## APPENDIX TO

## THE BUDGET <br> OF THE

## UNITED STATES GOVERNMENT

## FOR THE FISCAL YEAR <br> ENDING JUNE 30 <br> 1961

## DETAIL OF PERSONAL SERVICES

UNITED STATES
GOVERNMENT PRINTING OFFICE WASHINGTON : 1960

## INTRODUCTION

This appendix to the budget of the United States consists of schedules showing details of the personal services which are reflected in the budget. These schedules are furnished to the Congress in accordance with the provisions of section 204 of the Budget and Accounting Act, 1921 (31 U.S.C. 581 ).
Positions of a permanent or indefinite duration are distinguished from other employment. Any position is counted if it is occupied or will be occupied at any time during the year. Therefore, the number of positions shown may exceed the maximum number of positions at any one time, and nearly always exceeds the maximum number of employees at any one time, due to delays in filling vacancies, leave without pay, and similar factors.
Grades and their respective salary range are reflected in the stub column; the most commonly used grade series, the general schedule grades, is abbreviated "GS-...." Titles are shown for positions with a base rate of $\$ 9,890$ or above. Salaries are reported at the rate effective for the greater part of the year. Since within-grade salary
advancements occur at various times during the year, the rates shown will not be exactly equal to the compensation earned, but the difference is taken up in the "Deduct lapses' line. That line also covers savings due to vacancies, etc., offset in part by terminal annual leave payments.

Separate entries cover employment in positions other than permanent (temporary and intermittent employment). Other personal service obligations are also detailed. Because most annual salaries are by law the rate for 52 weeks, an additional entry covers the extra earnings whenever there are regular workdays above the 52 -week base. For employees with a Monday-through-Friday workweek, there was 1 extra day in 1959, and there will be 2 extra days in 1960 and 1 extra day in 1961.

The final amounts in the schedules in this appendix agree with the entry for total personal services on the object schedules in the budget. In cases where a consolidated schedule in the appendix contains personal services which are reflected in two or more object schedules, a distribution by account title follows the total line.
