

AMENDMENTS TO AND REVISIONS IN BUDGET AUTHORITY FOR 1996

(Between the Transmittal of the 1996 and 1997 Budgets)

A statement of all amendments to or revisions in budget authority requested between transmittal of the 1996 budget and the 1997 budget is presented below. This statement is being included in the budget in accordance with the Congressional Budget Act of 1974 (31 U.S.C. 1105(d)).

The modifications to requests for 1996 budget authority that were made through the course of the past year took four forms. If the Congress had not yet acted on a pending request, the President sent amendments to the budget requests transmitted on February 6, 1995. If appropriations had been enacted, the President proposed either supplemental budget authority or rescission of enacted appropriations. In addition, the President made available certain emergency ap-

propriations. The availability of these funds was made contingent upon the President submitting a budget request to the Congress and designating the amounts requested as an emergency requirement.

Amendments, requests for supplemental appropriations, and releases of contingent emergency funds are printed in the documents of the House of Representatives and the Senate that are identified on the following listing. The President's proposals for rescissions are included in special messages to the Congress under the Impoundment Control Act of 1974 (Public Law 93-344). Both the special messages and monthly cumulative reports on the items covered by special messages are printed in the *Federal Register*.
