

BANK DEBITS TO DEPOSIT ACCOUNTS EXCEPT INTERBANK ACCOUNTS - 1942

Summary Figures, by Districts, by Months  
Individual Centers, by Months

These figures include debits or charges to deposit accounts of individuals, partnerships, corporations, the United States Government, and State and local governments. They include debits to time or savings accounts, payments from trust funds on deposit in the banking department, and the payment of certificates of deposit. The figures exclude payments of certified and officers' checks, payments in settlement of clearing house balances, charges to expense and miscellaneous accounts, corrections and similar charges, and debits to the accounts of other banks, that is, to interbank accounts.

For the first four months of 1942, the figures were derived from reports submitted to the Federal Reserve Banks covering each week ending on Wednesday; the figures for a week that began in one month and ended in another were prorated to the respective months on the basis of the number of business days of the week that were in each month. Beginning with May, 1942, the reporting banks have submitted monthly figures.

In the district schedules showing individual centers, the centers marked thus (\*) are included in the national series covering 141 centers available beginning with 1919. These 141 centers and the centers marked thus (\*\*) are included in the national series available on a roughly comparable basis beginning with 1923. From 1923 to 1935 the number of centers in that series ranged from 249 to 272; beginning with 1936 it has covered 274 centers. The centers marked thus (#) were added to the list of reporting centers in May, 1942, when the weekly reports were replaced by monthly reports. Back figures beginning with January, 1942, were obtained at that time for some of the new reporting centers and are shown where available.
