The Harbor Maintenance Trust Fund was established in accordance with the Harbor Maintenance Revenue Act of 1986 (Public Law 99-662, Title XIV). Under existing law, revenue is derived from: (1) receipts from a 0.04% ad valorem user fee imposed on commercial cargo loaded and unloaded at specified U.S. ports open to public navigation, and (2) collection of charges and tolls imposed by the Saint Lawrence Seaway Development Corporation.

The Harbor Maintenance Revenue Act also authorized expenditures from the Trust Fund to fully finance the operation and maintenance of the Corporation, to finance up to 40 percent of Corps of Engineers' commercial harbor operation and maintenance (O&M) costs, including O&M costs associated with Great Lakes navigational projects, and to rebate the U.S. portion of tolls paid on the Seaway.

For appropriation language, see the following accounts: Army Corps of Engineers, Civil "Operation and Maintenance, General"; St. Lawrence Seaway Development Corporation "Operation and maintenance"; and Department of the Treasury "St. Lawrence Seaway toll rebate program".

**ADMINISTRATIVE PROVISIONS**

Appropriations in this title shall be available for expenses of attendance by military personnel at meetings in the manner authorized by section 4110 of title 5, United States Code, uniforms, and allowances therefor, as authorized by law (5 U.S.C. 5901-5902), and for printing, either during a recess or session of Congress, of survey reports authorized by law, and such survey reports as may be printed during a recess of Congress shall be printed, with illustrations, as documents of the next succeeding session of Congress; *not to exceed \$5,000 for official reception and representation expenses*; and during

the current fiscal year the revolving fund, Corps of Engineers, shall be available for purchase (not to exceed [225] 200 for replacement only) and hire of passenger motor vehicles.

These appropriations provide for a program of development and conservation of fish and wildlife and the development of recreational facilities on military reservations. Proceeds from the sale of fishing and hunting permits are used for these programs on the 45 Army, 22 Navy and Marine Corps, and 33 Air Force bases charging such fees. These programs are carried out through cooperative plans agreed upon by the local representatives of the Secretary of Defense, the Secretary of the Interior, and the appropriate agency of the State in which the reservation is located.

*Grants for the disadvantaged.—*

*Grants to local educational agencies.—*Funds made available under this activity enable local educational agencies to provide supplementary compensatory education services for disadvantaged elementary and secondary school students. Funds are allocated to local school districts on the basis of a statutory formula.

*State agency programs.—*The programs within this activity make financial assistance available to State educational agencies for supplementary compensatory education services to migrant children, handicapped children in State operated programs, and neglected or delinquent children in State institutions. In each of the three State agency programs, funds are provided to the appropriate State agencies on the basis of an annual count of eligible children.

*State administration.—*This activity provides funds to State educational agencies to administer the programs authorized under chapter 1.

*Evaluation and technical assistance.—*Funds provide technical assistance to local school districts and State educational agencies and support activities to evaluate the program.

*Reimbursable program.—*Amounts in this activity consist of: payments made to the Department of Education as audit recoveries which the Secretary has grant-

**Maintenance and operations.**—Payments are made to school districts when enrollments and the availability of revenues from local sources have been adversely affected by Federal activities. Funds are provided to districts under section 3(a) for children who live on and whose parents work on Federal property or are on active duty in the uniformed services. For 1989, funds available for section 3(a) payments would total \$547 million. Payments on behalf of 3(a) children (other than those residing in Federally-subsidized, low-rent housing) would be made according to the following schedule:

Percentage of 3(a) children in district:	Percentage of entitlement to be paid
35-100 .....	100
20-34 .....	95

15-19 .....	75
10-14 .....	50
Under 10 .....	(1)

<sup>1</sup> Prorated share of remaining funds.

In 1989, payments would be made to about 1,100 school districts for 330,000 children under section 3(a). Section 2, which provides payments to certain districts having a partial loss of tax base, would be funded at \$10 million.

**Disaster assistance.**—For 1989, \$10 million in new budget authority is requested for this activity. Carry-over funds remaining unobligated at the end of 1988 will also be available for assistance to school districts that have suffered damage to their facilities from a major disaster.

**Construction.**—Budget authority of \$25 million is requested for 1989 for construction of school facilities in school districts that serve children connected with Federal activities.

**Improving school programs.—**

*State block grants.*—Legislation is pending to reauthorize chapter 2 of the Education Consolidation and Improvement Act of 1981. Under this program, States and outlying areas receive grants according to a statutory formula based on school-age population to improve the quality of elementary and secondary education for children in public and private schools. Of the total allotted to each State, the State may currently reserve up to 20 percent for State use and must distribute the remainder to local educational agencies.

*Secretary's discretionary fund.*—Under pending legislation, the Secretary would continue to support programs of national or regional significance.

**Drug-free schools and communities.—**

*State grants.*—Legislation is pending to reauthorize the Drug-Free Schools and Communities Act of 1986. Under this program, States and outlying areas receive grants, according to a statutory formula based on school age population, to assist in combating the abuse of drugs and alcohol by the Nation's children and youth.

*National programs.*—Under pending legislation, funds would continue to support programs at institutions of higher education, programs for Indian youth, programs for Native Hawaiians, regional centers, and Federal activities for preventing alcohol and drug abuse.

**Science and math education.—**

*State grants.*—Funds available for this activity are used by State and local educational agencies to carry out programs to train teachers and improve instruction in mathematics, science, and computer learning. Under pending legislation to reauthorize this program, 75 percent of each State's grant would support elementary and secondary education programs and 25 percent would support higher education programs.

*Programs of national significance.*—Under pending legislation, funds would continue to support model demonstration programs of national significance in mathematics, science, computer learning, and critical foreign languages. Evaluation and research activities related to teacher training, curriculum, and instruction in mathematics and science may also be undertaken.

*Territorial teacher training assistance.*—Under pending legislation, discretionary grants would continue to be provided to the State educational agency in each Territory to provide assistance to train elementary and secondary school teachers.

*Fund for the improvement and reform of schools and teaching (FIRST).*—Under pending legislation, funds would support projects to improve the performance of elementary and secondary school students and teachers.

*Magnet schools assistance.*—Under this program, funds are provided to local educational agencies for use in operating magnet school programs that are part of approved desegregation plans. Legislation will be proposed to enable certain additional school districts that are not under desegregation plans to participate in the program.

*Parental choice open enrollment demonstrations.*—Under pending legislation, grants would be made to demonstrate the effectiveness of programs that permit students to enroll in the public schools of a school district without regard to the district's attendance zones.

*Dropout prevention demonstrations.*—Under pending legislation, discretionary grants would continue to be awarded to local educational agencies, educational partnerships, and community-based organizations for demonstration programs to reduce the number of children who do not complete their elementary and secondary education.

*Grants to local educational agencies and Indian-controlled schools.*—Formula grants are made to local educational agencies (LEAs) and tribal schools for supplementary elementary and secondary programs to meet the special educational and culturally-related academic needs of Indian children. In 1987, 1,098 formula grants were made to LEAs and certain tribal schools enrolling approximately 320,500 Indian students. Discretionary awards are made to Indian-controlled schools on or near reservations and to LEAs that have been in existence less than three years that serve substantial numbers of Indians. In 1987, 28 discretionary awards supported special projects at 24 Indian-controlled schools.

*Special programs for Indian students.*—Funds support planning, pilot and demonstration projects; educational

service projects; educational personnel training; resource and evaluation centers; and fellowships.

*Special programs for Indian adults.*—Competitive grants are made to Indian tribes, institutions, and organizations for programs to improve educational opportunities for Indian adults.

*Program administration.*—Funds support the administrative expenses of the Office of Indian Education and the National Advisory Council on Indian Education.

**Bilingual education.**—These programs support the establishment, operation, and improvement of programs in local schools to prepare children of limited English proficiency to enter an all-English-language educational program. Aid is also given to train educational personnel and parents to serve limited English proficient children, to build State capacity to improve educational services for limited English proficient children in school districts, and for dissemination, studies, and evaluations. Legislation is pending in Congress that would increase the amount of funds available for alternative instructional programs.

**Immigrant education.**—The immigrant education program provides grants to school districts to help finance educational services for immigrant students. Participation is limited to districts with 500 immigrant students or in which immigrant children represent at least 3 percent of the enrollment. Awards are made to State educational agencies which make subgrants to eligible local educational agencies. Legislation is proposed to prohibit the double-counting of refugee students, who are currently eligible to receive services under both immigrant and refugee education programs, and to require that funds be used to supplement, not supplant, local educational funds.

State grants.—

*Grants to States.*—This formula grant program assists States in providing a free appropriate public education and related services to all handicapped children. In order to participate in the program, States must provide services to handicapped children ages 6 through 17. Handicapped children ages 3 through 5 and 18 through 21 must also be served, except when such services would be inconsistent with State law or practice, or the order of any court. To be

eligible for a grant, each State is required to submit an acceptable State plan which requires the development and use of an individualized education program for each handicapped student, the establishment of procedural safeguards for all handicapped children and their parents, and the training of personnel for these special education programs.

*Preschool grants.*—This formula grant program assists States in providing special education and related services to handicapped children ages 3 through 5.

*Grants for infants and families.*—This formula grant program assists States: (1) in developing and implementing a statewide program of early intervention services for handicapped infants and toddlers, from birth through age 2, and their families; (2) in enhancing their capacity to provide quality early intervention services; and (3) in expanding and improving existing early intervention services.

Special purpose funds.—

*Deaf-blind and other severely handicapped projects.*—Awards are made primarily for demonstration projects designed to meet the educational needs of severely handicapped, including deaf-blind, children and youth.

*Early childhood education.*—Awards are made to support demonstration, outreach, and research projects to expand and improve early intervention and special education services for handicapped children from birth through age 8.

*Secondary and transitional services.*—Awards are made to improve the educational services provided to handicapped children in secondary school and to assist them in making the transition from secondary school to work, further education, and adult services.

*Postsecondary programs.*—Grants are awarded to develop and operate special programs for handicapped persons at institutions of higher education, vocational and technical institutions, and other appropriate agencies.

*Innovation and development.*—Support is provided for research and related activities to improve special education and early intervention services for handicapped children.

*Media and captioning services.*—Funds are used primarily for the captioning and distribution of films, and the closed captioning of television programs for the hearing impaired.

*Special education technology.*—Awards are made to advance the use of new technology, media, and materials in providing special education and early intervention services to handicapped children.

*Special studies.*—Studies are conducted to provide information on the effectiveness of educational and early intervention programs for handicapped children.

*Special education personnel development.*—Grants are awarded to improve the quality and increase the supply of personnel in the fields related to the education of the handicapped. Funds are also used to provide training to parents.

*Recruitment and information clearinghouses.*—This program supports clearinghouses to disseminate information to parents and others regarding special

education, provide information on available postsecondary services, and encourage and assist individuals to seek careers in special education.

**Regional resource centers.**—Centers provide technical assistance to aid States, and through them local educational agencies, to help them meet their responsibilities to provide special education and early intervention services to handicapped children.

**State grants.—**

**Vocational rehabilitation State grants.**—The basic State grant program provides 80 percent Federal matching to State vocational rehabilitation agencies to assist physically and mentally handicapped individuals to become gainfully employed. Under the 1986 amendments to the Rehabilitation Act, the Federal matching share for payments made to States which exceed their 1988 allotments will decrease 1 percent per year down to 75 percent for fiscal year 1993. Services provided include counseling, vocational evaluation, work adjustment, mental and physical restoration, education and vocational training, job placement, and post-employment services. Priority is given to serving those with the most severe disabilities.

The first table below presents estimates of the number of persons served and rehabilitated nationally. The second table shows relative State performance in rehabilitating severely disabled persons.

REHABILITATION SERVICES AND HANDICAPPED RESEARCH—Continued

**Helen Keller Center.**—The Center provides services to deaf-blind youths and adults and conducts research and training programs.

**Independent living.**—Grants are awarded to States and nonprofit agencies for services designed to enable severely disabled persons to live and function more independently.

**Training.**—Project grants are made to States and public or nonprofit agencies and organizations, including institutions of higher education, to increase the number of skilled personnel available for employment in rehabilitation settings.

**National Institute on Disability and Rehabilitation Research.**—The Institute carries out a comprehensive and coordinated program of rehabilitation research. Through grants and contracts, it supports research and training centers, rehabilitation engineering centers, research and demonstration projects, information dissemination and utilization projects, and career development activities. In the reimbursable program, the National Institute of Mental Health co-sponsors research and training centers for rehabilitating persons disabled by mental illness.

**Evaluation.**—Studies are conducted to evaluate the impact and effectiveness of various programs authorized under the Rehabilitation Act.

Note.—The activities previously financed in three accounts under Department of Education, Special Institutions—American Printing House for the Blind; National Technical Institute for the Deaf; and Gallaudet University—in 1987 and 1988 are presented in these schedules and are proposed to be financed in this account in 1989. Budget authority and outlays are distributed by account above.

This new account consolidates three prior accounts, each of which included a grant to a particular institution which serves handicapped students. These institutions share a special relationship with the Federal Government including congressional recognition of each institution in law. In addition, these grants are the largest single source of funds for each institution.

**American Printing House for the Blind.**—The Federal appropriation supports the production of free educational materials for blind students below the college level. In 1987, the direct Federal appropriation represented 36.5 percent of the institution's total sales. Legislation has been proposed to eliminate the \$10 thousand annual payment to the Printing House originally based on an 1879 trust fund. An offsetting increase of \$10

thousand is included in the regular appropriation request.

**National Technical Institute for the Deaf.**—This national residential center provides postsecondary technical education for deaf people to prepare them for successful employment. In 1987, Federal appropriations represented 83 percent of the Institute's operating budget. Funds are also provided for endowment matching grants.

**Gallaudet University.**—This private, nonprofit educational institution provides an undergraduate higher education program for deaf persons, a preparatory program for students who need such training to qualify them for college admission, a graduate program in fields of study related to deafness, and continuing education and public service programs appropriate to its postsecondary education mission.

Gallaudet also operates on campus the Model Secondary School for the Deaf, which serves deaf students of high school age, and the Kendall Demonstration Elementary School for younger children. In connection with their instructional programs, these schools also develop materials and methods for teaching deaf children.

In 1987, Federal appropriations represented 74 percent of the University's operating budget and 100 percent of the operating budgets of the related elementary and secondary schools. Funds are also provided for endowment matching grants.

A \$250 thousand trust fund was established in 1879 for the American Printing House for the Blind. The trust fund currently exists only as an accounting entry; no assets are held by Treasury. The Printing House annually receives \$10 thousand in lieu of interest income.

Legislation has been proposed to eliminate the \$10 thousand annual payment based on a trust fund initially established in 1879 (no actual trust fund now exists). An offsetting increase of \$10 thousand is requested in the regular appropriation. Separate administration of the annual payment, which now amounts to less than one-fifth of 1 percent of the annual operating budget of this institution, is no longer cost effective.

Vocational education—State programs.—

*Basic grants.*—This program provides State grants for vocational education expansion, innovation, and improvement and for providing greater access to vocational education for underserved populations. Funds under the Indian and Hawaiian natives programs are awarded to federally recognized Indian tribes and to organizations primarily serving and representing Hawaiian natives. Services funded by these set-asides are in addition to services provided under other provisions of the Perkins Act.

*State councils.*—Councils are funded for the purpose of advising on and evaluating State vocational education programs. Each council is composed of 13 individuals, seven of whom represent the private sector.

National programs.—

*Research.*—Funds are awarded on a competitive basis for research activities which contribute to improved access to vocational education for underserved populations and to improved vocational education in the nation. Activities include a national center for research in vocational education, a national assessment of vocational education, regional curriculum coordination centers, and a program of discretionary research projects.

*Demonstration programs.*—Funds are used to support vocational training demonstration projects designed to serve high school dropouts and to promote industry-education partnerships for high-technology occupational training.

*Data systems.*—Funds are allocated annually to the Department of Labor for joint support of the National Occupational Information Coordinating Committee and the State occupational information coordinating committees. Funds also contribute to the support of the vocational education data system.

The Smith-Hughes Act of 1917 (Public Law 64-347), as amended, provides a permanent appropriation for vocational education basic grants and national programs.

The Adult Education Act is included in reauthorization legislation pending before the Congress. Funds would be used for formula grants to States to eliminate functional illiteracy among the nation's adults and to assist adults in obtaining a high school diploma or its equivalent. Funds may be used to increase the involvement of the private sector in the delivery of adult education services. Funds would also be requested for the Secretary to support discretionary research, demonstration, and evaluation activities.

<sup>1</sup> Includes in all years institutional matching share of defaulted loans assigned to the Education Department. In addition, 1987 reflects reclassification of direct loan capital contributions to schools as grants (-\$4,793,462 thousand) and 1988 reflects funds transferred to Guaranteed student loans (-\$9,146 thousand) for 1988 advances for guarantee agency reserve funds.

This account finances several programs of aid to students in postsecondary education.

**Pell grants.**—Undergraduate students establish eligibility for these grants through application to a federally managed system of assessment of need. This need assessment evaluates the individual and parental ability to contribute towards a student's postsecondary education. The 1988 appropriation is insufficient to fully fund the program and will require a reduction of students' awards.

**Work-study.**—Federal grants are awarded to qualifying institutions, which develop and provide part-time jobs for eligible undergraduate and graduate students with demonstrated need. Federal grants in most cases pay 75 percent of a student's earnings and the remainder is paid by the employer. Legislation will be proposed to reduce this Federal contribution to 50 percent by 1991. Hourly earnings must not be less than the minimum wage. In 1989 legislative changes are pro-

posed which would require the institutional funding allocations to be related to performance-based criteria established by each institution.

**Supplemental educational opportunity grants.**—Funds are allocated by formula among institutions based upon aggregate need at the institution. Institutions are required to match the funds in part. Participating institutions use these funds at their discretion to award grants to undergraduate students, with priority for those students with exceptional need. In 1989 legislative changes are proposed which would require the institutional funding allocations to be related to performance-based criteria established by each institution.

**Income contingent loans.**—Under the income contingent loan (ICL) program, institutions operate revolving loan funds capitalized in part with Federal contributions distributed to participating institutions. Loans are made at the institution's discretion to students with demonstrated need and carry unsubsidized interest rates. Repayment rates depend on post-school earnings: as income increases, so does the percentage of income required for repayment. In 1989, the increase in Federal contributions would increase the number of institutions and students served.

**Perkins loans.—Cancellations.**—Under the Perkins loan (formerly national direct student loan (NDSL)) cancellation program, funds are requested to reimburse institutional revolving funds for indebtedness cancelled as a result of the borrower engaging in certain public service occupations.

The following tables display student aid funds available and number of aid awards, including aid under the guaranteed student loan (GSL) program, under the budget request. The tables include the effects of matching funds wherever applicable. ICL and Perkins loan amounts also reflect other available capital in institutional revolving funds, including loan collection and loan cancellation receipts. Guaranteed student loan amounts reflect the capital actually loaned, not the Federal costs of those loans.

Two provisions governing the student financial aid programs, which provide need-based aid to postsecondary students, would be revised. The assessment of non-liquid assets would be suspended for two years for all title IV need analysis systems. This would decrease the expected family contribution in all programs, increas-

ing measured student need, and increase costs directly in the Pell grant program. Only those students with a high school diploma or its equivalent would be eligible to receive Federal student aid, reducing the number of eligible applicants in all programs and decreasing costs directly in the Pell grant program.

*Pell grants.*—Additional funds would be needed, representing the net effect of suspending the assessment of the non-liquid assets in the Pell need analysis formula and of requiring students to possess a high school diploma or its equivalent in order to participate.

<sup>1</sup> Includes terminations that result in lender and guarantee agency liabilities.

The guaranteed student loan (GSL) program is designed to promote the availability of loans from banks and other lenders to students and their parents to help meet the costs of attending participating universities, colleges, and other postsecondary institutions after taking into consideration family financial resources and student self-help. This is accomplished through the provision of Federal reinsurance against borrower default as well as through substantial Federal subsidy payments. In general, the program is administered by State and private nonprofit guarantee agencies that serve as intermediate loan insurers, defaulted loan collectors, and providers of various services to lenders. Through July 1984, the Federal Government also provided direct loan insurance and, in such cases, continues to be responsible for defaulted loan collection and providing assistance to lenders.

Three types of guaranteed loans are currently available through the program: under the regular loan component, students may borrow highly subsidized loans; under the PLUS loan component, parents can borrow less-subsidized loans; and under the Supplemental Loans for Students (SLS) component, formerly part of PLUS, students also may borrow less-subsidized loans. Each program has both annual and cumulative limits on loan amounts. All loans can be used only to meet educational expenses. Evidence of financial need is required for a student to receive a regular student loan.

The Federal Government pays lenders a quarterly special allowance throughout the life of each regular loan. This allowance assures lenders a total yield on new loans equal to the current 91-day Treasury bill rate plus 3¼ percent or the interest rate to the borrower, whichever is higher. The Government is also liable for up to 100 percent of costs related to borrower default, death, disability, and bankruptcy. The budget proposes increased lender and guarantee agency default liability to shift a small portion of this risk to the beneficiaries of the program.

Under the regular loan component, the Federal Government pays the interest obligation (generally 8 percent on new loans) of eligible borrowers while they are in school and during grace and certain deferment periods. Federal interest benefit costs are offset by an origination fee of 5 percent of loan principal which is charged to borrowers.

Under the PLUS and SLS loan components, all students, and parents of dependent students, may borrow to meet the student's educational expenses without any demonstrated financial need. Unlike the regular loan program, the borrower's interest obligation during in-school, grace, and deferment periods (the 52-week Treasury bill rate plus 3¼ percent) is not paid by the Federal Government.

Finally, the Federal Government pays administrative cost allowances to guarantee agencies.

Federal receipts primarily include collections on defaulted loans and reimbursements from guarantee agencies for their default collections. One-time savings of \$234 million will be achieved in 1988 by applying excess guarantee agency reserves to agency default claims against the Government and by other means. In addition, most outstanding advances (interest-free loans) to guarantee agencies will be recalled beginning with the statutorily required repayment of \$75 million in 1988. Also included are Student Loan Marketing Association (Sallie Mae) repayments of loans from the Federal Financing Bank; these transactions are treated as part of the cost of the GSL program.

Total loan volume insured under all program components is expected to be \$9.6 billion in 1989, resulting in outstanding loans at the end of 1989 of \$42.3 billion.

Costs to the Federal Government related to a particular loan accrue throughout the period the loan is outstanding, which can be extended up to 25 years. Federal costs on regular loans are significantly reduced through the origination fees, used to offset interest subsidy costs. As the following table illustrates, net obligations for the first year of loans may be negative. Costs in the budget year, therefore, are determined largely by the cost of loans outstanding at the start of the year.

<sup>1</sup> The budget reflects net default collections, gross collections less agency retentions, as the reimbursement received by the Government.

Increased efforts are being made to collect outstanding defaults and to reduce the incidence of default. These efforts include: expanding collection activities by referring both insured and reinsured defaulted loans to private collection agencies; sharing information on defaulted loans with consumer credit bureaus; computer matches to locate defaulters; increased litigation; increased lender and guarantee agency due diligence requirements; closer monitoring of collection activity; deduction from Federal income tax refunds of defaulted loan amounts; and increased risk sharing with institutions in the form of possible loss of eligibility for Federal aid for their students at high-default institutions. Outstanding defaults owed to the Federal Government in 1987-89 are as follows:

**OUTSTANDING DEFAULTED GUARANTEED LOAN VOLUME**

Frequently used GSL default rate measures are the gross and net cumulative default rates. The former represents cumulative defaults divided by cumulative loans that have matured (i.e., entered repayment). The latter represents cumulative defaults minus cumulative collections on defaults, divided by cumulative matured loans. These rates are the best measures of the long-term default costs of the entire GSL portfolio and the best indicators of longer term trends in default costs.

**END OF YEAR GUARANTEED LOAN STATUS**

(In thousands of dollars)

Gross default rate.....	13.1%	13.7%	14.4%
Net default rate.....	9.5%	9.6%	9.8%

Another measure represents defaults in a given year divided by the average amount of loans in repayment during that year. This annual rate is more comparable to default rates calculated by commercial lending institutions. 1987 defaults, and thus 1987 default rates, reflect a one-time decrease due to changes in the definition of a defaulted loan implemented in that year. The volatility of this rate, depending as it does on annual flows into and out of repayment, makes this a less useful indicator in assessing longer term default trends.

Proposed program reforms would increase default risk-sharing with lenders and guarantee agencies and take other steps to reduce the cost of defaults to the taxpayer. Additional savings would be realized by limiting loan eligibility to students with a high school degree

or equivalent. These savings would be offset partially by suspending for two years consideration of non-liquid assets in determining a student's need, thereby reducing expected family contribution and increasing measured need.

Aid for institutional development—

*Strengthening historically black colleges and universities.*—Funds under this heading are for grants to help historically black undergraduate and graduate institutions equalize educational opportunity and strengthen their management and fiscal operations so that they may become self-sufficient.

*Other.*—In 1989, funds will support non-competing continuation grants for strengthening institutions, and new endowment grants.

Other aid for institutions—

*Program development.*—In 1989, funds would support projects under: the Fund for the Improvement of Postsecondary Education, to address problems and encourage improvements in postsecondary education; the minority science improvement program, to improve science education at predominantly minority institutions; and the international education and foreign language study programs, to help strengthen American education in foreign languages and area and international studies.

*Academic facilities—Interest subsidy grants.*—Funds will meet mandatory interest subsidy costs of construction loan commitments made prior to 1974.

Aid for students—

*Special programs for the disadvantaged.*—This program helps individuals from disadvantaged backgrounds enter and complete college.

*Other support services.*—In 1989, a grant under the legal training for the disadvantaged program would support pre-law preparation and scholarships to assist individuals from disadvantaged backgrounds to undertake training in the legal profession.

*Scholarships and fellowships.*—In 1989, funds would support: Robert C. Byrd honors scholarships for outstanding students who show promise of continued excellence; the minority participation in graduate education program to support talented minority students as they increase their preparation for graduate study; Patricia Roberts Harris graduate fellowships to assist minorities and women to undertake graduate study in fields in which they have been traditionally underrepresented; and Jacob K. Javits fellowships to students of superior ability for graduate study in the arts, humanities, and social sciences.

*Cuban and law enforcement education loan collection costs.*—No new loans are made under these activities. Collections on outstanding prior year loans continue. Outstanding defaults, as well as delinquent loans, are as follows:

Howard University is a private, nonprofit educational institution consisting of 18 schools and colleges. Federal funds are used to provide partial support for the University programs as well as for the teaching hospital facilities. In 1987, direct Federal appropriations represented 69 percent of the University's educational and general expenditures.

Reappropriation language is proposed to extend the availability of funds for the Howard University endowment grant to ensure that 1988 funds intended to be used for this purpose would continue to be available in the event that the full amount of the grant cannot be matched before the end of the fiscal year.

HIGHER EDUCATION FACILITIES LOANS [AND INSURANCE]

The Secretary is hereby authorized to make such expenditures, within the limits of funds available under this heading and in accord with law, and to make such contracts and commitments without regard to fiscal year limitation, as provided by section 104 of the

Government Corporation Control Act (31 U.S.C. 9104), as may be necessary in carrying out the program set forth in the budget for the current fiscal year. For the fiscal year [1988] 1989, no new commitments for loans may be made from the fund established pursuant to title VII, section 733 of the Higher Education Act, as amended (20 U.S.C. 1132d-2): *Provided, That notwithstanding section 783 of the Act, the Secretary may sell, at public or private sale, obligations under Part C of title VII of the Act upon such terms as the Secretary may fix and in such amounts as the Secretary determines to be in the best financial interests of the Government. (Department of Education Appropriations Act, 1988.)*

**Program operations.**—Title VII, Part C, of the Higher Education Act of 1965 authorizes direct loans at 5.5 percent interest, repayable within 50 years, to colleges, universities, and higher education building agencies for the construction, reconstruction, or renovation of academic facilities. No new loan commitments have been made since 1981, and no new commitments are planned for 1989 and beyond.

**Financing.**—Loan capital for this program has been provided both through appropriations and the sale of participation certificates which are backed by pools of existing higher education facilities loans held by the Federal Government.

Interest is payable to Treasury on the amount of appropriations paid out for loan capital and remaining outstanding, less the average undisbursed cash balance in the fund during the year. The interest rate certified by Treasury for payment from the account was 7.375 percent in 1987 and is 9.375 percent in 1988.

Sales of participation certificates by the Government National Mortgage Association (GNMA) were provided for under the Participation Sales Act of 1966, and were authorized specifically for higher education facilities loans under appropriation acts in 1967 and 1968. The participation certificates outstanding held by this account total \$87,189 thousand as of September 30, 1987. These certificates are scheduled to be redeemed in 1988.

Insufficiencies appropriations may be used to finance any deficit resulting from the interest rate payable on participation certificates being higher than the interest rate paid by institutions on pledged loans. The budget authority required for insufficiencies is computed as follows:

**PARTICIPATION INSUFFICIENCIES**

Note.—Excludes additional amounts required to fund interest payments due to Treasury.

The appropriation, along with repayments on outstanding loans, interest revenue, and investment income is used to pay operating expenses and to amortize the outstanding debt on participation certificates.

In 1988, the Secretary is planning to conduct a second year of loan sales to the public. Proceeds from the sales were \$67.6 million in 1987 and are estimated at \$47.2 million in 1988. Loan sale fees and commissions are financed from this account.

This program finances direct loans at 5.5 percent interest to schools and colleges for construction and renovation of undergraduate academic facilities, student and faculty housing, and other educational facilities. No new loans are proposed for 1989.

Under section 761(d) of the Higher Education Act, capital to finance new loans is borrowed from the Treasury at an interest rate based on the average yield

for long-term Treasury securities during the month before loan commitments are made to schools. Loan commitments are usually made in the fourth quarter of the fiscal year. The Secretary pays 8.97 percent interest on funds borrowed for 1987 loans. Appropriations finance the difference between the total interest received from borrowers and the higher amount of interest owed to Treasury each year.

## COLLEGE HOUSING LOANS

Pursuant to title VII, Part F of the Higher Education Act, as amended, for necessary expenses of the college housing loans program previously carried out under title IV of the Housing Act of 1950, the Secretary shall make expenditures, contracts, and commitments without regard to fiscal year limitation using loan repayments and other resources available to this account: Provided, That notwithstanding section 783 of the Act, the Secretary may sell, at public or private sale, obligations under Part F of title VII of the Act upon such terms as the Secretary may fix and in such amounts as the Secretary determines to be in the best financial interests of the Government. Any unobligated balances becoming available from fixed fees paid into this account pursuant to 12 U.S.C. 1749d, relating to payment of costs for inspections and site visits, shall be available for the operating expenses of this account.

Whenever the Secretary, pursuant to section 762(c) of the Higher Education Act, as amended, sells, exchanges, or otherwise transfers on a discounted basis obligations or securities held by the Secretary under title VII, Part F of the Act, the outstanding balance remaining on the notes of the Secretary issued to the Secretary of the Treasury under section 761(d) of the Act shall be reduced by the amount of the discount. For such transactions occurring in fiscal year 1989 or thereafter, such reduction is effective on the last day of the fiscal year in which the discounted transaction occurs.

**Program operations.**—Loans in this account were made for construction and renovation of college housing facilities prior to 1987 under title IV of the Housing Act of 1950. The Higher Education Amendments of 1986 repealed title IV and gave the Secretary authority to manage outstanding college housing loans under title VII, Part F of the Higher Education Act. There is no new loan activity in this account. New loans made after 1986 under Part F are reflected in the College Housing and Academic Facilities Loans Account.

**Financing.**—Loan capital for this program was provided primarily through Treasury borrowings and the sale of participation certificates which are backed by pools of existing college housing loans held by the Federal Government. As of September 30, 1987, \$1.4 billion was borrowed from the Treasury under a note that comes due January 1, 1991.

Sales of participation certificates by the Government National Mortgage Association (GNMA) were provided for under the Participation Sales Act of 1966, and were authorized specifically for college housing loans under appropriation acts in 1967 and 1968. The participation certificates outstanding held by this account total \$446,806 thousand as of September 30, 1987. All remaining certificates are scheduled to be redeemed in 1988.

Insufficiencies appropriations may be used to finance any deficit resulting from the interest rate payable on participation certificates being higher than the interest rate paid by institutions on pledged loans. The budget authority required for insufficiencies is computed as follows:

In 1987, the Secretary gave borrowers the opportunity to prepay loans at a discount based on their market value and sold additional loans to the public. Total revenues from prepayments and sales in 1987 were \$513 million. Section 783 of the Higher Education Act requires the Secretary to sell additional loans in 1988. Proceeds from 1988 sales are currently estimated at \$267 million.

Available resources (loan repayments, interest revenue, loan sale proceeds, investment income, and other income in excess of operating expenses) will be used to redeem a portion of the agency's debt in outstanding Treasury borrowings, as is being done in 1988 and as was done in 1987. If there are no additional loan sales in 1989, approximately \$38 million will be repaid to Treasury in 1989; \$377 million is anticipated to be repaid in 1988, while \$538 million was repaid in 1987.

The budget provides \$40 thousand to fund facilities management and property disposition expenses related to loan collection action in 1988. Fees and commissions associated with loan sales will be financed from this account.

A total of \$4.4 million was collected in 1987 from institutions in default. The status of defaulted loans is shown in the table below:

Legislation will be proposed to repeal the prohibition on loan asset sales contained in section 783 of the Higher Education Act of 1986, as amended, for College housing loan obligations. Proceeds from loan asset sales in 1989 would be used to reduce the Education Department's outstanding debt to Treasury and would contribute to lowering the Federal budget deficit.

Research, statistics, dissemination, and improvement activities aid students, teachers, administrators, and decisionmakers at all levels of education, as well as parents and other members of the public.

*Center for Education Statistics.*—Statistics are collected on educational institutions and on individuals to monitor trends in education. A coordinated program of statistical services is supported which provides assistance to States in developing comparable data bases and analyses of the implications of data.

*National Assessment of Educational Progress.*—The National Assessment of Educational Progress surveys young Americans to provide reliable information about the nation's attainment in certain important skill areas. Collection of both nationally- and State-representative data is planned.

*Office of Research.*—Research centers focus on topics of national concern in education. Additional individual projects and field-initiated research complement this work.

*Programs for Improvement of Practice.*—Regional laboratories determine and help meet the educational research and development needs in specified geographic regions. Study groups and national leadership conferences are also supported.

*Information Services.*—The Educational Resources Information Center system makes education literature accessible through computerized abstracts and indexes. Dissemination activities provide timely information to the public and educational practitioners.

Funds will provide for implementation of the National Student Loan Data System authorized under section

485B of the Higher Education Act of 1965, as amended. This system will collect information on Guaranteed Student Loans made under Part B of the Act and on Direct Student Loans made under Part E. Funds for the Student Loan Data System will be requested only after enactment of a legislative proposal to amend section 485B. The proposal would require guaranty agencies and institutions of higher education to provide information on defaulted loans, and would eliminate restrictions in section 485B(c) to allow the Department to require these agencies and institutions to verify, prior to making new loans, that students have neither defaulted on prior loans nor exceeded loan limits.

GENERAL PROVISIONS

SEC. 301. None of the funds appropriated by this title for grants-in-aid of State agencies to cover, in whole or in part, the costs of operation of said agencies, including the salaries and expenses of officers and employees of said agencies, shall be withheld from the said agencies of any State which have established by legislative enactment and have in operation a merit system and classification and compensation plan covering the selection, tenure in office, and compensation of their employees, because of any disapproval of their personnel or the manner of their selection by the agencies of the said States, or the rates of pay of said officers or employees.

SEC. 302. Funds appropriated in this Act to the American Printing House for the Blind, Howard University, the National Technical Institute for the Deaf, and Gallaudet University shall be subject to audit by the Secretary of Education.

SEC. 303. No part of the funds contained in this title may be used to force any school or school district which is desegregated as that term is defined in title IV of the Civil Rights Act of 1964, Public Law 88-352, to take any action to force the busing of students; to force on account of race, creed or color the abolishment of any school so desegregated; or to force the transfer or assignment of any student attending any elementary or secondary school so desegregated to or from a particular school over the protest of his or her parents or parent.

SEC. 304. (a) No part of the funds contained in this title shall be used to force any school or school district which is desegregated as that term is defined in title IV of the Civil Rights Act of 1964, Public Law 88-352, to take any action to force the busing of students; to require the abolishment of any school so desegregated; or to force on account of race, creed or color the transfer of students to or from a particular school so desegregated as a condition precedent to obtaining Federal funds otherwise available to any State, school district or school.

(b) No funds appropriated in this Act may be used for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to overcome racial imbalance in any school or school system, or for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to carry out a plan of racial desegregation of any school or school system.

SEC. 305. None of the funds contained in this Act shall be used to require, directly or indirectly, the transportation of any student to a school other than the school which is nearest the student's home, except for a student requiring special education, to the school offering such special education, in order to comply with title VI of the Civil Rights Act of 1964. For the purpose of this section an indirect requirement of transportation of students includes the transportation of

students to carry out a plan involving the reorganization of the grade structure of schools, the pairing of schools, or the clustering of schools, or any combination of grade restructuring, pairing or clustering. The prohibition described in this section does not include the establishment of magnet schools.

SEC. 306. No funds appropriated under this Act may be used to prevent the implementation of programs of voluntary prayer and meditation in the public schools. (*Department of Education Appropriations Act, 1988.*)

## DEPARTMENT OF ENERGY

### ATOMIC ENERGY DEFENSE ACTIVITIES

#### Federal Funds

#### General and special funds:

##### ATOMIC ENERGY DEFENSE ACTIVITIES

For expenses of the Department of Energy activities, **[\$7,749,364,000] \$8,100,000,000**, to remain available until expended, including the purchase, construction and acquisition of plant and capital equipment and other expenses incidental thereto necessary for atomic energy defense activities in carrying out the purposes of the Department of Energy Organization Act (Public Law 95-91), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion; purchase of passenger motor vehicles (not to exceed **[292] 248**, of which **247** are for replacement only including **[43] 6** police-type vehicles; and purchase of two aircraft, one of which is for replacement only): *Provided*, That within the funds available within materials production activities, the Secretary of Energy shall prepare and submit to the Committees on Appropriations and Armed Services of the Senate and the House of Representatives, not later than May 1, 1988, an acquisition strategy report for replacement production reactors. Such report shall provide the rationale and description of the recommended acquisition strategy for replacement nuclear materials production capacity that would fulfill the long-term requirements of the United States for tritium and plutonium, including the recommendation of the Nuclear Weapons Council with respect to matters within the responsibility of the Council. Such report also shall include an analysis of whether or not the acquisition strategy should provide for the procurement and construction of two or more replacement production reactors, either concurrently or sequentially. Such report also shall include, but not be limited to, an analysis of the use of alternative reactor technologies at one or more sites based on the most current information including overall program costs and schedules; safety, environmental and licensing features; strategic and national security benefits; and amortization of reactor capital and operating costs through the sale of by-product steam. Such report shall include a comprehensive comparative financial analysis and cost estimate including annual and life cycle costs for research, development, design, construction, operating expenses and revenues and the leveled unit products costs relating to the replacement production reactor alternatives considered. The recommendations of the Secretary shall include a recommendation with respect to the preferred alternatives for achieving replacement nuclear materials production capacity, including the number of production reactors required, the preferred technologies, and the preferred sites, and a time schedule for their acquisition, construction, and operation. The provision of the National Environmental Policy Act (43 U.S.C. 4321, et seq.) shall not apply to any actions taken by the Secretary in the conduct of activities associated with the preparation of such report, including, but not limited to, the formulation of an acquisition strategy or the planning, design, and selection of alternative technologies and sites for replacement production reactors: *Provided further*, That of these funds, \$7,500,000 shall be made available for the Hanford Waste Vitrification Plant (Project 88-D-173): *Provided further*, That of the amount appropriated to the Department of Energy in this paragraph, \$121,000,000 may be obligated only for the verification and control technology program of the Department of Energy: *Provided further*, That none of the funds made available by this Act may be used for the operation of the N-Reactor at the Hanford Reservation, Washington, unless the Secretary of Energy makes a specific determination and submits a certification in writing to the Congress that—

- (1) the further operation of the N-Reactor is necessary to meet national security requirements;
- (2) the Department will fully comply with the report of the National Academy of Sciences as described in Public Law 100-180;
- (3) the Department plan for the N-Reactor is consistent with the reports of the Roddis panel as described in Public Law 100-180; and

(4) the N-Reactor is safe to operate]. (Energy and Water Development Appropriation Act, 1988.)

**Naval reactors development.**—This program provides for the design, development, and testing of improved naval nuclear propulsion plants and reactor cores having longer core life, increased reliability, improved performance, and simplified operating and maintenance requirements. These reactors are necessary to meet a variety of military requirements. During 1989 work will continue to improve existing submarine and surface ship reactors and plant components and to develop advanced reactor concepts and propulsion plants. This program also continues facility upgrading and provides equipment to support ongoing reactor design research and testing activities.

**Weapons activities.**—This program provides for the research, development, engineering, testing, and production of all U.S. nuclear weapons; maintenance of these weapons for their stockpile life, and retirement and disposal of nuclear weapons from the stockpile. In 1989 the weapons program will continue to provide new technology to maintain a modern nuclear force, along with the design and development of new weapon systems in response to defense requirements. This program also provides for the certification of safety, reliability, and performance of new weapon systems and surveillance of the existing stockpile. Funding is provided for continued production of weapon systems and for stockpile improvements consistent with the Presidential Nuclear Weapons Stockpile Memorandum. In addition, this program provides for facility construction, mainte-

ATOMIC ENERGY DEFENSE ACTIVITIES—Continued

nance, and restoration for the weapons research and development, testing, and production activities.

**Verification and control technology.**—This program provides for research activities directed toward the advancement of verification technology related to nuclear treaties and arms control measures. In 1989 the program provides for continued technical and scientific efforts to support nuclear test treaties and nuclear arms reduction negotiations. Other activities provide analytical support to export control requirements, nonproliferation policy, and weapon analysis issues. This program also provides capital equipment for nuclear detection technology efforts and analytical support activities.

**Materials production.**—This program provides nuclear materials to meet near-term national defense and nondefense requirements and sustain a base production program capable of meeting long-term nuclear materials production requirements consistent with the annual Presidential Nuclear Weapons Stockpile Memorandum and the annual Materials Management Plan. In 1989 this program will operate a reactor feed material production complex, production reactors, chemical processing plants at three major sites, and support facilities integral to the operation of these facilities. The program will also conduct R&D efforts on long-range alternatives for production of nuclear materials. Programs to sustain optimum production capabilities at Savannah River, Richland, and Oak Ridge will be continued.

**Defense waste and environmental restoration.**—This program provides for safe interim storage, transportation, disposal, and/or utilization of radioactive and hazardous wastes generated primarily from nuclear materials production and naval propulsion. The 1989 program provides funds for continuation of the waste operations program including preoperational activities for the vitrification plant, and operation of the saltstone plant of the Defense Waste Processing Facility at Savannah River, SC, and design of the Hanford Waste Vitrification Plant at Richland, WA. The Waste Isolation Pilot Plant near Carlsbad, NM, will begin operations in October 1988. The environmental restoration program which was established by Congress beginning in FY 1988 covering all Defense Programs, includes meeting RCRA and CERCLA requirements and terms of compliance agreements and consent orders. Funding is also provided for the planning, design, development, and testing of integrated transport systems which meet Department-wide nuclear material transportation requirements.

**Nuclear safeguards and security.**—This program provides for the development of measures for the protection of nuclear weapons in the agency's custody, special nuclear materials, classified materials and information, and agency property. In 1989 this program will continue development of procedures that preclude the unauthorized disclosure, theft, or loss of classified material; management of a research and development program to safeguard nuclear weapons and nuclear materials and protect agency facilities against sabotage; providing for assistance to site managers in designing effective safeguards systems; and support of international safeguards technology.

**Security investigations.**—This activity covers the costs of security investigations for personnel who, in performance of their official duties, must have access to restricted data, national security information or special nuclear material, or who occupy a designated critical sensitive position.

Note.—Activities financed under this account in the amount of \$293,146 thousand in 1987 and \$339,200 thousand in 1988 are proposed to be financed in 1989 under Basic Research and User Facilities activities.

The construction and operations of the User Facilities formerly funded within these programs have been transferred to a new account: Basic Research User Facilities. The research conducted in these facilities, however, will continue to be supported by the base programs within General Science and Research Activities.

**High energy physics.**—Research in this program focuses on the fundamental constituents of matter, the fundamental forces in nature and the transformations between matter and energy at the most elemental level. The program includes experimental and theoretical particle physics research and related advanced accelerator and detector technology R&D. The primary mode of experimental research involves the study of collisions of energetic particles using large particle accelerators or colliding beam facilities by means of advanced multi-particle detector systems and associated electronics. Research in 1989 will continue studies of known fundamental constituents of particles, initiate searches for new particle constituents, and continue to pursue a unified description of the four fundamental forces in nature.

The high energy physics budget request provides for continued research at the Tevatron I Stanford Linear Collider (SLC), the Alternating Gradient Synchrotron (AGS) Accumulator and further advanced accelerator and detector R&D related to next generation high energy particle accelerators. The operation of the Tevatron I will provide the capability for utilizing Fermilab's superconducting synchrotron as a 900 GeV on 900 GeV proton anti-proton collider, while Stanford Linear Accelerator Center's SLC will produce 50 GeV on 50 GeV electron-positron collisions. Both facilities will allow access into previously unexplored areas of high energy physics. The request also provides continuing support for effective participation by university based groups in experimental research including accelerator user group efforts and non-accelerator experiments, and for theoretical research efforts. The 1989 high energy physics capital equipment request provides for meeting the highest priority needs associated with the detectors required to implement the research programs using the new capabilities being provided by the Tevatron I proton anti-proton collider at Fermilab and by the SLC electron-positron collider at SLAC.

**Nuclear physics.**—Research in this program strives to attain a deeper understanding of the interactions, prop-

erties, and structures of atomic nuclei and nuclear matter at a fundamental level through interdependent accelerator experiments and theoretical investigations of atomic nuclei. The program supports qualified scientists and research groups conducting experiments in nuclear physics accelerator facilities around the world. The program also supports the operation of four dedicated university accelerator facilities.

The 1989 nuclear physics budget request provides for a heavy ion nuclear research and accelerator program at the Alternating Gradient Synchrotron at Brookhaven. Program emphasis in 1989 centers on the role that quarks play in the makeup and interactions of nuclei, nuclei as proving grounds for understanding the basic strong and electroweak forces of nature, possible existence of new forms of nuclear matter, and, the mechanisms by which colliding nuclei exchange mass, energy, and angular momentum.

**General science program direction.**—Provides direction, management, and administrative support to all programs within general science.

The purpose of energy supply, research and development is to develop new energy technologies and improve existing energy technologies. Included in this mission are basic and applied research, with selected technology development.

This account provides funds for operating expenses, capital equipment and construction projects for the research and technological development of the various energy technologies under examination in the energy supply, research and development mission.

*Solar and renewable energy tech base.*—The solar and renewable programs support research and development that will strengthen the technology base on which industry can draw in developing future new products and processes for the commercial market. The programs support activities ranging from basic research in universities and national laboratories to applied R&D and proof-of-concept projects in industrial firms.

The renewable energy R&D programs proposed in the 1989 budget reflect a significant stable commitment to developing promising renewable energy technologies. The budget includes \$1 million in solar energy and \$1 million in geothermal energy to support cooperative R&D ventures, which industry might not form without an initial incentive, and which offer increased cost-sharing for all parties.

The 1989 solar energy program will support generic and long-range research in a wide variety of alternative energy technologies, structured to provide a sound base from which industry can draw particular applications. The major areas being investigated, as in past years, are moderate and high-temperature solar heat, photovoltaics, biofuels, wind, and solar building technologies. The main research topics being pursued at universities and national laboratories within these application areas are materials sciences, aerodynamic/fluid-dynamic modeling, and thermodynamic cycles. Industry will be involved in applied research in these areas. In addition, funds are provided for technology transfer and international cooperative activities, generic resource assessments, and capital improvements at the Solar Energy Research Institute. The budget includes amounts necessary to perform detailed construction design and site preparation for construction of a state-of-the-art laboratory of approximately 100,000 square feet at SERI.

The 1989 geothermal program will support basic engineering research in hydrothermal and magma energy extraction technologies for geothermal energy and technical information and technology transfer. The program

effort will also include research on geothermal resources such as engineering development in geopressed and hot dry rock resources.

The 1989 electric energy systems program will support research in EMP effects and new materials for efficient electrical power transmission, biomedical research on the effects of electric fields, and future electric system reliability and control concepts. The fiscal year 1989 request includes a commitment by the Department, including \$3 million for cooperative R&D ventures with industry partners, to build upon recent advances in high temperature superconducting materials through funding directed research to develop advanced power generation, storage, and distribution technologies. The 1989 energy storage program will continue its generic research into electrochemistry for a variety of battery types, and in thermal and hydrogen chemical energy storage. The research includes electrochemical materials, sodium/sulphur and zinc bromine battery development and metal-air cells, and solid polymer fuel cells.

*Nuclear fission.*—In 1989 the Civilian Reactor Development program continues on two parallel and complementary paths to ensure that nuclear energy continues to make a vital contribution to national energy security. The Light Water Reactor (LWR) program will focus on institutional and regulatory reform through supporting technology efforts and legislative initiatives. Cooperative programs with industry have the objective of providing certified advanced LWR designs in the early 1990's that could be ordered by utilities. The Advanced Reactor R&D program will focus on selecting a single concept for enhanced development and detailed design. The space and defense advanced nuclear power systems program will continue development work on space power system for use in U.S. space missions and in support of the Strategic Defense Initiatives Office and other military applications.

The remedial action program includes efforts to treat or stabilize radioactive wastes and perform required decontamination and decommissioning at contaminated DOE and legislatively dictated non-government facilities and sites. The major program areas are the Formerly Utilized Sites Remedial Action program, the Uranium Mill Tailings Remedial Action program for inactive uranium mill tailings sites, the Surplus Facilities program for DOE contaminated facilities declared surplus and resulting principally from civilian nuclear energy programs, such as decommissioning the Shippingport reactor, and the West Valley Demonstration project; which will demonstrate the solidification of high-level radioactive waste.

*Environment, safety and health.*—Oversight responsibilities for environment, safety, and health functions are consolidated under the Assistant Secretary for Environment, Safety and Health and constitute independent assurance of environmental protection, safety and health protection throughout the Department. With the completion of the Environmental Survey initiative in fiscal year 1989, and the Environmental Survey follow-up activities, a program of independent environmental audits will be implemented to ensure continuing compliance with applicable environmental requirements. Unlike the baseline survey, the audits will also focus on

management's performance in assuring environmental compliance. Major efforts are being pursued to further improve the level of safety assurance afforded at nuclear and non-nuclear facilities, including both internal and external oversight measures. A major new initiative to ensure the safety of major DOE nuclear facilities is the Nuclear Safety Program. An intensive nuclear safety appraisal program will be implemented that includes comprehensive safety appraisals, design reviews to establish a new baseline of minimum safety requirements, single topic audits of selected facilities and/or sites, and quarterly reviews of progress on required corrective actions. Intensified efforts will also be undertaken to improve the overall quality of safety analysis reports. In addition to these primary activities, this program will perform departmental coordination on environmental compliance issues; analyze environmental policy issues; maintain radiological emergency response resources; perform quality assurance activities; continue operational safety and health protection functions; and conduct National Environmental Policy Act (NEPA) assurance functions.

*Biological and environmental research.*—This program develops the knowledge base necessary to identify, understand and anticipate the long-term health and environmental consequences of energy use and development and utilizes the Department's unique scientific and technological capabilities to solve major scientific problems in medicine and biology. Planned 1989 activities include programs in atmospheric processes as they relate to acid rain and carbon dioxide climatic effects; terrestrial and oceanographic processes; molecular, cellular and systemic studies on the biological effects of radiation, including radon emissions; nuclear medicine, structural biology, molecular epidemiology, and long-term biotechnology related projects. Additional funds in 1989 are also provided for the Human Genome Initiative.

*Spill test facility.*—The overall goal is to conduct user-sponsored spill tests in support of safety research associated with the handling, shipping and storage of liquefied gaseous fuels and other hazardous fluids. The 1989 effort will be directed to assuring program continuity and facility responsiveness to user sponsored testing activities and to provide support to the long-range, collaborative, R&D effort among DOE, EPA and DOT.

*Magnetic fusion.*—The goal of this program is to establish the scientific and technological base required for fusion energy. The 1989 budget request has been developed to take advantage of the technical position that has already been established in fusion research. It will allow a continuation of cost-effective progress toward the development of fusion power as a future energy option and supports effective utilization of international collaboration. The program emphasis is focused on the nearer-term benefits of increasing the understanding of plasma physics and other related scientific fields as well as the training of scientists and engineers. The longer term program goal of fusion energy continues to be pursued but at a pace more consistent with our national energy needs. In 1989 funds will continue to be provided to support the Compact Ignition Tokamak

(CIT), design and R&D activity at the Princeton Plasma Physics Laboratory.

*Supporting research and technical analysis.*—The role of these programs is to expand the scientific and engineering base for future energy technology development and to provide independent, objective evaluations of energy research activities. Support is also provided for university related research and manpower training including the use of facilities at the national laboratories for student research and education.

*Basic energy sciences.*—This program funds basic research in the physical, biological, and engineering sciences in support of both the nuclear and non-nuclear technology programs. The principal focus of the program is energy; however, a number of other important national goals are also supported including U.S. leadership in science and technology and the training of scientists and engineers. In 1989, work will continue in materials sciences, chemical sciences, advanced energy projects, biological energy research, and research in engineering systems, applied mathematics, and the geosciences. Research related to advanced materials development, combustion, chemistry of coal, catalysts, photochemistry, nondestructive evaluation techniques will be continued. In 1989 the enhanced program of research on the new high temperature superconductivity materials will also be continued. The operations and construction of the user facilities formerly funded within this program have been transferred to a new account: Basic Research User Facilities. The research conducted in these facilities, however, will continue to be supported by the base program.

*University research instrumentation.*—This program supports the purchase of state-of-the-art scientific instrumentation used in energy-related research areas such as geological sciences, materials characterization, catalysis, and health effects research.

*University research support.*—This program helps maintain strong scientific/technical research capabilities in support of the Department's long-range energy R&D mission in the university and private sector and the national laboratories. Specific activities supported include: university reactor fuel assistance; university laboratory cooperative science centers; energy manpower development; related education and training activities; and R&D technology transfer activities.

*Energy research analysis.*—This activity involves the independent assessment of existing or proposed technological initiatives, including examination of the base of research that underlies energy supply and utilization technologies.

*Multiprogram energy laboratories facilities support.*—The goal of the multiprogram facilities program is to provide funds for rehabilitating and replacing deficient common-use utilities, roads, and buildings at the multiprogram laboratories and to provide support for environmental compliance activities at Oak Ridge National Laboratory. The environmental compliance program

will continue to fund major environmental clean-up projects in 1989.

*In-house energy management.*—This program funds energy conservation retrofit projects at Department facilities. These projects are designed to improve the efficiency of DOE energy use and set an example for other Federal agencies and the private sector. Surveys are conducted to identify cost-effective candidate projects and projects are then selected on a competitive basis using as the primary criterion the greatest economic return.

*Technical information/management program.*—This program contributes to DOE's missions in advancing energy and nuclear defense technologies and protecting U.S. economic and military security through the effective management and control of the Department's scientific and technical knowledge which is contained in its information resources. Major objectives which are structured to meet the overall purpose are the effective management, control, and use of the results of DOE's multibillion dollar research program, and the acquisition and management of results of worldwide investment in energy R&D. The fiscal year 1989 request also includes full funding for a \$2.5 million renovation of the TIMP facility in Oak Ridge, TN.

*Strategic facilities utilization program.*—This program supports a departmental initiative to reduce unnecessary expenditures of operations and maintenance funds. The Department has conducted a review and targeted 257 facilities for shutdown which were considered underutilized, with a resultant cost avoidance.

*Policy and management.*—Provides executive direction, management assistance and administrative support to all programs within energy supply activities.

Note.—The activities presented in these schedules were financed under General Science and Research activities and Energy Supply R&D activities in 1987 and 1988 and are proposed to be financed in this account in 1989.

The Basic Research User Facilities program includes funding for operation of the major "user facilities" of the Office of Energy Research's Basic Energy Sciences, High Energy Physics, and Nuclear Physics programs. They are available to all qualified government, university and industry scientists and are considered to be a national resource. These facilities, listed below, provide a unique national resource for forefront research in areas related to the use and production of energy. Much of the basic research supported by Office of Energy Research programs is conducted in these facilities which include particle accelerators, synchrotron radiation sources, and neutron sources. The research conducted in these facilities continues to be funded in the Basic Energy Sciences program in the Energy Supply Research and Development Appropriation and in the High Energy Physics and Nuclear Physics programs in the General Science and Research Appropriation.

The user facilities formerly funded by the Basic Energy Sciences program include the National Synchrotron Light Source (NSLS), the High Flux Beam Reactor (HFBR), the High Flux Isotope Reactor (HFIR), the Intense Pulsed Neutron Source (IPNS), the Stanford Synchrotron Radiation Laboratory (SSRL), the Los Alamos Neutron Scattering Center (LANSCE), and the Combustion Research Facility (CRF). The user facilities formerly funded by the General Science program include Fermilab, the Stanford Linear Accelerator Center (SLAC), the Alternating Gradient Synchrotron (AGS), the BEVALAC, and the Los Alamos Meson Physics Facility (LAMPF).

In 1989 construction will continue on several Basic Energy Science facilities: the Neutron Scattering Experimental Hall at Los Alamos National Laboratory, the 1-2 GeV Synchrotron at Lawrence Berkeley Laboratory, and the 3 GeV-injector at SSRL. In addition, funds are provided in 1989 to initiate the construction of a 6-7

GeV Synchrotron Radiation Source at the Argonne National Laboratory.

Construction will also continue on a number of General Science facilities: the AGS Accumulator/Booster Ring at Brookhaven National Laboratory, and the Continuous Electron Beam Accelerator Facility (CEBAF) at Newport News, VA. The 1989 basic research user facilities budget request also provides funding for the initiation of construction for the Superconducting Super Collider (SSC). The SSC will be the world's most powerful proton-proton collider producing particle collisions with total energies approaching 40 TeV (40 trillion electron volts), an energy twenty times the highest energy available in the world today.

**Uranium enrichment operating expenses.**—The goal of this program is to meet domestic, foreign and U.S. Government requirements for uranium enrichment services (enrichment of uranium and uranium compounds in the isotope U-235) in the most economical, reliable, safe, secure and environmentally acceptable manner possible. This program is comprised of four subprograms: (a) gaseous diffusion operations and support; (b) Atomic Vapor Laser Isotope Separation (AVLIS) activities; (c) gas centrifuge program closeout activities; and, (d) program direction.

The gaseous diffusion operations and support program provides for all activities related to operation and maintenance of the gaseous diffusion enrichment plants located at Paducah, KY and Portsmouth, OH.

In 1989 the Department will continue the AVLIS program conducted at the Lawrence Livermore National Laboratory in Livermore, CA, and conducted in facilities located at Oak Ridge, TN.

The gas centrifuge program provides for closeout of the advanced gas centrifuge enrichment process and for the termination of the Gas Centrifuge Enrichment Plant located at Portsmouth, OH.

In 1989, the Uranium Enrichment program will collect revenues and return to the Treasury \$91,000,000 in partial repayment of prior Government investment.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT  
(INCLUDING TRANSFER OF FUNDS)

For necessary expenses in carrying out fossil energy research and development activities, under the authority of the Department of Energy Organization Act (Public Law 95-91), including the acquisition

of interest, including defeasible and equitable interests in any real property or any facility or for plant or facility acquisition or expansion, [\$326,975,000] \$166,992,000, to remain available until expended, of which [\$230,000] \$24,900 is for the functions of the Office of the Federal Inspector for the Alaska Natural Gas Transportation System established pursuant to the authority of Public Law 94-586 (90 Stat. 2908-2909), and of the amount appropriated under this head, \$4,000,000 shall be available to construct Department of Energy Fossil Energy Building B-26, and pursuant to section 111(b)(1)(B) of the Energy Reorganization Act of 1974, as amended, of the amount appropriated under this head, \$5,500,000 shall be available for a grant for an energy center at the University of Oklahoma in Norman, Oklahoma, and \$6,000,000 shall be available for a grant for an energy center at West Virginia University in Morgantown, West Virginia, without section 111(b)(2) of such Act being applicable, and \$20,894,000 to be derived by transfer from amounts derived from fees for guarantees of obligations collected pursuant to section 19 of the Federal Nonnuclear Energy Research and Development Act of 1974, as amended (42 U.S.C. 5919), and deposited in the "Energy security reserve" established by Public Law 96-126: *Provided*, That no part of the sum herein made available shall be used for the field testing of nuclear explosives in the recovery of oil and gas: *Provided further*, That notwithstanding any other provision of law, funds appropriated under this head in Public Law 99-190 for demonstration of the Kiln-gas coal gasification process, which remain unobligated, shall be available for carrying out any fossil energy research and development activities.

Of the funds herein provided, \$35,000,000 is for implementation of the June, 1984 multiyear, cost-shared magneto-hydrodynamics program targeted on proof-of-concept testing: *Provided further*, That 25 per centum private sector cash or in-kind contributions shall be required for obligations in fiscal year 1988, and for each subsequent fiscal year's obligations private sector contributions shall increase by 5 per centum over the life of the proof-of-concept plan: *Provided further*, That existing facilities, equipment, and supplies, or previously expended research or development funds are not cost-sharing for the purposes of this appropriation, except as amortized, depreciated, or expensed in normal business practice: *Provided further*, That cost-sharing shall not be required for the costs of constructing or operating Government-owned facilities or for the costs of Government organizations, National Laboratories, or universities and such costs shall not be used in calculating the required percentage for private sector contributions: *Provided further*, That private sector contribution percentages need not be met on each contract but must be met in total for each fiscal year. (Department of the Interior and Related Agencies Appropriations Act, 1988.)

The Fossil Energy programs support research and development that will strengthen the technology base on which industry can draw in developing future new products and processes for the commercial market. The programs support activities ranging from basic research in universities and national laboratories to applied R&D and proof-of-concept projects in private sector firms.

Reductions in the Fossil Energy R&D programs are proposed in the 1989 budget to eliminate Federal support of company-specific technology development and demonstration activities. The program continues to fund high-priority, long-term and cross-cutting research that will improve the Nation's ability to cleanly and efficiently use coal, and to enhance our economically recoverable reserves of oil and gas.

**Coal R&D.**—The objectives of this program will be to continue generic, technology base and environmental research to provide an adequate scientific and engineering knowledge base to foster technological advances by the private sector. The 1989 research program provides for a continued, limited Federal role in support of longer-term high-risk R&D that supports technology development by the private sector. These efforts will include the Advanced Research and Technology Development program with additional advanced research efforts conducted in the Advanced Research portions of the Coal Liquefaction control technology and coal preparation, combustion systems, fuel cells, and Surface Gasification programs. Another main thrust of the 1989 program will focus upon acid rain-related technologies. Therefore, the Control Technology and Coal Preparation programs will also contain a major portion of the funding request, as will Combustion Systems and, to a lesser degree, Surface Coal Gasification and Heat Engines. Efforts will also continue to more effectively utilize our coal resources by continuing our programs in the areas of Coal Liquefaction and Fuel Cells. Monitoring efforts will also continue within the Underground Coal Gasification program.

**Oil, gas and shale.**—The 1989 program will focus primarily on developing Enhanced Oil Recovery techniques, with these efforts devoted entirely to heavy and light oil research. An expanded Geosciences program will also be pursued. Funding for Tar Sands research is not requested for 1989. Advanced Process Technology research will be continued in 1989 as will a reduced Oil Shale and a reduced Unconventional Gas Recovery program.

**Program direction and management support.**—This provides the funding for both Headquarters and field personnel and overhead expenses in Fossil Energy. In addition, it provides support for the day-to-day project management functions.

**Federal Inspector for the Alaska natural gas pipeline.**—Activities formerly included under the Office of the Federal Inspector for the Alaska natural gas pipeline are now funded in this line item, in accordance with the 1986 appropriation.

**Cooperative R&D Ventures Pool.**—In 1989 the Department plans to join with private sector participants in the formation of cooperative research and development ventures which address precompetitive stages of Fossil Energy Technology development where the non-Federal

venture partners contribute over 50 percent of the ventures funding.

naval petroleum reserves at the maximum efficient rate and to conserve the oil shale reserves. This includes routine operation and maintenance, development and exploration drilling, environmental and conservation work, and construction and installation of on-reserve facilities and related systems required for the collection, storage, and distribution of produced petroleum and related products. The budget proposes the sale of the Government's ownership interest in the oil fields at Elk Hills, near Bakersfield, CA and at Teapot Dome near Casper, WY at the end of 1989.

The energy conservation programs support research and development that will strengthen the technology base on which industry can draw in developing future new products and processes for the commercial market. The programs support activities ranging from basic research in universities and national laboratories to applied R&D and proof-of-concept projects in industrial firms.

Reductions in the energy conservation R&D programs are proposed in the 1989 Budget consistent with budgetary constraints.

**Buildings and community systems.**—The 1989 buildings and community systems program will support generic research in building sub-systems, technology and consumer products, appliance standards, the Federal energy management program, and technology assessment and transfer activities to assist the private sector in adopting new energy-conserving technologies.

**Industrial.**—Industrial conservation will continue the research and development of generic technologies in waste energy reduction and improved process efficiency. These programs involve combustion technology, advanced heat exchangers and heat pumps, innovative concepts for the utilization of industrial waste materials, and the development of new energy efficient processes for the production of materials and products. These activities provide a broad technology base which contributes to more efficient industrial operations and more effective utilization of energy.

**Transportation.**—The 1989 transportation program will support cross-cutting R&D in advanced high-temperature materials (primarily at the High-Temperature Materials Lab), and in alternative vehicle propulsion

concepts (automotive gas turbine, and adiabatic diesel). It will also support work in areas such as alternative fuels, technology assessment and transfer, electric and hybrid vehicles, and industry-based activities complementing the technology base activities in advanced materials and alternative vehicle propulsion.

**Multisector.**—The 1989 multisector program will support cross-cutting R&D at universities and national labs in such areas as combustion and thermal sciences, materials sciences, biocatalysis, and tribology. The multisector program also supports the Energy-Related Inventions Program which assists independent inventors. The multisector program also includes funds for a new initiative to explore end-user technology applications for high-temperature superconductors.

**State and local assistance programs.**—The 1989 State and local assistance programs provide no new federal grants for the State energy conservation (EPCA), energy extension service, schools and hospitals, and weatherization assistance programs. Responsibility for providing these services most appropriately resides with the States. Funds have been made available to the States through the settlement of petroleum pricing violation cases, and these funds can be used to finance weatherization and other energy-related activities. The programs provide money for the oversight and monitoring of Exxon and Stripper Well funds distributed to the States.

**Policy and management.**—Provides for overall management guidance and program evaluation for Energy Conservation programs to ensure effective program delivery.

**Facilities.**—No funds are requested for any facilities activities in 1989.

The objective of this program is to decrease the vulnerability of the United States to disruptions in world petroleum markets by creating a crude oil stockpile to be used in the event such disruptions occur.

The account provides for petroleum reserve storage facility construction, ongoing operations and maintenance activities, planning studies, and program administration.

The Department has proposed legislation to authorize the sale of either or both the Naval Petroleum Reserves Numbered 1 (Elk Hills) and 3 (Teapot Dome), with the

proceeds to be earmarked for acquisition of oil for a 10 million-barrel Defense Petroleum Inventory and for filling the Strategic Petroleum Reserve at a minimum annual average rate of 100,000 barrels a day. Contingent upon the enactment of this legislation, the Department proposes an additional \$684,352,000 for the SPR Petroleum Account in fiscal year 1989, including \$207,525,000 to acquire the oil for the Defense Petroleum Inventory and \$476,827,000 to increase the fill rate of the Strategic Petroleum Reserve in fiscal year 1989 from a minimum annual average rate of 50,000 barrels a day to one of 100,000 barrels a day.

This program supports energy information activities which are designed to provide timely, accurate and relevant energy information for use by the Administration, the Congress, and the general public.

*National energy information system.*—The activities funded in this program include the design, development and maintenance of information systems on petroleum, natural gas, coal, nuclear, electricity, alternate fuel sources, and energy consumption. This includes collecting data and ensuring its accuracy; preparing short-term forecasts; and preparing reports on energy sources, end-uses, prices, supply and demand, and associated economic, international, and financial matters. This program also includes the operation of the Energy Information Administration (EIA) computer facility, telecommunications support, customer services, and ADP software support to the Department of Energy and others. In addition, the National Energy Information Center disseminates publications, analytic reports, information directives, and public use tapes, and responds to public inquiries. Finally, this activity provides survey and statistical design standards, documentation standards, and energy data public-use forms clearance and burden control services.

*Policy and management.*—This program provides direction to EIA through the Office of the Administrator; provides funding for administrative services; and provides administrative support to EIA program offices in the area of planning, budgeting, contract administration, personnel, and administrative services.

*Economic regulation.*—The Economic Regulatory Administration (ERA) is responsible for pursuing and finalizing any remaining enforcement actions to assure that oil companies complied with petroleum regulations in effect prior to decontrol of oil in January 1981. In addition, ERA authorizes the import and export of natural gas and export of electricity, licenses international electricity transmission facilities, and provides regulatory relief to utilities so they can convert existing oil and gas-fired facilities to coal.

*Hearings and appeals.*—The Office of Hearings and Appeals issues all final orders of an adjudicatory nature other than those over which the Federal Energy Regulatory Commission has jurisdiction. It decides appeals of such orders, examines requests for exception relief, and administers refund proceedings involving consent order funds obtained as a result of petroleum enforcement actions.

The Federal Energy Regulatory Commission (FERC) is charged with regulating certain interstate aspects of the natural gas, hydroelectric, oil pipeline, and electric industries. Such regulation includes issuing licenses, approving rates, inspecting dams and enforcement activities and providing other services to regulated businesses. In 1989, these businesses will pay fees and charges sufficient to offset the Commission's cost of providing licenses, inspections and other services.

*Natural gas regulation.*—The Commission regulates 150 natural gas pipeline companies and more than 9,700 natural gas producers. Responsibilities include issuing certificates of public convenience and necessity for natural gas pipelines, determining rates for the transportation and sale of natural gas, administering wellhead pricing provisions in accordance with the Natural Gas Policy Act, and establishing curtailment and other provisions. Producer certificates and rates are also reviewed by the Commission.

*Hydropower licensing regulation.*—The Commission issues preliminary permits and exemption licenses for hydroelectric projects, enforces the terms and conditions, and performs dam safety inspections. There are currently more than 1,000 hydroelectric projects under license, representing nearly 1,400 hydroelectric developments, which supply 12 percent of the electric energy generated in the United States. The Commission also performs investigations of headwater benefits that are derived from Federally-owned or licensed headwater improvements.

*Oil pipeline regulation.*—The Commission's responsibilities include the establishment of just and reasonable transportation rates. Approximately 137 common carrier oil pipeline companies, including the Trans-Alaska Pipeline System (TAPS), are currently under the jurisdiction of the FERC. The valuation of these regulated companies approximates \$21 billion. During 1986, the Commission implemented a new methodology for determining oil pipeline rates based on trended original cost.

*Electric power regulation.*—The Commission is responsible for determining rates for the interstate sale or transmission of wholesale electric energy for more than 200 electric utilities and for overseeing electric utility corporate transactions. The Commission approves rates for all Federal power marketing agencies except TVA. The Commission also certifies cogenerators and small power producers.

Public Law 99-190, making continuing appropriations for 1986, provided \$400 million from funds in the Energy Security Reserve in the Department of the Treasury for a new Clean Coal Technology Program in the Department of Energy. This program was authorized under the Clean Coal Technology Reserve proviso of Public Law 98-473 to subsidize the construction and operation of facilities to demonstrate the potential commercial feasibility of such technologies.

Of the \$400 million, \$100 million was made available for obligation beginning in 1986, \$150 million in 1987, and \$150 million in 1988. These amounts were reduced by .6 percent pursuant to section 325 of the Department of the Interior and Related Agencies Appropriations Act, 1986, as included in section 101(d) of Public Law 99-190.

The 1988 appropriations provide for \$50 million in 1988 and \$525 billion as a 1989 advance appropriation. The 1988 appropriation is considered part of a \$2.5 billion, five-year Innovative Control Technology program in support of the President's March 1987 acid rain initiative.

This program was established in 1980 for the purpose of expediting the development and production of alternative fuels.

When the Synthetic Fuels Corporation was declared to be operational in 1982, the uncommitted and unobligated funds remaining in the program were transferred to the Energy Security Reserve for use by the Synthetic Fuels Corporation, with the exception of the loan guarantee for the Great Plains Gasification Project, which remained under the jurisdiction of the Department of Energy. The Department exercised its authority to borrow from the Treasury to repay the Federal Financing Bank upon default of the borrower in 1985. This loan was repaid, along with accrued interest, by a Supplemental appropriation in 1986. The Department acquired ownership of the Great Plains plant by foreclosure, which was completed on July 14, 1986, and has continued operation of the plant. Plant operations have been accomplished without the expenditure of appropriated funds. The Department hopes to complete the process of returning this plant to private sector ownership by September 1988.

NUCLEAR WASTE DISPOSAL FUND

For nuclear waste disposal activities to carry out the purposes of Public Law 97-425, as amended, including the acquisition of real property or facility construction or expansion, **[\$360,000,000]** \$448,832,000, to remain available until expended, to be derived from the Nuclear Waste Fund. To the extent that balances in the fund are not sufficient to cover amounts available for obligation in the account, the Secretary shall exercise his authority pursuant to section 302(e)(5) to issue obligations to the Secretary of the Treasury. In paying the amounts determined to be appropriate as a result of the decision in Wisconsin Electric Power Co. v. Department of Energy, 778 F.2d 1 (D.C. Cir. 1985), the Department of Energy shall pay, from the Nuclear Waste Fund, interest at a rate to be determined by the Secretary of the Treasury and calculated from the date the amounts were deposited into the Fund. Funds appropriated pursuant to this Act may be used to provide payments equivalent to taxes to special purpose units of local government at the candidate sites: *Provided, That any proceeds resulting from the sale of assets purchased from the Nuclear Waste Fund shall be returned to the Nuclear Waste Fund.*

[Subtitle A of Title V, Nuclear Waste Policy Amendments Act of 1987, contained in H.R. 3545, Omnibus Budget Reconciliation Act of 1987 as agreed to and reported by the Committee of Conference on H.R. 3545 is included herein and shall be effective as if it had been enacted into law.] (Energy and Water Development Appropriation Act, 1988.)

ISOTOPE PRODUCTION AND DISTRIBUTION FUND

For necessary expenses of activities related to the production, distribution, and sale of isotopes and related services, \$16,243,000, to remain available until expended: *Provided, That this appropriation and, notwithstanding 31 U.S.C. 3302, revenues received from the disposition of isotopes and related services shall be credited to a separate fund to be available for carrying out these purposes without further appropriation: Provided further, That all unexpended balances of previous appropriations made for the purpose of carrying out activities related to the production, distribution, and sale of isotopes and related services may be transferred to this fund and merged with other balances in the fund: Provided further, That the Secretary shall pay interest from this fund into the general fund of the Treasury on the amount that the average undisbursed cash balance in the fund during the year is less than the aggregate of amounts appropriated to the fund, at a rate determined by the Secretary of the Treasury based upon the average market yield during the month preceding each fiscal year on outstanding marketable obligations of the United States: Provided further, That fees shall be set by the Secretary of Energy in such a manner as to provide full cost recovery, including administrative expenses, depreciation of equipment, accrued leave, and probable losses: Provided further, That all expenses of this activity shall be paid only from funds available in this fund: Provided further, That at any time the Secretary of Energy determines that moneys in the fund exceed the anticipated operating requirements of the fund, such excess shall be transferred to the general fund of the Treasury.*

The Isotope Production and Distribution program is directed toward the production, sale and distribution of isotope products and services to the user community utilizing Government-owned facilities. The isotopes produced by the Department of Energy are those that are normally not available from domestic commercial sources because of nuclear restrictions, high production costs with low demand, or environmental restrictions.

The isotopes are purchased for use in industrial applications, hospital and medical facilities, and Government and university research programs.

*Civilian reactor safety and testing.*—Advances contributed by domestic and foreign sources fund research and development activities involving advanced reactors and related processes and sponsor international light water reactor safety testing at the Loss-of-Fluid Testing Facility.

*Remedial action and nuclear waste technology.*—Advances from domestic and foreign sources sponsor joint nuclear waste processing research projects.

*Magnetic fusion program.*—Advances received under international cooperative agreements provide for joint research, operation and upgrading of magnetic fusion and reactor facilities.

*Basic energy sciences.*—Advances contributed by foreign countries under cost-sharing agreements are for neutron scattering experiments and research.

*Fossil energy.*—Advances from private domestic and foreign government sources provide funds for enhanced oil recovery research, advancement of coal technology and the liquefied gaseous fuels spill test facility.

*Richland operations office.*—Advances from public utilities fund the cost of essential support services provided at a jointly operated reactor facility.

*Defense programs.*—Information concerning these activities is classified.

*Technical information management program.*—Advances received under international cooperative agreements provide funds for operating the International Energy Agency (IEA) and Energy Technology Data Exchange (ETDE).

The Alaska Power Administration (APA) is responsible for operation and maintenance and power marketing for the Eklutna and Snettisham hydroelectric projects in accordance with the authorizing legislation for each project.

The agency's normal activities will continue in 1989. The appropriation request anticipates that \$120,000 deferred from prior years will be used in 1989. Proprietary receipts are estimated to be \$8,231,000 in 1989.

Efforts will continue on a possible Alaska Power Administration divestiture. Administration activities will be coordinated with the Congress and existing power customers, and implementation will not proceed until there are necessary legislative approvals. To the extent feasible, divestiture will be accomplished with no significant power rate increases for ratepayers. The budget assumes that divestiture of the Alaska Power Administration will be authorized and implemented at the end of 1989.

Bonneville Power Administration (BPA) is the Federal electric power marketing agency in the Pacific Northwest. BPA markets hydroelectric power from 21 multipurpose water resource projects of the U.S. Army Corps of Engineers and 9 projects of the U.S. Bureau of Reclamation, plus some energy from non-Federal generating projects in the region. These generating resources and BPA's transmission system, planned by the end of 1989 to consist of an estimated 14,627 circuit miles of high-voltage transmission lines and 386 substations, are operated as an integrated power system with operating and financial results combined and reported as the Federal Columbia River Power System. BPA is the largest power wholesaler in the Northwest and provides about four-fifths of the region's electric power transmission capacity.

BPA is responsible for meeting the net firm power requirements of its requesting customers through a variety of means, including energy conservation programs, acquisition of renewable and other resources, and power exchanges with utilities both in and outside the region.

BPA will finance its operations on the basis of the self-financing authority provided by Federal Columbia River Transmission System Act of 1974 (Transmission Act) (Public Law 93-454) and the new borrowing authority provided by the Pacific Northwest Electric Power Planning and Conservation Act (Pacific Northwest Power Act) (Public Law 96-501) for energy conservation, renewable energy resources, and capital fish facilities. Authority to borrow available to the BPA is available on a permanent, indefinite basis. The amount of borrowing outstanding at any time cannot exceed \$3,750,000,000.

*Budget programs—Resource planning, acquisition, and oversight.*—Provides for the orderly planning, acquisition, and oversight of reliable, cost-effective, environmentally acceptable resources, including resources purchased prior to the Pacific Northwest Power Act, needed to serve BPA's portion of the region's forecasted net electric load requirements that cannot be met through cost-effective conservation.

*Residential exchange.*—Provides for extending the benefits of low-cost Federal power to the residential and small farm customers of investor-owned and publicly-owned utilities, in accordance with the Pacific Northwest Power Act.

*Energy conservation.*—Provides limited funding from revenues in support of the capital investment program described below for energy conservation.

## Public enterprise funds—Continued

## BONNEVILLE POWER ADMINISTRATION FUND—Continued

*System planning and construction.*—Provides limited funding from revenues in support of the capital investment program described below for system planning and construction.

*Operating programs—System operation.*—Provides for operating an estimated 14,627 miles of line and 386 substations of the BPA transmission system during 1989.

*System maintenance.*—Provides for maintaining the facilities and equipment of the BPA transmission system in 1989.

*Power marketing.*—Provides for forecasting regional demand; negotiating power sales and wheeling, billing, and servicing these contracts; reviewing and establishing wholesale power and wheeling rates; and encouraging public participation in the formation of BPA policies and programs.

*Power scheduling.*—Provides for the scheduling of power.

*Fish and wildlife.*—Provides limited funding from revenues in support of the capital investment program described below for fish and wildlife.

*Planning Council.*—Provides for activities of the Pacific Northwest Electric Power and Conservation Planning Council required by the Pacific Northwest Power Act.

*Net interest on borrowings.*—Provides for payments to the U.S. Treasury for interest on borrowings to finance BPA's construction, energy conservation, and fish and wildlife programs under \$3,750,000,000 borrowing authority provided by the Transmission Act as amended by the Pacific Northwest Power Act and replenished by Public Law 98-50.

*Associated project costs.*—Provides for repayment of the operation and maintenance (O&M) costs of the 30 U.S. Army Corps of Engineers and U.S. Bureau of Reclamation power generating projects, interest and amortization on the U.S. Bureau of Reclamation capital investment in power generating facilities, and coordination agreement payments to the Federal Energy Regulatory Commission.

*Reimbursable.*—Provides for reimbursable power purchases, including that portion of Hanford Generating Project operating expenses paid by two investor-owned utilities through trust fund arrangements. Also provides for services such as construction, operation and maintenance of transmission facilities when requested and financed by other entities.

*Capital investment—Energy conservation.*—Provides for funding conservation measures, including home energy efficiency, commercial energy efficiency, utility distribution system loss reduction, industrial technological transfers, solar energy applications, and conservation measures for new home and commercial building construction.

*System planning and construction.*—Provides for continuation of construction work on transmission lines, substations and related facilities initiated in prior years, initiation of construction on system additions, and planning and research and development for a reliable, efficient and cost-effective regional transmission

system. During 1989, BPA plans to energize no additional miles of line or substations.

*Capital equipment.*—Provides for general purpose ADP equipment, office furniture and equipment, and software development in support of all BPA programs. This activity was previously included as part of the system planning and construction program.

*Fish and wildlife.*—Provides for protection, mitigation and enhancement of fish and wildlife affected by hydroelectric facilities on the Columbia River and its tributaries, in accordance with the Pacific Northwest Power Act.

*Contingencies.*—Although contingencies are not specifically funded, the need may arise to provide for purchase of power in low-water years; for repair and/or replacement of facilities affected by natural and man-made emergencies, including the resulting additional costs for contracting, construction, and operation and maintenance work; for unavoidable increased costs for the planned program due to necessary but unforeseen adjustments, including engineering and design changes, contractor and other claims and relocations, or for payment of a retrospective premium adjustment in excess nuclear property insurance policy, in the event one of the participating utilities has an accident with property damage in excess of \$500 million.

*Financing.*—The Transmission Act provides for the use by BPA of all receipts, collections, and recoveries in cash from all sources, including the sale of bonds, to finance the annual budget programs of BPA. These receipts result primarily from the sale of power and wheeling. The Transmission Act also provides for authority to borrow from the U.S. Treasury at rates comparable to borrowings at open market rates for similar issues. As amended by the Pacific Northwest Power Act and replenished by Public Law 98-50, it allows for \$3,750,000,000 of borrowing to be outstanding at any time. Borrowing authority estimated for use in 1989 is \$136,000,000.

In fiscal year 1987 BPA made payments to the Treasury of \$630.3 million and also expects to make payments of \$671.3 million in 1988 and \$639.0 million in 1989. The 1989 payment will be distributed as follows: U.S. Army Corps of Engineers, U.S. Bureau of Reclamation, U.S. Fish and Wildlife Service O&M, and FERC payments (\$101.6 million), interest expense on bonds and appropriations (\$372.6 million), allowance for funds used during construction—capitalized interest (\$16.7 million) and amortization (\$148.1 million).

*Direct loans.*—There will be no direct loans in 1989.

*Operating results.*—Total revenues and reimbursements are forecast at approximately \$3,085,500,000 in 1989.

It should be noted that BPA's revenue forecasts are based on several critical assumptions about both the supply of and demand for Federal energy. Deviation from the assumed conditions may result in variation in actual revenues of several hundred million dollars from the forecast. Estimated net operating income for 1989, based on BPA's current revenue and expense estimates, is \$247,200,000, a decrease of \$26,924,000 from 1988.

The Southeastern Power Administration (SEPA) markets power generated at Corps of Engineers hydroelectric generating plants in a 10-State area of the Southeast. Deliveries are made by means of transmission facilities owned by others. There are 22 projects now in operation. A schedule of kilowatt capacity of projects in operation or under construction follows:

Projects in operation.....	3,092,375
Project under construction: Russell B. Russell (pumping units).....	300,000
Total.....	3,392,375

SEPA sells power at wholesale primarily to publicly and cooperatively owned electric distribution utilities using wheeling and pooling agreements with the region's large private utilities to provide firm power to its customers. SEPA does not own or operate any transmission facilities. Its long-term contracts provide for periodic electric rate adjustments to insure that the Federal Government recovers all costs of operation and all capital invested in power, with interest, in keeping with statutory requirements.

Legislation has been introduced to study a possible divestiture of the Southeastern Power Administration. Administration activities will be coordinated with the Congress and existing power customers, and implementation will not proceed until there are necessary legislative approvals.

The SEPA program includes the following activities:  
**System operation and maintenance.**—Provision is made for negotiation and administration of power contracts, collection of revenues, development of wholesale power rates, the amortization of power investment, investigation and planning of proposed water resources projects, scheduling and dispatch of power generation, scheduling storage and release of water, administration

of contractual operation requirements, and determination of methods of operating generating plants individually and in coordination with others to obtain maximum utilization of resources. Proprietary receipts deposited in the Treasury were \$101,322,116 for 1987 and are estimated to be \$119,533,400 for 1988. Proprietary receipts are expected to be \$129,224,300 for 1989.

*Purchase power and wheeling.*—Provision is made for the payment of wheeling fees and for the purchase of electricity in connection with disposal of power under contracts with utility companies.

The Southwestern Power Administration (SWPA) operates as a marketing agent for hydroelectric power produced at Corps of Engineers dams in a six-State area. It also operates and maintains some 1,355 miles of high voltage transmission lines, 24 substations and switching stations and 35 radio and microwave stations. SWPA sells its power at wholesale primarily to publicly and cooperatively owned electric distribution utilities. Its long-term contracts provide for periodic rate adjustments to insure that the Federal Government recovers all costs of operation and all capital invested in power, with interest, in keeping with statutory requirements.

SWPA also is responsible for scheduling and dispatching power, negotiating power sales contracts, and constructing facilities required to meet changing customer load requirements.

*Systems operation and maintenance.*—Provision is made for investigating and planning proposed water resources projects, scheduling and dispatching power generation, scheduling storage and release of water, administering contractual operation requirements, and determining methods of operating generating plants individually and in coordination with others to obtain maximum utilization of resources. Provision also is made for

maintenance of the transmission system and related facilities to assure reliable service, negotiation and administration of power contracts, collection of revenue, development of wholesale power rates and the amortization of the power investment. Estimated proprietary receipts which are deposited in the Treasury are \$91,530,000 in 1987, and are estimated to be \$89,574,000 in 1988. Proprietary receipts are expected to be \$91,185,000 in 1989.

**Purchase power and wheeling.**—Provision is made for the payment of wheeling fees and for the purchase of energy in connection with the marketing of power under contracts with utility companies.

**Construction.**—The construction program provides transmission, substation and switching facilities to transmit power generated at Corps of Engineers' hydroelectric projects in the Southwest. This program is co-ordinated with the Corps of Engineers' construction program and customer requirements in order that transmission and related facilities will be in place when these power projects are completed and available for marketing. This program also provides for the purchase of capital electrical equipment used for upgrading the established system to meet changing customer load requirements.

**Reimbursable program.**—This program involves services provided by Southwestern Power Administration to others under various types of reimbursable arrangements. In 1989 the reimbursable program will provide power and energy services to three government agencies: Ft. Sill, Vance Air Force Base and McAlester Army Ammunition Plant, and direct purchase of energy for the Oklahoma companies. Construction services will be provided to various customers for the SEMO-NEARK transmission and substation additions, modifications of transmission lines, substations, and electronic facilities, and for construction of transmission facilities under Public Law 99-662.

The Western Area Power Administration (Western) markets electric power in 15 western States from federally-owned power plants operated by the Bureau of Reclamation, Corps of Engineers and the International Boundary and Water Commission. Western operates and maintains about 16,000 miles of high-voltage transmission lines and over 200 associated substation/switchyards and constructs transmission facilities, including new transmission lines, substations and essential additions and modifications to existing facilities.

Western sells power at wholesale to electric distribution utilities. In keeping with statutory requirements, Western's long-term contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of operation and all capital invested in power facilities, with interest.

*Systems operation and maintenance.*—A total of 13 power systems will be operated and maintained. Additional revenue will be available from Boulder Canyon project operations for Western's power marketing and transmission expenses, without further appropriation, as provided in the Hoover Power Plant Act of 1984 (Public Law 98-381). Western will continue to participate in conservation and renewable energy programs in 1989.

Power is sold to wholesale customers such as municipalities, cooperatives, irrigation districts, public utility districts, State and Federal government agencies, and private utilities. Receipts are deposited in the Reclamation fund, the General fund, the Colorado River Dam fund, and the Lower Colorado River Basin Development fund.

Energy sales and revenues resulting from these Western power systems operations, excluding the Colorado River Storage project, the Navajo generating plant, and the Central Arizona project, are as follows:

	1987 actual	1988 est.	1989 est.
Energy sales (millions of kilowatt hours).....	28,735	29,485	29,106
Revenues from energy sales (in thousands of dollars).....	471,901	515,287	497,403

*Purchase of power and wheeling.*—The program provides for purchase of power, wheeling, and fuel displacement. Financing of this program consists of \$113,700,000 of new budget authority, \$23,684,000 associated with net billing procedures, \$50,000,000 associated with customer bill crediting, \$37,400,000 associated with reimbursement from other Federal entities, and \$15,136,000 associated with Bonneville Power Administration power transfers for a total program cost of \$239,920,000.

*System construction.*—Construction of transmission facilities is necessary to maintain system reliability and for marketing electric power produced from generating

plants of others. Funding is provided in 1989 for system interties, joint construction participation, replacement of deteriorated wood poles and damaged wood or steel structures, reconductoring and upgrading transmission lines to increase system capacity and reliability, construction of operation and maintenance facilities, and system security additions.

*Reimbursable program.*—This program involves services provided by Western to others under various types of reimbursable arrangements. In 1989, the reimbursable program primarily provides for construction and operation and maintenance services for the Bureau of Reclamation and for construction services associated with the California-Oregon Transmission project being built for non-Federal entities and for power purchases for other Federal entities.

Western's operation and maintenance and power marketing expenses for the Colorado River storage project, the Colorado River Basin project and the Fort Peck project will be financed from power revenues.

Western operates and maintains approximately 3,000 miles of transmission lines and over 40 substations associated with these projects. Wholesale power is provided to utilities over the interconnected high-voltage transmission systems. In keeping with statutory requirements, long-term contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of operation and all capital invested in power, with interest.

The revenue from the Fort Peck project is integrated with Pick-Sloan Missouri Basin program revenue and is included in the construction, rehabilitation, operation and maintenance account.

**Colorado River storage project.**—Western markets power and operates and maintains the power transmission facilities of units of the Colorado River storage project and the Seedskaadee participating project. West-

ern also purchases electricity and pays wheeling fees to meet contractual obligations and to execute the fuel displacement program.

**Colorado River Basin project.**—The 1989 program provides for Western's expenses associated with the Central Arizona project. Financing will be from the Lower Colorado River Basin development fund.

**Fort Peck project.**—Revenue collected by Western is used to defray construction, operation and maintenance and power marketing expenses associated with the power generation and transmission facilities of the Fort Peck project, Corps of Engineers—Civil, and emergency expenses to ensure continuous operation. The Corps operates and maintains the power generating facilities, and Western operates and maintains the transmission system and performs power marketing functions.

*Departmental administration.*—This account funds a wide array of policy development and analysis activities, institutional and public liaison functions, and other program support requirements necessary to insure effective operation and management. Specific activities provided for are:

*Policy, planning and analysis.*—The Office of Policy, Planning and Analysis identifies major energy policy issues and develops an agenda for their resolution. It creates a foundation for better energy policy and programs through analysis and evaluation.

*International affairs.*—This organization supports the formulation of international energy policy, analyses and assessments of the current world energy situation, international cooperation in energy matters, and the Department's participation in the Administration's nuclear nonproliferation program.

*Management and administration.*—This office provides institutional support services to headquarters organizations and to the Department as a whole. Areas of responsibility include: organization and management systems; personnel management; contractor industrial relations; equal employment opportunity; automated data processing management and acquisition; telecommunications management; program/project construction and facility management; procurement and assistance management; and budget, accounting and finance; as well as performing and supplying administrative services.

*Congressional, intergovernmental and public affairs.*—This office is responsible for coordinating and directing legislative liaison with the Congress and coordinating and managing the Department's information dissemination activities. It gathers information on issues under departmental jurisdiction; counsels and advises DOE staff on relationships with the Congress; serves as liaison between relevant DOE elements and Congressional authorization and/or oversight committees and other Members; and coordinates the designation and scheduling of DOE witnesses to testify at hearings. For intergovernmental activities, the office provides guidance to ensure consistency in program activities with constituents and oversight on relations between Federal energy activities and external groups excluding those on an international level.

*Operations offices.*—The operations offices perform functions in support of energy activities throughout the country. Among these functions are field procurement, engineering and construction management, health and safety monitoring, property management, labor relations and maintenance of personnel and financial systems.

*General Counsel.*—This office is responsible for providing legal services to all energy activities except for

those functions belonging exclusively to the Federal Energy Regulatory Commission, which is served by its own General Counsel and litigation arising from the Emergency Petroleum Allocation Act. Its responsibilities entail the provision of legal opinion, advice and services to administrative and program offices, and the conduct of both administrative and judicial litigation, as well as legal advice and support for enforcement activities. Further, the General Counsel appears before State and Federal agencies in defense of national energy policies and activities. The office is responsible for the coordination and clearance of proposed legislation affecting energy activities and testimony before Congress. The General Counsel is also responsible for oversight of intelligence activities; assuring consistency and legal sufficiency of all energy regulations; administering and monitoring standards of conduct requirements; and conducting the Patents program.

**Inspector General.**—This office manages audit and investigative activities relating to the promotion of economy and efficiency in the administration or the prevention or detection of fraud or abuse in programs and operations.

**Office of the Secretary.**—Directs and supervises the staff and provides policy guidance to line and staff organizations in the accomplishment of agency objectives.

**Board of Contract Appeals.**—Hears and resolves contractual disputes arising from the Administration's financial assistance programs, including guaranteed loans, loan agreements, grants and cooperative agreements.

**Office of Minority Economic Impact.**—Is responsible for: (1) advising the Secretary on the effects of the Department's policies, regulations and actions on minorities and minority business enterprises; (2) conducting research to determine energy consumption and use patterns of minorities; (3) providing technical assistance to minority educational institutions and minority business enterprises to enable them to participate more fully in Departmental research activities; and, (4) providing loans to minority bank and thrift institutions under the minority bank development program. The office also is responsible for the White House Initiatives on Historically Black Colleges and Universities for the Department.

**Work for others.**—This activity covers the cost of work performed under orders placed with the Department by non-DOE entities. Reimbursement for these costs is made through deposits of offsetting collections to this account.

This fund is the repository of gifts, bequests, and devises of property, both real and personal, which the Secretary of Energy is authorized to accept, hold, administer and utilize for the purpose of aiding or facilitating the work of the Department. The provision of section 652 of the Department of Energy Organization Act, 42 U.S.C. 7762, authorizes this fund for the above purpose. Property and the proceeds thereof are used as nearly as possible in accordance with the terms of the gift or bequest.

**ADMINISTRATIVE PROVISIONS, DEPARTMENT OF ENERGY**

Appropriations under this Act for the current fiscal year shall be available for hire of passenger motor vehicles, hire, maintenance, and operation of aircraft; purchase, repair, and cleaning of uniforms; and

reimbursement to the General Services Administration for security guard services.

From appropriations under this Act, transfers of sums may be made to other agencies of the Government for the performance of work for which the appropriation is made.

None of the funds made available to the Department of Energy under this Act shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriations Act.

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private, or foreign: *Provided*, That revenues and other moneys received by or for the account of the Department of Energy or otherwise generated by sale of products in connection with projects of the Department appropriated under this Act may be retained by the Secretary of Energy, to be available until expended, and used only for plant construction, operation, costs, and payments to cost-sharing entities as provided in appropriate cost-sharing contracts or agreements: *Provided further*, That the remainder of revenues after the making of such payments shall be covered into the Treasury as miscellaneous receipts: *Provided further*, That any contract, agreement, or provision thereof entered into by the Secretary pursuant to this authority shall not be executed prior to the expiration of 30 calendar days [(not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) from the receipt by the Speaker of the House of Representatives and the President of the Senate of a full and comprehensive report on such project, including the facts and circumstances relied upon in support of the proposed project.] *after notice thereof is transmitted to the Congress.*

The Secretary of Energy may transfer to the Emergency Preparedness appropriation such funds as are necessary to meet any unforeseen emergency needs from any funds available to the Department of Energy from this Act.

*Section 303 of the Supplemental Appropriations Act, 1982 (Public Law 97-257), as amended, is repealed.*

*Notwithstanding 31 U.S.C. 3302, not to exceed \$53,000,000 of the funds derived from the sale of assets as a result of defaulted loans made under the Department of Energy Alcohol Fuels Loan Guarantee program, or any other funds received in connection with this program, shall be credited to the Biomass Energy Development account, and shall be available for payment of the guaranteed portion of defaulted loans and associated costs of the Department of Energy Alcohol Fuels Loan Guarantee program for loans guaranteed prior to January 1, 1987. Any funds received in excess of \$53,000,000 shall be returned to the Treasury as miscellaneous receipts.*

*Unobligated balances available in the Alternative Fuels Production account may be used for payment of the guaranteed portion of defaulted loans and associated costs of the Department of Energy Alcohol Fuels Loan Guarantee program, subject to the determination by the Secretary of Energy that some or all of these unobligated funds are not needed for carrying out the purposes of the Alternative Fuels Production program: Provided, That the use of these unobligated funds for payment of defaulted loans and associated costs shall be available only for loans guaranteed prior to January 1, 1987: Provided further, That such funds shall be used only after the unobligated balance in the Department of Energy Alcohol Fuel Loan Guarantee reserve has been exhausted. (Department of the Interior and Related Agencies Appropriations Act, 1988.)*

## GENERAL PROVISIONS—DEPARTMENT OF ENERGY

Sec. 301. Appropriations for the Department of Energy under this title for the current fiscal year shall be available for hire of passenger motor vehicles; hire, maintenance and operation of aircraft; purchase, repair and cleaning of uniforms; and reimbursement to the General Services Administration for security guard services. From these appropriations, transfers of sums may be made to other agencies of the United States Government for the performance of work for which this appropriation is made. None of the funds made available to the Department of Energy under this Act shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriation Act.

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private, or foreign.

### (TRANSFERS OF UNEXPENDED BALANCES)

Sec. 302. Not to exceed 5 per centum of any appropriation made available for the current fiscal year for Department of Energy activities funded in this Act may be transferred between such appropriations, but no such appropriation, except as otherwise provided, shall be increased or decreased by more than 5 per centum by any such transfers, and any such proposed transfers shall be submitted promptly to the Committees on Appropriations of the House and Senate.

Sec. 303. The unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this title. Balances so transferred may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

Sec. 304. The expenditure of any appropriation under this Act for any consulting service through procurement contract pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

【Sec. 305. (a) In any regulations issued pursuant to section 1534 of the Defense Authorization Act for 1986, the Secretary of Energy may not disallow the following costs associated with the activities of contractor personnel from the Department of Energy National Laboratories (or Department of Energy personnel of the Department of Energy National Laboratories):

(1) Costs of providing to Congress or a State legislature, in response to a request (written or oral, prior or contemporaneous) from Congress or a State legislature, information or expert advice of a factual, technical, or scientific nature, with respect to:

(A) topics directly related to the performance of the contract; or

(B) proposed legislation; irrespective of whether such information or advice was requested or supplied through the Department of Energy.

(2) Costs for transportation, lodging, or meals incurred for the purpose of providing such information or advice.】

【(b) No part of any appropriation made in this title shall be obligated or expended to influence, either directly or indirectly, any appropriation or legislation before Congress, or for any publicity or propaganda purpose not specifically authorized by Congress: *Provided*, That this provision shall not apply to:

(1) the communication of departmental or agency views to the Congress;

(2) the conduct of normal legislative liaison activities; or

(3) the costs described in subsection (a).】

【Sec. 306. No funds appropriated or made available under this or any other Act shall be used by the executive branch for studies, reviews, to solicit proposals, to consider unsolicited proposals, undertake any initiatives or draft any proposals to transfer out of Federal ownership, management or control in whole or in part, the facilities, assets, and functions of the uranium supply and enrichment program, including inventories, until such activities have been specifically authorized in accordance with terms and conditions established by an Act of Congress hereafter enacted: *Provided*, That this provision shall not apply to the authority granted to the Department of Energy under section 161g of the Atomic Energy Act of 1954, as amended, under which it may sell, lease, grant, and dispose of property in furtherance of Atomic Energy Act activities or to the authority of the Administrator of the General Services Administration pursuant to the Federal Property and Administrative Service Act of 1944 to sell or otherwise dispose of surplus property.】

【Sec. 307. Within three months following the date of enactment of this Act, the Federal Energy Regulatory Commission shall provide the Committee on Appropriations of the House and Senate with a report describing the policies followed in implementing the Commission's responsibilities under the National Environmental Policy Act. This report shall include a description of the steps the Commission has taken to ensure that environmental reviews are conducted efficiently and in a timely manner, the willingness of the Commission to utilize the technical expertise of other Federal and State agencies,

and the Commission's environmental authority regarding nonjurisdictional facilities.】

【Sec. 308. The Federal Energy Regulatory Commission is authorized to extend the time period required for commencement of construction of Project No. 4506 for an additional two years upon application by the licensee to the Federal Energy Regulatory Commission if the Federal Energy Regulatory Commission determines that an extension is warranted under the standard set forth in section 13 of the Federal Power Act and is in the public interest.】

【Sec. 309. None of the funds appropriated by this Act or any other Act may be expended by the Department of Energy or the Department of Justice or any of their component agencies to prosecute any action or to enforce any judgment against any individual corporate shareholder, officer or employee for restitution under section 209 of the Economic Stabilization Act of 1970, as amended, in any case decided by the Temporary Emergency Court of Appeals on May 7, 1987, based upon the role of such individual as a central figure in any statutory or regulatory violation, except for the actual dollar amount personally received by such individual from such violation and any interest assessed on such amount. The prohibition in this section shall apply only until October 1, 1988.】

【Sec. 310. (a) The amendments made by section 643(b) of the Energy Security Act (Public Law 96-294) and any regulations issued to implement such amendment shall apply to qualifying small power production facilities (as such term is defined in the Federal Power Act) using solar energy as the primary energy source to the same extent such amendments and regulations apply to qualifying small power production facilities using geothermal energy as the primary energy source, except that nothing in this Act shall preclude the Federal Energy Regulatory Commission from revising its regulations to limit the availability of exemptions authorized under this Act as it determines to be required in the public interest and consistent with its obligations and duties under section 210 of the Public Utility Regulatory Policies Act of 1978.】

【(b) The provisions of subsection (a) shall apply to a facility using solar energy as the primary energy source only if either of the following is submitted to the Federal Energy Regulatory Commission during the two-year period beginning on the date of enactment of this Act:

- (1) An application for certification of the facility as a qualifying small power production facility.
- (2) Notice that the facility meets the requirements for qualification.】

【Sec. 311. None of the funds appropriated by this Act or any other Act may be expended by the Federal Energy Regulatory Commission for the purpose of issuing a certificate of public convenience and necessity pursuant to the application made by the Iroquois Gas Transmission System under the Commission's optional expedited certificate procedures (Docket No. CP86-523 et al.) until the Commission has considered, in accordance with applicable law, the environmental impacts.】 (*Energy and Water Development Appropriation Act, 1988.*)

## TITLE V—GENERAL PROVISIONS

Sec. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

Sec. 502. None of the funds in this Act shall be used to pay the expenses of, or otherwise compensate, parties intervening in regulatory or adjudicatory proceedings funded in this Act. This prohibition bars payment to a party intervening in an administrative proceeding for expenses incurred in appealing an administrative decision to the courts.

【Sec. 503. None of the programs, projects or activities as defined in the report accompanying this Act, may be eliminated or disproportionately reduced due to the application of "Savings and Slippage", "general reduction", or the provision of Public Law 99-177 or Public Law 100-119.】

Sec. 【504】 503. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

Sec. 【505】 504. None of the funds appropriated in this Act shall be used to implement a program of retention contracts for senior employees of the Tennessee Valley Authority.

【Sec. 506. Notwithstanding any other provision of this Act or any other provision of law, none of the funds made available under this Act or any other law shall be used for the purposes of conducting any studies relating or leading to the possibility of changing from the currently required "at cost" to a "market rate" or any other noncost-based method for the pricing of hydroelectric power by the six Federal public power authorities, or other agencies or authorities of the Federal Government, except as may be specifically authorized by Act of Congress hereafter enacted.】

Sec. 【507】 505. None of the funds appropriated in this Act for Power Marketing Administrations or the Tennessee Valley Authority, and none of the funds authorized to be expended by this or any previous Act from the Bonneville Power Administration Fund or the Tennessee Valley Authority Fund, may be used to pay the costs of procuring extra high voltage (EHV) power equipment unless contract awards are made for EHV equipment manufactured in the United States when such agencies determine that there are one or more manufacturers of domestic end product offering a product that meets the technical requirements of such agencies at a price not exceeding 130 per centum of the bid or offering price of the most competitive foreign bidder: *Provided*, That such agencies shall determine the incremental costs associated with implementing this section and defer or offset such incremental costs against otherwise existing repayment obligations: *Provided further*, That this section shall not apply to any procurement initiated prior to October 1, 1985, or to the acquisition of spare parts or accessory equipment necessary for the efficient operation and maintenance of existing equipment and available only from the manufacturer of the original equipment: *Provided further*, That this section shall not apply to procurement of domestic end product as defined in 48 C.F.R. sec. 25.101: *Provided further*, That this section shall not apply to EHV power equipment produced or manufactured in a country whose government has completed negotiations with the United States to extend the GATT Government Procurement Code, or a bilateral equivalent, to EHV power equipment, or which otherwise offers fair competitive opportunities in public procurements to United States manufacturers of such equipment.

【Sec. 508. None of the funds in this Act may be used to construct or enter into an agreement to construct additional hydropower units at Denison Dam—Lake Texoma.】

【Sec. 509. In honor of Ernest Frederick Hollings, the building located at 83 Meeting Street in Charleston, South Carolina, shall hereafter be known and designated as the "Hollings Judicial Center": *Provided further*, That the lock and dam on the Tombigbee River in Pickens County, Alabama, commonly known as the Aliceville Lock and Dam, and the resource management and visitor center at Aliceville Lake on the Tennessee-Tombigbee Waterway shall hereafter be known and designated as the "Tom Beville Lock and Dam" and the "Tom Beville Resource Management and Visitor Center at Aliceville Lake on the Tennessee-Tombigbee Waterway", respectively. Any reference in a law, map, regulation, document, or paper of the United States to such lock and dam and any reference in a law, map, regulation, document, or paper of the United States to such resource management and visitor center shall be held to be a reference to the "Tom Beville Lock and Dam" and the "Tom Beville Resource Management and Visitor Center at Aliceville Lake on the Tennessee-Tombigbee Waterway", respectively.】 (*Energy and Water Development Appropriation Act, 1988.*)

#### Federal Funds

#### General and special funds:

#### [SALARIES AND] PROGRAM EXPENSES

For necessary expenses of the Food and Drug Administration; for rental of special purpose space in the District of Columbia or elsewhere; and for miscellaneous and emergency expenses of enforcement activities, authorized and approved by the Secretary and to be accounted for solely on the Secretary's certificate, not to exceed \$25,000; **[\$450,504,000: Provided,** That none of these funds shall be used to develop, establish, or operate any program of user fees authorized by 31 U.S.C. 9701] **\$468,486,000, of which \$25,612,000 shall be for payment of rent and related costs pursuant to Section 210(j) of the Federal Property and Administrative Services Act: Provided,** That neither this nor any other provision of law shall require a reduction in the level of rental space or services below that of fiscal year 1988 or prohibit an expansion of rental space or services with the use of funds otherwise appropriated under this heading: **Provided,** That should the Food and Drug Administration require modification of space needs, the sums provided herein for rental and related costs may be increased or decreased by not more than 10 per centum, and any such increase or decrease shall not alter the total amount available for this account; and of which \$1,450,000 shall remain available until expended for construction and renovation of facilities: **Provided further,** That funds provided under this heading may be used for one-year contracts which are to be performed in two fiscal years so long as the total amount for such contracts is obligated in the year for which the funds are appropriated.

Further, for fiscal year 1990 for the foregoing purposes and subject to the same terms and conditions, **\$471,930,000, of which \$25,612,000 shall be for payment of rent and related costs pursuant to Section 210(j) of the Federal Property and Administrative Services Act: Provided,** That neither this nor any other provision of law shall require a reduction in the level of rental space or services below that of fiscal year 1989 or prohibit an expansion of rental space or services with the use of funds otherwise appropriated under this heading; and of which \$1,450,000 shall remain available until expended for construction and renovation of facilities: **Provided further,** That user fees specifically authorized by law may be credited to appropriations under this heading and shall remain available until expended. (Rural Development, Agriculture, and Related Agencies Appropriations Act, 1988.)

#### [RENTAL PAYMENTS (FDA)]

#### [(INCLUDING TRANSFERS OF FUNDS)]

**[For payment of space rental and related costs pursuant to Public Law 92-313 for programs and activities of the Food and Drug Administration which are included in this Act, \$25,612,000: Provided,** That in the event the Food and Drug Administration should require modification of space needs, a share of the salaries and expenses appropriation may be transferred to this appropriation, or a share of this appropriation may be transferred to the salaries and expenses appropriation, but such transfers shall not exceed 10 per centum of the funds made available for rental payments (FDA) to or from this account.] (Rural Development, Agriculture, and Related Agencies Appropriations Act, 1988.)

MEMORANDUM

Table with 4 columns: Identification code, 1987 actual, 1988 est., 1989 est. Row 2299: U.S. contingent liability for guaranteed loans outstanding, end of year.

This account has been created to show the effect of the Administration's credit reform proposal on the Health Education Assistance Loan (HEAL) program. An explanation of the proposal is included in Part 6b of the Budget.

An appropriation to this account would reflect the estimated grant-equivalent subsidy for Federal guaranteed loan commitments made by the HEAL program. No appropriation is requested because the Administration's proposal to increase the HEAL insurance premium (proposal for later transmittal) eliminates the grant-equivalent subsidy in the HEAL program.

Title VII, part C of the Public Health Service Act established a revolving fund from which health professions schools could borrow in order to provide loans to their students. Public Law 89-751, the Allied Health Professions Personnel Training Act of 1966, amended the Public Health Service Act to authorize the Federal Government to pay the difference between the interest paid by students to the schools and the interest payable by the schools to the Government National Mortgage Association (GNMA) and the Treasury.

The participation certificates outstanding, held by this fund, were \$9,729,000 at the end of 1987 and are estimated to remain at that level in 1988. Through redemption of all participation certificates outstanding, the balance held by this fund is expected to drop to zero by 1989.

Title VI and subsequently title XVI of the Public Health Service Act established a loan and loan guarantee fund for medical facilities with a maximum amount allowable for the Government's liability. Direct loans were made available for public facilities and guaranteed loans for private, nonprofit facilities.

Funds under this authority were established in the amount of \$50 million for use in fulfilling guarantees in event of default, \$30 million as a revolving fund for direct loans and an amount for interest subsidy payments on guaranteed loans. Default and interest subsidy funds are replenished as necessary through the annual appropriation process.

All direct loan assets will be sold to the public during 1989.

The Administration continues to support the AFDC Employment and Training Reorganization Act of 1987 (H.R. 3200 and S. 1655) to promote self-sufficiency and prevent welfare dependency. Under a comprehensive employment and training program, teenage AFDC recipients will be encouraged to stay in or return to school, and older recipients will participate in a variety of employment-related activities. States will be required

to establish mandatory child support guidelines and improve methods of paternity establishment. States will have broad authority to demonstrate alternatives to existing welfare systems.

**Refugee and entrant assistance.**—This program provides Federal funds for the resettlement of refugees in the United States. Services include cash and medical assistance, English and vocational training, and health screening. States are subsidized for administering the refugee assistance program, and are given Federal subsidies for the normal State share of AFDC and Medicaid costs for newly arriving refugees.

The work incentive (WIN) program was designed to encourage and assist individuals receiving support from the aid to families with dependent children (AFDC) program to achieve self-support through a program of employment, training, and support services. Training was administered by the Department of Labor; supportive services by the Department of Health and Human Services. State expenditures have been federally matched at the rate of 90%. Repeated studies, however, have shown that the WIN program is not cost effective. The budget provides no funding for WIN, but supports instead the "AFDC Employment and Training Reorganization Act of 1987" (H.R. 3200 and S. 1655) now under consideration by the Congress. Under that measure's comprehensive employment and training program, teenage recipients would be encouraged to remain in or return to school; and older recipients would participate in a variety of employment and training activities designed to improve their employment status.

GENERAL PROVISIONS

SEC. 201. None of the funds appropriated by this title for grants-in-aid of State agencies to cover, in whole or in part, the cost of operation of said agencies, including the salaries and expenses of officers and employees of said agencies, shall be withheld from the said agencies of any State which have established by legislative enactment and have in operation a merit system and classification and compensation plan covering the selection, tenure in office, and compensation of their employees, because of any disapproval of their personnel or the manner of their selection by the agencies of the said States, or the rates of pay of said officers or employees.

SEC. 202. None of the funds made available by this Act for the National Institutes of Health may be used to provide forward funding or multiyear funding of research project grants except in those cases where the Director of the National Institutes of Health has determined that such funding is specifically required because of the scientific requirements of a particular research project grant.

SEC. 203. Appropriations in this or any other Act [for the Health Resources and Services Administration, the National Institutes of Health, the Centers for Disease Control, the Alcohol, Drug Abuse, and Mental Health Administration, the Office of the Assistant Secretary for Health, the Health Care Financing Administration, and Departmental Management] shall be available for expenses for not to exceed 3,200 active commissioned officers in the Public Health Service Reserve Corps and for not to exceed [two thousand four hundred] 2,400 commissioned officers in the Regular Corps; expenses incident to the dissemination of health information in foreign countries through exhibits and other appropriate means; advances of funds for compensation, travel, and subsistence expenses (or per diem in lieu thereof) for persons coming from abroad to participate in health or scientific activities of the Department pursuant to law; expenses of primary and secondary schooling of dependents in foreign countries, of Public Health Service commissioned officers stationed in foreign countries, at costs for any given area not in excess of those of the Department of Defense for the same area, when it is determined by the Secretary that the schools available in the locality are unable to provide adequately for the education of such dependents, and for the transportation of such dependents, between such schools and their places of residence when the schools are not accessible to such dependents by regular means of transportation; expenses for medical care for civilian and commissioned employees of the Public Health Service and their dependents, assigned abroad on a permanent basis in accordance with such regulations as the Secretary may provide; rental or lease of living quarters (for periods not exceeding five years), and provision of heat, fuel, and light and maintenance, improvement, and repair of such quarters, and advance payments therefor, for civilian officers, and employees of the Public Health Service who are United States citizens and who have a permanent station in a foreign country; purchase, erection, and maintenance of temporary or portable structures; and for the payment of compensation to consultants or individual scientists appointed for limited periods of time pursuant to section 207(f) or section 207(g) of the Public Health Service Act, at rates established by the Assistant Secretary for Health, or the Secretary where such action is required by statute, not to exceed the per diem rate equivalent to the rate for GS-18; not to exceed \$9,500 for each fiscal year for official reception and representation expenses related to any health agency of the Department when specifically approved by the Assistant Secretary for Health.

SEC. 204. None of the funds contained in this Act shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term.

SEC. 205. Funds advanced to the National Institutes of Health Management Fund from appropriations in this Act shall be available for the expenses of sharing medical care facilities and resources pursuant to section 327A of the Public Health Service Act.

SEC. 206. Funds appropriated in this title for the Social Security Administration and the Family Support Administration shall be available for not to exceed **[\$10,000]** a total of \$15,000 for each fiscal year for official reception and representation expenses when specifically approved by the Commissioner of Social Security or the Administrator of Family Support.

SEC. 207. Funds appropriated in this title for the Health Care Financing Administration shall be available for not to exceed \$2,000 for each fiscal year for official reception and representation expenses when specifically approved by the Administrator of the Health Care Financing Administration.

SEC. 208. No funds appropriated for the fiscal year ending September 30, **[1988]** 1989 or September 30, 1990, by this or any other Act, may be used to pay basic pay, special pays, basic allowances for subsistence and basic allowances for quarters of the commissioned corps of the Public Health Service described in section 204 of title 42, United States Code, at a level that exceeds 110 percent of the Executive Level **[I]** II annual rate of basic pay except for Commissioned Corps Officers currently receiving such levels of pay: *Provided*, That amounts received from employees of the Department in payment for room and board may be credited to the appropriation accounts which finance the services **["Health Resources and Services", National Institutes of Health "Office of the Director", "Disease Control, Research, and Training", and "Federal Subsidy for Saint Elizabeths Hospital"]**; *Provided further*, That none of the funds made available by this Act shall be used to provide special retention pay (bonuses) under paragraph (4) of 37 U.S.C. 302(a) to any regular or reserve medical officer of the Public Health Service for any period during which the officer is assigned to the clinical, research, or staff associate program administered by the National Institutes of Health: *Provided further*, That funds appropriated by this Act or any other Act shall not be used for special, revised special, or continuation pay to any physician or dentist appointed to the Public Health Service Commissioned Corps during the current year whose primary duties are determined by the Secretary to be administrative or managerial: *Provided further*, That any physician or dentist who, through promotion or reassignment within the Corps assumes as primary duties administrative or managerial responsibilities may, at the discretion of the Secretary, receive such special, revised special, or continuation pay.

SEC. 209. None of the funds appropriated in this title shall be used to transfer the general administration of programs authorized under the Native American Programs Act from the Department of Health and Human Services to the Department of the Interior.

SEC. 210. Funds provided in this Act may be used for one-year contracts which are to be performed in two fiscal years, so long as the total amount for such contracts is obligated in the year for which the funds are appropriated.

**[SEC. 211. The Secretary shall make available through assignment not more than 50 employees of the Public Health Service, who shall be exempt from all FTE limitations in the Department, to assist in**

child survival activities through and with funds provided by the Agency for International Development, the United Nations International Children's Emergency Fund or the World Health Organization. In addition, commissioned officers assigned under this section shall be exempt from all limitations on the number and grade of officers in the Public Health Service Commissioned Corps.]

SEC. **[212]** 211. Funds appropriated by this Act may be used to pay physicians' comparability allowances, as authorized under 5 U.S.C. 5948, only to those persons who are licensed to practice medicine, except that this provision shall not apply to individuals receiving such allowances prior to January 1, 1989.

SEC. **[213]** 212. For the purpose of insuring proper management of federally supported computer systems and data bases, funds appropriated by this Act are available for the purchase of dedicated telephone service between the private residences of employees assigned to computer centers funded under this Act, and the computer centers to which such employees are assigned.

**[SEC. 214. The Secretary of Health and Human Services shall:**

(1) Issue a report to Congress within 90 days of the close of fiscal year 1988, of violations occurring during such year, of Department of Health and Human Services travel policy; and

(2) Require that personnel found by the report to be in violation of Department travel policy, shall reimburse the Department for funds spent in violation of Department policy.]

**[SEC. 215. Section 465(b) of 42 U.S.C. 286 is amended by inserting between (5) and (6) an additional charge to the Secretary to "publicize the availability of the above products and services of the National Library of Medicine".]**

**[SEC. 216. Funds available in this title for activities related to acquired immune deficiency syndrome (AIDS) may be transferred between appropriation accounts upon the approval by the House and Senate Committees on Appropriations of a transfer request submitted by the Secretary of Health and Human Services.]**

SEC. 213. Funds derived from collections under section 1803 of Public Law 99-570 shall be credited to and used for the purposes of those appropriations of the Department of Health and Human Services that finance the activities under such section, with such funds to remain available until expended.

SEC. 214. The Secretary is authorized to recover funds appropriated in this or any other Act for purposes of facility construction and modernization grants from any grantee who has title or ownership interest in a facility financed in whole or in part by such funds, when the basic use of such assisted facilities no longer meets the program requirements and purposes as originally authorized.

SEC. 215. No funds in this Act appropriated to an agency of the Department of Health and Human Services shall be transferred to the Working Capital Fund without the approval of the agency administrator or the Secretary. (Department of Health and Human Services Appropriations Act, 1988.)

**Direct program.**—The old-age and survivors insurance (OASI) program provides income to retired workers, their dependents, and survivors. The program is financed by payroll taxes paid by employers, employees, and self-employed individuals.

The contribution rates are applied to taxable earnings up to a specified maximum. The maximum was \$43,800 in 1987, \$45,000 in 1988, and is expected to increase to \$46,500 in 1989.

**Benefit payments.**—Benefits are based on average taxable earnings, indexed for inflation.

**Administration.**—This activity reflects the costs of administering this program.

**Payment to railroad retirement account.**—Since 1951, approximately \$33 billion in annual payments from the social security trust funds have helped finance the railroad retirement system. The annual OASI payment includes funds for some benefits which are not, in turn, paid to railroad workers and their families.

**Reimbursable program.**—Advances are made from the OASI trust fund for the administrative expenses of the general fund programs and certain other services ad-

ministered by SSA with full reimbursement to the trust fund (including interest when appropriate).

The disability insurance (DI) program provides income to insured disabled workers (and their dependents). This program is financed by payroll taxes paid by workers, employers, and self-employed individuals.

**Benefit payments.**—Disability insurance benefits are made to certain disabled individuals and their dependents. Automatic cost-of-living benefit increases are the same as for the OASI program.

**Administration.**—This activity reflects administrative and other nonbenefit expenses attributable to the DI program.

**Payment to railroad retirement account.**—Annual adjustments are made between the DI trust fund and the railroad retirement fund. This adjustment is computed on the same basis as the payment from the OASI trust fund which is described in the preceding section.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

This chapter presents the budget and program estimates for the Department of Housing and Urban Development. Most of the Department's programs are also discussed in Part 5 of the Budget (the Federal program by function) under one of three headings: commerce and housing credit (mortgage credit and deposit insurance); community and regional development; and income security (public assistance and other income supplements).

The major divisions of this chapter conform to the following Department activities:

*Housing programs* cover the Department's major housing subsidy programs except for those activities under the public and Indian housing programs. The mortgage insurance activities of the Federal Housing Administration, including loan management and property disposition activities, are also included under this heading. Other activities included under this heading are community disposal operations, the Office of Interstate Land Sales Registration, manufactured home inspection and monitoring, the rental development grant program, and the supportive housing demonstration program.

*Public and Indian housing programs* cover public housing management and development activities (including modernization) and provision of Indian housing assistance. Also included are credit and financing activities related to development and modernization.

*Government National Mortgage Association (GNMA)* covers the Department's programs to assist in the availability of mortgage credit and stabilize financing of selected types of mortgage loans. This heading also covers GNMA management and liquidating functions, the guarantee of mortgage-backed securities, and trustee activities in connection with participation certificates that are backed by loan obligations of various trustor agencies.

*Community planning and development* covers the community development grant and urban development action grant programs authorized by the Housing and Community Development Act of 1974, as amended. This organization is also responsible for the administration of the rental rehabilitation grant and the urban home-steading programs as well as the rehabilitation loan (section 312) program, the emergency shelter grants program, terminated categorical community development programs, and the revolving fund for liquidating programs.

*Fair housing and equal opportunity* includes the Fair Housing Assistance Program authorized by title VIII of the Civil Rights Act of 1968, as amended, and the Fair Housing Initiatives program.

*Policy development and research* includes the policy development, economic analysis, program evaluation, and research activities of the Department.

The subsidized housing schedule reflects appropriations for grants starting in 1987 for the public and Indian housing programs and starting in 1988 for the section 8 programs, rather than release of contract/budget authority.

The schedule also reflects proposals for equality between certificate and voucher fees and adjustments to the section 8 existing program vacancy payment procedures. In addition, legislation is being proposed that would: (1) increase housing choice for subsidized tenants with section 8 certificates by allowing them to rent units higher than the officially designated Fair Market Rent; and (2) remove subsidy inequities among welfare tenants receiving vouchers and certificates by including a "welfare rent" provision.

**Lower-income housing (section 8).**—The budget proposes the reservation of 124,787 units in 1989—1,000 Indian Housing units and 123,787 section 8 units. The total includes 108,000 incremental units—comprised of 7,000 section 202 elderly or handicapped units, 1,000 units for Indian families and 100,000 vouchers. The balance of 16,787 units are for section 8 opt-outs, demolitions, prepayment units, loan management and property disposition. In addition to 2,461 units made available under the regular property disposition program, the budget assumes the use of 2,461 vouchers for this purpose in 1989. Furthermore, it is being proposed that 2,500 vouchers be used to assist tenants of public housing projects which are sold or demolished.

**Public and Indian housing.**—The budget proposes to fund 1,000 units of Indian Housing in 1989. Amounts are also included for amendments to prior year contracts and lease adjustments. A total of \$1.0 billion of new appropriations are being requested for modernization in 1989.

**Rental rehabilitation and development grants.**—The Housing and Urban-Rural Recovery Act of 1983 authorized programs of assistance grants to States and localities to stimulate the rehabilitation of older multifamily units and the development of new construction units.

For 1989, an appropriation of \$150 million is being requested separately from the subsidized housing account in the Community Planning and Development part of the HUD budget. The Rental Housing Develop-

ment Grant program (HoDAG) is to be terminated at the end of 1989.

**Rent supplement.**—Rent supplement assistance payments will continue to be made on behalf of qualified low-income tenants in approximately 23,500 units which have not converted to section 8.

**Section 235.**—The Housing and Urban-Rural Recovery Act of 1983 (Public Law 98-181) authorized a restructured section 235 program based on a 10-year interest reduction subsidy. A total of \$150 million of budget authority was provided in the Second Supplemental Appropriations Act of 1984 (Public Law 98-396) to fund the program, and it is estimated that the unobligated balances will be reserved in 1988. Recaptures of budget authority from terminations must be transferred into the Homeownership Assistance Fund account established pursuant to Public Law 98-181. Amounts deposited will be available for use to assist program beneficiaries still in need of assistance at the expiration of their present ten-year assistance contracts.

**Section 236.**—The Housing and Urban Development Act of 1968, as amended, authorizes the section 236 Rental Housing Assistance Program which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants.

**College housing grants.**—No new applications for grants have been approved since the program was terminated in 1973. Payments are made pursuant to the existing contracts.

Under the congregate services program the Department contracted directly with local public housing agencies and section 202 housing for the elderly or handicapped sponsors to supply support services, including meals and other services. These three- and five-year contracts commenced in 1980 and were evaluated over the life of the contracts. No additional resources are requested for 1989.

The housing counseling assistance program provides comprehensive housing counseling services to eligible homeowners or tenants, including default, prepurchase and renter counseling. In light of the inconclusive record of this program and the fact that communities may use community development block grant funds for this purpose, the Budget proposes no additional appropriation in 1989.

Title IV, subtitle C, of the Stewart B. McKinney Homeless Assistance Act (Public Law 100-77) authorizes assistance to deinstitutionalized homeless individuals, homeless families with children, homeless individuals with mental disabilities and other homeless persons. Such assistance is available for the acquisition and rehabilitation of structures to be used for the homeless as well as to pay a portion of annual operating costs. The funds requested in 1989 will be used exclusively for transitional housing (normally up to 18 months) for these various homeless groups.

Section 620 of the National Manufactured Housing Construction and Safety Standards Act of 1974, as amended, authorizes enforcement of appropriate construction standards for the construction, design and performance of manufactured homes to assure their quality, durability and safety. All manufactured homes produced since the standards took effect on June 15, 1976 must comply with Federal construction and safety standards. The States are actively encouraged to participate in the program under compliance plans approved by HUD.

A fee is charged to the manufacturers for each manufactured home produced to cover the costs of the monitoring and enforcement activities by HUD contract agents. These fees are deposited in a special fund administered by the Department. Fee receipts are transferred to the salaries and expenses account to defray the direct administrative expenses of the program.

The Interstate Land Sales Full Disclosure Act provides protection to the public with respect to purchases or leases of subdivision lots. Statements of record must

be filed with the Secretary before subdivisions with 100 or more lots may be sold in interstate commerce, except when the subdivision is eligible for exemption.

The Secretary is authorized to charge a fee, to be paid by the developer when filing a statement of record. The fee receipts are permanently appropriated and have helped finance a portion of the direct administrative expenses incurred in program operations.

## Public enterprise funds:

## TITLE III—CORPORATIONS

Corporations and agencies of the Department of Housing and Urban Development and the Federal Home Loan Bank Board which are subject to the Government Corporation Control Act, as amended, are hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to each such corporation or agency and in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Act as may be necessary in carrying out the programs set forth in the budget for [1988] 1989 for such corporation or agency except as hereinafter provided: *Provided*, That collections of these corporations and agencies may be used for new loan or mortgage purchase commitments only to the extent expressly provided for in this Act (unless such loans are in support of other forms of assistance provided for in this or prior appropriations Acts), except that this proviso shall not apply to the mortgage insurance or guaranty operations of these corporations, or where loans or mortgage purchases are necessary to protect the financial interest of the United States Government.

## FEDERAL HOUSING ADMINISTRATION FUND

For payment to cover losses, not otherwise provided for, sustained by the Special Risk Insurance Fund and General Insurance Fund as authorized by the National Housing Act, as amended (12 U.S.C. 1715z-3(b) and 1735c(f)), [\$162,866,000] \$237,720,000, to remain available until expended.

During fiscal year [1988] 1989, within the resources available, gross obligations for direct loans are authorized in such amounts as may be necessary to carry out the purposes of the National Housing Act, as amended.

During fiscal year [1988] 1989, additional commitments to guarantee loans to carry out the purposes of the National Housing Act, as amended, shall not exceed a loan principal of [\$96,000,000,000] \$75,000,000,000.

During fiscal year [1988] 1989, gross obligations for direct loans of not to exceed [\$79,272,000] \$103,350,000 are authorized for payments under section 230(a) of the National Housing Act, as amended, from the insurance fund chargeable for benefits on the mortgage covering the property to which the payments made relate, and payments in connection with such obligations are hereby approved.

[Section 247(c)(1) of the National Housing Act is amended by inserting before the period at the end the following: "(or, in the case of an individual who succeeds a spouse or parent in an interest in a lease of Hawaiian homelands, such lower percentage as may be established for such succession under section 209 of the Hawaiian Homes Commission Act, 1920, or under the corresponding provision of the constitution of the State of Hawaii adopted under section 4 of the Act entitled 'An Act to provide for the admission of the State of Hawaii into the Union', approved March 18, 1959 (73 Stat. 5))".]

[Section 247 of the National Housing Act is further amended—

(1) by redesignating subsection (c) as subsection (d); and

(2) by inserting after subsection (b) the following new subsection:

"(c) Notwithstanding any other provision of this Act, the insurance of a mortgage using the authority contained in this section shall be the obligation of the General Insurance Fund established in section 519. The mortgagee shall be eligible to receive the benefits of insurance as provided in section 204 with respect to mortgages insured pursuant to this section, except that (1) all references in section 204 to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund; and (2) all references in section 204 to section 203 shall be construed to refer to the section

under which the mortgage is insured.”.] (Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1988.)

FEDERAL HOUSING ADMINISTRATION FUND—Continued

The FHA fund consists of four separate funds. Financial data for each individual fund is maintained for control and reporting purposes.

The *Mutual mortgage insurance fund* provides for the Department's basic single family mortgage insurance program. It is a mutual fund where mortgagors, upon termination of their mortgages, share surplus premiums paid into the fund that are not required for operating expenses or losses.

The *Cooperative management housing insurance fund*, also a mutual fund, provides mortgage insurance for management-type cooperatives authorized by section 213 of the National Housing Act, as amended.

The *General insurance fund* provides for a large number of specialized mortgage insurance programs, including the insurance of loans for property improvements as well as for cooperatives, condominiums, housing for the elderly, land development, group practice medical facilities and nonprofit hospitals.

The *Special risk insurance fund* provides mortgage insurance on behalf of mortgagors eligible for interest reduction payments who otherwise would not be eligible for mortgage insurance. In addition, the fund provides insurance on mortgages covering experimental housing where strict adherence to State or local building regulations is not observed. Also provided is insurance for high-risk mortgagors who normally would not be eligible for mortgage insurance.

Expenses and losses connected with defaulted notes, assigned mortgages and acquired properties are charged to the appropriate insurance fund by the mortgage insurance program. During 1989, it is estimated that applications for single-family and multifamily mortgage insurance covering 1,142,823 units will be received and that mortgage insurance will be written covering 811,208 single-family and multifamily units. In addition, it is estimated that approximately 80,502 single-family and multifamily units will be acquired by the Department during 1989 and that 72,723 single-family and multifamily units will be sold. More detailed activity information follows in the "Program Highlights" table shown below.

<sup>1</sup> Accounting procedures have been revised to recognize sales at time of closing even if documentation is incomplete. The 1987 sales include a one time adjustment of 7,870 additional unit sales.  
Note.—1988 data include impact from legislative changes.

Insurance reserves from operations reflect the interest earned on mortgage notes and the income and expenses applicable to acquired properties.

Insurance reserves from operations at the end of 1989 are estimated to be in a surplus position for the Mutual mortgage insurance and Cooperative management housing insurance funds, but in a deficit status of about \$6.1 billion for the two other funds. The status of estimated insurance reserves from operations (retained income or deficit) through 1989 is as follows:

The Department has taken several steps to reduce the net loss on acquisition and sale of properties and notes. These include faster foreclosures of properties in default and faster sales of acquired properties to reduce holding costs. The Administration is also proposing to

preempt State redemption laws in order to accelerate the sale of FHA-acquired, single-family properties.

The Budget assumes that the cash flow from approximately \$440.9 million in multifamily mortgages will be sold in 1988 generating an estimated \$317.5 million in proceeds. Because these are recourse sales, proceeds will not be recognized for budgetary purposes.

1988 sales also will include the sale, without recourse, of an estimated \$103.3 million in single family (PMMs) and assigned mortgages and multifamily mortgage notes. These nonrecourse sales will generate an estimated \$78.5 million in proceeds.

During 1989, an additional \$145.7 million in single family PMMs and assigned mortgages and multifamily mortgage notes will be sold without recourse. Because the sales are expected to be "nonrecourse," the estimated \$100.0 million in proceeds will be scored for Budget purposes.

For 1988, a new Temporary mortgage assistance payments program is being implemented that is designed to prevent precipitous foreclosure by helping insured homeowners who have experienced temporary financial reverses and cannot make their full monthly mortgage payments. This new program is viewed as a viable alternative to the Home mortgage assignment program currently being carried out by the Department and will assist in the effort to minimize insurance claims against the FHA fund.

**Budget program.**—The budget proposes an appropriation of \$237.7 million to restore the net realized losses from the sale of property and notes covered by the General insurance and Special risk insurance funds.

**Financing.**—This Budget includes a proposal to modify the method of premium collections in the Title I manufactured housing program. In lieu of the current .54 percent premium for 15-year term loans, it is proposed that 1.0 percent be charged in years 1-4; .75 percent in years 5-7; .50 percent in years 8-10; and no premium in years 11-15. In addition, the Department will propose regulatory changes to deregulate FHA post endorsement fees, the one point cap on FHA loan origination fees and adopt the "conventional method" for underwriting calculations.

**Operating expenses.**—Funds are paid directly into a consolidated account, Salaries and expenses, Department of Housing and Urban Development, for administrative expenses based on workload related to programs financed from the FHA fund.

The Housing for the elderly or handicapped fund was established pursuant to section 202 of the Housing Act of 1959, as amended. The fund provides direct loans to nonprofit organizations building and managing housing projects for lower income persons who are elderly or handicapped.

Projects must include an assured range of necessary services for the occupants of such projects. In addition, the section 8 lower income housing assistance payments program is used in conjunction with the section 202 program. Applications under the two programs are processed simultaneously. The Budget proposes a loan limitation of \$350.2 million to support 7,000 units in 1989. Special priority will be given to projects for the mentally ill, homeless handicapped, with an estimated \$50 million in loan funds to be used for such housing.

The program and financing schedule for this account summarizes the Federal government's obligations for this program. The amounts reflected in the following summary of administrative commitments reflect outstanding section 202 fund reservations, whereas, the

obligations portion of the program and financing schedule reflects commitments which have reached the initial loan closing stage of processing.

**Financing.**—Prior to the implementation of the revised program, funds for loans had been provided by appropriation to a revolving fund. Additional financing had been obtained through issuance of certificates of participation in pools of mortgages financed from this program as provided by the Participation Sales Act of 1966. The following table shows the financing of participation insufficiencies:

The Housing and Urban Development Act of 1968 authorized the Secretary to establish a revolving fund into which rental collections in excess of the established basic rents for units in section 236 subsidized projects would be deposited.

The Housing and Community Development Amendment of 1978 authorized the Secretary, subject to approval in appropriation acts, to transfer excess rent collections received after 1978 to the Troubled projects operating subsidy program. Prior to that time, collections were used for paying tax and utility increases in section 236 projects. The Housing and Community Development Act of 1980 amended the 1978 Act by authorizing the transfer of excess rent collections regardless of when collected. No transfer is proposed for 1989. Appropriation language is being proposed to transfer excess rent collections to the Treasury.

The Flexible Subsidy Fund, formerly the Troubled Projects Operating Subsidy Program, assists financially troubled subsidized projects under certain FHA authorities. The subsidies are intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source of housing for low- and moderate-income tenants.

Funding is provided for essential repairs to correct deficiencies resulting from deferred maintenance and for major capital improvements. No appropriation is requested for 1989. The Budget projects that \$174.6 million will be available for assistance in 1989. Obligations of \$35 million are estimated in 1989. The revenue and expense and financial condition statements shown below reflect the establishment of the Flexible Subsidy Fund as a revolving fund in 1988.

The Homeownership Assistance Fund was established by the Housing and Urban-Rural Recovery Act of 1983. It provides for the receipt of recaptures of budget authority, cash, and interest earnings under the restructured section 235 program. The funds are authorized to be used, to the extent approved in Appropriation Acts, by the Secretary to provide additional section 235 assistance payments for mortgagors who are unable to assume the full payment due under the mortgage after the termination of the original 10-year assistance payments contract.

Operating subsidy payments are provided to assist local Public Housing Agencies (PHAs) and Indian Housing Authorities (IHAs) to meet certain deficits in the operation of PHA-owned and IHA-owned low-income housing. These payments are in addition to the debt service and capital funding provided by HUD from the annual contributions account. The operating subsidy estimates for 1989 are based upon the Performance Funding System (PFS) formula but include savings projected from improved tenant income verification procedures.

Savings are also projected in conjunction with a proposal in this budget to allow HUD to waive current Federal rent requirements when housing authorities choose to forgo operating subsidy payments.

The Low-Rent Public Housing Loan Fund currently is used to provide direct Federal loans to fund remaining Public Housing Agency (PHA) and Indian Housing Authority (IHA) construction, acquisition, and modernization activities reserved under the Annual Contributions appropriation through 1986. These loans are made from available resources of this fund and from borrowings from the Treasury. Under legislation enacted during 1986 (Public Law 99-272), the borrowings from the Treasury are forgiven at the end of each fiscal year and the loans to PHAs/IHAs are forgiven as construction, acquisition, and modernization activities are completed. For these reasons, these loans are not included in the

status of direct loans table shown above. Amounts of loans to PHAs/IHAs outstanding at the end of each fiscal year are shown below (in millions of dollars):

## PUBLIC HOUSING AGENCIES/INDIAN HOUSING AUTHORITIES

Repayments and prepayments.....	-494	-8,261	-4,200
Outstanding, end of year.....	16,306	9,439	6,168

Starting in 1987, new fund reservations for construction, acquisition, and modernization activities began to be provided directly from the Annual Contributions appropriation on a capital cost basis.

During 1987, loans totaling \$494 million were forgiven and the Annual Contributions debt services budget authority associated with these loans was recaptured and rescinded. This action required that all relevant Annual Contributions contracts be amended. In 1988, this process is expected to proceed more quickly and an estimated \$8.3 billion in outstanding loans will be forgiven followed by an additional \$4.2 billion in 1989.

The Association is required to manage and liquidate its initial mortgage portfolio and other mortgages, loans or obligations. Liquidation of the portfolio is accomplished through regular principal repayments according to their amortization schedules, by sales of mortgages when they can be absorbed by private investors without disruption of normal market conditions and through principal credits arising from prepayments and foreclosures.

The fund's initial portfolio consisted of mortgages on hand, or purchased under contracts made before November 1, 1954. Certain additional mortgages, loans, and other obligations may be acquired for this portfolio from the Secretary of Housing and Urban Development. Residential housing mortgages may also be acquired from any Federal instrumentality.

**Budget program.**—Congress approved appropriation language included in the 1985 Budget that: (1) forgave all outstanding Treasury borrowing issued under the Special Assistance Functions Fund and Emergency Mortgage Purchase Assistance Fund and (2) transferred all remaining assets and liabilities of these funds to the Management and Liquidating Functions Fund.

Mortgage purchases, representing deliveries from commitment contracts in prior years of the Special Assistance Functions Fund are estimated at \$1.7 million in 1988 which would exhaust all remaining outstanding commitment contracts. Sales of these mortgages which are based on the above purchases are estimated at \$24 million in 1988 and \$385 million in 1989. Because of a change in budget scorekeeping procedures, the proceeds from these sales of GNMA-held loans with FHA mortgage insurance will be treated as borrowing from the public rather than offsetting collections. As a result, budget authority is scored to reflect this borrowing.

**Financing.**—These functions are financed principally by portfolio liquidations and by the sales of portfolio mortgages and participation certificates in mortgage pools.

**Operating results.**—Net income of \$42.8 million and \$26.9 million are estimated for 1988 and 1989, respectively.

The Housing and Urban Development Act of 1968 authorized the Government National Mortgage Association (GNMA) to guarantee the timely payment of principal and interest on trust certificates or other securities issued by any financial institution approved for this purpose, and based on and backed by a trust or pool of FHA-insured, FmHA-insured, or VA-guaranteed mortgages.

GNMA guarantees the timely payment of principal and interest on the guaranteed securities. Actual losses for 1987 and estimated losses for 1988 and 1989 are presented below.

Securities outstanding.....	308,996,739	341,518,716	369,251,589

**Financing.**—In addition to an application fee, guarantee fees and other charges are assessed issuers of guaranteed securities to cover costs incurred by GNMA in connection with the guarantees and to establish a reserve against possible future payments of claims under the guarantee.

**Operating results.**—Fee collections and other income are expected to exceed expenses by \$197 million and \$235 million in 1988 and 1989, respectively. These amounts will be retained to cover future year expenses and as a reserve against losses that may be incurred on guarantees.

Receipts decline to \$100 million (from \$234 million in 1987) in 1988 due to GNMA buying \$321 million foreclosed loans in defaulted mobile home pools. The Budget also reflects that an additional \$393 million in mobile homes will be purchased out of defaulted mobile home pools between 1989 and 1993. These mobile home units will be sold during approximately the same period, with estimated write-offs approaching \$418 million. This is a result of GNMA having to assume the security servicing responsibility for a number of defaulted mobile home lenders.

**Proposed program reforms.**—The Administration is proposing to deregulate the fee GNMA mortgage-backed issuers earn servicing FHA and VA mortgages underlying GNMA's securities. The servicing fee issuers currently earn is set by GNMA at 44 basis points per annum (44/100 of one percent) of the outstanding mortgage amount. This minimum fee was originally established to assure that lenders could profitably service the

GNMA mortgage pools. However, the fee may be in excess of that needed to protect the government's interests and may in fact lead to higher mortgage rates for borrowers. The Administration proposes to deregulate the fee and increase minimum capital requirements for issuers to protect the government against issuers defaulting on their mortgage pools.

The National Housing Act, as amended, authorized the Association to create trusts to facilitate the financing of mortgages and other loan obligations owned by Government agencies. Under this authority, participations in the interest and principal collections on pooled loan obligations pledged by various trustor agencies were sold to private investors.

The budget schedules of the trustor agencies originally owning the loan obligations reflected sale of participation certificates as borrowing from the public. Collections on the pooled obligations are transferred to the Association and invested until distributed to the holders of participation certificates as required by the trust agreement. Collections are then redistributed to trustor agencies for payment of interest and retirement of certificates.

Whenever interest collections on pooled obligations, together with investment income, are insufficient to cover required interest payments and a share of administrative and other costs, the trustor agencies pay to the Association, as trustee, amounts equal to the insufficiencies. The costs of any such insufficiencies are covered by appropriations which appear in the accounts of the trustor agencies or by balances available in those accounts.

In the event the principal collections on pooled loans are not sufficient to meet scheduled retirements of participation certificates, the Association, as trustee, may either borrow from the Treasury or sell additional certificates to redeem those coming due. Alternatively, those trustor accounts with unobligated balances available may repurchase pooled loans to provide the cash required for scheduled redemptions.

All remaining outstanding certificates are scheduled to be redeemed in 1988. No further activity is anticipated in this account.

Title I of the Housing and Community Development Act of 1974, as amended, authorizes the Secretary to make grants to units of general local government and States to fund local community development programs.

Funds are distributed to eligible entitlement applicants using the higher of two objective formulas. Funds must be allocated between entitlement cities and urban counties and States and small cities.

**Guaranteed loans.**—Guaranteed loan assistance under section 108 has been provided to permit eligible communities to finance acquisition of real property and rehabilitation of publicly owned real property, plus certain related expenses. The Federal Financing Bank had financed these guaranteed loans. The Consolidated Omnibus Budget Reconciliation Act of 1985 requires private financing of all loan guarantees committed after July 1, 1986. FFB will continue disbursing loans for commitments approved prior to July 1, 1986. No guarantee commitments are proposed for 1989, and legislation is being proposed to repeal section 108.

**Budget program.**—An appropriation of \$2,480 million is proposed for 1989. This amount, together with an estimated unobligated balance of \$145 million proposed for transfer from the section 312 Rehabilitation Loan Fund, will provide a \$2,625 million funding level for the CDBG program in 1989. To the extent the actual amount of Rehabilitation Loan Fund balance available for transfer is different than estimated, the direct appropriation for the Community Development Grants program will be adjusted accordingly. Grant outlays are estimated at \$3 billion in 1988 and in 1989.

In 1988, the Department is funding a \$1 million Neighborhood Development Demonstration as authorized by section 123 of the Housing and Urban-Rural Recovery Act of 1983. The Department also is funding a \$5 million public housing child care demonstration as authorized by section 222 of the 1983 Act. No additional funds are requested for these demonstrations in 1989.

## URBAN DEVELOPMENT ACTION GRANTS

For grants to carry out urban development action grant programs authorized in section 119 of the Housing and Community Development Act of 1974, as amended (42 U.S.C. 5301), pursuant to section 103 of that Act, \$216,000,000, to remain available until September 30, 1991: *Provided*, That title 42, United States Code, section 5318(n)(2), is amended as follows: After the word "reservation" add the words " , or on former Indian reservations in Oklahoma as determined by the Secretary of the Interior, ". *Of amounts previously appropriated for grants to carry out urban development action grant programs authorized in section 119 of the Housing and Community Development Act of 1974, as amended (42 U.S.C. 5301), pursuant to section 103 of that Act, unobligated balances (including amounts deobligated in fiscal year 1989 and thereafter), except such amounts as are required to fund projects which have received preliminary approval in accordance with regulations promulgated by the Department of Housing and Urban Development, are rescinded. (Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1988.)*

Title I of the Housing and Community Development Act of 1974, as amended, authorizes grants to distressed cities and distressed urban counties to fund economic development projects.

A rescission of an estimated \$50 million of recaptured funds is proposed in 1989; and legislation to terminate this program by repeal of section 119 of the 1974 Act, as amended, will be proposed.

**RENTAL REHABILITATION GRANTS**

For the rental rehabilitation grant program, pursuant to section 17(a)(1)(A) of the Housing Act of 1937, as amended (42 U.S.C. 1437o), \$150,000,000, to remain available until September 30, 1991. (Additional authorizing legislation to be proposed.)

This program is authorized under section 17(a)(1)(A) of the United States Housing Act of 1937, as amended by section 301 of the Housing and Urban-Rural Recovery Act of 1983 (Public Law 98-181). Rental Rehabilitation grants are made to States, urban counties, and cities with populations in excess of 50,000 to help support the rehabilitation of privately owned rental housing.

Funding for this program before 1989 was provided under the Annual Contributions for Assisted Housing account. A separate appropriation is proposed for the program, independent of the Assisted Housing account. An appropriation of \$150 million, together with estimated recaptures of \$20 million (within the Assisted Housing account), will provide a 1989 program level of \$170 million. For purposes of comparison, the table below presents data for the entire program, including that resulting from appropriations under the Assisted Housing account.

Section 810 of the Housing and Community Development Act of 1974, as amended, authorizes the Secretary of HUD to transfer one- to four-unit HUD-owned properties, without payment, to units of local government for use in an urban homesteading program. In addition, the Act authorizes the Administrator of Veterans Affairs and the Secretary of Agriculture to transfer their unoccupied, single family properties for use in such programs.

**Budget program.**—An appropriation of \$12 million is proposed for 1989 which will support the transfer of an estimated 705 single family properties.

Title V of the Energy Security Act of 1980 authorized the creation of the Solar Energy and Energy Conservation Bank to encourage energy conservation and the use of solar energy. It has provided funds to subsidize loans and grants for the installation of energy conservation and solar energy improvements in single and multifamily residences, and agricultural and commercial buildings.

The Solar Bank program expires on March 15, 1988. Therefore, no appropriation is requested for 1989.

------	--	--------	--------	--------

<sup>1</sup> Represents transfer of \$13,741 thousand and principal reduction of \$1,379 thousand from Urban Renewal programs in 1987.

The Revolving fund (liquidating programs) was established by the Independent Offices Appropriation Act of 1955 for the more efficient liquidation of assets acquired under a number of housing and urban development programs. The budget reflects the transfer of assets and liabilities of the Urban Renewal program to the Revolving fund (liquidating programs) on October 1, 1986, as authorized by the Housing and Community Development Act of 1974.

The budget also reflects receipts from the sale of public facility loan assets of \$8.3 million in 1987 and \$187.8 million in 1988. These proceeds will be returned to the Treasury.

**Financing.**—In the past, certificates of participation in pools of public facility loans were sold. Funds were appropriated annually to cover the difference between interest due on the participation certificates and interest collections on the loans underlying the certificates. Budget authority no longer is required for public facility loans as shown in the following table:

Section 312 of the Housing Act of 1964, as amended, authorizes loans for the rehabilitation of residential and commercial properties. Approximately \$230 million will be available to local agencies participating, in the program in 1988. Of that amount, the Budget estimates new loan obligations of \$85 million. The Budget proposes the transfer of the unobligated balance of \$145 million to partially fund the Community Development Grants program in 1989.

The program is proposed for termination at the end of 1988, and all remaining assets and liabilities of the Rehabilitation Loan Fund will be transferred to the Revolving Fund (liquidating programs).

The Housing and Urban Development Act of 1970 directs the Secretary to undertake programs of research, studies, testing, and demonstrations related to the HUD mission. These functions are carried out internally and through contracts with industry, nonprofit research organizations, and educational institutions, and through agreements with State and local governments and other Federal agencies.

In 1989, the research program will continue to emphasize the improvement of the operation of the Department's programs and the development of new programs to meet HUD's goals.

Title IV, subtitle D, of the Stewart B. McKinney Homeless Assistance Act (Public Law 100-77) authorizes HUD to provide comprehensive assistance for particularly innovative programs or alternative methods of meeting the immediate and long-term needs of the homeless. Funding is also available to supplement assistance received under the emergency shelter grants program and the supportive housing demonstration program so as to help meet the needs of special population groups and to make use of underutilized public buildings to assist the homeless. Special population groups include homeless families with children, elderly homeless individuals and the handicapped. No appropriation is requested for 1989. A \$75 million appropriation is

being requested for the Supportive Housing Demonstration program.

The Fair Housing Assistance program, authorized by title VIII of the Civil Rights Act of 1968, provides funding to State and local agencies and community housing resource boards to aid in eliminating housing discrimination.

The budget proposes an appropriation of \$5 million in 1989 of which \$4.0 million will be available to State and local agencies to assure prompt and effective processing of title VIII (Civil Rights Act of 1968) complaints. The budget also proposes funding of \$1.0 million for community housing resource boards which assist HUD, realtors and builders in designing, implementing, and monitoring voluntary affirmative marketing agreements and programs.

New community assistance grants were authorized by the Housing and Urban Development Act of 1970, as amended.

*Budget program.*—Grants were distributed to new community developers under section 718 to supplement public facility projects in existing new communities. Public Law 96-7, dated April 9, 1979, rescinded all budget authority not administratively committed. Any amounts recovered subsequent to that date will be rescinded automatically. All remaining commitments are estimated to be disbursed by the end of 1988.

This fund is the repository of gifts and bequests that the Secretary of Housing and Urban Development is authorized to accept and use for the purposes of aiding

the work of the Department. Section 7(k)(1) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(k)(1), authorizes the installment of a fund amount for the above purpose.

**TITLE IV—GENERAL PROVISIONS**

**SEC. 401.** Where appropriations in titles I and II of this Act are expendable for travel expenses and no specific limitation has been placed thereon, the expenditures for such travel expenses may not exceed the amounts set forth therefor in the budget estimates submitted for the appropriations: *Provided*, That this section shall not apply to travel performed by uncompensated officials of local boards and appeal boards of the Selective Service System; to travel performed directly in connection with care and treatment of medical beneficiaries of the Veterans Administration; to travel performed in connection with major disasters or emergencies declared or determined by the President under the provisions of the Disaster Relief Act of 1974; to site-related travel performed in connection with the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended; to site-related travel under the Solid Waste Disposal Act, as amended; or to payments to interagency motor pools where separately set forth in the budget schedules: *Provided further*, That if appropriations in titles I and II exceed the amounts set forth in budget estimates initially submitted for such appropriations, the expenditures for travel may correspondingly exceed the amounts therefor set forth in the estimates in the same proportion.

**SEC. 402.** Appropriations and funds available for the administrative expenses of the Department of Housing and Urban Development and the Selective Service System shall be available in the current fiscal year for purchase of uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901-5902); hire of passenger motor vehicles; and services as authorized by 5 U.S.C. 3109.

**SEC. 403.** Funds of the Department of Housing and Urban Development subject to the Government Corporation Control Act or section 402 of the Housing Act of 1950 shall be available, without regard to the limitations on administrative expenses, for legal services on a contract or fee basis, and for utilizing and making payment for services and facilities of Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Financing Bank, Federal Reserve banks or any member thereof, Federal home loan banks, and any insured bank within the meaning of the Federal Deposit Insurance Corporation Act, as amended (12 U.S.C. 1811-1831).

**SEC. 404.** No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

**SEC. 405.** No funds appropriated by this Act may be expended—  
(1) pursuant to a certification of an officer or employee of the United States unless—

(A) such certification is accompanied by, or is part of, a voucher or abstract which describes the payee or payees and the items or services for which such expenditure is being made, or

(B) the expenditure of funds pursuant to such certification, and without such a voucher or abstract, is specifically authorized by law; and

(2) unless such expenditure is subject to audit by the General Accounting Office or is specifically exempt by law from such audit.

**SEC. 406.** None of the funds provided in this Act to any department or agency may be expended for the transportation of any officer or employee of such department or agency between his domicile and his place of employment, with the exception of the Secretary of the Department of Housing and Urban Development, who, under title 5, United States Code, section 101, is exempted from such limitation.

**SEC. 407.** None of the funds provided in this Act may be used for payment, through grants or contracts, to recipients that do not share in the cost of conducting research resulting from proposals not specifically solicited by the Government: *Provided*, That the extent of cost sharing by the recipient shall reflect the mutuality of interest of the grantee or contractor and the Government in the research.

SEC. 408. None of the funds provided in this Act may be used, directly or through grants, to pay or to provide reimbursement for payment of the salary of a consultant (whether retained by the Federal Government or a grantee) at more than the daily equivalent of the maximum rate paid for GS-18, unless specifically authorized by law.

[SEC. 409. No part of any appropriation contained in this Act for personnel compensation and benefits shall be available for other object classifications set forth in the budget estimates submitted for the appropriations.]

SEC. [410] 409. None of the funds in this Act shall be used to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings. Nothing herein affects the authority of the Consumer Product Safety Commission pursuant to section 7 of the Consumer Product Safety Act (15 U.S.C. 2056 et seq.).

SEC. [411] 410. Except as otherwise provided under existing law or under an existing Executive order issued pursuant to an existing law, the obligation or expenditure of any appropriation under this Act for contracts for any consulting service shall be limited to contracts which are (1) a matter of public record and available for public inspection, and (2) thereafter included in a publicly available list of all contracts entered into within twenty-four months prior to the date on which the list is made available to the public and of all contracts on which performance has not been completed by such date. The list required by the preceding sentence shall be updated quarterly and shall include a narrative description of the work to be performed under each such contract.

SEC. [412] 411. Except as otherwise provided by law, no part of any appropriation contained in this Act shall be obligated or expended by any executive agency, as referred to in the Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.) for a contract for services unless such executive agency (1) has awarded and entered into such contract in full compliance with such Act and the regulations promulgated thereunder, and (2) requires any report prepared pursuant to such contract, including plans, evaluations, studies, analyses and manuals, and any report prepared by the agency which is substantially derived from or substantially includes any report prepared pursuant to such contract, to contain information concerning (A) the contract pursuant to which the report was prepared, and (B) the contractor who prepared the report pursuant to such contract.

SEC. [413] 412. Except as otherwise provided in section 406, none of the funds provided in this Act of any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency.

SEC. [414] 413. None of the funds provided in this Act to any department or agency shall be obligated or expended to procure passenger automobiles as defined in 15 U.S.C. 2001 with an EPA estimated miles per gallon average of less than 22 miles per gallon.

[SEC. 415. None of the funds appropriated by this Act or any other Act for any fiscal year shall be used for demolishing George Loving Place, at 3320 Rupert Street, Edgar Ward Place, at 3901 Holystone, Elmer Scott Place, at 2600 Morris, in Dallas, Texas, or Allen Parkway Village, 1600 Allen Parkway, in Houston, Texas.] (*Department of Housing and Urban Development-Independent Agencies Appropriations Act, 1988.*)

This account represents the monetary value of the quarterly adjustments to bidding rights issued under the authority of Public Law 96-476 as required by section 7 of the Lee Metcalf Wilderness and Management Act of 1983. The bidding rights may be used as monetary credits against that portion of any coal lease bonus payments, rentals or royalties payable under the Mineral Leasing Act of 1920, as amended, and retained by the Federal Government, on any Federal coal lease won or otherwise held by the holder. The value of unused bidding rights increases at a rate set quarterly by the Secretary of the Treasury, pursuant to section 11 of the Debt Collection Act of 1982 (31 U.S.C. 3717).

**Payments to Oklahoma (royalties).**—The State of Oklahoma is paid 37½ percent of the Red River oil and gas royalties in lieu of State and local taxes on Kiowa, Comanche, and Apache tribal lands to be used for construction and maintenance of public roads and support of public schools (65 Stat. 252).

**Payments to Coos and Douglas Counties, Oregon, from receipts, Coos Bay Wagon Road grant lands.**—Out of receipts from the Coos Bay Wagon Road grant lands in Oregon, payments in lieu of taxes are made to Coos and Douglas Counties for schools, roads, highways, bridges, and port districts (53 Stat. 753-754).

**Payments to counties, Oregon and California grant lands.**—Fifty percent of the receipts of Oregon and California land-grant funds are paid to the counties in which the lands are situated, to be used as other county funds (39 Stat. 218; 50 Stat. 876).

**Payments to States (proceeds of sales).**—The States are paid 5 percent of the net proceeds from sale of public land and public land products (31 U.S.C. 1305).

**Payments to States from grazing receipts, etc., public lands outside grazing districts.**—The States are paid 50 percent of the grazing receipts from public lands outside of grazing districts (43 U.S.C. 315i, 315m).

**Payments to States from grazing receipts, etc., public lands within districts.**—The States are paid 12½ percent of grazing receipts from public lands inside grazing districts (43 U.S.C. 315b, 315i).

**Payments to States from grazing receipts, etc., public lands within grazing districts, miscellaneous.**—The States are paid specifically determined amounts from grazing receipts derived from miscellaneous lands

within grazing districts when payment is not feasible on a percentage basis (43 U.S.C. 315).

*Payments to Alaska, National Petroleum Reserve.*—Alaska is paid 50% of the receipts derived from bonuses, royalties, and rentals resulting from the leasing of oil and gas in the National Petroleum Reserve in Alaska (94 Stat. 2964).

*Payments to counties, national grasslands.*—Of the revenues received from the use of national grasslands, 25% is paid to the counties in which such lands are situated, for school and road purposes (7 U.S.C. 1012).

*Expenses, road maintenance deposits.*—Users of certain roads under jurisdiction of the Bureau of Land Management make deposits for maintenance purposes, and moneys collected are appropriated for necessary road maintenance. Moneys collected on Oregon and California grant lands are available only for those lands (43 U.S.C. 1701 et seq.).

*Payments to Nevada from receipts on land sales.*—Public Law 96-586 authorizes and directs the Secretary to sell not more than 700 acres of public lands per calendar year in and around Las Vegas, Nevada, proceeds of which are to be used to acquire environmentally sensitive lands in the Lake Tahoe Basin of California and Nevada. Annual revenues are distributed to the State of Nevada (5%) and the county in which the land is located (10%).

ADMINISTRATIVE PROVISIONS

Appropriations for the Bureau of Land Management shall be available for purchase, erection, and dismantlement of temporary struc-

tures, and alteration and maintenance of necessary buildings and appurtenant facilities to which the United States has title; up to \$25,000 for payments, at the discretion of the Secretary, for information or evidence concerning violations of laws administered by the Bureau of Land Management; miscellaneous and emergency expenses of enforcement activities authorized or approved by the Secretary and to be accounted for solely on his certificate, not to exceed \$10,000: *Provided*, That appropriations herein made for Bureau of Land Management expenditures in connection with the reconstituted Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands (other than expenditures made under the appropriation "Oregon and California grant lands") shall be reimbursed to the General Fund of the Treasury from the 25 per centum referred to in subsection (c), title II, of the Act approved August 28, 1937 (50 Stat. 876), of the special fund designated the "Oregon and California land grant fund" and section 4 of the Act approved May 24, 1939 (53 Stat. 754), of the special fund designated the "Coos Bay Wagon Road grant fund": *Provided further*, That appropriations herein made may be expended for surveys of Federal lands of the United States and on a reimbursable basis for surveys of Federal lands of the United States and for protection of lands for the State of Alaska: *Provided further*, That an appeal of any reductions in grazing allotments on public rangelands must be taken within thirty days after receipt of a final grazing allotment decision. Reductions of up to 10 per centum in grazing allotments shall become effective when so designated by the Secretary of the Interior. Upon appeal any proposed reduction in excess of 10 per centum shall be suspended pending final action on the appeal, which shall be completed within two years after the appeal is filed: *Provided further*, That appropriations herein made shall be available for paying costs incidental to the utilization of services contributed by individuals who serve without compensation as volunteers in aid of work of the Bureau: *Provided further*, That [Section 1(b) of the Act of October 17, 1984 entitled "An Act to withdraw certain public lands in Lincoln County, Nevada" (Public Law 99-485), is amended by striking out "December 31, 1987" and inserting in lieu thereof "March 31, 1988"] notwithstanding section 5901(a) of title 5, United States Code, as amended, the uniform allowance for each uniformed employee of the Bureau of Land Management shall not exceed \$400 annually.

[Notwithstanding any court order now or hereafter in effect, the Secretary of the Interior, through the State Director, Utah, Bureau of Land Management, is authorized to negotiate with the appropriate government officials in the State of Utah and to take any action necessary under the Federal Land Policy and Management Act and other applicable laws to consummate an exchange of Federal lands and improvements thereon identified as tracts U-a and U-b, for State lands of equal value if the Secretary determines that such an exchange is in the public interest. Any exchange involving such lands shall include the transfer of the remaining balance of funds conveyed to the Bureau of Land Management for the management and protection of the tracts U-a and U-b: *Provided*, That use of such funds shall be restricted to management and protection of the tracts.]

[Notwithstanding any court order now or hereafter in effect, the Secretary of the Interior is authorized to revoke the Bureau of Reclamation's Dixie project withdrawal, created by Commissioner's order of June 11, 1943; Public Land Order No. 1868 of June 3, 1959; Public Land Order No. 4036 of June 6, 1966; and Public Land Order No. 4061 of July 18, 1966, and to complete any land actions with regard to those lands required under the Federal Land Policy and Management Act and other applicable laws and that the Secretary determines to be in the public interest.] *Department of the Interior and related Agencies Appropriations Act, 1988.*

The Minerals Management Service supervises exploration for and the development and production of oil,

gas, and other minerals on the Outer Continental Shelf (OCS) lands and collects royalties, rentals, and bonuses due the Federal Government and Indian lessors from minerals produced on Federal, Indian, and OCS lands.

**Outer Continental Shelf (OCS) lands.**—The program provides for: (1) performance of environmental assessments to insure compliance with the National Environmental Policy Act (NEPA); (2) conduct of lease offerings; (3) selection and evaluation of tracts offered for lease by competitive bidding; (4) assurance that the Federal Government receives fair market value for leased lands; and (5) regulation and supervision of energy and mineral exploration, development, and production operations on the OCS lands.

**Royalty management.**—The Royalty Management program provides accounting, auditing, and compliance activities for royalties, rentals, and bonuses due from minerals produced on Federal, Indian, allotted and OCS lands. The program includes an automated accounting system to ensure that all royalties are properly collected.

**General administration.**—General administrative expenses provide for management, executive direction and coordination, administrative support, Federal building space and general support services.

*State regulatory program grants.*—This program activity is to provide grants to States for the operation of permanent enforcement programs under the terms of the Act. As of September 30, 1987, 24 States with actual or planned coal mining facilities had approved State programs.

*Federal regulatory programs.*—This activity includes programs for Federal oversight of State permanent regulatory programs, for monitoring State inspection and enforcement, for the provision of technical assistance to States, for the assessment and collection of civil penalties imposed pursuant to the Act, and for the administration of the Federal regulatory program in States without approved permanent enforcement programs. In addition, it also includes funding for OSMRE to perform reclamation in cases where performance bonds have been forfeited and OSMRE is the regulatory authority.

*General administration.*—This activity includes: the Offices of the Director and Deputy Directors; the Headquarters staffs for Public Affairs, Equal Employment Opportunity, Congressional Liaison, Information Management Systems, and Regulatory Development and Issues Management; and the Divisions of Planning, Budget and Management Analysis; Financial Management; Personnel; and Management Services. This activity represents only that portion of the total General Administration expenses which is attributable to the Regulation and Technology appropriation. The remainder has been requested from the Abandoned Mine Reclamation Fund.

**ABANDONED MINE RECLAMATION FUND**

For necessary expenses to carry out the provisions of title IV of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, including the purchase of not more than 21 passenger motor vehicles, of which 15 shall be for replacement only, **[\$199,380,000]** \$159,094,000, to be derived from receipts of the Abandoned Mine Reclamation Fund and to remain available until expended: *Provided*, That pursuant to Public Law 97-365, the Department of the Interior is authorized to utilize up to 20 per centum from the recovery of the delinquent debt owed to the United States Government to pay for contracts to collect these debts: *Provided further*, That of the funds made available to the States to contract for reclamation projects authorized in section 406(a) of Public Law 95-87, administrative expenses may not exceed 15 percent centum: *Provided further*, That none of these funds shall be used for a reclamation grant to any State if the State has not agreed to participate in a nationwide data system established by the Office of Surface Mining Reclamation and Enforcement through which all permit applications are reviewed and approvals withheld if the applicants (or those who control the applicants) applying for or receiving such permits have outstanding State or Federal air or water quality violations in accordance with section 510(c) of the Act of August 3, 1977 (30 U.S.C. 1260(c)), or failure to abate cessation orders, outstanding civil penalties associated with such failure to abate cessation orders, or uncontested past due Abandoned Mine Land fees: *Provided further*, That the Secretary of the Interior may deny 50 percent of an Abandoned Mine Reclamation fund grant, available to a State pursuant to title IV of Public Law 95-87, in accordance with the procedures set forth in section 521(b) of the Act, when the Secretary determines that a State is systematically failing to administer adequately the enforcement provisions of the approved State regulatory program. Fund will be denied until such time as the State and Office of Surface Mining Reclamation and Enforcement have agreed upon an explicit plan of action for correcting the enforcement deficiency. A State may enter into such agreement without admission of culpability. If a State enters into such agreement, the Secretary shall take no action pursuant to section 521(b) of the Act as long as the State is complying with the terms of the agreement: *Provided further*, That expenditure of moneys as authorized in section 402(g)(3) of Public Law 95-87 shall be on a priority basis with the first priority being protection of public health, safety, general welfare, and property from extreme danger of adverse effects of coal mining practices, as stated in section 403 of Public Law 95-87: *Provided further*, That 23 full-time equivalent positions are to be maintained in the Anthracite Reclamation Program at the Wilkes-Barre Field Office. (Department of the Interior and Related Agencies Appropriations Act, 1988.)

**State reclamation program grants.**—Each State with an approved reclamation program is entitled, subject to appropriation, to receive 50 percent of Abandoned Mine Reclamation Fund revenues derived from operating mines in that State. With grants, States assume primary responsibility for addressing problems such as subsidence, underground fires, open shafts and acid drainage in accordance with priorities set forth in the Act.

**Federal reclamation programs.**—This activity includes fee collection, and assistance to States in developing reclamation programs, abandoned mine lands reclamation projects undertaken directly by the Office of Surface Mining and the Rural Abandoned Mine Program (RAMP) administered by the Soil Conservation Service.

**Small operator assistance payments.**—This activity provides for payments for authorized services to eligible coal mine operators in preparing applications for mining permits under a permanent State or Federal regulatory program. These services include determining the probable hydrologic consequences of the proposed mining operation and analysis of test borings or core samplings.

**General administration.**—This activity includes the offices described for the General Administration activity in the Regulation and Technology appropriation. The funds for this activity represent only that portion of general administration expenses which is attributable to the Abandoned Mine Reclamation Fund.

Work in the Construction program is for the purpose of developing and managing water for irrigation, municipal and industrial use, salinity control, dam safety, applied engineering, and flood control in the 17 western States. Funding under this program provides for transfers to the Lower Colorado River Basin Development fund and Upper Colorado River Basin fund. The Lower Colorado River Basin Development fund provides for the development and construction of the Central Arizo-

na project. The Upper Colorado River Basin fund supports water supplies in the Upper Colorado River Basin area.

Under the Small Reclamation Projects Act (43 U.S.C. 422a-422l), loans and/or grants can be made to non-Federal organizations for construction or rehabilitation and betterment of small water resource projects. Funds are provided to continue construction on four projects. This funding will provide improvements to existing irrigation distribution systems by rehabilitating pumping plants, canal and lateral structures, enlarging and ex-

tending drains, and enable the purchase of maintenance equipment.

Under the Distribution Systems Loans Act (43 U.S.C. 421a-421d), loans can be made to organizations for the construction of irrigation and municipal or industrial water distribution systems on authorized Federal reclamation projects.

This schedule shows the effects of the Administration's credit reform proposal. The amounts in this schedule reflect the estimated grant-equivalent subsidy for Federal direct loan obligations made under this program. An explanation of the proposal is included in Part 6b of the Budget. The estimated grant-equivalent is based on a weighted-average Federal repayment interest rate of 1.29 percent, and an assumed private-market interest rate of 10.15 percent.

**GENERAL INVESTIGATIONS**

For engineering and economic investigations of proposed Federal reclamation projects and studies of water conservation and development plans and activities preliminary to the reconstruction, rehabilitation and betterment, financial adjustment, or extension of existing projects, to remain available until expended, **[\$16,590,000]** \$12,286,000: *Provided*, That, of the total appropriated, the amount for program activities which can be financed by the reclamation fund shall be derived from that fund: *Provided further*, That all costs of an

advance planning study of a proposed project shall be considered to be construction costs and to be reimbursable in accordance with the allocation of construction costs if the project is authorized for construction: *Provided further*, That funds contributed by non-Federal entities for purposes similar to this appropriation shall be available for expenditure for the purposes for which contributed as though specifically appropriated for said purposes, and such amounts shall remain available until expended. The general administrative expenses program provides for the executive direction and management of all reclamation activities, as performed by the Commissioner's offices in Washington, D.C., and Denver, CO, and six regional offices. The Denver office and regional offices charge individual projects or activities for direct beneficial services and related administrative and technical costs. These charges are covered under other appropriations.

This fund is derived from repayments and other revenue from water resource development, together with certain receipts from sales, leases, and rentals of Federal lands in the 17 Western States, and is available for expenditure pursuant to authorization contained in appropriation acts.

SPECIAL FUNDS

(TRANSFER OF FUNDS)

Sums herein referred to as being derived from the reclamation fund [or the Colorado River development fund] are appropriated from the special funds in the Treasury created by the Act of June 17, 1902 (43 U.S.C. 391) [and the Act of July 19, 1940 (43 U.S.C. 618a), respective]. Such sums shall be transferred, upon request of the Secretary, to be merged with and expended under the heads herein specified; and the unexpended balances of sums transferred for expenditure under the head "General Administrative Expenses" shall revert and be credited to the [special fund from which derived] reclamation fund. (Energy and Water Development Appropriation Act, 1988.)

The Geological Survey provides basic scientific data and information concerning water, land, and mineral resources.

*National mapping, geography, and surveys.*—The national mapping program produces and makes available, in printed and digital format, cartographic and geographic base data, multipurpose and special-purpose

maps. Map receipts are retained in a permanent account.

*Geologic and mineral resource surveys and mapping.*—The national program of onshore and offshore geologic research and investigations produces: (1) improved methods and instruments for mineral and energy assessments; (2) geologic, geophysical, and geochemical maps and analyses; (3) information on the chemistry and physics of the Earth, the climate, and the geologic processes by which it was formed and is being modified; (4) information on geologic hazards; and (5) information for use by other Federal and State agencies in the management of public lands and in national policy determinations.

*Water resources investigations.*—The national program of water resources investigations has the objective of appraising the Nation's water resources and insuring that the data necessary to develop and manage them efficiently and effectively are available when needed. The program produces data and analyses to support decisions on water planning, water management, energy development, and enhancement of the quality of the environment.

*General administration.*—General administrative expenses provide for management, executive direction and coordination, and administrative support.

*Facilities.*—This activity finances the operation and maintenance, facilities management, and special support services for the operation of the national center headquarters and field centers.

*Reimbursements* from non-Federal sources are from States and municipalities for cooperative efforts and proceeds from sale to the public of copies of photographs and records; proceeds from sale of personal property; reimbursements from permittees and licensees of the Federal Energy Regulatory Commission; and reimbursements from friendly countries and international organizations for technical assistance. Reimbursements from other Federal agencies are for mission related work performed at the request of the financing agency.

The Geological Survey has 18 quarters located at geomagnetic or seismic observatories. The operation and maintenance of these quarters, in the past, have been funded out of rental receipts which were credited to the Survey's annual SIR account. Under the provisions of Public Law 98-473, this new account was established to receive rental receipts to remain available until expended for operation and maintenance of these quarters.

The National Petroleum Reserve in Alaska program has been completed and demobilization has occurred. The remaining closeout activities relating to accounting and contract audits are nearly completed for the program that began in 1974. Most of the results have been published, however, a major compendium is in final preparation.

*Information and analysis.*—This program provides a reliable data base for analysis of national minerals problems by collecting, interpreting, and disseminating worldwide information relating to the production, consumption, and availability of nonfuel minerals. The program maintains information on the production and consumption of approximately 100 mineral commodities, and also on the minerals-related industries of about 168 countries. In-depth economic, technical, and policy studies that address the worldwide supply and demand for nonfuel minerals are conducted in this program. The Minerals Availability System, a computerized data base system, develops and utilizes methodologies for evaluation of mineral deposits based on quantifiable technical, economic, and social data. The program also includes mineral land assessments on certain Bureau of Land Management (BLM) and U.S. Forest Service lands, carried out jointly with the U.S. Geological Survey.

*Research:*—

*Health, safety and mining technology.*—This program focuses its efforts on long-term, high risk research designed to provide scientific advances that will enable improvement in all aspects of the health and safety of miners, including prevention of occupational illnesses, accidents, and disasters, as well as to stimulate innovations in the U.S. mining industry. Research efforts are being concentrated on new concepts with the potential to yield significant improvements in health and safety, to reduce adverse environmental impacts, to increase access to marginal mineral deposits, and to increase the domestic mineral reserve base.

*Minerals and materials science.*—Research is conducted to develop basic information on fundamental scientific and engineering principles of minerals processing that to form a basis for the mineral industry's efforts to improve productivity, to increase energy efficiency, and to investigate new or alternative techniques which increase production of strategic, critical, and other essential minerals from low-grade or complex domestic ores and secondary resources.

*Environmental technology.*—Research is conducted to mitigate or eliminate adverse environmental impacts associated with mining and mineral processing. Problems addressed include subsidence, acid mine drainage, and neutralization of waste materials.

*Mineral institutes.*—Minerals research and engineering programs conducted at 32 colleges and universities nationwide are supported through public and private resources.

*General administration.*—The program supports executive direction, and financial and management services for the Bureau of Mines.

The Helium Act Amendments of 1960, Public Law 86-777 (50 U.S.C. 167), authorized activities necessary to provide sufficient helium to meet the current and foreseeable future needs of essential government activities. The program includes production, conservation, sale, and distribution of helium and involves the management of helium program facilities and resources to:

(a) Provide helium to meet current demands of all Federal agencies.

(b) Provide helium to meet the foreseeable future helium requirements of essential Government programs.

(c) Conduct investigations and evaluations to improve the helium program.

Helium program assets are scheduled for sale during fiscal year 1989. After the sale, excess fund balances will be transferred to the general fund of the Treasury. Legislation will be proposed to cancel outstanding helium debt owed to the Treasury.

*Fish and wildlife enhancement.*—The Service conducts investigations and provides technical assistance to prevent or minimize adverse environmental effects of development projects. Contaminants are monitored and assessed. Activities are pursued to prevent species from becoming extinct, and return them to the point where they are neither threatened or endangered.

*Refuges and wildlife.*—The Service maintains the National Wildlife Refuge System consisting of 441 units, 152 waterfowl production areas in 150 counties and 57 coordination areas on about 90 million acres; directs and coordinates national migratory bird programs; and enforces Federal wildlife laws and regulations.

*Fisheries.*—The Service participates in development, management, and protection of interstate and international fishery resources, and provides technical assistance related to fish, wildlife and some marine mammals.

*Research and development.*—The Service conducts research to improve wildlife management capabilities, improve sport fish productivity, protect endangered or threatened species, assist recovery programs, and prevent or minimize adverse impacts on fish and wildlife.

*General administration.*—Provides policy formulation, direction, and administration for fish and wildlife programs.

Federal aid in fish restoration and management.—Beginning in 1986, this activity is funded under the

“Sport fish restoration account,” Fish and Wildlife Service, Department of the Interior.

Federal aid in wildlife restoration.—States, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Northern Mariana Islands are allocated funds equal to the 11 percent excise tax on sporting arms and ammunition, the 10 percent excise tax on handguns, and the 11 percent tax on certain archery equipment. States are reimbursed up to 75 percent of the cost of approved wildlife and hunter education projects.

Proceeds from sales, water resources development projects.—Receipts collected from the sale of products from refuges on which other agencies have primary jurisdiction pay the costs of producing these products and for managing wildlife habitat.

The land and water conservation fund includes revenue pursuant to the Land and Water Conservation Fund Act to support land acquisition and administrative expenses for outdoor recreation purposes. Enacted legislation has eliminated the earmarking of receipts from recreation fees to the land and water conservation fund for all agencies beginning in fiscal 1988. Such receipts collected by the National Park Service were transferred to the General Fund of the Treasury in fiscal 1987 pursuant to a provision in Public Law 99-591 and will be retained for use in the National Park System beginning in fiscal year 1988 under the Budget Reconciliation Act of 1987. Under the same Act, provision for revenues annually into the Land and Water

Conservation Fund has been extended through fiscal year 2015.

This appropriation provides funds to acquire certain lands, or interests in land, for inclusion in the National Park System in order to preserve nationally important natural and historic resources. Funds are also included to manage and coordinate the Land Acquisition Program and to administer prior year State grants awarded from the Land and Water Conservation Fund. No funding for discretionary land acquisition or for State outdoor recreation grants is requested in 1989.

[HISTORIC PRESERVATION FUND]

[For expenses necessary in carrying out the provisions of the Historic Preservation Act of 1966 (80 Stat. 915), as amended (16 U.S.C. 470), \$28,250,000 to be derived from the Historic Preservation Fund, established by section 108 of that Act, as amended, to remain available for obligation until September 30, 1989: *Provided*, That the Trust Territory of the Pacific Islands is a State eligible for Historic Preservation Fund matching grant assistance as authorized under 16 U.S.C. 470w(2): *Provided further*, That pursuant to section 105(1) of the Compact of Free Association, Public Law 99-239 the Federated States of Micronesia and the Republic of the Marshall Islands shall also be considered States for purposes of this appropriation: *Provided further*, That \$1,000,000 of the amount appropriated herein shall remain available until expended to establish a Bicentennial Lighthouse Fund, to be distributed on a matching grant basis after consultation among the National Park Service, the National Trust for Historic Preservation, State Historic Preservation Officers from States with resources eligible for financial assistance, and the lighthouse community. Consultation shall include such matters as a distribution formula, timing of grant awards, a redistribution procedure for grants remaining unobligated longer than two years after the award date, and related implementation policies. The distribution formula for fiscal year 1988 shall include consideration of such factors as—

(A) the number of lighthouses on or determined to be eligible for listing on the National Register of Historic Places by March 30, 1988;

(B) the number of river lights and number of historic river sites on or determined to be eligible for listing on the National Register by March 30, 1988; and

(C) the availability of matching contributions in the State: *Provided further*, That the Secretary shall allocate appropriate funds from the Bicentennial Lighthouse Fund to be transferred, without the matching requirement, for use by Federal agencies, in cooperative agreements with the National Park Service and the State Office of Historic Preservation in which the property is located, for properties otherwise eligible for the National Register but owned by the Federal Government. ] (*Department of the Interior and Related Agencies Appropriations Act, 1988.*)

ADMINISTRATIVE PROVISIONS

Appropriations for the National Park Service shall be available for the purchase of not to exceed [370] 360 passenger motor vehicles, of which [320] 290 shall be for replacement only, including not to exceed [300] 290 for police-type use and [25] 26 buses; to provide, notwithstanding any other provision of law, at a cost not exceeding \$100,000, transportation for children in nearby communities to and from any unit of the National Park System used in connection with organized recreation and interpretive programs of the National Park Service; options for the purchase of land at not to exceed \$1 for each option; and for the procurement and delivery of medical services within the jurisdiction of units of the National Park System: *Provided*, That [no] any funds available to the National Park Service may be used, [unless the proposed transfer is approved in advance by the House and Senate Committees on Appropriations in compliance with the reprogramming procedures contained in House Report 99-714] with the approval of the Secretary, to maintain law and order in emergency and other unforeseen law enforcement situations and conduct emergency search and rescue operations in the National Park System: *Provided further*, That none of the funds appropriated to the National Park Service may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1913: *Provided further*, That none of the funds appropriated to the National Park Service may be used to add industrial facilities to the list of National Historic Landmarks without the consent of the owner: *Provided further*, That the National Park Service may use helicopters and motorized equipment at Death Valley National Monument for removal of feral burros and horses: *Provided further*, That notwithstanding any other provision of law, the National Park Service may recover unbudgeted costs of providing necessary services associated with special use permits, such reimbursements to be credited to the appropriation current at that time: *Provided further*, That none of the funds appropriated to the National Park Service may be used to implement an agreement for the redevelopment of the southern end of Ellis Island until such agreement has been submitted to the Congress and shall not be implemented prior to the expiration of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) from the receipt by the Speaker of the House of Representatives and the President of the Senate of a full and comprehensive report on the development of the southern end of Ellis Island, including the facts and circumstances relied upon in support of the proposed project.

[None of the funds in this Act or any other Act may be used to commence, conduct, or participate in any action in any court of law for condemnation of the property or to initiate a declaration of taking for any property in the Santa Monica Mountains NRA, California against the owner of any inholding having a detached single-family dwelling the construction of which had been begun before January 1, 1978, or against the owner or his assignees of any inholding of a detached single-family dwelling the construction of which had been begun before January 1, 1978, which dwelling may have been destroyed by fire, storm or otherwise.]

No funds shall be available for the National Park Service to issue any construction permit for the Potomac Greens interchange on the George Washington Memorial Parkway unless an Environmental Impact Statement is conducted. The Environmental Impact Statement shall be commenced promptly and completed and filed within eighteen (18) months of the date of which [this bill is] *Public Law 100-202* was enacted. After completion and filing, the EIS shall be transmitted to the appropriate Congressional Committees for a period of 60 days, during which time the National Park Service shall not

NATIONAL PARK SERVICE—Continued  
ADMINISTRATIVE PROVISIONS—Continued

issue any construction permit for the Potomac Greens interchange on the George Washington Memorial Parkway.

The Environmental Impact Statement shall review the traffic impact of only the proposed 38-acre development opposite Daingerfield Island west of the George Washington Memorial Parkway: *Provided further*, That the National Park Service shall review the impact of the planned development on the visual, recreational and historical integrity of the Parkway.

The Environmental Impact Statement shall also provide an evaluation of alternative acquisition strategies to include but not be limited to appraisal estimates for the access rights, the entire 38-acre parcel, that portion of the 38-acre parcel as defined approximately by the historic district boundary line, and any other recommendations by the National Park Service to mitigate the Parkway degradation effects of the proposed development so as to adequately protect and preserve the Parkway. Such appraisals shall be prepared and filed as soon as is reasonably possible. The National Park Service solely shall determine the legal and factual sufficiency of the Environmental Impact Statement and its compliance with the National Environmental Policy Act of 1969.

The Environmental Impact Statement shall be separate from, independent of, and in no way intended to affect or modify any pending litigation. Notwithstanding any other provision of law, no court shall have jurisdiction to consider questions respecting the factual and legal sufficiency of the Environmental Impact Statement under the National Environmental Policy Act of 1969. **General and special funds:**

OPERATION OF INDIAN PROGRAMS

For operation of Indian programs by direct expenditure, contracts, cooperative agreements, and grants including expenses necessary to provide education and welfare services for Indians, either directly or in cooperation with States and other organizations, including payment of care, tuition, assistance, and other expenses of Indians in boarding homes, institutions, or schools; grants and other assistance to needy Indians; maintenance of law and order; management, development, improvement, and protection of resources and appurtenant facilities under the jurisdiction of the Bureau of Indian Affairs, including payment of irrigation assessments and charges; acquisition of water rights; advances for Indian industrial and business enterprises; operation of Indian arts and crafts shops and museums; development of Indian arts and crafts, as authorized by law; for the general administration of the Bureau of Indian Affairs, including such expenses in field offices, [\$970,756,000, of which not less than \$47,787,000 shall remain available until expended for contract support for contracts entered into under Public Law 93-638; and] \$983,416,000, of which not to exceed [\$51,121,000] \$68,104,000 for higher education scholarships, *adult vocational training*, and assistance to public schools under the Act of April 16, 1934 (48 Stat. 596), as amended (25 U.S.C. 452 et seq.), [and \$25,000,000 for firefighting] shall remain available for obligation until September 30, [1989] 1990, and of which \$18,700,000 for firefighting and repayment to other appropriations from which funds were transferred under the authority of section 102

of the Department of the Interior and Related Agencies Appropriations Act, 1988, shall remain available until expended, and the funds made available to tribes and tribal organizations through contracts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (88 Stat. 2203; 25 U.S.C. 450 et seq.) shall remain available until September 30, [1989] 1990: *Provided*, That this carryover authority does not extend to programs directly operated by the Bureau of Indian Affairs unless the tribe(s) and the Bureau of Indian Affairs enter into a cooperative agreement for consolidated services; and for expenses necessary to carry out the provisions of section 19(a) of Public Law 93-531 (25 U.S.C. 640d-18(a)), [\$1,971,000] \$1,997,000, to remain available until expended: *Provided further*, That none of the funds appropriated to the Bureau of Indian Affairs shall be expended as matching funds for programs funded under section 103(b)(2) of the Carl D. Perkins Vocational Education Act: *Provided further*, That the amounts available for assistance to public schools under the Act of April 16, 1934 (48 Stat. 596), as amended (25 U.S.C. 452 et seq.), shall be distributed on the same basis as such funds were distributed in fiscal year 1986: *Provided further*, That notwithstanding any provision of the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act, the amounts appropriated for fiscal year 1988 for the Bureau of Indian Affairs for the Institute of American Indian Arts shall be available to operate the Institute until the Board of Regents and President of the Institute have been named and had an opportunity to organize, and for use under part A of that Act: *Provided further*, That the savings realized by the Bureau of Indian Affairs from the transfer of fish hatcheries to the United States Fish and Wildlife Service shall be available for cyclical maintenance of tribally-owned fish hatcheries and related facilities: *Provided further*, That no part of any appropriations to the Bureau of Indian Affairs shall be available to provide general assistance payments for Alaska Natives in the State of Alaska unless and until otherwise specifically provided for by Congress: *Provided further*, That none of the funds contained in this Act shall be available for any payment to any school to which such school would otherwise be entitled pursuant to section 1128(b) of Public Law 95-561, as amended, until after July 1, 1988: *Provided further*, That the Secretary shall take no action to close the school or dispose of the property of the Phoenix Indian School until the Congress has specifically approved the school closure or provided for disposition of the property in legislation: *Provided further*, That none of the funds in this Act shall be used by the Bureau of Indian Affairs to transfer funds under a contract with any third party for the management of tribal or individual Indian trust funds until the funds held in trust for such tribe or individual have been audited and reconciled, and the tribe or individual has been provided with an accounting of such funds, and the appropriate Committees of the Congress and the tribes have been consulted with as to the terms of the proposed contract or agreement: *Provided further*, That none of the funds in this Act shall be used to implement any regulations, or amendments to or revisions of regulations, relating to the Bureau of Indian Affairs' higher education grant program that were not in effect on March 1, 1987: *Provided further*, That none of the funds in this Act shall be used to implement proposed initiatives to transfer any school operated by the Bureau to the control of any tribe, State, or local government agency (except that this prohibition shall not apply with respect to the transfer of a Bureau-operated school to the control of an Indian tribe under a contract entered into under the Indian Self-Determination and Education Assistance Act if the governing body of the Indian tribe approves of the transfer); to charge tuition at Bureau post-secondary schools; to implement the proposed economic self-assistance initiative (except for a limited demonstration program); to change the method of funding tribal contractor indirect costs, including imposition of a flat rate for contract support costs; to make available to the Bureau administrative deductions collected from Indian timber sales; to contract out the administration of the Bureau forestry program or any other Bureau-operated programs without prior approval of the Committees on Appropriations; or to implement any reorganizations, including "regionalization" of programs, without the prior approval of the Committees on Appropriations: *Provided further*, That Public Law 99-349 is amended by deleting under the heading "Bureau of Indian Affairs, Operation of Indian Programs" the second, third, and fourth provisos and substituting: "*Provided further*, That the funds appropriated hereunder shall be used pursuant to the consent decree and subsequent court orders in *United States v. Michigan (M-26-73)*."": *Provided further*, That \$120,000 of the amounts provided for education program management shall be available for a grant to the Close Up Founda-

tion]: Provided further, That all funds otherwise available to the Bureau of Indian Affairs to support projects and activities for the benefit of the Rosebud Sioux Tribe, the Mescalero Apache Tribe, the Mille Lacs Reservation, the Red Lake Tribe, the Confederated Salish and Kootenai Tribes, the Quinault Tribe, the Hoopa Valley Tribe, the Lummi Tribe, the Tlingit and Haida Indians, and the Jamestown Klallam Tribe may be used to support voluntary intergovernmental agreements with such tribes to carry out programs and activities designed to meet tribally-determined needs so long as such activities are authorized by law: Provided further, That funds available for trust services to individual Indians on these reservations are available to support such voluntary intergovernmental agreements only to the extent that such agreements provide for the same trust services to be provided to individual Indians by the tribe: Provided further, That the intergovernmental agreements shall also include a clear delineation of trust responsibility functions assumed by the tribe and those retained by the U.S. Government: Provided further, That with respect to trust responsibility functions assumed by the tribe, the United States shall not be responsible or liable for any act or omission by the named tribe or its contractors, subcontractors, or others acting on behalf of the named tribe in carrying out that agreement, including but not limited to responsibilities or liabilities for trust functions, contract damages, or tort liability: Provided further, That if the actual amounts required in this account for costs of the Federal Employee Retirement System in fiscal year 1989 are less than amounts estimated in the Budget, such excess funds may be transferred to "Construction" and "Miscellaneous Payments to Indians" to cover the costs of the retirement system in those accounts. **Tribe/agency operations.**—The budget activities described below, with the exception of the Navajo/Hopi settlement program and facilities management, contain a tribe/agency operations component. This component supports various programs in the field among which funding is allocated subject to tribal priorities rather than national programmatic priorities.

**Education.**—The Bureau of Indian Affairs operates schools and supports tribally operated schools.

The Bureau provides financial assistance to Indian students for higher education studies, supports some tribally operated post-secondary institutions, and offers continuing education programs in many communities.

**Indian services.**—This activity includes municipal-type government services for Indian communities, along with assistance to tribes in self-government. Individual Indians are assisted by vocational training and employment placement.

**Navajo/Hopi Settlement Program.**—This activity provides for range management and grazing capacity restoration on lands lying within the former Navajo/Hopi Joint Use Area.

**Economic development.**—Economic development is encouraged and assisted through programs of technical and financial aid to Indian individuals and organizations. Indian tribal organizations and individuals are assisted with securing and managing loans. Individual Indians are assisted by vocational training and employment placement. Roads are maintained to provide for the movement of people and goods as needed by Indian communities.

**Natural resources development.**—This activity provides for the conservation, development and use of Indian land, water, and related resources.

**Trust responsibilities.**—This activity provides for the protection of Indian rights and property, and the management of assets held in trust for Indian tribes and individuals.

**Facilities management.**—This activity provides for the maintenance and operation of Bureau facilities and the provision for GSA owned or leased facilities.

**General administration.**—These functions include executive direction, administrative services, safety management, employee compensation payments, construction management, and education program management.

This fund, established by the Indian Financing Act of 1974, provides a source of financing for Indians who cannot borrow from other Government credit agencies or from ordinary commercial lenders because of their low economic status, isolated geographic location, trust status of land, lack of bankable security, or other reasons. Direct loans are made for any purpose that will promote the economic development of the borrower, including loans for educational purposes.

The fund was established pursuant to the Indian Financing Act of 1974. The purpose of the fund is to support a program of guaranteeing or insuring loans made by commercial lending institutions to Indians and to tribes and other Indian organizations for economic development purposes. An interest subsidy is paid from the fund on loans guaranteed or insured to reduce the Indian borrower's rate of interest. The purpose of this program is to provide an incentive to the private lending sector to make loans to Indians which would not otherwise be made.

Under the terms of the 1947 Trustee Agreement between the United States and the Security Council of the United Nations, the United States exercised full jurisdiction over the Trust Territory of the Pacific Islands and was obligated to promote the political, economic, and educational advancement of the inhabitants. These responsibilities have been carried out through the Department of the Interior.

The Trusteeship Agreement is no longer in effect with respect to the Republic of the Marshall Islands and the Federated States of Micronesia. Their assistance is discussed in the "Compact of Free Association" account. The United States has approved a Compact with the Republic of Palau, and that Compact is expected to be implemented in 1988. Therefore, assistance for the Republic of Palau is also included in the "Compact of Free Association" account. Funding included in the "Trust Territory of the Pacific Islands" account represents remaining transition responsibilities of the United States from the Trusteeship administration.

COMPACT OF FREE ASSOCIATION

For economic assistance and necessary expenses for the Federated States of Micronesia and the Republic of the Marshall Islands as provided for in sections 122, 221, 223, 232, and 233 of the Compact of

Free Association, [ \$33,620,000 ] \$27,260,000, [ including \$2,500,000 for the Enjebi Community Trust Fund, ] to remain available until expended, as authorized by Public Law 99-239; and for economic assistance and necessary expenses for the Republic of Palau as provided for in Sections 221, 223, 232, and 233 of the Palau Compact of Free Association, \$7,675,000, to remain available until expended, as authorized by Public Law 99-658: Provided, That notwithstanding the provisions of Public Laws 99-500 and 99-591, the effective date of the Palau Compact for purposes of economic assistance pursuant to the Palau Compact of Free Association, Public Law 99-658, shall be the effective date of the Palau Compact as determined pursuant to section 101(d) of Public Law 99-658: Provided further, That funds previously appropriated under this head shall be available for audit purposes as identified in section 233 of the Compact of Free Association]. (Department of the Interior and Related Agencies Appropriations Act, 1988.)

The peoples of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau approved Compacts of Free Association negotiated by the United States and their governments. The Compact of Free Association Act of 1985 constitutes the necessary authorizing legislation to make annual payments to the Republic of the Marshall Islands and the Federated States of Micronesia during the next fifteen years, totaling \$2.3 billion. Public Law 99-658 provided the necessary authorizing legislation for the Republic of Palau Compact. That Compact is expected to be implemented in 1988 with annual payments which will total \$450 million during the next fifteen years. This assistance will aid in the development of these freely associated states as sovereign nations.

**GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR**

Sec. 101. Appropriations made in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: *Provided*, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted: *Provided further*, That all funds used pursuant to this section must be replenished by a supplemental appropriation which must be requested as promptly as possible.

Sec. 102. The Secretary may authorize the expenditure or transfer of any no year appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of forest or range fires on or threatening lands under jurisdiction of the Department of the Interior; for the emergency rehabilitation of burned-over lands under its jurisdiction; for emergency actions related to potential or actual earthquakes, floods or volcanoes; for the prevention, suppression, and control of actual or potential grasshopper and Mormon Cricket outbreaks on lands under the jurisdiction of the Secretary, pursuant to the authority in Section 1773(b) of Public Law 99-198 (99 Stat. 1658); for emergency reclamation projects under section 410 of Public Law 95-87; and shall transfer, from any no year funds available to the Office of Surface Mining Reclamation and Enforcement, such funds as may be necessary to permit assumption of regulatory authority in the event a primacy State is not carrying out the regulatory provisions of the Surface Mining Act: *Provided*, That appropriations made in this title for fire suppression purposes shall be available for the payment of obligations incurred during the preceding fiscal year, and for reimbursement to other Federal agencies for destruction of vehicles, aircraft, or other equipment in connection with their use for fire suppression purposes, such reimbursement to be credited to appropriations currently available at the time of receipt thereof: *Provided further*, That all funds used pursuant to this section must be replenished by a supplemental appropriation which must be requested as promptly as possible.

Sec. 103. Appropriations made in this title shall be available for operation of warehouses, garages, shops, and similar facilities, wherever consolidation of activities will contribute to efficiency or economy, and said appropriations shall be reimbursed for services rendered to any other activity in the same manner as authorized by sections 1535 and 1536 of title 31, U.S.C.: *Provided*, That reimbursements for costs and supplies, materials, equipment, and for services rendered may be credited to the appropriation current at the time such reimbursements are received.

Sec. 104. Appropriations made to the Department of the Interior in this title shall be available for services as authorized by 5 U.S.C. 3109, when authorized by the Secretary, in total amount not to exceed \$300,000 \$810,000; hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchase of reprints; payment for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members: *Provided*, That no funds available to the Department of the Interior are available for any expenses of the Great Hall of Commerce.

Sec. 105. Appropriations available to the Department of the Interior for salaries and expenses shall be available for uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902 and D.C. Code 4-204).

Sec. 106. Appropriations made in this title shall be available for obligation in connection with contracts issued by the General Services Administration for services or rentals for periods not in excess of twelve months beginning at any time during the fiscal year.

Sec. 107. No funds provided in this title may be expended by the Department of the Interior for the preparation for, or conduct of, pre-leasing activities (including but not limited to: calls for information, tract selection, notices of sale, receipt of bids and award of leases) of lands described in, and under the same terms and conditions set forth in section 107 of the Department of the Interior and Related Agencies Appropriations Act, 1986, as contained in Public Law 99-190.

Sec. 108. None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance changing the name of the mountain located 63 degrees, 04 minutes, 15 seconds west, presently named and referred to as Mount McKinley.

Sec. 109. Notwithstanding any other provisions of law, appropriations in this title shall be available to provide insurance on official motor vehicles, aircraft, and boats operated by the Department of the Interior in Canada and Mexico.

Sec. 110. No funds provided in this title may be used to detail any employee to an organization unless such detail is in accordance with Office of Personnel Management regulations.

Sec. 111. The Secretary of the Navy is authorized to transfer to the Guam Power Authority (GPA), pursuant to the payment provisions described in the conference report on the Continuing Appropriations Act, 1985 (House Report No. 98-1159), those Navy-owned electric power generation, transmission and distribution facilities, and equipment (excluding distribution facilities required by the military) on Guam as specified in the customer-supplier contract to be negotiated between the Navy and the GPA together with associated land interests. Transfer of such power generation, transmission and distribution facilities, and equipment shall not occur until the GPA assumes full responsibility for islandwide electrical power supply to military and civilian customers on Guam. GPA shall assume full responsibility when it meets all performance standards specified in the August, 1986 independent third party plan for takeover of the island-wide power responsibilities or other performance standards mutually agreed upon by GPA and Navy. (Department of the Interior and Related Agencies Appropriations Act, 1988.)

**GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR**

Sec. 201. Appropriations in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: *Provided*, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted.

Sec. 202. The Secretary may authorize the expenditure or transfer (within each bureau or office) of any appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of forest or range fires on or threatening lands under jurisdiction of the Department of the Interior.

Sec. 203. Appropriations in this title shall be available for operation of warehouses, garages, shops, and similar facilities, wherever consolidation of activities will contribute to efficiency, or economy, and said appropriations shall be reimbursed for services rendered to any other activity in the same manner as authorized by the Act of June 30, 1932 (31 U.S.C. 1535 and 1536): *Provided*, That reimbursements for costs of supplies, materials, equipment, and for services rendered may be credited to the appropriation current at the time such reimbursements are received.

Sec. 204. Appropriations in this title shall be available for hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchases of reprints; payment for telephone services in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members.

Sec. 205. In accordance with repayment contract No. 9-07-70-W0363, entered into August 29, 1979, as amended December 18, 1981, for the Farwell Irrigation District, contractual party with the Farwell Unit, Middle Loup Division, Pick-Sloan Missouri Basin Program, and entitled "Contract between the United States of America and the Farwell Irrigation District for Additional Drainage Facilities", the

costs of such project allocated to irrigation and drainage shall not be reimbursable. Payments already made under such contract shall be credited against overall payments due the United States.】

【SEC. 206. Of the appropriations for the Central Utah project, in this or any other Act, not more than \$18,500,000 of the total in any one fiscal year may be expended by the Secretary for all administrative expenses: *Provided*, That the Inspector General of the Department of the Interior shall annually audit expenditures by the Bureau of Reclamation to determine compliance with this section: *Provided further*, That none of the Bureau of Reclamation's appropriations shall be used to fund the audit: *Provided further*, That the Bureau of Reclamation shall not delay or stop construction of the project due to this limitation and shall apply all the remaining appropriations to completion of this project, unless continuation of work on the Central Utah project would cause administrative expenses attributable to the Central Utah project to be paid from funds available for other Bureau of Reclamation projects and thereby delay their construction.】

【SEC. 207. The Secretary of the Interior is directed to use not to exceed \$70,000 in fiscal year 1988 for soil classification studies required to complete the integration of the Hilltop Irrigation District as a Federal Unit of the Pick-Sloan Missouri River Basin program.】

【SEC. 208. (a) Notwithstanding title II of the Reclamation Authorization Act of 1975 (Public Law 94-228), the city of Dickinson, North Dakota, is forgiven all obligations incurred by such city under the contract (numbered 9-07-60-WR052) entered into with the Secretary of the Interior or his delegatee.

(b)(1) The Secretary of the Interior, acting through the Commissioner of the Bureau of Reclamation, is authorized to enter into a new repayment contract with the city of Dickinson the terms of which shall entitle the city of Dickinson to water supply benefits provided by the bascule gate project authorized by title II of the Reclamation Authorization Act of 1975 in consideration for repayment of the costs of the bascule gate project as provided in paragraph (2).

(2) Repayment terms of the new contract shall provide for—

(A) repayment by the city of Dickinson of the capital cost of the bascule gate project of \$1,625,000 over a period of 40 years at an interest rate of 7.21 per centum per annum; and

(B) payment of the annual operation, maintenance, and replacement costs of the project facilities.】

【SEC. 209. (a) Notwithstanding any other provisions of law, the city of Minot, North Dakota, is relieved of all liability for repayment to the United States of the sum of \$1,026,489.29 associated with the excess capacity of the Minot Pipeline resulting from enactment of the Garrison Diversion Unit Reformulation Act of 1986 (Public Law 99-294).

(b) The relief from liability for repayment granted by subsection (a) shall be effective retroactive to January 1, 1978, the start of the city of Minot's repayment obligation under the 1972 repayment contract with the Bureau of Reclamation.

(c) If the excess capacity referred to in subsection (a) is ever used, the city of the Minot shall reimburse the United States for the costs referred to in subsection (a) proportionate to the actual use of the excess capacity.】

【SEC. 210. (a) The McGee Creek Project of the Bureau of Reclamation shall not be deemed completed until such time as construction of all authorized components of the project are completed, including access roads and recreation areas.

(b) The Bureau of Reclamation shall not transfer title of the project to any other entity or require repayment of the project or permit refinancing of the project until such time as the project is completed according to the terms of (a) above.】

【SEC. 211. The Secretary is prohibited from transferring the Office of the Commissioner of the Bureau of Reclamation, the Assistant Commissioner for Administration and the Office of Foreign Activities from Washington, D.C. to Denver, Colorado and shall have in the Washington office a minimum of sixty professional staff experienced in the following areas: Budget, Foreign Activities, Contracts and Repayment, Resource Development and Management; Construction; and Congressional and Public Affairs. The Secretary is further prohibited from transferring the Acreage Limitation Branch from Denver, Colorado to Washington, D.C. In addition, the Bureau shall maintain appropriate administrative support personnel for the Washington Office. The Secretary shall submit quarterly reports to the Congress, beginning January 1988, on Washington office reorganization initiatives to reduce overhead and duplication.】 (*Energy and Water Development Appropriation Act, 1988.*)

### TITLE III—GENERAL PROVISIONS

SEC. 301. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.

SEC. 302. No part of any appropriation under this Act shall be available to the Secretaries of the Interior and Agriculture for use for any sale hereafter made of unprocessed timber from Federal lands west of the 100th meridian in the contiguous 48 States which will be exported from the United States, or which will be used as a substitute for timber from private lands which is exported by the purchaser: *Provided*, That this limitation shall not apply to specific quantities of grades and species of timber which said Secretaries determine are surplus to domestic lumber and plywood manufacturing needs.

【SEC. 303. No part of any appropriation under this Act shall be available to the Secretary of the Interior or the Secretary of Agriculture for the leasing of oil and natural gas by noncompetitive bidding on publicly owned lands within the boundaries of the Shawnee National Forest, Illinois: *Provided*, That nothing herein is intended to inhibit or otherwise affect the sale, lease, or right to access to minerals owned by private individuals.】

SEC. 【304】 303. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which congressional action is not complete.

SEC. 【305】 304. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 【306】 305. None of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency except as otherwise provided by law.

【SEC. 307. Except for lands described by sections 105 and 106 of Public Law 96-560, section 103 of Public Law 96-550, section 5(d)(1) of Public Law 96-312, and except for land in the State of Alaska, and lands in the National Forest System released to management for any use the Secretary of Agriculture deems appropriate through the land management planning process by any statement or other Act of Congress designating components of the National Wilderness Preservation System now in effect or hereinafter enacted, and except to carry out the obligations and responsibilities of the Secretary of the Interior under section 17(k)(1) (A) and (B) of the Mineral Leasing Act of 1920 (30 U.S.C. 226), none of the funds provided in this Act shall be obligated for any aspect of the processing or issuance of permits or leases pertaining to exploration for or development of coal, oil, gas, oil shale, phosphate, potassium, sulphur, gilsonite, or geothermal resources on Federal lands within any component of the National Wilderness Preservation System or within any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning in Executive Communication 1504, Ninety-sixth Congress (House Document numbered 96-119); or within any lands designated by Congress as wilderness study areas or within Bureau of Land Management wilderness study areas: *Provided*, That nothing in this section shall prohibit the expenditure of funds for any aspect of the processing or issuance of permits pertaining to exploration for or development of the mineral resources described in this section, within any component of the National Wilderness Preservation System now in effect or hereinafter enacted, any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning, within any lands designated by Congress as wilderness study areas, or Bureau of Land Management wilderness study areas, under valid existing rights, or leases validly issued in accordance with all applicable Federal, State, and local laws or valid mineral rights in existence prior to October 1, 1982: *Provided further*, That funds provided in this Act may be used by the Secretary of Agriculture in any area of National Forest lands or the Secretary of the Interior to issue under their existing authority in any area of National Forest or public lands withdrawn pursuant to this Act such permits as may be necessary to conduct prospecting, seismic surveys, and core sampling conducted by helicopter or other means not requiring construction of

roads or improvement of existing roads or ways, for the purpose of gathering information about the inventorying energy, mineral, and other resource values of such area, if such activity is carried out in a manner compatible with the preservation of the wilderness environment, *Provided further*, That seismic activities involving the use of explosives shall not be permitted in designated wilderness areas: *Provided further*, That funds provided in this Act may be used by the Secretary of the Interior to augment recurring surveys of the mineral values of wilderness areas pursuant to section 4(d)(2) of the Wilderness Act and acquire information on other national forest and public land areas withdrawn pursuant to this Act, by conducting in conjunction with the Secretary of Energy, the National Laboratories, or other Federal agencies, as appropriate, such mineral inventories of areas withdrawn pursuant to this Act as the Secretary deems appropriate. These inventories shall be conducted in a manner compatible with the preservation of the wilderness environment through the use of methods including core sampling conducted by helicopter; geophysical techniques such as induced polarization, synthetic aperture radar, magnetic and gravity surveys, geochemical techniques including stream sediment reconnaissance and x-ray diffraction analysis; land satellites; or any other methods the Secretary deems appropriate. The Secretary of the Interior is hereby authorized to conduct inventories or segments of inventories, such as data analysis activities, by contract with private entities deemed by the Secretary to be qualified to engage in such activities whenever the Secretary has determined that such contract would decrease Federal expenditures and would produce comparable or superior results: *Provided further*, That in carrying out any such inventory or surveys, where National Forest System lands are involved, the Secretary of the Interior shall consult with the Secretary of Agriculture concerning any activities affecting surface resources: *Provided further*, That funds provided in this Act may be used by the Secretary of the Interior to issue oil and gas leases for the subsurface of any lands designated by Congress as wilderness study areas, that are immediately adjacent to producing oil and gas fields or areas that are prospectively valuable. Such leases shall allow no surface occupancy and may be entered only by directional drilling from outside the wilderness study area or other non-surface disturbing methods.]

Sec. [308] 306. None of the funds provided in this Act shall be used to evaluate, consider, process, or award oil, gas, or geothermal leases on Federal lands in the Mount Baker-Snoqualmie National Forest, State of Washington, within the hydrographic boundaries of the Cedar River municipal watershed upstream of river mile 21.6, the Green River municipal watershed upstream of river mile 61.0, the North Fork of the Tolt River proposed municipal watershed upstream of river mile 11.7, and the South Fork Tolt River municipal watershed upstream of river mile 8.4.

Sec. [309] 307. No assessments may be levied against any program, budget activity, subactivity, or project funded by this Act unless such assessments and the basis therefor are presented to the Committees on Appropriations [and are approved by such committees].

[Sec. 310. Employment funded by this Act shall not be subject to any personnel ceiling or other personnel restriction for permanent or other than permanent employment except as provided by law.]

Sec. [311] 308. Notwithstanding any other provision of law, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Energy, and the Secretary of the Smithsonian Institution are authorized to enter into contracts with State and local governmental entities, including local fire districts, for procurement of services in the presuppression, detection, and suppression of fires on any units within their jurisdiction.

Sec. [312] 309. None of the funds provided by this Act to the United States Fish and Wildlife Service may be obligated or expended to plan for, conduct, or supervise deer hunting on the Loxahatchee National Wildlife Refuge.

[Sec. 313. None of the funds made available to the Department of the Interior or the Forest Service during fiscal year 1988 by this or any other Act may be used to implement the proposed jurisdictional interchange program until enactment of legislation which authorizes the jurisdictional interchange.]

Sec. [314] 310. The Forest Service and Bureau of Land Management are to continue to complete as expeditiously as possible development of their respective Forest Land and Resource Management Plans to meet all applicable statutory requirements. Notwithstanding the date in section 6(c) of the NFMA (16 U.S.C. 1600), the Forest Service, and the Bureau of Land Management under separate authority, may continue the management of lands within their jurisdiction

under existing land and resource management plans pending the completion of new plans. Nothing shall limit judicial review of particular activities on these lands: *Provided, however*, That there shall be no challenges to any existing plan on the sole basis that the plan in its entirety is outdated, or in the case of the Bureau of Land Management, solely on the basis that the plan does not incorporate information available subsequent to the completion of the existing plan: *Provided further*, That any and all particular activities to be carried out under existing plans may nevertheless be challenged.

[Sec. 315. The final rule published in the Federal Register on September 16, 1987, by the Health Resources and Services Administration of the Public Health Service of the Department of Health and Human Services, relating to eligibility for the health care services of the Indian Health Service, shall not take effect before September 16, 1988, and no action may be taken before such day to implement or administer such rule or to prescribe any other rule or regulation that has a similar effect. The grace period provided in section 36.33 of such published rule shall not terminate before March 16, 1989, and any other rule or regulation that has a similar effect shall provide for such a grace period which shall not expire before March 16, 1989.

Sec. [316] 311. (a) Except as provided in subsection (b), the Secretary of Agriculture shall not transfer certain National Forest System land in the Black Hills National Forest, South Dakota, described as follows:

TRACT 0043 (Hine)—

Beginning at the north quarter corner section 16, township 1, north, range east; Black Hills Meridian;

thence westerly along the north line of the northwest quarter, section 16, to the east east west  $\frac{1}{2}$ <sub>56</sub> corner;

thence southerly along the east line of the east half east half northeast quarter northwest quarter 393.00 feet;

thence due west to a point that is due south of the intersection of the north line of the northwest quarter, section 16, and line 20-21 of the Big Bend Placer (MS 1442);

thence north to the intersection of the north line of the northwest quarter, section 16, and line 20-21 of the Big Bend Placer; thence northeasterly along line 20-21 to corner 20;

thence northwesterly along line 19-20 to a point due north of the intersection of north line of the northwest quarter, section 16, and line 20-21, MS 1442;

thence north to a point which is due west of a point that is 850.00 feet northerly along the west line of the southeast quarter, section 9;

thence east to the west line of the southeast quarter;

thence southerly along the west line of the southeast quarter 850.00 feet to the north quarter corner section 16, point of beginning.

(b) The Secretary may transfer such portion of the Hine Tract described in subsection (a) necessary to remove the encroachment of the Hine cabin which is located on the boundary of the Hine Tract.

[Sec. 317. Notwithstanding any other provision of law, the Secretary of Energy is directed to notify the Appropriations Committees of the House and the Senate, the Energy and Natural Resources Committee of the Senate and the appropriate authorizing committees of the House of the Secretary's intent to enter into a binding contract for the sale of the Great Plains Coal Gasification Plant in Beulah, North Dakota: *Provided*, That such notification shall be received by the above-referenced committees at least thirty (30) calendar days before the agreement is effective: *Provided further*, That such notification shall include a detailed description as to the terms and conditions of the sale, including, but not limited to, the purchase price, the name of the prospective purchaser, the basis for agreeing to the sale, and a statement of commitment signed by an authorized individual of the purchaser for continued long-term operation of the facility at a rate and for a period determined appropriate and reasonable by the Secretary.]

[Sec. 318. Notwithstanding any other provision of law, for the purposes of section 208 of title 18, United States Code, "particular matter", as applied to employees of the Department of the Interior and the Indian Health Service, shall mean "particular matter involving specific parties".]

Sec. [319] 312. (a) From funds appropriated under this Act such sums as are necessary shall be made available to pay forest or wild-land firefighters premium pay under the provision of subchapter V of chapter 55 of title 5, United States Code (notwithstanding the limitations of section 5547 of such title), for all premium pay [—]

[(1)] that would have been paid to such forest or wildland firefighter employees, but for the provisions of section 5547 of such title, for all pay periods (and parts thereof) occurring during the [period beginning on January 1, 1987, through September 30, 1987; and

(2) earned by such forest firefighter employees in the fiscal year ending on September 30, 1988] *fiscal year ending September 30, 1989.*

(b) Notwithstanding the provisions of subsection (a), no forest or wildland firefighter employee may be paid premium pay to the extent that the aggregate rate of pay of such employee for the aggre-

gate of all pay periods in any calendar year exceeds the maximum rate for GS-15 as provided under the General Schedule pursuant to subchapter III of chapter 53 of title 5, United States Code.

(c) For purposes of this section, the term "forest firefighter" means any employee of the Department of Agriculture or the Department of the Interior who is assigned to, or in support of, work on forest wildfire emergencies.

*SEC. 313. Section 320 of Public Law 98-473 (98 Stat. 1874), is amended by deleting the colon and all that follows the words "quarters of that agency" and inserting a period (.) in place of the colon. (Department of the Interior and Related Agencies Appropriations Act, 1988.)*

The United States Parole Commission makes decisions to grant or deny parole to Federal prisoners serving sentences of one year and a day or more, sets conditions of parole, supervises parolees and mandatory releasees, recommits parolees in the event of violations of the conditions of supervision, and determines the termination of supervision in accordance with the Parole Commission and Reorganization Act of 1976.

In 1989, this program will meet the statutory limitations by granting or denying parole within the legal time requirements to all Federal prisoners who are eligible for parole consideration. In addition to this basic function, the Commission will seek to improve the rehabilitation process by monitoring an effective parole supervision program through the U.S. probation officers. Finally, the Commission conducts ongoing research programs and administers its responsibilities under the labor and pension laws.

The Antitrust Division administers and enforces the antitrust and related statutes. This program primarily involves the investigation of suspected violations of the antitrust laws, the conduct of civil and criminal proceedings in the Federal courts, and the maintenance of competitive conditions.

The administration has proposed legislation to terminate the Interstate Commerce Commission and to complete deregulation of the Motor Carrier, Freight, Forwarder, and Water Carrier industries. Remaining rail-related activities would be transferred to the Department of Justice and Transportation. The Justice Department will assume responsibility for reviewing applications for rail-related mergers, consolidations, and acquisitions.

The Government is represented in each of the 94 judicial districts by a U.S. attorney. The U.S. Attorneys are responsible for the prosecution of criminal offenses against the United States, the representation of the Government in civil actions in which the United States is concerned, and the initiation of proceedings for the collection of fines, penalties, and forfeitures owed to the United States. The 1989 estimates provide for growing criminal prosecutions, including drug law prosecutions; defense of an increasing number of monetary claims against the Government; and recovery of money owed to the United States through litigation and debt collection activity.

The Federal Government is represented in each of the 94 judicial districts by a U.S. Marshal. The primary mission of the U.S. Marshals Service is responsibility for the protection of the Federal judiciary, protection of witnesses, execution of warrants and court orders, and custody and transportation of unsentenced prisoners. It is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community.

**Reimbursable program.**—Federal funds in 1989 are derived primarily from the U.S. Air Force for Intercontinental Ballistic Missile transportation security services provided by the U.S. Marshals Service, as well as the Bureau of Prisons for the transportation of sentenced prisoners, and the Department of State for security details at the United Nations. Non-Federal funds are derived from State and local governments for witness protection and for the transportation of prisoners pursuant to State writs and from fees collected from service of civil process and sales associated with judicial orders.

*Care of U.S. prisoners in non-Federal institutions.*—Under this program, the U.S. Marshals Service contracts with State and local jails to board Federal prisoners and detainees for short periods of time. These periods of detention occur before and during a trial and while awaiting transfer to Federal institutions after conviction. Approximately 96,000 prisoners will be boarded in approximately 830 jails at an average cost of \$44.55 per offender day in 1989.

*Cooperative agreement program.*—Agreements are negotiated with State and local governments for renovating, constructing, and equipping facilities that detain Federal prisoners.

Fees and expenses are paid to witnesses who appear on behalf of the Government in cases in which the United States is a party. Costs incurred are affected by factors over which the Department of Justice exercises little control. The U.S. attorneys and the Department's six legal divisions are served by this appropriation.

*Fees and Expenses of Witnesses.*—Provides for payment of fees and expenses associated with the preparation and presentation of testimony on behalf of the United States. Specifically, there are two types of witnesses that are compensated under this program. Fact witnesses, who testify as to events or facts about which they have personal knowledge and expert witnesses, who provide technical or scientific testimony. Also, this

program pays the fees of physicians and psychiatrists who examine accused persons upon order of the court to determine their mental competency.

**Protection of Witnesses.**—Provides for payment of subsistence costs for protected witnesses and their families. The purpose of this program is to assure the safety of Government witnesses whose testimony on behalf of the United States places them or their families in jeopardy.

**Victim compensation fund.**—This fund pays restitution to any victim of a crime committed by a protected witness who causes or threatens death or serious bodily injury.

**Reimbursable program.**—Non-Federal funds are received through reimbursement from States and localities to cover the costs of maintaining those State and local organized crime witnesses and their families who have been accepted into the witness protection program.

**Prevention and conciliation of community disputes.**—The Community Relations Service (CRS) provides assistance to communities in resolving disputes, disagreements, and difficulties arising from discriminatory practices based on race, color, or national origin which impair the rights of citizens or which disrupt or threaten to disrupt peaceful relations among citizens.

The 1989 request will provide CRS with resources to continue to focus on racial disputes in the areas of law enforcement, immigration, corrections, education, employment, housing, community development, and Indian rights, among others. CRS also anticipates continuing response to conflicts involving Indo-Chinese refugees as well as the Ku Klux Klan. CRS will continue to monitor and will help communities to forestall threats of urban civil disorder.

**Reception, processing and care of Cubans and Haitians.**—This activity provides for the reception, processing, resettlement, health and mental care, and other services of Cuban and Haitian entrants who entered the United States in 1980 and each year thereafter and who subsequently have been detained by the Immigration and Naturalization Service for their undocumented or unauthorized entry into the United States.

**United States trustee system fund.**—The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (Public Law 99-554), expanded the current pilot program to a twenty-one region nationwide program encompassing ninety-four judicial districts by October 1992. The United States trustee program supervises the administration of bankruptcy cases in the Federal Bankruptcy Courts. In 1987 and 1988, the estimates reflect phased expansion of the program's jurisdiction to most Federal judicial districts. Expansion to eighty-eight judicial districts will be completed in 1989. Appropriated funds were provided for 1987 and 1988. In addition, \$18 million of the 1988 total funding was drawn from receipts from bankruptcy cases. In 1989, all amounts will be derived from receipts to the fund.

NOTES

For comparison purposes, the workload figures reflect Bankruptcy Cases in all 94 Federal judicial districts. During the transition years of 1987 and 1988, only part of this workload was supervised by the U.S. Trustee program. The 1987 cases pending and cases closed are estimated by the Administrative Office of U.S. Courts.

The overall objectives of the Federal Bureau of Investigation (FBI) are to uphold the law—to investigate violations of Federal criminal law, to protect the United States from hostile intelligence efforts, to provide assistance to other Federal, state and local law enforcement agencies and to perform these responsibilities in a manner that is faithful to the Constitution and the laws of the United States.

These objectives result in the FBI's being actively involved in a wide range of investigations, including traditional law enforcement investigations (bank robbery, kidnaping, fugitive, bank embezzlement, etc.), investigations involving more modern phenomena (organized crime, white-collar crime, drug investigations, civil rights violations, antitrust violations, etc.), and investigations of hostile intelligence activities within the United States. The Drug Enforcement Administration (DEA) reports to the Director of the FBI and the FBI has concurrent jurisdiction with DEA over Federal drug violations.

The activities of the FBI are divided into the following general categories:

**Criminal, security, and other investigations.**—This activity includes all field investigations of the Federal Bureau of Investigation. These investigations are conducted by FBI Special Agents in 59 field offices and more than 390 resident agencies located throughout the United States and Puerto Rico. National priority investigations include white-collar crime, drugs, organized

crime, terrorism and foreign counterintelligence. Other investigative areas are civil rights, fugitive, general government crimes, personal crimes, civil and general property crimes, applicant, and other investigations. An increase of \$68 million is planned for the FBI's Investigative Programs in 1989.

The FBI is reimbursed by other Federal agencies for certain investigative activities such as preemployment background inquiries and name checks. In 1988 and 1989, the FBI will perform certain duties on a reimbursable basis for the Department of Defense in connection with the verification provisions of the Intermediate-Range Nuclear Forces Treaty.

This activity also includes resources devoted to national program supervision, coordination, and management of FBI investigations.

**Investigative support.**—Investigative support consists of training, forensic laboratories, attachés in foreign countries, investigative records and communications, ADP and telecommunications, and technical field support and equipment. Requested enhancements totaling \$24 million will augment capital investment funding within the ADP and telecommunications and technical field support and equipment programs.

**State and local assistance.**—The FBI supports State and local law enforcement by providing training, laboratory, identification, and informational services. Emphasis is being placed on the training of State and local police instructors to enable their agencies to become more self-sufficient and, thereby, allow the FBI to concentrate its resources on high priority initiatives. Training is conducted at various locations within the United States but most courses are conducted at the FBI National Academy in Quantico, VA.

The FBI's National Crime Information Center (NCIC) and Uniform Crime Reporting (UCR) program provide criminal justice information to Federal, state and local law enforcement agencies without charge. The NCIC system contains over 18 million records relating to wanted and missing persons, stolen property, and criminal histories. The UCR program collects data from over 16,000 law enforcement agencies and provides this information to criminal justice agencies and researchers, the academic community, and others.

The FBI's Identification Division is the national repository for fingerprint identification data. In 1989, approximately 6.5 million fingerprint cards will be processed. Processing of noncriminal fingerprint checks for State and local agencies and banking institutions is on a reimbursable basis. Increases totaling \$6 million will be used to advance automation initiatives within the Fingerprint Identification program.

Some workload measures include press releases, assistance to media, dissemination of FBI publications, title III applications, undercover operations proposals, civil actions, field office audits and position classification matters. An increase of \$0.3 million will enhance legal review and auditing activities in this area.

The mission of the Drug Enforcement Administration (DEA) is to control abuse of narcotics and dangerous drugs by restricting the aggregate supply of those drugs. At the Federal level, DEA is the lead drug law enforcement agency. DEA accomplishes its objectives through coordination with State, local, and other Federal officials in drug enforcement activities, development and maintenance of drug intelligence systems, regulation of legitimate controlled substances activities, and enforcement coordination and intelligence-gathering activities with foreign government agencies.

Cooperation among Federal law enforcement agencies is extensive, especially within the 13 organized crime drug enforcement (OCDE) task forces. DEA's involvement is integral to this nationwide coordinated enforcement strategy. With the OCDE program and the expansion of DEA/FBI cooperative efforts, overall drug enforcement capabilities have been significantly strengthened in recent years.

The activities of the the DEA are divided into the following general categories:

**ENFORCEMENT**

**Domestic enforcement.**—This activity encompasses efforts to eliminate or immobilize major drug trafficking organizations and thereby reduce the domestic supply of illicit drugs. In 1989, additional resources are targeted at investigative efforts to maximize arrests and the seizure of traffickers' assets. The measures below reflect the level of activity performed by this program.

DEA/OCDE arrests.....	2,718	2,718	2,718
Assets seized (\$ millions).....	500	560	600

**Foreign cooperative investigations.**—This activity encompasses efforts to (1) reduce, at the source, production of opium, heroin, cocaine, marijuana, and illicitly produced and diverted legitimate dangerous drugs destined for the United States, and (2) collect and disseminate intelligence. The measures below reflect the level of activity performed by this program.

**Diversion control.**—By authority of the Controlled Substances Act (CSA) of 1970 and the Comprehensive Crime Control Act (CCCA) of 1984, this activity addresses the problem of the diversion of controlled substances from the legitimate channels in which they are manufactured, distributed, and dispensed. The measures below reflect the level of activity performed by this program.

INVESTIGATIVE SUPPORT

**Intelligence.**—This activity encompasses the collection, analysis, and dissemination of drug intelligence in support of the enforcement operations of DEA and other Federal, State and local agencies. In 1989, additional resources are requested for expanding the El Paso Intelligence Center, and for additional financial intelligence support to improve DEA's capability to seize trafficker assets. 	1987 actual	1988 est.	1989 est.
Laboratory exhibits analyzed.....	30,869	36,300	39,000

**DEA Training.**—This activity encompasses entry level training for all special agents, diversion investigators, and intelligence analysts; advanced, in service and specialized training for investigative and other personnel; executive, mid-level management, and supervisory training for appropriate agency officials, and foreign language training for all DEA personnel assigned to overseas and border offices as needed. The measure below reflects the level of activity performed by this program.

	1987 actual	1988 est.	1989 est.
Students trained.....	8,300	8,000	8,000

**Research, engineering, and technical operations.**—This activity encompasses providing high quality and timely radio communications capability, technical and investigative equipment assistance support, maintenance and operation of an aircraft fleet, acquisition of a quality motor vehicle fleet, and research programs directly related to the DEA law enforcement and intelligence functions.

**ADP and telecommunications.**—This activity encompasses provision of automated data processing and telecommunication support on a nationwide and worldwide basis. The 1989 request will provide training and equipment necessary for the office automation system, additional staff required to support the requirements of a growing user community, and a data base management system for DEA's air program.

**Records management.**—This activity encompasses effective and efficient records management, Freedom of Information/Privacy Act, and library support.

STATE AND LOCAL ASSISTANCE

**State and local training and laboratory services.**—This activity encompasses training for State and laboratory services, local, military, and other Federal professionals and laboratory analysis of drug evidence. Agency-wide resources are also targeted for prevention of drug abuse.

Work load measures are provided below:

	1987 actual	1988 est.	1989 est.

The Immigration and Naturalization Service is responsible for administering laws relating to the admission, exclusion, deportation, and naturalization of aliens. Specifically, the Service inspects aliens to determine their admissibility into the United States; adjudicates requests of aliens for benefits under the law; prevents illegal entry into the United States; investigates, apprehends, and removes aliens in this country in violation of the law; and examines alien applicants wishing to become citizens.

**Enforcement.**—This activity contains most of the resources needed for preventing illegal entry into the United States and facilitating the entry of qualified persons. This includes inspection of applicants for ad-

mission, patrol of the border, and the location of illegal aliens who are in the United States following illegal entry or violation of status after legal entry. Apprehensions are made through the inspection of farms and ranches, by the investigation of information about the location of undocumented aliens, and through investigative case work. Also included are the resources for the Service's nationwide anti-smuggling program and for the detention and deportation of illegal aliens. An increase of \$9 million and 65 FTE is provided to activate two new detention centers. An increase of \$38 million and 1,073 FTE is provided to annualize the 4,316 positions provided in 1987 to carry out the Service's expanded responsibilities under the Immigration Reform and Control Act of 1986.

Most reimbursements received by the Service are for retrofitting conveyances for drug law enforcement purposes and for managing and operating the vehicle seizure program. These resources are from the Department of Justice Asset Forfeiture Fund.

This appropriation will provide for the custody and care of an average of 50,378 offenders and for the maintenance and operation of 58 penal institutions, 5 regional offices, and a central office located in Washington, D.C.

The appropriation also finances the boarding of sentenced Federal prisoners in State and local jails and therapeutic, community residential and other facilities for short periods of time. An average of 6,500 sentenced prisoners will be in contract facilities in 1989.

The Bureau receives reimbursements for daily care and maintenance of State and local offenders, for utilities produced by Federal Prison Industries, Inc., and for meals provided to Bureau staff at institutions.

*Inmate care, custody, and programs.*—This activity covers the cost of all food, medical supplies, clothing, welfare services, release clothing, transportation, gratuities, staff salaries (including salaries of Health Resources and Services Administration commissioned officers), and operational costs of functions directly related to providing inmate care. This activity also finances the costs of institution security, academic, social and occupational education courses, religious programs, and psychological services.

*Institution administration and maintenance.*—This activity covers all costs associated with the general operation and maintenance of facilities. Included are functions of the warden's office, personnel, financial management, safety, staff training, mechanical services, motor pool operations, powerhouse operations, and other administrative functions.

*Contract confinement.*—This activity provides for the confinement of sentenced Federal offenders in contract State and local facilities and for the care of Federal prisoners in contract community residential centers.

*Program direction.*—This activity covers the costs of regional and central office executive direction and management support functions such as research and evaluation, systems support, financial management, personnel, and legal counsel.

In 1989, resources are requested to provide for a projected increase in the inmate population, activate five

surplus facilities for prison use, activate four new facilities and new housing at existing institutions, expand both contract confinement programs, continue ADP improvements and support costs, and expand staffing at existing institutions.

The National Institute of Corrections (NIC) was established by the Juvenile Justice and Delinquency Prevention Act of 1974 to provide leadership in improving correctional programs and practices, especially in State and local organizations. The NIC awards contracts and grants to provide technical assistance to requesting correctional organizations; to maintain an information service to provide information on the latest developments, research results, et cetera, in the field of corrections; to provide training to the correctional community to improve systems and skills; and to conduct limited research and evaluation of correctional activities.

The NIC Jail Center will continue to improve the knowledge and skills of sheriffs and jail administrators, enabling them to upgrade services and practices within their jail operations.

The National Academy of Corrections will offer training to local correctional personnel working in prisons, community corrections, and jails. In 1989, the Academy will train approximately 3,000 students in the areas of management theory, current issues affecting jails, institutions, probation and parole, standards implementation, inmate services and programs, and the use of volunteers and community resources.

The dissemination of relevant correctional policies, programs, practices and resource documents will continue through the clearinghouse activity of NIC.

**New construction.**—This activity represents costs associated with the acquisition and construction of facilities in order to reduce overcrowding and provide a safe and humane environment for staff and inmates. In 1989, resources are requested to construct one maximum security prison, three medium security prisons, and two Federal detention centers. In addition, authority is requested to undertake a leasing program for three medium security federal prisons. These prisons, which would be constructed with private resources, would be leased on an annual basis and would be staffed and managed by the Bureau of Prisons. Resources are also requested to acquire and convert a private property for use as a prison camp. Finally, \$48.2 million is requested to increase capacity at existing institutions.

**Modernization and repair of existing facilities.**—This activity includes rehabilitation and renovation of buildings, necessary modifications to accommodate new correctional programs, rehabilitation or replacement of utilities systems, and repair projects at existing facilities. In 1989, \$31.7 million is requested to modernize antiquated penitentiaries; \$11.6 million is requested for environmental improvements; and \$8.6 million is requested to renovate existing facilities.

Federal Prison Industries, Inc., was created by Congress in 1934 and is a wholly-owned Government corpo-

ration. Its mission is to employ and train Federal inmates through a diversified program providing products and services to other Federal agencies. These operations are conducted in such a manner as to offer a minimum of competition to private industry and labor. Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

The Corporation has been expanding its operations to provide additional industrial employment opportunities at existing and planned institutions.

**Budget program.**—Federal Prison Industries, Inc., is entirely self-sustaining. No appropriations are required. The amounts used by the Corporation for the administrative expenses and vocational training expenses are subject to a congressional limitation. Information regarding this limitation is provided separately following this account.

**Financing program.**—Revenues are derived entirely from the sale of products and services to other Federal agencies. Operating expenses are applied against these revenues, resulting in operating income or loss. Earnings surplus to the needs of the manufacturing operations, capital improvements and cash reserves are used to pay vocational training expenses, meritorious service awards, and accident compensation.

**Operating results.**—To date, Federal Prison Industries, Inc., has returned to the Treasury a total of \$82 million of retained income excess to the Corporation's needs. No contributions from budget authority have been made to offset deficits for non-revenue producing outlays since the inception of the fund.

The Office of Justice Programs provides staff support and coordinates the activities of the Office of Juvenile Justice and Delinquency Prevention, the National Institute of Justice, the Bureau of Justice Statistics, the Office for Victims of Crime, and the Bureau of Justice Assistance, which administers the State and local assistance program, the Anti-Drug Abuse Act, the Public Safety Officers' Benefits program, and the Regional Information Sharing System.

**Research, evaluation, and demonstration programs.**—Funds provide for and encourage the development of basic and applied research for the improvement of Federal, State, and local criminal, civil, and juvenile justice systems; new methods for the prevention and reduction of crime and the detection, apprehension, and rehabilitation of criminals; and the dissemination of the results of such research efforts.

**Criminal justice statistical programs.**—Funds provide for the collection and analysis of statistical information concerning crime, victims, offenders, criminal justice processes, juvenile delinquency, and civil disputes in support of public and private policy and decisionmaking about society's response to crime; planning, coordination, implementation and provision of technical assistance to States to initiate innovative applications of communications and information systems technology for State and local criminal justice systems; and assurance of conformance with privacy and security regulations. An increase of \$650,000 is requested for 1989 to support a jail survey and jail inmate census.

**State and local assistance.**—This program is broken into two parts: a block grant program which receives 80 percent of the funds and a discretionary grant program which receives the remaining 20 percent. In 1988 funds were appropriated for a discretionary grant program only. No new budget authority is requested for 1989.

**Emergency assistance.**—Funds are used to provide emergency assistance to a State or locality after the Attorney General has determined that a law enforcement emergency exists. A law enforcement emergency is a situation where the capacity of local resources has been exceeded.

**Juvenile justice programs.**—Funds under this activity assist States and localities in the development of more effective education, training, research, prevention, treatment, and rehabilitation programs in the area of juvenile delinquency. No new budget authority will be

requested for 1989 since the major thrusts of the grant program—deinstitutionalization of status offenders and the separation of juvenile and adult offenders—have been achieved to the extent practicable.

**Missing children.**—Funds for this program will be used to reduce the incidence of crimes against children, particularly kidnaping and sexual exploitation, by assisting families, citizen groups, law enforcement agencies and government institutions in a national effort to insure the safety and protection of children.

**Public safety officers' benefits program.**—Funds are used to pay \$50,000 in death benefits to eligible survivors of public safety officers who die in the line of duty.

**Marinel Cubans.**—This is a reimbursement to certain States for part of the cost of incarcerating Marinel Cubans who had originally been paroled by the Federal Government. No new budget authority is requested for 1989.

**Crime control programs.**—This activity provides for expenditures from past Law Enforcement Assistance Administration programs which were not continued under the Justice System Improvement Act of 1979 nor the Justice Assistance Act of 1984.

**Regional information sharing system.**—This is a program to aid State and local law enforcement agencies in the exchange of intelligence information. No new budget authority is requested for 1989.

**Anti-drug abuse program.**—Funds for this program were appropriated in 1987 and 1988 to assist State and local governments in the war against drugs. No funds are requested for 1989.

**Management and administration.**—Funds provide for executive direction and control, program operation, and administrative support of the above activities.

Under the Victims of Crime Act of 1984 (Public Law 98-473) as amended by the Children's Justice Act (Public Law 99-401) a special fund was established in the Treasury entitled "The Crime Victims Fund." This fund will be credited with criminal fines that are collected from persons convicted of offenses against the United States. Annual grants will be made to eligible crime victims compensation and assistance programs.

Amounts collected in the previous year are available for obligation in the subsequent year, subject to the limitations included in appropriation language.

GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

SEC. 201. A total of not to exceed \$75,000 from funds appropriated to the Department of Justice in this title shall be available for official reception and representation expenses in accordance with distributions, procedures, and regulations established by the Attorney General.

SEC. 202. Notwithstanding any other provision of law, materials produced by convict labor may be used in the construction of any highways or portion of highways located on Federal-aid systems, as described in section 103 of title 23, United States Code.

SEC. 203. Appropriations for "Salaries and expenses, General Administration", "Salaries and expenses, United States Marshals Service", "Salaries and expenses, Federal Bureau of Investigation", "Salaries and expenses, Drug Enforcement Administration", "Salaries and expenses, Immigration and Naturalization Service", and "Salaries and expenses, Federal Prison System", shall be available for uniforms and allowances therefore as authorized by law (5 U.S.C. 5901-5902).

SEC. 204. (a) Subject to subsection (b) of this section, authorities contained in Public Law 96-132, "The Department of Justice Appropriation Authorization Act, Fiscal Year 1980", shall remain in effect until the termination date of this Act or until the effective date of a Department of Justice Appropriation Authorization Act, whichever is earlier.

(b)(1) With respect to any undercover investigative operation of the Federal Bureau of Investigation or the Drug Enforcement Administration which is necessary for the detection and prosecution of

crimes against the United States or for the collection of foreign intelligence or counter-intelligence—

(A) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1988, may be used for purchasing property, buildings, and other facilities, and for leasing space, within the United States, the District of Columbia, and the territories and possessions of the United States, without regard to section 1341 of title 31 of the United States Code, section 3732(a) of the Revised Statutes (41 U.S.C. 11(a)), section 305 of the Act of June 30, 1949 (63 Stat. 396; 41 U.S.C. 255), the third undesignated paragraph under the heading "Miscellaneous" of the Act of March 3, 1877 (19 Stat. 370; 40 U.S.C. 34), section 3324 of title 31 of the United States Code, section 3741 of the Revised Statutes (41 U.S.C. 22), and subsection (a) and (c) of section 304 of the Federal Property and Administrative Service Act of 1949 (63 Stat. 395; 41 U.S.C. 254 (a) and (c)),

(B) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1988, may be used to establish or to acquire proprietary corporations or business entities as part of an undercover investigative operation, and to operate such corporations or business entities on a commercial basis, without regard to section 9102 of title 31 of the United States Code,

(C) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1988, and the proceeds from such undercover operation, may be deposited in banks or other financial institutions, without regard to section 648 of title 18 of the United States Code and section 3302 of title 31 of the United States Code, and

(D) proceeds from such undercover operation may be used to offset necessary and reasonable expenses incurred in such operation, without regard to section 3302 of title 31 of the United States Code,

only, in operations designed to detect and prosecute crimes against the United States, upon the written certification of the Director of the Federal Bureau of Investigation (or, if designated by the Director, a member of the Undercover Operations Review Committee established by the Attorney General in the Attorney General's Guidelines on Federal Bureau of Investigation Undercover Operations, as in effect on July 1, 1983) or the Administrator of the Drug Enforcement Administration, as the case may be, and the Attorney General (or, with respect to Federal Bureau of Investigation undercover operations, if designated by the Attorney General, a member of such Review Committee), that any action authorized by subparagraph (A), (B), (C), or (D) is necessary for the conduct of such undercover operation. If the undercover operation is designed to collect foreign intelligence or counterintelligence, the certification that any action authorized by subparagraph (A), (B), (C), or (D) is necessary for the conduct of such undercover operation shall be by the Director of the Federal Bureau of Investigation (or, if designated by the Director, the Assistant Director, Intelligence Division) and the Attorney General (or, if designated by the Attorney General, the Counsel for Intelligence Policy). Such certification shall continue in effect for the duration of such undercover operation, without regard to fiscal years.

(2) As soon as the proceeds from an undercover investigative operation with respect to which an action is authorized and carried out under subparagraphs (C) and (D) of subsection (a) are no longer necessary for the conduct of such operation, such proceeds or the balance of such proceeds remaining at the time shall be deposited in the Treasury of the United States as miscellaneous receipts.

(3) If a corporation or business entity established or acquired as part of an undercover operation under subparagraph (B) of paragraph (1) with a net value of over \$50,000 is to be liquidated, sold, or otherwise disposed of, the Federal Bureau of Investigation or the Drug Enforcement Administration, as much in advance as the Director or the Administrator, or the designee of the Director or the Administrator, determines is practicable, shall report the circumstances to the Attorney General and the Comptroller General. The proceeds of the liquidation, sale, or other disposition, after obligations are met, shall be deposited in the Treasury of the United States as miscellaneous receipts.

(4)(A) The Federal Bureau of Investigation or the Drug Enforcement Administration, as the case may be, shall conduct a detailed financial audit of each undercover investigative operation which is closed in fiscal year 1988—

(i) submit the results of such audit in writing to the Attorney General, and

(ii) not later than 180 days after such undercover operation is closed, submit a report to the Congress concerning such audit.

(B) The Federal Bureau of Investigation and the Drug Enforcement Administration shall each also submit a report annually to the Congress specifying as to their respective undercover investigative operations—

(i) the number, by programs, of undercover investigative operations pending as of the end of the one-year period for which such report is submitted,

(ii) the number, by programs, of undercover investigative operations commenced in the one-year period preceding the period for which such report is submitted, and

(iii) the number, by programs, of undercover investigative operations closed in the one-year period preceding the period for which such report is submitted and, with respect to each such closed undercover operation, the results obtained. With respect to each such closed undercover operation which involves any of the sensitive circumstances specified in the Attorney General's Guidelines on Federal Bureau of Investigation Undercover Operations, such report shall contain a detailed description of the operation and related matters, including information pertaining to—

(I) the results,

(II) any civil claims, and

(III) identification of such sensitive circumstances involved, that arose at any time during the course of such undercover operation.

(5) For purposes of paragraph (4)—

(A) the term "closed" refers to the earliest point in time at which—

(i) all criminal proceedings (other than appeals) are conducted, or

(ii) covert activities are concluded, whichever, occurs later,

(B) the term "employees" means employees, as defined in section 2105 of title 5 of the United States Code, of the Federal Bureau of Investigation, and

(C) the terms "undercover investigative operations" and "undercover operation" means any undercover investigative operation of the Federal Bureau of Investigation or the Drug Enforcement Administration (other than a foreign counterintelligence undercover investigative operation)—

(i) in which—

(I) the gross receipts (excluding interest earned) exceed \$50,000, or

(II) expenditures (other than expenditures for salaries of employees) exceed \$150,000, and

(ii) which is exempt from section 3302 or 9102 of title 31 of the United States Code,

except that clauses (i) and (ii) shall not apply with respect to the report required under subparagraph (B) of such paragraph.】

【SEC. 205. None of the funds appropriated or made available by this Act shall be used prior to October 1, 1988, to issue or implement any final rule in the rulemaking proceeding commenced August 8, 1986 (51 Fed. Reg. 28576-28589).】

【SEC. 206. None of the funds appropriated by this title shall be available to pay for an abortion, except where the life of the mother would be endangered if the fetus were carried to term or in the case of rape: *Provided*, That should this prohibition be declared unconstitutional by a court of competent jurisdiction, this section shall be null and void.】

【SEC. 207. None of the funds appropriated under this title shall be used to require any person to perform, or facilitate in any way the performance of, any abortion.】

【SEC. 208. Nothing in the preceding section shall remove the obligation of the director of the Bureau of Prisons to provide escort services necessary for a female inmate to receive such service outside the Federal facility: *Provided*, That nothing in this section in any way diminishes the effect of section 207 intended to address the philosophical beliefs of individual employees of the Bureau of Prisons.】

【SEC. 209. Notwithstanding subsections (c) and (d) of section 223 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5633), the Administrator of the Office of Juvenile Justice and Delinquency Prevention may not—

(1) terminate any State's eligibility for funding under subpart I of part B of title II of such Act, or

(2) determine that the State's plan fails to meet the requirements of such section,

for fiscal year 1988 because of the failure of such State to comply with the requirements of section 223(a)(14) of such Act before such fiscal year.】

【SEC. 210. (a) Section 524(c)(1) of title 28 of the United States Code is amended by deleting “and” at the end of subparagraph (F), by striking out the period at the end of (G) and inserting in lieu thereof “; and” and, by inserting the following new subparagraph:

“(H) after all reimbursements and program-related expenses have been met at the end of each fiscal year, the Attorney General may transfer deposits from the Assets Forfeiture Fund to the Building and Facilities account of the Federal prison system for the construction of correctional institutions.”.

(b) Amounts proposed for transfer pursuant to subsection (a) shall be transferred only upon notification by the Attorney General to the Committees on Appropriations of the House of Representatives and the Senate and approval under said Committees’ policies concerning the reprogramming of funds.】

【SEC. 211. Section 210(d) of the Immigration and Nationality Act is amended by inserting the following new paragraph:

“(3) No application fees collected by the Immigration and Naturalization Service (INS) pursuant to section 210(d) of the Immigration and Nationality Act (INA) may be used by the INS to offset the costs of the special agricultural worker legalization program until the INS

implements the program consistent with the statutory mandate as follows:

“(A) During the application period as defined in section 210(a)(1)(A) of the INA the INS may grant temporary admission to the United States, work authorization, and provide an “employment authorized” endorsement or other appropriate work permit to any alien who presents a preliminary application for adjustment of status under subsection (a) at a designated port of entry on the southern land border. An alien who does not enter through a port of entry is subject to deportation and removal as otherwise provided in the INA.

“(B) During the application period as defined in section 210(a)(B)(1)(B) of the INA any alien who has filed an application for adjustment of status within the United States as provided in Section 210(b)(1)(A) pursuant to the provision of 8 CFR section 210.1(j) is subject to paragraph (2) of this subsection.

“(C) A preliminary application is defined as a fully completed and signed application with fee and photographs which contains specific information concerning the performance of qualifying employment in the United States and the documentary evidence which the applicant intends to submit as proof of such employment. The applicant must be otherwise admissible to the United States and must establish to the satisfaction of the examining officer during an interview that his or her claim to eligibility for special agriculture worker status is credible.”.】

Note.—The unobligated balance lapsing in 1988 represents the amount unavailable for obligation pursuant to section 512 of the Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1988.

This account provides for a flexible and decentralized system of Federal and local programs of training and other services for economically disadvantaged persons designed to lead to permanent gains in employment. Such programs are currently authorized by the Job Training Partnership Act (JTPA). The account is forward funded on a July to June cycle.

**Grants to States.**—Includes block grants to provide financial assistance to States and territories to design and operate training programs to meet their training and employment needs, grants to operate a summer

youth employment and training program, and a dislocated worker assistance program. Seventy percent of the JTPA block grant funding will be used for training, including remedial education and basic skills, institutional training, and on-the-job training. A legislative proposal will be submitted to amend the summer youth program to authorize service delivery areas to provide, at their discretion, year-round remedial education and basic literacy and skills training to economically disadvantaged youth. In addition, legislation is proposed to replace the current JTPA and Trade Act dislocated worker programs with a new worker readjustment program to meet the training needs of all dislocated workers. The budget also includes a legislative proposal that will allow 1988 dislocated worker amounts (Title III of JTPA) to be available, immediately upon enactment of any new worker readjustment program, for transition activities as well as the normal program of assistance. A new worker readjustment account reflects proposed activity for 1989.

**Federally administered programs.**—Provides program support for Job Training Partnership Act activities and training assistance through nationally administered programs for special segments of the population that have particular disadvantages in the labor market. Among groups to be served are Indians and other native Americans, migrant and seasonal farmworkers, and veterans. Also included is the Job Corps which is a national network of residential centers designed to provide training in literacy, arithmetic, and vocational skills for youth aged 14-21 who have severe educational and economic disadvantages. The current Job Corps slot level of 40,544 will be maintained by the request.

Note.—State integrity and contingency obligations for 1987 are included in State operations.

**Unemployment compensation.**—State operations amounts provide administrative grants to State agencies which pay unemployment compensation to eligible workers and collect State unemployment taxes from employers. These agencies also pay unemployment benefits to former Federal personnel as well as trade adjustment assistance to eligible individuals. Grants are also provided to upgrade State automated systems for benefit payments and collection of taxes. State integrity activities provide administrative grants to State agencies to improve the integrity and financial stability of the unemployment compensation program through a quality control program and related activities designed to assess and reduce errors and prevent fraud, waste, and abuse in the payment of unemployment compensation benefits and the collection of unemployment taxes. National activities relating to the Federal-State unemployment insurance programs are conducted through contracts or agreements with the State agencies. Contingency funds are available only to meet increases in the costs of administration resulting from changes in State law, increases in the number of claims filed and claims paid, or increased salary costs caused by changes in State compensation plans and to provide for amortization payments for States which had independent retirement plans prior to 1980 in their State employment service agencies.

Proposals will be pursued that increase the latitude for State-level decisionmaking, reduce unproductive Federal intervention, and improve the UI system's ability to respond rapidly to changing economic circumstances. Basic UI program objectives will remain unchanged—to provide short-term partial wage replacement for workers who lose their jobs and to collect employer taxes to finance the system. These proposals will not affect the 1989 budget estimates.

<sup>1</sup> 1988 and 1989 estimates include workload that can be financed from contingency funds.

**Employment service.**—The public employment service is a nationwide system providing no-fee employment services to individuals who are seeking employment and employers who are seeking workers. State employment service activities are financed by allotment to States distributed under a demographically based funding formula established under the Wagner-Peyser Act, as amended. Employment service allotments are funded on a program year basis running from July 1 through June 30 of the following year.

Employment service activities serving national needs including interstate job listings, and labor certification of aliens are conducted through specific reimbursable agreements between the States and the Federal Government under the Wagner-Peyser Act, as amended.

Legislative and administrative proposals are being considered and pilot projects planned, to strengthen the provision of employment services to more effectively meet the challenges of the labor market of today and the year 2000. There will be no effect on the 1989 budget estimates.

This account provides advances to several other accounts to pay unemployment compensation to eligible individuals under various Federal and State unemployment compensation laws whenever the balances in the funds prove insufficient. Advances made to the Federal employees compensation account in the Unemployment trust fund are nonrepayable. All other advances made to the Federal unemployment account and to the Extended unemployment compensation account (both in the Unemployment trust fund) are repaid, with interest, to the general fund of the Treasury.

This account also provides repayable advances, without interest, to the Black Lung Disability Trust Fund for making payments from that fund whenever its balances prove insufficient.

The financial transactions of the Federal-State and railroad unemployment insurance systems are made through the Unemployment Trust Fund. All State and Federal unemployment tax receipts are deposited in the trust fund and invested in Government securities until needed for benefit payments or administrative costs. States may receive repayable advances from the fund when their balances in the fund are insufficient to pay benefits. The fund may receive repayable advances from the general fund when it has insufficient balances to make advances to States or to pay the Federal share of extended benefits.

State payroll taxes pay for all regular State benefits. During periods of high State unemployment, extended benefits, financed one-half by State payroll taxes and one-half by the Federal unemployment payroll tax, are also paid. The Federal tax pays the costs of Federal and State administration of unemployment insurance and veterans employment services and 97% of the costs of the employment service.

The Federal employees compensation account provides funds to States for unemployment compensation benefits paid to eligible former Federal civilian personnel, Postal Service employees, and ex-servicemembers. Benefits paid are reimbursed to the Federal employees compensation account by the various Federal agencies. Any additional resources necessary to assure that the account can make the required payments to States will be provided from the Advances to the Unemployment Trust Fund and Other funds account.

Both the benefit payments and administrative expenses of the separate unemployment insurance program for railroad employees are paid from the unemployment trust fund and receipts from the tax on railroad payrolls are deposited in the fund to meet expenses.

<sup>1</sup> Amortization of reserve for losses.

This wholly owned government corporation administers programs of mandatory insurance to prevent loss of pension benefits under covered private, defined-benefit pension plans if single-employer plans terminate or if multiemployer plans are unable to pay benefits. Terminated plans are taken over by the Corporation. The Corporation assumes control of their assets, administers them in a trust fund held in a private bank, and takes responsibility for paying benefits. The Corporation also provides repayable assistance to insolvent multiemployer plans when necessary to pay benefits and to forestall termination and subsequent Corporation responsibility to pay benefits.

Payees in Government trusteeships receiving monthly benefits from the Corporation.....	113,477	123,477	133,477

**Financial assistance.**—If multiemployer-sponsored plans become insolvent the Corporation gives repayable loans to enable the plans to continue paying benefits. Financial assistance to an insolvent plan is made only after the plan takes a series of prescribed steps to place the plan on a sound financial basis.

**Financing.**—Sources of financing are per capita annual premiums from ongoing covered plans, assets from terminated plans, investment income, and amounts due the Corporation from the sponsors of terminating plans. Also, the Corporation is authorized to borrow up to \$100 million from the U.S. Treasury.

**Operating results.**—The following tables show the status of the Corporation's trust funds and the Corporation's operating results.

This schedule shows the effects of the Administration's credit reform proposal. It contains estimates of the subsidy for Federal direct loan obligations made by the Corporation to insolvent multiemployer pension plans that would need to be taken over by the government in the absence of the loans. The proposal requires no credit limitation for these loans but requires estimates of the subsidy arising from writeoff of uncollectable loans. No new credit activity is required to be financed through the Federal credit direct loan revolving fund.

**Enforcement of wage and hour standards.**—The Wage and Hour Division works to obtain compliance with the minimum wage, overtime, child labor, and other employment standards under the Fair Labor Standards Act, Migrant and Seasonal Agricultural Worker Protection Act, certain provisions of the Immigration Reform and Control Act, and the wage garnishment provisions in title III of the Consumer Credit Protection Act. Prevailing wages are determined and employment standards enforced under various Government contract wage standards. In 1989, approximately 418,600 persons are expected to be aided under the Fair Labor Standards Act through assessing employers for underpayments and securing agreements to pay the workers. Through the special minimum wage program, 400,000 persons will be aided by certificates issued and employment authorized. In Government contract compliance actions, 48,700 persons will be aided through assessing employers for underpayments and securing agreements to pay the workers. Under the Migrant and Seasonal Agricultural Worker Protection Act program, approximately 146,000 persons will be aided through enforcement of employment standards for migrant and seasonal agricultural workers. In the course of all on-site investigations, compliance officers will routinely check for employer compliance with the eligibility recordkeeping requirements of the Immigration Reform and Control Act. About 725 investigations will be conducted to ensure compliance with homeworker employment restrictions.

**Federal contractor EEO standards enforcement.**—The Office of Federal Contract Compliance Programs (OFCCP) works to ensure nondiscrimination in employment on Federal contracts. It is responsible for conducting compliance activities to assure that Federal contractors take affirmative action in the hiring and promotion of minorities and women under the authority of Executive Orders 11246 and 11375. Administration of affirmative action provisions of the Rehabilitation Act of 1973, relating to the hiring and promotion of physically and mentally handicapped individuals, is included in this activity. Also included is the administration of the Vietnam Era Veterans Readjustment Assistance Act providing for affirmative action by Federal contractors to employ and advance in employment disabled veterans

and veterans of the Vietnam era. In 1989, about 6,140 compliance reviews and 1,045 complaint investigations will be conducted. During these reviews and investigations, employer compliance with the Immigration Reform and Control Act will be checked regarding hiring only legally authorized workers. A total of 5,995 other compliance actions will be conducted with respect to contractor employment practices.

**Federal programs for workers' compensation.**—Under this income maintenance activity, the Employment Standards Administration administers the Federal Employees' Compensation Act, the Longshore and Harbor Workers' Compensation Act, and the benefit provisions of the Federal Mine Safety and Health Act of 1977. These programs insure that eligible disabled and injured workers or their survivors receive compensation and medical benefits and a range of services including rehabilitation, supervision of medical care, and technical and advisory counseling to which they are entitled. Technical assistance is provided to the States to upgrade their workers' compensation laws.

**Executive direction and support services.**—This activity includes planning, personnel management, financial management, research and Federal/State liaison programs, management systems implementation, and data processing operations. Major goals in 1989 will include implementing financial management initiatives; continued efforts to eliminate internal fraud, waste, and mismanagement; the improvement of management information, automated data processing, and program and fiscal accountability; and legislative and regulatory improvements.

**Federal Employees' Compensation Act benefits.**—Currently, approximately 50,600 claimants are receiving long-term compensation benefits for job-related injuries, diseases, or deaths, as specified in the Federal Employees' Compensation Act (FECA) and its extensions. Pertinent medical bills are paid for compensable injuries. Compensation benefits are paid when the injury causes loss of job time. Workers suffering noncontroverted, traumatic injuries continue in full pay status for a period not to exceed 45 days, paid by the employing agency rather than through this account. All medical costs associated with these continuation-of-pay claims are examined and paid by the FECA program. In addition, the FECA program is responsible for claims extending beyond 45 days, all nontraumatic injuries and controverted claims, medical costs associated with the above, and the review of the agency-paid continuation-of-pay claims. Costs to this account are subsequently charged back to the employing agency.

The trust fund consists of all moneys collected from the coal mine industry under the provisions of the Black Lung Benefits Revenue Act of 1981, as amended by the Consolidated Omnibus Budget Reconciliation Act of 1985, in the form of an excise tax on mined coal tonnage. These moneys are expended to pay compensation, medical, and survivor benefits to eligible miners and their survivors, where mine employment terminated prior to 1970 or where no mine operator can be assigned liability. In addition the fund pays all administrative costs incurred in the operation of the black lung program. The fund is administered jointly by the Secretaries of Labor, the Treasury, and Health and Human Services. The Benefits Revenue Act provides for repayable advances to the fund in the event fund resources will not be adequate to meet program obligations. Such advances are to be repaid with interest. Advances outstanding at the end of the year are: 1981, \$1,510 million; 1982, \$1,793 million; 1983, \$2,151 million; 1984, \$2,497 million; 1985, \$2,833 million; 1986, \$2,884 million; 1987, \$2,952 million; 1988, \$2,982 million; and 1989, \$3,106 million.

The trust funds consist of amounts received from employers for the death of an employee where no person is entitled to compensation for such death, for fines and penalty payments, and pursuant to an annual assessment of the industry, for the general expenses of the fund under the Longshore and Harbor Workers' Compensation Act, as amended.

These trust funds are available for payments of additional compensation for second injuries. When a second injury, when combined with a previous disability, results in increased permanent partial disability, permanent total disability, or death, the employer provides compensation only for the disability caused by the subsequent injury; compensation to supplement the employer's payment is provided from this fund. In addition, the fund pays one-half of the increased benefits provided under the Longshore and Harbor Workers' Compensation Act, as amended, for persons on the rolls prior to 1972. Maintenance payments are made to disabled employees undergoing vocational rehabilitation to

enable them to return to remunerative occupations, and the costs of necessary rehabilitation services not otherwise available to disabled workers are defrayed. Payments are made in cases where other circumstances preclude payment by an employer and to provide medical, surgical, and other treatment in disability cases where there has been a default by the insolvency of an uninsured employer.

(1) to provide, as authorized by such Act, consultation, technical assistance, educational and training services, and to conduct surveys and studies;

(2) to conduct an inspection or investigation in response to an employee complaint, to issue a citation for violations found during such inspection, and to assess a penalty for violations which are not corrected within a reasonable abatement period and for any willful violations found;

(3) to take any action authorized by such Act with respect to imminent dangers;

(4) to take any action authorized by such Act with respect to health hazards;

(5) to take any action authorized by such Act with respect to a report of an employment accident which is fatal to one or more employees or which results in hospitalization of five or more employees, and to take any action pursuant to such investigation authorized by such Act; and

(6) to take any action authorized by such Act with respect to complaints of discrimination against employees for exercising rights under such Act:

*Provided further*, That the foregoing proviso shall not apply to any person who is engaged in a farming operation which does not maintain a temporary labor camp and employs ten or fewer employees: *Provided further*, That none of the funds appropriated under this paragraph shall be obligated or expended for the proposal or assessment of any civil penalties for the violation or alleged violation by an employer of ten or fewer employees of any standard, rule, regulation, or order promulgated under the Occupational Safety and Health Act of 1970 (other than serious, willful or repeated violations and violations which pose imminent danger under section 13 of the Act) if, prior to the inspection which gives rise to the alleged violation, the employer cited has (1) voluntarily requested consultation under a program operated pursuant to section 7(c)(1) or section 18 of the Occupational Safety and Health Act of 1970 or from a private consultative source approved by the Administration and (2) had the consultant examine the condition cited and (3) made or is in the process of making a reasonable good faith effort to eliminate the hazard created by the condition cited as such, which was identified by the aforementioned consultant, unless changing circumstances or workplace conditions render inapplicable the advice obtained from such consultants: *Provided further*, That none of the funds appropriated under this paragraph may be obligated or expended for any State plan monitoring visit by the Secretary of Labor under section 18 of the Occupational Safety and Health Act of 1970, of any factory, plant, establishment, construction site, or other area, workplace or environment where such a workplace or environment has been inspected by an employee of a State acting pursuant to section 18 of such Act within the six months preceding such inspection: *Provided further*, That this limitation does not prohibit the Secretary of Labor from conducting such monitoring visit at the time and place of an inspection by an employee of a State acting pursuant to section 18 of such Act, or in order to investigate a complaint about State program administration including a failure to respond to a worker complaint regarding a violation of such Act, or in order to investigate a discrimination complaint under section 11(c) of such Act, or as part of a special study monitoring program, or to investigate a fatality or catastrophe: *Provided further*, That none of the funds appropriated under this paragraph may be obligated or expended for the inspection, investigation, or enforcement of any activity occurring on the Outer Continental Shelf which exceeds the authority granted to the Occupational Safety and Health Administration by any provision of the Outer Continental Shelf Lands Act, or the Outer Continental Shelf Lands Act Amendments of 1978. **Safety and health standards.**—New and revised standards are proposed and promulgated to protect the safety and health of workers. All new standards, except emergency temporary standards, are promulgated under procedures providing opportunity for public comment. Before any standard is proposed or promulgated, a determination is made that: (1) a significant risk of serious employee injury or health impairment exists; (2) the standard will reduce this risk; (3) the standard is economically and technologically sound; and (4) the standard is cost-effective when compared with alternative regulatory proposals providing equal levels of protection.

**Enforcement.**—The Occupational Safety and Health Act of 1970 provides for enforcement of Federal standards in States declining to assert jurisdiction and for grants to assist States in administering and enforcing State standards. Compliance with occupational safety and health standards is gained in part by the physical inspection of plants and facilities and by encouraging the voluntary protection efforts of employers and employees. Programs are targeted to the investigation of claims of imminent danger and employee complaints, the investigation of fatal and catastrophic accidents, programmed inspections of firms with injury-illness rates that are above the national average, and special emphasis inspections for serious health and safety hazards.

**Technical support.**—Technical assistance is provided on all aspects of standards setting, variances, compliance assistance, and enforcement programs. Laboratory support is provided to compliance officers. Comprehensive scientific and technical information services are made available. The economic and environmental impacts of proposed standards are analyzed.

**Compliance assistance.**—This activity contributes to the balanced use of the authority provided by the Act through a variety of employer and employee assistance activities. Under cooperative agreements, State agencies are reimbursed for 90 percent of the costs of providing free onsite consultation to employers upon request. Grants are awarded to assist organizations to develop their capacity to provide occupational safety and health training for workers and employers. Employers are encouraged to establish voluntary labor-management and self-inspection protection programs. This activity also provides leadership and assists agencies in implementing job safety and health programs to protect Federal workers. Professional training for compliance personnel and others with related workplace safety and health responsibilities is conducted at the OSHA Training Institute.

**Safety and health statistics.**—Statistics on occupational fatalities, injuries, and illnesses are collected directly or through grants to States and published annually to aid in the identification of occupational safety and health problems and to facilitate administration.

**Executive direction and administration.**—These activities include executive direction, planning and evaluation, management support, legislative liaison, inter-agency affairs, and administrative services.

**Enforcement.**—Enforcement of the Federal Mine Safety and Health Act of 1977 includes inspection of mines, the development and promulgation of health and safety standards, assistance in mine rescue operations, investigations of serious accidents in mines, recommendations to reduce working hazards, and on-site education and training assistance. The estimates will support all inspections specified in the Act of mines expected to be operating throughout 1988 and 1989. In addition to these regular health and safety inspections the program statistics below include additional inspections and investigations that are conducted as needed to ensure the safety and health of miners.

**Assessments.**—This activity assesses civil monetary penalties for violations of safety and health standards.

**Educational policy and development.**—This activity develops and coordinates MSHA's mine safety and health education and training policies, and provides classroom instruction at the National Academy for MSHA personnel, other governmental personnel, and the mining industry. States are encouraged to develop training programs through grants and technical assistance.

**Technical support.**—This activity provides technical services and advice to field managers, mine inspectors, State program employees, and industry management to

assist enforcement or improve mining practices. It also collects and analyzes data relative to the cause, frequency, and circumstances of accidents.

**Program administration.**—This activity provides for general administrative functions and collection of civil monetary penalties.

**Executive direction.**—Provides policy direction for all programs and functions assigned to the Department. Provides guidance for the development and implementation of governmental policy to protect and promote the interests of the American worker—toward achieving better employment and earnings, promotion of labor standards, safeguarding of pension rights, promotion of affirmative action in employment, and collection and analysis of statistics on the labor force.

**Legal services.**—Includes enforcement of Federal labor statutes and legal advisory, legislative, and litigation services related to the statutes administered by the Department.

**International labor affairs.**—Integrates all international labor programs and foreign economic policy within the Department; gives Departmental guidance to the U.S. participation in international organizations concerned with labor and employment and training

problems; and provides for labor and employment and training technical services to other Government and international agencies.

**Administration and management.**—Exercises leadership in all DOL administration and management programs and services. Provides policy guidance on matters of budget and resource and personnel management. Provides for consistent and constructive internal labor-management relations throughout the Department.

**Adjudication.**—Conducts formal hearings and renders timely decisions on claims filed under (a) the Longshore and Harbor Workers' Compensation Act and its extensions, (b) the Black Lung Benefits Reform Act of 1977, (c) the Federal Employees' Compensation Act, and (d) other acts involving health and safety regulations, unfair labor practices, and other labor-related areas.

**Promoting employment of the handicapped.**—The President's Committee on Employment of the Handicapped seeks to identify and eliminate barriers standing in the way of full social and vocational opportunities for physically and mentally handicapped persons.

**Women's bureau.**—Promotes the welfare and seeks to improve the economic status of working women; seeks to increase the utilization of women in the Nation's economy; and encourages the advancement of women workers.

**Civil rights.**—Ensures full compliance with title VI of the Civil Rights Act of 1964 and other regulatory non-discrimination provisions in programs receiving financial assistance from the Department of Labor and promotes equal opportunity in these programs and activities. Ensures equal employment opportunity to all DOL employees and applicants for employment.

**Administrative management services.**—Provides a broad range of administrative services, including printing, mailing, messengers, motor pool, accounting and payroll oversight, supply and property management, and safety and health services.

**Field services.**—Provides centralized services from the Department's regional offices to all agencies of the Department located in the regions. The services include personnel management, voucher audit, and administrative services.

**Facilities management.**—Manages the Frances Perkins Building, which is the Department's headquarters, under the terms of an agreement with the General Services Administration. Beginning in 1988, this activity is funded through a reimbursable agreement from General Services Administration to Department of Labor.

**National Capital Service Center.**—Provides a range of centralized services to agencies of the Department located in the national capital area. These services include personnel, accounting, payroll and voucher payments, procurements, and contracting.

**Penalty mail and telecommunications.**—Provides for departmental mail payments to the U.S. Postal Service and telecommunications payments to the General Services Administration.

**Financing.**—The fund is reimbursed by the agencies for which centralized services are performed at rates which return in full all expenses of operation, including reserves for accrued annual leave and depreciation of equipment.

**Operating results.**—The fund ended 1987 with a net operating income of \$1,346 thousand.

**ALLOCATIONS RECEIVED FROM OTHER ACCOUNTS**

Note.—Obligations incurred under allocations from other accounts are included in the schedules of the parent appropriations as follows:  
U.S. Information Agency, "Salaries and expenses."

**GENERAL PROVISIONS**

SEC. 101. Appropriations in this Act available for salaries and expenses shall be available for supplies, services, and rental of conference space within the District of Columbia, as the Secretary of Labor shall deem necessary for settlement of labor-management disputes.

SEC. 102. None of the funds appropriated under this Act shall be used to grant variances, interim orders or letters of clarification to employers which will allow exposure of workers to chemicals or other workplace hazards in excess of existing Occupational Safety and Health Administration standards for the purpose of conducting experiments on workers health or safety.

【SEC. 103. None of the funds appropriated in this Act shall be obligated or expended for the purpose of closing any Job Corps Center operating under part B of title IV of the Job Training Partnership Act prior to January 1, 1989.】

【SEC. 104. Notwithstanding any other provision of this Act, no funds appropriated by this Act may be used to execute or carry out any contract with a non-governmental entity to administer or manage a Civilian Conservation Center of the Job Corps which was not under such a contract as of September 1, 1984.】

【SEC. 105. None of the funds appropriated in this Act shall be used by the Job Corps program to pay the expenses of legal counsel or representation in any criminal case or proceeding for a Job Corps participant, unless certified to and approved by the Secretary of Labor that a public defender is not available.】 (*Department of Labor Appropriations Act, 1988.*)

**TITLE V—GENERAL PROVISIONS**

SEC. 501. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 502. No part of any appropriation contained in this Act shall be expended by an executive agency, as referred to in the Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.), pursuant to any obligation for services by contract, unless such executive agency has awarded and entered into such contract in full compliance with such Act and regulations promulgated thereunder.

SEC. 503. Appropriations contained in this Act, available for salaries and expenses, shall be available for services as authorized by 5 U.S.C. 3109 but at rates for individuals not to exceed the per diem rate equivalent to the rate for GS-18.

SEC. 504. Appropriations contained in this Act, available for salaries and expenses, shall be available for uniforms or allowances therefor as authorized by law (5 U.S.C. 5901-5902).

SEC. 505. Appropriations contained in this Act, available for salaries and expenses, shall be available for expenses of attendance at meetings which are concerned with the functions or activities for which the appropriation is made or which will contribute to improved conduct, supervision, or management of those functions or activities.

SEC. 506. No part of the funds appropriated under this Act shall be used to provide a loan, guarantee of a loan, a grant, the salary of or any remuneration whatever to any individual applying for admission, attending, employed by, teaching at, or doing research at an institution of higher education who has engaged in conduct on or after August 1, 1969, which involves the use of (or the assistance to others in the use of) force or the threat of force or the seizure of property under the control of an institution of higher education, to require or prevent the availability of certain curricula, or to prevent the faculty, administrative officials, or students in such institution from engaging in their duties or pursuing their studies at such institution.

SEC. 507. The Secretaries of Labor, Health and Human Services, and Education are authorized to transfer unexpended balances of prior appropriations to accounts corresponding to current appropriations provided in this Act: *Provided*, That such transferred balances are used for the same purpose, and for the same periods of time, for which they were originally appropriated.

SEC. 508. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 509. No part of any appropriation contained in this Act shall be used, other than for normal and recognized executive-legislative relationships, for publicity or propaganda purposes, for the preparation, distribution, or use of any kit, pamphlet, booklet, publication, radio, television, or film presentation designed to support or defeat legislation pending before the Congress, except in presentation to the Congress itself.

No part of any appropriation contained in this Act shall be used to pay the salary or expenses of any grant or contract recipient, or agent acting for such recipient, related to any activity designed to influence legislation or appropriations pending before the Congress.

SEC. 510. The Secretaries of Labor, Health and Human Services, and Education are each authorized to make available not to exceed \$7,500 from funds available for salaries and expenses under titles I, II, and III, respectively, for official reception and representation expenses; the Director of the Federal Mediation and Conciliation Service is authorized to make available for official reception and representation expenses not to exceed \$2,500 from the funds available for "Salaries and expenses, Federal Mediation and Conciliation Service"; and the Chairman of the National Mediation Board is authorized to make available for official reception and representation expenses not to exceed \$2,500 from funds available for "Salaries and expenses, National Mediation Board".

SEC. 511. None of the funds appropriated by this Act shall be used to pay for any research program or project or any program, project, or course which is of an experimental nature, or any other activity involving human participants, which is determined by the Secretary or a court of competent jurisdiction to present a danger to the physical, mental, or emotional well-being of a participant or subject of such program, project, or course, without the written, informed consent of each participant or subject, or a participant's parents or legal guardian, if such participant or subject is under eighteen years of age. The Secretary shall adopt appropriate regulations respecting this section.

【SEC. 512. (a)(1) In the cases of all appropriations accounts within this Act from which expenses for travel, transportation, and subsistence (including per diem allowances) are paid under chapter 57 of title 5, United States Code, there are hereby prohibited to be obligated under such accounts in fiscal year 1988 a uniform percentage of such amounts, as determined by the President in accordance with the provisions of paragraph (2), as, but for this subsection, would—

- (A) be available for obligation in such accounts as of October 1, 1987,
- (B) be planned to be obligated for such expenses after such date during fiscal year 1988, and
- (C) result in total outlays of \$23,600,000 in fiscal year 1988.

(2) Before making determinations under paragraph (1), the President shall obtain from the Director of the Office of Management and Budget and the Comptroller General of the United States recommendations for determinations with respect to (A) the identification of the accounts affected, (B) the amount in each such account available as of such date for obligation, (C) the amounts planned to be obligated for such expenses after such date in fiscal year 1988, and (D) the uniform

percentage by which such amounts need to be reduced in order to comply with paragraph (1).】

【(b) Within 30 days after the date of enactment of this Act, the President shall prepare and transmit to the Congress a report specifying the determinations of the President under subsection (a).】

【(c) Sections 1341(a) and 1517 of title 31, United States Code, apply to each account for which a determination is made by the President under subsection (a).】

【Sec. 513. (a) Subject to subsection (b), none of the funds made available by this or any other Act may be used by the Secretary of Labor to withdraw approval of the California State occupational safety and health plan, or to exercise exclusive Federal safety and health authority in the State of California, under the Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.).】

【(b) The prohibition established in subsection (a) shall apply until the California Supreme Court has rendered a final disposition in the case of *Ixta v. Rinaldi* (Case No. 3 Civil C 002805).】

【Sec. 514. (a) Notwithstanding the matter under the heading "CENTERS FOR DISEASE CONTROL", none of the funds made available under this Act to the Centers for Disease Control shall be used to provide AIDS education, information, or prevention materials and activities that promote or encourage, directly, homosexual sexual activities.】

【(b) Education, information, and prevention activities and materials paid for with funds appropriated under this Act shall emphasize—

(1) abstinence from sexual activity outside a sexually monogamous marriage (including abstinence from homosexual activities) and

(2) abstinence from the use of illegal intravenous drugs.】

【(c) The homosexual activity referred to in subsections (a) and (b) includes any sexual activity between two or more males as described in section 2256(2)(A) of title 18, United States Code.】

【(d) The illegal drugs referred to in subsection (b) include any controlled substance as defined in section 102(6) of the Controlled Substance Act (21 U.S.C. 802(6)).】

【(e) If the Secretary of Health and Human Services finds that a recipient of funds under this Act has failed to comply with this section, the Secretary shall notify the recipient, if the funds are paid directly to the recipient, or notify the State if the recipient receives the funds from the State, of such finding and that—

(1) no further funds shall be provided to the recipient;

(2) no further funds shall be provided to the State with respect to noncompliance by the individual recipient;

(3) further payment shall be limited to those recipients not participating in such noncompliance; and

(4) the recipient shall repay to the United States, amounts found not to have been expended in accordance with this section.】

SEC. 【515】 512. In administering funds made available under this Act for research relating to the treatment of AIDS, the National Institutes of Health shall take all possible steps to ensure that all experimental drugs for the treatment of AIDS, particularly antivirals and immunomodulators, that have shown some effectiveness in treating individuals infected with the human immunodeficiency virus are tested in clinical trials as expeditiously as possible and with as many subjects as is scientifically acceptable. (*Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1988.*)

The program described below is financed by this appropriation and by reimbursements from other agencies. Those agencies are provided with most of their administrative services overseas by the Department of State.

*Executive direction and policy formulation.*—This activity identifies resources which provide sound management through the direction of the Secretary and with the assistance of staff officers, specialized offices and functional and regional bureaus, for policy formulation and in pursuit of regional and global foreign policy objectives.

*Inspections and audits.*—This function encompasses domestic and overseas inspections, audits and investigations. The Inspector General is responsible for audits, investigations and inspections, and directs the Foreign Service Inspection Corps.

*Conduct of diplomatic relations.*—Resources of this activity include: the political and economic reporting and analysis of interests to the United States; the representation of U.S. diplomatic and national interests to countries abroad; and the bilateral and multilateral negotiation of our foreign policy objectives. These resources also fund the conduct of U.S. diplomatic policy through political and multilateral affairs, economic and social affairs, international budgetary and management affairs, and participation in various international organizations.

*Conduct of consular relations.*—Activities included are overseas and domestic visa and American citizen services. Visa services involve the issuance, denial, and adjudication of immigrant and non-immigrant visas; refugee processing; and visa fraud detection and investigation. American citizen services include the issuance of passports, emergency assistance to American citizens abroad, and passport fraud detection and investigation.

*Professional development and training.*—The professional development and training activity is a continuous process by which the Department ensures that its professionals have the skills, experience and judgment to fulfill its functions at all levels. Training programs are designed to provide employees with the specific functional, area and language skills needed for the conduct of foreign relations in the Department and abroad.

*Information management.*—This activity identifies resources necessary for the effective and efficient creation, collection, processing, transmission, dissemination, use, storage, and disposition of information required for the formulation and execution of foreign policy and for the conduct of daily business. Its requirements are driven by the informational needs of the President, the Secretary of State, the department and its 262 missions, and approximately fifty government agencies. Components of the information management activity include: telecommunications; classified information handling, unclassified data and word processing; pouch, mail, and publishing services; administration of

an electronic and archival records management program; document classification and declassification, information security; and provision of information management services, as appropriate, to all branches of the Government and to the public. In all of these programs, responsibilities range from policy setting to planning and design, implementation, operation, and maintenance. The Department manages large computer and communications centers to provide administrative, consular, economic, and political information. The computer systems support worldwide consular applications, financial management systems, management of building programs, and intelligence research systems.

**Security.**—This activity identifies resources necessary in meeting security and counterterrorism responsibilities, both foreign and domestic. Covered in this activity are: security operations; engineering services, which relate to the technical defense of Foreign Service personnel and establishments against electronics and physical attack; investigations, such as malfeasance and passport fraud; protection of dignitaries; and, physical security operations, including construction and renovation projects to combat attacks, assaults and technical penetrations made against U.S. facilities and personnel for all the foreign affairs agencies.

**Medical.**—This activity encompasses medical programs for the Department of State, the Foreign Service, and 35 other U.S. Government departments and agencies overseas. Services are provided in Washington as well as at 262 missions worldwide and cover some 60,000 employees and dependents.

**Administration and staff activities.**—These activities include normal domestic and overseas administrative services such as:

- The direction and control of all administration and management operations, representing and negotiating U.S. government administrative matters with foreign officials and reviewing and setting resource levels and priorities for the various programs and bureaus in the Department.
- The budgeting, financial planning and fiscal operations for the Department of State and most federal agencies resident abroad.
- The management, recruitment and performance evaluation of the Department's Foreign and Civil Service employees and Foreign Service National staff.
- The contracting and procurement of services and supplies, maintenance and repair of equipment and physical property, vehicle operation and shipping and customs services.
- Centralized funding for the payment of salaries and worldwide related benefits to full-time permanent employees.

Post Assignment Travel funds that provide for travel, transportation, and related items in connection with the assignment, transfer, and separation for the Department's full-time permanent staff and their dependents are also included in this activity.

The current appropriation finances, by 30 equal annual installments, any unfunded liability created by new or liberalized benefits, new groups of beneficiaries, and salary increases. In addition, the current appropriation finances the annual balance of the Foreign Service normal cost not met by employee and employer contributions.

The permanent appropriation provides payments to the fund for the interest on the unfunded liability and disbursements attributable to military and naval services—a full 100 percent in each year.

These funds are used for payment of the United States' share of the expenses of 11 international fisheries commissions, one international sea council, and the expenses of the respective commissioners. The commissions either conduct or plan and coordinate studies to determine measures necessary for the preservation and expansion of the productivity of fishery stocks. In addition, the Great Lakes Fishery Commission carries on a program of lamprey eradication and control; and all the commissions are authorized to recommend conservation measures to the member governments. The sea council proposes and organizes fishery and oceanographic investigations and disseminates the results to the member governments.

The motor carrier safety mission is to reduce the risk of accidents in truck and bus highway transportation by regulation of motor carriers engaged in interstate commerce through safety reviews and roadside examinations. In particular, the program seeks to ensure regulatory compliance with the Federal Motor Carrier Safety Regulations and the Federal Commercial Drivers' Licensing requirements. Beginning in 1989, the Administration plans to finance a portion of motor carrier safety research through a proposed expansion of the administrative drawdown of the Motor Carrier Safety Grants program. This approach will be used for research activities which support the Commercial Drivers' License program and other Federal regulations affecting State motor carrier activities.

Grants are made available to States under the following programs for construction and improvements on the National System of Interstate and Defense Highways and for urban and rural transportation programs. To constrain the proliferation of programs exempt from routine funding controls, a Federal-aid highways obligation limitation of \$11.398 billion, covering all Federal-aid programs except emergency relief and minimum allocation is proposed.

The 1989 budget proposal for Federal-Aid Highways budget authority is consistent with the amount authorized in the Surface Transportation and Uniform Relocation Assistance Act. Obligations and obligation limitation levels are determined by receipt levels generated by current law user fees. Average annual obligations for all highway programs would be equal to average annual net revenue from highway user fees for the authorization period of 1987-1991.

*Interstate construction.*—Provides grants for the completion of the Interstate System. States can be expected to construct high priority Interstate segments, not yet built, especially gaps between major urbanized areas. States that have completed their portion of the system may use the funds for Interstate 4R purposes.

*Interstate 4R.*—Preserves and continues the Nation's investment in the Interstate system through a program of resurfacing, restoring, rehabilitation, and reconstruction.

*Primary system.*—Provides grants to States for highway construction, rehabilitation, reconstruction, and related planning for the primary highway system.

*Interstate substitutions.*—Provides grants to States and localities which withdrew previously approved Interstate segments and apply authorized funds to substitute highway or transit projects. The budget proposes to consolidate funding for both highway and transit substitute projects within the highway authorization.

*Secondary system.*—Provides grants to States for highway construction, rehabilitation, reconstruction, and related planning and research on the secondary system.

*Urban system.*—Provides grants to States for highway construction, rehabilitation, reconstruction, and related planning and research on the urban system.

*Bridge program.*—Provides grants to States to replace or rehabilitate bridges on and off the Federal-aid systems that are hazardous to the safety of motorists.

*Safety construction programs.*—Provides grants to States for safety improvements to the highway systems, including hazard elimination, pavement marking, and rail highway crossings.

*Federal lands highways.*—Provides funds for improvements on forest highways, park roads, Indian reservation roads, and public lands highways. The Department of Transportation coordinates with the land managing agency in the planning studies and program development of public Federal lands highways.

*Demonstration projects.*—Provides funds for 80 percent of the cost of demonstration projects specified in Sec. 149 of Public Law 100-17. The 1989 budget proposal subjects these projects to the obligation limitation.

*Administration and research.*—Provides for executive and general administrative and research expenses of Federal-aid highways. These funds are controlled by the limitation on general operating expenses.

*Other.*—Provides for emergency relief, minimum allocation, strategic highway research, and other miscellaneous programs.

This limitation provides for the salaries and expenses of the Federal Highway Administration. Resources are allocated from the following programs: Federal-aid highways, and highway-related safety grants.

**Program direction and coordination.**—Provides overall direction and coordination of the highway transportation program, including program review of agency operations; provides legal services for all programs; plans and directs public affairs programs; and develops and recommends policies and standards, and ensures compliance with the civil rights and equal opportunity procedures by the Federal Highway Administration and by recipients of grants-in-aid administered by the Federal Highway Administration.

**General program support.**—Formulates policy, multi-year and long-range plans and goals for highway programs, and data and analyses for current and long-range programming; conducts direct and contract re-

search and development relating to traffic operations, new construction techniques, and the social and environmental aspects of highways; provides administrative support services for all elements of the Federal Highway Administration; and provides on-the-job training for employees of the Federal Highway Administration and training opportunities for other highway-related personnel. Beginning in 1989, the FHWA will reimburse the Internal Revenue Service for increased enforcement of diesel fuel tax compliance. The budget also proposes to consolidate the activities of the Highway Safety Research and Development program within this account.

**Highway programs.**—Provides engineering guidance to Federal and State agencies and to foreign governments, and conducts a program to encourage use of modern traffic engineering procedures to increase the vehicle-carrying capacity of existing highways and urban streets; assists States, other Federal agencies, and certain foreign countries in right-of-way acquisition and develops procedures for highway location selection and consideration of environmental impacts; and finances construction skill training programs for disadvantaged workers hired by contractors on federally aided highway projects.

**Field operations.**—Provides staff advisory and support services in field offices of the Federal Highway Administration; and provides program and engineering supervision of the several highway programs through 9 regional and 52 division offices.

The Motor Carrier Safety Grant program, authorized by the 1982 Surface Transportation Assistance Act, provides grants to States to enforce Federal and compatible State standards applicable to commercial motor vehicle safety. States become eligible for funds by adopting Federal truck safety standards and maintaining minimum levels of program funding. Uniform safety standards both enhance the coordination of enforcement activities and simplify the safety requirements of interstate trucking parties.

Federal grants for enforcement of commercial motor vehicle safety standards may not be used to maintain efforts already undertaken by State governments. The purpose of the grant program is to raise the level of enforcement, not to substitute Federal for State and local dollars. Liquidating cash appropriations of \$50 million in 1989 are necessary for payment of program obligations.

The Highway Revenue Act of 1956, as amended, provides for the transfer from the general fund to the highway trust fund of revenue from the motor fuel tax and certain other taxes paid by highway users. The Secretary of the Treasury estimates the amounts to be so transferred. In turn, appropriations are authorized from this fund to meet expenditures for Federal-aid highways and other programs specified by law.

The status of the fund is as follows:

MISCELLANEOUS HIGHWAY TRUST FUNDS

【INTERMODAL URBAN DEMONSTRATION PROJECT】

【(HIGHWAY TRUST FUND)】

【For necessary expenses to carry out the provisions of section 124 of the Federal-Aid Highway Amendments of 1974, \$9,500,000, to be derived from the Highway Trust Fund and to remain available until expended.】

【HIGHWAY SAFETY AND ECONOMIC DEVELOPMENT DEMONSTRATION PROJECTS】

【(HIGHWAY TRUST FUND)】

【For necessary expenses to carry out construction projects as authorized by Public Law 99-500 and Public Law 99-591, \$9,500,000, to be derived from the Highway Trust Fund and to remain available until expended: *Provided*, That, notwithstanding any other provision of law, funds appropriated for this project shall not be included in any calculations made under section 157 of title 23, United States Code, for fiscal year 1988 and each fiscal year thereafter.】

【HIGHWAY SAFETY IMPROVEMENT DEMONSTRATION PROJECT】

【(HIGHWAY TRUST FUND)】

【For the purpose of carrying out a coordinated project of highway improvements in the vicinity of Pontiac and East Lansing, Michigan, that demonstrates methods of enhancing safety and promoting economic development through widening and resurfacing of highways on the Federal-aid primary system and on roads on the Federal-aid urban system, as authorized by Public Law 99-500 and Public Law 99-591, \$1,900,000, to be derived from the Highway Trust Fund and to remain available until expended.】

【HIGHWAY-RAILROAD GRADE CROSSING SAFETY DEMONSTRATION PROJECT】

【(HIGHWAY TRUST FUND)】

【For the purpose of carrying out a coordinated project of highway-railroad grade crossing separations in Mineola, New York, that demonstrates methods of enhancing highway-railroad crossing safety while minimizing surrounding environmental effects, as authorized by Public Law 99-500 and Public Law 99-591, \$9,500,000, to be derived from the Highway Trust Fund and to remain available until expended.】

【VEHICULAR AND PEDESTRIAN SAFETY DEMONSTRATION PROJECT】

【(HIGHWAY TRUST FUND)】

【For the purpose of carrying out a demonstration of methods of improving vehicular and pedestrian safety on roads on the Federal-aid urban and Federal-aid secondary systems, involving Route 66 in Northampton and Huntington, Massachusetts, \$6,650,000, to be derived from the Highway Trust Fund and to remain available until expended: *Provided*, That all funds appropriated under this head shall be exempt from any limitation on obligations for Federal-aid highways and highway safety construction programs.】

【CORRIDOR SAFETY IMPROVEMENT PROJECT】

【(HIGHWAY TRUST FUND)】

【For the purpose of carrying out a demonstration of methods of improving vehicular and pedestrian safety on roads on the Federal-aid primary and Federal-aid secondary systems, involving Route 1 in New Jersey, there is hereby authorized to be appropriated \$50,000,000, to be derived from the Highway Trust Fund and to remain available until expended, of which \$4,702,000 is hereby appropriated and to remain available until expended: *Provided*, That all funds appropriated under this head shall be exempted from any limitation on obligations for Federal-aid highways and highway safety construction programs.】

【BRIDGE CAPACITY IMPROVEMENTS】

【(HIGHWAY TRUST FUND)】

【For the purpose of carrying out the Nashua River Bridge and Broad Street Parkway project in Nashua, New Hampshire, that crosses the Nashua River, there is hereby authorized to be appropriated \$8,000,000, to be derived from the Highway Trust Fund and to remain available until expended, of which \$237,000 is hereby appropriated, to remain available until expended. All funds appropriated under this head, shall be exempted from any limitation on obligations for Federal-aid highway safety construction programs.】 (*Department of Transportation and Related Agencies Appropriations Act, 1988.*)

The Federal-Aid Highway Act of 1968 authorized \$300 million for the establishment of a right-of-way revolving fund. This fund is utilized to make cash advances to the States for the purpose of purchasing right-of-way parcels in advance of highway construction and thereby preventing the inflation of land prices from significantly increasing construction costs.

The initial legislation for this program required the States to construct the highway and reimburse the revolving fund within seven years from the date of the advance. The 1973 Highway Act extended the required time limit on construction to 10 years and the 1976 Highway Act extended the time limit indefinitely, if deemed necessary by the Secretary.

In 1989, gross obligations will be limited to \$47.85 million.

Programs funded under the Operations and Research appropriation are described below. Funding levels vary between program activities to reflect current priorities.

**Rulemaking programs.**—Covers rulemaking activity relative to the promulgation of Federal motor vehicle safety standards for new and used motor vehicles, tires, and equipment; automotive fuel economy standards required by the Energy Policy and Conservation Act; international harmonization of standards; theft prevention; regulatory reform; and information on motor vehicle safety required by the Motor Vehicle Information and Cost Savings Act.

**Enforcement programs.**—Provides for the enforcement of programs described under the rulemaking activity, including manufacturer compliance with motor vehicle safety and automotive fuel economy standards, investigation of safety-related motor vehicle defects, and surveillance of odometer tampering.

**Highway safety programs.**—Provides for technical assistance to the States in the conduct of their highway safety programs; demonstration programs emphasizing alcohol countermeasures, safety belt and child safety seat usage, automatic protection, improved traffic law enforcement, emergency medical services, and enhanced traffic records systems to reduce highway fatalities and injuries; and operation and improvement of the national driver register.

**Research and analysis.**—Provides motor vehicle safety and highway safety research and development in support of all NHTSA programs, including the collection and analysis of data to identify safety problems, develop alternative solutions, and assess costs, benefits, and effectiveness. Research will continue to concentrate on improving vehicle crashworthiness, accident avoidance characteristics of cars, trucks and motorcycles, safety belt usage and alcohol countermeasures. The budget includes funds to continue a national accident data collection program to improve problem identification, regulatory reform, and program evaluation activities.

**Office of the Administrator.**—Provides for the overall executive direction, coordination and implementation of agency programs. Includes legal, public affairs, civil rights and executive secretariat support for programs of this administration.

**General administration.**—Provides for the planning, program evaluation, and basic administrative and supporting services for programs of this administration.

This account represents the portion of the operations and research appropriation authorized under 23 U.S.C. 403 and financed from the Highway Trust Fund for the following activities:

**Highway safety programs.**—Provides for headquarters and field staff to assist the States in the conduct of their highway safety and demonstration programs, and to develop and implement a National Occupant Protection Program.

**Research and analysis.**—Provides for highway safety research in support of NHTSA programs, including the collection and analysis of data to determine the relationship between driver performance characteristics and crashes causing death or personal injury. Research is also undertaken to identify ways to improve safety belt usage and alcohol control. The 1989 budget includes funds to continue a national accident data collection program to improve problem identification, regulatory reform, and program evaluation activities.

**Office of the Administrator.**—Provides for the pro rata contribution to the cost of executive direction, coordination and implementation of agency programs. Includes legal, public affairs, civil rights and executive secretariat support for programs of this administration.

**General administration.**—Provides for the pro rata contribution to the cost of planning, program evaluation, and basic administrative and supporting services for programs of this administration.

**Safety formula grants.**—Grant allocations are determined on the basis of a statutory formula established under 23 U.S.C. 402. Individual States use this funding in areas which have the greatest potential for achieving safety improvements and reducing traffic crashes and fatalities. Activities are centered predominantly on efforts to control the drinking driver; stimulate activities to improve child passenger safety and increase safety belt usage; improve traffic law enforcement; improve the quality of emergency medical services; improve the collection and analysis of traffic accident data; and establish and maintain a computerized traffic recordkeeping system.

**Safety formula grant administration.**—Under 23 U.S.C. 402, up to 5 percent of amounts authorized for safety formula grants are permitted to be used for reimbursement to the operations and research account for grant administration. Funds of \$4.85 million are required to cover the expenses of administering Federal grant activity in 1989.

**Alcohol safety incentive grants.**—Grant allocations will be made under 23 U.S.C. 408, to those States which adopt and implement effective programs to reduce traffic safety problems resulting from persons driving while under the influence of alcohol. These grants will be made in accordance with established criteria and will only be used to implement and enforce such programs. Public Law 97-364 establishes a two-tier grant system. The first tier, i.e., basic grant, amounts to 30 percent of each State's apportionment under the safety formula grant program (section 402 program) if the State meets specified minimum criteria. The second tier is a supplemental grant of up to 20 percent of the State's apportionment if it qualifies for the base grant and implements additional specified alcohol traffic safety measures. Public Law 98-363 established a third tier to encourage States to enact stiffer penalties for drunk driving.

**Salaries and expenses.**—Provides for salaries and related expenses for the Office of the Administrator and his immediate staff, Chief Counsel, Civil Rights, Public Affairs, Office of Budget, Office of Administration, Office of Policy and the Office of Passenger and Freight Services. Together these offices resolve national problems confronting the railroad industry and provide top level support to the Federal Railroad Administrator.

**Contract support.**—The Office of Policy and the Office of Passenger and Freight Services use contractual support to develop positions regarding various proposed structural changes in the railroad industry such as mergers and Amtrak rail passenger services. Contractual support is also used to conduct internal studies dealing with traffic, economic forecasting, financial condition, and other factors that contribute to an efficient national freight railroad network. In 1987 and 1988, this program also provided contractual support to Federal assistance programs, labor-management activities, railroad rehabilitation and improvement financing funds, grants to the National Railroad Passenger Corporation, the sale of Conrail to the private sector, and the Conrail labor protection program.

**Washington Union Station.**—The Department of Transportation assumed responsibility for leasing Washington Union Station in 1984. In 1989, funds requested are what is needed to rent the facility. However, in 1989, the Department plans to purchase Union Station. A budget amendment will be transmitted when the purchase price is known.

**Local rail service assistance.**—This program provides discretionary and formula grants to all States for rail planning and for track rehabilitation of light density lines. No funds are requested in 1989.

**Reimbursable program.**—This program provides reimbursable support to the Department of Defense for the Peacekeeper Rail Garrison Program. In 1988, funds were transferred from unobligated balances of the Federal Highway Administration's airport access demonstration project to this appropriation.

The 1989 budget includes funds for three new supervisory safety field inspectors to enhance management of railroad safety programs.

**Federal enforcement.**—This program provides salaries and related expenses for safety field operations and is designed to reduce the number of railroad related accidents/incidents. Federal inspectors monitor railroads for compliance with Federal laws with specific emphasis on passenger and hazardous material routes. In addition, this staff provides training to Federal, State and railroad industry personnel on related safety enforcement activities, including programs dealing with the problem of alcohol and drug abuse.

**Automated track inspection program.**—This program provides \$1,140 thousand for the continued operation by FRA's Office of Safety of a self-propelled automatic track inspection vehicle. The track inspection vehicle will survey approximately 25,000 miles of track in 1989. In 1987, FRA transferred ownership of four track geometry vehicles to the Department of Defense.

**Safety regulation and program administration.**—This program funds the salaries and related expenses of safety headquarters personnel, data gathering and dissemination, and planning and evaluation activities. The ongoing responsibility of this program is to issue new or revised standards, procedures, and regulations to provide a safer railroad environment. This program also administers post-accident testing and technical training and management of rail-highway grade crossings.

**Grants-in-aid for railroad safety.**—This program assists States in paying salaries and expenses incurred for State safety inspectors on a 50-percent cost-sharing basis. No funds are requested in 1989.

**Reimbursable program.**—This program provides reimbursable support to the Department of Defense for the Peacekeeper Rail Garrison Program.

The 1989 budget provides funds for the conduct of railroad safety research and development, including the salaries and related expenses of the research management staff. The research conducted encompasses all aspects of existing railroad operations and maintenance, as well as new industry developments and trends, in support of safety rulemaking and enforcement.

**Equipment, operations and hazardous materials safety.**—This program focuses on the safety of equipment, components, operating practices, and hazardous materials transport in the railroad environment. The 1989 activities will continue to emphasize research on the causes of freight car component failures, advanced automatic train control systems, tank car design and construction materials, locomotive cab design improvements, training requirements for train dispatchers, and other critical areas of safety regulation and performance.

**Track safety.**—This program focuses on the safety of track structures, including critical rail components, railroad bridge structures, signal and train control systems, and other elements of the railroad right-of-way that influence train operations. In 1989, this program combines research on the interaction between trains and track structures conducted on the Facility for Accelerated Service Testing (FAST) at the Transportation Test Center.

**Other.**—This program area consists of carryover funds for contractual support for other than the preceding activities that are non-recurring.

**Administration.**—This program includes salaries and related expenses to administer the railroad safety research and development programs.

**Reimbursable program.**—Other Government agencies provide reimbursements for research and development

testing, evaluation and analysis, including activities in support of the Peacekeeper Rail Garrison Program for the Department of Defense.

**Conrail labor protection.**—Funds in this program were provided under the Regional Rail Reorganization Act, as amended, for benefits to Conrail employees deprived of employment because of workforce reductions and other actions. This program no longer exists since Conrail has been returned to the private sector.

Also included under this appropriation were funds provided for Milwaukee Railroad employee benefits under the Regional Rail Reorganization Act, as amended. The unobligated balances available from this program will be withdrawn in 1988.

These funds helped to defray the one-time only start-up costs of commuter service and other transition expenses connected with the transfer of rail commuter services from Conrail to other operators. In 1986, \$5 million was appropriated by transfer from UMTA research and development. In 1987, an additional \$5 million was appropriated to fund commuter rail and bridge improvements in the Philadelphia, Pennsylvania, region. No additional funds are requested in 1989.

These funds were provided for the U.S. Railway Association to purchase debentures and series A preferred stock issued by the Consolidated Rail Corporation which were transferred to the Department of Transportation on November 21, 1986.

The Department of Transportation sold in a public stock offering the Government's interest in Conrail, as mandated by the Conrail Privatization Act.

At the end of 1985, responsibility for any additional construction on the Northeast Corridor was transferred to the National Railroad Passenger Corporation (Amtrak). However, obligations and outlays will continue on projects included in prior year appropriations.

**Reimbursable program.**—Collections are made from Federal and non-Federal agencies for cost-shared improvement projects, such as stations. In 1988, funds were transferred from unobligated balances of the Federal Highway Administration's airport access demonstration project to this appropriation.

**System engineering/program management and administration.**—In 1989, the primary effort will be to complete and audit a number of projects being closed out. At the end of 1985, all Northeast Corridor Improvement program work scope and responsibility was transferred to Amtrak.

**Public grade crossing elimination.**—No funds are requested for this program in 1989; however, obligations and outlays will continue on projects which were included in prior year appropriations.

The National Railroad Passenger Corporation (Amtrak) is a private corporation. In past years, Federal funds were provided to sustain Amtrak operations. No funds are requested in 1989. The President's Privatization Commission is considering proposals for the privatization of Amtrak, including the possible sale of Amtrak's assets to the private sector or other interested parties.

**Operating grants and State assisted routes.**—No funds are requested in 1989 because Amtrak's performance to date has failed to justify continued massive Federal subsidies of interstate, commuter, and state-assisted rail passenger service.

**Labor protection and capital grants.**—No funds are requested in 1989. Labor protection payments, insofar as they exist, are a responsibility of the corporation.

<sup>1</sup> Reflects the discount from face value on sale of loan assets to the public.

No new commitments for the redeemable preference shares and loan guarantee programs will be made in 1988; however, outlays will continue on projects which were included in prior year appropriations. This account now reflects direct loans which were previously shown under the Federal Financing Bank (FFB) direct loan account. The account reflects receipts of \$205 million in 1988 and \$120 million in 1989 resulting from the sale of redeemable preferences shares to the private sector.

**Loan repayments.**—This program reflects repayments of principal and interest on outstanding borrowings by the railroads to the Federal Financing Bank (FFB).

**Loan guarantee defaults.**—This program reflects public debt authority incurred in 1987 associated with a prepayment of a section 511 loan guarantee with Milwaukee Road, Inc.

**Direct loans.**—This program provides direct loans that are disbursed by the Federal Financing Bank to private freight railroad companies that are guaranteed by the Federal Railroad Administration, as authorized by sections 511-513 of Public Law 94-210. The budget authority for this account reflects draw downs by the railroads on the direct loans.

URBAN MASS TRANSPORTATION  
ADMINISTRATION

The underlying policy principle in the development of the 1989 budget is that greater funding at the local level and greater participation by the private sector can and will reduce public costs in providing for the mass transportation needs of American citizens. Greater private sector participation in capital infrastructure development through direct private investment or public/private joint ventures in new rail systems, rail extensions, and station modernization will greatly reduce reliance on Federal capital assistance. Also, the introduction of greater competition through competitive bidding of service and maintenance will significantly reduce operating costs and the need for Federal subsidies.

In 1989 the administration will propose legislation to limit mass transit funding to the level of receipts provided by the one cent per gallon of the motor fuel tax dedicated to mass transit. These grants would be distributed by formula to States and large urban areas for their use on local transit projects. The legislation will

recommend an immediate end to discretionary grant funding used to build new or expand current transit systems. The proposed changes in Federal mass transit funding reflect the view that support of essentially local activities is not an appropriate Federal role.

The following tables depict budget authority and program levels for all Urban Mass Transportation programs for which more detail is furnished in the budget schedules:

Through 1988 this appropriation finances, with general revenues from the Treasury, grants and contracts for the purpose of developing, testing, and demonstrating techniques and methods (analytical, operational, and managerial) and of improving the cost effectiveness and efficiency of mass transportation services; grants to public bodies to provide for advanced training for personnel in the mass transportation field; and grants to public and private nonprofit institutions to assist in establishing or continuing programs that combine professional training and research in the field of mass transportation. Funding will continue to be provided for the Entrepreneurial and Suburban Mobility programs. In addition, grants are provided to enhance the utilization of human resources and to ensure the participation of minority business enterprises in the transit industry. In 1989, it is proposed that funds from the Mass Transit Account of the Highway Trust Fund be made available to finance this program. It will be subject to the obligation limitation for the new Formula Transit Grants Program.

Grants under this activity are authorized by the Federal-Aid Highway Act of 1973 as amended (23 U.S.C. 103(e)(4)) whereby States and localities may withdraw

previously approved segments of the Interstate System and substitute transit or other highway capital projects. Through 1988, this appropriation provided funding for substituted transit projects while funding for substituted highway projects was included in the budget of the Federal Highway Administration. Beginning in 1989, no funding is requested under this account. Eligible substituted transit project commitments are proposed to be funded through the Interstate Transfer program under the Federal-Aid Highways Account (Trust Fund), administered by the Federal Highway Administration.

The National Capital Transportation Amendments of 1979 authorized \$1.7 billion in Federal funds for the construction of the Federal portion of the Washington Metrorail system. Through 1988, \$1,338.8 million has been appropriated, leaving a balance of \$361.2 million under the original Stark-Harris authorization. An appropriation of \$128 million is requested for 1989 to complete construction of 89.5 miles, the Federal commitment under the 1986 full funding agreement. The Washington Metropolitan Area Transit Authority needs to initiate a dedicated source of local funding to become independent of Federal funding. Through fiscal year 1989, including other appropriations as well as this one, the Federal government will have made available a total of \$7.36 billion for the Washington Metro system, far more than for the construction of any other new mass transit system.

Through 1988, this program provided grants on the basis of statutory formulas to State and local agencies for mass transportation capital and operating expenses. Capital expenses included construction, acquisition, modernization, and improvement of existing transit facilities and equipment, employment of new technology, and technical planning assistance. Operating assistance expenses included administration, maintenance and operation of transit systems.

No appropriations are requested under this heading in 1989. Rather, it is proposed that formula grants be funded from the Mass Transit Account of the Highway Trust Fund. This proposal is further explained below under the account heading Formula Transit Grants (trust fund).

For 1989, legislation will be proposed to amend section 21 of the Urban Mass Transportation Act of 1964 to provide that funds available in the Mass Transit Account be allocated on the basis of legislative formulas to State and local agencies for mass transit capital investments rather than on a discretionary basis. This new Formula Transit Grants program will also replace the Formula Grants program which is currently funded from general funds, and will require a 50 percent local match on Federal funds.

The specific activities to be funded are:

*Urban formula capital grants.*—Funding is proposed to be allocated on the basis of legislative formulas for mass transportation capital activities in urbanized areas with populations of 50 thousand or more.

*Small urban operating grants.*—The legislative proposal will also provide that only small urban and non-urban areas may use funds for operating assistance. These areas are the most dependent upon Federal operating assistance. The amounts available for small urban operating assistance will be approximately \$160 million.

Since benefits derived from mass transit accrue primarily to localities, and in light of the mounting pressure on the Federal deficit, it is appropriate to reduce the Federal role to one of managing and allocating the penny gas tax for transit. Since this transit tax is collected nationally, it is also appropriate that it be allocated nationally so that, to the greatest degree possible, all payers of this tax may receive equitable benefits.

An obligation limitation of \$1.394 billion, in line with the projected receipts from the one penny per gallon motor fuel tax for mass transit over the 5-year authorization period, will be proposed for 1989. The budget and proposed legislation would set average budget authority for the transit trust fund programs equal to average annual revenue from transit's one-cent share of motor fuel taxes for fiscal years 1987-91.

*Non-urban grants.*—Funding is proposed to be allocated to States by a legislative formula for mass transportation capital and operating activities in nonurbanized areas with populations below 50 thousand. In addition to the amount of funds made available by the formula, non-urban areas will receive an additional \$30 million in recognition of their greater dependence of Federal assistance.

*Research, training and human resources.*—Up to \$10 million in funds from the Mass Transit Account is requested to be made available to fund the Research, Training and Human Resources program. Prior to 1989, funding this program was derived from general fund revenues. Areas of emphasis in 1989 will include private sector transit alternatives, transit safety and security, operations and management practices, financial management, necessary project management oversight, and human resources.

*Administrative expenses.*—It is also requested in 1989 that \$32.5 million in funds from the Mass Transit Account be made available to fund the necessary expenses for the administration and operation of the UMTA program. This appropriation will finance personnel and

other support costs associated with managing and directing UMTA program responsibilities. Prior to 1989, funding for the Administrative Expenses program was derived from general fund revenues. Cost savings in the Administrative Expenses account from 1988 to 1989 results primarily from a planned reduction of 40 work-years, consistent with termination of selected mass transit programs.

**Elderly and handicapped.**—The Urban Mass Transportation Act of 1964, as amended, requires that special efforts be made in planning and design of mass transportation facilities and services so that elderly and handicapped persons are assured of mass transportation services. This request for \$35 million will provide equipment and facilities needed to enhance transit mobility for elderly and handicapped persons through private, non-profit providers. The 16(b)(2) program is administered at the State level by designated State agencies.

**Planning.**—This program provides \$35 million to finance section 8 transit planning and technical studies.

Since 1984, funding in this account has been allocated for capital mass transit projects under Discretionary Grants, which provided additional financial assistance over and above the Section 9 and 18 Formula Grants programs.

The funding has provided financial assistance at the discretion of the Secretary (though often directed by Congress) for planning and capital investments in mass transportation. The Discretionary Grants program has been used to fund selected bus projects, rail modernization projects, and new subway and light rail systems. In addition, a small amount of discretionary funds were used for selected grants to support planning, innovative techniques, and special elderly and handicapped transportation services. In 1989, legislation will be proposed to eliminate this program. These schedules reflect the program under the current authorization. This proposal is further explained under the account heading Formula Transit Grants (trust fund).

In 1989, legislation will be proposed to eliminate the Discretionary Grants program. In its place, a new formula grant program under the heading Formula Transit Grants is being proposed to ensure that resources from the nationally derived motor fuel tax will be more fairly allocated on the basis of legislative formulas.

Currently the Discretionary Grant program uses trust funds from transit's share of the gasoline tax. Over 80 percent of these funds benefit fewer than 20 cities. Moreover, continued Federal funding under the Discretionary Grants account for major new fixed guideway investments, or new starts, results in the development of many inefficient, expensive transit sys-

tems that will cost more to operate than other available transportation alternatives.

*Operation of traffic control system.*—This activity covers the operation of a national system of air traffic management in the United States, its territories and possessions on a 24-hour basis. With the aid of radar, communications, and other facilities, traffic management personnel at 24 centers monitor and control en route flights of civil and military aircraft conducted under instrument conditions to assure safety and to expedite the flow of traffic. Terminal control facilities are operated at major civil airports to guide traffic movements at and in the vicinity of the airports. A system of flight service stations provides weather and aeronautical information to pilots, processes flight plans and provides inflight advisory and emergency services.

*Installation and materiel services.*—This activity covers procurement, contracting and materiel management programs; supply support for the National Air-

space System (NAS) and agency aircraft, except for aircraft related to the research and development program; leased space for which payment is made to General Services Administration (GSA); and other logistics support functions.

*Maintenance of traffic control system.*—This activity covers direction and engineering services related to the maintenance, improvement, and modification of facilities and equipment in the traffic control system as well as technical operation and maintenance of a national network of air navigation aids and traffic control facilities in the United States, and its territories and possessions.

*Leased telecommunications services.*—This activity finances the non-capital costs of FAA’s operational telecommunications system. This system, which currently includes over 23,000 voice and data communications circuits, consists of three major components: en route, terminal, and flight service stations. Under this activity, funds are provided for leased circuits and equipment, as well as end-to-end communications between FAA facilities and service affording public access to FAA facilities, and administrative communications services provided through the Federal Telecommunications Systems (FTS).

*Administration of aviation standards program.*—This activity exists to promote flight safety of civil aviation by assuring: the airworthiness of aircraft; the competence of pilots, aviators and aviator technicians; the adequacy of flight procedures and air operations; and the evaluation of inflight facility performance for compliance with prescribed standards. In addition, this activity covers the safe operation and the effective development, utilization, and maintenance of the FAA’s aircraft fleet. Resources are also included under this activity for the conduct of the Federal Government’s civil aviation security program, and to ensure the medical fitness of personnel in the national airspace system.

*Development direction.*—This activity covers the planning, direction, and evaluation of the engineering and development program, the direct project costs of which are financed under the Research, engineering and development appropriation.

*Administration of airports program.*—This activity includes the following work programs: (1) administration of an airport grant program for airport planning and development; (2) maintenance of the national plan of integrated airport systems; (3) development and application of airport engineering and safety standards; (4) collection, processing, and dissemination of airport data; (5) safety certification of airports serving air carriers utilizing aircraft with a seating capacity of more than 30 passengers; and (6) airport capacity enhancements.

*Direction, staff and supporting services.*—This activity covers administrative and housekeeping functions such as administrative supplies, communications, and payrolls at Oklahoma City, Atlantic City, and regional offices. Included also for these locations are activities for direction and management, public affairs, plans, international aviation, legal, accounting, budget, civil rights, communication control, data systems, and management systems. Also included are centrally managed items,

such as certain data processing and Information Resources Management Plan requirements.

**Human resource management (HRM).**—This activity directly supports the other FAA activities. The most important goal of the HRM activity is to provide the highly skilled, competent, and motivated workforce necessary to accomplish FAA's objectives in improving air safety while promoting the Administration's goals in aviation-related activities. The HRM activity includes administration of FAA employee recruitment, development, compensation (including Federal Employees' Compensation Program payments and unemployment compensation), training, and labor-management relations programs. Key activities funded within the HRM are: conduct and administration of FAA's technical and management training programs; recruitment and placement of technical and administrative personnel; initiation of labor relations activities with the goal of increased employee participation in work-related decisions and increased productivity; and human relations improvement activities resulting from reviews of internal surveys and external recommendations.

The Headquarters Administration appropriation provides administrative services at the Washington Headquarters location of the Federal Aviation Administration. This appropriation finances:

**Executive direction.**—Establishes and directs the implementation of policy and broad technological, operational, and managerial concepts.

**Communications control.**—Provides key agency officials with effective executive telecommunications.

**Public affairs.**—Insures that relevant information concerning FAA is consistently presented in a factual and timely manner.

**Legal.**—Provides legal counsel and advice for the handling of all legal matters with which FAA is concerned, in order to insure conformance with all legal requirements of all applicable laws, rules, regulations, and orders.

**Planning/policy.**—Recommends FAA policy and plans; identifies needed national air system changes; and performs economic analysis of regulations.

**Accounting.**—Provides accounting, financial advisory, and audit liaison services.

**Budget.**—Identifies and defines budgetary needs and assures that they are effectively presented to the Office of the Secretary of Transportation, Office of Management and Budget, and Congressional Committees, and that funds and other resources available to the agency are effectively utilized.

**Civil rights.**—Assures full and affirmative implementation of civil rights and equal opportunity precepts within the Federal Aviation Administration.

**International aviation.**—Insures adequacy of international aviation systems policies, and maintains effective liaison with foreign governments.

**Management systems/data systems.**—Develops and administers the implementation and operation of FAA organizational plans, management systems and controls, and administrative standards and procedures; pro-

vides data processing, editorial, graphics, and publishing services.

Under the provisions of the "Metropolitan Washington Airports Act of 1986," the Secretary of Transportation entered into a 50-year lease with the new airport authority represented by the Commonwealth of Virginia, the State of Maryland, and the District of Columbia. The lease provides for the airport authority to pay to the general fund of the U.S. Treasury annually an amount computed using GNP price deflator, to equal \$3 million in 1987 dollars.

The new airport authority operates, maintains, protects, promotes, and develops National and Dulles as primary airports serving the Metropolitan Washington Area.

## AIRCRAFT PURCHASE LOAN GUARANTEE PROGRAM

The Secretary of Transportation may hereafter issue notes or other obligations to the Secretary of the Treasury, in such forms and denominations, bearing such maturities, and subject to such terms and conditions as the Secretary of the Treasury may prescribe. Such obligations may be issued to pay any necessary expenses required pursuant to any guarantee issued under the Act of September 7, 1957, Public Law 85-307, as amended (49 U.S.C. 1324 note). None of the funds in this Act shall be available for the implementation or execution of programs under this head, the obligations for which are in excess of \$57,000,000 during fiscal year [1988] 1989. Such obligations shall be redeemed by the Secretary from appropriations authorized by this section. The Secretary of the Treasury shall purchase any such obligations, and for such purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as now or hereafter in force. The purposes for which securities may be issued under such Act are extended to include any purchase of notes or other obligations issued under the subsection. The Secretary of the Treasury may sell any such obligations at such times and price and upon such terms and conditions as

he shall determine in his discretion. All purchases, redemptions, and sales of such obligations by such Secretary shall be treated as public debt transactions of the United States. (*Department of Transportation and Related Agencies Appropriations Act, 1988.*)

The fund currently provides direct support for the aviation insurance program authorized under title XIII of the Federal Aviation Act.

Income to the fund is derived from premium deposits for premium insurance coverage issued, income from authorized investments, and binder fees for nonpremium coverage issued. The binders provide aviation insurance coverage for U.S. air carrier aircraft used in connection with certain Government contract operations entered into by the Department of Defense (DOD) and Department of State (DOS). There exist indemnity agreements under which the DOD and DOS agree to reimburse the Department of Transportation for all payments on account of losses to air carriers sustaining damage to their aircraft by an insured peril with respect to the aircraft operating under contract to DOD and DOS.

Administrative costs are paid from the Aviation Insurance Revolving Fund, into which are credited receipts from premiums, salvage, and interest on assets of the fund (49 U.S.C. 1536).

The Tax Equity and Fiscal Responsibility Act of 1982 (26 U.S.C. 9502), as amended by Title IV of the Airport and Airway Safety and Capacity Expansion Act of 1987 (P.L. 100-223), provides for the revenues received in the Treasury from the 8 percent passenger ticket tax and certain other taxes paid by airport and airway users to be transferred from the general fund of the Treasury to the Airport and Airway trust fund. The Secretary of the Treasury estimates the amount to be so transferred. In turn, appropriations are authorized from this fund to meet obligations for airport planning and development and noise compatibility planning and programs; facilities and equipment; research, engineering and development; and a portion of operations.

The status of the fund is as follows (in thousands of dollars):

Uncommitted cash balance, end of year.....	5,558,581	5,979,854	5,596,304

At the end of 1988, the uncommitted Trust Fund balance is estimated to be almost \$6.0 billion. This balance has accumulated in part because a penalty provision in the 1982 and 1987 authorization acts caused the share of FAA operations appropriations financed from the Trust Fund to be \$4.0 billion lower than authorized. This shortfall was subsidized by the general taxpayer through the use of general appropriations.

If 1989 operations recovery from the Trust Fund were to be calculated based on the penalty provision in the 1987 Act, there would be an increase of almost \$1.0 billion in the Trust Fund surplus and general tax revenues would continue to subsidize this shortfall.

The proposed 1989 appropriation language waives a part of the penalty provision, thereby allowing a greater recovery of aviation expenses from the Trust Fund and also reducing the 1989 surplus.

The Airport and Airway Safety and Capacity Expansion Act of 1987, Public Law 100-223, provides for airport improvement grants which emphasize capacity development, safety, and security needs. To meet these objectives, a \$1,200,000,000 program level is proposed for fiscal year 1989.

For necessary expenses, not otherwise provided for, for acquisition, establishment, and improvement by contract or purchase, and hire of air navigation and experimental facilities, including initial acquisition of necessary sites by lease or grant; engineering and service testing including construction of test facilities and acquisition of necessary sites by lease or grant; and construction and furnishing of quarters and related accommodations of officers and employees of the Federal Aviation Administration stationed at remote localities where such accommodations are not available; **[and the lease or purchase of one aircraft;]** to be derived from the Airport and Airway Trust Fund and to remain available until September 30, **[1992, \$1,108,056,000]** 1993, \$1,600,000,000: *Provided*, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred in the establishment and modernization of air navigation facilities: *Provided further*, That of the funds available under this head, \$5,225,000 shall be available for the Secretary of Transportation to enter into grant agreements with universities or colleges having an airway science curriculum recognized by the Federal Aviation Administration, to conduct demonstration projects in the development, advancement, or expansion of airway science curriculum programs, and such funds, which shall remain available until expended, shall be

made available under such terms and conditions as the Secretary of Transportation may prescribe, to such universities or colleges for the purchase or lease of buildings and associated facilities, instructional materials, or equipment to be used in conjunction with airway science curriculum programs, but, notwithstanding any other provision of law, beginning in fiscal year 1989 and thereafter, in no event shall the total Federal share provided for any airway science construction project exceed 50 percent of the total cost of such project. (Department of Transportation and Related Agencies Appropriations Act, 1988.).

Under this appropriation, the Federal airway system is improved by the installation of new equipment and the construction and modernization of facilities to keep pace with aeronautical activity. The appropriation also finances major capital investments required by other agency programs, such as aircraft for flight inspection of facilities, and related training, and experimental facilities for the engineering and development program. The operating costs of facilities procured under this appropriation are financed under the Operations appropriation.

The funding requested for 1989 is in accordance with the Federal Aviation Administration's comprehensive plan for modernizing and improving air traffic control and airway facilities services.

Budget activities include:

**Air route traffic control centers.**—Long-range radar, communications and automation equipment provide air traffic controllers information on aircraft positions and weather.

**Airport traffic control towers.**—Terminal area radar, doppler weather radar, communications and automation equipment aid air traffic controllers in handling air traffic.

**Flight service facilities.**—Flight service stations and associated facilities provide flight assistance to pilots, particularly general aviation pilots.

**Air navigation facilities.**—Very high, medium and low frequency facilities are used to define airways and air routes and provide distance, direction and weather information to pilots. Precision landing systems, distance measuring equipment and visual lighting aids assist pilots in making final approaches to airport runways.

**Housing, utilities, and miscellaneous facilities.**—This activity includes general facility support requirements which apply to a wide range of FAA installations.

**Aircraft and related equipment.**—This activity includes the procurement, modification and/or replacement of equipment to inspect the accuracy and other characteristics of navigation and traffic control aids from the air and to conduct research and development activities.

**Development, test and evaluation facilities.**—This activity provides for leasing and improvements of the plant and facilities at the Federal Aviation Administration Technical Center in Atlantic City, NJ.

The FAA conducts research, engineering and development programs to improve the national air traffic control system by increasing its safety, productivity and capacity to meet the expected air traffic demands of the future. The agency also administers aviation medical research aimed at increasing the personal effectiveness of air traffic controllers and the safety of aircrew members.

These programs are conducted by the agency's technical personnel and through contracts with qualified private firms, universities, individuals and other Government agencies.

*Air traffic control.*—Initiatives include development and implementation of a collision avoidance capability, development of a communications switching system, and development of data link air/ground services.

This program also includes developing new traffic control system features and concepts and assessing their technical, economic, and operational feasibility to meet the demands of the 1990's. Additional research activities include upgrading airport design standards and developing advisory information and regulatory actions that improve airport safety. Research efforts related to delay reduction and capacity improvements at high density airports are also undertaken.

*Advanced computer.*—This activity modernizes the air traffic control system in order to accommodate future air traffic demands, through the design, development, and testing of an advanced automation system.

ATC automation will be further enhanced by developing traffic management functions to allocate efficiently traffic demand to available system capacity and by developing ATC automation aids for the en route/terminal airspace and airport surface to increase the safety and efficiency of aircraft operations.

*Navigation.*—This program provides for research and development activities for navigation systems to assess and develop standards for navigation systems in the post-1995 period.

*Aviation weather.*—This activity provides for modernization of weather information systems through development of weather radars, processors, and research into hazardous weather phenomena, in coordination with the Departments of Defense and Commerce.

*Aviation medicine.*—Aeromedical research is directed toward identifying and eliminating those physiological and psychological factors harmful to personnel engaged in operating the air traffic control system or which may jeopardize flight safety.

*Aircraft safety.*—This activity covers research to promote flight safety of civil aircraft, develop systems and devices to prevent and deter sabotage in the civil air transportation system and further improve fire safety.

*Environment.*—Principal efforts include the development of data to support rulemaking and to minimize the undesired environmental effects on the public attributable to the air transportation system. Research will also continue into air pollution and noise control, primarily associated with certification and enforcement requirements.

The Airport and Airway Improvement Act of 1982, as amended by the Airport and Airway Safety and Capacity Expansion Act of 1987, authorizes use of the Airport and Airway Trust Fund as the source of financing a portion of FAA's operating costs. Under the terms of the "penalty provision" in that Act, the level of operations funded from the Trust Fund would be limited significantly because of the need to fund capital programs below full authorization in order to comply with the recent Bipartisan Budget Agreement. The Department is proposing to fund operations recovery of 50 percent of the funds made available for airport grants, facilities and equipment, and research as provided by the Act, but to waive the "penalty provision" for 1989 which would otherwise reduce the amount available for operations. In FY 1989, \$1.48 billion of the Operations appropriation is proposed to be financed from the Trust Fund.

Funds for operating expenses represent more than two-thirds of the total Coast Guard program level. To carry out its unique duties as a peacetime operating agency and one of the military services, the Coast Guard employs multipurpose vessels, aircraft and shore units, strategically located along the coasts and inland waterways of the United States and in selected areas overseas. In 1989, search and rescue and enforcement of laws and treaties still account for the major portions of the budget. Amounts requested for the activities described below reflect the continued introduction into the operating forces of new equipment and capital facilities, including new medium endurance cutters and aircraft. Although program increases are included for these new resources, they are partially offset by savings achieved through a reduction in older, existing platforms. Additional savings will be achieved through continued management improvements, including productivity increases, improved efficiency of operations, and continued contracting out of support activities. The growth in the budget includes built-in changes required by military and civilian pay raises, cost-of-living adjustments, and an addition to the budget base of previously non-recurring "in kind" services received from the U.S. Navy.

**Search and rescue.**—The Coast Guard maintains a nationwide system of boats, aircraft, cutters, and rescue coordination centers on 24-hour alert capable of responding to notice of a distress incident.

**Aids to navigation.**—A network of floating and fixed aids to navigation is maintained along our coasts and on inland waterways to insure the safe passage of the mariner. Loran-C stations provide electronic coastal marine navigation as well as enroute and non-precision approach aviation navigation capabilities throughout the United States. Domestic Loran-C serves the needs of both civilian and military users throughout the continental U.S. and Alaska. Overseas, Loran-C is operated in support of DOD requirements. Eight OMEGA stations, six of which are operated and funded to various levels by the six host partner nations, provide naviga-

tional coverage to military and civilian ships and aircraft nearly worldwide. Radiobeacons operated in the United States provide mariners with an all-weather, low user cost navigational system, used primarily for homing, along our coasts and in the Great Lakes. Administrative control is exercised over the construction, maintenance, and operation of bridges across navigable waters of the United States.

**Marine safety.**—The Coast Guard's safety program consists of two major activities:

**Marine inspection and marine licensing programs.**—The Coast Guard reviews plans and specifications for the construction or alteration of merchant vessels; conducts periodic inspections; investigates casualties; and sets standards, procedures, and practices under which merchant marine personnel are licensed and regulated.

**Marine environmental protection.**—The Coast Guard's marine environmental protection program consists of two major activities:

**Marine environmental readiness.**—Under various laws, international agreements and conventions the Coast Guard is responsible for responding to pollution incidents involving oil and hazardous chemicals. The Coast Guard receives reports, evaluates, responds to, and mitigates potential and actual pollution discharges on waters and land areas defined as the "Coastal Zone" in the National Contingency Plan.

**Port safety and security.**—Under various laws, conventions, international agreements, and memoranda of understanding with other Federal agencies, the Coast Guard is charged with promoting port safety and security in ports, on waterways, and on the high seas. The Coast Guard is expected to provide rapid and effective response to port emergencies such as fires, explosions, collisions, civil disturbances, and terrorist incidents. The Coast Guard Captain of the Port (COTP) has extensive law enforcement authority over waterfront facilities, vessels and the navigable waters of the United States, and has a broad role as the coordinator and overseer of port safety and security activities of all parties involved in the port complex. Coast Guard responsibilities in port security have been increased recently under the combined Navy/Coast Guard Maritime Defense Zone initiative, and under the DOD/DOT Memorandum of Understanding on Port Readiness.

**Enforcement of laws and treaties.**—Maritime enforcement of laws and treaties is accomplished by cutters and aircraft conducting patrols to enforce international agreements and Federal laws on and over the high seas and waters over which the U.S. exercises jurisdiction. Fisheries enforcement involves living marine resources, while general law enforcement concerns drug smuggling by air and sea, illegal immigration, hijacking/theft of vessels and other unlawful activities.

This budget reflects increased Coast Guard efforts in the interdiction of controlled substances being smuggled by air into the United States. This budget includes funding for land based aerostats and other facilities in the Bahamas.

**Ice operations.**—Polar ice operations are performed in the Arctic and Antarctic by icebreakers in support of programs of the Coast Guard and other agencies. Funding to continue analyses on how best to replace current icebreakers with new cutters is contained elsewhere in this budget.

Domestic ice operations are performed on the navigable waters of the United States. Also included are certain marine science activities.

**Defense readiness.**—The Coast Guard operates as a service in the Navy upon declaration of war or during times of national emergency at the direction of the President. During peacetime, an effective state of military preparedness is maintained through individual and unit training, by joint naval training exercises, and by Coast Guard single and multiship operations.

**Headquarters administration.**—Headquarters administration provides funding for administrative services at the headquarters location of the Coast Guard, including executive direction; budget, planning and policy; command, control, communication, and operations; financial management; legal; engineering; civil rights; and personnel and health services for the Coast Guard.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of acquisition, construction, rebuilding, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto, to remain available until September 30, [1992] 1993, [\$247,000,000] \$348,000,000: *Provided*, That the Secretary of Transportation shall issue regulations requiring that written warranties shall be included in all contracts with prime contractors for major systems acquisitions of the Coast Guard: *Provided further*, That any such written warranty shall not apply in the case of any system or component thereof that has been furnished by the Government to a contractor: *Provided further*, That the Secretary of Transportation may provide for a waiver of the requirements for a warranty where: (1) the waiver is necessary in the interest of the national defense or the warranty would not be cost effective; and (2) the Committees on Appropriations of the Senate and the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Merchant Marine and Fisheries of the House of Representatives are notified in writing of the Secretary's intention to waive and reasons for waiving such requirements: *Provided further*, That the requirements for such written warranties shall not cover combat damage. (*Department of Transportation and Related Agencies Appropriations Act, 1988; additional authorizing legislation to be proposed.*)

This appropriation provides for the major acquisition, construction, and improvement of vessels, aircraft, shore units, and aids to navigation, excluding minor acquisitions, additions, renewals, and replacements funded in the Operating Expenses appropriation where estimated costs of a project are \$150 thousand or less, or where renewals and replacements involve less than 75 percent of the original facility. Most of the facilities

financed by this appropriation are multi-mission in nature and are required by the Coast Guard in the performance of its operational and regulatory missions.

**Vessels.**—During fiscal year 1989, acquisition of the 44-foot Motor Lifeboat will continue. All thirteen 270-foot Medium Endurance Cutters (WMEC) will be operational or delivered. In addition, the ninth and final 140-foot Icebreaking Tug (WTGB) will be operational. Major accomplishments will also be realized in the area of vessel renovation and modernization. By the end of fiscal year 1989, all but three of the 37 Coast Guard Island Class 110-foot patrol boats will be delivered or operational. Five of twelve 378-foot High Endurance Cutters (WHEC) and six of sixteen 210-foot Medium Endurance Cutters (WMEC) will have completed their major renovations; five additional WHECs, and two WMECs will be undergoing renovation. Six 180-foot Buoy Tenders (WLB) will have completed service life extension rehabilitation and efforts to design a replacement for the WLB/WLM Buoy Tenders will begin. Nine 130-foot barges for the Second Coast Guard District and three 55-foot Aids-to-Navigation boats will be delivered or operational. Cumulatively, these accomplishments will enhance critical multimission capabilities of the Coast Guard's major vessel capital assets, as well as the fleet's readiness and maintenance posture.

**Aircraft.**—Three new HC-130 Long Range Surveillance fixed-wing aircraft funded in the fiscal year 1986 Coastal Defense Augmentation Account and two funded in the fiscal year 1987 Omnibus Drug Bill will be delivered by the end of fiscal year 1988. During the period fiscal year 1988-89, considerable progress will be made in acquiring aircraft sensors to enhance search and rescue and law enforcement missions. Six Airborne Surveillance Systems (AIREYE) will be in operational use on HH-25A Medium Range Search aircraft during fiscal year 1988. Funds to procure contract maintenance and installation kits for the HC-130 Forward Looking Airborne Radars (FLAR) are requested. All 96 of the HH-65A Short Range Recovery (SRR) helicopters will be delivered by the end of fiscal year 1988. Continued acquisition of the HH-60 Medium Range Recovery (MRR) helicopter and improvements to the HH-65A helicopter promises enhanced mission performance for the Coast Guard helicopter fleet. These improvements will include faster response time, safer operations, and more capable detection systems.

**Shore Facilities.**—Recent shore facility projects have emphasized both new construction and renovation over plant expansion. These projects range from air station rehabilitations and moorings improvements to a service-wide program to remove and replace unused and leaking underground tanks. Particular emphasis has been placed on upgrading shore facilities at Alameda, CA, Portsmouth, VA, Boston, MA, New Bedford, MA, and Long Beach, CA, and health care facilities at Kodiak, AK and Yorktown, VA. This construction is expected to be completed in fiscal year 1989. Projects have also been initiated or continued to provide advanced command, control, communications and information systems to Coast Guard commands, thereby enhancing productivity and facilitating management decisions. The condition of the existing shoreplant, com-

combined with the need for a measure of expansion, requires a significant emphasis on shoreplant investment.

This appropriation provides the Government's share of the costs for altering or removing bridges determined to be obstructions to navigation. Generally, bridges to be altered were built with what are now insufficient vertical and/or horizontal clearances for free navigation on navigable waters of the United States. \$8.5 million is requested in 1989 to complete alteration of the

Burlington Northern RR bridge over the Willamette River, Portland, OR.

**RETIRED PAY**

For retired pay, including the payment of obligations therefor otherwise chargeable to lapsed appropriations for this purpose, and payments under the Retired Serviceman's Family Protection and Survivor Benefits Plans, and for payments for medical care of retired personnel and their dependents under the Dependents Medical Care Act (10 U.S.C., ch. 55), **[\$386,700,000] \$410,800,000**. The Coast Guard Reserve Forces provide qualified individuals and trained units for active duty in event of war, national emergency or domestic disaster. These forces keep ready through realistic, coordinated training in wartime skills, formal training in military skills, and performing peace time duties with the Regular Forces during normal and emergency operations. The 1989 program will provide a Ready Reserve of 18,700 including a Selected Reserve of 13,000.

**Initial training.**—Direct costs of initial training for non-prior service recruits are programmed under this activity.

**Continuing training.**—Direct costs of officer and enlisted drills and annual active duty for training are programmed under this activity.

**Operation and maintenance of training facilities.**—Reserve training facilities for operation and maintenance are programmed under this activity.

**Administration.**—All administrative costs for the Reserve Forces program are programmed under this category.

**Miscellaneous services for other accounts.**—Coast Guard mobilization-related activities for the Selected

Service System and the Federal Emergency Management Agency are reimbursed under this activity.

The Coast Guard's Research and Development (R&D) program seeks to maintain the technological base in areas crucial to the successful execution of the Coast Guard's operational and regulatory missions. The R&D program includes the development of techniques, methods, hardware, and systems which directly contribute to increasing the productivity and effectiveness of operating forces. Tests and evaluations are carried out in conjunction with research and development. The 1989 request will provide for: development of improved search and rescue capability; support for replacement of marine vehicles; development of improved aid to navigation performance techniques; development of improved vessel safety knowledge bases to support establishment, modification, or discontinuance of various regulations and standards; development of systems and procedures for control and cleanup of pollutant spills; development of techniques to support law enforcement efforts; technological support for defense readiness; and research, development, test, and evaluation in multi-mission project areas.

This fund insures immediate cleanup of oil or other hazardous polluting substances spilled into the navigable waters of the United States, adjoining shorelines or waters of the contiguous zone. The fund is used when a spill occurs and the responsible owners or operators of a vessel, onshore facility, or offshore facility do not accomplish immediate cleanup with their own resources. Expenditures from the fund are later reimbursed by the responsible owners or operators.

The Deepwater Port Act of 1974 provided a system for determination and settlement, without fault, of claims for all cleanup costs and damages incurred, but not otherwise compensated, as a result of discharges of oil into the marine environment from deepwater port activities. The Deepwater Port Act Amendments of 1984 (Public Law 98-419) suspended, as of September 25, 1984, the 2-cent-per-barrel fee to be assessed against all oil delivered at deepwater ports and to be deposited in this fund. The collection of this fee may not resume unless the fund balance falls below \$4,000,000. Additional funds are not requested for fiscal year 1989.

The Internal Revenue Code of 1954, as amended, and the Federal Boat Safety Act of 1971 (Public Law 92-75), as amended, provide for the transfer of Highway Trust Fund revenue derived from the motor boat fuel tax and certain other taxes to the Aquatic Resources Trust Fund. The Secretary of the Treasury estimates the amounts to be so transferred. In turn, appropriations are authorized from this fund to meet expenditures for recreational boating safety assistance and other programs specified by law.

**MARITIME ADMINISTRATION**

The programs administered by the Maritime Administration (MarAd) are authorized by the Merchant Marine Act, 1936, and other related acts. The agency promotes the development and maintenance of an American merchant marine for commercial and defense needs; grants subsidy aid for operation of vessels by American flag operators; administers the outstanding Federal Ship Financing Fund portfolio; pays the increased cost associated with the expanded cargo preference requirement in the Food Security Act of 1985; maintains in a standby condition Government-owned fleets; and trains cadets to become licensed merchant ship officers.

The following table shows the funding for the MarAd programs, including proposed legislation for which detail is furnished in the budget schedules:

The Merchant Marine Act of 1936, as amended, provides that operating subsidies shall be paid to qualified operators of U.S.-flag vessels in order to promote the maintenance of a U.S. Merchant Marine capable of providing essential ocean-shipping services. A strong U.S. Merchant Marine is important to national security and to the development of foreign commerce. Subsidies are designed to achieve a parity between certain U.S. and foreign ship operating costs. The 1989 request provides funds for existing operating-differential subsidy contracts. The budget reflects no new contract authority on the basis that the obligations under the existing contracts were incurred when the contracts were signed. The Administration has proposed a reform of the Operating-Differential Subsidy program which results in \$224,440,000 of budget authority in fiscal year 1989. This proposal follows this presentation.

This legislative proposal reflects the Operating-Differential Subsidy reform measures transmitted to Congress on July 6, 1987. Implementation is assumed on October 1, 1988. Under the reform proposal, an appropriation for current budget authority amounting to \$72,920,000 is estimated for agreements with new operators. It is estimated that the multi-year cost of existing operators' contracts will decrease by a net of \$333,892,000. This net decrease reflects an increase of \$151,520,000 for one contract, the term of which is estimated to extend beyond the current expiration date. This increase is reflected as permanent, indefinite contract authority.

Public Law 99-198 amended section 901 of the Merchant Marine Act to increase from 50 to 75 percent the amount of agricultural commodities under specified programs that must be carried on U.S.-flag vessels. The increased cost associated with this expanded U.S.-flag shipping requirement stems from higher rates charged by U.S.-flag carriers compared with foreign-flag carriers. The Maritime Administration is required to reimburse the Department of Agriculture for ocean freight differential costs for the added tonnage above 50 percent. These reimbursements are funded through borrowings from the Treasury. Public Law 99-198 also requires the Maritime Administration to reimburse the Department of Agriculture for the amount which their ocean freight and ocean freight differential costs in any fiscal year exceeds 20 percent of the cost of the commodities shipped plus ocean freight and ocean freight differentials. The 1988 and 1989 budget estimates do not anticipate payments for the excess 20-percent rule. The Administration has proposed legislation to reform the Operating-Differential Subsidy program, which includes certain reforms in the way cargo preference requirements are administered.

The specific activities funded by the operations and training appropriation are as follows:

*Maritime education and training—*

*Merchant Marine Academy.*—This activity provides for operating the Merchant Marine Academy at Kings Point, NY. The objective of the Academy is to instruct and prepare selected personnel for service as officers in the merchant marine. Approximately 185 officers will graduate in 1989. Additional funds are provided in 1989 for facilities modernization and renovation.

*State marine schools.*—This activity provides assistance to States in the operation and maintenance of maritime academies or colleges for the training of merchant marine officers. Initiation in 1989 of a program for sharing training vessels by the five ocean-going schools is proposed as well as a requirement that all students at the State marine schools accept a Naval Reserve Commitment. An estimated 475 merchant marine officers will graduate from the State marine schools in 1989.

*Additional training.*—This activity provides for the costs of administration of the Merchant Marine Academy and State marine schools programs at the bureau level, and for the conduct of supplementary

training courses required for merchant marine personnel.

*National security support capability.*—This activity provides for maintaining U.S. merchant ships in the National Defense Reserve Fleet for service as naval and military transport auxiliaries in time of war and national emergency and for emergency preparedness activities. Funds are provided in 1989 to continue a multi-year program for capital investment needs including facility alterations and maintenance, and replacement of support craft.

*Operating programs—*

*Development of waterborne transportation systems.*—This activity provides for direct technical and administrative costs of programs for development and construction of cost-competitive U.S. merchant ships in sufficient quantity to meet national maritime objectives.

*Use of waterborne transportation systems.*—This activity provides for the direct technical and administrative costs of promoting the effective development and use of merchant ships and ship systems. Program objectives involve increasing U.S.-flag participation in U.S. foreign trade and reducing or eliminating operating subsidies when no longer required to sustain a viable shipping operation.

*General administration.*—This activity provides for overall executive direction and general administrative functions of the Maritime Administration.

This appropriation provides funding for the Ready Reserve Force (RRF), which is comprised of Government-owned, U.S.-flag merchant ships laid up in the National Defense Reserve Fleet (NDRF). The RRF is maintained in an advanced state of readiness to meet surge shipping requirements during a national emergency. The 1989 budget proposes to appropriate these funds to the Maritime Administration, which has historically managed the RRF and funded certain RRF base costs in its Operations and Training appropriation. In the past, the Navy has funded the incremental cost of advanced readiness requirements. The proposed 1989 consolidation will place the entire funding and program responsibility for RRF ships in one Federal agency, pursuant to the requirement in Public Law 100-202.

The specific activities funded by this appropriation are as follows:

**Fleet additions.**—This activity provides for expansion or selective replacement of RRF ships. Acquisitions will be made to provide the number and type of ships required for this program based on DOD planning.

**Maintenance and operations.**—This provides funds for RRF ship activations and deactivations required to test ship reactivation readiness and to support DOD/Navy exercises of a broader purpose. Costs of ship operations will be funded by the organization

requiring the ship activation. This activity also provides for maintaining RRF ships in an advanced state of reactivation readiness and associated costs of berthing ships at dispersed locations. Also included are special programs in support of the RRF and special training related to these ships such as that for radio officers and crane ship cargo handling crews.

**Public enterprise funds:**

**FEDERAL SHIP FINANCING FUND\***

\*See Part II for additional information.

During fiscal year 1989, no new commitments for guaranteed loans will be made.

The Merchant Marine Act of 1936, as amended, established the Federal ship financing fund to assist in the development of the U.S. merchant marine by guaranteeing construction loans and mortgages on U.S.-flag vessels built in the United States.

The budget proposes appropriations language to prohibit new loan guarantee commitments in 1988 and 1989 and thereafter. Legislation will also be proposed to terminate permanently the Secretary's authority to guarantee loans.

**Budget program.**—Administrative expenses incurred in the operation of the Federal ship financing fund are paid from income to the fund. Direct loans in the form of advances to operators to forestall possible defaults are estimated at \$5 million in 1989. In 1989 the estimate includes \$100 million as a contingency against possible defaults.

**Financing.**—The fund receives income from insurance premiums on construction loans and mortgages, fees, and interest on mortgages held directly.

The Maritime Administration is authorized to reactivate, operate, deactivate, and charter merchant vessels. These operations are financed by the Vessel operations revolving fund. In addition, the fund is available to finance the necessary expenses to protect, maintain, preserve, acquire, and use vessels involved in mortgage foreclosure or forfeiture proceedings instituted by the United States; and to process advances received from Federal agencies.

**Budget program.**—The 1989 program level reflects the transfer of the appropriation for the Ready Reserve Force Program from Navy to MarAd. Funds will continue to be reimbursed to this fund for various DOD/Navy-sponsored activities, such as the operation of activated RRF vessels.

**Financing.**—Expenses are principally financed by reimbursements from Federal agencies.

The Maritime Administration is authorized to insure against loss or damage from marine war risks until commercial insurance can be obtained on reasonable terms and conditions. This insurance includes war risk hull and disbursements interim insurance, war risk protection and indemnity interim insurance, second seamen's war risk interim insurance, and war risk cargo insurance standby program. Authority to underwrite insurance was extended to June 30, 1990, under Public Law 99-59.

**Budget program.**—It is estimated that during 1989 insurance coverage will be provided for approximately 340 U.S.-flag ships and 15 foreign-flag ships owned by U.S. citizens. The program also includes provision for second seamen's war risk insurance covering the crews of 10 vessels under contract with the Military Sealift Command.

**Financing.**—The war risk insurance revolving fund was established under 46 U.S.C. 1288. It receives income from binder fees, insurance premiums, interest from investments and claim reimbursements from other Federal agencies. Underwriting agents' fees and expenses, appraisal contractors' fees, and insurance claims are paid from this income.

The Saint Lawrence Seaway Development Corporation is a wholly owned Government Corporation responsible for the operation, maintenance and development of the United States portion of the St. Lawrence

Seaway between Montreal and Lake Erie. Major priorities are to control Seaway Corporation costs and to encourage increased use of the Seaway system. The Seaway Corporation is focusing on ways to promote and market the Seaway system. The Corporation's 1989 budget reflects the activities to accomplish these objectives as follows:

**Administrative expenses.**—This program provides for management and administration of the Corporation.

**Other operations and maintenance.**—The program provides for normal operations and maintenance of all facilities, trade and traffic development, as well as continuing improvements in lock operations and navigation systems, and replacing worn-out equipment, machinery and tools. Operations are conducted on a 24-hour day, 7-day week with maintenance functions being performed throughout the year.

For fiscal year 1989, the Corporation estimates it will collect income of \$12.3 million. The Water Resources Development Act of 1986 provides for the deposit of toll revenues in the Harbor Maintenance Trust Fund. Appropriations from the Fund are intended to finance the operation and maintenance of the portion of the Seaway for which the Corporation is responsible. This budget assumes passage of the Administration's proposal to restore the Corporation to direct toll financing.

The Research and Special Programs Administration serves as a research, analytical, and technical development arm of the Department for multimodal research and development, as well as special programs. Particular emphasis is given to transportation of hazardous cargo by all modes of transportation. Responsibilities of the Administration are carried out under the following activities:

**Operations.**—Provides for salaries and expenses and for central supervisory and management functions, including a management information system necessary for overall planning and direction. Provides for management and execution of transportation programs involving aviation data management, national emergency plans/preparedness, and management of the Transportation Safety Institute and the Transportation Systems Center. Provides for hazardous materials regulatory and enforcement programs.

**Research and development.**—Provides for research to support the hazardous materials program and to complement research programs of other operating administrations.

The Working Capital Fund finances multidisciplinary research, evaluation, and analytical activities undertaken at the Transportation Systems Center (TSC) in Cambridge, MA. The fund is financed through negotiated agreements with the Office of the Secretary, Departmental operating administrations, and other governmental elements requiring the Center's capabilities. These agreements also define the activities undertaken at TSC. The Department has proposed legislation to authorize evaluation of options for defederalization of TSC.

*General administration.*—This appropriation finances the costs of policy development and central supervisory and coordinating functions necessary for the overall planning and direction of the Department. It covers the immediate secretarial offices as well as those of the assistant secretaries and the general counsel. The Office of the Secretary provides services on a reimbursable basis for technical assistance to transportation projects, and participation in intergovernmental planning groups. Increases in funding are offset in 1989 by proposed reductions associated with the termination of the Essential Air Service program in 1988 and various administrative reductions.

*The Minority Business Resource Center.*—This activity provides contractual support for the Center, which now operates in the Office of the Secretary to assist minority business firms, entrepreneurs, and venture groups in securing contracts and subcontracts arising out of projects that involve Federal funding.

This appropriation finances those research activities and studies concerned with planning, analysis, and information development needed to support the Secretary's responsibilities in the formulation of national transportation policies.

The program is carried out primarily through contracts with other Federal agencies, educational institutions, nonprofit research organizations, and private firms.

*Transportation policy and planning.*—This research provides the foundation for development of transportation policy, for coordination of national level transportation planning, and for dealing with such difficult issues as regulatory modernization, energy conservation, environmental and safety impacts of transportation.

Projects provide technical studies and other data in support of the Secretary's decisions involving State and local level planning, consumer affairs, technology sharing, and evaluation of departmental programs.

**University research and internships.**—This activity provides assistance to colleges, universities and their students to conduct research in the field of transportation. Special emphasis is placed on assisting historically Black colleges and universities in taking part in transportation research and aiding minority students in preparing for careers in transportation.

**Commercial space transportation.**—This activity supports the mission of licensing and promoting Expendable Launch Vehicles (ELVs).

Legislation will be proposed to sunset the Interstate Commerce Commission at the end of 1988 and transfer residual rail functions to the Department of Transportation including the Directed Rail Service Program. The Directed Rail Service Program reimburses railroads for the cost of services provided over the track of a railroad which ceased operations, at the direction of the Federal Government. It is anticipated that no funds will be needed for this purpose in 1989. Rail antitrust functions

will be administered by the Department of Justice, and handling consumer complaints regarding household goods movers would transfer to the Federal Trade Commission.

The Secretary of Transportation, through powers of delegation and review, now administers the section 419 subsidy program, which was added as part of the Airline Deregulation Act of 1978. Subsidies under this program are paid to airlines—primarily commuter carriers. No funds are requested for this program in 1989

General and special funds—Continued

[PAYMENTS TO AIR CARRIERS]—Continued

and legislation will be proposed to effect termination by October 1988.
