## Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based lergely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Recelpts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States Money." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other receipt and expenditure data clascified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have provided comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found In the April 1954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is compiled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as. compiled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Recelpte of taxes and customs duties are reported on a collections basis. Other receipts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Intereat on the public debt is included on an accrual basis beginning with figures for June 1955 and the f1scal year 1955. Prior to that, $1 t$ was included on a due and payable basis. The same reporting basis as that In the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expend-

1tures and Balances of the United States Government" and for actual receipts and expenditures in the "Budget of the United States Government."

Beginning with the final statement for the fiscal year 1960, the monthly $6 t a t e m e n t ~ r e p o r t s ~ t o t a l s ~ f o r ~ n e t ~, ~$ budget recelpts and budget expenditures after deduction of certain interfund transactions which are included in the detall of both budget receipts and budget expenditures. The transactions deducted consist of interest payments and minor amounts of certain other payments made by Government agencies to the Treasury. This reporting change was made in accordance with the plan stated in the President's Budget Message of January 18,1960 . It does not affect the surplus or deficit. Figures for sarlier periods shown in the Treas-i ury Bulletin were revised to the new reporting basis in the geptember 1960 1ssue. The interfund transactions deducted under this procedure do not include payments to the Treasury by wholly owned Government corporations for retirement of their capital stock and for disposition of earninge. These capital transfers have been excluded currently from budget receipts and budget expenditures beginning July 1 , 1948, and figures for prior fiscal years back through 1932 were revised accordingly at that time.

The daily statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction 16 made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classiflcations shown are reported on the basis of mailed reports of checks issued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmenta] transactions are excluded. The public debt figures in the daily statement also are on a "clearance" basis, with the exception of those 18 suance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The daily atatement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month dails statement with respect to debt issuance, retirement, and amount outstanding. Receipts and sxpenditures, however, were classifled by type of account, and the budget results shown-

## Reporting Bases - (Continued)

In the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Reoelpts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the the Treasurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Dopartment's Division of Disbursement were on the basis of checks issued, while certain others, princlpally those of the Department of Defense and its predecessor organizations, were on the basis of checks pald. Transactions han-
dled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is 1ssued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

## Treasury Financing Operations

## One-Year Bills

Tenders totaling $\$ 2,794$ million were received for the November 27 cash offering of $\$ 1.0$ billion, or thereabouts, of 363-day Treasury bills. Acceptances of tenders at the average bank discount rate of 3.590 percent totaled $\$ 1,005$ million. They insluded $\$ 160$ million of noncompetitive tenders for $\$ 200,000$ or less (without stated price) from any one bidder at the average price of accepted competitive bids. The of fering had been announced on November 21.

The bills are dated December 3, 1963, and will mature November 30, 1964, when the face amount will be payable without interest. Issued in bearer form only, the bills are in denominations of $\$ 1,000, \$ 5,000, \$ 10,000, \$ 50,000, \$ 100,000$, $\$ 500,000$, and $\$ 1,000,000$ (maturity value).

Tenders were received without deposit from incorporated banks and trust companies, and from responsible and recognized dealers in investment securities; and from others, with payment of 2 percent of the face amount of the bills applied for, or an express guaranty of payment by an incorporated bank or trust company. Payment of accepted tenders at the prices offered was required to be completed in cash or other immediately available funds on December 3, 1963. Any qualified depositary, however, was permitted to make payment by credit in its Treasury tax and loan account for 50 percent of the amount of bills allotted to it for itself and its customers up to the amount for which it was qualified in excess of existing deposits.

All bidders were required to agree not to purchase or to sell, or to make any agreements with respect to the purchase, sale, or other disposition of any of the bills of this issue at a specific rate or price, until after one-thirty p.m., eastern standard time, November 27, 1963.
13-Week and 26-Week Bills
New issues of regular weekly Treasury bills in November
totaled $\$ 8.2$ billion and weekly maturities totaled $\$ 8.4$ billion. Of the 91 -day bills, those issued November 7 and 14 , for \$1.3 billion each, refunded equivalent maturities; the 91-day bill issued November 21 refunded all but $\$ 0.1$ billion maturing, as did the 90 -day bill of November 29. The four 26 -week issues of $\$ 0.8$ billion each refunded equivalent amounts maturing, and all except that dated November 29 (181-day) carried 182-day terms. Average rates of discount on the new issues are shown in the table following.

1/ Bank discount basis. Foreign Series and Foreign Currency Series

November issues by the Treasury of the foreign series securities consisted of seven certificates of indebtedness totaling \$105 million. There were no new issues of the foreign currency series during the month. As of November 30, there were $\$ 32$ million in foreign series and $\$ 735$ million of foreign currency series outstanding.

Interest rates on the new certificates were 2.75 percent on the 1-1/2-month issue, 2.00 percent on two of the 3 -month issues and 3.55 percent on the other four 3-month issues.

Source: Actual figures through the fiscal year 1952 and the calendar year 1953 are from the daily Treasury statement, and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1964 Budget document, released January 17, 1963, including effects of proposed legislation. More detail for data on this page will be found in succeeding tables.
1/ Fiscal year figures beginning with the September 1960 issue of the Treasury Bulletin, and calendar year figures beginning with the June 1961 issue exclude certain interfund transections from both net budget receipts and budget expenditures (see page II, 2, and 5). Figures previously published for these series have been revised to the new reporting basis. The change does not affect the budget surplus or deficit.
2/ Excess of receipts, or expenditures (-). For detail, see pages 11-15. For checks outstanding and telegraphic reports from Federal Reserve banks; public debt interest accrued and unpaid beginning with June
and the fiscal year 1955 (previously included from November 1949 as interest checks and coupons outstanding); also deposits in transit and changes in cash held outside the Treasury and in certain other accounts beginning with the fiscal year 1954. Net increase, or decrease (-).
4/ For current month detail and list of acts, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: \$275 billion on June 26, 1946; \$281 billion on August 28, 1954; \$278 billion on July 1,1956; \$275 billion on July 1, 1957; $\$ 280$ billion on February 26, 1958; $\$ 288$ billion on September 2, 1958; \$290 billion on Jure 30, 1959; \$295 billion on July 1, 1959; $\$ 293$ billion on July 1, 1960; $\$ 298$ billion on July 1, 1961; $\$ 300$ billion on March 13, 1962; $\$ 308$ billion on July 1, 1962; $\$ 305$ billion on April 1, 1963; and $\$ 307$ billion on May 29, 1963. Under the acts approved July 1, 1962, May 29, 1963, and August 27, 1963, the limitation is $\$ 309$ billion from July 1 through November 30, 1963.

expenditures of the Government (for explanation of reporting bases see page II); estimates are from the 1964 Budget document, released January 17, 1963, including effects of proposed legislation.
1/ The distribution of receipts between individual income taxes and oldage and disability insurance taxes is made in accordance with provisions of Sec. 201 of the Social Security Act, as amended ( 42 U.S.C. 401), for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 9), and also for transfer to the Federal Disability Insurance Irust Fund (see footnote 10).
2) Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 3101-3125), and tax on selfemployed individuals under the Self-Employment Contributions Act, as
amended (26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, approved August 1, 1956, increased the rates of tax applicable to wages paid and taxable years beginning after December 31, 1956, to provide for disability insurance.
3) Taxes on carriers and their employees under the Railroad Retirement Tax Act, as amended ( 26 U.S.C. 3201-3233).
4 Tax on employers of 4 or more under the Federal Unemployment Tax Act, as amended ( 26 U.S.C. $3301-3308$ ) ; with respect to services performed before January 1, 1956, the tax was imposed on employers of 8 or more.
2) Beginning 1957, includes collections under increased rates in the Highway Revenue Act of 1956 (see footnote 13).

Table 2.- Detail of Miscellaneous Receipts by Major Categories

Source: Actual figures through 1961 are from reports to the Treasury Department by disbursing officers and administrative agencies, on the monthly statement reporting basis (see page II); and from the monthly statement of receipts and expenditures thereafter. Estimates are from the 1964 Budget document, released January 17, 1963, including effect of proposed legislation.
1/ Consists of miscellaneous taxes (principally the tonnage tax on
foreign vessels entering $U$. S. ports), bullion charges, and gifts and contributions.
2/ Includes $\$ 375$ million for repayment of advances from Federal extended compensation account (Temporary Extended Unemployment Compensation Act of 1961 , approved March 24,1961 ) and a decrease of $\$ 93$ million for transfer of receipts to Commodity Credit Corporation fund.

* Less than $\$ 500,000$.

## Footnotes to Table 1-(Continued)

6/ Includes adjustments as follows for: Income taxes not withheld, January -\$4 million, March $-\$ 2$ million, June $+\$ 58$ million, and September - \$3 million; income taxes withheld, January - $\$ 67$ million, March $-\$ 14$ million, June $-\$ 8$ million, and September $+\$ 8$ million; transfers to Federal Old-Age and Survivors Insurance Trust Fund, January +\$62 million, March $+\$ 19$ million, June $-\$ 47$ million, and September $-\$ 10 \mathrm{mil}-$ lion; and transfers to Federal Disability Insurance Trist Fund, January +\$9 million, March - \$2 million, June -\$3 million, and September +\$5 million. See also footnote 9.
7) Interest on refunds is included in expenditures in Table 3.

8/ The principal amounts for refunds of employment taxes and certain excise taxes (highway) art excluded from the transfers of tax receipts shown herein, and are included with refunds of internal revenue receipts, applicable to trust accounts.
9 Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance. Amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury ( 42 U.S.C. 401 (a)), and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration.
10/ The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956 ( 42 U.S.C. 401 (b)). The act appropriated to the trust fund amounts equivalent to specified percentages of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Disability Insurance Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.
11. Amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited
in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and to Stat. 371) and transfers are made currently.
12. The Employment Security Act of 1960, approved September 13, 1960 ( 42 U.S.C. 1101), established in the Unemployment Trust Fund an administration account, and appropriated for credit to that account, beginning with fiscal 1961, amounts equivalent to taxes collected and depusited under the Federal Unemployment Tax Act. The tax reciipts are transferred currently on the basis of estimates by the Secretary of the Treasury, with later adjustments as necessary. From that account are to be paid the administrative expenses of the employment security program. Previously the corresponding amounts were included, respectively, in budget receipts and budget expenditures.
13 The Highway Revenue Act of 1956 , as amended, ( 23 U.S.C. 120 , note) established a Highway Trust Fund from which are to be made, as provided by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before October 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the tmust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. Before fiscal 1957 corresponding excise tax receipts were included in net budget receipts and Federal-aid highway expenditures were included in budget expenditures.
14 For content, see Table 4. These transactions are included in the
1 detail of both budget receipts and expenditures but are deducted from the totals (see Reporting Bases, p. II).
15. Figures in this column differ from those published under the same caption prior to the September 1960 Treasury Bulletin because of the exclusion of certain interfund transsctions (see footnote 14).

* Less than $\$ 500,000$.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1964 Budget document, released January 17, 1963, including effects of proposed legislatior.
Note: Figures in this table are for agencies as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 6. Agency shifts are reflected in this table as follows: Beginning 1957, Alaska Road Constructior: from "Interior Department" to "Cormerce Department," and Federal intermediate credit banks and production credit corporations as indicated in footnote 12; beginning 1958, Federal Facilities Corporation (remaining functions) from "Treasury Department" to "Ceneral Services Administration, " and Informational Media Guaranty Fund from "Funds appropriated to the President" to "Independent agencies"; beginning 1959, Federal Civil Defense Administration from "Indepencent
agencies" to "Executive Office of the President," Civil Aeronautics Board from "Comerce Department" to "Independent agencies," Civil Aeronautics Administration from "Commerce Department" and Airways Modernization Board from "Independent agencies" to the "Federal Aviation Agency," National Advisory Commission for Aeronautics from "Independent agencies" to "National Aeronautics and Space Administration"; from fiscal 1960 through November 1962, military assistance from "Funds appropriated to the President" to "Defense Department, military," and thereafter under "Funds appropriated to the President"; and beginning 1962, subscriptions to international institutions from "Treasury Department" to "Funds appropriated to the President."

1) Consists of net expenditures of the Postal Fund, reflecting the change in classification of Post Office transactions to a public enterprise revolving fund basis, and beginning fiscal 1960 payment for public services.

## Footnoter to Table 3.- (Continued)

2) Beginning 1957, Federal aid for highways is excluded from budget expenditures and included in trust account expenditures (see Table 1).
3) Adjusted for reclassification.
i Beginning with fiscal 1961, administrative expenses of the employment security program are handled as trust account expenditures rather than Budget expenditures, pursuant to the Employment Security Act of 1960, approved September 13, 1960 (42 U. S.C. 1101); see Table 1, footnote 12.
Reported on an accrual basis effective June 30, 1955.
6/ Includes Reconstruction Finance Corporation except beginning July 1 , 1954, certain functions transferred: Under Reorganization Plan No. of 1954 ( 15 U.S.C. 609 , note) to the Export-Import Bank, the Federal National Mortgage Association, and the Small Business Administration; and under Executive Order 10539, as amended, ( 15 U.S.C. 603, note) to the General Services Administration. The corporation was abolished at the close of June 30, 1957, by Reorganization Plan No. 1 of 1957, and its remaining functions were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Administrator of Small Business Administration, and Secretary of the Treasury.
4) Established pursuant to the Federal Aviation Act of 1958 (49 U.S.C 1341 (a)), approved August 23, 1958.

Table 6.- Interfund Transactions Excluded from Both Net Trust Account Receipts and Net Trust Account Expenditures

Payments are made between the Railroad Retirement Account and the
Federal Old-Age and Survivors and Federal Disability Insurance trust funds so as to place those funds in the position in which they would have been if railroad employment after 1936 had been included under social security coverage.
2) Includes interest on amounts reimbursed to the Federal 01d-Age and Survivors Insurance Trust Fund for administrative expenses.
3 Includes temporary advances to the Railroad Unemployement Insurance Account in the Jnemployment Trust Fund when the balance in the
account is insufficient to meet payments of benefits and refunds due or to become due.
4) Repayment of advances plus interest to the Railroad Retirement Account. See footnote 3.
5) Transfers from the Civil Service Retirement and Disability Fund to the Foreign Service Retirement and Disability Fund.
6/ Contributions and beginning with 1958, transfers of deductions from employees' salaries to the Civil Service Retirement and Disability Fund.
Less than \$500,000.

The caah income and outgo data appearing in the Treasury Bulletin, beginning with the February 2956 1asue, are on a basia consiatent with recelota from and payments to the public as derivad in the 1957 and aubsaquent Budgeto of the United Statea (in the Budget for 1963 in Special Analyais B). Reconciliation to cash depoaits and withdrawale in the account of the Treasurer of the United Statas 18 chown on the same basia as in the Budget documento. There is also shown the amount of net caah borrowing from, or repayment of borrowing to, the public. By these arrangementa, data in accordance with the Budget clasalfications are made avallable month by month. Figure for back years have been revised where necasaary in order to make them as nearly comparable with current Budget claseifioationa as avallable data will permit. For this reason certaln of the figurea differ somewhat from those publiahed in earlier Budget documenta as well as in the Bulletin.

The Bureau of the Budget series of cash transactione is deaigned to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includea transactiona not cleared through the Treasurer'a account. Reoeipts and payments include transactiona both in budget accounts and in trust and deposit fund accour-is. Operations of Government-eponsored enterprises are included in payments on a net basia as reFlected in Treasury reporta. Major intragovernmental trana-
actions which are reported as both expenditures and receipte are excluded from both. Noncash items representing the obligation of the Govarnment to make payments in the future also are eliminated from expendituree but are added later when acturl paymenta are made. These items consist of certain intereat acorued on the public debt, expenditures involving the lesuance of a few special public debt securitiea, and clearing accounta. Reoelpts from the exercise of monetary authority are excluded as not representing cash recelved from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agenciea and Government-aponaored enterprisea through sales of their own eecurities. It excludes chenges in the public debt whicb do not represent direct cash borrowing from the public. The net effect of all these transactions with the public ia reflected in changes in the balance in the Treasurer's account and in cash held outaide the Treasury.

Cash transactions through the Treasurer's account are aimilar in general concopt to those included in the Bureau of the Budget seriea, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from recelpts from the public in the Bureau of the Budget aeries.

1964 to date.................... mates are from the 1964 Budget document, released January 17, 1963 , mates are irom the 1904 budget legislation. Figures in the first four colums of this table may differ somewhat from those originally published in the daily Treasury statement because of subsequent reclassi-
fication of certain transactions.

1/ Beginning with the February 1963 Bulletin figures have been revised, as shown in daily Treasury statements beginning January 2, 1963, to exclude transactions of clearing accounts.
2/ Previously included under cash withdrawals. See footnote 1 .

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United states replects nct only budget recelpts and expenditures but also trust, deposit fund, and public debt transactions.

The working cash of the Traasury is held mainly in Tressurer'a accounts with Federal Reserve Banks and branches. As the balances in these accounts become depleted, they are restored by calling in (transferring) funds from the tax and loan accounts with thousands of commercial banks throughout the country.

Depoeitu to tax and loan accounts occur in the normal course of businees under a uniform procedure applicable to all banks whereby customers of banks deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involvas merely the transfer of money from a customer's account to the tax and loan aocount in
the same bank. On occasions, to the extent authorlzed by the Troasury, banks are permitted to deposit in these accounts procesds from subscriptions to public aebt securities entered for their own account as well as for the account of their customers.

The tax and loan account systsm permits the Treasury to leave funds in banks and in the communities in which they arlse until such time as the Trasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of 1 ts iluctuating operations on bank reserves and the economy.

A detalled description of the Treasury's depositary system may bo found in the Annual Report of the Seoretary of the Treasury for 1955, pages 275-284.

Effective January 1963 balances of the Postal Savings System funds were transferred to deposit fund accounts and became demand obligations of the Treasury. Balances of these funds, therefore, are no longer liabilities within the general account of the Treasurer. Uncollected items, exchanges, etc., also previously shown as liabilities were combined with "Unclassified collections, etc." shown under assets. Treasurer's checks outstanding are included |  |  |  |  |  | through June 1958, after which they are incluced in the balance in the Treasurer's account. (See footnote 2). <br> Through June 1958, the balance of the Treasurer was reduced when Treasurer's checks were issued and the amount of the checks was carried as a liability until paid. Effective July 1958, the balance is not reduced until the checks are paid, a procedure also applying to checks drawn on the Treasurer by Government disbursing officers and agencies. <br> Amounts show, beginning January 1963, are net of uncollected items, exchanges, etc. Previously these items were included under liabilities. |  |  |  |  |  |

1) Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of U. S. Government obligations purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.
2) Taxes eligible for credit consist of those deposited by taxpayers in the depositary banks, as follows: Withheld income tax beginning

March 1948; taxes on employers and amployees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirament Tax Act beginning July 195l; and a number of excise taxes beginning July 1953.
3/ Under a special procedure begun in March 1951, authorization may be given for income tax payments, or a portion of them, made by checks of $\$ 10,000$ or more drawn on a special depositary bank, to be credited to the tax and loan account in that bank. This procedure is
followed during soma of the quarterly periods of heavy tax payments.

[^1]the total, or for any group of issues, by the corresponding principal amount. Beginning with data for December 31, 1958, the computation is based on the rate of effective yield for issues sold at premium or discount. Prior to that date it was based on the coupon rate for all issues.
1/ Guaranteed securities included are those held outside the Treasury.
Total includes "Other bonds" through 1960 ; see Table 3.
3 Included in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.
On United States savings bonds the rate to maturity is applied against the amount autstanding.

1) Original call and maturity dates are used

2/ All by investors other than Federal Reserve Banks.
3 Two issues of bills, maturing January 16, 1957, and February 15, 1957 respectively, were rolled over into two issues of tax anticipation bills, both maturing June 24, 1957.
4) Tax anticipation issue; for detail of offerings beginning 1957, see Table 4; for amounts redeemed for taxes and for cash see "Note" below.
5) During June and July 1958, \$491 million of the 2-5/8\% Treasury bonds of 1965 was purchased by the Treasury for retirement under section 19 of the Second Liberty Bond Act, as amended ( 31 U.S.C. 754a)
6) Called on May 14, 1958, for redemption on Septerber 15, 1958.
I) Represents amount which owners exercised the option to redeem on August 1, 1959 (see Table 4, footnote 9).
8) Holders of the $4 \%$ notes, who had the option to redeem at par on February 15, 1960, by giving notice not later than November 16, 1959, were permitted to exchange their holdings on November 15, 1959, for the $4-7 / 8 \%$ notes.
I) Rolled over into a one-year bill (see Table 4)

10 Amount which owners exercised the option to redeem on February 15, 1960 (see Table 4, footnote 11).
11) Advance refunding offering. Pursuant to the provisions of section 1037 (a) of the Internal Revenue Code of 1954 as added by Public Law 86-346, approved September 22, 1959, the Secretary of the Treasury has declared that no gain or loss shall be recognized for Federal income tax purposes upon the exchange of the eligible outstanding securities solely for the new securities. For tax purposes, therefore, the investor will carry the new securities on his books at the same amount as he had been carrying the eligible securities exchanged. Gain or loss, if any, upon the obligations surrendered in exchange
will be taken into account upon the disposition or redemption of the new obligations. See also Table 5.
12 Holders of $2-1 / 2 \%$ Treasury bonds maturing November 15, 1961, were offered the option to exchange the bonds during the period from June 8, 1960, to June 13, 1960, inclusive, subject to allo fment if subscriptions exceeded by 10 percent the offering limits of $\$ 3.5$ billion for the notes and $\$ 1.5$ billion for the bonds.
13 Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the $3-1 / 8 \%$ certificates or the $3-7 / 8 \%$ bonds, which were offered in an aggregate of around ;\$8-3/4 billion. For detail of offering, see Table 4 .
14 Excess of maturing $4-3 / 4 \%$ Treasury notes over allotments of new securities on subscriptions from holders of those notes (see Table 4 , footnotes 32 and 34).
15 Reopening of an earlier issue.
16 Holders of 2-1/2\% Treasury bonds maturing June 15, 1967, December 15, 1968, June 15, 1969, and December 15, 1969, were offered the option to exchange the bonds during the period from September 12, 1960, to September 20, 1960, inclusive, the first for $3-1 / 2 \%$ bonds of 1980 , the second for $3-1 / 2 \%$ bonds of 1990 , and the other two for $3-1 / 2 \%$ bonds of 1998, subject to allotment if the combined total of subscriptions for the bonds of 1990 and 1998 exceeded an outside limit of ${ }^{2} 4.5$ billion.
17/ Holders of the maturing certificates were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the $3-1 / 4 \%$ notes offered in the amount of around $\$ 6.9$ billion. For detail of offering, see Table 4.
18) Excess of maturing 4-7/8\% certificates over allotments of new securities on subscriptions from holders of those certificates (see Table 4, footnotes 39 and 40).

Note: In these tables sales of Series $A-F$ and $J$ bonds are included at issue price, and redemptions and amounts outstanding at current redemption value. Series $G, H$, and $K$ are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured $F$ and $G$ bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, and are then transferred to matured debt on which interest has ceased.

1. Sales and redemption figures include exchanges of minor amourts of (1) matured Series E bonds for Series G and K bonds from May 1951 through April 1957 and (2) Series $F$ and $J$ bonds for Series $H$ bonds beginning January 1960; however, they exclude exchanges of Series $E$ bonds for Series H bonds, which are reported in Table 3.
2/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the Treasury Bulletin.
3 Because there is a normal lag in classifying redemptions the distribution of redemptions between sales price and accrued discount has been estimated. Beginning with the Treasury Bulletin of March 1961 the
method of distributing redemptions between sales price sad accrued discount has been changed to reflect the distribution shown in final reports of classified redemptions. All periods shown have been revised on this basis.
4/ Series F and G sales were discontinued April 30, 1952, and Series J and $K$ sales were discontinued April 30, 1957. Sales figures after April 30, 1957, represent adjustments
5/ Includes exchanges of Series 1941 F and G savings bonds for 3-1/4\% marketable bonds of 1978-83.
6/ Includes exchanges of Series 1948 F and $G$ bonds for $4-3 / 4 \%$ marketable notes of 1964.
7/ Includes exchanges of Series 1949 F and $G$ bonds for $4 \%$ marketable bonds of 1969.
8 Inciudes exchanges of Series 1950 F and $G$ bonds for $3-7 / 8 \%$ marketable bonds of 1968.
$2 /$ Includes exchanges of Series 1951 and 1952 F and G bonds for $3-7 / 8 \%$ marketable bonds of 1971 and $4 \%$ marketable bonds of 1980
10/ Represents changes in the amounts of redemptions not yet classified between matured and unmatured issues. * Less than $\$ 500,000$.

1 Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these
transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investment. are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended ( 31 U.S.C. 7543), and excludes the Exchange Stabilization Fund.

[^6]The monthly Treasury Survey of Ownership covers securities isaued by the United States Government and by Federal agencies. The banks and insurance companies included in the survey currently aocount for about 90 percent of all such seourities held by these institutions. The similar proportion for corporstions and for savings and loan associations is 50 percent, and for State and local governmente, 60 percent. Data were ilrst published for banks and insuranoe companies in the May 1941 Treasury Bulletin, for
corporstions and savings and loan associations in the September 1960 Bulletin, and for Stste and local governments in the February 1962 Bulletin.

Holdings by commercial banks distributed according to Federal Reserve member bank classes and nonmember banks are publisbed for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly, first appearing in the March 1954 Bulletin.

Table 4.- Treasury Bonds
(Price decimals are 32 nds )

1/ Includes approximately $\$ 100$ million issued for cash on October 28, 1963, as part of a "strip" of additional amounts of ten series of Treasury bills, maturing each week from February 6 to April 9, 1964.
2) Amount issued on December 3, 1963, was $\$ 1,005$ million.

Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices
are included in the history beginning October 1, 1939. Dates of highs are lows in case of recurrence are the latest dates.
4. On callable issues market convention treats the yield to earliest call date as more significant when an issue is selling above par, and to maturity when it is selling at par or below.
5) Included in the average yield of long-term taxable Treasury bonds as shown under "Average Yields of Long-Term Bonds."

Table 1.- Average Yields of Treasury and Corporate Bonds by Periods

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of Aaa corporate bonds.
1/ Series includes bonds on which the interest income is subject to
normal tax and surtax and wich are neither due nor callable before a
given number of years as follows: April 1953 to date, 10 years;
April 1952 - March 1953, 12 years; October 1941 - March 1952, 15 years. For bonds currently in the series, see Table 4 under "Market Fuo"ations on Treasury Securities" in tbis issue of the Bulletin.
2/ One or more new long-term bonds added to the average (see footno:e 1), An existing bond dropped from the average (see footnote 1). Change in series (see footrote 1).

1) Excludes money held by the Treasury and money held by or for the account of the Federal Reserve Banks and agents.
2/ The following paper currencies are in process of retirement and are redeemable from the general fund of the Treasury: Gold certificates issued before January 30, 1934, silver certificates issued before July 1, 1929, Treasury notes of 1890, Federal Reserve notes issued before the series of 1928, Federal Reserve Bank notes, and national bank notes. The Treasury notes of 1890 have been in process of retirement since March 1900 ( 31 U.S.C. 411) upon receipt by the Treasury, the Federal Reserve Bank notes since June 12, 1945 ( 12 U.S.C. 445 note), and the national bank notes since December 23, 1915 ( 12 U.S.C. 441 ). Retirement of the others was authorized by the 0ld Series Currency Adjustment Act, approved June 30, 1961 (31 U.S.C. 912-916). The act authorizes the Secratary of the Treasury to determine from time to time the amount of currency of the following types which have been destroyed or lost, and to reduce the amounts thereof on the books of the Treasury: Gold certificates issued before January 30, 1934; silver certificates, United States nates, Federal Reserve Bank
notes, and national bank notes all issued before July 1, 1929; Federal Reserve notes issued prior to the serjes of 1928; and Treasury notes of 1890. Accordingly, the Secretary of the Treasury has determined that the following paper currencies have been destroyed or irretrievably lost and so will never be presented for redemption: On Octaber 20, 1961, \$1 million of Treasury notes of 1890; and on Augast 27, 1962, $\$ 9$ million of gold certificates, $\$ 15$ million of silver certificates, $\$ 18$ million of Federal Reserve notes, $\$ 1$ million of Federal Reserve Bank notes, and $\$ 15$ million of national bank notes.
3/ Highest amount to date.
4. Issued prior to January 30, 1934.

2/ Includes $\$ 15$ million issued before July 1, 1929.
6. Includes $\$ 18$ million issued prior to the series of 1928.

7 Based on the Bureau of the Census estimated population. Through fiscal 1958 the estimated population is for the conterminous United States (that is, exclusive of Alaska, Hawaii, and the outlying areas such as Puerto Rico, Guam, and the Virgin Islands). Beginning with fiscal 1959 the estimates include Alaska, and with fiscal 1960, Hawaii. Less than \$500,000.

1) These items represent the difference between the cost value and the monetary value of silver bullion revalued and held to secure silver certificates.
2) Total of seigniorage on coins and on newly mined silver, beginning with that for July 1959, is included under coins; the breakdown is not available after June 1959.

3/ An act approved June 4, 1963 (77 Stat. 54) repealed the Silver Purchase Act of 1934, the silver purchase provisions of the act of July 6, 1939, and the act of July 31, 1946.
4) The figures in this column are not cumulative; as the amount of bullion held changes, the potential seigniorage thereon changes.

Currencies by U. S. Monetary Authoritiea

Note: The United States also has certain drawing rights on the International Monetary Fund, in which the United States has a quota of \$4,125 million. In accordance with Fund policies, these drawing rights include the right to draw virtually automatically an arount equal to the sum of the United States gold subscription to the Fund ( $\$ 1,031.2$ million) and the Fund's net use of dollars; on November 30, 1963, these two amounts totaled $\$ 1,037.1$ million. Under appropriate circumstances the United Statos could draw an additional anount equal to the United States quota.

1. Includes gold sold to the United States by the International Monetary Fund with the right of repurchase, the proceeds of which are invested by the Fund in U. S. Government securities; as of November 30, 1963, this amounted to $\$ 800$ million.
2) Includes gold in Exchange Stabilization Fund, which is not included in Treasury gold figures shown in "Circulation Statement of United States Money." See "Monetary Statistics," Table 3.
3/ Includes holdings of Treasury and Federal Reserve System.

## December 1963

## Background

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information on the principal types of data and the princifal countries is reported monthly, and is publisheo monthly in the "Treasury Bulletin." Supplementary information is published less frequently. Reports by banks, bankers, securities brokers and dealers, and nonfinancial business concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures tc the Treasury. These statistics are consolldated by thie Treasury and published as promptly as possible.

The reporting forms and instructions useo in the collection of the statistics have been revieed a number of times. Tine most recent revision became effective with reports covering data as of May $31,1963.1$ A detalled description of the content of the statistics, including the chances instituted, appeared in the July 1963 issue of the "Treasury Bulletin," pages 79-81. As a result of changes in presentstion introouced in that issue, not all breakdowns previously publiched will be exactly comparable to those now presented.

## Basic definitions

The term "foreigner" as used in the Treasury reports covers all institutions and individuals domiciled outside the United States, including United States citizens domiciled abroad and the foreign gubsidiarles and offices of United States banks and bueiness concerns; the central governments, central baniss, and other official institutions of foreign countries, wherever located; and international and regional orsanizations, wherever located.

In general, áata are reported oppoaite the foreien country or geographical area in which the forelgner is domiciled. Data pertaining to branches or agenciee of foreien officiel institutions are reported opposite the country to which the official institution belonge. Data fertaining to international and regional orgarizations are reported opposite the classification "International," "European regional," or "Latin American regional," as appropriate, except for the Bank for Internaticnal Settlements and the European Fund, Which are included in the classification "Other Western Europe."
"Short-teril" refers to obligations payable on demand or having an original maturity of one year or less, without deduction of any offsets. "Long-term" refers to obligations having an original maturity of more than one year, and includes securities having no contractual maturity.

## Exclusions

The data published herein do not cover all types of capital movements between the United gtates and foreign countries. The data reported to and published by the Treasury Department exclude entirely the intercompany capital transactions of business enterprises in the United states witr. their own branches and subsidiaries abroad or with their foreign parent companies; such transactions are reported by business firms to the Department of Comerce. Data on the capital transactions of the United States Government and on shipments and receipts of United States currency are also excluced from the Treasury reports. Certain capital transactions not effected through reporting institutiona, such as securities transactions carried out entirely abroad, are not recorded in the Treasury reports. Consolidated data on all typea of capital transactions are publiahed by the Department of Commerce in its regular reports on the United States balance of payments.

The liebilities data exclude nonnegotiable, noninterestbearing special notes of the United Stetes held by the InterAmerican Development Bank and the International Development Association.

The aecurities transactions data exclude nonmarketable U.S. Treasury notes, foreign series, and nonmarketable U.S. Treasury bonds, foreign currency series (see "International Financial Statistica" section, Table 2 ).

## Presentation of statietics

Data collected monthly on the Treasury Foreign Exchange Forms are publisheà in the "Treasury Bulletin" in three sections. Section $I$ provices a summary of the principal data by period; Section II presents data by country and by perior.; and section III shows detalled breakdowns of the latest avallable preliminary data.

Section IV presents supplementary data in five tablea which appear leas frequently than monthly. Table I, sbortterm foreign liabilities and claims reported by nonfinancial concerns, is published quarterly in the February, May, August, and November 18 sues of the Bulletin. Table 2, estimated gold reserves and dollar holdings of foreign countries and international institutions, is published quarterly in the March, June, September, and December 1ssues. Table 3, foreign credit and debit balances in brokerage accounta, appeara semiannually In the March and geptember issues. Table 4, short-term banking liabilities to foreigners in countries and areas not regularly reported separately, heretofore has been presentec̃ annually in the March issue, but beginning with the August 1963 1s8ue ia published twice a year, covering data as of April 30 and December 31. Table 5, purchasea and sales of long-term securities by foreigners during the preceding calendar year, sppears annually in the April issue.

# Section IV - Supplementary Data by Countries Table 2.- Estimated Gold Reserves and Dollar Holdings of Foreign Countries and International Institutions $1 /$ 

1/ "Gold and short-term dollars" represent reported and estimated official gold reserves, and official and private short-term dollar holdings reported by banks in the U. S. "U. S. Government bonds and notes" represent estimated official and private holdings of U. S. Government securities with an original maturity of more than one year, except for nonmarketable U. S. Treasury notes, foreign series, and U. S. Treasury bonds, foreign currency series, which are excluded. Gold Mainland are excluded
2) Includes holdings of other Western European countries, the Bank for International Settlements and the European Fund, gold to be distributed by the Tripartite Commission for the Restitution of Monetary Gold, and unpublished gold reserves of certain Western Buropean countries. The figures included for the gold reserves of the B. I. S. represent the Bank's net gold assets.
3) Data for Latin American regional organizations and (after June 2962)
data for European regional organizations other than the Bank for International Settlements and the European Fund are reclassified from "Other Europe" and "Other Latin America" to "International and regional." Data for short-term dollars exclude nonnegotiable, non-interest-bearing special U. S. notes held by the Inter-American Development Bank and the International Development Association.
4 Total short-term dollars include $\$ 82$ million reported by banks included in the series beginning December 31, 1961. Of this total, holdings of Japan amount to $\$ 81$ million.
5) Through March 1963, "Other Africa" and "Total Africa" may include short-term dollars of some countries in the "Other" category.
6) Includes countries in Oceania and Eastern Europe, and Western European dependencies in Latin America.

$r$ Revised.

The current financial statements of corporations and certain other business-type activities of the United States Government which appear in the "Treasury Bulletin" beginning With the August 1956 1esue are complled from reports submitted to the Treasury under Department Circular No. 966, is sued January 30, 1956, and Supplement No. 1, 1saued June 1, 1956. The regulations so 1ssued are pursuant to section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 66b), and represent another step in the program of comprehensive and integrated Government accounting and Ilnancial reporting for which authority was provided in that act. They supersede Budget-Treasury Regulation No. 3, 1 ssued under Executive Order No. 8512 of August 13, 1940, as amended by Executive Order No. 9084 of March 3, 1942, under which financial statements previously published in the Bulletin were submitted.

In coverage, Department Circular No. 966 requires submission of financial statemente by all wholly owned and mixed-ownership Government corporations specifically included in the Government Corporation Control Act, as amended ( 31 U.S.C. 846,856 ); and all other activities of the Government operating as revolving funds for which businesstype public enterprise or intragovernmental fund budgets are required by the Bureau of the Budget. Other activities and agencles whose operations, services, or functions are largely self-liquidating or primarily of a revenue-producing nature, and activities and agencies whose operations result in the accumulation of substantial inventories, investments and other recoverable assets, may be brought under the regulations as agency accounting systems are developed to the point where they are capable of furnishing the finencial reports required.

Four kinds of financial statements are called for by Department Circular No. 966. They are statements of financial condition, income and expense, source and application of funds, and certain commitments and contingenciee. The
statements of financial condition are published quarterly and appear as Section I in the series of tables. The first data under the new regulations are for March 31, 1956, and were presented in the August 1956 Bulletin. Statements of income and expense and source and application of funcs are publiched semiannually, for June 30 and December 31 reporting dates, and appear as sections II and III. The first of these statements under the new regulations cover the fiecal year 1956, and were published in the January 1957 Bulletin. Within the sections, the agencies are grouped in separate tables by type, as follows: public enterprise revolving funds, intragovernmental revolving funds, certain other activities, deposit funds, and trust revolving funds.

Supplement No. l added to the coverage by including all executive agencies and activities not reporting under Department Circular No. 966 , but required only a statement of financial condition annually as of June 30. These are mainly not business-type activities, and those which had not yet developed formal accounting procedures to provide complete balance sheet types of statementa were authorized temporarlly to report only the asset side. Thus the supplement rouncs out provision for the information on properties and assets of the United States Govermment which the Treasury has been asked to furnish to the Comnittee on Government Operations, House of Representatives, for a continuing study of the ascets of the Govermment. The first comprehensive reporting under Supplement No. 1 is for June 30, 1957, and the data were published in the December 1957 issue of the Bulletin as Part $B$ of Table 4 in Section $I$.

A summary of loans outstanding for a serles of dates is included in Section $I$ of the Bulletin presentation beginning with the June 1958 1ssue. Two classifications of the loans are shown, one by type and one by agency. Data prior to 1956 are based on the earlier reporting requirements, which provided for complete coverage of Government lending agencies.

    2/ Fiscal year figures beginning with the August 1963 Bulletin and calendar year figures beginning with the September issue have been revised to take account of certain changes in classification. See "Trust and Other Transactions," Table 1, Note.
    3/ Includes Government-sponsored enterprise net operating expenditures, or receipts $(-)$, as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 6). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or

    Note: The computed annual interest charge represents the amount of interest
    that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date (the amount actually borrowed in the case of securities sold at a premium or discount, beginning with May 1960). The aggregate charge for all interest-bearing issues constitutes the tatal computed annual interest charge. The average annual interest rate is computed by dividing the computed annual interest charge for
