Federal Old-Age and Survivors Insurance Trust Fund—

Under the provisions of section 201, title II of the Social Security Act amendments of 1939, approved August 10, 1939, there is created on the books of the Treasury of the United States a trust fund to be known as the "Federal old-age and survivors insurance trust fund", consisting of the securities held by the Secretary of the Treasury for the "Old age reserve account" and the amount standing to the credit of the "Old age reserve account" on the books of the Treasury on January 1, 1940, which securities and amount the Secretary of the Treasury is authorized and directed to transfer to the trust fund, and, in addition, such amounts as may be appropriated to the trust fund as provided in the Act. The Act provides that there is hereby appropriated to the trust fund for the fiscal year ending June 30, 1941, and for each fiscal year thereafter, out of any moneys in the Treasury not otherwise appropriated, amounts equivalent to 100 per centum of the taxes (including interest, penalties, and additions to the taxes) received under the Federal Insurance Contributions Act and covered into the Treasury, with the further provision that the trust fund shall repay to the general fund of the Treasury the amount required by the Social Security Board and the Treasury Department to administer title II and title VIII of the Act and the Federal Insurance Contributions Act (*42 U. S. C. 401; 53 Stat. 1362*).

Estimate 1942, **$1,225,000,000** Appropriated 1941, **$1,100,000,000**

2000 Interest on the public debt: Obligations—1942, $1,225,000,060; 1941, $1,100,000,000; 1940, $1,043,500,000.

Cumulative Sinking Fund—

Sinking fund for retirement of bonds and notes; appropriation: That there is hereby created in the Treasury a cumulative sinking fund for the retirement of bonds and notes issued under the First Liberty Bond Act, the Second Liberty Bond Act, the Third Liberty Bond Act, the Fourth Liberty Bond Act, or under this Act, and outstanding on July 1, 1920, and of bonds and notes thereafter issued, under any of such Acts or under any of such Acts as amended. The sinking fund and all additions thereto are hereby appropriated for the payment of such bonds and notes at maturity, or for the redemption or purchase thereof before maturity by the Secretary of the Treasury at such prices and upon such terms and conditions as he shall prescribe, and shall be available until all such bonds and notes are retired. The average cost of the bonds and notes purchased shall not exceed par and accrued interest. Bonds and notes purchased, redeemed, or paid out of the sinking fund shall be canceled and retired and shall not be reissued. For the fiscal year beginning July 1, 1920, and for each fiscal year thereafter until all such bonds and notes are retired there is hereby appropriated, out of any money in the Treasury not otherwise appropriated, for the purposes of such sinking fund, an amount equal to the sum of (1) 2½ per centum of the aggregate amount of such bonds and notes outstanding on July 1, 1920, less an amount equal to the par amount of any obligations of foreign Governments held by the United States on July 1, 1920, and (2) the interest which would have been payable during the fiscal year for which the appropriation is made on the bonds and notes purchased, redeemed, or paid out of the sinking fund during such year or in previous years (*Mar. 3, 1919, c. 100, sec. 6 (a), 40 Stat. 1311; Mar. 2, 1923, c. 179, 42 Stat. 1427; May 29, 1928, c. 901, sec. 1 (21), 45 Stat. 987; Jan. 30, 1934, c. 6, sec. 14 (b), 48 Stat. 344; 31 U. S. C. 767*).

Additional appropriation for sinking fund: For each fiscal year beginning with the fiscal year 1934, there is authorized to be appropriated, for the purposes of the sinking fund provided in section 6 of the Victory Liberty Loan Act, as amended, in addition to amounts otherwise appropriated, an amount equal to 2½ per centum of the aggregate amount of the expenditures made, out of appropriation made or authorized in this title, on or after the date of the enactment of this Act and on or before the last day of the fiscal year for which the appropriation is made (*July 21, 1932, c. 520, sec. 308, 47 Stat. 724; 31 U. S. C. 767a*).

Further appropriation for sinking fund: To carry into effect the provisions of section 308 of the Emergency Relief and Construction Act of 1932, approved July 21, 1932 (47 Stat. 709), there is hereby appropriated for the fiscal year 1934, out of any money in the Treasury not otherwise appropriated, for the purposes of the cumulative sinking fund provided in section 6 of the Victory Liberty Loan Act, as amended, in addition to amounts otherwise appropriated, a sum equal to 2½ per centum of the aggregate of the expenditures during the fiscal year 1933 from appropriations made or authorized in sections 301 and 302, title III, of the Emergency Relief and Construction Act of 1932 (*Mar. 3, 1933, c. 212, Title I, sec. 1, 47 Stat. 1492*).

Further appropriation for sinking fund: To carry into effect the provisions of section 308 of the Emergency Relief and Construction Act of 1932, approved July 21, 1932 (47 Stat. 709), there is hereby appropriated for each fiscal year beginning with the fiscal year 1935, out of any money in the Treasury not otherwise appropriated for the purposes of the cumulative sinking fund provided in section 6 of the Victory Liberty Loan Act, as amended, in addition to amounts otherwise appropriated, a sum equal to 2½ per centum of the aggregate of the expenditures on or after June 30, 1933, from appropriations made or authorized in sections 301 and 302, title III, of the Emergency Relief and Construction Act of 1932 (*Mar. 15, 1934, c. 70, title I, sec. 1, 48 Stat. 428; 31 U. S. C. 767b*).

Redemption of National Defense Series Obligations From Additional Internal Revenue Collections—

SEC. 301. The Secretary of the Treasury shall, as soon as practicable after the end of each quarter, determine the additional amount of taxes collected attributable to the increases in taxes made, and to the floor stocks taxes imposed, by the amendments to the Internal Revenue Code in title II of this Act (not including the amount of taxes attributable solely to section 209 and not including any amount collected under section 1700 (a) (1) of the Internal Revenue Code attributable to a basic admission charge of more than 40 cents), and the amounts so determined shall be set aside as a special fund which shall be available only for the retirement of any of the obligations issued pursuant to the authority contained in section 21 (b) of the Second Liberty Bond Act, as amended. If at any time the amounts in the fund are not sufficient for such purpose, the Secretary of the Treasury is authorized and directed to transfer to the fund moneys out of the general fund of the Treasury. Any amounts in the special fund not necessary for the retirement of such obligations shall be deposited in the general fund of the Treasury (*54 Stat. 526*).

Obligations Retired From Federal Intermediate Credit Bank Franchise Tax Receipts—

Subject only to review and approval by the Farm Credit Administration, each Federal intermediate credit bank, at the end of its fiscal year, after all its necessary expenses and costs of operation for such fiscal year have been paid or provided for, shall apply its net earnings then remaining, first, to make up any losses in excess of its reserves against unforeseen losses and assets of doubtful value; second, to the elimination of any impairment of its paid-in capital and paid-in surplus; third, to the creation and maintenance of reserves against unforeseen losses and assets of doubtful value in such amount as its board of directors may prescribe; fourth, to the payment of 25 per centum of the amount then remaining to the United States as a franchise tax; and fifth, to the payment of the remaining net earnings into its surplus account. The amounts paid as franchise taxes to the United States by Federal intermediate credit banks shall, in the discretion of the Secretary of the Treasury, be used to supplement the gold reserve held against outstanding United States notes, or shall be applied to the reduction of the outstanding bonded indebtedness of the United States under regulations to be prescribed by the Secretary of the Treasury. Should a Federal intermediate credit bank be dissolved or go into liquidation, after the payment of all debts and other obligations as hereinbefore provided, any surplus remaining shall be paid to and become the property of the United States and shall be similarly applied (*50 Stat. 715*).

BUREAU OF ENGRAVING AND PRINTING

Salaries and Expenses, Bureau of Engraving and Printing—

For the work of engraving and printing, exclusive of repay work, during the fiscal year [1941] *1942*, United States currency and internal-revenue stamps, including opium orders and special-tax stamps required under the Act of December 17, 1914 (26 U. S. C. 1040, 1383), checks, drafts, and miscellaneous work, as follows:

Salaries and expenses: For the Director, two Assistant Directors and other personal services in the District of Columbia, including wages of rotary press plate printers at per diem rates and all other plate printers at piece rates to be fixed by the Secretary of the Treasury, not to exceed the rates usually paid for such work; for engravers' and printers' materials and other materials, including distinctive and nondistinctive paper, except distinctive paper for United States currency and Federal Reserve bank currency; equipment of, repairs to, and maintenance of buildings and grounds and for minor alterations to buildings; directories, technical books and periodicals, examples of engraving and printing, including foreign securities and stamps, and books of reference, not exceeding $500; traveling expenses not to exceed $2,000; miscellaneous expenses, including not to exceed $1,500 for articles approved by the Secretary of the Treasury as being necessary for the protection of the person of employees; for transfer to the Bureau of Standards for scientific investigations in connection with the work of the Bureau of Engraving and Printing, not to exceed $15,000; and for the maintenance and driving of two motor-propelled passenger-carrying vehicles; [$8,450,000] to be expended under the direction of the Secretary of the Treasury, *$10,000,000, of which $150,000 shall be available only for the purchase of equipment* (*31 U. S. C. 176–178; 54 Stat. 66–67*).

Annual appropriation, general account:

Estimate 1942, **$10,000,000** Appropriated 1941, [a] **$8,448,224**

[a] Excludes $1,776 transferred to "United States official mail and messenger service, Post Office Department, (general fund)," pursuant to provisions of the Reorganization Act of 1939 and Reorganization Plan No. IV.

During the fiscal year [1941] *1942* all proceeds derived from work performed by the Bureau of Engraving and Printing, by direction of the Secretary of the Treasury, not covered and embraced in the appropriation for such Bureau for such fiscal year, instead of being covered into the Treasury as miscellaneous receipts, as provided by the Act of August 4, 1886 (31 U. S. C. 176), shall be credited when received to the appropriation for such Bureau for the fiscal year [1941] *1942* (*31 U. S. C. 176–178; 54 Stat. 67*).

[For Organized Reserves, $86,161,608: *Provided*, That this appropriation shall be available for flight training of officers of the Officers' Reserve Corps without regard to any limitation as to such training in the Military Appropriation Act, 1941: *Provided further*, That regardless of the limitation heretofore imposed, funds appropriated for Organized Reserves for the fiscal year 1941 shall be available for the pay and allowances of members of the Officers' Reserve Corps who may have been or may hereafter be given flight training and detailed as officer navigators, officer bombardiers, officer bombardier-observers and officer balloon observers with combat units of the Air Corps] (*10 U. S. C. 26, 37, 300a, 343, 366, 367, 369, 427, 455a, 455c, 455d; 37 U. S. C. 7; 54 Stat. 212, 213, 373, 374, 602, 970*).

Annual appropriation, general account:

Estimate 1942, **$1,767,000** Appropriated 1941, [a] **$129,332,689**

[a] Includes $11,063,626 appropriated in First Supplemental National Defense Appropriation Act, fiscal year 1941.

[None of the funds appropriated elsewhere in this Act, except for printing and binding, field exercises, and for pay and allowances of officers and enlisted men of the Regular Army, and for mileage, reimbursement of actual traveling expenses, or per-diem allowances in lieu thereof, as authorized by law, to Air Corps Reserve officers on extended active duty, shall be used for expenses in connection with the Organized Reserves, but available supplies and existing facilities at military posts shall be utilized to the fullest extent practicable.]

No appropriation made in this Act shall be available for pay, allowances, or traveling or other expenses of any officer of the Organized Reserves who may be drawing a pension, disability allowance, disability compensation, or retired pay from the Government of the United States: *Provided*, That nothing in this provision shall be so construed as to prevent the application of funds herein contained to the pay, allowances, or traveling expenses of any officer or enlisted man of the Reserve Corps who may surrender said pension, disability allowance, disability compensation, or retired pay for the period of his active duty in the Reserve Corps[.]

[No appropriation made in this Act shall be expended for the pay of a Reserve officer on active duty for a longer period than fifteen days, except such as may be detailed for duty with the War Department General Staff under section 3a and section 5 (b) of the National Defense Act, as amended (10 U. S. C. 26, 37), or who may be detailed for courses of instruction at the general or special service schools of the Army, or to Corps Area staff schools, or for duty as instructors at civilian military training camps, appropriated for in this Act, or who may be detailed to active duty with the Regular Army under the provisions of the Act of April 3, 1939, or whose fifteen-day training period may be increased by not to exceed fifteen additional days, or who may be detailed to duties for which officers of the Regular Army are not available]: *Provided further*, That the pay and allowances of such additional officers and nurses of the Medical Reserve Corps as are required to supplement the like officers and nurses of the Regular Army in the care of beneficiaries of the United States Veterans' Administration treated in Army hospitals may be paid from the funds allotted to the War Department by that Administration under existing law (*54 Stat. 374*).

CITIZENS' MILITARY TRAINING

RESERVE OFFICERS' TRAINING CORPS

Reserve Officers' Training Corps—

For the procurement, maintenance, and issue, under such regulations as may be prescribed by the Secretary of War, to institutions at which one or more units of the Reserve Officers' Training Corps are maintained, of such public animals, means of transportation, supplies, tentage, equipment, and uniforms as he may deem necessary, including cleaning and laundering of uniforms and clothing at camps; and to forage, at the expense of the United States, public animals so issued, and to pay commutation in lieu of uniforms at a rate to be fixed annually by the Secretary of War; for transporting said animals and other authorized supplies and equipment from place of issue to the several institutions and training camps and return of same to place of issue when necessary; for purchase of training manuals, including Government publications and blank forms; for the establishment and maintenance of camps for the further practical instruction of the members of the Reserve Officers' Training Corps, and for transporting members of such corps to and from such camps, and to subsist them while traveling to and from such camps and while remaining therein so far as appropriations will permit, or, in lieu of transporting them to and from such camps and subsisting them while en route, to pay them travel allowance at the rate of 5 cents per mile for the distance by the shortest usually traveled route from the places from which they are authorized to proceed to the camp and for the return travel thereto, and to pay the return travel pay in advance of the actual performance of the travel; for expenses incident to the use, including upkeep and depreciation costs, of supplies, equipment, and matériel furnished in accordance with law from stocks under the control of the War Department; for pay for students attending advanced camps at the rate prescribed for soldiers of the seventh grade of the Regular Army; for the payment of commutation of subsistence to members of the senior division of the Reserve Officers' Training Corps, at a rate not exceeding the cost of the garrison ration prescribed for the Army, as authorized in the Act approved June 3, 1916, as amended by the Act approved June 4, 1920 (10 U. S. C. 387); for the medical and hospital treatment of members of the Reserve Officers' Training Corps, who suffer personal injury or contract disease in line of duty, and for other expenses in connection therewith, including pay and allowances, subsistence, transportation, and burial expenses, as authorized by the Act of June 15, 1936 (49 Stat. 1507); for mileage, traveling expenses, or transportation, for transportation of dependents (*including dependents of retired officers, warrant officers, and enlisted men of the first three grades, and enlisted men of the first three grades of the Regular Army Reserve, ordered to active duty and upon relief therefrom*), and for packing, *crating, and unpacking,* and transportation of baggage[, as authorized by law,] (*including baggage of retired officers, warrant officers and enlisted men of the first three grades, and enlisted men of the first three grades of the Regular Army Reserve ordered to active duty and upon relief therefrom*), for officers, warrant officers, and enlisted men [of the Regular Army] traveling on duty pertaining to or on detail to or relief from duty with the Reserve Officers' Training Corps; for the purchase, maintenance, repair, and operation of motor vehicles, including station wagons, [$4,931,417, of which amount $400,000 shall be available immediately] *$5,800,000*: *Provided*, That the Secretary of War is authorized to issue, without charge, in lieu of purchase, for the use of the Reserve Officers' Training Corps, so many horses now belonging to the Regular Army as he may consider desirable: *Provided*, That uniforms and other equipment or material issued to the Reserve Officers' Training Corps in accordance with law shall be furnished from surplus stocks of the War Department without payment from this appropriation, except for actual expense incurred in the manufacture or issue: *Provided further*, That in no case shall the amount paid from this appropriation for uniforms, equipment, or material furnished to the Reserve Officers' Training Corps from stocks under the control of the War Department be in excess of the price current at the time the issue is made: *Provided further*, That none of the funds appropriated in this Act shall be used for the organization or maintenance of an additional number of mounted[, motor transport, or tank] units in the Reserve Officers' Training Corps in excess of the number in existence on January 1, 1928: *Provided further*, That none of the funds appropriated in this Act shall be available for any expense on account of any student in Air Corps, Dental Corps, or Veterinary units not a member of such units on May 5, 1932, but such stoppage of further enrollments shall not interfere with the maintenance of existing units: *Provided further*, That none of the funds appropriated elsewhere in this Act, except for printing and binding and pay and allowances of officers and enlisted men [of the Regular Army], shall be used for expenses in connection with the Reserve Officers' Training Corps (*10 U. S. C. 381–385, 387–390, 441, 443, 444, 455a, 455c, 455d; 54 Stat. 374, 375, 376*).

In all, salaries, War Department, [$6,767,947] *$7,721,663*: *Provided*, That the number of warrant officers and enlisted men on duty in the offices of the Chiefs of Ordnance, Engineers, Coast Artillery, Field Artillery, Cavalry, Infantry, and Chaplains on March 5, 1934, shall not be increased, and in lieu of warrant officers and enlisted men whose services in such offices shall have been terminated for any cause prior to July 1, [1941] *1942*, their places may be filled by civilians, for the pay of whom, in accordance with the Classification Act of 1923, as amended, the appropriation "Pay of the Army" shall be available.

The Secretary of War is authorized to employ such additional personnel at the seat of government and elsewhere, and to provide out of any appropriations available for the Military Establishment for their salaries and for such printing and binding, communication service, and supplies as he may deem necessary to carry out the purposes of this Act, but the amount so used for personal services at the seat of government, other than for field service employees, shall not exceed one-third of one per centum of the total amount of cash appropriated for the Army.

In expending appropriations or portions of appropriations contained in this Act, for the payment for personal services in the District of Columbia in accordance with the Classification Act of 1923, as amended, with the exception of the Assistant Secretary of War, the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act, as amended, and in grades in which only one position is allocated the salary of such position shall not exceed the average of the compensation rates for the grade, except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade but not more often than once in any fiscal year and then only to the next higher rate: *Provided*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade in the same or a different bureau, office, or other appropriation unit, (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law; or (5) to reduce the compensation of any person in a grade in which only one position is allocated (*54 Stat. 351*).

SEC. 2. No part of the appropriations made in this Act shall be available for the salary or pay of any officer, manager, superintendent, foreman, or other person having charge of the work of any employee of the United States Government while making or causing to be made with a stop watch, or other time-measuring device, a time study of any job of any such employee between the starting and completion thereof, or of the movements of any such employee while engaged upon such work; nor shall any part of the appropriations made in this Act be available to pay any premiums or bonus or cash reward to any employee in addition to his regular wages, except for suggestions resulting in improvements or economy in the operation of any Government plant (*54 Stat. 377–378*).

SEC. 3. Not to exceed 5 per centum of any of the appropriations for the Military Establishment for the fiscal year [1941] *1942* may be transferred with the approval of the Director of the Bureau of the Budget to any other of such appropriations, but no appropriation shall be increased more than 5 per centum thereby (*54 Stat. 656*).

SEC. [2] *4*. The foregoing appropriations for "Regular Supplies of the Army", "Clothing and Equipage", "Army Transportation", "Signal Service of the Army", "Air Corps, Army", "Medical and Hospital Department", "Engineer Service, Army", "Ordnance Service and Supplies", "Chemical Warfare Service", and "Seacoast Defenses" shall each be available for the pay and allowances, including travel allowances, of such Reserve officers as the President may, with their consent, order to active duty for such periods, not in excess of two years, as their service may be required in the procurement or production of equipment therein appropriated for, or on duty pertaining to aviation.

SEC. [3] *5*. No part of any money appropriated by this Act shall be used for maintaining, driving, or operating any Government-owned motor-propelled passenger-carrying vehicle assigned for the exclusive use of persons other than the Secretary of War and medical officers on out-patient medical service (*54 Stat. 378*).

SEC. [4] *6*. No part of any appropriation made by this Act shall be used in any way to pay any expense in connection with the conduct, operation, or management of any post exchange, branch exchange, or subexchange within any State, Territory, or the District of Columbia, save and except for real assistance and convenience under such regulations as the Secretary of War may prescribe, to such personnel as are now or may be hereafter authorized by law and regulation to purchase subsistence stores or other Quartermaster supplies and to civilians employed or serving at military posts in supplying them with articles of small personal needs, not similar to those furnished by the Government: *Provided*, That the commanding officer of the post at which any such exchange is situated shall certify on the monthly report of the post exchange council that such exchange was, during the period covered by such report, operated in compliance with this section: *Provided further*, That at posts isolated from a convenient market the Secretary of War may broaden the nature of the articles to be sold.

[SEC. 5. The total amount used on an annual basis for administrative within-grade promotions for officers and employees under any appropriation or other fund made available in this Act shall not exceed the amount determined by the Bureau of the Budget to be available for such purpose on the basis of the Budget estimate for such appropriation or fund exclusive of new money in any such Budget estimate for such administrative promotions] (*54 Stat. 378*).

[SEC. 6. Such portions of the appropriations contained herein under the head of "Military activities" on account of classified personal services provided for in the Second Deficiency Appropriation Act, fiscal year 1939, in the Supplemental Military Appropriation Act, 1940, and in the Emergency Supplemental Appropriation Act, 1940, shall be available for the employment of such personal services only upon a temporary basis.]

SEC. 7. [No part of any appropriation contained in this Act shall be used directly or indirectly after May 1, 1941, except for temporary employment in case of emergency, for the payment of any civilian for services rendered by him on the Canal Zone while occupying a skilled, technical, clerical, administrative, executive, or supervisory position unless such person is a citizen of the United States of America or of the Republic of Panama: *Provided, however*, (1) That, notwithstanding] *Notwithstanding* the provision in the Act approved August 11, 1939 (53 Stat. 1409), limiting employment in [the above-mentioned] *certain* positions to citizens of the United States [from and after the date of the approval of said Act], citizens of Panama may be employed in such positions[; (2) that at no time shall the number of Panamanian citizens employed in the above-mentioned positions exceed the number

of citizens of the United States so employed, if United States citizens are available in continental United States or on the Canal Zone; (3) that nothing in this Act shall prohibit the continued employment of any person who shall have rendered fifteen or more years of faithful and honorable service on the Canal Zone; (4) that in the selection of personnel for skilled, technical, administrative, clerical, supervisory, or executive positions, the controlling factors in filling these positions shall be efficiency, experience, training and education; (5) that all citizens of Panama and the United States rendering skilled, technical, clerical, administrative, executive, or supervisory service on the Canal Zone under the terms of this Act (a) shall normally be employed not more than forty hours per week; (b) may receive as compensation equal rates of pay based upon rates paid for similar employment in continental United States plus 25 per centum; (6) this entire section shall apply only to persons employed in skilled, technical, clerical, administrative, executive, or supervisory positions on the Canal Zone directly or indirectly by any branch of the United States Government or by any corporation or company whose stock is owned wholly or in part by the United States Government: *Provided further*, That the President may suspend compliance with this section in time of war or national emergency if he should deem such course to be in the public interest.]

[SEC. 8. All funds appropriated by this Act, and all amounts herein made available for contractual obligation shall be immediately available] (*54 Stat. 378–379*).

SEC. 8. Whenever deemed by the Secretary of War to be advantageous to the national defense, and if in his opinion the existing facilities of the War Department are inadequate, he is hereby authorized to employ, by contract or otherwise, without reference to section 3709, Revised Statutes, and at such rates of compensation as he may determine, architectural, engineering, technical or professional corporations, firms, or individuals for the production of plans and specifications required for any War Department project, and for the supervision of its accomplishment.

SEC. 9. The provisions of section 1 (a) of the Act entitled "An Act to expedite the strengthening of the national defense," approved July 2, 1940, shall be effective until June 30, 1942.

[SEC. 201. From the appropriations for "Regular Supplies of the Army", "Clothing and Equipage", "Army Transportation", "Signal Service of the Army", "Air Corps, Army", "Medical and Hospital Department", "Engineer Service, Army", "Ordnance Service and Supplies", "Chemical Warfare Service", and "Seacoast Defenses", for the fiscal year 1941, not to exceed a total of $2,658,967 may be applied to the employment of persons and the procurement of supplies and services and printing and binding at the seat of Government, and to pay of employees of the Finance Department in the field, under the following heads and within the respective limitations specified, as follows:]

In addition to the foregoing sums there is appropriated for the fiscal year [1941] *1942* for expenditures and reinvestment under the several heads of appropriation aforesaid, without being covered into the Treasury of the United States, and to remain available until expended, all moneys received by the Panama Canal during the fiscal year [1941] *1942* and prior fiscal years (exclusive of net profits for such prior fiscal years) from services rendered or materials and supplies furnished to the United States, the Panama Railroad Company, the Canal Zone government, or to their employees, respectively, or to the Panama Government, from hotel and hospital supplies and services; from rentals, wharfage, and like service; from labor, materials, and supplies and other services furnished to vessels other than those passing through the Canal, and to others unable to obtain the same elsewhere; from the sale of scrap and other by-products of manufacturing and shop operations; from the sale of obsolete and unserviceable materials, supplies, and equipment purchased or acquired for the operation, maintenance, protection, sanitation, and government of the Canal and Canal Zone; and any net profits accruing from such business to the Panama Canal shall annually be covered into the Treasury of the United States.

There is also appropriated for the fiscal year [1941] *1942* for the operation, maintenance, and extension of waterworks, sewers, and pavements in the cities of Panama and Colon, to remain available until expended, the necessary portions of such sums as shall be paid during that fiscal year as water rentals or directly by the Government of Panama for such expenses.

SEC. 2. [No part of any appropriation contained in this Act shall be used directly or indirectly after May 1, 1941, except for temporary employment in case of emergency, for the payment of any civilian for services rendered by him on the Canal Zone while occupying a skilled, technical, clerical, administrative, executive, or supervisory position unless such person is a citizen of the United States of America or of the Republic of Panama: *Provided, however,* (1) That, notwithstanding] *Notwithstanding* the provision in the Act approved August 11, 1939 (53 Stat. 1409), limiting employment in [the above-mentioned] *certain* positions to citizens of the United States [from and after the date of the approval of said Act], citizens of Panama may be employed in such positions[; (2) that at no time shall the number of Panamanian citizens employed in the above-mentioned positions exceed the number of citizens of the United States so employed, if United States citizens are available in continental United States or on the Canal Zone; (3) that nothing in this Act shall prohibit the continued employment of any person who shall have rendered fifteen or more years of faithful and honorable service on the Canal Zone; (4) that in the selection of personnel for skilled, technical, administrative, clerical, supervisory, or executive positions, the controlling factors in filling these positions shall be efficiency, experience, training, and education; (5) that all citizens of Panama and the United States rendering skilled, technical, clerical, administrative, executive, or supervisory service on the Canal Zone under the terms of this Act (a) shall normally be employed not more than forty hours per week, (b) may receive as compensation equal rates of pay based upon rates paid for similar employment in continental United States plus 25 per centum; (6) this entire section shall apply only to persons employed in skilled, technical, clerical, administrative, executive, or supervisory positions on the Canal Zone directly or indirectly by any branch of the United States Government or by any corporation or company whose stock is owned wholly or in part by the United States Government: *Provided further,* That the President may suspend compliance with this section in time of war or national emergency if he should deem such course to be in the public interest].

[SEC. 3. The total amount used on an annual basis for administrative within-grade promotions for officers and employees under any appropriation or other fund made available in this Act shall not exceed the amount determined by the Bureau of the Budget to be available for such purpose on the basis of the Budget estimate for such appropriation or fund exclusive of new money in any such Budget estimate for such administrative promotions.]

SEC. [4] *3.* No part of any appropriation contained in this Act or authorized hereby to be expended shall be used to pay the compensation of any officer or employee of the Government of the United States, or of any agency the majority of the stock of which is owned by the Government of the United States, whose post of duty is in continental United States unless such person is a citizen of the United States, or a person in the service of the United States on the date of the approval of this Act who being eligible for citizenship had theretofore filed a declaration of intention to become a citizen or who owes allegiance to the United States.

EXPLANATORY STATEMENT

The expenditures of the Post Office Department, authorized by the appropriations made for such purposes, are met from postal revenues to the extent that such revenues are available, and any excess of expenditures over such revenues is paid from the general fund of the Treasury.

An increase in postal revenues reflects an increase in the volume of mail to be handled, which in turn requires additional expenditures for personnel, transportation, and other facilities. Practically all of the increases in the estimates of appropriations for the fiscal year 1942 over 1941 are predicated on an anticipated increase in postal revenues.

For the fiscal year 1940 the expenditures amounted to $809,430,214, revenues, $766,948,626, and the excess of expenditures over revenues, $42,225,358.

For the fiscal year 1941 the appropriations amount to $815,490,177, the revenues are now estimated at $785,000,000, and the excess of existing appropriations over estimated revenues, $30,490,177, which is now only a facial figure. The estimates of appropriations for 1941 were predicated on a volume of postal business measured by estimated revenues of $760,000,000. Due to the unanticipated increase in postal business the estimate of revenues has now been revised upward to $785,000,000 and, as a result, it is now anticipated that, in order to provide the necessary increase in service, supplemental appropriations will be required for 1941 of $20,775,000. These changes in estimates indicate appropriation requirements of $836,265,177 and that the excess of appropriations over estimated revenue will amount to $51,265,177 instead of $30,490,177 mentioned above.

For the fiscal year 1942 the estimates of appropriations aggregate $846,012,587, the revenues are estimated at $795,000,000, and the excess of estimates of appropriations over estimated revenues, $51,012,587, which compares with $51,265,177 for 1941. The estimates of appropriations for 1942, compared with the estimated requirements for 1941, indicate an increase of $9,747,410 in expenditures, while the difference in estimated revenues represents an increase of $10,000,000.

The major increases in the estimates are required for transportation of mail by railroads, aircraft, and star-route service, and for additional railway mail clerks, post-office clerks, carriers, and other personnel to handle the increased volume of mail. The Transportation Act of 1940 imposed increased expenditures of approximately $2,600,000 annually through the elimination of land-grant rates for railroad transportation of mail. The estimates contemplate a moderate expansion of the air-mail service, both domestic and foreign, by the establishment of new or additional routes, the extension of existing routes, and the increase in frequency of trips over existing routes. The cost of air-mail service has been further increased as

the result of higher rates granted by orders of the Civil Aeronautics Board for the transportation of mail by aircraft. Many of these orders fixing higher rates are made retroactive. Of course, the action of the Board cannot be anticipated, but when increased rates are granted it usually requires deficiency appropriations for prior years, supplemental appropriations for the current year, as well as increased appropriations for the ensuing year.

The estimated revenues for 1942 are predicated on the assumption that the present 3-cent letter rate for non-local mail, fixed by legislation which expires with June 30, 1941, will be extended by the Congress to include the fiscal year 1942. Failure to do so would result in an annual loss of postal revenues and a corresponding increase in the postal deficit of approximately $100,000,000.

Summary of estimates of appropriations for the fiscal year 1942, compared with appropriations for the fiscal year 1941

SEC. 301. Appropriations for the fiscal year [1941] *1942* available for expenses of travel of civilian officers and employees of the executive departments and establishments shall be available also for expenses of travel performed by them on transfer from one official station to another when authorized by the head of the department or establishment concerned in the order directing such transfer: *Provided*, That such expenses shall not be allowed for any transfer effected for the convenience of any officer or employee.

SEC. 302. No appropriation available for the executive departments and independent establishments of the Government for the fiscal year ending June 30, [1941] *1942*, whether contained in this Act or any other Act, shall be expended—

(a) To purchase any motor-propelled passenger-carrying vehicle (exclusive of busses, ambulances, and station wagons), at a cost, completely equipped for operation, and including the value of any vehicle exchanged, in excess of $750, unless otherwise specifically provided for in the appropriation.

(b) For the maintenance, operation, and repair of any Government-owned motor-propelled passenger-carrying vehicle not used exclusively for official purposes; and "official purposes" shall not include the transportation of officers and employees between their domiciles and places of employment, except in cases of medical officers on out-patient medical services and except in cases of officers and employees engaged in field work the character of whose duties makes such transportation necessary and then only as to such latter cases when the same is approved by the head of the department or establishment concerned. The limitations of this subsection (b) shall not apply to any motor vehicles for official use of the President, the heads of the executive departments, ambassadors, ministers, and chargés d'affaires.

(c) For the maintenance, upkeep, and repair (exclusive of garage rent, pay of operators, tires, fuel, and lubricants) on any one motor-propelled passenger-carrying vehicle, except busses and ambulances, in excess of one-third of the market price of a new vehicle of the same make and class and in no case in excess of $400.

SEC. 303. No part of the money appropriated under this Act shall be paid to any person for the filling of any position for which he or she has been nominated after the Senate upon vote has failed to confirm the nomination of such person.

SEC. 304. No part of any appropriation contained in this Act or authorized hereby to be expended shall be used to pay the compensation of any officer or employee of the Government of the United States, or of any agency the majority of the stock of which is owned by the Government of the United States, whose post of duty is in continental United States unless such officer or employee is a citizen of the United States or a person in the service of the United States on the date of the approval of this Act who being eligible for citizenship has filed a declaration of intention to become a citizen or who owes allegiance to the United States: *Provided*, That this section shall not apply to enlisted men of the United States Coast Guard who are on active duty in that service on the effective date of this Act, until the expiration of the period required for such enlisted men to complete their naturalization, nor shall it apply to personnel of the Coast Guard on the retired list, and enlisted men on active duty with over twelve years' honorable service who are ineligible for United States citizenship.

[SEC. 305. The total amount used on an annual basis for administrative within-grade promotions for officers and employees under any appropriation or other fund made available in this Act shall not exceed the amount determined by the Bureau of the Budget to be available for such purpose on the basis of the Budget estimate for such appropriation or fund exclusive of new money in any such Budget estimate for such administrative promotions.]

EXPLANATORY STATEMENT

The 12 district banks for cooperatives and the Central Bank for Cooperatives (Washington, D. C.) were organized to make credit available to farmers' cooperative associations on a business basis and were chartered by the Governor of the Farm Credit Administration pursuant to the provisions of the Farm Credit Act of 1933. The banks were organized and began to function in the year 1933. Their charters provide for continued existence until dissolved by law.

The initial capital of the banks was subscribed by the Governor of the Farm Credit Administration from funds available in the revolving fund authorized by the Agricultural Marketing Act.

As of June 30, 1940, the Government's investment in the capital of these banks amounted to $149,000,000. At the same time member associations had contributed $3,384,300 of paid-in capital. In conformity with the provisions of the Budget Message of the President for the fiscal year 1941 the banks will repay $60,000,000 to the revolving fund in the Treasury. Forty million dollars have already been paid in. The proceeds of such repayments will be held in the Treasury of the United States as a fund available for resubscription if necessary. The banks acquire funds by rediscounting certain of their paper with the intermediate credit banks. The Central Bank for Cooperatives may issue debentures but has never availed itself of the authority.

The receipts, expenditures, and means of financing of these banks are shown in detail in the statement above.

EXPLANATORY STATEMENT

The Commodity Credit Corporation, created under the laws of the State of Delaware pursuant to Executive Order No. 6340, dated October 16, 1933, was organized primarily to make loans to producers to finance the carrying and orderly marketing of agricultural commodities. The act of March 4, 1939, continued the Corporation as an agency of the United States to June 30, 1941, or such earlier date as may be determined by the President. However, Congress has directed the Corporation to continue to perform its functions beyond that date for certain specific purposes.

The Corporation was transferred to the Department of Agriculture by Reorganization Plan No. I, effective July 1, 1939.

The Corporation has a capital stock of $100,000,000, all of which is held by the United States, and it is authorized, with the approval of the Secretary of the Treasury, to have outstanding at any one time obligations guaranteed by the United States in an aggregate amount of $1,400,000,000.

In addition to its general discretionary powers to make loans, the Corporation is directed by section 302 of the Agricultural Adjustment Act of 1938, as amended, to make loans upon cotton, wheat, and corn where the market price drops below a certain minimum or the crop estimates exceed normal domestic consumption and exports.

The Secretary of the Treasury is required to make an appraisal of all assets and liabilities of the Corporation as of the 31st of March in each year for the purpose of determining its net worth. In the event the net worth of the Corporation is determined to be less than $100,000,000, the Secretary of the Treasury, subject to appropriation of funds therefor, is required to restore such capital impairment. In the event the net worth exceeds $100,000,000, such excess shall be deposited by the Corporation in the Treasury of the United States to the credit of miscellaneous receipts.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Disaster Loan Corporation was created on February 11, 1937, in accordance with the authority provided in the act approved February 11, 1937, as amended. The Reconstruction Finance Corporation subscribed and paid for an original capital of $20,000,000. The act approved March 4, 1939, increased the capitalization of the Corporation to $40,000,000, which was subscribed for by the Reconstruction Finance Corporation. The Treasury has reimbursed the Reconstruction Finance Corporation for, and now owns, all the paid-in capital which at present amounts to $24,000,000.

In accordance with the act approved March 4, 1939, the Corporation is authorized to make loans as it may determine to be necessary or appropriate because of floods or other catastrophes which occurred during the calendar years 1936 through 1940, inclusive.

The Disaster Loan Corporation has succession until dissolved by act of Congress, although, as shown in the sentence above, its lending authority is limited.

The receipts, expenditures, and means of financing of the Corporation are shown in detail in the statement above.

EXPLANATORY STATEMENT

The Electric Home and Farm Authority was incorporated under the laws of the District of Columbia August 1, 1935, with a capitalization of $850,000 to succeed the Electric Home and Farm Authority, Incorporated, a Delaware corporation. By Executive Order No. 7139, dated August 12, 1935, the Electric Home and Farm Authority was designated an agency of the United States. The act approved March 2, 1939, authorized its continuation to June 30, 1941. The capital stock of the Corporation was subscribed and paid for by the Treasury of the United States.

The principal purpose of the Authority is to make available to purchasers of electrical and gas appliances and equipment more reasonable terms of financing than can elsewhere be obtained. Following an established pattern of operation, the financing plan is available to consumers and dealers only in areas served by utilities, that enter into agreement with the Authority for the collection of installment payments, which offer reasonably low rates. The successful operation of the Authority is attested to by the fact that as of June 30, 1940, there has been accumulated a surplus of approximately $225,000 after provision has been made for the meeting of all expenses and depreciation.

Since the Authority expires on June 30, 1941, no estimates of receipts and expenditures have been included for the fiscal year 1942.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Export-Import Bank of Washington was organized under the laws of the District of Columbia, pursuant to Executive Order No. 6581, dated February 2, 1934, to aid in financing and facilitating exports and imports and the exchange of commodities between the United States and other nations, or the nationals or agencies thereof.

The capital stock of the Bank consists of $1,000,000 of common stock held by the United States and $74,000,000 of preferred stock held by the Reconstruction Finance Corporation.

The act of March 2, 1940, increased the lending authority of the Bank from $100,000,000 to $200,000,000. The act of September 26, 1940, continues the Bank as an agency of the United States until January 22, 1947, or such earlier date as the President may fix by Executive order.

In addition to the $200,000,000 lending capacity provided by the act of March 2, 1940, the act of September 26, 1940, authorizes an additional $500,000,000 outstanding at any one time, to assist in the development of the resources, the stabilization of the economies, and the orderly marketing of the products of the countries of the Western Hemisphere. The Reconstruction Finance Corporation when requested by the Secretary of the Treasury, with the approval of the President, may continue to supply, from time to time, through loans or by subscriptions to preferred stock the funds needed by the Export-Import Bank of Washington for its operations.

The Bank was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Crop Insurance Corporation was organized under the act of February 16, 1938, for the purpose of promoting the national welfare by alleviating the economic distress caused by wheat crop failures due to drought and other causes, by maintaining the purchasing power of farmers, and by providing for stable supplies of wheat for domestic consumption and the orderly flow thereof in interstate commerce.

The Federal Crop Insurance Act provided that the Corporation should have an authorized capital stock of $100,000,000 to be subscribed by the United States of America.

Under the Department of Agriculture Appropriation Act of 1939, $20,000,000 was made available to the Secretary of the Treasury for purchase of capital stock of the Corporation. As of June 30, 1940, the Federal Crop Insurance Corporation had requisitioned $8,000,000 of the capital stock subscribed.

Under the Second Deficiency Appropriation Act, 1940, approved June 27, 1940, an additional $20,000,000 was made available to the Secretary of the Treasury for purchase of capital stock of the Corporation. The capital stock for this appropriation had not been issued as of June 30, 1940.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Farm Mortgage Corporation was created under the act approved January 31, 1934 (12 U. S. C. 1016–1020 (h)), to aid in financing the lending operations of the Federal land banks and the Land Bank Commissioner. Under the present law Land Bank Commissioner's loans may not be made after June 1, 1942.

The Corporation, which is wholly owned by the United States, is capitalized at $200,000,000 and is authorized to issue and have outstanding at any one time a total of not more than $2,000,000,000 of bonds which are fully and unconditionally guaranteed by the United States Government.

In accordance with the Budget Message of the President for the fiscal year 1941, and the act approved June 25, 1940, $100,000,000 of the capital of the Corporation will be repaid to the Treasury on or before June 30, 1941. The proceeds of such repayment will be held in the Treasury of the United States as a fund available for additional capital subscriptions if necessary.

The receipts, expenditures, and means of financing the Corporation are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Housing Administration was created by the National Housing Act approved June 27, 1934 (48 Stat. 1246), to insure lending institutions against loss incurred on two general types of loans: Those for financing repairs, alterations, and improvements upon or in connection with existing structures and the building of new structures upon urban, suburban, or rural real property and those secured by mortgages on structures designed primarily for residential use. As to the first type of loan the total liability which may be outstanding at any time plus the amount of insurance claims paid under title I of said act, as amended, less the amount collected from insurance premiums and deposited in the Treasury of the United States under the provisions of section 2 (f), title I, shall not exceed in the aggregate $100,000,000, and under the present law the authority to insure such loans expires on June 30, 1941. The total insurance liability under the second type of loan is $4,000,000,000.

The Administration was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts, expenditures, and means of financing of the Administration are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Agricultural Credit Act of 1923 (title II of the Federal Farm Loan Act) provided for the establishment of 12 Federal intermediate credit banks. The 12 banks were chartered by the Federal Farm Loan Board during 1923, their term of existence being unlimited.

The authority for supervision of the various Federal intermediate credit banks was transferred to the Farm Credit Administration on May 27, 1933, in conformity with the provisions of Executive Order No. 6084 of March 27, 1933.

The original capital stock of the Federal intermediate credit banks in the amount of $5,000,000 each was subscribed and paid for by the Secretary of the Treasury on behalf of the United States. By an act approved January 31, 1934, an additional sum of $40,000,000 was provided, to be allocated to the capital stock and paid-in surplus of any banks. The aggregate capital stock of the 12 banks at June 30, 1940, was $70,000,000 and their aggregate paid-in and earned surplus $50,290,628, all of which is owned by the Government.

These banks have authority, subject to the approval of the Farm Credit Administration, to borrow money from any source and to issue and sell collateral trust debentures or other similar obligations, subject to the general limitation that the aggregate amount of outstanding debentures and similar obligations issued individually by any bank, together with the amount of consolidated debentures issued for its benefit and account, shall not exceed 10 times the surplus and paid-in capital of such bank. As of June 30, 1940, the total debt outstanding was $210,300,000.

Net earnings of the banks are applied to make up losses in excess of the banks' reserves, the elimination of any impairment of paid-in capital, and the creation of reserves. Thereafter 25 percent of the amount of earnings then remaining is paid to the United States as a franchise tax. In accordance with the Budget Message of the President for the fiscal year 1941, the banks will return to the revolving fund in the Treasury $40,000,000 of paid-in capital and surplus. The proceeds of such repayments will be held in the Treasury of the United States as a fund available for resubscription if necessary.

The principal function of the Federal intermediate credit banks is to supply funds by way of discounts and loans to lending institutions for short- and intermediate-term agricultural loans.

The receipts, expenditures, and means of financing are shown in detail in the statement above.

Pursuant to authority granted under title III of the National Housing Act, as amended, the National Mortgage Association of Washington was incorporated February 10, 1938. This association did no business under that name. The name was changed on April 11, 1938, to the Federal National Mortgage Association. The Reconstruction Finance Corporation subscribed and paid for $10,000,000 in capital stock and $1,000,000 paid-in surplus.

The principal functions of this association are three:

1. To establish a market for first mortgages insured under title II of the National Housing Act, as amended, section 203 (new construction only).

2. To facilitate the construction and financing of projects insured under section 207 of the National Housing Act, as amended.

3. To make available to investors bonds issued by the Federal National Mortgage Association under the authority of section 302 of title III of the National Housing Act, as amended.

EXPLANATORY STATEMENT

The Federal Savings and Loan Insurance Corporation was created by title IV of the National Housing Act approved June 27, 1934 (12 U. S. C. 1725–1732), to insure the safety of savings in thrift and home-financing institutions. The Corporation protects investors and depositors up to $5,000 against loss in the event of default of an insured institution.

The Corporation is an instrumentality of the United States and operates under a board of trustees composed of the members of the Federal Home Loan Bank Board. Its capital stock of $100,000,000 was purchased and is held by the Home Owners' Loan Corporation.

The Corporation was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts and expenditures and means of financing of the Corporation are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Home Owners' Loan Corporation was created by the act of June 13, 1933, to grant long-term mortgage loans at low interest rates in order that distressed home owners might refinance their homes and, wherever possible, save them from foreclosure. The Corporation has a capital stock of $200,000,000 owned by the United States and has authority to issue $4,750,000,000 in bonds unconditionally guaranteed by the United States Government. In accordance with the Home Owners' Loan Act of 1933 the Corporation terminated its lending activities on June 12, 1936, and is now principally engaged in servicing the loans outstanding and in managing and disposing of real estate acquired as a result of foreclosure proceedings.

The Corporation was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

Title I of the Farm Credit Act of 1933 authorized and directed the Governor of the Farm Credit Administration to organize and charter 12 production credit corporations, one to be established in each city in which a Federal land bank was located.

The initial capital stock of each corporation was fixed at $7,500,000 and was subscribed for by the Governor of the Farm Credit Administration on behalf of the United States, as provided in section 4 of the Farm Credit Act of 1933. As of June 30, 1940, the paid-in capital stock of the corporations amounted to $120,000,000 and their surplus totalled approximately $2,500,000. Since then, and in conformity with the Budget Message of the President for the fiscal year 1941, the production credit corporations have paid into a revolving fund in the Treasury $15,000,000 from their capital. The proceeds of such repayments will be held in the Treasury of the United States as a fund available for resubscription if necessary.

The principal function of the production credit corporations is to provide capital for and supervise local production credit associations which make short-term agricultural loans to their members. At the present time the corporations own about 80 percent of the total outstanding stock of all the associations and the farmer members own the balance.

The receipts, expenditures, and method of financing are shown in detail in the statement above.

EXPLANATORY STATEMENT

The Reconstruction Finance Corporation, organized under the act of January 22, 1932 (47 Stat. 5), was created for the purpose of providing emergency loaning facilities for banking and other financial institutions, and for agricultural, commercial, and industrial purposes. The general scope of the Corporation's functions, as authorized by that act, has been extended by subsequent legislation. The act of June 25, 1940, extended the authority of the Corporation to January 22, 1947.

The capital stock of the Corporation, $500,000,000, was subscribed by the Secretary of the Treasury from an appropriation made by Congress in accordance with the terms of the original law. Additional funds are provided by an authorization to issue notes, debentures, bonds, and other obligations within limits prescribed by law. The Secretary of the Treasury may purchase the obligations of the Corporation whenever additional funds are needed.

The Corporation operates by two general methods in carrying out its corporate purposes and functions. It renders financial aid directly to eligible applicants by making loans or by purchases of preferred stock. Such transactions are referred to as "direct operations." The Corporation also furnishes funds to other governmental agencies or corporations, such transfers of funds being referred to as "allocations." These financial operations are indicated in the Corporation's annexed budget shown in the foregoing table.

The direct operations of the Corporation include loans made to banks, railroads, and business enterprises; loans made for financing the marketing of agricultural products; purchases of stock in banks, insurance companies, and mortgage corporations; and for all administrative expenses incurred in connection with such transactions. Direct receipts include repayment of principal and interest.

Allocations make funds available for advances to other Government agencies and corporations, or for subscriptions to capital stock. These funds have been employed to purchase the capital stock of the Disaster Loan Corporation, regional agricultural credit corporations, Home Owners' Loan Corporation, Federal home-loan banks, Export-Import bank, Federal Farm Mortgage Corporation, The RFC Mortgage Company, and Federal National Mortgage Association. Funds have also been supplied to the Federal Emergency Relief Administration, Farm Credit Administration, Federal Housing Administration, Commodity Credit Corporation, Rural Electrification Administration, and for the purchase of securities from the Federal Emergency Administration of Public Works and for transfer to the appropriation under the Emergency Relief Appropriation Act of 1935.

By the act of February 24, 1938, the Secretary of the Treasury was authorized and directed to cancel obligations of the Reconstruction Finance Corporation representing outstanding amounts invested in, or advanced to, various Government agencies, including advances for relief. The limit of obligations which the Reconstruction Finance Corporation is authorized to have outstanding was reduced by a similar amount. Provision was also made that future expenditures falling within the purposes covered by the above act should be handled in a like manner. Under the authority contained in this act, the Secretary of the Treasury had canceled, up to June 30, 1940, approximately $2,726,100,000 of the obligations of the Corporation. Of this amount, about $16,650,000 was canceled during the fiscal year 1940.

In accordance with the act approved June 25, 1940, the Corporation on or before June 30, 1941, may pay to the Treasury of the United States an aggregate amount of not to exceed $300,000,000 (to be determined by the Secretary of the Treasury). This will represent retirement of capital stock of the Corporation, payment of dividends, and the purchase of stock of the Federal home-loan banks now held by the Treasury, in a proportion to be determined by the Reconstruction Finance Corporation with the approval of the Federal Loan Administrator.

Also in accordance with the act approved June 25, 1940, in order to aid in the national defense program the Corporation is authorized to make loans, purchase the capital stock or to create or organize corporations for the purposes as set forth in said act.

The Corporation was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts and expenditures and means of financing of the Corporation are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The RFC Mortgage Company was created March 14, 1935, under the laws of the State of Maryland. By authority of section 5 (c) of the Reconstruction Finance Corporation Act, as amended, the Reconstruction Finance Corporation subscribed to and purchased the entire stock of the Corporation amounting to $25,000,000. Additional funds required to carry on the business of the company are obtained by loans from the Reconstruction Finance Corporation.

The principal functions of the company are to make loans upon urban income-producing properties and to provide a market for mortgages through the purchase thereof.

The receipts, expenditures, and method of financing are shown in detail in the above statement.

EXPLANATORY STATEMENT

By authority granted in section 201 (e) of the Emergency Relief and Construction Act of 1932, approved July 21, 1932, the Reconstruction Finance Corporation created 12 regional agricultural credit corporations to make short-term loans direct to farmers and stockmen in the United States.

The stock of these corporations was subscribed and paid for by the Reconstruction Finance Corporation out of the unexpended balance of the amounts allocated and made available to the Secretary of Agriculture under section 2 of the Reconstruction Finance Corporation. acts. All of the stock is now held by the Secretary of the Treasury for and on behalf of the United States. Of the total original capital of $44,500,000, the corporations have returned to a revolving fund set up under section 84 of the Farm Credit Act of 1933 the sum of $39,500,000, leaving outstanding stock in the amount of $5,000,000.

On May 27, 1933, the functions of the Reconstruction Finance Corporation relating to the affairs of the regional agricultural credit corporations were transferred to the Farm Credit Administration.

Under the authority of the Farm Credit Act of 1937, the Farm Credit Administration has effected the consolidation or merger of various of these corporations so that there are now only five in existence. It is anticipated that only three will be in existence by the fiscal year 1942.

These corporations are in process of liquidation, as short-term credit to agriculture is being made available by other permanent organizations administered by the Farm Credit Administration.

The receipts and expenditures are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The United States Housing Authority was originally created as a body corporate of perpetual duration in the Department of the Interior by the United States Housing Act of 1937, approved September 1, 1937 (50 Stat. 888), to "provide financial assistance to the States and political subdivisions thereof for the elimination of unsafe and insanitary housing conditions, for the eradication of slums, for the provision of decent, safe, and sanitary dwellings for families of low income, for the reduction of unemployment, and the stimulation of business activity * * *." This act was further amended by the United States Housing Act amendment of 1938, approved June 21, 1938 (52 Stat. 820). The United States Housing Authority, under Reorganization Plan No. I, effective July 1, 1939, was transferred from the Department of the Interior to the newly created Federal Works Agency. The United States Housing Authority was authorized to engage in defense housing activities under title II of Public, No. 671, 76th Congress, 3d session, approved June 28, 1940.

The Authority has a capital stock of $1,000,000 subscribed by the United States and is authorized to issue obligations guaranteed by the United States in an amount not to exceed $800,000,000 and to make contributions in an amount not to exceed $28,000,000 per annum.

The receipts, expenditures, and means of financing of the Authority (other than expenditures incurred in connection with the completion of the transferred P. W. A. housing division projects) are shown in detail in the foregoing statement.

The items in the foregoing statement, "Loans to public housing agencies," do not reflect the total disbursements for the development cost of the projects upon which the loans are made. There is a tendency for the progressive entry of larger amounts of private capital into the United States Housing Authority's program. The disbursements for the development cost of the projects for the fiscal year 1940 was $185,000,000, and for the fiscal years 1941 and 1942 it is estimated to be $300,000,000 and $200,000,000, respectively. These disbursements rather than the amounts loaned by the Authority reflect the over-all size of the program and is the true measure of the administrative work and scope of the Authority's operations, which will remain practically the same regardless of the proportion of Federal and local private financing entering into the development cost of housing projects.

[1] Revenues and miscellaneous receipts are not shown on this summary as a method of financing. Actual and estimated revenues and miscellaneous receipts have been applied against the programs and projects to which they are related. This is in accord with the provisions of the Tennessee Valley Authority Act and the various appropriation acts. As shown on the schedule of obligations by objects, these revenues and miscellaneous receipts for 1940 totaled $19,592,130, and estimated for 1941, $21,060,961, and for 1942, $21,663,226.

EXPLANATORY STATEMENT

As shown on the summary statement presented herewith, the appropriation request of the Authority for 1942 is $69,800,000. Combined with $1,635,000 expected to be expended from the proceeds of bond issues, the sum of net estimated obligations will equal $71,435,000. The appropriation request for 1942 exceeds by $4,800,000 the total appropriations received during 1941, an increase fully necessitated by the supplementary national-defense power-supply program approved on July 31, 1940, House Joint Resolution 583. Of the total appropriation requested for 1942, $30,100,000 is for the supplementary program and $39,700,000 is for the regular program of the Authority.

By June 30, 1942, the Authority will have obligated a net total of $503,366,528, of which $404,869,270 or 80 percent will have been from appropriated funds; $64,684,683 or 13 percent from bond proceeds; and $33,812,415 or 7 percent from transfers of property from other agencies.

The following paragraphs and Statements 1 through 7 present the details of the 1942 estimates, compared with the estimates for 1941 and the actual expenditures for 1940.

NAVIGATION, FLOOD CONTROL, AND POWER PROGRAM

The largest portion of the expenditures of the Authority is being devoted to the construction of a unified multipurpose system of dams and reservoirs on the Tennessee River and its tributaries, a system designed to secure the benefits of navigation, flood control, and power. The first of these types of benefits will be provided through the construction and maintenance of a 9-foot channel from the Ohio River to Knoxville. The second will be realized through the utilization of over 10,000,000 acre-feet of controlled storage capacity in reservoirs constructed, acquired, or currently authorized for the regulation of stream flow. The third benefit, power production, will produce revenues sufficient to meet all direct operating expenses of the power program, including depreciation, which is excluded from the Budget, and in addition will meet all of the direct operating expenses of navigation and flood control. These benefits are already being realized in part in advance of the completion of the unified system of river control and use.

To comply with the requirements of the emergency program, to secure continuity in progress in the unified development of the Tennessee River to which the emergency program is an increment, to achieve the best use of construction equipment, and to achieve maximum economy consistent with other requirements, it will be necessary that a construction schedule revised during the last year to provide increased facilities for the defense program be followed closely. The estimates for 1942 are based on this revised schedule and reflect necessary increases in the construction program.

Supporting Statement No. 1 includes the estimates for the asset accounts of this program, which comprises only those projects previously authorized by Congress. The total amount to be expended in 1942 under these asset accounts is $74,849,000. This amount exceeds by $1,390,000 the estimated amount for 1941 and is accounted for by heavier expenditures required in carrying out the emergency program authorized by House Joint Resolution 583. In the paragraphs that follow, a brief statement describing the major work contemplated is given.

The Kentucky Dam and Reservoir, scheduled for completion in 1945, will provide sufficient flood storage to reduce flood flows on the lower Ohio and Mississippi Rivers by 2 or 3 feet and will provide a 9-foot channel in the lower Tennessee River. The installation by 1945 of four hydroelectric generating units with a total capacity

Federal Reserve Bank of St. Louis

of 128,000 kilowatts is now being definitely scheduled for this project. The 1942 estimate of $17,000,000 provides for continued construction on the dam, land purchases, and the commencement of major highway and railroad adjustments.

Two additional hydroelectric generating units are now in process of installation at Pickwick Landing Dam. The 1942 estimate of $873,000 provides for the completion of this work in the spring of 1942.

The amount of $1,789,000 requested for Wilson Dam and Reservoir is for the completion of the installation of four additional generating units in 1942. To provide for channel dredging below Hales Bar Dam, acquired from the Tennessee Electric Power Company, and for construction work to stop leaks in that dam, $1,747,000 is requested.

The schedule for Watts Bar Dam has been advanced to change the closure date from April 1, 1942, to January 1, 1942, and to place the first generator in service on May 1, 1942, instead of November 1, 1942; this revised schedule will not increase the total estimated cost. The estimate of $10,508,000 for 1942 will provide for the substantial completion of this project.

Construction of the access road and beginning of work on the construction plant for Fort Loudoun Dam and Reservoir was initiated in 1941. The estimate of $5,925,000 requested for 1942 provides for the beginning of major construction on the dam and lock in 1942. This project, scheduled for completion in 1944, brings the 9-foot channel to Knoxville and adds substantially to the flood control and power capacity of the system.

The Cherokee Dam and Reservoir on the Holston River, authorized by House Joint Resolution 583, is scheduled for closure in January 1942. The first generating unit will be placed in service in August 1942, and two others will follow shortly thereafter, giving an installed capacity of 90,000 kilowatts. The estimate for 1942 of $16,825,000 is required in order that the construction of the dam and reservoir may be completed in accord with this schedule in the interests of national defense.

The Watts Bar steam plant is scheduled for completion in 1942 with the first generating unit in service during January 1942. A second unit will be placed in operation in February 1942. Maintenance of this schedule makes necessary the request of $4,557,000.

The second section of Supporting Statement No. 1 presents other river development work, consisting of an estimate for 1942 of $77,000 for investigations for future projects. This work is essential to the evaluation of possible future additions to the Tennessee Valley Authority system of unified projects.

The third section of Statement No. 1 presents actual and estimated obligations to provide transmission facilities necessary to meet increased power requirements in the area served by the Authority and to reinforce the present transmission system. The estimate of $14,957,000 requested for 1942 provides for construction work on switchyards at the 5 generating plants under construction during 1942, the construction of transmission facilities required by the national defense power program, additions to the existing system for system reinforcement and normal load growth, and for rehabilitation and interconnection of acquired properties. The rehabilitation and interconnection of acquired facilities is a continuation of the work begun in 1940 and it is proposed that $1,635,000 of the funds required be obtained by the sale of bonds authorized for that purpose by section 15c of the act.

The estimate for 1942 includes $150,000 for the construction of transmission and distribution lines to be transferred to municipalities and cooperatives for necessary extensions to their systems. It is estimated that repayments on loans and properties previously transferred will total $250,000 during 1942.

Supporting Statement No. 2 shows that power revenues will in 1942 meet all the direct operating expenses of the power, navigation, and flood-control programs and will leave a balance of $9,140,000, which is more than adequate to meet depreciation charges which are not included as cash budget items.

Included in navigation and flood-control operations for 1942 is an estimate of $95,000 for river transportation studies. These studies include engineering design of navigation channels and preparation of navigation charts for the Tennessee River, studies of terminal facilities and floating equipment, and studies of common carriers on the river. The estimate for 1942 also includes the cost of power furnished the Corps of Engineers for the operation of Pickwick, Wilson, Wheeler, Guntersville, Hales Bar, and Chickamauga locks.

The estimated net income from power operations in 1942 of $10,360,000 will adequately provide for depreciation, the share of common expense charged to power operations, and interest on the investment in power facilities financed from appropriations. The Authority's sales of electric energy now almost equal its dependable power supply, and the additional generating units installed or scheduled for installation in 1942 will all be needed to meet the expected increased demand. The estimates for both revenues and direct expenses are based on an assumption of average rainfall and stream-flow conditions. An allowance is made in 1941 to compensate for a possible curtailment of available hydro energy because of a dry season either in 1941 or 1942.

A small increase in the expense of common operations for navigation, flood control, and power is estimated for 1942. This increase is largely accounted for by an increased proration of system expense as more projects are placed in operation. Also, national defense needs will require increased police protection of dams and generating plants.

FERTILIZER PROGRAM

The fertilizer program, authorized by section 5 of the act, is conducted through laboratory investigations, fertilizer manufacture, and demonstrations of fertilizer use in cooperation with agencies of the Department of Agriculture, the land-grant colleges, farm organizations, and individual farmers. This program is aimed at the production of less expensive fertilizers and the encouragement of their wider use in a national testing program under practical farm conditions. A more extensive use of plant nutrients as combined with other soil conserving practices will aid substantially in providing a more stable farm and national economy.

Statement No. 3 presents estimates for the asset accounts under this program. In order to maintain the Authority's phosphate reserves in amounts commensurate with the needs of its experimental program, it is planned to acquire new properties at about the rate of depletion of old reserves. An estimate of $55,000 is included for the purchase of phosphate holdings in 1942.

The estimated expenditure of $873,000 for fertilizer plant and equipment for 1942 shows a decrease under the estimate for 1941 of $435,000 and includes estimates for

the completion of a field washing and agglomerating plant for the handling of raw phosphate matrix, for construction of equipment for removing impurities from phosphatic materials by flotation, for improvements in existing plants, for the construction of a potassium metaphosphate furnace, and for the construction of a furnace for fused rock. All of these items are a part of the experimental program designed to develop more efficient forms and types of plant nutrients for practical use in agriculture.

A reduction in fertilizer inventories in 1942 is estimated, caused in part by a reduction in the production of superphosphate which requires a 90-day curing period. An increase in the production of calcium metaphosphate, which does not require this curing period and thereby does not add as much to inventories in the manufacturing process, is anticipated.

As shown in Supporting Statement No. 4, the 1942 estimate of the net expense of fertilizer operations exceeds by $316,000 the 1941 estimate, an increase accounted for by more extensive test demonstrations of fertilizer use.

Fertilizer production in 1942 will total 101,300 tons, of which 42,400 tons, costing $1,543,000, will be distributed for test-demonstration purposes. Controlled soil and fertilizer investigations, consisting of studies of the physical and chemical characteristics and biological relations of new forms of plant nutrients and studies of soil types, will require $90,000 during 1942. Of this total, $74,000 will be devoted to payments to land-grant colleges in the seven Valley States for cooperative assistance. Farm unit and large-scale test demonstrations will also be conducted in cooperation with the land-grant colleges and will require $502,000 in 1942. A soil inventory to determine the characteristic conditions and basic plant nutrient deficiencies in Tennessee Valley soils will be continued in cooperation with the land-grant colleges and the United States Bureau of Plant Industry.

RELATED PROPERTY OPERATIONS PROGRAM

Asset accounts formerly included under the related property operations program are now contained in the statement on general assets. The actual and estimated costs of the related property operations program are shown in Supporting Statement No. 5. This program covers activities on public lands in the custody of the Authority which are not assigned to the major objectives of the act. Included in this program is the administration of lands acquired on reservoir margins for flowage purposes, the operation of the permanent villages of the Authority, and the maintenance for national-defense purposes of Nitrate Plant No. 1, the idle portion of Nitrate Plant No. 2, and the Waco Quarry, all in the vicinity of Muscle Shoals.

The decrease in the 1942 estimate for reservoir-area operations under that for 1941 is largely accounted for by the reduction in the amount to be expended on facilities for public use and recreation.

The narrow strip of agricultural and forest lands surrounding the various reservoirs is so managed that a satisfactory income may be derived consistent with sound conservation practices and reservoir operating requirements. The estimated expense of operating these lands in 1942 shows a reduction from the figure for 1941. This reduction results from an estimated increase in income from the management of the properties.

In 1942, public-use recreational facilities such as boat docks, swimming facilities, and parks, together with recreation and public grounds investigations, call for an estimated expense of $142,200, a reduction under 1941. In 1942, the cost of operating recreational facilities will be almost entirely covered by the income derived from the renting of these facilities to concessionaires.

To provide for reforestation and erosion control work on the Authority's reservoir land in 1942, $58,000 is requested, a decrease from the 1941 estimate. The estimate for fish and game readjustment investigations for 1942, which will provide for preimpoundment studies in the Kentucky and Fort Loudoun reservoirs, in addition to other projects, is the same as that for 1941.

The net expense of operating the permanent villages of the Authority in 1942 is estimated at $7,108, a decrease from the 1941 estimate. This expense, which excludes depreciation charges, is made up of the cost of operating villages in the Muscle Shoals area, Norris Town, and Pickwick, Wheeler, and Hiwassee villages.

The estimate of $57,000 for the maintenance of national defense properties provides for the continuation of routine work to keep the unused portion of these properties in stand-by condition during 1942. The War Department has recently assigned $6,500,000 of defense funds for the rehabilitation of the national defense properties for the production of explosives and explosive ingredients. Of these funds, $4,500,000 will be used to build a new synthetic ammonia unit to replace the present cyanamide unit, and the remainder will be used to rehabilitate and place the ammonium nitrate portion of Nitrate Plant No. 2 in operation. Work was initiated on November 1, 1940, and will be completed in 11 months, if possible.

DEVELOPMENT ACTIVITIES PROGRAM

The development activities program comprises studies, demonstrations, surveys, and other work related to other programs of the Authority and to the general development of the Tennessee Valley region. Contributing as it does to improvement of the general economy of the region by the discovery and development of new uses of basic resources, and methods of increasing income, this program is an important backlog to the region's ability to aid in the national defense. This program, as authorized by the Tennessee Valley Authority Act, has been developed in close cooperation with other agencies concerned with similar objectives and thereby has stimulated basic and practical research and demonstrations, pointed the way to new private enterprise, and has assisted in mobilizing the human and natural resources of the area to greater economic effort and progress.

Supporting Statement No. 6 presents the estimates for this program. The total estimated expense for 1942 of $1,400,000 is $28,000 less than the estimate for 1941.

The estimated expense of general mapping in 1942 is $250,000. The topographic, land-use, and other maps of the area prepared under this program are essential to the planning of almost all of the major activities and projects of the Authority. Completed maps are made available to the public at a nominal cost. As these maps are comparable to those being made for other parts of the country, they contribute to the ultimate coverage of the Nation and have important national-defense uses. By the end of 1942, maps will be in process or will have been completed for 16,000 square miles of the Tennessee Valley.

The estimate for Valley-wide forestry development and erosion control of $249,000 provides for continuation of this program, a slightly reduced rate. Forest-resources surveys and management planning has now reached the stage where important assistance can be given to public and private agencies concerned with forest and farm woodlot problems. In addition to watershed protection on its

own properties, the Authority is cooperating with the United States Forest Service, the Civilian Conservation Corps, State agencies, and private owners in a program of forest conservation and development and erosion control. The cost of operating the Authority's two nurseries is included in the estimates for this activity. It is estimated that 20,000,000 trees will be planted on 4,000 projects in 1942. Erosion control by means of such construction work as check dams will be conducted on 2,500 projects involving 25,000 acres during 1942. Another important contribution of the Authority is the rendering of cooperative assistance in forest-fire control. To provide improved materials, methods, and techniques, the Authority conducts tree, and tree-crop research.

Of increasing importance is the Authority's research in the development of mineral resources. The Tennessee Valley region is outstanding in the variety of its mineral resources. About one-third of the commodities classified as "strategic" or "critical" by the Army and Navy Munitions Board are available in commercial quantities in the Valley. In 1942, as is the case in 1941, the major effort in mineral research will be concentrated on investigations of materials most necessary to the national defense. Research concerning olivine and dolomite as sources for magnesium, extraction of alumina from Valley clays, and vermiculite, chromite, and manganese ores will be conducted.

A slight decrease in the expenses of public-health work during 1942 is proposed in the estimate of $130,000. Public-health work is conducted in close cooperation with Federal, State, and local health agencies. To safeguard the health of Tennessee Valley Authority employees and to prevent an exaggeration of local health problems by operations of the Authority, cooperative health work is conducted in areas contiguous to the reservoirs and construction projects. Particular attention is given to studies of two of the areas more serious diseases—tuberculosis and malaria. Medical malariology and biological studies are made to develop effective and economical malaria control. Studies are also made of the pollution of streams by industrial wastes.

In the field of the development of agricultural industries, the Authority carries on investigations of marketing and processing methods and of the development and introduction of those methods for crops suitable to soil conservation objectives which will best increase the farm income and contribute to the development of the region. To a large extent this work is carried on by means of cooperative arrangements between the Authority, State experiment stations, and land-grant colleges. The 1942 estimate of $211,000 for this activity is the same as the estimate for 1941. Processing and marketing cooperative enterprises which will contribute to the rural economy of the region are studied and developed. Research on processing methods and equipment, conducted in cooperation with six research agencies in four Valley States and with two Federal agencies, is pointed toward the local processing of farm and forest products to increase rural incomes and to promote soil conservation. Other cooperative studies are made on the development of practical uses of electricity on farms.

Discontinuance of expenditures for preservation of prehistoric materials is responsible for a decrease in the 1942 estimate for general developmental activities. Included in these general activities for the development of the Valley are transportation studies and the development of commerce and industry in the region, studies of rural areas subject to destructive recurring floods, planning assistance to communities affected by Tennessee Valley Authority reservoirs, research in local governments of the Valley States, the coordination of surveys and plans for defense housing, and up to 1942 the salvaging of prehistoric materials in areas to be flooded.

GENERAL ASSET ACCOUNTS

The estimates for general asset accounts as shown by Supporting Statement No. 7, total $358,000 for 1942, a reduction of $2,135,723 under 1941. Routine additions to and replacements of equipment and structures and an increase in general inventories account are provided for by these estimates.

EXPLANATORY STATEMENT

The financial requirements of the District of Columbia for the fiscal year 1942 are summarized in the preceding statements. It will be noted from the Annexed Budget summary that the estimated revenues (general, special, and trust accounts) of the District for 1942 are expected to total $49,421,341, which, together with the Federal contribution of $6,000,000 and the total of the estimated unobligated balances (general, special, and trust accounts) of $2,804,220 carried over from the fiscal year 1941, will total $58,225,561. The obligations (general, special, and trust accounts) for 1942 are estimated at $57,046,123. It is expected that there will be a net surplus of $1,179,438 at the close of the fiscal year 1942, made up as follows: General revenue account, $1,601; highway-fund account, $55,670; and trust accounts, $1,122,167.

Revenues of the District of Columbia

Supporting Statement No. 1 shows the revenues of the District estimated for 1942, as allocated to the general, special, and trust accounts. The general account revenues are discussed in detail immediately below. The revenue estimates under the highway fund show a substantial increase. The decrease shown in the water revenues is due to the carry-over from 1940 to 1941 of an unusually large number of bill payments which ordinarily would have been paid in 1940. The trust accounts for 1942 approximate those for 1941, excluding, of course, the Public Works Administration allocations under the 1939 grant of $18,150,000.

It will be observed that, under the general revenue account, by far the largest source of revenue for the District is the tax on real estate, estimated to yield $22,300,000 for 1942. This yield includes both current and back taxes, the levy being based on an assessed valuation of $1,250,000,000 at $1.75 per hundred. This valuation is an increase of $22,000,000 over the estimated valuation for 1941.

The tax on tangible personal property is estimated to yield $1,550,000, including delinquency payments. This estimate is based on an assessment of $88,500,000 at $1.75 per hundred. The assessment is $1,500,000 in excess of the estimated assessment for 1941.

The tax on individual incomes is estimated at $1,500,000, while the tax on corporate incomes is estimated at $1,500,000.

Other large items in the revenue estimates of the District for 1942 are the tax on public utilities, banks, etc., amounting to $2,250,000; alcoholic beverage taxes and license fees, $2,350,000; personal-property tax on motor vehicles, $900,000; insurance taxes, $840,000; inheritance and estate taxes, $650,000; licenses, $600,000; fees, $550,000; fines, $530,000; and penalties and interest on taxes, $300,000; highway fund, gasoline tax and motor-vehicle fees, $5,262,640; and water revenues, $2,773,016.

Appropriations for the District of Columbia

The appropriations recommended for the District in the fiscal year 1942 under the general and special accounts amount to $51,765,236, excluding trust-account appropriations, which amount to $3,818,685. The amounts under the headings of general and special accounts exceed the corresponding 1941 District appropriations by $2,785,611. The increases and decreases which make up this net increase are explained below.

GENERAL EXPENSES

Appropriations are made under this heading for the salaries and, in some instances, for the expenses of the principal administrative offices of the District government and certain other municipal agencies, such as the Public Utilities Commission, Department of Insurance, Surveyor's Office, Minimum Wage Board, Board of Indeterminate Sentence and Parole, Register of Wills, and Recorder of Deeds. The net increase under general expenses, amounting to $124,154, is made up of increases totaling $182,979 less decreases totaling $58,825. The principal increases under this head include $47,862 for the maintenance of District buildings; $9,500 for cash registers for the Collector's Office; $5,000 for the Surveyor's Office; $20,865 for the Board of Indeterminate Sentence and Parole (now an independent agency); $13,500 for the Employees' Compensation Fund; $17,900 for administrative expenses, Employees' Compensation Commission; and $44,530 for the Civil Service Retirement Fund. The principal decreases are as follows: $4,525, Purchasing Office; $15,000 for bringing inspections up to date (a nonrecurring item); $5,480, Assessor's Office; $13,360, Auditor's Office; $10,455, Corporation Counsel; $2,000, Chief Clerk, Engineer Department; and $6,250 for rent, Recorder of Deeds' office, all but the inspection and rent items being due to transfer of these sums as proper charges to the highway fund.

CONTINGENT AND MISCELLANEOUS EXPENSES

Under this head are included office expenses, postage, printing and binding, advertising, automobile maintenance, and refunding of taxes. The net decrease of $178,659 is made up as follows: Decreases—$6,000, postage; $500, advertising delinquent taxes; $9,770, motor vehicles, transferred as proper charge to the highway fund; $4,640, public employment service contribution which is deleted; and $163,000, refunding erroneous collections; less increases—$2,500, general advertising; $375, printing and binding; and $2,376, car allowances.

REPAYMENT OF LOAN FROM THE PUBLIC WORKS ADMINISTRATION

Under this head there is a decrease in the reimbursement item of $110,000. The 1942 estimate of appropriation, in the amount of $690,000, constitutes the second of 15 annual payments in liquidation of the 1939 Public Works Administration loan.

FREE PUBLIC LIBRARY

Under this head there is a net increase of $225,745 made up as follows: Increases—$8,620, personal services; $2,500, bookbinding; and $250,000, continuing the construction of the new main building; less $45,375 in nonrecurring items.

SEWERS

The net increase of $204,000 includes $225,000 for assessment and permit work, the latter increase being an offset to the contemplated stoppage of Work Projects Administration contributions, and $54,000 for the Oxon Run interceptor, less $75,000 for street drainage which is transferred as a proper charge to the highway fund.

REFUSE

The Refuse Department is responsible for the cleaning of streets and the collection and disposal of trash and garbage. Under this head there is an additional $212,340 on account of the substantial increase in street areas to be cleaned and in the number of family dwellings to be served.

ELECTRICAL DEPARTMENT

There is an increase of $65,312 under this head, principally for additional telephone and fire alarm services.

PUBLIC SCHOOLS

There is a net decrease of $131,485 for operation and maintenance of public schools which is composed of increases totaling $159,366 less decreases totaling $290,851. The principal increases are: Administrative and supervisory personnel, $7,151; clerks, $7,960; school attendance, $900; teachers and librarians; $62,911; vacation schools, $1,500; night schools, $5,600; Americanization work $4,010; vocational education, $3,001; custodial service, $5,360; transportation of crippled children, $1,400; replacement of obsolete equipment, $7,983; textbooks, $7,000; laboratory equipment, $175; repairs and improvements to school buildings and grounds, $43,415; and instruction of deaf, $1,000. There are nonrecurring items in the amount of $290,851, principally equipment for new schools.

There is a net increase of $594,000 for buildings and grounds, made up of the 1942 program of $1,405,000 less the 1941 program of $811,000. The 1942 program consists of the following items: Syphax School, to complete eight-room addition, $135,000; Anacostia Junior High School, to continue construction, $375,000; new senior high school, Twenty-fourth Street and Benning Road NE., to begin construction, $400,000; elementary school near Minnesota Avenue and Ely Place SE., $180,000; elementary school near Pennsylvania and Alabama Avenues SE., plans, $4,000; replacement of Abbott School, to begin construction, $200,000; street underpass, Powell Junior High School, $16,000; Woodrow Wilson High School, to complete six unfinished classrooms, $30,000; and to acquire additional land for elementary school purposes, $65,000.

POLICE

The net increase of $32,770 includes increases of $47,995 for additional police; $6,155 for personal services; and $12,870 for other expenses; less $34,250 in nonrecurring items.

POLICEMEN AND FIREMEN'S RELIEF

The increase of $85,000 under this head is in line with the past 16 months' experience as to the requirements of this fund.

FIRE

The net increase of $82,450 is composed of increases of $90,450 for hose, apparatus, and a new fireboat, less decreases of $8,000 in nonrecurring items.

HEALTH

The increase of $143,967 is made up of the following increases and decreases: Increases—$7,267 for the protective work of the Health Department; $21,700 for the tuberculosis sanatoria; $120,000 for Gallinger Municipal Hospital; decreases—Eastern Dispensary and Casualty Hospital, $5,000.

COURTS

Under this head provision is made for the juvenile court, the police court, the municipal court, and the probation system under the District Court of the United States for the District of Columbia.

There is an increase of $740 for the police court; an increase of $125 for the municipal court; and an increase of $500 for the probation system.

Estimates for the United States marshal's office, the District Court of the United States for the District of Columbia, and the United States Court of Appeals for the District of Columbia are carried in the appropriation acts for the Department of Justice and the judiciary.

Sixty percent of the expenditures for the United States marshal's office and the District Court of the United States and 30 percent of the expenditures for the conduct of the United States Court of Appeals for the District of Columbia, amounting to $582,250, will be payable out of District of Columbia revenues.

PUBLIC WELFARE

The Board of Public Welfare has general supervision of dependents, defectives, and delinquents in the District of Columbia. For the executive offices of the Board, including the Division of Child Welfare, there is an increase of $6,000. There is an increase of $8,160 for the board and care of children.

For the jail there is an increase of $14,000 for operating the new building and $27,000 for constructing a wall to surround the jail. There is a net increase of $14,220 for the workhouse and reformatory made up as follows: Increases—maintenance, $5,000; and construction, $71,100; decreases—personal services, $11,880 due to transfer of the Parole Board to independent status and $50,000 in nonrecurring construction items. There is a decrease of $10,950 for the National Training School for Boys and an increase of $5,990 for the National Training School for Girls.

For the District Training School there is a net increase of $106,100 which is made up of increases for maintenance and operation amounting to $36,850 and new construction, $70,000, and a decrease of $750 because of a nonrecurring item. There is a net increase of $4,038 for the Industrial Home School for Colored Children. The Industrial Home School for White Children has a decrease of $1,940 due to nonrecurring items. The Home for the Aged and Infirm has a net increase of $2,880. The Municipal Lodging House has an increase of $140.

There is included for a site and studies to be made in connection with a proposed new welfare center to be located outside the limits of the District of Columbia, $70,000.

The estimates of appropriations for emergency relief and old-age pensions are increased $65,000. The amount for sponsors' contributions to Work Projects Administration projects is decreased $7,500.

There is an increase of $164,250 to care for the District's indigent insane at St. Elizabeths Hospital due to the constantly increasing number of admissions.

The item of $15,000 for education of crippled children is transferred to schools.

MILITIA

There is a decrease of $16,313 for salaries and expenses, due to expected mobilization of the National Guard in 1942. There is an increase of $30,000 to maintain the new armory. An additional $1,000,000 is estimated for con-

tinuing the construction of the National Guard Armory, the total authorization of which is $2,750,000. One more appropriation totaling $150,000 will be required in 1943 before this structure is completed.

NATIONAL CAPITAL PARKS

Under this head there is a decrease of $20,440 due mainly to the transfer of park road maintenance to the highway fund.

NATIONAL CAPITAL PARK AND PLANNING COMMISSION

There is an estimate of $300,000 for reimbursement to the United States for land purchases by this agency under the Capper-Cramton Act.

NATIONAL ZOOLOGICAL PARK

There is a decrease of $650 under this head.

HIGHWAY FUNDS, GASOLINE TAX AND MOTOR-VEHICLE FEES

There is a total increase of $577,802 under this head which includes $38,410 for the Department of Vehicles and Traffic; $8,469 for traffic police; $448,300 for highways; $15,180 for trees and parkings; $25,000 for park roads; and $42,443 for expenses in connection with administration of activities under this fund.

WATER ACCOUNT

There is an increase of $654,430 in the Washington Aqueduct estimates because of necessary additional costs of operation, the development of plans and the improvement of facilities for insuring the future water supply of the District of Columbia, and the construction of a new reservoir. Under the Water Department there is a net decrease of $206,965 as follows: Increases—maintenance of distribution system, $10,335; main extensions, $215,000; main replacements, $11,000; new pumping units, $41,000; fencing, $15,700; decreases—investment payments, $500,000.

Allowances for Privately Owned Motor Vehicles, District of Columbia—

For allowances for furnishing privately owned motor vehicles in the performance of official duties at a rate of not to exceed $264 per year for each automobile, [$10,560] *$12,936*: *Provided*, That allowances under this appropriation shall be made only to persons whose duties require full-time field service (*54 Stat. 312*).

Estimate 1942, **$12,936** Appropriated 1941, **$10,560**

06 Travel expenses: Obligations—1942, $12,936; 1941, $10,560; 1940, $10,296.

All motor-propelled passenger-carrying vehicles owned by the District of Columbia shall be used exclusively for "official purposes" directly pertaining to the public services of said District, and shall be under the direction and control of the Commissioners, who may from time to time alter or change the assignment for use thereof or direct the joint or interchangeable use of any of the same by officials and employees of the District, except as otherwise provided in this Act; and "official purposes" shall not include the transportation of officers and employees between their domiciles and places of employment, except as to the Commissioners of the District of Columbia and in cases of officers and employees the character of whose duties makes such transportation necessary, and then only as to such latter cases when the same is approved by the Commissioners: *Provided*, That no passenger-carrying automobile, except busses, station wagons, patrol wagons, and ambulances, and except as otherwise specifically authorized in this Act, shall be acquired under any provision of this Act, by purchase or exchange, at a cost, including the value of a vehicle exchanged, exceeding $650. No motor vehicles shall be transferred from the police or fire departments to any other branch of the government of the District of Columbia.

Appropriations in this Act shall not be used for the payment of premiums or other cost of fire insurance.

The Commissioners are authorized, in their discretion, to furnish necessary transportation in connection with strictly official business of the District of Columbia by the purchase of streetcar and bus fares from appropriations contained in this Act: *Provided*, That the expenditures herein authorized shall be so apportioned as not to exceed a total of [$11,100] *$11,675*: *Provided further*, That the provisions of this paragraph shall not include the appropriations herein made for the fire and police departments (*54 Stat. 312*).

separation structure in the vicinity of Fourteenth Street and Maine Avenue Southwest, is hereby continued available for the same purposes during the fiscal year 1941;]

[For completing the construction of a bridge to replace the bridge in line of Pennsylvania Avenue over the Anacostia River in accordance with plans and profiles to be approved by the Commissioners of the District of Columbia, including construction of and changes in sewer and water mains, traveling expenses in connection with the inspection of material at the point of manufacture, employment of engineering and other professional services, by contract or otherwise, and without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), the Classification Act of 1923, as amended, or the civil-service requirements, and engineering and incidental expenses, $680,000;]

For beginning construction of a grade separation structure at Fourteenth Street and Maine Avenue and Fourteenth Street and East Potomac Park Drive, including plans and specifications, and such temporary construction as may be necessary to handle traffic during the construction of the main structure, and the construction of a low-level bridge across the outlet of the Tidal Basin into the Washington Channel, all connecting driveways, ramps, approach roads, changes in existing streets, roads, park roads, walkways, and so forth, construction of and changes in water and sewer mains, fire-alarm and police-patrol boxes, street and traffic lights, in accordance with plans to be approved by the Commissioners of the District of Columbia, the National Capital Park and Planning Commission, and the Commission of Fine Arts, $250,000: Provided, That upon completion and approval of such plans the Commissioners are authorized to submit the project as a Federal-aid highway project to the Public Roads Administration under the provisions of the Federal Aid Highway Act of June 8, 1938 (52 Stat. 633), and upon approval of such project by the Public Roads Administration, the Commissioners are authorized to construct such grade-separation structures and perform such necessary incidental work and pay the cost thereof from the District of Columbia appropriations for Federal-aid highway projects and the allocation of funds to the District of Columbia by the Public Roads Administration authorized by the said Federal Aid Highway Act: Provided further, That the necessary transfer of jurisdiction of public land is authorized and directed under the provisions of the Land Transfer Act of May 20, 1932 (47 Stat. 161): Provided further, That the Commissioners are authorized to employ necessary engineering and other professional services, by contract or otherwise, without reference to section 3709 of the Revised Statutes, the Classification Act of 1923, as amended, or civil-service requirements.

For all necessary expenses for the preparation of studies, preliminary plans, surveys, and estimates, and for the investigation of foundation conditions for a vehicular crossing of the Anacostia River between the general vicinity of South Capitol and P Streets and the proposed Anacostia Parkway at the northern end of the Naval Air Station grounds (old Bolling Field), with connections to Firth Sterling Avenue and other District thoroughfares east of the Anacostia River, including the employment of engineering or other professional services by contract or otherwise, without regard to section 3709 of the Revised Statutes, the Classification Act of 1923, as amended, or the civil-service requirements, $25,000: Provided, That the Commissioners of the District of Columbia are authorized and directed to confer with the officials of the United States Public Roads Administration, the State of Virginia, and the city of Alexandria, Virginia, as to the desirability, practicability, and feasibility of constructing a vehicular crossing of the Potomac River between a point in the general vicinity of the city of Alexandria, Virginia, and U. S. Route 1 and the southern portion of the District of Columbia in the vicinity of Shepherds Landing: Provided further, That the Commissioners of the District of Columbia shall report to the Congress with recommendations the results of such conferences at the earliest practical date.

[For completing the construction of a bridge in line of Massachusetts Avenue Northwest over Rock Creek and Rock Creek and Potomac Parkway in accordance with plans and profiles to be approved by the Commissioners of the District of Columbia, including necessary changes, construction, and reconstruction of roadways, sidewalks and curbing, construction of and changes in sewer and water mains, fire alarm and police patrol boxes, construction, reconstruction, and relocation of parkway roads, walkways, and such other work as may be necessary, travel expenses in connection with the inspection of material at the point of manufacture, employment of engineering and other professional services by contract or otherwise, without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), or the Classification Act of 1923, as amended, and civil-service requirements, including engineering and incidental expenses, $250,000;]

To carry out the provisions of existing law which authorize the Commissioners of the District of Columbia to open, extend, straighten, or widen any street, avenue, road, or highway, in accordance with the plan of the permanent system of highways for the District of Columbia, including the procurement of chains of title, $150,000, to remain available until June 30, [1942] *1943*: *Provided*, That this appropriation shall be available to carry out the provision of existing law for the opening, extension, widening, or straightening of alleys and minor streets and for the establishment of building lines in the District of Columbia;

For assessment and permit work, paving of roadways under the permit system, and construction and repair of sidewalks and curbs around public reservations and municipal and United States buildings, including purchase or condemnation of streets, roads, and alleys, and of areas less than two hundred and fifty square feet at the intersection of streets, avenues, or roads in the District of Columbia, to be selected by the Commissioners, and including maintenance of non-passenger-carrying motor vehicles, [$150,000] *$200,000*;

In all, [$3,684,100] *$4,130,000*, to be immediately available, to be disbursed and accounted for as "Street improvements", and for that purpose shall constitute one fund: *Provided*, That assessments in accordance with existing law shall be made for paving and repaving roadways, alleys, and sidewalks where such roadways, alleys, and sidewalks are paved or repaved with funds herein appropriated: *Provided further*, That any portion of this appropriation may be used for payment to contractors and for other expenses in connection with the expense of design, construction, and inspection of grade-crossing elimination and other construction projects authorized under section 8 of the Act approved June 16, 1936 (49 Stat. 1521), and section 1–b of the Federal Aid Highway Act of 1938 (Public, Numbered 584, Seventy-fifth Congress), pending reimbursement to the District of Columbia by the [Department of Agriculture] *Public Roads Administration, Federal Works Agency*, reimbursement to be credited to fund from which payment was made (*54 Stat. 335–338*).

Estimate 1942, **$4,130,000** Appropriated 1941, **$3,684,100**

[The Commissioners of the District of Columbia, in connection with the highway planning survey now in progress as a cooperative project with the Public Roads Administration, are directed to make a thorough study to determine the most feasible program for providing parking facilities, other than the public streets, for motor vehicles in the District of Columbia. Such study shall be made with a view to determining, among other things, the type or types and the quantity of such facilities which should be provided, the proper location and the probable cost of such facilities, and the appropriate method of financing the cost of such facilities. The Commissioners shall make a report to the Congress, of the results of their study, together with their recommendations at the earliest practicable date.]

The Commissioners of the District of Columbia are authorized and empowered, in their discretion, to fix or alter the respective widths of sidewalks and roadways (including tree spaces and parking) of all highways that may be improved under appropriations contained in this Act.

No part of any appropriation contained in this Act shall be available for repairing, resurfacing, or paving any street, avenue, or roadway by private contract unless the specifications for such work shall be so prepared as to permit of fair and open competition in paving material as well as in price.

In addition to the provision of existing law requiring contractors to keep new pavements in repair for a period of one year from the date of the completion of the work, the Commissioners of the District of Columbia shall further require that where repairs are necessary during the four years following the said one-year period, due to inferior work or defective materials, such repairs shall be made at the expense of the contractor, and the bond furnished by the contractor shall be liable for such expense.

[No part of the appropriations contained in this Act shall be used for the operation of a testing laboratory of the highways department for making tests of materials in connection with any activity of the District government] (*54 Stat. 335–339*).

SEC. 2. That the services of draftsmen, assistant engineers, levelers, transitmen, rodmen, chainmen, computers, copyists, overseers, and inspectors temporarily required in connection with sewer, water, street, street-cleaning, or road work, or construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations may be employed exclusively to carry into effect said appropriations when specifically and in writing ordered by the Commissioners, and all such necessary expenditures for the proper execution of said work shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in their Budget estimates shall report the number of such employees performing such services, and their work, and the sums paid to each, and out of what appropriation: *Provided*, That the expenditures hereunder shall not exceed $42,000 during the fiscal year [1941] *1942*: *Provided further*, That excluding inspectors in the sewer department, one inspector in the electrical department, and one inspector in the repair shop, no person shall be employed in pursuance of the authority contained in this paragraph for a longer period than nine months in the aggregate during the fiscal year.

Appropriations in this Act shall be available for payment by the District of Columbia of its contributions as an employer, in accordance with the provisions of the District of Columbia Unemployment Compensation Act (49 Stat. 946).

The Commissioners, or their duly designated representatives, are further authorized to employ temporarily such laborers, skilled laborers, drivers, hostlers, and mechanics as may be required exclusively in connection with sewer, water, street, and road work, and street cleaning, or the construction and repair of buildings, and bridges, furniture and equipments, and any general or special engineering or construction or repair work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof, said laborers, skilled laborers, drivers, hostlers, and mechanics to be employed to perform such work as may not be required by law to be done under contract, and to pay for such services and expenses from the appropriations under which such services are rendered and expenses incurred.

SEC. 3. That all horses, harness, horse-drawn vehicles necessary for use in connection with construction and supervision of sewer, street, street lighting, road work, and street-cleaning work, including maintenance of said horses and harness, and maintenance and repair of said vehicles, and purchase of all necessary articles and supplies in connection therewith, or on construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations, may be purchased, hired, and maintained, and motortrucks may be hired exclusively to carry into effect said appropriations, when specifically and in writing ordered by the Commissioners; and all such expenditures necessary for the proper execution of said work, exclusive of personal services, shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in the Budget estimates shall report the number of horses, vehicles, and harness purchased, and horses and vehicles hired, and the sums paid for same, and out of what appropriation; and all horses owned or maintained by the District shall, so far as may be practicable, be provided for in stables owned or operated by said District: *Provided*, That such horses, horse-drawn vehicles, and carts as may be temporarily needed for hauling and excavating material in connection with works authorized by appropriations may be temporarily employed for such purposes under the conditions named in section 2 of this Act in relation to the employment of laborers, skilled laborers, and mechanics.

SEC. 4. That the Commissioners are authorized to employ in the execution of work, the cost of which is payable from the appropriation account created in the District of Columbia Appropriation Act, approved April 27, 1904, and known as the miscellaneous trust-fund deposits, District of Columbia, necessary personal services, horses, carts, and wagons, and to hire therefor motortrucks when specifically and in writing authorized by the Commissioners, and to incur all necessary expenses incidental to carrying on such work and necessary for the proper execution thereof, including the purchase, exchange, maintenance, and operation of motor vehicles for inspection and transportation purposes, such services and expenses to be paid from said appropriation account: *Provided*, That the Commissioners may delegate to their duly authorized representatives the employment under this section of laborers, mechanics, and artisans.

SEC. 5. That the Commissioners and other responsible officials, in expending appropriations contained in this Act, so far as possible, shall purchase material, supplies, including food supplies and equipment, when needed and funds are available, in accordance with the regulations and schedules of the Procurement Division of the Treasury Department or from various services of the Government of the United States possessing materials, supplies, passenger-carrying and other motor vehicles, and equipment no longer required. Surplus articles purchased from the Government, if the same have not been used, shall be paid for at a reasonable price, not to exceed actual cost, and if the same have been used, at a reasonable price based upon length of usage. The various services of the Government of the United States are authorized to sell such surplus articles to the municipal government under the conditions specified, and the proceeds of such sales shall be covered into the Treasury as miscellaneous receipts: *Provided*, That this section shall not be construed to amend, alter, or repeal the Executive order of December 3, 1918, concerning the transfer of office materials, supplies, and equipment in the District of Columbia falling into disuse because of the cessation of war activities.

SEC. 6. No part of the funds appropriated in this Act shall be available for the payment of rental of quarters for any activity at a rate in excess of 90 per centum of the per annum rate paid by the District of Columbia for such quarters on June 30, 1933: *Provided*, That the provisions of this paragraph shall not apply to leases made prior to the passage of this Act, except when renewals thereof are made hereafter: *Provided further*, That the appropriations or portions of appropriations unexpended by reason of the operation of this paragraph shall not be used for any purpose, but shall be impounded and deposited in the Treasury to the credit of the District of Columbia.

SEC. 7. Appropriations contained in this Act shall be used to pay increases in the salaries of officers and employees by reason of the reallocation of the position of any officer or employee by the Civil Service Commission, and administrative promotions within the several grades: *Provided*, That the total reallocation increases under such appropriations shall not exceed $35,000 and administrative promotions shall not exceed $50,000: *Provided further*, That such reallocation increases and administrative promotions shall be subject to the approval of the Commissioners of the District of Columbia.

SEC. 8. Section 3709 of the Revised Statutes of the United States shall not be construed to apply to any purchase made or service rendered under the appropriations contained in this Act when the aggregate amount does not exceed the sum of $100.

SEC. 9. No part of this appropriation shall be available for any expense for or incident to the issuance of congressional tags except to those persons set out in the Act of December 19, 1932 (47 Stat. 750), including the Speaker and the Vice President.

SEC. 10. No part of any appropriation contained in this Act or authorized hereby to be expended shall be used to pay the compensation of any officer or employee of the Government of the United States, or of the District of Columbia, unless such person is a citizen of the United States, or a person in the service of the United States or the District of Columbia on the date of the approval of this Act who being eligible for citizenship had theretofore filed a declaration of intention to become a citizen or who owes allegiance to the United States.

[28] During the fiscal years 1934 and 1935 similar items are included under the various departments and establishments.

[29] The 1938, 1939, and 1940 expenditures have been adjusted to the basis of the 1940 appropriations which involve numerous transfers and consolidations of appropriations. For this reason the expenditures for these 2 years under the Department of Agriculture are not strictly comparable with those shown for prior years.

[30] Includes $17,739,448.73 in 1937 and $965,044.32 in 1936 for elimination of diseased cattle, formerly carried under "Miscellaneous."

[31] Transferred to Department of Agriculture from independent status by Reorganization Plan No. I, effective July 1, 1939.

TABLE NO. 6

Statement of balances of appropriations as of June 30, 1940 (exclusive of trust accounts), and of appropriations for the fiscal year 1941 (including permanent and indefinite appropriations), as of Nov. 1, 1940, reported by the Secretary of the Treasury

[This statement is included in the Budget only because of the requirements of the Budget and Accounting Act, 1921 (31 U. S. C. 11e). As budgetary information, the statement has little if any value, as it simply shows the balances of appropriations on the books of the Treasury, June 30, 1940, classified as between 1941 appropriations and those of prior years according to whether the funds were appropriated as "immediately available"]
