OFAC Tightens Libya Sanctions

6/21/2011

WASHINGTON – The U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC) today took a series of actions to further tighten U.S. sanctions against the Government of Libya and lifted sanctions against a former senior Libyan Government official who has defected.

"The Treasury Department is carefully monitoring Libyan-associated entities worldwide to ensure that they are not attempting to evade sanctions and assist the Qadhafi regime," said OFAC Director Adam Szubin. "We will remain vigilant in our efforts to isolate the Qadhafi regime from the international financial system."

Imposing Blocking Requirements on Three Foreign Libyan-owned Banks

OFAC revoked General License No. 1A and issued General License No. 1B in its place to specifically exclude three banks – Arab Turkish Bank, North Africa International Bank, and North Africa Commercial Bank – from the authorizations in the license. With the exception of these three banks, General License No. 1B continues to authorize transactions involving banks that are owned or controlled by the Government of Libya and organized under the laws of a country other than Libya provided that the transactions do not otherwise benefit the Qadhafi regime or any other person whose property and interests in property are blocked.

Libyan Arab Foreign Bank subsidiaries Arab Turkish Bank, North Africa International Bank, and North Africa Commercial Bank have processed commercial transactions on behalf of or for the benefit of Libyan Arab Foreign Bank since Executive Order (E.O.) 13566 was issued on February 25, 2011. OFAC identified Libyan Arab Foreign Bank as subject to sanctions pursuant to E.O. 13566 for being owned or controlled by the Government of Libya on March 15, 2011.

Identifications of Government of Libya Entities

Also today, OFAC identified nine additional companies – including Arab Turkish Bank, North Africa International Bank and North Africa Commercial Bank – as subject to sanctions pursuant to E.O. 13566 for being owned or controlled by the Government of Libya.

E.O. 13566 blocks all property and interests in property of the Government of Libya and its agencies, instrumentalities and controlled entities within U.S. jurisdiction, whether specifically identified by OFAC or not. U.S. persons are generally prohibited from engaging in any transactions involving a Libyan state-owned entity or in which any Libyan state-owned entity has an interest, absent authorization from OFAC. To assist U.S. persons and others in identifying Libyan state-owned entities, Treasury today identified the following nine entities as being owned or controlled by the Government of Libya:

- **Arab Turkish Bank:** a joint-venture between Arab and Turkish shareholders, established pursuant to an August 11, 1975 agreement between Libya and Turkey. The Libyan Arab Foreign Bank owns 62.37 percent of Arab Turkish Bank's shares. Turkish shareholders own 36.01 percent of the bank's shares while the Kuwait Investment Company owns 1.62 percent of its shares.
- **North Africa International Bank:** a Tunisia-based bank that is 50 percent owned by the Libyan Arab Foreign Bank. The remainder 50 percent is owned by the Government of Tunisia and Tunisia's Caisse Nationale de Sécurité Sociale (Social Security Fund Agency).
- **North Africa Commercial Bank:** a Lebanon-based bank that is 99.54 percent owned by the Libyan Arab Foreign Bank.
- **General Company for Chemical Industries:** a Libya-based, state-owned company responsible to the Secretariat (Ministry) of Economy and Trade.
- **General National Maritime Transport Company:** wholly-owned by the Government of Libya, responsible to the Secretariat of Communication and Maritime Transport. General National Maritime Transport Company owns a number of major vessels, including tankers and undertakes a number of maritime transportation activities on behalf of the Government of Libya.
- **Ghana Libya Arab Holding Company:** a Ghana-based entity that is 60 percent owned by the Libyan Arab African Investment Company (LAAICO), a subsidiary of the Libyan Investment Authority (LIA). Both LAAICO and LIA were identified by OFAC in March 2011, as being owned or controlled by the Government of Libya. The remaining 40 percent of Ghana Libya Arab Holding Company's shares are owned by the Government of Ghana.
- **Glahco Hotels And Tourism Development Company Limited (Golden Tulip Accra):** a Ghana-based subsidiary of the Ghana Libya Arab Holding Company that is 60 percent owned by the LAAICO, a subsidiary of the LIA.
- **Libyan Norwegian Fertiliser Company:** a Libya-based chemical company that is 25 percent owned by the National Oil Corporation of Libya (NOC), 25 percent owned by the LIA and 50 percent owned by a Norwegian chemical company. NOC was also identified by OFAC as being owned or controlled by the Government of Libya in March 2011.
- **Pak-Libya Holding Company:** a Pakistan-based entity that is 50 percent owned by LAFICO, a subsidiary of the LIA. The Government of Pakistan owns the remaining 50 percent of Pak-Libya Holding Company's shares.

Lifting of Sanctions Against Former Libyan Oil Minister

OFAC removed sanctions against Libya's former Oil Minister and former Chairman of the National Oil Corporation of Libya, Shukri Mohammed Ghanem. Shukri Ghanem defected from the Qadhafi regime in May 2011.

"Our sanctions are intended to prevent harm and change behavior," continued Director Szubin. "To the extent that sanctioned individuals distance themselves from the Qadhafi regime, these measures can be lifted."
