SPECIAL FUND

Proceeds from Processing Taxes, Agricultural Adjustment Administration—

SEC. 12 (b) In addition to the foregoing (see appropriation under sec. 12 (a), p. —), the proceeds derived from all taxes imposed under this title are hereby appropriated to be available to the Secretary of Agriculture for expansion of markets and removal of surplus agricultural products and the following purposes under part 2 of this title: Administrative expenses, rental and benefit payments, and refunds on taxes. The Secretary of Agriculture and the Secretary of the Treasury shall jointly estimate from time to time the amounts, in addition to any money available under subsection (a), currently required for such purposes; and the Secretary of the Treasury shall, out of any money in the Treasury not otherwise appropriated, advance to the Secretary of Agriculture the amounts so estimated. (See preceding indefinite appropriation.) The amount of any such advance shall be deducted from such tax proceeds as shall subsequently become available under this subsection (Agricultural Adjustment Act, Public, No. 10, 73d Cong., May 12, 1933, 48 Stat., p. 38).

Permanent appropriation, special fund:

Special Deposits (Cotton)—

This fund operates to take care of the financial transactions in connection with the acquisition and disposition of spot cotton and cotton futures contracts by the Secretary of Agriculture, as provided for by part 1, title I of the Agricultural Adjustment Act approved May 12, 1933, and the disposition of the proceeds from the sale of such cotton holdings as follows:

(a) The excess of the sales price at which options are exercised over 6 cents per pound (the price at which the Secretary of Agriculture sells cotton to producers) is paid to producers.

(b) The 1-cent excess of the price at which the Secretary sells cotton to producers (6 cents) over the purchase price of the cotton from the Farm Credit Administration (5 cents basis price) is to be used to cover the carrying charges on the cotton holdings.

No acreage payments or administrative expenses are disbursed from this fund.

The following is a statement of the receipts and disbursements from this fund for the period July 25 to October 31, 1933:

1. The repayment of all loans.
2. The carrying charges on the cotton.
3. Payments due producers by virtue of their option contracts.

The receipts and disbursements for this fund during subsequent periods will depend almost entirely upon:

1. Sales of cotton holdings.
2. Payments to producers on account of options exercised.
3. Loans made.
4. Loans repaid.

The fixed monthly carrying costs on the present stock of spot cotton is approximately as follows:

1. Storage charges.....	\$200,000

During the fiscal year [1934] 1935, the head of any department or independent establishment of the Government having funds available for scientific and technical investigations and requiring cooperative work by the Geological Survey on scientific and technical investigations within the scope of the functions of that bureau and which it is unable to perform within the limits of its appropriations may, with the approval of the Secretary of the Interior, transfer to the Geological Survey such sums as may be necessary to carry on such investigations. The Secretary of the Treasury shall transfer on the books of the Treasury Department any sums which may be authorized hereunder, and such amounts shall be placed to the credit of the Geological Survey for the performance of work for the department or establishment from which the transfer is made: *Provided*, That any sums transferred by any department or independent establishment of the Government to the Geological Survey for cooperative work in connection with this appropriation may be expended in the same manner as sums appropriated herein may be expended: *Provided further*, That any funds herein appropriated for the Geological Survey for cooperative work may be utilized prior to July 1, [1933] 1934, as required to enable the Geological Survey to continue its cooperative work pending reimbursement from cooperative agencies, the amount so utilized to be repaid to the appropriation from which advanced (*act Feb. 17, 1933, 47 Stat., p. 847*).

During the fiscal year [1934] 1935, upon the request of the Secretary of the Interior, the Secretary of War or the Secretary of the Navy is authorized to furnish aerial photographs required for mapping projects, in so far as the furnishing of such photographs will be economical to the Federal Government and does not conflict with military or naval operations or the other parts of the regular training program of the Army, Navy, and Marine Corps flying services, and the Secretary of the Interior is authorized to reimburse the War or Navy Department for the cost of making the photographs, such cost to be confined to the actual cost of gasoline, oil, film, paper, chemicals, and the labor performed in developing the photographic negatives and the printing of copies of photographs, and the per diem expenses of the personnel authorized by law, together with such incidental expenses as care and minor repairs to plane and transportation of personnel to and from projects, and the War Department or the Navy Department, on request of the Department of the Interior, is authorized to furnish copies to any State, county, or municipal agency cooperating with the Federal Government in the mapping project for which the photographs were taken. In the event that the Director of the

Geological Survey deems it advantageous to the Government, the Geological Survey is authorized to contract with civilian aerial photographic concerns for the furnishing of such photographs (*act Feb. 17, 1933, 47 Stat., pp. 847-848*).

Appropriations herein made shall be available for payment of the costs of packing, crating, and transportation (including drayage) of personal effects of employees upon permanent change of station, under regulations to be prescribed by the Secretary of the Interior (*act Feb. 17, 1933, 47 Stat., p. 848*).

Total, increase of the Navy, annual appropriations, general fund:

Estimate 1935, **\$32,419,334**Appropriated 1934, **\$33,412,785**

That in the expenditure of appropriations in this Act the Secretary of the Navy shall, unless in his discretion the interest of the Government will not permit, purchase or contract for, within the limits of the United States, only articles of the growth, production, or manufacture of the United States, notwithstanding that such articles of the growth, production, or manufacture of the United States may cost more, if such excess of cost be not unreasonable.

The appropriations made in this Act for the purchase or manufacture of equipment or material or of a particular class of equipment or material shall be available for the purchase of letters patent, applications for letters patent, licenses under letters patent, and applications for letters patent that pertain to such equipment or material for which the appropriations are made.

No part of any appropriation made for the Navy shall be expended for any of the purposes herein provided for on account of the Navy Department in the District of Columbia, including personal services of civilians and of enlisted men of the Navy, except as herein expressly authorized: *Provided*, That there may be detailed to the Bureau of Navigation not to exceed at any one time six enlisted men of the Navy: *Provided further*, That enlisted men detailed to the naval dispensary and the radio communication service shall not be regarded as detailed to the Navy Department in the District of Columbia.

No part of the appropriations made in this Act shall be available for the salary or pay of any officer, manager, superintendent, foreman, or other person or persons having charge of the work of any employee of the United States Government while making or causing to be made with a stop watch or other time-measuring device a time study of any job of any such employee between the

starting and completion thereof, or of the movements of any such employee while engaged upon such work; nor shall any part of the appropriations made in this Act be available to pay any premiums or bonus or cash reward to any employee in addition to his regular wages, except for suggestions resulting in improvements or economy in the operation of any Government plant; and no part of the moneys herein appropriated for the Naval Establishment or herein made available therefor shall be used or expended under contracts hereafter made for the repair, purchase, or acquirement, by or from any private contractor, of any naval vessel, machinery, article or articles that at the time of the proposed repair, purchase, or acquirement can be repaired, manufactured, or produced in each or any of the Government navy yards or arsenals of the United States, when time and facilities permit, and when, in the judgment of the Secretary of the Navy, such repair, purchase, acquirement, or production would not involve an appreciable increase in cost to the Government: *Provided*, That nothing herein shall be construed as altering or repealing the proviso contained in section 1 of the Act to authorize the construction of certain naval vessels, approved February 13, 1929, which provides that the first and each succeeding alternate cruiser upon which work is undertaken, together with the main engines, armor, and armament shall be constructed or manufactured in the Government navy yards, naval gun factories, naval ordnance plants, or arsenals of the United States, except such material or parts as are not customarily manufactured in such Government plants (*act Mar. 3, 1933, 47 Stat., pp. 1540-1541*).
