## Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Receipts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statenent of United States Money." Where these ststements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reportins bases is given in connection with the tables themselves.

The monthly statement of recelpts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other recelpt and expenditure data classified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both piblications have provided comparative figures on their respective bases from the beginning of the ilscal year 1953. The announcement of February 17 , 1954, with respect to these reporting changes may be found in the April 2954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is complled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as complled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Recelpts of taxes and customs duties are reported on a collections basis. Other recelpts are reported partially on a collections basis and partially on a deposits basis. Expenditures, |except interest on the public debt, are reported on the basis of checks lssued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payable basis. The same reporting basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expend-
itures and Balances of the United States Government" and for actual receipts and expenditures in the "Buaget of the United States Government."

Beginning with the final statement for the fiscal year 1960, the monthly statement reports totals for net budget recelpts and budget expenditures after deduction of certain interfund transactions which are included in the detall of both buaget receipts and buaget expenditures. The transactions deducted consist of interest payments and minor amounts of certain other payments made by Government agencies to the Treasury. This reporting change was made in accordance with the plan stated in the President's Budget Message of January 18, 1960. It does not affect the surplus or deficit. Flgures for earlier periods shown in the Treasury Bulletin were revised to the new reporting basis in the September 1960 issue. The interfund transactions deducted under this procedure do not include payments to the Treasury by wholly owned Government corporations for retirement of their capital stock and for disposition of earnings. These capital transfers have been excluded currently from budget receipts and budget expenditures beginning July 1 , 1948, and flgures for prior fiscal years back through 1932 were revised accordinely at that time.

The dally statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of malled reports of checks lssued and are adjusted by means of clearing accounts to the total of checks pald. Except for relativaly minor amounts, noncash interfund and other intragovernmental transactions are excluded. The public debt figures in the dally statement also are on a "clearance" basis, with the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The dally statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt issuance, retirement, and smount outstanding. Receipts and expenditures, however, were classifled by type of account, and the budget results shown

## Reporting Bases - (Continued)

In the dally statement were used as the basis for reflecting the results under the Prealdent's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the Tressurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and 1ts predecessor organizations, were on the basis of checks paid. Transactions han-
diled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and sliver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

## Treasury Financing Operations

## One-Year Bills

Tenders were invited on June 17, for the auction on June 24 , for $\$ 1.0$ billion, or thereabouts, of 365 -day Treasury bills, for cash and in exchange for Treasury bills maturing June 30, 1965. Tenders totaling $\$ 2,191$ million were received, of which $\$ 1,001$ million was accepted, including $\$ 48$ million of noncompetitive tenders, at the average bank discount rate of 3.807 percent. Noncompetitive tenders for $\$ 200,000$ or less (without stated price) from any one bidder were accepted in full at the average price of accepted competitive bids.

The new one-year bills are dated June 30, 1965 and will mature June 30 , 1966, when the face amount will be payable without interest. Issued in bearer form only, the bills are in denominations of $\$ 1,000, \$ 5,000, \$ 10,000, \$ 50,000, \$ 100,000$, \$500,000 and $\$ 1,000,000$ (maturity value).

Banking institutions generally could submit tenders for account of customers provided the names of the customers were set forth in such tenders. Others than banking institutions could submit tenders only for their own account. Tenders were received without deposit from incorporated banks and trust companies and from responsible and recognized dealers in investment securities. Tenders from others had to be accompanied by payment of 2 percent of the face amount of the bills applied for, unless the tenders were accompanied by an express guaranty of payment by an incorporated bank or trust company.

Payment for accepted tenders was required to be made or completed on June 30, 1965, in cash or other immediately available funds or in a like face amount of bills maturing on that date. Payment by credit in Treasury tax and loan accounts was not permitted.

## 13-Week and 26-Week Bills

Issues of regular weekly Treasury bills in June totaled \$8.8 billion, refunding an equivalent amount maturing. The June bills consisted of four 13-week issues of $\$ 1.2$ billion each and four 26 -week issues of $\$ 1.0$ billion each. The new
bills carry 91-day and 182-day maturities. Average rates of discount for the new issues are shown in the table following.

## Foreign Series and Foreign Currency Series

In June the Treasury issued six certificates of indebtedness of the foreign series totaling $\$ 523$ million. Redemptions during the month totaled $\$ 113$ million.

Interest rates on the new certificates were 3.875 percent on the 6 -month issue; 3.75 percent on two of the 3 -month issues; and 2.00 percent, 3.784 percent, and 3.80 percent on the other three 3 -month issues. At the end of June the outstanding foreign series securities totaled \$1,132 million.

One foreign currency series bond denominated in Austrian schillings equivalent to $\$ 25$ million was issued in June. The new bond is dated June 11, 1965, matures December 12, 1966, and carries interest at 4.04 percent per annum. An 18 -month bond denominated in Austrian schillings equivalent to $\$ 25$ million matured on June 11.

Foreign currency securities outstanding at the end of June totaled $\$ 1,137$ million, and were denominated in Austrian schillings, Belgian francs, German marks, and Swiss francs.

Source: Actual figures through 1961 are from reports to the Treasury Department by disbursing officers and administrative agenciea, on the monthly statement reporting basis (see page II); and from the monthly statement of receipts and expenditures thereafter. Estimates, including effect of proposed legislation, are from the 1966 Budget
document, released January 25, 1965.
1/ Consists of miscellaneous taxes (principally the tonnage tax on foreign vessels entering U. S. ports), bullion charges, gifts and contributions, and undistributed proceeds, sale of foreign currency.
p Preliminary.

## Footnotes to Table 1 - (Continued)

6 Includes small amounts for taxes not classified.
7/ Includes $\$ 600$ million for hospital insurance for the aged.
8/ Includes adjustments as follows: Income taxes not withheld, August
$-\$ 4$ million, November - $\$ 5$ million, March $-\$ 2$ million and June $+\$ 86$ million; income taxes withheld, August $-\$ 78$ million, November $+\$ 27$ million, March $+\$ 157$ million and June - $\$ 7$ million; transfers to Federal 0ld-Age and Survivors Insurance Trust Fund, August $+\$ 80$ million, November $-\$ 24$ million, March - $\$ 150$ million and June $-\$ 74$ million; and transfera to Faderal Disability Insurance Trust Fund, August $+\$ 2$ million, November $+\$ 2$ million, March $-\$ 4$ million and June $-\$ 5$ million. See alsc footnote 11. 2 Interest on refunds is included in expenditures in Table 3.
10 The principal amcunts for refunds of amployment taxas and certain excise taxes (highway) are excluded from the transfars of tax recaipts show herein, and are included with rafunds of internal revenue receipts, applicable to trust accounts.
11. Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to amounts of taxes collacted and deposited for old-age insurance. Amounts transferred currently for appropriation to the truat fund are based on astimatas of old-age insurance tax raceipts made by the Secretary of the Treasury (42 U.S.C. 401 (a)), and are adjusted in latar transfers on the basis of wage and self-employment income records maintained in the Social Security Administration.
12 The Federal Disability Insurance Trust Fund was astablished by the Socia] Security Act Amendments of 1956, approved August 1, 1956 ( 42 U.S.C. 401 (b)). The act appropriated to the trust fund amounts equivalent to spacified percentages of the wages and self-amployment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to tima to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Ratas of tax ware increased by the percentages appropriated to the Federal Disability Insuranca Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.

Amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year ( 65 Stat. 222 and 66 Stat. 371) and tranafers are made currently.
14) The Employment Security Act of 1960, approved September 13, 1960 ( 42 U.S.C. 1101), established in the Unemployment Trust Fund, an administration account, and appropriated for credit to that account, beginning with fiscal 1961, amnunts equivalent to taxes collected and deposited under the Federal Unemployment Tax Act. The tax receipts are tranaferred currently on the basis of estimates by the Secretary of the Treasury, with later adjustments as necessary. From that account is to be paid the administrative expenses of the employment security program. Previously the corresponding amounts were included, respectively, in budget receipts and budget expenditures.
15/ The Highway Revenue Act of 1956, as amended, ( 23 U.S.C. 120 , note) established a Highway Trust Fund from which are to be made, as provided, by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before October 1, 1972. The act appropriatad to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with propar adjustments to be made in subsequent transfers. Before fiscal 1957 corresponding excise tax receipts were included in net budget receipts and Fedaral-aid highway expenditures were included in budget expenditures.
16/ For contant, see Tabla 4. These transactions are included in the detall of both budget receipts and expenditures but are deducted from the totals (see Reporting Bases, p. II).

* Less than $\$ 500,000$.
p Preliminary.

INTERNAL REVENUE COLLECTIONS BY PRINCIPAL SOURCES

Source: Internal Revenue Service collection reports. For explanatian of difference in reporting bosis from budget receipts through 1954 , see the Treasury Bulletin for July 1962, p. 80 and the Annual Report of the Secretary of the Treasury for 1962 p. 599.
*Beginning with the fiscal yeor 1955, includes undistributed depository receipts and unapplied colloctions. The whole amount of such receipts for excise toxes is includedunder "Other excise toxes:"

## Source: Actual figures are from the monthly statement of receipts and

 expenditures of the Government (for explanation of reporting bases, see page II); estimetes, including effect of proposed legislation, are from the 1966 Budget document released January 25, 1965.Note: Figures in this table are for agencies as constitutad at the time expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 6. Agency shifts are reflected in this table as follows: Beginning 1957, Alaska Road Construction from "Interior Department" to "Commerce Department," and Federal intermediate creditibanks and production credit corporations as indicated in footnote 11; beginning 1958, Federal Facilities Corporation (remaining functions) from "Treasury Department" to "General Services Administration," and Informational Media Guaranty Fund from "Funds appropriated to the President" to "lndependent agencias;" beginning 1959, Federal Civil Defense Administration from "Independent agencies" to "Executive Office of the President," Civil Aeronautics Board from "Commerce Department" to "Indepandent agencies," Civil

Aeronautics Administration from "Commerce Department" and Airways Modernization Board from "Independent agencies" to the "Federal Aviation Agency," National Advisory Comnission for Aeronautics from "Independent agencies" to "National Aeronautics and Space Administration;" from fiscal 1960 through November 1962, and from December 1963, through March 1964, military assistance from "Funds appropriatad to the President" to "Defeņse Department, military," beginning 1962, subscriptions to intarnational institutions from "Treasury Department" to "Funds appropriatad to the Prasident," and from November 1964 through February 1965, "Offlce of Economic Opportunity" from "Executive Office of the President" to "Funds appropriated to the President."
1/ Consists of net expenditures of the Postal Fund, reflecting the change in classification of Post office transactions to a public anterpriae revolving fund basis, and beginning fiscal 1960, payment for public services.
2/ Beginning 1957, Federal aid for highways is excluded from budget expanditures and included in trust account expenditures (sea Table l). 3 Adjusted for reclassification.
Remaining footnotes on following page.

Table 4.- Interfund Transactions Excluded from Both Net Budget Receipts and Budget Expenditures
(In millions of dollars)

Source: See Table 1.

1. By Government agencies operated as revolving funds; on loans (see "Debt

Outstanding," Table 6) and other interest-bearing U. S. investments.
2) Excludes transactions under Defense Production Act.
3) Consists of payments by: Office of the Administrator for college
housing, urban renewal, prefabricated housing loans for 1955, and pub-
lic facility loans beginning 1957; Federal National Mortgage Association;
and Public Housing Administration.
Direct loan program.
5/ By various agencies for programs under the Defense Production Act.
6/ Consists of payments by the: Colorado River Dam Fund, Boulder Canyon
project; Virgin Islands Corporation; Bureau of Federal Cradit Unions; Civil Defense Program Fund; Farmars' Home Administration: Agricultural Credit Insurance Fund (formerly the Farm Tenant Mortgage Insurance Fund) and the direct loan account, both established pursuant to Title III of the Agricultural Act of 1961, approved August 8, 1961; Informational Media Guaranty Fund beginning 1959; Federal Ship Mortgage Insurance Fund beginning 1960; and St. Lawrence Seaway Developmeat Corporation beginning 1960.
7 For net cost of Canal Zone Government, less tolls on Governmeat vessels, and for part of treaty payment for use of Canal Zone. Less than $\$ 500,000$. p Preliminary.

## Footnoter to Table 3.- (Continued)

4 Begioning with fiscal 1961, administrative expenses of the employ-
ment security program are handled as trust account expenditures rather than budget expenditures, pursuant to the Employment Security Act of 1960 spproved September 13, 1960 ( 42 U.S.C. 1101); see Table 1, footoote 14.
5/ Reported on an accrual basis effective June 30, 1955.
6/ Includes Reconstruction Financa Corporation except beginning July 1 , 1954, certain functions transferred: Under Reorganization Plan No. 2 of 1954 ( 15 U.S.C. 609, note) to the Export-Import Bank, the Federal National Mortgage Association, and the Small Business Administration; and uoder Executive Order 10539, as amended, ( 15 U.S.C. 603 , note) to the Ganeral Services Admiaistration. The corporation was abolished at the close of June 30, 1957, by Reorganization Plan No. I of 1957, and its remaining functioos were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Admiaistrator of Small Business Administration, and Secretary of the Treasury.
7) Established pursuant to the Federal Aviation Act of 1958 (49 V.S.C. 1341 (a)), approved August 23, 1958.
8/ Established pursuact to the National Aeronautics and Space Act of 1958 (42 U.S.C. 2472 (a)), approved July 29, 1958.
2/ Consists of Federal paymat and loans and advances.
10) For content, see Table 4. These transactions ara included in the detail of botb budget receipts and budget expenditures, but are deducted
from the totals (see Reporting Bases, p. II).
11. Effective January 1, 1957, the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Gredit Act of 1956, approved July 26,1956 (12 U.S.C. 1027), and operations of the merged agencies (as mixed-ownership corporations) were classified as trust enterprise funds from January 1, 1957, until January 1959 when they wera classified as Government-spoasorad enterprises (see "Trust and Other Transactions," Table 3); previously the operations of the banks and the corporations, respectively, ware classified as public enterprisa funds and were lacluded net in budget expenditures.
12) Includes $\$ 1,375$ willion paid to the International Mooatary Fund for the additional United States subscription, authorlzed by an act approved June 17, 1959, consisting of $\$ 344$ million to gold (see "Monetary Statistics," Table 3) and \$1,031 million in special notes. The spacial aotes of the United States 1ssued to international institutions are nonnegotiable and noninterest-bearing and are payable oo demand. See also "Consolidated Casb Trasactions," Tabla 2 and "Debt Outstanding," Table 1.
13) Includes allowancea of $\$ 107$ million for Appalacbia and $\$ 400$ million for contingadeles.
Less tban $\$ 500,000$. p Preliminary.

| Budget expenditures (see table 3). |  | 76,539 | 81,515 | 87,787 | 92,642 | 97,684 | 87,437 |  |

Source: Expenditures for 1965 are from reports received from disbursing, collecting, and administrative agencies of the Government, on the monthly statement reporting basis (see page II). They are classified in accordance with classifications used in the 1966 Budget document, Table 18 , as nearly as can be done on an individual appropriation and fund item basis. Prior year figures are from the same source but have been adjusted below the appropriation level in some instances by the Bureau of the Budget for use in Table 18. Where current classifications differ on this account, they are footnoted. Revolving fund transactions are included net in the expenditures.

1. For expenditures by major functions for fiscal 1965 through June 2965, and fiscal 1964 through June 1964, see "Note" below. Details by functions are not available for publication in this issue but will appear in the August 1965 Eulletin.
2) For description of items included, see Table 5. Although not expended, substantial portions of these amounts are obligated for payrolls, outstanding purchase orders and contracts for equipment and supplies, and similar items.
3) Expenditures for 1965 include those for specified research projects applicable to function code 355 . These expenditures were made from "Special Activities, Comodity Credit Corporation."
4) See footnote 3.
5) Expenditures for 1965 include thase for assistance for elementary and secondary education applicable to function code 701 and otber aids to education applicable to function code 704. These expenditures were
made from "Defense Educational Activities, Office of Education."
6) Expenditures for 1965 include those for veterans nonservice-connected pensions applicable to function code 802 and other veterans' benefits
and services applicable to function code 805 . These expenditures were made from "Compensation and Pensions, Veterans' Administration."
7) See footnote 7. * Less than \$500,000.

Note: Expenditures by major functions, see footnote 1.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Govermment (for explanation of reporting bases, see page II); estimates, including effect of proposed legislation, are from the 1966 Budget document released January 25, 1965.
1 Certain interfund transactions are excluded from both receipts and expenditures beginning with the July 1961 1ssue of the Bulletin. For detaila see Table 6.
2) Includes guaranteed securities (sae Table 4).

Note: Figures in this table differ from those publishad prior to Auguat 1963 for shifts in classification including security transactions of Government-sponsored enterprises from deposit fund account expenditures. to net invastment by Government agencies in public debt aecurities, and net redemption of agency securities in the market; and certain deposit fund account receipts from net roceipts to net expenditures.

## Source: See Table 1

1/ Secondary market operations, as provided in the Housing Act of 1954, approved August 2, 1954 (12 U.S.G. 1719). Funds provided by the
Treasury ( - ), or repaid to the Treasury, are shown in a separate
column (and correspondingly are reflected net in budget expenditures).
2) See Table 2, footnote 4 .

2/ Includes principally District of Columbia operating expenditures; Funds appropriated to the Presidant - military advances under foreign assistance programa and mutual security truat funds; Indian tribal funds; expenditures chargeable against increment on gold; and trust enterprise funds (net). The Railroad Unemployment Insurance Administration Fund is included through November 1958 (see Table 10, published quarterly), the Employees' Life Insurance Fund (net) and the Employees' Health Benefits Fund (net) beginning 1961.

4 Previously shown as deposit funds (see Table 1, Note)
5/ Includes banks for cooperativea, Federal intermediate credit banks, and Federal land banks
6/ For content see Table 6. These transactions are incIuded in the detail of both trust receipts and trust expenditures, but are deducted from the totals.
7/ Includes expenditures of the Federal intermediate credit banks which were operated as truet fund enterprises from January 1, 1957, until January 1959, wben these banks were claasified as Government-aponsored enterprisea.
8/ Total includes $\$ 20$ million for hospital insurance for the aged.
P Preliminary.

1) Payments are made between the Railroad Retirement Account and the Federal Old-Age and Survivors and Federal Disability Insurance trust funds so as to place those funds in the position in which they would have been if railroad employment after 1936 had been included under social security coverage.
2) Includes interest on amounts reimbursed to the Federal 01d-Age and Survivors Insurance Trust Fund for administrative expenses.
3/ Includes temporary advances to the Railroad Unemployment Insurance Account in the Unemployment Trust Fund when the balance in the
account is insufficient to meet payments of benefits and refunds due or to become due.
3) Repayment of advances plus interest to the Railroad Retirement Account. See footnote 3.
4) Transfers from the Civil Service Retirement and Disability Fund to the Foreign Service Retirement and Disability Fund.
6/ Contributions and beginning with 1958, transfers of deductions from ermployees' salaries to the Civil Service Retirement and Disability fund, and advances to National Park Service.

* Less than $\$ 500,000$. p Preliminary.

Consolidated cash transactions reported in the Treasury Bulletin are on a basis consistent with Federal receipts from and paymenss to the public as derived in the Budget of the United States (in the Budget for 1966 in Special Analysis A). Shown also is the amount of net cash borrowing from, or repayment of borrowing to, the public. Revisions of the figures for earlier years have been made where necessary to make them as nearly comparable with current Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in previous Budget doccuments as well as in the Bulletin.

This series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the account of the Treasurer of the United States. Receipts and payments include transactions both in administrative budget accounts and in trust and deposit fund accounts. Major intragovernmental transactions which are reported as both expenditures and receipts are excluded from
both. Noncash items representing the obligations of the Government to make payments in the future also are eliminated from expenditures currently, but are added later when actual payments are made. These items consist of certain interest accrued on the public debt and expenditures involving the issuance of a few special public debt securities. Checks outstanding, deposits in transit, and other clearing accounts are excluded from payments. Receipts from the exercise of monetary authority are excluded as not representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

2) See "Trust and Other Transactions", Table 4, for net investments in public debt and agency securities.
3/ Includes increment resulting from reduction in the weight of the gold dollar; excluded from recelpts from the pubiic but included in cash deposits in the Treasurer's account. p Preliminary.

Table 2.- Intragovernmental and Other Noncash Transactions
(In millions of dollars)

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States reflects not only budget receipts and expenditures but also trust, deposit fund, and public debt transactions.

The working cesh of the Treasury is held mainly in Treasurer'a accounts with Federal Reserve Banks and branches. As the balances in these accounts become depleted, they are restored by calling in (transferring) funds from the tax and loan accounte with thousands of commercial banks throughout the country.

Deposite to tax and loan accounts occur in the normal course of business under a unlform procedure applicable to all banks whereby customers of banks deposit with tholl tax payments and funda for the purchase of Government securitiee. In most cases the transaction involves merely the transfer of money from a customer's account to the tax and loan aooount in
the same bank. On occasions, to the extent authorizod by the Treasury, banks are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the account of their cuotomers.

The tax and loan account syatem poralts the Treasury to leave funds in banks and in the commanitios in which they arlse until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its iluotuating operations on bank reserves and the economy.

A dotalled description of the Treasury's depoeitary eystem may be found in the Annual Report of the Seoretary of the Treasury for 1955, pages 275-284.

Table 1.- Status of the Account of the Treasurer of the United States
(In millions of dollars)

Source: Daily Treasury statement.
1/ Includes reserves and other deposits of the Board of Trustees, Postal Savings System, and uncollacted items, exchanges, etc., through December 1962. Effective January 1963 balances of the Postal Savings System funds were transferred to deposit fund accounts and became demand obligations of the Treasury. Balances of these funda, therefore, are no longer liabilities within the genaral account of the Treasurar. Uncollacted items, exchanges, etc., also prevtously shown as liabilities were combined with "Unclasaified collections, etc." shown under assets. Treasurer's checks outatanding are included
through June 1958, after which they are included in the balance in the Treasurer's account. (See footnote 2).
2) Through June 1958, tbe balance of the Treasurer was reduced when Treasurer's checks wera issued and the amount of the checks was carried as a liability until paid. Effective July 1958, the balanca is not raduced until the checks are paid, a procedure also applying to checks drawn on the Treasurer by Government disburing officars and agencias.
3) Amounts shown, beginning January 1963, are nat of uncollacted items, excbanges, etc. Previously these Items were included under liabilities.

1/ Spacial depositarias are permitted to maka payment in the form of a deposit credit for the purchase price of U.S. Government securities purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this metbod of payment is permitted under the terms of the circulars inviting subacriptions to the issues.
2/ Retiremant plan bonds first offared for sale as of January 1, 1963.
Taxes eligibla for credit consist of those deposited by taxpayers in the depositary banks, as follows: Withheld income tax beginning

March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under tha Railroad Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.
4 Under a special procedure begun in March 1951, autborization may be given for income tax paymanta, or a portion of them, made by checks of $\$ 10,000$ or more drawn on a special depositary bank, to be credited to the tax and loan account in that bank. This procedure is followed to the tax and loan account in that bank. This prom
during some of the pariods of heavy tax paymants.

* Less than $\$ 500,000$.

Source: On the basis of the dally Treasury statement.
Note: Tha computed annual interast charge represents the amount of interest that would be pald if ach interest-bearing issua outstanding at the and of aach month or year should remain outstanding for a year at tha applicable annual rata of interest. The charge is computed for each issue by applying the appropriata annual intarast rata to tha amount outstanding on that date (tha amount actually borrowed in the case of securitias sold at a pramium or discount, baginning witb May 1960). The aggragate charga for all intereat-baaring issues constitutss the total computed annual intarast charge. The avarage annual intarast rate is computad by dividing the computed annual interast cbarge for
the total, or for any group of 1ssues, by the corresponding principal amount. Bagioning with data for Decembar 31, 1958, tha computation is based on tha rata of affective yiald for issuas sold at pramium or discount. Prior to that data it was based on the coupon rata for all isguag.

1) Guaranteed sacuritiss includad ara thosa hald outalde the Trasury
2) Total includes "Othar bonds" through 1960; ses Tabla 3.

3 Included in debt outatanding at face amount, but discount value is usad in computing annual intarest charga and annual intarast rata.
4) On Unitad Statas aavinge bonds the rate to maturity is appliad againat the amount outstanding.

Source: Bureau of the Public Debt. Preliminary figures are from subscrip
tion and allotment reports; final figures are on "clearance" basis in daily Treasury statement.
Note: Tax anticipation and one-year bills are shown in the table each
month until the month in which they mature is no longar shown in the
lasue date column for regular weekly bills.
1/ The 13-week bills represent additional issues of bills with an original maturity of 26 weeka.
For 13 -week and 26 -week issues, tenders for $\$ 200,000$ or lass from any
one bidder are accepted in full at avarage price of accepted competitive bids; for othar issues, the corresponding amount is atipulated in each offering announcament.
3/ Issued on October 26, 1964; additional to bills dated Saptember 2, 1964
4 Issued on January 18, 1965; additional to bills datad November 24, 1964 Matured Apri1 15, 1964.
Matured July 15, 1964.
Settlemant of $\$ 3,063,000$ was made on May 28, 1965 and $\$ 997,823,000$ on

investment accounts of the $4 \%$ notes and $\$ 65$ million of the $4-1 / 4 \%$ bond

Table 5.- Securities Iseued In Advance Refunding Operations

Footnotes at end of table.
(Continued on following page)

Table 5.- Securities Issued in Advance Refunding Operations-(Continued)

Table 5.- Securities Issued in Advance Refunding Operations - (Continued)

1/ Does not include payments for accrued interest.
The effective rate of interest on the new issue is the coupon rate adjusted for the amount paid by or to the Treasury as premium or discount on the new security exchanged for eligible securities originally issued at par. For eligible securities originally issued at prices other than par, the payment by or to the Treasury is applied to the price adjusted for the pro rata amortizatio
tha advance funding.

3/ Based on the mean of bid and asked prices of securities eligible for exchange (adjusted for payments on account of purchese price of securities issued) at noon on the day before announcement by the Treasury.
4. Additional issue.
p Praliminary.

Source: Based on subscription and allotment reports. For detail of of ferings see Table 4 .

1. Excludes 1-1/2\% Treasury notes issued in exchange to holders of nonmarketable 2-3/4\% Treasury bonds, Investment Series B-1975-80.
2/ Includes trust companies and stock savings banks.
3 Includes partnerships and personal trust accounts.
4/ Exclusive of banks and insurance companies.
5/ Consists of trust, sinking, and investment funds of State and local governments and their agencies.
6/ Includes savings and loan associations, nonprofit institutions, and investments of foreign balances and international accounts in this country.
I Issued as a rollover of quarterly one-year bills.
8/ Offerings subject to allotment, were made for the purpose of paying off maturing securities in cash. Holders of the maturing securities
were not offered preemptive rights to exchange their holdings but were permitted to present them in payment or exchange, in whole or in part, for the new issues.

Offerings consist of anditional $\$ 100$ million each of a series of outstanding weekly bills issued in "strip"form. Orferings include 18 series for June 14, 1961; 8 series for November 15, 1961; and 10 series each for November 15, 1962, Ostober 28, 1963, and July 29, 196 , Reopening of earlier issue.
Sold at competitive bidding with allotment distribution based on sales reported by syndicate members.
the existing nurne nonthly
14

Issued as a rollover of monthly one-year bills.
Less than $\$ 500,000$. p Preliminary.

## Footnotes to Table 7

Source: Bureau of the Public Debt. Preliminary figures are from subscription and allotment reports; final figures are on "clearance basis" in daily Treasury statement.

1) Original call and maturity dates are used.

2 All by investors other than Federal Reserve Banks.
3 Rolled over into a one-year bill (see Table 4).
4 Holders of the maturing certificates were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the 3-1/4\% notes offered in the amount of around $\$ 6.9$ billion. For detail of offering, see Table 4.
5) Excess of maturing $4-7 / 8 \%$ certificates over allotments of new securities on subscriptions from holders of those certificates (see Table 4, footnotes 6 and 7).
6/ Advance refunding offering. Pursuant to the provisions of section 1037 (a) of the Internal Revenue Code of 1954 as added by Public Law 86-346, approved September 22, 1959, the Secretary of the Treasury has declared that no gain or loss shall be recognized for Federal income tax purposes upon the exchange of the eligible outstanding securities solely for the new securities. For tax purposes, therefore, the investor will carry the new securities on his books at the same amount as he had been carrying the eligible securities exchanged. Gain or loss, if any, upon the securities surrendered in exchange will be taken into account upon the disposition or redemption of the new securitiaa.. See also Table 5.
7. From March 20 through March 22, 1961, owners of $2-1 / 4 \%$ bonds of June $15,1959-62,2-1 / 4 \%$ bonds of December 15, 1959-62, 2-5/8\% notes maturing February 15, 1963, and 2-1/2\% bonds maturing August 15, 1963, were granted the option of exchanging their holdings. The first three were exchangeable for a new $3-5 / 8 \%$ bond due November 15, 1967, and the last for a new $3-3 / 8 \%$ bond due November 15, 1966. Exchanges were subject to allotment if subscraptions exceeded $\$ 5$ billion for the bonds of 1967 or $\$ 3$ billion for the bonds of 1966 .
8 Tax anticipation issue; for detail of offerings beginning 1961, see Table 4; for amounts redeemed for taxes and for cash see "Note" below.
2 Holders of the maturing certificates and notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the $\$ 5,250$ million offering of $3 \%$ certificates or the $\$ 2,500$ million offering of $3-1 / 4 \%$ notes. For detail of offering, see Table 4.
10 Excess of maturing 4-3/8\% certificates and $3-5 / 8 \%$ notes over allotments of new securities on subscriptions from holders of those certificates and notes (see Table 4, footnotes 12 and 13).
11. Reopening of an earlier issue.

12 \$1,569 million was redeemed for cash and $\$ 168$ million was exchanged for the tax anticipation bills dated March 23, 1962 (see Table 4).
13 Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the $\$ 6,500$ million offering of $3-1 / 2 \%$ certificates, the $\$ 1,500$ million offering of $4 \%$ bonds, or the $\$ 750$ million offering of $4-1 / 4 \%$ bonds. For detail of offering, see Table 4 .
14 Excess of maturing $4 \%$ notes and $3-1 / 4 \%$ notes over allotments of new securities on subscriptions from holders of those notes (see Table 4, footnotes 27 and 28).
15 From September 10 through September 12, 1962, owners of securities maturing February 15, $1963(3-1 / 2 \%$ certificates, 2-5/8\% notes, $3-1 / 4 \%$ notes), and May 15, 1963 (3-1/4\% certificates, $3-1 / 4 \%$ notes, $4 \%$ notes) were granted the option of exchanging their holdings, subject to allotment if subscriptions exceeded the offering limits of $\$ 6$ billion for the notes and $\$ 3$ billion for the bonds. Called on August 14, 1962, for redemption on December 15, 1962. Holders of the maturing one-year bills were offered the option to exchange the bills for the tax anticipation bills dated October 15, 1963 (sce Table 4, footnote 45).
18/ Holders of the maturing certificates and notes were not offered preemptive rights to exchange their holdings, but were permitted to
present them in payment or exchange, in whole or in part, for the $\$ 7,60 \mathrm{million}$ offering of $3-7 / 8 \%$ notes. For detail of offering, see Table 4.
19 Excess of maturing $3-1 / 8 \%$ certificates and $4-7 / 8 \%$ notes over allotments of new securities on subscriptions from holders of those certificates and notes (see Table 4 , footnotes 47 and 48).
20. Tax anticipation bills issued to replace the maturing one-year bills (see Table 4, footnote 50).
21. From January 13 through January 17, 1964, owners of securities maturing August 15, 1964 ( $3-3 / 4 \%$ notes and 5\% notes), November 15, 1964 ( $3-3 / 4 \%$ notes and $4-7 / 8 \%$ notes), February 15, 1965 ( $2-5 / 8 \%$ bonds), and May 15, 1965 ( $4-5 / 8 \%$ notes) were granted the option of exchanging their holdings subject to allotment if subscriptions exceeded the of fering limits of $\$ 4$ billion for the $4 \%$ bonds and $\$ 750$ million for the $4-1 / 4 \%$ bonds. Subscriptions to the $4-1 / 4 \%$ bonds exceeded the limitation. For allotment details see Table 4, footnote 52.
22. Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the $3-7 / 8 \%$ notes offered in the amount of about $\$ 4.0$ billion. For detail of offering, see Table 4.
23/ Excess of matuxing $5 \%$ notes and $3-3 / 4 \%$ notes over allotments of new securities on subscriptions from holders of those notes (see Table 4 , footnotes 59 and 60).
24 Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whola or in part, for the $4 \%$ notes offered in the amount of about $\$ 91 / 4$ billion. For detail of offering, see Table 4.
25 Excess of maturing $4-7 / 8 \%$ notes and $3-1 / 4 \%$ notes over allotments of new securities on subscriptions from holders of thnsa notes (see Table 4 , footnotes 62 and 63).
26) Holders of the maturing bonds were not offered preemptive rights to exchange their holdings, but were pernitted to present them in payment or axchange, in whole or in part, for the $4 \%$ notes offered in the amount of about $\$ 2,170$ million. For detail of offering, see Table 4.
27/ Excess of maturing $2-5 / 8 \%$ bonds over allotments of the new security on subscriptions from holders of those bonds (see Table 4, footnotes 66 and 67).

## p Preliminary.

Source: Daily Tressury statement; Office of Debt Analysis in the Office of the Secretary.
Note: In these tables salas of Series $A-F$ and $J$ bonds ara included at issue price, and redemptions and amounts outstanding at current redemption velua. Series $G, H$, and $K$ are included at face value throughout. Maturad bonds which have been redeemed are included in redamptions. Matured $J$ and $K$ bonds outstanding are included in the intarest-bearing debt until all bonds of the annual serles heve matured, and are than transferred to matured debt on which interest has cessed.
1 Seles and redemption figures includa exchenges of minor amounts of (1) matured Series E bonds for Series $G$ and $K$ bonds from May 1951 through April 1957 and (2) Serias $F$ and J bonds for Series $H$ bonds beginning Jenuery 1960; however, they exclude exchanges of Serles $E$ bonds for Series H bonds, which are reported in Table 3.
2) Details by series on a cumlative besis and by parioda for Series A-D combined will be found in the February 1952 and pravious issues of the Tressury Bulletin.
3 Becauae there is a normal lag in classifying redemptions, the distribution of redemptions between seles price and accruad diacount has been estimated. Beginning with the Treasury Bullatin of March 1961 tbe
method of distributing redemptions betwean sales price and accrued discount hes baen changed to raflect the distribution shown in final reports of clessified rademptions. All periods shown have been revised on this basis.
Series $F$ and G sales were discontinued April 30, 1952, and Serias J and $K$ sales ware discontinued April 30, 1957. Sales figuras after April 30, 1957, represant edjustments.
2/ Includes exchanges of Series 1941 F and $G$ gavings bonds for $3-1 / 4 \%$ markatabla bonds of 1978-83.
6/ Includes exchanges of Series 1948 F and $G$ bonds for $4-3 / 4 \%$ marketabla notes of 1964.
7/ Includes exchangas of Series 1949 F and $G$ bonds for $4 \%$ marketable bonds of 1969.
8) Includes axchanges of Series 1950 F and G bonds for 3-7/8\% marketable bonds of 1968.
2) Includes exchanges of Saries 1951 and 1952 F and G bonds for $3-7 / 8 \%$ marketsble bonds of 1971 and $4 \%$ marketable bonds of 1980.
10/ Represents changes in the amounts of redemptions not yat classified betwean matured and unmatured issues.

* Lass than $\$ 500,000$.

Table 1.- Distribution of Federal Securities by Classes of Investors and Types of Issues
(In millions of dollars)

Source: Dally Treasury statement for total amounts outstanding; reports from agencies and trust funds for securities held by U. S. Government investment accounts; and reports from Federal Raserve Systam for sacurities beld by Federal Reserve Banks.
1/ Includes certain debt not subject to statutory limitation. For amounts subject to limitation, see page 1.
2) Includes accounts under the control of certain U. S. Government agencies

3/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government Investment accounts and Federal Reserve Banks.
4 Consists of guaranteed securities held outside the Treasury. All are public marketable issues.

6/ Excluaive of banks and insurance companies.
7) Consists of the investments of forelgn balances and intarnational accounts in the United States.
8/ Consists of savings and loan associations, nonprofit institutions, corporate pension trust funds, and dealars and brokers.
2/ Impediate postwar debt peak. p Preliminary.

The monthly Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey currently account for about 90 percent of all such securities held by these institutions. The similar proportion for corporations and for savings and loan associations is 50 percent, and for State and local governments, 70 percent. Data were first published for banks and insurance companies in the May 1941 Treasury Bulletin, for
corporations and savings and loan associations in the September 1960 Bulletin, and for State and local governments in the February 1962 Bulletin.

Holdings by commercial banks distributed according to Federal Reserve member bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds eare published quarterly, first appearing in the March 1954 Bulletin.

1/ Includes public debt not subject to statutory limitation. For amount subject to limitation, see page 1.
2/ Excludes trust departments.
3/ Includes trust companias and, beginning with figures for July 1949, also includes stock savings banks. Previously, those banks were reportad as a separate classification.
4 New series; see March 1964 Treasury Bulletin, page 70.
Included with all other investors are thosa banks, insurance companies, savings and loan associations, corporations, and State and local government funds not reporting in the Treasury Survey.
6/ United States savings bonds, Saries E and J, are reported to the Treasury Survey at maturity valua but have been adjusted to current redemption value for use in this statament.

7/ Includes $\$ 18$ million depositary bonds held by commercial banks not included in the Treasury Survey.
8/ Holdings by reporting investors not available.
2) Guaranteed securities are those held outside the Treasury.

10 Excludes $\$ 998$ miliion of bills maturing May 31, 1966 for which settlement was made June 1, 1965. Ownership distribution is not available by investor classes.
11. Includes only publicly offered issues.

12 The proprietary interest of the United States in these banks ended in July 1951.
13. The proprietary interest of the United States in these banks ended in June 1947.

* Less than $\$ 500,000$.

## Section II - Interest-Bearing Securities Issued by Federal Agencies But Not Guaranteed by the United States Government

(Par valuas - in millions of dollars)

Current market quetations shown here are over-thecounter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York.

The securities listed include all regularly quoted public marketable securities $18 s u e d$ by the United States Treasury. Outstanding lesues which are guaranteed by the United States Government are excluded.

Footnote at end of Table 3.

Table 3.- Treasury Bonds
(Price decimals are 32 nds)

1 Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior datas are the mean of closing
bid and ask quotations. "When issuad" prices ara included in the
history beginning Octobar 1941. Dates of highs and lows in case of
recurrence are the latest dates.

2/ On callable issuea markat conyention treats the yiald to earlieat call date as mora significant when an issua is selling abova par, and to maturity when it is selling at par or below.
3 Included in the avarage yleld of long-term taxable Treasury bonds as shown under "Average Ylelds of Long-Term Bonds."

Table 1.- Average Yields of Treasury and Corporate Bonds by Periods
(Percent per annur)

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior perlods were computed on the besis of mean of closing bid and ask quatetions. Moody's Investor Service la the source for the average of A.aa corporale tonds.

1) Serles includes bonds on which the interest income is subject to
normal tax and surtax and which are neither due nor callable before a given number of years as folows: April 1953 to dete, 10 years;
April 1952 - March 1953, 12 years; October 1941 - March 1952, 15 years For bonds currently in the series, see Teble 3 under "Market Quotations on Treasury Securities" in this 1ssue of the Bulletln.
$\frac{2}{3}$ One or more new long-term bonds added to the average (see footnote 1).
3/ An existing bond dropped from the average (see footnote 1).

1/Manihly averages of aorly figures. $\quad$ / See fooinale Ito Table lunder "Average Yields of Long-Term Bonds."

Source: Circulation Statement of United States Money.
1/ Excludes money held by the Treasury and money held by or for the account of the Federal Reserve Barks and agents.
2/ The following paper currencles are in process of retirement and are redeemable from the ganeral fund of the Treasury: Gold certificates issued before January 30, 1934, silver certificates issuad before July 1, 1929, Treasury notes of 1890, Federal Reserve notes issued before the series of 1928, Federal Reserve Bank notes, and national bank notes. Tbe Treasury notes of 1890 have been in process of retirament since March 1900 ( 31 U.S.C. 411) upon receipt by the Treasury, the Federal Reserve Bank notas since June 12, 1945 ( 12 U.S.C. 445 note) and the national bank notes since December 23, 1915 (12 U.S.C. 441) Retirement of the others was authorized by the old Serles Currency Adjustment Act, approved June 30, 1961 (31 U.S.C. 912-916). The act authorizes the Secretary of the Traasury to determine from time to time the amount of currency of the following types which have been destroyed or lost, and to reduce the amounts tbereof on the books of the Treasury: Cold certificates 1ssued before January 30 , 1934; ailvar cartificatas, United States notes, Federal Reserve Bank notes, and nationsl bank notas all 1ssued before July 1, 1929; Federal Resarve notes 1 ssued prior to the sarles of 1928; and Treasury notes of 1890 . Accordingly, the Secretary of the Treasury has detarmingd
that the following paper currencies have been destroyed or irretrievably lost and so will never be presented for redemption: On October 20, 1961, $\$ 1$ million of Treasury notes of 1890; on August 27, 1962, $\$ 9$ million of gold certificates, $\$ 15$ million of silver certificates, $\$ 18$ million of Federal Reserve notes, $\$ 1$ million of Federal Reserve Bank notes, and $\$ 15$ million of national bank notes; and on November 16, 1964, $\$ 6$ million of gold certificates, $\$ 14.5$ million of silver certificates, $\$ 100$ thousand of Treasury notes of 1890 , $\$ 24$ million of United States notes, $\$ 14$ million of Federal Reserve notes, $\$ 1$ million of Federal Reserve Bank notes, and $\$ 13.5$ million of national bank

4 Highest amount to data.
Includes $\$ 427$ thousand issued before July 1, 1929.
6/ Includes $\$ 4$ million issued prior to the series of 1928.
7/ Based on the Bureau of the Census estimated population. Through fiscal 1958 the estimated population is for the conterminous United Statee (that 1s, exclusive of Alaska, Hawaii, and the outlying areas such as Puerts Rico, Guam, and the Virgin Islands). Beginning with Tiscal 1959 the estimates includa Alaska, and with fiscal 1960, Hewaii. * Less than $\$ 500,000$.
$r$ Revised.

Note: The United States also has a gold tranche position in the International Monetary Fund, amounting to $\$ 907.8$ million as of June 30, 1965. In accordance with Fund policies the United States has the right to draw foreign currencies equivalent to this amount from the Fund virtually automatically if needed. Under appropriata circumstances, the United States could draw additional amounts equal to the United States quota of $\$ 4,125$ million. In addition, the United States has a $\$ 258.8$ million gold claim on the Fund arising from a gold subscription to the Fund in June 1965, for a U.S. quota increase which has not yet become effective.

Fund with the right of repurchase, the proceeds of which are invasted by the Fund in ס.S. Government securities; as of Juns 30, 1965, this amounted to $\$ 800$ million. Of this amount, the United States purchased $\$ 200$ million in 1956 , $\$ 300$ million in 1959, and $\$ 300$ million in 1960.
2) Includes gold in Exchange Stabilization Fund, which is not included in Treasury gold figures shown in "Circulation Statement of United States Money." See "Monetary Statistics," Table 3.
3/ Includes holdings of Treasury and Federal Reserve Systam.

## Background

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information on the principal types of data and the principal countries is reported monthly, and is published monthly in the "Treasury Bulletin." Supplementary information is published less frequently. Reports by banks, bankers, securities brokers and dealers, and nonfinancial business concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. These statistics are consolidated by the Treasury and published as promptly as possible.

The reporting forms and instructions used in the $\operatorname{coll} \theta$ tion of the statistics have been revised a number of times. The most recent revision became effective with reports covering data as of May 31, 1963.1/ A detailed description of the content of the statistics, including the changes instituted, appeared in the July 1963 issue of the "Treasury Bulletin," pages 79-81. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

## Basic definitions

The term "foreigner" as used in the Treasury reports covers all institutions and individuals domiciled outside the United States, including United States citizens domiciled abroad and the foreign subsidiaries and offices of United States banks and business concerns; the central governments, central banks, and other official institutions of foreign countries, wherever located; and international and regional organizations, wherever located.

In general, data are reported opposite ue foreign country or geographical area in which the foreigner is domiciled. Data pertaining to branches or agencies of foreign official institutions are reported opposite the country to which the official institution belongs. Data pertaining to international and regional organizations are reported opposite the classification "International," "European regional," or "Latin American regional," as appropriate, except for the Bank for International Settlements and the European Fund, which are included in the classification "Other Western Europe."
"Short-term" refers to obligations payable on demand or having an original maturity of one year or less, without deduction of any offsets. "Long-term" refers to obligations having an original maturity of more than one year, and includes securities having no contractual maturity.
Exclusions
The data published herein do not cover all types of capital movements between the United States and foreign countries. The data reported to and published by the Treasury Department exclude entirely the intercompany capital transactions of business enterprises in the United States with their own branches and subsidiaries abroad or with their foreign parent companies; such transactions are reported by business firms to the Department of Commerce. Data on the capital transactions of the United States Government and on shipments and receipts of United States currency are also excluded from the Treasury reports. Certain capital transactions not effected through reporting institutions, such as securities transactions carried out entirely abroad, are not recorded in the Treasury reports. Consolidated data on all types of capital transactions are published by the Department of Commerce in its regular reports on the United States balance of payments.

The liabilities data exclude nonnegotiable, noninterestbearing special notes of the United States held by the InterAmerican Development Bank and the International Development Association.

The data on securities transactions and on foreign holdings of U.S. Goverment bonds and notes exclude nonmarketable U.S. Treasury notes, foreign series, and non' marke table U.S. Treasury bonds, foreign currency series (see "International Financial Statistics" section, Table • 2).

Presentation of statistics
Data collected monthly on the Treasury Foreign Exchange Forms are published in the "Treasury Bulletin" in three sections. Section I provides a summary of the principal data by period; Section II presents data by country and by period; and Section III shows detailed breakdowns of the latest available preliminary data.

Section IV presents supplementary data which are reported less frequently than monthly. Beginning with the April 1965 issue, these tables are published each month.

Section I - Summary by Periods
Table 1.- Net Movements of Banking Funds and Transactions in Long-Term Securities with Foreigners $1 /$
(In millions of dollars; negative figures indicate a net outflow of capital from the United States)

1/ For an explanation of statistical presentation and exclusions, see headnote on page 83.
2/ Through 1949, transactions in U. S. Government bonds and notes include transactions in domestic corporate bonds
3/ Data below the line include changes in liablitiles and claims reported by a number of banks included in the series beginning December 31, 1961.

4 Change includes claims previously held but first reported as of May 31, 1963; as of that date such claims amounted to $\$ 85.6$ million. Also Includes claims reported by banks for the first time as of December 31 1963; as of that date such claims amounted to $\$ 193.2$ million, represent-
ing in part claims previously held by banks but not reported.
5 Change in short-term liabilities includes a net increase of $\$ 20.1$ million as of December 31, 1964, arising from changes in reporting coverage.
6/ Data below the line on changes in claims reflect the exclusion from the series beginning December 31, 1964 of short-term U.S. Government claims previously included; and the addition to the series of claims arising from the inclusion of claims previously held but first reported as of December 31, 1964, and from revisions of preliminary figures.

$\frac{1}{2}$ For exclusions see headnote on page 83.
$\frac{2}{3}$ Includad with "Other foreigners."
Included witb "Other claims."
Beginning in August 1956 and also in April 1957, cartain accounts previously classifiad as "Foreign banks" ara included with "Official institutions."
5/ Differs from 1961 end-year data on the preceding line by inclusion of liabilities and claims reported by a number of banks included in the series beginning December 31, 1961.
6) Includes reported liabilities to foreign official institutions beginning Octobar 1961. Figures for selacted dates are as follows: end 1961, $\$ 46.3$ million; end $1962, \$ 47.9$ million; end $1963, \$ 30.1$ million; September 1964, \$30.1 million.
7) Includes claims previonsly held but first reported as of May 31, 1963; as of that date such claims amounted to $\$ 85.6$ million. Also includes
claims amounting to $\$ 193.2$ million reported by banks for the first time as of December 31, 1963, representing in part claims previously held by banks but not reported.
8/ Sbort-term liabilities include a net incrase of $\$ 20.1$ million arising from changes in reporting coverage, distributed as follows: "Foreign banks" $+\$ 25.6$ million, "Other foreigners" +22.5 million, and "Payable in foreign currencies" - $\$ 27.9$ million.
9/ See footnote 10.
10 Data on claims below the line differ from claims above the line because of the exclusion as of Decembar 31, 1964 of $\$ 58.1$ million of short-term U. S. Government claims previously included; and bacause of the addition of $\$ 440.7$ million of short-term claims and $\$ 279.2$ million of long-term claims arising from the inclusion of claims previously held but first reportad as of December 31, 1964, and from revisions of preliminary figures. p Preliminary. r Revised.

Note: Data represent estimated official and private noldings of U. S. Government sacuritiaa with an original maturity of more than one year. (For axclusions see headnote on page 83.) Annual and monthly data are shown in this section beginning February 1964. For quarterly data see Section IV, Table 2, through June 1964; and "Intarnational Financial Statistics," Table 4, beginaing Saptember 1964. Data as of Dacember 31, 1961-63 are on the basis of a November 30, 1960 survey and ragular monthly raports of securities transactions (see Table 4). Data for December 31, 1963, also are shown on ths basis of a July 31, 1963, survey and the monthly
transactions reports. For statistical convenience, the new aeries is introduced as of December 31, 1963, ratber than as of the aurvey date

The variations between tha two series ara belleved to result from omissions from, or errors in reporting, shifts in ownership not involving purchases or sales through U.S. banks or brokers, and physical transfars of aecurities to and from abroad. It is not poasible to reconcila the two series or to revise figures for earlier dates.
Less than $\$ 500,000$.

Section IV - Supplementary Data by Countries
Table 1.- Short-Term Liabilities to and Claims on Foreigners Reported by Nonfinancial Concerns $1 /$

1) As reported by exporters, importers, industriel and comercial firms and ather nonfinencial concerns in the Unitad Stotes. Data exclude claims held through Inited Stetes banks, end intercompany accounts between United States companies and their foreign affiliates. Baginning with the May 1965 issue, the detalled breakdown es of the most recent date for which dete ere evailable will be shown in Tabla IA of thie Section
2) Data are included from firms reporting for the first time as of

Marcb 31, 1963 (seventh revised series), and December 31, 1963 (eighth revised series). The eigbth revised series also includes claims previouely hald but not reported. The ninth revised series includes reports from firms beving $\$ 500$ thousand or more of liebilities or of cleims; for previaus series the exemption level was $\$ 100$ tbouesnd. The exemption lavel was reised to relieve smaller firas of reporting, without affecting the reliability of the statistics.
