Programs funded under the Operations and Research appropriation are described below. Funding levels vary between activities to reflect current priorities.

Rulemaking Programs.—Provides for rulemaking activity relative to the promulgation of Federal motor vehicle safety standards for new and used motor vehicles, tires, and safety-related equipment; automotive fuel economy standards required by the Energy Policy and Conservation Act; international harmonization of standards; regulatory reform; and information on motor vehicle safety required by the Motor Vehicle Information and Cost Savings Act. The agency's Priority Plan and the ISTEA rulemaking provisions will guide the regulatory and other safety activities of NHTSA during FY 1995.

Enforcement Programs.—Provides for the enforcement of programs described under the rulemaking activity, including manufacturer compliance with motor vehicle safety and automotive fuel economy standards, investigation of safety-related motor vehicle defects (and institution of recalls when warranted).

Research and Analysis.—Provides motor vehicle safety research and development in support of all NHTSA programs, including the collection and analysis of data to identify safety problems, develop alternative solutions, and assess costs, benefits and effectiveness. Research will continue to concentrate on improving vehicle crashworthiness and crash avoidance and a sound crash information program. The FY 1995 budget includes funds to continue a national crash data collection program to improve problem identification, regulatory reform and program evaluation activities. Continued funding is provided for biomechanics research and the fabrication, test, and validation phase for the national advanced driving simulator

at the University of Iowa, and support of Intelligent Vehicle-Highway Systems (IVHS).

This account represents the portion of the operations and research appropriation authorized under 23 U.S.C. 403, as well as the Drug Recognition Expert Training Program, financed from the Highway Trust Fund for the following activities:

Highway Safety Programs.—Provides for technical assistance to highway safety programs conducted by State and local governments, the private sector, universities and research units, and various safety associations and organizations. This assistance includes demonstration programs emphasizing alcohol and drug countermeasures, occupant protection usage, automatic crash protection, law enforcement, emergency medical and trauma care systems, traffic records, motorcycle riders and pedestrian/bicycle safety. The Department has set two important traffic safety program goals for the nation: NHTSA will undertake programs to reduce alcohol related fatalities to 43 percent, and increase safety belt use to 75 percent by 1997. In FY 1995, the agency will launch a new combined Impaired Driving/Occupant Protection Program, developed during FY 1994 in cooperation with the States and major highway safety organizations, to address these goals.

Research and analysis.—Provides for highway safety research in support of NHTSA programs, including the collection and analysis of data to determine the relationship between driver performance characteristics and crashes causing death or personal injury. Research is also undertaken to identify ways to improve safety belt usage and to prevent alcohol and drug-impaired driving. The FY 1995 budget includes funding to continue a national accident data collection program to improve problem identification, regulatory reform, and program evaluation activities.

HIGHWAY TRAFFIC SAFETY GRANTS
(LIQUIDATION OF CONTRACT AUTHORITY)
(HIGHWAY TRUST FUND)

For payment of obligations incurred carrying out the provisions of 23 U.S.C. 153, 402, [406,] 408, and 410, [section 2007 of the Intermodal Surface Transportation Efficiency Act of 1991] 211(b) of the National Driver Register Act of 1982, as amended, and section 209 of Public Law 95-599, as amended, to remain available until expended, [\$138,550,000] \$151,000,000, to be derived from the Highway Trust Fund: *Provided*, That, notwithstanding subsection 2009(b) of the Intermodal Surface Transportation Efficiency Act of 1991, none of the funds in this Act shall be available for the planning or execution of programs the total obligations for which, in fiscal year [1994] 1995, are in excess of [\$163,500,000] \$151,400,000 for programs au-

thorized under 23 U.S.C. 402 and 410, as amended, of which \$123,000,000 shall be for "State and community highway safety grants", [\$12,000,000 shall be for section 153 "Safety belt and motorcycle helmet use" grants, and \$3,500,000] \$3,400,000 shall be for the "National Driver Register", and \$25,000,000 shall be for section 410 "Alcohol-impaired driving countermeasures programs": *Provided further*, That none of these funds shall be used for construction, rehabilitation or remodeling costs, or for office furnishings and fixtures for State, local, or private buildings or structures: *Provided further*, That none of the funds in this Act shall be available [for the planning or execution of programs the total obligations for which are in excess of \$10,500,000] for "Alcohol safety incentive grants" authorized under 23 U.S.C. 408 or for "Safety belt and motorcycle helmet use" grants authorized under subsection 153(j): *Provided further*, That not to exceed [\$5,153,000] \$5,268,000 of the funds made available for section 402 may be available for administering "State and community highway safety grants": *Provided further*, That not to exceed \$500,000 of the funds made available for section 410 may be available for technical assistance to the States: *Provided further*, That none of the funds in this Act shall be available for the planning or execution of programs authorized under section 209 of Public Law 95-599, as amended, the total obligations for which are in excess of \$4,750,000 in fiscal years 1982 through [1994] 1995. Note: Table includes investment funding.

Section 402 formula grants.—Grant allocations are determined on the basis of a statutory formula established under 23 U.S.C. 402. States use this funding for reducing traffic crashes, fatalities, and injuries. The grants are used to support State highway safety programs. The States may choose to use the grants to implement programs to reduce deaths and injuries caused by exceeding posted speed limits; encourage proper use of occupant protection devices; reduce alcohol and drug-impaired driving; reduce crashes between motorcycles and other vehicles; reduce school bus crashes; improve police traffic services; improve emergency medical services and trauma care systems; increase pedestrian and bicyclist safety; and improve traffic record systems. The grants also provide additional support for State data collection and reporting of traffic deaths and injuries.

Section 408 incentive grants.—The purpose of the Section 408 program is to contribute to highway safety by reducing the number of accidents caused by drivers impaired by alcohol or drugs. The program does this by providing incentive grants to States that adopt tough measures specified by statute. No funds are requested in FY 1995 for Section 408 grants. Instead, funds are requested for Section 410 alcohol-impaired driving countermeasures grants.

Section 410 incentive grants.—Alcohol-impaired driving countermeasure grants are provided to States that qualify by adopting specified laws and program measures to reduce safety problems stemming from driving while impaired by alcohol and other drugs. Basic grants are issued for achieving criteria that include administrative driver license actions within stated timeframes, lower blood-alcohol content (BAC) laws, statewide police roadside checkpoints, effective under age 21 impairment deterrence, mandatory sentences for repeat offenders, and programs that are financially self-sufficient. Supplemental grants are provided to States that adopt additional specified measures, including .02 BAC laws for under-21 drivers, license plate confiscation, laws against open alcohol containers in vehicles and mandatory BAC testing by police of suspected DWI offenders.

Section 153 incentive grants.—Grants are issued to States with laws requiring use of safety belts and motorcycle helmets. These grants are authorized for use in State programs to educate the public about safety belts, child seat and motorcycle helmets, to support police enforcement of usage laws and to monitor public compliance with these laws. No funds are requested in FY 1995 for Section 153 grants. Under current law, Section 153 sanctions will provide an incentive for States to enact safety belt and motorcycle helmet use laws.

National Driver Register.—NDR program funding is provided to improve traffic safety by assisting State motor vehicle administrators in communicating effectively and efficiently with other States to identify problem drivers, e.g. drivers whose licenses were suspended or revoked for certain serious traffic offenses including vehicle operation under alcohol or other drug impairment. States are converting to a new electronic inquiry system developed pursuant to the National Driver Register Act of 1982. The new communication system will make information communicated between States more rapid and accurate and thus facilitate important State driver license decisions.

The Office of the Administrator is authorized in the Department of Transportation Act (P.L. 88-670). The programs under this account are:

Salaries and expenses.—Provides the administrative and policy support for all FRA activities and the technical sup-

port for the passenger and freight programs funded under the Office of the Administrator.

Contract support.—Provides support for policy oriented economic, industry, and systems analysis.

Washington Union Station.—The Department of Transportation purchased Washington Union Station on November 1, 1988. Receipts are estimated to cover the mortgage payments in 1994 and 1995.

Alaska Railroad liabilities.—Provides reimbursement to the Department of Labor for compensation payments to former Federal employees of the Alaska Railroad who were on the rolls during the period of Federal ownership and support for clean-up activities at hazardous waste sites located at properties once owned by the FRA. No funds are requested for cleanup activities in FY 1995.

The Federal role in the Railroad Safety program is to protect railroad employees and the public by ensuring the safe operation of passenger and freight trains. The authority to accomplish this role is found in the Federal Railroad Safety Act of 1970 (as amended), the Department of Transportation Act, and the Hazardous Materials Transportation Act (as amended). The programs of the Railroad Safety appropriation are grouped under three major activities.

Federal enforcement.—Provides support for the field staff of safety inspectors and clerical positions located in eight regional offices throughout the United States. This staff is responsible for the enforcement of Federal safety regulations and standards.

Automated track inspection program.—Provides support for vehicles which are used to survey Class I and regional and shortline routes for track maintenance and rehabilitation.

Safety regulation and program administration.—Provides support for safety headquarters which issues standards, procedures, and regulations, administers post-accident and random testing of railroad employees, provides technical training and manages highway-rail grade crossing projects.

The objective of the Railroad Research and Development (R&D) program is to provide science and technology support for rail safety rulemaking and enforcement and to stimulate technological advances in conventional railroads. This activity is conducted with the cooperation and some cost-sharing from private sector organizations.

Equipment, operations and hazardous materials research.—Provides for research in safety and performance improvements to freight and passenger equipment, operating practices and hazardous materials.

Track, structures and train control.—Provides for research in safety and performance improvements to track structure, track components, railroad bridge and tunnel structures, signal and train control, and track-vehicle interaction.

Safety of high-speed ground transportation.—Provides for research in the development of safety performance standards and the conduct of projects accompanying safety and environmental assessments for new high-speed ground transportation systems.

R&D facilities.—Provides support for the Transportation Test Center (TTC) near Pueblo, Colorado which is a government-owned, contractor-operated facility. Under FRA ownership, the Association of American Railroads (AAR) is the private operator under a contract for Care, Custody and Control.

Administration.—Provides support for the Deputy Associate Administrator for Technology Development and the salaries and related administrative expenses of the Office of Research and Development.

Funds will be used to redevelop Penn Station in New York City, which will involve renovating the James A. Farley Post Office building as a train station and commercial center, and basic upgrades to Penn Station. Construction funds are contingent on a memorandum of understanding regarding financing being signed by the participants (New York State, New York City, Amtrak, and the Federal Government). A supplemental request of \$10 million is requested in 1994 to initiate planning.

The National Railroad Passenger Corporation (Amtrak) was established in 1970 through the Rail Passenger Service Act. Amtrak is operated and managed as a non-profit corporation with all Board members effectively appointed by the Executive Branch of the Federal Government and is not an agency or instrumentality of the U.S. Government.

Operating grants.—Provides support for the on-going operations of Amtrak. Includes activities previously funded under mandatory passenger rail service payments.

Capital grants.—Provides support for Amtrak capital requirements.

The Next Generation High-Speed Rail Program will develop a comprehensive national policy on high-speed ground transportation as mandated by Section 1036(c) of ISTEA, develop

criteria for selection and implementation of viable high-speed ground transportation projects, initiate research and operations projects in accordance with these criteria, and undertake the ISTEA-mandated feasibility study of high-speed ground transportation. The program will focus on next generation rail service compatible with existing infrastructure, and explore an expanded role for the National Railroad Passenger Corporation in high-speed demonstration projects and passenger service. It will also provide support, in coordination with other Federal defense conversion efforts, for research, development and demonstration of new technologies to facilitate implementation and demonstration of high-speed rail service.

Section 505—Redeemable preference shares.—Authority for the section 505 redeemable preference shares program expired on September 30, 1988. However, outlays will continue on section 505 projects included in prior year appropriations. The account reflects actual outlays of -\$6.8 million in 1993, and projected outlays of -\$6.8 million in 1994 resulting from payments of principal and interest as well as repurchases of redeemable preference shares and the sale of redeemable preference shares to the private sector.

Section 511—Loan repayments.—This program reflects repayments of principal and interest on outstanding borrowings by the railroads to the Federal Financing Bank under the section 511 loan guarantee program. No new commitments were made in this program in 1993, but \$5 million in new commitments are authorized for 1994.

FEDERAL TRANSIT ADMINISTRATION

For FY 1995 the Federal Transit Administration (FTA) is requesting funding of \$4.8 billion to assist local operators of public mass transit services; \$2.67 billion will be from trust funds and \$2.10 billion from general funds. This will provide a stable resource for needed capital investment at transit systems of all sizes, and for operating assistance. In addition, assistance will be provided for such vital functions as transportation planning and research whose aim is to improve the efficiency and productivity of American mass transit.

This budget for the Federal mass transportation assistance program emphasizes increased bus and rail capital investment, which is consistent with the Administration's long-term goals to invest in the nation's infrastructure.

The \$4.8 billion proposed will assist in the replacement of over-age transit vehicles, allow investments to be made in maintenance garages and other necessary support facilities, and also permit the operators of rail transit systems to continue to upgrade and modernize their systems. In addition, this budget will help mass transit operators to implement transit related provisions of the Americans With Disabilities Act and the Clean Air Act.

Of the \$4.8 billion sought, the largest single category is the formula grant program of \$2.9 billion. This includes \$154 million for rural transit assistance and \$61 million for grants to provide special transit services for the elderly and disabled. The second largest budget category, at \$1.5 billion, is the Section 3 discretionary grant program. Of this amount, \$30 million is for a new Livable Communities Initiative and \$760 million is for fixed guideway modernization. In addition, \$400 million is for construction of new fixed guideway transit systems and \$327 million is to assist bus transit systems with their long-term capital needs.

Other items included in this budget request are \$92 million for transit planning and research, \$39 million for the Interstate Transfer Grants/Transit program, \$6 million for the University Transportation Centers program and \$200 million to continue construction of the "Metrorail" rapid transit system in the Washington (DC) metropolitan area. Finally, \$43 million is sought in necessary administrative expenses to allow the Federal Transit Administration (FTA) to carry out its responsibilities.

The National Capital Transportation Amendments of 1979 (Stark-Harris), authorized \$1.7 billion in Federal funds to support the construction of the Washington Metrorail system. In addition, the National Capital Transportation Amendments of 1990 authorized another \$1.3 billion in Federal capital assistance to complete construction of the planned 103-mile system.

For 1995, \$200 million is requested under the 1990 authorization to continue funding the final 13.5 miles of the 103-mile system under Federal Transit Administration's Full Funding Grant Agreement with Washington Metropolitan Area Transit Authority. These funds will be used to continue construction of the Franconia/Springfield, Glenmont, Mid-City, and Branch Avenue lines, and to provide for project management, real estate acquisition, and other expenses such as contingencies and insurance.

In 1995, a total of \$2.9 billion is requested for Formula Grants. These funds may be used for a wide variety of mass transit purposes including planning, construction of facilities, purchase of buses and railcars, and in some cases for operating assistance. Activities funded under this account are:

Urban Formula Grants (Sections 9 and 9B).—\$2.6 billion will be apportioned by legislative formula for use in urbanized areas with populations of more than 50,000. Of this amount, ten percent will be set-aside for congestion relief transit incentive grants from each urban area's apportionment to fund proposed projects that contribute to decreased traffic congestion. Not to exceed \$600 million of Urban Formula Grants funding will be available for operating assistance in urbanized areas. Most urban formula grants funds not available for operating assistance may be transferred to the Federal High-

way Administration for use on highway projects at State and local discretion.

Nonurban Formula Grants (Section 18).—\$154 million will be apportioned according to a legislative formula based on each State's nonurban population to areas with populations of less than 50,000.

Elderly and Disabled Grants (Section 16).—\$61 million will be apportioned for the Elderly and Disabled program to each State according to a legislatively required formula to assist in providing transportation to the elderly and persons with disabilities. Funds may be made available to private nonprofit organizations and to public bodies when certain requirements are met.

Funding of \$92 million is requested for the Transit Planning and Research (TPR) Program to fund a wide variety of activities. Under the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991, 45 percent of the TPR funding must be apportioned to States for Metropolitan Planning (Section 8), 5 percent for the Rural Transit Assistance Program (Section 18(h)), 10 percent for the Transit Cooperative Research Program, 10 percent for the State TPR Program, and 30 percent for the National TPR Program.

Under the national component of the program, the FTA is a catalyst in the research, development and deployment of transportation methods and technologies addressing such issues as accessibility for the disabled, air quality, traffic congestion and service and operational improvements. Funds for the State and local component of the program improve the State and local planning process and allow them to participate in research efforts.

For 1995, a total of \$1.5 billion is requested for Discretionary Grants. The \$1.5 billion request will be allocated among the following activities:

Fixed guideway modernization.—\$760 million for the acquisition, reconstruction and improvement of facilities and equipment for use on fixed guideways including heavy and light rail, commuter rail, and ferry boat operations.

New Starts.—\$400 million for the construction of new fixed guideway systems and extensions to existing fixed guideway systems. This will fund all projects that are currently under Full Funding Grant Agreements (FFGA).

Bus and bus-related facilities.—\$327 million for the replacement, rehabilitation and purchase of buses and related equipment and the construction of bus-related facilities. This funding will assist public transit authorities in meeting the requirements of the Clean Air Act Amendments and the Americans with Disabilities Act.

Livable Communities.—\$30 million will be available for capital projects to urban and rural communities that integrate transit service into community development by adopting zoning, land-use, and urban design principles that provide for transit friendly service. These localities will receive supplemental transit grants that can be used for such projects as small circulator systems, park-and-ride lots and pedestrian walkways.

The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) authorizes a combination of both trust and general funding for the four FTA appropriations shown above. In FY 1995, however, only Formula Grants is proposed to be funded from both trust funds and general funds.

The language appropriating the amounts reflected in this account as well as the program and performance narrative statement appears with the Formula Grants account.

This account supports the operation and maintenance of a safe national aviation system. It finances the personnel and support costs of operating and maintaining the air traffic control system and ensuring the safety and security of aircraft, flight procedures, navigation aids, and airports through periodic inspections. It also supports overall policy direction and guidance.

For 1995, the budget proposes to streamline costs and staffing consistent with the President's initiatives on administrative costs and Federal employment reductions, while maintaining adequate levels of safety work forces to ensure the continued safe operation of the airways.

AIRCRAFT PURCHASE LOAN GUARANTEE PROGRAM

The Secretary of Transportation may hereafter issue notes or other obligations to the Secretary of the Treasury, in such forms and denominations, bearing such maturities, and subject to such terms and conditions as the Secretary of the Treasury may prescribe. Such obligations may be issued to pay any necessary expenses required pursuant to any guarantee issued under the Act of September 7, 1957, Public Law 85-307, as amended (49 U.S.C. 1324 note). None of the funds in this Act shall be available for activities under this head the obligations for which are in excess of \$9,970,000 during fiscal year [1994] 1995. Such obligations shall be redeemed by the Secretary from appropriations authorized by this section. The Secretary of the Treasury shall purchase any such obligations, and for such purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as now or hereafter in force. The purposes for which securities may be issued under such Act are extended to include any purchase of notes or other obligations issued under the subsection. The Secretary of the Treasury may sell any such obligations at such times and price and upon such terms and conditions as he shall determine in his discretion. All purchases, redemptions, and sales of such obligations by such Secretary shall be treated as public debt transactions of the United States. The fund currently provides direct support for the aviation insurance program authorized under Title XIII of the Federal Aviation Act of 1958. Income to the fund is derived from premium deposits for premium insurance coverage issued, income from authorized investments, and binder fees for nonpremium coverage issued. The binders provide aviation insurance coverage for U.S. air carrier aircraft used in connection with certain Government contract operations entered into by the Department of Defense and the Department of State.

The Tax Equity and Fiscal Responsibility Act of 1982 (26 U.S.C. 9502), as amended by the Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508), provides for the receipts received in the Treasury from the 10-percent passenger ticket tax and certain other taxes paid by airport and airway users to be transferred from the general fund of the Treasury to the Airport and Airway Trust Fund. In turn, appropriations are authorized from this fund to meet obligations for airport improvement grants, facilities and equipment, research, and a portion of operations.

FACILITIES AND EQUIPMENT—Continued
(AIRPORT AND AIRWAY TRUST FUND)—Continued

Note.—Line 00.04, Mission Support, has an estimated contingent liability of \$92 million (present value) associated with the FAA's long-term lease of facilities at the Mike Monroney Aeronautical Center, Oklahoma City, Oklahoma. This contingent liability will be funded through this account.

Summary of Budget Authority and Outlays

(In thousands of dollars)			
Enacted/requested:	1993 actual	1994 est.	1995 est.
Budget Authority	2,301,700	2,120,104	2,269,100
Outlays	2,166,371	2,023,151	2,103,062
Rescission proposal:			
Budget Authority		-40,257	
Outlays		-8,051	-9,662

Outlays	2,166,371	2,015,100	2,093,400

The proposed funding sustains the current infrastructure and supports the FAA plan to modernize and improve the national airspace system. In particular, funds would provide for significant progress in developing the advanced automation system, designed to upgrade air traffic control technology; and the voice switching and control system, to modernize the system's outdated communications network.

The 1995 budget proposes funding to conduct research, engineering and development programs to improve the national air traffic control system by increasing its safety, security, productivity and capacity to meet the expected air traffic demands of the future. The agency also administers human factors and aviation medical research aimed at increasing the effectiveness of air traffic controller operations, and airway facilities maintenance and at increasing the safety of aircrew members.

These programs are conducted by the agency's technical personnel, through contracts with qualified private firms, universities, and individuals, and through agreements with other Government agencies.

The Airport and Airway Improvement Act of 1982, as amended, and section 9502 of the Internal Revenue Code of 1986 as amended, authorize use of the Airport and Airway Trust Fund as the source of financing a portion of FAA's operating costs. For 1995, it is proposed that \$2,379,200,000 of the Operations appropriation be financed from the trust fund. As established under existing law, this would provide an overall 75 percent cost recovery for FAA programs in total. Financing a portion of the operational costs from the trust fund means that the users of the aviation system will help pay for the salaries and related expenses of FAA's safety employees, who have the daily responsibility of ensuring the safety of the flying public.

To carry out its unique duties as a peacetime operating agency and one of the military services, the Coast Guard employs multipurpose vessels, aircraft, and shore units, strategically located along the coasts and inland waterways of the United States and in selected areas overseas. The 1995 request provides for the safety of the public, and the Coast Guard's work force, with a continued emphasis on critical law enforcement missions.

The acquisition, construction, and improvements (AC&I) appropriation provides for the major acquisition, construction, and improvement of vessels, aircraft, information management resources, shore units, and aids-to-navigation.

Vessels.—During 1995, efforts to acquire replacements for Seagoing and Coastal Buoy Tenders, Buoy Boats, and Motor Lifeboats will continue. Major accomplishments will also be realized in the area of vessel renovation and modernization.

Aircraft.—Installation of the Traffic Alert and Collision Avoidance System (TCAS) and Global Positioning System (GPS) will continue in 1995. HU-25 FALCON aircraft enhancements will be completed in 1995.

Other equipment.—In 1995 new management information system replacements and upgrades will continue.

Shore facilities.—In 1995, shore facility projects will be balanced among new construction, renovations, improvements, and replacement of existing facilities, along with an emphasis on adequate, affordable housing.

This appropriation provides the Government's share of the costs for altering or removing bridges determined to be obstructions to navigation. Beginning in 1995, the Coast Guard will no longer seek direct funding for alteration of highway bridges determined to be unreasonably obstructive under the Truman-Hobbs Act of 1940 as amended, (33 U.S.C. 511 et seq.). The Federal share of such projects will be financed from bridge program funds of the Federal Highway Administration, under the continuing program direction of the Coast Guard.

Coast Guard will continue to seek direct funding for the Federal share of the necessary alteration of railroad bridges. In fiscal year 1995 no direct funding is required for these bridges.

RETIRED PAY

For retired pay, including the payment of obligations therefor otherwise chargeable to lapsed appropriations for this purpose, and payments under the Retired Serviceman's Family Protection and Survivor Benefits Plans, and for payments for medical care of retired personnel and their dependents under the Dependents Medical Care Act (10 U.S.C. ch. 55), [\$548,774,000] \$562,585,000. This account has historically provided financial assistance for the development and implementation of a coordinated national recreational boating safety program. Boating Safety statistics reflect the success of the program's objectives. Accordingly, due to budgetary constraints, no discretionary appropriation is requested in 1995 from the funds deposited in the Boat Safety Account of the Aquatic Resources Trust Fund. Federal funding for assistance to States, administrative costs of the program, and the nonprofit grant program will be provided from the authorized transfer of \$7.5 million to the Secretary of Transportation from the mandatory appropriation of the Sport Fish Restoration Account under the authority of Title V of the "Oceans Act of 1992" (P.L. 102-587).

MARITIME ADMINISTRATION

The Maritime Administration is responsible for programs authorized by the Merchant Marine Act, 1936, as amended, and other related acts, to promote a strong U.S. Merchant Marine. Emphasis is placed on increasing the competitiveness and productivity of the U.S. maritime industries as well as ensuring adequate seafaring manpower for peacetime and national emergencies. Programs include: providing subsidy aid for operation of U.S.-flag operators; the administration of the Federal Ship Financing Fund loan portfolio; reimbursing the Commodity Credit Corporation for the expanded cargo preference requirement in the Food Security Act of 1985; the preservation and maintenance of merchant ships retained in the National Defense Reserve Fleet including the Ready Reserve Force; emergency planning and coordination; and conducting Federal technology assessment projects.

The following table shows the funding for the Maritime Administration programs:

The 1995 request provides for implementation of the Maritime Security Program, which would authorize direct payments to U.S.-flag vessels operating in the U.S.-foreign trade. The program would include up to 52 vessels and cover a period of ten years starting with 32 ships in 1995 and increasing to 52 ships for the years 1998-2004. Annual payments would equal \$2,500,000 per ship for the first three years, and would phase down to \$2,000,000 in the final seven years. A permanent appropriation of \$1,000,000,000 is reflected since obligations will be incurred when the contracts are signed in FY 1995. Participating operators would be required to keep the vessels in active commercial service under the American flag and make them available in times of emergency to the Secretary of Defense.

Public Law 99-198 amended section 901 of the Merchant Marine Act to increase from 50 to 75 percent the amount of agricultural commodities under specified programs that must be carried on U.S.-flag vessels. The increased cost associated with this expanded U.S.-flag shipping requirement stems from higher rates charged by U.S.-flag carriers compared with foreign-flag carriers. The Maritime Administration is required to reimburse the Department of Agriculture for ocean freight differential costs for the added tonnage above 50 percent. These reimbursements are funded through borrowings from the Treasury. This account has a permanent,

indefinite appropriation to liquidate debt provided in Public Law 100-202 to cover these costs.

The Maritime Administration's ocean freight differential costs are one portion of the government's cargo preference program. The ocean transportation subsidy costs related to cargo preference for all relevant agencies are presented in the following schedule.

This appropriation finances costs incurred by headquarters and region staffs in the administration and direction of Maritime Administration programs; the total cost of officer training at the U.S. Merchant Marine Academy as well as Federal financial support to six State maritime academies; planning for coordination of U.S. maritime industry activities under emergency conditions; and Federal technology assessment projects designed to achieve advancements in ship design, construction and operations. Beginning in September 1995 (fiscal year 1996), tuition fees will be phased in with each entering class, in order to reduce the Federal spending for the U.S. Merchant Marine Academy by half. Estimated fees are \$3.3 million for fiscal year 1996, increasing to \$13.0 million for fiscal year 1999.

This appropriation provides funding for the Ready Reserve Force (RRF), which is comprised of Government-owned, U.S.-flag merchant ships laid up in the National Defense Reserve Fleet (NDRF). The RRF is maintained in an advanced state of readiness to meet surge shipping requirements during a national emergency. Funding for this program was transferred from Navy appropriations beginning in 1989.

The appropriation provides for additional RRF vessels, RRF ship activations and deactivations required to test ship reactivation readiness, maintaining RRF ships in an advanced state of reactivation readiness and associated costs of berthing ships at dispersed locations, special programs in support of the RRF, and long-term capital improvements at the fleet sites.

Appropriations for 1995 will be directed solely for maintenance, operations and facilities, in order to ensure the readiness of the existing fleet of ships for the RRF. The Department of Defense is expected to allocate \$43 million from its sealift resources to acquire vessels for the ready reserve force in 1995.

The Maritime Administration is authorized to reactivate, operate, deactivate, and charter merchant vessels. These operations are financed through the Vessel Operations Revolving Fund with reimbursements from sponsoring agencies. In addition, the fund is available to finance the necessary expenses to protect, maintain, preserve, acquire, and use vessels involved in mortgage foreclosure or forfeiture proceedings instituted by the United States other than those financed by the Federal Ship Financing Fund; and to process advances received from Federal agencies. Also the acquisition of ships under the trade-in/scrap-out program are financed through this account.

Funds are reimbursed to this fund for various DOD/Navy-sponsored activities, such as the operation of activated RRF vessels, installation of sealift enhancement features and other special projects. Programs are funded by reimbursements from other Federal agencies.

The Merchant Marine Act of 1936, as amended, established the Federal ship financing fund to assist in the development of the U.S. merchant marine by guaranteeing construction loans and mortgages on U.S.-flag vessels built in the United States. No new commitments for loan guarantees are projected for 1995 for the Federal Ship Financing Fund. Operating expenses incurred in the operation of the Federal Ship Financing Fund will continue to be paid from income to the fund. In 1995, the estimate includes \$100 million as a contingency against possible defaults. The fund receives income from insurance premiums on construction loans and mortgages, fees, and interest on mortgages held directly and sale of defaulted assets.

The 1993 end of year balance in the Federal Ship Financing Fund is primarily a result of sale of assets, court decisions in favor of the fund, normal collection of periodic loan guarantee fees, and interest income.

This program provides subsidies for guaranteed loans for purchasers of ships from the U.S. shipbuilding industry and for modernization of U.S. shipyards. Guaranteed loans from the 1995 subsidy of \$50 million may not exceed \$500 million.

For 1994, \$50 million was appropriated to the Department of Defense and transferred to this program in the Department of Transportation. The amounts for 1993 and 1994 are classified in the Budget in the national defense function. The amounts for 1995 are appropriated to the Department of Transportation and are classified in the transportation function.

The Saint Lawrence Seaway Development Corporation is a wholly owned Government Corporation responsible for the operation, maintenance and development of the United States portion of the St. Lawrence Seaway between Montreal and Lake Erie. Major priorities are to control Seaway Corporation costs and to encourage increased use of the Seaway system.

Appropriations from the Harbor Maintenance Trust Fund and revenues from non-Federal sources are intended to finance the operation and maintenance of the portion of the Seaway for which the Corporation is responsible.

The Hazardous Materials Transportation Uniform Safety Act (HMTUSA) establishes a national registration program of shippers and carriers of hazardous materials. The registrants finance, through fees, emergency preparedness planning and training grants programs, a training curriculum for emergency responders, and monitoring and technical assistance to States, political subdivisions, and Indian tribes. In the HMTUSA, there are permanent appropriations for the planning and training grants, monitoring and technical assistance, and for administrative expenses. The Budget proposes to limit 1995 activities to those authorized for the Department of Transportation. Appropriations are requested for the training curriculum.

The Working Capital Fund finances multidisciplinary research, evaluation, analytical and related activities undertaken at the Volpe National Transportation Systems Center (VNTSC) in Cambridge, MA. The fund is financed through negotiated agreements with the Office of the Secretary, Departmental operating administrations, and other governmental elements requiring the Center's capabilities. These agreements also define the activities undertaken at VNTSC.

The Oil Pollution Act of 1990 requires the preparation of oil spill response plans by pipeline operators to minimize the environmental impact of oil spills and to improve public and private sector response capabilities. The Office of Pipeline Safety is responsible for the review and approval of these plans, and to ensure they provide the public with an adequate level of protection from such spills.

This appropriation finances those research activities and studies concerned with planning, analysis, and information development needed to support the Secretary's responsibilities in the formulation of national transportation policies.

The program is carried out primarily through contracts with other Federal agencies, educational institutions, non-profit research organizations, and private firms.

Transportation policy and planning.—This research supports the development of transportation policy, coordination of national level transportation planning, and such issues as regulatory modernization, energy conservation, environmental and safety impacts of transportation.

Systems Development.—This activity funds system development of the departmentwide management systems. In FY 1993, this activity was funded in Salaries and Expenses.

The Working Capital Fund finances common administrative services that are centrally performed in the interest of economy and efficiency in the Department.

Services rendered are charged at rates that return in full all operating expenses, including a normal reserve for accrued annual leave and depreciation of equipment. The fund is reimbursed by the operating administrations and offices being served.

The activities of the Working Capital Fund include:

Printing and graphics.—Provides the necessary services needed to support the production and procurement of Department printing and graphics and serves as the production and procurement authority for the Department's graphics, materials, exhibits and photography.

Support services.—Provides for programs such as communications, mail, building management, chauffeur, and security.

Library.—Provides a resource for historical information and aids in the dissemination and exchange of technical and other information.

Information resource management activities.—Provides the necessary services needed to support information processing services which include networking, processing of data, systems management and training.

- Sec. 333 ... Prohibits the award of airport grants to airports which collect Passenger Facility Charges (PFCs) from frequent fliers and other non-paying passengers.
- Sec. 334 ... Requires that tolls on the Verrazano Bridge be collected only from those vehicles exiting the bridge in Staten Island.
- Sec. 335 ... Prohibits use of funds to remote radar coverage from the Roswell, New Mexico Airport unless a cost study shows significant savings.
- Sec. 336 ... Provides that certain previously appropriated funds for the Chattanooga fixed rail project be made available for the Chattanooga electric vehicle project.
- Sec. 337 ... Provides that funds previously appropriated for Project Breakeven in Portland, Oregon be expended on the Westside Light Rail Project in the Portland metropolitan region.
- Sec. 338 ... Provides that the Federal Aviation Administration install seven standard redundant configuration NEXRAD radar systems in specific Alaska locations.
- Sec. 339 ... Provides that (a) \$4,000,000 be obligated for the State of Florida Tri-County Rail project in the area of Dade, Broward, and Palm Beach Counties, Florida and (b) \$9,000,000 be obligated for the State of North Carolina capital improvements for their Rail Impact project in the Interstate 40/85 corridor from Raleigh to Charlotte.
- Sec. 340 ... Prohibits the use of funds for closing or otherwise reducing the services of any flight service station in the State of Alaska.
- Sec. 341 ... Provides that the National Railroad Passenger Corporation shall initiate new service if a State or local interest can cover potential operating losses including the cost of equipment depreciation.

SEC. 301. During the current fiscal year applicable appropriations to the Department of Transportation shall be available for maintenance and operation of aircraft; hire of passenger motor vehicles and aircraft; purchase of liability insurance for motor vehicles operating in foreign countries on official department business; and uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901–5902).

SEC. 302. Funds for the Panama Canal Commission may be apportioned notwithstanding 31 U.S.C. 1341 to the extent necessary to permit payment of such pay increases for officers or employees as may be authorized by administrative action pursuant to law that are not in excess of statutory increases granted for the same period in corresponding rates of compensation for other employees of the Government in comparable positions.

SEC. 303. Funds appropriated under this Act for expenditures by the Federal Aviation Administration shall be available (1) except as otherwise authorized by the Act of September 30, 1950 (20 U.S.C. 236–244), for expenses of primary and secondary schooling for dependents of Federal Aviation Administration personnel stationed outside the continental United States at costs for any given area not in excess of those of the Department of Defense for the same area, when it is determined by the Secretary that the schools, if any, available in the locality are unable to provide adequately for the education of such dependents, and (2) for transportation of said dependents between schools serving the area that they attend and their places of residence when the Secretary, under such regulations as

may be prescribed, determines that such schools are not accessible by public means of transportation on a regular basis.

SEC. 304. Appropriations contained in this Act for the Department of Transportation shall be available for services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for a [GS–18] Executive Level IV.

SEC. 305. None of the funds for the Panama Canal Commission may be expended unless in conformance with the Panama Canal Treaties of 1977 and any law implementing those treaties.

SEC. 306. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings funded in this Act.

SEC. 307. None of the funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. 308. None of the funds in this or any previous or subsequent Act shall be available for the planning or implementation of any change in the current Federal status of the Volpe National Transportation Systems Center, and none of the funds in this Act shall be available for the implementation of any change in the current Federal status of the Turner-Fairbank Highway Research Center: *Provided*, That the Secretary may plan for further development of the Volpe National Transportation Systems Center and for other compatible uses of the Center's real property: *Provided further*, That any such planning does not alter the Federal status of the Center's research and development operation.

SEC. 309. The expenditure of any appropriation under this Act for any consulting service through procurement contract pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 310. (a) For fiscal year [1994] 1995 the Secretary of Transportation shall distribute the obligation limitation for Federal-aid highways by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways that are apportioned (*except that amounts available under 23 U.S.C. 157 shall be weighted at 67 percent and amounts available under sections 1103 through 1108 of P.L. 102–240 shall be weighted at 26 percent*) or allocated to each State for such fiscal year bear to the total of the sums authorized to be appropriated for Federal-aid highways that are apportioned or allocated to all the States for such fiscal year.

(b) During the period October 1 through December 31, [1993] 1994, no State shall obligate more than 25 per centum of the amount distributed to such State under subsection (a), and the total of all State obligations during such period shall not exceed 15 per centum of the total amount distributed to all States under such subsection.

(c) Notwithstanding subsections (a) and (b), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways that have been apportioned to a State, [except in those instances in which a State indicates its intention to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code];

(2) after August 1, [1994] 1995, revise a distribution of the funds made available under subsection (a) if a State will not obligate the amount distributed during that fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year giving priority to those States having large unobligated balances of funds apportioned under sections 103(e)(4), 104, [and] 144, and 157 of title 23, United States Code, and under sections 1013(c), [and] 1015, and 1103 through 1108 of Public Law 102–240; and

(3) not distribute amounts authorized for administrative expenses and funded from the administrative takedown authorized by section 104(a), Title 23 U.S.C., the Federal lands highway program, the intelligent vehicle highway systems program, and amounts made available under sections 1040, 1047, 1064, [6001] 6006, 6023, and 6024, of Public Law 102–240, and not more than [\$1,050,000] \$1,699,000 for section 5002 of Public Law 102–240[, and \$458,629 for the National Commission on Intermodal Transportation authorized by section 5005 of Public Law 102–240]. Amounts for section 5002 [and section 5005] of Public Law 102–240 shall be deemed necessary for administration under section 104(a) of title 23, United States Code; and

(4) notwithstanding subsection (a), the Secretary shall withhold from initial distribution the fiscal year [1994] 1995 Federal-aid highways obligation limitation set aside for Interstate Construction Discretionary projects: *Provided*, That the Secretary shall distribute only after August 1, [1994] 1995, such obligation limitation withheld in accordance with this section to those States receiving Interstate Discretionary allocations.

(d) [During the period October 1 through December 31, 1993, the aggregate amount of] *Notwithstanding any other provision of law, the obligations under section 157 of title 23, United States Code, [for projects covered under] section 147 of the Surface Transportation Assistance Act of 1978, section 9 of the Federal-Aid Highway Act of 1981, sections 131(b), 131(j), and 404 of Public Law 97-424, sections 1061, 1103 through [1109] 1108, 4008, and 6023(b)(8) and 6023(b)(10) of Public Law 102-240, and for projects authorized by Public Law 99-500 and Public Law 100-17, shall be subject to the obligation limitation in fiscal year 1995 [not exceed \$302,551,350].*

(e) During the period August 2 through September 30, [1994] 1995, the aggregate amount which may be obligated by all States pursuant to paragraph [(d)] (c) shall not exceed 2.5 percent of the aggregate amount of funds apportioned or allocated to all States—

(1) under sections 104 and 144 of title 23, United States Code, and 1013(c) and 1015 of Public Law 102-240, and

(2) for highway assistance projects under section 103(e)(4) of title 23, United States Code,

which would not be obligated in fiscal year [1994] 1995 if the total amount of the obligation limitation provided for such fiscal year in this Act were utilized.

(f) Paragraph (e) shall not apply to any State which on or after August 1, [1994] 1995, has the amount distributed to such State under paragraph (a) for fiscal year [1994] 1995 reduced under paragraph (c)(2).

SEC. 311. None of the funds in this Act shall be available for salaries and expenses of more than one hundred and ten political and Presidential appointees in the Department of Transportation: *Provided*, That none of the personnel covered by this provision may be assigned on temporary detail outside the Department of Transportation.

SEC. [313] 312. The limitation on obligations for the programs of the Federal Transit Administration shall not apply to any authority under section 21 of the Federal Transit Act, previously made available for obligation, or to any other authority previously made available for obligation under the Discretionary Grants program.

SEC. [315] 313. None of the funds in this Act shall be used to implement section 404 of title 23, United States Code.

SEC. [316] 314. The Secretary of Transportation is authorized to transfer funds appropriated for any office of the Office of the Secretary to any other office of the Office of the Secretary: *Provided*, That no appropriation shall be increased or decreased by more than 12 per centum by all such transfers: *Provided further*, That any

such transfer shall be [submitted for approval] reported to the House and Senate Committees on Appropriations.

SEC. [317] 315. Such sums as may be necessary for fiscal year [1994] 1995 pay raises for programs funded in this Act shall be absorbed within the levels appropriated in this Act.

SEC. [319] 316. Notwithstanding any other provision of law, airports may transfer, without consideration, to the Federal Aviation Administration instrument landing systems (along with associated approach lighting equipment and runway visual range equipment) which conform to Federal Aviation Administration design and performance specifications, the purchase of which was assisted by a Federal airport aid program, airport development aid program or airport improvement program grant. The Federal Aviation Administration shall accept such equipment, which shall thereafter be operated and maintained by the Federal Aviation Administration in accordance with agency criteria.

SEC. [321] 317. None of the funds in this Act shall be available to award a multiyear contract for production end items that (1) includes economic order quantity or long lead time material procurement in excess of \$10,000,000 in any one year of the contract or (2) includes a cancellation charge greater than \$10,000,000 which at the time of obligation has not been appropriated to the limits of the government's liability or (3) includes a requirement that permits performance under the contract during the second and subsequent years of the contract without conditioning such performance upon the appropriation of funds: *Provided*, That this limitation does not apply to a contract in which the Federal Government incurs no financial liability from not buying additional systems, subsystems, or components beyond the basic contract requirements.

SEC. [325] 318. None of the funds made available in this Act may be used to implement, administer, or enforce the provisions of section 1038(d) of Public Law 102-240.

SEC. [326] 319. Notwithstanding any other provision of law, and except for fixed guideway modernization projects, funds made available by this Act or previous Acts under "Federal Transit Administration, Discretionary Grants" for projects specified in this Act or previous Acts or identified in reports accompanying this Act or previous Acts [not obligated by September 30, 1996, shall be made available for other projects under section 3 of the Federal Transit Act, as amended] shall be available for a period of two years following the close of the fiscal year in which such sums were appropriated. Any such amounts remaining unobligated at the end of such period shall be rescinded.

SEC. 320. Section 211b of the National Driver Register Act of 1982 as amended, (23 U.S.C. 401 note), is further amended by inserting after "1994" "and \$2,550,000 for fiscal year 1995."

SEC. 321. Notwithstanding any other provision of law, any funds appropriated before October 1, 1993, under any section of the Federal Transit Act, as amended, that remain available for expenditure may be transferred to and administered under the most recent appropriation heading for any such section. (Department of Transportation and Related Agencies Appropriations Act, 1994.)

Departmental Offices' function in the Treasury Department is to provide basic support to the Secretary of the Treasury, who is the chief operating executive of the Department. The Secretary of the Treasury maintains the primary role in formulating and managing the domestic and international tax and financial policies of the Federal Government. The Secretary's responsibilities funded by the Salaries and Expenses appropriation include: recommending and implementing United States domestic and international economic and tax policy; fiscal policy; governing the fiscal operations of the Government; maintaining foreign assets control; managing the public debt; overseeing the major law enforcement functions carried out by the Treasury Department; managing development financial policy; representing the United States on international monetary, trade and investment issues; overseeing Treasury Department overseas operations; and directing the administrative operations of the Treasury Department.

In support of the Secretary, the Salaries and Expenses appropriation provides resources for policy formulation and implementation in the areas of domestic and international financial, investment, tax, economic, trade and financial operations and general fiscal policy. This appropriation also provides resources for comprehensive administrative support to the Secretary and policy components, and coordination of Departmental administrative policies in financial and personnel management, procurement operations, and automated information systems and telecommunications.

The Salaries and Expenses appropriation funds the following major activities:

Secretarial policy and program development.—This activity includes the immediate offices of the Secretary and Deputy Secretary, as well as policy offices responsible for policy management and intelligence support, foreign assets control, legal counsel, Treasury law enforcement, domestic and international tax policy, legislative affairs, public affairs, domestic finance policy, economic policy, general fiscal policy and debt management.

International affairs.—This activity covers a wide range of policy development and analysis functions involving international trade, investment, and monetary affairs, development financing and debt policy, economic issues including resource and commodity policy, balance of payments, and major reports of economic data. In 1994, the International Affairs appropriation was merged with Salaries and Expenses.

Departmental management and administration.—This activity provides support services associated with general administrative management, oversight of Treasury bureaus, and the administration of Departmental Offices' function. These responsibilities include: financial management, personnel management, program and management analysis, procurement operations, telecommunication and information systems, equal employment opportunity programs, automated systems development and management, and other administrative activities.

Buildings maintenance and operations.—Under the Federal Property and Administrative Services Act of 1949 (as amend-

ed), the Treasury Department has direct operational control over the Main Treasury Building and Annex. Services that otherwise would be provided by the General Services Administration (such as maintenance and utility services) are provided for Treasury directly through the Salaries and Expenses appropriation. This activity includes the staff and funding needed to conduct these operations.

Repairs and improvements.—This activity includes the program for repairs and selected improvements to maintain the Main Treasury and Annex buildings.

This appropriation provides agencywide internal audit and internal investigative functions to identify and correct operational and administrative deficiencies which create conditions for existing or potential instances of fraud, waste, and mismanagement. The audit function provides internal audit, contract audit and financial statement audit services. Contract audits provide professional advice to agency contracting officials on accounting and financial matters relative to negotiation, award, administration, repricing, and settlement of contracts. Internal audits review and evaluate all facets of agency operations. Financial statement audits assess whether financial statements fairly present the agency's financial condition and results of operations, the adequacy of accounting controls, and compliance with laws and regulations. The investigative function provides for the detection and investigation of improper and illegal activities involving programs, personnel, and operations. This appropriation also provides for the oversight of internal investigations made by the Office of Internal Affairs and Inspection in the Bureau of ATF, the Customs Service, and the Secret Service and, internal audits and internal investigations of the Inspection Service at IRS.

The Inspectors General Auditor Training Institute provides the necessary facilities, equipment, and support services for conducting auditor training for the Federal Government Inspector General community. Institute personnel develop and deliver instructional programs related to basic government audit skills. The cost of training is recovered by tuition charged to students.

P.L. 102-393 authorized the establishment of the Treasury Forfeiture Fund. This new fund replaced the Customs Forfeiture Fund. It is available to pay or reimburse certain costs and expenses related to seizures and forfeitures that occur pursuant to the Treasury Department's law enforcement activities. The Coast Guard also participates in the program.

The 1995 budget includes appropriations language that would transfer \$15,000,000 from the Fund to the General Fund to produce discretionary savings.

Matching funds in primaries.—Upon certification by the Federal Election Commission, every candidate eligible to receive payments is entitled to an amount equal to the contributions each has received on or after the beginning of the calendar year immediately preceding the election year.

Nominating conventions of parties.—Upon certification by the Commission, payments may be made to the national com-

mittee of a major party or a minor party which elects to receive its entitlement. The total of such payments will be limited to the amount in the account at the time of payment. The national committee of each party may receive payments beginning on July 1 of the year immediately preceding the calendar year in which a presidential nominating convention of the political party is held. The two major parties will receive \$4 million each, plus a cost-of-living increase.

Candidates for general elections.—The eligible candidates of each major party in a presidential election will be entitled to equal payments in an amount which, in the aggregate, shall not exceed \$20 million each, plus a cost-of-living increase.

Also, provision is made for new parties, minor parties and candidates, who may receive in excess of 5 percent of the popular vote and therefore be entitled to reimbursement of qualified campaign expenditures.

The Secretary of the Treasury is authorized to deal in gold and foreign exchange and other instruments of credit and securities as deemed necessary, consistent with U.S. obligations in the International Monetary Fund (IMF), regarding orderly exchange arrangements. An Exchange Stabilization Fund, with a capital of \$200 million, is authorized by law for this purpose (31 U.S.C. 5302). All earnings and interest accruing to this fund are available for the purposes thereof. Transactions in special drawing rights (SDR's) and U.S. holdings of SDR's are administered by the fund. U.S. drawings from the IMF are also advanced to the fund.

The principal sources of the fund's income have been profits on foreign exchange transactions, interest on foreign exchange swap transactions, and on investments held by the fund, including interest earned on fund holdings of U.S. Government securities.

The amounts reflected in the 1994 and 1995 estimates entail only projected net interest earnings on Exchange Stabilization Fund (ESF) assets. The estimates are subject to considerable variance, as the amount and composition of assets can change dramatically, as well as interest rates applied to investments. In addition, exchange rate fluctuations can cause the dollar value of income received on foreign currency and SDR investments to fluctuate. Moreover, estimates make no attempt to forecast valuation gains or losses on SDR holdings or realized gains or losses on foreign currency holdings. As required by Public Law 95-612, the fund no longer is used to meet the administrative expenses.

Certain central services in the Department of the Treasury, including telecommunications, printing, reproduction, and printing procurement services, are provided on a reimbursable basis. Transactions are entered into with other Treasury appropriation accounts at rates which will recover the fund's operating expenses, including accrual of annual leave and depreciation of equipment. This presentation includes the Digital Telecommunications System (DTS), the Consolidated Data Network System (CDN), the Local Telecommunications Services and Support (LTSS) program, Wireless/Radio Service Support (WRSS), the Treasury Communications System (TCS), and the Voice Messaging System (VMS).

The Federal Law Enforcement Training Center provides the necessary facilities, equipment, and support services for

conducting recruit, advanced, specialized, and refresher training for Federal law enforcement personnel. Center personnel conduct the instructional programs for the basic recruit and some of the advanced training. This appropriation is for operating expenses of the Center, for research in law enforcement training methods, and curriculum content. In addition, the Center has a reimbursable program to accommodate the training requirements of various Federal agencies. As funds are available, law enforcement training is provided to certain State and local law enforcement personnel on a space-available basis.

Financial Operations.—Payments are made through seven regional offices for Federal civilian agencies, except the U.S. Postal Service, the U.S. Marshals Service, and certain Government corporations. These disbursing services are provided through the timely issuance of checks, letters of credit, and electronic funds transfer (EFT) payments. This activity is also responsible for processing EFT claims, for promoting the use of electronics in the payment process, and for providing full field representation for other functional areas of the Service. This activity is also responsible for the control and financial integrity of the Federal payments and collections processes. This includes conducting reconciliation, accounting, and claims activities. It adjudicates and settles claims against the United States resulting from instances in which Government checks have been forged, lost, stolen, destroyed, or mutilated, and collects moneys from those parties having liability to the United States through fraudulent or otherwise improper negotiation of Government checks. Financial Operations ensures the integrity of the Government's financial accounting, reporting, and financing services to the Government-at-large and to its agents, who participate in the payments and collections processes. Additionally, this activity provides financial services for numerous accounts, including the two Social Security Trust Funds, the two Medicare Trust Funds, the Unemployment Trust Fund, the D.C. Government loan account, the Highway Trust Fund, the Airport and Airway Trust Fund, and the St. Lawrence Seaway Toll Rebate Program. In addition, this activity provides for payment of domestic and international claims.

The 1995 Budget includes appropriations language that would allow direct reimbursement by the Oil Spill Liability Trust Fund and general provisions that allow reimbursement for postage costs incurred to make check payments for FMS' major customer agencies.

The productivity measures relating to these functions are as follows:

Federal Finance.—This activity provides direction, leadership, and technical guidance for managing the Federal Government's cash, credit, and financial management programs. It is responsible for the development, implementation, and dissemination of tools, regulations, standards, and guidelines affecting all aspects of the Government's cash, credit, and financial management programs. The major focus is on development and evaluation of cash, credit and asset management

techniques, credit management training, and financial accounting and reporting systems to minimize the cost and maximize the effectiveness of the Federal Government's financial management. In addition, this activity oversees compensation made to commercial depositories for the processing services they provide to the Government in collecting and accounting of Federal Tax Deposits.

Agency Support.—This activity provides leadership and guidance for administrative and financial activities that enable the Service to manage programs and resources effectively. It is responsible for all internal FMS accounting, auditing, program review, budget and financial operation, financial systems, and facilities and personnel functions. This activity also encompasses the Service's legal, planning, and legislative and public affairs needs. Top management and the Service's Chief Financial Officer are also included under this activity.

In addition, this activity is responsible for overseeing the development, implementation, and operation of information and financial management systems. It is responsible for automated data processing (ADP) operations and the associated computer support necessary to maintain the Service's internal and Government-wide systems. Specific functions include operating and maintaining all central facility computer systems and data communications mechanisms, scheduling and processing development and production workloads, installing and tuning operating system software, planning and coordinating hardware installations, providing user support services, and acquiring ADP and telecommunications equipment, software, services and supplies. It also supports a large number of developmental efforts to enhance the collections, payments, accounting, reporting, and resource management functions of the Service.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 authorized and appropriated to the Secretary of the Treasury, such sums as may be necessary to cover interest payments on obligations issued by the Resolution Funding Corporation (REFCORP). REFCORP was established under the Act to raise \$31.2 billion for the Resolution Trust Corporation (RTC) in order to resolve savings institution insolvencies.

Sources of payment for interest due on REFCORP obligations include REFCORP investment income, proceeds from the sale of assets or warrants acquired by the RTC, and annual contributions by the Federal Home Loan Banks. If these payment sources are insufficient to cover all interest costs, funds appropriated to the Treasury shall be used to meet the shortfall.

Loan guarantee financing accounts receive various payments and fees and make payment on defaults. When cash balances result from an excess of receipts over outlays, these balances are deposited with Treasury and earn interest. This account pays such interest to credit loan guarantee financing accounts from the general fund of the Treasury in accordance with section 505(c) of the Federal Credit Reform Act of 1990. The estimates of interest paid by this fund are derived from the estimates of interest received in the various financing accounts.

The Energy Security Reserve was created principally to finance the activities of the U.S. Synthetic Fuels Corporation. Public Law 99-190 rescinded the balance of unobligated funds available to the Corporation. The Act left \$10 million in the Reserve for the Corporation's liquidation and \$400 million for a Clean Coal Technology Demonstration program, which has been transferred to a new account in the Department of Energy. The Act also transferred responsibility for ongoing projects of the Corporation to the Secretary of the Treasury; these projects' activities and financing will continue to be displayed in this account.

This account finances programs to aid commercial production of alcohol and other fuels from crops and crop waste, timber, animal and timber waste, and other forms of biomass and urban waste activities, as authorized under Title II of the Energy Security Act.

Administrative Provisions in 1989 for the Department of Energy allow the Department of Energy to retain in this

account any funds brought into its Alcohol Fuels Loan Guarantee Program, either through sale of assets the Government has acquired through loan default and foreclosure, or repayments made on a loan for which the Department of Energy has become the direct lender by paying the guarantee on a defaulted loan. These retained funds will be held in a reserve against the possibility of further guaranteed loan defaults. The Department of Energy will also be able to use unobligated funds from its Alternative Fuels Production account to pay the guaranteed portion of defaults if the need arises, and if those funds are not needed by the Alternative Fuels Production program. In 1993, \$44 million was transferred to the Energy Information Administration (EIA) to offset approximately half of EIA's budget authority requirements.

The Agricultural Credit Act of 1987 (Public Law 100-233) authorized such sums as necessary to be appropriated to the Secretary of the Treasury for payment to the Farm Credit System Financial Assistance Corporation (FAC).

Treasury payments annually reimburse the FAC for interest expense on FAC debt, which is authorized to be issued through 1992. Treasury is authorized to pay all or part of FAC interest for the first 10 years on each 15-year FAC debt issuance. Debt proceeds are used to provide assistance to financially troubled Farm Credit System lending institutions.

The Federal Financing Bank (FFB) was created to ensure the coordination of Federal and federally assisted borrowing from the public and to ensure that such borrowings are financed in a manner least disruptive of private financial markets and institutions.

Through 1991, the Bank was the vehicle through which most Federal agencies financed their programs involving the sale or placement of credit market instruments, including agency securities, guaranteed obligations, participation agreements, and loan assets. The major exceptions are Title XI ship mortgage bonds and Government National Mortgage Association asset sales.

With the enactment of Credit Reform in 1992, agencies finance direct and guaranteed loan activity by borrowing directly from the Treasury as needed. The FFB no longer originates new loans to agencies to finance lending activities with the public. The FFB will continue to initiate new loans to agencies to finance other activity, such as the resolution of failed thrift institutions and banks by the Resolution Trust Corporation and Bank Insurance Fund.

Transactions by the FFB on behalf of a Federal agency are treated as a means of financing the agency—i.e., lending by the FFB to the agency and borrowing by the agency from the FFB. These transactions are not reflected directly in the budget totals because borrowing and the repayment of borrowing between Federal agencies and the Treasury are not budgetary transactions. Rather, the budget authority and the outlays of the agency that are financed by such borrowing

are reflected in particular agency accounts and, hence, in the budget totals.

Lending by the FFB to an agency may be accomplished in any of three forms (the form used depends on the authorizing statutes pertaining to a particular agency or program): (1) the FFB may purchase agency financial assets; (2) the FFB may originate direct loans on behalf of an agency; and (3) the FFB may acquire debt securities that the agency is otherwise authorized to issue to the public. In the case of FFB loan originations, the FFB actually disburses loans directly to private borrowers on behalf of the agency and receives repayments from the private borrower on behalf of the agency. However, consistent with the legal requirement that transactions by the FFB be treated as a means of financing agency obligations, the budget reflects the budgetary effect of those transactions, which, in succession, are a loan by the FFB to the agency, a loan by the agency to a private borrower, a repayment by a private borrower to the agency, and a repayment by the agency to the FFB.

In recent years, Congress has authorized certain Rural Electrification Administration-guaranteed borrowers and Department of Defense-guaranteed foreign military sales borrowers to prepay certain loans at par, without the contractually required prepayment premiums. These prepayments result in losses to the FFB and thus the taxpayer.

Pursuant to these actions, the FFB has received REA-guaranteed borrower prepayments of \$3.1 billion with associated losses of \$0.8 billion.

To date, \$4.9 billion of eligible foreign military sales loans held by the FFB have been prepaid, with an associated taxpayer loss of \$1.7 billion.

As a result of these losses FFB had a negative net worth of \$2.1 billion at the end of 1992.

The following table shows by agency and program the net lending by the FFB during each year and the amount of loans outstanding at the end of the year.

Title 26, United States Code, is amended:

(A) by inserting after section 5117 the following new section:

"Section 5118. Prohibited sales by wholesale dealers

"(a) General

If a wholesale dealer in liquors or a wholesale dealer in beer has not received, within the time prescribed by the Secretary in regulations, evidence of payment of the special tax required by section 5121 from a retail dealer pursuant to section 5121A with respect to a place where the retail dealer conducts business, it shall thereafter be unlawful for the wholesale dealer to sell or deliver distilled spirits, wine, or beer to the retail dealer for sale at such place of business until the wholesale dealer has received such evidence from the retail dealer. Each sale or delivery that occurs after the time prescribed for receiving such evidence, but before such evidence is received, shall constitute a separate violation of this section.

"(b) Cross references

"(1) For penalty provision applicable to a violation of this section, see section 5687."

"(2) For provision relating to the submission of evidence of payment of tax, see section 5121A."

(B) by inserting after section 5121 the following new section:

"Section 5121A Evidence of Payment of Tax Required

"(a) General

Each retail dealer that is required to pay a special tax pursuant to section 5121 shall provide to each wholesale dealer in liquors and each wholesale dealer in beer from which the retail dealer purchases or receives distilled spirits, wine, or beer for sale at a place where the retail dealer conducts business, evidence in the form and manner, and within the time prescribed by the Secretary of Treasury in regulations, that the retail dealer has paid the current tax with respect to each such place of business. Each failure to provide such evidence to one wholesale dealer with respect to one place where the retailer conducts business shall constitute a separate violation of this section.

"(b) Cross references

"(1) For provision relating to the unlawful sale of distilled spirits, wine, or beer by a wholesale dealer to a retail dealer who fails to comply with this section, see section 5118.

"(2) For penalty provisions applicable to a violation of this section, see section 5687."

(C) in the table of section for Subpart D of Chapter 51, by adding after the item relating to section 5117 the following:

"5118. Original sales by wholesale dealer";

(D) in the table of section for Subpart E of Chapter 51, by adding after the item relating to section 5121 the following:

"5121A Evidence of Payment of Tax Required."; and

(E) by adding the following provision at the end of Section 5121:

"There shall be established in the Treasury an Alcohol Compliance Fund. Fees shall be collected pursuant to section 5121 of title 26, United States Code. These fees shall be deposited into the Fund and shall be available for the purposes of this title only to the extent and in the amount provided in advance in appropriations acts. Amounts in excess of those actually appropriated for any fiscal year shall be transferred to the General Fund at the end of such year." (Treasury Department Appropriations Act, 1994.)

The Bureau of Alcohol, Tobacco and Firearms is responsible for the enforcement of the laws designed to eliminate certain illicit activities and to regulate lawful activities relating to distilled spirits, beer, wine and nonbeverage alcohol products, tobacco, firearms, and explosives.

Compliance operations.—This activity covers the regulation of: the alcohol and tobacco industries relating to revenue protection and product and market integrity; the legal firearms industry through a system of licensing and compliance inspections; and the explosives industry through a license and permit system for manufacturers, dealers, and users of explosives. Effective July 1, 1987, this activity became responsible for the deposit and accounting for alcohol and tobacco excise taxes.

The budget proposes legislative amendments which will make wholesalers responsible for selling alcohol products only to retailers who can prove payment of the required Special Occupational Tax (SOT). This will increase compliance with the SOT significantly as tax evaders are forced to either comply with the tax law or leave the alcohol business. The increased revenue (estimated to be \$13.6 million) will be appropriated to partially pay for the costs of the Alcohol Compliance Program.

Law enforcement.—This activity covers the enforcement of: Federal laws relating to the liquor industry; Federal firearms statutes and Federal laws to suppress illegal use of explosives and illegal trafficking in explosives.

The Administration will propose several new or increased user fees for the Bureau of Alcohol, Tobacco, and Firearms which will help to offset the costs of the bureau's regulatory compliance programs. An increase in the annual fee for a basic firearms dealer license to \$600 will be proposed. This will help ATF to limit applicants to active dealers. The resulting decrease in the numbers of licensees will enable ATF to more effectively enforce compliance with the nation's firearms laws without significantly increased resources. New fees and fee increases will also be proposed for firearms import, explosive, alcohol, and tobacco permits and licenses and for alcohol labelling and testing reviews. These proposals are expected to yield \$40.1 million per year.

Inspection and control.—In enforcing the provisions of the Tariff Act of 1930, as amended, the Inspection and Control activity must: (1) stop the illegal entry of drugs and other prohibited items and enforce export laws while accommodating the law-abiding persons and cargo entering this country; (2) augment selectivity of Customs inspectional enforcement programs through improved techniques and equipment; (3) process persons and cargo entering this country; and (4) open new ports of entry and expand service at existing ports to meet the needs of the traveling and importing public.

Enforcement.—Operating under the authority of titles 19 and 26, U.S. Code, this program investigates violations of laws and trade regulations enforced by Customs, including currency, neutrality, smuggling, illegal exports of critical technology and arms, cargo theft, and child pornography. Financial investigations, export enforcement, and commercial fraud enforcement are major areas currently emphasized. Also, Customs has the ability to detect, sort, intercept, track, and apprehend the air and vessel smuggler, despite the continually shifting narcotics and contraband smuggling threat.

Tariff and Trade.—The Tariff and Trade program administers the commercial activities of the Customs Service under the Tariff Act of 1930, as amended. These activities include: (1) assessing and collecting duties, taxes, and fees on imported merchandise; (2) providing efficient service to the trade community; (3) protecting domestic industry and jobs from illegal and unfairly subsidized imports; (4) accurately collecting and reporting import and export statistics; (5) managing Customs post-audit and laboratory analyses of imports; and (6) enforcing the laws of other Federal agencies and numerous international agreements.

The North American Free Trade Agreement Implementation Act (Public Law 103-182) extended the collection of Customs user fees (merchandise and passenger fees) through September 2003, as well as increased air and sea passenger collections, and lifted air and sea passenger country exemptions through September 1997.

Due to the increase in trade likely to result from NAFTA, the President's budget for the United States Customs Service commits to \$18 million and hiring of 186 additional personnel to enhance enforcement of trade laws and regulations. Of these new employees, 100 will be dedicated to the enforcement of textile and apparel provisions.

The increased funding for NAFTA and textile enforcement will be generated by a \$94 million increase in the Merchandise Processing Fee (MPF). A portion of the MPF increase—\$26 million—will go to development of a new Automated Commercial System for tracking commercial entries and revenues, and an additional \$50 million will fund Customs commercial costs not previously covered by a fee.

Unclaimed and abandoned goods are held in storage under Customs custody for one year from the date of importation. At the end of that period, all merchandise upon which duties, storage, and other charges have not been paid is appraised and sold at public auction. The proceeds of such sales are deposited in this account. The salaries and expenses account is reimbursed for expenses of such sales and the balance is transferred to the general fund. The Bureau of Engraving and Printing designs, manufactures, and supplies Federal Reserve notes, various public debt instruments, as well as most evidences of a financial character issued by the United States, such as postage and internal revenue stamps. The Bureau executes certain printings for various territories administered by the United States, particularly postage and revenue stamps.

The anticipated work volume is based on estimates of requirements submitted by agencies served. The program comprises the following activities:

Engraving and printing—

Currency.—Total deliveries of currency for 1994 and 1995 are estimated to be 9.3 billion notes each year. During 1993 the Bureau delivered 8.0 billion Federal Reserve notes.

Stamps.—This category of work is comprised of postal and internal revenue stamps. The projected requirements for 1994 and 1995 are 30.4 and 30.1 billion stamps, respectively. In 1993, the Bureau delivered 30.5 billion stamps.

Securities.—This program encompasses the production of a wide variety of bonds, notes, and debentures for the Bureau of Public Debt and certain other agencies of the Government.

Commissions, certificates, etc.—This program is comprised primarily of Presidential and Department of Defense commissions and certificates, White House invitations, and identification cards for various Government agencies. It represents a small portion of the Bureau's total workload.

Space utilized by other agencies.—Other agencies are charged for services provided in the space occupied in the Bureau's buildings.

Other miscellaneous services.—A wide variety of miscellaneous services are performed by Bureau personnel for other agencies, which are charged on an actual cost basis.

Purchase of operating equipment.—This category consists of new purchases and replacement of printing equipment and other related printing items.

Plant alterations and experimental equipment.—This category encompasses alterations made on the Bureau's buildings and purchases of experimental equipment.

The operations of the Bureau are currently financed by means of a revolving fund established in accordance with the provisions of Public Law 656, August 4, 1950 (31 U.S.C. 181), which requires the Bureau to be reimbursed by customer agencies for all costs of manufacturing products and services performed. The Bureau is also authorized to assess amounts to acquire capital equipment and provide for working capital needs. Bureau operations during 1993 resulted in an increase to retained earnings of \$66.3 million.

This appropriation was used for the expansion of and improvements to existing Mint facilities in order to increase production capacity and alleviate production problems concerning health, noise, and congestion. In 1992, the expansion and improvements and construction of mint facilities accounts were transferred from this appropriation to the no-year expansion and improvements activity within the salaries and expenses appropriation in order to consolidate all accounts under one appropriation.

gniorage resulting from manufacturing coins is available to cover wastage and recoinage losses incurred in coinage, and the cost of distributing coins (31 U.S.C. 5111, 5112 and 5120). The remaining seigniorage is recorded in the Seigniorage Receipt Account.

Various enacted commemorative coin legislation authorized the use of the Coinage Profit Fund for deposits of all sales proceeds received and for the payment of all expenditures incurred under those acts.

In 1993 the Congress enacted a revolving public enterprise fund for the numismatic operations of the Mint. It is the intent of this legislation to establish the Mint's numismatic operations on a more business-like basis.

Legislation has been enacted which created the Public Enterprise Fund to finance numismatic and bullion coin operations for the United States Mint beginning in 1993.

The Mint retained profits from 1992 reimbursable programs to support start-up operations. During 1993 and thereafter, sales proceeds will be deposited into the revolving fund and operating and capital expenditures will be charged against the fund. At year's end, numismatic and bullion program net profits will be deposited into the General Fund of the Treasury, with the exception of a stated amount of funding to be retained to finance start-up operations for the subsequent fiscal year.

The Mint will be required to submit business-type statements to the Congress in support of the operations of the revolving fund.

This appropriation provides funds for the conduct of all public debt operations and the promotion of the sale of U.S. savings-type securities.

The 1995 budget includes appropriation language that would initiate a fee for issuing definitive marketable securities and an annual maintenance fee for investors with large Treasury Direct accounts.

Processing and accounting for:

Savings securities.—This activity is concerned with the issuance, servicing, and retirement of savings bonds and notes and retirement-type securities, including: (1) the maintenance and servicing of individual accounts of owners of series H and HH bonds and the authorization of interest payments; and (2) the maintenance of accounting control over financial transactions, securities transactions and accountability, and interest cost. These functions are performed directly by the Bureau of the Public Debt, by the Federal Reserve Banks as fiscal agents of the United States, and by the qualified agents which issue and redeem savings bonds and notes.

This appropriation provides for overall planning and direction of the Internal Revenue Service, for management of the Service's financial resources and procurement programs and for the conduct of internal audits and internal security investigations.

Management services.—This activity sets policies and goals, provides leadership and direction for the Service, and provides

Service-wide policy guidance for managing contract administration and procurement programs, conducting strategic and organizational planning, and developing and managing the human, logistical, and financial resources required to fulfill the Service's mission in performing tax administration.

Inspection.—This activity protects public confidence in the integrity of the Internal Revenue Service. Internal Audit independently reviews service programs at the national, regional and local levels to ensure that laws and regulations are being followed, that management and financial internal controls are in place, that programs and major ADP systems are functioning effectively and efficiently and that appropriated funds are spent as authorized. Internal Security conducts background investigations to maintain the integrity of the IRS workforce against fraud and drug abuse and protect the service against outside attempts to bribe, intimidate or harass its employees.

This appropriation provides for processing tax returns and related documents, processing data for compiling statistics of income and assisting taxpayers in correct filing of their returns and in paying taxes that are due.

The 1995 budget includes appropriations language that would initiate a user fee for providing institutions a direct deposit indicator after receipt of an electronically filed tax return. This service is currently provided free of charge. The 1995 budget also includes language to have the Service charge for the full cost of providing copies of tax returns.

Returns processing.—This activity provides for all actions associated with the mailing of tax return forms and instructions, receipt of completed returns and payments, deposit of those payments, processing and accounting for revenue collections and Federal Tax Deposits and verification of the accuracy of information provided by the taxpayer through an automated master file system. It provides for payment of refunds,

General and special funds—Continued

PROCESSING TAX RETURNS AND ASSISTANCE—Continued

offset of refunds against delinquent accounts, issuance of notices that payments are overdue, identification of possible nonfilers for investigation, and assistance in the selection of tax returns for audit.

Taxpayer services.—This activity aids voluntary compliance with Federal tax laws by informing taxpayers of their responsibilities and by providing services and information through various media which assist them in meeting their obligations. Inquiries concerning tax laws, IRS notices and procedures, and tax accounts problems are resolved.

Resource Management, Processing and Services.—This activity provides all administrative services for IRS field installations.

This appropriation provides for the examination of tax returns, both domestic and international, and the administrative and judicial settlement of taxpayer appeals of examination findings. It also provides for technical rulings, monitoring employee pension plans, determining qualifications of organizations seeking tax-exempt status, examining tax returns of exempt organizations, enforcing statutes relating to detection and investigation of criminal violations of the internal revenue laws, collecting unpaid accounts, and securing unfiled tax returns and payments. Funds are requested to continue the Service's ability to ensure equitable application and adequate enforcement of the tax laws, to promote voluntary compliance with the internal revenue laws, to identify possible nonfilers for investigation and to investigate cases of fraud or financial transactions related to possible money laundering schemes.

Examination.—This activity encourages voluntary compliance with the internal revenue laws through the determination of correct tax liability by the selective examination of tax returns, the correction of errors, and explanation of these corrections to taxpayers.

Counsel.—The appeals portion of this activity provides for an independent administrative review of contested tax assessments and adjustments with the objective of settling tax controversies without litigation. When settlement is not possible, the tax litigation portion of the activity provides for the handling of Tax Court litigation and for the coordination of the Service's legal position to ensure consistency. The technical activity provides legal advice and assistance to field enforcement activities, furnishes non-tax legal services and provides legal expertise in the issuance of ruling letters; technical advice; publication of revenue rulings and revenue procedures; review of legislation; interpretation of statutes and drafting of regulations.

Employee plans and exempt organizations.—This activity monitors private pension plans to ensure compliance with the Employee Retirement Income Security Act of 1974, as amended. Organizations apply for tax-exempt status, which is determined by this activity, through the application of certain tests. By examining tax returns of tax-exempt organizations, it monitors and ensures compliance with current tax laws regarding tax-exempt organizations.

International.—This activity directs the full range of IRS enforcement and assistance programs related to U.S. taxpayers doing business or residing outside the United States as well as non-resident aliens with a U.S. tax obligation; provides technical tax training and administrative assistance to foreign governments; provides compliance and taxpayer service support to Puerto Rico, the Virgin Islands and certain Pacific Island jurisdictions; and manages activities related to tax treaties between the United States and other governments. The International Counsel function identifies and resolves international tax issues; provides timely guidance to the field through both routine program assistance to the Assistant Commissioner (International) and to district counsel and international examiners with respect to specific cases and issues; and provides timely guidance to taxpayers and tax practitioners through the rulings and regulations program.

Statistics of income and compliance research.—This activity publishes Statistics of Income Reports on the operation of income tax laws, as required by the Internal Revenue Code for the Congress and its committees; for administrative use by the Secretary of the Treasury and the Commissioner of Internal Revenue; and for the Federal benchmark statistical programs on income, wealth and finance. This activity also develops and evaluates data on taxpayer filing characteristics based on returns as they are filed, and conducts statistical and economic studies for the Office of the Commissioner.

Tax fraud and financial investigation.—This activity provides for enforcement of the criminal statutes relating to violations of internal revenue laws. It investigates cases of suspected intent to defraud, recommends prosecution as warranted, and assists in the preparation and trial of criminal tax cases. In addition, financial investigations of money laundering schemes are exposed through a variety of methods, including Currency Transaction Reports.

Collection.—This activity collects unpaid tax accounts and secures delinquent returns; develops and implements programs to prevent tax accounts from becoming delinquent; determines and analyzes reasons for tax accounts that become delinquent; and develops, implements, and measures programs that analyze the reasons for types and degrees of nonfiling.

Document Matching.—Through the Document Matching (Information Reporting) program the Service processes information returns, such as wage, dividend, and interest statements and matches them with related individual income tax returns. This enables the Service to identify income reporting discrepancies, unsubstantiated deductions, and nonfiling of tax returns and to verify facts and amounts in question through taxpayer contact prior to assessing additional tax or refunding excess credits.

Resource Management, Compliance.—This activity provides all administrative services for IRS field installations.

The 1995 budget includes appropriations language that would initiate a user fee for entering into installment agreements. This payment option is currently provided free of charge.

This appropriation provides for Service-wide data processing support, including the evaluation, development, and implementation of computer systems, software, and hardware requirements.

Tax Systems Modernization (modernized developmental systems).—This activity provides for major redesign and acquisition of the basic information systems infrastructure needed to achieve a fully integrated framework for tax administration operations. This includes implementing a redesigned tax administration system, developing a target architecture, replacing equipment at major field installations, and executing other major redesign efforts.

Modernized Operational.—This activity includes those systems having advanced from the developmental phase of activity to an operational mode after Servicewide implementation and acceptance.

Services and Compliance.—This activity provides automation support for the Processing Tax Returns and Assistance and Tax Law Enforcement appropriations. The systems in this activity direct IRS compliance and enforcement programs including: examining tax returns, collecting unpaid accounts, securing delinquent returns, investigating tax fraud, resolving tax disputes, and determining tax liability status or exemption of organizations. This activity also provides automation support for processing tax and information returns, issuing refunds and notices, accounting for tax revenue, and assisting taxpayers with their tax obligations.

Support Systems.—This activity provides automation support for all IRS administrative programs, including management and financial information, logistics, payroll and personnel, and internal audit and security automation. This activity also provides the support that ensures the efficient functioning of payroll and personnel systems, financial systems, resource inventory systems, and quality assurance efforts.

As provided by law, there will be instances wherein the earned income tax credit will exceed the amount of tax liability owed, resulting in an additional payment to the tax filer. The Earned Income Credit was originally authorized by the Tax Reduction Act of 1975 (Public Law 94-12) and made permanent by the Revenue Adjustment Act of 1978 (Public Law 95-600). The Tax Reform Act of 1986 and the Omnibus Budget Reconciliation Acts of 1990 and 1993 have increased the allowance and expanded the eligibility for earned income credit.

Under certain circumstances, as provided in 26 U.S.C. 6611, interest is paid on Internal Revenue collections that must be refunded. The Tax Equity and Fiscal Responsibility Act of 1982 (Public Law 97-248) provides for daily compounding of interest. Under the Tax Reform Act of 1986 (Public Law 99-514), interest paid on Internal Revenue collections will equal the Federal short-term rate plus two percentage points, such rate to be adjusted quarterly. A 6-percent rate will be in effect from January 1, 1994, through March 31, 1994. The Omnibus Budget Reconciliation Act of 1993 extends a 45 day interest free processing period to refunds for all types of tax.

This revolving fund was established pursuant to section 112(a) of the Federal Tax Lien Act of 1966, to serve as the source of financing the redemption of real property by the United States. During the process of collecting unpaid taxes, the government places a tax lien on real estate in order to protect the government's interest. Situations arise where property of this nature is collateral for other indebtedness and the tax lien is subordinate to the original indebtedness. In this circumstance, it is often to the government's interest

to purchase the property during the foreclosure sale. The advantage arises when the property is worth substantially more than the first lienholder's equity but is being sold for an amount that barely covers that equity, thereby leaving no proceeds to apply against delinquent taxes. Under these circumstances, if the Government buys the property and subsequently puts it up for sale under more advantageous conditions, it is possible to realize sufficient profit on the transaction to fully or partially collect the amount of taxes due. The revolving fund is reimbursed from the proceeds of the sale in an amount equal to the amount expended from the fund for the redemption. The balance of the proceeds are applied against the amount of the tax, interest, penalties, and additions thereto, and for the costs of sale. The remainder, if any, would revert to the parties legally entitled to it.

ADMINISTRATIVE PROVISION—INTERNAL REVENUE SERVICE

[SECTION 1.] Not to exceed 4 per centum of any appropriation made available to the Internal Revenue Service for the current fiscal year by this Act may be transferred to any other Internal Revenue Service appropriation upon [the approval of] *advance notice* to the House and Senate Committees on Appropriations.

[SEC. 2.] The Internal Revenue Service shall institute and maintain a training program to insure that Internal Revenue Service employees are trained in taxpayers' rights, in dealing courteously with the taxpayers, and in cross-cultural relations. *(Treasury Department Appropriations Act, 1994.)*

The Secret Service is responsible for the security of the President, the Vice President and other dignitaries and designated individuals; for enforcement of laws relating to obligations and securities of the United States and financial crimes such as financial institution fraud and other fraud; and for protection of the White House and other buildings within Washington, DC.

Investigations, protection, and uniformed activities.—The Service must provide for the protection of the President of the United States, immediate family members, the President-elect, the Vice President, or other officer next in the order of succession to the Office of the President, and the Vice President-elect, and the members of their immediate families unless the members decline such protection; protection of the person of a visiting head and accompanying spouse of a foreign state or foreign government and, at the direction of the President, other distinguished foreign visitors to the United States and official representatives of the United States performing special missions abroad; the protection of the person of a former President and spouse during the former President's lifetime, the protection of the person of the spouse of a former President until death or remarriage, and minor children of a former President until they reach 16 years of age, unless such protection is declined. The Service is also responsible for investigation of counterfeiting of currency, and securities; forgery and altering of Government checks and bonds; thefts and frauds relating to Treasury electronic funds transfers; financial access device fraud, telecommunications fraud, computer and telemarketing fraud; fraud relative to federally insured financial institutions; and other criminal and noncriminal cases.

The Secret Service Uniformed Division protects the Execu-

tive Residence and grounds in the District of Columbia; any building in which White House offices are located; the President and members of his immediate family; the official residence and grounds of the Vice-President in the District of Columbia; the Vice President and members of his immediate family; foreign diplomatic missions located in the Washington metropolitan area; the Treasury Building, its Annex and grounds, and such other areas as the President may direct on a case-by-case basis.

Presidential candidate protective activities.—The Secret Service is authorized to protect major Presidential and Vice-Presidential candidates, as determined by the Secretary of the Treasury after consultation with an advisory committee. In addition, the Service is authorized to protect the spouses of major Presidential and Vice-Presidential candidates; however, such protection may not commence more than 120 days prior to the general Presidential election.

¹The Secret Service is in the process of altering the manner by which it currently accounts for all fraud case referrals. During FY 1994, it is expected that Department of Treasury regulated institutions will forward all referrals to be initially opened for data base tracking/matching purposes. Of the 25,000 expected referrals in FY 1994, the U.S. Secret Service is projecting that 6,000 will be investigatively closed, while 19,000 will be administratively closed at headquarters.

The Office of the Comptroller of the Currency was created for the purpose of establishing and regulating a national banking system. The National Currency Act of 1863 (12 U.S.C. 1 et seq., 12 Stat. 665) provided for the chartering and supervising functions in this connection. The income of

the bureau is derived principally from assessments paid by national banks and interest on investments in U.S. Government obligations.

The Administrator of National Banks charters new banking institutions only after investigation and due consideration of charter applications. Supervision of existing national banks is aided by the required submission of periodic reports and detailed onsite examinations, which are conducted by a staff of approximately 2,974 national bank examiners. At present, there are approximately 3,390 national banks with more than 26,600 operating branches and total assets of more than \$2.1 trillion.

In addition, the Comptroller considers applications for mergers in which the resulting bank will be a national bank and applications from banks to establish branches. The Comptroller of the Currency also promulgates rules and regulations for the guidance of national banks and bank directors.

The Office of Thrift Supervision was created by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 1811 note). The Office assumed the regulatory functions of the Federal Home Loan Bank Board dissolved by the same act.

The Office charters, regulates and examines Federal thrifts, all of which are insured by the Savings Association Insurance Fund. In addition, the Office cooperates in the examination and supervision of State-chartered thrifts insured by the Savings Association Insurance Fund. The Office sets capital standards for Federal and State thrifts and reviews applications of State-chartered thrifts for conversion to Federal thrifts. It also reviews applications for establishment of branch offices.

Income of the bureau is derived principally from assessments on thrifts, examination fees and interest on investments in U.S. Government obligations. At present, the Office oversees more than 1,700 thrifts with more than 12,000 operating branches and total assets of more than \$800 billion.

- Sec. 804 Authorizes GSA to pay replacement costs for the site to be acquired for the new United States Courthouse in Montgomery, Alabama.

SEC. [102] 101. Appropriations to the Treasury Department in this Act shall be available for uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901), including maintenance, repairs, and cleaning; purchase of insurance for official motor vehicles operated in foreign countries; purchase of motor vehicles without regard to the general purchase price limitation for vehicles purchased and used overseas for the current fiscal year; entering into contracts with the Department of State for the furnishing of health and medical services to employees and their dependents serving in foreign countries; and services authorized by 5 U.S.C. 3109.

SEC. [103] 102. Not to exceed 2 per centum of any appropriations in this Act for the Department of the Treasury may be transferred between such appropriations. Notwithstanding any authority to transfer funds between appropriations contained in this or any other Act, no transfer may increase or decrease any appropriation in this Act by more than 2 per centum and [any such proposed transfers] *notice thereof shall be [approved] transmitted in advance [by] to the Committees on Appropriations of the House and Senate.*

SEC. 103. *Notwithstanding any other provision of law, beginning in fiscal year 1995 and thereafter, the Financial Management Service (FMS) shall be reimbursed, for postage incurred by FMS to make check payments on their behalf, by: the Department of Veterans Af-*

fairs, for the mailing of Compensation and Pension benefit payments; the Department of Health and Human Services, for the mailing of Supplemental Security Income payments; and the Office of Personnel Management, for the mailing of Retirement payments. Such reimbursement shall be due beginning with checks mailed on October 1, 1994, and such reimbursement shall occur on a monthly basis.

TITLE V—GENERAL PROVISIONS

THIS ACT

SECTION 501. No part of any appropriation made available in this Act shall be used for the purchase or sale of real estate or for the purpose of establishing new offices inside or outside the District of Columbia: *Provided*, That this limitation shall not apply to programs which have been approved by the Congress and appropriations made therefor.

SEC. 502. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 503. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. [505] 504. None of the funds made available to the General Services Administration pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949 shall be obligated or expended after the date of enactment of this Act for the procurement by contract of any [service which, before such date, was performed by individuals in their capacity as employees] *guard, elevator operator, messenger or custodial services if any permanent veterans preference employee of the General Services Administration [in any position of guards, elevator operators, messengers, and custodians], at said date, would be terminated as a result of the procurement of such services, except that such funds may be obligated or expended for the procurement by contract of the covered services with sheltered workshops employing the severely handicapped under Public Law 92-28. Only if such workshops decline to contract for the provision of the covered services may the General Services Administration procure the services by competitive contract, for a period not to exceed 5 years. At such time as such competitive contract expires or is terminated for any reason, the General Services Administration shall again offer to contract for the services from a sheltered workshop prior to offering such services for competitive procurement.*

SEC. [507] 505. None of the funds made available by this Act shall be available for any activity or for paying the salary of any Government employee where funding an activity or paying a salary to a Government employee would result in a decision, determination, rule, regulation, or policy that would prohibit the enforcement of section 307 of the 1930 Tariff Act.

SEC. [508] 506. None of the funds made available by this Act shall be available for the purpose of transferring control over the Federal Law Enforcement Training Center located at Glynco, Georgia, Tucson, Arizona, and Artesia, New Mexico, out of the Treasury Department.

SEC. [509] 507. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes within the United States not heretofore authorized by the Congress.

SEC. [511] 508. Funds under this Act shall be available as authorized by sections 4501-4506 of title 5, United States Code, when the achievement involved is certified, or when an award for such achievement is otherwise payable, in accordance with such sections.

Such funds may not be used for any purpose with respect to which the preceding sentence relates beyond fiscal year [1994] 1995.

SEC. [513] 509. The Office of Personnel Management may, during the fiscal year ending September 30, [1994] 1995, accept donations of supplies, services, and equipment for the Federal Executive Institute, the Federal Quality Institute, and [Executive Seminar] *Management Development Centers [for the enhancement of the morale and educational experience of attendees] to assist in enhancing the quality of Federal management.*

SEC. [515] 510. The United States Secret Service may, during the fiscal year ending September 30, [1994] 1995, accept donations of money to off-set costs incurred while protecting former Presidents and spouses of former Presidents when the former President or spouse travels for the purpose of making an appearance or speech for a payment of money or any thing of value.

SEC. 511. *None of the funds made available by this Act for "Allowances and Office Staff for Former Presidents" may be used for partisan political activities.*

SEC. [520] 512. No part of any appropriation contained in this Act shall be available to pay the salary for any person filling a position, other than a temporary position, formerly held by an employee who has left to enter the Armed Forces of the United States and has satisfactorily completed his period of active military or naval service and has within ninety days after his release from such service or from hospitalization continuing after discharge for a period of not more than one year made application for restoration to his former position and has been certified by the Office of Personnel Management as still qualified to perform the duties of his former position and has not been restored thereto.

SEC. [526] 513. None of the funds made available in this Act may be used to provide any non-public information such as mailing or telephone lists to any person or any organization outside of the Federal Government without [the approval of] *notice to the House and Senate Committees on Appropriations.*

SEC. [528] 514. COMPLIANCE WITH BUY AMERICAN ACT.

No funds appropriated pursuant to this Act may be expended by an entity unless the entity agrees that in expending the assistance the entity will comply with sections 2 through 4 of the Act of March 3, 1993 (41 U.S.C. 10a-10c, popularly known as the "Buy American Act").

SEC. [529] 515. SENSE OF CONGRESS; REQUIREMENT REGARDING NOTICE.

(a) PURCHASE OF AMERICAN-MADE EQUIPMENT AND PRODUCTS.—In the case of any equipment or products that may be authorized to be purchased with financial assistance provided under this Act, it is the sense of the Congress that entities receiving such assistance should, in expending the assistance, purchase only American-made equipment and products.

(b) NOTICE TO RECIPIENTS OF ASSISTANCE.—In providing financial assistance under this Act, the Secretary of the Treasury shall provide to each recipient of the assistance a notice describing the statement made in subsection (a) by the Congress.

SEC. [530] 516. PROHIBITION OF CONTRACTS.

If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a "Made in America" inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, such person shall be ineligible to receive any contract or subcontract made with funds provided pursuant to this Act, pursuant to the debarment, suspension, and ineligibility procedures described in section 9.400 through 9.409 of title 48, Code of Federal Regulations. This request would allow VA to maintain the 1994 level of effort and open newly completed construction projects in a timely manner. Workload estimates by program reflect a continued shift away from hospital inpatient care to other care settings when consistent with desired medical outcomes. As a result, the recent trend of a modest decline in hospital inpatient workload continues, while workload in outpatient and nursing home care continues to grow.

In 1995, increased costs are associated with: (1) operational requirements of new facilities (including the opening of one new hospital, one new outpatient clinic and five new nursing homes); (2) payroll increases; (3) equipment and land and structure increase; and (4) increased cost of utilities, communications, provisions, prosthetics, medical and dental supplies, and operating supplies. These increases are partially offset by savings of \$111 million in planned management improvements.

The planned management improvements include: (1) National Performance Review recommendations to implement electronic commerce and eliminate VA supply depots (\$24 million); (2) the VA Inspector General's recommendations for improving the negotiation of community nursing home and scarce medical specialist contracts (\$37 million); and (3) a VA initiative to restructure and re-engineer operations (\$50 million). Under restructuring, VA proposes to: (1) replace the existing redundant regional structure with a more effective Veteran Service Area (VSA) concept; (2) consolidate support and clinical functions to realize efficiencies of scale by eliminating redundancies in areas such as personnel, procurement and finance; (3) collaborate with community health care providers where cooperation will improve quality and reduce

costs; and (4) in the transition to national health care reform, reassess the mission of all facilities, placing a greater emphasis on ambulatory and primary care settings and less on acute care.

The Administration's proposed Health Security Act provides an additional \$1 billion in 1995 beyond the funding proposed in this schedule to ensure an effective transition for the VA health system to compete under national health care reform. These investment funds are presented in the health care allowance section of the budget.

Maintenance and operation of VA facilities—

VA hospital care.—Costs for 1995 are estimated to increase by \$172,412 thousand for operating the medical, surgical, psychiatric, and intermediate bed sections in 173 VA hospitals.

Estimated operating levels are:

	1993 actual	1994 est.	1995 est.
Patients treated	952,124	945,000	940,000
Average daily census	41,663	41,000	40,731
Average employment (including education and training)	124,911	123,859	120,264
Ratio average employment to census	3.00	3.02	2.95

Nursing home care.—An increase of \$95,518 thousand in 1995 is estimated for the operation of nursing care beds in 135 facilities.

Estimated operating levels are:

	1993 actual	1994 est.	1995 est.
Patients treated	31,669	32,161	33,983
Average daily nursing patient census	13,476	13,684	14,459
Average employment (including education and training)	18,525	18,801	19,879

Domiciliary care.—In 1995, an increase of \$7,687 thousand is estimated for the care of domiciliary members in 39 facilities. The statutory requirements to provide care for homeless veterans will be met. Workload in 1995 reflects the temporary closure of the Leavenworth, KS domiciliary for renovation.

Estimated operating levels are:

	1993 actual	1994 est.	1995 est.
Patients treated	18,981	19,508	19,434
Average daily member census	6,200	6,360	6,325
Average employment (including education and training)	3,618	3,717	3,724

Outpatient care.—An increase of \$72,853 thousand is estimated in 1995 for the cost of outpatient medical and dental care provided by staff and by physicians and dentists participating under a fee basis arrangement for certain eligible veterans.

The Medical and Prosthetic Research account is comprised of the following three programs:

Medical research.—This program is comprised of investigator-initiated and special research. In addition to the broad spectrum of biomedical research projects, priority is given to research Acquired Immune Deficiency Syndrome and conditions that frequently occur among veterans such as aging, alcoholism, schizophrenia, delayed stress disorders and other mental illness, and spinal cord injury and tissue regeneration. Cooperative studies include surgical treatment of angina pectoris, adjunct treatment of diabetes, and relative potency and side-effect liability of new and marketed sedatives. In 1994, the Department of Defense will provide \$20 million to support research in areas of interest to both VA and DOD.

Rehabilitation research.—This program is dedicated to the development and application of science and technology to improve the care of the physically disabled veterans through prostheses for the amputee, improved wheelchairs for the paralyzed, and better joint functions for the arthritic. It also includes care for those with visual, hearing and speech disorders.

Health services research.—This program provides support for health services projects at Department of Veterans Affairs medical centers for improving the effectiveness and economy of delivery of health services and improving the accessibility of services to veterans.

In support of the research activities of these three programs, VA applies a variety of budgetary resources including appropriations from the Medical Care account and reimbursements from the Department of Defense. Grants from the National Institutes of Health, private proprietary sources, and voluntary agencies provide additional support for VA's researchers. The first table summarizes all budgetary resources for the Medical and Prosthetic Research account. The second table shows total number of projects and award rates for newly approved projects.

Medical, hospital, nursing home, and domiciliary administration.—Central office staff elements will continue to provide executive direction of all Department medical and construction programs through program development, implementation, and administration of policies, plans, and objectives. The 1994 and 1995 estimates reflect a restructuring of the office of construction management to create project delivery teams. The new organization is designed to improve both efficiency and customer service.

The Medical Care Cost Recovery (MCCR) Fund was established by the Omnibus Budget Reconciliation Act of 1990, P.L. 100-508. This Fund serves as a depository for all third party insurance collections. A portion of these monies will

be utilized to provide for FTE and other administrative costs associated with the medical care cost recovery efforts. After providing for the estimated cost of operations for the ensuing year, remaining funds are transferred to the Department of Treasury before January of the next year.

While the MCCR Fund reflects the program costs of both third-party and copayment activities, the receipts only reflect third-party recoveries. The table below presents the complete relationship between the costs of MCCR activities and the total collections, regardless of source, resulting from these activities.

This account provides funds for operating expenses of VA medical facilities furnishing nursing home care to certain veterans in receipt of pensions. Title 38 provides that a veteran with no spouse or child will only receive \$90 per month in pension beginning the third full month following the month of admission to VA furnished nursing home care. The difference between the \$90 the veteran receives and the amount otherwise authorized is transferred to this fund for spending expenses at the facility furnishing the nursing care.

This revolving fund, established pursuant to the Veterans Omnibus Health Care Act of 1976, Public Law 94-581, provides a mechanism for the furnishing of rehabilitative services to certain veteran beneficiaries who are receiving medical care and treatment from the Department of Veterans Affairs.

Funds to operate the various rehabilitative activities and provide for the therapeutic work for remuneration for patients and members in VA health care facilities are derived from contractual arrangements with private industry or nonprofit entities. Public Law 102-54 authorizes VA to contract with any Federal agency, including VA, and authorizes the Fund to cover training, education and travel costs of employees associated with the rehabilitative programs. This is a self-sustaining fund, and therefore no appropriation is required to support these activities.

This fund consists of gifts, bequests, and proceeds of sale of property left in the care of the facilities by former beneficiaries, patient's fund balances and proceeds of sale of effects of beneficiaries who die leaving no heirs or without having otherwise disposed of their estate. Such funds are used to promote the comfort and welfare of veterans at hospitals, nursing homes, and domiciliaries where no general appropriation is available. Public Law 102-54 authorizes a compensation work therapy and therapeutic transitional housing program and a transitional housing loan program to be funded from the General Post Fund. In addition, donations from pharmaceutical companies, non-profit corporations, and individuals to support VA medical research are deposited into this fund. (38 U.S.C. chs. 83 and 85.)

This program provides loans to nonprofit organizations to assist them in leasing housing units exclusively for use as a transitional group residence for veterans who are in (or who have recently been in) a program for the treatment of substance abuse. The amount of the loan cannot exceed \$4,500 for any single residential unit and each loan must be repaid within two years through monthly installments. The amount of loans outstanding at any time may not exceed \$100,000.

Nonprofit organizations participating in the program must ensure that, in the operation of each residence established with the assistance of this loan: (1) the use of alcohol or any illegal drug in the residence will be prohibited; (2) any resident who violates the prohibition on alcohol and drug use will be expelled from the residence; (3) the cost of maintaining the residence, including fees for rent and utilities, will be paid by the residents; (4) the residents will, through a majority vote, establish policies governing the conditions of the residence, including the manner in which the applications for residence are approved; and (5) the residence will house no less than six veterans.

This appropriation would provide for the payment of compensation benefits to veterans and survivors. Compensation is paid to veterans for disabilities incurred in or aggravated during active military service. Death and Indemnity Compensation (DIC) is paid to survivors of servicepersons or veterans whose death occurred while on active duty or as a result of service-connected disabilities.

The Secretary may pay a clothing allowance to each veteran who uses a prescribed medication for a service-connected skin condition, or wears a prosthetic or orthopedic appliance (including a wheelchair) which, in the judgment of the Secretary, tends to damage or tear the clothing of such veteran.

Caseload and cost tables shown below do not include proposed legislation but does include the supplemental request.

Pension benefits may be paid to veterans or their survivors. Veteran's entitlement is based on active duty service of a specific length (normally 90 days or more) during a designated war period; disabilities considered permanent and total; and countable income below established levels. There is no disability requirement for survivor cases. Income support is provided at established benefit levels.

Veterans who are under the age 45 and are in receipt of disability pension will be evaluated to determine whether a vocational goal is reasonably feasible. Those for whom a vocational goal is feasible are eligible for a program of vocational training.

An automatic annual cost-of-living increase comparable to the annual social security increase is provided for those pensioners in the improved program and to parents receiving dependency and indemnity compensation. The increase, effective with payments made on January 1, 1995, is expected to be 3.0 percent.

Outlays	854,491	1,198,300	1,299,600

This appropriation finances educational assistance allowances for certain peacetime veterans and for eligible dependents of those veterans: (a) who died from service-connected causes or have a total and permanent rated service-connected disability; and (b) servicepersons who were captured or missing in action. In addition, certain disabled veterans are provided with vocational rehabilitation, specially adapted housing grants, and automobile grants with the associated approved adaptive equipment. The funding level in 1995 will be \$339.2 million more than in 1994. This is due primarily to the increases in MGIB trainees and average benefit payments.

The following table provides a comparison of trainees and costs for the Dependents Educational Assistance program, and reflects the supplemental request.

Special assistance to disabled veterans.—Service-disabled veterans requiring vocational rehabilitation receive assistance to cover the costs of subsistence, tuition, books, supplies, and equipment.

Specially adapted housing grants, up to a maximum of \$38,000, are provided to certain severely disabled veterans. Veterans who suffer service-connected blindness or who have

lost the use of both upper extremities can receive up to \$6,500.

An allowance, up to a maximum of \$5,500, is provided to certain service-disabled veterans and servicepersons toward the purchase price of an automobile. Adaptive equipment and the maintenance and replacement of such equipment is also provided.

The following table shows a caseload and cost comparison for these beneficiaries, and reflects the supplemental request.

Work-Study.—Certain veterans pursuing a program of rehabilitation, education, or training, who are enrolled as a full-time student, can work up to 250 hours and receive a maximum of \$1,062.50 per semester, paid at the rate of the Federal or State minimum wage, whichever is higher.

Payments to States.—State Approving Agencies are reimbursed for the costs of inspecting, approving and supervising programs of education and training offered by educational institutions and training establishments in which veterans, dependents and reservists are enrolled or are about to enter.

All Volunteer Force educational assistance (Montgomery GI Bill).—Public Law 98-525, enacted October 19, 1984, established two new peacetime educational programs: an assistance program for veterans who enter active duty during the period beginning July 1, 1985 and an assistance program for certain members of the Selected Reserve. The Readjustment benefits appropriation pays the basic benefit allowance for the peacetime veterans. Supplementary educational assistance for

peacetime veterans and the basic benefit allowance for reservists are financed by payments from the Department of Defense and the Department of Transportation.

The following table shows a caseload and cost comparison for these beneficiaries under existing legislation, and reflects the supplemental request.

Jobs Training.—Public Law 102-484 authorized the Department of Defense to enter into agreements with the Departments of Labor and Veterans Affairs to provide job assistance to members of the Armed Forces who are forced or induced to leave military service on or after August 2, 1990 as part of the drawdown. There is \$81 million available to fund this program until April 1, 1997.

Note.—The Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

Military and naval insurance.—Payments are made to the U.S. Government life insurance fund for certain World War I veterans for extra hazards of military service and for claims on war risk insurance issued to servicemen and veterans of World War I.

National service life insurance.—Payments are made to the national service life insurance fund for certain World War II veterans for: (a) the extra hazards of service; (b) gratuitous insurance granted to certain persons unable to apply for national service life insurance; (c) death claims on policies under waiver of premiums while the insured was on active duty.

Payments are also made to policyholders and beneficiaries on nonparticipating national service life insurance policies issued to World War II veterans with service-connected disabilities.

Veterans mortgage life insurance (VMLI).—Payments are made to mortgage holders under this program which provides mortgage protection life insurance to veterans who have received a grant for specially adapted housing due to severe disabilities.

The general decline in the number of policies and the amount of insurance in force is expected to continue in 1995 as indicated in the following table (dollars in thousands).

This fund finances the payment of claims on nonparticipating life insurance policies issued and currently is open for new issues to veterans having service-connected disabilities. The program provides insurance coverage for service-disabled veterans at standard rates. Administrative expenses are paid from the General operating expenses appropriation.

Operating costs—

Death claims.—Represents payments to designated beneficiaries.

All other.—Represents payments to policyholders who surrender their policies for their cash value and hold endowment policies which have matured.

Capital investment.—A policyholder may borrow up to 94 percent of the value of his policy.

The trend in the number and amount of policies in force is indicated in the following table (dollars in thousands):

Public enterprise funds—Continued

SERVICE-DISABLED VETERANS INSURANCE FUND—Continued

Insurance in force	\$1,547,653	\$1,520,293	\$1,493,683

Financing.—Operations are financed from premiums and other receipts. Additional funds are received by transfer from the Veterans insurance and indemnities appropriation, instead of direct appropriations to this fund.

Operating results and financial condition.—Since premium and other receipts are insufficient to cover operations, the fund continues to project liabilities in excess of assets. The deficit is expected to reach an estimated \$458 million by September 30, 1994.

Note.—The Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund pays claims and administrative costs on participating life insurance policies issued during the period May 1, 1965, through May 2, 1966, under three life insurance programs: (1) service-disabled standard insurance, (2) service-disabled rated insurance, and (3) nonservice disabled insurance availing disabled World War II and Korean conflict veterans an opportunity to acquire life insurance coverage who were no longer eligible for other Government insurance.

Budget program—

Death claims.—Represents payments to designated beneficiaries.

Dividends.—Policyholders participate in the distribution of annual dividends.

All other.—This represents payments to the General operating expenses appropriation for the administrative costs of processing claims and maintaining the accounts, and to those policyholders who: (a) surrender their policies for cash value; (b) hold endowment policies which have matured; and (c) have purchased total disability income coverage and subsequently become disabled.

Policy loans made.—A policyholder may borrow up to 94 percent of the cash value of his policy at an interest rate adjusted to reflect private sector borrowing costs.

The following table reflects the decrease in the number of policies and the amount of insurance in force (dollars in thousands):

	1993 actual	1994 est.	1995 est.
Number of policies	109,847	106,067	101,887
Insurance in force	\$804,290	\$777,440	\$748,420

Financing.—Operations are financed from premiums collected from policyholders and interest on investments. Excess earnings of the fund are now distributed to the policyholders in the form of an annual dividend.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis.

The Guaranty and Indemnity Fund was established to replace the Loan Guaranty Revolving Fund with respect to loans closed after December 31, 1989. The following Federal guaranty protects lenders against losses: (a) for loans of \$45,000, or less, 50 percent of the loan is guaranteed; (b) for loans greater than \$45,000, but not more than \$56,250, \$22,500; (c) for loans more than \$56,250 but less than \$144,000, the lesser of \$36,000 or 40 percent of the loan; or (d) for loans greater than \$144,000, the lesser of \$46,000 or 25 percent of the loan.

The subsidy amounts are estimated on a present value basis.

Credit accounts—Continued**LOAN GUARANTY PROGRAM ACCOUNT—Continued**

(INCLUDING TRANSFER OF FUNDS)—Continued

The purpose of the VA home loan guaranty program is to facilitate the extension of mortgage credit on favorable terms by private lenders to eligible veterans. As of January 1, 1990, the guaranty on all new loan originations is provided by the Guaranty Indemnity Fund (GIF), except for manufactured home loans. Guaranty amounts made prior to the establishment of the new Fund will be paid from the Loan Guaranty Revolving Fund (LGRF) in case of foreclosure. The guaranty protects lenders against losses: (a) for loans of \$45,000 or less, 50 percent of the loan is guaranteed; (b) for loans greater than \$45,000, but not more than \$56,250, \$22,500; (c) for loans more than \$56,250 but less than \$144,000, the lesser of \$36,000 or 40 percent of the loan; or (d) for loans greater than \$144,000, the lesser of \$46,000 or 25 percent of the loan.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans that resulted from obligations in any year) as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis.

Direct loans to veterans.—Specially Adapted Housing (SAH) loans are made to certain totally disabled veterans to supplement grants authorized to assist the veteran in acquiring suitable housing units with special features necessary due to the nature of their disabilities. Veterans receiving SAH loans are exempt from the loan origination fee.

Direct (vendee) loans.—A vendee loan is established when a VA-owned property is sold on terms to a veteran or a non-veteran. Under current law, a veteran or a non-veteran receiving a vendee loan is charged a loan origination fee of 1 percent.

This account consists of voluntary contributions by eligible servicepersons and matching contributions provided by the Department of Defense. The fund provides educational assistance payments to participants who entered the service after December 31, 1976, and are pursuing training under chapter 32, title 38, U.S.C. Section 901 is a non-contributory program with educational assistance provided by the Department of Defense. Public Law 99-576, enacted October 28, 1986, closed the program permanently for new enrollments effective March 31, 1987. The estimated activity in the fund follows:

This fund is operated on a commercial basis to the extent possible. The income of the fund is derived from premium receipts, interest on investments, and payments which are made to the fund from the Veterans insurance and indemnities appropriation.

Assets of the fund, which are largely invested in special Treasury interest-bearing securities and in policy loans, are expected to increase from \$12,702 million as of September 30, 1993 to \$12,852 million as of September 30, 1994. The actuarial estimate of policy obligations as of September 30, 1995, total \$12,791 million, leaving a balance of \$61 million for contingency reserves.

This fund was established in 1919 to receive premiums and pay claims on insurance issued under the provisions of the War Risk Insurance Act. The general decline in the activity of the fund is indicated in the following table (dollars in thousands):

	1993 actual	1994 est.	1995 est.
Number of policies	29,793	27,233	24,888
Insurance in force	\$102,983	\$92,323	\$82,423

The status of the fund, excluding noncash transactions, is as follows (in thousands of dollars):

	1993 actual	1994 est.	1995 est.
Undisbursed balance of fund, start of year	134,551	125,152	113,857
Cash income during the year: Proprietary receipts	95		
Intrabudgetary transactions:

Net lending	-1,790	-1,380	-1,150
Total annual outlay	20,337	21,010	18,860
Undisbursed balance of fund, end of year	125,152	113,857	102,961

The fund is operated on a commercial basis to the extent possible. The income of the fund is derived from interest on investments and payments from the Veterans insurance and indemnities appropriation. Effective January 1, 1983, premiums were discontinued since reserves held in the fund were adequate to meet future liabilities of the program.

Assets of the fund, which are largely invested in interest-bearing securities and policy loans, are estimated to decrease from \$125 million as of September 30, 1993, to \$114 million as of September 30, 1994, as an increasing number of policies mature through death or disability. The actuarial evaluation of policy obligations as of September 30, 1993, totals \$135 million, leaving a balance of \$2 million for contingency reserves.

Note.—The Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund finances the payment of claims on life insurance policies issued before January 3, 1957, to veterans who served in the Armed Forces subsequent to April 1, 1951. No new

policies can be issued. Policyholders may elect to purchase total disability income coverage with the payment of additional premiums.

Budget program—

Death claims.—Represents payments to designated beneficiaries.

Cash surrenders.—A policyholder may terminate his or her insurance by cashing in the policy for its cash value.

Dividends.—Policyholders participate in the distribution of annual dividends.

All other.—Classified in this category are payments to policyholders who: (a) hold endowment policies which have matured; (b) have purchased total disability income coverage and subsequently become disabled; and (c) are paid interest on dividend credits and deposits.

The following table reflects the decrease in the number of policies and the amounts of insurance in force (dollars in thousands):

	1993 actual	1994 est.	1995 est.
Number of policies	276,168	269,503	263,528
Insurance in force	\$2,902,433	\$2,896,863	\$2,893,353

Financing.—Payments from this fund are financed primarily from premium receipts and interest on investments.

Operating results and financial condition.—Favorable mortality experience on insurance written against this fund has kept death claim payments well below the amount of premium and interest receipts, thereby producing an annual increase in the total revenue of the fund. Excess earnings of the fund are now distributed to the policyholders in the form of an annual dividend.

The major construction request would improve access to VA health care for thousands of veterans, enhance VA's research capabilities, and expand VA's national cemetery system. Funds are included to design a new hospital and nursing home in Brevard County, Florida and to begin construction of a new hospital at Travis Air Force Base in California. The request would also correct seismic and patient environment deficiencies at the Memphis, Tennessee hospital by building a replacement bed tower. Research additions at the Huntington, West Virginia and Portland, Oregon hospitals would be funded out of program balances. The request would also construct a new national cemetery near Seattle, Washington. Additional funds are provided to remove asbestos from Department-owned buildings, for VA's share of the costs related to the cleanup of hazardous materials, and to reimburse the Judgment Fund for the payment of settled claims.

This appropriation provides for the administration of nonmedical veterans benefits through the Veterans Benefits Administration (VBA) and top management direction and administrative support, including data processing, fiscal, personnel, and legal services through Department-level staff offices.

The 1995 request includes funds for the third phase of benefits modernization.

Veterans benefits.—Determines eligibility and adjudicates all claims for compensation, pensions, educational assistance, housing loan assistance, and insurance awards. Greater efficiencies will be achieved as a result of an initiative to modernize the data processing and telecommunications capabilities of VBA. A summary of program objectives and anticipated workload is included in the following paragraphs:

Veterans services.—Provides information, advice, and assistance concerning the availability and procurement of benefits under the law to all veterans, their dependents, and survivors.

This appropriation provides Department-wide audit, investigative and essential inspection and support functions to identify and report weaknesses and deficiencies in VA programs and operations that create conditions for existing or potential instances of fraud, waste and mismanagement. The audit function plans and conducts internal programmatic audits of all facets of VA operations. The investigative function conducts proactive and reactive investigations of improper and illegal activities involving VA programs, personnel, beneficiaries, and other third parties. The support function provides normal office administrative support as well as contract audit services for all applicable Department contracts, personnel and information security for the VA, and legislatively mandated medical care quality assurance review and oversight.

Public Law 100-527, the Department of Veterans Affairs Act, established a minimum level of full-time positions for the Office of Inspector General (IG) based on the number of full-time positions as of the date of enactment, plus an additional 40 positions. The minimum level for VA's IG office is 417 FTE. This budget request funds 409 FTE positions; eight less than the Secretary is required to provide for under Public Law 100-527. Pending legislation to implement the recommendations of the National Performance Review (HR 3400) includes a provision that eliminates the requirement for a minimum level of full-time positions.

Under the provisions of 38 U.S.C. 8121, the Supply Fund is responsible for the operation and maintenance of a supply system for VA. The Supply Fund is an intragovernmental revolving fund without fiscal year limitations. A multi-disciplinary transition team is coordinating the implementation of the Secretary's July 1993 decision to convert VA from a depot storage to a vendor, just-in-time, delivery system. This conversion, which will phase out and close VA's supply depots located at Somerville, New Jersey; Hines, Illinois; and Bell, California, will be completed by the end of FY 1995.

Budget program.—The fund provides financial support for: (1) a National Acquisition Center or central buying office; (2) the maintenance of depot and field station inventories; (3) the maintenance and operation of three supply depots; (4) a publications depot; (5) the operation of a service and reclamation program; and (6) a national prosthetics distribution center.

The Supply Fund does not finance costs for the operation and administration of supply activities at VA field stations. These costs are charged directly to applicable appropriations.

Financing.—Costs of supplies, equipment, and services acquired through the Supply Fund and Supply Fund operating

costs are recovered through reimbursements from the VA appropriations and other Government agencies receiving goods and services. For 1995 Supply Fund sales are estimated to reach \$781 million. Average inventory needed to support those sales will be \$50 million.

Operating results.—The Fund operated at a loss of \$14.8 million in 1993. The new total of retained earnings is \$55.7 million, which has been used to finance inventory growth. Operating expense as related to sales was 6.6 percent.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

Any appropriation for [1994] 1995 for ["Compensation and pensions"] "Compensation", "Pensions", "Burial benefits and miscellaneous assistance", "Readjustment benefits", and "Veterans insurance and indemnities" may be transferred to any other of the mentioned appropriations.

Appropriations available to the Department of Veterans Affairs for [1994] 1995 for salaries and expenses shall be available for services as authorized by 5 U.S.C. 3109.

No part of the appropriations in this Act for the Department of Veterans Affairs (except the appropriations for "Construction, major projects", "Construction, minor projects" and the "Parking revolving fund") shall be available for the purchase of any site for or toward the construction of any new hospital or home.

No part of the foregoing appropriations shall be available for hospitalization or examination of any persons except beneficiaries entitled under the laws bestowing such benefits to veterans, unless reimbursement of cost is made to the appropriation at such rates as may be fixed by the Secretary of Veterans Affairs.

Appropriations available to the Department of Veterans Affairs for fiscal year [1994] 1995 for ["Compensation and pensions"] "Burial benefits and miscellaneous assistance", "Readjustment benefits", and "Veterans insurance and indemnities" shall be available for payment of prior year accrued obligations required to be recorded by law against the [aforementioned] corresponding prior year accounts within the last quarter of fiscal year [1993] 1994.

Appropriations accounts available to the Department of Veterans Affairs for fiscal year [1994] 1995 shall be available to pay prior year obligations of corresponding prior year appropriations accounts resulting from title X of the Competitive Equality Banking Act, Public Law 100-86, except that if such obligations are from trust fund accounts they shall be payable from ["Compensation and pensions"] "Compensation".

Title 38, United States Code, is amended as follows:

(1) section 1920 is amended by—

(A) inserting ", and for the reimbursement of administrative costs under subsection (c)" after "unearned premiums" at the end of the second sentence in subsection (a); and

(B) adding at the end thereof the following new subsection:

"(c) The Secretary shall determine for each fiscal year the administrative costs to the Department which in the Secretary's judgment are properly allocable to the provision of National Service Life Insurance (and of any total disability income provision added thereto). The Secretary shall reimburse, from the National Service Life Insurance Fund to the Department's "General Operating Expenses" account, the amount of such administrative costs from any surplus earnings of that fiscal year available for dividends on such insurance, after claims have been paid and actuarially determined reserves have been set aside: Provided, That if such administrative costs exceed such surplus earnings, the Secretary shall provide such reimbursement to the extent of such surplus earnings."

(2) section 1923 is amended by—

(A) inserting ", and for the reimbursement of administrative costs under subsection (d)" after "unearned premiums" at the end of the last sentence in subsection (a); and

(B) adding at the end thereof the following new subsection:

"(d) The Secretary shall determine for each fiscal year the administrative costs to the Department which in the Secretary's judgment are properly allocable to the provision of Veterans' Special Life Insurance (and of any total disability income provision added thereto). The Secretary shall reimburse, from the Veterans' Special Life Insurance Fund to the Department's "General Operating Expenses" account, the amount of such administrative costs from any surplus earnings available for dividends on such insurance, after claims have been paid and actuarially determined reserves

have been set aside: *Provided, That if such administrative costs exceed such surplus earnings, the Secretary shall provide such reimbursement to the extent of such surplus earnings.*”;

(3) section 1955 is amended by—

(A) inserting “, and for the reimbursement of administrative costs under subsection (c)” after “District Court for the District of Columbia” at the end of the first sentence in subsection (a); and

(B) adding at the end thereof the following new subsection:

“(c) The Secretary shall determine for each fiscal year the administrative costs to the Department which in the Secretary’s judgment are properly allocable to the provision of United States Government Life Insurance (and of any total disability income provision added thereto). The Secretary shall reimburse, from the United States Life Insurance Fund to the Department’s “General Operating Expenses” account, the amount of such administrative costs from any surplus earnings of that fiscal year available for dividends on such insurance, after claims have been paid and actuarially determined reserves have been set aside: *Provided, That if such administrative costs exceed such surplus earnings, the Secretary shall provide such reimbursement to the extent of such surplus earnings.*”; and

(4) Section 1982 is amended by striking “The United States” and inserting in lieu thereof “Except as provided under subsections 1920(c), 1923(d) and 1955(c) of this title, the United States”.

The amendments to sections 1920, 1923, 1955, and 1982 of Title 38, United States Code, made by this provision shall be effective as of October 1, 1994. (Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriation Act, 1994.)

TITLE V—GENERAL PROVISIONS

The following sections are proposed for deletion and do not appear below:

Sec. 501 ... Limitation on travel expenses.

Sec. 509 ... Prohibition against use of funds for personnel compensation and benefits to be available for other object classifications.

Sec. 515 ... Provision for pay absorption.

Sec. 517 ... Congressional reporting and certification requirements for the Resolution Trust Corporation.

[SEC. 502] SEC. 501. Appropriations and funds available for the administrative expenses of the Department of Housing and Urban Development and the Selective Service System shall be available in the current fiscal year for purchase of uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901–5902); hire of passenger motor vehicles; and services as authorized by 5 U.S.C. 3109.

SEC. [503] 502. Funds of the Department of Housing and Urban Development subject to the Government Corporation Control Act or section 402 of the Housing Act of 1950 shall be available, without regard to the limitations on administrative expenses, for legal services on a contract or fee basis, and for utilizing and making payment for services and facilities of Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Financing Bank, Resolution Trust Corporation, Federal Reserve banks or any member thereof, Federal Home Loan banks, and any insured bank within the meaning of the Federal Deposit Insurance Corporation Act, as amended (12 U.S.C. 1811–1831).

SEC. [504] 503. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. [505] 504. No funds appropriated by this Act may be expended—

(1) pursuant to a certification of an officer or employee of the United States unless—

(A) such certification is accompanied by, or is part of, a voucher or abstract which describes the payee or payees and the items or services for which such expenditure is being made, or

(B) the expenditure of funds pursuant to such certification, and without such a voucher or abstract, is specifically authorized by law; and

(2) unless such expenditure is subject to audit by the General Accounting Office or is specifically exempt by law from such audit.

SEC. [506] 505. None of the funds provided in this Act to any department or agency may be expended for the transportation of

any officer or employee of such department or agency between his domicile and his place of employment, with the exception of any officer or employee authorized such transportation under title 31, United States Code, section 1344.

SEC. [507] 506. None of the funds provided in this Act may be used for payment, through grants or contracts, to recipients that do not share in the cost of conducting research resulting from proposals not specifically solicited by the Government: *Provided, That the extent of cost sharing by the recipient shall reflect the mutuality of interest of the grantee or contractor and the Government in the research.*

SEC. [508] 507. None of the funds provided in this Act may be used, directly or through grants, to pay or to provide reimbursement for payment of the salary of a consultant (whether retained by the Federal Government or a grantee) at more than the daily equivalent of the rate paid for Level IV of the Executive Schedule, unless specifically authorized by law.

SEC. [510] 508. None of the funds in this Act shall be used to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings. Nothing herein affects the authority of the Consumer Product Safety Commission pursuant to section 7 of the Consumer Product Safety Act (15 U.S.C. 2056 et seq.).

SEC. [511] 509. Except as otherwise provided under existing law or under an existing Executive order issued pursuant to an existing law, the obligation or expenditure of any appropriation under this Act for contracts for any consulting service shall be limited to contracts which are [(1)] a matter of public record and available for public inspection[, and (2) thereafter included in a publicly available list of all contracts entered into within twenty-four months prior to the date on which the list is made available to the public and of all contracts on which performance has not been completed by such date. The list required by the preceding sentence shall be updated quarterly and shall include a narrative description of the work to be performed under each such contract].

SEC. [512] 510. Except as otherwise provided by law, no part of any appropriation contained in this Act shall be obligated or expended by any executive agency, as referred to in the Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.) for a contract for services unless such executive agency (1) has awarded and entered into such contract in full compliance with such Act and the regulations promulgated thereunder, and (2) requires any report prepared pursuant to such contract, including plans, evaluations, studies, analyses and manuals, and any report prepared by the agency which is substantially derived from or substantially includes any report prepared pursuant to such contract, to contain information concerning (A) the contract pursuant to which the report was prepared, and (B) the contractor who prepared the report pursuant to such contract.

SEC. [513] 511. Except as otherwise provided in section [506] 505, none of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency.

SEC. [514] 512. None of the funds provided in this Act to any department or agency shall be obligated or expended to procure passenger automobiles as defined in 15 U.S.C. 2001 with an EPA estimated miles per gallon average of less than 22 miles per gallon.

SEC. [516] 513. None of the funds appropriated in title I of this Act shall be used to enter into any new lease of real property if the estimated annual rental is more than \$300,000, unless the Secretary submits, in writing, a report to the Committees on Appropriations of the Congress and a period of 30 days has expired following the date on which the report is received by the Committees on Appropriations.

SEC. 514. *Not to exceed 2 percent of any appropriation or earmarked amount made available for the current fiscal year for the Department of Housing and Urban Development in this Act may be transferred between such appropriations or earmarked amounts, but no such appropriation or earmarked amount shall be increased or decreased by more than 2 percent by any such transfers.*

SEC. [518] 515. COMPLIANCE WITH BUY AMERICAN ACT.—None of the funds made available in this Act may be expended in violation of sections 2 through 4 of the Act of March 3, 1933 (41 U.S.C. 10a–10c; popularly known as the “Buy American Act”), which are applicable to those funds. (Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1994.)

This appropriation provides funds for audit and investigative functions to identify and recommend corrective actions on management and administrative deficiencies that create the conditions for existing or potential instances of fraud, waste, and mismanagement. Additional funds for audit and investigative activities associated with the Superfund Trust Fund and the Leaking Underground Storage Tank Trust Fund are appropriated under those accounts and transferred to the Inspector General account to allow for proper accounting. The audit function provides contract audit, internal and performance audit, and financial and grant audit services. Contract audits provide professional advice and review of Agency contracting practices, administration and changes through all phases of the procurement process. Internal and performance audits review and evaluate all facets of Agency programs and operations, including the adequacy of management systems and controls. Financial audits review the soundness and accuracy of the financial accounting and reporting systems. Grant audits focus on the effectiveness and propriety of costs of individual projects. The investigations function provides for the detection and investigation of improper and illegal activities involving programs personnel and operations. The Inspector General also works with Agency management to promote economy, efficiency, effectiveness, and the prevention of fraud and abuse.

This appropriation finances research and development supplies, certain operating expenses, contracts, grants, intergovernmental agreements, and purchases of scientific equipment. These activities provide the scientific basis for EPA's regulatory actions.

Air.—Research will provide the data base needed to support national ambient air quality standards, establish emission standards for stationary and mobile sources and assess acid rain controls. Research will also be performed to support the indoor air, radon mitigation, global change, and stratospheric ozone protection programs. Incorporates, beginning in 1993, work previously described under the "Energy" activity.

Water Quality.—Research develops data and technologies to help protect coastal and marine waters, large lakes and rivers, wetlands, and related ecosystems. Programs evaluate contaminated sediments, aquatic ecocriteria, nonpoint sources of pollution, habitat/biodiversity, and wastewater and sludge.

Drinking Water.—Research includes evaluating the health effects of drinking water contaminants (including disinfectants and disinfection by-products), methods to prevent or remove these contaminants in a cost-effective manner, and research to support ground water protection.

Hazardous Waste.—Research includes providing hazardous waste measurement methods and protocols, assessing the risk from exposure to hazardous and municipal solid wastes, conducting research on surface cleanup, bioremediation, pollution prevention, and ground water, and developing the necessary data to revise and implement treatment, storage and disposal standards and regulations.

Pesticides.—Research supports the pesticides program through health and environmental exposure studies, development of exposure protocols, and environmental review of new chemicals. Biotechnology research is also included in these activities.

Radiation.—Research supports radiological monitoring and surveillance services for the Department of Energy nuclear testing program at the Nevada Test Site.

Multimedia.—Research provides cross program support for ecosystems protection (including environmental monitoring and assessment), human exposure, risk assessment methods, health effects, pollution prevention, heavy metals, and innovative technologies. Exploratory research grants and centers, technology transfer, quality assurance and procurement of laboratory equipment and supplies are also included.

Toxic Substances.—Activities support the development of scientific and technological methods to understand, predict and manage the entry and movement of chemicals in com-

merce and into the environment, and to determine the effects of these chemicals on human health and the environment. These activities include biotechnology research.

Management and Support.—Provides executive direction, program planning, resource and facilities management.

This appropriation includes funds for contracts, grants, and cooperative agreements for pollution abatement, control, and compliance activities and administrative activities of the operating programs.

Air.—The air program sets standards for: ambient air quality; emissions of hazardous and criteria air pollutants and acid deposition precursors from stationary sources; motor vehicle emissions; prevention of significant deterioration of air quality; and protection of the stratospheric ozone layer. The program also conducts motor vehicle testing, for which user fees are collected. The EPA will also be fulfilling its role in the President's National Action Plan for Climate Change.

Water Quality.—The water quality program has as its goal the protection and restoration of the Nation's waters. The program relies on a partnership between EPA and the States to meet the goals of the Act. The program encompasses the following major activities: (1) developing water quality standards; (2) establishing technology-based effluent limits for industrial discharges; (3) monitoring water quality; (4) developing guidelines for advanced identification of wetlands and programs to enhance State and local wetlands protection; (5) risk-based targeting of abatement activities to protect important habitats through geographic initiatives; (6) issuing and enforcing requirements of National Pollutant Discharge Elimination System (NPDES) permits for industrial and municipal

sources, for which user fees will be collected for all EPA issued permits; and, (7) managing the municipal wastewater facilities completion/closeout of construction grants, and managing the State Revolving Fund programs.

Drinking Water.—The safe drinking water program protects the Nation's drinking water supplies from contaminants. This involves: (1) setting national drinking water standards that protect human health; (2) assisting States and Indian tribes in implementing, or directly implementing, these regulatory programs; (3) initiating enforcement actions against non-compliance with drinking water and underground injection control regulations; and, (4) directing the Agency's activities to manage and improve ground water quality.

Hazardous Waste.—The hazardous waste program is designed to ensure that hazardous wastes are managed in a manner that protects public health and the environment. The program emphasizes delegation of authority to the States, permitting of operating and closed facilities, enforcement of hazardous waste regulations, and corrective action. State assumption of hazardous waste authorities will be encouraged through Federal financial assistance, regulations, and guidance.

Pesticides.—EPA is responsible for protecting public health and the environment from unreasonable pesticide risks, taking into account the economic, social, and environmental costs and benefits from pesticide use. Major activities include: (1) review and registration of pesticide products; (2) developing and processing registration standards; (3) reregistration of pesticides as required by the 1988 amendments to the Federal Insecticide, Fungicide, and Rodenticide Act; (4) enforcement of pesticide use rules, with emphasis on Federal/State cooperation; and, (5) developing guidelines to ensure the protection of pesticide workers, as well as assisting in the development of State plans for pesticide use that will protect ground water and endangered species.

Radiation.—The radiation program develops and promulgates standards, regulations, and guidelines to reduce exposure from radiation sources. The EPA will assess risks associated with high levels of naturally occurring radon, certify radon remediation contractors (for which a user fee will be collected), provide technical assistance and guidance to states on radon, and continue a three-year Federal grant program to assist the development of state radon programs. Also, the Agency will carry out its responsibilities under the Waste Isolation Pilot Plant Land Withdrawal Act.

Multimedia.—The multimedia program is composed of several activities that cut across media programs. This involves: (1) all technical and legal aspects of the Agency's enforcement efforts including criminal investigations; (2) review of environmental impact statements (EIS) to ensure actions taken by Federal agencies do not adversely affect the environment; (3) Federal agencies compliance with statutes and regulations for pollution control; and (4) the Regional funding of complex multimedia projects with significant state and local concerns due to the high risk to human health and ecosystems. This program also reflects the Headquarter resources applicable to the reorganized Office of Enforcement.

Toxic substances.—The toxic substances program is responsible for protecting human health and the environment from unreasonable risks posed by chemicals. The program places a balanced emphasis on evaluation and control of new and existing chemicals and the reduction of exposure through pollution prevention. Nonregulatory approaches to obtain compliance are used where appropriate. The program has developed a comprehensive lead control strategy to examine the long-term efficacy of lead abatement, and to implement the requirements of Title X of the Housing and Community Development Act of 1992. The Program also provides technical assistance to implement various requirements of Title III of the Superfund Amendments and Reauthorization Act of 1986

relating to chemical releases, and the Pollution Prevention Act of 1990.

Management and support.—Funds contract work for policy studies in the management and support program.

NOTES

Obligations include anticipated recoveries of prior year obligations of \$160 million for 1994 and \$152 million for 1995.

An amount of \$3,986,884 has been ordered set aside and preserved by the U.S. District Court of the District of Columbia in *Rochester Pure Waters District v. U.S. Environmental Protection Agency* (Civil Action 89-2820). It is retained in unobligated balances as reserved.

This appropriation provides capitalization grants to States for Clean Water State Revolving Funds (SRFs) to make loans to local public agencies to construct municipal wastewater treatment facilities and to implement management plans for estuaries and for control of nonpoint source pollution. In support of the North American Free Trade Agreement (NAFTA) and the U.S.-Mexico Border Environmental Plan, funds are provided for a cost shared program to improve wastewater treatment for Americans living in impoverished colonias in Texas, and for high priority wastewater treatment facilities in the Mexican border area. Federal grant-making decisions for international wastewater treatment facilities shall be made in consultation with the Border Environmental Co-operation Commission or the International Boundary Water Commission, as appropriate. Funds are also provided for one or more needy cities with high capital needs for secondary wastewater treatment facilities and high user charges. Funds are provided for grants to States to be used to help restore watersheds degraded by non-point sources of pollution.

A special fund was established for the deposit of fee receipts associated with environmental programs, including radon measurement proficiency ratings and training; motor vehicle engine certifications; water pollution permits; lead substitute gasoline additive fees; and penalties collected under the Clean Air Act. Receipts in this special fund will be appropriated to the Program and Research Operations, and Abatement, Control, and Compliance accounts, to meet the expenses of the programs which generate the receipts.

Legislation will be proposed to impose user fees on manufacturers of pesticides to recover the costs of EPA's Pesticide Registration Program. Congressional action is required to activate a user fee rule promulgated by EPA that was subsequently suspended by Congress. After enactment of the authorization, appropriations language would be transmitted.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and beyond (including credit sales of acquired property that resulted from obligations in any year). The amounts in this account are a means of financing and are not included in the budget totals.

This account finances direct loans to local education administrations to finance control of asbestos building materials in schools.

Note.—An additional \$15 million was appropriated in 1994 under the NASA Construction of Facilities account in P.L. 102-389.

This appropriation provides funds for the implementation of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA). This Act provides authority for responding to and cleaning up hazardous substance emergencies and abandoned uncontrolled hazardous waste sites.

Financial responsibility for the program is shared by the Federal and State governments as well as industry. EPA will allocate funds from its appropriation to other Federal agencies to carry out the Act.

The Administration will shortly propose revisions to CERCLA, primarily in the liability arena and costs of cleanups. This budget does not reflect changes to implement those revisions.

The Leaking Underground Storage Tank (LUST) Trust Fund, authorized by the Superfund Amendments and Reauthorization Act of 1986, as amended by the Omnibus Budget Reconciliation Act of 1990, provides funds for responding to releases from leaking underground petroleum tanks. The Trust Fund is financed by a 0.1 cent a gallon tax on motor fuels, that became effective January 1, 1987.

EPA supports cleanup and enforcement programs which are implemented by the States. Funds are allocated to the States through cooperative agreements to clean up those sites posing the greatest threat to human health and environment. Funds are also used for grants to non-state entities including Indian Tribes under section 8001 of the Resource Conservation and

Recovery Act. The Trust Fund also covers administrative expenses necessary to carry out the program.

Provides for EPA's responsibilities for direction, monitoring and technical assistance of major inland oil spill response activities authorized under the Federal Water Pollution Control Act, as amended by the Oil Pollution Act of 1990 (OPA). This involves setting oil prevention and response standards, initiating enforcement actions for compliance with OPA and Spill Prevention Control and Countermeasure requirements, and directing response actions when appropriate. EPA also carries out research to improve response actions to oil spills including research on the use of remediation techniques such as dispersants and bioremediation. Funding of oil spill clean-up actions is provided through the Department of Transportation under the Oil Spill Liability Trust Fund.

The Construction and Acquisition of Facilities program consists of the following activities financed from direct appropriation:

New Construction.—Space is acquired through direct federally-financed construction of facilities and prospectus-level extensions to existing buildings. All costs directly attributable to site acquisition and construction are financed under this activity. The project amounts in this activity include funding for the full range of contractual design and construction services and management and inspection of construction projects. The total cost of new commitments for direct federally-financed new construction is estimated at \$480 million in 1995.

Acquisition of Facilities.—This activity includes the acquisition of housing for agency tenants with expiring leases when it can be demonstrated that federal ownership is in the best interest of the federal government. Market conditions at the time of procurement will determine the specific method through which the requirements will be met. The total cost of new commitments for direct federally-financed acquisition of facilities is estimated at \$999 million in 1995. A list of projects will be provided in the budget justification.

The Federal Buildings Fund finances the activities of the Public Buildings Service which provides space and services for Federal agencies in a relationship similar to that of landlord and tenant.

The Fund, established in 1975, replaces direct appropriations by using income derived from rent assessments which approximate commercial rates for comparable space and services. Rent and other income to the fund is as follows:

The Federal Buildings Fund program consists of the following activities financed from rent charges:

Repairs and alterations.—Repairs and alterations of public buildings as well as associated design and construction services are funded under this activity. Protection of the Government's investment, health and safety of building occupants, transfer of agencies from leased space, and cost effectiveness are the principal criteria used in establishing priorities. Primary consideration is given to repairs to prevent deterioration and damage to buildings, their support systems, and operating equipment. This activity also provides for conversion of existing facilities and non-prospectus extensions.

Installment acquisition payments.—Payments are made for liabilities incurred under purchase contract authority and lease purchase arrangements. The periodic payments cover principal, interest, taxes, and other requirements. Purchase contract authority, which provided for private investment capital financing of public buildings, expired at the end of 1975.

Rental of space.—Space is acquired through the leasing of buildings including space occupied by Federal agencies in U.S. Postal Service facilities. This program will provide an estimated 133.7 million square feet in 1994 and 130.1 million square feet in 1995.

Building operations.—Services are provided for Government-owned and leased facilities, including cleaning, utilities and fuel, protection, maintenance, miscellaneous services (such as moving, evaluation of new materials and equipment, and field supervision), and general management and administration of all real property related programs including salaries and benefits paid from the Federal Buildings Fund. The following list shows the 1994 and 1995 direct program (estimated square feet and expenses in thousands):

Public Law 99-88 provided that expenses of Transportation Audit Contracts and Contract Administration activities shall be financed from overcharges collected from carriers on transportation bills paid by the Government and other similar type refunds. Public Law 99-627 granted GSA authority to delegate to the Government agencies prepayment audit of their transportation bills before they pay transportation carriers, permanent authority to pay transportation audit contractors from carrier overcharges collected, and authority to transfer net overpayments collected to the Treasury. Public Law 103-123 provided that additional expenses be financed from overpayments collected from carriers. For fiscal year 1995, contract audit and contract administration expenses are estimated at \$16.9 million. Total collections are estimated at \$27.0 million.

This fund finances, on a reimbursable basis, a national supply distribution system, a system of ordering supplies for direct delivery to agencies, and a system of interagency Federal Fleet Management Centers. Legislation was enacted in fiscal year 1988 to authorize full cost recovery for all supply management, operating, and overhead expenses related to providing goods and services to other agencies through the General Supply Fund. Full cost recovery pricing results in the true cost of supplies and services being reflected in charges to agencies. Beginning in fiscal year 1994, the Per-

sonal Property Sales Program previously funded under the Operating expenses, FSS appropriation was transferred to the General Supply Fund and is included under Export, miscellaneous.

Supply operations.—

Stores, regular.—Stock of common-use commodities is purchased in volume, stocked, and issued through supply facilities to Government agencies. Sales were \$1,019.9 million in 1993, and are estimated to be \$972.8 million in 1994 and \$972.8 million in 1995.

Stores, direct delivery.—Orders for store-type items, if sufficiently large and delivery time is not a factor, are placed with the commercial source of supply for delivery directly to the customer. Sales were \$76.0 million in 1993, and are estimated to be \$79.8 million in 1994, and \$79.8 million in 1995.

Special order.—Definite quantity requirements of commodities which are not susceptible to economical stocking in supply facilities are purchased for direct shipment to using agencies. Sales were \$1,089.8 million in 1993, and are estimated to be \$1,004.3 million in 1994, and \$1,004.3 million in 1995.

Export, miscellaneous.—Stores and special order items are shipped to overseas customers. Receipts to the fund cover packing, transportation costs, and other reimbursable services. Sales were \$15.7 million in 1993, and are estimated to be \$26.7 million in 1994 and 1995. Beginning in fiscal year 1994, the Personal Property Sales Program sales included above are estimated to be \$11.0 million in 1994 and 1995.

Federal Fleet Management Centers.—Services are provided through a system of Fleet Management Centers. Sales were \$706.2 million in 1993, and are estimated to be \$692.51 million in 1994, and \$723.0 million in 1995.

Other revenue and expense.—Gains or losses on equipment disposals, adjustments between fiscal years, inventory writeoffs, and discounts are applied against operating costs.

The Information Technology Fund was authorized by the Paperwork Reduction Reauthorization Act of 1986, as included in Public Laws 99-500 and 99-591, section 821(a)(1). The Fund was established as of January 1, 1987, and consists of the assets, liabilities and capital of the Federal Telecommunications Fund and the Automatic Data Processing Fund. The purpose of the fund is to help ensure that automatic data processing, telecommunications, and other information technologies are acquired and used by the Federal Government in a manner which improves service delivery and program management, increases productivity, improves the quality of decisionmaking, reduces waste and fraud, and wherever practicable and appropriate, reduces the information processing burden for the Federal Government and for persons who provide information to and for the Federal Government.

The fund is available for expenses and for procurement for efficiently providing information technology resources to Federal agencies and for the efficient management, coordination, operation and utilization of such resources.

Levels of funding for capital investments and for operating capital are determined through the submission and approval

process of planned cost and capital requirements to OMB by GSA pursuant to section 110(a)(1), Federal Property and Administrative Services Act of 1949, as amended by Public Law 99-591.

The Information Technology Fund finances, on a reimbursable basis, the following Government-wide information resources management assistance programs:

FTS2000 Program.—Long distance telecommunications services are provided through the Federal Telecommunications System 2000 (FTS2000) program which offers the Federal Government low-cost, state-of-the-art, integrated voice, data, and video telecommunications. The mission of the Office of FTS2000 is to provide leadership, policy, program direction, and oversight to ensure the provision of a timely, high quality, innovative and cost-effective governmentwide program for intercity telecommunications services.

FTS2000 services are provided to more than 1.5 million users through two multi-billion dollar ten year contracts that were awarded to AT&T and Sprint in December 1988 to replace the 25 year-old FTS network. The contracts provide for "services" rather than equipment. GSA's role is to oversee and manage the provisioning of those services. The transition of voice service from the old FTS to FTS2000 was completed in June 1990.

Local telecommunications services programs.—Included in these programs is the provision of local telecommunications services to Federal agencies. Their objective is to operate consolidated telephone systems that provide effective and economical local service to Federal agencies and, through competitive processes, procure cost advantageous telephone services and equipment. This includes the program areas of Telecommunications Support Contract (TSC) and the Purchase of Telecommunications and Services (POTS) contracts. Also of critical importance is the Washington Interagency Telecommunications System (WITS) that replaces a selected portion of the Federal community telephone systems in the Washington, D.C., metropolitan area with one integrated voice and data transmission facility. In addition, the Aggregated Systems Procurement (ASP) program will consolidate systems into single procurement actions which are designed to achieve economies of scale and cost stability for systems in major metropolitan areas. The ASP will replace existing tariffed systems, as well as expiring completed systems, with state-of-the-art technology. In addition, these programs ensure that GSA supports Government-wide national security and domestic emergency preparedness plans and that the critical telecommunications needs of the Government are available during local, national and international crises; and provide telecommunications support to the Federal Emergency Management Agency and other agencies in the emergency and major disaster programs.

Information Security Management Program.—This program provides worldwide support to all Government activities, including GSA, conducting sensitive and classified operation in consonance with the objectives of the U.S. Communications Security Plan. To meet this responsibility, the program provides the full range of support services for communication security (COMSEC) and related systems that provide secure voice and data communications to Federal, civilian and selected Department of Defense activities, and friendly allied countries.

ADP Technical Services.—This activity is comprised of several non-mandatory programs aimed at meeting client needs in the acquisition and effective use of ADP resources. The Federal Information Systems Support Program, with offices coast to coast, provides Federal agencies technical, contractual and administrative support in acquiring services for system definition, design and requirements analysis, software programming, facility management (including local area network management, and operation of computer systems and net-

works, and data capture and retrieval), and other related activities. Services are provided through regional contracts with private sector vendors tailored to local market conditions and needs of client Federal agencies. The Federal Computer Acquisition Center (FEDCAC) provides support in the competitive acquisition of large dollar value non-developmental computer systems and associated services. The Federal Systems Integration and Management Center (FEDSIM) delivers a wide range of services to clients worldwide including Federal Information Processing resources acquisition, systems integration, software management, information technology facilities management, local area network implementation, and networking. The Federal Procurement Data Center collects and disseminates government-wide data on Federal procurement activities. This activity also provides for the multi-year lease or purchase of ADP equipment by the IT Fund for subsequent leaseback to Federal agencies; no new activity is planned for this program.

This appropriation covers relocation costs involved in moving agencies from valuable underutilized property, targeted for public sale, to facilities determined to be more economically suitable to their needs. Relocation and disposal is considered when the benefit/cost ratio is at least 2:1. The sale of these valuable underutilized properties would provide significant revenue to the Treasury and would far outweigh the relocation costs involved. The unallocated balance as of the end of fiscal year 1993 is \$1.547 million.

No appropriation is requested for this program in 1995. GSA will solicit relocation proposals from agencies and request funds to implement those proposals that have the highest economic benefit to the Government.

ment, mail management, schedules contracting, and regulatory and policy activities. The major objective of these programs is to provide excellent support and services to customers in a timely manner while maximizing operational efficiency and continuing to reduce the cost of Government.

Information resources management.—This activity provides for direction and coordination of Government-wide programs for management, procurement, and use of automated data processing, telecommunications and other information technology equipment and services. Provides for development and coordination of Government-wide policies, procedures and regulations to ensure that Federal agencies procure, manage and use information technology resources as effectively and efficiently as possible. Provides information services to the public and provides for the overall management of information resources management functions financed through the Information Technology Fund (IT Fund).

Federal property resources.—This activity provides for the maximum utilization of real property by Federal agencies and the transfer among agencies of excess real property. Provides for the disposal of surplus real property by sale, exchange, lease, permit, assignment, or transfer, as well as the protection and maintenance of excess and surplus property pending its disposition. Also provides for the appraisal of excess and surplus property, necessary environmental and cultural analyses, reuse planning, and real property utilization surveys.

General management and administration.—This activity provides for policy direction and coordination of all GSA programs by the Administrator, Deputy Administrator, and Regional Administrators. Also provides for congressional and public affairs activities, agencywide acquisition policy, the Regulatory and Information Service Center (RISC) which compiles and analyzes data on both Government-wide and agency-specific regulatory information resource management, and statistical activities, Indian Trust Accounting, and board of Contract Appeals. Also provides for administrative support for Congressional District and Senate State offices. The General Management and Administration (GMA) reimbursable centralized support services account previously included in the direct Salaries and Expenses, GMA appropriation account is now reflected in the new Working Capital Fund account.

This appropriation provides agencywide audit and investigative functions to identify and correct management and administrative deficiencies within GSA which create conditions for existing or potential instances of fraud, waste and mismanagement. The audit function provides internal audit and contract audit services. Contract audits provide professional advice to GSA contracting officials on accounting and financial matters relative to the negotiation, award, administration, repricing, and settlement of contracts. Internal audits review and evaluate all facets of GSA operations and programs, test internal control systems, and develop information to improve operating efficiencies and enhance customer services. The investigative function provides for the detection and investigation of improper and illegal activities involving GSA programs, personnel, and operations.

The Consumer Information Center Fund, a revolving fund established in 1983, provides for the efficient operation of the Consumer Information Center's activities. Under the revolving fund, the Consumer Information Center's activities are financed from moneys deposited to the fund, consisting of annual appropriations from the general funds of the Treasury, reimbursements from agencies, fees collected from the public and other income incident to Consumer Information Center activities.

Administrative expenses.—The Consumer Information Center helps Federal departments and agencies release consumer information collected as a by-product of the Government's program activities. The Consumer Information Center maintains close working relationships with more than 40 Federal agencies in order to identify, develop, promote, and make accessible to the public Federal consumer information. In addition, the Consumer Information Center promotes public awareness of this information through publication of the quarterly *Consumer Information Catalog*, through special projects promoting the catalog, and through various media services. Administrative expenses are funded by the direct appropriation and by fees collected from the public when ordering publications listed in the catalog.

Publications distribution.—The Consumer Information Center bills agencies and in turn reimburses the Government Printing Office for the costs of distributing free publications to the public.

This fund has been expanded to include the general management and administration centralized internal and external reimbursable administrative support functions previously included under the General management and administration direct appropriation account. The other function, currently in this fund, is the centralized printing, duplicating, and distribution operation. This new funding structure will provide GSA with greater ability to respond to customer needs.

General management and administration.—The general management and administration centralized administrative support services are funded through reimbursable funding from GSA's benefiting accounts and from external sources including small agencies and commissions for services provided. Reimbursable services include administrative, financial, and management support, legal advice and services and equal employment opportunity; budgetary policy and liaison activities with Congress and OMB; and management review and oversight of financial management systems. The General Services Administration (GSA) is one of twenty-three departments and major agencies required by Public Law 101-576 to implement and support the Chief Financial Officer (CFO) legislation. The CFO structure will enhance and continue to improve GSA's overall efficiency and effectiveness. Provides liaison with the Small Business Administration on national minority business proposals and contracts to ensure that minority and small business receive a fair share of the agency's business. Responsible for implementation and execution of the functions and duties under sections 8 and 15 of the Small Business Act (P.L. 95-507).

Centralized printing, duplicating, and distribution operation.—Fast turn-around printing, duplicating, and distribution services are provided for the General Services Administration and other Federal agencies. These printing, duplicating, and distribution operations are under continuous review to ensure that the method of printing is the least costly alternative to the Government.

[Any] Notice of any proposed transfers shall be [approved in advance by] transmitted promptly to the Committees on Appropriations of the House and Senate.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

The FY 1995 budget for NASA features major budget account restructuring. The current accounts—Research and Development; Space Flight, Control, and Data Communications; Construction of Facilities; and Research and Program Management—will become Human Space Flight; Science, Aeronautics and Technology; and Mission Support. The table below shows a bridge between the old accounts and the new accounts. NASA will provide details for specific programs and activities in its budget schedules and other presentations.

NASA is proposing new appropriations language for the new accounts, and language for the current accounts is proposed for deletion.

The appropriation provides for human space flight activities, including development of the Space Station, and operation of the Space Shuttle. This includes support of planned cooperative activities with Russia, upgrades to the performance and safety of the Space Shuttle and required construction projects in direct support of Space Station and Space Shuttle programs.

Performance Objectives:

Space Station.—The Space Station will be an international laboratory in low Earth orbit on which American, Russian, Canadian, European, and Japanese astronauts will conduct unique scientific and technological investigations in a micro-gravity environment. During FY 1993, the program underwent a major redesign activity to lower program costs. In FY 1994, the program is making the necessary design changes to integrate the augmented capabilities made possible by the addition of Russia to the International Partners. The program will complete transition to a new program structure, and will begin flight hardware fabrication. Hardware fabrication activities will continue in FY 1995.

Russian Cooperation.—The United States and Russia are planning to undertake a program of joint space missions involving the Space Shuttle and Russian Mir Space Station. In FY 1994, activities supporting these missions will continue, including mission planning, preparation of experiment hardware and procurement of the Shuttle hardware required to enable docking of the Space Shuttle to the Mir Space Station. In FY 1994, the first Russian cosmonaut will fly on the Space Shuttle. In FY 1995, a U.S. astronaut will spend several months on the Mir Space Station, and the first rendezvous and docking mission between the Space Shuttle and Mir will take place.

Payload and Utilization Operations.—These funds will support the mission planning and hardware preparation activities required to support the payload and experiment infrastructure, including the spacelab which is planned to be flown on the Space Shuttle. The Engineering Technical Base provides basic engineering and technical capabilities to support the NASA mission assigned to the programs carried out by the manned space flight centers. Four Spacelab flights are

planned for FY 1994 and four Spacelab flights are planned for FY 1995.

Space Shuttle.—The Space Shuttle is a reusable space vehicle which provides several unique capabilities to the United States space program. These include launching spacecraft and retrieving payloads from orbit for reuse, servicing and repairing satellites in space, safely transporting humans to and from space, and operating and returning space laboratories. In FY 1994, eight Shuttle missions are planned, including the first flight of a Russian cosmonaut. In FY 1995, eight Shuttle missions are planned, including the first docking mission between the Space Shuttle and the Russian Mir Space Station. Continued emphasis will be placed on enhancements to the safety and performance of the Space Shuttle.

This appropriation provides for the research and development activities of the National Aeronautics and Space Administration. Research and Development activities are listed in the Program and Financing schedule above. Funds are included for high priority investments in Mission to Planet Earth, Aeronautics, and new technology investments. Funds are included for the construction, maintenance, and operation of programmatic facilities.

Performance Objectives:

Space Science:

Physics and Astronomy.—This program contributes to our understanding of the origin of the universe, the fundamental laws of physics, and the study of the Earth's and other naturally occurring plasmas in the universe. Development activities on the Advanced X-Ray Astrophysics Facility, Gravity Probe-B, and other Astrophysics and Space Physics experiments will continue in FY 1994 and FY 1995. Astro-2 will be flown in FY 1995. In December 1993, the Hubble Space Telescope was successfully repaired and will assume full-up operations by late February of this year; and the first U.S. Global Geospace Science mission (WIND) is also scheduled to be launched in mid-to-late FY 1994.

Planetary Exploration.—This program encompasses the scientific exploration of the solar system including the planets and their satellites, comets and asteroids, and the interplanetary medium. Development activities will continue on the Cassini mission to Saturn for launch in 1997. In FY 1994, two new missions will begin development for launch within three years. These are the Mars Environmental Survey/Pathfinder (MESUR/Pathfinder) and the Near Earth Asteroid Rendezvous (NEAR) missions. In FY 1995, a Mars orbiter program, consisting of small orbiters and landers that will study Mars, will begin development. Galileo is currently en route to Jupiter and will arrive in December 1995.

Life and Microgravity Sciences.—This program uses the microgravity environment of space to conduct basic and applied research to understand the effect of gravity on living systems and to conduct research in the areas of fluid physics, materials science and biotechnology. In FY 1994, experiment and research activities will be conducted in support of the International Materials Laboratory (IML)-2 mission, and a U.S. microgravity payload mission (USMP-2). In FY 1995, the first Shuttle rendezvous mission with the Russian Space Station Mir will include experiments in life and microgravity sciences. In addition, a U.S. microgravity Spacelab (USML-2) flight will be conducted in FY 1995.

Mission to Planet Earth.—The goal of this program is to gain a better understanding of the processes in the atmos-

phere, oceans, land surface and interior of the Earth, and to advance our knowledge of the interactions between these environments. The Upper Atmosphere Research Satellite and TOPEX, supported by ground-based and airborne observations, continue to gather valuable scientific data on the Earth's environment. The first Shuttle radar mission (SRL 1 and 2) will fly in FY 1994, and Atlas-3 will fly in FY 1995. In FY 1995, development of the first Earth Observing Satellite (EOS) Mission for launch in 1998 and development of the Earth Observing System Data Information System (EOSDIS) will continue. In FY 1994, the EOSDIS Version 0 prototype will be available at four of the distributed active archive centers. In FY 1995, the final product generation system toolkits for algorithm development will be delivered to the scientists for use at the science computing facilities by both the EOS flight science teams and the EOS interdisciplinary investigators.

Aeronautical Research and Technology.—The goal of this program is to conduct aeronautical research and develop technology to strengthen U.S. leadership in civil and military aviation. In FY 1994 and FY 1995, basic research activities in various aeronautical disciplines will continue to develop innovative concepts, the physical understanding and the theoretical and computation tools required for the efficient design and operation of advanced aerospace systems. In addition, activities to develop technologies in selected areas will continue. This includes subsonic aircraft, high speed civil transportation, high-performance fixed and rotary wing aircraft, hypersonic research and technology and high performance computing. In the National Aerospace Plane program, FY 1994 will feature tests of the concept development engine, an important demonstration of hypersonic propulsion technologies. NASA will continue to operate critical national facilities for aeronautical research and for support of industry, Department of Defense and other NASA programs.

Advanced Concepts and Technology.—The goal of this program is to support the development and application of technologies critical to the economic, scientific and technological competitiveness of the U.S. and to promote U.S. industrial preeminence through strengthened linkages between the private sector and NASA technology efforts. In FY 1994, activities will support the more aggressive pursuit of the transfer of technology from NASA to the private sector through implementation of elements of the President's New Technology Investment Initiative. All the efforts are based on strong industry leadership aimed at lowering the cost of space activities, achieving near-term results, and which benefit the economy more directly. The advanced space transportation research programs may undergo further review pending the outcome of the Administration's on-going space transportation review.

Academic Programs.—The goal of this program is to promote excellence in America's education system through enhancing and expanding scientific and technological competence. NASA's education programs span from the elementary through graduate level, and are directed at students as well as faculty. The goal of the Minority University Research Program is to expand opportunities for talented students from underrepresented groups pursuing degrees in science and engineering, as well as strengthening the research capabilities of minority universities and colleges. In FY 1994 and FY 1995, the range of activities conducted under this program will continue to capture the interest of all students in science and technology, develop talented students at the undergraduate and graduate levels, provide research opportunities for students and faculty members at NASA centers and strengthen and enhance the research capabilities of the nation's colleges and universities.

This appropriation provides for mission support, including: safety, reliability and quality assurance activities supporting agency programs; space communication services for NASA programs; salaries and related expenses in support of research in NASA field installations; design, repair, rehabilitation and modification of institutional facilities and construction of new institutional facilities; other operations activities supporting conduct of agency programs.

Performance Objectives:

Safety, Reliability and Quality Assurance.—The goal of this program is to assure the safety and quality of NASA missions, through the development, implementation and oversight of Agencywide safety, reliability, maintainability, and quality assurance policies and procedures. In FY 1994, the new Independent Validation and Verification Center will be initiated under the management of this office.

Space Communication Services.—Activities included in this program provide for the tracking, telemetry, command, data acquisition, communications and data processing required by all NASA flight projects. In FY 1994 and FY 1995, the networks and support systems which accomplish these tasks will continue operation. In FY 1995, the seventh Tracking and Data Relay Satellite (TDRS) will be launched.

Research and Program Management.—This activity provides for the salaries, travel support, other personnel expenses of the entire NASA civil service workforce. It also includes vital support to the civil service workforce and to the physical plant at the Centers and at NASA Headquarters.

Construction of Facilities.—This activity provides for the repair, rehabilitation and modification of administrative facilities, environmental compliance and restoration activities, the design of facilities projects, and the advanced planning related to future facilities needs. In FY 1994 and FY 1995, activities in support of maintenance and repair of administrative facilities at the NASA centers will be conducted, as well as activities in support of environmental compliance and restoration requirements. Funds are also included in FY 1994 to continue planning, in collaboration with industry, on the requirements and design of future wind tunnel facilities.

[CONSTRUCTION OF FACILITIES]

[For construction, repair, rehabilitation and modification of facilities, minor construction of new facilities and additions to existing facilities, and for facility planning and design not otherwise provided, for the National Aeronautics and Space Administration, and for the acquisition or condemnation of real property, as authorized by law, \$550,300,000, to remain available until September 30, 1996: *Provided*, That, notwithstanding the limitation on the availability of funds appropriated under this heading by this appropriations Act, when any activity has been initiated by the incurrence of obligations therefor, the amount available for such activity shall remain available until expended, except that this provision shall not apply to the amounts appropriated pursuant to the authorization for repair, rehabilitation and modification of facilities, minor construction of new facilities and additions to existing facilities, and facility planning and design: *Provided further*, That no amount appropriated pursuant to this or any other Act may be used for the lease or construction of a new contrac-

tor-funded facility for exclusive use in support of a contract or contracts with the National Aeronautics and Space Administration under which the Administration would be required to substantially amortize through payment or reimbursement such contractor investment, unless an appropriations Act specifies the lease or contract pursuant to which such facilities are to be constructed or leased or such facility is otherwise identified in such Act: *Provided further*, That the Administrator may authorize such facility lease or construction, if he determines, in consultation with the Committees on Appropriations, that deferral of such action until the enactment of the next appropriations Act would be inconsistent with the interest of the Nation in aeronautical and space activities: *Provided further*, That, pursuant to Public Law 102-486, an amount equal to not more than 50 percent of all utility energy efficiency and water conservation cash rebates received by the National Aeronautics and Space Administration may be made available for additional energy efficiency and water conservation measures, including facility surveys: *Provided further*, That none of the funds provided in this Act to the National Aeronautics and Space Administration shall be available for other than termination costs of the advanced solid rocket motor program.]

[Notwithstanding any other provision of this Act, the amounts appropriated in this Act for fiscal year 1994 shall be: \$4,853,500,000 for the National Aeronautics and Space Administration "Space flight, control and data communications", \$517,700,000 for the National Aeronautics and Space Administration "Construction of facilities", \$7,529,300,000 for the National Aeronautics and Space Administration "Research and development", \$1,480,853,000 for the Environmental Protection Agency "Hazardous substance superfund", \$1,998,500,000 for the National Science Foundation "Research and related activities", and \$110,000,000 for the National Science Foundation "Academic research infrastructure".] (*Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1994.*)

ADMINISTRATIVE PROVISIONS

Notwithstanding the limitation on the availability of funds appropriated for "Human Space Flight", "Science, Aeronautics, and Technology", or "Mission Support" by this appropriations Act, when any activity has been initiated by the incurrence of obligations for construction of facilities and for the acquisition or condemnation of real property, as authorized by law, the amount available for such activity shall remain available until expended. This provision does not apply to the amounts appropriated pursuant to the authorization for repair, rehabilitation and modification of facilities, minor construction of new facilities and additions to existing facilities, and facility planning and design.

Notwithstanding the limitation on the availability of funds appropriated for "Human Space Flight", "Science, Aeronautics, and Technology", or "Mission Support" by this appropriations Act, the amounts appropriated pursuant to the authorization for repair, rehabilitation and modification of facilities, minor construction of new facilities and additions to existing facilities, and facility planning and design shall remain available until September 30, 1997.

No amount appropriated pursuant to this or any other Act may be used for the lease or construction of a new contractor-funded facility for exclusive use in support of a contract or contracts with the National Aeronautics and Space Administration under which the Administration would be required to substantially amortize through payment or reimbursement such contractor investment, unless an appropriations Act specifies the lease or contract pursuant to which such facilities are to be constructed or leased or such facility is otherwise identified in such Act. The Administrator may authorize such facility lease or construction, if he determines, in consultation with the Committees on Appropriations, that deferral of such action until the enactment

of the next appropriations Act would be inconsistent with the interest of the Nation in aeronautical and space activities.

The unexpired balances of prior appropriations to NASA for activities for which funds are provided under this Act may be transferred to the new account established for the appropriation that provides funds for such activity under this Act. Balances so transferred may be merged with funds in the newly established account and thereafter may be accounted for as one fund to be available for the same purposes and under the same terms and conditions.

OFFICE OF PERSONNEL MANAGEMENT

Federal Funds

General and special funds:

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

For necessary expenses to carry out functions of the Office of Personnel Management pursuant to Reorganization Plan Numbered 2 of 1978 and the Civil Service Reform Act of 1978, including services as authorized by 5 U.S.C. 3109, medical examinations performed for veterans by private physicians on a fee basis, rental of conference rooms in the District of Columbia and elsewhere, hire of passenger motor vehicles, not to exceed \$2,500 for official reception and representation expenses, and advances for reimbursements to applicable funds of the Office of Personnel Management and the Federal Bureau of Investigation for expenses incurred under Executive Order 10422 of January 9, 1953, as amended: *Provided*, That notwithstanding 31 U.S.C. 3302, the Director is hereby authorized to accept gifts of goods and services, which shall be available only for hosting National Civil Service Appreciation Conferences. Goods and services provided in connection with the conference may include, but are not limited to, food and refreshments; rental of seminar rooms, banquet rooms, and facilities; and use of communications, printing and other equipment. Awards of minimal intrinsic value will be allowed. Gifts provided by an individual donor shall not exceed 50 percent of the total value of the gifts provided at each location; \$118,533,000, of which not to exceed \$1,000,000 shall be made available for the establishment of health promotion and disease prevention programs for Federal employees; \$112,765,000, and in addition \$88,519,000 \$94,295,000 for administrative expenses, to be transferred from the appropriate trust funds of the Office of Personnel Management without regard to other statutes, including direct procurement of health benefits printing, for the retirement and insurance programs, of which \$5,981,000 \$10,956,000 shall be transferred at such times as the Office of Personnel Management deems appropriate, and shall remain available until expended for the costs of automating the retirement recordkeeping systems, together with remaining amounts authorized in previous Acts for the recordkeeping systems: *Provided further*, That the provisions of this appropriation shall not affect the authority to use applicable trust funds as provided by section 8348(a)(1)(B) of title 5, United States Code: *Provided further*, That, except as may be consistent with [regulations of the Office of Personnel Management prescribed pursuant to] 5 U.S.C. 8902a(f)(1) and (i), no payment may be made from the Employees Health Benefits Fund to any physician, hospital, or other provider of health care services or supplies who is, at the time such services or supplies are provided to an individual covered under chapter 89 of title 5, United States Code, excluded, pursuant to section 1128 or 1128A of the Social Security Act (42 U.S.C. 1320a-7-1320a-7a), from participation in any program under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.): *Provided further*, That no part of this appropriation shall be available for salaries and expenses of the Legal Examining Unit of the Office of Personnel Management established pursuant to Executive Order 9358 of July 1, 1943, or any successor unit of like purpose: *Provided further*, That the President's Commission on White House Fellows, established by Executive Order 11183 of October 3, 1964, may, during the fiscal year ending September 30, [1994] 1995, accept donations of money, property, and personal services in connection with the development of a publicity brochure to provide information about the White House Fellows, except that no such donations shall be accepted for travel or reimbursement of travel expenses, or for the salaries of employees of such Commission. This appropriation provides agencywide audit and investigative functions to identify management and administrative deficiencies which may create conditions for fraud, waste and mismanagement. The audits function provides internal agency audit, insurance audit, contract audit, and inspections services. Contract audits provide professional advice to agency contracting officials on accounting and financial matters regarding negotiation, award, administration, repricing, and settlement of contracts. Internal audits review and evaluate all facets of agency operations. Inspection services provide detailed technical evaluations of agency operations. Insurance audits review operations of health and life insurance carriers, health care providers, and insurance subscribers. The investigative function provides for the detection and investigation of improper and illegal activities involving programs, personnel, and operations.

The 1980 law which established the Federal Employees Life Insurance Program requires all annuitants retiring after December 31, 1989 to begin to contribute toward their post-retirement coverage until they attain age 65. The annuitant contribution is two-thirds of the Basic life insurance premium, identical to that paid by active Federal employees for Basic life insurance coverage. The appropriation finances the government's share of premiums collected for post-retirement coverage.

PAYMENT TO CIVIL SERVICE RETIREMENT AND DISABILITY FUND

Outlays	19,793,339	20,238,882	20,399,831

Payment of annuities under special acts.—These annuities are paid to persons who were employed on the construction of the Panama Canal or their widows and widows of former employees of the Lighthouse Service. Numbers of recipients are as follows:

	Sept. 30, 1993	Sept. 30, 1994	Sept. 30, 1995
Panama Canal annuitants	3	2	1
Lighthouse Service widows	120	110	100

Payment of Government share of retirement costs.—The Civil Service Retirement Amendments of 1969 provide for financing of the current year's costs of the unfunded liability created since its enactment on October 20, 1969. Any statute which authorizes (1) new or liberalized benefits, (2) extension of retirement coverage, or (3) pay increases, is deemed to authorize appropriations to the fund to finance the unfunded liability created. Beginning in FY 1994, The Office of Personnel Management notified the Secretary of the Treasury of "such sums as may be necessary" to carry out those provisions. This permits the actual effects of pay increases and benefit liberalizations to be incorporated in the budget year as prescribed by 5 U.S.C. 8248, 58 Stat. 257 and 646 Stat. 465. It replaced the allowance for government share of retirement costs introduced in the FY 1993 budget to accomplish the same purpose.

Transfers for interest on unfunded liability and payment of military service annuities.—The Secretary of the Treasury is required to make annual payments from general revenues into the Civil Service Retirement and Disability Fund of an amount equivalent to: (1) interest on the unfunded liability, and (2) annuity disbursements attributable to military service. The Office of Personnel Management, at the end of each year, notifies the Secretary of the Treasury of the amount of payment to be made to the Civil Service Retirement and Disability Fund and reports such sums to the President and Congress.

Payments for spouse equity.—The Civil Service Retirement Spouse Equity Act of 1985, Public Law 98-615, provides for the payment of survivor annuities to eligible former spouses of annuitants who died between September 1978 and May 1986 and who did not elect survivor coverage. The law authorizes the Office of Personnel Management to notify the Secretary of the Treasury of the amount of such annuities paid each fiscal year and directs the Secretary to credit this amount to the Civil Service Retirement and Disability Fund.

Transfers for payment of FERS supplemental liability.—Under provisions of the Federal Employees' Retirement System (FERS) Act of 1986, Public Law 99-335, the Secretary of the Treasury is required to make annual amortization payments to finance supplemental (change in unfunded) liabilities as calculated for FERS.

The Office of Personnel Management (OPM) conducts military entrance exams for the Department of Defense (DOD), performs human resources development activities and miscellaneous services for Federal agencies, conducts National Agency Check and Inquiry cases, and background security

investigations for Federal agencies on a reimbursable basis, and operates the Federal Quality Institute. To the extent that OPM is required to pay a fee to the Federal Bureau of Investigation for name and fingerprint checks, agencies are required to reimburse OPM for such fees through the revolving fund.

This fund pays annuities to retired employees or their survivors; makes refunds to separated employees for amounts withheld and to beneficiaries of employees who died before retirement or before annuities equaled the amount withheld; and pays expenses of the Office of Personnel Management and the Merit Systems Protection Board for administering the program. The fund covers two Federal civilian retirement systems: the Civil Service Retirement System (CSRS) and the Federal Employees' Retirement System (FERS).

CSRS is basically a defined benefit plan, covering Federal employees hired prior to 1984. CSRS participants do not participate in the Social Security system. FERS is a three-tiered pension program that uses Social Security as a base, provides an additional basic benefit, and includes a thrift savings plan. FERS covers employees hired after 1983 and formerly CSRS-covered employees who elected to join FERS.

In accordance with P.L. 103-66, this schedule includes the following adjustments: (1) lump-sum payments offered under the alternative annuity provision are terminated for all persons retiring after September 30, 1994, except those who have a life-threatening affliction or other critical medical condition (the suspension of the lump-sum under the terms of P.L. 101-508 will remain in effect throughout FY 1994); (2) the cost-of-living adjustments (COLA's) for CSRS and FERS annuitants will not take effect until March 1, in fiscal years 1994 through 1996, and (3) the Postal Service will make additional payments of \$231 million per year for fiscal years 1996, 1997 and 1998 to cover the cost of past retiree COLA's.

The fund provides for the cost of health benefits for: (1) active employees; (2) employees who retired after June 1960, or their survivors; (3) those annuitants transferred from the Retired employees health benefits program as authorized by Public Law 93-246; and (4) the related expenses of the Office of Personnel Management in administering the program.

Budget program.—The balance of the fund is available for payments without fiscal year limitation. Numbers of participants at the end of each fiscal year are as follows:

	1993 actual	1994 est.	1995 est.
Active employees	2,362,490	2,331,490	2,300,440
Annuityants	1,714,381	1,739,328	1,759,036
Total	4,076,871	4,070,818	4,059,476

In determining a biweekly subscription rate to cover program costs, one percent is added for administrative expense, and three percent is added for a contingency reserve held by the Office of Personnel Management (OPM) for each carrier. The OPM is authorized to transfer unused administrative reserve funds to the contingency reserve.

In accordance with P.L. 103-66, this schedule includes the following adjustments: (1) the "Phantom Big 6" formula for determining the maximum government contribution toward FEHB premiums has been extended through the 1996 contract year; (2) in contract years 1997 and 1998, the average premium for the indemnity plan in the Phantom Big 6 formula will be modified to account for the average premium increase in the remaining Big 5 plans minus 1 percent; (3) beginning in the 1999 contract year, the maximum government contribution will be calculated by averaging premiums from the remaining "Big 5" plans; (4) Medicare Part B fee limits have been applied to all FEHB annuitants; (5) the Postal Service will make additional payments of \$116 million per year for fiscal years 1996, 1997 and 1998 to cover the cost of past retiree health benefits.

contributions for annuitants appropriated to the Office of Personnel Management; and (4) contributions made by the United States Postal Service in accordance with the provisions of Public Law 101-508 and Public Law 103-66.

Operating results.—Funds made available to carriers but not used to pay claims in the current period are carried forward as special reserves for use in subsequent periods.

The Office of Personnel Management maintains a contingency reserve, funded by employee and Government contributions, that may be used to defray future cost increases or provide increased benefits. OPM makes payments to carriers from this reserve whenever carrier-held reserves fall below levels prescribed by OPM regulations or when carriers can demonstrate good cause such as unexpected claims experience or variations from expected community rates.

This fund finances payments to private insurance companies for Federal employees group life insurance and expenses of the Office of Personnel Management in administering the program.

Budget program.—The status of the basic (regular and optional) life insurance program on September 30 is as follows:

Life insurance in force (in billions of dollars):	1993 actual	1994 est.	1995 est.
On active employees ¹	274	277	285
On retired employees	35	39	43

Annuityants	1,539	1,579	1,619
Total	4,074	4,089	4,104

¹ Excludes amount of accidental death and dismemberment insurance.

Financing.—OPM announced rate reductions for the Basic program and some age groups covered under the Optional program effective the first pay period beginning after January 1, 1993. For non-Postal service employees, premium costs for

the Basic program were reduced to \$.165 bi-weekly for each \$1,000 of coverage; agencies make a 50 percent matching contribution. The Optional program is financed by withholdings from employee salaries and retiree annuities. The status of the reserves at the end of the year is as follows:

Held in reserve (in millions of dollars):	1993 actual	1994 est.	1995 est.
Contingency reserve	55	50	50
Beneficial association program reserve	1	1	1
U.S. Treasury reserve	13,688	14,787	15,904
Total reserves	13,744	14,838	15,955

The contingency reserve goal for the basic program is set at \$50 million, and it is expected to remain at this level. Excess income from the program over benefit payments and other expenses is deposited in the U.S. Treasury to the credit of the Employees life insurance fund. The operations of the insurer for the regular and optional life insurance program is as follows:

The Small Business Administration (SBA) provides assistance to small businesses and to victims of physical disasters. These efforts are conducted through the following activities:

Finance, Investment and Procurement.—The Associate Deputy Administrator for this function exercises direction over Financial Assistance, Disaster Assistance, Investment Assistance, Surety Guarantees, Procurement Assistance, and the Minority Small Business and Capital Ownership Development (MSB/COD). These offices are responsible for the administration of all SBA financial assistance, procurement and minority-assistance programs.

In 1995, the budget proposes a number of new user fees, consistent with standard commercial practices, which will help recover expenses incurred for those administrative actions required by SBA to properly maintain and service its existing loan portfolio. Roughly \$7.2 million would be generated from these fees.

The disaster assistance program is proposed to be reformed by reducing subsidies by increasing the interest rate on disaster loans to the Treasury's cost of borrowing plus one point.

Procurement Assistance activities are aimed at assuring that small business receives a fair share of Government procurements. In addition, SBA maintains a Procurement Automated Source System, which is used by Federal agencies and prime contractors to identify small businesses for contract opportunities.

The Minority Small Business and Capital Ownership Development activity provides assistance to minority small business concerns—primarily in the area of Federal procurement—and evaluates overall Agency performance in promoting minority business development. The business development program assists in the establishment or expansion of firms that are owned by minority or other disadvantaged business persons and that have the potential to develop into viable competitive businesses in a reasonable period of time.

Business Development.—The Associate Deputy Administrator for this function exercises direction over Business Initiatives, Education and Training, Veterans' Affairs, Women's Business Ownership, International Trade, and Small Business Development Centers (SBDCs). These offices are responsible for effective management and operational efficiency in assuring that specialized attention and proper emphasis to the emergent needs of the small business community are represented. The SCORE and SBDC programs are administered through this activity. In 1995, the budget proposes a number of initiatives to continue to provide management training and tools for the small business community. These initiatives include Business Information Centers (BICs), Export Assistance Centers and the Empowerment Zone Project. In addition, three new user fees are proposed to help recover the administrative expenses of some of these activities. Approximately, \$17 million would be generated in 1995 by imposing a \$15 per hour fee on individuals obtaining assistance from SBDCs. Another \$2.2 million would be raised through the imposi-

tion of fees for SBA's publications and computer-based electronic bulletin board.

Advocacy.—This office is responsible for the development and implementation of a Small Business Administration Advocacy program. Activities include the representation of small business interests, the analysis of the effects of federal law and regulation on small business, the development and utilization of a small business data base to aid in this analysis and liaison with small business and small business organizations and the public.

This appropriation provides agency-wide audit, investigative, and inspection/evaluative functions to identify and recommend corrections of management or program deficiencies which may create conditions for fraud, waste, or abuse. The audit function provides internal audit, external audit, and

inspection/evaluation oversight activities. Internal audits assess the general management and efficiency of SBA program operations; external audits review all program participants and their compliance with SBA regulations and procedural requirements; and inspection/evaluations address specific requirements of program management and effectiveness. The investigative function detects and investigates allegations of illegal and improper activities involving agency personnel, programs, and operations.

Under this program, the Small Business Administration guarantees a portion of the losses sustained by a surety company as a result of the issuance of a bid, payment, and/or performance bond to a small business concern.

In 1995, the budget proposes a program level anticipated to accommodate expected demand from the new preferred surety bond program authorized in P.L. 100-590. The SBA intends to rely increasingly on preferred sureties to deliver this program, with SBA oversight taking place through the central office.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs asso-

ciated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

General Business Assistance.—The Small Business Administration (SBA) guarantees loans to small businesses that are unable to obtain private financing. These loans must be of such value or so secured as to reasonably assure repayment. No loan may be made unless the financial assistance is not otherwise available on reasonable terms. Under the guarantee plan, the SBA agrees to purchase the guaranteed portion of the loan only upon default. The SBA's share of loans guaranteed by private lenders averages about 77 percent. In addition to providing financial assistance to the general business community, particular emphasis is given to the following groups:

Businesses owned by socially and economically disadvantaged individuals;

Businesses that employ or are owned by handicapped individuals;

Small business concerns located in urban or rural areas with high proportions of unemployed or low-income individuals or owned by low-income individuals; and

Small business concerns owned and operated by veterans, especially Vietnam-era veterans.

Investment Company Assistance.—A primary function of small business investment companies is to provide a source of equity capital or long-term loans to new or expanding small businesses. The Small Business Investment Act, as amended, authorizes the SBA to purchase or to guarantee the timely payment of all principal and interest, as scheduled, on debentures issued by such companies. In addition, starting in 1994 the SBA will guarantee the performance of participating securities issued by these companies. The guarantee authority requested under the Minority Investment Companies program is expected to fully meet demand for that program.

Development Company Assistance.—Under the Small Business Investment Act, the SBA makes loans through State and local development companies to small businesses. Through these programs, the SBA promotes economic development and job creation and maintenance by stimulating the flow of long-term financing to small business concerns for projects that involve fixed assets. These projects are designed to create or retain a meaningful number of jobs in the communities affected, with a special emphasis on distressed areas.

1995 Proposal.—This request proposes to provide for the prepayment of section 503 loans with a penalty equal to what it would be under the section 504 formula, with the SBA making up the difference to the Federal Financing Bank. In addition, this request proposes to fund a guaranteed micro loan program in place of the direct micro loan program. The Administration is transmitting, separately, authorizing legislation to accomplish this program conversion.

DISASTER LOANS PROGRAM ACCOUNT

For the cost of direct loans authorized by Section 7(b) of the Small Business Act, as amended, \$52,153,000, to remain available until expended: *Provided*, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974.

[For] In addition, for administrative expenses to carry out the direct loan program, [\$76,101,000] \$78,308,000, which may be transferred to and merged with the appropriations for Salaries and Expenses.

[In addition, for the cost of emergency disaster loans and associated administrative expenses, \$140,000,000, to remain available until expended: *Provided*, That these funds, or any portion thereof, shall be available beginning in fiscal year 1994 to the extent that the President notifies the Congress of his designation of any or all of these amounts as emergency requirements under the Budget Enforcement Act of 1990: *Provided further*, That Congress hereby designates these amounts as emergency requirements pursuant to section 251(b)(2)(D).]

In addition, notwithstanding any other provision of law, for fiscal year 1995 and each fiscal year thereafter, the interest rate on the Federal share of any loan made under Section 7(b) of the Small Business Act, as amended, due to a disaster commencing on or after October 1, 1994, shall be equal to a rate determined quarterly by the Secretary of the Treasury, taking into consideration the current market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusting such yield to the nearest one-eighth of 1 percent, and adding an additional 1 percent. (Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1994.)

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

This account finances disaster loans made pursuant to section 7(b) of the Small Business Act, as amended.

Physical Disaster Loans.—Under this program, loans are made to individuals and businesses at favorable terms and conditions for uninsured losses of property, both real and personal, damaged by natural disasters such as tornadoes, floods, hurricanes, etc. On average, SBA makes about \$412 million in new loan obligations each year. During 1993, however, there was an unusually high demand for these loans as a result of the Midwest floods.

The budget proposes that starting in fiscal year 1995, to reduce the deep subsidy in this program, the interest rate is proposed to be increased to the Treasury cost of borrowing, plus one point.

Public Law 94-305, approved June 4, 1976, established this fund to alleviate the adverse impact of pollution regulations on small businesses. As a result of the elimination of tax exempt financing associated with the Pollution Control Guaranteed program, no new activity is anticipated for this program.

During FY 1992, the Small Business Administration started the process of redeeming a large number of outstanding bonds on which it has taken over loan payments. Most of these targeted bonds are ten years old and voluntary redemption is now viable under the bond documents. Redemption of these obligations would preclude the SBA from paying excessive interest over the next ten years.

The Conference assists the President, the Congress, Federal departments, and agencies in improving administrative procedure. It conducts studies of the efficiency, adequacy, and fairness of the procedures that the agencies and departments use to determine the rights, privileges, and obligations of private persons. The Conference issues formal recommendations for improvements and then encourages their implementation.

In addition to its research activities, the Conference also arranges for the interchange among administrative agencies of information useful in improving administrative procedure and, on an ongoing basis, furnishes assistance and advice on matters of administrative procedure to the agencies, the Congress, and others. It also publishes a number of adminis-

trative law sourcebooks and deskbooks used by attorneys throughout federal agencies saving redundant publication costs.

The Conference receives funds from other Federal agencies for special projects carried out by the Conference pursuant to agreements with these agencies. In past fiscal years, USIA funding supported Rule of Law initiatives in Eastern Europe, Asia, and Africa. USIA or the State Department may support similar activities by the Conference in 1995. In addition, the Conference will support implementation of numerous recommendations of the National Performance Review to streamline the Government and make it more efficient.

The Advisory Commission on Intergovernmental Relations (ACIR) is a 26-member independent, bipartisan body. The Commission and its staff examine Federal, State and local trends, events, and programs that affect intergovernmental relations. On request, proposed legislation and executive actions are reviewed to determine their overall effect on the Federal system. The Commission also identifies emerging problems of Federal-State-local relations and assists States and localities in anticipating and meeting problems caused by various intergovernmental overlaps and conflicts, and makes recommendations concerning the workings and structural arrangements of governmental units and allocation of responsibilities and revenues among the various levels of government. The recommendations and published reports growing out of the Commission's work are submitted to the executive and legislative branches of Federal, State, and local governments for appropriate action.

This appropriation establishes a framework of joint Federal and State efforts to provide basic facilities essential to economic growth in Appalachia. Program investments made in the Appalachian Region are concentrated in areas with significant potential for future growth as well as in those areas that suffer the greatest distress. The States, acting through the Appalachian Regional Commission, are responsible for recommending local and State projects within their borders for assistance under this program.

1. Appalachian Development Highway System.—The Appalachian Development Highway System including local access roads, is designed to improve the accessibility of Appalachia; to reduce highway transportation costs to and within Appalachia; and to provide the highway transportation facilities necessary to accelerate the overall development of Appalachia. The budget for 1995 provides \$100 million for highway construction.

The cumulative status of the system of roads, including mileage prefinanced by the States, follows:

	1993 actual	1994 est.	1995 est.
Development systems miles (Prefinanced miles included) (cumulative):			
Miles contracted	2,251	2,290	2,330
Miles completed	2,106	2,150	2,200
Access Roads (cumulative):			
Miles contracted	890	900	910
Miles completed	873	880	890
Funds committed (cumulative-in thousands of dollars):			
Development highway	3,724,907	3,899,857	3,997,257
Access roads	210,037	218,000	219,000
Administration and other	36,197	37,797	39,397
Totals	3,971,141	4,155,654	4,255,654
Prefinanced by States	218,644	215,000	215,000
Annual obligations (thousands)	131,138	184,166	100,000

2. Community Development Program.—Funds are provided by allocation to each of the Appalachian States for community development projects, including public works, housing and local government assistance. State projects generally are directed to two objectives: providing gap assistance to project with immediate private investment and job creation opportunities, and enhancing long term prospects in the Region by encouraging strategic planning, leadership development, service consolidations of other strategies that help local governments and organizations come together to solve problems and save resources. Special funding and criteria are used to assist the Region's most distressed and underdeveloped counties in providing basic services to their residents. The budget for 1995 provides \$45.5 million for local development projects, with the approximate approved project workload as follows:

	1993 actual	1994 est.	1995 est.
Community Development	161	260	180

General and special funds—Continued

APPALACHIAN REGIONAL COMMISSION—Continued

3. *Business and Human Development Program.*—A funding level of \$32.6 million for 1995 will build on the Commission's efforts to tackle some of the most intractable problems of the Region—education, health and business development opportunities. Emphasis is placed on furthering the national education goals and on expanding curricula and furthering professional development using telecommunications. Lifelong learning, using such vehicles as tech-prep, applied learning and apprenticeship strategies; programs in basic skills; and customized training to meet immediate employment needs round out the program priorities. The Commission is involved in health manpower recruitment for medically underserved counties in the Region. The Commission will also invest in regional and interstate strategic initiatives, such as tourism and manufacturing competitiveness. Business development technical assistance programs serving rural communities generally are operated through the Commission's system of local development districts. Approximate approved project workload follows:

	1993 actual	1994 est.	1995 est.
Business and human development	247	350	320

4. *Research and Local Development District Programs.*—Increased assistance is provided through grants to multi-county local development districts and for technical assistance and research projects. The budget for 1995 provides \$5.3 million with the approximate approved workload as follows:

	1993 actual	1994 est.	1995 est.
Planning districts aided	69	69	69
Technical assistance projects	24	26	20

5. *Salaries and Expenses.*—The Federal Co-Chairman represents the Federal Government on the Commission and leads in the coordination of the Appalachian program with Federal agencies. Since 1989, the Office of the Federal Co-Chairman includes an Inspector General.

The Federal Government contributes 50 percent of the expenses of a professional staff which works with the States and the Federal staff in operating the program. The staff members are not Federal employees but are employees of the jointly supported Commission. The budget for 1995 provides \$3.6 million for salaries and expenses.

The Architectural and Transportation Barriers Compliance Board was established by section 502 of the Rehabilitation Act of 1973 to ensure compliance with the Architectural Barriers Act of 1968. Its primary role is to carry out a compliance program to ensure accessibility and usability of most Federal and federally funded buildings by people with disabilities. In 1993, the Board will continue to process, investigate, and resolve complaints of noncompliance. Emphasis is on voluntary, amicable resolution of access issues.

The Board also develops Federal minimum accessibility guidelines and requirements for the standards under the Architectural Barriers Act, and provides technical assistance to public and private organizations affected by Federal accessibility regulations.

The Americans With Disabilities Act (P.L. 101-336) expanded the Board's responsibilities to include (1) developing accessibility guidelines for transportation vehicles and facilities, public accommodations, outdoor recreation, and communications; (2) implementing technical assistance programs in the areas of transportation and public accommodations; (3) developing and publishing technical assistance manuals for entities covered under Titles II and III of the Act; and (4) assisting the Department of Justice in certifying State and local building codes to be used to comply with the ADA.

The Arms Control and Disarmament Agency (ACDA) advises the President and the Secretary of State on arms control, nonproliferation, and disarmament activities and participates in negotiations with other countries seeking international agreements to control, reduce, or eliminate arms. Among the activities to which ACDA resources will be devoted are: the management of U.S. participation in arms control, nonproliferation, and disarmament negotiations; research on arms control; verification and compliance; arms transfer reviews; and the preparation of reports on arms control matters. In addition, the 1995 ACDA request includes funds for the U.S. contribution to the Preparatory Commission for the Organization on the Prohibition of Chemical Weapons.

The Commission engages in studies concerning areas in which there may be denials of civil rights and reports on these matters to the President and the Congress. Hearings by the Commissioners are held to investigate and obtain information about denials of civil rights. Conferences and open meetings are held by staff and State Advisory Committees to gather data and issue reports providing information about civil rights problems. In addition, appraisals of Federal agencies' civil rights programs are made and complaints alleging discrimination are referred to the proper Federal agencies.

The Commission provides liaison with private groups, public groups, and the media to provide civil rights information to Government officials, organizations, and the public. This is sometimes accomplished through the issuance of Commission publications. It also provides a library resource to support civil rights research, studies, hearings, and other Commission activities, and makes this information available to the general public.

The Committee for Purchase From People Who Are Blind or Severely Disabled was established by the Wagner-O'Day Act of 1938, as amended. Its primary objective is to increase the employment opportunities for people who are blind or have other severe disabilities and, whenever possible, to prepare them to engage in competitive employment. In 1995, approximately 20,000 people who are blind or have other severe disabilities are projected to be employed in nearly 600 producing nonprofit agencies. The Committee's duties include promoting the program; determining which commodities and services are suitable for Government procurement from qualified nonprofit agencies serving people who are blind or have other severe disabilities; maintaining a procurement list of such commodities and services; determining the fair market price for commodities and services on the procurement list; and making rules and regulations necessary to carry out the purposes of the Act. In FY 1995 the Committee expects to have 5,000 items on its Procurement List and sales of \$560 million.

The Committee staff's responsibilities include promoting and assessing the overall program; supervising the selection and assignment of new commodities and services; assisting in establishing prices; reviewing and adjusting these prices; verifying the qualifications of nonprofit agencies; and monitoring their performance.

The Commodity Futures Trading Commission (CFTC) administers the Commodity Exchange Act of 1936, as amended. The purpose of the CFTC is to further the economic utility of the futures markets by encouraging their efficiency, assuring their integrity, and protecting participants against abusive trade practices, fraud, and deceit. The object of commodity futures trading regulation is to enable the markets to better serve their designated functions of providing a price discovery mechanism and a means of offsetting price risk. By properly serving these functions, the futures markets serve the public interest by contributing toward better planning, more efficient distribution and consumption, and more economical marketing.

Market surveillance, analysis and research.—Responsibilities under this program include daily surveillance of the market activity of large individual traders and fundamental economic market factors to insure orderly markets. Contract terms and conditions are reviewed to insure conformity with current cash marketing conditions and adequate deliverable supplies. This program also systematically investigates the functioning of markets and market users and develops better tools to assist in detecting and preventing price distortions.

Enforcement.—The enforcement program is responsible for detecting, investigating, and litigating violations of the Act or regulations. These violations may include actual and attempted market manipulations, cheating and defrauding customers, and abusive trading practices such as fictitious trading, wash trading, and pre-arranged trading. This program may seek redress through the administrative process or by injunctive actions in the Federal Courts.

Financial Risk Management; Intermediary and Professional Review.—This program works to protect customer funds, ensure financial integrity of regulated intermediaries, and monitor compliance activities of the National Futures Association and financial and sales practice compliance activities of other self-regulatory organizations.

Market Review and Development.—This program oversees the integrity, fairness and competitiveness of the markets by monitoring compliance activities of the designated contract markets and reviewing contract markets' rules and rule changes. The program also coordinates with other domestic and international regulators, generally, and especially in the event of a market disruption.

The President has proposed, and the Congress has taken up legislation to establish a Community Development Financial Institutions Fund (CDFI Fund). The CDFI Fund will provide grants, loans, and technical assistance to new and existing community development financial institutions such as community development banks, community development credit unions, revolving loan funds, and micro-loan funds. Recipients must use the funds to support mortgage, small business, and economic development lending in currently underserved, distressed neighborhoods. The CDFI Fund will also operate an information clearinghouse for community development lenders.

The CDFI Fund will help to address the urgent problems of declining economic and social infrastructure, loss of jobs, lack of private enterprise, and deteriorating housing facing many American communities today. Government investment and technical assistance will supplement private funds and expertise to ensure that community development financial institutions are effective in restoring healthy economic development to these communities. The budget assumes that this legislation will be passed in time for the program to be fully operational in FY95.

The Community Investment Program was created to improve the quality of life and expand economic opportunity. In 1993, \$500 million was appropriated for the program, subject to enactment of subsequent authorizing legislation. As authorizing legislation was never enacted, the program was not initiated. Of the \$500 million appropriated for the program in 1993, \$275 million was subsequently rescinded in 1993. The remaining funding was rescinded in 1994.

The Community Investment Program will be replaced by \$1 billion in funding for empowerment zones and enterprise communities which was enacted in August of 1993 as part of the Omnibus Budget Reconciliation Act of 1993. This newly enacted Federal program is designed to revitalize distressed urban and rural communities using block grant funds to allow local flexibility, and tax incentives to promote business development.

Since the establishment of the Community Management Staff (CMS) in 1992, additional programs and responsibilities have been added to it for budgetary oversight. To improve oversight, the Community Management Account (CMA) replaces the CMS as the umbrella account to hold those pro-

grams that directly support the Director of Central Intelligence (DCI) and the Intelligence Community as a whole. The CMA now includes the CMS, the Environmental Task Force, the National Intelligence Council, and the Center for Security Evaluations. The CMS is the DCI's principal source of advice and assistance in planning and executing his intelligence community management responsibilities. These include: developing the National Foreign Intelligence Program budget; developing intelligence plans and requirements; and overseeing research and development activities. The Environmental Task Force evaluates the application of Intelligence Community archived information and current and future imaging capabilities to the study of the environment. The National Intelligence Council provides analytical support to the DCI and national policy makers. The Center for Security Evaluation is responsible for evaluating and improving security capabilities at United States embassies. In 1994, Congress appropriated an additional \$49 million to the CMS to fund the DCI's and the Deputy DCI administrative costs (i.e., staff salaries, office expenses, travel, etc.); the Arms Control Intelligence Staff; and the costs to continue two imagery-related technology initiatives. These funds are requested elsewhere in the President's Budget for FY 1995 and beyond.

The Corporation for National and Community Service will engage Americans of all ages and backgrounds in community-based service which will address the nation's educational, human, public safety, and environmental needs to achieve meaningful results. In doing so, the Corporation will foster civic responsibility, strengthen the cords that bind us together as a people, and provide educational opportunity for those who make a substantial commitment to service.

National Service Trust. The Trust serves as a secure repository for educational awards set aside for eligible participants in national service programs. In FY 1995, 33,000 educational awards will be funded for participants enrolled in eligible positions.

AmeriCorps grants. With funds both channelled through States and provided directly to community based organizations, AmeriCorps grants will enable communities to address problems they identify by using the skills of individuals serving in National Service positions. In FY 1995, \$87.3 million will be provided in formula grants to States, \$87.3 million in competitive grants to States, \$82.1 million in competitive grants to subdivisions of States and nonprofit organizations, \$1.6 million Indian Tribes, and \$1.6 million to U.S. Territories.

Innovation, assistance, and other activities. In FY 1995 \$75 million will be provided as support to programs receiving assistance under AmeriCorps or Serve America or to organizations or States which would like to create programs or apply to the Corporation for funding.

Audits and evaluations. These activities will ensure that grant funds are expended in a fiscally responsible manner and that benefits of these expenditures are measured and program quality is constantly improved.

Civilian Community Corps. Approximately 1,000 participants will be enrolled in this residential National Service program.

Service learning/higher education. Through grants to State educational agencies, colleges and consortia of colleges and nonprofit organizations, and other means, curriculum will be improved and opportunities provided to students to participate in service learning activities.

NCSA program administration. Fifty percent of these funds will be provided to State Commissions to develop National Service plans and manage these activities within their States. Fifty percent of these funds will be used by the Corporation to administer these activities.

Points of Light Foundation. A grant will be provided to this nongovernment, nonprofit 501(c)(3) entity to enable it to increase opportunities for Americans to participate in voluntary activities.

Volunteers in Service to America.—In 1995, the VISTA program will provide 3,877 volunteer service years to assist communities working to resolve local poverty-related problems in areas such as illiteracy, hunger, unemployment, substance abuse, homelessness, and lack of adequate health support. The Literacy Corps will provide an additional 420 VISTA volunteer service years to develop, strengthen, supplement, and expand the efforts of public and private non-profit organizations at the local, State, and Federal levels to overcome the problems of illiteracy. The University Year for VISTA Program offers students at post-secondary institutions an opportunity to enhance their academic program with a period of full-time service to address the most basic needs of the nation's poor.

Special volunteer programs.—These programs stimulate and encourage innovative approaches to the application of volunteer resources to help meet human service needs in low-income communities. Primary mechanisms include demonstration grants to support the development of promising community-based volunteer strategies, and training and technical assistance initiatives designed to build organizational capacity and facilitate replication of effective models.

National senior volunteer corps.—These programs provide opportunities for people aged 60 and over, including those who are low-income, to volunteer their services to the community in many socially useful activities including working with the emotionally disturbed, the mentally retarded, and physically disabled, as well as the isolated and infirm elderly. In 1995, approximately 24,000 Foster Grandparent volunteers will serve about 83,600 children. Emphasis will be on abused and neglected children, boarder babies, children with AIDS, youth with drug/alcohol-related problems, teenage parents, eligible Head Start children, and the learning disabled. The Retired and Senior Volunteer program will support about 453,900 part-time volunteers providing service in areas such as literacy, drug abuse prevention, health, nutrition, education, and crime prevention, plus addressing the problems of "at-risk" persons and refugees. Approximately 13,800 volunteers in the Senior Companion program will provide long-term care services such as companionship, respite care, and household management assistance to about 34,500 frail and elderly Americans.

Inspector General.—The Office of the Inspector General will be funded from a separate appropriation in FY 1995, in accordance with the Inspector General Act of 1978, as amended.

Program support.—Costs of program direction and administration are financed by this activity.

The Corporation for Public Broadcasting provides grants to qualified public television and radio stations to be used at their discretion for purposes related primarily to program production or acquisition; and, supports the production and acquisition of radio and television programs for national distribution. In addition, the Corporation assists in the financing of several system-wide activities, including national satellite interconnection services and the payment of music royalty fees, and provides limited technical assistance, research, and planning services to improve system-wide capacity and performance. The appropriation for the Corporation is enacted two years in advance. For 1995, an appropriation of \$293 million was enacted in 1993.

For 1997, the Administration is requesting \$293 million for general programming and system support. The Federal contribution to the replacement of public broadcasting's satellite capacity was concluded in the 1993 appropriation, so additional funding is not required for this activity. Public broadcasting plays a vital role in the educational and cultural development of our Nation. The proposed funding level will allow the Corporation to maintain quality public service programming and to meet the needs of American public telecommunications. The table below illustrates the 1994-1997 funding levels for the Corporation for Public Broadcasting:

The Veterans Judicial Review Act, 38 U.S.C. §§ 7251-7292 (1988) established the United States Court of Veterans Appeals under Article I of the United States Constitution. The Court is empowered to review decisions of the Board of Veterans' Appeals and may affirm, modify, revise or remand a decision of the Board of Veterans' Appeals as appropriate. The type of review performed by the Court is similar to that which is performed in Article III courts under the Administrative Procedures Act, title 5 U.S.C. §§ 551 et seq. In actions before it, the Court has the authority to decide all relevant questions of law, interpret constitutional, statutory and regulatory provisions, and to determine the meaning or applicability of the terms of an action by the Secretary of the Department of Veterans Affairs. The Court, being created by an act of Congress, may issue all writs necessary or appropriate in aid of its jurisdiction, 28 U.S.C. § 1651.

The Court is empowered to: compel actions of the Secretary that are found to have been unlawfully withheld or unreasonably delayed; set aside decisions, findings, conclusions, rules and regulations issued or adopted by the Secretary, the Board of Veterans' Appeals, or the Chairman of the Board that are found to be arbitrary or capricious, an abuse of discretion or otherwise not in accordance with the law, contrary to constitutional right, in excess of statutory jurisdiction or authority, or without observance of the procedures required by law. In cases involving benefits under the laws administered by the Department, the Court may hold unlawful or set aside findings of material facts if the findings are clearly erroneous.

The Court's principal office location is Washington, D.C.; however, it is a national court, empowered to sit anywhere in the United States.

The annual Federal payment to the Government of the District of Columbia compensates the District for the net costs imposed by the presence of the Federal Government in Washington, D.C. While the Federal presence may actually add more to District revenues than it does to operating costs (since local income, property and sales tax receipts are highly dependent on Federal employment in the city), a lump-sum, unrestricted Federal payment is provided to the District Government each year to help fund local budgetary expenditures. A \$670 million Federal payment is proposed for 1995.

This appropriation also includes a contribution of \$52.1 million which represents the Federal share of payments to District of Columbia retirement funds for police officers, fire fighters, teachers and judges.

The following sections from the District of Columbia Supplemental Appropriations and Rescissions Act, 1993, are proposed for deletion:

- Sec. 201 Repeals section 114 of the District of Columbia Appropriations Act, 1993.
- Sec. 202 Amends section 134(a)(1) of the District of Columbia Appropriations Act, 1993, to permit the Council to accept gifts without the Mayor's approval.
- Sec. 203 Makes appropriated monies provided by the Act available for the fiscal year ending September 30, 1993.

SEC. 101. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 102. Except as otherwise provided in this Act, all vouchers covering expenditures of appropriations contained in this Act shall be audited before payment by the designated certifying official and the vouchers as approved shall be paid by checks issued by the designated disbursing official.

SEC. 103. Whenever in this Act, an amount is specified within an appropriation for particular purposes or objects of expenditure, such amount, unless otherwise specified, shall be considered as the maximum amount that may be expended for said purpose or object rather than an amount set apart exclusively therefor.

SEC. 104. Appropriations in this Act shall be available, when authorized by the Mayor, for allowances for privately-owned automobiles and motorcycles used for the performance of official duties at rates established by the Mayor: *Provided*, That such rates shall not exceed the maximum prevailing rates for such vehicles as prescribed in the Federal Property Management Regulations 101-7 (Federal Travel Regulations).

SEC. 105. Appropriations in this Act shall be available for expenses of travel and for the payment of dues of organizations concerned with the work of the District of Columbia government, when authorized by the Mayor: *Provided*, That the Council of the District of Columbia and the District of Columbia Courts may expend such funds without authorization by the Mayor.

SEC. 106. There are appropriated from the applicable funds of the District of Columbia such sums as may be necessary for making refunds and for the payment of judgments that have been entered against the District of Columbia government: *Provided*, That nothing contained in this section shall be construed as modifying or affecting the provisions of section 11(c)(3) of title XII of the District of Columbia Income and Franchise Tax Act of 1947, approved March 31, 1956 (70 Stat. 78; Public Law 84-460; D.C. Code, sec. 47-1812.11(c)(3)).

SEC. 107. Appropriations in this Act shall be available for the payment of public assistance without reference to the requirement of section 544 of the District of Columbia Public Assistance Act of 1982, effective April 6, 1982 (D.C. Law 4-101; D.C. Code, sec. 3-205.44), and for the non-Federal share of funds necessary to qualify for Federal assistance under the Juvenile Delinquency Prevention and Control Act of 1968, approved July 31, 1968 (82 Stat. 462; Public Law 90-445; 42 U.S.C. 3801 et seq.).

SEC. 108. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 109. No funds appropriated in this Act for the District of Columbia government for the operation of educational institutions, the compensation of personnel, or for other educational purposes may be used to permit, encourage, facilitate, or further partisan political activities. Nothing herein is intended to prohibit the availability of school buildings for the use of any community or partisan political group during non-school hours.

SEC. 110. The annual budget for the District of Columbia government for the fiscal year ending September 30, [1995] 1996, shall be transmitted to the Congress no later than April 15, [1994] 1995.

SEC. 111. None of the funds appropriated in this Act shall be made available to pay the salary of any employee of the District of Columbia government whose name, title, grade, salary, past work experience, and salary history are not available for inspection by the House and Senate Committees on Appropriations, the House Committee on the District of Columbia, the Subcommittee on General

Services, Federalism, and the District of Columbia of the Senate Committee on Governmental Affairs, and the Council of the District of Columbia, or their duly authorized representative: *Provided*, That none of the funds contained in this Act shall be made available to pay the salary of any employee of the District of Columbia government whose name and salary are not available for public inspection.

SEC. 112. There are appropriated from the applicable funds of the District of Columbia such sums as may be necessary for making payments authorized by the District of Columbia Revenue Recovery Act of 1977, effective September 23, 1977 (D.C. Law 2-20; D.C. Code, sec. 47-421 et seq.).

SEC. 113. No part of this appropriation shall be used for publicity or propaganda purposes or implementation of any policy including boycott designed to support or defeat legislation pending before Congress or any State legislature.

SEC. 114. At the start of the fiscal year, the Mayor shall develop an annual plan, by quarter and by project, for capital outlay borrowings: *Provided*, That within a reasonable time after the close of each quarter, the Mayor shall report to the Council of the District of Columbia and the Congress the actual borrowing and spending progress compared with projections.

SEC. 115. The Mayor shall not borrow any funds for capital projects unless the Mayor has obtained prior approval from the Council of the District of Columbia, by resolution, identifying the projects and amounts to be financed with such borrowings.

SEC. 116. The Mayor shall not expend any moneys borrowed for capital projects for the operating expenses of the District of Columbia government.

SEC. 117. None of the funds appropriated by this Act may be obligated or expended by reprogramming except pursuant to advance [approval] notice of the reprogramming [granted according to the procedure set forth in the Joint Explanatory Statement of the Committee of Conference (House Report No. 96-443), which accompanied the District of Columbia Appropriation Act, 1980, approved October 30, 1979 (93 Stat. 713; Public Law 96-93), as modified in House Report No. 98-265,] transmitted to the House and Senate Committees on Appropriations, and in accordance with the Reprogramming Policy Act of 1980, effective September 16, 1980 (D.C. Law 3-100; D.C. Code, sec. 47-361 et seq.).

SEC. 118. None of the Federal funds provided in this Act shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of the District of Columbia.

SEC. 119. None of the Federal funds provided in this Act shall be obligated or expended to procure passenger automobiles as defined in the Automobile Fuel Efficiency Act of 1980, approved October 10, 1980 (94 Stat. 1824; Public Law 96-425; 15 U.S.C. 2001(2)), with an Environmental Protection Agency estimated miles per gallon average of less than 22 miles per gallon: *Provided*, That this section shall not apply to security, emergency rescue, or armored vehicles.

SEC. 120. (a) Notwithstanding section 422(7) of the District of Columbia Self-Government and Governmental Reorganization Act of 1973, approved December 24, 1973 (87 Stat. 790; Public Law 93-198; D.C. Code, sec. 1-242(7)), the City Administrator shall be paid, during any fiscal year, a salary at a rate established by the Mayor, not to exceed the rate established for level IV of the Executive Schedule under 5 U.S.C. 5315.

(b) For purposes of applying any provision of law limiting the availability of funds for payment of salary or pay in any fiscal year, the highest rate of pay established by the Mayor under subsection (a) of this section for any position for any period during the last quarter of calendar year [1993] 1994 shall be deemed to be the rate of pay payable for that position for September 30, [1993] 1994.

(c) Notwithstanding section 4(a) of the District of Columbia Redevelopment Act of 1945, approved August 2, 1946 (60 Stat. 793; Public Law 79-592; D.C. Code, sec. 5-803(a)), the Board of Directors of the District of Columbia Redevelopment Land Agency shall be paid, during any fiscal year, per diem compensation at a rate established by the Mayor.

SEC. 121. Notwithstanding any other provisions of law, the provisions of the District of Columbia Government Comprehensive Merit Personnel Act of 1978, effective March 3, 1979 (D.C. Law 2-139; D.C. Code, sec. 1-601.1 et seq.), enacted pursuant to section 422(3) of the District of Columbia Self-Government and Governmental Reorganization Act of 1973, approved December 24, 1973 (87 Stat. 790; Public Law 93-198; D.C. Code, sec. 1-242(3)), shall apply with respect to the compensation of District of Columbia employees: *Provided*, That for pay purposes, employees of the District of Columbia govern-

ment shall not be subject to the provisions of title 5 of the United States Code.

SEC. 122. The Director of the Department of Administrative Services may pay rentals and repair, alter, and improve rented premises, without regard to the provisions of section 322 of the Economy Act of 1932 (Public Law 72-212; 40 U.S.C. 278a), upon a determination by the Director, that by reason of circumstances set forth in such determination, the payment of these rents and the execution of this work, without reference to the limitations of section 322, is advantageous to the District in terms of economy, efficiency, and the District's best interest.

SEC. 123. No later than 30 days after the end of the first quarter of the fiscal year ending September 30, [1994] 1995, the Mayor of the District of Columbia shall submit to the Council of the District of Columbia the new fiscal year [1994] 1995 revenue estimates as of the end of the first quarter of fiscal year [1994] 1995. These estimates shall be used in the budget request for the fiscal year ending September 30, [1995] 1996. The officially revised estimates at midyear shall be used for the midyear report.

SEC. 124. Section 466(b) of the District of Columbia Self-Government and Governmental Reorganization Act of 1973, approved December 24, 1973 (87 Stat. 806; Public Law 93-198; D.C. Code, sec. 47-326), as amended, is amended by striking "sold before October 1, [1993] 1994" and inserting "sold before October 1, [1994] 1995".

SEC. 125. No sole source contract with the District of Columbia government or any agency thereof may be renewed or extended without opening that contract to the competitive bidding process as set forth in section 303 of the District of Columbia Procurement Practices Act of 1985, effective February 21, 1986 (D.C. Law 6-85; D.C. Code, sec. 1-1183.3), except that the District of Columbia Public Schools may renew or extend sole source contracts for which competition is not feasible or practical, provided that the determination as to whether to invoke the competitive bidding process has been made in accordance with duly promulgated Board of Education rules and procedures.

SEC. 126. For purposes of the Balanced Budget and Emergency Deficit Control Act of 1985, approved December 12, 1985 (99 Stat. 1037; Public Law 99-177), as amended, the term "program, project, and activity" shall be synonymous with and refer specifically to each account appropriating Federal funds in this Act, and any sequestration order shall be applied to each of the accounts rather than to the aggregate total of those accounts: *Provided*, That sequestration orders shall not be applied to any account that is specifically exempted from sequestration by the Balanced Budget and Emergency Deficit Control Act of 1985, approved December 12, 1985 (99 Stat. 1037; Public Law 99-177), as amended.

SEC. 127. In the event a sequestration order is issued pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985, approved December 12, 1985 (99 Stat. 1037; Public Law 99-177), as amended, after the amounts appropriated to the District of Columbia for the fiscal year involved have been paid to the District of Columbia, the Mayor of the District of Columbia shall pay to the Secretary of the Treasury, within 15 days after receipt of a request therefor from the Secretary of the Treasury, such amounts as are sequestered by the order: *Provided*, That the sequestration percentage specified in the order shall be applied proportionately to each of the Federal appropriation accounts in this Act that are not specifically exempted from sequestration by the Balanced Budget and Emergency Deficit Control Act of 1985, approved December 12, 1985 (99 Stat. 1037; Public Law 99-177), as amended.

SEC. 128. Sec. 133(e) of the District of Columbia Appropriations Act, 1990, as amended, is amended by striking "December 31, [1993] 1994" and inserting "December 31, [1994] 1995".

SEC. 129. For the fiscal year ending September 30, [1994] 1995, the District of Columbia shall pay interest on its quarterly payments to the United States that are made more than 60 days from the date of receipt of an itemized statement from the Federal Bureau of Prisons of amounts due for housing District of Columbia convicts in Federal penitentiaries for the preceding quarter.

SEC. 130. Nothing in this Act shall be construed to authorize any office, agency or entity to expend funds for programs or functions for which a reorganization plan is required but has not been approved by the Council pursuant to section 422(12) of the District of Columbia Self-Government and Governmental Reorganization Act of 1973, approved December 24, 1973 (87 Stat. 790; Public Law 93-198; D.C. Code, sec. 1-242(12)) and the Governmental Reorganization Procedures Act of 1981, effective October 17, 1981 (D.C. Law 4-42; D.C. Code, secs. 1-299.1 to 1-299.7). Appropriations made by this Act

for such programs or functions are conditioned on the approval by the Council, prior to October 1, [1993] 1994, of the required reorganization plans.

SEC. 131. (a) An entity of the District of Columbia government may accept and use a gift or donation during fiscal year [1994] 1995 if—

(1) the Mayor approves the acceptance and use of the gift or donation: *Provided*, That the Council of the District of Columbia may accept and use gifts without prior approval by the Mayor; and

(2) the entity uses the gift or donation to carry out its authorized functions or duties.

(b) Each entity of the District of Columbia government shall keep accurate and detailed records of the acceptance and use of any gift or donation under subsection (a) of this section, and shall make such records available for audit and public inspection.

(c) For the purposes of this section, the term "entity of the District of Columbia government" includes an independent agency of the District of Columbia.

(d) This section shall not apply to the District of Columbia Board of Education, which may, pursuant to the laws and regulations of the District of Columbia, accept and use gifts to the public schools without prior approval by the Mayor.

SEC. [136] 132. None of the Federal funds provided in this Act may be used by the District of Columbia to provide for salaries, expenses, or other costs associated with the offices of United States Senator or United States Representatives under section 4(d) of the District of Columbia Statehood Constitutional Convention Initiatives of 1979, effective March 10, 1981 (D.C. Law 3-171; D.C. Code, sec. 1-113(d)). (*District of Columbia Appropriations Act, 1994.*)

The Equal Employment Opportunity Commission (EEOC) is the Federal agency responsible for enforcement of the Age Discrimination in Employment Act of 1967; title VII of the Civil Rights Act of 1964, as amended; the Equal Pay Act of 1963; and, in the Federal sector only, section 501 of the Rehabilitation Act of 1963. These acts prohibit employment discrimination based on race, sex, religion, national origin, age, or handicap status. The EEOC is also responsible for carrying out Executive Order 12067, which promotes coordination and minimizes conflict and duplication among Federal agencies that administer statutes or regulations involving employment discrimination.

EEOC is charged with ensuring compliance with the Americans with Disabilities Act including: development of substantive regulations; development and implementation of a plan (Technical Assistance), in coordination with the Attorney General, to assist all entities covered under this Act (approximately 666,000 employers) and other Federal agencies in understanding their responsibilities under this Act; issuance of appropriate technical manuals to individuals or entities with rights or duties under the Act; investigation of charges of discrimination filed under the ADA; and subsequent actions (e.g., conciliation, litigation) to ensure full remedy if violation of law has occurred. ADA requirements became effective on July 26, 1992, for employers with 25 or more employees and will be effective on July 26, 1994, for employers with 15-24 employees.

The Civil Rights Act of 1991 requires that the EEOC carry out educational and outreach activities and establish a Technical Assistance Training Institute. The Technical Assistance Institute will be used to provide technical assistance and training to covered entities concerning the laws EEOC enforces. EEOC's educational and outreach activities are aimed at those individuals who have been victims of discrimination. The EEOC, in carrying out its responsibilities under this Act, is developing guidance and revising existing regulations and policies to conform to the requirements of the Civil Rights Act of 1991.

EXPORT-IMPORT BANK LOANS PROGRAM ACCOUNT

The Export-Import Bank of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 104 of the Government Corporation Control Act, as may be necessary in carrying out the program for the current fiscal year for such corporation: *Provided*, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country other than a nuclear-weapon State as defined in Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act that has detonated a nuclear explosive after the date of enactment of this Act.

[SUBSIDY APPROPRIATION]

For the cost of direct loans, loan guarantees, insurance, and tied-aid grants as authorized by section 10 of the Export-Import Bank Act of 1945, as amended, **[\$1,000,000,000] \$800,000,000** to remain available until September 30, [1995:] 1996, of which **\$100,000,000** is available only for the cost of tied-aid grants: *Provided*, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: *Provided further*, That such sums shall remain available until [2009] 2010 for the disbursement of direct loans, loan guarantees, insurance and tied-aid grants obligated in fiscal years [1994 and 1995: *Provided further*, That up to \$50,000,000 of funds appropriated by this paragraph shall remain available until expended and may be used for tied-aid grant purposes] 1995 and 1996: *Provided further*, That none

of the funds appropriated by this paragraph may be used for tied-aid credits or grants except through the regular notification procedures of the Committees on Appropriations: *Provided further*, That funds appropriated by this paragraph are made available notwithstanding section 2(b)(2) of the Export-Import Bank Act of 1945, in connection with the purchase or lease of any product by any East European country, any Baltic State, or any agency or national thereof.

[ADMINISTRATIVE EXPENSES]

For administrative expenses to carry out the direct and guaranteed loan and insurance programs (to be computed on an accrual basis), including hire of passenger motor vehicles and services as authorized by 5 U.S.C. 3109, and not to exceed \$20,000 for official reception and representation expenses for members of the Board of Directors, \$45,369,000: *Provided*, That necessary expenses (including special services performed on a contract or fee basis, but not including other personal services) in connection with the collection of moneys owed the Export-Import Bank, repossession or sale of pledged collateral or other assets acquired by the Export-Import Bank in satisfaction of moneys owed the Export-Import Bank, or the investigation or appraisal of any property, or the evaluation of the legal or technical aspects of any transaction for which an application for a loan, guarantee or insurance commitment has been made, shall be considered nonadministrative expenses for the purposes of this heading. The purpose of the Export-Import Bank (Eximbank) is to aid in financing and promoting U.S. exports. To accomplish its objectives, the Bank's authority and resources are used to: assume commercial and political risks that exporters or private institutions are unwilling or unable to undertake; overcome maturity and other limitations in private sector export financing; assist U.S. exporters to meet foreign officially sponsored export credit competition; and provide leadership and guidance in export financing to the U.S. exporting and banking communities and to foreign borrowers. The Bank provides its export credit support through direct loan, loan guarantee and insurance programs. The Bank is actively assisting small- and medium-sized businesses.

As required by the Federal Credit Reform Act of 1990, this account records, for Eximbank, the subsidy costs associated with direct loans and direct grants obligated, and loan guarantees and insurance committed in 1992 and beyond, as well as administrative expenses. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on an accrual basis.

Operating results and financial condition.—The Bank is a wholly owned Government corporation. Capital stock of \$1 billion was purchased by the U.S. Treasury. In addition, the Bank is authorized to borrow from the Treasury up to \$6 billion. The Bank pays interest on such borrowings.

The Bank has a Reserve for Possible Credit Losses, which provides for the risk of loss inherent in the lending process. This reserve is a general reserve, available to absorb credit losses related to the total loan portfolio. The reserve is increased by provisions charged to expenses and decreased by charge-offs, net of recoveries.

The Provision for Possible Credit Losses is based on the Bank's evaluation of the adequacy of the Reserve, taking into consideration a variety of factors, including repayment status of loans, future risk factors, the relationship of the Reserve to the portfolio, and worldwide economic conditions. Providing for such possible losses does not imply that any loans will be written off. It simply recognizes the fact that the prospects for collection of some of the Bank's loans are impaired. It does not provide for losses on a country-by-country basis and is intended only to provide an overall revaluation of the loan portfolio.

The Bank's net operating loss is estimated to be \$75 million in 1994, compared with a loss of \$161 million in 1993 and an operating loss of \$720 million in 1992. Total Government equity in the corporation is estimated to be negative \$433 million on September 30, 1994.

The Farm Credit Administration (FCA) is an independent Federal agency that examines and regulates the Farm Credit System for safety and soundness. The Farm Credit System is a cooperative agricultural credit system of farm credit banks and associations that lends to farmers, ranchers, and their cooperatives. Beginning in 1990, the FCA also performs annual examinations of the Federal Agriculture Mortgage Corporation.

The Farm Credit System is comprised of 9 Farm Credit Banks, the National Bank for Cooperatives, 2 regional banks for cooperatives, and approximately 238 associations and other institutions and service corporations.

Assessments based upon estimated administrative expenses are collected from institutions in the Farm Credit System and the Federal Agricultural Mortgage Corporation and are available for administrative expenses. Obligations are incurred within fiscal year budgets approved by the Farm Credit Administration Board and limitations set in annual appropriations acts.

The Assistance Board was created by the Agricultural Credit Act of 1987 and was Federally chartered in January 1988. Authority for the Board expired in December 1992, after authority for the Farm Credit System Financial Assistance Corporation to issue debt expired. The Assistance Board was responsible for certifying system institutions to receive assistance under authorized circumstances. Some Assistance Board authorities were transferred to the Farm Credit Insurance Corporation. Administrative costs of the Board were paid through the Farm Credit System Financial Assistance Fund.

The Farm Credit System Financial Assistance Corporation (FAC) was created by the Agricultural Credit Act of 1987 to provide funds to Farm Credit System institutions experiencing financial difficulties. The FAC was re-classified from a Government-sponsored enterprise to a federal entity beginning in FY 1993, when most of the private capital in FAC, provided by the Farm Credit System, was rebated from the FAC Trust Fund, pursuant to the 1989 Reconciliation and Agriculture Appropriations Acts. Authority for FAC to issue obligations and provide assistance expired in 1992, after \$1.26 billion in FAC debt had been issued.

Except for debt issued for Capital Preservation cash-outs, the U.S. Treasury pays all the interest on 15-year, uncollateralized FAC obligations in the first five years, and half the interest in the second five years. The Farm Credit System is required to eventually reimburse Treasury for these payments, and will redeem FAC debt upon maturity or call. In 1992, legislation was enacted that accelerated the repayment by system institutions of certain FAC obligations, and system institutions are voluntarily making advance repayments of capital infusions from FAC.

Proceeds of FAC debt issuances were paid into, and amounts for assistance and other expenses were paid from, the FAC Assistance Fund. The FAC Trust Fund holds and rebates the private capital contributed by the Farm Credit System. Remaining amounts in the Trust Fund are available to cover System defaults on FAC principal and interest payments.

The Farm Credit System Insurance Corporation was established to ensure the timely payment of principal and interest on Farm Credit System obligations. Its Board of Directors is the Farm Credit Administration Board. The Insurance Corporation began operation in January 1989, at which time amounts then in the on-budget Farm Credit revolving fund were transferred to it. Beginning in January 1991, the Insurance Corporation began collecting insurance premiums charged to insured System banks, which amounts are based on the level of accruing and non-accruing loans in each bank's loan portfolio. Public Law 101-220 reduced insurance premiums charged on Federal- and State-guaranteed loans originated by Farm Credit System institutions. Annual premium collections will continue until the reserve fund equals 2 percent of outstanding System obligations, or an amount determined by its Board of Directors to be actuarially sound to maintain in the Fund, taking into account the risk of insuring outstanding insured obligations of the System.

Beginning in January 1993, the Insurance Corporation fund became available for payment on System obligations if an insured System bank defaults on its primary liability. Also, the Insurance Corporation can exercise its authority to make loans, purchase System bank assets or securities, provide other financial assistance, and otherwise act to reduce the exposure of the Corporation to losses. The Insurance Fund also is available to ensure the retirement of certain eligible borrower stock and pay the operating cost of the corporation and the principal and interest on debt issued by the Farm Credit System Financial Assistance Corporation upon payment default by System institutions after amounts in the Financial Assistance Corporation Trust Fund are exhausted.

FEDERAL BANKING COMMISSION

The Administration will propose to merge the Office of the Comptroller of the Currency and the Office of Thrift Supervision, as well as the supervisory components of the Federal Deposit Insurance Corporation and the Federal Reserve, into a new regulator, the Federal Banking Commission. Under this proposal, the Federal Reserve would continue to conduct monetary policy, payments system, and systemic risk-related activities. The Federal Deposit Insurance Corporation would also maintain its primary functions as the Federal deposit insurance and asset liquidation agency. This proposal would reduce unnecessary duplication of bank supervision and examinations by multiple regulators. The Administration assumes that the Commission will be operational in FY 1996.

FEDERAL DEPOSIT INSURANCE CORPORATION

The Federal Deposit Insurance Corporation was created by the Banking Act of 1933 to provide protection for bank depositors and to foster sound banking practices. The Financial Institutions Reform Recovery and Enforcement Act (FIRREA) of 1989 established the Bank Insurance Fund (BIF), the Savings Association Insurance Fund (SAIF), and the FSLIC Resolution Fund (FRF). The Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) authorizes the Corporation to borrow up to \$30 billion from the Treasury to cover its deposit insurance losses and provides additional borrowing authority for working capital purposes. The FDICIA generally requires the Corporation to use the least costly method of resolving failed banks and mandates that the Corporation take prompt corrective action against undercapitalized financial institutions.

The deposit insurance ceiling protection has been \$100,000 since March 31, 1980. In order to accomplish its varied functions to protect depositors, the Corporation is authorized to promulgate and enforce rules and regulations relating to the supervision of insured institutions and to perform other regulatory and supervisory duties consistent with its responsibilities as insurer. The Corporation is required to set assessment rates for insured financial institutions semi-annually to build the reserves of the BIF and SAIF to a minimum of 1.25 percent of total insured deposits.

The Bank Insurance Fund (BIF), a public enterprise revolving fund, derives its income principally from insurance assessments paid by insured banks. As of September 30, 1993, the deposit insurance fund amounted to \$14.5 billion, excluding reserves for future failed bank resolutions. The fund represents the accumulated net income of the BIF and is reserved for the protection of depositors in insured banks and for payment of administrative and insurance expenses.

These statements are based upon a level of bank failures and associated resolution costs that remain high by historical standards but significantly reduced from prior year estimates. The Federal Deposit Insurance Corporation Improvement Act of 1991 authorizes the FDIC to borrow up to \$30 billion from the Treasury to cover deposit insurance losses and provides additional loans from the Federal Financing Bank for working capital purposes. The BIF is not expected to borrow any of the \$30 billion line of credit from the Treasury or from the Federal Financing Bank to finance working capital needs.

The Savings Association Insurance Fund insures depository institutions formerly insured by the Federal Savings and Loan Insurance Corporation. Starting in 1993, SAIF receives assessments paid by its members.

Beginning no later than July 1995, SAIF will be appointed conservator or receiver of failed thrifts. The Resolution Trust Corporation also will continue to resolve cases for which RTC is appointed conservator or receiver prior to that time. For presentation purposes, the 1995 Budget assumes RTC will handle all 1995 resolutions.

The RTC Completion Act of 1993 authorizes up to \$8 billion be available to cover thrift insurance losses if the Chairperson

of the FDIC certifies that losses cannot be paid through higher insurance premiums.

The FSLIC Resolution Fund (FRF) is the successor to FSLIC assets and liabilities from resolved cases. Beginning in August 1989, the Resolution Trust Corporation (RTC) assumed responsibility for the FSLIC's unresolved cases.

Funds for FRF operations come from: income earned on its assets; liquidation proceeds from receiverships established prior to January 1, 1989; the proceeds of the sale of bonds by the Financing Corporation; and a portion of insurance premiums paid by SAIF members. The Act authorizes appropriations to make up any shortfall. FRF will terminate upon the disposition of all its assets, and any net proceeds would be paid to the Treasury.

Office of the Inspector General activities include audits and investigations, and the prevention and detection of fraud, waste, and mismanagement in the disposition of failed banking institutions' assets by the Federal Deposit Insurance Corporation. The Resolution Trust Corporation Completion Act of 1993 requires a Presidentially appointed Inspector General. Separately, the Office of Inspector General Act of 1978 requires each agency with a Presidentially appointed Inspector General to prepare a separate budget statement. Prior to the RTC Completion Act, the FDIC's Inspector General was an administrative position established by the FDIC Board.

FDIC AFFORDABLE HOUSING AND BANK ENTERPRISE

FDIC AFFORDABLE HOUSING PROGRAM

For the affordable housing program of the Federal Deposit Insurance Corporation under section 40 of the Federal Deposit Insurance Act (12 U.S.C. 1831q), [\$7,000,000] \$15,000,000 to pay for any losses resulting from the sale of properties under the program, and for all administrative and holding costs associated with operating the program.

Notwithstanding any provisions of section 40 of the Federal Deposit Insurance Act or any other provision of law, the Federal Deposit Insurance Corporation shall be deemed in compliance with such section if, in its sole discretion, the Corporation at any time modifies, amends or waives any provisions of such section in order to maximize the efficient use of the available appropriated funds. The Corporation shall not be subject to suit for its failure to comply with the requirements of this provision or section 40 of the Federal Deposit Insurance Act. Section 40 of the Federal Deposit Insurance Act authorizes FDIC to carry out an affordable housing program. Under the program, single and multifamily properties in FDIC's inventory that are appraised below a certain threshold are held off the general market for a special marketing period. During that period, only low-income families and individuals, and public agencies and nonprofit organizations that agree to low-income rent restrictions are allowed to bid on the properties. At the end of FY 1993, the FDIC had sold 980 single family properties for a total of \$42 million and one multifamily property for a total of \$650 thousand. The proposed \$15 million for FY 1995, will allow the FDIC to begin a more comprehensive multifamily sales program.

Federal disaster assistance is a nationwide program operated pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Public Law 100-707). Supplementary assistance is provided to individuals, and State and local governments, in the event of a Presidentially declared emergency or major disaster. Funds may be made available directly to a State or local government, or to other Federal agencies as reimbursement of expenditures in disaster relief work performed under this authority. In addition, a variety of other Federal agency assistance is coordinated under this program.

Responses and recovery.—The Response and Recovery activity provides for the development and maintenance of an integrated operational capability to respond to and recover from the consequences of a disaster, regardless of its cause, in partnership with other Federal agencies, State and local governments, volunteer organizations, and the private sector.

Preparedness, training and exercises.—This activity provides policy guidance, financial and technical assistance, training, and exercise support required to establish or enhance the emergency management capabilities of Federal, State and local governments.

Fire prevention and training.—This activity prepares Federal, State and local officials, their staffs, emergency first responders, volunteer groups, and the public to meet the responsibilities of domestic emergencies through planning, mitigation, preparedness, response and recovery. The United States Fire Administration has responsibility for all fire and emergency medical service programs and training activities. Educational programs are provided through the National Fire Academy (NFA), at the National Emergency Training Center and through the field fire training delivery systems.

Operations support.—The Operations Support activity provides direct support and services which address the common needs of all agency programs, such as administration, acquisition, logistics, information systems, security, and specialized capabilities and integration of the FEMA-wide networks.

Mitigation programs.—This activity provides for the development, coordination and implementation of policies, plans and programs to eliminate or reduce the long-term risk to life and property from natural and technological hazards, such as floods, earthquakes, hurricanes and dam failures. A goal of this activity is to encourage and foster mitigation strategies at the State and local levels.

Executive direction.—This activity maintains a family protection program, utilizing private sector and volunteer organizations to encourage and assist families and neighborhoods to take actions to increase their emergency preparedness capabilities; develops strategies to address public information issues; evaluates FEMA programs; and provides support for enhancements to the financial management system.

This appropriation provides agencywide audit and investigative functions to identify and correct management and administrative deficiencies which create conditions for existing or potential instances of fraud, waste and mismanagement. The audits function provides internal audit, contract audit, and inspections services. Contract audits provide professional advice to agency contracting officials on accounting and financial matters relative to the negotiation, award, administration, repricing, and settlement of contracts. Internal audits review and evaluate all facets of agency operations. Inspections services provide detailed technical evaluations of agency operations. The investigative function provides for the detection and investigation of improper and illegal activities involving agency programs, personnel, and operations.

The National Insurance Development Fund provided the funding source for two programs authorized by the Urban Property Protection and Reinsurance Act of 1968, as amended: (1) The FAIR (Fair Access to Insurance Requirements) Plan/Riot Reinsurance Program, and (2) the Federal Crime Insurance Program. The Supplemental Appropriations Act, 1984 (Public Law 98-181) did not extend authority for the Riot Reinsurance Program beyond November 30, 1983. The Federal Crime Insurance Program has been extended until

September 30, 1995. The budget estimates assume there will be no new policies issued subsequent to that date. However, there will be operating expenses associated with unexpired policies and the close-out of contractor activities.

Insurance claims.—Claims reflect insurance payments in the program.

Operating expenses.—Expenses are incurred by fiscal agents in issuing policies, settling claims, and maintaining accounting and statistical records.

Administrative expenses.—This represents the administrative cost of operating the programs.

Interest expense.—This represents interest on Treasury borrowings needed to defray underwriting and loss expenses of the crime insurance program.

Financing.—Claims and expenses are estimated to be paid from premium income and Treasury borrowings. Premiums are projected to increase by fifteen percent annually in order to reduce losses.

Operating results.—Effective October 1, 1991, Public Law 102-139 forgave all prior borrowings of the program which amounted to \$152,239,000.

The National Flood Insurance Act of 1968, as amended, authorizes the Federal Government to provide flood insurance

on a national basis. Flood insurance may be sold or continued in force only in communities which enact and enforce appropriate flood plain management measures. Communities must participate in the program within one year of the time they are identified as flood prone in order to be eligible for flood insurance and some forms of Federal financial assistance for acquisition or construction purposes. In 1995, the budget assumes collection of all of the administrative and program costs associated with flood insurance activities from policy holders.

Under the emergency program, structures in identified flood-prone areas are eligible for limited amounts of coverage at subsidized insurance rates. Under the regular program, studies must be made of different flood risks in flood-prone areas to establish actuarial premium rates. These rates are charged for insurance on new construction. Coverage is available on virtually all types of buildings and their contents in amounts up to \$245 thousand for residential and \$550 thousand for other types.

Significant indicators of program size are as follows:

	1993 actual	1994 est.	1995 est.
Policies in force	2,725,111	2,806,864	2,891,070
Insurance in force (billions of dollars)	254	270	286

Budget program—Insurance underwriting expense.—Cost of initiating and maintaining flood insurance policies is estimated at \$285,641 thousand in 1995.

Loss and adjustment expense.—Insured flood losses and associated loss adjustment expense is estimated at \$461,696 thousand in 1995.

Interest expense.—Interest expenses for Treasury borrowings are projected; a ceiling of \$12,000,000 is requested to cover charges for purchasing Treasury securities and possible unanticipated interest costs.

The budget proposes to recover the cost of the following activities from policyholders and to reimburse other appropriations in FEMA's budget:

Flood studies and surveys.—These studies are estimated at \$37,102 thousand in 1995.

Flood hazard reduction.—This activity, which includes grants to States is estimated at \$6,270 thousand in 1995.

Purchase of property.—This activity is estimated at \$4,720 thousand for 1995.

Salaries and expenses.—This activity provides for salaries and related expenses of all Federal staff administering the National Flood Insurance Program and is estimated at \$14,359 thousand in 1995.

Financing.—The Administrator is authorized to borrow up to \$1 billion to carry out the program. The program is financed through premium income and appropriations to repay borrowing.

Operating results.—The program achieved its goal of becoming self-supporting for the average loss year. Flood insurance rates will be closely monitored and adjusted as necessary so that the program maintains its self-supporting status and continues to cover the cost of salaries and expenses and program activities for flood insurance and mitigation.

Disaster Assistance loans authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Public Law 100-707), consist of (a) loans to States of the non-Federal portion of cost-sharing funds; and (b) community disaster loans, which are loans to local governments incurring sub-

stantial loss of tax and other revenues as a result of a major disaster. The funds requested for this program include direct loans and a subsidy based on criteria including loan amount and interest charged.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Director of FEMA is authorized to accept, hold, administer, and utilize gifts and bequests of property, both real

and personal, for the purpose of aiding or facilitating the work of the Federal Emergency Management Agency. Property and the proceeds thereof are used as nearly as possible in accordance with the terms of the gift or bequest.

ADMINISTRATIVE PROVISION

The Director of the Federal Emergency Management Agency shall promulgate through rulemaking a [schedule] methodology for assessment and collection of fees to be assessed and collected beginning in fiscal year 1995 and in each fiscal year thereafter, applicable to persons subject to the Federal Emergency Management Agency's radiological emergency preparedness regulations. The aggregate charges assessed pursuant to this section [during fiscal year 1994] in a fiscal year shall approximate[, but not be less than,] 100 per centum of the amounts anticipated by the Federal Emergency Management Agency to be obligated for its radiological emergency preparedness program for such fiscal year. The [schedule] methodology for assessment and collection of fees shall be fair and equitable, and shall reflect the full amount of [direct and indirect] costs [incurred through the provision of regulatory services] of providing radiological emergency planning, preparedness, response and associated services. Such fees will be assessed in a manner that reflects the use of agency resources [for classes of regulated persons and the administrative costs of collecting such fees]. Fees received pursuant to this section shall be deposited in the general fund of the Treasury as offsetting receipts. [Assessment and collection of such fees are only authorized during fiscal year 1994.] (Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1994.)

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (Title XI of Public Law 101-73, August 9, 1989) established the Appraisal Subcommittee of the Federal Financial Institutions Examination Council. Subsequent legislation (Public Law 101-235) authorized the Secretary of the Department of Housing and Urban Development to designate a representative to be a member of the Appraisal Subcommittee.

The Subcommittee is charged with ensuring that real estate appraisals used in federally related transactions are performed in accordance with uniform standards by appraisers certified and licensed by the States. Its responsibilities include the following: (1) monitoring the requirements established by the States for the certification and licensing of appraisers; (2) monitoring the requirements established by the Federal financial institutions regulatory agencies and the Resolution Trust Corporation with respect to appraisal standards for Federally related transactions; (3) monitoring and reviewing the practices, procedures, activities, and organization of the Appraisal Foundation; and (4) maintaining a national registry of licensed and certified appraisers.

The Federal Housing Finance Board (Finance Board), an independent executive agency, was established by the Finan-

Public enterprise funds—Continued

FEDERAL HOUSING FINANCE BOARD—Continued

cial Institutions Reform, Recovery, and Enforcement Act of 1989 which amended the Federal Home Loan Bank Act. The duties of the Finance Board are: (1) to ensure that the twelve Federal Home Loan Banks (Banks) operate in a safe and sound manner, (2) to supervise all lending and related operations of the Banks, (3) to ensure that the Banks fulfill their mission to the housing finance industry, (4) to ensure that the Banks remain adequately capitalized, and (5) to ensure that the Banks are able to raise funds in the capital markets. The Finance Board succeeds the former Federal Home Loan Bank Board with respect to the Banks.

The management of the Finance Board is vested in a five-member Board of Directors. The Directors are the Secretary of Housing and Urban Development and four other individuals appointed by the President, by and with the advice and consent of the Senate. The President designates one of the appointed Directors as the Chairperson of the Board of Directors. The term of a Director is seven years.

The Finance Board has the power (1) to supervise the Banks and promulgate and enforce such regulations and orders as are necessary, (2) to suspend or remove for cause a director, officer, employee, or agent of any Bank or joint office, (3) to determine necessary expenditures of the Finance Board and the manner in which such expenditures shall be incurred, allowed, and paid, and (4) to use the United States mails in the same manner and under the same conditions as a department or agency of the United States.

The Authority serves as a neutral party in the settlement of disputes that arise between unions, employees, and agencies on matters outlined in the Federal Service Labor Management Relations Statute, decides major policy issues, prescribes regulations, and disseminates information appropriate to the needs of agencies, labor organizations, and the public. Establishment of the Federal Labor Relations Authority gives full recognition to the role of the Federal Government as an employer.

The Federal Labor Relations Authority is composed of three components.—The Authority, the Office of the General Counsel, and the Federal Service Impasses Panel.

Authority.—The Authority adjudicates labor-management disputes in the Federal sector including: appeals on negotiability issues; exceptions to arbitration awards; appropriate units for the purposes of exclusive recognition; eligibility of labor organizations for national consultation rights and unfair labor practice complaints.

Within the Authority, Administrative Law Judges hold hearings on unfair labor practice complaints, issuing reports, and making recommendations to the Authority on each case to allow timely settlement of disputes arising between agencies and unions.

The Authority promotes labor-management cooperation by providing training and assistance to labor organizations and agencies on resolving disputes and facilitates the creation of partnerships as called for in Executive Order 12871. Training for arbitrators and advocates is provided. The Authority provides all components with administrative services.

The Office of the Inspector General is responsible for conducting and supervising audits and investigations related to the functions of the FLRA, pursuant to the provisions of the Inspector General Act of 1978, as amended in 1988.

Workloads are reflected in the following table:

Office of the General Counsel.—The functions of this Office include the investigation of all allegations of unfair labor practices filed and the processing of all representation petitions received; the exercise of final authority over the issuance and prosecution of all complaints; the supervision and conducting of elections concerning the exclusive recognition of labor organizations and the certification of the results of elections; the conducting of all hearings to resolve disputed issues in representation cases; preparing final Decisions and Orders in these cases; and the direction and supervision of all employees of the Regional Offices. The Office also provides training on rights and responsibilities under the Federal Service Labor Relations Statute and facilitates partnership programs between Federal agencies and labor organizations. The Federal Maritime Commission regulates the domestic offshore and international waterborne commerce of the United States. In addition, the Commission has responsibility for the licensing of ocean freight forwarders, ensuring that non-vessel-operating common carriers are tarified and bonded, and for ensuring that vessel owners or operators establish financial responsibility for death or injury to passengers or other persons on voyages to and from U.S. ports, and indemnification of passengers for the nonperformance of transportation. Major program areas for 1995 will concentrate on pursuing an active enforcement program designed to identify and prosecute violators of the shipping statutes; carrying out investigations of foreign trade practices under the Foreign Shipping Practices Act; and operating a computerized system for the filing of tariff matter.

The Service assists parties to labor disputes in industries affecting commerce to settle their disputes through conciliation and mediation.

Dispute mediation.—The Service assists labor and management in mediation and prevention of disputes, other than those involving rail and air transportation, whenever such disputes threaten to cause a substantial interruption of interstate commerce or a major impairment of the national defense. The Service also makes mediation and conciliation services available to Federal agencies and organizations representing Federal employees in the resolution of negotiation disputes. The Service provides mandatory mediation and, where necessary, impartial boards of inquiry to assist in resolving labor disputes involving private nonprofit health care institutions. The workload shown below includes assignments closed in both the private and public sectors.

MEDIATION WORKLOAD DATA

Total mediation conferences conducted	20,295	20,129	20,468	20,500	20,500

Preventive mediation, public information, and educational activities.—Through its preventive mediation program, the Service initiates and develops labor-management committees, training programs, conferences, and specialized workshops dealing with issues in collective bargaining. Mediators also participate in public information and educational activities such as lectures, seminars, and conferences.

Arbitration services.—The Service assists parties in disputes in utilizing the arbitration process for the resolution of disputes arising under or in the negotiation of collective bargaining agreements in the private and public sectors.

Management and administrative support.—This activity provides for overall management and administration, policy planning, research and evaluation, and employee development.

Boards and panels.—Provision is made for ad hoc use of labor relations experts, individually or in panels, in support of the mediation function, for boards of inquiry appointed by the President in emergency disputes, and for boards of inquiry which the Director of FMCS may appoint in a contract dispute involving health care institutions.

Labor-management cooperation project.—The Labor Management Cooperation Act of 1978 (29 U.S.C. 175a) authorizes the Service to carry out this program of contracts and grants to support the establishment and operation of plant, area, and industry labor-management committees.

Alternative Dispute Resolution (ADR) Projects.—FMCS assists other federal agencies providing mediation and technical assistance in the area of ADR. ADR projects reduce litigation costs and speed federal processes. FMCS is funded for this work through interagency reimbursable agreements.

The Federal Retirement Thrift Investment Board is responsible for managing the Thrift Savings Fund. The Thrift Sav-

ings Fund is a special tax-deferred savings fund established by the Federal Employees' Retirement System Act of 1986. Due to the fiduciary nature of the Thrift Savings Fund, the Fund is not included in the totals of the Federal budget. Information on the financial status and activities of the Thrift Savings Fund follows this account.

Program administration for the Thrift Savings Fund is financed from the Fund. In addition, the Board may require employing agencies to contribute an amount not to exceed one percent of employing agency contributions to purchase insurance to cover the potential liability of persons who serve in a fiduciary capacity on behalf of the Fund. The Board has ceased requiring such contributions because of legislation enacted in January 1988 which provided an alternative source of funding for a major portion of such liabilities. This legislation reduces estimated expenses for insurance premiums. Program expenses are derived first from Fund forfeitures of agency one percent automatic contributions for employees who separate from the Federal government prior to vesting, and subsequently from earnings on all participant and agency contributions to the Fund.

INFORMATION SCHEDULES ON THE THRIFT SAVINGS FUND

The following schedules reflect those for the Thrift Savings Fund which is not in the Federal budget.

The Thrift Savings Fund is composed of individual accounts maintained by the Federal Retirement Thrift Investment Board on behalf of the individual Federal employee participants in the Fund. All Federal employees are eligible to contribute to the Fund. However, only those employees covered by the Federal Employees' Retirement System (FERS) will have their contributions matched by employing agencies in accordance with the formulas prescribed by law. Employees are entitled to select how contributions are distributed among three investment funds: a Government Securities Investment Fund, a Fixed Income Index Investment Fund, and a Common Stock Index Investment Fund.

Because the Thrift Savings Fund recently commenced operations, the estimates of the status of these funds in 1994 and 1995 are based on the initial years of experience. Employee participation in the Fund is entirely voluntary, so actual results could vary significantly from these estimates. The estimated status of the three separate funds is shown below:

The Federal Trade Commission is charged by law with ensuring that competition in the marketplace is vigorous, free, and fair. This is accomplished by eliminating threats to fair and honest competition from all sources, both public and private.

Maintaining competition.—The Commission's efforts are aimed at fostering and preserving our competitive system with the goal of maximizing consumer welfare. In addition to enforcing the antitrust laws against private sector restraints on competition, the Commission also scrutinizes regulatory policies that unduly restrain competition, and tries to exert a procompetitive influence in the development of such policies.

Consumer protection.—The Commission is charged with eliminating unfair or deceptive acts or practices affecting commerce. The goal of the consumer protection mission is to improve market performance so that consumers can make informed choices when exercising their purchasing power. To accomplish this goal, the Commission will remove harmful private and public restrictions on market performance; encourage business to provide consumers with accurate and useful information; and reinforce market forces that enhance consumer welfare.

The President's budget for 1995 provides a total of 939 workyears. Funding for programs of the Commission would increase from \$88.7 million in 1994 to \$96.1 million in 1995, allowing the Commission to continue to pursue its missions.

The programs administered by the Federal Trade Commission are funded by appropriated funds and fees assessed for premerger notification filings under the Hart-Scott-Rodino Act, as required by section 605 of Public Law 101-162. The President's budget for 1995 would increase the fee per Hart-Scott-Rodino filing from \$25 thousand to \$40 thousand. Therefore, for 1995, the FTC will use \$33.5 million in premerger filings fees to finance its activities.

Public Law 93-642 established the Harry S Truman Scholarship Foundation to operate the scholarship program that is the permanent Federal memorial to the 33rd President of the United States. The Foundation awards scholarships for up to four years to qualified students who demonstrate outstanding potential for and interest in careers in public service at the local, State, or Federal level or in the non-profit sector.

In its fiscal year 1995 annual competition, the Foundation will select up to 85 new Truman Scholars. The maximum award will be \$30,000 for four years. The Foundation will continue to assist in the placement of graduating Truman Scholars in public service positions.

Scholarship awards.—This activity is comprised of scholarships awarded to cover eligible educational expenses.

Program administration.—This activity covers all costs of operating the program, including annual program announcement, interview and selection of Truman Scholars, calculation and disbursement of scholarship awards, monitoring of student progress, and special services and activities for scholars, including an orientation week for new scholars, a summer education and internship program, and workshops and conferences.

Title XV of Public Law 99-498 established the Institute of American Indian and Alaska Native Culture and Arts Development as an independent non-profit corporation administered by a Board of Trustees. The Institute provides Native Americans with an opportunity to obtain a postsecondary education in various fields of Indian art and culture.

Payment to the Institute.—This activity supports the operations of the Institute.

Contribution to Endowment fund.—This activity provides for Federal matching contributions to the Institute's Endowment fund, pursuant to section 1518 of Public Law 99-498.

The Interagency Council on the Homeless was authorized in the Stewart B. McKinney Homeless Assistance Act (Public Law 100-77). The Council is an independent establishment, composed of 17 designated Federal agencies. Its purpose is to review Federal activities and programs to help the homeless, to work with State and local governments and private organizations on homeless-related efforts, to collect and disseminate information, and to prepare reports on the homeless issue for the President and Congress.

No separate appropriation was enacted for the Council in 1994 and none is requested for 1995. Beginning in 1994, staff and administrative support to the Council are being provided by the Department of Housing and Urban Development and the Council will continue as a working group of the Domestic Policy Council.

The International Cultural and Trade Center Commission was authorized by the Federal Triangle Development Act (Public Law 100-113). The purpose of the Commission was to organize the International Cultural and Trade Center (ICTC) which will be located in a building being constructed by the Pennsylvania Avenue Development Corporation. Federal funding for the Commission was limited and restricted to resources transferred from certain departments and agencies having interests in foreign trade and international cultural exchange. The ICTC as originally proposed was found not to be viable and as a result the Commission staff shut down operations on March 31, 1992.

The U.S. International Trade Commission is an independent agency created by act of Congress. The Commission's current powers and duties are provided for by the Tariff Act of 1930; the Trade Act of 1974; the Trade Agreements Act of 1979; the Agricultural Adjustment Act; section 1911 of the Financial Institution Regulatory and Interest Rate Control Act of 1978, 12 U.S.C. 635a-2; the Trade and Tariff Act of 1984; and the Omnibus Trade and Competitiveness Act of 1988.

The Commission conducts investigations and makes findings concerning whether: (1) increased imports are a substantial cause of serious injury to an industry; (2) imports of goods that are subsidized or are being sold at less than fair value are materially injuring an industry; (3) unfair import practices have the threat or effect of substantially injuring an industry or restraining or monopolizing trade and commerce in the United States; and (4) imports of agricultural products are materially interfering with certain programs of the U.S. Department of Agriculture.

The Commission advises the President as to the probable economic effect on the domestic industry and consumers of modification of duties and other barriers to trade which may be considered for inclusion in any proposed trade agreement with foreign countries. Further, the Commission, at the request of the President, the Congress, or on the Commission's own motion, undertakes comprehensive studies and provides reports on key issues relating to international trade and economic policy matters and upon request provides other information and advice to the Congress and President on tariff and trade matters.

The Commission, in cooperation with the Secretary of the Treasury and the Secretary of Commerce, establishes for statistical purposes an enumeration of articles imported into the United States and exported from the United States, and seeks to establish comparability of such statistics with statistical programs for domestic production.

The Commission also issues a publication containing the U.S. tariff schedule and related matters and considers questions concerning the arrangements of such schedules and the classification of articles.

Pursuant to section 175 of the Trade Act of 1974, the budget estimates for the Commission are included without revision by the President.

The Interstate Commerce Commission is responsible for the regulation of interstate surface transportation. Consistent with the downward trend in the regulation of surface transportation, which grew out of the regulatory reform legislation of 1980 and 1982, the Commission's staff has been reduced by 68 percent since 1981.

Motor program.—This includes the regulation of rates, the granting of operating authorities, the regulation of mergers and acquisitions, and the planning, analysis, and policy development associated with these activities as they relate to the Interstate Commerce Act as amended by the Motor Carrier Act of 1980, the Household Goods Transportation Act of 1980, the Bus Regulatory Reform Act of 1982, and the Surface Freight Forwarder Deregulation Act of 1986. The activities of interstate motor freight, bus, and water carriers are monitored, and enforcement actions are instituted to ensure compliance with these regulations.

Rail program.—This encompasses the regulation of rates and of mergers, acquisitions, construction, and abandonment of railway lines, as well as the planning, analysis, and policy development associated with these activities as provided for in the Interstate Commerce Act, as amended by the Staggers Rail Act of 1980. Staff ensure compliance with railroad regulations in order to protect the public interest.

General management and administration.—These activities provide support services, including data processing, budget and financial management, personnel, procurement, and contracting services.

PAYMENTS FOR DIRECTED RAIL SERVICE

(LIMITATION ON OBLIGATIONS)

None of the funds provided in this Act shall be available for the execution of programs the obligations for which can reasonably be expected to exceed \$475,000 for directed rail service authorized under 49 U.S.C. 11125 or any other Act. (*Department of Transportation and Related Agencies Appropriations Act, 1994.*)

Once a railroad ceases operations due to a lack of cash or a court order, the Commission may direct other railroads to provide service over the track of the railroad which ceased operations and may compensate the directed rail carrier for its services. Since no subsidized or compensable directed rail service is anticipated, no funds are being requested for FY 1995.

Public Laws 99-500, 101-208, and 102-221 established the James Madison Memorial Fellowship Foundation to operate a fellowship program to encourage graduate study of the framing, principles, and history of the American Constitution. Appropriations of \$10 million in 1988 and \$10 million in 1989 established the foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the foundation. Funds raised from private sources and the surcharges from commemorative coin sales are also placed in the trust fund.

The foundation is authorized to award graduate fellowships of up to \$24,000 to high school teachers of American history, American government, and social studies and to college seniors and recent college graduates who want to become secondary school teachers of these subjects.

Fellowship awards.—This activity is comprised of fellowship awards to cover educational expenses. It also supports the foundation's annual Summer Institute on the U.S. Constitution, which all current fellows are required to attend. The Institute is an intensive educational experience that will ensure that all fellows know the history of the framing, ratification, and implementation of the U.S. Constitution and the Bill of Rights. The foundation awarded 48 fellowships in its inaugural competition in 1992, 59 in 1993 and plans to award 60 fellowships in FYs 1994 and 1995.

Program administration.—This activity covers the costs of planning, fund-raising, and the operation of the fellowship program.

The National Archives and Records Administration provides for basic operations dealing with management of the Government's archives and records, operation of Presidential libraries, and for the review for declassification of classified security information.

Records centers.—This activity provides for the accessioning, storage, reference service, and disposal of the semiactive and non-current records of Federal agencies through a nationwide system of 14 records centers. Significant savings result from use of low cost records storage and the efficient and timely disposal of non-permanent records.

Archives and related services.—This activity provides for selecting, preserving, describing, and making available to the general public, scholars, and Federal agencies, the permanently valuable records of the Federal Government and the historical material in Presidential libraries, related publications and exhibit programs, and the appraisal of all Federal

records. It also provides for the publication of the *Federal Register* and *Code of Federal Regulations*, the *U.S. Statutes-at-Large*, Presidential documents and for a program to improve the quality of regulations and the public's access to them. It also provides for the National Archives' government-wide audiovisual information and management programs.

Through the records declassification program, historically valuable information in the records of the Federal Government and in donated historical materials are made available to the public by declassifying as much information as possible without endangering the national security.

National Historical Publications and Records Commission.—This Commission makes grants nationwide to preserve and publish records that document American history. Administered within the National Archives, which preserves Federal records, the NHPRC helps state, local, and private institutions preserve non-Federal records, helps publish the papers of major figures in American history, and helps archivists and records managers improve their techniques, training, and ability to serve a range of information users.

Archives II Facility.—Provides for construction and related services of a new archival facility. Costs of construction are financed by \$301,702 thousand of federally, guaranteed debt issued in 1989. Beginning in 1994 and continuing in 1995, the Archives is seeking appropriations for the annual payments to be made under the contract for construction and related services. In 1995, a portion of this amount will be paid from interest earned from the construction financing.

The National Capital Planning Commission is the central planning agency for the Federal Government in the National Capital Region. During 1995, major emphasis will be placed on the following activities: the maintenance of Federal elements of the Comprehensive Plan for the National Capital, the five-year Federal Capital Improvements program, the review of Federal land acquisition and development proposals in the region, relevant zoning analyses, and continuing Federal interest reviews of the impact of proposed local, State and regional planning efforts on the Federal establishment. In addition, there will be an emphasis on the development of computer-based analytical planning tools. These tools will be used in cooperation with other agencies early in the planning process to allow for resolution of differences before the final review and approval stages.

The Commission was charged with: evaluating factors impeding the development of safe and affordable housing for

American Indians, Alaska Natives, and Native Hawaiians; assessing the most promising strategies for developing, managing, and modernizing housing for these groups; and recommending an action plan of legislative, regulatory, or administrative action necessary to provide safe and affordable housing for Native people. In August 1992 the Commission issued a report containing 34 recommendations for enhancing the delivery of Federal housing programs for Native people. A supplemental report proposing legislative changes needed to carry out the recommendations was issued in September 1993. The Commission was terminated on October 1, 1993.

Federal credit unions are privately owned, cooperative associations organized for the purpose of promoting thrift among their members and creating a source of credit for provident or productive purposes, authorized by the Federal Credit Union Act of 1934, as amended.

The Administration's activities consist of: (a) chartering new Federal credit unions, (b) supervising established Federal credit unions, (c) making periodic examinations of their financial condition and operating practices, and (d) providing administrative services. The operating fund is reimbursed for the insurance fund's share of the agency's administrative expenses by the insurance fund. The reimbursement percentage, which is reviewed and adjusted periodically, is currently at 50 percent. Data relating to activities are shown below:

The insurance fund is used to carry out a program of insurance for member accounts in Federal credit unions and State-chartered credit unions which apply and qualify for insurance, authorized by Public Law 91-468, enacted October 19, 1970.

Budget program.—The activities consist of: (a) providing member account insurance, (b) formulating standards and requirements for insured credit unions, and (c) providing for liquidation or other disposition of the assets and liabilities of solvent and insolvent insured credit unions. The fund also reimburses the operating fund for its share of the Agency's administrative costs. The reimbursement percentage, which is reviewed and adjusted periodically, is currently at fifty percent.

The extent of the program is estimated as follows:

Item:	1993 actual	1994 est.	1995 est.
Number of insured credit unions	12,381	12,350	12,300
Insured shares of member institutions as of June 30 (in millions of dollars)	236,524	260,000	286,000

It is estimated that approximately 4,800 State-chartered credit unions will be enrolled in the program by the end of 1994.

Financing.—For insurance year 1994 the credit union's required annual insurance premium of one-twelfth of 1 percent of its total member share accounts has been waived. As a result of Public Law 98-369 (July 18, 1984), each insured credit union is also required to deposit and maintain in the insurance fund 1 percent of its member share accounts. The fund is structured to be entirely self supporting through the monies paid by member credit unions. The monies received plus the income generated from their investment are expected to cover all administrative and financial costs, as well as increase the fund balance proportionate to insured share growth. It is anticipated that the capital generated from the 1 percent deposit will eliminate the need to assess the annual premium except in years of extraordinary credit union losses. The fund has \$100 million in borrowing authority from the Treasury for use in unforeseen emergencies.

Operating results.—Anticipated net income of \$48 million will be retained in the fund, raising the balance for unforeseen emergencies to \$3.3 billion by the end of 1995.

The National Credit Union Central Liquidity Facility was established under Public Law 95-630. It began operations on October 1, 1979. The Central Liquidity Facility provides loans to member credit unions for seasonal and emergency needs.

The two primary sources of funds for the Facility are stock subscriptions from credit unions and borrowings from the Federal Financing Bank. Credit unions, which choose to become members of the Facility, are required to purchase stock

equal to one-half of 1 percent of their assets. One-half of the subscription in stock is forwarded to the Facility and deposited in the fund. The remaining half of the subscription remains on call in the credit union in investments as approved by the NCUA Board.

Field investigation.—Charges of unfair labor practices and petitions for elections to resolve representation disputes are investigated by regional office personnel. Over 92 percent of the unfair labor practice cases and about 85 percent of the representation cases are closed by settlement, dismissal, or withdrawal. The remainder are prepared for public hearing. The agency strives to maximize the voluntary settlement of all cases and to avoid litigation.

Administrative law judge hearing.—Administrative law judges conduct public hearings in unfair labor practice cases. Their findings and recommendations are set forth in their decisions.

Board adjudication.—In an unfair labor practice case a judge's decision becomes a Board order if no exceptions are filed. About 30 percent of these decisions become automatic Board orders or are complied with voluntarily. The remainder with exceptions filed require contested Board decision. In representation cases, regional directors initially decide the issues by Board delegation. The Board itself decides representation issues on referral from regional directors or by granting a request for review of a regional director's decision. The Board also rules on objection and challenge questions in election cases.

Securing compliance with Board orders.—If the parties do not voluntarily comply with the Board's order involving unfair labor practices, the Board must request that the appellate courts enforce its decisions.

Mediator services.—The Board mediates disputes over wages, hours, and working conditions for some 746 rail and air carriers and approximately 795,000 employees in the two industries.

The Board also provides technical assistance to enable labor and industry representatives to explore informally the relevant economic and noneconomic problems that condition collective bargaining in the railroad and airline industries.

Voluntary arbitration and emergency disputes.—When the parties fail to resolve their disputes through mediation, they are urged to submit their differences to arbitration. If neither mediation nor voluntary arbitration is successful, the President, when notified of disputes which threaten to seriously interrupt service, may appoint emergency boards to investigate and report on the disputes under section 160 of the Railway Labor Act (RLA). Such reports usually serve as a basis for resolving the disputes.

The Northeast Rail Service Act of 1981 amended the Railway Labor Act by adding a new emergency dispute procedure covering disputes between a publicly funded and operated commuter carrier and its employees. The 1981 Act requires the Board to appoint the public members of factfinding panels on Conrail.

Adjustment of railroad grievances.—Railroad employee grievances resulting from disputes over the interpretation or application of collective bargaining contracts may be brought for settlement to the National Railroad Adjustment Board (NRAB). The divisions of the Board are composed of an equal number of carrier and union representatives compensated by the party or parties they represent. Public Law 89-456 provides for the adjustment of disputes involving grievances resulting from interpretation or application of bargaining agreements in the railroad industry otherwise referable to the NRAB.

Administrative direction and support for the public law boards, special boards of adjustment, and the NRAB are provided by Federal employees who are compensated by the National Mediation Board.

The major research program activities of the Foundation are:

Biological sciences.—This activity supports research in cellular and molecular biology, neural sciences, and environmental biology.

Computer and information sciences and engineering.—Research is directed at "information processing" in the broadest sense of the term, ranging from fundamental theory to systems engineering.

Engineering.—Research supported by this activity aims to increase U.S. engineering capability and strength, and focus that capability and strength on areas which are relevant to national problems and long-term needs. This activity also includes small business innovation research.

Geosciences.—This research advances knowledge of the properties and dynamics of the planet Earth.

Mathematical and physical sciences.—Research in this activity is directed at increasing understanding of natural laws and phenomena. It includes research in mathematics, astronomy, physics, chemistry, and materials science.

Social, behavioral and economic sciences.—This activity supports research in behavioral, social, economic, and cognitive sciences, facilitates international scientific cooperation, and funds science resources studies.

U.S. Polar Research Programs.—This activity supports Arctic and Antarctic research and operational science support and other related activities for the United States Polar Research Programs. Funding for this activity was provided through the United States Polar Research Appropriation in FY 1994.

U.S. Antarctic Logistical Support Activities.—This activity provides necessary expenses for reimbursing Federal agencies for logistical and other related activities for the United States Antarctic Logistical Support Activities. Funding for

this activity was provided through the United States Antarctic Logistical Support Activities Appropriation in FY 1994.

Major Research Equipment.—This activity supports the construction and procurement of unique national research platforms and major research equipment. This activity will be funded through the Major Research Equipment Appropriation in FY 1995.

Critical Technologies Institute.—This activity supports a federally-funded research and development center that provides analytical support to the Executive Branch. Funding for this activity was provided through the Critical Technologies Institute Appropriations in FY 1994.

Academic Research Infrastructure is designed to improve the research infrastructure by funding, on a cost-sharing basis, the development and acquisition of major instruments, and the repair and renovation of academic research facilities. The program will support the acquisition of the major modern scientific instruments for our nation's laboratories and advance the nation's research and research training efforts. This also provides competitively awarded grants for the repair, renovation, or, in exceptional cases, replacement of facilities used for research and research training at academic and other non-profit institutions.

Education and Human Resources (EHR) activities provide a comprehensive set of programs across all levels of education in science, mathematics and technology. These efforts also address the participation of groups underrepresented in science and engineering. At the precollege level, EHR provides for new instructional material and techniques, and enrichment activities for teachers and students. Undergraduate initiatives support curriculum improvement (including laboratory instruction), faculty enhancement, and advanced technological education. (The latter is also supported at the precollege level.) Graduate level support is directed primarily to research fellowships and traineeships. Human resources activities focus on women, persons with disabilities, minorities, and minority institutions. Emphasis is given to systemic reform through components that address urban, rural, and state-wide efforts in precollege education, and the Experimental Program to Stimulate Competitive Research (EPSCoR), which seeks to broaden the participation of States and regions in science and engineering. Education research, evaluation and dissemination activities are supported across the science and mathematics education spectrum.

The National Transportation Safety Board is mandated by Congress to investigate all catastrophic transportation accidents and, therefore, has no control over the frequency of costly accident investigations. The emergency fund provides a funding mechanism by which periodic accident investigation cost fluctuations can be met without delaying critical phases of the investigations.

Reactor safety and safeguards regulation.—This program encompasses all NRC licensing and inspection of civilian reactor facilities and designs as required by the Atomic Energy Act of 1954, as amended. This includes the responsibility for evaluating the public health effects, safety, environmental safeguards, and antitrust aspects of reactor facilities and for ensuring that reactor facilities are designed, constructed, and operated safely and are in compliance with agency regulations. Reactor safety and safeguards regulation is carried out through the following three major program elements: reactor licensing; reactor inspection; and reactor oversight. During fiscal year 1995, the NRC will continue to emphasize oversight of plant operations at the 110 existing licensed commercial nuclear power plants to ensure their continued safe operation, will review proposals for design certification for advanced reactors, and will continue efforts designed to ensure that the agency will be prepared to review reactor operating license renewal applications.

Reactor safety research.—This program encompasses all NRC reactor safety research as required by the Energy Reorganization Act of 1974 as amended. This includes the responsibility for developing recommendations for research and engaging in or contracting for research deemed necessary for performance by the Commission of its licensing and regulatory functions. Work carried out in reactor safety research provides independent expertise and information for making timely regulatory judgments, anticipates problems of potential safety significance for which new or expanded knowledge can assist the NRC in pursuing its mission, and develops the regulations and guides necessary to implement Commission policy or technical requirements. Reactor safety research is carried out through the following two major program elements: reactor licensing support, and reactor regulation support. The major emphasis during fiscal year 1995 will continue to be on: developing sound technical bases for safety decisions associated with the certification of standard reactor designs, reactor aging and license renewal, and maintenance of computer codes used to analyze abnormal operating conditions.

Reactor special and independent reviews, investigations, and enforcement.—This program encompasses the review, evaluation, and investigation of NRC's power reactor licensees; the conduct of diagnostic evaluations of individual reactor plant safety; evaluation of both foreign and domestic operational events; ensuring power reactor licensee compliance with regulatory requirements through a comprehensive enforcement policy; and providing advice to the Commission on power reactor license applications and amendments. In addition, the NRC maintains an emergency operations center to receive calls of reportable events and determine appropriate regulatory response, and a technical training center to assure that NRC technical employees are well prepared to carry out their responsibilities. Reactor special and independent reviews, investigations, and enforcement are carried out through the following five major program elements: analysis and evaluation of operational data, Advisory Committee on Reactor Safeguards, Atomic Safety and Licensing Board Panel, external investigations; and enforcement.

Nuclear material and low-level waste safety and safeguards regulation.—This program encompasses all NRC licensing and inspection of nuclear fuel-cycle facilities, users of nuclear materials, the transport of nuclear materials, the safe management and disposal of low-level radioactive wastes, the safe interim storage of spent fuel and uranium recovery activities and related remedial actions. This includes the responsibility for evaluating the public health effects, safety, safeguards, and environmental aspects of a variety of licensees, ranging from very complex operations such as the manufacturing of reactor fuel and the production of medical radiopharmaceuticals, to relatively simple operations, such as the use of small quantities of radioisotopes in medical diagnostics.

The program also includes an integrated agency effort to oversee decontamination and decommissioning of facilities and sites associated with NRC-licensed activities. Within this program the NRC will assess the domestic safeguards environment and conduct safeguards reviews for all NRC licensing activities involving the export of special nuclear material. Nuclear material and low-level waste safety and safeguards regulation is carried out through the following three major program elements: nuclear materials, low-level waste, and materials special and independent reviews, investigations and enforcement. The nuclear materials program element affects approximately 6,700 licensees across the United States. The major emphasis during fiscal year 1995 will continue to be on the implementation of the Low-Level Waste Policy Act of 1980, as amended in 1985; the Uranium Mill Tailings Radiation Control Act of 1978; modifying the method for investigating human performance-related events to apply to materials licensees; improving licensee performance, particularly fuel-cycle facilities, radiographers, and medical licensees; and assuming new responsibilities for regulating the United States Energy Corporation's gaseous diffusion uranium enrichment facilities pursuant to the National Energy Policy Act of 1992.

High-level nuclear waste regulation.—This program encompasses all NRC public health and safety licensing, inspection, and environmental reviews for the safe management and disposal of high-level radioactive wastes (including spent fuel); research to assess the safety of high-level waste management, storage, and disposal. High-level nuclear waste regulation is carried out through four major program elements: high-level waste licensing; assessing the safety of high-level waste disposal; independent safety advice and adjudicatory reviews and the Licensing Support System Administrator. The major emphasis during fiscal year 1995 will continue to be focused on the implementation of the Nuclear Waste Policy Act of 1982, as amended in 1987.

The Office of Navajo and Hopi Indian Relocation was established by Public Law 93-531 to plan and conduct relocation activities associated with the settlement of a land dispute in northern Arizona between the two tribes.

Bonuses are paid to clients who volunteered for relocation prior to July 7, 1982. Relocation of clients includes such activities as certification, housing acquisition and construction, and land acquisition. Discretionary funds will be used for activities which will facilitate and expedite the overall relocation effort.

The Office of Special Counsel (1) investigates Federal employee allegations of prohibited personnel practices (including reprisal for whistleblowing) and when appropriate prosecutes before the Merit Systems Protection Board; (2) provides a channel for whistleblowing by Federal employees; and (3) enforces the Hatch Act. The Office may transmit whistleblower allegations to the agency head concerned and require an agency investigation and a report to the Congress and the President when appropriate.

Many cases investigated by the Office are resolved without recourse to formal proceedings before the Board. Efforts to obtain such negotiated resolutions will continue.

Note.—Authority to borrow is available to the Panama Canal Commission on a permanent indefinite basis. This authority is limited only in that the amount of borrowing outstanding at any time cannot exceed \$100 million.

The Panama Canal Act of 1979 established the Panama Canal Commission to operate and maintain the interoceanic waterway. The Commission is self-sufficient in its operations

and makes payments to the Republic of Panama as specified in the Panama Canal Treaty of 1977. Pursuant to Public Law 100-203, the Commission operates as a revolving fund agency.

Budget program—Transit operations.—The services performed by this activity are (in thousands of dollars):

	1993 actual	1994 est.	1995 est.
Maintenance of channels and dams	50,521	52,379	53,213
Navigation service and control	91,332	91,574	96,124

Total operating expenses	385,231	388,620	402,895
Less intra-agency recoveries	-35,064	-37,423	-39,323
Net operating expenses	350,167	351,197	363,572

Note.—These numbers are based on standard business accounting techniques and therefore do not necessarily tie with the Program and Financing schedule.

Payments to Panama include a public service payment, a fixed annuity of \$10 million, and an annuity based on net tonnage of vessels transiting the Canal. These payments are prescribed in paragraph 5 of article III and paragraphs 4(a) and 4(b) of article XIII of the Panama Canal Treaty of 1977.

Vessel traffic volume and other indices of workload are as follows:

	1993 actual	1994 est.	1995 est.
Ship transits (over 300 net Panama Canal tons)	12,257	12,375	12,480
Tolls (in thousands of dollars)	400,884	412,000	419,000

Capital obligations for 1995 include the following major projects: continuation of the Gaillard cut widening/straightening program; replacement of floating equipment; replacement of locomotive turntable at Pedro Miguel Locks and other improvements to transit facilities.

Supporting services.—The services performed by these supporting activities are (in thousands of dollars):

	1993 actual	1994 est.	1995 est.
Supply and logistical	40,953	44,277	46,360
Utilities	46,736	49,067	49,714
Other supporting services	12,992	12,596	13,449
Total operating expenses	100,681	105,940	109,523
Less intra-agency recoveries	-24,796	-26,661	-28,417
Net operating expenses	75,885	79,279	81,106

Note.—These numbers are based on standard business accounting techniques and therefore do not necessarily tie with the Program and Financing schedule.

Capital obligations for 1995 include several projects for electric power and communication systems improvements and the replacement of overaged motor vehicles.

Administrative.—This category includes the overall direction and administrative expenses of the Commission; the costs of the employee health benefits program; the cost of health and education services provided to Commission employees and dependents at Department of Defense facilities; and certain employment costs of the Commission.

Interest expense.—Interest expense on the investment of the U.S. Government in the Canal is being paid into miscellaneous receipts of the U.S. Treasury.

Special retirement costs.—This provides for the Commission costs for amortizing the expense for the special retirement provision of the treaty implementation legislation.

Other general.—This includes other miscellaneous expenses not under limitation.

Financing.—The operation of the Canal is conducted on a commercial basis with revenues derived from tolls collected from vessels and other essential supporting services. Revenues collected are deposited in an account in the U.S. Treasury. Operating and capital expenditures are then funded from

Public enterprise funds—Continued**PANAMA CANAL REVOLVING FUND—Continued**

this account. The Commission may borrow from the U.S. Treasury not more than \$100 million outstanding at any time. The Commission anticipates to use \$536 thousand of the borrowing authority in 1994 to finance obligations. No cash withdrawals against these funds are planned. In 1993 the Commission generated a profit of \$3,016 thousand which was applied to the loss of \$3,569 thousand incurred in 1992. In 1994, the Commission expects to recover the remaining 1992 loss of \$553 thousand. The amount set aside from toll receipts for working capital purposes in 1995 is \$5,000 thousand and \$9,500 thousand for a capital advance.

The limitation on administrative expenses provides for salaries and expenses associated with the overall direction and administration of the Commission.

Executive direction.—Executive direction provides for the management planning, direction, and control of overall Commission activities and operations. It also provides for Congressional liaison through the Secretary's Office in Washington, and implements policies and directives of the Commission's Board.

Operations direction.—Operations direction provides for the bureau-level direction and coordination of the non-administrative operations of the Commission. Included in this function are the costs associated with administering the director's offices for the various non-administrative Commission operating activities including the Marine Bureau, Engineering and Construction Bureau, and General Services Bureau.

Financial management.—The Financial Management function is responsible for the development of financial, accounting and rate-making policies; development of financial systems and procedures; maintenance of the general books of account and the preparation of financial statements and reports; establishment of systems of internal control; collection, custody and disbursement of funds and related fiscal matters; and

financial planning, budget management, and manpower control.

Personnel administration.—This function has the overall agency responsibility for personnel administration and management, and the joint personnel program that provides staffing services for participating federal agencies in the Panama Canal area on a cost-sharing basis.

Inspector general.—This function is responsible for conducting comprehensive audits and investigations of Commission accounts, programs and operations.

Employment costs.—Included in this activity are certain employment costs of the Commission which are general in nature and not identifiable with other specific activities. The estimates include provisions for employees' States travel, reimbursement to Department of Defense for education and hospital services, employer's contributions to Federal Employees' Health Benefit Act and certain other statutory costs required by the U.S. Government.

The Postal Reorganization Act of 1970, Public Law 91-375, converted the Post Office Department into the U.S. Postal Service, an independent establishment within the executive branch. The Postal Service commenced operations July 1, 1971. This agency is charged with providing patrons with reliable mail service at reasonable rates and fees.

The U.S. Postal Service is governed by an 11-member Board of Governors, including 9 Governors appointed by the President, a Postmaster General who is selected by the Governors, and a Deputy Postmaster General who is selected by the Governors and the Postmaster General.

Decisions on changes in domestic rates of postage and fees for postal services are recommended to the Governors of the Postal Service by the independent Postal Rate Commission after a hearing on the record under the Administrative Procedure Act. The Commission also recommends decisions on changes in the domestic mail classification schedule to the Governors. Decisions of the Governors on rates of postage, fees for postal services, and mail classification are final, subject to judicial review.

Effective in 1986, the Postal Service Fund (Fund) was included in the congressional and executive budget process and taken into account in making calculations under the Balanced Budget and Emergency Deficit Control Act of 1985 (Gramm-Rudman-Hollings). The Omnibus Budget Reconciliation Act of 1989 amended title 39 of the U.S. Code by adding a new section, 2009a, which provides that, beginning in 1990, the receipts and disbursements of the Fund shall not be considered as part of the congressional and executive budget process and shall not be taken into account in making calculations under Gramm-Rudman-Hollings.

Programs.—Included are all postal activities providing window services; processing, delivery, and transportation of mail; research and development; administration of postal field activities; and associated expenses of providing facilities and financing.

The rapid development of electronic messaging systems promises to increase the effectiveness of the Nation's communications infrastructure and U.S. competitiveness in the future. As the provider of a universally available hard copy delivery system, the United States Postal Service is encouraged to examine these emerging communications technologies and to cooperate with the private sector on issues of integration, directory service, and strategic alliances that will facilitate the development of secure and reliable electronic messaging networks.

The transition from hard copy to electronic messaging already has begun. The Postal Service should assist in developing future messaging systems. The Postal Service's participation should recognize the changing needs of its business, governmental, and individual customers; should focus on determining an appropriate means for public and private sector cooperation; and should be consistent with the agency's vision of evolving into a premier provider of 21st century postal communications. The Postal Service should seek to leverage its comprehensive delivery, messaging security, and addressing directory management capabilities in a manner that promotes universal access to the benefits of these new technologies for all citizens who desire them.

Financing.—The activities of the U.S. Postal Service are financed from the following sources: (1) mail and services revenue; (2) reimbursements from Federal and non-Federal sources; (3) proceeds from borrowing; (4) interest from U.S. securities and other investments; and (5) appropriations by the Congress. All receipts and deposits are made to the Postal Service Fund and are available without fiscal year limitation for payment of all expenses incurred, retirement of obligations, investment in capital assets, and investment in obligations and securities.

Separate legislation also increased the Postal Service's statutory borrowing authority beginning in FY 1991. Section 2005 of title 39, as amended, increased the Postal Service's borrowing authority by \$2.5 billion in FY 1991 for a revised ceiling of \$12.5 billion and an additional \$2.5 billion in FY 1992 for a revised total ceiling of \$15 billion. The total net increase in amounts outstanding in any one fiscal year were also increased and now may not exceed \$2.0 billion in obligations issued for the purpose of capital improvements and \$1.0 billion for the purpose of paying operating expenses. As of September 30, 1995, it is expected that the total debt instruments issued and outstanding pursuant to this authority will amount to \$12.2647 billion.

Operating.—Estimated revenue will total \$50.243 billion in 1995. This includes \$50.078 billion from mail and services revenue, \$48 million from investment income, and \$117 million accrued for revenue forgone appropriations in 1995. Total expenses are estimated at \$52.918 billion in 1995.

The Postal Reorganization Act of 1970 established the Postal Service as a fully self-sufficient, independent entity. Postal revenues were to cover the full costs of postal operations. When the Act was passed, the Postal Service received substantial taxpayer subsidies, both appropriated and unappropriated. Consistent with the intent of the 1970 Act, Congress has taken steps over time to reduce these subsidies. Under the 1974 Civil Service Retirement Fund—Postal Employee Benefits Act, the Postal Service assumed responsibility for paying unfunded retirement costs from wage schedule increases under postal labor contracts. These costs are not covered by normal employee/employer contributions to the retirement fund. The 1985 Reconciliation Act shifted responsibility for paying health benefit costs of Postal annuitants retiring

after 1986 from OPM to the Postal Service. The 1987 Reconciliation Act had the Postal Service make one-time payments to defray annuitant health benefit costs in 1988 and 1989 and retirement COLA costs in 1988. (Retirement COLAs, like wage schedule increases, result in retirement liabilities not covered by normal retirement fund contributions.) Under the 1989 Reconciliation Act, the Postal Service assumed responsibility for paying health benefits of survivors of post-86 annuitants and unfunded retirement COLA liabilities for post-86 annuitants.

The Omnibus Budget Reconciliation Act of 1990 superseded certain existing legislation and expanded the Postal Service's responsibility for benefit costs of postal annuitants. Effective October 1, 1990, the Postal Service is required to fund Civil Service Retirement System (CSRS) COLAs and the employer's share of Federal Employee Health Benefit Program (FEHBP) premiums for postal annuitants who retired after June 30, 1971, and their survivors. In addition, the Postal Service is required to fund the retroactive CSRS COLA and FEHBP premium costs for which the Postal Service would have been liable if the provisions of this new legislation had been in effect as of July 1, 1971.

Under the Omnibus Reconciliation Act of 1993, the Postal Service is required to make certain payments for past COLAs and health benefits, over and above any other payments required by law, of \$693 million to the Civil Service Retirement and Disability Fund, and \$348 million to the Employees Health Benefits Fund. These two payments are to be made in three equal annual installments, beginning in fiscal year 1996.

In addition to rail social security, rail industry pensions and special windfalls, the Railroad Retirement Board pays supplemental annuities to rail workers retiring at age 60 with 30 years of creditable rail service or at age 65 with 25-29 years of creditable service. Monthly benefit amounts are calculated from a base of \$23, adding \$4 for every year of service over 25, up to a maximum monthly benefit of \$43. Employers finance benefits on a pay-as-you-go basis by a cents-per-hour tax, currently established at 30 cents per hour.

All railroad retirees receive the equivalent of a social security benefit, and they may also receive other add-ons including rail industry pension payments, windfall payments, and supplemental annuities. Social security benefits for former railroad employees are funded by the social security trust funds, and rail industry pension payments are the responsibility of the rail sector.

The Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA), enacted in August 1989, established the Resolution Trust Corporation (RTC) to dispose of insolvent thrift institutions until August 1992. The RTC Funding Act of 1991 provided additional resources for resolutions. The RTC Refinancing, Restructuring, and Improvement Act of 1991 extended RTC's authority to resolve thrifts until the end of FY 1993 and provided funding until April 1, 1992. The RTC Completion Act of 1993 provided funding for the remainder of RTC's life and extended RTC's authority to resolve thrifts until sometime between January and July of 1995. The exact date will be determined by the Chairperson of the Thrift Depositor Protection Oversight Board. Thrifts for which conservators or receivers are appointed after the selected date will be resolved by the Savings Association Insurance Fund.

FIRREA established the RTC Oversight Board to provide RTC with general policy direction and to review its perform-

ance. The RTC Thrift Depositor Protection Reform Act modified the structure of the Board, expanding it from five to seven members. The Secretary of the Treasury remains a member and Chairperson. The Chairman of the Board of Governors of the Federal Reserve System, and two other members appointed by the President with the advice and consent of the Senate also remain as members. The Oversight Board's membership was expanded to include the newly created position of RTC Chief Executive Officer (CEO) and the Chairman of the Federal Deposit Insurance Corporation (FDIC) and the Director of the Office of Thrift Supervision. The Secretary of Housing and Urban Development no longer serves on the Board but chairs the National Housing Advisory Board created by the Act.

The RTC Refinancing, Restructuring, and Improvement Act of 1991 abolished the RTC Board, formerly the FDIC Board. The RTC CEO assumed many of the duties and responsibilities previously held by that Board. The RTC CEO is presidentially appointed and confirmed by the Senate.

Sources of funds for the RTC include income and sale proceeds from assets acquired during the course of resolving thrift cases, \$31.2 billion from the sale of capital certificates to the Resolution Funding Corporation (REFCORP), a privately capitalized financing entity also established by FIRREA, and \$73.8 billion in appropriated funds. Of the \$31.2 billion, \$1.2 billion was contributed by the Federal Home Loans Banks through REFCORP to the RTC in 1989. The remaining \$30 billion was raised through REFCORP issuance of long-term debt obligations.

RTC's remaining caseload includes RTC conservatorships and additional thrifts that the Office of Thrift Supervision transfers to RTC. The \$18.3 billion appropriated in 1994 would remain available for two years following RTC's termination on December 31, 1995. Under present law, should RTC not require the full \$18.3 billion, the Secretary of the Treasury may direct that the unused funds be transferred to the Savings Association Insurance Fund (SAIF) for SAIF losses, if needed to cover SAIF losses and certified by the Chairperson of the FDIC. Upon termination of RTC, all assets and liabilities of the RTC will be transferred to the FSLIC Resolution Fund, managed by the Federal Deposit Insurance Corporation. The FSLIC Resolution Fund thereafter will pay any net proceeds from the sale of assets to REFCORP for meeting bond interest payments.

Section 501(c) of FIRREA authorizes the RTC to operate an affordable housing program. Under this program, single and multifamily properties in RTC's inventory that are appraised below a certain threshold are held off the general market for a three to six month special marketing period. During that period, only low-income families and individuals, and public agencies and nonprofit organizations that agree to low-income rent restrictions are allowed to bid on the properties. The affordable housing expense line shown in the budget includes only the administrative costs of the program. Foregone receipts from selling the properties with the affordable housing restrictions are not included. At the end of FY93, the RTC had closed sales or accepted offers for 19,413 single family properties totaling \$531 million in sales proceeds and 542 multifamily properties totaling \$582 million in sales proceeds. The RTC affordable housing program has provided seller financing on 4,169 single family properties for a total of \$133 million in outstanding loans and 135 multifamily properties for a total of \$124 million in outstanding loans. By the end of FY95, RTC expects to have sold an additional 3,723 single family and 391 multifamily properties through the affordable housing program.

The primary mission of the Securities and Exchange Commission (the Commission) is to protect the interests of the investing public.

Full disclosure.—This program ensures that investors will be provided with material facts in the public offering, trading, voting and tendering of securities. Issuers that have conducted public offerings, have securities traded in the public markets, or have total assets and security holder populations of specified sizes, are required to furnish management, financial, and business information to the Commission on a continuing basis in proxy materials and in annual and other periodic reports. The staff reviews these documents on a selected basis for compliance with the disclosure requirements. In addition, all registration statements of issuers that are making their initial public offerings of securities and all third party tender offer filings are reviewed by the staff. As a result of the review process, the staff may issue comments to issuers to elicit better compliance or, where appropriate, refer matters for enforcement action.

Electronic filing project (EDGAR).—In 1984, the SEC began a pilot project that successfully tested the feasibility of receiving, analyzing and disseminating full disclosure filings electronically. The pilot received approximately 114,000 filings electronically through July 1992, when it was closed.

In early 1989, the SEC selected a contractor to develop the operational system. The operational system provides the Commission with the capability for electronic receipt, analysis, and dissemination of most of the full disclosure filings currently filed in paper. The operational system opened in January 1992 for test filings and the phase-in of the first group of mandated filers began in April 1993. Three additional groups of filers were added to the system in July, October and December of 1993 bringing the total number of companies filing electronically to approximately 3,400. No new companies will be added until the SEC completes the six-month review mandated by the Congress. The operational contract is for eight years ending in 1997. The EDGAR contract is \$7.0 million in fiscal 1995 of which \$5.6 million supports the Full Disclosure program and \$1.4 million supports the Investment Management Regulation program.

Prevention and Suppression of Fraud.—This program evaluates information indicating possible violations of the federal securities laws. Possible violations include, among other

things, the illegal distribution of unregistered securities, fraud in the offer, purchase and sale of securities, insider trading, market manipulation, and illegal conduct by broker-dealers, investment advisers and other regulated entities. Investigations of possible violations are conducted and, if appropriate, enforcement actions are initiated. Actions include civil proceedings seeking injunctive and other relief and administrative proceedings. The Commission is now authorized to seek court orders imposing civil monetary penalties for any securities law violation as well as to seek such penalties against regulated entities in administrative proceedings. Under appropriate circumstances matters are referred for criminal prosecution.

Supervision and regulation of securities markets.—Trading in the securities markets is regulated to prevent fraud and manipulation, and to ensure the maintenance of fair, orderly, efficient, and competitive markets. The Commission oversees the work of self-regulatory organizations, monitors securities markets and broker-dealer operations, and develops regulatory strategies for coping with market stress, promoting compliance, and meeting changing domestic and international conditions.

Investment management regulation.—This program administers the Investment Company Act of 1940 and the Investment Advisers Act of 1940. The staff inspects and regulates investment companies and investment advisers to protect investors against fraud, self-dealing, inadequate disclosure, and other abuse. The staff refers serious violations for enforcement action. In 1994, the focus of investment adviser inspections will shift to higher risk medium and small advisers. This program also is responsible for administering the Public Utility Holding Company Act of 1935.

Legal services.—This program provides a range of legal services to the Commission including (i) representation in all appellate litigation, in private litigation where the Commission appears as amicus curiae, in actions brought against the Commission and its employees, and in corporate bankruptcy reorganizations; (ii) preparation of Congressional testimony, advice to the Commission, and comments concerning proposed legislation affecting the Commission's work; (iii) advice to the Commission concerning issues arising from the Commission's regulatory and enforcement activities; (iv) preparation of draft opinions of adjudicatory decisions and advice to the Commission regarding its adjudication of administrative proceedings; and (v) advice to the Commission regarding compliance with Government-wide statutes and the statutes and rules applicable to the Commission's procurement, con-

tracting, fiscal, personnel, and related administrative activities.

Economic and statistical research.—This program provides the Commission with research studies concerning economic and regulatory issues, such as takeovers, stock price volatility, mutual fund performance, and international aspects of securities regulation. The program also provides economic analyses of proposed regulations and legislation, and litigation support in enforcement cases.

Program direction.—This program assists the Commission in fulfilling its statutory requirements and in responding to changes in the securities industry by carefully evaluating priorities, formulating and implementing policies, and managing agency resources. The staff provides management direction and analysis, internal control, financial management, personnel management, data processing, public affairs, records management, information dissemination, general administrative services, and processing of equal employment opportunity complaints.

The budget provides a \$306 million appropriation for the SEC. This appropriation would be funded by a variety of new fees and fee increases deposited into a special fund to be established in the Treasury. These fees would produce sufficient estimated receipts such that the SEC's effective appropriation from the General Fund would equal zero. Any fees collected above \$306 million would be deposited into the General Fund of the Treasury.

If enacted, appropriations language proposed above would: (1) continue SEC registration fees at $\frac{1}{2}$ sth of one percent, and deposit the increment above the base level of $\frac{1}{50}$ th of one percent, stipulated in section 6(b) of the Securities Act of 1933, (2) increase the securities transaction fee collected under Section 31 of the Securities Exchange Act of 1934 on the sale of all exchange-listed securities to $\frac{1}{250}$ th of one percent and deposit the increment above the base fee rate of $\frac{1}{500}$ th of one percent, (3) expand the Section 31 fee to cover over-the-counter securities transactions and deposit the full amount collected at $\frac{1}{250}$ th of one percent, (4) increase the merger and tender offer filing fees collected under Sections 13(e)(3), 14(g)(1)(A)(i), 14(g)(1)(A)(ii), 14(g)(2), and 14(g)(3) of the Securities Exchange Act of 1934 to $\frac{1}{250}$ th of one percent and deposit the increment above the base rate of $\frac{1}{50}$ th of one percent, and (5) replace the existing one-time \$150 investment adviser registration fee with a new initial registration fee and an annual fee (based on the volume of assets under management) to cover the cost of 195 new inspectors and deposit the full amount, into the special fund.

The appropriations language proposed above also anticipates that Congress may act to restructure fees collected under the securities laws during fiscal year 1995. If such a revision were to occur, the new fee structure would supersede the fees proposed above.

In 1995, the Selective Service System will continue to register men as they reach age 18, as required by law, and maintain a data base of registrant records. Also, the System will work to maintain a high degree of readiness to respond rapidly and efficiently to any crisis that requires a return to conscription.

Operational readiness remains one of the System's major objectives. Activities in support of this objective include all facets of National and Regional operational planning, maintenance of automated registration information, a comprehensive training program for the System's Reserve Forces, and a training program for the standby board members. Some of these activities have been scaled back consistent with recent budget reductions. However, the processing procedures of the Registrant Information Management System will continue to be tested and refined to ensure that it can fully satisfy the emergency manpower needs of the Armed Forces.

Reserve and National Guard officers are trained for mobilization assignments in specific positions with the System. A special focus of the program is on the exercise of the mobilization plans to ensure high readiness in the event of a return to conscription.

Section 10(h) of the Military Selective Service Act, as amended, requires the Agency to develop and maintain a system for the delivery of health care personnel to the Armed Forces in a national emergency. This standby Health Care Personnel Delivery System (HCPDS), which combines the examination and induction steps, is complete and capable of providing the first deliveries for examination and induction within 42 days, after passage of authorizing legislation. In 1995, work will continue on HCPDS follow-on components and testing, including the capability to make alternative service work assignments for health care registrants found to be conscientious objectors opposed to all military service and a health care registration compliance system to identify and process potential non-registrants.

In 1995, registration improvement activities will be on targeted urban areas and audiences where registration shortfalls are the greatest.

The Tennessee Valley Authority (TVA) was created in 1933 as a Government-owned corporation for the unified development of a river basin comprised of parts of seven States. Its program in 1995 will be financed from three sources: (1) appropriations by the Congress; (2) proceeds available from current power operations and borrowings against future power revenues; and (3) proceeds available from nonpower activities.

The following table provides detailed information on programs financed by power proceeds and borrowings and programs financed by appropriations and nonpower proceeds.

Budget program-stewardship.—TVA responsibilities in this area include maintaining a system of dams, reservoirs, and navigation facilities; refurbishing outmoded public facilities and other structures; performing adequate routine and cyclic maintenance; and maintaining and managing over 300,000 acres of public land and 11,000 miles of shoreline efficiently and in an environmentally sound manner. TVA operates and

develops the navigation channel from Paducah, KY, to Knoxville, TN; operates a system of multipurpose reservoirs to retain excessive seasonal runoff and regulate discharges at flow rates that can be accommodated by downstream channels and reservoirs, resulting in the reduction of flood crests along the Tennessee River and its tributaries and also the lower Ohio and Mississippi Rivers; performs dam safety modifications and maintenance activities in a manner consistent with Federal dam safety guidelines and to ensure that the waterway system is in a safe operating condition; operates dewatering areas associated with TVA's reservoir system; protects public lands and waters under TVA trust; manages Land Between The Lakes, a 170,000 acre area in western Kentucky and Tennessee situated between TVA's Kentucky Reservoir and the Corps of Engineer's Barkley Reservoir; and performs environmental cleanup and demolition of obsolete buildings and materials on TVA's Muscle Shoal (AL) Reservation.

Water and land.—This program is designed to aid further the proper use, conservation, and development of the natural resources of region TVA serves. TVA operates a regional air quality monitoring network; monitors and seeks to improve water quality; obtains and provides information for sound floodplain management; supports environmental education; promotes the wise use of the forest resources of the region; and prepares maps in support of TVA activities as well as the regional mapping needs of the U.S. Geological Survey.

Land Between The Lakes.—TVA provides outdoor recreation and environmental education opportunities for the public at this facility.

Rural Development.—This program's mission is to achieve a competitive regional economy by strengthening local communities, upgrading the Valley's human and natural resources, and supporting a more innovative private sector.

Environmental Research Center.—This program conducts research aimed at developing Technologies that will solve environmental issues facing the region.

Power program: Power supply and use.—TVA is the sole supplier of electric power to an area of 80,000 square miles in the seven Tennessee Valley States. Income from power operations, net of interest charges and depreciation, and other operating expenses is estimated at \$322,000 thousand in 1995.

Power generating facilities are financed from power proceeds and borrowings.

General services.—Operating costs for general service activities include reimbursable services furnished at the request and expense of other agencies.

Financing.—Amounts estimated to become available in 1995 are to be derived from (1) the requested appropriation of \$140,473 thousand; (2) nonpower revenues and receipts of \$66,060 thousand; and (3) power revenues and receipts of \$5,390,000 thousand. A summary of the application of appropriations follows:

Operating results and financial conditions.—Only the power program and fertilizer introduction are intended to be self-supporting; the net expense of nonpower programs is covered largely by appropriation funding. Payments to the Treasury from power proceeds in 1995 are estimated at \$65,000 thousand—\$45,000 thousand as a dividend (return on the appropriation investment in the power program) and \$20,000 thousand as a reduction in the appropriation investment in the power program. Outstanding borrowings for the power program are expected to increase by \$500,000 thousand during 1995.

Total assets are estimated to increase by \$513,000 thousand during 1995. The estimate of liabilities at September 30, 1995, is \$250,000 thousand more than the estimate at September 30, 1994. Total Government equity at September 30, 1995, is estimated to be \$263,000 thousand greater than that at September 1994. This change includes the requested appropriation for 1995 and the net income from power operations, less payments to the Treasury and the net expense of nonpower programs.

The Fund was established by the Coal Industry Retiree Health Benefit Act of 1992 to take over paying for medical care of retired miners and their dependents who were eligible for health care from the private 1950 and 1974 United Mine Workers of America Benefit Plans. The Fund's trustees represent the United Mine Workers of America and coal companies. The Fund is financed by assessments on current and former signatories to labor agreements with the United Mine Workers; transfers from an overfunded United Mine Workers pension fund; and, commencing in 1996, transfers from the Abandoned Mine Land Reclamation Fund.

The Fund was established by the Coal Industry Retiree Health Benefit Act of 1992. It pays for health care of miners retired between July 21, 1992 and September 30, 1994, and their dependents, who are eligible for benefits under an employer plan and cease to be covered, usually because an employer is out of business. Fund trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Fund is supported by signatories to the 1988 labor agreement with the United Mine Workers of America.

United States Enrichment Corporation ("USEC" or "the Corporation") was created by the Energy Policy Act of 1992. The Corporation began operations on July 1, 1993, when the Department of Energy's uranium enrichment activities were transferred to USEC. Uranium enriched by USEC or purchased for resale is sold to domestic and foreign utilities for use as fuel for nuclear power plants. The Corporation is required to submit a privatization plan to the President and Congress by July 1, 1995.

Budget Program.—The Corporation supplies uranium enrichment services to electric power utilities. Uranium enrichment is an important step in the process of converting uranium ore into nuclear fuel for use in power reactors. USEC leases two gaseous diffusion plants used to enrich uranium from the Department of Energy. During FY 1993, USEC agreed to purchase \$115,000 thousand of low enriched uranium (LEU). USEC is the Executive Agent and has signed the initial implementing contract under the Government-to-Government Agreement concerning the disposition of highly enriched uranium (HEU) extracted from nuclear weapons from the former Soviet Union. The obligation under this initial implementing contract covers the period for the first two years of purchases.

In early FY 1994, the USEC Board of Directors was nominated by the President and Senate confirmation hearings should take place early in the second session of the 103d Congress. Staffing of key corporate positions is underway and a long term corporate strategy will be defined in FY 1994.

As part of the strategy, USEC expects to complete the evaluation of the commercial viability of an advanced uranium enrichment technology called Atomic Laser Isotope Separation (AVLIS).

Financing.—\$240,838 thousand was transferred to USEC from the Department of Energy in FY 1993. The remaining 50% of the planned transfer or \$249,201 thousand will be received by USEC in FY 1994 and has been confirmed by a Determination Order issued by the Office of Management and Budget. Amounts estimated to become available in 1995 are to be derived exclusively from revenue received from customers for USEC provided uranium enrichment services.

Operating Results.—Net income for USEC's first quarter of FY 1993 was \$137,608 thousand (before audit and any adjustments). In the absence of an approved corporate strategy, the 1993/1994 business is projected to continue with slight escalation in prices and costs and 125 full time equivalent employees.

Total assets are forecast to increase during FY 1995 as a result of cash generated during the year and anticipated changes in inventory and plant, property and equipment. Total liabilities are forecast to increase due to an increase in customer advances. USEC has not yet formulated a dividend policy. Earnings will be retained for potential reinvestment (AVLIS, Capital Projects, Research and Development) or for other purposes until the new corporation completes its first strategic plan during 1994.

Legislation will be proposed to create a new funding mechanism for the Department's civilian high-level waste program. Under this proposal, monies would continue to be requested from the Nuclear Waste Disposal Fund and the Defense Nuclear Waste Disposal appropriation account. Additional funding would be provided by making available a portion of the utility industry's annual payments into the fund. Currently, in each year, utility receipts not appropriated for this program are retained in the fund but are not available for obligation. Under the proposal, one-half of the annual balance will be made available for obligation on a permanent basis. These additional resources would be used to accelerate scientific and engineering activities at the Yucca Mountain site in Nevada.

The additional spending associated with this proposal would come from savings associated with decisions of the Depart-

The United States Information Agency conducts the international informational, educational, cultural and exchange programs of the United States and advises the President, the National Security Council, and the Secretary of State on these matters. The Agency defines, explains, and advocates U.S. policies abroad and seeks to increase knowledge and understanding among foreign audiences of U.S. society and its values. In 1995, USIA plans to undertake fundamental changes in its structure and programs to better serve the Nation's interests in a profoundly changed world. This includes the consolidation of all international broadcasting activities under a separate account, as well as the elimination of the Bureau of Policy Guidance and Program Support and the creation of a technologically sophisticated and more focused Bureau of Information.

Agency operations are largely financed from this appropriation and consist of the following major elements:

Overseas missions.—The Agency currently operates over 200 U.S. Information Service posts in over 140 countries. These USIS posts administer exchange-of-persons programs and conduct informational and cultural activities using, primarily, materials and programs provided by support offices in Washington, DC.

Educational and cultural affairs.—This activity covers the staff that administers educational and cultural exchanges between the United States and over 140 countries. It also provides program and support costs for the J. William Fulbright Foreign Scholarship Board, American-sponsored schools abroad, binational centers, USIS centers abroad, book publication, exhibits, English teaching, and other educational and cultural activities. Grant costs for Academic and Visitor Exchanges, the Humphrey Fellowship, Citizen Exchanges, Congress-Bundestag and new exchange programs for the New Independent States and Eastern Europe are funded separately in the Educational and Cultural Exchanges account.

Bureau of Information.—This new, consolidated and technologically upgraded Bureau will support U.S. foreign policy objectives by providing instant and in-depth communications with the influence structures of other countries through the electronic information capabilities of the Agency's Wireless File, library and foreign press centers in the U.S., the programming of U.S. speakers and specialists through overseas travel, and electronic dialogues or interactive television communications.

Agency direction and management.—This activity encompasses managerial staffs, research and centralized servicing functions for the Agency as a whole.

Administrative support from other agencies.—This activity covers payments to the Department of State for USIA's share of the costs of services provided for our overseas operations, to the General Services Administration for space and services

provided under the Federal building rent system, and payments to other agencies for services provided.

This appropriation provides funding for the conduct of audits and investigations relating to the programs and operations of the United States Information Agency. Audits and investigations are responsible for providing leadership, coordination and policy recommendations to promote economy, efficiency and effectiveness and to identify and correct management and administrative deficiencies which create conditions for existing or potential instances of fraud, waste and mismanagement. The audit function provides internal audit services, program evaluation, and contract audit services. The investigation function provides for the detection and investigation of improper and illegal activities involving agency personnel, programs, and operations. This appropriation also provides funding for inspection services for domestic and overseas operations.

An appropriation, together with the balances available from prior years, was formerly used for payment of local expenses in U.S.-owned foreign currencies in those countries where the Department of the Treasury had determined that the supply of such currencies was in excess of the normal requirements of the U.S. Government. Since 1986, new appropriations for these expenses have been provided in the Salaries

and Expenses account. Remaining balances will be cancelled in 1994.

This appropriation provides funding for programs authorized by the Mutual Educational and Cultural Exchanges Act of 1961, as amended, to increase mutual understanding between the peoples of the United States and other nations. It includes the following:

Academic and visitor exchanges.—This consists of academic (Fulbright) exchanges of American and foreign graduate students, lecturers, and scholars including the President's Undergraduate Student Exchange between the United States and the former USSR; officially invited international visitors; and

selected foreign visitors who are not U.S. Government-sponsored.

Hubert H. Humphrey Fellowships.—This provides for one year of graduate academic and professional training to promising mid-career professionals from developing countries.

Citizen Exchanges.—This supports traditional and other exchange programs conducted by non-governmental organizations.

Congress-Bundestag Exchange Program.—This co-funded activity provides mutual full scholarships for year-long academic home stay programs between Germany and the United States.

NIS/Central and East Europe Training Program.—This program provides training for local government officials, scholars, and business leaders to foster growth of democratic institutions and economic pluralism in the developing democracies of the region.

Edmund S. Muskie Fellowship Program.—This program provides scholarships for graduate study in the United States in the fields of business administration, economics, law, and public administration. Fellowships are awarded to qualified young and mid-career individuals who are citizens of the New Independent States.

Near and Middle East Research and Training.—This activity provides assistance to graduate and postdoctoral studies by United States scholars on the Near and Middle East.

The Agency also manages other exchange related activities funded from the Agency's Salaries and Expenses appropriation. The staff costs to operate the exchange programs funded by this appropriation are included in the Salaries and Expenses account.

The National Endowment for Democracy is a private, non-profit corporation established in the District of Columbia to

encourage and strengthen the development of democratic institutions and processes internationally, including activities which promote individual rights and freedom, through private sector initiatives, exchanges, training programs, and other activities.

The National Endowment for Democracy Act provides that the U.S. Information Agency will make an annual grant to the Endowment to enable the Endowment to fulfill the purposes of the Act. The Endowment does not carry out programs directly but provides funding for activities of the Free Trade Union Institute of the AFL-CIO, the Center for International Private Enterprise of the U.S. Chamber of Commerce, the National Republican Institute for International Affairs of the Republican Party, the National Democratic Institute for International Affairs of the Democratic Party, and other private organizations and groups.

In 1995, additional funding in the amount of \$10 million has been included for democratization efforts worldwide.

The Administration is currently planning to consolidate all international, non-military broadcasting by FY 1996. Under this plan, all technical broadcast facilities will be consolidated and integrated into a single, world-wide transmission network. Network integration will begin in FY 1995.

New construction.—In 1995, the agency will continue the Administration-approved streamlined modernization plan to expand the transmission capability of the Voice of America (VOA). This plan includes continued construction for a medium wave/short wave radio stations in Sao Tome and initial

construction activities of a new transmission facility in the Pacific Islands to enhance the broadcasting coverage to Asia.

Upgrade of existing relay station capabilities.—This activity funds the upgrade of our existing relay stations to improve transmission quality and avoid the need for future new construction. In 1995, funds will be used to continue upgrading and refurbishing broadcast capabilities in Sri Lanka, Rhodes, Bangkok, Kavala, Poro and to initiate the consolidation of VOA and Radio Free Europe/Radio Liberty network facilities.

Major improvements, replacements and repairs.—This activity funds the continuing repairs and improvements required to maintain existing global radio and television network.

Broadcast facility leases and land rentals.—This activity primarily funds leased broadcast facilities at Wertachtal, Germany.

Satellite and Terrestrial Feed Systems.—This activity provides funding for the construction and maintenance of the Satellite Interconnect System (SIS) and Television Receive Only (TVRO) earth stations.

This appropriation will provide funding for all United States non-military international broadcasting programs. The creation of this new account reflects the President's plan and pending legislation to consolidate all non-military, international broadcasting activities under the United States Information Agency by FY 1996. Beginning in FY 1995, funding will be provided from this account for Voice of America, Worldnet Television and Film Service, Radio and Television Broadcasting to Cuba, Radio Free Asia, and Radio Free Europe and Radio Liberty (RFE/RL) programs.

In FY 1995, \$256,708,000 for the Board for International Broadcasting (BIB), including Radio Free Europe/Radio Liberty (RFE/RL) funding, is requested in this account with the intention of transferring the funds, upon appropriation, to BIB. Beginning in FY 1996, BIB (which currently is responsible for funding and oversight of RFE/RL operations) will be dissolved and USIA will directly fund a grant to RFE/RL under the oversight of the new Broadcasting Board of Governors (to be created by FY 1996) pursuant to the President's International Broadcasting consolidation plan.

Radio Free Asia, for which seed funds were appropriated in FY 1994, is presently being developed and awaiting authorization. A funding level of \$10 million is currently planned for this activity in FY 1995.

The Washington Metropolitan Area Transit Authority (WMATA) is a non-Federal agency established pursuant to an interstate compact among Maryland, Virginia, and the District of Columbia. The Authority's primary functions are to plan, develop, finance, and construct the Metrorail rapid transit system and to operate the bus/rail transit system in the National Capital area. The rail system extends from the District of Columbia into the participating jurisdictions of Maryland and Virginia.

Through 1994, this WMATA account provides the annual Federal share (two-thirds) of interest payments on outstanding WMATA bonds sold in support of the rail construction program. The WMATA bonds, which totaled \$997 million, were guaranteed by the Federal Government and were to become due beginning in the year 2012. In September 1979, WMATA and the Department of Transportation approved an Initial Bond Repayment Participation Agreement providing for an overall two-third Federal and one-third local sharing of the interest and principal costs of the bonds. In August 1982, this agreement was reaffirmed in a supplement to the agreement.

In December 1993, the WMATA bonds were refinanced in order to take advantage of lower interest rates. In order to refinance the bonds, the original bonds were called in prior to maturity and paid off. The funds necessary to pay off the original bondholders were raised in two ways: (1) WMATA issued new, non-Federally guaranteed, municipal bonds to pay off its one-third share of the original bonds; and (2) the De-

partment of Transportation borrowed \$665 million from the Federal Financing Bank (FFB) to pay off the Federal two-thirds share of the original bonds. Therefore, as a result of the refinancing, WMATA and the Federal Government no longer share responsibility for repayment of \$997 million in debt. Instead, WMATA has assumed complete responsibility for repaying its one-third share (\$332 million) of the debt and the Federal Government retains complete responsibility for repaying its two-thirds share (\$665 million) of the debt.

In 1995, an appropriation of \$665 million is requested to repay the principal owed by the Department of Transportation to the FFB. This appropriation would not constitute authority to incur new obligations. In addition, an indefinite appropriation is requested in 1995 to pay any necessary interest and prepayment penalties to the FFB. Interest costs are estimated to be \$14 million.

SUPPLEMENTAL PROPOSALS

The following information concerns supplemental appropriations requests for 1994. Some supplemental proposals were transmitted November 1, 1993, and are presented here for information only. Consequently, no proposed appropriations language is included. Other supplemental requests are transmitted with the budget and include proposed appropriations language.

Legislative Branch

SENATE

SALARIES, OFFICERS AND EMPLOYEES

(Supplemental now requested, existing legislation)

For an additional amount for "Office of the Secretary", \$450,000.

CONTINGENT EXPENSES OF THE SENATE

(Supplemental now requested, existing legislation)

For an additional amount for expenses of the "Office of the Secretary of the Senate", \$600,000.

Executive Office of the President

ELECTRONIC COMMUNICATIONS RECORDS MANAGEMENT

The costs associated with the settlement of and compliance with *Armstrong v. Executive Office of the President* will likely result in the need for supplemental appropriations in the amount of \$6 million or more. Litigation is ongoing and settlement discussions are underway.

COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

(Supplemental now requested, existing legislation)

For an additional amount for "Council on Environmental Quality and Office of Environmental Quality", \$425,000.

OFFICE OF NATIONAL DRUG CONTROL POLICY

SALARIES AND EXPENSES

This supplemental language request, transmitted November 1, 1993, would remove the full time equivalent floor established for the Office of National Drug Control Policy (ONDCP). The 1994 Treasury, Postal Service, and General Government Appropriations Act established a "floor" of 40 full time equivalent employees. This supplemental language proposal, while removing language establishing a "floor," would not affect the office's staffing level. ONDCP's salary funding would remain unchanged. The proposed change in the appropriations language is in response to one of the goals of the National Performance Review to reduce impediments to the implementation of proposals to cut red tape, empower employees to get results, and cut programs back to basics. The Administration is not, by this request, proposing a reduction in funds appropriated to ONDCP. Rather, ONDCP, as determined by its Director, will be able to use its funds in the most effective possible way.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

SALARIES AND EXPENSES

This supplemental language request, transmitted November 1, 1993, would permit the Office of Science and Technology Policy (OSTP) to perform its expanded functions more effectively by eliminating the requirement that OSTP reimburse other agencies for not less than one-half of the personnel costs of individuals detailed to it.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

GENERAL PROVISION

(Supplemental language now requested, existing legislation)

Title VIII of Public Law 103-139 is amended by adding the following new section:

SEC. 8157. Notwithstanding sections 607 and 630 of the Foreign Assistance Act of 1961 (22 U.S.C. 2357 and 22 U.S.C. 2390), reimbursements received from the United Nations for expenses of the Department of Defense charged to the appropriations provided for fiscal year 1994 shall be deposited to the miscellaneous receipts of the Treasury.

This supplemental language request would require reimbursements to the Department of Defense from the United Nations to be deposited with the Treasury. Current law requires that reimbursements be credited to the Department of Defense.

Department of Defense—Civil DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

GENERAL INVESTIGATIONS

This supplemental language request, combined with an associated rescission proposal, was transmitted November 1, 1993. Studies and projects would be selected and prioritized for funding based on certain criteria developed by the Army Corps of Engineers as described in the rescission report. Studies and projects that could not be accommodated within the remaining balances would not be funded.

CONSTRUCTION, GENERAL

This supplemental language request, combined with an associated rescission proposal, was transmitted November 1, 1993. Projects would be selected and prioritized for funding based on certain criteria developed by the Army Corps of Engineers as described in the rescission report. Projects that could not be accommodated within the remaining balances would not be funded.

FLOOD CONTROL AND COASTAL EMERGENCIES

(Supplemental now requested, existing legislation)

For an additional amount for "Flood control and coastal emergencies," \$70,000,000, to remain available until expended: Provided, That such amount is designated by Congress as an emergency requirement pursuant to section 251(b)(2)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

GENERAL PROVISIONS

This supplemental language request, transmitted November 1, 1993, would repeal sections 101 and 102 of the 1994 Energy and Water Development Appropriations Act. These sections prohibit the Army Corps of Engineers from either closing district offices or transferring responsibilities between district offices. This prohibition effectively keeps the Corps from making meaningful changes to its organizational structure as it pursues the National Performance Review goals of cutting red tape, putting customers first, empowering employees to get results, and generally cutting back to basics. The Corps reorganization plan of the previous Administration has been withdrawn. The Secretary of the Army is currently developing a plan for reorganizing the Corps' headquarters offices, reducing the number of its division offices, and restructuring district functions to increase efficiency.

Department of Energy ENERGY PROGRAMS

FOSSIL ENERGY, RESEARCH AND DEVELOPMENT

This supplemental language request, transmitted November 1, 1993, would repeal provisions of Public Laws 101-121, 102-154, and 102-381 that established employment floors for the Office of the Assistant Secretary for Fossil Energy, the Office of the Strategic Petroleum Reserve, and the Energy Conservation and Clean Coal Technology programs. Employment floors of this nature impede the achievement of employment reductions possible as a result of streamlining government organizations and functions and cutting back to basics.

Department of Health and Human Services

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

(Supplemental now requested, existing legislation)

For an additional amount for "Salaries and expenses" from fees collected pursuant to section 736 of the Federal Food, Drug, and Cosmetic Act, not to exceed \$2,284,000, to remain available until expended: Provided, That fees derived from applications received during fiscal year 1994 shall be credited to the appropriation current in the year in which the fees are collected and subject to the fiscal year 1994 limitation:

This supplemental request, transmitted November 1, 1993, would establish cost-savings reforms that will reduce the amount of assistance needed to preserve high-rent projects. If these reforms are enacted, estimated savings of \$46 million are proposed to be rescinded.

FHA—MUTUAL MORTGAGE INSURANCE PROGRAM ACCOUNT

(Supplemental now requested, existing legislation)

During fiscal year 1994, the limitation on commitments to guarantee loans to carry out the purposes of section 203(b) of the National Housing Act, as amended, is increased by an additional loan principal of not to exceed \$20,000,000,000.

2159 Total loan guarantee levels		20,000,000	
Guaranteed loan subsidy (in percent):			
2320 Subsidy rate		-2.79	

This supplemental request would increase the guaranteed loan limitation to satisfy the heavier than expected demand for guaranteed loans—the result of current homeowners and new homebuyers seeking to take advantage of the continued low interest rate environment. Higher loan levels would generate increased collection of fees to help increase the fund's capital reserve. No subsidy appropriation is required because the program has a negative subsidy under the Federal Credit Reform Act of 1990.

The Federal Housing Administration (FHA) Fund consists of four separate insurance funds. Prior to 1992, all budget transactions for the four funds were reflected in a single consolidated budget account (86-4070). Beginning in 1992, the transactions of the Fund appear in six separate accounts. (However, financial data for each individual insurance fund are continuing to be maintained for control and reporting purposes.)

In order to present more clearly the operations of the various funds, FHA's budget transactions have been separated into two major business segments. The single-family insurance programs in the Mutual Mortgage and the Cooperative Management Housing insurance funds (MMI/CMHI) form one segment. The multifamily and high risk insurance programs in the General and Special Risk insurance funds (GI/SRI) form the other.

The Federal Credit Reform Act of 1990 requires each FHA business segment to consist of three separate budget accounts. A liquidating account records the revenues and costs associated with the loans insured prior to October 1, 1991; a financing account records the revenues and costs associated with loans insured after September 30, 1991; and, a program account records the transactions associated with the program subsidy costs, if any, and the costs of administering the program.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, all cash flows to and from the Government resulting from loan guarantees committed prior to 1992. This account is shown on a cash basis. All new activity in this program in 1992 and thereafter (including modifications of loan guarantees that resulted from commitments in any year) are recorded in corresponding program (86-0138) and financing (86-4587) accounts.

This supplemental request would provide a one-time transfer from Construction to Land acquisition to permit the purchase, on a willing-seller basis, of lands affected by the Midwest floods in lieu of dike or levee reconstruction.

LAND ACQUISITION

(INCLUDING TRANSFER OF FUNDS)

(Supplemental now requested, existing legislation)

For an additional amount for "Land acquisition" for the acquisition of land or interests in land, from willing sellers, in the Midwest area flooded in 1993, \$4,000,000, to remain available until expended, to be derived by transfer from amounts appropriated to the U.S. Fish and Wildlife Service under the heading "Construction" in Public Law 103-75, to be used for non-structural measures to meet flood damage control and fish and wildlife habitat restoration objectives.

90.00 Outlays		1,800	1,800

This supplemental request would transfer funds to provide for acquisition, on a willing-seller basis, of lands affected by the Midwest flooding of 1993, to (1) serve as an alternative to the protection of these lands through dike or levee reconstruction, or (2) increase floodplain habitat to offset the effects of less intensive management on Fish and Wildlife Service lands. Since the enactment of the Midwest flood supplemental (P.L. 103-75) in August 1993, the Fish and Wildlife Service has recognized the potential benefits of acquiring, from willing sellers, lands affected by the flood. Such acquisitions could be added to the National Wildlife Refuge System and would reduce the need to rebuild dikes and levees. For this reason, the Service proposes to transfer \$4.0 million from the \$30 million appropriated to the Construction account for Midwest flood activities to the Land Acquisition account for acquisition projects related to the Midwest flooding.

This supplemental request would replenish funds transferred in 1993 to fund emergency repair and rehabilitation actions, as a result of winter storm, flood and hurricane damage, at various park units nation-wide.

This proposal would not result in increased obligations or outlays until 1996 because the funds to be replenished are for projects that have experienced delays.

LAND ACQUISITION AND STATE ASSISTANCE

(Supplemental now requested, existing legislation)

For an additional amount for "Land acquisition and state assistance," \$1,274,000, to be derived from the Land and Water Conservation Fund, to remain available until expended, to replenish funds used for emergency actions related to storm damaged facilities within National Park System areas; and in addition, an additional amount to be determined by the Secretary, to remain available until expended, to be derived by transfer from balances under the head "Construction," for project modifications authorized by section 104 of the Everglades National Park Protection and Expansion Act of 1989, to be available for Federal assistance to the State of Florida for acquisition of lands or interests therein adjacent to, or affecting the restoration of natural water flows, to Everglades National Park and Florida Bay.

90.00 Outlays			

This supplemental request would replenish funds transferred in 1993 to fund emergency repair and rehabilitation actions, as a result of winter storm damage, at various park units.

The proposal also would transfer prior-year unobligated funds for the purpose of providing a grant to the State of Florida to pursue a non-structural land acquisition solution to flood control on lands adjacent to the Everglades National Park.

The replenishment proposal would not result in increased obligations or outlays until 1996 because the funds to be replenished are for projects that have experienced delays. The reappropriated funds would be outlay neutral because they would be expended at the same rate as previously estimated.

OPERATION OF INDIAN PROGRAMS

(Supplemental now requested, existing legislation)

The paragraph under this heading in Public Law 103-138 is amended by inserting the words "not to exceed" before the amount "\$316,111,000".

This supplemental language request would provide flexibility to reprogram funds from School Operations to other programs if actual student enrollments are less than projected for the 1994-1995 school year.

As authorized by section 102 of the 1994 Department of the Interior and Related Agencies Appropriations Act, this supplemental request would replenish funds used in 1993 from the Education construction (Facilities improvement and repair) program for emergency construction and operations related to flood damage in Arizona and California and to the oil spill in Bethel, Alaska.

This proposal would not result in increased obligations or outlays until 1996 because the funds to be replenished are for projects that have experienced delays.

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

(Supplemental now requested, existing legislation)

The paragraph under this heading in Public Law 103-138 is amended by adding the following before the last period: ", and (3) to reimburse Indian trust fund account holders for loss(es) to their respective accounts where the claim for said loss(es) has been reduced to a judgment or settlement agreement approved by the Department of Justice".

This supplemental language request was included in Public Law 103-50 in 1993. The Public Law 103-50 language covered 1993 only. The proposed language would reinstate the authority to permit reimbursements to be made from 1994 funds to Indian trust fund account holders for losses to their accounts due to differences between their initial claims and amounts subsequently included in judgments or settlement agreements approved by the Department of Justice.

71.00 Total obligations		-1,700	
90.00 Outlays		-1,700	

This supplemental request would provide a one-time transfer from funds appropriated in 1986 to provide various Federal services to Palau, including reimbursement to the Department of Education for higher education grants. The Department of Education has since begun providing such grants, without reimbursement, to the U.S. territories and freely associated States (for the duration of their Compacts). Therefore, the portion of these funds originally intended for higher education grants is proposed for transfer to Resource management in the Fish and Wildlife Service.

71.00 Total obligations		61,400	
90.00 Outlays		61,400	

This supplemental request would fund benefit costs relating to the extension of the Emergency Unemployment Compensation (EUC) Act (P.L. 103-6); increased benefit and training costs associated with the Trade Act program of 1974, as amended; and costs for benefits and training associated with

the North American Free Trade Agreement (NAFTA) Transitional Adjustment Assistance program.

BUREAU OF LABOR STATISTICS

SALARIES AND EXPENSES

(Supplemental now requested, existing legislation)

For an additional amount for "Salaries and expenses" for the current population parallel survey, \$10,100,000: Provided, That an amount equal to the amount obligated in the "Training and employment services" account for this purpose upon the date of enactment of this Act shall be transferred from this account and merged into the "Training and employment services" account.

In January 1994, the Current Population Survey (CPS) redesign was put in place, including a revised sample of the households from the 1990 decennial census, a new questionnaire, and new automated data collection and processing methods. The redesign is expected to change the Nation's official unemployment rate, which comes from this critical household survey conducted jointly by the Bureau of Labor Statistics and the Department of Commerce's Census Bureau. This supplemental request would fund a new CPS Parallel Survey, using the old questionnaire and methodology, to allow policy makers and economic analysts to compare it with the results from the redesigned CPS.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

(Supplemental now requested, existing legislation)

For an additional amount for "Salaries and expenses" for activities required by the North American Free Trade Agreement Labor Supplemental Agreement, including obligations of the United States abroad pursuant to treaties, international agreements and binational contracts, distribution to international organizations established by the North American Agreement on Labor Cooperation between the Government of the United States, the Government of Canada, and the Government of the United Mexican States, \$1,750,000, to be derived, as determined by the Secretary of Labor, from funds otherwise appropriated to the Department of Labor for fiscal year 1994.

This supplemental language request would provide funding for two major areas required in the North American Free Trade Agreement (NAFTA) Labor Supplemental Agreement: the activities of an International Secretariat and establishment of the National Administrative Office within the U.S. Department of Labor.

DEPARTMENT-WIDE

SALARIES AND EXPENSES

(Supplemental now requested, existing legislation)

The amounts made available in Public Law 103-112 for salaries and expenses and administrative costs of the Department of Labor are reduced by \$2,250,000.

71.00 Total obligations		670,000	
90.00 Outlays		670,000	

This supplemental request would fund a portion of the United States' 1994 share of the expenses of United Nations peacekeeping operations. This includes peacekeeping activities initiated by the UN in Rwanda, Georgia, Haiti, and Liberia and others that the UN will extend or expand in Yugoslavia, Somalia, Angola and Mozambique. The new forces in Rwanda, Georgia, Haiti, and Liberia and the other expanded forces were not anticipated in the 1994 budget request.

Department of Transportation FEDERAL HIGHWAY ADMINISTRATION

FEDERAL-AID HIGHWAYS (HIGHWAY TRUST FUND)

(Supplemental now requested, existing legislation)

For an additional amount for "Federal-aid highways" for emergency expenses resulting from the Loma Prieta earthquake of October 17, 1989, as authorized by 23 U.S.C. 125, \$315,000,000, to be derived from the Highway Trust Fund and to remain available until expended: Provided, That such amount is designated by Congress as an emergency requirement pursuant to section 251(b)(2)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

74.49 U.S. Securities: Contract authority		15,946	6,031
90.00 Outlays		34,077	170,842

This supplemental request would provide additional funds for the Emergency Relief program to repair highway damage resulting from the Loma-Prieta earthquake. The Emergency Relief program allows the Secretary of Transportation to provide assistance to States whose highways and bridges may be damaged during a natural disaster.

This funding would allow work to continue on the repair and replacement of highways damaged during the earthquake. The request is consistent with the practice of restoring highway facilities damaged in disasters.

The entire amount requested is designated by the President as an emergency requirement pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

FEDERAL RAILROAD ADMINISTRATION

PENNSYLVANIA STATION REDEVELOPMENT PROJECT (Supplemental now requested, existing legislation)

For grants to the National Railroad Passenger Corporation, \$10,000,000, to remain available until expended, for engineering and design activities to enable the James A. Farley Post Office in New York City to be used as a train station and commercial center: Provided, That the Secretary may retain from these funds such amounts as the Secretary shall deem appropriate to undertake the environmental and historic preservation analyses associated with this project.

This supplemental request would allow for schematic design work, asbestos abatement planning, preliminary environmental impact statement, and structural remediation of Penn Station and the James A. Farley Post Office in New York City. This would permit construction to begin in October, 1994, and would bring Amtrak roughly on schedule for this five-year project.

TRUST FUND SHARE OF NEXT GENERATION RAIL TECHNOLOGY DEVELOPMENT (HIGHWAY TRUST FUND)

(Supplemental now requested, existing legislation)

The obligation limitation for the "High-Speed Ground Transportation" program in Public Law 103-122 is amended by deleting "\$3,500,000" and inserting "\$7,952,000".

74.49 Obligated balance, end of year: Contract authority		-2,671	-890
90.00 Outlays		1,781	1,701

This supplemental request would increase the obligation limitation to provide for research to overcome technical and other barriers to the advancement of high speed rail technology and for the technology transfer of results to industry. It would also provide for demonstrations of new rail technologies.

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

This supplemental language request, transmitted November 1, 1993, would consolidate 14 appropriations accounts for the Office of the Secretary of Transportation into one account. This will streamline the operations of the Office of the Secretary. Section 316 of the 1994 Department of Transportation and Related Agencies Appropriations Act provides transfer authority among the 14 accounts and would be unnecessary for the consolidated account.

GENERAL PROVISION

(Supplemental now requested, existing legislation)

Section 310(c)(3) of the Department of Transportation and Related Agencies Appropriations Act, 1994, is amended by—
(a) inserting "6005," after "6001,"; and

(b) inserting “: Provided, That notwithstanding any other provision of law, amounts made available under section 6005 of Public Law 102-240 shall be subject to the obligation limitation for Federal-aid highways and highway-safety construction programs under the head “Federal-Aid Highways” in this Act” after “section 104(a) of Title 23, United States Code”.

This supplemental language request would make the applied research and technology program and the seismic research program subject to the 1994 obligation limitation. This is consistent with all other highway research activities.

Credit financing accounts disburse funds and receive various payments and fees. When cash balances result from an excess of receipts over outlays, these balances are deposited with Treasury and earn interest. This account pays such interest to credit financing accounts from the general fund of the Treasury in accordance with section 505(c) of the Federal Credit Reform Act of 1990. The estimates of interest paid by this fund are derived from the estimates of interest received in the various credit financing accounts under supplemental requests.

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

SALARIES AND EXPENSES

This supplemental language request, transmitted November 1, 1993, would repeal a provision that prohibits the use of funds to implement any reorganization of the Bureau or to transfer its functions, missions, or activities to other agencies or departments during 1994. This provision would unnecessarily limit the Department's discretion to reorganize the Bureau or to transfer the Bureau to other agencies during 1995. This discretion is critical to streamlining the Bureau by cutting red tape, improving service to customers, empowering employees to get results, and cutting back to basics.

UNITED STATES CUSTOMS SERVICE

SALARIES AND EXPENSES

This supplemental language request, transmitted November 1, 1993, would repeal two provisions of the 1994 Department of the Treasury, Postal Service, and General Government Appropriations Act. The first provision proposed for repeal prohibits the use of funds to reduce the presence of Customs Service personnel at airports to single eight-hour shifts, and mandates that all current services provided by the Customs Service continue through September 30, 1994. The second

provision proposed for repeal requires that not less than \$750 thousand shall be expended for additional part-time and temporary positions on the Honolulu Customs District. Both provisions unnecessarily limit the Department's discretion to manage Customs personnel and resources. This discretion is critical to streamlining the Customs Service by cutting red tape, improving service to customers, empowering employees to get results, and cutting back to basics.

TREASURY DEPARTMENT—GENERAL PROVISIONS

This supplemental language request, transmitted November 1, 1993, would repeal sections 105 and 106 of the 1994 Department of the Treasury, Postal Service, and General Government Appropriations Act. Section 105 directs the Secretary of the Treasury to establish an Office of the Undersecretary of Enforcement no later than February 15, 1994. This provision would add an unnecessary, additional management layer to the Department of the Treasury. The existing Assistant Secretary of Enforcement keeps the Secretary fully apprised of all significant law enforcement policy issues. Major law enforcement decisions and resolution of law enforcement problems will continue to require the personal involvement of the Secretary. A new Undersecretary is not needed.

Section 106 directs the Secretary of the Treasury to exempt all law enforcement personnel from the 1993 base used to calculate the personnel reductions required by Executive Order No. 12839. This provision protects the law enforcement bureaus from personnel reductions and unfairly shifts the burden of additional employment reductions to other Treasury bureaus.

TITLE V—GENERAL PROVISIONS

This supplemental language request, transmitted November 1, 1993, would repeal sections 505 and 519 of the 1994 Department of the Treasury, Postal Service, and General Government Appropriations Act. Section 505 (“Edgar Amendment”) restricts the General Services Administration from contracting out certain functions. This provision interferes with results and hinders the effective implementation of programs.

Section 519 prohibits the use of funds to reduce the rank or rate of pay of a career appointee in the Senior Executive Service (SES) upon reassignment or transfer. This provision unduly restricts Executive Branch flexibility in managing senior executive personnel. Moreover, it is unneeded because current policy prohibits a reduction in rank or rate of pay for a career SES member, except in cases of poor performance or disciplinary action resulting from misconduct (Federal Personnel Manual letter 920-22, January 23, 1992).

RURAL ELECTRIFICATION ADMINISTRATION/FEDERAL FINANCING BANK

This supplemental language request, transmitted November 1, 1993, would nullify language in Public Law 103-129, the “Rural Electrification Loan Restructuring Act of 1993,” signed into law on November 1, 1993. The objectionable language allows Rural Electrification Administration (REA) borrowers who refinance with the Federal Financing Bank to purchase a 7 percent interest rate cap on a portion of their refinanced loan. The 7 percent cap is a potential additional subsidy to rural power supply cooperatives and is strongly opposed by the Administration. This proposal would result in no savings or costs, since current Administration interest rate projections do not forecast rates exceeding 7 percent. However, experience with Federal credit programs indicates that such fixed interest rate ceilings produce unpredictable and unintended vari-

WATER INFRASTRUCTURE STATE REVOLVING FUNDS

(Supplemental now requested, existing legislation)

Of the funds made available under this heading in Public Law 103-124, the \$500,000,000 earmarked to not become available until May 31, 1994, shall instead not become available until September 30, 1994.

This supplemental request would delay the availability of wastewater infrastructure funding targeted to cities with unique circumstances until September 30, 1994. This delay in obligations would give Congress additional time to enact the authorizing legislation needed to make those targeted funds available.

National Aeronautics and Space Administration

RESEARCH AND DEVELOPMENT

(Amended language supplemental now requested, existing legislation)

The second proviso under this heading in Public Law 103-124 is amended to read as follows: "Provided further, That of the funds provided under this heading, for the redesigned Space Station, (1) not to exceed \$160,000,000 shall be for termination costs connected only with Space Station Freedom contracts, (2) not to exceed \$172,000,000 shall be for space station operations and utilization capability development, and (3) not to exceed \$99,000,000 shall be for supporting development."

The fifth and sixth provisos under this heading in Public Law 103-124 are deleted and the fourth proviso thereunder is amended to read: "Provided further, That of the funds made available under this heading, not to exceed \$117,200,000 shall be available for activities to support cooperative space ventures between the United States and the Republic of Russia outlined in the joint agreement of September 2, 1993."

This first supplemental language request would delete the limitation of \$1,946 million for the redesigned space station. NASA's space station contractor will not sign the current space station contract if termination costs are restricted. This change would permit all funds in this account to be a possible source for potential termination costs (beyond the \$160 million that is specific to the old Space Station Freedom).

The second supplemental language request, originally transmitted November 1, 1993, would provide NASA the flexibility to purchase hardware from the Republic of Russia for the redesigned Space Station should such purchase be deemed necessary for the successful construction of the Station. The proposal better reflects the agreement signed by Vice President Gore and Russian Prime Minister Chernomyrdin on September 2, 1993. Restricting the use of the \$100 million made available for the U.S./Russian cooperative space flight program is inconsistent with that agreement. The amended request would increase the amount available for cooperative space ventures to \$117.2 million based on revised cost estimates.

This supplemental request would provide \$46.0 million to fund the locality pay adjustment for civil service employees that was effective in January 1994. It would also provide \$14.0 million to fund the personnel compensation required to keep a larger workforce than the agency anticipated, due to such factors as a severely depressed attrition rate and lack of authority to encourage eligible employees to retire.

TITLE VI—GENERAL PROVISIONS

This supplemental language request, transmitted November 1, 1993, would repeal section 604 of the 1994 Department of the Treasury, Postal Service, and General Government Appropriations Act. This section limits the amount Federal agencies can pay for passenger motor vehicles. This provision interferes with results and hinders the effective implementation of programs. In some cases, agencies are unable to procure all of the needed sedans under the spending limits and, instead, purchase light trucks that are more expensive, but do not have a mandated maximum spending limit.

Title VI of Public Law 103-123 is amended by adding the following new section:

SEC. 630. None of the funds provided in any appropriations Act for fiscal year 1995 may be obligated for any grant for research by a grantee who was awarded a grant in fiscal year 1994 or prior years and who reported grant outlays in excess of \$10,000,000 in fiscal year 1994, unless such grantee accepts the following grant conditions for any fiscal year 1995 grant:

(a) the grantee agrees to notify the agency from which it receives the largest amount of grants of the amount of any increased indirect expense; and

(b) the grantee agrees to the permanent cancellation, in an amount that equals the amount of the increased indirect expense, of its claims for the portion of unliquidated obligations from prior year research grants that comprise the indirect expense allocated to the Federal Government.

As used in this section, the term "increased indirect expense" means the amount by which the grantee's claim for indirect expense allocated to the federal government for research grants for fiscal year 1995 exceeds the amount of such claim for fiscal year 1994.

The Federal Government awards approximately \$17 billion in research grants each year to universities and other non-profit institutions, including over \$3 billion for payment of overhead costs. In a year in which total discretionary spending is being frozen, and government administrative costs are being aggressively reduced, it is necessary to ask universities and other non-profit institutions to participate in this restraint. Instead of a permanent cut or cap on overhead payments, this supplemental budget request proposes (and the 1995 budget assumes) a one-year pause that instructs grantee institutions not to seek additional payments for overhead above amounts claimed in 1994. This year-long pause will provide time for the Council of Economic Advisers, the Office of Science and Technology Policy, and the Office of Management and Budget—with advice from representatives of affected institutions—to conduct a comprehensive review with an objective of improving the incentives that govern overhead payments for a wide range of Federal research and development grantees and contractors. It should be noted that this review, part of the Administration's ongoing effort to reinvent government, comes in the context of overall increases in key research areas such as the National Institutes of Health, the National Science Foundation, and the Commerce Department's Advanced Technology Program.

TITLE VIII—GENERAL PROVISIONS

This supplemental language request, transmitted November 1, 1993, would amend section 802 to provide authority for all agencies, not just those funded by the 1994 Department

of the Treasury, Postal Service, and General Government Appropriations Act, to carry over 50 percent of unobligated balances remaining available at the end of 1994 from appropria-

tions made available for salaries and expenses. This provision would implement a National Performance Review recommendation for streamlining the budget process.

RESCISSION PROPOSALS

Under the provisions of the Impoundment Control Act of 1974 (Public Law 93-344), whenever the President proposes a rescission of enacted appropriations, a special message must be sent to the Congress giving details of the proposals. Included below are related budget schedules and narrative explanations of proposals transmitted November 1, 1993, as well as additional proposals being transmitted separately in a special message.

74.40 Obligated balance, end of year: Treasury balance		3,409	
90.00 Outlays		-12,824	-3,409

This proposal, transmitted November 1, 1993, reflects savings from the proposed elimination of lower-priority research projects, such as those for which alternative sources of funding are available from State or local governments, industry, or others. Adequate funding would remain to allow ARS scientists to perform high-priority, nationwide research in areas such as natural resource protection, food quality, and improved agricultural production practices (including sustainable agriculture methods).

90.00 Outlays		-1,269	-4,238

This proposal, transmitted November 1, 1993, reflects savings from the elimination of congressional earmarks directing resources to be used for specific new construction. The re-

maining resources would be used to finance renovation projects at the agency's regional research centers and address serious environmental and safety defects at other ARS facilities. Many of the agency's existing facilities are almost 50 years old, and are in need of major renovations in order to allow the agency to do state-of-the-art research and for the facilities to meet State and local environmental and safety codes. New construction of research facilities is often not needed because sufficient space is available at existing laboratories to house agency personnel if these labs are renovated.

74.40 Obligated balance, end of year: Treasury balance		27,002	18,001
90.00 Outlays		-3,600	-9,861

This proposal, transmitted November 1, 1993, reflects savings from the elimination of lower-priority earmarked research grants. These grants were not peer-reviewed or competitively awarded, and are largely targeted to address local, rather than regional or national, needs. Sufficient funding would remain available to continue the highest-priority projects as determined by the Administrator of the CSRS. Also, funding would be available through the National Research Initiative competitive grants program for meritorious projects focusing on basic research addressing regional or national needs.

90.00	Outlays	-1,700	-3,400

This proposal, transmitted November 1, 1993, reflects savings from eliminating the construction of lower-priority research facilities congressionally earmarked for particular States and universities. The funds were not awarded competitively or peer-reviewed, and most projects are for local, not national, priorities. The remaining 1994 funds would be allocated to the highest national priority projects, as determined by the Secretary of Agriculture, with special emphasis on projects that can be completed in 1994.

This proposal, transmitted November 1, 1993, reflects savings resulting from implementing the National Performance Review (NPR) proposal to reorganize the Department. The Secretary of Agriculture plans to reorganize the Department and streamline its operations both in the field and at the Headquarters level. Under this proposal, ASCS field offices would merge with parts of the Farmers Home Administration to form the new Farm Service Agency. This would result in significant personnel reductions and administrative cost efficiencies.

Direct loan levels supportable by subsidy budget authority:			
1150	Credit sales of acquired property	-30,668	
1159	Total direct loan levels	-30,668	

This proposal reflects the fact that the subsidy budget authority appropriated for 1994 is in excess of amounts necessary to fund estimated loan levels included in the appropriations act due to the re-estimate of subsidy rates for the first quarter of 1994. (In some cases, subsidy rates are nearly half of those assumed in the April 1993 budget.) The current forecast of Treasury (discount) rates for the remainder of 1994 is for little change in the rates. Even after this proposed rescission, total loan obligations should be greater than those estimated in the 1994 appropriations act.

1349 Total subsidy outlays		-1,115	-2,712

The first proposal, transmitted November 1, 1993, reflects savings from returning telephone hardship funding to its historical proportion of 30 percent of total REA electric and telephone hardship loan provided. This proposal would reduce

these 5 percent loans by \$50 million from the estimated loans assumed in the 1994 appropriations act.

A second proposal reflects the fact that the subsidy budget authority appropriated for 1994 is in excess of amounts necessary to fund estimated loan levels included in the appropriations act due to the re-estimate of subsidy rates for the first quarter of 1994. (In some cases, subsidy rates are nearly half of those assumed in the April 1993 budget.) The current forecast of Treasury (discount) rates for the remainder of 1994 is for little change in the rates. Even after this proposed rescission, total loan obligations should be greater than those estimated in the 1994 appropriations act, except for 5 percent direct telephone loans. The remaining loan level for this category of direct loan should be sufficient to meet expected demand (\$30 million). The 1993 REA loan program reforms enacted after the appropriations act significantly changed eligibility requirements.

This proposal, transmitted November 1, 1993, reflects savings resulting from implementing the National Performance Review (NPR) proposal to reorganize the Department. The Secretary of Agriculture plans to reorganize the Department and streamline its operations both in the field and at the Headquarters level. Under this proposal, a number of agencies would be eliminated and four new entities would be created along functional lines: the Farm Service Agency, the Rural Utilities Service, the Rural Business and Cooperative Development Service, and the Rural Community Development Service. This would result in more efficient service delivery to FmHA clients, significant personnel reductions, and administrative cost efficiencies.

Summary of Loan Levels, Subsidy Budget Authority and Outlays by Program (in thousands of dollars)

Identification code 12-2081-5-1-371	1993 actual	1994 est.	1995 est.
Direct loan levels supportable by subsidy budget authority:			
1150 Single family		-7,734	
1150 Multi-family		-22,802	
1150 Housing repair		-3,380	
1150 Farm labor housing		-995	
1159 Total direct loan levels		-34,911	

This proposal reflects the fact that the subsidy budget authority appropriated for 1994 is in excess of amounts necessary to fund estimated loan levels included in the appropriations act due to the re-estimate of subsidy rates for the first quarter of 1994. (In some cases, subsidy rates are nearly half of those assumed in the April 1993 budget.) The current forecast of Treasury (discount) rates for the remainder of 1994 is for little change in the rates. Even after this proposed rescission, total loan obligations should be greater than those estimated in the 1994 appropriations act.

74.40 Obligated balance, end of year: Treasury balance		59,010	16,090
90.00 Outlays		-48,290	-42,920

The first proposal would eliminate funding for the large-scale Superconducting Magnetic Energy Storage (SMES) program, for which funds were added in 1994 in the Energy Storage activity within the Solar and Renewable Energy program. The SMES program would continue technology efforts previously funded within the Defense Nuclear Agency to develop SMES as part of a DOD "Star Wars" directed-energy weapon system. DOD has not requested funds for the SMES activity in recent years. The program is presented as a dual-use technology with defense and utility applications, but the current program has no commercially viable prospects in the utility industry.

The second proposal, transmitted November 1, 1993, reflects savings in the nuclear fission program from the elimination of unnecessary nuclear research and development and the shutdown of unneeded nuclear reactors. These reactors include the High-temperature Gas-cooled Reactor; the test reactors supporting the Advanced Liquid Metal Reactor, including the Experimental Breeder Reactor-II; and the SP-100 space reactor.

90.00 Outlays		-42,000	

This proposal, transmitted November 1, 1993, reflects savings from the elimination of the Atomic Vapor Laser Isotope Separation project. The balances after the rescission, plus the cash-flow from the U.S. Enrichment Corporation, will be sufficient to fund all necessary future activities.

90.00	Outlays	-5,000	-30,500

This proposal, transmitted November 1, 1993, reflects savings of \$130 million of the \$3.2 billion appropriated in 1994 for the modernization of public and Indian housing under the Comprehensive Grant program. The remaining current backlog of \$9 billion in unspent funds is sufficient for immediate needs. An additional \$50 million appropriated in 1994 for the Lead-based paint hazard reduction program cannot be effectively used in 1994 because of a shortage of people trained and certified to perform inspection, reduction, and abatement work.

The first proposal, transmitted November 1, 1993, reflects savings from eliminating funding provided by annual appropriations acts from all unauthorized highway demonstration projects that are not under construction. Such highway projects should compete for funds through the normal allocation and planning processes within the Federal-aid highways grants program.

A second proposal would rescind savings from the elimination of selected highway demonstration projects. Such projects should compete for funds through the normal allocation and planning processes at the State level.

The second proposal is consistent with and in addition to the November 1, 1993 proposal.

In its reports, the General Accounting Office has found that such highway demonstration project completion costs will greatly exceed authorized Federal and State contributions, and that State officials are uncertain where they will find more funding. The rescission of these funds is in accordance with the recommendations of the Vice President's National Performance Review.

This proposal would rescind savings from the elimination of selected highway demonstration projects. Such projects should compete for funds through the normal allocation and planning processes within the Federal-aid highways grant program.

In its reports, the General Accounting Office has found that such highway demonstration project completion costs will greatly exceed authorized Federal and State contributions, and that State officials are uncertain where they will find more funding. The rescission of these funds is in accordance with the recommendations of the Vice President's National Performance Review.

90.00	Outlays	-7,538	-22,779

The first proposal, transmitted November 1, 1993, reflects savings from eliminating funding provided by annual appropriations acts from all unauthorized highway demonstration projects that are not under construction. Such highway projects should compete for funds through the normal allocation and planning processes within the Federal-aid highways grants program.

A second proposal would rescind savings resulting from the elimination of selected highway demonstration projects. Such projects should compete for funds through the normal allocation and planning processes at the State level.

The second proposal is consistent with and in addition to the November 1, 1993 proposal.

In its reports, the General Accounting Office has found that such highway demonstration project completion costs will greatly exceed authorized Federal and State contributions, and that State officials are uncertain where they will find more funding. The rescission of these funds is an accordance with the recommendations of the Vice President's National Performance Review.

This proposal, transmitted November 1, 1993, reflects savings by eliminating funding for all new start and bus earmarks that are at least three years old (i.e., 1991 and prior year earmarks), but have not yet been obligated. Projects that are at least three years behind schedule should be reconsidered for funding by Congress to determine if the projects are still needed and if factors leading to earmarking of the projects in the first place are still valid.

90.00 Outlays		-2,420	-330

This proposal, transmitted November 1, 1993, includes savings from the elimination of a subsidy to the Mid-American Aviation Resource Consortium (MARC). The 1993 appropriation is sufficient to fund MARC activities through 1994. Furthermore, Federal subsidies are not required to maintain this private training program. Of the five schools currently operating a private air traffic controller training program, only MARC receives a Federal subsidy. The proposal also would eliminate Federal grants to vocational technical institutions to support aircraft maintenance programs. There are enough trained personnel to meet the need for maintenance technicians and there are numerous privately funded, self-supporting training programs that are more than adequate to meet industry's needs.

AMENDMENTS TO AND REVISIONS IN BUDGET AUTHORITY FOR 1994

(Between the Transmittal of the 1994 and 1995 Budgets)

A statement of all amendments to or revisions in budget authority requested between transmittal of the 1994 budget and the 1995 budget is presented below. This statement is being included in the budget in accordance with the Congressional Budget Act of 1974 (31 U.S.C. 1105(d)).

The modifications to requests for 1994 budget authority that were made through the course of the past year took three forms. If the Congress had not yet acted on a pending request, the President sent amendments to the budget requests transmitted in April 1993. If appropriations had been enacted, the President proposed either supplemental budget authority or rescission of enacted appropriations.

Amendments and requests for supplemental appropriations are printed in the documents of the House of Representatives and the Senate that are identified on the following listing. The President's proposals for rescissions are included in special messages to the Congress under the Impoundment Control Act of 1974 (Public Law 93-344). Both the special messages and monthly cumulative reports on the items they cover are printed in the *Federal Register*.

There are 37 rescissions currently pending before the Congress, which were transmitted to Congress in a special message on November 1, 1993. These rescission proposals, as well as new rescission proposals associated with the 1995 budget, are shown in the preceding section.

ADVANCE APPROPRIATIONS, ADVANCE FUNDING, AND FORWARD FUNDING FOR 1995

I. An advance appropriation is one made to become available one fiscal year or more beyond the fiscal year for which the appropriation act is passed. Advance appropriations in fiscal year 1995 appropriations acts will become available for programs in 1996 or beyond. Since these appropriations are not available until after fiscal year 1995, the amounts will not be included in fiscal year 1995 budget totals, but will be reflected in the budget totals for the fiscal year for which they are requested.

The Congressional Budget Act of 1974 (31 U.S.C. 1105(a)(17)) requires inclusion in the budget of "information on estimates of appropriations for the fiscal year following the fiscal year for which the budget is submitted for grants, contracts, and other payments under each program for which there is an authorization of appropriations for that following fiscal year when the appropriations are authorized to be included in an appropriation law for the fiscal year before the fiscal year in which the appropriation is to be available for obligation." In fulfillment of this requirement, the table below lists those accounts authorized to receive, in fiscal year 1995, advance appropriations for fiscal year 1996 and beyond and cites the authorizing statute. The listing is in two parts: Part A shows the amounts of advance appropriations included in the 1995 budget. Part B is a listing of accounts for which advance appropriations are authorized but not requested in the 1995 budget.

A. Accounts for which advance appropriations are included in the 1995 budget:

Department of Energy:

Clean coal technology (42 U.S.C. 5901 et seq.), \$73,921 thousand for 1996.

Department of Health and Human Services, except Social Security:

Grants to States for Medicaid (42 U.S.C., sec. 1396) \$27,047,717 thousand for 1996.

Special benefits for disabled coal miners (30 U.S.C., sec. 921) \$180,000 thousand for 1996.

Supplemental security income program (42 U.S.C., sec. 1381) \$7,060,000 thousand for 1996.

Family support payments to States (42 U.S.C., secs. 601 and 651) \$4,400,000 thousand for 1996.

Low income home energy assistance programs (P.L. 97-35) \$745,000 thousand for 1996.

Department of Agriculture:

Food stamp program (7 U.S.C. 2011-2027, 2029) \$7,200,000 thousand for 1996.

Department of Housing and Urban Development:

Assistance for the renewal of expiring section 8 subsidy contracts (42 U.S.C. 1437) \$800,000 thousand for 1996.

Corporation for Public Broadcasting: Public broadcasting fund \$312,000 thousand for 1996 and \$292,640 thousand for 1997.

B. Accounts authorized to receive advance appropriations but for which none are requested in the 1995 budget:

Department of Agriculture:

Food program administration (42 U.S.C., sec. 1752).

Food donations program (P.L. 93-29, sec. 209).

Child nutrition programs (42 U.S.C., sec. 1752).

Department of Education. The following activities are authorized to receive advance appropriations (20 U.S.C. 1223 and 29 U.S.C. 703):¹

Compensatory education for the disadvantaged.

Impact aid.

School improvement programs.

Indian education.

Bilingual and immigrant education.

Special education.

American Printing House for the Blind.

National Technical Institute for the Deaf.

Gallaudet University.

Rehabilitation services and disability research.

Vocational and adult education.

Student financial assistance.

Federal family education loans.

Higher education.

Higher education facilities loans and insurance.

College housing and academic facilities loans.

Howard University.

Education, research, statistics, and improvement.

Libraries.

Department of Health and Human Services:

Payments to States for foster care and adoption assistance (P.L. 96-272).

ACF service programs (P.L. 101-501, sec. 657, P.L. 89-73 as amended, sec. 209, P.L. 96-272).

¹These statutes erroneously refer to "advance funding". Since these statutes describe and clearly intend to provide advance appropriations, the affected accounts are listed here.

II. Advance funding is budget authority that is to be charged to the appropriation in the succeeding year but which authorizes obligations to be incurred in the last quarter of the fiscal year if necessary to meet higher than anticipated benefit payments in excess of the specific amount appropriated for the year. When such budget authority is used, an adjustment is made to increase the budget authority for the fiscal year in which it is used and to reduce the budget authority of the succeeding fiscal year. Essentially, this is a device for avoiding supplemental requests late in the fiscal year for certain programs, should the appropriations for the current year prove to be low. The table below lists those accounts for which advance funding authority is requested in the 1995 budget.

Department of Labor:

Special benefits.

Black lung disability trust fund.

Federal unemployment benefits and allowances.

Department of Veterans Affairs:

Veterans insurance and indemnities.

Burial benefits and miscellaneous assistance.

Readjustment benefits.

III. Forward funding is budget authority that is made available for obligation beginning in the last quarter of the fiscal year for the financing of ongoing grant programs during the next succeeding fiscal year. The budget authority for such programs is included in the budget totals for the year in which it is appropriated. This device is often used for education programs, so that grants can be made on a school year basis. The language providing forward funding for education programs will specify that amounts appropriated, in most but not all cases, will not be available until some time into the year of the appropriation (e.g., July 1, 1994) and in most cases will specify that such amounts will remain available until the end of the succeeding fiscal year. In other cases (e.g., Federal Pell grants), the funds become available on October 1st but are not normally obligated until July 1st or later and are available for obligation for an additional year. The table below lists those accounts for which forward funding exists or is requested in whole or in part in the 1995 budget.

Department of Education:

Compensatory education for the disadvantaged.
School improvement programs.
Education reform.
Special education.
Vocational and adult education.
Indian education.
Student financial assistance.
Education, research, statistics, and improvement.

Department of the Interior:

Operation of Indian Programs.

In the training and employment area, forward funding provides appropriations for a program year that starts on July

1st of the fiscal year of the appropriation. Financing extends through June 30th of the following fiscal year. Program years are authorized for training programs under the Job Training Partnership Act, operation of the State Employment Service under section 6 of the Wagner-Peyser Act, and senior citizen employment programs under Title V of the Older Americans Act. The table below lists accounts for which forward funding is requested in the 1995 budget.

Department of Labor:

Training and employment services.
Community service employment for older Americans.
State unemployment insurance and employment service operations.

GOVERNMENT-SPONSORED ENTERPRISES

This chapter contains descriptions of and data on the Government-sponsored enterprises listed below. These enterprises were established and chartered by the Federal Government. They are not included in the Federal budget because they are classified as being private. However, because of their relationship to the Government, detailed statements of financial operations and condition are presented, to the extent such information is available, on a basis that is as consistent as practicable with the basis for the budget data of Government agencies. These statements are not reviewed by the President; they are presented as submitted by the enterprises.

- The Student Loan Marketing Association is a for-profit financial corporation chartered by Congress in 1972 under the Higher Education Act (HEA) to help increase the availability of student loans. Sallie Mae carries out secondary market and other functions.
- The College Construction Loan Insurance Association is organized as a private, for-profit insurance corporation to guarantee and insure bonds and loans made for construction and renovation of college and university facilities. The Corporation was established by, but was not chartered by, the Federal Government.
- The Federal National Mortgage Association provides supplementary assistance to the secondary market for home mortgages. The Federal Home Loan Mortgage Corporation provides a secondary market for mortgage lenders. Both are supervised by the Department of Housing and Urban Development for their roles in helping to finance low- and moderate-income housing; both are regulated for financial safety and soundness by the newly established Office of Federal Housing Enterprise Oversight.
- The Banks for Cooperatives and Farm Credit Banks provide financial assistance to agriculture. They are supervised by the Farm Credit Administration.
- The Federal Agricultural Mortgage Corporation, under the supervision of the Farm Credit Administration, provides a secondary mortgage market for agricultural real estate and certain rural housing loans as well as for farm and business loans guaranteed by the U.S. Department of Agriculture.
- The Federal Home Loan Banks, which assists thrift institutions, banks, and credit unions is supervised by the Federal Housing Finance Board.
- The Financing Corporation functions as a financing vehicle for the FSLIC Resolution Fund. It operates under the supervision and control of the Federal Housing Finance Board.
- The Resolution Funding Corporation provides financing for the Resolution Trust Corporation (RTC) and is subject to the general oversight and direction of the Oversight Board of the RTC. It is owned by the Home Loan Banks.

The Board of Governors of the Federal Reserve System is not a Government-sponsored enterprise, but its transactions also are not included in the budget because of its unique status in the conduct of monetary policy. The Board provides data on its administrative budget on a calendar year basis, which is included here for information. Its budget schedules and statements are not subject to review by the President.

¹ Amortization of discount on purchased loans.

The Student Loan Marketing Association (Sallie Mae), a shareholder-owned corporation, was created by the Education Amendments of 1972 to expand funds available for student loans by providing liquidity to lenders engaged in the Federal Family Education Loan Program (FFELP), formerly the guaranteed student loan program (GSLP).

STUDENT LOAN MARKETING ASSOCIATION—Continued

Sallie Mae provides liquidity through direct purchase of insured student loans from eligible lenders and through warehousing advances, which are loans to lenders secured by insured student loans, Government or agency securities, or other acceptable collateral. In capital shortage areas, Sallie Mae is authorized, at the request of Federal officials, to make insured loans directly to students. Sallie Mae is authorized to advance funds to State agencies that will provide loans to students. Sallie Mae is also authorized to provide a secondary market for noninsured loans; to serve as a guarantee agency in support of loan availability at the request of the Secretary of Education; to purchase and underwrite student loan revenue bonds; to provide certain additional services as determined by its board of directors to be supportive of the credit needs of students generally; and to provide financing for academic facilities and equipment.

Sallie Mae is authorized by the Health Professions Educational Assistance Act of 1976 to provide a secondary market for federally insured loans to graduate health professions students.

Operations.—The forecast data with respect to operations are based on certain general economic and specific FFELP loan volume assumptions and should not be relied upon as an official forecast of the corporation's future business.

Financing.—Between 1974 and early 1982, Sallie Mae borrowed through the Federal Financing Bank. The Secretary of Education was authorized by the Education Amendments of 1980 to guarantee principal and interest on such obligations issued prior to October 1, 1985. Under an agreement with the Department of the Treasury reached in early 1981, Sallie Mae began borrowing directly in the private capital markets. Its last borrowing through the FFB and its last issuance of federally guaranteed obligations occurred in January 1982. Its obligations today have certain characteristics, provided by charter, which give them "agency" status, but they are not federally insured or guaranteed.

Management.—At its annual meeting in May 1993, the shareholders of Sallie Mae elected 14 members to its board of directors to serve until May 1994. The shareholders of Sallie Mae are entitled to elect 14 members to the board. Pursuant to the Education Amendments of 1972, seven public directors are appointed by the President, who also names the chairman from among the 21 members.

COLLEGE CONSTRUCTION LOAN INSURANCE ASSOCIATION

The College Construction Loan Insurance Association (Connie Lee) was authorized by Public Law 99-498 on October 17, 1986. The Corporation was created to insure and

reinsure bonds and loans of educational institutions which borrow funds to finance the acquisition, construction, or renovation of their facilities. The Association was incorporated in February 1987, under the District of Columbia Business Corporation Act.

Connie Lee's authorizing statute states that "no obligation which is insured, guaranteed, or otherwise backed by the corporation, shall be deemed to be an obligation which is guaranteed by the full faith and credit of the United States."

Operations.—Connie Lee is structured to operate as a private corporation, subject to the same state laws and regulations as any other insurance company. Accordingly, Connie Lee secures insurance licenses in each of the various states in which it expects to conduct its insurance activities.

The Board of Directors authorized management to begin activities as a reinsurer of educational facilities bonds in 1988. Connie Lee reinsured its first bonds in December 1988. In fiscal year 1993, Connie Lee provided guarantees on \$1.8 billion of bonds benefitting colleges, universities and teaching hospitals.

Connie Lee also provided reinsurance on bonds representing \$200 million of debt service.

The forecast data contained in this material are based on certain general economic assumptions and should not be construed as an official forecast of the Corporation's position.

Financing.—In order to provide capitalization, the Secretary of Education, the Student Loan Marketing Association (Sallie Mae), and other investors are authorized to purchase stock in the corporation. Sallie Mae made an initial investment of \$2 million in Connie Lee stock in fiscal year 1987. The Secretary of Education purchased \$19.1 million in Connie Lee stock with funds appropriated for this purpose in fiscal year 1988. Subsequently, the corporation sold an additional \$50.9 million of equity securities to Sallie Mae, increasing total capital of the corporation to \$72.0 million. At the end of 1991, Connie Lee placed equity securities with private investors, providing sufficient incremental capital to obtain a triple-A credit rating necessary to engage in the financial guaranty business as a direct writer of insurance.

Fannie Mae is a company wholly owned by private investors and known as a Government-sponsored enterprise. It is dedicated by its Congressional charter to engage only in the business of housing finance through the secondary market for residential mortgages. The common stock of the corporation is owned by the public, is fully transferable, and is listed on major stock exchanges.

Fannie Mae was established in 1938 to ensure a consistent supply of affordable mortgage funds throughout the country and in all economic circumstances. Originally limited to investments in mortgages insured or guaranteed by the Federal Government, Fannie Mae received an expanded mandate in 1970 from the Congress to increase the availability and decrease the cost of non-subsidized mortgage financing.

Fannie Mae introduced mortgage underwriting guidelines and documents that serve as industry standards, and supported the development of a secondary mortgage market. In the past five years alone, Fannie Mae has served over 8.5 million families, providing over \$800 billion for single family mortgage financing. Its primary consumer beneficiaries are low-, moderate-, and middle-income households. In 1993, about 25 percent of the one- to four-unit mortgages it purchased had balances of \$60,000 or less and the average mortgage purchased was about \$95,000. Also, about 30 percent of the single family mortgages and approximately 95 percent of the multifamily mortgages purchased by Fannie Mae served families with incomes at or below the area median income.

Over the last five years, Fannie Mae also has directed more than \$16 billion to local housing markets for the financing of multifamily housing, helping to keep rents affordable for nearly 1 million apartment households.

In 1991, the company announced a program to purchase \$10 billion in mortgage loans for low- and moderate-income families by the end of 1994. As of September 30, 1993, more than one year ahead of schedule, Fannie Mae achieved the program's \$10 billion financing goal through a variety of techniques including innovative products, community outreach efforts, new partnerships, mortgage revenue bond purchases, and multifamily credit enhancement activities.

Fannie Mae has successfully fulfilled its housing mission while continuing to build its financial strength. For the year

ending September 30, 1993, the company earned approximately \$1.8 billion. The company's credit experience, as measured by loan delinquencies, has continued to be substantially better than that of the entire mortgage industry. In addition, the company has been immune from the sizable interest rate movements experienced over the past several years. Capital (shareholder's equity and loan loss reserves) at the end of September stood at \$8.5 billion. The company is in compliance with applicable capital standards enacted into law in October 1992 (see below).

In 1992, Congress examined and reaffirmed the continuing importance of Fannie Mae to the housing finance delivery system through charter amendments enacted as part of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (the "Act"). Fannie Mae's charter purposes, as amended by the Act, are: "to provide stability in the secondary market for residential mortgages; respond appropriately to the private capital market; provide ongoing assistance to the secondary market for residential mortgages (including activities relating to mortgages on housing for low- and moderate-income families involving a reasonable economic return that may be less than the return earned on other activities); and promote access to mortgage credit throughout the Nation (including central cities, rural areas, and underserved areas) by increasing the liquidity of mortgage investments and improving the distribution of investment capital for residential mortgage financing."

The Act establishes affordable housing goals that enhance Fannie Mae's responsibility to finance housing for low- and moderate-income families and housing in central cities and other underserved areas. HUD regulations require Fannie Mae in 1993 to meet a 30 percent goal for the number of units it finances serving low- and moderate-income families and a 28 percent goal for the number of units it finances that are located in central cities. Fannie Mae is also required to meet a 1993-94 special affordable housing goal of at least \$2 billion, over the company's existing performance, that finances housing serving low-income families in low-income areas and very low-income families. The HUD Secretary is responsible for monitoring these goals. The Act also establishes a substantially independent oversight office within HUD headed by a Director. The Director's responsibility is to ensure that Fannie Mae is adequately capitalized and operating safely. The Act provides for three capital standards: a minimum standard, a critical standard, and a risk-based standard. The risk-based capital standard directly links required capital to the company's primary risks: interest rate risk and credit risk. It also includes a component for management and operations risk.

Fannie Mae's charter also includes a number of Government ties intended to compensate it for performing its public purpose and restricting its business to home finance. These ties enable the company to lower mortgage credit costs by financing its operations through debt issues characterized as "Agency" issues in the securities market (but not in the Federal government budget).

Fannie Mae is the nation's largest mortgage investor. Its portfolio and mortgage-backed securities finance about one out of every six mortgages in the United States. Acting as a national intermediary between home buyers and world capital markets, it provides greater efficiency, liquidity, and reliability in part because of its Government ties. Deregulation of financial institutions has made Fannie Mae more important to effective home finance delivery in recent years, by assuring depositories of ready access to mortgage funds when demand outpaces their deposit or capital base.

Fannie Mae has three separate authorities to borrow money from private sources. It may issue subordinated obligations. It may, in addition, borrow amounts through the issuance of debentures and short-term discount notes. Finally, Fannie

Mae may issue bonds secured by mortgages. To generate additional funds for housing, the company guarantees the timely payment of principal and interest on Fannie Mae mortgage-backed securities (MBS). These securities represent beneficial interests in pools of mortgages.

The forecast data contained in this material has been developed based on certain general economic assumptions prevalent in November 1993 and should not be construed as an official forecast of the position of Fannie Mae.

According to accounting practices for private corporations, the mortgages in the pools of loans supporting the mortgage-backed securities are considered to be owned by the holders

FEDERAL NATIONAL MORTGAGE ASSOCIATION—Continued
MORTGAGE-BACKED SECURITIES—Continued

of these securities. Consequently, on the books of the Federal National Mortgage Association (Fannie Mae), these mortgages are not considered assets and the securities outstanding are not considered liabilities. However, the concepts of the budget of the U.S. Government consider these mortgages and mortgage-backed securities to be assets and liabilities, respectively, of Fannie Mae. For the purposes of this document, therefore, they are presented as assets and liabilities in the accompanying schedules. On the schedule of Status of direct loans for mortgage-backed securities, the items labeled "New loans" and "Recoveries: Repayments and prepayments" are budgetary terms. However, from the Corporation's perspective, these items are "Amounts issued" and "Amounts passed through to the holders of securities", respectively.

The forecast data contained in this material has been developed based on certain general economic assumptions prevalent in November 1993 and should not be construed as an official forecast of the Corporation's position.

The Federal Home Loan Mortgage Corporation (Freddie Mac) was created under the Emergency Home Finance Act of 1970. Congress chartered Freddie Mac to provide mortgage lenders with an organized national secondary market enabling them to manage their conventional mortgage portfolio more effectively and gain indirect access to a ready source of additional funds to meet new demands for mortgages. Freddie Mac serves as a conduit facilitating the flow of investment dollars from capital market investors to mortgage lenders and, ultimately, to homebuyers increasing the amount of mortgage credit and making it more affordable.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) significantly changed the corporate governance of Freddie Mac. FIRREA, signed into law in August, 1989, replaced Freddie Mac's three member Board of Directors (who also comprised the Federal Home Loan Bank Board) with a new 18 member Board of Directors. Thirteen of these Directors are elected annually by Freddie Mac's shareholders, and the other five are appointed for one year terms by the President of the United States. In addition, FIRREA automatically converted Freddie Mac's 60 million shares of non-voting, senior participating preferred stock to voting common stock, which is listed on the New York and Pacific Stock Exchanges.

FIRREA also introduced into Freddie Mac's charter the following elaboration of the corporation's mission: "to provide stability in the secondary mortgage market for home mortgages; to respond appropriately to the private capital market; and to provide ongoing assistance to the secondary market for home mortgages (including mortgages securing homes for low- and moderate-income families involving a reasonable economic return to the Corporation) by increasing the liquidity of mortgage investments and improving the distribution of investment capital available for home mortgage financing."

Title XIII of the Housing and Community Development Act of 1992 (The Federal Housing Enterprises Financial Safety and Soundness Act of 1992 or FHEFSSA) strengthened the regulatory oversight of Freddie Mac. It created the Office of Federal Housing Enterprises Oversight (OFHEO), an independent financial safety and soundness regulator within the Department of Housing and Urban Development (HUD), with

HUD retaining oversight authority over Freddie Mac's housing activities. FHEFSSA also established new minimum and risk-based capital standards and three affordable housing goals for Freddie Mac.

These legislative changes enhance Freddie Mac's current ability to identify the needs of homeowners as well as the mortgage finance industry and develop appropriate mortgage purchase and securitization programs to meet those needs in a timely fashion.

Additionally, these programs and security structures have helped Freddie Mac finance one in six American homes and seven-hundred-fifty thousand apartment units at the lowest possible cost. Freddie Mac ensures that lenders throughout the country have equal access to the competitive benefits of the secondary market so that Freddie Mac's presence is felt in every area across the country.

Freddie Mac's role in developing a nationwide network for obtaining mortgage credit involved much more than linking capital rich areas to capital deficit areas. The corporation's mission to create more affordable mortgage credit throughout the country also required standardization and uniformity in the marketplace. Freddie Mac's underwriting guidelines, innovative mortgage programs and mortgage backed securities are the cornerstones to Freddie Mac's commitment to affordable housing.

This commitment is borne out by the corporation's current purchase statistics. Freddie Mac's average single family dwelling loan purchase in 1992 was \$97,000, which is less than half of Freddie Mac's maximum loan amount. In addition, approximately 24 percent of Freddie Mac's loans purchased in 1992 were made available to households earning at or below the median income for their geographic area.

Freddie Mac is also committed to financially safe and sound management. It securitizes nearly all of its mortgages as part of its strategy to minimize interest rate risk. As the Department of the Treasury reported in its May, 1990, study of Government-Sponsored Enterprises (GSEs), Freddie Mac's "exposure to interest rate risk is small," and even under wide swings in interest rates "Freddie Mac's net market value remains positive." In addition, Freddie Mac has limited its exposure to credit risk by establishing comprehensive underwriting standards, actively monitoring compliance to these standards, and accurately measuring and pricing risks.

The forecast data contained in this material represent estimates and should not be construed as an official forecast of the corporation's future position. The data have been developed on the basis of certain economic assumptions that are reviewed and revised periodically. Consequently, the estimates are subject to forecast error and will normally differ from actual data when these become available.

According to generally accepted accounting principles utilized by private corporations, the mortgages in the pools of loans supporting PCs are considered to be owned by the holder of these securities. Therefore, Freddie Mac does not show these mortgages as assets. However, the budget philosophy of the United States Government includes these mortgages and mortgages pass-through securities as assets and liabilities, respectively, of Freddie Mac. For the purpose of this document, therefore, they are presented as assets and liabilities in the accompanying schedules. On the Status of Direct Loans schedule for mortgage pass-through securities, the items labeled "Disbursements" and "Repayments" are budgetary terms. However, from Freddie Mac's perspective, these amounts represent "Sales of PCs" and "Amounts passed through to PC holders," respectively.

Pursuant to the Agricultural Credit Act of 1987, 11 of 13 banks for cooperatives voted in 1988 to merge into a single National Bank for Cooperatives. The bank for cooperatives in the Springfield and St. Paul districts voted to remain independent, but have nation-wide lending authority.

The banks for cooperatives lend to agriculture-related and rural utility cooperatives. As part of the Farm Credit System they are regulated by the Farm Credit Administration, an independent federal agency. The funds to finance loans are obtained primarily from sales of bonds to the public. The Farm Credit System bonds issued by the banks are not guaranteed by the U.S. Government either as to principal or interest.

The Farm Credit Act of 1955 provided for eventual ownership of the banks by farmers' cooperatives and the retirement of the U.S. Government's investment. This was accomplished on December 31, 1968, when the remainder of the U.S. Government capital was retired.

The banks for cooperatives presently operate under authorities contained in title III of the Farm Credit Act of 1971, Public Law 92-180, as amended.

The Agricultural Credit Act of 1987 required the Federal Intermediate Credit Bank (FICB) and Federal Land Bank (FLB) in each Farm Credit District to merge into a single Farm Credit Bank by July 6, 1988. No merger occurred in the Jackson District because the FLB was in receivership. The Farm Credit Banks operate under statutory authority which combines the prior authorities of the FLB and the FICB.

The 9 Farm Credit Banks are under the general supervision of the Farm Credit Administration, an independent federal agency. They serve as banks of discount for agriculture, discounting agricultural and livestock paper for, and making loans to local financing institutions such as production credit associations, agricultural credit corporations, livestock loan companies, and commercial banks. They make short-term production and long-term real estate loans to farmers and ranchers, through 66 Agricultural Credit, 30 Federal Land Credit, and 67 Production Credit Associations and 73 Federal Land Bank Associations.

The bank's lending funds are obtained primarily from the sale of Farm Credit System bonds to the public and from their own capital funds. The bonds are not guaranteed by the U.S. Government either as to principal or interest. All of their expenses are paid from their own income and are not included in the budget of the United States. Included in these expenses is the credit banks' share of costs of the Farm Credit Administration and insurance premiums paid to the Farm Credit Insurance Corporation. In addition, legislation enacted in 1992 requires the System to accelerate repayments of certain obligations of the FCS Financial Assistance Corporation (FAC). (See discussion of FAC elsewhere in this document). In FY 1993 and 1994 Farm Credit Banks also made voluntary payments to FAC to defease their future obligations to repay FAC assistance.

The banks were originally wholly owned Government corporations set up exclusively as banks of discount; however, pursuant to the Farm Credit Act of 1956, the banks became mixed-ownership corporations and were made responsible for supervising the production credit and federal land bank associations and assisting them to make sound credit available to farmers.

All the capital stock of the FICB's, from organization in 1923 to December 31, 1956, was held by the U.S. Government. The 1956 Act provided a long-range plan for the eventual ownership of the credit banks by the production credit associations and the gradual retirement of the Government's investment in the banks. This retirement was accomplished in full on December 31, 1968. The last of the Government capital that had been invested in the FLB's was repaid in 1947.

Farmer Mac was established by the Agricultural Credit Act of 1987 (the Act) to facilitate creation of a secondary market for farm and rural housing mortgage loans that meet minimum credit standards. As authorized by the Act, Farmer Mac guarantees securities formed by certified loan pooling institutions. In addition, the Farmer Mac title of the Act was amended by the 1990 farm bill to authorize Farmer Mac to purchase, pool, and securitize the guaranteed portions of Farmers Home Administration (FmHA) guaranteed farmer program loans. These two areas of secondary market authority have been organized by Farmer Mac into two distinct programs designated as "Farmer Mac I" and "Farmer Mac II," respectively. The Farmer Mac title was further amended in 1991 to clarify Farmer Mac's authority to issue debt obligations, to provide for the establishment of minimum capital standards for Farmer Mac, and to expand rulemaking authority for the Farm Credit Administration.

In general, the agricultural secondary market is intended to attract new capital for financing agricultural real estate, including rural housing, foster increased long-term fixed-rate lending, and provide greater liquidity to agricultural lenders. Increased competition among agricultural lenders, stimulated by access to the secondary market, should result in more favorable rates and terms for agricultural borrowers.

Farmer Mac is governed by a 15 member Board of Directors. Ten Board members are elected by stockholders, including five by the Farm Credit System, and five are appointed by the President subject to Senate confirmation.

FINANCING

Funding for Farmer Mac comes from four sources: common and preferred stock; debt obligations; guarantee fees and a \$1.5 billion line of credit with the U.S. Treasury.

The actuarial soundness of the guarantee fee is reviewed annually by the Comptroller General in a report to Congress. The soundness of Farmer Mac I pools will be determined through a multi-stage process. First, loans must comply with the credit underwriting and appraisal standards. Second, pools of eligible loans must meet Farmer Mac's standards for geographic and commodity diversification and be subjected to economic stress analysis to determine pool performance characteristics. In the case of Farmer Mac II, only the FmHA guaranteed portions of the loans will be pooled by Farmer Mac.

Available funds of Farmer Mac are invested in U.S. agency securities or other high-grade commercial paper. No stock dividends are allowed under the Act until the Board determines that an adequate loss reserve has been funded to back Farmer Mac guarantees.

GUARANTEES

Farmer Mac provides a guarantee of timely payment of principal and interest on securities backed by pools of eligible loans. These securities are not guaranteed by the United States, and are not "government securities". Under Farmer Mac I, guaranteed securities must be supported by a minimum ten percent cash reserve or subordinated class of securities (retained by the originators and poolers or sold to investors). The Farmer Mac guarantee cannot be triggered for payment until the loss reserve, in addition to the subordinate

FEDERAL AGRICULTURAL MORTGAGE CORPORATION—Continued

securities or cash reserve for a pool (Farmer Mac I only), has been exhausted.

Farmer Mac guaranteed mortgage-backed securities are subject to registration requirements established by the Securities and Exchange Commission under the 1933 and 1934 Securities Acts.

REGULATION

Farmer Mac is federally regulated by the Farm Credit Administration (FCA). Under 1991 amendments to the Act, regulation is performed by the FCA's Office of Secondary Market Oversight. The Office is responsible for examination of and rulemaking for Farmer Mac (after a transition period), including the determination of the stress test for Farmer Mac's risk-based capital. The 1991 amendments also clarified FCA's regulatory authority, including enforcement of Farmer Mac's regulatory capital standards.

The 12 Federal Home Loan Banks were chartered by the Federal Home Loan Bank Board under the authority of the Federal Home Loan Bank Act of 1932. Subsequent to the passage of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989, the FHLBanks are under the supervision of the Federal Housing Finance Board. The common mission of the FHLBanks is to facilitate the extension of credit through their members in order to provide access to housing for all Americans and to improve the quality of their communities. To accomplish this mission, the FHLBanks make loans, called advances, and provide other credit products such as letters of credit to member institutions. Advances and letters of credit must be fully secured by eligible collateral and long-term advances may be made only for the purpose of providing funds for residential housing finance. Additionally, specialized community-related advance programs provide funds for community reinvestment and affordable housing programs. All regulated financial depositories and insurance companies engaged in residential housing finance are eligible for membership. Each FHLBank operates in a geographic district designated by the Board and together the FHLBanks cover all of the United States as well as Puerto Rico, the Virgin Islands, and Guam.

It is important to note that the FHLBanks' credit programs operate at a profit, and that combined financial statements of the FHLBanks prepared in accordance with generally accepted accounting principles ("GAAP") are publicly available. In these budget statements, gross cash disbursements for advances are presented as "obligations" and gross cash proceeds from repayment of advances are presented as "financing." The accompanying statement of "Cumulative Balance of Direct Loans Outstanding" also presents cash flows related to advance activity. Advances outstanding on September 30, 1993 totaled approximately \$99.4 billion, a net increase of approximately \$18.7 billion from the September 30, 1992 level of \$80.7 billion.

The principal source of funds for the lending operation is the sale of consolidated obligations to the public. On September 30, 1993, \$130 billion of these obligations were outstanding. The consolidated obligations are not guaranteed by the U.S. Government as to principal or interest. Other sources of lendable funds include a portion of members' deposits as determined by Board policy. Deposits totaled \$23 billion and total capital amounted to \$11.5 billion as of September 30, 1993. Funds not immediately used for advances to members are invested until such times as needed.

The capital stock of the Federal Home Loan Banks is owned entirely by the members. Initially the U.S. Government purchased stock of the banks in the amount of \$125 million. The banks had repurchased the Government's investment in full by mid-1951.

The entire operating expenses of the FHLBanks are paid from their own income and are not included in the budget of the United States. Included in these expenses is the assess-

ment by the Federal Housing Finance Board to cover the Board's administrative and other costs.

FIRREA contains provisions for the establishment of an Affordable Housing Program (AHP) by each FHLBank. Each FHLBank has developed its AHP to enhance the availability of housing for very low-, low- and moderate-income families by providing direct subsidies or subsidized advances for members who use the funds for qualifying housing projects. The FHLBank system set aside for its AHPs a total of \$75 million in calendar year 1993.

The forecast data for 1994 and 1995 contained in this material represents estimates and should not be construed as an official forecast of the FHLBanks System's future position.

FINANCING CORPORATION

The Financing Corporation (FICO) is a mixed-ownership government corporation, chartered by the Federal Home Loan Bank Board pursuant to the Federal Savings and Loan Insurance Corporation Recapitalization Act of 1987, as amended (The "Act"). FICO's sole purpose was to function as a financing vehicle for the FSLIC Resolution Fund, formerly the Federal Savings and Loan Insurance Corporation (FSLIC). FICO operates under the supervision and control of the Federal Housing Finance Board (the "Board"). Pursuant to the Act, FICO was authorized to issue debentures, bonds and other obligations ("Obligations") subject to limitations contained in the Act, the net proceeds of which were to be used solely to purchase capital certificates issued by the FSLIC Resolution Fund, or to refund any previously issued obligations. The Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991 terminated the FICO's borrowing authority.

The Act provided formulas pursuant to which the Federal Home Loan Banks made capital contributions to FICO at the direction of the Board for the purchase of FICO capital stock. FICO used the proceeds received from the sales of such capital stock to purchase noninterest bearing securities for deposit in a segregated account as required by the Act. The noninterest bearing securities held in the segregated account will be the primary source of repayment of the principal of the obligations. Securities in the segregated account are kept separate from other FICO accounts and funds but are not specifically pledged as collateral for the payment of obligations. The primary source of payment of interest on the obligations will be the receipt of assessments imposed on and collected from institutions' accounts which are insured by the Savings Association Insurance Fund (the "SAIF").

RESOLUTION FUNDING CORPORATION

The Resolution Funding Corporation (the "REFCORP") is a mixed-ownership government corporation established by Title V of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). The sole purpose of REFCORP was to provide financing for the Resolution Trust Corporation (the "RTC"). Pursuant to FIRREA, REFCORP was authorized to issue debentures, bonds, and other obligations, subject to limitations contained in the Act and regulations established by the Thrift Depositor Protection Oversight Board. The proceeds of the debt (less any discount, plus any premium, net of issuance cost) were used solely to purchase nonredeemable capital certificates of the RTC or to refund any previously issued obligations.

The Resolution Funding Corporation is subject to the general oversight and direction of the Thrift Depositor Protection Oversight Board. The day-to-day operations of REFCORP are under the management of a three-member Directorate comprised of the Director of the Office of Finance of the Federal Home Loan Banks and two members selected by the Oversight Board from among the presidents of the twelve Federal Home Loan Banks ("the FHLBanks"). Members of the Directorate serve without compensation, and REFCORP is not permitted to have any paid employees. The Resolution Funding Corporation and its Directorate are subject to regulations, orders and directions of the Thrift Depositor Protection Oversight Board.

FIRREA and the regulations adopted by the Thrift Depositor Protection Oversight Board provide formulas pursuant to which the Federal Home Loan Banks made capital contributions to REFCORP's Principal Fund and continue to make interest payments on outstanding REFCORP Obligations. FIRREA also provides that the U.S. Treasury cover any interest shortfall. Funds designated for the Principal Funds were used to purchase Zero-coupon Bonds. The Zero-coupon Bonds will be held in the Principal Fund and are the primary source of repayment of the principal of the Obligations at maturity.

The figures presented may differ from other Board financial material because they are prepared in accordance with OMB guidelines which vary from the Board's budget and accounting procedures.

The Federal Reserve System operates under the provisions of the Federal Reserve Act of 1913, as amended, and other acts of Congress.

Program.—To carry out its responsibilities under the Act, the Board determines general monetary, credit, and operating policies for the System as a whole and formulates the rules and regulations necessary to carry out the purposes of the Federal Reserve Act. The Board's principal duties consist of exerting an influence over credit conditions and supervising the Federal Reserve banks and member banks.

Financing.—Under the provisions of section 10 of the Federal Reserve Act, the Board of Governors levies upon the Federal Reserve banks, in proportion to their capital and surplus, an assessment sufficient to pay its estimated expenses. The Board, under the Act, determines and prescribes the manner in which its obligations are incurred and its expenses paid. Funds derived from assessments are deposited in the Federal Reserve Bank of Richmond, and the Act provides that such funds "shall not be construed to be Government funds or appropriated moneys." No Government appropriation is required to support operations of the Board.

The information presented pertains to Board operations only. Expenditures made on behalf of the Federal Reserve banks for production, issuance, retirement, and shipment of Federal Reserve notes are not included, since they are reimbursed in full by the Federal Reserve banks.
