Inter-American Highway: To meet such expenses as the President in his discretion may deem necessary to enable the United States to cooperate with the several Governments, members of the Pan American Union, in connection with the survey and construction of the proposed Inter-American Highway, \$1,000,000, to remain available until expended. The expenditure of such sum shall be subject to the receipt of assurances satisfactory to the President from such governments of their cooperation in such survey and construction (act June 19, 1934, 48 Stat., p. 1042).

Appropriated 1935, \$1,000,000

NOTE.—Transferred to Bureau of Public Roads, Department of Agriculture, 1935, \$1,000,000.

## Expenses of Prisons for American Convicts—

For expenses of maintaining in China, the former Ottoman Empire, Egypt, Ethiopia, Morocco, and Muscat institutions for incarcerating American convicts and persons declared insane by any consular court; wages of prison keepers; rent of quarters for prisons; ice and drinking water for prison purposes; and for the expenses of keeping, feeding, and transportation of prisoners and persons declared insane by any consular court in China, the former Ottoman Empire, Egypt, Ethiopia, Morocco, and Muscat, so much as may be necessary; \$1,250 (U. S. C., title 22, secs. 174, 175; act Apr. 7, 1934, 48 Stat., p. 536).

NOTE.—Appropriation under above title consolidated with appropriation "Contingent expenses, Foreign Service."

## Bringing Home Persons Charged with Crime—

For every expenditure requisite for or incident to the bringing home from foreign countries of persons charged with crime as authorized by section 5275 of the Revised Statutes (U. S. C., title 18, sec. 659), \$2,000 (U. S. C., title 18, sec. 659; act Apr. 7, 1934, 48 Stat., p. 536).

NOTE.—Appropriation under above title consolidated with appropriation "Contingent expenses, Foreign Service."

Section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) shall not apply to any purchase or service rendered payable from the foregoing appropriations when the aggregate amount involved does not exceed \$100 or when the purchase or service relates to the packing of personal and household effects of Diplomatic, Consular, and Foreign Service officers and clerks for foreign shipment (U. S. C., title 41, sec. 5; act Apr. 7, 1934, 48 Stat., p. 536).

No portion of the sums appropriated in title I of this Act shall, unless expressly authorized, be expended for rent or rental allowances in the District of Columbia or elsewhere in the United States (act Apr. 7, 1934, 48 Stat., p. 536).

Wherever the Secretary of State, in his discretion, procures information on behalf of corporations, firms, and individuals, the expense of cablegrams and telephone service involved may be

charged against the respective appropriations for the service utilized; and reimbursement therefor shall be required from those for whom the information was procured and, when made, be credited to the appropriation under which the expenditure was charged (*act Apr. 7, 1934, 48 Stat., p. 536*).

## EXPLANATORY SYNOPSIS

A comparison of the estimates for the Treasury Department with the appropriations for the fiscal year 1935 shows a total net reduction of \$81,066,555 after increasing the various salary items in the sum of \$5,350,076 due to the restoration in the fiscal year 1936 of the remaining 5-percent legislative reduction. The principal items of increase and decrease other than the increase due to the restoration of the legislative reductions in salaries are shown below:

Annual appropriations:

## OFFICE OF THE SECRETARY

The Secretary of the Treasury is charged by law with the management of the national finances; controls the coinage and printing of money, and the administration of the Coast Guard, the Public Health, Narcotics, Procurement, and Secret Services.

The 1936 estimate for the Office of the Secretary includes appropriations formerly carried under the Office of the Commissioner of Accounts and Deposits (Research and Statistical Division and Library only), Office of the Solicitor, Office of the Chief Clerk and Superintendent, Supply Division, and Appointments Division. Comparison of the consolidated appropriations for 1935 with the consolidated estimate for 1936 shows a net increase of \$263,427. This net increase is accounted for as follows: Personal services, \$25,162, due to transfer of certain employees from the rolls of the Commissioner of Accounts and Deposits and increasing the guard force by 10 employees; miscellaneous and contingent expenses, \$172,640, due to additional power necessary to operate air-conditioning equipment and a 50-percent increase in cost of stationery; and printing and binding, \$65,625, on account of the 40-hour week and increased cost of paper.

## OFFICE OF COMMISSIONER OF ACCOUNTS AND DEPOSITS

The Office of the Commissioner of Accounts and Deposits has administrative supervision over the Division of Bookkeeping and Warrants and its relations to the Office of the Treasurer of the United States, the Division of Deposits, and the Division of Disbursements (new). The Commissioner likewise has control of the investment accounts of the Government and is responsible for the proper custody of investments and securities held by the Treasurer of the United States and the Federal Reserve banks for which the Secretary is responsible, other than those related to public-debt operations.

The 1936 estimate for the Office of Commissioner of Accounts and Deposits includes appropriations formerly carried under the Office of the Commissioner of Accounts and Deposits (exclusive of Research and Statistics Division and Library) and the Division of Bookkeeping and Warrants. It also includes the new consolidated disbursing agency, the Division of Disbursements. Comparison of the 1936 estimate with the combined 1935 appropriations indicates a net increase of \$1,424,179 which is chiefly accounted for as follows: Division of Disbursements, \$628,460, due to taking over the disbursing functions of the several executive departments and independent agencies (excluding military and naval disbursements); recoinage of silver coins, \$700,000, and refunding of moneys erroneously received and covered, \$76,850, indefinite appropriations which become annual appropriations under the Permanent Appropriation Repeal Act of

1934; and contingent expenses, public moneys, \$25,000, due to continuation of policy insuring money shipments.

## BUREAU OF CUSTOMS

The principal functions of this service are the collection of import duties and the prevention of smuggling.

The net increase of \$14,002,855 is due to the indefinite appropriations for refunds, drawbacks, and other purposes being changed to annual appropriations under the Permanent Appropriation Repeal Act of 1934, and consolidated under the title "Refunds and drawbacks (Customs)."

## OFFICE OF TREASURER OF THE UNITED STATES

The Treasurer of the United States is charged with the receipt and disbursement of public moneys. He is also fiscal agent for the issue and redemption of United States paper currency, for payment of principal and interest on the public debt and for the redemption of national-bank notes, Federal Reserve notes, and Federal Reserve bank notes.

There is a net decrease of \$51,867 in the estimate for this office.

## BUREAU OF INTERNAL REVENUE

The Commissioner of Internal Revenue has general supervision of the assessment and collection of all internal revenue taxes; the enforcement of internal revenue laws; and the preparation and distribution of instructions, regulations, forms, blanks, stamps, etc.

This Bureau, under Executive Order 6639, has absorbed the functions of the Bureau of Industrial Alcohol, Treasury Department, and the Alcohol Beverage Unit, Department of Justice, in a new unit entitled the "Alcohol Tax Unit" which now administers the alcohol and beverage liquor tax laws.

There is a net increase of \$2,316,454 in the estimate for salaries and expenses of the Bureau in order to augment internal-revenue collections, and a decrease of \$5,000,000 under refunding internal-revenue collections.

## BUREAU OF NARCOTICS

The Commissioner of Narcotics, under the direction and supervision of the Secretary of the Treasury, has general supervision of the enforcement of the Harrison narcotic law and related statutes, including the permissive features of the Narcotic Drugs Import and Export Act, and cooperates with other activities in the suppression of the abuse of narcotic drugs.

There is a decrease of \$97,067 under this item.

## COAST GUARD

The principal duties of the Coast Guard consist of rendering assistance to vessels in distress and saving life and property; destruction or removal of wrecks, derelicts, and other floating dangers to navigation; conduct of international ice patrol in North Atlantic Ocean; protection of the customs revenues; prevention of smuggling; suppression of mutinies on merchant vessels; enforcement of laws and regulations governing merchant vessels, motor boats, anchorage of vessels in navigable waters, immigration quarantine, neutrality, regattas, and marine parades.

The 1936 estimate for the Coast Guard combines into two appropriations a number of appropriations previously estimated for separately. The estimate for pay and allowances includes the items formerly provided for under this title and retired pay for the former Life-Saving Service. The estimate for general expenses includes the following former appropriations: (1) Office of Coast Guard; (2) civilian employees; (3) contingent expenses; (4) fuel and water; (5) outfits; (6) rebuilding and repairing stations; (7) communication lines; and (8) repairs to vessels.

There is a net increase of \$1,371,053 in pay and allowances and a net increase of \$1,535,220 in general expenses in order to: (1) Stabilize the force at 9,530 officers and men; and (2) maintain existing vessels, aircraft, stations, and communication lines in efficient condition and on a basis comparable with the personnel. The 1935 appropriation for this service was considerably reduced under the assumption that smuggling would diminish to a large extent. This situation has failed to materialize, however, and it will be necessary to provide a deficiency appropriation for the service when Congress convenes.

#### BUREAU OF ENGRAVING AND PRINTING

This Bureau designs, engraves, and prints for the Government United States securities; United States national-bank and Federal Reserve bank currency; revenue, customs, and postage stamps; Government checks; and many other classes of engraved work for governmental use. It performs a similar function for the insular possessions of the Government.

The net increase of \$705,413 is due to a large increase in the printing of liquor stamps for which the Bureau is not reimbursed and a contemplated considerable decrease in repay work, such as Federal Reserve notes, farm-loan bonds, Farm Mortgage Corporation bonds, and Federal Home Loan Bank Board bonds.

#### SECRET SERVICE

This division is charged with the protection of the President of the United States, his family, and the President-elect; with the suppression of counterfeiting; with the investigation of violations of certain acts of Congress, and with such other matters relating to the Treasury Department as are directed by the Secretary of the Treasury.

There is a net increase of \$26,819 in the estimate for this service due to the necessity of purchasing passenger-carrying motor vehicles in order to permit the mobile field force to function more efficiently in performance of its duties. The field service heretofore has not been equipped with Government-owned cars.

#### PUBLIC HEALTH SERVICE

The Public Health Service makes studies, conducts scientific investigations, and performs research work looking to the improvement of public health. Other specific duties of the service are the operation of the foreign and domestic quarantine services, the provision of medical and hospital relief for American seamen, Coast Guard personnel, etc., and the administration of the narcotic farm at Lexington, Ky.

There is a net increase of \$748,817 in the 1936 estimate for this service. This increase is accounted for as follows: Pay and allowances, \$170,096, due to increases on account of longevity pay provided for by the act of March 28,

1934; pay of acting assistant surgeons, \$32,450, to provide for temporary personal services to relieve regular quarantine and immigration station officers when sick or on annual leave; pay of other employees, \$12,995, to reduce excessive lapses in personal services; national institute of health, \$14,000, to equip the laboratories in the new building and the new animal farm; pay of personnel and maintenance of hospitals, \$284,322, to provide for the operation of new hospital buildings at Stapleton, N. Y., and at Fort Stanton, N. Mex.; preventing the spread of epidemic diseases, \$38,173, to provide for increased activities in combating spotted fever and bubonic plague; field investigations, \$11,278, to eliminate the forcing of excessive lapses in personal services; expenses, Division of Venereal Diseases, \$14,771, to provide for additional services at Hot Springs, Ark.; expenses, Division of Mental Hygiene, \$171,619, to provide for the operation of the new narcotic farm at Lexington, Ky., on a full-year basis; in all, \$749,704, less net decreases in other miscellaneous items amounting to \$887.

#### BUREAU OF THE MINT

The Director of the Mint has general supervision of the mints and assay offices of the United States, and directs the coinage to be executed.

There is a net increase of \$136,018 in the 1936 estimate for this Bureau in order to provide for essential increases in personal services and other expenses both in the Bureau and in the mints and assay offices in the field because of a heavy increase in work brought about by recent legislation.

#### PROCUREMENT DIVISION

The Procurement Division is composed of the Public Works Branch and the Supply Branch.

#### PUBLIC WORKS BRANCH

This branch is charged with the following functions: Procurement of sites; preparation of drawings, estimates, specifications, etc., for, and the superintendence of, the work of constructing, rebuilding, extending, or repairing public buildings, the maintenance of those public buildings outside the District of Columbia which are under the jurisdiction of the Secretary of the Treasury, including the employment and supervision of the custodial forces, and the supply of furniture, carpets, lighting fixtures, mechanical equipment, safes, and miscellaneous supplies for the use of custodians' and engineers' forces in the care of such buildings.

The Public Works Branch estimate includes 3 new appropriations in lieu of 7 appropriations requested in prior years. These 3 new appropriations and the 7 former appropriations are combined as follows:

1. General administrative expense (salaries, Public Works Branch; general expenses of public buildings).
2. Repairs, preservation, and equipment, public buildings (repairs and preservation of public buildings; mechanical equipment of public buildings; and vaults and safes for public buildings).
3. Operating expenses, public buildings (operating force for public buildings; and operating supplies for public buildings).

There is a net decrease in the 1936 estimate for the Public Works Branch amounting to \$12,019,114, due to the practical completion of the regular public-building program. Considering the individual appropriations,

however, this net decrease comes about as follows: General administrative expense shows a net increase of \$207,465, due to reorganization of the field service to supervise the repair and preservation of approximately 1,800 public buildings now in operation throughout the country; repairs, preservation, and equipment of public buildings shows an increase of \$386,700, due to added expense of maintaining in good condition the large number of new public buildings that have been created in the past few years; the remaining items show decreases as follows: Operating expenses of public buildings (Treasury buildings, 180 in all), \$65,514; furniture and repairs of same, \$55,000; outside professional services, \$400,000; sites and construction, \$11,000,000; and miscellaneous building projects, \$1,091,765.

EMERGENCY ITEM APPROPRIATED IN 1935 NOT ESTIMATED FOR IN  
1936

This item covers emergency construction of public buildings, 1935, \$65,000,000.

#### SUPPLY BRANCH

It is the duty of the Supply Branch to prepare annually a schedule of miscellaneous supplies in common use by two or more executive departments or Government establishments in Washington; to standardize such supplies; to solicit bids therefor and recommend awards; to make definite quantity purchases of certain materials used by the Government activities in Washington, and for the field service of any department or establishment when

requested to do so by the head thereof; to have charge of the transfer and sale of surplus property in the District of Columbia.

The Supply Branch estimate shows a net increase of \$195,349, to provide additional personal services for the efficient operation of the warehouse and purchasing sections inasmuch as the division plans to increase its coverage from 850 to 2,000 items.

#### Permanent appropriations:

There is a net decrease of \$10,823,608 in the 1936 estimate of indefinite appropriations, known as "special accounts" due to the Permanent Appropriation Repeal Act, 1934, making most of them annual appropriations in 1936. One new indefinite appropriation, payment of interest on Philippine Government deposits, is estimated for 1936 to be \$1,100,000. There is also an increase of \$752,092 under expenses of loans.

#### Trust accounts:

Under the Permanent Appropriation Repeal Act, 1934, a number of additional trust accounts, mostly minor in nature, were created. There is a net increase of \$15,535,300 under this title, principally due to the Philippine trust account relating to the coconut-oil tax, involving \$15,000,000.

#### Public debt operations:

The 1936 estimate for debt-retirement payments shows an increase of \$110,670,150 and for interest payments an increase of \$50,651,000.

**TREASURY DEPARTMENT**  
**ESTIMATES OF APPROPRIATIONS**

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Treasury Department for the fiscal year ending June 30, [1935] 1936, namely:

**OFFICE OF THE SECRETARY**

*Salaries, Office of Secretary of the Treasury—*

Salaries: Secretary of the Treasury, Under Secretary of the Treasury, three Assistant Secretaries of the Treasury, and other personal services in the District of Columbia, \$150,000: *Provided*, That in expending appropriations or portions of appropriations contained in this Act for the payment of personal services in the District of Columbia in accordance with the Classification Act of 1923, as amended, with the exception of the Assistant Secretaries of the Treasury the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act, as amended: *Provided*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed, as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade in the same or a different bureau, office, or other appropriation unit, (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law, or (5) to reduce the compensation of any person in a grade in which only one position is allocated.]

[For an additional amount for salaries, Office of the Secretary of the Treasury, under the authority contained in sections 512 and 513 of the Revenue Act of 1934, creating the Office of General Counsel for the Department of the Treasury, and authorizing the Secretary of the Treasury to appoint and fix the compensation of five assistants at rates of compensation of not to exceed \$10,000 per annum; including necessary traveling expenses, the temporary employment of experts, and the payment of actual transportation and subsistence expenses to any person whom the Secretary of the Treasury may from time to time invite to the city of Washington or elsewhere for conference and advisory purposes in furthering the work of the Department, fiscal year 1935, \$100,000: *Provided*, That the unexpended balances of appropriations now available for expenditure by the Treasury Department, and the appropriations for such Department for the fiscal year 1935, to the extent applicable to the legal activities of the Department as constituted prior or subsequent to the enactment of the Revenue Act of 1934, shall be available, during the fiscal year for which appropriated, for expenditure, under the direction of the Secretary, to carry out the provisions of section 512 of said Act: *Provided further*, That, with the exception of any office the rate of compensation for which is specifically fixed by the terms of section 512, the lawful rate of compensation of any other office or position provided for by sections 512 and 513 of the Revenue Act of 1934 shall not be in excess of \$10,000.] *Salaries: Secretary of the Treasury, Undersecretary of the Treasury, general counsel for the Treasury, three assistant secretaries of the Treasury, and for other personal services in the District of Columbia, including the offices of the general counsel and the chief clerk, the Divisions of Research and Statistics, Supply, and Appointments, and the operating force of the Treasury, Liberty Loan, and Auditors' Buildings and the Treasury Department Annex, Pennsylvania Avenue and Madison Place, and of other buildings under the control of the Treasury Department; and the temporary employment of experts: \$1,061,200: Provided, That the appropriations for the Treasury Department for the fiscal year 1936, to the extent applicable to the legal activities of the Department, shall be available for expenditure under the direction of the Secretary to carry out the provisions of section 512 of the Revenue Act of 1934 creating the office of the general counsel for the Department of the Treasury: Provided further, That in expending appropriations or portions of appropriations contained in this Act for the payment of personal services in the District of Columbia, in accordance with the Classification Act of 1923, as*

*amended, with the exception of the assistant secretaries of the Treasury the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act, as amended, and in grades in which only one position is allocated the salary of such position shall not exceed the average of the compensation rates for the grade, except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade, but not more often than once in any fiscal year, and then only to the next higher rate: Provided, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed, as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade in the same or a different bureau, office, or other appropriation unit, (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law, or (5) to reduce the compensation of any person in a grade in which only one position is allocated. Sinking fund—

SEC. 6. (a) That there is hereby created in the Treasury a cumulative sinking fund for the retirement of bonds and notes issued under the First Liberty Bond Act, the Second Liberty Bond Act, the Third Liberty Bond Act, the Fourth Liberty Bond Act, or under this Act, and outstanding on July 1, 1920. The sinking fund and all additions thereto are hereby appropriated for the payment of such bonds and notes at maturity or for the redemption or purchase thereof before maturity by the Secretary of the Treasury at such prices and upon such terms and conditions as he shall prescribe, and shall be available until all such bonds and notes are retired. The average cost of the bonds and notes purchased shall not exceed par and accrued interest. Bonds and notes purchased, redeemed, or paid out of the sinking fund shall be canceled and

retired and shall not be reissued. For the fiscal year beginning July 1, 1920, and for each fiscal year thereafter, until all such bonds and notes are retired, there is hereby appropriated, out of any money in the Treasury not otherwise appropriated, for the purpose of such sinking fund, an amount equal to the sum of (1) 2½ per centum of the aggregate amount of such bonds and notes outstanding on July 1, 1920, less an amount equal to the par amount of any obligations of foreign governments held by the United States on July 1, 1920, and (2) the interest which would have been payable during the fiscal year for which the appropriation is made on the bonds and notes purchased, redeemed, or paid out of the sinking fund during such year or in previous years.

That subdivision (a) of section 6 of the Victory Liberty Loan Act is amended by inserting before the period at the end of the first sentence a comma and the following words: "and of bonds and notes thereafter issued, under any of such Acts or under any of such Acts as amended [ , for refunding purposes ]" (U. S. C., title 31, sec. 767; sec. 14 (b) act Jan. 30, 1934, 48 Stat., p. 343).

For each fiscal year beginning with the fiscal year 1934, there is hereby appropriated, in addition to and as part of, the cumulative sinking fund provided by section 6 of the Victory Liberty Loan Act, as amended, out of any money in the Treasury not otherwise appropriated, for the purpose of such fund, an amount equal to 2½ per centum of the aggregate amount of the expenditures made out of appropriations made or authorized under this Act as determined by the Secretary of the Treasury (U. S. C., Supp. VII, title 40, sec. 410).

Addition to cumulative sinking fund (section 308 of Emergency Relief and Construction Act of 1932): To carry into effect the provisions of section 308 of the Emergency Relief and Construction Act of 1932, approved July 21, 1932 (47 Stat., p. 709), there is hereby appropriated for each fiscal year beginning with the fiscal year 1935, out of any money in the Treasury not otherwise appropriated, for the purposes of the cumulative sinking fund provided in section 6 of the Victory Liberty Loan Act, as amended, in addition to amounts otherwise appropriated, a sum equal to 2½ per centum of the aggregate of the expenditures on or after June 30, 1933, from appropriations made or authorized in sections 301 and 302, title III, of the Emergency Relief and Construction Act of 1932 (U. Refunds and Drawbacks (Customs)—

For refunds of customs collections and for payments of debentures or drawbacks (secs. 2 (a) and (b), (9), (10), (20), (25), and (26) of the Permanent Appropriation Repeal Act of 1934, approved June 26, 1934), \$14,000,000, including the following objects:

(1) Refund of Excessive Duties.—To enable the Secretary of the Treasury to refund duties and correct errors in liquidation of entries in the following cases:

(a) Excess deposits.—Whenever it is ascertained on final liquidation or reliquidation of an entry that more money has been deposited or paid than was required by law to be so deposited or paid;

(b) Erroneous charges.—Whenever it is determined in the manner required by law that any fees, charges, or exactions, other than duties, have been erroneously collected;

(c) Clerical error.—Whenever a manifest clerical error is discovered in any entry or liquidation within one year after the date of entry, or within 60 days after liquidation when liquidation is made more than 10 months after the date of entry; and

(d) Household goods.—Whenever duties have been paid on household or personal effects which by law were not subject to duty, notwithstanding a protest was not filed within the time and in the manner prescribed by law (U. S. C., Supp. VII, title 19, sec. 1520).

(2) Debentures or Drawbacks, Bounties, or Allowances.—For the payment of debentures or drawbacks, bounties, and allowances, which are or may be authorized, and payable according to laws authorizing them: [Provided, That the collectors of customs shall be the disbursing agents to pay the same] (U. S. C., title 31, sec. 711; U. S. C., Supp. VII, title 19, secs. 1313, 1557).

(3) Refunding Duties on Goods Destroyed.—To enable the Secretary of the Treasury, upon production of proof satisfactory to him of the loss or theft of any merchandise while in the appraiser's stores, or of the actual injury or destruction, in whole or in part, of any merchandise by accidental fire or other casualty, while in bonded warehouse, or in the appraiser's stores, or while in transportation under bond, or while in the custody of the officers of the customs, although not in bond, or while within the limits of any port of entry and before having been landed under the supervision of the officers of the customs, to abate or refund, as the case may be, the duties upon such merchandise, in whole or in part, and to pay any such refund out of any moneys in the Treasury not otherwise appropriated (U. S. C., title 19, sec. 1563).

(4) Refunding Proceeds of Unclaimed Merchandise.—To repay to claimants the overplus received from the sale under customs laws of unclaimed merchandise, on due proof of their property and entitlement (U. S. C., title 31, sec. 711).

(5) Proceeds of Goods Seized and Sold.—To refund the proceeds of goods, wares, and merchandise seized and sold for having been illegally imported into the United States (U. S. C., title 31, sec. 711, act June 26, 1934, 48 Stat., p. 1225).

*Philippine Trust Fund, Internal Revenue, Coconut Oil Tax (Trust Fund)—*

There is hereby imposed upon the first domestic processing of coconut oil, sesame oil, palm oil, palm kernel oil, or sunflower oil, or of any combination or mixture containing a substantial quantity of any one or more of such oils with respect to any of which oils there has been no previous first domestic processing, a tax of 3 cents per pound, to be paid by the processor. There is hereby imposed (in addition to the tax imposed by the preceding sentence) a tax of 2 cents per pound, to be paid by the processor, upon the first domestic processing of coconut oil or of any combination or mixture containing a substantial quantity of coconut oil with respect to which oil there has been no previous first domestic processing, except that the tax imposed by this sentence shall not apply when it is established, in accordance with regulations prescribed by the Commissioner with the approval of the Secretary, that such coconut oil (whether or not contained in such a combination or mixture), (A) is wholly the production of the Philippine Islands or any other possession of the United States, or (B) was produced wholly from materials the growth or production of the Philippine Islands or any other possession of the United States, or (C) was brought into the United States on or before the 30th day after the date of enactment of this Act, or produced from materials brought into the United States on or before the thirtieth day after the date of enactment of this Act, or (D) was purchased under a bona fide contract entered into prior to April 26, 1934, or produced from materials purchased under a bona fide contract entered into prior to April 26, 1934. All taxes collected under this section with respect to coconut oil wholly of Philippine production or produced from materials wholly of Philippine growth or production, shall be held as a separate fund and paid to the treasury of the Philippine Islands, but if at any time the Philippine government provides by any law for any subsidy to be paid to the producers of copra, coconut oil, or allied products, no further payments to the Philippine treasury shall be made under this subsection. For the purposes of this section the term “first domestic processing” means the first use in the United States, in the manufacture or production of an article intended for sale, of the article with respect to which the tax is imposed, but does not include the use of palm oil in the manufacture of tin plate (act May 10, 1934, 48 Stat., p. 763, sec. 602½ (a)).

EXPLANATORY SYNOPSIS

Of the total net increase of \$39,536,523 in the Budget estimates for 1936 over the total of appropriations for 1935, \$10,312,524 represents the restoration of the remaining 5 percent of legislative reductions in compensation. The principal items of increase and decrease involved in the balance of the net increase, namely, \$29,223,999, are mentioned below.

DEPARTMENTAL ACTIVITIES

Annual appropriations:

SALARIES AND EXPENSES

Included under this head are all departmental salaries, contingent expenses, stationery, and printing and binding. Departmental salaries show a net decrease of \$111,744 and items of contingent expenses, stationery, printing and binding, and Army medical library a net increase of \$102,954, or a net decrease of \$8,790. The salary decreases are due to the omission in 1936 of estimates for the pay of an Assistant Secretary of War for Air and his clerical force; the transfer of salary amounts from the item "Salaries, Surgeon General's Office" to the items "Army medical library" and "Army Medical Museum" in order accurately to reflect the costs of these three items; and a reduction in the salary requirements of the Bureau of Insular Affairs by reason of the transfer

therefrom to the Interior Department of supervision over the affairs of Puerto Rico. The increases in other items consist of \$26,369 for office supplies, stationery, and equipment for the various bureaus of the War Department; \$51,585 for employees transferred to the Army medical library pay roll from that of the Surgeon General's Office; and \$25,000 for printing and binding to cover the cost of printing a service register of the officers of the National Guard.

MILITARY ACTIVITIES

Annual appropriations:

OFFICE OF THE SECRETARY OF WAR

The only item under this head is a small fund for contingencies. The estimate for 1936 shows a decrease from 1935 of \$2,650, based upon past expenditures.

GENERAL STAFF CORPS

Includes contingencies of the Military Intelligence Division, General Staff, and salaries and expenses of the Army War College. For 1936 there is a net increase of \$10,450 for the military intelligence service, due to increased costs abroad and the necessity for additional funds for the various activities of this service.

## ADJUTANT GENERAL'S DEPARTMENT

The appropriation items concerned are "Command and General Staff School, Fort Leavenworth, Kans.," "Welfare of enlisted men", and "Field exercises." The entire increase is for field exercises of the Army and is due to an enlarged program designed to afford Army commanders practical experience in the command of troops in the field under simulated war conditions.

## FINANCE DEPARTMENT

Under this head provision is made for the pay and allowance of active and retired officers, warrant officers, nurses, and enlisted men of the Regular Army and the Philippine Scouts; expenses of courtmartial; apprehension of deserters; hire of civilian employees of the Finance Department in the field; interest on deposits of savings by soldiers; claims for the loss and damage of personal property of Army personnel; and travel of military and civil personnel.

The net increase in 1936 over 1935 for pay and allowances of the Army is \$3,049,607 and is due to automatic increases provided for by law and to an abnormal increase in the cost of the officers' retired list by the transfer thereto of some 358 officers, the majority of whom were retired under a provision contained in the War Department Appropriation Act for 1935. For other items, the only increase is \$572,733 for travel of military and civil personnel and is due to an enlarged program of Army field exercises and to the effect of legislation reducing the tours of duty of officers and enlisted men overseas from 3 to 2 years.

The Budget estimates for 1936 provide for average active strengths of 12,000 commissioned officers, 828 warrant officers, and 118,750 enlisted men of the Regular Army and 6,415 enlisted men of the Philippine Scouts.

## QUARTERMASTER CORPS

This includes appropriation items for the subsistence, clothing and transportation of the Army; furnishing of nontechnical supplies; the maintenance, repair, and operation of barracks, quarters, and other buildings and utilities; procurement of horses, draft and pack animals; incidental expenses; sewerage system at Fort Monroe, Va.; and construction and repair of hospitals. The principal items of increase are as follows:

Subsistence of the Army, \$2,768,136, due solely to increased cost of the ration. A ration cost of 31.5 cents per man per day was allowed by Congress for 1935, which has proven inadequate as evidenced by the fact that the average cost of the ration has steadily risen from 28.53 cents in March 1933 to 40.9 cents in November 1934. For 1936 the War Department submitted an estimate for subsistence of the Army based upon a 37.25 ration cost. This figure is used in the Budget estimates, but even if the cost of the ration remains at its present level this estimate will, of course, prove to be too low and a deficiency estimate must be resorted to, as it is now known will be necessary for the fiscal year 1935.

Regular supplies of the Army, \$182,338, due principally to increased cost of forage for animals; \$104,623 for clothing and equipage, to restore in part a cut made in the 1935 appropriation for payment of clothing savings to enlisted men on discharge; \$1,210,200 for transportation of the Army, due principally to inclusion of an item of \$1,000,000 for the replacement of motor vehicles, principally trucks, bought during the World War and no longer economical to repair and increased cost of the

relief and replacement of overseas garrisons by reason of legislation reducing service tours from 3 to 2 years; and \$107,755 for repairs to barrack and quarters and other buildings and utilities to replace, in part, reductions made in the 1935 appropriation because of the availability that year of funds allotted by the Public Works Administration.

## SIGNAL CORPS

Signal Service of the Army is the only appropriation item concerned. The net increase in 1936 is \$2,811,717, consisting principally of \$2,228,585 for equipping airplanes on hand and new ones to be procured in 1935 with radio apparatus to meet the requirements of safe and efficient military aviation; \$470,000 for the installation of radio stations for the Air Corps to provide for communication with airplanes in flight; and \$101,400 for radio equipment for mechanized units of the Army.

## AIR CORPS

The Budget estimate for 1936 is a net increase over the 1935 appropriation of \$20,353,672, of which \$3,000,000 is for the payment of obligations incurred under a contract authorization of the amount provided for in the 1935 appropriation act for the procurement of airplanes, spare parts, and accessories. The Budget estimate makes adequate provision for carrying on work of research, experimentation, and development with respect to airplanes, their engines, equipment, and accessories; the maintenance and operation of Air Corps stations; the maintenance, repair, and operation of aircraft; and the operation of facilities for the training of flying cadets, and affords an average of 300 hours flying time per pilot. In addition, it provides for the procurement of 547 new airplanes which, together with those on hand and 25 to be procured under the estimate for the Organized Reserves, will give the Air Corps a total of 1,352 airplanes on hand and on order on June 30, 1936. This very material increase of funds still leaves a deficiency in the number of airplanes provided for under existing law, but attention is invited to the fact that in the Budget estimates for the Signal Corps and the Ordnance Department a total of approximately \$4,800,000 has been provided for equipping all airplanes on hand, as well as the new ones to be procured, with modern radio apparatus and armament and for the establishment of radio stations for communicating with airplanes in flight.

## MEDICAL DEPARTMENT

Provides for the medical and hospital department of the Army, including hospital care of Panama Canal Zone garrisons, and the maintenance and operation of the Army Medical Museum. The net increase in 1936 of \$66,061 is due to the necessity of replacing old and worn equipment of hospitals, the purchase of equipment for new station hospitals, and the transfer to the pay roll of the Army Medical Museum of the salaries of museum employees heretofore carried on the pay roll of the office of the Surgeon General of the Army.

## CORPS OF ENGINEERS

Embraces items for engineer depots, school, equipment of troops, operations in the field, and military surveys and maps. The net increase of \$55,564 covers the purchase of 2 anti-aircraft searchlights to replace 2 which have become obsolete, and the maintenance and repair of all anti-aircraft searchlights on hand, the cost of which has heretofore been provided for under the item "Seacoast defenses."

## ORDNANCE DEPARTMENT

Comprises appropriation items for ordnance service and supplies, the maintenance and operation of Rock Island Arsenal bridges, the repair of arsenals, and the development and procurement of gages, dies, and jigs for manufacture. The net increase amounts to \$5,125,218, consisting principally of \$1,448,191 for the manufacture of ammunition for target practice by the Army, the increase being due to the fact that the 1935 appropriation for ammunition was curtailed because of the availability of funds allotted by the Public Works Administration; \$3,411,659 principally for the procurement of ordnance material for supplying deficiencies in certain items, for improvements in Field Artillery equipment, for the equipment of mechanized units of the Army, and for equipping all old airplanes and the new ones to be procured by the Air Corps with modern armament; and \$265,000 for repairs to magazines at Raritan Arsenal, N. J.

## CHEMICAL WARFARE SERVICE

The 1936 estimate provides a net increase of \$28,806 consisting of an increase of \$41,108 in the cost of gas masks, \$10,000 for the renovation of chemical ammunition, and \$5,425 due to the operation of the 40-hour-week law, less \$27,727 for a nonrecurring item.

## CHIEFS OF INFANTRY, CAVALRY, FIELD ARTILLERY, AND COAST ARTILLERY

Includes the service schools of these four branches of the Army. The increase is all for restoration of pay.

## SEACOAST DEFENSES

This embraces, for the United States, insular possessions, and Panama Canal, the construction, maintenance, and repair of fixed fortifications; the procurement, installation, and maintenance of fire-control systems, searchlights, and submarine mine defenses; installation of fixed antiaircraft defenses; and the procurement and maintenance of ordnance and ordnance material. Various phases of the work are handled by the Corps of Engineers, the Signal Corps, the Coast Artillery Corps, and the Ordnance Department. The Budget estimate for 1936 shows a net increase of \$43,717, principally for installing fixed searchlights pertaining to the seacoast defenses of the Panama Canal, procured with funds allotted by the Public Works Administration.

## UNITED STATES MILITARY ACADEMY

Under this head fall the pay and allowances of cadets and civilian employees, and the maintenance, operation, and repair of the academy. The increase for 1936 is solely for restoration of the remaining 5-percent legislative reduction in compensation.

## NATIONAL GUARD BUREAU

Under this head provision is made for the entire cost to the Federal Government for the equipment, maintenance, and training of the National Guard, except the pay and allowances of commissioned officers of the Regular Army and the pay of enlisted men of the Regular Army detailed as instructors. The Budget estimate for 1936 shows a net increase over 1935 of \$776,526, the increases consisting principally of \$250,000 for articles of

the uniform; \$100,100 for quartermaster supplies and equipment; \$1,100,000 for ammunition due to the fact that only \$100,000 was appropriated for this purpose in 1935 by reason of the availability of funds allotted by the Public Works Administration; \$702,244 for the purchase of 25 new airplanes for replacement and \$168,750 for airplane repairs and spare engines; and \$399,575 for antiaircraft equipment. The principal decreases consist of \$951,437 in rail transportation costs due to the substitution of trucks, procured in the fiscal years 1934 and 1935, as a means of transporting guardsmen and their paraphernalia to and from summer training camps, and \$171,480 for the hire of fewer caretakers of animals because of the motorization of some of the National Guard units, and approximately \$1,000,000 for nonrecurring items, principally purchase of trucks. Provision is made in this estimate for holding annual encampments and 46 armory drills at full attendance strength. The average strength of the guard for 1938 is estimated at 185,000.

## ORGANIZED RESERVES

The net increase for 1936 is \$1,073,882, consisting principally of \$534,591 for ammunition, due to curtailment of the 1935 appropriation for this item because of the availability of funds allotted by the Public Works Administration, and \$549,280 for the procurement, maintenance, and operation of airplanes for training purposes. The Budget estimate makes provision for 14 days' active-duty training of 16,000 Reserve officers; for detail of 6 months each on the General Staff of 10 such officers; for the detail on active duty for 1 year with tactical units of the Air Corps of the Regular Army of 200 Reserve pilots; and for attendance of from 6 to 12 weeks of 200 Reserve officers at Regular Army service schools. The estimate also provides for the maintenance and operation of 250 Organized Reserve headquarters in 192 cities, for inactive duty flying of Air Corps Reserve officers, for extension courses for Reserve officers and the furnishing of such officers with training manuals.

## RESERVE OFFICERS' TRAINING CORPS

The Budget estimate makes provision for the enrollment and instruction of approximately 127,500 students in Reserve Officers' Training Corps units at schools and colleges and the training of 7,200 of this number in 30-day camps. The net increase in the 1935 estimate is principally for the procurement of ammunition for target practice due to the curtailment of the 1935 appropriation for this item because of the availability of funds allotted by the Public Works Administration.

## CITIZENS' MILITARY TRAINING CAMPS

The Budget estimate is practically the same as the 1935 appropriation and provides for approximately 14,000 trainees.

## NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE

Provision is made under this head for quartermaster supplies and services for rifle ranges for civilian instruction; for the procurement of trophies and medals; and for ordnance equipment and ammunition for civilian rifle clubs. The Budget estimate for 1936 is practically the same as the appropriation for 1935.

## Permanent appropriations:

## FINANCE DEPARTMENT

Permanent indefinite appropriation for the payment of claims of officers and men of the Army for destruction of private property. This item was repealed as a permanent appropriation, effective July 1, 1935, by the Permanent Appropriation Repeal Act, 1934. Hereafter, claims of this character are to be certified to Congress for appropriation from the general fund of the Treasury. No estimate is therefore included in the 1936 Budget.

## ORDNANCE DEPARTMENT

Under this department there has been one permanent appropriation which authorized the use of not more than \$75,000 in any one fiscal year from the proceeds of sales of useless ordnance material. This was repealed as a permanent appropriation, effective July 1, 1935, by the Permanent Appropriation Repeal Act, 1934, which provided that thereafter this item would be provided for as an annual appropriation.

## NONMILITARY ACTIVITIES

## Annual appropriations:

## QUARTERMASTER CORPS

Under this head are included the appropriation items for cemeterial expenses and the care of monuments and tablets in Cuba and China. The Budget estimate for 1936 shows a net decrease of \$59,478, the result of a number of small increases and decreases, the principal decrease being due to the transfer of the maintenance of American cemeteries in Europe from the Quartermaster Corps of the Army to the American Battle Monuments Commission.

## SIGNAL CORPS

This covers the maintenance and operation of the Washington (State)-Alaska Military Cable and Telegraph System, now used almost exclusively for commercial and Government civil purposes. The Budget estimate for 1936 is practically the same as the appropriation for 1935. This system is now operated principally by radio, the old cable and telegraph installation being retained as a reserve system.

## CORPS OF ENGINEERS

Included in the annual appropriations under this head is the maintenance and improvement of existing river and harbor works; flood control on the Mississippi and Sacramento Rivers; and emergency fund for flood control on tributaries of the Mississippi River. Effective July 1, 1935, there will be added, as annual appropriation items under the provisions of the Permanent Appropriation Repeal Act, 1934, the following activities theretofore provided for by permanent appropriations, namely:

Removing obstructions in Mississippi, Atchafalaya, and Old Rivers; operating snag and dredge boats on upper Mississippi, Illinois, and Minnesota Rivers; maintenance of channel, South Pass, Mississippi River; examinations and surveys at South Pass, Mississippi River; gaging waters of the Mississippi and its tributaries; operating snag boats on the Ohio River, permanent international commission of congresses of navigation; and operating

and care of canals (except the Panama Canal) and other works of navigation.

The total amounts provided in the 1936 Budget for these purposes are: Maintenance and improvement of existing river and harbor works, including the items above mentioned as having previously been provided for as permanent appropriations, \$34,057,270; flood control, Mississippi River, \$15,000,000; flood control, Sacramento River, \$772,256; emergency fund for flood control on tributaries of the Mississippi River, \$499,400; and flood control, Lowell Creek, Alaska, \$2,000; a total of \$50,330,926. In addition to these amounts, there will be available for 1936 unobligated balances from prior years' appropriations of \$2,214,095 for maintenance and improvement of rivers and harbors; \$12,360,368 for flood control on the Mississippi River; and \$227,744 for flood control on the Sacramento River. This produces a total availability in 1936 of \$65,133,133. With the exception of one case involving continuing contracts for work on Great Lakes connecting channels, only maintenance work is provided for in connection with rivers and harbors. It is contemplated that other necessary work of river and harbor improvement will be considered in connection with a general public-works program.

## Permanent appropriations:

## FINANCE DEPARTMENT

Two permanent indefinite appropriations are concerned, namely, claims for extra pay to Regular Army, War with Spain; and claims of volunteers for extra pay, War with Spain. These claims items were repealed as permanent appropriations, effective July 1, 1935, by the Permanent Appropriation Repeal Act, 1934, and such claims will thereafter be certified to Congress for appropriation from the general fund of the Treasury.

## CORPS OF ENGINEERS

Certain permanent appropriations relating to rivers and harbors have heretofore been provided for in the Budget as such. These have been changed to annual appropriations, effective July 1, 1935, by the Permanent Appropriation Repeal Act, 1934, and are provided for in the Budget for 1936 as annual items, as explained above under the heading "Annual appropriations, Corps of Engineers."

## Trust funds:

## FINANCE DEPARTMENT

This item consists of savings of soldiers deposited with the Government and which are repaid to soldiers upon their discharge from service. The repayments in 1936 are estimated at \$800,000, the same as 1935.

## CORPS OF ENGINEERS

Items designated as trust funds, consist of advances and contributions made for river and harbor improvements and flood control. For 1936 the expenditure from such funds is estimated at \$928,702, a decrease below 1935 of \$586,298.

## UNITED STATES SOLDIERS' HOME

This home, located in the District of Columbia, was founded by the act of Congress approved March 3, 1851,

to provide a comfortable refuge for the old, invalid, and disabled soldiers of the Regular Army of the United States. Its maintenance and operation is provided for by two appropriations designated as "Soldiers' Home Permanent Fund" and "Soldiers' Home Interest Account." The Permanent Appropriation Repeal Act, 1934, provides that, effective July 1, 1935, expenditures from the "Soldiers' Home Permanent Fund" shall be made annually in pursuance of appropriations annually made by Congress. This act also changed the status of the "Soldiers' Home Interest Account" from that of a permanent appropriation to that of a trust fund.

The Budget for 1936 includes a total estimate of \$782,386, exclusive of pay restoration, a decrease of \$81,364 below 1935, due principally to nonrecurring items.

#### PANAMA CANAL

##### Annual appropriations:

The appropriation items involved are maintenance and operation, sanitation, and civil government. The amount included in the Budget for appropriation for the fiscal year is a net increase of \$3,159,171 over the amount appropriated for 1935. On a total availability basis, however, the net increase for 1936 over 1935 is but \$829,501, when there are considered the unobligated balances from prior-year appropriations available for each of these years.

The amount of the Budget estimate for 1936 for sanitation and civil government is practically the same as that available in 1935.

For maintenance and operation of the canal it is necessary to ask for a net increase of \$3,028,510 in the amount

of appropriated funds for 1936 because there will be less old balances available than in 1935. The Budget estimate, which contemplates an appropriation of \$8,000,000 and the use of \$1,167,759 of old balances, or a total of \$9,167,759, will provide \$6,330,019 for current operating expenses of the canal proper, \$2,285,500 for replacements, and \$552,240 for betterments. The replacements consist of \$1,000,000 for constructing a new station for the dredging fleet to replace an old wooden one constructed when the canal was built and now beyond repair, besides being so located as to interfere with the transit of vessels through the canal; \$400,000 for continuing the program of replacing old wooden quarters for white employees with modern construction; \$285,500 for rebuilding main highways; \$500,000 for beginning the reconstruction of one of the principal commercial docks; and \$100,000 for the alteration of two permanent concrete buildings to permit the abandonment of certain wooden ones no longer economically repairable. The betterments consist of \$298,440 for the Madden Dam, which will practically complete this structure; \$61,800 for quarters for military guards at the locks; \$27,000 for a ward building at the leper colony and \$50,000 for a similar building for white patients at the hospital for the insane; \$35,000 for a building for the storage of material for use in the overhaul of locks; \$50,000 for a metal block assembly to permit the drydocking of naval vessels; and \$30,000 for moving a sewer outlet to deep water. Many of the foregoing items have in the past been deferred in the interest of curtailing expenditures, but the time has arrived when they should be provided.

Army Transportation—

Army transportation: For transportation of Army supplies; of authorized baggage, including packing and crating; of horse equipment; and of funds for the Army; for the purchase or construction, [not to exceed \$10,000], alteration, operation, and repair of boats and other vessels; for wharfage, tolls, and ferrriage; for drayage and cartage; for the purchase, manufacture (including both material and labor), maintenance, hire, and repair of pack saddles and harness; for the purchase, hire, operation, maintenance, and repair of wagons, carts, drays, other vehicles, and horse-drawn and motor-propelled passenger-carrying vehicles required for the transportation of troops and supplies and for official military and garrison purposes, [maintenance and repair expenditures on motor-propelled vehicles not to exceed \$461,812, exclusive of labor;] for hire of draft and pack animals; for travel allowances to officers of National Guard on discharge from Federal service as prescribed in the Act of March 2, 1901 (U. S. C., title 10, sec. 751), and to enlisted men of National Guard on discharge from Federal service, as prescribed in amendatory Act of September 22, 1922 (U. S. C., title 10, sec. 752), and to members of the National Guard who have been mustered into Federal service and discharged on account of physical disability; in all, [\$7,702,359] \$9,195,981, of which amount not exceeding \$250,000 shall be available immediately for the procurement and transportation of fuel for the service of the fiscal year [1935] 1936: [Provided, That no part of this appropriation shall be available for the purchase or exchange of motor-propelled passenger-carrying vehicles except that completely assembled and equipped motor-propelled trucks, including station wagon types, to cost not to exceed \$750 each, including the value of any vehicle exchanged, may be purchased out of savings that would accrue to this appropriation and to other appropriations for the fiscal year 1935 under the Quartermaster Corps, and to the appropriation "Travel, Military and Civil Personnel", from a lessened expense on account of the maintenance of animals, for or on account of the purchase, maintenance, and operation of animal-drawn equipment, or for or on account of rail transportation of persons and materials, owing to the employment of such vehicles: *Provided further*, That, effective January 1, 1935, no appropriation contained in this Act shall be available for any expense of any character, other than as may be incident to salvaging or scrapping, on account of any motor-propelled vehicle procured prior to January 1, 1920, except tractors, ambulances, fire trucks, and vehicles now in use by Reserve Officers' Training Corps units: *Provided further*, That no appropriation contained in this Act shall be available for any expense for or incident to the transportation of privately owned automobiles except on account of the return to the United States of such privately owned automobiles as may have been transported to points outside of the continental limits of the United States at public expense prior to July 14, 1932: *Provided [further]*, That during the fiscal year [1935] 1936 the cost of transportation from point of origin to the first point of storage or consumption of supplies, equipment, and material in connection with the manufacturing and purchasing activities of the Quartermaster Corps may be charged to the appropriations from which such supplies, equipment, and material are procured (U. S. C., title 10, secs. 72, 751, 752; act Apr. 26, 1934, 48 Stat., pp. 622-623).

AIR CORPS

Air Corps, Army—

For creating, maintaining, and operating at established flying schools and balloon schools courses of instruction for officers, students, and enlisted men, including cost of equipment and supplies necessary for instruction, purchase of tools, equipment, materials, machines, textbooks, books of reference, scientific and professional papers, instruments, and materials for the theoretical and practical instruction; for maintenance, repair, storage, and operation of airships, war balloons and other aerial machines, including instruments, materials, gas plants, hangars, and repair shops, and appliances of every sort and description necessary for the operation, construction, or equipment of all types of aircraft, and all necessary spare parts and equipment connected therewith and the establishment of landing and take-off runways; for purchase of supplies for securing, developing, printing, and reproducing photographs in connection with aerial photography; improvement, equipment, maintenance, and operation of plants for testing and experimental work, and procuring and introducing water, electric light and power, gas, and sewerage, including maintenance, operation, and repair of such utilities at such plants; for the procurement of helium gas; for travel of officers of the Air Corps by air in connection with the administration of this appropriation, including the transportation of new aircraft from factory to first destination; salaries and wages of civilian employees as may be necessary; transportation of materials in connection with consolidation of Air Corps activities; experimental investigations and purchase and development of new types of airplanes, helicopters and balloons, accessories thereto, and aviation engines, including plans, drawings, and specifications thereof, and the purchase of letters patent, applications for letters patent, licenses under letters patent and applications for letters patent; for the purchase, manufacture, and construction of airplanes and balloons, including instruments and appliances of every sort and description necessary for the operation, construction (airplanes and balloons), or equipment of all types of aircraft, and all necessary spare parts and equipment connected therewith

[, and during the fiscal year 1935, subject to the approval of the Chief of the Air Corps, transfers may be made from this appropriation to the appropriations contained in this Act, entitled "Signal Service of the Army" and "Ordnance Service and Supplies, Army," for the procurement of aircraft radio equipment and aircraft armament, respectively]; for the marking of military airways where the purchase of land is not involved; for the purchase, manufacture, and issue of special clothing, wearing apparel, and similar equipment for aviation purposes; for all necessary expenses connected with the sale or disposal of surplus or obsolete aeronautical equipment, and the rental of buildings, and other facilities for the handling or storage of such equipment; for the services of not more than four consulting engineers at experimental stations of the Air Corps as the Secretary of War may deem necessary, at rates of pay to be fixed by him not to exceed \$50 a day for not exceeding fifty days each and necessary traveling expenses; purchase of special apparatus and appliances, repairs and replacements of same used in connection with special scientific medical research in the Air Corps; for maintenance and operation of such Air Corps printing plants outside of the District of Columbia as may be authorized in accordance with law; for publications, station libraries, special furniture, supplies and equipment for offices, shops, and laboratories; for special services, including the salvaging of wrecked aircraft; for settlement of claims (not exceeding \$250 each) for damage to persons and private property resulting from the operation of aircraft at home and abroad when each claim is substantiated by a survey report of a board of officers appointed by the commanding officer of the nearest aviation post and approved by the Chief of Air Corps and the Secretary of War, [\$22,396,453] \$48,383,400: Provided, That from the amount herein appropriated [and the amount herein authorized for obligation not to exceed \$3,150,206 may be expended for pay of civilian employees other than those employed in experimental and research work;] not exceeding \$10,000 may be expended for the procurement of helium [from the Bureau of Mines, of which sum such amounts as may be required may be transferred in advance to that Bureau; not exceeding \$3,848,824 may be expended for experimental and research work with airplanes or balloons and their equipment, including the pay of necessary civilian employees], which sum of \$10,000 shall be transferred to and made available to the Bureau of Mines on July 1, 1935; and not less than [\$8,486,600] \$22,138,000 (including \$3,000,000 for the payment of obligations incurred under the contract authorization for these purposes carried in the War Department Appropriation Act for the fiscal year 1935, approved Apr. 26, 1934), which shall be available immediately shall be expended for the production or purchase of new airplanes and their equipment[,] and accessories, of which [\$6,365,100] \$16,666,000 shall be available exclusively for combat airplanes, their equipment and accessories; [not less than \$8,091,089 shall be expended, other than for pay of civilian employees, for aviation fuel and oil and for the repair and maintenance of airplanes and their equipment, spare parts, and accessories, and of such sum not exceeding \$155,582, for expenditure for like objects, shall be transferred to the National Guard subappropriation contained in this Act, entitled "Arms, Uniforms, Equipment, and so forth, for Field Service, National Guard", on account of seventy-six airplanes of the observation type, which shall be transferred from the Regular Army to the National Guard during the fiscal year 1935; and not more than \$6,000 may be expended for settlement of claims (not exceeding \$250 each) for damages to persons and private property resulting from the operation of aircraft at home and abroad when each claim is substantiated by a survey report of a board of officers appointed by the commanding officer of the nearest aviation post and approved by the Chief of Air Corps and the Secretary of War: Provided further, That in addition to the amounts herein provided for the procurement of new airplanes and for the procurement of equipment, spare parts, and accessories for airplanes, the Chief of the Air Corps when authorized by the Secretary of War, may enter into contracts prior to July 1, 1935, for the procurement of new airplanes and for the procurement of equipment, spare parts, and accessories for airplanes to an amount not in excess of \$3,000,000, and his action in so doing shall be deemed a contractual obligation of the Federal Government for the payment of the cost thereof]: Provided further, That the sum of [\$101,560] \$25,000 of the appropriation for Air Corps, Army, fiscal year [1932] 1933, shall remain available until June 30, [1935] 1936, for the payment of obligations incurred under contracts executed prior to July 1, [1932] 1933.

[For an additional amount for the improvement, development, and augmentation of aviation matériel, and for the training of military aviation personnel, to be immediately available, \$5,000,000, of which not less than \$3,000,000 shall be expended for the procurement of airplanes and their equipment, spare parts, and accessories for the Regular Army and the National Guard; not to exceed \$1,000,000 shall be expended for aviation fuel and oil and for the repair and maintenance of airplanes and their equipment and accessories for the training of military aviation pilots; and

not to exceed \$1,000,000 shall be available for expenditure in the discretion and under the direction of the President, as follows: For airplane accessories for the Regular Army and National Guard; for the investigation and development of a national aviation program, including the employment of personal services without regard to the Classification Act of 1923, as amended, and all other necessary expenses incident thereto; for the encouragement of development of types of airplanes, airplane engines, and aviation equipment, including the granting of awards; for compensation (not exceeding \$10,000) for information to be obtained from an authoritative source in such form and manner as the President may desire as to geographic, meteorologic and weather conditions in northern latitudes, and for such other purposes related to civil and military aviation as the President may deem proper] (U. S. C., title 10, secs. 291-309; U. S. C., Supp. VII, title 10, secs. 291-309; act Apr. 26, 1934, 48 Stat., pp. 626-628).

## ORGANIZED RESERVES

*Organized Reserves—*

For pay and allowances of members of the Officers' Reserve Corps on active duty in accordance with law; mileage, reimbursement of actual traveling expenses, or per diem allowances in lieu thereof, as authorized by law: *Provided*, That the mileage allowance to members of the Officers' Reserve Corps when called into active service for training for fifteen days or less shall not exceed 4 cents per mile; pay, transportation, subsistence, clothing, and medical and hospital treatment of members of the Enlisted Reserve Corps; conducting correspondence or extension courses for instruction of members of the Reserve Corps, including necessary supplies, procurement of maps and textbooks, and transportation and traveling expenses of employees; purchase of training manuals, including Government publications and blank forms, subscriptions to magazines and periodicals of a professional or technical nature; establishment, maintenance, and operation of divisional and regimental headquarters and of camps for training of the Organized Reserves; for miscellaneous expenses incident to the administration of the Organized Reserves, including the maintenance and operation of motor-propelled passenger-carrying vehicles; for the actual and necessary expenses, or per diem in lieu thereof, at rates authorized by law, incurred by officers and enlisted men of the Regular Army traveling on duty in connection with the Organized Reserves; for expenses incident to the use, including upkeep and depreciation costs, of supplies, equipment, and matériel furnished in accordance with law from stocks under the control of the War Department, except that not to exceed **[\$308,400]** *\$845,725* of this appropriation shall be available for expenditure by the Chief of the Air Corps for the production and purchase of new airplanes and their equipment, spare parts, and accessories; for transportation of baggage, including packing and crating, of reserve officers ordered to active duty for not less than six months; for the medical and hospital treatment of members of the Officers' Reserve Corps and of the Enlisted Reserve Corps, who suffer personal injury or contract disease in line of duty, as provided by the Act of April 26, 1928 (U. S. C., Supp. **[VI]** *VII*, title 10, secs. 451, 455), and for such other purposes in connection therewith as are authorized by the said Act, including pay and allowances, subsistence, transportation, and burial expenses; in all, **[\$4,278,859]** *\$5,617,674*; and no part of such total sum shall be available for any expense incident to giving flight training to any officer of the Officers' Reserve Corps unless he shall be found physically and professionally qualified to perform aviation service as an aviation pilot, by such agency as the Secretary of War may designate: *Provided*, That not to exceed **\$100,000** of this appropriation may be used for establishment and maintenance of divisional and regimental headquarters.

None of the funds appropriated elsewhere in this Act, except for printing and binding, field exercises, and for pay and allowances of officers and enlisted men of the Regular Army, and for mileage reimbursement of actual traveling expenses, or per diem allowances in lieu thereof, as authorized by law, to Air Corps reserve officers on extended active duty, shall be used for expenses in connection with the Organized Reserves, but available supplies and existing facilities at military posts shall be utilized to the fullest extent possible.

No appropriation made in this Act shall be available for pay, allowances, or traveling or other expenses of any officer of the Organized Reserves who may be drawing a pension, disability allowance, disability compensation, or retired pay from the Government of the United States.

No appropriation made in this Act shall be expended for the pay of a reserve officer on active duty for a longer period than fifteen days, except such as may be detailed for duty with the War Department General Staff under section 3a and section 5 (b) of the Army Reorganization Act approved June 4, 1920 (U. S. C., title 10, secs. 26, 37), or who may be detailed for courses of instruction at the general or special service schools of the Army, or who may be detailed for duty as instructors at civilian military training camps, appropriated for in this Act, or who may be detailed for duty with tactical units of the Air Corps, as provided in section 37a of the Army Reorganization Act approved June 4, 1920 (U. S. C., title 10, sec. 369): *Provided*, That the pay and allowances of such additional officers and nurses of the Medical Reserve Corps as are required to supplement the like officers and nurses of the Regular Army in the care of beneficiaries of the United States Veterans' Administration treated in Army hospitals may be paid from the funds allotted to the War Department by that administration under existing law (U. S. C., title 10, secs. 26, 37, 362, 366, 367, 369, 427; U. S. C., Supp. *VII*, title 10, secs. 451, 455; act Apr. 26, 1934. 48 Stat., pp. 634-635).

## CITIZENS' MILITARY TRAINING

*Reserve Officers' Training Corps—*

For the procurement, maintenance, and issue, under such regulations as may be prescribed by the Secretary of War, to institutions at which one or more units of the Reserve Officers' Training Corps are maintained, of such public animals, means of transportation, supplies, tentage, equipment, and uniforms as he may deem necessary, including cleaning and laundering of uniforms and clothing at camps; and to forage, at the expense of the United States, public animals so issued, and to pay commutation in lieu of uniforms at a rate to be fixed annually by the Secretary of War; for transporting said animals and other authorized supplies and equipment from place of issue to the several institutions and training camps and return of same to place of issue when necessary; for purchase of training manuals, including Government publications and blank forms; for the establishment and maintenance of camps for the further practical instruction of the members of the Reserve Officers' Training Corps, and for transporting members of such corps to and from such camps, and to subsist them while traveling to and from such camps and while remaining therein so far as appropriations will permit, or, in lieu of transporting them to and from such camps and subsisting them while en route, to pay them travel allowance at the rate of 5 cents per mile for the distance by the shortest usually traveled route from the places from which they are authorized to proceed to the camp and for the return travel thereto, and to pay the return travel pay in advance of the actual performance of the travel; for expenses incident to the use,

including upkeep and depreciation costs, of supplies, equipment, and matériel furnished in accordance with law from stocks under the control of the War Department; for pay for students attending advanced camps at the rate prescribed for soldiers of the seventh grade of the Regular Army; for the payment of commutation of subsistence to members of the senior division of the Reserve Officers' Training Corps, at a rate not exceeding the cost of the garrison ration prescribed for the Army, as authorized in the Act approved June 3, 1916, as amended by the Act approved June 4, 1920 (U. S. C., title 10, sec. 387); for medical and hospital treatment until return to their homes and further medical treatment after arrival at their homes, subsistence during hospitalization and until furnished transportation to their homes, and transportation when fit for travel to their homes of members of the Reserve Officers' Training Corps who suffer personal injury or contract disease in line of duty while en route to or from and while at camps of instruction under the provisions of section 47a of the National Defense Act approved June 3, 1916 (U. S. C., title 10, sec. 441), as amended; and for the cost of preparation and transportation to their homes and burial expenses of the remains of members of the Reserve Officers' Training Corps who die while attending camps of instruction as provided in the Act approved April 26, 1928 (U. S. C., Supp. [VI] VII, title 10, sec. 455); for mileage, traveling expenses, or transportation, for transportation of dependents, and for packing and transportation of baggage, as authorized by law, for officers, warrant officers, and enlisted men of the Regular Army traveling on duty pertaining to or on detail to or relief from duty with the Reserve Officers' Training Corps; for the maintenance, repair, and operation of motor vehicles, **[\$3,108,701] \$3,314,346**; of which \$400,000 shall be available immediately: *Provided*, That the Secretary of War is authorized to issue, without charge, in lieu of purchase, for the use of the Reserve Officers' Training Corps, so many horses now belonging to the Regular Army as he may consider desirable: *Provided*, That uniforms and other equipment or material issued to the Reserve Officers' Training Corps in accordance with law shall be furnished from surplus or reserve stocks of the War Department without payment from this appropriation, except for actual expense incurred in the manufacture or issue: *Provided further*, That in no case shall the amount paid from this appropriation for uniforms, equipment, or material furnished to the Reserve Officers' Training Corps from stocks under the control of the War Department be in excess of the price current at the time the issue is made: *Provided further*, That none of the funds appropriated in this Act shall be used for the organization or maintenance of an additional number of mounted, motor transport, or tank units in the Reserve Officers' Training Corps in excess of the number in existence on January 1, 1928: *Provided further*, That none of the funds appropriated in this Act shall be available for any expense on account of any student in Air Corps, Medical Corps, Dental Corps, or Veterinary units not a member of such units on May 5, 1932, but such stoppage of further enrollments shall not interfere with the maintenance of existing units: *Provided further*, That none of the funds appropriated elsewhere in this Act, except for printing and binding and pay and allowances of officers and enlisted men of the Regular Army, shall be used for expenses in connection with the Reserve Officers' Training Corps (U. S. C. title 10, secs. 381-385, 387-390, 441, 443, 444, 454; U. S. C., Supp. VII, title 10, secs. 451, 455; act Apr. 26, 1934, 48 Stat., pp. 635-636).

**THE PANAMA CANAL**

*Maintenance and Operation, Panama Canal—*

The limitations on the expenditure of appropriations hereinbefore made in this Act shall not apply to the appropriations for the Panama Canal.

For every expenditure requisite for and incident to the maintenance and operation, sanitation, and civil government of the Panama Canal and Canal Zone, including the following: Compensation of all officials and employees; foreign and domestic newspapers and periodicals; law books not exceeding \$1,000; textbooks and books of reference; printing and binding, including printing of annual report; rent and personal services in the District of Columbia; purchase or exchange of typewriting, adding, and other machines; purchase or exchange, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles; claims for damages to vessels passing through the locks of the Panama Canal, as authorized by the Panama Canal Act; claims for losses of or damages to property arising from the conduct of authorized business operations; claims for damages to property arising from the maintenance and operation, sanitation, and civil government of the Panama Canal; acquisition of land and land under water, as authorized in the Panama Canal Act; expenses incurred in assembling, assorting, storing, repairing, and selling material, machinery, and equipment heretofore or hereafter purchased or acquired for the construction of the Panama Canal which are unserviceable or no longer needed, to be reimbursed from the proceeds of such sales; expenses incident to conducting hearings and examining estimates for appropriations on the Isthmus; expenses incident to any emergency arising because of calamity by flood, fire, pestilence, or like character not foreseen or otherwise provided for herein; traveling expenses, when prescribed by the Governor of the Panama Canal to persons engaged in field work or traveling on official business; transportation, including insurance, of public funds and securities between the United States and the Canal Zone; and for such other expenses not in the United States as the Governor of the Panama Canal may deem necessary best to promote the maintenance and operation, sanitation, and civil government of the Panama Canal, all to be expended under the direction of the Governor of the Panama Canal and

accounted for as follows (U. S. C., title 48, sec. 1305; act Apr. 26, 1934, 48 Stat., pp. 640-641).

For maintenance and operation of the Panama Canal: Salary of the Governor, \$10,000; purchase, inspection, delivery, handling and storing of materials, supplies, and equipment for issue to all departments of the Panama Canal, the Panama Railroad, other branches of the United States Government, and for authorized sales; payment in lump sums of not exceeding the amounts authorized by the Injury Compensation Act approved September 7, 1916 (U. S. C., title 5, sec. 793), to alien cripples who are now a charge upon the Panama Canal by reason of injuries sustained while employed in the construction of the Panama Canal; for continuing the construction of the Madden Dam across the Chagres River at Alhajucla for the storage of water for use in the maintenance and operation of the Panama Canal, together with a hydroelectric plant, roadways, and such other work as in the judgment of the Governor of the Panama Canal may be necessary, to cost in the aggregate not to exceed \$15,500,000; in all, [\$4,971,490] \$8,000,000, together with all moneys arising from the conduct of business operations authorized by the Panama Canal Act (U. S. C., title 5, sec. 793; title 48, sec. 1305; act Apr. 26, 1934, 48 Stat., p. 641).

In addition to the foregoing sums there is appropriated for the fiscal year [1935] 1936 for expenditures and reinvestment under the several heads of appropriation aforesaid, without being covered into the Treasury of the United States, all moneys received by the Panama Canal from services rendered or materials and supplies furnished to the United States, the Panama Railroad Company, the Canal Zone government, or to their employees, respectively, or to the Panama Government, from hotel and hospital supplies and services; from rentals, wharfage, and like service; from labor, materials, and supplies and other services furnished to vessels other than those passing through the canal, and to others unable to obtain the same elsewhere; from the sale of scrap and other by-products of manufacturing and shop operations; from the sale of obsolete and unserviceable materials, supplies, and equipment purchased or acquired for the operation, maintenance, protection, sanitation, and government of the canal and Canal Zone; and any net profits accruing from such business to the Panama Canal shall annually be covered into the Treasury of the United States (act Apr. 26, 1934, 48 Stat., pp. 641-642).

In addition there is appropriated for the operation, maintenance, and extension of waterworks, sewers, and pavements in the cities of Panama and Colon, during the fiscal year [1935] 1936, the necessary portions of such sums as shall be paid as water rentals or directly by the Government of Panama for such expenses (act Apr. 26, 1934, 48 Stat., p. 642).

SEC. 2. No part of any money appropriated by this Act shall be used for maintaining, driving, or operating any Government-owned motor-propelled passenger-carrying vehicle assigned for the exclusive use of persons other than the Secretary of War and medical officers on out-patient medical service (act Apr. 26, 1934, 48 Stat., p. 642).

SEC. 3. No part of any appropriation made by this Act shall be used in any way to pay any expense in connection with the conduct, operation, or management of any post exchange, branch exchange, or subexchange within any State, Territory, or the District of Columbia, save and except for real assistance and convenience to military personnel and civilians employed or serving at military posts in supplying them with articles of ordinary use, wear, and consumption not furnished by the Government (act Apr. 26, 1934, 48 Stat., p. 642).

## JUSTIFICATION

## POSTAL REVENUES

During the last 6 months of the fiscal year 1934 the postal revenues showed a decided upturn. This condition continued during the first 4 months of the fiscal year 1935, and prevailed when the estimates for 1936 were prepared. On the strength of this upswing it has been estimated that the postal revenues for 1935 will amount to \$615,000,000 and that those for 1936 will reach \$645,000,000. The estimates for both years are predicated on the continuance of the 3-cent postage rate for nonlocal first-class mail. If this rate is not continued, the estimates for 1936 will be decreased by about \$75,000,000. The principal items contributing to the increased revenue estimates are sales of stamps and stamped envelopes, postage under permit, and box rents, as shown on Supporting Statement No. 1.

In Supporting Statement No. 3, the postal revenues have been related to the expenditures for the various classes of mail and special services of the Post Office. It will be observed from this statement that first-class mail earned in round figures for the fiscal year 1934 \$110,000,000 more than was required to meet its expenditures, while the second, third, and fourth classes of mail expended in the aggregate \$113,000,000 more than they earned in revenues. The first-class mail therefore fell short by about \$3,000,000 in carrying the entire burden of the other classes. In the fiscal year 1935, it is estimated that this burden will be somewhat accentuated, the first-class mail earning an excess of \$103,000,000, while the other classes will lose in the aggregate \$134,000,000. Again, in the fiscal year 1936, it is estimated that the first-class mail will earn an excess of \$112,000,000, and the other classes will lose in the aggregate \$137,000,000.

## POSTAL EXPENDITURES

For the fiscal year 1936 the expenditure estimates for postal operations amount to a total of \$725,282,569, while the postal revenues are estimated at \$645,000,000, indicating a postal deficit of \$80,282,569. This deficit, financed from general revenues, is carried forward to the general budget.

The expenditures for postal operations for the fiscal year 1935 are now estimated at \$697,099,053. It is expected that the postal revenues will reach \$615,000,000, thus showing a postal deficit of \$82,099,053, to be financed from general revenues.

Using approximate figures, a comparison for the 2 years shows for 1936 an increase in revenue of \$30,000,000, and an increase in expenditures of \$28,000,000, principally due to the last 5-percent pay restoration, resulting in a reduction of \$2,000,000 under the anticipated deficit for 1935. The estimates for 1936 are predicated on the payment of compensation at the full rate, without any pay cut. If, for purposes of comparison, the compensation for 1936 should be computed at 95 percent of the full rate, as authorized by law for 1935, the estimates for 1936 would be reduced by \$25,000,000, or to a total of \$700,300,000. When this total amount is compared with the availability for 1935, that is, \$697,300,000, it represents an increase for 1936 of only \$3,000,000. This net difference involves increases in many items and decreases in others, as explained below.

From time to time, it has been the practice to consolidate related appropriation items with a view to reducing the work of accounting, and at the same time making for better and more flexible administration of the Postal Service. The estimates for 1936 therefore propose the consolidation of additional appropriation items.

## SALARIES AND WAGES

The expenditures for compensation items subject to the 5-percent reduction for 1935 will approximate \$472,000,000, and for 1936, \$500,000,000. Excluding the amount included in the estimates to restore the last 5 percent, or \$25,000,000, these figures represent a net increase of \$3,000,000 in salary items. Due to the decline in postal business during the past few years, the Department was confronted with the problem of greatly reducing its personnel. It is expected that, wherever practicable, further reduction in personnel through nonfilling of vacancies will be made during the fiscal years 1935 and 1936, notwithstanding the anticipated increase in postal business of approximately 5 percent for each of those 2 years. Over \$800,000 of the increase of \$3,000,000, noted above, will be required for additional employees in the maintenance and operation of new public buildings.

## TRANSPORTATION EXPENSES

The requirements for transportation, exclusive of personnel, for 1936, are estimated at \$165,800,000, as against an anticipated expenditure for such purposes for 1935 of \$166,800,000, indicating a decrease of \$1,000,000 for 1936 under 1935. This decrease is based principally on further reductions in star-route requirements amounting to \$980,000, domestic air mail of \$1,300,000, and miscellaneous items of \$220,000, making total decreases of \$2,500,000, which is offset to the extent of \$1,500,000 by an increase for railway transportation, leaving a net decrease of \$1,000,000. The estimates for 1936 with respect to these transportation items are predicated on the assumption that the Department will be able to effect further economies as a means of offsetting to some extent the requirements for increased service, which may be demanded through any increase in the quantity of mail to be transported.

## STEAMSHIP AND AIRCRAFT SUBSIDIES

Under "transportation expenses" there is included \$37,500,000 for foreign mail transportation and \$10,700,000 for domestic air mail transportation. For the fiscal year 1936 the item for foreign mail transportation has been separated into two appropriation items: (1) Transportation of foreign mail under contracts awarded under the Merchant Marine Act, and (2) foreign mail transported by aircraft, mail carried at regular poundage rates, and miscellaneous expenses relating to foreign mail transportation. In the case of contracts under the Merchant Marine Act, it is estimated that the cost of transportation of mail, if carried at poundage rates, would amount to \$2,600,000, and the remainder, \$26,250,000, may be designated as a subsidy in aid of establishing and maintaining the American Merchant Marine. The second item carries \$7,000,000 for transportation of foreign mail by aircraft.

The revenues from such foreign air mail are estimated at \$575,000, and the difference, or \$6,425,000, is considered as a subsidy in aid of the establishment and maintenance of a system of transportation through foreign countries by aircraft owned and operated by American citizens. With respect to the \$10,700,000 for transportation of domestic mail by aircraft the revenues from such air mail are estimated at \$6,700,000, and the remainder, or \$4,000,000, is designated as a subsidy in aid of domestic transportation by aircraft. These subsidies amount to \$26,250,000 to American steamship lines and \$10,425,000 to American aircraft transportation systems, making a total of \$36,675,000, to be paid as subsidies for the fiscal year 1936. In sum, the estimates for 1936 for the transportation of mail by aircraft, both domestic and foreign, and foreign mail by steamship, involve a total of \$48,200,000, of which \$11,525,000 may be considered a proper postal expenditure, while the remainder, or \$36,675,000, may be regarded as subsidies in aid of American steamship and aircraft systems of transportation.

MISCELLANEOUS

For miscellaneous purposes, such as rent, light, and fuel; equipment, supplies, materials, stamps, stamped paper, post cards; travel expenses; repairs and alterations; and equipment allowances to rural carriers, it is estimated that there will be required for 1936, \$59,760,000, as compared with \$58,760,000 for 1935, an increase of \$1,000,000. This increase is due principally to requirements for additional post cards, stamps, and stamped envelopes, together with increases in quantity, and increases in prices of other supplies.

ECONOMY PROVISIONS

Under a provision of the Economy Act, railway mail clerks receive \$2 per diem as traveling allowance. If this provision is not extended, the rate will become \$3 per diem under an existing statute, thus increasing the expenditure requirements of the Post Office Department by approximately \$1,175,000 over the present estimates.

Total, Office of the Fourth Assistant Postmaster General, [exclusive of public buildings,] annual appropriations:

Estimate 1936, \$50,607,260

Appropriated 1935, \$47,875,202

In the disbursement of appropriations contained in this Act for the field service of the Post Office Department the Postmaster General may transfer to the Bureau of Standards not to exceed \$20,000 for scientific investigations in connection with the purchase of materials, equipment, and supplies necessary in the maintenance and operation of the Postal Service (*act Mar. 15, 1934, 48 Stat., p. 449*).

Total, field service, Post Office Department:

Estimate 1936, \$721,550,905

Appropriated 1935, \*\$666,506,918

\* Includes permanent appropriation of \$165,000.

If the revenues of the Post Office Department shall be insufficient to meet the appropriations made under title II of this Act, a

sum equal to such deficiency in the revenues of such department is hereby appropriated, to be paid out of any money in the Treasury not otherwise appropriated, to supply such deficiency in the revenues of the Post Office Department for the fiscal year ending June 30, [1935] 1936, and the sum needed may be advanced to the Post Office Department upon requisition of the Postmaster General (*act Mar. 15, 1934, 48 Stat., p. 450*).

SEC. 2. Appropriations for the fiscal year [1935] 1936 available for expenses of travel of civilian officers and employees of the executive departments and establishments shall be available also for expenses of travel performed by them on transfer from one official station to another when authorized by the head of the department or establishment concerned in the order directing such transfer: *Provided*, That such expenses shall not be allowed for any transfer effected for the convenience of any officer or employee.

SEC. 3. No appropriation available for the executive departments and independent establishments of the Government for the fiscal year ending June 30, [1935] 1936, whether contained in this Act or any other Act, shall be expended—

(a) To purchase any motor-propelled passenger-carrying vehicle (exclusive of busses, ambulances, and station wagons), at a cost, completely equipped for operation, and including the value of any vehicle exchanged, in excess of \$750, unless otherwise specifically provided for in the appropriation.

(b) For the maintenance, operation, and repair of any Government-owned motor-propelled passenger-carrying vehicle not used exclusively for official purposes; and "official purposes" shall not include the transportation of officers and employees between their domiciles and places of employment, except in cases of medical officers on out-patient medical services and except in cases of officers and employees engaged in field work the character of whose duties makes such transportation necessary and then only as to such latter cases when the same is approved by the head of the department or establishment concerned. The limitations of this subsection (b) shall not apply to any motor vehicles for official use of the President, or of the heads of the executive departments.

(c) For the maintenance, upkeep, and repair (exclusive of garage rent, pay of operators, tires, fuel, and lubricants) on any one motor-propelled passenger-carrying vehicle, except busses and ambulances, in excess of one third of the market price of a new vehicle of the same make and class and in no case in excess of \$400.

SEC. 4. That no part of the money appropriated under this Act shall be paid to any person for the filling of any position for which he or she has been nominated after the Senate has voted not to approve of the nomination of said person (*act Mar. 15, 1934, 48 Stat., p. 450*).

Total under Post Office Department:

Estimate 1936, \$725,282,569.

Appropriated 1935, \*\$669,793,940

\* Includes permanent appropriation of \$165,000.

<sup>1</sup> The detailed estimates submitted by the Reconstruction Finance Corporation are included in the annexed Budget without revision and are predicated on an extension of the Corporation's obligating authority beyond Feb. 1, 1935. The estimated totals of net expenditures of the Corporation, however, have been reduced by the Bureau of the Budget on the basis of the Treasury's estimates of net cash withdrawals from the Treasury (i. e., disbursements less collections), under the Corporation's present obligating authority, which according to existing law expires on Feb. 1, 1935. The Treasury estimates that the cash withdrawals of the Reconstruction Finance Corporation on account of its direct operations will not exceed its collections by more than \$400,000,000 during the fiscal year 1935, and that the collections during the fiscal year 1936 will offset expenditures during that year on account of obligations incurred prior to Feb. 1, 1935.

**EXPLANATORY STATEMENT**

The Reconstruction Finance Corporation, organized under the act approved January 22, 1932, was created for the purpose of providing emergency loaning facilities for banking and other financial institutions, and for agricultural, commercial, and industrial purposes. The general scope of the Corporation's functions, as authorized by this act, has been extended by subsequent legislation.

The Reconstruction Finance Corporation's capital stock of \$500,000,000 was subscribed and paid by the Secretary of the Treasury from appropriations made by Congress in accordance with the terms of the act. To provide additional funds with which to carry out its corporate purposes, the corporation is authorized to issue notes, debentures, bonds, and other obligations within the limit prescribed by law. Under the practice now ordinarily followed, the Secretary of the Treasury purchases the notes and obligations of the Corporation whenever additional funds are required, so that for all practical purposes it is financed almost entirely by the Federal Government.

The Corporation operates by two general methods in carrying out its corporate purposes and functions. It renders financial aid directly to eligible applicants by making loans or purchases of preferred stock. Such transactions are referred to as "direct operations." The Corporation also furnishes funds to other governmental corporations or agencies to finance their activities, as authorized by law. Such transfers of funds are referred to as "allocations." These financial operations are indicated in the Corporation's Annexed Budget Summary shown above.

The direct expenditures of the Corporation include (1) loans made to banks, railroads, and commercial businesses, (2) loans made for the purpose of financing the marketing of agricultural products, and (3) disbursements for all administrative expenses incurred in connection with such transactions. The direct receipts include the repayment of principal and interest on the loans just mentioned (see Supporting Statements Nos. 1 and 2).

The Corporation allocates funds by making them available for the spending organizations, or for subscriptions to capital stock up to the amount authorized by acts of Congress or by Executive orders of the President. These funds have been employed to purchase the capital stock of the Regional Agricultural Credit Corporation, Home Owners' Loan Corporation, Federal Home Loan Banks, Export-Import Banks, and Federal Farm Mortgage Corporation. Such funds have also been supplied to the Federal Emergency Relief Administration, Farm Credit Administration, and Federal Housing Administration; likewise, for financing the Commodity Credit Corporation.

Most of the corporations or agencies, which have obtained allocations from the Reconstruction Finance Corporation have also received funds from other sources. Some are authorized to sell debentures and obligations directly to the public. Others obtain additional capital from private subscriptions to capital stock, or from moneys appropriated by Congress. The receipts, expenditures, and means of financing these corporations, together with the direct receipts and expenditures of the Reconstruction Finance Corporation, are shown in detail in the foregoing statements.

# TENNESSEE VALLEY AUTHORITY ORGANIZATION

APPROVED:

SEPTEMBER 18 1934

*Arthur E. Morgan*  
ARTHUR E. MORGAN, CHAIRMAN OF BOARD  
TENNESSEE VALLEY AUTHORITY

## JUSTIFICATION

The Tennessee Valley Authority was created by act of Congress, signed by the President May 18, 1933. The general purposes are as follows: (1) Unified development and control of the water resources of the Tennessee River and its tributaries through the construction of dams to provide navigation, control floods, and, as an important incident thereto, produce power; (2) utilization of the surplus power produced in these activities for the purpose of determining the relative cost of public and private power operation and the distribution of this power to the greatest number of people; (3) experimentation to lower the cost of production, distribution, and application of the major elements of fertilizers, and the promotion of the national defense by maintaining a plant in condition to manufacture nitrates in case of emergency; and (4) planning for the complete Tennessee River watershed, including erosion control, afforestation, the further use of mineral resources, the promotion and coordination of industry and agriculture, and surveys and plans for the proper use of land and the general social and economic well-being of the valley.

The Authority has been operating approximately 1 year. Norris Dam and Wheeler Dam are 30 percent completed. These projects include the purchase of 250,000 acres; the clearing of 50,000 acres in the reservoirs; the relocation of roads and railroads; the moving of several thousand families. In addition to a construction camp, housing 1,200 workers on Norris Dam, the town of Norris, consisting of 350 houses, has been projected as a demonstration in low-cost housing, town planning, and electrification of the home. Approximately 200 of these houses are completed, as well as 45 houses of a similar group at Wheeler Dam.

Plans for the construction of the necessary dams to provide facilities for commercial navigation upon the Tennessee River from its confluence with the Ohio River to Knoxville, Tenn., have been formulated. Norris Dam, when completed, will be invaluable in the control of destructive flood water and for the purpose of regulating the flow of the Tennessee River. Wheeler Dam is an integral part of the plan for the improvement of navigation facilities upon the Tennessee. Two additional dams are proposed as navigation and flood-control projects and as a means of providing additional employment.

A definite policy for the disposition of the surplus power to be generated at these dams has been formulated. The

Authority has determined the terms and conditions upon which such power is to be sold. One hundred miles of rural transmission lines have been constructed. Arrangements have been made to supply power to more than 50 municipalities and private power companies have been stimulated to substantial rate reductions. In Tupelo, the first city to use Muscle Shoals power, the use of electricity has increased 100 percent over last year. A similar increase is in evidence elsewhere.

Research in fertilizer manufacture has developed a process which will be demonstrated in a new plant nearing completion at Muscle Shoals. Thousands of acres of phosphorus-bearing lands have been leased to assure a supply for the operation of this plant. Arrangements have been made for testing the fertilizer and plans have been outlined for its economical distribution. It is believed that such distribution will encourage the use of fertilizers in the Tennessee River Basin in such manner as to check effectively soil erosion and diminish the hazard to navigation that arises from continuous silting.

Preliminary surveys are fixing sites and determining the dimensions of future dams. A program of aerial mapping of the basin area in cooperation with the United States Geological Survey is 50 percent completed. Five thousand C. C. C. men are working under the direction of the Authority on reforestation, erosion control, and park improvement.

Approximately 12,500 men are now employed on this program; as many more have been given employment as a result of purchases of supplies, materials, equipment, and contract work.

The Budget request for 1936 provides for the continuation of the above program. Norris and Wheeler Dams will be completed. Two additional dams are proposed as navigation and flood-control projects, and as a means of providing additional employment. Electrical properties acquired or constructed in 1935 will be operated and will provide additional revenues, as indicated on Supporting Statement No. 1, shown above. Further steps will be taken to round out the electrical system and to increase the use of electricity. The first units of the fertilizer plant will be operated and additional units of a different type will be constructed. With this program, the Authority will provide considerable employment on work of great permanent value in furthering a national program in the Tennessee Valley.

### JUSTIFICATION

The financial requirements of the District of Columbia for the fiscal year 1936 are summarized in the preceding statements. It will be noted from the annexed Budget Summary that the revenues and receipts of the District for 1936 are expected to total \$33,100,000 in round figures, while the expenditures are estimated at \$41,800,000, thus producing a deficit of \$8,700,000. This deficit is to be financed by a decrease of \$3,000,000 in the working balances of the District accounts and by a Federal contribution of \$5,700,000. After the working balances of the District have been decreased by this amount, there will remain in the United States Treasury a cash balance to the credit of the District of over \$8,200,000 at the end of 1936, as shown on Supporting Statement No. 3.

#### REVENUES OF THE DISTRICT

Supporting Statement No. 1 shows the revenues and receipts of the District estimated for 1936, as allocated to the general, special, and trust accounts carried on the Treasury books. In the aggregate, these estimates for 1936 are approximately the same as those for 1935, and also correspond closely to the actual revenues and receipts for 1934.

It will be observed that by far the largest source of revenue for the District is the tax on real estate, estimated to yield \$18,740,000 for 1936. This yield consists of a

levy of \$17,025,000, and the remainder of back taxes. The levy is at the rate \$1.50 per hundred on an assessed valuation of \$1,135,000,000. This valuation has been lowered below that of 1933 by \$94,000,000 and below that of 1934 by \$33,000,000. At the same time, the tax rate, which stood at \$1.70 in 1933, was reduced to \$1.50 in 1934.

The collections from the tax on real estate have in recent years lagged considerably behind the current levies. At the end of the fiscal year 1934, for example, about 16 percent of the levy for that year was delinquent; also about 5 percent of the levy for 1933, about 2 percent of the levy for 1932, and smaller percentages for prior years remained delinquent on this date. But with only 84 percent of the levy for 1934 actually collected during that year, the collection of delinquencies was sufficient to bring the total to more than \$1,100,000 above the levy for 1935.

The tax on tangible personal property is estimated to yield \$925,000 in 1936. It is assumed that this tax will not produce—collections plus delinquencies—the total levy of \$1,050,000 for 1936, which is calculated on a \$70,000,000 assessment at \$1.50 per hundred. A large percentage of this tax has become delinquent during the past 12 or 14 years and has so remained, despite the efforts of the collector of taxes.

The yield from the tax on intangible personal property is estimated at \$2,050,000 for 1936. The levy for this tax is placed at \$2,150,000 (\$430,000,000 assessment at 50 cents per hundred), but it is not expected that this amount will be realized by \$100,000. Of the 1934 levy of \$2,052,000, the amount of \$78,000 was delinquent at the end of the year.

The other important items in the revenue estimates of the District for 1936 are the tax on public utilities, banks, and so forth, amounting to \$1,675,000; licenses, mainly occupational, \$1,225,000; 2-cent gasoline tax, \$2,050,000; and water rates, \$1,420,500. In 1935 the water rates were decreased by 25 percent and the metered allowance was increased to 10,000 cubic feet.

The tax delinquencies of the District, especially in the taxes on real and personal property, should have the attention of Congress. At the close of the fiscal year 1934, the total of uncollected realty taxes in the District amounted to \$4,639,000. While the major part of this amount has become delinquent in the years since 1929, the remainder of it is to be found scattered over the previous period, going back as far as 1877. The situation with respect to delinquent taxes on tangible personal property is not any different. To the close of 1934, \$2,957,000 of these taxes remained uncollected, some of the delinquencies dating back as far as 1903. The collector's record of these delinquencies shows that during the fiscal year 1934 no collections were made on the amounts due for any of the years prior to 1926, and only small or insignificant collections on the years from 1926 to 1930. Steps should be taken, it seems, either to collect these delinquent taxes, or to write them off the collector's books.

#### APPROPRIATIONS FOR THE DISTRICT

The appropriations recommended for the District in the fiscal year 1936 amount to \$41,834,822. While this amount is quite close to the estimated expenditures of the District for 1935, it is, however, \$2,480,800, in round figures, greater than the total appropriations made to the District for 1935. More than half of this appropriation increase—\$1,215,546 to be exact—is for the restoration of the District salaries to a full-pay basis by adding the last 5-percent reduction. The remainder of the appropriation increase, namely, \$1,265,250, is explained in detail below.

#### GENERAL EXPENSES

Appropriations are made under this heading for the salaries, and in some instances the expenses, of the principal administrative offices, and in addition certain other municipal agencies, such as the superintendent of weights and measures, the Public Utilities Commission, the department of vehicles and traffic, the free public library, the recorder of deeds, and the register of wills. The net decrease for general expenses of \$93,925 represents total decreases of \$175,500 and total increases of \$81,575. Nonrecurring items of \$150,000 for the construction of the Georgetown branch library and \$22,500 for the erection of shelters at the Farmers' Market, together with a transfer to the estimate for printing and binding of \$3,000 from the estimate for salaries and expenses, Alcoholic Beverage Control Board, account for the total amount of the decrease. The principal items of increase are: \$2,000 for an additional plumbing inspector, \$5,000 for repairs and improvements at the fish wharf, \$13,445 for

additional personnel for the Public Utilities Commission, \$3,800 for a new position of actuary in the department of insurance, \$2,300 for enforcement of the Employers Compulsory Liability Act, \$4,000 for temporary clerk hire in connection with the renewal of operator permits, \$22,110 for salaries October 1, 1935, to June 30, 1936, of personnel for the new Georgetown branch library, \$20,000 for books for the Georgetown branch library, and \$5,000 for repairs to library buildings.

#### CONTINGENT AND MISCELLANEOUS EXPENSES

Under this head are included automobile, printing, postage, and office expenses, together with the item for the Public Employment Service. The net increase of \$1,074,010 results from the new item of \$75,000 for refunding taxes (which appeared for 1935 as a permanent appropriation of \$50,000) and \$1,000,000 for the first annual reimbursement of funds loaned by the Federal Emergency Administration of Public Works in accordance with the act of June 25, 1934, and certain minor decreases and increases.

#### STREET AND ROAD IMPROVEMENT AND REPAIR (GENERAL REVENUE ACCOUNT)

In addition to the items for the improvement and repair of streets and roads, there are included under this head the items for construction and repair of bridges and wharves and for the maintenance and care of trees and parking. There is an increase of \$5,000 for planting and care of trees.

#### SEWERS

The sewer department constructs, maintains, and operates the sewerage and sewage-disposal system. The total increase of \$110,545 is composed of \$5,199 for cleaning and repairing sewers, \$18,346 for construction of suburban sewers, \$75,000 for laying sewers under the assessment and permit system, and \$12,000, a new item, for mosquito control work.

#### REFUSE

The estimates for the refuse department, which exercises the functions of cleaning streets and of collecting and disposing of trash and garbage, include an increase of \$13,507 for the collection and disposal of trash and garbage.

#### PUBLIC PLAYGROUNDS

Increases of \$500 for personal services and \$4,800 for improvement of ground and repair and improvement of equipment have been provided.

#### ELECTRICAL DEPARTMENT

The net increase of \$11,500 results from nonrecurring items of \$29,500 and increases of \$10,000 for a survey of existing routes of fire alarm, police patrol, and telephone cables, wires, and conduits, and for installation of additional cables, wires, and conduits, and \$31,000 for extension and improvement of the street-lighting system.

#### PUBLIC SCHOOLS

The net increase of \$219,326 for operation and maintenance of public schools represents total decreases of \$152,500, largely accounted for by the nonrecurring item

of \$150,000 for furniture and equipment for the Woodrow Wilson High School, and total increases of \$371,826, as follows: \$12,162 for principals and clerks for new schools; \$141,835 (including \$9,135 for change of status of teachers) for new teachers for new schools and increased enrollment at existing schools; \$3,130 for instructors of electrical-welding classes; \$6,000 for equipment for electrical welding and character education classes; \$2,500 for education of deaf, dumb, and blind children; \$5,189 for community center work; \$36,560 for new personnel for the custodial care and operation of new school buildings; \$1,500 for transportation of sight-conservation pupils; \$50,000 for fuel, gas, and electricity; \$45,950 for replacement of heating plants, improvement of grounds, and purchase of two light trucks; \$67,000 for furniture and equipment for new school buildings.

As compared with 1935 appropriations for construction of buildings and purchase of land in the amount of \$1,344,500, which included \$600,000 for continuing the construction of the Woodrow Wilson High School, the 1936 estimates provide \$775,000 for the construction of the following school buildings: \$110,000 for an 8-room building on the site of the John F. Cook School; \$175,000 for a 10-classroom and gymnasium addition to the Eliot Junior High School; \$100,000 for an 8-room addition to the Randall Junior High School; \$250,000 for beginning construction of an addition to the Anacostia Junior High School to be used for senior high-school pupils (with a total contractual cost authority of \$350,000); \$70,000 for completion of construction and improvement of grounds of the Woodrow Wilson High School; and \$70,000 for improvements at the Armstrong High School.

#### POLICE

A decrease of \$9,500 for installing radio equipment in patrol cars is largely offset by an increase of \$9,060 for purchase and maintenance of motor vehicles, purchase of uniforms, fuel, and a new position of clerk at the house of detention.

#### POLICEMEN AND FIREMEN'S RELIEF ACCOUNT

This estimate of an annual appropriation of \$1,010,000 replaces the 1935 indefinite appropriation of \$920,000.

#### FIRE

The estimates provide for an increase of \$2,300 for fuel, and repairs to apparatus, and \$9,000 for purchase of hose. For purchase of new apparatus, \$34,500 is provided, which is an increase of \$11,000 over the 1935 appropriation for this purpose.

#### HEALTH DEPARTMENT

Decreases on account of a nonrecurring item of \$8,600 for equipment of the tuberculosis clinics, and the elimination of the item of \$25,000 for treatment of contagious-disease patients at Garfield Hospital (due to the expected opening by July 1 next of the new contagious-disease ward at Gallinger Hospital), are offset by an increase of \$2,765 for additional vaccine, toxoid, and other supplies, \$15,000 for additional physicians, nurses, and supplies for the tuberculosis clinics, and \$8,839 for the establishment and operation of a new dental clinic.

#### COURTS

Provision is made under this head for the operation of the Juvenile Court, Municipal Court, Police Court, Supreme Court, and Court of Appeals of the District of Columbia, and for the maintenance of District prisoners confined in Federal penitentiaries. There is an increase of \$2,225 in the items for personal services, compensation of jurors, and contingent expenses of the juvenile court; and an increase for the municipal court of \$3,680 for the same purpose. Increases of \$550 for personal services for the police court, \$500 for salaries and expenses, District Court of Appeals, \$1,500 for repairs to the District Court of Appeals Building, \$500 for printing and binding for the District Supreme Court, and \$30,000 for support of District prisoners in Federal penitentiaries, are offset, in part, by decreases of \$500 for fees of witnesses and jurors for the police court, \$10,000 for miscellaneous expenses of the District Supreme Court, and \$4,000 for repairs to the roof of the District Supreme Court Building.

#### PUBLIC WELFARE

The Board of Public Welfare has general supervision of all public penal, charitable, and correctional institutions, and of the care and maintenance of dependent and delinquent children. The estimate for salaries, Board of Public Welfare, contains an increase of \$6,480 for two new positions and for the elimination, in part, of the deduction for salary lapses. An increase of \$10,000 in the item for board and care of guardianship children is offset by a decrease in the same amount in the estimate for home care for dependent children.

For the jail there is an increase of \$3,000 on account of increased cost of food supplies and \$9,000 for replacement of laundry machines. For the workhouse and reformatory, the item for personal services has been increased in the amount of \$46,060, which includes \$19,860 for new personnel on account of the increased number of inmates, and \$26,200, transferred from the estimate of appropriation for construction of buildings. The item for maintenance of prisoners has been increased in the amount of \$25,000 due to increased number of inmates and increased cost of food supplies. In lieu of the estimate of appropriation for construction of buildings (after transfer to the estimate of appropriation for personal services of \$26,200 for personnel), and of the appropriation for construction of the new water-supply system, there are provided items of \$25,000 for a sand filter for the water-supply system and \$190,000 for continuing the construction of the walled enclosure. For care and maintenance of boys committed to the National Training School for Boys, there is an increase of \$22,000; and an increase of \$500 for maintenance and expenses of the National Training School for Girls. For medical charities, the estimates provide increases of \$6,500 for Children's Hospital, \$10,000 for central dispensary and Emergency Hospital, and \$5,000 for eastern dispensary and Casualty Hospital.

For the Tuberculosis Hospital there is an increase of \$8,900 for additional personnel and \$5,000 on account of increased number of inmates and increased cost of food supplies. For the Children's Tuberculosis Sanatorium there are increases of \$20,190 for additional personnel, \$37,000 for care and treatment of the increased number of

children to be expected at this institution, and \$40,000 for equipment of the addition to the sanatorium building. The item for personal services at Gallinger Hospital has been increased in the amount of \$36,500 and the item for maintenance and expenses has been increased by \$25,000, on account of the largely increased number of patients at this hospital. There is a nonrecurring hospital item of \$290,000 for the construction of a contagious disease ward building.

There is an increase of \$4,000 in the estimate for maintenance and expenses of the District Training School, on account of an increased number of inmates, and a non-recurring item of \$1,000 for the purchase of a motor truck. Increases of \$1,000 for maintenance and expenses and for repairs to buildings at the Industrial Home School for Colored Children and of \$2,000 for maintenance and expenses at the Industrial Home School for White Children have been provided. For the Home for Aged and Infirm, the increase of \$2,880 in the item for personal services is for personnel for the new addition to the infirmary; and of the increase of \$2,700 for maintenance and expenses, \$1,200 is for equipment for the infirmary addition and \$1,500 for the increased cost of food supplies. There is a nonrecurring item of \$750 for purchase of a truck.

An increase of \$1,500 has been provided for payments to the Florence Crittenton Home, and an increase of \$227,480 for payments to St. Elizabeths Hospital for care and treatment of the increased number of indigent insane of the District of Columbia. The appropriation of \$9,000 for support of abandoned wives has been eliminated because these beneficiaries are now on relief rolls; and the appropriation of \$5,000 for transportation of indigent persons has been reduced in the amount of \$1,500 due to the furnishing of transportation, in certain cases, by the Transient Bureau of the Federal Emergency Relief Administration.

The estimate for emergency relief to residents of the District of Columbia is in the same amount as the appropriation for the fiscal year 1935, \$2,000,000.

#### PUBLIC PARKS

Restoration, in part, of the deduction for salary lapses, accounts for the increase of \$4,500 in the item for salaries of the park police.

#### NATIONAL CAPITAL PARK AND PLANNING COMMISSION

For the National Capital Park and Planning Commission an increase of \$810 is provided for additional services of technical experts and \$290 for increased travel

and supplies. In lieu of the 1935 appropriation of \$531,211.94 for reimbursement to the United States for the purchase of park and playground lands within the District of Columbia, there is provided for this purpose an estimate of \$300,000, in accordance with the limitation contained in the act of June 4, 1934.

#### NATIONAL ZOOLOGICAL PARK

The estimate of appropriation for the National Zoological Park has been increased in the amount of \$10,000, due to increased cost of supplies, repairs to buildings and roads, replacement of one motor vehicle, and improvements to outdoor cages.

#### GASOLINE-TAX ACCOUNT

The net increase of \$300,000 results from the nonrecurring items of \$500,000 for completion of the Calvert Street Bridge and \$130,000 for construction of the Eastern Avenue viaduct, and increases as follows: Paving new streets, \$200,000; surfacing and resurfacing of streets, \$25,000; repairs to streets, \$15,000; surveying and engineering investigations of the Pennsylvania Avenue (Northeast) Bridge, \$15,000; acquisition of land for the Michigan Avenue (Northeast) viaduct, \$100,000; construction of the Franklin Street (Northeast) viaduct, \$200,000; reconstruction of the Benning Road (Northeast) viaduct, \$175,000; and a new item of \$200,000 for extension of streets, which appeared for 1935 as a permanent appropriation of \$50,000.

#### WATER ACCOUNT

The following increases have been provided for the water service: \$21,500 for maintenance of the distribution system; \$65,000 for extension of the distribution system; \$30,000 for installing and repairing water meters; \$1,200 for installing fire and public hydrants; and \$30,000 for replacement of old water mains. There is also provided \$312,850 for construction of new water mains.

#### Permanent appropriations:

The net decrease of \$1,000,000 results from increases of \$50,000 in the appropriation, "Teachers retirement-fund deductions", \$30,000 in the appropriation, "Inmates funds", and \$100,000 in the appropriation, "Miscellaneous trust-fund deposits"; and from decreases of \$125,000 in the appropriation, "Washington redemption fund", \$5,000 in the appropriation, "Permit fund", and \$1,020,000, representing 1935 items which appear for 1936 as estimates of annual appropriations.

**DISTRICT OF COLUMBIA**  
**ESTIMATES OF APPROPRIATIONS**

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in order to defray the expenses of the District of Columbia for the fiscal year ending June 30, [1935] 1936, any revenue (not including the proportionate share of the United States in any revenue arising as the result of the expenditure of appropriations made for the fiscal year 1924 and prior fiscal years) now required by law to be credited to the District of Columbia and the United States in the same proportion that each contributed to the activity or source from whence such revenue was derived shall be credited wholly to the District of Columbia, and, in addition [a sum equal to] \$5,700,000 [less a sum equal to 70 per centum of the amounts expended under the allotments from the Public Works Administration of \$1,759,500 for sewers and \$148,650 for park improvements] is appropriated, out of any money in the Treasury not otherwise appropriated, to be advanced July 1, [1934] 1935, and all of the remainder out of the combined revenues of the District of Columbia, namely:*

**GENERAL EXPENSES**

**EXECUTIVE OFFICE**

*Executive Office, District of Columbia—*

For personal services, **[\$42,714] \$47,420**, plus so much as may be necessary to compensate the Engineer Commissioner at such rate in grade 8 of the professional and scientific service of the Classification Act of 1923, as amended, as may be determined by the Board of Commissioners: *Provided*, That in expending appropriations or portions of appropriations contained in this Act for the payment of personal services in accordance with [the] the Classification Act of 1923, as amended, with the exception of the two civilian Commissioners the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act, as amended and in grades in which only one position is allocated the salary of such position shall not exceed the average of the compensation rates for the grade, except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade but not more often than once in any fiscal year and then only to the next higher rate: *Provided*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service; (2) to require the reduction in salary of any person whose compensation was fixed, as of July 1, 1924, in accordance with the rules of section 6 of such Act; (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade in the same or a different bureau, office, or other appropriation unit; (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law, or (5) to reduce the compensation of any person in a grade in which only one position is allocated (*act June 4, 1934, 48 Stat., p. 847*).

For paving, repaving, grading, and otherwise improving streets, avenues, and roads, including personal services and the maintenance of motor vehicles used in this work, and including curbing and gutters and replacement of curb-line trees where necessary, as follows, to be paid from the special fund created by section 1 of the Act entitled "An Act to provide for a tax on motor-vehicle fuels sold within the District of Columbia, and for other purposes", approved April 23, 1924 (43 Stat., p. 106), and accretions by repayment of assessments:

For paving, repaving, and surfacing, including curbing and gutters where necessary, \$200,000.

For grading streets, alleys, and roads, including construction of necessary culverts and retaining walls, \$50,000;

For [surfacing block pavements and] paving the unpaved center strips of paved roadways, \$15,000;

For minor changes in roadway and sidewalks on plans to be approved by the Commissioners of the District of Columbia to facilitate vehicular and pedestrian traffic, \$5,000;

For construction of curbs and gutters, or concrete shoulders in connection with all forms of macadam roadways and adjustment of roadways thereto, together with resurfacing and replacing of base of such roadways where necessary, \$225,000;

For the surfacing and resurfacing or replacement of asphalt, granite block, or concrete pavements with the same or other approved material, [\$350,000] \$375,000;

For construction, maintenance, operation, and repair of bridges, including not to exceed \$15,000 for surveys and engineering investigations of the bridge in line of Pennsylvania Avenue over the Anacostia River, and including maintenance of nonpassenger-carrying motor vehicles, [\$65,000] \$80,000;

For current work of repairs to streets, avenues, roads, and alleys, including the reconditioning of existing gravel streets and roads, and including the purchase, exchange, maintenance, and operation of nonpassenger-carrying motor vehicles used in this work, [\$750,000] \$765,000: *Provided*, That the Commissioners of the District of Columbia, should they deem such action to be to the advantage of the District of Columbia, are hereby authorized to purchase a municipal asphalt plant at a cost not to exceed \$30,000;

This appropriation shall be available for the construction and repair of pavements of street railways in accordance with the provisions of the Merger Act, approved January 14, 1933 (47 Stat., p. 752). The proportion of the amount thus expended which under the terms of the said Act is required to be paid by the street-railway company shall be collected, upon the neglect or the refusal of such street-railway company to pay, from the said street-railway company in the manner provided by section 5 of "An Act providing a permanent form of government for the District of Columbia", approved June 11, 1878, and shall be deposited to the credit of the appropriation for the fiscal year in which it is collected;

For the acquisition through purchase and/or condemnation of land necessary for the construction of the Michigan Avenue viaduct or bridge between Seventh Street and Perry Street, Northeast, in accordance with the highway plan of the District of Columbia and pursuant to authority contained in the Act of Congress approved February 12, 1931 (46 Stat. 1087), \$100,000 (submitted).

For the construction of a viaduct or bridge and approaches thereto in line of Franklin Street Northeast, over the tracks of the Baltimore & Ohio Railroad, in accordance with plans and profiles to be approved by the Commissioners of the District of Columbia, including construction of and changes in sewer and water mains, personal services, and engineering and incidental expenses, \$200,000: *Provided*, That one-half of the total cost thereof shall be borne and paid by the said railroad company, its successors and assigns, to the collector of taxes of the District of Columbia to the credit of the District of Columbia, and the same shall be a valid and subsisting lien against the franchises and property of the said railroad company, and shall constitute a legal indebtedness of said company in favor of the District of Columbia, and the said lien may be enforced in the name of the District of Columbia by a bill in equity brought by the said Commissioners in the Supreme Court of the District of Columbia, or by any other lawful proceeding against the said railroad company (submitted).

[For completing the construction of a bridge to replace the Calvert Street Bridge over Rock Creek, in accordance with the provisions and conditions contained in the District of Columbia Appropriation Act for the fiscal year 1934, \$500,000;]

For the widening, altering, and strengthening of the existing viaduct and approaches in the line of Benning Road, Northeast, between Kenilworth and Minnesota Avenues over the tracks and right of way of the Pennsylvania Railroad Co. and the Baltimore & Ohio Railroad Co., in accordance with plans and profiles to be approved by the Commissioners of the District of Columbia, including construction of and changes in sewer and water mains, personal services, and engineering and incidental expenses, \$175,000: *Provided*, That one-half of the total

cost thereof shall be borne and paid by the said railroad companies, their successors and assigns, to the collector of taxes of the District of Columbia, to the credit of the District of Columbia, and the same shall be a valid and subsisting lien against the franchises and property of the said railroad companies, and shall constitute a legal indebtedness of said companies in favor of the District of Columbia, and the said lien may be enforced in the name of the District of Columbia by a bill in equity brought by the said Commissioners in the Supreme Court of the District of Columbia, or by any other lawful proceeding against the said railroad companies (submitted).

To carry out the provisions of existing law which authorize the Commissioners of the District of Columbia to open, extend, straighten, or widen any street, avenue, road, or highway, except Fourteenth Street extension beyond the southern boundary of Walter Reed Hospital Reservation, in accordance with the plan of the permanent system of highways for the District of Columbia, [there is appropriated such sum as is necessary for said purpose,] including the procurement of chains of title, [during the fiscal year 1935, to be paid wholly out of the revenues of the District of Columbia.] \$200,000: *Provided*, That this appropriation shall be available to carry out the provisions of existing law for the opening, extension, widening, or straightening of alleys and minor streets and for the establishment of building lines in the District of Columbia [; *Provided further*, That the amount expended hereunder shall not exceed \$200,000.] (acts June 4, 1934, 48 Stat., p. 854; June 25, 1934, 48 Stat., p. 1230).

[For the construction of a viaduct or bridge and approaches thereto in line of Eastern Avenue between Monroe Street and Bladensburg Road northeast, over the tracks and right-of-way of the Baltimore and Ohio Railroad Company, in accordance with plans and profiles of said work to be approved by the Commissioners of the District of Columbia, including construction of and changes in sewers and water mains, personal services, and engineering and incidental expenses, \$130,000: *Provided*, That one half of the total cost of constructing the said viaduct or bridge and approaches shall be borne and paid by the said railway company, its successors and assigns, to the collector of taxes of the District of Columbia, to the credit of the District of Columbia, and the same shall be a valid and subsisting lien against the franchises and property of the said railroad company and shall constitute a legal indebtedness of said company in favor of the District of Columbia, and the said lien may be enforced in the name of the District of Columbia by a bill in equity brought by the said Commissioners in the Supreme Court of the District of Columbia, or by any other lawful proceeding against the said railroad company: *Provided further*, That from and after the completion of the said viaduct and approaches, the wooden bridge in the line of Reeves Road over the tracks and right-of-way of the said Baltimore and Ohio Railroad Company shall be removed and the road at the railroad right-of-way forever closed against further traffic of any kind] (act June 4, 1934, 48 Stat., pp. 853-854).

In all, not to exceed [\$2,090,000] \$2,390,000 to be immediately available; to be disbursed and accounted for as "Gasoline tax, road, and street improvements and repairs", and for that purpose shall constitute one fund: *Provided*, That assessments in accordance with existing law shall be made for paving and repaving roadways where such roadways are paved or repaved with funds derived from the collection of the tax on motor-vehicle fuels and accretions by repayment of assessments (acts Apr. 23, 1924, 43 Stat., p. 106; June 4, 1934, 48 Stat., p. 854).

The Commissioners of the District of Columbia are authorized and empowered, in their discretion, to fix or alter the respective widths of sidewalks and roadways (including tree spaces and parking) of all highways that may be improved under appropriations contained in this Act.

No part of any appropriation contained in this act shall be available for repairing, resurfacing, or newly paving any street, avenue, or roadway by private contract unless the specifications for such work shall be so prepared as to permit of fair and open competition in paving material as well as in price.

In addition to the provision of existing law requiring contractors to keep new pavements in repair for a period of one year from the date of the completion of the work, the Commissioners of the District of Columbia shall further require that where repairs are necessary during the four years following the said one-year period, due to inferior work or defective materials, such repairs shall be made at the expense of the contractor, and the bond furnished by the contractor shall be liable for such expense.

No part of the appropriations contained in this Act shall be used for the operation of a testing laboratory of the highways department for making tests of materials in connection with any activity of the District government (act June 4, 1934, 48 Stat., pp. 854-855).

SEC. 2. That the services of draftsmen, assistant engineers, levelers, transitmen, rodmen, chainmen, computers, copyists, overseers, and inspectors temporarily required in connection with sewer, water, street, street-cleaning, or road work, or construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations may be employed exclusively to carry into effect said appropriations when specifically and in writing ordered by the Commissioners, and all such necessary expenditures for the proper execution of said work shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in their Budget estimates shall report the number of such employees performing such services, and their work, and the sums paid to each, and out of what appropriation: *Provided*, That the expenditures hereunder shall not exceed \$42,000 during the fiscal year [1935] 1936: *Provided further*, That, excluding inspectors in the sewer department and one inspector in the electrical department, no person shall be employed in pursuance of the authority contained in this paragraph for a longer period than nine months in the aggregate during the fiscal year.

The Commissioners, or their duly designated representatives, are further authorized to employ temporarily such laborers, skilled laborers, drivers, hostlers, and mechanics as may be required exclusively in connection with sewer, water, street, and road work, and street cleaning, or the construction and repair of buildings, and bridges, furniture and equipments, and any general or special engineering or construction or repair work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof, said laborers, skilled laborers, drivers, hostlers, and mechanics to be employed to perform such work as may not be required by law to be done under contract, and to pay for such services and expenses from the appropriations under which such services are rendered and expenses incurred.

SEC. 3. That all horses, harness, horse-drawn vehicles necessary for use in connection with construction and supervision of sewer, street, street lighting, road work, and street-cleaning work, including maintenance of said horses and harness, and maintenance and repair of said vehicles, and purchase of all necessary articles and supplies in connection therewith, or on construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations, may be purchased, hired, and maintained, and motor trucks may be hired exclusively to carry into effect said appropriations, when specifically and in writing ordered by the Commissioners; and all such expenditures necessary for the proper execution of said work, exclusive of personal services, shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in the Budget estimates shall report the number of horses, vehicles, and harness purchased, and horses and vehicles hired, and the sums paid for same, and out of what appropriation; and all horses owned or maintained by the District shall, so far as may be practicable, be provided for in stables owned or operated by said District: *Provided*, That such horses, horse-drawn vehicles, and carts as may be temporarily needed for hauling and excavating material in connection with works authorized by appropriations may be temporarily employed for such purposes under the conditions named in section 2 of this Act in relation to the employment of laborers, skilled laborers, and mechanics.

SEC. 4. That the Commissioners are authorized to employ in the execution of work, the cost of which is payable from the appropriation account created in the District of Columbia Appropriation Act, approved April 27, 1904, and known as the Miscellaneous trust-fund deposits, District of Columbia, necessary personal services, horses, carts, and wagons, and to hire therefor motor trucks when specifically and in writing authorized by the Commissioners, and to incur all necessary expenses incidental to carrying on such work and necessary for the proper execution thereof, including the purchase, exchange, maintenance, and operation of motor vehicles for inspection and transportation purposes, such services and expenses to be paid from said appropriation account: *Provided*, That the Commissioners may delegate to their duly authorized representatives the employment under this section of laborers, mechanics, and artisans.

Any person employed under any of the provisions of this Act who has been employed for ten consecutive months or more shall not be denied the leave of absence with pay for which the law provides.

SEC. 5. That the Commissioners and other responsible officials, in expending appropriations contained in this Act, so far as possible, shall purchase material, supplies, including food supplies and equipment, when needed and funds are available, in accordance with the regulations and schedules of the Procurement Division of the Treasury Department or from the various services of the Government of the United States possessing material, supplies, passenger-carrying and other motor vehicles, and equipment no longer required. Surplus articles purchased from the Government, if the same have not been used, shall be paid for at a reasonable price, not to exceed actual cost, and if the same have been used, at a reasonable price based upon length of usage. The various services of the Government of the United States are authorized to sell such surplus articles to the municipal government under the conditions specified, and the proceeds of such sales shall be covered into the Treasury as miscellaneous receipts: *Provided*, That this section shall not be construed to amend, alter, or repeal the Executive order of December 3, 1913, concerning the transfer of office materials, supplies, and equipment in the District of Columbia falling into disuse because of the cessation of war activities.

SEC. 6. No part of the appropriations contained in this Act shall be used to pay any increase in the salary of any officer or employee of the District of Columbia by reason of the reallocation of the position of such officer or employee to a higher grade after June 30, 1932, by the Personnel Classification Board or the Civil Service Commission, and salaries paid accordingly shall be payment in full.

SEC. 7. No part of the funds appropriated in this Act for any activity shall be available for transfer to any other activity or between subheads of the same activity unless specifically authorized by the Director of the Bureau of the Budget.

SEC. 8. No part of the funds appropriated in this Act shall be available for the payment of rental of quarters for any activity at a rate in excess of 90 per centum of the per annum rate paid by the District of Columbia for such quarters on June 30, 1933: *Provided*, That the provisions of this paragraph shall not apply to leases made prior to the passage of this Act, except when renewals thereof are made hereafter: *Provided further*, That the appropriations or portions of appropriations unexpended by reason of the operation of this paragraph shall not be used for any purpose, but shall be impounded and deposited in the Treasury to the credit of the District of Columbia (act June 4, 1934, 48 Stat., pp. 876-878).

TABLE NO. 6

*Statement of balances of appropriations of June 30, 1934, and of appropriations for the fiscal year 1935 (including permanent and indefinite appropriations), as of Nov. 1, 1934, reported by the Secretary of the Treasury*

[This statement is included in the Budget only because of the requirements of the Budget and Accounting Act, 1921 (U. S. C., title 31, sec. 11 (e)). As budgetary information, the statement has little if any value, as it simply shows the balances of appropriations on the books of the Treasury June 30, 1934, classified as between 1935 appropriations and those of prior years according to whether the funds were appropriated as "immediately available"]
