Seventy-five per cent of California's WPA project cost for construction and repair work.

Approximately 75 per cent of the money for Works Progress Administration projects in California will be spent for highways, roads and streets, public buildings, parks and playgrounds, housing, water supply and sewer systems, flood control and other conservation, electric utilities and transportation, according to an announcement made today by Harry L. Hopkins WPA Administrator.

A listing by types and cost of projects shows that of the total of $76,446,881 to be spent as of December 31, 1935, the following classifications will account for the bulk of the money:

Highways, farm-to-market roads and streets, $15,312,530, or 20 per cent; public buildings, both educational and governmental, $9,077,775, or 11.9 per cent; parks and playgrounds, $7,046,316, or 9.2 per cent; housing, $176,774, or 0.3 per cent; water supply and sewer systems, $13,848,780, or 18.1 per cent; flood control and other conservation, $6,801,411, or 8.9 per cent; electric utilities, $84,057, or 0.1 per cent; and, transportation, $4,911,184, or 6.3 per cent.

The remaining 25.2 per cent will be used to provide work for women, white collar and other professional and technical unemployed workers.
