

THE WEEK'S HIGHLIGHTS:

- Privately owned housing starts surged 4.5 percent in August to an annual rate of 1.525 million units, the highest since March 1994. This increase stemmed from an 8.3 percent rise in single family starts.
- ✓ The July U.S. goods and services trade deficit measured \$11.7 billion, \$3.5 billion more than in June. Exports fell 3.6 percent in July, the sharpest decline since April 1994, while imports rose 1.2 percent.
- Total industrial production advanced at a 6 percent annual rate in August, following a 0.8 percent rate of gain in July. Manufacturing output rose for the fifth consecutive month in August and is up 4 percent from a year earlier.
- ✓ The consumer price index (CPI) increased at a 1.5 percent annual rate in August. Excluding food and energy prices, the CPI rose at a 0.7 percent rate, the smallest rise since December 1982. Consumer prices have risen 2.9 percent over the past year.
- ✓ Total retail sales rose at a 2 percent annual rate in August, as the value of sales at automotive dealers increased for the first time in three months. The nominal value of retail sales is up 4.3 percent over the past year.

All data are seasonally adjusted unless otherwise indicated.

Information in this publication is also included in the Federal Reserve Economic Data (FRED) electronic bulletin board at (314) 621-1824 or internet World Wide Web server at http://www.stls.frb.org/fred.

U.S. Financial Data is published weekly by the Research Division of the Federal Reserve Bank of St. Louis. The cost for a subscription is \$21 for one year (50 issues) or \$36 for two years (100 issues). For more information on data, please call (314) 444-8590. To request an order form, please call (314) 444-8808 or (314) 444-8809. Sorry, no refunds.

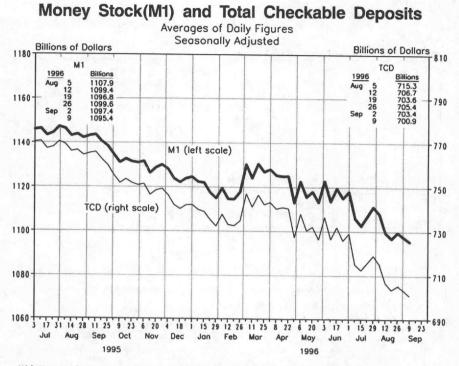

The adjusted monetary base is the sum of reserve accounts of financial institutions at Federal Reserve banks, currency in circulation (currency held by the public and in the vaults of all depository institutions) and an adjustment for reserve requirement ratio changes. The major source of the adjusted monetary base is Federal Reserve credit. Data are computed by this bank. A detailed description of the adjusted monetary base is available from this bank.

Recent data are preliminary.
