FOOD[.] AND DRUG[.] AND INSECTICIDE] ADMINISTRATION		
<p>NOTE.—It is proposed to change the name of this unit from "Food, Drug, and Insecticide Administration" to "Food and Drug Administration." It has been found that the present name is long and cumbersome, and very often causes confusion, because of its length, in correspondence between this department and outside agencies. Furthermore, it is believed that the word "drug," in a broad sense, covers insecticides and that the word "insecticide" is therefore superfluous.</p>

Up to the present time personally owned cars have been employed on a mileage basis, but increasing mileages now make it more economical to operate bureau-owned cars. In the blister rust control field work the bureau needs a vehicle of the light truck type which, while having adequate space for necessary field equipment and supplies, such as shovels, axes, camping equipment, 100-pound bags of various chemicals, etc., provides also comfortable and protected space for the driver, as frequently men using these cars must be out in all kinds of weather. To meet these requirements it is necessary to purchase equipment with the driver's compartment of coupe or roadster type with a pick-up truck body on the rear. Under a recent decision of the Controller General such equipment is held to be passenger carrying, and as such must be specifically authorized.	Station employees.

<p>During the fiscal year [1930] 1931 the head of any department or independent establishment of the Government having funds available for scientific and technical investigations and requiring cooperative work by the Geological Survey on scientific and technical investigations within the scope of the functions of that bureau and which it is unable to perform within the limits of its appropriations may, with the approval of the Secretary of the Interior, transfer to the Geological Survey such sums as may be necessary to carry on such investigations. The Secretary of the Treasury shall transfer on the books of the Treasury Department any sums which may be authorized hereunder, and such amounts shall be placed to the credit of the Geological Survey for the performance of work for the department or establishment from which the transfer is made: <i>Provided</i>, That any sums transferred by any department or independent establishment of the Government to the Geological Survey for cooperative work in connection with this appropriation may be expended in the same manner as sums appropriated herein may be expended.</p> <p>During the fiscal [years 1929 and 1930] year 1931, upon the request of the Secretary of the Interior, the Secretary of War or the Secretary of the Navy is authorized to furnish aerial photographs required for topographic mapping projects, in so far as the furnishing of such photographs will be economical to the Federal Government and does not conflict with military or naval operations or the other parts of the regular training program of the Army and Navy flying services, and the Secretary of the Interior is authorized to reimburse the War or Navy Departments for the cost of making the photographs, and the Department of the Interior is authorized to furnish copies to any State, county, or municipal agency cooperating with the Federal Government in the mapping project for which the photographs were taken. In the event that the War or Navy Department is unable to furnish such photographs in time to meet the needs for which they are requested, the Geological Survey is authorized to contract with civilian aerial photographic concerns for the furnishing of such photographs.</p> <p>Appropriations herein made shall be available for payment of the costs of packing, crating, and transportation (including drayage) of personal effects of employees upon permanent change of station, under regulations to be prescribed by the Secretary of the Interior.</p>
