¹ In previous estimates this item was included under the head of "Federal, boundary, and State surveys."

² The words "at salaries not exceeding \$2,200 per annum" have been omitted.

³ This wording is submitted in lieu of "Continuing magnetic observations and to establish meridian lines in connection therewith in all parts of the United States; magnetic observations in other regions under the jurisdiction of the United States; purchase of additional magnetic instruments; lease of sites where necessary and erection of temporary magnetic buildings; continuing the line of exact levels between the Atlantic, Pacific, and Gulf coasts; establishing lines of exact levels in Alaska; determination of geographical positions, by triangulation or traverse for the control of Federal, State, boundary, and other surveys and engineering works in all parts of the interior of the United States and Alaska; determination of field astronomic positions; for continuing gravity observations; and including the employment in the field and office of such magnetic observers, at salaries not exceeding \$2,200 per annum, as may be necessary," in order to make separate items of the magnetic work and the Federal, boundary, and State work.

⁴ Of this amount, \$3,186 was refunded by the Geological Survey for work done for that bureau.

ESTIMATES OF APPROPRIATIONS REQUIRED FOR THE SERVICE OF THE FISCAL YEAR ENDING JUNE 30, 1923.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.	
DISTRICT OF COLUMBIA.			
<i>Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That 40 per cent of the following sums, respectively, is appropriated out of any money in the Treasury not otherwise appropriated, and 60 per cent out of the revenues of the District of Columbia, in full for the following expenses of the government of the District of Columbia for the fiscal year ending June 30, 1923, only, namely:</i>			
<i>Appropriations for the fiscal year ending June 30, 1923, heretofore or hereafter made in other acts and chargeable in any proportion against the revenues of the District of Columbia, shall be paid in the proportions of 40 per cent from the Treasury of the United States and 60 per cent from the revenues of the District of Columbia.</i>			
<i>If the estimated net revenues of the District of Columbia for the fiscal year ending June 30, 1923, are not sufficient to meet the proportion of the appropriations for that fiscal year charged against such revenues by this and all other acts, or which may be estimated to be charged against such revenues by acts that may be approved during such fiscal year, the Commissioners of the District of Columbia shall increase the rates of taxation on real estate and tangible personal property sufficiently to make up the difference: <i>Provided, however, That such rates of taxation shall in no event be less than 1½ per cent nor more than 2 per cent.</i></i>			
GENERAL EXPENSES.

Three clerks at \$1,440 each (increase of \$240 each for 2 and 1 additional submitted) (<i>same acts</i>).....	4,320.00																					
The position of clerk at \$1,400 was stricken from the 1922 District act by Congress. This office has been severely handicapped by the loss of this position by virtue of the large increase in the volume of work each year. The loss of this position will operate against the full amount of leave of clerks allotted by law. The increase of \$39,000 in revenue over the previous fiscal year should fully justify the restoration of this position.

<p>NOTE.—Two new positions have been asked for, one chief clerk and one assistant engineer. There has been no increase in the force of this office for over 15 years, and the work has very substantially increased. The zoning law has increased the work of the office considerably, and the work will likely increase as time goes on. To properly serve the public promptly and efficiently, these positions should be allowed.</p> <p>NOTE.—\$3,000 has been appropriated for temporary services for a number of years, but as indicated by the Congressional Record of Jan. 19, 1921, p. 1716, this appropriation was cut in two through error, too late for correction. It is earnestly hoped that this appropriation will be restored to its previous amount, otherwise this office will be seriously handicapped. Men who have been employed in this office 25 years are seriously affected by this error.</p>

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.				Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Offices of the District of Columbia—Continued.					
Miscellaneous, including Takoma Park and Southeast Branch Libraries: For books, periodicals, and newspapers, including payment in advance for subscriptions to periodicals, newspapers, subscriptions books, and society publications (increase of \$5,000 submitted) (<i>acts June 3, 1896, vol. 29, p. 244, secs. 1-5, June 30, 30, 1898, vol. 30, p. 518, sec. 1; Feb. 22, 1921, vol. 41, p. 1112, sec. 1</i>).....				\$17,500.00	
NOTE.—This increase is required to secure original stocks for two new branches (Southeast and Eastern High School) and to meet arrears at main library and larger demands at the high prices now prevailing.					
Object of expenditure.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.

NOTE.—Large arrears of equipment at the main library and maintenance of two new branches make this additional amount necessary. The library has been unable for the last three years to buy much needed typewriters, book trucks, filing cases, tables, chairs, multigraph, refrigerator, or to do needed printing. Its two delivery cars are worn out, but are being kept in service at excessive costs for repairs. The library has a passenger car which is highly useful for book collections that should be maintained from this fund. The library trustees have long held that the librarian's traveling expenses in visiting book markets, other libraries, and in attendance at important professional meetings should be met from this appropriation.

NOTE.—The inspectional work of the division due to the increase in building operations as a result of greater population and to administration of zoning law and regulations, urgently demands the year-round employment of a fourth automobile, which will be supplied by an assistant inspector if he has the assurance of a monthly allowance of \$30 for upkeep for the 12 months. The additional \$240 asked for would unquestionably be justified by the resultant improvement from the viewpoint of field work.

Office of superintendent of weights, measures, and markets: For purchase of small quantities of groceries, meats, provisions, and so forth, including personal services, in connection with investigation and detection of sales of short weight and measure (increase of \$200 submitted) (<i>act Feb. 21, 1921, vol. 41, p. 1115</i>).....				\$300.00

Purchase of provisions.....	\$300.00	\$100.00	\$280.00		
NOTE.—This appropriation appears to have been reduced last year by inadvertence. It is recommended that the appropriation be increased to \$300, because it is manifest that \$100 will be wholly insufficient to make test purchases for the purpose of determining whether or not stores about which complaints are made are selling goods by short weight. It may be that it will be unnecessary to expend the entire amount of \$300, but it is not believed advisable to handicap the weights and measures office by limiting the appropriation to such a small amount as is carried in the current bill. All goods purchased from this appropriation are turned over to the municipal lodging house to be used by that institution.

	1,800.00	1,440.00	1,840.00		
NOTE.—\$360 each has been found insufficient to maintain these motor vehicles. It was necessary to ask for a deficiency appropriation of \$400 for the fiscal year ending June 30, 1921, making the total appropriation \$1,840, of which \$72.53 was unexpended. These cars are used by inspectors in testing all kinds of scales, etc., and it is necessary to carry several hundred pounds of test weights and other equipment besides the inspector and his helper. The fact that they are thus heavily loaded causes their upkeep to be more than it would be if they were used only as passenger cars. These cars are kept in the municipal garage where all repairs are made and all supplies furnished.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Improvements and Repairs—Continued. For paving roadways under the permit system (<i>submitted</i>).....	\$50,000.00	
NOTE.—A real need exists for a small fund of general application to permit the paving of a roadway in front of new housing developments in cooperation with the property owner, who, under the permit system, must deposit the half cost of the work in advance. If such a case awaits specific authorization by Congress, significant expenditures in temporary surfacing are largely wasted, with quite unsatisfactory results. Such a fund as herein submitted was provided in former years but was dropped because it was little availed of by property owners before roadway pavements were assessable. Under such a fund such roadways will no longer be the only major public appurtenance to a housing project that the District is unable to supply, for lack of available funds, at the time the pavements are needed. The amount of the appropriation is the limit of the cost of work that can be done thereunder, as the deposits of the property owners under the law in respect to permit work are not placed to the credit of the working appropriation but to that of the United States and the District of Columbia.

teenth Street, 30 feet wide.....	10,700.00	
In all, \$275,900; to be disbursed and accounted for as "Street im-		
provements" and for that purpose shall constitute one fund.		
Grading streets, alleys, and roads: For labor, purchase and repair of cars, tools, or		
hire of same, and horses; and labor of the inmates of the Washington Asylum and Jail		
may be used in connection with this work (increase of \$15,000 submitted) (<i>same acts</i>).	50,000.00	

NOTE.—The demands of this fund are beyond its resources and are so reasonably necessary and uniformly distributed throughout the District that an increased amount is a community interest. Sewer and water facilities must often be postponed because thoroughfares to be traversed thereby are not at grade. The yearly amount of this work has really of necessity been reduced because of increased unit cost without an increase in the fund and there is in consequence an accumulation of deserving items to be executed now that costs are more nearly normal.

Condemnation of streets, roads, and alleys: For purchase or condemnation of streets, roads, and alleys (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Feb. 22, 1921, vol. 41, p. 1116, sec. 1*).....

\$1,000.00

To carry out the provisions contained in the District of Columbia appropriation act for the fiscal year 1914 which authorize the commissioners to open, extend, or widen any street, avenue, road, or highway to conform with the plan of the permanent system of highways in that portion of the District of Columbia outside of the cities of Washington and Georgetown, there is appropriated such sum as is necessary for said purpose during the fiscal year 1923, to be paid wholly out of the revenues of the District of Columbia (*same acts*).

Repairs—Streets, avenues, and alleys: For current work of repairs of streets, avenues, and alleys, including resurfacing and repairs to asphalt pavements with the same or other not inferior material, and including the purchase of a motor truck at a cost not to exceed \$2,000, and including the maintenance of motor vehicles, and including an allowance of not to exceed \$30 per month for an automobile for use for official purposes (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Feb. 22, 1921, vol. 41, p. 1117, sec. 1*).....

575,000.00

This appropriation shall be available for repairing pavements of street railways when necessary; the amounts thus expended shall be collected from such railroad companies as provided by section 5 of "An act providing a permanent form of government for the District of Columbia," approved June 11, 1878, and shall be deposited to the credit of the appropriation for the fiscal year in which they are collected.

Bridges: For construction and repair, including the purchase of one special motor vehicle at a cost not to exceed \$2,000, and including the maintenance of motor vehicle, and including the allowance to the overseer of bridges for the maintenance of an automobile for use in performance of his official duties of not to exceed \$30 per month (increase of \$4,500 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Feb. 22, 1921, vol. 41, p. 1117, sec. 1*).....

\$32,000.00

NOTE.—Major repairs to certain bridges, fiscal year 1923, will require \$20,715, based on detailed estimates. Minor repairs to all bridges based on past experience will require \$11,285, a total of \$32,000. The small increase over current appropriation is due to accumulated needs resulting from postponement of necessary work during recent period of high costs.

The motor vehicle estimated for is for use of the field party attached to the office of the engineer of bridges. The field work of this office covers the entire District and is now inadequately covered by a horse-drawn vehicle. If the vehicle estimated for is supplied, it will displace not only this vehicle but a horse-drawn vehicle now supplied to the engineer of bridges for the supervisory inspection of the work.

Garbage transfer station: For the purchase of square 739 on which the present garbage transfer station is located (*submitted*).....

\$29,194.95

NOTE.—This property has been occupied for this purpose for many years. The District leases it at a rental of \$1,800 per year. The District should own this property. It has an area of 34,317 square feet. The price asked is 85 cents per square foot which is believed to be reasonable.

For the erection on square 739 of a two-story garage and shop (*submitted*).....

15,000.00

NOTE.—This garage is a necessity for the housing of trucks now used in collection of garbage.

Garbage disposal plant: For the acquisition of land at or in the vicinity of the garbage disposal plant at Cherry Hill, Va. (submitted)..... \$30,000.00

NOTE.—This plant has been located at Cock Pit Point, Prince William County, Va., for more than 20 years. The District leases a 25-acre tract on which the disposal plant is situated. The District needs dumping ground immediately adjoining this plant, but is unable to secure such right except by purchase of the land. Such dumping facilities are an imperative necessity and it is believed wise to acquire at the same time the land on which the plant stands as a protection to the District's interests in the future.

For services of extra watchmen at not exceeding 25 cents per hour (increase of \$300 submitted) (<i>same act</i>).....	900.00	
For allowance for an automobile, at \$30 per month, for 12 months (<i>submitted</i>).....	360.00	
NOTE.—The inspector of playgrounds uses his own automobile and the necessary expense for its upkeep while in service should be made.		
For purchase of motor truck at a cost not to exceed \$1,000, and for maintenance and repair, \$500, in all (<i>submitted</i>).....	1,500.00	
NOTE.—At the present time the department is paying \$7.20 per day for hire of a team for transporting materials and property. A motor truck would be used for delivering playground supplies from the storehouse to the several playgrounds. These supplies are bought in bulk from time to time during the year and issued weekly to the different playgrounds as necessity arises. The playground service would not only be increased in efficiency by having this means of delivery and transportation of its construction force, but it would also represent a saving in money as compared with the present prices of hiring teams. The truck to be driven by regular per diem employees of the department.		
For maintenance, equipment, supplies, tools, construction of toilet facilities, wading pools, installation of telephones and telephone service, installation of electric lights and electric service, grading, and repairs, including labor and other services, and materials, and transportation of materials, maintenance and repair of storehouse, and necessary incidental and contingent expenses for all playgrounds, under the direction and supervision of the commissioners (<i>act Feb. 22, 1921, vol. 41, p. 1119, sec. 1</i>).....	35,000.00

For supplies, installing electric lights, repairs, maintenance, and necessary expenses of operating five swimming pools (increase of \$1,000 submitted) (<i>act Feb. 22, 1921, vol. 41, p. 1119, sec. 1</i>).....	\$4,000.00	
NOTE.—The increase of \$1,000 is recommended, as it has been found by this year's experience that the appropriation is inadequate and the money asked for in addition is necessary to keep the pools in repair. New cement walks around the pools and new cement bottoms, electric lights, and wiring at pools and lockers.

Public Convenience Stations—Continued.																																				
For the construction of public convenience station No. 6, to be located partly under sidewalk and partly under roadway of Wisconsin Avenue NW., at M Street (<i>submitted</i>).					\$30,000.00																															
<p>NOTE.—Washington is much behind other large cities in the country in the number of public convenience stations, and an effort should be made to obtain appropriations for stations until several have been added to the number already in service. The particular location, Wisconsin Avenue and M Street, is in the heart of the business section of Georgetown, and not only has it been recommended several times previously by this office but it has been requested many times by the Georgetown Citizens' Association, the Federation of Citizens' Association, and other civic bodies. This office did, a number of years ago, carry on by means of inspectors a check count by hours of the number of persons passing the various suggested locations, and it was found that not only is the corner indicated apparently the busiest corner west of Rock Creek but it also compares very favorably in its traffic aspects at certain times of the day with many of the prominent downtown locations which might be suggested for the construction of stations.</p>

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.
Amount appropriated for the fiscal year ending June 30, 1922.*Electrical Department—Continued.*

For general supplies, repairs, new batteries and battery supplies, telephone rental and purchase, telephone service charges, wire and cable for extension of telegraph and telephone service, repairs of lines and instruments, purchase of poles, tools, insulators, brackets, pins, hardware, cross arms, ice, record books, stationery, printing, livery, purchase and repair of bicycles, allowance for the maintenance of not more than four automobiles at not to exceed \$30 per month each, blacksmithing, extra labor, new boxes, and other necessary items, (increase of \$2,000 submitted) (*acts April 26, 1904, vol. 33, p. 306, secs. 1-5; Feb. 22, 1921, vol. 41, p. 1120, sec. 1*)..... \$27,000.00

NOTE.—There are certain telephone charges, not rental or purchase, such as connection charges. Maintenance of an additional automobile for the inspector of overhead wires in streets, whose territory is the entire District, to whom a motorcycle is allotted and who is for the second year using private automobile without compensation, in the interest of the service.

Increase of 5 per cent for two years, following a current appropriation of less than the expenditures for 1921, will render the proper maintenance of signal systems possible with good fortune but precarious. It would be good administration to appropriate at least \$3,000 more than the sum estimated, as an emergency fund, specially safeguarded if need be, to serve as some insurance against failure of particularly the fire alarm signal system, which may result from too long-continued skimping in provision for its upkeep.

Lighting: For purchase, installation, and maintenance of public lamps, lamp-posts, street designations, lanterns, and fixtures of all kinds on streets, avenues, roads, alleys, and public spaces, including the Highway Bridge across the Potomac River and its approaches, and for all necessary expenses in connection therewith, including rental of stables and storerooms, livery and extra labor, this sum to be expended in accordance with the provisions of sections 7 and 8 of the District of Columbia appropriation act for the fiscal year 1912 and with the provisions of the District of Columbia appropriation act for the fiscal year 1913, and other laws applicable thereto (increase of \$11,000 submitted) (same acts).....

441,000.00

NOTE.—Insertion is in accord with recommendation in E. D. 166358, to provide in the appropriations "Electrical Department—Lighting" for the lighting on the Highway Bridge across the Potomac River and its approaches of so much of the lighting as is distinctively highway lighting. This portion is approximately \$3,300.

Increase is toward meeting the growth of requirements in current detail—i. e., the practically isolated instances of need of lamps in newly built up sections, etc., not including any of the betterment projects the subject of petitions.

For purchasing and installing additional lead covered cables to increase the capacity of the underground signal cable system (submitted).....					9,000.00	
NOTE.—It is proposed to purchase and install a 100-pr. cable from fire-alarm headquarters in District Building to 6th and D streets, SE. An existing 50-pr. cable over that route, installed in 1901, is rapidly deteriorating and is not of sufficient capacity to serve all present needs; proposed replacement would meet requirements in the northeast and southeast, some of which (for school purposes, for instance) have been denied, others are in immediate prospect and safe provision for some time in the future can be most economically made now with the necessary replacement of the old cable.

In all, fiscal year 1923, \$2,156,000, to be disbursed and accounted for as "Buildings and grounds, public schools," and for that purpose shall constitute one fund.					
The appropriations herein made for the construction of school buildings shall be available immediately (<i>act Feb. 22, 1921, vol. 41, p. 1127, sec. 1</i>).					
The total cost of the sites and of the several and respective buildings herein provided for, when completed upon plans and specifications to be made previously and approved, shall not exceed the several and respective sums of money herein respectively appropriated or authorized for such purposes (<i>same act</i>).					
Appropriations in this act shall not be paid to any person employed under or in connection with the public schools of the District of Columbia who shall solicit or receive, or permit to be solicited or received, on any public-school premises, any subscription or donation of money or other thing of value from pupils enrolled in such public schools for presentation of testimonials to school officials or for any purpose except such as may be authorized by the board of education at a stated meeting upon the written recommendation of the superintendent of schools (<i>same act</i>).					
The plans and specifications for all buildings provided for in this act shall be prepared under the supervision of the municipal architect, and those for school buildings after consultation with the board of education, and shall be approved by the commissioners, and shall be constructed in conformity thereto (<i>same act</i>).					
The school buildings authorized and appropriated for herein shall be constructed with all doors intended to be used as exits or entrances opening outward, and each of said buildings having an excess of eight rooms shall have at least four exits. Appropriations carried in this act shall not be used for the maintenance of school in any building unless all outside doors thereto used as exits or entrances shall open outward and be kept unlocked every school day from one-half hour before until one-half hour after school hours (<i>same act</i>).

Two inspectors with motor vehicle allowance at \$360 each (increase of \$180 submitted) (<i>same acts</i>).....	720.00	
NOTE.—Under existing law one inspector is allowed \$540 per annum to maintain a horse mount while the second inspector is required to perform duty on foot. These inspectors are charged with supervisory duties covering the entire department, and at the present time it is impossible for the unmounted inspector to adequately supervise on foot the outlying sections of his district in the county portion of the city, and on this account it is most desirable that this inspector be granted a motor-vehicle allowance.		
Twenty-four captains, lieutenants, sergeants, and privates mounted on horses at \$480 each (decrease of \$9,000) (<i>same acts</i>).....	11,520.00	
Motor-vehicle allowance for 55 captains, lieutenants, sergeants, and privates at \$420 each (increase of \$13,500 submitted) (<i>same acts</i>).....	23,100.00

Six police matrons, at \$900 each (increase of \$180 each submitted) (<i>same acts</i>).....	5,400.00	
Chauffeur for truck used in traffic service (<i>submitted</i>).....	900.00	

NOTE.—The Congress provided for the purchase of additional motor vehicles, and in view of the increase in the amount of traffic equipment it was necessary to purchase a truck for this important branch of the police service. A driver-private is now being used to operate this machine which, of course, is not in line with good administration, but it is the best the department can do under present conditions and it is respectfully recommended that this additional employee of the department be authorized.

For maintenance of motor vehicles, or so much thereof as may be necessary (increase of \$2,500 submitted) (<i>same act</i>).....	22,500.00																													
During the year just closed the 3 motor cycles mentioned above and 2 of the 4 touring cars were condemned. In my opinion it will require at least \$20,000 to keep the motor vehicles in repair during the current year, and the inspector who has supervision of this property of the department advises me that at least 6 of the vehicles listed will have to be condemned and that at least \$25,000 will be required to keep this service in operation during the fiscal year 1923. The patrol-wagon service is a 24-hour one and must be maintained in condition so as to be available for instant use. During the year just closed these motor vehicles made 36,507 runs and covered 128,958 miles.

For additional motor vehicles (increase of \$5,000 submitted) (<i>same act</i>).....	10,000.00																													
Because of the heavy use to which the machines of the police department have been put it is thought, as is stated above, that it will be necessary to condemn at least 6 during the current year, and it is estimated that these wagons may be replaced at a cost of \$2,500 each.																														
For the reconstruction of cell corridors and in making, erecting, and placing therein modern locking devices in precinct station houses (increase of \$4,500 submitted) (<i>same act</i>).....	12,000.00																													
Additional amount required for the erection of a station house in the suburban section of the District of Columbia (<i>submitted</i>).....	35,000.00																													
An appropriation for the purchase of the land on which it is proposed to erect this station was made and the property purchased. This is located at 17th and Rhode Island Ave., NE. The Congress under the act approved Mar. 3, 1917, appropriated the sum of \$40,000 for the purpose of erecting a building, of which amount there now remains a balance of \$38,331.50. This sum is found insufficient to erect a station house to meet the requirements of the service, and therefore an additional amount must be asked in order that a modern and up-to-date building, fully equipped, may be erected at this location. The municipal architect states that the prices of materials have not decreased to such an extent as to make it possible to erect such a building without the additional appropriation of \$35,000, which is included in these estimates.

Permanent Improvements: For one drill tower and one concrete smoke test building, to be located on land owned by the District of Columbia adjacent to No. 8 engine house (*submitted*).....

16,000.00

NOTE.—The drill to be referred to is to replace a former frame tower which became unsafe and dilapidated and was demolished in 1911. Since that time the fire department has had no place or facilities for the training of firemen in the saving of life and property and such a tower as is recommended is most urgently needed. The smaller structure referred to will be approximately 6 feet deep by 14 feet long by 10 feet high and will be used for the instruction of the men in the ventilation of burning buildings and for the demonstration of the use of sprinker systems, etc., in the fighting of fire. Education of the men along these lines will result in added efficiency and consequent conservation of life and property in event of fire. The plan of the department is eventually to build a school building adjoining the tower. This building it is estimated will cost \$45,000, and it has been deemed advisable to postpone estimate for its erection until some future date. (Estimated cost of tower, \$15,000, and smoke test building, \$1,000, furnished by municipal architect.)

For 2 pumping engines, triple combination, motor driven, at \$12,500 each (*submitted*).....

25,000.00

NOTE.—These engines are to replace horse-drawn engine now in service in engine companies 19 and 27.

For 2 combination chemical and hose wagons, motor driven, at \$8,150 each (*submitted*).....

16,300.00

NOTE.—These 2 wagons will be used to replace horse-drawn combination chemical and hose wagons now in service in engine companies 19 and 27.

For 1 aerial hook and ladder truck, motor driven (*submitted*).....

16,000.00

NOTE.—One of these trucks is to replace the present truck in service in No. 4 truck company, which truck is propelled by a motor tractor of the type first introduced for fire service. This type of tractor is obsolete, its construction is not sufficiently strong for reliable service, the necessity for repairs is frequent, and the cost of its up-keep is such as to warrant the substitution of the motor-driven truck and the relegation of this apparatus for duty as reserve, to be placed in service only in event of emergency.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30 1922.																				
Fire Department—Continued.																						
Miscellaneous—Continued.																						
For 2 city service trucks, motor driven, at \$9,500 each (<i>submitted</i>).....	\$19,000.00																					
NOTE.—One of these trucks is to replace the horse-drawn truck now in service in No. 8 truck company, Congress Heights, D. C.; another is to replace the horse-drawn truck now in service in No. 12 truck company, Tennallytown, D. C.																						
For installing steam heat in engine and truck houses (increase of \$5,500 submitted) (<i>act Feb. 22, 1921, vol. 41, p. 1130, sec. 1</i>).....	10,500.00																					
NOTE.—It is desired under this appropriation to equip engine companies Nos. 17 and 27 and truck company No. 5 with steam heat. It is contemplated to install motor apparatus in engine company No. 17 and truck company No. 5 during the fiscal year 1922, current, and appropriation will probably be made to so equip engine company No. 27 during the fiscal year 1923. It is against the police regulations to heat any building where gasoline is used or stored with a device involving an open flame, and the present stoves should therefore be abandoned.																						
For repairs, improvements, and alterations to engine house No. 16, D Street between 12th and 13th Streets NW. (<i>submitted</i>).....	10,000.00																					
Total.....	\$112,800.00	\$1,389,375.44																				
NOTE.—This house is located on the south side of D Street, near 12th NW., and was built in 1857. The statement made above relative to engine company No. 6 applies equally to this company with the exception that repairs and alterations are feasible. The two are practically parallel cases. However, no land is available for the enlargement of this lot. (Estimate of cost furnished by municipal architect.)

For equipping and maintaining a field laboratory in connection with the examination of dairy farm (*submitted*).....

650.00

NOTE.—This appropriation would enable the health department to give ocular demonstrations at the farm where the milk and cream supply of the District of Columbia is produced of the various sources of contamination to which the milk is subjected. Such demonstrations would, it is believed, be highly instructive to the dairy farmer and would be the means of impressing upon him the necessity of exercising the utmost care in the production and handling of his milk supply.

For maintenance of one motor vehicle for use in the pound service (increase of \$200 submitted) (<i>same act</i>).....						
					800.00	
NOTE.—This motor vehicle is in daily use throughout the entire year in impounding dogs and other animals found running at large. It is subjected to very hard usage, and during the last fiscal year it was necessary to draw on the emergency fund and also to obtain a deficiency appropriation in order to continue the service.						
For equipping, maintaining, and operating the motor ambulance and keeping it in good order (increase of \$200 submitted) (<i>same act</i>).....						
					800.00	
NOTE.—This ambulance has now been in service since Feb. 1, 1920. The cost of repairs will necessarily be greater from now on than when the vehicle was new. This fact, together with the high cost of all motor-vehicle supplies, is the basis for the increase asked.						
For the maintenance of a dispensary or dispensaries for the treatment of persons suffering from tuberculosis and of persons suffering from venereal diseases, including payment for personal service, rent, and supplies (increase of \$1,000 submitted) (<i>same act</i>)....

\$219,040.00

NOTE.—The present roadway is semimacadam, and is not properly drained. During rainy weather the surface of the roadway becomes very soft and muddy. Persons or vehicles entering the grounds must necessarily travel through this mud and water. The condition described renders it very difficult to keep the institution in a proper sanitary condition, and the improved roadway is badly needed. The estimate of cost of doing this work is based on figures furnished by the engineer department one year ago.

NOTE.—While this statement effects a detailed estimated absorption of the police court contingent fund of \$4,500 available for the fiscal year 1922, it should not be assumed that a \$4,500 appropriation will suffice for the absolute needs of the court, and a deficiency, fiscal year 1922, is dangerously impending.			
Not less than \$6,950 should have been made available instead of the clearly inadequate sum of \$4,500 provided by Congress to cover miscellaneous contingent expenses for the fiscal year 1922.			
Without waste and within the bounds of strict economy and the needs of the court \$6,950 could readily be absorbed in the fiscal year 1922, as follows:			
Printing.....			\$950
Law books and books of reference.....			100
Stationery and rubber stamps.....			1,450
Fuel.....			1,200
Ice.....			200
Gas.....			100

Telephone service.....			600
Awnings, window.....			500
Supplies, cleaners'.....			150
Miscellaneous.....			1,000
Total.....			6,950
To cover the fiscal year 1922, \$6,900 was asked for and \$4,500 only allowed.			
For witness fees (<i>same acts</i>).....			3,000.00

This increase is asked because new window shades must be had throughout the entire building and additional linoleum in large quantities for patch work and replacements is badly needed.																																									
The gradual depreciation of court furniture, fixtures, and equipment, through time, wear and tear, and largely increased usage has become very noticeable and to permit the remedying of the resulting shabby appearance the increase asked should be allowed.

Amount appropriated for the fiscal year ending June 30, 1922.

Courts and Prisons—

Support of convicts: For support, maintenance, and transportation of convicts transferred from the District of Columbia; expenses of shipping remains of deceased convicts to their homes in the United States, and expenses of interment of unclaimed remains of deceased convicts; expenses incurred in identifying and pursuing escaped convicts and rewards for their recapture; to be expended under the direction of the Attorney General (increase of \$70,000 submitted) (*acts June 13, 1890, vol. 26, p. 408, sec. 1; Feb. 22, 1921, vol. 41, p. 1134, sec. 1*)..... \$195,000.00

NOTE.—The expense under this appropriation for the fiscal year 1921 will be approximately \$185,000. It is probable that the expense for the current year will be equally as great. As in the case of "support of prisoners, U. S. courts," the amount needed is contingent upon the number of prisoners, this appropriation being used for the subsistence and maintenance only of prisoners convicted in the courts of the District of Columbia, 60 per cent of the expense being payable from the revenues of the District.

Fees of witnesses, supreme court: For fees of witnesses and payment of the actual expenses of witnesses in said court, as provided by section 850, Revised Statutes of the United States (increase of \$3,500 submitted) (*same act*)..... 18,500.00

NOTE.—The appropriation for this purpose for the fiscal year 1921, all of which will undoubtedly be needed, aggregates \$19,500. The department has been forced to appeal to Congress for deficiencies from year to year to complete the payment of statutory fees under this appropriation, the usual appropriation of \$15,000 being inadequate. This fact, considered in connection with the congested condition of the dockets and the necessarily increased activities of the courts, fully justify an appropriation of \$18,500 as requested.

Fees of jurors, supreme court: For fees of jurors (decrease of \$5,000) (*act Feb. 22, 1921, vol. 41, p. 1135, vol. 1*)..... \$55,000.00

Pay of bailiffs: For not exceeding one crier in each court, of office deputy marshals who act as bailiffs or criers, and for expenses of meals and lodging for jurors in United States cases and of bailiffs in attendance upon same when ordered by the court, and per diems of jury commissioners (increase of \$1,000 submitted) (*same act*)..... 29,000.00
Provided, That the compensation of each jury commissioner for the fiscal year 1923 shall not exceed \$250.

NOTE.—The appropriations for the fiscal year 1921 were \$30,500. Expenses were unusual on account of the double trial of the Arnstein case. Practically all of this appropriation is consumed by the statutory compensation of bailiffs and criers. It is desirable that there be a slightly larger margin for expenses of feeding juries which may be held together in important cases. A slight increase is, therefore, requested over the appropriation for the current year, although the amount of estimate is less than the expenditures for the last complete fiscal year.

Miscellaneous expenses: For such miscellaneous expenses as may be authorized by the Attorney General for the Supreme Court of the District of Columbia and its officers, including the furnishing and collecting of evidence where the United States is or may be a party in interest, including also such expenses other than for personal services as may be authorized by the Attorney General for the court of appeals, District of Columbia (increase of \$15,000 submitted) (*same act*)..... 30,000.00

NOTE.—The expenses under this appropriation for the fiscal year 1921 will be approximately \$29,500, or nearly the same as is estimated for the approaching fiscal year. There will be a large deficiency for the current year. There has been a radical increase in the amount payable to the Department of the Interior for heating the courthouse and court of appeals building, and the cost of printing briefs, records, and court calendars has also greatly increased.

For the erection of a nurses' home (<i>submitted</i>).....				75,000.00	
NOTE.—The nurses and other employees of the hospital now have to sleep in the hospital building proper and it is exceedingly desirable that there should be a separate building for them to live in. It is proposed to erect a two-story building which will provide accommodations for 14 nurses and 3 or 4 doctors, containing necessary dining room, kitchen, etc. The erection of such a home would make available for the care of additional patients 16 rooms in the hospital building which are very much needed. Frequently there is a waiting list of patients seeking admission. These small rooms that would be vacated by the nurses are very much desired for the isolation of some of the more serious cases that must be cared for in the large wards.					
Hereafter patients may be admitted to the tuberculosis hospital for care and treatment at such rates and under such regulations as may be established by the Commissioners of the District of Columbia; and all moneys received from this source shall be credited to the current appropriation for maintenance of said hospital (<i>submitted</i>).

For repairs to buildings, including repairs and alterations of old psychopathic hospital building to make it available for nurses and employees (<i>submitted</i>).....				10,000.00	
Equipment for new domestic building kitchen: For range, cooking utensils, and other necessary articles, including installation (<i>submitted</i>).....				20,000.00	
NOTE.—In preparing the estimates for the organization and maintenance of the new Gallinger Municipal Hospital for the first year the Board of Charities has given consideration to a detailed list of proposed necessary employees and a mass of data relative to the cost of necessary equipment submitted by the superintendent after consultation with the medical staff and obtaining tentative prices on furniture and furnishings from merchants and dealers. After considering at great length all material submitted the board has concluded to recommend a lump-sum appropriation for the first year because it is impossible at this time to determine the number of employees that will be required or to estimate accurately the actual necessary expense for the first year.				556,410.00	500,000.00

Board of Children's Guardians—Continued. The Secretary of War, in his discretion, is hereby authorized to transfer to the Commissioners of the District of Columbia as a site for a home and school for feeble-minded persons such part of the tract of land located at Accotink, Va., now forming a part of Camp A. A. Humphreys as he may deem advisable, and the Commissioners of the District of Columbia are authorized to pay for such land so transferred such sum as may be agreed upon between the Secretary of War and the Commissioners of the District of Columbia, said sum to be credited to the revenues of the United States. In the event that a transfer of land for said site is not made as hereinbefore provided, the Commissioners of the District of Columbia are hereby authorized to acquire a site for a home and school for feeble-minded persons under the appropriation herein made. If the land proposed to be acquired is within the District of Columbia, and the same can not be acquired by purchase at a price satisfactory to the commissioners, they are authorized to condemn the same under the provisions of chapter 15 of the Code of Law for the District of Columbia. If the land can not be acquired within the District of Columbia, the Attorney General of the United States, at the request of the Commissioners of the District of Columbia, shall institute condemnation proceedings to acquire such land as may be selected for said site either in the State of Maryland or in the State of Virginia in accordance with the laws of said States, the title of said land to be taken directly to and in the name of the United States; but the land so acquired shall be under the jurisdiction of the Commissioners of the District of Columbia as agents of the United States, and expenses of procuring evidence of title or of condemnation, or both, shall be paid out of the appropriation herein made for the purchase of said site (<i>submitted</i>). For board and care of all children committed to the guardianship of said board by the courts of the District, and for temporary care of children pending investigation or while being transferred from place to place, with authority to pay not more than \$1,500 to institutions adjudged to be under sectarian control and not more than \$400 for burial of children dying while under charge of the board (increase of \$14,000 submitted) (<i>acts July 26, 1892, vol. 27, p. 262, secs. 1-7; Feb. 22, 1921, vol. 41, p. 1133, sec. 1</i>).....	\$174,000.00

For repairs and improvement to buildings and grounds (increase of \$2,000 submitted) (<i>same acts</i>).....	5,000.00																					
NOTE.—The buildings occupied by this school are old and in need of substantial repairs, even though a new institution should be authorized, because it will be several years before the new buildings would be ready. Much of the plumbing is unsatisfactory and in an insanitary condition. It is also proposed to install electric lights because of the danger attendant upon the use of gas. Many of the children now sent to the school are wayward and difficult to control. Some of the gas fixtures have been tampered with, permitting gas to escape.																						
For purchase of automobile (<i>submitted</i>).....	1,000.00																					
NOTE.—This school, located in Georgetown, is greatly in need of a modern vehicle, both on account of having to take children back and forth to courts, hospitals, Board of Children's Guardians, etc., and also because it markets the products of its greenhouses which are a very considerable source of income. Last year the income from this source was \$6,950.

Total.....		3,000.00			
Building and equipment for ice making and refrigeration (<i>submitted</i>).....				7,500.00	
NOTE.—The proposed plant is to furnish ice and refrigeration for the Home for the Aged and the Industrial Home School for Colored Children, with a combined population of inmates and employees of about 500 persons. The present ice plant is a small plant which was installed 15 years ago. It is badly worn and is expensive to maintain and is inadequate for the present needs. Since this plant was installed the population of the two institutions has increased about 40 per cent and the development of the farm provides a large amount of meat and meat products, for the proper preservation of which refrigeration is necessary. Following is an itemized statement of the estimate for ice machine and refrigerating equipment:					
15-horsepower plant (7½ tons refrigerating capacity per 24 hours): Compressor, scale-trap oil separator, ammonia condenser, ammonia receiver, ammonia gauges, gauge tank, high-side fitting, ammonia charge, refrigerating oil, motor oil, 15-horsepower (100-volt, 1,150 revolutions per minute) General Electric motor, 15-horsepower starter, countershaft, compressor belt, motor belt, open-type double blade thermostat, inclosed-type thermostat, safety cut-off gong, battery and switch, automatic water regulator, and automatic expansion valve.....				\$1,200	
Refrigerating room: 400 feet 1½-inch extra heavy wrought-iron welded pipe coil, angle-iron hangers, and by-pass (16 by 16 by 10 feet).....				250	
Ice-storage room: 240 feet 1½-inch extra heavy wrought-iron welded pipe coil, angle-iron hangers, by-pass (9 by 8 by 10 feet).....				180	
Ice-making tank (2 tons capacity, ¾-inch steel, 8 feet by 16 feet 3 inches by 3 feet 3 inches, containing sixty-three 100-pound cans, supports, and wooden decking, 1,080 feet 1½-inch extra heavy wrought-iron welded pipe coil, insulated on bottom with two layers of 3-inch cork board and on the sides with 4 inches of granulated and 3 inches of sheet cork with ½-inch cement plaster finish).....				2,200	
Can filler.....				25	
Automatic ice dump.....				150	
Ice can hand truck and hoist.....				175	
Pipe-line insulation.....				40	
Foundation bolts.....				30	
Supervision (working).....				250	
Total.....				7,500	
The above estimate is based on the District doing the hauling from Shepherds Point, furnishing all common labor, and furnishing and installing all insulation, foundations, etc., excepting pipe-line insulation noted above; the cost of buildings, foundations, and insulation of ice-making tank, cold-storage and refrigerating rooms are not included in the above estimate. The cost of extending water, electrical, and sewer connections is not included in the above estimate.					
For Ford motor express (<i>submitted</i>).....				700.00	
NOTE.—The institution is 2 miles beyond the end of the car line, and the truck is needed to carry passengers back and forth. It is also needed to transport supplies.					
Municipal Lodging House and Wood Yard—					
Superintendent (increase of \$240 submitted) (<i>act Feb. 22, 1921, vol. 41, p. 1138, sec. 1</i>).....				1,440.00	
Foreman (increase of \$300 submitted) (<i>same act</i>).....				780.00	
Cook (increase of \$240 submitted) (<i>same act</i>).....				600.00	
Night watchman for six months at \$40 per month (<i>submitted</i>).....				240.00	
NOTE.—Night watchman. Up to the current year the position of night watchman has been carried in the appropriation act, but the position has not been for the last three years because of the great reduction in the number of men cared for, and the Board of Charities therefore recommended position be dropped. During the year 1921, however, the number cared for was more than double the number cared for the previous fiscal year and it is certain that the number will be still further increased, and the services of a night watchman will again be necessary.					
Maintenance (increase of \$1,000 submitted) (<i>act Feb. 22, 1921, vol. 41, p. 1138, sec. 1</i>)..				3,000.00	
NOTE.—An increase in the maintenance appropriation is asked because of the expected increase in population. In 1920, 1,741 men were given lodgings; in 1921, 3,833. The indications now are that a very much larger number will have to be provided for in 1923.

For support of indigent insane of the District of Columbia in Saint Elizabeths Hospital, as provided by law (increase of \$100,000 submitted) (<i>acts Mar. 3, 1879, vol. 50, p. 395, sec. 1; Feb. 22, 1921, vol. 41, p. 1139, sec. 1</i>).....				900,000.00	800,000.00
NOTE.—The daily average population at St. Elizabeths has increased during the past year and the cost of maintaining District patients in 1921 was \$931,963.57, or \$73,800.16 more than the previous year. If the population continues to increase as rapidly this year as last and the rate remains the same, the \$900,000 will not be sufficient. It is hoped that the hospital will authorize a decrease in the rate.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Water Department—Continued.		
For the purchase and installation of one 10,000,000-gallon centrifugal pumping unit (submitted).....	\$40,000.00	
NOTE.—For replacing the present No. 2 pump, which is used on our third high service and which was purchased in 1903. The total capacity of this unit (No. 2) is 2,500,000 gallons per 24 hours. At the present time, based on the average daily consumption for June, 1921, this pump can not deliver by 1,000,000 gallons or more the average daily amount necessary, and as the peak load on this service during very hot or cold weather is about 5,500,000 gallons, the vital need for the pump asked for will be readily seen. In case anything happens to the No. 1 pump on this service the people supplied by it would have to curtail the use of water to the limit of the old No. 2 pump. These conditions occurred twice during June, 1921.		
For laying 10,400 feet of 30-inch water main, First and Adams Streets NW., via Rhode Island Avenue to Sixteenth Street NE. (submitted).....	162,000.00	
NOTE.—The laying of this main is of vital importance. The territory which embraces, roughly speaking, Brookland, Langdon, and Woodridge, is now served by two 12-inch mains, which are utterly inadequate to supply the amount of water necessary during extreme weather conditions. The 30-inch main here asked will supply approximately four times the amount that is now being used in this territory, and its construction will supply this territory for a great many years to come. This main has been asked for in the estimates for the last two or three years.		
For laying 15,800 feet of 20-inch watermain, Chevy Chase Circle to Georgia Avenue, via Rock Creek Park (submitted).....	110,000.00	
NOTE.—This main has been requested for the last two or three years, and is of great importance in order to bring the level of Reno Reservoir back to the location of Walter Reed Hospital and Takoma Park, D. C.		
For laying 6,100 feet of 20-inch water main, Georgia Avenue from Military Road north (submitted).....	43,000.00	
NOTE.—This main is needed to complete the northernmost loop of the 20-inch main for the third high service. This territory now overtaxes its one feeder, a 12-inch main, which is totally inadequate, as all of Takoma Park, D. C., and Walter Reed Hospital are now drawing water from this main.

UNDER DEPARTMENT OF AGRICULTURE.			
<i>Meat Inspection, Bureau of Animal Industry—</i>			
There is permanently appropriated for each year \$3,000,000, for the expenses of the inspection of cattle, sheep, swine, and goats, and the meat and meat-food products thereof which enter into interstate or foreign commerce, and for all expenses necessary to carry into effect the provisions of the act relating to meat inspection. The Secretary of Agriculture is required, in his annual estimates made to Congress, to submit a statement in detail, showing the number of persons employed in such inspections and their salaries and expenses (<i>act June 30, 1906, vol. 34, pp. 674-679, secs. 1-22</i>).....	3,000,000.00	3,000,000.00	3,000,000.00
NOTE.—The detailed statement required by law has been submitted to Congress in a separate communication and will be printed as a public document.			
<i>National Forest Reservation Commission—</i>			
A sum sufficient to pay the necessary expenses of the commission and its members, not to exceed an annual expenditure of \$25,000, has been appropriated, to be paid out on the audit and order of the president of the commission, which audit and order is conclusive and binding upon all departments as to the correctness of the accounts of the commission (<i>act Mar. 1, 1911, vol. 36, p. 963, sec. 14</i>).....	25,000.00	25,000.00	1,601.87
<i>Cooperative Agricultural Extension Work—</i>			
For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, there is permanently appropriated \$480,000 for each year, \$10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the act. There was also appropriated an additional sum of \$600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven years a sum exceeding by \$500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of \$4,100,000 in addition to the sum of \$480,000. The additional sums are allotted annually to each State by the Secretary of Agriculture and paid in the proportion which the rural population of each State bears to the total rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work (<i>act May 8, 1914, vol. 38, p. 373, sec. 5</i>).....	4,580,000.00	4,080,000.00	5,031,577.73
<i>Cooperative Construction, etc., of Roads and Trails, National Forests—</i>

The Secretary of Agriculture is required to make annual report to Congress of the amounts expended hereunder. Out of the appropriations made by this act, the Secretary of Agriculture is authorized to employ assistants, clerks, and other persons in the city of Washington and elsewhere, to rent buildings outside of the city of Washington, to purchase supplies, material, equipment, office fixtures, and apparatus, and to incur travel and other expense for carrying out the purposes of this act (<i>act July 11, 1916, vol. 39, p. 358, secs. 8, 9</i>).....</p>	\$1,000,000.00	\$1,000,000.00	\$1,224,736.77
<p><i>Cooperative Construction of Rural Post Roads—</i> The Secretary of Agriculture is authorized to cooperate with the States, through their respective State highway departments, in the construction of rural post roads. There was appropriated, for the fiscal year ending June 30, 1917, the sum of \$5,000,000; for the fiscal year ending June 30, 1918, the sum of \$10,000,000; for the fiscal year ending June 30, 1919, the sum of \$15,000,000; for the fiscal year ending June 30, 1920, the sum of \$20,000,000, and for the fiscal year ending June 30, 1921, the sum of \$25,000,000. So much of the appropriation apportioned to any State for any fiscal year as remains unexpended at the close thereof is available for expenditure in that State until the close of the succeeding fiscal year, except that amounts apportioned for any fiscal year to any State which has not a State highway department are available for expenditure in that State until the close of the third fiscal year succeeding the close of the fiscal year for which such apportionment was made. Any amount apportioned under the provisions of this act unexpended at the end of the period during which it is available for expenditure is reapportioned, within 60 days thereafter, to all the States. So much, not to exceed 3 per cent of the appropriation for any fiscal year as the Secretary of Agriculture may estimate to be necessary for administering the provisions of this act is deducted for that purpose and remains available until expended. Within 60 days after the close of each fiscal year the Secretary of Agriculture determines what part, if any, of the sums theretofore deducted for administering the provisions of this act will not be needed for that purpose and apportions such part, if any, for the fiscal year then current in the same way as other amounts authorized by this act, to be apportioned among all the States for such current fiscal year. The Secretary of Agriculture, after making the deduction authorized, apportions the remainder of the appropriation for each fiscal year among the several States in the following manner: One-third in the ratio which the area of each State bears to the total area of all the States; one-third in the ratio which the population of each State bears to the total population of all the States, as shown by the latest available Federal census; one-third in the ratio which the mileage of rural delivery routes and star routes in each State bears to the total mileage of rural delivery routes and star routes in all the States, at the close of the next preceding fiscal year, as shown by the certificate of the Postmaster General (<i>act July 11, 1916, vol. 39, p. 356, secs. 1, 3, 4, and 5</i>).....</p>			57,452,056.48
<p><i>Acquisition of Lands for Protection of Watersheds of Navigable Streams—</i> There was appropriated, for the fiscal year ended June 30, 1910, the sum of \$1,000,000, and for each fiscal year thereafter, including the fiscal year ended June 30, 1915, a sum not to exceed \$2,000,000, for use in the examination, survey, and acquirement of lands located on the headwaters of navigable streams or those which are being or which may be developed for navigable purposes (<i>act Mar. 1, 1911, vol. 36, p. 961, sec. 3</i>).....</p>			1,179,472.82
<p><i>Refunds to Depositors, Excess of Deposits, National Forests Fund—</i> All money received, by or on account of the Forest Service for timber, or from any other source of forest-reservation revenue, is covered into the Treasury of the United States as a miscellaneous receipt; and there is appropriated so much as may be necessary to make refunds to depositors of money deposited by them in excess of amounts found actually due from them to the United States, and so much as may be necessary to refund to the rightful claimants such sums as may be found to have been erroneously collected for the use of lands, or for timber or other resources sold from lands located within, but not a part of, the national forests, or for alleged illegal acts done upon such lands, which acts are subsequently found to have been proper and legal. The Secretary of Agriculture is required to make annual report to Congress of the amounts refunded hereunder (<i>acts Mar. 4, 1907, vol. 34, pp. 1256, 1270, sec. 1; Mar. 4, 1911, vol. 36, p. 1253, sec. 1</i>).....</p>	75,000.00	75,000.00	111,191.11
SPECIAL FUNDS.			
<p><i>Payment to States and Territories from the National Forest Fund—</i> Twenty-five per cent of all money received from each forest reserve during any fiscal year is paid at the end thereof by the Secretary of the Treasury to the State or Territory in which the reserve is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which the forest reserve is situated. When any forest reserve is in more than one State or Territory or county the distributive share to each from the proceeds of the reserve is proportional to its area therein (<i>acts Mar. 4, 1907, vol. 34, p. 1270, sec. 1; May 23, 1908, vol. 35, p. 260, sec. 1; Mar. 1, 1911, vol. 36, p. 963, sec. 13; June 30, 1914, vol. 38, p. 441, sec. 1</i>).....</p>	1,200,000.00	1,200,000.00	1,180,063.13

APPENDIX A.

In explanation of the estimates submitted by the Librarian of Congress (see pp. 15 to 25).

LIBRARY OF CONGRESS,
Washington, August 25, 1921.

SIR: The estimates of the Library of Congress for the year ending June 30, 1923, are submitted herewith. They include the following:

New positions recommended, included in former estimates:¹

Administration—

1 assistant chief clerk at.....	\$2, 000
1 stenographer and typewriter to chief assistant librarian at.....	1, 600
1 assistant in charge of supplies.....	1, 440
Order and accession: 1 assistant at.....	\$5, 040
Catalogue, classification, and shelf: 1 chief, shelf-listing section, at.....	1, 620
Reading rooms and special collections: 1 inspector of stacks at.....	1, 760
Law library: 1 stenographer and typewriter at.....	1, 560
Submitted at \$900 in estimates for the years 1910-1915; at \$1,080 for 1919; at \$1,200 for 1920 and 1921; and at \$1,400 for 1922.	
Semitic, Slavic, and oriental literature: 1 assistant at.....	1, 160
Submitted at \$900 in estimates for 1917 and 1918; at \$1,000 for 1919, 1920, and 1921; at \$1,400 for 1922.	
Copyright Office: 1 chief clerk at.....	1, 620
Total (9 positions).....	2, 460
	15, 220

New positions recommended, not included in former estimates:

Reading rooms and special collections: 2 assistants, at \$840 each.....	1, 680
The general needs already explained to the House Committee on Appropriations. (See Hearings on legislative bill for 1921, p. 39.)	
Semitic, Slavic, and oriental literature: 1 assistant at.....	1, 620
This new position is needed in connection with the Chinese and Japanese collections which are now considerable, important, and are increasing rapidly.	
Distribution of card indexes: 1 assistant at.....	1, 620
This is a self-supporting service. This new position is needed in connection with the normal annual increase of business.	
Total (4 positions).....	4, 920
Total (13 positions).....	20, 140

INCREASES OF SALARY.

Owing to the disparity between salaries in the Library and those (for expert service) not merely in other institutions but in other establishments of the Government, the staff of the Library has been depleted until its case is desperate.

What has kept together the loyal fragment which remains has been the promise of a general reclassification of the Federal service.

The basis for this has been prepared in the investigations and report of the Reclassification Commission, in the subsequent independent investigations and findings of the Bureau of Efficiency, in the bills before Congress which would give effect to these.

A postponement of it beyond the coming session would be disastrous to the scientific service of the Government. I can not believe that Congress, with a realization of this, would consent to it; or that, should difficulties preclude a revision of the Federal service generally, Congress would postpone it further in the Library, which is part of its own legislative establishment, yet whose salary scale is admittedly below that of the Executive branches generally.

My estimates include, therefore, a general revision of salaries in most of the existing positions.

The basis of it is:

(1) The scale now paid for corresponding service in other Federal establishments where identity of qualification and work exist.

(2) A scale suggested by experts of the Bureau of Efficiency, in the actual application of their scheme of reclassification to the service in the Library. In most cases only their minimum has been taken.

¹ The character and need in each case already explained by me to the House Committee on Appropriations. (See Hearings on legislative bill for 1921, pp. 31-43.)

The resultant increases of salary may be summarized as follows:

1 chief assistant librarian, from \$4,500 to \$6,000.....	\$1, 500
1 register of copyrights, from \$4,000 to \$4,500.....	500
9 chiefs of division, from \$3,000 to \$3,600.....	5, 400
1 chief clerk, from \$2,500 to \$3,000.....	500

1921-22.....	90, 000
1922-23 (estimate).....	100, 000
An increase of.....	10, 000

The need of this increase already explained by me to the House Committee on Appropriations. (See Hearings on legislative bill for 1921, p. 50.)

Contingent expenses, from \$8,000 to \$10,000..... 2, 000

The appropriation for this fund for the fiscal year 1921 was \$9,000 but it was reduced to \$8,000 for the fiscal year 1922.

One of the activities of the Library is the furnishing of photo-duplicates of its material to (a) committees of the Congress and (b) historical societies and others carrying on research work. The expenditures for photostat paper and chemicals needed for this work are paid from this appropriation. During the fiscal year 1921 they amounted to \$1,824.

Even though the expenditure for such material remains the same for the current fiscal year (it will tend to increase owing to normal growth of the activity), it will leave but \$6,200 to provide for the various items of stationery supplies for the Library which, in view of the high level of costs still in effect, is inadequate. The need, therefore, of the increase is obvious.

During the fiscal year 1921 the receipts deposited with the Treasury covering sales of photo-duplications to the public amounted to \$1,750.85.

¹ Title should be changed to "messenger."

CHANGES IN PHRASEOLOGY.

Reading room: Substitute for "telephone operator" "telephone reference assistant." The term "telephone operator" is a misnomer. There is no switchboard and the assistant in question is charged with the responsible duties of receiving calls from the Capitol and the various executive departments for books, often many of them in foreign titles, and answering questions for general information which require an immediate response.

Legislative reference: Omit the words "Provided, That not to exceed one person shall be employed hereunder at a rate of compensation exceeding \$3,000 per annum."

Distribution of card indexes: Add the word "postage." The clause to read "including not exceeding \$500 for freight charges, expressage, postage, traveling expenses connected with such distribution. * * *." Substitute \$1,100 for \$1,000, the clause to read "For services of assistants at salaries less than \$1,100 per annum * * *."

Sunday opening: Omit the words "From two until ten o'clock post meridian."

Semitic and Oriental literature: Add the word "Slavic." Title made to read "Semitic, *Slavic*, and Oriental literature."

Very respectfully,

HERBERT PUTNAM, *Librarian*.

APPENDIX B.

Memorandum explaining increases, changes, etc., in the estimates of the Department of State for the fiscal year ending June 30, 1923. (Estimates on pp. 32 to 34 and 295 to 308.)

DEPARTMENT OF STATE, Washington, October 20, 1921.

The Hon. CHARLES G. DAWES,
Director of the Bureau of the Budget.

SIR: In submitting the estimates of appropriations for the Department of State and the Diplomatic and Consular Service for the fiscal year 1922-23, I have the honor to place before you several important considerations in connection with the present adjustment of the machinery of foreign affairs. Considering on the one hand the magnitude and importance of international questions and on the other the desire to effect economies and promote governmental efficiency, it is of first importance that a correct balance in adjustment should be maintained if the work of necessary agencies is to continue unimpaired.

For the convenience of discussion, the appropriations disburseable under the Department of State may be treated as falling within three distinct categories:

(A) THE DEPARTMENT OF STATE PROPER.

The appropriations under this heading relate to the operation of the departmental establishment in Washington and to the passport bureaus at New York, Chicago, San Francisco, Seattle, and New Orleans. The appropriations required for this purpose reached their maximum in the fiscal year 1920, when they amounted to \$1,493,888.35. During the fiscal year 1920-21 they were reduced to \$1,127,160 and for the current fiscal year of 1922 they were still further reduced to \$987,960. The multitude of important international matters which occasioned the strengthening of the department in 1920 have scarcely diminished in proportion to the reduction in appropriations. This fact renders it exceedingly difficult to devise means of economizing on the amount of funds available at present without imperiling the efficiency of the work. The clerical force while the present low scale of salaries prevails may be considered as having been reduced to its lowest point consistent with the expeditious handling of routine requirements; there are too few high-grade positions provided for; the contingent-expense appropriation is barely sufficient to cover the most pressing needs; and the item for the purchase of books, maps, and periodicals permits very little latitude in the choice of essential reference publications.

(B) THE FOREIGN INTERCOURSE.

Under this heading may be grouped the appropriations necessitated (a) by treaties, or other forms of international agreement, between the United States and other Governments, such as the annual payment to Panama of \$250,000, the annual contribution to the support of the Pan American Union, \$100,000; (b) those necessitated by acts of Congress, such as the relief of American seamen, requiring expenditures of probably \$220,000; the salaries and expenses of the United States Court for China, \$30,400; and the alien passport visé control, \$600,000, etc. Expenditures under these appropriations, with the exception of that of alien passport visé control, where a reduction of \$175,000 has been made, permit of very slight, if any, reduction unless the United States is to withdraw from participation in meritorious international enterprises having a direct bearing upon our own domestic interests as well as upon our relations with other countries. While such payments, contributions, and expenses are properly chargeable to the Department of State, they have, in fact, little relation to either the departmental machinery proper or that of the foreign service.

(C) THE FOREIGN SERVICE.

The combined appropriations for the Diplomatic and Consular Service for the year 1920 were \$9,630,532.03. For the fiscal year 1921-22 they have been reduced to \$7,950,650. As a result of the war conditions, the foreign service has inherited a large volume of additional work of a greatly diversified character. In the face of the complicated world situation, many of our embassies and legations are as fully occupied on important matters as at almost any period since the beginning of the war. The clerical force in the diplomatic branch of the service has been reduced to a point so low that the reasonable demands of the service can not at present be supplied. In the consular branch there has not only been retained the major part of the war duties in relation to political affairs, shipping and seamen, passports and registrations, and welfare of Americans and their relatives abroad, which are many times those of the prewar period, but there has been added the work of the passport visé control, due to restrictive regulations and laws which have enormously increased consular activities and added much to the cost of efficient administration.

While there is no material reduction in these duties that can be foreseen, with the exception of those relating to the visé of passports, a steady increase in the work of consuls in relation to the promotion of commerce and the gathering of commercial information is inevitable. The contingent expense appropriation in the Consular Service is insufficient to meet the current needs and to equip the offices that must soon be established in the countries from which consuls were withdrawn during the war. In both the diplomatic and consular branches of the foreign service the

gradual reduction in the fund for post allowances has resulted in increasing the difficulties of those officers who are forced to maintain themselves creditably at expensive posts within the limits of their salaries. Instead of any great curtailment in the operating expenses of the foreign service, the time has arrived for the passage of some constructive measure for strengthening and improving that service and putting it on a basis where its work will be more fruitful in concrete results.

It will be observed that while there has been a reduction of \$2,204,923.41 since 1920, amounting to more than 18 per cent of the total appropriations for the Department of State and the foreign service, there has, on the other hand, been a notable increase in the receipts of this department from fees collected for services performed. The total expenditures for the operations of the entire establishment, including the Department of State, foreign intercourse, and the foreign service, for the current fiscal year are estimated at \$10,996,043.15, whereas the receipts from fees to be collected for services performed during the same period are estimated at \$10,794,692.43. As the difference of \$201,350.72 between current receipts and current expenditures will be more than covered by balances remaining unexpended at the end of the fiscal year, due to a number of unforeseen conditions, it will be seen that the whole of the service relating to foreign affairs is operating on virtually a self-sustaining basis. From the fiscal viewpoint this relationship between receipts and expenditures, when considered in connection with the substantial reductions in appropriations already effected, shows the financial situation in the Department of State to be highly satisfactory. On the other hand, given the present magnitude and importance of international questions and the pressure of work arising therefrom both in the department and in the foreign field, it is considered that there must be increases in certain items for 1923 over the existing appropriations if effective administration is to be maintained.

INCREASED APPROPRIATIONS RECOMMENDED.

The present estimates carry a small increase of \$15,500 over the appropriations for the current fiscal year for the Department of State proper. Of this amount \$2,500 is for the purpose of increasing the salary of the Undersecretary of State from \$7,500 to \$10,000, which amount would make his compensation more nearly commensurate with his duties and responsibilities and place it on the same scale as that of like positions in other executive departments. Provision is made for an additional assistant solicitor at \$4,500 who shall devote the larger part of his attention to the examination and preparation of cases arising under the waterways treaty between the United States and Great Britain and the remainder of his time to the general work of the department. In this manner it will be feasible to utilize in the service of the Government the entire time of the person employed in connection with the preparation and presentation of cases arising under the waterways treaty; to discontinue the specific appropriation of \$6,000 for that purpose which has been paid to an attorney for part of his time, thus effecting a money saving of \$1,500 and part of the time of a lawyer for the overworked office of the Solicitor for the department.

In view of the pending measures in regard to the reclassification of salaries, I have not deemed it appropriate at this time to make recommendations in regard to general increases in compensation, desirable and even necessary as a number of increases appear to be. In a few cases, however, where the existing compensation appears to be not only inconsistent with the responsibilities of the positions but also with the compensation provided for other positions of similar responsibility in the department, a recommendation for increases at this time appears to be justified. Accordingly, a recommendation has been made that the salary of the chief clerk be increased \$1,000, from \$3,000 to \$4,000; that the salary of the editor of the laws be increased \$1,000, from \$2,500 to \$3,500; that of his assistant \$1,000, from \$1,500 to \$2,500; that of the private secretary to the Secretary of State \$500, from \$2,500 to \$3,000; that of the private secretary to the Undersecretary of State \$500, from \$2,000 to \$2,500.

The sum of \$4,500 is required to permit the exchange of the automobile for the official use of the Secretary of State. The present machine has now been in continuous use for over four years and has reached a condition which necessitates frequent repairs involving heavy expenditures for upkeep and occasional embarrassing inconveniences.

WATER BOUNDARY, UNITED STATES AND MEXICO.

The International Boundary Commission, United States and Mexico, was created under the treaty of 1889 and operates under the treaties of 1884, 1889, and 1905. The creating treaty provides for the appointment of a commissioner and a consulting engineer by the President of each country in accordance with the constitutional provisions of each country. It is further provided that the commission can transact no business unless both of the commissioners are present; that it shall sit on the frontier at such place as the commissioners may determine, but shall repair to such places where any difficulty or question may arise as soon as it is duly notified thereof. The commission has not investigated or settled any cases affecting the boundary since 1913. During a portion of this period the Government of Mexico has not been recognized by the United States; for long periods there has been no Mexican commissioner and for a time no American commissioner. There has likewise been a lack of funds.

No work having been done for a number of years, there are undoubtedly many cases requiring investigation and settlement. Changes in the boundary should always be investigated, surveyed, and mapped as soon as possible after they occur, as yearly overflows and sand storms are likely to obliterate the abandoned channel, thus requiring its location to be determined by old maps and in some cases by the testimony of witnesses. This procedure is difficult in a low, alluvial country, where bench and survey marks are easily destroyed. Such conditions lead to differences of opinion which it is sometimes difficult to reconcile. It is more economical to maintain a permanent commission, through which cases may be settled as they arise, than to leave such cases pending for a number of years, when practically all evidences become obliterated and witnesses scattered. The expeditious settling of cases would prevent many complications in the friendly intercourse of the two peoples on the border.

The distribution of the waters of the Rio Grande between the United States and Mexico is one of the most important questions pending between the two countries and should be settled as early as possible. Delay will make it more difficult of settlement and more costly to the United States.

The appropriation for the present fiscal year is clearly inadequate; indeed, it was not intended to do more than keep in existence a remnant of the commission until the resumption of political relations with Mexico would permit the continuance of the work of the commission. Although it is not yet known even approximately when conditions will permit the resumption of the work of the commission, it is felt that an adequate appropriation should be available so that as soon as conditions permit the commission may resume its work without delay. It is my opinion that the least amount with which satisfactory results can be obtained is \$25,000.

SALARIES OF SECRETARIES IN THE DIPLOMATIC SERVICE.

The increase of \$3,900 in this item is made up of a proposed change of the salary of the Turkish secretary of embassy to Turkey from \$3,600 to \$5,500 and of the Turkish assistant secretary of embassy to Turkey from \$2,000 to \$4,000. A similar increase in the salaries of the principal and assistant language secretaries at Tokyo and Peking was provided by the Diplomatic and Consular act making appropriations for the current fiscal year and has enabled the department to draw from the Consular Service officers peculiarly qualified for these important places. Under the present rate of compensation it has not been feasible to fill the vacancies at Constantinople with men possessing the qualities required. The American High Commission at that capital is much in need of language secretaries and upon the reestablishment of an embassy there the need will be imperative.

CLERKS AT EMBASSIES AND LEGATIONS.

For the fiscal year 1920-21 the appropriation for clerks at embassies and legations was \$480,000. For the current fiscal year Congress reduced this amount to \$300,000, which has necessitated the dismissal of 54 clerks. In addition to this serious reduction, the current appropriation for "Contingent expenses, foreign missions," carries the following proviso:

That no part of this sum appropriated for contingent expenses, foreign missions, shall be expended for salaries or wages of persons not American citizens performing clerical services, whether officially designated as clerks or not, in any foreign mission.

It had been customary to employ translators and other foreign clerical assistants from the contingent expense fund, and as a consequence of the foregoing proviso 72 alien clerks were dismissed on or before June 30, 1921. This general reduction of 126 clerks has placed the service in an embarrassing position as regards the handling of its present heavy duties. There are 50 diplomatic missions abroad now operating with a total clerical force of 131 clerks. As some of these missions are necessarily large establishments carrying on extensive work, their staffs must be proportionately large. Many of the smaller missions are thus deprived of the assistance to which they are entitled. As illustrative of this fact, the following table shows the status of missions as regards the number of clerks employed:

	Number of missions.		Number of missions.
With no clerks.....	2	With 5 clerks.....	2
With only 1 clerk.....	20	With 6 clerks.....	2
With 2 clerks.....	7	With 7 clerks.....	1
With 3 clerks.....	9	With 9 clerks.....	1
With 4 clerks.....	5	With 12 clerks.....	1

It is easy to see that with such limited facilities for conducting the routine work of embassies and legations the efficiency of the service is necessarily impaired. The present estimates ask for \$394,828, which is an increase of \$94,828 over the amount available for the current fiscal year. This amount would suffice to provide an addition to the present staff of 45 clerks.

EMERGENCIES ARISING IN THE DIPLOMATIC AND CONSULAR SERVICE.

The present appropriation under this title amounts to \$200,000, together with the unexpended balance from the preceding year of \$383,000, making a total of \$583,000 at the disposition of the department for the current fiscal year. It is not possible to foresee the exact amount which may be required for the purposes for which this appropriation is made for the next fiscal year. In its nature the appropriation is designed to meet emergency expenses which can not be anticipated and embraced in specific appropriations as well as confidential expenses the nature of which it would not be in the public interest to divulge. In the light of existing conditions, however, it is believed that the sum of \$400,000, a reduction of \$183,000 from the amount available this year, should be sufficient for the next fiscal year. I have therefore estimated this amount for 1923, and in accordance with the desire, in which I heartily concur, to abandon the practice of reappropriating unexpended balances, the provision relating to the unexpended balance of this appropriation has been omitted.

BOUNDARY LINE, ALASKA AND CANADA AND UNITED STATES AND CANADA.

The Hon. E. Lester Jones, the United States commissioner, has submitted the following statement of the work accomplished during the fiscal year 1921, and the estimated results for the fiscal years 1922 and 1923:

Years.	Maps engraved.	Maps printed.	Reports completed.	Number of man- months of field work.
Fiscal year 1921.....	30	1	1	30
Fiscal year 1922.....	25	45	107
Fiscal year 1923.....	24	24	108

The above table shows the work completed during the fiscal year 1921 and the estimated amount of finished work it is hoped to turn out during the fiscal years 1922 and 1923. From these figures a clear comparison may be obtained, and it was not thought necessary or practicable to show in detail the number of geodetic computations made or the number of drawings, tracings, and photographs, and the amount of proof-reading necessary to produce the finished maps and reports.

The field work is shown in man-months, i. e., the number of temporary field hands required to do the work in one month. The field season lasts from four to six months, but owing to the great difference in the character of the work and difficulties of different localities, a more correct idea of the work can be given in this way than by expressing the accomplishments in terms of parties or miles of territory covered.

The large increase in the number of temporary field hands to be employed during the fiscal years 1922 and 1923 is due to the following reasons: It is hoped to complete all field work under the present treaties during the current fiscal year, as the lack of certain details and final field adjustments is hindering the work of the office and delaying the publication of the results. It is absolutely essential, therefore, that this work be completed as soon as possible, and with this in view four parties have been placed in the field.

Provision has been made for slight increases in salaries to make the standard for this commission compare favorably with the salaries paid for similar services in other branches of the Government service. The report of the Congressional Joint Commission on Reclassification of Salaries was used as a basis for these estimates, the amounts estimated being in most instances considerably less than the maximum for the grade.

The increase in the amount estimated for wages is due to an attempt to complete the remaining field work as soon as possible in order not to further delay the publication of maps and reports * * *.

The increase shown in the amount allotted for subsistence over expenditures for the fiscal year 1921 is due to the increase in the number of field hands, as explained under wages. The amount estimated for transportation shows a decrease due to fewer parties, although their personnels will be increased.

Estimated amount for rent and storage shows a considerable decrease over 1921, due to the fact that the commission now occupies Government quarters.

Inasmuch as this Government is obligated by treaty to complete the marking of the boundary between the United States and Canada, and the work has progressed so far that the completion of it can be predicted within three years, it is hoped that the necessary appropriation will be provided and any suspension of activity be avoided.

INTERNATIONAL INSTITUTE OF AGRICULTURE.

At a general meeting of the International Institute of Agriculture, held at Rome November 3-10, 1920, the financial condition of the institute due to the new economic conditions created by the war was fully discussed, and it was determined that the institute could no longer carry on the work with the resources at its disposal, as it appeared that the last limit of saving had been reached. The general meeting decided that the only way to save the life of the institute was to raise the quotas of the adhering States. Accordingly the following resolution was passed:

The general meeting realizing the impossibility for the institute to carry on its present services with receipts that are more nominal than actual, resolves to propose to the Governments kindly to pay, for the fiscal years 1921 and 1922, over and above the ordinary quota as set by article 10 of the convention of 1905, payable in francs, an additional quota of one and one-half the amount of the ordinary quota, and payable by each country in its own currency on the basis of the fixed rate of exchange at par. The pledge of the Governments to pay this quota will be officially notified by the States to the ministry of foreign affairs of Italy and to the president of the institute.

The United States, being entered in the first group of the adhering States (40,000-franc quota), would have to pay for the years 1921, 1922, and 1923 the following amounts:

1. The usual quota of 40,000 francs which would be paid at the current rate of exchange (equivalent at present to approximately \$3,000, or at the normal rate to \$7,720).

2. The extraordinary quota amounting to one quota and a half—that is to say, 60,000 francs—which would be paid in dollars, the amount to be reckoned on the basis of \$1 at par being worth 5.1825 francs. Thus the extraordinary quota of the United States for each year would be \$11,577.

As a means of determining its attitude relative to the proposed increase in the annual contribution, the department addressed an instruction to its diplomatic representatives requesting them to ascertain the decisions of the other adhering Governments toward the proposal. The replies have now been received from 25 foreign countries, indicating that one Government has not yet reached a decision in the matter, that another has not received notification of the increase in its quota, that two are withdrawing from the institute, and that the remaining 21 will continue to adhere.

The obligation of the United States arises from the convention signed June 7, 1905, the ratification of which was advised by the Senate on June 27, 1906, and proclaimed January 29, 1908. In view of the attitude of the majority of the other Governments who are parties to this treaty, and the peculiar relation which the United States has had to the institute in the past, it is believed that the obligation is one which this Government can not lightly ignore. It is therefore recommended that appropriations be made sufficient to cover the amount of the proposed increase in the quota to be paid by the United States Government to enable it to continue its participation.

INTERNATIONAL SANITARY BUREAU.

The Second International Conference of American States, which met in the City of Mexico in 1901-2, adopted a resolution providing for the establishment of an International Sanitary Bureau in Washington to function under the guidance of the International Bureau of American Republics (now the Pan American Union). In accordance with this resolution the sanitary authorities of the American Republics were to transmit to the bureau all data relating to the sanitary condition of their ports and territories and to furnish every facility for a thorough and careful study and investigation of any outbreak of infectious or contagious diseases within their limits. The principal objects to be attained through this bureau were the improvement of sanitation, the betterment of quarantine service, and the control and prevention of communicable diseases in order that such diseases might be eliminated and commerce between the Republics of the Western Hemisphere facilitated. The International Sanitary Bureau was further charged "to encourage and aid or enforce in all proper ways the sanitation of seaports, including the sanitary improvements of harbors, sewage, drainage of the soil, paving, elimination of infection from buildings, and the destruction of mosquitoes and other vermin." To carry out these measures it was recommended that the Bureau of American Republics (now the Pan American Union) collect \$5,000 pro rated according to population, from the different American Republics.

International sanitary conferences were to be called from time to time by the Bureau of the American Republics (now the Pan American Union) for the furtherance of these purposes. The first of these conferences met at Washington in December, 1902; the second at Washington in October, 1905; the third at the City of Mexico in December, 1907; the fourth at San Jose, Costa Rica, in December, 1909, and January, 1910; the fifth at Santiago, Chile, in November, 1911, and the sixth at Montevideo, Uruguay, in December, 1920.

The limited funds at the disposal of the bureau have made it impossible, up to the present time, to undertake the fulfillment of the larger purposes for which it was created, especially the publication work which is so vital to the activities of an organization of this character. In order, therefore, to strengthen the usefulness of the bureau, it became necessary to undertake a reorganization of its work.

The Sixth International Sanitary Conference held at Montevideo, in December, 1920, provided for the reorganization of the International Sanitary Bureau, its establishment and operation in accordance with the recommendations of the First and Second International Sanitary Conferences, and furthermore recommended the publication in English and Spanish of a monthly bulletin entitled "Monthly Pan American Health Reports of the International Sanitary Bureau." For this purpose, and in order to carry on the other work of the bureau, it was recommended that an annual budget of \$20,000, pro rated among the different Governments according to population, be provided. The quota of the United States to this total is \$11,323.16.

At the present time long quarantine delays, due to the presence of preventable diseases, are very real obstacles to international trade, and often result in severe loss, due to the detention of passenger vessels and freighters.

The International Sanitary Bureau, if properly supported, should become a clearing house of sanitary information, a coordinating center for constructive organization, and the organ through which greater uniformity of policy in public health matters may be attained.

PAN AMERICAN SCIENTIFIC CONGRESS.

The Diplomatic and Consular appropriation act approved June 4, 1920, contained an item of \$25,000 to meet the actual and necessary expenses of the delegates of the United States to the Third Pan American Scientific Congress to be held at the city of Lima, Peru, in the year 1921. There being no immediate prospect of this congress being held during the period for which the appropriation is available, the item was indicated in the temporary budget of July 15, 1921, as one on which a saving might be effected, and the entire sum of \$25,000 was accordingly covered into the general reserve. Information has subsequently been received that the Government of Peru has decided to hold the Third Pan American Scientific Congress during the month of July, 1923. In order to enable the United States properly to participate, the present estimates carry this item as a new appropriation for the year 1923.

INTERNATIONAL COMMISSION ON PUBLIC AND PRIVATE INTERNATIONAL LAW.

The present increase in the estimates for the International Commission on Public and Private International Law is due to a change in the wording of the item so as to discontinue the usual practice of bringing forward the unexpended balance and place the appropriation on a specific annual basis.

IMPROVEMENT OF AGENCY AND CONSULATE GENERAL BUILDING AT TANGIER, MOROCCO.

The Government-owned property at Tangier was acquired about a century ago as a present from the Sultan of Morocco, and, except for painting and minor repairs, its maintenance as a home for the agency and consulate general has cost the Government practically nothing. However, because of the great age of the building and its consequent lack of modern conveniences, as well as proper arrangement of rooms, the department has in recent years several times considered the matter of acquiring other and more modern property. A deterring factor in this connection has been the constant increase in the value of realty. In 1911 it was estimated that the purchase of a suitable site and the erection thereon of adequate residential and office quarters would cost approximately \$55,000. It is estimated that the cost to-day of similar property would be probably in excess of \$100,000, which would seem to be disproportionate to the importance of the post. It has been decided, therefore, to request an appropriation of \$14,435 with which to remodel the property. Upon completion of the improvements proposed, the agency and consulate general would consist of five rooms for offices, and as residential quarters, suitable reception and dining rooms, kitchen and scullery, three bedrooms, a bathroom, and two lavatories.

INTERNATIONAL HYDROGRAPHIC BUREAU.

The Diplomatic and Consular appropriation act for the fiscal year ending June 30, 1922, provided \$2,500 to enable the United States to become a member of the International Hydrographic Bureau. The amount of the annual contribution of the United States is fixed at 20,000 Swiss francs. The sum of \$2,500 does not represent this amount, which at the normal rate of exchange is equivalent to \$3,860, the figure carried in the present estimates. The method of prorating the expense of the administration of the bureau was agreed to by a committee of three members of the international conference, one of whom was a representative of the United States. The participation of the United States in this enterprise was requested by the Secretary of the Navy and the Secretary of Commerce, who are in accord as to the importance of an international bureau of this nature.

The Secretary of the Navy, in a letter dated September 8, 1921, makes the following comment:

The value to the United States Hydrographic Office of the information received from the International Hydrographic Bureau will greatly exceed the amount appropriated for its upkeep. This bureau will form an international clearance house of hydrographic information, and, when fully established, will be of an inestimable benefit to all mariners.

The Secretary of Commerce, in a letter dated September 14, 1921, offers the following observations:

The present maritime interests of the United States are so great that detailed arguments in favor of cooperation with other maritime nations in the collection and dissemination of nautical information are not deemed necessary. Viewed solely from the standpoint of the insurance of large capital investment in ships, the annual contribution to the work of the bureau is an infinitesimally small premium.

The tonnage figures used by the committee in determining the quota of the United States as 20,000 Swiss francs seem to have been the prewar or at any rate the early war figure of 6,270,000 tons for combined Navy and merchant marine. This represents only 14.6 per cent of the tonnage of the nations associated in the London conference. The Annual Report of the Commissioner of Navigation for the fiscal year ended June 30, 1920, gives a total of 16,324,024 tons for documented merchant vessels alone.

The United States is the only nation which has markedly changed the volume of its tonnage from the figures used by the committee. A recomputation with the present figures would increase the quota nearly twice.

SALARIES, CONSULAR SERVICE.

In connection with the appropriations for the current fiscal year, it was last year anticipated that there would be delay in the reestablishment of consular representation in the Central Powers, in view of which fact it was found practicable to reduce the appropriation for salaries by \$100,000. It was clearly understood, however, that this reduction should under no circumstances become permanent as the heavy requirements of the service incidental to the important readjustments which must be undertaken will require that all vacancies be promptly filled and the representation abroad brought up to its full complement. The amount of \$2,009,500 is therefore merely a restoration of this item to its former figure and is not in that sense to be considered as an increase.

RELIEF AND PROTECTION OF AMERICAN SEAMEN.

In the department's letter of July 15, 1921, transmitting the statement of appropriations and estimated obligations for the fiscal year 1922, the following statement occurs regarding the appropriation for the relief and protection of American seamen:

Section 4577 of the Revised Statutes imposes upon consular officers the duty of providing relief for seamen of the United States who may be found destitute within their districts. The expenditures for this purpose for the fiscal year ended June 30, 1920, were \$221,335.03. The original appropriation of \$100,000 for the fiscal year ended June 30, 1921, proved to be insufficient and it became necessary to request a supplemental appropriation of \$100,000 for that year. The appropriation under this title for the current fiscal year is \$150,000, whereas expenditures will doubtless be far in excess of that figure. You will note, therefore, that the estimate sheet shows \$150,000 as the total amount available for obligation and \$220,000 as the estimated obligations and other charges for 1922, indicating that a supplemental appropriation must be provided.

As it can not be anticipated that there will be any diminution in the requirements for relief purposes during the year 1923, the present estimates have been placed at \$220,000, which amount is believed to represent the minimum requirements.

CONTINGENT EXPENSES, UNITED STATES CONSULATES.

It is considered to be of great urgency that the appropriation for contingent expenses United States consulates should be increased from \$1,000,000 to \$1,200,000. For the past three years the department has been compelled to refuse practically all requests from the field for furniture, notwithstanding the strong recommendations of the inspectors and the fact that the work of many offices is being badly hampered by lack of equipment. Some years ago the policy was adopted of equipping consular offices uniformly so that an officer newly assigned to a post would have no difficulty in finding any material which he might seek and otherwise conducting himself as though the office had been his own. This commendable practice has been greatly disturbed by the inadequacy of appropriations. It is without justification that a number of the important consulates are forced to use unpainted kitchen tables in the place of desks and packing boxes for typewriter desks, which is actually the case. In some offices very ordinary chairs are in use and consular officers are forced to place books in them to sit upon in order to raise themselves to the elevation of their desks. Valuable archives are in some instances tied up in bundles for want of proper filing cases. At present the department has in hand requests for furniture amounting to \$98,000, which does not include the furniture that will be required to equip the offices in Germany and Austria when representation in those countries is resumed. It is estimated that for this latter purpose a considerable sum will be required, since it is known that the property of the consulates suffered damage during the war. The figures given as representing the requests already received are completely representative of the full needs of the service as many officers are informed that the department is not sending out furniture and consequently have refrained from filing their requisitions. It may be mentioned that one fixed item of expenditure which can not be controlled is that of rentals. The amount spent annually for rents in the Consular Service has increased from \$157,571.45 in 1913 to \$253,000 in 1921, nearly all of which is due to the increase in rental values. Moreover, the expenditure last mentioned is computed at the current rate of exchange. The annual obligation for rent of consular offices at the normal rate of exchange is more than \$350,000.

It is strongly recommended that there be no reduction in the estimates for this purpose as submitted for 1923.

ENTRY OF ALIENS INTO THE UNITED STATES.

It is gratifying to be able to report a reduction from \$600,000 to \$425,000 in the amount of the appropriation required for enforcing the law in regard to the viséing of passports of aliens coming to the United States. This is due to the reduction in the number of aliens admitted to the United States under existing law as well as to improvements in the method of handling the visé work in the consulates.

I have the honor to be, sir,

Your obedient servant,

CHARLES E. HUGHES.

APPENDIX D.

Reports received under section 2, act of July 11, 1890 (26 Stat., 268), "of employees below a fair standard of efficiency," and under section 7, act of March 2, 1895 (28 Stat., 808), "of condition of business," and "of detail of employees."

STATE DEPARTMENT.

DEPARTMENT OF STATE,
Washington, October 10, 1921.

The Hon. CHARLES G. DAWES,
Director of the Bureau of the Budget.

SIR: In compliance with section 2 of the act of July 11, 1890 (26 Stat., p. 260), section 7 of the act of March 2, 1895 (28 Stat., p. 808), I have the honor to inform you that on July 9, 1921, a departmental order was issued calling upon the chiefs of divisions and bureaus in the Department of State for an investigation into the efficiency of employees and for general reports and recommendations of changes and readjustments which would be favorable to economy and general improvement. Certain action in the matter of internal readjustments has been taken as a result of the recommendations received, and it is believed that there are at present no employees in the Department of State whose services are not being profitably utilized or whose work is below a fair standard of efficiency.

EFFICIENCY OF EMPLOYEES.

It may be remarked that in reducing the personnel at the end of the last fiscal year to bring it within the appropriations provided the policy was followed of choosing for separation from the service those employees who, according to the system of efficiency records prescribed, had failed to maintain a satisfactory standard of efficiency.

CONDITION OF BUSINESS.

The business of the department, while not greatly in arrears, is being accomplished under considerable pressure. A great deal of overtime work is being done, and it is with difficulty that the current work is prevented from falling in arrears and yet reserve sufficient time for the important constructive problems which seem urgently to require attention.

TRANSFERS OF EMPLOYEES.

The law in regard to the detail of employees from one office to another does not appear to be applicable to this department, since its employees are not appropriated for by bureaus and offices but for the department as a whole. They are, therefore, utilized in one office or another as the public business may require, without the formality of such transfers as are contemplated when employees are appropriated for by bureaus or other administrative units.

I have the honor to be, sir,
Your obedient servant,

CHARLES E. HUGHES.

LIBRARY OF CONGRESS.

LIBRARY OF CONGRESS,
Washington, September 30, 1921.

HON. CHARLES G. DAWES,
Director of the Bureau of the Budget.

SIR: With reference to Bureau of the Budget Circular No. 32, dated September 13, 1921.

Library of Congress proper:

- (1) There are no employees below a fair standard of efficiency.
- (2) Because of the inadequate force, about half of the material in the Library continues uncatalogued and unclassified. These arrears consist in part of material transferred from the Capitol to the Library Building in 1897, in part of later accessions, systematic treatment of which has had to be deferred. They are general throughout the Library and include chiefly printed books and pamphlets, but also manuscripts, maps, prints, and music.
- (3) None of the employees has been detailed from the Library to any other Government establishment for a period exceeding one year.

Very respectfully,

HERBERT PUTNAM, *Librarian.*

BUILDING AND GROUNDS, LIBRARY OF CONGRESS,
OFFICE OF THE SUPERINTENDENT,

TREASURY DEPARTMENT,
BUREAU OF INTERNAL REVENUE,
Washington, August 15, 1921.

The SECRETARY OF THE TREASURY:

SIR: In compliance with section 7 of the act of March 15, 1899, the following report of the condition of the work of the Bureau of Internal Revenue for the quarter ended June 30, 1921, is respectfully submitted. More detailed information concerning the work of the bureau will appear in the annual report of the Commissioner of Internal Revenue for the fiscal year ended June 30, soon to be submitted for printing.

Prohibition unit.—With the exception of the legal division, the work on this unit is practically up to date. Reports of violations uncovered by prohibition agents have been increasing with considerable rapidity, and there remain in the prohibition section of the legal division approximately 30,000 cases requiring attention. The methods heretofore employed in the handling of this work have not proved altogether satisfactory. It is the plan, under the reorganization of the prohibition unit, to create a law division, which will handle the criminal and civil phases of cases pending in court and all matters in litigation, including seizures; the administrative work, such as assessments, claims, and compromises, to be transferred to some other division. During the quarter claims for refund and abatement and uncollectible claims in the sum of \$8,118,432.70 were allowed, while like claims totaling \$2,824,318.76 were rejected. There are still pending claims of all kinds amounting to \$20,415,129.33.

The establishment of field laboratories of the bureau is aiding the field agents greatly in their investigations and in handling their cases in court. During the quarter 12,869 chemical samples were analyzed in the bureau and field laboratories.

The lack of appropriation made necessary the furloughing of 740 officers from duty and pay from May 20 until the end of the quarter. A deficiency appropriation granted by Congress made it possible on June 22 to authorize field officers to make recommendation for the reinstatement of those agents furloughed whose efficiency records warranted such action. Accordingly, 373 men were reassigned to duty before the end of the quarter.

Sales tax unit.—The work in all divisions of this unit is current. The personnel of the unit has been reduced by 10 clerks, with a resultant saving of \$13,910 in salaries, since March 31, 1921, exclusive of the personnel of the tobacco and miscellaneous division, which was transferred to another unit of the bureau under date of April 12, 1921.

Capital stock, estate, and child-labor tax unit.—Capital stock tax returns for all preceding periods have had final audit. Returns filed in July, 1920, for the taxable period ended June 30, 1921, are now 80 per cent completed, and preparations to handle the 1922 returns, due July, 1921, have been made. Considerable additional tax for the preceding years is being uncovered through the more efficient audit of the 1921 returns. The added field deputies are assisting in securing delinquent returns for all periods, and their services have proved highly satisfactory. Additional tax in the amount of \$74,373.25 was assessed for the quarter as a result of investigations made by the field deputy collectors.

Assessments of regular and additional capital stock tax listed by this office aggregated \$1,599,570.30 during the quarter.

On July 1, 1921, there were on hand in the capital stock tax division 1,032 claims, of which 551 were claims for abatement and 481 claims for refund. On the same date there were on hand 1,803 offers in compromise.

There is a marked improvement in the work of the clerical force, due principally to a reduction in turnover, which gives the division more experienced employees.

The estate tax division reports that the amount of additional tax disclosed during the quarter as the result of field investigation and division examination, audit, and review is \$5,621,174.88, an increase of \$2,733,826.51 over the preceding quarter. The amount of tax shown on new returns is \$22,183,554.90. Refunds and abatement, less duplicate assessments, totaled \$1,954,043.90. During the quarter 2,347 agents' reports were received and 1,789 cases closed. On June 30, 2,080 cases awaited final closing, of which 287 awaited collateral and supplemental reports, 434 verification of securities, 71 action of charitable bequest section, and 76 were in process of final audit by examiners.

Two important conferences were attended by the head of the child-labor tax division during the last quarter. The first was that of governmental labor officials held in New Orleans the week of May 2; and the second was the annual conference of the National Child Labor Committee, in Milwaukee, June 24, in connection with the National Conference of Social Work. En route to New Orleans the head of the division made a complete tour of field headquarters offices, which was most instructive and helpful.

Industrial conditions changed but slightly during this quarter. Many establishments are shut down, while others are running but part time, and there is an oversupply of adult labor, which naturally diminishes taxable child labor. The combination inspection and study of certification in New Jersey, begun in the previous quarter, continued well through the past quarter. Thirty-seven establishments in 14 cities were inspected by a force consisting of one inspector and three assistants. Twenty-three issuing officers were interviewed and their practices in requiring evidence of age were found satisfactory for the purposes of the child-labor tax law. Similar work in Pennsylvania, begun earlier, was completed during the period. The certification in the cities was found generally satisfactory, but in the counties it could be much improved, and legislation to that end has been effected. Disparity between the working hours of children fixed by the State (9) and by the Federal law is still creating some confusion.

Administrative units.—The solicitor, the supervisor of collectors' offices, division of supplies and equipment, stamp division, accounts unit, appointment division, and special intelligence unit, which constitute the administrative branches of the bureau, have all submitted reports to the head of the bureau indicating a satisfactory and current condition of the work under the supervision.

Income-tax unit.—During the quarter ending June 30, 1921, a total of 463,690 returns were audited, as compared with 416,123 for the preceding quarter. As a result of these audits, additional taxes amounting to \$69,471,412.48 were assessed, as compared with \$108,066,098.45 for the preceding quarter, or a decrease of \$38,684,685.97. Of the additional tax assessed in the sum of \$69,471,412.48 the sum of \$20,226,800.36 was the result of office audits, while the balance of \$49,244,612.12 was the result of audits of revenue agents' reports.

The average number of cases closed per auditor for the quarter was 207, as compared with 181 for the preceding quarter. The average additional tax per case for the quarter was \$149.82, a decrease of \$109.77 per case from \$259.69, the average additional tax per case for the preceding quarter.

It will be noted from the above figures that the total number of returns audited during the past quarter is greater than that of any similar period in the history of the income-tax unit. This increase, however, is due principally to a large increase in the number of personal and partnership returns audited. The number of corporation returns audited decreased by 20 per cent. The amount of additional tax assessed decreased materially during the past quarter as compared with the preceding quarter.

There are several reasons for the decrease in the number of corporation returns audited and the consequent decrease in additional tax.

During the quarter 265 auditors engaged in the audit of corporation returns in the general audit division were transferred to the field and to the consolidated returns subdivision. Those transferred to the consolidated returns subdivision were placed in training for several weeks and were not released for actual work until after the close of the quarter.

Owing to the serious financial condition of the country, taxpayers in recent months are resorting to every known subterfuge to forestall the assessment of additional tax. Every point is vigorously contested and extreme pressure is brought to bear to the end that assessments may not be actually listed until all available evidence has been presented. Several large cases involving in excess of \$75,000,000 additional tax were practically closed but not in time to actually list the sum during the quarter.

The practice of making superficial audits has been practically discontinued. It requires more time to make intensive audits and the initial showing of additional taxes is not so glowing, but the cases are in a more satisfactory condition, fewer claims result, and the taxpayers are better satisfied.

Due to a serious lack of space and clerical personnel the number of cases awaiting the assembling of related returns and other documents has constantly increased to the extent that certain sections are unable to keep auditors engaged.

Due to a lack of stenographers and typists, there were at the end of the quarter in excess of 25,000 personal cases which were adjusted but could not be closed, as the necessary correspondence could not be prepared within the quarter. The technical personnel in the general audit division is perhaps sufficient, with the exception of the field audit review section, to keep the work thereof in a fairly current condition; but the work in the special audit division, consisting of the most complicated cases, requires the services of a large number of additional high-class employees. This situation has been previously outlined to you in connection with the budget estimates. The urgent need for additional clerical workers of specified classes has also been reported, and if the unit is to remain a substantial revenue producer I can not too strongly urge the necessity for additional space and personnel.

Personnel.—The total personnel of the income-tax unit, exclusive of the field force, at the close of the quarter was 5,376, as compared with 5,582 at the close of the preceding quarter, representing a decrease of 206, or 3.7 per cent, as compared with a 4 per cent increase in personnel during the preceding quarter. This reduction in personnel is due to the abandonment of the recruitment program because of lack of appropriation. Additions to the service were limited to reinstatement of former employees. No recommendations for appointments have been

made during the quarter or for future appointments pending determination of the amount of appropriation available for the fiscal year 1922.

The training section during the past quarter concluded the regular classes for the instruction year. A greater number of students attended these classes than during the corresponding period last year. The number of classes conducted by voluntary instructors has increased materially and many improvements in the text material have been made. The three examinations held during the past quarter have resulted in a large number of employees qualifying for and being transferred to a higher grade of work. During the past quarter the committee on "standard paragraphs" working under the supervision of this section completed and issued a mimeograph outlining the use of standard paragraphs for employees of the unit.

Statistical service.—The work of the statistical division for the past quarter may be found by referring to pages 20 to 22. Substantial progress has been found during the past quarter on the compilation of the "Statistics of income for 1919." At the present rate of progress it will be possible to issue this publication at a date approximating currency more closely than it was possible to issue the 1917 and 1918 publications. In addition to this principal compilation the division has been called upon to make a number of special reports and estimates for use in connection with the administrative policies of the unit and for aid in the preparation of new tax legislation.

Administrative service.—A decrease in the production in several of the larger sections of the administrative division as may be reflected in the detailed reports can be readily accounted for by the total inadequacy of the space and personnel required to do this work properly. The burden of this division increases constantly with the receipt from the collector's office of new returns, and the personnel grows less effective through lack of space and equipment, and the resultant crowding. I must frankly say that this condition is bad and will continue to be so despite every possible effort to make such improvements as are possible, until such time as the unit is provided with a suitable amount of space and a sufficient number of employees to assemble the returns ready for audit. A very thorough study is at present being made of the problems of this division, with a view of eliminating the present difficulties, with as little disturbance as possible to the regular functioning of the unit, and it is thought if adequate space is provided that it will be soon possible to accomplish this purpose.

Field service.—During the quarter ending June 30, 1921, the field force of agents and inspectors completed 53,469 investigations and recommended the assessment of \$129,321,627.69 in additional taxes. This is an increase as compared with the preceding quarter of 10,005 investigations completed and \$11,386,377.35 additional tax recommended for assessment. The number of cases outstanding decreased from 316,017 on March 31, 1921, to 311,896 on June 30, 1921. It will not be possible despite this increased rate of production to make any appreciable progress toward currency of work unless a substantial increase is made to the 2,071 agents and inspectors and 342 clerks now employed in field offices. I desire to direct your attention to the fact that due to a shortage of typists in the various field offices, cases involving millions in additional tax are delayed in reaching this office. In a great many offices agents and inspectors after having completed the investigation of a case are compelled to type their own reports.

Claims.—I am able to report a gratifying increase in the number of claims adjusted during the past quarter, a total of 31,551 claims being adjusted as compared with 23,567 the preceding quarter and 14,309 for the fourth quarter of last year. This increase has been regular in both the claims and the several audit sections and the adjudication of claims has now reached a plane where it approximates the number being received, a total of 33,166 being received during the quarter as compared with 37,079 the preceding quarter. There is, however, a definite limit beyond which this increase in production can not go. The neck of the bottle is the claims control section, which is charged with the assembling of the returns and papers necessary to the adjudication of claims. This subsection has now reached its maximum in the number of claims possible to assemble with its present limitation of space and personnel.

There have been recently instituted several important improvements in the procedure of handling claims involving the elimination of the closing subsection and the claims review board of the claims section, and the transfer of their functions to the newly organized claims review subsection of the audit review section. This is of course a step further in the development of the plan instituted some months ago of handling all claims in the audit sections and simplifies the procedure and eliminates the delay in routine before and after the adjudication of claims.

Respectfully,

D. H. BLAIR, *Commissioner.*

WAR DEPARTMENT.

WAR DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., November 2, 1921.

The DIRECTOR OF THE BUDGET,
Treasury Department, Washington, D. C.

SIR: 1. In compliance with the provisions of existing law, I have the honor to advise you that no employee of the War Department is below a fair standard of efficiency with the exception of the following in the office of the Surgeon General:

One clerk at \$1,200 per annum who, by reason of disability due to recent illness, has been reduced from \$1,400 and whose physical condition has not yet so improved as to restore efficiency.

One clerk at \$1,000 per annum, who has proven unsuitable to the duties to which assigned. She has been assigned to other duties which may prove more suitable.

2. No employees of the War Department have been detailed from one bureau to another.

3. While, due to great reductions in force, considerable difficulty is being experienced in keeping the work current, it may be stated that the work of the department is not in arrears, with the following exceptions:

The office of the Chief of Air Service, where the current business has fallen somewhat in arrears and where this condition is being corrected by increasing the hours of labor of the employees.

The office of the Chief of Finance, where the work of the Claims Division is in arrears due to a radical reduction in personnel, but where the work is being steadily brought up to date by the extension of office hours and by the use of personnel from the other divisions of the office whenever possible. It is expected by these means that this work will be current within a few months.

The Militia Bureau, where, due to the increase in the National Guard and the consequent increasing volume of work to be performed, the existing office force is insufficient. Measures are being taken to bring the work up to date by the extension of office hours and by the detail of employees from other bureaus, and an estimate for an increased clerical force for the fiscal year 1923 has been submitted.

Very respectfully,

JOHN W. WEEKS, *Secretary of War.*

NAVY DEPARTMENT.

NAVY DEPARTMENT,
Washington, September 15, 1921.

From: Secretary of the Navy.

To: Director of the Bureau of the Budget.

In accordance with the requirements of section 7 of the act of March 2, 1895 (28 Stat., 808), I have to state that the work of the Navy Department is in a fairly satisfactory state except possibly in the Bureau of Navigation, which bureau on this account has been excepted from the general directions issued by me to the other bureaus and offices of the department to effect a reduction in personnel of at least 5 per cent for 1923 over 1922.

In accordance with the requirements of section 2 of the act of July 11, 1890 (26 Stat., 268), I have to report that my information is that there are no employees of this department below a fair standard of efficiency.

In accordance with the requirements of section 7 of the act of March 2, 1895 (28 Stat., 808), I have to report that the following positions had, on June 30, 1921, been filled by detail for a period of more than one year, viz:

One clerk at \$3,000 from the Bureau of Supplies and Accounts to the Secretary's office.

One clerk at \$2,400 from the Bureau of Construction and Repair to the Secretary's office.

One clerk at \$1,800 from the solicitor's office to the Secretary's office.

One clerk at \$1,800 from the Bureau of Yards and Docks to the Secretary's office.

One clerk at \$1,800 from the Bureau of Supplies and Accounts to the Secretary's office.

Two clerks at \$1,600 from the Bureau of Supplies and Accounts to the Secretary's office.

One clerk at \$1,600 from the Bureau of Engineering to the Secretary's office.

One clerk at \$1,400 from the Bureau of Engineering to the Secretary's office.

One clerk at \$1,400 from the solicitor's office to the Secretary's office.

Two typewriters at \$1,200 from the Chief of Naval Operations to the Secretary's office.

One stenographer and typewriter at \$1,200 from the solicitor's office to the Secretary's office.

One clerk at \$1,200 from the Bureau of Yards and Docks to the Secretary's office.

Four clerks at \$1,100 from the Chief of Naval Operations to the Secretary's office.

One assistant mail messenger at \$1,000 from the Bureau of Yards and Docks to the Secretary's office.

One clerk at \$1,000 from the Bureau of Supplies and Accounts to the Secretary's office.

One clerk at \$1,000 from the Chief of Naval Operations to the Secretary's office.

One clerk at \$1,400 from the Secretary's office to the Judge Advocate General's office.

One clerk at \$1,200 from the Secretary's office to the Judge Advocate General's office.

One messenger at \$840 from the Secretary's office to the Bureau of Supplies and Accounts.

Very respectfully,

EDWIN DENBY, *Secretary.*

DEPARTMENT OF THE INTERIOR.

DEPARTMENT OF THE INTERIOR,
Washington, September 14, 1921.

The DIRECTOR OF THE BUDGET:

DEAR SIR: In compliance with the provisions of the act approved July 11, 1890 (26 Stat., 268), I have the honor to submit herewith a report of employees of this department who, according to the statements of the bureau chiefs and the chief clerk of the department, are considered below a fair standard of efficiency in their respective grades:

Office of the Secretary:	
6 laborers (2 regular roll, 4 Interior Department Building roll).....	\$660
2 female laborers (Interior Department Building roll).....	400
2 charwomen (Interior Department Building roll).....	240

1 clerk.....	1,000
Geological Survey:	
1 topographer.....	1,800
1 clerk.....	1,000

The following bureaus, offices, and hospitals report that there are no employees therein who are below a fair standard of efficiency: Office of the Solicitor, General Land Office, Office of Indian Affairs, Reclamation Service, Bureau of Mines, National Park Service, Office of the Architect of the Capitol, Alaskan Engineering Commission, St. Elizabeths Hospital, Freedmen's Hospital.

In compliance with the requirements of section 7 of the act of Congress approved March 12, 1895 (28 Stat., 808) I have the honor to state that the work of the department is substantially current with the exception of the office of the solicitor, the Bureau of Education, the General Land Office, the Indian Office, the Bureau of Pensions, and the Patent Office. The work in the bureaus and offices named is being expeditiously prosecuted, and, where practicable, the arrearages gradually reduced.

Accessions, however, to the forces of the Patent Office, the Pension Office, and the General Land Office, respectively, will be necessary to secure any material reduction in the work of those offices.

In compliance with the provisions of the act of March 2, 1895 (28 Stat., 808), there is transmitted herewith a list of employees of this department on detail from their respective offices on July 1, 1921, for a period exceeding one year.

Sincerely,

E. C. FINNEY, *Acting Secretary.*

POST OFFICE DEPARTMENT.

OFFICE OF THE POSTMASTER GENERAL,
Washington D. C., September 15, 1921.

Hon. CHARLES G. DAWES,
Director Bureau of the Budget.

MY DEAR MR. DAWES: In accordance with the terms of the act of March 15, 1895, I have the honor to report that the work of the Post Office Department, exclusive of the office of the comptroller, is approximately four days in arrears at the present time.

You are further informed that, based on efficiency ratings, there are in this department, exclusive of the office of the comptroller, no employees who are below a fair standard of efficiency within the meaning of the act of July 11, 1890.

Sincerely, yours,

WILL H. HAYS, *Postmaster General*.

Through Hon. CHARLES A. KRAM,
Comptroller and Budget Officer,
Post Office Department.

DEPARTMENT OF AGRICULTURE.

DEPARTMENT OF AGRICULTURE,
Washington, September 15, 1921.

Gen. CHARLES G. DAWES,
Director of the Bureau of the Budget.

DEAR GENERAL DAWES: I have the honor to transmit herewith the following statements:

Employees below a fair standard of efficiency.

Condition of business and details of employees.

Material furnished Navy and Alaska Railway Commission.

Projects completed and discontinued.

Services duplicated by other departments, bureaus, or agencies.

Respectfully,

HENRY C. WALLACE, *Secretary*.

STATEMENT OF EMPLOYEES BELOW A FAIR STANDARD OF EFFICIENCY.

In accordance with the provisions of the act of July 11, 1890 (26 Stat., p. 268), I have to report that there are no employees of the Department of Agriculture below a fair standard of efficiency.

STATEMENT OF CONDITION OF BUSINESS AND DETAIL OF EMPLOYEES.

In accordance with the provisions of the act of March 2, 1895 (28 Stat., p. 808), I have to report as follows:

The drafting work of the section of illustrations of the Division of Publications is in arrears about one month, due to the inadequacy of the present force to handle the volume of business. The salaries prevailing in this section are not sufficiently large enough to attract high-class draftsmen, consequently several positions have remained vacant a large part of the time. The mailing list unit of this division is also about two months behind with its regular work. This condition is due to the fact that the mailing lists of the entire department are being revised and the work of the division takes so much time that the current work necessarily falls behind.

No employees appropriated for in one bureau or office have been detailed to another bureau or office, except those whose details are specifically authorized by law.

MATERIAL FURNISHED NAVY AND ALASKA RAILWAY COMMISSION.

In accordance with the provisions of the act approved March 4, 1915, requiring a report of the quantity and market value of earth, stone, and timber furnished from the national forests to the Navy, and for use in the construction of railways and other Government works in Alaska, you are advised that earth and stone aggregating 250,000 cubic yards, having a market value of \$12,500, was furnished from the Alaska national forests to the Alaska Railway Commission during the fiscal year ended June 30, 1921.

Timber to the extent of 4,200,000 board feet, having a market value of \$6,300, was cut on the Chugach National Forest, Alaska, during the fiscal year ended June 30, 1921, for use in the construction of railways and other Government works in Alaska.

No earth, stone, or timber was furnished from the national forests to the Navy Department for use of the Navy during the fiscal year ended June 30, 1921.

DEPARTMENT OF COMMERCE.

DEPARTMENT OF COMMERCE,
 OFFICE OF THE SECRETARY,
 Washington, September 14, 1921.

Statement of "Employees below a fair standard of efficiency," "Condition of business," and of "Details of employees."

In compliance with the act of July 11, 1890 (26 Stat., 268), it is reported that one employee, a laborer at \$660 per annum, is rated below a fair standard of efficiency.

In compliance with the provisions of the act of March 2, 1895 (28 Stat., 808), it is reported that the work of the Department of Commerce is not in arrears and that no employee of the department has been detailed from one bureau to another for the period of the entire fiscal year 1921.

Respectfully,

C. H. HUSTON, *Acting Secretary of Commerce.*

DEPARTMENT OF LABOR.

DEPARTMENT OF LABOR,
OFFICE OF THE SECRETARY,
Washington, September 12, 1921.

DIRECTOR BUREAU OF THE BUDGET.

MY DEAR GENERAL: I have the honor to transmit herewith estimates of appropriations for the Department of Labor for the fiscal year ending June 30, 1923, and on separate sheets report of employees below a fair standard of efficiency, act approved July 11, 1890 (26 Stat., 268); report of employees detailed for one year, act approved March 2, 1895 (28 Stat., 808); and report of arrearages of work, act approved March 2, 1895 (28 Stat., 808).

Cordially, yours,

JAMES J. DAVIS,
Secretary.

EFFICIENCY REPORT OF EMPLOYEES AS REQUIRED BY THE ACT OF CONGRESS APPROVED JULY 11, 1890 (26 STAT., 268).

There are no employees in the Department of Labor below a fair standard of efficiency.

REPORT OF DETAILED EMPLOYEES REQUIRED BY THE ACT OF CONGRESS APPROVED MARCH 2, 1895 (28 STAT., 808).

Employees filling the following positions have been on detail for one year:

- 1 clerk, at \$2,400 per annum, from the Employment Service to the office of the Secretary.
- 1 clerk, at \$1,200 per annum, from the Employment Service to the office of the Secretary.
- 1 clerk, at \$1,200 per annum, from the Bureau of Naturalization to the office of the Secretary.
- 1 clerk, at \$1,200 per annum, from the Bureau of Naturalization to the office of the Secretary.
- 1 clerk, at \$1,000 per annum, from the Bureau of Naturalization to the office of the Secretary.
- 1 clerk, at \$1,000 per annum, from the Children's Bureau to the office of the Secretary.
- 1 clerk, at \$1,200 per annum, from the Bureau of Labor Statistics to the office of the Secretary.
- 1 clerk, at \$1,000 per annum, from the Bureau of Labor Statistics to the office of the Secretary.

ARREARAGES OF WORK REPORT REQUIRED BY THE ACT OF CONGRESS APPROVED MARCH 2, 1895 (28 STAT., 808).

The work of the Department of Labor is not in arrears except in the Bureau of Naturalization and the Bureau of Labor Statistics. In the Bureau of Naturalization the arrearages on June 30, 1921, were as follows: The work of citizenship training was approximately five days in arrears. All other branches of the work of the bureau were practically current. In the Bureau of Labor Statistics the current work is in arrears along several lines. Computation on work done in the field in the year previous has been delayed because of the loss of 22 employees as the result of reductions suffered in the appropriation bill for the fiscal year 1922. Much of the field and office work formerly carried has been delayed or canceled. The necessity of securing the cost of living, all items considered, more frequently than in former years and of expediting the reports on changes in food prices has further made it necessary to postpone work formerly kept continuous by the bureau.

DEPARTMENT OF JUSTICE.

STATEMENT RELATIVE TO EFFICIENCY AND DETAIL OF EMPLOYEES, AND CONDITION OF WORK.

In accordance with section 2 of the act of July 11, 1890 (26 Stat. L., 268), it is reported that there are no employees in the Department of Justice, so far as officially informed, who are below a fair standard of efficiency in the work assigned them, and in conformity with section 7 of the act approved March 2, 1895 (28 Stat. L., 808), it is reported that the business of the department is not in arrears.

As required by the act of March 2, 1895 (28 Stat. L., 808), it is reported that no employees appropriated for in a given bureau or office have been detailed to another bureau or office for a period exceeding one year.

BUREAU OF EFFICIENCY.

BUREAU OF EFFICIENCY,
Washington, September 15, 1921.

The DIRECTOR BUREAU OF THE BUDGET.

DEAR SIR: With reference to the requirements of the Bureau of the Budget Circular No. 32, dated September 13, 1921, you are advised as follows:

No employee of this bureau is below a fair standard of efficiency and none is or has been on detail to other bureaus or offices. The work of the bureau is not in arrears.

Yours, truly,

HERBERT D. BROWN,
Chief Bureau of Efficiency.

UNITED STATES CIVIL SERVICE COMMISSION.

UNITED STATES CIVIL SERVICE COMMISSION,
Washington, D. C., September 14, 1921.

The DIRECTOR BUREAU OF THE BUDGET.

SIR: In reply to your circular No. 32 of yesterday's date, the commission has the honor to advise you as follows with respect to (c) statements of "employees below a fair standard of efficiency," of "condition of business," and of "details of employees":

Because of a reduction of approximately 20 per cent in its clerical force by failure of Congress to appropriate for the current fiscal year, the commission last spring and continuing to June 30, 1921, made especially careful survey of the efficiency of its employees; and reductions of force were made on the basis of the results of this survey. There are now no employees on the force of the commission below a fair standard of efficiency.

There is a slight arrearage of work in connection with recording changes in the service of Government employees; the other work is relatively current.

The commission has one clerk stenographer-typist temporarily detailed to the Joint Commission of the United States House of Representatives and the United States Senate on Postal Service.

By direction of the commission:

Very respectfully,

JOHN H. BARTLETT,
President.

COMMISSION OF FINE ARTS.

COMMISSION OF FINE ARTS,
Washington, September 17, 1921.

The DIRECTOR BUREAU OF THE BUDGET.

SIR: In connection with the annual estimates of appropriations, and in compliance with the provisions of the acts of Congress of July 16, 1892 (27 Stat., p. 199), May 1, 1913 (38 Stat., p. 3), and May 29, 1920 (41 Stat., p. 691), I have to report that the Commission of Fine Arts, by courtesy of the War Department, occupies two rooms in the Lemon Building, 1729 New York Avenue NW. In view of the increasing growth of the work of the commission, the space is not adequate. Congress has not given the commission permission, or funds, to rent quarters, but the commission earnestly hopes that necessary legislation will eventually be granted.

With regard to the act of July 11, 1890 (26 Stat., p. 268), I have to report that there are no persons employed by the Commission of Fine Arts below a fair standard of efficiency. As to the requirements of section 7, of the act approved March 2, 1895 (28 Stat., p. 808), I have to report that the business of this commission is not in arrears, and no employees have been detailed to another bureau or office.

Very respectfully,

CHARLES MOORE, *Chairman.*

ALIEN PROPERTY CUSTODIAN.

ALIEN PROPERTY CUSTODIAN,
Washington, D. C., September 19, 1921.

Hon. CHARLES G. DAWES,

Director of the Bureau of the Budget.

SIR: Referring to your circular No. 32, dated September 13, 1921, please be advised in response to your requests under section C, paragraph 1, we do not at the present time have any employees below a fair standard of efficiency; our working force having been reduced since the signing of the armistice from some 600 to about 150 employees, has given us the opportunity to weed out the less efficient and retain only those who have the highest standard of intelligence and are capable of fulfilling the duties assigned them in an especially efficient manner.

As to the condition of the business of our organization at the present time, the current work has resolved itself into something of a more or less routine nature, the work consisting of the handling and administration of the vast number of trusts and estates which it has become necessary for the custodian to take over under the trading with the enemy act. We are patiently awaiting some disposition of this property to be made by proper legislation enacted by Congress. Upon the enactment of this legislation our work will again become very active and undoubtedly require the employment of a considerable addition to our present force of employees.

In reference to the details of employees, we have been since August 1, 1919, and are yet carrying on our pay roll from 11 to 15 employees detailed to the fourth civil service district at an approximate cost of from \$15,000 to \$20,000 per annum.

Respectfully,

G. G. JOHNSTON, *Budget Officer.*

UNITED STATES EMPLOYEES' COMPENSATION COMMISSION.

UNITED STATES EMPLOYEES' COMPENSATION COMMISSION,
Washington, September 15, 1921.

The DIRECTOR BUREAU OF THE BUDGET,
Washington, D. C.

SIR: In accordance with your circular No. 32, dated September 13, the commission has to report as follows:
The commission considers that there are no employees below a fair standard of efficiency.

With the exception of field work the business of the commission is fairly well current. In regard to field investigations the commission feels that investigations have not been made as freely nor as promptly as they should have been for the best interest of the Government and the beneficiaries of the compensation act.

There are three doctors detailed to the commission from the Public Health Service.

Yours, very truly,

JNO. J. KEEGAN, *Chairman.*

SIR: In compliance with Circular No. 32 of the Bureau of the Budget, dated September 13, please be advised, in compliance with the provisions of the act of Congress approved March 2, 1895 (28 Stat., 808), that there are no employees of the board below a fair standard of efficiency and that the business of the board is not in arrears. No employees of the board are on detail to any other bureau or office.

Respectfully, yours,

E. JOS. ARONOFF, *Secretary and Chief Clerk.*

FEDERAL POWER COMMISSION.

FEDERAL POWER COMMISSION,
Washington, September 21, 1921.

The DIRECTOR OF THE BUREAU OF THE BUDGET.

DEAR SIR: Respecting the requirement of section 7 of the act of Congress approved March 2, 1895, I would state that such of the items of administration under the Federal water act as the commission has been able to undertake with its present detailed personnel are not in arrears. In the above-mentioned memorandum are outlined in detail the duties with which the commission is charged by the act and which can not be accomplished, or in some respects even assumed, with the means now at its disposal.

The commission rents no buildings within the District of Columbia, and has custody of no Government-owned buildings, quarters having been assigned for the commission's use on the first and second floors, middle wing, of the Interior Department Building. Reference in this connection is had to Bureau of the Budget Circular No. 32, of September 13, 1921.

The commission is not authorized by existing law to make employments other than its executive secretary, and therefore no details to other branches of the service have been made. This also will explain omission from this letter of the statement specified in section 2 of the act of July 11, 1890 (26 Stat., 268).

Very truly, yours,

O. C. MERRILL,
Executive Secretary, Budget Representative.

SIR: In compliance with section 7 of the legislative, executive, and judicial appropriation act approved March 2, 1895, I have the honor to state that, within the limits of the appropriations, the business of the several branches of the Government service under the direction of the Smithsonian Institution, namely, the International Exchanges, the Bureau of American Ethnology, the International Catalogue of Scientific Literature, the Astrophysical Observatory, the United States National Museum, the National Gallery of Art, and the National Zoological Park, has been conducted in a satisfactory manner, and that no arrearages exist in the current work. The usefulness of these several branches would, however, be increased should additional funds be granted.

No employees therein have been detailed from one office to another for a period exceeding one year.

I beg to report further, in compliance with the requirements of the act of July 11, 1890, that there are no employees in the above-mentioned branches of the Institution below a fair standard of efficiency.

STATE, WAR, AND NAVY DEPARTMENT BUILDINGS,
OFFICE OF SUPERINTENDENT,
Washington, September 15, 1921.

Statement as to "Employees below fair standard of efficiency," "Condition of business," and "Details of employees," fiscal year 1922.

There is no employee in this office who falls below a fair standard of efficiency. Regulations of the office provide that anyone falling below such standard shall be peremptorily discharged.

The work of this office is slightly in arrears, notwithstanding overtime work has generally been performed. This condition is due to the fact that the clerical force was reduced on July 1, 1921, and also in a measure to the fact that there is slightly more activity the first few months of a fiscal year.

There are no employees detailed to or from this office to any other office of the Government.

DEAR SIR: You are respectfully advised as follows:

This office has no "employees below a fair standard of efficiency."

The "condition of business" of this office is up to date.

No employees of this office have been detailed to another bureau or office for a period exceeding one year.

Very respectfully,

A. L. FLINT, *Chief of Office.*

GOVERNMENT PRINTING OFFICE.

GOVERNMENT PRINTING OFFICE,
Washington, September 19, 1921.

The DIRECTOR OF THE BUREAU OF THE BUDGET.

SIR: Paragraph 1 (c). The personnel of this office includes quite a number of employees who, while below a fair standard of efficiency, must be retained until adequate provision is made for replacement with thoroughly efficient persons. The list of employees who are below a fair standard of efficiency follows:

2. *Condition of business.*—Work on orders for printing and binding has fallen behind to some extent. The demands on the office at this time are heavy by reason of the present session of Congress and the work called for in connection with the revision of the tax and tariff laws; and, further, there seems to be no noticeable curtailment in the orders from departments and bureaus. There is also a decided scarcity of linotype-machine operators; the civil-service list has become exhausted, and even by employing temporaries we are not able to run our machines to full capacity. Every effort is being made to increase the efficiency of employees, and it is expected that within 60 days the work will be practically up to date. The preparation of catalogues of public documents, and the distribution of such documents, is not in a satisfactory condition. Cataloguing work is now six years behind the requirements of law because persons capable of doing the work will not accept the low salaries provided by law. In the other branches of this work there is a constant turnover of employees, also because salaries are not adequate or inviting, and it reflects in the work. Unless future appropriations relieve this condition, especially as regards cataloguers, I can not feel certain of a decided improvement.

3. *Details of employees.*—These are as follows:

UNITED STATES VETERANS' BUREAU.

UNITED STATES VETERAN'S BUREAU,
Washington, September 26, 1921.

CHARLES G. DAWES,

Director the Bureau of the Budget.

SIR: Supplemental to the estimate of appropriations required by this bureau for the fiscal year 1923, the following report is submitted:

Employees and condition of business.—Complying with the requirements of the acts of July 11, 1890, and March 2, 1895, relative to employees on the pay rolls of the bureau at this time who are below a fair average of efficiency, large reductions in personnel afford opportunity to eliminate inefficient clerks. As a rule the least efficient are released first.

The following employees have been detailed to other bureaus and offices for a period exceeding one year preceding June 30, 1921:

One verifier, salary \$1,140, detailed to Reclassification Commission.

One clerk-typist, salary \$1,500, detailed to tenth civil service district, New Orleans.

Three clerks, salaries \$1,400, \$1,320, and \$1,200, respectively, detailed to fourth civil service district, Washington, D. C.

All of these details have been made to assist the bureaus concerned in keeping the work pertaining to our bureau as nearly current as possible.

Regarding the condition of business within the bureau, all work is on as current a basis as is possible in view of the decentralization of activities, which is now in process.

Very truly,

C. R. FORBES,
Director United States Veterans' Bureau.

GENERAL ACCOUNTING OFFICE.

GENERAL ACCOUNTING OFFICE,
Washington, September 30, 1921.

Hon. CHARLES G. DAWES,

Director of the Bureau of the Budget.

SIR: In response to Budget Circular No. 32, dated September 13, 1921, I have the honor to submit the following information:

There are no employees in the General Accounting Office who are below a fair standard of efficiency.

With reference to details of employees, there are at this time no employees who have been formally detailed to or from the General Accounting Office. However, in view of the provision of the general accounting act of June 10, 1921 (sec. 304), transferring to the General Accounting Office the "duties of the Division of Bookkeeping and Warrants of the office of the Secretary of the Treasury relating to keeping the personal ledger accounts of disbursing and collecting officers," without at the same time transferring the personnel engaged upon the work of keeping said accounts, the bookkeepers heretofore engaged upon this work in the Secretary's office have by common consent been retained until such time as the work can be taken over by bookkeepers of the General Accounting Office. The number of bookkeepers at this time carried on the rolls of the Secretary of the Treasury and engaged on the personal ledger accounts in this office is six, of whom three will be relieved not later than October 15, 1921, and the remaining three will be relieved as soon as possible.

With reference to the condition of business in the General Accounting Office, the following statement is submitted:

Office of the Comptroller General.—The business of the office of the Comptroller General is current, but the budget and accounting act of June 10, 1921 (sec. 312), imposes upon this office certain duties, the performance of which we have been unable to develop beyond a beginning up to this time because of lack of appropriation to employ the necessary personnel. Among the activities in mind when we can have an appropriation for this personnel is an inspection force or unit, which will investigate especially and report upon matters relating to the work of the several departments and establishments of the Government at Washington and elsewhere. It has not been considered possible to withdraw a force from the several auditing divisions of the office for this purpose because of the pressure of work in said division.

Treasury Department Division.—In the Customs Section the work is in fairly good condition. There are, however, about 30 accounts greatly in arrears, which are being held up on account of legal entanglements. In the Internal Revenue Section the work is somewhat behind, principally on account of previous administrative action. In the Miscellaneous Section the work is in arrears and the volume of work received monthly is on the increase. In the Veterans' Bureau (formerly War Risk) Section the condition of the work has been in a very unsatisfactory condition. However, the force was recently augmented by making new appointments and by detail of clerks from other divisions of the General Accounting Office, and to-day conditions are greatly improved. The auditing of accounts is considerably behind, but the matter of handling the checks and answering calls of the Veterans' Bureau is approximately current. In the interest check subsection of the Veterans' Bureau Section the work is very much in arrears. Approximately 10,000,000 checks are on hand, unsorted, and out of the file, and to bring this work up would require the services of 50 low-grade clerks for the next four months. The facts are, the work of the Treasury Department Division can not be made current with its present force, and our appropriation will not permit the employment of the necessary additional force.

War Department Division.—The work in this division is nearly current so far as it relates to accounts and civil claims. Military claims are greatly in arrears, and the services of 50 additional clerks could well be utilized at this time in making transcripts and settling military claims. In the near future it will be necessary to provide an additional force of about 30 low-priced clerks for the repair of pay rolls used in the World War service, many of which are badly mutilated and almost unserviceable on account of constant use by clerks of this division, the War Department, and the War Risk Bureau. These pay rolls are absolutely necessary for checking and reporting on claims and should be preserved in the best possible condition for future use. Twenty-five additional low-class clerks are also urgently needed to record on the final pay cards the payments of bonuses made to soldiers by the War Department.

Navy Department Division.—In the Accounts Section the work is somewhat in arrears. A gain has been made since July 1. In the Claims Section there are on hand nearly 5,000 claims and their volume is steadily increasing. More claims are being received monthly than can be settled by our present force.

Interior Department Division.—The condition of work in this division is in arrears, especially the accounts of fiscal officers of the Indian Service, which are from six to eight months behind. Other accounts of this division, especially public lands, are from four to six months in arrears.

State and Other Departments Division.—The work in this division is nearly current, with the exception of the Diplomatic and Consular Section. In this section the arrearage is due to the long delay in receiving the accounts from the State Department, the question of exchange rates due to war conditions, and the delay in receiving information from foreign countries. About 600 accounts are in arrears.

Post Office Department Division.—At present the work of this division is almost current. However, the postal accounts for the quarter ending June 30, 1921, have not been received by the General Accounting Office from the Post Office Department. The department advises that it will be late in October when these accounts can be delivered, and when received it will require the services in that division of approximately 30 additional high-grade clerks to properly audit them.

It should be borne in mind that the General Accounting Office must operate during the present fiscal year with an appropriation nearly \$700,000 less than was given by the Congress for the same work last fiscal year, and when it is considered that we had on hand July 1 last an abnormal amount of work, have received an extra large amount each month since, and in addition thereto have been compelled to reduce our working force by hundreds of clerks, to keep our expenditures within the limits of appropriations made by the Congress, the difficulties we are encountering will be understood.

Respectfully,

Read and approved.

LURTIEN R. GINN,
Budget Officer and Assistant Comptroller General.

J. R. McCARL,
Comptroller General.

UNITED STATES RAILROAD LABOR BOARD.

STATEMENT TO ACCOMPANY ANNUAL ESTIMATE OF APPROPRIATIONS PREPARED IN ACCORDANCE WITH DIRECTIONS CONTAINED IN BUREAU OF THE BUDGET CIRCULAR NO. 32 FOR THE FISCAL YEAR ENDING JUNE 30, 1923.

1. *Employees below a fair standard of efficiency.*—The employees of the Railroad Labor Board are selected, with the exception of "excepted positions," as required by law, from certified lists furnished by the Civil Service Commission. The major portion of the positions require special qualifications, the most important of which is railroad experience, made necessary due to the technical and practical knowledge required in handling the work of the Labor Board. The efficiency of the service has not been impaired by excessive separations from the service or any noticeable discontent among the employees. A careful examination has been made to determine both the quantity and quality of the output of the employees, with the result that none of the employees now in the service can be justly classed as "below a fair standard of efficiency."

The board has been especially gratified by the willingness of its employees to refrain from requesting annual leave during periods when great accumulations of work require their presence. Our yearly report giving a summary of annual and sick leave for the calendar year 1920 shows the average accrued annual leave for each employee to be 13.1 days, while only 3.9 days per employee were taken. The sick-leave figures are even more exemplary; the accrued leave, based on an allowance of two and one-half days per month, averaged 13.1 days, while time absent on account of illness averaged only 1.6 days for each employee.

2. *Condition of business.*—That the exact situation of the work of the United States Railroad Labor Board may be clearly understood, reference should be made to the transportation act, 1920, and its provisions as to the nature and character of the work that comes before the board and the manner in which the board is required to handle such work.

While the board is required to investigate and study the relations between carriers and their employees, and gather, compile, and classify, digest, and publish, from time to time, data and information relating to such questions, its main function is to hear and decide disputes between the carriers and their employees and subordinate officials.

The act prescribes the nature and character of the disputes to be heard and how and by whom they shall be brought before the board, and when so brought the board is required to hear and decide them. It is also expressly provided that any party to any dispute to be considered by the board shall be entitled to a hearing in person or by counsel. The law requires all such disputes to be decided by the board sitting as one tribunal, and every decision must have the concurrence of at least five of the nine members of the board.

The board, by dividing its membership into three bureaus, each consisting of one member from each group, and by providing for committees and special examiners, has done all that it considered practicable in hastening and preparing cases for consideration and decision of the entire board. But there is a limitation on the number of cases, whatever the preparation, that the board can with a clear understanding hear and decide.

At the time of the creation and organization of the board—which was one and one-half months after the termination of Federal control—there immediately came before it a very large accumulation of business growing out of differences between the carriers and their employees involving disputes as to wage adjustments long delayed and as to rules and working conditions, particularly involving changes and rules established during the war period. These disputes involved a large number of carriers and, in round numbers, two millions of employees, and also vast amounts of money. They were and are matters of the gravest character, of the most complex nature, of far-reaching effect, and requiring the most careful consideration.

The disputes as to rules and working conditions involve so many rules, so many classes of men, and so many conditions, that the hearings on these subjects have required the board to receive and consider a vast volume of evidence submitted by the parties, and it has had continuously under consideration, so far as it possibly could give time thereto, disputes of this character, many of which yet remain undecided, but which are being disposed of as rapidly as possible. These disputes were remanded for conference between the representatives of the several carriers and their subordinate officials, the board prescribing certain principles and regulations as to the method of securing and holding proper conferences, and requiring the results of such conferences and the disputes arising therefrom to be reported back to the board for its final action and decision.

Differences between these parties and the failure of both interests in many instances to promptly comply with the directions and regulations of the board has resulted in considerable delay in the settlement of these disputes. To this extent and for these causes this character of work, which is only partially properly before the board, may be said to be in arrears or still undisposed of. A number of these disputes are properly before the board, but for lack of time since they were presented have not yet been finally disposed of. But none of this work can properly be said to be in arrears on account of the office force of the board, though it may be said if this work had been promptly and properly presented by the parties it might have required an addition to our forces to secure prompt disposal.

In addition to the disputes involving the larger questions of wage increases and decreases and of rules and working conditions, the act provides for the hearing of disputes as to grievances. These, generally speaking, constitute a class of cases founded largely on alleged claims of violations of rules and agreements resulting in injury or injustice to individual employees.

In this connection, it should be noted that the transportation act provided for the creation and organization of adjustment boards before which it was obviously contemplated that most of such cases would be brought for settlement. The creation and organization of such boards was, however, left by the act of Congress to agreements to be arrived at by and between the carriers and the representatives of the employees. While the board is informed that some adjustment boards are likely to be organized in the manner indicated by Congress, so far the board has no official notice that any such boards have been entirely organized or commenced to function. The result has been that a large number of such cases have been brought or attempted to be brought before the Labor Board, resulting in the accumulation of a large amount of business of this character that may be said to be somewhat in arrears. The records of the board show that many of these cases are without merit and might well have been withheld from submission. In many instances where attempts have been made to bring these disputes before the board for decision the parties have failed to comply with the provisions and requirements of the transportation act and the rules of the board relating to necessary preliminary conferences and other requirements. This has entailed a great amount of work on the office force and this character of work may be said to be in arrears so far as its final disposition is concerned, but this is mainly due to the negligence and delay of parties in failing to properly and promptly prepare and present their cases rather than to the failure of the office force to have their work up to date. It must be said, however, that the number of this character of cases—due mainly to the failure of the parties to create and organize the adjustment boards—has been so great that the board has not yet found time, aside from its more important and pressing business, to consider and decide all the cases now ready for its action. The failure of the parties to properly prepare these cases has severely taxed the time of the office force, which the board in the interest of economy has endeavored to prevent increasing, and this work may be said to be somewhat in arrears and will call for an increase of force unless the board is relieved by the organization of adjustment boards.

A comprehensive idea of the work of this kind and its present condition may be derived from the following statement:

On hand in docket department in course of correspondence.....	932
Referred to bureaus by docket department.....	340
Referred to full board by docket department.....	35

With respect to clerical work required in the routine handling of cases within the office, the record shows that there are approximately 1,700 pages of submissions to be stenciled, proof read, mimeographed, and assembled.

In addition to the adjustment of disputes, the transportation act, 1920, provides that the Labor Board—

Shall investigate and study the relations between carriers and their employees, particularly questions relating to wages, hours of labor, and other conditions of employment and the respective privileges, rights, and duties of carriers and employees, and shall gather, compile, classify, digest, and publish, from time to time, data and information relating to such questions, to the end that the Labor Board may be properly equipped to perform its duties under this title and that the members of the adjustment boards and the public may be properly informed. (Sec. 308.)

The amount of routine work required of the statistical forces in connection with the current work before the board has prevented the gathering of all the information considered desirable on the subjects cited in the transportation act. The board, however, has had access to information and data that were available or could be gathered

from the various Federal departments dealing with these subjects, from the labor and industrial departments of the several States, and from reports and statistics gathered by many civic bodies and private bureaus and institutions working along these lines. There is no precise program that can be adopted and no practicable limitation that has been or can be fixed for this character of work. It can not be definitely said, therefore, that the board is in arrears in this work, but, if funds were available, the board realizes that this kind of work might with great profit and benefit to the board and to the entire country be greatly extended.

3. *Details of employees.*—There have been no employees of the Labor Board detailed to another bureau or office for a period exceeding one year.

In this connection, however, you are advised that the Labor Board had one employee detailed for three months during 1920-21 with the Civil Service Commission, Chicago, Ill., and at the present time the board is paying \$25 per month on the salary of an examiner in the Civil Service Commission.

¹ The assessor for the District of Columbia reports that "The assessment amounts are those of the year 1919 and 1920, and in order to arrive at the basis of assessment 50 per cent will have to be added to the assessment amounts, which will give the full value used by the assessors. The assessment of improvements are based on the approximate cost of the buildings, allowing for some little depreciation, but have no relation to the present high price of building construction. The assessments on ground are based on the values of surrounding lots or parcels, with some allowance as to the advantage of the property being held in a large parcel."² Exclusive of cost of watch force.³ Including cost of watch force.

PAY OF QUARTERMEN AND LEADINGMEN.

1. The pay of quartermen and leadingmen shall be \$0.30 and \$0.15 per hour more than the maximum pay for their occupation or trade.

GENERAL INSTRUCTIONS.

2. The schedule indicates the maximum rate of pay. The intermediate shall be \$0.05 per hour less than the maximum and the minimum shall be \$0.05 per hour less than the intermediate, except in the case of apprentices, brakemen, switchmen, and powder factory attendants.
3. The labor board shall accept applications only for such ratings hereon, as may be necessary for the conduct of work of the yard. The commandant, or other officer in charge, shall judge and decide as to the necessity for the use of any rating on the schedule of wages.
4. No employee shall be carried in any rating shown hereon unless he actually performs the usual and ordinary duties of the rating.
5. All ratings are open to both males and females.
6. The total number of supervisors in any navy yard or station as a whole shall not exceed one-twelfth of the number of artisans. In the supervisory force thus provided, leadingmen, quartermen, foremen, superintendents, and various assistant superintendents, master mechanics, and general master mechanics are to be included.
7. No apprentice sewers shall be employed.
8. Artisans detailed for duty as loftsmen shall be allowed the rate of pay therefor, in lieu of the rate of pay for their trade, without change of rating through the labor board, where such procedure is deemed more advantageous or desirable.
9. All employees holding the rating handyman to be rerated to an appropriate helper rating in consideration of their experience and qualifications, and that such, as in the judgment of the commandant or other officer in charge, are qualified for a mechanic's rating, be examined non-competitively by the labor board and rerated to an appropriate mechanical or other rating.
10. There shall be only one rate of pay for brakemen and switchmen; i. e., the rate shown hereon.
11. There shall be but one gardener employed at any navy yard or station.
12. Such employees holding the rating of electrician, radio, who, in the judgment of the commandant, or other officer in charge, possess the requisite qualifications and experience and whose services are desirable and necessary shall be rerated to assistant radio inspectors, subject to the final approval by the Civil Service Commission. All cases so handled will be covered by a special report to the department accompanied by acceptance, oath of office and civil service Form No. 375 of the employees.
13. Employees now rated as pile drivers, who are performing pile-driving work, i. e., in charge of the portable stationary engine, will be rerated to enginemen.
14. Members of the supervisory mechanical force shall not receive any allowance in addition to their regular daily rate of pay, except as provided for in footnotes 20 and 21.
15. All employees in any trade regularly designated as leadingmen, where there is not a sufficient number of employees in the trade to warrant regular appointment of a leadingman, shall receive an additional allowance of \$0.05 per hour.

DIVERS.

16. Divers shall be paid the rate of pay indicated hereon for the rating only while actually engaged on diving work.

PAY OF NAVAL HOSPITAL EMPLOYEES.

17. The pay of employees at naval hospitals shall be upon a monthly basis and, except for the period covered by the terms of ALNAVSTA 3, shall be computed by multiplying the hourly rates shown hereon by 208. For the period covered by the terms of ALNAVSTA 3, the rates shown hereon should be multiplied by 176. Leadingmen and quartermen shall not be allowed at naval hospitals. Where rating of chief mechanic has been allowed the pay will be 15 cents per hour over the maximum rate for basic trade. Assistant chief mechanic, head mechanics, head motor mechanics, head laborers, etc., will be allowed 5 cents an hour over the maximum rate for their trade or occupation where rating has been allowed. Abolish the rating head farmer and rerate to head laborer. Rates of pay for all employees at hospitals shall be made to accord with the schedule of wages above.

PAY OF POWDER FACTORY ATTENDANTS.

18. Maximum, \$0.67; intermediate, \$0.62, \$0.57, \$0.52; minimum, \$0.47.

ADDITIONAL ALLOWANCES.

19. No allowance in addition to the regular hourly rate of pay indicated hereon shall be allowed unless specifically authorized by the department.
20. Employees who are assigned to a regular shift whose whole time or any part thereof is between the hours of 6 p. m. and 7 a. m., shall be allowed \$0.05 per hour in addition to their regular hourly rate of pay for work performed between the hours mentioned.
21. All employees who are citizens of the United States and are sent from the continental limits of the United States to the naval operating base, Pearl Harbor, Hawaii, shall be allowed \$0.12 per hour in addition to the regular hourly rate of pay for their occupation or trade as shown hereon.
22. All mechanics detailed to flying in connection with testing apparatus or appliances on aircraft or in testing out aircraft shall be allowed 50 per cent additional to their hourly rate of pay for the day they fly and shall fly only on the approval of the commandant, or other officer in charge. No employee shall fly without such authority, secured in advance for each flight.
23. Artisans engaged in testing tanks and rivets shall be allowed \$0.05 per hour in addition to their regular hourly rate of pay. This includes artisans of the shipfitters' trade, such as shipfitters, calkers and chippers, iron, riveters, but does not include machinists, outside, employed in testing valves in tanks, or plumbers employed in testing plumbing work in tanks for water tightness.
24. Employees engaged in the application of bitumastic composition shall be allowed \$0.05 per hour in addition to their regular hourly rate of pay.
25. Layers-out shall be allowed \$0.05 per hour in addition to their regular hourly rate of pay while actually engaged on such work. Layers-out are mechanics who lay out work direct from blue prints for other men to machine. This does not apply to mechanics whose use of blue prints is limited to the laying off of their own work or some portion of it from blue prints and does not apply to employees whose regular daily rate of pay is based on the character of work that they perform.
26. Laborers, common, employed in sealing ships' double bottoms, fuel-oil tanks, and other closed compartments of a similar character as regards filth and lack of ventilation shall be allowed \$0.03 per hour in addition to their regular hourly rate of pay.
27. Laborers, common, detailed for duty in cold-storage compartments of refrigerating plants shall be allowed \$0.05 per hour in addition to their regular hourly rate of pay.
28. Sewers at the New York Navy Yard, when assigned to the work of cutting in the flag loft, shall be allowed \$0.05 per hour in addition to their regular hourly rate of pay.
29. Competent helpers shall be assigned to operate light cranes with an additional allowance of \$0.05 per hour. A competent mechanic should be assigned to operate cranes handling material liable to endanger lives of workmen.
30. Employees rated as plumbers or pipefitters assigned to lead burning work shall be allowed \$0.20 per hour additional to their regular daily rate of pay while actually engaged upon such work.
31. Electricians regularly assigned to the work of repair and adjustment of gyro-compasses shall be allowed \$0.05 per hour in addition to their regular hourly rate of pay, as shown hereon.

APPENDIX K.

OFFICE OF THE AUDITOR OF THE DISTRICT OF COLUMBIA,
Washington, September 15, 1921.

To the DIRECTOR OF THE BUDGET:

The Commissioners of the District of Columbia transmit herewith the estimates of appropriations of the District of Columbia for the fiscal year to end June 30, 1923.

The District of Columbia appropriation act for the fiscal year 1910, approved March 3, 1909, provides:

Hereafter the Commissioners of the District of Columbia shall not submit, nor shall the Secretary of the Treasury transmit to Congress, regular estimates for expenses of the government of the District of Columbia for any fiscal year that shall exceed in the aggregate a sum equal to twice the amount of the total estimated revenues of the District of Columbia for such fiscal year. Said estimates shall take into consideration and embrace all charges against the said revenues arising under appropriations other than the regular District of Columbia bill.

The estimated revenues of the District of Columbia for the fiscal year to end June 30, 1923, are \$15,085,315. From this amount must be deducted estimated expenditures for extension of streets and avenues, refunding taxes, and payment of police and firemen's pensions, which amount in the aggregate to \$340,000, leaving the net estimated revenues \$14,745,315. Twice this amount, or \$29,490,630, therefore, represents the maximum which the District estimates may not exceed. Provision is made for estimates which appear in the sundry civil, and legislative, executive, and judicial appropriation bills for 1923, amounting to \$1,415,030, as follows:

Connecting parkway between Rock Creek and Potomac Parks.....	\$200,000.00	National Zoological Park.....	\$136,000.00
Bridge across Potomac River at Georgetown.....	320,000.00	Columbia Hospital for Women and Lying-in Asylum....	20,000.00
Improvements and care of public grounds.....	477,740.00	Salaries and expenses, court of appeals.....	42,410.00
Salaries of employees, public buildings and grounds.....	136,280.00	Salaries, Supreme Court, District of Columbia.....	52,100.00
Lighting public grounds.....	30,000.00	Total.....	1,415,030.00
Burial of indigent soldiers.....	500.00		

The amount of the estimated appropriation fund available for the estimates of the commissioners is \$28,075,600. The aggregate of the estimates herewith submitted is as follows:

Chargeable to the general revenues.....	\$27,537,723.75
Chargeable to the water fund.....	1,240,900.00
	28,778,623.75

In compiling their estimates the commissioners were confronted with requests for increased appropriations and added improvements which in the aggregate were far in excess of the amount which the commissioners are permitted by law to submit. These increases were due in part to the fact that much necessary work of improvement was deferred during the three-year period beginning with the entrance of the United States into the World War.

A very important feature of the estimates is the proposed increase in the salaries of statutory employees. This, the commissioners feel, should receive the fullest consideration if the efficiency of the organization is to be maintained and justice done to a large body of faithful and efficient employees. Within the past two years the officers and members of the police department, fire department, and the officers and teachers of the public schools have received material increases in salaries. The group of per diem employees, including laborers and mechanics, have had their wages adjusted from time to time by the District wage board to meet current conditions. But for the group of employees for whom salary increases are recommended by the commissioners there has been no substantial change in the salary scale, with the exception of the bonus, during the past 40 years.

The commissioners append hereto the estimates for the public schools for 1923 in the exact form in which those estimates were submitted to them by the board of education; also the estimates of the Board of Charities.

The commissioners transmit herewith a copy of the estimate of the general revenues for the fiscal year 1923, a statement showing the estimated general appropriation fund of the District of Columbia for the fiscal year ending June 30, 1923, a list of rented buildings, and the estimates for permanent and indefinite appropriations of the District of Columbia for the fiscal year 1923.

The expenditures of the District of Columbia for the fiscal year to end June 30, 1922, are estimated at \$22,275,062.99, and for the fiscal year to end June 30, 1923, at \$25,070,877. These estimates include appropriations and trust and special funds. The estimate for the fiscal year 1923 is based upon the total amount of the estimates of appropriations submitted by the commissioners to the Director of the Budget herewith, as subsequently revised.

Very respectfully,

D. J. DONOVAN,
Budget Officer, District of Columbia.

For rent of school buildings and grounds, repair shop, storage and stock rooms, \$16,500.....	16,500.00		For the maintenance of schools for tubercular pupils, \$5,000.....		5,000.00
For rent of school buildings and grounds, repair shop, storage and stock rooms, \$20,000.....		20,000.00	NOTE (by board of education).—This is a new item. The increased number of pupils attending the tubercular schools and the efforts on the part of the board of education to provide more adequately for their physical welfare in the way of lunches has during the past year diverted too much of the appropriation, originally intended not entirely for tubercular children, but for children in other specialized classes. Over \$500 has been donated for the expenses of these schools during the past school year over and above the appropriations made by Congress.		
NOTE (by board of education).—An increase of \$3,500. The increase in enrollment brings constant demand for the rental of properties to provide temporary accommodations for the schools until buildings can be erected.			For equipment and furnishing of schools for tubercular children, \$9,000.....		9,000.00
			For extending the equipment of the Harrison School for tubercular children.....		7,000.00

COMMUNITY CENTER DEPARTMENT—continued.			BUILDINGS AND GROUNDS—continued.		
For salaries of directors, supervisors, teachers, clerks, and other employees for civic, educational, recreational, and social activities under the direction of the Board of Education; for payment of janitor service; for equipment, supplies and pianos; for lighting and fixtures; for maintenance of automobile. Employees of the day schools may also be employees of the Community Center Department; in all \$35,000: <i>Provided</i> , That not more than 60 per cent of this sum shall be expended for salaries of directors, supervisors, teachers, and clerks.		\$35,000.00	The board of education has listed the items under special heading according to which the board desires hereafter to present its requests for appropriations for the development of its comprehensive building program. <i>Obligated appropriations.</i> —Obviously these items must be provided for first since they constitute a preferred list of items. <i>Completion of building developments already initiated.</i> —These items are second in consideration only to those which have been legally obligated for. In this list those items are carried for which some appropriations have previously been made. <i>New items in the development of the comprehensive building program.</i> —Under this heading the board of education lists new items for school buildings and new items for sites for early use in schoolhouse construction. <i>Needed extensions of school yards for playground purposes.</i> —The board of education desires to adopt a policy of incorporating in its estimates certain items which have to do with the modest extension of present school yards and playgrounds. This item is by no means least in importance although it is placed last. Much care has been exercised in the allocation of appropriations between the divisions 1 to 9 and divisions 10 to 13 of the school system. In so far as the needs of the respective divisions are equal an allocation of funds has been made in accordance with a division of \$2 for divisions 1 to 9 to \$1 for divisions 10 to 13.		
NOTE (by board of education).—Request is made for addition of pianos to equipment.

Second assistant engineer.....	480.00	960.00	Building and equipment for ice making and refrigeration.....		7,500.00
Nurse.....	600.00	840.00	NOTE.—The proposed plant is to furnish ice and refrigeration for the Home for Aged and Industrial Home School for Colored Children, with a combined population of inmates and employees of about 500 persons. The present ice plant is a small plant which was installed 15 years ago. It is badly worn and is expensive to maintain and is inadequate for the present needs. Since this plant was installed the population of the two institutions has increased about 40 per cent and the development of the farm provides a large amount of meat and meat products, for the proper preservation of which refrigeration is necessary.		
2 male attendants, at \$360 each.....	720.00	1,680.00	Farm tractor with equipment.....		1,000.00
2 male attendants, at \$340 each.....			NOTE.—Since the motorizing of the fire department the institution can no longer secure the number of horses necessary for its work. Also the difficulty in securing good farm labor demands labor-saving machinery.		
2 nurses, at \$360 each.....	720.00	1,680.00	For Ford motor express.....		700.00
2 nurses, at \$340 each.....	600.00	1,680.00	NOTE.—The institution is 2 miles beyond the end of the car line, and the truck is needed to carry passengers back and forth. It is also needed to transport supplies.

Total for salaries.....	11,880.00	25,960.00	For care of adults, at \$2 per day:		
For groceries, provisions, light, fuel, soap, oil, lamps, candles, clothing, shoes, forage, horseshoeing, medicines, medical attendance, hack hire, transportation, labor sewing machines, fixtures, books, stationery, horses, vehicles, harness, cows, pigs, fowls, sheds, fences, repairs, typewriting, stenography, and other necessary items, including compensation not exceeding \$500 for additional labor or services, for identifying and pursuing escaped inmates and for rewards for their capture, and for transportation and other necessary expenses incident to securing suitable homes for paroled or discharged girls, not exceeding \$150, and for maintenance of motor vehicles....	22,500.00	30,000.00	Estimated, 1923.....	\$17,000.00	
NOTE.—In view of the increasing number of girls and the fact that it cost \$30,000 for maintenance last year, it would not be possible to maintain the school for a less amount.			Estimated, 1922.....	13,000.00	
For two additional buildings.....		62,000.00	Expended, 1921.....	15,000.00	
NOTE.—This school is unable to accommodate the number of girls committed to it by the courts. The school has been forced continually to parole its inmates, frequently before they were ready for parole, in order to be able to receive more urgent cases as committed. It is proposed to build two additional cottages similar to that recently completed at a cost of \$35,000. The municipal architect estimates that such cottages can now be built for \$31,000 each.			Garfield Memorial Hospital.....	13,000.00	17,000.00
For purchase of automobile bus.....		1,000.00	NOTE.—The increase amount will be necessary to provide for patients who need care.		
NOTE.—This institution is located about 8 miles from the center of the city. It is necessary to bring girls to and from courts, House of Detention, etc. Frequently it is necessary that these girls should be handcuffed, and that ought not to be done on the street cars. There is also much need for a vehicle on account of transportation of small marketing purchases of supplies, because the merchants' deliveries are infrequent on account of the distance.

Balance.....			22.00			NOTE.—The nurses and other employees of the hospital now have to sleep in the hospital building proper, and it is exceedingly desirable that there should be a separate building for them to live in. It is proposed to erect a two-story building which will provide accommodations for 14 nurses and 3 or 4 doctors, containing necessary dining room, kitchen, etc. The erection of such a home would make available for the care of additional patients 16 rooms in the hospital building which are very much needed. Frequently there is a waiting list of patients seeking admissions. These small rooms that would be vacated by the nurses are very much desired for the isolation of some of the more serious cases that must be cared for in the large wards.

NOTE.—Night watchman.—Up to the current year the position of night watchman has been carried in the appropriation act, but the position has not been filled for the last three years because of the great reduction in the number of men cared for, and the Board of Charities therefore recommended position be dropped. During the year 1921, however, the number cared for was more than double the number cared for the previous fiscal year, and it is certain that the number will be still further increased, and the services of a night watchman will again be necessary.					
Maintenance.—An increase in the maintenance appropriation is asked because of the expected increase in population. In 1920, 1,741 men were given lodgings. In 1921, 3,833. The indications now are that a very much larger number will have to be provided for in 1923.
