MESSAGE.

TO THE CONGRESS OF THE UNITED STATES:

I submit herewith the budget of the United States for the fiscal year ending June 30, 1923. It will be noted that the estimated ordinary expenditures for 1922 show a reduction of \$1,513,537,682.20, compared with the actual ordinary expenditures for 1921; and that the estimated ordinary expenditures for 1923 show a reduction of \$447,704,239 under 1922, making the estimated ordinary expenditures under the budget for 1923, \$1,961,241,921.20 less than the actual ordinary expenditures for 1921. Including transactions in the principal of the public debt and investment of trust funds, the total estimated expenditures for 1922 show a reduction under the total actual expenditures for 1921 of \$1,570,118,323.30, and the total estimated expenditures for 1923 show a reduction of \$462,167,639 under the total estimated expenditures for 1922, making a reduction in total expenditures in the estimated budget for 1923, as compared with the total actual expenditures for 1921, of \$2,032,285,962.30. It will also be noted that the total estimated receipts for 1922 are in approximate balance with the total estimated expenditures, including reduction in the principal of the public debt, and that the total estimated receipts for 1923 are within approximately \$150,000,000 of a balance with the total estimated expenditures of that year. Such a discrepancy is unavoidable, when authorizations of expenditure are being enacted during the process of budget closing, but ways are provided for relatively easy adjustment without added taxation.

For the purpose of providing a portion of the funds necessary to balance the budget for 1923, in which the estimated expenditures exceed the estimated receipts by the sum of approximately \$150,000,000, I recommend the following legislation in connection with the naval appropriation bill for 1923, which would result in the eventual automatic release of \$100,000,000 now held in the naval supply account of the Navy Department:

"Hereafter, until the naval supply account shall have been reduced to a maximum sum of \$150,000,000, which shall not thereafter be exceeded, one-half of all reimbursements otherwise due to the naval supply account, whether from current issues or from sales, shall be covered into the Treasury as miscellaneous receipts, and only one-half shall be credited to the naval supply account."

With continued pressure for economy in all departments and the passage of such legislation, the balancing of total receipts and total expenditures for the fiscal years 1922 and 1923 should be accomplished.

I also transmit herewith the report of the Director of the Bureau of the Budget on the budget of the United States and the operations of the Bureau of the Budget.

The details of the budget are shown in the accompanying statements, and may be briefly summarized as follows:

Budget Summary.

[Exclusive of postal revenues and postal expenditures paid from postal revenues.]

	1923, estimated.	1922, estimated.	1921, actual.
Total receipts.....	\$3,338,182,750	\$3,943,453,663	\$5,624,932,960.91
Total expenditures, including reduction in principal of public debt.....	3,505,754,727	3,967,922,366	5,538,040,689.30
Excess of expenditures.....	167,571,977	24,468,703
Excess of receipts.....	86,892,271.61

WARREN G. HARDING.

THE WHITE HOUSE,
December 5, 1921.

REPORT OF THE DIRECTOR OF THE BUREAU OF THE BUDGET TO THE PRESIDENT OF THE UNITED STATES.

The PRESIDENT.

SIR: I transmit herewith a report on the budget of the United States for the fiscal year ending June 30, 1923, in accordance with section 209 of the budget and accounting act, and a general report on the operations of the Bureau of the Budget.

Budget summary.

[Exclusive of postal revenues and postal expenditures paid from postal revenues.]

	1923 (estimated).	1922 (estimated).	1921 (actual).
Total receipts.....	\$3,338,182,750.00	\$3,943,453,663.00	\$5,624,932,960.91
Total expenditures (including reduction in principal of public debt).....	3,505,754,727.00	3,967,922,366.00	5,538,040,689.30
Excess of expenditures.....	167,571,977.00	24,468,703.00	
Excess of receipts.....			86,892,271.61

¹ See note 1.

NOTE 1.—By continued pressure for economy and if the recommended legislation in connection with the naval appropriation bill for 1923, directing the reduction of the naval supply account in the sum of \$100,000,000, is enacted, it is estimated that funds will be provided to balance the budget for 1923 as above.

NOTE 2.—In 1923 war savings certificates of the par value of \$585,000,000 will become due. It is assumed that these maturities will be met by refunding. Since these notes were discounted at the time they were sold, by prepayment of interest, the Government did not realize par upon the same to the extent of \$125,000,000. It would be consistent, therefore, with conservative business principles if the amount of the discount should not be permanently funded but should be retired as soon as possible out of surplus income.

NOTE 3.—To reconcile these totals with those shown in the Treasury Report it is necessary to add to the above figures for both receipts and expenditures for the fiscal year 1922 the sum of \$25,000,000, and for the fiscal year 1923, \$7,000,000, on account of reduction of capital stock of the United States Grain Corporation. This transaction occurred after the preparation of the statement of estimated expenditures for the fiscal year 1922, made by the Secretary of the Treasury August 4, 1921, amounting to the sum of \$4,550,000,000.

Summary of budget expenditures for 1923, estimated expenditures for 1922, and actual expenditures for 1921, exclusive of Postal Service expenditures paid from postal revenues.

	Estimated budget expenditures, 1923.	Estimated expenditures, 1922.	Actual expenditures, 1921.

The total estimates of appropriations for the fiscal year 1923 were prepared under Executive pressure, continually exerted for retrenchment wherever consistent with efficiency, and as originally presented to the Bureau of the Budget amounted to \$3,923,919,970.48, which includes \$586,532,950 payable from postal receipts. The final revision by the Bureau of the Budget, after impartial examination and consideration of the items, led to a further reduction of \$122,806,310.95, which was accepted by the departments, leaving the estimates as finally determined upon and contained in the budget at \$3,801,113,659.53. These figures include sinking fund, other reductions of the public debt, interest on the debt, and Postal Service payable from postal revenue.

The estimates of appropriations as contained in the budget for the fiscal year 1923 are exhibited in detail, by departments, as follows:

Comparative statement of estimates of appropriations for 1923 and appropriations for 1922.

USE OF THE BUREAU OF THE BUDGET BY THE PRESIDENT AS AN AGENCY
FOR IMPOSING AN EXECUTIVE PLAN IN ROUTINE BUSINESS OF GOV-
ERNMENT.

Concurrently with the establishment of the Bureau of the Budget the President announced his determination to assume his full responsibility as the head of the governmental business organization, and directed the Director of the Bureau, in accordance with the provisions of the budget law, to immediately suggest to him such improvements in existing governmental business methods as could be legally inaugurated by him through Executive orders. Upon the submission to him of information revealing certain defects the President decided to use the Bureau of the Budget as his first agency for imposing the pressure of an Executive plan for the unified conduct of governmental routine business and for retrenchment in governmental expenditure where consistent with efficiency. Coincident with this also came his consideration of the principles, customs, and precedents which should accompany the creation by Executive order of appropriate machinery designed to create a situation in the affairs of the Government business corporation such as exists in every well-managed private corporation where the head can transmit with the minimum of obstruction and delay a unified plan of routine business to be carried out by his subordinates.

The President then followed the only possible course by which, as in a private corporation, all those in authoritative relation to expenditures of Government could be impressed with an Executive plan, and on June 29, 1921, called them en masse for instruction.

At this meeting, attended by the Cabinet and some 500 department heads, heads of establishments, and bureau chiefs, he outlined his position, and under his instructions and in his presence the Director of the Budget explained the methods to be followed in carrying out his purpose. As a result of this meeting at the end of 30 days a reduction in expenditures for the present fiscal year (1922) was promised the Executive by the business organization in the amount of \$112,512,628.32. A part of this sum was expected to be realized by actual economies and part by the deferring of expenditures to subsequent years. In this connection it should be stated that there will never be expended during a fiscal year all of the moneys appropriated for that year. A limited percentage is expended during subsequent years and a much smaller percentage is never expended, but is subsequently covered into the Treasury or reappropriated for similar or new purposes. As a result of the Executive pressure upon the departments this percentage has been largely increased, as will be apparent from the amounts here stated.

On August 4, 1921, the Secretary of the Treasury stated to the Committee on Ways and Means that "according to the latest advices received from the spending departments and after taking into account all estimated reductions in expenditure reported to date the Treasury estimates that the total expenditure for the fiscal year 1922 for which provision should be made out of the current revenues of the Government will be about \$4,550,000,000. This in itself would mean a substantial reduction in current revenues and expenditures below the fiscal year 1921."

At the time that this statement was made by the Secretary of the Treasury the results of the imposition of Executive pressure upon the spending departments, inaugurated at the meeting called by the President of the body of the business organization of Government, had not been fully developed. On August 10, 1921, after a conference, announcement was made through the Secretary of the Treasury that the administration, in cooperation with the Committee on Ways and Means, had determined to reduce the ordinary expenditures of the Government for the fiscal year 1922 by at least \$350,000,000 below the revised estimates presented by the Treasury on August 4, to wit, about \$235,000,000 in addition to the \$112,512,628.32 above mentioned. It was also announced that the Treasury would provide for two items of estimated public debt expenditure for the fiscal year 1922 out of other public debt receipts during the year to the extent of \$170,000,000. Thus the expected aggregate reduction in expenditure for the fiscal year on the above basis was announced as \$520,000,000, leaving the estimated total expenditure for the fiscal year 1922 as of date August 10, 1921, about \$4,034,000,000. It will be noted from the foregoing statements that the present estimated expenditures for

1922, including sinking fund, are \$3,967,922,366, thus indicating that the \$520,000,000 reduction in ordinary expenditures determined upon August 10 will be exceeded by the sum of \$62,000,000, making the total reduction \$582,000,000. As compared with the actual total expenditures for 1921 of \$5,538,040,689.30, the total expenditures for the Government for the present fiscal year 1922 of \$3,967,922,366 involve a net reduction from all causes of \$1,570,118,323.30. Furthermore, continued Executive pressure, affecting also the estimates for 1923, enables the budget for that fiscal year to be based upon an estimated total expenditure of \$3,505,754,727, which is a still further reduction of \$462,167,639 under the estimated expenditures for 1922.

The attitude and determination of the President of the United States in relation to the use of the Budget Bureau as an agency for the imposition of his policy for the reduction of governmental expenditures not only as regards the expenditures for the fiscal year 1923 but for the present fiscal year 1922 is most important. If he had not taken this position and action, the expenditures for 1922 and the budget herewith presented for 1923 would have been far different as regards the majority of their items. For the first time in the history of our country a national budget has been prepared based on estimates from the spending departments acting under a strong and continued Executive pressure for economy and efficiency.

THE BUDGET PRESENTED FOR THE FISCAL YEAR 1923 IS BASED UPON THE AMOUNT OF CASH WHICH MUST ACTUALLY BE WITHDRAWN FROM THE TREASURY DURING THAT FISCAL YEAR.

In presenting the budget of the United States for the fiscal year 1923, covering the sum of \$3,505,754,727, in compliance with the requirements of the budget act, the Director of the Budget has prepared it upon the basis of the amount of cash which must actually be withdrawn from the Treasury during the fiscal year 1923.

The method of appropriation of money heretofore followed has resulted in a condition of things under which it is almost impossible for either the Executive, Congress, or the Secretary of the Treasury to have before them a true picture of the fiscal condition of the Government at any particular time. Although Congress has by stringent penal law prohibited the creation of deficiencies and clearly indicated that its annual appropriations were intended to limit the amount to be expended for such period, yet millions of dollars have been annually spent by the departments above the estimates submitted at the beginning of the fiscal year, and in recent years, due to the great sums appropriated in connection with the war, hundreds of millions of dollars have been so expended by the departments, a course made possible by deficiency and supplemental appropriations, the existence of revolving funds, and unexpended balances.

The distinction between the appropriations for a given year and the actual expenditures for that year should be clearly borne in mind. Appropriations for any given year do not represent the money actually spent during that year, but are intended to cover the obligations which are incurred in that period, part of which are paid currently and a part of which mature and are discharged in subsequent years. Consequently the expenditures of a year must be composed of the amounts maturing in it, some of which were appropriated in previous years and some of which are covered by the current appropriations. In addition to this should be added the use of permanent and indefinite appropriations which require no annual action by Congress and funds from other sources.

While the Director of the Budget presents with the estimates the information necessary to enable Congress to make its appropriations in the former way, it is urged that if it will pass the budget providing simply for the amount actually to be expended during the fiscal year, with Executive pressure now being exerted to keep the departments within the limits of this expenditure, a continuance of the method will automatically largely eliminate the indefinite cash demands currently made in the past by departments on account of unexpended balances in addition to their current appropriations. A system by which requests for appropriations are based upon the actual need of money for disbursement during the fiscal year for which the appropriation is made will thus tend to prevent hereafter the wide, indefinite, and fluctuating margin between the expenditures for any given year and the appropriations requested of Congress to cover the same period.

Again, if Congress will follow this method, it will at the end of each fiscal year of necessity direct its attention to the relative importance of existing work and projects, considering the then state of the Government and public business, thus promoting a more intelligent consideration of appropriations. Under the old system, where after the authorization of a project a continuous appropriation was made in an amount estimated as necessary to complete it, it passed, for all practical purposes, outside the ken of Congress. It is inconceivable that as the fiscal condition of the Government changes and as business conditions in the country change, to say nothing of the particular conditions which surround any given governmental project, this annual reexamination of the project or activity in connection with the advisability of passing the enabling appropriation will not be beneficial in tending toward the elimination of useless expenditure and waste.

The fact that contracts are let by the Government which, of necessity, can not be completed within the fiscal year during which they are let does not imply the necessity of immediately making available

to the contracting department the entire sum of money eventually to be expended on the contract. While in many instances the amount appropriated has been only that which could properly be expended during the year for which the appropriation was made, there have been other instances in which the total amount called for by the project was appropriated at one time, without regard to the need for expenditure during the current year. No properly organized private corporation would handle its business in this way. The head of a private organization in charge of policy would have in mind, as a matter of course, his sources of revenue at the time the contract is let, and also the demands upon them which will result from the carrying out of the contract. But he would not complicate his entire business system by announcing to the subordinate in charge of a certain contract that he could draw indefinitely, and without notice to the head of the corporation, whatever money was necessary in carrying out its terms. On the contrary, in order to insure the best attention on the part of the subordinate to the contract, and to insure that he himself would be properly informed as to the work being done under it, he would require the one in charge of the contract to report to him periodically his need of cash to complete payments under it. It is a fallacious argument, therefore, to maintain that a continuing appropriation must accompany any contract extending beyond a single fiscal year.

The whole habit of making continuous appropriations to which the Government has been committed in the past is only an encouragement to a lack of scrutiny of public work by the head of the department under which it is carried on, and an encouragement to shiftlessness and carelessness on the part of the subordinates more directly concerned in it. The more rigid the system under which continuous attention to the conduct of the business of Government is made mandatory on the part of Congress and the business administration the more efficient will be the conduct of Government.

Finally, this system of preparing the budget will confine the attention of the Executive, of Congress, and of the public to the one great important question, to wit, the relation of the money actually to be spent by the Government to the money actually to be received by the Government in any given year, all its outstanding obligations and indefinite commitments, projects, and enterprises considered. This will enable Congress, with more intelligence, to determine at any time both the necessity for retrenchment and the ability of the Government to engage in additional projects to be initiated by Congress outside of the budgetary provisions.

There exists such a mass of undetermined liabilities arising out of unexpended appropriations of former years, and so much resulting uncertainty as to the true amount of expected receipts and expendi-

tures, that it would seem that Congress should recognize the situation and immediately repeal all outstanding continuous appropriations and "revolving funds," save in those cases, if any, where the particular character of governmental activity may require a limited fund as working capital, giving, of course, proper recognition to legally enforceable obligations standing against them. Thus again the relative importance of projects may have the consideration by Congress and the Executive alone made possible by this course. By such an act there will be uncovered for reconsideration a number of practically forgotten projects which are eating up money that would not be devoted to such a purpose if the present situation had been in the mind of the appropriating power when it first acted.

The naval supply account fund is a conspicuous example and one as to which (because of intensive study given it) an immediate specific change can be recommended.

This fund is the outgrowth of several acts of Congress, the latest being the act of March 1, 1921 (41 Stat., 1169). It constitutes a "revolving fund" or permanent working capital for procuring and issuing standard supplies, and under the legislative provision last mentioned it stood at a total on June 30, 1921, of \$255,476,277.54.

The existence of such fund, in some reasonable amount, is undoubtedly advantageous to the Navy in many ways in permitting supplies to be purchased through one central authority at times of low prices, in eliminating competition through bids by different purchasing agents against each other, in avoiding middlemen's profits, and in preventing waste through deterioration. It also permits a reserve to be created and maintained, particularly of imported materials necessary in the event of war. The fund is kept intact in actual operation by charging against the proper appropriation the cost of supplies as and when issued to ships, etc., and at the same time crediting the fund with the same amount.

The report of Col. John Stephen Sewell to the Bureau of the Budget, prepared after careful study, indicates that if the present inventory of supplies were properly balanced \$150,000,000 would be a suitable amount for this fund. The present inventory, however, is not so balanced that each item bears the same proportion to the total of all items in stock as its annual consumption bears to the total consumption of all items. To the extent that the account is used for procurement abroad of standard commercial supplies, he recommends \$90,000,000 as a reasonable amount, and \$60,000,000 for the balancing of the inventory and procurement of standard supplies originating in this country, a total of \$150,000,000. If this limit were to be placed upon the fund, then in three to five years \$100,000,000 would be automatically released and made available for other uses. This reduction would require action by Congress.

Based upon Col. Sewell's recommendation, and with the concurrence of the Secretary of the Navy, I therefore recommend legislation in connection with the naval appropriation bill for 1923 embracing substantially the following provision:

Hereafter, until the naval supply account shall have been reduced to a maximum sum of \$150,000,000, which shall not thereafter be exceeded, one-half of all reimbursements otherwise due to the naval supply account, whether from current issues or from sales, shall be covered into the Treasury as miscellaneous receipts, and only one-half shall be credited to the naval supply account.

PRINCIPLES INVOLVED IN METHOD OF PREPARATION OF THE BUDGET FOR 1923 AND THE SELECTION OF NECESSARY PERSONNEL IN THE BUREAU OF THE BUDGET.

In preparing the budget the director has availed himself of advice and experience from every available source, both inside and outside the Government agencies. He has received generous and valuable assistance from both the Bureau of Efficiency and the Institute for Government Research. The aim has been to submit the facts required in the different portions of the act in the most simple, condensed, and easily understood form consistent with full and accurate information.

The statements include all ordinary expenses of the governmental operations proper and so much of the public-debt expenditures as is required to be made in the year out of the current revenue; that is to say, the sinking fund and debt expenditures out of receipts especially earmarked for the purpose. The statements do not include public-debt obligations intended to provide for maturing obligations by new loans or refunding operations. This information appears later in the balanced statements of Treasury operations furnished under other subsections or paragraphs of section 201. The attempt is made in this table only to reach a comparison in summary form between the ordinary receipts and the grand total of the expenditures which have to be met out of ordinary receipts.

This summary statement is followed by detailed statements of expenditures arranged, first, in the order and amounts of expenditures by departments, and, second, with relation to the objects of expenditure; and these in turn are followed by a detailed analysis of the revenues from the various sources of Government income.

The budget concludes with a statement in detail of appropriations requested by the several departments for the fiscal year 1923 as revised by the bureau. This takes the place of the former Book of Estimates.

In the budget the estimates follow the same order and arrangement as the appropriation acts for the fiscal year 1922, in order to enable a more ready and accurate comparison by Congress between the

appropriations for the two years. This form and order is changed in the alternative budget so that all appropriations for any given department may appear together in one appropriation bill or chapter of the bill. It is understood that the committees of Congress have been rearranged for the purpose of considering the alternative budget in this form. This rearrangement, together with a continual revision of the wording of the estimates eliminating useless duplication, is in itself a decided step in advance and will gradually reduce into a more workable document the departmental estimates.

Between the period of September 15, at which date he receives the details of the desired appropriations for 1923, and December 1, the Director of the Budget was expected, under the provisions and spirit of the budget act, to so pass upon the appropriations requested as to enable him to express an intelligent opinion in connection therewith to the President of the United States. The mere statement of the fact that there are submitted to him the items of desired expenditures on the part of 41 departments and independent establishments of Government, each with its perplexing problems and many separate items of requests requiring investigation and discussion, will indicate the difficulties of the situation.

Under the provisions of the law the budget officers are appointed by the heads of the respective departments and independent establishments of the Government. The assumption underlying the law probably is that through officers acquainted by contact with the business of their respective organizations, and acting under the supervision of their chiefs, the Director of the Budget could secure that information upon which it would become possible for him to base intelligent recommendations to the President in connection with the adjustment, increase, or curtailment of departmental demands. At the same time the law recognizes the desirability and necessity for impartiality in connection with the consideration of the requests of each department. In fact, the whole law is based upon such an assumption, and the recognition of the necessity for this by Congress has resulted in the creation of the Budget Bureau.

As he found it necessary, it was, therefore, in accordance with the spirit of the law that the Director of the Budget, in considering the requests made by the departments and establishments for appropriations, and the reports of the respective budget officers of the departments, interjected wherever possible a consideration by an impartial mind. The recommendations made in the present budget, herewith submitted, are not, therefore, those of the Director of the Budget, following simply the interpretation of departmental needs made by the department head and a budget officer responsible to him, but they are also made after approval of impartial investiga-

tors representing the Director of the Budget and acting under his authority.

Even if the Director of the Budget had not done this, still the machinery of the budget law, used as an agency for Executive pressure, would have produced a great improvement over the old system in connection with appropriations, for it must be remembered that, for the first time in our history, departmental heads and budget officers have been making estimates of their necessities after a strong imposition of an Executive policy of retrenchment preceding the preparation of the estimates. The importance of this can not be overstated. The reductions in expenditures outlined in the budget herewith presented are largely due to the proper interpretation of the President's policy by the heads of departments and the budget officers.

Under the budget law as it now stands the work of intelligent business revision of appropriations involving the expenditure of over \$3,000,000,000 must be done by the Director of the Budget, the assistant director, four advisers of the director's selection, to be compensated at the rate of \$6,000 per year, the balance of the organization being secured under civil-service rules at salaries not exceeding \$5,000 per year. The Director of the Budget has no hesitation in stating that this could not have been done this year, and in the future it can not be so accomplished without recourse to personnel already in the Government employ, no matter to what extent the appropriations or salary limitations involved in the law might be increased. The Director of the Budget was fortunate in being able to call in a body of business men who, at a time of emergency in the Government's business affairs, responded to that patriotic instinct characteristic of every good American and left their business to become Federal employees at \$1 per year. The Director of the Budget has also been assisted by Members of Congress and others whose connection with governmental business affairs in the past enabled them to give invaluable practical advice in connection with the estimates. As a result of this experience the Director of the Budget is satisfied that the solution of the problem of intelligent revision of appropriations is to be found, as usual, in the principles recognized in a successful private enterprise.

The Director of the Budget, as the adviser of the President, who is the head of the Government business corporation, must have the advice of those who are experienced in the conduct of the business, by practical and continuous contact with it. Their advice, however, should be impartial and given in terms of the President's policy, distinguished from the necessarily partial viewpoint of one connected authoritatively with the given activity. This must be accomplished by drawing upon the personnel of the different departments in building up the organization of the Bureau of the Budget, selecting such

men as have shown in the preparation and revision of the estimates for 1923 their qualifications for this important work. It is necessary that all connected with the Bureau of the Budget realize fully the fact that they are responsible, under the Director of the Budget, solely and alone to Executive authority, so that the President of the United States, through the Director of the Budget, may have truly impartial as well as accurate and authoritative information upon which to base Executive policy. This principle must also be recognized and its necessity understood by the heads of the departments from which such personnel is drawn. It may be necessary in some cases to obtain this personnel by detail for a probationary period, in order to fully confirm the qualifications of the man in question, before transferring him to the Bureau of the Budget.

The Director of the Budget, becoming acquainted progressively with the business of the Government and with the men carrying it on, will thus have built up an organization of experienced assistants, which organization could not be duplicated in any other way, even with greatly increased appropriations by Congress. Selection for this work, responsible as it is directly to the President of the United States, should be looked upon by the body of the organization as a high appreciation on the part of the Executive of the ability, character, and competence of the men selected. Such a plan is that pursued in all successful business organizations of calling into contact with the executive and his agents the impartial minds from the business organizations best qualified to aid in thinking in terms of policy for the entire institution as distinguished from any particular portion of it.

The temporary service so splendidly rendered in this formative period by minds drafted from among the leading business men of the country is being gradually taken up by men selected from the various departments who have been found qualified to continue the work. The Director of the Budget states without hesitation that the Government has at its command among the existing staff of its business organization men of the high ability demanded who, because of their large experience, it would be impossible to match, whatever the compensation involved, by recourse to outside employment.

These men in the office will be assigned particular departments, between which and the Budget Bureau they will function continuously as liaison officers. Charged with the duty of thinking in terms of the President's policy, they will bring to the heads of the departments and the chiefs of bureaus with whom they will be in continual contact a better realization of how the plan of their particular department can be made to better accord with the plan which the President has established for the Government as a whole. Continued contact with the departments, moreover, will enable them the

more intelligently to advise the Executive, through the Budget Bureau, upon the irreducible minimum of expenditures beyond which, with a due regard for efficiency, the Executive will not desire to go. With the passage of time this body of practical advisers will improve in efficiency and effectiveness, and the estimates of the Budget Bureau in consequence will be received with continually increasing confidence by the Executive and by Congress. The fact that these men will not be political employees, coupled with the fact that the administration of the Bureau of the Budget must be entirely nonpartisan, will tend to establish in the minds of all that the Budget Bureau is only an agent of ordinary routine business, working alone for economy and efficiency, and not at all as an adjunct of party or administration.

The Director of the Budget desires to express his sincere appreciation of the invaluable service in connection with revision of the estimates of the first budget rendered by the following gentlemen, who, at the nominal compensation of \$1 per year, accepted appointment as advisers and gave unstintingly of their time and labor. They have had a most important part in the work of the bureau: A. R. Barnes, Chandler B. Beach, R. Floyd Clinch, Henry M. Dawes, Rufus C. Dawes, A. J. Earling, Samuel M. Felton, Floyd, Charles Furlow, E. F. Mack, Alexander H. Revell, Col. John S. Sewell, Hon. Lawrence Y. Sherman, Ernest J. Stevens.

FUNCTIONS OF THE BUREAU OF THE BUDGET.

There is a tendency on the part of many to assume that the Bureau of the Budget is established primarily for the sake of reducing expenses. The Bureau of the Budget is designed, through its facilities for securing information, to be in a position to give impartial advice to the President and to Congress in all matters regarding the proper business functioning of Government. Because at the time of the establishment of the Budget Bureau there was a great necessity existing for the reduction of governmental expenses, and since under the old decentralized system of governmental business great extravagance existed, the activities of the bureau which became most prominent were those where it acted as an agent for the imposition of Executive pressure in forcing down expenditures where not in contravention of congressional mandate and efficiency. This is but one function of the Budget Bureau.

It must be as willing to advise an increase in appropriations where the same is clearly in the interest of governmental efficiency and true economy as it is to advise reductions in expenses, which at the present time are so necessary. It is only by this method, under which it gives an impartial business judgment as to the necessity for ex-

penditures and the functioning of Government, that it can, in the long run, maintain its proper influence with the Executive and with Congress and justify its existence.

RECEPTION OF THE BUDGET BY CONGRESS.

In possession, under the Constitution, of the sole power of appropriation, Congress, in passing the budget law, has created an agency to assist in securing for its benefit impartial information from proper sources in connection with its intelligent consideration of appropriations. In the complete supervision of the budget which Congress of necessity must exercise in connection with the appropriating power the Budget Bureau will be of assistance in proportion as its work is in accord with the principles of common sense and correct business. It should be nonpartisan, impartial, and impersonal, and so operated as to create that impression upon the mind of Congress. To the extent that it can, through the maintenance of the necessary machinery for accurate preliminary investigation, make proper recommendations concerning the estimates to the President it will deserve and doubtless receive the approval of the Congress.

The presentation by the President of the budget to Congress, as revised by him after receipt from the Director of the Budget, should create in any given matter of appropriations more than a *prima facie* case in the mind of Congress. Provided the bureau functions properly it should create a strong presumption that any particular case had been properly investigated and all the reductions recommended in connection with the expenditure involved which are possible without material interference with governmental efficiency. It is to be expected that since the preliminary estimates have been made under pressure by the Executive for proper retrenchment, where consistent with efficiency, it will not be necessary, as heretofore, for Congress to make radical cuts upon the estimates of the budget with any uncertainty as to what will be the result as it affects efficiency. The President of the United States, when he sends the budget to Congress, is presumed to send it with all the reductions in expenditures which can be effected without undue impairment of governmental business processes. In the preparation of the budget he has had at work an authorized agency in the bureau not only in ascertaining the reasonableness of desired appropriations but in continually imposing pressure upon the departments for a reduction in the estimates wherever proper and possible. The examination by Congress of the items of the budget as recommended by the President in the same spirit in which he presents them will make impossible the recrudescence of the former condition of things, in which departmental officers have

habitually made their estimates for a greater sum than they expected to receive from Congress.

The course of Congress in the past in making radical reductions in the estimates presented has been the only protection which the public has had against departmental extravagance. There is now the protection afforded by Executive supervision of estimate making. The Bureau of the Budget is simply a business organization whose activities are devoted constantly to the consideration of how money appropriated by Congress can be made to go as far as possible toward the accomplishment of the objects of legislation. If it functions properly, it has not and can never have any purpose but that of the Executive and Congress in seeking the imposition, throughout the Government administration, of correct business principles in routine business administration. The investigations of Congress, made in connection with its constitutional power over appropriations, are an invaluable and indispensable protection to the public. Nothing but a wicked interposing of partisan motives into the discussion of that which is fundamentally a business question can make congressional investigations into public expenditures anything but beneficial. By a proper functioning the Budget Bureau in time should create such a feeling of confidence in its effectiveness as to make it continually of greater assistance to Congress in their consideration of appropriations.

USE OF THE BUREAU OF THE BUDGET BY THE CHIEF EXECUTIVE AS AN AGENCY FOR IMPROVING ROUTINE BUSINESS OF THE GOVERNMENT.

A. THE FAULTS TO BE CORRECTED.

Heretofore our Government, in routine business administration, has labored under difficulties analogous to those of a private corporation in which—

First, the president of the corporation gave practically no attention to its ordinary routine business. He avoided his responsibility for the proper conduct of the business of the corporation, and neither assumed nor delegated active control over it.

Second, the administrative vice presidents of the corporation were allowed to run their several departments without any enforced contact in the discussion of routine business matters of the corporation and as if each separate department was an independent authority in all matters of routine business.

Third, because of the lack of any outlined business plan, resulting from the absence of executive pressure and supervision, the several departments operated with almost an entire lack of coordination. No system existed for making purchases or in selling material along business lines under a unified policy. A lack of material or facili-

ties on the part of any one department resulted in no adequate search being made for the existence of such supplies or facilities in the hands of another department, which might be available. In almost every case recourse was had to the open market.

Fourth, the corporation was not operated for profit, and its principal funds for operating expenses were obtained by a levy upon stockholders (an appeal to Congress for an appropriation, involving a collection through taxes or imposts).

Fifth, no balance sheet of the corporation as a whole was ever prepared. No complete inventories of its properties existed. No statement of its current assets, such as salable material and current supplies, had ever been made, nor was there any easy method existing of securing it.

Sixth, when cash was placed by the stockholders at the disposal of the corporation for its purposes, the custom was to notify the different departments that a certain amount of credit was available with the treasurer of the corporation, to be drawn upon as might be necessary to meet any estimated expenditure involved. Each department would then enter upon its books the amount of cash allotted to it with which to pay for its projects, against which it had the right to currently draw. The treasurer, however, kept no accurate account of these contingent obligations, which eventually crystallized into cash demands upon him, thus resulting in money being drawn from him continually in excess of the estimated annual running expenses. Nothing but very rough estimates could be secured at any time by the treasurer as to what the cash demands upon him in any given year would be, since to the estimates for annual running expenses was to be added an indefinite amount of money demands arising out of former commitments.

Seventh, as a result of all this, the corporation, in effect, seldom reconsidered an unwise project entered into by any department. The custom grew up among the departments of the corporation to regard it as an obligation upon the part of each to spend any levy made for its benefit without reporting to the president of the corporation, to its directors, or to the stockholders as to whether continued expenditure upon the project was wise under any given new set of circumstances.

Eighth, so firmly embedded in the minds and in the affections of the administrative heads of the departments became the feeling of independence of an executive control, owing to its complete lack of exercise, that conferences looking toward the correction of evils arising out of a lack of coordination in the business were apparently avoided lest out of that contact information would develop which might stimulate the head of the corporation to an invasion of the independent control of the departments.

Ninth, the administrative heads of the departments of the corporation were selected, as a rule, with less reference to their business qualifications than to their qualifications as advisers to the president of the corporation along other lines than routine business administration. At the inception of their appointment they were introduced to a business with which they were generally unfamiliar and were compelled to rely largely upon the advice of subordinates who were wedded to the theory of the right of independent operation of a department. The tenure of their administration was often less than four years. As a rule, they became the earnest advocates of departmental plans which their inexperience in departmental business prevented them from fully comprehending in all their aspects. Being held to no responsibility by the executive head to operate their departments along a unified corporation policy in routine business, they became, therefore, in general, only a shelter and protection for the independent operation of departments. Instead of becoming conduits, as in the properly run corporation, for the imposition of an executive plan, made in the interests of the corporation as a whole, upon the body of the business administration, they became, of necessity, more or less of an obstruction to the occasional flow of executive authority in routine business. Their general position was, of necessity, determined by the advice of those operating the department under the theory that it was independent, while there existed no one to place before them the necessities of the corporation considered as a whole.

Tenth, the subordinate members of a departmental organization of the corporation were encouraged to state the needs of their particular subdivision of their department directly to the agency of the corporation (Congress), which made the desired levy upon the stockholders (the public). This custom, in violation of all the rules governing the correct functioning of the successful corporation, tended to increase the confidence of these subordinate officials in opposing any change operating to subordinate departmental control in routine business to an executive control of the corporation.

Eleventh, a general public interest in the operations of the corporation encouraged subordinate members of its business organization, including its administrative vice presidents, in making programs of business and expenditure to consider their relation to popular approval, whether right or wrong, thus often foreclosing a question of policy which was properly in the purview of the president of the corporation alone. A premium was often placed upon the expenditure of money as distinguished from its saving, since uninformed public approval is often reserved for activity and apparent enterprise in extending the corporation's functions, irrespective of their wisdom.

Practically all of the last ten defects of the corporation were the direct result of the first one, to wit, that the president of the corporation gave practically no attention to its ordinary routine business.

B. THE COORDINATING AGENCIES ESTABLISHED BY EXECUTIVE ORDER TO RECTIFY FAULTS IN THE ROUTINE BUSINESS OF GOVERNMENT.

For the imposition of unified methods in the ordinary business of the Government the President has established, by Executive order, the following agencies, which are engaged in coordinating, in all matters of routine business, the activities of the separate departments and establishments:

First, the Federal Purchasing Board. On the Federal Purchasing Board there is detailed the chief purchasing officer of each department or establishment, with a chief coordinator as chairman, named by the President. The chief coordinator has the authority, limited by a right of appeal in case of any difference in opinion, to impose coordinating orders. He can thus prevent competition between the different departments in outside purchases, not only by preventing them from raising the price on each other, but where large quantities of standard commodities are to be purchased, by ordering one department to execute the purchase for itself and as agent for the others. By Executive order it was directed that in each executive department and independent establishment of the Government there shall be a director of purchases and a director of sales, who shall coordinate all activities involving purchases and sales within their respective departments and be in direct liaison with the chief coordinator. These directors of purchases and sales are subject to call by the chief coordinator for conference in all matters involving the coordination of sales and purchases in the various departments of the Government service. This was the system adopted in the American Expeditionary Forces. It is the exact system existing in many large private industries which have been formed by the amalgamation of original units located in different parts of the country.

The power in shaping a unified purchasing policy for the Government is as great as that which would be possessed by a central organization which would take over all Government purchases, but with this great advantage over a central organization—that there is no interference with the pressure from a point of departmental supply necessity upon a procurement agent directly responsible to it. Even where there is a coordinating order imposed, a representative of the head of the department which needs supplies is always able to interpret its necessities, both as regards speed in delivery and location of delivery.

Again, the coordinating control does not interfere in a multitude of small purchase transactions by the department where the ques-

tion of competition is not involved. A central purchasing agency for the Government of the United States which would assume to take over the procurement and distribution of all Government supplies would be a complete failure. Not only has the Federal Purchasing Board proved already by its successful operation its adaptability to the necessities of the situation, but the principles which govern it have been tested out by years of recognition in practice by private business enterprises.

Second, the Federal Liquidation Board, created in accordance with the same principles and form of organization, is now coordinating sales, under a unified plan, of the large surplus stocks of the various departments of the Government. It is composed of one representative from each department or establishment having sales activity, presided over by the chief coordinator, general supply. The decisions of the chief coordinator, general supply, as to any coordinating action is final, subject only to appeal to the head of his department by any member. The importance of the work of this board is self-evident. Under the old system, where surplus stocks were sold by the independent departments irrespective of each other an absurd and demoralizing situation existed. It was the custom of the independent departments to sell their surplus stocks with practically no reference to the needs of the other departments for the material sold. In some cases property was sold at public auction by one department, purchased by an outsider, who then resold it at large profit to another department of Government. At the time of the institution of this board departments were in the open market for large amounts of material which were on hand in the other departments. An enormous loss has resulted to the Government from this condition of things.

The Federal Liquidation Board formulates policies and plans designed to knit the activities of the several departments and establishments concerned with the liquidation of stocks into a Federal business association to bring about business methods calculated effectively to safeguard the interests of the Government.

Third, the organization of corps area coordinators. For the purpose of making a practical extension of the principles involved in the Federal Purchasing Board and Federal Liquidation Board over the entire country a system of corps area coordinators has been created. The points of location of Government stocks are so scattered, and the diffusion of the points of purchasing activities so great, that central boards at Washington would be unable to cope with the situation without representation at all centers of governmental purchasing and sale activities. Accordingly, for convenience, the territory of the United States was divided into nine areas, corresponding to the nine Army corps areas, and in each area an official

was selected by the President by detail from a department, who is known as the coordinator for general supplies for the several executive departments and independent establishments having activities in that area. It is to be noted that these corps area coordinators are responsible to the chief coordinator, general supply, and through him to the President of the United States, and not to the heads of the departments and independent establishments. They locate and inspect surplus accumulations of Government stocks, regardless of whether or not these stocks have been reported surplus by the departments, and report thereon to the chief coordinator, general supply, Washington, D. C., as well as to the head of the department, having particular reference to the existence of accumulated stocks which appear to be in excess of reasonable reserves or current needs.

In connection with the immensely important matter of interdepartmental transfer of surplus stocks, the neglect of which in the past has involved the United States Government in the loss of hundreds of millions of dollars, the corps area coordinators play a most important part in determining the field needs of the separate departments and establishments. They extend the power to insure uniformity in prices received and sales effected in the corps area. They exercise general supervision over the purchase functions of the several departments and establishments in their section. They have the power to fix, over the head of the department, the price of the commodity involved in interdepartmental transfer, which, of course, is simply a matter of bookkeeping, but which, under the old system of independent functioning between the departments, proved a great obstacle to the transfer of property.

In short, this corps area organization, together with the Federal Purchasing Board and the Federal Liquidation Board, the latter two located at Washington, enables the entire purchase and supply situation throughout the country to be properly handled.

Fourth, the surveyor general of real estate determines, subject to the approval of the Secretary of the Treasury, as provided by law, in what manner and to what extent the premises of the Government of the United States outside of the District of Columbia shall be occupied and used, by what departments, bureaus or offices, and establishments. He has the power to assign and reassign rooms therein to all such Federal officials, clerks, and employees as in his judgment and discretion should be thus supplied, but he makes no assignment or reassignment until after full and complete conference with the head of the particular service directly concerned. He has the power to abrogate or terminate existing leases by negotiation or by notice or other action thereunder. No leases for Government uses for a period of longer than one year or for an annual rental of more than \$500

can be made except upon approval of the surveyor general of real estate and the Secretary of the Treasury.

The creation of this power in the surveyor general of real estate by Executive order prevents the large waste occasioned by renting from private owners space which the Government, in its buildings, already has at its disposal. In this power to determine what changes should be made in the interest of economical and efficient use of lands, buildings, and portions of buildings for the benefit of the General Government, he is assisted by the area coordinators, general supply, who report to him the necessary information as to real estate holdings under ownership or lease which are located in their corps areas.

Fifth, Federal motor transport agent. A general survey of the motor transport situation throughout the United States revealed the fact that the rule of absolute fixed assignments of motor vehicles to executive departments and independent establishments of the Government was handicapping the Government in the use of its motor transport. The motor transport of a department might be overtaxed when there were motor vehicles standing idle in another department. Civilian trucks were being hired when a department was confronted by an emergency when the same service could be performed within the limits of the Government service itself. In the different corps areas of the country the coordination of motor transport will be put into effect by the area coordinators, general supply, upon the approval of the plan by the chief coordinator, general supply, at Washington. The head of each department or establishment names a representative under the corps area coordinator for each area in which the department or establishment has motor vehicles in operation. The District of Columbia has been made a separate area for the purpose of coordinating motor transportation. A coordinator for motor transport has been designated for that district and large savings are being currently effected by these organizations.

Sixth, the Federal Traffic Board. The overlapping of service and duplication of effort are nowhere more apparent than in the conduct of the traffic business of the Government. The expert, Mr. R. C. Caples, who examined this situation for the Director of the Budget, estimates that the Government's transportation bill annually is approximately \$200,000,000. In the present situation no attention is given to the proper classification of articles shipped by the United States, and Government classification is out of line with commercial business. Government property should be relisted under commercial names. Raw materials should be billed out as raw materials and not as finished products. The classification committees of the railroads in specifying rates applicable to the thousands of articles listed in the classification have given the Government little or no

consideration as to the volume or nature of its business. The savings to be effected through proper handling of the Government's traffic, including reclassification, the correct routing of its business, and a reduction in number of the various rate groups and departmental traffic departments, is difficult to compute, but should be very large.

The Federal Traffic Board is established under the chief coordinator, general supply. Its activities are directed by its chairmen, under the title of coordinator for traffic, who shall, under the general direction of the chief coordinator for general supply, select the committees for the board and direct the time and place for their meetings. The head of each department and establishment making shipments from time to time shall designate one representative to serve as a member of the board. The classification of commodities and the instructions governing shipments and methods of settling transportation accounts, approved by the coordinator for traffic, shall, as far as applicable and in conformity with law, be binding upon and govern all departments, bureaus, agencies, and offices of the Government in all shipments made by them. All questions pertaining to the classification of materials, or terminal switching, freight rates, etc., which require the application of remedial measures, will be submitted to the coordinator for traffic either for adjustment with the classification committees representing the carrier or for the presentation of a complaint with the Interstate Commerce Commission. The decision of the chief coordinator, general supply, shall be final in the event of disagreement as to classifications, instructions governing shipments, and methods of settling transportation accounts, subject only to an appeal to the head of the department concerned.

A committee composed of practical railroad men will be consulted in connection with securing from the carriers cooperation in imposing coordination in Government traffic as regards classifications and economical methods.

Seventh, the Federal Board of Hospitalization. The total appropriations in 1921 for the administration of the Veterans' Bureau, the office of the Surgeon General of Public Health, the Surgeon General of the Army, the Surgeon General of the Navy, the Superintendent of Prisons, the president Board of Managers National Home for Disabled Volunteer Soldiers, aggregate \$745,985,292. Of this amount, \$489,000,000 were paid in pensions, leaving as a total expenditure outside of pensions, \$256,985,292. There are engaged in the functions of these bureaus 47,512 people, with a total cost of salaries for 1921 of \$85,430,177. In these departments at the present time, including the Army and Navy, the United States is feeding and housing about 500,000 people. The property under their control represents hun-

dreds of millions of dollars. It is necessary that the expenditures of these great departments should be coordinated, thus preventing overlapping of service, extra ownership of supplies, overemployment, unnecessary rentals, prevention of unnecessary installation, and various other incidental matters which naturally pertain to such large activities. The Federal Board of Hospitalization is created for that purpose.

The duty of the board is:

(a) To consider all questions relative to the coordination of hospitalization of the departments represented.

(b) To standardize requirements, to expedite the interdepartmental use of existing Government facilities, to eliminate duplication in the purchase of supplies, and the erection of buildings.

(c) To formulate plans designed to knit together in proper coordination the activities of the several departments and establishments, with a view to safeguarding the interests of the Government and to increasing the usefulness and efficiency of the several organizations, and to report to the President thereon.

The chief coordinator of the Federal Board of Hospitalization presides over the board and is responsible for its efficiency and for developing its activities along practical lines. After a full discussion of any question by the board, the decision of the chief coordinator of the board will be final as to any action to be taken or any policy to be pursued, but any member may appeal from the decision of the chief coordinator of the Federal Board of Hospitalization to his own immediate superior. The recommendations of the board will be carried into effect by the head of the department or establishment directly concerned.

Eighth, the Federal Specifications Board. A Federal specifications board has been created, of which the Director of the Bureau of Standards, Department of Commerce, is ex officio chairman. The head of each department and establishment purchasing materials or services in accordance with specifications prepared in such department designates one representative to serve as a member of the Federal specifications board. The duty of the board is to compile and adopt standard specifications for materials and services, and to bring specifications into harmony with the best commercial practice wherever conditions permit, bearing in mind the desirability of broadening the field of supply. In event of disagreement on specifications, or on methods of procedure, the case will be submitted to the chief coordinator, general supply, whose decision shall be final as to the action taken, subject only to appeal to the head of the department concerned.

There was formerly in existence an interdepartmental standardization committee composed of representatives of the following depart-

ments: War Department, Navy Department, Treasury Department, Department of Agriculture, Department of the Interior, Post Office Department, Panama Canal, Shipping Board, United States Employees' Compensation Commission, Commissioners of the District of Columbia, and Department of Commerce. The findings of this committee as to a common specification are in the nature of what is called "a recommended specification." No one had the authority to approve and make mandatory the adoption of such specification by the various departments of the Government; neither was there any authority competent to settle the case on its merits in the event of a disagreement.

There is also in existence a committee on the standardization of petroleum specifications, authorized by Executive order dated July 31, 1918.

The Federal Board for the Standardization of Specifications will take up and carry to a prompt conclusion a complete survey of all existing specifications, with a view to the adoption of common specifications where more than one now exists for a particular commodity.

Ninth, the interdepartmental board of contracts and adjustments. This board is in process of formation, and a description of its proposed functions and field of activity is contained in the Executive order just issued for its establishment, as follows:

1. Without limiting in any manner the jurisdiction or authority of heads of executive departments and independent establishments over the subject matter of Government contracts as the same is now defined by law, but for the purpose of standardizing contract forms, securing the adoption of uniform policies as regards construction work and uniform practices of interpretation and negotiations both preceding and following the actual execution of such contracts, there is hereby established in the office of the chief coordinator, general supply, a board to be known as the interdepartmental board of contracts and adjustments, the members and functions of which board shall be as follows:

2. The head of each executive department, including the Department of Justice, shall organize a department board made up of one representative of each bureau having the independent right to enter into contracts on behalf of the United States. Such department board shall recommend policies to control in the standardization of contracts within such department. They shall choose from their number a chairman and any other necessary officers.

3. The chairman of the several department boards, together with a representative designated by the head of any independent establishment now authorized by law to enter into important contracts, and the chief coordinator, general supply, shall constitute the interdepartmental board of contracts and adjustments, and shall serve without additional compensation.

4. This board shall be presided over by a chairman, who shall be the representative of the Secretary of the Treasury. The chairman shall, upon being advised of the complete membership, call the members of the board together for purposes of organization. The board shall adopt such by-laws and appoint such committees and subcommittees as may be deemed advisable and necessary to accomplish the end sought.

5. The functions of this board shall be—

First, to standardize in general, wherever possible, the forms and methods of contract letting, to the end that a uniform policy on the part of the Government may control the making of such contracts, and with a further view to such changes in the form thereof as will tend to enlist the interest of the contractor on behalf of economy and promptness of execution and eliminate those uncertainties of construction and hazards to be assumed by the contractor which have hitherto operated to increase the cost of Government work and supplies.

Second, to recommend general policies in the settlement of outstanding obligations arising out of contracts of the United States, such as methods of determining and enforcing damages, of settling disputes as to questions of fact, and of determining the final compensation of contractors.

Third, in an advisory capacity and when requested by the head of any department or establishment or his representative upon the board—

(a) To review and revise important contracts and agreements made or about to be made on behalf of the United States.

(b) To advise officers authorized to contract and operating under contract as to the proper interpretation of contracts in process of execution.

(c) To assist in the negotiation of important contracts and agreements relating to personal services, supplies, or construction work.

6. The chairman of the board is charged with the responsibility for the efficient working thereof and for its development along the practical lines above indicated, and in such other ways as may become apparent after full study of the situation by the board or any committee thereof. After a full discussion of any question by the board and a full opportunity to the members to be heard thereon, the decision of the chairman will be final as to the action to be taken or the policy to be pursued. But any member may appeal therefrom to the head of his department or establishment, who shall have final authority in the matter. The chairman of the board may detail an assistant to sit with the board to represent him in matters of routine.

The General Supply Committee was created by section 4 of the act of June 17, 1910 (36 Stat., 531), which directed the Secretary of the Treasury to advertise and contract for all supplies of fuel, ice, stationery, and other miscellaneous supplies for the executive departments and other Government establishments in Washington, D. C., when the public exigency did not require the immediate delivery of the article. By Executive order of December 10, 1918, the General Supply Committee was designated as the agent through which the handling and transfer of surplus office material, supplies, and equipment of the executive departments and other establishments of the Government in the District of Columbia should be carried out, and the Executive order of September 3, 1919, extended this activity of the General Supply Committee to the field services outside of the

District of Columbia. These Executive orders provided that purchase in the open market should not be made of any materials or supplies which could be obtained through the General Supply Committee.

The General Supply Committee, functioning under this act and these orders, handled large quantities of surplus materials and supplies for the Government departments and establishments, but it could deal only with those articles which were reported to it as surplus and had not definite means of enforcing the obvious intentions of the regulations where the materials or supplies available differed slightly from those required.

With the establishment of the chief coordinator, general supply, the Federal Purchasing Board and the Federal Liquidation Board, the General Supply Committee, working in the closest cooperation with these agencies, has been of material assistance in working out practical operating systems, and has in return received great assistance in the matter of locating surplus supplies which in some cases had not been yet reported surplus, as well as in securing the acceptance of materials and supplies differing slightly from the original request where this would result in preventing a purchase in the open market.

This is unquestionably resulting in greatly increased economies in the matter of interdepartmental transfer of materials and supplies, thereby eliminating the necessity for many open-market purchases.

RELATION OF THE COORDINATING MACHINERY TO THE CHIEF EXECUTIVE,
TO THE DIRECTOR OF THE BUDGET, AND TO THE BUSINESS ORGANIZA-
TION OF GOVERNMENT.

Where the statutes of the United States prescribe methods to be followed in governmental business administration they, of course, limit Executive discretion by their terms, but in all routine business of government, where a method is not prescribed by law, it follows of necessity that methods may be imposed by the Executive, as in all other forms of business organization. An Executive regulation covering governmental business methods is simply a formula in which a method of conducting business is outlined in an order.

The executive powers which the President has invoked in the establishment of coordinating machinery for the unifying of governmental business are therefore only those inherent in the position of the head of the Government business administration, where not limited by law. The Executive orders creating these agencies are signed by the President and are announced through the Budget Bureau.

In any discussion of these agencies created through Executive order by the President to assist him in the imposition of a unified plan for the transaction of the routine business of the Government it can not be too strongly emphasized that they are concerned only with routine business and not with matters of governmental policy. Policies of government are determined by the Executive and by Congress. When Congress passes a law appropriating money for the cost of governmental activities and projects it becomes the duty of the Executive, in so far as these expenditures are concerned, to see that the money is devoted to the objects of appropriation in the most economical and efficient manner possible. These coordinating agencies established by the Executive are for the sole purpose of enabling the President in matters of routine business to so coordinate the activities of the different departments and establishments as will insure the most efficient and economical expenditure of the money appropriated by Congress. The powers they exercise, the questions which they consider, the circumference of their activities are all concerned fundamentally with the routine of business methods as distinguished from anything in the nature of governmental policy. They operate simply as a mechanism to make more effective the policy adopted by Congress and the Executive.

These agencies, concerned alone with efficient and economical methods, should operate in the same manner whatever the political changes which may occur in administration. Like the Budget Bureau and other agencies for the imposition of business policy, they are impersonal, impartial, and nonpartisan. They can never properly become the subject of partisan dissension. They must exist as agents concerned with routine methods of business at the disposal of the Executive and Congress indefinitely. If they are not kept in existence there will be an immediate reversion to the demoralizing lack of coordination among the independent departments and establishments which has obtained in the governmental business administration in the past.

Made up from the continuing body of public employees and concerned simply with the unification of the business machine, their sphere is one outside of politics and of general policy and in the realm alone of business common sense.

These agencies derive their authority solely from the President, but the same reasons of convenience and efficiency which led the President to use the machinery of the Budget Bureau in connection with the imposition of Executive business policy upon the business administration make advisable a close supervisory contact between the Director of the Budget and the coordinating agencies created by Executive order now in operating existence. The condition of gov-

ernmental business administration, developed by the investigations of the Budget Bureau, brought to the attention of the President, resulted in his decision to establish them. They are concerned, as is the Director of the Budget, with a bird's-eye view of the Government business situation and with the doing of business in terms of a single Government and its interests as distinguished from, but consistent with, the interests of the separate departments and establishments. To strengthen their supervisory relations to the separate departments and establishments they need a constant and sympathetic liaison between themselves and the President of the United States, who is the source of their authority.

If in the future there should at any time come into office an Executive indifferent to the operation of the Government as a business machine there would, under the immutable laws of human nature, immediately spring up an effort on the part of the independent departments and establishments at first to curtail and restrict the activities of the coordinating agencies and then to wipe them out of existence. The fact that this country may be so unfortunate as to pass through an Executive administration indifferent to its obligations to apply correct business principles to the functioning of Government business makes it a supreme duty for the President to now protect as completely as possible, by Executive regulation, by custom, and by his authority, the coordinating agencies recently created by him.

The Director of the Budget, being of necessity not only under the law but under the practical exigencies of the situation, in close contact with the President of the United States in all matters of routine business policy, becomes the natural agent for the interpretation of the situation and needs of these coordinating agencies to the President. It is essential, too, that the Director of the Budget, charged with the duty of advice to the President in connection with the economical and efficient operation of the Government in its ordinary business, should himself have the closest contact with them, since through them alone can he be properly advised as to correct business and interdepartmental relations. Besides being agencies for the execution of Executive policy, these coordinating agencies become the natural collectors of information regarding the processes of routine governmental business, which, in turn, may become the basis of Executive policy involving changes in the coordinating agencies themselves, and the creation of new ones.

In the well-managed business organization the closest contact between the source of information and the power which can compel corrective action is always maintained. It must be remembered that we are discussing only routine business functioning. What we call "red tape" in Government business largely results from the lack of

contact between those sensible of errors in administration and those in authority responsible for their correction. The less cumbersome the machinery for the transmission of the Executive will, and the closer the contact between those associated with it and the President himself, the more effective will be the functioning of the Government as a business machine.

To sum up, the President, in assuming for the first time his position of business responsibility over governmental business administration, upon the advice of the Director of the Budget, based upon information which the investigation of the Bureau of the Budget has supplied, has created certain agencies of coordination through which his business policy will be transmitted to the business organization. This emphasizes the importance of the passage of Executive advice and instruction through the Director of the Budget to the coordinating agencies. The same principle is involved as was recognized in the budget law itself when the Bureau of the Budget was made to operate directly under the President and not under any department of a lesser but coordinate authority. The only agency in existence which bears such a relation to the Chief Executive that it can be made a proper conduit for the transmission of Executive authority in routine business matters to the coordinating agencies for transmission to all departments and establishments is the Bureau of the Budget.

Coordinating agencies should be created from the body of existing employees and not by legislation, where their personnel would necessarily be built up by outside appointments. If the creation of these coordinating agencies were to be attempted by act of Congress, they would sink at once into the position of bureaus and lose almost entirely the power inherent in direct representation of the President. The advantages of the creation by Executive order from the body of the administration of these coordinating agencies, which are now in successful operation, are:

First, they more authoritatively will convey the pressure necessary in carrying out the plan of the Chief Executive in the interests of the Government as a whole.

Second, they will be headed and composed of men appointed because of their experience and ability in connection with the work in question, familiar with the environment in which they are to work, and without the outside and distracting pressure of political considerations.

Third, while more effectively functioning because of the above reasons, they will operate without appropriations being made necessary for their own salaries or for a large personnel. They will not afford, therefore, a nucleus for a steadily increasing cost and complexity of operation.

XXXVIII REPORT OF DIRECTOR OF BUREAU OF THE BUDGET.

An examination of the Executive orders which form the basis of the organizations of the coordinating agencies above mentioned will develop:

First, that they involve no transfer of authority the location of which has been fixed otherwise by statute.

Second, that they involve the delegation of no questions of policy save that of economy and efficiency.

Third, that they are simply agents by which, where not otherwise determined by Congress, unified methods of ordinary business can be imposed by the Chief Executive.

Fourth, that they are created simply to give the President of the United States, in his relation to the business administration, the same agencies of contact and transmission of authority as obtain in any private organization.

Fifth, that they involve no material addition to the expense of governmental administration.

Sixth, that they are nonpartisan, being composed of men already in the Government service, simply detailed for this duty.

Seventh, that they are in effect simply a regrouping under an executive leadership of certain of the present employees of Government of such experience, contact, and relation in its routine business as enables them, detached from departments and acting directly under the President, to make possible the application of common-sense business methods.

It can not be too often reiterated that this most important reformation in the governmental business system is dependent upon the President of the United States himself, and upon his continued assumption of his responsibility as its business head. The minute he relaxes his attitude of attention to this duty there will be felt the natural pull of the departments and establishments toward the old system of complete independence and decentralization. This is because of laws firmly embedded in human nature which have existed since man began. Budget laws or other legislative enactments can not change human nature, and, while compelling the letter of cooperation, can not compel its spirit, which is, above all things, essential in business organization. The President, and the President alone, can do this, for his attitude toward the heads of the departments and the independent establishments is a matter constantly in their minds. What he desires it becomes their interest as well as their duty to do, where consistent with right principles and in accordance with law. In the absence of his expressed desire what becomes their selfish interest in action is inevitably along the lines of decentralization and the re-establishment of the old condition of things, with everything running haphazard.

These great coordinating agencies have already effected large savings in Government business administration. They have prevented the absurd duplication and competition existing among the departments and establishments. They have corrected the practice by which the supplies and facilities of Government have been kept in water-tight departmental compartments, compelling recourse constantly to the open market, notwithstanding the Government already had on hand the supplies or facilities purchased. They enable the Government to transact routine business with the advantages enjoyed by private business organizations, and prevent its spoliation, made easy by the former ignorance and indifference on the part of a department of the business status and transactions of another. Through their agency the routine business of the Government, for the first time, is being conducted along sound business principles.

RELATION OF THE BUREAU OF THE BUDGET TO THE CABINET.

As stated before, the use of the Budget Bureau by the Executive as an agency for securing economy and efficiency in routine business has developed the fact that the advice and information emanating from the interested departments alone is not sufficient to enable the Bureau of the Budget to carry on its functions with full effectiveness.

The first lien of a departmental policy upon a departmental mind, whether it be that of the head of the department, budget officer, or the chief of a bureau, is such that the Executive, to be safe in imposing a business policy in terms of the Government's interests as an entity, must have an impartial consideration of the departmental view in order to determine the necessities of departmental programs as related to an executive policy for the whole.

The Director of the Budget is glad to state that with the Cabinet, and with the heads of independent establishments, there has been evinced from the first a determination to think in impersonal terms, and to favor all regulations, customs, and precedents which would afford the Director of the Budget, in so far as he acted as the representative of the President, the same ease of access to them and to their subordinate chiefs as would necessarily pertain in any well-managed private business organization. This required abrogation on their part of many of the old customs arising out of over 100 years of a decentralized status quo in the governmental business organization, which presented an insuperable obstacle to anything approximating unity of policy or plan in Government business administration. Under the regulations and customs now established, any such action and contact as the Director of the Budget must have with the heads of the different departments and establishments, where he represents the President in the imposition of a unified policy, he meets no

obstruction arising out of personal dignity or past precedent. The Cabinet heads and heads of independent establishments immediately acquiesced in the principle that the President must establish an agency so empowered in its relations to them that, as in any private organization, his agent in gathering information could compel a contact of separate departmental authority in the consideration of any coordinated action for the benefit of the Executive. The Director of the Budget, therefore, under the regulations and customs now established, has the same powers that an agent of the president of a corporation would have under the same circumstances.

The departmental trend of thought, stabilized by over 100 years, manifested itself to some extent in connection with the establishment by the President of the coordinating agencies essential to the carrying out of the unified business policy in government. The detail of an employee from a department or establishment to the coordinating agencies established by Executive order occasionally evoked the objection that the salary of such an employee should no longer be charged against the department in question. The thought that through the agencies to which such detail is made an enormous saving will inure to the departments during the existence of such a coordinating agency was, in some cases, overlooked by the affected department head. It is, above all things, necessary in the institution of a proper governmental business system to change certain trends of thought arising out of the old status quo which has been responsible for the destructive chaos in Government business arising out of the independent attitude of departments unsubjected to Executive control.

It is to be remembered in this connection that no criticism can be properly directed against the department heads under the old system for thinking alone in terms of the interests of their department and its program. The head of a department is not in a position, except under very exceptional circumstances, to have a bird's-eye view which will enable him to reason in any other than in terms of his own department. Again, it is his duty to think in such terms. The planning of coordinating action along the lines of a unified business policy is the function of the Chief Executive.

A general line of demarcation between the viewpoint of the interested department or establishment and the viewpoint of an agency thinking in terms alone of the general business situation of the Government obtains practically in every department and independent establishment of the Government. The absence in the past of any authority thinking in terms of the common interests of the Government as a whole has involved the United States Government in hundreds of millions of dollars of unnecessary loss. Questions of business policy important enough to demand the attention of the Execu-

tive and of Congress have at times not even been presented for consideration to the department head himself.

There must be but one business head. Let no one misunderstand the importance of the power of the President of the United States in its relation to this universal disposition to submit to business co-ordination manifested by the individual departments and establishments of the Government at this time. Underneath whatever has been done in the way of correcting the chaos in governmental routine business which the President of the United States confronted was the sense of responsibility to him in the mind of each man to be affected.

The Director of the Budget was authorized by the President to make a public statement of certain fundamental principles which must underlie the budget, to wit:

1. The Director of the Budget in gathering information for the use of the President acts for the President, and his calls upon the chiefs of bureaus and other administrative officers for purposes of consultation or information take precedence over the Cabinet head of a department or any head of an independent organization.

2. The budget representative in each department, being appointed by the Cabinet head, will present to the Director of the Budget the views of the Cabinet head upon the wisdom of conclusions drawn by the Director of the Budget for the use of the Chief Executive and Congress; but, as in the case of bureau chiefs and other officers, the call of the Director of the Budget for their presence and advice takes precedence over the Cabinet head.

Upon the continued recognition of these principles the effectiveness of the Bureau of the Budget must depend.

RELATION OF BUDGET OFFICERS OF DEPARTMENTS TO THE HEADS OF DEPARTMENTS, TO THE BUSINESS ADMINISTRATION OF GOVERNMENT, AND TO THE DIRECTOR OF THE BUDGET.

The same principles involved in the relation of the President of the United States to the Director of the Budget are involved in the relations of the department head to the official named by him as the budget officer of his department. The latter, charged with the duty of collecting information and the giving of advice relating to general departmental business for the use of the head of the department as well as for the use of the Director of the Bureau of the Budget, should be a man whose relation to the separate activities of the department is impartial. A department head should never appoint as budget officer of his department one who is in control of an activity which will be materially affected by budgetary recommendations.

The act approved June 10, 1921 (Public, No. 13), entitled "An act to provide a national budget system and an independent audit of Government accounts, and for other purposes," provides in part that—

SEC. 214. (a) The head of each department and establishment shall designate an official thereof as budget officer therefor, who in each year under his direction and on or before a date fixed by him shall prepare the departmental estimates.

(b) Such budget officer shall also prepare, under the direction of the head of the department or establishment, such supplemental and deficiency estimates as may be required for its work.

SEC. 215. The head of each department and establishment shall revise the departmental estimates and submit them to the bureau on or before September 15 of each year. In case of his failure so to do, the President shall cause to be prepared such estimates and data as are necessary to enable him to include in the budget estimates and statements in respect to the work of such department or establishment.

The foregoing provisions of law require that the departmental estimates, including supplemental and deficiency estimates, shall be prepared by the budget officer under the direction of the head of his department or establishment. They further require that the estimates shall be revised by the head of the department or establishment prior to submission to the Bureau of the Budget. The spirit of the budget law contemplates that the budget officer of each department or establishment shall represent the head thereof in the restriction of estimates to economical figures, and in such other fiscal operations as may be necessary from time to time in the administration of the budget law, and to this end that the budget officer should report direct to and perform his work directly under the head of his department or establishment. This should not be construed as investing in budget officers any powers or authorities which properly devolve upon the heads of bureaus or divisions within a department or establishment, but is intended solely to indicate that the duties devolving upon budget officers, as such, should be performed directly under the head of the department or establishment. It is essential, of course, that there be full and complete cooperation between budget officers and the heads of the operating, administrative, or supervisory bureaus or agencies within a department or establishment.

To the end that nothing may interfere with the responsibilities devolving upon budget officers, it is desirable that the heads of departments and establishments clothe their budget officers with authority to call for such information and data from the several divisions and branches of the departments and establishments as may be necessary to enable the budget officers to prepare the estimates under the direction of the heads of the departments and establishments. It is similarly desired that the plans and policies formulated by the heads of departments and establishments as the basis of estimates for appropria-

tions be communicated to the budget officers and through them communicated, by and with the authority of the heads of the departments and establishments, to the several divisions or branches of the departments and establishments where such communication is necessary.

The adoption of the general procedure as above outlined will enable the Director of the Budget to obtain from budget officers definite and accurate information at all times concerning departmental estimates or the requirements upon which departmental estimates are based, and there will be avoided the lost motion which might be occasioned if budget officers were not made the medium of the head of a department or establishment by or through which all information essential to the preparation of estimates would be transmitted and received.

EXECUTIVE REGULATIONS.

The Executive regulations provided by the budget law to be issued by the President as governing the operations of the Bureau of the Budget have been a matter of evolution arising out of the new environment of the Budget Bureau and the determination of the President to use it as an agency for the imposition of Executive pressure. It would have been impractical for the President to have drawn these regulations at the inception of the work of the bureau. Having directed the bureau to proceed along certain lines, he has issued such regulations as, in his judgment, were necessary, after a report to him by the bureau of the authority required as determined by its experience.

The Executive purpose which underlies these budget regulations, in addition to outlining the method of procedure under the express terms of the budget law, was to secure the machinery for the transmission of Executive policy and control in the routine business of the Government such as exists in any well-organized private business organization. It could only be determined from the actual experience of the bureau just where latent opposition having its roots in human nature and in a century of undisturbed departmental independence would show itself to the imposition of Executive authority along the lines of proper coordination and unified business policy. The bureau has, under these regulations, the same standing which similar agencies in private business must have to their heads to successfully function.

DEFICIENCY APPROPRIATIONS.

The effect of continuous Executive attention and pressure accompanying an Executive plan for economical and efficient methods upon the old custom on the part of the departments of an easy reli-

ance upon deficiency and supplemental appropriations should be emphasized. It is difficult to overstate the influence upon the current administration of governmental business of a determined attitude on the part of the Chief Executive against requests for deficiency appropriations. The head of a department or establishment will endeavor to evade, in every possible way, the asking for a deficiency appropriation, and his one best way is by the reduction of expenses and the more efficient administration of his department.

The Director of the Budget feels confident, therefore, that the estimate for expenditures for 1923, upon which the budget is based, will not be increased except through appropriations initiated by Congress or by the Executive as a result of emergency or unforeseen conditions arising after the preparation of the budget.

There exists in Government now, because of the attitude of the Executive, a prime essential in the successful functioning of all private and public business organizations, to wit, a continuing strong sense of responsibility to the policy and business plan of the organization as imposed by the Executive head. In any private business organization, in proportion as a lack of responsibility to the Executive head develops in the minds of subordinate officials of departments, the efficiency of the organization diminishes. There can not be, of course, in an organization as large as the Government, a continuous contact with the executive head himself in the matter of the details of functioning in the subordinate business units. There is in every properly organized business organization decentralization in connection with authority over the method of the functioning of a subordinate department, but machinery exists by which the head of the subordinate department is at all times, through contact and explanation, thoroughly advised of the general policy of the organization in accordance with which the activities of its subordinate units are to be carried on.

The Cabinet is one agency for the establishment by the Chief Executive of his business policy. He has made the Bureau of the Budget another agency so far only as the conduct of the routine business of the Government is concerned. The coordinating organizations created by Executive order are also means of supplying the departments the contact with the business policy of the Chief Executive as it relates to routine business.

The continuity of Executive pressure through these agencies upon the body of the business organization is certain to be reflected in an almost complete cessation of the habit of reliance upon deficiency appropriations. Besides preventing requests for deficiency appropriations, the imposition of Executive pressure along the line of a unified governmental business policy, and the information developed by the contact provided by the coordinating agencies be-

tween the departments, bring about a comparison of standards of expenditures and efficiency, with resulting improvement. This contact also encourages initiative in suggestions from the body of the different organizations along the lines of proper coordinating action.

There are now implanted in the minds of the business organization of the Government three principles:

First, that the business organization of Government hereafter assumes that the minimum amount of money to be expended in any fiscal year is not of necessity the sum appropriated in advance by Congress, but the smallest amount upon which the business of the Government can be efficiently administered under the program outlined by Congress.

Second, that there should not be in the minds of the business administrators of Government a too easy reliance upon the custom of deficiency appropriations.

Third, that where Congress has directed the expenditure of certain sums for specific purposes, an Executive pressure will now be exerted for more efficient and economical administration in order to produce greater results from the given expenditure, and also, wherever possible, to complete the given project for a less amount than the total appropriated for the purpose.

Similar rules obtain in every well-organized private business institution. That they have not heretofore characterized the business operations of Government has been because of the absence of Executive control and the habit of department heads of appealing direct to Congress, unsubjected to any business plan made in the interests of the Government as a whole, their action being determined by their conception of the needs of their department or establishment as an independent organization. In this attitude of the Chief Executive lies the hope and expectation of a great lessening of the amounts requested under deficiency appropriations.

REGROUPING OF ACTIVITIES.

Section 209 of the budget law provides that—

The bureau, when directed by the President, shall make a detailed study of the departments and establishments for the purpose of enabling the President to determine what changes (with a view of securing greater economy and efficiency in the conduct of the public service) should be made in (1) * * * (2) * * * (3) the assignment of particular activities to particular services, or (4) the regrouping of services.

By joint resolution of December 29, 1920, Congress has provided for the organization of a "Joint Committee on Reorganization to make a survey of the administrative services of the Government for the purpose of securing all pertinent facts concerning their powers and duties and distribution among the several executive depart-

ments and their overlapping and duplication of authority; also, to determine what distribution of activities should be made among the several services with a view to the proper correlations of the same, and what departmental regrouping of services should be made." This joint resolution was supplemented on May 5, 1921, by another authorizing the President to appoint a representative of the Executive to cooperate with this joint committee.

In order to prevent an embarrassing overlapping and duplication of activities between this congressional joint committee and the Bureau of the Budget the President, at the suggestion of the Director of the Budget, concurred in a recommendation that the consideration of a general regrouping of activities should be left to the joint committee, who could, in their discretion, call upon the Bureau of the Budget to act for them as an agent in gathering information. Since, at this date, the report of the joint congressional committee is not available, the budget herewith transmitted is necessarily framed upon the assumption of the continuance of normal activities of the Government already in existence and as now constituted. The alternative budget, except as to changes in form only, is likewise based upon the same assumption. If the report of the joint committee is accepted in principle and followed by appropriate legislation, or if any of the existing proposals for the reclassification of the salaries of civilian employees should be enacted into law, such legislation would greatly simplify the preparation of the budget in future years.

Neither the budget nor the alternative budget, therefore, contain any recommendations as to the elimination or regrouping of activities.

There exists in the present grouping of activities under the departments a juxtaposition in many cases of activities so entirely unrelated to each other in their nature and scope that a regrouping of them will result in not only a larger measure of direct coordination by a single supervising authority, but in a more effective common functioning.

The great waste and extravagance heretofore existing in governmental business administration, however, has not resulted so much from an admittedly improper grouping of activities in certain departments as it has from a complete lack of Executive control imposing coordination between departments and establishments themselves. From his contact with the departments and establishments of the Government the Director of the Budget is glad to state that as a rule they operate with efficiency and with a considerable degree of economy, considered as independent organizations. In so far as the regrouping of scattered activities under one department head imposes in him a power of coordination by order, regrouping is in

the interests both of efficiency and economy. It must be remembered, however, that there is a limit, in a Government so large as this, to effective regrouping. In every well-organized business institution there must be, of necessity, in some of its constituent parts, certain agencies which function for the benefit of the part, to enable it properly to fulfill its relation to the whole. What is, therefore, an apparent separation among the constituent parts of a business organization of any given activity is often because the resulting efficiency of the part is more important than any economy which would be produced by the consolidation of the activity.

For example, if the Secret Service of the United States, now divided into many separate independent agencies responsible to different department heads, should be consolidated as a whole, the resulting economy in expenditure might produce an inefficiency in departmental functioning wholly incommensurate with the savings effected. Centuries of evolution in military organization have preserved the principle that in any separate service there must be a continuing responsibility upon any agent responsible for supply directly to the representative of the service at the point of necessity. At the cost of certain theoretical economy each department, to be kept in the most efficient condition, must have reserved to it a complete control over certain vital functions. The secret service of the Post Office Department and of the Treasury Department, for instance, are highly specialized. The instructions of the head of either of these departments to the agents of a consolidated national Secret Service would probably not be carried out as effectively and promptly as where there is a direct responsibility and dependence on the part of the agent to the head of the concerned department. Pressure, to be most effective, must come from the point of necessity, direct upon the agent upon whom is the responsibility for meeting it.

The coordinating control exercised in the Government business organization by coordinating agencies, and in the military organization by the General Staff, in no wise implies a substitution of a central body for the separate departments or services. Whether a regrouping of certain governmental activities will result in economy or not, great care must be taken under a general plan to not build up central organizations to take over activities heretofore scattered among the departments where such a course will break down, to a dangerous extent, the autonomy of the separate departments.

In all successful business organizations there is a compromise, determined by experience, between a complete centralization of each activity and its decentralization. A regrouping of activities should therefore, in the first instance, not be accompanied by plans setting up new organizations to take over, in their entirety, certain functions now separately exercised by the independent departments

until the practical effect of such a course has had most careful consideration from the standpoint of the resulting effect on efficiency.

THE RELATION OF A UNIFORM SYSTEM OF ACCOUNTING TO THE PREPARATION OF THE BUDGET AND ITS CONSIDERATION BY CONGRESS.

The purpose of the budget act is to enable the President, as the responsible head of the administration of the Government, to present to Congress an annual business program which shall contain the necessary information concerning the financial requirements of all the departments and establishments of the Government, and the resources from which this program of expenditures may be met, in such form as clearly to indicate the application of business principles to the Government's administrative activities.

One of the most important aids in budget making lies in the system of accounts. The object of keeping accounts is twofold: First, to furnish an open record of the financial transactions of the officers of the Government charged with the responsibility of spending public moneys; and, second, to furnish the means of holding the disbursing officer to the faithful discharge of his duties. The first relates to information, and the second relates to control, the control being exercised through the critical functions of audit operating on the accounts. The Bureau of the Budget is primarily concerned with the information feature of accounting, while the general accounting office is primarily concerned with the control aspect.

The detailed preparation of the budget is largely based upon the accounts. The presentation of the estimates must necessarily follow the form of the accounts. If there be confusion in the system of accounts it will reappear in the budget. A uniform system of accounts is, therefore, essential to the intelligent preparation of the budget in whatever form the latter may be eventually presented. The records of the detailed receipts and expenditures of public money should be kept in accordance with some uniform classification in order that (1) the requirements of the different departments and establishments may be fully and readily compared; (2) statements of expenditure for the same objects may be stated in identical language in each spending office, thus facilitating easy, rapid, and intelligent examination and control; (3) to furnish a basis for the estimates, the appropriation acts, the reporting of financial data, and the audit—all upon a uniform system; and (4) to enable a sufficiently concrete picture of the total financial operations of the Government to be assembled within a reasonable compass, thus greatly facilitating the examination of the budget by Congress and eliminating the necessity for much detailed examination of witnesses.

At the present time there is no such uniform classification in use by all departments, and the established practice of many years varies widely in the different departments. Indeed, in the majority of cases there is no clear distinction drawn between expenditures of such widely different character as those for ordinary current expenses of operation and expenditures for the acquisition of property which increases the permanent assets of the country.

There is also no uniformity in nomenclature. Accounts are kept for identical objects of expenditure under various names, and this variety has naturally found its way into the estimates, into the appropriation acts, and into departmental reports of receipts and expenditures. For example, "Contingent expenses" may include one class of objects for one department and another class for another. The same is true of the loose terms "General expenses," "Miscellaneous expenses," and "Necessary expenses." Each organization unit has, to a considerable extent, its own system of accounts. Congress has attempted to control this situation by minute and specific designations and limitations for each appropriation in the appropriation acts, but this effort at legislative control has, as is generally conceded, broken down. It perhaps did operate with some degree of effectiveness when the Government organization was relatively small and the expenditures but a fraction of the present annual outlay.

It is strongly urged that the Comptroller General prescribe the forms, systems, and procedure for administrative appropriation and fund accounting, including a uniform standardized classification for use in the several departments and establishments of the Government, and that this uniform system and standardized classification be enforced through the administrative examination of fiscal officers' accounts and claims against the United States. This will permit the preparation of the budget and the making of appropriations, as well as the reports of all receipts and expenditures of all departments, in such form as to be clearly intelligible.

This procedure would not only permit a careful analysis of the expenditures of each department or establishment by its own administrative officials, and a more rapid and intelligent audit on the part of the Comptroller General, but would also permit the President, through the Bureau of the Budget, to make intelligent comparisons between the different departments and establishments, as well as to furnish in much more detailed and instructive manner the information necessary to intelligently modify requests for appropriations in such a way as to conform with the administrative policy. It would also greatly shorten the labors of the committees of Congress dealing with appropriations and the Congress in consideration and passage of these supply bills.

The essential elements of such a classification fall into five groups:

1. Organization units.
2. Functions or activities.
3. Character of expenditure.
4. Object of expenditure.
5. Funds.

The classification by organization units refers to the setting up of all records and accounts separately for each executive department or independent commission, board, bureau, office, agency, or other establishment of the Government. This primary classification is crudely accomplished under existing practices.

Classification by functions involves a subdivision of the classification by organization units with reference to the results to be accomplished by each subdivision of the department or establishment which may be devoted to the accomplishment of a separate function or series of functions. This classification by functions is accomplished under existing practices to a certain extent, but since in the development of various organizations many subdivisions or units of organization have developed a plurality of functions in some cases not closely related, a redistribution, or at least a further division, of such functions will be of benefit.

The classification by character of expenditures involves a distinction between expenditures of a routine or recurrent character and expenditures involving the acquisition of property or other assets. A further analysis by character should be made under each of the heads mentioned. For instance, the routine or recurrent expenses should be divided into—

- Administrative expenses.
- Operating expenses.
- Fixed charges.
- Repairs.
- Replacements, etc.

The acquisition group should be further classified under such headings as:

- Real property.
- Investments in securities.
- Loans to foreign Governments, etc.

The classification by objects of expenditure involves a distinction referring particularly to the class of object or service purchased and would involve such headings as:

- Compensation for personal services.
- For services other than personal.
- For materials and supplies.
- For buildings and structures, etc.

The classification by funds involves a distinction with regard to the class of funds from which expenditures are made and would involve such heads as:

General funds.

Loan funds.

Special trust funds.

Working capital (or revolving) funds.

The first four of these classifications bear a progressive relationship to each other. That is, total expenditures would be divided according to organization units; the expenditures of organization units would be divided according to functions; the expenditures according to functions would be divided according to character; and the expenditures according to character would be divided according to object.

The fifth classification, by funds from which the expenditures are made, would be shown separately in the nature of a recapitulation, and the expenditures from each fund classified as far as possible by organization unit, character, and function.

While such a classification could not be thoroughly and satisfactorily developed without trial and modification in the light of actual experience in its use, a very reasonable basis for its institution can undoubtedly be established from a study of various municipal and commercial classifications which have been highly developed for the use of such organizations. These classifications which are in satisfactory operation do not cover so wide a scope as the multitudinous activities of the Federal Government, but by considering classifications referring to various types of activity, and the reference of a tentative classification to the departments and officials concerned, it is felt that a classification can be established which will require only minor readjustments in the light of experience.

Section 309 of the budget and accounting act, 1921, directs the Comptroller General to prescribe the forms, systems, and procedure for administrative appropriation and fund accounting in the several departments and establishments, and for the administrative examination of fiscal officers' accounts and claims against the United States. The office of the Comptroller General of the United States has but recently been established and as a consequence this has not yet been done, but it is understood that the Comptroller General has the matter under consideration.

Until such a system is established it will be very difficult to make an intelligent analysis of the operations and other expenditures of the several departments and establishments, and since such analysis frequently furnishes the only possible basis for the intelligent formulation of future policy, this matter is of vital importance, not only

to the development of the effective use of the Bureau of the Budget, but also to the saving of time of the Congress in its careful examination of the budget.

The institution and enforcement of this system will permit the Comptroller General to prepare comparative statements of the operations of the various departments and establishments in such a way as to show Congress where efficient operation is obtained and where improvement should be required. It will also permit a comparison of the actual expenditures with the estimates upon which the appropriations were based, not simply in total or by broad classifications varying with each department, but in detail which will apply equally to all departments.

CONCLUSION.

In making this report the Director of the Budget will state that his connection with the bureau is limited as to time, in accordance with an understanding which he had with the President at the time of his appointment. His purpose in making this announcement at this time is to emphasize the fact that his recommendations are made in an impersonal way, with fundamental business principles and their proper preservation in their application to governmental business administration alone in mind.

The Executive regulations recommended, the precedents, customs, and mode of procedure instituted during the operations of the Budget Bureau have all been considered in relation to the fact that it is to be a continuing, impartial, impersonal, business agency of the Government and not at all with any regard to their effect upon the existing personnel of the administration or of the bureau. It is with the same general purpose of preserving the effectiveness of the Budget Bureau as a business machine that Congress should approach any question in which is involved a consideration of its activities.

The Director of the Budget from the inception of the bureau, in connection with its work, has received assistance impartially from members of both parties in Congress, from business men, and from employees of the Government. They have joined with him in an effort to make the bureau useful, not in any way as concerned with general policy either of Government or of political parties, but as a disinterested agency covering routine business matters alone. The initiative necessarily involved in suggesting and emphasizing the application of fundamental business principles to the uncoordinated system of routine business of Government has naturally resulted in a temporary and undue prominence being given to the activities of the bureau in the public mind and in the mind of the business administration of the Government, such as should not prop-

erly attach to it in the future in the interests of its efficiency. Had not the former uncoordinated condition of the Government's business been productive of such maladministration, the institution of the Bureau of the Budget and the coordinating agencies created by Executive order would have been accomplished with the corresponding lack of discussion which would characterize the simple and natural application of sound business principles to a mismanaged private organization.

The Director of the Budget desires to express his appreciation of the invaluable assistance received from his associates in the Bureau of the Budget.

To Mr. William T. Abbott, the indefatigable, resourceful, and able Assistant Director of the Budget; to those two great coordinators of the American Expeditionary Forces, Gen. George van Horn Moseley, assistant to the director, formerly assistant chief of staff, G-4, G. H. Q., and Col. Henry C. Smither, chief coordinator, general supply, formerly assistant chief of staff, G-4, S. O. S.; to that indispensable, able, and constructive assistant to the director, Lieut. Col. J. C. Roop; to Mr. Donald B. MacLeod, Chief, Division of Estimates, that man of ability and long experience upon whom we have so greatly leaned; to my inseparable associate of the long years, Lieut. Francis J. Kilkenny, assistant to the director; to Mr. Charles W. Collins, counsel; to Mr. E. J. W. Proffitt, special investigator; to Mr. B. A. Mattingly, special investigator; to Mr. Howard Baker, assistant to the director; to Mr. H. Guy Chase, secretary to the director, whose faithful services recognized no restrictions upon time and labor--the Director of the Budget desires to make a public expression both of his deep obligation and high regard.

To the Hon. Francis E. Warren, chairman of the Committee on Appropriations, United States Senate, and to Hon. Martin B. Madden, the present able chairman of the Committee on Appropriations, House of Representatives, whose close cooperation with the Bureau of the Budget is so indispensable to its proper functioning, the Director of the Budget desires to make public expression of his appreciation of their assistance.

To Brig. Gen. Herbert M. Lord, Chief Finance Officer of the United States Army, upon whose advice, time, ability, and great experience throughout the entire tenure of his office the Director of the Budget has so continually drawn, he desires to publicly express his gratitude; as also to Brig. Gen. Charles E. Sawyer, who has been a constant and successful participant and counselor in the work; to Hon. James W. Good, one of the founders of the budget law, and to Hon. Swagar Sherley, who has given so generously of his time and invaluable counsel, both former chairmen of the Committee on Appropriations, House of Representatives; to Mr. Henry P. Seidemann, of the Institute for Government Research; and to Mr. Marcellus C. Sheild and

Mr. John C. Pugh, clerk and assistant clerk of the Committee on Appropriations, House of Representatives.

And finally, sir, to the President of the United States, to whose assumption of responsibility as the business head of the Government, in connection with the budget law, is due whatever improvement has been achieved in the administration of governmental business, and in whose attitude and great interest lies the hope of further improvement, I desire to express a deep sense of obligation for unstinted confidence, support, and encouragement.

CHARLES G. DAVES,
Director of the Bureau of the Budget.

DECEMBER 5, 1921.

EXECUTIVE ORDER.

I hereby prescribe the following rules and regulations with regard to the preparation and submission of the budget and the conduct of the Bureau of the Budget:

Revision of the estimates.—Pursuant to the provisions of section 207 of the budget and accounting act, the Bureau of the Budget, under the supervision of the Director and subject to review and determination by the President, shall assemble, revise, reduce, or increase the estimates of the departments or establishments as submitted to the bureau. The Director of the Budget shall determine the plan as to the contents, order, and arrangement of the estimates. In increasing or decreasing the estimates of the appropriations necessary for any department or establishment he shall take into consideration any proper reduction in working forces, reduction in compensation, and the elimination of unnecessary activities. Estimates, however, in respect to the principal or interest of the public debt shall be subject to revision only with the concurrence of the Secretary of the Treasury. For the purpose of assisting the President with information in the formation of business policy for the Government the estimates of appropriations and of expenditures and receipts, when assembled and revised by the bureau, shall be transmitted by the director to the President as soon as possible after their receipt from the departments and establishments by the bureau, in the form of a consolidated statement of estimated revenue and expenditure, with supporting schedules.

2. Concurrently with the transmission of the estimates by the Director of the Bureau of the Budget to the President, the Secretary of the Treasury shall transmit a statement for the information of the President, showing, from the point of view of the Treasury, the relation between the estimated appropriations and expenditures and the estimated receipts of the Government. This statement shall contain all necessary memoranda and tables, together with such other comments as may be pertinent to the subject matter of the budget, including suggestions and recommendations as to how the revenue needs of the Government may be met. The Secretary of the Treasury shall at the same time prepare and transmit to the President, for incorporation in the budget, the figures for the actual expenditures of the Government for the last completed fiscal year, the figures for the actual and estimated receipts for the last, the current, and the ensuing fiscal years, required by subdivisions (b), (c), and (d) of section 201 of the budget and accounting act, and also the financial statements required by the provisions of subdivisions (f), (g), and (h) of the same section. The Secretary of the Treasury shall, if the estimated receipts for the ensuing fiscal year, on the basis of laws existing at the time

the budget is transmitted, plus the estimated amounts in the Treasury at the close of the fiscal year in progress available for expenditure in the ensuing fiscal year, are less than the estimated expenditures for the ensuing fiscal year, make recommendations to the President for new taxes, loans, or other appropriate action to meet the estimated deficiency. If, on the other hand, the aggregate of such estimated receipts and such estimated amounts in the Treasury is greater than such estimated expenditures for the ensuing fiscal year, the Secretary, for the information of the President, shall make such recommendations and suggest such financial measures as in his opinion the public interest may require. The Director of the Budget shall make available to the Secretary of the Treasury, at his request, any information in the possession of the bureau or any of its employees in respect to the receipts and expenditures of the Government and any other matters that may be pertinent to the business of the Treasury. The Secretary of the Treasury shall make available to the Director of the Budget, at his request, any information in the possession of the Treasury or any of its employees in respect to the receipts and expenditures of the Government and any other matters that may be pertinent to the business of the budget.

3. The Director of the Budget, in gathering information for the use of the President, acts for the President, and his calls upon the chiefs of bureaus and other administrative officers for purposes of consultation or information take precedence over the Cabinet head of a department or any head of an independent organization.

4. The budget officer in each department, being appointed by the Cabinet head, will present to the Director of the Budget the views of the Cabinet head upon the wisdom of conclusions drawn by the Director of the Budget for the use of the Chief Executive and Congress; but, as in the case of bureau chiefs and other officers, the call of the Director of the Budget for their presence and advice takes precedence over the Cabinet head.

5. The coordinating agencies established by the Executive are for the purpose of enabling the President, in matters of routine business, to so coordinate the activities of the different departments and establishments as will insure the most economical and efficient expenditure of moneys appropriated by Congress. They provide the machinery through which, with the minimum of obstruction and delay, the Executive may impose a unified plan of governmental routine business. The Director of the Bureau of the Budget shall have general supervision over the work of the coordinating agencies heretofore created by Executive order, subject to such instructions as may hereafter be issued by the President.

6. The chief coordinator, general supply, appointed under the provisions of Executive order of July 27, 1921, shall exercise general supervision, subject to the Director of the Budget, over the coordination of the routine business activities of the governmental organization, with particular attention to methods of purchasing, liquidation of supplies, specification of materials, advertising, warehousing, employment, manufacturing, disbursing, and other ordinary business activities of the Government.

7. The decision of the chief coordinator, in all matters of coordination, shall be transmitted to the heads of departments or independent establishments concerned, and shall be final, except that such heads may appeal to the Director of the Budget within four days after the receipt of notice of the coordinating order, and if not sustained by the Director of the Budget may appeal to the President of the United States within six days after the decision of the Director of the Budget. If such appeal is not taken or is

not sustained, the decision in question shall stand, and shall be published to those affected by the heads of the departments concerned.

8. The heads of departments and subordinate officials will retain all present responsibility with respect to individual business transactions, subject to such policies as may be imposed in the manner indicated above.

9. All persons heretofore or hereafter appointed to duty under the chief coordinator, either in Washington or in the corps areas of the country, shall be regarded as so appointed or detailed by the President of the United States, and they shall not be subject to reassignment by department heads except as authorized by Executive order. Such persons shall not be required to submit any report to any department except such as may be required as to their location or assignment or for purposes of pay, the intention being to prevent any interference with their direct responsibility to the President of the United States and his agents, the Director of the Budget and the chief coordinator. The above does not apply to departmental representatives on the various coordinating boards, and in case of those detailed to coordinating duty in addition to other duties it applies only with respect to such coordinating duty.

10. All bureau chiefs and employees of the executive Government are directed to furnish any available information desired for purposes of coordination or to attend any conference on coordination at the request of the chief coordinator. It shall not be necessary for any duly authorized representative of the Director of the Budget, of the chief coordinator or any coordinating authority established by Executive order to secure the approval of the head of a department or military or naval authority of a request for information for use in connection with the activities of the coordinating bodies. The duly authorized agents of the Director of the Budget, of the chief coordinator, or of the coordinating boards shall have access to all books and papers of the various departments and independent establishments which contain any information pertinent to the subject under consideration for coordination.

11. All departments and establishments must be so organized for the transaction of matters of routine business as to facilitate their proper cooperation with the general coordinating agencies. Where the existing form of the organization of the routine business of the departments and establishments or the form of reorganization suggested by the head of the department or establishment does not, in the judgment of the Director of the Bureau of the Budget, properly meet the requirements of the situation, the Director of the Bureau of the Budget shall recommend to the President the form which, in his judgment, such departmental organization should take to that end. In his final determination of the form of organization the President will then consider the recommendations of the department head or head of the independent establishment concurrently with those of the Director of the Budget.

12. All coordinating agencies made subject by Executive order to the supervision of the Director of the Budget shall make quarterly reports to him of their activities for transmission by him to the President.

WARREN G. HARDING.

THE WHITE HOUSE,

November 8, 1921.

DIGEST OF ORDERS AND CIRCULARS.

BUREAU OF THE BUDGET.

Circular No. 3, June 27, 1921: Requests heads and assistant heads of executive departments and independent establishments, chief clerks, chiefs and assistant chiefs of bureaus, etc., to be present at a meeting of the administrative organization of the Government held June 29, 1921.

Circular No. 1, June 29, 1921: Announces the four basic principles of budget operations in the United States.

No. 1. The Budget Bureau must be impartial, impersonal, and nonpolitical.

No. 2. The Director of the Budget has no responsibility in the matter of Government business administration under the law save for the administration of his own bureau; he is simply an adviser of the President and Congress in the matter of correcting business administration.

No. 3. The Director of the Budget in gathering information acts for the President and his calls upon the chiefs of bureaus, etc., for purposes of consultation or information take precedence over the Cabinet head of a department or any head of an independent organization.

No. 4. The budget representative in each department appointed by the Cabinet head will present to the Director of the Budget the views of the Cabinet head upon the wisdom of conclusions drawn by the Director of the Budget, and the call of the Director of the Budget for their presence and advice takes precedence over the Cabinet head.

Circular No. 11, June 30, 1921: Invites attention to budget and accounting act, section 214, paragraphs (a) and (b), and requests advice as to name, position, location, and telephone number of official in each department and establishment designated as budget officer to prepare departmental estimates and supplemental and deficiency estimates. Directs that replies be addressed to the Director of the Bureau of the Budget, Treasury Department, and marked "Budget Officer."

Circular No. 2, no date: Directs that bureau chiefs submit estimates to budget representatives at earliest possible moment, so that budget representatives and the Director of the Budget in consultation may prepare tentative new budget for the fiscal year ending June 30, 1922, by July 31, 1921. "While the first draft of the tentative budget as a whole should be completed by July 31, it will be continually revised during the year in the interest of economy and efficiency, and must always be considered as fixing the maximum of expenditure."

Circular No. 3, June 30, 1921: Directs budget officer of each department, etc., to attend meeting to be held in the office of the Director of the Budget, room 374, Treasury Building, on Friday, July 1, at 10.30 a. m., the meeting to be called to order by the President of the United States.

July 1, 1921: Copy of the President's brief address to the budget representatives at the meeting called in circular No. 3.

Circular No. 4, July 1, 1921: First budget regulations: (1) The budget officer for each department, etc., will secure from the head of each bureau or branch an estimate of the portion of the funds available for the fiscal year 1922 the expenditure of which is indispensable in carrying on the activities of such bureau or branch, and the resulting balance which may be saved under each appropriation, and will submit such estimates to the head of his department for approval or modification, thereafter communicating them to the Director of the Budget, who will, in his discretion, confer directly with the head of the department with a view to a modification of the estimates, or will make recommendations in regard thereto to the President.

(2) The estimated savings under the several appropriations will be submitted by the Director of the Budget to the President for his approval, and upon such approval the balances thus saved will be designated as a "General reserve" and so carried under their respective appropriation titles on the records of the Director of the Budget and of the department.

(3) The amount approved by the President for expenditure under an appropriation title shall be considered as the maximum available for obligation dur-

LVIII REPORT OF DIRECTOR OF BUREAU OF THE BUDGET.

ing the fiscal year. Estimates of expenditures, once approved, will be subject to further study and revision during the fiscal year and all possible additional savings will be effected. To this end the heads of bureaus will maintain upon their financial records additional sums reserved from obligations so that, if the developments of the fiscal year permit, these amounts may be added to the general reserve.

Circular No. 5, July 6, 1921: Heads of executive departments, etc., ordered to cause an immediate survey to be made of amount of material, supplies, and equipment not now being efficiently used. Departmental surplus for which a specific use within the current fiscal year is not foreseen must be turned over to the General Supply Committee of the Treasury Department for reissue to other branches of the Government service.

(2) A thorough investigation of all files must be made with a view to releasing any filing equipment not absolutely essential; active records to be consolidated and inactive records removed to less expensive transfer or storage cases.

(3) Only standard contract articles may be purchased in providing furniture and equipment for offices in such cases as Government property is not obtainable by transfer.

(4) Effort must be made to utilize such types and styles of equipment as are available from the surplus stock, and where no typewriters are available for reissue or transfer within the department, used typewriters in possession of the General Supply Committee of the Treasury Department must be utilized, irrespective of make.

Circular No. 6, July 5, 1921: Transmitting Form No. 1 to be used in preparation of revised budget for the fiscal year 1922, to be submitted to Director of Budget by July 15, 1921, and instructions for preparation of revised budget on this form.

Circular No. 7, July 8, 1921: Directing that whenever advertisements for bids are contemplated in connection with surplus property available for disposal, before such advertisements are made public copies of the same in the exact form in which intended to be published shall be sent to Surplus Property Division or corresponding agency of each executive department.

Circular No. 8, July 7, 1921: Calling for certain specified information as to indefinite appropriations and authorizations available for expenditures for fiscal year 1922 under existing law to be transmitted to the Director of the Budget by July 15, if possible.

Circular No. 9, July 11, 1921: Additional information in connection with statement required on Form 1; that is, omit increase in compensation and printing and binding paid from departmental and bureau allotments. Include permanent and indefinite appropriations for 1922; make no deductions in columns 3 and 5 on account of transfer to civil-service retirement and disability fund. Take care in the case of special and trust funds not to include credits in column 2 which may also appear as estimated appropriations and expenditures in column 3. Total appropriations for 1922 (listed) will be basis of column 3 and should be checked with totals made up by Bureau of the Budget before final completion of statement.

Circular No. 10, July 12, 1921: Calls for report as to what reports are to be discontinued under authority of second deficiency appropriation act for the year 1921, approved June 16, 1921 (quoted), and estimated savings to be effected thereby.

Circular No. 11, July 15, 1921: Instructions and sample form for submission of estimates of appropriations for annual budget and the schedules of expenditures to accompany the same.

July 15, 1921, no number: Directing purchasing agents to get in immediate touch with Shipping Board with an idea to seeing if any of their surplus material at Hog Island can be profitably used by another bureau.

Circular No. 12, July 21, 1921: Directing that sales of Government surplus property cease and all selling agencies dealing with the sale of Government surplus property be so notified until Executive order announcing institution of coordinating machinery shall be issued shortly.

This order does not apply to transfers of surplus property from one department of the Government to another and is not intended to prevent the departments from taking advantage of any exceptional or seasonal opportunities for the sale of property, especially perishable property.

Circular No. 13, July 21, 1921: Modifying requirements of Circular No. 7, copies of proposed advertisements for bids before publication should be sent to the following four departments, addressed as indicated, to comply with circular of July 18. When total value of supplies required at any one time aggregate less than \$100, informal inquiry will suffice.

United States Shipping Board, Director of Supply and Sales.

War Department, Director of Sales.

Navy Department, Bureau of Supplies and Accounts.

General Supply Committee, the chairman.

Circular No. 14, July 22, 1921: Relative to organization of permanent conference on printing, purpose, representative authority, and time of meeting.

Letter of July 23, 1921, in answer to one from Interior Department: Field-service requirements should be filed from General Supply Committee surplus only when required for use within economical shipping distance of Washington, D. C.

Committee does not crate furniture for shipment but delivers to ordering office.

When field offices are discontinued, all surplus furniture and supplies should be promptly reported to General Supply Committee, but should not be forwarded to General Supply Committee unless specific request is made for such shipment, as cost of packing and transportation might exceed value of articles in many cases.

Circular No. 15, July 27, 1921: United States divided into nine areas, corresponding to nine Army corps areas, and coordinator for general supplies selected for each area. Duties of such coordinator outlined. Office of chief coordinator, general supply, created in the office of the General Supply Committee, and his duties outlined. Director of purchases and a director of sales to be appointed in each executive department, duties, etc.

Circular No. 16, July 29, 1921: Designations of chief coordinator, Col. H. C. Smither, three assistants in his office; four officers for duty with corps areas; officers of Navy Department to be announced later.

Circular No. 17, August 2, 1921: Advance report of estimates of appropriations for fiscal year 1923, stated by appropriation titles and amounts only in order in which they will appear in regular estimates, to be furnished Director of Budget on or before September 1, 1921. New proposals to be briefly explained in accompanying note. Corresponding appropriations for fiscal year 1922 to be set opposite the amount of the estimates. Report to be made on estimate blank No. 1 and delivered to Division of Estimates, Bureau of the Budget. Is preliminary, and does not take the place of the regular submission of estimates on or before September 15.

Circular No. 18, August 17, 1921: Construes Executive order of August 27, 1919, as imposing upon the General Supply Committee duty of searching for

articles needed by departments where there is reason to believe that such articles can be spared by another department. Amends Budget Circular No. 7, making necessary to send inquiries only to General Supply Committee. Amends Budget Circular No. 13, eliminating necessity of referring requirements where total amount involved does not exceed \$100 and where good business judgment dictates that transfer is not economical.

Circular No. 19, August 17, 1921: Director of the Budget will not view with favor any salary increases or perfunctory enlargement of clerical forces. In preparing estimates for 1923 all possible economies relative to purchase and handling equipment and supplies, use of office space, limitation of printing, or any activities not absolutely necessary, should receive careful attention.

Circular No. 20, August 16, 1921: Whenever one department receives from another department under a law of general application material, equipment, lands, etc., which the law permits to be transferred without funds, an amount equal to the value of the properties transferred should be set aside by the receiving department in its "General reserve." (See Order No. 4, July 1, 1921.) When supplies are transferred from one department to another, they are to be used directly by department receiving them, unless otherwise specified by law.

Circular No. 21, August 16, 1921: Makes head of each department or establishment responsible for distribution within his department of Executive orders received from Bureau of the Budget.

Circular No. 22, August 18, 1921: The jurisdiction, control, and custody of Government-owned property vested by law in Secretary of the Treasury (30 Stat., 614) is extended to cover all rented premises outside District of Columbia and military reservations, except those specifically designated by law. Authority delegated to Secretary of the Treasury to be exercised through Supervising Architect. Secretary of the Treasury shall designate an official, with sufficient personnel, as surveyor general of real estate, who will act under general direction of chief coordinator general supply. The duties of the surveyor general of real estate will be to collect all necessary information pertaining to owned or leased real estate of whatsoever character or wheresoever situated, and to determine what changes should be made in interest of General Government. The surveyor general of real estate shall be assisted by area coordinators in collection of information, etc., and heads of departments shall furnish such information as he requests. He shall have power to assign and reassign to Federal officers and employees, in his discretion, offices and rooms in Federal buildings, but no such action will be taken until after conference with head of department. The surveyor general shall have authority, subject to approval of Secretary of the Treasury, to abrogate or terminate existing leases by negotiation, or notice, or other action thereunder. No leases of premises for Government uses for a period longer than one year or for an annual rental of more than \$500 shall be made except upon approval of surveyor general of real estate and Secretary of the Treasury. The Secretaries of War and Navy shall supply surveyor general of real estate with general information regarding Government-owned and leased property on Government reservations for use in economic adjustment and concentration of Government depots and housing facilities. It is not intended that the surveyor general interfere with allocation by heads of departments of their real estate for purpose of their departmental use, but to advise heads of departments and establishments of improvements suggested by records of his office.

Circular No. 23, August 18, 1921: It is manifestly to the best interests of the General Government at present to supply one department as far as possible from stocks of another department, although articles so furnished have not been

declared surplus, since some stocks are still abnormal and have not been adjusted to present conditions, irrespective of any apparent situations as to declared surpluses. Requests should be made on General Supply Committee and chief coordinator to take steps with view to having desired articles made available.

Circular No. 24, August 22, 1921: Director of the Budget should be furnished each month, not later than the 15th, a statement of total actual disbursement for preceding month; also statement of additions, if any, to "General reserve," or savings, as defined in paragraphs 2 and 3 of first Budget regulations. (Bureau of the Budget circular dated July 1, 1921.)

Circular No. 25, August 25, 1921: Federal Purchasing Board. There shall be organized in General Supply Committee a directorate of purchases to be known as the Federal purchasing board, to be composed of one representative from each department having authority to purchase supplies. The board will have assigned to it all questions of purchase of the several departments and establishments represented on it. While the power to purchase and coordinate purchases is centralized in the board, it shall be its policy to decentralize administration matters and actual execution of purchase. Such articles as are needed in common by all departments will be allocated by board to proper department best fitted, in its opinion, to perform that particular function for whole Government service. Board will endeavor to standardize requirements so that joint purchasing may be the rule. It shall be duty of board to formulate plans and policies designed to knit purchasing activities of the several departments into a Federal business association and to bring about business methods such as will effectively safeguard interests of the Government service and promote confidence of private business interests in dealing with the Government. The chief coordinator, who will act as chairman, will be responsible for efficiency of board.

Circular No. 26, August 25, 1921: Federal Liquidation Board: There shall be organized in the General Supply Committee a directorate of sales to be known as the Federal liquidation board, to be composed of one representative from each department having sales activities. Its duties shall be to formulate plans and policies designed to knit sales activities of the several Government departments concerned in liquidation of stocks into an association and bring about business methods such as will effectively safeguard the Government's interests and to promote confidence of private business interests in doing business with the Government. The chief coordinator will be responsible for efficiency of the board.

Circular No. 27, August 25, 1921: The efficient and economical management of the Government Printing Office requires that orders, so far as possible, be executed in order of receipt. Disarrangement of this plan by putting through orders for rush work results in extra expense, otherwise unnecessary, amounting to over \$300,000 annually. Orders for rush work, therefore, should be held down to a minimum and should receive approval of department representative of permanent conference on printing before being executed.

Circular No. 28, September 1, 1921: Requests examination and report of purchases and contracts made in June, 1921, to see that contracts and obligations have not been entered into in June for the purpose of leaving no unobligated balance to credit of bureau at the close of the fiscal year, and as check against further continuance of such practice.

Circular No. 29, September 2, 1921: Requests estimate of expenditures during year 1923 "out of unexpended or unobligated balances remaining to your credit from appropriations of previous years of every class except definite annual appropriations" not later than September 5.

LXII REPORT OF DIRECTOR OF BUREAU OF THE BUDGET.

Circular No. 30, September 8, 1921: Specific instructions for arriving at estimate called for in Circular No. 29.

Circular No. 31, September 12, 1921: Instructing department representative to attend meeting September 16, at which subject of coordination of motor transportation used by departments and independent establishments of Government in the District of Columbia will be discussed, and to be prepared to inform chief coordinator of number of motor vehicles now in use by department.

Circular No. 32, September 13, 1921: Requiring statements (a) of buildings rented within District of Columbia for use of Government, (b) of Government-owned buildings in District of Columbia, and (c) of employees below fair standard of "efficiency" to accompany annual estimates of appropriations to Bureau of Budget.

Circular No. 33, September 15, 1921: Calling for survey of all telephone equipment now in use and requesting six regulations re telephone service therein enumerated to be enforced.

Circular No. 34, September 19, 1921: Rescinding Circular No. 12 in so far as it directed the stopping and suspension of sales of Government property.

Circular No. 35, September 23, 1921: Requiring the head of each executive department, etc., to name representative in each area in which motor vehicles are in operation, said representative to inform area coordinator of location, kind, and number of all motor transportation, etc., and area coordinator will form plan for coordinating use of motor transport to meet interests of General Government.

Circular No. 36, September 28, 1921: Designating Col. Clarence O. Sherrill, officer in charge of public buildings and grounds, as coordinator motor transportation, District of Columbia, to carry out provisions of Circular No. 35.

Circular No. 37, October 4, 1921: Authorizing the chief coordinator, general supply, to exempt from the operation of Bureau of the Budget Circular No. 7, July 8, 1921, as amended by Circular No. 13 (par. 3), July 21, 1921, and Circular No. 18 (par. 3), August 17, 1921, such items as are known not to be in surplus in any department, such items as are obviously impractical of transfer due to distant location of the requiring agency, services required in connection with delivery, public service utilities, etc.; calls attention to the fact that responsibility rests with every department head to insure that every proposed purchase of his department not specifically exempted is forwarded to the General Supply Committee.

Circular No. 38, October 7, 1921: Instructing that if supplemental or deficiency appropriations are actually needed they be transmitted to Director of Bureau of the Budget for his investigation and recommendations before October 20, 1921. Letter of transmission and supporting documents should indicate clearly that there has been no waste in expenditures nor obligations incurred against either the letter or spirit of antideficiency act.

Circular No. 39, October 10, 1921: Transmits a communication from the Bureau of the Census regarding use of punching, sorting, and tabulating machines of the Census Bureau by other departments, with request that the matter be given consideration to determine whether such use can not be made with benefit to the Government as a whole.

Circular No. 40, October 11, 1921: Requests information as to how much "repay" printing will actually be required during the next fiscal year, giving proper consideration to the elimination of all documents and reports where the public benefit is not commensurate with the expense.

Circular No. 41, October 10, 1921: Creating the Federal traffic board for the purpose of effecting economies and better business administration throughout the Government services in the handling of passenger and freight shipments, as well as shipments by express and parcel post. The board is estab-

lished under the general supervision of the chief coordinator, general supply. It will make complete study of traffic problems in cooperation with representatives of the Interstate Commerce Commission and of the carriers. It will establish uniform classifications and plans for improving and standardizing methods of making shipments and settling accounts. The activities shall be directed by the coordinator for traffic under general direction of the chief coordinator, general supply. The head of each department and establishment shall immediately designate one representative to serve as a member of the board and report his name to the chief coordinator, general supply, who will call the initial meeting. Heads of departments and establishments will furnish the necessary information and clerical assistance. Classifications and instructions shall, as far as applicable and in conformity with the law, be binding on all departments and establishments. All questions of this character requiring remedial measures to be submitted to the coordinator for traffic for adjustment or the presentation of a complaint to the Interstate Commerce Commission. In the event of disagreement as to classifications or instructions or on methods of procedure, the case will be submitted to the chief coordinator, general supply, whose decision shall be final, subject only to an appeal to the head of the department concerned.

Circular No. 42, October 10, 1921: Establishing the Federal specifications board for the purpose of coordination and economy in the procurement of material and services used by the Government under specifications prepared in the various branches thereof, to avoid duplication of effort, and the better utilization of resources and industries. It will compile and adopt standard specifications and bring specifications into harmony with the best commercial practice wherever conditions permit. The Director of the Bureau of Standards is ex officio chairman of the board, and shall select committees and direct meetings, subject to the approval of the chief coordinator, general supply. The head of each department and establishment purchasing materials or services in accordance with specifications prepared in such department shall immediately designate one representative to serve as a member of the Federal specifications board and such assistants as may be necessary. The chief coordinator, general supply, shall call the initial meeting of the board. Specifications prepared and adopted by the board and approved by the Director of the Bureau of Standards shall as far as applicable be binding upon all departments and establishments. In the event of disagreement the decision of the chief coordinator, general supply, shall be final, subject only to appeal to the head of the department concerned.

Circular No. 43, October 17, 1921: Designating Commander C. G. Mayo, United States Navy, as coordinator for traffic. (See Circular No. 41, Oct. 10, 1921.)

Circular No. 44, November 1, 1921: Creating Federal board of hospitalization for the purpose of coordinating the separate hospitalization activities of the Army, the Navy, the Public Health Service, St. Elizabeths Hospital, the National Home for Disabled Volunteer Soldiers, Indian affairs, and Veterans' Bureau. The board shall consist of a chief coordinator, designated by the President, who shall be president of the board, Surgeon General of the Army, Surgeon General of the Navy, Surgeon General of the Public Health Service, the Superintendent St. Elizabeths Hospital, the president Board of Managers National Home for Disabled Volunteer Soldiers, the Commissioner of Indian Affairs, and the Director of the United States Veterans' Bureau. The board shall consider all questions relative to coordination of hospitalization of the departments represented. It shall standardize requirements, expedite inter-departmental use of existing facilities, and eliminate duplication in the purchase of supplies and the erection of buildings. It shall formulate plans to knit together in proper coordination the activities of the several departments

LXIV REPORT OF DIRECTOR OF BUREAU OF THE BUDGET.

and establishments with a view to safeguarding the interests of the Government and to increasing the usefulness and efficiency of the several organizations, and shall report to the President thereon. The president of the board shall be responsible for its efficiency and for developing its activities along practical lines. His decision shall be final, subject to appeal by a member to his own immediate superior.

Circular No. 45, November 3, 1921: Appointing Gen. Charles E. Sawyer chief coordinator of the board of hospitalization. (See Circular No. 44.)

Circular No. 46 (dated Nov. 9, 1921): Directing that the heads of departments and establishments shall, when calling for bids for manufactured articles, forward a copy of the circular advertisement to the War Department Arsenal Orders Branch in order to obtain bids where the War Department arsenals can economically manufacture such articles. Failure to submit an estimate or reply to an inquiry before the time designated for opening bids will indicate the inability of the War Department to manufacture the articles under consideration. The Arsenal Orders Branch will furnish full information regarding the conditions under which orders for manufacture above referred to are accepted.

Circular No. 47, November 22, 1921: Creates an interdepartmental board of contracts and adjustments, for the purpose of standardizing contract forms and securing the adoption of uniform policies in connection therewith. Each department is directed to organize a department board for similar purposes. The chairmen of the several department boards, together with representatives of the independent establishments, constitute the interdepartmental board of contracts and adjustments. The chairman of the board shall be the representative of the Secretary of the Treasury, and the board shall adopt such by-laws and appoint such committees and subcommittees as may be necessary and advisable. The functions of the board shall be—

First, to standardize forms and methods of contract letting, with a view to fostering economy and promptness of execution and eliminating hazards to be assumed by the contractor which have hitherto increased the cost of Government work.

Second, to recommend general policies in the settlement of outstanding obligations arising out of contracts.

Third, in an advisory capacity, when requested by the head of a department or establishment, to review and revise important contracts; to advise officers concerning interpretation of contracts and to assist in the negotiation of contracts.

The chairman of the board is charged with the responsibility for its efficient operation and development. His decision will be final, subject to appeal by any member to the head of his department or establishment, whose decision shall then be final.

BUDGET STATEMENTS.

71796--21—v

A1

BUDGET STATEMENT NO. 1.

Balanced statement of (1) the condition of the Treasury at the end of the fiscal year 1921, (2) the estimated condition of the Treasury at the end of the fiscal year in progress, 1922, and (3) the estimated condition of the Treasury at the end of the ensuing fiscal year, 1923.

6	A25 GRAND TOTAL EXPENDITURES , including trust fund investments, sinking fund, and other reduction in principal of the public debt, payable out of ordinary revenue ¹	3,505,754,727.00	3,967,922,366.00	5,538,040,689.30
3	A19 B. Ordinary receipts:			
	1. Internal-revenue receipts—			
	1. Income and profits tax.....	1,715,000,000.00	2,110,000,000.00	3,206,046,157.74
	2. Miscellaneous.....	896,000,000.00	1,104,500,000.00	1,390,380,823.28
	Total internal-revenue receipts ²	2,611,000,000.00	3,214,500,000.00	4,596,426,981.02
	2. Customs receipts.....	330,000,000.00	275,000,000.00	308,564,391.00
	3. Miscellaneous receipts, including Panama Canal and trust funds.....	397,182,750.00	453,953,663.00	719,941,588.89
	A20 GRAND TOTAL ORDINARY RECEIPTS ¹	3,338,182,750.00	3,943,453,663.00	5,624,932,960.91
	C. Excess of ordinary receipts over expenditures payable therefrom.....			86,892,271.61
	D. Excess of estimated expenditures payable from ordinary receipts over ordinary receipts.....	167,571,977.00	24,468,703.00	
	E. Balance in general fund at beginning of year.....	420,125,250.84	444,593,953.84	357,701,682.23
11	A41 F. Balance in general fund at end of year.....	252,553,273.84	420,125,250.84	³ 444,593,953.84

¹ To reconcile these totals with those shown in the Treasury report, it is necessary to add to the above figures for both receipts and expenditures for the fiscal year 1922 the sum of \$25,000,000 and for the fiscal year 1923, \$7,000,000, on account of reduction of capital stock of the United States Grain Corporation. This transaction for 1922 occurred after the preparation of the statement of estimated expenditures for 1922, made by the Secretary of the Treasury, Aug. 4, 1921, amounting to the sum of \$4,550,000,000.

² Internal revenue collections for the fiscal years 1923 and 1922 are estimated on basis of act of Nov. 23, 1921.

³ To agree with Treasury Statement of June 30, 1921, add the balance of \$105,084,151.92, which represents the balance of public debt receipts (loan funds) on June 30, 1921.

BUDGET STATEMENT NO. 2.

Estimated expenditures, fiscal year 1923, compared with prior years.

Total	\$12,600.00	
Chaplain: For Chaplain (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	1,200.00	
For compensation of Henry N. Couden, Chaplain emeritus (<i>H. Res. Jan. 6, 1921; act Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	1,500.00	
Total	\$2,700.00	
Office of the Clerk: Clerk of the House of Representatives, including compensation as disbursing officer of the contingent fund (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	6,500.00	
Chief Clerk (<i>same acts</i>).....	4,500.00	
Journal clerk (<i>same acts</i>).....	4,000.00	
Reading clerks, 2, at \$4,000 each (<i>same acts</i>).....	8,000.00	
Enrolling clerk (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1; H. Res. June 21, 1921</i>).....	4,000.00	
Disbursing clerk (increase of \$600 submitted) (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	4,000.00	
Tally clerk (increase of \$700 submitted) (<i>same acts</i>).....	4,000.00	
Chief bill clerk (increase of \$1,000 submitted) (<i>same acts</i>).....	4,000.00	
Explanation: These increases are recommended in order to equalize the compensation of these three employees with that received by the journal clerk and the reading clerks, the responsibility, importance, and volume of their respective duties seeming to justify it.		
File clerk (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	3,250.00	
Assistant to disbursing clerk (increase of \$850 submitted) (<i>same acts</i>).....	3,250.00	
Explanation: The work of the disbursing office has increased during the last two years about 300 per cent, due chiefly to placing Members' clerks on the pay roll. The duties of this clerk are responsible, involve many details and a knowledge of accounting and bookkeeping, and the proposed compensation is more nearly commensurate than that now paid.		
Stationery clerk (increase of \$800 submitted) (<i>same acts</i>).....	3,000.00	
Explanation: The proposed increase is justified on the ground of greater volume of business due to the increased number of persons patronizing the stationery room, the number of Members' clerks alone having been doubled in the last two years.		
Assistant to Chief Clerk, and assistant enrolling clerk, at \$2,500 each (<i>same acts</i>)...	5,000.00	
Librarian (<i>same acts</i>).....	2,100.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Officers and Employees, House of Representatives—Continued.		
Office of the Clerk—Continued.		
Assistant librarian (the act of July 16, 1914, appropriated \$1,800, which was increased by House resolution of Aug. 1, 1919, to \$2,100, which amount is carried in the act of Mar. 3, 1921, for the current fiscal year. The anomaly is presented of the librarian and an assistant receiving the same amount of compensation) (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	\$2,100.00	
Assistant file clerk (<i>same acts</i>).....	1,900.00	
Clerks—		
3 at \$2,000 each (<i>submitted</i>).....	6,000.00	
5 at \$1,800 each (<i>submitted</i>).....	9,000.00	
4 at \$1,600 each (<i>submitted</i>).....	6,400.00	
<p>Explanation: Recommended in lieu of the following: Clerk at \$1,800; assistant librarian, and messenger and assistant journal clerk, at \$1,900 each; 3 clerks, at \$1,680 each; bookkeeper and assistant in disbursing office, at \$1,600 each; 4 assistants to chief bill clerk, at \$1,500 each, as provided in the act of Mar. 3, 1921 (<i>act Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).</p> <p>This arrangement would make possible the detail of these clerks to any duty that may be required of them according to their respective experience and ability, and permit of promotions and demotions, when desirable. The net increase would be \$1,760.</p>		
Stenographer to Clerk (increase of \$600 submitted) (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	2,000.00	
<p>Explanation: The duties are those of a confidential secretary to the Clerk, and are many and varied. The proposed salary is hardly commensurate, and the present salary is totally inadequate.</p>		
Locksmith and typewriter repairer (change of title submitted) (<i>same acts</i>).....	1,300.00	
Messenger in Chief Clerk's office, and assistant in stationery room (<i>same acts</i>).....	2,400.00	
Messengers, 3, at \$1,100 each (titles dropped to permit of their detail wherever necessary) (<i>same acts</i>).....	3,300.00	
Stenographer to journal clerk (<i>same acts</i>).....	1,000.00	
Nine telephone operators, at \$1,200 each (<i>act Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>)..	10,800.00	
Three session telephone operators, at \$100 per month from Dec. 1, 1922, to Mar. 31, 1923 (<i>same act</i>).....	1,200.00	
Substitute telephone operator when required, at \$2.50 per day (<i>same act</i>).....	500.00	
<p>Explanation: The increase of \$25 per month for the annual and session telephone operators here submitted is in accordance with a concurrent resolution adopted by the House July 26, 1921, pending in the Senate.</p>		
Laborers—		
3, at \$900 each (<i>same act</i>).....	2,700.00	
9, at \$720 each (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	6,480.00	
<p>Explanation: This is an increase of one laborer, at \$900, for duty in the bathroom, made necessary by the superannuation of a faithful employee who has been in the service of the House over 50 years, but who, by reason of employment in the legislative branch, can not receive the benefits of the civil service retirement act. The nine laborers are recommended at the same compensation and in lieu of the following: Six laborers, at \$720 each; page in the enrolling room, \$720; two janitors, at \$720 each.</p>		
Allowance to Chief Clerk for stenographic and typewriter services (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	1,000.00	
Total.....	\$113,680.00	
Under Architect of the Capitol (formerly Superintendent of the Capitol Building and Grounds), 41 Stat L., 1291:		
Chief engineer (<i>same acts</i>).....	2,160.00	
Four assistant engineers, at \$1,440 each (<i>same acts</i>).....	5,760.00	
Machinist (<i>same acts</i>).....	1,400.00	
Electrician (<i>same acts</i>).....	1,400.00	
Twenty-four elevator conductors, including 14 for service in the House Office Building, at \$1,200 each, who shall be under the supervision and direction of the Architect of the Capitol (<i>same acts</i>).....	28,800.00	
Laborer (<i>same acts</i>).....	800.00	
Three charwomen, at \$240 each (<i>same acts</i>).....	720.00	
Total.....	\$41,040.00	
Clerks, messengers, and janitors to committees:		
Accounts:		
Clerk (<i>same acts</i>).....	2,500.00	
Assistant clerk (<i>same acts</i>).....	1,800.00	
Janitor (<i>same acts</i>).....	1,000.00	
Agriculture:		
Clerk (<i>same acts</i>).....	2,500.00	
Assistant clerk (<i>same acts</i>).....	1,800.00	
Janitor (<i>same acts</i>).....	1,000.00	
Appropriations:		
Clerk, \$4,000, and \$1,000 additional so long as the position is held by the present incumbent (<i>same acts</i>).....	5,000.00	
Assistant clerk (<i>act June 16, 1921, vol. 42, p. 49, sec. 1</i>).....	4,000.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Officers and Employees, House of Representatives—Continued.		
Clerks, messengers, and janitors to committees—Continued.		
Appropriations—Continued.		
Five assistant clerks, at \$3,000 each (four additional authorized in second deficiency act, June 16, 1921) (acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1).....	\$15,000.00	
Assistant clerk and stenographer (acts June 16, 1921, vol. 42, p. 49, sec. 1; July 16, 1914, vol. 39, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1255, sec. 1)....	2,500.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Officers and Employees, House of Representatives—Continued.		
Clerks, messengers, and janitors to committees—Continued.		
Ways and Means—		
Clerk (<i>acts July 16, 1914, vol. 38, p. 459, sec. 1; Mar. 3, 1921, vol. 41, p. 1256, sec. 1</i>)	\$3,000.00	
Assistant clerk and stenographer (<i>same acts</i>)	2,000.00	
Assistant clerk (<i>same acts</i>)	1,900.00	
Janitor (<i>same acts</i>)	1,000.00	
Janitor (<i>same acts</i>)	720.00	
Total	\$197,570.00	
Office of Sergeant at Arms:		
Sergeant at Arms (<i>same acts</i>)	6,500.00	
Deputy Sergeant at Arms (<i>same acts</i>)	2,500.00	
Cashier (<i>same acts</i>)	4,000.00	
Two bookkeepers, at \$2,400 each (<i>same acts</i>)	4,800.00	
Deputy Sergeant at Arms in charge of pairs (<i>same acts</i>)	1,800.00	
Pair clerk and messenger (<i>same acts</i>)	1,800.00	
Messenger (<i>same acts</i>)	1,400.00	
Stenographer and typewriter (<i>same acts</i>)	900.00	
Skilled laborer (<i>same acts</i>)	840.00	
Hire of automobile (<i>same acts</i>)	600.00	
For police force, House Office Building, under the Sergeant at Arms:		
Lieutenant (<i>same acts</i>)	1,200.00	
Nineteen privates, at \$1,050 each (6 authorized by the second deficiency act, June 16, 1921, vol. 42, p. 49, sec. 1) (<i>same acts</i>)	19,950.00	
Total	\$46,290.00	
Office of Doorkeeper:		
Doorkeeper (<i>same acts</i>)	5,000.00	
Maintenance and repair of folding room motor truck, \$500 or so much thereof as may be necessary (<i>same acts</i>)	500.00	
Superintendent of document room (<i>acts July 16, 1914, vol. 38, p. 460, sec. 1; Mar. 3, 1921, vol. 41, p. 1257, sec. 1</i>)	2,900.00	
Special employee in document room (Joel Grayson) (<i>same acts</i>)	2,500.00	
Assistant in document room (W. Ray Loomis) (<i>act Mar. 3, 1921, vol. 41, p. 1257, sec. 1</i>)	2,500.00	
NOTE.—The act of Mar. 3, 1921, provides for this employment "as editor and compiler of the Weekly and Monthly Compendium and as assistant in the document room." But as no provision has been made for the printing of the Weekly and Monthly Compendium since the close of the second session, Sixty-sixth Congress, the designation of editor and compiler of these publications is omitted.		
Assistant superintendent, document room (<i>acts July 16, 1914, vol. 38, p. 460, sec. 1; Mar. 3, 1921, vol. 41, p. 1257, sec. 1</i>)	2,100.00	
Superintendent, reporters' gallery (<i>same acts</i>)	2,000.00	
Special employee (<i>same acts</i>)	1,800.00	
Assistant clerk, document room (<i>same acts</i>)	1,700.00	
Assistant clerk, document room (<i>same acts</i>)	1,600.00	
Chief janitor (title changed by adding word "Chief"; this employee has charge of janitor force) (<i>same acts</i>)	1,500.00	
Eight assistants, document room, at \$1,280 each (<i>same acts</i>)	10,240.00	
Two messengers in charge of telephones, at \$2,160 each (one for the minority) (<i>acts Mar. 3, 1921, vol. 41, p. 1257, sec. 1; Apr. 18, 1921, vol. 42, p. 2, sec. 1</i>)	4,320.00	
NOTE.—It is recommended that the title of these employments be changed to that of "Floor managers of telephones," as more nearly corresponding to the actual duties. The telephone service proper (the switchboard) is located in the House Office Building, the service being "in charge" of a chief operator and an assistant, and the duties performed by the persons in question are in connection with the branch booths in the cloakrooms for the convenience of Members on the floor of the House.		
Assistant messenger in charge of telephones (same recommendation as to title, namely, "Assistant floor manager of telephones"; see note above) (<i>act Mar. 3, 1921, vol. 41, p. 1257, sec. 1</i>)	1,500.00	
Seventeen messengers, at \$1,180 each (increase of 1 by H. Res. Feb. 25, 1921) (<i>acts July 16, 1914, vol. 38, p. 460, sec. 1; Mar. 3, 1921, vol. 41, p. 1257, sec. 1</i>)	20,060.00	
Messenger to press room (<i>same acts</i>)	1,000.00	
Janitor, document room (<i>same acts</i>)	920.00	
Two female attendants in ladies' retiring rooms, at \$800 each (<i>same acts</i>)	1,600.00	
Seventeen laborers, at \$720 each (<i>same acts</i>)	12,240.00	
Two cloakroom men, at \$840 each (<i>same acts</i>)	1,680.00	
Seven cloakroom men, at \$600 each (<i>same acts</i>)	4,200.00	
One cloakroom man, at \$600 and \$120 additional so long as held by present incumbent (<i>same acts</i>)	720.00	
Superintendent of folding room (<i>same acts</i>)	2,500.00	
Foreman (<i>same acts</i>)	2,100.00	
Chief clerk to superintendent of folding room (<i>same acts</i>)	1,800.00	
Three clerks, at \$1,600 each (<i>same acts</i>)	4,800.00	
Shipping clerk (<i>same acts</i>)	1,200.00	
Thirty-one folders, at \$900 each (<i>same acts</i>)	27,900.00	
Two laborers, at \$720 each (in lieu of 1 laborer and 1 janitor, at \$720 each (<i>same acts</i>))	1,440.00	
Two drivers, at \$840 each (<i>same acts</i>)	1,680.00	
Two chief pages, at \$1,500 each (<i>same acts</i>)	3,000.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Officers and Employees, House of Representatives—Continued.		
Superintendent of folding room—Continued.		
Two telephone pages, at \$1,200 each (authorized by H. Res. 615, Feb. 25, 1921 (<i>act Apr. 13, 1921, vol. 42, p. 2, sec. 1</i>).....	\$2,400.00	
Forty-two pages, during the session (118 days), including 2 riding pages, press gallery page, and 10 pages for duty at the entrances to the Hall of the House, at \$2.50 per day each (<i>same acts</i>).....	12,390.00	
Fourteen messengers, on soldiers' roll, at \$1,200 each (<i>same acts</i>).....	16,800.00	
Total.....	\$160,590.00	
Minority and special employees:		
For 6 minority employees authorized and named in the resolution of Apr. 11, 1921, at \$1,800 each (<i>act Mar. 3, 1921, vol. 41, p. 1257, sec. 1</i>).....	10,800.00	
For assistant department messenger, authorized and named in resolution of Dec. 7, 1897 (<i>acts July 16, 1914, vol. 38, p. 460, sec. 1; Mar. 3, 1921, vol. 41, p. 1257, sec. 1</i>).....	2,000.00	
To continue employment of the assistant foreman of the folding room, authorized in the resolution of Sept. 30, 1913, at \$3.85 per day (<i>same acts</i>).....	1,405.25	
To continue employment of the person named in the resolution of Apr. 28, 1914, as a laborer (<i>same acts</i>).....	840.00	
To continue employment of the laborer authorized and named in the resolution of Dec. 19, 1901 (<i>same acts</i>).....	840.00	
Successors to any of the employees provided for in the 5 preceding paragraphs may be named by the House of Representatives at any time.		
NOTE.—(1) In the first of the preceding paragraphs the number of employees is increased from 5 to 6 in accordance with the resolution of Apr. 7, 1921, and as these employees perform like duties and such duties as the minority leader and Members require of them, their meaningless titles are dropped and they are treated as "minority employees," the compensation being the same in each case. (2) The paragraph formerly under this head providing for the employment of W. Ray Loomis as an assistant in the document room is included under the head "Office of the Doorkeeper." (3) The paragraph formerly in this category providing for a special messenger at \$1,500 is omitted, the incumbent being deceased and a successor not having been named.		
Conference minority:		
Clerk (<i>same acts</i>).....	2,500.00	
Assistant clerk (<i>same acts</i>).....	1,500.00	
Janitor (<i>same acts</i>).....	1,000.00	
To continue the employment of messengers in the majority and minority caucus rooms, to be appointed by the majority and minority whips, respectively, at \$1,200 each (<i>same acts</i>).....	2,400.00

Janitor (<i>same acts</i>).....	980.00	
Total.....	\$47,180.00	
Stenographers to committees:		
Four stenographers to committees, at \$6,000 each (<i>same acts</i>).....	24,000.00	
Janitor (<i>same acts</i>).....	980.00	
Total.....	\$24,980.00	
Total, salaries of officers and employees.....	\$728,335.25	\$726,320.25
Clerk Hire, Members and Delegates, House of Representatives—		
For clerk hire necessarily employed by each Member, Delegate, and Resident Commissioner in the discharge of his representative duties, \$3,200 per annum, in monthly installments, or so much thereof as may be necessary (<i>acts July 11, 1919, vol. 41, p. 162, sec. 1; Mar. 3, 1921, vol. 41, p. 1258, sec. 1</i>).....	1,408,000.00	1,408,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
<i>Contingent Expenses, House of Representatives—</i>		
For expenses of special and select committees authorized by the House of Representatives (<i>act Mar. 3, 1921, vol. 41, p. 1253, sec. 1</i>).....	\$40,000.00	
For reporting hearings of committees at such rate as may be fixed by the Committee on Accounts, not exceeding \$1.25 per printed page (<i>same act</i>).....	20,000.00	
For telegraph and telephone service, exclusive of personal services (<i>same act</i>).....	65,000.00	
For salaries and labor specifically authorized by the House of Representatives (<i>same act</i>)..	15,000.00	
For expenses incident to the funerals of deceased Members and for compensation and funerals of deceased employees of the House of Representatives (<i>same act</i>).....	35,000.00	
For miscellaneous items, including purchase of typewriting machines, ice, towels, laundry, newspapers, and all other necessary expenses not included under any other heading (<i>same act</i>).....	15,000.00	
Total	190,000.00	
NOTE.—The six preceding paragraphs represent segregation of one paragraph formerly carried in the legislative, executive, and judicial appropriation bill, as follows:		
For miscellaneous items and expenses of special and select committees, exclusive of salaries and labor, unless specifically ordered by the House of Representatives, the initial appropriation for which was \$75,000 for many years; but it was found necessary each year to augment this with deficiency appropriations which considerably increased the appropriations for objects coming under this heading, the total appropriation for each year of the 10-year period from 1912 to 1921, inclusive, having been as follows:		
1912.....	\$190,000.00	1918..... \$120,000.00
1913.....	210,375.00	1919..... 238,827.21
1914.....	157,000.00	1920..... 425,325.76
1915.....	115,000.00	1921..... 235,000.00
1916.....	82,500.00	
1917.....	162,000.00	
Total		1,936,027.97
The average annual total appropriation for these objects was \$193,602.80, the larger part of which was absorbed by four chief items included in the foregoing allocation, namely, expenses of special and select committees, reporting committee hearings, telegraph and telephone service, and expenses of funerals. In other words, the expenditures from this fund were more specific than they were miscellaneous. (See hearing on legislative, executive, and judicial appropriation bill, 1921, pp. 2344-2345). Hereafter, when a deficiency appropriation may be required for one of these specific purposes it can be more clearly differentiated than when under the designation of "Miscellaneous items." The amounts estimated for the objects mentioned in the foregoing paragraphs are based approximately on the expenditures for the fiscal year 1921 for like purposes, the total appropriations for which were \$235,000, after deducting \$20,000 for restaurant equipment and other unusual expenditures, such as the funeral of the late Speaker Clark. The total amount estimated is \$3,000 less than the annual average for 10 years, or \$190,000; and as it can not be foreseen exactly what demands upon these funds may be made by authorizations of the House or by future conditions the expenditures may be more or less accordingly. These figures, however, furnish as nearly accurate bases as possible upon which to make initial appropriations for all objects heretofore embraced within the classification of "Miscellaneous items."		
For wrapping paper, pasteboard, paste, twine, newspaper wrappers, and other necessary materials for folding, for use of Members, the Clerk's office, and folding room, not including envelopes, writing paper, and other paper and materials to be printed and furnished by the Public Printer, upon requisitions from the Clerk of the House, under provisions of the act approved Jan. 12, 1895 (<i>same act</i>).....	10,000.00	
For furniture and materials for repairs of the same, including not to exceed \$12,000 for labor, tools, and machinery for furniture repair shops (<i>same act</i>).....	30,000.00	
For stationery for Representatives, Delegates, and Resident Commissioners, including \$5,000 for stationery for the use of the committees and officers of the House (<i>same act</i>)..	60,000.00	
For postage stamps: Postmaster, \$250; Clerk, \$450; Sergeant at Arms, \$300; Doorkeeper, \$150; in all (<i>same act</i>).....	1,150.00	
For driving, maintenance, repair, and operation of an automobile for the Speaker (<i>same act</i>).....	2,240.00	
Contingent expenses, House of Representatives (exclusive of one-half (\$100) for contingent expenses, Capitol Police, estimated under "Capitol Police") in all	\$293,390.00	\$178,390.00
<i>Capitol Police, House of Representatives—</i>		
For captain, \$1,800; 3 lieutenants, at \$1,200 each; 2 special officers, at \$1,200 each; 33 privates, at \$1,050 each; one-half of said privates to be selected by the Sergeant at Arms of the Senate and one-half by the Sergeant at Arms of the House; in all, \$42,450; one-half (<i>acts July 16, 1914, vol. 38, p. 462, sec. 1; Mar. 3, 1921, vol. 41, p. 1254, sec. 1</i>).....	21,225.00	21,225.00
For contingent expenses, \$200, one-half to be disbursed by the Secretary of the Senate and one-half to be disbursed by the Clerk of the House of Representatives (<i>act Mar. 3, 1921, vol. 41, p. 1254, sec. 1</i>).....	100.00	100.00
For purchasing and supplying uniforms to Capitol police, one-half (<i>act Mar. 4, 1921, vol. 41, p. 1426, sec. 1</i>).....	2,000.00	2,000.00
<i>Statement of Appropriations—</i>		
For preparation, under the direction of the Committees on Appropriations of the Senate and House of Representatives, of the statements for the second session of the Sixty-seventh Congress, showing appropriations made, new offices created, offices the salaries of which have been omitted, increased, or reduced, indefinite appropriations, and contracts authorized, together with a chronological history of the regular appropriation bills, as required by law, \$2,000, to be paid to the persons designated by the chairmen of said committees to do said work (<i>act Mar. 4, 1921, vol. 41, p. 1426, sec. 1</i>).....	2,000.00	2,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries and Expenses, Joint Committee on Printing, House of Representatives— For clerk, \$4,000; inspector, under section 20 of the act approved Jan. 12, 1895, \$2,250; stenographer, \$1,500; for expenses of compiling, preparing, and indexing the Congressional Directory, \$1,600; in all, \$9,350, one-half to be disbursed by the Secretary of the Senate and one-half to be disbursed by the Clerk of the House of Representatives (<i>act Mar. 3, 1921, vol. 41, p. 1254, sec. 1</i>).....	\$4,675.00	\$4,675.00
Legislative Drafting Service, House of Representatives— For salaries and expenses of maintenance of the Legislative Drafting Service, as authorized by section 1303 of the "Revenue Act of 1918," in all \$30,000, one-half to be disbursed by the Secretary of the Senate and one-half to be disbursed by the Clerk of the House of Representatives (<i>acts Feb. 24, 1919, vol. 40, p. 1141, sec. 1303; Mar. 3, 1921, vol. 41, p. 1255, sec. 1</i>).....	15,000.00	20,000.00
Folding Speeches— For folding speeches and pamphlets, at a rate not exceeding \$1 per thousand (<i>act June 16, 1921, vol. 42, p. 49, sec. 1</i>).....	8,000.00	8,000.00
Gratuities to Widows, etc., of Deceased Members— To pay the widows, etc., of deceased Members of the House of Representatives (<i>submitted</i>).....	52,500.00	
NOTE.—Six Members of the present (Sixty-seventh) Congress have died, and the estimate is based upon the chronology of the Sixty-sixth Congress, wherein there occurred 14 deaths.		
Expenses, Contested-Election Cases— To pay contestants and contestees their expenses, respectively, not exceeding \$2,000 each (12 parties) (<i>act Mar. 2, 1887, vol. 24, p. 445, sec. 1</i>).....	24,000.00	
NOTE.—In the present (Sixty-seventh) Congress 6 contested-election cases have come to the official notice of the Clerk of the House.		
Compiling, etc., Contested-Election Cases— For services in compiling, etc., the contested-election cases of the Sixty-seventh Congress (<i>act June 5, 1920, vol. 41, p. 1036, sec. 1</i>).....	4,000.00	
NOTE.—There was no appropriation for the fiscal year 1922, one appropriation being for an entire Congress.		
Clerical Assistance, Sixty-seventh Congress— For assistance rendered during the Sixty-seventh Congress in compiling list of reports to be made to Congress, etc. (<i>act Mar. 1, 1921, vol. 41, p. 1181, sec. 1; submitted</i>).....	5,000.00	
NOTE.—There was no appropriation for the fiscal year 1922, one appropriation being for an entire Congress.		
Total, House of Representatives.....	6,047,725.25	6,850,210.25
NOTE.—The greater part of the difference between the estimated total amount for 1923 and the appropriations for 1922 is due to the inclusion of items in the former not heretofore included in the estimates, such as gratuities to widows, etc., of deceased Members, expenses in contested-election cases, and like items for which appropriations have been made heretofore, but which, on account of their indefiniteness, were not estimated.		
LIBRARY OF CONGRESS.		
(NOTE.—In explanation of the following estimates, see statement of the Librarian in Appendix A.)		
Salaries, Library of Congress— General administration: Librarian (<i>acts Feb. 19, 1897, vol. 29, p. 544, sec. 1; July 16, 1914, vol. 38, p. 462, sec. 1; Mar. 3, 1921, vol. 41, p. 1258, sec. 1</i>).....	\$7,500.00	
Chief assistant librarian (increase of \$1,500 submitted) (<i>acts July 16, 1914, vol. 38, p. 462, sec. 1; Mar. 3, 1921, vol. 41, p. 1258, sec. 1</i>).....	6,000.00	
Chief clerk (increase of \$500 submitted) (<i>same acts</i>).....	3,000.00	
Librarian's secretary (increase of \$420 submitted) (<i>same acts</i>).....	2,220.00	
Assistant chief clerk (<i>submitted</i>).....	2,000.00	
One stenographer and typewriter to chief assistant librarian (<i>submitted</i>).....	1,600.00	
One assistant in charge supplies (<i>submitted</i>).....	1,440.00	
Clerks: One (increase of \$160 submitted) (<i>acts July 16, 1914, vol. 38, p. 462, sec. 1; Mar. 3, 1921, vol. 41, p. 1258, sec. 1</i>).....	1,360.00	
Two, at \$1,160 each (increase of \$160 each submitted) (<i>same acts</i>).....	2,320.00	
Stenographers and typewriters: One (increase of \$160 submitted) (<i>same acts</i>).....	1,360.00	
One (increase of \$260 submitted) (<i>acts May 10, 1916, vol. 39, p. 73, sec. 1; Mar. 3, 1921, vol. 41, p. 1258, sec. 1</i>).....	1,160.00	
One messenger (increase of \$60 submitted) (<i>acts July 16, 1914, vol. 38, p. 462, sec. 1; Mar. 3, 1921, vol. 41, p. 1258, sec. 1</i>).....	900.00	
One messenger to chief assistant librarian (increase of \$60 submitted) (<i>same acts</i>)..	660.00	
One junior messenger (increase of \$240 submitted) (<i>same acts</i>).....	660.00	
Operator of photographic copying machine (increase of \$240 submitted) (<i>same acts</i>).....	840.00	
	33,020.00	24,060.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Library of Congress—Continued.		
Mail and delivery:		
Assistants:		
One in charge (increase of \$200 submitted) (<i>acts Mar. 3, 1917, vol. 39, p. 1077, sec. 1; Mar. 3, 1921, vol. 41, p. 1258, sec. 1</i>).....	\$1, 800. 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																									
Care and Maintenance, Library of Congress—Continued.																																																																																																											
Custody, care, and maintenance of the Library Building and Grounds—Continued.																																																																																																											
Two wiremen, at \$900 each (<i>acts July 16, 1914; vol. 38, p. 464; sec. 1; Mar. 3, 1921, vol. 41, p. 1260, sec. 1</i>).....	\$1,800.00																																																																																																										
One plumber (<i>same acts</i>).....	900.00																																																																																																										
Four elevator conductors (one additional submitted), at \$720 each (<i>same acts</i>).....	2,880.00																																																																																																										
Ten skilled laborers, at \$720 each (<i>same acts</i>).....	7,200.00																																																																																																										
	\$92,985.00	\$92,265.00																																																																																																									
NOTE.—One additional elevator conductor submitted. There are three large main passenger elevators, one of which must be in operation from 8 a. m. to 10 p. m. (two shifts) and one from 8 a. m. to 4.30 p. m. The necessity of simultaneously operating all three elevators at times now requires temporary detail of unskilled operators. This is dangerous to machinery and to passengers.																																																																																																											
Sunday Opening, Building for Library of Congress—																																																																																																											
For extra services of employees and additional employees under the superintendent to provide for the opening of the Library Building from 2 until 10 o'clock post-meridian on Sundays and legal holidays (<i>acts Apr. 28, 1902, vol. 32, p. 131, sec. 1; July 16, 1914, vol. 38, p. 464, sec. 1; Mar. 3, 1921, vol. 41, p. 1260, sec. 1</i>).....	3,000.00	3,000.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.				Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Permanent Repository for the Declaration of Independence and the Constitution of the United States—					
For providing a safe, permanent repository of appropriate design, within the Library of Congress building, for the originals of the Declaration of Independence and the Constitution of the United States, \$12,000; the said amount to be immediately available (<i>submitted</i>).....				\$12,000.00	
Furniture, Library of Congress—					
For furniture, including partitions, screens, shelving, café equipment, and electrical work pertaining thereto (<i>acts Feb. 19, 1897, vol. 29, p. 545, sec. 1; Mar. 3, 1921, vol. 41, p. 1260, sec. 1</i>).....				\$12,000.00	
For extension of the steel stack for storage of catalogue cards in the Card Division (increase of \$1,000 submitted) (<i>same acts</i>).....				6,000.00	
For map cases for the Division of Maps and Charts (<i>submitted</i>).....				6,000.00	
The first of the two items above submitted for \$6,000 each is to provide extension of the existing steel stack for the storage of catalogue cards in the Card Division. An average expenditure of \$5,000 per annum is necessary for extension of this stack. Owing to recent high costs, the annual extensions have fallen behind the actual need, and for the current year the appropriation of \$5,000 has been curtailed to an expenditure of \$3,333. This curtail must be made up as soon as possible. The second of the items is to provide additional cases for the Division of Maps and Charts. Extension of the special steel map-filing cases for flat filing is important, owing to the present congestion. Many important maps and charts can now only be tied in rolls and bundles of rolls. Constant demand makes this crude system almost intolerable both to the user and to the Library. The sum requested will provide only a fraction of the equipment needed by the Map Division.				24,000.00	\$17,000.00
General objects of expenditure.	Estimated, 1923.	Estimated, 1922.	Estimated, 1921.		
Miscellaneous furniture, including tables, desks, stands, hardware, book trucks, floor coverings, curtains, desk fans, book supports, cabinets, etc.....	\$4,825.00	\$1,732.00	\$4,887.60		
Card catalogue cases.....	2,000.00	2,500.00	2,601.00		
Machines (typewriting, ribbon, adding and computing).....	1,500.00	900.00	1,967.79		
Repairs to miscellaneous furniture (materials and supplies).....	1,500.00	400.00	1,318.10		
Partitions.....	500.00	2,000.00	316.08		
Screens.....	100.00	300.00	83.60		
Shelving.....	500.00	500.00	6 21.57		
Electric work.....	500.00	500.00	1 68.77		
Express, freight, and drayage.....	75.00	75.00	10.37		
Awnings.....	500.00	1,360.00			
Extension of steel stack for cards (Card Division).....	6,000.00	3,333.00			
Map cases for Division of Maps and Charts.....	6,000.00				
Total.....	24,000.00	13,600.00	11,954.38		
NOTE.—The estimate for "Printing and binding," Library of Congress, under sec. 2, act of May 8, 1872 (R. S., p. 720, sec. 3661), will be found under the title of "Miscellaneous," <i>post</i> . For statement of Government-owned buildings in the District of Columbia, see Appendix E. For reports of the Library of Congress under sec. 2, act of July 11, 1890 (26 Stat., p. 268), and sec. 7, act of Mar. 2, 1895 (28 Stat., p. 808), see Appendix D.					
Total, Library of Congress.....				877,730.00	713,745.00
BOTANIC GARDEN.					
Salaries, Botanic Garden—					
For director (<i>act Mar. 3, 1921, vol. 41, p. 1261, sec. 1</i>).....				3,000.00	
One assistant director (<i>same act</i>).....				1,800.00	
One clerk (<i>same act</i>).....				1,600.00	
One greenhouse foreman (<i>same act</i>).....				1,250.00	
One head gardener (<i>same act</i>).....				1,200.00	
One gardener in charge of greenhouses (<i>same act</i>).....				1,180.00	
Four gardeners at \$1,100 each (<i>same act</i>).....				4,400.00

¹ The positions shown in column 4 were paid during 1921 from the following appropriations: "Expenses of loans," \$106,220; "Collecting war revenue," \$39,140; "Salaries and expenses, War Risk Insurance," \$34,760; and the employees detailed under the supervision of the chief clerk.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Office of Chief Clerk and Superintendent—Continued.		
General Supply Committee:		
Superintendent of supplies (increase of \$1,000 submitted) (<i>acts June 17, 1910, vol. 36, p. 486, sec. 1; July 16, 1914, vol. 38, p. 467, sec. 1; Mar. 3, 1921, vol. 41, p. 1265, sec. 1</i>).....	\$3,500.00	
Clerks:		
Chief (increase of \$250 submitted) (<i>acts Mar. 1, 1919, vol. 40, p. 1226, sec. 1; Mar. 3, 1921, vol. 41, p. 1265, sec. 1</i>).....	2,250.00	
Three of class 4 (<i>acts July 16, 1914, vol. 38, p. 467, sec. 1; Mar. 3, 1921, vol. 41, p. 1265, sec. 1</i>).....	5,400.00	
Three of class 3 (<i>same acts</i>).....	4,800.00	
One (<i>same acts</i>).....	1,500.00	
Four of class 2 (1 additional submitted) (<i>same acts</i>).....	5,600.00	
Six of class 1 (1 additional submitted) (<i>same acts</i>).....	7,200.00	
Twelve temporary clerks for four months, at \$100 each per month (increase of \$25 each per month submitted) (<i>same acts</i>).....	4,800.00	
One assistant messenger (<i>acts July 3, 1918, vol. 40, p. 771, sec. 1; Mar. 3, 1921, vol. 41, p. 1265, sec. 1</i>).....	720.00	
One laborer (<i>acts Mar. 3, 1917, vol. 39, p. 1083, sec. 1; Mar. 3, 1921, vol. 41, p. 1265, sec. 1</i>).....	660.00	
One messenger boy (<i>acts Mar. 1, 1919, vol. 40, p. 1226, sec. 1; Mar. 3, 1921, vol. 41, p. 1265, sec. 1</i>).....	480.00	
	\$36,910.00	\$31,860.00
For traveling expenses of the General Supply Committee when authorized by the Secretary of the Treasury (<i>submitted</i>).....	2,500.00	
<p>NOTE.—The increases submitted as shown above under the General Supply Committee, viz, \$5,050 under salaries, and \$2,500 for traveling expenses, as well as the increase of \$45,000 submitted as below under the title "General Supply Committee, Transfer of Office Material, Supplies, and Equipment," are rendered necessary on account of the largely increasing volume of office material, supplies, and equipment being handled through the General Supply Committee under the present organized effort to effect economies through the coordinating purchase, transfer, and disposal of surplus Government materials. The responsibilities and duties of the employees in charge have been correspondingly increased, and the necessity for the additional employees and increase in the amount available for expenses of handling and caring for the material is urgent.</p>		
General Supply Committee, Transfer of Office Material, Supplies, and Equipment—		
<p>For salaries of employees, office equipment, fuel, light, freight, electric current, telephone service, maintenance of motor trucks, and other necessary expenses for carrying into effect the Executive order of December 3, 1918, regulating the transfer of office material, supplies, and equipment in the District of Columbia falling into disuse because of the cessation of war activities, \$165,000: <i>Provided</i>, That no person shall be employed hereunder at a rate of compensation in excess of \$3,000 per annum, and not more than five persons shall be employed at a rate in excess of \$1,800 per annum each: <i>Provided further</i>, That the said Executive order shall continue in effect until June 30, 1923, without modification, except that the price charged shall be the current market value at time of issue, less a discount for usage, but in no instance shall the discount be less than 25 per cent, and that the proceeds from the transfer of appropriations thereunder shall be covered into the Treasury as miscellaneous receipts: <i>Provided further</i>, That the heads of the executive departments and independent establishments and the Commissioners of the District of Columbia shall cooperate with the Secretary of the Treasury in connection with the storage and delivery of material, supplies, and equipment transferred under the foregoing order: <i>Provided further</i>, That typewriters and computing machines transferred to the General Supply Committee as surplus, where such machines have become unfit for further use, may, in the discretion of the Secretary of the Treasury, be issued to other Government departments and establishments at exchange prices quoted in the current general schedule of supplies or sold commercially. Repairs to typewriting machines (except bookkeeping and billing machines) in the Government service in the District of Columbia may be made at cost by the General Supply Committee, payment therefor to be effected by transfer and counterwarrant, charging the proper appropriation and crediting the appropriation "General Supply Committee, Transfer of Office Material, Supplies, and Equipment." All purchases of typewriting machines during the fiscal year 1923 by executive departments and independent establishments for use in the District of Columbia or in the field, except as hereinafter provided, shall be made from the surplus machines in the stock of the General Supply Committee. The War Department shall furnish the General Supply Committee, immediately upon the approval of this act, a complete inventory of the various makes, models, and classes of typewriters in its possession, the condition of such machines, and the point of storage, and shall turn over to the General Supply Committee such typewriting machines in such quantities as the Secretary of the Treasury from time to time may call for by specific requisition for sale to the various services of the Government. If the General Supply Committee is unable to furnish serviceable machines to any such service of the Government, it shall furnish unserviceable machines at current exchange prices and such machines shall then be applied by the service of the Government receiving them as part payment for new machines from commercial sources in accordance with the prices fixed</p>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
General Supply Committee, Transfer of Office Material, Supplies, and Equipment—Contd. in this act. And in selling typewriting machines to the various services the General Supply Committee may accept an equal number of unserviceable machines as part payment thereon at the exchange prices quoted in the current general schedule of supplies (<i>acts Feb. 25, 1919, vol. 40, p. 1163, sec. 1; Mar. 3, 1921, vol. 41, p. 1265, sec. 1</i>).....					\$165,000.00	\$120,000.00

Enforcement of the Narcotic and National Prohibition Acts—

For expenses to enforce the provisions of the "National Prohibition Act" and the act entitled "An act to provide for the registration of, with collectors of internal revenue, and to impose a special tax upon, all persons who produce, import, manufacture, compound, deal in, dispense, sell, distribute, or give away opium or cocoa leaves, their salts, derivatives, or preparations, and for other purposes," approved December 17, 1914, as amended by the "Revenue Acts of 1918," including the employment of executive officers, agents, inspectors, chemists, assistant chemists, supervisors, clerks, and messengers in the field and in the bureau of internal revenue in the District of Columbia, to be appointed as authorized by law; the securing of evidence of violations of the acts, and for the purchase of such supplies, equipment, mechanical devices, laboratory supplies, books, necessary printing and binding and such other expenditures as may be necessary in the District of Columbia and several field offices, and for rental of necessary quarters, \$10,000,000: *Provided*, That not to exceed \$49,500 of the foregoing sum shall be expended for rental of quarters in the District of Columbia if space can not be assigned by the Public Buildings Commission in other buildings under the control of that commission: *Provided further*, That not to exceed \$750,000 of the foregoing sum shall be expended for enforcement of the provisions of said act of December 17, 1914: *Provided further*, That not to exceed \$25,000 of the total amount appropriated shall be available for advances to be made by special disbursing agents when authorized by the Commissioner of Internal Revenue and approved by the Secretary of the Treasury, the provisions of section 3648 of the Revised Statutes to the contrary notwithstanding. The Commissioner of Internal Revenue shall submit to Congress on the first day of its next regular session a detailed statement showing the number, designation, and annual rate of compensation of the persons employed and the amounts expended for rent and other authorized purposes in the District of Columbia from the foregoing appropriations for internal revenue (acts Dec. 17, 1914, vol. 38, p. 789, sec. 11; Feb. 24, 1919, vol. 40, p. 1140, sec. 1300; Mar. 3, 1921, vol. 41, pp. 1274, 1275, sec. 1).

Total.....		94	107
Total annual compensation.....		\$134,300.00	\$149,920

NOTE.—It has been repeatedly recommended and it is again recommended that the appropriation for this office be increased to carry 11 telephone operators at \$1,100 each per annum, employed on the Navy Department switchboard, whose services are now paid for from the appropriation "Pay miscellaneous." With reclassification of salaries and the transfer of these 11 telephone operators to the roll of this office, a saving for the department can be effected.

Salaries, Bureau of Navigation—

Chief clerk (increase of \$1,000 submitted) (<i>R. S.</i> , p. 27, secs. 167-169; p. 70, sec. 416; acts July 16, 1914, vol. 38, p. 483, sec. 1; Mar. 3, 1921, vol. 41, p. 1283, sec. 1).....	\$3,250.00

* Original appropriation for 1922 was \$1,000,000, \$250,000 of which was transferred to the Bureau of Standards by the deficiency appropriation act of June 16, 1921. In addition to this appropriation the bureau had on July 1, 1921, a balance of \$2,930,898.87, available for the fiscal year ending June 30, 1922, making a total of \$3,680,898.87. \$400,000 of this amount has been transferred to the general reserve, leaving an expendable balance of \$3,280,898.87 for all purposes. See estimates for "Collecting statistics" and "Tabulating machines."

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Collecting Statistics— For securing information for census reports, provided for by law, semimonthly reports of cotton production, periodical reports of stocks of baled cotton in the United States, and of the domestic and foreign consumption of cotton; quarterly reports of tobacco; per diem compensation of special agents and expenses of same and of detailed employees, whether employed in Washington, District of Columbia, or elsewhere; not to exceed \$300,000 for the temporary employment of clerks and stenographers in the District of Columbia, to be selected from the registers of the Civil Service Commission and to be paid at the rate of not to exceed \$100 per month; the cost of transcribing State, municipal, and other records; temporary rental of quarters outside of the District of Columbia; for supervising special agents, and employment by them of such temporary service as may be necessary in collecting the statistics required by law: <i>Provided</i> , That the compensation of not to exceed 25 special agents provided for in this paragraph may be fixed at a rate not to exceed \$10 per day (<i>acts Mar. 6, 1902, vol. 32, p. 51, secs. 1-12; Feb. 14, 1903, vol. 32, p. 826, sec. 4; July 16, 1914, vol. 38, p. 499, sec. 1; Mar. 3, 1919, vol. 40, p. 1291, sec. 1; Mar. 3, 1921, vol. 41, p. 1297, sec. 1; June 16, 1921, vol. 42, p. 47, sec. 1</i>).					\$1,307,820.00	(b)

¹ Estimates for salaries of officials and clerks for 1923 are made under the title "Salaries."

² All expenses, including salaries, are paid from lump-sum appropriations during the decennial census period.

³ Not including \$603,060 to be expended for printing and contingent expenses, and \$40,560 for wages in the mechanical laboratory.

⁴ Not including \$593,730.50 paid for printing and contingent expenses, and \$50,000.21 for wages in the mechanical laboratory.

⁵ Original appropriation for 1922 was \$1,000,000, \$250,000 of which was transferred to the Bureau of Standards by the Deficiency Appropriation Act of June 16, 1921. In addition to this appropriation the bureau had a balance on July 1, 1921, of \$2,930,893.87, which is available for the fiscal year ending June 30, 1922, which makes a total of \$3,680,893.87. \$400,000 of this amount has been transferred to the General Reserve, leaving an expendable balance of \$3,280,893.87 for all purposes. See estimates for "Salaries" and "Tabulating machines."

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

Tabulating Machines—

For constructing tabulating machines, and for experimental work in developing, improving, and constructing an integrating counter for use in statistical work and repairs to such machinery and other mechanical appliances, including technical and mechanical service in connection therewith, whether performed in the District of Columbia or elsewhere, and purchase of necessary machinery and supplies (*acts Mar. 6, 1902, vol. 32, p. 51, secs. 1-12; Feb. 14, 1903, vol. 32, p. 826, sec. 4; July 16, 1914, vol. 38, p. 499, sec. 1; Mar. 3, 1919, vol. 40, p. 1291, sec. 1; Mar. 3, 1921, vol. 41, p. 1297, sec. 1*).

Skilled laborers:		
Two, at \$840 each (<i>same acts</i>)	1,680.00	
Five, at \$720 each (<i>same acts</i>)	3,600.00	
Draftsman (increase of \$400 submitted) (<i>same acts</i>)	1,600.00	
Photographers:		
One (increase of \$400 submitted) (<i>same acts</i>)	1,800.00	
One (<i>same acts</i>)	1,200.00	
Packer (increase of \$360 submitted) (<i>same acts</i>)	1,200.00	
Two messengers, at \$840 each (<i>same acts</i>)	1,680.00	
Assistant messenger (<i>same acts</i>)	720.00	
Superintendent of mechanical plant (increase of \$500 submitted) (<i>same acts</i>)	3,000.00	
Engineer (<i>submitted</i>)	2,200.00	
Assistant engineers:		
One (increase of \$200 submitted) (<i>acts Mar. 3, 1901, vol. 31, p. 1449, secs. 1-10; Feb. 14, 1903, vol. 32, p. 826, sec. 4; July 16, 1914, vol. 38, p. 502, sec. 1; Mar. 3, 1921, vol. 41, p. 1300, sec. 1</i>)	1,800.00	
One (increase of \$200 submitted) (<i>same acts</i>)	1,600.00	
Two, at \$1,200 each (<i>same acts</i>)	2,400.00	
One (<i>same acts</i>)	1,000.00	
One (<i>same acts</i>)	900.00	
Pipefitters:		
One (increase of \$600 submitted) (<i>same acts</i>)	1,600.00	
One (increase of \$200 submitted) (<i>same acts</i>)	1,200.00	
Nine firemen, at \$720 each (increase of 4 submitted) (<i>same acts</i>)	6,480.00	
Glassblowers:		
Foreman (increase of \$400 submitted in lieu of 1 glassblower, at \$1,600) (<i>same acts</i>)	2,000.00	
One (increase of \$200 submitted) (<i>same acts</i>)	1,400.00	
Glass worker (increase of \$200 submitted) (<i>same acts</i>)	1,800.00	
Expert optician (<i>submitted</i>)	2,000.00	
Electricians:		
One (increase of \$400 submitted) (<i>acts Mar. 3, 1901, vol. 31, p. 1449, secs. 1-10; Feb. 14, 1903, vol. 32, p. 826, sec. 4; July 16, 1914, vol. 38, p. 502, sec. 1; Mar. 3, 1921, vol. 41, p. 1300, sec. 1</i>)	1,800.00	
One (increase of \$400 submitted) (<i>same acts</i>)	1,600.00	
Electrician's helper (in lieu of electrician at \$900) (<i>same acts</i>)	900.00	
Foreman of janitors and laborers (increase of \$300 submitted) (<i>same acts</i>)	1,200.00	
Fourteen laborers, at \$660 each (<i>same acts</i>)	9,240.00	
Janitors:		
Five, at \$720 each (<i>submitted</i>)	3,600.00	
Three, at \$660 each (<i>acts Mar. 3, 1901, vol. 31, p. 1449, secs. 1-10; Feb. 14, 1903, vol. 32, p. 826, sec. 4; July 16, 1914, vol. 38, p. 502, sec. 1; Mar. 3, 1921, vol. 41, p. 1300, sec. 1</i>)	1,980.00	
One (<i>same acts</i>)	600.00	
Two female laborers, at \$360 each (<i>same acts</i>)	720.00	
	\$522,560.00	\$432,360.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.				Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Equipment, Bureau of Standards— For apparatus, machinery, tools, and appliances used in connection with buildings or work of the bureau, laboratory supplies, materials, and supplies used in the construction of apparatus, machinery, or other appliances, including their exchange; piping, wiring, and construction incident to the installation of apparatus, machinery, or appliances; furniture for laboratories and offices, cases for apparatus (<i>acts Mar. 3, 1901, vol. 31, p. 1449, secs. 1-10; Feb. 14, 1903, vol. 32, p. 826, sec. 4; July 16, 1914, vol. 38, p. 502, sec. 1; Mar. 3, 1921, vol. 41, p. 1300, sec. 1</i>)				\$75,000.00	\$75,000.00
Objects of expenditure.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.		
Contract, construction, etc.	\$3,000.00	\$2,500.00	\$3,626.93		
Equipment	37,000.00	35,500.00	37,549.86		
Supplies	35,000.00	32,000.00	32,600.11		
Total	75,000.00	70,000.00	73,776.90		
Repairs and Alterations, Bureau of Standards— For repairs and necessary alterations to buildings (<i>acts Mar. 3, 1901, vol. 31, p. 1449, secs. 1-10; Feb. 14, 1903, vol. 32, p. 826, sec. 4; July 16, 1914, vol. 38, p. 502, sec. 1; Mar. 3, 1921, vol. 41, p. 1300, sec. 1</i>)				20,000.00	20,000.00
Objects of expenditure.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.		
Contract, construction, etc.	\$10,000.00	\$5,000.00	\$9,339.38		
Equipment	2,000.00	1,000.00	1,119.78		
Supplies	8,000.00	4,000.00	8,124.25		
Total	20,000.00	10,000.00	18,583.41		
General Expenses, Bureau of Standards— For fuel for heat, light, and power; office expenses, stationery, books and periodicals, which may be exchanged when not needed for permanent use; traveling expenses (including expenses of attendance upon meetings of technical and professional societies when required in connection with standardization, testing, or other official work of the bureau); street car fares not exceeding \$100; expenses of the visiting committee; expenses of attendance of American member at the meeting of the International Committee of Weights and Measures; supplies for operation, maintenance, and repair of passenger automobiles and motor trucks for official use, including their exchange; and contingencies of all kinds (<i>acts Mar. 3, 1901, vol. 31, p. 1449, secs. 1-10; Feb. 14, 1903, vol. 32, p. 826, sec. 4; July 16, 1914, vol. 38, p. 502, sec. 1; Mar. 3, 1921, vol. 41, p. 1300, sec. 1</i>)				75,000.00	75,000.00
Objects of expenditure.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.		
Contract, construction, etc.	\$2,000.00	\$2,000.00	\$1,605.00		
Equipment	7,500.00	7,000.00	6,626.85		
Supplies	50,000.00	45,000.00	43,020.35		
Transportation and communication	10,000.00	10,000.00	9,949.57		
Travel	5,500.00	6,000.00	7,495.97		
Total	75,000.00	70,000.00	68,696.84		
OPERATION OF 5-PASSENGER GASOLINE AUTOMOBILES.					
Salary (\$1,200 to \$720)	1,920.00	1,920.00	1,920.00		
Repair parts, tubes, etc.	600.00	500.00	350.35		
Gasoline and oil	400.00	400.00	357.31		
Total	2,920.00	2,820.00	2,627.66		
Improvement and Care of Grounds, Bureau of Standards— For grading, construction of roads and walks, piping grounds for water supply, lamps, wiring for lighting purposes, and other expenses incident to the improvement and care of grounds, including foreman and laborers in the District of Columbia (<i>act Mar. 3, 1921, vol. 41, p. 1301, sec. 1</i>)				10,000.00	10,000.00

Estimates of appropriations required for the service of the fiscal year ending June, 30 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

Improvement and Care of Grounds, Bureau of Standards—Continued.

DEPARTMENT OF AGRICULTURE.

183

ESTIMATES OF APPROPRIATIONS REQUIRED FOR THE SERVICE OF THE FISCAL YEAR ENDING JUNE 30, 1923.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
DEPARTMENT OF AGRICULTURE.		
NOTE.—In the following estimates for the Department of Agriculture new matter appearing in miscellaneous appropriations has been indicated by means of <i>italics</i> , and all matter to be dropped has been inclosed in brackets, thus [] .		
OFFICE OF THE SECRETARY.		
<i>Salaries, Office of the Secretary of Agriculture—</i>		
Secretary of Agriculture (<i>R. S.</i> , p. 87, <i>secs.</i> 520-523; <i>acts Feb. 9, 1889, vol. 25, p. 659, sec. 3; Mar. 2, 1889, vol. 25, p. 835, sec. 3; Feb. 26, 1907, vol. 34, p. 1256, sec. 3; Mar. 3, 1921, vol. 41, p. 1315, sec. 1</i>).....	\$12,000.00	
Assistant Secretary (increase of \$2,500) (<i>same acts</i>).....	7,500.00	
STATEMENT OF SECRETARY OF AGRICULTURE COVERING ALL STATUTORY SALARY INCREASES IN THESE ESTIMATES.		
<p>The salaries of the Assistant Secretary and the chiefs of six of the important scientific bureaus of the department are recommended increased to \$7,500, namely, Bureau of Animal Industry, Bureau of Plant Industry, Forest Service, Bureau of Chemistry, Bureau of Public Roads, and Bureau of Agricultural Economics. The salary of the chief of the Bureau of Biological Survey and the librarian of the department have been recommended to be increased to \$5,000 and \$3,000, respectively. The salaries of the positions of director of scientific work and director of regulatory work, established by act of Congress approved Mar. 3, 1921, are also recommended increased to \$7,500.</p> <p>The Assistant Secretary and chiefs of bureaus and divisions in the Department of Agriculture are greatly underpaid. There has been no change in the salaries of those responsible officers in recent years, notwithstanding the very great economic changes which have taken place.</p> <p>The salaries at present paid to chiefs of bureaus and divisions in the Department of Agriculture are considerably less than those paid to officers of similar rank in other agricultural institutions whose responsibilities are not nearly so great. Most of the deans and directors in the important agricultural colleges and experiment stations are now receiving from \$5,000 to \$10,000 per annum, their salaries having been considerably advanced last year. In contrast to this, only one chief of bureau in the Department of Agriculture receives as much as \$5,000 per annum, while the average is only \$4,680. The minimum professional salary at Harvard is now \$5,000 and the maximum is \$8,000, and practically all our institutions of higher learning are paying heads of departments \$5,000 or more.</p> <p>In comparing the relative salaries of men in the Department of Agriculture and in the colleges and universities it must be borne in mind that university professors are paid on the basis of 9 months' service. If they teach in summer schools or do other work during the vacation period, they are paid extra for it. Furthermore, many of them have every seventh year with full or half salary for advanced study and research, and others are working under retirement provisions which are much more favorable than those of the Department of Agriculture.</p> <p>If the Department of Agriculture is to continue to render the most effective service, if it is to continue to justify the responsibilities placed upon it by Congress and the Nation, it must be in a position to pay adequate compensation to its officers and employees, and this is particularly true of the men who are responsible for directing the work of the various bureaus and divisions. It is earnestly hoped, therefore, that the recommended increases will be approved.</p> <p>Increases are also recommended in the salaries of some of the less responsible administrative and clerical positions throughout the department, as shown in the note immediately following the statutory rolls of the several bureaus and offices concerned. They are for small amounts in each case, are fully merited, and have been submitted only after the most mature consideration. Unless immediate recognition is given the clerical force of the department it will be impossible to retain the trained employees upon whom the administrative officers must necessarily depend to a large extent for the proper conduct of the work authorized and required by law.</p> <p>New places are requested in several instances and are absolutely necessary to meet the normal increase in the work of the bureaus involved. In other cases recommendations are made to substitute appropriate titles and proper salaries for employees who are performing responsible and exacting administrative and clerical duties for a number of low-salaried places. All other increases are due to the transfer of executive officers and clerks from lump funds to statutory rolls of the various bureaus. In each case the rolls have been reduced by the amount of the salaries involved.</p>		
Director of scientific work (increase of \$2,500) (<i>same acts</i>).....	7,500.00	
Director of regulatory work (increase of \$2,500) (<i>same acts</i>).....	7,500.00

Sixteen, at \$240 each (<i>same acts</i>).....	3,840.00	
For extra labor and emergency employments (<i>same acts</i>).....	12,480.00	
	\$376,600.00	\$367,560.00

NOTE.—Apparent increase \$9,040, actual increase \$8,800. There is an increase in the salaries of the assistant secretary from \$5,000 to \$7,500, director of scientific work from \$5,000 to \$7,500, director of regulatory work from \$5,000 to \$7,500, one executive clerk from \$2,100 to \$2,500, one inspector from \$3,000 to \$3,500, one superintendent of telegraph and telephones from \$2,000 to \$2,500, and one assistant chief clerk and captain of the watch from \$1,800 to \$2,000. Two executive clerks at \$2,250 each have been added, while four employees with salaries aggregating \$4,800 are recommended dropped. A messenger boy at \$720 has been transferred from the Division of Publications and one at \$480 to the statutory roll of the Division of Publications, the funds in each case reduced accordingly.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Office of the Secretary of Agriculture—Continued. For salaries and compensation of necessary employees in the mechanical shops and power plant of the Department of Agriculture, \$100,000: <i>Provided, That hereafter the Secretary of Agriculture may, by transfer settlement through the general accounting office, reimburse any appropriation made for the salaries and compensation of employees in the mechanical shops of the department from the appropriation made for the bureau, office, or division for which any work in said shops is performed, and such reimbursement shall be at the actual cost of labor for such work (act Mar. 3, 1921, vol. 41, p. 1315, sec. 1).</i>	\$100,000.00	\$100,000.00

NOTE.—The proviso added to this paragraph received the approval of the House Committee on Agriculture during the consideration of the Agricultural bill for the fiscal year 1922 but was eliminated through a point of order. This provision has for its purpose the reimbursement by the various bureaus of the department, by transfer settlement through the general accounting office, for actual cost of work performed for them in the mechanical shops. The tendency is to increase the amount of work performed by the shops over what would be required if the cost were not charged against the appropriation of the bureau requesting the work.

Three, at \$240 each (<i>same acts</i>).....	720.00	
	\$359,770.00	\$346,580.00

NOTE.—Apparent increase \$13,190; actual increase, \$11,190. There is an increase in the salary of the assistant chief of bureau from \$3,250 to \$3,600, chief clerk from \$2,500 to \$3,000, 3 lithographers from \$1,200 to \$1,100 each, 1 skilled mechanic from \$1,300 to \$1,600, 1 engineer from \$1,300 to \$1,600, 1 electrician from \$1,200 to \$1,400, and 1 gardener from \$1,000 to \$1,200. Total promotions, \$2,450. Thirty new places with salaries aggregating \$42,440 have been added, making a total increase of \$44,590. Thirty places with salaries totaling \$33,700 have been dropped, and 2 clerks, at \$1,000 each, have been transferred from the lump funds of this bureau, and the funds correspondingly reduced. See introductory statement of Secretary of Agriculture.

General Expenses, Weather Bureau—

For carrying into effect in the District of Columbia and elsewhere in the United States, in the West Indies, in the Panama Canal, the Caribbean Sea, and on adjacent coasts, in the Hawaiian Islands, in Bermuda, and in Alaska, the provisions of an act approved October 1, 1890, so far as they relate to the weather service transferred thereby to the Department of Agriculture, for the employment of professors of meteorology, district forecasters, local forecasters, meteorologists, section directors, observers, apprentices, operators, skilled mechanics, instrument makers, foremen, assistant foremen, proof readers, compositors, pressmen, lithographers, folders and feeders, repairmen, station agents, messengers, messenger boys, laborers, special observers, displaymen, and other necessary employees; for fuel, gas, electricity, freight and express charges, furniture, stationery, ice, dry goods, twine, mats, oil, paints, glass, lumber, hardware, and washing towels; for advertising; for purchase, subsistence, and care of horses and vehicles, the purchase and repair of harness, for official purposes only; for instruments, shelters, apparatus, storm-warning towers and repairs thereto; for rent of offices; for repair and improvements to existing buildings and care and preservation of grounds, including the construction of necessary outbuildings and sidewalks on public streets abutting Weather Bureau grounds; and the erection of temporary buildings for living quarters of observers; for official traveling expenses; for telephone rentals, and for telegraphing, telephoning, and cabling reports and messages, rates to be fixed by the

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Weather Bureau—Continued.

Secretary of Agriculture by agreements with the companies performing the service; for the maintenance and repair of Weather Bureau telegraph, telephone, and cable lines; and for every other expenditure required for the establishment, equipment, and maintenance of meteorological offices and stations and for the issuing of weather forecasts and warnings of storms, cold waves, frosts, and heavy snows, the gauging and measuring of the flow of rivers and the issuing of river forecasts and warnings; for observations and reports relating to crops and for other necessary observations and reports, including cooperation with other bureaus of the Government and societies and institutions of learning for the dissemination of meteorological information, as follows (*acts Oct. 1, 1890, vol. 26, p. 653, secs. 4, 5; Mar. 3, 1921, vol. 41, pp. 1316, 1317, sec. 1*):

For necessary expenses in the city of Washington incident to collecting and disseminating meteorological, climatological, and marine information, and for investigations in meteorology, climatology, seismology, volcanology, evaporation, and aerology, **[\$108,410] \$124,170 (same acts)**..... \$124,170.00

NOTE.—An increase of \$15,760, as follows:

(a) \$2,550 for improvement of hurricane-warning service in the Gulf of Mexico, along the South Atlantic coast, and in the West Indies.

(b) \$5,720 for improving the forecast and warning service in connection with the preparation of charts, compilation of reports, etc. The making of forecast maps and charts is the basis of all the forecast and warning service of the bureau. Moreover, the special forecasts now being made for the aviators of the Army, Navy, and Post Office Department, and the largely increased demands for frost, cold-wave, and other warnings have materially increased the duties of the forecasters and map men and intensified the pressure under which they must work.

(c) \$2,800 for restoring and further developing the marine meteorological work. The principal object of this service is to supply data for the pilot charts published by the Hydrographic Office of the Navy Department, as required by law.

(d) \$4,660 for supplies, instruments, fuel, and telegraph services. The great advance in the cost of supplies, instruments, and equipment of all kinds makes this increase absolutely necessary in order to meet the most urgent needs.

Employees.	Rate.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.

---	---	---

General Expenses, Weather Bureau—Continued.

For necessary expenses outside of the city of Washington incident to collecting and disseminating meteorological, climatological, and marine information, and for investigations in meteorology, climatology, seismology, volcanology, evaporation, and aerology. **[\$1,300,110] \$1,346,610,** [including not to exceed \$697,080 for salaries, \$129,040 for special observations and reports, and \$295,750 for telegraphing and telephoning] (acts Oct. 1, 1890, vol. 26, p. 653, secs. 4, 5; Mar. 3, 1921, vol. 41, pp. 1316, 1317, sec. 1).....\$1,346,610.00

NOTE.—An increase of \$46,500, as follows:

(a) \$22,800 for extension of hurricane and storm warning service along the Gulf of Mexico, the South Atlantic coast, and in the West Indian and Caribbean Seas. During recent years it has become increasingly apparent that to afford adequate protection to the inhabitants of coastal regions of the Gulf and South Atlantic an extension of the present service is necessary. At least two additional full reporting stations should be established and a number of supplemental stations organized.

(b) \$1,440 for restoration and development of marine work. This increase will permit the placing of an additional employee at New York, which is the most important marine center in the United States.

(c) \$1,000 to meet the increased demand for snow measurements in the mountains of the West and to supply information concerning water resources for irrigation and power purposes.

(d) \$1,700 to meet increases in radio and telephone tolls.

(e) \$19,500 to meet the increased cost of supplies, instruments, and rents, and for repairs to buildings and cables. There has been no material increase for several years in the funds from which the miscellaneous expenses required for the Weather Bureau field service are defrayed. The increase in rent charges and the cost of supplies, equipment, instruments, repair work, etc., have been so great that only the bare necessities have been met.

Sixteen leases under which rents aggregating \$96,570 are paid will expire on June 30, 1922. Indications are that these leases will be renewable only at increased rents.

The Weather Bureau owns 47 observatory buildings throughout the country exclusive of those at Mount Weather. On account of lack of funds no repairs of any consequence have been made to these buildings since 1915 and they are deteriorating.

Repairs are also badly needed to 60 miles of marine cables. These cables have been laid for 15 years.

The language of the paragraph has been amended by omitting the limiting clauses. These clauses serve no useful purpose, handicap administrative action, and restrict latitude in the use of the appropriation to the best advantage in meeting all contingencies that arise in a service whose activities are so varied and widespread as those of the Weather Bureau.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
General Expenses, Weather Bureau—Continued.						
For investigations, observations, and reports, forecasts, warnings, and advices for the protection of horticultural interests from frost damage, [\$9,000] \$12,000 (acts Oct. 1, 1890, vol. 26, p. 653, secs. 4, 5; Mar. 3, 1921, vol. 41, pp. 1316, 1317, sec. 1)...					\$12,000.00	
NOTE.—An increase of \$3,000. The feasibility of heating orchards to prevent damage by frost has been demonstrated and the practice continues to grow in popularity, with consequent increased demands on the department for assistance in studying individual localities and furnishing specific temperature forecasts and advices concerning the proper time to begin heating. The increase requested will enable the department to render effective and efficient work in the principal horticultural districts where this service is only in partial operation due to inadequate funds.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
<i>General Expenses, Bureau of Animal Industry—Continued.</i>		
For investigating the disease of tuberculosis of animals, for its control and eradication, for the tuberculin testing of animals, and for researches concerning the cause of the disease, its modes of spread, and methods of treatment and prevention, including demonstrations, the formation of organizations, and such other means as may be necessary, either independently or in cooperation with farmers, associations, State, Territory, or county authorities, [\$1,978,800] <i>\$1,977,600</i> , of which [\$978,800] <i>\$977,600</i> shall be set aside for administrative and operating expenses and \$1,000,000 for the payment of indemnities: <i>Provided, however,</i> That in carrying out the purpose of this appropriation, if in the opinion of the Secretary of Agriculture, it shall be necessary to destroy tuberculous animals and to compensate owners for loss thereof, he may, in his discretion, and in accordance with such rules and regulations as he may prescribe, expend in the city of Washington or elsewhere, out of the moneys of this appropriation, such sums as he shall determine to be necessary, within the limitations above provided, for the reimbursement, of owners of animals so destroyed, in cooperation with such States, Territories, counties, or municipalities, as shall by law or by suitable action in keeping with its authority in the matter, and by rules and regulations adopted and enforced in pursuance thereof, provide inspection of tuberculous animals and for compensation to owners of animals so destroyed; but no part of the money hereby appropriated shall be used in compensating owners of such animals except in cooperation with and supplementary to payments to be made by State, Territory, county, or municipality [when] where condemnation of such animals shall take place; nor shall any payment be made hereunder as compensation for or on account of any such animal destroyed if at the time of inspection or test of such animal, or at the time of condemnation thereof, it shall belong to or be upon the premises of any person, firm, or corporation, to which it has been sold, shipped, or delivered for the purpose of being slaughtered: <i>Provided further,</i> That out of the money hereby appropriated no payment as compensation for any tuberculous animal destroyed shall exceed one-third of the difference between the appraised value of such animal and the value of the salvage thereof; that no payment hereunder shall exceed the amount paid or to be paid by the State, Territory, county, or municipality where the animal shall be condemned; and that in no case shall any payment hereunder be more than \$25 for any grade animal or more than \$50 for any pure-bred animal, and no payment shall be made unless the owner has complied with all lawful quarantine regulations (<i>acts May 29, 1884, vol. 23, p. 81, secs. 1-11; Aug. 30, 1890, vol. 26, p. 414, secs. 1-10; Mar. 3, 1891, vol. 26, pp. 883, 1089, sec. 1; May 9, 1902, vol. 32, pp. 198-197, sec. 1; Feb. 2, 1903, vol. 32, pp. 791, 792, secs. 1-3; Mar. 3, 1905, vol. 33, p. 1264, secs. 1-6; June 29, 1906, vol. 34, p. 607, sec. 1; Mar. 4, 1913, vol. 37, p. 832, sec. 1; Mar. 3, 1921, vol. 41, pp. 1317-1320, sec. 1</i>)	\$1,977,600.00	

NOTE.—The apparent decrease of \$1,200 in operating expenses is due to the transfer of a skilled laborer to the Division of Publications.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																																																																
<i>General Expenses, Bureau of Animal Industry—Continued.</i>																																																																																																																																																																		
For all necessary expenses for investigations and experiments in animal husbandry; for experiments in animal feeding and breeding, including cooperation with the State agricultural experiment stations, including repairs and additions to and erection of buildings absolutely necessary to carry on the experiments, including the employment of labor in the city of Washington and elsewhere, rent outside of the District of Columbia, and all other necessary expenses, [\$282,820] \$293,040 : <i>Provided</i> , That of the sum thus appropriated [\$58,640] \$62,860 may be used for experiments in poultry feeding and breeding: <i>Provided further</i> , That of the sum thus appropriated \$8,000 [is hereby made immediately available] may be used for the erection of necessary buildings at the United States sheep experiment station in Clark County, Idaho, to furnish facilities for the investigation of problems pertaining to the sheep and wool industry on the farms and ranges of the Western States (<i>acts May 29, 1884, vol. 23, p. 31, secs. 1-11; Aug. 30, 1890, vol. 26, p. 414, secs. 1-10, Mar. 3, 1891, vol. 26, pp. 883, 1089, sec. 1; May 9, 1902, vol. 32, pp. 193-197, sec. 1; Feb. 2, 1903, vol. 32, pp. 791, 792, secs. 1-3; Mar. 3, 1905, vol. 33, p. 1264, secs. 1-6; June 29, 1906; vol. 34, p. 607, sec. 1; Mar. 4, 1913, vol. 37, p. 832, sec. 1, Mar. 3, 1921, vol. 41, pp. 1317-1320, sec. 1</i>)..	\$293, 040. 00																																																																																																																																																																	
NOTE.—An increase of \$10,220, as follows:																																																																																																																																																																		
(a) \$1,500 for animal genetics. The data on genetics in the Animal Husbandry Division are accumulating to such an extent that to tabulate them for study will require either the employment of additional clerks or the renting of tabulating machines.																																																																																																																																																																		
(b) \$4,500 for horse and mule investigations. This is needed for the purpose of enlarging the studies of the horse problems pertaining to the farm power investigation which has been under way in the department for two years in cooperation with the Office of Farm Management and the Office of Rural Engineering, Bureau of Public Roads, to determine the relative value of horse-drawn and motor-propelled implements on the farm. The amount recommended will provide for the employment of a competent animal husbandman in charge of the project and an assistant, and will permit thorough studies of the problems involved.																																																																																																																																																																		
(c) \$4,220 for farm poultry investigations. At the outbreak of the war, the bureau had just begun, in cooperation with the States Relations Service, a study by means of the calorimeter of the incubation of hens' eggs to determine, if possible, the cause for the loss in chicks during the seventeenth and eighteenth day of incubation. The work was beginning to show promise when it had to be stopped on account of the demands of the war. It is now believed desirable to start this project.																																																																																																																																																																		
The language of this paragraph has been amended by omitting the clause making immediately available the amount for buildings at the sheep experiment station in Clark County, Idaho. The proviso that of the sum appropriated in the paragraph, \$8,000 may be used for the erection of necessary buildings at this station, is, however, retained. The continuation of this provision is recommended in order partially to complete the building program.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																																												
General Expenses, Bureau of Animal Industry—Continued.																																																																																																																																														
For all necessary expenses for scientific investigations in diseases of animals, including the maintenance and improvement of the bureau experiment station at Bethesda, Maryland, and the necessary alterations of buildings thereon, and the necessary expenses for investigations of tuberculin, serums, antitoxins, and analogous products, [\$106,400] \$118,900: Provided, That of said sum \$40,000 may be used for researches concerning the cause, modes of spread, and methods of treatment and prevention of the disease of contagious abortion of animals (<i>acts May 29, 1884, vol. 23, p. 31, secs. 1-11; Aug. 30, 1890, vol. 26, p. 414, secs. 1-10; Mar. 3, 1891, vol. 26, pp. 883, 1089, sec. 1; May 9, 1902, vol. 32, pp. 193-197, sec. 1; Feb. 2, 1903, vol. 32, pp. 791, 792, secs. 1-3; Mar. 3, 1905, vol. 33, p. 1264, secs. 1-6; June 29, 1906, vol. 34, p. 607, sec. 1; Mar. 4, 1913, vol. 37, p. 832, sec. 1; Mar. 3, 1921, vol. 41, pp. 1317-1320, sec. 1</i>).....	\$118,900.00																																																																																																																																													
NOTE. —An increase of \$12,500 for investigations of internal parasites of hogs. Although the hog cholera question has practically been solved, there remain diseases other than cholera which are a serious handicap to the swine industry and for which adequate methods of control have not yet been discovered. Among the most important of these diseases are those caused by internal parasites, such as the intestinal roundworm, a parasite responsible for a tremendous loss among young pigs.

For the construction of buildings at bureau experiment farm at Beltsville, Md. (submitted).....

14,600.00

NOTE.—This is a new item. An item for the construction of buildings at the Beltsville Farm was carried in the appropriation acts for several years prior to the fiscal year 1919, but for the past four years no appropriation has been made for buildings at this farm. As the investigational work has been growing in volume and the number of animals has been increasing steadily, however, it is deemed essential that additional construction work be done in order to keep pace with the increasing needs.

Object of expenditure.	Estimated, 1923.	Estimated, 1922. ¹	Expended, 1921. ¹
Construction work.....	\$14,600.00		

¹ No appropriation.

This construction work will consist of the following buildings:

Two silos, concrete, 14 feet in diameter by 40 feet high, at an estimated cost of \$1,000 each..	\$2,000
Sewage-disposal plant, consisting of concrete tanks and filter beds, at an estimated cost..	5,000
Shop and garage, two-story concrete, 34 by 48 feet, containing approximately 38,000 cubic feet, at 15 cents per cubic foot, estimated cost.....	5,200
Wagon shed, one-story concrete, 24 by 102 feet, containing approximately 24,000 cubic feet, at 10 cents per cubic foot, estimated cost.....	2,400

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																																												
General Expenses, Bureau of Animal Industry—Continued.																																																																																																																																														
For general administrative work, including traveling expenses and salaries of employees engaged in such work, rent outside of the District of Columbia, office fixtures and supplies, express, freight, telegraph, telephone, and other necessary expenses (acts May 29, 1884, vol. 23, p. 31, secs. 1-11; Aug. 30, 1890, vol. 26, p. 414, secs. 1-10; Mar. 3, 1891, vol. 26, pp. 883, 1089, sec. 1; May 9, 1902, vol. 32, pp. 193-197, sec. 1; Feb. 2, 1903, vol. 32, pp. 791, 792, secs. 1-3; Mar. 3, 1905, vol. 33, p. 1264, secs. 1-6; June 29, 1906, vol. 34, p. 607, sec. 1; Mar. 4, 1913, vol. 37, p. 832, sec. 1; Mar. 3, 1921, vol. 41, pp. 1317-1320, sec. 1).....	\$26,686.00

General object (title of appropriation), date of acts, references to Statute: at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
BUREAU OF PLANT INDUSTRY.		
<i>Salaries, Bureau of Plant Industry.—</i>		
Physiologist and pathologist, who shall be chief of bureau (increase of \$2,500) (<i>R. S.</i> , p. 87, <i>secs. 520-523</i> ; <i>acts Apr. 23, 1904, vol. 33, p. 281, sec. 1</i> ; <i>Mar. 3, 1921, vol. 41, pp. 1320, 1321, sec. 1</i>).....	\$7,500.00	
Assistant to the chief (<i>same acts</i>).....	3,000.00	
Executive assistant (<i>submitted</i>).....	2,500.00	
[Administrative assistant in seed and plant distribution, \$2,500.]		
Officer in charge of publications (increase of \$250) (<i>R. S.</i> , p. 87, <i>secs. 520-523</i> ; <i>acts Apr. 23, 1904, vol. 33, p. 281, sec. 1</i> ; <i>Mar. 3, 1921, vol. 41, pp. 1320, 1321, sec. 1</i>).....	2,500.00	
Foreman of gardeners (<i>submitted</i>).....	1,800.00	
[Landscape gardener, \$1,800.]		
[Officer in charge of records, \$2,250.]		
<i>Executive clerks:</i>		
Five, at \$2,250 each (increase of 1) (<i>R. S.</i> , p. 87, <i>secs. 520-523</i> ; <i>acts Apr. 23, 1904, vol. 33, p. 281, sec. 1</i> ; <i>Mar. 3, 1921, vol. 41, pp. 1320, 1321, sec. 1</i>).....	11,250.00	
Five, at \$1,980 each (<i>same acts</i>).....	9,900.00	
Seed inspector (<i>same acts</i>).....	1,000.00	
Seed warehouseman (<i>same acts</i>).....	1,400.00	
<i>Clerks:</i>		
Twelve of class 4 (<i>same acts</i>).....	21,600.00	
Eighteen of class 3 (<i>same acts</i>).....	28,800.00	
Ten, at \$1,500 each (<i>same acts</i>).....	15,000.00	
Thirty-one of class 2 (<i>same acts</i>).....	43,400.00	
One hundred and two of class 1 (increase of 10) (<i>same acts</i>).....	122,400.00	
Two, at \$1,100 each (<i>same acts</i>).....	2,200.00	
[Five, at \$1,080 each.]		
[Seven, at \$1,020 each.]		
Thirty, at \$1,000 each (<i>same acts</i>).....	30,000.00	
Two clerks or draftsmen, at \$1,200 each (<i>same acts</i>).....	2,400.00	
Artist (increase of \$420) (<i>same acts</i>).....	2,040.00	
<i>Clerks or artists:</i>		
One (<i>same acts</i>).....	1,400.00	
Two, at \$1,200 each (<i>same acts</i>).....	2,400.00	
<i>Laboratory aids:</i>		
Two, at \$1,440 each (<i>same acts</i>).....	2,880.00	
One (<i>same acts</i>).....	1,380.00	
Seven, at \$960 each (<i>same acts</i>).....	6,720.00	
Two, at \$900 each (<i>same acts</i>).....	1,800.00	
Six, at \$840 each (<i>same acts</i>).....	5,040.00	
Four laboratory aids or clerks, at \$1,200 each (<i>same acts</i>).....	4,800.00	
<i>Laboratory aids, clerks, or skilled laborers:</i>		
One (<i>same acts</i>).....	1,080.00	
Three, at \$1,020 each (<i>same acts</i>).....	3,060.00	
Map tracer or laboratory aid (<i>same acts</i>).....	900.00	
<i>Assistants in technology:</i>		
One (<i>same acts</i>).....	1,400.00	
One (<i>same acts</i>).....	1,380.00	
<i>Gardeners:</i>		
Two, at \$1,440 each (<i>same acts</i>).....	2,880.00	
Six, at \$1,200 each (<i>same acts</i>).....	7,200.00	
Eight, at \$1,100 each (<i>same acts</i>).....	8,800.00	
Twenty, at \$900 each (<i>same acts</i>).....	18,000.00	
Ten, at \$780 each (<i>same acts</i>).....	7,800.00	
General mechanic (<i>same acts</i>).....	1,400.00	
Mechanician (<i>same acts</i>).....	1,080.00	
<i>Mechanical assistants:</i>		
One (<i>same acts</i>).....	1,400.00	
One (<i>same acts</i>).....	1,200.00	
Teamster (<i>same acts</i>).....	840.00	
<i>Skilled laborers:</i>		
Three, at \$1,100 each (<i>same acts</i>).....	3,300.00	
One (<i>same acts</i>).....	960.00	
Two, at \$900 each (<i>same acts</i>).....	1,800.00	
Three, at \$840 each (<i>same acts</i>).....	2,520.00	
<i>Laborers:</i>		
One (<i>same acts</i>).....	780.00	
Eighty-eight, at \$720 each (<i>same acts</i>).....	63,360.00	
Seventeen messengers or laborers, at \$480 each (decrease of 5) (<i>same acts</i>).....	8,160.00	
<i>Messenger boys:</i>		
Five, at \$660 each (<i>same acts</i>).....	3,300.00	
Fourteen, at \$600 each (<i>same acts</i>).....	8,400.00	
Ten, at \$480 each (<i>same acts</i>).....	4,800.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.		Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.	
Salaries, Bureau of Plant Industry—Continued.				
Charwomen:				
Eleven, at \$480 each (<i>R. S.</i> , p. 87, secs. 520-523; <i>acts Apr. 23, 1904, vol. 33, p. 281, sec. 1; Mar. 3, 1921, vol. 41, pp. 1320, 1321, sec. 1</i>).....	\$5,280.00			
Twenty-one, at \$240 each (<i>same acts</i>).....	5,040.00			
NOTE. —Actual increase, \$230. There is an increase in the salary of the chief of bureau from \$5,000 to \$7,500, one officer in charge of publications from \$2,250 to \$2,500, and one artist from \$1,620 to \$2,040. Thirteen new places with salaries aggregating \$18,550 have been added. Total increase, \$21,720. Twenty places with salaries totaling \$21,490 have been dropped. See introductory statement of Secretary of Agriculture.		\$501,230.00	\$501,000.00	
General Expenses, Bureau of Plant Industry—				
For all necessary expenses in the investigation of fruits, fruit trees, grain, cotton, tobacco, vegetables, grasses, forage, drug, medicinal, poisonous, fiber, and other plants and plant industries, in cooperation with other branches of the department, the State experiment stations, and practical farmers, and for the erection of necessary farm buildings: <i>Provided</i> , That the cost of any building erected shall not exceed \$1,500; for field and station expenses, including fences, drains, and other farm improvements; for repairs in the District of Columbia and elsewhere; for rent outside of the District of Columbia; and for the employment of all investigators, local and special agents, agricultural explorers, experts, clerks, illustrators, assistants, and all labor and other necessary expenses in the city of Washington and elsewhere required for the investigations, experiments, and demonstrations herein authorized, as follows (<i>acts Apr. 18, 1900, vol. 31, pp. 135, 136, secs. 1-5; Aug. 24, 1912, vol. 37, pp. 506, 507, secs. 1-4; Mar. 3, 1921, vol. 41, pp. 1321-1325, sec. 1</i>):				
For investigations of plant diseases and pathological collections, including the maintenance of a plant-disease survey, [\$72,000] \$82,000: <i>Provided</i> , That \$10,000 of this amount shall be used for research in brown-rot and kindred diseases of peach trees (<i>same acts</i>).....	82,000.00			
NOTE. —An increase of \$10,000 is requested to enable the department to investigate soft rots of vegetables in the hope of discovering methods of control through which the present annual losses from this cause may be materially reduced, which in some years, it is estimated, have reached approximately one-half the crop.

For the investigation of diseases of orchard and other fruits, [\$80,935: <i>Provided</i> , That \$8,000 of said amount shall be available for the investigation of] including the diseases of the pecan, \$87,935 (<i>same acts</i>).....				87,935.00
NOTE. —An increase of \$7,000. This increase is necessary for continuing investigations of the condition of fruits at shipping centers, in order that advice may be given market inspectors, shippers, producers, and other interested parties regarding various forms of decay and preventive measures. This work was inaugurated during the war under authority of the food products act and has proven to be of great practical value. The language of the paragraph is amended by omitting the proviso and substituting the clause "including the diseases of the pecan."

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Bureau of Plant Industry—Continued.

For the investigation of diseases of cotton, potatoes, truck crops, forage crops, drug and related plants, **\$100,000** *§117,000 (acts Apr. 18, 1900, vol. 31, pp. 135, 136, secs. 1-5; Aug. 24, 1912, vol. 37, pp. 506, 507, secs. 1-4; Mar. 3, 1921, vol. 41, pp. 1321-1325, sec. 1)*.....

\$117,000.00

NOTE.—An increase of \$17,000 as follows:

(a) \$7,200 for investigations of diseases affecting the tomato. Commercial tomato growing in the Eastern States is seriously threatened. Reduced yields have made the industry unprofitable. These reduced yields are due in part to a cultural problem, but more largely due to such diseases as wilt and leafspot, which are regarded as possible of solution.

(b) \$5,000 for enlarging investigations in bean diseases. This will include the maintenance of a bean field station, the continued breeding of disease-resistant varieties of beans, the enlargement of cooperative work with the States and with other organizations, and the growing and distribution of resistant or disease-free strains of beans which are not commercially available to bean growers.

(c) \$4,800 for enlarging investigations of diseases causing losses during storage and marketing. Diseases have been studied in the field with reference to the problems of production, but not enough has been done to safeguard products against spoilage while en route to the consumer.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Bureau of Plant Industry—Continued.

For crop technological investigations, including the study of plant-infesting nematodes, **[\$24,940]** \$32,440 (acts Apr. 18, 1900, vol. 31, pp. 135, 136, secs. 1-5; Aug. 24, 1912, vol. 37, pp. 506, 507, secs. 1-4; Mar. 3, 1921, vol. 41, pp. 1321-1325, sec. 1).....

\$32,440.00

NOTE.—An increase of \$7,500, to permit studies of the gallworm and other plant-infesting nematodes which are coming to be recognized as serious plant pests. The gallworm causes heavy losses in the production of cotton and other southern crops, while the sugar beet nematode is becoming a limiting factor in the production of sugar beets in many areas. In addition a new clover disease has recently been discovered in the Northwest which seriously menaces the crop in that section.

For studying and testing commercial seeds, including the testing of samples of seeds of grasses, clover, or alfalfa, and lawn-grass seeds secured in the open market, and where such samples are found to be adulterated or misbranded the results of the tests shall be published, together with the names of the persons by whom the seeds were offered for sale, and for carrying out the provisions of the act approved Aug. 24, 1912, entitled "An act to regulate foreign commerce by prohibiting the admission into the United States of certain adulterated grain and seeds unfit for seeding purposes" (Thirty-seventh Statutes at Large, page 506), **[\$41,680]** \$44,680 (same acts).....

44,680.00

NOTE.—An increase of \$3,000. Every shipment of seed subject to the seed importation act of August 24, 1912, is sampled by customs officials at the port of entry. If the increase requested is allowed, it will be possible to employ a permanent assistant for duty at the port of New York to take active charge of the sampling and related activities requisite to the enforcement of the act.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
---	---	---

General Expenses, Bureau of Plant Industry—Continued.

For the investigation and improvement of cereals, including corn, and methods of cereal production, and for the study and control of cereal diseases, including barberry eradication, and for the investigation of the cultivation and breeding of flax for seed purposes, including a study of flax diseases, and for the investigation and improvement of broom corn and methods of broom-corn production, [\$379,705] \$393,705 [Provided, That \$50,000 shall be set aside for the investigation and control of the diseases of wheat, oats, and barley known as black rust, leaf rust, and stripe rust: Provided also, That \$147,200 shall be set aside for the location of and destruction of the barberry bushes and other vegetation from which such rust spores originate: Provided further, That not less than \$20,000 shall be used for investigating the wheat scab or blight] (acts Apr. 18, 1900, vol. 31, pp. 135, 136, secs. 1-5; Aug. 24, 1912, vol. 37, pp. 506, 507, secs. 1-4; Mar. 3, 1921, vol. 41, pp. 1321-1325, sec. 1).....

\$393,705.00

NOTE.—An increase of \$14,000 which it is proposed to use, in addition to a similar amount now devoted to cereal diseases, for restoring agronomic investigations to approximately their prewar level. During the fiscal year 1921 the appropriation for this item, exclusive of the amounts set aside by provisos for specific lines of investigations, was reduced 20 per cent, decreasing the total from \$140,000 to \$112,000.

The language of the paragraph has been changed by omitting the various limiting provisos.

To enable the Secretary of Agriculture to meet the emergency caused by the existence in the United States of flag smut of wheat, take-all, helminthosporium, and other destructive soil and seed-infecting diseases of wheat and of other cereals, [there is hereby appropriated, out of any moneys in the Treasury not otherwise appropriated, \$30,000] \$25,000, to be used in cooperation with the plant disease survey, investigation, and control authorities of the several States to prevent the further spread of and to eradicate or control these diseases (same acts).....

25,000.00

NOTE.—There is a decrease in the amount of this item of \$5,000. Unless new and unusual cereal diseases develop the reduced appropriation requested will be sufficient for continuing the work on an effective basis during the ensuing fiscal year.

For the investigation and improvement of methods of crop production under sub-humid, semiarid, or dry-land conditions. [\$169,000] \$175,000: *Provided, That the limitation in this act as to the cost of farm buildings shall not apply to this paragraph: Provided further, That no part of this appropriation shall be used in the free distribution, or propagation for free distribution, of cuttings, seedlings, or trees of willow, box elder, ash, caragana, or other common varieties of fruit, ornamental, or shelter-belt trees in the Northern Great Plains area, except for experimental or demonstration purposes in the States of North and South Dakota west of the one hundredth meridian, and in Montana and Wyoming east of the five thousand-foot contour line (same acts)*.....

175,000.00

NOTE.—An increase of \$6,000. The Office of Dry Land Agriculture operates 9 independent field stations. Owing to the high cost of labor and materials of all kinds for the past 4 years, very few repairs or replacements have been made. The replacement of horses and implements and repairs to buildings and equipment at 9 farms which have been in operation for an average period of 9 years will require at least \$6,000.

The language of the paragraph has been amended by adding a proviso excluding this item from the \$1,500 limitation on the cost of farm buildings which applies to all the items under "General Expenses, Bureau of Plant Industry," unless specifically excepted.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Bureau of Plant Industry—Continued.

For the investigation and improvement of fruits and the [method] methods of fruit growing, harvesting, handling, and [in cooperation with the Bureau of Markets and Crop Estimates,] studies of the [behavior] physiological and related changes of fruits during the processes of marketing and while in commercial storage, [§83,200] \$121,700 (acts Apr. 18, 1909, vol. 31, pp. 135, 136, secs. 1-5; Aug. 24, 1912, vol. 37, pp. 506, 507, secs. 1-4; Mar. 3, 1921, vol. 41, pp. 1321-1325, sec. 1)...

\$121,700.00

NOTE.—There is an increase of \$38,500 in this item, but taking into consideration the transfer of \$22,000 from the item for preservation of fruits and vegetables of the Bureau of Agricultural Economics, the actual increase is only \$16,500, which will be used as follows:

(a) \$1,000 for enlarging investigations on fruit improvement through bud selection. The work carried on under this project has revolutionized the nursery practices in the propagation of citrus trees in California, and has profoundly influenced also the bearing orchards through the elimination of unproductive trees. The same practices are being extended to Florida, so that the influence of the work covers the entire citrus area of the United States.

(b) It is desired to use the \$22,000 transferred from the Bureau of Agricultural Economics and \$7,500 of the increase asked for in this appropriation in the efficient prosecution of the practical field phases of the studies of the physiological and related changes in fruits during the processes of transportation and storage, through which the results of the more technical laboratory investigations are tested and perfected in the actual commercial transportation and storage of these products.

The language of this paragraph has been amended as indicated.

General Expenses, Bureau of Plant Industry—Continued.

For continuing the necessary improvements to establish and maintain a general experiment farm and agricultural station on the Arlington estate, in the State of Virginia, in accordance with the provisions of the act of Congress approved April 18, 1900, [§20,500] \$75,000: *Provided*, That the limitations in this act as to the cost of farm buildings shall not apply to this paragraph (*acts Apr. 18, 1900, vol. 31, pp. 135, 136, secs. 1-5; Aug. 24, 1912, vol. 37, pp. 506, 507, secs. 1-4; Mar. 3, 1921, vol. 41, pp. 1321-1325, sec. 1*).....

\$75,000.00

NOTE.—An increase of \$54,500, as follows:

(a) \$4,500 to meet the cost of labor, material, and supplies in conducting the work of the Arlington experimental farm. Much of the research work of the department can be conducted more conveniently, economically, and accurately at the farm than elsewhere.

(b) \$50,000 for replacing the present central heating plant of the farm by one which will be more economical in fuel consumption and adequate to heat the greenhouses and other buildings. It is believed that two modern boilers of 100-horsepower capacity should be installed. The increase requested will provide for the purchase of the boilers and the erection of a suitable building for housing them.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Bureau of Plant Industry—Continued.

For the purchase, propagation, testing, and distribution of new and rare seeds; for the investigation and improvement of grasses, alfalfa, clover, and other forage crops, including the investigation of the utilization of cacti and other dry-land plants, **\$125,000** *Provided*, That of this amount not to exceed \$56,600 may be used for the purchase and distribution of such new and rare seeds (*acts Apr. 18, 1900, vol. 31, pp. 135, 136, secs. 1-5; Aug. 24, 1912, vol. 37, pp. 506, 507, secs. 1-4; Mar. 3, 1921, vol. 41, pp. 1321-1325, sec. 1*).....

\$135,000.00

NOTE.—An increase of \$10,000 for investigations in red clover production. The red clover acreage is steadily decreasing at an alarming rate. Between 1899 and 1909 the decrease was nearly 50 per cent, and since 1909 there has been a further decrease, as shown especially by Indiana statistics, and the percentage of clover to total forage has also decreased by one-half or more. The long period over which the decline of clover has extended tends more or less to obscure the serious consequences involved. It is probably no exaggeration to say that the red clover problem is by far the most serious one threatening established American agriculture.

Purchase and distribution of valuable seeds:—

For purchase, propagation, testing, and congressional distribution of valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants; all necessary office fixtures and supplies, fuel, transportation, paper, twine, gum, postal cards, gas, electric current, rent outside of the District of Columbia, official traveling expenses, and all necessary material and repairs for putting up and distributing the same; for repairs and the employment of local and special agents, clerks, assistants, and other labor required, in the city of Washington and elsewhere, \$360,000. And the Secretary of Agriculture is hereby directed to expend the said sum, as nearly as practicable, in the purchase, testing, and distribution of such valuable seeds, bulbs, shrubs, vines, cuttings, and plants, the best he can obtain at public or private sale, and such as shall be suitable for the respective localities to which the same are to be apportioned, and in which same are to be distributed as hereinafter stated, and such seeds so purchased shall include a variety of vegetable and flower seeds suitable for planting and culture in the various sections of the United States: *Provided*, That the Secretary of Agriculture, after due advertisement and on competitive bids, is authorized to award the contract for the supplying of printed packets and envelopes and the packaging, assembling, and mailing of the seeds, bulbs, shrubs, vines, cuttings, and plants, or any part thereof, for a period of not more than five years nor less than one year, if by such action he can best protect the interests of the United States. An equal proportion of five-sixths of all seeds, bulbs, shrubs, vines, cuttings, and plants shall, upon their request, after due notification by the Secretary of Agriculture that the allotment to their respective districts is ready for distribution, be supplied to Senators, Representatives, and Delegates in Congress for distribution among their constituents, or mailed by the department upon the receipt of their addressed franks, in packages of such weight as the Secretary of Agriculture and the Postmaster General may jointly determine: *Provided, however*, That upon each envelope or wrapper containing packages of seeds the contents thereof shall be plainly indicated, and the Secretary shall not distribute to any Senator, Representative, or Delegate seeds entirely unfit for the climate and locality he represents, but shall distribute the same so that each Member may have seeds of equal value, as near as may be, and the best adapted to the locality he represents: *Provided also*, That the seeds allotted to Senators and Representatives for distribution in the districts embraced within the twenty-fifth and thirty-fourth parallels of latitude shall be ready for delivery not later than the 10th day of January: *Provided also*, That any portion of the allotments to Senators, Representatives, and

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Bureau of Plant Industry—Continued.

Delegates in Congress remaining uncalled for on the 1st day of April shall be distributed by the Secretary of Agriculture, giving preference to those persons whose names and addresses have been furnished by Senators and Representatives in Congress and who have not before during the same season been supplied by the department: *And provided also*, That the Secretary shall report, as provided in this act, the place, quantity, and price of seeds purchased, and the date of purchase; but nothing in this paragraph shall be construed to prevent the Secretary of Agriculture from sending seeds to those who apply for the same. And the amount herein appropriated shall not be diverted or used for any other purpose but for the purchase, testing, propagation, and distribution of valuable seeds, bulbs, mulberry and other rare and valuable trees, shrubs, vines, cuttings, and plants.]

NOTE.—A decrease of \$360,000. The department believes that the congressional distribution of vegetable and flower seeds can be dispensed with without material detriment to the agriculture of the country. It is therefore recommended that the item be eliminated and the funds thereby saved devoted to the prosecution of urgently important investigation work on problems of crop production which will yield results of more direct practical value.

For biophysical investigations in connection with the various lines of work herein authorized, \$32,500 [Provided, That of this amount \$7,500 shall be immediately available] (acts Apr. 18, 1900, vol. 31, pp. 135, 136, secs. 1-5; Aug. 24, 1912, vol. 37, pp. 506-507, secs. 1-4; Mar. 3, 1921, vol. 41, pp. 1321-1325, sec. 1)

\$32,500.00

NOTE.—The immediately available proviso is omitted.

	\$782,140.00	\$2,465,020.00

NOTE.—Apparent decrease, \$1,682,880; actual decrease, \$6,820. There is an increase in the salary of the forester from \$5,000 to \$7,500, one draftsman or artist from \$1,200 to \$1,500, one artist from \$1,600 to \$1,800, one blue printer from \$900 to \$1,200, one electrician from \$1,020 to \$1,400, and one laboratory helper from \$720 to \$900. Thirty-nine new places, with salaries aggregating \$63,620, have been added. Total increase, \$67,480. Sixty-six places, with salaries totaling \$74,300, have been dropped. Eleven hundred and ninety-eight forest supervisor, deputy forest supervisor, and forest ranger positions, with salaries aggregating \$1,676,060, have been transferred to the lump-fund roll of this service, and the statutory roll correspondingly reduced. See introductory statement of Secretary of Agriculture.

General Expenses, Forest Service—

To enable the Secretary of Agriculture to experiment and to make and continue investigations and report on forestry, national forests, forest fires, and lumbering, but no part of this appropriation shall be used for any experiment or test made outside the jurisdiction of the United States; to advise the owners of woodlands as to the proper care of the same; to investigate and test American timber and timber trees and their uses, and methods for the preservative treatment of timber; to seek, through investigations and the planting of native and foreign species, suitable trees for the treeless regions; to erect necessary buildings: *Provided*, That the cost of any building purchased, erected, or as improved shall not exceed \$1,000; to pay all expenses necessary to protect, administer and improve the national forests, including tree planting in the forest reserves to prevent erosion, drift, surface wash, and soil waste and the formation of floods, and including the payment of rewards under regulations of the Secretary of Agriculture for information leading to the arrest and conviction for violation of the laws and regulations relating to fires in or near national forests, or for the unlawful taking of, or injury to, Government property; to ascertain the natural conditions upon and utilize the national forests; and the Secretary of Agriculture may, in his discretion, permit timber and other forest products cut or removed from the national forests to be exported from the State or Territory in which said forests are respectively situated; to transport and care for fish and game supplied to stock the national forests or the waters therein; to employ agents, clerks, assistants, and other labor required in practical forestry and in the administration of national forests in the city of Washington and elsewhere; to collate, digest, report, and illustrate the results of experiments and investigations made by the Forest Service; to purchase necessary supplies, apparatus, office fixtures, law books, and technical books and technical journals for officers of the Forest Service stationed outside of Washington, and for medical supplies and services and other assistance necessary for the immediate relief of artisans, laborers, and other employees engaged in any hazardous work under the Forest Service; to pay freight, express, telephone, and telegraph charges; for electric light and power, fuel, gas, ice, washing towels, and official traveling and other necessary expenses, including traveling expenses for legal and fiscal officers while performing Forest Service work; and for rent outside of the District of Columbia, as follows (acts *Mar. 3, 1899, vol. 30, p. 1095, sec. 1; June 3, 1902, vol. 32, p. 295, sec. 1; Feb. 1, 1903, vol. 33, p. 268, sec. 1; June 11, 1906, vol. 34, p. 233, sec. 1; Mar. 1, 1911, vol. 36, p. 963, sec. 1; Mar. 4, 1913, vol. 37, p. 842, sec. 1; Mar. 4, 1915, vol. 38, p. 1099, sec. 1; Mar. 3, 1921, vol. 41, pp. 1325-1330, sec. 1*):

NOTE.—The word "purchased" is inserted in this paragraph following the word "building" so as to permit the purchase of buildings which have been erected on national forest lands under permit or on private lands whose owners are willing to sell.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
<i>General Expenses, Forest Service—Continued.</i>		
National Forest, Wyo., \$4,404; Toiyabe National Forest, Nev., \$3,694; Tongass National Forest, Alaska, \$21,566; Tonto National Forest, Ariz., \$7,685; Trinity National Forest, Calif., \$19,484; Tusayan National Forest, Ariz., \$8,819; Uinta National Forest, Utah, \$4,555; Umatilla National Forest, Oreg., \$10,627; Umpqua National Forest, Oreg., \$13,509; Uncompahgre National Forest, Colo., \$6,690; Wallowa National Forest, Oreg., \$9,617; Wasatch National Forest, Utah, \$5,000; Washakie National Forest, Wyo., \$6,726; Washington National Forest, Wash., \$7,642; Weiser National Forest, Idaho, \$6,493; Wenatchee National Forest, Wash., \$14,075; White River National Forest, Colo., \$6,272; Whitman National Forest, Oreg., \$25,201; Wichita National Forest, Okla., \$2,416; Wyoming National Forest, Wyo., \$5,089.]		
[Additional national forests created or to be created under section 11 of the Act of March 1, 1911 (Thirty-sixth Statutes at Large, page 963), and lands under contract for purchase or for the acquisition of which condemnation proceedings have been instituted for the purposes of said Act, \$84,750.]		
[For necessary miscellaneous expenses incident to the general administration of the Forest Service and of the national forests specified above: In national forest district 1, \$61,700; in national forest district 2, \$47,800; in national forest district 3, \$55,200; in national forest district 4, \$49,500; in national forest district 5, \$69,740; in national forest district 6, \$60,800; in national forest district 7, \$14,900; in national forest district 8, \$12,100; in the District of Columbia, \$120,330.]		
[For additional salaries and field station expenses, including the maintenance of nurseries, collecting seed, and planting necessary for the use, maintenance, improvement, and protection of the national forests, \$125,000.]		
NOTE.—The items omitted above are combined in one paragraph immediately below.		
For the employment of forest supervisors, deputy forest supervisors, forest rangers, forest guards, and administrative clerical assistants on the national forests, and for additional salaries and field station expenses, including the maintenance of nurseries, collecting seed, and planting, necessary for the use, maintenance, improvement, and protection of the national forests and of additional national forests created or to be created under section 11 of the act of Mar. 1, 1911 (36 Stats. at L., p. 963), and lands under contract for purchase or for the acquisition of which condemnation proceedings have been instituted for the purposes of said act, and for necessary miscellaneous expenses incident to the general administration of the Forest Service and of the national forests:		
<i>In National Forest District One, Montana, Washington, Idaho, South Dakota</i> \$949,815.00 <i>In National Forest District Two, Colorado, Wyoming, South Dakota, Nebraska, Michigan, Minnesota</i> 540,322.00 <i>In National Forest District Three, Arizona and New Mexico</i> 459,942.00 <i>In National Forest District Four, Utah, Idaho, Wyoming, Nevada, Arizona</i> 601,695.00 <i>In National Forest District Five, California and Nevada</i> 621,135.00 <i>In National Forest District Six, Washington and Oregon</i> 651,970.00 <i>In National Forest District Seven, Arkansas, Alabama, Florida, Oklahoma, South Carolina, North Carolina, Tennessee, Virginia, West Virginia, New Hampshire, Maine, Porto Rico</i> 220,173.00 <i>In National Forest District Eight, Alaska</i> 78,040.00 <i>In the District of Columbia</i> 120,330.00		
In all, for the use, maintenance, improvement, protection, and general administration of the [specified] national forests, [\$2,237,362] \$4,243,422: <i>Provided</i> , That the foregoing amounts appropriated for such purposes shall be available interchangeably in the discretion of the Secretary of Agriculture for the necessary expenditures for fire protection and other unforeseen exigencies: <i>Provided further</i> , That the amount so interchanged shall not exceed in the aggregate 10 per centum of all the amounts so appropriated (acts Mar. 3, 1899, vol. 30, p. 1095, sec. 1; June 3, 1902, vol. 32, p. 295, sec. 1; Feb. 1, 1905, vol. 33, p. 268, sec. 1; June 11, 1906, vol. 34, p. 233, sec. 1; Mar. 1, 1911, vol. 36, p. 963, sec. 1; Mar. 4, 1913, vol. 37, p. 842, sec. 1; Mar. 4, 1915, vol. 38, p. 1099, sec. 1; Mar. 3, 1921, vol. 41, pp. 1325-1330, sec. 1) .. \$4,243,422.00		
NOTE.—There is an apparent increase in this item of \$2,006,060, but due to the consolidation in one paragraph of 1,198 statutory forest supervisor, deputy forest supervisor, and forest ranger positions, with salaries aggregating \$1,676,060, and the lump fund item of \$175,000 for the employment of additional forest supervisors and rangers, less the transfer of \$5,000 from the item for Nebraska National Forest to the lump fund for tree planting, the actual increase is \$160,000, as follows: (a) \$100,000 for 200 additional fire guards—the minimum number which will protect the Government from excessive losses of our remaining supply of timber. The experience of the past few years has demonstrated beyond question that the force is not sufficient to provide protection from forest fires even in normal years, and the amount requested would be an expenditure justified by good business and public policy. (b) \$40,000 to provide for salaries and travel expenses of 20 additional technical men, to provide an adequate force for the rapidly increasing timber business on the National Forests. (c) \$20,000 for salary and travel expenses of 10 additional grazing assistants. Because of the heavy use of national forest ranges, the large number of applications in excess of known carrying capacities, and the grave danger of injury to the range and to timber reproduction in the absence of efficient technical administration, such assistance is imperative in carrying out the general range appraisals now in progress.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Forest Service—Continued.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
General Expenses, Forest Service—Continued.						
For fighting and preventing forest fires, \$250,000, or so much thereof as may be necessary [and to enable the Secretary of Agriculture to cooperate with the War Department in the maintenance of an air patrol for fire prevention and suppression on the national forests of the Pacific coast and the Rocky Mountain regions, \$50,000: <i>Provided</i> , That no part of this appropriation shall be used for the purchase of land or airplanes or for the construction of permanent buildings; in all, \$300,000:] (acts Mar. 3, 1899, vol. 30, p. 1095, sec. 1; June 3, 1902, vol. 32, p. 295, sec. 1; Feb. 1, 1905, vol. 33, p. 268, sec. 1; June 11, 1906, vol. 34, p. 233, sec. 1; Mar. 1, 1911, vol. 36, p. 963, sec. 1; Mar. 4, 1913, vol. 37, p. 842, sec. 1; Mar. 4, 1915, vol. 38, p. 1099, sec. 1; Mar. 3, 1921, vol. 41, pp. 1325-1330, sec. 1).....					\$250,000.00	
NOTE.—The decrease of \$50,000 is due to the elimination of the aerial fire patrol fund, and the language of the paragraph is amended accordingly. This being an emergency appropriation, it is impracticable to submit the detailed estimate of expenditures required by section 10 of the sundry civil act of Aug. 1, 1914.						
For the selection, classification, and segregation of lands within the boundaries of national forests that may be opened to homestead settlement and entry under the homestead laws applicable to the national forests; for the examination and appraisal of lands in effecting exchanges authorized by law and for the survey thereof by metes and bounds or otherwise by employees of the Forest Service under the direction of the Commissioner of the General Land Office; and for the survey and platting of certain lands, chiefly valuable for agriculture, now listed or to be listed within the national forests, under the act of June 11, 1906 (34 Stat., p. 233), and the act of Mar. 3, 1899 (30 Stat., p. 1095), as provided by the act of Mar. 4, 1913, [\$75,000] \$50,000 (same acts).....					60,000.00	
NOTE.—A decrease of \$15,000 is recommended, as the classification of lands is largely completed and with the exception of Montana and Idaho, the entire survey work will consist hereafter of isolated cases only.

For the purchase of tree seed, cones, and nursery stock, for seeding and tree planting within national forests, and for experiments and investigations necessary for such seeding and tree planting, **[\$120,640]** \$125,640: *Provided, That from the nurseries on the Nebraska National Forest the Secretary of Agriculture, under such rules and regulations as he may prescribe, may furnish young trees free, so far as they may be spared, to residents of the territory covered by "An act increasing the area of homesteads in a portion of Nebraska," approved Apr. 28, 1904 (same acts)*.....

125,640.00

NOTE.—This item shows an apparent increase of \$5,000. No actual increase is involved, as it merely contemplates the transfer of this amount from the item for Nebraska National Forest, together with the authorization for the free distribution of young trees grown in the nurseries on that forest.

The paragraph has been amended by adding the proviso formerly carried under the Nebraska National Forest.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
---	---	---

General Expenses, Forest Service—Continued.

For training and instruction of forest officers necessary for effective protection and administration of the national forests (submitted)..... \$20,000.00

NOTE.—This is a new item. From an inspection and analysis of the history of forest fires, it has been shown that frequently the losses of timber and expenditures of public money in suppressing the fires would have been much smaller if the forest officers had been more experienced. The amount requested will enable the Forest Service to organize and assemble training camps in each of the four worst fire districts.

<p>To enable the Secretary of Agriculture more effectively to carry out the provisions of the act of Mar. 1, 1911 (36 Stat., p. 961), entitled "An act to enable any State to cooperate with any other State or States, or with the United States, for the protection of watersheds of navigable streams, and to appoint a commission for the acquisition of lands for the purpose of conserving the navigability of navigable rivers," [\$25,770] \$27,000 of the moneys appropriated therein, or for carrying out its purposes, shall be available for the employment of agents, title attorneys, clerks, assistants, and other labor, and for the purchase of supplies and equipment required for the purpose of said act in the city of Washington.</p> <p>NOTE.—The amount made available from the Weeks law fund for administrative expenses in Washington is changed from \$25,770 to \$27,000, an increase of \$1,230, but carries no appropriation.</p> <p>Statement of clerks employed in District of Columbia on lump-fund appropriations for 30 days or more during the fiscal year ended June 30, 1921 (32 Stat., p. 303).</p> <p>GENERAL EXPENSES—FOREST SERVICE.</p> <p>2 clerks, at \$1,400 each per annum; 2 clerks, at \$1,200 each per annum.</p> <p>FEDERAL FOREST ROAD CONSTRUCTION.</p> <p>1 clerk, \$1,800 per annum.</p>																																																																																																												
Total for Forest Service.....		6,694,482.00	6,499,302.00																																																																																																									

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
BUREAU OF CHEMISTRY.		
<i>Salaries, Bureau of Chemistry—</i>		
Chemist, who shall be chief of bureau (increase of \$2,500) (<i>R. S.</i> , p. 87, secs. 520-523; acts Apr. 14, 1896, vol. 29, p. 100, sec. 1; Mar. 2, 1901, vol. 31, p. 930, sec. 1; Mar. 3, 1921, vol. 41, p. 1331, sec. 1).....	\$7,500.00	
Chief clerk, \$2,500.]		
Two administrative assistants at \$2,500 each (increase of 1) (<i>same acts</i>).....	5,000.00	
Five executive clerks, at \$2,000 each (increase of 1) (<i>same acts</i>).....	10,000.00	
Clerks:		
Fourteen of class 4 (<i>same acts</i>).....	25,200.00	
Sixteen of class 3 (<i>same acts</i>).....	25,600.00	
Six, at \$1,440 each (<i>same acts</i>).....	8,640.00	
Thirty of class 2 (<i>same acts</i>).....	42,000.00	
Eighteen, at \$1,300 each (increase of 12) (<i>same acts</i>).....	23,400.00	
Fifty-one of class 1 (decrease of 14, 1 by transfer to statutory roll, Division of Publications, and 13 dropped) (<i>same acts</i>).....	61,200.00	
Sixteen, at \$1,020 each (decrease of 1 by transfer to statutory roll, Division of Publications) (<i>same acts</i>).....	16,320.00	
Machine operators:		
One, \$1,100, transferred to statutory roll, Division of Publications.]		
Two, at \$1,000 each (<i>same acts</i>).....	2,000.00	
Laboratory helpers:		
Eight, at \$1,200 each (<i>same acts</i>).....	9,600.00	
Ten, at \$1,020 each (<i>same acts</i>).....	10,200.00	
Four, at \$960 each (<i>same acts</i>).....	3,840.00	
Five, at \$900 each (<i>same acts</i>).....	4,500.00	
Ten, at \$840 each (increase of 2) (<i>same acts</i>).....	8,400.00	
Laboratory helpers or laborers:		
Six, at \$780 each (<i>same acts</i>).....	4,680.00	
Twenty-six, at \$720 each (decrease of 1) (<i>same acts</i>).....	18,720.00	
Ten, at \$600 each (decrease of 5) (<i>same acts</i>).....	6,000.00	
Mechanics:		
One (<i>same acts</i>).....	2,280.00	
Three, at \$1,800 each (increase of 1 by transfer from lump fund) (<i>same acts</i>).....	5,400.00	
One (<i>same acts</i>).....	1,620.00	
Two at \$1,400 each (<i>same acts</i>).....	2,800.00	
Three at \$1,200 each (<i>same acts</i>).....	3,600.00	
One (<i>same acts</i>).....	1,020.00	
One \$960.]		
Two student assistants, at \$300 each (<i>same acts</i>).....	600.00	
Skilled laborers:		
One (<i>same acts</i>).....	1,050.00	
One (<i>same acts</i>).....	1,020.00	
One (<i>same acts</i>).....	900.00	
One (<i>same acts</i>).....	840.00	
Two messengers, at \$840 each.]		
Messenger boys:		
One (<i>same acts</i>).....	720.00	
Eight, at \$600 each (<i>same acts</i>).....	4,800.00	
Three, at \$540 each (<i>same acts</i>).....	1,620.00	
Two, at \$480 each (decrease of 4) (<i>same acts</i>).....	960.00	
Four laborers, at \$480 each.]		
Thirteen charwomen, at \$240 each (<i>same acts</i>).....	3,120.00	
	\$325,150.00	\$330,690.00
<p>NOTE.—Apparent decrease \$5,540; actual decrease \$4,020. There is an increase of \$2,500 in the salary of the chief of bureau from \$5,000 to \$7,500, and 16 new places with salaries aggregating \$21,780 have been added. Total increase, \$24,280. Thirty-one places with salaries totaling \$28,300 have been dropped. Three employees, whose salaries amount to \$3,320 have been transferred to the Division of Publications, and a mechanic, at \$1,800, has been transferred from the lump fund of this bureau, and that fund correspondingly reduced. See introductory statement of Secretary of Agriculture.</p>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																			
General Expenses, Bureau of Chemistry—																																																																																																																					
For all necessary expenses, for chemical apparatus, chemicals and supplies, repairs to apparatus, gas, electric current, official traveling expenses, telegraph and telephone service, express and freight charges, for the employment of such assistants, clerks, and other persons as the Secretary of Agriculture may consider necessary for the purposes named, in the city of Washington and elsewhere, in conducting investigations; collecting, reporting, and illustrating the results of such investigations; and for rent outside of the District of Columbia for carrying out the investigations and work herein authorized as follows (<i>acts June 3, 1902, vol. 32, p. 303, sec. 1; June 30, 1906, vol. 34, pp. 768-770, sec. 1; Mar. 3, 1921, vol. 41, pp. 1331, 1332, sec. 1</i>):																																																																																																																					
For conducting the investigations contemplated by the act of May 15, 1862, relating to the application of chemistry to agriculture; for the biological investigation of food and drug products and substances used in the manufacture thereof, including investigations of the physiological effects of such products on the human organism, [\$70,400] \$75,400 (same acts)	\$75,400.00																																																																																																																				
NOTE.—An increase of \$5,000 for extending investigations of the use of casina or youpon as a beverage. This plant, which grows wild in the South Atlantic and Gulf States, produces a caffein beverage somewhat similar to tea. Preliminary work has developed that by special preparation a delightful beverage can be obtained which, in the opinion of many, is equal in every way to tea.

	\$80,440.00	\$79,240.00

NOTE.—Actual increase \$1,200. There is an increase in the salary of one chief clerk from \$2,000 to \$2,500, one administrative assistant from \$2,100 to \$2,400, and one executive assistant from \$2,000 to \$2,400. See introductory statement of Secretary of Agriculture.

General Expenses, Bureau of Soils—

For all necessary expenses connected with the investigations and experiments herein-after authorized, including the employment of investigators, local and special agents, assistants, experts, clerks, draftsmen, and labor in the city of Washington and elsewhere; official traveling expenses, materials, tools, instruments, apparatus, repairs to apparatus, chemicals, furniture, office fixtures, stationery, gas, electric current, telegraph and telephone service, express and freight charges, rent outside the District of Columbia, and for all other necessary supplies and expenses, as follows (*acts June 3, 1902, vol. 32, p. 297, sec. 1; Mar. 3, 1921, vol. 41, pp. 1332, 1333, sec. 1*):

For chemical investigations of soil types, soil composition, and soil minerals, the soil solution, solubility of soil and all chemical properties of soils in their relation to soil formation, soil texture, and soil productivity, including all routine chemical work in connection with the soil survey (*same acts*).....

For investigation within the United States of fertilizers and other soil amendments and their suitability for agricultural use (submitted).....

86,840.00

NOTE.—This is a new item and is recommended in lieu of item above which is omitted. The wording of the present item does not adequately describe the work being conducted and apparently conflicts with authority conferred by law upon the Bureau of Mines and the Geological Survey. While there is no real duplication of work between the department, the Bureau of Mines, and the Geological Survey, it was agreed between officials of the three organizations that the change in wording above recommended would better describe the work of the department and at the same time obviate any question as to apparent duplication of work.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Bureau of Entomology—Continued.

For investigations of insects affecting cereal and forage crops, including a special investigation of the Hessian fly, grasshopper, and the chinch bug **[\$190,000]**, **\$175,000**: *Provided*, That not less than **[\$40,000]** **\$25,000** shall be used for investigating methods for the control and **[eradication of the grasshopper]** **destruction of grasshoppers** (acts June 16, 1880, vol. 21, p. 259, sec. 1; June 3, 1902, vol. 32, p. 298, sec. 1; Mar. 3, 1905, vol. 33, pp. 1269, 1270, secs. 1-3; June 30, 1906, vol. 34, p. 688, sec. 1; Mar. 3, 1921, vol. 41, pp. 1333-1335, sec. 1)..... **\$175,000.00**

NOTE.—There is a decrease of **\$15,000** and a corresponding decrease in the amount set aside by the proviso for investigating methods for the control and eradication of the grasshopper. It is thought that **\$25,000** will be sufficient for this work during the ensuing fiscal year. The language of the proviso has been amended by substituting the words "destruction of grasshoppers" for the words "eradication of the grasshopper."

For investigations of insects affecting citrus and other tropical and subtropical plants, and for investigations and control of the Mediterranean and other fruit flies, in cooperation with the Federal Horticultural Board, [§56,500], \$71,500, of which sum \$10,000 shall be immediately available for investigations of the camphor scale (<i>same acts</i>).....					71,500.00	
NOTE.—An increase of \$15,000. This increase will be used entirely for investigations of the so-called camphor scale. The camphor scale has recently become established in New Orleans and probably elsewhere in that region, attacking not only camphor trees, but other crops of economic importance, as the orange, lemon, grapefruit, Japanese persimmon, grape, pecan, Japanese plum, pear, fig, as well as many ornamental plants. In order that work may be undertaken as soon as possible, it is requested that \$10,000 be made immediately available.						

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.

7,000.00

NOTE.—An increase of \$3,120. The American Association of Economic Entomologists, State agricultural experiment stations, agricultural colleges, and State universities have suggested the inauguration of an insect-pest survey, the purpose of which would be promptly to advise the department of outbreaks of injurious insects, the department in turn to immediately dispatch warnings to States where outbreaks might be expected.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																			
<p><i>Preventing Spread of Moths, Bureau of Entomology—</i> To enable the Secretary of Agriculture to meet the emergency caused by the continued spread of the gypsy and brown tail moths by conducting such experiments as may be necessary to determine the best methods of controlling these insects; by introducing and establishing the parasites and natural enemies of these insects and colonizing them within the infested territory; by establishing and maintaining a quarantine against further spread in such manner as is provided by the general nursery-stock law, approved August 20, 1912, as amended, entitled "An Act to regulate the importation of nursery stock and other plants and plant products, to enable the Secretary of Agriculture to establish and maintain quarantine districts for plant diseases and insect pests, to permit and regulate the movements of fruits, plants, and vegetables therefrom, and for other purposes," in cooperation with the authorities of the different States concerned and with the several State experiment stations, including rent outside of the District of Columbia, the employment of labor in the city of Washington and elsewhere, and all other necessary expenses, [\$400,000] \$600,000, of which sum \$100,000 shall be immediately available (acts Mar. 3, 1905, vol. 33, pp. 1269, 1270, secs. 1-3; Mar. 3, 1921, vol. 41, p. 1334, sec. 1).....</p> <p>NOTE.—An increase of \$200,000 for use in New Jersey and the New England States: \$100,000 will be used for the work in New Jersey, where the infestation comprises an area of 400 square miles. While the larger portion of this area is only slightly infested, the entire territory will have to be covered at intervals for at least two years in order to reduce and, if possible, stamp out all points of infestation. The remainder of the increase is necessary for additional work in the New England States. The entire western border of the infested territory of New England will have to be scouted thoroughly during the next two seasons, as this work was necessarily temporarily discontinued last year on account of the urgency of the situation in New Jersey. The estimate submitted is the minimum with which this work can be conducted without endangering the entire project, and it is desired that \$100,000 be made immediately available.</p> <table><thead><tr><th>Employees.</th><th>Rate.</th><th>Estimated, 1923.</th><th>Estimated, 1922.</th><th>Expended, 1921.</th></tr></thead><tbody><tr><td>Salaries:</td><td></td><td><i>Number.</i></td><td><i>Number.</i></td><td><i>Number.</i></td></tr><tr><td>Entomologist..... per annum.....</td><td>\$4,380.00</td><td>1</td><td>1</td><td>1</td></tr><tr><td>Scientific assistant, \$3,250 to \$1,350..... do.....</td><td></td><td>31</td><td>31</td><td>31</td></tr><tr><td>Specialists, \$2,250 to \$1,740..... do.....</td><td></td><td>2</td><td>1</td><td>3</td></tr><tr><td>Field assistants, \$1,800 to \$1,200..... do.....</td><td></td><td>28</td><td>25</td><td>55</td></tr><tr><td>Expert..... do.....</td><td>1,950.00</td><td></td><td></td><td>1</td></tr><tr><td>Foremen, \$1,800 to \$1,560..... do.....</td><td></td><td>2</td><td>3</td><td>5</td></tr><tr><td>Clerk..... do.....</td><td>1,600.00</td><td></td><td></td><td>1</td></tr><tr><td>Laboratory assistant..... do.....</td><td>1,200.00</td><td>1</td><td>1</td><td>1</td></tr><tr><td>Collaborators, \$300 to \$1..... do.....</td><td></td><td>4</td><td>4</td><td>6</td></tr><tr><td>Wages:</td><td></td><td></td><td></td><td></td></tr><tr><td>Mechanics, \$1,500 to \$1,200..... do.....</td><td></td><td>2</td><td>4</td><td>4</td></tr><tr><td>Miscellaneous temporary labor, \$5.84 to \$3.44..... per diem.....</td><td></td><td>360</td><td>350</td><td>350</td></tr><tr><td>Salaries.....</td><td></td><td>\$109,895.00</td><td>\$104,198.00</td><td>\$102,601.42</td></tr><tr><td>Wages.....</td><td></td><td>215,000.00</td><td>146,000.00</td><td>179,777.64</td></tr><tr><td colspan="5">OTHER OBJECTS OF EXPENDITURE.</td></tr><tr><td>Stationery and office supplies.....</td><td></td><td>1,500.00</td><td>1,000.00</td><td>1,167.88</td></tr><tr><td>Traveling expenses.....</td><td></td><td>100,000.00</td><td>90,000.00</td><td>99,406.93</td></tr><tr><td>Equipment and material.....</td><td></td><td>90,000.00</td><td>30,000.00</td><td>21,605.19</td></tr><tr><td>Telephone and telegraph service.....</td><td></td><td>1,500.00</td><td>1,000.00</td><td>2,954.70</td></tr><tr><td>Miscellaneous items.....</td><td></td><td>\$2,105.00</td><td>27,802.00</td><td>63,492.08</td></tr><tr><td>Total.....</td><td></td><td>600,000.00</td><td>400,000.00</td><td>471,003.84</td></tr></tbody></table>	Employees. * This construction work is to consist of the following building: 1 pavilion, containing 2,500 cubic feet, at about 12 cents per cubic foot, \$300.

* This construction work will consist of the following building: Completion of 1 woman's rest house, containing 10,752 cubic feet, at about 5.5 cents per cubic foot, \$600.

* This construction work consisted of the following building: Partial construction of, 1 woman's rest house, containing 10,752 cubic feet, at about 10.7 cents per cubic foot, \$1,150.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
General Expenses, Bureau of Biological Survey—Continued.						
For investigating the food habits of North American birds and other animals in relation to agriculture, horticulture, and forestry; for investigations, experiments, and demonstrations in connection with rearing fur-bearing animals; for experiments, demonstrations, and cooperation in destroying mountain lions, wolves, coyotes, bobcats, prairie dogs, gophers, ground squirrels, jack rabbits, and other animals injurious to agriculture, horticulture, forestry, animal husbandry, and wild game; and for the protection of stock and other domestic animals through the suppression of rabies in predatory wild animals, [§477,240] §504,240 (acts May 25, 1900, vol. 31, p. 187, sec 1; Mar. 4, 1909, vol. 35, pp. 1104, 1137, and 1138, sec. 1; Mar. 4, 1913, vol. 37, pp. 847, 848, sec. 1; Mar. 3, 1921, vol. 41, pp. 1335, 1336, sec. 1)					\$504,240.00	
NOTE.—An apparent increase of \$27,000, but as 8 employees with salaries aggregating \$10,740 have been transferred to the statutory roll, the actual increase is \$37,740. This increase is urgently needed to meet the public demand for the important and immediately productive work of destroying animal pests injurious to agriculture, horticulture, forestry, animal husbandry, and wild game.

Six at \$480 each (increase of 2 by transfer, 1 from statutory roll, Secretary's Office, and 1 from statutory roll, Bureau of Agricultural Economics) (<i>same acts</i>).....	2,880.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																			
<i>Salaries, Division of Publications—Continued.</i> Charwomen: Three at \$480 each (<i>R. S.</i> , p. 87, <i>secs.</i> 520–523; <i>acts</i> <i>Mar. 1, 1899, vol. 30, p. 948, sec. 1; Mar. 3, 1921, vol. 41, p. 1336, sec. 1</i>)..... Four at \$240 each (<i>same acts</i>)..... NOTE.—Apparent increase, \$45,020; actual increase, \$2,080. One clerk at \$1,020 has been promoted to \$1,100 with change of title to machine operator, 10 new places with salaries aggregating \$16,900 have been added, and 9 places with salaries of \$14,900 dropped, resulting in an actual increase in the statutory roll of \$2,080. In addition 37 employees with salaries of \$43,660 have been transferred to this roll from the funds of the various bureaus, and in each case the rolls have been reduced by the amount of the salaries involved. A messenger boy at \$720 has also been transferred from this division to the statutory roll of the Secretary's Office.	\$1,440.00 960.00	\$299,900.00 \$254,880.00																																																																																																																			
<i>General Expenses, Division of Publications—</i> For miscellaneous objects of expenditure in connection with the publication, indexing, illustration, and distribution of bulletins, documents, and reports, as follows (<i>act</i> <i>Mar. 3, 1921, vol. 41, pp. 1336, 1337, sec. 1</i>): [For labor-saving machinery, including necessary supplies, \$6,000;] [For envelopes, stationery, and materials, \$10,000;] [For office furniture and fixtures, \$2,000;] [For photographic equipment and for photographic materials and artists' tools and supplies, \$22,000;] [For telephone and telegraph service and freight and express charges, \$1,200;] [For wagons, motor trucks, bicycles, horses, harness, and maintenance of the same, \$1,000;] [For purchase of manuscripts, traveling expenses, electrotypes, illustrations, and other expenses not otherwise provided for, \$4,350;] [For extra labor and emergency employments in the District of Columbia, \$11,380;] For labor-saving machinery and supplies, envelopes, stationery and materials, office furniture and fixtures, photographic equipment and materials, artists' tools and supplies, telephone and telegraph service, freight and express charges; purchase and maintenance of motor trucks; purchase and maintenance of bicycles; purchase of manuscripts; traveling expenses; electrotypes, illustrations, payment of salaries and wages in the District of Columbia, and other expenses not otherwise provided for (<i>submitted</i>)..... NOTE.—It is proposed to consolidate into one paragraph the several items providing for the miscellaneous expenses of the division. At present 9 separate items of appropriation provide for its various activities. This multiplicity of subappropriations not only causes a great amount of unnecessary bookkeeping but hampers administrative action in the expenditure of the appropriation. To obviate this difficulty it is proposed to combine 8 of the smaller items and omit them as separate items. This change involves no increase in the total amount.	57,930.00

1 clerk, \$1,600 per annum.	1 clerk, \$1,100 per annum.					
1 clerk, \$1,320 per annum.	5 clerks, at \$960 each per annum.					
Total for Division of Publications.....					427,830.00	382,810.00
LIBRARY, DEPARTMENT OF AGRICULTURE.						
Salaries, Library, Department of Agriculture—						
Librarian (increase of \$1,000) (<i>R. S., p. 87, secs. 520-523; act Mar. 3, 1921, vol. 41, p. 1337, sec. 1</i>).....					3,000.00	
Clerks:						
Two of class 4 (<i>same acts</i>).....					3,600.00	
Four of class 3 (increase of 1) (<i>same acts</i>).....					6,400.00	
Five of class 2 (increase of 1) (<i>same acts</i>).....					7,000.00	
Seven of class 1 (increase of 1) (<i>same acts</i>).....					8,400.00	
Two, at \$1,000 each (<i>same acts</i>).....					2,000.00	
Two messengers or laborers, at \$720 each (<i>same acts</i>).....					1,440.00	
Messenger boys:						
One (<i>same acts</i>).....					660.00	
Three, at \$600 each (<i>same acts</i>).....					1,800.00	
Two charwomen, at \$480 each (<i>same acts</i>).....					960.00	
					35,260.00	30,060.00
NOTE.—Actual increase, \$5,200. There is an increase of \$1,000 in the salary of the librarian, from \$2,000 to \$3,000, and one clerk of class 3, one clerk of class 2, and one clerk of class 1 have been added. See introductory statement of Secretary of Agriculture.						
General expenses, Library—						
For books of reference, law books, technical and scientific books, papers and periodicals, and for expenses incurred in completing imperfect series; for the employment of additional assistants in the city of Washington and elsewhere; for official traveling expenses, and for library fixtures, library cards, supplies, and for all other necessary expenses, [\$21,400] \$32,000 (<i>act Mar. 3, 1921, vol. 41, p. 1337, sec. 1</i>).....					32,000.00	21,400.00
NOTE.—An increase of \$10,600 is recommended because of (a) the increased demand by bureaus of the department and the State colleges and stations for books, periodicals, and library service; (b) the increased cost of books and periodicals; (c) the necessity for making up arrears in the purchase of current foreign books and periodicals which could not be imported during the war; (d) the need for additional shelving; and (e) the desirability of having the library keep pace with the rapidly increasing output of scientific publications from the agricultural and scientific institutions throughout the world.						

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

General Expenses, Library—Continued.

NOTE.—Apparent increase, \$16,540; actual increase, \$7,040. Fourteen new places with salaries aggregating \$14,350 have been added, and 11 places with salaries amounting to \$7,340 have been dropped. Five clerks, at \$1,100 each have been transferred to the Division of Publications, and 10 employees, with salaries totaling \$15,000, transferred from lump funds of this service, which have been correspondingly reduced. See introductory statement of Secretary of Agriculture.			
	212,860.00	196,320.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
General Expenses, States Relations Service—		
To carry into effect the provisions of an act approved Mar. 2, 1887, entitled "An act to establish agricultural experiment stations in connection with the colleges established in the several States under the provisions of an act approved July 2, 1862, and of the acts supplementary thereto," the sums apportioned to the several States and Territories, to be paid quarterly in advance (<i>acts July 2, 1862, vol. 12, p. 503, sec. 1; Mar. 2, 1887, vol. 24, p. 440, secs. 1-10; Mar. 3, 1921, vol. 41, pp. 1338, 1339, sec. 1</i>)...	\$720,000.00	
To carry into effect the provisions of an act approved Mar. 16, 1906, entitled "An act to provide for an increased annual appropriation for agricultural experiment stations and regulating the expenditure thereof," the sums apportioned to the several States and Territories, to be paid quarterly in advance, \$720,000: <i>Provided</i> , That not to exceed \$15,000 shall be paid to each State and Territory under this act (<i>acts Mar. 16, 1906, vol. 34, p. 63, secs. 2, 3; Mar. 3, 1921, vol. 41, pp. 1338, 1339, sec. 1</i>).....	720,000.00	
To enable the Secretary of Agriculture to enforce the provisions of the above acts and the act approved May 8, 1914, entitled "An act to provide for cooperative agricultural extension work between the agricultural colleges in the several States receiving the benefits of an act of Congress approved July 2, 1862, and of acts supplementary thereto, and the United States Department of Agriculture," relative to their administration and for the administration of agricultural experiment stations in Alaska, Hawaii, Porto Rico, the island of Guam, and the Virgin Islands of the United States, including the employment of clerks, assistants, and other persons in the city of Washington and elsewhere, freight and express charges, official traveling expenses, office fixtures, supplies, apparatus, telegraph and telephone service, gas, electric current, and rent outside of the District of Columbia, [\$71,500] \$68,700; and the Secretary of Agriculture shall prescribe the form of the annual financial statement required under the above acts, ascertain whether the expenditures are in accordance with their provisions, coordinate the work of the Department of Agriculture with that of the State agricultural colleges and experiment stations in the lines authorized in said acts, and make report thereon to Congress (<i>acts July 2, 1862, vol. 12, p. 503, sec. 1; Mar. 2, 1887, vol. 24, p. 440, secs. 1-10; Mar. 16, 1906, vol. 34, p. 63, secs. 2, 3; May 8, 1914, vol. 38, pp. 372-374, sec. 1; Mar. 3, 1921, vol. 41, pp. 1338, 1339, sec. 1</i>).....	68,700.00	
NOTE.—An apparent decrease of \$2,800 due to the transfer of two clerks to the statutory roll.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																																												
<p>General Expenses, States Relations Service—Continued.</p> <p><i>For farmers' cooperative demonstration work, including special suggestions of plans and methods for more effective dissemination of the results of the work of the Department of Agriculture and the agricultural experiment stations and of improved methods of agricultural practice, at farmers' institutes and in agricultural instruction, and for the employment of labor in the city of Washington and elsewhere, supplies, and all other necessary expenses, \$1,353,280: Provided, That the expense of such service shall be defrayed from this appropriation and such cooperative funds as may be voluntarily contributed by State, county, and municipal agencies, associations of farmers, and individual farmers, universities, colleges, boards of trade, chambers of commerce, other local associations of business men, business organizations, and individuals within the State (submitted).....</i></p> <p><i>NOTE.—The amount of the above item, \$1,353,280, represents the total of the present appropriations under three items omitted: "Farmers' cooperative demonstrations outside the cotton belt," \$715,720; "Farmers' cooperative demonstrations in the cotton belt," \$634,800; and "agricultural education," \$16,360; with an apparent decrease of \$13,600 due to the transfer of 8 employees to the statutory roll of this bureau and the transfer of one machine operator at \$1,400 to the statutory roll of the Division of Publications.</i></p> <p><i>As the result of the operation of the agricultural extension act of May 8, 1914, and related Federal and State legislation a system of extension and demonstration work in agriculture and home economics has been developed in the 48 States which in its general plans and methods is essentially the same throughout the country. The farmers' institutes have very largely been made a part of the extension system. The work of the States Relations Service relating to agricultural instruction consists of the preparation and dissemination of special subject material in the field of agriculture and is essentially an extension service. All the extension and demonstration work of the States Relations Service will be brought together and consequently it is desirable that the appropriation for the farmers' cooperative demonstration work and the work relating to farmers' institutes and agricultural instruction should be carried in a single item as proposed in these estimates.</i></p>

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Bureau of Public Roads—Continued.		
Messengers or laborers:		
Two at \$840 each (<i>R. S.</i> , p. 87, secs. 520–523; <i>acts Mar. 3, 1905, vol. 33, p. 882, sec. 1; Mar. 3, 1921, vol. 41, p. 1340, sec. 1</i>).....	\$1,680.00	
Two at \$660 each (<i>Mar. 3, 1921, vol. 41, p. 1340, sec. 1</i>).....	1,320.00	
Four at \$600 each (<i>same acts</i>).....	2,400.00	
Four messengers, laborers, or laboratory helpers at \$720 each (<i>same acts</i>).....	2,880.00	
Fireman (<i>same acts</i>).....	720.00	
Messenger boys:		
Three at \$600 each (<i>same acts</i>).....	1,800.00	
Eight at \$480 each (<i>same acts</i>).....	3,840.00	
Twelve charwomen at \$240 each (increase of 1 by transfer from lump fund) (<i>same acts</i>)..	2,880.00	
	\$114,100.00	\$114,460.00

NOTE.—Apparent decrease, \$360; actual increase, \$1,500. There is an increase of \$1,500 in the salary of the chief of bureau, from \$6,000 to \$7,500. One instrument maker and one model maker at \$1,800 each have been transferred to the lump-fund rolls, and one clerk of \$1,500 and one charwoman at \$240 have been transferred from the lump funds of this bureau, the funds correspondingly reduced. See introductory statement of Secretary of Agriculture.

General Expenses, Bureau of Public Roads—

For salaries and the employment of labor in the city of Washington and elsewhere, supplies, office fixtures, apparatus, traveling and all other necessary expenses, for conducting investigations and experiments, and for collating, reporting, and illustrating the results of same, and for preparing, publishing, and distributing bulletins and reports, as follows: *Provided*, That no part of these appropriations shall be expended for the rent or purchase of road-making machinery, except such as may be necessary for field experimental work as hereinafter provided for (*acts Mar. 3, 1905, vol. 33, p. 882, sec. 1; Mar. 3, 1921, vol. 41, pp. 1340, 1341, sec. 1*):

For inquiries in regard to systems of road management, and economic studies of highway construction, operation, maintenance, and value, either independently or in cooperation with the State highway departments and other agencies, and for giving expert advice on these subjects, [\$50,000] \$66,800 (*same acts*).....

66,800.00

NOTE.—Apparent increase, \$16,800; but due to transfer of 1 instrument maker, at \$1,800 from statutory roll, actual increase is but \$15,000. This increase is recommended to provide for the extension of economic studies vitally important to the solution of problems of operation, transport, and management and of financing the highway improvement program; and to provide for the fourth quinquennial survey of highway conditions and expenditures.

Employees.	Rate.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
---	---	---

General Expenses, Bureau of Public Roads—Continued.

For investigations of the best methods of road making, especially by the use of local materials; for studying the types of mechanical plants and appliances used for road building and maintenance; for studying methods of road repair and maintenance suited to the needs of different localities, and for furnishing expert advice on these subjects, **[\$77,300]** \$78,860 (acts Mar. 3, 1905, vol. 33, p. 882, sec. 1; Mar. 3, 1921, vol. 41, pp. 1340, 1341, sec. 1).....

\$78,860.00

NOTE.—There is an apparent increase in this item of \$1,560, but taking into consideration the transfer of 1 charwoman at \$240 to the statutory roll, and the transfer from the statutory roll of 1 model maker at \$1,800, there is no actual increase.

Employees.	Rate.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.

Total.....		78,860.00	77,300.00	66,392.02

For investigations of the chemical and physical character of road materials, for conducting laboratory and field experiments, and for studies and investigations in road design, independently or in cooperation with the State highway departments and other agencies, **[\$148,200]** \$175,000, payable out of the administrative fund provided by the Federal aid road act of July 11, 1916, as amended (*same acts*).

NOTE.—Apparent increase of \$26,800; in reality no appropriation is carried in this paragraph and the amount is not included in the total for the bureau. The paragraph merely authorizes the use of \$175,000 of Federal aid road act funds for investigations of the chemical and physical character of road materials, for conducting laboratory and field experiments, and for studies and investigations in road design, independently or in cooperation with the State highway departments and other agencies.

<p>For investigating farm domestic water supply and drainage disposal, the construction of farm buildings, and other rural engineering problems involving mechanical principles, including the erection of such structures outside of the District of Columbia as may be necessary for experimental purposes only, the employment of labor in the city of Washington and elsewhere, supplies, and all other necessary expenses, \$25,000.</p> <p>For investigating and reporting upon engineering problems pertaining to agriculture, independently or in cooperation with State agricultural colleges or other agencies, including the construction, capacity, use, and operation of farm implements, farm machinery, tractors, and motor trucks for farm use; the best kinds of power for farm work and the more efficient and more complete utilization of power on the farm; the construction, heating, lighting, ventilation, and equipment of farm dwellings and other farm structures with special reference to economizing materials and labor and the betterment of living conditions; farm water supply and drainage disposal; and for the design of structures and apparatus for the use of the department in experimental work; for conducting field experiments and investigations, including the purchase and installation of equipment for experimental purposes and the erection of such structures outside of the District of Columbia as may be necessary for experimental purposes only; for the investigation and development of new equipment for use on the farm; for the giving of expert advice and assistance; and for the preparation and illustration of reports and bulletins relating to the above items; for the employment of assistants and labor in the District of Columbia and elsewhere; for rent outside the District of Columbia, and for supplies and all necessary expenses (submitted).....</p>	48,000.00																																																																																																															
NOTE.—This item is proposed as a substitute for item omitted above, as the language of that item does not clearly indicate the specific projects which the department has under way and desires to develop. The new item is intended to set forth more definitely the purposes of the work. The amount of the appropriation has been increased by \$23,000, \$8,000 of which has been transferred from the item for fruits and vegetables under the Bureau of Agricultural Economics, making the actual increase only \$15,000. The \$8,000 will be used in making investigations of engineering problems relating to the handling, storage, and transportation of fruits and vegetables, this being a part of the procedure involving the gathering of all the engineering work in the department under one bureau. It is desired to use the \$15,000 increase requested for the further development of the work that has been done on farm structures. There is a great opportunity to improve the types of structures now in use on the farm, not only as to the architectural features but as to arrangements and economy of construction.																																																																																																																

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
[BUREAU OF MARKETS AND CROP ESTIMATES.]		
NOTE.—The Bureau of Markets and Crop Estimates, with its appropriations, has been made a part of the new Bureau of Agricultural Economics.		
BUREAU OF AGRICULTURAL ECONOMICS.		
NOTE.—It is proposed to consolidate the Office of Farm Management and Farm Economics and the Bureau of Markets and Crop Estimates. This will result in many advantages, as numerous phases of the work of the two bureaus are closely related. Both employ statisticians and economists and collect data bearing on economic factors of production and distribution, such as cost of production and cost of marketing, agricultural competition, agricultural credit and cooperation, and the geography of agricultural production and distribution. The personnel and equipment of the two bureaus can be used to better advantage and more effectively in a single bureau dealing with the business side of agriculture than is practicable when the bureaus are operated as separate and independent units, and their consolidation should result in much more economical administration and operation. It is requested that the title "Bureau of Agricultural Economics" be given to the newly created bureau. This bureau will be a combination of two existing units and the title shown was chosen as it seemed to be broad enough to cover all the activities now authorized, and is less cumbersome than any designation combining the present titles of the two bureaus. The old language of the two bureaus, and all changes therein, are indicated below:		
[Salaries, Office of Farm Management and Farm Economics—]		
[Chief of office, \$5,000; assistant to the chief, \$2,520; executive assistant, \$2,250; clerks, two of class 4, four of class 3, seven of class 2, two at \$1,320 each, eighteen of class 1, three at \$1,100 each, four at \$1,080 each, fifteen at \$1,000 each; clerks or draftsmen, one \$1,440, one \$1,020; draftsman, \$1,200; library assistants, one \$1,440, one \$900; photographer, \$1,400; cartographer, \$1,500; messenger or laborer, \$720; messenger boys, one \$600, three at \$480 each; charwomen, one \$480, five at \$240 each; in all, \$89,830.]		
[Salaries, Bureau of Markets and Crop Estimates—]		
[Chief of bureau, \$5,000; chief clerk, \$2,000; administrative assistants, one \$3,000, one one \$2,500, one \$1,800; clerk in charge of supplies and accounts, \$2,250; executive clerks, five at \$2,000 each, three at \$1,980 each; clerks, twenty of class 4, thirty-seven of class 3, seventy of class 2, two hundred and twenty of class 1, sixty-five at \$1,100 each, ninety-five at \$1,000 each; photographers, one \$1,400, one \$1,200; superintendent of telegraph, \$2,000; supervising telegrapher, \$1,620; telegraph operators, five at \$1,600 each, forty-seven at \$1,400 each; telephone operators, two at \$900 each, one \$840; draftsmen, one \$1,400, one \$1,380, three at \$1,200 each, one \$1,000, one \$900; custodian of supplies, \$1,200; machine operators, three at \$1,400 each, four at \$1,200 each, two at \$1,100 each, eleven at \$1,000 each, three at \$900 each; three chauffeurs at \$900 each; skilled laborer, \$1,200; laborers, five at \$900 each, three at \$840 each, ten at \$720 each, four at \$660 each, five at \$600 each, two at \$540 each; messengers, four at \$900 each, two at \$720 each; messenger boys, three at \$660 each, twelve at \$600 each, fifteen at \$540 each, twenty at \$480 each; charwomen, two at \$540 each, six at \$480 each, two at \$360 each, six at \$300 each, nine at \$240 each; in all, \$838,630.]		
Salaries, Bureau of Agricultural Economics—		
Chief of bureau (increase of \$2,500) (<i>R. S.</i> , p. 87, <i>secs.</i> 520–523; <i>acts</i> Mar. 4, 1913, <i>vol.</i> 37, p. 854, <i>sec.</i> 1; Mar. 4, 1915, <i>vol.</i> 38, p. 1087, <i>sec.</i> 1; Mar. 3, 1921, <i>vol.</i> 41, pp. 1315, 1316, and 1341, <i>sec.</i> 1).....	\$7,500.00	
Administrative assistants:		
One (<i>same acts</i>).....	3,000.00	
One (in lieu of assistant to the chief) (<i>same acts</i>).....	2,520.00	
One (<i>same acts</i>).....	2,500.00	
Two executive assistants at \$2,250 each (1 in lieu of clerk in charge of supplies and accounts) (<i>same acts</i>).....	4,500.00	
Executive clerks:		
Seven at \$2,000 each (1 in lieu of chief clerk and increase of 1 by transfer from lump fund) (<i>same acts</i>).....	14,000.00	
Two at \$1,980 each (decrease of 1 by transfer to statutory roll, Division of Publications) (<i>same acts</i>).....	3,960.00	
Clerks:		
Twenty-three of class 4 (1 in lieu of 1 administrative assistant) (<i>same acts</i>).....	41,400.00	
Forty-three of class 3 (increase of 2 by transfer from lump fund) (<i>same acts</i>).....	68,800.00	
Eighty-two of class 2 (increase of 8 by transfer from lump fund and decrease of 3 by transfer to statutory roll, Division of Publications, making a net increase of 5 places) (<i>same acts</i>).....	114,800.00	
Two at \$1,320 each (<i>same acts</i>).....	2,610.00	
Two hundred and fifty-eight of class 1 (increase of 22 by transfer from lump fund, and decrease of 2 by transfer to statutory roll, Division of Publications, making a net increase of 20 places) (<i>same acts</i>).....	309,600.00	
Sixty-nine at \$1,100 each (increase of 3 by transfer from lump fund, and decrease of 2 by transfer to statutory roll, Division of Publications, making a net increase of 1 place) (<i>same acts</i>).....	75,900.00	
Seven at \$1,080 each (increase of 3 by transfer from lump fund) (<i>same acts</i>).....	7,560.00	
One hundred and sixteen at \$1,000 each (increase of 9 by transfer from lump fund, and decrease of 3 by transfer to statutory roll, Division of Publications, making a net increase of 6 places) (<i>same acts</i>).....	116,000.00	
Clerks or draftsmen:		
Two at \$1,440 each (increase of 1 by transfer from lump fund) (<i>same acts</i>).....	2,880.00	
One (<i>same acts</i>).....	1,020.00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of a appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Salaries, Bureau of Agricultural Economics—Continued.		
Photographers:		
Two at \$1,400 each (<i>R. S.</i> , p. 87, <i>secs.</i> 520-523; <i>acts</i> Mar. 4, 1913, vol. 37, p. 854, sec. 1; Mar. 4, 1915, vol. 38, p. 1087, sec. 1; Mar. 3, 1921, vol. 41, pp. 1315, 1316, and 1341, sec. 1).....	\$2, 800.00	
One (<i>same acts</i>).....	1, 200.00

Telephone operators:		
Two at \$900 each (<i>same acts</i>).....	1, 800.00	
One (<i>same acts</i>).....	840.00	
Draftsmen:		
One (by transfer from lump fund) (<i>same acts</i>).....	1, 800.00	
One (by transfer from lump fund) (<i>same acts</i>).....	1, 600.00	
One (<i>same acts</i>).....	1, 400.00	
One (<i>same acts</i>).....	1, 380.00	
Four at \$1,200 each (<i>same acts</i>).....	4, 800.00	
One (<i>same acts</i>).....	1, 000.00	
One (<i>same acts</i>).....	900.00	
Library assistant (<i>same acts</i>).....	1, 440.00	
Cartographer (<i>same acts</i>).....	1, 500.00	
Custodian of supplies (<i>same acts</i>).....	1, 200.00	
Machine operators:		
One (decrease of 2 by transfer to statutory roll, Division of Publications) (<i>same acts</i>)..	1, 400.00	
NOTE.—Four machine operators, at \$1,200, are also transferred to the statutory roll, Division of Publications.		
Two at \$1,100 each (<i>same acts</i>).....	2, 200.00	
Ten at \$1,000 each (decrease of 2 by transfer to statutory roll, Division of Publications, and increase of 1 by transfer from lump fund, making a net decrease of 1 place) (<i>same acts</i>).....	10, 000.00	
Three at \$900 each (<i>same acts</i>).....	2, 700.00	
Three chauffeurs, at \$900 each (<i>same acts</i>).....	2, 700.00	
Skilled laborers:		
One (<i>same acts</i>).....	1, 200.00	
One (by transfer from lump fund) (<i>same acts</i>).....	1, 000.00	
Laborers:		
Six at \$900 each (increase of 1 by transfer from lump fund) (<i>same acts</i>).....	5, 400.00	
Three at \$840 each (<i>same acts</i>).....	2, 520.00	
Twelve at \$720 each (increase of 3 by transfer from lump fund, and decrease of 1 by transfer to statutory roll, Division of Publications, making a net increase of 2 places) (<i>same acts</i>).....	8, 640.00	
Four at \$660 each (<i>same acts</i>).....	2, 640.00	
Five at \$600 each (<i>same acts</i>).....	3, 000.00	
Two at \$540 each (<i>same acts</i>).....	1, 080.00	
Messengers:		
Four at \$900 each (<i>same acts</i>).....	3, 600.00	
One (decrease of 1 by transfer to statutory roll, Division of Publications) (<i>same acts</i>)..	720.00	
Messenger or laborer (<i>same acts</i>).....	720.00	
Messenger boys:		
Three at \$660 each (decrease of 1 by transfer to statutory roll, Division of Publications) (<i>same acts</i>).....	1, 980.00	
Thirteen at \$600 each (increase of 1 by transfer from lump fund) (<i>same acts</i>).....	7, 800.00	
Fifteen at \$540 each (<i>same acts</i>).....	8, 100.00	
Twenty-two at \$480 each (decrease of 1 by transfer to statutory roll, Division of Publications) (<i>same acts</i>).....	10, 560.00	
Charwomen:		
Two at \$540 each (<i>same acts</i>).....	1, 080.00	
Seven at \$480 each (<i>same acts</i>).....	3, 360.00	
Two at \$360 each (<i>same acts</i>).....	720.00	
Six at \$300 each (<i>same acts</i>).....	1, 800.00	
Fourteen at \$240 each (<i>same acts</i>).....	3, 360.00	
	\$967, 940.00	\$928, 460.00
NOTE.—Apparent increase, \$39,480; actual decrease, \$3,400. There is an increase of \$2,500 in the salary of the chief of bureau, from \$5,000 to \$7,500, but as the chief of Office of Farm Management at \$5,000 and 1 library assistant of Farm Management at \$900 have been dropped, an actual net decrease of \$3,400 results.		
One administrative assistant at \$2,520, 1 executive assistant at \$2,250, 1 executive clerk at \$2,000, and 1 clerk of class 4 replace 1 assistant to the chief, at \$2,520, 1 clerk in charge of supplies and accounts at \$2,250, 1 chief clerk at \$2,000, and 1 administrative assistant at \$1,800, involving merely changes in title, not in salary. While 58 employees with salaries aggregating \$68,840 are transferred from lump-fund appropriations for the Office of Farm Management and Farm Economics and the Bureau of Markets and Crop Estimates, 23 employees, with salaries of \$25,960, have been transferred to the Division of Publications. In each case the rolls have been reduced by the amount of the salaries involved.		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																									
<p>[General Expenses, Office of Farm Management and Farm Economics—] [For the employment of persons in the city of Washington and elsewhere, furniture, supplies, traveling expenses, rent outside of the District of Columbia, and all other expenses necessary in carrying out the work herein authorized, as follows:] [To investigate and encourage the adoption of improved methods of farm management and farm practice, \$325,000: <i>Provided</i>, That of this amount \$150,000 may be used in ascertaining the cost of production of the principal staple agriculture products.]</p> <p>NOTE.—In merging the office of Farm Management and Farm Economics into the new Bureau of Agricultural Economics, the item of appropriation providing \$325,000 for the general expenses of the Office of Farm Management and Farm Economics has been distributed, without changing the present law, among the projects to which the funds are now allotted, as follows: To general administration, \$6,273; to farm management, \$45,267; to cost of production, \$85,000; to marketing farm products, \$13,180; to agricultural history and geography, \$30,280; to agricultural finance, \$30,000; to farm-land economics, \$45,000; and to country life and rural organization, \$30,000. For each of these activities a separate item of appropriation appears below in the new Bureau of Agricultural Economics, and in the case of the items for general administration, cost of production and distribution, and marketing farm products the amounts transferred from the present general expense appropriation of the Office of Farm Management and Farm Economics have been combined with other amounts transferred from the Bureau of Markets and Crop Estimates, where they are now appropriated for these purposes.</p> <p>[General Expenses, Bureau of Markets and Crop Estimates—] [For salaries and the employment of labor in the city of Washington and elsewhere, furniture, supplies, traveling expenses, rent outside of the District of Columbia, and all other expenses necessary in conducting investigations, experiments, and demonstrations, as follows:]</p> <p>NOTE.—In merging the Bureau of Markets and Crop Estimates into the new Bureau of Agricultural Economics, the present arrangement of the law has been somewhat deviated from and slight changes have been made in the language of several paragraphs, as indicated in the notes accompanying them, but the substance of the law remains unchanged. The paragraph providing \$30,000 for general administration has been made the first instead of the last item; of the present appropriation of \$325,000 for marketing and distributing farm products, \$30,000 for preservation of fruits and vegetables has been transferred to the Bureau of Plant Industry and the Bureau of Public Roads, and the remainder has been distributed among the projects to which the funds are now allotted, \$57,200 to cost of production and distribution, \$218,800 to marketing farm products, and \$20,000 to agricultural prices and statistics; the paragraph providing \$30,160 for market information has been made the twelfth instead of the second item and that providing \$175,000 for market inspection of perishable foods has been made the eleventh instead of the third item; the present appropriations of \$38,400 for cotton standards and tests, \$70,000 for State cooperation in marketing, and \$60,000 for grain standards, have been merged into the paragraph for marketing farm products; and the appropriation of \$300,000 for crop and live-stock estimates has been divided by making a separate item of the present proviso of \$50,000 for investigations of agricultural competition and demand in foreign countries, leaving \$250,000 for the crop and live stock estimate work. The paragraphs providing for the enforcement of the cotton futures, grain standards, warehouse and standard container acts, and for the completion of wool work retain their present arrangement. Preceding each paragraph of the new Bureau of Agricultural Economics, below, is shown the present law, or, following each paragraph, suitable reference is made to the present item of appropriation appearing elsewhere.</p> <p>General Expenses, Bureau of Agricultural Economics— For salaries and the employment of labor in the city of Washington and elsewhere, furniture, supplies, traveling expenses, rent outside of the District of Columbia, and all other expenses necessary in conducting investigations, experiments, and demonstrations, as follows (<i>acts Mar. 4, 1913, vol. 37, p. 854, sec. 1; Mar. 4, 1915, vol. 38, p. 1087, sec. 1; Mar. 3, 1921, vol. 41, pp. 1316, 1341-1343, sec. 1</i>): [For general administrative expenses in connection with the lines of investigation, experiment, and demonstration conducted in the Bureau of Markets and Crop Estimates, \$30,000.] [For general administrative expenses in connection with the lines of investigation, experiment, and demonstration conducted in the Bureau of Agricultural Economics (<i>same acts</i>).....</p> <p>NOTE.—This item, formerly carried as the last item under general expenses, Bureau of Markets and Crop Estimates, is transferred so as to follow the enabling clause. The total is made up of \$30,000 appropriated for general administrative expenses in the Bureau of Markets and Crop Estimates and \$6,273 allotted for administrative purposes under general expenses, Office of Farm Management and Farm Economics. There is no increase.</p>	\$36,273.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
---	---	---

General Expenses, Bureau of Agricultural Economics—Continued.

To investigate and encourage the adoption of improved methods of farm management and farm practice (*acts Mar. 4, 1913, vol. 37, p. 854, sec. 1; Mar. 4, 1915, vol. 38, p. 1087, sec. 1; Mar. 3, 1921, vol. 41, pp. 1316, 1341-1343, sec. 1*)..... \$65,267.00

Note.—The various lines of work now being conducted under the appropriation for general expenses, Office of Farm Management and Farm Economics, are shown in these estimates under separate appropriations. This item covers the study of farm organization and the appropriation requested is the same as the amount allotted to this work during the current year.

For gathering data on the costs of producing farm products, the costs of the various processes of production, the factors of production; and costs of marketing farm products, including the costs of the various marketing processes and of each stage in the movement of farm products from farmer to consumer, or in the conversion of farm products into form for consumption (*same acts*)..... 150,000.00

Note.—The language of this paragraph is new, but it covers work authorized by law under the appropriations of the Bureau of Markets and Crop Estimates and the Office of Farm Management and Farm Economics, \$57,200 being allotted to cost of distribution investigations from the appropriation for marketing and distributing farm products and \$93,000 to cost of production investigations from the appropriation for farm management and farm economics, a total of \$150,200. An apparent increase of \$7,500 is requested over the amounts at present allotted to this work, but taking into consideration the transfer to the statutory roll of four employees with salaries aggregating \$14,800, the actual increase is \$12,250. It is planned to develop this line of research as rapidly as possible in order that the bureau may be in a position to supply information with regard to the cost of producing and marketing the leading farm products.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
---	---	---

General Expenses, Bureau of Agricultural Economics—Continued.

[For acquiring and diffusing among the people of the United States useful information on subjects connected with the marketing and distributing of farm and nonmanufactured food products and the purchasing of farm supplies, independently and in cooperation with other branches of the department, State agencies, purchasing and consuming organizations, and persons engaged in the transportation, marketing, and distributing of farm and food products, \$326,000: *Provided*, That not less than \$30,000 shall be used for a study of the methods of prevention of losses by deterioration, decay, and freezing of fruits and vegetables in storage and in transit in refrigerator cars, heater cars, and ocean vessels, including demonstrations of such methods.]

[For investigating, demonstrating, and promoting the use of standards for the different grades, qualities, and conditions of cotton, and for investigating the ginning, grading, stapling, baling, marking, compressing, and tare of cotton, \$38,400: *Provided*, That of the sum thus appropriated \$30,000 may be used for testing the waste, tensile strength, and bleaching qualities of the different grades and classes of cotton in order to determine their spinning value and for demonstrating the results of such tests.]

[To enable the Secretary of Agriculture to cooperate with the several States in the employment of agents to acquire and diffuse useful information connected with the distribution and marketing of farm products through investigational, demonstrational, or extension methods, \$70,000.]

[For investigating the handling, grading, and transportation of grain, including the grain sorghums, for the purpose of fixing definite grades thereof, \$60,000.]

For acquiring and diffusing among the people of the United States useful information on subjects connected with the marketing, *handling, utilization, grading, transportation*, and distributing of farm and nonmanufactured food products and the purchasing of farm supplies, *including the demonstration and promotion of the use of uniform standards of classification of American farm products throughout the world*, independently and in cooperation with other branches of the department, State agencies, purchasing and consuming organizations, and persons engaged in the marketing, *handling, utilization, grading, transportation*, and distributing of farm and food products (*acts Mar. 4, 1913, vol. 37, p. 854, sec. 1; Mar. 4, 1915, vol. 38, p. 1087, sec. 1; Mar. 3, 1921, vol. 41, pp. 1316, 1341-1343, sec. 1*)... \$425,380.00

NOTE.—During the current fiscal year, \$13,180 is allotted to this work from the appropriation for farm management and farm economics and \$218,500 from the appropriation for marketing and distributing farm products; \$38,400 is appropriated for cotton standards and cotton testing; \$70,000 for State cooperation in marketing and \$60,000 for grain standards, a total of \$430,380. The amount requested is \$5,000 less than this total allotment, but as the studies in the preservation of fruits and vegetables covered by the \$30,000 proviso are being transferred to the Bureau of Plant Industry and the Bureau of Public Roads, and as four employees with salaries aggregating \$5,000 are transferred to the statutory roll, there is an actual net increase of \$31,000. This increase will provide for the expansion of studies of methods of marketing and distributing farm products, including the work of standardization.

The paragraph has been amended by inserting the words "handling, utilization, grading, transportation," and the clause: "including the demonstration and promotion of the use of uniform standards of classification of American farm products throughout the world." These changes are requested in order to cover the work now conducted under the appropriations for cotton standardization, grain investigations, and State cooperation in marketing work, which have been omitted as separate appropriations and are combined with the item for marketing and distributing farm products. The proviso has been omitted, the work being transferred to other bureaus as stated above.

For collecting and disseminating to American producers, importers, exporters, and other interested persons information relative to the [world supply] *world's production* of and need for [American] agricultural products, marketing methods, conditions, prices, and other factors, a knowledge of which is necessary to the *guidance of American production* and the advantageous disposition of [such] farm products in foreign countries, independently and in cooperation with other branches of the Government, State agencies, purchasing and consuming organizations, and persons engaged in the transportation, marketing, and distribution of farm and food products, including the purchase of such books and periodicals as may be necessary in connection with this work (*acts Mar. 4, 1913, vol. 37, p. 854, sec. 1; Mar. 4, 1915, vol. 38, p. 1087, sec. 1; Mar. 3, 1921, vol. 41, pp. 1316, 1341-1343, sec. 1*).

\$65,000.00

NOTE.—This item is at present carried as a proviso in the appropriation immediately below for crop and live-stock reports, the amount allotted to the work for the current year being \$50,000. It is now recommended as a separate appropriation with an increase of \$15,000 over the present allotment. This increase is to provide for enlarging the organization and personnel in foreign countries for collecting information on production and consumption, exports and imports, supply and demand, surpluses and deficits of agricultural products, and ways and means for expanding the market for American farm products. The language of the paragraph has been amended as indicated.

¹ No appropriation.

[For collecting, compiling, abstracting, analyzing, summarizing, interpreting, and publishing data relating to agriculture, including crop and live-stock estimates, acreage, yield, grades, stocks, and value of farm crops, and numbers, grades, and value of live stock and live-stock products on farms, in cooperation with the States Relations Service and other Federal, State, and local agencies, \$300,000: *Provided*, That not less than \$50,000 shall be used for collecting and disseminating to American producers, importers, exporters, and other interested persons information relative to the world supply of and need for American agricultural products, marketing methods, conditions, prices, and other factors, a knowledge of which is necessary to the advantageous disposition of such products in foreign countries, independently and in cooperation with other branches of the Government, State agencies, purchasing and consuming organizations, and persons engaged in the transportation, marketing, and distribution of farm and food products, including the purchase of such books and periodicals as may be necessary in connection with this work.]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
---	---	---

General Expenses, Bureau of Agricultural Economics—Continued.

For collecting, compiling, abstracting, analyzing, summarizing, interpreting, and publishing data relating to agricultural production and distribution, including crop and live-stock estimates, acreage, yield, grades, stocks, prices, and value of farm crops, and numbers, grades, production and value of live stock and live-stock products, in cooperation with the States Relations Service and other Federal, State, and local agencies (*acts* Mar. 4, 1913, vol. 37, p. 854, sec. 1; Mar. 4, 1915, vol. 38, p. 1087, sec. 1; Mar. 3, 1921, vol. 41, pp. 1316, 1341-1343, sec. 1)..... \$340,000.00

NOTE.—There is an apparent increase in this item of \$40,000, but taking into consideration the facts that a separate appropriation is requested in lieu of the \$50,000 proviso and that 32 employees with salaries aggregating \$37,600 are transferred to the statutory roll, but that \$20,000 is now allotted to this project from the appropriation for marketing and distributing farm products, the actual net increase is \$107,600. The paragraph has been amended by slight changes in the wording and the omission of the proviso. The increase is requested in order that the live-stock reporting service may be put on a basis comparable to the service rendered in connection with general crops. At the present time the live-stock reports include only annual estimates of the numbers of cattle, sheep, swine, horses, and mules and a few additional data. The work should be expanded to include periodical estimates of numbers of all classes on farms in sufficient detail to provide a basis for intelligent marketing operations on the part of live-stock growers and feeders.

Enforcement of the United States Cotton-Futures Act—																																																																																																																															
<p>To enable the Secretary of Agriculture to carry into effect the provisions of the United States cotton-futures Act, as amended March 4, 1919, including all expenses necessary for the purchase of equipment and supplies; for travel; for the employment of persons in the city of Washington and elsewhere; and for all other expenses, including rent outside of the District of Columbia, that may be necessary in executing the provisions of this act, [\$138,831] \$146,540: <i>Provided</i>, That any moneys received from or in connection with the sale of cotton purchased for the preparation of practical forms of the official cotton standards and condemned as unsuitable for such use may be expended by the Secretary of Agriculture during the fiscal year ending June 30, [1922] 1923, for the purchase of other cotton for such use (acts May 23, 1908, vol. 35, p. 256, sec. 1; June 30, 1914, vol. 38, p. 422, sec. 1; Aug. 18, 1914, vol. 38, pp. 693-698, secs. 1-21; Mar. 4, 1915, vol. 38, p. 1112, sec. 1; Mar. 3, 1921, vol. 41, p. 1343, sec. 1).....</p>	146,540.00	138,831.00																																																																																																																													
<p>NOTE.—There is an apparent increase in this item of \$7,709, but on account of the transfer to the statutory roll of eight employees with salaries aggregating \$8,460 the actual increase is \$16,169. Part of this increase is necessary in order to continue the work on the present basis during the coming year, and the balance of the increase will be used to cover the work which will be conducted with a view to bringing about the approval and use by cotton exchanges in Europe and elsewhere of uniform standards of classification of American upland cotton, and the contemplated establishment of additional standards for grade and staple of cotton. It will be necessary to purchase a large quantity of cotton for these purposes.</p>																																																																																																																															

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

Enforcement of the United States Cotton-Futures Act—Continued.

Enforcement of the United States Grain-Standards Act—

To enable the Secretary of Agriculture to carry into effect the provisions of the United States grain-standards act, including rent outside of the District of Columbia and the employment of such persons and means as the Secretary of Agriculture may deem necessary, in the city of Washington and elsewhere, **[\$538,623]** \$537,600 (acts Aug. 11, 1916, vol. 39, pp. 482-485, secs. 1-12; Mar. 3, 1921, vol. 41, p. 1343, sec. 1).....

\$557,600.00

\$538,623.00

NOTE.—There is an apparent increase in this item of \$18,977, but due to the transfer of an employee at \$2,400 to the statutory roll of the Division of Publications, the actual increase is \$21,377. While this is an actual increase over the amount appropriated for the current fiscal year, it is not an increase over the amount which is available for expenditure during this year. The total amount actually available for expenditure is \$569,503, including the annual appropriation of \$538,623 and the unexpended balance of \$30,880 of the original appropriation. A slight decrease of expenditures is therefore proposed for next year, instead of an increase.

Rent (in field).....		60,000.00	60,000.00	47,127.31
Miscellaneous items.....		13,000.00	7,670.00	27,112.63
Total.....		537,600.00	538,623.00	538,192.70

Administration of the United States Warehouse Act—

To enable the Secretary of Agriculture to carry into effect the provisions of the United States Warehouse Act, including the payment of such rent outside of the District of Columbia and the employment of such persons and means as the Secretary of Agriculture may deem necessary, in the city of Washington and elsewhere, **[\$80,000]** \$127,220 (acts Aug. 11, 1916, vol. 39, pp. 486-491, secs. 1-33, Mar. 3, 1921, vol. 41, p. 1343, sec. 1).....

127,220.00

80,000.00

NOTE.—There is an actual increase in this item of \$47,220. As practically all plans which have been or are being formulated for financing the marketing of farm products require that the warehouses containing products on which loans are to be made shall be licensed and inspected, the amount of necessary inspection work is constantly increasing. During the months of June and July of this year the capacity of licensed cotton warehouses has practically doubled. There is already serious danger of the department being unable to meet the demands for inspection during the current year.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
<i>Administration of the United States Warehouse Act—Continued.</i>

Total.....		127,220.00	80,000.00	31,719.61		
<i>Enforcement of the Standard Container Act—</i>						
To enable the Secretary of Agriculture to carry into effect the act entitled "An act to fix standards for Climax baskets for grapes and other fruits and vegetables, and to fix standards for baskets and other containers for small fruits, berries, and vegetables, and for other purposes," approved Aug. 31, 1916, including the employment of such persons and means as the Secretary of Agriculture may deem necessary, in the city of Washington and elsewhere, [\$3,800] \$4,300 (acts Aug. 31, 1916, vol. 39, p. 673, sec. 1; Mar. 3, 1921, vol. 41, p. 1343, sec. 1).....					\$4,300.00	\$3,800.00
NOTE.—There is an actual increase of \$500 in this item. The present appropriation is not sufficient to carry on the work necessary to the proper enforcement of the law. The slight increase requested will furnish funds to cover the traveling and other expenses which are necessary in order that the bureau's representatives may visit the various manufacturing plants engaged in producing the containers covered by this act.

Total for Federal Horticultural Board.....					184,590.00	185,310.00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
<p><i>And not to exceed 10 per centum of the foregoing amounts for the miscellaneous expenses of the work of any bureau, division, or office herein provided for shall be available interchangeably for expenditures on the objects included within the general expenses of such bureau, division, or office, but no more than 10 per centum shall be added to any one item of appropriation except in cases of extraordinary emergency, and then only upon the written order of the Secretary of Agriculture (submitted).</i></p> <p>NOTE.—It is recommended that the paragraph appearing in the agricultural appropriation acts for a number of years, but eliminated on the floor of the House through a point of order during the consideration of the agricultural bill for the fiscal year 1922, be restored.</p> <p>Experience has shown this to be a wise and salutary provision. When it is considered that the various projects of any one bureau are necessarily closely related, it is surely a matter of efficiency and economy that a degree of latitude be allowed the Secretary in transferring money from one project to another within a bureau. Unforeseen seasonal or other conditions very frequently reduce the contemplated expenditures upon one item. The same conditions often make it necessary to increase by small sums the amounts allotted at the beginning of a year to other projects. For example, an unexpected outbreak or an unusually heavy prevalence of some animal disease would make it highly desirable to shift some portion of a fund to that particular item from some other work where conditions might be unusually favorable. On the ground, then, that a bureau's work is homogeneous and consists of closely interwoven projects, it is recommended that the privilege of shifting funds to the extent of 10 per cent be restored as heretofore.</p>						
MISCELLANEOUS.						
<i>Demonstrations on Reclamation Projects—</i>						
<p>To enable the Secretary of Agriculture to encourage and aid in the agricultural development of the Government reclamation projects; to assist, through demonstrations, advice, and in other ways, settlers on the projects; and for the employment of persons and means necessary in the city of Washington and elsewhere, [\$30,000] \$39,000 (acts June 30, 1914, vol. 38, p. 440, sec. 1; Mar. 3, 1921, vol. 41, p. 1344, sec. 1).....</p>					\$39,000.00	\$30,000.00
<p>NOTE.—This appropriation is recommended increased by \$9,000 in order that work thereunder may be restored to its former status. Decreased appropriations have made necessary the temporary discontinuance of important field demonstration work on Government reclamation projects which have proven to be of large value in establishing profitable agricultural industries on the projects. This work should not be curtailed until the industries which are in course of development have become permanently established.</p>

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.					Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																									
Acquisition of Additional Forest Lands— There is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to be expended under the provisions of the act of March 1, 1911 (36 Stat. L., p. 961), as amended, for the acquisition of additional lands at headwaters of navigable streams (<i>act Mar. 3, 1921, vol. 41, p. 1345, sec. 1</i>).....					\$50,000.00	\$1,000,000.00																																																																																																									
NOTE.—This amount is necessary to maintain a limited number of well-trained and experienced experts on the examination, appraisal, and survey of forest lands for purchase under the act of March 1, 1911. These men are required to complete the purchases authorized under former appropriations and to conduct examinations and reconnaissances pursuant to the orders of the National Forest Reservation Commission. The amount to be expended for this purpose during the current fiscal year assigned from land purchase is approximately \$100,000.																																																																																																															
Experiments and Demonstrations in Live-Stock Production in the Cane-Sugar and Cotton Districts of the United States— To enable the Secretary of Agriculture, in cooperation with the authorities of the States concerned, or with individuals, to make such investigations and demonstrations as may be necessary in connection with the development of live-stock production in the cane-sugar and cotton districts of the United States (<i>acts June 30, 1914, vol. 38, p. 441, sec. 1; Mar. 3, 1921, vol. 41, p. 1345, sec. 1</i>).....					51,500.00	51,500.00

Field Station, Woodward, Oklahoma— For the establishment in connection with the Woodward, Okla., field station of a live-stock department, through which experiments and demonstrations in live-stock breeding, growing, and feeding, including both beef and dairy animals, may be made, [\$10,000] \$12,500, of which sum the Secretary is hereby authorized to use not exceeding \$3,000 for the purpose of building a cottage for the herdsman, and additional sheds, stalls, and pens for the protection and care of said animals (<i>acts May 31, 1920, vol. 41, p. 731, sec. 1; Mar. 3, 1921, vol. 41, p. 1345, sec. 1</i>).....					12,500.00	10,000.00																																																																																																									
NOTE.—An increase of \$2,000. This amount is needed for the erection of a herdsman's cottage. As living quarters for the herdsman are not provided at the station, he is required to live in town, about 1 mile away. This is unfortunate, as the live stock at the station do not receive the close attention which they require.

<i>Passenger-Carrying Vehicles—</i>						
That not to exceed [\$60,000] \$95,000 of the lump-sum appropriations herein made for the Department of Agriculture shall be available for the purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles necessary in the conduct of the field work of the Department of Agriculture outside the District of Columbia: <i>Provided, That not to exceed \$20,000 of this amount shall be expended for the purchase of such vehicles, and that such vehicles shall be used only for official service outside the District of Columbia, but this shall not prevent the continued use for official service of motor trucks in the District of Columbia: Provided further, That the Secretary of Agriculture shall, on the first day of each regular session of Congress, make a report to Congress showing the amount expended under the provisions of this paragraph during the preceding fiscal year.</i>						
NOTE.—The above item carries no appropriation. It merely limits the amount that may be expended for purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles outside the District of Columbia from the various lump-sum appropriations of the department. This limitation has been increased over what it is for 1922 by \$35,000 in order to provide for maintenance of passenger-carrying vehicles now owned by the Government and for the purchase and maintenance of new vehicles. Past experience has demonstrated that the field work of the various activities of the department can be prosecuted efficiently only through the employment of motor-propelled vehicles, and that it is distinctly economical for the department to own its own vehicles. In fact, machines can be purchased outright for the cost of a few months' rental at prevailing rates.						
A proviso is inserted authorizing the use of not to exceed \$20,000 of the amount fixed by the paragraph for the purchase of new vehicles. Similar authority had been included in the paragraph since 1915 until stricken out of the present act in 1921. The restoration of this authority is essential in order to provide for the replacement of vehicles that it is no longer economical to repair and for the purchase of additional vehicles to obviate further rentals. The manner in which this fund will be expended is fully set forth in the table accompanying these estimates.						

Statement of proposed expenditures for the purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles in the conduct of the field work of the Department of Agriculture outside of the District of Columbia for the fiscal year ending June 30, 1923, as required by section 5 of the act of July 16, 1914 (38 Stat. 508).

MAINTENANCE, REPAIR, AND OPERATION OF VEHICLES NOW OWNED BY THE DEPARTMENT.

[NOTE.—The amount required for the maintenance, repair, and operation of vehicles to be purchased during the fiscal year ending June 30, 1923, is estimated for below.]

Bureau, division, or office.	Horse-drawn or motor-propelled.	Appropriation.	Number.	Description.	Amount.	Public purpose for which intended.	Officials and employees by whom used.
Weather Bureau.	Motor-propelled.	General expenses, Weather Bureau.	1	Automobile.....	\$400	Travel between volcanoes in the Hawaiian Islands.....	Official in charge and assistants, Kilauea Volcano Observatory, Hawaii.
Do.....	do.....	do.....	1	do.....	200	Patrolling and repairing Government telegraph lines.....	Official in charge and assistants at Port Angeles, Wash.
Do.....	do.....	do.....	1	Motorcycle.....	50	River stage observations at Sacramento, Calif.....	Weather Bureau employees at Sacramento, Calif.
Bureau of Animal Industry.	do.....	Inspection and quarantine.	5	Automobile.....	3,500	Travel over ranges to inspect sheep and cattle for scabies and supervising dipping operations.	Inspectors at Bismarck, N. Dak.; Denver, Colo.; Lincoln, Nebr.; and Pierre, S. Dak.
Do.....	do.....	Eradicating cattle ticks.	8	do.....	5,600	Travel to farms, ranges, and dipping vats to inspect cattle and supervise dipping operations.	Inspectors at Atlanta, Ga.; Fort Worth, Tex.; Little Rock, Ark.; Oklahoma, Okla.; and Washington, N. C.
Do.....	do.....	Eradicating tuberculosis.	3	do.....	2,100	Travel from farm to farm in connection with the tuberculin testing of cattle.	Veterinary inspectors in Connecticut, Missouri, and Wisconsin.
Do.....	do.....	Eradicating dourine.	1	do.....	700	Dourine eradication work.....	Inspector at Helena, Mont.
Do.....	do.....	Meat inspection...	2	do.....	1,400	Inspection of meats at establishments in Chicago.....	Inspector in charge and assistants.

Statement of proposed expenditures for the purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles in the conduct of the field work of the Department of Agriculture outside of the District of Columbia for the fiscal year ending June 30, 1923, as required by section 5 of the act of July 16, 1914 (38 Stat., 598)—Continued.

MAINTENANCE, REPAIR, AND OPERATION OF VEHICLES NOW OWNED BY THE DEPARTMENT—Continued.

Bureau, division, or office.	Horse-drawn or motor propelled.	Appropriation.	Number.	Description.	Amount.	Public purpose for which intended.	Officials and employees by whom used.
Bureau of Animal Industry—Continued.	Motor-propelled.	Eradicating hog cholera.	9	Automobile.....	\$5,300	Investigating hog cholera outbreaks, and traveling to farms, local stockyards, and other places, to render assistance to hog owners and others in the control of hog cholera.	Inspectors in charge of stations at Ames, Iowa; Augusta, Me.; Columbus, Ohio; Des Moines, Iowa; Lansing, Mich.; Lincoln, Nebr.; Raleigh, N. C.; Salt Lake City, Utah; and Springfield, Ill.

Bureau of Plant Industry.	Motor-propelled.	Crop acclimatization.	1	Automobile.....	450	Inspection of experimental plantings being conducted with cotton, corn, and other tropical plants in co-operation with the Indian Office in the vicinity of Sacaton, Ariz.	J. F. Breazeale and assistants.
Do.....	do.....	Demonstrations on reclamation projects.	7	do.....	3,100	Conducting demonstration work on Government reclamation projects.	Agriculturists in charge of Newlands, Nev.; Umatilla, Oreg.; North Platte, Nebr.; Belle Fourche, S. Dak.; Shoshone, Wyo.; Umcompahgre, Colo.; and Yuma, Ariz., reclamation projects.
Do.....	do.....	Forest pathology..	1	Motorcycle.....	60	Investigations of forest tree diseases in the vicinity of Madison, Wis.	Pathologist in charge.
Do.....	do.....	do.....	1	do.....	60	Investigations of forest tree diseases in the vicinity of Providence, R. I.	Forest pathologist in charge.
Do.....	do.....	Sugar plants.....	1	Motor cycle with side car.	200	Travel to sugar beet fields in California to study early-top diseases of beets.	Eubanks, Carsner, and assistants.
Do.....	do.....	Arlington Farm....	1	Motor cycle.....	150	Patrol duty on the Arlington Farm, and transporting supervisors between experimental plots.	Supervisors and watchmen.
Do.....	Horse-drawn.	Cereal investigations.	1	Buggy.....	75	Transporting employees between the Crowley, La., experimenting station and the town of Crowley, and conducting investigational work in the surrounding country.	J. M. Jenkins and assistants.
Do.....	do.....	Dry-land agriculture.	5	do.....	75	Official travel between the Akron, Colo.; Scottsbluff, Nebr.; Ardmore, S. Dak.; Lawton, Okla.; and Mandan, N. Dak., field stations and near-by towns, and performing inspection work in the vicinity of these stations.	Station superintendents and assistants.
Do.....	do.....	Western irrigation agriculture.	7	do.....	105	Official travel between the Yuma, Ariz.; Belle Fourche, S. Dak.; Newlands, Nev.; and Huntley, Mont., field stations and near-by towns to purchase supplies and equipment. These stations are located at distances varying from 1 to 7 miles from the nearest towns, and conveyances are absolutely essential to the efficient conduct of the work.	Do.
Do.....	do.....	Arlington Farm....	1	Top buggy.....	100	Supervising the various field operations being conducted on the Arlington Farm.	Farm superintendents and assistants.
Do.....	do.....	Dry-land agriculture.	1	Surrey.....	15	Official travel between the Mandan, N. Dak., field station and town of Mandan, and performing inspection work in the vicinity of the station.	Station superintendents and assistants.
Do.....	do.....	Arlington Farm....	2	Runabout.....	400	Supervising the various field operations being conducted on the Arlington Farm.	Farm superintendent and assistants.
Do.....	do.....	Western irrigation agriculture.	1	Road cart.....	5	Official travel between the Newlands, Nev., field station and near-by town to purchase supplies, etc.	Station superintendent and assistants.
Forest Service....	Motor-propelled.	General expenses, Forest Service.	4	Automobile.....	1,900	Fire protection, inspection, land classification, and administrative work on the national forests in California.	Forest officers.
Do.....	do.....	do.....	8	Motor cycles.....	720	Fire protection on the Wasatch, Pend Oreille, Coeur d'Alene, Beaverhead, Baitil, Cascade, and Oregon National Forests.	Rangers, guards, and patrolmen.
Do.....	do.....	do.....	34	Railroad speeders	2,255	Fire protection on the Cabinet, Lolo, Kootenai, Jefferson, Sitgreaves, Targhee, Weiser, Tusayan, Superior, Medicine Bow, Missoula, Flathead, Deerlodge, and Pend Oreille National Forests.	Do.
Do.....	do.....	do.....	2	Motor wheel.....	29	Fire protection on the Colville National Forest.	Do.
Bureau of Chemistry.	do.....	Food and drugs act.	2	Automobile.....	900	Travel to various docks in New York City to collect samples of imported foods and drugs, and for delivering collected samples to laboratory for examination; inspecting factories and collecting samples of domestic foods and drugs in and around New York City.	Chief of the eastern district wharf examiners, and food and drug inspectors.
Do.....	do.....	Agricultural investigations.	1	do.....	350	Transporting chemists, equipment, and samples between the Los Angeles laboratory and citrus groves in the State of California.	Chief of laboratory and chemists.
Bureau of Entomology.	do.....	Deciduous fruit insects.	1	do.....	500	Peach insect investigations in the vicinity of Fort Valley, Ga.	O. I. Snapp.
Do.....	do.....	Cereal and forage insects.	1	do.....	500	Inspection and investigational work near Wichita, Kans.	J. R. Horton.
Do.....	do.....	Southern field crop insects.	1	do.....	500	Inspecting experimental work being carried on at points in and around Clarksville, Tenn., and conducting investigational work in that vicinity.	A. C. Morgan.
Do.....	do.....	do.....	1	do.....	500	Inspecting experimental operations at various plantations in the vicinity of Tallulah, La.	B. R. Coad.
Do.....	do.....	Miscellaneous insects.	1	do.....	500	Investigations in the vicinity of Dallas, Tex., of insects affecting the health of man and animals.	F. C. Bishopp.
Do.....	do.....	Preventing spread of moths.	7	Automobile (6 Fords and 1 Chalmers).	4,100	Supervising and directing laboratory scouting, quarantine and silvicultural work, colonizing parasites, and making immediate inspections of perishable nursery stock upon telegraphic and telephonic requests at nurseries located in the infested area.	Principal assistants in charge of investigations, and scientific assistants, foremen, and scouts.

Statement of proposed expenditures for the purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles in the conduct of the field work of the Department of Agriculture outside of the District of Columbia for the fiscal year ending June 30, 1923, as required by section 5 of the act of July 16, 1914 (38 Stat., 508)—Continued.

MAINTENANCE, REPAIR, AND OPERATION OF VEHICLES NOW OWNED BY THE DEPARTMENT—Continued.

Bureau, division, or office.	Horse-drawn or motor-propelled.	Appropriation.	Number.	Description.	Amount.	Public purpose for which intended.	Officials and employees by whom used.
Bureau of Entomology—Contd.	Motor-propelled.	Cereal and forage insects.	1	Automobile.....	\$500	Investigations of cereal and forage insects at West Lafayette, Ind.	W. H. Larrimer.
Do.....	do.....	Deciduous fruit insects.	1	do.....	500	Conducting investigations of the Japanese beetle in the vicinity of Riverton, N. J.	C. H. Hadley.
Do.....	do.....	Tropical and sub-tropical fruit insects.	1	do.....	500	Tropical and sub-tropical fruit-insect investigations at Miami, Fla.	G. F. Mozzette.
Do.....	do.....	Truck crop insects.	1	do.....	500	Travel in connection with the sweet-potato weevil campaign being conducted in the State of Florida.	B. L. Boyden.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923--Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
<p>Eradication of Foot-and-Mouth and Other Contagious Diseases of Animals— In case of an emergency arising out of the existence of foot-and-mouth disease, rinderpest, contagious pleuropneumonia, or other contagious or infectious disease of animals which, in the opinion of the Secretary of Agriculture, threatens the live-stock industry of the country, he may expend in the city of Washington or elsewhere, out of any money in the Treasury not otherwise appropriated, the sum of \$50,000, which sum is hereby appropriated, or so much thereof as he determines to be necessary, in the arrest and eradication of any such disease, including the payment of claims growing out of past and future purchases and destruction, in cooperation with the States, of animals affected by or exposed to, or of materials contaminated by or exposed to, any such disease, wherever found and irrespective of ownership, under like or substantially similar circumstances, when such owner has complied with all lawful quarantine regulations: <i>Provided</i>, That the payment for animals hereafter purchased may be made on appraisement based on the meat, dairy, or breeding value, but in case of appraisement based on breeding value no appraisement of any animal shall exceed three times its meat or dairy value, and except in case of an extraordinary emergency, to be determined by the Secretary of Agriculture, the payment by the United States Government for any animal shall not exceed one-half of any such appraisements: <i>Provided further</i>, That so much of the appropriation of \$2,500,000 made by the agricultural appropriation act of March 4, 1915, for the fiscal year ending June 30, 1916, for the arrest and eradication of foot-and-mouth disease, rinderpest, contagious pleuropneumonia, or other contagious or infectious disease of animals, as remains unexpended at the close of the fiscal year [1921] 1922, is hereby reappropriated and made available for expenditure during the fiscal year ending June 30, [1922] 1923, for the objects mentioned in said appropriation act, including necessary investigations to determine whether said diseases have been completely eradicated in districts where they previously existed (<i>acts Mar. 4, 1915, vol. 38, p. 1115, sec. 1; Mar. 3, 1921, vol. 41, pp. 1345, 1346, sec. 1</i>).....</p>	\$50,000.00	\$50,000.00
<p>NOTE.—The language of this paragraph has been slightly amended so as to make available during the fiscal year 1923 any balance of the \$2,500,000 appropriation provided for this purpose in the agricultural appropriation act for 1916.</p>		
<p>Eradication of Pink Bollworm— To enable the Secretary of Agriculture to meet the emergency caused by the existence of the pink bollworm of cotton in Mexico, and to prevent the establishment of such insect in the United States by the employment of all means necessary, including rent outside of the District of Columbia and the employment of persons and means in the city of Washington and elsewhere, [\$554,840] \$547,840, as follows (<i>act Mar. 3, 1921, vol. 41, p. 1346, sec. 1</i>): To prevent the movement of cotton and cotton seed from Mexico into the United States, including the regulation of the entry into the United States of railway cars and other vehicles, and freight, express, baggage, or other materials from Mexico, and the inspection, cleaning, and disinfection thereof, [\$139,840] \$134,840; any moneys received in payment of charges fixed by the Secretary of Agriculture on account of such cleaning and disinfection at plants constructed therefor out of any appropriation made on account of the pink bollworm of cotton to be covered into the Treasury as miscellaneous receipts (<i>same acts</i>)..... To make surveys to determine the actual distribution of the pink bollworm in Mexico and to exterminate local infestations in Mexico near the border of the United States, in cooperation with the Mexican Government or local Mexican authorities, [\$10,000] \$8,000 (<i>same acts</i>)..... To investigate in Mexico or elsewhere the pink bollworm as a basis for control measures (<i>same acts</i>)..... To conduct surveys and inspections in Texas or in any other State to detect any infestation and to conduct such control measures, including the establishment of cotton-free areas, in cooperation with the State of Texas or other States concerned, as may be necessary to stamp out such infestation, to establish in cooperation with the States concerned a zone or zones free from cotton culture on or near the border of any State or States adjacent to Mexico, and to cooperate with the Mexican Government or local Mexican authorities, or otherwise, by undertaking in Mexico such measures for the extermination of the pink bollworm of cotton as shall be determined to be practicable from surveys showing its distribution. \$400,000, of which sum not to exceed \$200,000 may be available for reimbursement to cotton-growing States, for expenses incurred by them in connection with losses due to enforced nonproduction of cotton in certain zones in the manner and upon the terms and conditions set forth in Senate joint resolution No. 72, approved August 9, 1921: <i>Provided</i>, That no part of the money herein appropriated shall be used to pay the cost or value of crops or other property injured or destroyed (<i>same acts</i>).....</p>	<p>\$134,840.00 8,000.00 5,000.00 400,000.00</p>	<p>547,840.00 554,840.00</p>
<p>NOTE.—It is impossible at this time accurately to estimate the appropriation that will be required for eradicating the pink bollworm of cotton during the ensuing fiscal year. If the present favorable condition of this work continues, it is probable that a substantial decrease in the appropriation will be possible. The estimate submitted under this item in which a decrease of \$7,000 is recommended is therefore only a tentative one, and a revised estimate will be prepared about October 1 next, when it is thought that exact conditions may be determined and the needs of the work for the fiscal year 1923 definitely estimated. In order to extend to the appropriation for the fiscal year 1923 the provisions imposed by Senate joint resolution No. 72 of August 9, 1921, upon the appropriation made for the fiscal year 1922, the language of this paragraph has been amended.</p>		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1922.

Eradication of Pink Bollworm—Continued.

Mileage Rates for Motor Vehicles—						
Whenever, during the fiscal year ending June 30, [1922] 1923, the Secretary of Agriculture shall find that the expenses of travel can be reduced thereby, he may, in lieu of actual traveling expenses, under such regulations as he may prescribe, authorize the payment of not to exceed [3] 4 cents per mile for a motorcycle or [7] 10 cents per mile for an automobile, used for necessary travel on official business.						
NOTE.—The present maximum mileage rates allowed by law for the use of personally owned motor cycles and automobiles for travel on official business of the department are 3 cents and 7 cents, respectively. The records of the department indicate that the cost of operating Government-owned automobiles varies from 7 to 10 cents per mile for light cars and from 8 to 14 cents per mile for heavier cars. These variations in the rates are due almost entirely to local factors, such as the difference in the cost of supplies in the various sections of the country and road conditions in the locality where the car is being used. Many of the employees of the department feel unable to pay from their personal funds the difference between the established rates and the actual cost of operation, and, for this reason, a number have disposed of their cars, while others are not inclined to continue to use their vehicles in official work. Unless this condition is remedied, the field work of the department will be greatly impeded.						
[Purchase of Seed Grain for Drought-Stricken Areas—]						
[That the Secretary of Agriculture is hereby authorized, for the crop of 1921, to make advances or loans to farmers in the drought-stricken areas of the United States, where he shall find that special need for such assistance exists, for the purchase of wheat, oats, barley, and flax seed for seed purposes and when necessary, to procure such seed and sell same to such farmers. Such advances, loans, or sales shall be made upon such terms and conditions and subject to such regulations as the Secretary of Agriculture shall prescribe, including an agreement by each farmer to use the seed thus obtained by him for the production of grain or flax seed. A first lien on the crop to be produced from seed obtained through a loan, advance, or sale made under this section shall, in the discretion of the Secretary of Agriculture, be deemed sufficient security therefor. The total amount of such advances, loans, or sales to any one farmer shall not exceed the sum of \$200. All such advances or loans shall be made through such agencies as the Secretary of Agriculture shall designate. For carrying out the purposes of this section there is hereby appropriated, out of any moneys in the Treasury not otherwise appropriated, the sum of \$2,000,000, to be immediately available.]						
[That any person who shall knowingly make any false representation for the purpose of obtaining an advance, loan, or sale under this act shall, upon conviction thereof, be punished by a fine of not exceeding \$1,000, or by imprisonment not exceeding six months, or both.]						\$2,000,000.00
NOTE.—This appropriation may be omitted, as the work will be completed during the current fiscal year.						
[That the President be, and he is hereby, authorized and requested to extend invitations to foreign governments to be represented by delegates in a world's dairy congress to be held in the United States in 1922: <i>Provided</i> , That nothing herein contained shall be construed to create any pecuniary obligation on the part of the Government of the United States.]						
NOTE.—This item may be omitted.						
[That the Secretary of Agriculture is directed hereafter to submit to Congress at the beginning of each regular session a report showing what investigations devolved upon the Department of Agriculture have been completed during the preceding fiscal year, and also showing what services, if any, devolved upon the department are being performed or duplicated, in whole or in part, by any other department, bureau, or agency of the Government.]						
NOTE.—This item may be omitted, as it is permanent legislation.						

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.								
<p>Construction of Vault for Refrigerating Plant— <i>For the construction of a vault for the housing, and the transfer to and the installation therein, of the machinery and apparatus of the refrigerating plant of the Bureau of Animal Industry (submitted)</i>.....</p> <p>NOTE.—This is a new item. At present the refrigerating plant of the Bureau of Animal Industry is located in the subbasement of laboratory A, commonly known as the east wing of the new Agriculture Building. Being below ground, at a point where the drainage collects, the machinery space is at all times damp, resulting in repeated breakdowns in the electrical auxiliaries. About fifteen cold rooms depend upon the plant for maintaining low temperatures, and the perishable material stored therein is large in quantity and very valuable. At times, much of this material, which it has taken weeks to prepare, has been injured or lost through the failure of the electrical equipment. The entire installation is unsatisfactory from the standpoint of good refrigeration service, and the present location is too small properly to accommodate the apparatus.</p> <table><tr><th>OBJECT OF EXPENDITURE.</th><th>Estimated, 1923.</th><th>Estimated, 1922.¹</th><th>Expended, 1921.¹</th></tr><tr><td>Construction work.....</td><td>\$25,000.00</td><td></td><td></td></tr></table> <p>¹ No appropriation. ² This construction work consists of the following building: 1 refrigerating vault, concrete construction, 46 by 80 feet, containing approximately 37,000 cubic feet, at 67 cents; estimated cost, \$25,000.</p>	OBJECT OF EXPENDITURE.	Estimated, 1923.	Estimated, 1922. ¹	Expended, 1921. ¹	Construction work.....	\$25,000.00			\$25,000.00	
OBJECT OF EXPENDITURE.	Estimated, 1923.	Estimated, 1922. ¹	Expended, 1921. ¹							
Construction work.....	\$25,000.00									
<p>Olympic National Forest— <i>For emergency expenditures incident to the disposal of wind-thrown and intermingled or adjoining timber on the Olympic National Forest and for emergency measures necessary to protect from fire the timber on the Olympic National Forest, including the repair and construction of roads, fire lanes, trails, telephone lines, or other means of communication, through or along the boundaries of the area or areas of blown-down timber on the north and west sides of said national forest, and for the employment of extra guards and patrolmen as may be found necessary by the Secretary of Agriculture (submitted)</i>.....</p> <p>NOTE.—This item, while apparently new, was included in the first deficiency act, approved March 1, 1921 (Public No. 338, 66th Cong.). On January 23, 1921, one of the most severe windstorms in the history of the Northwest blew down from 6 to 8 billion feet of timber on the Olympic National Forest. Recognizing the great fire hazard to standing timber by reason of this blow down, Congress provided an appropriation of \$100,000 for emergency expenditures incident to the disposal of wind-thrown timber and for the measures necessary to protect from fire the timber in the devastated region. By act of Congress approved June 15, 1921 (Public No. 18, 67th Cong.), the unexpended balance of this appropriation was made available for expenditure during the fiscal year 1922. While the conditions incident to this blow down will in the course of time become less dangerous, the situation is still acute. The appropriation requested is urgently needed, as considerable work remains to be done in the construction of trails and telephone lines to protect the area, and fire patrols and fire-fighting equipment must be maintained until new vegetation reduces the fire hazard to normal.</p>	33,000.00									
<p>For the Protection of the So-Called Oregon and California Railroad Lands and Coos Bay Wagon Road Lands— <i>To enable the Secretary of Agriculture to establish and maintain a patrol to prevent trespass and to guard against and check fires upon the land vested in the United States by the act approved June 9, 1916, and the lands known as the Coos Bay Wagon Road lands involved in the case of Southern Oregon Co. against United States (No. 2711) in the Circuit Court of Appeals of the Ninth Circuit (submitted)</i>.....</p> <p>NOTE.—This item, while apparently new, has for a number of years carried an appropriation of \$25,000 provided by Congress in the sundry civil act under the Department of the Interior to enable the Secretary of the Interior, with the cooperation of the Secretary of Agriculture, to establish and maintain a patrol to prevent trespass and to guard against and check fires on lands involved in the case of Southern Oregon Co. against the United States. Each year the Department of the Interior has requested this department to undertake the work authorized by the appropriation, since the national forests surround much of the land and the work can be done more advantageously and economically by Forest Service employees. The full amount of the appropriation is each year warranted to this department for expenditure, and it is therefore felt by both departments concerned that the item of appropriation properly should be carried in the agricultural act. In fact, the change was suggested by the Secretary of the Interior.</p> <p>The amount recommended (\$35,000) is an increase over the present appropriation of \$10,000, as the amount heretofore provided has been wholly insufficient. The cost of protecting these lands for the fiscal years 1918, 1919, 1920, and 1921 was, respectively, \$37,637, \$32,510, \$13,186, and \$37,878.56, the difference between actual cost and the appropriation being met in various ways. Deficiency appropriations have as a rule been granted, but in some cases even these have been insufficient. In a number of cases private owners have made up the shortage. For the fiscal year 1921 it is estimated that private landowners will have to contribute \$7,878.56 toward the protection of Government lands, unless Congress makes this amount available by a deficiency appropriation.</p>	35,000.00									
<p>For Operation and Management of the Center Market— <i>To enable the Secretary of Agriculture, in carrying out the provisions of the act of March 4, 1921 (41 Stat., p. 1441), to pay for ice, electricity, gas, water, fuel, travel, stationery, printing, telegrams, telephones, labor, supplies, materials, equipment, miscellaneous expenses, necessary repairs and alterations, to be reimbursed by any person for whose account any such expenditure may be made; to employ necessary persons; to provide a fund for the payment of freight, express, drayage, and other charges and claims against the commodities accepted for storage, and to require reimbursement thereof with interest at the rate of 6 per centum per annum, and to remove, sell, or otherwise dispose of such commodities held as security for such payment when such reimbursement is not made when due, all reimbursement of such payments and all receipts from such disposition of commodities to be credited to such fund and to be reexpendable therefrom; and to use such other means as the Secretary of Agriculture may find necessary for the proper occupancy and use by the Government and its tenants of said property (act Mar. 4, 1921, vol. 41, pp. 1441-1444, sec. 1).</i>.....</p>	175,633.00									

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required or each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																		
<i>For Operation and Management of the Center Market—Continued.</i>																																																																																																																				
<p>NOTE.—This item, while appearing for the first time in the annual estimates of appropriations for the Department of Agriculture, was authorized in the act of March 4, 1921 (41 Stat., p. 1441), for the operation and management of the Center Market. There is now pending before Congress an estimate for \$141,000 to carry into effect the provisions of the act for the period December 1, 1921, to June 30, 1922, and the above item is for carrying out the provisions of the law during the fiscal year 1923.</p> <p>The amount requested is to cover actual operating expenses incident to the control and operation of the property and does not represent the cost of public supervision of private business, because in this instance the department will actually conduct a complex business and be involved in all of the expenses and problems incident thereto. The property involved is not only the largest retail market in the District of Columbia for meats, fruits, vegetables, and other articles, but includes a cold-storage plant having a capacity of approximately 500,000 cubic feet, a part of which is equipped for freezing temperatures. In addition, there are a heating and power plant, a restaurant, an auditorium, office rooms, and other facilities. There are more than 190 separate and distinct tenants.</p> <p>The estimate submitted is the result of careful inquiry and consideration and is based upon present operating expenses by the Market Co. as nearly as such expenses could be ascertained, and the need for improvements on the property. Not all of the amount estimated will be a direct charge upon the Treasury, for many of the services and supplies furnished to tenants out of this appropriation will be paid for by them and credited to miscellaneous receipts. The revenues derived from the present operation of the property amount to about \$258,000. Therefore, unless rentals and other charges are reduced or revenues reduced for other reasons, the income to the Government will exceed the estimated expenditures by more than \$80,000 during the fiscal year 1923.</p>

<p>¹ This item includes \$15,000 for fuel; \$22,000 for electricity, power, and light; \$3,000 for the purchase of ice; \$3,000 for freight, express, and drayage; \$4,000 for repairs to machinery; the balance is for miscellaneous supplies.</p>																																																																																																																				
<p><i>Enforcement of Packers and Stockyards Act—</i> <i>To enable the Secretary of Agriculture to carry into effect the provisions of the packers and stockyards act, approved August 15, 1921 (act Aug. 15, 1921, Public No. 51, 67th Cong.).....</i></p>	\$410,500.00	\$200,000.00																																																																																																																		
<p>NOTE.—This item, while appearing for the first time in the annual estimates of appropriations for the Department of Agriculture, was authorized in the act of August 15, 1921 (Public No. 51, 67th Cong.), known as the "enforcement of packers and stockyards act." An initial appropriation of \$200,000 was made by Congress in the urgent deficiency act approved August 24, 1921, to carry into effect the provisions of the act during the remainder of the fiscal year ending June 30, 1922, and the above estimate is for carrying out the provisions of the law during the fiscal year 1923.</p> <p>The administration of this act is now in process of being organized. There will be over 70 stockyards, approximately 3,000 market agencies and commission men, and several hundred packers subject to this law. These different classes of people are located in all parts of the United States, and the supervisory and investigational work necessarily will be very extensive.</p> <p>The apparent increase over the current year occurs because the appropriation for the current fiscal year was based upon the expectation that the work could not be fully organized in this fiscal year, and the amount (\$200,000) would be sufficient.</p>																																																																																																																				

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
---	---	---

Enforcement of Packers and Stockyards Act—Continued.

Telephone and telegraph service.....		15,000.00	7,500.00
Rent (in field).....		15,000.00	8,000.00
Contingent fund.....		120,000.00	110,000.00
Miscellaneous expenses.....		5,000.00	5,000.00
Total.....		410,500.00	200,000.00

¹ The item for contingent fund is to cover any expenses which because of the nature of the work can not be definitely estimated in advance, such as the employment of special assistants and stenographic help, as the needs demand and which the regular force may not be able to handle.

² This amount for the fiscal year 1922 was not approved until August 24, 1921, and therefore covers a period of about ten months. On account of the reduction from the estimate of \$240,450 to \$200,000, the division among the several items is somewhat arbitrary and not in accordance with the original estimate.

Enforcement of the Future Trading Act—

To enable the Secretary of Agriculture to carry into effect the provisions of the future trading act, approved Aug. 24, 1921 (act Aug. 24, 1921, Public No. 66, 67th Cong.).....

\$103,600.00

NOTE.—This item, while appearing for the first time in the annual estimates of appropriations for the Department of Agriculture, was authorized in the act of Aug. 24, 1921 (Public No. 66, 67th Cong.), known as the "future trading act." There is now pending before Congress an estimate for an appropriation of \$50,000 to enable the Secretary of Agriculture to carry into effect the provisions of the act during the remainder of the fiscal year ending June 30, 1922, and the above estimate is for carrying out the provisions of the law for the fiscal year 1923.

At the time of making this estimate the future trading act has not yet become operative, but a preliminary survey of the field to be covered and the probable expenses involved has been made. The figures used are based upon the fact that it appears that there are now seven future exchanges where supervision must be exercised in order that the requirements of the law may be complied with. The enforcement of this act involves the stationing of representatives of the Secretary of Agriculture at markets where future exchanges operate and a close continuous examination into and observation of their transactions. Extensive investigations will also be made to ascertain the relation of "future trading" to the handling of cash grain. The amount requested is therefore urgently recommended.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
<p><i>That hereafter the maximum salary of any scientific investigator, or other employee engaged in scientific work and paid from the general appropriations of the Department of Agriculture, shall not exceed at the rate of \$6,500 per annum.</i></p>		
<p>NOTE.—There has been no change in the maximum amount that may be paid to scientific and technical employees on lump-sum rolls since 1914, notwithstanding the great change in economic conditions that has taken place during the past six years. The present limitation (\$4,500) is entirely too low, and the increase suggested is absolutely essential if the department is to continue to render effective service. Some of the most fundamental and difficult problems in the field of agriculture lie ahead of us. The planning and execution of experiments and investigations for the solution of these problems and the development of the necessary machinery for conducting vigorous campaigns to eliminate the pests and diseases which are handicapping production in every section of the country, depend for their success upon the employment and retention of the highest type of scientific and administrative officers.</p>		
<p>Highly trained and experienced specialists and administrators are leaving the service daily for salaries two, three, four, and even five times as much as the department is able to pay them, although many of them are practically indispensable because they can not be replaced at anything like the compensation that can be offered to them under the existing limitation, which applies only to the Department of Agriculture. See introductory statement of Secretary of Agriculture.</p>		
<p><i>Officers and employees of the Department of Agriculture traveling on official business, when authorized by the Secretary of Agriculture to receive per diem allowances in lieu of subsistence, in accordance with section 13 of the act of August 1, 1914 (38 Stat., 680), shall receive such allowances from each lump-sum appropriation provided for herein and made available for travel expenses, at rates of \$1.20, \$1.50, \$2.40, \$2.50, \$3, \$3.50, or \$4, varying with the character of work to be performed and the section of the country to be visited.</i></p>		
<p>NOTE.—This item is annually submitted in accordance with section 13 of the act of August 1, 1914 (38 Stat., 680).</p>		
<p>NOTE.—The estimate of the Secretary of Agriculture for "printing and binding," under section 2, act of May 8, 1872 (Rev. Stat., 726, sec. 3861), will be found under the title of "Miscellaneous," post. For statement of condition of work, efficiency of employees, etc., see Appendix D.</p>		
<p>Total salaries, Department of Agriculture.....</p>	<p>\$5, 077, 300.00</p>	<p>\$6, 610, 590.00</p>

United States Court for China.....			5,000.00		5,000.00		20,000.00
Consular Service.....			24,000.00		24,000.00		150,000.00
Total.....			29,000.00		29,000.00		150,000.00

NOTE.—The above totals of the post allowances in countries other than China for the years 1921 and 1922 differ materially from the appropriations for those years, and the total for the year 1923 differs from the amount estimated for that year, for the reason that for each year the totals as given include the sum of the amounts that would have been paid, or will be paid, provided each officer concerned had received, or should receive, the full annual allowance based upon his annual rate.

In practice this difference between the total arrived at as above and the appropriation does not arise, as it is covered by a saving on allowances in favor of the department on account of leaves of absence of officers, transit periods when they are traveling under orders, and promotions in the service, which amounts to approximately 15 per centum per annum of the total estimated allowances.

In China the amount granted consular officers and the officials of the United States Court for China, for post allowances is the difference between the prewar rate of the Mexican silver dollar, which was approximately 43 cents in United States currency, and the current value which at present is about 50 cents. Because of the great difference between the present price of silver and that prevailing throughout 1920 and 1921, the amount required for post allowances in China for 1922 will be small compared with the two previous years.

Allowance for Clerks at United States Consulates—

Allowance for clerk hire at consulates, to be expended under the direction of the Secretary of State, \$1,400,000. Clerks, whenever hereafter appointed, shall, so far as practicable, be appointed under civil service rules and regulations (*acts Apr. 5, 1906, vol. 34, p. 101, sec. 5; Mar. 2, 1921, vol. 41, p. 1215, sec. 1*).
