## ADDITIONAL TREASURY RELEASES ON FEDERAL FINANCES

*Sold on a subscription basis only (exceptions noted) by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (phone orders: (202) 783-3238):*

- **Daily Treasury Statement.** Provides summary data on the Treasury's cash and debt operations for the Federal Government. Published each Federal working day by the Financial Management Service. Subscription price: \$110 per year (domestic), \$137 per year (foreign).
- **Monthly Statement of the Public Debt of the United States.** Provides summary and detailed information on the public debt outstanding. Prepared by the Bureau of the Public Debt. Subscription price: \$25 per year (domestic), \$31.25 per year (foreign).
- **Monthly Treasury Statement of Receipts and Outlays of the United States Government.** Provides Federal budget results, including receipts and outlays of funds, the surplus or deficit, and the means of financing the deficit or disposing of the surplus. Prepared by the Financial Management Service, based on agency reporting. Subscription price: \$22 per year (domestic), \$27.50 per year (foreign).
- **Consolidated Financial Statements of the United States Government** (annual). Provides information about Government financial operations on a consolidated basis. Compiled by the Financial Management Service. Single copy price: \$2.25
- **United States Government Annual Report and Appendix.** Annual Report presents budgetary results at the summary level. Appendix presents the individual receipt and appropriation accounts at the detail level. Compiled by the Financial Management Service. Annual Report single copy price: \$2.00; Appendix free from Financial Management Service.

For your convenience, a subscription order form for the *Treasury Bulletin* is located on the inside back cover of this issue.

# Financial Operations

## FEDERAL FISCAL OPERATIONS

### INTRODUCTION

#### Background

Section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 3513a) requires the Secretary of the Treasury to prepare reports on the financial operations of the U.S. Government.

The first three Federal fiscal operations (FFO) tables are published quarterly and cover 5 years of data, estimates for 2 years, detail for 13 months, and fiscal year-to-date data. The tables are designed to provide a summary of data relating to Federal fiscal operations reported by Federal entities and disbursing officers, and daily reports from the Federal Reserve banks. These reports detail accounting transactions affecting receipts and outlays of the Federal Government and off-budget Federal entities, and their related effect on the assets and liabilities of the U.S. Government. Data used in the preparation of tables FFO-1, FFO-2, and FFO-3 is derived from the Monthly Treasury Statement of Receipts and Outlays of the United States Government.

Budget authority usually takes the form of "appropriations" which permit obligations to be incurred and payments to be made. Most appropriations for current operations are made available for obligation only during a specified fiscal year (annual appropriations). Some are for a specified longer period (multiple-year appropriations). Others, including most of those for construction, some for research, and many for trust funds, are made available for obligation until the amount appropriated has been expended or until the objectives have been attained (no-year appropriations).

Budget authority can be made available by Congress for obligations and disbursement during a fiscal year from a succeeding year's appropriations (advance funding). For many education programs, Congress provides forward funding--budget authority made available for obligation in one fiscal year for the financing of ongoing grant programs during the succeeding fiscal year. When advantageous to the Federal Government, an appropriation is provided by Congress that will become available 1 year or more beyond the fiscal year for which the appropriation act is passed (advance appropriations). Included as advance appropriations are appropriations related to multiyear budget requests.

When budget authority is made available by Congress for a specific period of time, any part not obligated during that period expires and cannot be used later. Congressional actions that extend the availability of unobligated amounts that have expired or would otherwise expire are known as reappropriations. The amounts involved are counted as new budget authority in the fiscal year of the legislation in which the reappropriation action is included, regardless of when the amounts were originally appropriated or when they would otherwise lapse.

**Outlays.**--Obligations generally are liquidated by the issuance of checks or the disbursement of cash; such payments are called outlays. In lieu of issuing checks, obligations also may be liquidated (and outlays recorded) by the accrual of interest on public issues of Treasury debt securities (including an increase in the redemption value of bonds outstanding); or by the issuance of bonds, debentures, notes, monetary credits, or electronic payments. Refunds of collections generally are treated as reductions of collections, rather than as outlays. However, payments for earned-income tax credits in excess of tax liabilities are treated as outlays rather than as a reduction in receipts. Outlays during a fiscal year may be for payment of obligations incurred in prior years or in the same year. Outlays, therefore, flow in part from unexpended balances of prior year budget authority and in part from budget authority provided for the year in which the money is spent. Total outlays include both budget and off-budget outlays and are stated net of offsetting

collections.

**Receipts.**--Receipts reported in the tables are classified into the following major categories: (1) budget receipts and (2) offsetting collections. Budget receipts are collections from the public that result from the exercise of the Government's sovereign or governmental powers, excluding receipts offset against outlays. These collections, also called governmental receipts, consist mainly of tax receipts (including social insurance taxes), receipts from court fines, certain licenses, and deposits of earnings by the Federal Reserve System. Refunds of receipts are treated as deductions from gross receipts.

Offsetting collections are from other Government accounts or the public that are of a business-type or market-oriented nature. They are classified into two major categories: (1) offsetting collections credited to appropriations or fund accounts, and (2) offsetting receipts (i.e., amounts deposited in receipt accounts). Collections credited to appropriation or fund accounts normally can be used without appropriation action by Congress. These occur in two instances: (1) when authorized by law, amounts collected for materials or services are treated as reimbursements to appropriations and (2) in the three types of revolving funds (public enterprise, intragovernmental, and trust); collections are netted against spending, and outlays are reported as the net amount.

Offsetting receipts in receipt accounts cannot be used without being appropriated. They are subdivided into two categories: (1) proprietary receipts--these collections are from the public and they are offset against outlays by agency and by function, and (2) intragovernmental funds--these are payments into receipt accounts from governmental appropriation or fund accounts. They finance operations within and between Government agencies and are credited with collections from other Government accounts. The transactions may be intrabudgetary when the payment and receipt both occur within the budget or from receipts from off-budget Federal entities in those cases where payment is made by a Federal entity whose budget authority and outlays are excluded from the budget totals.

Intrabudgetary transactions are subdivided into three categories: (1) interfund transactions, where the payments are from one fund group (either Federal funds or trust funds) to a receipt account in the other fund group; (2) Federal intrafund transactions, where the payments and receipts both occur within the Federal fund group; and (3) trust intrafund transactions, where the payments and receipts both occur within the trust fund group.

Offsetting receipts are generally deducted from budget authority and outlays by function, by subfunction, or by agency. There are four types of receipts, however, that are deducted from budget totals as undistributed offsetting receipts. They are: (1) agencies' payments (including payments by off-budget Federal entities) as employers into employees retirement funds, (2) interest received by trust funds, (3) rents and royalties on the Outer Continental Shelf lands, and (4) other interest (i.e., interest collected on Outer Continental Shelf money in deposit funds when such money is transferred into the budget).

**Off-budget Federal entities.**--The Federal Government has used the unified budget concept as the foundation for its budgetary analysis and presentation since 1969. This concept calls for the budget to include all of the Government's fiscal transactions with the public. Starting in 1971, however, various laws have been enacted under which several Federal entities have been removed from the budget or created outside the budget. Other laws have moved certain off-budget Federal entities onto the budget. Under current law, the off-budget Federal entities consist of the two social security

## FEDERAL FISCAL OPERATIONS

trust funds, Federal old-age and survivors insurance and Federal disability insurance.

The off-budget Federal entities are federally owned and controlled, but their transactions are excluded from the budget totals under provisions of law. When an entity is off-budget, its receipts, outlays, and surplus or deficit are not included in budget receipts, budget outlays, or the budget deficit; its budget authority is not included in the totals of budget authority for the budget; and its receipts, outlays, and surplus or deficit ordinarily are not subject to the targets set by the congressional budget resolution.

Nevertheless, the Balanced Budget and Emergency Deficit Control Act of 1985 (commonly known as the Gramm-Rudman-Hollings Act) included the off-budget surplus or deficit in calculating the deficit targets under that act and in calculating the excess deficit for purposes of that act. Partly because of this reason, attention has focused on the total receipts, outlays, and deficit of the Federal Government instead of the on-budget amounts alone.

### Table FFO-1.--Summary of Fiscal Operations

This table summarizes the amount of total receipts, total outlays, total surplus or deficit, transactions in Federal securities and monetary assets, and transactions and balances in Treasury operating cash.

### Table FFO-2.--On-budget and Off-budget Receipts by Source

Budget receipts are taxes and other collections from the public that result from the exercise of the Government's sovereign or governmental powers. The amounts in this table represent income taxes, social insurance taxes, net contributions for other insurance and retirement, excise taxes, estate and gift taxes, customs duties,

and net miscellaneous receipts by source.

### Table FFO-3.--On-budget and Off-budget Outlays by Agency

Congress [usually] provides budget authority which is [generally] in the form of appropriations, then Federal agencies obligate the Government funds to make outlays. The amounts in this table represent a breakdown of on-budget and off-budget outlays by agency.

### Table FFO-4.--Summary of Internal Revenue Collections by States and Other Areas

This annual table provides data on internal revenue collections classified by States and other areas and by type of tax. The amounts reported are for collections made in a fiscal year beginning in October and ending the following September.

Fiscal year collections span several tax liability years because they consist of prepayments (e.g., estimated tax payments and taxes withheld by employers for individual income and social security taxes), of payments made with tax returns, and of subsequent payments made after tax returns are due or are filed (e.g., payments with delinquent returns or on delinquent accounts).

It is also important to note that these data do not necessarily reflect the Federal tax burden of individual States. The amounts are reported based on the primary filing address furnished by each taxpayer or reporting entity. For multistate corporations, this address may reflect only the State where such a corporation reported its taxes from a principal office rather than other States where income was earned or where individual income and social security taxes were withheld. In addition, an individual may reside in one State and work in another State.

## FEDERAL FISCAL OPERATIONS

### Budget Results for the Fourth Quarter, Fiscal 1987

#### Summary

The Federal budget for the fourth quarter of fiscal 1987 was in deficit by about \$28-3/4 billion, a sharp narrowing from a deficit of \$54-1/4 billion in the comparable quarter of the preceding year. For the entire 1987 fiscal year, the deficit was \$148 billion, off by one-third from a deficit of \$221 billion in the prior fiscal year. The sharp drop in the deficit in fiscal 1987 reflected a large 11-percent rise in receipts, boosted by the effects of tax reform, and only a modest increase of 1-1/2 percent in outlays. This was the smallest year-to-year increase in outlays in more than two decades.

In the fourth quarter of fiscal 1987, receipts totaled \$216-3/4 billion, up 9-3/4 percent from the corresponding months of fiscal 1986. Outlays in the fourth quarter were \$245-1/2 billion, down 2-1/2 percent from a year earlier.

In terms of outlays by functional category, spending for national defense rose less than 1 percent during the fourth

quarter of fiscal 1987 from the year before and was up a little more than 3 percent for the full fiscal year. The shifting of a military pay period from September into fiscal 1988 held down these figures. Spending on agriculture, commerce and housing credit, energy, and a number of other functions in the fourth quarter of this fiscal year was below year earlier expenditures. Full fiscal year spending in most of these categories was also down from a year earlier. On the other hand, fourth-quarter spending rose from a year earlier for social security, income security, veterans' benefits, and health care, though in each case, increases were less than anticipated last summer in the midsession review of the budget. Undistributed offsetting receipts (a negative outlay including Federal contributions to retirement funds, rents and royalties on Outer Continental Shelf lands, and sales of major assets) rose appreciably in the fourth quarter from the year earlier period, and for fiscal 1987 as a whole were up over 10 percent from fiscal 1986.

[In millions]

	July-September	Fiscal 1987
<b>Total on-budget and off-budget results:</b>		
Total receipts .....	\$216,846	\$854,143
On-budget receipts .....	165,146	640,741
Off-budget receipts .....	51,702	213,402
Total outlays .....	245,571	1,002,147

Other means .....	3,191	2,986
Total on-budget and off-budget financing .....	28,725	148,005

#### Third-Quarter Receipts

The following capsule analysis of budget receipts, by source, for the third quarter of fiscal 1987 supplements fiscal data earlier reported in the summer issue of the *Treasury Bulletin*. At the time of that issue's release, not enough data was available to analyze adequately collections for the quarter.

**Individual Income taxes.**--Individual income tax receipts for the period April through June of 1987 were \$30.3 billion higher than the prior year comparable period. Withheld receipts were up \$2 billion, nonwithheld receipts were up \$27 billion, and refunds were down \$1.3 billion. The large increase in nonwithheld receipts reflects, in part, increased tax payments on realized capital gains as a result of the Tax

Reform Act of 1986 and the rise in the stock market during 1986.

**Corporation Income taxes.**--Net receipts from corporations in the third quarter of fiscal 1987 totaled \$24.01 billion, a \$3.18 billion increase from the prior year's quarter. The increase was primarily due to increased estimated payments

## FEDERAL FISCAL OPERATIONS

of corporations for the current liability year, and to increased final payments for 1986. These increases more than offset the \$0.87 billion increase in refunds.

**Employment taxes and contributions.**--Employment taxes increased from \$72.9 billion in the third quarter of fiscal 1986 to \$76.8 billion in the same quarter of fiscal 1987. Moderate growth in the FICA taxable wage base was responsible for this increase.

**Unemployment Insurance.**--Unemployment insurance receipts for the April-June 1987 quarter were \$10.7 billion, compared with \$10.8 billion for the same quarter a year earlier. The 1-percent decline in receipts resulted from reductions in the State unemployment insurance tax rate in a number of States. These reductions more than offset increased taxable wages.

**Contributions for other Insurance and retirement.**--Employee contributions by Federal and District of Columbia workers were \$1.2 billion, \$0.1 billion more than for the second quarter of fiscal 1987 but about the same for the third quarter of fiscal 1986.

**Excise taxes.**--Excise tax receipts in the April-June 1987 quarter were \$8 billion. This is an increase of less than \$100 million from the year earlier level. The quarter-to-quarter change was the result of several factors working in opposite

directions. The reimposition of the Superfund taxes increased receipts by an estimated \$200 million over the year earlier level. Windfall profits tax receipts were still significant in the third quarter of the 1986 fiscal year but not in the April-June quarter of 1987.

**Estate and gift taxes.**--Net estate and gift taxes were \$2 billion for the third quarter of fiscal 1987. This is about a \$0.2 billion increase from the previous quarter and a 9-percent increase from the third quarter in the prior year. Receipts continue to be strong despite the employees stock ownership plan estate deduction.

**Customs duties.**--Customs receipts net of refunds were \$3.9 billion for the third quarter of fiscal 1987. This is an increase of \$0.5 billion from the previous quarter. Of the increase, \$0.3 billion is from higher duty collections and \$0.2 billion is reclassified customs user fees. These fees were reclassified from miscellaneous receipts to customs receipts in June. User fee collections had been \$0.2 billion in the second quarter and about \$50 million in the first quarter of fiscal 1987.

**Miscellaneous receipts.**--Miscellaneous receipts increased by \$0.6 billion from the same quarter last year to \$5.1 billion. The increase was largely due to an increase in "other miscellaneous receipts" of \$0.7 billion. Earnings of the Federal Reserve banks declined by \$0.1 billion.

Third-Quarter Fiscal 1987 Net Budget Receipts, by Source

[In billions of dollars]			
Source	April	May	June

\* Less than \$500,000.

1/ Includes adjustment of \$954 million of interest receipts for the unemployment trust fund.

Note.--Outlays consist of disbursements less proprietary receipts

from the public and certain intrabudgetary transactions. On-budget and off-budget estimates are based on the midsession review of the fiscal 1988 budget, released Aug. 17, 1987, by the Office of Management and Budget.

## FEDERAL OBLIGATIONS

"Obligations" are the basis on which the use of funds is controlled in the Federal Government. They are recorded at the point at which the Government makes a firm commitment to acquire goods or services and are the first of the four key events--order, delivery, payment, and consumption--which characterize the acquisition and use of resources. In general, they consist of orders placed, contracts awarded, services received, and similar transactions requiring the disbursement of money.

The obligational stage of Government transactions is a strategic point in gauging the impact of the Government's operations on the national economy, since it frequently represents for business firms the Government commitment which stimulates business investment, including inventory purchases and employment of labor. Disbursements may not occur for months after the Government places its order, but the order itself usually causes immediate pressure on the private economy.

Obligations are classified according to a uniform set of categories based upon the nature of the transaction without regard to its ultimate purpose. All payments for salaries and wages, for example, are reported as personnel compensation, whether the personal services are used in current operations or in the construction of capital items.

Federal agencies often do business with one another; in doing so, the "buying" agency records obligations, and the "performing" agency records reimbursements. In table FO-1, obligations incurred within the Government are distinguished from those incurred outside the Government. Table FO-2 shows only those incurred outside.

Table FO-1. — Gross Obligations Incurred Within and Outside the Federal Government by Object Class, as of June 30, 1987

[In millions of dollars. Source: Standard Form 225, Report on Obligations, from agencies]

Object class	Gross obligations incurred		
	Outside	Within	Total
<b>Personal services and benefits:</b>			
Personnel compensation.....	98,823	-	98,823
Personnel benefits.....	5,865	15,536	21,401
Benefits for former personnel.....	483	-	483
<b>Contractual services and supplies:</b>			
Travel and transportation of persons.....	3,560	600	4,160
Transportation of things.....	4,727	1,072	5,799
Rent, communications, and utilities.....	7,814	4,011	11,825
Printing and reproduction.....	766	455	1,221
Other services.....	101,981	29,678	131,659
Supplies and materials.....	40,890	17,710	58,600
<b>Acquisition of capital assets:</b>			
Equipment.....	52,771	5,350	58,121
Lands and structures.....	11,313	1,865	13,178
Investments and loans.....	28,261	208	28,469
<b>Grants and fixed charges:</b>			
Grants, subsidies, and contributions.....	113,737	16,427	130,164
Insurance claims and indemnities.....	277,792	459	278,251
Interest and dividends.....	134,292	33,680	167,972
Refunds.....	654	-	654
<b>Other:</b>			
Unvouchered.....	-1,450	2	-1,448
Undistributed U.S. obligations.....	3,005	6,410	9,415
<b>Gross obligations incurred 1/.....</b>	<b>885,284</b>	<b>133,463</b>	<b>1,018,747</b>

1/ For Federal budget presentation a concept of "net obligations incurred" is generally used. This concept eliminates transactions within the Government and revenue and reimbursements from the public which by statute may be used by Government agencies without appropriation action by the Congress. Summary figures on this basis follow. (Data are on the basis of Reports on Obligations

presentation and therefore may differ somewhat from the Budget of the U.S. Government.)

Gross obligations incurred (as above).....	1,018,747
Deduct:	
Advances, reimbursements, other income, etc.....	-152,806
Offsetting receipts.....	-133,038
<b>Net obligations incurred.....</b>	<b>732,903</b>

## FEDERAL OBLIGATIONS

# GROSS FEDERAL OBLIGATIONS AS OF JUNE 30, 1987

# GROSS FEDERAL OBLIGATIONS INCURRED OUTSIDE THE FEDERAL GOVERNMENT

AS OF JUNE 30, 1987

## ACCOUNT OF THE U.S. TREASURY

## SOURCE AND AVAILABILITY OF THE BALANCE IN THE ACCOUNT OF THE U.S. TREASURY

The operating cash of the Treasury is maintained in Treasury's accounts with the Federal Reserve banks and branches and in tax and loan accounts. Major information sources include the Daily Balance Wire received from the Federal Reserve banks and branches, and electronic transfers through the Treasury Financial Communications System. As the balances in the accounts at the Federal Reserve banks become depleted, they are restored by calling in (withdrawing) funds from thousands of financial institutions throughout the country authorized to maintain tax and loan accounts.

Under authority of Public Law 95-147, the Treasury implemented a program on Nov. 2, 1978, to invest a portion of its operating cash in obligations of depositories maintaining tax and loan accounts. Under the Treasury tax and loan investment program, depository financial institutions select the manner in which they will participate in the program. Depositories that wish to retain funds deposited in their tax and loan accounts in interest-bearing obligations participate under the Note Option; depositories that wish to remit the funds to the Treasury's account at Federal Reserve banks participate under the Remittance Option.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all financial institutions whereby customers of financial institutions deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involves merely the transfer of funds from a customer's account to the tax and loan account in the same financial institution. On occasion, to the extent authorized by the Treasury, financial institutions are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the accounts of their customers.

The tax and loan system permits the Treasury to collect funds through financial institutions and to leave the funds in Note Option depositories and in the financial communities in which they arise until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its fluctuating operations on Note Option financial institution reserves and the economy.

\* Less than \$500,000.

1/ Represents transfers from tax and loan note accounts, proceeds from sales of securities other than Government account series, and taxes.

2/ Represents checks paid, wire transfer payments, drawdowns on letters of credit, redemptions of securities other than Government account series, etc.

3/ Special depositories are permitted to make payment in the form of a deposit credit for the purchase price of U.S. Government securities purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.

4/ Includes U.S. savings bonds, savings notes, retirement plan and tax and loss bonds. U.S. savings notes first offered for sale as of May

1, 1967, and were discontinued after June 30, 1970. Retirement plan bonds first offered for sale as of Jan. 1, 1963; tax and loss bonds first issued in March 1968.

5/ Taxes eligible for credit consist of those deposited by taxpayers in the tax and loan depositories, as follows: Withheld income taxes beginning March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; a number of excise taxes beginning July 1953; estimated corporation income taxes beginning April 1967; all corporation income taxes due on or after Mar. 15, 1968; and FUTA taxes beginning April 1970.

## FEDERAL DEBT

### INTRODUCTION

Treasury securities (i.e., public debt securities) comprise most of the Federal debt, with securities issued by other Federal agencies accounting for the remainder. In addition to the data on the Federal debt presented in the tables in this section of the quarterly *Treasury Bulletin*, the Treasury publishes detailed data on the public debt outstanding in the Monthly Statement of the Public Debt of the United States and on agency securities and the investments of Federal Government accounts in Federal securities in the Monthly Treasury Statement of Receipts and Outlays of the United States Government.

#### Table FD-1.--Summary of Federal Debt

The Federal debt outstanding is summarized as to holdings of public debt and agency securities by the public, which includes the Federal Reserve, and by Federal agencies, largely the social security and other Federal retirement trust funds. Greater detail on holdings of Federal securities by particular classes of investors is presented in the ownership tables, OFS-1 and OFS-2, of the *Treasury Bulletin*.

#### Table FD-2.--Interest-Bearing Public Debt

Interest-bearing marketable and nonmarketable Treasury securities are presented as to type of security. The difference between interest-bearing and total public debt securities reflects outstanding matured Treasury securities on which interest has ceased to accrue. The Federal Financing Bank (FFB) is under the supervision of the Treasury, and FFB securities shown in this table are held by a U.S. Government account.

#### Table FD-3.--Government Account Series

Nonmarketable Treasury securities held by U.S. Government accounts are summarized as to issues to particular funds within the Government. Many of the funds invest in par-value special series nonmarketables at statutorily determined interest rates, while others whose statutes do not prescribe an interest rate formula invest in market-based special Treasury securities whose terms mirror the terms of marketable Treasury securities.

#### Table FD-4.--Interest-Bearing Securities Issued by Government Agencies

Federal agency borrowing has been declining in recent years, in part because the Federal Financing Bank has been providing financing to other Federal agencies. This table does not cover

Federal agency borrowing from the Treasury, which is presented in the Monthly Treasury Statement of Receipts and Outlays of the United States Government. The Government-sponsored entities, whose securities are presented in the memorandum section of table FD-4, are not agencies of the Federal Government, nor are their securities presented in table FD-4 guaranteed by the Federal Government.

#### Table FD-5.--Maturity Distribution and Average Length of Marketable Interest-Bearing Public Debt Held by Private Investors

The average maturity of the privately held marketable Treasury debt has increased gradually since it hit a trough of 2 years, 5 months, in December 1975. In March 1971, the Congress enacted a limited exception to the 4-1/4-percent interest rate ceiling on Treasury bonds that permitted the Treasury to offer securities maturing in more than 7 years at current market rates of interest for the first time since 1965. The exception to the 4-1/4-percent interest rate ceiling has been expanded since 1971 to authorize the Treasury to continue to issue long-term securities. The volume of privately held Treasury marketable securities by maturity class reflects the remaining period to maturity of Treasury bills, notes, and bonds, and the average length comprises an average of remaining periods to maturity, weighted by the amount of each security held by private investors (i.e., excludes the Government accounts and Federal Reserve banks).

#### Table FD-6.--Debt Subject to Statutory Limitation

The statutory debt ceiling is compared with the outstanding debt subject to limit. The other debt category includes certain Federal debt that the Congress has designated by statute to be subject to the debt ceiling. The changes in non-interest-bearing debt shown in the last column reflect maturities of Treasury securities on nonbusiness days, such as weekends and holidays. In that event, Treasury securities are redeemed on the first business day following a nonbusiness day.

#### Table FD-7.--Treasury Holdings of Securities Issued by Government Corporations and Other Agencies

Certain Federal agencies are authorized by statute to borrow from the Treasury, largely to finance direct loan programs. In addition, agencies such as the Bonneville Power Administration are authorized to borrow from the Treasury to finance capital projects. The Treasury finances such loans to the Federal agencies with issues of public debt securities.

# TREASURY FINANCING OPERATIONS, JULY-SEPTEMBER 1987

## JULY

### Auction of 2-Year Notes

On July 15 the Treasury announced that it would auction \$9,750 million of 2-year notes to refund \$9,553 million of notes maturing July 31, 1987, and to raise about \$200 million of new cash. The notes offered were Treasury Notes of Series AB-1989, dated July 31, 1987, due July 31, 1989, with interest payable on January 31 and July 31 until maturity. On July 22, the Treasury announced that it was postponing the auction of the notes originally scheduled for that date pending congressional action on debt limit legislation. On July 29, the Treasury announced that the notes would be auctioned on July 30. An interest rate of 7-5/8 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EDT, July 30, and totaled \$28,696 million, of which \$9,761 million was accepted at yields ranging from 7.65 percent, price 99.954, up to 7.67 percent, price 99.918. Tenders at the high yield were allotted 37 percent. Noncompetitive tenders were accepted in full at the average yield, 7.66 percent, price 99.936. These totaled \$940 million. Competitive tenders accepted from private investors totaled \$8,821 million.

In addition to the \$9,761 million of tenders accepted in the auction process, \$950 million was awarded to Federal Reserve banks as agents for foreign and international monetary authorities. An additional \$613 million was

accepted from Government accounts and Federal Reserve banks for their own account.

### 52-Week Bills

On June 26 tenders were invited for approximately \$9,750 million of 364-day Treasury bills to be dated July 9, 1987, and to mature July 7, 1988. The issue was to refund \$9,680 million of maturing 52-week bills and to raise about \$75 million of new cash. Tenders were opened on July 2. They totaled \$32,950 million, of which \$9,779 million was accepted, including \$365 million of noncompetitive tenders from the public and \$2,915 million of the bills issued to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. The average bank discount rate was 6.22 percent.

### Public Debt Limit

On July 30, 1987, Public Law No. 100-80 extended the expiration date for the temporary public debt limit of \$2,320,000,000,000 from July 17 through August 6, 1987. This enabled the Treasury to resume the sale and issue of U.S. savings bonds and State and local government series securities which had been suspended effective July 18. The delay in congressional action on debt limit legislation had caused the postponement of several announced auctions and the replacement of the weekly bills that were to have been issued on July 23 by bills actually issued on August 3.

## AUGUST

### August Quarterly Financing

On July 29 the Treasury announced that it was postponing the announcement of the August quarterly financing pending congressional action on debt limit legislation. On August 10 the Treasury announced that it would auction \$9,750 million of 3-year notes of Series U-1990, \$9,250 million of 10-year notes of Series B-1997, and \$9,000 million of 30-year bonds of 2017 to refund \$10,750 million of Treasury securities maturing August 15 and to raise about \$17,250 million of new cash.

The notes of Series U-1990 were dated August 17, 1987, due August 15, 1990, with interest payable on February 15 and August 15 until maturity. An interest rate of 7-7/8 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EDT, August 11, and totaled \$35,014 million, of which \$9,832 million was accepted at yields ranging from 7.93 percent, price 99.856, up to 7.94 percent, price 99.830. Tenders at the high yield were allotted 83 percent. Noncompetitive tenders were accepted in full at the average yield, 7.94 percent, price 99.830. These totaled \$846 million. Competitive tenders accepted from private investors totaled \$8,986 million.

In addition to the \$9,832 million of tenders accepted in

the auction process, \$350 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities, and \$870 million was accepted from Government accounts and Federal Reserve banks for their own account.

The notes of Series B-1997 were dated August 15, 1987, issued August 17, 1987, and due August 15, 1997, with interest payable on February 15 and August 15 until maturity. An interest rate of 8-5/8 percent was set after the determination as to which tenders were accepted on a yield auction basis. Accrued interest of \$0.46875 per \$1,000, covering the period from August 15 to August 17, 1987, was payable with each accepted tender.

Tenders for the notes were received until 1 p.m. EDT, August 12, and totaled \$25,535 million, of which \$9,258 million was accepted at yields ranging from 8.71 percent, price 99.438, up to 8.74 percent, price 99.242. Tenders at the high yield were allotted 70 percent. Noncompetitive tenders were accepted in full at the average yield, 8.74 percent, price 99.242. These totaled \$348 million. Competitive tenders accepted from private investors totaled \$8,910 million.

In addition to the \$9,258 million of tenders accepted in the auction process, \$100 million was accepted from Government accounts and Federal Reserve banks for their own account.

## TREASURY FINANCING OPERATIONS, JULY-SEPTEMBER 1987

The notes of Series B-1997 may be held in STRIPS form. The minimum par amount required is \$1,600,000.

The bonds of 2017 were dated August 15, 1987, issued August 17, 1987, due August 15, 2017, with interest payable on February 15 and August 15 until maturity. An interest rate of 8-5/8 percent was set after the determination as to which tenders were accepted on a yield auction basis. Accrued interest of \$0.48234 per \$1,000, covering the period from August 15 to August 17, 1987, was payable with each accepted tender.

Tenders for the bonds were received until 1 p.m. EDST, August 13, and totaled \$30,063 million, of which \$9,010 million was accepted at yields ranging from 8.87 percent, price 100.050, up to 8.89 percent, price 99.842. Tenders at the high yield were allotted 91 percent. Noncompetitive tenders were accepted in full at the average yield, 8.89 percent, price 99.842. These totaled \$397 million. Competitive tenders accepted from private investors totaled \$8,613 million.

In addition to the \$9,010 million of tenders accepted in the auction process, \$75 million was accepted from Government accounts and Federal Reserve banks for their own account.

The bonds of 2017 may be held in STRIPS form. The minimum par amount required is \$1,600,000.

### Auction of 2-Year and 5-Year Notes

On August 19 the Treasury announced that it would auction \$9,750 million of 2-year notes of Series AC-1989, and \$7,750 million of 5-year 2-month notes of Series L-1992 to refund \$9,708 million of publicly held 2-year notes maturing August 31, 1987, and to raise about \$7,800 million of new cash.

The notes of Series AC-1989 were dated August 31, 1987, due August 31, 1989, with interest payable on the last day of February and August until maturity. An interest rate of 7-3/4 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EDST, August 26, and totaled \$31,414 million, of which \$9,807 million was accepted at yields ranging from 7.82 percent, price 99.873, up to 7.86 percent, price 99.800. Tenders at the high yield were allotted 79 percent. Noncompetitive tenders were accepted in full at the average yield, 7.86 percent, price 99.800. These totaled \$1,251 million. Competitive tenders accepted from private investors totaled \$8,556 million.

### Auction of 2-Year, 4-Year, and 7-Year Notes

On September 16 the Treasury announced that it would auction \$9,250 million of 2-year notes of Series AD-1989, \$7,250 million of 4-year notes of Series P-1991, and \$6,750

In addition to the \$9,807 million of tenders accepted in the auction process, \$790 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities, and \$742 million was accepted from Government accounts and Federal Reserve banks for their own account.

The notes of Series L-1992 were dated September 3, 1987, due November 15, 1992, with interest payable on May 15 and November 15 until maturity. An interest rate of 8-3/8 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EDST, August 27, and totaled \$19,116 million, of which \$7,762 million was accepted at yields ranging from 8.46 percent, price 99.582, up to 8.49 percent, price 99.458. Tenders at the high yield were allotted 70 percent. Noncompetitive tenders were accepted in full at the average yield, 8.46 percent, price 99.499. These totaled \$361 million. Competitive tenders accepted from private investors totaled \$7,401 million.

In addition to the \$7,762 million of tenders accepted in the auction process, \$770 million was awarded to Federal Reserve banks as agents for foreign and international monetary authorities.

### 52-Week Bills

On July 24 tenders were invited for approximately \$9,500 million of 364-day Treasury bills to be dated August 6, 1987, and to mature August 4, 1988. The issue was to refund \$10,167 million of maturing 52-week bills, resulting in a paydown of about \$675 million. On July 29 the Treasury announced that the bills would be auctioned on August 4 rather than on the originally announced date of July 30. Tenders totaled \$41,762 million, of which \$9,548 million was accepted, including \$445 million of noncompetitive tenders from the public and \$2,850 million of the bills issued to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. The average bank discount rate was 6.52 percent.

### Public Debt Limit

On August 10, 1987, Public Law No. 100-84 raised the temporary public debt limit to \$2,352,000,000,000 through September 23, 1987. This enabled the Treasury to resume the sale and issue of U.S. savings bonds and State and local government series securities which had been suspended effective August 7.

## SEPTEMBER

million of 7-year notes of Series G-1994 to refund \$15,417 million of Treasury notes maturing September 30 and to raise about \$7,825 million of new cash. On September 21 the Treasury postponed the auctions of the three notes pending congressional action on debt limit legislation. The

## TREASURY FINANCING OPERATIONS, JULY-SEPTEMBER 1987

auctions were rescheduled on September 28.

The notes of Series AD-1989 were dated September 30, 1987, due September 30, 1989, with interest payable on March 31 and September 30 until maturity. The auction of the notes was originally scheduled for September 22 but was later rescheduled for September 29. An interest rate of 8-1/2 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EDST, September 29, and totaled \$24,375 million, of which \$9,262 million was accepted at yields ranging from 8.55 percent, price 99.910, up to 8.59 percent, price 99.838. Tenders at the high yield were allotted 17 percent. Noncompetitive tenders were accepted in full at the average yield, 8.57 percent, price 99.874. These totaled \$1,336 million. Competitive tenders accepted from private investors totaled \$7,926 million.

In addition to the \$9,262 million of tenders accepted in the auction process, \$440 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities, and \$917 million was accepted from Government accounts and Federal Reserve banks for their own account. An additional \$300 million of maturing notes held by Federal Reserve banks for their own account were refunded by the issuance of special nonmarketable 15-day Treasury bills to be rolled over into the 4-year notes to be issued October 15.

The notes of Series P-1991 were dated October 15, 1987, due September 30, 1991, with interest payable on March 31 and September 30 until maturity. In the original announcement the notes were to have been auctioned on September 23 and dated September 30. They were actually auctioned on October 6 and dated October 15. An interest rate of 9-1/8 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EDST, October 6, and totaled \$22,675 million, of which \$7,293 million was accepted at yields ranging from 9.22 percent, price 99.691, up to 9.24 percent, price 99.626. Tenders at the high yield were allotted 67 percent. Noncompetitive tenders were accepted in full at the average yield, 9.24 percent, price 99.626. These totaled \$817 million. Competitive tenders accepted from private investors totaled \$6,476 million.

In addition to the \$7,293 million of tenders accepted in the auction process, \$270 million was accepted from Federal Reserve banks as agents for foreign and international monetary authorities, and \$300 million was accepted from Government accounts and Federal Reserve banks in exchange for special nonmarketable 15-day Treasury bills issued September 30.

The notes of Series G-1994 were dated October 15,

1987, due October 15, 1994, with interest payable on April 15 and October 15 until maturity. In the original announcement the notes were to have been auctioned on September 24 and dated October 7. They were actually auctioned on October 7 and dated October 15. An interest rate of 9-1/2 percent was set after the determination as to which tenders were accepted on a yield auction basis.

Tenders for the notes were received until 1 p.m. EDST, October 7, and totaled \$17,350 million, of which \$6,760 million was accepted at yields ranging from 9.48 percent, price 100.101, up to 9.54 percent, price 99.799. Tenders at the high yield were allotted 8 percent. Noncompetitive tenders were accepted in full at the average yield, 9.51 percent, price 99.950. These totaled \$459 million. Competitive tenders accepted from private investors totaled \$6,301 million.

### 52-Week Bills

On August 21 tenders were invited for approximately \$9,500 million of 364-day Treasury bills to be dated September 3, 1987, and to mature September 1, 1988. The issue was to refund \$9,512 million of maturing 52-week bills. Tenders were opened on September 1. They totaled \$32,203 million, of which \$9,504 million was accepted, including \$494 million of noncompetitive tenders from the public and \$2,900 million of the bills issued to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. The average bank discount rate was 6.74 percent.

On September 18 tenders were invited for approximately \$9,250 million of 364-day Treasury bills to be dated October 1, 1987, and to mature September 29, 1988. The issue was to refund \$9,831 million of maturing 52-week bills, resulting in a paydown of about \$575 million. The auction, originally scheduled for September 29, was rescheduled for September 30. Tenders totaled \$29,634 million, of which \$9,263 million was accepted, including \$378 million of noncompetitive tenders from the public and \$2,000 million of the bills issued to Federal Reserve banks for themselves and as agents for foreign and international monetary authorities. The average bank discount rate was 7.32 percent.

### Public Debt Limit

On September 29, 1987, Public Law No. 100-119 permanently raised the public debt limit to \$2,800,000,000,000. This enabled the Treasury to resume the sale and issue of U.S. savings bonds and State and local government series securities which had been suspended effective September 24. The delay in congressional action on debt limit legislation had caused the postponement of several announced auctions and the replacement of the weekly bills that were to have been issued on September 24 by bills actually issued on October 5.

## PUBLIC DEBT OPERATIONS

## INTRODUCTION

## Background

The Second Liberty Bond Act (31 U.S.C. 3101, et seq.) provides the Secretary of the Treasury with broad authority to borrow and to determine the terms and conditions of issue, conversion, maturity, payment, and interest rate on Treasury securities. Data in the "Public Debt Operations" section, which have been published in the *Treasury Bulletin* in some form since its inception in 1939, pertain only to marketable Treasury securities, currently bills, notes, and bonds. Treasury bills are discount securities that mature in 1 year or less, while Treasury notes and bonds have semiannual interest payments. New issues of Treasury notes mature in 2 to 10 years, and bonds mature in over 10 years from the issue date. Each marketable Treasury security is listed in the Monthly Statement of the Public Debt of the United States.

**Table PDO-1.--Maturity Schedule of Interest-Bearing Marketable Public Debt Securities Other than Regular Weekly and 52-Week Treasury Bills**

All unmatured Treasury notes and bonds are listed in maturity order, beginning with the earliest maturity. A separate breakout is provided for the combined holdings of the Government accounts and Federal Reserve banks, so that the "All other investors" category includes all private holdings.

**Table PDO-2.--Offerings of Bills**

The results of weekly auctions of 13- and 26-week bills and auctions of 52-week bills every fourth week are presented in table PDO-2. Treasury bills mature each Thursday. New issues of 13-week bills are reopenings of 26-week bills. The 26-week bill issued every fourth week to mature on the same Thursday as an

existing 52-week bill is a reopening of the existing 52-week bill. The high, low, and average yields on accepted tenders and the dollar value of total bids is presented, along with the dollar value of awards on a competitive and a noncompetitive basis. The Treasury accepts noncompetitive tenders of up to \$1 million in each auction of Treasury securities in order to assure that individuals and smaller institutions are able to participate in offerings of new marketable Treasury securities. Noncompetitive bids are awarded at the average yield on accepted competitive bids.

**Table PDO-3.--Public Offerings of Marketable Securities Other than Regular Weekly Treasury Bills**

The results of auctions of marketable Treasury securities, other than weekly bills, are listed in the chronological order of the auction dates over approximately the most recent 2 years. This table includes notes and bonds presented in table PDO-1, 52-week bills in table PDO-2, and data for cash management bills. Treasury offers cash management bills from time to time to bridge temporary or seasonal declines in the cash balance. Cash management bill maturities generally coincide with the maturities of regular issues of Treasury bills.

**Table PDO-4.--Allotments by Investor Classes for Public Marketable Securities, Parts A and B**

Data on allotments of marketable Treasury securities by investor class are presented in chronological order of the auction date for approximately the most recent 2 years. These data have appeared in the *Treasury Bulletin* since 1956. Tenders in each Treasury auction of marketable securities other than weekly auctions of 13- and 26-week bills are tallied by the Federal Reserve banks into investor classes described in the footnotes to the table.

1/ The 13-week bills represent additional issue of bills with an original maturity of 26 weeks or 52 weeks.

2/ For bills issued on or after May 2, 1974, includes amounts exchanged on noncompetitive basis by Government accounts and Federal Reserve banks.

3/ For 13-week, 26-week, and 52-week bills tenders for \$1,000,000 or less from any one bidder are accepted in full at average price or accepted competitive bids; for other issues, the corresponding amount is stipulated in each offering announcement.

4/ Includes bills which matured Sept. 24, 1987.

5/ Equivalent coupon-issue yield.

6/ Except \$550,000 at 5.65 percent.

7/ Except \$2,475,000 at 6.06 percent.

8/ Except \$2,350,000 at 5.60 percent and \$100,000 at 5.61 percent.

9/ Except \$2,290,000 at 5.63 percent.

10/ Except \$2,870,000 at 5.48 percent.

11/ Except \$20,000 at 5.95 percent.

12/ Except \$1,000,000 at 5.83 percent.

13/ Except \$1,890,000 at 5.69 percent.

14/ Except \$4,925,000 at 6.45 percent and \$320,000 at 6.48 percent.

15/ Except \$1,600,000 at 6.17 percent.

1/ Currently, all issues are sold at auction. For bill issues, the rate shown is the average bank discount rate. For note and bond issues, the rate shown is the interest rate. For details of bill offerings see table PDO-2.

2/ From date of additional issue in case of a reopening.

3/ In reopenings the amount issued is in addition to the amount of original offerings.

4/ Includes securities issued to U.S. Government accounts and Federal Reserve banks; and to foreign and international monetary authorities, whether in exchange for maturing securities or for new cash.

5/ Foreign-targeted issue.

6/ Eligible for STRIPS as of Sept. 30, 1987.

7/ Interest began to accrue before the issue date (settlement date) of this loan.

8/ Yields accepted ranged from 9.05% (price 99.910) up to 9.13% (price 99.767) with the average at 9.11% (price 99.803).

9/ Yields accepted ranged from 8.88% (price 99.991) up to 8.92% (price 99.919) with the average at 8.90% (price 99.955).

10/ The low, high, and average yield was 9.47% (price 99.695).

11/ The low, high, and average yield was 9.75% (price 100.000).

12/ Yields accepted ranged from 10.40% (price 102.809) up to 10.49% (price 102.046) with the average at 10.47% (price 102.215).

13/ Yields accepted ranged from 8.68% (price 99.859) up to 8.75% (price 99.679) with the average at 8.74% (price 99.705).

14/ Yields accepted ranged from 8.57% (price 99.874) up to 8.59% (price 99.838) with the average at 8.58% (price 99.856).

15/ Yields accepted ranged from 9.52% (price 99.858) up to 9.58% (price 99.478) with the average at 9.54% (price 99.731).

16/ Yields accepted ranged from 9.93% (price 99.936) up to 9.95% (price 99.271) with the average at 9.93% (price 99.460).

17/ Yields accepted ranged from 9.12% (price 99.942) up to 9.13% (price 99.901) with the average at 9.13% (price 99.901).

18/ Yields accepted ranged from 7.90% (price 99.955) up to 7.96% (price 99.486) with the average at 7.93% (price 99.900).

19/ Yields accepted ranged from 8.38% (price 99.983) up to 8.48% (price 99.650) with the average at 8.43% (price 99.816).

20/ Yields accepted ranged from 8.82% (price 99.640) up to 8.87% (price 99.384) with the average at 8.85% (price 99.486).

21/ Yields accepted ranged from 9.35% (price 100.190) up to 9.45% (price 99.295) with the average at 9.43% (price 99.473).

22/ Yields accepted ranged from 8.16% (price 99.937) up to 8.17% (price 99.918) with the average at 8.17% (price 99.918).

23/ Yields accepted ranged from 8.07% (price 99.817) up to 8.14% (price 99.635) with the average at 8.11% (price 99.713).

24/ Yields accepted ranged from 8.94% (price 99.573) up to 8.99% (price 99.249) with the average at 8.97% (price 99.379).

25/ Yields accepted ranged from 9.04% (price 98.940) up to 9.16% (price 98.182) with the average at 9.12% (price 98.434). Yields are based on an annual interest payment. The 8-7/8% interest rate was established in the auction of the companion domestic issue, Series A-1996.

26/ Yields accepted ranged from 9.27% (price 99.795) up to 9.29% (price 99.594) with the average at 9.28% (price 99.695).

27/ Yields accepted ranged from 7.99% (price 100.018) up to 8.03% (price 99.946) with the average at 8.02% (price 99.964).

28/ Yields accepted ranged from 8.10% (price 100.043) up to 8.13% (price 99.918) with the average at 8.12% (price 99.960).

29/ Yields accepted ranged from 7.17% (price 99.918) up to 7.21% (price 99.844) with the average at 7.19% (price 99.881).

30/ The low, high, and average yield was 7.29% (price 99.863).

31/ Yields accepted ranged from 7.44% (price 99.640) up to 7.50% (price 99.318) with the average at 7.48% (price 99.425).

32/ Yields accepted ranged from 6.63% (price 99.991) up to 6.73% (price 99.807) with the average at 6.68% (price 99.899).

33/ Yields accepted ranged from 6.94% (price 99.827) up to 6.98% (price 99.720) with the average at 6.97% (price 99.747).

34/ Yields accepted ranged from 7.45% (price 99.478) up to 7.48% (price 99.270) with the average at 7.47% (price 99.339).

35/ Yields accepted ranged from 7.34% (price 98.915) up to 7.40% (price 98.202) with the average at 7.37% (price 98.557).

36/ The low, high, and average yield was 7.20% (price 99.863).

37/ Yields accepted ranged from 7.50% (price 99.946) up to 7.55% (price 99.734) with the average at 7.53% (price 99.819).

38/ Yields accepted ranged from 7.00% (price 100.000) up to 7.05% (price 99.908) with the average at 7.04% (price 99.927).

39/ The low, high, and average yield was 7.26% (price 99.966).

40/ Yields accepted ranged from 7.26% (price 99.940) up to 7.36% (price 99.399) with the average at 7.33% (price 99.561).

41/ The low, high, and average yield was 6.67% (price 99.917).

42/ Yields accepted ranged from 6.69% (price 99.826) up to 6.74% (price 99.692) with the average at 6.73% (price 99.719).

43/ Yields accepted ranged from 7.44% (price 99.521) up to 7.48% (price 99.248) with the average at 7.47% (price 99.316).

44/ Yields accepted ranged from 7.59% (price 95.975) up to 7.65% (price 95.297) with the average at 7.63% (price 95.522).

45/ Yields accepted ranged from 6.19% (price 99.880) up to 6.22% (price 99.824) with the average at 6.21% (price 99.843).

46/ Yields accepted ranged from 6.48% (price 100.047) up to 6.52% (price 99.873) with the average at 6.51% (price 99.916).

47/ Yields accepted ranged from 6.42% (price 99.917) up to 6.44% (price 99.880) with the average at 6.44% (price 99.880).

48/ Yields accepted ranged from 6.84% (price 99.690) up to 6.89% (price 99.518) with the average at 6.87% (price 99.586).

49/ Yields accepted ranged from 6.38% (price 99.991) up to 6.39% (price 99.972) with the average at 6.39% (price 99.972).

50/ Yields accepted ranged from 7.18% (price 99.703) up to 7.23% (price 99.434) with the average at 7.21% (price 99.542).

51/ The low, high, and average yield was 6.42% (price 99.879).

52/ Yields accepted ranged from 7.22% (price 100.210) up to 7.25% (price 99.999) with the average at 7.25% (price 99.999).

53/ Yields accepted ranged from 7.52% (price 99.762) up to 7.56% (price 99.291) with the average at 7.54% (price 99.256).

54/ Yields accepted ranged from 6.23% (price 100.037) up to 6.27% (price 99.963) with the average at 6.26% (price 99.981).

55/ Yields accepted ranged from 6.65% (price 99.849) up to 6.67% (price 99.762) with the average at 6.66% (price 99.806).

56/ Yields accepted ranged from 6.30% (price 99.907) up to 6.32% (price 99.870) with the average at 6.31% (price 99.889).

57/ Yields accepted ranged from 6.62% (price 100.017) up to 6.66% (price 99.879) with the average at 6.64% (price 99.948).

58/ Yields accepted ranged from 7.08% (price 99.557) up to 7.10% (price 99.448) with the average at 7.09% (price 99.502).

59/ Yields accepted ranged from 6.15% (price 99.954) up to 6.19% (price 99.880) with the average at 6.18% (price 99.898).

60/ Yields accepted ranged from 6.53% (price 99.920) up to 6.54% (price 99.893) with the average at 6.54% (price 99.893).

61/ Yields accepted ranged from 7.24% (price 100.037) up to 7.27% (price 99.830) with the average at 7.25% (price 99.968).

62/ Yields accepted ranged from 7.48% (price 100.203) up to 7.50% (price 99.966) with the average at 7.49% (price 100.084).

63/ Yields accepted ranged from 6.31% (price 99.889) up to 6.32% (price 99.871) with the average at 6.32% (price 99.871).

64/ Yields accepted ranged from 6.72% (price 99.546) up to 6.74% (price 99.459) with the average at 6.73% (price 99.502).

65/ Yields accepted ranged from 6.41% (price 99.935) up to 6.44% (price 99.880) with the average at 6.43% (price 99.898).

66/ Yields accepted ranged from 6.78% (price 99.896) up to 6.79% (price 99.862) with the average at 6.79% (price 99.862).

67/ Yields accepted ranged from 7.02% (price 99.881) up to 7.04% (price 99.772) with the average at 7.04% (price 99.772).

68/ Yields accepted ranged from 7.15% (price 99.954) up to 7.23% (price 99.808) with the average at 7.20% (price 99.863).

69/ Yields accepted ranged from 7.88% (price 99.987) up to 7.94% (price 99.829) with the average at 7.91% (price 99.908).

70/ Yields accepted ranged from 8.49% (price 100.067) up to 8.53% (price 99.801) with the average at 8.52% (price 99.867).

71/ Yields accepted ranged from 8.74% (price 100.106) up to 8.77% (price 99.789) with the average at 8.76% (price 99.895).

72/ Yields accepted ranged from 8.03% (price 99.946) up to 8.06% (price 99.891) with the average at 8.05% (price 99.909).

73/ The low, high, and average yield was 8.27% (price 99.852).

74/ Yields accepted ranged from 7.44% (price 99.881) up to 7.47% (price 99.826) with the average at 7.46% (price 99.845).

75/ Yields accepted ranged from 7.88% (price 99.983) up to 7.89% (price 99.949) with the average at 7.89% (price 99.949).

76/ Yields accepted ranged from 8.08% (price 99.750) up to 8.12% (price 99.359) with the average at 8.10% (price 99.464).

77/ Yields accepted ranged from 7.65% (price 99.954) up to 7.67% (price 99.918) with the average at 7.66% (price 99.936).

78/ Yields accepted ranged from 7.93% (price 99.856) up to 7.94% (price 99.830) with the average at 7.94% (price 99.830).

79/ Yields accepted ranged from 8.71% (price 99.438) up to 8.74% (price 99.242) with the average at 8.74% (price 99.242).

80/ Yields accepted ranged from 8.87% (price 100.050) up to 8.89% (price 99.842) with the average at 8.89% (price 99.842).

81/ Yields accepted ranged from 7.82% (price 99.873) up to 7.86% (price 99.800) with the average at 7.86% (price 99.800).

82/ Yields accepted ranged from 8.46% (price 99.582) up to 8.49% (price 99.458) with the average at 8.48% (price 99.499).

83/ Yields accepted ranged from 8.55% (price 99.910) up to 8.59% (price 99.838) with the average at 8.57% (price 99.874).

84/ Yields accepted ranged from 9.22% (price 99.691) up to 9.24% (price 99.626) with the average at 9.24% (price 99.626).

85/ Yields accepted ranged from 9.48% (price 100.101) up to 9.54% (price 99.799) with the average at 9.51% (price 99.950).

Note.—All notes and bonds, except for foreign-targeted issues, were sold at auction through competitive and noncompetitive bidding. Foreign-targeted issues were sold at auction through competitive bidding only.

1/ Includes trust funds and accounts that comprise Government accounts under the unified budget concept.2/ Exclusive of banks and insurance companies.3/ Included with all other investors are certain Government deposit accounts

and Government-sponsored agencies, formerly included with Government accounts.

Note.--For detail of offerings see table PDO-3.

## U.S. SAVINGS BONDS AND NOTES

Series EE bonds, on sale since Jan. 1, 1980, are the only savings bonds currently sold. Series HH bonds are issued in exchange for series E and EE savings bonds and savings notes. Series A-0 were sold from Mar. 1, 1935, through Apr. 30, 1941. Series E was on sale from May 1, 1941, through Dec. 31, 1979 (through June 1980 to payroll savers only). Series F and G were sold from May 1, 1941, through Apr. 30, 1952. Series H was sold from June 1, 1952, through Dec. 31, 1979. Series HH bonds were sold for cash from Jan. 1, 1980, through Oct. 31, 1982. Series J and K were sold from May 1, 1952, through Apr. 30, 1957.

U.S. savings notes were on sale May 1, 1967, through June 30, 1970. The notes were eligible for purchase by individuals with the simultaneous purchase of series E savings bonds. The principal terms and conditions for purchase and redemption and information on investment yields of savings notes appear in the Treasury Bulletins of March 1967 and June 1968; and the Annual Report of the Secretary of the Treasury for fiscal year 1974.

Table SBN-1. — Sales and Redemptions by Series, Cumulative through Sept. 30, 1987

[In millions of dollars. Source: Monthly Statement of the Public Debt of the United States; Market Analysis Section, United States Savings Bonds Division]

Series	Sales <u>1/</u>	Accrued discount	Sales plus accrued discount	Redemptions <u>1/</u>	Amount outstanding	
					Interest-bearing debt	Matured non-interest-bearing debt
<b>Savings bonds:</b>						
Series A-0 <u>2/</u> .....	3,949	1,054	5,003	5,002	-	1
Series E, EE, H, and HH.....	254,413	100,644	355,057	256,679	97,004	1,238
Series F and G.....	28,396	1,125	29,521	29,518	-	3
Series J and K.....	3,556	198	3,754	3,753	-	1
<b>Savings notes.....</b>	<b>862</b>	<b>439</b>	<b>1,301</b>	<b>2,013</b>	<b>286</b>	<b>-</b>
<b>Total.....</b>	<b>291,176</b>	<b>103,460</b>	<b>394,636</b>	<b>296,965</b>	<b>97,290</b>	<b>1,243</b>

1/ Sales and redemption figures include exchange of minor amounts of (1) matured series E bonds for series G and K bonds from May 1951 through April 1957; (2) series F and J bonds for series H bonds beginning January 1960; and (3) U.S. savings notes for series H

bonds beginning January 1972; however, they exclude exchanges of series E bonds for series H and HH bonds.

2/ Details by series on a cumulative basis and by period of series A-0 combined will be found in the February 1952 and previous issues of the Treasury Bulletin.

\* Less than \$500,000.

Note.--Series E and EE include U.S. savings notes (Freedom Shares) on sale from May 1, 1967, through June 30, 1970, to E bond buyers.

## OWNERSHIP OF FEDERAL SECURITIES

## INTRODUCTION

Federal securities presented in these tables comprise public debt securities issued by the Treasury and debt issued by other Federal agencies under special financing authorities. See the Federal debt (FD) series of tables for a more complete description of the Federal debt.

**Table OFS-1.—Distribution of Federal Securities by Class of Investors and Type of Issues**

Holdings of Treasury marketable and nonmarketable securities and of debt issued by other Federal agencies are presented for Government accounts, the Federal Reserve banks, and private investors. Government account holdings largely reflect investment by the social security and Federal retirement trust funds. The Federal Reserve banks acquire Treasury securities in the market as a means of executing monetary policy.

**Table OFS-2.—Estimated Ownership of Public Debt Securities by Private Investors**

Privately held Treasury securities are those held by investors other than the Government accounts and Federal Reserve banks. Treasury obtains information on private holdings from a variety of sources, such as data gathered by the Federal financial institution regulatory agencies. State and local holdings and foreign holdings include special issues of nonmarketable securities to municipal entities and foreign official accounts, as well as municipal and foreign official and private holdings of marketable Treasury securities. Data on foreign holdings of marketable Treasury securities are presented in the capital movements tables in the *Treasury Bulletin*. See the footnotes for descriptions of the investor categories.

1/ U.S. savings bonds, series A-F and J, are included at current redemption value.

2/ Includes domestically chartered banks, U.S. branches and agencies of foreign banks, New York investment companies majority owned by foreign banks, and Edge Act corporations owned by domestically chartered and foreign banks.

3/ Includes partnerships and personal trust accounts.

4/ Includes U.S. savings notes. Sales began May 1, 1967, and were discontinued June 30, 1970.

5/ Exclusive of banks and insurance companies.

6/ Includes State and local pension funds.

7/ Consists of the investment of foreign balances and international accounts in the United States. Estimates reflect 1978 benchmark from December 1978 to date.

8/ Includes savings and loan associations, credit unions, nonprofit institutions, mutual savings banks, corporate pension trust funds, dealers and brokers, certain Government deposit accounts, and Government-sponsored agencies.

## MARKET YIELDS

### INTRODUCTION

The tables and charts in this section present yields on Treasury marketable securities and compare long-term Treasury market yields with yields on long-term corporate and municipal securities.

**Table MBY-1.--Treasury Market Bid Yields at Constant Maturities: Bills, Notes, and Bonds**

The Treasury yield curve, presented in the chart that accompanies table MBY-1, is based on current market bid quotations on the most actively traded Treasury securities as of 3:30 p.m. each business day. The Treasury obtains quotations from the Federal Reserve Bank of New York, which composites quotations provided by five primary dealers. This yield curve reflects yields based on semiannual interest payments and is read at constant maturity points to develop a consistent data series. Yields on Treasury bills, which

are discount securities, are the coupon equivalent yields of bank discount rates at which Treasury bills trade in the market. The Board of Governors of the Federal Reserve System also publishes the Treasury constant maturity data series in its weekly H.15 press release.

**Table AY-1.--Average Yields of Long-Term Treasury, Corporate, and Municipal Bonds**

The long-term Treasury rate is the 30-year constant maturity rate presented in table MBY-1. The corporate and municipal bond series are developed by the Treasury, using reoffering yields on new long-term securities rated Aa by Moody's Investors Service. See the footnotes for further explanation.

\* Rates are from the Treasury yield curve.

<sup>1/</sup> On Apr. 30, 1986, the Treasury announced that it would no longer issue 20-year bonds. Consequently, the 20-year

constant maturity became an interpolation between rates on 10- and 30-year securities. The 20-year series was discontinued at the end of 1986.

# YIELDS OF TREASURY SECURITIES, SEPT. 30, 1987

Based on closing bid quotations

Note: The curve is fitted by eye and based only on the most actively traded issues. Market yields on coupon issues due in less than 3 months are excluded.

- Legend:
  - x Fixed maturity coupon issues under 12%.
  - Fixed maturity coupon issues of 12% or more.
  - Callable coupon issues under 12%.
  - ▲ Callable coupon issues of 12% or more.
  - + Bills: Coupon equivalent yield of the latest 13-week, 26-week, and 52-week bills.
- Note: Callable issues are plotted to the earliest call date when prices are above par and to maturity when prices are at par or below.

<sup>1</sup> The Treasury long-term bond series has been revised to reflect 30-year maturities rather than the previously used 20-year maturity. The 30-year series was initiated in March 1977.

<sup>2</sup> Treasury series based on 3-week moving average of reoffering yields of new corporate bonds rated Aa by Moody's Investors Service and having an original maturity of at least 20 years.

<sup>3</sup> Index of new reoffering yields on 20-year general obligations rated Aa by Moody's Investors Service.

# FEDERAL AGENCIES' FINANCIAL REPORTS

## INTRODUCTION

Section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 3513a) requires the Secretary of the Treasury to prepare reports on the financial operations of the U.S. Government and provides that each executive agency must furnish the Secretary of the Treasury such reports and information relating to the agency's financial condition and operations as the Secretary may require. The provisions do not apply to the legislative and judicial branches of the Federal Government; however, these entities are encouraged to submit the prescribed reports so the Secretary of the Treasury can prepare comprehensive reports on all the financial activities of the U.S. Government.

The Treasury Financial Manual (1 TFM 2-4100) sets the criteria for the submission of annual and quarterly financial reports and schedules in accordance with the Reporting Entities Listing (Bulletin No. 86-04). Reports and schedules are provided for six fund types: Revolving funds, trust revolving funds, 15 major trust funds, all other trust funds, all other activity combined, and consolidated reports of an organizational unit. The financial transactions supporting the required reports and schedules are to be accounted for on the accrual basis. The Report on Operations can be submitted on a cash basis under certain circumstances (see 1 TFM 2-4180.20). Reports are to be prepared from a budgeting and accounting system which contains an integrated data base that is part of the agency's integrated financial management system as required by the Office of Management and Budget (OMB) Circular No. A-127.

The required reports should include all assets, liabilities, and equities relating to all programs and activities under control of the reporting entity, except for the assets of disbursing officers, which are reported by the Treasury. Reports should include transfer

appropriation accounts from other agencies, foreign currencies, operations conducted in the territories or overseas, and any monetary assets or property received, spent, or otherwise accounted for by the reporting entity. Amounts are reported to the dollar.

Requirements provide that Federal agencies submit to Treasury four financial reports supplemented by three supporting schedules which are consolidated and published annually in the winter issue of the *Treasury Bulletin*. These reports are: Report on Financial Position (TFS 220), Report on Operations (TFS 221), Report on Cash Flow (TFS 222), and Report on Reconciliation (TFS 223). The three supporting schedules are: Direct and Guaranteed Loans Reported by Agency and Program Due from the Public (Schedule 220.8), Report on Accounts and Loans Receivable Due from the Public (Schedule 220.9), and Additional Financial Information (Schedule 220.1). The schedule on Direct and Guaranteed Loans is submitted to Treasury quarterly, and annually for publication in the *Treasury Bulletin*. Information captured in Schedule 220.8 is shown in the following table:

### Table FA-2.--Direct and Guaranteed Loans

This report reflects the direct loans and guaranteed loans to the public through the Federal Credit Program to support credit activities. Actual control of credit program levels remains with authorizing legislation and appropriations acts. The schedule on Direct and Guaranteed Loans also provides the Federal Reserve Board information to monitor the flow of funds. An accompanying chart depicts direct loans and guaranteed loans for the third quarter of fiscal 1987.

# International Statistics

## INTERNATIONAL FINANCIAL STATISTICS

The tables in this section are designed to provide data on U.S. reserve assets and liabilities and other statistics related to the U.S. balance of payments and international financial position.

Table IFS-1 shows the reserve assets of the United States, including its gold stock, special drawing rights held in the Special Drawing Account in the International Monetary Fund, holdings of convertible foreign currencies, and reserve position in the International Monetary Fund.

Table IFS-2 brings together statistics on liabilities to foreign official institutions, and selected liabilities to all other foreigners, which are used in the U.S. balance of payments statistics.

Table IFS-3 shows U.S. Treasury nonmarketable bonds and notes issued to official institutions and other residents of foreign countries.

Table IFS-4 presents a measure of weighted-average changes in exchange rates between the U.S. dollar and the currencies of certain other countries.

1/ Beginning July 1974, the International Monetary Fund (IMF) adopted a technique for valuing the special drawing right (SDR) based on a weighted-average of exchange rates for the currencies of selected member countries. The U.S. SDR holdings and reserve position in the IMF are also valued on this basis beginning July 1974.

2/ Includes gold held by the Exchange Stabilization Fund.

3/ Treasury values its gold stock at \$42.222 per fine troy ounce and pursuant to 31 U.S.C. 5117(b) issues gold certificates to the Federal Reserve at the same rate against all gold held.

4/ Includes allocations of SDR's in the Special Drawing Account in the International Monetary Fund, plus or minus transactions in SDR's.

Allocations of SDR's on Jan. 1 of respective years are as follows: 1970, \$867 million; 1971, \$717 million; 1972, \$710 million; 1979, 874 million (in SDR terms); 1980, 874 million (in SDR terms); and 1981, 857 million (in SDR terms).

5/ Includes holdings of Treasury and Federal Reserve System; beginning November 1978, these are valued at current market exchange rates or, where appropriate, as such other rates as may be agreed upon by the parties to the transactions.

6/ The United States has the right to purchase foreign currencies equivalent to its reserve position in the Fund automatically if needed. Under appropriate conditions the United States could purchase additional amounts related to the U.S. quota.

1/ Includes Bank for International Settlements.

2/ Derived by applying reported transactions to benchmark data.

3/ Includes debt securities of U.S. Government corporations, federally sponsored agencies, and private corporations.

4/ Includes liabilities payable in dollars to foreign banks, and liabilities payable in foreign currencies to foreign banks and to "other foreigners."

5/ Includes marketable U.S. Government bonds and notes held by foreign banks.

6/ Includes nonmarketable U.S. Government bonds and notes held by foreign banks.

7/ Principally the International Bank for Reconstruction and Development, the Inter-American Development Bank, and the Asian Development Bank.

Note.--Table is based on Treasury Department data and on data reported to the Treasury Department by banks and brokers in the United States.

Data correspond generally to statistics following in this section and in the "Capital Movements" section, except for the inclusion of investments by foreign official reserve agencies in debt securities of U.S. federally sponsored agencies and U.S. corporations. Table excludes International Monetary Fund "holdings of dollars" and holdings of U.S. Treasury letters of credit and nonnegotiable noninterest-bearing special U.S. notes held by other international and regional organizations.

1/ This table presents calculations of weighted average percentage changes in the rates of exchange between the dollar and certain foreign currencies, in order to provide a measure of changes in the dollar's general foreign exchange value broader than a measure provided by any single exchange rate change. Calculations are provided for two sets of countries that account for a major share of U.S. foreign trade. U.S. bilateral trade patterns in 1972 are used as a convenient, readily available proxy for the assignment of relative weights to individual exchange rate changes, although such weights do not provide a full measure of individual currencies' relative importance in U.S. international transactions because they take no account of factors other than trade. The calculations do not purport to represent a guide to measuring the impact of exchange rate changes on U.S. international transactions.

Exchange rate data used in constructing the indices reported here differ somewhat from those used in earlier calculations to more accurately reflect end-of-period currency values.

The equations used are as follows:

Equation one is used to calculate a trade-weighted average of changes in the dollar cost of foreign currencies:

$$(EQ1) E_m = \Sigma(\Delta S/FC_i * M_i/EM)$$

Where:  $E_m$  is the weighted average of percentage changes in the dollar cost of individual foreign currencies;

$\Delta S/FC_i$  is the percent change in the dollar cost of foreign currency  $i$ ; and

$M_i/EM$  is U.S. imports from country  $i$ , as a proportion of total U.S. imports from all countries in the set.

Equation two is used to calculate a trade-weighted average of changes in the foreign exchange cost of dollars:

$$(EQ2) E_x = \Sigma(\Delta FC_i/\$ * X_i/EX)$$

Where:  $E_x$  is the weighted average of percentage changes in the foreign currency cost of dollars;

$\Delta FC_i/\$$  is the percent change in the foreign currency  $i$  cost of dollars; and

$X_i/EX$  is U.S. exports to country  $i$ , as a proportion of total U.S. exports to all countries in the set.

Equation three combines the above export-weighted and import-weighted averages to provide an overall measure of exchange rate change:

$$(EQ3) E = [(E_m * m/m+x) * (-1)] + [E_x * x/m+x]$$

Where:  $m/m+x$  is U.S. imports as a proportion of its total trade with all countries in the set; and

$x/m+x$  is U.S. exports as a proportion of its total trade with all countries in the set.

2/ Australia, Austria, Belgium-Luxembourg, Canada, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, and United Kingdom.

3/ The currencies of 46 IMF member countries which account for approximately 90 percent of U.S. total trade.

4/ This series has been discontinued pending revision and recalculation.

## CAPITAL MOVEMENTS

### INTRODUCTION

#### Background

Data relating to capital movements between the United States and foreign countries have been collected in some form since 1935. Reports are filed with district Federal Reserve banks by commercial banks, other depository institutions, bank holding companies, securities brokers and dealers, and nonbanking enterprises in the United States. Statistics on the principal types of data by country or geographical area are then consolidated and are published in the *Treasury Bulletin*.

The reporting forms and instructions<sup>1</sup> used in the Treasury International Capital (TIC) Reporting System have been revised a number of times to meet changing conditions and to increase the usefulness of the published statistics. The most recent, general revision of the report forms became effective with the banking reports as of April 30, 1978, and with the nonbanking reports as of December 31, 1978. Revised forms and instructions are developed with the cooperation of other Government agencies and the Federal Reserve System and in consultations with representatives of banks, securities firms, and nonbanking enterprises.

#### Basic Definitions

The term "foreigner" as used in the Treasury reports covers all institutions and individuals domiciled outside the United States, including U.S. citizens domiciled abroad, and the foreign branches, subsidiaries, and other affiliates abroad of U.S. banks and business concerns; the central governments, central banks, and other official institutions of foreign countries, wherever located; and international and regional organizations, wherever located. The term "foreigner" also includes persons in the United States to the extent that they are known by reporting institutions to be acting on behalf of foreigners.

In general, data are reported opposite the foreign country or geographical area in which the foreigner is domiciled, as shown on the records of reporting institutions. For a number of reasons, the geographical breakdown of the reported data may not in all cases reflect the ultimate ownership of the assets. Reporting institutions are not expected to go beyond the addresses shown on their records, and so may not be aware of the country of domicile of the ultimate beneficiary. Furthermore, U.S. liabilities arising from deposits of dollars with foreign banks are reported in the Treasury statistics as liabilities to foreign banks, whereas the liability of the foreign bank receiving the deposit may be to foreign official institutions or to residents of another country.

Data pertaining to branches or agencies of foreign official institutions are reported opposite the country to which the official institution belongs. Data pertaining to international and regional organizations are reported opposite the appropriate international or regional classification except for the Bank for International Settlements, which is included in the classification "Other Europe."

#### Reporting Coverage

Reports are required from banks, other depository institutions, bank holding companies, International Banking Facilities (IBF's), securities brokers and dealers, and nonbanking enterprises in the

United States, including the branches, agencies, subsidiaries, and other affiliates in the United States of foreign banking and nonbanking firms. Entities that have reportable liabilities, claims, or securities transactions below specified exemption levels are exempt from reporting.

Banks, other depository institutions, and some brokers and dealers file monthly reports covering their dollar liabilities to, and dollar claims on, foreigners in a number of countries. Twice a year, as of June 30 and December 31, they also report the same liabilities and claims items with respect to foreigners in countries not shown separately on the monthly reports. Quarterly reports are filed with respect to liabilities and claims denominated in foreign currencies *vis-a-vis* foreigners. Effective January 31, 1984, the specified exemption level applicable to the monthly and quarterly banking reports was raised from \$10 million to \$15 million. There is no separate exemption level for the semiannual reports.

Banks, securities brokers and dealers, and in some instances nonbanking enterprises report monthly their transactions in securities with foreigners; the applicable exemption level is \$500,000 on the grand total of purchases and on the grand total of sales during the month covered by the report.

Quarterly reports are filed by exporters, importers, industrial and commercial concerns, financial institutions other than banks, other depository institutions and brokers, and other nonbanking enterprises if their liabilities to, or claims on, unaffiliated foreigners exceed a specified exemption level on a two quarter-end average basis. Effective March 31, 1982, this exemption level was set at \$10 million, up from \$2 million. Nonbanking enterprises also report for each monthend their U.S. dollar-denominated deposit and certificates of deposit claims of \$10 million or more on banks abroad.

#### Description of Statistics

Section I presents data on liabilities to foreigners reported by banks, other depository institutions, brokers, and dealers in the United States. Beginning April 1978, the following major changes were made in the reporting coverage: Amounts due to banks' own foreign offices are reported separately; a previous distinction between short-term and long-term liabilities was eliminated; a separation was provided of the liabilities of the respondents themselves from their custody liabilities to foreigners; and foreign currency liabilities are only available quarterly. Also, beginning April 1978, the data on liabilities were made more complete by extending to securities brokers and dealers the requirement to report certain of their own liabilities and all of their custody liabilities to foreigners. Effective as of January 31, 1985, savings and loan associations and other thrift institutions began to file the TIC banking forms. Previously they had reported on TIC forms for nonbanking enterprises.

Section II presents the claims on foreigners reported by banks in the United States. Beginning with data reported as of the end of April 1978, a distinction was made between banks' claims held for their own account and claims held for their domestic customers. The former are available in a monthly series whereas the latter data are collected on a quarterly basis only. Also, the distinction in reporting of long-term and short-term components of banks' claims was discontinued. Maturity data began to be collected quarterly on a time remaining to maturity basis as opposed to the historic original maturity classification. Foreign currency claims are also collected on a quarterly basis only. Beginning March 1981, this claims coverage was extended to certain items in the hands of brokers and dealers in the United States. See notes to section I above concerning the

<sup>1</sup> Copies of the reporting forms and instructions may be obtained from the Office of Data Management, Office of the Assistant Secretary for International Affairs, Department of the Treasury, Washington, D.C. 20220, or from district Federal Reserve banks.

## CAPITAL MOVEMENTS

reporting of thrift institutions.

Another important change in the claims reporting, beginning with new quarterly data as of June 30, 1978, was the adoption of a broadened concept of "foreign public borrower," which replaced the previous category of "foreign official institution" to produce more meaningful information on lending to the public sector of foreign countries. The term "foreign public borrower" encompasses central governments and departments of central governments of foreign countries and of their possessions; foreign central banks, stabilization funds, and exchange authorities; corporations and other agencies of central governments, including development banks, development institutions, and other agencies which are majority-owned by the central government or its departments; State, provincial, and local governments of foreign countries and their departments and agencies; and any international or regional organization or subordinate or affiliated agency thereof, created by treaty or convention between sovereign states.

Section III includes supplementary statistics on U.S. banks' liabilities to, and claims on, foreigners. The supplementary data on banks' loans and credits to nonbank foreigners combine selected information from the TIC reports with data from the monthly Federal Reserve 2502 reports submitted for major foreign branches of U.S. banks. Other supplementary data on U.S. banks' dollar liabilities to, and banks' own dollar claims on, countries not regularly reported separately are available semiannually in the June and December issues of the *Treasury Bulletin*.

Section IV shows the liabilities to, and claims on, unaffiliated foreigners by exporters, importers, industrial and commercial concerns, financial institutions other than banks, other depository institutions, brokers, and other nonbanking enterprises in the United States. The data exclude the intercompany accounts of nonbanking enterprises in the United States with their own branches and subsidiaries abroad or with their foreign parent companies. (Such transactions are reported by business enterprises to the Department of Commerce on its direct investment forms.) The data also exclude claims held through banks in the United States. Beginning with data

reported as of December 31, 1978, financial liabilities and claims of reporting enterprises are distinct from their commercial liabilities and claims; and items are collected on a time remaining to maturity basis instead of the original maturity basis used previously.

Section V contains data on transactions in all types of long-term domestic and foreign securities by foreigners as reported by banks and brokers in the United States (except nonmarketable U.S. Treasury notes, foreign series; and nonmarketable U.S. Treasury bonds and notes, foreign currency series, which are shown in the "International Financial Statistics" section, table IFS-3). The data cover new issues of securities, transactions in outstanding issues, and redemptions of securities. They include transactions executed in the United States for the account of foreigners, and transactions executed abroad for the account of reporting institutions and their domestic customers. The data include some transactions which are classified as direct investments in the balance of payments accounts. Also, see notes for section I above concerning the reporting of thrift institutions.

The geographical breakdown of the data on securities transactions shows the country of domicile of the foreign buyers and sellers of the securities; in the case of outstanding issues, this may differ from the country of the original issuer. The gross figures contain some offsetting transactions between foreigners. The net figures for total transactions represent transactions by foreigners with U.S. residents; but the net figures for transactions of individual countries and areas may include some transactions between foreigners of different countries.

The data published in these sections do not cover all types of reported capital movements between the United States and foreign countries. The principal exclusions are the intercompany capital transactions of nonbanking business enterprises in the United States with their own branches and subsidiaries abroad or with their foreign parent companies, and capital transactions of the U.S. Government. Consolidated data on all types of international capital transactions are published by the Department of Commerce in its regular reports on the U.S. balance of payments.

1/ Includes Bank for International Settlements.

2/ Principally the International Bank for Reconstruction and Development and the Inter-American Development Bank.

3/ Data as of preceding quarter for non-quarter-end months.

4/ Establishment of International Banking Facilities (IBF's) permitted beginning December 1981.

Note.--Total liabilities include liabilities previously classified as either "short term" or "long term" on the Treasury report filed by banks. The maturity distinction was discontinued with new reports filed as of Apr. 30, 1978, and historical series adjusted accordingly. See introductory text to Capital Movements tables for discussion of changes in reporting.

## FOREIGN CURRENCY POSITIONS

### INTRODUCTION

#### Background

Data have been collected since 1974 on the foreign currency positions of banks and nonbanking firms in the United States, and on those of foreign branches, majority-owned foreign partnerships, and majority-owned foreign subsidiaries of U.S. banks and nonbanking firms. Reports cover five major foreign exchange market currencies and U.S. dollars held abroad. Reporting has been required pursuant to title II of Public Law 93-110, an amendment to the Par Value Modification Act of September 21, 1973, and implementing Treasury regulations. Statistics on the positions have been published since March 1977 beginning with data for December 1975.

The report forms and instructions used in the collection of bank data were revised effective with reports as of March 16, 1983, for the weekly reports. The most recent revision of the nonbank foreign currency forms (see below) became effective as of the last business day of March 1983.

#### Common Definitions and Concepts

The term "United States" means the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Midway Island, the Virgin Islands, and Wake Island. The term "foreign" means locations other than the "United States." The term "worldwide" is used to describe the sum of "United States" and "foreign" data.

Data for the United States include amounts reported by sole proprietorships, partnerships, and corporations in the United States including the U.S. branches and subsidiaries of foreign nonbanking concerns, in the case of "nonbanking firms' positions," and the agencies, branches, and subsidiaries located in the United States of foreign banks and banking institutions, in the case of the weekly "bank positions."

Data for "foreign branches" and "abroad" include amounts reported by the branches, majority-owned partnerships, and majority-owned subsidiaries of U.S. banking and nonbanking concerns. In general, these data do not reflect the positions of foreign parents or foreign parents' subsidiaries located abroad except through intercompany accounts. The data include the foreign subsidiaries of a few foreign-owned U.S.-based corporations.

Assets, liabilities, and foreign exchange contract data are reported on the basis of time remaining to maturity as of the date of the report, regardless of the original maturity of the instrument involved. "Spot" means due for receipt or delivery within 2 business days from the date of the report. "Short-term" means maturing in 1 year or less from the date of the report.

"Majority-owned foreign partnerships" are those organized under the laws of a foreign country in which one or more nonbanking concerns or nonprofit institutions in the United States, directly or indirectly, own more than 50 percent profit interest. "Majority-owned foreign subsidiaries" are foreign corporations in which one or more nonbanking business concerns or nonprofit institutions located in the United States, directly or indirectly, own stock with more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of all classes of stock.

#### Reporting Threshold

The exemption level applicable to banks and banking institutions was \$10 million equivalent through January 1982, when it was raised to \$100 million. The exemption level applicable to nonbanking business concerns and nonprofit institutions was \$1 million equivalent on all nonbank forms from March 1975 through November 1976. It was raised to \$2 million equivalent on the monthly reports of positions held in the United States from November 1976 through September 1978. The exemption level was raised to \$3 million on foreign subsidiary positions on June 30, 1977, and for positions held in the United States on September 30, 1978. The exemption level for nonbanking firms was raised to \$100 million on positions in the United States in January 1982 and on foreign branch and subsidiaries positions in March 1982.

Firms must report their entire foreign currency position in a specified foreign currency if a specified U.S. dollar equivalent value is reached in any category of assets, liabilities, exchange contracts bought and sold, or the net position in the currency. In general, exemption levels are applied to the entire firm. In reports on their foreign branches, majority-owned foreign partnerships, and majority-owned foreign subsidiaries, U.S. banks and nonbanks are required to report the U.S. dollar-denominated assets, liabilities, exchange contracts bought and sold, and net positions of those branches, partnerships, and subsidiaries with reportable positions in the specified foreign currencies.

#### Description of Statistics

Data collected on the Treasury foreign currency forms are published in the *Treasury Bulletin* in seven sections. The first section presents a summary of worldwide net positions in all of the currencies reported. Sections II through VI each present data on a specified foreign currency. Section VII presents the U.S. dollar positions of the foreign branches and subsidiaries of U.S. firms which are required to report in one or more of the specified foreign currencies.

## FOREIGN CURRENCY POSITIONS

### Footnotes to Tables FCP-I through FCP-VII

#### SECTION I

<sup>1</sup> Worldwide net positions on the last business day of the calendar quarter of nonbanking business concerns in the United States and their foreign branches and majority-owned partnerships and subsidiaries. Excludes receivables and installment paper which have been sold or discounted before maturity, U.S. parent companies' investment in their majority-owned foreign subsidiaries, fixed assets (plant and equipment), and capitalized leases for plant and equipment.

<sup>2</sup> Foreign branches and majority-owned partnerships and subsidiaries only.

<sup>3</sup> Weekly worldwide net positions of banks and banking institutions in the United States, and their foreign branches and majority-owned foreign subsidiaries. Excludes capital assets and liabilities.

<sup>4</sup> Foreign branches and majority-owned subsidiaries only.

#### SECTIONS II THROUGH VII

<sup>1</sup> Positions of nonbanking business concerns in the United States and their foreign branches and majority-owned partnerships and subsidiaries. In section VII positions of foreign branches and majority-owned partnerships and subsidiaries only.

<sup>2</sup> Excludes receivables and installment paper sold or discounted before maturity, fixed

assets (plant and equipment), and parents' investment in majority-owned foreign subsidiaries.

<sup>3</sup> Capitalized plant and equipment leases are excluded.

<sup>4</sup> Includes both spot and forward exchange rates.

<sup>5</sup> Columns 1 and 3 less columns 2 and 4.

<sup>6</sup> Representative rates on the report date. Canadian dollar and United Kingdom pound rates are expressed in U.S. dollars per unit of foreign currency, all others in foreign units per U.S. dollar.

<sup>7</sup> Banks and banking institutions in the United States and their foreign branches and majority-owned subsidiaries. In section VII, foreign branches and majority-owned subsidiaries only.

<sup>8</sup> Excludes capital assets.

<sup>9</sup> Excludes capital liabilities.

<sup>10</sup> Includes both spot and forward exchange contracts.

<sup>11</sup> Columns 3 and 9 less columns 6 and 12.

<sup>12</sup> See footnote 6.

## EXCHANGE STABILIZATION FUND

### INTRODUCTION

#### Background

The Exchange Stabilization Fund (ESF) was established under the Gold Reserve Act of January 30, 1934 (31 U.S.C. 822a). This act authorized the establishment in the Department of the Treasury of a stabilization fund to be operated under the exclusive control of the Secretary of the Treasury, with the approval of the President, for the purpose of stabilizing the exchange value of the dollar. Subsequent amendment of the Gold Reserve Act modified the original purpose somewhat to reflect termination of the fixed exchange rate system.

The resources of the fund consist of dollar balances, partly invested in U.S. Government securities, special drawing rights (SDRs), and balances of foreign currencies.

The principal sources of income or losses for the ESF have been profits or losses on holdings of and transactions in SDRs and foreign exchange, and the interest earned on assets.

#### Definitions

*Special drawing rights.*—International assets created by the International Monetary Fund (IMF). They serve to increase international liquidity and provide additional international reserves, and may be purchased and sold among eligible holders through the IMF.

*SDR allocations.*—The counterpart of SDRs issued by the IMF based on members' quota in the IMF. Although shown in ESF

statements as liabilities, they must be redeemed by the ESF only in the event of liquidation of, or U.S. withdrawal from, the SDR Department of the IMF or cancellation of SDRs.

*SDR certificates.*—Issued to the Federal Reserve System against SDRs when SDRs are "monetized" and the proceeds of the monetization are deposited in an ESF account at the Federal Reserve Bank of New York.

#### Description of Tables

Table ESF-1 presents the assets, liabilities, and capital of the ESF. Data are presented in U.S. dollars or U.S. dollar equivalents based on current exchange rates computed according to the accrual method of accounting. The capital account represents the original capital appropriated to the ESF by Congress of \$2 billion, less a subsequent transfer of \$1.8 billion to pay for the initial U.S. quota subscription to the IMF. Subsequent gains and losses since inception are reflected in the cumulative net income (loss) account.

Table ESF-2 presents the results of operations by quarter. Data are presented in U.S. dollars or U.S. dollar equivalents computed according to the accrual method of accounting. The "Profit (loss) on foreign exchange" includes realized profits (losses) on sales of foreign currencies as well as revaluation gains (losses) on currencies held. "Adjustment for change in valuation of SDR holdings and allocations" reflects the net gain (loss) on revaluation of SDR holdings and allocations for the quarter.

Table ESF-1. — Balances as of Mar. 31, 1987, and June 30, 1987

[In thousands of dollars]

Table ESF-2. — Income and Expense

[In thousands of dollars]

	Current quarter Apr. 1, 1987, through June 30, 1987	Year to date Oct. 1, 1986, through June 30, 1987
<b>Income and expense:</b>		
Profit (loss) on:		
Foreign exchange.....	(51,075)	633,262
Adjustment for change in valuation of SDR holdings and allocations <sup>1/</sup> .....	(17,308)	120,186
Interest (net charges) on:		
Special drawing rights.....	36,007	106,652
U.S. Government securities.....	35,417	52,281
Foreign exchange.....	61,919	230,907
<b>Income from operations.....</b>	<b>64,960</b>	<b>1,143,288</b>
<b>Net income.....</b>	<b>64,960</b>	<b>1,143,288</b>

<sup>1/</sup> Beginning July 1974, the International Monetary Fund (IMF) adopted a technique for valuing the special drawing rights (SDRs) based on a weighted average of exchange rates for the currencies of selected member countries. The U.S. SDR holdings and allocations are valued on this basis beginning July 1974.

<sup>2/</sup> Excludes foreign exchange transactions for future and spot delivery.

<sup>3/</sup> A non-interest-bearing liability to the U.S. Treasury resulting from the transfer to the Exchange Stabilization Fund of foreign currencies drawn from the IMF by the United States.

Note.—Annual balance sheets for fiscal years 1934 through 1940 appear in the 1940 Annual Report of the Secretary of the Treasury and those for succeeding years appear in subsequent reports through 1980. Quarterly balance sheets beginning with Dec. 31, 1938, have been published in the Treasury Bulletin. Data from inception to Sept. 30, 1978, may be found on the statements published in the January 1979 Treasury Bulletin.

***U.S. CURRENCY AND COIN OUTSTANDING  
AND IN CIRCULATION***

## U.S. CURRENCY AND COIN OUTSTANDING AND IN CIRCULATION

### INTRODUCTION

#### Purpose and Scope

The U.S. Currency and Coin Outstanding and in Circulation Statement is prepared on a monthly basis to inform the public of the face value of currency and coin which are used as a medium of exchange and the total thereof, as of the end of a given accounting month. End-of-quarter data are then published in the *Treasury Bulletin*.

The statement defines the total amount of currency and coin outstanding and the portion of which is deemed to be in circulation. Although it still includes some old and current rare issues of coin and currency which do not circulate or may do so to a limited extent, Treasury policy is to continue their inclusion in the statement since such issues were originally intended for general circulation. The statement also provides a brief description of the various issues of U.S. paper money and further presents a comparative amount of money circulated in relation to population.

#### History

Monthly statements of currency and coin outstanding and in circulation have been published by the Department of the Treasury since 1888. These statements were originally prepared by the Division of Loans and Currency, which was then under the Office of the Secretary of the Treasury but later became part of the Public Debt Service (currently known as the Bureau of the Public Debt) in 1929. The statement was published with the title "Circulation Statement of United States Money" from 1923 through December 31, 1965. Concurrently, from December 31, 1919, to September 30, 1951, the Office of the U.S. Treasurer published a statement entitled "Monthly Statement--Paper Currency of Each Denomination Outstanding." Two months after the Office of the U.S. Treasurer assumed publication of the "Circulation Statement of United States Money," a revision was made to the statement to include denomination detail of the currency in circulation. Publication of the "Monthly Statement--Paper Currency of Each Denomination Outstanding" was discontinued, and the revised version which combines information from both statements is now known as the United States Currency and Coin Outstanding and in Circulation Statement. The statement in 1983 ceased to be published as a separate, monthly release and instead was incorporated into the quarterly *Treasury Bulletin* as a special report.

#### Definition of Terms

The classification "Amounts outstanding and in circulation" includes all issues by the Bureau of the Mint which are purposely intended as a medium of exchange. Therefore, coins sold by the Bureau of the Mint at premium prices are excluded. However, uncirculated coin sets, sold by the Mint at face value plus a handling charge, are included.

The term "Federal Reserve notes" refers to issues by the U.S. Government to the public through the Federal Reserve banks and their member banks. These notes represent U.S. Government obligations. Currently, the item "Federal Reserve notes--amounts outstanding" consists of new series issues. The Federal Reserve note is the only class of currency currently issued.

"U.S. notes" are also known as legal tender notes and were issued in five different issues; namely, (a) First Issue--1862 (\$5 to \$1,000 notes), (b) Second Issue--1862 (\$1 to \$2 notes), (c) Third Issue--1863 (\$5 to \$1,000 notes), (d) Fourth Issue--1863 (\$1 to \$10,000 notes), and (e) Fifth Issue--1901 (\$10 notes).

The column for "Currency no longer issued" consists of gold certificates (old and new series), silver certificates (old and new series), Federal Reserve notes (old and new series), national bank notes (old and new series), and Treasury notes (1890 series).

"Dollar coins" include standard silver coins and nonsilver coins.

"Fractional coins" include subsidiary coins in denominations of 50 cents, 25 cents, and 10 cents and minor coins (5 cents and 1 cent).

#### Reporting Sources

Data used in the preparation of the U.S. Currency and Coin Outstanding and in Circulation Statement is derived from monthly reports required from Treasury offices, various U.S. Mint offices, the Federal Reserve banks, and the Federal Reserve Board. Such reports convey information about the amount, class, and denomination of new issues of currency and/or coin, of destroyed and replaced currency, and of currency and coins withdrawn from circulation. Estimates of population from the Bureau of the Census are used in the calculation of money circulated per capita.
