## BUDGET MESSAGE OF THE PRESIDENT

*To the Congress of the United States:*

Pursuant to provisions of law I transmit herewith the Budget of the United States Government for the fiscal year ending June 30, 1938, together with this message, which is a part thereof. The estimates have been developed after careful analysis of the revenues, obligations, and reasonable needs of the Government, and I recommend appropriations for the purposes specifically detailed herein.

### PART I

The programs inaugurated during the last four years to combat the depression and to initiate many needed reforms have cost large sums of money, but the benefits obtained from them are far outweighing all their costs. We shall soon be reaping the full benefits of those programs and shall have at the same time a balanced Budget that will also include provision for reduction of the public debt.

The fiscal plans of the Federal Government for these four years have been formulated with two objectives in mind. Our first was to restore a successful economic life to the country, by providing greater employment and purchasing power for the people, by stimulating a more balanced use of our productive capacity, and by increasing the national income and distributing it on a wider base of prosperity. Our second was to gain new advantages of permanent value for the American people. Both of these objectives can be accomplished under a sound financial policy.

Business conditions have shown each year since 1933 a marked improvement over the preceding year. Employment in private industry is increasing. Industrial production, factory pay rolls, and farm prices have steadily risen.

These gains make it possible to reduce for the fiscal year 1938 many expenditures of the Federal Government which the general depression made necessary. Although we must continue to spend substantial sums to provide work for those whom industry has not yet absorbed, the 1938 Budget is in balance; and, except for debt reduction of \$401,515,000, it will remain in balance even if later on there are included additional expenditures of as much as \$1,537,123,000 for

recovery and relief. We expect, moreover, if improvement in economic conditions continues at the present rate, to be able to attain in 1939 a completely balanced Budget, with full provision for meeting the statutory requirements for debt reduction.

In carrying out this policy the American people are obtaining lasting benefits. Economic protection of the aged and physically handicapped is being secured through the operations of the Social Security Act. Ability of the farmer to obtain a more constant livelihood has been enhanced by the enactment of legislation especially designed for that purpose. The home owner has been benefited through the financing of mortgages at reasonable rates of interest. Investors in securities are being given a larger measure of protection by the Securities and Exchange Act. The market for corporate securities has been restored and industry has been able to finance its long-term requirements on a favorable basis. The rights of labor are being materially advanced through operation of the National Labor Relations Act.

I plan to submit at a later date an estimate of appropriation for additional relief for the fiscal year 1938, which I hope will not exceed the amount of \$1,537,123,000, previously mentioned. This hope is based on the assumption that industry will cooperate in employing men and women from the relief rolls in larger numbers than during the past year. Many of those in charge of industrial management, recognizing their obligation to the Nation, have furnished a large measure of employment to the jobless. Today, while it is true that in some sections of the country certain types of skilled workers are still seeking employment, it is nevertheless a fact that the great majority of those now receiving relief belong to the unskilled group. It is my conviction that if every employer or potential employer will undertake during the next six months to give employment to persons now receiving Government help, the national Budget can thereafter be kept definitely in balance. Without such cooperation on the part of employers, the question of a balanced Budget for 1938 must of necessity remain an open one, for the very good reason that this Government does not propose next year, any more than during the past four years, to allow American families to starve.

To continue the gains we are making and to accomplish in the 1939 Budget a complete balance between receipts and expenditures including debt reduction, we must now lay the groundwork of our future fiscal policy.

While relief expenditures should decline with greater reemployment, the normal growth of the country naturally reflects itself in increased costs of Government. Many of the old functions and duties of Government naturally cost more as the industrial and agri-

cultural activities to which they are related expand in volume. The cost of new functions and duties can be substantially reduced only by curtailing the function or the duty. I propose shortly to submit to the Congress a broad plan for placing the Executive Branch of the Government on a sounder and more responsible basis of management. The carrying out of such a plan will undoubtedly result in some saving in expenditures; but it must be remembered that what is generally known as overhead represents only a small fraction of total expenditures in any large business, Government or private.

Expenditures must be planned with a view to the national needs; and no expansion of Government activities should be authorized unless the necessity for such expansion has been definitely determined and funds are available to defray the cost. In other words, if new legislation imposes any substantial increase in expenditures either in the expansion of existing or the creation of new activities, it becomes a matter of sound policy simultaneously to provide new revenue sufficient to meet the additional cost. The success of such a policy can be assured only through the full and friendly cooperation of the Congress and the Executive. Of this cooperation I am confident.

## PART II

### RECOMMENDATIONS

*Temporary miscellaneous internal-revenue taxes.*—I recommend that the Congress take steps by suitable legislation to extend the miscellaneous internal-revenue taxes which under existing law will expire next June and July, and also to maintain the current rates of those taxes which would otherwise be reduced next June. I consider that the revenue from such taxes or its equivalent is necessary for the financing of the Budget for 1938.

*Postal receipts.*—The estimates of appropriations for the Postal Service included in the 1938 Budget are predicated upon the continuance during that fiscal year of the 3-cent postage rate for first-class mail other than for local delivery. While the Government makes a profit on first-class mail, the Postal Service is not self-supporting because it carries other classes of mail at a considerable loss, as shown in the tabular footnote on page xxiii. It should be the definite policy of the Government to operate the Postal Service out of postal receipts, and a continuation of the 3-cent rate will be a necessary step toward the accomplishment of this purpose.

*Civilian Conservation Corps.*—The Civilian Conservation Corps has demonstrated its usefulness and has met with general public approval. It should be continued. I intend shortly to submit a supplemental estimate of appropriation to carry the Corps from March 31, 1937, to

the end of the current fiscal year; and I strongly recommend that Congress enact during its present session the necessary legislation to establish the Corps as a permanent agency of the Government.

*Expenses of emergency agencies.*—There are included in the 1938 Budget, pursuant to the direction of Congress at its last session, estimates of appropriations for the administrative expenses of certain emergency agencies and corporations. Such of the emergency agencies and corporations as may be continued by Congress should have all of their expenditure requirements made subject to the same scrutiny that is given by the Bureau of the Budget to the expenditure requirements of the regular departments and establishments; and I recommend that a provision to that effect be included in any future legislation for the continuance of any such agency or corporation.

### PART III

#### REVIEW OF THE FISCAL YEARS 1936 AND 1937, AND THE FISCAL PROGRAM FOR 1938

This review concerns itself with the cash actually received and paid out by the Treasury in the fiscal year 1936, with the estimates of receipts and expenditures for the fiscal year 1937, and with the fiscal program for 1938.

#### *Fiscal year 1936*

*Receipts.*—Treasury receipts for the year ended June 30, 1936, amounted to \$4,115,956,615, about \$295,000,000 less than estimated a year ago. As a result of Supreme Court decisions, the Government lost about \$457,000,000 in revenue from taxes levied under the Agricultural Adjustment Act and the Bituminous Coal Act. Had it not been for the invalidation of these taxes, the total revenues received during the fiscal year 1936 would have exceeded the revenue estimates of a year ago by \$162,000,000.

The collection of taxes on carriers and their employees, estimated at \$33,000,000, has been deferred to the fiscal year 1937 because of pending litigation. The receipts from income taxes were about \$7,500,000 less than last year's estimate.

On the other hand, miscellaneous internal-revenue taxes produced \$136,488,000 more than was anticipated; customs revenue, \$33,621,000 more; miscellaneous receipts, \$32,053,000 more; and realization upon assets, \$1,483,000 more.

*Expenditures.*—The total expenditures for the fiscal year ended June 30, 1936 (exclusive of expenditures from postal revenues), amounted to \$8,879,798,258, as compared with the estimate of \$7,645,301,338 shown in the Budget submitted a year ago. This

latter amount did not, however, include \$1,673,493,000 for adjusted compensation payments to veterans. The expenditures for the year, excluding these payments, were, therefore, about \$439,000,000 less than the estimate.

The total expenditures for recovery and relief were \$2,776,796,469 against an estimate of \$2,869,068,187. For the operation and maintenance of the regular departments and establishments of the Government the expenditures amounted to \$3,276,872,306 as compared with estimates of \$3,482,208,151. For statutory debt retirement there was expended \$403,240,150, and for interest on the public debt \$749,396,802, the amounts budgeted for these items being \$552,025,000 and \$742,000,000, respectively.

*Deficit and public debt.*—The gross deficit for the fiscal year 1936 amounted to \$4,763,841,642. Excluding \$403,240,150 for statutory debt retirement, there was a net deficit of \$4,360,601,492. The estimated net deficit as contained in the Budget submitted a year ago was \$2,682,482,392, a difference of \$1,678,119,100. As previously indicated, the original estimate has been affected to the extent of \$457,000,000 as a result of the invalidation of taxes levied under the Agricultural Adjustment and Bituminous Coal Acts and by the additional expenditure of \$1,673,493,000 under the Adjusted Compensation Act. If it had not been for the increase in the deficit due to these causes, the net deficit for the fiscal year 1936 would have been about \$452,000,000 less than that originally estimated.

The increase in the gross public debt during the year amounted to \$5,077,650,869, but this sum included an increase of the balance in the general fund of the Treasury of \$840,164,664. The gross public debt on June 30, 1936, was \$33,778,543,494.

#### *Fiscal year 1937*

*Receipts.*—The income of the Federal Government during the fiscal year 1937 will increase sharply over that of 1936. It is expected that the total revenue from all sources (exclusive of postal revenues) will amount to \$5,828,151,000. This represents an increase of \$1,712,194,000 over the actual receipts for the fiscal year 1936 and an increase of \$173,933,000 over the estimates contained in the 1937 Budget as submitted a year ago.

The general improvement in business conditions and the enactment of the Revenue Act of 1936 have resulted in additional revenues from taxes which will not only make up the loss in revenue due to the Supreme Court decisions invalidating the taxes levied under the Agricultural Adjustment and the Bituminous Coal Acts, but will produce additional income of approximately \$174,000,000.

Since the Revenue Act of 1936 materially changes the tax structure, the individual items of revenue as contained in the original 1937

Budget will not be exactly comparable with the individual items in the 1937 Budget as revised in this message.

Income taxes are expected to yield \$2,372,900,000, or \$946,325,000 more than was received from this source last year; miscellaneous internal revenue, \$2,274,968,000, an increase of \$265,389,000; customs duties, \$446,800,000, an increase of \$59,988,000; and realization upon assets, \$31,830,000, an increase of \$26,362,000. In addition, it is expected that the new tax on unjust enrichment provided by the Revenue Act of 1936 will amount to \$82,000,000 and that the tax on carriers and their employees will be \$134,552,000, including \$33,000,000 deferred from the previous fiscal year. The collection of taxes levied under the Social Security Act will begin in the last half of the fiscal year 1937, and it is expected that these taxes will produce additional revenue in the amount of \$324,600,000.

The only item of revenue showing any decrease is that of miscellaneous receipts, in the amount of \$50,325,000, which is due to reductions in interest payments made to the Treasury by the Reconstruction Finance Corporation.

*Expenditures.*—From present indications expenditures for the fiscal year 1937 (exclusive of expenditures from postal revenues) will amount to \$8,480,804,000. Exclusive of statutory debt retirement and adjusted compensation payments, the total expenditures will amount to \$7,512,779,000, an increase over comparable expenditures for 1936 of \$709,714,000.

This amount is made up of increases of \$371,192,000 on account of the Social Security Act, \$85,603,000 on account of interest on the public debt, \$194,161,000 for the general public works program, \$123,442,000 for national defense, and \$221,914,000 for other purposes; and decreases of \$93,321,000 for the Veterans' Administration, \$74,996,000 for the agricultural adjustment program, and \$118,281,000 for the Civilian Conservation Corps.

The amount of the recovery and relief expenditures has been estimated at \$2,166,157,000, but there is included in the supplemental expenditure items \$650,000,000 from an appropriation of \$790,000,000 to be requested of Congress for the purpose of carrying the Works Progress Administration and related programs from February 1 to June 30, 1937. This will increase the estimated expenditures for recovery and relief to \$2,816,157,000, an increase of \$39,361,000 over 1936. The expenditures in the current fiscal year will include, however, the sum of about \$165,000,000 for assistance given to individuals and communities directly or indirectly affected by the widespread drought conditions prevailing during the past summer. If this drought had not occurred, the net cost of recovery and relief for the current fiscal year would have been about \$125,000,000 below the cost for the previous fiscal year.

*Deficit and public debt.*—The current estimates for the fiscal year 1937 show a gross deficit of \$2,652,654,000. Deducting public debt retirements, the net deficit will be \$2,248,129,000.

The increase in the public debt on account of the deficit, however, will be only \$1,348,000,000 since it is anticipated that \$900,000,000 of the deficit will be financed from cash on hand. The working balance will be further reduced by net expenditures of about \$42,000,000 for trust accounts and \$100,000,000 for the retirement of national bank notes now a part of the public debt. This will reduce the working balance from \$2,225,000,000 on June 30, 1936, to \$1,183,000,000 on June 30, 1937. The gross public debt at the end of the current fiscal year is estimated at \$35,026,000,000, an increase over 1936 of \$1,248,000,000.

The estimated debt at the end of the fiscal year is based on contemplated expenditures set out in this Budget and does not take into account any change which may occur as a result of the Treasury policy in holding as "inactive" future acquisitions of gold.

#### *Fiscal program for 1938*

The expected increase in revenue and decrease in expenditures for relief both reflect the general improvement which has taken place in the economic conditions of the country. The Revenue Act of 1936, which was designed for the purpose of replacing revenue lost through the invalidation of processing taxes, of providing sufficient revenue to amortize the cost of the adjusted compensation payments, and of equalizing tax burdens, gives every indication of satisfactorily accomplishing those purposes. I should like, at this point, to emphasize the importance of maintaining the productiveness of the present tax structure, so that we may properly provide for the fulfillment of our fiscal program.

Under legislation enacted during the last session of Congress, which created authorizations for future appropriations aggregating more than \$1,500,000,000, there is included about \$130,000,000 in the estimates of appropriations contained in this Budget. Such authorizations are contained in the new Federal Highway Act, the Rivers and Harbors and the Flood Control Acts, and the Rural Electrification Act.

There is also included \$812,225,000 for social security grants and for the Government's contribution to the old-age reserve account, more than double the expenditures for these purposes in 1937, and there will be for several years still further increases in these requirements. It should be pointed out that these expenditures will be offset to a large extent by the increasing revenues under the Social Security Act.

No estimate of appropriation is presented for the needs of the Civilian Conservation Corps, since its extension beyond March 31 of this year is dependent on the action of Congress. In furtherance of my recommendation for the enactment of legislation to continue it as a permanent agency of the Government, there is included in the "Supplemental items" an amount sufficient to meet the expenditure requirements for the fiscal year 1938.

The following table shows the distribution, on a functional basis, of the expenditure figures contained in this Budget and compares them with similar figures for previous years.

\* To be increased by any amount appropriated by Congress for recovery and relief for the fiscal year 1938. As indicated in the message, it is hoped the amount will not exceed \$1,537,123,000.

<sup>b</sup> Funds for continuation of the Civilian Conservation Corps are included under "Supplemental items."

\* Excess of credits, deduct.

4 Excess of revenues, deduct.

*Receipts.*—Treasury receipts in the fiscal year 1938 are expected to reach a total of \$7,293,607,000, an increase of \$1,465,456,000 over similar receipts for 1937 and \$3,177,650,000 over 1936. This gain is largely due to an increase in income taxes as a result of improved business conditions and the operation of the Revenue Act of 1936.

The amount expected to be collected in 1938 from income taxes is \$3,365,300,000, a gain of \$992,400,000 over the fiscal year 1937. Miscellaneous internal revenue will produce \$2,508,332,000, or \$233,364,000 more than is expected from this source for 1937. The tax on unjust enrichment and the taxes on carriers and their employees from which \$82,000,000 and \$134,552,000, respectively, will be derived in 1937, will produce no revenue in 1938, since under existing law these taxes expire during 1937. The first full year of tax collections under the Social Security Act will result in revenue of \$774,800,000 in 1938, which sum is \$450,200,000 greater than the anticipated revenue in 1937, when collections will be for only six months. It is believed that customs revenues will rise from \$446,800,000 during the present fiscal year to \$463,000,000 in 1938, a gain of \$16,200,000. Miscellaneous receipts, however, will decrease \$8,950,000, the 1938 collections being estimated at \$151,550,000, as compared with \$160,500,000 during 1937. From realization upon assets \$30,625,000 will be received, while in 1937 receipts from this source will amount to \$31,830,000.

*Expenditures.*—The expenditures for 1938 contemplated under this Budget (exclusive of those from postal revenues) will total \$6,157,999,000, or approximately \$2,323,000,000 less than is now estimated for 1937. General expenditures for regular activities amount to \$5,841,968,000, as compared with \$5,664,647,000 in 1937, an increase of \$177,321,000. The 1937 estimate, however, contains an amount of \$563,500,000 for completion of adjusted compensation payments to veterans, so that the comparable increase over 1937 is \$740,821,000. For recovery and relief there is included in the expenditures for 1938 the amount of \$316,031,000, which, of course, is not the full amount that will be required for relief during that year. As previously indicated, it is our present hope that the additional amount to be requested for this purpose will not exceed \$1,537,123,000. Thus the total expenditure for recovery and relief during 1938 would be \$1,853,154,000, or \$963,003,000 less than the amount estimated for 1937. Again I emphasize the contribution which employers can make to this attainment.

The general expenditures include \$860,000,000 for interest on the public debt, an increase of \$25,000,000 over the amount for the present fiscal year, and \$401,515,000 for statutory debt retirements, a decrease of \$3,010,000. Exclusive of the service on the public debt and the payment of adjusted compensation to veterans, there is a net increase of \$718,831,000 in expenditures for regular activities as compared with 1937. This increase is accounted for as follows: For increased requirements under the Social Security Act, \$436,337,000; for additional expenditures under the general public works program, \$132,519,000; for national defense to provide for the increased strength of the Army as directed by Congress and to provide for replacement of naval vessels in accordance with existing authorizations, \$92,882,000; for the necessary funds for the activities of the Railroad Retirement Board and for rural electrification, \$39,566,000; and for increased needs of other activities, \$17,527,000.

*Surplus and public debt.*—The surplus for the fiscal year 1938, as presented in this Budget, is \$1,135,608,000, after providing for debt retirement. Excluding provision for debt retirement, the surplus will amount to \$1,537,123,000. As I have previously stated, it is hoped the additional needs for relief during the fiscal year 1938 will not require expenditure of more than this latter amount. On this basis the estimated gross public debt, on June 30, 1938, will be about the same amount as at the close of the fiscal year 1937. This does not take into account any change which may occur as a result of the Treasury policy in holding as "inactive" future acquisitions of gold.

*Appropriations.*—The total appropriations recommended in this Budget aggregate \$6,839,000,000, including those for the Postal Service, District of Columbia, and probable supplemental items, while the appropriations already made and prospective supplemental items for the fiscal year 1937, exclusive of requirements for recovery and relief, total \$6,261,000,000, an increase of \$578,000,000 for 1938. This increase is due to additional appropriations amounting to \$309,000,000 on account of the Social Security Act; \$80,000,000 required under the general public works program; and \$189,000,000 on account of departmental requirements, including the national defense. The appropriations made and contemplated for recovery and relief for 1937 total \$2,215,000,000, whereas it is hoped that corresponding appropriations for 1938 will not exceed \$1,537,123,000.

## PART IV

## THE DISTRICT OF COLUMBIA

The first section of the 1937 District of Columbia Appropriation Act, approved June 23, 1936 (Public, No. 762, 74th Congress), contains the following provision:

"Not to exceed \$50,000 shall be available for expenditure, under the direction of the President, for making an independent study of the fiscal relations between the United States and the District of Columbia and enabling him to report to Congress at the beginning of the next regular session, what, in his judgment, is a fair and equitable amount to be paid by the United States as an annual contribution toward the expenses of the government of the District of Columbia; such sum shall be available for personal services without regard to the civil service laws and the Classification Act of 1923, as amended, and for such other expenditures as may be necessary in connection with such study."

Pursuant to the above, I appointed a director and an advisory committee of three members to conduct an independent study of the various elements and conditions affecting the fiscal relations between the United States and the District of Columbia.

The report contains detailed findings and recommendations with the supporting data and information collected from the Federal and District Governments in Washington and from 17 comparable American cities and the capital cities of 21 foreign countries.

The application of the basic principles and recommendations as outlined and detailed in the report is reflected in the following 3-point formula, which I recommend be carefully considered by the Congress with a view to enacting such legislation at this session as may be necessary to establish equitable fiscal relationships between the two governments.

I. *Intergovernmental contractual services.*—Contractual arrangements shall be established for the reimbursement of the cost of specific intergovernmental services supplied either government by the other. Appropriations therefor shall be included in the respective annual departmental budgets.

II. *Capital outlays of joint interest.*—The National Capital Planning Commission (proposed in the report) shall determine the extent of the respective Federal and District interests in capital outlays and improvements to be included in the District budget.

III. *Per capita governmental costs.*—Pending the grant of broader powers of local control over purely local affairs, the excess of the District governmental costs per capita over the average of those in comparable cities shall be assumed by the Federal Government: *Provided, however,* That such excess District governmental costs shall be assumed only after allowance has been made for reimbursements due to unusual costs occasioned by Congressional enactments.

I also recommend that, concurrently with enactment of any legislation which carries into effect the provisions of this continuing

formula, the substantive law providing for annual Federal contributions of a fixed percentage of District appropriations be repealed and that the system of annual Federal lump-sum contributions be abandoned.

The application of this formula to the 1938 Budget estimates would provide for a net reimbursement by the Federal Government to the District of Columbia of \$2,533,357, made up as follows:

I. Intergovernmental contractual services.....	\$1, 996, 407
II. Capital outlays.....	536, 950
III. Excess per capita District of Columbia governmental costs..	-----
Total.....	2, 533, 357

After the application of the formula there will still be a deficit in the general revenue account of the District of Columbia of about \$9,800,000, which will make it necessary, of course, to provide additional revenue. Sources of additional revenue are indicated in the report.

FRANKLIN D. ROOSEVELT.

JANUARY 5, 1937.

## ANALYSIS OF REVENUE ESTIMATES

The estimates of the revenues of the Federal Government for the balance of the current fiscal year and for the entire following fiscal year are based on the assumption that the existing tax structure will continue.

The tax revenue from practically every major source is directly dependent, although in varying degree, upon business conditions during the period in respect of which the tax is levied. In making estimates of future revenue it is therefore necessary to forecast the general business situation for a period ending 20 months later. Appraisals of future industrial production and profits, security markets, commodity markets, and general business activity are necessary for determining revenue estimates. These forecasts require analyses of a large variety of financial and economic data, and they form the basis for estimates of the aggregate amounts of taxable corporate and individual incomes as well as the distribution of such incomes by major sources, such as corporate and individual business profits, wages and salaries, rents, royalties, interest, dividends, and proceeds from the sale of assets.

In considering estimates of future revenue in connection with forecasts of business conditions, it is important to remember that changes in business profits and individual incomes do not occur in direct proportion to increases and decreases in the volume of business activity and in the general price level. In periods of rising business, for example, profits and incomes rise much more than proportionally to the increase in the volume of business. Consideration must also be given to the fact that the amount of increased revenue which will result from a given gain in individual incomes is influenced by the distribution of this increase among the various income groups since a change in the aggregate amount of individual incomes is attended by marked shifts of income from one surtax bracket to another.

There is a definite lag between the time of collections of income taxes and the time income is earned. Thus the improvement in earnings in the calendar year 1936 will appear in income tax collections for the first time when income tax returns are filed on March 15, 1937. Because of the privilege of making quarterly installment payments of these tax liabilities, the collections will be received throughout the calendar year 1937, thus falling into the receipts of two different fiscal years. Hence, the estimated income tax collections from both corporations and individuals for the fiscal year 1937 are made up partly from payments on 1935 incomes and partly from payments on 1936 incomes. Similarly, fiscal year 1938 estimates of income tax receipts involve payments on both 1936 and 1937 earnings. Collections from estate and gift taxes and from the Social Security Act tax on employers of eight or more also lag behind changes in general business conditions. Most of the other sources of revenue reflect such business changes within 2 months.

## TOTAL REVENUES AND RECEIPTS

Total revenues and receipts, general and special accounts, are estimated (on daily Treasury statement basis, unrevised) in the amounts of \$5,828,000,000 for the fiscal year 1937, and \$7,293,000,000 for the fiscal year 1938, assuming that taxes now scheduled to terminate or be reduced in rate on June 30 or July 31, 1937, will be extended and at the present rate. These amounts represent an increase of \$1,712,000,000 and \$3,177,000,000, respectively, over the \$4,116,000,000 actual receipts for the fiscal year 1936. If the temporary taxes are not

extended and the present rates are not continued, the estimate for the fiscal year 1938 will be reduced by about \$500,000,000.

The subjoined table depicts the percentage distribution of the major sources of revenue, both for the estimated receipts for the fiscal years 1937 and 1938 and for the actual receipts for the fiscal years 1935 and 1936. The most significant feature of this tabulation is the reflection of the fact that the income tax is again becoming the most important source of Federal revenue as recovery from the depression becomes more pronounced. Whereas during the whole period between 1918 and 1932 approximately one-third of the Federal revenue receipts was derived from customs and miscellaneous internal revenue taxes and approximately two-thirds from income taxes, the income tax in the fiscal year 1935, reflecting the incomes of 1933 and 1934, produced only 29.1 percent of the total of revenues and receipts of that year. Percentages for all subsequent years are shown in the table below. If the temporary taxes are not continued, it is estimated that the income tax will produce approximately one-half of the revenue receipts for the fiscal year 1938.

## FISCAL YEAR 1937

*Total receipts.*—As shown in the foregoing Statement No. 1, the total receipts (general and special accounts) for the fiscal year 1937 are estimated at \$5,828,000,000, an increase of \$1,712,000,000, or 41.6 percent over the \$4,116,000,000 receipts from these sources for the fiscal year 1936. The sources of these revenues may be broadly summarized as follows:

[In millions of dollars]

	Actual, 1936	Estimated, 1937
Income taxes.....	1,428.6	2,372.9
Miscellaneous and other internal revenue.....	2,086.3	2,816.1
Customs.....	386.8	446.8
Miscellaneous revenues and receipts.....	216.3	192.3
Total.....	4,116.0	5,828.1

Actual receipts from internal-revenue taxes and customs duties amounted to \$3,900,000,000 in the fiscal year 1936 as contrasted with estimates from these sources of \$5,636,000,000 for the fiscal year 1937. The figures are

not strictly comparable, due to the addition or elimination of taxes on certain items and to changes in the method of taxing other items. Certain taxes which were collected in the fiscal year 1936, such as processing taxes under the Agricultural Adjustment Act and related taxes, the bituminous-coal tax, and the tax on jewelry, have now been eliminated from the tax system. The revenue from other taxes, however, appears for the first time in the estimated receipts for the fiscal year 1937. The most important of these are the employment tax and the tax on employers of eight or more persons, both levied under the Social Security Act. The tax on unjust enrichment is nonrecurring and will be collected only in the fiscal year 1937.

Collection of corporation taxes under the Revenue Act of 1936 will reflect in the returns for 1937 the surtax on the undistributed profits of corporations. This act also provides that dividends received by individuals shall be subject to the normal tax.

The full effect of the Revenue Act of 1936 will not be realized in the fiscal year 1937, since collections under the provisions of this act will only include those payments made in the months of March, April, May, and June, 1937. Furthermore, corporations whose fiscal years began prior to December 31, 1935, will not be subject to the provisions of the Revenue Act of 1936 in time to affect Federal revenues in the fiscal year 1937.

*Income tax.*—It is estimated that income-tax collections for the fiscal year 1937 will amount to \$2,373,000,000, or 66.3 percent more than the comparative figure for 1936. This increase is due to the improvement in business conditions, and, in addition, to the fact that collections in the last 4 months of the fiscal year will reflect provisions of the Revenue Act of 1935 (continued in the Revenue Act of 1936) which increase surtax rates above the \$50,000 surtax net income class, and of the Revenue Act of 1936 which make dividend receipts subject to the normal tax, and impose a surtax on the undistributed profits of corporations. A slight increase in back income-tax collections is estimated because of the increase in income-tax liability and of the continued intensive drive for collections by the Bureau of Internal Revenue.

The excess-profits tax estimate of \$14,500,000, despite better business conditions, is about the same as the collections for the fiscal year 1936. The collections for the first half of the fiscal year are expected to be very much larger than those for the corresponding period of 1936, reflecting greatly increased corporate profits in the calendar year 1935. This increase, however, is expected to be practically offset by the estimated decline in collections in the last half of the fiscal year. This is due to the fact that corporations have already availed themselves of the opportunity afforded by the Revenue Act of 1935 for redeclaration of the value of their capital stock in order to reduce their combined tax liability for the excess-profits and capital-stock taxes.

*Miscellaneous internal revenue.*—Estimated collections under the capital-stock tax of \$139,000,000 show an increase of \$44,000,000, or 46.4 percent, over the comparative collections for the fiscal year 1936. These collections directly reflect the revaluation above mentioned which occurred in connection with the capital-stock tax returns filed June 30, 1936, payment of which was received in the early months of the fiscal year 1937.

■ Total estate-tax collections for the fiscal year 1937 are estimated at \$305,000,000. The estimate of an increase of \$86,000,000 in the collections for the estate tax in the fiscal year 1937 is only a partial reflection of the higher

rates and lower exemptions contained in the Revenue Act of 1935. Although the new rates became effective at the time of the signing of the act by the President on August 30, 1935, the maximum time for filing final estate-tax returns was extended from the previously existing 12-month requirement to one of 15 months after the decedent's death. Hence, the fiscal year 1937 estate-tax estimates contain the first 2 months' collections chiefly under the lower rates of 1934, followed by relatively low collections for the next 3 months due to the time extension. Beginning with the December 1936 collections the new rates are effective with respect to all returns filed in connection with the estate tax. The estimated decrease of \$50,000,000 in receipts from the gift tax for 1937 is in large measure due to the removal of special incentives for gifts which existed in the calendar year 1935.

Miscellaneous internal revenue tax collections (exclusive of taxes upon carriers and their employees, Social Security Act taxes and the tax on unjust enrichment) are estimated at \$2,275,000,000 for the fiscal year 1937, an increase of 13.2 percent over comparable collections for the fiscal year 1936.

Each of the major classifications of miscellaneous internal revenue has contributed to this increase. The revenue from alcoholic beverage taxes is estimated at \$595,000,000, an \$89,000,000 increase attributable mainly to larger expected sales of fermented malt liquors and to probable increased consumption of distilled spirits, as a result of improving quality, more rigid enforcement activity, and increased consumer incomes. Collections from tobacco taxes are estimated at \$542,000,000, an increase of \$41,000,000 from 1936. The gain is attributable principally to the estimated increase in the consumption of cigarettes. The estimated increase of \$9,000,000 in documentary stamp tax collections reflects anticipated increases in the volume of trading on the stock exchanges and in corporate financing.

Manufacturers' excise tax collections are estimated at \$428,000,000, an increase of \$46,000,000 over the previous years. The gain is attributable in large measure to collections from the taxes on gasoline, automobiles, and lubricating oils. Sundry taxes are expected to increase \$6,000,000, reflecting principally the normal concomitant of returning prosperity in the increased use of telephone, telegraph, radio, etc., as well as an increased number of admissions to theaters, concerts, etc.

Changes in estimated collections from principal sources of miscellaneous internal revenue in the fiscal year 1937, as compared with actual collections of the fiscal year 1936, are summarized in the following table:

*Collections from principal taxable sources of miscellaneous internal revenue*

*Other internal-revenue taxes.*—The United States Supreme Court's decisions in 1936 invalidated the processing taxes imposed by the Agricultural Adjustment Act and the taxes levied under the Bituminous Coal Conservation Act of 1935 (collections from which were reported as miscellaneous taxes). The act of February 10, 1936, Public, No. 433, repealed the Potato Act of 1935, the Kerr Tobacco Act, and the Bankhead Cotton Act of 1934. Taxes imposed by these acts had yielded in the fiscal year 1936 revenue of over \$77,000,000 from tax liabilities incurred up to the time of their discontinuance.

Collection of taxes under the Social Security Act will begin in January 1937. Title VIII imposes an excise tax on employers and an income tax on their employees applicable with respect to employment after December 31, 1936. These taxes are expected to yield \$253,000,000 in the latter half of the fiscal year 1937. Title IX of the act, providing for an excise tax on employers of eight or more persons, became effective January 1, 1936; payments are due beginning January 1937 and are estimated at a total of \$71,000,000 for the payments to be made during the current fiscal year.

The excise tax on carriers and the income tax upon their employees became effective March 1, 1936, and terminate February 28, 1937. The estimate for the collection of these taxes in the fiscal year 1937 of \$135,000,000 includes an estimate of \$33,000,000 back taxes from the liabilities incurred in the fiscal year 1936 but unpaid due to a court injunction restraining the collection of these taxes.

*Customs.*—Customs receipts for the fiscal year 1937 are estimated at \$447,000,000, an increase of about \$60,000,000 over the fiscal year 1936. Revenue from duties on distilled spirits and wines is expected to decline by more than \$2,000,000. In general, imports and duties therefrom are expected to increase because of improved trade conditions.

*Miscellaneous receipts.*—Revenues from miscellaneous receipts and realization upon assets for the fiscal year 1937 are estimated at \$192,000,000, a decrease of \$24,000,000 from the comparative receipts for the preceding fiscal year. This difference reflects a reduction of about \$50,000,000 in the 1937 estimate of interest on obligations of the Reconstruction Finance Corporation. This decrease is due to two factors, which made the 1936 figures larger than normal and the 1937 figures subnormal. Certain interest payments which normally would have been made in the fiscal years 1935 and 1937 were made instead in the fiscal year 1936. Offsetting items include increases of \$14,000,000 and \$10,000,000 in the repayments of loans made by the Resettlement Administration and the Farm Credit Administration, respectively.

When the Budget for the fiscal year 1937 was presented to Congress last January, estimates were made on the basis of then existing laws. Since that date, however, considerable important changes have been made in the tax structure and there has also been a further improvement in business than estimated at that date. The following table shows the original and the present estimates of receipts for the fiscal year 1937.

## FISCAL YEAR 1938

*Total receipts.*—Total receipts (general and special accounts) for the fiscal year 1938, are estimated at \$7,293,000,000, assuming that the temporary taxes are continued. This represents an increase of \$1,465,000,000, or 25.1 percent, over the comparative estimates for the fiscal year 1937 and is \$3,177,000,000, or 77.2 percent, more than the actual receipts for the fiscal year 1936. If the temporary taxes are not extended, the above estimates will be reduced by \$493,000,000.

*Income tax.*—Total income tax collections are estimated at \$3,365,000,000, an increase of \$992,000,000 over the estimated collections for the fiscal year 1937. This increase represents the first full year of collections under the Revenue Act of 1936, which made dividends subject to the normal tax and imposed a surtax on the undistributed profits of corporations, as well as putting into effect the increased surtax rates on individual incomes, first imposed by the Revenue Act of 1935. It is also in part a reflection of the improvement in business in 1936 and a partial reflection of the estimated business recovery for 1937. The excess-profits tax collections are expected to decline to \$6,000,000 for the fiscal year 1938 because corporations have availed themselves of the opportunity afforded by the Revenue Act of 1935 to make a new declaration for the capital-stock tax and so reduce their excess-profits tax liabilities.

*Miscellaneous internal revenue.*—The capital-stock tax receipts are estimated at \$142,000,000, an increase of \$3,000,000 over the estimate for the fiscal year 1937. The estate-tax receipts are estimated at \$464,000,000, an increase of \$159,000,000 over the estimate for the fiscal year 1937. This is not only a reflection of the expected higher value of taxable estates but also of a full year of collections under the lower exemptions and higher rates imposed by the Revenue Act of 1935. The gift-tax receipts are estimated at \$75,000,000 for the fiscal year 1938.

Miscellaneous internal-revenue tax collections for the fiscal year 1938 are estimated at \$2,508,000,000, assuming that the temporary taxes are extended. This represents an increase of \$233,000,000 over the comparative estimate for the fiscal year 1937. If the temporary taxes are not extended, the 1938 fiscal year estimate is \$2,032,000,000. This is \$243,000,000 less than the \$2,275,000,000 estimated receipts from these sources for the fiscal year 1937.

Each of the major classifications of miscellaneous internal revenue has contributed to this increase. The receipts from alcoholic beverage taxes are estimated at \$644,000,000, an increase of \$49,000,000 over the estimate for the fiscal year 1937. This increase is attributable mainly to the estimated increased receipts from the taxes on fermented malt liquors and to the expectation of increased consumption of distilled spirits. Collections from tobacco taxes are estimated at \$569,000,000, an increase of \$28,000,000 over the comparative estimate for the fiscal year 1937. The gain is largely the result of the estimated increase in the consumption of cigarettes. The estimated increase in stamp taxes of \$5,000,000 reflects estimates of a moderate increase in the volume of trading in securities on stock exchanges and of the extent of new corporate financing. If certain of the temporary documentary stamp taxes are not extended, the estimate for revenue from this source would be only \$42,000,000, or \$36,000,000 less than the \$78,000,000 estimate for the fiscal year 1937.

Manufacturers' excise tax collections are estimated at \$449,000,000, an increase of \$20,000,000 over the estimate for the fiscal year 1937. The bulk of this estimated increase is due to the expected larger volume of gasoline consumption. Most of the taxes which expire on June 30 and July 31, 1937, are manufacturers' excise taxes. If those taxes should not be extended, total manufacturers' excise taxes are estimated at \$43,000,000, representing largely a carry-over of collections from tax liabilities incurred in the previous fiscal year. This would amount to a decrease of \$386,000,000 in the receipts from this source as compared with the fiscal year 1937. Sundry taxes are estimated to increase \$4,000,000 over the \$79,000,000 estimate for the fiscal year 1937, assuming that the temporary taxes are extended. If they are not extended, miscellaneous taxes are expected to yield only \$33,000,000, or \$46,000,000 less than the estimate for the fiscal year 1937.

The principal changes in the estimated miscellaneous internal revenue receipts in the fiscal year 1938, as compared with the estimates for the fiscal year 1937, with and without the extension of the temporary taxes, are summarized in the following tables:

*Social security taxes.*—The fiscal year 1938 is the first full year of collections of the taxes imposed by the Social Security Act. It is estimated that the employment tax, imposed by title VIII of that act as an excise tax on employers and an income tax on their employees, will yield \$622,000,000 in the fiscal year 1938, an increase of \$369,000,000 over receipts from this source for the fiscal year 1937. The collections of the tax under title IX of the act, which is an excise tax on employers of eight or more persons, are estimated to yield \$153,000,000

in the fiscal year 1938, an increase of \$82,000,000 over the estimate for the fiscal year 1937. This is the result of the collection in the latter half of the fiscal year 1938 of two quarterly payments on the tax liabilities of the calendar year 1937 at double the rates which applied in 1936.

*Customs.*—Customs receipts for the fiscal year 1938 (on the assumption that temporary taxes on certain products, such as coal, petroleum, copper, lumber, and certain animal and vegetable oils, are extended) are estimated at \$463,000,000, an increase of about \$16,000,000 over the fiscal year 1937. A decrease of

\$2,000,000 from the estimate for the fiscal year 1937 is expected in revenue from wines and liquors, chiefly as a result of a probable decline in whisky imports from Canada. In the fiscal year 1938, it is estimated that the revenue from other classes of imports will continue to increase. If the temporary import taxes are not extended, customs receipts of only \$445,000,000 are expected.

*Miscellaneous receipts.*—Miscellaneous receipts for the fiscal year 1938 are estimated at \$182,000,000, a decrease of \$10,000,000 as compared with the estimate for the fiscal year 1937.

## ANALYSIS OF APPROPRIATION ESTIMATES

The foregoing Statement No. 2 presents in three parallel columns the appropriation estimates for the fiscal year 1938 and the actual appropriations for 1937 and 1936. Adjacent to these columns are three additional columns showing the estimated expenditures for 1938 and 1937 and the actual expenditures for 1936. To avoid confusion in comparing the figures in these six columns the basis upon which the figures are presented should be explained.

With respect to the first-mentioned three columns of figures, the 1936 and 1937 columns carry the appropriations which have already been made by Congress for the various departments, bureaus, establishments, and agencies of the Government for these fiscal years, and the purposes for which the appropriations were made. The 1938 column presents the amounts for these organization units which the President has recommended to the Congress for appropriation for the fiscal year 1938.

The appropriations, it will be observed, are of two general types—annual and permanent. The annual appropriations, ordinarily found in the departmental supply bills, are voted each year by the Congress. They are usually definite and specific as to amounts. They may be obligated only during the year to which they relate, but remain available for payment of unliquidated obligations for 2 years thereafter before any unused balance is covered into the so-called "surplus fund" of the Treasury. The permanent appropriations are automatically renewed each year over a period of time by virtue of permanent legislation, without annual action by the Congress. Such appropriations may be either specific or indefinite as to amounts. An example of the latter is the indefinite appropriation to cover the interest on the national debt. This type of appropriation, while sometimes difficult to ascertain as to amount, does not preclude an estimated figure for use in the Budget. The number of permanent appropriations was greatly reduced, effective July 1, 1935, by the Permanent Appropriation Repeal Act of June 26, 1934. The Congress makes some appropriations available until expended, or until the object for which they are made is to be accomplished. These appropriations are without a definite time limit, and may, therefore, be called "no-year" appropriations. They are generally for the construction of public works projects.

Turning to the three columns under the caption "Expenditures", the column for 1936 shows the actual expenditures figures for that fiscal year. These figures, usually on a checks-issued basis, are adjusted at appropriate totals to the cash (checks-paid) basis, as shown on the daily Treasury statement. The totals, therefore, are on an actual cash basis. The columns for 1937 and 1938 show the estimated expenditures for these fiscal years on a cash basis. The fact that these columns show expenditures which are larger than the appropriations made for the same years is due to the carry-over of prior obligations for payment in 1937 and 1938. The figures in these three columns are those carried in totals to the General Budget Summary and supporting schedules. Hence the Budget is, in effect, on a cash basis with respect to expenditures, as well as with respect to receipts.

The italicized items appearing in the statement represent emergency appropriations and expenditures. The totals of these various items are summarized and presented in the General Budget Summary under the expenditure group called "Recovery and relief." This group is carried in detail in Supporting Schedule No. 2.

## APPROPRIATIONS FOR THE FISCAL YEAR 1938

The detailed figures representing the increases and decreases in the estimates of appropriations for 1938 in comparison with the appropriations actually made for 1937 are to be found in a summary table at the beginning of the estimates of appropriations for each department or establishment, as these estimates are presented in the subsequent pages of the Budget. The important items of increase or decrease are summarized below, beginning on the page indicated:

	Page
Legislative Establishment.....	A86
Independent offices and establishments.....	A87
Government credit corporations and credit administrations.....	A90
General Public Works Program.....	A91
Executive departments.....	A93
District of Columbia.....	A101

## LEGISLATIVE ESTABLISHMENT

The appropriation estimates for 1938 show a net increase of \$1,120,758 over the appropriations for 1937.

*Senate*

The estimates of the United States Senate show an increase of \$2,000 for salaries and expenses, Joint Committee on Internal Revenue Taxation.

*House of Representatives*

There is a net reduction in the estimates for the House of Representatives of \$21,570 which results from decreases amounting to \$26,250 in the estimates for contingent expenses of the House, and increases totaling \$4,680 for salaries of official reporters and committee stenographers.

*Joint Committee on Inaugural Ceremonies of 1937*

The appropriation of \$35,000 for the Joint Committee on Inaugural Ceremonies of 1937 is nonrecurring in the fiscal year 1938.

*Architect of the Capitol*

The estimates submitted for the Architect of the Capitol for 1938 show a net increase of \$1,023,088. The principal increases requested include \$376,735 for improving the Capitol Grounds, \$15,131 for maintenance of the House Office Building, \$114,155 for the Capitol power plant, \$33,400 for the Library Building and Grounds, and \$641,340 for the Library of Congress Annex which will be completed from the 1938 appropriation. The decreases include \$114,293 for Capitol Building and repairs and \$51,180 for repairs and improvements to the Senate Office Building, both of which are on account of items that are nonrecurring in 1938.

*Library of Congress*

The total increase in the estimates for the Library of Congress amounts to \$152,240, of which \$85,160 is for salaries, \$15,000 is for increase of the Library, \$48,800 is for printing and binding, and \$3,280 is for the care and maintenance of the Library Building. There is a decrease of \$15,000 in the estimates for trust accounts under the Library of Congress.

*Government Printing Office*

The estimates for the Government Printing Office show an increase of \$15,000 for additional employees for the Superintendent of Documents.

## INDEPENDENT OFFICES AND ESTABLISHMENTS

*Executive Office*

The estimates for 1938 for the Executive Office show a decrease of \$70,652 below the appropriations for the current fiscal year, due to the elimination of nonrecurring items for improvements to the Executive Mansion provided for in the appropriations for the fiscal year 1937.

*American Battle Monuments Commission*

The estimate for the Commission for 1938 shows an apparent increase of \$67,673. The appropriation for 1937, however, made available \$100,000 from prior no-year balances, which, together with the appropriation of \$71,000, provided a total of \$171,000 for 1937. The estimates for 1938 recommend an appropriation of \$138,673 plus \$21,327 of the unexpended balances of the no-year appropriation, making available, therefore, for 1938, \$160,000. This is a reduction of \$11,000 below the amount available for the fiscal year 1937, due to reductions in maintenance and other operating costs.

*Board of Tax Appeals*

The estimates for the Board for 1938 show a net decrease of \$3,000. The appropriation act for the fiscal year 1937, however, made available \$8,000 of the unexpended balance of the appropriation for the fiscal year 1935, thus providing a total of \$540,000 for 1937. The actual decrease is therefore \$11,000. The decrease is due to reductions in salary expenditures, travel, and reporting service, with slight offsetting increases in equipment and other contingent expense items.

*Celebration of the Bicentennial of the Birth of Patrick Henry*

Pursuant to the authorization contained in the act of Congress dated June 5, 1936, \$10,000 was appropriated to aid in defraying the expenses for the celebration of the bicentennial of the birth of Patrick Henry held at Hanover Courthouse, Va., July 15-17, 1936, such sum having been expended by the Patrick Henry Bicentennial, Inc., in accordance with the act.

*Central Statistical Board*

The estimates for the Board for the fiscal year 1938 show a decrease of \$1,420 due to reductions of \$1,080 for salary expenditures, \$600 for printing, and with an offsetting increase of \$260 for other operating expenditures.

*Civil Service Commission*

The estimates for 1938 for the Commission provide for an apparent increase of \$26,623,000 over the appropriations for the fiscal year 1937. The appropriation act for the fiscal year 1937 made available \$6,000 from the unexpended balance of the fiscal year 1935 or a total of \$48,885,000 for the fiscal year 1937. The actual increase is therefore \$26,617,000. For administrative expenses, \$2,435,000 will be required in 1938, which represents a net increase of \$100,000 over the same appropriation for the fiscal year 1937. The increase is nonrecurring and is

made in order to enable the Commission to bring service records up to date. The remaining increase of \$26,517,000 is in the estimate for retirement and disability funds, and is necessary to build up the civil-service retirement and disability fund to a proper level and to provide \$175,000 for a new item, the Alaska Railroad retirement and disability fund, authorized by the act of June 29, 1936.

*District of Columbia Alley Dwelling Authority*

The Authority contemplates continuation of the program for elimination of alley dwellings in the District of Columbia as provided in the District of Columbia Alley Dwelling Act of June 12, 1934. To carry out this program the Authority anticipates the use of unexpended balances of the "Conversion of inhabited alleys fund" plus receipts derived from sales, leases, and other sources as authorized in section 3 (b) of that act.

*Employees' Compensation Commission*

The estimates of the Commission for 1938 show an apparent increase of \$5,114,450 in the annual appropriations. This is because the appropriation act for the fiscal year 1937 made available the entire annual appropriation of \$12,689,250 to the Commission from balances of the special funds, "Employees' compensation fund, civil works, 1934 and 1935" and "Emergency Relief Appropriation Act of 1935", whereas \$3,451,160 is now being recommended for the fiscal year 1938 out of the remaining balances in these special funds for "Employees' compensation fund, civil works", "Employees' compensation fund, emergency conservation work", and "Employees' compensation fund, emergency relief", and \$5,124,450 for direct appropriation for administrative expenses and the "Employees' compensation fund." In comparison with 1937, therefore, there is an actual reduction of \$4,113,640 for 1938, consisting of increases of \$6,200 in connection with a contemplated accident-prevention program, \$3,200 for a safety engineer, and \$3,000 for printing a publication on accident prevention, with offsetting decreases of \$4,119,840 in the various employees' compensation funds. Such reductions are possible because of the decrease in the number of potential beneficiaries.

There is also a \$10,000 decrease shown in the permanent appropriation (trust account), for relief and rehabilitation, Longshoremen's and Harbor Workers' Compensation Act, due to a reduction in the 1938 estimate of the amount which it is anticipated will be received and invested during the fiscal year 1938, thus making a total net increase of \$5,114,450.

*Federal Communications Commission*

The appropriation estimates for 1938 show an apparent decrease of \$245,000. The appropriation act for the fiscal year 1937, however, made \$1,000 available from the unexpended balance of the 1935 appropriation, thus making a total of \$1,875,000 available for 1937. The actual decrease is therefore \$246,000. There is a decrease of \$400,000 due to the expiration of the special telegraph and telephone investigations, with offsetting increases of \$100,000 in general administrative expenses to provide for additional duties of the Commission in connection with the radiotelegraphy provisions of the Convention on Safety at Sea signed by the President on July 7, 1936, and a nonrecurring item of \$54,000 for new monitor equipment.

### *Federal Power Commission*

The estimates for 1938 for the Commission show an apparent net decrease of \$183,500 below the appropriations for the current year. The appropriation act for the fiscal year 1937, however, made not to exceed \$16,000 available from the unexpended balances of the 1935 appropriations, thus providing a total of \$1,741,000 in 1937. The actual decrease is therefore \$199,500. The decreases involve a reduction of \$20,000 in travel expenses; \$26,000 for a nonrecurring item of equipment; \$27,222 in other contingent expenses; \$195,088 continued savings carried forward from 1937; and \$48,000 in rent. This last-mentioned item is due to the fact that the Commission's expenses hereunder in the District of Columbia will be included in the estimates of the National Park Service for 1938. The decreases above mentioned amount to \$316,310 and are offset principally by increased salary requirements of \$116,310.

### *Federal Trade Commission*

The estimates for the Commission for 1938 show an increase of \$442,000 over the appropriation for 1937. Actually, however, \$678,163 is provided due to the elimination of nonrecurring items included in the 1937 allowance. The increase provides \$528,163 for enforcement of the Robinson-Patman Act and a nonrecurring item of \$150,000 for the farm implement survey provided for in Public Resolution No. 130, Seventy-fourth Congress.

### *Foreign Service Pay Adjustment*

The estimate of 1938 for payments to officers and employees of the United States due to appreciation of foreign currencies shows an apparent decrease of \$54,658. The appropriation for the fiscal year 1937, however, included reappropriated unexpended balances of the 1935 appropriation amounting to \$2,048,611, thus making a total of \$3,848,611 available for the fiscal year 1937. The actual decrease is therefore \$2,103,269. This decrease is due to the decline in exchange value of the currency in certain foreign countries.

### *General Accounting Office*

The estimates for 1938 for the General Accounting Office show a net decrease of \$409,300. The decrease represents nonrecurring items appropriated in the First Deficiency Appropriation Act, fiscal year 1936, for the additional work devolving on the General Accounting Office in connection with the audit of soldiers' bonus payments.

### *Great Lakes Exposition Commission*

This Commission was created by the act of April 25, 1936, for the purpose of participation by the United States in the Great Lakes Exposition held in the State of Ohio during the year 1936. The act authorized \$275,000 of which the entire amount was appropriated.

### *Interstate Commerce Commission*

The estimates of appropriations for 1938 for the Interstate Commerce Commission show an apparent increase of \$849,950 over the appropriations for the current fiscal year. When, however, reappropriated balances of \$157,000 are considered, the actual increase is only \$692,950. The principal increases are \$2,950 for signal safety systems due to increased inspections resulting from increased speed of trains and possible need of changes in

safety signals therefor; \$40,000 for expansion of the air-mail contract work; and \$750,000 for expansion in the work in the enforcement of the Motor Carrier Act. There is an offsetting decrease of \$100,000 for the valuation of property of carriers, which it is anticipated will not hamper the Commission in revising its valuation data currently.

### *National Advisory Committee for Aeronautics*

The estimate of \$1,280,850 for this Committee for 1938 is \$1,263,700 less than the appropriation for 1937. This reduction is due to the elimination of two nonrecurring items of construction, \$1,100,000 for a wind tunnel and \$267,000 for lengthening of the seaplane model testing tank and necessary equipment therefor. The decrease is offset in part by increases of \$80,000 for additional personnel required for operating the new facilities, \$21,000 for equipment for new structures, and \$2,300 for printing technical reports which will result in view of additional research facilities, leaving a net decrease of \$1,263,700.

### *National Archives*

The estimates for 1938 show an increase of \$137,000 over the amount appropriated for 1937. This increase is provided in order to permit employment of additional personnel and provide for other expenses incident to the operation of the additional stacks, the use of which will be necessary during the fiscal year 1938.

### *National Capital Park and Planning Commission*

The amount included in the estimates for the Commission for 1938 is \$293,700 more than the amount appropriated for the current year. This increase and the entire appropriation is incident to the needs of the Commission in its work in developing a well-rounded park, parkway, and playground system in the District of Columbia.

### *National Labor Relations Board*

The estimates for 1938 show an increase of \$50,000. The appropriation for the Board for the fiscal year 1937 was supplemented by emergency funds of \$38,429, thus making a total of \$773,429 available in 1937. The net increase which is, therefore, only \$11,571, will provide for an orderly expansion of the work of the Board.

### *National Mediation Board*

The estimates for 1938 provide for an apparent increase of \$11,265. The Appropriation Act for the fiscal year 1937, however, made available \$14,904 of the unexpended balance of the 1935 appropriation thus providing a total of \$389,404 for 1937. There is, therefore, a net decrease of \$3,639 in the funds available. An increase of \$3,800 for one statistician in the Mediation Board is offset by decreases of \$2,100 in expenses for referee fees and \$5,339 for contingent expenses in the National Railroad Adjustment Board.

### *Northwest Territory Celebration Commission*

This Commission, created by Public Resolution No. 41, Seventy-fourth Congress, approved August 2, 1935, is to provide for the observance and celebration of the one-hundred and fiftieth anniversary of the adoption of the Ordinance of 1787 and the settlement of the Northwest Territory. The act authorized \$100,000 and the full amount was appropriated.

*Protection of Interests of the United States in Matters Affecting Oil Lands in Former Naval Reserves*

The estimate of \$34,000 is the same as the amount appropriated for the fiscal year 1937. This appropriation is for continuing legal proceedings in the litigation concerning former naval reserves in the Mount Diablo section.

*Railroad Retirement Board*

The estimates for 1938 show an apparent decrease of \$45,320,000. Due to the delay, however, in the payment of annuities during the fiscal year 1937 there is sufficient balance in the appropriation for that year to care for all of the needs of the Board during the fiscal year 1938. Requirements for administrative expenses, including printing, have increased over 1937 by \$1,300,000 due to the cost of securing records on which annuity certifications are based and of clearing an increased number of annuity applications.

*Rural Electrification Administration*

The estimates for 1938 show an apparent increase of \$30,520,000 over the appropriations for the fiscal year 1937. The appropriation for administrative expenses of the Administration for the fiscal year 1937, however, was supplemented by emergency funds of \$202,440, making a total of \$1,202,440. The net increase, therefore, is only \$30,317,560. This increase includes \$317,560 for administrative and printing expenses, and a new item of appropriation in the amount of \$30,000,000 for loans for financing rural electrification projects as defined in the Rural Electrification Act of May 20, 1936. In 1937, funds for loans are advanced, as authorized in the act, by the Reconstruction Finance Corporation in an amount not to exceed \$50,000,000.

*Securities and Exchange Commission*

The estimates for 1938 indicate an apparent decrease of \$343,000. The appropriation act for the fiscal year 1937, however, reappropriated \$7,000 of the unexpended balances of the 1935 appropriation, making a total of \$4,245,000 available for the fiscal year 1937. The actual decrease is therefore \$350,000. This decrease results from a reduction of \$5,000 in contingent expenses and \$345,000 indicated saving in the fiscal year 1937 which it is believed can be continued in 1938 due to standardization of work and other savings that may be expected as a result of the experience gained by the Commission since the date it was established.

*Smithsonian Institution*

The estimates for 1938 exceed the appropriations for 1937 by \$24,750. This increase provides \$4,800 for four additional guards for the National Museum; nonrecurring items of \$2,200 for new fire hose and \$8,250 for new water-main connections necessary because of fire hazards in the National Museum, and \$9,500 for printing.

*Social Security Board*

The estimates for the Board for 1938 show an increase of \$71,800,000 over the appropriations for 1937. Increases totaling \$86,600,000 in the various grants due to the increased number of States coming within the purview of Social Security Act are as follows: Old-age assistance, \$65,000,000; aid to dependent children, \$19,600,000; and

aid to the blind, \$2,000,000. (These increases are exclusive of the consideration of the availability recommended for use of the unexpended balances of the 1937 appropriations for administration and for grants to States for unemployment compensation administration.) The decreases are \$12,400,000 for wage records, a nonrecurring item for 1937, and \$2,400,000 for general administrative and printing expenses. There is thus a net total increase of \$71,800,000. The decreases under general administrative expenses take into consideration a recommendation that the anticipated unexpended balance of the 1937 appropriation approximating \$8,377,202 be made available in the fiscal year 1938.

*Tariff Commission*

The estimates for 1938 show an apparent decrease of \$11,000. The appropriation act for the fiscal year 1937, however, reappropriated \$4,000 from the unexpended balances of the appropriation for the Commission for the fiscal year 1935, making a total availability therefor of \$960,000 for the fiscal year 1937. The actual decrease is accordingly \$15,000. Of this amount \$10,000 represents a decrease in salary expenses. There is a further net decrease of \$5,000 in printing expenses.

*Tennessee Valley Authority*

An Annexed Budget has been set up for the Tennessee Valley Authority as in 1937, with the appropriation requirements as they affect the general revenues of the Treasury brought into Statement No. 2. The net expenditures are carried to the General Budget Summary and supporting schedules. The appropriation requirements for the fiscal year 1938 amount to \$43,000,000, and supplemental thereto is authority for the Authority to incur contractual obligations in an amount not to exceed \$5,500,000 for equipment to be installed in dams and power-houses, the details of which will be found under the caption "General Public Works Program."

*Thomas Jefferson Memorial Commission*

This Commission, created by Public Resolution No. 49, Seventy-third Congress, approved June 26, 1934, is authorized to consider and formulate plans for the construction of a permanent memorial to the memory of Thomas Jefferson in the city of Washington. For the fiscal year 1937 \$15,000 was appropriated to meet expenses of the Commission, in carrying out its duties as described in the above-mentioned public resolution.

*United States Constitution Sesquicentennial Commission*

Under authority of a joint resolution approved August 23, 1935 (49 Stat. 735), there was authorized to be created a Commission to plan for the celebration of the one-hundred and fiftieth anniversary of the drafting of the Constitution of the United States. In accordance with the terms of a joint resolution approved June 1, 1936 (49 Stat. 1392), \$200,000 was subsequently appropriated to enable the Commission to make effective such plans when received by it.

*United States Harvard University Tercentenary Commission*

This Commission was created by Public Resolution No. 88, Seventy-fourth Congress, approved May 7, 1936, to provide for the representation of the Government and people of the United States in the observance of the

three-hundredth anniversary of the founding of Harvard College and the beginning of higher education in the United States. The act authorized \$10,000, of which \$1,500 was appropriated.

#### *United States Maritime Commission*

The Merchant Marine Act of 1936, approved June 29, 1936, created the United States Maritime Commission as the agency of the Government for the purpose of further developing and maintaining an adequate and well-balanced American merchant marine, to promote the commerce of the United States, to aid in the national defense, to repeal certain former legislation, and for other purposes. Since the Commission estimates that sufficient funds will be available on June 30, 1937, for 1938 operations, no estimate is transmitted for 1938. During 1937, the Commission will have funds by transfer from the Shipping Board Bureau, the Merchant Fleet Corporation, and the Post Office Department. During both 1937 and 1938, it will also have available sums which it collects from the repayment of loans and interest and from the sale of assets.

#### *Veterans' Administration*

It is estimated that for 1938 the various activities of the Veterans' Administration can be conducted with a net decrease in appropriations of about \$2,300,000 below the sum appropriated for 1937.

The amount required for pensions and benefits in 1938 will be some \$21,000,000 less than was appropriated for 1937. Offsetting this decrease is an increase of \$7,500,000 for administrative expenses, \$7,000,000 of which is due to the fact that last year Congress reappropriated that balance carried over from 1935 which reduced the regular annual appropriation for 1937 to \$86,500,000.

For military and naval insurance there is an increase of \$8,632,000. This item is actually decreasing annually, but this year's annual decrease is obscured by the fact that Congress has reduced the appropriation for 1937 under this head by \$21,000,000, and reappropriated that same amount from unappropriated balances occurring in the fiscal years 1935 and 1936.

The increase of \$943,000 for adjusted service and dependent pay is necessary because of the large number of applications received following the wide publicity given to the payment of the bonus last June.

Under trust accounts there is an increase of \$1,821,935 in the United States Government life-insurance fund and an increase of \$240,000 in personal funds of patients, less a decrease in the general post fund of \$489,671.

#### GOVERNMENT CREDIT CORPORATIONS AND CREDIT ADMINISTRATIONS

The First Deficiency Appropriation Act, 1936, required that in pursuance of section 7 thereof there should be submitted for certain independent offices information for inclusion in the Budget. The governmental credit corporations and credit agencies mentioned below, with the single exception of the Farm Credit Administration, are those affected by the provisions of the act above referred to.

#### *Commodity Credit Corporation*

Section 7 of the act of January 31, 1935 (Public, No. 1, 74th Cong.), provided that the Commodity Credit Corporation would be continued until April 1, 1937, or such earlier date as may be fixed by the President by Executive

order. The \$379,570 shown for 1937 is only sufficient to permit operations until the date of expiration.

#### *Electric Home and Farm Authority*

The act of March 31, 1936 (Public, No. 484, 74th Cong.), continued the Electric Home and Farm Authority as an agency of the United States until February 1, 1937. The \$125,000 shown for 1937 provides funds for active operations until that date only.

#### *Export-Import Bank of Washington*

Under the provisions of section 9 of the act of January 31, 1935 (Public, No. 1, 74th Cong.), this agency will expire on June 16, 1937. Therefore no estimate is transmitted for the fiscal year 1938.

#### *Farm Credit Administration*

The estimate of \$4,000,000 for the Farm Credit Administration for salaries and expenses for the fiscal year 1938 is the net amount to be appropriated and is the same as the appropriation for 1937. The gross amount which will be available in 1938 is \$8,959,736 in comparison with \$10,644,467 in 1937. The decrease in the total requirements for 1938, amounting to \$1,684,731, is due primarily to the fact that funds available for 1937 included administrative expenses incidental to the making of loans to farmers for crop production and harvesting. Since no authority exists for making loans of this character during the fiscal year 1938 administrative expenses will be decreased accordingly.

It is estimated that \$37,505 will be expended in 1938 for supervision of Federal credit unions from fees collected from such unions under the provisions of the act of June 26, 1934. The corresponding figure for 1937 was \$65,280.

#### *Federal Emergency Administration of Public Works*

The estimate of \$10,000,000 for 1938 is \$16,000,000 less than the amount provided for 1937. The amount allowed provides for a liquidation program starting July 1, 1937.

#### *Federal Farm Mortgage Corporation*

The estimate of \$18,000,000 for the Federal Farm Mortgage Corporation for the fiscal year 1938 represents an increase of \$1,240,000 over the estimate for 1937. The increase is due to the larger volume of loans to be serviced and upon which collections will be made, and to the supervision, maintenance, and disposal of farm properties which are acquired by the Corporation under mortgage foreclosures.

#### *Federal Home Loan Bank Board*

The estimate for 1938 covers the expenses of the Board to be paid from the appropriation of receipts derived from assessments on Federal home loan banks and from other sources. The estimated administrative expenses for 1938 are \$22,019 less than the amount provided in 1937. It is anticipated, however, that a substantial amount of the allowance for 1937 will not be obligated. In addition, no provision is made in 1938 for promotional activities to provide for the establishment of new Federal saving and loan associations, the conversion of State institutions, or for other similar activities. There is a substantial provision for increase in the examining force in 1938 required because of the increased number of member institutions and of more frequent examination.

*Federal Housing Administration*

The estimate of \$8,500,000 for administrative expenses for this Administration in 1938 represents a decrease of \$2,540,000 below the amount allowed for 1937. The decrease is due to the expiration of title 1, insurance of modernization loans, on April 1, 1937, the reduction in expenditures for educational purposes, and standardization of work in connection with the insuring of mortgage loans.

*Federal Savings and Loan Insurance Corporation*

The estimate for 1938 is \$19,180 in excess of the allowance for 1937. It is anticipated, however, that approximately \$75,000 of the amount provided for 1937 will not be obligated. Accordingly, on an expenditure basis the increase for 1938 will be in the vicinity of \$94,180, due to an increase in the number of insured institutions and because of closer supervision.

*Federal Surplus Commodities Corporation*

Under the provisions of section 7 of the act of June 22, 1936 (Public, No. 739, 74th Cong.), the authority for this Corporation to operate expires on June 30, 1937. Accordingly, no estimate is transmitted for 1938.

*Home Owners' Loan Corporation*

During the last 6 months of the fiscal year 1936 the expenditures of the Corporation were reduced substantially due to the decrease in the number of loans being closed. The loaning authority expired on June 12, 1936, and thereafter the Corporation was in a period of transition, its activity changing from that of making loans to servicing of loans and making collections thereon. These new operations are now well under way and will probably reach a peak in 1938. In order to provide for this new program, the 1938 estimate is \$32,000,000, or \$3,000,000 in excess of 1937.

*Reconstruction Finance Corporation*

Section 1 of the act of January 31, 1935 (Public, No. 1, 74th Cong.), provided for the extension of the loaning authority of this Corporation to February 1, 1937, or such earlier date as the President may fix by proclamation. The estimate of \$9,500,000 for the Corporation in 1938 is \$2,445,308 less than that for 1937. The estimate provides for a program of liquidation. See Annexed Budget for details of 1938 operations.

*RFC Mortgage Company*

No estimate is submitted for this agency as all of its expenses are paid by the Reconstruction Finance Corporation.

*Second Export-Import Bank of Washington, D. C.*

In accordance with authority contained in section 9 of the act of January 31, 1935 (Public, No. 1, 74th Cong.), this agency was dissolved by the President, effective June 30, 1936. This action was taken by Executive Order No. 7365, dated May 7, 1936.

## GENERAL PUBLIC WORKS PROGRAM

An important item in the Budget for the fiscal year 1938, as it was also in the fiscal year 1937, is the General Public Works Program in which provision is made for the public-

works requirements of the Government, such as Federal highways, river and harbor improvement, and flood-control projects. The estimates of appropriations for 1938 provide a total of \$465,466,314 as detailed below, in comparison with \$385,537,900 appropriated for the fiscal year 1937. This represents an increase of \$79,928,414 over the preceding appropriations. The estimates for 1938 are itemized as follows:

*Tennessee Valley Authority*

For the construction program of the Tennessee Valley Authority during 1938, \$43,000,000 is provided, an increase of \$3,100,000 over the appropriation for 1937. In addition, however, to the appropriation of \$39,900,000 in 1937, there is also available for expenditure during that year \$8,790,702 from unexpended balances from former years, whereas there will be no unobligated balance at the close of the fiscal year 1937 available for expenditure in 1938. This will thus be a total availability of \$48,690,702 for the fiscal year 1937 as compared with \$43,000,000 for the fiscal year 1938, or \$5,690,702 less for 1938 than for 1937. Supplemental to the 1938 appropriation requirements, however, is authority to incur contractual obligations in an amount not to exceed \$5,500,000 for equipment to be installed in dams and power-houses.

*Department of Agriculture*

For the Department of Agriculture there are submitted estimates of \$150,000,000 for the Federal-aid highway system; \$5,000,000 for Federal-aid secondary or feeder roads (including farm-to-market roads, rural-free-delivery mail roads, and public-school bus routes); \$10,000,000 for Federal aid in the elimination of hazards to life at railroad grade crossings; \$2,500,000 for the survey, construction, reconstruction, and maintenance of main roads through unappropriated or unreserved public lands, nontaxable Indian lands, or other Federal reservations other than forest reservations; and \$14,000,000 for the construction and maintenance of roads and trails in the national forests; a total of \$181,500,000. This is an increase of \$113,500,000 over the total for 1937, consisting of \$90,000,000 for the Federal-aid highway system, \$6,000,000 for forest roads and trails, \$5,000,000 for Federal-aid secondary or feeder roads, \$10,000,000 for Federal-aid elimination of grade crossings, and \$2,500,000 for public lands roads.

The 1938 estimates for Federal-aid secondary or feeder roads and for Federal aid in the elimination of hazards to life at railroad grade crossings are the first estimates to be submitted in the Budget for these purposes, being authorized by the act of June 16, 1936. Federal funds for these purposes have heretofore been provided by allotments from emergency appropriations for relief and work relief. The decreased availability of emergency appropriation funds in 1938 for construction work on the Federal-aid highway system accounts for the substantial increase in the appropriation required for that purpose.

*Department of Commerce*

For the Department of Commerce the estimates for 1938 for public-works construction are \$1,296,250, representing an increase of \$949,250 over the 1937 appropriation. Unexpended balances of prior year appropriations, however, increase the total amount available for obligation in 1937 or subsequent years to \$2,280,000. The estimate for 1938 contemplates the replacement of a 44-year-old lightship and 39-year-old tender, the reconditioning of other vessels, and the establishment of aids to marine navigation.

*Interior Department*

The estimates for 1938 for public works under the Department of the Interior amount to \$51,966,000 as compared with appropriations for 1937 of \$65,640,900, or a reduction of \$13,674,900 below the current fiscal year. The amount required by the Bureau of Reclamation to provide for the continuation of construction and for administrative expenses, to be expended from the reclamation fund, is \$9,665,000, divided as follows: Gila project, Arizona, \$1,250,000; Salt River project, Arizona, \$500,000; Pine River project, Colorado, \$500,000; Boise project, Idaho, Payette division, \$1,000,000; Sun River project, Montana, \$300,000; Carlsbad project, New Mexico, \$200,000; Owyhee project, Oregon, \$500,000; Klamath project, Oregon, \$125,000; Belle Fourche project, South Dakota, \$130,000; Ogden River project, Utah, \$250,000; Provo River project, Utah, \$750,000; Yakima project, Washington, Roza division, \$1,500,000; Casper-Alcova project, Wyoming, \$750,000; Riverton project, Wyoming, \$200,000; Shoshone project, Wyoming, Heart Mountain division, \$700,000, Willwood division, \$10,000; Colorado River Basin investigations, \$250,000; administrative expenses, \$750,000. For continuation of construction of projects to be expended from the general fund of the Treasury there is included \$23,000,000, divided as follows: Central Valley project, California, \$15,000,000; Grand Coulee Dam, Washington, \$7,500,000; administrative expenses, \$750,000. For the continuation of the construction of the Boulder Canyon Dam and incidental works, there is included \$1,000,000; and for the continuation of the construction of the All-American Canal there is also included \$1,000,000, making a total for the Bureau of Reclamation of \$34,665,000, as compared with 1937 appropriations of \$54,610,000. The estimates of the National Park Service for public-works construction in 1938 include \$5,000,000 for construction of roads and trails in national parks and monuments under the authority of section 4 of the act of June 16, 1936, and \$5,000,000 for continuing the construction and maintenance of the Blue Ridge Parkway, established by the act of June 30, 1936, under the authority of section 5 of the act of June 16, 1936. For the Bureau of Indian Affairs, there is included \$6,995,000, of which \$2,090,000 is for the construction, repair, and rehabilitation of irrigation systems on Indian reservations, \$3,000,000 is for the construction of roads on Indian reservations under the authority of section 6 of the act of June 16, 1936, and \$1,905,000 is for the construction, repair, and rehabilitation of buildings and utilities of the Indian Service.

*Department of Justice*

The estimate of \$350,000 for construction work under the Department of Justice is for buildings and equipment at penal and correctional institutions, and includes \$250,000 for extension to existing facilities for the United States penitentiaries at Leavenworth, Kans., Atlanta, Ga., and Lewisburg, Pa., United States Industrial Reformatory at Chillicothe, Ohio, United States Southwestern Reformatory at El Reno, Okla., United States Hospital for Defective Delinquents at Springfield, Mo., Federal Industrial Institution for Women at Alderson, W. Va., Federal Reformatory Camp at Petersburg, Va., and Federal jails at La Tuna, Tex., and Milan, Mich., and \$100,000 for the construction of dwellings for prison officers at Alderson, Petersburg, La Tuna, and Milan. These 1938 estimates are in contrast to a 1937 appropriation of \$2,550,000 made for buildings and equipment at

penal and correctional institutions, including the establishment of three new Federal jails (not to exceed \$1,700,000), construction of dwellings for prison officers at existing institutions (not to exceed \$300,000), with the remainder for altering and adapting other Government property for prison purposes, and extensions to existing facilities.

*Department of State*

The estimate of \$3,900,000 for construction work under the Department of State is for the International Boundary Commission, United States and Mexico, of which \$900,000 is for the rectification of the Rio Grande in the El Paso-Juarez Valley under the convention concluded February 1, 1933, between the United States and Mexico; \$1,500,000 for construction, including surveys and other preliminary expenses, of the United States portion of the project for flood control on the lower Rio Grande, as authorized by the act approved August 19, 1935, as amended by the act of May 22, 1936; and \$1,500,000 for beginning construction of the Rio Grande canalization project as authorized by the acts approved August 29, 1935, and June 4, 1936, including not to exceed \$400,000 for completion of the construction of a diversion dam in the Rio Grande wholly in the United States with appurtenant connections to existing irrigation systems. These 1938 estimates closely approximate the 1937 appropriation of \$3,800,000 made for construction by the International Boundary Commission, United States and Mexico, consisting of \$1,200,000 for rectification of the Rio Grande in the El Paso-Juarez Valley, \$1,600,000 for the lower Rio Grande flood-control project, and \$1,000,000 for beginning construction of the diversion dam.

*Treasury Department*

The estimates for 1938 for public works under the Treasury Department amount to \$40,131,963, as compared with appropriations for 1937 of \$65,550,000. For the construction of public buildings outside the District of Columbia to be selected by the Secretary of the Treasury and Postmaster General, acting jointly, from public building projects specified in Statement No. 1 contained in House Report No. 1879, Seventy-third Congress, second session, as revised, and Statement No. 2 attached thereto, the sum of \$23,000,000 is requested.

For public buildings in the District of Columbia there is included \$7,025,000, of which amount \$1,500,000 is for continuation of construction of annex buildings for the Government Printing Office, \$2,325,000 is for completion of construction of the additional building for the Bureau of Engraving and Printing, \$3,000,000 is for a site and construction of a new building for the War Department under a limit of cost of \$26,000,000, and \$200,000 is for the acquisition of premises designated as 1724 F Street N.W., which are now leased to the Government.

There is also included an item of \$10,106,963 for the purchase of the Grand Central Station Post Office and office building, New York City, in accordance with the provisions of the act, approved July 12, 1932.

*War Department*

For the War Department there is included a total estimate of \$143,322,101, consisting of estimates of \$90,822,101 for the prosecution of such projects of improvement on rivers and harbors heretofore authorized by Congress as may be most desirable in the interests of commerce and navigation; \$30,000,000 for initiating work of flood control on various rivers and waterways under the

provisions of the Omnibus Flood Control Act of June 22, 1936, including \$500,000 for the making of preliminary examinations and surveys of flood-control projects by the War Department and \$500,000 for expenditure by the Department of Agriculture for preliminary examinations and surveys for run-off and water-flow retardation and soil erosion prevention on the watersheds of flood-control projects; and \$22,500,000 for continuing the work of flood control on the Mississippi River and tributaries under the provisions of the Flood Control Act of May 15, 1928, as amended by the act of June 15, 1936. The total net increase for 1938 over 1937 amounts to \$7,572,101, consisting of a decrease of \$29,927,899 for the improvement of rivers and harbors, and increases of \$30,000,000 for flood control under the Omnibus Flood Control Act and \$7,500,000 for flood control on the Mississippi River and its tributaries.

## DEPARTMENT OF AGRICULTURE

The estimates of appropriations for the Department of Agriculture for the fiscal year 1938 involve apparently a net increase of only \$15,165,555.96 over the appropriations for the fiscal year 1937. In addition to such funds, there was made available by Congress for 1937 \$54,364,000 of unobligated balances of prior year appropriations, and for 1938 the Budget estimates contemplate the provision of funds of this character to the extent of \$75,864,000. Adding these figures to the facial appropriations made for 1937 and those estimated for 1938 gives a total availability of \$713,711,399.04 for 1937 and \$750,376,955 for 1938, an increase for 1938 of \$36,665,555.96. The principal items of increase and decrease which constitute these differences are summarized as follows:

For the Office of Experiment Stations, the sum of \$622,500 is provided for statutory increases in payments for Federal aid to the States, Hawaii, Alaska, and Puerto Rico. For the special research fund established under the authorization contained in title I of the Bankhead-Jones Act of June 29, 1935, providing for special research in basic laws and principles relating to agriculture, and for the establishment and maintenance of research laboratories in major agricultural regions, a statutory increase of \$400,000 is provided.

For the activities of the Extension Service, which unit administers the Smith-Lever, Capper-Ketcham, Bankhead-Jones, and other acts providing payments to States, Hawaii, and Alaska for cooperative agricultural extension work, a net increase of \$369,000 is included. Increases consist principally of a statutory provision of \$1,000,000 for payments to States under the Bankhead-Jones Act, and a statutory provision of \$5,000 for payment to Alaska, which increases are offset in part by a total decrease of \$645,000 in two other appropriations made annually for the same purpose.

The estimates for the Weather Bureau provide a total increase of \$387,861, the principal components of which are \$25,000 for the purchase of an offset lithographic press; \$67,280 for strengthening the service and research activities; and \$148,861 for improvement of the Federal airway meteorological service. In addition, the sum of \$140,000 has been added to the appropriations of that Bureau by transfer from the Department of Commerce for communication costs of airway weather reports from stations off the commercial airways or not now equipped with radio and teletype facilities.

Under the Bureau of Animal Industry, a net increase of \$299,135 is provided, consisting principally of \$19,877 for increased maintenance and operation costs at the

agricultural research center at Beltsville, Md.; \$103,000 for the payment of indemnities for cattle slaughtered because of tuberculosis; \$6,000 to meet demands for additional inspection and quarantine work at western market centers; and \$174,806 for additional Federal meat inspection service.

For the Bureau of Plant Industry a reduction of \$40,578 for dry-land agriculture is estimated, and increases of \$138,614 for various activities in connection with plant research and related problems.

The estimates of annual appropriations for the Forest Service, dealing, among other things, with the administration of the national forests and the application of forestry on both public and privately owned lands, indicate a net increase of \$1,756,177 over the amount appropriated for 1937. This increase embraces items of \$42,268 for general administration; \$700,000 for protection and administration of the national forests; \$39,909 for forest management investigations; \$44,000 for range investigations; \$20,000 for investigations at the forest products laboratory, Madison, Wis.; \$20,000 for forest survey work; \$30,000 for forest economics investigations; and \$1,000,000 for cooperative acquisition of lands for State forests under the Fulmer Act of August 29, 1935. There is a net reduction of \$140,000 in the item for forest influences, made up of a decrease of \$170,000 due to liquidation of the so-called shelterbelt project of trees and shrubs in the Plains region, offset in part by an increase of \$30,000 for investigations relative to watershed management.

For the Bureau of Chemistry and Soils a total increase of \$61,916 is provided for 1938, of which \$49,757 is for investigations of the industrial utilization of farm products and byproducts; \$10,000 for investigations respecting agricultural fires and explosive dusts; and \$2,159 for naval stores investigations.

The net increase of \$12,845 in the estimates for the Bureau of Entomology and Plant Quarantine contemplates a total increase of \$722,845 over current appropriations for various activities dealing with investigations on insects and their economic relations, the development and application of methods of control and eradication of insect pests, and the utilization of certain species of insects as parasites. This increase is largely offset by a total reduction of \$710,000 made possible by the elimination of two nonrecurring items of \$460,000 and \$250,000.

For the Bureau of Biological Survey there is a net increase of \$144,116, consisting of a total increase of \$174,228 for administration, for research into the habits of birds and animals, for protection of migratory birds, and for the maintenance of mammal and bird reservations, and a total decrease of \$30,112 in two items of appropriation.

No figures are included in the estimates of the Department of Agriculture for the Bureau of Public Roads. There is, however, included elsewhere in the Budget under the heading "General Public Works Program" a total estimate of appropriations of \$181,500,000 to the Department of Agriculture for the construction of Federal-aid highways, secondary or feeder roads, public lands highways, and forest roads and trails, and for the elimination of grade crossings, compared with total appropriations of \$68,000,000 for 1937 for construction of Federal-aid highways and forest roads and trails, or an increase for 1938 of \$113,500,000.

For the Bureau of Agricultural Economics a total increase of \$188,954 over 1937 appropriations is provided. This covers a number of projects relating largely to studies of the economics of production and marketing, farm

organization, farm financial problems, rural life, and the acquisition and dissemination of current information regarding the marketing and distribution of farm products.

For the Commodity Exchange Administration (formerly Grain Futures Administration), an increase of \$393,500 is included to provide for the first full year of operation in carrying out the purposes of the Commodity Exchange Act of June 15, 1936, which expanded the scope of the Grain Futures Act of September 21, 1922.

The estimates for the Food and Drug Administration include an increase of \$200,000 to enable that Administration to provide more rigid enforcement of the Federal food and drugs law.

For the Soil Conservation Service there is estimated a net increase of \$130,735, made up of increases totaling \$759,220 for general administration and for soil and moisture conservation investigations; and a decrease of \$628,485 in the funds available for soil and moisture conservation operations, demonstrations, and information, made possible by reason of changes in the programs for the fiscal years 1937 and 1938.

The Soil Conservation and Domestic Allotment Act of February 29, 1936, provides for carrying forward an agricultural land conservation program designed to replace the agricultural adjustment program which was invalidated by the decision of the Supreme Court of January 6, 1936. For 1937, for this purpose, a direct appropriation of \$440,000,000 was made, plus an authorization for the use of \$30,000,000 of the funds made available under the head "Payments for agricultural adjustment" in the Supplemental Appropriation Act, fiscal year 1936, or a total availability of \$470,000,000. For the fiscal year 1938, the Budget provides for the same amount by direct appropriation, \$440,000,000, but also makes provision for an additional \$60,000,000 from other sources. The total amount to be available for 1938, therefore, is \$500,000,000, representing an increase over funds provided for 1937 of \$30,000,000. Due to the fact that the programs to be carried on under the Soil Conservation and Domestic Allotment Act in the fiscal year 1938 will be in full force and effect during that year, whereas for the fiscal year 1937 these programs will not reach the point of full operation, it has been necessary to make provision to the extent of an additional \$30,000,000 for the operation of the agricultural conservation program to the full extent authorized by law.

For the elimination of diseased dairy and beef cattle, and for experimentation in livestock diseases, the Budget for 1938 continues the policy established by Congress for 1937 of providing for these activities by the reappropriation of unobligated balances of prior year appropriations for this same purpose. For the fiscal year 1937, the Department of Agriculture Appropriation Act made \$24,364,000 available by this method, which included \$7,500,000 for the removal of surplus dairy products. For 1938, the use of the sum of \$15,864,000 of unobligated balances is recommended, which excludes \$7,500,000 for the removal of surplus dairy products, to be financed in 1938 from funds available under section 32 of the Agricultural Adjustment Act, as amended.

Under the classification of "permanent appropriations" (not requiring annual consideration by Congress), a total increase of \$11,008,871.96 is included in the Budget for 1938. Of this amount, \$10,860,378.96 represents the difference between the amount of \$109,139,621.04 for 1937 and the amount of \$120,000,000 for 1938, made available by section 32 of the Agricultural Adjustment Act, as amended, which provides permanent indefinite annual

appropriations equal to 30 percent of the gross annual receipts from customs duties collected under the customs laws, to be used by the Secretary of Agriculture to encourage exportation and domestic consumption of agricultural commodities. The balance of the increase, amounting to \$148,493, consists principally of statutory payments to States from receipts derived from national forests located within the respective States.

For the trust account item, "Cooperative work, Forest Service", the reduction of \$1,000,000 for 1938 is due to the difference between the contributions for 1937 and those estimated for 1938.

#### DEPARTMENT OF COMMERCE

Estimates for the Department of Commerce for 1938 contemplate a net increase of nearly \$4,000,000 over the appropriations for 1937. This figure is exclusive of \$1,296,250 for construction included in the General Public Works Program discussed elsewhere in the Budget. The net increases for the bureaus of the Department in the order of their amount are \$2,610,000 for the Bureau of Air Commerce, \$630,640 for the Bureau of Marine Inspection and Navigation, \$389,200 for the National Bureau of Standards, \$300,000 for the Bureau of Foreign and Domestic Commerce, \$181,300 for the Coast and Geodetic Survey, \$107,500 for the Bureau of the Census, \$92,560 for the Bureau of Fisheries, and \$50,400 for the Office of the Secretary. Net decreases of \$45,000 for the Patent Office and \$76,440 for the Bureau of Lighthouses are provided. Other decreases are \$249,000 incidental to the transfer of the Shipping Board Bureau to the United States Maritime Commission and a reduction of \$1,950 in trust account needs for 1938.

For 1937 a nonrecurring item of \$35,000 for the General Committee of the Accident Prevention Conference was provided. Taking this into consideration, there is provided for the office of the Secretary of Commerce for 1938 a gross increase of \$85,400, the principal item in which is \$57,000 for printing and binding.

In the 1937 appropriations aviation weather reporting and air mapping were among the functions of the Bureau of Air Commerce. It is now provided that those activities shall be assumed by the Department of Agriculture and the Coast and Geodetic Survey of this Department. In addition, the salaries of two Bureau of Air Commerce employees are for 1938 charged to the Office of the Secretary of Commerce instead of to the Bureau of Air Commerce. Taking these adjustments into consideration there is a gross increase in the estimates for the Bureau of Air Commerce amounting to \$2,831,220, the principal items in which are \$33,120 for additional departmental personnel incident to the expanded field program contemplated for the coming year; \$2,150,780 for the first year of a 3-year program to modernize completely the existing airway aids and to establish additional aids; \$386,520 to maintain and operate such air navigation aids; and \$260,800 for inspection, licensing, and regulatory work including provision for the completion of 6 and the installation of 11 air traffic control stations at congested air terminals.

For the Bureau of Foreign and Domestic Commerce a new item of appropriation in the sum of \$300,000 is included to enable the Bureau to ascertain current business facts and obtain statistics relating to industrial economics, to analyze these data and business structures, and to study problems of production, distribution, and competition.

For the Bureau of the Census a net increase of \$107,500 is estimated, which, together with \$220,000 of nonrecurring items, is equivalent to a gross increase of \$327,500, which will be used for compiling the quinquennial census of electrical industries, vital statistics, financial statistics of cities and States, and for beginning the calendar year 1937 biennial census of manufacturers; for furnishing evidence of age of beneficiaries under the Social Security Act which cannot otherwise be obtained; and \$50,000 for work preparatory to taking the 1940 census.

For the administration of five acts enacted during the closing days of the Seventy-fourth Congress (Public, Nos. 238, 622, 720, 765, and 808) the estimates for the Bureau of Marine Inspection and Navigation carry increases of \$630,640. This is made up of three items as follows: \$4,940 incident to the reallocation of positions in the departmental services by the Civil Service Commission; \$118,540 for new employees in the District of Columbia, and \$512,100 for additional salaries and additional employees in the field service.

For the National Bureau of Standards an increase of \$389,200 is estimated. Of this, \$300,000 represents a new item, the first year's expenses of a 2-year investigation of the properties and suitability of certain building materials with particular reference to their use in low-cost housing; the other item, \$89,200, represents salary increases based upon reallocations in grade made by the Civil Service Commission.

Under the appropriations for the Bureau of Lighthouses for the fiscal year 1937 there was a nonrecurring item of \$399,000 due to storm and ice damage repairs and the establishment of a buoy at the mouth of the Cape Fear River. Since the 1938 estimates show a net decrease of \$76,440, the gross increase is therefore \$322,560, the details of which are as follows: \$172,000 for general expenses of the service incident to the higher cost of supplies, materials, and subsistence of vessel personnel, the operation of additional aids to navigation, and for urgent repairs, \$10,000 for salaries of seven additional keepers at isolated lighthouse stations, \$76,660 additional for salaries of vessel employees, and \$34,000 additional for retired pay.

An increase of \$181,300 in the estimates for the Coast and Geodetic Survey includes a new item of \$100,000 for airway mapping heretofore paid for from Bureau of Air Commerce appropriations, \$33,000 for temporary vessel employees necessary to comply with new leave laws and to increase the number of skeletonized crews of vessels during lay-up periods in order that minor repairs may be effected and the vessels properly cared for, \$23,500 for longevity pay and allowances of commissioned officers, \$16,000 for hydrographic work, and \$8,800 for miscellaneous purposes.

Nonrecurring 1937 items of \$25,000 for shellfish investigation and \$2,000 for a small laboratory building at Seattle reduce the gross increase of \$119,560 in the estimates for the Bureau of Fisheries to a net increase of \$92,560. The major items of increase are \$44,400 for "Inquiry respecting food fishes" for Pacific pilchard, oyster-cultural, and stream-pollution investigations, and for stream management in national forest regions, \$25,140 for "Fishery industries", \$27,000 for the operation of new cultural stations and increasing the output at the Woods Hole and Gloucester, Mass., stations, \$5,000 to administer part of section 5 of the Whaling Treaty Act of May 1, 1936, and \$18,020 for miscellaneous purposes.

The net decrease of \$45,000 in the estimates for the Patent Office involves a decrease of \$50,000 for printing

and an increase of \$5,000 for books and periodicals for the scientific library.

## DEPARTMENT OF THE INTERIOR

A comparison of the estimates for the Department of the Interior for 1938 with the appropriations for the fiscal year 1937, exclusive of items treated elsewhere in the Budget under the General Public Works Program, shows a net increase of \$1,561,143.39. The principal items of increase and decrease follow:

For the Office of the Secretary there is a total increase of \$286,920, the principal items of which are \$53,540 for the Office of the Secretary, \$44,400 for the Division of Investigations, \$150,000 for the Division of Grazing, and \$24,000 for printing and binding.

No estimate is included for the Petroleum Administration because the legal existence of the Administration terminates before the end of the present fiscal year, for which \$300,000 was appropriated.

In view of the adverse decision of the Supreme Court on all but two sections of the Bituminous Coal Conservation Act of 1935, and because the work of the Commission under those two sections will be completed during the current fiscal year, no new provision has been made for the Bituminous Coal Commission or the Consumers' Counsel, for which \$990,000 was appropriated.

For the General Land Office there is a net decrease of \$59,500 which is occasioned chiefly by decreases of \$50,000 for surveying the public lands and \$15,000 for maps of the United States, which is a nonrecurring item, and an increase of \$13,000 for payment of proceeds of sales of Coos Bay (Oregon) Wagon Road grant lands and timber.

A net increase of \$2,356,070 for the Bureau of Indian Affairs results from total increases of \$3,098,028 and total decreases of \$741,957. The principal items of increase are \$161,400 for payment to confederated bands of Utes, \$40,000 for increased protection of Indian forests, \$63,880 for developing agriculture and stock raising among Indians, \$225,000 for encouraging industry among Indians, \$540,000 for the revolving fund for loans to Indian corporations, \$96,334 for development of water supplies and irrigation of land on Indian reservations, \$693,150 for educating Indian children, \$548,330 for the conservation of the health of Indians, and \$333,970 for the general support of Indians and the administration of their property. The principal decreases are due to nonrecurring items of \$81,540 for payment to Sioux Indians for nonreceipt of land allotments, \$223,162 for compensation to Chippewa Indians for land, and \$42,306 for compensation to non-Indian claimants on Pueblo lands. Other important decreases are \$74,200 for Indian agency buildings and \$40,000 for payment of benefits to Indians on Sioux reservations.

For the Bureau of Reclamation there is an increase of \$63,000, of which \$38,000 is for expenditure from the reclamation fund to cover the increased cost of operating existing irrigation distribution systems and \$25,000 is from the general fund of the Treasury for the Colorado River front work and levee system. The other items of the Bureau of Reclamation will be found under the heading of General Public Works Program.

For the Bureau of Mines a net increase of \$133,970 is accounted for by increases of \$3,380 for the Washington office, \$28,135 for operating mine rescue cars and stations and investigation of accidents, \$40,000 for testing fuel, in conformity with a recent act of Congress, \$20,000 for mineral mining investigations, \$50,000 for mining experiment stations and \$2,821 for gas production of helium

plants, and decreases of \$12,866 for oil and gas investigations and \$2,500 for economics of mineral industries.

A net increase of \$1,354,100 is provided for the National Park Service, the largest item in which is \$1,094,100. Of that amount, \$500,000 is estimated as necessary for major physical improvements and repairs to Government-owned buildings in the District of Columbia and \$594,100 for the cost of maintenance and operation and rent of Government buildings there located.

There is a net increase of \$428,060 estimated for the Office of Education which is occasioned by increases of \$524,000 and decreases of \$95,940. The principal item of increase is \$500,000 for colleges for agriculture and mechanic arts as authorized by law, while the principal decrease is \$91,000 for vocational education of persons disabled in industry. The reason for this decrease is the failure of certain States to take up the full amount of their allotment of funds heretofore authorized.

For the government of each of the Territories decreases are estimated for 1938 due principally to the fact that the Alaska and Hawaii Legislatures will not be in session during that fiscal year, and because of increased municipal revenues in the Virgin Islands which permit a reduction to be made in the amount necessary to be appropriated for the operating expenses of the municipalities.

The 1938 estimates of permanent appropriations show increases of \$100,000 for payment to States of grazing fees as authorized by law, \$118,000 for payments to States from receipts under the Mineral Leasing Act, and \$100,000 from operating revenues for cost of operation of the Alaska Railroad.

There is a net decrease of \$1,955,500 in trust accounts, which is occasioned by estimated decreases in expenditures of \$500 for the Mount Rushmore National Memorial Commission, and \$2,490,000 for the National Park Service, both of which are nonrecurring items of contributed funds, and by estimated increases of \$500,000 of contributed funds for the construction of Parker Dam, and \$35,000 for personal funds and pension money of patients in St. Elizabeths Hospital.

#### DEPARTMENT OF JUSTICE

The estimates of appropriations for the Department of Justice for 1938 amount to \$40,913,689, which is an increase of \$1,159,756 over the appropriations for 1937 exclusive of \$2,550,000 for buildings and equipment, penal and correctional institutions, a part of the General Public Works Program for that year. The increase of \$1,159,756 includes \$17,220 for office of the Attorney General, \$670,749 for the courts, \$419,595 for penal and correctional institutions, and \$52,192 for trust accounts.

The increase of \$17,220 in the estimates for office of the Attorney General is a net increase composed of increases of \$153,420 for salaries, \$13,100 for contingent expenses, \$29,000 for printing and binding, \$40,000 for the enforcement of antitrust and kindred laws, \$15,000 for the examination of judicial offices, and \$26,700 for the Bureau of Prisons, and decreases of \$100,000 for the Federal Bureau of Investigation due to a nonrecurring item, \$50,000 for veterans' insurance litigation, and a nonrecurring item of \$110,000 in connection with case of Northern Pacific Railway Co. et al.

The estimates for 1938 for the courts show a net increase of \$670,749 over the appropriations for 1937. The items provided for under this title include the salaries and expenses of the Supreme Court and inferior courts, United States attorneys, marshals and clerks of courts, fees and expenses of commissioners, fees of jurors and witnesses,

pay of bailiffs, supplies and miscellaneous expenses of the courts, and books for judicial officers.

The estimate for salaries of circuit, district, and retired judges contains an increase of \$125,000, to provide for one additional circuit judge and seven additional district judges whose appointments were authorized by legislation enacted at the last session of Congress, and an increase in the pay roll of retired judges. An increase of \$8,000 is recommended for travel expenses of circuit and district judges, due to the appointment of new judges and the establishment of additional places of holding court. The increase of \$195,000 in salaries, fees, and expenses of marshals, includes \$13,940 for the salary of the marshal for the Virgin Islands and the salaries of deputy marshals for the new district judges, and \$181,060 for travel expenses. An increase of \$23,490 is recommended for salaries and expenses of district attorneys, to cover the salaries of an attorney, assistant attorney, and clerk for the Virgin Islands, and five additional assistant attorneys in other districts. There is an increase of \$50,000 in the estimate for pay of special assistant attorneys, to provide additional legal assistance to aid the Attorney General and United States attorneys in special cases. The increase of \$115,000 in the estimate for salaries and expenses of clerks of United States courts is composed of \$111,500 for the salaries of a clerk of court and two deputy clerks for the Virgin Islands, deputy clerks for the new judges and the additional places of holding court, and additional deputy clerks in various districts to take care of the large increase in work, and \$3,500 for travel expenses. A decrease of \$20,000 is recommended for fees of commissioners, United States courts. For fees of jurors and witnesses an increase of \$120,000 is necessary because of the expansion in judicial activities, and for the same reason \$15,000 additional is required for pay of bailiffs. Other miscellaneous court increases amount to \$39,259.

A net increase of \$419,595 is provided in the estimates for 1938 for penal and correctional institutions, in which is included \$72,540 for additional custodial officers to meet the requirements of the new leave law. These appropriations provide for the maintenance of the Federal penal and correctional institutions, for subsistence and care of United States prisoners in non-Federal institutions, and for the operation of the probation system of the United States courts.

It is estimated that there will be an increase in prison population at Federal institutions in 1938 of 5.2 percent over 1937 and to provide the necessary funds for personnel and maintenance increases are recommended for the institutions at Leavenworth, Kans., \$27,810; Atlanta, Ga., \$47,770; McNeil Island, Wash., \$13,280; Lewisburg, Pa., \$72,110; Alcatraz Island, Calif., \$9,785; Alderson, W. Va., \$3,480; Chillicothe, Ohio, \$71,460; El Reno, Okla., \$58,930; Springfield, Mo., \$4,840; Petersburg, Va., \$4,135; and Federal prison camps, \$94,050, which latter amount includes \$70,000 for the establishment of an additional camp. A decrease of \$31,535 is shown in the estimate for Federal jails, predicated on a reduction in prison population and per capita costs in some cases. The estimate for construction and repairs at McNeil Island is \$107,400 less than appropriated for 1937.

For the National Training School for Boys at Washington, D. C., there is an increase of \$17,540, consisting of \$4,260 for additional personnel, \$3,180 for subsistence and quarters, and \$10,100 for maintenance and operation. There is also recommended for this School \$21,540 for alterations and improvements to the refrigeration plant, dormitories, hospital and administration building, and

repairs to cottage C and the gymnasium and school building. Probation system, United States courts, is increased \$50,000 for the purpose of extending this service to a number of districts which are not adequately provided with probation officers. For medical and hospital service, penal institutions, there is an increase of \$61,800, of which \$37,820 is for additional personnel, \$2,972 for automatic promotions of regular and reserve commissioned officers, and \$21,008 for equipment, supplies, and materials.

The trust accounts of the Department of Justice consist of personal funds of prisoners and commissary and welfare funds at the several penal and correctional institutions, which are deposited in the Treasury and advanced on approved requisitions to disbursing officers for payment. The estimated obligations for 1938 are \$650,000 for funds of prisoners and \$350,000 for commissary and welfare funds, which are increases over 1937 of \$50,000 and \$2,192, respectively.

#### DEPARTMENT OF LABOR

A gross increase of \$2,625,400 in various items of the estimates is reduced to a net increase for the Department of Labor of \$2,366,900 by decreases in other estimate items. The major items of gross increase include \$1,980,000 additional for grants to States and \$126,000 additional for administrative expenses, under the Social Security Act, and \$350,000 for expenses of administering the Walsh-Healey Act, approved June 30, 1936 (Public, No. 846, 74th Cong.).

For the Office of the Secretary a net increase of \$439,900 includes increases of \$74,900 for the transfer of a program for the formulation of standards of apprentice training from the National Youth Administration to the Department of Labor and a 1-year study of industrial standards for the prevention of silicosis, \$4,500 for contingent expenses of the Department, \$15,000 for printing and binding, and \$350,000 for the administration of the Walsh-Healey Act, and a \$4,500 decrease for liaison with the International Labor Organization, Geneva, Switzerland.

The estimates for the Bureau of Labor Statistics contemplate an increase of \$30,000 to increase the coverage of statistics of employment and pay rolls, wages, and hours of labor, and cost of living in specific localities.

An increase of \$45,000 for the Immigration and Naturalization Service is necessary to take care of automatic promotions, the payment of extra compensation for overtime services of inspectors for which reimbursement is received by the United States from public carriers, and for additional departmental employees to handle the increase in naturalization work.

The increase of \$2,106,000 for the Children's Bureau is wholly due to the participation of additional States in the provisions of the Social Security Act. The increased amounts for grants to States are \$980,000 for maternal and child-health services, \$700,000 for services for crippled children, and \$300,000 for child-welfare services, and an additional \$126,000 is provided for expenses of administration.

While the amount of the estimate for the United States Employment Service is \$245,000 less than the appropriation for 1937, a provision is continued to authorize apportionments to States on the \$3,000,000 basis contemplated by the act establishing the Service. Two new provisions are proposed in the estimate, the first to consolidate annual appropriations for payments to States into one continuing fund, and, the second, to reapportion unused balances of 1936 apportionments to States within 60 days after the

close of the fiscal year 1937 as required by the Act of June 6, 1933, without reference to the sufficiency therefor of the fund.

Transfer of the functions of the United States Housing Corporation relating to the disposal of housing properties acquired during the World War to the Procurement Division of the Treasury Department is proposed. As a result, a decrease in the expenses of the Department of Labor to the extent of \$9,000 will occur.

#### NAVY DEPARTMENT

The naval estimates for 1938 have been prepared on the basis of our naval needs as covered by plans evolved under conditions obtaining under the Washington and London treaties. They involve no expansion whatever over what had been planned before it was known that these treaties were not going to be renewed.

The estimates of appropriations for the Navy Department and Naval Establishment for the fiscal year 1938 amount to \$563,996,359, which, compared with the aggregate amount of \$529,819,632 appropriated for the fiscal year 1937, indicates a net increase of \$34,176,727. The totals stated above include estimated expenditures from trust accounts of \$1,570,650 for 1938 and \$1,717,100 for 1937. This net difference of some \$34,176,727 involves increases for certain purposes and decreases for others, as compared with the appropriations for 1937. For purposes of comparison the expenditures are hereinafter classified by groups, followed by brief explanations regarding the differences between the funds required for 1938, compared with the appropriations for 1937.

For pay and allowances and other expenses incident to naval and Marine Corps personnel approximately \$16,000,000 additional is required to provide for the increase in officers and men necessary to man the larger vessels of the fleet, the increased number of airplanes and the greater requirements for personnel ashore because of the increase in the fleet. Included in this item is provision for an expansion of reserve activities in accordance with an approved program. Under the operation of existing law the retired lists of officers and men are being increased annually. This fact makes necessary additional funds for this purpose. For the operation, maintenance, repair, and improvement of the fleet and shore establishment, exclusive of aviation, an increase of approximately \$9,800,000 is necessary because of the larger ships that will be in commission, the increased cost of labor and materials, the alterations and improvements required to keep the units in a high state of efficiency and the necessity of providing a larger reserve of arms, armament, ammunition, and other supplies.

In order to replenish the stock under the naval supply account fund so that it may better and more economically supply the needs of the Navy, it is proposed that the capital fund be increased by \$6,000,000.

The increase under "Aviation" approximates \$10,910,000. Of this sum, \$6,410,000 represents the difference between the amounts due on prior-year contracts in 1937 and the amount due on prior-year contracts in 1938. The remainder, \$4,500,000, is due to the increase in the program for procurement of planes and also to the additional amounts required for operation and maintenance of a larger number and larger types of airplanes, together with the increased cost of upkeep and maintenance of the air stations used for training personnel and those serving as auxiliary to the fleet.

The estimate for public works is \$2,863,000 over the amount appropriated for 1937. The amount proposed for

appropriations under this head is required to carry forward work on projects under way and uncompleted on June 30, 1937, and to provide for the commencement of certain additional projects during 1938.

The amount recommended for construction of naval vessels is \$11,500,000 less than the appropriation for this purpose for 1937. Due to strikes and other causes the ship-building program has been delayed. This delay will result in a large unexpended balance being carried forward from the fiscal year 1937 for expenditure in 1938. Although the estimates for ship construction for 1938 are less than the appropriations for 1937, no curtailment of the program of constructing replacement vessels, as authorized by the Vinson-Trammell Act of 1934, is contemplated.

#### POST OFFICE DEPARTMENT

The estimates for the Post Office Department are included as an Annexed Budget, since the excess of expenditures over the postal revenues is payable from the general fund of the Treasury and only such excess is carried to Statement No. 2 of the Budget for 1938 and the General Budget Summary and supporting schedules.

The estimated expenditures for postal operations for the fiscal year 1938, including \$25,000 for the payment of claims out of general revenues of the Treasury, aggregate \$785,769,478. The postal revenues for 1938 are estimated at \$755,000,000. These estimates indicate that the revenues will fail to meet obligations by \$30,769,478, which amount will become a charge against the general fund of the Treasury.

Further details concerning the estimates of postal revenues and appropriations will be found in the summary tables and explanatory statement under the Annexed Budget.

#### DEPARTMENT OF STATE

The estimates of appropriations for the Department of State for the fiscal year 1938 amount to \$15,334,968.40, which is a net increase of \$171,418.40 over the appropriations for 1937 exclusive of \$3,800,000 for construction by the International Boundary Commission, United States and Mexico, a part of the General Public Works Program for that year. The net increase of \$171,418.40 is composed of an increase of \$448,750 for the Foreign Service and decreases of \$57,088 for the Office of the Secretary of State and \$220,243.60 for international obligations, commissions, congresses, and bureaus.

The principal items bringing about the net decrease of estimates for the Office of the Secretary of State are those that relate to salaries. A decrease of nearly \$100,000 in personnel of the Division of Trade Agreements is recommended in contrast to an increase of nearly \$61,000 for permanent personnel in other divisions.

For salaries of Foreign Service officers an increase of \$83,000 is requested for 1938, \$33,000 of which is to cover automatic promotions authorized by the Foreign Service Act of February 23, 1931, and \$50,000 to provide for the appointment of 20 additional Foreign Service officers. There is an increase of \$63,300 for the transportation of Foreign Service officers, of which \$53,300 is to effect certain transfers between posts which have been postponed because of the lack of funds, and \$10,000 is for bringing home on statutory leaves of absence officers who have not been in the United States for a number of years. There is a net decrease of \$12,750 in the estimate for office and living quarters of persons in our Foreign Service.

The increase of \$50,000 in the estimate for cost-of-living allowance for diplomatic, consular, and Foreign Service

officers and clerks will permit a maximum allowance of 92.3 percent during the fiscal year 1938 as compared with only 76.9 percent which may be allowed with the funds appropriated for 1937. The increase of \$21,900 in the estimate for salaries of Foreign Service clerks is for 3 additional clerks for the Diplomatic Service and 17 additional clerks for the Consular Service. An increase of \$34,000 will provide for the salaries of employees required to supervise the construction of buildings to be erected at Helsingfors, Finland; Managua, Nicaragua; Montevideo, Uruguay; Panama City, Panama; Trujillo City, Dominican Republic; Port au Prince, Haiti; and Monrovia, Liberia; and 12 additional employees at diplomatic missions and consulates.

There is a net increase of \$206,600 in the contingent expenses of the Foreign Service, the principal items of which are \$45,000 for communication service, \$28,000 for freight and cartage on new furniture, and \$97,043 for repairs to buildings owned by the United States in foreign countries.

The estimate for United States contributions to international commissions, congresses, and bureaus for 1938 amounts to \$846,246, which is a decrease of \$34,374 from the appropriation for 1937. An increase of \$20,000 is requested for the annual operating expenses of the International Boundary Commission, United States and Mexico, for the maintenance of the rectified channel of the Rio Grande in the El Paso-Juarez Valley. The estimate for the General Claims Convention, United States and Mexico, is \$48,500, of which \$45,535 is for the American agency and \$2,965 for the General Claims Commission, and represents a reduction of \$75,770 from the appropriation for 1937.

The following estimates are included in the Budget for 1938 for the expenses of participation by the United States in various international conferences, etc.: Eighth International Conference of American States, Lima, Peru, \$70,000; Telecommunication Conference, Cairo, Egypt, \$49,000; United States Delaware Valley Tercentenary Commission, \$10,000; and the Commission of Experts on the Codification of International Law, to be held in some Latin-American city, \$3,000. An appropriation of \$20,647.25 is recommended for the relief of certain officers and employees of the Foreign Service who suffered losses of personal property as a result of the earthquake at Managua, Nicaragua, March 31, 1931. There is also recommended to be appropriated \$44,403.15 for interest payments on American embassy drafts, representing interest at 4½ percent on certain drafts drawn on the Secretary of State by the American embassies in Russia and Turkey, and transfers which the embassy in Turkey undertook to make by cable communications to the Secretary of State during the period from 1915 to 1920, payment of which was deferred.

Appropriations for 1937 amounting to \$327,150 which will not recur in 1938 are for the meeting of the International Radio Consulting Committee, Rumania; investigation relating to establishment of a Federal zone along the Mexican boundary; arbitration of the smelter fumes controversy, United States and Canada; Inter-American Conference, Buenos Aires, Argentina; Special Mexican Claims Commission; investigation of the Lake Champlain to Hudson River waterway; conference on oil pollution of navigable waters, Geneva, Switzerland; International Exposition, Paris, France; conference to revise the Convention for Protection of Literary and Artistic Works, Brussels, Belgium; Ninth International Congress of Military Medicine and Pharmacy, Rumania; meeting of International Telegraph Consulting Committee, Warsaw,

Poland; and Sixteenth Triennial Convention of the World's Woman's Christian Temperance Union, to be held in the United States.

## TREASURY DEPARTMENT

A comparison of the estimates for the Treasury Department for the fiscal year 1938 with the appropriations for 1937 shows a total net increase of \$278,132,177. The principal items of increase occur in the office of the Secretary, \$211,065,570; the Bureau of Internal Revenue, \$33,468,270; the Bureau of Engraving and Printing, \$1,171,570; and the Procurement Division, \$929,220. The principal decreases are for the Customs Service, \$1,250,000, and for the Bureau of the Mint, \$1,967,100. The details of some of these and other items in the 1938 Budget estimates are given below.

The cause of the increased appropriation necessary for the office of the Secretary is the necessity for an increase of \$235,000,000 in the old-age reserve account set up under the Social Security Act. There is an important decrease of \$24,000,000 in the amount of payments to be made to Federal land banks on account of the reduction in the rate of interest on mortgages.

There is an increase of \$250,000 for collecting the revenue from customs but a decrease of \$1,500,000 in the amount estimated to be required for refunds and drawbacks. The items making up the total increase for the Bureau of Internal Revenue are as follows: For collecting Social Security Act taxes, \$3,571,490; for additional personnel for the Office of the Assistant General Counsel, \$163,980; and for additional personnel and incidental expenses of the Income Tax Unit, \$905,000. It is likewise estimated that \$29,000,000 must additionally be appropriated for the refunding of internal-revenue collections and \$7,800 on account of payments to be made to the Territory of Alaska under the provisions of acts of June 26, 1934 (48 Stat. 1227, sec. 4), and of May 14, 1935 (49 Stat. 225).

For the Bureau of Engraving and Printing there is an increase of \$1,171,570 to meet the increased work program of the Bureau and to cover the cost of recent legislation extending the 40-hour-week law to include all employees and for increased annual and sick leave of such employees.

The decrease of \$1,967,100 for the Bureau of the Mint is almost entirely due to a nonrecurring item for the transportation of gold bullion.

For the Public Buildings Branch of the Procurement Division there is a net increase of \$1,259,220. The principal items are \$1,125,000 for repairs, \$100,000 for operating force, and \$35,000 for supplies for public buildings. Items which involve the construction of public buildings in 1938 are included elsewhere in the Budget in the estimates for the General Public Works Program. For the Branch of Supply in the Procurement Division there is a decrease of \$330,000. Of this amount, \$250,000 represents a nonrecurring item for the general supply fund while \$80,000 is due to a reduction of salaries and expenses chargeable to the Branch of Supply appropriation.

Other important items in the Treasury estimate include a net increase of \$602,065 for the Public Health Service, \$301,720 for the office of Commissioner of Accounts and Deposits, and \$250,000 for the Division of Printing to be used for printing, binding, and stationery.

So far as permanent appropriations are concerned, there is an increase of \$1,100,000 for the Philippine Trust Fund, Bureau of Internal Revenue, and a decrease of \$997,000 in the expenses of loans for the Public Debt Service.

The 1938 estimate for public-debt operations shows for debt-retirement payments an increase of \$8,251,350 and for interest payments an increase of \$25,000,000.

## WAR DEPARTMENT

The total net increase of budget estimates for the War Department for 1938 over the appropriations for 1937 is \$25,654,560, made up as follows: An increase of \$92,575 for departmental activities; an increase of \$28,149,027 for military activities; a decrease of \$2,032,858 for non-military activities; and a decrease of \$554,184 for the Panama Canal. It is proper to note, however, that there is included elsewhere in the Budget, under the heading "General Public Works Program", an estimate of \$143,322,101 for continuing work of improvement on rivers and harbors and other waterways and for flood control. For 1937 the appropriation for these purposes amounted to \$135,750,000.

The above-mentioned estimated increase of \$92,575 for departmental activities consists of \$68,235 in departmental salaries for the hire of additional personnel made necessary by an increase in work due to increase in the strength of the Army; \$20,000 for contingent expenses, principally for the replacement of unserviceable office equipment; and \$4,340 for purchase of books and periodicals for the library of the Surgeon General's office.

In connection with the estimated increase of \$28,149,027 in appropriations for military activities, items affecting the Finance Department, the Quartermaster Corps, Signal Corps, Air Corps, Ordnance Department, Seacoast Defenses, National Guard Bureau, Organized Reserves, and the Reserve Officers' Training Corps are especially worthy of note.

The Finance Department is responsible for the pay and allowances of active and retired commissioned officers, warrant officers, nurses, contract surgeons, and enlisted men of the Regular Army and the Philippine Scouts; expenses of courts martial; apprehension of deserters; hire of civilian employees of the Finance Department in the field; hire of civil-service messengers at Army field headquarters; interest on deposits of savings by enlisted men; claims for damages or loss of private property; and travel of military and civilian personnel. The estimates for the Finance Department for 1938 show a net increase of \$7,402,343 over the appropriations for 1937. The net increase in the estimates for pay and allowances of the Army is \$8,025,540, and is due principally to automatic increases provided for by law, the increased cost of 18,000 additional enlisted men on a full year's basis, the necessity of providing additional grades and ratings for enlisted men because of the increase in the enlisted strength and the progress made in the mechanization and motorization of the Army, and to increases in the retired lists of the Army. For pay to civilian employees of the Finance Department in the field, an increase of \$24,480 is allowed; for travel of military and civilian personnel there is a net decrease of \$657,677 which is made by reason of changes in travel requirements for the fiscal year 1938; and for claims an increase of \$10,000 is allowed. The Budget estimates for 1938 provide for average active strengths of 12,175 commissioned officers, 771 warrant officers, 675 nurses, and 165,000 enlisted men of the Regular Army and 6,415 enlisted men of the Philippine Scouts. In addition, provision is made for 185 officers of the Corps of Engineers to be employed on river and harbor and flood-control works and paid from the appropriation for such works.

For the Quartermaster Corps a net increase of \$15,276,218 is shown. Increases are provided as follows: For subsistence of the Army, \$2,934,516, due to the rising cost of the ration and the larger enlisted strength of the Army; for Regular Army supplies, \$257,650; for clothing and equipage, \$5,506,221, due to increase in the enlisted strength of the Army and to the depletion of World War stocks; for the construction of buildings, utilities, and appurtenances at military posts, \$5,415,000; for the acquisition of land, \$1,582,000; and for the maintenance, operation, and repair of barracks, quarters, and utilities, incidental expenses, and the construction and repair of hospitals, \$443,853, due almost entirely to the need for additional funds for extraordinary repairs to buildings, roads, wharves, and water systems. The large item mentioned for the construction of buildings, etc., includes projects at Sacramento, Calif.; Langley Air Field, Va.; Albrook Air Field, Panama Canal Zone; Bolling Air Field, D. C.; Hickam Air Field, Hawaii; Northeast Air Base near Tacoma, Wash.; and the arsenal at Edgewood, Md. Decreases of \$695,819 are provided for nonrecurring items incident to transportation of the Army and \$150,337 because of the smaller number of horses and pack and draft animals to be purchased.

For the Signal Corps the only increase requested is \$401,114, principally for the employment of additional field employees in the Signal Service to meet an acute shortage in personnel, the installation of facilities at various air fields to provide weather data for the Air Corps, for radio service to be rendered regular Government activities other than Army, for radio equipment for combat organizations of the Army and radio equipment for airplanes. Estimates for the Army Air Corps for 1938 call for an increase of \$894,500 for 1938 over 1937. In addition, there is also provided for, in the Budget estimates for the Signal Corps and Ordnance Department, a total of approximately \$3,588,000 for equipping airplanes of the Regular Army with modern radio apparatus and armament. The 1938 estimates for the Air Corps of the Regular Army provide for the procurement of 449 new airplanes and in the estimates for the Organized Reserves and for the National Guard provision has been made for the purchase of a total of 81 new airplanes, which form part of the general Air Corps program of the War Department. A net increase for the Ordnance Department for 1938 is provided in the sum of \$5,819,726 for the purchase of ammunition and bombs required for target practice and for replacing deteriorated ammunition in the war reserves.

Various phases of the work of seacoast defense are handled by the Corps of Engineers, the Signal Corps, the Coast Artillery Corps, and the Ordnance Department. For 1937 a total of \$8,518,994 was appropriated. The estimate for 1938 shows a decrease of \$4,315,674. The remaining sum, \$4,203,320, is for the construction, maintenance, and repair of fixed fortifications; the procurement, installation, and maintenance of fire-control systems, searchlights, and submarine-mine defenses; the installation of fixed anti-aircraft defenses; and the procurement and maintenance of ordnance and ordnance materials.

For the National Guard Bureau the estimates for 1938 show a net increase of \$1,634,021. The principal items making up this total consist of \$273,219 due to increased attendance at summer training camps; \$930,697 for ammunition and uniforms, due to a decrease in free issues by the Regular Army because of depletion of its World War surplus stocks; \$278,166 for the purchase of airplanes and

for airplane equipment, supplies and repairs; \$180,243 for Signal Corps equipment; \$77,000 for replacement of unserviceable animals; and \$500,000 for initiating an increase of 5,000 men in the strength of the Guard. For 1938 provision is made for a National Guard strength of 205,000 officers and men.

For the Organized Reserves a net increase for 1938 is estimated in the sum of \$868,805, the principal item in which is \$725,689 for the detail of 250 additional Air Reserve officers for extended active duty with the Regular Army Air Corps. The Budget estimate makes provision for 14 days' active duty training of 25,000 Reserve officers; for detail of 1 year each on the General Staff of 5 such officers; for the detail on extended active duty with the Air Corps of the Regular Army of 550 Reserve pilots; for attendance of from 6 to 12 weeks of 200 Reserve officers at Regular Army service schools; and for active duty for 12 months with the Regular Army of 500 Reserve officers of the grade of second lieutenant. The estimate also provides for the maintenance and operation of 245 Organized Reserve headquarters in 188 cities; for inactive duty flying of Air Reserve officers; and for extension courses for Reserve officers and the furnishing of such officers with training manuals.

For the Reserve Officers' Training Corps the 1938 estimate calls for a decrease of \$330,276 from the amount appropriated for 1937 due principally to the fact that no new training units are to be established in 1938. During 1938 approximately 172,000 students at schools and colleges will be given military training. In the case of the Citizens' Military Training Camp no change is recommended in the 1938 estimates from the 1937 appropriation which was \$2,275,000 and provided for 30,000 trainees.

As stated above, the estimate of net appropriations for 1938 for nonmilitary purposes is \$2,032,858 less than the 1937 appropriation. The principal increases in nonmilitary activities consist of \$100,000, in repayments to discharged soldiers of savings deposited with the Army during their enlistments and \$106,500 covering increased disbursements of trust funds. Offsetting these and other minor increases are two decreases, one of \$9,000 due to a decrease in rent requirements of the United States High Commissioner to the Philippine Islands, and the other an item of \$2,339,609 applicable to the Corps of Engineers which during 1938 will engage in the maintenance of river and harbor works; in cooperative work of flood control on the Sacramento River, Calif., and Lowell Creek and Salmon River, Alaska; emergency flood-control work on tributaries of the Mississippi River; and the preservation and repair of historical fortifications at San Juan, P. R.

As stated in the first paragraph under this head the estimate of appropriations for 1938 for the Panama Canal show a net decrease of \$554,184, the details of which are as follows: For maintenance and operation of the Canal the Budget estimate for 1938 is \$8,519,000, a net reduction below 1937 of \$630,201, due to differences between the 2 years in the kinds and costs of betterments and replacements. The amount provided for 1938 consists of \$6,360,696 for the maintenance and operation of the Canal proper and \$2,158,304 for betterments and replacements, such as continuing the construction of a new station for the dredging fleet to replace unserviceable facilities provided when the Canal was constructed; continuing the replacement of old wooden quarters for white employees with modern construction; the rebuilding of docks and wharves; the acquisition of floating and other plant; and the replacement of old wooden buildings of various kinds

which were constructed in the early days of the Canal and which have so deteriorated as to be uneconomical to repair. This work of replacing old structures in the Canal Zone will be necessary for several years to come. For sanitation of the Canal Zone the Budget provides an increase of \$18,207 for additional personnel and supplies, and for the civil government of the Canal Zone an increase of \$57,810 due to the development of the school system and needs of the police department.

## DISTRICT OF COLUMBIA

The estimates of appropriations for the District of Columbia for the fiscal year 1938, together with prior

year appropriations as they affect the general revenues of the Treasury brought into Statement No. 2 are to be found in an Annexed Budget. The net expenditures for the fiscal years 1936 and 1937 are carried to the General Budget Summary and supporting schedules. The appropriation requirements for 1938, insofar as they constitute a charge upon the United States Treasury, are eliminated from the 1938 Budget, and the amount left for determination by Congress after consideration of the report requested by the previous Congress and submitted by the President under separate cover. The details of the requirements of the District of Columbia are to be found in the summary and supporting schedules of the Annexed Budget.

Statement of proposed expenditures for purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles, for the fiscal year ending June 30, 1938, as required by U. S. Code, title 5, sec. 78

GOVERNMENT PRINTING OFFICE

Appropriation	For purchase				Net cost of new cars	Old vehicles still to be used	Total maintenance, repair, and operation, all cars	Public purpose and users
	New vehicles (motors unless otherwise indicated)		Old vehicles to be exchanged					
	Number	Gross cost	Number	Allowance (estimated)				
Public printing and binding.....	2	\$1,750	2	\$600	\$1,150		\$1,350	New cars to be used for official business by officers of the Government Printing Office when in writing ordered by the Public Printer.

Printing and binding for Congress chargeable to the foregoing appropriation, when recommended to be done by the Committee on Printing of either House, shall be so recommended in a report containing an approximate estimate of the cost thereof, together with a statement from the Public Printer of estimated approximate cost of work previously ordered by Congress within the fiscal year for which this appropriation is made.

During the fiscal year [1937] 1938 any executive department or independent establishment of the Government ordering printing and binding from the Government Printing Office shall pay promptly by check to the Public Printer upon his written request, either in advance or upon completion of the work, all or part of the estimated or actual cost thereof, as the case may be, and bills rendered by the Public Printer in accordance herewith shall not be subject to audit or certification in advance of payment: *Provided*, That proper adjustments on the basis of the actual cost of delivered work paid for in advance shall be made monthly or quarterly and as may be agreed upon by the Public Printer and the department or establishment concerned. All sums paid to the Public Printer for work that he is authorized by law to do shall be deposited to the credit, on the books of the Treasury Department, of the appropriation made for the working capital of the Government Printing Office, for the year in which the work is done, and be subject to requisition by the Public Printer.

All amounts in the Budget for the fiscal year [1938] 1939 for printing and binding for any department or establishment, so far as the Bureau of the Budget may deem practicable, shall be incorporated in a single item for printing and binding for such department or establishment and be eliminated as a part of any estimate for any other purpose. And if any amounts for printing and binding are included as a part of any estimates for any other purposes, such amounts shall be set forth in detail in a note immediately following the general estimate for printing and binding: *Provided*, That the foregoing requirements shall not apply to work to be executed at the Bureau of Engraving and Printing.

No part of any money appropriated in this Act shall be paid to any person employed in the Government Printing Office while detailed for or performing service in the executive branch of the public service of the United States unless such detail be authorized by law (*act Apr. 17, 1936, 49 Stat., pp. 1230-1231*).

OFFICE OF SUPERINTENDENT OF DOCUMENTS

Salaries, Office of Superintendent of Documents—

For the Superintendent of Documents, assistant superintendent, and other personal services in accordance with the Classification Act of 1923, as amended, and compensation of employees paid by the hour who shall be subject to the provisions of the Act entitled "An Act to regulate and fix rates of pay for employees and officers of the Government Printing Office", approved June 7, 1924 (U. S. C., title 44, sec. 40), [\$585,000] \$600,000: *Provided*, That for the purpose of conforming to section 3 of this Act this appropria-

tion shall be considered a separate appropriation unit (*act Apr. 17, 1936, 49 Stat., p. 1231*).

FEDERAL HOME LOAN BANK BOARD

Salaries and Expenses, Federal Home Loan Bank Board—

For the administrative expenses of the Federal Home Loan Bank Board, established by the Federal Home Loan Bank Act of July 22, 1932 (47 Stat., p. 725), including personal services in the District of Columbia and elsewhere; travel expenses, in accordance with the Standardized Government Travel Regulations and the Act of June 3, 1926, as amended (U. S. C., title 5, secs. 821-833); printing and binding; law books, books of reference, and not to exceed \$500 for periodicals and newspapers; procurement of supplies, equipment and services; typewriters, adding machines, and other labor-saving devices, including their repair and exchange; rent outside of the District of Columbia; payment, when specifically authorized by the Board, of actual transportation expenses and not to exceed \$10 per diem in lieu of subsistence and other expenses of persons serving, while away from their homes, without other compensation from the United States, in an advisory capacity to the Board; use of the services and facilities of the Home Owners' Loan Corporation and the Federal Savings and Loan Insurance Corporation; and all other necessary administrative expenses, \$1,140,000: Provided, That expenditures hereunder shall not exceed (a) the receipts derived during the fiscal year 1938 from assessments upon the Federal home loan banks, the Home Owners' Loan Corporation, and the Federal Savings and Loan Insurance Corporation, and from other sources, and (b) the unobligated balance of such receipts during prior fiscal years: Provided further, That all necessary expenses (including services performed on a contract or fee basis, but not including other personal services) in connection with the sale, issuance and retirement of, or payment of interest on, debentures or bonds, under said Federal Home Loan Bank Act, as amended, shall be considered as nonadministrative expenses for the purposes hereof: Provided further, That, except for the limitations in amounts hereinbefore specified, and the restrictions in respect to travel expenses, the administrative expenses and other obligations of the Board shall be incurred, allowed and paid, in accordance with the provisions of said Act of July 22, 1932, as amended (U. S. C., title 12, secs. 1421-1449).

HOME OWNERS' LOAN CORPORATION

Salaries and Expenses, Home Owners' Loan Corporation—

Not to exceed \$32,000,000 of the funds of the Home Owners' Loan Corporation, established by the Home Owners' Loan Act of 1933 (48 Stat., p. 128), shall be available during the fiscal year 1938 for administrative expenses of the corporation, including personal services in the District of Columbia and elsewhere; travel expenses, in accordance with the Standardized Government Travel Regulations and the Act of June 3, 1926, as amended (U. S. C., title 5, secs. 821-833); printing and binding; law books, books of reference, and not to exceed \$500 for periodicals and newspapers; procurement of supplies, equipment and services; maintenance, repair, and operation of motor-propelled passenger-carrying vehicles, to be used only for official purposes; typewriters, adding machines, and other labor-saving devices, including their repair and exchange; rent in the District of Columbia and elsewhere; use of the services and facilities of the Federal Home Loan Bank Board, Federal home loan banks, and Federal Reserve banks; and all other necessary administrative expenses: Provided, That all necessary expenses (including services performed on a force account, contract or fee basis, but not including other personal services) in connection with the acquisition, protection, operation, maintenance, improvement, or disposition of real or personal property belonging to the Corporation or in which it has an interest, shall be considered as nonadministrative expenses for the purposes hereof: Provided further, That except for the limitations in amounts hereinbefore specified, and the restrictions in respect to travel expenses, the administrative expenses and other obligations of the Corporation shall be incurred, allowed and paid, in accordance with the provisions of said Home Owners' Loan Act of 1933, as amended (U. S. C., title 12, secs. 1461-1468).

FEDERAL HOUSING ADMINISTRATION

Salaries and Expenses, Federal Housing Administration—  
 Not to exceed \$8,500,000 of the funds advanced by the Reconstruction Finance Corporation to the Federal Housing Administration, created under authority of the National Housing Act of June 27, 1934 (48 Stat., p. 1246), shall be available during the fiscal year 1938 for administrative expenses of the Administration, including personal services in the District of Columbia and elsewhere; travel expenses, in accordance with the Standardized Government Travel Regulations and the Act of June 3, 1926, as amended (U. S. C., title 5, secs. 821-833); printing and binding; law books, books of reference, and not to exceed \$1,500 for periodicals and newspapers; not to exceed \$1,500 for contract actuarial services; procurement of supplies, equipment and services; maintenance, repair and operation of motor-propelled passenger-carrying vehicles, to be used only for official purposes; payment, when specifically authorized by the Administrator, of actual transportation expenses and not to exceed \$10 per diem in lieu of subsistence and other expenses to persons serving, while away from their homes, without other compensation from the United States, in an advisory capacity to the Administration; not to exceed \$2,000 for expenses of attendance, when specifically authorized by the Administrator, at meetings concerned with the work of the Administration; typewriters, adding machines, and other labor-saving devices, including their repair and exchange; rent in the District of Columbia and elsewhere; and all other necessary administrative expenses: Provided, That all necessary expenses (including services performed on a contract or fee basis, but not including other personal services) in connection with the operation, maintenance, improvement, or disposition of real or personal property of the Administration acquired under authority of Title II of said National Housing Act, shall be considered as non-administrative expenses for the purposes hereof, and shall be paid from the mutual mortgage insurance fund created by said Act: Provided further, That except for the limitations in amounts hereinbefore specified, and the restrictions in respect to travel expenses, the administrative expenses and other obligations of the Administration shall be incurred, allowed and paid, in accordance with the provisions of said Act of June 27, 1934, as amended (U. S. C., title 12, secs. 1701-1723).

### ESTIMATES OF APPROPRIATIONS

#### *Salaries and Expenses, Veterans' Administration—*

Administration, medical, hospital, and domiciliary services: For all salaries and expenses of the Veterans' Administration, including the expenses of maintenance and operation of medical, hospital, and domiciliary services of the Veterans' Administration, in carrying out the duties, powers, and functions devolving upon it pursuant to the authority contained in the Act entitled "An Act to authorize the President to consolidate and coordinate governmental activities affecting war veterans", approved July 3, 1930 (U. S. C., [Supp. VII,] title 38, secs. 11-11f), and any and all laws for which the Veterans' Administration is now or may hereafter be charged with administering, [\$86,500,000 together with \$7,000,000 of the unexpended balance of the appropriation for this purpose for the fiscal year 1935] \$94,000,000: *Provided*, That not to exceed \$3,500 of this amount shall be available for expenses, except membership fees, of employees, detailed by the Administrator of Veterans' Affairs to attend meetings of associations for the promotion of medical science and annual national conventions of organized war veterans: *Provided further*, That this appropriation shall be available also for personal services and rentals in the District of Columbia and elsewhere, including traveling expenses; examination of estimates of appropriations in the field, including actual expenses of subsistence or per diem allowance in lieu thereof; for expenses incurred in packing, crating, drayage, and transportation of household effects and other property, not exceeding in any one case five thousand pounds, of employees when transferred from one official station to another for permanent duty and when specifically authorized by the Administrator; furnishing and laundering of such wearing apparel as may be prescribed for employees in the performance of their official duties; purchase and exchange of law books, books of reference, periodicals, and newspapers; for passenger-carrying and other motor vehicles, including purchase, maintenance, repair, and operation of same, including not more than two passenger automobiles for general administrative use of the central office in the District of Columbia; and notwithstanding any provisions of law to the contrary, the Administrator is authorized to utilize Government-owned automo-

tive equipment in transporting children of Veterans' Administration employees located at isolated stations to and from school under such limitations as he may by regulation prescribe; and notwithstanding any provisions of law to the contrary, the Administrator is authorized to expend not to exceed \$2,000 of this appropriation for actuarial services pertaining to the Government life-insurance fund, to be obtained by contract, without obtaining competition, at such rates of compensation as he may determine to be reasonable; for allotment and transfer to the Public Health Service, the War, Navy, and Interior Departments, for disbursement by them under the various headings of their applicable appropriations, of such amounts as are necessary for the care and treatment of beneficiaries of the Veterans' Administration, including minor repairs and improvements of existing facilities under their jurisdiction necessary to such care and treatment; for expenses incidental to the maintenance and operation of farms; for recreational articles and facilities at institutions maintained by the Veterans' Administration; for administrative expenses incidental to securing employment for war veterans; for funeral, burial, and other expenses incidental thereto for beneficiaries of the Veterans' Administration accruing during the year for which this appropriation is made or prior fiscal years: *Provided further*, That the appropriations herein made for the care and maintenance of veterans in hospitals or homes under the jurisdiction of the Veterans' Administration shall be available for the purchase of tobacco to be furnished, subject to such regulations as the Administrator of Veterans' Affairs shall prescribe, to veterans receiving hospital treatment or domiciliary care in Veterans' Administration hospitals or homes: *Provided further*, That this appropriation shall be available for continuing aid to State or Territorial homes for the support of disabled volunteer soldiers and sailors, in conformity with the Act approved August 27, 1888 (U. S. C., title 24, sec. 134), as amended, for those veterans eligible for admission to Veterans' Administration facilities for domiciliary care.

No part of this appropriation shall be expended for the purchase of any site for or toward the construction of any new hospital or home, or for the purchase of any hospital or home; and not more

FOREST ROADS AND TRAILS

Forest Roads and Trails—

For carrying out the provisions of section 23 of the Federal Highway Act approved November 9, 1921 (U. S. C., title 23, sec. 23), including not to exceed \$95,240 \$115,260 for departmental personal services in the District of Columbia, \$8,000,000 \$14,000,000, which sum is composed of \$3,500,000 \$5,500,000, the balance of the amount authorized to be appropriated for the fiscal year 1936 1937, by the Act approved June 18, 1934, and \$4,500,000 \$8,500,000, part of the sum of \$10,000,000 \$14,000,000, authorized to be appropriated for the fiscal year 1937 1938 by the Act approved June 18, 1934 16, 1936, to be immediately available and to remain available until expended: Provided, That the Secretary of Agriculture shall, upon the approval of this Act, apportion, and prorate among the several States, Alaska, and Puerto Rico, as provided in section 23 of said Federal Highway Act, the sum of \$10,000,000 authorized to be appropriated for the fiscal year ending June 30, 1937, by the Act approved June 18, 1934: Provided further, That the Secretary of Agriculture shall incur obligations, approve projects, or enter into contracts under his apportionment and prorating of this authorization, and his action in so

doing shall be deemed a contractual obligation on the part of the Federal Government for the payment of the cost thereof: Provided further, That total expenditures on account of any State or Territory shall at no time exceed its authorized apportionment as provided by section 23 of said Federal Highway Act: Provided further, That this appropriation shall be available for the rental, purchase, or construction of buildings necessary for the storage of equipment and supplies used for road and trail construction and maintenance, but the total cost of any such building purchased or constructed under this authorization shall not exceed \$2,500 \$7,500: Provided further, That during the fiscal year ending June 30, 1937 1938, the expenditures on forest highways in Alaska from the amount herein appropriated or from similar appropriations heretofore made shall not exceed \$250,000 \$350,000: Provided further, That there shall be available from this appropriation not to exceed \$10,000 for the acquisition of land by purchase, condemnation, gift, grant, dedication, or otherwise, and not to exceed \$150,000 for the acquisition by purchase or construction of buildings, for the storage and repair of Government equipment for use in the construction and maintenance of roads (U. S. C., title 5, secs. 511, 512; title 16, sec. 503; title 23, secs. 1-56; act June 4, 1936, 49 Stat., p. 1457).

**OFFICE OF THE SECRETARY**

**SALARIES**

*Salaries, Office of Secretary of Agriculture—*

For the Secretary of Agriculture, Under Secretary of Agriculture, Assistant Secretary, and for other personal services in the District of Columbia, and elsewhere, **[\$432,271] \$452,700: Provided,** That in expending appropriations or portions of appropriations contained in this Act for the payment for personal services in the District of Columbia in accordance with the Classification Act of 1923, as amended, with the exception of the Assistant Secretary, the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act as amended and in grades in which only one position is allocated the salary of such position shall not exceed the average of the compensation rates for the grade, except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade but not more often than once in any fiscal year and then only to the next higher rate: *Provided further,* That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade, in the same or different bureau, office, or other appropriation unit, (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law, or (5) to reduce the compensation of any person in a grade in which only one position is allocated: *Provided further,* That the Secretary of Agriculture is authorized to contract for stenographic reporting services, and the appropriations made in this Act shall be available for such purposes: *Provided further,* That the Secretary of Agriculture is authorized to expend from appropriations available for the purchase of lands not to exceed \$1 for each option to purchase any particular tract or tracts of land: *Provided further,* That not to exceed **[\$33,400] \$40,000** of the appropriations available for salaries and expenses of officers and employees of the Department of Agriculture permanently stationed in foreign countries may be used for payment of allowances for living quarters, including heat, fuel, and light, as authorized by the Act approved June 26, 1930 (U. S. C., title 5, sec. 118a) **],** but the amount so used for any one person shall not exceed the amount permitted by law to be so used, during the same fiscal year, for any one person in the foreign service of the Department of Commerce: *Provided further,* That hereafter funds available for field work in the Department of Agriculture shall be available for employment by contract or otherwise of men with equipment, boats, work animals, animal-drawn, and motor-propelled vehicles: *Provided further,* That hereafter funds available for field work in the Department of Agriculture may be used for the purchase of arms and ammunition whenever the individual purchase does not exceed \$50, and for individual purchases exceeding \$50, when such arms and ammunition cannot advantageously be supplied by the Secretary of War pursuant to the Act of March 3, 1879 (20 Stat. 412) **]:** *Provided further,* That no part of the funds appropriated by this Act shall be used for the payment of any officer or employee of the Department of Agriculture who, as such officer or employee, or on behalf of the Department or any division, commission, or bureau thereof, issues, or causes to be issued, any prediction, oral or written, or forecast with respect to future prices of cotton or the trend of same (U. S. C., title 5, secs. 511-517 (secs. 511, 512, establishing Department of Agriculture, apply to all appropriations items of the Department which are not based upon specific legislative authority either incorporated in the language of the item or cited immediately thereunder), 520a; act June 4, 1936, 49 Stat., pp. 1421-1422).

MISCELLANEOUS EXPENSES, DEPARTMENT OF AGRICULTURE

Miscellaneous Expenses, Department of Agriculture—

For stationery, blank books, twine, paper, gum, dry goods, soap, brushes, brooms, mats, oils, paints, glass, lumber, hardware, ice, furniture, carpets, and matting; for freight, express charges, advertising and press clippings, telegraphing, telephoning, postage, washing towels; for the maintenance, repair, and operation of one motorcycle and not to exceed three motor-propelled passenger-carrying vehicles (including one for the Secretary of Agriculture, one for general utility needs of the entire Department, and one for the Forest Service) and purchase and exchange of one motor-propelled passenger-carrying vehicle, at a net cost of not to exceed \$1,500, for official purposes only; for official traveling expenses, including examination of estimates for appropriations in the field for any bureau, office, or service of the Department; and for other miscellaneous supplies and expenses not otherwise provided for and necessary for the practical and efficient work of the Department, which are authorized by such officer as the Secretary may designate, **[\$120,748] \$105,750, together with not to exceed \$10,000 of the unexpended balance of the appropriation for these purposes for the fiscal year 1937: Provided, That this appropriation shall be available for the payment of salaries of employees engaged in the maintenance, repair, and operation of motor transport vehicles, and that this appropriation shall be reimbursed from the appropriation made for any bureau or office for which such service is performed, in accordance with the provisions of the Act of May 11, 1922 [(42 Stat., p. 508)] (U. S. C., title 5, sec. 543): Provided further, That the Secretary of Agriculture, during the fiscal year for which this appropriation is made, may maintain stocks of stationery, supplies, equipment, and miscellaneous materials sufficient to meet, in whole or in part, requirements of the bureaus and offices of the Department in the city of Washington and elsewhere, but not to exceed in the aggregate \$200,000 in value at the close of the fiscal year, and the appropriations of such bureaus, offices, and agencies available for the purchase of stationery, supplies, equipment, and miscellaneous materials shall be available to reimburse the appropriation for miscellaneous expenses current at the time supplies are allotted, assigned, or issued, or when payment is received; for transfer for the purchase of inventory; and for transfer pursuant to the provisions of section 601 of the Act approved June 30, 1932 [(47 Stat., pp. 417, 418)] (U. S. C., title 51, sec. 686): Provided further, That the appropriations made hereunder shall be available for the payment of salaries and expenses for purchasing, storing, handling, packing, or shipping supplies and blank forms, and there shall be charged proportionately as a part of the cost of supplies issued an amount to cover such salaries and expenses, and in the case of blank forms and supplies not purchased from this appropriation an amount to cover such salaries and expenses shall be charged proportionately to the proper appropriation: Provided further, That the facilities of the central store-**

house of the Department shall to the fullest extent practicable be used to make unnecessary the maintenance of separate bureau storehouse activities in the Department: *Provided further,* That a separate schedule of expenditures, transfers of funds, or other transactions hereunder shall be included in the annual Budget (U. S. C., title 5, sec. 542; act June 4, 1936, 49 Stat., pp. 1422-1423)

Cooperative Agricultural Extension Work—

For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, the Act of May 8, 1914 (U. S. C., title 7, secs. 341-348), permanently appropriated \$480,000 for each year, \$10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the Act. It also appropriated an additional sum of \$600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven a sum exceeding by \$500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of \$4,100,000 in addition to the sum of \$480,000. The additional sums are allotted annually to each State by the Secretary of Agriculture and paid in the proportion which the rural population of each State bears to the rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work. On May 16, 1928 (U. S. C., title 7, secs. 386-386b), this appropriation was amended to include a permanent allotment to the Territory of Hawaii of \$10,000 plus an additional sum of \$12,935.43, subject to the same terms and conditions as the original act. The permanent annual appropriation was thereby increased to \$4,602,935.43. Under the 1930 census the amount of money available to Hawaii increased by \$3,160, thereby automatically raising the total amount available under the original Smith-Lever Act by this amount. The Act of March 4, 1931 (U. S. C., title 7, secs. 386d-386f) provides that the Smith-Lever Act and Acts supplementary thereto be increased without diminishing the amount now received by any State or other Territory, to carry out the provisions of this Act in the Territory of Puerto Rico and specifies that the appropriation for 1933 and subsequent years shall be \$50,000, this amount to be increased by \$10,000 annually, or such part thereof as may be necessary, until the total to which Puerto Rico is entitled under the provisions of this Act is reached. The permanent annual appropriation is thereby increased to **[\$4,696,096]** \$4,701,165 (*U. S. C., title 7, secs. 341-348*).

**BUREAU OF ANIMAL INDUSTRY**

SALARIES AND EXPENSES

Salaries and Expenses, Bureau of Animal Industry—

For carrying out the provisions of the Act approved May 29, 1884 (U. S. C., title 7, sec. 391; title 21, secs. 112-119, 130), establishing a Bureau of Animal Industry, and the provisions of the Act approved March 3, 1891 (U. S. C., title 45, secs. 75, 76), providing for the safe transport and humane treatment of export cattle from the United States to foreign countries, and for other purposes; the Act approved August 30, 1890 (U. S. C., title 21, secs. 101-105), providing for the importation of animals into the United States, and for other purposes; and the provisions of the Act approved February 2, 1903 (U. S. C., title 21, secs. 111-113, 120-122), to enable the Secretary of Agriculture to more effectually suppress and prevent the spread of contagious and infectious diseases of livestock, and for other purposes; and also the provisions of the Act approved March 3, 1905 (U. S. C., title 21, secs. 123-128), to enable the Secretary of Agriculture to establish and maintain quarantine districts, to permit and regulate the movement of cattle and other livestock therefrom, and for other purposes; and for carrying out the provisions of the Act of June 29, 1906 (U. S. C., title 45, secs. 71-74), entitled “An Act to prevent cruelty to animals

while in transit by railroad or other means of transportation"; and for carrying out the provisions of the Meat Inspection Act of June 30, 1906 (U. S. C., title 21, sec. 95), as amended by the Act of March 4, 1907 (U. S. C., title 21, secs. 71-94), as extended to equine meat by the Act of July 24, 1919 (U. S. C., title 21, sec. 96), and as authorized by section 2 (a) of the Act of June 26, 1934 (U. S. C., title 31, sec. 725a); and for carrying out the provisions of the Act approved March 4, 1913 (U. S. C., title 21, secs. 151-158), regulating the preparation, sale, barter, exchange, or shipment of any virus, serum, toxin, or analogous products manufactured in the United States and the importation of such products intended for use in the treatment of domestic animals; and for carrying out the provisions of the Packers and Stockyards Act, approved August 15, 1921 (U. S. C., title 7, secs. 181-229), as amended by the Act of August 14, 1935 (U. S. C., Supp. I, title 7, secs. 218-218d); and the Secretary of Agriculture, upon application of any exporter, importer, packer, owner, agent of, or dealer in livestock, hides, skins, meat, or other animal products, may, in his discretion, make inspections and examinations at places other than the headquarters of inspectors for the convenience of said applicants and charge the applicants for the expenses of travel and subsistence incurred for such inspections and examinations, the funds derived from such charges to be deposited in the Treasury of the United States to the credit of the appropriation from which the expenses are paid; and to enable the Secretary of Agriculture to collect and disseminate information concerning livestock and animal products; to prepare and disseminate reports on animal industry; to employ and pay from the appropriation herein made as many persons in the city of Washington or elsewhere as he may deem necessary; to purchase in the open market samples of all tuberculin, serums, antitoxins, or analogous products, of foreign or domestic manufacture, which are sold in the United States, for the detection, prevention, treatment, or cure of diseases of domestic animals, to test the same, and to disseminate the results of said tests in such manner as he may deem best; to purchase and destroy diseased or exposed animals, including poultry, or quarantine the same whenever in his judgment essential to prevent the spread of pleuropneumonia, tuberculosis, contagious poultry diseases, or other diseases of animals from one State to another, as follows (U. S. C., title 5, secs. 511, 512—establishing Department of Agriculture; title 7, sec. 391—establishing Bureau of Animal Industry (the foregoing citations apply to all appropriation items under the Bureau); act June 4, 1936, 49 Stat., pp. 1429-1430):

General administrative expenses: For necessary expenses for general administrative purposes, including the salary of chief of bureau and other personal services in the District of Columbia, \$178,220 (act June 4, 1936, 49 Stat., p. 1430).

Packers and Stockyards Act: For necessary expenses in carrying out the provisions of the Packers and Stockyards Act, approved August 15, 1921 (U. S. C., title 7, secs. 181-229), as amended by the Act of August 14, 1935 [(49 Stat., pp. 648, 649)] (U. S. C., Supp. I, title 7, secs. 218-218d), \$381,879: Provided, That the Secretary of Agriculture may require reasonable bonds from every market agency and dealer, under such rules and regulations as he may prescribe to secure the performance of their obligations, and whenever, after due notice and hearing, the Secretary finds any registrant is insolvent or has violated any provisions of said Act

he may issue an order suspending such registrant for a reasonable specified period. Such order of suspension shall take effect within not less than five days, unless suspended or modified or set aside by the Secretary of Agriculture or a court of competent jurisdiction: Provided further, That the Secretary of Agriculture may, whenever necessary, authorize the charging and collection from owners of a reasonable fee for the inspection of brands appearing upon livestock subject to the provisions of the said Act for the purpose of determining the ownership of such livestock: Provided further, That such fee shall not be imposed except upon written request made to the Secretary of Agriculture by the Board of Livestock Commissioners, or duly organized livestock association of the States from which such livestock have originated or been shipped to market (U. S. C., title 7, sec. 231; act June 4, 1936, 49 Stat., p. 1432).

ERADICATION OF FOOT-AND-MOUTH AND OTHER CONTAGIOUS DISEASES OF ANIMALS

Eradication of Foot-and-Mouth and Other Contagious Diseases of Animals—

Eradication of European Fowl Pest and Similar Diseases in Poultry—

In case of an emergency arising out of the existence of foot-and-mouth disease, rinderpest, contagious pleuropneumonia, or other contagious or infectious disease of animals, which, in the opinion of the Secretary of Agriculture, threatens the livestock industry of the country, he may expend in the city of Washington or elsewhere, any unexpended balances of appropriations heretofore made for this purpose in the arrest and eradication of any such disease, including the payment of claims growing out of past and future purchases and destruction, in cooperation with the States, of animals affected by or exposed to, or of materials contaminated by or exposed to, any such disease, wherever found and irrespective of ownership, under like or substantially similar circumstances, when such owner has complied with all lawful quarantine regulations: *Provided*, That the payment for animals hereafter purchased may be made on appraisal based on the meat, dairy, or breeding value, but in case of appraisal based on breeding value no appraisal of any animal shall exceed three times its meat or dairy value, and, except in case of an extraordinary emergency, to be determined by the Secretary of Agriculture, the payment by the United States Government for any animals shall not exceed one-half of any such appraisements: *Provided further*, That the sum of \$5,000 of the unexpended balance of the appropriation of \$3,500,000 contained in the Second Deficiency Appropriation Act, fiscal year 1924, approved December 5, 1924, for the eradication of the foot-and-mouth disease and other contagious or infectious diseases of animals, is hereby made available during [the] any fiscal year [1937] to enable the Secretary of Agriculture to control and eradicate the European fowl pest and similar diseases in poultry (*U. S. C., title 21, sec. 129; act June 4, 1936, 49 Stat., p. 1432*).

COOPERATIVE ACQUISITION OF LANDS FOR STATE FORESTS

Cooperative Acquisition of Lands for State Forests—

To enable the Secretary of Agriculture to carry into effect the provisions of the Act entitled "An Act to authorize cooperation with the several States for the purpose of stimulating the acquisition, development, and proper administration and management of State forests and coordinating Federal and State activities in carrying out a national program of forest-land management, and for other purposes", approved August 29, 1935 (U. S. C., Supp. I, title 16, secs. 567a-567c), including personal services in the District of Columbia and elsewhere, purchase of equipment and supplies; and travel and other expenses, including rent outside the District of Columbia, that may be necessary in executing the provisions of the Act, \$1,000,000 (submitted).

Estimate 1938, \$1,000,000
