During the fiscal year [1941] *1942* the head of any department or independent establishment of the Government having funds available for scientific and technical investigations and requiring cooperative work by the Geological Survey on scientific and technical investigations within the scope of the functions of that Bureau and which it is unable to perform within the limits of its appropriations may, with the approval of the Secretary of the Interior, transfer to the Geological Survey such sums as may be necessary to carry on such investigations. The Secretary of the Treasury shall transfer on the books of the Treasury Department any sums which may be authorized hereunder, and such amounts shall be placed to the credit of the Geological Survey for the performance of work for the department or establishment from which the transfer is made: *Provided*, That any sums transferred by any department or independent establishment of the Government to the Geological Survey for cooperative work in connection with this appropriation may be expended in the same manner as sums appropriated herein may be expended: *Provided further*, That any funds herein appropriated for the Geological Survey for cooperative work may be utilized prior to July 1, [1940] *1941*, as required to enable the Geological Survey to continue its cooperative work pending reimbursement from cooperative agencies, the amount required for such cooperative work to be placed to the credit of the [1940] *1941* appropriation account of the Geological Survey and subsequently repaid to the appropriation from which advanced;

During the fiscal year [1941] *1942*, upon the request of the Secretary of the Interior, the Secretary of War or the Secretary of the Navy is authorized to furnish aerial photographs required for mapping projects, insofar as the furnishing of such photographs will be economical to the Federal Government and does not conflict with military or naval operations or the other parts of the regular training program of the Army, Navy, and Marine Corps flying services, and the Secretary of the Interior is authorized to reimburse the War or Navy Department for the cost of making the photographs, such cost to be confined to the actual cost of gasoline, oil, film, paper, chemicals, and the labor performed in developing the photographic negatives and the printing of copies of photographs, and the per diem expenses of the personnel authorized by law, together with such incidental expenses as care and minor repairs to plane and transportation of personnel to and from projects, and the War Department or the Navy Department, on request of the Department of the Interior, is authorized to furnish copies to any State, county, or municipal agency cooperating with the Federal Government in the mapping project for which the photographs were taken. In the event that the Director of the Geological Survey deems it advantageous to the Government, the Geological Survey is authorized to contract with civilian aerial photographic concerns for the furnishing of such photographs or for the furnishing of topographic maps made from such photographs;

[Appropriations herein made, and funds transferred thereto, shall be available for payment of the costs of packing, crating, and transportation (including drayage) of personal effects of employees upon permanent change of station, under regulations to be prescribed by the Secretary of the Interior] *(54 Stat. 440–441)*;

Estimate 1942, **$4,941,900** Appropriated 1941, **$3,686,910**

Payments From Proceeds of Sale of Water—

This fund is derived from the proceeds of the sale or other disposition of water from water wells developed by the Secretary of the Interior when permittees and lessees, prospecting under the provisions of sections 221 to 229 of title 30 of the United States Code, strike water instead of oil and gas while drilling. The authority to use such funds to meet the expenses in continuing the program of developing water wells is contained in the Act approved June 16, 1934 (48 Stat. 977) *(30 U. S. C. 229a)*.

GENERAL PROVISIONS

The appropriations made in this Act for the purchase or manufacture of equipment or material or of a particular class of equipment or material shall be available for the purchase of letters patent, applications for letters patent, licenses under letters patent, and applications for letters patent that pertain to such equipment or material for which the appropriations are made.

No part of any appropriation made for the Navy shall be expended for any of the purposes herein provided for on account of the Navy Department in the District of Columbia, including personal services of civilians and of enlisted men of the Navy, except as [herein] expressly authorized *by law*: *Provided*, That there may be detailed to the Bureau of Navigation not to exceed at any one time [seven] *twenty-five* enlisted men of the Navy *and to the Office of the Chief of Naval Operations, twelve enlisted men of the Navy*: *Provided further*, That enlisted men detailed to the Naval Dispensary, *the Office of Naval Intelligence*, and the Radio Communication Service shall not be regarded as detailed to the Navy Department in the District of Columbia.

No part of the appropriations made in this Act shall be available for the salary or pay of any officer, manager, superintendent, foreman, or other person or persons having charge of the work of any employee of the United States Government while making or causing to be made with a stop watch or other time-measuring device a time study of any job of any such employee between the starting and completion thereof, or of the movements of any such employee while engaged upon such work; nor shall any part of the appropriations made in this Act be available to pay any premiums or bonus or cash reward to any employee in addition to his regular wages, except for suggestions resulting in improvements or economy in the operation of any Government plant; and no part of the moneys herein appropriated for the Naval Establishment or herein made available therefor shall be used or expended under contracts hereafter made for the repair, purchase, or acquirement, by or from any private contractor, of any naval vessel, machinery, article, or articles that at the time of the proposed repair, purchase, or acquirement can be repaired, manufactured, or produced in each or any of the Government navy yards or arsenals of the United States, when time and facilities permit, and when, in the judgment of the Secretary of the Navy, such repair, purchase, acquirement, or production would not involve an appreciable increase in cost to the Government, except when the repair, purchase, or acquirement, by or from any private contractor, would, in the opinion of the Secretary of the Navy, be advantageous to the national defense[: *Provided*, That nothing herein shall be construed as altering or repealing the provisos contained in the Acts to authorize the construction of certain naval vessels, approved February 13, 1929, and March 27, 1934, which provide that the first and succeeding alternate vessels in each category, except the fifteen-thousand-ton aircraft carrier, upon which work is undertaken, together with the main engines, armor, and armament, shall be constructed or manufactured in the Government navy yards, naval gun factories, naval ordnance plants, or arsenals of the United States, except such material or parts as are not customarily manufactured in such Government plants].

No part of the funds herein appropriated shall be available to pay a contractor upon any contract for a naval vessel entered into under authority of this Act unless, at the time of filing his bid, he shall also file the estimates upon which such bid was based (*54 Stat. 287–288*).
