## Focieral Reserve Bank

## THE WEEKISYifIGHLIGHTS:

- Paced by a 0.9 percent rise in new orders for nondurable goods, total factory orders rose 0.2 percent in July, off markedly from June's robust 1.7 percent gain. On a year-to-date basis, total factory orders have risen at a 4.2 percent annual rate.
- Measured in inflation-adjusted terms, the value of construction put in place totaled $\$ 505.2$ billion in July, up 0.4 percent from June's level and the largest increase in five months. Measured from a year earlier, real construction spending is up 2.9 percent.
- After rising 0.1 percent in June, the index of leading indicators rose 0.3 percent in July according to the Conference Board. The leading indicator index has declined only twice in the past 21 months.
- Spurred by a 2.1 percent surge in spending on durable goods, real personal consumption expenditures rose at a 7.6 percent annual rate in July. This increase was the largest in six months.
- Sales of new single-family homes were at an annual rate of 817,000 units in July, 0.9 percent above June's sales pace and 6.1 percent more than May's. Sales totaled 782,000 units in July 1996.

The Federal Reserve Board announced that commercial paper statistics (outstandings and interest rates) will now be derived from data transmitted electronically from The Depository Trust Company. For more details, see the Board's web site at http://www.bog.frb.fed.us/releases/CP/.

## Adjusted Monetary Base

The adjusted monefory base is the sum of Federal Reserve deposits and voult cash held by domestic depository institutions, currency held by the public, and an adjustment for the effect of changes in reserve requirement ratios. The monelary bose series wos recently revised to include Federal Reserve deposits used to sotisfy clearing balance contracts. Dota are computed by this bank. A detailed description of the odjusted monetary base is available from this bank. Recent data are preliminary.
