

BANK DEBITS TO DEPOSIT ACCOUNTS EXCEPT INTERBANK ACCOUNTS -- 1952

Summary figures, by districts, by months
Individual centers by months

Definition.

These figures include debits or charges to deposit accounts of individuals, partnerships, corporations, the United States Government, and State and local governments. They include debits to time or savings accounts, payments from trust funds on deposit in the banking department, and payments of certificates of deposit. The figures exclude payments of certified and officers' checks, payments in settlement of clearing house balances, charges to expense and miscellaneous accounts, corrections and similar charges, and debits to the accounts of other banks, that is, to interbank accounts.

Revised series.

Beginning with March 1953, the bank debits series will be revised; the major revision will be to eliminate debits to United States Government accounts and to time deposit accounts. Estimates are being made of each reporting center on the new basis for 1952 and for January and February 1953; these year-ago figures will be shown in current monthly releases, and will be comparable with current figures.

Footnotes to accompanying tables.

Where only one year is shown after the name of a center, it indicates the first year for which figures for that center are available, and that figures for subsequent years are substantially comparable. Where two years are shown the second indicates the latest change in coverage, etc., which affected comparability with prior figures by approximately three per cent or more.

* Included in the national series covering 141 centers, available beginning with 1919.

1/Revised beginning January 1952 to include additional banks. The addition of these banks would have increased 1951 figures in Danville, Virginia, about 13 per cent, and Jacksonville, Florida, about 4 per cent.
