ANNOUNCEMENT THE TREASURY

Electronic Retrieval of Data

In recent years innovation has been the byword for Treasury systems, methods, and products. Again, something new is just around the corner. Treasury Bulletin statistical tables will soon be online and available for computer retrieval.

Financial institutions, investment firms, take notice! This is a convenient, time-saving, up-to-the-minute way of getting the information you need. Look first for twelve summary tables from the "International Financial Statistics" and "Capital Movements" sections to be added to the data base in August. Then, after release of the summer issue of the Treasury Bulletin, this information will be regularly provided, for a supplementary charge, to users wanting electronic access. The data base will be updated quarterly, coinciding with the Bulletin's publication.

Additional details on this service, including subscription information, are currently furnished in the Spring (May) issue of the Treasury Bulletin. If you have further questions, call Robert Geida, Reports Management Branch, Financial Management Service, at (202) 566-9419.

Chart - Currency in circulation by denomination.....	221

Note.--Details of figures may not add to totals because of rounding.

Abbreviations and symbol: r represents Revised, p Preliminary, n.a. Not available. † Includes funds transferred from others.

ELECTRONIC RETRIEVAL OF DATA

Later this year, for the first time, some Treasury Bulletin statistical tables will be online and available to users for computer retrieval. Twelve mainly summary tables from the "International Financial Statistics" and "Capital Movements" sections are to be added to a Treasury data base. Accordingly, following release in August of the summer issue of the Treasury Bulletin, this information will be regularly provided for a supplementary charge, to users wanting to access it electronically. The data base will be updated four times a year, coinciding with the Bulletin's quarterly publication, and electronic retrieval of updated information will be coordinated each quarter with actual release of the printed issue.

Additional details on this service, including subscription information, will be furnished in the spring (May) issue. For current information, contact the Financial Management Service, Reports Management Branch, (202) 566-9419.

Treasury Bulletin User Survey

V

The Department of the Treasury maintains an interest in seeing that user needs are responsibly addressed as it periodically evaluates the content and form of the Treasury Bulletin. Your answers to the series of questions that make up the following survey can provide valuable information that could be the impetus for future data enhancements. For that reason, your attention to the survey, together with the thoughtful consideration of every item in it, is especially important.

This survey, to reach as much of the Bulletin audience as possible, should be reproduced, if necessary, for all the users in your organization. The completed survey is to be mailed to:

Attn: Treasury Bulletin Editor
Department of the Treasury
Financial Management Service
441 G St., NW - Room 3021
Washington, DC 20226

So that analysis can begin quickly, please return the survey as soon as possible, but not later than April 7, 1986.

Your participation is appreciated.

Please indicate your response with a checkmark. Answers can be continued on separate sheets if required.

SECTION A--CONTENT

1. Which sections of the Treasury Bulletin do you routinely use?

Financial Operations:

- | | |
|---|---|
| <input type="checkbox"/> Federal Fiscal Operations (FFO) | <input type="checkbox"/> Ownership of Federal Securities (OFS) |
| <input type="checkbox"/> Federal Obligations (FO) | <input type="checkbox"/> Market Bid Yields on Treasury Securities (MBY) |
| <input type="checkbox"/> Account of the U.S. Treasury (UST) | <input type="checkbox"/> Average Yields of Long-Term Bonds (AY) |
| <input type="checkbox"/> Federal Debt (FD) | <input type="checkbox"/> Financial Operations of Government Agencies and Funds (GA) |
| <input type="checkbox"/> Public Debt Operations (PDO) | |
| <input type="checkbox"/> U.S. Savings Bonds and Notes (SBN) | |

International Statistics:

- | | |
|---|--|
| <input type="checkbox"/> International Financial Statistics (IFS) | <input type="checkbox"/> Foreign Currency Positions (FCP) |
| <input type="checkbox"/> Capital Movements (CM) | <input type="checkbox"/> Exchange Stabilization Fund (ESF) |

Cash Management/Debt Collection:

- | | |
|--|--|
| <input type="checkbox"/> Cash Management Initiatives | <input type="checkbox"/> Accounts and Loans Receivable Due from the Public |
|--|--|

Special Reports:

- | | |
|---|--|
| <input type="checkbox"/> Consolidated Financial Statements of the United States Government | <input type="checkbox"/> Trust Fund Reports |
| <input type="checkbox"/> National Bank Report | <input type="checkbox"/> U.S. Currency and Coin Outstanding and in Circulation |
| <input type="checkbox"/> Statement of Liabilities and Other Financial Commitments of the United States Government | |

2. The data in the Treasury Bulletin are used by you in connection with which of these activities?

- ☐ Marketing
- ☐ Economic forecasting
- ☐ Historical analysis
- ☐ Teaching
- ☐ Reference
- ☐ Other (Explain.)

3. What types of materials, for either internal or external distribution, are being developed by your organization from data published in the Treasury Bulletin?

4. Would an increase in graphic presentations of the statistical data be useful to you? If yes, please identify the statistical tables you prefer to be supplemented with financial graphs and charts.

- ☐ Yes
- ☐ No

Continued on following page.

Treasury Bulletin User Survey

5. What kind of analytical narratives, authoritatively written articles, and other such topical materials could bring further value to the statistics currently reported?

6. How is Treasury Bulletin information physically being preserved at your location?

☐ Inputted to a computer data base
☐ Kept on file by way of the actual printed copy
☐ Other (Explain.)

SECTION B--TERMINAL ACCESS TO DATA (See announcement on electronic retrieval, page IV this issue.)

7. Do you have the means to electronically receive and store, in a computer data base, Treasury Bulletin data resident in another computer system? If yes, would there be an advantage to you to take Bulletin data from an electronic medium rather than the traditional published document? (Explain.)

☐ Yes
☐ No

8. If you answered "yes" to item 7, please fully describe the equipment you would be using to house Treasury Bulletin data.

SECTION C--IMPROVEMENTS

9. Please comment on the readability of the Treasury Bulletin. Would you favor a different method of composing the document that would permit a greater range of type sizes and generally enhance the data's presentation?

10. What changes would you endorse for the Treasury Bulletin?

Name (optional): _____
Organization: _____ City: _____ State: _____
Type of business: _____
Number of months/years using the Treasury Bulletin: _____

Nonquarterly Tables and Reports

For the convenience of the Treasury Bulletin user, nonquarterly tables and reports are listed below along with the issues in which they appear.—Ed.

Table/report	Issues			
	Winter	Spring	Summer	Fall

1/ The receipts in the various States do not indicate the Federal tax burden of each source, in many instances, taxes are collected in one State from residents of another State. For example, withholding taxes reported by employers located near State lines may include substantial amounts of tax withheld from salaries of employees who reside in neighboring States. Also, the taxes of some corporations are paid from a principal office, although their operations may be located in another State, or throughout several States.

2/ Collections of individual income tax not withheld include old-age, survivors, disability, and hospital insurance taxes on self-employment income (SECA). Similarly, the collections of individual income tax withheld are reported in combined amounts with old-age, survivors, disability, and hospital insurance taxes (FICA) on salaries and wages.

3/ Includes taxes on unrelated business income of exempt organizations.

4/ Includes District of Columbia collections.

5/ Consists of collections from U.S. taxpayers in Puerto Rico, the Virgin Islands, and in foreign countries.

6/ Tax payments made to banks, under the Federal Tax Deposit (FTD) system, are included in the internal revenue collections for the period in which the FTD is purchased. However, such payments are not reported in the internal revenue districts (nor by tax subclasses to which excise payments relate) until the FTD payment is applied to the taxpayer's liability from tax returns filed.

7/ Represents credits allowable on income tax returns for certain gasoline and special fuels tax payments and for excess payments under the Federal Income Contributions Act (FICA).

8/ Net transactions in the clearing account on the central books of the Treasury for income tax withheld from the salaries of Federal employees.

9/ Designations by taxpayers of a portion of their taxes to the Presidential election campaign fund are not collections, as such, because they do not affect taxpayer liability. Transfers of amounts to this fund are made on a regional basis only and, therefore, have no effect on district and national collection data.

10/ Represents amounts offset against outstanding tax liabilities other than those for Forms 1040 and 1040X on which the credits are claimed.

11/ Includes amounts contained in the Federal estate tax not reported by State or district as of the end of the fiscal year on Sept. 30. Also includes amount transferred to a special account for the Northern Mariana Islands.

Note.—State data reported above are not directly comparable with the fiscal years prior to 1981. For the most part, beginning with 1981, amounts are classified by State and district rather than, as for 1980 and prior, where taxpayers made payments.

"Obligations" are the basis on which the use of funds is controlled in the Federal Government. They are recorded at the point at which the Government makes a firm commitment to acquire goods or services and are the first of the four key events—order, delivery, payment, and consumption—which characterize the acquisition and use of resources. In general, they consist of orders placed, contracts awarded, services received, and similar transactions requiring the disbursement of money.

The obligational stage of Government transactions is a strategic point in gauging the impact of the Government's operations on the national economy, since it frequently represents for business firms the Government commitment which stimulates business investment, including inventory purchases and employment of labor. Disbursements may not occur for months after the Government places its order, but the order itself usually causes immediate pressure on the private economy.

Obligations are classified according to a uniform set of categories based upon the nature of the transaction without regard to its ultimate purpose. All payments for salaries and wages, for example, are reported as personnel compensation, whether the personal services are used in current operations or in the construction of capital items.

Federal agencies often do business with one another; in doing so, the "buying" agency records obligations, and the "performing" agency records reimbursements. In table FO-1, obligations incurred within the Government are distinguished from those incurred outside the Government. Table FO-2 shows only those incurred outside.

Table FO-1. — Gross Obligations Incurred Within and Outside the Federal Government
by Object Class, as of Sept. 30, 1985

[In millions of dollars. Source: Standard Form 225, Report on Obligations, from agencies]

1/ For Federal budget presentation a concept of "net obligations incurred" is generally used. This concept eliminates transactions within the Government and revenue and reimbursements from the public which by statute may be used by Government agencies without appropriation action by the Congress. Summary figures on this basis follow. (Data are on the basis of Reports on Obligations

presentation and therefore may differ somewhat from the Budget of the U.S. Government.)

Gross obligations incurred (as above).....	1,319,207
Deduct:	
Advances, reimbursements, other income, etc.....	-176,627
Offsetting receipts.....	-177,187
Net obligations incurred.....	965,393

and General Accounting Office only.

ACCOUNT OF THE U.S. TREASURY

SOURCE AND AVAILABILITY OF THE BALANCE IN THE ACCOUNT OF THE U.S. TREASURY

The operating cash of the Treasury is maintained in Treasury's accounts with the Federal Reserve banks and branches and in tax and loan accounts. Major information sources include the Daily Balance Wire received from the Federal Reserve banks and branches, and electronic transfers through the Treasury Financial Communications System. As the balances in the accounts at the Federal Reserve banks become depleted, they are restored by calling in (withdrawing) funds from thousands of financial institutions throughout the country authorized to maintain tax and loan accounts.

Under authority of Public Law 95-147, the Treasury implemented a program on Nov. 2, 1978, to invest a portion of its operating cash in obligations of depositaries maintaining tax and loan accounts. Under the Treasury tax and loan investment program, depository financial institutions select the manner in which they will participate in the program. Depositaries that wish to retain funds deposited in their tax and loan accounts in interest-bearing obligations participate under the Note Option; depositaries that wish to reinvest the funds in the Treasury's account at Federal Reserve banks participate under the Rentance Option.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all financial institutions whereby customers of financial institutions deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involves merely the transfer of funds from a customer's account to the tax and loan account in the same financial institution. On occasions, to the extent authorized by the Treasury, financial institutions are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the accounts of their customers.

The tax and loan system permits the Treasury to collect funds through financial institutions and to leave the funds in Note Option depositaries and in the financial communities in which they arise until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its fluctuation operations on Note Option financial institution reserves and the economy.

* Less than \$500,000.

1/ Represents transfers from tax and loan note accounts, proceeds from sales of securities other than Government account series, and taxes.

2/ Represents checks paid, wire transfer payments, drawdowns on letter of credit, redemptions of securities other than Government account series, etc.

3/ Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of U.S. Government securities purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issue.

4/ Includes U.S. savings bonds, savings notes, retirement plan and tax

and loss bonds. U.S. savings notes first offered for sale as of May 1, 1967, and were discontinued after June 30, 1970. Retirement plan bonds first offered for sale as of Jan. 1, 1963; tax and loss bonds first issued in March 1968.

5/ Taxes eligible for credit consist of those deposited by taxpayers in the tax and loan depositaries, as follows: withheld income taxes beginning March 1946; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; a number of excise taxes beginning July 1953; estimated corporation income taxes beginning April 1967; all corporation income taxes due on or after Mar. 15, 1966, and FUTA taxes beginning April 1970.

1/ Pursuant to Public Law 98-371, dated July 18, 1984, all principal and interest for the Government National Mortgage Association was canceled effective Oct. 1, 1984.

Note.--These securities were issued to the Treasury in exchange for advances by the Treasury from public debt receipts under congressional authorizations for specified Government corporations and other agencies to borrow from the Treasury.

TREASURY FINANCING OPERATIONS, OCTOBER-DECEMBER 1985

OCTOBER

Auction of 2-year Notes

On October 17 the Treasury announced that it would auction \$9,250 million of 2-year notes to refund \$8,120 million of notes maturing October 31, 1985, and to raise about \$1,125 million new cash. The notes offered were Treasury Notes of Series AC-1987, dated October 31, 1985, due October 31, 1987, with interest payable on April 30 and October 31 until maturity. An interest rate of 8-7/8 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EDT, October 23, and totaled \$22,478 million, of which \$9,257 million was accepted at yields ranging from 8.48 percent, price \$9,593, up to 8.95 percent, price \$9,919. Tenders at the high yield were allotted 16 percent. Noncompetitive tenders were accepted in full at the average yield, 8.90 percent, price \$9,955. These totaled \$1,436 million. Competitive tenders accepted from private investors totaled \$7,821 million.

In addition to the \$9,257 million of tenders accepted in the auction process, \$942 million was awarded to Government accounts and Federal Reserve banks for their own account.

52-week Bills

On September 20 tenders were invited for approximately \$6,300 million of 364-day Treasury bills to be dated October 31, 1985, and to mature October 2, 1986. The issue was to refund \$6,311 million of 364-day bills maturing

October 3. Tenders were opened on September 26. They totaled \$16,438 million, of which \$8,305 million was accepted, including \$349 million of noncompetitive tenders from the public and \$2,075 million issued to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. An additional \$100 million was issued to Federal Reserve banks as agents for foreign and international monetary authorities for new cash. The average bank discount rate was 7.33 percent.

On October 18 tenders were invited for approximately \$8,300 million of 364-day Treasury bills to be dated October 31, 1985, and to mature October 30, 1986. The issue was to refund \$8,259 million of 52-week bills maturing October 26, 1985, and to raise about \$501 million new cash. They totaled \$16,438 million, of which \$8,305 million was accepted, including \$377 million of noncompetitive tenders from the public and \$1,650 million issued to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. The average bank discount rate was 7.51 percent.

Cash Management \$111s

On October 8 tenders were invited for approximately \$5,000 million of 70-day bills to be issued October 9, 1985, representing an additional amount of bills dated December 27, 1984, maturing December 27, 1985. The issue was to raise new cash. Tenders were received at the Federal Reserve Bank of New York until 12:30 p.m., October 9, and were opened the same day. They totaled \$16,375 million, of which \$5,010 million was accepted. The average bank discount rate was 7.23 percent.

NOVEMBER

November Quarterly Financing

On November 14 the Treasury announced that it would sell to the public at auction, under competitive and noncompetitive bidding, up to \$6,750 million of 3-year notes of Series U-1988, \$7,000 million of 10-year notes of Series B-1995, and \$6,750 million of 30-year bonds of 2015 to raise about \$22,500 million new cash.

An interest rate of 8-5/8 percent was set on the notes of Series U-1988 after the determination as to which tenders were accepted on a yield auction basis. The notes of Series U-1988 were dated November 26, 1985, due November 15, 1988, with interest payable on May 15 and November 15 until maturity.

Tenders for the notes of Series U-1988 were received until 1 p.m. EST, November 19, and totaled \$17,975 million, of which \$6,764 million was accepted at yields ranging from 8.64 percent, price \$6,459, up to 8.75 percent, price \$9,679. Tenders at the high yield were allotted 83 percent. Noncompetitive tenders were accepted in full at the average yield, 8.74 percent, price \$9,705. These totaled \$1,436 million. Competitive tenders accepted from private investors totaled \$7,806 million.

In addition to the \$6,764 million of tenders accepted in the auction process, \$45 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities, and \$300 million was accepted from Government accounts and Federal Reserve banks for their own account.

An interest rate of 9-1/2 percent was set on the notes of Series D-1995 after the determination as to which tenders were accepted on a yield auction basis. The notes of Series D-1995 were dated November 15, 1985, and issued November 29, 1985, with interest payable on May 15 and November 15 until maturity on November 15, 1995. Because the issue was backdated to November 15, accrued interest of \$3,674.02 per \$1,000 was payable by purchasers of the notes.

Tenders for the notes of Series D-1995 were received until 1 p.m. EST, November 21, and totaled \$15,998 million, of which \$7,005 million was accepted at yields ranging from 9.52 percent, price \$9,858, up to 9.58 percent, price \$9,470. Tenders at the high yield were allotted 80 percent. Noncompetitive tenders were accepted in full at the average yield, 9.54 percent, price \$9,731. These totaled \$615 million. Competitive tenders accepted from private investors totaled \$6,390 million.

In addition to the \$7,005 million of tenders accepted in the auction process, \$105 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities. An additional \$184 million was accepted from Government accounts and Federal Reserve banks for their own account in exchange for Treasury bills issued on November 15, 1985, to refund securities that matured on that date.

The notes of Series D-1995 may be held in STRIPS form. The minimum par amount required is \$400,000.

An interest rate of 9-7/8 percent was set on the bonds of 2015 after the determination as to which tenders were accepted on a yield auction basis. The bonds were dated November 15, 1985, and issued November 29, 1985, with interest payable on May 15 and November 15 until maturity on November 15, 2015. Because the issue was backdated to November 15, accrued interest of \$3,819.06 per \$1,000 was payable by purchasers of the bonds.

Tenders for the bonds were received until 1 p.m. EST, November 22, and totaled \$14,856 million, of which \$6,761 million was accepted at yields ranging from 9.88 percent, price \$9,536, up to 9.95 percent, price \$9,271. Tenders at the high yield were allotted 22 percent. Noncompetitive tenders were accepted in full at the average yield, 9.93 percent, price \$9,460. These totaled \$340 million. Competitive tenders accepted from private investors totaled \$6,421 million.

In addition to the \$6,761 million of tenders accepted in the auction process, \$131 million was accepted from Government accounts and Federal Reserve banks for their own account in exchange for Treasury bills issued on November 15, 1985, to refund securities that matured on that date.

The bonds of 2015 may be held in STRIPS form. The minimum par amount required is \$1,600,000.

Auction of 2-year Notes

On November 13 the Treasury announced that it would auction \$9,500 million of 2-year notes to refund \$8,321 million of publicly held notes maturing November 30, 1985, and to raise about \$1,175 million new cash. The notes offered were Treasury Notes of Series AC-1987, dated December 2, 1985, due November 30, 1987, with interest payable on May 31 and November 30 until maturity. An interest rate of 8-7/8 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EST, November 20, and totaled \$24,743 million, of which \$9,532 million was accepted at yields ranging from 8.57 percent, price \$9,874, up to 8.59 percent, price \$9,838. Tenders at the high yield were allotted 71 percent. Noncompetitive tenders were accepted in full at the average yield, 8.58 percent, price \$9,656. These totaled \$1,279 million. Competitive tenders accepted from private investors totaled \$8,253 million.

In addition to the \$9,532 million of tenders accepted in the auction process, \$298 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities, and \$258 million was accepted from Government accounts and Federal Reserve banks for their own account.

52-week Bills

On November 14 tenders were invited for approximately \$5,000 million of 364-day Treasury bills to be dated November 29, 1985, and to mature November 28, 1986. The issue was to refund \$5,235 million of 52-week bills maturing November 29, 1985, and to raise about \$475 million new cash. Tenders were opened on November 26. They totaled \$23,244 million, of which \$5,005 million was accepted, including \$416 million of noncompetitive tenders from the public and \$1,660 million of the bills issued to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. An additional \$40 million was issued to Federal Reserve banks as agents for foreign and international monetary authorities for new cash. The average bank discount rate was 7.67 percent.

Cash Management \$111s

On November 4 tenders were invited for approximately \$3,000 million of 142-day bills to be issued November 5, 1985, representing an additional amount of bills dated September 26, 1985, maturing March 27, 1986. The issue was to raise new cash. Tenders were received at the Federal Reserve Bank of New York until 12:30 p.m. on November 5 and were opened the same day. They totaled \$13,765 million, of which \$3,004 million was accepted. The average bank discount rate was 7.25 percent.

On November 14 tenders were invited for approximately \$18,000 million of 14-day bills to be issued November 15, 1985, representing an additional amount of bills dated November 29, 1984, maturing November 29, 1985. The issue was to raise new cash. Tenders were received at the Federal Reserve Bank of New York until 10 a.m. on November 15 and were opened the same day. They totaled \$36,566 million, of which \$18,006 million was accepted. The average bank discount rate was 8.25 percent.

Also on November 14, tenders were invited for approximately \$4,000 million of 69-day bills to be issued November 15, 1985, representing an additional amount of bills dated January 24, 1985, maturing January 23, 1986. The issue was to raise new cash. Tenders were received at the Federal Reserve Bank of New York until 10 a.m. on November 15 and were opened the same day. They totaled \$13,883 million, of which \$4,009 million was accepted. The average bank discount rate was 7.48 percent.

DECEMBER

Auction of 5-Year 2-Month Notes

On November 14 the Treasury announced that it would auction \$7,500 million of 5-year 2-month notes to raise new cash. The notes offered were Treasury Notes of Series H-1991, dated December 3, 1985, due February 15, 1991, with interest payable on August 15 and February 15 until maturity. An interest rate of 9-1/8 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EST, November 27, and totaled \$25,100 million, of which \$7,519 million was accepted at yields ranging from 9.12 percent, price 99.942, up to 9.13 percent, price 99.901. Tenders at the high yield were allotted 60 percent. Noncompetitive tenders were accepted in full at the average yield, 9.13 percent, price 99.901. These totaled \$620 million. Competitive tenders accepted from private investors totaled \$6,899 million.

In addition to the \$7,519 million of tenders accepted in the auction process, \$130 million was awarded to Federal Reserve banks as agents for foreign and international monetary authorities.

Auction of 2-Year Notes and 4-Year Notes

On December 11 the Treasury announced that it would auction up to \$9,500 million of 2-year notes of Series AD-1987 and \$7,000 million of 4-year notes, of Series P-1989 to refund \$11,760 million of publicly held notes maturing December 31, 1985, and to raise about \$4,700 million new cash.

An interest rate of 7-7/8 percent was set on the notes of Series AD-1987 after the determination as to which tenders were accepted on a yield auction basis. The notes of Series AD-1987 were dated December 31, 1985, due December 31, 1987, with interest payable on June 30 and December 31 until maturity.

Tenders for the notes of Series AD-1987 were received until 1 p.m. EST, December 17, and totaled \$20,904 million, of which \$9,506 million was accepted at yields ranging from 7.90 percent, price 99.955, up to 7.96 percent, price 99.946. Tenders at the high yield were allotted 82 percent. Noncompetitive tenders were accepted in full at the average yield, 7.93 percent, price 99.900. These totaled \$732 million. Competitive tenders accepted from private investors totaled \$8,774 million.

In addition to the \$9,506 million of tenders accepted in the auction process, \$330 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities. An additional \$600 million was accepted from Government accounts and Federal Reserve banks for their own account.

An interest rate of 8-3/8 percent was set on the notes of Series P-1989 after the determination as to which tenders were accepted on a yield auction basis. The notes of Series P-1989 were dated December 31, 1985, due December 31, 1989, with interest payable on June 30 and December 31 until maturity.

Tenders for the notes of Series P-1989 were received until 1 p.m. EST, December 18, and totaled \$14,044 million, of which \$7,004 million was accepted at yields ranging from 8.38 percent, price 99.983, up to 8.48 percent, price 99.950. Tenders at the high yield were allotted 81 percent. Noncompetitive tenders were accepted in full at the average yield, 8.43 percent, price 99.916. These totaled \$495 million. Competitive tenders accepted from private investors totaled \$6,509 million.

In addition to the \$7,004 million of tenders accepted in the auction process, \$280 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities. An additional \$171 million was accepted from Government accounts and Federal Reserve banks for their own account.

Auction of 7-Year Notes and 20-Year 1-Month Bonds

On December 11 the Treasury announced that the auctions of 7-year notes and 20-year 1-month bonds, which normally would have been held shortly thereafter, were being postponed until January 1986.

On December 31 the Treasury announced that it would sell to the public at auction, under competitive and noncompetitive bidding, up to \$6,500 million of 7-year notes of Series E-1993 and \$4,750 million of 20-year 1-month bonds of 2006, the two issues totaling \$11,250 million, to raise new cash.

An interest rate of 8-3/4 percent was set on the notes of Series E-1993 after the determination as to which tenders were accepted on a yield auction basis. The notes of Series E-1993 were dated January 15, 1986, due January 15, 1993, with interest payable on July 15 and January 15 until maturity.

Tenders for the notes of Series E-1993 were received until 1 p.m. EST, January 7, 1986, and totaled \$14,112 million, of which \$6,505 million was accepted at yields ranging from 8.62 percent, price 99.640, up to 8.67 percent, price 99.486. Competitive tenders at the high yield were allotted 39 percent. Noncompetitive tenders were accepted in full at the average yield, 8.65 percent, price 99.486. These totaled \$454 million. Competitive tenders accepted from private investors totaled \$6,071 million.

An interest rate of 9-3/8 percent was set on the bonds after the determination as to which tenders were accepted on a yield auction basis.

The bonds were dated January 15, 1986, due February 15, 2006, with interest payable on August 15 and February 15 until maturity. The bonds will become eligible for STRIPS on August 18, 1986. The minimum par amount will be \$64,000.

Tenders for the bonds of 2006 were received until 1 p.m. EST, January 8, 1986, and totaled \$12,932 million, of which \$4,750 million was accepted at yields ranging from 9.35 percent, price 100.190, up to 9.45 percent, price 99.295. Tenders at the high yield were allotted 94 percent. Noncompetitive tenders were accepted in full at the average yield, 9.43 percent, price 99.473. These totaled \$299 million. Competitive tenders accepted from private investors totaled \$4,451 million.

52-Week Bills

On December 13 tenders were invited for approximately \$9,000 million of 365-day Treasury bills to be dated December 26, 1985, and to mature December 26, 1986. The issue was to refund \$8,587 million of 52-week bills maturing December 26 and to raise about \$425 million new cash. Tenders were opened on December 19. They totaled \$19,425 million, of which \$9,011 million was accepted, including \$238 million of noncompetitive tenders from the public and \$1,765 million of the bills issued to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. An additional \$255 million was issued to foreign official institutions for new cash. The average bank discount rate was 7.06 percent.

Public Debt Ceiling

From mid-September until December 12, Treasury borrowing activities were affected by delays in congressional action to raise the public debt ceiling, which had been set at \$1,623,800 million since October 13, 1984. The Treasury offerings of 4-year and 7-year notes and 20-year bonds, usually auctioned in late September, were not held until the last week of October. The November quarterly financing was delayed 2 weeks beyond its normal timeframe. When an increase in the debt ceiling to \$1,903,800 million (Public Law 99-155) had been passed on November 14, the Treasury announced a total of \$6 billion in bill, note, and bond offerings on November 14, with separate announcements for (1) \$22,000 million in cash management bills; (2) a quarterly financing package totaling \$22,500 million, (\$3) \$9,000 million in 52-week bills; and (4) \$7,500 million of 5-year 2-month notes. When the amount of debt outstanding neared the new limitation of \$1,903,800 million, the sale of State and local government securities and savings bonds was suspended, as of December 7. On December 6, the Treasury bill auctions scheduled for December 9 were postponed. On December 11, these auctions were rescheduled for December 12, with competitive tenders being received only at the Federal Reserve Bank of New York. On December 12, the debt ceiling was raised to \$2,076,700 million by the enactment of Public Law 99-177, and Treasury financing operations resumed their normal pattern. During this period, the Treasury had needed to use the borrowing authority of the Federal Financing Bank and to disinvest Social Security Trust Fund securities to avoid exceeding the debt ceiling and defaulting on Treasury obligations. These actions were unprecedented.

PUBLIC DEBT OPERATIONS

Table PD0-1. — Maturity Schedule of Interest-Bearing Marketable Public Debt Securities Other than Regular Weekly and 52-Week Treasury Bills Outstanding, Dec. 31, 1995

(In millions of dollars; Source: Public Debt Statement and Office of the Secretary)

^{1/} The 13-week bills represent additional issue of bills with an original maturity of 26 weeks or 52 weeks.

^{2/} For bills issued on or after May 2, 1974, includes amounts exchanged on noncompetitive basis by Government accounts and Federal Reserve banks.

^{3/} For 13-week bills 26-week and 52-week bills tenders for \$1,000,000 or less from any one bidder are accepted in full at average price or accepted competitive bids; for other issues, the corresponding amount is stipulated in each offering announcement.

^{4/} Equivalent coupon-issue yield.

^{5/} Except \$1,000,000 at 7.07 percent.

^{6/} Except \$125,000 at 7.21 percent.

^{7/} Except \$1,000,000 at 6.67 percent.

^{8/} Except \$1,000,000 at 6.98 percent.

^{9/} Except \$15,005,000 at 7.00 percent.

^{10/} Except \$1,000,000 at 7.03 percent.

^{11/} Except \$1,025,000 at 7.04 percent.

^{12/} Except \$5,000,000 at 7.00 percent.

^{13/} Except \$135,000 at 7.22 percent and \$2,370,000 at 7.23 percent.

^{14/} Except \$1,000,000 at 7.89 percent.

1/ Currently, all issues are sold at auction. For bill issues, the rate shown is the average bank discount rate. For note and bond issues, the rate shown is the interest rate. For details of bill offerings see table PDO-2.																																																																																																																																																																																																							
2/ From date of additional issue in case of a reopening.																																																																																																																																																																																																							
3/ In reopenings the amount issued is in addition to the amount of original offerings.																																																																																																																																																																																																							
4/ Includes securities issued to U.S. Government accounts and Federal Reserve banks; and to foreign and international monetary authorities, whether in exchange for maturing securities or for new cash.																																																																																																																																																																																																							
5/ Foreign-targeted issue.																																																																																																																																																																																																							
6/ Eligible for STRIPS as of Dec. 31, 1985.																																																																																																																																																																																																							
1	Yields accepted ranged from 10.63% (price 95,079) up to 10.90% (price 95,956) with the average at 10.89% (price 95,074).	2	Yields accepted ranged from 11.35% (price 95,686) up to 11.36% (price 95,655) with the average at 11.35% (price 95,686).	3	Yields accepted ranged from 11.74% (price 95,020) up to 11.75% (price 95,501) with the average at 11.75% (price 95,501).	4	Yields accepted ranged from 11.92% (price 95,312) up to 11.96% (price 95,277) with the average at 11.94% (price 95,312).	5	Yields accepted ranged from 10.64% (price 95,574) up to 10.67% (price 95,501) with the average at 10.65% (price 95,537).	6	Yields accepted ranged from 10.94% (price 95,837) up to 10.96% (price 95,780) with the average at 10.94% (price 95,837).	7	Yields accepted ranged from 11.70% (price 95,203) up to 11.71% (price 100,145) with the average at 11.70% (price 100,200).	8	Yields accepted ranged from 11.87% (price 100,059) up to 11.89% (price 95,577) with the average at 11.90% (price 95,973).	9	Yields accepted ranged from 10.92% (price 95,921) up to 10.95% (price 95,968) with the average at 11.04% (price 95,886).	10	Yields accepted ranged from 11.82% (price 95,609) up to 11.85% (price 95,495) with the average at 11.84% (price 95,533).	11	Yields accepted ranged from 11.40% (price 95,803) up to 11.58% (price 95,861) with the average at 11.55% (price 95,914).	12	Yields accepted ranged from 12.06% (price 95,013) up to 12.09% (price 95,253) with the average at 12.07% (price 95,131).	13	Yields accepted ranged from 12.40% (price 95,163) up to 12.42% (price 95,771) with the average at 12.41% (price 95,471).	14	Yields accepted ranged from 13.34% (price 95,180) up to 13.50% (price 95,008) with the average at 13.39% (price 95,811).	15	Yields accepted ranged from 11.40% (price 95,861) up to 11.83% (price 95,861) with the average at 11.83% (price 95,861).	16	Yields accepted ranged from 12.53% (price 95,927) up to 12.54% (price 95,503) with the average at 12.53% (price 95,927).	17	Yields accepted ranged from 13.12% (price 100,027) up to 13.18% (price 95,699) with the average at 13.14% (price 95,699).	18	Yields accepted ranged from 13.65% (price 95,765) up to 13.34% (price 95,339) with the average at 13.32% (price 95,465).	19	Yields accepted ranged from 12.60% (price 100,043) up to 12.70% (price 95,871) with the average at 12.69% (price 95,905).	20	Yields accepted ranged from 13.85% (price 95,911) up to 13.96% (price 95,511) with the average at 13.93% (price 95,830).	21	Yields accepted ranged from 13.08% (price 95,967) up to 13.11% (price 95,812) with the average at 13.10% (price 95,892).	22	Yields accepted ranged from 13.65% (price 95,925) up to 13.71% (price 95,745) with the average at 13.69% (price 95,905).	23	Yields accepted ranged from 13.40% (price 95,864) up to 13.64% (price 95,589) with the average at 13.83% (price 95,633).	24	Yields accepted ranged from 13.71% (price 100,185) up to 13.82% (price 95,441) with the average at 13.74% (price 95,890).	25	Yields accepted ranged from 12.63% (price 95,991) up to 12.75% (price 95,785) with the average at 12.69% (price 95,868).	26	Yields accepted ranged from 12.43% (price 95,890) up to 12.48% (price 95,744) with the average at 12.46% (price 95,793).	27	Yields accepted ranged from 12.61% (price 95,864) up to 12.66% (price 95,623) with the average at 12.63% (price 95,860).	28	The low, high, and average yield was 12.52% (price 95,844), 12.61% (price 95,844), and 12.58% (price 95,844) respectively.	29	Yields accepted ranged from 12.60% (price 95,864) up to 12.63% (price 95,871) with the average at 12.63% (price 95,905).	30	Yields accepted ranged from 12.77% (price 95,780) up to 12.78% (price 95,742) with the average at 12.78% (price 95,780).	31	Yields accepted ranged from 11.91% (price 95,939) up to 12.75% (price 95,536) with the average at 11.94% (price 95,907).	32	Yields accepted ranged from 12.70% (price 95,770) up to 12.35% (price 95,541) with the average at 12.34% (price 95,587).	33	Yields accepted ranged from 11.91% (price 95,939) up to 11.75% (price 95,783) with the average at 11.73% (price 95,818).	34	Yields accepted ranged from 11.55% (price 100,554) up to 11.75% (price 95,013) with the average at 11.65% (price 95,286).	35	Yields accepted ranged from 11.38% (price 95,985) up to 11.44% (price 95,799) with the average at 11.42% (price 95,985).	36	Yields accepted ranged from 11.30% (price 100,271) up to 11.46% (price 95,768) with the average at 11.41% (price 95,939). Yields were based on an annual interest payment. The 11% interest rate was established in the auction of the companion domestic issue, Series N-1980.	37	Yields accepted ranged from 11.00% (price 100,000) up to 11.03% (price 95,053) with the average at 11.01% (price 95,053).	38	Yields accepted ranged from 11.64% (price 95,913) up to 11.73% (price 95,931) with the average at 11.70% (price 95,955).	39	Yields accepted ranged from 11.71% (price 95,972) up to 11.73% (price 95,903) with the average at 11.83% (price 95,945).	40	Yields accepted ranged from 11.61% (price 95,945) up to 11.68% (price 95,915) with the average at 11.67% (price 95,932).	41	Yields accepted ranged from 11.00% (price 95,887) up to 11.03% (price 95,770) with the average at 11.01% (price 95,809).	42	Yields accepted ranged from 11.15% (price 95,705) up to 11.36% (price 95,739) with the average at 11.25% (price 95,927). Yields were based on an annual interest payment. The 11% interest rate was established in the auction of the companion domestic issue, Series N-1980.	43	Yields accepted ranged from 9.87% (price 100,009) up to 9.93% (price 95,802) with the average at 9.92% (price 95,920).	44	Yields accepted ranged from 10.71% (price 95,729) up to 10.74% (price 95,344) with the average at 10.72% (price 95,871).	45	Yields accepted ranged from 11.63% (price 95,957) up to 11.70% (price 95,628) with the average at 11.67% (price 95,765).	46	Yields accepted ranged from 11.58% (price 95,917) up to 11.66% (price 98,130) with the average at 11.65% (price 98,130).	47	Yields accepted ranged from 9.81% (price 95,893) up to 9.84% (price 95,840) with the average at 9.83% (price 95,858).	48	Yields accepted ranged from 10.28% (price 95,907) up to 10.40% (price 95,277) with the average at 10.40% (price 95,927).	49	Yields accepted ranged from 11.33% (price 95,528) up to 11.37% (price 95,294) with the average at 11.34% (price 95,352).	50	Yields accepted ranged from 11.48% (price 100,088) up to 11.31% (price 95,489) with the average at 11.27% (price 95,829).	51	Yields accepted ranged from 10.08% (price 95,908) up to 10.14% (price 95,277) with the average at 10.12% (price 95,785).	52	Yields accepted ranged from 11.42% (price 95,703) up to 11.43% (price 95,501) with the average at 11.43% (price 95,703).	53	Yields accepted ranged from 10.63% (price 95,860) up to 10.88% (price 95,772) with the average at 10.66% (price 95,807).	54	Yields accepted ranged from 11.00% (price 95,808) up to 11.32% (price 95,780) with the average at 11.30% (price 95,843).	55	Yields accepted ranged from 11.62% (price 95,594) up to 11.85% (price 95,739) with the average at 11.68% (price 95,906).	56	Yields accepted ranged from 12.00% (price 95,920) up to 12.05% (price 95,165) with the average at 12.02% (price 95,750).	57	Yields accepted ranged from 9.80% (price 95,911) up to 9.82% (price 95,870) with the average at 9.81% (price 95,893).	58	Yields accepted ranged from 9.90% (price 95,920) up to 10.03% (price 95,924) with the average at 10.00% (price 100,000).	59	Yields accepted ranged from 11.82% (price 95,823) up to 11.32% (price 95,253) with the average at 11.80% (price 95,703).	60	Yields accepted ranged from 11.36% (price 95,990) up to 11.39% (price 95,739) with the average at 11.38% (price 95,908).	61	Yields accepted ranged from 9.91% (price 100,027) up to 9.14% (price 95,973) with the average at 9.93% (price 95,911).	62	Yields accepted ranged from 9.90% (price 95,920) up to 9.96% (price 95,570) with the average at 9.95% (price 95,961).	63	Yields accepted ranged from 9.93% (price 95,884) up to 10.03% (price 95,293) with the average at 10.00% (price 95,920). Yields are based on an annual interest payment. The 9-7/8% interest rate was established in the auction of the companion domestic issue, Series K-1990.	64	Yields accepted ranged from 5.43% (price 100,036) up to 5.44% (price 95,828) with the average at 5.51% (price 95,882).	65	Yields accepted ranged from 9.70% (price 95,750) up to 9.72% (price 95,691) with the average at 9.72% (price 95,691).	66	Yields accepted ranged from 10.37% (price 100,006) up to 10.41% (price 95,430) with the average at 10.38% (price 95,830).	67	Yields accepted ranged from 10.73% (price 100,008) up to 10.76% (price 95,457) with the average at 10.75% (price 95,457).	68	Yields accepted ranged from 10.75% (price 95,457) up to 10.80% (price 95,863) with the average at 10.78% (price 95,776) with the average at 9.90% (price 95,863).	69	Yields accepted ranged from 9.90% (price 95,920) up to 9.96% (price 95,570) with the average at 9.95% (price 95,961).	70	Yields accepted ranged from 9.93% (price 95,884) up to 9.94% (price 95,893).	71	Yields accepted ranged from 10.58% (price 95,514) up to 10.61% (price 95,293) with the average at 10.60% (price 95,514).	72	Yields accepted ranged from 10.64% (price 95,865) up to 10.65% (price 95,506) with the average at 10.69% (price 95,865).	73	Yields accepted ranged from 10.68% (price 100,027) up to 9.91% (price 95,937) with the average at 8.91% (price 95,937).	74	Yields accepted ranged from 9.93% (price 95,884) up to 9.94% (price 95,893).	75	Yields accepted ranged from 9.02% (price 99,930) up to 9.13% (price 95,871) with the average at 9.11% (price 99,930).	76	Yields accepted ranged from 8.80% (price 95,991) up to 9.21% (price 95,919) with the average at 9.00% (price 95,991).	77	The low, high, and average yield was 9.47% (price 95,695).	78	The low, high, and average yield was 9.75% (price 100,000).	79	Yields accepted ranged from 10.00% (price 100,000) up to 10.49% (price 102,046) with the average at 10.47% (price 102,023).	80	Yields accepted ranged from 8.67% (price 95,859) up to 8.75% (price 95,859) with the average at 8.72% (price 95,859).	81	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	82	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	83	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	84	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	85	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	86	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	87	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	88	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	89	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	90	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	91	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	92	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	93	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	94	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	95	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	96	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	97	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	98	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	99	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).	100	Yields accepted ranged from 8.68% (price 95,991) up to 8.91% (price 95,919) with the average at 8.85% (price 95,991).

1/ Includes trust funds and accounts that comprise Government accounts under the unified budget concept.2/ Exclusive of banks and insurance companies.3/ Included with all other investors are certain Government deposit accounts

and Government-sponsored agencies, formerly included with Government accounts.

Note.—For detail of offerings see table PDO-3.

U.S. SAVINGS BONDS AND NOTES

Series EE bonds, on sale since Jan. 1, 1980, are the only savings bonds currently sold. Series HH bonds are issued in exchange for series E and EE savings bonds and savings notes. Series A-0 were sold from Mar. 1, 1935, through Apr. 30, 1941. Series E was on sale from May 1, 1941, through Dec. 31, 1979 (through June 1980 to payroll) savers only. Series F and G were sold from May 1, 1941, through Apr. 30, 1952. Series H was sold from June 1, 1952, through Dec. 31, 1979. Series HH bonds were sold for cash from Jan. 1, 1980, through Oct. 31, 1982. Series J and K were sold from May 1, 1952, through Apr. 30, 1957.

U.S. savings notes were on sale May 1, 1967, through June 30, 1970. The notes were eligible for purchase by individuals with the simultaneous purchase of series E savings bonds. The principal terms and conditions for purchase and redemption and information on investment yields of savings notes appear in the Treasury Bulletins of March 1967 and June 1968; and the Annual Report of the Secretary of the Treasury for fiscal year 1974.

Table SBN-1. — Sales and Redemptions by Series, Cumulative through Dec. 31, 1985

[In millions of dollars. Source: Monthly Statement of the Public Debt of the United States; Market Analysis Section, United States Savings Bonds Division]

Series	Sales 1/	Accrued discount	Sales plus accrued discount	Redemptions 1/	Amount outstanding	
					Interest-bearing debt	Matured non-interest-bearing debt
Savings bonds:						
Series A-0 2/.....	3,949	1,054	5,003	5,002	—	1
Series E, EE, H, and HH.....	237,192	90,179	327,370	247,791	78,073	1,458
Series F and G.....	28,396	1,125	29,521	29,517	—	4
Series J and K.....	3,556	198	3,754	3,753	—	1
Savings notes.....	862	402	1,264	993	271	—
Total.....	273,953	92,959	366,912	287,056	78,344	1,463

1/ Sales and redemption figures include exchange of minor amounts of (1) matured series E bonds for series G and K bonds from May 1951 through April 1957; (2) series F and J bonds for series H bonds beginning January 1960; and (3) U.S. savings notes for series H

bonds beginning January 1972; however, they exclude exchanges of series E bonds for series H and HH bonds.

2/ Details by series on a cumulative basis and by period of series A-0 combined will be found in the February 1982 and previous issues of the Treasury Bulletin.

1/ Treasury series is the 20-year constant maturity rate read from daily

Treasury yield curves and averaged for the month.

2/ Treasury series based on 3-week moving average of reoffering yields of new corporate bonds rated Aa by Moody's Investors Service and having an original maturity of at least 20 years. Prior to June 1973, this series reflected bonds without call protection. From June 1973 to July 1976, the

series was adjusted to reflect 5 years call protection. Since that time the series reflects bond yields regardless of the call protection offered.

3/ Index of new reoffering yields on 20-year general obligations rated Aa by Moody's Investors Service. Prior to June 1970, the series was compiled by Securities Industries Association. Since then, the series has been compiled by Treasury.

FINANCIAL OPERATIONS OF GOVERNMENT AGENCIES AND FUNDS

Government Corporations and Other Business-Type Activities

INTRODUCTION

Treasury Department Circular No. 966, Revised, dated December 20, 1972, and volume 1, part 2, chapter 4100 of the Treasury Financial Manual (Transmittal Letter No. 413) require Government agencies to submit business-type financial statements and related information to the Department of the Treasury for use in compiling financial reports of the U.S. Government. The circular was originally issued in 1956 pursuant to the authority of section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 3513) which requires the Secretary of the Treasury to prepare reports on the financial operations of the U.S. Government.

Department Circular No. 966, Revised, requires submission of annual financial statements by all Government corporations specifically subject to the Government Corporation Control Act, as amended (31 U.S.C. 846, 856); any wholly owned and mixed-ownership corporation subsequently brought under the provisions of the act; all activities operating as revolving funds; and any other activities or agencies whose operations, services, or functions are largely self-liquidating or primarily of a revenue-producing nature or whose activities result in the accumulation of substantial inventories, investments, and other recoverable assets.

The Statements of Financial Condition and Statements of Income and Retained Earnings presented in the following tables reflect the position of both business-type and regular governmental activities as of September 30, 1985. Transfer appropriations have been included with fund totals of the

agency administering the program--the "spending" agency. All amounts are reported in dollars.

Statements of Financial Condition, required for all activities, are published annually in the Treasury Bulletin in table GA-1-1. Statements of Income and Retained Earnings, required for all business-type activities, are also published annually and appear in table GA-1-2. Direct loans held by agencies and loans guaranteed or insured by agencies are published semiannually (winter and summer issues) and appear in table GA-11-1. Tables detailing the status of accounts and loans receivable due from the public, required for all activities, are published annually and appear separately in the "Cash Management/Debt Collection" section of the Treasury Bulletin.

The data presented in the following tables are amounts agencies reported to the Department of the Treasury. This data has not been compared with any other reports submitted to Treasury, nor has it been traced to source documents within the agency. In the past, there have been instances of problems in underlying data and systems which affected the reliability of agency financial reports.

Note.--Prior year financial statements have been substituted for agency reports not submitted in time for publication. Columnar headings marked with an asterisk (*) denote September 30, 1984, data.

Accompanying Charts and Graphs

A broad assortment of charts and graphs has been assembled, beginning on page 125, from information in the 1982-84 financial statements and schedules of Government corporations and other business-type activities. Information in

these graphic representations, listed below, is based on agency reporting conducted according to Treasury definitional requirements of the Treasury Financial Manual (1 TFM 2-4100). Exceptions have been footnoted.

1. Current Assets 1982-1984 ^{1/}
2. Accounts Receivable 1982-1984
3. Long-Term Assets 1982-1984
4. Selected Current Liabilities 1982-1984
5. Accounts Payable 1982-1984
6. Long-Term Liabilities 1982-1984
7. Undelivered Orders 1982-1984

8. Quick Ratio 1982-1984 ^{2/}
9. Debt Ratio 1982-1984 ^{3/}
10. Income and Expense of Government Corporations and Other Business-Type Activities, 1975-1984
11. Government-wide Assets/Liabilities 1982
12. Government-wide Assets/Liabilities 1983
13. Government-wide Assets/Liabilities 1984

^{1/} Current assets: Total selected current assets plus current accounts receivable.

^{2/} Quick ratio: Current assets minus inventory divided by total selected current liabilities.

^{3/} Debt ratio: Total liabilities divided by total assets.

International Statistics

The tables in this section are designed to provide data on U.S. reserve assets and liabilities and other statistics related to the U.S. balance of payments and international financial position.

Table IFS-1 shows the reserve assets of the United States, including its gold stock, special drawing rights held in the Special Drawing Account in the International Monetary Fund, holdings of convertible foreign currencies, and reserve position in the International Monetary Fund.

Table IFS-2 brings together statistics on liabilities to foreign official institutions, and selected liabilities to all other foreigners, which are used in the U.S. balance of payments statistics.

Table IFS-3 shows U.S. Treasury nonmarketable bonds and notes issued to official institutions and other residents of foreign countries.

Table IFS-4 presents a measure of weighted-average changes in exchange rates between the U.S. dollar and the currencies of certain other countries.

1/ Beginning July 1974, the International Monetary Fund (IMF) adopted a technique for valuing the special drawing right (SDR) based on a weighted-average of exchange rates for the currencies of selected member countries. The U.S. SDR holdings and reserve position in the IMF are also valued on this basis beginning July 1974.

2/ Includes gold held by the Exchange Stabilization Fund.

3/ Treasury values its gold stock at \$42,222 per fine troy ounce and pursuant to 31 U.S.C. 5117(b) issues gold certificates to the Federal Reserve at the same rate against all gold held.

4/ Includes allocations of SDRs in the Special Drawing Account in the International Monetary Fund, plus or minus transactions in SDRs.

Allocations of SDRs on Jan. 1 of respective years are as follows: 1970, 867 million; 1971, 717 million; 1972, 710 million; 1979, 874 million (in SDR terms); 1980, 874 million (in SDR terms); and 1981, 857 million (in SDR terms).

5/ Includes holdings of Treasury and Federal Reserve System; beginning November 1978, these are valued at current market exchange rates or, where appropriate, at such other rates as may be agreed upon by the parties to the transactions.

6/ The United States has the right to purchase foreign currencies equivalent to its reserve position in the Fund automatically if needed. Under appropriate conditions the United States could purchase additional amounts related to the U.S. quota.

1/ Includes Bank for International Settlements.

2/ Derived by applying reported transactions to benchmark data.

3/ Includes debt securities of U.S. Government corporations, federally sponsored agencies, and private corporations.

4/ Includes liabilities payable in dollars to foreign banks, and liabilities payable in foreign currencies to foreign banks and to "other foreigners."

5/ Includes marketable U.S. Government bonds and notes held by foreign banks.

6/ Includes nonmarketable U.S. Government bonds and notes held by foreign banks.

7/ Principally the International Bank for Reconstruction and Development, the Inter-American Development Bank, and the Asian Development Bank.

Note.—Table is based on Treasury Department data and on data reported to the Treasury Department by banks and brokers in the United States.

Data correspond generally to statistics following in this section and in the "Capital Movements" section, except for the inclusion of investments by foreign official reserve agencies in debt securities of U.S. federally sponsored agencies and U.S. corporations. Table excludes International Monetary Fund "holdings of dollars" and holdings of U.S. Treasury letters of credit and nonnegotiable noninterest-bearing special U.S. notes held by other international and regional organizations.

1/ This table presents calculations of weighted average percentage changes in the rates of exchange between the dollar and certain foreign currencies, in order to provide a measure of changes in the dollar's general foreign exchange value broader than a measure provided by any single exchange rate change. Calculations are provided for two sets of countries that account for a major share of U.S. foreign trade. U.S. bilateral trade patterns in 1972 are used as a convenient, readily available proxy for the assignment of relative weights to individual exchange rate changes, although such weights do not provide a full measure of individual currencies' relative importance in U.S. international transactions because they take no account of factors other than trade. The calculations do not purport to represent a guide to measuring the impact of exchange rate changes on U.S. international transactions.

Exchange rate data used in constructing the indices reported here differ somewhat from those used in earlier calculations to more accurately reflect end-of-period currency values.

The equations used are as follows:

Equation one is used to calculate a trade-weighted average of changes in the dollar cost of foreign currencies:

$$(EQ1) E_m = \Sigma(\Delta f_c / f_c * M_i / XM)$$

Where: E_m is the weighted average of percentage changes in the dollar cost of individual foreign currencies;

$\Delta f_c / f_c$ is the percent change in the dollar cost of foreign currency i ; and

M_i / XM is U.S. imports from country i , as a proportion of total U.S. imports from all countries in the set.

Equation two is used to calculate a trade-weighted average of changes in the foreign exchange cost of dollars:

$$(EQ2) E_x = \Sigma(\Delta f_c / f_c * X_i / EX)$$

Where: E_x is the weighted average of percentage changes in the foreign currency cost of dollars;

$\Delta f_c / f_c$ is the percent change in the foreign currency i cost of dollars; and

X_i / EX is U.S. exports to country i , as a proportion of total U.S. exports to all countries in the set.

Equation three combines the above export-weighted and import-weighted averages to provide an overall measure of exchange rate change:

$$(EQ3) E = [(E_m * m/mx) * (-1)] + [E_x * x/mx]$$

Where: m/mx is U.S. imports as a proportion of its total trade with all countries in the set; and

x/mx is U.S. exports as a proportion of its total trade with all countries in the set.

2/ Australia, Austria, Belgium-Luxembourg, Canada, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, and United Kingdom.

3/ The currencies of 46 IMF member countries which account for approximately 90 percent of U.S. total trade.

CAPITAL MOVEMENTS

INTRODUCTION

Background

Data relating to capital movements between the United States and foreign countries have been collected in some form since 1935. Reports are filed with district Federal Reserve banks by commercial banks, thrift institutions, bank holding companies, securities brokers and dealers, and nonbanking enterprises in the United States. Statistics on the principal types of data by country or geographical area are then consolidated and are published in the Treasury Bulletin.

The reporting forms and instructions^{1/} used in the Treasury International Capital (TIC) Reporting System have been revised a number of times to reflect changing conditions and to increase the usefulness of the published statistics. The most recent general revision of the report forms became effective with the banking reports as of April 30, 1978, and with the nonbanking reports as of December 31, 1978. Revised forms and instructions are developed with the cooperation of other Government agencies and the Federal Reserve System and in consultations with representatives of banks, securities firms, and nonbanking enterprises.

Basic Definitions

The term "foreigner" as used in the Treasury reports covers all institutions and individuals domiciled outside the United States, including U.S. citizens domiciled abroad, and the foreign branches, subsidiaries, and other affiliates abroad of U.S. banks and business concerns; the central governments, central banks, and other official institutions of foreign countries, wherever located; and international and regional organizations, wherever located. The term "foreigner" also includes persons in the United States to the extent that they are known by reporting institutions to be acting on behalf of foreigners.

In general, data are reported opposite the foreign country or geographical area in which the foreigner is domiciled, as shown on the records of reporting institutions. For a number of reasons, the geographical breakdown of the reported data may not in all cases reflect the ultimate ownership of the assets. Reporting institutions are not expected to go beyond the addresses shown on their records, and so may not be aware of the country of domicile of the ultimate beneficiary. Furthermore, U.S. liabilities arising from deposits of dollars with foreign banks are reported in the Treasury statistics as liabilities to foreign banks, whereas the liabilities of the foreign bank receiving the deposit may be to foreign official institutions or to residents of another country.

Data pertaining to branches or agencies of foreign official institutions are reported opposite the country to which the official institution belongs. Data pertaining to international and regional organizations are reported opposite the appropriate international or regional classification except for the Bank for International Settlements which is included in the classification "Other Europe."

Reporting Coverage

Reports are required from banks, bank holding companies, International Banking Facilities (IBFs), savings and loan and other thrift institutions, securities brokers and dealers, and nonbanking enterprises in the United States, including the branches, agencies, subsidiaries, and other affiliates in the United States of foreign banking and nonbanking firms. Entities that have reportable liabilities, claims, or securities transactions below specified exemption levels are exempt from reporting.

Banks, thrift institutions, and some brokers and dealers file monthly reports covering their dollar liabilities to, and dollar claims on, foreigners in a number of countries. Twice a year, as of June 30 and December 31, they also report the same liabilities and claims items with respect to foreigners in countries not shown separately on the monthly reports. Quarterly reports are filed with respect to liabilities and claims denominated in foreign currencies vis-à-vis foreigners. Effective January 31, 1984, the specified exemption level applicable to the monthly and quarterly banking reports was raised from \$10 million to \$15 million. There is no separate exemption level for the semiannual reports.

Banks, securities brokers and dealers, and in some instances nonbanking enterprises report monthly their transactions in securities with foreigners; the applicable exemption level is \$500,000 on the grand total of purchases and on the grand total of sales during the month covered by the report.

Quarterly reports are filed by exporters, importers, industrial and commercial concerns, financial institutions other than banks, thrift institutions and brokers, and other nonbanking enterprises if their liabilities to, or claims on, unaffiliated foreigners exceed a specified exemption level on a two quarter-end average basis. Effective March 31, 1982, this exemption level was set at \$10 million, up from \$2 million. Nonbanking enterprises also report for each month their U.S. dollar-denominated deposit and certificates of deposit claims of \$10 million or more on banks abroad.

Description of Statistics

Section I presents data on liabilities to foreigners reported by banks, thrift institutions, brokers, and dealers in the United States. Beginning April 1978, the following major changes were made in the reporting coverage:

Amounts due to banks' own foreign offices are reported separately; a previous distinction between short-term and long-term liabilities was eliminated; a separation was provided for the liabilities of the reporting banks to their custody liabilities to foreigners; and foreign currency liabilities are only available quarterly. Also, beginning April 1978, the data on liabilities were made more complete by extending to securities brokers and dealers the requirement to report certain of their own liabilities and all of their custody liabilities to foreigners. Effective as of January 31, 1985, savings and loan associations and other thrift institutions began to file the TIC banking forms. Previously they had reported on TIC forms for nonbanking enterprises.

Section II presents the claims on foreigners reported by banks in the United States. Beginning with data reported as of the end of April 1978, a distinction was made between banks' claims held for their own account and claims held for their domestic customers. The former are available in a monthly series whereas the latter data are reported on a quarterly basis only. Also, the distinction in reporting of long-term and short-term components of banks' claims was discontinued. Maturity data began to be collected quarterly on a time remaining to maturity basis as opposed to the historic original maturity classification. Foreign currency claims are also collected on a quarterly basis only. Beginning March 1981, this claims coverage was extended to certain items in the hands of brokers and dealers in the United States. See notes to section I above concerning the reporting of thrift institutions.

Another important change in the claims reporting, beginning with new quarterly data as of June 30, 1978, was the adoption of a broadened concept of "foreign public borrower," which replaced the previous category of "foreign official institution" to produce more meaningful information on lending to the public sector of foreign countries. The term "foreign public borrower" encompasses central governments and departments of central governments of foreign countries and of their possessions; foreign central banks, stabilization funds, and exchange authorities; corporations and other agencies of central governments, including development banks, development institutions, and other agencies which are majority-owned by the central government or its departments; State, provincial, and local governments of foreign countries and their departments and agencies; and international and regional organizations or subordinate or affiliated agency thereof, created by treaty or convention between sovereign states.

Section III includes supplementary statistics on U.S. banks' liabilities to, and claims on, foreigners. The supplementary data on banks' loans and credits to nonbank foreigners combine selected information from the TIC reports with data from Federal Reserve banks and other sources. It includes major foreign branches of U.S. banks. Other supplementary data on U.S. bank dollar liabilities to, and banks' own dollar claims on, countries not regularly reported separately are available semiannually in the May and November issues of the Treasury Bulletin.

Section IV shows the liabilities to, and claims on, unaffiliated foreigners by exporters, importers, industrial and commercial concerns, financial institutions other than banks, thrift institutions, brokers, and other nonbanking enterprises in the United States. The data exclude the intercompany accounts of nonbanking enterprises in the United States with their own branches and subsidiaries abroad or with their foreign parent companies. (Such transactions are reported by business enterprises to the Department of Commerce on its direct investment forms.) The data also exclude claims held through banks in the United States. Beginning with data reported as of December 31, 1978, financial liabilities and claims of reporting enterprises are distinct from their commercial liabilities and claims; as items are collected on a time remaining to maturity basis instead of on original maturity basis used previously.

Section V contains data on transactions in all types of long-term domestic and foreign securities by foreigners as reported by banks and brokers in the United States (except nonmarketable U.S. Treasury notes, foreign series and nonmarketable U.S. Treasury bonds and notes, foreign currency series which are shown in the "International Financial Statistics" section, Table ITS-3). The data cover new issues of securities, transactions in outstanding issues, and redemptions of securities. They include transactions executed in the United States for the account of foreigners, and transactions executed abroad for the account of reporting institutions and their domestic customers. The data include some transactions which are classified as direct investments in the balance of payments accounts. Also, see notes for section I above concerning the reporting of thrift institutions.

The geographical breakdown of the data on securities transactions shows the country of domicile of the foreign buyers and sellers of the securities. In the case of outstanding issues, this may differ from the country of U.S. original issuer. The gross figures contain some offsetting transactions between foreigners. The net figures for total transactions represent transactions by foreigners with U.S. residents; but the net figures for transactions by U.S. residents with foreigners may include some transactions between foreigners of different countries.

The data published in these sections do not cover all types of reportable capital movements between the United States and foreign countries. The principal exclusions are the intercompany capital transactions of nonbanking business enterprises in the United States with their own branches, subsidiaries abroad or with their foreign parent companies, and capital transactions of the U.S. Government. Consolidated data on all types of international capital transactions are published by the Department of Commerce in its regular reports on the U.S. balance of payments.

^{1/} Copies of the reporting forms and instructions may be obtained from the Office of Data Management, Office of the Assistant Secretary for International Affairs, Department of the Treasury, Washington, D.C. 20220, or from district Federal Reserve banks.

1/ Includes Bank for International Settlements.

2/ Principally the International Bank for Reconstruction and Development and the Inter-American Development Bank.

3/ Data as of preceding quarter for non-quarter-end months.

4/ Establishment of International Banking Facilities (IBF's) permitted beginning December 1981.

Note.--Total liabilities include liabilities previously classified as either "short term" or "long term" on the Treasury reports filed by banks. The maturity distinction was discontinued with new reports filed as of Apr. 30, 1978, and historical series adjusted accordingly. See introductory text to Capital Movements tables for discussion of changes in reporting.

FOREIGN CURRENCY POSITIONS

INTRODUCTION

Background

Data have been collected since 1974 on the foreign currency positions of banks and nonbanking firms in the United States, and on those of foreign branches, majority-owned foreign partnerships, and majority-owned foreign subsidiaries of U.S. banks and nonbanking firms. Reports cover five major foreign exchange market currencies and U.S. dollars held abroad. Reporting has been required pursuant to title II of Public Law 93-110, an amendment to the Par Value Modification Act of September 21, 1973, and implementing Treasury regulations. Statistics on the positions have been published since March 1977 beginning with data for December 1975.

The report forms and instructions used in the collection of bank data were revised effective with reports as of March 16, 1983, for the weekly reports. The most recent revision of the nonbank foreign currency forms (see below) became effective as of the last business day of March 1983.

Common Definitions and Concepts

The term "United States" means the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Wake Island, the Virgin Islands, and Wake Island. The term "foreign" means locations other than the "United States." The term "worldwide" is used to describe the sum of "United States" and "foreign" data.

Data for the United States include amounts reported by sole proprietorships, partnerships, and corporations in the United States including the U.S. branches and subsidiaries of foreign nonbanking concerns. In the case of "nonbanking firms' positions," and the agencies, branches, and subsidiaries located in the United States of foreign banks and banking institutions, in the case of the weekly "bank positions."

Data for "foreign branches" and "abroad" include amounts reported by the branches, majority-owned partnerships, and majority-owned subsidiaries of U.S. banking and nonbanking concerns. In general, these data do not reflect the positions of foreign parents or foreign parents' subsidiaries located abroad except through intercompany accounts. The data include the foreign subsidiaries of a few foreign-owned U.S.-based corporations.

Assets, liabilities, and foreign exchange contract data are reported on the basis of time remaining to maturity as of the date of the report, regardless of the original maturity of the instrument involved. "Spot" means due for receipt or delivery within 2 business days from the date of the report. "Short-term" means maturing in 1 year or less from the date of the report.

"Majority-owned foreign partnerships" are those organized under the law of a foreign country in which one or more nonbanking concerns or nonprofit institutions in the United States, directly or indirectly, own more than percent profit interest. "Majority-owned foreign subsidiaries" are foreign corporations in which one or more nonbanking business concerns or nonprofit institutions located in the United States, directly or indirectly, own stock with more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of a classes of stock.

Reporting Threshold

The exemption level applicable to banks and banking institutions was \$1 million equivalent through January 1982, when it was raised to \$100 million. The exemption level applicable to nonbanking business concerns and nonprofit institutions was \$1 million equivalent on all nonbank forms from March 19 through November 1976. It was raised to \$2 million equivalent on the month reports of positions held in the United States from November 1976 through September 1978. The exemption level was raised to \$3 million on foreign subsidiary positions on June 30, 1977, and for positions held in the United States on September 30, 1978. The exemption level for nonbanking firms was raised to \$100 million on positions in the United States in January 1982 on a foreign branch and subsidiaries positions in March 1982.

Firms must report their entire foreign currency position in a specific foreign currency if a specified U.S. dollar equivalent value is reached in a category of assets, liabilities, exchange contracts bought and sold, or a net position in the currency. In general, exemption levels are applied to the entire firm. In reports on their foreign branches, majority-owned foreign partnerships, and majority-owned foreign subsidiaries, U.S. banks and nonbanks are required to report the U.S. dollar-denominated assets, liabilities, exchange contracts bought and sold, and net positions of those branches, partnerships, and subsidiaries with reportable positions in the specific foreign currencies.

Description of Statistics

Data collected on the Treasury foreign currency forms are published in the Treasury Bulletin in seven sections. The first section presents a summary of worldwide net positions in all of the currencies reported. Sections through VI each present data on a specified foreign currency. Section VII presents the U.S. dollar positions of the foreign branches and subsidiaries of U.S. firms which are required to report in one or more of the specific foreign currencies.

FOREIGN CURRENCY POSITIONS

Footnotes to Tables FCP-I through FCP-VII

SECTION I

1/ Worldwide net positions on the last business day of the calendar quarter of nonbanking business concerns in the United States and their foreign branches and majority-owned partnerships and subsidiaries. Excludes receivables and installment paper which have been sold or discounted before maturity, U.S. parent companies' investment in their majority-owned foreign subsidiaries, fixed assets (plant and equipment), and capitalized leases for plant and equipment.

2/ Foreign branches and majority-owned partnerships and subsidiaries only.

3/ Weekly worldwide net positions of banks and banking institutions in the United States, and their foreign branches and majority-owned foreign subsidiaries. Excludes capital assets and liabilities.

4/ Foreign branches and majority-owned subsidiaries only.

SECTIONS II THROUGH VII

1/ Positions of nonbanking business concerns in the United States and their foreign branches and majority-owned partnerships and subsidiaries. In section VII positions of foreign branches and majority-owned partnerships and subsidiaries only.

2/ Excludes receivables and installment paper sold or discounted before maturity, fixed assets (plant and equipment), and parents' investment in

majority-owned foreign subsidiaries.

3/ Capitalized plant and equipment leases are excluded.

4/ Includes both spot and forward exchange rates.

5/ Columns 1 and 3 less columns 2 and 4.

6/ Representative rates on the report date. Canadian dollar and United Kingdom pound rates are expressed in U.S. dollars per unit of foreign currency, all others in foreign units per U.S. dollar.

7/ Banks and banking institutions in the United States and their foreign branches and majority-owned subsidiaries. In section VII, foreign branches and majority-owned subsidiaries only.

8/ Excludes capital assets.

9/ Excludes capital liabilities.

10/ Includes both spot and forward exchange contracts.

11/ Columns 3 and 9 less columns 6 and 12.

12/ See footnote 6.

Net income.....	642,358	1,043,663

1/ Beginning July 1974, the International Monetary Fund (IMF) adopted a technique for valuing the special drawing rights (SDRs) based on a weighted average of exchange rates for the currencies of selected member countries. The U.S. SDR holdings and allocations are valued on this basis beginning July 1974.

2/ Excludes foreign exchange transactions for future and spot delivery.
3/ A non-interest-bearing liability to the U.S. Treasury resulting from the transfer to the Exchange Stabilization Fund of foreign currencies drawn from the IMF by the United States.

4/ Represents an adjustment to retained earnings for income that was recorded in fiscal 1985 that had been earned in fiscal 1984.

Note.—Annual balance sheets for fiscal years 1934 through 1940 appear in the 1940 Annual Report of the Secretary of the Treasury and those for succeeding years appear in subsequent reports through 1980. Quarterly balance sheets beginning with Dec. 31, 1958, have been published in the Treasury Bulletin. Data from inception to Sept. 30, 1978, may be found on the statements published in the January 1979 Treasury Bulletin.

Cash Management/ Debt Collection

CASH MANAGEMENT INITIATIVES

Summary of Fiscal 1985 Collection and Deposit Developments

The Deficit Reduction Act, passed in 1984, put the Congress on record that the deficit is a major economic concern and under section 2652 (collection and deposit legislation) the Department of the Treasury was given the authority to:

- Prescribe methods and timeframes for collecting and depositing monies.
- Assess charges for noncompliance, and
- Credit charges imposed to the cash management improvements fund.

Responsibility and authority under this legislation was delegated to the Commissioner, Financial Management Service, by Treasury's Fiscal Assistant Secretary. The legislation and its implementing regulations will allow the Service to promote and institutionalize cash management in all Federal agencies.

The approach taken by the Financial Management Service in developing regulations and procedures to implement the act was to establish a Governmentwide task force. Four task groups convened for 2- to 3-week periods with the first group meeting in December 1984 and the fourth group meeting in February 1985. From these groups, the following products were developed:

• Regulations governing the management of Federal agency receipts in operation of the cash management improvements fund, published in the Federal Register on September 3, 1985, to become effective October 3, 1985;

• Revisions to incorporate the cash management requirements of the legislation into the Treasury Financial Manual (1 FM 6-8000) published and distributed to over 4,300 locations in October;

• Procedures for monitoring agency cash management compliance with the legislation; and

• Procedures for payment applications into and out of the cash management improvements fund.

Planning was done for a Governmentwide cash management seminar (held November 8, 1985) to brief agencies on the new legislation and to discuss various cash management mechanisms available for agency use. Additional training on the legislation is tentatively planned, besides January, for April and June of 1986.

Reform '88 Cash Management

Treasury's Financial Management Service/Federal Finance has lead agency responsibility by monitoring and reporting progress on Reform '88 cash management initiatives undertaken by 20 Federal departments and agencies. The overall goal of the project is to improve Government's payments and collections systems, with special attention being directed toward identifying additional application for state-of-the-art technology and expanding the use of other mechanisms, such as lockboxes, automated clearinghouses, and cash concentration systems.

Agencies are providing monthly reports to Treasury on the status approximately 450 initiatives. For fiscal years 1983 and 1984, interest savings totaled \$178 million and \$335 million, respectively.

Projected figures for fiscal 1985 and actual interest savings for fiscal 1985 for each of the participating agencies are shown below.

Interest Savings for Fiscal 1985

[In thousands of dollars]

Department/Agency	Interest savings	
	Original goal (full year)	Actual interest (full year)
Agency for International Development.....	1,118	4,166
Agriculture.....	20,843	25,433

Total.....	423,534	660,787

Treasury General Account Cash Management Initiatives

Treasury general accounts are maintained at over 450 domestic commercial banks. The Department of the Treasury implemented a new Treasury General Account Cash Concentration System (TGA CCS) in 1983. The TGA CCS has automated the movement of funds and accounting detail from TGA depositaries to Treasury via concentration banks. New functions being performed by TGA

depositaries include: truncating all paper at the TGA depositary, confirming and reporting detailed agency deposits through a telecommunications network, and transferring TGA funds through the automated clearinghouse or commercial wire networks. The system collected about \$107 billion in fiscal 1985 from over 3,000 agency field locations.

ACCOUNTS AND LOANS RECEIVABLE DUE FROM THE PUBLIC

INTRODUCTION

The Treasury Financial Manual (Transmittal Letter No. 442, June 8, 1984) advised agencies of a continuing reporting requirement to obtain data on the status of accounts and loans receivable due from the public, and on agencies' accounting and debt collection practices.

These receivables and the agencies' methods of collecting them have been discussed at congressional hearings. Under the Debt Collection Act of 1982 and the implementing joint standards issued by the Department of Justice and the General Accounting Office, operating departments and agencies have primary responsibility for collection of amounts arising from their programs.

Transmittal Letter No. 442 required all agencies to prepare a supporting schedule to the Statement of Financial Condition, SF-220, for accounts, loans, or other receivables due from the public as of September 30, 1985. Of the seven sections of the schedule, three reproduced in the following tables report the reconciliation of accounts balances, amounts due by age category, and the disposition of writeoffs and adjustments to allowances. The first

table gives data about accounts receivable; the second and third tables detail loans receivable and other, or noncurrent, receivables, respectively. The data are shown on a summary basis by agency and are reported in dollars.

The information shown in these tables is based on data submitted to the Treasury, Financial Management Service, per Department of the Treasury Circular No. 966, Revised, dated December 20, 1972, and volume I, part 1, chapter 4100 of the Treasury Financial Manual. These financial statements appear annually in the Treasury Bulletin.

The data presented in the following tables are amounts agencies report to the Department of the Treasury. This data has not been compared with other reports submitted to Treasury, nor has it been traced to source documents within the agency. In the past, there have been instances of problems in underlying data and systems which affected the reliability of agency financial reports.

The accounts and loans receivable totals shown on the following pages do not include amounts for the Federal Financing Bank. For expediency, the Section I: Reconciliation of Federal Financing Bank totals are shown below.

If the totals for off-budget Federal agencies had included these amounts, ending receivable totals for accounts and loans receivable due from the public would have been \$77,172,234,920 and \$288,058,492,747, respectively.

Federal Financing Bank

SECTION I: Reconciliation

	Accounts receivable	Loans receivable

Special Reports

STATEMENT OF LIABILITIES
AND OTHER FINANCIAL COMMITMENTS OF THE
UNITED STATES GOVERNMENT AS OF SEPT. 30, 1985

INTRODUCTION

This report is compiled in accordance with 31 U.S.C. 331 (b), for the period ended September 30, 1985.

Liabilities of the Federal Government are shown in section I of this report. Commitments that may or may not become actual liabilities because of future events are shown in sections II, III, and IV. Clearly, there is a vast difference between items in section I—where the liability is certain and the amounts relatively precise—and section IV—where the possible future liability is highly speculative and may never arise. The amounts in section IV, if they can be projected at all, are stated in terms of maximum theoretical risk exposure (the upper limit of the Government's financial commitment) without regard to probability of occurrence and without deduction for existing and contingent assets which would be available to offset potential losses.

Therefore, there is little relationship between the four sections of this report. The liabilities presented in each section deal with dissimilar types of commitments which cannot be summarized. Consequently, each section should be considered individually as a specialized information source.

The "liabilities" in section I represent existing liabilities to pay (1) money borrowed (public debt and agency debt including all public and agency debt issues outstanding), (2) goods and services actually received, and (3) adjudicated claims.

The "undelivered orders" in section II represent the value of goods and services ordered and obligated but which have not been received and other legal commitments against appropriations, all pursuant to section 1311 of the

Supplemental Appropriation Act of 1955 (31 U.S.C. 200). These commitments will become an obligation when the goods and services ordered are delivered or when other performance stipulations have been met and the amounts to be paid can be determined.

The "long-term contracts" in section III represent commitments of a general nature that will not be due for a comparatively long time (usually more than one fiscal year). These commitments differ from those in section II insofar as (1) they are not legal commitments against appropriations, (2) a longer period of time will elapse before they become obligations, and (3) they are subject to cancellation or modification and are not a reliable measure of future liabilities.

The "contingencies" in section IV represent conditional commitments that may become actual liabilities due to future events beyond the control of the Government. These commitments share a basic characteristic of uncertainty as to a possible loss and they will be ultimately resolved when one or more future events occur or fail to occur.

The data presented in this report are amounts agencies reported to the Department of the Treasury. This data has not been compared with any other reports submitted to the Treasury, nor has it been traced to source documents within the agency. In the past, instances have occurred where the underlying data and systems have had problems which affected the reliability of agency financial reports.

The footnotes accompanying the schedules are intended to assist the user in evaluating the data.

Schedule 1.—Summary Statement of Liabilities and Other Financial Commitments of the United States Government as of Sept. 30, 1985

[In millions]			
Section	Total	Applicable to other Government funds	Applicable to the public
I. Liabilities:			
The public debt (schedule 2).....	\$1,823,103	\$316,546	\$1,506,557
Agency securities outstanding (schedule 3).....	4,366	1,067	3,299
Total public debt and agency securities.....	1,827,469	317,613	1,509,856
Deposit fund accounts (schedule 4).....	14,389	-	14,389
Checks and other instruments outstanding (schedule 5).....	11,291	-	11,291
Accrued interest on the public debt (schedule 5).....	26,709	-	26,709
Deferred interest (premium) on public debt subscriptions (schedule 5).....	348	-	348
Accounts payable and accruals of Government agencies (schedule 6).....	182,915	33,728	149,187
Total liabilities.....	2,063,121	351,341	1,711,780
II. Undelivered orders (schedule 7).....	560,043	101,553	458,490
III. Long-term contracts—noncurrent (schedule 8).....	13,563	-	-
IV. Contingencies:			
Government loan and credit guarantees (schedule 9).....			\$662,244
Insurance commitments (schedule 10).....			2,655,067
Actuarial status of annuity programs (schedule 11).....			1/
Unadjudicated claims (schedule 12).....			37,639
Commitments to international lending organizations (schedule 13).....			12,807
Other contingencies (schedule 14).....			22,940

1/ Because the various annuity programs have been computed on different actuarial bases and at varying valuation dates, a total has not been computed. Details of individual programs are given in schedule 11.

Note.—Amounts presented in this report were compiled from reports submitted by the agencies in accordance with Department Circular No. 966, Revised, dated Dec. 20, 1972, and volume 1, part 2, chapter 4100 of the Treasury Financial Manual (Transmittal Letter No. 442). The information furnished by some reporting agencies was based on estimates.

Schedule 5.--Other Liabilities of the Treasury as of Sept. 30, 1985

[In millions]	
Description	Amount
Checks and other instruments outstanding:	
Disbursing officers' checks and miscellaneous liabilities 1/.....	\$11,291
Accrued interest on the public debt, U.S. Treasury securities 2/:	
Accrued interest payable.....	26,709
Accrued interest payable on exchanges or deferred public debt subscriptions.....	*
Total accrued interest on the public debt.....	26,709
Deferred interest (premium) on public debt subscriptions, U.S. Treasury securities.....	348
Total other liabilities of the Treasury.....	38,348
Less than \$500,000.	

1/ Includes postal money orders outstanding.
 2/ This liability does not include interest on any series of savings bonds.
 The liability for interest on savings bonds which are sold at a discount is included in the public debt principal on the basis of the increment in

redemption value. The liability for interest on income-type savings bonds is recorded when the interest checks are issued with corresponding liability for interest due and payable (equivalent, in this case, to checks outstanding).

Schedule 6.--Accounts Payable and Accruals of Government Agencies as of Sept. 30, 1985

See footnotes on following page.

Public Law 95-595 requires annual reporting 6 months after the close of the plan year plan which provides pension benefits for officers and employees of the Federal Government and its agencies and instrumentalities. Figures in this report are based on the most recent Public Law 95-595 submission.

The Uniformed Services Retirement System covers the military, the U.S. Coast Guard, and the commissioned corps of the Public Health Service and the National Oceanic and Atmospheric Administration. There are no employee contributions or trust funds from which benefits are paid. The Federal Government finances all benefit payments through annual appropriations authorized by Congress. These plans submit Public Law 95-595 reports.

The Federal supplementary medical insurance trust fund has no valuation period as such. Under authority of section 1839 of the Social Security Act, the Secretary of Health and Human Services annually determines amounts to be paid by each of supplementary medical insurance enrollees and the Department of the Treasury that are, in total, adequate to fund both benefits incurred through the end of the annual promulgation period and related administrative expenses. Since amounts determined annually make adjustments for actuarial gains and losses, past submissions have used special definitions of assets and liabilities that relate solely to items incurred as of the valuation date.

The present values shown have been computed as of the beginning of the valuation period. The liabilities consist of the sum of all estimated outgo during the valuation period and the value of loans owed to other funds; and the assets consist of the sum of all estimated income during the period, an estimate of trust fund balance at the beginning of the period, and the value of any loans made to other funds. The estimates have been prepared on the basis of the financing method regarded by Congress and the trustees of the trust funds as the appropriate one to use for social insurance programs; namely, that future young workers will be covered by the program as they enter the labor force. If, instead, the estimates were based on the assumption that no workers would be covered in the future other than those who were age 16 and over as of Sept. 30, 1985 (that is contrary to the basis which Congress has adopted for financing these two programs), there would be a deficiency of \$4,647,400 million for the GASDI programs.

Represents estimated total future costs for death benefits, disability compensation, medical and miscellaneous costs for approved compensation cases on the rolls as of Sept. 30, 1985. Assets are derived from appropriations. Under the FEC Act, the appropriations are either direct

or from other Federal agencies via the "chargeback" program whereby agencies reimburse OMCP in accordance with actual compensation costs incurred.

- 6/ Represents estimated total future cost for death benefits, disability compensation, medical and miscellaneous costs for approved compensation cases on the rolls as of Sept. 30, 1985. Includes the Federal share of total liabilities under the 1972 amendments to the Longshoremen's and Harbor Workers' Compensation Act, as extended. The Federal liability under the LSHW Act is limited to one-half of the increased cost for permanent total disability and death cases which occurred prior to Oct. 28, 1972.
- 7/ The Black Lung disability trust fund is liable for compensation and medical benefits for eligible miners and their survivors where mine employment terminated prior to 1970, or where no mine operator can be assigned liability. The actuarial assets amount is based on the following assumptions: coal tax of \$0.50 per surface ton, \$1 per underground ton, or 4 percent FOB price, whichever is less through Dec. 31, 1995; thereafter tax equals \$0.25 per surface ton, \$0.50 per underground ton, or 2 percent FOB price, whichever is less. The actuarial liability is computed through Sept. 30, 2010, and consists of \$18.9 billion in future compensation, medical benefits, and administrative expenses and \$22.3 billion in interest charges.
- 8/ There are two retirement plans under the Federal Reserve System. One plan covers the employees of the Board of Governors. These are Federal employees in the excepted civil service. The second plan established by the Federal Reserve Board covers employees of the 12 Federal Reserve banks. These are not Government employees. Employees hired on or after Jan. 1, 1984, are covered under the same provisions as the bank plan. A Public Law 95-595 report is submitted.
- 9/ Nonappropriated fund instrumentalities employ civilian workers and are authorized to operate programs, including retirement programs, to enhance their morale and welfare. These employees are not Federal employees under the civil service, but are governed by personnel policies established by the Departments of Defense and Transportation. The liability to the Federal Government for these retirement plans is extremely remote since employer contributions are to be paid from the operating revenues of the instrumentalities.
- 10/ The Farm Credit Administration operates 12 farm credit districts. In 1959, Congress prohibited new farm credit employees from participating in the civil service and authorized establishment of separate retirement plans for new employees.

Space Communications Inc., for financing by the FFB the Tracking and Data
Relay Satellite System.

TRUST FUND REPORTS

Airport and Airway Trust Fund

The airport and airway trust fund was originally established on the books of the Treasury in April 1971, with provisions of the Airport and Airway Revenue Act of 1970 (49 U.S.C. 1742(a)). The trust fund has been reestablished in the Internal Revenue Code (26 U.S.C. 9502 and 9602(b)) as a result of the Tax Equity and Fiscal Responsibility Act of 1982 (Public Law 97-248, dated Sept. 3, 1982), effective as of Sept. 1, 1982. Amounts equivalent to the taxes received in the Treasury on aviation fuel, transportation by air, gasoline used in aircraft, and tires and tubes used on aircraft are designated by the act to be appropriated and transferred from the general fund of the Treasury to the trust fund. These transfers are made at least quarterly on the basis of estimates made by the Secretary of the Treasury, subject to adjustments in later transfers to the amount of actual tax receipts. When the provisions of 26 U.S.C. 9602(c) have been met, amounts available in the fund in excess of outlay requirements shall be invested in public debt securities and interest thereon credited to the fund. There are also credited to the fund additional sums from the

general fund, as authorized and made available by law, to meet outlay requirements in excess of available revenues, if necessary.

Amounts required for outlays to carry out the airport and airway program are made available to the Federal Aviation Administration, Department of Transportation. Other charges to the trust fund are made by the Secretary of the Treasury for transfers of certain refunds of taxes and certain section 39 credits of the Internal Revenue Code of 1954.

Annual reports to Congress are required by 26 U.S.C. 9602(a) to be submitted by the Secretary of the Treasury, after consultation with the Secretary of Transportation. These reports are required to cover the financial condition and the results of operations of the fund during the past fiscal year and the expected condition and operations of the fund during the next 5 fiscal years.

2/ Large portions of the unexpended balance are committed to liquidate

outstanding unfunded obligations (contract authority), to liquidate unexpended appropriations, and to fund shortfalls below annual authorizations.

Black Lung Disability Trust Fund

The black lung disability trust fund was established on the books of the Treasury in fiscal 1978 pursuant to the Black Lung Benefits Revenue Act of 1977 (Public Law 95-119, Dec. 29, 1977), entitled "Trust Fund Code of 1981" (26 U.S.C. 9501), provides for the continuation of the fund as previously established under section 3 of the act of 1977. The act designates the following receipts to be appropriated and transferred from the general fund of the Treasury to the trust fund: excise taxes on mined coal tonnage; taxable expenditures of private black lung benefit trusts; reimbursements by responsible mine operators; and vested fines, penalties, and interest charges. Estimates made by the Secretary of the Treasury determine monthly transfers of amounts for excise taxes to the trust fund, subject to adjustments in later transfers to actual tax receipts.

Amounts available in the fund in excess of current expenditure requirements are invested by the Secretary of the Treasury in interest-bearing public debt securities, and any interest earned is credited to the fund. Also credited to

the fund, if necessary, are repayable advances from the general fund to meet outlay requirements in excess of available revenues.

To carry out the black lung disability program, amounts are made available to the Department of Labor. Other charges to the fund are to pay administrative expenses incurred by the Department of Health and Human Services and the Department of the Treasury, and also to repay advances from the general fund and interest on advances.

The act requires the Secretary of the Treasury to submit an annual report to Congress after consultation with the Secretary of Labor and the Secretary of Health and Human Services (26 U.S.C. 9602 (e)). The report must present the financial condition and results of operations of the fund during the past fiscal year and the expected condition and operations of the fund during the next 5 fiscal years.

Hazardous Substance Response Trust Fund

The hazardous substance response trust fund was established on the books of the Treasury in fiscal 1981, in accordance with provisions of the Hazardous Substance Response Revenue Act of 1980 (42 U.S.C. 9631(a)). Excise taxes are collected on petroleum and certain chemicals by the Internal Revenue Service and appropriated from the general fund to the trust fund. All other receipts are deposited directly to the trust fund.

Amounts available in the fund in excess of current expenditure requirements are invested by the Secretary of the Treasury in interest-bearing public debt securities, and any interest earned is credited to the fund. Also credited to the fund, if necessary, are repayable advances from the general fund to meet outlay requirements in excess of available revenues.

To carry out the hazardous substance response program, amounts are made available to the Environmental Protection Agency. Other charges to the fund are to pay certain administrative expenses incurred and repay advances from the general fund and interest on advances.

An annual report to Congress by the Secretary of the Treasury is required by section 9633(b)(1). These reports must present the financial condition and the results of operations of the fund for the past fiscal year and its expected condition and operations during the next 5 years.

1/ Assumes that taxes will be reauthorized at Administration-proposed levels effective Apr. 1, 1986.

2/ Interest is accounted for differently from the budget. The budget counts the unamortized discount received on investment as a receipt in the year invested. Treasury counts the discount as a receipt only when it is realized and available for appropriation.

3/ Repayable advances are also accounted for differently from the budget. Repayable advances must be made from the general fund in the year they are needed to cover the appropriation. For purposes of this table, however, they are not shown as being credited to the trust fund until outlay requirements exceed available revenue.

Highway Trust Fund

The highway trust fund was originally established on the books of the Treasury in accordance with provisions of the Highway Revenue Act of 1957, as amended (23 U.S.C. 12 note). It was reestablished on the books of the Treasury under the Surface Transportation Assistance Act of 1982 and recently modified by the Act of 1984 (Public Law 98-369, approved July 18, 1984). The fund is equivalent to taxes on gasoline, diesel fuel, special motor fuels, tires, is, tread rubber, commercial motor vehicles, truck use, lubricating oil, and is and accessories for trucks, buses, etc., are designated by the act to be deposited and transferred from the general fund of the Treasury to the trust fund. These transfers are made at least monthly on the basis of estimates by the Secretary of the Treasury, subject to adjustments in later transfers to the extent of actual tax receipts. Amounts available in the fund in excess of outlays are invested in public debt securities and interest thereon is added to the fund. There are also credited to the fund repayable advances from the general fund, as authorized and made available by law, to meet outlay requirements in excess of available revenues during a portion of a fiscal year, necessary.

The termination date of the fund was extended to Sept. 30, 1989, as a result of the Surface Transportation Assistance Act of 1982 (Public Law 97-424, approved June 6, 1982). The act also established a mass transit account within the trust fund.

The fund is to be funded by one-ninth of the excise tax collections under sections 4081 and 4082 of the Internal Revenue Code (26 U.S.C.) imposed after Mar. 31, 1983. The funds from this account shall be used for expenditures in accordance with section 21(a)(2) of the Urban Mass Transportation Act of 1964. The remaining excise taxes collected shall be included in a highway account within the trust fund, and expenditures for this account shall be made in accordance with the provisions of Public Law 97-424.

Amounts required for outlays to carry out the Federal-aid highway program are made available to the Federal Highway Administration, Department of Transportation. Other charges to the trust fund are made by the Secretary of the Treasury for transfers of certain taxes to the land and water conservation fund and to the Aquatic Resources Trust Fund; refunds of certain taxes; repayments of advances from the general fund, and the interest on advances.

Annual reports to Congress are required by 26 U.S.C. 9602 (a), Internal Revenue Code as amended, to be submitted by the Secretary of the Treasury, after consultation with the Secretary of Transportation. These reports cover the results of operations of the fund for the past fiscal year and its expected condition and operations during the next 5 fiscal years.

^{1/} Refunds of taxes and transfer to other funds have been deducted.

^{2/} Receipts of interest on investments netted by payment of interest on general fund advances.

^{3/} The Highway Revenue Act of 1982 requires that, before an apportionment can be made, projected unfunded highway authorizations at the close of the fiscal year must be less than the projected net revenues for the following 24-month period, and "unfunded highway authorizations" at the excess, if any, of (a) the total potential unpaid commitments as a result of apportionment to the States of the amounts authorized to be appropriated from the highway trust fund, over (b) the amount available in the highway trust fund at such time to defray such commitments.

^{4/} As no estimates have yet been made for revenue to be earned in FY 1992 (the President's budget figures extend only through FY 1991), a 24-month revenue estimate is not available for FY 1990. As a result, a determination cannot be made at this time as to whether or not all FY 1990 funds can be apportioned.

Note.—Data is in accordance with the President's FY 1987 budget. Actual Highway trust fund balances at the beginning of FY 1986 are in accordance with the U.S. Government Annual Report Appendix.

Inland Waterways Trust Fund

The inland waterways trust fund was established on the books of the Treasury fiscal 1981, in accordance with provisions of the Inland Waterways Revenue Act 1978 (33 U.S.C. 1801(a)). Amounts determined by the Secretary of the Treasury be equivalent to the amount of taxes received in the Treasury under section 42 of the Internal Revenue Code of 1954 (relating to tax on fuel used in commercial transportation in inland waterways) shall be appropriated to the trust fund. These amounts shall be transferred at least quarterly from the general fund on the basis of estimates made by the Secretary, subject to adjustments in transfers to the amounts of actual tax receipts. It shall be the duty of the Secretary of the Treasury to invest in interest-bearing obligations of the United States that portion of the trust fund in his judgment not required to meet current withdrawals. The interest on, and the proceeds from the sale or

redemption of, any obligation held in the trust fund shall be credited to and form a part of the trust fund.

The act provides that amounts in the trust fund shall be available, by appropriations acts, for making construction and rehabilitation expenditures for navigation on the inland and intracoastal waterways of the United States described in 33 U.S.C. 1804. Expenditures must be otherwise authorized by law.

Annual reports to Congress are required by 33 U.S.C. 1801(c)(1) of the Secretary of the Treasury. These reports are required to cover the financial condition and the results of operations of the fund during the past fiscal year and its expected condition and operations during the next 5 fiscal years.

Includes accrued interest purchased and net premium or discount on investments as represented in the Budget of the United States Government, fiscal year 1987, and funds considered by Office of Management and Budget to be investment expenses.

Nuclear Waste Fund

The nuclear waste fund was established on the books of the Treasury in fiscal 1983, in accordance with provisions of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222 (c)). Receipts represent fees collected from public utilities based on electricity generated by nuclear power reactors and spent nuclear fuel. Expenditures from the fund are for purposes of radioactive waste disposal activities.

Amounts available in the fund in excess of current needs may be invested by the Secretary of the Treasury in obligations of the United States (1) having maturities in tandem with the needs of the waste fund, and (2) bearing

interest at rates determined appropriate, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the maturities of such investments, except that the interest rate on such investments shall not exceed the average interest rate applicable to existing borrowings.

An annual report to Congress by the Secretary of the Treasury, after consultation with the Secretary of Energy, is required by 42 U.S.C. 10222 (e)(1). This report must present the financial condition and the results of operations of the waste fund during the preceding fiscal year.

Balance Sept. 30, 1985.....	722,557

Reforestation Trust Fund

The reforestation trust fund was established on the books of the Treasury in fiscal 1981 to continue through Sept. 30, 1985, in accordance with provisions of the 111--Reforestation, of the Recreational Boating Safety and Facilities Revenue Act of 1980 (16 U.S.C. 1606a (a)). The act provides that the Secretary of the Treasury shall transfer to the trust fund tariffs, limited to more than \$30 million for any fiscal year, received in the Treasury from Oct. 1979, through Sept. 30, 1985, on (1) rough and primary wood products, and wood products; (2) lumber, flooring, and moldings; and (3) wood veneers, plywood, and wood-veneer assemblies, and building boards. Public Law 99-190 extended receipts for the reforestation trust fund through Sept. 30, 1986.

Amounts available in the trust fund in excess of current withdrawals are used in interest-bearing obligations of the United States or in obligations entered as to both principal and interest by the United States. The interest and the proceeds from the sale or redemption of, any obligations are credited to the trust fund.

For each of the first 5 fiscal years beginning after Sept. 30, 1980, there authorized after that date to be appropriated to the Secretary of Agriculture,

out of any amounts in the trust fund, an amount equal to the sum of the amount by which the sum estimated by the Secretary of Agriculture for the fiscal year under section 3(d)(2) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1601 (d)(2)) to be necessary for reforestation and other treatment of acreage, as set forth in the report transmitted by the Secretary to the Congress under that section for the fiscal year, exceeds the sum of the amounts appropriated for the fiscal year under the authorization contained in section 3(d)(3) of such act and under any other provision of law to carry out the same purpose; and such sums as are determined by the Secretary of Agriculture to be properly allocable to administrative costs of the Federal Government incurred for the fiscal year in connection with the reforestation program carried out under that act.

Annual reports are required by 16 U.S.C. 1606a (c)(1) to be submitted by the Secretary of the Treasury, after consultation with the Secretary of Agriculture, on the financial condition and the results of the operations of the trust fund during the past fiscal year and on its expected condition and operations during the next fiscal year.
