**AGRICULTURAL ADJUSTMENT ADMINISTRATION**

The activities of the Agricultural Adjustment Administration are of such an emergency character that, at the time of preparation of the Budget estimates, it is impossible to forecast, with any reasonable degree of accuracy, the work that will be carried on in the fiscal year ending June 30, 1936. If the national economic emergency in relation to agriculture should end and this fact should be proclaimed by the President, operations under the act would cease entirely. If the economic emergency in relation to agriculture should continue, the amount of obligations to be incurred in the coming fiscal year, particularly with respect to rental and benefit payments in connection with adjustment in the production of basic agricultural commodities, will be largely determined by the disparity then existing between the prices of agricultural and other commodities. The

factors which will determine this relationship are so complex that they cannot be forecast.

No attempt has been made, therefore, to reflect in the ensuing statements actual estimates of obligations which will be incurred in the fiscal year ending June 30, 1936, except in the appropriation entitled "General expenses, Agricultural Adjustment Administration, 1934, December 31, 1935," wherein obligations in the fiscal year 1936 are estimated at \$9,000,000. This estimate reflects completion of a cattle-disease eradication program which is being carried on by the Bureau of Animal Industry in cooperation with the Agricultural Adjustment Administration pursuant to the provisions of the Agricultural Adjustment Act, as amended by an act approved April 7, 1934.

Compliance with established budgetary procedure requires estimated obligations in the fiscal year 1936 for those appropriations already made under which funds will continue available for obligations. Therefore, estimated obligations in the fiscal year 1936 for the two appropriations, "Salaries and expenses, Agricultural Adjustment Administration", and "Advances to Agricultural Adjustment Administration" are placed in total, without supporting details, at amounts which are comparable in certain respects with estimated expenditures in the fiscal year 1935. It should be understood, however, that these amounts show only an approximate estimate of obligations which will be incurred. As already indicated, existing conditions make it impossible to state this estimate in any detail.

*Salaries and Expenses, Agricultural Adjustment Administration—*

NOTE.—The sum of \$100,000,000 was appropriated in accordance with the provisions of section 12 (a), title I, of the act of May 12, 1933 (Public, No. 10, 73d Cong., 48 Stat., p. 38), to be available to the Secretary of Agriculture for administrative expenses under this title and for rental and benefit payments made with respect to reduction in acreage or reduction in production for market under part 2 of this title. Such sum of \$100,000,000 remains available until expended.

SPECIAL FUND

Proceeds from Processing Taxes, Agricultural Adjustment Administration—

SEC. 12 (b). In addition to the foregoing (see appropriation under sec. 12 (a), p. —), the proceeds derived from all taxes imposed under this title are hereby appropriated to be available to the Secretary of Agriculture for expansion of markets and removal of surplus agricultural products and the following purposes under part 2 of this title: Administrative expenses, rental and benefit payments, and refunds on taxes. The Secretary of Agriculture and the Secretary of the Treasury shall jointly estimate from time to time the amounts, in addition to any money available under subsection (a), currently required for such purposes; and the Secretary of the Treasury shall, out of any money in the Treasury not otherwise appropriated, advance to the Secretary of Agriculture the amounts so estimated. (See preceding indefinite appropriation.) The amount of any such advance shall be deducted from such tax proceeds as shall subsequently become available under this subsection (acts May 12, 1933, 48 Stat., p. 38; May 9, 1934, 48 Stat., pp. 670-678).

Purchase of Surplus Sugar from Processing Taxes, Agricultural Adjustment Administration—

SEC. 17 (d) The Secretary of Agriculture is authorized to purchase, out of such proceeds of taxes as are available thereof, during the period this Act is in effect with respect to sugar beets and sugarcane, not in excess of three hundred thousand tons of sugar raw value from the surplus stocks of direct-consumption sugar produced in the United States beet-sugar area, at a price not in excess of the market price for direct-consumption sugar on the date of purchase, and to dispose of such sugar by sale or otherwise, including distribution to any organization for the relief of the unemployed, under such conditions and at such times as will tend to effectuate the declared policy of section 8a of this Act. The sugar so purchased shall not be included in the quota for the United States beet-sugar area. All proceeds

received by the Secretary of Agriculture, in the exercise of the powers granted hereby, are appropriated to be available to the Secretary of Agriculture for the purposes described in subsection (a) and (b) of section 12 of this Act (act May 9, 1934, 48 Stat., p. 678).

2272 Removal of surplus agricultural products (sugar): Obligations—1935, \$8,000,000.

General Expenses, Agricultural Adjustment Administration—

【To enable the Secretary of Agriculture to carry out the purposes of the Act entitled "An Act to amend the Agricultural Adjustment Act so as to include cattle and other products as basic agricultural commodities, and for other purposes" (Public, No. 142, 73d Cong.), approved April 7, 1934, there are hereby appropriated, out of any money in the Treasury not otherwise appropriated, pursuant to the authorizations contained in sections 2 and 6 of said Act of April 7, 1934, \$100,000,000 for the purposes of the Agricultural Adjustment Act, as amended, and \$50,000,000 for the purposes specified in section 6 of said Act of April 7, 1934, including the employment of persons and means in the District of Columbia and elsewhere and other necessary expenses; in all, \$150,000,000, to remain available until December 31, 1935】 (act May 25, 1934, 48 Stat., p. 805).

Advances to Secretary of Agriculture for Cotton—

NOTE.—Section 4 (b) of the act of June 19, 1934, authorizes the Secretary of the Treasury to advance, in his discretion, out of any money in the Treasury not otherwise appropriated, the sum of \$100,000,000 to be available until Mar. 1, 1936, to the Secretary of Agriculture, for paying off any debt or debts which may have been or may be incurred by the Secretary of Agriculture and discharging any lien or liens which may have arisen or may arise pursuant to part 1 of this title, for protecting title to any cotton which may have been or may be acquired by the Secretary of Agriculture under authority of part 1 of this title. Section (c) provides that the funds authorized by subsection (b) shall be made available to the Secretary of Agriculture from time to time upon his request and with the approval of the Secretary of the Treasury (Public, No. 412, 73d Cong., 48 Stat. p. 1058).

Permanent appropriation, special fund:

Special Deposits (Cotton)—

This fund operates to take care of the financial transactions in connection with the acquisition and disposition of spot cotton and cotton futures contracts by the Secretary of Agriculture, as provided for by part 1, title I, of the Agricultural Adjustment Act approved May 12, 1933, and the disposition of the proceeds from the sale of such cotton holdings as follows:

- (a) The excess of the sales price at which options are exercised over 6 cents per pound (the price at which the Secretary of Agriculture sells cotton to producers) is paid to producers.
- (b) The 1-cent excess of the price at which the Secretary sells cotton to producers (6 cents) over the purchase price of

the cotton from the Farm Credit Administration (5 cents basis price) is to be used to cover the carrying charges on the cotton holdings.

No acreage payments or administrative expenses are disbursed from this fund.

*Special Deposits, Agricultural Adjustment Administration—*

This fund operates to take care of financial transactions in connection with the acquisition and disposition of spot cotton and cotton futures contracts by the Secretary of Agriculture as provided for by part 1, title I, of the Agricultural Adjustment Act, approved May 12, 1933, as amended, and the disposition of the proceeds from the sale of such cotton holdings in the following manner:

- (a) The excess of the price at which cotton is sold over 6 cents per pound (price at which the Secretary of Agriculture options cotton to producers) is paid to producers when the sale results from the exercise of an option by producers or is paid to the 1933 Cotton Producers Pool when the sale is of cotton transferred to the pool by cotton option holders.
- (b) The 1-cent excess of the price at which the Secretary sells cotton to producers by option (6 cents) over the purchase price of cotton from the Farm Credit Administration (5 cents basis price) is used to cover the carrying charges on cotton holdings.

No acreage payments are disbursed from this fund. The following is a statement of the receipts and disbursements from this fund for the period July 25, 1933, to June 30, 1934:

<b>Net expenditures.....</b>	<b>96,918,046.03</b>
Unexpended balance, June 30, 1934.....	4,824,417.53

This fund does not depend upon any appropriation for replenishment as the proceeds from the sale of cotton holdings will presumably take care of:

1. The repayment of all loans.
2. Carrying charges and expenses of handling the cotton.
3. Payments to producers by virtue of their option contracts.

Receipts and disbursements for this fund during subsequent periods will depend almost entirely upon:

1. Sales of cotton holdings.
2. Payments to producers on account of options exercised.
3. Loans made.
4. Loans repaid.
5. Transfer of \$100,000,000 to this account from the appropriation "Advances to Secretary of Agriculture for cotton, 1934, March 1, 1936."

The monthly carrying costs on the present holdings of spot cotton are approximately \$326,000.

It is estimated that \$100,000,000 will be transferred during the fiscal year 1935 from the appropriation "Advances to Secretary of Agriculture for cotton, 1934, March 1, 1936," to be used as necessary for the repayment of loans and other purposes as authorized by section 4 (b) of the Agricultural Adjustment Act as amended by the Emergency Appropriation Act for the fiscal year 1935, approved June 19, 1934.

*Special Deposits, Cotton Pool—*

This fund operates to take care of financial transactions in connection with the 1933 Cotton Producers' Pool. The only

transaction involved to June 30, 1934, consisted of borrowings of 4 cents per pound on cotton held by the pool and payments to participants in the pool of a like amount.

It is anticipated that in the future, as cotton owned by the pool is liquidated, the pool's net equity in the proceeds of such sales will be deposited in this fund and then distributed pro rata to the participants in the pool.

The following is a statement of cash receipts and disbursements from this fund for the period January 12 to June 30, 1934:

RECEIPTS	
Loans from Commodity Credit Corporation .....	\$38,964,514.08
DISBURSEMENTS	
Distributions to producers.....	38,963,448.79

## EXPLANATORY SYNOPSIS

The functions of the Farm Credit Administration are to supervise and regulate the activities of the Federal land banks, Federal intermediate credit banks, joint-stock land banks, and national farm loan associations, organized under the Federal Farm Loan Act; the regional agricultural credit corporations organized under the Emergency Relief and Construction Act of 1932; the banks for cooperatives, production credit corporations, and production credit associations, organized under the Farm Credit Act of 1933; the Federal Farm Mortgage Corporation organized under the Federal Farm Mortgage Corporation Act; and the Federal credit unions organized under the Federal Credit Union Act. The administration is further charged with the responsibility for making and collecting loans to cooperative marketing and purchasing associations under the Agricultural Marketing Act; farmers' seed, feed, grain, crop production and drought relief loans, under various provisions of law relating to advances to farmers; and loans to joint-stock land banks; and for certifying payments to Federal land banks under the Emergency Farm Mortgage Act of 1933

for reduction of interest and deferment of principal installments granted to their borrowers.

For the fiscal year 1936 the amount estimated for appropriation for cost of administration by the Farm Credit Administration of the various activities under its jurisdiction is an increase of \$1,173,612 over the appropriation for 1935, of which \$354,098 is for restoration of the remaining 5 percent of legislative reduction in compensation, and \$819,514 is for other objects of expenditure. While the amount required to be *appropriated* for 1936 is an increase over 1935, actually the total cost of administration in 1936 will be \$2,783,171 less than the cost for 1935. However, the total of the amounts which the Farm Credit Administration, as a supervisory and regulatory agency, can properly charge in 1936 against the funds of its subsidiary agencies will be \$3,956,783 less than in 1935, and because of this it is necessary that the amount to be appropriated be increased. This is due to the fact that the decrease in the emergency activities was occasioned in part by a shifting of emergency loans to a nontemporary basis, thus increasing the burden of administrative supervision.

## FEDERAL FARM MORTGAGE CORPORATION

【SEC. 32. The Reconstruction Finance Corporation is authorized and directed to allocate and make available to the Farm Loan Commissioner the sum of \$200,000,000, or so much thereof as may be necessary, to be used for the purpose of making loans as herein-after provided to any farmer, secured by a first or second mortgage upon the whole or any part of the farm property, real or personal, including crops, of the farmer. \* \* \*】 (act of May 12, 1933, 48 Stat., p. 48).

【SEC. 1. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That there is hereby established a corporation to be known as the "Federal Farm Mortgage Corporation", hereinafter in this Act referred to as the "corporation." The principal office of the corporation shall be located in the District of Columbia and the management of the corporation shall be vested in a board of directors consisting of the Secretary of the Treasury, or an officer of the Treasury designated by him, the Governor of the Farm Credit Administration, hereinafter in this Act referred to as the "Governor", and the Land Bank Commissioner \* \* \*】

【SEC. 3. The capital of the corporation shall be in the sum of \$200,000,000; which shall be subscribed by the Governor on behalf of the United States in such amounts and at such times as he deems necessary for the purposes of the corporation. For the purpose of such capital subscription, the funds and proceeds thereof made available to the Land Bank Commissioner under section 32 of the Emergency Farm Mortgage Act of 1933 and the mortgages taken by the Commissioner and the credit instruments secured thereby are hereby transferred to the corporation】 (act Jan. 31, 1934, 48 Stat., pp. 344-345).

### EXPLANATORY SYNOPSIS

Of the total net increase of \$1,850,467 in the Budget estimates of annual appropriations for 1936 over the annual appropriations for 1935, \$1,275,748 represents restoration of the remaining 5-percent legislative reduction in the compensation of officers and employees.

The principal items of increase and decrease involved in the remainder of the net increase in annual appropriations, namely, \$574,719, and in the net increase of \$106,500 in permanent appropriations are mentioned below.

#### OFFICE OF THE SECRETARY

This unit includes items of appropriation for salaries of the personnel of the Secretary's office and contingent expenses and printing and binding for the Department except the Patent Office and the census of agriculture. The net increase of \$73,945 includes gross decreases of \$13,932 for salaries, \$13,275 for contingent expenses, and \$37,442 for printing and binding, all incidental to the transfer of disbursing activities to the Division of Disbursement, Treasury Department, and the Bureau of Mines to the Department of the Interior. Increases contemplate a \$3,200 administrative assistant to an assistant secretary; \$3,500 for replacement of automobile for the Secretary; \$10,000 for increased prices and replacement of depleted office supplies and equipment; \$5,100 for con-

tingent items heretofore paid for from appropriations for the Stabilization Office, Bureau of Foreign and Domestic Commerce, and the Lighthouse Bureau; and a gross increase of \$117,030 for printing and binding, involving \$55,000 for increased prices and \$62,030 for necessary printing for the various bureaus, particularly the Census, Foreign and Domestic Commerce, Standards, Air Commerce, and Navigation and Steamboat Inspection.

#### FEDERAL EMPLOYMENT STABILIZATION OFFICE

A decrease of \$13,376 which will permit the office to maintain existing personnel and to carry on as now operating.

#### BUREAU OF AIR COMMERCE

An increase of \$186,521 includes additional amounts of \$21,000 for departmental personnel, \$5,600 for field personnel, \$2,000 for gas and oil, and \$2,500 for miscellaneous purposes, all in the appropriation "Aircraft in Commerce"; and \$5,760 for departmental personnel and \$149,660 for field expenses, both in the appropriation "Air-Navigation Facilities", incidental to operation of approximately 3,300 additional miles of lighted airways constructed and now being constructed from emergency fund allotments.

## BUREAU OF FOREIGN AND DOMESTIC COMMERCE

A net increase of \$170,294 includes increases of \$8,385 in the item "Salaries of the Bureau in the District of Columbia", \$44,930 for promoting foreign commerce, \$19,080 for district and cooperative offices, a gross increase of \$25,510 for domestic commerce involving a decrease of \$3,000 for purposes provided for in the item for contingent expenses of the Department, \$28,310 for customs statistics, \$9,500 for lists of foreign buyers, \$8,815 for compiling foreign trade statistics, and \$28,810 for the new item "Foreign Trade Zones" pursuant to the act of June 18, 1934.

## BUREAU OF THE CENSUS

A net decrease of \$746,185 includes (1) a net increase of \$200,565 in the item "Salaries and expenses", embracing gross increases of \$195,565 for the biennial census of manufactures and \$100,000 for vital statistics, financial statistics of cities, the geographer's division, and other statistical work, and a decrease of \$95,000 for the completed census of electrical industries and financial statistics of State and local governments; (2) a reduction of \$946,750 for the census of agriculture. Appropriation of the amount of the Budget estimate for 1936 will have made available a total of \$4,885,000, including \$1,000,000 allotted from emergency funds, for the census of agriculture, and should be sufficient for its completion.

## BUREAU OF NAVIGATION AND STEAMBOAT INSPECTION

An increase of \$122,215 includes \$68,000 for maintaining the former sea service section of the Merchant Fleet Corporation transferred to this Bureau, \$24,270 for the operation of a new vessel constructed from an allotment of emergency funds, \$3,175 to reopen the office of shipping commissioner at Portland, Oreg., \$15,000 to reduce furloughs in the field, \$6,200 for increased prices, and \$5,570 for additional field personnel.

## BUREAU OF STANDARDS

An increase of \$233,277 is for strengthening most of the activities of the Bureau, the larger items of increase being \$56,200 for Bureau salaries; \$10,000 for equipment; \$12,000 for general expenses; \$29,680 for testing structural materials; \$11,430 for radio research; \$11,440 for testing railroad and mine scales; \$30,000 for industrial research; \$14,000 for standardization of equipment; \$14,500 for investigation of automotive engines, fuel, and lubricants; and \$8,000 for the hydraulic laboratory.

## BUREAU OF LIGHTHOUSES

An increase of \$207,406 includes \$3,900 for Bureau salaries, \$114,140 for general expenses incident to increased prices and the maintenance of additional aids to navigation installed from emergency fund allotments, \$21,860 for salaries of lighthouse keepers, which will be converted into a decrease of \$5,140 upon consummation of a contemplated transfer of \$27,000 in the current year to this appropriation, \$14,180 for the additional cost of manning a new and larger lightship to replace one rammed and sunk off Nantucket, \$9,500 for additional personnel in district offices, and \$43,800 for retired pay.

## COAST AND GEODETIC SURVEY

A net decrease of \$4,626 includes increases of \$2,550 for magnetic observations, \$600 for a hydrographic survey for the Bureau of Lighthouses, \$6,800 for vessel repairs, \$35,900 for pay of commissioned officers incident to the resumption of payment of longevity increases and changes in pay periods, \$15,746 for additional departmental personnel to process field data obtained from allotments of emergency funds, and \$5,000 for chart and bond paper for this work; decreases of \$14,650 for hydrographic work, \$20,900 for boundary and State surveys, and \$35,175 for personnel of vessels, all caused by the progress made in the current year from emergency fund allotments.

## BUREAU OF FISHERIES

A net increase of \$39,559 includes increases of \$2,890 for departmental personnel, \$17,786 to operate additional hatcheries constructed from emergency funds, \$4,600 to operate a plant in the Pribilof Islands for the annual utilization of carcasses of approximately 40,000 fur seal from which is expected sufficient revenue to cover operating costs, and \$14,430 for a new item made necessary by the Fisheries Cooperative Marketing Act of June 25, 1934, and a decrease of \$525 in the item "Upper Mississippi River Fish Refuge."

## PATENT OFFICE

An increase of \$330,439 includes increases of \$83,069 for 60 additional clerical positions, \$113,970 for reallocation in grades of the examining personnel, \$5,000 for law and reference books, \$45,000 for reproducing copies of patents, \$2,000 for filing cases and \$95,000 for printing due to increased prices incident to the provisions of section 23 of the Independent Offices Appropriation Act, 1935, and the increase in cost of paper; and decreases of \$13,300 for a reduction of seven in the number of junior examiners and \$300 to absorb the cost of investigating public use or sale of inventions.

## SHIPPING BOARD BUREAU

A decrease of \$24,750. The amount of the estimate provides \$149,600 for salaries of the present personnel and \$56,000 for salaries of employees now on the rolls of the Merchant Fleet Corporation who become eligible and are transferred to the rolls of the Shipping Board Bureau.

## Permanent appropriations:

An increase of \$106,500 is caused by two new trust funds, created under section 20 of the Permanent Appropriation Repeal Act, 1934, to which are credited advances from fur companies to cover expenses incurred in taking fox and seal furs in the Pribilof Islands, and tonnage taxes collected in the United States upon vessels coming from the Philippine Archipelago and required by law to be paid into the Philippine treasury. From these funds expenditures aggregating \$110,000 are expected, and this gross increase is partially offset by dropping two permanent appropriations aggregating \$3,000 from the Department of Commerce estimates, as provided in the repeal act, and a reduction of \$500 in the appropriation "Wages and effects of American seamen."

During the fiscal year **[1935] 1936** the head of any department or independent establishment of the Government having funds available for scientific investigations and requiring cooperative work by the Bureau of Standards on scientific investigations within the scope of the functions of that bureau, and which the Bureau of Standards is unable to perform within the limits of its appropriations, may, with the approval of the Secretary of Commerce, transfer to the Bureau of Standards such sums as may be necessary to carry on such investigations. The Secretary of the Treasury shall transfer on the books of the Treasury Department any sums which may be authorized hereunder, and such amounts shall be placed to the credit of the Bureau of Standards for performance of work for the department or establishment from which the transfer is made, including, where necessary, compensation for personal services in the District of Columbia and in the field (*act Apr. 7, 1934, 48 Stat., p. 556*).

Appropriations herein made for the Bureau of Standards shall be available for expenses of attendance at meetings concerned with standardization and research, or either, when incurred on the written authority of the Secretary of Commerce, and for the compensation and expenses of medical officers of the Public Health Service detailed to the Bureau of Standards for the purpose of

maintaining a first-aid station and making clinical observations (*act Apr. 7, 1934, 48 Stat., p. 556*).

*United States Shipping Board Bureau, Shipping Fund—*

Shipping fund: For expenses of the United States Shipping Board Merchant Fleet Corporation during the fiscal year ending June 30, [1935] 1936, for administrative purposes, including the salaries of employees (not to exceed [\$316,000] \$178,400) of the Fleet Corporation assigned to the Shipping Board Bureau, miscellaneous adjustments, losses due to the maintenance and operation of ships, including operation through an agreement to pay a lump-sum compensation, [for the protection of the interests of the United States in any vessel on which the United States holds a mortgage,] for the repair of ships, for the purchase, exchange, maintenance, repair, and operation of motor vehicles for official purposes only; for the payment of premiums for liability, fire, theft, property damage, and collision insurance and for other forms of insurance, including schedule and fidelity bonds, commonly carried by commercial corporations engaged in the same or a similar business, and for carrying out the provisions of the Merchant Marine Act, 1920, and amendments thereto, (a) the amount of operating funds on hand July 1, [1934] 1935; (b) all amounts received during the fiscal year ending June 30, [1935] 1936, other than the proceeds of sales of ships and surplus property; (c) so much of the total proceeds of sales of ships and surplus property received during the fiscal year [1935] 1936, but not exceeding \$750,000 as is necessary to meet the expenses of liquidation, including the costs incident to the delivery of vessels to purchasers, the cost of maintaining the laid-up fleet and the salaries and expenses of the personnel engaged in liquidation; (d) so much of the total proceeds of sales of ships and surplus property received during the fiscal year 1936 as is necessary for the protection of the interests of the United States in any vessel or property on which the United States holds a mortgage: *Provided*, That no part of these sums, (a), (b), [and] (c), and (d) shall be used for the payment of claims arising out of the construction and requisitioning of vessels.

That portion of the special claims appropriation contained in the Independent Offices Appropriation Act for the fiscal year 1923 committed prior to July 1, 1923, and remaining unexpended on June 30, [1934] 1935, shall continue available until June 30, [1935] 1936, for the same purposes and under the same conditions.

To enable the United States Shipping Board Merchant Fleet Corporation to operate ships or lines of ships which have been or may be taken back from purchasers by reason of competition or other methods employed by foreign shipowners or operators, there is hereby reapportioned the unexpended balance of the appropriation of \$10,000,000 made for similar purposes in the Independent Offices Appropriation Act for the fiscal year 1927: *Provided*, That no expenditure shall be made for the purposes of this paragraph

from this sum without the prior approval of the President of the United States.

No part of the sums appropriated in this Act shall be used to pay the compensation of any attorney, regular or special, for the United States Shipping Board Bureau or the United States Shipping Board Merchant Fleet Corporation unless the contract of employment has been approved by the Attorney General of the United States.

No part of the funds of the United States Shipping Board Merchant Fleet Corporation shall be available for the rent of buildings in the District of Columbia during the fiscal year [1935] 1936 if suitable space is provided for said corporation by the Office of National Parks, Buildings, and Reservations of the Department of the Interior.

No part of the funds of the United States Shipping Board Merchant Fleet Corporation shall be available during the fiscal year [1935] 1936 for the purchase of any kind of fuel oil of foreign production for issue, delivery, or sale to ships at points either in the United States or its possessions, where oil of the production of the United States or its possessions is available, if the cost of such oil compared with foreign-oil costs be not unreasonable.

Of the sums herein made available under the United States Shipping Board Bureau, not to exceed an aggregate of \$150,000 shall be expended for compensation of regular attorneys employed on a yearly salary basis, including their clerical and legal assistants (*act Apr. 7, 1934, 48 Stat., p. 568*).

<sup>1</sup> Includes \$2,000,000 contained in Emergency Appropriation Act, fiscal year 1934, for construction of roads on Indian reservations.

## EXPLANATORY SYNOPSIS

The Budget estimates for the Department of the Interior for the fiscal year 1936, including the restoration of all pay cuts, total \$14,850,098.62 more than the appropriations for 1935, which carried salaries on a 95-percent basis. Excluding the expected increase of \$1,093,899 for restoration of the final 5-percent reduction in compensation of employees, the increase for other items is \$13,756,199.62. Of this amount, \$6,425,000 is required by the Wheeler-Howard Act of June 18, 1934, and \$4,500,000 by the Public Highways Act of the same date.

The increase of \$13,756,199.62 is explained, in its main details, as follows:

Annual appropriations:

### OFFICE OF THE SECRETARY

Provision is made under this title for the salaries and expenses of the general administrative, legal, and inspectional officers and employees of the Department,

including the new Division of Grazing Control, and including, except for the Geological Survey, the printing requirements of the Department. The principal items of increase are \$250,000 for the new Division of Grazing Control, \$38,620 for the new Division of Territories and Island Possessions, and \$47,000 for the Bureau of Mines (carried for 1935 under the Department of Commerce). Transfers to and from this estimate of appropriation, together with provision for a new position of Under Secretary of the Department, and increases for printing and contingent expenses, account for the remaining portion of the total increase.

#### PETROLEUM ADMINISTRATION

There is no estimate of appropriation under this head for the fiscal year 1936, in view of the expiration before that fiscal year of the authority under which this activity operates.

#### COMMISSION OF FINE ARTS

MOUNT RUSHMORE NATIONAL MEMORIAL COMMISSION  
GEORGE ROGERS CLARK SESQUICENTENNIAL COMMISSION  
PERRY'S VICTORY MEMORIAL COMMISSION

To carry out the provision of the act of June 26, 1934, \$55,000 is provided for the Mount Rushmore National Memorial Commission; and another new item of \$4,000, representing receipts, is provided for the Perry's Victory Memorial Commission.

#### GENERAL LAND OFFICE

This Office surveys, manages, and disposes of the public lands. The chief item of increase is \$408,556, for surveying the public lands, replacing, in part, Public Works Administration funds available for this purpose for the fiscal year 1935. The remaining portion of the increase represents estimates of annual appropriations for 1936 which were carried in 1935 as permanent appropriations.

#### BUREAU OF INDIAN AFFAIRS

This Bureau has charge of the Indians of the United States and Alaska, including their education, health, lands, moneys, and general welfare. The major items of increase are \$6,425,000 under the provisions of the Wheeler-Howard Act, \$2,000,000 authorized by the Public Highways Act of last June, and \$1,111,500 representing permanent appropriations for 1935, carried as estimates of annual appropriations for 1936. Increases for school, health, and other purposes, less certain non-recurring items, account for the remainder of the total increase.

#### BUREAU OF RECLAMATION

Under the Reclamation Act of June 17, 1902, and amendments, this Bureau investigates, constructs, and manages irrigation projects in the public-land States. The increase in the Reclamation Fund is due to an additional amount of \$40,700 for operation of irrigation works on the Owyhee project constructed with Public Works Administration funds, together with small increases for several projects on account of deferred repair and betterment work on project canals. The increase in the items under the general account provides \$50,000 for the levee system adjacent to the Yuma project, and \$25,000 for the Yuma auxiliary project (heretofore carried as a permanent appropriation).

#### GEOLOGICAL SURVEY

The Geological Survey conducts investigations of mineral resources, and of surface and underground waters; makes topographic and geologic surveys; classifies the public land; and is in charge of enforcement of the engineering phases of the Mineral Leasing Act of October 20, 1914. The chief items in this increase are \$250,890, representing replacement of previous year appropriations continued available for 1935; \$225,260, in part replacement of Public Works Administration funds available during 1935 for topographic surveys; \$83,000, largely for operation of new gaging stations; \$31,050 for printing and binding; and \$10,000 for mineral leasing work. The item for volcanologic surveys, consisting chiefly of work in Hawaii, has been eliminated under the Geological Survey and consolidated with the estimate of appropriation for the Hawaii National Park under the National Park Service.

#### BUREAU OF MINES

The Bureau of Mines conducts inquiries and scientific and technologic investigations concerning mining and utilization of mineral substances with a view to improving health conditions and increasing safety, efficiency, and economic development. The major items of increase are \$50,000 for the production of natural gas for helium plants (carried for 1935 as a special fund appropriation of \$17,000), and \$33,002 for reorganization and improvement of the economics and statistic branch of the Bureau. The item for mining investigations in Alaska has been eliminated, and provision made for the conduct of this work, in part, by the Alaska Railroad, and in part, under the Geological Survey estimate of appropriation for Mineral Resources of Alaska.

#### NATIONAL PARK SERVICE

The National Park Service administers the national parks and national monuments, the national military parks, battlefields, cemeteries, and monuments, the public buildings and grounds in the District of Columbia, and the public buildings and reservations outside of the District of Columbia that are not chiefly employed as facilities in the work of particular agencies. The estimates for 1936 provide increases of \$2,500,000 for roads in national parks and monuments, \$895,530 for operation and maintenance of public buildings in the District of Columbia, and \$340,438 for operation and maintenance of public buildings outside the District of Columbia. Other increases amounting to \$206,960, offset by decreases to the extent of \$42,750, are due, in part, to the cost of operating new facilities provided by Public Works Administration funds, and, in part, to increased cost of operating national parks and monuments because of increased number of visitors.

#### OFFICE OF EDUCATION

The Office of Education collects and publishes statistics and general information regarding the condition and progress of education in the United States and foreign countries; advises State, county, and local school officers on problems of administration and improvement of schools; administers the fund for support of colleges for the benefit of agriculture and mechanic arts; and makes studies of, and administers the funds for, cooperative vocational education in the States and in Hawaii and

Puerto Rico. The increase results from certain minor increases for administrative work, together with a new estimate of an annual appropriation of \$192,000 carried for 1935 as a permanent appropriation of \$180,000, and from decreases on account of expected unexpended balances in 1935 appropriations.

#### GOVERNMENT IN THE TERRITORIES

Under this heading are included the salaries and expenses of the offices of the Governors of Alaska, Hawaii, and the Virgin Islands; the legislative expenses of the two first-named Territories; expenditures for care of the insane of Alaska; supervision of the reindeer industry; operation of the Alaska Railroad; construction and maintenance of wagon roads, bridges, and trails in Alaska; and expenditures in aid of the municipalities and industries in the Virgin Islands. The estimates of appropriations for the Territories and island possessions show a major decrease of \$86,410 because of the elimination for 1936 of the biennial expenses of the Territorial Legislatures of Alaska and Hawaii, and major increases of \$180,000, representing estimates of annual appropriations heretofore carried as permanent appropriations, and \$249,000 for the Alaska Railroad in replacement for 1936 of funds continued available for 1935 from the preceding year.

#### ST. ELIZABETHS HOSPITAL

The increase represents an additional amount of \$53,641 due to increased number of inmates, and increased cost of

food and other supplies, and \$200,000 for construction of a continuous treatment building, on account of the increased number of inmates.

#### COLUMBIA INSTITUTION FOR THE DEAF

Increases of \$2,000 for supplies, and \$5,850 for repairs to buildings and replacement of worn-out equipment, are provided.

#### HOWARD UNIVERSITY

The increase represents additional amounts for operation of the new heating and lighting plant and for custodial and other supplies for new buildings.

#### FREEDMEN'S HOSPITAL

The increase provides additional amounts for materials and supplies, and for heating, lighting, and power expenditures.

#### Permanent appropriations:

The decrease is due to the provisions of the Permanent Appropriation Repeal Act, 1934, requiring the submission of estimates of appropriations, heretofore appearing as permanent appropriations, as estimates of annual appropriations for 1936.

#### Trust accounts:

The increase results chiefly from the larger amount of available tribal moneys to be expended during 1936.

During the fiscal year [1935] 1936 the head of any department or independent establishment of the Government having funds available for scientific and technical investigations and requiring cooperative work by the Geological Survey on scientific and technical investigations within the scope of the functions of that bureau and which it is unable to perform within the limits of its appropriations may, with the approval of the Secretary of the Interior, transfer to the Geological Survey such sums as may be necessary to carry on such investigations. The Secretary of the Treasury shall transfer on the books of the Treasury Department any sums which may be authorized hereunder, and such amounts shall be placed to the credit of the Geological Survey for the performance of work for the department or establishment from which the transfer is made: *Provided*, That any sums transferred by any department or independent establishment of the Government to the Geological Survey for cooperative work in connection with this appropriation may be expended in the same manner as sums appropriated herein may be expended: *Provided further*, That any funds herein appropriated for the Geological Survey for cooperative work may be utilized prior to July 1, [1934] 1935 as required to enable the Geological Survey to continue its cooperative work pending reimbursement from cooperative agencies, the amount so utilized to be repaid to the appropriation from which advanced (*act Mar. 2, 1934, 48 Stat., p. 384*).

During the fiscal year [1935] 1936, upon the request of the Secretary of the Interior, the Secretary of War or the Secretary of the Navy is authorized to furnish aerial photographs required for mapping projects, insofar as the furnishing of such photographs will be economical to the Federal Government and does not conflict with military or naval operations or the other parts of the regular training program of the Army, Navy, and Marine Corps flying services, and the Secretary of the Interior is authorized to reimburse the War or Navy Department for the cost of making the photographs, such cost to be confined to the actual cost of gasoline, oil, film, paper, chemicals, and the labor performed in developing the photographic negatives and the printing of copies of photographs, and the per diem expenses of the personnel authorized by law, together with such incidental expenses as care and minor repairs to plane and transportation of personnel to and from projects, and the War Department or the Navy Department, on request of the Department of the Interior, is authorized to furnish copies to any State, county, or municipal agency cooperating with the Federal Government in the mapping project for which the photographs were taken. In the event that the Director of the Geological Survey deems it advantageous to the Government, the Geological Survey is authorized to contract with civilian aerial photographic concerns for the furnishing of such photographs (*act Mar. 2, 1934, 48 Stat., p. 384*).

Appropriations herein made shall be available for payment of the costs of packing, crating, and transportation (including drayage) of personal effects of employees upon permanent change of station, under regulations to be prescribed by the Secretary of the Interior (*act Mar. 2, 1934, 48 Stat., p. 384*).

The Secretary of the Treasury may detail medical officers of the Public Health Service for cooperative health, safety, or sanitation work with the Bureau of Mines, and the compensation and expenses of the officers so detailed may be paid from the applicable appropriations made herein for the Bureau of Mines (*act Apr. 7, 1934, 48 Stat., p. 564*).

During the fiscal year [1935] 1936 the head of any department or independent establishment of the Government having funds available for scientific investigations and requiring cooperative work by the Bureau of Mines on scientific investigations within the scope of the functions of that Bureau and which it is unable to perform within the limits of its appropriations may, with the approval of the Secretary of [Commerce] *the Interior*, transfer to the Bureau of Mines such sums as may be necessary to carry on such investigations. The Secretary of the Treasury shall transfer on the books of the Treasury Department any sums which may be authorized hereunder, and such amounts shall be placed to the credit of the Bureau of Mines for the performance of work for the department or establishment from which the transfer is made: *Provided*, That any sums transferred by any department or independent establishment of the Government to the Bureau of Mines for cooperative work in connection with this appropriation may be expended in the same manner as sums appropriated herein may be expended (*act Apr. 7, 1934, 48 Stat., p. 565*).

The purchase of supplies and equipment or the procurement of services for the Bureau of Mines, at the seat of government, as well as in the field outside of the District of Columbia, may be made in open market without compliance with section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) of the United States, in the manner common among business men, when the aggregate amount of the purchase or the service does not exceed \$100 in any instance.

[For the purchase or exchange of professional and scientific books, law books, and books to complete broken sets, periodicals, directories, and other books of reference relating to the business of the Bureau of Mines, there is hereby made available from any appropriations made for such bureau not to exceed \$2,500] (*act Apr. 7, 1934, 48 Stat., p. 566*).

For necessary traveling expenses of the director and employees of the bureau, acting under his direction, for attendance upon meetings of technical, professional, and scientific societies, when required in connection with the authorized work of the Bureau of Mines and incurred on the written authority of the Secretary of [Commerce] *the Interior*, there is hereby made available from any appropriations made to the Bureau of Mines not to exceed in all \$1,000 (*act Apr. 7, 1934, 48 Stat., p. 566*).

Permanent appropriation:

Colleges for Agriculture and the Mechanic Arts—

Permanent specific appropriation to pay each State and Territory for the more complete endowment and maintenance of colleges for the benefit of agriculture and the mechanic arts now established, or which may be hereafter established, in accordance with an act of Congress approved July 2, 1862.

That there shall be, and hereby is, annually appropriated, out of any money in the Treasury not otherwise appropriated, to be paid as hereinafter provided, to each State and Territory for the more complete endowment and maintenance of agricultural colleges now established, or which may hereafter be established, in accordance with the act of Congress approved July 2, 1862 (U. S. C., title 7, secs. 301-308), and the act of Congress approved August 30, 1890 (U. S. C., title 7, secs. 321-328), the sum of \$5,000 in addition to the sums named in the said act, for the fiscal year ending June 30, 1908, and an annual increase of the amount of such appropriation thereafter for 4 years by an additional sum of \$5,000 over the preceding year, and the annual sum to be paid thereafter to each State and Territory shall be \$50,000, to be applied only for the purposes of the agricultural colleges, as defined and limited in the act of Congress approved July 2, 1862, and the act of Congress approved August 30, 1890.

That the sum hereby appropriated to the States and Territories for the further endowment and support of the colleges shall be paid by, to, and in the manner prescribed by the act of Congress approved August 30, 1890, entitled "An act to apply a portion of the proceeds of the public lands to the more complete endowment and support of the colleges for the benefit of agriculture and the mechanic arts established under the provisions of the act of Congress approved July 2, 1862", and the expenditure of the said money shall be governed in all respects by the provisions of the said act of Congress approved July 2, 1862, and the said act of Congress approved August 30, 1890: *Provided*, That said colleges may use a portion of this money for providing courses for the special preparation of instructors for teaching the elements of agriculture and the mechanic arts (U. ### EXPLANATORY SYNOPSIS

The Budget estimates for 1936, which include salaries on a 100-percent basis with all pay cuts restored, is \$2,789,445 more than the available appropriations for 1935 (which provide for salaries on a 95-percent basis). After deducting the anticipated increase of \$1,026,072 for the restoration of the final 5-percent reduction in the compensation of employees, the net increase is \$1,763,373.

The details of this net increase are given below:

#### OFFICE OF THE ATTORNEY GENERAL

Included under this caption are the salaries and expenses for the operation of the Department of Justice at Washington and the various activities in the field coming under the supervision of the Attorney General, such as the prosecution of criminal and civil suits, protecting interests of the United States in customs matters, defending suits in claims against the United States, matters relating to the acquisition of property for the Government, enforcement of the antitrust laws, internal revenue litigation, veterans' insurance litigation, work of the Division of Investigation, and general superintendence and direction over the United States attorneys and marshals and the Federal penal and correctional institutions.

The estimate (previously carried separately) for salaries of the Division of Accounts has been transferred to the estimate for salaries, Department of Justice. There is a net decrease in this consolidated estimate for 1936, as compared with the combined appropriations for 1935, of \$135,215. But since \$160,000 of the current year's appropriation for salaries, Department of Justice, may be used only for transfer to other appropriations of the Department, and since \$16,270 was transferred this year to the Disbursement Division of the Treasury Department, and since it is proposed to transfer \$7,340 next year to the Bureau of Prisons for the purpose of consolidating in that Bureau two units now operating

separately in the compilation of statistics, there is an actual increase in the estimate for 1936 over available funds for 1935 of \$48,395. The estimates (previously carried separately) for books for the Department, and for traveling and miscellaneous expenses, have been consolidated with the estimate for contingent expenses. This estimate shows a net decrease of \$3,470, composed of an increase in contingent items of \$8,530, including \$3,500 for an automobile for the official use of the Attorney General to replace the one purchased in 1930, and a reduction of \$12,000 in traveling expenses.

For the alcoholic beverage unit of the Division of Investigation, a reduction of \$45,325 is recommended. This division was formerly a part of the Bureau of Prohibition and was retained in the Department of Justice when that Bureau was transferred to the Bureau of Internal Revenue by Executive Order No. 6166. Its main function is to determine the liability for taxes and penalties in connection with violations of the National Prohibition Act prior to the repeal of the eighteenth amendment.

The most important increases in the requirements of the Department of Justice are \$29,771 for protecting the interests of the United States in customs matters, \$24,434 for salaries and expenses of the Bureau of Prisons, \$17,850 for the defense of suits against the United States under the World War Veterans' Act, and \$6,000 for printing the decisions of the District Court of the Panama Canal Zone which have not been published since 1926.

Appropriations for 1935 which do not appear in the Budget for 1936 are \$36,683 for rent in the District of Columbia, all activities of the Department of Justice in Washington having recently been transferred to the Government building erected for the use of that Department; and \$25,000 for the payment of rewards for the capture of anyone charged with violation of the criminal laws of the United States, or for information leading to the arrest of such person.

## THE JUDICIARY

The items provided for under this title are the salaries and expenses of the Supreme and inferior courts, United States attorneys, marshals, and clerks of courts, fees and expenses of commissioners, fees of jurors and witnesses, pay of bailiffs, supplies and miscellaneous expenses of the courts, and books for judicial officers.

The principal increases are \$100,044 for salaries of the Supreme Court, \$15,067 for care of the Supreme Court Building and grounds, \$10,000 for compiling and printing a digest of decisions of the United States Court of Customs and Patent Appeals, and \$63,270 for pay of special assistant attorneys. For salaries and expenses of district attorneys and their assistants and clerks there is an increase over the amount appropriated for 1935 of \$300,675, but as \$150,830 was transferred to this appropriation from salaries, Department of Justice for the current year, the increase for 1936 over available funds for 1935 is \$149,845. Heretofore funds for the salaries and expenses of conciliation commissioners, appointed for the adjudication of agricultural compositions and extensions under section 75 of the National Bankruptcy Act, as amended, have been provided by transfers from other appropriations, but for 1936 an appropriation of \$30,000 is recommended. For the annual repairs to the Court of Claims buildings, \$23,785 is requested for next year, of which \$17,000 is for the replacement of two elevators and the remainder for miscellaneous repairs.

The estimate for miscellaneous expenses, United States courts, with which are consolidated the estimates (previously carried separately) for rent of court rooms, supplies for United States courts, and books for judicial officers, amounts to \$1,080,000, a decrease from the combined appropriations for 1935 of \$25,476. This decrease is in the item for rent of court rooms, since it is anticipated that the necessary space for use of the courts will be available in the new public buildings now being constructed. There is a decrease of \$38,750 for fees of commissioners, United States courts.

## PENAL AND CORRECTIONAL INSTITUTIONS

Provision is made under this heading for the maintenance of Federal penal and correctional institutions, the subsistence and care of United States prisoners in non-Federal institutions, and the operation of the probation system of United States courts.

Since it was anticipated that there would be a considerable decrease in prison population on account of the repeal of the eighteenth amendment and the expiration of sentences of persons incarcerated for violation of the prohibition laws, material reductions were made in the 1935 appropriations for penal and correctional institutions. However, present indications are that there will be no decrease in the number of prisoners, and that not only will the reductions in appropriations have to be restored but that further funds will be required because of the advance in commodity prices. To meet this situation and to provide in some cases much needed additional personnel in 1936, increases are requested in estimates for the United States penitentiaries at Atlanta, \$106,063; at McNeil Island, \$88,668; at Lewisburg, \$110,061; and at Alcatraz Island, \$126,559; likewise, for the Federal

Industrial Institution for Women at Alderson, \$18,509; for the United States Industrial Reformatory at Chillicothe, \$52,200; for the Federal Reformatory Camp at Petersburg, \$77,405; and for the Federal jails at New York, New Orleans, Milan, Mich., and La Tuna, Tex., \$63,686. The comparatively small increase of \$33,781 for the United States penitentiary at Leavenworth is due to the fact that while an increase is recommended for the main prison, there will be a reduction in the cost of maintaining the annex prison (where drug addict prisoners are confined) because of the contemplated transfer of some of these inmates to the new narcotic farm of the Public Health Service at Lexington, Ky. The increases of \$182,234 for the United States Southwestern Reformatory at El Reno, Okla., and \$38,731 for the United States Hospital for Defective Delinquents at Springfield, Mo., are largely to permit these institutions, which have just recently been constructed and will handle only a limited number of inmates during 1935, to operate at capacity in 1936. The increase of \$499,960 in the estimates for the support of United States prisoners in State institutions is recommended for the same general reason as increases in the estimates for Federal institutions, namely, an anticipated increase in the number of prisoners. Probation system, United States courts, is increased \$155,051 to supply this service in certain districts now without it and to provide additional personnel in districts where the service is inadequate. In the medical and hospital work rendered at the several institutions by the Public Health Service, there are increases of \$19,997 for the annex prison at Leavenworth, to replace commissioned personnel of the Public Health Service who will be transferred to the narcotic farm at Lexington, \$38,918 for additional personnel at Springfield, consisting of 2 assistant surgeons, a psychologist, and 25 attendants, \$1,620 for a guard-attendant at El Reno, and \$3,742 for automatic promotions, a total of \$64,277, against which there are reductions in other items of \$27,554, making a net increase of \$36,723. An amount of \$89,175 is requested for the construction and repair of buildings, including the purchase and installation of machinery and equipment at penal and correctional institutions, consisting of \$30,000, \$18,110, and \$8,775, respectively, for the penitentiaries at Leavenworth, McNeil Island, and Alcatraz Island, \$10,400 for the reformatory at El Reno, \$20,000 for the hospital at Springfield, and \$1,890 for the jail at Milan.

The only decreases for penal and correctional institutions are \$175,000 for the Federal Correctional Camp, Eustis, Va., which will be abandoned, and \$8,531 in the general estimate for prison camps.

## Trust funds:

The trust funds of the Department of Justice consist of personal funds of prisoners and commissary and welfare funds in the several penal and correctional institutions, which are deposited in the Treasury and advanced on approved requisitions to the disbursing agents of these institutions for payment.

The estimated expenditure for 1936 is \$850,000, consisting of \$550,000 for funds of prisoners and \$300,000 for commissary and welfare funds, increases over 1935 of \$50,000 and \$15,000, respectively.

### EXPLANATORY SYNOPSIS

Of the total net increase of \$1,668,729 in the Budget estimates of annual appropriations for 1936 over the annual appropriations for 1935, \$527,611 represents restoration of the remaining 5-percent legislative reduction in compensation. The principal items of increase and decrease involved in the remainder of the net increase in annual appropriations, namely, \$1,141,118, and of the decrease of \$4,000 in permanent appropriations, are mentioned below.

#### OFFICE OF THE SECRETARY

An increase of \$172,535 for this unit includes a net increase of \$30,906 for the item "Salaries, Office of the Secretary", \$43,736 for the Division of Labor Standards, \$20,000 for contingent expenses of the Department, \$71,000 for printing and binding for the Department, and \$6,893 for the Commissioners of Conciliation.

The net increase of \$30,906 for "Salaries, Office of the Secretary", involves \$34,034 for 21 additional employees, \$4,872 for reallocation of positions in grade, and a decrease of \$8,000 for employees transferred to the Division of Disbursement, Treasury Department.

The increase of \$43,736 for the Division of Labor Standards includes \$34,115 for 7 additional departmental and 4 additional field employees, and \$9,591 for travel and other expenses, for cooperation with State labor departments in the promotion of desirable State labor legislation.

The net increase of \$20,000 for contingent expenses involves \$3,500 for replacement of an automobile for use of the Secretary, \$16,650 for replacement of and additional tabulating and computing machines required in expansion of the Bureau of Labor Statistics contemplated in the Budget, increased commodity prices and replenishment of depleted office supplies, and a decrease of \$150 inci-

dent to the transfer of disbursing activities to the Division of Disbursement, Treasury Department.

The \$71,000 net increase for printing and binding involves \$23,000 for increased prices incident to the provisions of section 23 of the Independent Offices Appropriation Act, 1935, \$8,000 for publishing citizenship textbooks for which annual appropriation from the general fund of the Treasury is required by section 4 (8) of the Permanent Appropriation Repeal Act, 1934, \$40,350 for additional printing for the Department, particularly for the Bureau of Labor Statistics and the Children's and Women's Bureaus, and a decrease of \$350 incident to the transfer of disbursing activities to the Division of Disbursement, Treasury Department.

The increase of \$6,893 for the commissioners of conciliation is for travel and an additional stenographer.

#### BUREAU OF LABOR STATISTICS

An increase of \$413,839 includes \$319,646 for the item "Salaries and expenses" and \$94,193 for "Investigation of the cost of living in the United States."

The increase of \$319,646 for salaries and expenses includes \$229,470 for 119 additional departmental and 20 field employees, \$28,044 for reallocation of positions in grade, \$62,120 for travel, communication service, and supplies, to meet the increasing need and demand from industry and labor for statistics covering greater geographical and more extensive industrial fields, particularly with regard to employment, wages and hours, wholesale and retail prices, and building.

The increase of \$94,193 to investigate the cost of living which is a vital factor in the adjustment of wages and settlement of labor disputes is for completion of the investigation in the fiscal year 1936.

## IMMIGRATION AND NATURALIZATION SERVICE

An increase of \$271,313 includes \$196,313 for the item "Salaries and expenses" and \$75,000 for immigrant stations.

The increase of \$196,313 for salaries and expenses includes \$4,396 for additional departmental personnel; \$4,037 for reallocation of positions in grade; \$24,700 for 10 additional naturalization examiners; \$46,170 for 30 additional naturalization clerks in the field; \$17,000 for detention of aliens at the expense of steamship companies for which reimbursement from the companies in 1936, under a decision of the Comptroller General, must be covered into the Treasury and credited to miscellaneous receipts; \$52,250 for automatic promotion of immigrant inspectors; \$44,750 to reduce administrative furloughs in the field; \$60,000 for extra overtime compensation of immigration employees paid by commercial carriers, for which section 5 (3) of the Permanent Appropriation Repeal Act, 1934, authorizes annual appropriation to the extent of the receipts; and a decrease of \$56,990 for contemplated reduction of the number of indigent aliens returned and aliens deported.

The increase of \$75,000 for immigrant stations includes \$25,000 for new boilers and repairs to the ferryboat *Ellis Island*, \$24,400 for miscellaneous repairs at the Ellis Island station, \$24,200 for replacement of steam boilers and pipes at the Philadelphia station, and \$1,400 for minor repairs at other stations.

## CHILDREN'S BUREAU

An increase of \$31,269 includes \$2,489 for reallocation of positions in grade and \$28,780 for expansion of the

work pertaining to child and maternal health, child labor and industrial conditions affecting children, and dependent, neglected, physically handicapped, and mentally defective children, in cooperation with State and local welfare organizations.

## WOMEN'S BUREAU

An increase of \$1,026 is for reallocation of positions in grade.

## UNITED STATES EMPLOYMENT SERVICE

An increase of \$251,136 provides the \$4,000,000 authorized in section 5 (a) of the Act of June 6, 1933 (U. S. C., Supp. VII, title 49, sec. 49d), for appropriation for the fiscal year 1936.

## UNITED STATES HOUSING CORPORATION

The Budget for 1936 contemplates no change in appropriation for this activity. Reasonable progress is being made by the corporation.

Permanent appropriations:

A decrease of \$4,000 is due to the elimination of the item "Naturalization fees, publishing citizenship textbooks," heretofore paid from naturalization receipts, but included in the Budget for 1936 in the item "Printing and binding," under the provision of section 4 (8) of the Permanent Appropriation Repeal Act, 1934.

#### EXPLANATORY SYNOPSIS

The estimates of appropriations for the Navy Department and Naval Establishment for the fiscal year 1936 total \$489,871,347. The appropriations for the fiscal year 1935 aggregate \$286,368,132. This indicates a facial increase for the fiscal year 1936 over 1935 of \$186,853,499. However, the appropriation act for the fiscal year 1935 augmented the annual appropriations by the reappropriation of unexpended balances of certain appropriations for prior years and authorized transfers from certain revolving funds of amounts aggregating \$9,080,249. In addition, by section 21 (e) of the Independent Offices Appropriation Act for 1935 an indefinite appropriation was made to provide for pay restoration from 90 to 95 percent, and for other increases in compensation and allowances for the fiscal year 1935. The amount required for this purpose is now estimated at \$16,649,716. These additions bring the total availability for the fiscal year 1935 up to \$312,098,097. The estimates for the fiscal year 1936 are predicated on the assumption that the reduction in compensation imposed by the Economy Act, as amended, will not be continued

after the close of the present fiscal year. The estimates include a total increase for pay restoration of \$13,133,403. By excluding this increase for pay restoration, the estimates for 1936, compared with the total available for 1935, indicate an increase for other purposes in the sum of \$164,695,096. This increase may be subdivided under two general heads; one covering construction work and the other as pertaining to expenses for ordinary maintenance and operation. For construction of naval vessels, aircraft, and public works the estimates for 1936 carry \$179,500,000 against \$49,360,134 for 1935. Excluding the amount required for pay restoration, the increase over 1935 is \$127,986,016. For ordinary maintenance and operating purposes, the estimates for 1936 amount to \$308,689,096, and the availability for 1935 is estimated at \$261,029,615. After deducting the amounts included for pay restoration, the increase becomes \$36,679,928. Further details relative to these increases appear in the following paragraphs.

The amounts referred to herein are exclusive of funds allotted to the Navy Department from emergency

appropriations for construction of naval vessels, aircraft, public works, etc., the details of which may be found elsewhere in the Budget, and are accounted for in the schedules of obligations under the respective bureaus to which the allotments were made.

From time to time appropriation items have been consolidated with a view to a reduction in accounting work and to provide for better and more efficient administration. The estimates for 1936 propose additional consolidations of appropriations for the purpose of making further improvement in this direction.

#### ADDITIONAL MIDSHIPMEN

The law authorizes each Member of Congress to maintain five appointees as midshipmen at the Naval Academy, but for some years past the appropriation acts have limited the number of appointees to less than five. For the fiscal year 1935 the number is limited to three appointees. It is proposed to raise this limit to four appointees for each Member of Congress for the fiscal year 1936. This increase in the number of midshipmen is deemed necessary to meet the need for additional officers required for new naval vessels and aircraft, either under construction or proposed, and for replacing the increased number of officers who will pass from the active to the retired list within the next 2 or 3 years pursuant to legislation enacted by the last Congress.

#### ADDITIONAL ENLISTED MEN

The estimates provide for a gradual increase in the enlisted strength of the Navy from 82,500 men on July 1, 1935, to 93,500 men on June 30, 1936. This increase of 11,000 men is considered necessary to man the new ships that will be in commission, to increase the complement of men on the larger vessels, and for increased requirements for aviation activities.

#### ORGANIZED RESERVES

The estimates include approximately \$1,000,000 more than for the fiscal year 1935 to provide pay for additional drills and additional reservists on training and active duty, especially aviation duty, and for increased costs for subsistence and other supplies and services. No reduction in numbers of any branch of the Naval or Marine Corps Reserves is contemplated.

#### REGULAR NAVAL PERSONNEL

It is estimated that, after providing for pay restoration, approximately \$14,875,000 more will be required for 1936 than for 1935 for pay and allowances of officers and men. This increase covers the pay and allowances of 11,000 men to be added during the year, which for pay purposes represents an average of 5,500 men for 1 year; the rating-up of enlisted men to pay grades commensurate with the duties assigned them; pay and allowances of additional officers on the active list; additional midshipmen; additional officers and men on flight duty involving increased pay for flying; increased cost of rations; additional officers and men on the retired lists; and additional number of enlisted men passing to the Fleet Reserve after 16 or 20 years of active service. The amount required for payment of retired officers is estimated at \$7,700,000; for retired enlisted men, \$6,000,000; and for fleet reservists, \$12,000,000. These amounts aggregate \$25,700,000, or nearly one-fourth of the amount required

for pay of officers and men on active duty. Each year the proportion of the amounts required for pay of officers and men on the inactive list to the amounts required for pay of those on the active list has been increasing, the increase for 1936 over 1935 being approximately \$1,850,000.

#### MAINTENANCE OF THE FLEET AND SHORE STATIONS

The appropriation items covering labor, material, and supplies for the maintenance and operation of the fleet and shore stations, exclusive of aviation activities, involve increases aggregating approximately \$15,500,000. This increase includes \$6,600,000 for the repair, overhaul, and improvement of vessels; for increased quantity of supplies, materials, machinery, and equipment for use or replacement; for increase in quantity and price of fuel for ships; for machine tools for navy yards; and for transportation expenses and accounting work incident to such items: \$8,400,000 for maintenance and operation of ordnance plants and stations; and \$500,000 for maintenance and repair of buildings, grounds, and waterfront property at navy yards and stations. These increases are partly due to additional vessels in operation and increased prices because of increased cost of labor and material, and partly due to lack of funds in prior years to completely meet the operating maintenance requirements and provide for necessary improvements in the military efficiency of the fleet.

#### AVIATION

An increase of \$3,750,000 is provided for maintenance and operating expenses of aircraft and air stations. Of this amount, approximately \$2,750,000 is intended to meet the cost of providing flight training for enlisted men with the view of developing a large proportion of the additional pilots required for the increased number of planes expected to be placed in operation. The remainder, \$1,000,000, is required to meet the expenses of training personnel, the maintenance and operation of additional planes, and the increased cost of supplies.

The details concerning the estimates for the procurement of aircraft are set forth hereafter under the head of construction.

#### MARINE CORPS

The estimates involve an increase of \$967,000, including an increase for pay of 51 additional second lieutenants in anticipation of a large number of officers to be placed on the retired list during the next 2 or 3 years; increase for the Marine Corps Reserve for drills and training duty; increases for subsistence, clothing, and other requirements due to increase in quantity needed and increase in prices. Due to the increase in prices and the limited amounts available for the fiscal years 1935 and 1934, working and reserve stocks will be so depleted that it appears necessary that they should be replenished during 1936.

#### NEW CONSTRUCTION

The increase under this head amounts to \$128,450,000, exclusive of the amount required for pay restoration. The estimates include \$4,500,000 for public-works projects, for which no amount was appropriated for 1935; \$22,500,000 for procurement of aircraft for replacement of operating planes, compared with \$6,131,000 for 1935; \$12,500,000 for procurement of planes as an increase in

the number authorized for a Treaty Navy; and \$140,000,000 for construction of naval vessels, as against \$42,758,000 for 1935.

#### PUBLIC WORKS

The larger portion for public-works projects is intended for improvement of the channel and harbor and the improvement of facilities to accommodate the fleet at Pearl Harbor, Hawaii. Most of the remainder is to provide increased facilities for radio and for coastal direction-finder stations.

#### CONSTRUCTION OF AIRCRAFT, REPLACEMENTS

The amount of \$22,500,000 for procurement of planes, to replace planes eliminated from operation through crashes or obsolescence, is carried under the appropriation "Aviation." Heretofore the appropriation acts have authorized the Secretary of the Navy to contract for planes in one year, not to exceed a specified amount, for delivery the next year, and the annual appropriations usually approximated the amount required to make payment for deliveries made in each particular year. For 1935, \$6,131,000 was appropriated, all of which will be required to pay for planes delivered during the fiscal year 1935 under contracts entered into in prior years. The 1935 act also granted additional authority to contract for planes to be delivered during the fiscal year 1936. For deliveries during 1936, under contracts made in prior years, it will require \$8,500,000, which amount is included in the estimates for 1936. Instead of continuing

this practice of granting authority to contract for planes in excess of the amount appropriated, the estimates propose the appropriation of the full amount necessary for the procurement of planes during 1936. The estimates include for this purpose \$14,000,000, in addition to \$8,500,000 to cover deliveries on prior-year contracts.

#### CONSTRUCTION OF AIRCRAFT, INCREASE OF THE NAVY

There is included under "Increase of the Navy" \$12,500,000 toward procuring the increased number of new planes needed for the operation of a Treaty Navy. This is in addition to the first increment of planes being constructed for this purpose during the present year from funds allotted from the "Emergency appropriation, 1935."

#### CONSTRUCTION OF NAVAL VESSELS

The estimates include \$140,000,000 for construction of cruisers, destroyers, submarines, and aircraft carriers. This includes \$48,000,000 to continue or complete construction of vessels authorized on or prior to February 13, 1929, and appropriated for in part prior to March 4, 1933; \$60,000,000 to continue construction of 20 vessels commenced during the fiscal year 1935 under an allotment of \$25,000,000 from the "Emergency appropriation, 1935"; and \$32,000,000 to begin the construction of 24 vessels to be laid down during the fiscal year 1936. The construction of all of these vessels has been authorized by legislation and is within the limitations imposed by the Washington and London Naval Treaties.

That in the expenditure of appropriations in this Act the Secretary of the Navy shall, unless in his discretion the interest of the Government will not permit, purchase or contract for, within the limits of the United States, only articles of the growth, production, or manufacture of the United States, notwithstanding that such articles of the growth, production, or manufacture of the United States may cost more, if such excess of cost be not unreasonable.

The appropriations made in this Act for the purchase or manufacture of equipment or material or of a particular class of equipment or material shall be available for the purchase of letters patent, applications for letters patent, licenses under letters patent, and applications for letters patent that pertain to such equipment or material for which the appropriations are made.

No part of any appropriation made for the Navy shall be expended for any of the purposes herein provided for on account of the Navy Department in the District of Columbia, including personal services of civilians and of enlisted men of the Navy, except as herein expressly authorized: *Provided*, That there may be detailed to the Bureau of Navigation not to exceed at any one time six enlisted men of the Navy: *Provided further*, That enlisted men detailed to the naval dispensary and the radio communication service shall not be regarded as detailed to the Navy Department in the District of Columbia.

No part of the appropriations made in this Act shall be available for the salary or pay of any officer, manager, superintendent, foreman, or other person or persons having charge of the work of any employee of the United States Government while making or causing to be made with a stop watch or other time-measuring device a time study of any job of any such employee between the starting and completion thereof, or of the movements of any such employee while engaged upon such work; nor shall any part of the appropriations made in this Act be available to pay any premiums or bonus or cash reward to any employee in addition to his regular wages, except for suggestions resulting in improvements or economy in the operation of any Government plant; and no part of the moneys herein appropriated for the Naval Establishment or herein made available therefor shall be used or expended under contracts hereafter made for the repair, purchase, or acquirement, by or from any private contractor, of any naval vessel, machinery, article or articles that at the time of the proposed repair, purchase, or acquirement can be repaired, manufactured, or produced in each or any of the Government navy yards or arsenals of the United States, when time and facilities per-

mit, and when, in the judgment of the Secretary of the Navy, such repair, purchase, acquirement, or production would not involve an appreciable increase in cost to the Government: *Provided*, That nothing herein shall be construed as altering or repealing the proviso contained in section 1 of the Act to authorize the construction of certain naval vessels, approved February 13, 1929, which provides that the first and each succeeding alternate cruiser upon which work is undertaken, together with the main engines, armor, and armament shall be constructed or manufactured in the Government navy yards, naval gun factories, naval ordnance plants, or arsenals of the United States, except such material or parts as are not customarily manufactured in such Government plants (*act Mar. 15, 1934, 48 Stat., pp. 421-422*).

Sec. 2. No part of any money appropriated by this Act shall be used for maintaining, driving, or operating any Government-owned motor-propelled passenger-carrying vehicle not used exclusively for official purposes; and "official purposes" shall not include the transportation of officers and employees between their domiciles and places of employment except in cases of medical officers on out-patient medical service and except in cases of officers and employees engaged in field work the character of whose duties makes such transportation necessary and then only as to such latter cases when the same is approved by the head of the department. This section shall not apply to any motor vehicle for official use of the Secretary of the Navy, and no other persons connected with the Navy Department or the naval service, except the commander in chief of the United States Asiatic Fleet, Marine Corps officers serving with expeditionary forces in foreign countries, and medical officers on out-patient medical service, shall have a Government-owned motor vehicle assigned for their exclusive use (act Mar. 15, 1934, 48 Stat., p. 425).

## EXPLANATORY SYNOPSIS

The Budget estimates for 1936, including salaries on a 100-percent basis with all pay cuts restored, total \$13,904,100, which is a reduction of \$2,263,887 from the available appropriations of \$16,167,987 for 1935, which carried salaries on a 95-percent basis. The amount estimated as necessary to restore the final 5-percent reduction in compensation of employees is \$509,748. Excluding this figure, the net decrease in the Budget estimates for 1936, resulting from the increases and decreases in items other than restoration of salaries, is shown as \$2,773,635.

The details of the increases and decreases in items other than restoration of the final 5-percent cut in pay are given below.

### Annual appropriations:

#### OFFICE OF THE SECRETARY OF STATE

Included under this caption are the estimates for salaries and expenses of the Department of State at Washington and the several passport agencies in the United States, the expenses of collecting and editing official papers of the Territories of the United States, and for hearings before the Committee for Reciprocity Information in connection with foreign trade agreements.

There is an increase of \$12,427 in the estimate for salaries in 1936 over the appropriation for 1935 but since \$8,478 of the 1935 appropriation was transferred to the Disbursement Division of the Treasury Department, the actual increase for 1936 over available funds for 1935 is \$20,905. There is an increase of \$10,470 for the contingent expenses of the Department, which includes \$4,000 for an automobile for the official use of the Sec-

retary of State, to replace the one purchased in 1929. There is also an increase of \$15,000 in printing and binding. For collecting and editing territorial papers an increase of \$10,004 is requested, all of which is for printing; the organic act providing for this project authorizes to be appropriated not more than \$125,000 for carrying out the purposes of the act, with a restriction that not more than \$50,000 shall be appropriated for any one year, and thus far appropriations amounting to \$51,158 have been made. Executive Order No. 6750 issued pursuant to section 4 of the act entitled, "An Act to amend the Tariff Act of 1930", approved June 12, 1934, created the Committee for Reciprocity Information to represent the President in receiving the views of persons interested in any proposed foreign-trade agreement; an appropriation of \$75,000 was provided for the expenses of this committee for 1935 and a like amount is requested for 1936.

#### FOREIGN SERVICE

The estimates submitted under this title are for the operation of the Foreign Service of the United States, for money to meet contributions of Foreign Service officers for maintenance of the Foreign Service retirement and disability fund, and for the acquisition of buildings and grounds in foreign countries for the use of the Government of the United States.

The estimate for salaries, Foreign Service officers, shows a net decrease of \$149,050, composed of an increase of \$65,000 for automatic promotions as authorized by section 33 of the Foreign Service Act of February 23, 1931, and a reduction in personnel of \$214,050. There have been consolidated with this estimate the estimates (previously carried separately) for salaries, Foreign Serv-

ice officers while receiving instructions and in transit, \$15,000, and salaries, *chargés d'affaires ad interim*, \$20,000. For transportation of Foreign Service officers there is a reduction of \$22,500 in the estimate for 1936 compared with the amount appropriated for 1935, but as \$17,278 of the appropriation made for this purpose for 1934-35 was expended in 1935, there is an actual decrease in available funds of \$39,778. There is a reduction in office and living quarters Foreign Service, of \$318,415, but as \$126,000 of the 1935 appropriation was expended in 1934, there is an actual decrease of \$192,415. In cost of living allowance, Foreign Service officers, there is shown a decrease of \$125,000 which is an actual reduction of \$75,000 because \$50,000 of the 1935 appropriation was expended in 1934. The estimate for salaries, Foreign Service clerks, is reduced by \$113,050. An item appropriated for 1935 which does not appear in the Budget for 1936 is \$1,165,000 for the Foreign Service building fund; this amount is for the construction of the American embassy at Moscow, Russia, and represents the balance of \$10,000,000 authorized to be appropriated for the purchase or construction of sites and buildings in foreign countries for the use of the diplomatic, consular, and other establishments of the United States by the act of May 7, 1926.

The Foreign Service retirement and disability appropriated fund has been increased \$3,300, from \$159,100 to \$162,400, the maximum amount permitted under section 26 (a) of the Foreign Service Act of February 23, 1931, which provides that the aggregate total appropriations shall not exceed the aggregate total of the contributions of Foreign Service officers, and accumulated interest thereon. There is a net increase of \$66,779 in contingent expenses, Foreign Service; and there has been consolidated in this estimate the estimates (previously carried separately) for rescue, relief, and protection of American seamen, \$6,000, pay of consular agents for services to American vessels and seamen, \$10,000, expenses of prisons for American convicts, \$1,250, and bringing home persons charged with crime, \$2,000.

#### INTERNATIONAL OBLIGATIONS, COMMISSIONS, BUREAUS, AND SO FORTH

An amount of \$806,470 is recommended for contributions by the United States to international commissions, congresses, and bureaus for 1936, which is a net increase of \$182,011 over 1935. As it is impossible to determine at this time the exact amounts which will be due and payable in 1936 because of the fluctuations in exchange, the contributions and quotas have been computed on the basis of the old mint par rates, with a clause in the estimate providing for such additional sums, due to increases in rates of exchange, as may be necessary to pay in foreign currencies the quotas and contributions required by the

several treaties, conventions, or laws establishing the amount of the obligation. New items appearing under this title in the Budget for 1936 are \$174,630 for the international labor organization, \$8,037 for implementing the narcotics convention of 1931, and \$588 for the permanent association of international road congresses.

There is an increase of \$1,633 for the International Boundary Commission, United States and Mexico. There is an increase of \$2,755 for the International Boundary Commission, United States and Canada and Alaska and Canada, but as \$215 was transferred from the 1935 appropriation to the Disbursement Division of the Treasury Department, the actual increase over available funds for 1935 amounts to \$2,970. The estimate for waterways treaty, United States and Great Britain, includes \$30,610 for salaries and expenses of the United States section of the International Joint Commission (an increase of \$70), \$52,000 for determining the apportionment of the waters of certain rivers on the Canadian boundary (a decrease of \$6,000), and \$19,000 for continuing the studies of damage to property in the United States by fumes from the smelter at Trail, British Columbia (the same amount as for the current year). For 1935 an appropriation of \$170,000 was made for the General and Special Claims Conventions, United States and Mexico, for the expenses of final and complete settlement and adjustment of these claims, but it is estimated that at least another year will be required to complete this work, and an additional amount of \$170,000 is included in the Budget for 1936.

Items appropriated for 1935 which will not appear in the Budget for 1936 are \$57,000 for Mixed Claims Commission, United States and Germany, \$75,000 for claims adjustment, United States and Turkey, \$14,000 for Pan American Financial and Commercial Conference, \$3,000 for Pan American Sanitary Conference, and \$1,000,000 to enable the United States to cooperate with the several governments, members of the Pan American Union, in connection with the survey and construction of the proposed Inter-American Highway.

#### Permanent appropriations:

The indefinite appropriation for pay of consular agents for services to American vessels and seamen is made an annual appropriation by section 2 of the Permanent Appropriation Repeal Act, and there is included in the estimate for contingent expenses, Foreign Service, an amount of \$10,000 for this purpose, which is the estimated expenditure for 1935. The indefinite appropriations for refunding penalties or charges erroneously exacted, refunding moneys erroneously received and covered, and refunding passport fees, amounting to \$1,000, are omitted from the Budget for 1936, as they are repealed and covered into the account "Refund of moneys erroneously received and covered" by section 18 of the Permanent Appropriation Repeal Act.
