Howard University is a private, nonprofit educational institution consisting of 17 schools and colleges. Federal funds are used to provide partial support for the academic program as well as for the teaching hospital facilities. In 1986, direct Federal appropriations represented 47 percent of the University's operating budget.

HIGHER EDUCATION FACILITIES LOANS AND INSURANCE

[For the payment of principal and interest, including interest insufficiencies, as authorized by the Department of Health, Education, and Welfare Appropriation Act, 1968, on account of outstanding beneficial interests or participations held by the Government National Mortgage Association, as trustee, on behalf of the Department of Education, and issued pursuant to the Participation Sales Act of 1966 (section 302(c) of the Federal National Mortgage Association Charter Act (12 U.S.C. 1717(c))), and for the payment of interest to the Treasury as required by title VII, part C, section 733(b)(2) of the Higher Education Act, as amended (20 U.S.C. 1132d-2(b)(2)), and for the payment of other operating costs of the fund established pursuant to title VII, section 733 of the Higher Education Act, as amended (20 U.S.C. 1132d-2), \$19,205,000, to remain available until expended.] The Secretary is hereby authorized to make such expenditures, within the limits of funds available under this heading and in accord with law, and to make such contracts and commitments without regard to fiscal year limitation, as provided by section 104 of the Government Corporation Control Act (31 U.S.C. 9104), as may be necessary in carrying out the program set forth in the budget for the current fiscal year. For the fiscal year [1986] 1988, no new commitments for loans may be made from the fund established pursuant to title VII, section 733 of the Higher Education Act, as amended (20 U.S.C. 1132d-2).

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1987.

Program operations.—Title VII, Part C, of the Higher Education Act of 1965 authorizes direct loans at 5.5 percent interest, repayable within 50 years, to colleges, universities, and higher education building agencies for the construction, reconstruction, or renovation of academic facilities. No new loan commitments have been made since 1981, and no new commitments are planned for 1988 and beyond.

Financing.—Loan capital for this program has been provided both through appropriations and the sale of participation certificates which are backed by pools of existing higher education facilities loans held by the Federal Government.

Interest is payable to Treasury on the amount of appropriations paid out for loan capital and remaining outstanding, less the average undisbursed cash balance in the fund during the year. The interest rate certified by Treasury for payment from the account was 10.75 percent in 1986 and is expected to decline in 1987 and 1988.

Sales of participation certificates by the Government National Mortgage Association (GNMA) were provided for under the Participation Sales Act of 1966, and were

authorized specifically for higher education facilities loans under appropriation acts in 1967 and 1968. The participation certificates outstanding held by this account total \$108,049 thousand as of September 30, 1986, and are expected to decline to \$87,189 thousand in 1987. All remaining certificates are scheduled to be redeemed in 1988.

Insufficiencies appropriations may be used to finance any deficit resulting from the interest rate payable on participation certificates being higher than the interest rate paid by institutions on pledged loans. The budget authority required for insufficiencies is computed as follows:

The program appropriation, along with repayments on outstanding loans, interest revenue, and investment income is used to pay operating expenses and to amortize the outstanding debt on participation certificates. It is anticipated that \$28 million will be transferred to GNMA in 1987.

In 1988, the Secretary will begin sale of loans to the public. Proceeds from loan sales are estimated at \$35.6 million in 1988. The budget provides \$356 thousand in 1988 for loan sales commissions to be paid to a financial advisor.

The budget provides \$16 thousand to fund facilities management and property disposition expenses related to loan collection action in 1988. Expenses associated with loan servicing will be paid for with Salaries and expenses account funds.

COLLEGE HOUSING LOANS*

*See Part II for additional information.

[The aggregate amount of commitments for loans made from the fund established pursuant to title IV of the Housing Act of 1950, as amended (12 U.S.C. 1749), for the fiscal year 1987 shall not exceed the total of loan repayments and other income available during such period, less operating costs. Payments of interest insufficiencies for the fiscal year 1987 as may be required by the Government National Mortgage Association, as trustee, on account of outstanding beneficial interests or participations issued pursuant to the Participation Sales Act of 1966 (section 302(c) of the Federal National Mortgage Association Charter Act, as amended (12 U.S.C. 1717(c))) shall be made from the fund established pursuant to title IV of the Housing Act of 1950, as amended (12 U.S.C. 1749-1749c) using loan repayments and other income available during such fiscal year. During the fiscal year 1987 and within the resources and authority available, gross commitments for the principal amount of direct loans shall be \$60,000,000.]

Pursuant to title VII, Part F of the Higher Education Act, as amended ("the Act"), for necessary expenses of the college housing loan program, the Secretary shall make expenditures, contracts, and commitments without regard to fiscal year limitation using loan repayments and other income available to this account: Provided, That notwithstanding section 761(e) of the Act, no new commitments for loans may be made during fiscal year 1988: Provided further, That notwithstanding the limitation in section 783 of the Act, the Secretary may sell, at public or private sale, obligations under Part F of title VII of the Act upon such terms as the Secretary may fix and in such amounts as the Secretary determines to be in the best financial interests of the Government. Any unobligated balances remaining from fixed fees previously paid into this account pursuant to 12 U.S.C. 1749d, relating to payment of costs for inspections and site visits, shall be available for the operating costs of this account.

Whenever the Secretary, pursuant to section 402(c) of the Housing Act of 1950 or section 762(c) of the Act, sells, exchanges, or otherwise transfers on a discounted basis obligations or securities held by the Secretary under title VII, Part F of the Act, the outstanding balance remaining on the notes of the Secretary issued to the Secretary of the Treasury under section 761(d) of the Act shall be reduced by the amount of the discount. For such transactions occurring prior to fiscal year 1988, such reduction is effective on September 30, 1987. For such transactions occurring in fiscal year 1988 or thereafter, such reduction is to be effective on the last day of the fiscal year in which the discounted transaction occurs.

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1987.

¹ Adjustments in 1986 represent reconciliations with inventory records (-\$6,234 thousand). Adjustments in 1987 and 1988 represent discounts from face value on loan payments and loans sold to the public.

Program operations.—Title VII, Part F of the Higher Education Act of 1965, as amended by the Higher Education Amendments of 1986, authorizes direct loans at 5.5 percent interest to colleges and universities for the construction and renovation of student and faculty housing, undergraduate academic facilities, and other postsecondary educational facilities. Loans made by the Department of Education in 1986 and prior years were authorized under Title IV of the Housing Act of 1950 and were for construction and renovation of housing facilities only. No new loan commitments are proposed for 1987 and beyond.

Financing.—Loan capital for this program has been provided primarily through Treasury borrowings and the sale of participation certificates which are backed by pools of existing college housing loans held by the Federal Government.

As of September 30, 1986, \$2,587.4 million was borrowed. Interest, at a rate of 5.5 percent, is payable to Treasury on the total borrowings, less the average un-disbursed cash balance in the fund during the year.

Sales of participation certificates by the Government National Mortgage Association (GNMA) were provided for under the Participation Sales Act of 1966, and were authorized specifically for college housing loans under appropriation acts in 1967 and 1968. The participation

certificates outstanding held by this account total \$451,504 thousand as of September 30, 1986, and will decline to \$446,806 thousand in 1987. All remaining certificates are scheduled to be redeemed in 1988.

Insufficiencies appropriations may be used to finance any deficit resulting from the interest rate payable on participation certificates being higher than the interest rate paid by institutions on pledged loans. The budget authority required for insufficiencies is computed as follows:

The estimated net operating income and income adjustments of -\$366.1 million will bring the cumulative deficit to -\$1,056.4 million in 1988.

In 1987, the Secretary will begin sales of loans to the public which will continue in 1988. Available resources (loan repayments, interest revenue, loan sale proceeds, investment income, and other income in excess of operating expenses) will be used to redeem a portion of the agency's debt in outstanding Treasury borrowings, as is being done in 1987 and as was done in 1986. It is anticipated that \$593 million will be repaid to Treasury in 1988; \$616 million is anticipated to be repaid in 1987, while \$38 million was repaid in 1986.

A total of \$86.5 million was collected in principal repayments in 1986.

The budget provides \$40 thousand to fund facilities management and property disposition expenses related to loan collection action in 1988. Expenses associated with auditing, facility inspections, and loan servicing will be paid for with Salaries and expenses account funds. Fees and commissions associated with loan sales will be financed from this account. These costs are estimated at \$3.1 million in 1987 and \$6 million in 1988.

A total of \$4.4 million was collected in 1986 from institutions in default. The status of defaulted loans is shown in the table below:

Research, statistics, dissemination, and improvement activities aid students, teachers, administrators, and decisionmakers at all levels of education, as well as parents and other members of the public.

Center for Education Statistics.—Statistics are collected on educational institutions and on individuals to monitor trends in education. A coordinated program of statistical services is supported which provides assistance to States in developing comparable data bases and analyses of the implications of data. The National Assessment of Educational Progress surveys young Americans to provide reliable information about the nation's attainment in certain important skill areas.

Office of Research.—Research centers focus on topics of national concern in education. Additional individual projects and field-initiated research complement this work.

Programs for Improvement of Practice.—Regional laboratories determine and help meet the educational research and development needs in specified geographic regions. Study groups and national leadership conferences are also supported.

Information Services.—The Educational Resources Information Center system makes the education literature accessible through computerized abstracts and indexes. Dissemination activities provide timely information to the public and educational practitioners.

NOTES

The activities financed in 1986 and 1987 under Department of Education, Departmental Management, Salaries and expenses, Department of Education, Departmental Management, Office for Civil Rights, and Department of Education, Departmental Management, Office of the Inspector General are presented in these schedules and are proposed to be financed in this account in 1988. Budget authority and outlays are distributed by account above.

The end of year obligated balances include \$20,328 thousand contingently obligated under court order. These obligations were made as follows: 1983, \$9,504 thousand; 1984, \$6,095 thousand; 1985, \$2,875 thousand; 1986, \$1,854 thousand. In 1983, these obligations were distributed by account as follows: Departmental Management, Salaries and expenses, \$7,924 thousand; Departmental Management, Office for Civil Rights, \$1,468 thousand; Departmental Management, Office of the Inspector General, \$112 thousand. In 1984, these obligations were distributed by account as follows: Departmental Management, Salaries and expenses, \$3,331 thousand; Departmental Management, Office for Civil Rights, \$2,694 thousand; Departmental Management, Office of the Inspector General, \$70 thousand. In 1985, those obligations were distributed by account as follows: Departmental Management, Salaries and expenses, \$380 thousand; Departmental Management, Office for Civil Rights, \$2,448 thousand; Departmental Management, Office of the Inspector General, \$47 thousand. In 1986, these obligations were distributed by account as follows: Departmental Management, Salaries and expenses, \$230 thousand; Departmental Management, Office for Civil Rights, \$1,569 thousand; Departmental Management, Office of the Inspector General, \$55 thousand.

Includes \$6,800 thousand for computer costs previously financed from Department of Education, Office of Postsecondary Education:

Guaranteed student loans	1986 actual	1987 estimate
	\$6,362	\$6,800

The request reflects savings due to management initiatives resulting from the implementation of the President's management reform initiatives.

Postsecondary education.—The postsecondary education activity includes direct costs of administering student aid and other higher education programs.

Other education programs.—This activity includes direct costs of administering elementary and secondary education, bilingual education, vocational and adult education, handicapped education, and rehabilitation services programs. This activity also supports educational research and improvement activities.

Civil rights.—The Office for Civil Rights carries out enforcement programs under title VI of the Civil Rights Act of 1964 (racial and ethnic discrimination), title IX of the Education Amendments of 1972 (sex discrimination), section 504 of the Rehabilitation Act of 1973 (discrimination against the handicapped), and the Age Discrimination Act of 1975.

Inspector General.—The Inspector General is responsible for the quality, coverage, and coordination of audit, investigation, and security functions relating to Federal education activities. The Inspector General has the authority to inquire into all activities of the Department including those performed under Federal education contracts, grants, or other agreements.

Executive direction.—This activity provides centralized support and administrative services and overall policy development and strategic planning for the Department. Included in these centralized activities are space and mail management, telecommunications, grants and contractual services, financial management and accounting, ADP services, personnel management, budget formulation and execution, program and management evaluation, legal services, congressional and public relations, and intergovernmental affairs.

Reimbursable program.—Beginning in 1986, reimbursements to this account include the costs of collecting defaulted student loans, primarily guaranteed student loans. The collections are made under contract with private agencies and the costs are financed from collections.

Spending in 1986 and 1987 derives from contributions from the public for the Mina Shaughnessy Scholars Program of the Fund for the Improvement of Postsecondary Education and for the National Advisory Council on Continuing Education Conference on adults in higher education.

No new contributions from any source are currently anticipated for 1987 or 1988.

GENERAL PROVISIONS

SEC. 301. None of the funds appropriated by this title for grants-in-aid of State agencies to cover, in whole or in part, the cost of operation of said agencies, including the salaries and expenses of officers and employees of said agencies, shall be withheld from the said agencies of any State which have established by legislative enactment and have in operation a merit system and classification and compensation plan covering the selection, tenure in office, and compensation of their employees, because of any disapproval of their personnel or the manner of their selection by the agencies of the said States, or the rates of pay of said officer or employees.

SEC. 302. Funds appropriated in this Act to the American Printing House for the Blind, Howard University, the National Technical Institute for the Deaf, and Gallaudet College shall be subject to audit by the Secretary of Education.

SEC. 303. No part of the funds contained in this title may be used to force any school or school district which is desegregated as that term is defined in title IV of the Civil Rights Act of 1964, Public Law 88-352, to take any action to force the busing of students; to force on account of race, creed or color the abolishment of any school so desegregated; or to force the transfer or assignment of any student attending any elementary or secondary school so desegregated to or from a particular school over the protest of his or her parents or parent.

SEC. 304. (a) No part of the funds contained in this title shall be used to force any school or school district which is desegregated as that term is defined in title IV of the Civil Rights Act of 1964, Public Law 88-352, to take any action to force the busing of students; to require the abolishment of any school so desegregated; or to force on account of race, creed or color the transfer of students to or from a particular school so desegregated as a condition precedent to obtaining Federal funds otherwise available to any State, school district or school.

(b) No funds appropriated in this Act may be used for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to overcome racial imbalance in any school or school system, or for the transportation of students or teachers (or for the purchase of equipment for such transportation) in

order to carry out a plan of racial desegregation of any school or school system.

SEC. 305. None of the funds contained in this Act shall be used to require, directly or indirectly, the transportation of any student to a school other than the school which is nearest the student's home, except for a student requiring special education, to the school offering such special education, in order to comply with title VI of the Civil Rights Act of 1964. For the purpose of this section an indirect requirement of transportation of students includes the transportation of students to carry out a plan involving the reorganization of the grade structure of schools, the pairing of schools, or the clustering of schools, or any combination of grade restructuring, pairing or cluster-

ing. The prohibition described in this section does not include the establishment of magnet schools.

SEC. 306. No funds appropriated under this Act may be used to prevent the implementation of programs of voluntary prayer and meditation in the public schools.

【SEC. 307. Section 402(c) of the Housing Act of 1950 is amended by striking out in clause (9) "October 1, 1986" and inserting in its place "October 1, 1987".】

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1987.

DEPARTMENT OF ENERGY

ATOMIC ENERGY DEFENSE ACTIVITIES

Federal Funds

General and special funds:

ATOMIC ENERGY DEFENSE ACTIVITIES

For expenses of the Department of Energy activities, \$8,050,000,000, to remain available until expended, including the purchase, construction and acquisition of plant and capital equipment and other expenses incidental thereto necessary for atomic energy defense activities in carrying out the purposes of the Department of Energy Organization Act (Public Law 95-91), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; purchase of passenger motor vehicles [(not to exceed 344 of which 320 are for replacement only) including 36 police-type vehicles; and purchase of five aircraft, three of which are for replacement only, \$7,477,750,000, to remain available until expended: *Provided*, That the Department is directed to provide the Committees on Appropriations within 120 days of enactment of this Act with a plan and schedule to discontinue disposal of contaminated liquids into the soil at the Hanford Reservation: *Provided further*, That (a) To provide for a security buffer zone for the United States Department of Energy's Savannah River Plant near Aiken, South Carolina, title, control, and custody to six thousand twenty-one acres, more or less, of United States Department of Agriculture, Forest Service, lands shown on a map entitled "Forest Service Property Transfer, Savannah River Plant, Aiken, South Carolina", dated June 1984, are transferred without cost or reimbursement to the United States Department of Energy. The map and legal description of the boundaries of these lands shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture, the Director of Real Property and Facilities Management, United States Department of Energy, and appropriate field offices of those agencies. (b) This joint resolution does not affect valid existing rights, or interests in existing land use authorizations, except that any right or authorization shall be administered by the Department of Energy after the enactment of this joint resolution. Reissuance of any authorization shall be in accordance with applicable law and the regulations of the Department of Energy, except that the change of administrative jurisdiction shall not in itself constitute a ground to deny the renewal or reissuance of any authorization: *Provided further*, That if the Department of Defense Authorization Act, 1987, is enacted into law by December 31, 1986, the funds provided in this paragraph for the Strategic Defense Initiative shall be limited to the amount and in the manner provided for in that legislation] (not to exceed 292 for replacement only) including 43 police-type vehicles; and purchase of two aircraft, one of which is for replacement only.

For the foregoing purposes in fiscal year 1989, \$8,500,000,000, to remain available until expended, including purchase of motor vehicles (not to exceed 321, of which 311 are for replacement only) including 24 police-type vehicles; and purchase of three aircraft, two of which are for replacement only. (Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).)

Naval reactors development.—This program provides for the design, development, and testing of improved naval nuclear propulsion plants and reactor cores having longer core life, increased reliability, improved performance, and simplified operating and maintenance requirements. These reactors are necessary to meet a variety of military requirements. During 1988 and 1989 work will continue to improve existing submarine and surface ship reactors and plant components and to develop advanced reactor concepts and propulsion plants. This program also continues test facility upgrading and provides equipment to support ongoing reactor design research and testing activities.

Weapons activities.—This program provides for the research, development, engineering, testing, and production of all U.S. nuclear weapons; maintenance of these weapons for their stockpile life, and retirement and disposal of nuclear weapons from the stockpile. In 1988 and 1989, the weapons program will continue to provide new technology to maintain a modern nuclear force, along with the design and development of new weapon systems in response to defense requirements. This program also provides for the certification of safety, reliability, and performance of new weapon systems and surveillance of the existing stockpile. Increases are provided for continued production of weapon systems and for stockpile improvements consistent with the Presidential Nuclear Weapons Stockpile Memorandum. In addition, this program provides for facility construction, maintenance, and restoration for the weapons research and development, testing, and production activities.

Verification and control technology.—This program provides for research activities directed toward the advancement of verification technology related to nuclear

ATOMIC ENERGY DEFENSE ACTIVITIES—Continued

treaties and arms control measures. In 1988 and 1989, the program provides for continued technical and scientific efforts to support nuclear test limitation treaties and nuclear arms reduction negotiations. Other activities provide analytical support to export control requirements, nonproliferation policy, and weapon analysis issues. This program also provides capital equipment for nuclear detection technology efforts and analytical support activities.

Materials production.—This program provides nuclear materials to meet near-term national defense and nondefense requirements and sustain a base production program capable of meeting long-term nuclear materials production requirements consistent with the annual Presidential Nuclear Weapons Stockpile Memorandum and the annual Materials Management Plan. In 1988 and 1989, this program will operate a reactor feed material production complex, four production reactors, chemical processing plants at three major sites, and support facilities integral to the operation of these facilities. The program will also conduct R&D efforts on long-range alternatives for production of nuclear materials. A program to maintain existing production capabilities at Savannah River, Richland, and Oak Ridge will be continued.

Defense waste and transportation management.—This program provides for safe interim storage, transportation, disposal, and/or utilization of radioactive and hazardous wastes generated primarily from nuclear materials production and naval propulsion. The 1988 and 1989 program provides funds for continuation of the waste operations program including preoperational activities for the vitrification plant, and operation of the saltstone plant of the Defense Waste Processing Facility at Savannah River, SC, and design of the Hanford Waste Vitrification Plant at Richland, WA. The Waste Isolation Pilot Plant near Carlsbad, NM, will complete the transition from a construction project to an operating facility. The hazardous waste and remedial actions program includes meeting RCRA and CERCLA requirements, and terms of compliance agreements and consent orders. This program is also responsible for the planning, design, development, and testing of integrated transport systems which meet Department-wide nuclear material transportation requirements.

Nuclear safeguards and security.—This program provides for the development of measures for the protection of nuclear weapons in the agency's custody, special nuclear materials, classified materials and information, and agency property. In 1988 and 1989 this program will continue development of procedures that preclude the unauthorized disclosure, theft, or loss of classified material; management of a research and development program to safeguard nuclear weapons and nuclear materials and protect agency facilities against sabotage; providing for assistance to site managers in designing effective safeguards systems; and support of international safeguards technology.

Security investigations.—This activity covers the costs of security investigations for personnel who, in performance of their official duties, must have access to re-

stricted data, national security information or special nuclear material, or who occupy a designated critical sensitive position.

High energy physics.—Research in this program focuses on the fundamental constituents of matter, the fundamental forces in nature and the transformations between matter and energy at the most elemental level. The program includes experimental and theoretical particle physics research and related advanced accelerator and detector technology R&D. The primary mode of experimental research involves the study of collisions of energetic particles using large particle accelerators or colliding beam facilities by means of advanced multi-particle detector systems and associated electronics. Research in 1988 will continue studies of known fundamental constituents of particles, initiate searches for new particle constituents, and continue to pursue a unified description of the four fundamental forces in nature.

The 1988 high energy physics budget request provides funding for a full year of operation of the Tevatron I and Stanford Linear Collider (SLC); continuation of the Central Computing Facility project at Fermilab and the Alternating Gradient Synchrotron (AGS) Accumulator/Booster Ring at Brookhaven National Laboratory; and further advanced accelerator and detector R&D related to the next generation high energy particle accelerator. The operation of the Tevatron I will provide the capability for utilizing Fermilab's superconducting synchrotron as a 900 GeV on 900 GeV proton anti-proton collider, while Stanford Linear Accelerator Center's SLC will produce 50 GeV on 50 GeV electron-positron collisions. Both facilities will allow access into previously unexplored areas of high energy physics. The request also provides continuing support for effective participation by university based groups in experimental research including accelerator user group efforts and non-accelerator experiments, and for theoretical research efforts. The 1988 high energy physics capital equipment request provides for meeting the highest priority needs associated with the detectors required to implement the research programs using the new capabilities being provided by the Tevatron I proton anti-proton collider at Fermilab and by the SLC electron-positron collider at SLAC.

Nuclear physics.—Research in this program strives to attain a deeper understanding of the interactions, properties, and structures of atomic nuclei and nuclear matter at a fundamental level through interdependent accelerator experiments and theoretical investigations of atomic nuclei. The program supports the operation of seven national accelerator facilities whose beams are available to all qualified scientists, and four dedicated university accelerator facilities.

The 1988 nuclear physics budget request provides for a heavy ion nuclear research and accelerator program at the Alternating Gradient Synchrotron at Brookhaven and for continued construction of the Continuous Electron Beam Accelerator Facility at Newport News, VA. Program emphasis in 1988 centers on the role that quarks play in the makeup and interactions of nuclei, nuclei as proving grounds for understanding the basic strong and electroweak forces of nature, possible exist-

ence of new forms of nuclear matter, and, the mechanisms by which colliding nuclei exchange mass, energy, and angular momentum.

General science program direction.—Provides direction, management, and administrative support to all programs within general science.

The purpose of energy supply, research and development is to develop new energy technologies and improve existing energy technologies. Included in this mission are basic and applied research, with selected technology development.

This account provides funds for operating expenses, capital equipment and construction projects for the research and technological development of the various

energy technologies under examination in the energy supply, research and development mission.

Solar and renewable energy tech base.—The solar and renewable programs support research and development that will strengthen the technology base on which industry can draw in developing future new products and processes for the commercial market. The programs support activities ranging from basic research in universities and national laboratories to applied R&D and proof-of-concept projects in industrial firms.

Reductions in the renewable energy R&D programs are proposed in the 1988 budget consistent with budgetary constraints. In addition, a budget amendment is anticipated for transmittal at a later date, to support DOE participation in renewable energy industry cooperative R&D ventures.

The 1988 solar energy program will support generic and long-range research in a wide variety of alternative energy technologies, structured to provide a sound base from which industry can draw particular applications. The major areas being investigated, as in past years, are moderate and high-temperature solar heat, photovoltaics, biofuels, wind, and solar building technologies. The main research topics being pursued at universities and national laboratories within these application areas are materials sciences, aerodynamic/fluid-dynamic modeling, and thermodynamic cycles. Industry will be involved in applied research in these areas. In addition, funds are provided for technology transfer and international cooperative activities, generic resource assessments, and capital improvements at the Solar Energy Research Institute.

The 1988 geothermal program will support basic engineering research in hydrothermal and magma energy extraction technologies for geothermal energy and technical information and technology transfer. The program effort will also include research on geothermal resources such as engineering development in geopressed and hot dry rock resources.

The 1988 electric energy systems program will support research in EMP effects and new materials for efficient electrical power transmission, biomedical research on the effects of electric fields, and future electric system reliability and control concepts. The 1988 energy storage program will continue its generic research into electrochemistry for a variety of battery types, and in thermal and hydrogen chemical energy storage. The research includes electrochemical materials, sodium/sulphur and zinc bromine battery development and metal-air cells, and solid polymer fuel cells.

Nuclear fission.—In 1988 the Civilian Reactor Development program continues on two parallel and complementary paths to ensure that nuclear energy continues to make a vital contribution to national energy security. The Light Water Reactor (LWR) program will focus on institutional and regulatory reform through supporting technology efforts and legislative initiatives. Cooperative programs with industry have the objective of providing certified advanced LWR designs by 1990 that could be ordered by utilities. The Advanced Reactor R&D program will focus on selecting a single concept for enhanced development and detailed design. The space and defense advanced nuclear power systems pro-

gram will continue development work on space power system for use in U.S. space missions and in support of the Strategic Defense Initiatives Office and other military applications.

The remedial actions program includes efforts to treat or stabilize radioactive wastes and perform required decontamination and decommissioning at contaminated DOE and legislatively dictated non-government facilities and sites. The major program areas are the Formerly Utilized Sites Remedial Action program, the Grand Junction Remedial Action program, the Uranium Mill Tailings Remedial Action program for inactive uranium mill tailings sites, the Surplus Facilities program for DOE contaminated facilities declared surplus and resulting principally from civilian nuclear energy programs, such as decommissioning the Shippingport reactor, and the West Valley Demonstration project; which will demonstrate the solidification of high-level radioactive waste.

Environment, safety and health.—1988 will be the first full year of consolidation of oversight responsibilities for environment, safety, and health functions under the Assistant Secretary for Environment, Safety and Health. These functions constitute independent assurance of environmental protection, safety and health protection throughout the Department. In 1988 an environmental survey of DOE facilities will be conducted to identify existing areas of environmental risk and prioritize and plan corrective actions. Technical safety appraisals of DOE's high- and moderate-hazard nuclear facilities will determine compliance with safety requirements, industry lessons learned, and licensed facility requirements, as appropriate. In addition to these primary activities, this program will perform departmental coordination on environmental compliance issues; analyze environmental policy issues; maintain radiological emergency response resources; perform quality assurance activities; continue operational safety and health protection functions; and conduct National Environmental Policy Act (NEPA) assurance functions.

Biological and environmental research.—This program develops the knowledge base necessary to identify, understand and anticipate the long-term health and environmental consequences of energy use and development and utilizes the Department's unique scientific and technological capabilities to solve major scientific problems in medicine and biology. Planned 1988 activities include programs in atmospheric processes as they relate to acid rain and carbon dioxide climatic effects; terrestrial and oceanographic processes; molecular, cellular and systemic studies on the biological effects of radiation, including radon emissions; nuclear medicine, structural biology, molecular epidemiology, and long-term biotechnology related projects.

Spill test facility.—The overall goal is to conduct user-sponsored spill tests in support of safety research associated with the handling, shipping and storage of liquefied gaseous fuels and other hazardous fluids. The 1988 efforts will be directed to assuring program continuity and facility responsiveness to user sponsored testing activities.

Magnetic fusion.—The goal of this program is to establish the scientific and technological base required for fusion energy. The 1988 budget request has been devel-

oped to take advantage of the technical position that has already been established in fusion research. It will allow a continuation of cost-effective progress toward the development of fusion power as a future energy option and supports effective utilization of international collaboration. The program emphasis is focused on the nearer-term benefits of increasing the understanding of plasma physics and other related scientific fields as well as the training of scientists and engineers. The longer-term program goal of fusion energy continues to be pursued but at a pace more consistent with our national energy needs.

Supporting research and technical analysis.—The role of these programs is to expand the scientific and engineering base for future energy technology development and to provide independent, objective evaluations of energy research activities. Support is also provided for university related research and manpower training including the use of facilities at the national laboratories for student research and education.

Basic energy sciences.—This program funds basic research in the physical, biological, and engineering sciences in support of both the nuclear and non-nuclear technology programs. The principal focus of the program is energy; however, a number of other important national goals are also supported including U.S. leadership in science and technology and the training of scientists and engineers. In 1988, work will continue in materials sciences, chemical sciences, nuclear sciences, advanced energy projects, biological energy research, and research in engineering systems, applied mathematics, and the geosciences. Research related to advanced materials development, combustion, chemistry of coal, catalysts, photochemistry, nondestructive evaluation techniques and support for existing as well as proposed new unique national user research facilities will be continued. In 1988, construction will continue on the Center for Advanced Materials at Lawrence Berkeley Laboratory, the Neutron Scattering Experimental Hall at Los Alamos National Laboratory, and the 1-2 GeV Synchrotron at Lawrence Berkeley Laboratory. In addition, construction funds are provided for the 3 GeV injector at the Stanford Synchrotron Radiation Laboratory.

University research instrumentation.—This program supports the purchase of state-of-the-art scientific instrumentation used in energy-related research areas such as geological sciences, materials characterization, catalysis, and health effects research.

University research support.—This program helps maintain strong scientific/technical research capabilities in support of the Department's long-range energy R&D mission in the university and private sector and the national laboratories. Specific activities supported include: university reactor fuel assistance; university laboratory cooperative research; energy manpower development; and related education and training activities.

Energy research analysis.—This activity involves the independent assessment of existing or proposed technological initiatives, including examination of the base of research that underlies energy supply and utilization technologies.

General and special funds—Continued

ENERGY SUPPLY, RESEARCH AND DEVELOPMENT ACTIVITIES—

(INCLUDING TRANSFER OF FUNDS)—Continued

Multiprogram energy laboratories facilities support.—The goal of the multiprogram facilities program is to provide funds for rehabilitating and replacing deficient common-use utilities, roads, and buildings at the multiprogram laboratories and to provide support for environmental compliance activities at Oak Ridge National Laboratory. The environmental compliance program will continue to fund several major environmental projects in 1988. These can be expected to correct deficiencies in the following categories: process waste systems, hazardous and toxic material management, and watershed and storm sewer discharge projects.

In-house energy management.—This program funds energy conservation retrofit projects at Department facilities. These projects are designed to improve the efficiency of DOE energy use and set an example for other Federal agencies and the private sector. Surveys are conducted to identify cost-effective candidate projects and projects are then selected on a competitive basis using as the primary criterion the greatest economic return.

Technical information/management program.—This program contributes to DOE's missions in advancing energy and nuclear defense technologies and protecting U.S. economic and military security through the effective management and control of the Department's scientific and technical knowledge which is contained in its information resources. Major objectives which are structured to meet the overall purpose are the effective management, control, and use of the results of DOE's multibillion dollar research program, and the acquisition and management of results of worldwide investment in energy R&D.

Strategic facilities utilization program.—This program supports a departmental initiative to reduce unnecessary expenditures of operations and maintenance funds. The Department has conducted a review and targeted 257 facilities for shutdown which were considered underutilized, with a resultant cost avoidance.

Policy and management.—Provides executive direction, management assistance and administrative support to all programs within energy supply activities.

An innovative cooperative R&D approach has been carefully reviewed and expressions of interest are being solicited from industry. Partnerships in industry cooperative R&D ventures to support longer-term, high-risk, applied technology development of a generic or precompetitive nature can offer an effective method to leverage Federal moneys and increase program impact. This is intended to promote more effective technology transfer and to allow broader research support within current fiscal constraints. There appear to be good opportunities for cooperative R&D ventures in window coatings, power conditioning and storage, photovoltaics, thermal and geothermal energy. The precise choice of activities and allocations of funds will be influenced by formal industry proposals.

URANIUM SUPPLY AND ENRICHMENT ACTIVITIES

For expenses of the Department of Energy in connection with operating expenses; the purchase, construction, and acquisition of plant and capital equipment and other expenses incidental thereto necessary for uranium supply and enrichment activities in carrying out the purposes of the Department of Energy Organization Act (Public Law 95-91), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; purchase of passenger motor vehicles (not to exceed [33] 26 for replacement only); [1,210,400,000] \$1,070,000,000, to remain available until expended; Provided, That revenues received by the Department for the enrichment of uranium and estimated to total \$1,286,400,000 in fiscal year 1987, shall be retained and used for the specific purpose of offsetting costs incurred by the Department in providing uranium enrichment service activities as authorized by section 201 of Public Law 95-238, notwithstanding the provisions of section 3302(b) of section 484, of title 31, United States Code: *Provided further*, That the sum herein appropriated shall be reduced as uranium enrichment revenues are received during fiscal year 1987 so as to result in a final fiscal year 1987 appropriation estimated at not more than \$0]. (*Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).*)

Uranium enrichment operating expenses.—The goal of this program is to meet domestic, foreign and U.S. Government requirements for uranium enrichment services (enrichment of uranium and uranium compounds in the isotope U-235) in the most economical, reliable, safe, secure and environmentally acceptable manner possible. This program is comprised of four subprograms: (a) gaseous diffusion operations and support; (b) Atomic Vapor Laser Isotope Separation (AVLIS) closeout activities; (c) gas centrifuge program closeout activities; and, (d) program direction.

The gaseous diffusion operations and support program provides for all activities related to operation and maintenance of the gaseous diffusion enrichment plants located at Paducah, KY and Portsmouth, OH. The gaseous diffusion plant at Oak Ridge will be maintained in a standby condition.

In 1988 the Department will complete the closeout of the AVLIS program begun in 1987.

The gas centrifuge program provides for closeout of the advanced gas centrifuge enrichment process and for the termination of the Gas Centrifuge Enrichment Plant located at Portsmouth, OH.

In 1988, the Uranium Enrichment program will collect revenues and return to the Treasury \$231,000,000 in partial repayment of prior Government investment.

The Fossil Energy programs support research and development that will strengthen the technology base on which industry can draw in developing future new products and processes for the commercial market. The programs support activities ranging from basic research in universities and national laboratories to applied R&D and proof-of-concept projects in private sector firms.

Reductions in the Fossil Energy R&D programs are proposed in the 1988 budget to eliminate Federal support of company-specific technology development and demonstration activities. The remaining funds are to be utilized for technology base research conducted in the same manner as it has been at universities, national laboratories and with the private sector. In addition, it is anticipated that a budget amendment will be transmitted at a later date to support DOE participation in industry-formed cooperative R&D ventures.

Coal R&D.—The objectives of this program will be to continue generic, technology base and environmental research to provide an adequate scientific and engineering knowledge base to foster technological advances by the private sector. The 1988 research program provides for a continued, limited Federal role in support of longer-term high-risk R&D that supports technology development by the private sector. These efforts will include the Advanced Research and Technology Development program with additional advanced research efforts conducted in the Advanced Research portions of the Coal Liquefaction and Surface Gasification programs. Another main thrust of the 1988 program will focus upon acid rain-related technologies. Therefore, the Control Technology and Coal Preparation programs will also contain a major portion of the funding request, as will Combustion Systems and, to a lesser degree, Surface Coal Gasification and Heat Engines. Efforts will

also continue to more effectively utilize our coal resources by continuing our programs in the areas of Coal Liquefaction and Fuel Cells.

Oil, gas and shale.—The 1988 program will focus primarily on developing Enhanced Oil Recovery techniques, with these efforts devoted entirely to heavy and light oil research. Funding for Tar Sands research is not requested for 1988. Advanced Process Technology research will be continued in 1988 as will a reduced Oil Shale and a reduced Unconventional Gas Recovery program.

Program direction and management support.—This provides the funding for both Headquarters and field personnel and overhead expenses in Fossil Energy. In addition, it provides support for the day-to-day project management functions.

Federal Inspector for the Alaska natural gas pipeline.—Activities formerly included under the Office of the Federal Inspector for the Alaska natural gas pipeline are now funded in this line item, in accordance with the 1986 appropriation.

In 1988, the Fossil Energy program plans to initiate a new mechanism for conducting applied R&D: participation in industry-formed cooperative R&D ventures. This

new delivery mechanism will provide for increased cost sharing with industry as well as encouraging potential beneficiaries of the research to become direct participants from project inception. \$7,000,000 is planned to initiate this program. The funding will be requested when the Department has developed a plan or solicitation for effectively using these funds. There appear to be good opportunities for cooperative R&D ventures in extraction technologies (unconventional gas, enhanced oil recovery, oil-shale, underground gasification) and in coal preparation.

ENERGY CONSERVATION*

*See Part II for additional information.

For necessary expenses in carrying out energy conservation activities, [\$280,129,000] \$81,090,000, to remain available until expended, of which \$10,000,000 shall be available for a grant for an energy demonstration and research facility at Tufts University when authorized by an Act of Congress: *Provided*, That award of such grant may be made only upon approval of an appropriate technical review panel convened by the Department of Energy for the specific purpose of reviewing such grant application and subject to conditions, if any, contained in legislation authorizing such project, and of which \$112,450,000 for the Weatherization Assistance Program authorized by Part A of the Energy Conservation in Existing Buildings Act of 1976 (42 U.S.C. 6861 et seq.) and the Institutional Conservation Program authorized by Part G of title III of the Energy Policy and Conservation Act (42 U.S.C. 6371 et seq.) shall be available effective March 1, 1987, only in such sums (up to a total of \$112,450,000) as are equal to the difference between \$200,000,000 and the excess amount for fiscal year 1987 disbursed by the Secretary of Energy for use in energy conservation programs under the provisions of section 3003(d) of subtitle A of title III of the conference agreement on H.R. 5300, the Omnibus Budget Reconciliation Act of 1986, or equivalent legislation enacted into law by March 1, 1987: *Provided further*, That if no such legislation is enacted into law by March 1, 1987, effective such date, such sums (\$112,450,000) shall be immediately available to be derived from amounts held administratively in escrow by the Secretary of Energy pending restitution for actual or alleged petroleum product violations under the Emergency Petroleum Allocation Act of 1973 or the Economic Stabilization Act of 1970 (and the regulations issued thereunder): *Provided further*, That \$2,000,000 of the amount provided under this heading shall be available for continuing a research and development initiative with the National Laboratories for new technologies up to proof-of-concept testing to increase significantly the energy efficiency of processes that produce steel: *Provided further*, That obligation of funds for these activities shall be contingent on an agreement to provide cash or in-kind contributions to the initiative or to other collaborative research and development activities related to the purpose of the initiative equal to 30 percent of the amount of Federal Government obligations: *Provided further*, That existing facilities, equipment, and supplies, or previously expended research or development funds are not acceptable as contributions for the purposes of this appropriation, except as amortized, depreciated, or expensed in normal business practice: *Provided further*, That the total Federal expenditure under this proviso shall be repaid up to one and one-half times from the proceeds of the commercial sale, lease, manufacture, or use of technologies developed under this proviso, at a rate of one-fourth of all net proceeds. (Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).)

NAVAL PETROLEUM AND OIL SHALE RESERVES

For necessary expenses in carrying out naval petroleum and oil shale reserve activities, [including the purchase of not to exceed 1 passenger motor vehicle, for replacement only, \$122,177,000] \$159,700,000, to remain available until expended. This program includes those activities necessary to operate, explore, conserve, develop, and produce the naval petroleum reserves at the maximum efficient rate and to conserve the oil shale reserves. This includes routine operation and maintenance, development and exploration drilling, environmental and conservation work, and construction and installation of on-reserve facilities and related systems required for the collection, storage, and distribution of produced petroleum and related products. The budget proposes the sale of the Government's ownership interest in the oil fields at Elk Hills, near Bakersfield, CA and at Teapot Dome near Casper, WY at the end of 1988.

The energy conservation programs support research and development that will strengthen the technology base on which industry can draw in developing future new products and processes for the commercial market. The programs support activities ranging from basic research in universities and national laboratories to applied R&D and proof-of-concept projects in industrial firms.

Reductions in the energy conservation R&D programs are proposed in the 1988 Budget consistent with budgetary constraints. In addition, an innovative cooperative R&D venture funding mechanism has been carefully reviewed and expressions of interest are being solicited from industry. It is anticipated that a budget amendment will be transmitted at a later date to support DOE participation in industry-formed cooperative R&D ventures.

Buildings and community systems.—The 1988 buildings and community systems program for universities and national labs will support generic research in building sub-systems, technology and consumer products, appliance standards, the Federal energy management program, and technology transfer activities to assist the private sector in adopting new energy-conserving technologies.

Industrial.—Industrial conservation will continue the research and development of generic technologies in waste energy reduction and improved process efficiency.

These programs involve combustion technology, advanced heat exchangers and heat pumps, innovative concepts for the utilization of industrial waste materials, and the development of new energy efficient processes for the production of materials and products. These activities provide a broad technology base which contributes to more efficient industrial operations and more effective utilization of energy.

Transportation.—The 1988 transportation program will support cross-cutting R&D in advanced high-temperature materials (primarily at the High-Temperature Materials Lab), and in alternative vehicle propulsion concepts (automotive gas turbine, adiabatic diesel, and technology transfer). It will also support work in areas such as alternative fuels, transportation systems utilization, electric and hybrid vehicles, and industry-based activities complementing the technology base activities in advanced materials and alternative vehicle propulsion.

Multisector.—The 1988 multisector program will support cross-cutting R&D at universities and national labs in such areas as combustion and thermal sciences, materials sciences, biocatalysis, and tribology. The multisector program also supports the Energy-Related Inventions Program which assists independent inventors.

State and local assistance program.—The 1988 State and local assistance program provides no new Federal grants for the State energy conservation (EPCA), energy extension service, schools and hospitals, and weatherization assistance programs. Responsibility for providing these services most appropriately resides with the States. Funds have been made available to the States through the settlement of petroleum pricing violation cases, and these funds can be used to finance weatherization and other energy-related activities. The program provides money for the oversight and monitoring of Exxon and Stripper Well funds distributed to the States.

Policy and management.—Provides for overall management guidance and program evaluation for Energy Conservation programs to ensure effective program delivery.

Facilities.—No funds are requested for any facilities activities in 1988.

An innovative cooperative R&D approach has been carefully reviewed and expressions of interest are being solicited from industry. Partnerships in industry cooperative R&D ventures to support longer-term, high-risk, applied technology development of a generic or precompetitive nature can offer an effective method to leverage Federal moneys and increase program impact. This is intended to promote more effective technology transfer and to allow broader research support within current fiscal constraints. There appear to be good opportunities for cooperative R&D ventures in steel and papermaking, in roofing and other building materials, and in high-temperature ceramics for industrial or transportation use. The precise choice of activities and allocations of funds will be influenced by formal industry proposals.

This program supports energy information activities which are designed to provide timely, accurate and relevant energy information for use by the Administration, the Congress, and the general public.

National energy information system.—The activities funded in this program include the design, development and maintenance of information systems on petroleum, natural gas, coal, nuclear electricity, alternate fuel sources, and energy consumption. This includes collecting data and ensuring its accuracy; preparing limited short-term forecasts; and preparing reports on energy sources, end-uses, prices, supply and demand, and associated economic, international, and financial matters. This program also includes the operation of the Energy Information Administration (EIA) computer facility, telecommunications support, customer services, and ADP software support to the Department of Energy and others. In addition, the National Energy Information Center disseminates publications, analytic reports, information directives, and public use tapes, and responds to public inquiries. Finally, this activity provides survey and statistical design standards, documentation standards, and energy data public-use forms clearance and burden control services.

Policy and management.—This program provides direction to EIA through the Office of the Administrator; provides funding for administrative services; and provides administrative support to EIA program offices in the area of planning, budgeting, contract administration, personnel, and administrative services.

Economic regulation.—The Economic Regulatory Administration (ERA) is responsible for pursuing and finalizing any remaining enforcement actions to assure that oil companies complied with petroleum regulations in effect prior to decontrol of oil in January 1981. The funding level is reduced from prior years as enforcement cases are completed. In addition, ERA authorizes the import and export of natural gas and export of electricity, licenses international electricity transmission facilities, and provides regulatory relief to utilities so they can convert existing oil and gas-fired facilities to coal.

Hearings and appeals.—The Office of Hearings and Appeals issues all final orders of an adjudicatory nature other than those over which the Federal Energy Regulatory Commission has jurisdiction. It decides appeals of such orders, examines requests for exception relief, and administers refund proceedings involving consent order funds obtained as a result of petroleum enforcement actions.

The Federal Energy Regulatory Commission (FERC) is charged with regulating certain interstate aspects of the natural gas, hydroelectric, oil pipeline, and electric industries. Such regulation includes issuing licenses, approving rates, inspecting dams and enforcement activities and providing other services to regulated businesses. In 1988, these businesses will pay an estimated \$104.9 million in fees and charges to cover the Commission's cost of providing licenses, inspections and other services.

Natural gas regulation.—The Commission regulates 150 natural gas pipeline companies and more than 9,500 natural gas producers. Responsibilities include issuing certificates of public convenience and necessity for natural gas pipelines, determining rates for the transportation and sale of natural gas, administering wellhead pricing provisions in accordance with the Natural Gas Policy Act, and establishing curtailment and other provisions. Producer certificates and rates are also reviewed by the Commission.

SALARIES AND EXPENSES—Continued

Hydropower licensing regulation.—The Commission issues preliminary permits and exemption licenses for hydroelectric projects, enforces the terms and conditions, and performs dam safety inspections. There are currently 867 hydroelectric projects under license, representing more than 1,218 hydroelectric developments, which supply 13 percent of the electric energy generated in the United States. The Commission also performs investigations of headwater benefits that are derived from Federally-owned or licensed headwater improvements.

Oil pipeline regulation.—The Commission's responsibilities include the establishment of just and reasonable transportation rates. Approximately 150 common carrier oil pipeline companies, including the Trans Alaska Pipeline System (TAPS), are currently under the jurisdiction of the FERC. The valuation of these regulated companies approximates \$21 billion. During 1986, the Commission implemented a new methodology for determining oil pipeline rates based on trended original cost.

Electric power regulation.—The Commission is responsible for determining rates for the interstate sale or transmission of wholesale electric energy for 214 electric utilities and for overseeing electric utility corporate transactions. The Commission approves rates for all Federal power marketing agencies except TVA. The Commission also certifies cogenerators and small power producers.

CLEAN COAL TECHNOLOGY

[The Secretary of Energy pursuant to the Federal Nonnuclear Energy Research and Development Act of 1974 (Public Law 93-577), shall—

(1) no later than thirty days after the date of the enactment of this Act, publish in the Federal Register a notice soliciting statements of interest in, and informational proposals for, projects meeting the cost-sharing criteria contained under this head in Public Law 99-190 and employing emerging clean coal technologies which are capable of retrofitting, repowering, or modernizing existing facilities, which statements and informational proposals are to be submitted to the Secretary within sixty days after the publication of such notice; and

(2) no later than March 6, 1987, submit to Congress a summary report of statements of interest and informational proposals received and no later than one hundred and twenty days after the receipt of such statements and proposals submit to Congress a report that analyzes the information contained in such statements of interest and informational proposals and assesses the potential usefulness and commercial viability of each emerging clean coal technology for which a statement of interest or informational proposal has been received.

Notwithstanding guidance provided by the Department in the February 17, 1986 Clean Coal Technology Program Opportunity Notice, funds expended by a private sector participant during the period of Congressional review or approval of the projects selected by the Department for agreements may be eligible for cost-sharing, as appropriate, commencing immediately after a full and comprehensive report on the project in question is submitted to the Congress for a 30-day review pursuant to the Administrative Provisions of the Department of Energy in this Act: *Provided*, That such cost-sharing may only be reimbursed after the Congress has approved the project or the 30-day review period has elapsed and the agreement executed by the Department: *Provided further*, That in no case shall funds expended by the private sector during the review period be eligible for cost-sharing reimbursement of any project disapproved by the Congress.]

For necessary expenses, \$50,000,000 to be derived from the Clean Coal Technology Reserve established pursuant to Public Law 98-473, to remain available until expended, for the Secretary of Energy to issue, pursuant to the Federal Nonnuclear Energy Research and Development Act of 1974 (Public Law 93-577), a general request for proposals for clean coal technology projects and, upon review of such proposals, to provide financial assistance awards for projects that (1) meet the cost-sharing criteria contained under this head in Public Law 99-190; (2) employ emerging clean coal technologies capable of retrofitting, repowering or modernizing existing facilities; and (3) satisfy the criteria provided in the "Joint Report of the Special Envoys on Acid Rain", dated January 1986, which is described in the Clean Coal Technology Program Announcement published in the Federal Register on November 12, 1986.

Further, to provide financial assistance awards for projects which meet said requirements, in fiscal year 1989, \$100,000,000, to be derived from the Clean Coal Technology Reserve, to remain available until expended. (Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).)

Public Law 99-190, making continuing appropriations for 1986, provided \$400 million from funds in the Energy Security Reserve in the Department of the Treasury for a new Clean Coal Technology Program in the Department of Energy. This program was authorized under the Clean Coal Technology Reserve proviso of Public Law 98-473 to subsidize the construction and operation of facilities to demonstrate the potential commercial feasibility of such technologies.

Of the \$400 million, \$100 million was made available for obligation beginning in 1986, \$150 million in 1987, and \$150 million in 1988. These amounts were reduced by .6 percent pursuant to section 325 of the Department of the Interior and Related Agencies Appropriations Act, 1986, as included in section 101(d) of Public Law 99-190.

Public Law 99-190 also reduced the amount of the Clean Coal Technology Reserve to \$350 million. With the provision of funds to initiate the new program, the Reserve was merged with the program account.

The 1988 budget anticipates additional appropriations of \$350 million over 5 years for new clean coal technology demonstration projects, including \$50 million in 1988 and \$100 million as a 1989 advance appropriation. The remaining \$200 million is anticipated to be used during 1990-92.

This program was established in 1980 for the purpose of expediting the development and production of alternative fuels.

When the Synthetic Fuels Corporation was declared to be operational in 1982, the uncommitted and unobligated funds remaining in the program were transferred to the Energy Security Reserve for use by the Synthetic Fuels Corporation, with the exception of the loan guarantee for the Great Plains Gasification Project, which remained under the jurisdiction of the Department of Energy. The Department exercised its authority to borrow from the Treasury to repay the Federal Financing Bank upon default of the borrower in 1985. This loan was repaid, along with accrued interest, by a Supplemental appropriation in 1986. The Department acquired ownership of the Great Plains plant by foreclosure, which was completed on July 14, 1986, and has continued operation of the plant. Plant operations have been accomplished without the expenditure of appropriated funds. The Department is initiating steps for the sale of this property to the private sector. No estimates are included at this time for proceeds from the sale. The budget reflects the transfer to Treasury of revenues from plant operations through the end of fiscal year 1988.

Conservation, renewal, evaluation, and development of energy resources.—Advances from foreign private industry is used to fund basic electric energy research and experimentation.

Civilian reactor safety and testing.—Advances contributed by domestic and foreign sources fund research and development activities involving advanced reactors and related processes and sponsor international light water reactor safety testing at the Loss-of-Fluid Testing Facility.

Remedial action and nuclear waste technology.—Advances from domestic and foreign sources sponsor joint nuclear waste processing research projects.

Magnetic fusion program.—Advances received under international cooperative agreements provide for joint research, operation and upgrading of magnetic fusion and reactor facilities.

Basic energy sciences.—Advances contributed by foreign countries under cost-sharing agreements are for neutron scattering experiments and research.

Fossil energy.—Advances from private domestic and foreign government sources provide funds for enhanced oil recovery research and advancement of coal technology.

Richland operations office.—Advances from public utilities fund the cost of essential support services provided at a jointly operated reactor facility.

Defense programs.—Information concerning these activities is classified.

Technical information management program.—Advances received under international cooperative agreements provide funds for operating the International Energy Agency (IEA) and Energy Technology Data Exchange (ETDE).

The Alaska Power Administration (APA) is responsible for operation and maintenance and power marketing for the Eklutna and Snettisham hydroelectric projects in accordance with the authorizing legislation for each project.

The agency's normal activities will continue in 1988. The appropriation request anticipates that \$165,000 deferred from prior years will be used in 1988. Proprietary receipts are estimated to be \$8,469,000 in 1988.

Study efforts will continue on a possible Alaska Power Administration divestiture. Administration ac-

tivities will be coordinated with the Congress and existing power customers, and implementation will not proceed until there are necessary legislative approvals. To the extent feasible, divestiture will be accomplished with no significant power rate increases for ratepayers. The budget assumes that divestiture of the Alaska Power Administration will be authorized and implemented at the end of 1989.

Bonneville Power Administration (BPA) is the Federal electric power marketing agency in the Pacific Northwest. BPA markets hydroelectric power from 21 multipurpose water resource projects of the U.S. Army Corps of Engineers and 9 projects of the U.S. Bureau of Reclamation, plus some energy from non-Federal generating projects in the region. These generating resources and BPA's transmission system, planned by the end of 1988 to consist of an estimated 14,552 circuit miles of high-voltage transmission lines and 387 substations, are operated as an integrated power system with operating and financial results combined and reported as the Federal Columbia River Power System. BPA is the largest power wholesaler in the Northwest and provides about four-fifths of the region's electric power transmission capacity.

BPA is responsible for meeting the net firm power requirements of its requesting customers through a variety of means, including energy conservation programs, acquisition of renewable and other resources, and power exchanges with utilities both in and outside the region.

BPA will finance its operations on the basis of the self-financing authority provided by Federal Columbia River Transmission System Act of 1974 (Transmission Act) (Public Law 93-454) and the new borrowing authority provided by the Pacific Northwest Electric Power Planning and Conservation Act (Pacific Northwest Power Act) (Public Law 96-501) for energy conservation, and renewable energy resources, and capital fish facilities. Authority to borrow available to the BPA is available on a permanent, indefinite basis. This authority is limited only in that the amount of borrowing outstanding at any time cannot exceed \$3,750,000,000.

Debt repayment reform.—The budget assumes near-term actions, to be effective October 1, 1988, to improve business management of the power marketing programs while under Federal ownership and control. Debt repayment will be strengthened legislatively by such measures as: (1) making equal annual principal payments for each investment financed by appropriations including irrigation investments assigned to power for repayment, and (2) requiring that repayment for irrigation investments assigned to power be completed within a maximum of 40 years.

Budget programs—Resource planning, acquisition, and oversight.—Provides for the orderly planning, acquisition, and oversight of reliable, cost-effective, environmentally acceptable resources, including resources purchased prior to the Pacific Northwest Power Act, needed to serve BPA's portion of the region's forecasted net electric load requirements that cannot be met through cost-effective conservation.

Residential exchange.—Provides for extending the benefits of low-cost Federal power to the residential and small farm customers of investor-owned and publicly-owned utilities, in accordance with the Pacific Northwest Power Act.

Energy conservation.—Provides limited funding from revenues in support of the capital investment program described below for energy conservation.

System planning and construction.—Provides limited funding from revenues in support of the capital investment program described below for system planning and construction.

Operating programs—System operation.—Provides for operating an estimated 14,550 miles of line and 388 substations of the BPA transmission system during 1988.

System maintenance.—Provides for maintaining the facilities and equipment of the BPA transmission system in 1988.

Power marketing.—Provides for forecasting regional demand; negotiating power sales and wheeling, billing, and servicing these contracts; reviewing and establishing wholesale power and wheeling rates; and encouraging public participation in the formation of BPA policies and programs.

Power scheduling.—Provides for the scheduling of power.

Fish and wildlife.—Provides limited funding from revenues in support of the capital investment program described below for fish and wildlife.

Planning Council.—Provides for activities of the Pacific Northwest Electric Power and Conservation Planning Council required by the Pacific Northwest Power Act.

Net interest on borrowings.—Provides for payments to the U.S. Treasury for interest on borrowings to finance BPA's construction, energy conservation, and fish and wildlife programs under \$3,750,000,000 borrowing authority provided by the Transmission Act as amended by the Pacific Northwest Power Act and replenished by Public Law 98-50.

Associated project costs.—Provides for repayment of the operation and maintenance (O&M) costs of the 30 U.S. Army Corps of Engineers and U.S. Bureau of Reclamation power generating projects, interest and amortization on the U.S. Bureau of Reclamation capital investment in power generating facilities and coordination agreement payments to the Federal Energy Regulatory Commission.

Reimbursable.—Provides for that portion of Hanford Generating Project operating expenses paid by two investor-owned utilities through trust fund arrangements. Also provides for services such as construction, operation and maintenance of transmission facilities when requested and financed by other entities.

Capital investment—Energy conservation.—Provides for funding conservation measures, including home energy efficiency, commercial energy efficiency, street lighting, utility distribution system loss reduction, industrial technological transfers, passive solar energy applications, and conservation measures for new home and commercial building construction.

System planning and construction.—Provides for continuation of construction work on transmission lines substations and related facilities initiated in prior years, initiation of construction on system additions, and planning and research and development for a reliable, efficient and cost-effective regional transmission system. During 1988, BPA plans to construct and energize approximately 105 miles of line and 3 substations.

Capital equipment.—Provides for general purpose ADP equipment, office furniture and equipment, and software development in support of all BPA programs. This activity was previously included as part of the system planning and construction program.

Fish and wildlife.—Provides for protection, mitigation and enhancement of fish and wildlife affected by hydroelectric facilities on the Columbia River and its tributaries, in accordance with the Pacific Northwest Power Act.

Contingencies.—Although contingencies are not specifically funded, the need may arise to provide for purchase of power in low-water years; for repair and/or replacement of facilities affected by natural and man-made emergencies, including the resulting additional cost for contracting, construction, and operation and maintenance work; for unavoidable increased costs for the planned program due to necessary but unforeseen adjustments, including engineering and design changes, contractor and other claims and relocations, or for pay-

ment of a retrospective premium adjustment in excess nuclear property insurance policy, in the event one of the participating utilities has an accident with property damage in excess of \$500 million.

Financing.—The Transmission Act provides for the use by BPA of all receipts, collections, and recoveries in cash from all sources, including the sale of bonds, to finance the annual budget programs of BPA. These receipts result primarily from the sale of power and wheeling. The Transmission Act also provides for authority to borrow from the U.S. Treasury at rates comparable to borrowings at open market rates for similar issues. As amended by the Pacific Northwest Power Act and replenished by Public Law 98-50, it allows for \$3,750,000,000 of borrowing to be outstanding at any time. Borrowing authority estimated for use in 1988 is \$205,800,000.

In 1986 BPA made Treasury payments of \$640.9 million and expects to make payments of \$588.4 million in 1987 and \$615.1 million in 1988. The 1988 payment will be distributed as follows: U.S. Army Corps of Engineers and U.S. Bureau of Reclamation O&M and FERC payments (\$97.8 million), interest on bonds and appropriations (\$359.8 million), and amortization (\$157.5 million).

Direct loans.—There will be no direct loans in 1988.

Operating results.—Total revenues and receipts are forecast at approximately \$3,165,400,000 in 1988.

It should be noted that BPA's revenue forecasts are based on several critical assumptions about both the supply of and demand for Federal energy. Deviation from the assumed conditions may result in variation in actual revenues of several hundred million dollars from the forecast. Estimated retained income for 1988, based on BPA's current revenue and expense estimates, is \$414,839,000, an increase of \$185,200,000 from 1987.

OPERATION AND MAINTENANCE, SOUTHEASTERN POWER
ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy pursuant to the provisions of section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southeastern power area, **[\$19,647,000] \$27,400,000**, to remain available until expended.

(Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).)

Program and Financing (in thousands of dollars)

Table with 4 columns: Identification code 89-0302-0-1-271, 1986 actual, 1987 est., 1988 est. The Southeastern Power Administration (SEPA) markets power generated at Corps of Engineers hydroelectric generating plants in a 10-State area of the Southeast. Deliveries are made by means of transmission facilities owned by others. There are 22 projects now in operation. A schedule of kilowatt capacity of projects in operation or under construction follows:

Table with 2 columns: Description, Amount. Rows: Projects in operation (3,092,375), Project under construction: Russell B. Russell (pumping units) (300,000), Total (3,392,375).

SEPA sells power at wholesale primarily to publicly and cooperatively owned electric distribution utilities using wheeling and pooling agreements with the region's large private utilities to provide firm power to its customers. SEPA does not own or operate any transmission facilities. Its long-term contracts provide for periodic electric rate adjustments to insure that the Federal Government recovers all costs of operation and all capital invested in power, with interest, in keeping with statutory requirements.

Legislation will be proposed to study a possible divestiture of the Southeastern Power Administration. Administration activities will be coordinated with the Congress and existing power customers, and implementation will not proceed until there are necessary legislative approvals. To the extent feasible, divestiture will be accomplished with no significant power rate increases for ratepayers. The budget assumes that divestiture of the Southeastern Power Administration will be authorized and implemented at the end of 1989.

The SEPA program includes the following activities:

System operation and maintenance.—Provision is made for negotiation and administration of power contracts, collection of revenues, development of wholesale power rates, the amortization of power investment, investigation and planning of proposed water resources projects, scheduling and dispatch of power generation, scheduling storage and release of water, administration of contractual operation requirements, and determination of methods of operating generating plants individually and in coordination with others to obtain maximum utilization of resources. Proprietary receipts deposited in the Treasury were \$82,778,000 for 1986 and

are estimated to be \$114,000,000 for 1987. Proprietary receipts are expected to be \$120,789,000 during 1988.

Purchase power and wheeling.—Provision is made for the payment of wheeling fees and for the purchase of electricity in connection with disposal of power under contracts with utility companies.

The Southwestern Power Administration (SWPA) operates as a marketing agent for hydroelectric power produced at Corps of Engineers dams in a six-State area. It also operates and maintains some 1,388 miles of high voltage transmission lines, 26 substations and switching stations and 35 radio and microwave stations. SWPA sells its power at wholesale primarily to publicly and cooperatively owned electric distribution utilities. Its long-term contracts provide for periodic rate adjustments to insure that the Federal Government recovers all costs of operation and all capital invested in power, with interest, in keeping with statutory requirements.

SWPA also is responsible for scheduling and dispatching power, negotiating power sales contracts, and constructing facilities required to meet changing customer load requirements.

Systems operation and maintenance.—Provision is made for investigating and planning proposed water resources projects, scheduling and dispatching power generation, scheduling storage and release of water, administering contractual operation requirements, and determining methods of operating generating plants individually and in coordination with others to obtain maximum utilization of resources. Provision also is made for maintenance of the transmission system and related facilities to assure reliable service, negotiation and administration of power contracts, collection of revenue, development of wholesale power rates and the amortization of the power investment. Estimated proprietary receipts which are deposited in the Treasury are \$102,950,000 in 1986, and are estimated to be \$92,490,000 in 1987. Proprietary receipts are expected to be \$88,906,000 in 1988.

Purchase power and wheeling.—Provision is made for the payment of wheeling fees and for the purchase of energy in connection with the marketing of power under contracts with utility companies.

Construction.—The construction program provides transmission, substation and switching facilities to transmit power generated at Corps of Engineers' hydroelectric projects in the Southwest. This program is coordinated with the Corps of Engineers' construction program and customer requirements in order that transmission and related facilities will be in place when these power projects are completed and available for marketing. This program also provides for the purchase of capital electrical equipment used for upgrading the established system to meet changing customer load requirements.

Reimbursable program.—This program involves services provided by Southwestern Power Administration to others under various types of reimbursable arrangements. In 1988, the reimbursable program will provide power and energy services to three government agencies: Ft. Sill, Vance Air Force Base and McAlester Army Ammunition Plant. Construction services will be provided to various customers for the SEMO-NEARK transmission and substation additions, modifications of transmission lines, substations, and electronic facilities.

The Western Area Power Administration (Western) markets electric power in 15 western States from feder-

ally-owned power plants operated by the Bureau of Reclamation, Corps of Engineers and the International Boundary and Water Commission. Western operates and maintains about 16,000 miles of high-voltage transmission lines and over 200 associated substation/switchyards and constructs transmission facilities, including new transmission lines, substations and essential additions and modifications to existing facilities.

Western sells power at wholesale to electric distribution utilities. In keeping with statutory requirements, Western's long-term contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of operation and all capital invested in power facilities, with interest.

Systems operation and maintenance.—A total of 12 power systems will be operated and maintained. Additional revenue will be available from Boulder Canyon project operations for Western's power marketing and transmission expenses, without further appropriation, as provided in the Hoover Power Plant Act of 1984 (Public Law 98-381). Western will continue to participate in conservation and renewable energy programs in 1988.

Power is sold to wholesale customers such as municipalities, cooperatives, irrigation districts, public utility districts, State and Federal government agencies, and private utilities. Receipts are deposited in the Reclamation fund, the General fund, the Colorado River Dam fund, and the Lower Colorado River Basin Development fund.

Energy sales and revenues resulting from these Western power systems operations, excluding the Colorado River Storage project, the Navajo generating plant, and the Central Arizona project, are as follows:

	1986 actual	1987 est.	1988 est.
Energy sales (millions of kilowatt hours).....	31,442	30,007	28,496
Revenues from energy sales (in thousands of dollars).....	438,271	501,461	533,742

Purchase of power and wheeling.—The program provides for purchase of power, wheeling, and fuel displacement. Financing of this program consists of \$122,000,000 of new budget authority, \$27,252,000 associated with net billing procedures, \$49,609,000 associated with customer bill crediting and \$35,073,000 associated with Bonneville Power Administration power transfers for a total program cost of \$233,934,000.

System construction.—Construction of transmission facilities is necessary to maintain system reliability and for marketing electric power produced from generating plants of others. Funding is provided in 1988 for system interties, joint construction participation, replacement of deteriorated wood poles and damaged wood or steel structures, reconductoring and upgrading transmission lines to increase system capacity and reliability, construction of operation and maintenance facilities, and system security additions.

Reimbursable program.—This program involves services provided by Western to others under various types of reimbursable arrangements. In 1988, the reimbursable program primarily provides for construction and operation and maintenance services for the Bureau of Reclamation and for construction services associated with the California-Oregon Transmission project being built for non-Federal entities.

Western's operation and maintenance and power marketing expenses for the Colorado River storage project, the Colorado River Basin project and the Fort Peck project will be financed from power revenues.

Western operates and maintains approximately 3,000 miles of transmission lines and over 40 substations associated with these projects. Wholesale power is provided to utilities over the interconnected high-voltage transmission systems. In keeping with statutory requirements, long-term contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of operation and all capital invested in power, with interest.

Energy sales and revenue from power operations associated with the Colorado River Basin project will end in 1987 due to energy requirements for pumping purposes of the Central Arizona project.

The revenue from the Fort Peck project is integrated with Pick-Sloan Missouri Basin project revenue and is included in the construction, rehabilitation, operation and maintenance account.

Colorado River storage project.—Western markets power and operates and maintains the power transmission facilities of units of the Colorado River storage project and the Seedskaadee participating project. Western also purchases electricity and pays wheeling fees to meet contractual obligations and to execute the fuel displacement program.

Colorado River Basin project.—The 1988 program provides for Western's expenses associated with the Central Arizona project. Financing will be from the Lower Colorado River Basin development fund.

Fort Peck project.—Revenue collected by Western is used to defray construction, operation and maintenance and power marketing expenses associated with the power generation and transmission facilities of the Fort Peck project, Corps of Engineers—Civil, and emergency expenses to ensure continuous operation. The Corps operates and maintains the power generating facilities, and Western operates and maintains the transmission system and performs power marketing functions.

Departmental administration.—This account includes funds for a wide array of policy development and analysis activities, institutional and public liaison functions, and other program support requirements necessary to insure effective operation and management. Specific activities provided for are:

Policy, planning and analysis.—The Office of Policy, Planning and Analysis identifies major energy policy issues and develops an agenda for their resolution. It creates a foundation for better energy policy and programs through analysis and evaluation.

International affairs.—This organization supports the formulation of international energy policy, analyses and assessments of the current world energy situation, international cooperation in energy matters, and the Department's participation in the Administration's nuclear nonproliferation program.

Management and administration.—This office provides a wide range of institutional support services to the headquarters organizations and to the Department as a whole. Areas of responsibility include: organization and management systems; personnel management; contractor industrial relations; equal employment opportunity; automated data processing management and acquisition; telecommunications management; program/project construction and facility management; procurement and assistance management; and budget, account-

ing and finance; as well as performing and supplying administrative services.

Congressional, intergovernmental and public affairs.—This office is responsible for coordinating and directing legislative liaison with the Congress and coordinating and managing the Department's information dissemination activities. It gathers information on issues under departmental jurisdiction; counsels and advises DOE staff on relationships with the Congress; serves as liaison between relevant DOE elements and Congressional authorization and/or oversight committees and other Members; and coordinates the designation and scheduling of DOE witnesses to testify at hearings. For intergovernmental activities, the office provides guidance to ensure consistency in program activities with constituents and oversight on relations between Federal energy activities and external groups excluding those on an international level.

Operations offices.—The operations offices perform a wide variety of functions in support of energy activities throughout the country. Among these functions are field procurement, engineering and construction management, health and safety monitoring, property management, labor relations and maintenance of personnel and financial systems.

General Counsel.—This office is responsible for providing legal services with respect to all energy activities except for those functions belonging exclusively to the Federal Energy Regulatory Commission, which is served by its own General Counsel and litigation arising from the Emergency Petroleum Allocation Act. Its responsibilities entail the provision of legal opinion, advice and services to administrative and program offices, and the conduct of both administrative and judicial litigation, as well as legal advice and support for enforcement activities. Further, the General Counsel appears before State and Federal agencies in defense of national energy policies and activities. The office is responsible for the coordination and clearance of proposed legislation affecting energy activities and testimony before Congress. The General Counsel is also responsible for oversight of intelligence activities; assuring consistency and legal sufficiency of all energy regulations; administering and monitoring standards of conduct requirements; and conducting the Patents program.

Inspector General.—The responsibilities of this office are to supervise, coordinate, and provide policy direction for audit and investigative activities relating to the promotion of economy and efficiency in the administration or the prevention or detection of fraud or abuse in programs and operations.

Office of the Secretary.—Directs and supervises the staff and provides policy guidance to line and staff organizations in the accomplishment of agency objectives.

Board of Contract Appeals.—Hears and resolves contractual disputes arising from the Administration's financial assistance programs, including guaranteed loans, loan agreements, grants and cooperative agreements.

Office of Minority Economic Impact.—Is responsible for: (1) advising the Secretary on the effects of the Department's policies, regulations and actions on minorities and minority business enterprises; (2) conduct-

ing research to determine energy consumption and use patterns of minorities; (3) providing technical assistance to minority educational institutions and minority business enterprises to enable them to participate more fully in Departmental research activities; and, (4) providing loans to minority bank and thrift institutions under the minority bank development program. The office also is responsible for the White House Initiatives on Historically Black Colleges and Universities for the Department.

Work for others.—This activity covers the cost of work performed under orders placed with the Department by non-DOE entities. Reimbursement for these costs is made through deposits of offsetting collections to this account.

ADMINISTRATIVE PROVISIONS, DEPARTMENT OF ENERGY

Appropriations under this Act for the current fiscal year shall be available for hire of passenger motor vehicles, hire, maintenance, and operation of aircraft; purchase, repair, and cleaning of uniforms; and reimbursement to the General Services Administration for security guard services.

From appropriations under this Act, transfers of sums may be made to other agencies of the Government for the performance of work for which the appropriation is made.

None of the funds made available to the Department of Energy under this Act shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriations Act.

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private, or foreign: *Provided*, That revenues and other moneys received by or for the account of the Department of Energy or otherwise generated by sale of products in connection with projects of the Department appropriated under this Act may be retained by the Secretary of Energy, to be available until expended, and used only for plant construction, operation, costs, and payments to cost-sharing entities as provided in appropriate cost-sharing contracts or agreements: *Provided further*, That the remainder of revenues after the making of such payments shall be covered into the Treasury as miscellaneous receipts: *Provided further*, That any contract, agreement, or provision thereof entered into by the Secretary pursuant to this authority shall not be executed prior to the expiration of 30 calendar days [not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain] from the receipt by the Speaker of the House of Representatives and the President of the Senate of a full and comprehensive report on such project, including the facts and circumstances relied upon in support of the proposed project] *after notice thereof is transmitted to the House and Senate.*

The Secretary of Energy may transfer to the Emergency Preparedness appropriation such funds as are necessary to meet any unforeseen emergency needs from any funds available to the Department of Energy from this Act.

Section 303 of the Supplemental Appropriations Act, 1982 (Public Law 97-257), as amended, is repealed. (Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).)

GENERAL PROVISIONS—DEPARTMENT OF ENERGY

SEC. 301. Appropriations for the Department of Energy under this title for the current fiscal year shall be available for hire of passenger motor vehicles; hire, maintenance and operation of aircraft; purchase, repair and cleaning of uniforms; and reimbursement to the General Services Administration for security guard services. From these appropriations, transfers of sums may be made to other agencies of the United States Government for the performance of work for which this appropriation is made. None of the funds made available to the Department of Energy under this Act shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriation Act. The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private, or foreign.

(TRANSFERS OF UNEXPENDED BALANCES)

SEC. 302. Not to exceed 5 per centum of any appropriation made available for the current fiscal year for Department of Energy activities funded in this Act may be transferred between such appropriations, but no such appropriation, except as otherwise provided, shall be increased or decreased by more than 5 per centum by any such transfers, and any such proposed transfers shall be submitted promptly to the Committees on Appropriations of the House and Senate.

SEC. 303. The unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this title. Balances so transferred may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 304. The expenditure of any appropriation under this Act for any consulting service through procurement contract pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided

under existing law, or under existing Executive order issued pursuant to existing law.

【Sec. 305. None of the funds provided in this joint resolution or in any other law may be used to implement the following provisions of the uranium enrichment criteria submitted to Congress on July 24, 1986:

(i) section 762.3, which specifies the permitted enrichment of source material of foreign origin for use in domestic utilization facilities;

(ii) the third sentence of section 762.11, to the extent that it provides limitations on free choice of transaction tails assays from 0.2 percent to 0.3 percent U-235 or imposition of an additional charge for selections in that range;

(iii) section 762.15, to the extent it might be construed to validate contract provisions permitting unrestricted delivery and enrichment of foreign-origin feed material after a final court decision requiring restriction of enrichment of foreign-origin source material for domestic use or permitting imposition of additional charges for customer selections of transaction tails assays within the range of 0.2 percent to 0.3 percent U-235;

(iv) any portion of the criteria or provision in any contract which permits or results in reduction of the amount of feed material otherwise required to be delivered to DOE by commercial customers as a result of use of source material or special nuclear material from the government stockpiles in providing toll enrichment services for commercial customers;

(v) section 762.6 hereafter, insofar as it may convey a determination of the level of unrecouped costs that must be returned to the Treasury by the enrichment program, which determination shall be made by the Congress in future legislation.

The funds provided in this joint resolution shall be used to operate the enrichment program, consistent with the spending limitations imposed by this section, on the basis that the uranium enrichment criteria submitted to Congress on July 24, 1986 (except section 762.3 thereof) are in force and effect as modified above: *Provided*, That notwithstanding the effectiveness of the criteria as described above until amended or superseded in accordance with the Atomic Energy Act, except as is otherwise specifically provided by law, foreign-origin uranium may be enriched for domestic use only until a final judgment or dismissal in the pending litigation that determines whether section 161(v) of the Atomic Energy Act requires restriction of enrichment of foreign-origin source material, in which case the criteria shall be amended to impose such restrictions, or such unrestricted enrichment may continue, whichever is consistent with the decision of this question in the pending litigation: *Provided further*, That in expending funds hereunder, the Department shall be required to offer each customer, free of additional charge and irrespective of percentage of requirements contracted for, a transaction tails assays from 0.2 percent to 0.3 percent U-235: *Provided further*, That no provision of this joint resolution or the July 24, 1986, criteria shall affect the merits of the legal position of any of the parties concerning the questions whether section 161(v) of the Atomic Energy Act requires restriction of enrichment of foreign-origin source material destined for use in domestic utilization facilities, and whether distribution may be made of source material or special nuclear material from the government stockpile for commercial customers, in the pending litigation in the United States Court of Appeals for the Tenth Circuit and in the United States District Court for the District of Colorado.】 (*Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).*)

TITLE V—GENERAL PROVISIONS

SEC. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 502. None of the funds in this Act shall be used to pay the expenses of, or otherwise compensate, parties intervening in regulatory or adjudicatory proceedings funded in this Act.

【SEC. 503. None of the programs, projects or activities as defined in the report accompanying this Act, may be eliminated or disproportionately reduced due to the application of "Savings and Slippage", "general reduction", or the provision of Public Law 99-177.】

SEC. 【504】 503. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

【SEC. 505. None of the funds appropriated in this Act shall be used to implement a program of retention contracts for senior employees of the Tennessee Valley Authority.】

【SEC. 506. Notwithstanding any other provision of this Act or any other provision of law, none of the funds made available under this Act or any other law shall be used for the purposes of conducting any studies relating or leading to the possibility of changing from the currently required "at cost" to a "market rate" or any other noncost-based method for the pricing of hydroelectric power by the six Federal public power authorities, or other agencies or authorities of the Federal Government, except as may be specifically authorized by Act of Congress hereafter enacted.】

【SEC. 507. None of the funds appropriated in this Act shall be used to pay the salary of the Administrator of a Power Marketing Administration or the Board of Directors of the Tennessee Valley Authority, and none of the funds authorized to be expended by this or any previous Act from the Bonneville Power Administration Fund, established pursuant to Public Law 93-454, may be used to pay the salary of the Administrator of the Bonneville Power Administration, unless such Administrators or Directors award contracts for the procurement of extra high voltage (EHV) power equipment manufactured in the United States when such agencies determine that there are one or more manufacturers of domestic end product offering a product that meets the technical requirements of such agencies at a price not exceeding 130 per centum of the bid or offering price of the most competitive foreign bidder: *Provided*, That such agencies shall determine the incremental costs associated with implementing this section and defer or offset such incremental costs against otherwise existing repayment obligations: *Provided further*, That this section shall not apply to any procurement initiated prior to October 1, 1985, or to the acquisition of spare parts or accessory equipment necessary for the efficient operation and maintenance of existing equipment and available only from the manufacturer of the original equipment: *Provided further*, That this section shall not apply to procurement of domestic end product as defined in 48 C.F.R. sec. 25.101: *Provided further*, That this section shall not apply to EHV power equipment produced or manufactured in a country whose government has completed negotiations with the United States to extend the GATT Government Procurement Code, or a bilateral equivalent, to EHV power equipment, or which otherwise offers fair competitive opportunities in public procurements to United States manufacturers of such equipment.】

【SEC. 508. None of the funds in this Act may be used to construct or enter into an agreement to construct additional hydropower units at Denison Dam—Lake Texoma.】 (*Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).*)

Long Hansen's Disease Center, 42 U.S.C. 247e, as amended by Public Law 99-117: \$1,106,977,000, and of which \$100,000 shall remain available until expended for interest subsidies on loan guarantees made prior to fiscal year 1981 under part B of title VII of the Public Health Service Act: Provided, That amounts received pursuant to these provisions of law in accordance with 31 U.S.C. 9701 may be credited to this appropriation: Provided further, That notwithstanding section 17002(b) of Public Law 99-272, any employee of the United States Government, other than a Public Health Service Commissioned Officer paid from this appropriation, is subject to the provisions of 42 CFR 22.1 as published at 42 FR 43144-43146 on 24 October 1985: Provided further, That funds appropriated for Family Medicine and General Practice of Dentistry for fiscal year 1988 be awarded without regard to the limitation regarding dentistry grants in section 786(d) of the Public Health Service Act: Provided further, That funds appropriated for Geriatric/Long Term Care Initiatives for fiscal year 1988 be awarded without regard to the provisions in section 788(h)(2) of said Act.

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1987.

ADMINISTRATIVE PROVISIONS

[Provided, That this appropriation shall be available for payment of the costs of medical care, related expenses, and burial expenses hereafter incurred by or on behalf of any person who has participated in the study of untreated syphilis initiated in Tuskegee, Alabama, in 1932, in such amounts and subject to such terms and conditions as prescribed by the Secretary of Health and Human Services and for payment, in such amounts and subject to such terms and conditions, of such costs and expenses hereafter incurred by or on behalf of such person's wife or offspring determined by the Secretary to have suffered injury or disease from syphilis contracted from such person: Provided further, That when] When the Department of Health and Human Services administers or operates an employee health program for any Federal department or agency, payment for the full estimated cost shall be made by way of reimbursement or in advances to this appropriation:

DIRECT LOANS AND LOAN GUARANTEES

[Provided further, That during the] During fiscal year 1988, and within the resources and authority available under section 338 of the Public Health Service Act, gross obligations for the principal amount of direct loans under sections 335(c), 338C(e)(1), and 338E of that Act shall not exceed \$1,000,000: [Provided further, That the total principal amount of Federal loan insurance available under section 728 of the Public Health Service Act during fiscal year 1987 shall be granted by the Secretary of Health and Human Services without regard to any apportionment or other similar limitation.] Provided, That the provisions of section 741(i) of the Public Health Service Act shall also apply to schools participating in the Nursing Student Loan Program or lenders participating in the Health Education Assistance Loan Program: Provided further, That during fiscal year 1988, the Secretary of Health and Human Services may enter into commitments totaling \$100,000,000 to guarantee up to 80 per centum of the value of Health Education Assistance Loans under subpart 1 of part C of title VII of the Public Health Service Act, so long as the Student Loan Insurance Fund has a positive balance: Provided further, That notwithstanding

any other law or regulation, the Secretary of Health and Human Services may adjust the insurance premium applied to a Health Education Assistance Loan based on the differential default rates on these loans that are associated with specific lenders, schools or graduate health professions disciplines.

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1987.

INDIAN HEALTH [SERVICES] SERVICE

For expenses necessary to carry out the Act of August 5, 1954 (68 Stat. 674), the Indian Self-Determination Act, the Indian Health Care Improvement Act, and titles III and XXI and [section] sections 208 and 338G of the Public Health Service Act with respect to the Indian Health Service, including hire of passenger motor vehicles and aircraft; purchase of reprints; purchase and erection of portable buildings; payments for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; [\$841,809,000:] the administration of construction, major repair, improvement, and equipment of health and related auxiliary facilities, including quarters for personnel; preparation of plans, specifications and drawings; acquisition of sites, purchase and erection of portable buildings, purchases of trailers; and for provision of domestic and community sanitation facilities for Indians, \$796,835,000, together with payments received during the fiscal year pursuant to 42 U.S.C. 300aa-2 for services furnished by the Indian Health Service, to remain available until expended, of which \$2,450,000 shall be for repairs and improvements to structures owned or operated by the Indian Health Service: Provided, That notwithstanding any other law or regulation, funds transferred from the Department of Housing and Urban Development to the Indian Health Service shall be administered under Public Law 86-121 (the Indian Sanitation Facilities Act): Provided further, That funds made available to tribes and tribal organizations through grants and contracts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (88 Stat. 2203; 25 U.S.C. 450), shall remain available until September 30, [1988; and \$10,000,000 shall remain available until expended, for the establishment of an Indian Catastrophic Health Emergency Fund (hereinafter referred to as the "Fund"). Hereafter, the Fund is to cover the Indian Health Service portion of the medical expenses of catastrophic illness falling within the responsibility of the Service and shall be administered by the Secretary of Health and Human Services, acting through the central office of the Indian Health Service. No part of the Fund or its administration shall be subject to contract or grant under the Indian Self-Determination and Education Assistance Act (Public Law 93-638). There shall be deposited into the Fund all amounts recovered under the authority of the Federal Medical Care Recovery Act (42 U.S.C. 2651 et seq.), which shall become available for obligation upon receipt and which shall remain available for obligation until expended. The Fund shall not be used to pay for health services provided to eligible Indians to the extent that alternate Federal, State, local, or private insurance resources for payment: (1) are available and accessible to the beneficiary; or (2) would be available and accessible if the beneficiary were to apply for them; or (3) would be available and accessible to other citizens similarly situated under Federal, State, or local law or regulation or private insurance program notwithstanding Indian Health Service eligibility or residency on or off a Federal Indian reservation. Funds] 1989: Provided further, That funds provided in this Act may be used for one-year contracts and grants which are to be performed in two fiscal years, so long as the total obligation is recorded in the year for which the funds are appropriated: Provided further, That the amounts collected by the Secretary of Health and Human Services under the authority of title IV of the Indian Health Care Improvement Act shall be available [until September 30, 1988] for two fiscal years after the fiscal year in which they are collected, for the purpose of achieving compliance with the applicable conditions and requirements of titles XVIII and XIX of the Social Security Act (exclusive of planning, design, construction of new facilities, or major renovation of existing Indian Health Service facilities): Provided further, That of the funds provided, \$2,500,000 shall remain available until expended, for the establishment of an Indian Self-Determination Fund, which shall be available for the transitional costs of initial or expanded tribal contracts, grants or cooperative agreements with the Indian Health Service under the provisions of the Indian Self-Determination Act: Provided further, That funding contained herein, and in any earlier appropriations Acts for scholarship programs under section 103 of the Indian Health Care Improvement Act and section

338G of the Public Health Service Act with respect to the Indian Health Service shall remain available for expenditure until September 30, [1988] 1989. (Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).)

[For an additional amount for "Indian health services", \$16,200,000: Provided, That funds made available to tribes and tribal organizations through grants or contracts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (88 Stat. 2203; 25 U.S.C. 450 et seq.) shall remain available until September 30, 1988.] (Omnibus Drug Supplemental Appropriations Act of 1987, as included in Public Laws 99-500 and 99-591, Title II.)

ADMINISTRATIVE PROVISIONS, INDIAN HEALTH SERVICE

Appropriations in this Act to the Indian Health Service, available for salaries and expenses, shall be available for services as authorized by 5 U.S.C. 3109 but at rates not to exceed the per diem equivalent to the rate for GS-18, and for uniforms or allowances therefor as authorized by law (5 U.S.C. 5901-5902), and for expenses of attendance at meetings which are concerned with the functions or activities for which the appropriation is made or which will contribute to improved conduct, supervision, or management of those functions or activities: *Provided*, That none of the funds appropriated under this Act to the Indian Health Service shall be available for the initial lease of permanent structures without advance provision therefor in appropriations Acts: *Provided further*, That non-Indian patients may be extended health care at all Indian Health Service facilities, if such care can be extended without impairing the ability of the Indian Health Service to fulfill its responsibility to provide health care to Indians served by such facilities and subject to such reasonable charges as the Secretary of Health and Human Services shall prescribe, the proceeds of which, together with funds recovered under the Federal Medical Care Recovery Act (42 U.S.C. 2651-53), shall be deposited in the fund established by sections 401 and 402 of the Indian Health Care Improvement Act: *Provided further*, That funds appropriated to the Indian Health Service in this Act, except those used for administrative and program direction purposes, shall not be subject to limitations directed at curtailing Federal travel and transportation: *Provided further*, That with the exception of service units which currently have a billing policy, the Indian Health Service shall [not initiate any further action to bill Indians in order to] only collect from third-party payers [nor to] and shall not charge those Indians who may have the economic means to pay unless and until such time as Congress has

agreed upon a specific policy to do so and has directed the Indian Health Service to implement such a policy: *Provided further*, That the Secretary of Health and Human Services may authorize special retention pay under paragraph (4) of 37 U.S.C. 302(a) to any regular or reserve officer for the period during which the officer is obligated under section 338B of the Public Health Service Act and assigned and providing direct health services or serving the officer's obligation as a specialist: *Provided further*, That hereafter the Indian Health Service may seek subrogation of claims including but not limited to auto accident claims, including no-fault claims, personal injury, disease, or disability claims, and worker's compensation claims, the proceeds of which shall be credited to the funds established by sections 401 and 402 of the Indian Health Care Improvement Act *Provided further*, That notwithstanding any other provision of law or regulation, for purposes of acquiring sites for new hospital facilities in Anchorage, Alaska, and in Kotzebue, Alaska, the Secretary of Health and Human Services may exchange any or all interests in any land administered by the Secretary in Alaska for any or all interests in any land of the State of Alaska, any political subdivision of the State, or any corporation, including the University of Alaska and may receive money if necessary to equalize the exchange: *Provided further*, That any such receipts shall be credited to the Indian Health facilities appropriation and be used to offset the cost of construction of these two facilities. *(Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).)*

Title VII, part C of the Public Health Service Act established a revolving fund from which health professions schools could borrow in order to provide loans to their students. Public Law 89-751, the Allied Health Professions Personnel Training Act of 1966, amended the Public Health Service Act to authorize the Federal Government to pay the difference between the interest paid by students to the schools and the interest payable by the schools to the Government National Mortgage Association (GNMA) and the Treasury.

The participation certificates outstanding, held by this fund, were \$9,729,000 at the end of 1986 and are estimated to remain at that level in 1987. Through redemption of all participation certificates outstanding, the balance held by this fund is expected to drop to zero in 1988.

MEMORANDUM

2299 U.S. contingent liability for guaranteed loans outstanding, end of year	875,694	732,492	600,992
--	---------	---------	---------

Title VI and subsequently title XVI of the Public Health Service Act established a loan and loan guarantee fund for medical facilities with a maximum amount allowable for the Government's liability. Direct loans were made available for public facilities and guaranteed loans for private, nonprofit facilities.

Funds under this authority were established in the amount of \$50 million for use in fulfilling guarantees in event of default, \$30 million as a revolving fund for direct loans and an amount for interest subsidy payments on guaranteed loans. Default and interest subsidy funds are replenished as necessary through the annual appropriation process.

All direct loan assets will be sold to the public during 1988.

FEDERAL SUBSIDY FOR SAINT ELIZABETHS HOSPITAL

[For a portion of the cost of the maintenance and operation of Saint Elizabeths Hospital in the District of Columbia, \$36,353,000: *Provided*, That in fiscal year 1987 and thereafter the maximum amount available to Saint Elizabeths Hospital from Federal sources shall not exceed the total of the following amounts: the appropriations made under this heading, amounts billed to Federal agencies

and entities by the Secretary of Health and Human Services for services provided at Saint Elizabeths Hospital, and amounts authorized by titles XVIII and XIX of the Social Security Act: *Provided further*, That this amount shall not include Federal funds appropriated to the District of Columbia under "Federal Payment to the District of Columbia" and payments made pursuant to section 9(c) of Public Law 98-621: *Provided further*, That the Secretary of Health and Human Services may set rates which in the aggregate do not exceed the estimated total cost of inpatient and outpatient services provided through Saint Elizabeths Hospital as authorized by title 16, sections 2315 and 2320, title 21, sections 511, 513, 522, 545, 902, and 1116, and title 24, sections 301 and 302 of the District of Columbia Code, and may bill and collect from (prospectively or otherwise) individuals, the District of Columbia and other entities for any services so provided: *Provided further*, That the Secretary of Health and Human Services may set rates which in the aggregate do not exceed the estimated total cost of inpatient and outpatient services provided through Saint Elizabeths Hospital as authorized by title 24, sections 191, 196, 211, 212, 222, 253, and 324, title 31, section 1535, and title 42, sections 249 and 251 of the United States Code, and may bill and collect (prospectively or otherwise) from individuals, and Federal agencies, and other entities for any services so provided. Amounts so collected shall be credited to the appropriation for Saint Elizabeths Hospital and shall remain available until expended.] *To carry out the Saint Elizabeths Hospital and District of Columbia Mental Health Services Act, \$65,587,000, together with any unobligated balances from "Saint Elizabeths Hospital, Construction and Renovation" (except those balances determined by the Secretary of Health and Human Services to be necessary to carry out existing Federal renovation contracts), all of which shall be available in fiscal year 1988 for payments to the District of Columbia as authorized by sections 2, 4, and 9 of the Act; and in addition, \$2,725,000 which shall be available through September 30, 1989 for Federal activities authorized by sections 6 and 9 of the Act: Provided, That funds appropriated under this heading may be used for multi-year contracts with the District of Columbia for maintenance of Saint Elizabeths Hospital: Provided further, That any amounts determined by the Secretary of Health and Human Services to be in excess of the amounts requested and estimated to be necessary to carry out sections 6 and 9(f)(2) of the Act shall be returned to the Treasury: Provided further, That upon acceptance of any funds appropriated under this heading, the District Government agrees that the amount granted under this heading satisfies fully the Secretary of Health and Human Services' responsibilities under sections 4 and 9(f)(2) of the Act.*

For fiscal year 1989, \$24,000,000 shall be available for payments to the District of Columbia as authorized by section 9(a) of the Act.

In fiscal year 1988 and thereafter, the maximum amount available to Saint Elizabeths Hospital from Federal sources shall not exceed the total of the following amounts: the appropriations made under this heading, amounts billed to Federal agencies and entities by the District of Columbia for services provided at Saint Elizabeths Hospital, and amounts authorized by titles XVIII and XIX of the Social Security Act. This maximum amount shall not include Federal funds appropriated to the District of Columbia under "Federal Payment to the District of Columbia" and payments made pursuant to section 9(c) of Public Law 98-621. Amounts chargeable to and available from Federal sources for inpatient and outpatient services provided through Saint Elizabeths Hospital as authorized by 24 U.S.C. 191, 196, 211, 212, 222, 253, and 324; 31 U.S.C. 1535; and 42 U.S.C. 249 and 251 shall not exceed the estimated total cost of such services as computed using only the proportionate amount of the direct Federal subsidy appropriated under this heading.

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriation Act, 1987.

The work incentive (WIN) program was designed to encourage and assist individuals receiving support from the aid to families with dependent children (AFDC) program to achieve self-support through a program of employment, training, and support services. Training was administered by the Department of Labor; supportive services by the Department of Health and Human Services. State expenditures have been federally matched at the rate of 90%. Repeated studies, however, have shown that the WIN program is not cost effective. For 1987, the Congress appropriated amounts to be used during the first 9 months on the understanding that a replacement program would be enacted. Under the President's 1988 budget, the WIN program will be phased out with the 1987 appropriation, and a new AFDC work and training proposal will encourage teenage recipients to remain in or return to school and older recipients will participate in a variety of employment and training activities designed to improve their employment status. Services will include: job search, remedial education,

training under the Job Training Partnership Act, and other State-designed activities approved by the Secretary of Health and Human Services. These new activities will be administered by the Department of Health and Human Services' Family Support Administration.

Social services activities.—The Administration requests a generic appropriation for all Function 500 social services discretionary programs administered by the Office of Human Development Services (including discretionary activities previously funded in the Family Social Services account). The generic request is in no way a block grant consolidation proposal. It is intended to simplify the congressional budget process by replacing 26 separate line item allocations with a single functional category and to shift attention to the broader issue of a social services strategy. Many of these programs serve similar populations and share the same goals of promoting independence, integration, and economic self-sufficiency. Authorities for individual programs would still exist, but HHS would have the flexibility to use its program expertise in determining funding levels for specific initiatives. Under a generic appropriation for discretionary social services programs, the Administration will increase efforts for the highest priority programs, such as Head Start, and take advantage of emerging opportunities to best serve children, older Americans, the developmentally disabled, and Native Americans. Congress is invited to define selectively, priorities within the \$2.2 billion requested level of effort.

Federal administration—Human development services.—The proposed level will fund administrative expenses to carry out Office of Human Development Services programs.

GENERAL PROVISIONS

SEC. 201. None of the funds appropriated by this title for grants-in-aid of State agencies to cover, in whole or in part, the cost of operation of said agencies, including the salaries and expenses of officers and employees of said agencies, shall be withheld from the said agencies of any State which have established by legislative enactment and have in operation a merit system and classification and compensation plan covering the selection, tenure in office, and compensation of their employees, because of any disapproval of their personnel or the manner of their selection by the agencies of the said States, or the rates of pay of said officers or employees.

[SEC. 202. Funds appropriated in this Act for the National Institutes of Health shall be used to support no fewer than 6,200 new and competing research project grants.]

SEC. [203] 202. Appropriations [in this Act for Health Resources and Services Administration, the National Institutes of Health, the Centers for Disease Control, the Alcohol, Drug Abuse, and Mental Health Administration, the Office of the Assistant Secretary for Health, the Health Care Financing Administration, and Departmental Management] shall be available for expenses for not to exceed 3,200 active commissioned officers in the Public Health Service Reserve Corps and for not to exceed [two thousand four hundred] 2,250 commissioned officers in the Regular Corps; expenses incident to the dissemination of health information in foreign countries through exhibits and other appropriate means; advances of funds for compensation, travel, and subsistence expenses (or per diem in lieu thereof) for persons coming from abroad to participate in health or scientific activities of the Department pursuant to law; expenses of primary and secondary schooling of dependents in foreign countries, of Public Health Service commissioned officers stationed in foreign countries, at costs for any given area not in excess of those of the Department of Defense for the same area, when it is determined by the Secretary that the schools available in the locality are unable to provide adequately for the education of such dependents, and for the transportation of such dependents, between such schools and their places of residence when the schools are not accessible to such dependents by regular means of transportation; expenses for medical care for civilian and commissioned employees of the Public Health Service and their dependents, assigned abroad on a permanent basis in accordance with such regulations as the Secretary may provide; rental or lease of living quarters (for periods not exceeding five years), and provision of heat, fuel, and light and maintenance, improvement, and repair of such quarters, and advance payments therefor, for civilian officers, and employees of the Public Health Service who are United States citizens and who have a permanent station in a foreign country; purchase, erection, and maintenance of temporary or portable structures; and for the payment of compensation to consultants or individual scientists appointed for limited periods of time pursuant to section 207(f) or section 207(g) of the Public Health Service Act, at rates established by the Assistant Secretary for Health, or the Secretary where such action is required by statute, not to exceed the per diem rate equivalent to the rate for GS-18; not to exceed \$9,500 for official reception and representation expenses related to any health agency of the Department when specifically approved by the Assistant Secretary for Health.

SEC. [204] 203. None of the funds contained in this Act shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term.

Sec. [205] 204. Funds advanced to the National Institutes of Health Management Fund from appropriations in this Act shall be available for the expenses of sharing medical care facilities and resources pursuant to section 327A of the Public Health Service Act.

Sec. [206] 205. Funds appropriated in this title for the Social Security Administration [and the Office of Child Support Enforcement] shall be available for not to exceed \$10,000 of official reception and representation expenses [related to income maintenance or child support enforcement activities of the Department] when specifically approved by the Commissioner of Social Security.

Sec. [207] 206. Funds appropriated in this title for the Health Care Financing Administration shall be available for not to exceed \$2,000 for official reception and representation expenses when specifically approved by the Administrator of the Health Care Financing Administration.

Sec. [208] 207. No funds appropriated for the fiscal year ending September 30, [1987] 1988, by this or any other Act, may be used to pay basic pay, special pays, basic allowances for subsistence and basic allowances for quarters of the commissioned corps of the Public Health Service described in section 204 of title 42, United States Code, at a level that exceeds 110 percent of the Executive Level [1] 3 annual rate of basic pay *except for Commissioned Corps officers currently receiving such levels of pay*: *Provided*, That amounts received from employees of the Department in payment for room and board may be credited to the *Department of Health and Human Services* appropriation accounts *which finance the services* [“Health Resources and Services”, National Institutes of Health “Office of the Director”, “Disease Control”, and “Federal Subsidy for Saint Elizabeths Hospital”]: *Provided further*, That funds appropriated by this Act or any other Act shall not be used for special, revised special, or continuation pay to any physician or dentist appointed to the *Public Health Service Commissioned Corps* during the current year whose primary duties are determined by the Secretary to be administrative or managerial: *Provided further*, That any physician or dentist who, through promotion or reassignment within the Corps, assumes as primary duties administrative or managerial responsibilities may, at the discretion of the Secretary, receive such special, revised special or continuation pay.

Sec. [209] 208. None of the funds appropriated in this title shall be used to transfer the general administration of programs authorized under the Native American Programs Act from the Department of Health and Human Services to the Department of the Interior.

Sec. [210] 209. Funds provided in this Act may be used for one-year contracts which are to be performed in two fiscal years, so long as the total amount for such contracts is obligated in the year for which the funds are appropriated.

[Sec. 211. The Secretary shall make available through assignment not more than 50 employees of the Public Health Service, who shall be exempt from all FTE limitations in the Department, to assist in child survival activities through and with funds provided by the Agency for International Development, the United Nations International Children’s Emergency Fund or the World Health Organization. In addition, commissioned officers assigned under this section shall be

exempt from all limitations on the number and grade of officers in the Public Health Service Commissioned Corps.]

Sec. 210. *Not to exceed three per centum of any appropriation for fiscal year 1988 made available under this or any other Act for activities of the Department of Health and Human Services funded in this Act may be transferred to any other such appropriation: Provided*, That no such appropriation may be increased or decreased by more than three per centum by any such transfer: *Provided further*, That Congress shall be notified thirty days in advance of any such transfer: *Provided further*, That this section shall not authorize transfer of amounts from an appropriation for any activity for which the amount of the entitlement to funding may be established without regard to the amount of the appropriation.

Sec. 211. *Funds appropriated by this Act may be used to pay physicians’ comparability allowances, as authorized under 5 U.S.C. 5948, only to those persons who are licensed to practice medicine, except that this provision shall not apply to individuals receiving such allowances prior to January 1, 1988.*

Sec. 212. *Notwithstanding 31 U.S.C. 1348, and for the purpose of insuring proper management of federally supported computer systems and data bases, funds appropriated by this Act are available for the purchase of dedicated telephone service between the private residences of employees assigned to computer centers funded under this Act, and the computer centers to which such employees are assigned.*

Sec. 213. *Not to exceed two-thirds of funds appropriated for health professions and nurse training programs under the Public Health Service Act may be used for direct stipends to minority and disadvantaged students.*

Sec. 214. *Funds derived from collections under section 1803 of Public Law 99-570 shall be credited to appropriations of the Department of Health and Human Services that finance the activities under such section, with such funds to remain available until expended.*

Sec. 215. *Funds appropriated in this Act for Acquired Immune Deficiency Syndrome activities may remain available until expended.*

Sec. 216. *The Secretary is authorized to recover funds appropriated in this or any other Act for purposes of facility construction and modernization grants from any grantee who has title or ownership interest in a facility financed in whole or in part by such funds, when the basic use of such assisted facilities no longer meets the program requirements and purposes as originally authorized.*

Sec. 217. *For the purpose of increasing HHS’ AIDS activities, the Secretary may transfer up to three per centum of any discretionary funds otherwise available in fiscal year 1988: Provided*, That the amount transferred from any single appropriation, together with any amounts transferred from that appropriation pursuant to any other provision of this Act, shall not exceed 3 per centum of the total funds available for obligation in fiscal year 1988 under that heading: *Provided further*, That Congress shall be notified thirty days in advance of any such transfer.

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1987.

Direct program.—The old-age and survivors insurance (OASI) program provides income to retired workers, their dependents, and survivors. The program is financed by payroll taxes paid by employers, employees, and self-employed individuals.

The contribution rates are applied to taxable earnings up to a specified maximum. The maximum was

\$39,600 in 1985, \$42,000 in 1986, \$43,800 in 1987, and is expected to increase to \$45,300 in 1988.

Benefit payments.—Benefits are based on average taxable earnings, indexed for inflation.

Administration.—This activity reflects the costs of administering this program.

Payment to railroad retirement account.—Since 1951, approximately \$30 billion in annual payments from the social security trust funds have helped finance the railroad retirement system. The annual OASI payment includes funds for some benefits which are not, in turn, paid to railroad workers and their families.

Reimbursable program.—Advances are made from the OASI trust fund for the administrative expenses of the general fund programs and certain other services administered by SSA with full reimbursement to the trust fund (including interest when appropriate).

The disability insurance (DI) program provides income to insured disabled workers (and their dependents). This program is financed by payroll taxes paid by workers, employers, and self-employed individuals.

Benefit payments.—Disability insurance benefits are made to certain disabled individuals and their dependents. Automatic cost-of-living benefit increases are the same as for the OASI program.

Administration.—This activity reflects administrative and other nonbenefit expenses attributable to the DI program.

Payment to railroad retirement account.—Annual adjustments are made between the DI trust fund and the railroad retirement fund. This adjustment is computed on the same basis as the payment from the OASI trust fund which is described in the preceding section.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

This chapter presents the budget and program estimates for the Department of Housing and Urban Development. Most of the Department's programs are also discussed in Part 5 of the budget (the Federal program by function) under one of three headings: Commerce and housing credit (mortgage credit and deposit insurance); Community and regional development; and Income security (public assistance and other income supplements).

The major divisions of this chapter conform to the following Department activities:

Housing programs cover the Department's major housing subsidy programs except for those activities under the public housing and Indian housing programs. The mortgage insurance activities of the Federal Housing Administration, including loan management and property disposition activities, are also included under this heading. Other activities included under this heading are community disposal operations, the Office of Interstate Land Sales Registration, manufactured home inspection and monitoring, the rental development grant program, and the Transitional Housing Demonstration program. The budget data for the latter program includes the Emergency Shelter Grants program which is administered by Community Planning and Development.

Public and Indian Housing programs cover public housing management and development activities (including modernization) and provision of Indian Housing assistance. Also included are credit and financing activities related to development and modernization.

Government National Mortgage Association (GNMA) covers the Department's programs to assist in the availability of mortgage credit and stabilize financing of selected types of mortgage loans. This heading also covers GNMA management and liquidating functions, the guarantee of mortgage-backed securities, and trustee activities in connection with participation certificates that are backed by loan obligations of various trustor agencies.

Community planning and development covers the Community development grant and Urban development action grant programs authorized by the Housing and Community Development Act of 1974, as amended. This organization is also responsible for the administration of the Rental rehabilitation grant and the Urban homesteading programs as well as the Rehabilitation loan (section 312) program, the Emergency shelter grants program, terminated categorical community development programs, and the Revolving fund for liquidating programs. Budget data for the Emergency shelter grants program is included with the Transitional housing demonstration program in the Housing programs section of this chapter.

Fair Housing and Equal Opportunity includes the Fair Housing Assistance Program authorized by title VIII of the Civil Rights Act of 1968, as amended, and the proposed Fair Housing Initiatives program.

Policy development and research includes the policy development, economic analysis, program evaluation, and research activities of the Department.

Provided further, That with respect to grants as authorized by section 17(a)(1)(B) of the United States Housing Act of 1937 (42 U.S.C. 1437o) which are made using funds made available under this paragraph, notwithstanding the rental housing vacancy rate criteria of the third and sixth sentences of section 17(d)(2) of such Act, no unit of general local government shall be eligible for such a grant unless the percentage of rental dwelling units within its jurisdiction which are vacant is less than the national percentage of rental dwelling units that are vacant and a percentage of rental dwelling units within its jurisdiction which are vacant for more than two months is less than the national percentage of dwelling units that are vacant for more than two months, except that the housing vacancy criteria specified in this paragraph shall not apply to grants authorized by the seventh sentence of such section 17(d)(2): *Provided further*, That of the \$7,805,668,000 of budget authority provided herein, \$200,000,000 shall remain available until expended for assistance in financing the development or acquisition cost of public housing (other than for Indian families) and for major reconstruction of obsolete public housing projects (other than for Indian families), and an amount equal to the amounts of budget authority which have been reserved or obligated for such purpose in a prior year and which are recaptured during fiscal year 1987 (not including such amounts as may be recaptured from amounts heretofore obligated for such assistance for Indian families, and amounts that become available for rescission pursuant to section 4(c)(3) of the United States Housing Act of 1937 (42 U.S.C. 1437(b) shall also be made available as an appropriation of funds for such purpose: *Provided further*, That any part of the \$200,000,000 and the recaptured amount referred to in the immediately foregoing proviso may in the discretion of the Secretary, based on applications submitted by public housing authorities, be used for new construction or major reconstruction of obsolete public housing projects (other than for Indian families): *Provided further*, That an amount equal to the amounts of budget authority which have been reserved or obligated for assistance in financing the development or acquisition cost of public housing for Indian families and which have been recaptured (not including amounts that become available for rescission pursuant to section 4(c)(3) of the United States Housing Act of 1937 (42 U.S.C. 1437(b)), in addition to other amounts of budget authority specified for such purpose under this Act, shall be made available as an appropriation of funds, to remain available until expended for grants for such development or acquisition cost of public housing for Indian families: *Provided further*, That an amount equal to the amounts of budget authority which have been reserved or obligated for assistance for modernization of existing public housing projects pursuant to section 14 of such Act (42 U.S.C. 1437l) and which are recaptured (not including amounts that become available for rescission pursuant to section 4(c)(3) of the Act (42 U.S.C. 1437(b)) or which are carried over from a prior year or are otherwise available for obligation, shall be made available as an appropriation of funds, to remain available until expended, for grants for modernization of existing public housing projects: *Provided further*, That none of the amounts available for obligation in 1987 shall be subject to the provisions of section 213(d) of the Housing and Community Development Act of 1974, as amended (42 U.S.C. 1439): *Provided further*, That all amounts of budget authority (and contract authority) equal to the amounts of budget authority (and contract authority) reserved or obligated for programs under section 8 of the United States Housing Act of 1937, as amended (42 U.S.C. 1437f), which are recaptured during fiscal year 1987 shall be rescinded.】

【Amounts of funds for rental rehabilitation grants as authorized by section 17(a)(1)(A) of the United States Housing Act of 1937 and for development grants as authorized by section 17(a)(1)(B) of such Act (42 U.S.C. 1437o) that were appropriated under this heading in the Department of Housing and Urban Development-Independent Agencies Appropriation Act, 1985 (Public Law 98-371, 98 Stat. 1213, 1215, amending Public Law 98-45, 97 Stat. 219, 220), to become available in part during fiscal year 1984, and in part on October 1, 1984, shall remain available for obligation until September 30, 1987; and the balance of the amounts of funds for rental rehabilitation grants and for development grants, that were appropriated under this heading in the Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1986 (Public Law 99-160, 99 Stat. 909), to be available during fiscal year 1986, which remains following sequestration under the President's order of February 1, 1986, pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985

(Public Law 99-177; H. Doc. 99-160, 99th Cong. 2d Sess., pages 462-463), shall remain available until September 30, 1988: *Provided*, That the foregoing extensions of the periods of availability for the respective amounts of funds shall apply only to amounts which are recaptured, and section 17(b)(4) of the United States Housing Act of 1937 (relating to reallocations of fund amounts for rental rehabilitation) shall not apply to the respective amounts for rental rehabilitation grants: *Provided further*, That section 17(d)(4)(G) of such Act is amended by inserting before the semicolon the following: "(36 months after notice in the case of projects for which funding notices were issued prior to July 23, 1985)".】

【Section 17(f) of the United States Housing Act of 1937 is amended by adding at the end the following new sentence: "This subsection shall not apply to requirements relating to rents imposed on a structure as a condition of receiving financial assistance under a program of the State of New York for the rehabilitation of the structure if (1) the dollar amount of the State financial assistance (including the principal amount of loans) exceeds the dollar amount of financial assistance provided for the structure under this section, and (2) the structure is privately owned by (A) a person or family whose income does not exceed 80 percent of the median income for the metropolitan statistical area where the structure is located (or the county, if located outside such an area), or (B) a not-for-profit corporation or charitable organization which has as one of its primary purposes the improvement of housing for such persons, or by a wholly owned subsidiary of such a corporation or organization."】

【The method of calculation, the preliminary fee, and the percentage established for administrative fees paid to a public housing agency administering a contract under this heading shall be the method of calculation, the preliminary fee, and the percentage established by the Secretary as of September 30, 1986.】

For assistance under the United States Housing Act of 1937, as amended (42 U.S.C. 1437), not otherwise provided for, \$3,919,889,313, to remain available until expended: Provided, That of the total amount provided herein, for assistance under such Act, \$71,520,853 shall be available for the development or acquisition of housing for Indian families; \$563,060,000 shall be available for modernization of existing public housing projects pursuant to section 14 (42 U.S.C. 1437l); and \$2,013,715,000 shall be available for the housing voucher program under section 8(o) (42 U.S.C. 1437f): Provided further, That the foregoing amount for the housing voucher program shall be made available notwithstanding the limitations in section 8(o)(1) that the Secretary conduct a voucher demonstration, and in section 8(o)(4) that the Secretary use substantially all voucher authority in connection with certain programs: Provided further, That any amounts of unreserved budget authority heretofore provided under this head under prior appropriation acts shall be carried over and shall be available for use in fiscal year 1988 as an appropriation of funds without regard to whether such budget authority has heretofore been available as an appropriation of funds: Provided further, That except as specified below, amounts carried over in accordance with the immediately preceding proviso shall be merged with amounts made available hereunder: Provided further, That amounts heretofore provided under this head for assistance for projects developed for the elderly or handicapped under section 202 of the Housing Act of 1959, as amended (12 U.S.C. 1701q), for modernization of existing public housing projects pursuant to section 14 of the United States Housing Act of 1937, as amended (42 U.S.C. 1437l), and for rental rehabilitation grants pursuant to section 17(a)(1)(A) of such Act (42 U.S.C. 1437o) shall not be so merged and shall be available in accordance with the terms under which amounts for such programs were appropriated: Provided further, That any amounts of budget authority (and contract authority) provided under this head in any Act with respect to fiscal years prior to 1988 which are recaptured (including by deobligation) or deobligated during fiscal year 1988, except amounts appropriated for rental rehabilitation grants under section 17(a)(1)(A) of the United States Housing Act of 1937, as amended, are rescinded: Provided further, That none of the amounts available for obligation in 1988 shall be subject to the provisions of section 213(d) of the Housing and Community Development Act of 1974, as amended (42 U.S.C. 1439): Provided further, That notwithstanding any other provision of law, the Secretary shall determine the method of calculation, the preliminary fee, and the percentage established for administrative fees paid to a public housing agency administering assistance in fiscal year 1988 or thereafter.

Note.—Public Laws 99-500 and 99-591, section 101(g), provide funds to the extent and in the manner provided for in the conference version of H.R. 5313, Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1987.

The subsidized housing schedule reflects appropriations for grants for the public and Indian housing programs starting in 1987. In addition, the schedule reflects the fact that appropriations also are being proposed for 1988 for the section 8 programs rather than release of contract/budget authority.

As part of the Administration's continuing effort to reduce the deficit, rescissions are being proposed for 1987 for Rental Housing Development Grants (\$109.6 million), Rental Rehabilitation Grants (\$125.0 million), and the section 8 moderate rehabilitation program (\$238.8 million). In addition, supplemental appropriation language is being proposed to carry over into 1988 some of the budget authority made available for 1987. This includes \$436.9 million of modernization funding and \$267.2 million of section 8 assistance for the elderly or handicapped.

Several cost-cutting measures and program administration improvements are being proposed for 1988. These include: income recertification of assisted housing tenants, equality between certificate and voucher fees, adjustments to the section 8 existing program vacancy payment procedures and revisions to the annual adjustment factor process.

Lower-income housing (section 8).—The budget proposes the reservation of 100,000 units in 1988—1,000 Indian Housing units and 99,000 section 8 units. The total includes 82,000 incremental units—comprised of 2,000 section 202 elderly or handicapped units, 1,000 units for Indian families and 79,000 vouchers. The balance of 18,000 units are for section 8 opt-outs, demolitions, prepayment units, loan management and property disposition. In addition to 2,500 units made available under the regular property disposition program, the budget assumes the use of 1,500 vouchers for this purpose in 1988.

Public and Indian housing.—The budget proposes to fund 1,000 units of Indian Housing in 1988. Amounts are also included for amendments to prior year contracts and lease adjustments. A total of \$563 million of new appropriations are being requested for modernization in 1988 which, when combined with the \$436.9 million proposed for carryover from 1987 into 1988, will permit a program level of \$1.0 billion of modernization in 1988.

Rental rehabilitation and development grants.—The Housing and Urban-Rural Recovery Act of 1983 authorized programs of assistance grants to States and localities to stimulate the rehabilitation of older multifamily units and the development of new construction units.

Of the \$200 million appropriated for Rental Rehabilitation grants in 1987, a rescission of \$125 million is proposed—leaving a balance of \$75 million of new appropriations for the year and \$20 million of reappropriated funds. For 1988, an appropriation of \$75 million is being requested separate from the subsidized housing account in the Community Planning and Development part of the HUD. The Rental Housing Development Grant program (HoDAG) is proposed to be terminated in 1988 and language is being proposed for 1987 to rescind the \$99.6 million appropriated for 1987 and the estimated recapture of \$10 million.

Rent supplement.—The program of reservations for the conversion of units from Rent Supplement to section 8 was completed in 1986. However, recaptures will continue from the pipeline of units for which section 8 authority has been reserved, but which have not yet been recaptured and rescinded. A supplemental is being proposed in 1987 to cancel any recaptured rent supplement or rental housing assistance authority. Rent supplement assistance payments will continue to be made on behalf of qualified low-income tenants in approximately 29,000 units which have not converted to section 8.

Section 235.—The Housing and Urban-Rural Recovery Act of 1983 (Public Law 98-181) authorized a restructured section 235 program based on a 10-year interest reduction subsidy. A total of \$150 million of budget authority was provided in the Second Supplemental Appropriations Act of 1984 (Public Law 98-396) to fund the program, and it is estimated that the unobligated balances will be reserved in 1987. Recaptures of budget authority from terminations must be transferred into the Homeownership Assistance Fund account established pursuant to Public Law 98-181. Amounts deposited will be available for use to assist program beneficiaries still in need of assistance at the expiration of their present ten-year assistance contracts.

Section 236.—The Housing and Urban Development Act of 1968, as amended, authorizes the section 236 Rental Housing Assistance Program which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants.

College housing grants.—No new applications for grants have been approved since the program was terminated in 1973. Payments are made pursuant to the existing contracts.

The budget proposes an appropriation for the Rental Rehabilitation Grants Program of \$75 million in 1988. Language is being proposed for 1987 to rescind \$125 million of the \$200 million appropriated for the program. The balance of the appropriation of \$75 million, combined with a reappropriation of \$20 million of 1986 unobligated balances, would result in a \$95 million program level for 1987. The 1988 appropriation is being proposed in the Community Planning and Development Section of the HUD budget. Under this grant program, authorized by section 17 of the U.S. Housing Act of 1937, assistance has been provided to States and cities to enable the rehabilitation of rental properties in support of the section 8 voucher program.

This schedule reflects savings associated with proposed improvements to subsidized housing income verification procedures. The proposal would allow HUD to require tenants to provide their social security numbers or employer identification numbers. In addition, the proposal would authorize and require State employment security agencies to release income/wage data to HUD or other administering agencies in order to verify tenant income using post-audit computer matching. Additional authorizing language will be proposed to implement this change.

Troubled projects operating subsidies are provided to financially troubled subsidized projects assisted under certain FHA insuring authorities. The subsidies are intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source of housing for low- and moderate-income tenants.

Funding is provided for essential repairs to correct deficiencies resulting from deferred maintenance. No appropriation is requested for 1988. However, an estimated carryover balance of \$86.5 million will be available in 1988 to provide financial assistance to approximately 219 projects based on current demand for the program.

[CONGREGATE SERVICES]

For contracts with and payments to public housing agencies and nonprofit corporations for congregate services programs in accordance with the provisions of the Congregate Housing Services Act of 1978, \$3,400,000, to remain available until September 30, 1988.

This demonstration program tested whether contracting directly with local public housing agencies and section 202 housing for the elderly or handicapped sponsors to supply congregate services is more effective than alternative Health and Human Services (HHS) and other social services programs. Congregate services can include meal services and other support services. These three- to five-year contracts commenced in 1980 and were evaluated over the life of the contracts. No additional resources are requested for 1988.

The Housing counseling assistance program provides comprehensive housing counseling services to eligible homeowners or tenants, including default, prepurchase and renter counseling. In light of the inconclusive record of this program and the fact that communities may use Community Development Block Grant funds for this purpose, the Budget proposes the rescission of 1987 appropriated funds (See Part II of this volume) and no additional appropriation is requested in 1988.

The Homeless Housing Act of 1986 authorizes the Secretary to make Emergency Shelter Grants to States, units of local government, and nonprofit organizations to provide emergency shelter and other support for the homeless. The Assistant Secretary for Community Planning and Development administers this program. In 1987, an appropriation of \$10 million is available. For 1988, funding for similar activity is being assumed by the Federal Emergency Management Administration.

The Transitional Housing Demonstration is also authorized by the Homeless Housing Act of 1986. The Assistant Secretary for Housing administers this demonstration which will test innovative approaches in providing shelter and supportive services designed to assist homeless persons achieve independent living. An appropriation of \$5 million is available for 1987 and \$5 million is proposed for 1988.

Section 620 of the National Manufactured Housing Construction and Safety Standards Act of 1974, as amended, authorizes enforcement of appropriate construction standards for the construction, design and performance of manufactured homes to assure their quality, durability and safety. All manufactured homes produced since the standards took effect on June 15, 1976 must comply with Federal construction and safety standards. The States are actively encouraged to participate in the program under compliance plans approved by HUD.

A fee is charged to the manufacturers for each manufactured home produced to cover the costs of the monitoring and enforcement activities by HUD contract agents. These fees are deposited in a special fund administered by the Department. Fee receipts are transferred to the Salaries and expenses account to defray the direct administrative expenses of the program.

The Interstate Land Sales Full Disclosure Act provides protection to the public with respect to purchases or leases of subdivision lots. Statements of record must be filed with the Secretary before subdivisions with 100 or more lots may be sold in interstate commerce, except when the subdivision is eligible for exemption.

The Secretary is authorized to charge a fee, to be paid by the developer when filing a statement of record. The fee receipts are permanently appropriated and have helped finance a portion of the direct administrative expenses incurred in program operations. During 1988, the schedule of fees will be changed to provide additional receipts to fully offset program costs. Legislation will be proposed to remove the current \$1,000 fee limit on any one developer.

The Homeownership Assistance Fund was established by the Housing and Urban-Rural Recovery Act of 1983. It provides for the receipt of recaptures of budget authority, cash, and interest earnings under the restructured section 235 program. The funds are authorized to be used, to the extent approved in Appropriation Acts, by the Secretary to provide additional section 235 assistance payments for mortgagors who are unable to assume the full payment due under the mortgage after the termination of the original 10-year assistance payments contract.

Note.—1988 data include impact from legislative changes.

Insurance reserves from operations reflect the interest earned on mortgage notes and the income and expenses applicable to acquired properties.

Insurance reserves from operations at the end of 1988 are estimated to be in a surplus position for the Mutual mortgage insurance and Cooperative management housing insurance funds, but in a deficit status of about \$5.5 billion for the two other funds. The status of estimated insurance reserves from operations (retained income or deficit) through 1988 is as follows:

STATUS OF INSURANCE RESERVES FROM OPERATIONS

Special risk.....	-2,760	-2,850	-3,000
Total FHA Fund.....	-1,054	-531	161

Note.—1988 data include impact of proposed legislation.

The Department has taken several steps to reduce the net loss on acquisition and sale of properties and notes. These include faster foreclosures of properties in default and faster sales of acquired properties to reduce holding costs. In 1987 and 1988, the Department will offer to sell current purchase money mortgage and assigned mortgage notes from its portfolio. The mortgages will be sold without FHA insurance and are expected to result in proceeds of \$200 million and \$155 million, respectively.

For 1987, a new Temporary mortgage assistance payments program is being implemented that is designed to prevent precipitous foreclosure by helping insured homeowners who have experienced temporary financial reverses and cannot make their full monthly mortgage payments. This new program is viewed as a viable alternative to the Home mortgage assignment program currently being carried out by the Department and will assist in the effort to minimize insurance claims against the FHA fund.

Budget program.—The budget proposes an appropriation of \$169.7 million to restore the net realized losses from the sale of property and notes covered by the General insurance and Special risk insurance funds.

Financing.—An actuarial study will be conducted to determine an appropriate private market equivalent premium rate for FHA insurance. Legislation will be proposed as necessary to effectuate the recommendations of the study. In the interim, this budget assumes that FHA insurance premiums will increase from 3.8 percent to 5.0 percent for applications received after July 1, 1987. Any actual increase in the rate will be determined by the study. In addition, legislation will be proposed to limit insurance eligibility to buyers of primary residences. Also, regulations are being prepared which will require a 5% downpayment for families earning over \$40,000 per year and prohibit customary closing costs from being treated as part of the appraised value of the home. This budget also proposes termination of new insurance for Nursing Homes, section 232, and Hospital insurance, section 242.

Operating expenses.—Funds are paid directly into a consolidated account, Salaries and expenses, Department of Housing and Urban Development, for administrative expenses based on workload related to programs financed from the FHA fund.

Object Classification (in thousands of dollars)

Table with 4 columns: Identification code, 1986 actual, 1987 est., 1988 est. Rows include Lands and structures, Insurance claims and indemnities, and Total obligations.

This schedule reflects the impact of raising the up-front premium charge on FHA insurance from 3.8 percent to 5.0 percent effective July 1, 1987. The financial impact of this change will be felt only beginning in 1988. Insurance applications received in July will not result in premium income receipts until mortgages are actually closed in 1988. Fee and premium income is expected to increase by \$467.4 million. However, the increased charges will result in lower applications and insurance written in the FHA program. It is estimated that insurance commitments will be \$9.3 billion lower in 1988 and insurance written will be reduced by \$4.9 billion.

The Housing for the elderly or handicapped fund was established pursuant to section 202 of the Housing Act of 1959, as amended. The fund provides direct loans to nonprofit organizations building and managing housing

projects for lower income persons who are elderly or handicapped.

Projects must include an assured range of necessary services for the occupants of such projects. In addition, the section 8 lower income housing assistance payments program is used in conjunction with the section 202 program. Applications under the two programs are processed simultaneously. The budget proposes a loan limitation of \$131.5 million to support 2,000 units in 1988. Also, the Department is proposing a change in authorizing legislation which would permit the sale of section 202 loans. The sales are expected to generate approximately \$444.3 million in proceeds.

The program and financing schedule for this account summarizes the Federal government's obligations for this program. The amounts reflected in the following summary of administrative commitments reflect outstanding section 202 fund reservations, whereas, the obligations portion of the program and financing schedule reflects commitments which have reached the initial loan closing stage of processing.

Financing.—Prior to the implementation of the revised program, funds for loans had been provided by appropriation to a revolving fund. Additional financing had been obtained through issuance of certificates of participation in pools of mortgages financed from this program as provided by the Participation Sales Act of 1966. The following table shows the financing of participation insufficiencies:

The Nonprofit sponsor assistance fund provides interest-free loans to nonprofit organizations to plan housing projects to be financed under the section 202 Housing for the elderly or handicapped program. To ensure a sufficient commitment by the sponsor to the proposed project, the fund will only finance up to 80% of the start-up costs through these "seed money" loans. Sponsors are required to demonstrate their financial capacity by providing 20% from their own funds which is repaid from the initial proceeds of the section 202 construction loan. Loans may not exceed \$50,000. The Budget proposes a loan limitation of \$250,000 for section 202 projects in the pipeline.

The Housing and Urban Development Act of 1968 authorized the Secretary to establish a revolving fund into which rental collections in excess of the established basic rents for units in section 236 subsidized projects would be deposited.

The Housing and Community Development Amendments of 1978 authorized the Secretary, subject to approval in appropriation acts, to transfer excess rent collections received after 1978 to the Troubled projects operating subsidy program. Prior to that time, collec-

tions were used for paying tax and utility increases in section 236 projects. The Housing and Community Development Act of 1980 amended the 1978 Act by authorizing the transfer of excess rent collections regardless of when collected. No transfer is proposed for 1988. Appropriation language is being proposed to transfer excess rent collections to the Treasury.

The Association is required to manage and liquidate its initial mortgage portfolio and other mortgages, loans or obligations. Liquidation of the portfolio is accomplished through regular principal repayments according to their amortization schedules, by sales of mortgages when they can be absorbed by private investors without disruption of normal market conditions and through principal credits arising from prepayments and foreclosures.

The fund's initial portfolio consisted of mortgages on hand, or purchased under contracts made before November 1, 1954. Certain additional mortgages, loans, and other obligations may be acquired for this portfolio from the Secretary of Housing and Urban Development. Residential housing mortgages may also be acquired from any Federal instrumentality.

Budget program.—Congress approved appropriation language included in the 1985 Budget that: (1) forgave all outstanding Treasury borrowing issued under the Special Assistance Functions Fund and Emergency Mortgage Purchase Assistance Fund and (2) transferred all remaining assets and liabilities of these funds to the Management and Liquidating Functions Fund.

Mortgage purchases, representing deliveries from commitment contracts in prior years of the Special Assistance Functions Fund are estimated at \$204 million in 1987 which would exhaust all remaining outstanding commitment contracts. Sales of these mortgages which are based on the above purchases are estimated at \$650 million in 1987 and \$329 million in 1988. Because of a change in budget scorekeeping procedures, the proceeds from these sales in 1988 will be treated as borrowing from the public rather than offsetting collections (as had been the case in previous years).

Financing.—These functions are financed principally by portfolio liquidations and by the sales of portfolio mortgages and participation certificates in mortgage pools.

Operating results.—Net losses of \$135.6 million and \$2.1 million are estimated for 1987 and 1988, respectively.

GUARANTEES OF MORTGAGE-BACKED SECURITIES—Continued

Advances to security holders will increase substantially in 1987 (\$801.5 million) and 1988 (\$305.8 million) because GNMA has had to assume the security servicing responsibilities for several defaulted title I mobile home lenders. Write-offs will be \$5.7 million in 1987 and \$3.4 million in 1988 because most all the advances are offset by collections from mortgagors, insurance proceeds, and other receipts from servicing operations (\$795.9 million in 1987 and \$301.9 million in 1988).

The National Housing Act, as amended, authorized the Association to create trusts to facilitate the financing of mortgages and other loan obligations owned by Government agencies. Under this authority, participations in the interest and principal collections on pooled loan obligations pledged by various trustor agencies were sold to private investors.

The budget schedules of the trustor agencies originally owning the loan obligations reflected sale of participation certificates as borrowing from the public. Collections on the pooled obligations are transferred to the Association and invested until distributed to the holders of participation certificates as required by the trust agreement. Collections are then redistributed to trustor agencies for payment of interest and retirement of certificates.

Whenever interest collections on pooled obligations, together with investment income, are insufficient to cover required interest payments and a share of administrative and other costs, the trustor agencies pay to the Association, as trustee, amounts equal to the insufficiencies. The costs of any such insufficiencies are covered by appropriations which appear in the accounts of the trustor agencies or by balances available in those accounts.

In the event the principal collections on pooled loans are not sufficient to meet scheduled retirements of participation certificates, the Association, as trustee, may either borrow from the Treasury or sell additional certificates to redeem those coming due. Alternatively, those trustor accounts with unobligated balances available may repurchase pooled loans to provide the cash required for scheduled redemptions.

All remaining outstanding certificates are scheduled to be redeemed in 1988. No further activity is anticipated in this account.

Note.—The recovery of prior year obligations in 1986 reflects monies made available due to court order.

Title V of the Energy Security Act of 1980 authorized the creation of the Solar Energy and Energy Conservation Bank to encourage energy conservation and the use of solar energy. It has provided funds to subsidize loans and grants for the installation of energy conservation and solar energy improvements in single and multifamily residences, and agricultural and commercial buildings.

In 1986, the Bank reallocated \$3.9 million of recaptured funds to the States and territories participating in the program. A total of \$9.7 million was obligated to the States from recaptured funds. No funds were appropriated for 1987, but it is anticipated that approximately \$1.2 million of the 1985 appropriation will be recaptured and treated as a reappropriation. These funds will be obligated to States during 1987. The remaining \$1.0 million of obligations for 1987 represents funds recaptured from pre-1985 appropriations. The authorization for the Solar Bank program expires on September 30, 1987, and no appropriation is requested for 1988.

MEMORANDUM

2299 U.S. contingent liability for guaranteed loans outstanding, end of year 147,000 211,000

Title I of the Housing and Community Development Act of 1974, as amended, authorizes the Secretary to make grants to units of general local government and States to fund local community development programs.

Funds are distributed to eligible entitlement applicants using the higher of two objective formulas. Funds must be allocated between entitlement cities and urban counties and States and small cities.

Legislation is being proposed to target entitlement funds toward those recipients with the greatest need to mitigate the funding reductions on those communities. Legislation also is being proposed to allow new construction as an eligible activity.

Guaranteed loans.—Guaranteed loan assistance under section 108 has been provided to permit eligible communities to finance acquisition of real property and rehabilitation of publicly owned real property, plus certain related expenses. The Federal Financing Bank has financed these guaranteed loans. The Consolidated Omnibus Budget Reconciliation Act of 1985 requires private financing of all loan guarantees committed after July 1, 1986. Consequently, only \$50 million of the \$213 million commitment limitation for 1986 was available for FFB financing. FFB will continue disbursing loans for commitments approved prior to July 1, 1986. No guarantee commitments are proposed for 1988, and legislation is being proposed to repeal section 108.

Budget program.—An appropriation of \$2,509.8 million is proposed for 1988. This amount, together with an estimated unobligated balance of \$115.0 million proposed for transfer from the section 312 Rehabilitation Loan Fund, will provide a \$2,624.8 million funding level for the CDBG program in 1988. To the extent the actual amount of Rehabilitation Loan Fund balance available for transfer is less than estimated, the direct appropriation for the Community Development Grants program will be increased accordingly. Outlays are estimated at \$3.3 billion in 1987 and \$3.2 billion in 1988.

In 1987, the Department is funding a \$2 million Neighborhood Development Demonstration as authorized by section 123 of the Housing and Urban-Rural Recovery Act of 1983. No additional funds are requested for the demonstration in 1988.

and cities with populations in excess of 50,000 to help support the rehabilitation of privately owned rental housing.

Funding for this program before 1988 was provided under the Annual Contributions for Assisted Housing account. Legislation is proposed to provide a separate authorization for the program, independent of the Assisted Housing account. An appropriation of \$75 million, together with estimated recaptures of \$10 million (within the Assisted Housing account), will provide a 1988 program level of \$85 million.

URBAN HOMESTEADING

For reimbursement to the Federal Housing Administration Fund or the Rehabilitation Loan Fund for losses incurred under the urban homesteading program (12 U.S.C. 1706e), and for reimbursement to the Administrator of Veterans Affairs and the Secretary of Agriculture for properties conveyed by the Administrator of Veterans Affairs and the Secretary of Agriculture, respectively, for use in connection with an urban homesteading program approved by the Secretary of Housing and Urban Development pursuant to section 810 of the Housing and Community Development Act of 1974, as amended, \$12,000,000, to remain available until expended. (Additional authorizing legislation to be proposed.)

Note.—Public Laws 99-500 and 99-591, section 101(g), provide funds to the extent and in the manner provided for in the conference version of H.R. 5313, Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1987.

Section 810 of the Housing and Community Development Act of 1974, as amended, authorizes the Secretary of HUD to transfer one- to four-unit HUD-owned properties, without payment, to units of local government for use in an urban homesteading program. In addition, the Act authorizes the Administrator of Veterans Affairs and the Secretary of Agriculture to transfer their unoccupied, single family properties for use in such programs.

Budget program.—An appropriation of \$12 million is proposed for 1988 which will support the transfer of an estimated 705 single family properties.

MISCELLANEOUS APPROPRIATIONS

MODEL CITIES PROGRAM

Notwithstanding any other provision of law or other requirement, the Secretary of Housing and Urban Development may not require the City of New Orleans in the State of Louisiana to pay any amount relating to ineligible costs incurred with respect to the model cities grant numbered ME-17-001 under title I of the Demonstration Cities and Metropolitan Development Act of 1966.

Note.—Public Laws 99-500 and 99-591, section 101(g), provide funds to the extent and in the manner provided for in the conference version of H.R. 5313, Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1987.

This schedule also includes the Planning Assistance program which was terminated in 1981, pursuant to section 313(b) of the Housing and Community Development Amendments of 1981 (Public Law 97-35), as well as the Neighborhood Self-Help Development program, which was terminated by the Housing and Community Development Amendments of 1981.

Public enterprise funds:

REHABILITATION LOAN FUND

During 1987, collections, unexpended balances of prior appropriations (including any recoveries of prior reservations) and any other amounts in the revolving fund established pursuant to section 312 of the Housing Act of 1964, as amended (42 U.S.C. 1452b), after September 30, 1985, are available and may be used for commitments for loans and operating costs and the capitalization of delinquent interest on delinquent or defaulted loans notwithstanding section 312(h) of such Act. The Secretary shall transfer all assets (other than those transferred to the Community Development Grants program) and liabilities of the fund to the Revolving Fund (liquidating programs), established pursuant to title II of the Independent Offices Appropriation Act, 1955, as amended (12 U.S.C. 1701g-5). (Additional authorizing legislation to be proposed.)

¹ Net adjustments in 1986 and 1987 are due entirely to refinancing delinquent loans. For 1988, net adjustment includes \$5 million due to refinancing delinquent loans and \$315 million for the discount from face value on the sale of loan assets.

Section 312 of the Housing Act of 1964, as amended, authorizes loans for the rehabilitation of residential and commercial properties. Approximately \$200 million will be available to local agencies participating, in the program in 1987. Of that amount, the Budget estimates new loan obligations of \$85 million. The Budget proposes the transfer of the unobligated balance of \$115 million to partially fund the Community Development Grants program in 1988.

The budget also proposes the sale of \$350 million of the loan portfolio during 1988 and the estimated remaining balance of \$343 million during 1989. In addition, all remaining assets and liabilities of the Rehabilitation Loan Fund will be transferred to the Revolving Fund (liquidating programs).

Title I of the Housing Act of 1949, as amended (42 U.S.C. 1450 et seq.), authorized Federal capital grants and development loans to local public agencies for rehabilitation and redevelopment of slums and blighted areas.

Title I of the Housing and Community Development Act of 1974 (Public Law 93-383) terminated this program on January 1, 1975. No commitments for new grants or loans have been made since that date. Eligible activities of the terminated program may be funded, at the option of the grant recipient, under the Community development block grant program, authorized by the 1974 Act.

The assets and liabilities of the Urban Renewal program were transferred to the Revolving Fund (liquidating programs) on October 1, 1986, as authorized by the 1974 Act. Loan commitments previously made under this program are still outstanding and will continue until financial settlement of the projects involved is reached. The status of loan commitments outstanding at the end of 1986 is as follows:

MEMORANDUM

2299	U.S. contingent liability for guaranteed loans outstanding, end of year	41,374	39,524	37,324
------	---	--------	--------	--------

¹ Represents transfer of \$13,741 thousand and principal reduction of \$11,447 thousand from Urban Renewal programs in 1987.

The Revolving fund (liquidating programs) was established by the Independent Offices Appropriation Act of 1955 for the more efficient liquidation of assets acquired under a number of housing and urban development programs. The budget reflects the transfer of assets and liabilities of the Urban Renewal program to the Revolving fund (liquidating programs) on October 1, 1986, as authorized by the Housing and Community Development Act of 1974.

The budget also reflects receipts from the sale of public facility loan assets of \$21 million in 1987 and

\$120 million in 1988. These proceeds will be returned to the Treasury.

The activity in this account also reflects repayments of loans that were guaranteed by HUD and disbursed by the Federal Financing Bank. These loan repayments are attributed to the originating agency consistent with the Balanced Budget and Emergency Deficit Control Act of 1985.

Financing.—In the past, certificates of participation in pools of public facility loans were sold. Funds were appropriated annually to cover the difference between interest due on the participation certificates and interest collections on the loans underlying the certificates.

The budget authority required for interest insufficiencies was transferred to the Revolving fund (liquidating programs) when public facility loan assets and liabilities were transferred to this account in 1975. Budget authority no longer is required for public facility loans as shown in the following table:

The Housing and Urban Development Act of 1970 directs the Secretary to undertake programs of research, studies, testing, and demonstrations related to the HUD mission. These functions are carried out internally and through contracts with industry, nonprofit research organizations, and educational institutions, and through agreements with State and local governments and other Federal agencies.

In 1988, the Department will maintain its emphasis on improving the efficiency, effectiveness, and equity of HUD programs, and on identifying ways of achieving cost reductions.

The fair housing assistance program, authorized by title VIII of the Civil Rights Act of 1968, provides funding to State and local agencies and community housing resource boards to aid in eliminating housing discrimination.

The budget proposes an appropriation of \$6.4 million in 1988 of which \$4.0 million will be available to State and local agencies to assure prompt and effective processing of title VIII (Civil Rights Act of 1968) complaints. The budget also proposes funding of \$1.0 million for community housing resource boards which assist HUD, realtors and builders in designing, implementing, and monitoring voluntary affirmative marketing agreements and programs.

The balance of the 1988 appropriation (\$1.4 million) would be available for transfer to the proposed "Fair Housing Initiatives Program," as part of a comprehensive fair housing strategy, following enactment of that new program. If the legislation is not enacted, the \$1.4 million will be used within the existing Fair Housing Assistance Program.

FAIR HOUSING INITIATIVES

(Proposed for later transmittal, proposed legislation)

For contracts, grants, and other assistance, not otherwise provided for, necessary for carrying out the Fair Housing Initiatives Program, \$3,600,000, to remain available until September 30, 1989: Provided, That this amount shall be available only upon enactment into law of authorizing legislation.

This fund is the repository of gifts and bequests which the Secretary of Housing and Urban Develop-

ment is authorized to accept and use for the purposes of aiding the work of the Department. The provision of section 7(k)(1) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(k)(1), authorizes the installment of a fund amount for the above purpose.

【ADMINISTRATIVE PROVISION】

【None of the funds appropriated by this or any other Act shall be used to implement or enforce the regulations published on April 1, 1986, at 51 Fed. Reg. 11198-11231.】

【No part of the funds made available by this or any other Act in fiscal year 1987 may be used to close any field office of the Department of Housing and Urban Development. Of the funds made available by this Act, the Secretary of the Department of Housing and Urban Development shall utilize such sums as are necessary to reopen any such field office closed by the Department in the twelve months preceding the date of enactment of this Act.】

【Section 119(n)(1) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following: Such term also includes the counties of Kauai, Maui and Hawaii in the State of Hawaii.】

Note.—Public Laws 99-500 and 99-591, section 101(g), provide funds to the extent and in the manner provided for in the conference version of H.R. 5313, Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1987.

TITLE IV—GENERAL PROVISIONS

SEC. 401. Where appropriations in titles I and II of this Act are expendable for travel expenses and no specific limitation has been placed thereon, the expenditures for such travel expenses may not exceed the amounts set forth therefor in the budget estimates submitted for the appropriations: *Provided*, That this section shall not apply to travel performed by uncompensated officials of local boards and appeal boards of the Selective Service System; to travel performed directly in connection with care and treatment of medical beneficiaries of the Veterans Administration; to travel performed in connection with major disasters or emergencies declared or determined by the President under the provisions of the Disaster Relief Act of 1974; to site-related travel performed in connection with the Comprehensive Environmental Response, Compensation, and Liability Act of 1980; to site-related travel under the Solid Waste Disposal Act, as amended; or to payments to interagency motor pools where separately set forth in the budget schedules: *Provided further*, That if appropriations in titles I and II exceed the amounts set forth in budget estimates initially submitted for such appropriations, the expenditures for travel may correspondingly exceed the amounts therefor set forth in the estimates in the same proportion.

SEC. 402. Appropriations and funds available for the administrative expenses of the Department of Housing and Urban Development and the Selective Service System shall be available in the current fiscal year for purchase of uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901-5902); hire of passenger motor vehicles; and services as authorized by 5 U.S.C. 3109.

SEC. 403. Funds of the Department of Housing and Urban Development subject to the Government Corporation Control Act or section 402 of the Housing Act of 1950 shall be available, without regard to the limitations on administrative expenses, for legal services on a contract or fee basis, and for utilizing and making payment for services and facilities of Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Financing Bank, Federal Reserve banks or any member thereof, Federal home loan banks, and any insured bank within the meaning of the Federal Deposit Insurance Corporation Act, as amended (12 U.S.C. 1811-1831).

SEC. 404. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 405. No funds appropriated by this Act may be expended—
(1) pursuant to a certification of an officer or employee of the United States unless—

(A) such certification is accompanied by, or is part of, a voucher or abstract which describes the payee or payees and the items or services for which such expenditure is being made, or

(B) the expenditure of funds pursuant to such certification, and without such a voucher or abstract, is specifically authorized by law; and

(2) unless such expenditure is subject to audit by the General Accounting Office or is specifically exempt by law from such audit.

SEC. 406. None of the funds provided in this Act to any department or agency may be expended for the transportation of any officer or employee of such department or agency between his domicile and his place of employment, with the exception of the Secretary of the Department of Housing and Urban Development, who, under title 5, United States Code, section 101, is exempted from such limitation.

SEC. 407. None of the funds provided in this Act may be used for payment, through grants or contracts, to recipients that do not share in the cost of conducting research resulting from proposals not specifically solicited by the Government: *Provided*, That the extent of cost sharing by the recipient shall reflect the mutuality of interest of the grantee or contractor and the Government in the research.

SEC. 408. None of the funds provided in this Act may be used, directly or through grants, to pay or to provide reimbursement for payment of the salary of a consultant (whether retained by the Federal Government or a grantee) at more than the daily equivalent of the maximum rate paid for GS-18, unless specifically authorized by law.

【SEC. 409. No part of any appropriation contained in this Act for personnel compensation and benefits shall be available for other object classifications set forth in the budget estimates submitted for the appropriations.】

SEC. 【410】 409. None of the funds in this Act shall be used to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings. Nothing herein affects the authority of the Consumer Product Safety Commission pursuant to section 7 of the Consumer Product Safety Act (15 U.S.C. 2056 et seq.).

SEC. 【411】 410. Except as otherwise provided under existing law or under an existing Executive order issued pursuant to an existing law, the obligation or expenditure of any appropriation under this Act for contracts for any consulting service shall be limited to contracts which are (1) a matter of public record and available for public inspection, and (2) thereafter included in a publicly available list of all contracts entered into within twenty-four months prior to the date on which the list is made available to the public and of all contracts on which performance has not been completed by such date. The list required by the preceding sentence shall be updated quarterly and shall include a narrative description of the work to be performed under each such contract.

SEC. 【412】 411. Except as otherwise provided by law, no part of any appropriation contained in this Act shall be obligated or expended by any executive agency, as referred to in the Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.) for a contract for services unless such executive agency (1) has awarded and entered into such contract in full compliance with such Act and the regulations promulgated thereunder and (2) requires any report prepared pursuant to such contract, including plans, evaluations, studies, analyses and manuals, and any report prepared by the agency which is substantially derived from or substantially includes any report prepared pursuant to such contract, to contain information concerning (A) the contract pursuant to which the report was prepared and (B) the contractor who prepared the report pursuant to such contract.

SEC. 【413】 412. Except as otherwise provided in section 406, none of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency.

SEC. 【414】 413. None of the funds provided in this Act to any department or agency shall be obligated or expended to procure passenger automobiles as defined in 15 U.S.C. 2001 with an EPA estimated miles per gallon average of less than 22 miles per gallon.

Note.—Public Laws 99-500 and 99-591, section 101(g), provide funds to the extent and in the manner provided for in the conference version of H.R. 5313, Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1987.

Rattlesnake NRA and Wilderness Area.—Represents the monetary value of bidding rights issued under the authority of Public Law 96-476 and the estimated value of the quarterly adjustments to those rights required by section 7 of the Lee Metcalf Wilderness and Management Act of 1983. The bidding rights may be used as monetary credits against that portion of any coal lease bonus payments, rentals or royalties payable under the Mineral Leasing Act of 1920, as amended, and retained by the Federal Government, on any Federal coal lease won or otherwise held by the holder. The value of unused bidding rights increases at a rate set quarterly by the Secretary of the Treasury, pursuant to section 11 of the Debt Collection Act of 1982 (31 U.S.C. 3717).

Payments to Oklahoma (royalties).—The State of Oklahoma is paid 37½% of the Red River oil and gas royalties in lieu of State and local taxes on Kiowa, Comanche, and Apache tribal lands to be used for construction and maintenance of public roads and support of public schools (65 Stat. 252).

Payments to Coos and Douglas Counties, Oreg., from receipts, Coos Bay Wagon Road grant lands.—Out of receipts from the Coos Bay Wagon Road grant lands in Oregon, payments in lieu of taxes are made to Coos and Douglas Counties for schools, roads, highways, bridges, and port districts (53 Stat. 753-754).

Payments to counties, Oregon and California grant lands.—Fifty percent of the receipts of Oregon and California land-grant funds are paid to the counties in which the lands are situated, to be used as other county funds (39 Stat. 218; 50 Stat. 876). Starting in 1987, these payments will be based upon the "net receipts" remaining once the costs of the Oregon and California Grant Lands program have been deducted from total receipts.

Payments to States (proceeds of sales).—The States are paid 5% of the net proceeds from sale of public land and public land products (31 U.S.C. 1305).

Payments to States from grazing receipts, etc., public lands outside grazing districts.—The States are paid 50% of the grazing receipts from public lands outside of grazing districts (43 U.S.C. 315i, 315m).

Payments to States from grazing receipts, etc., public lands within districts.—The States are paid 12½% of grazing receipts from public lands inside grazing districts (43 U.S.C. 315b, 315i).

Payments to States from grazing receipts, etc., public lands within grazing districts, miscellaneous.—The States are paid specifically determined amounts from grazing receipts derived from miscellaneous lands within grazing districts when payment is not feasible on a percentage basis (43 U.S.C. 315).

Payments to Alaska, National Petroleum Reserve.—Alaska is paid 50% of the receipts derived from bonuses, royalties, and rentals resulting from the leasing of oil and gas in the National Petroleum Reserve in Alaska (94 Stat. 2964).

Payments to counties, national grasslands.—Of the revenues received from the use of national grasslands, 25% is paid to the counties in which such lands are situated, for school and road purposes (7 U.S.C. 1012).

Expenses, road maintenance deposits.—Users of certain roads under jurisdiction of the Bureau of Land Management make deposits for maintenance purposes, and moneys collected are appropriated for necessary road maintenance. Moneys collected on Oregon and California grant lands are available only for those lands (43 U.S.C. 1701 et seq.).

Payments to Nevada from receipts on land sales.—Public Law 96-586 authorizes and directs the Secretary to sell not more than 700 acres of public lands per calendar year in and around Las Vegas, Nevada, proceeds of which are to be used to acquire environmentally sensitive lands in the Lake Tahoe Basin of California and Nevada. Annual revenues are distributed to the State of Nevada (5%) and the county in which the land is located (10%).

The Minerals Management Service supervises exploration for and the development and production of oil, gas, and other minerals on the Outer Continental Shelf (OCS) lands and collects royalties, rentals, and bonuses due the Federal Government and Indian lessors from minerals produced on Federal, Indian, and OCS lands.

Outer Continental Shelf (OCS) lands.—The program provides for: (1) performance of environmental assessments to insure compliance with the National Environmental Policy Act (NEPA); (2) conduct of lease offerings; (3) selection and evaluation of tracts offered for lease by competitive bidding; (4) assurance that the Federal Government receives fair market value for leased lands; and (5) regulation and supervision of energy and mineral exploration, development, and production operations on the OCS lands.

Royalty management.—The Royalty Management program provides accounting, auditing, and compliance activities for royalties, rentals, and bonuses due from minerals produced on Federal, Indian, allotted and OCS lands. The program includes an automated accounting system to ensure that all royalties are properly collected.

General administration.—General administrative expenses provide for management, executive direction and coordination, administrative support, Federal building space and general support services.

State regulatory program grants.—This program activity is to provide grants to States for the operation of permanent enforcement programs under the terms of the Act. As of September 30, 1986, 24 States with actual or planned coal mining facilities had approved State programs.

Federal regulatory programs.—This activity includes programs for Federal oversight of State permanent regulatory programs, for monitoring State inspection and enforcement, for the provision of technical assistance to States, for the assessment and collection of civil penalties imposed pursuant to the Act, and for the administration of the Federal regulatory program in States without approved permanent enforcement programs. In addition, it also includes funding for OSMRE to perform reclamation in cases where performance bonds

have been forfeited and OSMRE is the regulatory authority.

General administration.—This activity includes: the Offices of the Director and Deputy Directors; the Headquarters staffs for Public Affairs, Equal Employment Opportunity, Congressional Liaison, Information Management Systems, and Regulatory Development and Issues Management; and the Divisions of Planning, Budget and Management Analysis; Financial Management; Personnel; and Management Services. This activity represents only that portion of the total General Administration expenses which is attributable to the Regulation and Technology appropriation. The remainder has been requested from the Abandoned Mine Reclamation Fund.

ABANDONED MINE RECLAMATION FUND

For necessary expenses to carry out the provisions of title IV of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, including the purchase of not more than 21 passenger motor vehicles, of which 15 shall be for replacement only, to remain available until expended, **[\$203,720,000] \$186,799,000**, to be derived from receipts of the Abandoned Mine Reclamation Fund: *Provided*, That pursuant to Public Law 97-365, the Department of the Interior is authorized to utilize up to 20 per centum from the recovery of the delinquent debt owed to the United States Government to pay for contracts to collect these debts: *Provided further*, That of the funds made available to the States to contract for reclamation projects authorized in section 406(a) of Public Law 95-87, administrative expenses may not exceed 15 per centum: *Provided further*, That none of these funds shall be used for a reclamation grant to any State if the State has not agreed to participate in a nationwide data system established by the Office of Surface Mining Reclamation and Enforcement through which all permit applications are reviewed and approvals withheld if the applicants (or those who control the applicants) applying for or receiving such permits have outstanding State or Federal air or water quality violations in accordance with section 510(c) of the Act of August 3, 1977 (30 U.S.C. 1260(c)), or failure to abate cessation orders, outstanding civil penalties associated with such failure to abate cessation orders, or uncontested past due Abandoned Mine Land fees: *Provided further*, That notwithstanding any legislative or judicial requirement, the Office of Surface Mining Rec-

lamation and Enforcement may delay the finalization of the proposed rulemaking amending Parts 773 and 778 of the Code of Federal Regulations as published in the Federal Register on April 5, 1985 (50 FR 13724) until March 31, 1987: *Provided further*, That the Secretary of the Interior may deny fifty percent of an Abandoned Mine Reclamation fund grant, available to a State pursuant to title IV of Public Law 95-87, in accordance with the procedures set forth in section 521(b) of the Act, when the Secretary determines that a State is systematically failing to administer adequately the enforcement provisions of the approved State regulatory program. Funds will be denied until such time as the State and Office of Surface Mining Reclamation and Enforcement have agreed upon an explicit plan of action for correcting the enforcement deficiency. A State may enter into such agreement without admission of culpability. If a State enters into such agreement, the Secretary shall take no action pursuant to section 521(b) of the Act as long as the State is complying with the terms of the agreement: *Provided further*, That expenditure of moneys as authorized in section 402(g)(3) of Public Law 95-87 shall be on a priority basis with the first priority being protection of public health, safety, general welfare, and property from extreme danger of adverse effects of coal mining practices, as stated in section 403 of Public Law 95-87. drainage in accordance with priorities set forth in the Act.

Federal reclamation programs.—This activity includes fee collection, and assistance to States in developing reclamation programs, abandoned mine lands reclamation projects undertaken directly by the Office of Surface Mining and the Rural Abandoned Mine Program (RAMP) administered by the Soil Conservation Service.

Small operator assistance payments.—This activity provides for payments for authorized services to eligible coal mine operators in preparing applications for mining permits under a permanent State or Federal regulatory program. These services include determining the probable hydrologic consequences of the proposed mining operation and analysis of test borings or core samplings.

General administration.—This activity includes the offices described for the General Administration activity in the Regulation and Technology appropriation. The funds for this activity represent only that portion of general administration expenses which is attributable to the Abandoned Mine Reclamation Fund.

Federal Funds

General and special funds:

For carrying out the functions of the Bureau of Reclamation as provided in the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto) and other Acts applicable to that Bureau as follows:

CONSTRUCTION PROGRAM*

(INCLUDING TRANSFER OF FUNDS)

*See Part II for additional information.

For construction and rehabilitation of projects and parts thereof (including power transmission facilities for Bureau of Reclamation use) and for other related activities as authorized by law, to remain available until expended **[\$602,158,000]** \$700,158,000, of which **[\$110,929,000]** \$158,571,000 shall be available for transfers to the Upper Colorado River Basin Fund authorized by section 5 of the Act of April 11, 1956 (43 U.S.C. 620d), and **[\$145,596,000]** \$191,228,000 shall be available for transfers to the Lower Colorado River Basin Development Fund authorized by section 403 of the Act of September 30, 1968 (43 U.S.C. 1543), and such amounts as may be necessary shall be considered as though advanced to the Colorado River Dam Fund for the Boulder Canyon Project as authorized by the Act of December 21, 1928, as amended: *Provided*, That of the total appropriated, the amount for program activities which can be financed by the reclamation fund shall be derived from that fund: *Provided further*, That transfers to the Upper Colorado River Basin Fund and Lower Colorado River Basin Development Fund may be increased or decreased by

transfers within the overall appropriation to the heading: *Provided further*, That funds contributed by non-Federal entities for purposes similar to this appropriation shall be available for expenditure for the purposes for which contributed as though specifically appropriated for said purposes, and such funds shall remain available until expended: *Provided further*, That the final point of discharge for the interceptor drain for the San Luis Unit shall not be determined until development by the Secretary of the Interior and the State of California of a plan, which shall conform with the water quality standards of the State of California as approved by the Administrator of the Environmental Protection Agency, to minimize any detrimental effect of the San Luis drainage waters: *Provided further*, That no part of the funds herein approved shall be available for construction or operation of facilities to prevent waters of Lake Powell from entering any national monument: *Provided further*, That of the amount herein appropriated, such amounts as may be necessary shall be available to enable the Secretary of the Interior to continue work on rehabilitating the Velarde Community Ditch Project, New Mexico, in accordance with the Federal Reclamation Laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto) for the purposes of diverting and conveying water to irrigated project lands. The cost of the rehabilitation will be nonreimbursable and constructed features will be turned over to the appropriate entity for operation and maintenance: *Provided further*, That of the amount herein appropriated, such amounts as may be required shall be available to continue improvement activities for the Lower Colorado Regional Complex: *Provided further*, [That section 507 of Public Law 92-514 (86 Stat. 970) is amended by striking out "\$79,500,000 (based upon January 1972 prices)" and inserting in lieu thereof "\$333,865,000 (based upon July 1984 prices)": *Provided further*, That of the total herein appropriated in this account, the Secretary of the Interior is authorized to obligate no more than \$8,800,000 by August 1, 1987, for the San Joaquin Valley Drainage Program: *Provided further*, That Section 8 of the Act of June 3, 1960 (74 Stat. 156; Public Law 86-488), is amended by inserting "(a)" after "SEC. 8." and by inserting at the end thereof the following new subsection:

"(b) Notwithstanding any other provision of law, none of the costs associated with, or resulting from, the following which have been or will be incurred shall be recovered by the Secretary, directly or indirectly, from power contractors of the Central Valley project:

"(1) the construction of such distribution systems and drains as are not constructed by local interests;

"(2) the construction of the San Luis interceptor drain; or

"(3) the construction or acquisition of any facilities by the United States or the Westlands Water District as partial or full alternatives to the San Luis interceptor drain." *That notwithstanding the provisions of the Garrison Diversion Unit Reformulation Act of 1986 (Public Law 99-294), the James River Comprehensive Report on water resource development proposals may be submitted to Congress at a date after September 30, 1988. (Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).)*

Work in the Construction program is for the purpose of developing and managing water for irrigation, municipal and industrial use, salinity control, dam safety, and flood control in the 17 western States. Funding under this program provides for transfers to the Lower Colorado River Basin Development fund and Upper Colorado River Basin fund. The Lower Colorado River Basin Development fund provides for the development and construction of the Central Arizona project. The Upper Colorado River Basin fund supports water supplies in the Upper Colorado River Basin area.

Under the Small Reclamation Projects Act (43 U.S.C. 422a-422l), loans and/or grants can be made to non-Federal organizations for construction or rehabilitation and betterment of small water resource projects. Funds are provided to continue construction on 11 projects. This funding will provide improvements to existing irrigation distribution systems by rehabilitating pumping plants, canal and lateral structures, enlarging and extending drains, and enable the purchase of maintenance equipment.

Under the Distribution Systems Loans Act (43 U.S.C. 421a-421d), loans can be made to organizations for the construction of irrigation and municipal or industrial water distribution systems on authorized Federal reclamation projects.

The general administrative expenses program provides for the executive direction and management of all reclamation activities, as performed by the Commissioner's offices in Washington, DC and Denver, CO, and six regional offices. The Denver Engineering and Research Center and regional offices charge individual projects or activities for direct beneficial services and related administrative and technical costs. These charges are covered under other appropriations.

This fund is derived from repayments and other revenue from water resource development, together with certain receipts from sales, leases, and rentals of Federal lands in the 17 Western States, and is available for expenditure pursuant to authorization contained in appropriation acts.

SPECIAL FUNDS
(TRANSFER OF FUNDS)

Sums herein referred to as being derived from the reclamation fund or the Colorado River development fund are appropriated from the special funds in the Treasury created by the Act of June 17, 1902 (43 U.S.C. 391) and the Act of July 19, 1940 (43 U.S.C. 618a), respectively. Such sums shall be transferred, upon request of the Secretary, to be merged with and expended under the heads herein specified; and the unexpended balances of sums transferred for expenditure under the head "General Administrative Expenses" shall revert and be credited to the special fund from which derived. (Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).)

ALLOCATIONS RECEIVED FROM OTHER ACCOUNTS

Note.—Obligations incurred under allocations from other accounts are included in the schedule of the parent appropriations, as follows:
Interior: Bureau of Indian Affairs, "Construction"

ADMINISTRATIVE PROVISIONS

Appropriations for the Bureau of Reclamation shall be available for purchase of not to exceed [12] 13 passenger motor vehicles of which [10] 11 shall be for replacement only; payment of claims for damages to or loss of property, personal injury, or death arising out of activities of the Bureau of Reclamation; payment, except as otherwise provided for, of compensation and expenses of persons on the rolls of the Bureau of Reclamation appointed as authorized by law to represent the United States in the negotiations and administration of interstate compacts without reimbursement or return under the reclamation laws; for service as authorized by section 3109 of title 5, United States Code, in total not to exceed \$500,000; rewards for information or evidence concerning violations of law involving property under the jurisdiction of the Bureau of Reclamation; performance of the functions specified under the head "Operation and Maintenance Administration", Bureau of Reclamation, in the Interior Department Appropriations Act 1945; preparation and dissemination of useful information including recordings, photographs, and photographic prints; and studies of recreational uses of reservoir areas, and investigation and recovery of archeological and paleontological remains in such areas in the same manner as provided for in the Acts of August 21, 1935 (16 U.S.C. 461-467) and June 27, 1960 (16 U.S.C. 469): *Provided*, That no part of any appropriation made herein shall be available pursuant to the Act of April 19, 1945 (43 U.S.C. 377), for expenses other than those incurred on behalf of specific reclamation projects except "General Administrative Expenses" and amounts provided for plan formulation and advance planning investigations, and general engineering and research under the head "General Investigations".

Sums appropriated herein which are expended in the performance of reimbursable functions of the Bureau of Reclamation shall be returnable to the extent and in the manner provided by law.

[The costs of the Seedskadee Project may be reallocated in order to reflect revised project beneficial purposes.]

No part of any appropriation for the Bureau of Reclamation, contained in this Act or in any prior Act, which represents amounts earned under the terms of a contract but remaining unpaid, shall be obligated for any other purpose, regardless of when such amounts are to be paid: *Provided*, That the incurring of any obligation prohibited by this paragraph shall be deemed a violation of section 3679 of the Revised Statutes, as amended (31 U.S.C. 1341).

No funds appropriated to the Bureau of Reclamation for operation and maintenance, except those derived from advances by water users, shall be used for the particular benefits of lands (a) within the boundaries of an irrigation district, (b) of any member of a water users' organization, or (c) of any individual when such district, organization, or individual is in arrears for more than twelve months in the payment of charges due under a contract entered into with the United States pursuant to laws administered by the Bureau of Reclamation.

(Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).)

The Geological Survey provides basic scientific data and information concerning water, land, and mineral resources.

National mapping, geography, and surveys.—The national mapping program produces and makes available, in printed and digital format, cartographic and geographic base data, multipurpose and special-purpose maps. Map receipts are retained in a permanent account.

Geologic and mineral resource surveys and mapping.—The national program of onshore and offshore geologic research and investigations produces: (1) improved methods and instruments for mineral and energy assessments; (2) geologic, geophysical, and geochemical maps and analyses; (3) information on the chemistry and physics of the Earth, the climate, and the geologic processes by which it was formed and is being modified; (4) information on geologic hazards; and (5) information for use by other Federal and State agencies in the management of public lands and in national policy determinations.

Water resources investigations.—The national program of water resources investigations has the objective of appraising the Nation's water resources and insuring that the data necessary to develop and manage them efficiently and effectively are available when needed. The program produces data and analyses to support decisions on water planning, water management, energy development, and enhancement of the quality of the environment.

General administration.—General administrative expenses provide for management, executive direction and coordination, and administrative support.

Facilities.—This activity finances the operation and maintenance, facilities management, and special support services for the operation of the national center headquarters and field centers.

Reimbursements from non-Federal sources are from States and municipalities for cooperative efforts and proceeds from sale to the public of copies of photographs and records; proceeds from sale of personal property; reimbursements from permittees and licensees of the Federal Energy Regulatory Commission; and reimbursements from friendly countries and international organizations for technical assistance. Reimbursements from other Federal agencies are for mission related work performed at the request of the financing agency.

The National Petroleum Reserve in Alaska program has been completed and demobilization has occurred. The remaining closeout activities relating to accounting and contract audits are nearly completed for the program that began in 1974. Most of the results have been published, however, a major compendium is in final preparation.

Minerals information and analysis.—

Minerals information.—This program provides a reliable data base for analysis of national minerals problems by collecting, interpreting, and disseminating information relating to the worldwide production, consumption, and availability of nonfuel minerals. The program maintains information on the production and consumption of approximately 100 mineral commodities, and also on the minerals and related industries of about 160 countries.

Mineral data analysis.—Economic, technical, and policy studies that address the worldwide supply and demand for minerals are conducted in this program. The Minerals Availability System, a computerized data base system, develops and utilizes methodologies for evaluation of mineral deposits based on quantifiable technical, economic, and social data. The program also includes mineral land assessments on certain Bureau of Land Management and U.S. Forest Service lands, carried out jointly with the U.S. Geological Survey.

Minerals research.—

Minerals and materials technology.—Research is conducted to develop widely applicable mineral processing and recycling technologies that can help the United States maintain an adequate mineral production base and to identify techniques for obtaining strategic and critical minerals from domestic sources. Investigations are also conducted to improve the performance of mineral materials and develop advanced materials for use by the mineral industry, and to provide improved technologies for disposing of mineral processing wastes and for cleaning up sites that have been contaminated by these wastes.

Health and safety technology.—This program provides technology that will reduce occupational illnesses, accidents, and disasters associated with mining. Health research addresses instrumentation and control technology to reduce levels of respirable dust and other harmful physical and chemical agents, such as noise and toxic gases, found in mine air. Safety hazard reduction research investigates and develops means to help minimize ground control accidents; to reduce industrial hazards; to prevent mine disasters; to control explosives and blasting; and to analyze mining systems.

Mining technology.—The program investigates mining techniques which improve domestic mineral recovery from coal, metal and nonmetal mines, and technology to reduce the adverse environmental effects associated with mining and mineral processing activities. The program places special emphasis on improving techniques for mining domestic low-grade deposits of strategic and critical minerals.

Mineral institutes.—Minerals research and engineering programs supported through public and private resources conducted at 32 colleges and universities.

General administration.—The program supports executive direction, financial, and management services for the Bureau of Mines.

The Helium Act Amendments of 1960, Public Law 86-777 (50 U.S.C. 167), authorized activities necessary to provide sufficient helium to meet the current and foreseeable future needs of essential government activities. The program includes production, conservation, sale, and distribution of helium and involves the management of helium program facilities and resources to:

(a) Provide helium to meet current demands of all Federal agencies.

(b) Provide helium to meet the foreseeable future helium requirements of essential Government programs.

(c) Conduct investigations and evaluations to improve the helium program.

Helium program assets are scheduled for sale during fiscal year 1988. After the sale, excess fund balances will be transferred to the general fund of the Treasury. Legislation will be proposed to cancel outstanding helium debt owed to the Treasury.

Fish and wildlife enhancement.—The Service conducts investigations and provides technical assistance to prevent or minimize adverse environmental effects of development projects. Contaminants are monitored and assessed. Activities are pursued to prevent species from becoming extinct, and return them to the point where they are neither threatened or endangered.

Refuges and wildlife.—The Service maintains the National Wildlife Refuge System consisting of 434 units, 152 waterfowl production areas, and 58 wildlife management areas on about 90 million acres; directs and coordinates national migratory bird programs; and enforces Federal wildlife laws and regulations.

Fisheries.—The Service participates in development, management, and protection of interstate and international fishery resources, and provides technical assistance related to fish, wildlife and some marine mammals.

Research and development.—The Service conducts research to improve wildlife management capabilities, improve sport fish productivity, protect endangered or threatened species, assist recovery programs, and prevent or minimize adverse impacts on fish and wildlife.

General administration.—Provides policy formulation, direction, and administration for fish and wildlife programs.

Federal aid in fish restoration and management.—Beginning in 1986, this activity is funded under the "Sport fish restoration account," Fish and Wildlife Service, Department of the Interior.

Federal aid in wildlife restoration.—States, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Northern Mariana Islands are allocated funds equal to the 11 percent excise tax on sporting arms and ammunition, the 10 percent excise tax on handguns, and the 11 percent tax on certain archery equipment. States are reimbursed up to 75 percent of the cost of approved wildlife and hunter education projects.

Proceeds from sales, water resources development projects.—Receipts collected from the sale of products from refuges on which other agencies have primary jurisdiction pay the costs of producing these products and for managing wildlife habitat.

The National Park System contains 338 areas and 79.6 million acres of land in 49 States, the District of Columbia, Puerto Rico, U.S. Virgin Islands, Guam, and the Northern Marianas. These areas have been established to protect and preserve the cultural and natural heritage of the United States and its territories. This appropriation funds the operation of individual units of the National Park System as well as planning and administrative support for the entire system. The total appropriation requested of \$714,844,000 includes \$74,300,000 in revenue from recreation fees contingent on enactment of proposed legislation.

The land and water conservation fund includes revenue pursuant to the Land and Water Conservation Fund Act to support land acquisition and administrative expenses for outdoor recreation purposes. Proposed legislation would eliminate the earmarking of receipts from recreation fees to the land and water conservation fund. Such receipts collected by the National Park Service will be transferred to the General Fund of the Treasury in fiscal 1987 pursuant to a provision in Public Law 99-591 and would be retained for use under the operation of the Park System account in fiscal year 1988 under proposed legislation.

LAND ACQUISITION [AND STATE ASSISTANCE]*

*See Part II for additional information.

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 4601-4-11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the National Park Service, [1987, \$87,220,000] [1988, \$16,031,000], to be derived from the Land and Water Conservation Fund, to remain available until expended, including [1987, \$2,270,000] [1988, \$3,433,000], to administer the State Assistance program: *Provided*, That of the amounts previously appropriated to the Secretary's contingency fund for grants to States, [1987, \$893,000] [1988, \$27,000] shall be available in [1987] [1988] for administrative expenses of the State grant program. (Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).)

This appropriation provides funds to acquire certain lands, or interests in land, for inclusion in the National Park System in order to preserve nationally important natural and historic resources. Funds are also included to manage and coordinate the Land Acquisition Program and to administer prior year State grants awarded from the Land and Water Conservation Fund. No funding is requested in 1988 for State outdoor recreation grants.

Note.—Includes \$684 thousand in 1988 for activities previously financed from the Department of the Interior, Office of the Secretary, construction management account.

Education.—The Bureau of Indian Affairs operates schools and supports tribally operated schools.

The Bureau provides financial assistance to Indian students for higher education studies, supports some tribally operated post-secondary institutions, and offers continuing education programs in many communities.

Indian services.—This activity includes municipal-type government services for Indian communities, along with assistance to tribes in self-government. Individual Indians are assisted by vocational training and employment placement.

Navajo/Hopi Settlement Program.—This activity provides for range management and grazing capacity restoration on lands lying within the former Navajo/Hopi Joint Use Area.

Economic development.—Economic development is encouraged and assisted through programs of technical and financial aid to Indian individuals and organizations. Indian tribal organizations and individuals are assisted with securing and managing loans. Individual Indians are assisted by vocational training and employment placement. Roads are maintained to provide for the movement of people and goods as needed by Indian communities.

Natural resources development.—This activity provides for the conservation, development and use of Indian land, water, and related resources.

Trust responsibilities.—This activity provides for the protection of Indian rights and property, and the management of assets held in trust for Indian tribes and individuals.

Facilities management.—This activity provides for the maintenance and operation of Bureau facilities and the provision for GSA owned or leased facilities.

General administration.—These functions include executive direction, administrative services, safety management, employee compensation payments, construction management, and education program management.

Tribe/agency operations.—This activity supports stable and continuing programs in the field among which funding is allocated subject to local priorities rather than national programmatic priorities. Tribe/agency operations include local service programs which are planned and operated at the Tribe/agency level and some programs which are consolidated at the area

office level but offer direct service to tribes and individuals.

The fund was established pursuant to the Indian Financing Act of 1974. The purpose of the fund is to support a program of guaranteeing or insuring loans made by commercial lending institutions to Indians and to tribes and other Indian organizations for economic development purposes. An interest subsidy is paid from the fund on loans guaranteed or insured to reduce the Indian borrower's rate of interest. The purpose of this program is to provide an incentive to the private lending sector to make loans to Indians which would not otherwise be made.

This Cooperative Fund, established by section 313 of the Southern Arizona Water Rights Settlement Act (96 Stat. 1274-1285), provides a source of funds for the Secretary of the Interior to carry out the obligations of the Secretary under sections 303, 304, and 305 of the act. Only interest accruing to the fund may be expended. However, the law provides that no such interest can be

spent prior to the earlier of 1992 or the completion of the main project works of the Central Arizona Project.

MISCELLANEOUS TRUST FUNDS

In addition to the tribal funds authorized to be expended by existing law, there is [hereby] appropriated in fiscal year 1988 and thereafter to the Secretary of the Interior for the benefit of the tribes on whose behalf such funds were collected, not to exceed \$1,000,000 in each fiscal year from tribal funds not otherwise available for expenditure. (Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).)

Under the terms of the 1947 Trustee Agreement between the United States and the Security Council of the

United Nations, the United States exercises full jurisdiction over the Trust Territory and is obligated to promote the political, economic, and educational advancement of the inhabitants. These responsibilities are carried out through the Department of the Interior.

The Trusteeship Agreement is no longer in effect with respect to the Republic of the Marshall Islands and the Federated States of Micronesia. Their assistance is discussed in the "Compact of Free Association" account. The United States has approved a Compact with the Republic of Palau. However, Palau will continue to have the status of a Trust Territory until Palau approves the Compact.

COMPACT OF FREE ASSOCIATION

For the Enjebi Community Trust Fund, as authorized by Public Law 99-239, \$2,250,000: *Provided*, That notwithstanding any other provision of law, the funds made available under this head in Public Law 99-349 shall remain available for obligation until expended: *Provided further*, That notwithstanding any other provision of law, for purposes of economic assistance as provided pursuant to the Compacts of Free Association, the effective date of the Compacts shall be October 1, 1986, except that the effective date for commencing the Kwajalein use and impact payments pursuant to sections 211(a)(1) and 213(a) of Public Law 99-239 shall be October 1, 1985: *Provided further*, That the \$60,719,000 made available in fiscal year 1986 for the Compacts pursuant to Public Law 99-349 from the "Trust Territory of the Pacific Islands" appropriation shall remain available until expended for the Trust Territory of the Pacific Islands: *Provided further*, That upon the effective date determined by the President for implementing the Compacts, \$60,719,000 of the amount made available for fiscal year 1987 under the "Trust Territory of the Pacific Islands" appropriation pursuant to this Act shall be considered to have been made available and expended for the "Compact of Free Association" appropriation as of October 1, 1986. For economic assistance and necessary expenses for the Federated States of Micronesia and the Republic of the Marshall Islands as provided for in sections 122, 221, and 223 of the Compact of Free Association, \$27,920,000, to remain available until expended, as authorized by Public Law 99-239: *Provided*, That notwithstanding the provisions of the Public Laws 99-500 and 99-591, the effective date of the Palau Compact for purposes of economic assistance pursuant to the Palau Compact of Free Association, Public Law 99-658, shall be the effective date of the Palau Compact as determined pursuant to section 101(d) of Public Law 99-658. (Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).)

The peoples of the Marshall Islands and the Federated States of Micronesia approved Compacts of Free Association negotiated by the United States and their governments. The Compact of Free Association Act of 1985 constitutes the necessary authorizing legislation to make annual payments to the two states during the next fifteen years, totalling \$2.3 billion. This assistance will aid in their successful development as sovereign states.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

Sec. 101. Appropriations made in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: *Provided*, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted: *Provided further*, That all funds used pursuant to this section must be replenished by a supplemental appropriation which must be requested as promptly as possible.

Sec. 102. The Secretary may authorize the expenditure or transfer of any no year appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of forest or range fires on or threatening lands under jurisdiction of the Department of the Interior; for the emergency rehabilitation of burned-over lands under its jurisdiction; for emergency actions related to potential or actual earthquakes, floods or volcanoes; for emergency reclamation projects under section 410 of Public Laws 95-87; and shall transfer, from any no year funds available to the Office of Surface Mining Reclamation and Enforcement, such funds as may be necessary to permit assumption of regulatory authority in the event a primacy State is not

carrying out the regulatory provisions of the Surface Mining Act: *Provided*, That appropriations made in this title for fire suppression purposes shall be available for the payment of obligations incurred during the preceding fiscal year, and for reimbursement to other Federal agencies for destruction of vehicles, aircraft, or other equipment in connection with their use for fire suppression purposes, such reimbursement to be credited to appropriations currently available at the time of receipt thereof: *Provided further*, That all funds used pursuant to this section must be replenished by a supplemental appropriation which must be requested as promptly as possible.

SEC. 103. Appropriations made in this title shall be available for operation of warehouses, garages, shops, and similar facilities, wherever consolidation of activities will contribute to efficiency or economy, and said appropriations shall be reimbursed for services rendered to any other activity in the same manner as authorized by sections 1535 and 1536 of title 31, U.S.C.: *Provided*, That reimbursements for costs and supplies, materials, equipment, and for services rendered may be credited to the appropriation current at the time such reimbursements are received.

SEC. 104. Appropriations made to the Department of the Interior in this title shall be available for services as authorized by 5 U.S.C. 3109, when authorized by the Secretary, in total amount not to exceed \$300,000; hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchase of reprints; payment for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members: *Provided*, That no funds available to the Department of the Interior are available for any expenses of the Great Hall of Commerce.

SEC. 105. Appropriations available to the Department of the Interior for salaries and expenses shall be available for uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902 and D.C. Code 4-204).

SEC. 106. Appropriations made in this title shall be available for obligation in connection with contracts issued by the General Services Administration for services or rentals for periods not in excess of twelve months beginning at any time during the fiscal year.

[SEC. 107. No funds provided in this title may be expended by the Department of the Interior for the preparation for, or conduct of, pre-leasing and leasing activities (including but not limited to: calls for information, tract selection, notices of sale, receipt of bids and award of leases) of lands described in, and under the same terms and conditions set forth in section 107 of the Department of the Interior and Related Agencies Appropriations Act, 1986, as contained in Public Law 99-190.]

SEC. [108] 107. None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance changing the name of the mountain located 63 degrees, 04 minutes, 15 seconds west, presently named and referred to as Mount McKinley.

SEC. [109] 108. Notwithstanding any other provision of law, appropriations in this title shall be available to provide insurance on official motor vehicles, aircraft, and boats operated by the Department of the Interior in Canada and Mexico.

[SEC. 110. No funds provided in this title may be used to detail any employee to an organization unless such detail is in accordance with Office of Personnel Management regulations.]

[Sec. 111. (a) The Secretary of the Interior may consider and accept, as part of the Outer Continental Shelf oil and gas leasing program for 1987 to 1992, any recommendation included in any proposal submitted to him with respect to lease sales on the California Outer Continental Shelf by the co-chairmen of the Congressional panel established pursuant to Public Law 99-190 or by the Governor of California on May 7, 1986. The major components of those proposals shall be examined in the final environmental impact statement for the program. Consideration or acceptance of any such recommendation shall not require the preparation of a revised or supplemental draft environmental impact statement.

(b) The Secretary shall submit a copy of the draft proposed final leasing program for offshore California to the cochairmen of the negotiating group referred to in subsection (a) who shall have a period of 30 days in which to review such program and provide their comments and the comments of the negotiating group on it to the Secretary prior to its submission to the President and the Congress. When submitting the proposed final leasing program to the President

and the Congress in accordance with section 18(d) of the Outer Continental Shelf Lands Act (43 U.S.C. 1344(d)), such submission shall indicate in detail why any specific portion of the proposals referred to in subsection (a) of this section was not accepted.

(c) Prior to the approval of the Final Program, referenced in subsection (a), the Secretary may conduct prelease activities for proposed California OCS Lease Sales 95, 91, and 119 and may make changes in those sales on the basis of comments submitted by the Congressional negotiating group or others, except that the Secretary may not issue a: (1) call for information and nominations for Sale 95 prior to March 1, 1987, and no draft environmental impact statement shall be published for Sale 91 sooner than 90 days after the Secretary's submission of the draft of the proposed Final Five Year Program to the members of the Congressional panel, and (2) final notice of lease sale for Lease Sale 91 prior to January 1, 1989.

(d) The members of Congress designated under Sec. 111 of Public Law 99-190 (99 Stat. 1243) are hereby authorized to continue as the Congressional negotiating group and to negotiate with the Department of the Interior, to provide the Secretary of the Interior with the appropriate range of advice, including proposals, and to review and comment on proposals by the Department of the Interior with respect to future oil and gas leasing and protection of lands on the California Outer Continental Shelf.]

[Sec. 112. Notwithstanding any other law, the Secretary of the Interior shall convey without reimbursement to the State of Montana no later than December 31, 1986, all of the right, including all water rights, title, and interest of the United States in and to the fish hatchery property located south of Miles City, Montana, and known as the Miles City National Fish Hatchery, consisting of 168.22 acres, more or less, of land, together with any improvements and related personal property thereon.]

[Sec. 113. The Secretary of the Interior is directed to designate the Laurel Highlands National Recreational Trail, as designated by the Secretary of the Interior pursuant to section 4 of the National Trails System Act, as part of the Potomac Heritage Trail, as requested by the State of Pennsylvania in its April 1984 application, subject to the provisions of paragraph (11) of section 5(a) of the National Trails System Act, as amended.]

[Sec. 114. (a) In order to provide for needed facilities for visitors to Fort Sumter National Monument, including a tour boat dock and associated facilities, and an interpretive and museum facility in cooperation with the State of South Carolina and the city of Charleston, the Secretary of the Interior (in this section referred to as the "Secretary"), is authorized to acquire by purchase with donated or appropriated funds, donation, or exchange, not to exceed 8.91 acres of lands, including submerged lands, and interests in lands, within the area generally depicted on the map entitled "Dockside II, Proposed Site, Tourboat Facility", which map shall be on file and available for public inspection in the office of the National Park Service. When acquired, lands, including submerged lands and interests in lands, depicted on such map shall be administered by the Secretary as a part of Fort Sumter National Monument, subject to the laws and regulations applicable to such monument, and subject to the provisions of this section.

(b)(1) With respect to the lands, including submerged lands, and interests in lands acquired pursuant to section (a), the Secretary is authorized—

(A) to convey, notwithstanding the provisions of section 5 of Public Law 90-400 (82 Stat. 356) and subject to the provisions of subsection (2), a leasehold interest in not to exceed one and a half acres to the State of South Carolina or the city of Charleston or either of them for development by either of them or their agents or lessees of a marine museum and associated administrative facilities;

(B) to grant covenants or easements for ingress and egress to the State of South Carolina, the city of Charleston, and to other parties as the Secretary may deem necessary to facilitate public use; and

(C) to enter into cooperative agreements with the State of South Carolina, the city of Charleston, and other parties as the Secretary may deem necessary, pursuant to which construction, maintenance, and use of buildings, utilities, parking facilities, and other improvements may be shared among the parties to the agreement.

(2) Any conveyance made pursuant to subsection (b)(1)(A) and any renewal thereof may be for a period of up to 50 years, and may include the option to purchase the property in fee by the lessee

within the first 10 years, upon payment by the lessee of the cost of the property to the United States plus interest based on the average yield of United States Treasury notes with maturities of one year. The Secretary may convey title to the property in fee in the event such option to purchase is exercised, subject to the condition that the property is used for a public marine museum and associated administrative facilities. Notwithstanding any other provision of law, any leasehold interest conveyed pursuant to subsection (b)(1)(A) shall be conveyed without monetary consideration. The proceeds from any conveyance of property in fee pursuant to subsection (b)(1)(A) shall be deposited in the Land and Water Conservation Fund in the Treasury of the United States.

(c) Section 117 of Public Law 96-199 (94 Stat. 71) is hereby repealed.

(d)(1) Notwithstanding any other provision of law, sums heretofore appropriated but not, on the date of enactment of this joint resolution, obligated for construction of a tourboat facility at the Broad Street site, and for the acquisition and construction of the Fleet landing site for Fort Sumter National Monument, which was authorized by section 117 of Public Law 96-199 (94 Stat. 71) are hereby made available for obligation for the acquisition of the lands including submerged lands, and interests in lands identified in section (a) and for construction of necessary facilities thereon, and to the extent that sums heretofore appropriated for land acquisition of the Fleet landing site are not sufficient to cover the cost of acquisition of the properties identified in section (a), sums heretofore appropriated for construction of facilities at the Broad Street site and the Fleet landing site may be obligated for the purposes of acquisition as authorized in section (a).

(2) In addition to the sums made available under section (d)(1), there is authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

(e) The Secretary of the Interior shall transfer administrative jurisdiction over the Federal property, consisting of approximately 1 acre, known as the Broad Street site, to the Secretary of the Department in which the Coast Guard is operating, who shall transfer to the Secretary of the Interior, subject to such reservations, terms, and conditions as may be necessary for Coast Guard purposes, administrative jurisdiction over the Federal property, consisting of approximately 1 acre located near Fort Moultrie on Sullivan's Island for purposes of a maintenance workshop, storage, and seasonal housing in connection with the administration and protection of the Fort Sumter National Monument.]

[Sec. 115. (1) The primary term of any geothermal lease in effect as of July 27, 1984, issued pursuant to the Geothermal Act of 1970 (Public Law 91-581, 84 Stat. 1566, 30 U.S.C. 1001-1025) is hereby extended to December 31, 1988, if the Secretary of the Interior finds that—

(a) a bona fide sale of the geothermal resource, from a well capable of production, for delivery to or utilization by a facility or facilities, has not been completed (1) due to administrative delays by government entities, beyond the control of the lessee, or (2) such sale would be uneconomic;

(b) substantial investment in the development of or for the benefit of the lease has been made; and

(c) the lease would otherwise expire prior to December 31, 1988.

(2)(a) The Secretary of the Interior (hereinafter in this section referred to as "the Secretary") shall publish for public comment in the Federal Register within 120 days after the date of enactment of this section a proposed list of significant thermal features within the following units of the National Park System:

Mount Rainier National Park;
Lassen Volcanic National Park;
Yellowstone National Park;
Bering Land Bridge National Preserve;
Gates of the Arctic National Park and Preserve;
Yukon-Charley Rivers National Preserve;
Katmai National Park;
Aniakchak National Monument and Preserve;
Wrangell-St. Elias National Park and Preserve;
Glacier Bay National Park and Preserve;
Denali National Park and Preserve;
Lake Clark National Park and Preserve;
Hot Springs National Park;
Sequoia National Park;
Hawaii Volcanoes National Park;
Lake Mead National Recreation Area;
Big Bend National Park;

Olympic National Park;
Grand Teton National Park;
John D. Rockefeller, Jr. Memorial Parkway;
Haleakala National Park; and
Crater Lake National Park.

The Secretary shall include with such list the basis for his determination with respect to each thermal feature on the list. Based on public comment on such list, the Secretary is authorized to make additions to or deletions from the list. Not later than the 60th day from the date on which the proposed list was published in the Federal Register, the Secretary shall transmit the list to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives together with copies of all public comments which he has received and indicating any additions to or deletions from the list with a statement of the reasons therefor and the basis for inclusion of each thermal feature on the list. The Secretary shall consider the following criteria in determining the significance of thermal features:

- (1) size, extent, and uniqueness;
- (2) scientific and geologic significance;
- (3) the extent to which such features remain in a natural, undisturbed condition; and
- (4) significance of thermal features to the authorized purposes for which the National Park System unit was created.

The Secretary shall not issue any geothermal lease pursuant to the Geothermal Steam Act of 1970 (Public Law 91-581, 84 Stat. 1566), as amended, until such time as the Secretary has transmitted the list to the Committees of Congress as provided in this section.

(b) The Secretary shall maintain a monitoring program for those significant thermal features listed pursuant to subsection (a) of this section.

(c) Upon receipt of an application for a geothermal lease the Secretary shall determine on the basis of scientific evidence if exploration, development, or utilization of the lands subject to the geothermal lease application is reasonably likely to result in a significant adverse effect on a significant thermal feature listed pursuant to subsection (a) of this section. Such determination shall be subject to notice and public comment. If the Secretary determines on the basis of scientific evidence that the exploration, development, or utilization of the land subject to the geothermal lease application is reasonably likely to result in a significant adverse effect on a significant thermal feature listed pursuant to subsection (a) of this section, the Secretary shall not issue such geothermal lease. In addition, the Secretary shall withdraw from leasing under the Geothermal Steam Act of 1970, as amended, those lands, or portion thereof, subject to the application for geothermal lease, the exploration, development, or utilization of which is reasonably likely to result, based on the Secretary's determination, in a significant adverse effect on a significant thermal feature listed pursuant to subsection (a) of this section.

(d) With respect to all geothermal leases issued after the date of enactment of this section the Secretary shall include stipulations in leases necessary to protect significant thermal features listed pursuant to subsection (a) of this section where a determination is made based on scientific evidence that the exploration, development, or utilization of the lands subject to the lease is reasonably likely to adversely affect such significant features. Such stipulations shall include, but are not limited to:

- (1) requiring the lessee to reinject geothermal fluids into the rock formations from which they originate;
- (2) requiring the lessee to report annually to the Secretary on its activities;
- (3) requiring the lessee to continuously monitor geothermal production and injection wells; and
- (4) requiring the lessee to suspend activity, temporarily or permanently, on the lease if the Secretary determines that ongoing exploration, development, or utilization activities are having a significant adverse effect on significant thermal features listed pursuant to subsection (a) of this section until such time as the significant adverse effect is eliminated.

(e) The Secretary of Agriculture shall consider the effects on significant thermal features of those units of the National Park System identified in subsection (a) of this section in determining whether to consent to leasing under the Geothermal Steam Act of 1970, as amended, on national forest or other lands administered by the Department of Agriculture available for leasing under the Geothermal Steam Act of 1970, as amended, including public, withdrawn, and acquired lands.

(f) Nothing contained in this section shall affect the ban on leasing under the Geothermal Steam Act of 1970, as amended, with respect to the Island Park Known Geothermal Resources Area, as provided for in Public Law 98-473 (98 Stat. 1837) and Public Law 99-190 (99 Stat. 1267).

(g) Except as provided herein, nothing contained in this section shall affect or modify the authorities or responsibilities of the Secretary under the Geothermal Steam Act of 1970, as amended, or any other provision of law.

(h) The provisions of this section shall remain in effect until Congress determines otherwise.】

【SEC. 116. (a) Section 1102(a) of the National Parks and Recreation Act of 1978 (Public Law 95-625) is amended by inserting the following after the second sentence: "In addition, the Secretary may acquire by any of the foregoing methods not to exceed ten acres outside the boundaries of the national river for an administrative headquarters site, and funds appropriated for land acquisition shall be available for the acquisition of the administrative headquarters site."】

(b) Section 1112 of Public Law 95-625 is amended by striking "\$500,000" and inserting "\$3,000,000".】

【SEC. 117. (1) The Women in Military Service for America Memorial Foundation is authorized to establish a memorial on Federal land in the District of Columbia and its environs to honor women who have served in the Armed Forces of the United States. Such memorial shall be established in accordance with the provisions of H.R. 4378, as approved by the Senate on September 10, 1986 (S. Rpt. 99-421).】

(2) The organization or organizations approved by the Secretary shall establish the memorial with non-Federal funds.】

【SEC. 118. (1) The Black Revolutionary War Patriots Foundation is authorized to establish a memorial on Federal land in the District of Columbia and its environs to honor the estimated five thousand courageous slaves and free black persons who served as soldiers and sailors or provided civilian assistance during the American Revolution and to honor the countless black men, women, and children who ran away from slavery or filed petitions with courts and legislatures seeking their freedom. Such memorial shall be established in accordance with the provisions of H.R. 4378, as approved by the House of Representatives on September 29, 1986.】

(2) The Black Revolutionary War Patriots Foundation shall establish the memorial with non-Federal funds.】

【SEC. 119. The Secretary of the Interior shall designate the visitor center to be associated with the headquarters of the Illinois and Michigan Canal National Heritage Corridor as the "George M. O'Brien Visitor Center" in recognition of the leadership and contributions of Representative George M. O'Brien with respect to the creation and establishment of this national heritage corridor.】

【SEC. 120. Notwithstanding any other provisions of the Land and Water Conservation Fund Act of 1965, Public Law 88-578, as amended, or other law, Land and Water Conservation Fund assisted land in Berkeley, Illinois, assisted under project No. 17-00180, may be exchanged for existing public lands if Land and Water Conservation Fund conversion criteria regarding equal fair market value and reasonably equivalent use and location are met.】

【SEC. 121. None of the funds provided by this Act shall be expended by the Secretary of the Interior to promulgate final regulations concerning paleontological research on Federal lands until the Secretary has received the National Academy of Sciences' report concerning the permitting and post-permitting regulations concerning paleontological research and until the Secretary has, within 30 days, submitted a report to the appropriate committees of the Congress comparing the National Academy of Sciences' report with the proposed regulations of the Department of the Interior.】

【SEC. 122. Subsection (b) of the first section of the Act of August 9, 1955, as amended (25 U.S.C. 415(b)) is further amended—

- (1) by striking "or" immediately before "(2)"; and
- (2) by inserting immediately before the period at the end thereof the following: ", or (3) if the term does not exceed seventy-five years (including options to renew), and the lease is executed under tribal regulations approved by the Secretary under this clause (3)".】

【SEC. 123. Section 515(b)(10)(B)(ii) of the Surface Mining Control and Reclamation Act of 1977 is amended by inserting after "qualified registered engineer" the following: "or a qualified registered professional land surveyor in any State which authorizes land surveyors to prepare and certify such maps or plans".】

【SEC. 124. Notwithstanding any other provision of law, no funds appropriated by this Act shall be available for the implementation, by

the Secretary of the Interior or the Attorney General or any other officer acting on behalf of the United States, of the "Agreement to Settle Pending Litigation Between the United States and the Owners of Certain Oil Shale Mining Claims in Colorado", dated August 4, 1986, or for the patenting of any other oil shale placer claims located prior to passage of the 1920 Mineral Leasing Act, for a period of 180 days from the date of enactment of this provision, in order to provide a period for Congressional review of this agreement: *Provided*, That the provisions of this section affecting the aforesaid settlement agreement shall be effective only if the United States Court of Appeals for the Tenth Circuit and the United States District Court for the District of Colorado approve a stay in the cases affected by such settlement agreement for 180 days and the parties to such agreement agree to continue to be bound by such agreement for the 180-day period: *Provided further*, That the Attorney General of the United States and the Secretary of the Interior are directed to immediately and in good faith seek concurrence of all parties to the agreement to continue such agreement for 180 days and to request such courts to issue stays for such period.] (*Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(h).*)

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

SEC. 201. Appropriations in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, building, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: *Provided*, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted.

SEC. 202. The Secretary may authorize the expenditure or transfer (within each bureau or office) of any appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of forest or range fires on or threatening lands under jurisdiction of the Department of the Interior.

SEC. 203. Appropriations in this title shall be available for operation of warehouses, garages, shops, and similar facilities, wherever consolidation of activities will contribute to efficiency, or economy, and said appropriations shall be reimbursed for services rendered to any other activity in the same manner as authorized by the Act of June 30, 1932 (31 U.S.C. 1535 and 1536): *Provided*, That reimbursements for costs of supplies, materials, equipment, and for services rendered may be credited to the appropriation current at the time such reimbursements are received.

SEC. 204. Appropriations in this title shall be available for hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchases of reprints; payment for telephone services in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members.

[SEC. 205. Of the appropriations provided for the Central Utah Project, in this or any other Act, not more than 20 percent of the total in any one fiscal year may be expended by the Secretary for all administrative expenses: *Provided*, That the Inspector General of the Department of the Interior shall annually audit expenditures by the Bureau of Reclamation to determine compliance with this section: *Provided further*, That the Bureau of Reclamation's General Administrative Expenses appropriation shall be used to fund the audit: *Provided further*, That the Bureau of Reclamation shall not delay or stop construction of the project due to this limitation and shall apply all the remaining appropriations to completion of the project.]

[SEC. 206. The Central Utah Water Conservancy District shall pay principal and interest on those features of the Central Utah Project which develop 60,000 acre-feet of municipal and industrial water supply for which deferral was invoked in 1981, without the benefit of exceptions (1) and (2) of the last proviso of the first sentence of section 301(b) of the Water Supply Act of 1958, 43 U.S.C. 390(b)(2): *Provided*, That in the event that the Bonneville Unit is not substantially complete, as determined by the Secretary, at the end of fiscal year 1995, the Central Utah Water Conservancy District will be credited with \$2,000,000 to be applied to its repayment obligation for the Bonneville

Unit each year that the project is not substantially complete, as determined by the Secretary, but in no case beyond fiscal year 2000.] (*Energy and Water Development Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(e).*)

TITLE III—GENERAL PROVISIONS

SEC. 301. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.

SEC. 302. No part of any appropriation under this Act shall be available to the Secretaries of the Interior and Agriculture for use for any sale hereafter made of unprocessed timber from Federal lands west of the 100th meridian in the contiguous 48 States which will be exported from the United States, or which will be used as a substitute for timber from private lands which is exported by the purchaser: *Provided*, That this limitation shall not apply to specific quantities of grades and species of timber which said Secretaries determine are surplus to domestic lumber and plywood manufacturing needs.

[SEC. 303. No part of any appropriation under this Act shall be available to the Secretary of the Interior or the Secretary of Agriculture for the leasing of oil and natural gas by noncompetitive bidding on publicly owned lands within the boundaries of the Shawnee National Forest, Illinois: *Provided*, That nothing herein is intended to inhibit or otherwise affect the sale, lease, or right to access to minerals owned by private individuals.]

SEC. [304] 303. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which congressional action is not complete.

SEC. [305] 304. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. [306] 305. None of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency *except as otherwise provided by Law*.

SEC. [307] 306. Except for lands described by sections 105 and 106 of Public Law 96-560, section 103 of Public Law 96-550, section 5(d)(1) of Public Law 96-312, and except for land in the State of Alaska, and lands in the national forest system released to management for any use the Secretary of Agriculture deems appropriate through the land management planning process by any statement or other Act of Congress designating components of the National Wilderness Preservation System now in effect or hereinafter enacted, and except to carry out the obligations and responsibilities of the Secretary of the Interior under section 17(k)(1) (A) and (B) of the Mineral Leasing Act of 1920 (30 U.S.C. 226), none of the funds provided in this Act shall be obligated for any aspect of the processing or issuance of permits or leases pertaining to exploration for or development of coal, oil, gas, oil shale, phosphate, potassium, sulphur, gilsonite, or geothermal resources on Federal lands within any component of the National Wilderness Preservation System or within any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning in Executive Communication 1504, Ninety-sixth Congress (House Document numbered 96-119); or within any lands designated by Congress as wilderness study areas or within Bureau of Land Management wilderness study areas: *Provided*, That nothing in this section shall prohibit the expenditure of funds for any aspect of the processing or issuance of permits pertaining to exploration for or development of the mineral resources described in this section, within any component of the National Wilderness Preservation System now in effect or hereinafter enacted, any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning, within any lands designated by Congress as wilderness study areas, or Bureau of Land Management wilderness study areas, under valid existing rights, or leases validly issued in accordance with all applicable Federal, State, and local laws or valid mineral rights in existence prior to October 1, 1982: *Provided further*, That funds provided in this Act may be used by the Secretary of Agriculture in any area of National Forest lands or the Secretary of the Interior to issue under their existing authority in any area of National Forest or

public lands withdrawn pursuant to this Act such permits as may be necessary to conduct prospecting, seismic surveys, and core sampling conducted by helicopter or other means not requiring construction of roads or improvement of existing roads or ways, for the purpose of gathering information about and inventorying energy, mineral, and other resource values of such area, if such activity is carried out in a manner compatible with the preservation of the wilderness environment: *Provided further*, That seismic activities involving the use of explosives shall not be permitted in designated wilderness areas: *Provided further*, That funds provided in this Act may be used by the Secretary of the Interior to augment recurring surveys of the mineral values of wilderness areas pursuant to section 4(d)(2) of the Wilderness Act and acquire information on other national forest and public land areas withdrawn pursuant to this Act, by conducting in conjunction with the Secretary of Energy, the National Laboratories, or other Federal agencies, as appropriate, such mineral inventories of areas withdrawn pursuant to this Act as he deems appropriate. These inventories shall be conducted in a manner compatible with the preservation of the wilderness environment through the use of methods including core sampling conducted by helicopter; geophysical techniques such as induced polarization, synthetic aperture radar, magnetic and gravity surveys; geochemical techniques including stream sediment reconnaissance and x-ray diffraction analysis; land satellites; or any other methods he deems appropriate. The Secretary of the Interior is hereby authorized to conduct inventories or segments of inventories, such as data analysis activities, by contract with private entities deemed by him to be qualified to engage in such activities whenever he has determined that such contracts would decrease Federal expenditures and would produce comparable or superior results: *Provided further*, That in carrying out any such inventory or surveys, where National Forest System lands are involved, the Secretary of the Interior shall consult with the Secretary of Agriculture concerning any activities affecting surface resources: *Provided further*, That funds provided in this Act may be used by the Secretary of the Interior to issue oil and gas leases for the subsurface of any lands designated by Congress as wilderness study areas, that are immediately adjacent to producing oil and gas fields or areas that are prospectively valuable. Such leases shall allow no surface occupancy and may be entered only by directional drilling from outside the wilderness study area or other nonsurface disturbing methods.

SEC. [308] 307. None of the funds provided in this Act shall be used to evaluate, consider, process, or award oil, gas, or geothermal leases on Federal lands in the Mount Baker-Snoqualmie National Forest, State of Washington, within the hydrographic boundaries of the Cedar River municipal watershed upstream of river mile 21.6, the Green River municipal watershed upstream of river mile 61.0, the North Fork of the Tolt River proposed municipal watershed upstream of river mile 11.7, and the South Fork Tolt River municipal watershed upstream of river mile 8.4.

SEC. [309] 308. No assessments may be levied against any program, budget activity, subactivity, or project funded by this Act unless such assessments and the basis therefor are presented to the Committees on Appropriations [and are approved by such committees].

[SEC. 310. Employment funded by this Act shall not be subject to any personnel ceiling or other personnel restriction for permanent or other than permanent employment except as provided by law.]

SEC. [311] 309. Notwithstanding any other provisions of law, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Energy, and the Secretary of the Smithsonian Institution are authorized to enter into contracts with State and local governmental entities, including local fire districts, for procurement of services in the presuppression, detection, and suppression of fires on any units within their jurisdiction.

SEC. [312] 310. None of the funds provided by this Act to the United States Fish and Wildlife Service may be obligated or expended to plan for, conduct, or supervise deer hunting on the Loxahatchee National Wildlife Refuge.

[SEC. 313. None of the funds made available to the Department of the Interior or the Forest Service during fiscal year 1987 by this or

any other Act may be used to implement the proposed jurisdictional interchange program until enactment of legislation which authorizes the jurisdictional interchange.]

[SEC. 314. Not to exceed \$500,000 appropriated or made available under this or any other Act may be used by the executive branch for soliciting proposals, preparing or reviewing studies or drafting proposals designed to aid in or achieve the transfer out of Federal ownership, management or control in whole or in part the facilities and functions of Naval Petroleum Reserve Numbered 1 (Elk Hills), located in Kern County, California, established by Executive order of the President, dated September 2, 1912, and Naval Petroleum Reserve Numbered 3 (Teapot Dome), located in Wyoming, established by Executive order of the President, dated April 30, 1915: *Provided*, That a report on any such studies shall be submitted to the Speaker of the House of Representatives and the President of the Senate no later than June 30, 1987.]

[SEC. 315. Notwithstanding any other provision of law, funds appropriated by this or any other Act shall be available to the Trust Territory of the Pacific Islands on the same basis as such funds were available during fiscal year 1986 until alternative funding is available under the terms of the Compact of Free Association Act of 1985 (Public Law 99-239).]

SEC. [316] 311. Notwithstanding any other provision of law, any lease for those Federal lands within the Gallatin and Flathead National Forests which were affected by case CV-82-42-BU of the United States District Court for the District of Montana, Butte Division, for which the Secretary of the Interior or the Secretary of Agriculture has directed or assented to the suspension of operations and production pursuant to section 39 of the Act of February 25, 1920 (30 U.S.C. 184) shall be excepted from the limits on aggregate acreage set out in that Act: *Provided*, That any person, association or corporation receiving relief under this section shall bring its aggregate acreage into compliance with the provisions of the Act of February 25, 1920 (30 U.S.C. 184) within six months from the date of suspension of operation and production ends.

[SEC. 317. No funds appropriated by this Act shall be available for the implementation or enforcement of any rule or regulation of the United States Fish and Wildlife Service, Department of the Interior, requiring the use of steel shot in connection with the hunting of waterfowl in any State of the United States unless the appropriate State regulatory authority approves such implementation.]

[SEC. 318. Section 221 of the Biomass Energy and Alcohol Fuels Act of 1980 (Public Law 96-294; 42 U.S.C. 8821) is amended by striking out "June 30, 1986" and inserting in lieu thereof "June 30, 1987".]

[SEC. 319. Section 12(b)(7)(iv) of the Act of January 2, 1976 (Public Law 94-204), as amended, is amended by striking the word "ten" and inserting in lieu thereof the word "seven".]

SEC. [320] 312. To assure that National Forest and Bureau of Land Management timber included in sales defaulted by the purchaser, or returned under the Federal Timber Contract Payment Modification Act (Public Law 98-478), is available for resale [in a timely manner, such sales shall be subject only to one level of administrative appeal. This limitation shall not abridge the right of judicial review. Actions or such administrative appeals should be completed within 90 days of receipt of the notice of appeal.], *the Secretary of Agriculture and the Secretary of Interior are authorized to resell, as part of the sales programs provided for by this Act, all such timber, and to permit necessary roads and other developments, notwithstanding any other provision of law. Sales that are reoffered [shall] may be modified, [including minor additions or deletions, as appropriate, to reduce adverse environmental impacts, pursuant to current land management plans and guidelines, and such modifications in themselves should not be construed to require the preparation of new or supplemental environmental assessments.] without subjecting the decision to reoffer the sale to administrative appeal or judicial review. This section shall not apply to any decision on the determination of damages due to the Government for defaulted or canceled contracts. (Department of the Interior and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591 section 101(h).)*

Program direction and policy coordination.—The Attorney General, aided by the Deputy Attorney General, Associate Attorney General, and other Department

policy-level officials, directs and supervises the programs and activities of the Department. This activity includes the Governor's Project and the Annual Report for Organized Crime Drug Enforcement.

Administrative review and appeals.—This activity includes the Office of the Pardon Attorney and the Executive Office for Immigration Review (EOIR). The Pardon Attorney receives and reviews all petitions for clemency. The Executive Office for Immigration Review contains the Immigration Judge function and the Board of Immigration Appeals. EOIR was established January 1, 1983 to improve the immigration hearing and appeal process. Workload for the activity follows:

The United States Parole Commission makes decisions to grant or deny parole to Federal prisoners serving sentences of one year and a day or more, sets conditions of parole, supervises parolees and mandatory releasees, recommits parolees in the event of violations of the conditions of supervision, and determines the termination of supervision in accordance with the Parole Commission and Reorganization Act of 1976.

In 1988, this program will meet the statutory limitations by granting or denying parole within the legal time requirements to all Federal prisoners who are eligible for parole consideration. In addition to this basic function, the Commission will seek to improve the rehabilitation process by monitoring an effective parole supervision program through the U.S. probation officers. Finally, the Commission conducts ongoing research programs and administers its responsibilities under the labor and pension laws.

Independent counsel.—Funding for an independent counsel is provided from the general legal activities

appropriation whenever possible violations of Federal law are alleged against senior administration officials pursuant to the provisions of 28 U.S.C. 591, et seq. In 1986, two independent counsels were appointed to investigate allegations concerning former members of the Administration.

Legal activities office automation.—This fund provides for the development and acquisition of office automation systems for the various legal divisions and U.S. Attorneys offices.

In 1988, this program will also fund office automation systems in the Department's management offices.

Antitrust.—The Antitrust Division is being funded from the general legal activities appropriation beginning in 1988. The Antitrust Division administers and enforces the antitrust and related statutes. This program primarily involves the investigation of suspected violations of the antitrust laws, the conduct of civil and criminal proceedings in the Federal courts, and the maintenance of competitive conditions.

Special counsel for discrimination.—Sections 274b (c)(1) and (c)(4) of the Immigration and Nationality Act authorizes the President to appoint, with Senate consent, the Special Counsel for Immigration-Related Unfair Employment Practices within the Department of Justice for a four-year term. This Special Counsel, in accordance with Attorney General regulations, will establish regional offices as necessary to perform his duties.

Reimbursable program.—This reflects reimbursable funding for the following:

Civil Division—to perform functions of the Office of Alien Property; Criminal Division—for detailing of staff to provide assistance to other agencies and for other miscellaneous purposes; Lands Division—from client agencies for land appraisal contracts and from the Environmental Protection Agency pursuant to Superfund litigation; Civil Rights Division—for activities related to the Department's Equal Employment Opportunity Program; and U.S. Attorneys—derived primarily from the Federal Emergency Management Agency to research statutory authorities and to write Presidential Emergency Action documents based on that research.

The Federal Government is represented in each of the 94 judicial districts by a U.S. Marshal. The primary mission of the U.S. Marshals Service is responsibility for the protection of the Federal judiciary, protection of witnesses, execution of warrants and court orders, and custody and transportation of unsentenced prisoners. It is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community. Beginning in 1988, the expenses of protected witnesses and their dependents will be funded from this appropriation.

Reimbursable program.—Federal funds in 1988 are derived primarily from the U.S. Air Force for Intercontinental Ballistic Missile transportation security services provided by the U.S. Marshals Service, as well as the Bureau of Prisons for the transportation of sentenced prisoners, and the Department of State for security details at the United Nations. Non-Federal funds are derived from State and local governments for witness protection and for the transportation of prisoners pursuant to State writs.

Care of U.S. prisoners in non-Federal institutions.—Under this program, the U.S. Marshals Service contracts with State and local jails to board Federal prisoners and detainees for short periods of time. These periods of detention occur before and during a trial and while awaiting transfer to Federal institutions after conviction. Approximately 95,500 prisoners will be boarded in approximately 835 jails at an average cost of \$39.69 per offender day in 1988.

Cooperative agreement program.—Agreements are negotiated with State and local governments for renovating, constructing, and equipping facilities that detain Federal prisoners.

Note.—Excludes \$17,618 thousand in 1988 for Protection of Witnesses program transferred to Salaries and expenses, U.S. Marshals Service. Comparable amounts for 1986 (\$13,029 thousand) and 1987 (\$17,641 thousand) are included above.

Fees and expenses are paid to witnesses who appear on behalf of the Government in cases in which the United States is a party. Costs incurred are affected by factors over which the Department of Justice exercises little control. The U.S. attorneys and the Department's six legal divisions are served by this appropriation.

Fact witnesses.—Payment for attendance fees, per diem and travel is provided for witnesses who testify as to events or facts about which they have personal knowledge.

Protection of witnesses.—Beginning in 1988, the expenses of protected witnesses will be funded from the U.S. Marshals Service appropriation.

Expert witnesses.—Provides for the payment of fees and expenses associated with the preparation and presentation of testimony by technical and scientific experts in legal proceedings involving the United States.

Mental competency examinations.—This program provides payments to psychiatrists and physicians for court-ordered examinations of the mental competency of persons accused of offenses against the United States. Reports and court testimony relating to the examinations are included in these fees.

General and special funds—Continued

FEEs AND EXPENSES OF WITNESSES—Continued

Victim compensation fund.—This fund pays restitution to any victim of a crime committed by a protected witness who causes or threatens death or serious bodily injury.

Reimbursable program.—Non-Federal funds are received through reimbursement from states and localities to cover the costs of maintaining those State and local organized crime witnesses and their families who have been accepted into the witness protection program.

Prevention and conciliation of community disputes.—The Community Relations Service (CRS) provides assistance to communities in resolving disputes, disagreements, and difficulties arising from discriminatory practices based on race, color, or national origin which impair the rights of citizens or which disrupt or threaten to disrupt peaceful relations among citizens.

The 1988 request will provide CRS with resources to continue to focus on racial disputes in the areas of law enforcement, immigration, corrections, education, employment, housing, community development, and Indian rights, among others. In 1988, CRS also anticipates continuing response to conflicts involving Indo-Chinese refugees as well as the Ku Klux Klan. CRS will continue to monitor and will help communities to forestall threats of urban civil disorder.

Reception, processing and care of Cubans and Haitians.—This activity provides for the reception, processing, resettlement, health and mental care, and other services of Cuban and Haitian entrants who entered the United States in 1980 and each year thereafter and who subsequently have been detained by the Immigration and Naturalization Service for their undocumented or unauthorized entry into the United States.

United States trustee system fund.—The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (Public Law 99-554), expands the current pilot program to a twenty-one region nationwide program encompassing ninety-four judicial districts. The United States trustee program supervises the administration of bankruptcy cases in the Federal Bankruptcy Courts. In 1987 and 1988, the estimates reflect phased expansion of the program's jurisdiction to all Federal judicial districts. The nationwide expansion will be completed in 1989. Appropriated amounts are being sought for 1987 and 1988. 1989 amounts will be derived from receipts.

The overall objectives of the Federal Bureau of Investigation (FBI) are to have a significant impact towards reducing criminal activity, to investigate civil matters in which the Federal Government has an interest, and to provide information to the executive branch relating to national security.

These objectives result in the FBI's being actively involved in a wide range of investigations, including traditional law enforcement investigations (bank robbery, kidnaping, fugitive, bank embezzlement, etc.), investigations involving more modern phenomena (organized crime, white-collar crime, civil rights violations, antitrust violations, etc.), and investigations of hostile intelligence activities within the United States. The Drug Enforcement Administration (DEA) reports to the Director of the FBI and the FBI has concurrent jurisdiction with DEA over Federal drug violations.

The activities of the FBI are divided into the following general categories:

Criminal, security, and other investigations.—This activity includes all field investigations of the Federal Bureau of Investigation. These investigations are conducted by FBI Special Agents in 59 field offices and more than 400 resident agencies located throughout the United States and Puerto Rico. National priority investigations include white-collar crime, organized crime, terrorism and foreign counterintelligence. Other investigative areas are civil rights, fugitive, general government crimes, personal crimes, civil and general property crimes, applicant, and other investigations. An increase of \$45 million is planned for the FBI's Investigative Programs in 1988.

The FBI is reimbursed by other Federal agencies for certain investigative activities such as preemployment background inquiries and name checks.

This activity also includes resources devoted to national program supervision, coordination, and management of FBI investigations.

ADP and telecommunications, and technical field support and equipment. The FBI will invest \$13 million for construction of the Engineering Research Facility that will enable the collocation of FBI and DEA research and development staffs. Also planned are capital investments of \$10 million to continue the design and implementation of an integrated digital voice privacy radio system that will support FBI, DEA, and United States Marshals Service operations. An amount of \$2.5 million will be utilized for dormitory furnishings at the FBI Academy.

State and local assistance.—The FBI supports State and local law enforcement by providing training, laboratory, identification, and informational services. Emphasis is being placed on the training of State and local police instructors to enable their agencies to become more self-sufficient and, thereby, allow the FBI to concentrate its resources on high priority initiatives. Training is conducted at various locations within the United States but most courses are conducted at the FBI National Academy in Quantico, VA.

The FBI's National Crime Information Center (NCIC) and Uniform Crime Reporting (UCR) program provide criminal justice information to Federal, state and local law enforcement agencies without charge. The NCIC system contains over 18 million records relating to wanted and missing persons, stolen property, and criminal histories. The UCR program collects data from nearly 16,000 law enforcement agencies and provides this information to criminal justice agencies and researchers, the academic community, and others.

The FBI's Identification Division is the national repository for fingerprint identification data. In 1988, approximately 7.3 million fingerprint cards will be processed. Processing of noncriminal fingerprint checks for State and local agencies and banking institutions is on a reimbursable basis.

The mission of the Drug Enforcement Administration (DEA) is to control abuse of narcotics and dangerous drugs by restricting the aggregate supply of those drugs. At the Federal level, DEA is the lead drug law

enforcement agency. DEA accomplishes its objectives through coordination with State, local, and other Federal officials in drug enforcement activities, development and maintenance of drug intelligence systems, regulation of legitimate controlled substances activities, and enforcement coordination and intelligence-gathering activities with foreign government agencies.

Cooperation among Federal law enforcement agencies is extensive, especially within the 13 organized crime drug enforcement (OCDE) task forces. DEA's involvement is integral to this nationwide coordinated enforcement strategy. With the OCDE program, the expansion of DEA/FBI cooperative efforts, and the resources provided in the Omnibus Drug Supplemental Appropriation Act of 1987, overall drug enforcement capabilities have been significantly strengthened in recent years.

The activities of the DEA are divided into the following general categories:

ENFORCEMENT

Domestic enforcement.—This activity encompasses efforts to eliminate or immobilize major drug trafficking organizations and thereby reduce the domestic supply of illicit drugs. In 1988, additional resources are targeted at investigative efforts to maximize the seizure of traffickers' assets, and DEA and contracted ADP support for the field. The measures below reflect the level of activity performed by this program.

	1986 actual	1987 est.	1988 est.
DEA initiated arrests.....	6,823	7,104	7,946
Other Federal referral arrests.....	1,364	1,398	1,500
DEA Cooperative arrests.....	3,440	4,268	5,542
Task Force initial arrests.....	3,970	4,238	4,883
Clandestine labs seized.....	431	475	500
DEA/OCDE arrests.....	2,570	2,570	2,570
Assets seized (\$ millions).....	378	450	500

Foreign cooperative investigations.—This activity encompasses efforts to (1) reduce, at the source, production of opium, heroin, cocaine, marijuana, and illicitly produced and diverted legitimate dangerous drugs destined for the United States, and (2) collect and disseminate intelligence. The measures below reflect the level of activity performed by this program.

Foreign cooperative arrests.....	1,108	1,464	1,809
Intelligence reports.....	105	105	105
Special field intelligence programs.....	30	30	30

Diversion control.—By authority of the Controlled Substances Act (CSA) of 1970 and the Comprehensive Crime Control Act (CCCA) of 1984, this activity addresses the problem of the diversion of controlled substances from the legitimate channels in which they are manufactured, distributed, and dispensed. The measures below reflect the level of activity performed by this program:

Laboratory exhibits analyzed	31,689	33,300	34,500

DEA Training.—This activity encompasses entry level training for all special agents, diversion investigators, and intelligence analysts; advanced, in service and specialized training for investigative and other personnel; executive, mid-level management, and supervisory training for appropriate agency officials, and foreign language training for all DEA personnel assigned to overseas and border offices as needed. The measure below reflects the level of activity performed by this program.

	1986 actual	1987 est.	1988 est.
Students trained	7,295	8,300	8,000

Research, engineering, and technical operations.—This activity encompasses providing high quality and timely radio communications capability, technical and investigative equipment assistance support, maintenance and operation of an aircraft fleet, acquisition of a quality motor vehicle fleet, and research programs directly related to the DEA law enforcement and intelligence functions. The increase for 1988 will provide a cadre of Special Agents for the covert installation and adaptation of technical equipment, enhance DEA's investigative capabilities, and provide a cadre of technicians to perform installations and repair of technical investigative and radio communication equipment.

ADP and telecommunications.—This activity encompasses provision of automated data processing and telecommunication support on a nationwide and worldwide basis. The increase for 1988 will provide necessary resources for the second phase in securing, through TEMPEST-rated capability, the remaining segments of the Office Automation System.

Records management.—This activity encompasses effective and efficient records management, Freedom of Information/Privacy Act, and library support.

STATE AND LOCAL ASSISTANCE

State and local training and laboratory services.—This activity encompasses training for State and laboratory services, local, military, and other Federal professionals and laboratory analysis of drug evidence. Agency-wide resources are also targeted for prevention of drug abuse.

Work load measures are provided below:

	1986 actual	1987 est.	1988 est.
Laboratory exhibits analyzed	7,963	9,600	9,600
Participants in training courses	9,449	9,455	9,455

PROGRAM DIRECTION

Executive direction and administrative services.—This activity encompasses the overall management and direction of DEA personnel, general services, and Equal Employment Opportunity functions. The increase for 1988 will ensure staff integrity, improve security of staff and facilities, and provide physical fitness services.

REIMBURSABLE PROGRAM

Reimbursable program.—The primary reimbursements to DEA are for the training of foreign drug law enforcement officials (funded by the Department of State), the expenses incurred in managing seized assets, and other purposes to be reimbursed from the Department of Justice Assets Forfeiture Fund.

The Immigration and Naturalization Service is responsible for administering laws relating to the admission, exclusion, deportation, and naturalization of aliens. Specifically, the Service inspects aliens to determine their admissibility into the United States; adjudicates requests of aliens for benefits under the law; prevents illegal entry into the United States; investigates, apprehends, and removes aliens in this country in violation of the law; and examines alien applicants wishing to become citizens.

Enforcement.—This activity contains most of the resources needed for preventing illegal entry into the United States and facilitating the entry of qualified persons. This includes inspection of applicants for admission, patrol of the border, and the location of illegal aliens who are in the United States following illegal entry or violation of status after legal entry. Apprehensions are made through the inspection of farms and ranches, by the investigation of information about the location of undocumented aliens, and through investigative case work. Also included are the resources for the Service's nationwide anti-smuggling program and for the detention and deportation of illegal aliens.

Most reimbursements received by the Service are for overtime work performed by immigration inspectors at air and sea ports of entry as required by statute. The Airport and Airways Development Act requires that the carriers reimburse the Service for inspections per-

Citizenship and benefits.—The resources necessary to provide the benefits of the Immigration and Nationality Act are provided in this activity. Included in this activity are the adjudication of applications and petitions submitted for benefits and the processing of naturalization and citizenship petitions and applications. All operations conducted overseas, except preinspection, are within this activity.

Immigration support.—This activity includes the resources for construction, communications, records management, automated data processing, training of personnel, research and development, field management, legal proceedings, and the alien documentation program (ADIT). In addition, it provides a capability to scientifically examine and analyze documents to assist in the identification, investigation and prosecution of major conspiracies which provide fraudulent documents and smuggled aliens.

This appropriation will provide for the custody and care of an average of 44,878 offenders and for the maintenance and operation of 50 penal institutions, 5 regional offices, and a central office located in Washington, D.C.

The appropriation also finances the boarding of sentenced Federal prisoners in State and local jails and therapeutic, community residential and other facilities for short periods of time. An average of 5,820 sentenced prisoners will be in contract facilities in 1988.

The Bureau receives reimbursements for daily care and maintenance of State and local offenders, for utilities produced by Federal Prison Industries, Inc., and for meals provided to Bureau staff at institutions.

Inmate care, custody, and programs.—This activity covers the cost of all food, medical supplies, clothing, welfare services, release clothing, transportation, gratuities, staff salaries (including salaries of Health Resources and Services Administration commissioned officers), and operational costs of functions directly related to providing inmate care. This activity also finances the costs of institution security, academic, social and occupational education courses, religious programs, and psychological services.

Institution administration and maintenance.—This activity covers all costs associated with the general operation and maintenance of facilities. Included are functions of the warden's office, personnel, financial management, safety, staff training, mechanical services, motor pool operations, powerhouse operations, and other administrative functions.

Contract confinement.—This activity provides for the confinement of sentenced Federal offenders in contract State and local facilities and for the care of Federal prisoners in contract community residential centers.

Program direction.—This activity covers the costs of regional and central office executive direction and management support functions such as research and evaluation, systems support, financial management, personnel, and legal counsel.

In 1988, resources are requested to provide for a projected increase in the inmate population, activate three new facilities and new housing units at existing institutions, expand both contract confinement programs, continue ADP improvements and support costs, upgrade the motor vehicle inventory, and expand medical training.

The National Institute of Corrections (NIC) was established by the Juvenile Justice and Delinquency Preven-

tion Act of 1974 to provide leadership in improving correctional programs and practices, especially in State and local organizations. The NIC awards contracts and grants to provide technical assistance to requesting correctional organizations; to maintain an information service to provide information on the latest developments, research results, et cetera, in the field of corrections; to provide training to the correctional community to improve systems and skills; and to conduct limited research and evaluation of correctional activities.

The NIC Jail Center will continue to improve the knowledge and skills of sheriffs and jail administrators, enabling them to upgrade services and practices within their jail operations.

The National Academy of Corrections will offer training to local correctional personnel working in prisons, community corrections, and jails. In 1988, the Academy will train approximately 2,430 students in the areas of management theory, current issues affecting jails, institutions, probation and parole, standards implementation, inmate services and programs, and the use of volunteers and community resources.

The dissemination of relevant correctional policies, programs, practices and resource documents will continue through the clearinghouse activity of NIC.

Planning and site acquisition.—This activity reflects the costs of efforts to obtain suitable sites for approved construction projects, including site purchase and development and facility design. In 1988, resources are requested for the planning and site acquisition of medium security prisons in the Northeast and the Southeast.

New construction.—This activity represents costs associated with the construction of new facilities in order to reduce overcrowding and provide a safe and humane environment for staff and inmates. In 1988, resources are requested to construct medium security prisons in the Northeast and Southeast and to construct a Federal detention center.

Modernization and repair of existing facilities.—This activity includes rehabilitation and renovation of buildings, necessary modifications to accommodate new correctional programs, rehabilitation or replacement of utilities systems, and repair projects at existing facilities. In 1988, \$26.7 million is requested to increase capacity at existing institutions; \$17 million is requested to modernize antiquated penitentiaries; and \$18.2 million is requested to renovate other existing facilities.

Federal Prison Industries, Inc. was created by Congress in 1934 and is a wholly-owned Government corpo-

ration. Its mission is to employ and train Federal inmates through a diversified program providing products and services to other Federal agencies. These operations are conducted in such a manner as to offer a minimum of competition to private industry and labor. Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

The Corporation has been expanding its operations to provide additional industrial employment opportunities at existing and planned institutions.

Budget program.—Federal Prison Industries, Inc., is entirely self-sustaining. No appropriations are required. The amounts used by the Corporation for the administrative expenses and vocational training expenses are subject to a congressional limitation. Information regarding this limitation is provided separately following this account.

Financing program.—Revenues are derived entirely from the sale of products and services to other Federal agencies. Operating expenses are applied against these revenues, resulting in operating income or loss. Earnings surplus to the needs of the manufacturing operations, capital improvements and cash reserves are used to pay vocational training expenses, meritorious service awards, and accident compensation.

Operating results.—To date, Federal Prison Industries, Inc., has returned to the Treasury a total of \$82 million of retained income excess to the Corporation's needs. No contributions from budget authority have been made to offset deficits for non-revenue producing outlays since the inception of the fund.

The Office of Justice Programs provides staff support and coordinates the activities of the Office of Juvenile Justice and Delinquency Prevention, the National Institute of Justice, the Bureau of Justice Statistics, the Office for Victims of Crime, and the Bureau of Justice Assistance, which administers the State and local assistance program, the Anti-Drug Abuse Act, the Public Safety Officers' Benefits program, and the Regional Information Sharing System.

Research, evaluation, and demonstration programs.—Funds provide for and encourage the development of basic and applied research for the improvement of Federal, State, and local criminal, civil, and juvenile justice systems; new methods for the prevention and reduction of crime and the detection, apprehension, and rehabilitation of criminals; and the dissemination of the results of such research efforts. An increase of \$2,700,000 is requested for 1988 to conduct research to control drug supply and demand.

Criminal justice statistical programs.—Funds provide for the collection and analysis of statistical information concerning crime, victims, offenders, criminal justice processes, juvenile delinquency, and civil disputes in support of public and private policy and decisionmaking about society's response to crime; planning, coordination, implementation and provision of technical assistance to States to initiate innovative applications of communications and information systems technology for State and local criminal justice systems; and assurance of conformance with privacy and security regulations. An increase of \$750,000 is requested for 1988 to support a multifaceted statistical program on white collar crime.

State and local assistance.—This program is broken into two parts: a block grant program which receives 80 percent of the funds and a discretionary grant program which receives the remaining 20 percent.

No new budget authority is requested for 1988.

Emergency assistance.—Funds are used to provide emergency assistance to a State or locality after the

General and special funds—Continued

JUSTICE ASSISTANCE—Continued

Attorney General has determined that a law enforcement emergency exists. A law enforcement emergency is a situation where the capacity of local resources has been exceeded. Funding for 1987 represents unused carryover funds from the previous year. An increase of \$52,000 is requested for 1988 to maintain the program at its anticipated level of funding.

Juvenile justice programs.—Funds under this activity assist States and localities in the development of more effective education, training, research, prevention, treatment, and rehabilitation programs in the area of juvenile delinquency. No new budget authority will be requested for 1988 since the major thrusts of the grant program—deinstitutionalization of status offenders and the separation of juvenile and adult offenders—have been achieved to the extent practicable.

Missing children.—Funds for this program will be used to reduce the incidence of crimes against children, particularly kidnapping and sexual exploitation, by assisting families, citizen groups, law enforcement agencies and government institutions in a national effort to insure the safety and protection of children.

Public safety officers' benefits program.—Funds are used to pay \$50,000 in death benefits to eligible survivors of public safety officers who die in the line of duty.

Mariel Cubans.—This is a reimbursement to certain States for part of the cost of incarcerating Mariel Cubans who had originally been paroled by the Federal Government. No new budget authority is requested for 1988.

Crime control programs.—This activity provides for expenditures from past Law Enforcement Assistance Administration programs which were not continued under the Justice System Improvement Act of 1979.

Regional information sharing system.—This is a program to aid State and local law enforcement agencies in the exchange of intelligence information.

No new budget authority is requested for 1988.

Anti-drug abuse program.—Funds for this program were appropriated in 1987 to assist State and local governments in the war against drugs. No funds are requested for 1988.

Management and administration.—Funds provide for executive direction and control, program operation, and administrative support of the above activities.

Under the Victims of Crime Act of 1984 (Public Law 98-473) as amended by the Children's Justice Act

(Public Law 99-401) a special fund was established in the Treasury entitled "The Crime Victims Fund." This fund will be credited with criminal fines that are collected from persons convicted of offenses against the United States. Annual grants will be made to eligible crime victims compensation and assistance programs. An obligation limitation of \$64 million is in effect for 1987, and an obligation limitation of \$35 million is proposed for 1988.

Amounts collected in the previous year are available for obligation in the subsequent year, subject to the limitations included in appropriation language.

GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

Sec. 201. A total of not to exceed \$75,000 from funds appropriated to the Department of Justice in this title shall be available for official reception and representation expenses in accordance with distributions, procedures, and regulations established by the Attorney General.

Sec. 202. Notwithstanding any other provision of law [or this Act], materials produced by convict labor may be used in the construction of any highways or portion of highways located on Federal-aid systems, as described in section 103 of title 23, United States Code.

struction of any highways or portion of highways located on Federal-aid systems, as described in section 103 of title 23, United States Code.

SEC. 203. Appropriations for "Salaries and expenses, General Administration", "Salaries and expenses, United States Marshals Service", "Salaries and expenses, Federal Bureau of Investigation", "Salaries and expenses, Drug Enforcement Administration", "Salaries and expenses, Immigration and Naturalization Service", and "Salaries and expenses, Federal Prison System", shall be available for uniforms and allowances therefor as authorized by law (5 U.S.C. 5901-5902).

[SEC. 204. (a) Subject to subsection (b) of this section, authorities contained in Public Law 96-132, "The Department of Justice Appropriation Authorization Act, Fiscal Year 1980", shall remain in effect until the termination date of this Act or until the effective date of a Department of Justice Appropriation Authorization Act, whichever is earlier.

(b)(1) With respect to any undercover investigative operation of the Federal Bureau of Investigation or the Drug Enforcement Administration which is necessary for the detection and prosecution of crimes against the United States or for the collection of foreign intelligence or counter-intelligence—

(A) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1987, may be used for purchasing property, buildings, and other facilities, and for leasing space, within the United States, the District of Columbia, and the territories and possessions of the United States, without regard to section 1341 of title 31 of the United States Code, section 3732(a) of the Revised Statutes (41 U.S.C. 11(a)), section 305 of the Act of June 30, 1949 (63 Stat. 396; 41 U.S.C. 255), the third undesignated paragraph under the heading "Miscellaneous" of the Act of March 3, 1877 (19 Stat. 370; 40 U.S.C. 34), section 3324 of title 31 of the United States Code, section 3741 of the Revised Statutes (41 U.S.C. 22), and subsections (a) and (c) of section 304 of the Federal Property and Administrative Service Act of 1949 (63 Stat. 395; 41 U.S.C. 254 (a) and (c)),

(B) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1987, may be used to establish or to acquire proprietary corporations or business entities as part of an undercover investigative operation, and to operate such corporations or business entities on a commercial basis, without regard to section 9102 of title 31 of the United States Code,

(C) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1987, and the proceeds from such undercover operation, may be deposited in banks or other financial institutions, without regard to section 648 of title 18 of the United States Code and section 3302 of title 31 of the United States Code, and

(D) proceeds from such undercover operation may be used to offset necessary and reasonable expenses incurred in such operation, without regard to section 3302 of title 31 of the United States Code,

only, in operations designed to detect and prosecute crimes against the United States, upon the written certification of the Director of the Federal Bureau of Investigation (or, if designated by the Director, a member of the Undercover Operations Review Committee established by the Attorney General in the Attorney General's Guidelines on Federal Bureau of Investigation Undercover Operations, as in effect on July 1, 1983) or the Administrator of the Drug Enforcement Administration, as the case may be, and the Attorney General (or, with respect to Federal Bureau of Investigation undercover operations, if designated by the Attorney General, a member of such Review Committee), that any action authorized by subparagraph (A), (B), (C), or (D) is necessary for the conduct of such undercover operation. If the undercover operation is designed to collect foreign intelligence or counterintelligence, the certification that any action authorized by subparagraph (A), (B), (C), or (D) is necessary for the conduct of such undercover operation shall be by the Director of the Federal Bureau of Investigation (or, if designated by the Director, the Assistant Director, Intelligence Division) and the Attorney General (or, if designated by the Attorney General, the Counsel for Intelligence Policy). Such certification shall continue in effect for the duration of such undercover operation, without regard to fiscal years.

(2) As soon as the proceeds from an undercover investigative operation with respect to which an action is authorized and carried out under subparagraphs (C) and (D) of subsection (a) are no longer neces-

sary for the conduct of such operation, such proceeds or the balance of such proceeds remaining at the time shall be deposited in the Treasury of the United States as miscellaneous receipts.

(3) If a corporation or business entity established or acquired as part of an undercover operation under subparagraph (B) of paragraph (1) with a net value of over \$50,000 is to be liquidated, sold, or otherwise disposed of, the Federal Bureau of Investigation or the Drug Enforcement Administration, as much in advance as the Director or the Administrator, or the designee of the Director or the Administrator, determines is practicable, shall report the circumstances to the Attorney General and the Comptroller General. The proceeds of the liquidation, sale, or other disposition, after obligations are met, shall be deposited in the Treasury of the United States as miscellaneous receipts.

(4)(A) The Federal Bureau of Investigation or the Drug Enforcement Administration, as the case may be, shall conduct a detailed financial audit of each undercover investigative operation which is closed in fiscal year 1987—

(i) submit the results of such audit in writing to the Attorney General, and

(ii) not later than 180 days after such undercover operation is closed, submit a report to the Congress concerning such audit.

(B) The Federal Bureau of Investigation and the Drug Enforcement Administration shall each also submit a report annually to the Congress specifying as to their respective undercover investigative operations—

(i) the number, by programs, of undercover investigative operations pending as of the end of the one-year period for which such report is submitted,

(ii) the number, by programs, of undercover investigative operations commenced in the one-year period preceding the period for which such report is submitted, and

(iii) the number, by programs, of undercover investigative operations closed in the one-year period preceding the period for which such report is submitted and, with respect to each such closed undercover operation, the results obtained. With respect to each such closed undercover operation which involves any of the sensitive circumstances specified in the Attorney General's Guidelines on Federal Bureau of Investigation Undercover Operations, such report shall contain a detailed description of the operation and related matters, including information pertaining to—

(I) the results,

(II) any civil claims, and

(III) identification of such sensitive circumstances involved, that arose at any time during the course of such undercover operation.

(5) For purposes of paragraph (4)—

(A) the term "closed" refers to the earliest point in time at which—

(i) all criminal proceedings (other than appeals) are concluded, or

(ii) covert activities are concluded, whichever, occurs later,

(B) the term "employees" means employees, as defined in section 2105 of title 5 of the United States Code, of the Federal Bureau of Investigation, and

(C) the terms "undercover investigative operation" and "undercover operation" means any undercover investigative operation of the Federal Bureau of Investigation or the Drug Enforcement Administration (other than a foreign counterintelligence undercover investigative operation)—

(i) in which—

(I) the gross receipts (excluding interest earned) exceed \$50,000, or

(II) expenditures (other than expenditures for salaries of employees) exceed \$150,000, and

(ii) which is exempt from section 3302 or 9102 of title 31 of the United States Code,

except that clauses (i) and (ii) shall not apply with respect to the report required under subparagraph (B) of such paragraph.]

[Sec. 205. Section 286 of the Immigration and Nationality Act of 1952 (8 U.S.C. 1356) is amended by inserting after subsection (c) the following new subsections:

"(d) SCHEDULE OF FEES.—In addition to any other fee authorized by law, the Attorney General shall charge and collect \$5 per individual for the immigration inspection of each passenger arriving at a port of entry in the United States, or for the preinspection of a passenger in

a place outside of the United States prior to such arrival aboard a commercial aircraft or commercial vessel.

"(e) LIMITATIONS ON FEES.—(1) No fee shall be charged under subsection (d) for immigration inspection or preinspection provided in connection with the arrival of any passenger whose journey originated in the following:

"(A) Canada,

"(B) Mexico,

"(C) a territory or possession of the United States, or

"(D) any adjacent island (within the meaning of section 101(b)(5) of this title).

"(2) No fee may be charged under subsection (d) with respect to the arrival of any passenger—

"(A) who is in transit to a destination outside the United States, and

"(B) for whom immigration inspection services are not provided.

"(f) COLLECTION.—(1) Each person that issues a document or ticket to an individual for transportation by a commercial vessel or commercial aircraft into the United States shall—

"(A) collect from that individual the fee charged under subsection (d) at the time the document or ticket is issued; and

"(B) identify on that document or ticket the fee charged under subsection (d) as a Federal inspection fee.

"(2) if—

"(A) a document or ticket for transportation of a passenger into the United States is issued in a foreign country; and

"(B) the fee charged under subsection (d) is not collected at the time such document or ticket is issued;

the person providing transportation to such passenger shall collect such fee at the time such passenger departs from the United States and shall provide such passenger a receipt for the payment of such fee.

"(3) The person who collects fees under paragraph (1) or (2) shall remit those fees to the Attorney General at any time before the date that is thirty-one days after the close of the calendar quarter in which the fees are collected. Regulations issued by the Attorney General under this subsection with respect to the collection of the fees charged under subsection (d) and the remittance of such fees to the Treasury of the United States shall be consistent with the regulations issued by the Secretary of the Treasury for the collection and remittance of the taxes imposed by subchapter C of chapter 33 of the Internal Revenue Code of 1954, but only to the extent the regulations issued with respect to such taxes do not conflict with the provisions of this section.

"(g) PROVISION OF IMMIGRATION INSPECTION AND PREINSPECTION SERVICES.—Notwithstanding section 1353(a) of this title, or any other provision of law, the immigration services required to be provided to passengers upon arrival in the United States on scheduled airline flights shall be adequately provided when needed and at no cost (other than the fees imposed under subsection (d)) to airlines and airline passengers at:

"(1) immigration serviced airports, and

"(2) places located outside of the United States at which an immigration officer is stationed for the purpose of providing such immigration services.

"(h) DISPOSITION OF RECEIPTS.—(1)(A) All of the fees collected under subsection (d) shall be deposited in a separate account within the general fund of the Treasury of the United States. Such account shall be known as the 'Immigration User Fee Account.' At the end of each 2-year period, beginning with the creation of this account, the Attorney General, following a public rulemaking with opportunity for notice and comment, shall submit a report to the Congress concerning the status of the account, including any balances therein, and recommend any adjustment in the prescribed fee that may be required to ensure that the receipts collected from the fee charged for the succeeding two years equal, as closely as possible, the cost of providing these services.

"(B) Notwithstanding any other provisions of law, all fines, penalties, liquidated damages or expenses collected pursuant to sections 271 and 273 of this title shall be deposited in the 'Immigration User Fee Account.'

"(2)(A) The Secretary of the Treasury shall refund out of the Immigration User Fee Account to any appropriation the amount paid out of such appropriation for expenses incurred by the Attorney General

in providing immigration inspection and preinspection services for commercial aircraft or vessels and:

“(i) providing overtime immigration inspection services for commercial aircraft or vessels;

“(ii) administration of debt recovery, including the establishment and operation of a national collections office;

“(iii) expansion, operation and maintenance of information systems for nonimmigrant control and debt collection;

“(iv) detection of fraudulent documents used by passengers traveling to the United States;

“(v) providing detention and deportation services for excludable aliens arriving on commercial aircraft and vessels.

“(B) The amounts which are required to be refunded under subparagraph (A) shall be refunded at least quarterly on the basis of estimates made by the Attorney General of the expenses referred to in subparagraph (A). Proper adjustments shall be made in the amounts subsequently refunded under subparagraph (A) to the extent prior estimates were in excess of, or less than, the amount required to be refunded under subparagraph (A).

“(i) Notwithstanding any other provision of law, the Attorney General is authorized to receive reimbursement from the owner, operator, or agent of a private or commercial aircraft or vessel, or from any airport or seaport authority for expenses incurred by the Attorney General in providing immigration inspection services which are rendered at the request of such person or authority (including the salary and expenses of individuals employed by the Attorney General to provide such immigration inspection services). The Attorney General's authority to receive such reimbursement shall terminate immediately upon the provision for such services by appropriation.

“(j) REGULATIONS.—The Attorney General may prescribe such rules and regulations as may be necessary to carry out the provisions of this section.

“(k) ADVISORY COMMITTEE.—In accordance with the provisions of the Federal Advisory Committee Act, the Attorney General shall establish an advisory committee, whose membership shall consist of representatives from the airline and other transportation industries who may be subject to any fee or charge authorized by law or proposed by the Immigration and Naturalization Service for the purpose of covering expenses incurred by the Immigration and Naturalization Service. The advisory committee shall meet on a periodic basis and shall advise the Attorney General on issues related to the performance of the inspectional services of the Immigration and Naturalization Service. This advice shall include, but not be limited to, such issues as the time periods during which such services should be performed, the proper number and deployment of inspection officers, the level of fees, and the appropriateness of any proposed fee. The Attorney General shall give substantial consideration to the views of the advisory committee in the exercise of his duties.

“(l) EFFECTIVE DATES.—(1) The provisions of this section and the amendments made by this section, shall apply with respect to immigration inspection services rendered after November 30, 1986.

“(2) Fees may be charged under subsection (d) only with respect to immigration inspection services rendered in regard to arriving passengers using transportation for which documents or tickets were issued after November 30, 1986.”]

[SEC. 206. Section 232 (8 U.S.C. 1222) is amended by striking “on board the vessel or at the airport” and all that follows through “as circumstances may require or justify,” and inserting in lieu thereof “by the Attorney General”, and section 233 (8 U.S.C. 1223) is repealed.]

[SEC. 207. Section 1203 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796(b)) is amended—

(1) in subsection (3) by striking the semicolon at the end thereof and inserting in lieu thereof “and an officially recognized or designated public employee member of a rescue squad or ambulance crew who was responding to a fire, rescue or police emergency;” and

(2) in subsection (7) by striking all after the words “law enforcement officer” and inserting “, a firefighter, or rescue squad or ambulance crew”]

[SEC. 208. (a) None of the funds appropriated or otherwise made available in this title may be available for the performance of any pre-inspection activities by the Immigration and Naturalization Service (1) at Shannon International Airport in Ireland or (2) at Gander Airport in Newfoundland.

(b) The General Accounting Office shall conduct a comprehensive analysis of the trial pre-inspection program conducted by the Immigration and Naturalization Service at Shannon International Airport from July 1, 1986 to October 31, 1986, and shall issue a report to Congress by April 30, 1987. The report shall include an evaluation of the economic impact on American airports and of whether pre-inspection is a cost-effective means of facilitating international air travel and enhancing law enforcement.]

[SEC. 209. None of the funds appropriated by this title shall be available to pay for an abortion, except where the life of the mother would be endangered if the fetus were carried to term or in the case of rape: *Provided*, That should this prohibition be declared unconstitutional by a court of competent jurisdiction, this section shall be null and void.]

[SEC. 210. The Director of the Federal Bureau of Investigation and the Administrator of the Drug Enforcement Administration shall not establish and collect fees to provide training to State and local law enforcement officers at the FBI National Academy. Any fees collected for training of State and local law enforcement officers, which occurred at the National Academy on or after October 1, 1986, shall be reimbursed to the appropriate official or agency. In addition, the Director of the National Institute of Corrections shall not establish and collect fees to provide training to State and local officers which was not provided on a reimbursable basis prior to October 1, 1986.] (*Department of Justice Appropriation Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(b).*)

NOTES

Includes \$445 thousand in 1988 for activities previously financed from the Department of Health and Human Services, work incentives. Comparable amounts for 1986 (\$3,038 thousand) and 1987 (\$2,892 thousand) are excluded above.
Excludes \$98 thousand in 1988 for activities financed by Bureau of Labor Statistics. Comparable amounts for 1986 (\$93 thousand) and 1987 (\$95 thousand) are included above.

Job training programs.—Provides leadership, policy direction, and administration for a decentralized system of block grants to States for job training, the summer youth training and employment program, and the dislocated worker program; the Job Corps; and services to special target groups. The request includes staff levels related to a new AFDC youth program.

Employment security.—Provides policy direction and management for the administration of the nationwide public employment service system and the unemployment insurance services in each State; for the settlement of trade adjustment petitions; and for a system of collecting and analyzing labor market information.

Financial and administrative management.—Provides for the formulation and execution of the budget, fiscal accounting and management, audit control, debt collec-

tion, internal control, contracting services, statistical and data processing management systems, personnel direction, facilities and space management, and contractor and grantee property management.

Executive direction and administration.—Provides general management and administrative functions, including: research and evaluation, performance standards, and publications development.

Regional operations.—Provides for administration and management of ETA programs in the regions. The 1988 request reflects a reduction in staff levels related to the continued implementation of the redefined regional staff role from compliance and oversight responsibilities to policy leadership and advocacy.

Apprenticeship services.—Promotes apprenticeship as a method of skill acquisition across a broad range of occupations and industries through a Federal-State apprenticeship administrative structure.

This account provides for a flexible and decentralized system of Federal and local programs of training and other services for economically disadvantaged persons designed to lead to permanent gains in employment. Such programs are currently authorized by the Job Training Partnership Act (JTPA). The account is forward funded on a July to June cycle.

Grants to States.—Includes block grants to provide financial assistance to States and territories to design and operate training programs to meet their training and employment needs and grants to operate a summer youth employment and training program. Seventy percent of the JTPA block grant funding will be used for training, including remedial education and basic skills, institutional training, and on-the-job training. A 1987 rescission is proposed for this activity to return the funding levels for the block grant and summer youth employment programs to approximately the 1986 levels and to reduce the dislocated worker assistance program to \$25 million. Legislation is being proposed which will amend title II of JTPA to provide a grant program of assistance to AFDC youth. In addition, legislation will be proposed to replace the current JTPA and Trade Act dislocated worker programs with a new worker adjustment assistance program to meet the training needs of all dislocated workers.

Federally administered programs.—Provides program support for Job Training Partnership Act activities and training assistance through nationally administered programs for special segments of the population that have particular disadvantages in the labor market. Among groups to be served are Indians and other native Americans, migrant and seasonal farmworkers, and veterans. The National Longitudinal Survey formerly financed from this activity will be transferred to the Bureau of Labor Statistics in 1988. Also included is the Job Corps which is a national network of residential centers designed to provide training in literacy, arithmetic, and vocational skills for youth aged 14-21 who have severe educational and economic disadvantages. The current Job Corps slot level of 40,544 will be maintained by the request, which includes savings resulting from the competitive pricing of centers now operated by the Departments of Agriculture and Interior and from the closing of inefficient, costly centers.

Legislation is proposed to amend title II of the Job Training Partnership Act (JTPA) replacing the current summer youth employment and training program with a program allowing local areas to provide a variety of services. These services may include year-round training for youth between the ages of 14 and 21 in families receiving AFDC benefits as well as continuation of subsidized summer jobs for economically disadvantaged youth. The mix of services provided under this new authority will be determined by local areas based on their needs and priorities. Legislation is also proposed to create a new worker adjustment assistance program to meet the training and employment needs of all dislocated workers regardless of the reason for unemployment. This new program will provide an increased level of assistance by replacing the current fragmented approach of training, job search and cash benefits with one comprehensive program for helping workers adjust to changes in their jobs and move quickly on to new careers.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

To carry out the activities for national grants or contracts with public agencies and public or private nonprofit organizations under paragraph (1)(A) of section 506(a) of title V of the Older Americans Act of 1965, as amended, \$254,280,000.

To carry out the activities for grants to States under paragraph (3) of section 506(a) of title V of the Older Americans Act of 1965, as amended, \$71,720,000. (Additional authorizing legislation to be proposed.)

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1987.

This program provides part-time work experience in community service activities to unemployed, low-income persons aged 55 and over and is forward funded on a July to June cycle. Approximately 63,800 job opportunities will be provided through June 30, 1989. Legislation is required to authorize appropriations for this program beyond 1987.

FEDERAL UNEMPLOYMENT BENEFITS AND ALLOWANCES

For payments during the current fiscal year of benefits and payments as authorized by title II of Public Law 95-250, as amended, and of trade adjustment benefit payments and allowances, as provided by law (part I, subchapter B, chapter 2, title II of the Trade Act of 1974, as amended), **[\$118,000,000] \$141,000,000**, together with such amounts as may be necessary to be charged to the subsequent appropriation for payments for any period subsequent to September 15 of the current year: *Provided*, That amounts received or recovered pursuant to section 208(e) of Public Law 95-250 shall be available for payments.

Trade adjustment assistance.—Adjustment assistance allowances are paid to workers as authorized by the Trade Act of 1974, as amended. Advances from the advances to the unemployment trust fund and other fund account will be made as necessary to cover the additional cost of this activity in 1987. Legislation is being proposed which will replace the current trade adjustment assistance program with a new worker adjustment assistance program.

Unemployment assistance and payments under other Federal unemployment programs.—Benefits are paid to workers under Public Law 95-250, which expanded the Redwood National Park. Reimbursements from the Federal Emergency Management Agency provide Federal disaster unemployment assistance.

This reduction reflects proposed legislation to replace the Trade Adjustment Assistance (TAA) program with a more comprehensive worker adjustment assistance program. Funds appropriated for this account are used to pay benefits to eligible workers under the Trade Act. Upon passage of the proposed legislation the only workers who will be eligible to receive benefits during 1988 will be those who were collecting benefits during the last week of 1987.

Note.—State integrity and contingency obligations for 1986 are included in State operations.

Unemployment compensation.—State operations amounts provide administrative grants to State agencies which pay unemployment compensation to eligible workers and collect State unemployment taxes from employers. These agencies also pay unemployment benefits to former Federal personnel as well as trade adjustment assistance to eligible individuals. Grants are also provided to upgrade State automated systems for benefit payments and collection of taxes. State integrity activities provide administrative grants to State agencies to improve the integrity and financial stability of the unemployment compensation program through a quality control program and related activities designed to assess and reduce errors and prevent fraud, waste, and abuse in the payment of unemployment compensation benefits and the collection of unemployment taxes. National activities relating to the Federal-State unemployment insurance programs are conducted through contracts or agreements with the State agencies. Contingency funds are available only to meet increases in the costs of administration resulting from changes in State law, increases in the number of claims filed and claims paid, or increased salary costs caused by changes in State compensation plans and to provide for amortization payments for States which had independent retirement plans prior to 1980 in their State employment service agencies.

A proposal to decentralize much of the authority, financing, and responsibility for administering State unemployment insurance will be put forward shortly. This proposal will not affect the 1988 budget estimates.

Employment service.—The public employment service is a nationwide system providing no-fee employment services to individuals who are seeking employment and employers who are seeking workers. State employment service activities are financed by allotment to States distributed under a demographically based funding formula established under the Wagner-Peyser Act, as amended. Employment service allotments are funded on a program year basis running from July 1 through June 30 of the following year.

Employment service activities serving national needs including interstate job listings, and labor certification of aliens are conducted through specific reimbursable

This account provides advances to several other accounts for the purpose of paying unemployment compensation to eligible individuals under various Federal and State unemployment compensation laws whenever the balances in the funds prove insufficient. Advances made to the Federal employees compensation account in the Unemployment trust fund, and advances made to the Federal unemployment benefits and allowances appropriation account are nonrepayable. All other advances made to the Federal unemployment account and to the Extended unemployment compensation account (both in the Unemployment trust fund) are repaid, without interest, to the general fund of the Treasury.

This account also provides advances, which are repayable with interest, to the Black Lung Disability Trust Fund for making payments from that fund whenever its balances prove insufficient.

The financial transactions of the Federal-State and railroad unemployment insurance systems are made through the Unemployment Trust Fund. All State and Federal unemployment tax receipts are deposited in the trust fund and invested in Government securities until needed for benefit payments or administrative costs. States may receive repayable advances from the fund when their balances in the fund are insufficient to pay benefits. The fund may receive repayable advances from the general fund when it has insufficient balances to make advances to States or to pay the Federal share of extended benefits.

State payroll taxes pay for all regular State benefits. During periods of high State unemployment, extended benefits, financed one-half by State payroll taxes and one-half by the Federal unemployment payroll tax, are also paid. The Federal tax pays the costs of Federal and State administration of unemployment insurance and veterans employment services and 97% of the costs of the employment service.

The Federal employees compensation account provides funds to States for unemployment compensation benefits paid to eligible former Federal civilian personnel, Postal Service employees, and ex-servicemembers. Benefits paid are reimbursed to the Federal Employees Compensation account by the various Federal agencies. Any additional resources necessary to assure that the account can make the required payments to States will be provided from the Advances to the Unemployment Trust Fund and Other funds account.

Both the benefit payments and administrative expenses of the separate unemployment insurance program for railroad employees are paid from the unemployment trust fund and receipts from the tax on railroad payrolls are deposited in the fund to meet expenses.

This proposal would extend coverage under the Federal-State unemployment insurance program to railroad employees. Under a special Federal transitional program, railroad workers who become unemployed after September 30, 1987, would have their claims processed by State unemployment insurance agencies and receive the same benefits as comparable nonrailroad employees in their State. Benefit amounts would be reimbursed to the State agency by the employing railroad. Following enactment of necessary State legislation, the transition program would conclude, and rail employees and employers would be treated like all other private sector employees and employers.

This wholly owned government corporation administers programs of mandatory insurance to prevent loss of pension benefits under covered private, defined-benefit pension plans if single-employer plans terminate or if multiemployer plans are unable to pay benefits. Terminated plans are taken over by the Corporation. The Corporation assumes control of their assets, administers them in a trust fund held in a private bank, and takes responsibility for paying benefits. The Corporation also provides repayable assistance to insolvent multiemployer plans when necessary to pay benefits and to forestall termination and subsequent Corporation responsibility to pay benefits.

Administration.—Provides case processing, benefits administration, resource management, legal support, executive direction and other support functions.

Benefit payments.—Checks are issued when due to pay status participants and other beneficiaries in plans which have terminated.

Checks issued.....	620,063	1,063,900	1,555,900

Financial assistance.—If multiemployer-sponsored plans become insolvent the Corporation gives repayable loans to enable the plans to continue paying benefits. Financial assistance to an insolvent plan is made only after the plan takes a series of prescribed steps to place the plan on a sound financial basis.

Financing.—Sources of financing are per capita annual premiums from ongoing covered plans, assets from terminated plans, investment income, and amounts due the Corporation from the sponsors of terminating plans. Also, the Corporation is authorized to borrow up to \$100 million from the U.S. Treasury. Terminations of single employer plans have exceeded expectations. The budget proposes enactment of legisla-

tion that will permit the Corporation to charge higher premiums to those employers who do not adequately fund their pension promises.

Operating results.—The following tables show the status of the Corporation's trust funds and the Corporation's operating results.

Enforcement of wage and hour standards.—The Wage and Hour Division works to obtain compliance with the minimum wage, overtime, child labor, and other employment standards under the Fair Labor Standards Act, Migrant and Seasonal Agricultural Worker Protection Act, and the wage garnishment provisions in title III of the Consumer Credit Protection Act. Prevailing wages are determined and employment standards enforced under various Government contract wage standards. In 1988, approximately 409,500 persons are expected to be aided under the Fair Labor Standards Act, through assessing employers for underpayments and securing agreements to pay the workers. Through the special minimum wage program, 455,000 persons will be aided by certificates issued and employment authorized. In Government contract compliance actions, over 48,300 persons will be aided through assessing employers for underpayments and securing agreements to pay the workers. Under the Migrant and Seasonal Agricultural Worker Protection Act program, approximately 146,000 persons will be aided through enforcement of employment standards for migrant and seasonal agricultural workers.

Federal contractor EEO standards enforcement.—The Office of Federal Contract Compliance Programs (OFCCP) works to ensure nondiscrimination in employment on Federal contracts. It is responsible for conducting compliance activities to assure that Federal contractors take affirmative action in the hiring and promotion of minorities and women under the authority of Executive Orders 11246 and 11375. Administration of affirmative action provisions of the Rehabilitation Act of 1973,

relating to the hiring and promotion of physically and mentally handicapped individuals, is included in this activity. Also included is the administration of the Vietnam Era Veterans Readjustment Assistance Act providing for affirmative action by Federal contractors to employ and advance in employment disabled veterans and veterans of the Vietnam era. In 1988, about 5,475 compliance reviews, 1,015 complaint investigations, and 5,640 other compliance actions will be conducted with respect to contractor employment practices.

Federal programs for workers' compensation.—Under this income maintenance activity the Employment Standards Administration administers the Federal Employees' Compensation Act, the Longshore and Harbor Workers' Compensation Act, and the benefit provisions of the Federal Mine Safety and Health Act of 1977. These programs insure that eligible disabled and injured workers or their survivors receive compensation and medical benefits and a range of services including rehabilitation, supervision of medical care, and technical and advisory counseling to which they are entitled. Technical assistance is provided to the States to upgrade their workers' compensation laws.

Executive direction and support services.—This activity includes planning, personnel management, financial management, research and Federal/State liaison programs, management systems implementation, and data processing operations. Major goals in 1988 will include implementing financial management initiatives; continued efforts to eliminate internal fraud, waste, and mismanagement; the improvement of management information, automated data processing, and program and fiscal accountability; and legislative and regulatory improvements.

Federal Employees' Compensation Act benefits.—Currently, approximately 49,500 claimants are receiving long-term compensation benefits for job-related injuries, diseases, or deaths, as specified in the Federal Employees' Compensation Act (FECA) and its extensions. Pertinent medical bills are paid for compensable injuries. Compensation benefits are paid when the injury causes loss of job time. Workers suffering noncontroverted, traumatic injuries continue in full pay status for a period not to exceed 45 days, paid by the employing agency rather than through this account. All medical

costs associated with these continuation-of-pay claims are examined and paid by the FECA program. In addition, the FECA program is responsible for claims extending beyond 45 days, all nontraumatic injuries and controverted claims, medical costs associated with the above, and the review of the agency-paid continuation-of-pay claims. Costs to this account are subsequently charged back to the employing agency.

Longshore and harbor workers' compensation benefits.—Under the Longshore and Harbor Workers' Compensation Act, as amended, the Federal Government pays from direct appropriations one-half of the increased benefits provided by the amendments for persons on the rolls prior to 1972. The remainder is provided from the special fund which is financed by private employers assessed at the beginning of each calendar year for their proportionate share of these payments.

The trust fund consists of all moneys collected from the coal mine industry under the provisions of the Black Lung Benefits Revenue Act of 1981, as amended by the Consolidated Omnibus Budget Reconciliation Act of 1985, in the form of an excise tax on mined coal tonnage. These moneys are expended to pay compensation, medical, and survivor benefits to eligible miners and their survivors, where mine employment terminated prior to 1970 or where no mine operator can be assigned liability. In addition the fund pays all administrative costs incurred in the operation of the black lung program. The fund is administered jointly by the Secretaries of Labor, the Treasury, and Health and Human

Services. The Benefits Revenue Act provides for repayable advances to the fund in the event fund resources will not be adequate to meet program obligations. Such advances are to be repaid with interest. Advances outstanding at the end of the year are: 1981, \$1,510 million; 1982, \$1,793 million; 1983, \$2,151 million; 1984, \$2,497 million; 1985, \$2,833 million; 1986, \$2,884 million and 1987, \$2,918 million; and 1988, \$2,909 million.

The trust funds consist of amounts received from employers for the death of an employee where no person is

entitled to compensation for such death, for fines and penalty payments, and pursuant to an annual assessment of the industry, for the general expenses of the fund under the Longshore and Harbor Workers' Compensation Act, as amended.

These trust funds are available for payments of additional compensation for second injuries. When a second injury, when combined with a previous disability, results in increased permanent partial disability, permanent total disability, or death, the employer provides compensation only for the disability caused by the subsequent injury; compensation to supplement the employer's payment is provided from this fund. In addition, the fund pays one-half of the increased benefits provided under the Longshore and Harbor Workers' Compensation Act, as amended, for persons on the rolls prior to 1972. Maintenance payments are made to disabled employees undergoing vocational rehabilitation to enable them to return to remunerative occupations, and the costs of necessary rehabilitation services not otherwise available to disabled workers are defrayed. Payments are made in cases where other circumstances preclude payment by an employer and to provide medical, surgical, and other treatment in disability cases where there has been a default by the insolvency of an uninsured employer.

fishery: *Provided further*, That no funds appropriated under this paragraph shall be obligated or expended to administer or enforce any standard, rule, regulation, or order under the Occupational Safety and Health Act of 1970 with respect to any employer of ten or fewer employees who is included within a category having an occupational injury lost work day case rate, at the most precise Standard Industrial Classification Code for which such data are published, less than the national average rate as such rates are most recently published by the Secretary, acting through the Bureau of Labor Statistics, in accordance with section 24 of that Act (29 U.S.C. 673), except—

(1) to provide, as authorized by such Act, consultation, technical assistance, educational and training services, and to conduct surveys and studies;

(2) to conduct an inspection or investigation in response to an employee complaint, to issue a citation for violations found during such inspection, and to assess a penalty for violations which are not corrected within a reasonable abatement period and for any willful violations found;

(3) to take any action authorized by such Act with respect to imminent dangers;

(4) to take any action authorized by such Act with respect to health hazards;

(5) to take any action authorized by such Act with respect to a report of an employment accident which is fatal to one or more employees or which results in hospitalization of five or more employees, and to take any action pursuant to such investigation authorized by such Act; and

(6) to take any action authorized by such Act with respect to complaints of discrimination against employees for exercising rights under such Act:

Provided further, That the foregoing proviso shall not apply to any person who is engaged in a farming operation which does not maintain a temporary labor camp and employs ten or fewer employees:]

Provided further, That none of the funds appropriated under this paragraph shall be obligated or expended for the proposal or assessment of any civil penalties for the violation or alleged violation by an employer of ten or fewer employees of any standard, rule, regulation, or order promulgated under the Occupational Safety and Health Act of 1970 (other than serious, willful or repeated violations and violations which pose imminent danger under section 13 of the Act) if, prior to the inspection which gives rise to the alleged violation, the employer cited has (1) voluntarily requested consultation under a program operated pursuant to section 7(c)(1) or section 18 of the Occupational Safety and Health Act of 1970 or from a private consultative source approved by the Administration and (2) had the consultant examine the condition cited and (3) made or is in the process of making a reasonable good faith effort to eliminate the hazard created by the condition cited as such, which was identified by the aforementioned consultant, unless changing circumstances or workplace conditions render inapplicable the advice obtained from such consultants

[: *Provided further*, That none of the funds appropriated under this paragraph may be obligated or expended for any State plan monitoring visit by the Secretary of Labor under section 18 of the Occupational Safety and Health Act of 1970, of any factory, plant, establishment, construction site, or other area, workplace or environment where such a workplace or environment has been inspected by an employee of a State acting pursuant to section 18 of such Act within the six months preceding such inspection: *Provided further*, That this limitation does not prohibit the Secretary of Labor from conducting such monitoring visit at the time and place of an inspection by an employee of a State acting pursuant to section 18 of such Act, or in order to investigate a complaint about State program administration including a failure to respond to a worker complaint regarding a violation of such Act, or in order to investigate a discrimination complaint under section 11(c) of such Act, or as part of a special study monitoring program, or to investigate a fatality or catastrophe: *Provided further*, That none of the funds appropriated under this paragraph may be obligated or expended for the inspection, investigation, or enforcement of any activity occurring on the Outer Continental Shelf which exceeds the authority granted to the Occupational Safety and Health Administration by any provision of the Outer Continental Shelf Lands Act, or the Outer Continental Shelf Lands Act Amendments of 1978]. Safety and health standards.—New and revised standards are proposed and promulgated to protect the safety and health of workers. All new standards, except emergency temporary standards, are promulgated under procedures providing opportunity for public comment. Before any standard is proposed or promulgated, a determination is made that: (1) a significant risk of serious employee injury or health impairment exists; (2) the standard will reduce this risk; (3) the standard is economically and technologically sound; and (4) the standard is cost-effective when compared with alternative regulatory proposals providing equal levels of protection.

Enforcement.—The Occupational Safety and Health Act of 1970 provides for enforcement of Federal standards in States declining to assert jurisdiction and for grants to assist States in administering and enforcing State standards. Compliance with occupational safety and health standards is gained in part by the physical inspection of plants and facilities and by encouraging the voluntary protection efforts of employers and employees. Programs are targeted to the investigation of claims of imminent danger and employee complaints, the investigation of fatal and catastrophic accidents, programmed inspections of firms with injury-illness rates that are above the national average, and special emphasis inspections for serious health and safety hazards.

Technical support.—Technical assistance is provided on all aspects of standards setting, variances, compliance assistance, and enforcement programs. Laboratory support is provided to compliance officers. Comprehensive scientific and technical information services are

made available. The economic and environmental impacts of proposed standards are analyzed.

Compliance assistance.—This activity contributes to the balanced use of the authority provided by the Act through a variety of employer and employee assistance activities. Under cooperative agreements, State agencies are reimbursed for 90 percent of the costs of providing free onsite consultation to employers upon request. Grants are awarded to assist organizations to develop their capacity to provide occupational safety and health training for workers and employers. Employers are encouraged to establish voluntary labor-management and self-inspection protection programs. This activity also provides leadership and assists agencies in implementing job safety and health programs to protect Federal workers. Professional training for compliance personnel and others with related workplace safety and health responsibilities is conducted at the OSHA Training Institute.

Safety and health statistics.—Statistics on occupational fatalities, injuries, and illnesses are collected directly or through grants to States and published annually to aid in the identification of occupational safety and health problems and to facilitate administration.

Executive direction and administration.—These activities include executive direction, planning and evaluation, management support, legislative liaison, inter-agency affairs, and administrative services.

all inspections specified in the Act of mines expected to be operating throughout 1987 and 1988. In addition to these regular health and safety inspections the program statistics below include additional inspections and investigations that are conducted as needed to ensure the safety and health of miners.

Assessments.—This activity assesses civil monetary penalties for violations of safety and health standards.

Educational policy and development.—This activity develops and coordinates MSHA's mine safety and health education and training policies and provides classroom instruction at the National Academy for MSHA personnel, other Government personnel, and the mining industry. States are encouraged to develop training programs through grants and technical assistance.

Technical support.—This activity provides technical services and advice to field managers, mine inspectors, State program employees, and industry management to assist enforcement or improve mining practices. It also collects and analyzes data relative to the cause, frequency, and circumstances of accidents.

Program administration.—This activity provides for general administrative functions and collection of civil monetary penalties.

Executive direction.—Provides policy direction for all programs and functions assigned to the Department. Provides guidance for the development and implementation of governmental policy to protect and promote the interests of the American worker—toward achieving better employment and earnings, promotion of labor standards, safeguarding of pension rights, promotion of affirmative action in employment, and collection and analysis of statistics on the labor force.

Legal services.—Includes enforcement of Federal labor statutes and legal advisory, legislative, and litigation services related to the statutes administered by the Department.

International labor affairs.—Integrates all international labor programs and foreign economic policy within the Department; gives Departmental guidance to the U.S. participation in international organizations concerned with labor and employment and training problems; and provides for labor and employment and training technical services to other Government and international agencies.

Administration and management.—Exercises leadership in all DOL administration and management programs and services. Provides policy guidance on matters of budget and resource and personnel management. Provides for consistent and constructive internal labor-management relations throughout the Department.

Adjudication.—Conducts formal hearings and renders timely decisions on claims filed under (a) the Longshore and Harbor Workers' Compensation Act and its extensions, (b) the Black Lung Benefits Reform Act of 1977,

(c) the Federal Employees' Compensation Act, and (d) other acts involving health and safety regulations, unfair labor practices, and other labor-related areas.

Promoting employment of the handicapped.—The President's Committee on Employment of the Handicapped seeks to identify and eliminate barriers standing in the way of full social and vocational opportunities for physically and mentally handicapped persons.

Women's bureau.—Promotes the welfare and seeks to improve the economic status of working women; seeks to increase the utilization of women in the Nation's economy; and encourages the advancement of women workers.

Civil rights.—Ensures full compliance with title VI of the Civil Rights Act of 1964 and other regulatory non-discrimination provisions in programs receiving financial assistance from the Department of Labor and promotes equal opportunity in these programs and activities. Ensures equal employment opportunity to all DOL employees and applicants for employment.

State administration.—The Disabled Veterans Outreach Program (DVOP) provides intensive employability development services to secure permanent employment for veterans with service-connected disabilities and the most disadvantaged Vietnam-era veterans. Local Veterans Employment Representatives (LVER's) provide job development, placement, and supportive services directly to veterans and act as functional supervisors of the services provided veterans by other local office staff to ensure compliance with the performance standards for services to veterans.

Administration.—Identifies policies and programs to serve and meet employment and training needs of veterans. Assures the adequacy of counseling, testing, job training, and job placement services for veterans through monitoring, evaluating, and providing technical assistance and training to the delivery systems providing these services. Provides information and processes complaints to help veterans, reservists, and members of the National Guard obtain employment rights provided by law.

ALLOCATIONS RECEIVED FROM OTHER ACCOUNTS

Note.—Obligations incurred under allocations from other accounts are included in the schedules of the parent appropriations as follows:
U.S. Information Agency, "Salaries and expenses."

GENERAL PROVISIONS

SEC. 101. Appropriations in this Act available for salaries and expenses shall be available for supplies, services, and rental of conference space within the District of Columbia, as the Secretary of Labor shall deem necessary for settlement of labor-management disputes.

SEC. 102. None of the funds appropriated under this Act shall be used to grant variances, interim orders or letters of clarification to employers which will allow exposure of workers to chemicals or other workplace hazards in excess of existing Occupational Safety and Health Administration standards for the purpose of conducting experiments on workers health or safety.

[SEC. 103. None of the funds appropriated in this Act shall be obligated or expended for the purpose of closing any Job Corps Center operating under part B of title IV of the Job Training Partnership Act prior to January 1, 1988.]

[SEC. 104. Notwithstanding any other provision of this Act, no funds appropriated by this Act may be used to execute or carry out any contract with a non-governmental entity to administer or manage a Civilian Conservation Center of the Job Corps which was not under such a contract as of September 1, 1984.]

TITLE V—GENERAL PROVISIONS

SEC. 501. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 502. No part of any appropriation contained in this Act shall be expended by any executive agency, as referred to in the Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.), pursuant to any obligation for services by contract, unless such executive agency has awarded and entered into such contract in full compliance with such Act and regulations promulgated thereunder.

SEC. 503. Appropriations contained in this Act, available for salaries and expenses, shall be available for services as authorized by 5 U.S.C. 3109 but at rates for individuals not to exceed the per diem rate equivalent to the rate for GS-18.

SEC. 504. Appropriations contained in this Act, available for salaries and expenses, shall be available for uniforms or allowances therefor as authorized by law (5 U.S.C. 5901-5902).

SEC. 505. Appropriations contained in this Act, available for salaries and expenses, shall be available for expenses of attendance at meetings which are concerned with the functions or activities for which

the appropriation is made or which will contribute to improved conduct, supervision, or management of those functions or activities.

SEC. 506. No part of the funds appropriated under this Act shall be used to provide a loan, guarantee of a loan, a grant, the salary of or any remuneration whatever to any individual applying for admission, attending, employed by, teaching at, or doing research at an institution of higher education who has engaged in conduct on or after August 1, 1969, which involves the use of (or the assistance to others in the use of) force or the threat of force or the seizure of property under the control of an institution of higher education, to require or prevent the availability of certain curricula, or to prevent the faculty, administrative officials, or students in such institution from engaging in their duties or pursuing their studies at such institution.

SEC. 507. The Secretaries of Labor, Health and Human Services, and Education are authorized to transfer unexpended balances of prior appropriations to accounts corresponding to current appropriations provided in this Act: *Provided*, That such transferred balances are used for the same purpose, and for the same periods of time, for which they were originally appropriated.

SEC. 508. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 509. No part of any appropriation contained in this Act shall be used, other than for normal and recognized executive-legislative relationships, for publicity or propaganda purposes, for the preparation, distribution, or use of any kit, pamphlet, booklet, publication, radio, television, or film presentation designed to support or defeat legislation pending before the Congress, except in presentation to the Congress itself.

No part of any appropriation contained in this Act shall be used to pay the salary or expenses of any grant or contract recipient, or agent acting for such recipient, related to any activity designed to influence legislation or appropriations pending before the Congress.

SEC. 510. The Secretaries of Labor, Health and Human Services, and Education are each authorized to make available not to exceed \$7,500 from funds available for salaries and expenses under titles I, II, and III, respectively, for official reception and representation expenses; the Director of the Federal Mediation and Conciliation Service is authorized to make available for official reception and representation expenses not to exceed \$2,500 from the funds available for "Salaries and expenses, Federal Mediation and Conciliation Service"; and the Chairman of the National Mediation Board is authorized to make available for official reception and representation expenses not to exceed \$2,500 from funds available for "Salaries and expenses, National Mediation Board".

SEC. 511. None of the funds appropriated by this Act shall be used to pay for any research program or project or any program, project, or course which is of an experimental nature, or any other activity involving human participants, which is determined by the Secretary or a court of competent jurisdiction to present a danger to the physical, mental, or emotional well-being of a participant or subject of such program, project, or course, without the written, informed consent of each participant or subject, or a participant's parents or legal guardian, if such participant or subject is under eighteen years of age. The Secretary shall adopt appropriate regulations respecting this section.

[SEC. 512. None of the funds provided in this Act to any department or agency may be expended for the transportation of any officer or employee of such department or agency between his domicile and his place of employment, with the exception of the Secretaries of Labor, Health and Human Services, and Education, and medical officers and other health personnel on out-patient medical service who are exempted from such limitations under 31 U.S.C. 1344.]

[SEC. 513. Amounts available under this Act for carrying out the provisions of title II of the Education for Economic Security Act are hereby increased by \$36,934,000.]

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5233, Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1987.

The program described below is financed by this appropriation and by reimbursements from other agencies. Those agencies are provided with most of their administrative services overseas by the Department of State.

Executive direction and policy formulation.—This activity identifies resources which provide sound management through the direction of the Secretary and with the assistance of staff officers, specialized offices and the functional and regional bureaus, for policy formulation and in pursuit of regional and global foreign policy objectives.

Inspection and audits.—This function encompasses domestic and overseas inspections, audits and investigations. The 1986-87 Foreign Relations Authorization Act and the Omnibus Diplomatic Security and Anti-Terrorism Act of 1986 require the Department to establish an Inspector General (IG) under the Inspector General Act of 1978. The new IG is responsible for audits and investigations, and may perform inspections. The Office of Policy and Program Review will direct the Foreign Service Inspection Corps.

Conduct of diplomatic relations.—Resources for this activity include: the political and economic reporting and analysis of interests to the United States; the representation of U.S. diplomatic and national interests to countries abroad; and the bilateral and multilateral negotiation of our foreign policy objectives. These resources also fund the conduct of U.S. diplomatic policy through political and multilateral affairs, economic and social affairs, international budgetary and management affairs, and participation in various international organizations.

Conduct of consular relations.—Activities included are overseas and domestic visa and American citizen services. Visa services involve the issuance, denial, and adjudication of immigrant and non-immigrant visas;

General and special funds—Continued

SALARIES AND EXPENSES—Continued

refugee processing; and visa fraud detection and investigation. American citizen services include the issuance of passports, emergency assistance to American citizens abroad, and passport fraud detection and investigation.

Professional development and training.—The professional development and training activity is a continuous process by which the Department ensures that its professionals have the skills, experience and judgment to fulfill its functions at all levels. Training programs are designed to provide employees with the specific functional, area and language skills needed for the conduct of foreign relations both in the Department and abroad.

Communications systems.—Through this activity, worldwide telecommunications, pouch, mail, and classified information handling support is provided as required by the President, the Secretary of State, the Department and its 262 missions, and approximately 50 USG agencies within the Foreign Affairs community. In addition, resources provide primary and alternative communications centers, specialized communications services in support of the travel of the Secretary or other VIP's, major conferences and crisis situations; as well as providing for the plan, design, management operation and maintenance of all Department communications programs, facilities and systems as identified in Presidential, Congressional, National Security and Departmental mandates.

Security.—This activity identifies resources necessary in meeting security and counter-terrorism responsibilities, both foreign and domestic. Covered in this activity are: security operations; engineering services, which relate to the technical defense of Foreign Service personnel and establishments against electronics and physical attack; investigations, such as malfeasance and passport fraud; protection of dignitaries; and, physical security operations, including construction and renovation projects to combat attacks, assaults and technical penetrations made against U.S. facilities and personnel for all the foreign affairs agencies.

Information systems.—Included in this activity are general unclassified data and word processing support to the Department's Foreign Service posts through distributed minicomputer, microcomputer and office word processing systems. The activity supports the mission of the overseas posts in the areas of personnel, budget and fiscal management, non-immigrant and immigrant visa issuance, assistance to American citizens, representation fund accounting, visitor records, economic reporting activities, general services, and residential property management. In addition, other agencies, are supported by specific systems. The information systems activity includes funding for development, acquisition and expansion of major information systems for strategic planning and information processing, information handling systems, consular activities, personnel, financial systems and property management.

Medical.—This activity encompasses medical programs for the Department of State, the Foreign Service, and 35 other U.S. Government departments and agencies overseas. Services are provided in Washington as

well as at 262 missions worldwide and cover some 60,000 employees and dependents.

Administration and staff activities.—These activities include normal domestic and administrative services such as:

- The direction and control of all administration and management operations, representing and negotiating U.S. government administrative matters with foreign officials and reviewing and setting resource levels and priorities for the various programs and bureaus in the Department.
- The budgeting, financial planning and fiscal operations for the Department of State and most federal agencies resident abroad.
- The management, recruitment and performance evaluation of the Department's Foreign and Civil Service employees and Foreign Service National staff.
- The contracting and procurement of services and supplies, maintenance and repair of equipment and physical property, vehicle operation and shipping and customs services.
- Centralized funding for the payment of salaries and worldwide related benefits to full-time permanent employees.

Post Assignment Travel funds that provide for travel, transportation and related items in connection with assignment, transfer, and separation for the Department's American full-time permanent staff and their dependents are also included in this activity.

The current appropriation finances, by 30 equal annual installments, any unfunded liability created by new or liberalized benefits, new groups of beneficiaries, and salary increases. In addition, the current appropriation finances the annual balance of the Foreign Service normal cost not met by employee and employer contributions.

The permanent appropriation provides payments to the fund for the interest on the unfunded liability and disbursements attributable to military and naval services—a full 100 percent in each year.

These funds are used for payment of the United States' share of the expenses of 11 international fisheries commissions, one international sea council, and the expenses of the respective commissioners. The commissions either conduct or plan and coordinate studies to determine measures necessary for the preservation and expansion of the productivity of fishery stocks. In addition, the Great Lakes Fishery Commission carries on a program of lamprey eradication and control; and all the commissions are authorized to recommend conservation measures to the member governments. The sea council proposes and organizes fishery and oceanographic investigations and disseminates the results to the member governments. The recently established Pacific Salmon Commission has assumed the responsibilities of the terminated International Pacific Salmon Fisheries Commission.

GENERAL PROVISIONS—DEPARTMENT OF STATE

SEC. 301. Funds appropriated under this title shall be available, except as otherwise provided, for allowances and differentials as authorized by subchapters 59 of 5 U.S.C.; for services as authorized by 5 U.S.C. 3109; and hire of passenger or freight transportation.

SEC. 302. [The Secretary of State shall report to the appropriate Committees of the Congress on the obligation of funds provided for diplomatic security and related expenses every thirty days from the date of enactment of this Act.] Funds made available under this Act or any other Act for the employing agency contributions prescribed by the Civil Service Retirement System (5 U.S.C. ch. 83), the Foreign Service Retirement System (22 U.S.C. 4041 et seq.), and the Federal Employees' Retirement System Act of 1986 (Public Law 99-335), as amended, for any Executive agency, as defined in 31 U.S.C. 102, with direct pay costs in fiscal year 1988 of over \$25,000,000 shall be available only for such purpose. If the total amount obligated for fiscal year 1988 for such employing agency contributions is less than the estimate for such contributions reflected in the President's Budget, then the difference between the estimated and actual obligations shall not be available for obligation. (Department of State Appropriation Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(b).)

DEPARTMENT OF TRANSPORTATION

FEDERAL HIGHWAY ADMINISTRATION

Title 23 U.S.C. ("Highways") and other supporting legislation provide authority for the various programs of the Federal Highway Administration designed to improve highways throughout the Nation. Proposed legislation will provide authorizations from 1987 through 1990 in general, and make several significant changes to the Federal-aid highways program.

In summary, the 1988 budget contemplates \$13,473.1 million in budget authority and \$12,933.2 million in outlays. The following table compares 1988 program level (obligations) with those of prior years.

Note.—Excludes \$24,744 thousand in 1988 for activities transferred to Motor Carrier Safety (trust fund). Comparable amounts for 1986 (\$13,302 thousand) and 1987 (\$19,515 thousand) are included above.

The motor carrier safety mission is to reduce the risk of accidents in truck and bus highway transportation by regulation of motor carriers engaged in interstate commerce through safety management audits and roadside examinations. The program also seeks to simplify the Federal Motor Carrier Safety Regulations, increase regulatory compliance, and support commercial motor vehicle related safety research. It is proposed that the motor carrier safety program be financed from the Highway Trust Fund starting in 1988.

This program provides for congressionally-mandated projects in 18 cities. The 1987 appropriations act provided a total of \$11.75 million (\$3.9 million general funds and \$7.8 million trust funds) for this program. It is anticipated that these funds and unobligated balances will be obligated during 1987 and 1988. Trust fund amounts for railroad-highway crossings demonstration projects are included in the account, "Trust Fund Share of Other Highway Programs."

No additional appropriation is requested for this program.

【ACCESS HIGHWAYS TO PUBLIC RECREATION AREAS ON CERTAIN LAKES】

【Notwithstanding any other provision of law, there is appropriated \$5,000,000 for necessary expenses of certain access highway projects, as authorized by section 155, title 23, United States Code, to remain available until expended: *Provided*, That \$1,700,000 shall be made available for a project in Morton County, North Dakota and \$469,000 shall be made available for the Rice Lake Project in Ward County, North Dakota, which shall be considered eligible for funding.】

Grants are made available to States under the following programs for construction and improvements on the National System of Interstate and Defense Highways and for urban and rural transportation programs. To avoid the proliferation of programs exempt from routine funding controls, a Federal-aid highways obligation limitation of \$12.787 billion, covering all Federal-aid programs except emergency relief and minimum allocation is proposed.

The 1988 budget proposal for Federal-Aid Highways budget authority, obligations, and obligation limitation presumes repeal of existing tax exemptions for gasohol, public and private buses, and State and local government vehicles. Average annual budget authority for all highway programs would be equal to average annual net revenue from highway user fees for the reauthorization period. Without repeal of the tax exemptions, the proposed Federal-Aid Highways 1988 budget authority, obligations, and obligation limitation would be reduced by \$612 million.

Interstate construction.—Interstate construction funds are proposed to be incorporated into the Interstate/primary program in 1987. States will decide whether to use the funds for construction or preservation of the existing network. States can be expected to construct high priority Interstate segments, not yet built, especially gaps between major urbanized areas.

Interstate/Primary.—Preserves and continues the Nation's investment in the Interstate highway system through a program of construction, resurfacing, restoring, rehabilitation, and reconstruction. Also provides grants to States for highway construction, reconstruction and related planning for the primary highway system.

Interstate substitutions.—Provides grants to States and localities which withdraw previously approved Interstate segments and apply authorized funds to substitute highway or transit projects.

Secondary/Urban.—Provides grants to States for highway construction, rehabilitation, reconstruction, and related planning and research on the secondary and urban systems in rural and small urban areas. These programs will be replaced by the Block Grant program in 1987. Obligations from the previous secondary and urban authorizations will continue to be incurred in 1987.

Bridge program.—Provides grants to States to replace or rehabilitate bridges on the primary system with deficiencies that are hazardous to the safety of motorists. Funds for bridges off the primary system are included in the block grant.

Safety Construction programs.—Provides grants to States for safety improvements to the highway systems, including hazard elimination, pavement marking, and rail highway crossings.

Federal Lands Highways.—Provides funds for improvements on forest highways, park roads, Indian reservation roads and public lands highways. The Department of Transportation coordinates with the land managing agency in the planning studies and program development of public Federal lands highways.

Block Grant.—Beginning in 1987, provides grants to States for highway projects on any main public road not on the Interstate and Primary systems. This program is proposed to be authorized in lieu of the current secondary, urban, and nonprimary bridge programs.

Administration and research.—Provides for executive and general administrative and research expenses of Federal-aid highways. These funds are controlled by the limitation on general operating expenses.

Other.—Provides for emergency relief, minimum allocation, Federal lands, and other miscellaneous programs.

The improvements in the Federal-aid highway program highlighted above are designed to focus Federal involvement and funding generally on the programs of highest Federal interest (e.g., Interstate and primary), and to increase flexibility to the States to use Federal-aid program funds to address their particular needs and priorities.

This limitation provides for the salaries and expenses of the Federal Highway Administration. Resources are allocated from the following programs: Federal-aid highways, and highway-related safety grants.

Program direction and coordination.—Provides overall direction and coordination of the highway transportation program, including program review of agency operations; provides legal services for all programs; plans and directs public affairs programs; and develops and recommends policies and standards, and ensures compliance with the civil rights and equal opportunity procedures by the Federal Highway Administration and by recipients of grants-in-aid administered by the Federal Highway Administration.

General program support.—Formulates policy, multi-year and long-range plans and goals for highway programs, and data and analyses for current and long-range programming; conducts direct and contract research and development relating to traffic operations, new construction techniques, and the social and environmental aspects of highways; provides administrative support services for all elements of the Federal Highway Administration; and provides on-the-job training for employees of the Federal Highway Administration

and training opportunities for other highway-related personnel. As part of an Administration initiative to shift Federal activities to the private sector, it is proposed that operation of the Turner-Fairbank Highway Research Center be carried out by contract with a non-Federal entity. The budget also proposes to consolidate the activities of the Highway Safety Research and Development program within this account.

Highway programs.—Provides engineering guidance to Federal and State agencies and to foreign governments, and conducts a program to encourage use of modern traffic engineering procedures to increase the vehicle-carrying capacity of existing highways and urban streets; assists States, other Federal agencies, and certain foreign countries in right-of-way acquisition and develops procedures for highway location selection and consideration of environmental impacts; and finances construction skill training programs for disadvantaged workers hired by contractors on federally aided highway projects.

Field operations.—Provides staff advisory and support services in field offices of the Federal Highway Administration; and provides program and engineering supervision of the several highway programs through 9 regional and 52 division offices.

The Motor Carrier Safety Grant program, authorized by the 1982 Surface Transportation Assistance Act, provides grants to States to enforce Federal and compatible State standards applicable to commercial motor vehicle safety. States become eligible for funds by adopting Federal truck safety standards and maintaining minimum levels of program funding. Uniform safety standards both enhance the coordination of enforcement activities and simplify the safety requirements of interstate trucking parties.

Federal grants for enforcement of commercial motor vehicle safety standards may not be used to maintain efforts already undertaken by State governments. The purpose of the grant program is to raise the level of enforcement, not to substitute Federal for State and local dollars. Liquidating cash appropriations of \$35 million in 1987 and of \$50 million in 1988 are necessary for payment of program obligations.

MOTOR CARRIER SAFETY (HIGHWAY TRUST FUND)

For necessary expenses to carry out the motor carrier safety functions of the Secretary as authorized by the Department of Transportation Act (80 Stat. 939-940), \$24,744,000 to be derived from the Highway Trust Fund, of which \$2,400,000 shall remain available until expended. (Additional authorizing legislation to be proposed.)

Note.—Includes \$24,744 thousand in 1988 for activities previously funded from Motor Carrier Safety (general fund). Comparable amounts for 1986 (\$13,302 thousand) and for 1987 (\$19,515 thousand) are included elsewhere.

The motor carrier safety mission is to reduce the risk of accidents in truck and bus highway transportation by regulation of motor carriers engaged in interstate commerce through safety management audits and roadside examinations. The program also seeks to simplify the Federal Motor Carrier Safety Regulations, increase regulatory compliance and support commercial motor vehicle related safety research. By the end of 1987, the Department plans to double the number of motor carrier safety specialists and to focus their efforts on motor carrier audits, and education and monitoring of problem carriers. States will continue to have the primary responsibility for roadside inspection, with increased support from Federal motor carrier safety grants. It is proposed that the motor carrier safety program be financed from the Highway Trust Fund starting in fiscal year 1988.

The Highway Revenue Act of 1956, as amended, provides for the transfer from the general fund to the highway trust fund of revenue from the motor fuel tax and certain other taxes paid by highway users. The Secretary of the Treasury estimates the amounts to be so transferred. In turn, appropriations are authorized from this fund to meet expenditures for Federal-aid highways and other programs specified by law. The Budget proposes to repeal the highway user fee exemptions for gasohol use, public and private bus operations, and State and local governments.

The status of the fund is as follows:

Miscellaneous Trust Funds contains the following programs financed out of the highway trust fund and reimbursed by the requesting parties.

Cooperative work, forest highways.—Contributions are received from States and counties in connection with cooperative engineering, survey, maintenance, and construction projects for forest highways.

Technical assistance, U.S. dollars advanced from foreign governments.—The Federal Highway Administration renders technical assistance and acts as agent for the purchase of equipment and materials for carrying out highway programs in foreign countries. Currently, these services are being rendered in Costa Rica and Kuwait.

Contributions for highway research programs.—In association with the General Services Administration and the Department of Defense, tests of highway equipment are conducted for the purpose of establishing performance standards upon which to base specifications for use by the Government in purchasing such equipment.

Advances from State cooperating agencies.—Funds are contributed by the State highway departments or local subdivisions thereof for construction and/or maintenance of roads or bridges. The work is performed under the supervision of the Federal Highway Administration.

The Federal-Aid Highway Act of 1968 authorized \$300 million for the establishment of a right-of-way revolving fund. This fund is utilized to make cash advances to the States for the purpose of purchasing right-of-way parcels in advance of highway construction and thereby preventing the inflation of land prices from significantly increasing construction costs. Although the advances are currently interest-free, an interest charge will be proposed in the reauthorization of the Surface Transportation Assistance Act.

The initial legislation for this program required the States to construct the highway and reimburse the revolving fund within seven years from the date of the advance. The 1973 Highway Act extended the required time limit on construction to 10 years and the 1976 Highway Act extended the time limit indefinitely, if deemed necessary by the Secretary.

In 1988, gross obligations will be limited to \$47.85 million, consistent with prior years' practice.

In total, Operations and research programs have been funded at the 1987 level excluding transfers. For the program areas described below, funding levels vary to reflect current priorities.

Rulemaking programs.—Covers rulemaking activity relative to the promulgation of Federal motor vehicle safety standards for new and used motor vehicles, tires, and equipment; automotive fuel economy standards required by the Energy Policy and Conservation Act; international harmonization of standards; theft prevention; regulatory reform; and information on motor vehicle safety required by the Motor Vehicle Information and Cost Savings Act.

Enforcement programs.—Provides for the enforcement of programs described under the rulemaking activity, including manufacturer compliance with motor vehicle safety and automotive fuel economy standards, investigation of safety-related motor vehicle defects, and surveillance of odometer tampering.

Highway safety programs.—Provides for technical assistance to the States in the conduct of their highway safety programs; demonstration programs emphasizing alcohol countermeasures, safety belt and child safety seat usage, automatic protection, improved traffic law enforcement, emergency medical services, and enhanced traffic records systems to reduce highway fatalities and injuries; and operation and improvement of the national driver register. A National Occupant Protection Program will be underway in 1987 and 1988 to implement the Secretary of Transportation's decision on Federal Motor Vehicle Safety Standard 208, occupant protection. The program will promote the usage of safety belts and automatic protection.

Research and analysis.—Provides motor vehicle safety and highway safety research and development in support of all NHTSA programs, including the collection and analysis of data to identify safety problems, develop alternative solutions, and assess costs, benefits, and effectiveness. Research will continue to concentrate on improving vehicle crashworthiness, accident avoidance characteristics of cars, trucks and motorcycles, safety belt usage and alcohol countermeasures. The budget includes funds to continue a national accident

data collection program to improve problem identification, regulatory reform, and program evaluation activities.

Office of the Administrator.—Provides for the overall executive direction, coordination and implementation of agency programs. Includes legal, public affairs, civil rights and executive secretariat support for programs of this administration.

General administration.—Provides for the planning, program evaluation, and basic administrative and supporting services for programs of this administration.

This account represents the portion of the operations and research appropriation authorized under 23 U.S.C. 403 and financed from the Highway Trust Fund for the following activities:

Highway safety programs.—Provides for headquarters and field staff to assist the States in the conduct of their highway safety and demonstration programs, and to develop and implement a National Occupant Protection Program.

Research and analysis.—Provides for highway safety research in support of NHTSA programs, including the collection and analysis of data to determine the relationship between driver performance characteristics and crashes causing death or personal injury. Research is also undertaken to identify ways to improve safety belt usage and alcohol control. The 1988 budget includes funds to continue a national accident data collection program to improve problem identification, regulatory reform, and program evaluation activities.

Office of the Administrator.—Provides for the pro rata contribution to the cost of executive direction, coordination and implementation of agency programs. Includes legal, public affairs, civil rights and executive secretariat support for programs of this administration.

General administration.—Provides for the pro rata contribution to the cost of planning, program evaluation, and basic administrative and supporting services for programs of this administration.

Safety formula grants.—Grant allocations are determined on the basis of a statutory formula established under 23 U.S.C. 402. Individual States use this funding in areas which have the greatest potential for achieving safety improvements and reducing traffic crashes and fatalities. Activities are centered predominantly on efforts to control the drinking driver; stimulate activities to improve child passenger safety and increase safety belt usage; improve traffic law enforcement; improve the quality of emergency medical services; improve the collection and analysis of traffic accident data; and establish and maintain a computerized traffic recordkeeping system.

NHTSA's Safety formula grant program needs to be reauthorized for 1987 and later. The Department has submitted reauthorizing legislation to the Congress.

Safety formula grant administration.—Under 23 U.S.C. 402, up to 5 percent of amounts authorized for safety formula grants are permitted to be used for reimbursement to the operations and research account for grant administration. Funds of \$4.86 million are required to cover the expenses of administering Federal grant activity in 1988.

Alcohol safety incentive grants.—Grant allocations will be made under 23 U.S.C. 408, to those States which adopt and implement effective programs to reduce traffic safety problems resulting from persons driving while under the influence of alcohol. These grants will be made in accordance with established criteria and will only be used to implement and enforce such programs. Public Law 97-364 establishes a two-tier grant system. The first tier, i.e., basic grant, amounts to 30 percent of each State's apportionment under the safety formula grant program (section 402 program) if the State meets specified minimum criteria. The second tier is a supple-

mental grant of up to 20 percent of the State's apportionment if it qualifies for the base grant and implements additional specified alcohol traffic safety measures. Public Law 98-363 established a third tier to encourage States to enact stiffer penalties for drunk driving.

The 1988 budget proposes to transfer 1987 unobligated balances from the rail service assistance and redeemable preference shares accounts.

Salaries and expenses.—Provides for salaries and related expenses for the Office of the Administrator and his immediate staff, Chief Counsel, Civil Rights, Public Affairs, Office of Budget, Office of Administration, Office of Policy and the Office of Passenger and Freight Services. Together these offices resolve national problems confronting the railroad industry and provide top level support to the Federal Railroad Administrator.

Contract support.—The Office of Policy uses contractual support to develop positions regarding various proposed structural changes in the railroad industry such

as mergers and the sale of Conrail to the private sector. Contractual support is also used to conduct internal studies dealing with traffic, economic forecasting, financial condition, and other factors that contribute to an efficient national freight railroad network. In 1986 and 1987, this program also provided contractual support to Federal assistance programs, labor-management activities, railroad rehabilitation and improvement financing funds, grants to the National Railroad Passenger Corporation and the Conrail labor protection program.

Washington Union Station.—The Department of Transportation assumed responsibility for leasing Washington Union Station in 1984. In 1988, funds will be used for rental of that facility.

Local rail service assistance.—This program provides discretionary and formula grants to all States for rail planning and for track rehabilitation of light density lines. No funds are requested in 1988.

Reimbursable program.—In 1986, reimbursable authority provided Department of the Interior reimbursement to FRA for payment of storm drainage and skylight repairs at Washington Union Station.

The 1988 budget includes funds previously appropriated under the Railroad Research and Development account and proposes to transfer 1987 unobligated balances from the redeemable preference shares account.

Federal enforcement.—This program provides salaries and related expenses for safety field operations and is designed to reduce the number of railroad related accidents/incidents. Federal inspectors monitor railroads for compliance with Federal laws with specific emphasis on passenger and hazardous material routes. In addition, this staff provides training to Federal, State and railroad industry personnel on related safety enforcement activities, including programs dealing with the problem of alcohol and drug abuse.

Automated track inspection program.—This program provides \$1.4 million for the continued operation by FRA's Office of Safety of a self-propelled automatic track inspection vehicle and a research vehicle. The track inspection vehicle will survey approximately 25,000 miles of track in 1988. In January 1987, ownership of one set of FRA's automated track inspection vehicles will be transferred to the Department of Defense. The remaining vehicles assigned to this program will be disposed of within the next year.

Safety regulation and program administration.—This program funds the salaries and related expenses of safety headquarters personnel, data gathering and dissemination; and planning and evaluation activities. The ongoing responsibility of this program is to issue new or revised standards, procedures, and regulations to provide a safer railroad environment. This program also administers technical training and management of rail-highway grade crossings.

Grants-in-aid for railroad safety.—This program assists States in paying salaries and expenses incurred for State safety inspectors on a 50-percent cost-sharing basis. No funds are requested in 1988.

Research and development.—This program provides for the conduct of railroad safety research and development including the salaries and related expenses of the research project management staff. The research conducted encompasses all aspects of existing railroad operations and maintenance as well as new industry developments and trends. The scope of work undertaken helps to ensure the safe performance (1) of equipment, including critical components; (2) of the track structure, its components and other elements of the right-of-way; (3) of the railroad system operating as a whole, including the dynamic interaction between rail vehicles and the track structure on which they travel; (4) of the transport of hazardous materials; and, (5) of the operating practices employed in running the Nation's railroads. In addition, other Government agencies provide reimbursements for the conduct of research, development, testing, evaluation and analyses unique to the technical expertise and research capability of this program.

Conrail labor protection—Section 701.—\$165 million has been appropriated under Section 701 of the Regional Rail Reorganization Act of 1973, as amended, to provide protection to Conrail employees deprived of employment because of actions taken under the 3R Act as amended by the Northeast Rail Service Act of 1981. No funds are requested for 1988 since Conrail is being returned to the private sector and labor protection will be a corporate, rather than Federal, responsibility.

Conrail title V labor benefits.—The Northeast Rail Service Act of 1981 terminated labor protection benefits under title V of the Regional Rail Reorganization Act and provided funds for Conrail employee benefits. Unobligated balances from prior years are proposed to be transferred to other programs in 1987 to offset pay cost increases.

Milwaukee Railroad labor assistance.—This program provided funds for Milwaukee Railroad employee benefits under section 509 of the Regional Rail Reorganization Act, as amended. A portion of the unobligated balances is proposed to be transferred to other programs in 1987 to offset pay cost increases.

Conrail workforce reduction—Section 702.—The Conrail workforce reduction program was authorized by the National Rail Service Act of 1981. In 1987, the remaining unobligated balance of \$7,209,000 was transferred to Grants to the National Railroad Passenger Corporation.

COMMUTER RAIL SERVICE

[CONRAIL COMMUTER TRANSITION ASSISTANCE]

[For necessary capital expenses of Conrail commuter transition assistance, not otherwise provided for, \$5,000,000, to remain available until expended.]

The Department of Transportation is currently in the process of selling the Government's interest in Conrail, as mandated by the Conrail Privatization Act.

【NORTHEAST CORRIDOR IMPROVEMENT PROGRAM】

【For necessary expenses related to Northeast Corridor improvements authorized by title VII of the Railroad Revitalization and Regulatory Reform Act of 1976, as amended (45 U.S.C. 851 et seq.), \$16,962,000, to remain available until expended: *Provided*, That, notwithstanding any other provision of law, the provisions of Public Law 85-804 shall apply to the Northeast Corridor Improvement Program: *Provided further*, That the Secretary may waive the provisions of 23 U.S.C. 322 (c) and (d) if such action would serve a public purpose: *Provided further*, That all public at grade-level crossings remaining along the Northeast Corridor upon completion of the project shall be equipped with protective devices including gates and lights.】

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5205, Department of Transportation and Related Agencies Appropriations Act, 1987.

Construction.—No funds are requested for this program in 1988. Appropriations for 1987 are proposed to be transferred to offset increased 1987 pay costs. At the end of 1985, responsibility for any additional construction on the Northeast Corridor was transferred to the National Railroad Passenger Corporation (Amtrak). However, outlays will continue from prior year obligations.

Reimbursable program.—Collections are made from Federal and non-Federal agencies for cost-shared improvement projects, such as stations.

System engineering/program management and administration.—In 1988, the primary effort will be to complete and audit a number of projects being closed out. At the end of 1985, all Northeast Corridor Improvement

program work scope and responsibility was transferred to Amtrak.

Public grade crossing elimination.—No funds are requested for this program in 1988; however, obligations and outlays will continue on projects which were included in prior year appropriations.

The National Railroad Passenger Corporation (Amtrak) is a private corporation. In past years, Federal funds were provided to sustain Amtrak operations. No funds are requested in 1988. Legislation will be proposed to permit Amtrak's assets to be sold to the private sector or other interested parties.

Operating grants and State assisted routes.—No funds are requested in 1988, because Amtrak's performance to date has failed to justify continued massive Federal subsidies of interstate, commuter, and state-assisted rail passenger service.

Labor protection and capital grants.—No funds are requested in 1988. Labor protection payments, insofar as they exist, are a responsibility of the corporation.

No new commitments for the redeemable preference shares and loan guarantee programs are proposed to be made in 1988; however, outlays will continue on projects which were included in prior year appropriations. Appropriations for redeemable preference shares in 1987 and unobligated balances from prior years are proposed to be used to partially fund the program level in other FRA programs in 1988 with the remaining balance lapsing. This account now reflects direct loans which were previously shown under the Federal Financing Bank (FFB) direct loan account. In 1988, the account reflects \$206 million in receipts resulting from the proposed sale of redeemable preferences shares to the private sector.

Loan repayments.—This program reflects repayments of principal and interest on outstanding borrowings by the railroads to the Federal Financing Bank (FFB).

Loan guarantee defaults.—This program reflects public debt authority incurred in 1986 associated with a prepayment of a section 511 loan guarantee with Milwaukee Road, Inc.

Direct loans.—This program provides direct loans that are disbursed by the Federal Financing Bank to private freight railroad companies that are guaranteed by the Federal Railroad Administration, as authorized by sections 511-513 of Public Law 94-210. The budget authority for this account reflects draw downs by the railroads on the direct loans.

URBAN MASS TRANSPORTATION ADMINISTRATION

The underlying policy principle in the development of the 1988 budget is that greater funding at the local level and greater participation by the private sector can and will reduce public costs in providing for the mass transportation needs of American citizens. Greater pri-

vate sector participation in capital infrastructure development through direct private investment or public/private joint ventures in new rail systems, rail extensions, and station modernization will greatly reduce reliance on Federal capital assistance. Also, the introduction of greater competition through competitive bidding of service and maintenance will significantly reduce operating costs and the need for Federal subsidies.

The following tables depict budget authority and program levels for all Urban Mass Transportation programs for which more detail is furnished in the budget schedules:

Through 1987 this appropriation finances, with general revenues from the Treasury, grants and contracts for the purpose of developing, testing, and demonstrating techniques and methods (analytical, operational, and managerial); improving the cost effectiveness and efficiency of mass transportation services; grants to public bodies to provide for advanced training for personnel in the mass transportation field; and grants to public and private nonprofit institutions to assist in establishing or continuing programs which combine professional training and research in the field of mass transportation. In addition, grants are provided to enhance the effective utilization of human resources and to ensure the participation of minority business enterprises in the transit industry. In 1988, it is proposed that funds from the Mass Transit Account of the Highway Trust Fund be made available to finance this program. It will be subject to the obligation limitation for the new Formula Transit Grants Program.

Grants under this activity are authorized by the Federal-Aid Highway Act of 1973 as amended (23 U.S.C. 103(e)(4)) whereby States and localities may withdraw previously approved segments of the Interstate System and substitute transit or other highway capital projects. Through 1987, this appropriation provided funding for substituted transit projects while funding for substituted highway projects was included in the budget of the Federal Highway Administration. Beginning in 1988, no funding is requested under this account. Eligible substituted transit project commitments are proposed to be funded through the Interstate Transfer program under the Federal-Aid Highways Account (Trust Fund), administered by the Federal Highway Administration.

The National Capital Transportation Amendments of 1979 authorized \$1.7 billion in Federal funds for the construction of the Federal portion of the Washington Metrorail system. Through 1987, \$1,158.3 million has been appropriated for the Washington Metrorail system, leaving a balance of \$541.7 million remaining under the original \$1.7 billion Stark-Harris authorization. An appropriation of \$130.0 million is requested for 1988 to continue construction of the system. The Washington Metropolitan Area Transit Authority needs to initiate a dedicated source of local funding to become independent of Federal funding.

Through 1987, this program provided grants on the basis of statutory formulas to State and local agencies for mass transportation capital and operating expenses. Capital expenses included construction, acquisition, modernization, and improvement of existing transit facilities and equipment, employment of new technology, and technical planning assistance. Operating assistance expenses included administration, maintenance and operation of transit systems.

No appropriations are requested under this heading in 1988. Rather, it is proposed that formula grants be funded from the Mass Transit Account of the Highway Trust Fund. This proposal is further explained below under the account heading Formula transit grants (trust fund).

For 1988, legislation is being proposed to amend section 21 of the Urban Mass Transportation Act of 1964 to provide that funds available in the Mass Transit Account be allocated on the basis of legislative formulas to State and local agencies for mass transit capital investments rather than on a discretionary basis. This new Formula Transit Grants program will also replace the Formula Grants program which is currently funded from general funds, and will require a 50 percent local match on Federal funds.

The specific activities to be funded are:

Urban formula capital grants.—Funding is proposed to be allocated on the basis of legislative formulas to urbanized areas for mass transportation capital activities in urbanized areas with populations of 50 thousand or more.

Small urban operating grants.—The legislative proposal will also provide that only small urban and non-urban areas may use funds for operating assistance. These areas are the most dependent upon Federal operating assistance. The amounts available for small urban operating assistance will be limited to the \$111.89 million level made available for such assistance in 1986.

Since benefits derived from mass transit accrue primarily to localities, and in light of the mounting pressure on the Federal deficit, it is appropriate to reduce the Federal role to one of managing and allocating the penny gas tax for transit. Since this penny gas tax for transit is collected nationally, it is also appropriate that it be allocated nationally so that, to the greatest degree possible, all payers of this tax may receive equitable benefits from it.

An obligation limitation of \$1.374 billion, in line with the projected receipts from the one penny per gallon motor fuel tax for mass transit over the 4-year authorization period, is proposed for 1988. The obligation limitation for 1987 enacted by Congress is \$1.0025 billion. Consistent with Department policy, no funding from accrued trust fund interest will be used to fund highway or transit programs.

The 1988 budget proposal for Formula Transit Grants' budget authority and obligation limitation is based on increased revenue as a result of proposed repeal of existing tax exemptions (estimated to begin in

1988) for gasohol, public and private buses, and State and local government vehicles. The budget and proposed legislation would set average budget authority for the transit trust fund programs equal to average revenue from transit's one-cent share of motor fuel taxes for fiscal years 1987-90. Without repeal of the tax exemptions, Formula Transit Grants' 1988 budget authority and obligation limitation would be approximately \$44 million less than the budget proposal.

Non-urban grants.—Funding is proposed to be allocated to States by a legislative formula for mass transportation capital and operating activities in nonurbanized areas with populations below 50 thousand. In addition to the amount of funds made available by the formula, non-urban areas will receive an additional \$29 million in recognition of their greater dependence of Federal assistance.

Research, training and human resources.—Up to \$17 million in funds from the Mass Transit Account is requested to be made available to fund the Research, Training and Human Resources program. Prior to 1988, funding this program was derived from general revenues. Areas of emphasis in 1988 will include private sector transit alternatives, transit safety and security, operations and management practices, financial management, necessary project management oversight, and human resources.

Administrative expenses.—It is also requested in 1988 that \$32.7 million in funds from the Mass Transit Account be made available to fund the necessary expenses for the administration and operation of the UMTA program. This appropriation will finance personnel and other support costs associated with managing and directing UMTA program responsibilities. Prior to 1988, funding for the Administrative Expenses program was derived from general revenues. Cost savings in the Administrative Expenses account from 1987 to 1988 results primarily from a planned reduction of 40 workyears, consistent with termination of selected mass transit programs.

Elderly and handicapped.—The Urban Mass Transportation Act of 1964, as amended, requires that special efforts be made in planning and design of mass transportation facilities and services so that elderly and handicapped persons are assured of mass transportation services that they can effectively utilize. This request for \$35 million will provide equipment and facilities needed to enhance transit mobility for elderly and handicapped persons through private, non-profit providers. The 16(b)(2) program is administered at the State level by designated State agencies.

Planning.—This program provides \$35 million to finance section 8 transit planning and technical studies.

Funding in this account authorized for 1984 through 1987 was allocated for capital mass transit projects under Discretionary Grants which provided additional financial assistance over and above the Section 9 and 18 Formula Grants programs.

The funding has provided financial assistance at the discretion of the Secretary (though often directed by Congress) for planning and capital investments in mass transportation. The Discretionary Grants program has been used to fund selected bus projects, rail modernization projects, and new fixed guideway systems. In addition, a small amount of discretionary funds were used for selected grants to support planning, innovative techniques, and special elderly and handicapped transportation services. In 1988, no funding is requested for discretionary allocation. Rather, a separate formula grant program under the heading Formula Transit Grants is proposed to ensure that resources from the nationally derived motor fuel tax will be more fairly allocated on the basis of legislative formulas.

Currently the Discretionary Grant program uses trust funds from transit's share of the gasoline tax. Over 80 percent of these funds benefit fewer than 20 cities. Moreover, continued Federal funding under the Discretionary Grants account for major new fixed guideway investments, or new starts results in the development of many inefficient, expensive transit systems that will cost more to operate than other available transportation alternatives. It is proposed that this program be terminated in 1988.

management in the United States, its territories and possessions on a 24-hour basis. With the aid of radar, communications, and other facilities, traffic management personnel at 24 centers monitor and control en route flights of civil and military aircraft conducted under instrument conditions to assure safety and to expedite the flow of traffic. Terminal control facilities are operated at major civil airports to guide traffic movements at and in the vicinity of the airports. A system of flight service stations provides weather and aeronautical information to pilots, processes flight plans and provides inflight advisory and emergency services.

Installation and materiel services.—This activity covers procurement, contracting and materiel management programs; administrative communications services provided through the Federal Telecommunications System (FTS); supply support for the National Airspace System (NAS) and agency aircraft, except for aircraft related to the research and development program; leased space for which payment is made to General Services Administration (GSA); and other logistics support functions.

Maintenance of traffic control system.—This activity covers direction and engineering services related to the maintenance, improvement, and modification of facilities and equipment in the traffic control system as well as technical operation and maintenance of a national network of air navigation aids and traffic control facilities in the United States, and its territories and possessions.

Leased telecommunications services.—This activity finances the non-capital costs of FAA's operational telecommunications system. This system, which currently includes over 23,000 voice and data communications circuits, consists of three major components: en route, terminal, and flight service stations. Under this activity, funds are provided for leased circuits and equipment, as well as end-to-end communications between FAA facilities and service affording public access to FAA facilities.

Administration of aviation standards program.—This activity exists to promote flight safety of civil aviation by assuring: the airworthiness of aircraft; the competence of pilots, aviators and aviator technicians; the adequacy of flight procedures and air operations; the evaluation of inflight facility performance for compliance with prescribed standards. In addition, this activity covers the safe operation and the effective development, utilization, and maintenance of the FAA's aircraft fleet. Resources are also included under this activity for the conduct of the Federal Government's civil aviation security program, and to ensure the medical fitness of personnel in the national airspace system.

Development direction.—This activity covers the planning, direction, and evaluation of the engineering and development program, the direct project costs of which are financed under the Research, engineering and development appropriation.

Administration of airports program.—This activity includes the following work programs: (1) administration of an airport grant program for airport planning and development; (2) maintenance of the national plan of integrated airport systems; (3) development and application of airport engineering and safety standards; (4) collection, processing, and dissemination of airport data; (5) safety certification of airports serving air carriers utilizing aircraft with a seating capacity of more than 30 passengers; and (6) airport capacity enhancements.

Direction, staff and supporting services.—This activity covers administrative and housekeeping functions such as administrative supplies, communications, and payrolls at Oklahoma City, Atlantic City, and regional offices. Included also for these locations are activities for direction and management, public affairs, plans, international aviation, legal, accounting, budget, civil rights, communication control, data systems, and management systems. Also included are centrally managed items, such as certain data processing and Information Resources Management Plan requirements.

Human resource management (HRM).—This activity directly supports the other FAA activities. The most important goal of the HRM activity is to provide the highly skilled, competent, and motivated workforce necessary to accomplish FAA's objectives in improving air safety while promoting the Administration's goals in aviation-related activities. The HRM activity includes administration of FAA employee recruitment, development, compensation (including Federal Employees' Compensation Program payments and unemployment compensation), training, and labor-management relations programs. Key activities funded within the HRM are: conduct and administration of FAA's technical and management training programs; recruitment and placement of technical and administrative personnel; initiation of labor relations activities with the goal of increased employee participation in work-related decisions and increased productivity; and human relations improvement activities resulting from reviews of internal surveys and external recommendations.

The Headquarters Administration appropriation provides administrative services at the Washington Headquarters location of the Federal Aviation Administration. This appropriation finances:

Executive direction.—Establishes and directs the implementation of policy and broad technological, operational, and managerial concepts.

Communications control.—Provides key agency officials with effective executive telecommunications.

Public affairs.—Insures that relevant information concerning FAA is consistently presented in a factual and timely manner.

Legal.—Provides legal counsel and advice for the handling of all legal matters with which FAA is concerned, in order to insure conformance with all legal requirements of all applicable laws, rules, regulations, and orders.

Planning/policy.—Recommends FAA policy and plans; identifies needed national air system changes; and performs economic analysis of regulations.

Accounting.—Provides accounting, financial advisory, and audit liaison services.

Budget.—Identifies and defines budgetary needs and assures that they are effectively presented to the Office of the Secretary of Transportation, Office of Management and Budget, and Congressional Committees, and that funds and other resources available to the agency are effectively utilized.

Civil rights.—Assures full and affirmative implementation of civil rights and equal opportunity precepts within the Federal Aviation Administration.

International aviation.—Insures adequacy of international aviation systems policies, and maintains effective liaison with foreign governments.

Management systems/data systems.—Develops and administers the implementation and operation of FAA organizational plans, management systems and controls, and administrative standards and procedures; provides data processing, editorial, graphics, and publishing services.

Funding is not being requested for this appropriation in fiscal year 1988 because it is anticipated that Washington National and Washington Dulles International Airports will be transferred by long-term lease from the Federal Government to a new independent airport authority during fiscal year 1987.

Under the provisions of the "Metropolitan Washington Airports Act of 1986," as included in the fiscal year 1987 appropriations act (Public Law 99-500 and Public Law 99-591), the Secretary of Transportation is authorized to enter into a lease of the Metropolitan Washington Airports for a 50-year term with a new airport authority represented by the Commonwealth of Virginia, the State of Maryland, and the District of Columbia. The lease will provide for the airport authority to pay to the general fund of the U.S. Treasury annually an amount, computed using the GNP price deflator, to equal \$3 million in 1987 dollars.

The new airport authority will operate, maintain, protect, promote, and develop the Metropolitan Washington Airports as a unit and as primary airports serving the Metropolitan Washington area.

AIRCRAFT PURCHASE LOAN GUARANTEE PROGRAM*

*See Part II for additional information.

The Secretary of Transportation may hereafter issue notes or other obligations to the Secretary of the Treasury, in such forms and denominations, bearing such maturities, and subject to such terms and conditions as the Secretary of the Treasury may prescribe. Such obligations may be issued to pay any necessary expenses required pursuant to any guarantee issued under the Act of September 7, 1957, Public Law 85-307, as amended (49 U.S.C. 1324 note). None of the

funds in this Act shall be available for the implementation or execution of programs under this head, the obligations for which are in excess of \$75,000,000 during fiscal year [1987] 1988. Such obligations shall be redeemed by the Secretary from appropriations authorized by this section. The Secretary of the Treasury shall purchase any such obligations, and for such purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as now or hereafter in force. The purposes for which securities may be issued under such Act are extended to include any purchase of notes or other obligations issued under the subsection. The Secretary of the Treasury may sell any such obligations at such times and price and upon such terms and conditions as he shall determine in his discretion. All purchases, redemptions, and sales of such obligations by such Secretary shall be treated as public debt transactions of the United States.

[For the settlement of promissory notes issued to the Secretary of the Treasury, \$13,516,000, to remain available until expended, together with such sums as may be necessary for the payment of interest due under the terms and conditions of such notes.]

Note.—Public Laws 99-500 and 99-591, section 101(D), provide funds to the extent and in the manner provided for in the conference version of H.R. 5205, Department of Transportation and Related Agencies Appropriations Act, 1987.

The fund currently provides direct support for the aviation insurance program authorized under title XIII of the Federal Aviation Act.

Income to the fund is derived from premium deposits for premium insurance coverage issued, income from authorized investments, and binder fees for nonpremium coverage issued. The binders provide aviation insurance coverage for U.S. air carrier aircraft used in connection with certain Government contract operations entered into by the Department of Defense (DOD) and Department of State (DOS). There exist indemnity agreements under which the DOD and DOS agree to reimburse the Department of Transportation for all payments on account of losses to air carriers sustaining damage to their aircraft by an insured peril with respect to the aircraft operating under contract to DOD and DOS.

Administrative costs are paid from the Aviation Insurance Revolving Fund, into which are credited receipts from premiums, salvage, and interest on assets of the fund (49 U.S.C. 1536).

¹ Includes proposed liquidating cash supplemental of \$42 million in 1987.

The Tax Equity and Fiscal Responsibility Act of 1982 (26 U.S.C. 9502) provides for the revenues received in the Treasury from the 8 percent passenger ticket tax and certain other taxes paid by airport and airway users to be transferred from the general fund of the Treasury to the Airport and Airway trust fund. The Secretary of the Treasury estimates the amount to be so transferred. In turn, appropriations are authorized from this fund to meet obligations for airport planning and development and noise compatibility planning and programs; facilities and equipment; research, engineering and development; and a portion of operations. Authority for the Trust Fund's receipt of excise taxes expires December 31, 1987. Legislation will be proposed to extend that authority through December 31, 1989.

The status of the fund is as follows (in thousands of dollars):

Uncommitted balance, end of year	4,312,138	5,631,275	4,868,884

At the end of 1987, the uncommitted Trust Fund balance is estimated at \$5.6 billion. This balance has accumulated in part because a penalty provision in the 1982 authorization caused the share of FAA operations appropriations financed from the Trust Fund to be \$3.3

billion lower than authorized. This shortfall was subsidized by the general taxpayer.

In addition, because FAA operations costs authorized to be funded from the Trust Fund were less than 50 percent of actual appropriations rather than at the user's fair share of about 75 percent, there was an additional general taxpayer subsidy of FAA operations of \$4.1 billion during the 1982-87 period. Hence, in total, the general taxpayer subsidy to the FAA equals about \$7.4 billion between 1982 and 1987, or about \$1.8 billion more than the uncommitted balanced estimated for the end of 1987. (This \$7.4 billion subsidy is in addition to \$4.0 billion provided to Federal Aviation programs through general fund interest payments to the Trust Fund.)

To ensure that the general taxpayer does not continue to overly subsidize aviation programs, the 1988 budget proposes that about 75 percent of FAA operations and 85 percent of overall FAA costs be funded out of the user-financed Trust Fund and that the penalty provision be eliminated. These actions, together with the funding increase for "Facilities and Equipment," will reduce the uncommitted balance by an estimated \$762 million from \$5.6 billion at the end of 1987 to \$4.9 billion at the end of 1988.

The Airport and Airway Improvement Act of 1982 expires at the end of fiscal year 1987. The Administration will introduce new authorizing legislation for airport grants which will emphasize capacity development and continued safety of the airport system. The legislation will also provide an opportunity for an increased role by state governments and a voluntary program of airport defederalization. To adequately meet these objectives, a \$1,017,000,000 program level is proposed for fiscal year 1988.

Under this appropriation, the Federal airway system is improved by the installation of new equipment and the construction and modernization of facilities to keep pace with aeronautical activity. The appropriation also finances major capital investments required by other agency programs, such as aircraft for flight inspection of facilities, and related training, and experimental facilities for the engineering and development program. The operating costs of facilities procured under this appropriation are financed under the Operations appropriation.

The funding requested for 1988 is in accordance with the Federal Aviation Administration's comprehensive

plan for modernizing and improving air traffic control and airway facilities services.

Budget activities include:

Air route traffic control centers.—Long-range radar, communications and automation equipment provide air traffic controllers information on aircraft positions and weather.

Airport traffic control towers.—Terminal area radar, doppler weather radar, communications and automation equipment aid air traffic controllers in handling air traffic.

Flight service facilities.—Flight service stations and associated facilities provide flight assistance to pilots, particularly general aviation pilots.

Air navigation facilities.—Very high, medium and low frequency facilities are used to define airways and air routes and provide distance, direction and weather information to pilots. Precision landing systems, distance measuring equipment and visual lighting aids assist pilots in making final approaches to airport runways.

Housing, utilities, and miscellaneous facilities.—This activity includes general facility support requirements which apply to a wide range of FAA installations.

Aircraft and related equipment.—This activity includes the procurement, modification and/or replacement of aircraft and equipment both to inspect the accuracy and other characteristics of navigation and traffic control aids from the air and to conduct research and development activities.

Development, test and evaluation facilities.—This activity provides for leasing and improvements of the plant and facilities at the Federal Aviation Administration Technical Center in Atlantic City, NJ.

The FAA conducts engineering and development programs to improve the national air traffic control system and to increase its safety, productivity and capacity to meet the expected air traffic demands of the future. The agency also administers aviation medical research aimed at increasing the personal effectiveness of air traffic controllers and the safety of aircrewmembers.

These programs are conducted by the agency's technical personnel, and through contracts with qualified private firms, universities, individuals and other Government agencies.

RESEARCH, ENGINEERING, AND DEVELOPMENT (AIRPORT AND AIRWAY TRUST FUND)—Continued

[(INCLUDING TRANSFER OF FUNDS)]—Continued

Air traffic control.—Existing technology is applied to air traffic control problems to keep the current system operating safely and system improvements are made to increase the productivity and capacity of the current system. These improvements include the development and implementation of a collision avoidance capability which operates independently of the ATC system and development of a communications switching system for improved voice communications between controllers within an ATC facility, between controllers at adjacent facilities, and between controllers and pilots over air-ground radio outlets and the applications development for providing data link air/ground services.

This program also includes activities designed to insure that the air traffic control system will satisfy the demands of the 1990's, particularly those affecting the interface between pilots and traffic controllers. This work includes developing new traffic control system features and concepts; assessing their technical, economic, and operational feasibility and conducting selected feasibility demonstrations.

Advanced computer.—This activity modernizes the air traffic control system by providing for an advanced automation system to accommodate the demand for air traffic services forecasted for the post-1990's. Program efforts include design, development, and testing of an advanced automation system.

Navigation.—This activity provides for modernization, expansion, and improvement of the common navigation system facilities. The requested funds will support research and development activities for enroute navigation to assess and develop standards for candidate navigation systems for use in the post-1995 period.

Aviation weather.—This activity provides for a program, coordinated with the Departments of Defense and Commerce, to modernize the acquisition, processing, dissemination, and display of weather information tailored to the needs of aviation users. Development of weather radars and weather processors, and research into hazardous weather phenomena in terminal areas will be emphasized.

Aviation medicine.—Aeromedical research is directed toward identifying and eliminating those physiological and psychological factors harmful to personnel engaged in operating the traffic control system or which may jeopardize flight safety.

Aircraft safety.—This activity covers the research work in support of developing improved regulations to promote flight safety of civil aircraft. Development of systems and devices to prevent and deter sabotage in the civil air transportation system will also continue. Funds requested will continue research in fire safety, including cabin fires, and will continue research in air transport, general aviation, and flight safety.

Environment.—Principal efforts under this activity are the development of data to support rulemaking and to minimize the undesired environmental effects on the public attributable to the air transportation system. Research will continue into air pollution and noise con-

trol, primarily associated with certification and enforcement requirements.

The Airport and Airway Improvement Act of 1982 authorizes use of the Airport and Airway trust fund as the source of financing a portion of FAA's operating costs. Cost allocation studies by the FAA show that, overall, 85 percent of the cost of the FAA's programs is attributable to the users contributing to the trust fund. In 1988, it is proposed that \$2.4 billion of the Operations appropriation be financed from the trust fund to provide an overall 85 percent recovery. Appropriate legislation is proposed to effect this level of financing.

ment and defense readiness programs. This budget also reflects the addition of 300 formerly reimbursable law enforcement detachment (LEDET) military personnel and funds to the Coast Guard base. It also contains funding for an underground storage tank program to identify leaking tanks and contain/remove pollutants in compliance with current EPA regulations.

Search and rescue.—The Coast Guard maintains a nationwide system of boats, aircraft, cutters, and rescue coordination centers on 24-hour alert capable of responding to notice of a distress incident.

Aids to navigation.—A network of floating and fixed aids to navigation is maintained along our coasts and on inland waterways to insure the safe passage of the mariner. Vessel Traffic Services (VTSs) are operated in New York, New Orleans, Houston-Galveston, San Francisco, Puget Sound (Seattle, WA), Prince William Sound (Valdez, AK) and Berwick Bay, LA. Loran-C stations provide electronic coastal marine navigation as well as enroute and non-precision approach aviation navigation capabilities throughout the United States. Domestic Loran-C serves the needs of both civilian and military users throughout the continental U.S. and Alaska. Overseas, Loran-C is operated in support of DOD requirements. Eight OMEGA stations, six of which are operated and funded to various levels by the six host partner nations, provide navigational coverage to military and civilian ships and aircraft nearly worldwide. Radiobeacons operated in the United States provide mariners with an all-weather, low user cost navigational system, used primarily for homing, along our coasts and in the Great Lakes. Administrative control is exercised over the construction, maintenance, and operation of bridges across navigable waters of the United States.

Marine safety.—The Coast Guard's Safety program consists of two major activities:

Marine inspection and marine licensing programs.—The Coast Guard reviews plans and specifications for the construction or alteration of merchant vessels; conducts periodic inspections; investigates casualties; and sets standards, procedures, and practices under which merchant marine personnel are licensed and regulated.

Marine environmental protection.—The Coast Guard's Marine Environmental Protection program consists of two major activities:

Marine environmental readiness.—Under various laws, international agreements and conventions the Coast Guard is responsible for responding to pollution incidents involving oil and hazardous chemicals. The Coast Guard receives reports, evaluates, responds to, and mitigates potential and actual pollution discharges on waters and land areas defined as the "Coastal Zone" in the National Contingency Plan.

Port safety and security.—Under various laws, conventions, international agreements, and memoranda of understanding with other Federal agencies, the Coast Guard is charged with promoting port safety and security in ports, on waterways, and on the high seas. The Coast Guard is expected to provide rapid and effective response to port emergencies such as fires, explosions, collisions, civil disturbances, and terrorist incidents. The Coast Guard Captain of the Port (COTP) has extensive law enforcement authority over waterfront facilities, vessels and the navigable waters of the United States, and has a broad role as the coordinator and overseer of port safety and security activities of all parties involved in the port complex. Coast Guard responsibilities in port security have been increased recently under the combined Navy/Coast Guard Maritime Defense Zone initiative, and under the DOD/DOT Memorandum of Understanding on Port Readiness.

Enforcement of laws and treaties.—Maritime enforcement of laws and treaties is accomplished by cutters and aircraft conducting patrols to enforce international agreements and Federal laws on and over the high seas and waters over which the U.S. exercises jurisdiction. Fisheries enforcement involves living marine resources, while general law enforcement concerns drug smuggling by air and sea, illegal immigration, hijacking/theft of vessels and other unlawful activities.

This budget reflects the annualization of personnel and dollars included in the Anti-Drug Abuse Act of 1986, in order to continue to fund ongoing drug law enforcement programs. The Coast Guard will begin a newly assigned mission in fiscal year 1987 of assisting in the interdiction of controlled substances being smuggled by air into the United States as assigned to the Coast Guard by the National Drug Enforcement Policy Board. Resources included in this budget will finance this new responsibility.

Ice operations.—Polar ice operations are performed in the Arctic and Antarctic by icebreakers in support of programs of the Coast Guard and other agencies.

In fiscal year 1988, USCGC Westwind will be operated in place of USCGC Glacier, maintaining a fleet of four operational polar icebreakers. Funding to continue analyses on how best to replace current icebreakers with new cutters is contained elsewhere in this budget. Domestic ice operations are performed on the navigable waters of the United States. Also included are certain marine science activities.

Legislation will be proposed to authorize an additional expenditure of \$15 million from Boat Safety to be used to offset Coast Guard Operating Expenses in 1988 for a total of \$30 million of which \$15 million is currently authorized for these purposes by Public Law 98-369.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of acquisition, construction, rebuilding, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto; to remain available until September 30, [1991, \$209,000,000] 1992, \$277,893,000: *Provided*, That the Secretary of Transportation shall issue regulations requiring that written warranties shall be included in all contracts with prime contractors for major systems acquisitions of the Coast Guard: *Provided further*, That any such written warranty shall not apply in the case of any system or component thereof that has been furnished by the Government to a contractor: *Provided further*, That the Secretary of Transportation may provide for a waiver of the requirements for a warranty where: (1) the waiver is necessary in the interest of the national defense or the warranty would not be cost effective; and (2) the Committees on Appropriations of the Senate and the House of Representatives are notified in writing of the Secretary's intention to waive and reasons for waiving such requirements: *Provided further*, That the requirements for such written warranties shall not cover combat damage. (*Additional authorizing legislation to be proposed.*)

Note.—Public Laws 99-500 and 99-591, section 101(d), provide funds to the extent and in the manner provided for in the conference version of H.R. 5205, Department of Transportation and Related Agencies Appropriations Act, 1987.

This appropriation provides for the major acquisition, construction, and improvement of vessels, aircraft, shore units, and aids to navigation, excluding minor acquisitions, additions, renewals, and replacements funded in the Operating Expenses appropriation where estimated costs of a program are \$150 thousand or less, or where renewals and replacements involve less than 75 percent of the original facility. Most of the facilities financed by this appropriation are multi-mission in nature and are required by the Coast Guard in the performance of its operational and regulatory missions.

Vessels.—By the end of fiscal year 1988, eleven of the thirteen 270-foot Medium Endurance Class cutters (WMEC) will be operational or delivered. In addition, the ninth and final 140-foot Icebreaking Tug (WTGB) will be operational. By the beginning of fiscal year 1988, all of the Coast Guard Island Class 110-foot patrol boats will be delivered and operational. In addition, a contract for construction of another twenty-one patrol boats will have been awarded. Major accomplishments will also be realized in the area of vessel renovation and modernization. By the end of fiscal year 1988, five of twelve 378-foot High Endurance Cutters (WHEC) and seven of sixteen 210-foot Medium Endurance Cutters (WMEC) will have completed their major renovations; five additional WHECs, and three WMECs will be undergoing renovation. Eight 180-foot Buoy Tenders (WLB) will have completed service life extension rehabilitation. Cumulatively, these accomplishments will enhance critical multimission capabilities of the Coast Guard's major vessel capital assets and favorably impact on the fleet's readiness and maintenance posture.

Aircraft.—All of the ninety-six HH-65A Short Range Recovery (SRR) helicopters will be delivered by the end of fiscal year 1988. In addition, three new HC-130 Long Range Surveillance fixed-wing aircraft funded in the fiscal year 1986 Coastal Defense Augmentation Account will be delivered. Considerable progress will be made in acquiring aircraft sensors to enhance search and rescue and law enforcement missions. Five of thirty-six HC-130 search radars will be delivered with three installed by the end of fiscal year 1988. Six airborne surveillance systems (AIREYE) will be in operational use on HH-25A Medium Range Search aircraft. The HH-65A helicopter promises enhanced missions performance for the Coast Guard helicopter fleet. These improvements will include faster response time, safer operations, and more capable detection systems.

Shore facilities.—Recent shore facility projects have emphasized both new construction and renovations, improvements, or replacements of existing facilities. Ap-

proximately fourteen prior year shore construction projects will be completed by fiscal year 1988. These projects range from air station rehabilitations to moorings improvements. Particular emphasis has been placed on upgrading shore facilities at Alameda, CA; Portsmouth, VA; Boston, MA; New Bedford, MA; and Long Beach, CA, to insure adequate support of new and renovated WHECs and WMECs. This construction will be completed by fiscal year 1988. Projects have also been initiated to provide advanced electronic data processing and communications to Coast Guard commands to enhance productivity and management decisions.

The Coast Guard Reserve Forces provide qualified individuals and trained units for active duty in event of war, national emergency or domestic disaster. These forces keep ready through realistic, coordinated training in wartime skills, formal training in military skills, and performing peace time duties with the Regular Forces during normal and emergency operations. The 1988 program will be expanded to provide a Ready Reserve of 18,500 including a Selected Reserve of 13,500.

Initial training—Direct costs of initial training for non-prior service recruits are programmed under this activity.

Continuing training—Direct costs of officer and enlisted drills and annual active duty for training are programmed under this activity.

Operation and maintenance of training facilities—Reserve training facilities for operation and maintenance are programmed under this activity.

Administration—All administrative costs for the Reserve Forces program are programmed under this category.

Miscellaneous services for other accounts—Coast Guard mobilization-related activities for the Selected Service System are reimbursed under this activity.

The Coast Guard's Research and Development program seeks to maintain the technological base in areas crucial to the successful execution of the Coast Guard's operational and regulatory missions. The R&D program includes the development of techniques, methods, hardware, and systems which directly contribute to increasing the productivity and effectiveness of operating forces. Tests and evaluations are carried out in conjunction with research and development. The 1988 request will provide for: development of improved search and rescue capability; support for replacement of patrol boat (WPB) and buoy tender (WLB/WLM) capabilities; development of improved aid to navigation performance techniques; development of improved commercial vessel safety and recreational boating safety knowledge bases to support establishment, modification, or discontinuance of various regulations and standards; development of systems and procedures for control and cleanup of pollutant spills; development of techniques to support law enforcement efforts; and research, development, test, and evaluation in multi-mission project areas.

This fund insures immediate cleanup of oil or other hazardous polluting substances spilled into the navigable waters of the United States, adjoining shorelines or waters of the contiguous zone. The fund is used when a spill occurs and the responsible owners or operators of a vessel, onshore facility, or offshore facility do not accomplish immediate cleanup with their own resources. Expenditures from the fund are later reimbursed by the responsible owners or operators.

OFFSHORE OIL POLLUTION COMPENSATION FUND

For necessary expenses to carry out the provisions of title III of the Outer Continental Shelf Lands Act Amendments of 1978 (Public Law 95-372), \$1,000,000, to be derived from the Offshore Oil Pollution Compensation Fund and to remain available until expended. In addition, to the extent that available appropriations are not adequate to meet the obligations of the Fund, the Secretary of Transportation is authorized to issue to the Secretary of the Treasury notes or other obligations in such amounts and at such times as may be necessary to the extent that appropriations are not adequate to meet the obligations of the Fund. Provided, That none of the funds in this Act shall be available for the implementation or execution of programs the obligations for which are in excess of \$60,000,000 in fiscal year 1987 1988 for the "Offshore Oil Pollution Compensation Fund".

DEEPWATER PORT LIABILITY FUND

For necessary expenses to carry out the provisions of section 18 of the Deepwater Port Act of 1974 (Public Law 93-627), \$1,000,000, to be derived from the Deepwater Port Liability Fund and to remain available until expended. In addition, to the extent that available appropriations are not adequate to meet the obligations of the Fund, the Secretary of Transportation is authorized to issue, and the Secretary of the Treasury is authorized to purchase, without fiscal year limitation, notes or other obligations in such amounts and at such times as may be necessary to the extent that available appropriations are not adequate to meet the obligations of the Fund: Provided, That none of the funds in this Act shall be available for the implementation or execution of programs the obligations for which are in excess of \$50,000,000 in fiscal year [1987] 1988 for the "Deepwater Port Liability Fund".

Note.—Public Laws 99-500 and 99-591, section 101(i), provide funds to the extent and in the manner provided for in the conference version of H.R. 5205, Department of Transportation and Related Agencies Appropriations Act, 1987.

The Deepwater Port Act of 1974 provided a system for determination and settlement, without fault, of claims for all cleanup costs and damages incurred, but not otherwise compensated, as a result of discharges of oil into the marine environment from deepwater port activities. The Deepwater Port Act Amendments of 1984 (Public Law 98-419) suspended, as of September 25, 1984, the 2-cent-per barrel fee to be assessed against all oil delivered at deepwater ports and to be deposited in this fund. The collection of this fee may not resume unless the fund balance falls below \$4,000,000. Additional funds are not requested for fiscal year 1988.

MARITIME ADMINISTRATION

The programs administered by the Maritime Administration (MarAd) are authorized by the Merchant Marine Act, 1936, and other related acts. The Agency promotes the development and maintenance of an American merchant marine for commercial and defense needs; grants subsidy aid for operation of vessels by American flag operators; administers the outstanding Federal Ship Financing Fund portfolio; pays the increased cost associated with the expanded cargo preference requirement in the Food Security Act of 1985; maintains in a standby condition Government-owned fleets; and trains cadets to become licensed merchant ship officers.

The following table shows the funding for the MarAd programs, including proposed supplementals, for which detail is furnished in the budget schedules:

The Merchant Marine Act of 1936, as amended, provides that operating subsidies shall be paid to qualified operators of U.S.-flag vessels in order to promote the maintenance of a U.S. Merchant Marine capable of providing essential ocean-shipping services. A strong U.S. Merchant Marine is important to national security and to the development of foreign commerce. Subsidies are designed to achieve a parity between certain U.S. and foreign ship operating costs. The 1988 request provides funds for existing operating-differential subsidy contracts. No new contracts are included.

The budget reflects no new contract authority on the basis that the obligations under the existing contracts were incurred when the contracts were signed. This technical accounting change is shown as an adjustment to expired accounts in the totals above. The budget also requests liquidating cash appropriations on a permanent, indefinite basis.

OCEAN FREIGHT DIFFERENTIAL

Such sums as may be necessary for fiscal year 1988 and thereafter are hereby appropriated to liquidate debt and pay interest due to the Secretary of the Treasury, as required by section 901d, Merchant Marine Act, 1936 (46 App. U.S.C. 1241h).

Public Law 99-198 amends section 901 of the Merchant Marine Act to increase from 50 to 75 percent the amount of agricultural commodities under specified programs that must be carried on U.S.-flag vessels. The increased cost associated with this expanded U.S.-flag shipping requirement stems from higher rates charged by U.S.-flag carriers compared with foreign-flag carriers. The Maritime Administration is required to reimburse the Department of Agriculture for ocean freight differential costs for the added tonnage above 50 percent. These reimbursements are funded through borrowings from the Treasury. Public Law 99-198 also requires the Maritime Administration to reimburse the Department of Agriculture for the amount which their ocean freight and ocean freight differential costs in any fiscal year exceeds 20 percent of the cost of the commodities shipped plus ocean freight and ocean freight differentials. The 1987 and 1988 budget estimates do not anticipate payments for the excess 20-percent rule. The 1988 estimate reflects savings from the implementation of administrative reforms designed to reduce the cost of cargo preference.

The specific activities funded by the operations and training appropriation are as follows:

Maritime education and training—

Merchant Marine Academy.—This activity provides for operating the Merchant Marine Academy at Kings Point, NY. The objective of the Academy is to instruct and prepare selected personnel for service as officers in the merchant marine. Approximately 190 officers will graduate in 1988. Additional funds are provided in 1988 for resumption of the facilities modernization program.

State marine schools.—Due to projections of a continuing oversupply of merchant marine officers, Federal support for this program will be limited in 1988 and subsequent years to providing student incentive payments to cadets currently receiving such payments. An estimated 650 merchant marine officers will graduate from the State marine schools in 1988.

Additional training.—This activity provides for costs of administration of the Merchant Marine Academy program at the bureau level, and for the conduct of supplementary training courses required for merchant marine personnel.

National security support capability.—This activity provides for maintaining U.S. merchant ships in the National Defense Reserve Fleet for service as naval and military transport auxiliaries in time of war and national emergency and for emergency preparedness activities. Additional funds are provided in 1988 for a multi-year program for capital investment needs including facility alterations and maintenance, and replacement of support craft.

Operating programs—

Development of waterborne transportation systems.—This activity provides for direct technical and administrative costs of programs for development and construction of cost-competitive U.S. merchant ships in sufficient quantity to meet national maritime objectives. Increased funds are provided in 1988 for technical studies.

Use of waterborne transportation systems.—This activity provides for the direct technical and administrative costs of promoting the effective development and use of merchant ships and ship systems. Program objectives involve increasing U.S.-flag participation in U.S. foreign trade and reducing or eliminating operating subsidies when no longer required to sustain a viable shipping operation. Increased funds are provided in 1988 for technical as well as policy and program studies.

General administration.—This activity provides for overall executive direction and general administrative functions of the Maritime Administration.

MEMORANDUM

2299 U.S. contingent liability for guaranteed loans outstanding, end of year	4,995,362	4,245,362	3,945,362
--	-----------	-----------	-----------

The Merchant Marine Act of 1936, as amended, established the Federal ship financing fund to assist in the development of the U.S. merchant marine by guaranteeing construction loans and mortgages on U.S.-flag vessels built in the United States.

The budget proposes appropriations language to prohibit new loan guarantee commitments in 1987 and thereafter. Legislation will also be proposed to terminate permanently the Secretary's authority to guarantee loans. The budget also proposes a supplemental appropriation to repay the Treasury debt incurred

through 1986 by the Federal Ship Financing Fund and related interest.

Budget program.—Administrative expenses incurred in the operation of the Federal ship financing fund are paid from income to the fund. Direct loans in the form of advances to operators to forestall possible defaults are estimated at \$5 million in 1988. In 1988 the estimate includes \$100 million as a contingency against possible defaults.

Financing.—The fund receives income from insurance premiums on construction loans and mortgages, fees, and interest on mortgages held directly.

The Maritime Administration is authorized to reactivate, operate, deactivate, and charter merchant vessels. These operations are financed by the Vessel operations revolving fund. In addition, the fund is available to finance the necessary expenses to protect, maintain, preserve, acquire, and use vessels involved in mortgage foreclosure or forfeiture proceedings instituted by the United States; and to process advances received from Federal agencies.

Budget program.—The 1988 program anticipates a constant level of maintenance and upgrading of the Ready Reserve Fleet and activation and operation of ships as directed by the Navy.

Financing.—Expenses are principally financed by reimbursements from Federal agencies.

The Maritime Administration is authorized to insure against loss or damage from marine war risks until commercial insurance can be obtained on reasonable terms and conditions. This insurance includes war risk hull and disbursements interim insurance, war risk protection and indemnity interim insurance, second seamen's war risk interim insurance, and war risk cargo insurance standby program. Authority to underwrite insurance was extended to June 30, 1990, under Public Law 99-59.

Budget program.—It is estimated that during 1988 insurance coverage will be provided for approximately 538 U.S.-flag ships and 15 foreign-flag ships owned by U.S. citizens. The program also includes provision for second seamen's war risk insurance covering the crews of 10 vessels under contract with the Military Sealift Command.

Financing.—The War risk insurance revolving fund was established under 46 U.S.C. 1288. It receives income from binder fees, insurance premiums, interest from investments and claim reimbursements from other Federal agencies. Underwriting agents' fees and expenses, appraisal contractors' fees, and insurance claims are paid from this income.

[GENERAL] ADMINISTRATIVE PROVISIONS—MARITIME ADMINISTRATION

Notwithstanding any other provision of this Act, the Maritime Administration is authorized to furnish utilities and services and make necessary repairs in connection with any lease, contract, or occupancy involving Government property under control of the Maritime Administration and payments received by the Maritime Administration for utilities, services, and repairs so furnished or made shall be credited to the appropriation charged with the cost thereof: *Provided*, That rental payments under any such lease, contract, or occupancy on account of items other than such utilities, services, or repairs shall be covered into the Treasury as miscellaneous receipts.

No obligations shall be incurred during the current fiscal year from the construction fund established by the Merchant Marine Act, 1936, or otherwise, in excess of the appropriations and limitations contained in this Act, or in any prior appropriation Act and all receipts which otherwise would be deposited to the credit of said fund shall be covered into the Treasury as miscellaneous receipts. (*Department of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(b).*)

The Saint Lawrence Seaway Development Corporation is a wholly owned Government Corporation responsible for the operation, maintenance and development of the United States portion of the St. Lawrence Seaway between Montreal and Lake Erie. Major priorities are to control Seaway Corporation costs and to encourage increased use of the Seaway system. The Seaway Corporation is focusing on ways to promote and market the Seaway system. The Corporation's 1988 budget reflects the activities to accomplish these objectives as follows:

Administrative expenses (limitation).—This program provides for management and administration of the Corporation.

Other operations and maintenance.—The program provides for normal operations and maintenance of all facilities, trade and traffic development, as well as continuing improvements in lock operations and navigation systems, and replacing worn-out equipment, machinery and tools. Operations are conducted on a 24-hour day, 7-day week with maintenance functions being performed throughout the year.

For fiscal year 1988, the Corporation estimates it will collect toll revenues and other income of \$11.2 million on the basis of traffic projections agreed to by the U.S.

and Canadian Seaway agencies. Effective April 1, 1987, the Water Resources Development Act of 1986 provides for the deposit of toll revenues in the Harbor Maintenance Trust Fund. Appropriations from the Fund are intended to finance the operation and maintenance of the portion of the Seaway for which the Corporation is responsible. The budget includes a proposal to return the Corporation to direct revenue financing, consistent with its organization and mission.

The Research and Special Programs Administration serves as a research, analytical, and technical development arm of the Department for multimodal research and development, as well as special programs. Particular emphasis is given to transportation of hazardous cargo by all modes of transportation. Responsibilities of the Administration are carried out under the following activities:

Operations.—Provides for salaries and expenses and for central supervisory and management functions, including a management information system necessary for overall planning and direction. Provides for management and execution of transportation programs involving aviation data management, national emergency plans/preparedness, and management of the Transportation Safety Institute and the Transportation Systems Center. Provides for hazardous materials regulatory and enforcement programs.

Research and development.—Provides for research to support the hazardous materials program and to complement research programs of other operating administrations.

The Working Capital Fund finances multidisciplinary research, evaluation, and analysis activities undertaken at the Transportation Systems Center (TSC) in Cambridge, MA. The fund is financed through negotiated agreements with the Office of the Secretary, Departmental operating administrations, and other governmental elements requiring the Center's capabilities. These agreements also define the activities undertaken at TSC. The Department will propose legislation to allow the sale of TSC by 1989.

General administration.—This appropriation finances the costs of policy development and central supervisory and coordinating functions necessary for the overall planning and direction of the Department. It covers the immediate secretarial offices as well as those of the assistant secretaries and the general counsel. The Office of the Secretary provides services on a reimbursable basis for technical assistance to transportation projects, and participation in intergovernmental planning groups. Increases in funding are offset in 1988 by proposed reductions associated with the termination of the Essential Air Service program and various administrative reductions.

The Minority Business Resource Center.—This activity provides contractual support for the Center, which now operates in the Office of the Secretary to assist minority business firms, entrepreneurs, and venture groups in securing contracts and subcontracts arising out of projects that involve Federal funding.

This appropriation finances those research activities and studies concerned with planning, analysis, and information development needed to support the Secretary's responsibilities in the formulation of national transportation policies.

The program is carried out primarily through contracts with other Federal agencies, educational institutions, nonprofit research organizations, and private firms.

1. *Transportation policy and planning.*—This research provides the foundation for development of transportation policy, for coordination of national level transportation planning, and for dealing with such difficult issues as regulatory modernization, energy conservation, environmental and safety impacts of transportation.

Projects provide technical studies and other data in support of the Secretary's decisions involving State and local level planning, consumer affairs, technology sharing, and evaluation of departmental programs.

2. *University research and internships.*—This activity provides assistance to colleges, universities and their students to conduct research in the field of transportation. Special emphasis is placed on assisting historically Black colleges and universities in taking part in transportation research and aiding minority students in preparing for careers in transportation.

3. *Commercial space transportation.*—This activity supports the mission of licensing and promoting Expendable Launch Vehicles (ELVs).

Legislation will be proposed to sunset the Interstate Commerce Commission at the end of 1987 and transfer residual rail functions to the Department of Transportation including the Directed Rail Service Program. The Directed Rail Service Program reimburses railroads for the cost of services provided over the track of a railroad which ceased operations, at the direction of the Federal Government. It is anticipated that no funds will be needed for this purpose in 1988. Rail antitrust functions will be administered by the Department of Justice, and handling consumer complaints regarding household goods movers would transfer to the Federal Trade Commission.

The Secretary of Transportation, through powers of delegation and review, now administers the section 419 subsidy program, which was added as part of the Airline Deregulation Act of 1978. Subsidies under this program are paid to airlines—primarily commuter carriers. No funds are requested for this program in 1988 and legislation will be proposed to affect earlier termination before the scheduled termination in October 1988.

The working capital fund finances common administrative services that are centrally performed in the interest of economy and efficiency in the Department.

Services rendered are charged at rates that return in full all operating expenses, including a normal reserve for accrued annual leave and depreciation of equipment. The fund is reimbursed by the operating administrations and offices being served.

The activities of the working capital fund have been consolidated as follows:

Publishing and graphics activities include publishing and graphic programs; still photographic services; and visuals services.

Support services activities include imprest fund; central employment information; warehouse management; parking management; chauffeur services; mail and messenger service; management information center; facilities and space management; and security service.

To provide improved accounting and tracking, the following functions previously funded through reimbursable agreements are included in this activity for 1988: DOT Headquarters rental payments, building maintenance services, DOT unemployment compensation payments, and employee parking payments. Also included is funding for building alterations to support the DOT Headquarters space reduction initiative.

Library services include information retrieval.

Transportation computer activities include computer time-sharing services, the transportation computer center, and development of the department-wide accounting and financial information system.

TITLE III—GENERAL PROVISIONS

SEC. 301. During the current fiscal year applicable appropriations to the Department of Transportation shall be available for maintenance and operation of aircraft; hire of passenger motor vehicles and aircraft; purchase of liability insurance for motor vehicles operating in foreign countries on official department business; and uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901-5902).

SEC. 302. Funds [appropriated] for the Panama Canal Commission may be apportioned notwithstanding section 3679 of the Revised Statutes, as amended (31 U.S.C. 1341), to the extent necessary to permit payment of such pay increases for officers or employees as may be authorized by administrative action pursuant to law that are not in excess of statutory increases granted for the same period in corresponding rates of compensation for other employees of the Government in comparable positions.

SEC. 303. Funds appropriated under this Act for expenditures by the Federal Aviation Administration shall be available (1) except as otherwise authorized by the Act of September 30, 1950 (20 U.S.C. 236-244), for expenses of primary and secondary schooling for dependents of Federal Aviation Administration personnel stationed outside the continental United States at costs for any given area not in excess of those of the Department of Defense for the same area, when it is determined by the Secretary that the schools, if any, available in the locality are unable to provide adequately for the education of such dependents, and (2) for transportation of said dependents between schools serving the area which they attend and their places of residence when the Secretary, under such regulations as may be prescribed, determines that such schools are not accessible by public means of transportation on a regular basis.

SEC. 304. Appropriations contained in this Act for the Department of Transportation shall be available for services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for a GS-18.

SEC. 305. None of the funds [appropriated] provided in this Act for the Panama Canal Commission may be expended unless in conformance with the Panama Canal Treaties of 1977 and any law implementing those treaties.

[SEC. 306. None of the funds provided in this Act may be used for planning or construction of rail-highway crossings under section 322(a) of title 23, United States Code, or under section 701(a)(5) or section 703(1)(A) of the Railroad Revitalization and Regulatory Reform Act of 1976, as amended, at the—

(1) School Street crossing in Groton, Connecticut; and

(2) Broadway Extension crossing in Stonington, Connecticut.]

[SEC. 307. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings funded in this Act.]

[SEC. 308. None of the funds in this Act shall be used to assist, directly or indirectly, any State in imposing mandatory State inspection fees or sticker requirements on vehicles that are lawfully registered in another State, including vehicles engaged in interstate commercial transportation that are in compliance with Part 396—Inspection

tion and Maintenance of the Federal Motor Carrier Safety Regulations of the United States Department of Transportation.]

SEC. [309] 306. None of the funds appropriated by this Act shall remain available for obligation beyond the current fiscal year [or may be transferred to other appropriations] unless expressly so provided herein.

SEC. [310] 307. Notwithstanding any other provision of law, total amounts of contract authority authorized in section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended, shall be available for obligation until expended.

[SEC. 311. None of the funds in this or any previous or subsequent Act shall be available for the planning or implementation of any change in the current Federal status of the Transportation Systems Center; and none of the funds in this Act shall be available for the implementation of any change in the current Federal status of the Turner-Fairbank Highway Research Center.]

SEC. [312] 308. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. [313] 309. (a) For fiscal year [1987] 1988 the Secretary of Transportation shall distribute the obligation limitation for Federal-aid highways by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bear to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(b) During the period October 1 through December 31, [1986] 1987, no State shall obligate more than 35 per centum of the amount distributed to such State under subsection (a), and the total of all State obligations during such period shall not exceed 25 per centum of the total amount distributed to all States under such subsection.

(c) Notwithstanding subsections (a) and (b), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned to a State, except in those instances in which a State indicates its intention to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code;

(2) after August 1, [1987] 1988; revise a distribution of the funds made available under subsection (a) if a State will not obligate the amount distributed during that fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code, and giving priority to those States which, because of statutory changes made by the Surface Transportation Assistance Act of 1982 and the Federal-Aid Highway Act of 1981, have experienced substantial proportional reductions in their apportionments and allocations; and

(3) not distribute amounts authorized for administrative expenses, [and] the Federal lands highway program, the block grant program, and the Strategic Highway Research program.

(d) The limitation on obligations for Federal-aid highways and highway safety construction programs for fiscal year [1987] 1988 shall not apply to obligations for emergency relief under section 125 of title 23, United States Code, and obligations under section 157 of title 23, United States Code[, projects covered under section 147 of the Surface Transportation Assistance Act of 1978, section 9 of the Federal-Aid Highway Act of 1981, subsections 131 (b) and (j) of Public Law 97-424, section 118 of the National Visitors Center Facilities Act of 1968, or section 320 of title 23, United States Code].

[(e) Notwithstanding any other provision of law, funds previously made available and unobligated for the "Auto Pedestrian Separation Demonstration Project" shall be available to the State of North Dakota for use on the 45th Street interchange in Fargo, North Dakota, and such funds transferred shall remain available until expended.]

(e) On or after October 1, 1987 and prior to distribution, the Secretary shall adjust the obligation limitation by the amount of change in the average annual net highway tax receipts into the Highway Account of the Highway Trust Fund for the 1987 through 1990 period,

from the estimate in the President's Budget transmitted on January 5, 1987, to that estimated by the Secretary of the Treasury in the most recent midsession review.

[SEC. 314. None of the funds in this Act shall be available for salaries and expenses of more than one hundred thirty-eight political and Presidential appointees in the Department of Transportation.]

[SEC. 315. Not to exceed \$750,000 of the funds provided in this Act for the Department of Transportation shall be available for the necessary expenses of advisory committees.]

SEC. [316] 310. None of the funds in this or any other Act shall be made available for the proposed Woodward light rail line in the Detroit, Michigan, area until a source of operating funds has been approved in accordance with Michigan law: *Provided*, That this limitation shall not apply to alternatives analysis studies under section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended.

SEC. 311. On or after October 1, 1987 and prior to distribution, the Secretary shall adjust the obligation limitation by the amount of change in the average annual net highway tax receipts into the Mass Transit Account of the Highway Trust Fund for the 1987 through 1990 period, from the estimate in the President's Budget transmitted on January 5, 1987, to that estimated by the Secretary of the Treasury in the most recent midsession review.

[SEC. 317. The limitation on obligations for the Discretionary Grants program of the Urban Mass Transportation Administration shall not apply to any authority under section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended, previously made available for obligation.]

SEC. [318] 312. Notwithstanding any other provision of law, none of the funds in this Act shall be available for the construction of, or any other costs related to, the Central Automated Transit System (Downtown People Mover) in Detroit, Michigan: *Provided*, That the immediately preceding provision shall not apply to \$5,000,000 apportioned to the Detroit Department of Transportation.

[SEC. 319. The City of Linden, New Jersey, and its successors and assigns are hereby released from all the terms, conditions, reservations, and restrictions contained in the deed dated February 27, 1947, by which the United States conveyed certain real property to the City of Linden, New Jersey, for airport purposes.]

SEC. [320] 313. None of the funds in this Act shall be used to implement section 404 of title 23, United States Code.

[SEC. 321. (a) SAFETY ENFORCEMENT PROGRAM PERFORMANCE.—The Secretary of Transportation shall on or before February 1, 1987, transmit to the Congress a comprehensive report on the fiscal year 1986 activities of the Federal Aviation Administration's operation and maintenance inspection and certification programs. The report shall include:

(1) a comparison of end-of-year staffing levels by inspector category to staffing goals and a statement as to the currency and validity of the staffing standards on which the goals are based;

(2) schedules showing the experience, in years, of the various inspector workforces and the extent to which inspectors have received all the mandatory or recommended training;

(3) a description of the criteria used to set annual work programs and an explanation of how these programs ensure compliance with appropriate Federal regulations and safe operating practices;

(4) a comparison of actual inspections performed during the fiscal year to the annual work programs disaggregated to the field locations;

(5) a statement of the adequacy of the internal management controls available to ensure that field managers are complying with inspection priorities and minimum inspection standards, and to collect and analyze inspection data;

(6) the status of the Department's efforts to update inspector guidance documents and Federal regulations to include technology, management, and structural changes taking place within the various transportation modes, including a listing of the backlog of proposed regulatory changes identified as being critical to safety;

(7) a list of the operational measures of effectiveness—"best proxies" standing between the ultimate goal of accident prevention and ongoing program activities—that are being used to evaluate progress in meeting program objectives, the quality of program delivery, and the nature of emerging safety problems;

(8) a listing of all enforcement actions taken, including all civil penalties, during the fiscal year by program, including the name and address of each organization against which an enforcement

action was taken, the reason for the action, and the type of action taken;

(9) a listing of the total amount of civil penalties assessed and closed by fiscal year beginning with fiscal year 1977; and

(10) a set of safety statistics covering each of the last ten years that best depict the safety record of each transportation sector regulated by departmental inspectors.

(b) **LONG-RANGE NATIONAL TRANSPORTATION STRATEGIC PLANNING STUDY.**—The Department of Transportation shall undertake a long-range, multi-modal national transportation strategic planning study. This study shall forecast long-term needs and costs for developing and maintaining facilities and services to achieve a desired national transportation program for moving people and goods in the year 2015. The modes to be included are interstate and other priority highways and roads, mass transportation, rail, pipelines, and aviation. The study shall include detailed analyses of transportation needs within six to nine metropolitan areas that have diverse population, development, and demographic patterns, including at least one interstate metropolitan area. The strategic transportation planning study shall address such issues as:

(1) the need to continue a national transportation policy and program to further social, environmental, and mobility goals and objectives of the Nation;

(2) public and private fiscal support, growth patterns, the demographic character of population, geographic differences, and projected development or decline in specific regions;

(3) the current and future material and human resource needs that include facilities and equipment, employee requirements, and training and educational needs for the necessary manpower;

(4) the market potential—including future travel demands—and future community developments and configurations that may affect transportation needs;

(5) the degree to which existing transportation networks can be further developed to meet future travel and goods movement demands in view of cost, land use, environmental, social, economic, and technological considerations; and

(6) the Federal program strategies and costs by mode of transportation necessary to achieve and maintain a desired transportation system in the year 2015.

This study shall be submitted to Congress on or before December 31, 1987.

(c) **ESSENTIAL AIR SERVICE OPTIONS STUDY.**—The Secretary of Transportation shall conduct a study of the impact to small and remote communities of the discontinuation of essential air service subsidies. The study shall, first, identify those communities which are likely to realize a transportation dislocation without some level of air service support. Having identified such communities, the Secretary shall identify various methods of continued air transportation support. In presenting these methods, the Secretary shall identify various financial support options for each. The study shall be conducted with appropriate consultation with affected communities. The Secretary shall transmit the study to the Congress by February 1, 1987.]

[Sec. 322. Within seven calendar days of the obligation date, the Urban Mass Transportation Administration shall publish in the Federal Register an announcement of each grant obligated pursuant to sections 3 and 9 of the Urban Mass Transportation Act of 1964, as amended, including the grant number, the grant amount, and the transit property receiving each grant.]

[Sec. 323. The Secretary of Transportation shall enter into negotiations with the City of Philadelphia, Pennsylvania, for an amendment to the full funding contract in effect with regard to the Center City Commuter Connection (UMTA Project No. PA-03-0013): *Provided*, That the Secretary shall commence negotiations with the appropriate local authorities to enter into such agreement no later than 30 days after enactment of this section and shall conclude an agreement no later than 90 days after enactment of this section: *Provided further*, That the agreement shall provide for the reimbursement of the Federal share of extraordinary costs incurred by the City on the project, including, but not limited to, existing eminent domain damages, a reasonable estimate of anticipated eminent domain damages, and costs that the City incurred pursuant to the Northeast Corridor Improvement Project and the Northeast Rail Service Act of 1981.]

[Sec. 324. (a) Section 411(f) of the Surface Transportation Assistance Act of 1982 is amended by inserting "(1)" before "For the purposes" and by adding at the end of such action the following:

"(2) **MAXI-CUBE VEHICLE DEFINED.**—For purposes of this section, 'maxi-cube vehicle' means a truck tractor combined with a semi-trailer and a separable cargo-carrying unit which is designed to

be loaded and unloaded through the semi-trailer, except that the entire combination shall not exceed 65 feet in length and the separable cargo-carrying unit shall not exceed 34 feet in length."

(b) Section 411(c) of such Act is amended by inserting after "prohibit" the following: "maxi-cube vehicles or".]

[Sec. 325. None of the funds in this Act shall be used for any study project involving access by a causeway or bridge across wetlands of the San Francisco Bay to U.S. Highway 880 in Alameda County, California.]

[Sec. 326. None of the funds appropriated in this Act may be used to prescribe, implement, or enforce a national policy specifying that only a single type of visual glideslope indicator can be funded under the facilities and equipment account or through the airport improvement program: *Provided, however*, That this prohibition shall not apply in the case of airports that are certified under Part 139 of the Federal Aviation Regulations.]

[Sec. 327. None of the funds in this Act shall be used to enforce any rules, policies, or guidelines which in any way condition, establish preference for, or otherwise base the granting or withholding of Federal assistance under this Act on the nature of the local transit planning or decision making process, or the decisions made as to the choice of public or private providers for the provision of mass transit services or functions: *Provided*, That it is not the intent of this section to supercede the existing statutory requirements of sections 3(e), 8(e), and 9(f) of the Urban Mass Transportation Act of 1964, as amended.]

[Sec. 329. The Secretary of Transportation is authorized to transfer appropriated funds under "Office of the Secretary, Salaries and expenses": *Provided*, That no appropriation shall be increased or decreased by more than 3 per centum by all such transfers: *Provided further*, That any such transfer shall be reported to the Committees on Appropriations.]

[Sec. 330. **PROHIBITION ON LANDING RIGHTS OF SOUTH AFRICAN AIRCRAFT.**—

(a) **PROHIBITION.**—The Secretary of Transportation shall prohibit the takeoff and landing of any aircraft by a foreign air carrier owned, directly or indirectly, by the Government of South Africa or by South African nationals.

(b) **EXCEPTIONS FOR EMERGENCIES.**—The Secretary of Transportation may provide for such exceptions from the prohibition set forth in subsection (a) as the Secretary considers necessary to provide for emergencies in which the safety of an aircraft or its crew or passengers are threatened.

(c) **REGULATORY AUTHORITY.**—The Secretary of Transportation shall issue such regulations, licenses, and orders as are necessary to carry out this section.

(d) **PENALTIES.**—

(1) **FOR PERSONS OTHER THAN INDIVIDUALS.**—Any person, other than an individual, that knowingly violates the provisions of this section or any regulation, license, or order issued to carry out this section shall be fined not more than \$500,000.

(2) **FOR INDIVIDUALS.**—Any individual who knowingly violates the provisions of this section or any regulation, license, or order issued to carry out this section shall be fined not more than \$250,000, or imprisoned not more than 5 years, or both.

(3) **ADDITIONAL PENALTIES FOR CERTAIN INDIVIDUALS.**—

(A) **IN GENERAL.**—Whenever a person commits a violation under paragraph (1) or (2)—

(i) any officer, director, or employee of such person, or any natural person in control of such person, who willfully ordered, authorized, acquiesced in, or carried out the act or practice constituting the violation, and

(ii) any agent of such person who willfully carried out such act or practice,

shall be fined not more than \$250,000, or imprisoned not more than 5 years, or both.

(B) **RESTRICTION ON PAYMENT OF FINES.**—A fine imposed under subparagraph (A) on an individual for an act or practice constituting a violation may not be paid, directly or indirectly, by the person committing the violation itself.

(4) **SEIZURE AND FORFEITURE OF AIRCRAFT.**—Any aircraft used in connection with a violation of this section or any regulation, license, or order issued to carry out this section shall be subject to seizure by and forfeiture to the United States. All provisions of law relating to the seizure, forfeiture, and condemnation of articles for violations of the customs laws, the disposition of such articles or the proceeds from the sale thereof, and the remission or mitigation of such forfeitures shall apply to the seizures and

forfeitures incurred, or alleged to have been incurred, under this paragraph, insofar as such provisions of law are applicable and not inconsistent with the provisions of this section; except that all powers, rights, and duties conferred or imposed by the customs laws upon any officer or employee of the Department of the Treasury shall, for purposes of this paragraph, be exercised or performed by the Secretary of Transportation or by such persons as the Secretary may designate.

(e) DEFINITIONS.—

(1) AIRCRAFT AND FOREIGN AIR CARRIER.—The terms “aircraft” and “foreign air carrier” have the meanings given those terms in section 101 of the Federal Aviation Act of 1958 (49 U.S.C. App. 1301).

(2) SOUTH AFRICA.—The term “South Africa” includes—

- (A) the Republic of South Africa;
- (B) any territory under the administration, legal or illegal, of South Africa; and
- (C) the “bantustans” or “homelands”, to which South African blacks are assigned on the basis of ethnic origin, including the Transkei, Bophuthatswana, Ciskei, and Venda.

(3) SOUTH AFRICAN NATIONAL.—The term “South African national” means—

- (A) a citizen of South Africa; and
- (B) any partnership, corporation, or other entity organized under the laws of South Africa.

(f) APPLICABILITY TO EVASIONS.—This section and the regulations issued to carry out this section shall apply to any person who undertakes or causes to be undertaken any transaction or activity with the intent to evade this section or such regulations.]

[SEC. 332. Notwithstanding any other provision of law, funds appropriated under any heading in this Act or in Appropriations Acts for prior years and intended for studies, reports, or research, and related costs thereof including necessary capital expenses, are available for such purposes to be conducted through contracts or financial assistance agreements with the educational institutions which are specified in such Acts or in any report accompanying such Acts.]

Sec. [333] 314. (a) Notwithstanding any other provision of law, the Secretary of Transportation may use [not to exceed one-half of 1 percent of—

(1) the funds made available for fiscal year 1987 by section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended, to carry out section 3 of such Act to contract with any person to oversee the construction of any major project under such section;

(2) any of:

(1) the funds appropriated for fiscal year [1987] 1988 pursuant to [section 21(a)(1) of] the Urban Mass Transportation Act of 1964, as amended, to carry out [section 9] sections 9 and 18 of such Act to contract with any person to oversee the construction of any major project under [such section;] the Act; and

[(3) the funds appropriated for fiscal year 1987 pursuant to section 21(a)(1) of the Urban Mass Transportation Act of 1964, as amended, to carry out section 18 of such Act to contract with any person to oversee the construction of any major project under such section;]

[(4) the funds appropriated for fiscal year 1987 pursuant to section 4(g) of the Urban Mass Transportation Act of 1964, as amended, to contract with any person to oversee the construction of any major public transportation project substituted for an Interstate segment withdrawn under section 103(e)(4) of title 23, United States Code; and]

[(5) (2) the funds appropriated for fiscal year [1987] 1988 pursuant to the National Capital Transportation Act of 1969 to contract with any person to oversee the construction of any major project under such Act.

(b) Any contract entered into under subsection (a) shall provide for the payment by the Secretary of Transportation of 100 percent of the cost of carrying out the contract.

[(c) This section shall take effect on October 1, 1986, and shall cease to be in effect at the close of September 30, 1987.]

[SEC. 334. The Secretary of Transportation shall permit the obligation of not to exceed \$4,000,000, apportioned under title 23, United States Code, section 104(b)(5)(B) for the State of Florida for operating expenses of the Tri-County Commuter Rail Project in the area of Dade, Broward, and Palm Beach Counties, Florida during the period Interstate 95 is under reconstruction in such area.]

Note.—Public Laws 99-500 and 99-591, section 101(l), provide funds to the extent and in the manner provided for in the conference version of H.R. 5205, Department of Transportation and Related Agencies Appropriations Act, 1987.

[SEC. 331. AIR TRAFFIC CONTROLLER WORK FORCE REQUIREMENTS.—The Federal Aviation Administration shall satisfy the following criteria by September 30, 1987:

“(a) total air traffic controller work force level of 15,000;

“(b) with respect to the air traffic controller work force, of those individuals eligible to be Full Performance Level controllers, 70 percent shall have achieved Full Performance Level status;

“(c) with respect to staffing at particular air traffic control facilities, of those individuals eligible to be Full Performance Level controllers, at least 60 percent at all centers and level 3 and above terminals shall have achieved Full Performance Level status.” (Public Laws 99-500 and 99-591, providing continuing appropriations for the fiscal year 1987, section 101(l).)

[SEC. 112. Notwithstanding any other provision of law, none of the funds in this or any other Act shall be used by the Coast Guard to participate in any demonstration project or to implement in any way the extension of the navigation season on the Great Lakes or the St. Lawrence River without written notification and prior approval of the House and Senate Committees on Appropriations: *Provided*, that nothing in this section shall preclude the Coast Guard from performing routine search and rescue operations.] (Public Laws 99-500 and 99-591, providing continuing appropriations for the fiscal year 1987, section 112.)

The Departmental Offices function serves as the principal policy formulation and management arm of the Secretary of the Treasury.

Secretarial policy and program development.—The Secretary has primary responsibility for formulating and recommending domestic and international financial policy, economic policy, and tax policy; managing the public debt; and participating in the formulation of broad fiscal policies that have general significance for the economy.

Inspector General.—This activity is responsible for maintaining a comprehensive audit and internal investigation program. It is organizationally independent and reports directly to the Secretary and the Deputy Secretary.

International affairs.—The programs conducted within this activity are designed to analyze and implement international monetary and development financing policy. Additional staff support is provided in areas concerned with international investment, trade, and balance of payments issues.

Departmental management and administration.—This activity provides central administrative policies and guidance to the entire Department; the direct administrative support required for the Departmental Offices operations; oversight and management of departmental information technology development; and computer support and services.

Buildings maintenance and operations.—This activity provides for maintenance and operation of the main Treasury Building and the Annex, including utilities, and custodial and craftsmen services. In addition, this activity provides for all telecommunications facilities

Matching funds in primaries.—Upon certification by the Federal Election Commission, every candidate entitled to receive payments is entitled to an amount equal to the contributions each has received on or after the beginning of the calendar year immediately preceding the election year.

Nominating conventions of parties.—Upon certification by the Commission, payments may be made to the national committee of a major party or a minor party which elects to receive its entitlement. The total of such payments will be limited to the amount in the account at the time of payment. The national committee of each party may receive payments beginning on July 1 of the year immediately preceding the calendar year in which a presidential nominating convention of the political party is held. The two major parties will receive \$3 million each, plus a cost-of-living increase.

Candidates for general elections.—The eligible candidates of each major party in a presidential election will be entitled to equal payments in an amount which, in the aggregate, shall not exceed \$20 million each, plus a cost-of-living increase.

Also, provision is made for new parties, minor parties and candidates, who may receive in excess of 5 percent of the popular vote and, therefore, be entitled to reimbursement of qualified campaign expenditures.

The Secretary of the Treasury is authorized to deal in gold and foreign exchange and other instruments of credit and securities as deemed necessary, consistent with U.S. obligations in the International Monetary Fund (IMF), regarding orderly exchange arrangements. An Exchange Stabilization Fund, with a capital of \$200 million, is authorized by law for this purpose (31 U.S.C. 5302). All earnings and interest accruing to this fund are available for the purposes thereof. Transactions in special drawing rights (SDR's) and U.S. holdings of SDR's are administered by the fund. U.S. drawings from the IMF are also advanced to the fund.

The principal sources of the fund's income have been profits on foreign exchange transactions and interest on foreign exchange swap transactions and on investments held by the fund, including interest earned on fund holdings of U.S. Government securities.

Due to the impracticability of forecasting fund transactions in foreign currency and foreign investment, projections are not provided for those items. However, as an offset to actual data and projections made in the budget for interest paid on U.S. Government securities, data for the interest income on fund holdings of U.S. Government securities is provided for 1986 and projected for 1987 and 1988. Holdings of U.S. Government securities amounted to \$481 million on September 30, 1986. The interest earnings on these securities is estimated to increase these holdings to \$513 million in 1987 and \$544 million in 1988. As required by Public Law 95-612, the fund no longer is used to meet administrative expenses.

¹ Pursuant to the Special Drawing Rights Act of 1968, Special Drawing Rights (SDR) allocated to or otherwise acquired by the United States are resources of the Exchange Stabilization Fund (ESF). SDR, once allocated, are permanent resources unless cancelled (which requires an 85 percent majority decision of the total voting power of the Board of Governors of the International Monetary Fund), the Special Drawing Account is liquidated, the International Monetary Fund is liquidated, or the United States chooses to withdraw from the Fund or terminate its participation in the Special Drawing Account. Except for payment of interest and charges on SDR allocations to the United States, the payment of the Exchange Stabilization Fund liability related to SDR allocations is conditional on events listed above, in which the United States has a substantial or controlling voice. The Special Drawing Rights Act also authorizes the Secretary of the Treasury to issue Special Drawing Rights certificates to the Federal Reserve Banks in return for dollar deposits in amounts equal to the value of the SDR held. The certificates may be issued to finance the acquisition of SDR from other countries or to provide resources for financing ESF operations.

The Office of Revenue Sharing was established to implement the State and Local Fiscal Assistance Act of 1972, as amended. It is responsible for correctly computing and distributing revenue sharing payments and maintaining adequate controls to insure integrity of the trust funds; supplying adequate information, data, and technical assistance to all recipients to assure compliance with the Act; improving the quality of State and local audits to eliminate noncompliance with audit requirements; insuring compliance with the nondiscrimination and public participation provisions of the Act; and at regular intervals, reporting to Congress, recipient governments, and the general public.

The Revenue Sharing Act was not reauthorized upon its expiration at the end of 1986. This budget does not include any request for the salaries and expenses appropriation for 1988.

The Federal Law Enforcement Training Center provides the necessary facilities, equipment, and support services for conducting recruit, advanced, specialized, and refresher training for Federal law enforcement personnel. Center personnel conduct the instructional programs for the basic recruit and some of the advanced training. This appropriation is for operating expenses of the Center, for research in law enforcement training methods, and curriculum content. The 1988 estimate provides for law enforcement training; maintenance and facility improvements; planning and curricula development for the Center. In addition, the Center has a reimbursable program to accommodate the training requirements of various Federal agencies and for certain State and local law enforcement personnel.

Financial operations—Field operations.—Payments are made through 7 regional offices for Federal civilian agencies, except the U.S. Postal Service, the U.S. Marshals Service, and certain Government corporations. These disbursing services are provided through the timely issuance of checks, letters of credit, and electronic funds transfer (EFT) payments. Field Operations is

also responsible for prescribing Federal Government payment policy, for processing EFT claims, and for providing full field representation for other functional areas of the Service.

The total checks, savings bonds, and electronic funds transfer payments, and productivity relating to this function carried out by Field Operations follow:

General financial services.—This activity provides financial services for numerous accounts, including the two Social Security Trust Funds, the two Medicare Trust Funds, the Unemployment Trust Fund, the D.C. Government loan account and the Airport and Airway Trust Fund. In addition, this activity provides for payment of domestic and international claims.

Federal finance.—This activity is involved in the efficient and effective management of the Government's cash flow, assets, and liabilities. Its responsibilities include implementation and enhancements to a number of collection mechanisms, improvements in the Government's forecast of receipts, outlays, and balances; and credit management and debt collection efforts throughout Government. It proposes legislation and develops regulations for the implementation of cash and credit management initiatives and provides assistance to agencies.

Federal tax deposit fee payments.—This activity oversees fee payments made to commercial depositories for Federal Tax Deposits processed under the Tax and Loan Investment Program, and Treasury in turn earns interest on funds held on deposit.

Information systems.—This activity is responsible for overseeing the development, implementation, improve-

ment, and operation of information and financial management systems which support and promote sound money management in the Federal Government. It is responsible for automated data processing (ADP) operations and the associated computer support and services necessary to process the Service's internal administrative and Government-wide systems. Specific functions include operating and maintaining all central computer systems and data communications mechanisms, scheduling and processing the development and production workloads, installing software, planning and coordinating hardware installations, and acquiring ADP and telecommunications equipment, software, services and supplies. It also supports a large number of developmental efforts which will enhance the collections, payments, accounting, reporting, and resources management functions of the Service.

This activity includes the check payment and reconciliation operation with volume and related productivity as follows:

The Energy Security Reserve was created principally to finance the activities of the U.S. Synthetic Fuels Corporation. Public Law 99-190, making continuing appropriations for 1986, rescinded the balance of unobligated funds available to the Corporation. The Act left \$10 million in the Reserve for the Corporation's liquidation and \$400 million for a Clean Coal Technology Demonstration program, which has been transferred to a new account in the Department of Energy. The Act also transferred responsibility for ongoing projects of the Corporation to the Secretary of the Treasury; these projects' activities and financing will continue to be displayed in this account.

This fund is for use by the U.S. Treasury in making settlement with the payees or special endorsees in case of checks drawn on the U.S. Treasury which have been paid on forged endorsements.

To reduce hardships sustained by payees of Government checks that have been stolen and forged, settlement is made in advance of the receipt of funds from the endorers of the checks through reclamation procedure by this office. Benefits from these early settlements are shared by claimants and the Government in that the claimants are more quickly restored financially to their proper position and the Government is spared the necessity of much unproductive correspondence. If the U.S. Treasury is unable to recover funds, the revolving account sustains the loss.

Esther Cattell Schmitt gift fund.—Public Law 87-467 (76 Stat. 88) authorized the acceptance of the gift made to the United States by the will of Esther Cattell Schmitt. The income received from the gift to the United States is paid by the Secretary of the Treasury to beneficiaries named in provisions of the will.

National defense conditional gift fund.—The Secretary of the Treasury accepts on behalf of the United States, conditional gifts of money or other intangible property to be used for a particular defense purpose. Intangibles other than money are converted at the best terms available. The moneys held in trust are paid to those appropriation accounts which best implement the intent of the donors (68 Stat. 566).

Pershing Hall gift fund.—This fund is used for the maintenance of Pershing Hall in Paris, France, which honors veterans of World War I (36 U.S.C. 491).

The Federal Financing Bank (FFB) was created to assure the coordination of Federal and federally assisted borrowing from the public and to assure that such borrowings are financed in a manner least disruptive of private financial markets and institutions.

The Bank is the vehicle through which most Federal agencies finance their programs involving the sale or placement of credit market instruments, including agency securities, guaranteed obligations, participation agreements, and loan assets. The major exceptions are Title XI ship mortgage bonds and Government National Mortgage Association asset sales.

Transactions by the FFB on behalf of a Federal agency are treated as a means of financing the agency—i.e., lending by the FFB to the agency and borrowing by the agency from the FFB. These transactions are not reflected directly in the budget totals because borrowing and the repayment of borrowing between Federal agencies and the Treasury are not budgetary transactions. Rather, the budget authority and the outlays of the agency that are financed by such borrowing are reflected in particular agency accounts and, hence, in the budget totals.

Lending by the FFB to an agency may be accomplished in any of three forms (the form used depends on the authorizing statutes pertaining to a particular agency or program): (1) the FFB may purchase agency financial assets; (2) the FFB may originate direct loans on behalf of an agency; and (3) the FFB may acquire debt securities that the agency is otherwise authorized to issue to the public. In the case of FFB loan originations, the FFB actually disburses loans directly to private borrowers on behalf of the agency and receives repayments from the private borrower on behalf of the agency. However, consistent with the legal requirement that transactions by the FFB be treated as a means of financing agency obligations, the budget reflects the budgetary effect of those transactions, which, in succession, are a loan by the FFB to the agency, a loan by the agency to a private borrower, a repayment by a private borrower to the agency, and a repayment by the agency to the FFB. Conceptually, the budgetary treatment of interest on loans originated by the FFB should be consistent with the treatment of principal; that is, the budget would show collections of interest by the agency from loans to the public and payments of interest by the agency on its borrowing from the FFB (the amounts collected and paid would normally be equal and offsetting). However, data on collections by the FFB on behalf of agencies by agency are not available, so these

interest collections are shown in the aggregate in the FFB fund.

The following table shows by agency and program the net lending by the FFB during each year and the amount of loans outstanding at the end of the year.

For 1988, the Administration will propose legislation to charge borrowers from the Federal Financing Bank an additional fee of 3/8 of one percent per annum on all new borrowings after September 30, 1987. The fee is based on the additional costs that borrowers would have otherwise been charged had they issued obligations of a type ordinarily financed in investment securities markets and held by the public. The legislation will provide that all additional fees to be paid to the Bank will be returned to the General Fund of the Treasury. In addition, the Administration will seek to fund the administrative expenses of the Federal Financing Bank through a direct appropriation to a new Federal Financing Bank administrative and expenses account.

Tactical interdiction.—Operating under the authority of titles 19 and 26, U.S. Code, the tactical interdiction program is directed at combating smuggling activity along our national borders by maintaining a highly mobile interdiction force which is proficient in land, sea and certain air tactical enforcement operations.

Investigations.—This program is the investigative arm of the Customs Service involved in conducting criminal, civil, and fact-finding investigations of customs and related laws, including currency, fraud, neutrality, smuggling, and illegal exports of critical technology.

Commercial Activities.—In 1988, all of the Customs Service commercial activities will be funded from the Customs User Fee Account, pursuant to Public Law 99-509. The commercial operations to be funded within this category include the commercial activities currently provided for in the Inspection and Control, Tariff and Trade and Investigations activities.

Note.—After 1986, collections will be reported as special fund receipts and budget authority when appropriated. A 1986 appropriation permitted the use of \$7,656,000 of the \$44,550,000 collected or available and erroneously credited to this account. The balance of the collections and the unused portion of the appropriation have been returned to the special fund receipt account.

Public Law 98-573 and Public Law 98-473 authorized Customs to establish a Customs Forfeiture Fund. Seized and forfeited currency and any proceeds beyond the

expenses of seizure and forfeiture of merchandise are deposited into this account. Use of these funds is limited to the following: (1) expenses, including investigative costs, related to seizure; (2) awards to informants; (3) payments of liens related to seizures; (4) equipping any vessels, vehicles and aircraft for law enforcement purposes; (5) payment of claims of "parties of interest to property disposed"; (6) purchase of evidence; and (7) destruction of drugs; (8) reimbursement to citizens for expenses incurred in cooperating with Customs in investigative and undercover operations; and (9) cost of publicizing the availability of rewards.

debt instruments, as well as most of the minor evidences of a financial character issued by the United States, such as postage and internal revenue stamps. The Bureau executes certain printings for various territories administered by the United States, particularly postage and revenue stamps.

The anticipated work volume is based on estimates of requirements submitted by agencies served. The program comprises the following activities:

Engraving and printing—

Currency.—Total deliveries of currency for 1987 and 1988 are estimated to be 6.9 and 7.3 billion notes. During 1986 the Bureau delivered 6.7 billion Federal Reserve notes.

Stamps.—This category of work is comprised mainly of postal and internal revenue stamps. The projected requirements for 1987 and 1988 are 35.2 and 32.2 billion stamps, respectively. In 1986, the Bureau delivered 33.6 billion stamps.

Securities.—This program encompasses the production of a wide variety of bonds, notes, and debentures for the Bureau of Public Debt and certain other agencies of the Government.

Commissions, certificates, etc.—This program is comprised primarily of Presidential and Department of Defense commissions and certificates, White House invitations, and identification cards for various Government agencies. It represents a small portion of the Bureau's total workload.

Space utilized by other agencies.—Other agencies are charged for services provided in the space occupied in the Bureau's buildings.

Other miscellaneous services.—A wide variety of miscellaneous services are performed by Bureau personnel for other agencies, which are charged on an actual cost basis.

Purchase of operating equipment.—This category consists of new purchases and replacement of printing equipment and other related printing items.

Plant alterations and experimental equipment.—This category encompasses alterations made on the Bureau's buildings and purchases of experimental equipment.

The operations of the Bureau are currently financed by means of a revolving fund established in accordance with the provisions of Public Law 656, August 4, 1950 (31 U.S.C. 181), which requires the Bureau to be reimbursed by customer agencies for all costs of manufacturing products and services performed. The Bureau is also authorized to assess amounts to acquire capital equipment and provide for working capital needs. Bureau operations during 1986 resulted in an accumulated retained earnings of \$56.8 million.

This appropriation provides funds for the conduct of all public debt operations and the promotion of the sale of U.S. savings-type securities.

Processing and accounting for:

Savings securities.—This activity is concerned with the issuance, servicing, and retirement of savings

bonds and notes and retirement-type securities, including: (1) The maintenance and servicing of individual accounts of owners of series H and HH bonds and the authorization of interest payments, and (2) the maintenance of accounting control over financial transactions, securities transactions and accountability, and interest cost. These functions are performed directly by the Bureau of the Public Debt, by the Federal Reserve Banks as fiscal agents of the United States, and by the 44,000 qualified agents which issue and redeem savings bonds and notes.

Marketable and special securities.—This activity is concerned with all securities of the United States, other than savings and retirement securities, including securities of Government corporations for which the Bureau of the Public Debt provides services. Functions performed relate to the issuance, servicing, and retirement of these securities, both directly by the Bureau and through the Federal Reserve Banks, as fiscal agents, including: (1) The maintenance and servicing of individual accounts of owners of registered securities and book-entry Treasury bills; (2) the authorization of interest and principal payments; and (3) the maintenance of accounting control over financial transactions, securities transactions and accountability, and interest cost. Budget policy supports moving toward full reimbursement of Federal Reserve Banks for their fiscal agent services. As of August 1986, the Bureau eliminated all new issues of definitive securities and began offering notes and bonds in full book-entry form only. The Bureau has developed, in conjunction with the Federal Reserve, a new Treasury Direct Access System for new issues of notes and bonds in book-entry form and will phase out the in-house Treasury Bill System to provide for a single direct access system for all Treasury marketable securities. For 1988, the Administration will propose legislation that permits the reimbursement of Federal Reserve Banks as fiscal agents for services in processing marketable book-entry United States securities out of fees collected for that purpose. The fees would be deposited in a special fund and appropriations would be made from that fund.

Promoting the sale of savings bonds.—This activity consists of sales promotion efforts, using press, radio, other advertising media, and organized groups, augmented by concentrated sales campaigns emphasizing payroll savings plans. These functions are performed by the U.S. Savings Bonds Division, a separate organization within the Department of the Treasury.

This appropriation provides for processing tax returns and related documents, and maintaining accurate, current taxpayer accounts by means of an automated system.

Returns processing and revenue accounting.—This activity provides for all actions associated with the mailing out of tax return forms and instructions, receipt of completed returns and payments, deposit of those payments, processing and accounting for revenue collections and Federal Tax Deposits and verification through an automated master file system of the accuracy of information provided by the taxpayer. It provides for payment of refunds, offset of refunds against delinquent accounts, issuance of notices that payments are overdue, identification of possible nonfilers for investigation, and assistance in the selection of tax returns for audit. This activity also prepares statistical information and provides for computer operations at the ten service centers and district offices.

Computer services.—This activity provides ADP support to process tax returns, maintain account records, and aid tax enforcement and productivity management.

This appropriation provides for the examination of tax returns, both domestic and international, and the administrative settlement of taxpayer appeals of examination findings. Funds are requested to continue the Service's ability to assure evenhanded application and adequate enforcement of the tax laws and to maintain a satisfactory rate of voluntary compliance with the internal revenue laws. It also provides for monitoring employee pension plans, determining qualifications of organizations seeking tax-exempt status, and examining tax returns of exempt organizations.

Examination.—This activity encourages voluntary compliance with the internal revenue laws through the determination of correct tax liability by the selective examination of tax returns, the correction of errors, and explanation of these corrections to taxpayers.

Appeals and tax litigation.—The appeals portion of this authority provides for an independent administrative review of contested tax assessments and adjustments with the objective of settling tax controversies without litigation. When settlement is not possible, the tax litigation portion of the activity provides for the handling of Tax Court litigation and for the coordination of the Service's legal position in order to assure consistency.

International.—This activity directs the full range of IRS enforcement and assistance programs related to U.S. taxpayers doing business or residing outside the United States as well as non-resident aliens with a U.S. tax obligation; provides technical tax training and administrative assistance to foreign governments; works with States on exchange of information and other programs of mutual benefit; provides compliance and taxpayer service support to Puerto Rico, the Virgin Islands and certain Pacific Island jurisdictions; and manages activities related to tax treaties between the United States and other governments. The International Counsel function identifies and resolves international tax issues; provides timely guidance to the field through both routine program assistance to the Assistant Commissioner (International) and to District Counsel and International Examiners with respect to specific cases and issues; and provides timely guidance to taxpayers and tax practitioners through the rulings and regulations program.

Employee plans and exempt organizations.—This activity monitors private pension plans to insure compliance with the Employee Retirement Income Security Act of 1974, as amended, determines whether organizations seeking tax-exempt status meet certain tests to qualify, and examines tax returns of those organizations to insure compliance with such an exemption and to insure payment of unrelated business income taxes.

General and special funds—Continued

EXAMINATIONS AND APPEALS—Continued

It also examines the returns of private foundations to insure payment of proper excise taxes.

This appropriation provides for enforcing statutes relating to detection and investigation of criminal violations of the Internal Revenue laws, collecting unpaid accounts, securing unfiled tax returns and payments, providing assistance to taxpayers and preparing technical rulings.

Tax fraud investigations.—This activity provides for enforcement of the criminal statutes relating to viola-

tions of Internal Revenue laws. It investigates cases of suspected intent to defraud, recommends prosecution as warranted, and assists in the preparation and trial of criminal tax cases.

Collection.—This activity has the responsibility for collecting unpaid accounts and securing delinquent returns; developing and implementing programs to prevent accounts from becoming delinquent and preventing nonfiling; and determining and analyzing the reasons for and the types of nonfiling.

Taxpayer service.—This activity aids voluntary compliance with Federal tax laws by informing taxpayers of their responsibilities and by providing services and information through various media which assist them in meeting their obligations. Inquiries concerning tax laws, IRS notices and procedures, and tax account problems are resolved.

Enforcement litigation, and technical.—This activity provides legal advice and assistance to field enforcement activities, furnishes non-tax legal services and provides legal expertise in the issuance of ruling letters; technical advice; publication of revenue rulings and revenue procedures; review of legislation; interpretation of statutes and drafting of regulations.

Under certain circumstances, as provided in 26 U.S.C. 6611, interest is paid on Internal Revenue collections which must be refunded. The Tax Equity and Fiscal Responsibility Act of 1982 (Public Law 97-248) provides for daily compounding of interest. Under the Tax Reform Act of 1986 (Public Law 99-514), interest paid on Internal Revenue collections will equal the Federal short-term rate plus two percentage points, such rate to be adjusted quarterly. An 8 percent rate will be in effect from January 1, 1987, through March 31, 1987.

This revolving fund was established pursuant to section 112(a) of the Federal Tax Lien Act of 1966, to serve as the source of financing the redemption of real property by the United States. In collecting delinquent taxes, situations arise where it is to the Government's advantage to buy property on which it has a lien when the property is sold at a foreclosure sale brought by the holder of a lien which is superior to the Government's. The advantage arises when the property is worth substantially more than the first lienholder's equity but is being sold for an amount that barely covers that equity, thereby leaving no proceeds to apply against delinquent taxes. Under these circumstances, if the Government buys the property and subsequently puts it up for sale under more advantageous conditions, it is possible to realize sufficient profit on the transaction to fully or partially collect the amount of taxes due. The revolving fund is reimbursed from the proceeds of the sale in an amount equal to the amount expended from the fund for the redemption. The balance of the proceeds are applied against the amount of the tax, interest, penalties, and additions thereto, and for the costs of sale. The remainder, if any, would revert to the parties legally entitled to it.

ADMINISTRATIVE PROVISION—INTERNAL REVENUE SERVICE

SECTION 1. Not to exceed [1] 5 per centum of any appropriation made available to the Internal Revenue Service for the current fiscal year by this Act may be transferred to any other Internal Revenue Service appropriation.

SEC. 2. Not to exceed 15 per centum, or \$15,000,000, whichever is greater, of any appropriation made available to the Internal Revenue Service for document matching for the current fiscal year by this Act may be transferred to any other Internal Revenue Service appropriation for document matching. (Treasury Department Appropriations Act, 1987, as included in Public Laws 99-500 and 99-591, section 101(m).)

The Secret Service is responsible for protection of the President and other officials, investigating counterfeiting of currency and check forgeries, protection of the White House and various other buildings within Washington, DC.

Investigations, protection, and uniformed activities.—The Service must provide for the protection of the President of the United States, members of his immediate family, the President-elect, the Vice President, or other officer next in the order of succession to the Office of the President, and the Vice President-elect, and the members of their immediate families unless the members decline such protection; protection of the person of a visiting head and accompanying spouse of a foreign state or foreign government and, at the direction of the President, other distinguished foreign visitors to the United States and official representatives of the United States performing special missions abroad; the protection of the person of a former President and his wife during his lifetime, the protection of the person of the widow of a former President until her death or remarriage, and minor children of a former President until they reach 16 years of age, unless such protection is declined. The Service is also responsible for investigation of counterfeiting of currency, specie, and securities; forgery and altering of Government checks and bonds; thefts and frauds relating to Treasury electronic funds transfers; and other criminal and noncriminal cases.

The Secret Service Uniformed Division protects the Executive Residence and grounds in the District of Columbia; any building in which White House offices are located; the President and members of his immediate family; the official residence and grounds of the Vice-President in the District of Columbia; the Vice President and members of his immediate family; foreign diplomatic missions located in the Washington metropolitan area; the Treasury Building, its Annex and grounds, and such other areas as the President may direct on a case-by-case basis.

Presidential candidate protective activities.—The Secret Service is authorized to protect major Presidential or Vice-Presidential candidates, as determined by the Secretary of the Treasury after consultation with an advisory committee. In addition, the Service is authorized to protect the spouses of major Presidential and Vice-Presidential candidates; however, such protection may not commence more than 120 days prior to the general Presidential election.

The Office of the Comptroller of the Currency was created for the purpose of establishing and regulating a national banking system. The National Currency Act of 1863 (12 U.S.C. 1 et seq., 12 Stat. 665) provided for the chartering and supervising functions in this connection. The income of the bureau is derived principally from assessments paid by national banks and interest on investments in U.S. Government obligations.

The Administrator of National Banks charters new banking institutions only after investigation and due consideration of charter applications. Supervision of existing national banks is aided by the required submission of periodic reports and detailed onsite examinations, which are conducted by a staff of approximately 2,100 national bank examiners. At present, there are approximately 5,000 national banks with more than 26,600 operating branches and total assets of more than \$1.6 trillion.

In addition, the Comptroller considers applications for mergers in which the resulting bank will be a national bank and applications from banks to establish branches. The Comptroller of the Currency also promulgates rules and regulations for the guidance of national banks and bank directors.
