## Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United states Treasury" and the "Monthly Statement of Recelpts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States :/oney." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the dally statement as the primary source of information on budget results and other receipt and expenditure data classifled by type of account. At the same time, the dally statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have proviled comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17 , 1954, with respect to these reporting changes may be found in the April 1954 issue of the Bulletin.

The monthly statement shows all recelpts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is complled from reports by the Treasurer of the United States and by all other collectiñ and disbursing agencies, including those agencies which maintain checkins accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as compiled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outsice the Treasurer's account and changes in the public debt outstanding.

Recelpts of taxes and customs duties are reported on a collections basis. Other recelpts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernnental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payable basis. The same reportiny basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expend-
itures and Balances of the United States Government" and for actual recelpts and expenditures in the "Budget of the United States Government."

Beginning with the final statement for the fiscal year 1960, the monthly statement reports totals for net budget recelpts and budget expenditures after deduction of certain interfund transactions which are included in the detall of both budget receipts and budget expenditures. The transactions deducted consist of interest payments and minor amounts of certain other payments made by Government agencies to the Treasury. This reporting change was made in accordance with the plan stated in the President's Budget Message of January 18, 1960. It does not affect the surplus or deflcit. Figures for earlier periods shown in the Treasury Bulletin were revised to the new reporting basis in the September 1960 19sue. The interfund transactions deducted under this procedure do not include payments to the Treasury by wholly owned Government corporations for retirement of their capital stock and for dibposition of earnings. These capital transfers have been excluded currently from budget receipts and budget expenditures beginning July 1 , 1948, and figures for prior fiscal years back through 1932 were revised accordingly at that time.

The dally statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no ilstinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total witherawals are on the basis of checks paid or cash disbursenents made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of malled reports of checks lssued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmental transactions are excluaded. The public debt figures in the dally statement also are on a "clearance" basis, vilh the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The daily statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the statue of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt iasuance, retirement, and amount outstanding. Receipts and expenditures, however, were classified by type of account, and the budget results shown

## Reporting Bases - (Continued)

In the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the the Treasurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and 1 ts predecessor organizations, were on the basis of checks paid. Transactions han-
dled through commercial bark accounts, consisting of market transactions in public debt an guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable besis beginning with November 1949 and on a checks-pald basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

## Treasury Financing Operations

## One-Year B111s Refunded

On July 2, 1963, the Treasury announced an offering on July 9 of $\$ 2$ blllion, or thereabouts, of $366-$ day bllls for cash and in exchange for $\$ 2$ billion of Treasury bills maturing on July $15,1963$.

Tenders for the new bllls totaled $\$ 4,495$ million, of which $\$ 2,000 \mathrm{mllli}$ was accepted at the average rate of discount of 3.582 percent. Acceptances included $\$ 215$ milIIon of noncompetitive tenders for $\$ 400,000$ or less (without stated price) from any one bldder. The noncompetitive tenders were accepted in full at the average price for accepted competitive bids.

Payment for accepted tenders was required to be made or completed on July 15, 1963, in cash or other immediately avallable funds, or in a like face amount of Treasury bills maturing on that date. Tenders were recelved without deposit irom incorporated banks and trust companies and from responsible and recognized dealers in investment securities. Others were required to accompany tenders by payment of 2 percent of the face amount of Treasury bllls applied for, or an express guaranty of payment by an incorporated bank or truet company.

The new one-year bills are dated July 15,1963 , and w111 mature July 15, 1964, when the face amount w111 be payable without interest. Issued in bearer form only, the blils are in denominations of $\$ 1,000, \$ 5,000, \$ 10,000$, $\$ 50,000, \$ 100,000, \$ 500,000$, and $\$ 1,000,000$ (maturity value).
13-Week and 26-Week B111s Refunded
Issues of regular weekly Treasury bllls during June totaled $\$ 8.4$ billion, refunding an equivalent amount of bllls maturing. The new blll $1884 e s$ consisted of four 91-day maturities of $\$ 1.3$ b1111on each, and four 182-day maturities of $\$ 0.8$ billion each. Average rates of discount on the new bllls were as follows:

1/ Bank discount basis.

## Foreign Series and Foreign Currency Series

June issues by the Treasury of the foreign series securities consisted of $s 1 x$ certiflcates of indebtedness totaling $\$ 325$ million and one bond lssue of the forelgn currency series of $\$ 75$ million. As of June 30 , there were $\$ 648$ million in foreign serles and $\$ 630$ million of foreign currency series outstanding.

Intorest rates on the certilicates of the foreign serles were 3.0 percent on the four 3 -month 1 ssues, 2.75 percent on one $6-$ month $18 s u e$, and 3.10 percent on the other 6-month maturity, which was the last of the June $18 s u e s$ and was dated June 27. The foreign currency bond 1ssue, denominated in Italian lire, 18 sued June 28 , matures in two years, and bears interest at the rate of 3.30 percent.

Treasury Proposal for Monthly Cycle of One-Year B1118
On July 15 , the Treasury Department announced that it was giving consideration to establishing monthly auctions of one-year Treasury bills in the interest of a more orderly scheduling of 1 ts short-term debt maturities. The announcement stated,
"Under such a program, 11 adopted, the outstanding quarterly serles of one-year bills (which mature on January 15, April 15, July 15, and October 15) would gradually be retired as they were replaced by monthly issues.
"The amount of ons-year bllls to be auctioned monthly would, of course, be substantially smaller than the amounts currently auctioned on a quarterly basis. The monthly auctions, although they might be varied in size to meet both market conditions and Treasury cash needs, would probably be in the neighborhood of $\$ 1$ billion. It is contemplated that the monthly one-year blll series might be dated to mature on the last day of each month.
"Before proceeding further in its consideration of a monthly auction of one-year bllis, the Treasury requests comments from members of the financial community and other interested parties concerning the desirability, the feasibllity and the technical market aspects of such a program.
"Comments should be submitted within the next inirty days, addressed to:

Mr. Frank E. Morris
Asaistant to the Secretary
(Debt Management)
Room 3321

Source: Actual figures through the fiscal year 1952 and the calendar year 1953 are from the daily Treasury statement, and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1964 Budget document, released January 17, 1963, including effects of proposed legislation. More detail for data on this page will be found in succeeding tables.

1. Fiscal year figures beginning with the September 1960 issue of the Treasury Bulletin, and calendar year figures beginning with the June 1961 issue exclude certain interfund transactions from both net budget receipts and budget expenditures (see page II, 2, and 5). Figures previously published for these series have been revised to the new reporting basis. The change does not affect the budget surplus or deficit.
$\frac{2}{3}$ Excess of receipts, or expenditures (-). For detall, see pages 10-14. / For checks outstanding and telegraphic reports from Federal Reserve banks; public debt interest accrued and unpaid beginning with June
and the fiscal year 1955 (previously included from November 1949 as Interest checks and coupons outstanding); also deposits in transit and changes in cash held outside the Treasury and in certain other ac-
counts beginning with the fiscal year 1954. Net increase, or decrease (-).
4/ For current month detail and list of acts, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: \$275 billion on June 26, 1946; \$281 billion on August 28, 1954; \$278 biliion on July 1, 1956; \$275
billion on July 1, 1957; \$280 billion on February 26, 1958; \$288 billion on September 2, 1958; \$290 billion on June 30, 1959; $\$ 295$ billion on July 1, 1959; \$293 billion on July l, 1960; \$298 billion on July 1, 1961; $\$ 300$ billion on March 13, 1962; $\$ 308$ billion on
July 1, 1962; $\$ 305$ billion on April 1, 1963; and $\$ 307$ billion on May 29, 1963. Under the act approved May 29, 1963, the limitation is \$309 billion from July 1 through August 31, 1963.
p Preliminary.

Source: Actual figures are from the monthly statement of receipts and
expenditures of the Government (for explanation of reporting bases see page II); estimates are from the 1964 Budget document, released
January 17, 1963, including effects of proposed legislation.
age and disability insurance taxes is individual income taxes and oldsions of Sec. 201 of the Social Security Act, as amended ( 42 U.S.C. 401), for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see fronsfer e 9), and also for transfer to the Federsl Disability Fund (see footnote 9), and 8lso for tran
Insurance Trust Fund (see footnote 10).
2/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended ( 26 U.S.C. 3101-3125), and tax on selfemployed individuals under the Self-Employment Contributions Act, as
amended (26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, spproved August 1, 1956, increased the rates of tax applicable to wages paid and taxable years beginning after December 31, 1956, ta provide for disability insurance.
3 Taxes on carriers and their employees under the Railroad Retirement Tax Act, as amended (26 U.S.C. 3201-3233).
4 Tax on employers of 4 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 3301-3308); with respect to services performed
before Janusry 1, 1956, the tax was imposed on employers of 8 or more. Beginning 1957, includes collections under increosed rates in the Highway Revenue Act of 1956 (see footnote 13).

Source: Actual figures through 1961 are from reports to the Treasury Department by disbursing officers and administrative agencies, on the monthly statement reporting basis (see page If); and from the monthly statement of receipts and expenditures thereafter. Estimates are from the 1964 Budget docunent, released January 17, 1963, including effect of proposed legislation.
1/ Consists of miscellaneous taxes (principally the tonnage tax on foreign vessels entering U. S. ports), bullion charges, and gifts
and contributions.
2/ Includes $\$ 210$ million received frow the French Government and \$179 million from the Italian Government for prepoyment of luans.
3/ Includes $\$ 375$ million for repayment of advances from Federal extended compensation account (Temporary Extended Unemployment Compensation Act of 1961, approved March 24, 1961) and a decrease of $\$ 93$ million for transfer of receipts to Commodity Credit Corporation fund.
p Preliminary.

## Footnotes to Table 1 - (Cont inued)

6/ Includes adjustments as follows for: Income taxes not. withheld, October - $\$ 4$ million, January $\$ 4$ million, March $-\$ 2$ million, snd June $+\$ 58$ million; income taxes withheld, October $\mathbf{\$ 1 4 2}$ million, January $-\$ 67$ million, March $\$ 14$ million, and June $-\$ 8$ million; transfers to Federal Old-Age and Survivors Insurance Trust Fund, October $+\$ 134$ million, January $+\$ 62$ million, March $+\$ 19$ million, and June $-\$ 47$ million; and transfers to Federal Disability Insurance Trust Fund, October $+\$ 12$ million, January $+\$ 9$ million, March $\mathbf{-} \$ 2$ million, and June $-\$ 3$ million. See also footnote 9.
7/ Interest on refunds is included in expenditures in Table 3.
8/ The principal amounts for refunds of employment taxes and certain excise taxes (highway) are excluded from the transfers of tax receipts shown herein, and are included with refunds of internal revenue receipts, applicable to trust accounts.
2 Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance. Amounts transferred c rrrently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury ( 42 U.S.C. 401 (a)), and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration.
10/ The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956 (4 U.S.C. 401 (b)). The act appropriated to the trust fund amounts equivalent to specified percentages of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal 0ld-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Disability Insurance Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.
11. Amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tex Act deposited in the Treasury, less refunds, during each fiscal year ( 65 Stat. 222 and 66 Stat. 371) and transfers are made currently.
12) The Employment Security Act of 1960, approved September 13, 1900 ( 42 U.S.C. 1101), established in the Unemployment Trust Fund an administration account, and appropriated for credit to that account, beginning with fiscal 1961, amounts equivalent to taxes collected and deposited under the Federal Unemployment Tax Act. The tax receipts are transferred currently on the basis of estimates by the Secretary of the Treasury, with later adjustments as necessary. From that account are to be paid the administrative expenses of the employment security program. Previously the corresponding amounts were included, respectively, in budget receipts and budget expenditures.
13 The Highway Revenue Act of 1956, as amended, (23 U.S.C. 120, note) established a Highway Trust Fund from which are to be made, as provided by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before October 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. Before fiscal 1957 corresponding excise tax receipts were included in net budget receipts and Federal-aid highway expenditures were included in budget expenditures.
14/ For content, see Table 4. These transactions are included in the detail of both budget receipts and expenditures, but are deducted from the totals (see Reporting Bases, p.II).
15 Figures in this column differ from those published under the same caption prior to the September 1960 Treasury Bulletin because of the exclusion of certain interfund transactions (see footnote 14).
16/ Transfers reduced by $\$ 300$ million to adjust those made earlier on basis of estimates (see footnote 9).
17/ Reflects gross amounts based on reimbursements by trust accounts for refunds of taxes which were made in previous months or fiscal years.

* Less than $\$ 500,000$.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1964 Budget document, released January 17, 196\%, including effects of proposed legislation.
Note: Figures in this table are for agencies as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 6 . Agency shifts are reflected in this table as follows: Beginning 1957, Alaska Road Construction from "Interior Department" to "Comerce Department," and Federal intermediate credit banks and production credit corporations as indicated in footnote 12; beginning 1958, Federal Facilities Corporation (remaining functions) from "Treasury Department" to "General Services Administration," and Informational Media Guaranty Fund from "Funds appropriated to the President" to "Independent agencies"; beginning 1959, Federal Civil Defense Administration from "Independent
agencies" to "Executive Office of the President," Civil Aeronautics Board from "Commerce Department" to "Independent agencies," Civil Aeronautics Administration from "Commerce Department" and Airways Modernization Board from "Independent agencies" to the "Federal Aviation Agency," National Advisory Commission for Aeronautics from "Independent agencies" to "National Aeronautics and Space Administration"; from fiscal 1960 through November 1962, military assistance from "Funds appropriated to the President" to "Defense Department, military," and thereafter under "Funds appropriated to the President" and beginning 1962, subscriptions to international institutions from "Treesury Department" to "Funds appropriated to the President."
1/ Consists of net expenditures of the Postal Fund, reflecting the change in classification of Post Office transactions to a public enterprise revolving fund basis, and beginning fiscal 1960 payment for public services.
Remaining footnotes on following page.

Table 4.- Interfund Transactions Excluded from Both Net Budget Receipts and Budget Expenditures
(In millions of dollars)

## Footnoter to Table 3.- (Continued)

2/ Beginning 1957, Federal aid for highways is excluded from budget expenditures and included in trust account expenditures (see Table 1).
3) Adjusted for reclassification.

4/ Beginning with fiscal 1961, administrative expenses of the employment security program are handled as trust account expenditures rather than budget expenditures, pursuant to the Employment Security Act of 1960 , approved September 13, 1960 (42 U.S.C. 1101); see Table 1, footnote 12.
5) Reported on an accrual basis effeetive June 30, 1955.

Includes Reconstruction Finance Corporation except beginning July 1, 1954, certain functions transferred: Under Reorganization Plan No. 2 of 1954 ( 15 U.S.C. 609, note) to the Export-Import Bank, the Federal National Mortgage Association, and the Small Busineas Administration; and under Executive Order 10539, as amended, (15 U.S.C. 603, note) to the General Services Administration. The corporation was abolished at the close of June 30, 1957, by Reorganization Plan No. 1 of 1957, and its remalning functions were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Administrator of Small Business Administration, and Secretary of the Treasury.
7 Established pursuant to the Federal Aviation Act of 1958 (49 U.S.C. 1341 (a)), approved August 23, 1958.
8) Established pursuant to the National Aeronautics and Space Act of 1958 ( 42 U.S.C. 2472 (a)), approved July 29, 1958.
2) Consists of Federal payment and loans and advances.

10 For content, see Table 4. These transactions are included in the
detail of both budget receipts and budget expenditures, but are deducted from the totals (see Reporting Bases, p. II).
11. Figures in this colum differ from those published under the same caption prior to the September 1960 Treasury Bulletin because of the exclusion of certain interfund transactions (see footnote 10).
12) Effective January 1, 1957, the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956, approved July 26, 1956 (12 U.S.C. 1027), and operations of the merged agencies (as mixed-ownership corporations) were classified as trust enterprise funds (see "Trust Account and Other Transactions," Table 3); previously the operations of the banks and the corporations, respectively, were classified as public enterprise funds and were included net in budget expenditures.
13 Includes $\$ 1,375$ million paid to the International Monetary Fund for the additional United States subscription, authorized by an act approved June 17, 1959, consisting of $\$ 344$ million in gold (see "Monetary Statistics," Table 3) and $\$ 1,031$ million in special notes. The special notes of the United States issued to international institutions are nonnegotiable and noninterest-bearing and are payable on demand. See also "Cash Income and Outgo," Table 5 and "Debt Outstanding," Table 1.
14. Totals include $\$ 175$ million allowance for contingencies and $\$ 200$ million for comparability pay adfustment.

* Less than \$500,000.
p Preliminary.

## Table 5.- Summary of Appropriations and Authorizations, Expenditures, and Balances, by Agencies, as of May 31, 1963

Source: Bureau of Accounts. Details for the current fiscal year to date are shown in Buresu of Accounts report "Budgetary Appropriations and Other Authorizations, Expenditures and Unexpended Balances."
$\frac{1}{2}$ Includes same categories as shown at end of current period.
2/ Although not expended, a substantial portion of these amounts is obligated for outstanding purchasc orders and contracts for equipment and supplies, for payrolls, and for similar items.
3/ Includes reappropriations.
4 Consists of authorization by law for Government-owned enterprises to borrow (1) from the Treasury (to expend from public debt receipts), or (2) from the public (to expend from debt receipts).
5/ Consists of new contract authorizations, established by law for the current fiscal year, net of current appropriations to liquidate either current or prior contract authorizations.
6/ Consists of transfers between appropriations; net borrowings from or
repayments to ( - ), the Treasury and the public under authority to expend from debt receipts; and net investment in, or sale of ( - ), public debt securities and certain guaranteed securities issued by Government enterprises.
7/ Includes Military assistance formerly shown under Defense Department 8 Consists of transfers to, or restorations from ( - ). the surplus fund rescissions, cancellations, or adjustments of borrowing authority and contract authority; capital tranṣfers to miscellaneous receipts; and other adjustments.
9) Public debt securities and certain guaranteed securities issued by Government enterprises.
10. Represents the difference between this report based on accounts submItted by certain disbursing officers and corresponding preliminary data used in the monthly statement of receipts and expenditures of the Government. * Less than $\$ 500,000$. r Revised.

Source: Actual figures are from the monthly statement of receipts and expenditurea of the Government (for explanation of reporting bases, see page II); estimates are from the 1964 Budget document, released January 17, 1963, including effects of proposed legislation.

1. For 1955 through 1961 the security transactions of Government-sponaored enterprises are included in deposit fund account expenditures (net) and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencles in the market (see Table 5).

Beginning 1962 these transactions are included with net investments or sales, and excluded from deposit fund account expenditures.
2/ Certain intertrust fund transactions are excluded from both receipts and expenditures beginning with the July 1961 issue of the Bulletin. For detail see Table 6.
3/ Beginning with the February 1963 Bulletin amounts for refunds of taxes (principal only) have been deducted from receipts, and therefore are excluded from expenditures.
4/ Includes guaranteed securities (see Table 4). p Preliminary.

1) See Table 1, footnote 2.
2) Includes principally District of Columbia receipts from taxes and from Federal contributions, loans, and grants; funds appropriated to the President - mutual security trust funds; Indian tribal funds; increment resulting from reduction in the weight of the gold dollar; and the Railroad Unemployment Insurance Administration Fund through November 1958 (for treatment after November 1958, see Table 10, published quarterly).
3 For content see Table 6. These transactions are included in the detail

## the totals.

4) Excludes certain intertrust fund transactions consisting mainly of financial interchanges between trust funds resulting in receipts and expenditures (see footnote 3).
5. See Table 1, footnote 5.
6) Beginning fiscal 1961, tax receipts under the Federal Unemployment Tax Act are transferred currently to an administration account in the Unemployment Trust Fund pursuant to the Employment Security Act of 1960, approved September 13, 1960 (42 U.S.C. 1101 (b)); see "Budget Receipts and Expenditures," Table 1, footnote 12. p Preliminary.

Table 6. - Intertrust Fund Transactions Excluded from Both Net Trust Account Receipts and Net Trust Account Expenditures

Source: See Table 1.

1) Payments are made between the Railroad Retirement Account and the Federal 0ld-Age and Survivors and Federal Disability Insurance trust funds so as to place those funds in the position in which they would have been if rallroad employment after 1936 had been included under social security coverage.
2/ Includes interest on amounts reimbursed to the Federal 01d-Age and Survivors Insurance Trust Fund for administrative expenses.
3/ Includes temporary advances to the Railroad Unemployment Insurance Account in the Unemployment Trust Fund when the bolance in the
account is insufficient to meet payments of benefits and refunds due or to become due.
4 Repayment of advances plus interest to the Railroad Retirement Account. See footnote 3.
5/ Transfers from the Civil Service Retirement and Disability Fund to the Forelgn Service Retirement and Disability Fund.
6/ Contributions and beginning with 1958, transfers of deductions from employees' salaries to the Civil Service Retirement and Disability Fund.

* Less than $\$ 500,000$. p Preliminary.

The cash income and outgo data appearing in the Treasury Bulletin, beginning with the February 1956 lacue, are on a basia consiatent with recalpta from and paymenta to the public as darivad in the 1957 and aubsaquent Budgets of the United Statea (in the Budget for 1963 in Special Analysia B). Reconcillation to caah depoaita and withdrawals in the account of the Treasurer of the United States 1a shown on the same basia as in the Budget documente. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By theae arrangementa, data in accordance with the Budget claasifications ars made avallable month by month. Flgures for back yeara have been revised where necessary in order to make them as nearly comparable with current Budget claselfioations as avallable data will permit. For this reason certain of the figurea differ somewhat from those publiahed in earlier Budget documents as well as in the Bulletin.

The Bureau of the Budget serlea of cash transactions is dealgned to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not clagred through the Treasurer's account. Receipts and paymenta include transactiona both in budget accounta and in trust and deposit fund acoounts. Operations of Government-sponsored enterprises are included in payments on a net basia as reflected in Treasury reporta. Major intragovemmental trana-
aotions which are reported as both expenditures and receipts ars excluded from both. Noncash itema representing the obligation of the Covernment to make payments in the future also are eliminated from expenditures but are added later when actual paymenta are made. These items consiat of certain interest acorued on the public debt, expenditures involving the lasuance of a few apecial public debt securities, and clearing accounta. Reoolpts from the exercise of monetary authority are excluded as not repreaentine cash recelved from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-aponsored enterpriaes through sales of their own securitiea. It excludes changes in the public rebt which do not represent direct cash borrowing from the public. The net effect of all theae tranactions with the public is reflected in changea in the balance in the Treaaurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer'a account are similar in general concept to those included in the Bureau of the Budget aerlea, but are ilmited in coverage to traneactions which affect the balance in that account. On the other hand, they include recelpts from the exercise of monetary authorlty, which are excluded from recelpts from the public in the Bureau of the Budget aeries.

Table 1.- Summary of Federal Government Cash Transactions with the Public
(In millions of dollars)

Source: Actual figures are based on the monthly statement of receipts and expenditures of the Government and the dally Treasury statement (for explanation of reporting bases, see page II); estimates are from the 1964 Budget document released January 17, 1963, including effects of proposed legislation.

Source: See Table 1. Details of basic receipt figures appear in preceding sections in the Bulletin.
1/ Previously published figures were revised in the September 1960 Bulletin to take account of the deduction of certain interfund transactions from both net budget receipts and budget expenditurea; they were further revised in the July 1961 issue for deductions of certain intertrust fund transactions from both trust account receipta and trust account expenditures (see pp. 2, 5, 10, and 11). Formerly such transactions were included in the intragovermental transactions which were deducted in deriving receipts from and payments to the public.
2/ Revised beginning with the February 1963 Bulletin to include principal amounts of refunds of taxes as deductions from trust account receipts. Previously such amounts were included with trust account expenditures.

3 Treated as noncash refund deductions from receipts when issued and as cash refund deductions when redeemed.
4) Consista of seigniorage and the increment resulting from reduction in the weight of the gold dollar; excluded from receipts from the public but included in cash deposits in the Treasurer's account
5) Figures in this column differ from those published prior to the September 1960 Treasury Bulletin because a few additional items of budget receipts which are also budget expenditures are included in the interfund transactions deducted from budget receipts and budget expenditures (see footnote 1).
6/ Adjusted for reclassification of certain repayments of advances from the general fund.

* Lesa than $\$ 500,000$. p Preliminary. r Revised.

Source: See Table 1. Details of basic expenditure figures appear in preceding sections in the Bulletin.
1/ See Table 2, footnote 1.
2 In this table, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In table 3 under "Trust Account and Other Transactions," these amounts are included with other trust accounts.
3 See Table 2, footnote 2.
4 Net operating expenditures, or receipts ( - ), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 6). To a large extent, these Governmentsponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net incame received from operations to
repayment of borrowing from the public or to investment in Federal securities. On that basis, net expenditures for operations are shown in this table in terms of the combined net of disinvestment in Federal securities and sale of agency obligations in the market. Net receipts from operations are shown in terms of the combined net of investment in Federal securities and redenption of agency obligations in the market.
5) See Table 2, footnote 5.

6/ Previously included under cash withdrawals. See footnote 7.
7) Figures have been revised to exclude transactions of clearing accounts beginning with the February 1963 Bulletin, as shown in the daily Treasury statements beginaing January 2, 1963.
8/ Does not include revolving fund receipts representing acquired securities amounting to $\$ 1,643,070$ (par value).
2) See Table 2, footnote 6.

10 Includes expenditures of Govermment-sponsored enterprises.
p Preliminary. $I$ Revised.

Table 4.- Intragovernmental Transactions Excluded from Both Receipts and Payments

Source: See Table 1.
1/ Includes reimbursements for administrative expenses by the Federal
Old-Age and Survivors and the Federal Disability Insurance trust funds, and beginning 1961, the Unemployment Trust Fund; reimbursements for refunds of employment and certain excise taxes (highway) through fiscal 1960; reimbursement by the District of Columbia; Federal National Mortgage Association for payment of dividends, interest, etc. under secondary market operations; and Federal intermediate credit bank franchise tax and repayment of capital stock to the Treasury after December 1956 and before January 1959.
2) See Table 2, footnote 2.

3 Consists of payment of franchise tax by banks for cooperatives, and also by Federal intermediate credit banks beginning January 1959.
4 Includes relatively small amounts of deductions from salariea paid by trust funds and Government-sponsored enterprises. Begining with fiscal 1958 excludes deductions from salaries of District of Columbia
employees, and beginning with fiscal 1959 excludes voluntary contributions.
5) Consists of payments to employees' retirement funda representing employing agency, Federal Government, and Govermment corporation shares of contributions; payments to the Railroad Retirement Account. (for creditable military service), the Unemployment Trust Fund, veterans' life insurance funds, Judicial Survivors Annuity Fund, trust fund for technical services and other assistance under the agricultural conservation program, and District of Columbia; and awards of Indian Claims Commission.
6/ Figures in this column differ from those previously published because budget receipts which are also budget expenditures, and trust fund receipts which are also trust fund expenditures are no longer included; see Tables 2 and 3.
7) Adjusted for reclassification of certain repayments of advances from the general fund. * Less than $\$ 500,000$. p Preliminary.

Source: See Table 1.
1/ Accrued interest on savings bonds, i.e., the difference between the purchase price and the current redemption value, and the discount on bills at the time of issuance, less interest paid on savings bonds and bills redeemed.
2) Net increase, or decrease (-), in accrued liability except for 1955 which includes the net change in public debt interest checks and coupons.
3/ Treated as noncash expenditures at the time of issuance of the securities and as cash expenditures at the time of their redemptions; net issuance, or redemption (-).
4/ Issued in 1936 in exchange for adjusted service certificates held
by veterans of World War I. The bonds matured in 1945
5) Issued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.
6/ Parts of the United States subscriptions to the International Monetary Fund, the International Development Association, and the Inter-American Development Bank were paid in nonnegotiable noninterestbearing notes of the United States, payable on demand. See "Budget Receipts and Expenditures, "Table 3, footnote 13.
7) Checks outstanding less deposits in transit, and changes in other accounts; net increase, or decrease (-).

* Less than $\$ 500,000$.

Source: See Table 1
1/ In this table, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 3 under "Trust Account and Other Transactions," these amounts are included with other trust accounts.
2/ Does not include investments representing acquired securities amounting to $\$ 1,643,070$ (par value) and donation of securities amounting to $\$ 45,800$ (par value).
3/ Includes \$1,412 million of 2-3/4 percent Treasury bonds of 1960-65 acquired by Treasury in the November 15, 1962 refunding and held in a Treasury suspense account until maturity on December 15, 1962.
4 Accrued discount on savings bonds and bills, which is included in the
principal of the public debt, less interest paid on savings bonds and bills redeemed.
5) Treated as noncash transactions at the time of issuance and as cash transactions at the time of redemption; net issuance, or redemption ( - ).
6/ Excluded from borrowing because the transactions are treated as expenditures in Table 5.
7 Excluded from borrowing because the transactions are treated as deductions from receipts in Table 2.
8/ Market transactions in public debt securities and agency obligations.
9/ Includes balance in the account "Payment for $2-3 / 4$ percent Treasury bonds of 1960-65 called for redemption on December 15, 1962." See footnote 3.

* Less than $\$ 500,000$.
$p$ Preliminary. $r$ Revised.

Source: Actual figures are based on the daily Treasury statement; estimates are from the 1964 Budget document, released January 17, 1963 , including effects of proposed legislation. Figures in the first four columns of this table may differ somewhat from those originally published in the daily Treasury statement because of subsequent reclassification of certain transactions.

1/ Beginning with the February 1963 Bulletin figures have been revised, as shown in daily Treasury statements beginning January 2, 1963, to exclude transactions of clearing accounts.
2/ Previously included under cash withdrawals. See footnote 1.
p Preliminary. r Revised.

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States replects not only budget recelpta and expenditures but also trust, deposit fund, and public debt transactions.

The working oash of the Treasury is held mainly in Treasurer's acoounts with Federal Reserve Banke and branches. As the balances in these accounta become depleted, they are restored by calling in (transferring) funde from the tax and loan accounts with thousands of commercial banks throughout the country.

Depoeits to tax and loan aooounte oocur in the normal course of business under a uniform procedure applicable to all banks whereby customers of banks deposit with them tax payments and funds for the purchase of Government securities. In moat cases the traneaction involve merely the transfer of money from a oustomer's account to the tax and loan aooount in
the same bank. On 000 sione, to the extent authorized by the Treasury, banks are permitted to deposit in these acoounts proceeds from aubscriptions to public debt securities entered for their oin acoount as well as for the account of their outomers.

The tax and loan account oystom permits the Treasury to leave funde in banks and in the commanities in which they arise until such time as the Treasury neede the funde for ite operations. In this way the Treasury 18 able to neutralize the effeot of its fluotuating operations on bank reserves and the economy.

A detalled deecription of the Treasury's depositary aystem may be found in the Annual Report of the Seoretary of the Treasury for 1955. pages 275-284.

Source: Daily Treasury atatement.

1) Includea reserves and othar deposita of the Board of Trustees, Postal Savings Syatem, and uncollected items, exchanges, etc., through December 1962. Effective January 1963 balances of the Postal Savinga System funda were transferred to depoait fund accounts and became demand obligations of the Treasury. Balances of these funds, therefore, are no longer lisbilities within the general account of the Treasurer. Uncollected items, exchanges, etc., also previously ahown as liabilitiea were combined with "Unclassified collectiona, etc." shown under asseta. Post Office Department and postmaters' disbursing sccounts also are included through November 1954. (See footnote 2). Treasurer's checks outstanding are included through June 1958, after which they are included in the bslance in the Treasurer's account. (See footnote 3).
2/ Beginning December 1954, Post Office Department and postmasters'
disbursing accounts are not treated as lisbility accounts of the Treasurer of the United Statea, but are classified and treated aa other disbursing accounta, in accordsnce with the change in method of reporting Post Office transactions (see "Budget Receipts and Expenditurea," Table 3). An adjustment of $\$ 207$ million in the balance in the Treasurer's account (and in the "clesring account") reflects this change.
3/ Through June 1958, the balance of the Treasurer was reduced when TIessurer's checka were issued and the amount of the cheaks was carried aa a liability until paid. Effective July 1958, the balance is not reduced until the checks are paid, s procedure slso applying to checks drawn on the Treasurer by Covernment diaburaing officers to checks draw
and agencies.
4/ Amounts shown, beginning January 1963, are net of uncollected items, exchanges, etc. Previously these items were included under liabilities.

Table 2.- Analysis of Changes in Tax and Loan Account Balances

Source: Office of Fiscal Assistant Secretary; figures are on basis of telegraphic reports.

1) Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of U.S. Government obligations purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.
2) Taxes eligible for credit consist of those deposited by taxpayers in
the depositary banks, as follows: Withheld income tax beginning
March 1948; taxes on employers and employees under the Federal

Insurance Contributions Act beginning Jenuary 1950, and under the Railroad Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.
3/ Under a special procedure begun in March 1951, authorization may be given for income tax payments, or a portion of them, made by checks of $\$ 10,000$ or more drawn on a special depositary bank, to be credited to the tax and loan acce unt in that bank. This procedure is
followed during some of the quarterly periods of heavy tax payments.

* Less than $\$ 500,000$.

Source: On the basis of the daily Treasury statement.
Note: The computed annual interest charge represents the amount of interest
that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date (the amount actually borrowed in the case of gecurities sold at a premium or discount, beginning with May 1960). The aggregate charge for all interest-bearing issues constitutes the total computed annual interest ohsrge. The average annual interest rate is computed by dividing the computed annual interest charge for the total, or for any group of issues, by the corresponding principal

3/ Included in debt outatanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.
4/ On United States savinga bonds the rate to maturity is applied against the amount outstanding.

Source: Based on subscription and allotment reports. For detail of offerings see Table 4 .
I) Excludes $1-1 / 2 \%$ Treasury notes issued in exchange to holders of nonmarketable 2-3/4\% Treasury bonds, Investment Series B-1975-80.
2. Includes trust companies and stock savings banks.

3 Includes partnerships and personal trust accounts.
4. Exclusive of banks and insurance companies.

5 Consists of trust, sinking, and investment funds of State and local governments and their agencies.
6/ Includes sevings and loan associations, nonprofit institutions, and investments of foreign balances and international accounts in this country.
7) Tax anticipation security.
8. Issued as a rollover of bills maturing January 16, 1957, and February 15, 1957, respectively.
2 Reopening of earlier issue.
$10 /$ Issued in special allotment to Covernment investment accounts. Issued as a rollover of one-year bills.
Offerings of these securities, subject to allotments; were made for the purpose of paying off maturing securities in cash. Holders of the maturing securities were not offered preemptive rights to exchange their holdings but were pernitted to present them in payment or exchenge, in whole or in part, for the new issues.
13) Offerings consist of an additional $\$ 100$ million each of outstanding weekly bills issued in "strip" form; 18 series were included in the June 14, 1961 offering; 8 series in the November 15, 1961 offering; and 10 series in the November 15, 1962 offering.
14 Sold at competitive bidding with allotment distribution based on sales reported by syndicate members.

* Less than $\$ 500,000$.

## Footnotes to Table 6

Source: Bureau of the Public Debt. Preliminary figures are from subscription and allotment reports; final figures are on "clearance basis" in daily Treasury statement.
1 Original call and maturity dates are used.
2) All by investors Other than Federal Reserve Banks.

3 Two issues of bills, maturing January 16, 1957, and February 15, 1957 respectively, were rolled over into two issues of tax anticipation bills, both maturing June 24, 1957.
4) Tax anticipation issue; for detail of offerings beginning 1957, see Table 4; for amounts redeemed for taxes and for cash see "Note" below.
5/ During June and July 1958, \$491 million of the 2-5/8\% Treasury bonds of 1965 was purchased by the Treasury for retirement under section 19 of the Second Liberty Bond Act, as amended ( 31 U.S.C. 754a)
6. Called on Nay 14, 1958, for redemption on September 15, 1958.

7 Represents amount which owners exercised the option to redeen on August 1, 1959 (see Table 4, footnote 9).
8/ Holders of the $4 \%$ notes, who had the option to redeem at par on February 15, 1960, by giving notice not later than November 16, 1959, were permitted to exchange their holdings on November 15, 1959, for the $4-7 / 8 \%$ notes.
9/ Rolled over into a one-year bill (see Table 4).
10 Amount which owners exercised the option to redeem on February 15 , 1960 (see Table 4, footnote 11).
11. Advance refunding offering. Pursuant to the provisions of section 1037 (a) of the Internal Mevenue Code of 1954 as added by Public Law 86-346, approved September 22, 1959, the Secretary of the Treasury has declared that no gain or loss shall be recognized for Federal income tax purposes upon the exchange of the eligible outstanding securities solely for the new securities. For tax purposes, therefore, the investor will carry the new securities on his books at the same amount as he had been carrying the eligible securities exchanged. Gain or loss, if any, upon the obligations surrendered in exchange will be taken into account upon the disposition or redemption of the new obligations.
12) Holders of 2-1/2\% Treasury bonds maturing November 15, 1961, were offered the option to exchange the bonds during the period from June 8, 1960, to June 13, 1960, inclusive, subject to allotment if subscriptions exceeded by 10 percent the offering limits of $\$ 3.5$ billion for the notes and $\$ 1.5$ billion for the bonds
13/ Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in peyment or exchange, in whole or in part, for the $3-1 / 8 \%$ certificates or the $3-7 / 8 \%$ bonds, which were offered in an aggregate of around $\$ 8-3 / 4$ billion. For detail of offering, see Table 4
14. Excess of maturing $4-3 / 4 \%$ Treasury notes over allotments of new securities on subscriptions from holders of those notes (see Table 4, footnotes 32 and 34).
15/ Reopening of an earlier issue.
16/ Holders of $2-1 / 2 \%$ Treasury bonds maturing June 15, 1967, December 15, 1968, June 15, 1969, and December 15, 1969, were offered the option to exchange the bonds during the period from September 12, 1960, to September 20, 1960, inclusive, the first for $3-1 / 2 \%$ bonds of 1980 , the second for $3-1 / 2 \%$ bonds of 1990 , and the other two for $3-1 / 2 \%$ bonds of 1998, subject to allotment if the combined total of subscriptions for the bonds of 1990 and 1998 exceeded an outside limit of $\$ 4.5$ billion.
17. Holders of the maturing certificates were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or excharge, in whole or in part, for the $3-1 / 4 \%$ notes offered in the amount of around $\$ 6.9$ billion. For detail of offering, see Table 4.
18) Excess of maturing 4-7/8\% certificates over allotments of new securities on subscriptions from holders of those certificates (see Table 4, footnotes 39 and 40).

19 From March 20 through March 22, 1961, owners of $2-1 / 4 \%$ bonds of June 15, 1959-62, 2-1/4\% bonds of December 15, 1959-62, 2-5/8\% notes maturing February 15, 1963, and $2-1 / 2 \%$ bonds maturing August 15, 1963, were granted the option of exchanging their holdings. The first three were exchangeable for a new $3-5 / 8 \%$ bond due November 15,1967 , and the last for a new 3-3/8\% bond due November 15, 1966. Exchanges were subject to allotment if subscriptions exceeded $\$ 5$ billion for the bonds of 1967 or $\$ 3$ billion for the bonds of 1966 .
20/ Holders of the maturing certificates and notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the $\$ 5,250$ million offering of $3 \%$ certificates or the $\$ 2,500$ million offering of $3-1 / 4 \%$ notes. For detail of offering, see Table 4. allotments of new securities on subscriptions from holders of those certificates and notes (see Table 4, footnotes 43 and 44). , million were redeemed for cash and $\$ 168$ million Table 4).
23/ Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the $\$ 6,500$ million offering of $3-1 / 2 \%$ certificates, the $\$ 1,500$ million offering of $4 \%$ bonds, or the $\$ 750$ million offering of $4-1 / 4 \%$ bonds. For detail of offering, see Table 4.
24. Excess of maturing $4 \%$ notes and $3-1 / 4 \%$ notes over allotments of new securities on subscriptions from holders of those notes (see Table 4, footnotes 58 and 59).
25 From September 10 through September 12, 1962, owners of securities maturing February 15, 1963 (3-1/2\% certificates, $2-5 / 8 \%$ notes, $3-1 / 4 \%$ notes), and May 15,1963 ( $3-1 / 4 \%$ certificates, $3-1 / 4 \%$ notes, 4\% notes) were granted the option of exchanging their holdings, subject to allotment if subscriptions exceeded the offering limits of $\$ 6$ billion for the notes and $\$ 3$ billion for the bonds.
26/ Called on August 14, 1962, for redemption on December 15, 1962.

Source: Daily Treasury statement; Office of Debt Analysis in the office of the Secretary.
Note: In thege tables sales of Series A-F and J bonds are included at issue price, and redemptions and amounts outstanding at current redemption value. Series G, H, and $K$ are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured $F$ and $G$ bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, and are then transferred to matured debt upon which interest has ceased.
1/ Sales and redemption figures include exchanges of minor amounts of (1) matured Series E bonds for Series G and K bonds from May 1951 through April 1957 and (2) Series $F$ and J bonds for Series $H$ bonds beginning January 1960; however, they exclude exchanges of Series $E$ bonds for Series H bonds, which are reported in Table 3.
2/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the Treasury Bulletin.
3/ Because there is a normal lag in classifying redemptions the distribu tion of redemptions between sales price and accrued discount has been estimated. Beginning with the Treasury Bulletin of March 1961 the method of distributing redemptions between sales price and acerued discount has been changed to reflect the distribution show in final
reports of classifled redemptions. All periods shown have been revised on this basis.
4) Reductions were made in issues and redemptions of Series E, H, F, G, $J$, and K bonds in July 1954 to compensate for the erroneous inclusion of reissue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H, \$17 million for issues of Series F, G, J, and K , and $\$ 35$ million for unclassified retirements.
5/ Series F and G sales were discontinued April 30, 1952, and Series J and K sales were discontinued April 30, 1957. Sales figures after April 30, 1957, represent ad justments.
6/ Includes exchanges of Series 1941 F and $G$ savings bonds for $3-1 / 4 \%$ marketable bonds of 1978-83.
7) Includes exchanges of Series 1948 F and G bonds for $4-3 / 4 \%$ marketable notes of 1964.
8/ Includes exchanges of Series 1949 F and G bonds for $4 \%$ marketable bonds of 1969.
2/ Includes exchanges of Series 1950 F and G bonds for 3-7/8\% marketable bonds of 1968.
10. Includes exchanges of Series 1951 and 1952 F and G bonds for 3-7/8\% marketable bonds of 1971 and $4 \%$ marketable bonds of 1980.
11 Represents changes in the amounts of redemptions not yet classified between matured and unmatured issues. * Less than $\$ 500,000$.

7/ Consists of the inveatments of foreign balances and international accounts in the United Statea.
8 Consists of savings and loan asaociations, nonprofit institutions, corporate pension trust funds, and dealers and brokers.
9) Immediate postwar debt peak. $\quad$ p Preliminary. $\quad \mathbf{r}$ Revised.

The monthly Tressury Survey of Ownership covers securities lesued by the United States Government and by Federal agencies. The banke and inourance companies included in the Survey currently aocount for about 90 percent of all such seourities held by these institutions. The eimilar proportion for corporstions and for eavinge and loan associatione is 50 percent, and for State and local govemmente, 60 percent. Data were first publiehed for banke and ineursnoe companies in the May 1941 Treasury Bulletin, for
corporations and savings and loan associations in the September 1960 Bulletin, and for state and local govemmente in the February 1962 Bulletin.

Holdinge by commercial banke distributed sccording to Federal Reserve member bank classes and nonmember banks are publiehed for June 30 and December 31. Holdinge by corporate pension trust funds are published quarterly, first appearing in the March 1954 Bulletin.

1 Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in the history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.

2/ On callable issues market convention treats the yield to earliest call date as more significant when an issue is selling above par, and maturity when it is selling at par or below.
3/ Included in the average yield of long-term taxable Treasury bonds as shown under "Average Yields of Long-Term Bonds."

Office of the Secrefory of the Treasuly

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of Aas corporate bonds.
1/ Series includes bonds on which the interest income is subject to normal tax and surtax and which are neither due nor callable before a
given number of years as follows: April 1953 to date, 10 yeara; April 1952 - March 1953, 12 years; October 1941 - March 1952, 15 years. For bonds currently in the series, see Table 4 under MMarket Quotations on Treasury Securities" in this issue of the Bulletin.
2/ One or more new long-term bonds added to the average (see footnote 1).
3/ An existing bond dropped from the average (see footnote 1). Change in aeries (see footnote 1).

1/Monthly overages of daily figures. 2/See footnota I to Table lunder "Avarage Yields of Long-Term Bonds."

Source: Circulation Statement of United Statea Money.

1) Excludes money held by the Treasury and money held by or for the account of the Federal Reserve Banks and agents.
2/ The following paper currencies are in process of retirement and are redeemable from the general fund of the Treasury: Gold certificates issued before January 30, 1934, silver certificates issued before July 1, 1929, Treasury notes of 1890 , Federal Reserve notes 1ssued before the series of 1928, Federsl Reaerve Bank notes, and national bank notes, The Treasury notes of 1890 have been in process of retirement bince March 1900 ( 31 U.S.C. 411) upon receipt by the Treasury, the Federal Reserve Bank notea since June 12, 1945 (12 U.S.C. 445 note), and the national bank notes since December 23, 1915 (12 U.S.C. 441). Retirement of the others was authorized by the Old Seriea Currency Ad juatment Act, approved Jure 30, 1961 ( 31 U.S.C. 912-916). The act authorizes the Secretary of the Treasury to determine from time to time the amount of currency of the following types which have been destroyed or lost, and to reduce the amounta thereof on the books of the Treasury: Gold certificates issued before January 30, 1934; ailver certificates, United Statea notes, Federal Reserve Bank
notes, and national bank notes all issued before July 1, 1929; Federal Reserve notes lasued prior to the serles of 1928; and Treasury notes of 1890. Accordingly, the Secretary of the Treasury has determined that the following paper currencies have been destroyed or irretrievably lost and so will never be presented for redemption: On October 20, 1961, \$1 cillion of Treasury notes of 1890; and on Auguat 27, 1962, \$9 million of gold certiricates, \$15 million of silver certificates, \$18 million of Federal Reserve notes, \$1 million of Federsl Reserve Bank notes, and \$15 million of national bank notes.

## 3/ Highest amount to date.

Issued prior to January 30, 1934.
Includes $\$ 15$ million lasued before July 1, 1929.
6/ Includes $\$ 18$ willion issued prior to the serles of 1928.
7) Based on the Bureau of the Census eat imated population. Through fiscal 1958 the estimated population is for the conterminous United Statea (that 1s, exclusive of Alaska, Hawai1, and the outlying areas such as Puerto Rico, Guav, and the Virgin Islands). Beginning with fiscal 1959 the estimates include Alaska, and with fiscal 1960, Hawail. Less than $\$ 500,000$.

1) The authority, purpose, and amount through 1940 of these allocations are summarized in the 1940 Annual Report of the Secretary of the Treasury, pages 128-30.
2) Pursuant to Public Law 85-699, approved August 21, 1958 (72 Stat. 698) the $\$ 111,753,246.03$ unexpended balance of this allocation was covered
into the Treasury as miscellaneous receipts; and the $\$ 27,546,310.97$ which had been advanced to the Federal Reserve Banks under this allocation was repaid into a special fund from which it was appropriated to the Small Business Administration. Under subsequent legislation ( 73 Stat. 209) the unused portion of this appropriation was rescinded and the balance, $\$ 23,653,582.01$, was covered into the Treasury. P Preliminary.

Note: The United States also has certain drawing rights on the International Monetary Fund, in which the United States has a quota of \$4, 125 million. In accordance with Fund policies, these drawing rights include the right to draw virtually automatically an amount equel to the sum of the United States gold subscription to the Fund ( $\$ 1,031.2$ million) and the Fund's net use of dollars; on June 30, 1963, these two amounts totaled $\$ 1,108.7$ million. Under appropriate circumstances the United States could draw an additional amount equal to the United States quote.

1/ Includes gold sold to the United States by the International Monetary Fund with the right of repurchase, the proceeds of which are invested by the Fund In U, S. Goverrment securities; as of June 30, 1963. this awounted to $\$ 800$ million.
2/ Includes gold in Exchange Stabilization Fund, which is not included in Treasury gold figures shown in "Circulation Statement of United States Money." See "Monetary Statistics," Table 3.
3/ Includes holdings of Treasury and Federal Reserve System.
p Preliminary.

Table 2.- U.S. Treasury Nonmarketable Notes and Bonds Issued to Official Institutions of Foreign Countries

Note: For complete information on U. S. Treasury securities (nonmarket-
able) issued to official institutions of foreign countries, see
"Public Debt Operations," Table 7 and 8.

A number of changes in the presentation of the capital movements statistics are introduced in this lasue of the "Treasury Bulletin." Some of these changes reflect recent revialons of the reporting forms and inetructions to meet current conditions and needs. Others are designed to increase the usefulness of the published atatistics.

The reporting forms and instructions used in the collection of the statistics have been revised a number of times. The most recent revision became effective with reports cover1ng data as of May 31, 1963.1/

This revision represents a continuation of a broad program conducted over the past geveral yeara to insure the adequacy of the Treasury capital movements statistics for analysis and policy formulation with reapect to the United States balance of payments and internationel financial position. The changes were developed with the cooperation of other Government agencies and the Federal Reserve System, and in consultation with representative members of the banking community.

These changes are designed primarily to provide certaln data in somewhat greater detall, such as 1 tems which may be expected to show a relatively oignificant degree of responsiveness to interest rates and menetary conditions, and information on the composition of our long-term banking claims on forelgners. The list of areas and countries on the reporting forme has also been revised to reflect current developments.

The summary which follows deacribes the present content of the statistics and the principal changes instituted. Backeround

Data relating to capital movementa between the United States and foreign countrles have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information on the principal types of data and the principal countries is reported monthly, and $1 a$ published monthly in the "Treasury Bulletin." Supplementary information is published less frequently. Reporta are made initially to the Federal Reserve Banka, which forward consolidated flgures to the Treasury. These atatlatics are consolldated by the Treasury and published as promptly as poseible.

Reporting coverage
Reports are flled by banks, bankers, securities brokers and dealers, and nonfinancial business concerns in the United States, including the branches, agencies, subsidiarles, and other affiliates in the United States of foreign firme.

Banks and bankers flle reporta monthly coverine their short-term and long-term liablilties to, and claims on, foreigners. Twice a year, as of April 30 and December 31, they
also report their short-term dollar liabillties to foreigners in countries not shewn separately on the monthly report of llatilities. Banks, bankers, securities brokers and dealers, and, in some instances, nonfinancial concerns, report monthly their transsctions with forelgners in securities on their own account and on behalf of their customers. Every few years, as requested by the Treasury, banks and brokers report their holdinge of U. S. Government bonds and notes for the account of forelgners, to establish a statistical benchmark of such holdings. Quarterly reporta are flled by exporters, $1 \mathrm{~m}-$ porters, industrial and commercial concerns, and other nonplnancial firme covering certain forelign liabilities and clalms which are not held through banks or brokers. The foreign credit and debit balances of securities brokers and dealers are reported emlannually as of June 30 and December 31.

The previous exemption level for reports on banking llablities and clalms, under which banks having total liabilities or total clalms below $\$ 500,000$ have been exempt from reporting, has been modifled silghily, beginning with reporta as of May 31, 1953, to apply the exemption separately to total short-term liablities and total long-term liabllitles and to total short-term claims and total lone-term claime. For all other regular reports, the exemption level is $\$ 100,000$.

## Basic definitions

The term "forelgner" as used in the Treasury reporta covers all institutions and individuals domiciled outelde the United States (defined as the States of the United States, the Diatrict of Columbia, the Commonwealth of fuerto Rico, and American Samoa, the Canal Zone, Guam, Midway Island, Virgin Islands, and Wake Island), Including United States cltizens domiclled abroad and the forelgn subsidiarles and offices of United states banks and businesa concerna; the central governuenta, central banks, and other official institutions of forelgn countries, wherever located; and international and regional organizations, wherever located.

In general, data are reported opposite the porelgn country or geographical area in which the foreigner is dom1clled. Branches or agencies of foreign official institutions are reported opposite the country to which the official institution belongs. International and regional organizations are reported opposite the classification "International," "European regional," or "Latin Ameilcan regional," as appropriate, except for the Bank for International Settlements and the European Fund, which are included in the classification "Other Western Europe."
"Short-term liabillties" and "short-term clalma" are defined as obligations, and claime arlsing under obligationa, payable on demand or having a contractual maturity of one year or less from the date on which the obligation was incurred, without deduction of any offseta.
"Long-term 11abilities" and "long-term claims" are defined as obligationa, and claims arising under obligationa, with a contractual maturity of more than one year after the date on which the obligation was incurred, without deduction of any offsets. Such obligations continue to be reported as "long-term" even when their maturlty dates are one year or less from the reporting date.
"Long-term securlties" are defined as securitiea having no contractual maturity or a maturity of more than one year from the date of 1 sauance, and include rights, warrante and scrip, common and preferred stocks, debentures, bonda and similar obligations, whether publicly or privately offered. The reports cover new lssues of securities, transactions in existing lesues, and redemptions of securities, and include transactions executed in the United States for account of foreigners, and transactions executed abroad for the reporter's account or for the account of customers.

Exclusions
The data published herein do not cover all types of capltal movementa between the Unlted States and foreign countries. The data reported to and published by the Treasury Department exclude entirely the intercompany capital tranaactiona of business enterprises in the United States with their own branches and subsidiarles abroad or with their foreign parent companies; such transactions are reported by business flrms to the Department of Commerce. Data on the capital transactions of the United States Government and on shipmenta and receipta of United States currency are also excluded from the Treasury reports. Certaln capital transactions not effected through reporting institutions, such as securitles tranaactions carried out entirely abroad, are not recorded in the Treasury reporta. Consolidated data on all types of capital tranaactions are published by the Department of Commerce in $1 t s$ regular reports on the United states balance of payments.

The liabilities data exclude nonnegotiable, noninterestbearing special notes of the United States held by the InterAmerican Development Bank and the International Dovelopment Association.

The securitiea transactions data exclude nonmarketable U. S. Treasury notes, forelgn serlaa, and nonmarketable U. S. Treasury bonds, foreign currency serles (see "International Financial Statistics" section, Table 2).

Contingent liabilities and contingent claima, or unutilized credits, even if such credita represent firm commitments, are not included in the Treasury reporta.

Geographical clasalfication
A number of changes in geographical classification are introduced in this issue. To provide more useful area groupings, there are added subheadings under "Europe" for "Other Weatern Europe" and "Other Eastern Europe," and under "Latin Amerlca" for "Other Latin Amerlcan Republica," and a separate category for "Aprica." In certaln tables, whare perti-
nent, separate data are shown under the heading "International and regional" for European regional organizations (except the Bank for International Settlements and the European Fund, which are included in "Other Western Europe"), for Latin American ragional organizations, and for international organizations. Several countrias have been deleted from the monthly series, and others have been added, on the basis of a reexamination of the magnitudea of the data reported for individual countries. To the extent possible, the statistics for earlier dates have been revised in accordance with the reviaed classliflcation.

## Presentation of statiatics

Data collected monthly on the Treasury Foreign Exchange Forms are pubilshed in the "Treasury Bulletin" in three sections. A fourth section contains supplementary data which are published less frequently.

Section I comprises four tables which provide a summary of the principal data by periods. Thase tablea present yearly data over a long perlod. Beginning with this isaue, they also contain cumulative totala, where relevant, for the current year, and a l3-month cycle of the latest avallable monthly data. Table 1 , showing net movements of banking funds and transactions in long-term eecurities with foreigners, is reviaed to include changea in long-term banking funda and to show separately tranaactions in U. S. Government bonds and notes and in other domestic securities. Table 2, which aummarizes outstanding banking liabilities and claims, is enlarged to include long-term liabilities and claise and to ahow additional breakdowns of short-term liabilities and claims. Table 3, on transactions in long-term domestic securities by forelgners, ia revised to present separate data on net purchases of U. S. Government bonda and notea by interrational and regional organizations and, beginning with May 1963 data, by official institutions of foreign countries. Table 4, covering transactions in long-term foreign securities by foreigners, ia unchanged.

Section II, which provides data by country and by pariod, has been enlarged to include elght tables, instead of four as heretofore. Data are shown for the most recent four years and uaually for the most recent $a 1 x$ months; beginning with this isaue, cumulative totals for the current year also are shown where relevant. Tables 1 and 2 present statlstics on outatanding short-term banking liabilitiea and claims. A new Tabla 3 is introduced ahowing data on outatanding long-term banking clalma. Tablea 4 through 8 , which replace the two former tables on net transactions in long-term domestic aecurities and foreign securities, now show separate data on net transactions in U. S. Government bonds and notes, other domestic bonds, domestic stocks, foreign bonds, and foreign stocks.

Section III provides, as of the latest date for which data are avallable, preliminary detalled breakdowns, by country and type of item, of outatanding short-term banking

11abilities (Table 1), short-term banking claime (Table 2), and long-term banking liabilities and claims (new Table 3), and of transactions in long-term securities (Table 4). Table 2 now includes breakdowns, not previously avallable, of the types of short-term banking claims on foreigners. Table 3 shows for tne first time the composition of long-term banking clalme on forelgners.

Section IV presents supplementary data in five tables which appear less frequently than monthly. None of these supplementary tables, however, appear in this 1ssue. Table 1 , short-term foreign liabilities and claims reported by nonfinancial concerns, is puclished quarteriy in the February, May, August, and November issues of the Bulletin. Former Table 2, long-term banking liabilities and claime, has been eliminated from this section because monthly data are now included in Sections I throurt. III. Table 2 (formerly Table 3), estimated gold reserves and dollar holdinge of forolgn countries and international institutions, is published quarterly

In tre March, June, September, and December 18日ues. Table 3 (formerly Table 4), foreign credit and debit balances in brokerage accounts, appears semiannually in the March and September lasues. Table 4 (formerly Table 5), short-term liabllities to forelgners in countries and areas not regularly reported separately by banking institutions, has been presented annually in the March iscue, but henceforth will be published twice a year. Table 5 (formerly Table 6), purchases and sales of long-term securitiea by foreigners during the preceding calendar year, now appears annually in the April 1 ssue.

With reapect to all tables presented, attention 18 called to the fact that not all breakdowns previously publisheo will be exactly comparable to those now presented. Although an attempt has been made to revise past flgures to put them on a comparable basis with current data, caution should be exercised in using past series in conjunction with those now shown.
