NOTE.—Of the total expenditures for 1921, \$21,540 were from "Engineer depots" and \$76,949.67 were from "Inland and port storage and shipping facilities." In the case of Engineer depot sections in continental United States, these expenditures covered payment of personnel, only, for only 6½ months of the fiscal year. During the remainder of the fiscal year employees were paid by the Quartermaster Corps and expenses other than personnel were paid by the Quartermaster Corps for entire year.

Of the estimated expenditure of \$270,000 for 1922, it is anticipated that \$20,000 will be from "Engineer depots" and \$250,000 from "Inland and port storage and shipping facilities."

NOTE.—This appropriation is for the purpose of paying transportation charges on goods and supplies purchased for the Indian Service. It has been difficult to estimate the exact amount required for this purpose during a fiscal year, and for the past few years it has been necessary to ask Congress for deficiency appropriations to cover expenditures under this item. During the fiscal years 1919 and 1920 approximately \$300,000 a year was expended for transportation expenses. It is believed that the amount requested will be sufficient for the expenditures covered by this item for the fiscal year 1923, and will eliminate further deficiency appropriations.

Deposit of Money Derived from Sale of Pete Coberly Land— That the sum of \$995 derived from the sale of land allotted to Pete Coberly, a Navajo Indian, who has been adjudged by the Secretary of the Interior to be legally dead and to have died without heirs, may be deposited in the Treasury of the United States to the credit of the Navajo Tribe of Indians and is hereby made available for expenditure for the benefit of said Indians (<i>submitted</i>).																														
NOTE.—Pete Coberly, a Navajo Indian, who was allotted land on the public domain near Hot Sulphur Springs, Grand County, Colo., disappeared about 25 years ago, and repeated efforts to locate him or probable heirs to his estate have been unsuccessful. He has accordingly been adjudged by the Secretary of the Interior to be dead and to have died without heirs. His public-domain allotment has been sold for the net price of \$995. Inasmuch as the deceased is believed to have left no heirs, it is desired to procure authority to deposit the proceeds of his allotment to the credit of the tribe to which he belonged and to use the money for the benefit of the members of said tribe.

NOTE.—Congress provided, in the act of May 18, 1916, \$4,000 for the construction of a steel tank and tower at the Fort Mojave school. The closing of this school was under consideration the next year, and the contract for the installation of this water system was not let. The war came on shortly and nothing was done, and the money lapsed. Later the school building was burned, which could have been saved had there been sufficient water. The lawns and gardens at this school are not satisfactory, as water is so scarce at a time when it is most needed. In order to have good fire protection and a good farm and garden, the water tank, tower, and mains are very necessary.

Reimbursement to James J. McAllister for lost water rights.....	\$1,000.00

NOTE.—In August, 1902, James J. McAllister, a Bannock Indian, pursuant to the laws of the State of Idaho, filed on 2 cubic feet of water per second from Five Mile Creek, a small stream near Boise, Idaho. A price filing to the extent of 5,000 miners' inches from this stream was made in 1894 by one Peter Sonna, a white man. The normal flow of this stream is considerably less than the maximum amount of Mr. Sonna's filing, yet an investigation of this matter made by a representative of the Indian Office in January, 1919, discloses that the 6-inch sheet-iron galvanized pipe originally installed by Mr. Sonna, through deterioration and possibly defective installation, did not divert the entire flow of this stream, and that from August, 1902, uninterruptedly until 1910 Mr. McAllister did divert from Five Mile Creek sufficient water for the successful irrigation of approximately 5 acres of land which he had under cultivation in an orchard and a garden. Mr. Sonna, under some form of agreement, supplied the Fort Boise Barracks with water for domestic use, but presumably due to irregular and unsatisfactory delivery of such water as and when needed, the War Department in May, 1905, for the sum of \$40,000, acquired by deed from Mr. Sonna "all the water and water rights appertaining to the water system" claimed by him. Mr. McAllister alleged no knowledge of this transaction prior to 1910, when the War Department installed a galvanized-iron pipe-line system in order to supply the barracks, which resulted in diverting the flow of this stream to such an extent as to leave insufficient water therein for the irrigation of Mr. McAllister's lands. This resulted in his being practically forced to abandon his attempts at agriculture, and the reports of the representative who investigated this matter recommended that Mr. McAllister be paid the sum of \$1,000 in satisfaction of his claim.

Reopening of Accounts of Harry Caden—

That the accounting officers of the Treasury are hereby authorized and directed to reopen the accounts of Harry Caden, Special Disbursing Agent for the Flathead Irrigation Project for the first and second quarters, 1918, and to charge expenditures shown therein, for increase of compensation of employees, amounting to \$13,838.96, to the appropriation, "Increase of compensation, Indian Service, 1918," instead of to the appropriation "Irrigation systems, Flathead Reservation, Montana, reimbursable," as paid and allowed by the Auditor for the Interior Department (*submitted*).

NOTE.—During the period August to November, 1917, payments for increase of compensation, fiscal year 1918, totaling \$13,838.96 were made by Harry Caden, special disbursing agent for the Flathead irrigation project, St Ignatius, Mont., from funds advanced him from the appropriation "Irrigation systems, Flathead Reservation, Montana, reimbursable." no funds having been advanced from the appropriation "Increase of compensation, Indian Service, fiscal year 1918." In the settlement of Mr. Caden's accounts the Auditor for the Interior Department passed the payments as made from the Flathead reimbursable appropriation, in effect charging increase of compensation, payment of which was provided by law from an indefinite appropriation increase of compensation, fiscal year 1918, against the reimbursable appropriation. Exception to this settlement was made by the Indian Office but no adjustment made. It is now too late to take this matter up with the general accounting office and the office of the Comptroller General. Legislation is required before the accounts may be adjusted. In a letter dated June 16, 1921, from Mr. J. E. R. Ray, Auditor for the Interior Department, it is stated that "It appears from an examination of the papers the question as to the availability of the appropriation (Irrigation systems, Flathead Reservation, Montana, reimbursable) for \$7,515.29 of these expenditures was raised in the settlement of the disbursing agent's account on Mar. 5, 1918, as shown by the statement of differences filed with certificate No. 13641, in which the auditor concurred in the view now entertained by you that these disbursements should have been made out of the appropriation "Increase of compensation, Indian Service, 1918." The considerations upon which the auditor changed his view of the question and decided to allow credit for the expenditures under the first-named appropriation are not set out in the papers, but the fact that he raised the question indicates that he acted, possibly, not wisely, but deliberately and advisedly in the matter. I am without authority upon this showing of facts to take any action in the matter in the direction desired."

NOTE.—A new dining room and kitchen are very much needed at the Carson School. The present ones need much repairing to make them in good condition. This would cost too much, considering the size and condition of the rooms. They are entirely too small. The present attendance of the school is 400 pupils. When these old buildings were constructed the attendance was only about 200.

NOTE.—The Mescalero Reservation was created by Executive order of 1873 and in 1883 by Executive order the reserve was made to cover an area known as the Three Rivers district. Prior to this time it appears that the waters of Three Rivers were appropriated by white settlers; however, after the land in this section was included in the reservation, an agreement was entered into by this department with white interests concerning the distribution of the water in question. The Indians no doubt obtained certain benefits through this agreement which they possibly would not have enjoyed had the rights of the parties been determined in court. Water in this section of the country is very scarce and, consequently, is of great value, thus necessitating the development of every inch of water possible. It is for the purpose of constructing a conduit to conserve the water for domestic and stock purposes for the Indians that this appropriation is sought.

<p>NOTE.—The act of May 18, 1916 (39 Stat. L., 123) appropriated \$95,000 to purchase water rights and to pay the proportionate charge for operation and maintenance on approximately 1,436 acres of allotted Indian lands held in trust within the West Okanogan Valley irrigation district located on the north half of the former Colville Indian Reservation. Due to the existing conditions the matter of acquiring water for irrigation purposes on the lands in question was through said district. The cost of furnishing Indian allotments was considered reasonable. Said act contained a provision making the sum appropriated reimbursable, and that in case any Indian should sell his allotment or part thereof, or receive a patent in fee for same, any amount of the charge made to secure reimbursement remaining unpaid at the time of such sale or issuance of patent shall be a lien on the land, and patents issued therefor shall recite the amount of such lien. Since the payment of the amount appropriated to the West Okanogan Valley Irrigation Co. for the water rights acquired for these Indians, annual operation and maintenance charges have accrued against 22 of the allotments and remain unpaid. The irrigation company is justly entitled to the amounts due for services rendered. By making provision for the reimbursement to the United States in the amounts due by the allottees to the irrigation district in accordance with the act of May 18, 1916, supra, the lien created by said act will amply provide for such reimbursement when the lands are sold or when patents are issued to the Indians.</p>

Except in cases of emergency, or conditions arising subsequent to and unforeseen at the time of submitting the annual estimates to Congress, and except for those employed in connection with the construction of permanent quarters, offices, and other necessary buildings, drydocks, repair shops, yards, docks, wharves, warehouses, storehouses, and other necessary facilities and appurtenances for the purpose of providing coal and other materials, labor, repairs, and supplies, and except for the permanent operating organization under which the compensation of the various positions is limited by section 4 of the Panama Canal act, there shall not be employed at any time during the fiscal year 1923 under any of the foregoing appropriations for the Panama Canal, any greater number of persons than are specified in the notes submitted, respectively, in connection with the estimates for each of said appropriations in the annual Book of Estimates for said year, nor shall there be paid to any such person during that fiscal year any greater rate of compensation than was authorized to be paid to persons occupying the same or like positions on July 1, 1921; and all employments made or compensation increased because of emergencies or conditions so arising shall be specifically set forth, with the reasons therefor, by the Governor in his report for the fiscal year 1923 (*act Mar. 4, 1921, vol. 41, p. 1431, sec. 1*).

In addition to the foregoing sums there is appropriated, for the fiscal year 1923 for expenditures and reinvestment under the several heads of appropriation aforesaid without being covered into the Treasury of the United States, all moneys received by the Panama Canal from services rendered or materials and supplies furnished to the United States, the Panama Railroad Company, the Canal Zone government, or to their employees, respectively, or to the Panama Government, from hotel and hospital supplies and services; from rentals, wharfage, and like service; from labor, materials, and supplies and other services furnished to vessels other than those passing through the canal, and to others unable to obtain the same elsewhere; from the sale of scrap and other by-products of manufacturing and shop operations; from the sale of obsolete and unserviceable materials, supplies, and equipment purchased or acquired for the operation, maintenance, protection, sanitation, and government of the canal and Canal Zone; and any net profits accruing from such business to the Panama Canal shall annually be covered into the Treasury of the United States (*same act*).

In addition, there is appropriated for the operation, maintenance, and extension of water works, sewers, and pavements in the cities of Panama and Colon, during the fiscal year 1923, the necessary portions of such sums as shall be paid as water rentals or directly by the Government of Panama for such expenses (*same act*).

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

Under the provisions of this act no greater sum shall be expended, nor shall the United States be obligated to expend, during the fiscal year 1923, on any reclamation project appropriated for herein an amount in excess of the sum herein appropriated therefor, nor shall the whole expenditures or obligations incurred for all of such projects for the fiscal year 1923 exceed the whole amount in the "reclamation fund" for that fiscal year;

Ten per cent of the foregoing amounts shall be available interchangeably for expenditures on the reclamation projects named; but not more than 10 per cent shall be added to the amount appropriated for any one of said projects; except, that should existing works or the water supply for lands under cultivation be endangered by floods or other unusual conditions, an amount sufficient to make necessary emergency repairs shall become available for expenditure by further transfer of appropriation from any of said projects upon approval of the Secretary of the Interior.

Whenever, during the fiscal year ending June 30, 1923, the Director of the Reclamation Service shall find that the expenses of travel can be reduced thereby, he may, in lieu of actual traveling expenses, under such regulations as he may prescribe, authorize the payment of not to exceed 3 cents per mile for a motorcycle or 7 cents per mile for an automobile, used for necessary travel on official business.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.
Reclamation Fund—Continued.		
Reimbursement may be made to the United States by the former owner of land heretofore or hereafter acquired under the reclamation law, to the extent of the amount paid therefor, with a reasonable deduction for damage to the land or for the use thereof if any use is advisable and if the Secretary of the Interior shall find that the whole or any portion of the land is not needed under the provisions of the reclamation law; and the Secretary of the Interior may reconvey title thereto under such terms and conditions as he deems proper.

ALTERNATE PLAN.		
The following estimate of appropriations is submitted as an alternate plan to the appropriations estimated herein for special works for the Lighthouse Service:		
SPECIAL WORKS, LIGHTHOUSE SERVICE.		
For establishing, providing, or improving aids to navigation and other works in the Lighthouse Service, as may be approved by the Secretary of Commerce, \$1,283,500.		
NOTE.—It is believed that by having appropriations for special works in a single item a more economical and efficient administration of this work can be effected. The relative importance and urgency of various works changes from time to time, and this consolidation would permit of carrying on the works in the order that they will provide the greatest benefit to navigation, as determined by careful technical investigation. This accords with the policy already adopted by Congress in appropriations for vessels for the Lighthouse Service and for river and harbor improvements.

	227,833.20	215,393.20	
NOTE.—One cataloguer at \$1,100; 8 at \$1,000 each; and 4 at \$900 each omitted. Rearrangement of the salaries of the librarian, 20 cataloguers now provided for, and the addition of 3 cataloguers make a total increase of \$11,000. Catalogue work is approximately six years behind the requirements of law, due to inability to fill cataloguer vacancies on account of low salaries; persons capable of filling the positions absolutely refuse the small pay, and increase requested is an emergency measure. Increase from \$840 to \$900 for 24 clerks (amounting to \$1,440) is requested in order to adjust the present inequitable situation whereby ordinary laborers receive \$876.40 and clerks \$840. The qualifications required of clerks by the Civil Service Commission are so far above those required of laborers as to demand, for the good of the Government service, that they receive a more equitable rate of pay.

¹ The payments made during the fiscal year 1921 on account of transportation of public moneys by express as stated above, do not represent the entire amount paid for such service, as the subtreasuries were discontinued during the year and the expenses in connection with the transfer of the funds held therein were paid from the special appropriation made for the purpose. A portion of such funds under usual conditions would have been transferred during the year and the expenses paid from the appropriation for contingent expenses. Public funds are now sent to about thirty different places where Federal Reserve banks or branches are located performing functions previously assigned to the nine subtreasuries, and there will be an increase in the charges on funds sent owing to the wider distribution.					
Recoinage of Gold Coins—					
For recoinage of uncurrent gold coins in the Treasury, to be expended under the direction of the Secretary of the Treasury, as required by sec. 3512 of the Revised Statutes of the United States (<i>R. S.</i> , p. 696, sec. 3512; act Mar. 4, 1921, vol. 41, p. 1375, sec. 1).....				2,500.00	4,610.00
Object or class.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.		
For the recoinage of uncurrent gold coins in the Treasury, sec. 3512 requires that any gold coins in the Treasury of the United States when reduced in weight by natural abrasion more than one-half of 1 per cent below their standard weight prescribed by law shall be recoined. It is customary to transfer these coins at times convenient for recoinage.....	\$2,500.00	\$3,000.00	\$874.81		
No personal service.					
Recoinage of Minor Coins—					
To enable the Secretary of the Treasury to continue the recoinage of worn and uncurrent minor coins of the United States now in the Treasury or hereafter received, and to reimburse the Treasurer of the United States for the difference between the nominal or face value of such coins and the amount the same will produce in new coin (<i>acts June 25, 1910, vol. 36, p. 714, sec. 1; Mar. 4, 1921, vol. 41, p. 1375, sec. 1</i>).....				7,500.00	5,000.00
Object or class.	Estimated, 1923.	Estimated, 1922.	Expended, 1921.		
Minor coins as received for redemption at the Federal Reserve banks, and as no uncurrent coins are paid out, they are from time to time sent to the mint to be recoined. It is customary to transfer these coins at times convenient for recoinage.....	\$7,500.00	\$5,000.00	\$5,533.94		
¹ The expenditures for the fiscal year 1921 were \$533.34 in excess of the appropriations for the fiscal year 1922 and it is probable that an estimate will be necessary to cover a deficiency in the appropriation for the current year. The increased volume of minor coins in circulation will result in a larger amount of uncurrent coins being sent for recoinage and it is estimated that at least \$7,500 will be required for the fiscal year 1923.

¹ The sugar samplers between \$1,150 and \$1,600 were listed in the 1922 estimate simply as "samplers."² Two of the special examiners of drugs were listed in the 1922 estimate simply as "examiners."³ Listed in the 1922 estimate simply as "supervisor."⁴ Listed in 1922 estimate simply as "examiner."⁵ Only in a few instances is travel performed at a per diem in lieu of subsistence by authority of the Secretary under sec. 13 of the act of Aug. 1, 1914 (38 Stat., pp. 680, 681). In all such cases a rate of \$4 per diem is allowed, with proportionate fraction thereof for periods less than a day.⁶ Increase due to increase in telephone rates. No additional service.⁷ It is estimated that, due to the additional work which will be placed on the customs service of the provisions contained in the pending tariff act are enacted into law, there will be a deficit for the fiscal year 1922 of \$291,000. A supplemental estimate for an appropriation of this amount has been submitted to the Bureau of the Budget. The appropriation available with the supplemental estimate for 1922 is the same as the amount estimated for 1922, \$11,550,000.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued.

Scales for Customs Service—					
The unexpended balance of the appropriation heretofore made for construction and installation of special automatic and recording scales for weighing merchandise, etc., in connection with imports, at the various ports of entry under direction of the Secretary of the Treasury, is continued and made available for expenditure during the fiscal year 1923, together with the further sum of \$110,000 for the same purpose (<i>act Mar. 4, 1921, vol. 41, p. 1376, sec. 1</i>).....				\$110,000.00	\$125,000.00

Compensation in Lieu of Moieties—					
For compensation in lieu of moieties in certain cases under the customs laws (<i>acts June 22, 1874, vol. 18, p. 186, sec. 1; Mar. 4, 1921, vol. 41, p. 1376, sec. 1</i>).....				50,000.00	10,000.00

Payments to informers, detectors, and seizers.....	\$50,000.00	\$10,000.00	\$9,999.42		
¹ The number of informers' claims has greatly increased on account of liquor smuggling and seizures. One-fourth of the appropriation for 1922 was paid out by Aug. 1, 1921, and enough claims are now pending to practically exhaust the amount available. A conservative estimate places the amount required for 1923 at \$50,000. In no case can more than 25 per cent of the amount recovered be paid out as moiety, so that these payments do not represent a drain on the Treasury but are proportionate to the amounts recovered on account of illegal importations.					
Customs Special Investigations—					
For necessary expenses of special investigations of Customs Service (<i>acts Aug. 24, 1921, vol. 42, p. 193, sec. 1</i>).....					100,000.00
No estimate for 1923.					
To Promote the Education of the Blind—					
To enable the American Printing House for the Blind more adequately to provide books and apparatus for the education of the blind (<i>acts Aug. 4, 1919, vol. 41, p. 272, sec. 1; Mar. 4, 1921, vol. 41, p. 1378, sec. 1</i>).....				40,000.00	40,000.00

ROCK CREEK AND POTOMAC PARKWAY COMMISSION.																																																																																																											
Connecting Parkway between Rock Creek and Potomac Parks— To enable the commission created by sec. 22 of the public buildings act approved Mar. 4, 1913 (37 Stat., p. 885), to continue proceedings toward the acquisition of lands required for a connecting parkway between Potomac Park, the Zoological Park, and Rock Creek Park, \$100,000, to be available until expended, and to be chargeable against the Treasury of the United States and the revenues of the District of Columbia in proportion as authorized by law: <i>Provided</i> , That the total area of lands finally to be acquired for said parkway shall not exceed the area and parcels described and delineated on map No. 2, contained in House Document No. 1114 of the Sixty-fourth Congress, first session, and the additional lands in squares 2543 and 2544, described in the sundry civil act approved June 5, 1920: <i>Provided further</i> , That the expenditure of the funds appropriated herein shall be subject to all the conditions imposed by the sundry civil appropriation act approved July 1, 1916 (acts Mar. 4, 1913, vol. 37, p. 885, sec. 22; Mar. 3, 1915, vol. 38, p. 829, sec. 1; July 1, 1916, vol. 39, p. 282, sec. 1; June 12, 1917, vol. 39, p. 689, sec. 1; July 1, 1918, vol. 40, p. 650, sec. 1; July 19, 1919, vol. 41, p. 180, sec. 1; June 5, 1920, vol. 41, p. 890, sec. 1; Mar. 4, 1921, vol. 41, p. 1382, sec. 1).....	\$100,000.00	\$200,000.00																																																																																																									
<p>NOTE.—Sec. 22 of the public buildings act approved Mar. 4, 1913, created a commission to be composed of the Secretary of the Treasury, the Secretary of War, and the Secretary of Agriculture, with authority to acquire, by purchase, condemnation, or otherwise, land for a connecting parkway between Potomac Park, the Zoological Park, and Rock Creek Park, and authorized the expenditure of \$1,300,000 for the purpose. The sum of \$50,000 was provided by sundry civil act approved July 1, 1916, to enable the commission to commence proceedings: \$100,000 by sundry civil act approved June 12, 1917; \$150,000 by sundry civil act approved July 1, 1918; \$250,000 by sundry civil act approved July 19, 1919; \$200,000 by sundry civil act approved June 5, 1920, and \$200,000 by sundry civil act approved Mar. 4, 1921. Only \$17,000 of the \$750,000 appropriated to June 30, 1921, remained unobligated on that date and negotiations now under way, if brought to a successful termination, will consume the greater part of the present appropriation of \$200,000.</p> <p>By the purchases made up to June 30, 1921, \$127,930, including all expenses, has been saved as compared with the assessors' valuation of the land purchased. As the United States is now in possession of over 73 per cent of the area within the taking lines, it is believed that a continuation of the economical results so far obtained can best be effected by an unbroken chain of appropriations of at least \$200,000 per year, but in harmony with the Government's policy of retrenchment the purchasing activities may be prosecuted less vigorously, so that even with the current appropriation and a reduced appropriation of \$100,000 for the fiscal year 1923 the commission may still be able to take advantage of the most favorable offers.</p> <p>It is therefore recommended that the sum of \$100,000 herein requested be appropriated at the next session of Congress.</p> <p>A. W. MELLON, Secretary of the Treasury, Chairman Rock Creek and Potomac Parkway Commission.</p>

HEATING AND LIGHTING, 1923.

This item provides for the heating, lighting, electrical, telegraphic, and telephonic service for the seven buildings under the Institution, which are located in the Mall between B Street N.W. and B Street S.W. and Ninth and Twelfth Streets. The floor area of these buildings is 770,941 square feet, or 17½ acres, the cubic contents of same 12,835,222 cubic feet, and the square feet of heating surface 132,640.

The main heating plant is located in the Natural History Building at the foot of Tenth Street N.W., and furnishes light, power, etc., to all of the buildings during the entire year, but it is necessary to augment this plant during the months of December, January, and February by the use of the old boilers in the Arts and Industries Building. Of the appropriation of \$70,000 for the current year, \$29,000 is allotted for coal and \$32,080 is required for the employment of the 35 mechanics, laborers, etc., required to operate the plant. (In this connection attention is called to the very small salaries paid to all of the employees on this roll, which averages from 50 to 75 per cent less than are paid in private industry in Washington and less than is paid in many branches of the Government service.)

The estimate for this item for 1923 is \$23,500 in excess of the appropriation for the present fiscal year and \$24,500 greater than the appropriations provided in the sundry civil and deficiency bills for 1921. It covers three items—\$23,000 for two additional high-pressure boilers of similar size to those now in use or one of double the horsepower, which, if installed, would reduce the cost of operation of about \$4,000 annually and would obviate the necessity of operating the auxiliary plant in the Arts and Industry Building; a new boiler-feed water heater (the old one being worn out and inefficient) at a cost of \$3,000, including changes in piping, etc., the purchase of which would save approximately 150 tons of coal annually; the balance, \$2,500, is for increasing the allotment for coal from \$29,000 to \$31,500.

It is estimated by the engineer that during a normal year 4,000 tons of coal will be required. The largest possible allotment for the purchase of coal from our present appropriation is \$29,000, consequently in order to have a sufficient amount it will be necessary to increase this allotment by \$2,500 or \$3,000. The allotment of \$29,000 for the present year—1922—will undoubtedly be inadequate and unless the contract price for coal is lowered (it now varies from \$7.65 to \$8) it will be necessary during the winter to ask for an additional appropriation of between \$2,000 and \$3,000.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1923—Continued:

General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1922.																																																																																																																																																	
National Zoological Park—Continued. The increase from \$125,000 (for 1922) to \$136,000 (estimated for 1923) in regular maintenance expenses is accounted for as follows: (1) Additions to the regular pay roll: Increases— Assistant superintendent (now \$208.33)..... \$25.00 Sergeant of police (now \$85)..... 20.00 9 policemen (now \$80) at \$20..... 180.00 1 skilled laborer (now \$80)..... 20.00 18 keepers (now \$80) at \$20..... 360.00 4 assistant keepers (now \$75) at \$10..... 40.00 6 skilled laborers (now \$75 to \$95) at \$5..... 30.00 2 gardeners (now \$90) at \$10..... 20.00 Additional— 1 additional policeman..... 100.00 Increase per month..... 795.00 12 months at \$795..... \$9,540.00 (2) Increase in allotment for miscellaneous supplies and services, and minor repairs and alterations, \$100 per month..... 1,200.00 (3) Additional men for regular care of grounds April to November..... 260.00 11,000.00 Explanation of request for increase in compensation for policemen, keepers, and gardeners: When the pay for United States park police on duty in the parks of the District of Columbia was increased several years ago it was unquestionably the intention of Congress that the officers serving in the National Zoological Park be included. Through a technicality (because they are provided for in the sundry civil bill instead of the legislative, executive, and judicial bill) it has been ruled that the National Zoological Park police are not included in this salary increase. Special efforts have been made by certain Senators to have this mistake remedied, and special bills have been introduced increasing the pay of the National Zoological Park police to an amount approximating that paid the United States park police. These have so far failed of passage. The National Zoological Park police take the place of the Metropolitan police and of the United States park police, within the National Zoological Park, and the duties call for men of high police ability. The service now suffers greatly from the discrepancy in pay between these men and other park police. The pay of policemen, keepers, and gardeners, has always been kept at about the same scale, and it would be necessary for the good of the service that the first-class keepers be increased with the policemen. Experienced animal keepers in other large zoological parks usually receive about \$125 per month. NOTE.—For statement of Government-owned buildings in the District of Columbia see Appendix E. For reports of the Smithsonian Institution under sec. 2, act of July 11, 1890 (26 Stat., p. 268), and sec. 7, act of Mar. 2, 1895 (28 Stat., p. 808), see Appendix D. ¹ In Yosemite Park, under the heading "Administration," all items for care and upkeep of passenger-carrying vehicles, forage and horse expense, freight, travel, and passenger expense, etc., usually divided, the larger percentage being placed under the heading "Protection," are here left under administration in accordance with the Yosemite bookkeeping practice. Due to the fact that the estimates were compiled at the height of the season, it was not possible to change this bookkeeping practice in time to harmonize all items in the Yosemite estimates with those of other parks, in so far as subheadings are concerned. This, however, will be done next year.

ALTERNATE PLAN.

The following estimate of appropriation is submitted as an alternate plan to the six appropriations estimated herein for the support of the Bureau of Lighthouses and the Lighthouse Service.

General Expenses, Lighthouse Service—

For every expenditure requisite for and incident to the authorized work of the Lighthouse Service in carrying on the operation, maintenance, and betterment of aids to navigation, and of the premises, structures, and equipment connected therewith, on the rivers, sea, and lake coasts of the United States and territory under the jurisdiction of the United States, including the salaries and expenses of the office of the Bureau of Lighthouses in the District of Columbia, and including the pay of persons retired under the act of June 20, 1918 (40 Stat., 608), and amendments thereto, \$7,832,000.

NOTE.—It is believed that by having maintenance appropriations in a single item a more economical and efficient administration of the Lighthouse Service can be effected. This consolidation of items would simplify the accounting system, and permit the costs of work to be kept in a more systematic and comprehensive manner, showing clearly for each principal feature the relative amounts paid for salaries, materials, supplies, equipment, and other component items.

The consolidation would permit the gradual carrying out of an important economy, in the installation of automatic unattended lights, as the amounts saved in services could be employed in the installation of additional equipment. Anomalies now existing as to the pay of similar classes of employees, as persons caring for minor lights, and persons having to do with construction work, out of different appropriations, and pay and rations out of different appropriations, would be obviated.

The language used at present in the appropriations words, in which an endeavor is made to specify particularly every item of expenditure, is becoming quite cumbersome.

Should this method of appropriating for the support of the Lighthouse Service be adopted, it is estimated that a reduction of \$100,000 in the aggregate of maintenance appropriations may be made, as compared with the estimates submitted for separate items of appropriation; and the amount submitted above under this alternate plan, \$7,832,000, embodies such reduction.
