## Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Receipts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States Money." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other receipt and expenditure data classified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have provided comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found in the April 1954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is compiled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as compiled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Receipts of taxes and customs duties are reported on a collections basis. Other receipts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payable basis. The same reporting basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expend-

itures and Balances of the United States Government" and for actual receipts and expenditures in the "Budget of the United States Government."

Beginning with the final statement for the fiscal year 1960, the monthly statement reports totals for net budget receipts and budget expenditures after deduction of certain interfund transactions which are included in the detail of both budget receipts and budget expenditures. The transactions deducted consist of interest payments and minor amounts of certain other payments made by Government agencies to the Treasury. This reporting change was made in accordance with the plan stated in the President's Budget Message of January 18, 1960. It does not affect the surplus or deficit. Figures for earlier periods shown in the Treasury Bulletin were revised to the new reporting basis in the September 1960 issue. The interfund transactions deducted under this procedure do not include payments to the Treasury by wholly owned Government corporations for retirement of their capital stock and for disposition of earnings. These capital transfers have been excluded currently from budget receipts and budget expenditures beginning July 1, 1948, and figures for prior fiscal years back through 1932 were revised accordingly at that time.

The daily statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of mailed reports of checks issued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmental transactions are excluded. The public debt figures in the daily statement also are on a "clearance" basis, with the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The daily statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt issuance, retirement, and amount outstanding. Receipts and expenditures, however, were classified by type of account, and the budget results shown

## Reporting Bases - (Continued)

in the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the the Treasurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and its predecessor organizations, were on the basis of checks paid. Transactions han-

dled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

### Treasury Financing Operations

#### August Financing

In its first major borrowing operation of the fiscal year 1963, the Treasury, on July 30, 1962, offered the following new securities for cash:

\$6.5 billion, or thereabouts, of one-year 3-1/2 percent Treasury certificates of indebtedness, at par, dated August 15, 1962, to mature August 15, 1963;

\$1.5 billion, or thereabouts, of 6-1/2 year 4 percent Treasury bonds, at par, dated August 15, 1962, to mature February 15, 1969; and

Up to \$750 million, or thereabouts, of 4-1/4 percent Treasury bonds, at a price of 101, to yield 4.19 percent, dated August 15, 1962, to mature August 15, 1992, callable at the option of the United States on any interest date on and after August 15, 1987, in whole or in part, at par and accrued interest, on four months' notice of redemption given as the Secretary of the Treasury may prescribe.

In addition to the amounts offered to the public, the Secretary of the Treasury reserved the right to allot up to \$100 million of the 4 percent bonds and up to \$50 million of the 4-1/4 percent bonds to Government investment accounts.

The proceeds, according to the announcement which was dated July 26, were to be used to retire approximately \$7.5 billion of notes maturing August 15, and to provide additional cash sufficient for the needs of the Treasury until the end of September. The offering, the announcement also stated, by covering the full maturity range, provided attractive outlets for investors of all types, would maintain a balanced debt structure, and would help to activate currently accumulating long-term funds.

Subscriptions, which were received subject to allotment, were payable in full or in part in cash or in maturing notes exchanged at par. The maturing securities were the 4 percent Treasury notes, Series B-1962, dated September 26, 1957, outstanding in the amount of \$158 million, and the 3-1/4 percent Treasury notes, Series G-1962, dated February 15, 1961, outstanding in the amount of \$7,325 million.

Payment was due August 15, 1962, except that for the longer bond payment by savings-type investors could be made in installments over a three-month period. Commercial banks were permitted to make payment by credit through their tax

and loan accounts for both of the new bond issues, but not for the new certificates.

Total subscriptions were as follows:

New securities	Publicly		Allotted to Government investment accounts
	Tendered	Accepted

4-1/4% Treasury bonds of 1987-92...	315	315	50
Total.....	27,213	8,910	150

Public subscriptions tendered for the bonds by investor classes are shown below:

4-1/4% bonds of 1987-92.....	315	141	115	59

Of the certificates applied for, there was allotted in full, as provided in the offering circular, about \$4,760 million, the amount subscribed by States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign states, Government investment accounts, and Federal Reserve Banks. Subscriptions from all others totaled about \$15,395 million and were allotted 12-1/2 percent with subscriptions for \$50,000 or less allotted in full and those for more than \$50,000 allotted not less than \$50,000.

## Treasury Financing Operations - (Continued)

Of the 4 percent bonds applied for (about \$6,743 million), subscriptions in amounts over \$100,000 were allotted 22 percent, but not less than \$100,000; subscriptions for \$100,000 or less were allotted in full. In addition to the amount allotted to the public, \$100 million was allotted to Government investment accounts.

All subscriptions received from the public for the 4-1/4 percent bonds (which totaled about \$315 million) were allotted in full. In addition, \$50 million was allotted to Government investment accounts.

Subscriptions from commercial banks for their own account were restricted for the certificates to an amount not exceeding 50 percent of the combined capital, surplus, and undivided profits of the subscribing bank. For each bond issue, such subscriptions were restricted to an amount not exceeding 10 percent of the combined total of time and savings deposits, including time certificates of deposit, or 25 percent of the combined capital, surplus, and undivided profits of the subscribing bank, whichever was greater.

Subscriptions were received without deposit from commercial and other banks for their own account, federally insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign states, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, Government investment accounts, and the Federal Reserve Banks. On all other subscriptions, payment of 2 percent of the amount of certificates and 10 percent of the amount of each issue of the bonds applied for (in cash, or in the maturing securities accepted at par) was required.

Commercial banks, in submitting subscriptions, were required to certify that they had no beneficial interest in any subscriptions they entered for the account of their customers, and that their customers had no beneficial interest in the banks' subscriptions for their own account. They also were requested to refrain from making unsecured loans, or loans collateralized in whole or in part by the securities subscribed for, to cover the amounts required to be paid when subscriptions were entered, and they were required to make the usual certification to that effect.

All subscribers were required to agree not to purchase or sell, or make any agreements with respect to the purchase or sale or other disposition of any of the new securities until after midnight July 30, 1962.

Savings-type investors choosing to pay for the 4-1/4 percent bonds of 1987-92 in installments were required to pay not less than 30 percent by August 15, not less than 60 percent by September 15, and in full by October 15. Accrued interest from August 15, 1962, at the rate of \$0.12 per \$1,000 per day was required to accompany all payments after August 15, 1962.

Savings-type investors were defined as: Pension and retirement funds (public and private); endowment funds; common trust funds under Regulation F of the Board of Governors of the Federal Reserve System; insurance companies; mutual savings banks; fraternal benefit associations and labor unions' insurance funds; savings and loan associations; credit unions; other savings organizations (not including commercial banks); and States, political subdivisions or instrumentalities thereof, and public funds. Delivery of 5 percent of the total par amount allotted will be withheld until payment for the total amount allotted has been completed by subscribers in this group (except States, political subdivisions or instrumentalities thereof, and public pension and retirement and other public funds) electing to pay on the deferred payment basis.

The 4-1/4 percent bonds of 1987-92 will be redeemable at par prior to maturity in payment of Federal estate taxes if owned by the decedent at time of death.

The two issues of bonds bear interest semiannually February 15 and August 15 in each year until the principal amount becomes payable. Bearer bonds with interest coupons attached and bonds registered as to principal and interest were issued, in denominations of \$500, \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

Issued in bearer form only, the new certificates bear interest from their date of August 15, 1962, at the rate of 3-1/2 percent per annum, payable semiannually on February 15 and August 15, 1963. They were issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000, \$1,000,000, \$100,000,000, and \$500,000,000.

### Call before Maturity

On August 14, 1962, the Treasury Department issued notice that the partially tax-exempt 2-3/4 percent Treasury

## Treasury Financing Operations - (Continued)

bonds of 1960-65, dated December 15, 1938, due December 15, 1965, are called for redemption on December 15, 1962, when interest on these bonds will cease. There are \$1,485 million of the issue outstanding.

Holders of the bonds may, in advance of the redemption date, be offered the privilege of exchanging all or any part of their called bonds for other interest-bearing obligations of the United States, in which event public notice will be given.

The Treasury Department announced on the same date that the 2-1/2 percent bonds of 1962-67, which are callable also on December 15, 1962, will not be called for redemption on that date.

Weekly Treasury Bills Increased

Regular weekly bills issued during July totaled \$8.0 billion, refunding \$7.2 billion maturing and, as in June,

providing \$800 million of new cash. Also, as in June, there were four 91-day offerings of \$1.3 billion each, and four of 182 days for \$0.7 billion each. Average rates of discount on the new bills were as follows:

Source: Actual figures through the fiscal year 1952 and the calendar year 1953 are from the daily Treasury statement, and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page 11); estimates are from the 1963 Budget document, released January 18, 1962, including effects of proposed legislation. More detail for data on this page will be found in succeeding tables.

1/ Fiscal year figures beginning with the September 1960 issue of the Treasury Bulletin, and calendar year figures beginning with the June 1961 issue exclude certain interfund transactions from both net budget receipts and budget expenditures (see pages II, 2, and 4). Figures previously published for these series have been revised to the new reporting basis. The change does not affect the budget surplus or deficit.

2/ Excess of receipts, or expenditures (-). For detail, see pages 9 - 13.

3/ For checks outstanding and telegraphic reports from Federal Reserve Banks; public debt interest accrued and unpaid beginning with June and the fiscal year 1955 (previously included from November 1949 as

interest checks and coupons outstanding); also deposits in transit and changes in cash held outside the Treasury and in certain other accounts beginning with the fiscal year 1954. Net increase, or decrease (-). For current month detail and list of acts, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: \$275 billion, on June 26, 1946; \$281 billion, on August 28, 1954; \$278 billion, on July 1, 1956; \$275 billion, on July 1, 1957; \$280 billion, on February 26, 1958; \$288 billion, on September 2, 1958; \$290 billion, on June 30, 1959; \$295 billion, on July 1, 1959; \$293 billion, on July 1, 1960; \$298 billion, on July 1, 1961; and \$300 billion on March 13, 1962. The limit is \$308 billion from July 1, 1962, through March 31, 1963, \$305 billion from April 1 through June 24, 1963, and \$300 billion from June 25 through June 30, 1963.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases see page II); estimates are from the 1963 Budget document, released January 18, 1962, including effects of proposed legislation.

- <sup>1/</sup> The distribution of receipts between individual income taxes and old-age and disability insurance taxes is made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 8), and also for transfer to the Federal Disability Insurance Trust Fund (see footnote 9).
- <sup>2/</sup> Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 3101-3125), and tax on self-employed individuals under the Self-Employment Contributions Act, as

amended (26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, approved August 1, 1956, increased the rates of tax applicable to wages paid and taxable years beginning after December 31, 1956, to provide for disability insurance.

- <sup>3/</sup> Taxes on carriers and their employees under the Railroad Retirement Tax Act, as amended (26 U.S.C. 3201-3233).
  - <sup>4/</sup> Tax on employers of 4 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 3301-3308); with respect to services performed before January 1, 1956, the tax was imposed on employers of 8 or more.
  - <sup>5/</sup> For further detail, see tables under "Internal Revenue Collections." Beginning 1957, includes collections under increased rates in the Highway Revenue Act of 1956 (see footnote 12).

Source: Actual figures are from reports to the Treasury Department by disbursing officers and administrative agencies, on the monthly statement reporting basis (see page 11); estimates are from the 1963 Budget document, released January 18, 1962, including effects of proposed legislation.

1/ Consists of miscellaneous taxes (principally the tonnage tax on foreign

vessels entering U. S. ports), bullion charges, and gifts and contributions.

2/ Difference between the total shown in the monthly statement of receipts and expenditures of the Government (based on preliminary reports) and that from final accounts of disbursing officers.

\* Less than \$500,000. p Preliminary.

Footnotes to Table 1 - (Continued)

6/ Includes adjustments as follows for: Income taxes not withheld, January -\$6 million, April -\$450 million, and June +\$12 million; income taxes withheld, January -\$47 million, April +\$74 million, and June -\$89 million; transfers to Federal Old-Age and Survivors Insurance Trust Fund, January +\$49 million, April +\$348 million, and June +\$70 million; and transfers to Federal Disability Insurance Trust Fund, January +\$3 million, April +\$29 million, and June +\$8 million. See also footnote 8.

7/ Interest on refunds is included in expenditures in Table 3.

8/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance. Amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury (42 U.S.C. 401 (a)), and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration.

9/ The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956 (42 U.S.C. 401 (b)). The act appropriated to the trust fund amounts equivalent to specified percentages of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Disability Insurance Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.

10/ Amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371) and transfers are made currently.

11/ The Employment Security Act of 1960, approved September 13, 1960 (42 U.S.C. 1101), established in the Unemployment Trust Fund an administra-

tion account, and appropriated for credit to that account, beginning with fiscal 1961, amounts equivalent to taxes collected and deposited under the Federal Unemployment Tax Act. The tax receipts are transferred currently on the basis of estimates by the Secretary of the Treasury, with later adjustments as necessary. From that account are to be paid the administrative expenses of the employment security program. Previously the corresponding amounts were included, respectively, in budget receipts and budget expenditures.

12/ The Highway Revenue Act of 1956, as amended, (23 U.S.C. 120, note) established a Highway Trust Fund from which are to be made,

as provided by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before October 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. Before fiscal 1957 corresponding excise tax receipts were included in net budget receipts and Federal-aid highway expenditures were included in budget expenditures.

13/ For content, see Table 4. These transactions are included in the detail of both budget receipts and budget expenditures, but are deducted from the totals (see Reporting Bases, p. 11).

14/ Figures in this column differ from those published under the same caption prior to the September 1960 Treasury Bulletin because of the exclusion of certain interfund transactions (see footnote 13).

15/ Transfers reduced by \$300 million to adjust those made earlier on basis of estimates (see footnote 8).

16/ Beginning fiscal 1961, the principal amounts for refunds of employment taxes and certain excise taxes (highway) are excluded from the transfers of tax receipts shown herein, and are now included with refunds of Internal Revenue receipts, applicable to trust accounts.

17/ Reflects gross amounts based on reimbursements by trust accounts for refunds of taxes which were made in previous months or fiscal years. \* Less than \$500,000. p Preliminary.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government for explanation of reporting bases, see page II; estimates are from the 1963 Budget document, released January 19, 1962, including effects of proposed legislation.

Note: Figures in this table are for agencies as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 5. Agency shifts are reflected in this table as follows: Beginning 1957, Alaska Road Construction from "Interior Department" to "Commerce Department," and Federal intermediate credit banks and production credit corporations as indicated in footnote 1; beginning 1958, Federal Facilities Corporation (remaining functions) from "Treasury Department" to "General Services Administration," and Informational Media Guaranty Fund from "Funds appropriated to the President" to "Independent agencies"; beginning 1959, Federal Civil Defense Administration from "Independent

agencies" to "Executive Office of the President," and the former Civil Aeronautics Administration and the Civil Aeronautics Board from "Commerce Department" to "Independent agencies"; beginning 1960, military assistance from "Funds appropriated to the President" to "Defense Department, military," pursuant to budgeting instruction in the Mutual Security Act of 1959, as amended by the International Peace and Security Act of 1961 (22 U.S.C. 2312(b)).

1/ Effective January 1, 1957, the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956, approved July 26, 1956 (12 U.S.C. 1027), and operations of the merged agencies (as mixed-ownership corporations) were classified as trust enterprise funds (see "Trust Account and Other Transactions," Table 3); previously the operations of the banks and the corporations, respectively, were classified as public enterprise funds and were included net in budget expenditures.

- 1/ By Government agencies operated as revolving funds; on loans (see "Debt Outstanding," Table 6) and other interest-bearing U. S. investments.
- 2/ Excludes transactions under Defense Production Act.
- 3/ Consists of payments by: Office of the Administrator for college housing, urban renewal, prefabricated housing loans for 1955, and public facility loans beginning 1957; Federal National Mortgage Association; and Public Housing Administration.
- 4/ Direct loan program.
- 5/ By various agencies for programs under the Defense Production Act.
- 6/ Consists of payments by: Reconstruction Finance Corporation for 1955; Colorado River Dam Fund, Boulder Canyon project; Virgin Islands Corporation;

- 7/ Bureau of Federal Credit Unions; Civil Defense Program Fund; Farmers' Home Administration; Agricultural Credit Insurance Fund (formerly the Farm Tenant Mortgage Insurance Fund) beginning 1956, and the direct loan account, both established pursuant to Title III of the Agricultural Act of 1961, approved August 8, 1961; Information Media Guaranty Fund beginning 1959; Federal Ship Mortgage Insurance Fund beginning 1960; and St. Lawrence Seaway Development Corporation beginning 1960.
- 8/ For net cost of Canal Zone Government, less tolls on Government vessels, and for part of treaty payment for use of Canal Zone.
- 9/ Realization on the Government's investment.
- \* Less than \$500,000.
- p Preliminary.

Footnotes to Table 3.- (Continued)

- 2/ Beginning 1957, Federal aid for highways is excluded from budget expenditures and included in trust account expenditures (see Table 1).
- 3/ Adjusted for reclassification by which the President's special international program in the amount of \$7 million was shifted from "Funds appropriated to the President" to "Independent agencies."
- 4/ Consists of net expenditures of the Postal Fund, reflecting the change in classification of Post Office transactions to a public enterprise revolving fund basis, and beginning fiscal 1960 payment for public services.
- 5/ Reported on an accrual basis effective June 30, 1955.
- 6/ Includes Reconstruction Finance Corporation except functions transferred to Export-Import Bank, Federal National Mortgage Association, General Services Administration, and Small Business Administration. The corporation was abolished at the close of June 30, 1957, by Reorganization Plan No. 1 of 1957, and its remaining functions were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Administrator of Small Business Administration, and Secretary of the Treasury.
- 7/ Consists of Federal payment and loans and advances.
- 8/ For content, see Table 4. These transactions are included in the detail of both budget receipts and budget expenditures, but are deducted from the totals (see Reporting Bases, p. 11).
- 9/ Figures in this column differ from those published under the same caption prior to the September 1960 Treasury Bulletin because of the exclusion of certain interfund transactions (see footnote 8).

- 10/ Includes payments of United States subscriptions to three international financial organizations. In June 1959, pursuant to an act approved June 17, 1959 (22 U.S.C. 286e), an additional \$1,375 million was paid to the International Monetary Fund consisting of \$344 million in gold (see "Monetary Statistics," Table 3) and \$1,031 million in special notes. To the Inter-American Development Bank, as authorized by an act approved August 7, 1959 (22 U.S.C. 283e), there were paid in September 1959, \$0.5 million, in June 1960, \$79.5 million, and in October 1961, \$110 million which included \$25 million of special notes. To the International Development Association, as authorized by an act approved June 30, 1960, (22 U.S.C. 284a), there was paid \$75 million in November 1960, of which \$58 million was in special notes, and \$62 million in November 1961, which also included \$58 million of special notes. The special notes of the United States issued to these organizations are nonnegotiable and noninterest-bearing and are payable on demand. See also "Debt Outstanding," Table 1, and "Cash Income and Outgo," Table 5.
- 11/ Beginning with fiscal 1961, administrative expenses of the employment security program are handled as trust account expenditures rather than budget expenditures, pursuant to the Employment Security Act of 1960, approved September 13, 1960 (42 U.S.C. 1101); see Table 1, footnote 11.
- 12/ Total includes allowance for contingencies of \$350 million.
- \* Less than \$500,000. p Preliminary.

<sup>1/</sup> These figures, the latest available, are based on reports from the agencies and as additional information is received are subject to adjustment preparatory to the closing of the central accounts in the Treasury for the fiscal year 1962. Subject to adjustment are: Certain overseas transactions not yet included; the write-offs or withdrawals of unobligated balances no longer available, since agency reports covering these transactions are not required by law to be submitted until September 30 (the write-offs in the fiscal year 1961 amounted to \$362 million); certain indefinite appropriations included on the

basis of Budget estimates rather than final actual figures; other transactions, including those relating to (a) authorizations to expend from debt receipts, (b) restorations and reappropriations.

<sup>2/</sup> Includes same categories as shown at end of current period.  
<sup>3/</sup> Although not expended, a substantial portion of these amounts is obligated for outstanding purchase orders and contracts for equipment and supplies, for payrolls, and for similar items.

<sup>4/</sup> Includes reappropriations.

<sup>5/</sup> Consists of authorizations by law for Government-owned enterprises to borrow (1) from the Treasury (to expend from public debt receipts), or (2) from the public (to expend from debt receipts).

Source: Expenditures for 1962 are from reports to the Treasury Department by disbursing officers, on the monthly statement reporting basis (see page II). They are classified in accordance with classifications used in the 1963 Budget document, Table 14, as nearly as can be done on an individual appropriation and fund item basis. Prior year figures are from the same source but have been adjusted below the appropriation level in some instances by the Bureau of the Budget for use in Table 14. Where current classifications differ on this account, they are footnoted. Revolving fund transactions are included net in the expenditures.

1/ Expenditures by major functions for fiscal 1963 through July 1962, and fiscal 1962 through July 1961 are shown below. Details by functions are not available for publication in this issue but will appear in the September Bulletin.

- 2/ For description of items included, see Table 5. Although not expended a substantial portion of these amounts is obligated for outstanding purchase orders and contracts for equipment and supplies, for payrolls, and for similar items.
- 2/ Expenditures for 1962 include those for executive direction and management made from "Salaries and Expenses, Office of Emergency Planning" and "Research and Development, Office of Emergency Planning," applicable to functional code 903.
- 4/ Expenditures for 1962 include those for loans for conservation applicable to functional code 354; grading and classing activities applicable to functional code 355; and for special milk program applicable to functional code 654. These expenditures were made from "Commodity Credit Corporation Capital Fund."
- 5/ See footnote 4.
- 6/ See footnote 7.
- 7/ Expenditures for 1962 include those for assistance for elementary and secondary education applicable to functional code 701 and other aids to education applicable to functional code 704. These expenditures were made from "Defense Educational Activities, Office of Education."
- 8/ Expenditures for 1962 include those for veterans' nonservice-connected pensions applicable to functional code 802 and other veterans' benefits and service applicable to functional code 805. These expenditures were made from "Compensation and Pensions, Veterans Administration."
- 9/ See footnote 8.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1963 Budget document, released January 18, 1962, including effects of proposed legislation.

<sup>1/</sup> Certain intertrust fund transactions are excluded from both receipts and expenditures beginning with the July 1961 issue of the Bulletin. For detail see Table 6.

<sup>2/</sup> Also includes guaranteed securities (see Table 4).

<sup>3/</sup> Effective July 1, 1955, security transactions of Government-sponsored enterprises are included in deposit fund account expenditures (net)

and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5).

Figures for 1955 have been revised to the new classification basis. <sup>4/</sup> Adjusted for reclassification of certain repayments of advances from the general fund.

<sup>5/</sup> Beginning fiscal 1961, refunds of taxes (principal only) are deducted from receipts; before that they were included under expenditures. p Preliminary.

Source: See Table 1.

1/ Includes transactions under the predecessor Old-Age Reserve Account.

2/ Total includes: \$15.4 million transferred from general fund for administrative and other costs of benefits payable to survivors of certain World War II veterans (64 Stat. 979 and 64 Stat. 512); beginning November 1951, small amounts in the nature of recoveries from expenditures incidental to the operations; and beginning 1958, interest payments from Federal Disability Insurance Trust Fund, and sale of waste paper.

3/ Includes unappropriated receipts beginning January 1962. For basis, see "Budget Receipts and Expenditures," Table 1, footnote 8.

4/ To cover employees of States and their political subdivisions, under the Social Security Act Amendments of 1950 (42 U.S.C. 418).

5/ See Table 9.

6/ Reimbursement to the general fund pursuant to the Social Security Act Amendments of 1950 and 1956 (42 U.S.C. 401 (g) (2)).

7/ Beginning fiscal 1961, refunds of taxes are reported as deductions from receipts.

8/ Includes reimbursement of \$78.3 million from the general fund, non-contributory military service credits.

9/ Includes adjustments to monthly statement basis.

10/ Construction and equipment of office buildings for the Bureau (Public Law 170, approved July 31, 1953 - 67 Stat. 254).

11/ Under the Social Security Act, as amended (42 U.S.C. 401 (g) (1)), for administration of Titles II and VIII of that act and related parts of the Internal Revenue Code (26 U.S.C. 480-482, 1400-1432). See also footnote 12.

12/ Salaries and expenses of the Bureau of Old-Age and Survivors Insurance are paid directly from the trust fund beginning 1947, under provisions of annual appropriation acts until passage of the Social Security Act Amendments of 1956 (42 U.S.C. 401 (g)(1)); previously these expenses were included in reimbursements to the general fund.

13/ See Table 8. This reimbursement is treated as a reduction in administrative expenses paid from the Federal Old-Age and Survivors Insurance Trust Fund. Figures exclude interest (see Footnote 2).

14/ Includes unappropriated receipts beginning January 1962.

1/ Includes the Government's contribution for creditable military service (45 U.S.C. 228c - 1(n)) until payment was completed in 1954. Beginning 1952, appropriations of receipts are equal to the amount of taxes deposited in the Treasury (less refunds) under the Railroad Retirement Tax Act, and transfers are made currently subject to later adjustments (see "Budget Receipts and Expenditures," Table 1). Beginning 1954, includes unappropriated transfers of tax receipts.

2/ Payments are made between the Railroad Retirement Account and the Federal Old-Age and Survivors and the Federal Disability Insurance trust funds so as to place those funds in the position in which they would have been if railroad employment after 1936 had been included in

social security coverage (45 U.S.C. 228e (k)). See Tables 7 and 8.

3/ See Table 10. Receipts include repayment and interest.

4/ Paid from the trust fund beginning 1950 (63 Stat. 297).

5/ Includes unappropriated receipts beginning fiscal year 1954.

6/ Includes adjustment for change in reporting to a collection basis.

7/ Under procedure beginning fiscal 1961, amounts for interest on refunds of taxes, formerly included under budget expenditures, are now treated as transfers of budget receipts to trust account receipts and are included as trust account expenditures.

8/ Includes \$16 million proposed legislation, military service credits.

9/ Includes adjustments to monthly statement basis.

**Footnotes to Table 10**

- 1/ State unemployment funds; used for benefit payments mainly. Beginning August 1961, withdrawals by States have been reduced by reimbursements to State accounts from Federal Extended Compensation Account.
- 2/ Established by the Employment Security Act of 1960, approved September 13, 1960 (42 U.S.C. 1101(a)), into which are deposited tax receipts transferred in accordance with the act (see "Budget Receipts and Expenditures," Table 1, footnote 11) and from which are paid the administrative expenses of the employment security program and reimbursement for tax refunds. Previously the corresponding amounts were included, respectively, in budget receipts and budget expenditures, and only the excess of receipts over expenditures, if any, was transferred to the trust account by appropriation. Receipts consist of appropriated and unappropriated transfers of tax collections. The Federal unemployment tax allows to the taxpayer credit for contributions to State unemployment funds up to 90 percent of the tax.
- 3/ Net of repayments.
- 4/ Excess of collections from Federal unemployment tax over expenditures for benefits and administrative expenses each year is deposited in this account to maintain a reserve of \$200 million available for loans to States when needed to replenish the balances in their accounts in the trust fund. Beginning 1961, these transfers are from the administration fund in the trust account; previously they were from the general fund. Any remaining excess is credited to the State accounts (42 U.S.C. 1101 - 1103).
- 5/ Established by the act approved March 24, 1961 (42 U.S.C. 1105(a)), which provides for a temporary program of extended unemployment compensation payments.
- 6/ For payment of benefits and refunds (45 U.S.C. 360). Figures exclude interim advance of \$15 million from the Treasury and subsequent repayment, both in 1940.
- 7/ Contributions under the Railroad Unemployment Insurance Act of 1938, as amended (45 U.S.C. 360(a)), in excess of the amount specified for administrative expenses (see footnote 8).
- 8/ Temporary advances are made when the balance in the Railroad Unemployment Insurance Account is insufficient to meet payments of benefits and refunds due or to become due. Whenever the balance is sufficient to pay such benefits and refunds, repayments are made, plus interest at 3% per annum, pursuant to an act approved May 19, 1959 (45 U.S.C. 360(d)).
- 9/ Excess, if any, over specified balance at end of year is transferred to the account (45 U.S.C. 361(d)).
- 10/ Consists of a specified proportion of contributions deposited in the fund to be available for administrative expenses. The Railroad Unemployment Insurance Administration Fund was established in the Unemployment Trust Fund pursuant to the amending act of September 6, 1958; before that the administration fund was a separate trust fund (45 U.S.C. 361).
- 11/ Total includes \$107.2 million transferred from State accounts to the Railroad Unemployment Insurance Account in connection with its establishment (45 U.S.C. 363).
- 12/ Beginning fiscal 1961 refunds of taxes (principal only) are reported as deduction from receipts. Interest paid on refunds of taxes is included under expenditures.
- 13/ Includes \$2.5 million for repayment of general fund advances, temporary extended Railroad unemployment insurance, consisting of \$.3 million in May and \$2.1 million in June.
- 14/ Includes \$155 million proposed for separate transmittal.
- 15/ Includes repayment of general fund advances of \$484 million for temporary extended unemployment compensation and \$11 million for temporary extended Railroad unemployment insurance. Also includes \$150 million proposed for separate transmittal.
- 16/ Includes adjustments to monthly statement basis.
- 17/ Includes unappropriated receipts beginning September 1960.
- 18/ Excludes adjustment pursuant to the act of September 6, 1958 (45 U.S.C. 361(a)); see footnote 19.
- 19/ Includes an adjustment of \$7.2 million pursuant to the act of September 6, 1958 (45 U.S.C. 361(a)); see footnote 10.

## CASH INCOME AND OUTGO

The cash income and outgo data appearing in the Treasury Bulletin, beginning with the February 1956 issue, are on a basis consistent with receipts from and payments to the public as derived in the 1957 and subsequent Budgets of the United States (in the Budget for 1963 in Special Analysis B). Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget documents. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with current Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Bureau of the Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovernmental trans-

actions which are reported as both expenditures and receipts are excluded from both. Noncash items representing the obligation of the Government to make payments in the future also are eliminated from expenditures but are added later when actual payments are made. These items consist of certain interest accrued on the public debt, expenditures involving the issuance of a few special public debt securities, and clearing accounts. Receipts from the exercise of monetary authority are excluded as not representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Bureau of the Budget series, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Bureau of the Budget series.

Source: Actual figures are based on the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1963 Budget document, released January 18, 1962, including effects of proposed legislation.

<sup>1/</sup> Figures in this column differ from those published prior to the September 1960 Treasury Bulletin because of the exclusion of a few additional items of budget receipts which are also budget expenditures (see Tables 2 and 3). p Preliminary.

Source: See Table 1. Details of basic receipt figures appear in preceding sections in the Bulletin.

- <sup>1/</sup> Previously published figures were revised in the September 1960 Bulletin to take account of the deduction of certain interfund transactions from both net budget receipts and budget expenditures; and further revised in the July 1961 issue for deductions of certain inter-trust fund transactions from both trust account receipts and trust account expenditures (see pp. 2, 4, 9, and 10). Formerly such transactions were included in the intragovernmental transactions which were deducted in deriving receipts from and payments to the public.
- <sup>2/</sup> Treated as noncash refund deductions from receipts when issued and as cash refund deductions when redeemed.
- <sup>3/</sup> Consists of seigniorage and the increment resulting from reduction in the weight of the gold dollar; excluded from receipts from the public

- but included in cash deposits in the Treasurer's account.
- <sup>4/</sup> Figures in this column differ from those published prior to the September 1960 Treasury Bulletin because a few additional items of budget receipts which are also budget expenditures are included in the interfund transactions deducted from budget receipts and budget expenditures (see footnote 1).
- <sup>5/</sup> Adjusted for reclassification of certain repayments of advances from the general fund.
- <sup>6/</sup> Beginning fiscal 1961, principal amounts for refunds of taxes applicable to trust accounts, formerly included with trust account expenditures, are deducted from trust account receipts.

<sup>1/</sup> See Table 2, footnote 1.

<sup>2/</sup> Net operating expenditures, or receipts (-), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 6). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federal securities. On that basis, net expenditures for operations are shown

in this table in terms of the combined net of disinvestment in Federal securities and sale of agency obligations in the market. Net receipts from operations are shown in terms of the combined net of investment in Federal securities and redemption of agency obligations in the market.

<sup>3/</sup> See Table 2, footnote 4.

<sup>5/</sup> Does not include revolving fund receipts representing acquired securities amounting to \$1,643,070 (par value).

1/ In this table, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 3 under "Trust Account and Other Transactions," these amounts are included with other trust accounts.  
 2/ Does not include investments representing acquired securities amounting to \$1,643,070 (par value) and donation of securities amounting to \$45,800 (par value).  
 3/ Accrued discount on savings bonds and bills, which is included in the

principal of the public debt, less interest paid on savings bonds and bills redeemed.

## ACCOUNT OF THE TREASURER OF THE UNITED STATES

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States reflects not only budget receipts and expenditures but also trust, deposit fund, and public debt transactions.

The working cash of the Treasury is held mainly in Treasurer's accounts with Federal Reserve Banks and branches. As the balances in these accounts become depleted, they are restored by calling in (transferring) funds from the tax and loan accounts with thousands of commercial banks throughout the country.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all banks whereby customers of banks deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involves merely the transfer of money from a customer's

account to the tax and loan account in the same bank. On occasions, to the extent authorized by the Treasury, banks are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the account of their customers.

The tax and loan account system permits the Treasury to leave funds in banks and in the communities in which they arise until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its fluctuating operations on bank reserves and the economy.

A detailed description of the Treasury's depository system may be found in the Annual Report of the Secretary of the Treasury for 1955, pages 275-284.

<sup>1/</sup> Includes reserves and other deposits of the Board of Trustees, Postal Savings System, and uncollected items, exchanges, etc. Post Office Department and postmasters' disbursing accounts also are included through November 1954. (See footnote 2.). Treasurer's checks outstanding are included through June 1958, after which they are included in the balance in the Treasurer's account. (See footnote 3).

<sup>2/</sup> Beginning December 1954, Post Office Department and postmasters' disbursing accounts are not treated as liability accounts of the Treasurer of the United States, but are classified and treated

as other disbursing accounts, in accordance with the change in method of reporting Post Office transactions (see "Budget Receipts and Expenditures," Table 3). An adjustment of -\$207 million in the balance in the Treasurer's account (and in the "clearing account") reflects this change.

<sup>3/</sup> Through June 1958, the balance of the Treasurer was reduced when Treasurer's checks were issued and the amount of the checks was carried as a liability until paid. Effective July 1958, the balance is not reduced until the checks are paid, a procedure also applying to checks drawn on the Treasurer by Government disbursing officers and agencies.

<sup>1/</sup> Special depositories are permitted to make payment in the form of a deposit credit for the purchase price of U. S. Government obligations purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.

<sup>2/</sup> Taxes eligible for credit consist of those deposited by taxpayers in the depository banks, as follows: Withheld income tax beginning

March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.

<sup>3/</sup> Under a special procedure begun in March 1951, authorization may be given for income tax payments, or a portion of them, made by checks of \$10,000 or more drawn on a special depository bank, to be credited to the tax and loan account in that bank. This procedure is followed during some of the quarterly periods of heavy tax payments.

Note: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date (the amount actually borrowed in the case of securities sold at a premium or discount, beginning with May 1960). The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual interest rate is computed by dividing the computed annual interest charge for the total, or for

any group of issues, by the corresponding principal amount. Beginning with data for December 31, 1958, the computation is based on the rate of effective yield for issues sold at premium or discount. Prior to that date it was based on the coupon rate for all issues.

<sup>1/</sup> Includes only guaranteed securities held outside the Treasury.

<sup>2/</sup> Total includes "Other bonds" through May 1961; see Table 3.

<sup>3/</sup> Included in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.

<sup>4/</sup> On United States savings bonds the rate to maturity is applied against the amount outstanding.

## STATUTORY DEBT LIMITATION

The Second Liberty Bond Act (31 U.S.C. 757b), as amended by an act approved June 30, 1959, provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury) shall not exceed in the aggregate \$285 billion outstanding at any one time. The corresponding limitation in effect under the act of June 26, 1946, was \$275 billion and that under the act of September 2, 1958, was \$283 billion. In addition, temporary increases have been authorized as follows: \$6 billion from August 28, 1954, through June 30, 1956 (acts of August 28, 1954, and June 30, 1955); \$3 billion from July 1, 1956, through June 30, 1957 (act of July 9,

1956); \$5 billion from February 26, 1958, through June 30, 1959 (act of February 26, 1958); \$10 billion from July 1, 1959, through June 30, 1960 (act of June 30, 1959); \$8 billion from July 1, 1960, through June 30, 1961 (act of June 30, 1960); \$13 billion from July 1, 1961, and an additional \$2 billion from March 13, 1962, through June 30, 1962 (acts of June 30, 1961, and March 13, 1962); and \$23 billion from July 1, 1962, through March 31, 1963, \$20 billion from April 1 through June 24, 1963, \$15 billion from June 25 through June 30, 1963 (act approved July 1, 1962). Obligations issued on a discount basis and subject to redemption prior to maturity at the option of the owner are included in the statutory debt limitation at current redemption values.

In addition, \$100 million of the notes were allotted to Government investment accounts.
- 39/ Holders of approximately \$1,600 million of Series F and G savings bonds issued in 1948, which mature in 1960, were offered in exchange the 4-3/4% notes, with certain adjustments as of December 15, 1959, at a price of 99-3/4%. Smaller denominations of savings bonds could be exchanged for the next higher multiple of \$1,000 of the notes upon payment of any cash difference. Cash payments amounted to \$3 million.
- 40/ Issued as a rollover of maturing one-year bills.
- 41/ Savings-type investors were given the privilege of paying for the bonds in installments up to June 15, 1960 (not less than 40 percent by April 14, the delivery date; 70 percent by May 15; and full payment by June 15). In addition to the amounts allotted to the public, \$100 million of the bonds were allotted to Government investment accounts.
- 42/ Subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 30 percent but in no case less than \$100,000. In addition, \$27.4 million of the notes were allotted to Government investment accounts.
- 43/ Subscriptions for \$25,000 or less were allotted in full. Subscriptions for more than \$25,000 were allotted 85 percent but in no case less than \$25,000. In addition, \$71 million of the notes were allotted to Government investment accounts.
- 44/ Subscriptions were permitted to be made with payment in cash or in 4-3/4% Treasury notes maturing August 15, 1960 (see Table 6, footnote 22). In addition in order that holders of 3-5/8% Federal National Mortgage Association notes maturing August 23, 1960, might have an opportunity to reinvest the proceeds, the Secretary of the Treasury, in behalf of the Association, offered to purchase such notes on August 15, 1960, at par and accrued interest to the extent that such subscriptions were allotted and the proceeds from the par amount of the notes were applied to payment, in whole or in part, for the new securities.
- 45/ Combined total includes \$80 million allotted on subscriptions from holders of the Federal National Mortgage Association notes maturing August 23, 1960 (see footnote 44).
- 46/ Consists of allotments on subscriptions from holders of Treasury notes maturing August 15, 1960.
- 47/ Subscriptions from States, political subdivisions, or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, Government investment accounts, and the Federal Reserve Banks as provided in the offering circular, totaled \$5,285 million and were allotted in full. Subscriptions subject to allotment totaled \$11,104 million and were allotted in full up to and including \$25,000; all others were allotted 13 percent but in no case less than \$25,000.
- 48/ Subscriptions totaled \$1,181 million from savings-type investors and \$100 million from Government investment accounts; both were allotted 25 percent. Subscriptions from commercial banks for their own accounts totaled \$2,708 million and were allotted 20 percent. Subscriptions from all others totaled \$1,190 million and were allotted 15 percent. Subscriptions for \$5,000 or less were allotted in full; subscriptions for more than \$5,000 were allotted not less than \$5,000.

Footnotes 1 through 9 on preceding page.  
<sup>10/</sup> Reopening of November 28, 1955, offering (see Table 4).  
<sup>11/</sup> During June 1956, \$159 million of these notes were purchased by the Treasury for account of the Sinking Fund and retired.  
<sup>12/</sup> Also designated tax anticipation certificates.  
<sup>13/</sup> Two issues of bills, maturing January 16, 1957, and February 15, 1957 respectively, were rolled over into two issues of tax anticipation bills, both maturing June 24, 1957.  
<sup>14/</sup> During June and July 1958, \$491 million of the 2-5/8% Treasury bonds of 1965 were purchased by the Treasury for retirement under section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a).  
<sup>15/</sup> Called on May 14, 1958, for redemption on September 15, 1958.  
<sup>16/</sup> Represents amount which owners exercised the option to redeem on August 1, 1959 (see Table 4, footnote 22).  
<sup>17/</sup> Holders of the 4% notes, who had the option to redeem at par on February 15, 1960, by giving notice not later than November 16, 1959, were permitted to exchange their holdings on November 15, 1959, for the 4-7/8% notes.  
<sup>18/</sup> Rolled over into a one-year bill (see Table 4).  
<sup>19/</sup> Amount which owners exercised the option to redeem on February 15, 1960 (see Table 4, footnote 24).

<sup>20/</sup> Advance refunding offering. Pursuant to the provisions of section 1037 (a) of the Internal Revenue Code of 1954 as added by Public Law 86-346, approved September 22, 1959, the Secretary of the Treasury has declared that no gain or loss shall be recognized for Federal income tax purposes upon the exchange of the eligible outstanding securities solely for the new securities. For tax purposes, therefore, the investor will carry the new securities on his books at the same amount as he had been carrying the eligible securities exchanged. Gain or loss, if any, upon the obligations surrendered in exchange will be taken into account upon the disposition or redemption of the new obligations.  
<sup>21/</sup> Holders of 2-1/2% Treasury bonds maturing November 15, 1961, were offered the option to exchange the bonds during the period from June 8, 1960, to June 13, 1960, inclusive, subject to allotment if subscriptions exceeded by 10 percent the offering limits of \$3.5 billion for the notes and \$1.5 billion for the bonds.  
<sup>22/</sup> Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the 3-1/8% certificates or the 3-7/8% bonds, which were offered in an aggregate of around \$8-3/4 billion. For detail of offering, see Table 4.

## PUBLIC DEBT OPERATIONS

## Footnotes to Table 6.- (Continued)

- 23/ Excess of maturing 4-3/4% Treasury notes over allotments of new securities on subscriptions from holders of those notes (see Table 4, footnotes 44 and 46).  
Reopening of an earlier issue.
- 24/ Holders of 2-1/2% Treasury bonds maturing June 15, 1967, December 15, 1968, June 15, 1969, and December 15, 1969, were offered the option to exchange the bonds during the period from September 12, 1960, to September 20, 1960, inclusive, the first for 3-1/2% bonds of 1980, the second for 3-1/2% bonds of 1990, and the other two for 3-1/2% bonds of 1998, subject to allotment if the combined total of subscriptions for the bonds of 1990 and 1998 exceeded an outside limit of \$4.5 billion.
- 25/ Holders of the maturing certificates were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the 3-1/4% notes offered in the amount of around \$6.9 billion. For detail of offering, see Table 4.
- 27/ Excess of maturing 4-7/8% certificates over allotments of new securities on subscriptions from holders of those certificates (see Table 4, footnotes 51 and 52).
- 28/ From March 20 through March 22, 1961, owners of 2-1/4% bonds of June 15, 1959-62, 2-1/4% bonds of December 15, 1959-62, 2-5/8% notes maturing February 15, 1963, and 2-1/2% bonds maturing August 15, 1963, were granted the option of exchanging their holdings. The first three were exchangeable for a new 3-5/8% bond due November 15, 1967, and the last for a new 3-3/8% bond due November 15, 1966. Exchanges were subject to allotment if subscriptions exceeded \$5 billion for the bonds of 1967 or \$3 billion for the bonds of 1966.
- 29/ Holders of the maturing certificates and notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the \$5,250 million offering of 3% certificates or the \$2,500 million offering of 3-1/4% notes. For detail of offering, see Table 4.
- 30/ Excess of maturing 4-3/8% certificates and 3-5/8% notes over allotments of new securities on subscriptions from holders of those certificates and notes (see Table 4, footnotes 55 and 56).
- 31/ \$1,569 million were redeemed for cash and \$168 million were exchanged for the tax anticipation bills dated March 23, 1962 (see Table 4).
- 32/ Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the \$6,500 million offering of 3-1/2% certificates, the \$1,500 million offering of 4% bonds, or the \$750 million offering of 4-1/4% bonds. For detail of offering, see Table 4.

- 23/ Excess of maturing 4% notes and 3-1/4% notes over allotments of new securities on subscriptions from holders of those notes (see Table 4, footnotes 70 and 71).

Note: In these tables sales of Series A-F and J bonds are included at issue price, and redemptions and amounts outstanding at current redemption value. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, and are then transferred to matured debt upon which interest has ceased.

- <sup>1/</sup> Sales and redemption figures include exchanges of minor amounts of (1) matured Series E bonds for Series G and K bonds from May 1951 through April 1957 and (2) Series F and J bonds for Series H bonds beginning January 1960; however, they exclude exchanges of Series E bonds for Series H bonds, which are reported in Table 3.
- <sup>2/</sup> Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the Treasury Bulletin.
- <sup>3/</sup> Because there is a normal lag in classifying redemptions the distribution of redemptions between sales price and accrued discount has been estimated. Beginning with the Treasury Bulletin of March 1961 the method of distributing redemptions between sales price and accrued discount has been changed to reflect the distribution shown in final

reports of classified redemptions. All periods shown have been revised on this basis.

- <sup>4/</sup> Reductions were made in issues and redemptions of Series E, H, F, G, J, and K bonds in July 1954 to compensate for the erroneous inclusion of reissue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H, \$17 million for issues of Series F, G, J, and K, and \$35 million for unclassified retirements.
- <sup>5/</sup> Series F and G sales were discontinued April 30, 1952, and Series J and K sales were discontinued April 30, 1957. Sales figures after April 30, 1957, represent adjustments.
- <sup>6/</sup> Includes exchanges of Series 1941 F and G savings bonds for 3-1/4% marketable bonds of 1978-83.
- <sup>7/</sup> Includes exchanges of Series 1948 F and G bonds for 4-3/4% marketable notes of 1964.
- <sup>8/</sup> Includes exchanges of Series 1949 F and G bonds for 4% marketable bonds of 1969.
- <sup>9/</sup> Includes exchanges of Series 1950 F and G bonds for 3-7/8% marketable bonds of 1968.
- <sup>10/</sup> Represents changes in the amounts of redemptions not yet classified between matured and unmatured issues.
- \* Less than \$500,000.

Source: Daily Treasury statement for total amounts outstanding; reports from agencies and trust funds for securities held by U. S. Government investment accounts; and reports from Federal Reserve System for securities held by Federal Reserve Banks.

1/ Includes certain obligations not subject to statutory limitation. For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies

3/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Consists of guaranteed securities held outside the Treasury. All are public marketable issues. \* Less than \$500,000.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a), and excludes the Exchange Stabilization Fund.

\* Less than \$50,000.

TREASURY SURVEY OF OWNERSHIP, JUNE 30, 1962

The monthly Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey currently account for about 90 percent of all such securities held by these institutions. The similar proportion for corporations and for savings and loan associations is 50 percent, and for State and local governments, 60 percent. Data were first published for banks and insurance companies in the May 1941 Treasury Bulletin, for

corporations and savings and loan associations in the September 1960 Bulletin, and for State and local governments in the February 1962 Bulletin.

Holdings by commercial banks distributed according to Federal Reserve member bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly, first appearing in the March 1954 Bulletin.

1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.

2/ Excludes trust departments.

3/ Includes trust companies and beginning with figures for July 1949, also includes stock savings banks. Previously, those banks were reported as a separate classification.

4/ Included with all other investors are those banks, insurance companies, savings and loan associations, corporations, and State and local government funds not reporting in the Treasury Survey.

5/ Consists of corporate pension trust funds and profit sharing plans which involve retirement benefits. The data are compiled from quarterly reports by trustees of funds which account for approximately 90 percent of United States Government securities held by all corporate pension trust funds. Since the data are not available each month, the regular monthly Survey includes holdings by these funds under "Held by all other investors." The quarterly data are presented as supplemental information in a memorandum column accompanying the Survey for each reporting date, beginning with December 31, 1953.

6/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported to the Treasury Survey at maturity value but have been adjusted to current redemption value for use in this statement.

7/ Includes \$73 million depository bonds held by commercial banks not included in the Treasury Survey.

8/ Holdings by reporting investors not available.

9/ Guaranteed securities are those held outside the Treasury.

10/ Except partially tax-exempt bonds, which are classified to earliest call date.

11/ Partially tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. For all other securities, the income is subject to normal tax and surtax.

12/ Includes guaranteed securities which are classified as taxable although a small indeterminate amount of the Federal Housing Administration debentures is partially tax-exempt.

13/ The Treasury bonds of 1960-65 are partially tax-exempt (see footnote 11).

14/ Includes only publicly offered issues.

15/ The proprietary interest of the United States in these banks ended in July 1951.

16/ The proprietary interest of the United States in these banks ended in June 1947.

\* Less than \$500,000.

## TREASURY SURVEY - COMMERCIAL BANK OWNERSHIP, JUNE 30, 1962

The tables which follow provide an analysis of the security holdings of commercial banks reporting in the Treasury survey of ownership of securities issued by the United States Government and by Federal agencies. The figures show the total holdings distributed according to Federal Reserve member bank classes and nonmember banks.

This analysis of commercial bank ownership was first published in the May 1944 issue of the "Treasury Bulletin," based on the survey data for December 31, 1943. It has appeared at semiannual or quarterly intervals since that time, and is now being published for the June 30 and December 31 survey data.

<sup>1/</sup> Amount issued on August 2, 1962 was \$1,301 million.<sup>2/</sup> Amount issued on August 2, 1962 was \$700 million.<sup>3/</sup> Amount issued on August 15, 1962 was \$6,852 million.<sup>4/</sup> Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in the history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.<sup>5/</sup> Not quoted on July 31, 1962.<sup>6/</sup> On callable issues market convention treats the yield to earliest call date as more significant when an issue is selling above par, and to maturity when it is selling at par or below.<sup>7/</sup> Amount issued on August 15, 1962 was \$6,743 million.<sup>8/</sup> Amount issued on August 15, 1962 was \$315 million.<sup>9/</sup> Included in the average yield of long-term taxable Treasury bonds as shown under "Average Yields of Long-Term Bonds."

# YIELDS OF TAXABLE TREASURY SECURITIES, JULY 31, 1962

Based on Closing Bid Quotations

The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the two classes of points are fitted by eye. Market yields on regular weekly bills other than those offered the latest week and an maturing coupon issues for which an exchange offer has been made and on any issues which are due in less than 3 months are excluded.

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of Aaa Corporate bonds. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the Bulletin.

1/ Series includes bonds which are neither due nor callable before a

given number of years as follows: April 1953 to date, 10 years; April 1952 - March 1953, 12 years; October 1941 - March 1952, 15 years. For bonds currently in the series, see Table 4 under "Market Quotations on Treasury Securities" in this issue of the Bulletin.

Source: Internal Revenue Service reports for detail of collections by type of tax; monthly statement of receipts and expenditures of the Government for budget receipts from internal revenue (for explanation of reporting bases in this publication, see page II). Certain detail by type of tax is available only from returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amounts of tax collected in Puerto Rico upon articles of merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis.

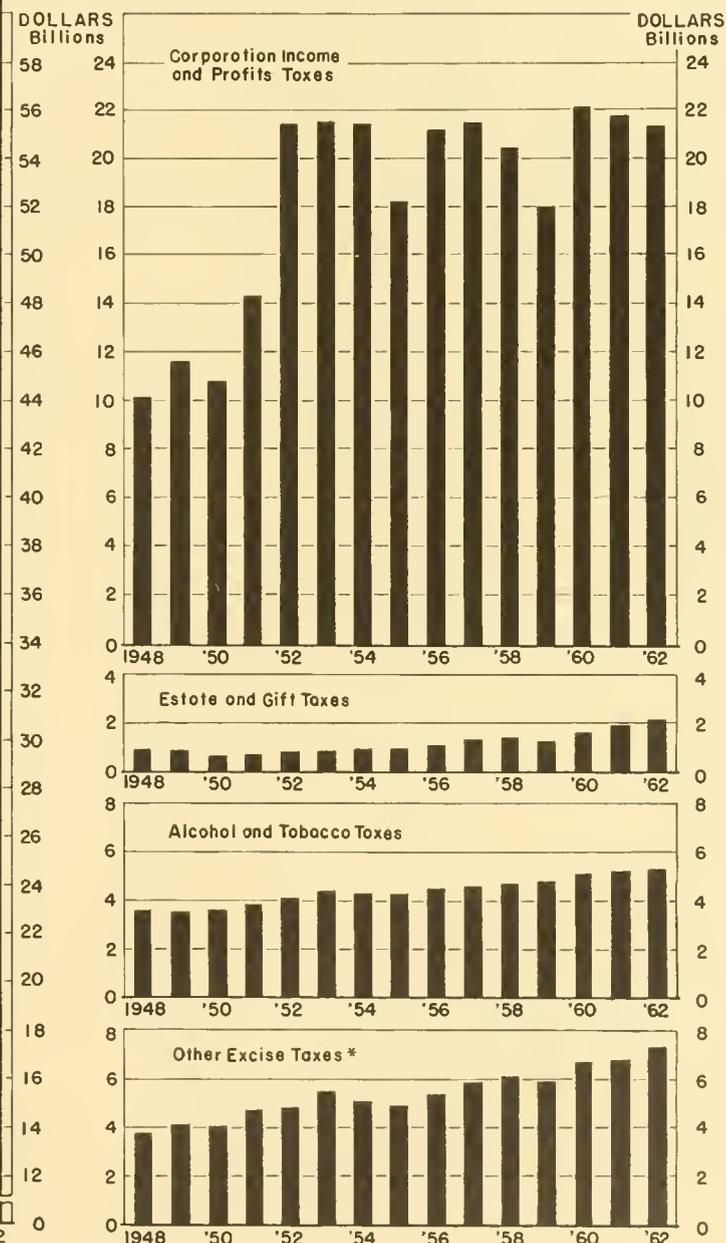

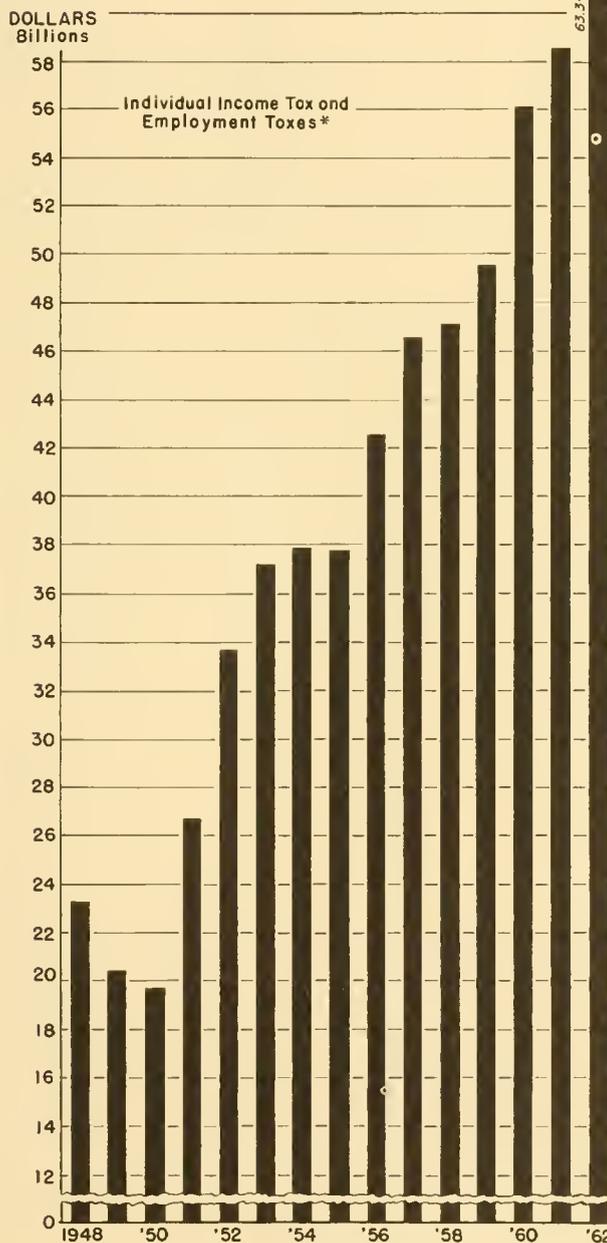

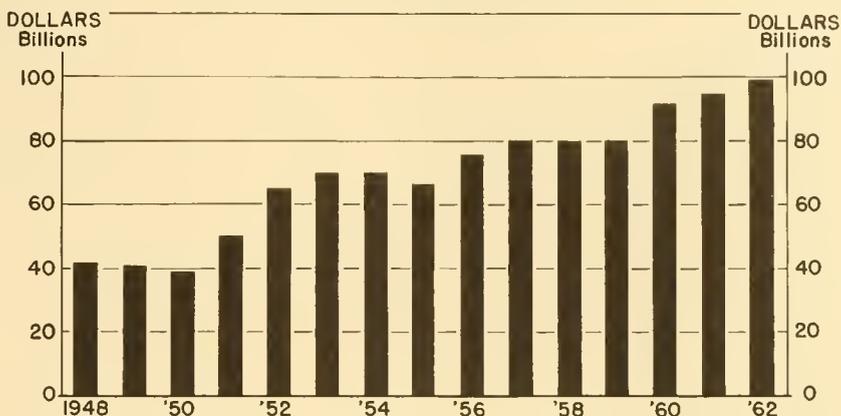

<sup>1/</sup> Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arose because of differences in the time when payments were included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depositories and the depository receipts, as evidence of such payments, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget receipts

in the month in which the depository receipts are issued to the taxpayers. Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

- <sup>2/</sup> Monthly figures include social security tax on self-employment income, which is levied and collected as part of the individual income tax. Fiscal year figures exclude this tax, on the basis of estimates (see footnote 3), and it is included under "Old-age and disability insurance."
- <sup>3/</sup> In Internal Revenue Service reports current collections are not separated as to type of tax; the breakdown shown for fiscal years is based on estimates made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer of tax receipts to the trust funds (see "Budget Receipts and Expenditures," Table 1).
- <sup>4/</sup> Beginning with the fiscal year 1955, collections shown include undistributed depository receipts and unapplied collections. For excise taxes these receipts are included in the total only. Total collections include "Taxes not otherwise classified."
- <sup>5/</sup> Budget receipts for 1956 were reduced by \$3,566 thousand representing tax collections transferred to the Government of Guam pursuant to the act approved August 1, 1950 (48 U.S.C. 1421 h), but this amount was included in collections reported by the Internal Revenue Service. Beginning with 1957, such collections are excluded also in Internal Revenue Service reports.
- <sup>6/</sup> Detail is reported by quarters beginning with the fiscal year 1956. p Preliminary.

1. Includes money held by or for the Government, Federal Reserve banks, and banks.

2. The following paper currencies and in process of retirement and are not redeemable from the general fund of the Treasury: Gold certificates issued before January 30, 1934; silver certificates issued before January 30, 1934; Treasury notes of 1890; Federal Reserve notes issued before the date of 1928; Federal Reserve Bank notes, and national bank notes. The Treasury notes of 1890 have been in process of retirement since March 1, 1934 (48 Stat. 1441) upon receipt by the Treasury of the Federal Reserve Bank notes since June 22, 1944 (16 U.S.C. 461-463), and the national bank notes since December 29, 1913 (16 U.S.C. 461). Retirement of the others was authorized by the Old Series Currency Act, approved June 22, 1944 (16 U.S.C. 462-463). The amount of currency of the following types which have been destroyed or destroyed and to reduce the amount to reflect on the books of the Treasury:

Gold certificates issued before January 30, 1934; silver certificates, United States notes, Federal Reserve Bank notes, and national bank notes all issued before July 1, 1929; Federal Reserve notes issued prior to the series of 1928; and Treasury notes of 1890. The Secretary of the Treasury determined on October 20, 1961, that \$1 million of Treasury notes of 1890 have been destroyed or irretrievably lost and so will never be presented for redemption.

Highest amount to date.  
Issued prior to January 30, 1934.  
Includes \$30 million issued before July 1, 1929.  
Includes \$36 million issued prior to the series of 1928.  
Based on the Bureau of the Census estimated population. Through fiscal 1948 the estimated population is for the conterminous United States (that is, exclusive of Alaska, Hawaii, and the outlying areas such as Puerto Rico, Guam, and the Virgin Islands). Beginning with fiscal 1949 the estimates include Alaska, and with fiscal 1960, Hawaii.

Note: The United States also has certain drawing rights on the International Monetary Fund, in which the United States has a quota of \$1,165 million. In accordance with Fund policies, these drawing rights include the right to draw virtually automatically an amount equal to the sum of the United States gold subscription to the Fund (\$1,031.2 million) and the Fund's net use of dollars; on July 31, 1962, these two amounts totaled \$1,166.5 million. Under appropriate circumstances the United States could draw an additional amount equal to the United States quota.

<sup>1/</sup> Includes gold sold to the United States by the International Monetary

Fund with the right of repurchase, the proceeds of which are invested by the Fund in U. S. Government securities; as of July 31, 1962, this amounted to \$800 million.

<sup>2/</sup> Includes gold in Exchange Stabilization Fund, which is not included in Treasury gold figures shown in "Circulation Statement of United States Money." See "Monetary Statistics," Table 3.

## CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information on the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published less frequently. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin," pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published

will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in six tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by nonfinancial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semi-annually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually, appearing in the April issue through 1958 and in the March issue thereafter. Table 6, purchases and sales of long-term securities by foreigners during the preceding calendar year, also appears annually, beginning with the May 1959 issue.

## FOREIGN CURRENCIES ACQUIRED BY THE UNITED STATES WITHOUT PURCHASE WITH DOLLARS

Foreign currencies reported herein in United States dollar equivalents were acquired without purchase with dollars, for the most part in connection with foreign assistance and agricultural trade development programs authorized by various provisions of law. The currencies are held in the custody of the Treasury Department until such time as they are either sold for dollars to Government agencies or transferred to Government agencies for expenditure without charge to appropriations, as specifically authorized by law.

Prior to July 1, 1953, foreign currencies acquired by Government agencies without payment of dollars were available to the collecting agencies to defray operating expenses and were not subject to the regular appropriation processes.

The act of July 15, 1952, Sec. 1415 (66 Stat. 662), provided that after June 30, 1953, United States agencies could no longer expend foreign currencies belonging to the United States except as provided annually in appropriation acts. Subsequent legislation required executive departments and agencies, with certain exceptions, to reimburse the Treasury in dollars for the foreign currencies used. Executive Orders No. 10488 dated September 23, 1953, and No. 10900 dated January 5, 1961, as amended, provided for the issuance of regulations by the Secretary of the Treasury governing the purchase, custody, transfer, or sale of foreign exchange by the United States.

Accordingly, Treasury Department Circular No. 930 was issued on October 19, 1953, effective December 1, 1953. These regulations provided for the transfer of department and agency foreign currency balances as of November 30,

1953, into Treasury custody, and the flow of future collections through Treasury accounts; and established requirements with respect to withdrawals from Treasury accounts; limitations on purchases and amounts of holdings; the use of foreign depositaries; and accounting for the currencies. Department Circular No. 930 as revised October 20, 1961, added certain requirements governing foreign currency reporting and accounting.

Figures are stated in dollar equivalents, computed for reporting purposes, to provide a common denominator for the currencies of the many foreign countries involved. It should not be assumed that dollars, in amounts equal to the balances, are actually available for the general use of the United States Government, since most of the currencies are inconvertible and restricted as to uses by the terms of agreements between the United States and the foreign governments.

The tables exclude the counterpart funds owned by and held in accounts of the foreign governments. The use of such funds is subject to approval of the United States, and transactions therein are included in reports of the Agency for International Development. The tables also exclude the United States purchases of foreign currencies which are under dollar accountability and reported as dollar transactions.

Detailed data, by account, agency, program, foreign country, units of currency, and related dollar equivalents, are published annually in the Combined Statement of Receipts, Expenditures and Balances, beginning with fiscal 1958.
