

DEBITS TO INDIVIDUAL ACCOUNTS BY BANKS IN THE 141 CITIES FOR WHICH FIGURES ARE AVAILABLE FROM 1919.

YEAR 1919

Substantial increases were made in the number of reporting banks in the following cities beginning with the weeks indicated: Boston, January 5, 1921; St. Louis, February 2, 1921; Louisville, January 19, 1921; and St. Paul, January 18, 1922. Separate figures were obtained for a year thereafter for previously reporting banks and the percentage of increase in debits for each of these cities during that year due to the change in the number of reporting banks was ascertained, and figures for all prior weeks increased correspondingly.
