PERMANENT INDEFINITE APPROPRIATION

Advances to Agricultural Adjustment Administration—

NOTE.—Under the provisions of sec. 12 (b) of the act of May 12, 1933, as amended by the act of Aug. 24, 1935 (U. S. C., Supp. I, title 7, sec. 612), the Secretary of Agriculture and the Secretary of the Treasury were required to jointly estimate from time to time the amounts, in addition to any money available under subsection (a), currently required for the purposes of the Agricultural Adjustment Act, as amended, and the Secretary of the Treasury was directed to advance to the Secretary of Agriculture out of any money in the Treasury not otherwise appropriated the amounts so estimated. The amount of any such advance was to be deducted from tax proceeds as should subsequently become available. A decision of the Supreme Court on Jan. 6, 1936, invalidated the use of advances in anticipation of funds derived from processing taxes, and the following schedules show the expenditures from advances made under the authority of subsection 12 (b) from July 1, 1933, to Jan. 6, 1936, inclusive.

SPECIAL ACCOUNTS

Proceeds from Processing Taxes, Agricultural Adjustment Administration—

NOTE.—Sec. 12 (b) of the act of May 12, 1933, as amended by the act of Aug. 24, 1935 (U. S. C., Supp. I, title 7, sec. 612) provided that a sum equal to the proceeds derived from all taxes imposed under the Agricultural Adjustment Act, as amended, be appropriated and made available to the Secretary of Agriculture for the purpose of that act. A decision of the Supreme Court on Jan. 6, 1936, affecting the processing tax provisions of the Agricultural Adjustment Act, invalidated the use subsequent to that date of funds derived from processing taxes.

Purchase of Surplus Sugar from Processing Taxes, Agricultural Adjustment Administration—

NOTE.—Under the provisions of sec. 16 (d) of the act of May 9, 1934 (U. S. C., title 7, sec. 616), the Secretary of Agriculture was authorized to purchase not in excess of 30,000 tons of sugar raw value from the surplus stocks of direct-consumption sugar produced in the United States beet-sugar area. In pursuance of this authority, \$8,000,000 was advanced to the Secretary of Agriculture by the Secretary of the Treasury out of processing taxes, of which sum \$365,536 was obligated during the fiscal year 1935. Of the unobligated balance of \$7,634,464, expenditures aggregating \$110,952, as shown in the following schedule, were made during the period July 1, 1935, to Jan. 6, 1936.

2272 Removal of surplus agricultural products (sugar): Obligations—1936, \$110,952.

General Expenses, Agricultural Adjustment Administration—

NOTE.—The sum of \$150,000,000 was appropriated by the act of May 25, 1934 (U. S. C., title 7, secs. 612 and 612a), to carry out the provisions of the act entitled "An Act to amend the Agricultural Adjustment Act so as to include cattle and other products as basic agricultural commodities, and for other purposes", approved Apr. 7, 1934 (U. S. C., title 7, secs. 611-612a), pursuant to the authorizations contained in secs. 2 and 6 of said act of Apr. 7, 1934—\$100,000,000 for the purposes of the Agricultural Adjustment Act, as amended, and \$50,000,000 for the purposes specified in sec. 6 of the act of Apr. 7, 1934. Such sum of \$150,000,000 remained available until June 30, 1936, as provided by sec. 37 of the act entitled "An Act to amend the Agricultural Adjustment Act, and for other purposes", approved Aug. 24, 1935 (U. S. C., Supp. I, title 7, sec. 612b).

Special Deposits (12-066.2-400), Agricultural Adjustment Administration (Cotton)—

This fund operates to take care of financial transactions in connection with the acquisition and disposition of spot cotton and cotton futures contracts by the Secretary of Agriculture as provided for by part 1, title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, and the disposition of the proceeds from the sale of such cotton holdings in the following manner:

- (a) The excess of the price at which cotton is sold over 6 cents per pound (price at which the Secretary of Agriculture options cotton to producers) is paid to producers when the sale results from the exercise of an option by producers or is paid to the 1933 Cotton Producers' Pool when the sale is of cotton transferred to the pool by cotton option holders.
- (b) The 1 cent excess of the price at which the Secretary sells cotton to producers by option (6 cents) over the purchase price of cotton from the Farm Credit Administration (5 cents basis price) is used to cover the carrying charges on cotton holdings.

No acreage payments are disbursed from this fund. The following is a statement of the receipts and disbursements from this fund for the period July 25, 1933, to June 30, 1936:

This fund does not depend upon any appropriation for replenishment as the proceeds from the sale of cotton holdings will presumably take care of:

- (1) The repayment of all advances from United States Treasury.
- (2) Carrying charges and expenses of handling the cotton.
- (3) Payments to producers by virtue of their option contracts.
- (4) Administrative expenses.

Receipts and disbursements for this fund during subsequent periods will depend almost entirely upon:

- (1) Sales of cotton holdings.
- (2) Payments to producers on account of options exercised.
- (3) Advances repaid.

The monthly carrying costs on the present holdings of spot cotton are approximately \$22,500. All spot cotton stocks were liquidated as at July 31, 1936.

All loans from commercial banks were paid on or before July 31, 1935, and are consolidated under loan from the United States Treasury.

*Special Deposits, Cotton Pool, A/C 12-066.2-401—*

This fund operates to take care of advances of 4 cents per pound on participation-trust certificates on cotton held by pool.

This account is now inactive, as 4-cent advances have been practically completed.

The following is a statement of cash receipts and disbursements for the period January 12, 1934, through June 30, 1936:

## RECEIPTS

*Special Deposits, Advances to Cotton Pool, Agricultural Adjustment Administration, A/C 12-066.2-402—*

This fund operates to take care of commissions and margin requirements by brokers covering cotton futures transactions of the Cotton Producers' Pool.

The following is a statement of cash receipts and disbursements for the period September 8, 1934, through June 30, 1936:

## RECEIPTS

	<u>44,265,000.00</u>
Unexpended balance.....	914,093.82

The activity of this account is contingent upon the fluctuation in price of cotton futures. As at June 30, 1936, futures contracts held covered 118,800 bales.

*Special Deposits, Commodity Credit Corporation Loans, Cotton Pool, A/C 12-066.2-403—*

This fund operates to take care of advances of 2 cents per pound on participation-trust certificates on cotton held by the pool.

This account is now inactive except for minor adjustments, as it has been superseded by a new cash account, 12-066.2-404.

The following is a statement of cash receipts and disbursements for the period December 20, 1934, through June 30, 1936:

## RECEIPTS

	<u>12,424,800.06</u>

This account will not need further funds since all second advances to producers are now handled through account 12-066.2-404.

*Special Deposits, Transfer to Cotton Pool, Agricultural Adjustment Administration, A/C 12-066.2-404—*

This fund supersedes account 12-066.2-403 and likewise operates to take care of second advances of 2 cents per pound to participants in the cotton pool, on participation-trust certificates on cotton held by the pool.

The following is a statement of cash receipts and disbursements for the period May 14, 1935, through June 30, 1936:

## RECEIPTS

This account is expected to show diminishing activity as the bulk of requests for second advances of 2 cents per pound have been satisfied.

Analysis of party expense items of appropriations in these estimates explain field operations in the conduct of hydrographic, geodetic magnetic, tidal, current, and other surveys. In the field the records of observations are entered on suitable forms or in suitable record books. These data are forwarded to the Washington office of the Bureau where they are analyzed, collated, and made available for public use through the medium of nautical charts, printed tide tables, coast pilots, and publications containing data necessary for use in establishing local surveys based on control that is standard throughout the North American Continent. The analysis and collation of the field data are accomplished by the personnel paid from this appropriation. A distribution of costs, by projects, follows:

During the fiscal year [1937] 1938 the head of any department or independent establishment of the Government having funds available for scientific and technical investigations and requiring cooperative work by the Geological Survey on scientific and technical investigations within the scope of the functions of that bureau and which it is unable to perform within the limits of its appropriations may, with the approval of the Secretary of the Interior, transfer to the Geological Survey such sums as may be necessary to carry on such investigations. The Secretary of the Treasury shall transfer on the books of the Treasury Department any sums which may be authorized hereunder, and such amounts shall be placed to the credit of the Geological Survey for the performance of work for the department or establishment from which the transfer is made: *Provided*, That any sums transferred by any department or independent establishment of the Government to the Geological Survey for cooperative work in connection with this appropriation may be expended in the same manner as sums appropriated herein may be expended: *Provided further*, That any funds herein appropriated for the Geological Survey for cooperative work may be utilized prior to July 1, [1936] 1937, as required to enable the Geological Survey to continue its cooperative work pending reimbursement from cooperative agencies, the amount so utilized to be repaid to the appropriation from which advanced (*act June 22, 1936, 49 Stat., p. 1787*);

During the fiscal year [1937] 1938, upon the request of the Secretary of the Interior, the Secretary of War, or the Secretary of the Navy is authorized to furnish aerial photographs required for mapping projects, insofar as the furnishing of such photographs will be economical to the Federal Government and does not conflict with military or naval operations or the other parts of the regular training program of the Army, Navy, and Marine Corps flying services, and the Secretary of the Interior is authorized to reimburse the War or Navy Department for the cost of making the photographs, such cost to be confined to the actual cost of gasoline, oil, film, paper, chemicals, and the labor performed in developing the photographic negatives and the printing of copies of photographs, and the per-diem expenses of the personnel authorized by law, together with such incidental expenses as care and minor repairs to plane and transportation of personnel to and from projects, and the War Department or the Navy Department, on request of the Department of the Interior, is authorized to furnish copies to any State, county, or municipal agency cooperating with the Federal Government in the mapping project for which the photographs were taken. In the event that the Director of the Geological Survey deems it advantageous to the Government, the Geological Survey is authorized to contract with civilian aerial photographic concerns for the furnishing of such photographs (*act June 22, 1936, 49 Stat., p. 1787*);

Appropriations herein made shall be available for payment of the costs of packing, crating, and transportation (including drayage) of personal effects of employees upon permanent change of station, under regulations to be prescribed by the Secretary of the Interior (*act June 22, 1936, 49 Stat., pp. 1787-1788*);

PUERTO RICO RECONSTRUCTION ADMINISTRATION

Emergency Relief, Puerto Rico Special Fund—

NOTE.—The Puerto Rico Reconstruction Administration was established by Executive Order No. 7057, dated May 23, 1935, for the purpose of initiating, formulating, administering, and supervising a program of approved projects for providing relief and work relief and for increasing employment within Puerto Rico. To accomplish this purpose the Puerto Rico Reconstruction Administration has adopted plans for rural rehabilitation, rural electrification, forestation and reforestation, slum clearance and construction of low cost housing, construction of a series of buildings for the University of Puerto Rico, and economic, social, and agricultural surveys. Funds for carrying out these projects have been allocated by the President out of funds appropriated by the Emergency Relief Appropriation Act of 1935, which funds were made available for expenditure until June 30, 1940, under the provisions of the act of Feb. 11, 1936, Public, No. 442, 74th Cong. The sum of \$6,000,000 has been made available to the Puerto Rico Reconstruction Administration out of the funds appropriated by the Emergency Relief Appropriation Act of 1936 for the purpose of continuing to provide relief, and work relief on useful projects, in Puerto Rico.
