This revolving fund, established pursuant to the Veterans Health Care Amendments of 1979, Public Law 96-22, approved September 30, 1979, provided a mechanism for collecting funds from employees to operate medical employee parking facilities. Since collections have been discontinued, the revolving fund has been dissolved. The maintenance, improvements, and operating expenses of these parking facilities will be funded from the Medical care and construction accounts.

LOAN GUARANTY REVOLVING FUND

During [1984] 1985, the Loan guaranty revolving fund shall be available for expenses for property acquisitions, payment of participation sales insufficiencies, and other loan guaranty and insurance operations, as authorized by law (38 U.S.C. chapter 37, except administrative expenses, as authorized by section 1824 of such title); *Provided*, That the unobligated balances, including retained earnings of the Direct loan revolving fund, shall be available, during [1984] 1985, for transfer to the Loan guaranty revolving fund in such amounts as may be necessary to provide for the timely payment of obligations of such fund, and the Administrator of Veterans Affairs shall not be required to pay interest on amounts so transferred after the time of such transfer.

During [1984] 1985, with the resources available, gross obligations for direct loans and total commitments to guarantee loans are authorized in such amounts as may be necessary to carry out the purposes of the "Loan guaranty revolving fund". The purpose of the VA home loan guaranty program is to facilitate the extension of mortgage credit on favorable terms by private lenders to eligible veterans. In the event of foreclosure, the Federal guaranty protects lenders against losses up to a maximum of the lesser of 60% of the mortgage amount or \$27,500.

Budget program—1. Real property acquisitions.—In the past, VA fulfilled its responsibilities as guarantor, in most cases, by acquiring and reselling properties in foreclosure. Effective March 1, 1984, VA will pay the lender's claim in accordance with the terms of the guaranty.

Financing.—Receipts from vendee loan sales of \$420 million (66% of collections) in 1984 represent the largest source of funding. As a result of not acquiring properties and fewer vendee loan sales during 1985, it is expected that collections will be \$157 million less than 1984. The larger discount resulting from selling loan assets without recourse is expected to be offset by savings from not having to repurchase defaulted loans after they are sold.

Budget program—1. Direct loans to veterans.—Direct loans are made to certain totally disabled veterans to supplement grants authorized to assist the veteran in acquiring suitable housing units, with special features made necessary by the nature of their disabilities.

In 1985, 25 direct loans in the amount of \$780 thousand are expected to be closed.

	1983 actual	1984 estimate	1985 estimate
Loans approved:			
Number	23	26	26
Average per loan	\$28,739	\$32,307	\$32,500
Amount (in thousands)	\$661	\$840	\$845
Loans closed:			
Number	19	25	25
Average per loan	\$28,737	\$31,000	\$31,200
Amount (in thousands)	\$546	\$775	\$780

2. Cash advances-vendee loans.—Small cash advances are occasionally made to borrowers to cover taxes, hazard insurance and necessary repairs. These amounts are added to the current loan balance.

	1983 actual	1984 estimate	1985 estimate
Cash advances (in thousands)	\$1,251	\$1,022	\$1,028

3. Property improvements.

This fund finances the payment of claims on nonparticipating life insurance policies issued and currently is open for new issues to veterans having service-connected disabilities. The program provides insurance coverage for service-disabled veterans at standard rates. Administrative expenses are paid from the General operating expenses appropriation.

Operating costs—(1) *Death claims*.—Represents payments to designated beneficiaries.

(2) *All other*.—Represents payments to policyholders who surrender their policies for their cash value and hold endowment policies which have matured.

Capital investment.—A policyholder may borrow up to 94% of the value of his policy.

The trend in the number and amount of policies in force is indicated in the following table (dollars in thousands):

	1983 actual	1984 estimate	1985 estimate
Number of policies.....	190,562	189,127	187,712
Insurance in force.....	\$1,727,590	\$1,711,935	\$1,700,662

Financing.—Operations are financed from premiums and other receipts. Additional funds are received by transfer from the Veterans insurance and indemnities appropriation, instead of direct appropriations to this fund.

Operating results and financial condition.—Since premium and other receipts are insufficient to cover operations, the fund continues to project liabilities in excess of assets. The deficit is expected to reach an estimated \$201 million by September 30, 1985.

This fund pays claims and administrative costs on participating life insurance policies issued during the period May 1, 1965, through May 2, 1966, under three life insurance programs: (1) service-disabled standard insurance, (2) service-disabled rated insurance, and (3) nonservice disabled insurance availing disabled World War II and Korean conflict veterans an opportunity to acquire life insurance coverage who were no longer eligible for other Government insurance.

Budget program—1. Death claims.—Represents payments to designated beneficiaries.

2. Dividends.—Policyholders participate in the distribution of annual dividends.

3. All other.—This represents payments to the General operating expenses appropriation for the administrative costs of processing claims and maintaining the accounts, and to those policyholders who: (a) surrender their policies for cash value; (b) hold endowment policies which have matured; and (c) have purchased total disability income coverage and subsequently become disabled.

4. Policy loans made.—A policyholder may borrow up to 94% of the cash value of his policy at an interest rate adjusted to reflect private sector borrowing costs.

The following table reflects the decrease in the number of policies and the amount of insurance in force (dollars in thousands):

	1983 actual	1984 estimate	1985 estimate

Insurance in force.....	\$1,075,883	\$1,049,698	\$986,130

Financing.—Operations are financed from premiums collected from policyholders and interest on investments. Excess earnings of the fund are now distributed to the policyholders in the form of an annual dividend.

Legislation will be requested to repeal the authority permitting the Veterans Administration to make education loans, effective October 1, 1985. The VA Education Loan Program has experienced excessively high default rates. Congress has previously acted to repeal loans available to most veterans. Full repeal of this program would reduce a source of continuing overpayments.

This fund provides loans up to \$564 to veterans enrolled in a program of vocational rehabilitation who are temporarily in need of additional funds to meet expenses.

Budget program.—Interest-free direct loans are granted to veterans in vocational rehabilitation training. The loans are repaid over a period of 10 months by offset from benefit payments.

Financing.—With initial capitalization through an appropriation, the fund is financed solely by repayments. Administrative expenses are borne by the general operating expenses appropriation.

This revolving fund, established pursuant to the Veterans Omnibus Health Care Act of 1976, Public Law 94-581, provides a mechanism for the furnishing of rehabilitative services to certain veteran beneficiaries who are receiving medical care and treatment from the Veterans Administration.

Funds to operate the various rehabilitative activities and provide for the therapeutic work for remuneration for patients and members in Veterans Administration health care facilities are derived from contractual arrangements with private industry or nonprofit entities. This is a self-sustaining fund, and therefore no appropriation is required to support these activities.

Under the provisions of 38 U.S.C. 5021, the Supply fund finances on a reimbursable basis the cost of warehouse inventories at depots and field stations and selected items of equipment procured centrally. It also finances, on the same basis, items and services to other Federal agencies who either request or are assigned to the Veterans Administration for support by the Office of Federal Procurement Policy.

Budget program.—The fund provides financial support for: (1) maintenance of depot and field station inventories; (2) maintenance and operation of three supply depots; (3) operation of a service and reclamation program operating out of the supply depots; (4) centralized periodical procurement and library cataloging; (5) a marketing center or central buying office; and (6) a publications depot that provides forms for VA installations on a centralized basis.

The Supply fund does not finance costs for the operation and administration of supply activities at VA field stations. These costs are charged directly to applicable appropriations. The fund has been adjusted to reflect the Government-wide management initiative of closing printing plants.

Financing.—Costs of supplies, equipment, and services acquired through the Supply fund and Supply fund operating costs are recovered through reimbursements from the VA appropriations and other Government agencies receiving goods and services. For 1985 Supply fund sales are estimated to reach \$735 million. Average inventory needed to support those sales will be \$120 million.

Operating results.—The fund operated at a profit of \$2.5 million in 1983. The new total of retained earnings is \$42.7 million, which has been used to finance inventory growth. Operating expense as related to sales was 5%.

This account consists of voluntary contributions by eligible servicepersons and matching contributions provided by the Department of Defense. The fund provides educational assistance payments to participants who entered the service after December 31, 1976, and are pursuing training under chapter 32, title 38, U.S.C. Public Law 96-342, the Department of Defense Authorization Act, 1981, included two new educational assistance programs for certain individuals who enlisted or reenlisted in the Army, Navy, Air Force or Marine Corps after September 30, 1980 and before October 1, 1981. Section 901 of that act is a non-contributory program with educational assistance provided by the Department of Defense. Section 903 authorizes the Department of Defense to make the monthly contributions for certain post-Vietnam era participants. During 1983, this account was also used to record the transactions of the Reinstated Entitlement Program for Survivors, as authorized by Public Law 97-377. For 1984 and 1985, this program has been separately presented. The estimated activity in the fund follows:

This fund is operated on a commercial basis to the extent possible except that administrative expenses are charged to the General operating expenses account.

The income of the fund is derived from premium receipts, interest on investments, and payments which are made to the fund from the Veterans insurance and indemnities appropriation.

Assets of the fund, which are largely invested in special Treasury interest-bearing securities and in policy loans, are expected to increase from \$10,354 million as of September 30, 1984 to \$10,564 million as of September 30, 1985. The actuarial estimate of policy obligations as of September 30, 1984, totals \$10,278 million, leaving a balance of \$76 million for contingency reserves.

The fund is operated on a commercial basis to the extent possible except that administrative expenses are charged to the General operating expenses account.

The income of the fund is derived from interest on investments, premiums, and payments from the Veterans insurance and indemnities appropriation. Effective January 1, 1983, premiums were discontinued since reserves held in the fund were adequate to meet future liabilities of the program.

Assets of the fund, which are largely invested in interest-bearing securities and policy loans, are estimated to decrease from \$328 million as of September 30, 1984, to \$295 million as of September 30, 1985, as an increasing number of policies mature through death or disability. The actuarial evaluation of policy obligations as of September 30, 1984, total \$322 million, leaving a balance of \$6 million for contingency reserves.

This fund finances the payment of claims on life insurance policies issued before January 3, 1957, to veterans who served in the Armed Forces subsequent to April 1, 1951. No new policies can be issued. Policyholders may elect to purchase total disability income coverage with the payment of additional premiums.

Budget program—1. Death claims.—Represents payments to designated beneficiaries.

2. Cash surrenders.—A policyholder may terminate his or her insurance by cashing in the policy for its cash value.

3. Dividends.—Policyholders participate in the distribution of annual dividends.

4. All other.—Classified in this category are payments to policyholders who: (a) hold endowment policies which have matured; (b) have purchased total disability income coverage and subsequently become disabled; and (c) are paid interest on dividend credits and deposits.

The following table reflects the decrease in the number of policies and the amounts of insurance in force (in thousands of dollars):

	1983 actual	1984 estimate	1985 estimate
Number of policies.....	476,973	411,758	384,958
Insurance in force.....	\$4,205,074	\$3,630,341	\$3,403,190

Financing.—Payments from this fund are financed primarily from premium receipts and interest on investments.

Operating results and financial condition.—Favorable mortality experience on insurance written against this fund has kept death claim payments well below the amount of premium and interest receipts, thereby producing an annual increase in the total revenue of the

fund. Excess earnings of the fund are now distributed to the policyholders in the form of an annual dividend.

ADMINISTRATIVE PROVISIONS

Not to exceed 5 per centum of any appropriation for [1984] 1985 for "Compensation and pensions", "Readjustment benefits", and "Veterans insurance and indemnities" may be transferred to any other of the mentioned appropriations, but not to exceed 10 per centum of the appropriations so augmented.

Appropriations available to the Veterans Administration for [1984] 1985 for salaries and expenses shall be available for services as authorized by 5 U.S.C. 3109.

No part of the appropriations in this Act for the Veterans Administration (except the appropriations for "Construction, major projects" and "Construction, minor projects") shall be available for the purchase of any site for or toward the construction of any new hospital or home.

No part of the foregoing appropriations shall be available for hospitalization or examination of any persons except beneficiaries entitled under the laws bestowing such benefits to veterans, unless reimbursement of cost is made to the appropriation at such rates as may be fixed by the Administrator of Veterans Affairs. (*Department of Housing and Urban Development-Independent Agencies Appropriation Act, 1984.*)

OTHER INDEPENDENT AGENCIES

ACTION

ACTION, a Federal agency for domestic volunteer service, administers a number of volunteer programs including the Foster Grandparent program, the Senior Companion program, the Retired Senior Volunteer program, the Young Volunteers in ACTION program, service-learning programs, citizen participation and volunteer demonstration programs, the Vietnam Veterans Leadership program, and Volunteers in Service to America.

1. *Volunteers in Service to America.*—The service learning programs will assist secondary and post-secondary educational institutions to establish and maintain service learning activities for both students and their communities. The Young Volunteers in ACTION program expands the use of student volunteers in poverty-related problem areas. Phase-out of the VISTA program will be completed during 1985.

2. *Citizen participation and volunteer demonstration programs.*—These programs stimulate and encourage volunteer services and provide community groups with small grants for project impetus and assistance. In 1984, these grants will aid the expansion of private volunteer activities and programs for drug abuse pre-

vention, illiteracy, and the problems of runaway youth. The Vietnam Veterans Leadership program, which supports the efforts of Vietnam veterans to help other veterans of the Vietnam war with problems arising from their military service, will end its federally-supported phase at the end of 1984.

3. *Older American volunteer programs.*—These programs provide opportunities for people aged 60 and over to volunteer their services to the community by working with the emotionally disturbed, the mentally retarded and physically handicapped, the infirm, and the isolated elderly. In 1985, approximately 18,350 Foster Grandparent volunteers will serve about 63,000 children. Emphasis will be on preventing institutionalization of children and on returning children to communities. The Retired Senior Volunteer program will support 368,000 part-time volunteers providing service in the areas of health, nutrition, education, the problems of troubled youth, refugee assistance, crime prevention, and other community services. Approximately 4,400 volunteers in the Senior Companion program will provide long-term care services to about 15,300 frail and elderly Americans.

4. *Program support.*—Costs of program direction and administration are financed by this activity.

The Conference assists the President, the Congress, and the Federal departments and agencies in improving administrative procedure. It conducts studies of the efficiency, adequacy, and fairness of the procedures that the agencies and departments use to determine the rights, privileges, and obligations of private persons. The Conference issues formal recommendations for improvements and then encourages their implementation.

In addition to its research activities, the Conference also arranges for the interchange among administrative agencies of information useful in improving administrative procedure and, on an ongoing basis, furnishes assistance and advice on matters of administrative procedure to the agencies, Congress, and others.

The Conference receives funds from other Federal agencies for special projects carried out by the Conference pursuant to agreements with these agencies.

The Advisory Committee on Federal Pay was appointed in accordance with the Federal Pay Comparability Act of 1970. The Committee assists the President in carrying out the policy of comparability in pay between major Federal statutory pay systems and private enterprise. The Committee reviews the annual report of the President's pay agent and considers the recommendations of representatives of Federal employees and other officials of the Federal Government. The Committee then prepares for the President an independent report with its findings and recommendations.

The Committee meets jointly throughout the year with the President's pay agent and the Federal Employees Pay Council in an attempt to reach early resolution of issues between them. It provides advisory opinions on unresolved issues.

The Architectural and Transportation Barriers Compliance Board was established by Section 502 of the Rehabilitation Act of 1973 to ensure compliance with the Architectural Barriers Act of 1968. Its primary role is to carry out a compliance program to ensure accessibility and usability of most Federal and Federally-funded buildings by physically handicapped persons. In 1985, the Board will continue to process, investigate, and resolve complaints of noncompliance. Emphasis is on voluntary, amicable resolution of access issues.

Comparable amounts for 1983 (\$22,600 thousand), 1984 (\$19,660 thousand) and for the 1st quarter of 1985 (\$5,065 thousand) are included above.

On December 31, 1984, the Board will sunset with most functions continuing and transferring to other Federal agencies.

The above request provides funds through the sunset of the Board at the end of the first quarter of fiscal 1985, and transfers unexpended funds on January 1, 1985, to agencies receiving Board personnel to continue transferring functions. Most functions and associated personnel will transfer to the Department of Transportation in an account in the Office of the Secretary of Transportation entitled "Activities Transferred from Civil Aeronautics Board." Some functions also will transfer to the Department of Justice, Federal Trade Commission, and U.S. Postal Service. The amounts of budget authority and personnel resources shown transferring in this budget at the date of sunset reflect estimates of the actual resources that will be transferred.

The Board's functions by program area are as follow:

1. *Community air service.*—This program ensures essential air service, with subsidy, if necessary, to domestic communities that may have difficulty retaining air service during the transition to a deregulated environment. Fitness for domestic carriers not performing essential air service and other functions related to domestic operations, such as insurance monitoring, are also included in this activity.

2. *International air service.*—In 1985, this program will continue to support the Board's role in the development of U.S. international aviation policies as it participates in negotiations with foreign partners. The Board is the only Federal agency responsible for implementation and execution of U.S. international aviation policy by its authority to regulate routes and prices in international markets, process applications for operating authority by U.S. carriers and foreign air carriers, and protect U.S. carriers from discriminatory and unfair competitive practices of foreign governments or carriers.

3. *Information management.*—This program provides a consistent and comprehensive air carrier financial and statistical data base which directly supports the Board's international, essential air service, and other major programs. These aviation data bases are also used extensively by DOT and other Federal agencies, the aviation industry, and State and local governments and authorities.

4. *Antitrust.*—The activities in this program assure that both domestic and international air transportation remain competitive. The Board exercises authority over mergers and acquisitions, interlocking relationships, unfair methods of competition, agreements, and provides antitrust immunity to secure important public benefits or meet a serious transportation need.

5. *Consumer and employee protection.*—The purpose of the consumer program is to assist and educate consumers in their dealings with the air transportation industry, and protect their rights under law by enforcement actions, if necessary. The employee protection aspect of this program stems from the ADA, and requires the Board to identify major contractions in airline employment and to determine if these contractions are "qualifying dislocations."

The Board will continue to administer only the section 419 subsidy program, which was added as part of the Airline Deregulation Act of 1978. Compensation under this program is paid to airlines—primarily commuter carriers—selected by the Board to provide a guaranteed level of air service to certain eligible communities. This subsidy is designed to meet the specific service needs of each community, as detailed in its Essential Air Service determination. Hold-in subsidy is paid to incumbent carriers desiring to leave a market but forced to continue providing service for 30-day periods until a replacement carrier is selected. Normal subsidy is the longer-term compensation paid to a replacement carrier chosen by the Board on the basis of the carrier's proposal to provide a community with the level of service specified in the community's Essential Air Service determination. At the date of sunset of the Board, January 1, 1985, this activity will transfer to the account "Activities transferred from Civil Aeronautics Board" in the Office of the Secretary of Transportation.

The Committee for Purchase from the Blind and Other Severely Handicapped was established by the

Wagner-O'Day Act of 1938, as amended. Its primary objective is to increase the employment opportunities for the blind and other severely handicapped and, whenever possible, to prepare them to engage in normal competitive employment. In 1985, 52,800 blind and handicapped individuals are projected to be employed in 315 producing workshops. The committee determines which commodities and services are suitable for Government procurement from qualified nonprofit agencies serving the blind and other severely handicapped; publishes a procurement list of such commodities and services; determines the fair market price for commodities and services on the procurement list; and, makes rules and regulations necessary to carry out the purposes of the Act. The committee proposes to have 1,910 items on its procurement list, for an estimated workshop sale of \$232 million to the Federal Government.

The committee staff supervises the selection and assignment of new commodities and services, assists in establishing prices, reviews and adjusts these prices, verifies the qualifications of workshops, and monitors their performance.

The Commodity Futures Trading Commission (CFTC) administers the Commodity Exchange Act of 1936, as amended. The purpose of the CFTC is to further the economic utility of the futures markets by encouraging their efficiency, assuring their integrity, and protecting participants against abusive trade practices, fraud, and deceit. The object of commodity futures trading regulation is to enable the markets to better serve their designated functions of providing a price discovery mechanism and a means of offsetting price risk. By properly serving these functions, the futures markets serve the public interest by contributing toward better planning, more efficient distribution and consumption, and more economical marketing.

1. *Market surveillance.*—Responsibilities under this program include daily surveillance of the market activity of large individual traders and fundamental economic market factors to insure orderly markets. The longer term activities of surveillance concentrate on the review of contract terms and conditions to insure conformity with current cash marketing conditions and adequate deliverable supplies. In 1985, efforts will be made to ease the burden of increased market activity due to a rapidly diversifying marketplace and a rising number of active contracts.

of markets and market users; to develop better tools to assist in detecting and preventing price distortions; and to develop and disseminate educational and statistical materials regarding futures trading. In 1985, in addition to basic analytical support, the program must focus on the commercial utility, pricing efficiency and effect of options markets on futures markets.

3. *Registration, audits, and contract markets.*—In 1985, this program will continue to prevent misuse of customers' funds by futures commission merchants; to assure that the rules and practices of the contract markets are in compliance with the provisions of the Commodity Exchange Act and the rules of the Commission; and to begin shifting to an oversight role of the National Futures Association's registration of individuals and firms under provisions of the act.

4. *Enforcement.*—The enforcement program is responsible for detecting, investigating and litigating violations of the Act or regulations. These violations may include actual and attempted market manipulations, cheating and defrauding customers, and abusive trading practices such as fictitious trading, wash trading and pre-arranged trading. This program may seek redress through the administrative process or by injunctive actions in the Federal Courts. Increases in 1985 will meet the challenge of expanding markets and regulatory requirements as well as broaden investigative and litigative capabilities to allow more complete support of criminal prosecutions. Enforcement will be a high priority in 1985.

The 1974 amendments to the act provide for the handling of customer's reparation claims for damages against persons registered with the Commission.

Product safety and enforcement.—The Commission addresses a number of product safety areas. These include fire and thermal burn hazards, electrical hazards, acute and chronic chemical hazards, children's and recreational product hazards, power equipment hazards, and household structural products hazards. In each program area, the Commission undertakes a wide spectrum of activities, including data collection, voluntary and mandatory standard development, enforcement, and information dissemination.

The appropriation for the Corporation for Public Broadcasting is authorized two years in advance. While Congress appropriated \$130 million for 1986, the Administration is seeking a rescission of \$20 million, resulting in a total appropriation of \$110 million. The Administration is also requesting an appropriation of \$100 million for 1987. These requests underscore the importance of encouraging user and private support for the public broadcasting industry, thus allowing for the continued reduction of Federal support.

Under current authorizing legislation, the Corporation for Public Broadcasting has two major activities: (1) direct payments to public television and radio stations to be used at their discretion for purposes related primarily to program production or acquisition; and (2) support for the production and acquisition of radio and television programs for national distribution. In addition, the Corporation assists in the financing of several system-wide activities, including national satellite interconnection services and the payment of music royalty fees, and provides limited technical assistance, research, and planning services to improve system-wide capacity and performance.

Legislation will be proposed to amend the District of Columbia Self-Government and Governmental Reorganization Act of 1973 (Public Law 93-198), as amended, to authorize \$425.0 million as the 1985 payment by the United States toward defraying expenses of the government of the District of Columbia. Discussions are occurring between the administration and the District of Columbia government designed to produce a formula Federal payment. This appropriation also includes a payment of \$24.1 million for water, water services, and sanitary sewer services rendered to Federal facilities by the District of Columbia during 1985 (act of May 18, 1954, as amended). This appropriation also includes a contribution of \$52.1 million which represents the Federal share of payments to District of Columbia retirement funds for police officers, fire fighters, teachers and judges (act of November 17, 1979). Finally, this appropriation includes a payment of \$2.3 million for expenses expected to be incurred by the District of Columbia in connection with 1985 Presidential inauguration activities (Public Law 93-198, as amended).

The Self-Government Act authorized the District of Columbia to issue tax-exempt general obligation bonds to finance capital improvements projects. To prevent undue disruption during the development of the District's bond issuance program, the Self-Government Act provided interim authority under which the District could borrow from the U.S. Treasury to finance capital projects for which funds had already been authorized or appropriated and to finance the District's share of the cost of the adopted regional transportation system specified in the National Capital Transportation Act of 1969.

In the 1984 budget, the District received one year transitional borrowing authority to assist the District in switching its source of borrowing from the U.S. Treasury to the private market. The 1985 budget anticipates the successful entry of the city into the private capital market. Therefore, no additional authority is requested in 1985. However, if the District encounters further difficulties in borrowing at reasonable rates to finance projects already under construction in 1983, then further transitional borrowing authority may be made available to the District during 1985 upon an appropriate showing that it was unable to enter the capital market at reasonable rates

The following table shows the status of general fund capital projects loans authorizations on a cumulative basis:

The Equal Employment Opportunity Commission (EEOC) is the Federal agency responsible for enforcement of; the Age Discrimination in Employment Act of 1967; title VII of the Civil Rights Act of 1964; the Equal Pay Act of 1963; and, in the Federal sector only, section 501 of the Rehabilitation Act of 1963. These acts prohibit employment discrimination based on race, sex, religion, national origin, age, or handicap status. The Equal Employment Opportunity Commission is also responsible for carrying out Executive Order 12067 which promotes coordination and minimizes conflict and duplication among Federal agencies which administer statutes or regulations involving employment discrimination.

EXPORT-IMPORT BANK OF THE UNITED STATES

Federal Funds

Public enterprise funds:

EXPORT-IMPORT BANK OF THE UNITED STATES

Export-Import Bank of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 104 of the Government Corporation Control Act, as may be necessary in carrying out the program set forth in the budget for the current fiscal year for such corporation: Provided, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country other than a nuclear weapon State as defined in Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act that has detonated a nuclear explosive after the date of enactment of this Act.

LIMITATION ON PROGRAM ACTIVITY

During fiscal year 1985 and within the resources and authority available, gross obligations for the principal amount of direct loans shall not exceed \$3,830,000,000. During fiscal year 1985, commitments to guarantee loans may be made only to the extent that the total loan

principal, any part of which is to be guaranteed, shall not exceed \$10,000,000,000. (The Export-Import Bank Act of 1945, as amended.)

Note.—A regular 1984 appropriation for this account had not been enacted at the time this budget was prepared. A continuing resolution (Public Law 98-151) provides funds through September 30, 1984.

The purpose of the Export-Import Bank is to aid in financing and to facilitate U.S. exports.

To accomplish its objectives, the Bank's authority and resources are used to: assume commercial and political risks that exporters or private institutions are unwilling or unable to undertake; overcome maturity and other limitations in private sector export financing; assist U.S. exporters to meet foreign officially sponsored export credit competition; and provide leadership and guidance in export financing to the U.S. exporting and banking communities and to foreign borrowers. The bank is also taking a more active role in assisting small- and medium-sized businesses increase their exports through a new effort to improve their awareness of the Bank's programs.

A limitation of \$3.83 billion for direct loans and of \$10.0 billion for loan guarantees is proposed for 1985.

The Administration supervises a coordinated agricultural credit system of farm credit banks and associations which make credit available to farmers and their cooperatives.

Assessments based upon estimated administrative expenses are collected from agencies in the farm credit system and are available for administrative expenses. Obligations are incurred within fiscal year budgets approved by the Federal Farm Credit Board.

Supervision and examination of farm credit banks and associations.—Provision is made for supervision and examination of: 12 Federal land banks; 13 banks for cooperatives; 12 Federal intermediate credit banks; 469 Federal land bank associations; and 414 production credit associations. Also, these credit agencies are furnished such services as assistance in financing and investments, credit analysis, development of appraisal standards and policies, preparation of reports and budgets, and development and distribution of information on farm credit.

FEDERAL DEPOSIT INSURANCE CORPORATION

The Federal Deposit Insurance Corporation was created by the Banking Act of 1933 to provide protection for bank depositors and to foster sound banking practices. The deposit insurance ceiling protection has been \$100,000 since March 31, 1980. In order to accomplish its varied functions in the protection of bank depositors, the Corporation is authorized to promulgate and enforce rules and regulations relating to the supervision of insured banks and to perform other regulatory and supervisory duties consistent with its responsibilities as insurer. The major portion of the Corporation's operations consists of the examination of State banks that are not members of the Federal Reserve System and

liquidation activities attendant to insured banks that have closed.

The insurance fund is supported by an authorization to borrow up to \$3 billion from the Treasury of the United States. No borrowing under this authorization has been made to date and none is anticipated in 1984 and 1985.

In order to facilitate deposit assumptions or to assist operating banks, the Corporation is authorized to purchase notes issued by the assuming bank, or in the case of direct assistance, notes issued by the operating bank. The above schedule reflects the outstanding principal amounts of these notes and projected repayments based on the notes agreements.

Income of the Corporation is derived principally from insurance assessments paid by insured banks and interest on investment in U.S. Government securities. As of September 30, 1983, the deposit insurance fund amounted to \$15.0 billion. The entire fund represents the accumulated net income of the Corporation and is reserved for the protection of depositors in insured banks and for payment of administrative and insurance expenses. No funds derived from taxes or Federal appropriation are allocated to or used by the Corporation in any of its operations.

The estimates for 1984 and 1985 in these statements make provision for losses and expenses which might occur by reason of the closing of any bank after September 30, 1983.

1. *Civil defense.*—The civil defense programs feature an Integrated Emergency Management System approach. The programs are designed to develop generic evacuation and in-place protection plans and functional emergency capabilities to mitigate, prepare for, respond to, and recover from emergencies caused by natural, technological, and attack-related hazards.

2. *Comprehensive emergency preparedness planning.*—This program provides for the enhancement of State and local governments' capability to prepare for, respond to, and mitigate disasters and emergencies. Program activities include analyses, needs assessments, technical guidance and financial support designed to assist State and local governments in developing a comprehensive approach to preparedness planning. A primary instrument for implementing CEPP is the disaster improvement grant program. These annual grants provide up to \$25,000 to States on a 50/50 match basis for improving or maintaining disaster assistance plans. All but a few States are participants in this program.

3. *Radiological emergency preparedness.*—This program provides assistance to State and local governments through the issuance of guidance, review and approval of plans, and evaluation of exercises. The program is focused on improvement of State and local capabilities to cope with radiological accidents at commercial nuclear power plants, other fixed nuclear facilities, nuclear materials license holders and transportation of radioactive materials.

4. *Federal preparedness.*—The goals of the Federal preparedness activity are to achieve Government readiness to ensure that the Nation will be able to respond to, manage, and recover from peacetime or wartime national security emergencies and to enable Government, at all levels, to cope with the consequences of accidental, natural, and man-caused occurrences.

5. *Training and fire programs.*—This activity prepares Federal, State and local officials, their supporting staff, and the public to meet the responsibilities and challenges of domestic emergencies through planning, mitigation, preparedness, response, and long-term recovery. Educational programs are provided through the Emergency Management Institute and the National Fire Academy. In addition, under the U.S. Fire Administration, this activity concentrates on providing a Federal focus on identifying problems with which the Nation's fire and rescue services must deal, finding solutions to these problems, and supporting State and local fire protection and emergency rescue efforts.

6. *Flood plain management.*—This activity involves the operation of a program that combines mapping,

[EMERGENCY FOOD DISTRIBUTION AND SHELTER PROGRAM]

For an emergency food distribution and shelter program to be carried out by the Director of the Federal Emergency Management Agency, \$30,000,000, such sum to remain available for obligation until March 31, 1984, and to be made available under the following terms and conditions:

(1) The Director of the Federal Emergency Management Agency shall, as soon as practicable after the date of the enactment of this Act, constitute a national board for the purpose of determining how the program funds are to be distributed to individual localities. The National board shall consist of seven members. The United Way of America, the Salvation Army, the National Council of Churches, the National Conference of Catholic Charities, the Council of Jewish Federations, Incorporated, the American Red Cross, and the Federal Emergency Management Agency shall each designate a representative to sit on the national board. The representatives of the Federal Emergency Management Agency shall serve as chairman of the national board.

(2) Each locality designated by the national board to receive funds shall constitute a local board for the purpose of determining how its funds will be distributed. The local board shall consist, to the extent practicable, of representatives of the same organizations as the national board except that the mayor or appropriate head of government will replace the Federal Emergency Management Agency member.

(3) The Director of the Federal Emergency Management Agency shall award a grant for \$30,000,000 to the national board within thirty days after the date of the enactment of this Act for the purpose of providing emergency food and shelter to needy individuals through private voluntary organizations.

(4) Eligible private voluntary organizations shall be nonprofit, have a voluntary board, have an accounting system, and practice nondiscrimination.

(5) Participation in the program shall be based upon a private voluntary organization's ability to deliver emergency food and shelter to needy individuals and such other factors as are determined by the local boards.

(6) Total administrative costs may not exceed 2 percent of the total appropriation.

(7) As authorized by the Charter of the Commodity Credit Corporation, the Corporation shall process and distribute surplus food owned or to be purchased by the Corporation under the food distribution and emergency shelter program in cooperation with the Federal Emergency Management Agency.

[FOOD DISTRIBUTION AND EMERGENCY SHELTER]

There is hereby appropriated, out of any money in the Treasury not otherwise appropriated, \$10,000,000 to the Federal Emergency

Management Agency to carry out an emergency food and shelter program. Notwithstanding any other provision of this joint resolution or any other provision of law, such amount shall be made available under the terms and conditions of the following paragraphs:

The Director of the Federal Emergency Management Agency shall, as soon as practicable after enactment of this Act, constitute a national board for the purpose of determining how the program funds are to be distributed to individual localities. The national board shall consist of seven members. The United Way of America, the Salvation Army, the Council of Churches, the National Conference of Catholic Charities, the Council of Jewish Federations, Inc., the American Red Cross, and the Federal Emergency Management Agency shall each designate a representative to sit on the national board. The representative of the Federal Emergency Management Agency shall chair the national board.

Each locality designated by the national board to receive funds shall constitute a local board for the purpose of determining how its funds will be distributed. The local board shall consist, to the extent practicable, of representatives of the same organizations as the national board except that the mayor or appropriate head of government will replace the Federal Emergency Management Agency member.

The Director of the Federal Emergency Management Agency shall award a grant for \$10,000,000 to the national board within thirty days after enactment of this Act for the purpose of providing emergency food and shelter to needy individuals through private voluntary organizations.

Eligible private voluntary organizations should be nonprofit, have a voluntary board, have an accounting system, and practice nondiscrimination.

Participation in the program should be based upon a private voluntary organization's ability to deliver emergency food and shelter to needy individuals and such other factors as are determined by the local boards.

Total administrative costs shall not exceed 2 per centum of the total appropriation.

As authorized by the Charter of the Commodity Credit Corporation, the Corporation shall process and distribute surplus food owned or to be purchased by the Corporation under the food distribution and emergency shelter program in cooperation with the Federal Emergency Management Agency. The National Insurance Development Fund provides the funding source for two programs authorized by the Urban Property Protection and Reinsurance Act of 1968, as amended: (1) The FAIR (Fair Access to Insurance Requirements) Plan/Riot Reinsurance Program, and (2) the Federal Crime Insurance Program. The Supplemental Appropriations Act, 1984 (Public Law 98-181) did not extend authority for the Riot Reinsurance Program beyond November 30, 1983; or the Federal Crime Insurance Program beyond September 30, 1984. The budget estimates assume there will be no new policies issued subsequent to those dates. However, there will be operating expenses associated with unexpired policies and the close-out of contractor activities.

Budget program—1. Riot reinsurance claims.—The estimate of claims paid through riot and civil disorder reinsurance is expected to be about \$500 thousand in 1985.

2. Crime insurance—(a) Insurance claims.—Claims reflect insurance payments in the program.

(b) Operating expenses.—Expenses are incurred by fiscal agents in issuing policies, settling claims, and maintaining accounting and statistical records.

3. Administrative expenses.—This represents the administrative cost of operating the programs.

4. Interest expense.—This represents interest on Treasury borrowings needed to defray underwriting and loss expenses of the crime insurance program.

Financing.—Claims and expenses are estimated to be paid from premium income and Treasury borrowings.

Operating results.—Claims and expenses are expected to exceed premium income resulting in a decrease in the reserves of the fund. The deficits have been reduced, in fact, by major rate increases and rating changes which have taken place in both programs.

The National Flood Insurance Act of 1968, as amended, authorizes the Federal Government to provide flood insurance on a national basis. Flood insurance may be sold or continued in force only in communities which enact and enforce appropriate flood plain management measures. Communities must participate in the program within 1 year of the time they are identified as flood prone in order to be eligible for flood insurance and some forms of Federal financial assistance for acquisition or construction purposes.

Under the emergency program, structures in identified flood-prone areas are eligible for limited amounts of coverage at subsidized insurance rates. Under the regular program, studies must be made of different flood risks in flood-prone areas to establish actuarial premium rates. These rates are charged for insurance on new construction. Coverage is available on virtually all types of buildings and their contents in amounts up to \$245 thousand for residential and \$550 thousand for other types.

Significant indicators of program size are as follows:

	1983 actual	1984 estimate	1985 estimate
Policies in force.....	1,911,316	1,992,000	2,090,000
Insurance in force (billions of dollars).....	112	117	122

Budget program.—1. *Insurance underwriting expense.*—Cost of initiating and maintaining flood insurance policies is estimated at \$96,328 thousand in 1985.

2. *Loss and adjustment expense.*—Insured flood losses and associated loss adjustment expense is estimated at \$347,576 thousand in 1985.

3. *Interest expense.*—Interest on Treasury borrowings needed to defray underwriting and loss expenses is estimated at \$8,500 thousand in 1985.

Financing.—The Administrator is authorized to borrow up to \$1 billion to carry out the program. Borrowings are estimated to total \$211,447 thousand by the end of 1985. An appropriation of \$200,205 thousand is requested in 1985 to retire agency debt. The program is also financed through premium income.

Operating results.—Cumulative expenses are expected to exceed revenue and receipts from Federal and non-Federal sources by approximately \$377 million by the end of 1985. This cumulative deficit is financed through appropriations of \$1,166 million and by charges against borrowing authority of \$376 million.

The Director of FEMA is authorized to accept, hold, administer, and utilize gifts and bequests of property, both real and personal, for the purpose of aiding or facilitating the work of the Federal Emergency Management Agency. Property and the proceeds thereof are used as nearly as possible in accordance with the terms of the gift or bequest.

FEDERAL HOME LOAN BANK BOARD

The Federal Home Loan Bank Board formulates policies for and supervises the operation of the 12 Federal home loan banks, the system of Federal savings and loan associations, the Federal Savings and Loan Insurance Corporation, and the Federal Home Loan Mortgage Corporation. It is also responsible for the examination of Federal savings and loan associations and for the examination and supervision of State-chartered institutions insured by the Federal Savings and Loan Insurance Corporation.

The expenditure programs of the Federal Home Loan Bank Board and the Federal Savings and Loan Insurance Corporation are presented as business-type budgets. The Home Owner's Loan Act of 1933, as amended,

provides that all expenses of the Office of Examinations and Supervision shall be considered nonadministrative. The administrative expenses of the Federal Home Loan Bank Board, including the home office of the Office of Examinations and Supervision, are paid from assessments against the 12 Federal home loan banks and the Federal Savings and Loan Insurance Corporation. The expenses of the field offices of the Office of Examinations and Supervision are paid from fees collected from savings and loan institutions examined and from assessments against the Federal Savings and Loan Insurance Corporation.

Budget program.—The Board's budget program consists of several activities:

1. **Supervision of Federal home loan banks and applications processing.**—The Board supervises the operations of the 12 Federal home loan banks. Federal savings and loan associations are chartered and regulated. Applications of State-chartered associations for conversion to Federal savings and loan associations and applications of Federal savings and loan associations for establishment of branch offices are also examined. In addition, an analysis and evaluation is made of insurance risk in connection with applications submitted by savings and loan associations for insurance of share accounts.

2. **Examination and supervision of Federal and State-chartered thrift institutions.**—Supervisory examinations are made of Federal savings and loan associations, State-chartered associations insured by the Federal Savings and Loan Insurance Corporation, and all uninsured member institutions of the Federal home loan bank system which are not examined by the State examiners. Examinations are also made of institutions applying for insurance of accounts and for conversion from a State to a Federal charter, when required by the Board. The financial condition and operations of each insured institution are analyzed and corrective action is instituted when warranted. Supervision of insured institutions operating under State charter is carried on cooperatively, with the respective State authorities.

3. **Executive direction and staff services.**—This includes formulation of basic policy and the furnishing of staff services common to the Board and the Insurance Corporation.

4. **Analysis of operations.**—Analyses are made of the financial condition of member institutions, the flow of savings, and the character and volume of mortgage lending. Selective reviews are made of geographical areas and trends in the field of thrift and home mortgage finance, including the volume of activity and inter-

est rates for all major types of mortgage lenders.

5. **Administrative services.**—These consist of accounting, budgeting, and financial reporting; internal budget control; and fiscal organization and management. Also included are general housekeeping and operating services, which include printing and reproduction work.

The 12 Federal home loan banks seek to improve the financial condition of member institutions. The banks, which are owned by the member institutions, obtain funds primarily from public issuances of consolidated obligations. Section 11(i) of the Federal Home Loan Bank Act authorizes the banks to borrow from the Treasury up to \$4 billion outstanding at any one time.

The amounts shown in the schedules for the activities discussed above for 1985 include administrative expenses under an annual limitation; nonadministrative expenses under a separate limitation; and certain additional expenses not under a limitation. Administrative expenses are estimated to decrease from \$25.8 million in 1984 to \$24.4 million in 1985. Nonadministrative expenses covering examination and supervision of savings and loan associations are discussed separately, below.

The Federal Savings and Loan Insurance Corporation (FSLIC) relies on the Office of Examinations and Supervision to protect its assets against depletion from the financial failure of any insured savings and loan association. The Office's responsibility extends to all institutions insured by the Federal Savings and Loan Insurance Corporation as well as noninsured member institutions of the Federal home loan bank system not subject to State examination.

The Office monitors savings and loan associations through continual analysis of their operating policies and financial reports, regularly scheduled examinations, and occasional special examinations. The purpose of the monitoring process is to determine compliance with Federal Home Loan Bank Board regulations and to ascertain the quality of management and the financial soundness of the member associations. If the Office detects actual or potentially unsafe or unsound practices in insured associations, supervisory agents from the Federal home loan banks work with the association to prevent or correct poor financial or management

performance. The operations of the Office are funded substantially through direct examination charges imposed on savings and loan associations.

The Office also has examination and supervisory responsibilities with respect to savings and loan holding companies and their subsidiaries. In addition, the Office has assumed responsibilities pursuant to legislation in the areas of consumer credit protection, equal opportunity, and security measures.

The following table reflects the work of the Office:

The Federal Savings and Loan Insurance Corporation is authorized under title IV of the National Housing Act to insure savings in all Federal savings and loan associations, Federal mutual savings banks, and in State-chartered institutions of the savings and loan type which apply and qualify for insurance. The protection, which insures each saver in a member association against financial loss up to a statutory limit of \$100

thousand, may be provided either through the prevention of default or the payment of insurance to savings accounts holders in the event of liquidation. Preventing default, which protects each investor regardless of the amount in his account, is accomplished by making contributions or by purchasing all or a part of an association's assets. Also, the Corporation is authorized to make loans to institutions in financial difficulty. Preventive measures are preferred by the Corporation. However, in the event liquidation is necessary, the Corporation acts as a receiver, or co-receiver upon the request of a State authority in cases involving State-chartered institutions. In addition, the Corporation, upon determination by the Board, is empowered to act, even retroactively, as sole receiver in cases involving State-chartered institutions.

The Corporation functions under the direction of the Federal Home Loan Bank Board, which provides administrative services. The expenses of the Board and its staff offices are paid from assessments made on the Corporation and the Federal home loan banks.

In carrying out its responsibility for protecting savings in insured savings and loans associations, the Corporation has settled 233 cases since its creation in 1934. Actual losses sustained and provision for losses to September 30, 1983, have amounted to \$2,160.7 million representing approximately 18.5% of cumulative gross income. Detailed information on these cases is summarized in the following table:

Budget program.—The Insurance Corporation's budget program consists of the following activities:

1. **Administrative expenses subject to limitation.**—This category includes the estimated costs of executive direction and policy formulation.

2. **Payments to Federal Home Loan Bank Board for services and facilities.**—The Corporation will pay 21%

Public enterprise funds—Continued

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION FUND—
Continued

of the total administrative expenses of the Federal Home Loan Bank Board plus 49% of the remaining 79% in 1985 in return for services and facilities from the Board.

3. *Contributions and provision for contributions to insured thrift institutions.*—This item is the estimated amount needed in 1985 to prevent the default of insured institutions.

4. *Refund of additional premium prepayments.*—A 1962 amendment of the National Housing Act required that each insured institution pay an additional premium in the nature of a prepayment at a rate equal to 2% of the increase in savings for the previous calendar year, less an amount equal to any requirement for the purchase of Federal Home Loan Bank stock during the period. The amendment also provided for the crediting of a return on the accumulated prepayment of each insured association at a rate equal to the average rate realized by the Corporation on its own investment portfolio.

Another amendment to the National Housing Act provides for a phaseout of the secondary reserve over the first 10 minimum net reduction years occurring after December 31, 1973. In May of each year, the Corporation will reduce the amount of each insured institution's pro rata share of the secondary reserve as of the preceding December 31 by a cash refund of the difference between the pro rata share and the percentage of its beginning balance on a percentage basis prescribed in the law.

The Garn-St Germain Depository Institutions Act of 1982 permits the FSLIC to terminate the payback of the secondary reserve when it determines that extraordinary financial conditions exist which increase the risk to the insurance fund. The payback can continue thereafter if otherwise authorized by law.

5. *Liquidation and other expenses.*—This provides for liquidation and other expenses of the Corporation in connection with the workout of contribution agreements, the disposition of assets purchased from, and loans to insured institutions to prevent default.

6. *Interest on notes payable.*—This is interest paid on promissory notes issued by the Corporation for the purchase of either Income Capital Certificates or Net Worth Certificates. The certificates are issued by qualifying insured institutions with low net worth in order to improve or maintain their capital position.

Financing.—The original capital of \$100 million has been completely repaid to Treasury, together with an additional \$43 million in interest. The Corporation has continuing authority to borrow from the Treasury for insurance purposes, up to a limit of \$750 million outstanding at any one time. No borrowing under this authorization has ever been necessary. The Corporation has additional authority to assess against each insured institution additional premiums for insurance until the amount of such premiums equals the amount of all losses and expenses of the Corporation, except that the total amount so assessed in any 1 year against any such

institution shall not exceed one-eighth of 1% of the total amount of the accounts of its insured savers.

Operating results.—The Corporation is entirely self-supporting. Revenues and other receipts have been sufficient to meet all insurance losses, operating expenses, and return on capital stock, leaving a reserve for contingencies of \$8,745.8 million as of September 30, 1983. Total revenues and other receipts since 1934 of \$11,655.4 million have been applied as follows:

The purpose of the Authority is to serve as a neutral party in the settlement of disputes that arise between unions, employees, and agencies on matters outlined in the Federal Service Labor Management Relations Statute, and decide major policy issues, prescribe regulations, and disseminate information appropriate to the needs of agencies, labor organizations, and the public. Establishment of the Federal Labor Relations Authority gives full recognition to the role of the Federal Government as an employer.

1. *Adjudication.*—The Authority adjudicates labor-management disputes in the Federal sector including: appeals on negotiability issues; exceptions to arbitration awards; appropriate units for the purposes of exclusive recognition; eligibility of labor organizations for national consultation rights and unfair labor practice complaints.

The workloads for the activity are reflected in the following table:

CASE DISPOSITIONS

Unfair labor practice appeals.....	164	198	235
Court cases.....	51	72	72
Major advice requests.....	31	28	28

2. *Hearings.*—This activity provides for holding hearings on unfair labor practice complaints, issuing reports, and making recommendations to the Authority on each case to allow timely settlement of disputes arising between agencies and unions. Workloads are reflected in the following table:

CASE DISPOSITIONS

	1983 actual	1984 estimate	1985 estimate
Decisions.....	169	182	191
Settlements.....	629	825	869

3. *Office of the General Counsel.*—The functions of this Office include the investigation of all allegations of unfair labor practices filed and the processing of all representation petitions received; the exercise of final authority over the issuance and prosecution of all complaints; the supervision and conducting of elections concerning the exclusive recognition of labor organizations, and the certification of the results of elections; the conducting of all hearings to resolve disputed issues in representation cases; and the direction and supervision of all employees of the Regional Offices. Workloads are reflected in the following table:

The Federal Maritime Commission administers the shipping statutes which require regulation of the domestic offshore and international waterborne commerce of the United States. In addition, the Commission has responsibility for the licensing of ocean freight forwarders; and for insuring that vessel owners or operators establish financial responsibility for death or injury to passengers or other persons on voyages to and from U.S. ports, and indemnification of passengers for the nonperformance of transportation. Major program areas for 1985 will concentrate on undertaking regulatory reform activities; developing plans for deregulation of the domestic offshore trades; and developing a program to computerize the filing of tariffs utilizing private sector resources. Legislation will be proposed to transfer the passenger vessel certification program to the Department of Transportation.

The Service assists parties to labor disputes in industries affecting commerce to settle their disputes through conciliation and mediation.

1. *Dispute mediation.*—The Service assists labor and management in mediation and prevention of disputes, other than those involving rail and air transportation, whenever such disputes threaten to cause a substantial interruption of interstate commerce or a major impairment of the national defense. The Service also makes mediation and conciliation services available to Federal agencies and organizations representing Federal employees in the resolution of negotiation disputes. The Service provides mandatory mediation and, where necessary, impartial boards of inquiry to assist in resolving labor disputes involving private nonprofit health care institutions. The workload shown below includes assignments closed in both the private and public sectors.

3. *Management and administrative support.*—This activity provides for overall management and administration, policy planning, research and evaluation, and employee development.

4. *Boards and panels.*—Provision is made for ad hoc use of labor relations experts, individually or in panels, in support of the mediation function, for boards of inquiry appointed by the President in emergency disputes, and for boards of inquiry which the Director of

FMCS may appoint in a contract dispute involving health care institutions.

5. *Labor-management cooperation project.*—The Labor Management Cooperation Act of 1978 (29 U.S.C. 125a) authorizes the Service to carry out this program of contracts and grants to support the establishment and operation of plant, area, and industry labor-management committees. No funds are requested for this program in 1985.

The Federal Trade Commission is charged by law with insuring that competition in the marketplace is vigorous, free, and fair. This is accomplished by eliminating threats to fair and honest competition from all sources, both public and private.

1. *Maintaining competition.*—The Commission's efforts to enforce the antitrust laws are aimed at reducing prices to consumers, limiting the effects of inflation, and fostering and preserving competition and the free enterprise system. The Commission examines competitive restraints imposed by the private sector or by regulatory actions that unduly restrict or limit the competitive process and adversely affect consumers, and takes action, where appropriate, to eliminate such restraints.

2. *Consumer protection.*—The Commission is charged with eliminating unfair or deceptive acts or practices affecting commerce. The goal of the Consumer Protection Mission is to improve market performance so that consumers can make informed choices when exercising their purchasing power. To accomplish this goal, the Commission will remove private and public restrictions on market structure; encourage business to provide con-

sumers with accurate and useful information; and, reinforce market forces that enhance consumer welfare.

3. *Economic activities.*—This mission has four major functions: conducting research on the performance of the industrial economy; providing economic support to Commission's antitrust and consumer protection efforts; advising the Commission on the impact of governmental regulation on competition in various industries; and, developing economic reports on industrial structure and performance.

Public Law 93-642 established the Harry S Truman Scholarship Foundation to operate the scholarship program that is the permanent Federal memorial to the 33rd President of the United States. The Foundation awards college scholarships of up to \$5 thousand annually for up to four years to qualified persons who demonstrate outstanding potential for and interest in careers in public service at the local, State, or Federal level.

In 1985, the Foundation will conduct its ninth annual competition to select 105 new Truman scholars and will continue to assist in the placement of graduating Truman scholars in public service positions.

1. *Scholarship awards.*—This activity is comprised of scholarship funds. About 35 percent of each year's funds are spent on award costs for the school year ending during that fiscal year, with the remaining 65 percent spent on awards for the next school year.

2. *Program administration.*—This activity covers all costs of operating the program, including annual program announcement, interview and selection of Truman scholars, calculation and disbursement of scholarship awards, monitoring of student progress, and placement assistance.

3. *Investment transactions.*—This activity represents Treasury investment transactions conducted at either a discount or a premium.

The Advisory Commission on Intergovernmental Relations (ACIR) is an independent, bipartisan body which identifies and analyzes the causes of intergovernmental conflicts and recommends ways of strengthening and improving the American Federal system. The 26-member Commission includes elected and appointed officials from Federal, State, and local governments and representatives of the general public.

The Commission and its staff examine Federal, State, and local trends, events, and programs having an intergovernmental impact. Proposed legislation and executive actions are reviewed to determine their overall effect on the Federal system. The Commission also identifies emerging problems of Federal-State-local relations and assists States and localities in anticipating and meeting problems caused by various intergovernmental overlaps and conflicts.

The Commission makes recommendations concerning the workings and structural arrangements of governmental units and allocation of responsibilities and revenues among the various levels of government. The recommendations and published reports growing out of the Commission's work are submitted to the executive and legislative branches of Federal, State, and local governments for appropriate action.

Continuing and annual projects of the Commission

include assessing the changing public attitudes on government and taxes; developing a "Representative Tax System" for all 50 States; analyzing fiscal disparities; publishing an annual catalog of Federal aid; surveying and identifying trends in State and local finances; monitoring key intergovernmental legislation of Federal, State, and local governments; and providing educational and technical assistance to Federal, State, and local governments regarding Commission recommendations.

Nonrecurring projects currently under Commission study include the investigation of methods of local revenue diversification; analysis of tax interactions; estimation of the cost of repairing the public physical infrastructure; interpretation of the role of the States in the Federal system; analysis of changing American politics and the implications for federalism; and the study of alternative ways of providing local services.

Appropriations finance the personnel and personnel-related expenses incurred in the basic day-to-day operation of the Commission.

The Commission receives funds from other Federal agencies for special projects carried out by the Commission pursuant to contracts with these agencies. Each contract is charged for a share of the Commission's overhead.

Current research being conducted under interagency contracts with the Department of Housing and Urban Development involves State aid to distressed communities, the potential for city financial emergencies, and the "transformed States with new roles and capabilities;" and with the Urban Mass Transportation Agency, ACIR is investigating alternative methods of financing urban mass transportation.

Contributions from State and local governments and nonprofit organizations are used to strengthen the Commission's clearinghouse, information, and policy education services to State and local governments and to improve intergovernmental coordination and relations. Specific items financed by this account include the Commission's quarterly publication, *Intergovernmental Perspective*; summaries of full Commission reports making up the In Brief series of ACIR publications; and reprints of popular out-of-print, but timely, Commission reports.

In 1977, the Commission returned to seeking contributions from State and local governments. The States are responding positively and a goal of \$120,000 has been established for 1985.

The Washington Metropolitan Area Transit Authority (WMATA) is a non-Federal agency established pursuant to an interstate compact among Maryland, Virginia, and the District of Columbia. The Authority's primary functions are to plan, develop, finance, and construct the Metro-rail rapid transit system and to operate the bus/rail transit system in the National Capital area. The rail system extends from the District of Columbia into the participating jurisdictions of Maryland and Virginia.

Rail capital construction grants and operating assistance grants to the WMATA are funded through the budget for the Department of Transportation. This WMATA account provides the annual Federal share of interest payments on outstanding WMATA bonds sold in support of the rail construction program. The WMATA bonds, totaling \$997 million, are guaranteed by the Federal government. In August, 1982, the WMATA and the Department of Transportation approved a Supplemental Bond Prepayment Participation Agreement providing for an overall two-thirds Federal and one-third local sharing of the interest and principal costs of the bonds. The Agreement requires the WMATA to establish a sinking fund and bond interest payment fund and develop other appropriate funding arrangements to meet fully and expeditiously its obligations under the terms of the Agreement. The first payments into the sinking fund were made in 1983. The terms of the Agreement also include the provision of stable and reliable sources of revenues by the State and local jurisdictions which constitute WMATA to cover their obligations to that Authority. The Secretary of Transportation has certified that the jurisdictions have complied with this provision. The 1985 request represents the Federal share under the terms of the Agreement of \$51,663,569 less the unexpended balance of prior year budget authority of \$5,487,624 for a net request of \$46,175,945.

The U.S. International Trade Commission is an independent agency created by act of Congress. The Commission's current powers and duties are provided for by the Tariff Act of 1930; the Trade Act of 1974; the Trade Agreements Act of 1979; the Agricultural Adjustment Act; and, section 1911 of the Financial Institution Regulatory and Interest Rate Control Act of 1978, 12 U.S.C. 635a-2.

The Commission conducts investigations and, where appropriate, makes determinations and recommendations, or takes action, in cases where (1) serious injury to industries may warrant increases in duties, the imposition of quotas, or the provision of adjustment assistance; (2) imports of goods sold at less than fair value may injure an industry; (3) foreign governments, organizations, or individuals, may have subsidized imports into the United States; (4) unfair methods of competition in the importation or sale of foreign articles may tend to injure an industry or restrain and monopolize trade and commerce in the United States; or (5) imports of agricultural products may materially interfere with certain programs of the Department of Agriculture.

The Commission advises the President as to the probable economic effect on the domestic industry and consumers, of modification of duties and other barriers to trade which may be considered for inclusion in any proposed trade agreement with foreign countries. Further, the Commission, at the request of the President,

the Congress, or on the Commission's own motion, undertakes comprehensive studies and provides reports on key issues relating to international trade and economic policy matters.

The Commission, in cooperation with the Secretary of the Treasury and the Secretary of Commerce, establishes for statistical purposes an enumeration of articles imported into the United States and exported from the United States, and seeks to establish comparability of such statistics with statistical programs for domestic production.

The Commission also issues a publication containing U.S. tariff schedules and related matters and considers questions concerning the arrangements of such schedules and the classification of articles.

Pursuant to section 175 of the Trade Act of 1974, the budget estimates for the Commission are included without revision by the President.

The Interstate Commerce Commission is responsible for regulating interstate surface transportation. During 1985, the Commission will assess the deregulatory changes that have occurred in the surface transportation industry since the passage of the Motor Carrier Act of 1980, the Staggers Rail Act of 1980, the Household Goods Transportation Act of 1980, and the Bus Regulatory Reform Act of 1982. Consistent with these legislative acts, the Commission is reducing staffing in 1984 and 1985.

1. *Proceedings.*—This program includes the regulation of rates, the granting of operating authorities, and the regulation of mergers, acquisitions, and abandonments. After an initial flurry of regulatory activity due to the implementation of deregulation legislation, the volume of casework continues to decline.

2. *Policy and analysis.*—This program encompasses all of the Commission's planning, analysis, and policy development activities. The program's emphasis will be placed on analyzing the impacts of the regulatory reform laws on the surface transportation industry and the public in order to keep abreast of industry trends.

General and special funds—Continued

SALARIES AND EXPENSES—Continued

Using information obtained through these efforts, the Commission will prepare testimony for oversight hearings, identify the need to recommend legislative changes, and refine its policies and procedures.

3. *Compliance and consumer assistance.*—This program responds to the needs and concerns of individual consumers and businesses, as well as to the broader spectrum of public interests. The Commission's compliance efforts will focus on specialized compliance activities designed to complement enforcement efforts.

4. *Enforcement.*—This program includes the investigation and prosecution of alleged violations of the Interstate Commerce Act, related statutes, and Commission regulations. The Commission will devote particular attention to protecting the public interest when the dynamics of a competitive marketplace are insufficient to do so.

If a railroad ceases operations due to a cash shortage or a court order, the Commission is authorized to direct other railroads to operate the services of the railroad which ceased its operations. The directed carriers are reimbursed for the losses incurred and are paid a 6% profit on the operations performed. This authority is limited to a 240-day period, consisting of a 60-day authority and the ability to extend the order for an additional 180 days. No additional directed rail service is anticipated for 1985.

The Japan-United States Friendship Act of 1975 established the Japan-United States Friendship Trust Fund, and created the Japan-United States Friendship Commission to make grants from the Fund for the promotion of scholarly, cultural, and artistic activities between Japan and the United States. The Commission is authorized to make expenditures from the appropriated income of the fund and, in an amount not to exceed 5% annually of the principal of the fund, to pay the expenses of the Commission and to make grants in support of studies, fellowships, scholarships, book collections, art programs, and other cultural and educational activities, primarily in the United States. The Commission received a contribution in May 1981 of \$2 million from the Government of Japan to be used for the purposes of the Act during the next several years.

LEGAL SERVICES CORPORATION

Federal Funds

General and special funds:

[PAYMENT TO THE LEGAL SERVICES CORPORATION]

[For payment to the Legal Services Corporation to carry out the purposes of the Legal Services Corporation Act of 1974, as amended, \$275,000,000: *Provided*, That notwithstanding any regulation, guideline, or rule of the Corporation, the funds appropriated in this Act for the Legal Services Corporation shall be used by the Corporation in making grants or entering into contracts under section 1006(a) (1) and (3) so as to insure that total annual funding for each such current grantee and contractor is maintained in fiscal year 1984 in the same proportion which total appropriations to the Corporation in fiscal year 1984 bear to the total appropriations to the Corporation in fiscal year 1983, unless action is taken by directors of the Corporation prior to January 1, 1984, who have been confirmed in accordance with section 1004(a) of the Legal Services Corporation Act: *Provided further*, That, notwithstanding the above proviso, the funds distributed to each grantee funded in fiscal year 1983 pursuant to the number of poor people determined by the Bureau of the Census to be within its geographical area be distributed in the following order:

(1) first, grants from the Legal Services Corporation and contracts entered into with the Legal Services Corporation under section 1006(a)(1) of the Legal Services Corporation Act shall be maintained in fiscal year 1984 at not less than 5 per centum more than the annual level at which each grantee and contractor was funded in fiscal year 1983 or \$6.50 per poor person within its geographical area under the 1980 Census, whichever is greater;

(2) second, each such grantee funded in fiscal year 1983, pursuant to the number of poor people within its geographical area, shall be increased by an equal percentage of the amount by which the grantee's funding, including the increase under the first priority above, falls below \$13 per poor person within its geographical area under the 1980 Census:

Provided further, That none of the funds appropriated in this Act for the Legal Services Corporation shall be used to bring a class action suit against the Federal Government or any State or local government unless—

(1) the project director of a recipient has expressly approved the filing of such an action in accordance with policies established by the governing body of such recipient;

(2) the class relief which is the subject of such an action is sought for the primary benefit of individuals who are eligible for legal assistance; and

(3) that prior to filing such an action, the recipient project director has determined that the government entity is not likely to change the policy or practice in question, that the policy or practice will continue to adversely affect eligible clients, that the recipient has given notice of its intention to seek class relief and that responsible efforts to resolve without litigation the adverse effects of the policy or practice have not been successful or would be adverse to the interest of the clients:

except that this proviso may be superseded by regulations governing the bringing of class action suits promulgated by a majority of the Board of Directors of the Corporation who have been confirmed in accordance with section 1004(a) of the Legal Services Corporation Act: *Provided further*, That none of the funds appropriated in this Act made available by the Legal Services Corporation may be used—

(1) to pay for any publicity or propaganda intended or designed to support or defeat legislation pending before Congress or State or local legislative bodies or intended or designed to influence any decision by a Federal, State, or local agency;

(2) to pay for any personal service, advertisement, telegram, telephone communication, letter, printed or written matter, or other device, intended or designed to influence any decision by a Federal, State, or local agency, except when legal assistance is provided by an employee of a recipient to an eligible client on a

particular application, claim, or case, which directly involves the client's legal rights or responsibilities;

(3) to pay for any personal service, advertisement, telegram, telephone communication, letter, printed or written matter, or any other device intended or designed to influence any Member of Congress or any other Federal, State, or local elected official—

(A) to favor or oppose any referendum, initiative, constitutional amendment, or any similar procedure of the Congress, any State legislature, any local council or any similar governing body acting in a legislative capacity,

(B) to favor or oppose an authorization or appropriation directly affecting the authority, function, or funding of the recipient or the Corporation, or

(C) to influence the conduct of oversight proceedings of the recipient or the Corporation;

(4) to pay for any personal service, advertisement, telegram, telephone communication, letter, printed or written matter, or any other device intended or designed to influence any Member of Congress or any other Federal, State, or local elected official to favor or oppose any Act, bill, resolution, or similar legislation, except that this proviso shall not preclude funds from being used to provide communication directly to a Federal, State, or local elected official on a specific and distinct matter where the purpose of such communication is to bring the matter to the official's attention if—

(A) the project director of a recipient has expressly approved in writing the undertaking of such communication to be made on behalf of a client or class of clients in accordance with policy established by the governing body of the recipient; and

(B) the project director of a recipient has determined prior to the undertaking of such communication, that—

(i) the client and each such client is in need of relief which can be provided by the legislative body involved;

(ii) appropriate judicial and administrative relief have been exhausted; and

(iii) documentation has been secured from each eligible client that includes a statement of the specific legal interests of the client, except that such communication may not be the result of participation in a coordinated effort to provide such communications under this proviso; and

(C) the project director of a recipient maintains documentation of the expense and time spent under this proviso as part of the records of the recipient; or

(D) the project director of a recipient has approved the submission of a communication to a legislator requesting introduction of a private relief bill:

except that nothing in this proviso shall prohibit communications made in response to a request from a Federal, State, or local official: *Provided further*, That none of the funds appropriated in this Act made available by the Legal Services Corporation may be used to pay for any administrative or related costs associated with an activity prohibited in clause (1), (2), (3), or (4) of the previous proviso: *Provided further*, That none of the funds appropriated under this Act for the Legal Services Corporation will be expended to provide legal assistance for or on behalf of any alien unless the alien is present in the United States and is—

(1) an alien lawfully admitted for permanent residence as defined in section 101(a)(20) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(20));

(2) an alien who is either married to a United States citizen or is a parent or an unmarried child under the age of twenty-one years of such a citizen and who has filed an application for adjustment of status to permanent resident under the Immigration and Nationality Act, and such application has not been rejected;

(3) an alien who is lawfully present in the United States pursuant to an admission under section 207 of the Immigration and Nationality Act (8 U.S.C. 1157, relating to refugee admissions) or who has been granted asylum by the Attorney General under such Act; or

(4) an alien who is lawfully present in the United States as a result of the Attorney General's withholding of deportation pur-

suant to section 243(h) of the Immigration and Nationality Act (8 U.S.C. 1253(h)):

Provided further, That an alien who is lawfully present in the United States as a result of being granted conditional entry pursuant to section 203(a)(7) of the Immigration and Nationality Act (8 U.S.C. 1153(a)(7)) before April 1, 1980, because of persecution or fear of persecution on account of race, religion, or political opinion or because of being uprooted by catastrophic natural calamity shall be deemed, for purposes of the previous proviso, to be an alien described in clause (3) of the previous proviso: *Provided further*, That none of the funds appropriated for the Legal Services Corporation may be used to support or conduct training programs for the purpose of advocating particular public policies or encouraging political activities, labor or antilabor activities, boycotts, picketing, strikes, and demonstrations, including the dissemination of information about such policies or activities, except that this provision shall not be construed to prohibit the training of attorneys or paralegal personnel necessary to prepare them to provide adequate legal assistance to eligible clients or to advise any eligible client as to the nature of the legislative process or inform any eligible client of his rights under statute, order, or regulation: *Provided further*, That none of the funds appropriated in this Act for the Legal Services Corporation may be used to carry out the procedures established pursuant to section 1011(2) of the Legal Services Corporation Act unless the Corporation prescribes procedures to insure that financial assistance under this title shall not be terminated, and a suspension of financial assistance shall not be continued for more than thirty days, unless the grantee, contractor, or person or entity receiving financial assistance under this title has been afforded reasonable notice and opportunity for a timely, full, and fair hearing and, when requested, such hearing shall be conducted by an independent hearing examiner, subject to the following conditions—

(1) such request for a hearing shall be made to the Corporation within thirty days after receipt of notice to terminate financial assistance, deny an application for refunding, or suspend financial assistance and such hearing shall be conducted within thirty days of receipt of such request for a hearing;

(2) the Corporation shall make such final decision within thirty days after completion of such hearing; and

(3) hearing examiners shall be appointed by the Corporation in accordance with procedures established in regulations promulgated by the Corporation:

Provided further, That none of the funds appropriated in this Act for the Legal Services Corporation may be used to carry out the procedures established pursuant to section 1011(2) of the Legal Services Corporation Act unless the Corporation prescribes procedures to ensure that an application for refunding shall not be denied unless the grantee, contractor, or person or entity receiving assistance under this title has been afforded reasonable notice and opportunity for a timely, full, and fair hearing to show cause why such action should not be taken and subject to all other conditions of the previous proviso: *Provided further*, That none of the funds appropriated in this Act for the Legal Services Corporation shall be used by the Corporation in making grants or entering into contracts for legal assistance unless the Corporation insures that the recipient is either (1) a private attorney or attorneys (for the sole purpose of furnishing legal assistance to eligible clients) or (2) a qualified nonprofit organization chartered under the laws of one of the States, a purpose of which is furnishing legal assistance to eligible clients, the majority of the board of directors or other governing body of which organization is comprised of attorneys who are admitted to practice in one of the States and who are appointed to terms of office on such board or body by the governing bodies of State, county, or municipal bar associations the membership of which represent a majority of the attorneys practicing law in the locality in which the organization is to provide legal assistance: *Provided further*, That no member of the Board of Directors of the Legal Services Corporation shall be compensated for his services to the Corporation except for the payment of an attendance fee at meetings of the Board at a rate not to exceed the highest daily rate for grade fifteen (15) of the General Schedule and necessary travel expenses to attend Board meetings in accordance with the Standard Government Travel Regulations: *Provided further*, That no officer or employee of the Legal Services Corporation or a recipient program shall be reimbursed for membership in a private club, or be paid severance pay in excess of what would be paid a Federal employee for comparable service: *Provided further*, That none of the funds appropriated in this Act shall be expended by the Legal Services

Corporation to participate in litigation unless the Corporation or a recipient of the Corporation is a party, or a recipient is representing an eligible client in litigation in which the interpretation of this title or a regulation promulgated under this title is an issue, and shall not participate on behalf of any client other than itself.] (Department of Justice and Related Agencies Appropriation Act, 1984.)

The Legal Services Corporation (LSC) funds State and local agencies which provide free civil legal assistance to the poor. LSC is a private, non-profit corporation which is outside the Federal Government and acts independently of related social and community services programs. Grantees are involved both in cases for individual clients and in broader "law reform" activities.

The Administration proposes that the Corporation not be reauthorized and that no further Federal funding be provided.

The Merit Systems Protection Board performs the adjudicatory functions necessary to maintain the civil service merit system. These include hearing appeals on adverse actions, reduction in force actions, and retirement. The Board will report to the President on whether merit systems are sufficiently free from prohibited personnel practices to protect the public interest.

Board workloads are reflected in the following table:

The Special Counsel is empowered to investigate prohibited personnel practices in Federal agencies and political activities prohibited by the Hatch Act, and to administratively prosecute offending employees and agencies before the Merit Systems Protection Board. The Special Counsel may also transmit "whistleblower" allegations to the agency head concerned and require an agency investigation and a report to the Congress and the President when found appropriate.

Many cases that are referred to the Office are resolved without recourse to formal proceedings before the Board. Efforts to obtain such informal resolutions will continue in 1985.

The National Capital Planning Commission is the central planning agency for the Federal Government in the National Capital Region. The National Capital Region consists of the District of Columbia; Montgomery and Prince Georges counties in Maryland; Arlington, Fairfax, Loudoun and Prince William counties in Virginia; and all cities in Maryland and Virginia within the outer limits of such counties.

During 1985, the Commission will continue its efforts to closely work with other Federal agencies, the District of Columbia government, and other local governments and jurisdictions in the National Capital Region, including the Metropolitan Washington Council of Governments (COG). Major emphasis will again be placed on the continued preparation of Federal elements to the Comprehensive Plan for the National Capital, the five-year Federal Capital Improvements program, and the review of Federal land acquisition and development proposals in the region. The Commission will continue to perform Federal interest reviews of the impact of proposed local, State and regional planning efforts on the Federal Establishment, as well as perform increased numbers of reviews of Federal grant applications dealing with land and water use in the National Capital Region.

The insurance fund is used to carry out a program of insurance for member accounts in Federal credit unions and State-chartered credit unions which apply and qualify for insurance, authorized by Public Law 91-468, enacted October 19, 1970.

Budget program.—The activities consist of: (a) providing member account insurance, (b) formulating standards and requirements for insured credit unions, and (c) providing for liquidation or other disposition of the assets and liabilities of solvent and insolvent, insured credit unions.

The extent of the program is estimated as follows:

Item	1983 actual	1984 estimate	1985 estimate
Number of insured credit unions	19,397	19,200	19,100
Shares of insured member institutions as of Dec. 31 of the previous calendar year (in millions of dollars)	\$95,574	\$104,000	\$114,000

It is estimated that approximately 5,600 State-chartered credit unions will be enrolled in the program by the end of 1985.

Financing.—Each insured credit union is required to pay a normal premium of one-twelfth of 1% of the total amount of its member accounts. The insurance fund is structured to be self-supporting through the insurance premiums which are paid by member credit unions. The premiums assessed are expected to cover all insurance claims and provide for an increase in the fund balance. This will be held in Government interest-bearing securities as an insurance reserve. The fund has \$100 million in borrowing authority from the Treasury for use in unforeseen emergencies. The authority to borrow from the Treasury has never been used and probably will not be exercised in 1984 or 1985.

Operating results.—Anticipated net income of \$51,538 thousand will be retained in the fund, raising the balance for unforeseen emergencies to \$302 million by the end of 1985.

The National Credit Union Central Liquidity Facility was established under Public Law 95-630. It began operations on October 1, 1979. The Central Liquidity Facility provides loans to member credit unions for seasonal and emergency needs.

The two primary sources of funds for the Facility are stock subscriptions from credit unions and borrowings from the Federal Financing Bank. Credit unions, which choose to become members of the Facility, are required to purchase stock equal to one-half of 1% of their assets. One-half of the subscription in stock is forwarded to the Facility and deposited in the fund. The remaining half of the subscription remains on call in the credit union in investments as approved by the NCUA Board.

The Facility may borrow funds from any source to relend to member credit unions. This amount of borrowings is limited to twelve times the amount of capital stock subscriptions by the authorizing statute (Public Law 95-630). In 1985, an appropriation limitation on new loans of \$600 million is proposed, of which it is currently anticipated that \$437 million will be used.

The National Endowment for the Humanities funds activities intended to improve the quality of education and teaching in the humanities, to strengthen the scholarly foundation for humanities study and research activity, and to advance understanding of the humanities among broad general audiences.

Support is provided through outright grants, matching grants, and a combination of the two. Eligible applicants include schools, higher education institutions, libraries, museums, historical organizations, professional associations, other cultural institutions, and individuals.

In 1985, major emphasis is being placed on projects and activities that improve humanities education and teaching in the Nation's schools, colleges, and universities, advance research and scholarship, and stimulate non-Federal support of the humanities.

1. *Grants to museums.*—The Institute of Museum Services encourages and assists museums of all sizes and disciplines in modernizing their methods and facilities so that they may be better able to serve the public and conserve our national heritage. The IMS offers general operating support grants to assist museums in meeting the cost of operations, and makes small awards to museums to support independent professional assess-

ments of their programs and management. In 1984, Congress appropriated funds for conservation grants to help museums preserve their collections and for special projects involving innovative or exemplary practices of potential benefit to other museums.

2. *Administration.*—These funds support the salaries and other administrative expenses of the staff of the Institute of Museum Services.

3. *National Museum Services Board.*—The National Museum Services Board has responsibility for determining the policies and programs of the Institute. The 20-member board meets at least four times a year and whenever one-third of its members request a meeting.

The Board resolves representation disputes in industry and remedies and prevents specified unfair labor practices by employers or labor organizations. Case intake in 1983 was 40,031 unfair labor practice cases and 8,809 representation cases. Estimates for unfair labor practice cases are 42,493 for 1984 and 44,885 for 1985. Representation case estimates are 9,603 for 1984 and 10,233 for 1985.

1. *Field investigation.*—Charges of unfair labor practices and petition for elections to resolve representation disputes are investigated by regional office personnel. Over 94% of the unfair labor practice cases and about 82% of the representation cases are closed by settlement, dismissal, or withdrawal. The remainder are prepared for public hearing. The agency strives to maximize the voluntary settlement of all cases and the avoidance of litigation.

2. *Administrative law judge hearing.*—Administrative law judges conduct public hearings in unfair labor practice cases. Their findings and recommendations are set forth in their decisions. In 1983 there were 1,164 hearings closed, 49 proceedings adjusted after close of hearing, and 1,104 decisions issued. The estimate for 1984 is for 1,223 hearings to be closed, 10 adjusted after hearing, and 1,328 decisions. The estimate for 1985 is for 1,293 hearings to be closed, 10 adjusted after hearing, and 1,387 decisions.

3. *Board adjudication.*—In an unfair labor practice case a judge's decision becomes a Board order if no exceptions are filed. About 30% of these decisions become automatic Board orders or are complied with voluntarily. The remainder with exceptions filed requires contested Board decision. In 1983, 602 such Board decisions were issued; the estimates for 1984 and 1985 are 1,343 and 1,431 respectively. In representation cases, regional directors initially decide the issues by Board delegation. In 1983 regional directors issued 1,021 such decisions; and the estimate is 1,109 for 1984 and 1,181 in 1985. The Board itself decides representation issues on referral from regional directors or by granting a request for review of a regional director's decision. In 1983 the Board issued 70 representation decisions; the estimates for 1984 and 1985 are 116 and 125 respectively. The Board also ruled on 208 objection and challenge

questions in election cases in 1983; it is estimated that 382 such rulings will be required in 1984 and 495 in 1985.

4. *Securing compliance with Board orders.*—If the parties do not voluntarily comply with the Board's order involving unfair labor practices, the Board must request the appellate courts to enforce its decisions. In 1983 a total of 331 Board decisions of all kinds required such litigation; the estimate for 1984 is 426, and for 1985 it is 455.

1. *Mediatory services.*—The Board mediates disputes over wages, hours, and working conditions for some 650 rail and air carriers and approximately 700,000 employees in the two industries.

The Board also provides technical assistance to enable labor and industry representatives to explore informally the relevant economic and noneconomic problems that condition collective bargaining in the railroad and airline industries.

The Board investigates representation disputes involving the various crafts or classes of railroad and airline employees to determine their choice of representatives for the purpose of collective bargaining.

2. *Voluntary arbitration and emergency disputes.*—When the parties fail to resolve their disputes through mediation, they are urged to submit their differences to arbitration. If neither mediation nor voluntary arbitration is successful, the President, when notified of disputes which threaten seriously to interrupt service, may appoint emergency boards to investigate and report on the disputes under section 10 of the Railway Labor Act (RLA). Such reports usually serve as a basis for resolving the disputes.

The Northeast Rail Service Act of 1981 amended the Railway Labor Act by adding a new emergency dispute procedure covering disputes between a publicly funded and operated commuter carrier and its employees. The 1981 act requires the Board to appoint the public members of factfinding panels on Conrail.

3. *Boards of adjustment.*—Public Law 89-456 provides for the adjustment of disputes involving grievances resulting from interpretation or application of bargaining agreements in the railroad industry otherwise referable to the National Railroad Adjustment Board. The Northeast Rail Service Act of 1981 also provides access to this machinery for Conrail employees with grievances arising from the application of employee protection benefits.

4. *Adjustment of railroad grievances (NRAB).*—Railroad employee grievances resulting from disputes over the interpretation or application of collective bargaining contracts may be brought for settlement to the National Railroad Adjustment Board (NRAB). The divisions of the Board are composed of an equal number of carrier and union representatives compensated by the party or parties they represent. Administrative direction and support are provided by a staff director and clerical assistants who are compensated by the National Mediation Board. The appropriation also provides for neutral referees to sit with the Board when they are deadlocked. The number of cases closed in 1984 and 1985 rises above the 1983 level because of the increased amount of work by neutral referees made possible by both an increase in overall budget authority and a reduction in office space and overhead expenses.

The major research program activities of the Foundation are:

1. *Mathematical and physical sciences.*—Research in this activity is directed at increasing understanding of natural laws and phenomena. It includes research in mathematics, computer science, physics, chemistry, and materials. Studies deal with a broad range of significant science areas such as new amorphous materials and materials of limited dimensionality, organometallic chemistry and catalysis, the fundamental forces and constituents of physical matter, new computing methods based on parallel processing and new mathematical structures and techniques. Provision of modern research instrumentation and facilities and support of young scientists is stressed in all programs. Also emphasized is improved access to large-scale facilities for scientific computing.

2. *Engineering.*—This research is aimed at increasing U.S. engineering capability and strength and, on selected occasions, focusing that capability and strength on areas which are relevant to national problems. Research in electrical, computer, and systems engineering, chemical and process engineering, civil and environmental engineering, and mechanical engineering and applied mechanics is supported. Studies include research on such diverse issues as large-scale integrated circuit electronics, basic mechanisms of catalysis and various chemical and biochemical processes, earthquake hazards mitigation, and machine intelligence.

3. *Biological, behavioral, and social sciences.*—This activity supports research in physiology; cellular and molecular biology; behavioral and neural sciences; environmental biology; social and economic sciences and information sciences. Research covers all aspects of biology, social and behavioral sciences including the molecular basis for cells, organs, and organisms; the nature of plants and their relationships with animals; economic theory and decision sciences.

4. *Astronomical, atmospheric, Earth, and ocean sciences.*—This research advances physical knowledge of the universe and knowledge of the planet Earth. It includes studies of the life cycles of stars; the nature of the Earth and its geologic history; open ocean dynamics and resources; the influence of the Arctic on the Earth's climate; and the physics and chemistry of the Earth's atmosphere.

6. *Scientific, technological, and international affairs.*—This activity supports and performs research and analysis to: link producers of research with the users of research; facilitate international scientific coop-

eration; provide policy-oriented data, information and analysis; and support agency-wide activities building the Nation's scientific research base. Programs cover joint research between universities and industry; small business innovation research; cooperative scientific activities between the U.S. and advanced and developing countries; studies on the state of the science and technology enterprise and its socioeconomic impact; and support for special research initiation, improvement and instrumentation activities. A new Presidential initiative for young Ph. D. recipients is included. The Presidential Young Investigators Research Awards are supported by the research activities. The Foundation will make these awards to insure that young investigators, in fields where demonstrated needs exist, are provided research support to encourage their commitment to an academic career.

7. *Program development and management.*—This activity provides for the operation, support, management, and direction of all NSF programs and activities and includes necessary funds to develop, manage, and coordinate these program activities.

The National Transportation Safety Board, as an independent nonregulatory agency, is charged with promoting transportation safety through the investigation of accidents, the conduct of special studies, the development of recommendations to prevent accidents, the evaluation of the effectiveness of other Government agencies in preventing transportation accidents, and the review of appeals on actions taken against transportation certificates and licenses.

1. *Policy and direction.*—This activity provides Board-wide policy and program guidance, the determination of probable cause of transportation accidents, the issuance of safety recommendations, the approval of accident reports, the final review of appeals involving airman and seaman certificates and licenses, the implementation and direction of policies and programs, liaison with the Congress and other Government agencies, and legal and public affairs advice and services.

2. *Accident investigation.*—This activity provides for the management of accident investigations, the development of their probable cause, the development of recommendations, and the preparation of reports on aviation, railroad, highway, marine, pipeline, and hazardous materials accidents.

3. *Technology.*—This activity provides specialized advice and services for the Board's accident investigation, accident prevention, and safety promotion activities in the areas of human, vehicular, environmental, and operational factors. It develops recommendations, provides laboratory support, and conducts special investigations.

4. *Safety programs.*—This activity provides oversight of other transportation agencies through the conduct of evaluations of their safety programs. This activity also provides oversight of transportation systems through the conduct of safety studies. In addition, it manages the development and follow-up of the Board's safety recommendations and the Board's responses to Notices of Proposed Rulemaking. It provides statistical analysis of transportation accident and incident data, and it acts as program manager for some of the Board's safety objectives to insure action is taken on certain transportation safety problems not being addressed by Government or industry.

5. *Administration.*—This activity provides administrative support to assure accomplishment of Board programs through financial management, personnel management and training, procurement and facilities services, automated data processing services, equal employment opportunity, and other administrative support.

6. *Administrative law judges.*—These judges conduct hearings on appeal from the suspension, amendment, modification, revocation, or denial of any operating certificate or license issued by the Secretary of Transportation under the Federal Aviation Act of 1958.

The major activities of the Corporation include the establishment, provision of technical services to, and assistance in the expansion to other neighborhoods of Neighborhood Housing Services (NHS) and Apartment Improvement Programs in older, declining residential neighborhoods; identifying, evaluating, and supporting neighborhood preservation projects that show promise as strategies for reversing neighborhood decline; replicating successful neighborhood preservation projects; and, promoting a national secondary market for local NHS revolving loan funds.

The Corporation receives both Federal and non-Federal funding to finance its program activities. The program and financing schedule above reflects only direct Federal appropriations to the Corporation. For 1985, \$15,271,000 is requested. The following business-type tables reflect the total program activity of the Corporation and include all sources of financing, both Federal and non-Federal.

1. *Nuclear reactor regulation.*—The primary objective of nuclear reactor regulation is the assurance of public health and safety and the environment in the design, siting, construction and operation of nuclear power reactors. Continued emphasis will be on the licensing of nuclear power plants to ensure that the NRC licensing process does not unnecessarily delay plant fuel loading, startup testing and operations. Other major goals include continued review and timely completion of licensing actions associated with operating reactors and timely resolution of important generic safety issues, including important human factors issues. Also, the NRC plans to initiate the Integrated Safety Assessment Program (ISAP) to provide a comprehensive review of selected operating reactors to address all pertinent safety issues and to provide an integrated, cost-effective implementation plan based upon deterministic and probabilistic evaluation techniques. NRC will continue to place special emphasis on the regulatory activities necessary for the decontamination of the TMI-2 power plant, the defueling of the reactor, and the disposition of the radioactive waste.

2. *Inspection and enforcement.*—The purpose of the Inspection and Enforcement programs is to ensure that nuclear reactor facilities and materials under NRC jurisdiction are constructed, operated and used in a manner which protects the public health and safety and the environment, and that prompt and vigorous enforcement action is taken against licensees who do not comply with NRC regulations. The Inspection and Enforcement program is conducted by the NRC headquarters Office of Inspection and Enforcement and NRC's five Regional offices. The headquarters office has responsibility for inspection policy and program development and appraisal) assessment of regional implementation of the inspection program, appraisal inspection to determine licensee and Regional performance, escalated enforcement actions, evaluation of licensee events, response to incidents, management of the NRC Operations Center, emergency preparedness license reviews, specialized technical training for all of NRC, and the NRC Quality Assurance (QA) Program. The Regional offices implement the NRC inspection program by conducting inspections, initiating and taking certain enforcement actions, conducting systematic assessment of licensee performance, performing emergency preparedness annual reviews, responding to incidents by dispatching personnel to the site in question, and providing technical support to the Office of Investigations. In the Headquarters, increasing emphasis will be placed on identification and oversight of nuclear facilities requiring special attention and on independent design inspections. Continuing emphasis will be placed on QA efforts and Construction Appraisal Team inspections. In the regions, the increased number of operating reactors will require additional inspections.

3. *Nuclear material safety and safeguards.*—The Nuclear Material Safety and Safeguards (NMSS) programs have the primary objective of ensuring adequate protection of the public health and safety and the environment in the design, siting, construction, and operation of nuclear fuel cycle facilities including nuclear waste storage and disposal facilities, and the utilization and transportation of nuclear materials. NMSS is responsi-

ble for performing the safety, environment, and safeguards reviews of applications for fuel cycle facility construction permits and operating licenses, and the amendment and renewal of such licenses. NMSS is also responsible for licensing the utilization of nuclear materials and for regulating the design of containers, as required by 10 CFR 71, used for transporting nuclear materials. In addition, NMSS is responsible for conducting reviews of the safeguards plans for power and non-power reactors. In 1985, the achievement of program goals is increasingly a joint undertaking of the NMSS Headquarters Office and the five Regional Offices. Major emphasis during 1985 will be placed on implementation of the Nuclear Waste Policy Act of 1982.

4. *Nuclear regulatory research.*—The 1985 Nuclear Regulatory Research program will continue to develop an independently verified source of safety information to be used in conjunction with data furnished by licensees as a basis for licensing and regulatory decisions. A most important part of this activity is the development of data and analytical methods to support the NRC rulemaking activities. Reactor Engineering activities and facility operations will focus on the qualification, installation, operation and repair of reactor components and systems to provide a basis for evaluating the reliability and safety margins of nuclear generating systems. The Thermal Hydraulic Transient research efforts deal with safety issues that arise from operator action and equipment malfunction that can reasonably be expected to occur during the life of a nuclear plant. NRC will continue to focus Risk Analysis research efforts on developing and improving reliability analysis and methods for quantifying probabilities and consequences associated with reactor operations. Work in the Accident Evaluation and Mitigation area will be directed toward resolving safety questions associated with accidents beyond the current design basis, fission product releases and core cooling requirements. Waste Management work will continue in high level waste to provide technical support of licensing assessment and to evaluate how waste forms will interact with geological, hydrological and waste packages.

The mission of the Office of the Federal Inspector for the Alaska Natural Gas Transportation System is to oversee the construction and initial operation of a 4,837-mile, joint U.S.-Canadian pipeline system to transport Alaska natural gas from Prudhoe Bay to the Chicago and San Francisco areas in the lower 48 States. Specifically, the Federal Inspector is charged with reviewing project sponsor designs and cost estimates to ensure safe and efficient construction practices; coordinating and expediting the issuance of all Federal permits and authorizations; and enforcing all Federal statutes relevant to the construction project, including those related to environmental protection.

The budget for the agency normally supports five major programs and executive direction and administration functions; however, due to the delay in construction on the Alaskan Leg, the budget has been consolidated, reflecting the reduced level of activity from 1983 through 1985.

The Panama Canal Act of 1979 established the Panama Canal Commission to operate and maintain the interoceanic waterway. The Commission is self-sufficient in its operations and makes payments to the Republic of Panama as specified in the Panama Canal Treaty of 1977.

Annuity payments to Panama are for certain public services to be provided by Panama, a fixed annuity of \$10 million, and an annuity based on net tonnage of vessels transiting the canal. These payments are prescribed in paragraph 5 of article III and paragraph 4(a) and 4(b) of article XIII of the Panama Canal Treaty of 1977.

Vessel traffic in 1984 is expected to decline below the 1983 level, due to the continuing effects of the worldwide maritime recession. The estimate of tolls for 1984 has been reduced by \$21.5 million from the previous estimate. In order to comply with the legal requirement to break even, a rescission is proposed for 1984.

	1983 actual	1984 estimate	1985 estimate
Ship transits (over 300 net Panama Canal tons)....	11,846	11,635	11,935
Tolls (in thousands of dollars).....	287,791	295,000	315,000

Capital obligations for 1985 include the following major projects: procurement of three towing locomotives, replacement of 68 bulkhead slots at Gatun Locks, replacement and addition of transit equipment, and the replacement of launches and launch engines.

Supporting services.—The services performed by these support activities are (in thousands of dollars):

	1983 actual	1984 estimate	1985 estimate
Supply and logistical services.....	33,625	37,412	35,904
Utilities.....	53,200	50,269	53,148

Total operating expenses.....	102,119	103,608	105,044
Less intra-agency recoveries.....	40,535	45,729	44,339
Net operating expenses.....	61,584	57,879	60,705

Capital obligations for 1985 include several projects for electric power and communication systems improvements.

Administrative and general expense.—This category includes the overall direction and administrative expenses of the Commission; the costs of the employee health benefits program; early retirement costs; the annuitant welfare program; death and disability payments; and the cost of health and education services provided to Commission employees and dependents at Department of Defense facilities. Also included is the interest expense on the investment of the U.S. Government in the Canal. The interest expense is a component of the Agency's deposit into the U.S. Treasury and serves to reduce the investment of the Government in the Canal and consequently the interest cost in subsequent years.

Reimbursement to General Fund.—On October 1, 1984, the special "Panama Canal Commission Fund" will be abolished, and the unappropriated balance (estimated to be \$146,380,000) will be transferred to the General Fund of the Treasury. Of this amount, \$85,547,000 will be deemed repayment of the unreimbursed balance of the Commission's 1980 appropriation from the General Fund. An annual appropriation from the General Fund for the Commission's operating and capital expenses will enable this repayment by eliminating the Commission's need for start-up capital at the beginning of each year. (Appropriations language to terminate the special fund is included in the General Provisions in the Department of Transportation chapter of this document.)

The balance of the amount to be transferred to the General Fund on October 1, 1984 (estimated to be \$60,833,000) represents the amount available for subsequent appropriation under the Panama Canal Act.

Beginning in 1985, receipts of the Commission will be paid into the General Fund. Receipts for 1985 are estimated to be \$443,946,000.

PAYMENT TO THE POSTAL SERVICE FUND

For payment to the Postal Service Fund for revenue forgone on free and reduced rate mail, pursuant to 39 U.S.C. 2401 (b) and (c) and for meeting the liabilities of the former Post Office Department to the Employees' Compensation Fund and to postal employees for earned and unused annual leave as of June 30, 1971, pursuant to 39 U.S.C. 2004 and Section 1724(a) of the Omnibus Budget Reconciliation Act of 1981, \$691,556,000. No subsequent reconciliation payment will be made with respect to revenue forgone amounts provided in this Act. (Legislative action required.)

Note.—A regular 1984 appropriation for this account had not been enacted at the time this budget was prepared. A continuing resolution (Public Law 98-151) provides funds through September 30, 1984.

This appropriation of \$691,556 thousand is for the purpose of reimbursing the Postal Service for \$239,509 thousand of previously unfunded liabilities of the former Post Office Department and \$452,047 for loss in revenue associated with carrying certain categories of mail at free and reduced rates. The \$239,509 thousand, which includes \$197,442 thousand deferred from 1982, 1983, and 1984, provides \$163,088 thousand to cover payment to the employees' compensation fund for injuries prior to July 1, 1971, and \$76,421 thousand to cover the remaining unfunded amount of earned and unused annual leave balances due postal employees on June 30, 1971, from the former Post Office Department.

The estimates for 1985 and beyond assume enactment of legislation proposed last year by the Administration to reduce the payment to the Postal Service fund.

The transactions of the Postal Service appear in Part IV of the Appendix under Off-Budget Federal Entities.

This appropriation is a Federal subsidy to the rail industry pension for costs not financed by the railroad sector. The American taxpayer subsidy annually exceeds \$1,000 per rail employee.

Subsidy for windfall payments.—When first authorized in 1974, the windfall subsidy appropriation was estimated at \$250 million annually for 25 years, or a total subsidy of \$6.25 billion. In two years, the annual windfall subsidy estimate increased by 45% and, within five years, the Railroad Retirement Board reported that the original 1974 estimate had doubled to \$500 million and would continue to increase if there were any inflation after 1980.

The Carter administration, faced with increasingly large projected subsidy costs, sought to limit to \$350 million annually the general taxpayers' liability to subsidize this rail industry pension, a position also reflected in the March revisions to the 1982 budget. Based on their collectively-bargained agreement and assuming a \$350 million subsidy appropriation, rail labor and management successfully sought congressional restructuring of the rail industry windfall in Public Law 97-35. The rail sector sought to limit windfall payments to the appropriated subsidy amounts rather than rely on the rail industry funded retirement account. This extended the subsidy well beyond the year 2000.

This appropriation provided a one-time subsidy to a separate rail sector fund. This separate rail fund remains unique at the request of the rail sector, which sought to be exempt from universal unemployment insurance. As long as the rail sector wishes to maintain their separate fund, they should pay for it: the American taxpayer should not subsidize a separate, special fund for the rail sector.

FEDERAL SUBSIDY TO THE RAIL INDUSTRY PENSION FUND

For payment to the accounts established in the Treasury for the payment of benefits under the Railroad Retirement Act for unnegotiated checks, \$15,000,000, which shall be the maximum amount available for payments pursuant to Section 417 of Public Law 98-76: Provided, That these funds shall remain available through September 30, 1986.

The Board administers a special, separate rail sector fund for unemployment and sickness insurance payments. Administrative expenses are financed from employer unemployment taxes.

1. *Maintenance of rail earnings accounts.*—Unemployment and sickness payments are based on individual records of rail earnings and daily wage rates.

2. *Processing of rail unemployment insurance claims.*—Claims for unemployment compensation are filed with employers and certified for payment through the headquarters office. As the table below indicates, unemployment claims are projected to decline by 49% from 1983 to 1985, resulting in a proportionate reduction in workloads and staffing requirements. The budget proposes to increase rail sickness and unemployment insurance administrative resources and staffing above the levels justified by the declining workload, to enhance the prevention and detection of waste, fraud, and abuse.

4. *Rail claimant placement services.*—The Board conducts an employment service for unemployment benefit claimants. Railroad employees are denied access to the broader range of employment opportunities available under the regular universal unemployment insurance program.

5. *Administration.*—The costs of administration are shared between this and the rail pension program on an allocated basis, which is periodically revised for actual experience.

6. *Office of Inspector General.*—The Office of Inspector General of the Railroad Retirement Board was established by Public Law 98-76. In 1984 and 1985, 20 full-time equivalent staff will be devoted to this activity, the costs of which are shared between this and the rail pension program on an allocated basis.

Railroad retirees generally receive the equivalent to a social security benefit and a rail industry pension collectively bargained like other private pension plans but embedded in Federal law. About 351,000 individuals also receive a "windfall" benefit.

Income.—Railroad industry pension fund revenues are derived from pension contributions by railroad employers and employees; interest on investments; various temporary subsidies; and payments from the Federal old-age, survivors and disability insurance trust funds. The railroad retirement system has an annual financial interchange with social security. Under this arrangement, social security has paid railroad retirement some \$22 billion, with annual payments exceeding \$2 billion. It was designed by the rail sector to help finance the rail industry pension, placing social security in the same position in which it would have been if railroad employment had been directly covered by social security.

Retirement, disability, and survivor benefit payments.—Estimates reflect the increases in benefit rates provided by law.

Administrative expenses.—These expenses are subject to annual limitations in appropriation acts (see Limitation on Administration).

Payment to Federal hospital insurance trust fund.—That portion of taxes which finances hospital insurance benefits is for payment to the Federal hospital insurance trust fund, since payments of hospital benefits for railroad beneficiaries are made from that fund.

The Board administers the rail industry pension based on collectively bargained agreements which are incorporated in Federal statute.

1. **Maintenance of rail earnings accounts.**—Eligibility for retirement and the amount of rail benefits paid are based on individual rail earnings records.

2. **Processing rail applications.**—This activity includes processing annuity claims under the Railroad Retirement Act of 1974. Based on amendments enacted in Public Law 97-35, benefit computations were greatly simplified. Coupled with the continued decline in railroad retirement applications and automation of previously manual procedures, the Board's workload devoted to this activity is expected to continually decrease.

The budget proposes to invest \$5.1 million to upgrade the Board's automated claims processing capability. (Substantial funds for investments in automation were also included in the 1984 appropriation.) The Board estimates that the major automation projects to be completed in 1985-1986 will result in improved service, more accurate payments, and a dramatic improvement in productivity. The Board projects these investments will result in savings of about 380 work years and full-time equivalent positions and commensurate savings in administrative and other program expenses.

3. **Maintenance of rail beneficiary rolls.**—This activity includes all work related to the placement, continuance, and removal of persons on the annuity rolls. RRB administers social security benefits and railroad industry pensions to 138,000 recipients, social security benefits only to 24,000 recipients and railroad retirement pensions only to 844,000 recipients. As in past years, the number of persons on the rolls receiving annuity payments will decrease modestly from 981,780 at the end of 1983, by 3.1% to 951,000 at the end of 1985. As shown in the table below, the Board projects this workload will

4. *Medicare.*—This activity includes on a reimbursable basis processing applications for the Social Security and Health Care Financing Administrations of the Department of Health and Human Services to establish eligibility for health and medical insurance benefits under title XVIII of the Social Security Act for rail beneficiaries.

5. *Administration.*—The cost of administration is shared between the rail pension, social security, and the railroad unemployment insurance programs.

In recognition of the continuing decline in virtually all its major workloads, the Board will explore and adopt new approaches to improve service to beneficiaries, such as the use of self-administered applications forms, improvements in automation, and increased reliance on other agencies (such as the Social Security Administration) to process claims.

6. *Office of Inspector General.*—The costs of the Office of Inspector General are shared between the rail pension, social security, and railroad unemployment insurance program on an allocated basis. During 1984 and 1985, the Board will devote 20 full-time equivalent staff to this activity.

All railroad retirees receive the equivalent of a social security benefit, and they may also receive rail industry pension payments and special windfall payments. Social security benefits for former railroad employees are funded by the social security trust funds, and rail industry pension payments are the responsibility of the rail sector. The combination of both these payments in a single trust fund gave rise to serious concerns that social security payments to railroad retirees might be jeopardized by the continuing financial problems of the rail industry pension fund. To ensure and protect the integrity of social security benefits to railroad retirees, the Railroad Retirement Solvency Act of 1983 mandated that beginning in 1985, the financing and payment of Federal social security benefits be separated from the rail industry pension trust fund.

The primary purpose of the Commission is to protect the interests of the investing public.

1. *Full disclosure.*—To insure that investors will be provided with material facts concerning securities offered for public sale, issuers who propose to offer new securities for public sale are required to file registration statements with the Commission at its home or regional offices. Issuers having total assets and security-holder populations of specified sizes are also required to furnish comparable information on a continuing basis in annual and other periodic reports, in proxy solicitation materials, and in tender offers and acquisition reports. Commission staff review these filings to insure full and fair disclosure and to prevent fraud and misrepresentation.

Electronic filing pilot project.—The purpose of this pilot project is to eliminate reliance on paper in the receipt, review, and dissemination of public disclosure documents. The pilot project will begin operation in September 1984, and test the feasibility of receiving, analyzing, and disseminating a limited number of corporate filings electronically.

Following the pilot project, the SEC intends to select an operational contractor which will assume the responsibility for providing at no cost to the government, a nationwide capability for electronic receipt, analysis, and dissemination of filings. The no-cost contractor will have the right to market and sell public information from the Commission's data base.

In 1985 the Selective Service System will continue to register men as they reach age 18, conduct a non-registrant identification program to insure compliance with the law, and maintain a data base of registrant records. The System will continue to develop enhancements to ensure its capability to respond rapidly and efficiently from its standby posture.

1. *Mobilization readiness.*—This activity includes all facets of National and Regional operational planning, maintenance of automated registration information, a comprehensive training program for the Selective Service Reserve Forces, a training program for the standby local board members, and administrative functions. The processing procedures of the Registrant Information Management System will continue to be tested and refined to insure that it can fully satisfy the emergency manpower needs of the Armed Forces.

2. *Reserve program.*—This activity involves the preparation of the Reserve and National Guard officers for mobilization assignments in specific positions with the Selective Service System. Special focus of the program is on the exercise of the mobilization plans to ensure a high readiness capability in the event of mobilization.

The Smithsonian Institution maintains public exhibits representative of the arts, American history, aeronautics and astronautics, technology, anthropology, geology, and biology (including living animal exhibits); acquires and preserves for reference and study purposes

millions of items of scientific, cultural, and historic importance; conducts research in the natural and physical sciences and in the history of cultures, technology, and the arts; presents performances of American arts and crafts; undertakes education programs at all levels; and participates in the exchange of scholarly information.

The Institution is responsible for the operation and maintenance of 12 major exhibition buildings, as well as the Museum of African Art buildings; a zoological park and animal conservation and research center; a preservation and storage facility at Silver Hill, Md.; two natural preserves, in Panama and on the Chesapeake Bay; an astrophysical observatory on Mount Hopkins, Ariz.; and supporting administrative, laboratory, and storage areas. Visitor attendance to buildings on and off the Mall, including the National Zoological Park, is expected to total approximately 27 million in 1985. Millions more will view traveling exhibitions.

In 1985, emphasis will continue to be placed on strengthening the security of the collections; providing collections management support, including full operation of the Museum Support Center; improving the maintenance of the Institution's physical plant; assuring technical support and equipment for ongoing research; and designing and installing permanent and special exhibits. Moreover, the initial requirements for staffing and operating the Center for African, Near Eastern, and Asian Cultures are provided for in 1985, with further requirements anticipated in future years.

1. *National Air and Space.*—The National Air and Space Museum was completed and opened to the public on July 1, 1976. Necessary repairs to the building's facade and terrace will continue.

2. *Museum Support Center.*—The Institution accepted beneficial occupancy of the Museum Support Center in early 1983. These facilities will provide additional space for the care, curation, conservation, deposit, preparation, and study of the National Collections, for the related documentation of the collections, and for the training of museum conservators. Space presently used for storage will be returned to its intended use for public exhibition.

3. *Quadrangle.*—Construction will continue in 1985 in the Quadrangle to include a permanent home for the Museum of African Art and a center for Eastern art together with space for educational activities. The Quadrangle is located south of the Smithsonian Institution Building. Federal funds will be matched by gifts and the Institution's Trust funds.

The objectives of the Woodrow Wilson Center are to produce scholarship of the highest quality on subjects that matter to our civilization and to communicate that scholarship to a wider audience within and beyond Washington through publication and dialog.

The Center has chosen to fulfill these objectives through its fellowship and guest scholar program. Each year the Center conducts a major open international competition for a limited number of fellowships. The scholars and the scholarly work they produce constitute the memorial to Woodrow Wilson. Virtually all of the Center's expenditures derive from the basic decision to create a resident body of fellows.

The Center is directed by its congressional statute to raise both public and private funds and the Center's major objectives could not be attained by an exclusive reliance on either Federal appropriation or private contribution.

The Tennessee Valley Authority (TVA) was created in 1933 as a Government-owned corporation for the unified development of a river basin comprised of parts of seven States. Its program in 1985 will be financed from three sources: (1) appropriations by the Congress; (2) proceeds available from current power operations and borrowings against future power revenues; and (3) proceeds available from nonpower activities.

The following table provides detailed information on programs financed by power proceeds and borrowings and programs financed by appropriations and nonpower proceeds.

Budget program—1. Natural resources.—TVA concentrates its efforts on programs in navigation, flood control, water and air quality, recreation, fisheries, wildlife development, and forest resources.

(a) **Water resources.**—Includes operation and continuing development of the navigation channel from Paducah, Ky., to Knoxville, Tenn.

For flood control, TVA operates a system of multipurpose reservoirs to retain excessive seasonal runoff and regulate discharges at flow rates that can be accommodated by downstream channels and reservoirs. As a

result, flood crests are reduced along the Tennessee River and its tributaries and also the lower Ohio and Mississippi Rivers.

TVA also works to enhance fisheries and aquatic ecology, manage regional water resources, and develop area rivers, streams, and lakes.

(b) **Land and forest resources.**—TVA conducts programs that promote the growth and use of timber resources in the Tennessee Valley, to enhance the region's wildlife, and to provide opportunities for recreation.

(c) *Resource management.*—The program contains three major areas of effort: Environmental and energy education, environmental protection of public lands and waters under TVA trust, and regional air quality management. Valley mapping and demonstrations of remote sensing are provided in support of these three areas as well as other TVA activities.

(d) *Land Between The Lakes.*—Work will continue on development of this 170,000-acre area in western Kentucky and Tennessee situated between TVA's Kentucky Reservoir and the Corps of Engineers' Barkley Reservoir.

2. *Economic and community resources.*—TVA strengthens the region's economic base by providing technical assistance to cities and towns that will allow them to reduce the impediments to economic development.

3. *Agricultural resources development.*—The Valley agricultural development program works largely through the State land-grant universities and their extension organizations to demonstrate solutions to agricultural problems.

4. *National fertilizer development.*—The National Fertilizer Development Center in Muscle Shoals, Ala., is active in four program areas: Research and development, introduction, ammonia from coal technology, and acid hydrolysis of hardwoods.

Research and development consists of basic chemical and agronomic research and development of fertilizer products and processes. This is accomplished in cooperation with the Department of Agriculture, the land-grant universities, and industry.

Introduction is conducted with the land-grant universities and the fertilizer industry. It includes small-plot demonstrations, tests and demonstrations of fertilizer materials and practices on selected operating farms.

The ammonia-from-coal technology demonstration facility is now complete. The operational phase, which will be completed in 1985, will include developmental production and evaluation of the process performance and economics.

Research to convert hardwoods to ethanol will continue based upon laboratory results. The work is at a point where scale up to a 2 ton per day unit is necessary to move from small batch processing to continuous laboratory operations.

6. *Power program: Power supply and use.*—TVA is the sole supplier of electric power to an area of 80,000 square miles in the seven Tennessee Valley States. Income from power operations, net of interest charges and depreciation, and other operating expenses is estimated at \$495,762 thousand in 1985.

The power generating facilities presented in the capital investment table are financed from power proceeds and borrowings.

7. *General services.*—Operating costs for general service activities include bridge maintenance, fallout shelter maintenance, and reimbursable services furnished at the request and expense of other agencies.

Financing.—Amounts estimated to become available in 1985 are to be derived from (1) the requested appropriation of \$115,308 thousand; (2) nonpower revenues and receipts of \$64,358 thousand; and (3) power revenues and receipts of \$4,975,011 thousand. In addition,

the budget program anticipates financing from borrowings of \$500,000 thousand backed by future revenues. A summary of the application of appropriations follows:

Operating results and financial conditions.—Only the power program is intended to be self-supporting; the net expense of nonpower programs is covered largely by appropriation funding. Payments to the Treasury from power proceeds in 1985 are estimated at \$121,000 thousand—\$101,000 thousand as a dividend (return on the appropriation investment in the power program) and \$20,000 thousand as a reduction in the appropriation investment in the power program. Outstanding borrowings for the power program are expected to increase by \$500,000 thousand during 1985.

Total assets are estimated to increase by \$607,772 thousand during 1985. A total of \$593,729 thousand of the increase in assets is in the power program and \$14,043 thousand is in nonpower programs. The estimate of liabilities at September 30, 1985, is \$229,963 thousand more than the estimate at September 30, 1984. Total Government equity at September 30, 1985, is estimated to be \$377,809 thousand greater than that at September 1984. This change includes the requested appropriation for 1985 and the net income from power operations, less payments to the Treasury and the net expense of nonpower programs.

The United States Information Agency conducts the international communication, educational, cultural and exchange programs of the United States. The Agency advises the President, the National Security Council, and the Secretary of State on the above areas, and assists in the development and execution of a national policy on international communications.

Agency operations are largely financed from this appropriation and the related special foreign currency appropriation and consist of the following major elements:

1. *Overseas missions.*—The Agency operates 210 posts in 127 countries. These posts administer the exchange-of-persons program and conduct informational and other cultural programs using materials prepared locally and by the media services in Washington.

2. *Broadcasting service.*—This service, better known as the Voice of America, produces radio broadcasts in English and in 41 languages. Programs are broadcast from transmitters at 5 domestic and 11 overseas locations.

3. *Educational and cultural affairs.*—This activity covers the staff that administers educational and cultural exchanges between the United States and over 140 countries. It also provides program and support costs for the President's International Youth Exchange program, American-sponsored schools abroad, binational centers, U.S.-operated libraries and reading rooms abroad and other educational and cultural activities. Grant costs for the Academic and Visitor Exchanges, the Humphrey Fellowship program and the Private Sector Exchange program are funded separately in the Educational and Cultural Exchanges account.

4. *Program coordination, production, and support.*—This activity serves primarily to support overseas missions by coordinating program planning and by producing, acquiring, and adapting various program materials for their use.

5. *Television and Film Service.*—This Service acquires and produces programs for distribution overseas and for direct telecasts via satellite.

6. *Agency direction and management.*—This activity encompasses managerial staffs and centralized servicing functions for the Agency as a whole.

The 1985 request for this account will provide \$25,000 thousand to cover added operating costs, principally overseas employee wage scales and inflationary increases for rents, utilities, diesel fuel, and other overseas goods and services. Additional increases of \$43,000 thousand will provide funds to expand and improve Voice of America broadcasts and engineering operations, to establish a worldwide television broadcast

This appropriation, together with the balances available from prior years, is used for payment of local program expenses in U.S.-owned foreign currencies in those countries where the Department of the Treasury has determined that the supply of such currencies is in excess to the normal requirements of the U.S. Government. For 1985 these "excess currency" countries are Burma, Guinea, India, and Pakistan. The appropriation requested in 1985 will maintain Agency programs in these four countries at essentially current levels.

This appropriation provides funding for programs authorized by the Mutual Educational and Cultural Exchanges Act of 1961, as amended, including academic exchanges and grants for foreign leaders and professionals to make short-term visits to the United States. USIA operates a variety of cooperative exchange programs with the private sector. It also arranges special programs for selected foreign individuals and groups visiting the United States under other than U.S. Government sponsorship.

The Agency also manages other exchange related activities funded from the Agency's S&E appropriation, i.e.: international youth exchange, Board of Foreign Scholarships, student support, studies of the U.S. and libraries, reading rooms, cultural centers and related resources.

The staff costs to operate the exchange programs funded by this appropriation are included in the Agency's S&E account.

1. *Academic and visitor exchange.*—This activity consists of academic exchange of American and foreign graduate students, teachers, scholars and specialists; officially invited international visitors as well as important foreign visitors who are not U.S. Government-sponsored; and a program sponsored jointly by the U.S. Congress and the Federal Republic of Germany's Bundestag, to exchange youth from the two countries for an academic year.

2. *Hubert H. Humphrey fellowships.*—This activity provides for one year of graduate training to promising mid-career professionals from third world countries.

3. *Private sector programs.*—This activity supports traditional and other exchange programs conducted by non-governmental organizations, which are not encompassed by other elements of the Bureau.

The 1985 request will provide \$20,264 thousand to meet 1985 cost increases (\$4,900 thousand) and to enhance academic and visitor exchanges and Humphrey fellowships (\$15,364 thousand).

The National Endowment for Democracy is a private, nonprofit corporation established in the District of Columbia to encourage and strengthen the development of democratic institutions and processes internationally, including activities which promote individual rights and freedom, through private sector initiatives, exchanges, training programs, and other activities.

The National Endowment for Democracy Act provides that the U.S. Information Agency will make an annual grant to the Endowment to enable the Endowment to fulfill the purposes of the Act. The Endowment will not carry out programs directly but will provide funding for activities of the Free Trade Union Institute of the AFL-CIO, the National Chamber Foundation of the U.S. Chamber of Commerce (the Act earmarks funds for these two organizations), and other private organizations and groups.

The Cuban Service of the Voice of America was created by the Radio Broadcasting to Cuba Act (Public Law 98-111), signed by the President in September, 1983. The Radio Marti program will be broadcasting 14.5 hours each day, seven days a week from studios in Washington. The programs will be transmitted via the VOA transmitter facility at Marathon, Florida.

Radio Marti programming will differ from normal VOA programming. Rather than transmitting news of the United States, it will be a surrogate broadcasting service, transmitting Cuban news and Cuban news-related and entertainment programs, filling the void created by the absence of independent and free media in Cuba itself. As a surrogate station, Radio Marti will require extensive research facilities.

1. *Program operations.*—These funds provide for program operations which include personnel compensation, research, transmission costs and other programming requirements.

2. *Acquisition and construction of facilities.*—In 1984, this activity provides for the purchase of land at Marathon, Fla.; construction of broadcast studios in Washington and Miami; and purchase and installation of one 50KW transmitter and related systems. In 1985, funds are provided for the construction of a broadcast studio in New York.

The Center for Cultural and Technical Interchange between East and West is a national educational institution administered on behalf of the United States Information Agency by a public, nonprofit educational corporation under a grant from the Agency. The Center promotes better relations and understanding between the United States and the nations of Asia and the Pacific through cooperative programs of research, study, and training, which bring qualified persons from the countries of the area to work jointly on problems of mutual concern.

The funds requested in 1985 will maintain the Center's programs at current levels and will provide for 1,987 participant awards for an average of three months each.

1. *Acquisition and construction of facilities.*—In 1984, the Agency began a multiyear effort to modernize and expand the technical transmission capability of the Voice of America. In recent reviews of the operations of U.S. Government-funded radios, serious deficiencies in the Voice's capability to meet current public diplomacy objectives were cited. To eliminate these deficiencies and provide an operationally effective global network that is a critical element of the public diplomacy programs of the Agency, VOA will rehabilitate and modernize existing stations, expand selected operational sites and construct additional new facilities. This engineering effort is essential for the formulation and construction of the VOA's global network and will restore its primacy in international broadcasting. The 1985 estimates will provide \$114,570 thousand for this program.

2. *Maintenance and improvement of existing facilities.*—This program provides \$5,000 thousand for the continuing repairs and improvements required to maintain the VOA's existing global network.

3. *Advanced engineering and technical development.*—This category provides \$500 thousand for the continuing program in engineering development, equipment design and radio propagation techniques specifically applicable to the VOA. It also includes \$1,000 thousand for the costs of initial steps in developing an automated worldwide monitoring system, and \$4,000 thousand for investigation of direct broadcast satellites.

4. *Land rentals.*—This activity provides \$500 thousand for land rental payments for certain VOA facilities overseas and in the United States. These facilities include Rhodes and Kavala, Greece, and Tangier, Morocco.

It is anticipated that the responsibility for defense against legal challenges filed by estates of the reorganized railroads will be completed by the end of 1984. USRA has not requested any funding for 1985. The \$500,000 of 1984 funding that will remain unobligated until 1985 will be sufficient to fund USRA for the first quarter of 1985.

¹ Conrail accounts receivable were substituted for debentures.

These funds were provided for the U.S. Railway Association to purchase debentures and series A preferred stock issued by the Consolidated Rail Corporation.

The Association purchased \$1 billion in Conrail debentures prior to 1978. Since reaching the \$1 billion level, purchases of securities have been in the form of series A preferred stock. These purchases amounted to \$2,280 million at the end of 1983. However, full recovery of this investment is unlikely.

No 1985 funding is requested. It is believed that the assistance provided through 1982 will be sufficient to enable Conrail to become permanently self-sustaining. The Department of Transportation is currently trying to sell the Government's interest in Conrail, as mandated by the Northeast Rail Services Act of 1981.

These trust funds have provided for the operation of river basin commissions authorized by Title II of the Water Resources Planning Act of 1965. The commissions, which had been jointly financed by contributions from the Federal Government and member States, have been terminated by Executive Order.

PART II

SUPPLEMENTALS AND RESCISSIONS

II-1

EXPLANATION OF REQUESTS

This part contains supplemental appropriations requests for 1984 being proposed for congressional consideration in this budget. Requests for supplemental appropriations are usually made after enactment of regular appropriations. In cases where programs are funded under a continuing resolution, some requests are included to supplement the funding available under the resolution. Information is also included on proposals to rescind budget authority for 1984.

PROPOSED SUPPLEMENTAL REQUESTS

Supplemental requests are shown as separate sections.

Section I.—Supplementals proposed in this budget for various purposes other than increased pay costs are presented in this section and usually include: suggested appropriation language, the related budget schedules, and the reasons for the requests. In some cases, language is proposed to reduce mandatory program levels (entitlements, for example) included in authorizing legislation. In such cases, separate budget schedules are not shown, but the reduced funding levels that would result are reflected in the regular budget schedules for the account in Part I. In other cases, language is pro-

posed to reduce enacted guaranteed loan limitations; the reduced commitment level is reflected in the regular schedule for Status of Guaranteed Loans for the account in Part I.

Section II.—Requests for pay supplementals in this section are in the form of suggested appropriation language. The amounts contained in the appropriation language also appear as separate line entries in the regular program and financing schedules in Part I.

Section III.—Two supplemental requests are pending before the Congress. The suggested appropriation language, related budget schedules, and the reasons for these requests are presented in this section.

RESCISSION PROPOSALS

Section IV.—Under the provisions of the Impoundment Control Act of 1974 (Public Law 93-344), whenever the President proposes rescission of enacted appropriations, a special message must be sent to the Congress giving details of the proposal. Included in this part—for rescission proposals being made in conjunction with this budget—are related budget schedules, references to the special message being sent to the Congress, and explanations of the proposals.

74.40	Obligated balance, end of year		-145,500	-127,500
90.00	Outlays		4,500	18,000

This supplemental appropriation would provide \$150 million in 1984 to fulfill an international commitment and complete the U.S. contribution of the sixth replenishment of the International Development Association.

CONTRIBUTION TO THE INTER-AMERICAN DEVELOPMENT BANK

(Supplemental now requested, existing legislation)

For payment to the Inter-American Development Bank by the Secretary of the Treasury for the United States share of the increase of the resources of the Fund for Special Operations, \$72,500,000 to remain available until expended; and \$20,000,000 for the United States share of the increase in paid-in capital stock to remain available until expended.

LIMITATION OF CALLABLE CAPITAL SUBSCRIPTION

The United States Governor of the Inter-American Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such increase in capital stock in an amount not to exceed \$424,500,122.

Program and Financing (in thousands of dollars)

Identification code	11-0072-1-1-151	1983 actual	1984 est.	1985 est.

PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

(Supplemental now requested, existing legislation)

For an additional amount for "Payment to the Foreign Service Retirement and Disability Fund", \$3,895,000.

Program and Financing (in thousands of dollars)

Identification code	11-1036-1-1-153	1983 actual	1984 est.	1985 est.
Program by activities:				
10.00	Government contributions to the fund (object class 13.0)		3,895	
Financing:				
40.00	Budget authority (appropriation)		3,895	
Relation of obligations to outlays:				
71.00	Obligations incurred, net		3,895	
90.00	Outlays		3,895	

The appropriation requested is to finance the 1984 installment of the unfunded liability created by the addition of Agency for International Development Foreign Service personnel to the Foreign Service retirement system and by subsequent salary increases and changes in legislation affecting benefits.

HOUSING AND OTHER CREDIT GUARANTY PROGRAMS

(Appropriation language now requested, additional authorizing legislation required)

To the extent that funds are not otherwise available, the Administrator may borrow from the Treasury to meet obligations incurred for the payment of claims pursuant to loan guarantees, but no more than \$40,000,000 in such debt shall be outstanding at any time: Provided, That this authority shall be available only upon the enactment of authorizing legislation.

The increase in credit reschedulings by developing countries has created liquidity problems for the Housing Guaranty program. The provision of borrowing authority would enable the program to honor loan guaranty claims arising from reschedulings. After several years, scheduled repayments should permit the borrowings from Treasury to be repaid and reserves replenished.

Department of Agriculture

FEDERAL CROP INSURANCE CORPORATION

FEDERAL CROP INSURANCE CORPORATION FUND

(Supplemental now requested, existing legislation)

For fiscal year 1984 and thereafter, the Federal Crop Insurance Corporation may borrow from the Secretary of the Treasury such amounts as may be necessary to enable the Corporation to discharge its responsibility under 7 U.S.C. 1508(b)(c), if the Secretary of Agriculture certifies that available funds are insufficient to pay losses.

Program and Financing (in thousands of dollars)

Identification code	12-4085-1-3-351	1983 actual	1984 est.	1985 est.
Financing:				
21.47	Unobligated balance available, start of year			-100,000
24.47	Unobligated balance, end of year		100,000	100,000
47.00	Authority to borrow (indefinite)		100,000	
Relation of obligations to outlays:				
71.00	Obligations incurred, net			
90.00	Outlays			

This proposed supplemental appropriation would provide for the timely replenishment of the Federal Crop Insurance Corporation Fund to provide adequate resources to pay indemnities in the event the Corporation experiences extraordinary and widespread adverse weather or other natural disasters. Given the seriously reduced capital position of the Fund, existing authority for such payments is not adequate to meet the anticipated program requirements over the next few years.

Accordingly, permanent indefinite borrowing authority is being requested to assure timely payments of indemnities to farmers pursuant to the terms of their insurance contracts entered into under this program. This proposal represents the best estimate available at this time as to what the needs of the Fund will be.

FOOD AND NUTRITION SERVICE

FOOD STAMP PROGRAM

(Supplemental now requested, existing legislation)

For an additional amount for the "Food stamp program", \$308,037,000.

Program and Financing (in thousands of dollars)

Identification code	12-3505-1-1-605	1983 actual	1984 est.	1985 est.

74.40	Obligated balance, end of year	-308	
90.00	Outlays	307,729	308

The proposed supplemental is needed to provide benefits to eligible recipients.

CHILD NUTRITION PROGRAMS

(Supplemental now requested, existing legislation)

For an additional amount for "Child nutrition programs", \$545,544,000: *Provided, That the proviso requiring that \$6,000,000 be used to conduct an extension of the ongoing pilot study of alternatives to commodity distribution in the school lunch program and the proviso requiring that such a study be conducted for school year 1984-85 contained in Public Law 98-151 are deleted.*

74.40	Obligated balance, end of year		-20,873	
90.00	Outlays		146,113	20,873

The proposed supplemental would fund the program for the entire fiscal year, since the appropriation was made available only through July 10, 1984.

FOOD DONATIONS PROGRAM

(Supplemental now requested, existing legislation)

Funds provided for the Food Donations program for 1984 shall remain available until September 30, 1985.

GENERAL PROVISIONS—MILITARY CONSTRUCTION

The appropriation, "Military construction, Defense Agencies 1984/1988" is amended by inserting the following after "Provided,": "That such amounts of this appropriation as may be determined by the Secretary of Defense may be transferred to such appropriations of the Department of Defense available for military construction as he may designate, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided further,".

This proposed language would permit the transfer of funds from Military Construction, Defense Agencies to other military construction appropriations as determined by the Secretary of Defense.

Section 731 of the Department of Defense Appropriation Act, 1984, is repealed.

This proposed language would permit the Department of Defense to make a full payment to the Federal Employees Compensation Fund in 1984.

Section 794 of the Department of Defense Appropriation Act, 1984, is repealed.

The proposed language would eliminate the requirement that written guarantees be provided for major weapons systems before funds could be obligated or expended on such systems.

Higher education account for 1984. Transferring the \$10 million appropriation to this account will avoid unnecessary accounting activities for these funds.

HIGHER EDUCATION

(Supplemental now requested, existing legislation)

Funds appropriated in 1984 for the endowment grant program under section 333 of the Higher Education Act of 1965 shall remain available until expended. Of the additional amount made available in the appropriation under this head in the Supplemental Appropriations Act, 1984 (Public Law 98-181), for part B of title IX of the Higher Education Act of 1965, notwithstanding sections 922 and 923, up to \$500,000 shall be available to endow or otherwise support the Sam J. Ervin, Jr. Program in Public Affairs.

The schedule reflects the transfer of funds to other accounts. The proposed appropriation language would extend the availability of funds for the endowment grant program under title III of the Higher Education Act. This would ensure that 1984 funds intended to be used for the new endowment program would continue to be available for this purpose in case some matching grants could not be awarded before the end of the fiscal year. The language would also overcome certain impediments to the carrying out of the intent of the Congress concerning the use of funds for the Sam Ervin Program in Public Affairs.

COLLEGE HOUSING LOANS

(Supplemental now requested, existing legislation)

This appropriation language would prohibit any college housing loan obligations from being made for new loans in 1984. Any available excess amount of income from loan repayments and other sources, over operating expenses, would be used to amortize the outstanding debt on participation certificates held by the Government National Mortgage Association.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

(Supplemental now requested, existing legislation)

Note.—This supplemental request is presented on the same, merged basis as the regular Salaries and expenses schedule in Part I. The program administration request would provide additional funds for activities currently financed under Department of Education, Departmental Management, Salaries and expenses. The Inspector General request would provide additional funds for activities currently financed under Department of Education, Departmental Management, Office of the Inspector General.

This supplemental would be used to pay compensation, benefits, and attendant travel and office space rental costs for 28 full-time equivalent staff in the Office of the Inspector General. An additional portion of the funds would be used for contract and ADP expenses in this office. The remainder would be used for unanticipated increases in space rental charges related to program administration activities.

This supplemental request would provide: (1) \$38.3 million to pay prior year foster care claims which have been deemed to be allowable by the Department of Health and Human Services. (2) \$4.9 million to meet adoption assistance claims submitted by States, and deemed allowable by the Department of Health and Human Services, for payments to families adopting children with special needs.

Department of Housing and Urban Development

HOUSING PROGRAMS

SUBSIDIZED HOUSING PROGRAMS

ANNUAL CONTRIBUTIONS FOR ASSISTED HOUSING

(Appropriation language now requested, existing legislation)

For an additional amount for contracts for annual contributions, not otherwise provided for, \$62,426,893, of which \$6,160,000 shall be available for contracts that were reserved or obligated using contract authority released by Acts of Congress prior to 1976: Provided, That the third proviso under the heading "Annual Contributions for Assisted Housing in the Department of Housing and Urban Development-Independent Agencies Appropriation Act, 1984 (Public Law 98-45) is rescinded.

This appropriation language would make available additional contract authority required to fund the subsidized housing program authorized in the Housing and Urban-Rural Recovery Act of 1983 as well as reconciling the Departments' accounting system to record actual amounts required for annual contributions contracts. In addition, this supplemental would increase the Department's flexibility in using recaptures and new budget authority for the public housing modernization program. This increased flexibility will not change the modernization level of \$1,550 million. In addition, the supplemental language would delete the requirement that the first \$1,926 million of recaptures can only be used for assistance for Housing for the Elderly and Handicapped program (section 202).

RENTAL REHABILITATION GRANTS

(Supplemental now requested, existing legislation)

Budget authority in the amount of \$300,000,000 shall be transferred from the amounts provided in the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1984, under the heading "Annual Contributions for Assisted Housing" (Public Law 98-45, 97 Stat. 219), for section 5(c) of the United States Housing Act of 1937, as amended (42 U.S.C. 1437(4c)), and otherwise deferred until March 31, 1984 pursuant to the ninth proviso under such heading, as added by section 127 of Public Law 98-151, and upon enactment here of such amount shall be available as an appropriation of funds for rental rehabilitation grants to States and units of general local government pursuant to section 17(a)(1)(A) of the United States Housing Act of 1937, as amended, as authorized in section 17(a)(3)(A) of that Act, to remain available until September 30, 1986: Provided, That \$150,000,000 of such budget authority shall not be available until October 1, 1984: Provided further, That notwithstanding the provisions of section 17(b)(4) of such Act, any rental rehabilitation grant amounts not obligated at the end of fiscal year 1984 shall not be added to the amount available for allocation for such grants for fiscal year 1985 but shall remain available for obligation according to the fiscal year 1984 allocation and consistent with the terms and conditions of law applicable as of September 30, 1984: Provided further, That notwithstanding the provisions of section 17(a)(3)(A) of such Act, up to \$1,000,000 of the funds for which provision is made in this paragraph, for fiscal years 1984 and 1985, may be made available for technical assistance.

This proposal would provide funds for the rental rehabilitation grants program authorized by section 17 of the U.S. Housing Act of 1937.

RENTAL DEVELOPMENT GRANTS

(Supplemental now requested, existing legislation)

Budget authority in the amount of \$315,000,000 shall be transferred from the amounts provided in the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1984, under the heading "Annual Contributions for Assisted Housing" (Public Law 98-45, 97 Stat. 219), for section 5(c) of the United States Housing Act of 1937, as amended (42 U.S.C. 1437(4c)), and otherwise deferred until March 31, 1984, pursuant to the ninth proviso under such heading, as added by section 127 of Public Law 98-151, and upon the enactment here of such amount shall be available as

an appropriation of funds for development grants to States and units of general local government pursuant to section 17(a)(1)(B) of the United States Housing Act of 1937, as authorized in section 17(a)(3)(B) of that Act, to remain available until September 30, 1986: Provided, That \$115,000,000 of such budget authority shall not be available until October 1, 1984.

This proposal would allow the Department to reduce budget authority by an additional \$354.3 million in the Rental Housing Assistance program. The Department would recapture this authority under the existing plan for converting all units in insured projects receiving rental assistance payments to the section 8 program during 1984 and 1985.

COMMUNITY PLANNING AND DEVELOPMENT

URBAN HOMESTEADING

(Appropriation language now requested, existing legislation)

Of the budget authority provided under this heading in the Department of Housing and Urban Development-Independent Agencies Appropriation Act, 1984 (Public Law 98-45), up to \$1,000,000 shall be available for the demonstration program authorized pursuant to section 810(i), and for the evaluation of such demonstration program pursuant to section 810(j), of the Housing and Community Development Act of 1974, as amended.

This appropriation language would enable the Department of Housing and Urban Development to implement a demonstration in 1984 to determine the feasibility of providing assistance to State and local governments in purchasing one- to four-family properties for conveyance to lower income families. This demonstration is authorized by the Housing and Urban-Rural Recovery.

Supplemental funding is requested to provide the necessary funding and staffing for the Civil Division to defend the United States in litigation associated with the recent bond default by the Washington Public Power Supply System and to litigate the increasing caseload resulting from an additional number of challenges to the Government's programs, policies and initiatives under the immigration and naturalization laws. Also, funding is requested to cover increased litigation expenses of the legal divisions as a result of enactment of the Right to Financial Privacy Act of 1978, modification of Rule 6(e)(1) of the *Federal Rules of Criminal Procedure* in 1979, and the recent U.S. Supreme Court decision in *Sells Engineering*. In addition, funds for the

organizations in the General Legal Activities Appropriation are being requested to enable them to fund the seven percent increase in the Standard Level User Charges and private legal fees authorized by Public Law 98-166.

Language allowing for the carry-over of a portion of litigation support contract funding was first enacted in 1983. The authority is needed to protect funding allocated to support major case requirements arising in the fourth quarter of the fiscal year. The word "asbestos" is deleted because it is impossible to predict whether these major case requirements will include only asbestos litigation or also other types of litigation for which litigation support contract funding has been provided.

FEES AND EXPENSES OF WITNESSES

(Appropriation language now requested, existing legislation)

Funds appropriated under the above head shall be available for use of facilities required as command posts in the protection of witnesses, and for official phone calls made from command posts.

Of funds appropriated under the above head, not to exceed \$850,000 shall be available for planning, construction, renovation, maintenance, remodeling, and repair of buildings and the purchase of equipment incident thereto for protected witness safesites.

This proposed supplemental language change would clarify the Department's authority to use this appropriation to fund specific expenses incident to the operation of the Witness Security program—specifically the operation of command posts and the "renovation and construction" expenses associated with the establishment of "safesite" facilities for the protection of individuals admitted to the Witness Security program and the processing and protection of individuals considered to be protected entrants into the Witness Security program. The language change clarifies (1) the extent of the authority given to the Attorney General by title V, section 502, Public Law 91-452, The Organized Crime Control Act of 1970 as it relates to "renovation" and "construction" in light of 41 U.S.C. 12 and 31 U.S.C. 1301, 1307 and (2) the source of funding to exercise the authority contained in section 502.

INTERAGENCY LAW ENFORCEMENT

ORGANIZED CRIME DRUG ENFORCEMENT

(Appropriation language requested, existing legislation)

In the appropriation language under the above head, delete "\$13,860,000" and insert in lieu thereof "\$10,692,000."

The proposed change reduces the amount of funds which are to be available for purchase of automated data processing and telecommunications equipment through September 30, 1985, in support of the Organized Crime Drug Enforcement program. This necessary revision reflects a more realistic estimate of the resources required for these specific purposes during 1984 and 1985. The lower amount is consistent with more detailed justification material previously provided to Congress.

This supplemental appropriation is requested to repay borrowings from the Department of the Treasury. The borrowings were used to refinance interest payments on prior debt. Because Treasury lends these funds at the current interest rate, an appropriation is also requested to cover interest that is accruing each day until the borrowings are repaid.

CONRAIL LABOR PROTECTION

(INCLUDING TRANSFER OF FUNDS)

(Supplemental now requested, existing legislation)

For an additional amount for "Conrail labor protection" \$10,000,000, to remain available until expended, together with \$15,000,000 to be derived from the unobligated balances of Conrail Workforce Reduction (section 702) funds.

This supplemental appropriation is requested to repay borrowings from the Department of the Treasury. The borrowings were used to refinance interest payments on prior debt. Because Treasury lends these funds at the current interest rate, the request also includes an appropriation to cover interest that is accruing each day until the borrowings are repaid. The original borrowings paid for the properties of the Reading Railroad, the Penn Central Transportation Co. and their subsidiaries and affiliates transferred to Conrail in 1976.

GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

(Supplemental now requested, existing legislation)

For an additional amount for "Grants to the national railroad passenger corporation", \$1,119,636,000, to remain available until expended, *for payment to the Secretary of Treasury for debt reduction, along with such sums as may be necessary for the payment of interest due to the Secretary of Treasury under the terms and conditions of such debt.*

This supplemental appropriation is requested to repay borrowings from the Department of the Treasury. The borrowings paid for loan payments to the Federal Financing Bank on behalf of Amtrak, which was unable

to meet its payments. Because Treasury lends these funds at the current interest rate, an appropriation to cover interest that is accruing each day is also requested until the borrowings are repaid.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING FUNDS

(Supplemental now requested, existing legislation)

For an additional amount for "Railroad rehabilitation and improvement financing funds", \$667,000, to remain available until expended, for payment to the Secretary of Treasury for debt reduction, *together with such sums as may be necessary for the payment of interest due to the Secretary of Treasury under the terms and conditions of such debt.*

REAL PROPERTY ACTIVITIES

FEDERAL BUILDINGS FUND

LIMITATIONS ON AVAILABILITY OF REVENUE

(Limitation increase now requested, existing legislation)

In addition to the aggregate amount heretofore made available for real property management and related activities in fiscal year 1984, \$50,000 shall be made available for such purposes and shall remain available until expended for the construction and acquisition of facilities, as follows:

Payment of Construction Claim:

Kansas: Topeka, Federal Building, Courthouse, and Parking Facility, \$50,000.

Provided, That the immediately foregoing limit may be exceeded to the extent that savings are effected in other such projects but by not to exceed 10 per centum: Provided further, That claims against the Government of less than \$10,000 arising from direct construction projects, acquisitions of buildings, and purchase contracts pursuant to Public Law 92-313 be liquidated with prior notification of the Committees on Appropriations of the House and Senate to the extent savings are effected in other such projects: Provided further, That any revenues and collections and any other sums accruing to this fund during fiscal year 1984, excluding reimbursements under section 210(f)(6) in excess of \$2,016,277,000 shall remain in the fund and shall not be available for expenditure except as authorized in Appropriation Acts.

This supplemental appropriation would fund the automatic data processing conversion necessary to the transfer of responsibility for publication of the Catalog of Federal Domestic Assistance programs from the Office of Management and Budget to the General Services Administration.

Office of Personnel Management

SALARIES AND EXPENSES

(INCLUDING TRANSFERS FROM TRUST FUNDS)

(Appropriation language now requested, existing legislation)

Notwithstanding the limitation on expenses for travel contained in the House passed bill (H.R. 4139) and carried forward by Public Law 98-151, expenses for travel within the level of existing resources, to carry out the requirements of the Voting Rights Act of 1965, such amounts as are necessary are hereby authorized.

This request would allow the Office of Personnel Management to obligate funds for necessary travel expenses to carry out the requirements of the Voting Rights Act of 1965. The workload for this program is determined by the Department of Justice.

PAYMENT TO CIVIL SERVICE RETIREMENT AND DISABILITY FUND

(Supplemental now requested, existing legislation)

For an additional amount for "Payment to Civil Service Retirement and Disability Fund", \$203,173,000.

Relation of obligations to outlays:			
71.00	Obligations incurred, net	203,173	
90.00	Outlays	203,173	

This supplemental request would provide for mandatory payments to the Civil Service Retirement and Disability Fund. Under the provisions of the Civil Service Retirement Amendments of 1969, unfunded liability generated by new statutes must be financed in 30 equal annual installments, with the first payment due as of the end of the fiscal year in which each new liberalization, extension of coverage, or increase in pay is effective.

The majority of this request consists of the first of 30 annual payments for the January 1984 pay adjustment for General Schedule and Wage Board employees. The balance represents recomputations of previously requested appropriations.

REVOLVING FUND

(Appropriation language now requested, existing legislation)

Pursuant to section 1304(e)(1) (i) (ii) of title 5, United States Code, not to exceed \$12,000 shall be for entertainment expenses of the President's Commission on Executive Exchange.

This language would provide a limitation on entertainment expenses for the President's Commission on Executive Exchange as required by law.

Relation of obligations to outlays:				
71.00	Obligations incurred, net		101,900	
90.00	Outlays		101,900	

This supplemental would provide \$56.4 million for greater than expected average benefit payments, and replenish \$45.5 million transferred to the Compensation account in 1983 to fully fund that program's obligations, when the 1983 supplemental for compensation was not enacted.

READJUSTMENT BENEFITS

(Supplemental now requested, existing legislation)

For an additional amount for "Readjustment benefits", \$52,200,000, to remain available until expended.

Program and Financing (in thousands of dollars)

Identification code	36-0137-1-1-702	1983 actual	1984 est.	1985 est.

Relation of obligations to outlays:				
71.00	Obligations incurred, net		52,200	
90.00	Outlays		52,200	

This supplemental appropriation would provide funds for correspondence training and advance payment of education allowances. The 1984 appropriation assumed elimination of these items. Neither of these items were eliminated and as a result an additional \$20.5 million will be required. The remaining \$31.7 million is requested as a result of the shifting of some obligations from 1983 into 1984 due to the nonenactment of the 1983 supplemental.

MEDICAL CARE

(Supplemental now requested, existing legislation)

For an additional amount for "Medical care", \$15,000,000.

This supplemental request would provide funds for the Advance Records System. This system provides the telecommunication link for transmission of information from the field facilities to the central processing facility at Austin, Texas.

**Other Independent Agencies
CIVIL AERONAUTICS BOARD**

SALARIES AND EXPENSES

(Supplemental now requested, existing legislation)

For an additional amount for "Salaries and expenses", \$2,490,000, for the period August 1, 1984 through September 30, 1984; provided that any unobligated amounts already appropriated under Public Law 98-78 shall remain available until September 30, 1984.

74.00 Obligated balance, end of year		-1,500	
90.00 Outlays		990	1,500

This proposed supplemental would provide funds to pay the Board's salaries and expenses in August and September of 1984. The amount requested here together with the \$18.4 million already appropriated by Congress under Public Law 98-78 for the 10-month period ending August 1, 1984, will provide funding at the President's requested level of \$20,890,000.

This proposal allows unobligated funds from the \$18.4 million appropriation to be expended during August and September.

These supplemental appropriations are pending before the Congress. The funds would support the construction of joint facilities in support of the Rapid Deployment Force at Ras Banas, Egypt (\$55.0 million) and would also provide for a fueling pier at Keflavik, Iceland (\$30 million).

SECTION IV—RESCISSION PROPOSALS

Department of Housing and Urban Development

PUBLIC AND INDIAN HOUSING PROGRAMS

PAYMENTS FOR OPERATION OF LOW-INCOME HOUSING PROJECTS

(Rescission proposal)

Program and Financing (in thousands of dollars)

Identification code	1983 actual	1984 est.	1985 est.

74.40 Obligated balance, end of year		165,431	431
90.00 Outlays		-166,000	-165,000

This rescission is proposed because the carryover of 1983 resources plus the 1984 appropriation are expected to be greater than 1984 program requirements. The 1984 program level is expected to be lower than earlier estimates because of a decline in the rate of inflation in public and Indian housing operating costs and increased rental income from tenants.

90.00 Outlays			

This proposal would rescind 1984 contract authority for land acquisition. This authority has not been used in recent years and has been rescinded by Congress for the last two fiscal years. Significant increases in the authorized level of the Land and Water Conservation

Fund and the use of reprogramming procedures have eliminated the need for the authority.

This rescission is proposed because vessel traffic in 1984 is estimated to be below the 1983 level as a result of the continuing world-wide effects of the maritime rescission. Pursuant to the Panama Canal Treaty of 1977, Panama Canal Commission operating expenses must equal revenue. The proposed rescission reduces appropriation levels to reflect the lower traffic volume estimates.

¹ Reflects exclusion of interest received by REA as trustee for holders of certificates of beneficial ownership.

This rescission proposal would reduce fiscal year 1984 budget authority by \$197,862,000, the amount made available to reimburse the Rural Electrification and Telephone Revolving Fund for losses incurred in fiscal year 1982. This reimbursement to the Revolving Fund is not necessary since the fund's actual interest income exceeded its interest expense in 1982.

The Federal Government, however, incurred a loss of at least \$197 million in 1982 from REA loans because REA direct loan interest rates are below the cost of Government borrowing. An appropriation to the Revolving Fund would continue a costly loan subsidy. The only way to cover this loss to the Government and the taxpayer is to raise REA direct loan interest rates to the cost of Government borrowing. This would be in accord with the original statute establishing the REA loan program, which set interest rates at and above Treasury cost of borrowing.

This rescission proposal would eliminate the capitalization funds appropriated by Congress. This is proposed for the following reasons: The Federal Government has already provided the \$300 million in capital called for in the original statute establishing the Bank. These funds only begin to be repaid starting in 1995; the Bank has the authority to raise funds in private credit markets on the \$300 million capital base provided by the Federal Government; the Bank is authorized to borrow without limitation from the Treasury at

the Treasury's cost of money interest rate, with 50-year repayment terms; and, even with this proposal, the Bank would continue to be heavily subsidized with taxpayer dollars and rural telephone borrowers would continue to enjoy low-cost money. The Bank has already

reduced its interest rate from 10.4 percent in 1983 to 10 percent in 1984.

This proposal would not affect the Bank's lending levels or outlays, nor would it reduce the total budgetary resources available to the Bank.

PART III

OFF-BUDGET FEDERAL ENTITIES

III-1

EXPLANATION OF ESTIMATES

Part III contains detailed budgets and explanatory statements of certain Federal entities that are not included in the budget totals. These budgets and statements are made available as auxiliary information.

Public Law 93-32 removed from the budget totals the governmental financing of rural electric and telephone systems administered by the Department of Agriculture.

The Board of Governors of the Federal Reserve System provides its administrative budget for inclusion without further review. In conformance with its accounting system, the figures for the Board are on a calendar year basis.

Public Law 97-35 established the Strategic Petroleum Reserve account for the purpose of acquisition, transportation, and injection of petroleum products into the strategic petroleum reserve. The law specifies that account transactions shall not be included in the budget totals.

The Federal Financing Bank was created by the Federal Financing Bank Act of 1973. The bank is authorized to make direct loans by making commitments to purchase and sell, and purchasing and selling on terms

and conditions determined by the bank, any obligation that is issued, sold, or guaranteed by a Federal agency. The Federal Financing Bank is administered by the Department of the Treasury.

The budget presentation of the Postal Service reflects its conversion to independent status consistent with the Postal Reorganization Act of 1970. The activities of the Postal Service, but not the Federal subsidy (which is included on budget in Part I), are excluded from the budget totals and presented here.

The United States Railway Association, established by the Regional Rail Reorganization Act of 1973, is a Government corporation. Part of the financing activities of the Association is presented here, while the administrative expenses of the Association and the purchase of Conrail securities are included on-budget in Part I.

The United States Synthetic Fuels Corporation was established by the United States Synthetic Fuels Act of 1980. Although the activities of the Corporation are off-budget, all the Federal funds provided to the Corporation are included in the budget totals in the Department of the Treasury.

RURAL ELECTRIFICATION ADMINISTRATION

To carry into effect the provisions of the Rural Electrification Act of 1936, as amended (7 U.S.C. 901-950(b)), as follows:

RURAL ELECTRIFICATION AND TELEPHONE REVOLVING FUND LOAN AUTHORIZATIONS*

* See Part II for additional information.

Insured loans pursuant to the authority of section 305 of the Rural Electrification Act of 1936, as amended (7 U.S.C. 935), shall be made as follows: rural electrification loans, not more than \$500,000,000, and rural telephone loans, not more than \$75,000,000; to remain available until expended: Provided, That loans made pursuant to section 306 of that Act are in addition to these amounts but during 1985 total commitments to guarantee loans pursuant to section 306 shall be not more than \$1,325,000,000 of contingent liability for total loan principal.

Note.—A regular 1984 appropriation for this account had not been enacted at the time this budget was prepared. A continuing resolution (Public Law 98-151) provides funds through September 30, 1984.

¹ Sales of certificates of beneficial ownership (CBO's) are reflected as reductions of loans outstanding and corresponding increases in guaranteed loans. This treatment results from the provisions of 7 U.S.C. 1932(d)(6). These transactions are not reflected in the direct or guaranteed loan limitation levels.

² Adjustment to prior year outstanding balance.

The Rural Electrification Administration conducts two loan programs: (1) The rural electrification program and (2) the rural telephone program.

Direct electric and telephone loans from the Rural Electrification and Telephone Revolving Fund (RETRF) bear interest at a 5% rate. Some loans may be made at a lesser rate. RETRF loans must be repaid within a period not to exceed 35 years. REA also guarantees loans made directly by the Government through the Federal Financing Bank (FFB) and may be made by other qualified lenders at rates agreed upon by the lender and the borrower.

Loans from the RETRF are financed from available receipts or, when necessary, by interim Treasury borrowings. Loans made from the RETRF are held in a pool as security for certificates of beneficial ownership (CBO's) which are sold to investors.

1. *Rural electrification.*—This loan program is financed through REA direct and guaranteed loans for the construction and operation of generating plants, electric transmission, and distribution lines or systems. Electric demand growth as well as demand for REA direct and guaranteed loans have dropped sharply over the past several years. The reduction in the 1985 loan level from 1984 reflects an expected continuation of decline in loan demand.

RURAL TELEPHONE BANK*

*See Part II for additional information.

The Rural Telephone Bank is hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to such corporation in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as amended, as may be necessary in carrying out its authorized programs for the current fiscal year. During 1985 and within the resources and authority available, gross obligations for the principal amount of direct loans shall be not more than \$185,000,000.

Note.—A regular 1984 appropriation for this account had not been enacted at the time this budget was prepared. A continuing resolution (Public Law 98-151) provides funds through September 30, 1984.

The Rural Telephone Bank (RTB) provides a supplemental source of financing for the REA telephone loan program. The bank charges an interest rate based on the average cost of money to the bank, but not less than 5 percent per annum. The weighted average interest rate on cumulative loans through September 30, 1983, was 8.13 percent. During the first quarter of 1984, loans were made at 10.0 percent interest.

Equity capital of the bank consists of class A stock purchased by the United States, classes B and C stock purchased by bank borrowers, organizations eligible to become borrowers and organizations controlled by borrowers, and retained earnings. The maximum borrowing authority of the bank by law is limited to 20 times its paid-in capital and retained earnings. Total available borrowing authority of the bank for 1984 is estimated at \$10.4 billion. For 1985, it is estimated at \$10.7 billion.

Administrative support for the general operations of the bank are provided on a part-time basis by REA employees and the Office of the General Counsel, without cost to the bank, as provided for in the enabling legislation. Certain administrative expenses, such as expenses of the elected members of the Board of Directors, postage fees and the audit by the General Accounting Office, must be borne by the bank.

Bank loans totaled \$171 million in 1983. After almost 12 years in operation, loans to 524 borrowers have been approved, totaling over \$1.860 billion. Telephone bank loans are estimated at \$185 million for 1984 and \$185 million for 1985.

A rescission is proposed to eliminate the 1984 \$30 million appropriation to the Bank. This proposal would not affect total budget authority or outlays. See part II for additional information.

The Federal Reserve System operates under the provisions of the Federal Reserve Act of 1913, as amended, and other acts of Congress.

Program.—To carry out its responsibilities under the act, the Board determines general monetary, credit, and operating policies for the System as a whole and formulates the rules and regulations necessary to carry out the purposes of the Federal Reserve Act. The Board's principal duties consist of exerting an influence over credit conditions and supervising the Federal Reserve banks and member banks.

Financing.—Under the provisions of section 10 of the Federal Reserve Act, the Board of Governors levies upon the Federal Reserve banks, in proportion to their capital and surplus, an assessment sufficient to pay its estimated expenses. The Board, under the act, determines and prescribes the manner in which its obligations are incurred and its expenses paid. Funds derived from assessments are deposited in the Federal Reserve Bank of Richmond, and the Act provides that such funds "shall not be construed to be Government funds or appropriated moneys." No Government appropriation is required to support operations of the Board.

The information presented pertains to Board operations only, expenditures made on behalf of the Federal Reserve Banks for production, issuance, retirement, and shipment of Federal Reserve notes are not included, since they are reimbursed in full by the Federal Reserve Banks.

This fund was established in 1982 pursuant to the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35). The Act established a "SPR Petroleum Account" to provide for the acquisition, transportation, and injection of petroleum and for its potential drawdown and distribution. Further, it provided that the account, the deposits and withdrawals, and any associated receipts in case of a drawdown and distribution shall not be counted in the totals of the budget of the U.S. Government. The 1985 budget provides \$1,889,550,000 to purchase oil to fill the Strategic Petroleum Reserve at the rate of 145,000 barrels per day in 1985 and to provide advance orders for sustaining that fill rate in 1986.

The Federal Financing Bank (FFB) was created to assure the coordination of Federal and federally assisted borrowing from the public and to assure that such borrowings are financed in a manner least disruptive of private financial markets and institutions.

The Bank is the vehicle through which most Federal agencies finance their programs involving the sale or placement of credit market instruments, including agency securities, guaranteed obligations, participation agreements, and loan assets. The major exceptions are

During 1983 the Federal Financing Bank made guaranteed loan originations and loan asset purchases of \$18.5 billion, as well as \$1.3 billion in investments in Federal agency debt.

The following table reflects the composition of the FFB account by agency and program in thousands of dollars. Budget authority is equal to gross purchases of loan assets or guaranteed loan originations. Outlays equal budget authority less the repayment of principal.

² Reflects a transfer from Research and development to Spaceflight, control, and data communication.

The FFB in certain cases capitalizes the interest on loans outstanding. This capitalized interest is not reflected in the Bank's budget authority or outlays since it does not require FFB borrowing from the Treasury.

FFB purchases of Federal agencies' debt is not reflected in the budget totals because borrowing and the repayment of borrowings between Federal agencies and the Treasury are not budgetary transactions. These transactions are reflected as borrowing in the accounts of the particular agencies. The use of the FFB permits these agencies to borrow at lower rates than would occur if the agencies went to the market. This was a major reason for the creation of the Bank. They are financed by an equal amount of FFB borrowings from Treasury, which are an addition to the borrowings recorded in the statement of financial conditions. The extent of these FFB investments is reflected below:

Note.—1982 figures do not include finally approved audited data.

The Postal Reorganization Act of 1970, Public Law 91-375, converted the Post Office Department into the U.S. Postal Service, an independent establishment within the executive branch. The Postal Service commenced operations July 1, 1971. This agency is charged with providing patrons with reliable mail service at reasonable rates and fees.

The U.S. Postal Service is governed by an 11-member Board of Governors, including 9 Governors appointed by the President, a Postmaster General who is selected by the Governors, and a Deputy Postmaster General who is selected by the Governors and the Postmaster General.

Decisions on changes in domestic rates of postage and fees for postal services are recommended to the Governors of the Postal Service by the independent Postal Rate Commission after a hearing on the record under the Administrative Procedure Act. The Commission also recommends decisions on changes in the domestic mail classification schedule to the Governors. Decisions of the Governors on rates of postage, fees for postal services, and mail classification are final, subject to judicial review.

Programs.—Included are all postal activities providing window services; processing, delivery, and transportation of mail; research and development; administration of postal field activities; and associated expenses of providing facilities and financing.

Financing.—The activities of the U.S. Postal Service are financed from the following sources: (1) mail and services revenue, (2) reimbursements from Federal and non-Federal sources, (3) proceeds from borrowing, (4) interest from U.S. securities and other investments, and (5) appropriations by the Congress. All receipts and deposits are made to the Postal Service Fund and are available without fiscal year limitation for payment of all expenses incurred, retirement of obligations, investment in capital assets, and investment in obligations and securities.

Since 1973, transactions of the Postal Service Fund and the assets and liabilities of the U.S. Postal Service

no longer appear within the totals of the U.S. budget. The schedules presented here reflect summary data on postal operations.

Section 2005 of title 39, United States Code, authorizes the Postal Service to borrow by issuing obligations which may not exceed \$10 billion outstanding at any one time. In any one fiscal year, the net increase in amounts outstanding may not exceed \$1.5 billion in obligations issued for the purpose of capital improvements and \$500 million for the purpose of defraying operating expenses. As of September 30, 1985, it is expected that the total debt instruments issued and outstanding pursuant to this authority will amount to \$1.97 billion.

Operating.—Estimated receipts will total \$26.5 billion in 1985. This includes \$25.7 billion from mail and services revenue, \$52.0 million from investment income, \$692 million from appropriations and miscellaneous other income of \$18.0 million.

The United States Railway Association is authorized by the Regional Rail Reorganization Act, as amended, to borrow funds and make loans to certain railroads. These borrowings are guaranteed by the Secretary of Transportation and are limited to an aggregate of outstanding obligations of \$395 million. Two types of loans are currently authorized: (a) loans related to the implementation of the system plan developed by the Association for restructuring the bankrupt railroads in the Northeast and Midwest, and (b) loans to defray obligations of the reorganized railroads which were incurred prior to the conveyance of their rail properties but which were unpaid after the conveyance to the Consolidated Rail Corporation on April 1, 1976. In the past year, settlement of valuation cases resulted in the repayment of \$42.9 million in loan principal and \$27.7 million in accrued interest. No new loans will be made in 1985.

Congress in 1980 enacted the Energy Security Act creating the Synthetic Fuels Corporation (SFC). The Corporation is intended to assist private industry to finance the development of synthetic fuels from coal, oil shale and other energy resources. Private sector firms will plan, construct, operate and/or own the synthetic fuel plants, but will receive financial assistance from the Corporation in the form of purchase agreements, price guarantees, guaranteed loans and direct loans.

The legislation creating the Corporation provides that the Corporation's budget not be included in the totals of the U.S. budget. However, as the Corporation requires funds to make payments to private firms, it will receive funds from the Secretary of the Treasury. An on-budget account has been established for this purpose. As funds are provided from the Secretary of the Treasury to the Corporation, outlays will be recorded in the Federal budget.

Although the Corporation will enter into obligations of a significant amount in its early years, it is not expected to make large cash payments until the production of synthetic fuels actually begins later this decade.

In 1982, the unobligated and uncommitted balances of budget authority appropriated to the Department of Energy for the interim alternative fuels program were transferred to the Energy Security Reserve account in

the Treasury as soon as the SFC was declared to be operational by the President. Also, \$6,212,000,000 appropriated in 1980 to the Energy's Security Reserve account for the SFC, became available. Total resources available to the SFC in 1983 were \$14.9 billion.

In addition, in 1982 the SFC assumed responsibility for certain contracts and agreements initiated by the Department of Energy under interim authority. These contracts transferred to the SFC after it was declared to be fully operational.

Activities of the Corporation are expected to increase significantly in 1984 in the areas of financial assistance awards and project monitoring. Project solicitation and evaluation work also will continue, especially during the first half of 1984. As of December 2, 1983 two Corporation-assisted projects were being monitored, four had letters of intent, and two others were expected to receive letters of intent. The Directors also had authorized commitment of 131(u) cost sharing funds to one project. Thirteen projects were in negotiations.

The Corporation will evaluate proposals received in response to current and future solicitations. The outcome of current negotiations and future evaluations cannot be predicted with any degree of accuracy. Therefore, the estimates included here do not necessarily represent the actual level of Corporation commitments.

OTHER MATERIALS

IV-1

EXPLANATION OF OTHER MATERIALS

This section includes the following material:

(a) a list of advance appropriations, as required by the Congressional Budget Act of 1974 (31 U.S.C. 1105(17)), a list of appropriations with advance funding provisions, and a list of appropriations with forward funding provisions.

(b) a statement of amendments and revisions to 1984 budget authority requests that were transmitted to the

Congress after the 1984 budget but prior to the transmittal of the 1985 Budget, as required by the Congressional Budget Act of 1974.

(c) a statement of the amounts of appropriations requested for Offices of Inspectors General, as required by section 3 of the Federal Managers' Financial Integrity Act of 1982 (Public Law 97-255).

ADVANCE APPROPRIATIONS, ADVANCED FUNDING, AND FORWARD FUNDING FOR 1985

I. Advance appropriations are provided for use in a fiscal year, or more, beyond the fiscal year for which the appropriation act is passed. Advance appropriations in 1985 appropriations bills will provide funding for programs beyond 1985. Since these appropriations are not available until after 1985, the amounts will not be included in 1985 budget totals, but will be reflected in the budget totals for the fiscal year requested.

The Congressional Budget Act of 1974 (31 U.S.C. 1105(17)) requires inclusion in the budget of "information on estimates of appropriations for the fiscal year following the fiscal year for which the budget is submitted for grants, contracts, and other payments under each program for which there is an authorization of appropriations for that following fiscal year when the appropriations are authorized to be included in an appropriation law for the fiscal year before the fiscal year in which the appropriation is to be available for obligation." In fulfillment of this requirement, the table below lists those accounts authorized to receive, in 1985, advance appropriations for 1986 and later years. The listing is in two parts: Part A shows the amounts of advance appropriations included in the 1985 budget. Part B is a listing of accounts for which advance appropriations are authorized, but not requested in the 1985 budget.

A. Accounts for which advance appropriations are included in the 1985 budget:

Department of Health and Human Services:¹
Assistance payments program \$1,817,090 thousand for 1986.
Child support enforcement program \$150,000 thousand for 1986.
Supplemental security income program \$2,341,000 thousand for 1986.
Special benefits for disabled coal miners \$270,000 thousand for 1986.
Grants to States for medicaid \$5,980,000 thousand for 1986.
Corporation for Public Broadcasting: \$130,000 thousand for 1985; \$100,000 thousand request pending for 1986; \$110,000 thousand requested for 1987.

B. Accounts authorized to receive advance appropriations but for which none are requested in the 1985 budget:

Department of Agriculture:
Food program administration (42 U.S.C., sec. 1752).
Food donations program (Public Law 93-29, sec. 210).
Child nutrition programs (42 U.S.C., sec. 1752).
Department of Education. The following activities are authorized to receive advance appropriations (20 U.S.C. 1223):
Compensatory education for the disadvantaged.
Impact aid.
Special programs and populations.
Indian education.
Bilingual education.
Education for the handicapped.
Rehabilitation services and handicapped research.
Vocational and adult education.
Student financial assistance.
Guaranteed student loans.
Higher education.
College housing loans.

Educational research and statistics.
Libraries.
Special institutions.
Educational, research, and training activities overseas (special foreign currency program).

Department of Energy:

Fossil energy research and development (Public Law 98-146).

Department of Health and Human Services:

Family social services (Public Law 96-272).

Human development services (Public Law 97-35, sec. 657, Public Law 97-115, sec. 209).

¹ The accounts listed for the Department of Health and Human Services for which advance appropriations are requested for 1986 also are requesting advance funding (see section II).

II. Advance funding is authority provided in appropriation acts to obligate and disburse funds during a fiscal year from a succeeding year's appropriation. The funds so obligated increase the budget authority for the fiscal year in which obligated and reduce the budget authority of the succeeding fiscal year. Essentially, this is a device for avoiding supplemental requests late in the fiscal year for certain entitlement programs should the appropriations for the current year prove to be too low. The table below lists those accounts for which advance funding authority is requested in the 1985 budget.

Department of Health and Human Services:

Grants to states for medicaid.
Special benefits for disabled coal miners.
Supplemental security income program.
Assistance payments program.
Child support enforcement program.

Department of Labor:

Federal unemployment benefits and allowances.
Special benefits.
Black lung disability trust fund.

III. Forward funding is authority provided in an appropriations act to obligate funds in one fiscal year for the financing of ongoing programs of grantees during the succeeding fiscal year. The budget authority for such programs is included in the budget totals for the year in which it is appropriated. This device is often used for education programs, so that grants can be made prior to the start of the school year. The language providing forward funding for education programs will specify that amounts appropriated will not be available until some time into the year of the appropriation (e.g., July 1, 1985) and in most cases will specify that such amounts will remain available until the end of the succeeding fiscal year. The table below lists those accounts for which forward funding is requested in the 1985 budget.

Department of Education:

Compensatory education for the disadvantaged.
Special programs.
Education for the handicapped.
Vocational and adult education.
Student financial assistance.

In the training and employment area, forward funding is provided in some accounts by providing appropriations for a program year which starts in the fiscal

year of the appropriation and extends into the following fiscal year. Program years running from July 1 to June 30 are authorized for training programs under the Job Training Partnership Act, State Employment Service operations under section 6 of the Wagner-Peyser Act, and senior citizen employment programs under Title V of the Older Americans Act. The table below lists those

accounts for which such forward funding is requested in the 1985 budget:

Department of Labor:

Employment and Training Administration:

Training and employment services.

Community service employment for older Americans.

State Unemployment Insurance and Employment Services Operations.

STATEMENT OF AMENDMENTS TO AND REVISIONS IN BUDGET AUTHORITY FOR 1984

(Between the Transmittal of the 1984 and 1985 Budgets)

A statement of all amendments to or revisions in budget authority requested between submission of the 1984 budget and the 1985 budget is presented below. This statement is being included in the budget in accord with the Congressional Budget Act of 1974 (31 U.S.C. 1105(d)).

The modifications to requests for 1984 budget authority that were made through the course of the past year took three forms. If the Congress had not yet acted on a pending request, the President sent amendments to the budget requests transmitted in January, 1983. If appropriations had been enacted, the President proposed

either supplemental budget authority or rescission of enacted appropriations.

Amendments and requests for supplemental appropriations are printed in the documents of the House of Representatives and the Senate that are identified in part A of the following listing. The President's proposals for rescission are included in special messages to the Congress under the Impoundment Control Act of 1974 (Public Law 93-344). Both the special messages and monthly cumulative reports on the items they cover are printed in the Federal Register.

GOVERNMENT-SPONSORED ENTERPRISES

V-1

GOVERNMENT-SPONSORED ENTERPRISES

Part V contains detailed budgets and explanatory statements of certain Government-sponsored enterprises. All of these enterprises were established and chartered by the Federal Government and are sponsored by a Government agency, although they are privately owned and generally privately financed. These budgets are not reviewed by the President; they are presented as submitted by the enterprises. This section includes:

- (a) Student Loan Marketing Association.
- (b) Federal National Mortgage Association.
- (c) Banks for cooperatives.
- (d) Federal intermediate credit banks.
- (e) Federal land banks.
- (f) Federal home loan banks.
- (g) Federal Home Loan Mortgage Corporation.

The Student Loan Marketing Association (SLMA) is a corporation to assist in financing college student loans. It is currently sponsored by the Department of Education.

The Federal National Mortgage Association is a mortgage finance corporation supervised by the Department of Housing and Urban Development.

The banks for cooperatives, Federal intermediate credit banks, and Federal land banks are supervised by the Farm Credit Administration.

The Federal home loan banks and the Federal Home Loan Mortgage Corporation are both supervised by the Federal Home Loan Bank Board.

¹Amortization of discount on purchased loans.

The Student Loan Marketing Association (SLMA), a private corporation, was created by the Education Amendments of 1972 to expand funds available for student loans by providing liquidity to lenders engaged in the Guaranteed student loan program.

The forecast data with respect to operations are based on certain specific assumptions by management, including the continued successful development, implementation, and financing of authorized programs. The board of directors has not yet reviewed or approved these financial estimates. Accordingly, such data should not be relied upon as an official forecast of the corporation's future business.

SLMA provides liquidity through direct purchase of insured student loans from eligible lenders and by warehousing, which provides lenders with capital ad-

vances when they are secured by insured student loans or by Government or agency securities. SLMA is authorized at the request of appropriate State and Federal officials, to make direct loans to students in capital shortage areas; and to advance funds to States which will provide loans to students. Public Law 97-35 authorized SLMA to provide a secondary market for noninsured loans; at the request of the Secretary of Education to serve as a guarantee agency in support of loan availability; to purchase and underwrite student loan revenue bonds; and to provide such additional services as determined by its Board of Directors to be supportive of the credit needs of students.

SLMA is authorized by the Health Professions Educational Assistance Act of 1976 to provide a secondary market for Federally insured loans to graduate health professions students.

Between November 1981 and October 1983, SLMA consolidated 31,805 loans worth \$389,668 thousand. On November 1, 1983, the authority to carry out this activity expired. Between 1980 and 1983, it was also authorized to make direct loans to borrowers for purposes of loan consolidation.

Operations.—At September 30, 1983, SLMA had \$3,254,894 thousand outstanding in warehousing advances. It is expected that volume will reach an adjusted level of \$2,906,748 thousand by September 30, 1984, with continued activity in 1985. SLMA expects to purchase \$1,805,000 thousand in loans in 1984, and have a net increase of \$1,342,396 thousand in 1985. At September 30, 1983, SLMA had entered into agreements to purchase during the next 167 months up to \$929 million insured student loans if such loans are offered for sale. At September 30, 1984, SLMA expects to have outstanding \$929 million of such agreements to purchase.

Financing.—Between 1974 and early 1982, SLMA borrowed through the Federal Financing Bank. The Secretary of Education was authorized by the Education Amendments of 1980 to guarantee principal and interest on such obligations issued prior to October 1, 1984. Under an agreement with the Department of the Treasury reached in early 1981, Sallie Mae began borrowing directly in the private capital markets. Its last borrowing through the FFB occurred in January 1982. Its obligations today have certain characteristics, provided by Charter, which give them "agency" status, but they are not Federally insured or guaranteed. As of September 30, 1983, SLMA had outstanding \$5,000,000 thousand in long-term notes from the Federal Financing Bank, as well as \$3,224,664 thousand in nonguaranteed

STUDENT LOAN MARKETING ASSOCIATION—Continued

obligations. Nonguaranteed obligations included \$95,139 thousand in discount notes, \$80,016 thousand in short-term debt obligations and \$3,049,509 thousand in long-term debt obligations.

In 1983, SLMA also for the first time issued \$250,000 thousand in adjustable rate preferred stock—under authority in its original Charter—and \$230,000 thousand in nonvoting common stock, including \$110,000 thousand in new primary capital—under authority granted by the Education Amendments of 1980—to the general public.

Management.—At its annual meeting in May 1983, the shareholders of SLMA elected a board of directors to serve until May of 1984. The shareholders of SLMA are entitled to elect 14 members to the board. Pursuant to the Education Amendments of 1972, seven public directors including the chairman were appointed by the President.

The Federal National Mortgage Association (FNMA) is a Government-sponsored private corporation. Its purpose is to provide supplementary assistance to the secondary market for home mortgages by supplying a degree of liquidity for mortgage investments, thereby improving the distribution of investment capital available for home mortgage financing.

FNMA purchases mortgages at market prices pursuant to commitments issued to sellers through a variety of programs. It finances these purchases primarily through the issuance of debt securities. FNMA's debt instruments are characterized as "Agency Issues" in the securities market, but not in the Federal Government budget.

The common stock of the Corporation is owned by the public, is fully transferable and is listed on major stock exchanges.

The forecast data contained in this material has been developed based on certain general economic assumptions prevalent in July 1983 and should not be construed as an official forecast of the Corporation's position.

The Corporation has three separate authorities to borrow money from private sources. It may issue subordinated obligations. It may, in addition, borrow amounts not in excess of the sum of net equity and subordinated obligations outstanding multiplied by a factor established by the Secretary of Housing and Urban Development. This factor is currently set at 30. These borrowings usually take the form of debentures and short-term discount notes. Finally, FNMA may issue securities guaranteed by the Government National Mortgage Association which are fully backed by pools of mortgages. There is no statutory limitation on the amount of those obligations that may be outstanding.

According to accounting practices for private corporations, the mortgages in the pools of loans supporting the mortgage-backed securities are considered to be owned by the holders of these securities. Consequently, on the books of the Federal National Mortgage Association, these mortgages are not considered assets and the securities outstanding are not considered liabilities. However, the concepts of the budget of the U.S. Government consider these mortgages and mortgage-backed securities to be assets and liabilities, respectively, of FNMA. For the purposes of this document, therefore, they are presented as assets and liabilities in the accompanying schedules. On the schedule of Status of direct loans for mortgage-backed securities, the items labeled "New loans" and "Recoveries: Repayments and prepayments" are budgetary terms. However, from the Corporation's perspective, these items are "Amounts

issued" and "Amounts passed through to the holders of securities", respectively.

The forecast data contained in this material has been developed based on certain general economic assumptions prevalent in July 1983 and should not be construed as an official forecast of the Corporation's position.

The 13 banks for cooperatives are under the general supervision of the Farm Credit Administration. They finance the operations of farmers' cooperatives. The funds to finance these loans are obtained primarily from sales of bonds to the public and from their own capital funds. The bonds issued by the banks are not guaranteed by the U.S. Government either as to principal or interest. All of their expenses are paid from their own income and are not included in the budget of the United States. Included in these expenses is the banks' share of the costs of the Farm Credit Administration.

The Farm Credit Act of 1955 provided for eventual ownership of the banks by farmers' cooperatives and the retirement of the U.S. Government's investment. This was accomplished on December 31, 1968, when the remainder of the U.S. Government capital was retired.

The banks for cooperatives presently operate under authorities contained in title III of the Farm Credit Act of 1971, Public Law 92-180, as amended.

The 12 Federal intermediate credit banks are under the general supervision of the Farm Credit Administration. They serve as banks of discount for agriculture, discounting agricultural and livestock paper for, and making loans to local financing institutions such as production credit associations, agricultural credit corporations, livestock loan companies, and commercial banks. They also provide the production credit associations with necessary supervision and services.

The banks' lending funds are obtained primarily from the sale of bonds to the public and from their own capital funds. The bonds are not guaranteed by the U.S. Government either as to principal or interest. All of their expenses are paid from their own income and are not included in the budget of the United States. Included in these expenses is the credit banks' share of the costs of the Farm Credit Administration.

The banks were originally wholly owned Government corporations set up exclusively as banks of discount; however, pursuant to the Farm Credit Act of 1956, the banks become mixed-ownership corporations and were made responsible for supervising the production credit associations and assisting them to make sound credit available to farmers.

All of the capital stock of the Federal intermediate credit banks, from organization in 1923 to December 31, 1956, was held by the U.S. Government. The 1956 act provided a long-range plan for the eventual ownership of the credit banks by the production credit associations and the gradual retirement of the Government's invest-

ment in the banks. This retirement was accomplished in full on December 31, 1968.

The Federal intermediate credit banks presently operate under authorities contained in title II of the Farm Credit Act of 1971, Public Law 92-181, as amended.

The Federal land banks, through the 520 Federal land bank associations, which are located at the local level, make long-term real estate loans to farmers and ranchers. These banks and associations are under the general supervision of the Farm Credit Administration. The funds to finance these loans are obtained primarily from the sale of the banks' bonds to the public and

from their own capital funds. These bonds are not guaranteed by the U.S. Government either as to principal or interest. All of their expenses are paid from their income and are not included in the budget of the United States. Included in these expenses is the land banks' share of the costs of the Farm Credit Administration.

The last of the Government capital that had been invested in the banks was repaid in 1947.

The Federal land banks presently operate under authorities contained in title I of the Farm Credit Act of 1971, Public Law 92-181, as amended.

The 12 Federal Home Loan Banks are chartered and supervised by the Federal Home Loan Bank Board under the authority of the Federal Home Loan Bank Act of 1932. The banks are financial institutions whose main function is to supply their members—principally savings and loan-type institutions and savings banks—with credit to smooth their operations and enhance their service to the public as savings media and home-mortgage lenders. Each bank operates in a geographic district designated by the Board and together the banks cover all of the United States as well as Puerto Rico, the Virgin Islands, and Guam. In 1983, the banks extended credits of \$53.8 billion and received repayments of \$63.6 billion. Advances outstanding on September 30, 1983, totaled \$57.9 billion.

The principal source of funds for the lending operation is the sale of consolidated obligations of the banks to the public. On September 30, 1983, \$51.8 billion of these obligations were outstanding. The consolidated obligations are not guaranteed by the U.S. Government as to principal or interest. Other sources of lendable funds include a portion of members' deposits as determined by Board policy (total deposits were at \$12.8 billion on September 30, 1983) and funds paid for the purchase of capital stock by member institutions, amounting to \$6.3 billion at the end of 1983. Funds not immediately used for advances to members are invested until such times as needed.

The capital stock of the Federal home loan banks is owned entirely by the members. Initially the U.S. Government purchased stock of the banks in the amount of \$125 million. The banks had repurchased the Government's investment in full by mid-1951.

The entire operating expenses of the banks are paid from their own income and are not included in the budget of the United States. Included in these expenses is the assessment by the Federal Home Loan Bank Board to cover a portion of the Board's administrative and other costs.

The Federal Home Loan Mortgage Corporation (Freddie Mac) is a government-chartered corporation created under the Emergency Home Finance Act of 1970. Congress chartered Freddie Mac to provide mortgage lenders with an organized national secondary market into which they could sell originated conventional mortgage

loans, so lenders can obtain sufficient funds to meet housing credit demand.

Freddie Mac is publicly managed by a Board of Directors, the Federal Home Loan Bank Board, appointed by the President of the United States. All of Freddie Mac's common stock is owned by the Federal Home Loan Banks, which are also tax exempt public purpose entities. All of Freddie Mac's expenses are paid from its own income, and no Federal budget authority or outlays have ever assisted in its mission.

After purchasing mortgage loans from individual mortgage lenders, Freddie Mac groups the mortgages into pools ranging from \$1 million to \$100 million in mortgage loans. The corporation then packages these loans in the form of conventional mortgage pass-through securities, called mortgage "Participation Certificates" (PCs). A PC represents an undivided ownership interest in a group or pool of residential mortgage loans as purchased by Freddie Mac. The timely payment of interest and full return of principal on the mortgage underlying PCs is guaranteed solely by Freddie Mac. This guarantee is backed by reserves to cover default losses on individual mortgages and not by the Federal Home Loan Bank System or the full faith and credit of the U.S. Government.

Freddie Mac's conventional mortgage loan purchase and mortgage pass-through securities' sales operation allows the corporation to act as a conduit to facilitate the flow of investment dollars from capital market investors to mortgage lenders and ultimately to homebuyers in the form of available mortgage credit. Freddie Mac also offers lenders the opportunity to "swap" mortgages held in their portfolios for Freddie Mac PCs. Upon "swapping" or converting mortgages to PCs, lenders can use PCs as collateral for borrowing from small savers (such as through retail repurchase agreements or "repos").

The forecast data contained in this material has been developed based on certain economic assumptions and estimates which are reviewed and revised periodically, and should not be construed as an official forecast of the corporation's position.

According to accounting practices for private corporations, the mortgages in the pools of loans supporting the mortgage-backed securities are considered to be owned by the holders of these securities. Consequently, on the books of Freddie Mac, these mortgages are not considered assets and the securities outstanding are not considered liabilities. However, the concepts of the budget of the United States Government consider these mortgages and mortgage-backed securities to be assets and liabilities, respectively, of Freddie Mac. For the purposes of this document, therefore, they are presented as assets and liabilities in the accompanying schedules. On the Status of Direct Loans schedule for mortgage-backed securities, the items labeled "New loans" and "Recoveries: Repayments and prepayments" are budgetary terms. However, from Freddie Mac's perspective, these amounts represent "Sales of PCs" and "Amounts passed through to PC holders," respectively.
