

# DISTRIBUTION OF BANK DEPOSITS BY COUNTIES

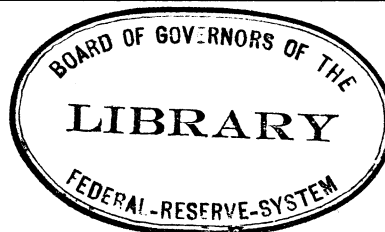

December 31, 1943, December 31, 1944, and Increase or Decrease

Includes Deposits of Individuals, Partnerships, and Corporations;  
Excludes Interbank and Governmental Deposits.

Compiled with the cooperation of the Comptroller of the Currency, the Federal Reserve Banks, the Federal Deposit Insurance Corporation, and the State Bank supervisory authorities.

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY.  
MARCH 1945

## Foreword

This report on the geographical distribution of bank deposits of individuals, partnerships, and corporations in the United States, by counties, States, and Federal Reserve Districts, has been compiled from data supplied by the Comptroller of the Currency for all national banks and banks in the District of Columbia, by the Board of Governors of the Federal Reserve System and the Federal Reserve Banks for all State member banks, and by the Federal Deposit Insurance Corporation for all nonmember insured banks. The data on the deposits of uninsured banks were obtained from the appropriate State supervisory authorities by the Federal Deposit Insurance Corporation. The Treasury Department wishes to take this opportunity to thank the bank supervisory authorities, State and Federal, for their cooperation in supplying the basic data for this report and for the helpful suggestions of various members of their staffs during its compilation.

The main body of the report shows by counties, States, and Federal Reserve Districts, the demand, time and total deposits of individuals, partnerships, and corporations in all banks in the continental United States -- commercial, mutual savings, and other types combined -- for December 31, 1942, and December 31, 1943, and the increase for the year 1943 in each category of deposits.

In addition to the figures on demand and time deposits held by all types of banks, a supplementary tabulation by counties, States and Federal Reserve Districts of the time deposits of mutual savings banks on December 31, 1943, has been included in this year's study. Corresponding data on mutual savings bank deposits for December 31, 1942, are not available.

In order to make the geographic distribution, as accurate as possible, the data for deposits of branches located outside of the county of the head office of each bank have been included in those of the county in which the branch is located, rather than in those of the head office. New York City has been treated, for this purpose, as a single county. Cities not a part of any county, and cities and counties forming a single political entity, have been treated as a separate county for the purpose of this compilation. These independent cities have been indicated by (city) after the name.

Because of this method of distribution, the totals for various counties and Federal Reserve Districts will not agree exactly with other published figures classifying deposits by counties and Federal Reserve Districts. For example, a bank in the Sixth Federal Reserve District has a branch in Benton County, Tennessee, which is located in the Eighth Federal Reserve District; therefore, the deposits are included in the Benton County deposits of the Eighth Federal Reserve District. Similar situations occur in Cochise, Graham, Greenlee, and Pima counties, Arizona, causing the transfer of branch deposits from the Twelfth to the Eleventh Federal Reserve District. Figures in this report have been rounded to thousands of dollars and will not necessarily add to the totals.

The reports of a few institutions are based on other reporting dates than December 31. In the class of nonmember uninsured banks, a number of institutions have been excluded because of failure to submit data in time for this report.

HG 1660 .A5 1944
