9/27/2011

WASHINGTON -- The U.S. Department of the Treasury announced today that it priced a secondary public offering of 6,008,902 warrants to purchase the common stock of SunTrust Banks, Inc. (the "Company") (the "A Warrants") at \$2.70 per warrant and a secondary public offering of 11,891,280 warrants to purchase the common stock of the Company (the "B Warrants") at \$1.20 per warrant. The aggregate net proceeds to Treasury from the offerings are expected to be approximately \$30,066,661. These proceeds provide an additional return to the American taxpayer from Treasury's investment in the Company beyond the dividend payments it received on the related preferred stock.

The closings are expected to occur on or about September 28, 2011, subject to customary closing conditions. The offerings were priced through a modified Dutch auction. Deutsche Bank Securities Inc. is the sole book-running manager and Lebenthal & Co., LLC is the co-manager for the offerings. These offerings represent Treasury's sale of its remaining investment in the Company.

The warrants were offered pursuant to an effective shelf registration statement that was filed by the Company with the Securities and Exchange Commission (the "SEC"). Preliminary prospectus supplements relating to the offering were filed with the SEC on September 21, 2011, and final prospectus supplements will be filed by the Company with the SEC and will be available on the SEC's website at <http://www.sec.gov>.
