## TABLE OFCONTENTS.

# REPORT ON THE FINANCES. 

## DECEMBER, 1817.

In obedience to the directions of the "Act supplementary to "An act to establish the Treasury Department,'" the Secretary of the 'Treasury respectfully submits the following report and estimates.

## REVENUE

The nett revenue arising from duties upon imports and tonnage, internal duties, direct tax, public lands, postage, and incidental receipts, during the year 1815, amounted to

- \$49,552,852 02

## Viz:

Customs - - - $\$ 36,303,23177$
Internal duties - - - - 5,963,225 8S
Direct tax - - - $\quad$ - 5,723,152 25
Public lands, exclusive of those in the State of Mississippi and the Alabama Territory - - - - $\quad 1,287,95928$
Postage, and incidental receipts - - 275,282 84
And that which accrued from the same sources, during the year 1816, amounted to

- \$36,743.574 07 Viz:
Customs (see statement A) - $\quad \$ 27,569,76971$
Internal duties (see statement B) - - 4,396,133 25
Direct tax (see statement C) - - 2,785,343 20
Public lands, exclusive of those in the State of Mississippi and the Alabama Territory (see statement D) 1,754,487 38
Postage, and incidental receipts - $\quad$ 237,840 53

It is ascertained that the gross amount of duties on merchandise and tonnage, which have accrued during the first three quarters of the present year, exceed $\$ 17,000,000$; and that the revenue arising from internal duties and from the public lands, during the same period, exceeds that of the corresponding quarters of the year 1816.

The balance in the Treasury, on the 1st day of January, 1817, exclusive of $\$ 10,665,28789$ in Treasury notes of every description, amounted to

- $\$ 11,295,59286$

The payments into the Treasury, during
the first three quarters of the year, are
estimated to amount to
$\$ 27,095,98414$

Viz:
Customs - - rect tax
Public lands, exclusive of those in the State of those in the State of
Mississippi and the Alabama Territory -
ostage, and incidental Alabama Territory -
Postage, and incidental receipts
Repayments into the
$3,480,17343$ Treasury - - 530,751 13

And the payments into the Treasury during the fourth quarter, from the same sources, are estimated at - - $\$ 5,980,000$

Making the total amount estimated to be received into the
Treasury, during the year 1817, amount to

- \$33,075,984 14

Which added to the sum in the Treasury on the 1st day of
January last, makes the aggregate amount of -
$44,371,57700$
The application of this sum for the year 1817, is esti-
mated as follows, viz:
To the 30th September the payments have amounted to - - - $\$ 32,710,00288$

Viz:
Civil, diplomatic, and miscellanous expenses, exclusive of $\$ 375,000$ paid to the State of Georgia from the proceeds of the Mississippi lands - - - \$2,798,248 75
Militaryservice, including arrearages . - 7,105,816 90
Navalservice - $\quad 2,044,47425$
Public debt, exclusive of $\$ 3,592,927$ 60, of Treasury notes, which have been cancelled in due course of settlement - 20,761,462 98

During the fourth quarter it is estimated
that the payments will amount to - 5,660,000 00 Viz:
Civil, diplomatic, andmis-
cellaneous expenses - $\$ 600,000$
Military service - - $1,110,000$
Naval service - - 1,300,000
Public debt to 1st January,
1818 , inclusive $\quad 2,650,000$
Making the aggregate amount of - . . 38,370,002 88

And leaving on that day, exclusive of $\$ 8,682,69770$ in Treasury notes, which are in a train of settlement in order to be cancelled, a balance in the Tresury of

[^0]
## OF THE PUBIIC DEBT.

The funded debt contracted before the year 1812, which was unredeemed on the 1st day of October, 1816, as appears by statement No. 1 , amounted to $\$ 37,494,26701$
By the same statement it appears that the
funded debt contracted subsequent to the 1st day of January, 1812, amounted to - $\quad$ - $\quad$ - 71,201,551 28

Making together the sum of $\quad-\quad-108,695,81829$
To which must be added the temporary loan from the Cumberland Bank, of -

50,00000
Making the aggregate amount of - $\$ 108,745,81829$

On the 1st day of January, 1817, there was added to the above amount, including $\$ 7,000,000$ of five per cent. stock subscribed to the bank, and including also a temporary loan from the bank, of $\$ 500,000$, the sum of -
$\$ 7,877,47161$
From which deduct the amount of the old six per cent. and deferred stocks reimbursed between the 1st day of October and the 1st day of January, 1817, inclusive, amounting to

815,484 42
Leaving the sum of - $\quad$ - $\quad$ - $\quad$ 7,061,987 19
Making the public debt which was unredeemed on the 1st day of January, 1817, as appears by statement No. 2, amount to
$115,807,80548$
From the 1st day of January to the 30th day of September, 1817, inclusive, there was, by funding Treasury notes, added to the public debt, as appears by statement No. 6, the amount of

1,097,315 43
Making on that day, as appears by statement No. 4, the aggregate amount of
$116,905,12091$
During the same period there was purchased and redcemed
of the public debt, including $\$ 550,000$ of temporary loans, the sum of

16,993,275 50
Which deducted from the amount of the public debt last stated, leaves unredeemed on the 1st day of October, 1817, as per statement No. 3 , the amount of -

Since the 30th September there has been purchased or redeemed, of the principal of the public debt, as appears by statement No. 5 , the amount of
$\$ 333,23516$
And there will be reimbursed of the principal of the old 6 per cent. and deferred stock, to the 1st day of January, 1818, inclusive, the amount of

Making together

$$
709,51370
$$

\$1,042,748 86

Which being deducted from the aggregate amount of the public debt on the 1st October, there will remain unredeemed, on the 1st January, 1818, the sum of -

$$
98,869,09655
$$

By the same statement No. 5, it appears that the principal of the public debt, purchased and redeemed during the year 1817 , including $\$ 550,000$ of temporary loans, amounts to $\$ 18,036,02372$
In this sum is included all the funded debt held by the Bank of the United States.

The old six per cent. stock will be redeemed in the course of the year 1818. The first instalment of the Louisiana debt falls due on the 21st day of October of that year. According to the terms of the convention, this debt is to be discharged by annual instalments, of not less than three millions each. It is therefore presumed, that, consistently with the letter of the convention, the whole debt cannot be discharged in one payment. But for this obstacle, in the present state of the Treasury, and under the existing provisions of the sinking fund, the whole amount of the stock might be redeemed on the 21st day of October next. It is believed that neither the letter nor spirit of the convention forbids the redemption of that stock, in two annual instalments, by which the whole debt will be redeemed on the 21st day of October, 1819.

After the redemption of the Louisiana stock, there is no part of the principal of the public debt redeemable at the will of the Government until the 1st day of January, 1825, except the 5 per cent. stock, subscribed to the Bank of the United States. As the commissioners of the sinking fund are not authorized to redeem the 5 per cent. stock, the permanent annual appropriation of $10,000,000$ of dollars, from the year 1819 to 1825 , under the existing laws, can only be applied to the payment of the interest of the public debt, and to the gradual reimbursement of the principal of the 6 per cent. deferred stock, and will leave during that period an annual surplus of nearly five millions of dollars.

During the year 1825, the exchanged six per cent. stock, the six per cent. stock of 1812 , and the stock created by funding Treasury notes, amounting together to $\$ 18,895,45623$, will be redeemable. To the redemption of the whole of this stock within that year, the sinking fund, by the aid of its surpluses, will not only be entirely adequate, but will be amply sufficient to redeem the remainder of the public debt, at the several periods at which the different stocks of which it is composed become redeemable. The whole debt, including the 5 per cent. stock, will be extinguished during the year 1830; except the 3 per cent. stock, which is not redeemable at the will of the Government.

It is not presumed that taxes will be imposed and collected, for the express purpose of purchasing the funded debt above its nominal value. It is, however, believed to be unsafe to reduce the revenue below the permanent annual expenditure, as now authorized by law, including the appropriation constituting the sinking fund. A reduction below that amount would postpone the redemption of the public debt beyond the periods when the several loans of which it is composed become redeemable, or impose upon the Legislature the duty of resorting to them anew for that object.

If, then, the revenue shall, until the year 1825, be equal to the present annual expenditure, it is respectfully suggested whether the public interest will not be promoted by authorizing the commissioners of the sinking fund to purchase the funded debt, at such rates above par, as in their judg. ment will be for the interest of the nation, rather than to suffer the annual surplus of the sinking fund to remain in the Treasury unapplied for five successive years. Should such an authority be given to the commissioners of the sinking fund, it is probable that the different species of stock would advance in price above their present current value; but as the authority would be permissive, not imposing the obligation to purchase, it is probable that the surplus of the sinking fund might be more beneficially employed in purchasing the public debt, than by remaining idle in the Treasury until the year 1825. If that surplus could be annually invested, early in each year, at the present prices of the different species of stock, it would produce a saving to the nation of not less than four millions of dollars, between the 1st days of January 1820 and 1825 . The interest which will accrue on the 5 per cent. stock, between the 1st days of January 1820 and 1825, when it is estimated the whole redeemable debt will be discharged, will amount to $\$ 3,500,000$. If, therefore, it is intended to redeem that stock, the surplus in the sinking fund may be legitimately applied to that object during the years 1820 and 1821.

By statement No. 8, it appears that the Treasury notes which have issued under the several acts of Congress on that subject have amounted to

- \$36,133,794 00

Of which there has been cancelled at the Treasury

There is now in the Treasury, which will be cancelled when settled, exclusive of $\$ 422,519$ 77, the estimated interest upon them, the amount of - - . 8,623,400

Making together the sum of - $\quad$ - $\quad$ - $\quad 35,497,83100$
Leaving outstanding an estimated balance of - 635,96300
As the outstanding Treasury notes are convertible into funded debt, which is considerably above par, it is presumed that such portion of them as are not lost or destroyed will be funded, instead of being paid into the Treasury in discharge of duties and taxes. It is therefore probable that an addition to the public debt will be made during the year 1818, nearly equal to the Treasury notes estimated to be outstanding.

Statement E presents the state of the land offices in the State of Missis-
ippi and in the Alabama Territory; from which it appears that the receipts nto the Treasury have amounted to $\$ 1,124,10081$, of which $\$ 431,120$ vere in Mississippi stock.
From the proceeds of the sales of these lands, there has been paid to the State of Georgia the sum of $\$ 688,44133$, and there has been transferred o the State by the commissioners of the United States, under the act comromising the Yazoo claims, that part of the original purchase money renaining in the State Treasury, amounting to $\$ 184,51594$; making together he sum of $\$ 872,95727$, and leaving still due to the State the sum of 5377, 942 73, which is now ready to be paid under the provisions of the act if the 3d of March last.
By statement No. 7, it appears that the Mississippi stock, awarded by the commissioners, amounts to $-\quad$ - $\quad \$ 4,278,43400$
From which deduct the amount received into the Treasury

431,120 00
leaves outstanding the sum of
$\$ 3,847,31400$
Which it is estimated will be received into the Treasury during the two ucceeding years, in payment of the public lands in the State of Mississippi nd in the Alabama Territory, or will be discharged by payments from the Treasury out of the proceeds of the sales of those lands.

## F THE ESTMMATES OF THE pUBLIC REVENUE AND EXPENDITURES FOR THE YEAR 1818.

The importation of foreign merchandise during the years 1815 and 1816 0 greatly exceeded what was presumed to be equal to the annual average onsumption, that a general impression was produced that the importations uring the present year would fall greatly below that demand. Under this mpression, the revenue accruing from that source, for the year 1817, was, in he annual report of the Treasury, of the 16th of December, 1816, estimated $\mathrm{t} 12,000,000$ of dollars. But it is ascertained that the gross revenue aris19 from that source, during the first three quarters of the year, have exeeded $17,000,000$ of dollars, and it is estimated that that of the whole year rill exceed $\$ 22,000,000$.
It is presumed that the importations from the East Indies, during the preent year, greatly exceed those which will take place during several conseutive years; and that the reaction produced by the excessive importations f 1815 and 1816 has, in some degree, been diminished by that circumstance. There is, however, just ground to believe that the revenue derived from this surce will not, for any given series of years, fall below that of the present ear. Considering that this revenue, during the year 1807, (the last year 1at our commerce was not greatly embarrassed by belligerant aggression, ) xceeded $16,000,000$ of dollars; that the duties then imposed are considrably augmented by the present tariff; and that our population has increased ore than 30 per cent., carrying with it, in the same degree, an increase of ze means of procuring foreign articles, with an undiminished relish for eir consumption; it is presumed that the revenue from that source, during se present year, will be found to be less than that of any number of succesve years.

According to these views, the permanent annual revenue may be estimated to amount to . - - - $\quad \$ 24,525,00000$ Viz.
Customs - - - - - $\$ 20,000,000$
Internal duties - - - $2,500,000$
Public lands, exclusive of the Mississippi and Alabama lands . - $\quad 1,500,000$
Bank dividends, at 7 per cent. - - 490,000
Postage, and incidental receipts - - 35,000
And the payments into the Treasury, during the year 1818, may be estimated at the same amount.

To which add the balance estimated to be in the Treasury on the 1 st day of January, 1818 - - - $\quad 6,000,00000$

Making together the sum of - - - $\$ 30,525,00000$
The probable authorized demands upon the Treasury,
during the year 1818, are estimated to amount to $\quad-\quad 21,946,35174$ Viz.
Civil, miscellaneous, diplomatic, and for-
eign intercourse - - $\quad$ - $2,069,84329$
Military service, including an arrearage
of $\$ 500,000$ - - $\quad$ - $\quad 6,265,13225$
Naval service, including $\$ 1,000,000$ for the
gradual increase oi the navy - - 3,611,37620
Public debt - $\quad$ - $\quad 10,000,00000$
Which being deducted from the amount estimated to be received into the Treasury, including the balance on the Ist of January, 1818, leaves, on the 1st of January, 1819, a balance in the Treasury of $\$ 8,578,64326$; which however, will be applied to the redemption of the Louisiana stock, under the provisions of the act for the redemption of the public debt, passed the 3d day of March, 1817, as far as those provisions will admit.

All which is respectfully submitted.
WILLIAM H. CRAWFORD.
Treasury Department, December 5, 1817.

A STATEMENT exhibiting the amount of duties which accrued on merchandise, tonnage, passports, and clearances; of debentures issued on the exportation of foreign merchandise; and of expenses of collection, during the years 1815 and 1816.
