on bank reserves and the economy.

A detalled description of the Tressury's depositary system may be found in the Annual Report of the Secretary of the Treasury for 1955, pages 275-284.

Source: Daily Treesury stetenent.
1 Consists of Treasurer's checks outstanding, reserve and other deposits of Board of Trustees of the Postal Sevings System, uncollected items, exchanges, etc., beginaing December 1954; prior to that time included also Post Office Department and Postmesters' disbursing accounts (see footnote 2).
2) Beginning Decomber 1954, Post Office Department and Postmasters'
disbursing accounts are no longer treated as liability accounts of the Treesurer of the Unfted States, but are classified and treated in the same manner es other disbursing accounts, in accordance with the change in method of reporting Post Office transactions (see "Budget Receipts and Expenditures," Table 4) An adjustment of - $\$ 207$ million in the baiance in the Treesurer'e account (and in tbe "clearing eccount") reflects this chenge.

Table 2.- Analysis of Changes in Tax and Loan Account Balances
In millictit of dollars

Source: Office of Fiscal Assistant Secretary; figures are on basis of telegraphic reports.
1/ Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of Undted States Covernment obligations purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.
2) Taxes eligible for credit consist of those deposited by taxpayers in the depositary banks, as follows: Withheld incone tax beginning March

1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January $2: 50$, and under the Rai road Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.
3/ Under a special procedure begun in March 1951, authorization may be given for income tax payments, or a portion of then, made by checks of $\$ 10,000$ or more drawn on a special depositary bank, to be credited to the tax and loan account in that bank. This procedure is followed during some of the quarterly periods of heavy tax payments.

Note: The computed annual interest cbarge reprecente the amount of intereat that would be paid if eaob intarest-bearing lesue outatanding at the ond of asch month or year ehould remain outatanding for a year at the applicable annual rate of intereat. The charge is computed for each tesua by applying the appropriate annual interest rete to the omount outstanding on that date (tbe amount actually borrowed in the case of escuritios sold at a presilum or diacount, beginning with May 1\%0). The aggregate charge for all interest-boaring ieeue日 conatitutes the total computed annual intarest charga. The avorage annual interast rato 10 computed by dividing the computed annual interest charga for the total, or for any
group of lasuea, by the correaponding principal asount. Beginning with data for December 31, 1958, the computation 1a baead on the rete of ffective gleld for lasues eold at premium or diacount. Prior to that date it was bseed on the ooupon rate for all 1ssues. 1/ Includes only guaranteed securlties held outside the Treasury
$2 /$ Total includes Nother bonden; eee Table 3.
3 Included in debt outatanding at face amount, but diacount value is uaed in computing annual interest cbarge and annual interest rate. $\sqrt{\text { On United Statea savinga bonde the rete to maturity is applied }}$ againat the amount outetanding.

Table 3.- Interest-Bearing Public Debt
(In millions of dollars)

Table 5.- Allotments by Investor Classes on Subscriptions for Public Marketable Securities Other Than Regular Weekly Treasury Bills 1 - (ContInued)

Pootrotes on following page.
(Continusd on following page)

Table 5.- Allotments by Investor Classes on Subscriptions for Public Marketable Securities Other Than Regular Weekly Treasury Bills 릉 ( (Continued)

[^4]Tax anticipation security.
Reopaning of earlier issue.
Issued as a rollover of bills maturing January 16, 1957, and February 15,1957, respectively.
11. Issued in special allotmeot to Government Investment accounts.

Issued as a rollover of one-year bills.
These securities were offered, subject to allotment, in the refunding of the $4-3 / 4 \%$ notes maturing August 15, 1960. Tbe holders of the maturing notes were not offered preemptive rights to exchange their holdings. but were perntted to present them in payment or exchange, in whole or in part, for the new securities. Peyment by bolders of the maturing issue or other subscribers could also be made in cesh. For furtber detail of this offering, see Table 4 , footnotes $44-48$.

* Jess ther $\$ 500,000$.
p Preliminary. n.e. Not evallable.

Table 6.- Disposition of Matured Public Marketable Securities Other Than Regular Weekly Treaaury Bills - (Continued)

## Footnotes to Table 6 - (Continued)

Reopering of Fabruary 2, 1953, offoring (ses Table 4).
It had besa announced that holders of thesa bonde would be givan an opportunity to sxchangs them for another Treasury issue aftar Fabruary 15, 1954. This offar was iocludad in the refundinge of May 17, 1954.
7. Reopening of August 3, 1954, offaring (see Tabls 4). Also deaignatad tax anticipation certificatas, acceptable at par plus accruad interest to maturity in paymeat of income and profita taxea due June 15, 1956.
9/ Reopening of May 3, 1955, offaring (sea Tabla 4)
Reopening of Novamber 28, 1955, of fering (ses Tabla 4). During June 1956, $\$ 159$ million of these note日 ware purchased by the Tressury for account of the Sinking Fund and retired.
Two 1aeues of bills, maturing January 16, 1957, and Fsbruary 15, 1957 respectivaly, were rolled over into two issues of tax anticipation bills, both maturing Juns 24, 1957.
14 During Juns and July 1958, \$491 million of the 2-5/8\% Treasury bonds of 1965 were purchased by the Treasury for retirement undar Section 19 of the Second Liberty Bond Act, as anended (31 U.S.C. 754a).
15/ Called on May 14, 1958, for redamption on Septamber 15, 1958.
16. Represeats arount which owners axerclagd the option to radeam on August 1, 1959 (sea Tabla 4, footnote 22).
17 Holdars of the $4 \%$ notas, who had the option to redeam at par on February 15, 1960, by giving notice not latar than Novambar 16, 1959, were permitted to exchange thair boldinge on Novamber 15, 1959, for the 4-7/8\% notes. Rolled ovar foto a ons-yaar bill; ase Table 4.
Amount which owners oxercised tbs option to redeem on Fabruary 15, 1960 (ses Tabla 4, footnoto 24).
Advance rerunding offering. Pursuant to the provisions of section 1037 (a) of the Internal Revenue Code of 1954 as added by Public Law 86-346, approved September 22, 1959, the Secretary of the Treasury has declared that no gain or loss shall be recognized for Federal income tax purposes upon the exchange of the eligible outstanding securities solely for the new securities. Fur tax purposes, therefore, the investor will carry the new securities on his books at the asme amount as he had been carrying the eligible secur-ties exchanged Gain or loss, if any, upon the obligations surrendered in exchange will be taken into sccount upon the disposition or redemption of the new obligations.
21. Holders of 2-1/2\% Treasury bonds maturing November 15, 1961, were offered the option to exchange the bonds during the period from June 8 1960, to June 13, 1960, inclusive, subject to sllotment if subscriptions exceeded by 10 percent the offering limits of \$3.5 billion for the notes and $\$ 1.5$ billion for the bonds. Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were perwitted to preaent them in payment or exchange, in whole or in part, for the $3-1 / 8 \%$ certificates or the $3-7 / 8 \%$ bonds, which were offered in an aggregate of around $\$ 8-3 / 4$ billion. For detail of offering, see Table 4.

Excess of maturing $4-3 / 48$ Treasury notes over allotments of new securities on subscriptions from holders of those notes (see Table 4 , footnotes 44 and 46).
24. Reopening of an earlier issue.

Holders of $2-1 / 2 \phi$ Treasury bonds maturing June 15, 1967, December 15, 1968, June 15, 1969, and December 15, 1969, were offered the option to exchange the bonds during the period from September 12, 1960, to September 20, 1960, inclusive, the first for 3-1/2\% bonds of 1980, the second for $3-1 / 2$ \% bonds of 1990, and the other two for $3-1 / 2$ 中 bonds of 1998, subject to allotment if the combined total of subscriptions for the bonds of 1990 and 1998 exceeded on outside limit of \$ $\alpha_{.} .5$ bililon.

Source: Dally Treasury stetement; Debt Analysis Staff in the Office of the Secretary.
Note: In these tables Serlas A-F and J sales are included at issua prlce and redemptions and amounta outstanding et current redemption values. Series $G, H, K$ are included at face value througbout. Matured bonds which beve beeo redeemed are included in redemptions. Matured $F$ and $G$ bonds outatanding are iacluded in tbe interest-bearing debt until all bonds of tbe annual series bave matured, when they are transferred to matured debt upon wbicb interest bas ceased.

1) Sales and redemptioo figurea include exchenges of minor amounts of (1) matured serias E bonds for series $G$ and $K$ bonds fror May 1951 through April 1957 and (2) aaries $F$ and $J$ bonda for series $H$ bonds beginning January 1960 ; bowevar, they exclude exchanges of series E bonds for series $H$ bonds, whicb are reported in Table 3.
2) Detalla by seriea on a cumletive basis and by perioda for Series A-D combined will be found in the Fabrusry 1952 and previous iasues of the Treasury Bulletio.
3/ Includes both matured and unmatured bonda; aas Table 4.
$4^{\prime}$ Includes total value of redamptions not yet classifled betwsen aales prlce and accrued discount.
2/ A cbange in procedure, beginning in June 1954, for procassing redesmed savings bonds has resulted in e high level of redamptiona not yet classifiad by yasrly serles of lasue. This increase temporarly obacures the relatiooahip betwaen the redemption columa ahowing aalea price and eccrued diacount in Tablaa 2 and 3 and also the
relationship between the matured and unmetured sections of Table 4 . (See also footnote 4). The subsequerit distribution of this high laval of unclasaifled redemptiona may be lerge gnough in any month to show redemptions of matured and unmatured bonds in Table 4 which are greater than the total redemptions for thst mor. ${ }^{2}$ b.
6/ Reductions were made in iasues and redenptions of Series E, H, F, G, $J$, and $K$ in July 1954 to compensate for the erraneous inclusion of relssue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: 18 million for issues of Series $E$ and $H$ and $\$ 17$ million for issues of Serles $F, G$, $J$, and $K$; and $\$ 35$ million for unclassified retirements.
7 Series F and G sales were discoatinued April 30, 1952, and Series $J$ and $K$ sales were diacontinued April 30, 1957. Sales figures after April 30, 1957, represent adjustments.
8/ Includes tha December 1959 exchanges of series 1948 F ard $G$ bonds for $4-3 / 4 \%$ marketable notas of whicb $\$ 692$ million were reported in December 1959, 51 willion in January 1960, and $\$ 3$ milliov in February 1960.
2 Frepresents changes in the amounts of rederaptions not yet clesalfied as between metured and unmetured issuas.
10 Includes exchanges of Serles $1941 F$ and $G$ savings bonds for Trasary 3-1/L\$ bonds of 1978-83.

* Legs than \$500,000.

2/ Includes eccounte under the control of certaln U. S. Goverment agencies whose investments are bandled outside the Treasury.

## Table 2.- Net Market Purchasea or Sales of Federal Securities for Inveatment Accounta Handled by the Treasury $1 /$

(In millione of dollare; negative figures are net esle日)

I/ Consiete of purcheses or esles made by the Treaeury of securities lesued or guarenteed by the U.S. Govermment for (1) trugt funde whicb by law are under the control of the Secretary of the Treseury or of the Treasurer of the United Statee, end (2) accounta under the control of certain U. S. Government agenclee whose inveetmente ere handled through the facilitiee of the Treasury Department. It will be noted thet these
tranesotions differ from those reflsoted in Table 1 because thay exolude thoee Govermment inveetment acoounte for which invertmente are nat handled by the Treaeury. Teble 2 slso includee purchsees Section 19 of the Second Ifberty Bond Act, ae amended (31 U.S.C. 754 A ), and excludee the Exchange Stabilization Fund.

* Lees than $\$ 50,000$.

Table 3.- Estimated Ownership of Federal Securitiea

Source: Debt Analysis Staff in the Office of the Secretary
Unitad States savings bands, Serlas A-F and J, are inciudad st current redemption value
2/ Securities issued or guaranteed by the U. S. Government, excluding guarantead securltiss held by tbe Treasury. For amounts subject to statutory dsbt 11 mitation, ses page 1
3 Consists of comercial banks, trust compantea, and stock savings banks in the United Ststes and in Territories and 19land possesaions. Figures exclude securitiss held in trust departments.
4) Holdings by Federal land banka are included under MMiscellaneous investors" instead of "U. S. Govarmant investment accounts" after June 26,1947 , when the proprletary intarest of tbe United States in those banks ended.
2) Includea partnerships and personal trust accounts. Nonprofit institutions and corporate pension trust funds are included under MMiscellaneaus invastors.

The monthly Treasury Survey of Ownershlp covers securities 1 ssued by the United States Government and by Federal agencies. Of all such aecurities held by the respective classes of investors in the United States, the banks and insurance companies included in the Survey account for about 95 percent and the corporations and savings and loan associations included in the Survey about half. Data for banks and insurance companles were first published for March 31, 1941, in the May 1941 Treasury Bulletin. Data for corporationa ano savines and loan
associations were added to the Survey for June 1960, appearing in the September 1960 Bulletin, together with corresponding data for a few prior monthe.

Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmemjer banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published for quarterly dates beginning with December 31, 1949. They appeared in the March 1954 Bulletin.

# Section I - Securities Issued or Guaranteed by the United States Government Table 3.- Interest-Bearing Public Marketable Securities by Issues - (Continued) 

Footnotes at end of Table 4.

Table 4.- Interest-Bearing Public Nonmarketable Securities by Issues
(Par values - in millions of dollars)

1) Includes certain obligations not subject to statutory debt limitation.

6/ Includes $\$ 3$ million depositary bonds held by coumercial benks not included in the Treasury Survey.
For amount subject to 1 imitation, see page 1 .
Includes trust companies and, beginning with figures for July 1949, also includes atock savings banks. P
Included with all other investors are those banks, insurance companies savings and loan associations, and corporations not reporting in the Treasury Survey.
5 United States aavings bonds, Series E, F, and J, are shown at current redemption value. They were reported to the Treasury Survey at maturity value but have been adjusted to current redemption value for use in thia statement.
$\frac{7}{8}$ Holdings by reporting investors not available.
9/ Except partially tax-exempt bonds, which are classified to earliest call date.
10/ Wholly tex-exempt securities are those with the income exempt from both normal tax and surtax. Partially tax-exempt securities are thoae with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from $\$ 5,000$ of principal amount owned by any one holder a also exempt from the surtax. For all other securities, the income is subject to normal tax and surtax.
Remaining footnotes on following page.

## Section II - Interest-Bearing Securities Issued by Federal Agencies But Not Guaranteed by the United States Government

Footnotes 1 through 10 on preceding page.
11/ Includes Federal Housing Administration debentures; aee footnote $13 / 0$
The Treasury bonds of $1960-65$ are partially tax-exempt and the Panama Canal bonds of 1961 are wholly tax-exempt (see footnote 10/).
13) These securities are classified as taxable, although a small indeterminate awount of the Federal Housing Administration debentures is partially tax-exempt (see footnote 10/).

14 Includes only publicly offered issues.
The proprietary interest of the United States in these banks ended in July 1951.
16) The proprietary Interest of the United States in tbese banks ended in June 1947
Less than $\$ 500,000$

Current market quotstions shown here are over-thecounter olosing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The seourities listed include all regularly quoted
publio marketable securities 1ssued by the United States Government sxcept Panama Canal bonds. Outstanding 1esues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

Footnotes at end of Table 5 .

Table 5. - Partially Tax-Exempt Treasury Bonds

1/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 2939, they are closing prices on the New York Stock Exchange. "When 1ssued" prices are included in the history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.
4) Of the $\mathrm{t}, 000$ willion $4 \%$ notes of August 15,1962 , outstanding on October 31, 1959, \$, 684 m11Iion were exchanged for the $4-7 / 8 \%$ notes of November 15,2963 , and $\$ 159$ million were presented for stamping for re demption on February 15, 1960, leaving 158 million to mature August 15 , 1962.

1/ Amount outstanding includes an additional 1ssue of 5746 mililon on December 15, 1959, aceepted in exchange for $F$ and $G$ savings bonds due to mature in 1960.
*/ Following the advance refunding offer announcement dated Jume 6 ,
1960, relative to the $2-1 / 2 \%$ bond of November 15.1961 , outstanding
in the amount of $\$ 1,177$ million, $\$ 3,893$ million were exchanged
for 3-3/4\% notes of May 15, 19\% and and $\$ 320$ million for 3-7/8\%
bonds of May 15, 1968. Aa a result of a later offering, an additional amount of $\$ 1,070$ million of $3-7 / 8 \%$ bonds of May 15 1968, were issued. See "Debt Operations", Table 6.
5) On callable issues market convention treats the yleld to earliest call date as more signlifeant when an issue is selling above par, and to maturity when it is selling at par or below.
6/ Not quoted on September 30, 1960.
7/ The following exchanges resulted from the advance refunding offer dated September 9, 1960: 5044 million of the $2-1 / 2 \%$ bonds of June $15,1962-67$, for $3-1 / 2 \%$ bonds of November 15,$1980 ; \$ 93$ million of the $2-1 / 2 \%$ bonds of December $15,1963-68$, for $3-2 \%$ bonds of February 25,1990 (an additional 1ssue of an existing bond); and a total of 2,343 mill1on of the $2-1 / 26$ bonds of June 15, 1964-69 a total December $15,1464-69$, for $3-1 / 26$ bonds of November 15, 1998. The 1ssue date for the new and additional issues was October 3, 1960. See "Debt Operations", Table 6.

8/ Included in the average yleld of long-terw taxable Treasury bonds as shown under "Average Yields of Long-Term Bonds."

office of the Secretory of the Treasury

Source: Beginning April 1953, Tressury bond yields are reported to tte Treasury by the Federal Reserve Bank of New York, based on cloaing bid quotations in the over-the-counter market. Yelds for prior periods were computed on the basia of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of AAA corporate bonds. For defindtion of taxable bonds, see footnotes to tbe "Treasury Survey of Ownership" in this isaue of the Bulletin.
1/ Beginning April 1953, the average includes bonds nefther due nor
callable for 10 yeara; April 1952 through March 1953, the minimum length (neither due nor callable) was 12 years;
October 1941 through March 1952, the minimuto length was
15 years. For bonds currently in the average, see Table 4 under "Market Quotations on Tressury Securities" in this issue of the Bulletin.
2/ One or more new long-term bonds added to the average.
$\frac{2}{3}$ An exlating bond dropped from the average (see footnote 1 ) 4) Market closed.

Source: Intermal Revenue Service reporta fior detail of collections by type of tax; monthly statement of recelpta and expenditurea of the Government for budget receipts from internal revenue (for explanation of reporting basea in this publication, see page II). Certaln detall by type of tax is avallable only from returns flled with the Intermal Revenue Service. The figures shown include collections for credit to special accounts for certain ialand poaseasiona, as reported by the Internal Revenue Service. Beginning with the flacal year 1955, they include the amounts of tax collected in Puerto Rico upon articles of merchandise of Puerto Rican manufacture coming into the United Statea. Figures for 1954 have been reviaed to the aame basis, but those for 1953 include only amounts collected at ports of entry into the United States.

1. Differences between the amounta of internal revenue reported by the Internal Revenue Service as collectiona for given periods and the amounts reported in Treasury statementa as budget receipta for the aame perioda aroge because of differences in the time when payments were included in the respective reports. Tax payments are included in budget recelptg when they are reported as credits to the account of the Treasurer of the United Statea. Frior to July 1954, they were included in Internal Revenue Service collection reporta arter the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld Income tax and old-age insurance taxea and later extended to rallroad retirement taxea and many excises, these taxes are pald currently into Treasury depositaries and the depositary receipts, as evidence of aucb payments, are attached to quarterly returna to the Internal Revenue Service.

Under this procedure, the payments are included in budget receipta In the month in which the depoaitary receipts are lasued to the taxpayers. Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.
2/ Monthly and fiscal year 1960 figures include aocial security tax on self-employment income, which is levied and collected as part of the individual income tax. Prior fiscal year figures exclude this tax, on the basis of estimates (aee footnote 3), and it ia included under "old-age and disability insurance."
3. In Internal Revenue Service reports current collections are not aeparated as to type of tax; the breakdown shown for flacal years is baged on estimates made in accordance with provisions of Sec. 201 of the Social Security Act, aa amended ( 42 U.S.C. 401 ), for tranafer of tax receipts to the trust funds (see MBudget Receipta and Expenditures," Table 1).
4) Beginning with the fiscal year 1955, collectiona shown include undistributed depoaltary receipts and unapplied collections. For exciae taxes these recefpts are included in the total only. Total collections include "Taxes not otherwise claasified."
5/ Budget receipts for 1956 were reduced by $\$ 3,566$ thousand represent ing tax collections transferred to the Covernment of Gusm pursuant to the act approved August 1, 1950 ( 48 U.S.C. 1421 h ), but this amount was included in collections reported by the Internal Revenue Service. Beginning with 1957, such collections are excluded also in Internal Revenue Service reports.
6/ Detail is reported by quarters beginning with the fiscal year 1956.

INTERNAL REVENUE COLLECTIONS BY PRINCIPAL SOURCES

* Beginning with the fiscal yeor 1955, includes undistributad depasitory receipts and unopplied collections. The whole omount of
such recelpts for excise toxes is included under "Oiher exchse foxss."

Data relating to capital movementa between the United Statea and foreign countriea have been collected since 1935, pursuant to Executive Order 6560 of January 15 , 1934, Executive Oraer 10033 of February 8, 1949, and Treasury regulations promulgated thereuncer. Information covering the principal types of data and the principal countriea is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is publlahed at leas frequent intervals. Reporta by banka, bankera, securities brokers and dealers, and industrial and commercial concerns in the United Statea are made 1nitially to the Federal Reaerve Banks, which forward consolidated ilgures to the Treasury. Beginning April 1954, data reported by banks in the Territoriea and possessions of the United statea are included in the published data.

The term "forelgner" as used in these reports covers all institutions and individuals domiciled outside the United States and 1 ts Territories and possefsions, the official institutiona of foreign countriea, wherever such institutions may be located, and international organizationa. "Short-term" refers to original waturitiea of one year or leas, and "long-term" refers to all other maturitiea. A detalled discuasion of the reporting coverage, statictical presentation, ana definitions appeared in the June 1954 1ssue of the "Treasury Bulletin," pagea 45-47. As a result of changes in presentation introduced in that iesue, not all breakdown rreviousiy
published will be exactly comparable to those now presented

The first three sections which follow are fublished monthly. They provide summaries, by perlods and by countriea, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securlties by forelgners, and preaent detalled breakdowns of the latest available preliminary data.

Section IV provides supplementary date in $s i x$ tables which appear at less frequent intervala. Table l, shortterIf forelgn llabilities and clalms reported by nonfinancial concerns, is published quarterly in the January, April, July, and October issuea of the Bulletin. Table 2, long-term foreign liablilties and clalme reported by banks and bankers, and Table 3, estimated cold reaervee anc dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4 , forelgn credit ano debit balancea in brokerage accounts, appears sem1annually in the March and September issuea. Tabla 5, short-term liabllities to forelgners in countries and areas not regularly reported separately by banising institutions, is presented annually, appearing in the Aprll 1saue through 1958 and 1 in the March lasue thereafter. Table 6 , purchases and sales of long-term securities by foreigners during the preceding calendar year, also appeara annually, beginning with the May 1959 1esue.
