## AUG 081997 THE WEEK'S HIGHLIGHTS:

- According to the advance estimate, real GDP rose at an annual rate of 2.2 percent in the second quarter, a marked slowing from the 4.9 percent growth posted in the first quarter. Of the major components, real exports and fixed investment spending registered the largest increases-14.4 percent and 12.4 percent, respectively. The GDP chain-type price index rose 1.4 percent in the second quarter, the smallest rise in 33 years.
- The employment cost index for total compensation of private industry workers (ECI) increased at a 3.4 percent annual rate in the second quarter, appreciably faster than the 2.5 percent first-quarter gain. Wages and salaries increased 3.8 percent in the second quarter, the largest uptick in five quarters, while benefit costs, following no change in the first quarter, rose 2.9 percent. The ECI is up 2.9 percent from four quarters earlier.
- Sales of new single-family homes rebounded in June, rising 6.1 percent to an annual selling rate of 819,000 units. Nevertheless, new home sales averaged 785,000 units in the second quarter, down 4.8 percent from their first-quarter average but up 6.8 percent from four quarters earlier.
- Advance new orders for manufactured durable goods totaled $\$ 180.6$ billion in June, up $\$ 4.1$ billion from May, or 2.3 percent, and the fourth increase this year. For the second quarter, durable goods orders rose 1 percent from their first-quarter level and were up 5.6 percent from four quarters earlier.

## Adjusted Monetary Base

The adjusted monetary base is the sum of Federal Reserve deposits and vault cash held by domestic depository institutions, currency held by the public, and an odjustment for the effect of changes in reserve requirement ratios. The monetary base series was recently revised to include Federal Reserve deposits used to satisfy clearing balance contracts. Data ore computed by this bank. A defailed description of the adjusted monelary bose is available from this bank. Recent data are preliminary.
