The total of the estimates of appropriations payable from the Treasury shown in the foregoing table is $221,000,000 more than the appropriations for 1931. The estimates for 1932, however, contain $100,000,000 for the revolving loan fund of the Federal Farm Board for which no amount appears in the 1931 appropriations. Of other large items of increase the Veterans' Administration calls for $110,000,000, the Shipping Board $35,000,000, the road program $51,500,000, while tax repayments are estimated at $92,000,000 less. For the purposes of comparing the estimates for 1932 with the appropriations for 1931, the large items which involve either increase or decrease are set forth below:

There are certain items which affect these increases and decreases which I feel require special comment.

SHIPPING BOARD

The estimates for the Shipping Board contained in this Budget show a net increase of about $33,000,000 over the appropriation for 1931. This increase is due to the estimate of $35,000,000 for the construction-loan fund of the Shipping Board, which is a new item of appropriation. Heretofore all authorized loans for the construction of ships by private parties have been met by the receipts credited to the construction-loan fund of the Shipping Board arising from sales of ships or property and other sources. There will be required, however, a direct appropriation to the credit of this fund to provide for authorized loans during the fiscal year 1932. Decreases in the 1932 estimates of the Shipping Board for other purposes amount to approximately $2,000,000, so that the net increase is $33,000,000.

VETERANS' ADMINISTRATION

Under the authority contained in the act of Congress entitled "An act to authorize the President to consolidate and coordinate governmental activities affecting war veterans," approved July 3, 1930, there

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

have been transferred to and consolidated in the Veterans' Administration the duties, powers, and functions which devolve by law upon the Bureau of Pensions of the Interior Department, the National Home for Disabled Volunteer Soldiers, and the United States Veterans' Bureau. The activities of the War Department dealing with the payment of the annuities prescribed in the acts of Congress approved May 23, 1908, and February 28, 1929, and the furnishing of artificial limbs, trusses, and surgical appliances under the laws recited in chapter 5, title 38, United States Code, have also been transferred to the Veterans' Administration. For the first time there is presented in the estimates of one establishment the funds necessary to carry on the activities of the Government which deal directly with the administration of veterans' affairs. The total of the estimate is $946,289,000, but not all of this pertains to veterans' affairs. Approximately $21,000,000, which pertains generally to the civil-service retirement fund and the administration of the retirement law, has no application to veterans as such. This function was transferred to the Veterans' Administration because it formed a part of the duties of the Bureau of Pensions which was merged intact into the new establishment. The estimate for the Veterans' Administration contained in this Budget is approximately $110,000,000 in excess of the appropriations for similar purposes for 1931. The principal items of increase are in general administration and hospitalization, $17,428,000, which is due principally to enlarged operating costs occasioned by the increase in the number and capacity of hospitals and domiciliary facilities; military and naval compensation, $71,300,000; construction of new hospitals and domiciliary facilities, $9,350,000; and Civil War and Spanish-American War pensions, $9,500,000. I feel confident that in the absence of the consolidation of veterans' affairs made possible by the act of Congress approved July 3, 1930, we would have required a larger appropriation for 1932 to serve the same purposes as are contemplated by the estimate contained in this Budget.

AGRICULTURE

The estimates for the Department of Agriculture for 1932 carry approximately $56,740,000 in excess of the appropriations for the current fiscal year 1931. The major portion of this increase, $51,500,000, is for the construction of roads in the Federal highway system and for forest roads and trails. Other increases are for agricultural research work, $2,000,000, for service work for the general public, including the Weather Bureau service, $2,440,000, and for enforcement of regulatory laws, $800,000.

TREASURY DEPARTMENT

In the estimates of the Treasury Department for the fiscal year 1932 the principal item of decrease from the appropriations for the fiscal year 1931 is $92,000,000 for refunding taxes illegally collected. On the

Digitized for FRASER

Federal Reserve Bank of St. Louis

other hand the principal items of increase over 1931 are $10,300,000 pertaining to the construction of public buildings and $1,000,000 for the Customs Service. In total, the estimates for the Treasury Department for 1932, compared with the appropriations for 1931, show a decrease of $78,342,000. This, however, is only an apparent reduction in so far as amounts available for expenditure within the respective fiscal years are concerned.

The appropriations for the Treasury Department include a number of double-year and no-year items. It is estimated that the result of operations under these appropriations will be a reduction in expenditures in 1931 of $30,000,000, and an increase in the amount available in 1932 of $59,400,000. On this basis the amount available in 1932 will be over $11,000,000 in excess of 1931.

DISTRICT OF COLUMBIA

For the municipal government of the District of Columbia there is being requested $47,796,000, which is a decrease of $601,000 from the appropriations for 1931. However, the 1931 appropriations provided $3,000,000 for the purchase of land and $65,000 for the preparation of plans and designs of buildings for the municipal center, which are nonrecurring items. Deducting these amounts, the estimate for 1932 is $2,465,000 in excess of the appropriation for 1931. I may add that the estimate for 1932 does not contain any amount for commencing actual construction for the municipal center for the reason that the preparation of plans, designs, and estimates of cost have not progressed to a point which permits of a limit of total cost being expressed in the estimate. The Commissioners of the District of Columbia believe that approximately $1,500,000 will be required to commence construction work and they are reserving that amount from the estimated revenues of the District of Columbia. In considering the amount available for appropriation for the District of Columbia this amount has been withheld from the estimates of 1932 solely with a view to later presentation when more complete information is available. I mention this so as to prevent any possible misunderstanding that the omission of the amount of $1,500,000 from this Budget would leave excess funds of the District of Columbia available for appropriation for other purposes.

BUILDINGS

The progress made by the Treasury Department under the program to house Federal activities in Washington and throughout the country in Government-owned buildings has been greatly accelerated during the past year by a considerable enlargement of the program, expedition in acquiring sites, and the removal of restrictions on the employment of outside architectural services. The original public building act of May 25, 1926, authorized the expenditure of

Federal Reserve Bank of St. Louis

$15,000,000, in addition to sums already provided, for the completion of 69 projects authorized prior to 1926. It also authorized the expenditure of $50,000,000 for buildings in the District of Columbia, and $100,000,000 for the country at large. An act approved February 24, 1928, amended the original act by increasing the authorization for buildings outside the District of Columbia $100,000,000. A recent act, approved March 31, 1930, further amended the two prior acts by increasing the District of Columbia program for construction $100,000,000, and the program outside the District $115,000,000. The purchase of additional land in the District of Columbia at an aggregate cost of $40,000,000 has also been authorized. The total public buildings program, therefore, under present authorizations, amounts to $520,000,000, to which should be added whatever amounts are derived from the sale of obsolete sites and buildings.

In furtherance of the purposes of this legislation specific authorizations have been made for 535 projects at limits of cost aggregating $378,560,000. To finance the projects, on the basis of providing for maturing obligations, appropriations have been made to the amount of $149,586,000. The total expenditures to October 31, 1930, amount to $77,027,625.80, of which $8,481,550.29 is chargeable to authorizations prior to 1926, leaving a balance available for further expenditure of $72,558,379.09. The amount which will be expended during the remaining eight months of the current fiscal year is estimated at $56,000,000. The appropriation balance then remaining, added to the $60,000,000 carried in this Budget, will permit of expenditures somewhat in excess of $76,500,000 during the fiscal year 1932. The expenditure program for the 20-month period from November 1, 1930, to June 30, 1932, therefore amounts to upward of $132,500,000, and it is fully expected that this program will be carried out.

In addition to the building program as above outlined, appropriations amounting to $23,680,000 have also been made under the authorization of $40,000,000 for the purchase of additional land in the District of Columbia. The expenditures to October 31, 1930, amount to $13,234,030.45, and approximately $7,600,000 will be spent during the remainder of the current fiscal year. The expenditures during the fiscal year 1932 are estimated at upward of $7,500,000, and for this purpose provision for an additional appropriation of $5,000,000 is carried in this Budget.

The War Department is also carrying forward a building program, involving an ultimate expenditure of about $160,000,000, for the housing of military personnel and utilities, made necessary by the need for replacing World War temporary construction and to provide generally for the increase in the pre-war strength of the Regular Army. There has already been appropriated for this purpose $53,348,000, and $14,700,000 is carried in the estimates for 1932, with authority to make contracts for $3,000,000 additional. The estimates for 1932 also carry

$2,625,000 for technical buildings for the Air Service of the Army and $1,530,000 for other buildings for various purposes for the Army and the Panama Canal.

For buildings and structures for the Navy the Budget carries estimates aggregating $9,542,500, of which $50,000 is for the purchase of necessary land.

To complete the $15,000,000 program for additional hospital facilities for the Veterans' Administration, $7,950,000 is provided in this Budget for liquidating contracts previously authorized by the Congress and $3,400,000 is provided for construction work at branches of the National Home for Disabled Volunteer Soldiers.

A total of $2,550,000 is estimated for new building construction for the Indian Service, including reservation and nonreservation schools, hospitals, and administration buildings.

The estimates for the Department of Justice include provision for construction at the Atlanta (Ga.) Penitentiary, $100,000; at the McNeil Island (Wash.) Penitentiary, $214,000; at the industrial reformatory, Chillicothe, Ohio, $1,000,000; for a new reformatory west of the Mississippi River, the location of which has not yet been decided upon, $500,000; for Federal jails, $500,000; and at the National Training School for Boys, Washington, D. C., $200,000; a total of $2,514,000.

For the Department of State $2,000,000 is provided to continue the program for the construction of houses and offices for our representatives abroad.

Altogether this Budget carries $111,811,500 for the procurement of sites and the construction of buildings, with a contract authorization for a further expenditure of $3,000,000.

NATIONAL DEFENSE

The estimates of appropriations for the War and Navy Departments for 1932 provide a total of $689,084,000 for national defense. This is exclusive of all items of a nonmilitary character and is a decrease under the appropriations for this purpose for 1931 of $33,697,000.

The decrease for the War Department amounts to $751,000, which amount is the net result of increases and decreases in many items based on the different requirements for the two fiscal years involved.

The decrease for the Navy Department is $32,946,000. Due to the ratification of the London treaty, the operating force program of the Navy was revised to provide for a reduction in the enlisted force and a reduction in the number of vessels to be retained in commission. These changes involved a reduction in the estimated requirements for 1932 of approximately $7,000,000. However, with a fleet much reduced in number of vessels, provision is made for 1932 for a reasonable increase in the enlisted complement of vessels and

for relative increases in the items connected with the maintenance, repair, and operation of vessels, with the view that the efficiency of the personnel and of the vessels of the smaller active fleet may be further increased. After providing for these and other increases, the net decrease for ordinary operating expenses is $4,446,000. The decrease for modernization of battleships is $7,400,000, appropriations having previously been made to complete the modernization of all vessels so far authorized. For construction of vessels the decrease is $21,100,000. A large unexpended balance accrued under the appropriations for ship construction because of the delay in the program pending the result of negotiations for modification of the Washington treaty. The construction of those vessels now authorized which are permitted by the London treaty should now go forward without delay. The cash withdrawals for new ship construction during 1932 is estimated at $51,600,000 and for 1931 at $44,200,000. Seven of the light cruisers carrying 8-inch guns and the aircraft carrier authorized by the act approved February 13, 1929, will be under construction by the close of the current fiscal year. Under the terms of the London treaty, and if this Government so elects, three more 8-inch gun cruisers may be laid down; one in the calendar year 1933, one in 1934, and one in 1935. The remaining five cruisers authorized by the act may not, under the terms of the treaty, be constructed with armament of 8-inch guns.

The estimates for 1932 provide additional funds necessary to carry forward work on the aircraft carrier and seven of the cruisers authorized by the act of February 13, 1929, and also the incompleted light cruisers and submarines being constructed under prior authorization.

AIR SERVICE

There is requested for the air services of the Army and Navy, including their civilian components, a total of $29,361,000 for the procurement of new airplanes, their engines, spare parts, and accessories. I am also asking a total of $277,000 for similar purposes for the Coast Guard, Department of Commerce, and the National Advisory Committee for Aeronautics. These two sums contemplate the procurement of a total of not less than 787 airplanes.

With regard to the Army the estimates make provision for the procurement of at least 392 planes, which will provide an approximate total of 1,582 planes on hand and on order on June 30, 1932, leaving a possible shortage of 66 planes in the authorized total of 1,648. This is only an estimated shortage and may be substantially reduced by June 30, 1932. The National Guard now has its full complement of 152 planes.

Concerning naval aviation the expansion program authorized by Congress provided for 1,000 planes and two rigid airships. The airplane program will be completed during the current fiscal year, so that

Federal Reserve Bank of St. Louis

provision is made in this Budget only for the procurement of replacement planes to the number of 277. The two rigid airships are now under contract and there is included in this Budget $1,675,000 for the completion of one and commencing the construction of the other.

In addition to the amounts which we are spending for the acquisition of aircraft we are also spending large sums for lighting and equipping airways, for the inspection and licensing of commercial planes and pilots, and furnishing weather reports necessary to the carrying on of aerial navigation. For these purposes $10,375,000 is included in the estimates of the Department of Commerce and $1,760,000 in the estimates of the Weather Bureau of the Department of Agriculture. It is estimated that by the end of the fiscal year 1932 there will be about 19,500 miles of airways lighted and equipped.

RIVERS AND HARBORS AND FLOOD CONTROL

The estimates herewith contain an increase of $5,000,000 for the maintenance and improvement of existing river and harbor works over the annual appropriation for the current fiscal year. In addition to this increase the estimates for 1932 show a further increase of $4,680,000 over the estimates for 1931 in the funds required to meet the requirements of rivers and harbors and flood control under authorizations of law covering permanent specific and indefinite appropriations, advances, and contributions. The total contained in this Budget for rivers and harbors and flood control is $108,553,000, of which $71,703,000 is for rivers and harbors and $36,850,000 for flood control.

PANAMA CANAL

The annual amounts now being appropriated for the Panama Canal are approximately $12,000,000, and the receipts from the canal flowing to the Federal Treasury are approximately $28,000,000, an excess of receipts over appropriations of $16,000,000 annually. There seems to be a feeling in some quarters that under these circumstances either the tolls of the Panama Canal should now be materially reduced or the expenditures on the canal increased, or both. However, from 1903 to 1930 the total expenditures for the canal in excess of the receipts for the same period, with interest on the net outlay computed at 3 per cent annually, produce a total capital liability at the close of the last fiscal year of about $535,000,000. The annual interest on this sum at 3 per cent is $16,050,000. It is evident, therefore, as the tolls are now meeting only operating expenses and interest on the investment, with no return of capital, any change in policy does not seem to be justified at the present time.

UNEXPENDED BALANCES

In the preparation of the estimates of appropriations contained in this Budget I have refrained (with the exception of one class of cases)

Digitized for FRASER

Federal Reserve Bank of St. Louis

from continuing the practice of recommending that the requirements for 1932 be met in part by a reappropriation, or extension of the availability, of unexpended balances of appropriations for the current or prior fiscal years. This practice effected an apparent reduction in the amount of an estimate of appropriation but it did not affect in any way the amount of money to be withdrawn from the Treasury, and was, to that extent, misleading. As no saving resulted from such a practice I felt that its discontinuance in framing the estimates for 1932 would result in having these estimates represent the true amount required and thus give a clearer and more accurate picture of actual requirements. The only cases in which the practice has been continued are those in which moneys appropriated for a specific nonrecurring project remain unexpended and it is necessary to continue the availability of the funds for the same purpose or purposes for which originally appropriated.

PAY OF FEDERAL EMPLOYEES

Under the classification act of 1923, as amended, and the application of that act to the field services by adjusting their rates of pay to correspond with those defined for the departmental service in the District of Columbia, there has developed through the years rather a wide difference among the several departments and establishments as to the relationship which the average of the existing salaries bears to the average of the compensation rates provided by law for the various grades of positions. In some instances the pay rolls show that the average has been approximately attained; in others that the grades are at least one step below the average, and in many cases two or more steps below the average. With a view to commencing the adjustment of this situation the estimates contained in this Budget carry for promotion purposes for each activity approximately 30 per cent of the amount required to bring all under-average grades up to the average. This will materially lessen the difference which now obtains between the many pay rolls and if the same principle is followed for the next two or three years will eliminate such difference. It is estimated that it will require approximately $14,440,000 to bring all under-average grades up to the average and the estimates contained in this Budget provide for approximately 30 per cent of this amount.

While the percentage has been arbitrarily chosen and might be modified without affecting the purpose of eliminating discrepancies between and within the departments and establishments, I believe any deviation from the general principle stated or any application of it to one department and not to another will defeat the purpose of providing "equal compensation for equal work," which was the expressed intent of Congress in enacting the classification act of 1923.

RECEIPTS AND EXPENDITURES FOR 1932

In preparing the detailed statements of receipts and expenditures contained in this Budget I have segregated trust funds from general funds and special funds. This has been done for the reason that trust funds do not belong to the Federal Government but to the beneficiaries of the trusts; and, in summarizing the financial condition of the Government, trust funds should therefore be excluded.

For the purpose of comparison with the estimates contained in the Budget for the fiscal year 1931, submitted last December, trust funds are included in the following summary of receipts and expenditures:

Summary of receipts and expenditures

[Exclusive of postal revenues and postal expenditures paid from postal revenues]

	1932	1931	1930
Total general fund receipts	$3,852,401,738.00	$3,611,634,871.00	$3,840,921,014.26

Excess of receipts	30,600,727.00	----------	183,789,214.90
Excess of expenditures	----------	180,076,657.00	----------

Since the Budget for 1931 was compiled before the segregation of funds was effected the estimates contained in that Budget do not show this segregation. In analyzing the differences between the present situation and that indicated in the Budget for 1931 it is therefore necessary to deal with totals including trust funds, although in the future it is contemplated to consider in such comparisons only general and special funds which represent true Government transactions.

Deficit	180,076,657.00			

1930

The fiscal year 1930 closed with an actual surplus of receipts over expenditures of $183,789,214.90 as against an estimated surplus as contained in the Budget for 1931 of $225,581,534. The latter figure, however, did not reflect the effect of the temporary reduction in income taxes recommended in that Budget and which it was estimated would exceed $80,000,000 during the fiscal year 1930. As a matter of fact, the actual receipts during the fiscal year 1930 were about $71,000,000 less than the estimate contained in the 1931 Budget. This was partially offset by a net reduction in expenditures of $29,500,000 below those estimated in the 1931 Budget. This net reduction consisted of various increases and decreases, including about $74,000,000 decrease in the reduction of the public debt on account of certain foreign interest payments being made in cash instead of in securities as had been anticipated.

1931

For the current fiscal year, 1931, there has been a material change in our financial situation as now estimated compared with the estimates presented a year ago in the 1931 Budget. At that time it was estimated that the receipts would total $4,225,727,666 and the expenditures $4,102,938,700, which forecasted a surplus of $122,788,966. Here again the surplus estimated did not reflect the effect of the temporary tax reduction recommended in that Budget which it was anticipated would cause a reduction of over $75,000,000 in the receipts for the fiscal year 1931. Therefore, with this adjustment the surplus estimated at this time last year would have been about $45,000,000.

Due to the depression it is now estimated that the income of the Government in taxes and in postal receipts for the current fiscal year will probably fall below the anticipation by over $430,000,000. Moreover, the measures taken to increase employment by the expansion of construction activities in the Government under the authorization of Congress, together with other items of increase, including the increase in veterans' services enacted by Congress,

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

represent a very material increase in Government expenditures of over $225,000,000.

This would indicate a change in the situation from the estimates of the last Budget of nearly $655,000,000. This large sum, however, is partially met by the application of $185,000,000 of interest payments on the foreign debt to current expenditures and by arrangements of the Federal Farm Board by which they reduced their net cash demands upon the Treasury by $100,000,000 during this period. These sums, together with economies brought about in the Government, reduce the practical effect of the change in the financial situation to a present estimated deficit of approximately $180,000,000 for the current fiscal year.

This development, of course, is primarily due to the depressed condition not only in this country but in the whole world, accentuated by the drought, and, on the other hand, to the necessary measures of the Government to increase employment, and the increases of allowances to various services to veterans.

I do not look with favor on any attempts to meet this deficit by reduction of the statutory redemption of the public debt, which now amounts to about $440,000,000 per annum. Nor do I look with great concern upon this moderate deficit for the current fiscal year, which, in fact, amounts to less than 5 per cent of the total Government expenditure. The adverse balance can be met by reducing the general fund balance from the amount in it at the beginning of the year, supplemented, if necessary, by temporary borrowing by the Treasury. When we recollect that our Budget has yielded large surpluses for the last 11 years, which have enabled us to retire the public debt, in addition to retirements required by law, to the extent of nearly $3,500,000,000, we can confidently look forward to the restoration of such surpluses with the general recovery of the economic situation, and thus the absorption of any temporary borrowing that may be necessary.

It will probably be necessary for Congress to appropriate additional money for expenditure within the present fiscal year in order to increase employment and to provide for the drought situation. I have presented this matter in my annual message on the state of the Union. While this will operate to increase the amount of the deficit as above estimated, I believe such increase can be accommodated by the methods indicated. On the other hand, no appropriations should be made for such purposes which look beyond such action as will ameliorate the immediate situation during the next six months.

TAXES

The estimate of receipts for 1932 is predicated on the existing income tax law. The Congress granted a substantial reduction in tax rates upon incomes of the calendar year 1929. I wish that it were possible to continue this reduction for the taxes upon incomes of

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

the calendar year 1930. I regret that the present outlook for heavy decrease in probable income and the necessity to increase public works and aid to employment does not warrant the continuation of the reduction at the present time. The difference in revenue between the tax rates upon incomes authorized for the calendar year 1929 by the joint resolution approved December 16, 1929, and the rates specified in the revenue act of 1928 is approximately $160,000,000. If our expected revenues for 1932 were reduced by this amount a deficit for 1932 as well as 1931 would now appear to be inevitable. I am confident that the sentiment of the people is in favor of a balanced Budget. I am equally confident that the influence on business of having the financial affairs of the Federal Government on a sound basis is of the utmost importance.

CONCLUSION

For the fiscal year 1932 the favorable margin between our estimated receipts and estimated expenditures is small. It will not take much to exhaust the expected surplus. In fact, it is inevitable that some portion, and perhaps a considerable portion, of it will be required to meet the settlement of judgments and claims and the cost of other contingencies or emergencies which can not now be foreseen. On the receipt side credit has been taken for all revenue that can reasonably be anticipated. In the expenditure statement there have been covered the amounts which reasonably can be estimated as necessary to meet the obligations of the Government under present law. This is not a time when we can afford to embark upon any new or enlarged ventures of Government. It will tax our every resource to expand in directions providing employment during the next few months upon already authorized projects. I realize that, naturally, there will be before the Congress this session many legislative matters involving additions to our estimated expenditures for 1932, and the plea of unemployment will be advanced as reasons for many new ventures, but no reasonable view of the outlook warrants such pleas as apply to expenditures in the 1932 Budget. I have full faith that in acting upon these matters the Congress will give due consideration to our financial outlook. I am satisfied that in the absence of further legislation imposing any considerable burden upon our 1932 finances we can close that year with a balanced Budget.

When we stop to consider that we are progressively amortizing our public debt, and that a balanced Budget is being presented for 1932, even after drastic writing down of expected revenue, I believe it will be agreed that our Government finances are in a sound condition.

HERBERT HOOVER.

UNITED STATES SENATE

The increase of $7,778 includes an increase of $7,728 for the per diem pay of 21 pages due to the increased number of days of the session during the fiscal year 1932, and $50 additional for contingent expenses.

HOUSE OF REPRESENTATIVES

The net increase of $5,544 includes an increase of $27,544 in the total for salaries of officers and employees and reductions of $18,000 on account of contingent expenses and $4,000 for additional expenses in 1931 for contested election cases not estimated for in 1932.

LEGISLATIVE MISCELLANEOUS

The estimate for 1932 is the same as the total for 1931.

ARCHITECT OF THE CAPITOL

The net increase of $1,284,664 includes increases of $6,040 for salaries in the office of the Architect of the Capitol, $11,140 for Capitol Building and repairs, $189,945 for improving the Capitol Grounds, $39,185 for maintenance of House Office Building, $2,300,000 for the House Office Building, $16,760 for the Capitol power plant, $42,875 for care of Library Building and Grounds, new items of $3,368,250 for completion of the Senate Office Building, $1,000,000 toward the construction of an annex to the Library of Congress, and $576,398 for construction of buildings for the Botanic Garden; which are offset in part by decreases of $13,084 for maintenance of Senate Office Building and $28,500 for furniture and for the Library of Congress and by items of $4,763,893 for enlarging the Capitol Grounds, $500,000 for approach to Senate Office Building, $365,425 for underground tunnels from the power plant, $10,000 for plans for additional building, Library of Congress, $5,000 for relocating the Bartholdi Fountain, $500,000 for reconstruction of the Senate wing of the Capitol and $78,244 for bookstacks in the Library Building, included in the 1931 total which do not recur in 1932 estimates.

BOTANIC GARDEN

The decrease of $543,050 includes $9,800 and $11,700 for additional heating systems and $523,030 for enlarging and relocating the Botanic Garden included in the 1931 total but not recurring in 1932 estimates. There is an increase of $2,022 for salaries.

LIBRARY OF CONGRESS

The decrease of $1,316,875 is due chiefly to the omission of $1,500,000 appropriated in 1931 for the Vollbehr collection. There is also a decrease of $1,900 for the custody and maintenance of the Library Building. There is an increase of $86,200 for salaries, $46,900 for printing and binding, $1,000 for contingent expenses, $7,275 for care and maintenance, and a new item of $50,000 for an index to the Federal statutes.

GOVERNMENT PRINTING OFFICE

The net increase of $1,019,520 includes a new item of $1,000,000 to begin construction of a new building and $26,000 for additional employees in the office of the Superintendent of Documents and to comply with the act of July 3, 1930, relating to salaries under the classification act of 1923.

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Alaska relief fund	$15,000			$15,000	$15,000		$15,000	

This is an indefinite appropriation of 10 per cent of the receipts collected outside of incorporated towns in Alaska. The funds are divided equally among the four district judges to be used in caring for indigent and incapacitated persons. On July 1, 1930, there was an unexpended balance of $12,278.03 to the credit of this fund for redistribution.

AMERICAN BATTLE MONUMENTS COMMISSION

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
American Battle Monuments Commission	$1,000,000			$1,000,000	$304,250		$304,250	−695,750

These appropriations are available until expended. The estimate for 1932 is for completing the construction of memorials upon the battle fields and in cemeteries in Europe in commemoration of the services of the American Expeditionary Forces, as authorized by the act of March 4, 1923.

ARLINGTON MEMORIAL BRIDGE COMMISSION

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Arlington Memorial Bridge Commission	$1,000,000			$1,000,000	$1,000,000		$1,000,000	

These appropriations are available until expended. The authorized appropriation, including the bridge and its approaches, is $14,750,000 of which $10,800,000 has already been appropriated.

BOARD OF MEDIATION

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Board of Mediation	$328,380		$1,080	$329,460	$318,545		$318,545	−$10,915

The estimates for 1932 include $360 for promotions. The decrease of $10,915 is due to reduction of rented office space, economies effected in personnel, and reduction in printing requirements.

BOARD OF TAX APPEALS

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Board of Tax Appeals	$650,000		$3,640	$653,640	$654,460		$654,460	+$820

There are increases of $3,640 for promotions and $7,250 for an increase in the force. There are decreases in miscellaneous expenses of $70, and printing and binding $10,000.

BUREAU OF EFFICIENCY

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Bureau of Efficiency	$224,330		$940	$225,270	$201,470		$201,470	−$23,800

The estimate for 1932 involves an increase of $1,200 for promotions and a decrease of $25,000, due to the transfer of personnel of that amount to the Personnel Classification Board.

CIVIL SERVICE COMMISSION

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Civil Service Commission	$1,542,952		$12,200	$1,555,152	$1,678,442		$1,678,442	+$123,290

The estimate for 1932 provides for increases of $125,320 for personnel, $19,600 for promotions, $4,000 for printing and binding, and for decreases of $5,000 in traveling expenses, $4,760 in contingent expenses, and $15,870 for personnel transferred to the Personnel Classification Board.

The large increase in personnel is due to the holding of character examinations for all law enforcement positions and to the expansions of governmental activities.

COMMISSION OF FINE ARTS

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Commission of Fine Arts	$9,080		$100	$9,180	$9,995		$9,995	+$815

There are increases for promotions, $600; for miscellaneous expenses, $175; for printing and binding, $40.

EMPLOYEES' COMPENSATION COMMISSION

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1923	1932 increase (+) over or decrease (−) under 1931 total

FEDERAL BOARD FOR VOCATIONAL EDUCATION

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Federal Board for Vocational Education	$9,400,400			$9,400,400	$10,087,260		$10,087,260	+$686,860

The estimate provides an increase of $500,000 for the promotion of vocational education in agriculture and home economics, and $197,000 for the rehabilitation of persons disabled in industry, to meet the requirements of the acts approved February 5, 1929, and June 9, 1930. There is a decrease of $10,140 in salaries and expenses.

FEDERAL FARM BOARD

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Agricultural marketing revolving fund					$100,000,000		$100,000,000	$100,000,000
Administrative expenses	$1,900,000			$1,900,000	1,900,000		1,900,000	
Total	1,900,000			1,900,000	101,900,000		101,900,000	+100,000,000

The appropriations for 1930 of $150,000,000 contained in the act approved June 18, 1929, and $100,000,000 contained in the first deficiency act, fiscal year 1930, approved March 26, 1930, together with repayments of loans made therefrom continue available as a revolving fund for further loans. While no additional appropriation for 1931 has been made it is anticipated that it will be necessary to submit a supplemental estimate of $150,000,000 to be made immediately available to meet obligations which, with the estimate of $100,000,000 for 1932 contained in the 1932 Budget, will make a grand total of $500,000,000, the amount authorized to be appropriated by the agricultural marketing act approved June 15, 1929.

FEDERAL OIL CONSERVATION BOARD

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Federal Oil Conservation Board	$17,220			$17,220	$20,000		$20,000	+$2,780

The increase is for miscellaneous expenses, travel, and for conferences on petroleum conservation.

FEDERAL POWER COMMISSION

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Salaries and expenses	$283,420		$580	$284,000	$256,495		$256,495	−$27,505
Printing and binding	4,500			4,500	4,500		4,500	
Payments to States	11,250			11,250	58,275		58,275	+47,025
Total	299,170		580	299,750	319,270		319,270	+19,520

The net increase in the Budget estimate for 1932 is occasioned by a reduction of $27,505 in the item of salaries and expenses and an increase of $47,025 in the item of payments to States. The reduction is principally due to the fact that certain funds were provided in 1931 upon the theory that the commission would be required to vacate its quarters in the Interior Department Building and procure others in a privately owned building, whereas it has since been arranged for the commission to remain in its present quarters. The increase in the item of payments to States is due to decisions of the Comptroller General of the United States holding that public-land States, in which are located power-development projects within the jurisdiction of the commission are entitled to participate in the fees collected to reimburse costs of administering the Federal water power act, as well as in fees collected solely for use of the public lands within their borders under licenses.

There are increases in personnel, of $223,240, involving an increase of force of 74; for miscellaneous expenses, $69,882; for printing and binding, $5,174, all incident to the increased activities of the commission required by the act of June 17, 1930.

UNITED STATES GEOGRAPHIC BOARD

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
United States Geographic Board	$15,760	----------	----------	$15,760	$9,538	----------	$9,538	−$6,222

An increase was given in 1931 for printing the decisions of the board in book form, none having been published for 10 years. The estimate for 1932 provides an increase of $60 for promotions.

UNITED STATES SHIPPING BOARD AND MERCHANT FLEET CORPORATION

Bureau or subdivision	Total appropriations, 1931	Unexpended balances reappropriated, 1931	Annual cost of act approved July 3, 1930, amending classification act of 1923	Total for 1931 (sum of columns 1, 2, and 3)	Estimates of appropriations, 1932	Unexpended balances recommended for reappropriation, 1932	Total for 1932	1932 increase (+) over or decrease (−) under 1931 total
Salaries and expenses	$384,000	----------	$2,760	$386,760	$394,000	----------	$394,000	+$7,240
Printing and binding	12,000	----------	----------	12,000	12,000	----------	12,000	----------
Shipping fund	5,950,000	$1,378,980	----------	7,328,980	4,000,000	----------	4,000,000	−3,328,980
Construction loan fund	----------	----------	----------	----------	35,000,000	----------	35,000,000	+35,000,000
Total	6,346,000	1,378,980	2,760	7,727,740	39,406,000	----------	39,406,000	+31,678,260

The net increase over 1931 involves a decrease in the shipping fund, or estimated operating deficit, of $1,950,000 due to sale of ship lines and to the change in the form of managing operators' agreements from a percentage basis on gross receipts to a flat rate fee basis, and a decrease of $1,378,980 in amounts reappropriated, consisting of one item of $980,220 for reconditioning and operating ships for carrying coal to foreign ports, and another item of $398,760 for research and experimental development in ship and machinery design, construction, and operation. The Budget for 1932 provides for the continuance of the availability of the unexpended balances of these sums, if any, through the fiscal year 1932. An increase under salaries and expenses of $7,240 is to provide for increases in salaries and for the further transfer of employees from the rolls of the Merchant Fleet Corporation to the classified roll of the Shipping Board. The estimate of $35,000,000 for the construction loan fund is a new item. Heretofore, the receipts from sales of ships or property and from other sources credited to this revolving fund have been sufficient to provide for all authorized loans for the construction of ships by private parties, but for 1932 it is estimated that, in addition to funds otherwise available, it will require a direct appropriation to the credit of this fund in order to provide for authorized loans through that fiscal year.

[1] Annual cost of section 4b of the act approved July 3, 1930, Public, No. 536, to fix the salaries of officers and employees of National Homes in accordance with the classification act of 1923, as amended.

The estimates for 1932 are predicated upon an average daily availability of 28,844 hospital beds as against 26,094 which formed the basis of the fiscal year 1931 appropriations. In arriving at the amounts of the estimates it has been assumed that 90 per cent of these beds will be occupied at all times.

The estimates for 1932 include:

$52,123,639 for salaries and expenses of administration, which is $5,862,119 in excess of the total amount for 1931 for the same purposes. The estimates include $88,320 for promotions in the departmental service; $737,560 for promotions in the field service; $281,120 for additional departmental personnel to act upon disability allowance claims under Public Act No. 522 of July 3, 1930, and increased insurance suits litigation; $4,699,210 for additional field personnel in new hospitals, and in regional offices to administer Public Act No. 522 of July 3, 1930; and $55,909 for miscellaneous purposes.

$43,868,347 for medical and hospital services, which is $8,268,347 more than the appropriation for 1931 for these services. This additional amount is to provide for an estimated increase of 929,324 patient days in Veterans' Bureau hospitals; an increase of $1,572,200 for the care of Veterans' Bureau patients in other Government hospitals; an increase of $1,300,000, from $3,500,000 to $4,800,000, to alter, repair, and improve existing hospital facilities; an increase of $1,043,000 for equipment, and an increase of $2,120,700 for travel of beneficiaries.

$157,000 for printing and binding, which is an increase of $32,000 for the printing required for the National Homes and the Pension Bureau.

$267,327,025 for military and naval compensation, which is $71,298,525 more than the appropriation for 1931. This increase is for the payment of disability allowances under the provisions of the act approved July 3, 1930, Public, No. 522; for the pay of 770 more retired emergency officers than contemplated in the 1931 appropriation at an additional cost of approximately $1,125,000, and for the payment of increased number of awards for death and disability compensation under the World War veterans' act.

$112,000,000 for the adjusted-service certificate fund. This is the same as the amount appropriated for the fiscal year 1931.

$121,500,000 for military and naval insurance, which is $1,500,000 more than the appropriation for 1931. This additional amount is required for installment payments, payments resulting from loss of suits under section 19 of the World War veterans' act, payments of the commuted value in one sum under section 303 of the World War veterans' act, and transfers to the Government life-insurance fund under section 302 of the World War veterans' act.

$7,950,000 for hospital facilities and services, which is $5,950,000 more than the appropriation for 1931. Appropriation of the amount of the estimate will complete the appropriation of $15,950,000 authorized in the act approved December 23, 1929, to provide additional hospital facilities.

$79,427,146 for the Government life-insurance trust fund. This amount represents the losses, loans, and investments of receipts in the fiscal year 1932 and is $897,146 more than the amount included in the 1931 Budget for similar purposes.

PENSION BUREAU

The 1932 estimates include:

$222,000,000 for Civil War and Spanish-American War pensions, and is $9,500,000 in excess of the amount appropriated for this purpose in 1931. It is estimated $20,000,000 additional will be required in 1932 for pension payments at the increased rates established by the acts of

June 2, 1930, and June 9, 1930, and that this amount will be partially offset by a normal decrease of $10,500,000 in 1932.

$1,307,585 for salaries in the Bureau of Pensions, which is $22,895 less than the appropriation for 1931, notwithstanding $22,920 included in the 1932 estimates for promotions. This reduction is made possible by the consolidation of veterans' activities.

$148,500 for the investigation of pension cases, which is $1,500 less than the appropriation for 1931.

$300,000 for fees of examining surgeons, which is $2,000 more than the appropriation for 1931.

$103,740 for salaries and expenses, employees' retirement act, which is $6,900 less than the appropriation for 1931, notwithstanding $1,080 included in the 1932 estimate for promotions.

$20,850,000 for financing the civil-service retirement and disability fund. This is the same amount as the 1931 appropriation.

NATIONAL HOMES BUREAU

The estimates for 1932 are predicated upon an average daily membership of 24,350 as against the 1931 appropriation basis of 20,000, and include:

$13,226,776 for administration and operation of the homes, which is $2,214,246 more than the total amount for the same purposes in 1931. It is estimated this will be required to provide for the increase in population. $558,220 of the increase is for additional personnel.

$600,000 for aid to State or Territorial homes, which is $40,000 more than the appropriation for 1931.

$3,400,000 to establish new branch homes in one of the Northwest Pacific States, in one of the Southern States, and for additional construction at the Mountain Branch, Johnson City, Tenn., and the Eastern Branch, Togus, Me., as authorized by Congress. No 1931 appropriation was made for similar purposes.

While the estimates of the Department of Agriculture for the fiscal year 1932 show a net increase of $51,098,639, over comparable figures for 1931, the actual increase is $56,741,927. The difference between the net and actual increase is due almost entirely to the omission from the 1932 estimates of nonrecurring items. The principal nonrecurring items are road flood relief in the States of Georgia and South Carolina, $1,311,628, construction of the Mount Vernon Highway, $2,000,000, and eradication of the Mediterranean fruit fly, $1,740,000. The actual increase includes $51,500,000 for the construction of roads, $1,300,000 for agricultural research work, $700,000 for completing the construction of a forest-products laboratory at Madison, Wis., $1,970,000 for service work for the general public, $800,000 for enforcement of regulatory laws, $400,000 for protecting the national forests from fire, and $70,000 for extension work. The principal increases and decreases by bureaus and offices are as follows:

OFFICE OF THE SECRETARY

The principal increase in the office of the Secretary is $47,320 for additional personnel. Of this amount $40,240 represents the transfer of employees now detailed from various bureaus to the office of the Secretary with a corresponding decrease of $21,320 in bureau appropriations and $7,080 for new positions. In the mechanical shops and power plant there is an increase of $22,500 for additional personnel required to change the electrical wiring from direct to alternating current and to repair and maintain various buildings in the vicinity of the Department of Agriculture recently acquired by the Government. In the item for miscellaneous expenses of the department there is an increase of $135,800 of which $60,000 is for repairing and reconstructing the elevators in the east and west wings of the departmental building, $27,600 for supplies and materials needed to effect the change from direct to alternating current, $16,000 to cover the cost of moving into the departmental building now under construction, $15,000 for window blinds, $14,200 for additional fuel and electricity, and $3,000 for an additional automobile. There is a decrease in the 1932 estimates of $40,000 due to the fact that the 1931 appropriation provided that amount for reroofing the east and west wings of the departmental building. This item has been omitted from the 1932 estimates. There is also a decrease of $30,000 in the item for rent of buildings due to the probability of certain units of the department now occupying rented quarters moving into the building now under construction.

OFFICE OF INFORMATION

The principal increases in this unit are $10,160 for additional personnel required to take care of increased work and $58,000 for increased printing and binding.

LIBRARY, DEPARTMENT OF AGRICULTURE

The increase in the estimate for 1932 for the library includes $3,060 for additional personnel, $1,000 for books and periodicals, and $2,000 for furniture and fixtures.

OFFICE OF EXPERIMENT STATIONS

The principal increases in the office of experiment stations include $15,000 for extending the benefits of the Hatch Act, establishing State agricultural experiment stations, and the Smith-Lever extension service act to the Territory of Alaska, $4,020 for additional personnel and expenses for administration of the acts providing for State agricultural experiment stations, $4,800 for additional personnel at the Porto Rico insular agricultural experiment station. There is a decrease of $25,000 in the 1932 estimate for the insular agricultural experiment station in Alaska, due to extending the provisions of the Hatch Act and the Smith-Lever Act to the Territory and also to the completion of a building program and to the proposed abandonment of one or more of the present Territorial experiment stations. There is also a reduction of $2,000 in the 1932 estimate for the insular agricultural experiment station at Hawaii, due to extending the benefits of the State agricultural experiment station acts to that Territory.

OFFICE OF EXTENSION SERVICE

The increases in the 1932 estimate of the Extension Service include $22,000 for making talking motion pictures which would describe various phases of work relating to agriculture, $9,340 additional for making suitable agricultural exhibits at State, interstate, and international fairs held within the United States and $2,000 additional for cooperation with State officials in assisting owners of farms in timber production.

WEATHER BUREAU

For the Weather Bureau the principal increases in the estimates for 1932 include $30,000 for replacement of a weather bureau building on Tatoosh Island, State of Washington, $7,000 additional for forest fire weather service, $5,000 additional for river and flood service, $4,000 additional for vessel weather reporting service, $10,000 additional for extending the fruit-frost service, $350,000 for extending the present weather service now rendered to aviation in accordance with the air commerce act of 1926, and $40,380 for salary promotions.

BUREAU OF ANIMAL INDUSTRY

The principal increases in the 1932 estimates for the Bureau of Animal Industry include $310,000 additional for the eradication of tuberculosis in cattle, $25,000 for extending investigations relating to poultry, $22,000 for additional studies concerning beef cattle, $3,000 additional for investigations relating to swine, $25,000 for studies relating to hemorrhagic septicemia of cattle, $10,000 for pathological investigation of infectious bronchitis of poultry, $23,400 for development of 55 acres of land on the United States Department of Agriculture experiment station at Beltsville, Md., including the purchase of equipment, supplies, animals, and feed and the erection of small barns and shelters for the study of animal parasites, $15,300 additional to combat an outbreak of dourine on the San Carlos and Shoshone Indian Reservations, and $137,590 for salary promotions. Due to personnel transfers to the office of the Secretary, the item for enforcement of the packers and stockyards act shows a decrease of $15,000. Other decreases due to nonrecurring items aggregate $35,600.

BUREAU OF DAIRY INDUSTRY

For the fiscal year 1932 the estimate of the Bureau of Dairy Industry for conducting investigations, experiments, and demonstrations in dairy industry has been consolidated with the items previously appropriated for under the headings, "Field Station, Woodward, Okla.,"

"Dairy and Livestock Experiment Station, Tennessee," and that part of the appropriation for "Agricultural Investigations in Cooperation with the South Carolina Experiment Station" expended by the Bureau of Dairy Industry. The principal increases include $25,000 for beginning the construction of a nutrition laboratory and $15,975 for the purchase of additional land at Beltsville, Md., $10,000 additional for dairy-cattle breeding, feeding and management investigations, $15,000 for other dairy industry projects, and $2,660 for salary promotions. Decreases in the 1932 estimates due to nonrecurring items aggregate, $23,600.

BUREAU OF PLANT INDUSTRY

The principal increases in the 1932 estimates of the Bureau of Plant Industry include $15,000 additional for forest pathology investigations, $34,000 additional for cotton production and disease investigations, $15,000 additional for cereal investigations, $10,000 additional for tobacco investigations, $5,720 additional for weed investigations, $3,720 additional for irrigation agricultural investigations, $99,990 additional for horticultural crops and diseases investigations, $7,680 additional for foreign seed and plant introduction projects, $30,000 additional for forage crops investigations in areas infested with the European corn borer, and $16,560 for salary promotions. The progress made in the work of eradicating citrus canker indicated that a decrease of $5,000 could be made in the estimate for that work.

FOREST SERVICE

The principal increases in the Forest Service estimates for 1932 include $6,000 for additional personnel and expenses in administering forest-fire control work, $167,000 additional for forest-fire prevention, $15,000 additional for administering commercial timber sales, $10,000 additional for eradicating tree diseases and for controlling insect epidemics, $10,000 for administration and protection of new forest units, $5,000 additional for general surveys and maps, $6,300 additional for land classification, $10,000 additional for construction and maintenance of sanitary facilities, $24,680 additional for tree planting on the national forests, thereby bringing the total of the 1932 estimates to the amount authorized for this purpose by the act of June 9, 1930, $10,000 additional for estimating and appraising timber and other resources on the national forests preliminary to disposal by sale, $100,000 additional for fire-protection improvements on the national forests, $150,000 additional for fire-protection roads and trails, $20,000 additional for range improvements, $10,000 additional for administration improvements on the national forests, $52,660 additional for forest-management investigations, $34,240 additional for range investigations, $33,700 additional for investigations at the forest-products laboratory, $700,000 additional to complete the construction of the forest-products laboratory building at Madison, Wis., $74,900 additional for a comprehensive forest survey, $25,000 additional for investigations in forest economies, and $74,680 additional for forest-fire cooperation. There is a decrease of $25,000 in the 1932 estimates due to the omission of a nonrecurring item for a memorial to Theodore Roosevelt.

BUREAU OF CHEMISTRY AND SOILS

The principal increases in the 1932 estimates of the Bureau of Chemistry and Soils include $13,531 additional for agricultural chemistry investigations, $5,000 additional for color investigations, $10,000 additional for insecticide and fungicide investigations, $26,740 additional for fertilizer investigations, $15,000 additional for soil-survey investigations, $15,124 additional for soil-fertility investigations, and $15,240 for salary promotions. The estimates for 1932 also include $30,000 for research work in areas infested with the European corn borer previously paid from an unexpended balance of an appropriation made for the eradication of the corn borer.

BUREAU OF ENTOMOLOGY

The principal increases in the 1932 estimates of the Bureau of Entomology include $80,000 for investigations relating to the oriental fruit moth, $8,000 additional for investigations of the parlatoria date scale, $24,000 additional for investigations of insects affecting truck crops, $20,000 additional for investigations of insects affecting forests, $38,000 for investigations of insects affecting cereal and forage crops, $28,440 additional for investigations of insects affecting man and animals, $35,000 additional for investigations of insects affecting stored products, including tobacco, and $15,020 additional for taxonomy and interrelations of insects.

BUREAU OF BIOLOGICAL SURVEY

The principal increases in the 1932 estimates of the Bureau of Biological Survey include $5,176 for additional personnel for administrative purposes, $12,000 additional for maintenance of mammal and bird reservations, $7,540 additional for investigation of the food habits of predatory animals, $11,650 for rodent control operations in the Eastern States, $5,000 for extending investigations relating to fur-bearing animals, $10,000 for research in forest wild life, $36,745 for the more adequate enforcement of the migratory bird treaty act, $10,590 additional for enforcement of the Alaska game law, $200,000 additional for carrying into effect the provisions of the migratory bird conservation act of February 18, 1929, $150,000 additional for acquisition of land known as the Cheyenne Bottoms, in Barton County, Kans., under the act of June 12, 1930, and $4,260 for salary promotions.

BUREAU OF PUBLIC ROADS

The estimate for operating expenses for the Bureau of Public Roads for 1932 shows a reduction of $424,500 due to a proposal to establish a new bureau in the Department of Agriculture to be known as the bureau of agricultural engineering. To establish such a bureau it is proposed to transfer to the new unit all of the work which has been carried on by the division of rural engineering of the Bureau of Public Roads, together with $30,000 for administrative purposes, $394,500, the amount which had been appropriated for rural engineering work, and $65,000 appropriated for investigations in cotton ginning.

BUREAU OF AGRICULTURAL ENGINEERING

This is a new bureau which it is proposed to establish in the Department of Agriculture July 1, 1930. The estimate for this bureau for the fiscal year 1932 is made up of $30,000 for administrative expenses, $394,500 for investigations in rural engineering, and $65,000 for investigations in cotton ginning transferred from the Bureau of Public Roads, together with an increase of $94,340 for extending the work now carried on by the division of rural engineering of the Bureau of Public Roads.

BUREAU OF AGRICULTURAL ECONOMICS

The principal increases in the estimates for the fiscal year 1932 for the Bureau of Agricultural Economics include $8,000 additional for farm taxation studies, $7,000 additional for farm valuation studies, $10,000 for expansion of studies on trends of prices, production, and consumption of farm products, $7,500 additional for grading livestock at country points, $10,000 for expansion of the agricultural outlook program, $232,716 for expansion of the agricultural foreign marketing service under the act of June 5, 1930, $20,000 for expansion of the market inspection of perishable foods, $35,000 for expansion of the market news service, $300,000 additional to carry out the provisions of the "Perishable agricultural commodities act, 1930," approved June 10, 1930, $10,000 additional for enforcement of the United States grain standards act, $55,000 additional for administration of the United States warehouse act, and $43,520 for salary promotions. The principal decrease in the estimates is $75,000 for the operation of the Center Market, Washington, D. C., which will be closed on December 31, 1930, to permit building operations on the site now occupied by the market.

BUREAU OF HOME ECONOMICS

The principal increases in the estimates for the Bureau of Home Economics for the fiscal year 1932 include $7,500 for initiating studies in institutional cookery, $10,000 additional for standards and cost of living studies, $10,000 additional for cotton utilization studies, and $11,500 additional for food and wool utilization and nutrition studies.

PLANT QUARANTINE AND CONTROL ADMINISTRATION

The principal increases in the estimates for the Plant Quarantine and Control Administration for the fiscal year 1932 include $64,480 additional for enforcement of the plant quarantine act, $9,660 additional for preventing the spread of the Mexican fruit worm, and $22,920 for salary promotions. The principal decreases are $1,740,000, eradication of the Mediterranean fruit fly for which funds were not requested for 1932, $50,590 for control of the European corn borer, and $30,000 for control of the Japanese beetle.

ENFORCEMENT OF THE GRAIN FUTURES ACT

The estimate for enforcement of the grain futures act for 1932 provides an increase of $25,000 for establishing additional offices where trading in grain futures will be authorized and for additional personnel.

FOOD AND DRUG ADMINISTRATION

The principal increases in the estimates of the Food and Drug Administration for the fiscal year 1932 include $181,970 additional for enforcement of the food and drug act and $12,420 for salary promotions.

FOREST ROADS AND TRAILS AND THE FEDERAL HIGHWAY SYSTEM

The estimates for 1932 provide $1,500,000 additional for the construction of forest roads and trails and $50,000,000 additional for the construction of roads in the Federal-aid highway system, both increases being due to increased authorizations for these roads under the acts of May 5 and April 4, 1930, respectively.

MISCELLANEOUS

There is an increase in the 1932 estimates of $34,680 for collection of seed-grain loans and $70,000 additional for soil erosion investigations. The principal items of decrease are $2,000,000 for constructing the Mount Vernon Memorial Highway and $1,311,628 road flood relief for the States of Georgia and South Carolina, nonrecurring items in 1932.

Items for construction, purchase of land and equipment, and investigation of potash deposits, aggregating $1,798,224, nonrecurring in 1932, and a $2,230,220 decreased requirement of the Census Bureau in 1932, convert the above indicated decrease of 1932 estimates under 1931 total appropriations into an increase of $3,797,888 for 1932.

OFFICE OF THE SECRETARY

The apparent decrease of $198,935 in the appropriations for the office of the Secretary becomes an actual increase of $96,160 for 1932 over 1931 in the light of nonrecurring needs for rent, furniture, and special personnel. This will provide $780 for administrative promotions and $8,380 for additional clerical positions. An increase of $105,000 is also included for printing and binding, from $645,000 to $750,000, to meet a requirement of $35,000 formerly carried in the Bureau of the Census appropriation in connection with a survey of current business, and other normally increasing printing needs to the amount of $70,000. The contingent expense appropriation of $500,000 for 1931 includes $202,500 for furniture and equipment nonrecurring in 1932 and a $35,000 allotment to the Patent Office to be carried under that office in 1932. The estimate, therefore, of $280,000 for 1932 results in an increase of $17,500 for supplies and travel expense.

RADIO DIVISION

An increase of $177,628 for the Radio Division, from $502,372 to $680,000, will provide $3,300 for administrative promotions and $106,400 for additional personnel, leaving the remaining increase for supplies and equipment.

AERONAUTICS BRANCH

For aeronautics the estimate submitted is $1,161,890 in excess of the $9,213,110 total for 1931. This includes $32,700 for administrative promotions; and for additional personnel, $80,280 to meet increased requirements in inspection and licensing of aircraft, pilots, and mechanics, and $651,700 in the maintenance and operation of greatly extended airway facilities. The estimate is based upon 17,500 miles of lighted airways to be in operation by June 30 next and contemplates the extension of 2,000 additional miles and a still further use of the teletype system of weather reporting. There is also included $97,000 for replacement of 9 of the 35 planes now used in the service and the purchase of 3 additional ones.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE

The Bureau of Foreign and Domestic Commerce is increased from $5,106,295 to $5,401,400, or a total of $295,105. This will permit an increase of $150,436 for growth in the activities especially concerned with foreign trade, $118,866 for promotion of domestic commerce, and $25,267 for strengthening district offices. Included in the increases listed are administrative promotions in the amount of $28,920.

BUREAU OF THE CENSUS

The estimate of $6,271,000 will complete the appropriations authorized for the Fifteenth Decennial Census.

STEAMBOAT INSPECTION SERVICE

An increase of $39,185 is requested for the Steamboat Inspection Service, permitting administrative promotions of $17,040; necessary additional personnel in the Office of the Supervising Inspector General amounting to $8,520; $11,600 for 4 additional assistant inspectors at New York; and $2,025 for increased contingent requirements.

BUREAU OF NAVIGATION

In the increase of $103,440 for the Bureau of Navigation are included $65,000 for a new inspection vessel, and for its operation $11,820 for officers and crew and $12,500 for other expenses. Also provided in the increase are $2,880 for promotions and $10,700 for additional personnel in the Shipping Service.

BUREAU OF STANDARDS

Included in the 1931 appropriations for the Bureau of Standards are $400,000 for additional land, $350,000 for a hydraulic laboratory, $75,000 for remodeling the north building, $40,000 for a new track scale car, and $5,000 for special work on the grounds. With these in mind the decrease of $611,701 for 1932 shown above becomes an increase of $258,299 allowed for the expanding needs of the bureau. There are provided $125,000 for the installation of a refrigerating system, an addition to the dynamometer building, and renovation of the laboratories; $104,583 for additional personnel; $14,700 for promotions; and $14,000 for various contingent expenses. These increases are distributed over several appropriation items of testing, research, and standardization and provide $37,000 for operating personnel and facilities of the new hydraulic laboratory.

LIGHTHOUSE SERVICE

The increased allowance of $676,450 for the Lighthouse Service is distributed as follows: $54,600 is provided for promotions, principally in the field, $10,570 for additional bureau personnel, $24,000 for increased complements of vessels, and $5,760 for additional field clerks; general expenses, the regular maintenance appropriation, is increased by $49,520, making the total estimate $4,550,000; retired pay requires $56,000 more to meet obligations gradually increasing under this appropriation; and the item of public works, involving the construction of vessels and other aids to navigation, is increased by $476,000. The total estimate of $1,900,000 for construction will provide $700,000 for two new lightships, $280,000 for reconditioning four others, and will permit the following program for other aids: $361,900 to complete 12 projects upon which work is now in progress; $132,175 to continue work upon 4 more; $216,925 to begin work upon 6; and $209,000 to begin and complete within that amount the construction of 11 projects.

COAST AND GEODETIC SURVEY

For the Coast and Geodetic Survey an increase of $67,787 is given, which amount is further actually increased by $106,500 included in 1931 for completion of a survey vessel and $9,190 for equipment and repairs, that are not recurring in 1932. The appropriations of

the service are, therefore, increased in a total amount of $183,477 distributed principally as follows: Pacific coast survey, from $300,000 to $315,660, for inshore work and revision surveys; magnetic work, from a basic appropriation of $49,890 to $80,000, for a more extended study of earthquakes; repairs of vessels, from $91,000 to $143,000, to care for extraordinary repairs on three survey vessels; pay and allowances of commissioned officers, from $627,820 to $665,371, of which $21,616 is for automatic promotions and $15,935 for additional personnel for ship complements; and office salaries, from $512,620 to $560,000, of which $2,580 is for administrative promotions and $44,200 for additional personnel to meet the increasing work of the bureau.

BUREAU OF FISHERIES

The increase of $277,144 shown for the Bureau of Fisheries is in effect an increase of $386,144 due to the inclusion in the 1931 appropriations of $65,000 for a by-products plant on the Pribilof Islands, and $44,000 for repair and improvement of three fish-cultural stations, that need not be provided in 1932. This increase, which includes promotions amounting to $7,040, is distributed in the main as follows: Salaries, office of the Commissioner, $5,240; propagation of food fishes, $79,080, of which $11,690 is for additional personnel and the balance for increased general expenses due to expansion of fish-cultural operations; inquiry respecting food fishes, $58,660, of which $30,200 is for additional personnel and the remainder for other expenditures incident to the 5-year extension program; fishery industries, $29,020, involving increase of personnel in the amount of $11,940 and other expenses of the expansion program; protecting seal and salmon fisheries of Alaska, $15,240 for equipment tiems necessary to the work; construction of stations, $183,500, from $265,000 to $448,500, conforming in the main to the requirements of the act of May 21, 1930. The enforcement of the black bass law is a new activity for which an estimate of $15,000 is submitted.

PATENT OFFICE

The estimate for the Patent Office is an increase of $364,820, from $4,889,930 to $5,254,750, adding $10,870 for additional clerical personnel, $48,000 for promotions, $4,780 for contingent expenses, $50,000 for photolithographing, $168,970 for furniture and filing cases to complete the replacement of the old wooden cases for filing copies of patents, and $50,000 for printing and binding. These increases are required to meet the steadily growing work of the Patent Office.

BUREAU OF MINES

The available total of $2,667,534 for the Bureau of Mines for 1931 includes $315,534 in the appropriation for the helium work at Amarillo, Tex., that will not be required in 1932; $100,000 for investigation of potash deposits, now discontinued; and $8,000 for rebuilding at the Bruceton, Pa., experimental mine. Excluding these nonrecurring items, the estimate of $2,314,385 for the fiscal year 1932 gives an increase of $70,385, of which $26,430 is added to the appropriation, operating mine rescue cars and stations, for enlargement of the safety station at Jellicoe, Tenn., and for other safety work in coal and metal mining; economics of mineral industries is also given an increase of $38,420 for the expansion of the activities in common metals and for investigating economic relations of silver to other metals. Involved also in the increase for the bureau is $11,400 allowed for administrative promotions.

The net decrease of $79,320 represents approximately the amount of 1931 appropriations transferred to the Veterans' Administration by reason of the transfer thereto of the activities of the Bureau of Pensions.

GENERAL LAND OFFICE

The net increase of $128,050 includes $50,870 for administrative salaries and expenses, and $88,380 for surveying and protecting the public domain, and involves a decrease of $11,200 in the estimates for permanent and indefinite appropriations.

BUREAU OF INDIAN AFFAIRS

The net decrease of $3,611,518 is occasioned largely by a reduction of over $5,000,000 in the estimated expenditures from permanent and indefinite appropriations and Indian trust funds, of $322,459 for Indian lands, and of $22,000 for roads, bridges, and monuments. Increases are provided, however, of $85,620 for the general expenses of the Indian Service, $320,340 for industrial assistance and advancement, $124,415 for irrigation and water supply, $677,416 for education, $460,154 for conservation of health, and $68,475 for general support of Indians and administration of Indian property.

BUREAU OF RECLAMATION

The net increase of $2,938,126 represents the difference between $23,738,874, the total amount appropriated and reappropriated for 1931, and $26,677,000, the total of the items to be appropriated and reappropriated in the estimates for 1932. The 1931 total includes direct appropriations of $19,721,000 (including $10,660,000 for the Boulder Canyon project), reappropriated balances of prior year appropriations amounting to $4,009,494, and $8,380 for salary increases under the amended classification act. The total for 1932 includes estimates for direct appropriations of $24,146,000 (including $17,000,000 for the Boulder Canyon project), and for the reappropriation of $2,531,000 of prior year appropriations. In order to compare the amount available for expenditure in 1932 with the amount available for expenditure in 1931 there should be added to the appropriated and reappropriated amount of $23,738,874 for 1931 power revenues in the amount of $365,000 and funds advanced by water users in the amount of $823,800, and to the estimate of $26,677,000 of appropriations and reappropriations for 1932 power revenues in the amount of $300,000 and unds advanced by water users in the amount of $672,700. There would thus be available for expenditure by the Bureau of Reclamation in 1931 a total sum of $24,927,674, and for 1932 a total sum of $27,649,700.

GEOLOGICAL SURVEY

The net increase of $274,480 includes $8,760 for administrative salaries, $82,380 for printing reports and engraving maps, $14,000 for volcanologic surveys, $9,700 for mineral resources investigations in Alaska, $185,640 for gauging streams, $19,520 for classification of lands, and $24,700 for enforcement of the mineral leasing acts. A decrease of $65,440 appears in the estimate of $790,000 for topographic mapping, which estimate carries an authorization of $543,000 for topographic mapping in cooperation with the States.

NATIONAL PARK SERVICE

The net decrease of $1,911,568 is accounted for as follows: A decrease of $1,825,000 for purchase of lands, a decrease of $134,338 for administration, protection, and improvement of the various national parks and monuments, and an increase of $47,770 for administrative salaries and expenses. The estimate of $5,000,000 for the construction of roads and trails is in the same amount as the 1931 appropriation for those purposes.

OFFICE OF EDUCATION

The net increase of $226,977 will provide additional amounts of $19,020 for administrative personnel and expenses, $30,000 for investigation of teacher training, $50,000 for investigation of school finance, $79,240 for education of natives in Alaska (including $29,000 for completion of buildings for the new industrial school in southeastern Alaska), and $50,439 for medical relief in Alaska.

GOVERNMENT IN THE TERRITORIES

The net decrease of $43,500 in the estimates for the Territorial governments of Alaska and Hawaii is mainly due to the fact that the Territorial legislatures will not meet in biennial session during the fiscal year 1932. The estimate to supply the deficit in operating expenses of the Alaska Railroad continues at $1,000,000, the amount of the appropriation for 1931.

ST. ELIZABETHS HOSPITAL

The net increase of $1,304,252 is due chiefly to an increase of $124,252 for a larger number of inmates and to an increase of $1,155,000 for new building construction in 1932. The estimates provide $750,000 for completing the male receiving building and $825,000 for the construction and equipment of two continuous treatment buildings, with dining hall and kitchen.

COLUMBIA INSTITUTION FOR THE DEAF

The estimate of $125,000 for the Columbia Institution for the Deaf is in the same amount as the appropriation for 1931.

HOWARD UNIVERSITY

The net decrease of $89,000 is due to an increase of $165,000 for salaries and expenses, and a decrease of $254,000 for new building construction. The estimates include $260,000 for completing the educational classroom building, and $225,000 for reconstructing and improving the underground system for distributing heat, light, and power.

FREEDMEN'S HOSPITAL

The net decrease of $228,190 is due to the proposed discontinuance in 1932 of the method previously followed of providing the entire appropriation for the hospital in the Interior Department appropriation act, with a provision making one-half of the appropriation a charge upon the revenues of the District of Columbia. The estimate for 1932 provides for the inclusion in the Interior Department appropriation bill of the amount of $196,030, which represents one half of the hospital's requirements, the remaining half being incorporated in the estimates for the District of Columbia.

OFFICE OF THE ATTORNEY GENERAL

The estimate for salaries, Department of Justice, is increased from $1,267,640 to $1,292,260, which includes $93,200 for new legal and clerical personnel and $10,140 for administrative promotions while $78,720 is transferred to the estimate for examination of judicial offices to cover the salaries of personnel employed in the office of the general agent from which latter appropriation all other employees in that office are now being paid, making a net increase in the estimate for salaries, Department of Justice, of $24,620.

Other estimates for the office of the Attorney General containing increases are those for books, contingent expenses, rent of buildings, printing and binding, and traveling and miscellaneous expenses. The principal increases are in contingent expenses, consisting of $6,600 for supplies and materials, $2,000 for communication service, and $13,250 for furniture and office machines, and in printing and binding, which includes $30,000 for the Bureau of Prohibition, $6,000 for the publication of a monthly bulletin of uniform crime reports, and an increase of $13,000 in the printing for the courts on account of an expansion of judicial activity.

BUREAU OF PRISONS

The estimate for salaries and expenses, Bureau of Prisons, formerly the office of the Superintendent of Prisons, is increased from $205,538 to $247,178, which increase includes $33,040 for new personnel, $3,600 for administrative promotions, and $5,000 for travel expenses. There is included in this estimate the salaries and travel expenses of the board of parole created by the act of May 13, 1930.

BUREAU OF PROHIBITION

There appears in the Budget for 1932 for the first time an estimate for the Bureau of Prohibition in the Department of Justice. Under authority contained in the act entitled "An act to transfer to the Attorney General certain functions in the administration of the National Prohibition Act, to create a Bureau of Prohibition in the Department of Justice, and for other purposes," approved May 27, 1930, there were transferred from appropriations under the Treasury Department to the Department of Justice for the use of this bureau during the fiscal year 1931, $9,000,000 for salaries and expenses, $19,800 for stationery, and $19,000 for printing and binding. The estimate for salaries and expenses, Bureau of Prohibition, for 1932, amounts to $11,530,680, the principal items of increase being $21,329 for departmental personnel, $1,614,260 for field personnel, $147,180 for administrative promotions, $356,581 for travel expenses, $56,300 for supplies and materials, $56,200 for repairs and alterations, $85,200 for special and miscellaneous current expenses, and $65,000 for equipment. This estimate covers all expenses of the Bureau of Prohibition, with the exception of the printing, which is included in the estimate for printing and binding, Department of Justice and courts.

MISCELLANEOUS OBJECTS

An increase from $2,798,659 to $3,000,000 is recommended in the estimate for detection and prosecution of crimes, due to additional demands made upon the bureau of investigation for investigative work and the rapid growth of the division of identification and information. The increase consists of $70,460 for new departmental personnel, of which $12,680 is for the executive office of the bureau and $57,780 for the division of identification and information, $69,600 for new field personnel, $21,480 for administrative promotions, and $39,801 for expenses, of which $28,851 is for travel and the remainder for supplies, communication service, and equipment.

The estimate for examination of judicial offices is increased from $170,000 to $262,140, and includes $78,720 transferred to this estimate from salaries, Department of Justice, to cover the salaries of personnel employed in the office of the general agent, $6,500 for new departmental personnel, $1,800 for administrative promotions, and $5,120 additional for travel expenses.

JUDICIAL

The estimate for salaries of circuit, district, and retired judges is increased from $2,099,000 to $2,184,000. This increase includes two additional circuit and two additional district judgeships created at the last session of Congress, the salaries of the four district judges in Alaska now being paid from salaries, judges, marshals, etc., Territory of Alaska, and the salaries of a retired general appraiser and two retired judges now being paid from salaries and expenses, United States Customs Court, while there is a decrease in the pay roll of retired judges.

The United States Customs Court was transferred from the Treasury Department to the Department of Justice by the tariff act of 1930, approved June 17, 1930, and there was also transferred from the appropriation "Collecting the revenue from customs, Treasury Department," to the Department of Justice, for the fiscal year 1931, an amount of $252,000 for the salaries and expenses of the court. Two estimates are recommended for 1932, one for salaries and expenses amounting to $268,550 and another for printing and binding of $3,300. Of the estimate for salaries and expenses $249,200 is for personal services, including $13,540 for new personnel and $1,500 for administrative promotions, and $19,350 is for office and travel expenses. Commencing with 1932 it is proposed to pay the salaries of the retired general appraiser and the retired judges of the court, which are now charged against this appropriation, from salaries of circuit, district, and retired judges.

The estimate for salaries and expenses of commissioners, Court of Claims, calls for an increase from $41,790 to $84,870. At the time the Budget for 1931 was prepared the appointments of these commissioners would have expired under the law in force at that time on January 10, 1931, and there was appropriated for 1931 an amount sufficient only for the period from July 1, 1930, to January 10, 1931. The appointment of the commissioners has been extended indefinitely, however, by the act of June 23, 1930, and $84,870 is requested for 1932, which includes an additional $5,690 for traveling expenses on account of the provision in the aforesaid act authorizing the Chief Justice, or any judge of the Court of Claims, to sit at any place in the United States to take evidence in any case instituted in said court.

There is recommended for repairs to buildings, Court of Claims, an amount of $12,565 to be used principally for remodeling and furnishing the offices, hearing room, and witness room of the commissioners, and the installation of a new call-bell system and additional lighting facilities.

The appropriation for salaries, judges, marshals, etc., Territory of Alaska, which contains the salaries of the

district judges, attorneys, marshals, and clerks of district courts in the four divisions of the judicial district of Alaska, is discontinued, and the amounts required for such salaries in 1932 are included in the general estimates for similar officials.

UNITED STATES COURTS

Increases are recommended in the following estimates relating to law enforcement: Salaries, fees, and expenses of marshals, United States courts, from $3,905,200 to $4,400,000, including $53,080 for new personnel, of which $25,000 is for deputies engaged in guarding and destroying seized property, $9,540 for administrative promotions, $17,600 for the salaries of marshals in Alaska, and $414,580 for travel expenses; salaries and expenses of district attorneys, United States courts, from $1,692,730 to $3,300,000, including $1,494,400 for personnel now being paid from pay of regular assistant attorneys, United States courts, which latter appropriation is discontinued, $64,870 for new personnel, $3,780 for administrative promotions of assistant attorneys, $21,600 for the salaries of district attorneys in Alaska, $3,000 for communication service, and $19,620 for travel expenses; and salaries and expenses of clerks, United States courts, from $2,129,416 to $2,179,420, including $25,880 for new personnel, $3,300 for administrative promotions, $16,800 for the salaries of clerks of district courts in Alaska, and $4,024 for travel expenses.

The increases in miscellaneous expenses, United States courts, from $954,420 to $1,300,000 consists principally of $123,000 to provide a law clerk for each circuit judge as authorized by the act of June 17, 1930, $19,020 for administrative promotions, $118,150 for temporary special and expert services, $33,500 for travel expenses, and $38,000 for stenographic job work. Other increases in estimates for the courts are fees of jurors and witnesses from $3,650,000 to $4,200,000, pay of bailiffs, etc., which includes among other things the travel expenses of circuit and district judges, from $485,000 to $500,000, supplies for United States courts from $86,000 to $90,000, and books for judicial officers from $72,000 to $75,000.

PENAL AND CORRECTIONAL INSTITUTIONS

There is an increase in the total of all estimates for penal and correctional institutions from $12,183,797 to $14,194,935, due to the increase in prison population and the recent enactment of a number of laws providing for an expansion of the Federal penal system.

United States penitentiary, Leavenworth, Kans., is increased from $1,623,357 to $2,009,340, of which $1,243,483 is for the main prison with an estimated average daily population of 3,600 prisoners, and $765,857 is for the annex prison at Fort Leavenworth, formerly the disciplinary barracks, with an estimated average daily population of 1,800 prisoners; United States penitentiary, Atlanta, Ga., is increased from $1,037,437 to $1,215,672, with an estimated average daily population of 3,600 prisoners; United States penitentiary, McNeil Island, Wash., is increased from $431,268 to $535,000 with an estimated average daily population of 1,200 prisoners; Federal Industrial Institution for Women, Alderson, W. Va., shows a decrease from $377,125 to $360,000, due mainly to a reduction in the estimated average daily population from 500 to 480 prisoners; United States Industrial Reformatory, Chillicothe, Ohio, is increased from $592,990 to $826,988 with an estimated average daily population of 1,600 prisoners; and National Training School for Boys, Washington, D. C., is increased from $215,240 to $260,000, with an estimated average daily population of 560 boys. The special appropriation "Medical and hospital services, penal institutions," for which $65,000 was provided for 1931, is discontinued and the funds required for this purpose in 1932 have been distributed among the estimates for the above-named institutions. In addition to the foregoing, there are estimates for construction of $100,000 at Atlanta, $214,135 at McNeil Island, $1,000,000 at Chillicothe, and $200,000 at the National Training School.

Pursuant to authority contained in the act of May 27, 1930, an appropriation of $1,700,000, with permission to enter into contracts not to exceed $3,850,000, was made in 1931 for construction of the United States Northeastern Penitentiary; and the Budget for 1932 recommends $288,000 for the maintenance of this institution, based on an estimated average daily population of 1,200 prisoners for the last five months of the fiscal year. Under the same act, an estimate of $500,000 is recommended for commencing the construction of a United States reformatory, to be located west of the Mississippi River as provided by the act, with permission to enter into contracts not to exceed $3,000,000 for this project. There is also an estimate of $500,000 for establishing Federal jails as authorized by the act of May 14, 1930, in addition to an appropriation of $1,000,000 made for the same purposes in 1931; and $1,000,000 is recommended for the maintenance of such Federal jails and the house of detention for Federal prisoners in New York City, which latter institution is at present maintained from the appropriation for support of United States prisoners. The estimate for the maintenance of prison camps, for the confinement of persons convicted of offenses against the laws of the United States, is increased from $750,000 to $950,000.

Probation system, United States Courts, is increased from $200,000 to $235,800, and includes $26,000 for new personnel, $5,400 for administrative promotions, and an additional $4,400 for travel expenses.

The increase from $3,000,000 to $4,000,000 in support of United States prisoners is due mainly to an increase in the number of Federal prisoners confined in State institutions.

GENERAL STATEMENT

The net decrease in the estimates for 1932 of $36,879,795 under the total for 1931 is chiefly the result of a revision of the program for the employment of vessels and a revision of the ship construction program due to the ratification of the London treaty.

The decrease of $7,400,000 for major alterations of vessels is due to the fact that the appropriation of this sum for 1931 provided the full amount thus far authorized by law for this purpose.

The estimate of $28,300,000 for the construction of vessels reflects a decrease of $21,112,000. This statement standing alone would be misleading. Due to the slowing down of work, pending the result of negotiations for modification of the Washington treaty, and for other reasons, a large unexpended balance accrued under prior appropriations. For ship construction the cash requirements for 1932 are estimated at $51,600,000, to be provided for by the cash balance to be carried forward and the estimate of $28,300,000. The cash requirements for this purpose during 1931 are now estimated at $44,200,000.

The changes in the program for employment of ships referred to above involved a reduction in the estimated ordinary operating requirements for 1932 of approximately $7,000,000, but with a fleet much reduced in number of vessels, provision is made for a reasonable increase in the enlisted complement of vessels and for increases in the items touching the maintenance, repair, and operation of vessels, with the view that the efficiency of the personnel and of the vessels of the smaller active fleet might be increased. The estimates for ordinary operations, after providing for the above-mentioned increases, among others, reflects a net decrease of $4,446,563 for such purposes.

With the view of bringing salaries of classified employees more nearly up to the average of the grade or salary range, the estimates include for increases in salaries, departmental service, $40,240 and for the field service, $101,520, total $141,760. These amounts represent approximately 30 per cent of the amount required to bring under-average grades up to average.

Further details regarding the principal items of increase or decrease are set forth below:

OFFICE OF THE SECRETARY

A net increase of $22,344, due principally to an increase of $20,000 for promoting accident prevention, $11,000 for the Virgin Islands, $3,000 for education in Guam, and a decrease of $15,000 for conservation of the petroleum reserves.

BUREAU OF NAVIGATION

A net decrease of $528,507, due principally to a decrease of $332,000 for recreation of enlisted men (the 1931 appropriation contained this amount as a special item for talking pictures), $325,625 for the Naval Reserve due to release of vessels and change in method of training, and $70,000 for fines and forfeitures, and an increase of $184,091 for the procurement of improved types of instruments for vessels.

BUREAU OF ENGINEERING

A decrease of $2,150,360, due principally to reduction in the number of vessels to be kept in commission and to the use of funds becoming available through the reduction of the fleet during 1931, for repairs and alterations of vessels that would otherwise have been provided for during 1932. For 1932 the estimate for the engineering experimental station, Annapolis, Md., heretofore provided for by a separate appropriation, has been included in the estimate for engineering.

BUREAU OF CONSTRUCTION AND REPAIR

A decrease of $1,107,070, due to the same causes as stated above under the Bureau of Engineering.

BUREAU OF ORDNANCE

A decrease of $219,415, due principally to reduction in the number of ships to be kept in commission and other reductions in requirements for ordnance details. For 1932 the estimate for torpedoes and appliances, heretofore provided for by a separate appropriation, has been included in the estimate for ordnance and ordnance stores.

BUREAU OF SUPPLIES AND ACCOUNTS

A net decrease of $3,588,347, due principally to decreases of $1,445,846 for pay, subsistence and transportation of naval personnel (being the net difference between the amount saved through the reduction of 4,800 men and the amount of annual increases in pay and allowances pursuant to law), $735,000 for fuel due to reduction in number of vessels, $1,575,206 for reserve fuel oil (being the amount reappropriated for 1931 while no further funds are required for 1932), and an increase of $350,000 for evacuation of high explosives for purposes of safety and storage, a new item for this special purpose.

BUREAU OF YARDS AND DOCKS

A net increase of $610,959, due to increases under maintenance of $251,160 for deferred repairs, $390,000 for annual dredging and $785,000 for major items of repairs and improvements in the nature of repairs (the items covered by the last two amounts are of a nature heretofore included under public works), and a decrease of $813,999 for public works projects.

BUREAU OF AERONAUTICS

A net decrease of $1,198,151 due to decreases of $49,900 for instruments, $1,233,800 for construction of new planes, and $125,000 for construction of rigid airships, and an increase of $210,549 for classified personnel and maintenance and operation. The 5-year aircraft program will be completed with funds and authorizations provided for 1931. The estimates for 1932 contemplate the procurement of 277 planes as replacements under the 5-year program and 40 planes for the Naval Reserve. Additional funds are provided for the maintenance and operation of aircraft and facilities because of the increased number of planes that will be in operation during 1932. There is included $675,000 for completion of the rigid airship now under construction. There is also included $1,000,000 toward the construction of the second rigid airship, in the event that the Secretary of the Navy decides under the terms of the contract to go forward with the construction thereof.

MARINE CORPS

A net increase of $128,206 due principally to an increase of $104,183 for pay of the Marine Corps and civil force, and $50,000 for repayment of deposits by enlisted men, and decreases of $20,445 for general expenses and $5,532

for expenses of the Marine Band in attending the Grand Army national encampment at Cincinnati for 1931, a nonrecurring item.

The estimates contemplate the maintenance of an average of 17,500 enlisted men of the Marine Corps during 1932. After deducting the pay and allowances for 500 men as compared with 1931, the increase for pay is due to annual increases in pay and allowances of officers and men under operation of law, and under general expenses increases for clothing and miscellaneous items are offset by the decrease in requirement for 500 less men, and an estimated decrease in the cost of the ration.

IMPROVING AND EQUIPPING NAVY YARDS FOR CONSTRUCTION OF SHIPS

A decrease of $315,000. In order to provide for the construction of vessels at navy yards as authorized and directed by the act of February 13, 1929, it became necessary to provide additional improvements and facilities at the yards to which vessels have been assigned for construction. This estimate of $250,000, together with the unexpended balance from prior appropriations, will be required during 1932 for these purposes.

SALARIES, NAVY DEPARTMENT

An increase of $33,980, due principally to increases in salaries.

CONTINGENT AND MISCELLANEOUS EXPENSES

A net decrease of $50,720, due to increases of $7,500 for additional repairs and furnishings to the quarters of the Chief of Naval Operations at the Naval Observatory, $1,300 for equipment at the Naval Observatory, and $50,000 for equipment of an astrographic laboratory at the Naval Observatory, and to decreases of $53,800 for office equipment under contingent expenses, Navy Department (composed of $44,700 reappropriated for use in 1931, a nonrecurring item, and a decrease of $9,100 between the appropriation for 1931 and the estimate for 1932), $50,000 for printing and binding, and $5,720 for contingent expenses of the Hydrographic Office.

The Budget estimate of postal requirements for the fiscal year 1932 is $9,094,480, or 1.08 per cent, in excess of the total amount available for the fiscal year 1931. This rate of increase does not give an accurate basis for comparison between the requirements for the two years, however, because of the fact that the appropriations for the fiscal year 1931 were based upon an anticipated increase in postal business of 4 per cent over the fiscal year 1930, whereas it is reliably estimated at the present time that the increase will not be in excess of 1¼ per cent. The appropriations for the fiscal year 1931 are therefore largely in excess of current needs and it is not expected that the expenditures in that year will be in excess of $825,250,000, or approximately 2.65 per cent, over the expenditures for 1930. On this basis the estimate of requirements for 1932, when an increase in business of about 2¼ per cent is expected, is therefore approximately 3 per cent in excess of the estimated expenditures for 1931.

The principal items of increase or decrease which go to make up the increase in the estimates for the fiscal year 1932 over the appropriations for the fiscal year 1931 are as follows:

POST OFFICE DEPARTMENT, WASHINGTON

An increase of $109,780 in departmental salaries to provide for promotions, reallocations, and new positions.

An increase of $45,000 for printing and binding to provide for the publication of a revised edition of the Postal Laws and Regulations.

POSTAL SERVICE FIELD OPERATIONS

UNDER THE FIRST ASSISTANT POSTMASTER GENERAL

A decrease of $500,000 in compensation to postmasters, a decrease of $100,000 in compensation to assistant postmasters, a decrease of $1,500,000 in salaries of clerks, watchmen, messengers, and laborers at first and second class offices, and a decrease of $100,000 in salaries of clerks at third-class offices, all due to drop in mailings.

An increase of $130,000 for clerks in contract stations, to provide additional stations and to cover increased cost of renewed contracts.

An increase of $130,000 for miscellaneous items, first and second class offices, to provide additional telephones and increased janitor service.

Federal Reserve Bank of St. Louis

An increase of $75,000 for car fare and bicycle allowances, to provide for increase in fares and growth of cities.

An increase of $500,000 for special-delivery fees, to provide for growth in volume of this class of business.

UNDER THE SECOND ASSISTANT POSTMASTER GENERAL

An increase of $300,000 for star-route service, to provide for new routes and extensions, due largely to withdrawal of train service.

An increase of $750,000 for railroad transportation and mail messenger service to provide for extensions in the service

A decrease of $500,000 in Railway Mail Service salaries, due to drop in mailings.

A decrease of $200,000 in Railway Mail Service miscellaneous expenses, due largely to the acquisition by the Government of the Van Buren Station, Chicago, Ill.

An increase of $4,300,000 for foreign mail transportation, to provide for additional ocean mail contracts and increased air-mail service to foreign countries.

An increase of $5,000,000 for domestic air-mail service to provide for readjustments following recently enacted legislation and increased mailings.

UNDER THE THIRD ASSISTANT POSTMASTER GENERAL

An increase of $100,000 for the manufacture of stamped paper, due principally to improvement in the quality of stamped envelopes.

A decrease of $100,000 for indemnities for loss, etc., of domestic mail, due to improved methods of handling registered, insured, and C. O. D. matter.

UNDER THE FOURTH ASSISTANT POSTMASTER GENERAL

An increase of $820,000 for post-office equipment and supplies, to provide an additional amount for the purchase of furniture for leased offices and for equipment at third-class post offices.

A decrease of $300,000 for mail bags and equipment, due to reduction in the estimated number of bags required.

A decrease of $110,000 for rent, light, and fuel, due principally to the acquisition by the Government of the Van Buren Station, Chicago, Ill.

An increase of $350,000 for vehicle service, due principally to the truck-replacement program.

OFFICE OF THE SECRETARY OF STATE

The estimate for salaries, Department of State, is increased from $1,856,205 to $1,995,848, including $46,203 for new personnel, $45,540 for increases in salaries due to reallocation of positions by the Personnel Classification Board, $10,260 for administrative promotions, and $37,640 for personnel now being paid from the appropriation for immigration of aliens, Department of State, which latter appropriation is discontinued.

An increase is recommended for contingent expenses, Department of State, from $119,818 to $137,500, including $15,000 for a new dictograph system, to replace the one installed 13 years ago, which is inadequate and rapidly breaking down. Increases are also recommended for passport agencies, Department of State, from $79,025 to $82,870, and for collecting and editing official papers of Territories of the United States from $15,000 to $16,000. There is a reduction in printing and binding, Department of State, from $301,665 to $285,000, due principally to the fact that no funds will be required for the Mixed Claims Commission, United States and Germany, which will complete its work in 1931.

FOREIGN INTERCOURSE

The appropriation for immigration of aliens, Department of State, is discontinued, and the funds required for this purpose are included in the estimates for salaries, Department of State, allowance for clerks at consulates, contingent expenses, United States consulates, salaries, Foreign Service officers, and rent, heat, fuel, and light in the Foreign Service.

The increase in the estimate for clerks at embassies and legations from $456,850 to $482,350 is to provide 10 additional diplomatic clerks at various foreign missions of the United States.

There is a decrease in the estimate for contingent expenses, foreign missions, from $1,386,325 to $912,740, a net reduction of $473,585, composed of decreases of $518,585 for rental of living quarters and offices at embassies and legations, which is included in the estimate for rent, heat, fuel, and light in the Foreign Service, and from which fund it is proposed to pay all expenses of this character commencing with 1932, and a nonrecurring item of $20,000 for the expense of moving the consulate from Peiping to Shanghai in 1931, and increases of $35,000 for the

salaries of five supervisors of construction, $10,000 for air mail service to Central and South America, $15,000 for the purchase of a new launch for the embassy at Constantinople, and $5,000 for travel expenses.

The entire increase in the estimate for allowance for clerks at consulates from $1,853,266 to $2,234,088 represents the salaries of consular clerks now being paid from the appropriation for immigration of aliens, Department of State.

There is a decrease in the estimate for contingent expenses, United States consulates, from $1,737,140 to $925,931, a net reduction of $811,209, composed of a decrease of $964,837 for rental of living quarters and offices at consulates, which is included in the estimate for rent, heat, fuel, and light in the Foreign Service, and increases of $42,000 for the salaries of six additional supervisors of construction, $20,000 for travel expenses of consular officers who may be assigned to duty on commercial work while in the United States on their statutory leave, $15,000 for protectograph machines for use in connection with the issuance of passports and visas by American consuls, $9,000 for miscellaneous expenses, and $67,628 for consular contingent expenses now being paid from the appropriation for immigration of aliens, Department of State.

The increase recommended for salaries, Foreign Service officers, from $3,298,500 to $3,373,500, includes $45,000 for the employment of 18 additional officers in Central and South America and $30,000 for the salaries of officers now being paid from the appropriation for immigration of aliens, Department of State.

For the Foreign Service buildings fund, an amount of $2,000,000 is recommended for 1932, as compared to $1,700,000 appropriated for 1931. The act of May 7, 1926, authorizes a total appropriation of $10,000,000 for the acquisition in foreign cities of sites and buildings, and the alteration, repair, and initial furnishing of such buildings for the use of the diplomatic and consular establishments of the United States, with a provision that all appropriations made pursuant thereto shall remain available until expended but that not more than $2,000,000 shall be appropriated for any one year. The total appropriations made for this purpose thus far amount to $6,835,000.

The amount recommended in the Budget for 1932 toward financing the Foreign Service retirement and disability fund of $215,000, a decrease of $1,000 from the amount appropriated in 1931, is based on the advice of the Government actuary.

The estimate for rent, heat, fuel, and light in the Foreign Service, amounting to $1,634,559, is a new item, and covers the cost of living quarters, including heat, fuel, and light, for officers in the Foreign Service as authorized by the act of June 26, 1930, and the rental of quarters for use as offices. During 1931 expenses of this nature will be paid from the appropriations for contingent expenses, foreign missions, $518,585; contingent expenses, United States consulates, $964,837, and immigration of aliens, Department of State, $83,910; making a total of $1,567,332. The additional $67,227 recommended for 1932 consists of $20,000 for increase in office rentals, $3,800 for increase in rental of the Shanghai consulate, $16,577 for normal increase in heat and light, and $26,850 to allow chiefs of missions a maximum of $6,000 for the cost of living quarters.

INTERNATIONAL OBLIGATIONS, COMMISSIONS, BUREAUS, ETC.

While there is a decrease of $23,940 in the estimate for water boundary, United States and Mexico, for 1932, as compared to the amount appropriated for 1931, the latter includes a special appropriation of $30,000 for making a survey to secure data which could form the basis of an agreement with Mexico to overcome the difficulty resulting from the shifting of the boundary line along the Rio Grande River from El Paso to the Box Canyon below Fort Quitman, and there is in fact an increase of $6,060 in the estimate for the operating expenses of the United States section of the International Boundary Commission, United States and Mexico.

As all of the field work and nearly all of the office work in connection with marking the boundary line between Alaska and Canada and the United States and Canada under the treaty of April 11, 1908, has been completed, the separate appropriation for this purpose is discontinued, and the small remaining cost of this work, namely, the salary of a mathematician at $4,800, is included in the estimate for International Boundary Commission, United States and Canada and Alaska and Canada, for maintaining the boundary line under the treaty of February 24, 1925.

The increase in the estimate for the Pan American Union from $167,219.60 to $180,603.20 is in pursuance of a resolution adopted by the governing board of the Union changing the quota of countries members of the Union from $1.10 to $1.20 per thousand inhabitants.

There are decreases in the estimates for the Bureau of Interparliamentary Union for Promotion of International Arbitration from $10,000 to $6,000; International Institute of Agriculture at Rome, Italy, from $15,260 to $11,060; United States section, Inter-American High Commission, from $14,000 to $10,000; and waterways treaty, United States and Great Britain, from $191,585 to $175,355.

The text of the estimate for general and special claims commissions, United States and Mexico, has been amended so as to remove the statutory limitation on the amounts which may be allowed for subsistence, to enable the American commissioner, American agent, counsel, attorneys, and other members of the staff to meet their expenses when required to proceed to Mexico City on official business, and the amount of the estimate has been increased from $350,000 to $367,000 to cover the additional expense which it is estimated will be incurred as a result of this change.

JUDICIAL

An increase is recommended in the estimate for salaries and expenses, United States Court for China, from $41,650 to $46,450 to cover increases in salaries of the assistant clerk, reporter, stenographers, deputy marshal, and assistant deputy marshals, who have not been promoted for many years.

The increase of $10,003,580 is the net result of the estimates for 1932 showing increases or decreases in the amounts approved for various purposes compared with the appropriations for 1931. After taking forwarded appropriation balances into consideration, the principal items of increase or decrease are as follows:

SECRETARY'S OFFICE

A decrease of $3,300 due to reduction in force.

OFFICE OF THE CHIEF CLERK AND SUPERINTENDENT

A decrease of $8,305 due to savings in contingent expenses by reason of vacating rented buildings.

DIVISION OF SUPPLY

A decrease of $298,866 due principally to a nonrecurring item, i. e., general supply fund.

DIVISION OF BOOKKEEPING AND WARRANTS

An increase of $71,600 due principally to an increase in the estimated requirements for recoinage of gold, silver, and minor coins.

PUBLIC DEBT SERVICE

A decrease of $107,051 due to reductions of $80,000 for distinctive paper for United States securities, $61,561 for preparation, custody, and delivery of farm loan bonds and Federal intermediate credit bank securities, and $3,300 for Public Debt Service salaries and expenses. These reductions are offset, in part, by an increase of $37,810 for expenses of placing loans.

CUSTOMS SERVICE

A total increase of $936,780, the principal increases being $618,660 for promotions in under-average grades, $6,520 for reallocations, $52,820 for additional field personnel, $79,200 for heat, light, and quarters at foreign posts, $51,400 for electric scales, and $50,000 for awards to informers.

Aside from the administrative expenses, there is a net reduction in the indefinite appropriations of $200,000, due to a decrease in the amount for debentures or drawbacks, etc., of $500,000, and an increase for refund of excess duties of $300,000.

TREASURER OF THE UNITED STATES

An increase of $18,120 to provide $9,720 for promotions in under-average grades, and $8,400 for printing and binding.

INTERNAL REVENUE SERVICE

A decrease of $583,020 in the amount for administrative expenses due to a reduction in the estimated requirements for this service after providing $154,140 for promotions in under-average grades.

There is an increase of $745,642 in the amount provided for refunding taxes erroneously collected over refunds made in 1931.

The amount which will be disbursed for this purpose in the fiscal year 1932, however, is estimated at $97,247,642, of which $59,247,642 will be brought forward from the fiscal year 1931, leaving $38,000,000 to be further appropriated.

BUREAU OF INDUSTRIAL ALCOHOL

An increase of $519,700 to provide $53,520 for promotions in under-average grades, $455,700 for increase in force and traveling expenses, and $25,000 for allowance or drawback refunds.

There is also a decrease of $14,440 due to a transfer to the chief clerk, Treasury Department, of certain contingent expense items.

BUREAU OF NARCOTICS

An increase of $49,880 to provide $11,160 for promotions in under-average grades, $41,820 for increase in force, and $300 for reallocations.

There is also a decrease of $3,400 due to a transfer to the chief clerk, Treasury Department, of certain contingent expense items.

COAST GUARD

A net decrease of $590,794. There are increases of $7,080 for promotions in under-average grades, $19,800 for increase in force, $14,660 for the establishment of a cryptanalytic section at Coast Guard headquarters, and $519,694 for additional commissioned and enlisted personnel, automatic promotions, etc. The provision for fuel and water is increased $119,225, due principally to lubricating oil and kerosene being included under this classification instead of under the item "Outfits." The provision for communication lines is increased $67,500, due principally to communication service being included under this classification instead of under the item "Contingent expenses." The item for construction and equipment of Coast Guard cutters is reduced $100,000, but the $800,000 allowed provides for the completion of the last of 10 cutters authorized by the act of June 10, 1926. The item for the construction of a vessel for Lake Michigan is reduced $250,000, but the $200,000 allowed provides for the completion of this vessel. The provision for repairs to Coast Guard vessels is increased $290,877. Provision for additional vessels is reduced $2,092,500, due to reduction in the number of new vessels required in 1932. The item for establishment of Coast Guard stations is increased $98,500 to provide for new stations at Grand Island, Mich., and Port Orford, Oreg. Provision for the new Coast Guard Academy is increased by $814,684, which will complete the project.

BUREAU OF ENGRAVING AND PRINTING

An increase of $327,420, due principally to increased production of currency and blank checks.

SECRET SERVICE DIVISION

An increase of $26,139 to provide $6,060 for promotions in under-average grades, $4,020 for increase in force, $560 for pay-roll adjustments, and $2,400 for travel expenses, etc., in connection with expenses incident to suppressing counterfeiting and other crimes, and $13,099 for salaries of the White House police.

PUBLIC HEALTH SERVICE

A net increase of $797,535 providing $137,940 for promotions in under-average grades, $216,308 for increase in force, $44,940 for additional commissioned officers, automatic promotions, etc., $5,000 for maintenance of National Institute of Health, $548,298 for pay of personnel and maintenance of hospitals, and $157,150 for the quarantine service. These increases are subject to reduction by reason of a nonrecurring item of $24,000 under pay of personnel and maintenance of hospitals, and a carryover under quarantine service of $282,000 from 1930 to 1931 which is nonrecurring in 1932.

MINT SERVICE

A net decrease of $89,280. In the item of salaries and expenses, mints and assay offices, there is a reduction of $88,200 largely on account of decreased coinage requirements in the fiscal year 1931, and an item of $5,000 which is nonrecurring. This decrease is offset, in part, by increases of $3,420 for promotions in under-average grades, and $500 for reallocations.

OFFICE OF THE SUPERVISING ARCHITECT

For public-building construction under the act of May 25, 1926, and for the acquisition of land in Washington, D. C., the Budget estimates provide $65,000,000, which amount represents an increase of $7,860,248 over the 1931 appropriation, and there is a further increase of $1,305,000 for the construction of a vault in the Treasury Building, Washington, D. C., and repairs at a quarantine station at Cape Charles, Va. The net result under other construction items is a decrease of $970,528 due largely to old projects carried on the books which in all probability will be written off in the current fiscal year.

Aside from public buildings and land, the estimates for the Supervising Architect are $1,501,610 in excess of the appropriation for 1931. The principal items which go to make up this increase are $159,660 for promotions in under-average grades, $302,800 for increase in force, $6,320 for reallocations, $60,000 for mechanical equipment, $60,000 for furniture and repairs, $78,200 for operating supplies, and $885,000 for outside professional services, $160,000 of which is carried forward from the preceding year.

DEPARTMENTAL ACTIVITIES

SALARIES AND EXPENSES

Included under this head are all departmental salaries, contingent expenses, stationery, and printing and binding. The increase for 1932 of $313,855 consists of a new item of $250,000 for initiating the work of classifying, filing and indexing the historical records of the World War, $32,520 for promotions, $25,000 for printing and binding, $5,600 for a chief librarian for the Army medical library, and $735 covering minor adjustments.

MILITARY ACTIVITIES

OFFICE OF THE SECRETARY OF WAR

The only item under this head is a small fund for contingencies, which is reduced from $12,000 to $10,000 to correspond with reduced requirements.

GENERAL STAFF CORPS

Includes contingencies, Military Intelligence Division, General Staff, and the Army War College. Of the $666 increase for 1932, $600 is for promotions for civilian personnel.

ADJUTANT GENERAL'S DEPARTMENT

The appropriation items concerned are "Contingencies, headquarters of military departments," "Command and General Staff School, Fort Leavenworth, Kansas," and "Welfare of enlisted men." The net decrease of $4,016, for 1932, is occasioned by the consolidation of $4,500, under the first-mentioned item with items under the Quartermaster Corps and increases in salaries amounting to $484.

FINANCE DEPARTMENT

Under this head provision is made for the pay and allowances of active and retired officers, warrant officers,

nurses, and enlisted men of the Regular Army and the Philippine Scouts; withdrawals by enlisted men of savings deposited with the Finance Department; mileage of the Army; expenses of courts-martial; apprehension of deserters; hire of civilian employees of the Finance Department in the field; and claims for the loss and damage of personal property of Army personnel. The net increase for 1932 is $517,720 and is due principally to the growth of the retired lists and promotions of $9,060 for civilian personnel. The Budget estimate for 1932 provides for average active strengths of 12,000 commissioned officers, 966 warrant officers, and 118,750 enlisted men of the Regular Army and 6,500 enlisted men of the Philippine Scouts.

QUARTERMASTER CORPS

This includes appropriation items for the subsistence, clothing, and transportation of the Army; furnishing of nontechnical supplies; the maintenance, repair, and operation of barracks, quarters, and other buildings and utilities; construction of buildings, utilities, and appurtenances; procurement of horses; acquisition of land; incidental expenses; shooting galleries and ranges; rent of buildings; sewerage system at Fort Monroe, Va.; and construction and repair of hospitals. The net decrease in 1932 amounts to $2,682,748, resulting from a large number of items increased or decreased. The principal decreases are: $1,174,305 for acquisition of land in 1931; $1,412,860 difference in provision for continuing the Army housing program; approximately $700,000 for maintenance and repair of barracks and quarters, due in large measure to the progress made under the Army housing program; $148,510 for Army transportation (animal); and $131,880 for horses for Cavalry, Artillery, and Engineers, due to a smaller number of animals to be procured. The principal increases are: $186,771 for subsistence due to 1932 being leap year and the need for restoring certain funds to the subsistence working capital; $835,175 for clothing and equipage, necessitated largely by the depletion of usable sizes in stocks purchased during the World War; and $159,780 granted for the promotion of civilian employees. In addition to the amount estimated for appropriation the Budget for 1932 makes provision for a contract authorization of $3,000,000 for continuing the Army housing program.

SEACOAST DEFENSES

This embraces, for the United States, insular possessions, and Panama Canal, the construction, maintenance, and repair of fixed fortifications; the procurement, installation, and maintenance of fire-control systems, searchlights, and submarine mine defenses; installation of fixed antiaircraft defenses; and the procurement and maintenance of ordnance and ordnance matériel. Various phases of the work are handled by the Corps of Engineers, the Signal Corps, the Coast Artillery Corps, and the Ordnance Department. The Budget increase for 1932 consists of $2,640 for promotion of civilian employees, less minor decreases of $800. Net increase, $1,840.

SIGNAL CORPS

Signal Service of the Army is the only appropriation item concerned. The net increase in 1932 of $118,032 consists of $12,360 for promotions for civilian personnel and the balance principally for new telephone installations required in connection with the Army housing program.

AIR CORPS

The net increase over 1931 is $1,537,508, which includes $42,660 for the promotion of civilian employees. This net increase is arrived at as follows: Increases—$67,473 for pay of civilian employees and for experimental and research work; $221,550 for lighter-than-air equipment; $3,129,917 for technical construction and improvement of stations; and $696,060 for normal operating expenses; total, $4,115,000. Decreases—$2,277,492 for the procurement or purchase of new airplanes and their equipment, spare parts, and accessories, and $300,000 for completing transfer of the engineering division to Wright Field; total, $2,577,492. Net increase, $1,537,508.

The Budget estimate provides for the procurement of 392 airplanes under the Air Corps expansion program authorized by Congress, calling for a total of 1,800 airplanes, of which 1,648 are for the Regular Army and 152 for the National Guard. It is estimated that this will provide the Air Corps of the Regular Army with a total of not less than 1,582 airplanes on hand and on order on June 30, 1932. The estimate also makes provision for an average of 165 flying hours per qualified airplane pilot during the fiscal year 1932.

MEDICAL DEPARTMENT

Provides for the medical and hospital department of the Army, including hospital care of Panama Canal Zone garrisons, and the maintenance and operation (except cost of personnel) of the Army Medical Museum and library. Net increase in 1932, $5,569, due to $9,240 granted for the promotion of civilian employees, less total net reduction of $3,671 covering various items of supplies and services.

CORPS OF ENGINEERS

Embraces appropriation items for engineer depots, school, equipment of troops, operations in the field, and military surveys and maps. The net decrease of $21,607 in 1932 results principally from a decrease of $65,317 in the requirements for engineer equipment for troops, and increases of $41,136 for military surveys and maps (mainly for replacement equipment), and $1,680 for promotion of civilian employees.

ORDNANCE DEPARTMENT

Includes appropriation items for ordnance service and supplies, the maintenance and operation of Rock Island Arsenal bridges, the repair of arsenals, development and procurement of gauges, dies, and jigs for manufacture, proceeds of sales of ordnance materials, and ammunition storage facilities. The net decrease for 1932 is $797,770, of which $351,941 represents the appropriation for 1931 for completing ammunition storage facilities not required in 1932. The balance, $445,829, is due to administrative action of the War Department.

CHEMICAL WARFARE SERVICE

Net decrease in 1932, $39,663, resulting from a number of minor increases and decreases. The estimate provides $9,480 for the promotion of civilian employees.

CHIEFS OF INFANTRY, CAVALRY, FIELD ARTILLERY, AND COAST ARTILLERY

Includes the service schools of these four branches of the Army. The net increase in 1932 is $3,938, of which

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

$480 is for promotions for civilian employees and the balance for miscellaneous increased requirements of the Infantry School.

UNITED STATES MILITARY ACADEMY

Under this head fall the pay and allowances of professors, cadets, and civilian employees, and the maintenance, operation, and repair of the academy. The net increase in 1932 is $203,557, which includes $8,640 for the promotion of civilian employees, $25,428 for increases in the amount required for pay of cadets and hire of civilian employees, and $169,489 for maintenance, operation, and repair—principally repairs of buildings and roads. An average of 1,236 cadets is provided for.

MILITIA BUREAU

Under this head provision is made for the entire cost to the Federal Government for the equipment, maintenance, and training of the National Guard, except the pay and allowances of commissioned officers of the Regular Army and the pay of enlisted men of the Regular Army detailed as instructors. The total Budget estimate for 1932 is the same as the total appropriation for 1931. For 1932 provision is made for an aggregate authorized strength of 192,500 officers and men. The actual average strength is estimated at about 187,500.

ORGANIZED RESERVES

The net decrease for 1932 is $126,977 and is due entirely to economies effected by the War Department. The Budget estimate makes provision for 14 days active duty training of 20,000 reserve officers—same as 1931; for details of six months, each, on the General Staff, of 20 such officers—same as 1931; for the detail on active duty for one year with tactical units of the Air Corps of the Regular Army of 272 reserve pilots as against 263 to be so employed in 1931; and for the detail of 130 reserve officers as instructors at citizens' military training camps—same as 1931.

RESERVE OFFICERS' TRAINING CORPS

Decrease in 1932, $40,000, due to economies effected by the War Department. The Budget estimate makes provision for the enrollment and instruction of an average of 127,565 students in Reserve Officers' Training Corps units at schools and colleges and the training of 7,200 of this number in 42-day camps.

CITIZENS' MILITARY TRAINING CAMPS

Decrease in 1932, $36,017, due to economies effected by the War Department. The Budget estimate makes provision for 30 days' attendance at training camps of 37,500 trainees, the same as for 1931. The sum of $720 is provided for promotions for civilian employees.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE

Provision is made under this head for the annual pistol and rifle matches and small-arms firing school conducted at Camp Perry, Ohio; for quartermaster supplies and services for rifle ranges for civilian instruction; for the procurement of trophies and medals; and for ordnance equipment and ammunition for civilian rifle clubs.

The increase in 1932 of $21,921 is due to a decrease in the balance of funds from prior appropriations available for use in 1932 and to $180 for the promotion of civilian employees.

NONMILITARY ACTIVITIES

FINANCE DEPARTMENT

Includes two permanent indefinite appropriation items for payment of claims relating to the Spanish-American War. The estimate for 1932 is the same as that for 1931.

QUARTERMASTER CORPS

Under this head is included the appropriation items for cemeterial expenses, national military parks, markers, and monuments, survey of battlefields, and special projects of similar character.

The net decrease for 1932 is $82,556 and results from the completion of certain projects and provision for new ones, as well as fluctuations in the annual requirements for the maintenance and operation of the various national cemeteries and national military parks and monuments. For 1932, $8,460 is provided for promotion of civilian employees.

SIGNAL CORPS

This covers the maintenance and operation of the Washington (State)-Alaska military cable and telegraph system, now used almost exclusively for commercial and Government civil purposes. The increase of $194 in 1932 is for increase in salaries of civilian employees.

CORPS OF ENGINEERS

Included under this head is the maintenance and improvement of existing river and harbor works; maintenance and operation of Dam No. 2, Muscle Shoals, Ala.; flood control on the Mississippi and Sacramento Rivers; emergency fund for flood control on tributaries of the Mississippi River; expenses of the California Débris Commission; the construction and maintenance of roads, bridges, and trails in Alaska; and the preservation and repair of historical fortifications.

The total net increase for 1932 is $9,688,542, arrived at as follows: Increases, $5,000,000 for maintenance and improvement of existing river and harbor works; $1,192 for maintenance and operation of Dam No. 2, Muscle Shoals, Ala.; $4,685,000 for permanent indefinite appropriations, contributed, and special funds for river and harbor improvements, flood control, and Alaska roads; and $17,000 for preservation and repair of historical fortifications at San Juan, P. R., a new project; total, $9,703,192, less $650 decreased requirements of the California Débris Commission and $14,000 for a survey of the Choctawhatchee River, Fla., and Ala., provided for in 1931; net increase, $9,688, 542.

The total carried in the Budget for 1932 for river and harbor works is $71,703,792 and for flood control, $36,850,000.

UNITED STATES SOLDIERS' HOME (DISTRICT OF COLUMBIA)

This home is supported by trust funds and the interest derived therefrom. The decrease in 1932 of $7,000 is due to decreased requirements.

PANAMA CANAL

The appropriation items involved are maintenance and operation, sanitation, and civil government.

For maintenance and operation the net decrease in 1932 of $397,662 is occasioned by a decrease of $550,662 in net operating expenses, less an increase of $153,000 for special projects. The special projects provided for in the Budget

for 1932, are: Completion of the Arraijan Road and ferry, $500,000; construction of quarters for white civilian employees, $400,000; new high school for white children at Cristobal, $825,000; new elementary school for colored (aliens), $125,000; nurses' quarters and dispensary at Colon Hospital, $100,000; new fire stations, $35,000; and for continuing the construction of Madden Dam, $1,000,000. These projects amount in the aggregate to $2,985,000. In addition, provision is made for a $2,000,000 contract authorization for the Madden Dam. This contract authorization, rather than the appropriation of a like amount, is justified because of delay which will be encountered in beginning actual construction of the dam.

For sanitation of the canal and Canal Zone there is a net increase in 1932 of $40,289, covering necessary additional funds for this general purpose.

For civil government the net increase in 1932 is $56,499, distributed among a number of items, such as additional school-teachers and police, new fire apparatus, repairs to school buildings, and increased cost of operating air mail service.

SALARIES, ETC., DISTRICT OF COLUMBIA

The decrease of $390,435 under this head represents the difference between the increases recommended for 1932 and the decreases on account of 1931 items that do not recur for 1932. The principal nonrecurring items are $300,000 for the establishment of the Farmers' Market, and $150,000 for the construction and equipment of the new shops for the highway department. The principal increases provided are as follows:

Salary promotions amounting to approximately $35,000, and additional personnel in the amount of approximately $51,000, are included in the various estimates for personal services. The estimates also include $6,180 for the transfer to the regular annual salary rolls of per diem employees who are now continuously employed under appropriations for labor and mechanics.

For repairs and improvements to Western Market $10,000 is provided. The estimates also include $6,000 for the purchase and equipment of a heavy motor truck to enable the superintendent of weights and measures to test scales of as large a weighing capacity as 10 tons.

An estimate of $33,900 is provided for improvements, including additional equipment, at the District repair shop, and for motor truck replacement of horse-drawn vehicles.

For the purchase of a site for a branch library in Georgetown, $35,000 is submitted; and $30,000 has been provided for the purchase of a stock of books for the northeast branch library, for the construction of which an appropriation of $150,000 is now available.

MUNICIPAL CENTER

The 1931 appropriations of $3,000,000 for the purchase of land, and $65,000 for the preparation of plans and design of buildings, do not recur for 1932. For beginning the construction of buildings in the Municipal Center, no estimate is submitted in the 1932 Budget for the reason that the work incident to the preparation of

building plans and cost estimates has not reached the point of permitting the inclusion in the 1932 Budget of a satisfactory recommendation for a construction appropriation. It is believed, however, that it will be possible to submit such an estimate within the next few months, and for the purpose of meeting this need the commissioners have reserved $1,500,000 of estimated revenues of the District of Columbia.

STREET AND ROAD IMPROVEMENT AND REPAIR

The estimates propose an increase of approximately $192,000 for new paving and paving repairs, and include $168,500 for widening and repaving B Street NW. from Fourteenth Street to Virginia Avenue, $250,000 for the completion of the Connecticut Avenue Bridge over Klingle Valley, $210,000 for beginning the construction of the Benning Bridge over the Anacostia River (with contractual authorization of $400,000), $60,000 for repairing and strengthening the New York Avenue Bridge over the right of way of the Washington Terminal Co., and $37,500 for engineering surveys and the preparation of plans for bridges to replace the P Street and Calvert Street bridges over Rock Creek.

SEWERS

For assessment and permit work, $150,000 is recommended, or a reduction of $135,000. For suburban sewers there is an increase of $125,000, to begin construction of a trunk sewer extension to Rock Creek in the valley of Piney Branch, between Sixteenth Street and Rock Creek south of Klingle Bridge.

REFUSE

The estimate for personal services shows an increase of $5,040 for three additional foremen; the estimate for sweeping and cleaning streets is increased by $51,000 to provide for automatic wage increases and for the motor-truck replacement of horse-drawn equipment; and the estimate for collection and disposal of garbage provides an increase of $110,000 for automatic wage advancements and for the operation of the two new incinerator plants during the last six months of the fiscal year. There is also included an item of $300,000 for completing the construction of the two incinerators authorized by the act of March 4, 1929 (45 Stat. 1549).

PUBLIC PLAYGROUNDS

The estimate of appropriation for personal services is increased by $3,480 to provide for promotions and for the salary of one employee to be transferred from the maintenance per diem roll. Because of the completion of certain physical improvements, for which additional funds were provided during the present fiscal year, the maintenance appropriation is reduced by $13,000.

ELECTRICAL DEPARTMENT

The estimate for street lighting shows an increase of $114,000 over the appropriation for 1931, although the net increase in available funds is only $37,000 due to the reappropriation for 1931 of an unexpended balance for 1929, and to the proposed transfer to the personal services appropriation of $18,320 for per diem employees now carried under the street-lighting appropriation. The estimate of appropriation for personal services also includes an increase of $1,780 for new positions. Provision is also made for continuing available during the fiscal year 1932 the 1931 appropriation of $25,000 for making a study of the power needs of the District of Columbia.

PUBLIC SCHOOLS

The estimates for operating the public schools (after excluding nonrecurring appropriations in the 1931 act), provide increases of $12,720 for promotions and additional personnel in the clerical force; $65,000 for additional teachers; $148,800 for longevity increases for teachers; $2,000 for promotion of assistant professors in the teachers colleges; $65,400 for promotions and additional personnel in the custodial force; $106,000 for furnishing and equipping new school buildings; $17,000 for repairs to school buildings; and $21,000 for remodeling the Columbia Junior High School and the Abbot Vocational School. The estimates also contain a continuance of the policy of recent years of reappropriating not to exceed $100,000 of unexpended balances of previous appropriations for the improvement of grounds around school buildings.

For buildings and grounds the Budget provides $2,430,000 for new construction and $430,000 for the purchase of additional school building and playground sites. The estimate of $2,430,000 for new construction provides $400,000 for continuing construction of the Roosevelt (Business) High School; $100,000 for completing the first unit of the Young (colored platoon) School; $300,000 for completing the Brown Junior High School; $140,000 for an 8-room building in the vicinity of Connecticut Avenue and Upton Street NW.; $145,000 for an 8-room building in the vicinity of Burleith and Glover Park; $165,000 for an 8-room addition, including a combination gymnasium and assembly hall, at the Douglas-Simmons School; $165,000 for an 8-room addition, including a combination gymnasium and assembly hall, at the Harrison School; $80,000 for a 6-room addition to the Orr School; $60,000 for a 4-room addition to the Key School; $200,000 for the final addition to the Macfarland Junior High School; $180,000 for an addition to the Paul Junior High School; $200,000 for beginning construction of a junior high school in the Brookland-Woodridge section; $200,000 for beginning construction of the Jefferson Junior High School; $40,000 for a gymnasium at the Randall Junior High School; and $55,000 for a gymnasium and 3-classroom addition to connect the Hine Junior High School and the Towers School. It is estimated that the new school buildings provided for, in whole or in part, in the 1931 appropriation act will, when completed, result in the elimination of 38 portables, 88 part-time classes, and 95 oversize classes; and that the new buildings provided in the 1932 estimates (excluding therefrom the 1932 amounts for completing or continuing the 1931 items) will, when completed, accomplish an additional elimination of 12 portables, 26 part-time classes, and 51 oversize classes. So that, upon the basis of the number of portables, part-time classes, and oversize classes as of November 1, 1930, there would remain, upon the final completion of all building projects to be initiated or completed by the 1931 act and 1932 estimates, 8 portables, 12 part-time classes, and 129 oversize classes.

METROPOLITAN POLICE

The estimates for the police department provide increases of $52,940 for automatic promotions, $277,000 for increased salaries authorized by the act approved

July 1, 1930, $5,000 for repairs to station houses, and $4,620 for clerical promotions and the employment of two automobile drivers.

FIRE DEPARTMENT

For the fire department the estimates provide increases of $35,500 for automatic promotions and $234,500 for salary increases authorized by the act of July 1, 1930. The estimates also include $69,000 for the purchase of new apparatus; $15,000 for the purchase of a site for a new truck company in the northeast section; and $150,000, together with an unexpended balance of approximately $29,000, for the construction of a new engine house in the vicinity of Thirteenth and K Streets NW., which will also provide headquarters and clinic space for the board of police and fire surgeons.

HEALTH DEPARTMENT

The decrease of $6,190 results from increases of $7,020 for promotions and $3,000 for additional payments to Garfield and Providence Hospitals for isolation ward service, and decreases of nonrecurring items amounting to $16,210.

COURTS AND PRISONS

The estimates represent decreases on account of the nonrecurring items of $4,800 for rent for the Municipal Court, $7,500 for furnishings and repairs for the court of appeals, $22,000 for repairs and improvements at the supreme court building, and $2,500 for expenses of the court commission, together with a decrease of $35,000 for the care of District of Columbia convicts in Federal pentitentiaries; and increases of $7,200 for compensation of jurors of the police court; $5,000 for fees of witnesses, $15,000 for fees of jurors, $25,000 for Federal condemnation proceeding costs, $4,230 for additional personnel, and $3,000 for painting, for the District of Columbia Supreme Court; $8,800 for painting and repairs of the court of appeals building; and approximately $3,500 for promotions.

PUBLIC WELFARE

The increase of $445,744, when considered in connection with nonrecurring appropriations for 1931 amounting to several hundred thousand dollars, is accounted for largely as follows:

An increase of $58,750 is proposed for the workhouse and reformatory to provide additional employees, food, clothing, and other supplies for the increased population expected at these institutions in 1932, particularly at the reformatory, where the completion of additional housing facilities now under construction will enable it to care for a large number of District of Columbia prisoners now confined in Federal penitentiaries. It is also proposed to replace the present tugboat at a cost of $25,000.

To provide promotions, three additional nurses, one mechanic, and a larger maintenance fund, and also inclose two wards, and, among other improvements, repair the boilers and boiler house at the Tuberculosis Hospital, an increase of $21,220 is submitted.

An estimate of $250,000, together with an unexpended balance of approximately $18,000, is submitted for beginning the construction of the Children's Tuberculosis Sanatorium on the site acquired for this purpose in Maryland. It is further proposed to authorize the commissioners to enter into contract or contracts for the complete construction and equipment of this sanatorium at a cost not to exceed $508,000.

For Gallinger Hospital, the estimates provide $10,140 for promotions, and an increase of $4,000 in the repair fund.

A net increase of $47,090 is proposed for the District Training School, of which amount $5,200 is for maintenance and $10,640 for additional employees and promotions. The estimates also include $10,000 for furnishing and equipping the domestic-service building, $52,000 for heating plant additions and improvements, and $115,000 for the construction of a special ward building.

To care for 70 children now maintained in a private institution, the estimates for the Industrial Home School for Colored provide $86,000 for the construction of two cottage dormitories and additional school building facilities.

The estimates contain an increase of $66,464 for the care of a larger number of insane patients of the District of Columbia at St. Elizabeths Hospital.

One-half of the cost of operating Freedmen's Hospital is carried in an estimate of $196,030. In past years the entire appropriation for this purpose has been contained in the Interior Department appropriation act under a provision requiring one-half thereof to be paid by the District of Columbia.

Distributed in various places in the estimates is an increase of $27,180 for promotions and $12,000 for fire-protection improvements.

ANACOSTIA PARK

The estimate of $180,000 for reclamation and development of Anacostia Park is the same amount as for 1931, exclusive of the 1931 nonrecurring item of $150,000 for purchase of land.

PUBLIC BUILDINGS AND PUBLIC PARKS

Under "Public buildings and public parks" the estimate for personal services provides $6,240 for promotions and $3,740 for increase in force. For the continued development of park improvements the estimates include $100,000 for Meridian Hill Park, $279,000 for the Rock Creek and Potomac connecting parkway, $25,000 for Anacostia Park, $5,000 for the Brookland recreation center, $15,000 for the development of Langdon-Woodridge Park, $20,000 for improvement and protection of newly acquired parks and reservations, $15,000 for minor auxiliary structures, $10,000 for replacing walks, and $38,000 for athletic activities. For the park police there are increases of $15,090 on account of the increased salaries provided by the act of July 1, 1930, $3,675 for promotions, $12,250 for 6 additional privates, and $1,595 for uniforms and equipment.

NATIONAL CAPITAL PARK AND PLANNING COMMISSION

For the National Capital Park and Planning Commissiln, $50,000 is provided for expenses, and $1,000,000 for reimbursement to the United States in compliance with the act of May 29, 1930, as amended.

NATIONAL ZOOLOGICAL PARK

The estimate of $250,000 for the National Zoological Park provides for one additional keeper, the replacement of a motor truck, and an additional allowance for food

and other supplies, and includes $30,000 for the construction of a fence around the park.

WATER SERVICE

The estimates for the water service provide increases of $9,000 for operating the Washington Aqueduct; $9,120 for the transfer of six per diem employees to the annual salary roll; $41,840 for the maintenance, and $15,000 for the extension, of the distribution system; $35,000 for installation of meters; and $50,000 for replacement of old water mains. The estimates also include $181,000 for the construction of a reservoir at Fort Davis (Alabama and Pennsylvania Avenues SE.), including the laying of a water main in Pennsylvania Avenue SE., from this proposed reservoir to Thirtieth Street and Pennsylvania Avenue SE.; $320,000 for a water main from Sixth and Fairmont Streets NW., northward to Upshur Street; $13,000 for a water main from Belt Road and Fessenden Street to Wisconsin Avenue and Fessenden Street NW.; and $250,000 for a water main from Massachusetts Avenue and Upton Street to the vicinity of Thirty-sixth Street and Woodley Road NW.

PERMANENT AND INDEFINITE APPROPRIATIONS

The estimates for permanent and indefinite appropriations include increases of $250,000 for the opening and extension of streets and avenues, $40,000 for refunding erroneously collected taxes, $50,000 on account of the teachers' retirement fund, $50,000 on account of the policemen and firemen's relief fund, $175,000 for the Washington redemption fund, and $200,000 on account of miscellaneous trust-fund deposits.

CLASSIFICATION OF APPROPRIATIONS AND EXPENDITURES BY GOVERNMENTAL FUNCTIONS

[See Chart No. 2, Page A3, and Functional Table, Budget Statement No. 9, Page A129]

The following is a brief general outline of the character of expenditures or appropriations comprehended within each general function:

Legislative.—Those for the activities of Congress as a legislative body.

Judicial.—Those having to do with the judicial branch of the Government. They include all United States courts other than the District of Columbia courts which are included under "District of Columbia, Territorial, and other local governments."

Executive.—Those of the Executive Office, including the salary and expenses of the President and the salary of the Vice President.

General administration.—Those for administrative agencies which are of a general character and those departmental activities which can not now be allocated to specific functions.

Construction of general Government buildings, including sites.—Those for the construction of buildings for general administrative purposes in the District of Columbia and for buildings used for administrative purposes in common by various branches of the Government outside the District of Columbia.

National defense.—Those for military activities of the War Department and the naval and military activities of the Navy Department. Retired pay of officers and enlisted men is included.

Military pensions, annuities, compensation, homes and hospitals for war veterans, and life-insurance claims.—Those for military pensions and other forms of compensation for past military services, construction and maintenance of hospitals and soldiers' homes, and other activities of the Veterans' Administration for the care of veterans.

Foreign relations and protection of American interests abroad.—Those for the activities of the State Department in the conduct of relations of foreign governments, local representation abroad, cooperation for settlement of international controversies, and the promotion of friendly intercourse with foreign peoples.

General law enforcement.—Those for activities having to do with the enforcement of the general laws and the administration and enforcement of special acts like the national prohibition act and the narcotic act.

Provision for control of currency and banking.—Those connected with the regulation of currency and of banking through the office of the Comptroller of the Currency and Public Debt Service; the Federal Reserve Board; the Bureau of the Mint; and the Bureau of Engraving and Printing.

Administration of Indian affairs.—Those for the care and education of the Indian wards of the Nation.

Administration of the public domain.—Those having to do with the care and utilization of public lands, the national forests and national parks.

Promotion and regulation of commerce and industry.—Those for activities having to do with the promotion and regulation of commerce and industry.

Promotion and regulation of aerial transportation.—Those for the promotion and regulation of commercial aerial transportation as distinguished from aerial activities in the Army, Navy and Marine Corps which is included under national defense.

as may be agreed upon by the Public Printer and the department or establishment concerned. All sums paid to the Public Printer for work that he is authorized by law to do shall be deposited to the credit, on the books of the Treasury Department, of the appropriation made for the working capital of the Government Printing Office, for the year in which the work is done, and be subject to requisition by the Public Printer.

All amounts in the Budget for the fiscal year [1932] *1933* for printing and binding for any department or establishment, so far as the Bureau of the Budget may deem practicable, shall be incorporated in a single item for printing and binding for such department or establishment and be eliminated as a part of any estimate for any other purpose. And if any amounts for printing and binding are included as a part of any estimates for any other purposes, such amounts shall be set forth in detail in a note immediately following the general estimate for printing and binding: *Provided*, That the foregoing requirements shall not apply to work to be executed at the Bureau of Engraving and Printing.

No part of any money appropriated in this act shall be paid to any person employed in the Government Printing Office while detailed for or performing service in any other executive branch of the public service of the United States unless such detail be authorized by law (*act June 6, 1930, vol. 46, p. 520*).

Equipment, Government Printing Office Building—

Expenditures from prior appropriation:

New Building for the Government Printing Office—

There is hereby authorized an appropriation of not to exceed $4,000,000 for demolishing and removing old buildings now owned by the United States and occupied by the Government Printing Office on the site bounded on the north by H Street Northwest, on the east by North Capitol Street, on the south by area formerly known as Jackson Alley, and extending west approximately three hundred and eighty-four feet from North Capitol Street, and for constructing on said site or a part thereof a suitable building for the use of the Government Printing Office, connecting with the present main building and including elevators, conveyors, steel shelving, and heating, lighting, plumbing, and other necessary fixtures: Provided, That the preparation of plans, advertisement for bids, and award of contracts therefor and the supervision and approval of the work shall be under the direction of the Secretary of the Treasury, who is hereby authorized and directed to enter into contracts for the undertaking and completing the entire work at not to exceed the specified limit of cost: Provided further, That the demolition of the old buildings and the plans and design of the new building shall be subject to approval by the Public Printer. To begin and carry on the work according to the foregoing authorization the sum of $1,000,000 is hereby appropriated, to remain available until expended (*submitted*).

Estimate 1932, $1,000,000

32 Structures and parts (buildings): Expenditures—1932, $1,000,000.

NOTE.—The old buildings, with wooden floors and supports and rambling interior construction, have been repeatedly condemned as a fire trap and serious fire hazard to the entire plant, and Army engineers have placed the safe load limit at a very low point. The weakened condition prevents proper and efficient use of the old buildings; constant and extensive repair is necessary, and lack of usable space requires expensive outside rental for storage purposes. The rapidly increasing work of the Government Printing Office demands additional operating room, which only can be secured by erection of the new building herein estimated for. The urgent need of a new building was fully set forth in the Annual Report of the Public Printer, 1929 (pp. 41, 42).

OFFICE OF THE SUPERINTENDENT OF DOCUMENTS

Salaries, Office of the Superintendent of Documents—

For the Superintendent of Documents, assistant superintendent, and other personal services in accordance with the classification act of 1923, as amended (U. S. C., title 5, secs. 661–673; U. S. C., Supp. III, title 5, sec. 673; *act July 3, 1930, vol. 46, pp. 1003–1005*), and compensation of employees paid by the hour who shall be subject to the provisions of the act entitled "An act to regulate and fix rates of pay for employees and officers of the Government Printing Office," approved June 7, 1924 (U. S. C., title 44, sec. 40), [$524,000] *$550,000*: *Provided*, That for the purpose of conforming to section 3 of this act this appropriation shall be considered a separate appropriation unit (*U. S. C., title 44, sec. 75; act June 6, 1930, vol. 46, p. 520*).

SEC. 2. In expending appropriations or portions of appropriations, contained in this act, for the payment for personal services in the District of Columbia in accordance with the classification act of 1923, as amended [(U. S. C., title 5, secs. 661–673; U. S. C., Supp. III, sec. 673)], *with the exception of the commissioners of the Civil Service Commission and the Employees' Compensation Commission*, the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such act as amended, and in grades in which only one position is allocated the salary of such position shall not exceed the average of the compensation rates for the grade except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade but not more often than once in any fiscal year and then only to the next higher rate: *Provided*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed as of July 1, 1924, in accordance with the rules of section 6 of such act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade in the same or a different bureau, office, or other appropriation unit, or (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the classification act of 1923, as amended, and is specifically authorized by other law (*U. S. C., title 5, secs. 661–673; U. S. C., Supp. III, title 5, sec. 673; act July 3, 1930, vol. 46, pp. 1003–1005*).

SEC. 3. When specifically approved by the head of any independent bureau or establishment provided for herein, transfers may be made between the appropriations in this act under the respective jurisdiction of any bureau, office, institution, or service, in order to meet increases in compensation resulting from the reallocation by the Personnel Classification Board of positions under any such organization unit. Any such transfers shall be reported to Congress in the annual Budget.

SEC. 4. Whenever, during the fiscal year ending June 30, [1931] *1932*, the executive head of any independent bureau, office, or establishment appropriated for in this act shall find that the expenses of travel, including travel at official stations, can be reduced thereby, he may authorize, in lieu of actual operating expenses, under such regulations as he may prescribe, the payment of not to exceed 3 cents per mile for motor cycles or 7 cents per mile for an automobile used for necessary travel on official business.

SEC. 5. This act hereafter may be referred to as the "Independent Offices Act, [1931] *1932*."

Permanent specific appropriation:
Cooperative Agricultural Extension Work—

For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, there is permanently appropriated $480,000 for each year, $10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the act. There was also appropriated an additional sum of $600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven years a sum exceeding by $500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of $4,100,000 in addition to the sum of $480,000. The additional sums are allotted annually to each State by the Secretary of Agriculture and paid in the proportion which the rural population of each State bears to the total rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work. On May 16, 1928 (U. S. C., Supp. III, title 7, secs. 386–386b), this appropriation was amended to include a permanent allotment to the Territory of Hawaii of $10,000 plus an additional sum of $12,935.43, subject to the same terms and conditions as the original act. The permanent annual appropriation was thereby increased to $4,602,935.43 (*U. S. C., title 7, secs. 342, 343; U. S. C., Supp. III, title 7, secs. 386–386b*),

BUREAU OF ANIMAL INDUSTRY

Salaries and Expenses, Bureau of Animal Industry—

For carrying out the provisions of the act approved May 29, 1884 (U. S. C., title 7, sec. 391; title 21, secs. 112–119, 130), establishing a Bureau of Animal Industry, and the provisions of the act approved March 3, 1891 (U. S. C., title 45, secs. 75, 76), providing for the safe transport and humane treatment of export cattle from the United States to foreign countries, and for other purposes; the act approved August 30, 1890 (U. S. C., title 21, secs. 101–105), providing for the importation of animals into the United States, and for other purposes; and the provisions of the act approved February 2, 1903 (U. S. C., title 21, secs. 111–113, 120–122), to enable the Secretary of Agriculture to more effectually suppress and prevent the spread of contagious and infectious diseases of livestock, and for other purposes; and also the provisions of the act approved March 3, 1905 (U. S. C., title 21, secs. 123–128), to enable the Secretary of Agriculture to establish and maintain quarantine districts, to permit and regulate the movement of cattle and other livestock therefrom, and for other purposes; and for carrying out the provisions of the act of June 29, 1906 (U. S. C., title 45, secs. 71–74), entitled "An act to prevent cruelty to animals while in transit by railroad or other means of transportation"; and for carrying out the provisions of the act approved March 4, 1913 (U. S. C., title 21, secs. 151–158), regulating the preparation, sale, barter, exchange, or shipment of any virus, serum, toxin, or analogous products manufactured in the United States and the importation of such products intended for use in the treatment of domestic animals; and for carrying out the provisions of the packers and stockyards act, approved August 15, 1921 (U. S. C., title 7, secs. 181–229); and to enable the Secretary of Agriculture to collect and disseminate information concerning livestock and animal products; to prepare and disseminate reports on animal industry; to employ and pay from the appropriation herein made as many persons in the city of Washington or elsewhere as he may deem necessary; to purchase in the open market samples of all tuberculin, serums, antitoxins, or analogous products, of foreign or domestic manufacture, which are sold in the United States, for the detection, prevention, treatment, or cure of diseases of domestic animals, to test the same, and to disseminate the results of said tests in such manner as he may deem best; to purchase and destroy diseased or exposed animals, including poultry, or quarantine the same whenever in his judgment essential to prevent the spread of pleuropneumonia, tuberculosis, contagious poultry diseases, or other diseases of animals from one State to another, as follows (*U. S. C., title 5, secs. 511, 512; title 7, secs. 181–229, 391; title 21, secs. 101–105, 111–127, 130, 151–158; title 45, secs. 71–76; act May 27, 1930, vol. 46, pp. 399–403*):

For necessary expenses for general administrative purposes, including the salary of chief of bureau and other personal services in the District of Columbia (*U. S. C., title 5, secs. 511, 512; title 7, secs. 181–229, 391; title 21, secs. 101–105, 111–127, 130, 151–158; title 45, secs. 71–76; act May 27, 1930, vol. 46, p. 403*),

Permanent specific appropriation:

National Forest Reservation Commission—

A sum sufficient to pay the necessary expenses of the commission and its members, not to exceed an annual expenditure of $25,000, has been appropriated, to be paid out on the audit and order of the president of the commission, which audit and order is conclusive and binding upon all departments as to the correctness of the accounts of the commission (*U. S. C., title 16, secs. 513, 514*).

Special funds:

Payments to States and Territories from the National Forests Fund—

Twenty-five per cent of all money received from each forest reserve during any fiscal year is paid at the end thereof by the Secretary of the Treasury to the State or Territory in which the reserve is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which the forest reserve is situated. When any forest reserve is in more than one State or Territory or county, the distributive share to each from the proceeds of the reserve is proportional to its area therein (*U. S. C., title 16, sec. 500*).

Estimate 1932, **$1,600,000** Appropriated 1931, **$1,600,000**

22 Grants to States: Expenditures—1932, $1,600,000; 1931, $1,677,559; 1930, $1,564,640.

Cooperative Work, Forest Service—

All moneys received as contributions toward cooperative work in forest investigations, or the protection and improvement of the national forests, including deposits received from timber purchases to cover the cost to the United States of disposing of brush and other débris resulting from cutting operations in sales of national-forest timber, are covered into the Treasury and constitute a special fund, which is appropriated and made available until expended, as the Secretary of Agriculture may direct, for the payment of the expenses of the investigations, protection, or improvements by the Forest Service, and for refunds to the contributors of amounts paid in by them in excess of their share of the cost of the investigations, protection, or improvements (*U. S. C., title 16, sec. 498*).

Estimate 1932, **$1,700,000** Appropriated 1931, **$1,700,000**

BUREAU OF AGRICULTURAL ENGINEERING

NOTE.—In recognition of the increasing importance of the science of engineering as applied to agriculture, it is proposed to set up as a separate bureau organization the agricultural engineering work of the department which for a number of years has been conducted as a Division of Agricultural Engineering in the Bureau of Public Roads. The estimates for the Bureau of Agricultural Engineering consist of the appropriation of the Division of Agricultural Engineering, which is transferred from the Bureau of Public Roads, a portion of the Bureau of Public Roads appropriation for general administration similarly transferred, and increased funds for extending the work in agricultural engineering in certain directions. The changes are shown below as well as under the Bureau of Public Roads.
