INTRODUCTION

This document is a War Supplement to the regular 1944 Budget which was submitted by the President to the Congress on January 6, 1943. Last January it was impossible to submit detailed appropriations for most of the war agencies because of rapid developments on far-flung battlefronts. Hence the President postponed until March, April, May, and June of this year, the submission of the detailed estimates and recommended appropriations which are now brought together in this War Supplement.

The following table compares the preliminary estimates in the Budget submitted last January with the recommendations of the President in recent months, including recommended reappropriations.

Comparison of preliminary estimates for 1944 with the President's recommendations to Congress

¹ Includes \$10,190,074,400 for liquidation of prior contract authorizations.

² Excludes \$1,410,000,000 in appropriated receipts, and \$18,000,000 in new contract authorizations.

³ Included in 1944 supplemental estimate for War Food Administration.

The table entitled "Supplement to Table 7 of the 1944 Budget," immediately following this text, summarizes the actual and estimated appropriations and expenditures of general and special accounts, which constitute the main body of this War Supplement. The "Supplement to Table 8 of the 1944 Budget" does likewise for the estimates of trust accounts. Both of these tables are presented in the same form as tables 7 and 8 in the January Budget, except that the columns for estimated expenditures for 1943 and 1944 have been left blank. These columns in the January Budget presented estimated expenditures on the basis of recommended appropriations. Those recommendations for war appropriations which were omitted from the January Budget were submitted subsequently to the Congress during March, April, May, and June without estimates of expenditures.

This War Supplement is restricted to elaboration of the preliminary estimates of appropriations contained in the January Budget. A Budget Summation, dated July 27, 1943, presents complete information on appropriations and expenditures for all purposes.

In making separations from the Federal service, or furloughs without pay to last as long as three months, of persons employed within the District of Columbia, under the provisions of paragraph [3] 2, the appointing power shall give preference, as nearly as good administration will warrant, in retention to appointees from States that have not received their share of appointments according to population: *Provided, however, That soldiers and sailors, and marines, the widows of such, or the wives of injured soldiers, sailors, and marines, who themselves are not qualified, but whose wives are qualified to hold a position in the Government service, shall be given preference in retention, in their several grades and classes, where their ratings are good or better.*

PAR. [18] 16. The provisions of the Act of February 15, 1934 (48 Stat. 351), as amended, relating to disability or death compensation and benefits, shall apply to persons receiving compensation from the appropriation in paragraph 1 for services rendered as employees of the United States: *Provided, That this section shall not apply in any case coming within the purview of the workmen's compensation law of any State, Territory, or possession, or in which the claimant has received or is entitled to receive similar benefits for injury or death: Provided further, That for carrying out the purposes of this paragraph there shall be made available to the United States Employees' Compensation Commission from the appropriation in such paragraph 1 the sum of \$115,000 \$86,000, or so much thereof as such Commission, with the approval of the Bureau of the Budget, estimates and certifies to the Secretary of the Treasury will be necessary for such purposes.*

PAR. [19] 17. The funds appropriated by paragraph 1 hereof shall be available for emergency hospitalization and medical care, by reimbursement to Government hospitals or by contract with other public or private hospitals, in cases of critical illness or injury, of [youths, employed under paragraph 1 hereof] compensated or uncompensated trainees, who are full-time residents of projects involving the maintenance of [youths] trainees in camps or other resident [work centers] facilities under the supervision of the National Youth Administration.

PAR. 18. *If the death of any trainee, employed and compensated from funds provided under paragraph 1 hereof, occurs while such trainee is in transit to or in residence at such camp or other resident facility mentioned in paragraph 17 hereof, or while undergoing hospital treatment except for injuries sustained under conditions which are covered by the benefits of the United States Employees' Compensation Act as provided for in paragraph 16 hereof, the funds appropriated under paragraph 1 hereof shall be available for the payment of necessary expenses of preparation of the body for burial, interment or cremation (not to exceed a total of \$150 in any one case), and for transportation of the remains, including round-trip transportation and subsistence of an escort, to the home of the decedent, or to such other place as relatives of the decedent may designate if the distance to such other place be not greater than the distance to the home of the decedent: Provided, That when the expenses of the preparation and disposition of the remains, or any part of such expenses, are paid by individuals, such individuals may be reimbursed therefor.*

PAR. [20] 19. The National Youth Administrator, subject to the approval of the [Federal Security Administrator] Chairman of the War Manpower Commission, is authorized to consider,

ascertain, adjust, determine, and pay from the appropriation in paragraph 1 any claim arising out of operations thereunder accruing after June 30, [1942] 1943, on account of damage to, or loss of, privately-owned property caused by the negligence of any employee of the National Youth Administration, while acting within the scope of his employment. No claim shall be considered hereunder which is in excess of \$500 or which is not presented in writing within one year from the date of accrual thereof. Acceptance by a claimant of the amount allowed on account of his claim shall be deemed to be in full settlement thereof, and the action upon such claim so accepted by the claimant shall be conclusive.

PAR. [21] 20. Any person who knowingly and with intent to defraud the United States makes any false statement in connection with any application for any project authorized in paragraph 1, or diverts, or attempts to divert, or assists in diverting, for the benefit of any person or persons not entitled thereto, any portion of the [appropriation] appropriations in [paragraph] paragraphs 1, 2, or 3, or any services or real or personal property acquired thereunder, or who knowingly, by means of any fraud, force, threat, intimidation, or boycott, or discrimination on account of race, religion, political affiliations, or membership in a labor organization, deprives, or attempts to deprive, or assists in depriving any person of any of the benefits to which he may be entitled under such appropriation, shall be deemed guilty of a felony and fined not more than \$2,000 or imprisoned not more than two years, or both. The provisions of this paragraph shall be in addition to, and not in substitution for, any other provisions of existing law.

PAR. 22. All training or educational programs other than work and training on the project location incidental to the supervision of a work program being conducted thereon for youth employed by the National Youth Administration on work projects shall be under the control and supervision of the State boards for vocational education of the several States and shall be paid for out of appropriations made to the Office of Education and expended by the States pursuant to

plans submitted by State boards for vocational education and approved by the Commissioner of Education.]

PAR. [23] 21. Section 3709 of the Revised Statutes shall not be construed to apply to any purchase with funds appropriated [under this title] for the National Youth Administration when the aggregate amount involved in such purchase does not exceed the sum of \$300.

PAR. [24] 22. Whenever the Chairman of the War Manpower Commission shall determine that the facilities of any shop project of the National Youth Administration can contribute more effectively to the prosecution of the war if operated by another department or agency of the Government, or by another public agency, he may direct the transfer of such facilities to such department or agency.

PAR. [25] 23. Property and facilities which are declared surplus to the needs of the program as provided in paragraph 1 may be transferred, upon such terms as may be approved by the [Federal Security Administrator] Chairman of the War Manpower Commission, but without cost to the United States for transportation or otherwise, to school districts, municipalities, counties, States, or other non-Federal public agencies, without regard to other Federal law or regulation: *Provided*, That such property and facilities shall first be tendered to other agencies of the United States for use in the war effort.

PAR. 26. The paragraphs herein under the National Youth Administration may be cited as the "National Youth Administration Appropriation Act, 1943" (56 Stat. 572-575).

On the relocation centers, cars are particularly necessary for the hospital and internal security staffs. Since none of our centers are located on common carrier lines carrying passengers, it is necessary to have automobiles for such transportation. Further, the cars are necessary to get to nearby market centers. Our centers are very large—ranging in size from 6,000 acres to 70,000 acres—and it is necessary to have cars for transportation over the areas to efficiently carry out the program.
