Auctions of 2-Year and 4-Year Notes

On September 10 the Treasury announced that it would auction \$4,750 million of 2-year and \$3,250 million of 4-year notes to refund \$6,064 million of notes maturing September 30, [98], and to raise \$1,936 million new cash. The notes offered were Treasury Notes of Series V-1983, to be dated September 30, 1981, due September 30, 1983, and Treasury Notes of Series J-1985, to be dated September 30, 1981, due September 30, 1981, due September 30, 1981, due September 30, 1985, with interest payable on March 31 and September 30 in each year until maturity. Coupon rates of 16% and 15-7/8%, respectively, were set after the determinations as to which tenders were accepted on a yield auction hasis.

Tenders for the 2-year notes were received until 1:30 p.m., WDST, September 16, and totaled \$8,481 million of which \$4,751 million was accepted at yields ranging from 16.03%, price 99.050, up to 16.17%, price 99.719. Noncompetitive tenders for \$1 million or less from any one bidder were accepted in full at the average yield of accepted competitive tenders, 16.12%, price 99.802. These totaled \$9.50 million. Competitive tenders accepted from private investors totaled \$3.021 million. The \$4.751 million of accepted tenders also included \$755 million of tenders at the average price from Federal Reserve banks as agents for foreign and international monetary authorities in exchange for maturing securities.

In addition to the \$4,751 million of tenders accepted in the auction process, \$400 million of tenders were accepted at the average price from Government accounts and Federal Reserve banks for their own account in exchange for maturing securities.

Tenders for the 4-year notes were received until 1:30 p.m., EDST, September 23, and totaled \$7,492 million, of which \$3,252 million was accepted at yields ranging from 15.80%, price 99.957, up to 15.93%, price 99.842. Noncompetitive tenders for \$1 million or less from any one bidder were accepted in full at the average vield of accepted competitive tenders, 15.91%, price 99.899. These totaled \$705 million. Competitive tenders accepted from private investors totaled \$1,965 million. The \$3.252 million of accepted tenders also included \$582 million of tenders at the average price from Federal Reserve banks as agents for foreign and international monetary authorities in exchange for maturing securities.

In addition to the \$3,252 million of tenders accepted in the auction process, \$199 million of tenders were accepted at the average price from Government accounts and Federal Reserve banks for their own account in exchange for maturing securities and \$478 million of tenders were accepted at the average price from Federal Reserve banks as agents for foreign and international monetary authorities for new cash.

Tenders were received in both auctions at Federal Reserve banks and brauches and at the Bureau of the Public Debt, Washington, D.C. Rearer and registered notes were authorized to be issued in denominations of \$5,000, \$10,000, \$100,000, and \$1,000,000 for both loans and in a \$1,000 denomination for the 4-year notes.

Auction of 20-Year 1-Month Bonds

On September 22 the Treasury announced that it would auction \$1,750 million of 20-year 1-month bonds to raise new cash. The bonds offered were Treasury Bonds of 2001, to be dated October 7, 1981, due November 15, 2001, with interest payable on May 15 and November 15 in each year until maturity. A coupon rate of 15-3/4% was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the bonds were received until 1:30 p.m., EDST, September 30, and totaled \$3,160 million, of which \$1,751 million was accepted at yields ranging from 15.72%, price 100.062, up to 15.82%, price 99.45%. Noncompetitive tenders for \$1 million or less from any one bidder were accepted in full at the average yield of accepted tenders, 15.78%, price 99.699. These totaled \$274 million. Competitive tenders accepted from private investors totaled \$1,477 million.

Tenders were received at Federal Reserve banks and branches and at the Bureau of the Public Debt, Washington, D.C. Bearer and registered bonds were authorized to be issued in denominations of \$1,000, \$5,000, \$10,000, \$10,000, and \$1,000,000.

Auction of 7-Year Notes

On September 22 the Treasury also announced that it would auction \$3,000 million of 7-year notes to raise new cash. The notes offered were Treasury Notes of Series F-1998, to be dated October 14, 1981, due October 15 1988, with interest payable on April 15 and October 15 in each year until maturity. A coupon rate of 15-3/8° was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the bonds were received until 1:30 p.m., EDST, October 7, and totaled %6.590 million, of which %3.001 million was accepted at vields ranging from 15.33% price 100.186, up to 15.44%, price 99.725. Noncompetitive tenders for %1 million or less from any one bidder were accepted in full at the average vield of accepted tenders, 15.40%, price 99.89%. These totaled %50% million. Competitive tenders accepted from private investors totaled %2,490 million. In addition to the %3,000 million of tenders accepted in the auction process, %467 million of tenders were accepted at the average price from Federal Reserve banks as agents for foreign and international monetary authorities for new cash.

Tenders were received at Federal Reserve banks and branches and at the Bureau of the Public Debt Washington, D.C. Bearer and registered notes were authorized to be issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

52-week Bills

On September 25 tenders were invited for approximately \$5,000 million of 364-day Treasury hills to be dated October 8, 1981 and to mature October 7, 1982. The issue was to refund \$4,091 million of 359-day bills maturing October 8. Tenders were opened on October 1. They totaled \$9,036 million, of which \$5,004 million was accepted, including \$254 million of noncompetitive tenders from the public and \$1,207 million of the hills issued at the average price to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. The average bank discount rate was 14,580%.

13-week and 26-week Bills

Issues of regular weekly Treasury hills in September totaled approximately \$36,000 million. These issues were offered to refund hills maturing in the amount of \$33,600 million, and to raise about \$2,400 million in new cash. In the 13-week series there were four issues of \$4,500 million. In the 26-week series there were four issues of \$4,500 million. Average rates for the new issues are shown in the following table.

Date of Issue		verage rate count basis)
1891	13-week	26-week
eptemher 3	15.583	15.646
10	15.611	15.795
17	14.412	14.657
24	14.198	14.129

Treasury Bills (Other than Cash Management Bills) - General

Treasury bills are sold on a discount basis under competitive and noncompetitive bidding, and at maturity their par amount is payable without interest. All series are issued entirely in book-entry form in a minimum amount of \$10,000 and in any higher \$5,000 multiple, on the records either of the Federal Reserve banks and branches, or of the Department of the Treasury.

Tenders are received at Federal Reserve hanks and branches and from individuals at the Rureau of the Public Debt, Washington, D.C. Each tender must be for a minimum of \$10,000. Tenders over \$10,000 must be in multiples of \$5,000. Payment for the full par amount applied for must accompany all tenders submitted for bills to be maintained on the book-entry records of the Department of the Treasury. A cash adjustment will be made for the difference between the par payment submitted and the actual issue price as determined in the auction. No deposit need

accompany tenders from incorporated banks and trust companies and from responsible and recognized dealers in investments securities for bills to be maintained on the book-entry records of Federal Reserve banks and branches. A deposit of 2 percent of the par amount of the bills applied for must accompany tenders for such bills from others, unless an express guaranty of payment by an incorporated bank or trust company accompanies the tenders.

Noncompetitive tenders (without stated price), usually for \$500,000 or less from any one bidder, for each issue of 13-week, 26-week, and 52-week bills, are accepted in full at the weighted average price of accepted competitive bids for an issue.

Payment for accepted tenders must be made or completed on the date of issue, in cash or other immediately available funds or in a like par amount of Treasury securities maturing on or before that date. Payment for 13-week, 26-week, and 52-week bills may not be made by credit in Treasury tax and loan accounts.

Nonmarketable Foreign Series Securities - Foreign Governments

Dollar denominated foreign series securities issued to official institutions in September totaled \$465 million, consisting of 3 bills. Redemptions during the month totaled \$717 million. At the end of September, dollar denominated foreign series securities outstanding totaled \$15,487 million. (Details are shown on page 50.)

Public Debt Limit

Public Law 97-49, signed by the President on September 30, 1981, raised the temporary public debt limit to \$1,079.8 billion through September 30, 1982. Due to the delay in passage of this legislation, the weekly bill auctions originally scheduled to be held on Monday, September 28 were postponed, and then later rescheduled for Wednesday, September 30. No other Treasury offerings were affected.

Footnotes to Table FFO-1

Monthly Treasury Statement of Receipts and Outlays of the United States Government.

- Budget estimates are based on the mid-session review of the 1982 Budget, released on July 15, 1981, by the Office of Management and Budget.
- For detail see Table FF0-3. For detail see Table FF0-6.

- For detail see Table FFO-6.
 Beginning fiscal 1975, balances "Within general account of the U.S.
 Treasury" are presented in columns 9 and 13.
 Represents holdings of special drawing rights, less certificates
 issued to Federal Reserve banks.
 "Reserve position" is now the appropriate term to refer to reserve
 assets acquired by the U.S. by providing assets to the IMF, due to
 the obsolesence of the "gold tranche" terminology.
 The joint Treasury-Office of Management and Budget press statement,
 released with the Monthly Treasury Statement, has adjusted these totals
 to include operating expenses and interest receipts of the Exchange
 Stabilizations Fund. The totals in the press release are \$493.6 Stabilizations Fund. The totals in the press release are \$493.6 billion for outlays and -\$27.7 billion for the deficit.
- A/ Includes the fiscal year 1981 transactions totaling \$15,056 and the prior balance of \$29,401 in the contra asset accounts entitled "Dollar deposits with the IMF" and "Miscellaneous asset accounts" in order to reflect the
- with the IMF" and "Miscellaneous asset accounts" in order to reflect the U.S. reserve position as reported by the IMF.

 9/ Includes: public debt accrued interest payable to the public, allocations of special drawing rights, deposit funds, miscellaneous asset and liability accounts, and as of July 1974, the gold balance.

 10/ Includes: Seigniorage; increment of gold; fiscal 1969 conversion of certain corporations to private ownership; fiscal 1970 reclassification of Commodity Credit Corporation certificates of interest; fiscal 1974 conversion of interest receipts of Government accounts to an accrual basis; and net outlays of off-budget Federal agencies. Also, includes rural electrification and telephone revolving fund since May 12, 1973; Postal Service fund since July 1973; Federal Financing Bank since July 1974; housing for the elderly or handicapped fund from August 22, 1974, through September 30, 1977; and Pension Benefit Guaranty Corporation from September 17, 1974, through September 30,1980.

 11/ For detail see Table FD-5.
- 11/ For detail see Table FD-5. n.a. Not available.
- Revised.

ce: Monthly Treasury Statement of Receipts and Outlays of the United States Government. Budget estimates are based on the mid-session review of the 1982 Budget, released on July 15, 1981, by the Office of

review of the 1982 Budget, released on July 15, 1981, by the Office of Management and Budget.

10 Outlays consist of disbursements less proprietary receipts from the public and certain intrabudgetary transactions. Agency shifts are shown in this table beginning with the period of such shifts; figures prior to the shifts have been adjusted.

11 Amounts of \$.2 million, +\$1.2 million, +\$1.8 million, +\$1.78/million, +\$5.8 million, +\$70.4 million, respectively, were reclassified for period october 1,1980, through April 30, 1981, from Executive Office of the President and funds appropriated to the President to Department of Health and Human Services.

12 Mounts of \$15.4 million and \$7.4 million in December 1980 and January

Health and Human Services.

Amounts of \$15.4 million and \$7.4 million in December 1980 and January 1981, respectively, were reclassified from Department of Energy, strategic petroleum reserve program to funds appropriated to the President, petroleum reserves.

For fiscal year 1981, beginning this month, "gains and losses on valuation adjustments for quota reserve position" are heing applied to current year surplus or deficit under "Funds appropriated to the President: International monetary programs."

current year surplus or dericit unger rungs appropriated to the President: International monetary programs."

Pursuant to Public Law 95-91, as of October 1, 1977, all functions of the Energy Research and Development Administration, Federal Energy Administration, Federal Power Commission, certain functions of Interior

(Bonneville Power Administration and other power administrations),

-1,712

4,997

(Bonneville Power Administration and other power administrations), certain other departments, and the Interstate Commerce Commission were transferred to the Energy Department.

Cumulative year-to-date figures may not add due to budget realignments. Individual agency totals will be detailed as soon as available.

Prior to January 1975, rents and royalties on the Outer Continental

Shelf lands were shown as proprietary receipts from the public for the Laterice Department.

Shelf lands were shown as proprietary receipts from the public for the Interior Department.

Amount of \$561 million in October 1980 has been transferred from undistributed offsetting receipts, rents and rovalties on the Outer Continental Shelf lands, to the applicable account, proprietary receipts from the public for the Interior Department.

Amounts of -5530.3 million, +57.7 million, -5.9 million, -54.2 million, +5.4 million, -51.8 million, -51.8 million, -51.8 million, -51.8 million, Form Interior Department to from Interior Department and royalties on the Outer Continental Shelf lands as undistributed offsetting receipts. Effective October 1, 1980, the Pension Benefit Guaranty Corporation was reclassified to an on-budget agency.

11/Amount of \$516 million, in August 1981 for the entire Maritime Administration within the Commerce Department, has been transferred to the Transportation Department.

the Transportation Department. For content see Table FFO-4.

Monthly Treasury Statement of Receipts and Outlays of the United

States Government.

States Government.

Budget estimates are based on the mid-session review of the 1982 Budget, released on July 15, 1981, by the Office of Management and Budget. Includes receipts from off-budget Federal agencies to the civil service retirement and disability fund as of May 1974.

Beginning fiscal 1974, includes adjustment of interest on public debt issues to convert to the accrual basis. Also, includes Indian tribal funds, judicial survivors annuity fund, foreign service retirement and disability fund, airport and airway trust fund, and other. Prior to January 1975, rents and royalties on the Outer Continental Shelf lands were shown as proprietary receipts from the public for the Interior Department. To conform with the FY 1976 Budget Document's presentation, these amounts were reclassified and are now being shown

as undistributed offsetting receipts. As a result, the detail
will not add to the fiscal year 1974 totals.

4/ Amounts of _-S530.3 million, +S7.7 million, -S.9 million, -\$4.2 million,
+S.4 million, -S17.8 million, -S2.3 million, respectively, were
reclassified for the period October 1, 1980, through April 30, 1981. from
Interior Department to off-budget, rents and royalties on the Outer
Continental Shelf lands, as undistributed offsetting receipts.

5/ Amount of S561 million in October 1980 has been transferred
from undistributed offsetting receipts, rents and royalties on
the Outer Continental Shelf lands, to the applicable account,
proprietary receipts from the public for the Interior Department.

Less than \$500,000.
Revised.

r Revised.

Source: Monthly Treasury Statement of Receipts and Outlays of the United

Source: Monthly Treasury Statement of Receipts and Outlays of the Outley States Government.

Notes: The memorandum sections of various tables in the Budget of the U.S. Government present the trust fund receipt and outlay data on the same concept as columns 3 and 9 above. Trust interfund transactions are payments from one trust fund to another and are excluded in calculating trust fund receipts and outlays. The intragovernmental transactions are payments from Federal funds to trust funds, and vice versa,

but exclude \$17 million in trust payments to Federal funds.

1/ For content see columns 7 and 8.

2/ For content see columns 11 through 14.

3/ Includes net taxes and other receipts, mainly deposits by States and Federal employee retirement contributions.

4/ Excludes trust fund payments to Federal funds such as charge for administrative expenses of Social Security Act.

* Less than \$500,000.

'Obligations' are the basis on which the use of funds is controlled in the Federal government. They are recorded at the point at which the Government makes a firm commitment to acquire goods or services and are the first of the four key events—order, delivery, payment, consumption—which characterize the acquisition and use of resources. In general, they consist of orders placed, contracts awarded, services received, and similar transactions requiring the disbursement of money.

The obligational stage of Government transactions is a strategic point in gauging the impact of the Government's operations on the national economy, since it frequently represents for business firms the Government commitment which stimulates business investment, including inventory purchases and employment of labor. Disbursements may not occur for months after the Government places its order but the order itself usually causes immediate pressure on the private economy.

Obligations are classified according to a uniform set of categories which are based upon the nature of the trans-

action without regard to its ultimate purpose. All payments for salaries and wages, for example, are reported as personnel compensation, whether the personal services are used in current operations or in the construction of capital items.

Federal agencies and firms often do business with one another: in doing so, the "huying" agency records obligations, and the "performing" agency records reimbursements. In Table FO-1, obligations that are incurred within the Government are distinguished from those incurred outside the Government. Tables FO-2 and 3 show only those incurred outside.

Obligation data for the administrative budget fund accounts were first published in the September 1967 Treasury Rulletin and the trust fund accounts were first published in the October 1967 Rulletin. Reginning with the April 1968 Rulletin, the data are on the basis of the budget concepts adopted pursuant to the recommendations of the President's Commission on Budget Concepts.

Source and Availability of the Balance in the Account of the U.S. Treasury

The operating cash of the Treasury is maintained in The operating cash of the Treasury is maintained in Treasury's accounts with the Federal Reserve banks and branches and in tax loan accounts. As the balances in the accounts at the Federal Reserve Banks become depleted, they are restored by calling in (Withdrawing) funds from thousands of financial institutions throughout the country authorized to maintain tax and loan accounts.

Under authority of P.L. 95-147, the Treasury implemented a program on November 2, 1978, to invest a portion of its operating cash in obligations of depositaries maintaining tax and loan accounts. Under the Treasury Tax and Loan investment program, depositary financial institutions select the manner in which they will participate in the program. Depositaries that wish to retain funds deposited in their tax and loan accounts in interest-bearing obligations participate under the Note Option; depositaries that wish to remit the funds to the Treasury's account at Federal Reserve banks participate under the Remittance Oution. ipate under the Remittance Option.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all financial institutions whereby customers of financial institutions deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involves merely the transfer of funds from a customer's account to thetax and loan account in the same financial institution. On occasions, to the extent authorized by the Tieasiry, financial institutions are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the accounts of their customers.

The tax and loan system permits the Treasury to collect funds through financial institutions and to leave the funds in Note Option depositaries and in the financial communities in which they arise until such time at the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its fluctuation operations on Note Option financial institution reserves and the economy.

 $\underline{1}/$ Effective January 1972, the Treasury operating balance excludes the gold balance in Treasury.

2/ Represents deposits in certain commercial depositaries that have been converted from a time deposit to a demand deposit basis to permit greater flexibility in Treasury cash management.

3/ Will not agree with daily Treasury Statement due to rounding.

4/ Represents funds in process of collection by (a) the U.S. Treasury

and (b) commercial banks which have been authorized to defer credit

and (b) commercial banks which have been authorized to deter credit until checks are collected. Data prior to January 1972 included in "miscellaneous items" columns. 5/ Represents demand deposits in National, Foreign, and other bank deposi-taries previously included in time deposits. 6/ The free gold balance cam be readily converted to available funds with Federal Reserve banks.

* Less than \$500,000.

Bureau of Government Financial Operations; figures are on basis

- Source: 8ureau of Government Financial Operations; figures are on bas of telegraphic reports.

 1/ Figures are from the revised Daily Treasury Statement, effective July 1, 1974. Prior data not available.

 2/ Represents transfers from Tax and Loan Note Accounts, proceeds from sales of securities other than Government Account Series, and taxes.

 3/ Represents checks paid, wire transfer payments, drawdowns on letter of credit, redemptions of securities other than Government Account Series, etc.
- of credit, redemptions of securities of the securities of the payment in the form of Series, etc.

 Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of U.S. Government securities purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.
- Includes United States savings bonds, savings notes, retirement plan and tax and loss bonds. United States savings notes first offered for sale as of May 1, 1967 and were discontinued after June 30, 1970. Retirement plan bonds first offered for sale as of January 1, 1963; tax and loss bonds first issued in March 1968.

 Taxes eligible for credit consist of those deposited by taxpayers in the Tax and Loan depositaries, as follows: Withheld income taxes beginning March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; a number of excise taxes beginning July 1953; estimated corporation income taxes beginning April 1967; all corporation income taxes due on or after March 15, 1968 and FUTA taxes beginning April 1970.

 * Less than \$500,000.

Bureau of Government Financial Operations

rce: Bureau of Government Financial Operations e: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date (the amount actually borrowed in the case of securities sold at a premium or discount, beginning with May 1960). The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual rate is The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual rate is computed by dividing the computed annual interest charge for the total, or for any group of issues, by the corresponding principal amount.

Beginning with deta for December 31, 1958, the computation is besed on

- the rate of effective yield for Issue sold at premium or discount. Prior to that date it was based on the coupon rate for all issues. As of July 1974, includes Federal Financing 8ank. Excludes Federal Financing 8ank. Included in debt outstanding at face amount, but discount value is
- used in computing annual interest charge and annual interest rate. On United States savings bonds the rate to maturity is applied
 - against the amount outstanding.
 As of July 31, 1974, Monthly Statement of the Public Debt of the U.S., the column heading was changed to "Government account series" which includes Treasury deposit funds in addition to those accounts propriously shown as apacial issues, formerly included in "Other" column.

2/ For details of securities outstanding, see Table TSO-5.
3/ Effective December 31, 1968, banks for cooperatives and Federal Intermediate credit banks were converted to private ownership pursuant to provision of Public Law 90-582, October 17, 1968.
4/ Includes Federal Home Loan Mortgage Corporation mortgage backed bonds beginning November 1970.
5/ Effective September 30, 1968, Federal National Mortgage Association was converted to private ownership pursuant to provisions of the Housing and Urban Development Act of 1968 (P.L. 90-448).
6/ Includes mortgage backed bonds beginning June 1970.

Source: Bureau of Government Figancial Operations and Monthly Treasury
Statement of Receipts and Outlays of the U.S. Government.
Note: The Export-Import Bank was moved within the Budget effective
October 1, 1976 pursuant to Public Law 93-646. Adjustments are made
to include totals for the period it was outside the Budget (August 17,
1971 through September 30, 1976). Also, adjustments are made to reflect certain Export-Import Bank borrowing transactions ow classified
as agency debt. These transations were previously reported as offbudget negative outlays.

1/ Tacludes unredeemed matured securities outstanding on which interest
has ceased.

Note: For debt subject to limitation since 1940, see Table 21 of the
Statistical Appendix to the Annual Report of the Secretary of the
Treasury of the State of the Finances for fiscal 1980. For a summary
of legislation of debt limitation under the Second Liberty Bond.Act
and the amounts of limitation, see Table 32 of the Statistical Appendix.

- Adjusted to exclude notes to IMF and other international lending organizations from public debt and include them in "Other debt" to conform with the budget presentation and the source for this table.
 Gonsists of guaranteed debt of Government agencies, specified participation certificates, District of Columbia Stadium Bonds and notes of interpretional lending experiences. of international lending organizations.

Table FD-9. - Status and Application of Statutory Limitation

The Second Liberty Sond Act (31 U.S.C. 757b), as amended, provides that the face amount of ohligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States, shall not exceed in the aggregate \$400 hillion outstanding at any time. Public Law 97-2 provides that beginning on February 7, 1981, and ending on September 30, 1981, the public deht limit shall be temporarily increased by \$585 billion.

The act of June 30, 1967 (Public Law 90-39) provides that the face amount of beneficial interests and participations issued under section 302(c) of the Federal National Mortgage Association Charter Act (12 U.S.C. 1717(c)) during the fiscal year 1968 and outstanding at any time shall be added to the amount otherwise taken into account in determining whether the requirements of the above provisions are met.

Monthly Statement of the Public Debt of the United States

- e: Monthly Statement of the Public Debt of the United States and Allotments.

 The 13-week bills represent additional issues of bills with an original maturity of 26 weeks.

 For bills issued on or after May 2, 1974, includes amounts exchanged on a noncompetitive basis by Government accounts and Federal Reserve banks.
- Reserve banks.

 For 13-week bills 26-week tender for \$500,000 or less from any one bildder are accepted in full at average prices or accepted competitive bids; for other issues, the corresponding amount is stipulated in each offering announcement. Includes cash mangement bills issued Sept. 1, 1981 and Sept. 17, 1981. Bank discount basis.

 Except \$15,000 at 96.666.

 Except \$15,000 at 93.150.

 Except \$830,000 at 92.941.

 Except \$830,000 at 92.826

 Except \$10,000 at 92.826

 Except \$10,000 at 92.826

 Except \$10,000 at 96.250, \$300,000 at 96.221, \$4,080,000 at 96.173, and \$100,000 at 96.150.

 Except \$6,495,000 at 92.313.

- Except \$6,495,000 at 92.313. Except \$370,000 at 96.239.
- Except \$1,300,000 at 96.322, \$25,000 at 96.200. and \$380,000 at 96.117. Except \$20,000 at 92.500 and \$550,000 at 92.275.

- 16/ Except \$10,000 at 96.173.
 17/ Except \$1,000,000 at 96.243, \$1,000,000 at 96.242, \$1,000,000 at 96.241, and \$1,000,000 at 96.197.

See footnotes on following page.

Footnotes to Table PDO-4

: Bureau of the Public Debt. All securities except EA & EO notes were sold at auction Note: All securities except EA & EO notes were sold at auction through competitive and noncompetitive bidding.

1/ For maturing issues, see Table PDO-7

2/ For bill issues, always sold at auction, the rate shown is the equivalent average rate (bank discount basis) of accepted bids. Other securities issued at par except those sold at auction. For details of bill offerings see Table PDO-2.

3/ From date of additional issue in case of a reopening.

4/ In reopenings the amount issued is in addition to the amount of original offerings.

Source: Monthly Statement of the Public Debt of the U.S.; Office of Market Analysis, United States Savings Bonds Division.

Note: In these tables sales of Series A-F and J bonds are included at issue price, and redemptions and amounts outstanding at current redemption value. Series G,H, HH and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured J and K bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, and are then transferred to matured debt on which interest has ceased.

1/ Sales and redemption figures include exchanges of minor amounts of (1) matured Series E bonds for Series G and K bonds from May 1951 through April 1957; (2) Series F and J bonds for Series H bonds beginning January 1960; and (3) U.S. savings notes for Series H bonds beginning January 1972; however, they exclude exchanges of Series E bonds for Series H, HH bonds, which are reported in Table SB-3.

2/ Details by series on a cumulative basis and by periods of Series A-D combined will be found in the February 1952 and previous issues of the Treasury Bulletin.

Treasury Bulletin.

Because there is a normal lag in classifying redemptions, the distri-butions of redemption between sales price and accrued discount has been estimated.

 Series F and G sales were discountinued April 30, 1952, and Series J and K sales were discountinued April 30, 1957. Sales figures after April 30, 1957, represent adjustments.
 Includes exchanges of Series 1941 F and G savings bonds for 3-1/4% marketable bonds of 1978-83. Includes exchanges of Series 1948 F and G bonds for 4-3/4% marketable notes of 1964. Includes exchanges of Series 1949 F and G bonds for 4% marketable bonds

of 1969. Includes exchanges of Series 1960 F and G bonds for 3-7/8% marketable

- bonds for 1968.

 Includes exchanges of Series 1951 and 1952 F and G bonds for 3-7/8% marketable bonds of 1971 and 4% marketable bonds of 1980.

 Represents changes in the amounts of redemptions not yet classified between matured and unmatured issues.

Less than \$500,000. Preliminary

Series E on sale from Mmy 1941 thru June 1980, replaced by Series EE on January 2, 1980, discontinuing the \$25 denomination and adding the \$5,000 denomination. Series H on sale from June 1952 thru Oecember 1979, replaced by Series HH on January 2, 1980. Sales were authorized in June 1944 to Armed Forces only, and discontinued after March 31, 1950. Sales began on May 1, 1964. Sales began on October 29, 1945. Sales of Series M bonds began on June 1, 1952; the denominations authorized were \$500, \$1,000, \$5,000 and \$10,000.

^{6/} Sales of \$10,000 denominations Series E bonds were authorized on May 1, 1952.
7/ Includes sales and redemptions of \$100,000 denominations Series E bonds which were purchasable only by trustees of employee's savings plans, beginning April 1954, and also personal trust accounts beginning January 1955.
8/ See Table SB-4, footnote 1.
9/ Sales of Series EE and HH Bonds began on January 2, 1980.
p Preliminary.

United States savings notes were on sale May 1, 1967 through June 30, 1970. The notes were eligible for purchase by individuals with the simultaneous purchase of Series ${\tt E}$ savings bonds.

The principal terms and conditions for purchase and redemption and information on investment yields of savings notes appear in the Treasury Bulletins of March 1967 and June 1968; and in the Annual Report of the Secretary of the Treasury for fiscal year 1974.

Note: The Export-Import Bank was moved within the Budget effective October 1, 1976 pursuant to Public Law 93-646. Adjustments are made to include totals for the period it was outside the Budget (August 17, 1971 through September 30, 1976). Also, adjustments are made to reflect certain Export-Import Bank borrowing transactions now

classified as agency debt. These transactions were previously reported as off-budget negative outlays.

1/ Includes a nonmarketable Federal Reserve special certificate for \$2,500.

2/ Adjusted to exclude non-interest-bearing notes issued to the international Monetary Fund to reflect the unified budget concept.

3/ For detail, see Table F0-5.

Less than \$500,000.

accounts in the United States. Holdings have been adjusted to exclude issues to the International Mometary Fund and other international lending organizations to reflect the unified budget

Source: Office of Government Financing in the Office of the Secretary.

I/ United States savings bond, Series A-F and J, are included at current redemption value.

Z/ Consists of commercial banks, trust companies, and stock savings banks in the United States and in Territories and island possessions. Figures exclude securities held in trust departments.

3/ Includes partnerships and personal trust accounts.

4/ Exclusive of banks and insurance companies.

5/ Consists of the investment of foreign balances and international

national lengths organizations to concept.

6/ consists of savings and loan associations, nonprofit institutions, corporate pension trust funds, and dealers and brokers. Also included are certain government deposit accounts, government—sponsored agencies and all other investors out included above Includes U.S. savings notees. Sales began May 1, 1967 and were discontinued after June 30, 1970.

p. Preliminary.

The monthly Treasury Survey of Ownership covers securities issued by the United States Government, Federal agencies, Federally-sponsored agencies, and the District of Columbia. The banks and insurance companies included in the Survey currently account for about 80 percent of all such securities held by these institutions. The similar proportion for corporations and for savings and loan associations is 50 percent, and for State and local governments, 40 percent. Data were first published for banks and insurance companies in the May 1941 Treasury Bulletin, for corporations and savings and loan associa-

tions in the September 1960 Bulletin, and for State and local governments in the February 1962 Bulletin.

Holdings by commercial banks distributed according to Federal Reserve member bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly, first appearing in the March 1954 Bulletin.

- Association participation certificates.

 6/ Includes matured securities outstanding on which interest has ceased.
- ceased.

 7/ Ohligation of the Federal Home Loan Mortgage Corporation. The capital stock of the Federal Home Loan Mortgage Corporation is held by the twelve Federal Home Loan Banks.

 8/ Data on these securities were first published in the January 1979
 Treasury Bulletin.

 9/ Direct placements (mortgage-backed honds) with State and local governments with various interest rates and maturity dates.

 * Less than \$500,000.

MARKET QUOTATIONS ON TREASURY SECURITIES, September 30, 1981

Table MQ-1. - Treasury Bills

Current market quotations shown here are over-thecounter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted public marketable securities issued by the United States Treasury. Securities issued by Federal agencies and guaranteed by the United States Covernment are excluded.

Less than \$500,000.

Beginning April 1953, prices are closing bid quotations in the overthe-counter market. Prices for prior dates are the mean of closing bid and ask quotations. "When issued" prices are included in the history beginning October 1941. Dates of highs and lows in case of the-counter market. recurrences are the latest dates.

On callable issues market convention treats the yields to earliest cell date as more significent when an issue is selling above par, and to maturity when it is selling at par or below. Included in the average yield of long term taxable Treasury Bonds as shown under "Average Yields of Long Term Bonds."

YIELDS OF TREASURY SECURITIES, SEPTEMBER 30, 1981 Based on closing bid quotations

Note: The curve is fitted by eye and based only on the most actively traded issues. Market yields on coupon issues due in less than 3 months are excluded.

^{1/} Treasury bond yields are based on a composite of closing bid quotations in the over-the-counter market. Series includes bonds on which the interest income is subject to normal tax and surtax which are neither due nor callable before 10 years. For bonds currently in series, see Table MO-3.

2/ Treasury series based on reoffering yields of new corporate bonds rated Aa by Moody's Investors Service and having an original maturity of st least 20 years. Prior to June 1973, this series reflected bond without call protection. From June 1973 to July 1976, the series was

adjusted to reflect 5 years call protection. Since that time the series reflects bond yields regardless of the call protection offered.

3/ Index of new reoffering yields on 20 years general obligations rated Aa by Moody's Investors Service. Prior to June 1970, the series was compiled by Securities Industries Association. Since then, the series has been compiled by Treasury.

4/ One or more new long term bonds added to the average.

5/ An existing hond dropped from the long term bond average.

n.s. Not available.

Note: Annual balance sheets for fiscal years 1934 through 1940 appear in the 1940 Annual Report of the Secretary of the Treasury and those for succeeding years appear in subsequent reports. Quarterly balance sheets beginning with December 31, 1938 have been published in the Treasury Bulletin. Data from inception to 9/30/78 may be found on the statements published in the January, 1979 Treasury &ulletin.

- 1/ Segioning July, 1974, the IMF adopted a technique for valuiog the SDR based on a weighted average of exchange rates for the currencies of member countries.

 The United States SDR holdings and allocations are valued on this basis beginning July, 1974.
- 2/ Excludes foreign exchange transactions for future and spot delivery.
- 2/ The exchange translation liability on forward purchase contracts of Oeutsche marks was liquidated on June 9, 1981.
- 4/ The exchange translation liability represents the amount of loss the Exchange Stabilization Fund would sustain on outstanding \$2.8 billion equivalent of Deutsche mark swaps with the Federal Reserve if those swaps were liquidated on June 30, 1981.
- 5/ A non-interest bearing liability to the U.S. Treasury resulting from the transfer to ESF of foreign currencies drawn from IMF by the U.S.
- 6/ During the period April 1, 1981 to June 30, 1981, net cash losses of \$36.6 million were sustained on Deutsche mark transactions.
- 2/ Administrative expenses and adjustments incurred to current fiscal year, but chargeable to prior fiscal years.

The table: in this section are designed to provide data on United States reserve assets and liabilities and other statistics related to the United States balance of payments and international financial position.

Table IFS-I shows the reserve assets of the United States, including its gold stock, special drawing rights held in the Special Drawing Account in the International Mometary Fund, holdings of convertible foreign currencies, and reserve position in the International Mometary Fund.

Table IFS-2 brings together statistics on liabilities to foreign official institutions, and liquid liabilities to all other foreigners, which are used in the United States balance-of-payments statistics.

:able IPS-coresent or area breakdown of mosted tite inholities to official institutions of foreign countries.

Tible IFS-4 shows United States. Treasury nonmarketable bond—and notes issued to official in titutions and other residents of foreign countries.

Table IFS-1 sets forth the factors which affect the di-States position in the International Monetary Fund.

Table IFS-b presents a measure of weighted-average banges in exchange rates between the United States dollar and the currencies of contain other countries.

- Beginning July 1974, the IMF adopted a technique for valuing the special drawing right (SDR) based on a weighted-average of exchange rates for the currencies of selected member countries. The United States SDR holdings and reserve position in the IMF are also valued on
- Includes gold sold to the United States by the International Monetary Fund with the right of repurchase, and gold deposited by the International Monetary Fund with the right of repurchase, and gold deposited by the International Monetary Fund to mitigate the impact on the U.S. gold stock of foreign purchases for the purpose of making gold subscriptions to the Fund under quota increases. For corresponding liabilities see Table

- IFS-2.
 Includes gold held by the Exchange Stabilization Fund (ESF). See "Account of the U.S. Treasury," Table UST-3.
 Includes allocations of SDRs in the Special Drawing Account in the International Monetary Fund, plus or minus transcations in SDRs.
 Allocations of SDRs on January 1 of respective years are as follows: 1970, \$867 million; 1971, \$717 million; 1972, \$710 million; 1979, 874 million (in SDR terms); 1980, 874 million (in SDR terms); and 1981, 857 million (in SDR terms).
 Includes holdings of Treasury and Federal Reserve System; beginning November 1978, these are valued at current market exchange rates or, where appropriate, as such other rates as may be agreed upon by the parties to the transactions.

- 6/ The United States has the right to purchase foreign currencies equivalent to its reserve position in the Fund automatically if needed. Under appropriate conditions the United States could pur-chase additional amounts related to the United States quota. See Table IFS-5.
- Table IFS-5.
 Total reserve assets include increase of \$1,016 million resulting from change in par value of the U.S. dollar in May 1972, consisting of \$828 million total gold stock, \$822 million Treasury gold stock, \$155 million special drawing rights and \$33 million reserve position in the International Monetary Fund.

 Total reserve assets include increase of \$1,436 million resulting from change in par value of the dollar on October 18, 1973, consisting of \$1,165 million total gold stock, \$1,157 million Treasury gold stock, \$217 million special drawing rights, and \$54 million reserve position in the International Monetary Fund.

e: Table is based on Treasury Department data and on data reported to the Treasury Department by banks and brokers in the United States. Data correspond generally to statistics following in this section and in the "Capital Movements" section, except for the exclusion of nonmarketable, nonconvertible U.S. Treasury notes issued to foreign official nonreserve agencies and the inclusion of investments by foreign official reserve agencies in debt securities of U.S. Federally-sponsored agencies and U.S. corporations. Table excludes International Monetary Fund "holdings of dollars," and holdings of U.S. Treasury letters of credit and nonnegotiable noninterest-bearing special U.S. notes held by other international and regional organizations.

- izations.

 Includes liability on gold deposited by the International Monetary Fund to mitigate the impact on the U.S. gold stock of foreign purchases for gold subscriptions to the Fund under quota increases, and U.S. Government obligations at cost value and funds awaiting investment obtained from proceeds of sales of gold by the International Monetary Fund to the United States to acquire income-earning assets.
- Includes Bank for International Settlements.
 Derived by applying reported transactions to benchmark data.

- Excludes notes issued to foreign official nonreserve agencies.
- Includes debt securities of U.S. Government corporations, Federally-sponsored agencies, and private corporations.

 Includes liabilities payable in dollars to foreign banks, and liabilities payable in foreign currencies to foreign banks and to "other foreigners."
- Includes marketable U.S. Government bonds and notes held by foreign banks.
- Includes nonmarketable U.S. Government bonds and notes held by foreign banks.
- Principally the International Bank for Reconstruction and Development,
- the Inter-American Development Bank and the Asian Development Bank. Data on the two lines shown for this date differ because of changes in reporting coverage. Figures on the first line are comparable in coverage to those shown for the preceding date; figures on the second line are comparable to those shown for the following date. Includes \$162 million increase in dollar value of foreign currency
- liabilities to official institutions of foreign countries revalued to reflect market exchange rates, as follows: short-term liabilities, \$15 million; and nonmarketable U.S. Treasury notes, \$147 million.

Table IFS-3. - U.S. Liabilities to Official Institutions of Foreign Countries, by Area

Note: The initial M.S. quota in the International Monetary Fund wa-\$2,750 million. The L.S. quota was increased to \$4,1.5 million in 1959, \$5,160 million in February 1966, and \$6,700 million in December 1970, and revalued to \$7,274 million in May 1972 and \$8,083 million in October 1973 as a result of changes in the par value of the dollar. In April 1978 the M.S. quota was increased in SDR terms from 6,700 million to 8,405 million; and in December 1980 to 12,608 million (in SDR terms).

million to 8, 400 million; and in December 1980 to 12,608 million (in SDR terms).

Represents net Fund sales of gold to acquire 1.0. dellars for use in Fund operations. Dues not include transactions in gold relating to gold deposits or gold investment (see Table 1FS-2).

Represents net loans made to the IMF under borrowing arrangements.

Positive figures represent purchases from the Fund of currencies of other members for equivalent amounts of dollars; negative figures represent repurchases of dollars, including dollars derived from charges on purchases and from other net dollar income of the Fund. The United States has a commitment to repurchase within 3-5 years, but only to the extent that the Fund's holdings of dollars exceed the U.S. quota. Purchases of dollars by other countries reduce the U.S., commitment to repurchase by an equivalent amount.

Represents the United States reserve tranche position in the Fund (the United States quota, plus net U.S. loans to the IMF, minus Fund's holdings of dollars), which is the amount that the United States could purchase in foreign currencies automatically if needed. Under appropriate conditions, the United States could purchase additional amounts related to the United States quota.

 $\underline{5}I$ Represents amount paid in dollars to the Fund to maintain the value of Fund holdings of U.S. dollars.

67 Beginning Taly 1994, IME dollar hildings figures exclude currency valuation adjustment for individual months shown as follows (in millions of dollars):

This table presents calculations of weighted average percentage changes This table presents calculations of weighted average percentage change: in the rates of exchange between the dollar and certain foreign currencies, in order to provide a measure of changes in the dollar's general foreign exchange value broader than a measure provided by any single exchange rate change. Calculations are provided for two sets of countries that account for a major share of U.S. foreign trade. U.S. bilateral trade patterns in 1972 are used as a convenient, readily available proxy for the assignment of relative weights to individual exchange rate changes, though such weights do not provide a full measure of individual currencies' relative importance in U.S. international transactions because they take no account of factors other national transactions because they take no account of factors other than trade. The calculations do not purport to represent a guide to measuring the impact of exchange rate changes on U.S. international transactions.

Exchange rate data used in constructing the indices reported here differ somewhat from those used in earlier calculations to more accurately reflect end-of-period currency values.

The equations used are as follows:

(EQ1) $E_m = \Sigma (\Delta \$/fc_i * M_i/\Sigma M)$

Where: \mathbf{E}_{m} is the weighted average of percentage changes in the dollar cost of individual foreign currencies;

 $\Delta \$/fc_1$ is the percent change in the dollar cost of foreign currency i; and

 $\text{M}_1/\text{\Sigma}\text{M}$ is U.S. imports from country i, as a proportion of total U.S. imports from all countries in the set.

Equation two is used to calculate a trade-weighted average of changes in the foreign exchange cost of dollars:

(EQ2) $E_X = \Sigma (\Delta f c_i / \$ * X_i / \Sigma X)$

Where: $E_{\mathbf{X}}$ is the weighted average of percentage changes in the foreign currency cost of

Afci/\$ is the percent change in the foreign currency i cost of dollars; and

 $X_{\mathbf{i}}/\Sigma X$ is U.S. exports to country \mathbf{i} , as a proportion of total U.S. exports to all countries in the set.

Equation three combines the above export-weighted and import-weighted averages to provide an overall measure of exchange rate change: (EQ3) $E = [(E_m * m/m+x)*(-1)] + [E_x * x/m+x]$

Where: m/m+x is U.S. imports as a proportion of its total trade with all countries in the set; and

> x/m+x is U.S. exports as a proportion of its total trade with all countries in the set.

- Australia, Austria, Belgium-Luxembourg, Canada, Demark, Finland, France Germany, Greece, Iceland, Ireland, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, United Kingdom.
- The currencies of 46 IMF member countries which account for approximately 90% of U.S. total trade.
- Preliminary.

Background

Data relating to capital movements between the United States and foreign countries have been collected since 1935 under Treasury regulations pursuant to Executive Orders Nos. 6560 of January 15, 1934, and 10033 of February 8, 1946, and the International Investment Survey Act of 1976. Reports are filed with Federal Reserve banks by banks, bank holding companies, securities brokers and dealery, and nonbanking enterprises in the United States. Statistics on the principal types of data by country or geographical area are then consolidated and are published in the monthly Treasury Bulletin.

The reporting forms and instructions 1/ used in the Treasury International Capital (TIC) Reporting System have been revised a number of times to meet changing conditions and to increase the usefulness of the published statistics. Revisions to the reporting forms are part of an ongoing effort to ensure the adequacy of the Treasury capital movements statistics for analysis and policy formulation with respect to the international financial position of the United States and on movements of capital between the United States and foreign countries. Revised forms and instructions are developed with the cooperation of other Government agencies and the Federal Reserve System and in consultations with representatives of hanks, securities firms, and nonhanking enterprises.

Major revisions of the TIC B-series forms, filed hy banks and some brokers in the United States, became effective with reports as of April 30, 1978; new data series were introduced in the July 1978 Treasury Bulletin. Also, effective March 1981, reporting coverage of the B-series forms was enlarged to include holdings by brokers and dealers of certain types of short-term money market instruments. Substantial revisions of the C-series forms, filed by nonbanking enterprises, were effective with reports as of December 31, 1978; the new data series are shown beginning with the June 1979 Issue. Revisions of the TC forms that affect the format and coverage of the current Capital Mixements tables are noted under "Description of Statistics" below.

Basic Definitions

The term "foreigner" as used in the Treasury reports covers all institutions and individuals domiciled ontside the United States, including United States citizens domiciled abroad, and the foreign branches, subsidiaries, and effices of United States banks and business concerns; the central governments, central banks, and other official institutions of foreign countries, wherever located, and international and regional organizations, wherever located. The term "foreigner" also includes persons in the United States to the extent that they are known by reporting institutions to be acting on behalf of foreigners.

In general, data are reported opposite the foreign country or geographical area in which the foreigner is domiciled, as shown on the records of reporting institutions. For a number of reasons, the geographical breakdown of the reported data may not in all cases reflect the ultimate ownership of the assets. Reporting institutions are not expected to go beyond the addresses shown on their records, and so may not be aware of the country of domicile of the ultimate heneficiary. Furthermore, U.S. liabilities arising from deposits of dollars with foreign hanks are reported generally in the Treasury statistics as liabilities to foreign banks, whereas the liability of the foreign hank receiving the deposit may be to foreign official institutions or to residents of another country.

Oata pertaining to branches or agencies of foreign official institutions are reported opposite the country to which the official institution belongs. Data pertaining to international and regional organizations are reported opposite the appropriate international or regional classification except for the Bank for International Settlements which is included in the classification "Other Europe."

Geographical Classification

A number of changes in geographical classification were introduced for most Capital Movements tables in the July 1978 issue. Several countries formerly included in "Rastern Europe" and "Other Latin American Republics" are now shown separately in the country list as well as a new category in the" International and regional" grouping for "Middle Eastern Regional" in view of the proliferation of regional financial organizations in that area primarily in the Arab states. The remaining countries in the categories "Other Eastern Europe" and "Other Western Europe" were combined into a single "Other Europe" category; and the heading, "Latin America" was retitled "Latin America" and Caribbean." To the extent possible, the statistics for earlier dates have been adjusted in accordance with these revised geographical categories.

Reporting Coverage

Reports are required from banks, bank holding companies, securities brokers and dealers, and nonbanking enterprises in the United States, including the branches, agencies, subsidiaries, and other affiliates in the United States of foreign firms. Entities that have reportable liabilities, claims, or securities transactions below specified exemption levels are exempt from reporting.

Manks and some brokers and dealers file reports monthly covering their dollar liabilities to, and dollar claims on, foreigners in a number of countries. Twice a year, as of June 30 and December 31, they also report the same liabilities and claims items with respect to foreigners in countries not shown separately on the monthly reports. Beginning with reports due as of June 30, 1978, quarterly reports relied with respect to liabilities and claims denominated in foreign currencies vis-a-vis foreigners. The specified exemption level applicable to the monthly and quarterly reports is \$2 million and is based on the average for the report dates during a six-month period, including the current report date. There is no separate exemption level for the semiannual reports.

Ranks, securities brokers and dealers, and in some lostances nonhanking enterorises report monthly their transactions in securities with foreigners: the applicable exemption level is \$500,000 on the grand total of purchases and on the grand total of sales during the month covered by the report.

Ouarterly reports are filed by exporters, importers, industrial and commercial concerns, financial institutions other than hanks and brokers, and other nonhanking enterprises if their liabilities or claims on the six-month average basis are \$2 million or more. Reginning December 31, 1978, these firms also report for each month-end their U.S. dollar-denominated deposit and certificates of deposit claims on banks abroad of \$10 million or more.

Description of Statistics

Section I presents data in four tables on liabilities to foreigners reported by banks, brokers, and dealers in the United States. Beginning April 1978, amounts due to banks' own foreign offices are shown separately; the previous distinction between short-term and long-term liabilities has been eliminated; there is a separation of the liabilities of the respondents themselves from their custody liabilities to foreigners; and foreign currency liabilities are only reported quarterly. Also, beginning April 1978, the data on liabilities are made more complete by extending to securities brokers and dealers the requirement to report certain of their own liabilities and all of their custody liabilities to foreigners.

Table CM-I-1, showing total liabilities by type of foreign holder, combines liabilities previously shown separately as either short-term or long-term. Table CM-I-7, Parts A and B, on foreigners' holdings of liabilities by type show total liabilities payable in dollars reported by banks, brokers, and dealers. Table CM-I-3 presents total liabilities by country for eccent periods and includes the long-term data previously shown separately; whereas CM-I-4, covering total liabilities by type and country for the most recent month, includes several data items not reported separately prior to Abril 1978. The liabilities data on supplementary countries previously presented in Table CM-I-5 now appear in Table CM-III-1. (See Section III below.)

Section 11 presents the claims on foreigners reported by banks in the United States. Reginning with data reported as of the end of April 1978, hanks' claims held for their own account are reported separately from claims held for their domestic customers. The former are available in a monthly series whereas the latter data are collected on a quarterly basis only. Also, there is no longer a hreakdown available on the long-term and short-term components of banks' claims. Maturity data are collected quarterly on a time remaining to maturity basis as opposed to the historic original maturity classification. Foreign currency claims are also collected only on a quarterly basis. Beginning March 1981, this claims coverage was extended to certain items in the hands of brokers and dealers in the United States.

Table CM-II-1 presents total claims by type as reported on the old sceries forms and has been revised to include the long-term claims components formerly published separately. Table CM-II-2, showing total claims by type, is based on the revised banking reports. Table CM-II-3, which represents total claims by country, merges the previously reported short-term and long-term claims data from old CM-II-2 and CM-II-5. New Tables CM-II-4 through CM-II-1 are based on the revised reports and replace the previous tables which showed short-term and long-term claims separately.

Another important change in the claims reporting, beginning with new quarterly data as of June 30, 1978, is the adoption of a broadened concept of "foreign public horrower," which replaces the previous category of "foreign official institution" to produce more meaningful information on lending to the public sector of foreign countries. The term "foreign public horrower" encompasses central governments and departments of central governments of foreign countries and of their possessions; foreign central hanks, stabilization funds, and exchange authorities; corporations and other agencies of central governments, including development banks, development institutions and other agencies which are majority-owned by the central government or its departments; State, provincial, and local governments of foreign countries and their departments and agencies; and any international or regional organization or subordinate or affiliated agency thereof, created by treaty or convention between sovereign states.

Section III includes two supplementary tables on ".S. banks' liabilities to, and claims on, foreigners. Table CM-III-1 summarizes dollar liabilities to, and banks' own dollar claims on, countries and areas not regularly reported separately. Reginning with reports due as of June 30, 1978, these data are collected semiannually. Previously, the semiannual reports were addressed to liabilities items only and were reported as of April and December; however, they are now collected as of the end of June and December. Table CM-III-2 presents data on "I.S. banks' loans and credits to nonbank foreigners, based on the TIC reports and on the monthly Federal Reserve 2502 reports submitted for foreign branches of U.S. banks.

Sections IV and V, respectively, show the liabilities to, and claims on, unaffiliated foreigners by exporters, importers, industrial and commercial concerns, financial institutions other than haks and brokers, and other nonhanking enterprises in the United States. The data exclude the intercompany accounts of nonbanking enterprises in the United States with their own branches and subsidiaries abroad or with their foreign parent companies. (Such transactions are reported by husiness enterprises to the Department of Commerce on its direct investment forms.) The data also exclude claims held through banks in the United States. Beginning with data published in June 1979 (reported as of Occember 31, 1978), there is separation of the financial liabilities and claims of reporting enterprises from their commercial liabilities and claims: and items are collected on a time-remaining basis instead of the prior original maturity basis. In addition, the number of reporters increased somewhat as a result of a broad canvass of prospective reporters undertaken in late 1978.

In Section IV, Table CM-IV-1 combines liabilities previously shown as either short-term or long-term in old Table CM-IV-1: Table CM-IV-2 combines these short-term and long-term liabilities by country and replaces previous Tables CM-IV-2 and CM-IV-4. Table CM-IV-3, covering total liabilities by type and country for the most recent quarter-end, includes several items not reported separately prior to December 1978.

The tables in Section V have been extensively revised to reflect the changes in data collection format outlined above and the elimination of a monthly form that covered nonbanking enterprises' liquid claims on foreigners. Specifically, Table CM-V-I combines short-term and long-term claims; Table CM-V-2 shows total claims by country and replaces former Tables CM-V-2 and CM-V-7. Current Table CM-V-3 shows total claims by type and country and includes items that were not reported separately prior to end-year 1978. Tables CM-V-4, CM-V-5, and CM-V-6 no longer appear.

Section VI contains data on transactions in all types of long-term domestic and foreign securities by foreigners as reported by banks and brokers in the United States (except nonmarketable U.S. Treasury notes, foreign series; and nonmarketable U.S. Treasury bonds and notes, foreign currency series, which are shown in the "International Pinancial Statistics" section, Table IFS-4). The data cover new issues of securities, transactions in outstanding issues, and redemptions of securities. They include transactions executed in the United States for the account of foreigners, and transactions executed abroad for the account of reporting institutions and their domestic customers. The data include some transactions which are classified as direct

investments in the balance of payments accounts. The data exclude securities issued abroad by foreign subsidiaries of 0.8, corporations, some of which are treated in the balance of payments as issues of 0.8, corporations.

The geographical breakdown of the data on securities transactions shows the country of domicile of the foreign buyers and sellers of the securities; in the case of outstanding issues, this may differ from the country of the original issuer. The cross figures contain some offsetting transactions between foreigners. The net figures for total transactions represent transactions by foreigners with United States residents; but the net figures for transactions of individual countries and areas may include some transactions between foreigners of different countries. Reginning with data for 1969, transactions between foreigners in new issues not offered for sale to United States residents but managed by underwriters in the United States are excluded from the gross figures.

The data published in these sections do not cover all types of reported capital movements between the United States and foreign countries. The principal exclusions are the intercompany capital transactions of husiness enterprises in the United States with their own branches and subsidiaries abroad or with their foreign parent companies, and capital transactions of the United States Government. Consolidated data on all types of international capital transactions are published by the Department of Commerce in its regular reports on the United States balance of payments.

^{1/} Copies of the reporting forms and instructions may be obtained from the Office of International Pinancial Reports, Office of the Assistant Secretary for International Affairs, Department of the Treasury, Washington, D.C. 20220, or from Federal Reserve Hanks.

Note: Total liabilities include liabilities previously classified as either "short-term" or long-term" on the Treasury reports filed by banks. The maturity distinction was discontinued with new reports filed as of April 30, 1978, and historical series adjusted accordingly. See introductory text to Capital Movements tables for discussion of change in reporting.

1/ Includes Bank for International Settlements.

2/ Principally the International Bank for Reconstruction and Development and the Inter-American Development Bank.

Data on the two lines shown for this date differ because of changes in reporting coverage. Figures on the first line are comparable in coverage to those shown for the preceding date; figures on the second line are comparable to those shown for the following date.
 Includes \$15 million increase in dollar value of foreign currency liabilities revalued to reflect market exchange rates.
 Oata as of most immediately preceding quarter end.
 Preliminary.

Note: Total claims include claims previously classified as either "short-term" or "long-term" on the Treasury reports filed by banks. A monthly maturity breakdown was discontinued with new reports filed as of April 30, 1978, and the historical series has been adjusted accordingly. (See introductory text to Capital Movements Section for discussion of changes in reporting forms and coverage.)

 $\underline{1}/$ Data on the two lines shown for this date differ because of changes in reporting coverage. Figures on the first line are comparable in

coverage to those shown for the preceding date; figures on the second line are comparable to those shown for the following date.

Note: Data represent estimated official and private holdings of marketable U.S. Treasury securities with an original maturity of more than one year. Data are based on a benchmark survey as of January 31, 1971, and the monthly transactions reports. Country detail may not add to the area totals or to Grand total.

Country or area not listed separately in benchmark survey; therefore, holdings are included in respective "Other" geographical category. Preliminary.

Less than 5500,000. n.a. Not available.

Background

Data have been collected since 1974 on the foreign currency positions of banks and nonbanking firms in the United States, and on those of foreign branches, majority-owned foreign partnerships, and majority-owned foreign subsidiaries of United States banks and nonbanking firms. Reports cover nine major foreign exchange market currencies and United States dollars held abroad. Reporting has been required pursuant to Title II of Public Law 93-110, an amendement to the Par Value Modification Act, of September 21, 1973, and implementing Treasury regulations. Statistics on the positions will be published monthly in the Treasury Bulletin, beginning with data for December 1975.

The report forms and instructions used in the collection of bank data were revised effective with reports as of November 1, 1978, for the weekly reports, and as of October 31, 1978 (the last business day of the month), for the monthly reports. The most recent revision of the nonbank foreign currency forms (see below) became effective as of the last business day of September 1978. Among the changes on the forms, the Belgian franc was deleted as a reporting currency.

Common Definitions and Concepts

The term "United States" means the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Canal Zone, Midway Island, the Virgin Islands, and Wake Island. The term "foreign" means locations other than the "United States", The term "worldwide" is used to describe the sum of "United States" and "foreign" data.

Data for the United States include amounts reported by sole proprietorships, partnerships, and corporations in the United States including the U.S. branches and subsidiaries of foreign nonbanking concerns, in the case of "nonbanking firms' positions", and the agencies, branches, and subsidiaries located in the United States of foreign banks and banking institutions, in the case of the weekly and monthly "bank positions",

Data for "foreign branches" and "abroad" include amounts reported by the branches, majority-owned partnerships and majority-owned subsidiaries of United States banking and nonbanking concerns. In general, these data do ust reflect the positions of foreign parents or foreign parents' subsidiaries located abroad except through intercompany accounts. The data include the foreign subsidiaries of a few foreign-owned U.S. based corporations.

Assets, liabilities, and foreign exchange contract data are reported on the basis of time remaining to maturity as of the date of the report, regardless of the original maturity of the instrument involved. "Spot" means due for receipt or delivery within 2 business days from the date of the report. "Short-term" means maturing in 1 year or less from the date of the report.

"Majority-owned foreign partnerships" are those organized under the laws of a foreign country in which one or more nonbanking concerns or nonprofit institutions in the United States, directly or indirectly, own more than 50 percent profit interest. "Majority-owned foreign subsidiaries" are foreign corporations in which one or more nonbanking business concerns or nonprofit institutions located in the United States directly or indirectly own stock with more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of all classes of stock.

Reporting Threshold

The exemption level applicable to banks and banking institutions is \$10 million equivalent. The exemption level applicable to nonbanking business concerns and nonprofit institutions was \$1 million equivalent on all nonbank forms from March 1975 through November 1976. It was raised to \$2 million equivalent on the monthly reports of positions held in the United States. From November 1976 through September 1978 the exemption level was raised to \$3 million on foreign subsidiary positions on June 31, 1977 and for positions held in the United States on September 30, 1978.

Firms must report their entire foreign currency position in a specified foreign currency if a specified United States dollar equivalent value is reached in any category of assets, liabilities, exchange contracts bought and sold, or the net position in the currency. In general, exemption levels are applied to the entire firm in the United States and separately to each foreign branch or subsidiary. In reports on their foreign branches, majority-owned foreign partnerships and majority-owned foreign subsidiaries, United States banks and nonbanks are required to report the United States dollar - denominated assets, liabilities, exchange contracts bought and sold, and net positions of those branches, partnerships, and subsidiaries with reportable positions in the specified foreign currencies.

Description of Statistics

Data collected on the Treasury foreign currency forms are published in the Treasury Bulletin in nine sections. The first section presents a summary of worldwide net positions in all of the currencies reported. Sections II through VIII each present data on a Specified foreign currency. Section IX presents the United States dollar positions of the foreign branches and subsidiaries of United States firms which are required to report in one or more of the specified foreign currencies.
